Sees 30,000 Unfit Drivers

Official Claims State Violation Files Incomplete

Pontiac Police Report Arresting 31 Illegal Motorists Here

Secretary of State James M. Hare said today there are probably 30,000 Michigan motorists who should not be driving.

Hare made the estimate in Lansing while commenting on the report of Sen. William S. Broomfield (R-Royal Oak) that 15 motorists in one Oakland County community have racked up 145 violations.

"This would indicate that these 15 motorists are, in all probability, dangerous drivers on the highway, and should be called in for re-examination and possible suspension or revocation of their operators' licenses," Hare said.

Meanwhile, the Pontiac Police Dept. Violation Bureau revealed yesterday that out of the 255 persons whose operators licenses have been suspended or revoked since the first of the year, 31 have been apprehended while driving illegally.

FOLLOWS SURVEY

The bureau's report followed a survey by the Automobile Club of Michigan which indicated that half of the Michigan drivers whose licenses have been "lifted" by the state continue to operate vehicles illegally.

Police Chief Herbert W. Straley said he believed the survey to be correct and that the solution lies in imposing more severe sentences on such violators.

Oakland County Sheriff Frank W. Irons said:

"I believe the judges are doing a fine job in handing out the stiffest possible sentence, and this should continue."

Present law calls for a sentence ranging from 2 to 90 days in jail and-or a $100 fine the first time a driver is caught with a suspended license.

The same offense a second time becomes a high misdemeanor and calls for examination in Municipal Court and trial in Circuit Court. A one-year sentence can be imposed upon conviction.

A driver's license may be taken for two years after two or three convictions for drunk driving, according to Homer G. Gerue, assistant Oakland County prosecutor. A license can be disapproved for a motorist for reasons of habitual negligence or if he is a habitual drunk, Gerue said.

Sheriff Irons said he believes persons with suspended licenses continue to drive because they feel they will not commit a violation and so would not have to produce a license for an officer's inspection.

FILES NOT COMPLETE

In Lansing, the secretary of state said the state's central files contain less than one-third of the probable 1,700,000 tickets issued in the course of a year.

Broomfield yesterday charged Hare's office with partial responsibility for the state central filing system's failure.

A serious shortage of personnel and filing space are responsible, Hare said.

"It is conceivable that, if we had a dependable records system, we would find that we have as many as 30,000 motorists on the road who either should have never received their original license or who should be brought in for re-examination," Hare declared.

Earlier, Hare presented Governor Williams with a 12-point highway safety program. The governor is now reviewing the plan, with an eye toward submitting it to the Legislature at a special session.

Japanese Diplomat in U. S. for Talks

ARRIVES WITH DAUGHTER — Foreign Minister Mamoru Shigemitsu of Japan addresses crowd at National Airport in Washington last night as he arrived for talks with Secretary of State John Foster Dulles and defense officials. Shown with him is his pretty daughter, Kanako.

Shigemitsu said today the time has come when his country "must go forward constructively" toward complete independence.

He brought a general outline of Japan's long-range defense plans which he will discuss with American officials. His talks with Dulles begin officially on Monday.

Commissioners Show Mixed Reactions to Shopping Site Annexation Opposition

Pontiac's seven city commissioners had mixed reactions today to indications of mounting pressure from downtown merchants and businessmen against the proposed annexation of a 145-acre shopping center site in Bloomfield Township.

A group of downtown businessmen and property owners, who yesterday began circulating petitions calling for a delay in annexing property at Telegraph and Square Lake Rds., are expected to present arguments against the proposal at Tuesday night's Commission meeting.

Said Commissioner Floyd P. Miles (District 4), himself a downtown merchant:

"I am interested in every forward move and in doing the best for Pontiac as a whole. If any group has evidence that the proposed annexation is not for the best interest of the greatest number of people, I will be interested in such information.

"Shopping centers in other cities are apparently meeting with great success and they must be serving the community. There are two factors to consider: influx of population and the fact that folks have more money to spend today.

"I just don't think this is just going to blow up downtown Pontiac."

Commissioner Harry W. Lutz (District 7), a building contractor and block manufacturer, said:

"I hope the merchants will present facts that will help us decide what to do. At the present time, it looks to me like a promotion and until proved different I would be against it."

John E. Carry, commissioner from District 6, and a salesman, said:

"To date there hasn't been any concrete objections to the proposal to annex and I hope this will bring forth some with some solid foundations."

Said Mayor William W. Donaldson (District 3), an insurance agent with an office downtown:

"I resent the feeling that anyone feels they can stampede the Commission into doing something. I still have an open mind and am willing to be convinced but not pressured.

"I think there is a feeling among the commissioners that they will do what they feel is best for the whole community."

Dr. Roy V. Cooley, District 1 commissioner, and a physician, said:

"I think annexation is the best means to control the problems this project would necessarily create, such as police, traffic, public safety and health (raised by sewage disposal).

"So far, no other plans contrary to annexation have been presented."

Commissioner John A. Dugan (District 5) a Pontiac Motor Division plant employe:

"I hope they are going to be able to convince me that the city will not lose revenue from this shopping center or some other one built in another nearby area.

"We can annex this land. Some time in the future a shopping center might be built off Telegraph road in Waterford Township, for instance. We might want to annex that one and the township wouldn't want to let it go.

"In other words, when we have the opportunity we should take it."

Philip E. Rowston, commissioner from District 3 and an attorney, said:

"I have not made a final decision. I am interested in having specific facts presented to us which would show it would have a deteriorating effect on downtown.

"I requested a survey from the Chamber of Commerce of downtown business before and after the Tel-Huron Shopping Center was built, which so far has not been presented.

"I am interested in what the majority of the citizens want and I will be guided by that when the final conclusion will be made. The question is what is best for the entire city, including residents as well as merchants."

Pontiac Reservists Move to Ft. Knox Firing Ranges

By AL LOWMAN
Pontiac Press Staff Writer

FT. KNOX, Ky.—Field training for officers and men of Pontiac's 703rd Reserve Tank Battalion got under way in earnest today when elements of the unit moved equipment to firing ranges preparatory to blasting targets with their 90mm guns.

Under command of Lt. Col. Lloyd A. Gabler of Royal Oak, the 703rd moved its 45-ton M48 tanks into the field early Thursday.

Firing at both stationary and moving targets began at 6 a.m. today and will last throughout the daylight hours of the week. Each man in the unit takes his turn triggering the heavy guns under the guidance of trained Army personnel.

Officers, sergeants and the 19 civilian observers from Pontiac, Detroit and Grand Rapids were high in their praise after viewing

New Loan Fund Made Available for East States

900 Million Earmarked for Reconstruction of Defense Industries

WASHINGTON (AP) — Six Northeastern states, struggling to rebuild flood wrecked towns and factories, have been given another hefty lift from a sympathetic Federal Government.

President Eisenhower yesterday made available up to 900 million dollars for loans to reconstruct, repair or replace defense industries.

A preliminary estimate by the Army Engineers set damage at $1,600,000,000 in Massachusetts, Rhode Island, Connecticut, New York, New Jersey and Pennsylvania.

The President's latest flood relief move was made at his Denver summer headquarters after a flying visit to the flood area and conferences with state governors and federal officials.

Before leaving Washington Wednesday, the President had marshaled the resources of a host of government agencies to help in reconstruction of public facilities and to aid the homeless, the farmers, small businessmen and others.

ORDERS LOAN

On top of this emergency relief program — which may cost more than 100 million dollars — he ordered the loan program to spur restoration of the defense industries.

The plan also calls for granting of accelerated tax write-off privileges to cover new capital investment. The loans — to come out of an Office of Defense Mobilization fund—are to be available to defense and defense - supporting firms which cannot obtain commercial loans on reasonable terms.

Army Engineer units were busy helping dispose of flood debris and repair damaged roads, bridges and like facilities. Sturgis said one of the most pressing tasks facing federal disaster workers is the removal of dangers to health and safety.

GONE FISHING

In Denver, President Eisenhower takes another crack at trout fishing today—and plans to turn chef on the bank of the stream if his luck is good.

Warmer Weather Seen for Weekend

The weekend weather outlook is for mostly fair skies and somewhat warmer temperatures, although widely-scattered showers may dampen some areas Sunday.

The U. S. Weather Bureau foresees temperatures ranging from 5-10 degrees above normal for the next five days, with cooler weather returning in mid-week.

Today's high in Pontiac was expected to hit between 85-89 degrees, but cloudy skies held mid-afternoon temperatures to around 76. The mercury will drop to the mid-60's tonight and rise to the low 90s Saturday.

Yesterday's peak temperature was 84. The thermometer registered 70 in downtown Pontiac at 8 a.m., rising to 76 by 2 p.m.

Couple Together Again

REUNITED — Airman Daniel C. Schmidt, 23, and his wife, Una, 20, are shown embracing after their reconciliation in Portland, Ore.

Una Chooses Her Airman; They're on 'Honeymoon'

DEVILS LAKE, Ore. (AP)—Airman Daniel Schmidt and his wife, Una, were enjoying what they called their "first honeymoon" at a coastal resort cottage here today.

Schmidt, 23, and Una, 20, were reunited in Portland late Wednesday, nearly a week after he had filed suit for divorce in Red Bluff, Calif. He came home recently after 2½ years in a Communist Chinese prison camp and was told she had remarried.

He agreed to a reconciliation in a telephone call from his wife in San Jose, Calif.

He sent her plane fare and she arrived at the home of his mother Mrs. Ray Peters in Portland, about 90 miles northeast of here. After spending Wednesday night there they drove here, not disclosing their destination.

The Associated Press located them last night in a cottage off beautiful Devils Lake and Schmidt said, "We are very, very happy.

"We have no definite plans. We're just going to enjoy ourselves for awhile."

Schmidt said he was overjoyed to see his son Daniel Jr., 3, for the first time. The child was born while he was overseas. Una brought him from California to Portland, where he remained today with Schmidt's mother.

Una's mother Mrs. Walter Ferguson, who accompanied Schmidt from California for his reunion with his mother Tuesday, left last night by bus for her home in Red Bluff. She said she left her car, in which they made the trip, so that Danny, Una and the child could visit her.

* * *

Mrs. Ferguson denied she ever had urged Schmidt to divorce her daughter.

"I prayed to God the whole 32 months Danny was gone that they would be united again," she said.

Schmidt and Una had been married only a few weeks before he was sent overseas as a B29 crewman in the Korean War and was shot down and captured.

Both said their reunion was the first honeymoon they ever had.

Eccentric Edith Worries Nation

Latest Storm Debating Path Taken by Connie and Diane

MIAMI, Fla. (AP) — Hurricane Edith, still carrying 80-mile winds, displayed eccentric behavior far out over the Atlantic today.

The storm, fifth of the year and third this month, has clung to the development stage for two days, a longer period than usual. All her hurricane force winds are on the northeast side, with only gales to the southwest.

This slow development, said forecasters, apparently is coming about because Edith's heart is cold. An Air Force hurricane hunter plane dropped several instruments into the eye which radio the temperature, pressure and humidity.

"The eye is not quite as warm as could be expected, and this seems to be an inhibiting factor in the storm's development," said Gordon Dunn, chief forecaster in the Weather Bureau's storm warning service here.

75 MILE FORCE

Hurricane force winds—75 miles an hour or more—extend outward about 70 miles from the center toward the northeast. Gale force winds reach 150 miles to the north and east and 75 miles to the south and west.

Its position at 11 a.m. placed it almost due east of Miami and just under 1,000 miles at sea.

Caution was advised for shipping. A slow increase in intensity was predicted.

And in New Orleans, the Weather Bureau today warned of a low pressure area in the middle Gulf of Mexico carrying squalls and winds of 20 to 30 miles per hour toward the Louisiana coast.

Won't Promise to Recommend Lower Taxes

Deficit of $1.7 Billion Still Seen for Present Fiscal Year

WASHINGTON (AP)—Secretary of the Treasury Humphrey, using words he has cherished ever since he took office 2½ years ago, now says the government "should and can" balance the budget this fiscal year.

But he added at a news conference yesterday that it is "entirely too early" to pledge himself to recommending tax cuts when Congress returns in January.

The official summer budget revision by the Treasury Department stopped $1,700,000,000 short of Humphrey's optimism about the budget outlook. The Treasury still predicted a deficit of that amount by the end of fiscal year 1956, next June 30.

That was 700 million dollars lower than the figure President Eisenhower forecast in his budget message to Congress last January. The cut was based on the following revised estimates:

1. Spending will total $63,800,000,000 this fiscal year—$1,400,000,000 more than the January estimate, but 700 millions less than spending of 64½ billions in fiscal 1955, ended June 30.

2. But the government's income will be swelled enough by the rapid economic expansion now in progress to more than overbalance the rise in the spending estimate. Receipts for the current fiscal year are now estimated at $62,100,000,000—$2,100,000,000 above the estimate made last January, and $1,800,000,000 higher than the fiscal tax yield of $60,300,000,000.

3. The budget deficit is now estimated at $1,700,000,000 for the fiscal year, instead of the $2,400,000,000 forecast in January. The deficit for fiscal 1955 was $4,200,000,000.

The new deficit would be the lowest in five years, and would be

French Premier to Compromise

Moroccan Appeasement Move May Result in Sultan's Removal

AIX LES BAINS, France (AP) — Premier Edgar Faure seemed to be moving today toward a Moroccan compromise junking the present Sultan to satisfy the native nationalists and Resident General Gilbert Grandval to appease die-hard ranch colonists.

The idea was to clean the slate in preparation for giving home rule to the violence-ridden North African protectorate.

"We are making progress," Faure told reporters last night after meeting with leaders of the strongest nationalist faction, the Istiqlal Independence party.

"Everything has not been settled yet, but I now see my way clear," the Premier added.

Faure arranged to meet today with representatives of the French colonials, a delegation from Morocco's Jewish community, and a group of Moslem religious leaders.

The Premier's plan was understood to run something like this:

Unpopular old Sultan Mohammed Ben Moulay Arafa would retire from the throne he has occupied uncertainly over the past two years since the French kicked out his predecessor Mohammed Ben Yousef.

Grandval, sent to Morocco six weeks ago to seek peace, would follow the sultan out of office. The French colonials charge his "soft" ideas of a compromise with the nationalists caused the North African massacres last weekend in which an estimated 2,000 persons were killed.

Metropolitan Area Growing Faster Than in 40s

Busy Oakland County Adds 47,000 Homes in 5 Years

Almost 47,000 family dwelling units have been added in Oakland county during the past five years, or a gain of better than 42 per cent over the 109,239 family units available in the spring of 1950.

This rapid growth of Oakland County suburban and incorporated areas is revealed in a current report of occupied dwelling units in the Detroit metropolitan area by the Detroit Metropolitan Area Regional Planning Commission.

1 of this year, has been about 174,000, according to W. P. Edmonson, assistant director of the commission.

Oakland County's current number of dwellings is estimated at around 156,000. Estimates for the entire area are compiled from utility customers, private surveys and compilation of building permits made by the planning commission.

The increase alone in homes (174,000) for the tri-county area supplies living quarters for a population

Of the 50 units of government in the region with high numerical gains, 20 were townships. Warren Township (in Macomb), Royal Oak, Waterford and Southfield Townships (in Oakland) and Dearborn, Ecorse and Taylor (in Wayne) all had increases of 2,500 or more dwelling units.

(Dwelling unit is a single-family house, or an apartment, or a group of rooms designed to accommodate one family.)

Cyprus Expects Violence Sunday

Turks Predict Massacre by Greek Partisans on Eve of Conference

LONDON (AP)— Turkey has warned Britain that disturbances may break out on tension-packed Cyprus next Sunday in which the island's Turkish minority might be massacred, the Foreign Office disclosed today.

* * *

British authorities here said they doubt disorders can take such a drastic turn on the troubled Eastern Mediterranean island. But, they added, precautions have been taken against disorders likely on the eve of the three-power conference to debate the future of Cyprus.

The 400,000 Cypriots of Greek descent have been agitating violently for union with Greece. They have strong support in the homeland. The 100,000 islanders of Turkish origin oppose Greek union and prefer that Cyprus remain a British crown colony. They are backed by the Turkish government.

* * *

The foreign ministers of Britain, Greece and Turkey are to begin a conference here Monday to seek a settlement.

A Foreign Office spokesman told a news conference that a Turkish note two days ago reminded Britain of the dangers to which the Turkish minority in Cyprus is exposed by the acts of the Union With Greece (Enosis) partisans.

The Turkish government has been assured, the spokesman went on, that Britain will take all possible steps to maintain law and order.

* * *

Both as a warning and as a training exercise, British troops and antiterrorist squads of police this week joined in a demonstration of what they intend to do at the first signs of disorder. In a six-hour operation, roadblocks were thrown up and traffic through out the island was held up and screened.

In Athens an emergency Cabinet meeting was called last night to discuss Turkish Premier Adnan Menderes' recent statement promising to defend the Turks on Cyprus.

Man Shoots Wife, Daughter and Self

CHATHAM, Ont. (AP)—A 14-year-old girl staggered downstairs yesterday with bullet wounds in her back and neck to phone neighbors and relatives in a bid to save her parents' lives.

* * *

"My father has just shot me and I think he's going to shoot mother and himself," police quoted her as saying.

Police and neighbors arrived a few minutes later. They found the mother dead and the father wounded.

Jeanette Gonerman, 14, was taken to the hospital where authorities said she was not seriously hurt.

* * *

In an upstairs bedroom her mother, Louella Gonerman, 34, lay dead, shot through the chest. The father, Ralph, 34, lay in a pool of blood in the hallway, with pistol close by. His condition was described as critical.

Gonerman's parents, Mr. and Mrs. Paul Gonerman of Wallaceburg, told police they left the couple quarelling, a few hours before the tragedy.

Printed Card Message Just Wasn't Learned

LOS ANGELES (INS) — James Smart, a 19-year-old youth who died today in a traffic accident, was carrying his own obituary with him.

On his body, police found a printed card that read:

"Sing while you drive

"At 45 miles per hour, sing—

" 'Highways are happy ways.'

"At 65 miles, sing —

" 'Nearer my God to thee.'

"At 85 miles, sing —

" 'Lord, I'm coming home.' "

Police said the car in which Smart was riding was traveling 85 miles an hour when the crash occurred. The driver, Steve Alley, 18, was critically injured.

Circuit Court Rules Against Union Pickets

Restraining orders halting pickets from hindering operations at two Royal Oak manufacturing firms while picketing an adjoining strike-bound firm have been issued by Circuit Judge Frank L. Doty.

The orders restrain Shopmen's Local 508 of the International Assn. of Bridge, Structural and Ornamental Iron Workers (AFL) from interfering with the business or employes of the Royal Research and Engineering Co., 509 E. 10-Mile Rd., and Minit-Man Inc., 501 E. 10-Mile Rd.

Both companies charged unionists were illegally halting deliveries to the plants with their picket line aimed against the De Croupet Iron Works, which shares a building with Royal Research, a tool and die company.

Minit-Man, builders of auto washing units, also is seeking $10,000 damages from the union.

Hearings on permanent injunctions are set for Sept. 6.

the local organization's proficiency with weapons.

Pontiac Chamber of Commerce President Ralph T. Norvell and George M. Watson, personnel manager for Pontiac Motor Division, both commented favorably on the apparent eagerness and cooperation displayed by the 763rd personnel.

The civilian observers brought here by the Army included mayors from Lincoln Park, Ecorse, Dearborn, Wyandotte and Grand Rapids. Also in the group which left Wayne Major Airport Wednesday for this 107,000-acre armored training center were newsmen, chamber of commerce officials, educators and representatives of industry.

CONDUCTED TOURS

Conducted tours of the battalion's training facilities and activities are being held each day of the group's 3-day stay.

During their 2-week stay here, both officers and men will be given complete tank training. Included are tank driving, maintenance, tank gunnery, coupled with firing the 30-caliber heavy machine gun and 90-millimeter tank gun.

Mess personnel are receiving on-the-job training under supervision of regular Army cooks and bakers. Clerical personnel in the unit's headquarters company receive practical instruction in their jobs from Capt. T. W. Councell of Union Lake, the organization's adjutant.

While line troops blasted the surrounding hills of this post, located 32 miles from Louisville, clerical personnel busied themselves with the never-ending task of keeping men clothed, fed and —most of all—paid.

Headquarters company, nerve center of the organization, is composed of Pontiac men under the immediate supervision of First Sgt. William E. Bennett, of Waterford, and Sgt. Major Donald Johnson, of Sylvan Village.

Buzz Bonnet to Help in Spotting of Planes

BALTIMORE (AP) — The Air Research and Development Command announced today it has developed an electronic aircraft detector — a buzz bonnet — to help spotters put the bee on low flying planes.

The gadget is mounted on one of those tough, plastic hard hats such as construction workers wear.

On top is an antenna which looks like a pe-wee public address system or high fidelity horn. On top of this is a horizontal cylinder, like a coil. A short rod with a knob on the end sticks out in back. The volume control clips to the coat lapel.

GARY LEE BARNUM

Area Youth Named to Naval Academy

The first West Bloomfield High School graduate to be appointed to the U.S. Naval Academy at Annapolis, Md., is Gary Lee Barnum, 18 of 3962 Fieldview, Middle Straits Lake.

Application for appointment came through State Senator Patrick V. McNamara. Barnum, sworn in as a midshipman after entering the Academy July 18, will complete four years of schooling there before receiving his commission.

A National Honor Society member in school, Barnum maintained a B average and was a member of the track and cross country squad, winning three letters in each sport.

He is also active in the young people's group at St. Matthew Lutheran Church in Walled Lake. Gary is the son of Mr. and Mrs. Elmer Barnum.

Ask Board to Review Bus Drivers' Dispute

The State Labor Mediation Board yesterday recommended to Governor Williams that he appoint a fact-finding commission to review a contract dispute between Pontiac City Lines, Inc. and Division 1097, Amalgamated Bus Drivers (AFL).

Although the old contract expired April 30, a company-union agreement has provided for day-to-day operation. The agreement can be canceled by either party with 48 hours notice, however.

Earl W. Dreasher, transportation superintendent, said contract talks, which have been held since January, have failed because of "money matters."

"Due to financial conditions, the company just can't afford to give the wage increase and additional compensations they are asking," he said. The union is asking a 25-cent an hour wage increase plus four new fringe benefits for 55 drivers and mechanics, Dreasher said.

State labor mediators have met with union and company officials at recent meetings but failed to bring accord. A fact-finding commission would be composed of three persons who would conduct hearings and make recommendations to the governor.

Detroiter Treated Here for Accident Injuries

Wallace A. Spohn, 29, of Detroit was treated for a lacerated hand and released from Pontiac General Hospital after his car ran off M24 near Bald Mountain Road last night.

He told Oakland County Sheriff deputies that to avoid a car that cut in front of his auto, he turned off onto the shoulder, causing the car to roll over.

Humphrey Predicts '56 Balanced Budget

(Continued From Page One)

only 3 per cent of total spending.

Even so, there was every indication that the $1,700,000,000 red ink forecast was little more than official caution. The budget review text said it was possible that "a balanced budget will be brought into sight as the year unfolds."

* * *

And Humphrey, obviously enjoying what he was saying, read the following statement, made jointly with Budget Director Rowland R. Hughes, to newsmen:

"If there is ever a time when our budget should be balanced, it is now.

"Americans are enjoying new peaks of prosperity ... but this simply emphasizes the need for wisdom and restraint, in both public and private affairs.

* * *

"Everybody knows that no family can continually live largely beyond its means. It is worse for government to do so. History shows how continued heavy deficits contribute to inflation, with rapidly rising costs, finally resulting in destruction of all values ...

"Barring some unforeseen development, we think that we should, and that we can, balance the budget this year."

* * *

This brought immediate questions about tax cuts. Humphrey refused firmly and repeatedly to say the improved outlook necessarily meant taxes could come down next year. Just as firmly, he declined to say tax cuts would not be made.

Democrats in Congress have said they will initiate tax cut legislation early next year, regardless of the administration attitude. But before he could back any such move, Humphrey said, he would have to be able to see beyond a balanced budget, to a "trend" of surplus income. He said that did not mean he would have to have the surplus in the government's tills before he backed a slash in tax rates. He said he would push for lower taxes as soon as he could look ahead and see the extra income on the way.

* * *

He declined to discuss what types of tax reductions he might recommend, but in the past he has said they should be broad, benefiting both individuals and business.

The new budget estimates boosted spending for atomic energy to an all-time high of $1,900,000,000, for both bomb materials and peaceful application of atomic energy.

* * *

But the other three major national security programs, the armed forces, military aid and stockpiling, took cuts. These resulted in a defense spending dip of 1¾ billion dollars below last year, to a new post-Korea low of $38,750,000,000.

Most nondefense spending totals were higher than estimated in January, and higher than actual spending in the fiscal year just concluded.

* * *

The budget review predicted a rise during the current fiscal year in tax receipts from almost all major sources. It said the yield from personal income taxes would rise most, by some 1¼ billion dollars, to $32,800,000,000, while corporation taxes would rise about 900 million over last year's total, to about $19,200,000,000.

On the spending side, the picture was mottled, a mixture of ups and downs compared to last January's estimates.

Hollis made the statement at a news conference yesterday following the opening of the board's semi-annual meeting. The board is meeting in Midland to study pollution control safeguards at the Dow Chemical Co.

Ferndale Makes Turn Provisions at 8-Mile Road

Expressing apprehension earlier that opening the new Woodward-8-Mile overpass Monday without provision for right or left turns off Woodward would create traffic jams on residential streets, Ferndale officials yesterday worked out a temporary solution to the problem.

The stop-gap solution announced by Ferndale City Manager Wilfred A. Laking and State Bridge Engineer Harold R. Puffer provides:

1. Northbound traffic will turn right on State Fair street to John R to reach eastbound 8-Mile road.

2. Southbound traffic will turn right on Bennett, when a service road is resurfaced, in order to reach westbound 8-Mile.

In addition, during the State Fair, traffic will be routed right on Alameda just south of 8-Mile, and north again on Kenneth to alleviate the jam in the area.

Laking said the plans will help the situation in Ferndale. He added that officials may find it necessary to ban right turns on some residential streets after the overpass opens.

Puffer said the decision to ban turns was made to hasten completion of the tri-level overpass.

Traffic Toll 131, Now

DETROIT (AP)—Mrs. Viola K. DeRosbil, 37, of Detroit, was killed today when struck by a car as she walked across a Detroit intersection. Her death brought the city's 1955 traffic toll to 131, compared with 139 to the same date last year.

MRS. HAROLD DUDLEY

Attorney's Wife Taken by Death

Mrs. Harold Dudley Dies Today in St. Joseph's Mercy Hospital

Mrs. Harold (Winifred B.) Dudley, wife of a local attorney, died in St. Joseph Mercy Hospital early this morning. She lived at 86 E. Iroquois Rd.

Born in Detroit June 21, 1905, she was the daughter of William L. and Grace Palmer Benedict. She married Mr. Dudley there Sept. 7, 1928.

Mrs. Dudley attended Detroit schools, graduating from Northern High School. She graduated from the University of Michigan in 1926.

She came to Pontiac 26 years ago and was a member of First Congregational Church and the Colonial Group of the church.

She also was a member of the Needlework Guild of America, the Jury Club and the YWCA.

Besides her husband she is survived by three daughters, Mrs. Jacqueline (Stanley H.) Hunkins of Minneapolis, Minn.; Nancy Sue and Sherrie Ann at home.

Funeral will be at 3 p. m. Saturday at Donelson-Johns Funeral Home. The Rev. Malcolm K. Burton, her pastor, will officiate and burial will be in White Chapel Memorial Cemetery.

Bearers will include Harcourt S. Patterson, Harold E. Howlett, Verne C. Hampton, Clarence L. Smith, George R. Snider and Clarence McGuire.

Oakland County Builds 47,000 Homes in 5 Years

(Continued From Page One)

828,832 in April, 1950. This is a 20.9 per cent increase for 5¼ years, or an annual average rate of gain of 4.9 per cent.

In contrast the 10 years from 1940 to 1950 was 34.4 per cent, or an average of 3.4 per cent yearly, indicating that this area's growth in the past few years has been at a faster rate than during the expanding period of the 40s.

Resents 65-Year-Old Competition

'He Should Pick Out Younger Woman,' Wife Suggests to Judge About Hubby

NEW YORK (AP)—A tall, willowy, blonde found her 29-year-old husband in another woman's room at 2 a.m.

Wife, 24

The other woman was 65-year-old grandmother.

The wife hit the tiny, gray-haired grandmother over the head with one of the husband's shoes, leading to some bandaging.

The husband, trousers in hand, ran out the back door of the Brooklyn rooming house where all three live.

* * *

The wife went to bed.

She woke up two hours later and heard noises in the kitchen the three share. She peeked in — and there was her husband with the other woman again.

The husband punched his wife in the eye for butting in, and she got a shiner.

He was locked up on an assault charge.

* * *

That's the blow-by-blow account related by the wife, Mrs. Katherine Luther, before Magistrate Anthony E. Maglio in Brooklyn Felony Court yesterday.

The wife was in court, charged with felonious assault for clouting the grandmother, Mrs. Florence Davis. The grandmother was in court to press the charge.

* * *

The judge advised Mrs. Luther: "I think you should move away from that place. You are faced with heavy competition. You have one beautiful shiner now. You wouldn't want another."

* * *

The wife protested: "But at least my husband should get a younger woman."

The judge paroled the wife for a hearing Sept. 7.

As the two women left the court, a policeman walked between them to keep them apart.

In Coney Island Court — some distance away — husband Eddie was held in $500 bail on an assault charge lodged by his wife because of the black eye.

The Day in Birmingham

Brief School Sessions Scheduled Here Sept. 6

BIRMINGHAM — In less than two weeks school youngsters will start putting their noses to the study grindstone.

A release issued this week by Supt. of Schools Dwight B. Ireland states that as is the custom, children will report for brief sessions on Sept. 6, the day after Labor Day.

Ireland said he hoped parents would realize the importance, both administration and student-wise, in the first day's work, and asked for their cooperation.

New pupils to the district can be registered any time now, with all school offices open between 8 and 11 a.m. and 2 and 4 p.m. Parents can save themselves time by taking advantage of this schedule prior to Sept. 6, Ireland reminded.

ELEMENTARY DATE

Elementary pupils will report Sept. 6 to their schools, at 9 a.m. and be dismissed by noon, after receiving books and instructional materials. An exception will be kindergartners, who do not have their big day until Sept. 7.

Junior high students will go to Adams and Barnum Schools at 8:20 and be released at 11:30 a.m. Seventh and eighth-graders living west of Woodward will go to Barnum, with the remainder attending Adams.

New residents who will attend Barnum are asked to report at 9 a.m. Aug. 31, for a testing and orientation program.

The day for high school students will begin at Birmingham High School at 8:10 a.m., ending at 11:30. Full day classes will be held Sept. 7 for seventh through twelfth graders.

Ireland said transportation routes are the same as last year, with adjustments to be made as necessary.

Representatives of the six units in the Evergreen Interceptor District renewed their efforts to secure the $2,740,000 Evergreen sewer at a Wednesday meeting.

As a result of Southfield Township Supervisor Eugene Swem's request, the Oakland County drain commissioner's office was asked to secure in as nearly complete form as possible, the contract with Detroit stipulating under what conditions Detroit will furnish this sewage service.

In addition to Birmingham and Southfield, the City of Lathrup village, Bloomfield Hills and Township, and Troy Township make up the Evergreen district. Court action is pending against all but Troy for failure to meet State Water Resources Commission orders to clean up the Rouge River.

Court hearings originally scheduled for last Monday have been postponed until next Monday instead.

Other action has already been started by Birmingham, Troy and Bloomfield Hills and Township, whose representatives said Wednesday that they were still pushing for the Evergreen and would plan their independent project accordingly.

Their new engineering studies for the laying of mains which would connect with Birmingham's sewage plant instead of Detroit's, will conform with the upper section of the Evergreen plans as nearly as possible. They explained that this was in the event the mains could be added onto the south, thereby forming the completed Evergreen.

Vaccine Peak Set for Fall

Polio Shots Program to Be Fully Evaluated in Autumn

WASHINGTON (AP)—It will be fall before the nationwide polio vaccine program resumes full stride and its results so far can be evaluated.

This was indicated today by comments from federal officials and by a survey of state capitals on plans for implementing a new program of federal aid to provide free vaccine for many children.

Surgeon General Leonard A. Scheele told reporters yesterday there are signs the incomplete inoculation program already is beginning to show beneficial results in preventing paralysis or death.

The Public Health Service reported yesterday 11,862 polio cases since the "disease year" began April 1. This compared with 13,346 cases a year ago. Mass inoculation began shortly after April 1.

But Scheele stressed that any real evaluation must await scientific analysis of data that won't be available until this fall "at the earliest."

U.S. Attorney Lists Law Enforcing Needs

GRAND RAPIDS (AP)—U.S. Attorney Wendell A. Miles says law enforcement needs better juries, more understanding of the growing role of the federal government and the right to use evidence obtained by wiretapping.

Miles included the remarks in his address Wednesday night as banquet speaker at the International Association for Identification convention. The dinner was a feature of the 4-day police group convention.

Tito Sends Condolences

LONDON (AP)—President Tito of Yugoslavia has sent a telegram to President Eisenhower "expressing his condolences in connection with the grave flood disaster which has befallen the United States," Belgrade radio said today.

Court Refuses to Act in State Fair Fight

LANSING (AP) — The State Supreme Court today refused to intervene in a squabble over the designation of Michigan State Fair opening day as "Wrigley Day" after the Wrigley grocery chain.

The Michigan Retail Food Dealers Association, representing independent grocers, said the agreement between Wrigley's and the fair board is unfair.

Under the agreement, the grocery chain was to sell tickets at a reduced rate. In return, the association said, Wrigley's be allowed to use part of the ticket profits for advertising.

In addition, Sept. 2— opening day of the fair — would be advertised as "Wrigley Day."

The court denied a petition of the association for a writ of mandamus forcing the fair board and Wrigley's to cancel the agreement.

ORCHARD LAKE GIRL IS WINNER — A 14-year-old Orchard Lake girl captured the junior division trophy of the national baton twirler tournament last Sunday at Chicago's Annual Riverview Mardi Gras. Sharon Dreyer, daughter of Mr. and Mrs. Edwin R. Dreyer of 3717 Wards Point Dr., was competing in the world's largest baton twirler contest, which listed 1035 competitors from all over the country, when the judges chose her for the engraved trophy. Sharon, tenth grade student at Roosevelt High School in West Bloomfield, placed fourth earlier this year at the winter carnival at St. Paul, Minn.

Oakland Schools List Opening Dates

County area school officials continue to announce school opening dates, as well as dates for registration, orientation meetings and pre-school conferences.

In the Aug. 19 Press, information was listed for Huron Valley, Imlay City, Lake Orion, Marlette, North Branch, Waterford Township and Southern Oakland County Schools.

Today's information will disclose opening dates for Avondale, Almont, Clarkston, Clifford, Dublin, Four Towns, Keego Harbor, Leonard, Lyon Township, Metamora, Oxford and Troy and West Bloomfield Township Schools.

Avondale

Pre-school conferences will open Aug. 29 and run through Sept. 2 at Avondale Schools, Auburn Heights. Enrollment here is expected to reach 2,500 this year and the staff lists 90 teachers.

School opens at 9 a.m. Sept. 6. Registration for students from Auburn Heights who attended Elmwood last year will be at Elmwood on Sept. 6. Seventh graders will register at Auburn Heights School Sept. 6, at 1 p.m. and eighth graders, Auburn Heights at 1 p.m., Sept. 7.

Kindergartners not previously registered should do so at the Stone Baptist Church, Sept. 6, at 9 a.m. Kindergartners in the Elmwood area should report to Elmwood School at 9 a.m., Sept. 6.

Avondale High announces the following registration dates: Seniors, Sept. 6, 8:10 a.m.; juniors Sept. 6, 1:30 p.m.; sophomores, Sept. 7, 8:10 a.m. and freshmen, Sept 7, 1:30 p.m.

Almont

A teachers conference is scheduled to be held in Almont on Sept. 12. Registration will be held for grades kindergarten through seventh on Sept. 13.

On Sept. 14, there will be no elementary classes but registration for ninth grade will be held from 9 a.m. to 12 noon and from 12:45 to 3:45 p.m.

On Sept. 15 there will be classes for grades kindergarten through seven, with registration for juniors and seniors from 9 to 12 a.m. Lunches wil be served in the cafeteria and classes for both groups will resume from 12:45 through 3:45 p.m.

Registration will be Sept. 16 for eighth graders, and for sophomores from 9 a.m. until noon, with classes in the afternoon. Kindergarten through seventh grade will attend classes this day, also.

New school facilities at Almont are not ready as yet, and plans are being made to house as many students as possible, but it will be necessary for certain grades to alternate day sessions or attend half day sessions. Parents will be notified when plans for sessions are completed.

Clarkston

Faculty meetings slated at Clarkston will continue from Sept. 6 through Sept. 7. On Sept. 8, junior high and High School registration wil start at 8:30 a. m., with elementary registration beginning at 9:15 the same morning.

On Sept. 9, shortened high school classes will meet at 8:30 a.m., dismissing at noon. Elementary classes will meet at 9:15 a.m., dismissing at 11 a.m.

Estimated enrollment for this year is 2,200 and since no new classrooms are available, provisions are being made to rent facilities if enrollment should exceed expectation. The School Board has been examining possible school sites for the purpose of constructing additional elementary classrooms.

West Bloomfield, Keego Harbor

West Bloomfield High School students will report for classes Sept. 8, which will run from 8:44 a.m. to 11:40 a.m., and from 12:44 p.m. to 3:40 p.m. Five hundred are expected to enroll this year.

New students in the district are asked to enroll at the high school Sept. 1-2, from 8:30 a.m. to 4 p.m. Teachers will meet Sept. 6 and 7 for pre-school conferences.

Roosevelt, Green and Scotch elementary students will report Sept. 8, at 9 a.m., with all day classes. Kingergarteners are to report on the morning of Sept. 9. New students in the district will register with Mrs. Gertrude Ealy at Roosevelt School Sept. 1-2, from 9 a.m. until 4 p.m. Pre-school conferences for elementary teachers will be held Sept. 6 and 7, at Roosevelt.

Clifford

A greater enrollment than ever is expected in this community, and school here will open Sept. 7. There will be three regular teachers on the staff, with music being taught by the bandmaster from Kinston High School.

Dublin

Dublin School children will register Sept. 7 at 8:45 a.m., with the regular class schedule beginning Sept. 8. Bus schedules remain the same as last year. A teachers meeting will take place at 12:30 p.m., Sept. 6.

Four Towns — Union Lake

School will open on Sept. 7, at Four Towns. In the Waterford Township schools, Sept. 6 is mark for a teachers meeting.

Registration will open Sept. 7, with kindergarten children whose names begin with A to K inclusive being registered. Elementary grades will be in session in the morning and junior and high school grades will have regular sessions.

On Sept. 8, kindergarten children with last names beginning with L to Z, will register. Elementary, junior and senior high grades will attend school the full day. On Sept. 9, all classes will hold regular sessions.

Leonard

School here will open Sept. 6. The school staff will include five teachers, a band director and the janitor-bus driver.

Lyon Township

Regular classes will be held in the new high school unit here and registration for high school students will be Sept. 1 and 2, with ninth and tenth graders reporting on Sept. 1 from 9 a.m. to 4 p.m., and eleventh and twelfth graders reporting on Sept. 2, the same hours.

Kindergarten sessions will be held in both the New Hudson and South Lyon Elementary schools and kindergartners should be brought in for registration at the school they will attend between 9 a.m. and 4 p.m. on Sept. 7. Regular sessions will begin for them on Sept. 8.

Other elementary grades will register on Sept. 7. School cafeterias will be in operation Sept. 7.

Metamora

Opening date here is Sept. 6. Important is the decision to hold a hot lunch program for the coming year, beginning Sept. 12. Mothers are being asked to volunteer their services for three-hour periods at designated intervals and should call Mrs. Lloyd Andison, Metamora 54.

Oxford

Regular classes will open here on Sept. 8. High school pupils are asked to register during the coming week as follows: Seniors on Aug. 29, between 9 a.m. and 3 p.m.; juniors on Aug. 30; sophomores, Aug. 31; and freshmen, Sept. 1.

Other students will register beginning at 9 a.m., Sept. 7, at their respective buildings.

Buses will make regular runs and the grade school cafeteria will be open Sept. 12.

Troy Township

Troy Township Schools will open for all grades, kindergarten through twelve, on Sept. 8.

Sept. 6 at 8:30 a.m. and Sept. 7 at 8:15 a.m., there will be faculty meetings of all teachers at Troy High School. In the afternoons, the teachers will meet with principals in their respective schools.

Students in the Big Beaver, Troy Union and Poppleton areas, kindergarten through six, will register at their respective schools.

Students in the Troy No. 2 and Smith areas will register as follows: Kindergarten, second, fourth and fifth at Troy No. 2 School; first, third and sixth at Smith School. Colerain students, grades one through six, will register at Colerain; kindergarten will register at Troy Union School.

Seventh and eighth grade students will register at Baker Junior High School. Students will go directly to home rooms for registration by home room teachers. Principal Boyd Larson, will be in his office for parental conferences beginning Aug. 29, from 9:30 a.m. to 3 p.m.

The High School office will also be open from 9:30 to 3:00 a.m. beginning Aug. 29, when Principal Richard Drager will take new registrations and make registration changes.

The hot lunch program will be in operation in all Troy schools except Big Beaver.

Thornville

Thornville School will start on Monday with Mr. and Mrs. Hill as teachers.

Site for Elementary School Purchased at Walled Lake

WALLED LAKE—The Board of Education here completed negotiations for the purchase of a site for a new elementary building at a recent special meeting.

The eight-acre parcel is located on Decker road, north of Pontiac Trail. Property was purchased from James Shaw and the Bee-Jay Homes, Inc.

The building will contain 15 classrooms, two of which will conform to Oakand County specifications and be used for special education rooms for exceptional children.

There will also be two kindergarten rooms, library, offices, teachers' room, and multi-purpose room.

At a meeting with representatives of the Bee-Jay Homes, Walter Anicka, school architect, and Clifford H. Smart, Superintendent of schools, grading of the entire parcel of 40 acres was discussed. School officials agreed to fence three sides of the school property in accordance with FHA rules.

Other business at the special meeting included approval of a resolution to sell the remaining $275,000 in bonds voted for school construction in 1954. These bonds will be sold at a special meeting Sept. 19 at 8 p.m.

Smart reported that the village of Wolverine Lake was considering zoning the property opposite the new high school on Commerce road as commercial.

The Board instructed Smart to attend hearings and register the opinion of the Board that the property should remain residential.

An enrollment survey through 1960 was presented for study with a view to future site selections and building needs.

Warren Sewer Plan Approved

$15,000,000 Network Authorized; 3-Mill Tax to Pay Bond Issue

Final plans were ordered Thursday for a new 15-million-dollar sewer network in Warren Township, to be paid for with a bond issue authorized Wednesday in a special vote.

When completed, it will permit the township to double the present 55,000 population.

A special drainage tax of $3 on each $1,000 in property value, assessed a year ago, will pay the bond issue.

Ground will be broken within six months, according to Township Supervisor Arthur J. Miller.

A sewage treatment plant will be rebuilt on Red Run Creek. Trunlines will extend north near Mound and Hoover and following Bear Creek.

Miller said another 45 million dollars must be speng on drainage before the township can attain its ultimate population of 250,000.

Set Clifford Homecoming

CLIFFORD—The annual homecoming celebration here is to be held Sept. 9-11, and is being sponsored by the Clifford Oddfellow and Rebekah Lodges. Preparations are now underway.

County Deaths

Russell Lamphier

MARLETTE — Service for Russell Lamphier, 58, of 1264 Maiden, Detroit, will be held at 2 p.m. Monday, from the Marsh Funeral Home, Marlette, with burial in Marlette Cemetery. Mr. Lamphier died early this morning.

He leaves his wife Rose; three daughters, Mrs. Marilyn Picone and Mrs. Margaret Cullimore of Detroit, and Mrs. Geraldine Wilcox of Kingston; a brother, Lloyd of Rochester and one sister, Mrs. Homer Axford of Pontiac.

Ralph G. Pickering

WHITE LAKE TOWNSHIP — Service for Ralph G. Pickering, 58, of 3930 White Lake Rd., will be held at 2 p.m. Saturday in the Bendle Funeral Home, Holly, with burial in White Lake Cemetery. Mr. Pickering died Wednesday.

He is survived by his wife, Josephine Cook Pickering; two daughters, Mrs. Gerald Shaver of Ortonville and Marian Pickering, at home; a son, Richard, at home; one sister, Mrs. Edna Love of Farmington; one brother, Russell, of Franklin, and two grandchildren.

Waterford Group Sets Oct. 24-29 for Music Drive

WATERFORD TOWNSHIP—The week of October 24-29 was set last night as campaign week when the Waterford Township Civic Music Association met at the home of Helen Davis, executive vice-president.

The group plans to bring to this area outstanding musical talent for at least three programs a year. Tickets are to be sold by membership only during the campaign week.

Mrs. William Shunck and Charles Pappas, co-chairmen of the organization committee are selecting their division chairmen and captains this week.

The number of tickets sold will determine the number of concerts, and the types of artists selected will be determined by the preference ballots filed out by the members when they buy their tickets.

Romeo School Tax Appeal Is Denied

ROMEO — The appeal made by the Romeo Board of Education to the State Tax Commission for a variable tax rate was reported denied by school Superintendent T. C. Filppula, at last night's special school board meeting.

The appeal had been sent to Lansing following the board's dissatisfaction with the 7.5 tax allocation granted by the county.

The request for the variable tax rate would have amounted to an additional 1½ mills in one township in the district.

G. F. Hannaford Named to Troy Zoning Board

TROY TOWNSHIP — Gerald F. Hannaford, 2391 Virginia was appointed by Judge Arthur Moore as a member of the zoning board to replace Arthur R. Lovejoy, who resigned when elected to the school board here.

Sentenced at Marlette

MARLETTE — William R. Miller, 40, of Petoskey, was placed on two years probation and ordered to pay $50 court costs after pleading guilty to carrying concealed weapons.

Delayed Tax Bills to Reach Hollyites

HOLLY — It is expected that the village tax bills for 1955 will be mailed out soon, after a delay of about six weeks.

This was occasioned by the disagreement between the council and Anders Hustvedt who was released as village superintendent, when he also held the one-dollar-per-year job of treasurer.

Hustvedt claims it now is not his duty to do the mailing, but village President Worth Hitchcock hopes to have the matter adjusted and the bills in the mail within a few days.

Placed on Probation

MARLETTE — Richard Battice, 28, of Marlette, pleaded guilty to breaking and entering at night and was placed on two years probation and ordered to pay $50 court costs. Battice was arrested after he stole $68 from Dad's Tavern in Marlette.

About 700 languages and dialects are spoken in Africa.

Scouts to Hold Carnival at Stiles School Grounds

AVONDALE — Explorer Scout Post No. 60 of Stiles School will hold an all-day carnival, tomorrow, at the Stiles School grounds.

Booths will include games of shooting, ring toss and basketball tos and other amusements. There will be a refreshment stand and pony rides for children. The boys of the post will present an Indian dance. Carnival prizes include a 12-foot "V" bottom boat.

The public is invited to attend. Proceeds will go to purchase equipment for the post.

Marlette Study Group Names Officers for '56

MARLETTE — The Mothers Child Study Club elected new officers at its recent meting, naming Mrs. Leon Keys as the new president.

Other officers for the coming year are: Vice-president, Mrs. Donald Hager; secretary, Mrs. Donald Dale; treasurer, Mrs. Harold Muxlow.

Central Spain is a table land mostly without trees.

MR. AND MRS. RONALD CRAVEN

Rochester Girl Married in Evening Ceremony

ROCHESTER — Laura Elizabeth McInnes and Ronald Raymond Craven were united in marriage in evening rites last Saturday in St. Paul's Methodist Church here.

The bride is the daughter of Mr. and Mrs. Ralph H. McInnes of 323 Linwood, Rochester. Ronald is the son of Mr. and Mrs. Richard Craven of Lincoln Park.

Laura chose for her wedding a floor-length silk shantung gown with princess lines and "V" neckline. A double crown of seed pearls secured her fingertip veil. She carried two white orchids with delphinium streamers on a white Bible.

Her maid of honnor was Roselle Richmond of Lincoln Park, and Mrs. Virginia Dahlem of Battle Creek was her bridesmaid.

Best man for the bridegroom was Robert Dahlem of Muskegon and the ushers were Edwin Valks of Detroit and Edward Knapp of St. Clair Shores.

The couple left for a tour of Upper Michigan and Canada following the reception, which took place in the church parlors.

The newlyweds will make their home in East Lansing.

Michigan Man Dead in Colorado Crash

ESTES PARK, Colo. (UP) —David M. Block, 19, of Grand Rapids, Mich., was killed yesterday in what police said was an "attempted suicide culminated by an automobile accident."

His body was pulled from his car after it crashed into a pine tree 3½ miles from Estes Park.

Police said they found Block's wrists were slashed and a straight edge razor blade on the floor board of his smashed auto. There were bloody fingerprints on the steering wheel and gear shift nob, police said.

Block had been employed as a cook at the Chalet Ranch, a dining room for tourists at this mountain community.

Scouts Adopt Western Theme for 'Roundup'

With a western theme featured more than 1,100 Boy Scouts of Clinton Valley Council will stage "Roundup '55" Sept. 24 and 25 at Bald Mountain Recreation Area.

The first council-wide camporee in nearly five years, the event will launch local unit programs into a national campaign to recruit new boys into the Scouts.

Camp Chief Kenneth H. Sanderson, of Westacres, explained that camping activity will be different from other district camporees.

"The boys will set up tents on uneven ground instead of packing their duffel into the ranch sites," he pointed out. Cowboy attire will be worn in keeping with the Western theme.

A Saturday night rodeo-style campfire is being arranged by Bill DeGrace, Pontiac district vice chairman.

Sanderson has appointed Glenn Lackey, Sam Ledger and Robert Newton of the Pontiac area, and Albert Ullrich of Mt. Clemens to serve as section chiefs. The men will choose additional scouters to form supervisors' staffs for each ranch site.

Boys who attend with units as candidates for membership into the Boy Scouts, will be given special pins, Sanderson said.

Health Officials Happy at Drop in Polio Cases

BOSTON (UP) — Massachusetts Health Officials, "gratified" by the drop in the number of polio cases, predict that a continued decrease today will bring the week's total 7 5to 100 less than last week's total.

As of yesterday, the wek's cases numbered 298. Last week there were 448 cases in the state.

Eighty-one cases were reported yesterday, raising the state total for the year to 1,094, compared with 239 cases a year ago.

New England's total number of polio cases yesterday was 2,503, with 82 deaths reported. A year ago Aug. 25, there were 481 cases.

St. Michael's Society Plans Outdoor Barbecue

The men of the Holy Name Society at St. Michael Catholic Church are sponsoring an open pit barbecue on the lawn of the hall Saturday. The group will serve from 4 to 8 p.m. at Edison and Lewis Streets.

J. C. Rohrbach, general chairman, reports that the meal will be southern style, cooked over charcoal.

Hard to See the World

MANILA (UP) — It is going to get harder for Filipinos to see the world.

President Ramon Magsaysay has ordered drastic cuts in dollar allocations for importers and tourists to stem the drain on foreign exchange reserves. The reserve has dropped 18 million dollars since last May.

Windsor Bus Strike Strands 40,000 People

WINDSOR, Ontario (UP)—About 350 city bus drivers walked off their jobs early today to protest the dismissal of one of their fellow drivers.

The walkout, which the company has declared illegal, left an estimated 40,000 persons stranded on street corners as they tried to get to work.

Taxis were quickly ordered for more than an hour in advance, and early morning workers were forced to use their thumbs to try to get a ride from the car owners as they drove past.

Will Buy Paper Shares

KALAMAZOO (UP)—The Board of Directors of the Sutherland Paper Co. today said Sutherland had made a deal to buy all the 100,000 shares of outstanding stock of the Fort Orange Paper Co. of Castleton-on-Hudson, N.Y.

In 1940 there were 60 million dollars worth of $10,000 bills in circulation.

Navy Crash Boat Tows Crippled Plane Ashore

CHICAGO (UP)—A Chicago man and his teenage son were rescued after a plugged fuel line forced them to land their amphibious plane on Lake Michigan yesterday about 25 miles east of Waukegan.

Joseph R. James and his son, Robert, were en route to suburban Northbrook from Battle Creek, Mich.

A Navy crash boat pulled their plane to shore.

Australia and Vancouver, Canada, are linked by two cables.

Lawyers Want Lawyer to Handle Their Affairs

PHILADELPHIA (UP)—The American Bar Assn. says it needs a lawyer to handle its affairs.

The organization's House of Delegates, which molds policy for the ABA's 58,000 members, defeated a suggestion yesterday to change its bylaws and permit appointment on a layman as administrator of its Chicago headquarters.

The proposal had been advanced by the Board of Governors to give it wider discretion in filling the $20,000-a-year post.

Romanian Prof Dies

HELSINKI, Finland (UP) — Prof. Lothar Radaceanu, a leading member of the Romanian delegation at the Inter-Parlimentary World Congress here, died yesterday.

He apparently suffered a heart attack in his hotel room.

science now helps you take off your fat while you eat the foods you choose

So you like sweets, candy, cake, butter, gravy, potatoes? Have you tried one thing after another to reduce, spent dollar after dollar for pills and tablets and in spite of everything you've tried you're still too fat? Well, be as skeptical as you like, but NOW, right NOW, there's a wonderful new kind of capsule that helps you take off pounds and inches of ugly fat safely, quickly and so much easier you hardly know what's happening. You don't suffer starvation dieting hunger, you take no drugs, you don't exercise, in fact you don't even diet one bit more than you want to because you automatically eat less and here's why.

counteracts hunger

Just recently a well known scientist perfected a new tiny capsule that combines not one but all the recognized proven aids to reducing. It combines the vitamins and minerals often lost when cutting off fattening foods containing these needed vitamins and minerals. It combines the vegetables' cellulose that has no calories, yet expands when it absorbs water, thereby helping give the feeling of a full contented stomach. In fact these tiny capsules are so packed with vitamins and minerals protein and non-caloric filling food, they actually equal and exceed many a meal

fat goes fast

You'll be surprised at the fat you lose the first week, the inches that disappear the first month. No hunger, no strict dieting, no drugs, no exercise. And the cost is absolutely nothing unless you grow slim, more youthful looking, more active and enjoy better health.

Ike's Veto Prevents Big Raid on Treasury

By vetoing House Bill 6373, President Eisenhower has blocked what would have been an indefensible raid on the Treasury.

Under its military stockpiling program, our Government is buying quantities of tungsten, manganese, chromite, asbestos, mica, beryl and columbium-tantalum. HB 6373, which was rushed through Congress without even the formality of a hearing, would have forced the Administration to double its purchases of these strategic materials.

★ ★ ★

Objections voiced by a few critics of the bill were blithely ignored in both houses. Defense Mobilizer Flemming, for example, said there was "no justification in the name of national defense for enlarging" the mineral purchase program.

★ ★ ★

Sen. Williams, Republican of Delaware, pointed out that the bill would double the prevailing market price of metals and thus cost the Treasury between $300,000,000 and $500,000,000. Senate Democrats Fulbright and Symington said that if Congress wanted to subsidize the mining industry, it should do so openly and not in the guise of national defense.

From this it is easy to see that the President was acting for the taxpayers when he threw this perfect block against a special interest subsidy.

Efficient Fire Fighting

When a small fire broke out in the electrical panel controlling our two high speed newspaper presses, Pontiac Fire Department was called on for help.

Within minutes Chief Schroeder's men were on the scene. In less time than needed to tell it they extinguished the fire. So quickly and skillfully was this done that the damage was limited to only a few dollars. Had it not been for this speedy work the fire might have become very serious and costly.

It is a comforting thing to know that this efficient fire fighting service is available to the people of Pontiac 24 hours a day every day of the year.

Massacre at Oued Zem

Nothing quite so savage and merciless has occurred in French Morocco in recent years as the massacre at Oued Zem.

Before French Legionnaires could rout the fanatical Berber tribesmen, many helpless civilians—men, women and children—were slaughtered. Among the victims was Oued Zem's mayor, who was stoned to death.

★ ★ ★

The whole town was looted and turned into a shambles with many shops and homes set afire. In Paris the official announcements put deaths at 715. On the scene reports, however, indicate that at least 2,000 lives were lost in subsequent fighting.

There is significance in the fact that this violence broke out on the second anniversary of the French order exiling Sultan Ben Youssef. Actually violence and terrorism have been growing steadily ever since the ouster of that belligerent apostle of nationalism.

★ ★ ★

The Berbers' fanaticism and savagery have increased for France the always formidable difficulties of administration in Morocco. This latest outbreak interrupted Premier Faure's efforts to reach agreement with native leaders on a greater measure of self government for their people.

It also emphasizes the enormity of the task of bringing civilized and orderly life to that part of Africa.

Telltale Barbarism

Fresh proof that the work of Radio Free Europe and Free Europe Press is effective can be found in the increased barbarism of Hungary's puppet Communist regime.

It is difficult for free world people to realize the extremes to which the totalitarians are willing to resort in fighting opponents of their tyrannies. That the government in Budapest is desperate and feels insecure there can be little doubt.

★ ★ ★

At present relatives of those who have escaped to freedom on this side of the Iron Curtain are being subjected to brutal perscution. Especially severe is the treatment accorded kin of those now working for these two agencies. They are being evicted from their homes and exiled to eastern Hungary regardless of age or infirmity.

★ ★ ★

All this is official reaction to the government's inability to combat the spread of the truth by pamphlet carrying balloons, the free press and free radio. It is permitted to go on despite its obvious demonstration of the insincerity of Russia's current peace offensive.

There seem to be two widely divergent opinions as to the kind of fishing President Eisenhower was primarily interested in during his visit to the New England States.

Changes in Attire

Weather Makes Difference; Also Activities in One's Work

Petition: A list of people who didn't have the backbone to say "No."

This cooler weather has made us all happy. And it also has forced

Jack Patterson,

the Pontiac Press outdoor writer, to mend some of his devious ways. During the heated spell he has been running around in Bermuda shorts and sport shirts, much to the envy of the rest of us. Now he goes back to a much more concealing attire, but the free breathing habit which he formed during the period of abbreviated clothes now gives him a choked up feeling akin to hay fever, even on a normal day. However, he admits that scanty covering never is the correct thing when wading through mosquito infested swamps or chasing a porcupine through the bogs, in running down a story.

PATTERSON

Army enlistments continue to keep the quotas of the local Draft Board at a low figure. The Pontiac City Board is asked to send only six men in September, and the out-county Board's quota is 12. The induction date for both is Sept. 6.

Regarding that strange animal seen around Deer Lake, near Clarkston,

Harvest apples and harvest pears on the same tree are reported by

of Lake Orion, who says his grafting job was a complete success.

Queer quirks of that Liberty Street explosion continue to bob up. At 19 Evelyn court,

Mrs. Doris Hursfall

noticed that a flower pot on her window sill, that had contained violet plants, was empty. She finally found its entire contents tucked neatly away in the fold of the curtain at the top of the window.

He has a happy disposition and shows it—but apparently is AWOL. For several days he has been frequenting the premises of

David Lawrence Says:

Nixon Explains Communist Conspiracy Tactics Used Against Administration

WASHINGTON — President Eisenhower gave all the extremists who want to soften the security system of the United States something to think about when he said the other day to the American Bar Association in Philadelphia:

"An international political machine, operating within the borders of sovereign nations for their political and ideological subversion, cannot be explained away as a cultural movement."

★ ★ ★

This is a realistic answer to those who have been steadily pooh-poohing the Communist conspiracy in the United States and who now argue that it is of no importance.

The truth is the fight for an effective security system has only just begun. Maybe some philanthropist will donate $15,000,000 to tell the side of the story which the so-called "Fund for the Republic," financed by the Ford Foundation, does not tell—as, for instance, both sides of the Oppenheimer story.

Then there is the question of legal procedures. The anti-anti-Communists argue that an American citizen with knowledge of a conspiracy in which he himself is guiltless must not be required to tell his government the facts. They contend an innocent man must not have his reputation hurt.

NIXON EXPLAINS

Vice President Nixon has just made a speech to the American Bar Association. He said:

"In times past much of the criticism of Congressional investigations was directed to procedures rather than to substance. Even in recent weeks when committees with admittedly fair procedures have been conducting investigations the criticism continues.

"It is apparent that the real basic objection of most of the critics is not how committees investigate in this field — but what. Some contend that this problem should be left to the courts. But the courts can move only when a crime is committed, and this may be too late to deal with conspiracy.

"Others say we should leave investigations to the FBI. The FBI can investigate only. It cannot expose. It cannot institute prosecutions. Others contend Congressional committees are limited to investigations which develop legislation.

"But I submit an outstanding authority to the contrary. Woodrow Wilson declared there were three recognized functions of Congressional investigating committees — (1) Determining what laws to enact; (2) Checking the Executive branch's enforcement of law; and (3) Informing the public. The third function—informing the public—he said was perhaps the most valuable of all.

"I can testify by experience that against Communist activity which is by nature and definition secret and conspiratorial, there is no more effective weapon than exposure. In my opinion, properly conducted Congressional investigations of Communist activities deserve the full support of the lawyers of America."

NAIVE CRITICS

Most of the critics are themselves loyal and sincere but also naive. They know little about Communist conspiracies or refuse to read the exposure records.

Congress has recognized the evil and passed certain laws to protect the nation. But apologists for the "philosophical" Communist still abound. They argue membership in the Communist party is merely a matter of "political beliefs," that Communist conspiracy which involves murders, kidnappings and blackmail is a figment of McCarthy's imagination.

As for so-called "McCarthyism," it isn't dead because the anti-McCarthyites have adopted some of the same techniques for which they condemned the Wisconsin senator.

They select isolated excerpts from one side of official proceedings and use them to belittle, if not break down, security measures. They damage the American government's influence abroad by trying to drive a wedge between Secretary Dulles and the President or by misrepresenting American policy.

★ ★ ★

These are the steadily mounting tactics of political opponents of the Administration and their left-wing spokesmen.

Everyone Is Out of Step but Brady on Teeth Care

By WILLIAM BRADY, M.D.

Ever since the inspired huckster invented the slogan "A Clean Tooth Never Decays"—a fiction which sold a lot of brushes and glorified soap—the dentists have been advising people to brush their teeth morning and night, after each meal or at least every day.

★ ★ ★

They imply that this silly rite will prevent decay of the teeth, although the most zealous toothbrushers in the world have the greatest amount of tooth decay—the American and English peoples. The people who have the least tooth decay never brush their teeth at all—the people of Tristan da Cunha.

The dentists cooperated with the commercial interests by developing and promoting the idea that particles of sugar clinging to the surfaces of the teeth, particularly in crevices between the teeth and at junction of gum and tooth, undergo fermentation by lactic bacilli, which are naturally present in milk and other foods, generating lactic acid, and the acid eats or dissolves the enamel, the beginning of a cavity.

Upon this premise the dentists base their prohibition or restriction of sugar and sweets in the diet, particularly the diet of the growing child.

ALL OUT OF STEP

Again everybody's out of step but Brady. Some narrow gage dentists dispose of me and my teachings by asking what I know about dentistry. I have to admit I know practically nothing about it, except that I know and appreciate good dentistry when I see it or get it. So I try to change the subject by asking what the average dentist knows about nutrition.

★ ★ ★

Mind you, I believe excessive consumption of sugar, sweetened beverages, candy, ice cream, sweetened cookies, cakes, puddings, pastries and sugared or syruped breakfast food is an important factor of dental decay, but not because sugar favors lactic acid fermentation.

It unquestionably does, but I say it is absurd to think the lactic acid so produced in the mouth can dissolve enamel from the teeth. I contend sugar does no direct harm, but the individual who consumes too much sugar just doesn't have normal appetite or normal hunger for more essential food, particularly vegetables, fruits, salad greens, which are essential for good nutrition.

If production of lactic acid from sugar were the objectionable feature of excessive consumption of sugar, the regular use of an alkaline solution to rinse the mouth after eating would prevent dental decay.

It is all right to wash the mouth with plain water, water containing a pinch of soda, or (as I prefer) soapy water, whenever you wish. But be adult about it—don't kid yourself that a "powerful" germicide or antiseptic can do anything that one of these simple washes will not do.

★ ★ ★

Perhaps the best prevention of tooth decay is (1) Consume not less than 1½ pints of milk daily and (2) Eat some unsugared fruit last thing every night.

Signed letters, no more than one page or 100 words long pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady if a stamped, self-addressed envelope is sent to the Pontiac Press, Pontiac, Mich.

Voice of the People

'City of Pontiac Needs More Public Facilities'

Letters will be condensed when necessary because of lack of space. Full the writer must accompany letters but these will not be published if the writer name, address and telephone number of its nature.

Having been in Pontiac for two months, I have compared things here with those in other U.S. cities of comparable size. As a traveler, I have become unusually sensitive.

I read recently in the Press that appointment of a county manager has been proposed. I'd say one is needed sadly, especially after seeing the public rest rooms with doors and windows nailed up for the last five years or so. No consideration is shown here for the citizens and tourists.

And what about the steel pins on the wall around the court house? They prevent anyone from sitting on the wall, although no seats are provided for tourists or heavily laden shoppers. The county and city officials must prefer to have them sit on the court house steps among the papers and rubbish, with a rubbish can sitting in the center of the entrance. This doesn't enhance the beauty.

Also, other cities furnish seats at all principal bus stops, so that tired shoppers can sit and rest while waiting for a bus. Not here. I've seen tired women with large sacks of merchandise stand at the downtown bus stops for an hour waiting for a bus.

Wake up, folks. You have beautiful lake country surrounding the city of Pontiac, but you'll have to do something toward beautifying the city to hold tourists in Pontiac. How about wrecking the old medical building and having a small downtown park on that site with modern rest rooms and seats for the public?

Hopes Exchange Visits Will Bring Understanding

It's with a great deal of interest that I have been reading about the Russian farmers visit to this country. Their reaction shows clearly that they are very much impressed.

Would that they could tell the Russian people when they return just how wonderful they found America, but unfortunately their lips will be sealed to a great extent.

However, I sincerely hope that a little understanding and some good has come from the exchanged visits by the farmers of both countries.

Floods Point Up Hazards of Careless Investments

By MERRYLE S. RUKEYSER
INS Economic Commentator

The havoc wrought in six Northeastern states by what was left of Hurricane Diane has symbolic significance in reminding Americans during this era of rolling prosperity that we are not living in a riskless society.

★ ★ ★

Each generation is confronted by its own illusions. This time the wishful thinking is that federal bank deposit insurance and federal mortgage insurance, social security, minimum wage and other social legislation have outlawed depression.

This type of escapism is carried one step further in terms of a fanciful belief that common stocks fill all investment requirements.

MORAL EQUIVALENTS

There are in the financial world of intangibles moral equivalents for dams and floodgates. In the realm of intangibles there are counterparts for emergency sandbags in the form of insurance policies and cash-reserve funds.

★ ★ ★

In order to adjust to the uncertainties of life, a balanced, rather than a lopsided, financial diet is indicated. Insurance takes care of the contingency that the exit of the family head may be premature.

Cash and its equivalent—in the form of high-grade bonds—meet the risk that the need for funds for a medical or other family catastrophe might occur when it would be unpropitious to make a forced sale of stocks or real estate equities.

Sometimes where good luck salvages a family from financial recklessness on the part of the breadwinner, the program can be criticized, nevertheless, on the ground of undue exposure to risk.

TOO MUCH RISK

Thus, it would not be wise to put all the resources of a widow into a wildcat adventure to search for oil wells. Even if lightning strikes and a gusher is found, the procedure would be deemed objectionable on the ground of excessive exposure to risk.

★ ★ ★

In the youthful period of accumulation, it is okay for individuals to put the accent on growth s e c u r i t i e s—common shares.

But after nearly two years of rising stock prices, a family in different circumstances, dependent on interest and dividends, might want in its investment portfolio something in addition to speculative shares.

Even in a well-ordered economic society, it is erroneous to assume that fluctuations are obsolete. The annals of American economic history demonstrate that our growing national economy occasionally takes a step backwards before taking two steps forward.

★ ★ ★

With this in mind, Secretaries Humphrey and Weeks and the Federal Reserve and FHA authorities have recently alerted the public to the fact that the boom has been expanding sharply, and that in the circumstances self-discipline is the better part of valor.

NOT THE ANSWER

Fear and pessimism are not the answer, but rather an intelligent appraisal of forthcoming risks, actual and potential.

The mature answer to such hazards lies in constructive engineering projects, on the one hand, and such compensating arrangements, as property insurance, on the other.

Case Records of a Psychologist

Leader in Hi-Y Introduces Psychology With Discussion of Personality Faults

Howell shows what his progressive Hi-Y Club is doing at Lynchburg, Va. Other such clubs, as well as Sunday School classes, can profitably imitate this splendid example. If you wish to stay sane and happy, you must learn psychology and the sooner, the better.

By DR. GEORGE W. CRANE

Case P-323: Howell Franklin, aged about 17, was in charge of his Hi-Y program last term in Lynchburg, Va.

"Dr. Crane, I have decided to schedule our meeting on the topic: 'Overcoming Personality Faults,'" he informed me earlier.

"And I plan to let every boy take your 'Test for Sweethearts' and then follow up with your rating scale on 'How to Improve Your Personality.'

"I'll need 18 copies of each test to cover my group, and if you have any additional ideas for making the program more interesting, I should appreciate your suggestions."

PRACTICAL STUDY

This type of practical study of psychology is to be commended. And it is going on all over America.

★ ★ ★

You don't need to go to college and graduate school for seven years in order to be a talented applied psychologist.

For you can make psychology your hobby regardless of your present job.

And everybody has access to Scouts or Hi-Y groups or Sunday school classes or women's clubs or Kiwanis, Lions, Rotary, etc.

If your major occupation is being a grocer or salesman or housewife or banker or gas station operator, you can likewise be a psychologist all day long.

In fact, success in almost any line of work is at least 50 per cent due to your knowledge of people. So start making psychology your hobby.

BEGIN YOUNG

And the best time to begin is while you are young. In fact, you can launch the "Compliment Club"

in your home and enlist the cooperation of kindergarten children therein.

★ ★ ★

And the sooner you learn to study people, including yourself, the sooner you will be able to avoid mental breakdowns and insanity and divorce and neurotic ailments of all sorts.

Dr. Menninger recently bemoaned the fact that there are only 8,000 psychiatrists in America when he says we acutely need 14,000 more this very minute.

But we wouldn't need even one psychiatrist if you folks would learn to solve your own problems early in life.

One of the greatest stabilizers of human personality is faith in God. So join a local church and be active in it.

LET GOD HELP

Team up with God. At night when you know you must face a heavy schedule next day, don't pamper yourself with sleeping pills.

★ ★ ★

Instead, tell God that you are trying to be his junior partner, so ask him to take over the night shift for you.

And God will do it, for he never fails you.

But millions of you neurotic Americans are running around frantically from one psychiatrist to another trying to make human idols out of medical men, when you should be going to God.

It would save you lots of cold cash, too, for God can cure you far better than I can, or any other psychiatrist, psychologist or psychoanalyst. We doctors all admit that freely, so what are you waiting for?

If you team up with God, then you will try to treat others according to the Golden Rule.

★ ★ ★

This means your bias and prejudices will vanish and you will offer verbal praise to your comrades via the "Compliment Club" plan which demands three honest compliments per day.

So send for that "Compliment Club" booklet, enclosing a stamped return envelope, plus a dime.

It can save you thousands of dollars in medical bills. It can give you salary increases, more friends and win sweethearts for you, so get in action now.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and a dime to cover typing and printing costs when you send for one of his psychological charts.

Hal Boyle Says:

Today's Teenagers Shun Street Corners

NEW YORK (AP)—The Oddity Almanac:

If you think today's teen-agers do nothing but hang around street corners, you've got the younger generation all wrong.

* * *

A survey by Lester Rand, head of the Yough Research Institute, showed 7 out of 10 American teenagers hold down part-time jobs or earn money on the side. Their chief sources of income: Working in drug or grocery stores, typing at home, baby sitting, ushering in movie houses.

Some 81 per cent of the teenagers receive a regular weekly spending allowance from their parents, but three per cent earn their full support themselves.

* * *

Being a teen-ager today, like everything else, costs more than formerly—and it costs more to be a girl than a boy. The survey showed that girls in the 13 to 15 age bracket outspend boys $2.72 a week to $2.11. The weekly spending of girls 16 to 18 years old averages $7.04, that of boys $6.93.

Teen-agers who date regularly spend an average of $5.55 a week on social activity.

When you get a new dog, do you put a great deal of thought into the selection of its name? Remember, the wrong name may give your pooch a lifelong inferiority complex.

There are changes in fashion in dog names as well as human names. Who today would have the heart to name his dog Fido or Rover?

* * *

A poll by a kennel ration firm showed the most popular canine names now are Blackie, Smoky, Skippy, Pal, King, Spot and Tuffy. Such once-popular names as Towser and Prince were far down the list.

And whatever happened to dear old Tighe?

Oldtime restaurateurs, depressed by the finicky eating habits of today's calorie-conscious patrons, get misty-eyed when they recall the knife and fork feats of "Diamond Jim" Brady, the legendary man-about-town a generation ago.

Frank Bacchi, retired maitre d'hotel at the Manger-Vanderbilt, gives this picture of "Diamond Jim" in action:

* * *

"First he'd have a couple of glasses of orange juice at the bar — he never drank liquor. Then he'd begin a meal with two dozen big oysters trimmed with crabs. And he'd enjoy the aroma of cooking while a whole chicken was being broiled over charcoal for him on the chef's wagon beside his table. With the chicken he'd have Virginia ham and mushrooms. He didn't talk much while he ate. He always wore those diamond studs in his shirtfronts and diamond buttons on his cuffs and vests.

"Nobody would believe how big the diamonds really were."

Oddities in the mailbag: Champagne is regarded by many as an ancient beverage. . . Actually it was invented by a French monk named Dom Perignon in the 17th Century. . . It isn't true—the old legend that the grapes for the finest wines are pressed by bare feet. . . Emperor Charlemagne banned the custom as unsanitary in the year 809 . . . Comic Phil Harris says he's read so much about the bad effect of drinking that he's considering giving up reading.

Reuther Plans Talk in Israel Labor Day

DETROIT (AP) — CIO President Walter P. Reuther will be missing from his old stand in front of Detroit city hall this Labor Day — if contract negotiations with Chrysler Corp. are ended by then.

* * *

Reuther plans to lead a CIO delegation to Elath, Israel, for dedication of the Philip Murray Labor Center there over the holiday weekend. Murray, Reuther's predecessor as head of the CIO, died in 1952.

The Chrysler-UAW contract expires Aug. 31 and workers have voted strike authorization to negotiators if an agreement is not reached by that time.

If negotiations extend beyond the deadline, Reuther said he would cancel the Israel trip.

* * *

If Reuther is missing from the speaker's platform at Detroit's Labor Day celebration, it will be one of the few occasions since he became president of the UAW in 1946.

Britain's gross domestic production climbed 4 per cent in 1954, an increase of pound 625,000,000 ($1,750,000,000) at 1953 prices.

Police in India Shoot Public Enemy No. 1

NEW DELHI, India (AP)—Police shot and killed India's public enemy No. 1 yesterday after a 27-year hunt which cost about two million dollars.

The long pursuit ended at Bind, south of Agra, in the death of bandit leader Man Singh. His gang has been charged with at least 185 murders, countless robberies and kidnapings.

Manchester, England claims it has the longest single railroad station platform in the world — 2,195 feet—although many stations have more than that length of platform, broken into several section.

Jet Age Means Three Breakfasts Per Day

By PHYLLIS BATTELLIE

NEW YORK (INS) — As an experienced jet passenger, with just over 18 minutes flying time, I feel qualified to predict that the jet plane will never replace the horse. It cannot nuzzle its nose in your chin, nor make you a fortune at 99-to-1.

* * *

However, the jet plane will gradually replace everything now airborne and carrying passengers. And, according to an air-crafty gent named Gordon Williams of Seattle, it won't be long either.

Not much more than three summer vacations from now, we should be able to breakfast in London, catch a coffee break in New York, lunch in 'Frisco and indulge in a pre-cocktail dip in the waters of Waikiki.

"Well, you've been up in a jet," Gordy said, "you know what it's like. Wonderful, isn't it?"

"Terrifying," I said, "and confusing. You just get up in the air and your're circling to land." (I have traveled only in a jet two-seater fighter. Two trips, nine minutes, six seconds each.)

* * *

"Oh well, in a small jet there's no comparison. Wait'll you get in the '707,' with 134 other passengers, going 600 miles per hour, all comfortably warmed, cooled, humidified, pressurized and filtered . . . You'll love it!"

Williams is a prejudiced man, since he is in the employ of the Boeing Airplane Co., which makes the "707"—a prototype of America's first and only (in action) jet transport.

* * *

But though he in inclined to go off into raptures about the future of jet travel, coast to coast and continent to continent, it must be admitted he knows whereof he rapts.

"Any day now," he explains, the U.S. commercial airline outfits will take the big step and sink their financial teeth into the zippy "Jet Strato-Liner," which is what the Boeing people suggest their mammoth silver "707" should be named on the Technicolor brochures.

And when they do, the American public will have to wait about three years, to give Boeing time to fulfill its military commitments to deliver about 700-million dollars' worth of Air Force transport jets. Then you and I and all Uncle Sam's chillun will discover that:

1 We can travel 30 to 40,000 feet in the heavens without having the slightest sensation of going anywhere. Maybe TWA will serve jet cocktails and Pan-Am will dish up stratospheric stroganoff — but we will know we are traveling in the celebratory sense only.

2 We will feel calm and cool at 6,000-foot atmospheric pressure conditions, kept that way by expert cabin pressurization.

3 We will have the largest group of fellow - conversationalists to choose from in the history of air travel. Strato-Liners will carry 75 to 135 passengers — almost twice as many convivials as you'll find in the largest airplanes of today.

4 We will be able to dally, but not for long, in the snazzest dressing rooms, cabins and lounges yet invented. But on most flights there will be no time to take berths, because in a lightning jet it would take you half around the world to get a good night's sleep.

When they finally come in, the jet transport will force the current luxury Stratocruisers to be grounded and converted to diners. It will relegate DC7s to aeronautical museums. And what it will do eventually to single-engined aircrafts is a matter for discourse at surplus dealers' conventions.

GM Develops New Turbo-Diesel Motor

CHICAGO (AP) — General Motors Corp. says a new turbocharged diesel engine it claims will boost horsepower per cylinder by 75 per cent will go on sale about April, 1956.

Thomas E. Hughes, general manager of GM's Cleveland diesel engine division, said the division already has manufactured three of the two-cycle, "V-type engines. They will be sold mostly for use in power boats.

Hughes told a news conference yesterday the engine, named the Model 498, is designed to meet increased demands for greater horsepower by marine and industrial markets. He said six-cylinder engines produce 1050 horsepower, 8 cylinder engines 1400, 12 cylinder engines 2100 and 16 cylinder engines 2800.

The old, non-turbocharged engines produced 100 horsepower per cylinder, Hughes said.

About eight million suburban and farm homes now use liquefied petroleum gas.

U.S. Farmer Says Trip Worth $3,000

SPOKANE, Wash. (AP)—Wheat farmer Asa V. Clark came back from a tour of Russia with a single souvenir ruble in his pocket and said the trip was worth the $3,000 it cost, although he learned nothing new about farming.

Clark, whose farm near Pullman, Wash., is in the nation's richest wheat belt, said yesterday on his arrival home he thought some of the land in Russia appeared as good as anything in America.

* * *

Clark is a state senator and at 66 was the oldest member of the United States farm delegation. He said "they took us to their best farms" during the 10,000-mile, 30-day tour.

"We only got to pick one of our own choice."

Despite sumptuous banquets, Clark said he lost 10 pounds on the tour.

* * *

"When you get caviar, tomatoes, onions, cucumbers and everything else morning, noon and night, it gets pretty tiresome. I didn't drink any of their domestic water or milk. We had some bottled water.

"The Russians were perfect hosts — the people almost too friendly. Everybody over there looked well fed and they pushed bushels of flowers at us. And we had to take in a home show every place we stopped."

The American delegates paid their own expenses.

Typhoon Iris Kills 13

TAIPEI, Formosa (AP)—Official reports from southeast Formosa today said 13 persons were killed when Typhoon Iris lashed the area Wednesday. About 50 were injured.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

AT THE FARM—5
The Goose

The goose, a barnyard favorite, walks slowly with her head up high.

Geese have been known for thousands of years and have played an important part in our civilization.

Pictures of geese have been found on old buildings. Until recent times goose quills were made into pens. Goose feathers make good pillow filling. Goose fat is used in cooking. Roast goose is fine to eat. Many of you, of course, have heard the story about the goose that laid the golden egg.

Here's how you can make a goose for your farm collection. Paste down this picture on thin cardboard and color. Some geese are gray, others white.

Cut out the parts along the black outside lines. Then cut through the slot on the shoulder and slip the neck through it. Fasten it with a metal fastener or bent pin. Now you can make the goose move her neck up or down, as if eating.

When you fold the end panels along the dotted lines the goose will stand up.

Lad Idolizing U.S. GI Given Lifetime Thrill

FT. DIX, N.J. (AP)—It was a great day for David Young, who's wanted to be a soldier for most of his five years and whose idol is the American GI.

* * *

Young David was the Army's guest at this post yesterday and he was thrilled in getting to meet two generals and ride in a tank.

But even more exciting was the fulfillment of a dream—he was "inducted," given a special uniform and a helmet liner with corporal stripes.

* * *

And the lad, whose home is in West Collingswood, was appointed honorary aide to the commanding general, Maj. Gen. John W. Harmony.

A letter from David's mother to Ft. Dix, asking for information about visiting hours there, led to the special invitation for the Army-loving youngster.

* * *

His mother wrote that the current idols of most other kids—like Davy Crockett and movie cowboys—played second fiddle to the American soldier in David's affections.

During his visit to Dix, David toured the range areas for a first-hand look at soldier training, rode in a tank, and got to sit on the post's mascot, a Mexican burro. Then came a roast beef dinner in one of the troop messes.

"I want to be a soldier when I grow up," David said as he left.

He Collects Big Family Before Braving LA

LOS ANGELES (AP) — Eighteen years ago Joseph Moreau, Vancouver, B. C., carpenter, visited Los Angeles. He liked it and decided to come back.

Yesterday he returned, this time for good. He brought with him his wife and nine children.

"I didn't want to leave Vancouver before I got started with a family," he explained at the airport.

Court Holds Estate for Polish Legatees

HACKENSACK, N.J. (AP) —The $125,000 estate of a mathematics professor has been placed in Probate Court custody to prevent transfer of funds to heirs in Communist Poland.

* * *

The action was taken yesterday at the request of the attorney for the estate of Prof. William S. Schlauch of DuMont, a New York University teacher who died Jan. 27, 1953.

The surviving heirs to the estate are two daughters—Miss Margaret Schlauch, a former NYU English teacher who went to Warsaw in 1952, and Mrs. Helen Schlauch Infeld, who has lived in Poland for 14 years and is married to a Polish professor who once worked with the late Albert Einstein.

* * *

Atty. John J. Breslin Jr. told Bergen County Judge Lawrence A. Cavinato he feared the money might fall into the wrong hands if he sent it to the heirs in Poland.

The court agreed to take charge of the estate pending an application for money by the daughters.

Arthur A. Donigian, administrator of the estate, said the last he had heard from the two daughters was a letter June 28, 1954, in which Margaret said the Polish state consul had acted favorably on her application for Polish citizenship.

Debris From Bridge Kills 16-Year-Old Boy

STROUDSBURG, Pa. (AP)—Flying debris from a dynamited bridge abutment fatally injured Jon Keifer, 16, yesterday and less seriously injured five others, including four children.

The dynamiting was being done in preparation for the erection of a new bridge to replace the West Main Street structure over the Pocono Creek, damaged by the floods.

Police said the fragments escaped a protective net.

Police Probe Death of Philly Socialite

PHILADELPHIA (AP)—An investigation continued today of the death of 22-year-old Mrs. Doris Silver Ostreicher, red-haired socialite who eloped with a Miami policeman in June but had since been separated from him.

Mrs. Ostreicher, daughter of the vice president of the huge Food Fair grocery chain, died suddenly in the apartment of friends here Wednesday night.

An autopsy was performed yesterday but Coroner Melville Ashton declined to disclose the findings. He said an investigation was continuing.

Ostreicher, at Miami Beach, was notified of his wife's death and flew here.

Village Gets Permission for Grass Seed Sowing

LANSING (AP)—The city of Grosse Pointe Farms will be allowed to plant grass seed along a couple of acres of Lake St. Clair frontage, the Ingham County circuit court decided today.

Grosse Pointe Farms was under an injunction asked by the State Conservation Department preventing the community from further filling in lake lands.

But the city wanted to plant grass on some acreage that already had been filled in.

To make everything legal, the Department agreed to a modification of the injunction permitting the planting to prevent the filled in lands from becoming an eyesore.

Changeover Activity Cuts Car Production

DETROIT (AP) — New model changeover shutdowns will cut deeper into new car production this week and next, Automotive News said.

The trade paper estimates this week's motor vehicle ouput at 132,522 cars and 21,330 trucks. Last week 138,283 cars and 21,270 trucks were built.

"This week's decline," Automotive News said, "was caused by output suspensions by Mercury and Packard. Also idle this week were Chrysler division, Dodge, DeSoto, Hudson and Nash."

It added that changeover shutdowns get under way at the Ford and Plymouth plants next week.

Haiti's current population is estimated at three million.

National Red Cross Head Lists Flood Damage Toll

In a telegram to the Oakland County Chapter of the American Red Cross, E. Roland Harriman, national chairman, listed the damage toll in the flood-rocked states on the east coast.

Harriman stated that the county's quota for flood relief funds is $13,320, while the total Red Cross commitment for the rehabilitative program has mounted to $8,000,000.

With 75 persons contributing, the Oakland County chapter now has nearly $1,800 going to aid flood victims, said Mrs. Mildred Bennett, director. Fifteen Pontiac citizens have donated, she added.

In his message, Harriman requested the county chapter to report twice a week on the progress of its fund drive, as the money is being distributed immediately throughout the six-state disaster area.

Harriman's latest report contained the following figures:

Homeless families—34,612.
Homes destroyed—557.
Homes seriously damaged—3,758.
Homes slightly damaged—9,856.
Counties affected—54.

He added that 8,000 families have registered with the Red Cross for long-term rehabilitative assistance.

There are 3,800 Red Cross chapters in the U. S. participating in the flood relief campaign. The Oakland County Chapter of the Red Cross is located at 118 Franklin Blvd.

Uranium Stock Issues Halted

State Orders Cessation by Non-Operating Mine Company in Nevada

LANSING (AP)—A Nevada uranium company was ordered to stop selling its stock today after state officials said they found Bay City residents had invested $265,000 in the firm before uranium drillings were made.

* * *

James C. Allen, state corporations and securities commissioner, said 669 residents of Bay City had bought stock in the company "despite the fact that no drillings were made to determine the amount of quality of the uranium present, if any."

Allen said funds were paid to a Victor L. Smith of Tonopah, Nev. Also named in the commission order were a Mrs. Elizabeth C. Kunz, Leonard F. Klida Sr., Elmer L. Pressler—all of Bay City—and Frances Brown and Napoleon Z. Casault of Los Angeles.

Allen said Smith owned a group of uranium mining claims near Tonopah, Nev., in November, 1954. Through his Bay City contacts, he sold $60,000 worth of the stock to 218 investors.

Early this year, Allen said, Tonopah United Uranium, Inc., was formed. The company took an option to buy claims in the original pool for $650,000.

This was widely represented as an actual sale, Allen said. Many Bay City people, excited by what looked like a huge profit to the first investors, hurried to invest in subsequent pools.

Boy Found Alive Wedged in Icebox

DETROIT (AP)—Missing for two hours, 4-year-old Gary Patterson was found jammed between two narrow shelves when his mother opened the refrigerator last night to get a bottle of milk.

Nine-days-old baby sister Linda had cried for food. This may have saved Gary's life.

The boy's disappearance had touched off a police search.

* * *

"He was frothing at the mouth when I found him," Mrs. Thomas Patterson said.

Taken to a nearby hospital, Gary was warmed and sent home.

He couldn't explain how he wedged himself into the narrow shelf space but he insisted:

"Somebody shut the door on me."

Germans Left Idle in Labor Walkout

FRANKFURT, Germany (AP)—Spreading labor walkouts left 25,000 workers idle in West Germany today.

Shut down by wildcat stoppages were two big shipyards in Hamburg and the giant Henschel locomotive works at Kassel. The building industry in the Lueneburg area was hit by a union-supported strike of 1,500 construction workers.

The strikers are demanding pay boosts to meet rising living costs.

The West German government yesterday ordered an inquiry into charges that the strikes were Communist-led.

German Firm Tests First Postwar Plane

MUNICH, Germany (AP) — The Dornier Aircraft Co., builders of huge flying boats and fighter-bombers in the Hitler era, test flew its first postwar plane near here today.

The craft is a single-engine, two-place plane with relatively slow speed.

After World War II, West Germany was barred from the manufacture of airplanes. Earlier this year the Paris treaties on rearmament of the country permitted the manufacture.

Howard Hughes' Aide on Third Honeymoon

BEVERLY HILLS, Calif. (AP) — Honeymooning today are Noah Dietrich, 66, wealthy industrialist and associate of Howard Hughes, and Mrs. Mary Alice Brewer, 34. They were married yesterday in Mrs. Brewer's home by Judge Henry L. Draeger.

It was Dietrich's third marriage, the second for Mrs. Brewer. They will go to Europe in November on a delayed honeymoon.

Good Samaritan Turns Robber, Takes $270

SANDWICH, Ill. (AP) — A good Samaritan turned robber and took $270 from Robert Dieterline.

It happened this way, related police chief Carl Water:

Dieterline, of Sandwich, had a flat tire Wednesday near Sandwich. A motorist stopped to help. After they repaired the tire, the unidentified motorist kicked Dieterline in the stomach and took his wallet containing $270.

Dieterline scribbled the license number of the fleeing auto on a towel. But he couldn't read his scribbling when he went to police to report the robbery.

Hoffman Wants Erosion Funds

Maintains Lake Damage Equals Losses Suffered in Flooded East

BENTON HARBOR (AP) — Rep. Clare E. Hoffman (R-Mich) claims that Great Lakes erosion damage is worthy of Federal aid if the flood and hurricane swept east is "entitled to 80 millions worth of federal relief aid."

Hoffman's statement followed President Eisenhower's flying inspection of eastern states damage and call for emergency measures.

The Michigan Congressman asked the President "take a look at the eastern shore of Lake Michigan," contending that Michigan shoulo be included in the emergency relief.

Lake Michigan residents have been plagued by a receding shoreline the past several years.

"There is no difference between the tragedy in the East than along these shores and elsewhere around the lake," Hoffman stated, except that our damage is not quite so extensive."

Hoffman said the U. S. Corps of Engineers has the necessary data and information on the Lakes damage and could move in without delay if the President so directed.

Williams Earmarks Special Session Date

LANSING (AP) — Gov. Williams today set Oct. 25-28 as possible dates for a special session of the legislature to consider problems of highway safety and mental health.

In a letter to legislators, the Governor said he would reserve those dates but would consider the possibility of calling a session the following week.

Williams said he would "gratefully receive" any suggestion legislators have on the problems of highway safety or mentally retarded children.

Detroit Senior Is First Under New Reserve Act

DETROIT (AP) — A Detroit high school senior is the Fifth Army district's first enlistee under the New Reserve Forces Act.

He is Michael G. McMath, 17, and he joined up under the eight year enlistment program. The district covers 13 states.

After completing his high school studies, McMath will go on six months of active duty and then will be placed in the ready reserves for 7½ years.

U.S. Postpones Red Meeting

Question of Americans Held by Peiping Regime Near Settlement

GENEVA, Switzerland (AP)—The United States today requested a four-day postponement of tomorrow's scheduled meeting with Communist China on the question of Americans detained by the Peiping regime. There was growing speculation that the issue was near settlement.

U. S. Ambassador U. Alexis Johnson, who has been carrying on the talks with Red China's ambassador Wang Ping-nan since Aug. 1, requested the postponement. He gave no reason. The Communists agreed to the request and the next meeting was set for 8 a.m. Wednesday.

The postponement request came on the heels of official confirmation in New Delhi that the United States is discussing with India a proposal involving the help of Prime Minister Nehru's government.

Indian officials said the United States suggested informally that the Indian Embassy in Washington and Indian consulates be placed at the disposal of Chinese nationals in the United States who might wish to be repatriated to Communist China.

There also have been reports from Washington that the talks here might take a decisive turn soon.

Polio Shot Clinics' Attendance Boosted

Attendance at the two county anti - polio makeup shot clinics showed an upswing yesterday, and health officials have decided to continue the program another week, said Dr. John D. Monroe, County health director.

Doctors at the Pontiac clinic inoculated 65 children yesterday, while 62 youngsters were treated at the Health Center in Royal Oak. Thursday's results bring the total inoculated to 2,242.

Termination date for the makeup shot program will be announced later, depending on next week's turnout, Dr. Monroe said.

Local health department authorities will decide whether or not to hold mass vaccine programs in city schools after conferring with school authorities, he explained.

Both clinics are closed Saturdays. Operations will resume Monday in Pontiac and Royal Oak from 9 to 11:30 a.m. and from 1 to 4 p.m.

The Pontiac clinic is at 15 W. Huron St., while the South Oakland County Health Center is located at 12401 E. Fourth St., Royal Oak.

Murder Warrant Issued Here Today

A first degree murder warrant was issued this morning against 32-year-old Ray Goff, Flint factory worker held in the fatal shooting of a Flint divorcee Sunday morning, according to Homer G. Gerue, assistant Oakland County prosecutor.

Gerue said arraignment date will depend upon Goff's release from Pontiac General Hospital, where he is recovering from self-inflicted wounds.

A suicide note, written by Goff, and turned over to the prosecutor's office, definitely placed the motive of the shooting as jealousy.

The dead woman, Mrs. Rita Cummings, 27, broke off a romance with Goff after she had divorced her husband, Bert, Gerue learned from relatives.

Williams Issues Plea to Aid Flood Victims

LANSING (AP)—Gov. Williams today called upon Michigan residents to support programs for the relief of flood-stricken areas in the East.

The Governor said Michigan well knows the meaning of natural disaster from the Flint tornado of 1953.

"During our period of suffering we were gratified by the nationwide response to appeals of aid," he said.

3 Detroit Teenagers Injured in Accident

Three Detroit teenagers were hospitalized after their car failed to make a curve in Addison Township last night and rolled off the highway, according to State Police.

Reported in good condition this morning at St. Joseph Mercy Hospital was Larry R. Steffes, 18, the driver of the car. He suffered a fractured foot and a possible concussion.

Betty Sitek, 19, a passenger, suffered multiple abrasions, bruises and a possible concussion. Her condition was good. Her sister, Catherine, 15, was listed as fair with a fractured pelvis and leg and back injuries.

State Police of the Romeo Post said Steffes admitted he was traveling 60 mph going into the curve and lost control of the car. He was ticketed for speeding.

Statutory Rape Charge Faces Independence Man

Examination has been set Sept. 1 for Charles Garten, 27, of Independence Township, charged with the statutory rape of a 12-year-old girl.

Garten was arraigned before Springfield Justice Emment J. Leib yesterday and pleaded innocent to the charge. He was placed in Oakland County Jail after failing to furnish a $3,000 bond.

'Little Mothers' Take Their Duties Very Seriously

Dolls are lots of fun to play with, as every little girl will agree, but Suzanne Davison (left) lays her dolls aside when she has a chance to play with her 14-month-old sister, Pamela. They are the daughters of Mr. and Mrs. Kenneth Davison of Willard street.

Marilla Corwin (left) and Christine Emerson get all dressed up when they go for a walk with their dolls on sunny summer afternoons. Their parents are Mr. and Mrs. James Corwin and Mr. and Mrs. William Emerson, all of West Iroquois road.

"Rock-a-bye baby" is the tune Jennifer Eis hums each day as she puts "Sally" to sleep. She is the daughter of Mr. and Mrs. Walter Eis of Bloomfield Hills.

Pontiac Press Photos

Kathie Sue Miller, daughter of Mr. and Mrs. Max L. Miller of Maynard court, finds that giving her doll a bath is a task to be done with care. It's easy for some of the sudsy bath water to get in the "baby's" eyes or on her real hair.

Prejudices Hinder Job Advances

By ANNE HEYWOOD

There is a definition of prejudice which goes like this: "Prejudice is making up your mind that you hate somebody before you have ever met him." But as far as I am concerned, prejudice is something which stands in the way of people's advancement in business more than they ever imagine.

* * *

Most surveys of business success have come to the conclusion that specific skills and experience are vastly less important than personal characteristics, such as the ability to get along and cooperate with others. Prejudice makes such cooperation impossible.

I know a girl who is in line for a big promotion in her department. But three times running, she has been by-passed and someone else has been given the promotion.

She thinks it is terribly unfair, sulks about it a good deal and calls it "office politics."

However, I know her employer and here is what he says:

"Miss K. is a good worker and is very conscientious. She gets along with most of the girls in the department all right, but she is violently prejudiced against the members of a certain church.

FOUR GIRLS

"There are four girls who belong to that church in her department. She just won't have anything to do with them, hardly speaks to them, in fact.

"The trouble is, if we promote Miss K., she will be in a position to supervise people, to hire and fire them.

"We simply couldn't trust her in such a position, because we're afraid her prejudice would affect her decisions and that would be disastrous."

* * *

If you are prejudiced against any group of people, better take steps to change your thinking, if you want to get ahead.

First of all, you have to face the fact that you are prejudiced. Don't kid yourself by thinking, "They're all right to work with but I wouldn't have lunch with them or meet them socially."

That's prejudice, pure and simple. After you have faced it, there are a few other steps to take.

To begin with, realize that prejudice is composed of equal parts of ignorance and fear. Get acquainted, really acquainted, with people from the groups you are prejudiced against, and you will find that knowledge and understanding will help eliminate the prejudice.

Then, try to discover what it is that you yourself are afraid of. Maybe you are not doing a good job and are afraid somebody else will replace you. And so you rationalize this into dislike of a large group!

HAVE A TALK

Finally, have a talk with your minister, priest or rabbi. Chances are that he will help get you over your prejudice and give you some idea of the concept of the brotherhood of man.

Prenuptial Shower Given for Jean Wasserberger

Jean Wasserberger, bride-elect of John Ostrander, was honored Thursday evening at a miscellaneous shower given by Mrs. Carroll Braid and her daughter, Normalee, at their Rosewood drive home.

* * *

Sept. 18 is the wedding date chosen by Jean and John. Their parents are Mr. and Mrs. George Wasserberger of Illinois avenue and Mr. and Mrs. J. E. Ostrander of Lowell street.

Gifts were presented to Jean in an umbrella of tiered pink taffeta. The refreshment table was covered with a pink cloth and centered with an arrangement of pink and white flowers, interspersed with vari-colored miniature umbrellas.

Mrs. Wasserberger presided at the punch bowl. Guests besides mothers of the bride-elect and prospective bridegroom were Mrs. Aldred Ostrander, Mrs. Roy Stroupe, Mrs. F. E. Bonner, Mrs. J. A. Rammes, Mrs. H. J. Vanwelt, Mrs. Etta Campbell and Mrs. V. E. Campbell.

Others were Mrs. Martin Wager, Mrs. William Knudsen, Mrs. G. R. Every, Mrs. Marcus Scott, Mrs. George Stout, Mrs. Edwin Anderson, Mrs. Charles D. Welden, and Mrs. V. C. Abbott.

Mrs. Joseph L. Bennett, Mrs. Harley Levely, Mrs. G. H. Schellenberg, Mrs. Glenn Campbell, Mrs. Cecil Newstead and Mrs. Paul Line also were guests.

Completing the guest list were Linda Schellenberg, Dorothy Ostrander, Janet Wasserberger, Mrs. Lloyd Poole of Royal Oak and Mrs. Martin Poole of Davisburg.

Birmingham Group to Spend 2 Months Touring Abroad

BIRMINGHAM — Next Friday a group of six Birmingham women will embark on a two-month trip abroad. They will sail Sept. 3 on the SS Liberte and will be gone until late October.

Included in the group are Mrs. C. D. Hartsuff, Mrs. James Roach, Mrs. Roswell Curtis, Mrs. Franklin Robbins and Mrs. William McCullough.

* * *

Mrs. William Goodrich and her two small daughters have come from Richmond, Va., for a visit with her parents, Mr. and Mrs. Lewis B. Sappington of Arlington drive.

Mr. and Mrs. Sappington have recently returned from a trip abroad.

* * *

Mr. and Mrs. Alan Hopkins have come with their two small sons from Baltimore, Md., for a visit with Mr. and Mrs. Spencer D. Hopkins. They came to attend the wedding of Carlye Scott on Saturday. The bride-elect and Mrs. Alan Hopkins are sisters.

RETURN TO OKLAHOMA

Mr. and Mrs. Robert Rizley have returned to their home in Tulsa, Okla., after a visit with Mrs. Risley's parents, Dr. and Mrs. William Lloyd Kemp of Yarmouth road. Also at the Kemp home this summer were Capt. and Mrs. Stanley Reinhart of West Point, N. Y.

* * *

Mr. and Mrs. William H. Burgum have as their guest Mr. Burgum's mother, Mrs. H. P. Burgum of Salinas, Calif. Mrs. Stanley Peabody will give a luncheon for the visitor on Saturday.

* * *

Judy Tuttle, daughter of Mr. and Mrs. Bruce M. Tuttle, has set Sept. 10 for her marriage to Murl Webster. Catherine Hendrickson will be Judy's only attendant. Catherine, with Julie Kelley, will entertain for the bride-elect Sept. 7.

* * *

Kit Scheifele was hostess at a party Tuesday evening honoring Patty Layland who will marry Don McLean on Saturday. An unusual feature of the party, planned by Kit's mother, Mrs. Webster Scheifele, was that the hostess was unable to be present.

Kit is still away on a trip but the girls were school friends and about 20 others made up for her absence.

ENTERTAIN VISITORS

Mr. and Mrs. Irving A. Duffy of Manor road have as their houseguests this week Carter Brown of Tryon, N. C., Brig. Gen. F. W. Boye of Warrington, Va., Ernst Mahler of Milwaukee, Wis., and Maj. Robert Borg of Oregon.

The group is conferring with Mr. Duffy on plans for the training center in Tryon for the 1956 Olympic equestrian events in Sweden next summer.

The Duffys' son, Frank, won top honor in the Olympic trials in Nashville, Tenn., last year and will participate in the trials at Metamora this Labor Day weekend.

Bride-Elect Marilyn Shearer Honored

The Robert B. Tarr residence on West Iroquois road was the setting for a miscellaneous bridal shower Thursday evening honoring Marilyn Shearer. Mrs. A. L. Locklin assisted Mrs. Tarr as cohostess.

* * *

Marilyn will become the bride of Bruce C. Jacobsen on Sept. 17 at Bethany Baptist Church. The bride-elect is the daughter of Mr. and Mrs. George S. Shearer of West Iroquois road, and Mr. and Mrs. Harold S. Jacobsen of Pine Lake are parents of the prospective bridegroom.

An arrangement of rosebuds fugi chrysanthemums and pompons, shaded from pink to orchid, centered the refreshment table. Pink tapers illuminated the dining room as Mrs. Shearer and Mrs. Jacobsen presided at the silver service.

A miniature bridal party was also used in carrying out the wedding motif.

* * *

Guests honoring Marilyn were Mrs. James Aldrich, Mrs. Charles Shearer, Mrs. John Shearer, Mrs. Luella Kimball of Birmingham, Norma Strickland, Mrs. Merritt D. Hill of Bloomfield Hills, Mrs. Orpha Fisher and Mrs. Marvin K. Boney.

ALSO ATTENDING

Others were Mrs. Vernon C. Abbott, Mrs. Scott Topp, Mrs. Avery Shearer, Mrs. Jean Kremer, Mrs. Lowell Bailey of Midland and Mrs. Harold S. Jacobsen Jr. of Lake Orion.

Invited from Rochester were Mrs. Harry Tripp, Mrs. Arthur Tripp, Ruth Tripp and Mrs. Cletus Ledford.

Still other guests were Mrs. Jason Inscho, Mrs. James Bensken, Mrs. Virginia Lamb of Birmingham, Mrs. Maurice Malarney, Mrs. Frank J. Moreau and Mrs. M. F. Hastay of Eaton Rapids.

The Occasion Decrees Men's Dress

By ELIZABETH WOODWARD

"Dear Miss Woodward: I've been going steady with him for about eight months and I have yet to see him all dressed up in a suit! I have asked him several times if khakis are the only thing he owns, and he can't seem to take the hint. We live in a small town and it is not customary for boys to dress up, even on dates with girls. Have you any advice to give me to help me get him into a suit?"

Answer: Girls are supposed to be the fad-conscious ones. Unless they wear what the other girls consider the height of fashion, they can't appear in public. If it's pedal-pushers, shorts are out. If it's billowing skirts, straight pencil skirts are poison. And when everybody's hair is cut in straggling wisps, that's the way we wear it.

Boys are even more rigid in following the leader. Anything except the prescribed favorite pattern is "faggy." Short sleeves have to be rolled up to the shoulder. Khakis are standard. Shorts are for the grown men. And sport shirts and bathing trunks are of a loudness. They adhere to the fashion with a stubborn fidelity. And for exactly the same reasons girls do.

Boys have, however, a strong feeling for the fitness of things. When the occasion demands that they get all gussied up, they'll do it. Nobody appears at a prom in khakis. They'll go prepared to a restaurant that requires coats and ties on the gentlemen. They'll sit in church with their coats on. And, strangely enough, they'll be comfortable because they know they're doing the right thing.

If it's not customary for the boys in your town to get dressed up for dates with their girls, perhaps they don't even own suits. Khakis and sport jackets with flannels are the pattern.

Nobody dresses up more elaborately than that, particularly in the summer. It's mostly because that's all their social lives demand. There's no occasion for "putting on the dog." Even their dates with girls are informal.

The only way you can satisfy your own desire to see your boy friend all beautiful is to create a social situation in which getting dressed up is obligatory. But don't be surprised if he has something else vital to do that night—if it may mean going out and buying coat and pants that match just to go out with you.

He's not likely to make that big investment if he's going to be the only boy dressed that way; if he's only going to wear it now and then; if he's going to outgrow it right away.

When the normal course of his life demands such a costume he'll invest—if you can wait that long.

BETTY JEAN ALLISON

Mr. and Mrs. Orville Allison of Baxter court are announcing the approaching marriage of their daughter, Betty Jean. She is the bride-elect of Robert Mathews, son of Mrs. Walter Mathews and the late Mr. Mathews of Cottage street. The wedding date has been set for Oct. 7.

Jewish Youth Holds Conclave

Camp Nehelu in Ortonville is the site of a Jewish Youth Conclave. Sponsored by Michigan State Temple Youth, the conclave was organized to give members of Reformed youth groups throughout the state a better understanding of Jewish cultural education.

The conclave is in progress from Aug. 25 through Aug. 28.

Attending from Temple Beth Jacob Youth Group are Judith Levine, local president; Edward Kentzer, vice president; Judith Dickstien, newly elected secretary of National Federation of Temple Youth, and Jeff Siegel.

Sponsors Honored by Les Filles Club

Les Filles Club members were entertained recently at a punch party. Kathie Hunter was hostess in her West Iroquois road home.

The occasion was to honor the club's sponsor, Carolyn Dalley, who is leaving for California. The club also met its new sponsor, Mrs. Eugene Carey, who is a former member of the group.

Marilyn O'Brien of Flint, Kathie's houseguest, was also present.

NANCY JOHNSTON

The Donald D. Johnston's of Woodbine drive announce the engagement of their daughter, Nancy, to Philip J. Hunt, son of Mr. and Mrs. Hubert T. Hunt of Ecorse. Both are attending the University of Michigan where Nancy is affiliated with Alpha Delta Pi and Philip with Alpha Kappa Kappa. A December wedding is being planned.

Always Tell Fill-In Guests of Customs

Your Friends Will Appreciate Thoughtfulness

By EMILY POST

A wife tells me: "My husband and I belong to a bridge club that meets once a month. At our last party, at which I was the hostess, one of the couples was unable to come and, not being told of this until the last minute, I had to find another couple to take their places on very short notice.

"Naturally I considered it a great kindness to me that these extras agreed to come. It is a custom of the club for each couple to contribute one dollar at each party, the total of which is divided and given as first and second prizes. The night of the party, one of the men went around collecting the money from each couple. The substitute player looked rather surprised at this but gave the dollar willingly.

"I have been wondering ever since whether my husband, as host, should have paid the dollar for them as they were doing us a favor by filling in. Will you please give me your opinion so that I will know what to do should this happen again?"

Answer: If the visiting couple had the same chance to win as the other couples and you had told them of this when you invited them, then they certainly should pay. Otherwise they shouldn't have been asked.

"Dear Mrs. Post: Do good manners require a host, or hostess, in order to avoid embarrassing a guest, to deliberately make a mistake either in pronouncing a word, or in their table manners just because a guest in their house had done so?"

Answer: No, on no account. You just pretend you didn't see it.

"Dear Mrs. Post: Is it wrong for a girl to be the first one to give her boy friend a gift? They have known each other about six months and during that time, he has not given her a present. His birthday is coming soon and she wondered whether she could give him a gift?"

Answer: A gift of small value would be entirely proper.

Piano keys should be cleaned regularly. Take a dust cloth and wipe off surface dust. Then wash quickly with a cloth wrung out in warm sudsy water, and dry immediately. Apply a creamy kitchen wax to remove all smudges and finger marks without discoloring either plastic or ivory keys. The wax leaves a lasting protective coating, too.

Women Add Serenity to Family Life

By MRS. MURIEL LAWRENCE

A friend took me recently to a Japanese Tea Ceremony.

* * *

The woman who officiated was as delicately lovely as the cups she handled. But beauty was not her power. Her power was the reverence with which she performed her ancient ritual of service.

Each tool was lifted, given its moment of gentleness and then, gently, unhurriedly restored to its place. Each of her moves contained her total interest and devotion.

The effect of this deep respect for her own actions was the creation of serenity. In her graceful presence, no disordered emotion was possible.

I was remembering her today as I read a letter that contains this passage: "I want to go back to my work and my husband won't let me. Is it wrong for me to want to make money by the skill my education gave me? My husband can't afford the many advantages my earnings could give our two children. If I can do something better than housework, why shouldn't I?"

There is nothing better any woman can do than create serenity for her man and her children.

ATTITUDES DIFFER

Because men think it's splendid to buy lots of material things is no reason why we should. They have to think it's fine. They are producers of ideas and things. We are not. We are producers of people.

It is a responsibility not to be lightly discarded for a money-making skill.

* * *

I have a suggestion for my correspondent.

Tonight, let's turn getting dinner into a ceremony.

Let's give devotion to every action as we take it. Instead of grabbing the potato to be peeled, let's lift it slowly. Since our minds are given to what we're doing, we close out resentment of our husband's pay check and ambition to surpass it with one of our own. So our hands become gentle with the potato, the water tap, the table silver.

We find ourselves growing quiet, our action no longer disordered with agitated envy of money-earning men, but ordered by respect for ourselves as the Nourisher, the Woman. For that's who we are every time we peel a potato or put a pot on the stove.

In situations like my correspondent's, the choice is seldom between a job and homemaking. Nearly always, it goes much deeper. It's the choice between male ambitiousness and womanly acceptance; between envy of men and respect for ourselves; between lust for material things and peace.

And though I can't possibly tell another woman whether or not she should leave her children to buy them more things, I do know that we women cannot solve our problems by male solutions.

* * *

The Japanese Tea Ceremony I attended seemed a most dramatic illustration of feminine power.

While you're reading or watching television, get your feet into shape for fall shoes by giving them a soapy soaking. Then follow up with a pumice stone. Does wonders.

CORNER OF CASS AND LAWRENCE

Bonanzagram Answer Worth $1,000

Mr. and Mrs. C. figured out their daughter-in-law's message. If you also figured it out and submitted the right answer you be in line for the $1,000 prize. Here is how they worked it:

HOPE YOU WON'T MIND. Ellie had "stopped at the motel earlier in the week" to leave this message, so she uses the future tense.

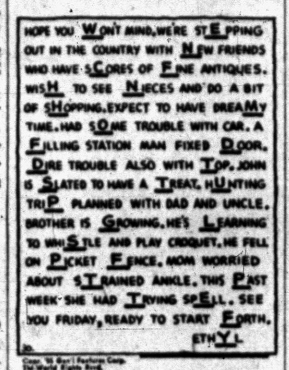

WE'RE STEPPING OUT IN THE COUNTRY. STEPPING OUT, meaning, colloquially, going out for a good time, is in accordance with the story clues which mentioned "unexpected festivities." WITH NEW FRIENDS is also suggested by the word "unexpected," and is more informative than the vague word FEW. WHO HAVE SCORES OF FINE ANTIQUES. SCORES, meaning a large number, is a neater fit than STORES, which also meaning a great quantity or number, has the implication of an abundance of things in reserve or storage.

FINE is better than any other adjective for the ANTIQUES. It is unlikely the valuable old furniture would be made of PINE, even the hard Georgia variety.

WISH TO SEE NIECES AND DO A BIT OF SHOPPING. This is a further reason for taking the extra day. Ellie wants to see all her family while she has the chance, and will evidently see her NIECES en route to visit the NEW FRIENDS. A BIT OF SHOPPING in her home town would be enticing too. This is more probable than WISH TO SEE PIECES (of the antique furniture) AND DO A BIT OF SWOPPING.

EXPECT TO HAVE DREAMY TIME is also more in character; DREARY would obviously not fit the mood indicated in both story clues and message.

HAD SOME TROUBLE WITH CAR. Probably harking back to talk with the elder C's before they started, Ellie reports SOME TROUBLE. If it were the SAME TROUBLE, it would be hardly worth reporting. A FILLING STATION MAN FIXED DOOR. WILLING, as a description of an obliging sort of person, is not likely phrasing here. DOOR is the word, because POOR TIRE would not be usual phrasing. The story clues mentioned a "battered, old convertible," so DIRE TROUBLE ALSO WITH TOP is very much to the point. If a COP had entered the story, Ellis would undoubtedly have gone on to tell what happened.

JOHN IS SLATED TO HAVE A TREAT. The TREAT is for future action, and is a HUNTING TRIP PLANNED WITH DAD AND UNCLE. This is more logical than A GREAT HUNTING TRIP.

BROTHER IS GROWING. We don't know how old he is, but his growth in the past year, could impress Ellie enough to warrant mention whereas CROWING, i.e. bragging, would be of much less importance. HE'S LEARNING TO WHISTLE AND PLAY CROQUET. LEARNING is more positive than merely YEARNING. And LEARNING TO WHISTLE would probably be more of an accomplishment than TO WHITTLE, which almost any small boy can do, even with a dull knife. HE FELL ON PICKET FENCE. The alternative HE FELL ON WICKET, HENCE MOM WORRIED would sound rather stilted. Ellie would be more apt to use "so" or "therefore." So in spite of the reference to CROQUET, the fall was ON PICKET FENCE. MOM WORRIED ABOUT STRAINED ANKLE. A SPRAINED ANKLE would probably require the services of a doctor; a STRAINED ANKLE would call for home treatment, plus a little fret and worry from mom. THIS PAST WEEK SHE HAD TRYING SPELL. THIS PAST WEEK is more conventional phrasing than THIS LAST WEEK. CRYING SPELL, without further explanation, unlikely and if she, too, had had a SPILL or fall, Ellie would have not been so casual about it.

SEE YOU FRIDAY, READY TO START FORTH. It's not START NORTH because the story clues did not mention where their home was, and they may be going south or west from Vigrinia.

Ellie's real name may well be ETHEL. But some girls perfer the fancier spelling, with a "y". At any rate, appropriate to the motor trip setting of the story, the signature is ETHYL.

Luxury Ship Nightclub Returns to Muskegon

MUSKEGON (AP)—Harbor spokesmen report the SS Aquarama, Great Lakes luxury ship, now moored at Chicago's navy pier, will return to Muskegon next month.

The vessel has operated this summer as a floating nightclub at its Chicago dock.

Reports indicate she will be towed back to Muskegon for the winter while undergoing finishing touches on the conversion work that started two years ago. The Aquarama formerly was an ocean-going cargo ship.

It is expected to sail to Detroit next spring to enter her first season as a cruise ship between Detroit and Cleveland.

City Manager Resigns

WHITEHALL (AP)—City Manager Howard Gwinnup has resigned, effective Sept. 1, charging the City Council with "lack of cooperation." In his letter to Mayor Alfred Woller, the manager said he had something else in mind in the way of work. Gwinnup has been Whitehall city manager since 1945. He came to Whitehall from Anderson, Ind.

Steel Demands Will Increase

'Iron Age' Says Supply Requests Will Swamp Mill Producers

NEW YORK (AP) — Customers yelling for hard-to-get steel "haven't seen anything yet," the Iron Age, national metalworking weekly, states.

"The steel industry is headed for new records in order volume, in production and in the delicacy of customer relations," said the publication. "These will start a building after Labor Day and will swamp individual steelmakers."

* * *

Iron Age said a slight dip in auto steel shipments has "served but to butter up some angry feelings of other steel customers whose deliveries were hopelessly behind original promises." It said prediction that steel supplies will be in better shape by the fourth quarter are "wishful thinking."

"The hard hit northeastern sections of the country will need large tonnages of structural and plates for bridges knocked out by flood waters," Iron Age added. "Emergency calls for other steel will be made—all of which will tend to further tighten up the steel picture.

"Soon the auto industry will be stepping up its already high level order volume for sheets, bars, stainless and other products. The pace of 1956 car output will be even with or ahead of last year's fast tempo. During the balance of this year, demands from construction, railroads, farm implement makers, appliance manufacturers and from hundreds of miscellaneous steel users will be piled upon the record requirements of the auto industry. There will be enough incessant steel demand to support 100 per cent operations for some time.

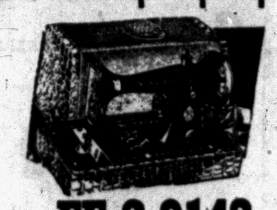

"But mills are in no position to reach 100 per cent operations in the near future. Repair programs are not completed—hurricane rain set one large steel plam on its ear this week.

"More rehabilitation is needed to put equipment in tip-top shape. Steel deliveries will slip further behind in September and backlogs will mount."

SPELLING WAY TO FORTUNE — Gloria Lockerman, 12-year-old spelling expert from Baltimore, Md., holds a dictionary awarded her after she correctly answered the $16,000 question on the quiz show, the "$64,000 Question," in New York Tuesday night. AP Wirephoto

The 9th-grade student reached the $16,000 mark by spelling correctly a tongue-twisting 7-word sentence: "The belligerent astigmatic anthropologist annihilated innumerable chrysanthemums."

Flood Scene--Grim Death and Desolation

WATERBURY, Conn. (AP) — The Naugatuck Valley, known as Connecticut's "industrial lifeline," is as smashed by floods as though a Panzer division traveled its length with all barrels blazing.

"It looks like the end of the world," muttered an old man on Torrington's East Main Street, shaking his head unbelievingly at the damage.

"I'm near 80, and I thought I'd seen everything, but never anything like this."

* * *

From Torrington, down through Thomaston, Waterbury, Union City, Naugatuck, and on to Seymour, Ansonia and Derby, grim scenes still unfold a week after the waters struck.

Waterbury presents one of the starkest pictures in its so-called "Brooklyn" section.

There the search for bodies still goes on in the masses of debris.

The scene is concentrated on a knocked-out railroad bridge.

So powerful were the floodwaters that freight cars on the bridge were knocked about like egg crates.

One green and yellow box car was thrown into a tenement house, ripping away the side of the building. The green and yellow car stands on a red car, which in turn settled on top of a black open freight car.

* * *

Wedged against what's left of the bridge are tons of lumber and other wreckage.

"There are still bodies in there," said George Russell, a Health Department inspector.

A concrete highway bridge just below and parallel to the railway bridge still stands. But against it lies an uprooted six-family tenement.

Other houses simply evaporated. You see a foundation here, a sink there. That's all that tells you that Riverside Street once was lined by homes.

* * *

Even residents of Waterbury are barred from this roped-off disaster area, patrolled by National Guardsmen. Only those on emergency duty are permitted in.

Bulldozers and cranes remove the wreckage, almost piece by piece. And as they do, another body turns up. Civil defense workers go through the area spraying buildings still standing with DDT the way a farmer sprays his orchard.

The floods, ironically, now are producing virtual duststorms as the mud dries.

Even in the center of the city, flooded but less hard hit than the Brooklyn section, the dust stirred up by traffic and winds is such that traffic policemen wear masks.

In Torrington, the voice of a tough-looking policeman quavers as he says:

"We've never had anything like this—not in the memory of the oldest residents or anywhere in the records."

* * *

Right in the center of the city was a European-style bridge that held eight stores, four on either side. The bridge is gone and so are the stores.

The water swept down Torrington's East Main Street, reaching to the marquee of the Palace Theater, flooding the A&P supermarket and scores of other business establishments.

* * *

"I live on the top floor," said the old man. "I woke up and looked out and all I could see was yellow water. Motorboats were going around, taking people out of windows."

Hight at 494 Whittemore St. Left to right, they are: Mrs. Edith Robertson of Hamilton, Ont.; Mrs. Ella Weaver of 43 Osmun St., Pontiac; Mrs. Esther Cheevers of Chicago; Mrs. Daisy Hight (the host); and Mrs. Mabel Einboden of Los Angeles. Two other sisters are Mrs. Hattie Pearn of Southwold, Ont., and Mrs. Lillian Gray of Los Angeles. They have one brother, Walter Grantham of Hamilton, Ont.

'Current Events and World Affairs' Opens Twenty-Fifth Year in Detroit

DETROIT (AP) — "Current Events and World Affairs" — reputedly the nation's oldest continuous discussion group — starts its 25th year this fall.

As in the past, Prof. Wesley H. Maurer's quiet voice but provocative guidance will be much in evidence.

* * *

Prof. Maurer, head of the University of Michigan Journalism Department, gave birth to the course as an experiment in adult education in the Depression year 1930.

He has been at it ever since; some of his "students" have been attending for more than 20 years.

The university offers the course in its extension service. It convenes weekly at the Rackham Memorial Building in the Art Center of midtown Detroit.

Its participants have included men and women from virtually all walks of life.

They don't go in for action of any sort. They just talk. They have a free discussion of ideas.

Says Prof. Maurer:

KNOWLEDGE IS DIFFICULT

"A Chinese philosopher once said that action is easy, knowledge is difficult. That could serve as our motto."

Prof. Maurer, inspired by "Swedish Folk Schools," started out on this when he was a young instructor.

His idea was to bring together persons with little formal education so they might "talk out problems of the day."

It didn't quite work out that way, to Maurer's surprise.

"Instead," he said, "college graduates came, and they have always been in the majority in my 'classes.'"

The first group met in a Y.M.C.A. branch. They paid their own expenses since the University declined sponsorship. But it was so successful that the next year the University put it on its regular extension list and has kept it there since.

The "class" program is simple. A group member presents his abstract of a book — usually of a controversial — and the group then takes the book apart.

All this can be lively, and lasting. It is not extraordinary for the discussion to go on at some all-night cafe after the janitor has closed the building for the night.

* * *

This fails to disturb Maurer.

"I don't mind," he said. "The class has made my own life richer, too."

250 'No' Letters Sent to Williams on 'Old Man' Quip

LANSING (AP)—The executive office states that Gov. Williams has received about 250 letters on his remarks that President Eisenhower is an "old man" who "may die before the campaign."

The office said the letters are running about ten to one registering protest about the remarks. Williams has said his remarks at Chicago were misunderstood.

The executive office said the Governor will not reply directly to the letter. Instead, a form reply is being drafted that will be signed by Lawrence L. Farrell, his executive secretary.

Tentative wording of the letter is:

"Your communication addressed to Gov. Williams is hereby acknowledged.

"The incident at Chicago has been misinterpreted by many persons and magnified out of all true proportions. The governor intended no disrespect or unkindness toward the President. He was referring to a statement made by the President, himself, a week earlier, in which the President made note of his own age."

Australian Goodwill Ambassador Visits Pontiac Area

By GEORGE T. TRUMBULL Jr.

An ambassador of good will from Australia will enroll this fall at Massachusetts Institute of Technology.

Chosen from more than 20 candidates of Rotary Clubs in Western Australia, Max Thorbjornsen, 28, was selected for the club's sponsored one year fellowship to the eastern school.

Max is in the Pontiac area visiting friends from Holly he met recently while traveling through the Rockies. This is his first trip to the United States.

Dr. and Mrs. Norman D. Smith, of Holly, are the hosts while Thorbjornsen is visiting Michigan. He was scheduled to depart for New York earlier this week but the storms ravaging the northeast have delayed his trip.

FOSTER GOODWILL

Max explained he was here to foster international goodwill between Australia and the United States while undergoing post graduate studies in civil engineering at MIT.

He received his bachelor of civil engineering degree in 1952 from the University of Western Australia.

After his studies are completed he will return to his native land and visit Rotary Clubs and relate his impressions and show slides of the United States.

The Australian arrived in America early this month and has since visited Canada, St. Paul, Minn., and Gary, Ind. Weather permitting, he will travel to New York and then go on to Boston by Sept. 19.

VISITED STEEL MILL

While visiting Gary, Max went through one of the world's largest steel mills. "I have never seen anything like it before in my life," Max declared, "I am amazed at how you do things here."

While in Pontiac, the student was feted at a Rotary Club picnic at Dr. C. T. Ekelund's home, viewed assembly line operations at Pontiac Motor Division and had a tour through the Pontiac Press building.

"I can't get over how long, powerful, new and many cars you have here," Thorbjornsen said. "I asked one person where all the old cars were and he, pulling my leg of course, said they were all given to the Indians."

"Seeing an automobile graveyard in Gary readily answered my question," Max said.

'LAND OF PLENTY'

"This is certainly the land of plenty and this is well represented on your dinner tables," Max said, "I have never seen such a variety of food."

The visitor said his country does not have fruit juices and frozen food and that he hoped to take the fruit juice custom home with him.

"But besides the hundreds of things that have impressed me here, the friendliness, generosity and kindness of the American people stand out the most in my mind," Max said.

British Routed in Fierce Battle

Americans Open Fight With Flanking Attack; Tecumseh Killed

(Editor's Note: Michigan's history is rich and alive, but too often lost. To bring these moments to life, this story was compiled from eyewitness accounts in historical collections at the University of Michigan.)

DETROIT, Oct. 7, 1813 (AP) — American forces have defeated the British in a brief, sharp battle in Canada and killed the Indian Chief Tecumseh, according to reports reaching here today.

The Americans, heartened by the Naval victory last month of Capt. Oliver H. Perry, completed the reconquest of the Northwest two days ago pursuing the British to a spot 40 miles east of here.

* * *

Commanded by Gen. William Henry Harrison, the American troops forced the British General Henry Procter and his 2,000 regular British and Indian troops to a fight.

With five brigades of Kentucky volunteers in reserve, General Harrison threw his horsemen into the battle. They cut swiftly through the British line before fortifications could be thrown up. Then they turned to the Indian forces, with their commander, Col. Richard Johnson, at their head.

Reports say that Johnson shot Tecumseh, while the Chief attacked him as he lay wounded. The American troops, overall, outnumbered the British but the bulk of the American troops never saw battle.

More than 600 British troops were captured, but Gen. Procter escaped to the East. Eighteen British were killed and 31 Indians. Only 15 Americans were killed.

The American troops were carried up Lake Erie in pursuit of the British by Captain Perry's victorious boats.

No Giggles Over This Girdle

QUILTED LINER goes over Maj. Ralph Evans' underwear as the 324th Strategic Reconnaissance Squadron commander starts struggle into suit.

IT TAKES TWO to help one as Maj. Evans slides into "torture suit" at waist while Lt. R. M. McHugh and Airman Clarence Lykins lend hand.

THE BIG STRETCH is what it takes to get Maj. Evans' head into the neckhole of the air and watertight suit. A plastic band prevents choking.

OVER THE SUIT they pile helmet, oxygen mask, parachute, survival kit. A radio goes into one pocket. Now he's ready to stagger off his plane.

COLUMBUS (NEA)—Any reference to a gal struggling into her girdle is a sure fire laugh-getter in a TV or radio program.

Well, wiggle into this for giggles: one of the toughest parts of a jet airman's job is getting into the wall-to-wall corset they call the flying suit. You woman have no idea.

Here the slim silhouette pays off, too. The older flyers with a bit too much apple pie a la mode around the midsection really have it tough.

* * *

"You can redesign everything in an airplane but the pilot," say the officers of the Strategic Air Command base at Lockbourne, Ohio. Regardless, they're doing their best to give nature a tougher hide with the 90 pounds of stuff they hang on their flyers before they enter their planes.

It takes three to get one into the sky cocoons.

The strip-tease in reverse starts with ordinary underwear or a flying suit. Over it goes a quilted liner for the exposure suit. Next comes the "torture suit," as the airmen call it. It is air and water tight, and it's a shimmy to get into it.

The boots are part of the suit and a mother wrestling with junior's snowsuit can get a vague idea of how it goes on—if she'll keep in mind that the man gets in through an opening at the waist.

Getting the neck through the neckhole brings back memories of fitting an auto tire into the clincher rims of the early days.

Next, a plastic band goes in at the neck to keep the precious contents from choking to death. A flyer on an ocean flight had his band break and they had to cut off the sausage casing.

There are plastic bands at the wrists, also, to allow the blood to keep flowing.

By the time, mother's darling looks like he was ready to go out and build a great big snowmans. But it's only the beginning; they pile on a parachute, survival kit, perhaps a Mae West, helmet and gloves. A radio goes in the pocket.

This is a bomber pilot's garb. They think it's nothing compared with the tight G-suit the fighter pilot wears.

It doesn't do much for the figure but isn't it wonderful to fly home, wriggle out of the old two-way stretch, kick off the rubber boots and just relax?

$2,000 Reward Set for Gorham Killer

MUSKEGON (AP) — A reward of $2,000 for "information leading to the arrest and conviction" of the slayer of 12-year-old Peter Gorham has been authorized by Muskegon County.

Young Gorham, a boy scout from Evanston, Ill., vanished on a hiking trip from a camp last July 5. He was found slain, a bullet through his head, Aug. 14.

The reward was approved by the finance committee of the board of supervisors, which has power to act when the board is not in session.

Police said they anticipated posting of the reward would bring a flood of tips. The only tangible clue they have now is the report of a woman she saw a boy "who looked like Peter" talking with a man in a blue Hudson sedan on a road near the camp the day Peter disappeared.

Dulles' Speach Tonight Deals With Near East

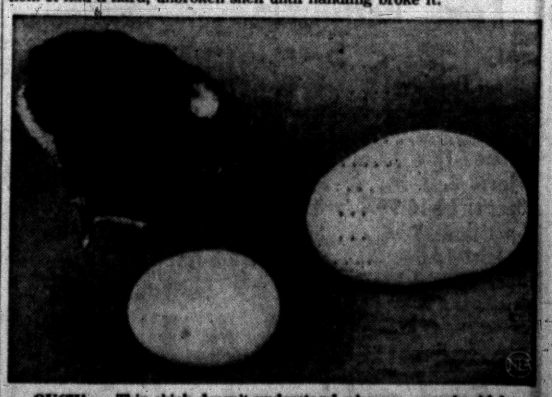

NEW YORK (AP)—Secretary of State John Foster Dulles will speak today before the Council on Foreign Relations, and will concentrate on problems in the Near East.

The State Department said yesterday the address will generally cover the countries stretching from the Suez Canal to Iran.

The speech will be broadcast live

NEW TWIST—Eggs and snails both come in shells, but their shapes are never the same — except on the Lawrence Shippy farm near Freeport, Ill. That's where the snail-shaped egg shown above was laid by a hen. It had a hard, unbroken shell until handling broke it.

OUCH! — This chick doesn't understand why one egg should be so much bigger than another. And neither does Mrs. Marie Krumsel of Whitmore Lake, Mich., owner of these two eggs. The one at left is normal-sized, but the major production at the right is roughly three times bigger and weighs six ounces.

CAN YOU NAME IT? — Mrs. Thomas P. Kirk of 4738 Joslyn Rd., Orion Township, is puzzled over the intruder in her garden — a plant that appeared "out of nowhere" and in four days shot to a height of 24 inches. It is bare of any leaf and has a cluster of six delicate pink lily-like blooms. She's hoping a Pontiac Press reader can tell her what it is.

Giant Beans Could Be Trouble for Bachelor

By WILMA GREENWAY

What bachelor Fred Laurel of 723 E. Tennyson St. really needs is a charming cook — preferably one who knows her beans and is adept at stringing them along.

And if fate has anything to do with it, that's just what he's likely to get.

For although this husky gardener has successfully eluded women, — and such entanglements as marriage—for 55 years, it really looks like Mother Nature has gone over to the side of the enemy.

You see, Fred grows the kind of string beans that would make any vitamin-conscious female want to get into his kitchen and start cooking up a real wham bang, home-style concoction.

MESS OF TROUBLE?

For a bachelor who's earnestly trying to maintain the status-quo, a mess of beans could spell a mess of trouble.

To top the whole thing, Mother Nature hasn't been content only to grow quality vegetables in Fred's garden. She's really given him the old one-two.

Because the Kentucky Wonder beans that the hapless bachelor planted this spring have shot up to a height of over 16 feet—tall enough so that every contriving woman in Pontiac (and out in the townships too) can't fail to see them.

Fred hasn't play his cards too well, either. Having grown tomatoes, carrots, Swiss chard, spinach, beets and corn for the past nine years with no ill effects, he has allowed himself to become complacent.

He's even branched out into flowers — tulips and roses and such.

SAMPLES, EVEN

"I love to see stuff grow, and the vegetables taste mighty good," he remarks, leading with his chin as he hands out samples from his garden.

The picture of his giant beanstalks on this page is evidence of naivete — with that picture and the way the Press gets around, anyone would know he's in for trouble.

Yet he innocently believes that his niece or sister-in-law is going to can bushels of those succulent beans. Considering the nature of the unmarried female, that's an extremely optimistic expectation.

No, Fred has definitely maneuvered himself into a corner. For a long-time wary woman-avoider, we'd say he's not doing too well.

CALL IN EXPERT

So just to throw a little weight on the side of the defense, we consulted an expert — a female expert. A wily, seasoned eluder versed in all the maneuvers for avoiding the pitfall of marriage. A propounder of the advantage of single bliss.

She looked the situation over and came up with a possible solution.

"This man is in a spot," she announced.

"There is no doubt but what the women are going to go for those beans in droves. And when a woman — a single woman — gets her hands into a man's kitchen, he might just as well call it quits.

"But he's got one chance.

"There are an awful lot of beans on those mammoth stalks.

"My advice is that he arrange an 'Open Kitchen' and let come who will. Let him take his courage in both hands and hold tight to the knowledge that there is safety in numbers.

"He certainly is terrific at growing beans. On second thought, perhaps, if he needs a hostess . . ."

Pontiac Press Photo

WONDER OF WONDERS—Jack of fable fame had nothing on Fred Laurel of 723 E. Tennyson St., Pontiac, shown here peering up at his 16-foot-high beanstalks. The Kentucky Wonder beans, grown from seed planted May 18, take plenty of beanpole, Fred says, and picking them is really a big problem. Perhaps he can find a few helpers.

4 Garden Clubs Prepare to Open 2-Day Exhibit

Four Pontiac area garden clubs made last-minute preparations today for the opening of the first Inter Garden Clubs Flower Show this weekend.

The impressive exhibition will be staged from 2 to 10 p.m. tomorrow and Sunday at the Waterford Township CAI Building, 5640 Williams Lake Rd.

Theme of the colorful show will be "Summer Sunshine," and a record attendance is expected.

No admission will be charged, and exhibits may be entered without cost. Entries will be received until 11 a.m. tomorrow.

Clubs participating are the Better Home and Garden Club and Dirt Gardeners of Pontiac, Sylvan Garden Club, and the Waterford National Farm and Garden Club.

Make Final Show Plans

ROCHESTER — Flower Show chairmen of the Rochester branch of the Women's National Farm and Garden Assn. will meet at 1 p.m. Wednesday, at the home of Mrs. John Plassey, 440 Walnut Blvd. Final arrangements will be made for the annual Fall Flower Show scheduled for Sept. 17-18, at Avon Park Pavilion.

Maier Wins Award at Gladiolus Show

Among the new gladioli to be offered next year will be a red and yellow beauty originated by Andrew C. Maier of Old Lane drive, Waterford Township. As a seedling, the newcomer won the American Home medal last Saturday at the Lincoln Park Gladiolus Show.

Maier is internationally known for new gladiolus varieties he has hybridized.

Question Box

Q—Can pachysandra and bugleweed, recommended ground-cover plants, be grown from seed? To cover the area with nursery-grown plants would wreck our budget.

A—Because these plants propagate so easily and quickly from cuttings grown in moist sand, I suggest you buy a few of each and do your own propagation.

Q—Much foliage on a blue hydrangea is covered with brown spots. What should be done?

A—Remove and burn infected leaves and spray with Captan or Bordeaux mixture to control leaf spot disease.

Clover Superior as Fertilizer

Plowed-Under Crop Tops Barnyard Manure

DAVIS, Calif. (AP)—A plowed-under legume crop sometimes fertilizes soil better than barnyard manure, some of the country's leading soil and crop scientists were advised this week.

Sweet clover outdid stable fertilizer in Michigan State University tests by J. R. Guttay, R. L. Cook and A. E. Erickson, they told the annual meeting of the American Society of Agronomy.

They based their report on comparative yields of navy beans, corn, sugar beets and small grains.

They said sweet clover plowed under every two years resulted in an increased row crop yield of 23 per cent and 10 tons of barnyard fertilizer per acre every two years increased yields only 5 per cent. The two plowed under together increased yields an average of 28 per cent.

"This fact is important to the cash-crop farmer, who generally does not have livestock," they said.

Almost a fourth of the nitrogen in freshly cut plowed-under alfalfa was recovered by a corn crop the same season at Ames, Iowa, two Iowa State College soil specialists said in a separate paper. The following season, said H. A. Fribourg and W. V. Bartholomew, only about 6 per cent of the nitrogen was recovered by a crop of oats.

Other gleanings from papers presented before the agronomists:

Crossing of sugar beets with wild relatives may produce strains resistant to nematodes.

Two new selective chemical weed killers look promising for controlling annual grass and broadleafed weeds without injuring corn, beans, onions and members of the cabbage family and may be released soon for farm use.

Cotton fields can be cleared of second-growth Johnson grass by applications of oil.

Sow Biennial Seed for Next Year's Bloom

Last call for sowing biennial seed for next year's bloom, and this includes hollyhocks if tal plants and profuse blooms are desired.

Hollyhocks frequently act like perennials, but after one season of bloom, the plants tend to be shorter and the bloom sparser.

Much of western cowboy lore originated in Mexico, says the National Geographic Society.

It's Lawn Building Time!

The best time of year to build a new lawn or repair an old one is late August through September. Fall seeding is best because the delicate new seedlings are less likely to be affected by extremes of hot and dry weather. Fall temperatures are ideal—warm days, cool nights. Fall rains are gentle, and there are usually heavy dews. Soil conditions are perfect for root penetration, and Fall is also a time when weeds are inactive.

Ford Studies Opening of Research Building

DETROIT (AP)—The Ford Motor Co. has announced plans for a new advanced product study and engineering research organization and a multimillion dollar building to house it in nearby Dearborn.

The organization will be headed by Victor G. Raviolo, who has headed Lincoln-Mercury car engineering. The new building, to be known as the scientific laboratory and research building, will contain more than 300,000 square feet of floor space. It is scheduled for completion in 1957.

The structure will be the newest addition to the Ford research and engineering center already in operation.

Anaconda's Butte Mine to Produce for 50 Years

BUTTE, Mont. (AP) — Anaconda officials say Butte Hills — called the richest hill on earth — will be producing copper for another half century or more.

* * *

"... there is no other place on earth yet found by man where there is a concentrated mineral wealth that there is in that hill," said Cornelius F. Kelly, one of the chiefs of the Anaconda Co.

Kelly, in a talk to stockholders when he retired as chairman of the Anaconda board of directors last May, said that after 60 years "the Anaconda Co. has more ore reserves than at any time in its history.

At the same time Anaconda announced that a new ore body at Butte estimated at 600 million tons would be mined by open pit methods.

The 100 million estimate was given by Chester H. Steele, vice president in charge of Anaconda's western operations.

130 MILLION TONS

Steele said the known reserves of the greater Butte project at first were estimated at 130 million tons and now are estimated at 180 million tons.

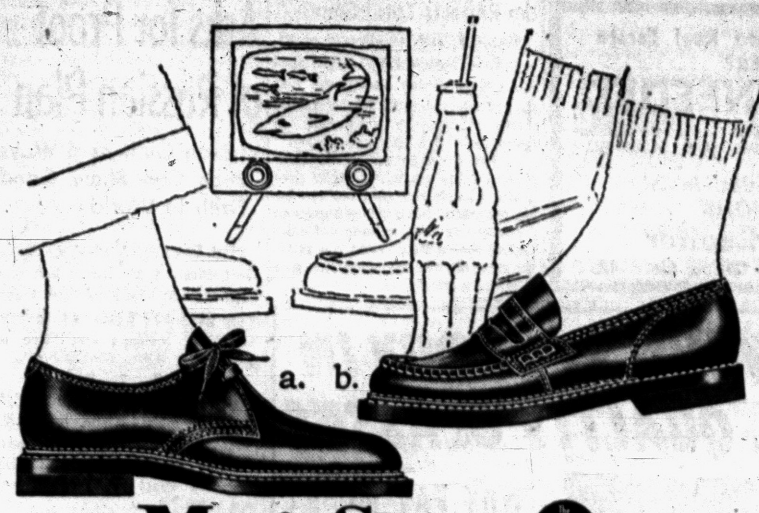

In addition, Steele said, work at the deeper levels has been "very gratifying" with the result that a further development program has been initiated to expand out and away from the general producing areas.

"Very large, high grade veins are extending down into the lower levels," Steele said.

He said Anaconda is continuing its ton-for-ton program—the development of one ton reserve for each ton of ore extracted.

* * *

He sand the company could foresee at least 60 years of mining operations in Butte.

Ike Reports Total Sum

WASHINGTON (AP)—President Eisenhower reported last night that the United States during the last six years has shipped $11,400,000,000 worth of military equipment to more than 25 friendly countries.

In his midyear report to Congress on the mutual security program, Eisenhower said outlays for the program "have brought greater security to the people of the United States than could the same amount of dollars used in any other manner."

Asks for Proof of Russian Plan

Nixon Outlines 6 Ways Reds Can Show Good Faith to World

PHILADELPHIA (AP)—Vice President Richard M. Nixon has outlined six ways he says Russia can show the world it wants to reduce East-West tensions and "live in peace."

* * *

If the Soviet Union "honestly" seeks peace, Nixon told 1,200 guests last night at the annual banquet of the American Bar Assn., it must act now, by positive steps."

"What Russia does will determine whether there is a real thaw in the cold war, or just a brief warm spell before an even bigger freeze," he said.

* * *

Th Soviet actions Nixon demanded were free elections and unification of Germany, withdrawal of Chinese Communist troops in Korea and unification of Korea, implementation of President Eisenhower's aerial inspection plan and eventual disarmament, rip down the Iron Curtain in Europe, freedom to the satellite countries, and suspending Moscow-control over organizations in free nations.

Nixon's remarks paralleled the position enunciated here two days ago by President Eisenhower.

* * *

Nixon hailed the success of the recent Geneva Big Four conference, and said that as a result of it the United States "is off the defensive and on the offensive on the great issue of peace."

Nixon said he hoped that Russia's recent cordiality wasn't "calculated to get us to drop our guard" for "if we weaken our defenses, Geneva will have been a disaster for the cause of freedom."

Korean Parade Marks Antipathy for Neutrals

SEOUL (AP)—Nearly 2,000 students and department-store girls paraded past the U.S. Embassy here today as part of continuing Korean demonstrations against the Neutral Nations Supervisory Commission.

Crowds of from 100 to 650 gathered for demonstrations in front of U.S. military compounds housing members of the four-nation commission at five South Korean cities, the 8th Army reported. A spokesman said there was no violence.

Killed in Cement Mixer

SAN LEANDRO, Calif. (AP)—Robert Tesche, 15, climbed into a cement mixer last night and was killed when the machine started up accidentally. Police said the youth and a friend, Bernard Blondin Jr., 13, were visiting the Best Concrete Co. As young Tesche climbed inside a mixer the machine began turning. A revolving blade killed him almost at once. Officers were investigating.

Hollywood Headlines

Lanza All Ready to Leave for Studios in Mexico City

By LOUELLA O. PARSONS

HOLLYWOOD (INS) — Mario Lanza has told Warner Brothers he's ready to leave for Churibus Studios in Mexico City Sept. 1. He's finished all his scoring—the last was "Ave Maria," and those who've heard it say they've never heard anything as beautiful.

VICTIM OF WAR

One extremely interesting personage who has come into Hollywood the past few days is Dean Hess, the pilot who, during the war, hit the wrong target in Germany and blew up an orphanage. Hess nearly lost his mind when he realized what had happened.

He became deeply religious and now devotes his life to establishing orphanages wherever the ravages of war have struck. He was in Korea doing this work during the heaviest bombardments.

NOTRE DAME STORY

Last year when I printed that "The Story of Notre Dame" was headed for a Columbia movie, there was much hush-hush. I knew that a deal was being worked out, and right I was.

At this moment producer William Wright is meeting in South Bend with writer Jim Bishop and Father John J. Cavanaugh, president of Notre Dame Foundation, to set things in operation.

SHE'S LEFT BEHIND

The "Mauretania" is carrying actor Laurence Harvey into New York harbor, but he isn't bringing his girl friend, Margaret Leighton, with him.

I always felt his engagement to Margaret was an expediency born of the worry he had over a lawsuit. I could be wrong on that score. However, I never felt he was really serious.

'MARTY' BUYS HOME

South African Sabotage Startles Wales Wife

ABERGAVENNY, Wales (AP) — Mrs. Peggy Jones opened a can of South African pineapple for her children — and screamed for her husband.

"There's a human hand in it," she said.

Closer investigation disclosed a pair of pink rubber gloves had been filled with pineapple juice and stuffed into the can.

After registering a complaint, she received a letter of apology from the makers — and two fresh cans.

"We can only assume it was sabotage," they said.

Austrian Physicians on Strike Stage Row

VIENNA, Austria (AP)—Fist fights broke out today between striking Vienna doctors and employes of several nonstriking clinics. Two doctors were reported hurt.

* * *

The clashes occurred on the second and final day of a nationwide strike of Austrian doctors and dentists. A majority of Austria's 15,400 medics are protesting a government proposal to extend the national health insurance to the entire population. It now applies only to employed persons.

The strikers agreed only emergency calls at hospitals and clinics would be answered. However, the strike call was disregarded by several hundred doctors working in clinics operated by Vienna city health insurance companies, which are backing the proposed law.

* * *

The clashes occurred when groups of picketing young doctors tried to prevent the nonstrikers from going to work in their clinics.

Eisenhower—Champion of Peace

Infinite Patience — Ike's Basic Philosophy

(Editor's Note: This concludes a series of articles by famed reporter Bob Considine telling the dramatic story of President Eisenhower's emergence as the world's champion of peace.)

By BOB CONSIDINE

Eisenhower has introduced a note of infinite patience into his peace-making but will pounce on a change in the "status quo" much as his troops once fell upon the intact bridge across the Rhine at Remagen. A man of endless good faith he searches for expressions of it on the other side and, once he is sure of his ground, however small the beach-head, places the armor of his own trusts there.

"We don't intend to reject anything from mere prejudice, or truculence, or any other lesser motive of that kind," he said before going to Geneva. At the same news conference, Martin Agronski of the American Broadcasting Company questioned him on what really could be achieved by inspection teams trooping through the Soviet Union, poking at suspicious-looking military edifices and supplies. Concealment of tremendous nuclear weapons is easy, the questioner argued, and he concluded with:

"Would I be correct in understanding, from what you have said on this whole disarmament thing, and on inspection, that what you come down to is a question of good faith?—that you have to believe you have arrived at a point where you can trust the other side, because it is impossible to get adequate inspection?"

Eisenhower answered, "Mr. Agronski, this is just as true as you are standing there. In the long run the kind of peace for which we are seeking, the kind of peace that will allow people to be really tranquil and confident in their daily pursuits, will be achieved only when nations have achieved that mutual trust of which you speak."

INTERIM PHASE

"We are up against an interim phase now. We are trying to make a step toward the bigger goal and reduce burdens at the same time. So I should say that since none of us yet have complete trust in the other side we must search diligently for some means to lessen the danger and proceed a little way toward the creation of that trust which must in the long run be the foundation for any real peace in the world."

He extended his whole hand at Geneva and considered it a good week's work when they responded by touching a finger or two. If he came home with his head in the clouds, his feet seemed solidly earthbound.

"We must never be deluged into believing that one week of friendly, even fruitful, negotiation can wholly eliminate a problem arising out of the wide gulf that separates, so far, East and West," he reported from the White House. "A gulf as wide and deep as the difference between individual liberty and regimentation, as wide and deep as the gulf that lies between the concept of man made in the image of his God and the concept of man as a mere instrument of the state.

"Now, if we think of those things we are apt to be possibly discouraged. But I was also profoundly impressed with the need for all of us to avoid discouragement merely because our own proposals, our own approaches, and our own beliefs are not always immediately accepted by the other side."

He finished with Wilsonian eloquence:

"I believe that only with prayerful patience, intelligence, courage and tolerance, never forgetting vigilance and prudence, can we keep alive the spark ignited at Geneva. But if we are successful in this, then we will make constantly brighter the lamp that will one day guide us to our goal—a just and lasting peace.

KEEP SPARK ALIVE

After the telecast he paced the floor, restless with still unexpressed thoughts.

THE RUSSIANS — ". . . we mustn't lean too heavily on that new face . . ."

"In other words," he said to a friend, "I'm sure we lighted some kind of a spark over there, and it ought to be kept alive. Just sitting down together with those fellows meant a lot. It is probably the greatest thing that will come out of the Geneva meeting. I'd say the second most important thing is the effect the talks had on the neutral world. We've certainly lessened the threat of war."

An aide asked him if he felt the Russians were sincere in the face they showed the world at Geneva.

"We mustn't lean too heavily on that new face," the President said. "We must keep up our mutual security pacts. But at the same time we've got to give that new face every chance to prove its sincerity. We just can't say 'This is an act' and dismiss it. There's too much involved."

Numbered among those involvements would be the satellites. It may be the lot of Dwight David Eisenhower never to effect their freedom. But he will not cease trying by means short of war. Indeed, in a subtle way he may have taken the first long stride.

"In the matter of increasing contacts between East and West, many items were discussed," he reported after Geneva. "We talked about a freer flow of news across the curtains of all kinds. We talked about the circulation of books and particularly we talked about peaceful trade.

"But the subject that took most of our attention in this regard was the possibility of increased visits by the citizens of one country into the territory of another, doing this in such a way as to give each the fullest possible opportunity to learn about the people of the other nation.

"In this particular subject there was the greatest possible degree of agreement. As a matter of fact, it was agreement often repeated and enthusiastically supported by the words of the members of each side."

* * *

The Iron Curtain would be trampled to dust by such an ebb and flow. If it is, the name Dwight David Eisenhower will be called blessed a thousand years after he has departed, simple olive branch in hand, from a world his 5,000,000 troops once lay waste.

'Bonanzagram'

Have Fun! Win $100!

"Bonanzagram" is an exciting new puzzle in which the Pontiac Press offers both fun and a $100 cash prize. BUT before you try your hand at "Bonanzagram" **be sure and read the rules** at the bottom of this page. Solution will appear in the Press Sept. 2.

CLAIM CHECK

Below is a duplicate of the "Bonanzagram" entry you send in to contest headquarters. It is ESSENTIAL that you fill it in and save it until the correct solution to "Bonanzagram" No. 25 is published Friday, Sept. 2. Unless you do so, you will be unable to collect the prize if you should send in a winning solution. Check the rules below for further details.

Bonanzagram No. 25

Story Clues

Isabel, a gay and popular college girl of nineteen, went on a student tour. There were thirty of them, mostly strangers when they sailed, along with several hundred other tourists. It was a Mediterranean cruise, with stop-overs at various cities. They were on a one-cabin ship, and there were customary amusements. They danced, swam, played shuffleboard. Taking time out, Isabel lolled in a steamer chair and wrote some post cards, one of them to her closest friend. She took them ashore at Naples to mail, but found that a vial of perfume in her purse had spilled and obliterated some of the message to her girl friend. The address was still legible, so she mailed it anyway. The friend at home found that she could fill in the missing or blurred letters, and was able to understand the message. Can you do the same?

How to Play 'Bonanzagram'

Solve the "Bonanzagram" by filling in all the missing letters, as indicated by the underscores, in the message. Insert only one letter above each underscore. Many clues to the missing letters are hidden in the story, or anecdote, accompanying the message itself, and, in a few cases, the contestant's general knowledge should provide the correct letter. The contestant will note that the message is unpunctuated. Punctuation will help solve the message but is not necessary to win.

All missing letters must be correctly inserted to win a Bonzagram prize. Punctuation will not be considered in judging a correct answer.

When properly filled in, the "Bonanzagram" will spell out a clear message that will conform in every way with the clues. In many cases it will seem that more than one word would be the correct one. That's part of the fun! You should weigh the clues and select the BEST possible word in each case.

How to Submit

1. After solution is completed, "Bonanzagram" should be clipped and pasted to a two-cent postcard with your name and address.

2. Entries will be received at the Pontiac Press office, 48 W. Huron St., until 5 p.m. Tuesday, Aug. 30. Mail entries must be postmarked before midnight Tuesday, Aug. 30, for Bonanzagram No. 25. Address "Bonanzagram, %, Pontiac Press, Pontiac, Mich.

3. Entries may be mailed in envelope but contestant's full name and number of puzzle must be printed in upper left corner of address side of envelope.

4. Copies of the Press need not be purchased to enter. Facsimiles made by hand and corresponding as closely as possible to the original "Bonanzagram" printed in the Press will be accepted but are limited one to a family. Mimeograph, duplicator or other unofficial mechanical reproduction is forbidden.

How to Collect the Prize

The entrant must work out and keep duplicate solution as a claim check. When the solution is published in the Press, he should compare his "claim check" with the published solution, and if his claim check is identical, he should call in person with his claim check at the Press office, 48 W. Huron St., before 5 p.m. on the Monday following publication of the solution.

If a winner cannot call at the Press office in person he should mail his solution to "Bonanzagram Editor." This letter must reach the Press not later than 5 p.m. the Monday after publication of the answer. Correct answers are void unless the contestant reports his claim by the deadlines listed here.

About Eligibility, Information, Etc.

1. Anyone is eligible for the "Bonanzagram" contest except employes of the Press and members of their immediate families. (Immediate family means all those living in an employe's household.)

2. No question as to winners will be answered by phone.

3. The Press will award a prize of $100 to the winner of each weekly Bonanzagram. If more than one winning answer is received, the prize will be divided equally among the winners. If no correct solution is received, the $100 will be added to the next week's prize. If the winner is a subscriber of record to the Press a $20 bonus will be added to the $100.

4. Only one winning entry from a family will be eligible for the prize, but there is no limit on number of entries.

5. The Press retains the right to correct typographical errors.

6. Judges' decision will be final and contestant's submission of entries indicates acceptance of these rules.

Mobile Blood Test Unit Examines 540 Persons

A mobile blood testing unit, the first of its kind in the Pontiac area, has examined 540 persons since its arrival here two weeks ago, and officials have scheduled future stops.

Now located in the Rockwell-Bagley street section, blood tests given by the unit are designed to detect unknown or inadequately treated cases of syphilis.

Persons 14 years or older are eligible for the free tests, which will be given tomorrow and Saturday in the vicinity of South Boulevard and Franklin road, said Dr. John D. Monroe, County Health Director.

Staffed by one technician and a clerk, the mobile unit is owned by the Michigan Dept. of Health. The testing program is being used to determine the efficiency of case reporting, and is jointly sponsored by the City Health Dept., the State Health Dept. and the U. S. Health Service.

Examinations will be given from 1 to 8 p.m., depending on the turnout. If abnormalities are found in the bloodstream, an individual will receive notice of his condition in about two weeks.

All replies are by mail, and are strictly confidential. If no notice is mailed, persons will know their tests were negative.

It is the first mass blood testing program of its kind here, and is part of a Detroit survey taken last year. The unit has no relation to blood typing, which is done by Civil Defense authorities and other agencies.

Food, Drug Supply Men Face Flood Damage Bill

NEW YORK (AP)—Many manufacturers and distributors of food items and propriety drugs today face a multimillion-dollar bill for flood and rain damage in the northeast.

* * *

They have a self-imposed obligation to make good to retailers for all or part of the losses sustained by retailers stocking their goods during the disaster.

Asurvey of major food and drug distributors indicates that virtually all are helping their retailers out of flood damage to their inventories. The losses mostly are not covered by insurance.

Vast replacements are being made without cost to merchants.

The practice, now general throughout the food distribution business, first gained momentum during the Kansas City floods in 1951.

Tigers' Opinion on AL Pennant Winner Divided

DETROIT (AP) — Baseball's big question is who will win the American League pennant.

Ask the Detroit Tigers and you'll get four different answers: New York, Chicago, Cleveland — and, yes, even Boston.

Members of the Tigers are sharply divided on their choices.

An informal dressing room poll shows the Yankees and Indians to have the inside track, with the White Sox a close 2nd and the Red Sox still very much in the running.

This was the opinion of about a dozen players after yesterday's doubleheader which the Tigers split with Boston, winning the opener 6-1 but losing the nightcap, 6-4.

* * *

"I'd have to take the Yankees," said outfielder Al Kaline. "They're a great hitting team and they're steady."

"The Yankees would be my choice, too," added relief pitcher Al Aber. "They stilll know how to win the 'big' ones."

Outfielder Jim Delsing agreed with both Kaline and Aber. A former Yankee himself, Delsing said: "They're my choice because they've got the most games left to play at home."

Joe Coleman, another relief hurler, also picked the Yankees—but for a different reason.

"You can bet when they play those 2nd division teams like Baltimore and Washington and Kansas City, they won't lose," he said.

Southpaw Billy Hoeft named the Chisox as his choice. "The schedule is still in their favor," Hoeft said. "They've got a lot of games left against the 2nd division."

Outfielder Bill Tuttle and pitcher Steve Gromek picked the Indians.

Tuttle explained: "They haven't been playing good ball but still are close to 1st place. They're about due."

Gromek said:

"I like Cleveland because of its bullpen. Guys like Narleski and Mossi have been saving them all year. And relief pitching is more important than ever in the final weeks of the season."

Most of the players were in agreement that the Red Sox, although they're in 4th place, still have a shot at the flag. The general opinion was that Mike Higgins' crew would have to get hot—and in a hurry.

The Red Sox were only lukewarm yesterday, submitting meekly to Ned Garver's 8-hit pitching in the opener, but bouncing back with a heavy attack in the nightcap.

Jackie Jensen led Boston to its comeback win, driving across four runs on a 2-run homer and a bases-loaded single.

Babe Birrer started for Detroit in the afterpiece, but lasted only three innings. He gave up five hits and four runs, suffering his 3rd loss against four wins.

Earl Torgeson clubbed a 2-run homer for the Tigers but any chance Detroit had of pulling the game out of the fire was squelched in the 7th inning when "Old Folks" Ellis Kinder relieved and retired Torgy and Boone with runners on 1st and 2nd bases.

In the opener, Boone and Charley Maxwell each pounded a home run and double to make Garver's job easy.

Briggs Asserts Detroit Club Is Not for Sale

Tigers' Owner Denies Rumors Connected With Inheritance Matter

DETROIT (AP) — Despite reports to the contrary, Walter O. (Spike) Briggs Jr. says his Detroit Tigers are not for sale.

Two Detroit newspapers now have carried reports saying the team is going on the block.

The latest is the Free Press. The paper said today the team and Briggs Stadium both are up for sale because of a complex inheritance tax situation.

The Times carried a similar report Sunday.

Briggs, club president, described the reports as "ridiculous."

"The team is not for sale," he said when asked to comment Such reports, he added, "seem to come up every year."

The inheritance tax problem involves the pending dissolution within 60 days of the Briggs Commercial and Development Co. The latter is a holding company for the residue of the estate left by the late Walter O. Briggs, who died in 1952. It controls the Detroit Baseball Co. and Briggs Satdium.

Walter Briggs was the father of Spike Briggs. Under the terms of the will, the Tigers and the stadium will go into a trust fund for Spike Briggs and his four sisters.

The Free Press said a baseball franchise is not considered, legaly, a solid investment under terms of a trust.

Because of this, the paper said:

"If the club and stadium have not been sold by the time the Briggs Commercial and Development Co. is dissolved, they then will be ordered sold "within a reasonable time."

"One interested syndicate reportedly is headed by Bill Veeck former president of the Cleveland Indians and St. Louis Browns," the newspaper reported.

"There are also rumors that a local syndicate is trying to purchase the franchise," the Free Press said.

Rickey Still Looking Ahead

Galbreath Says He Is Satisfied, So Branch Will Remain

PITSBURGH (AP) — Despite the poor showing of the Pittsburgh Pirates under his leadership, General Manager Branch Rickey says he has retained the confidence of John Galbreath, president of the club.

And, says the 73-year-old Rickey, he intends to stick with the Pirates when his 5-year term as general manager expires at the end of November.

Preliminary Victor in Doubt

Grand American Handicap Features Trapshooting Program at Vandalia

VANDALIA, Ohio (AP)—Trapshooting's greatest show, the Grand American Handicap, was on tap today with more than 2,000 of the Western Hemisphere's finest scattergunners fighting it out over the 100-target route for close to $100,000 in prize money.

While the big field was firing in the premiere event, the shooters were still taking about yesterday's merry mixup which left the winner of the preliminary handicap in doubt.

F. B. Rees, 40-year-old tire salesman from Heyworth, Ill., was the apparent winner after defeating Weldon Hopman of Buckley, Ill., a 23-year-old farmer in a shoot-off. Both had led the field of 1,759 with scores of 98x100.

However, the executive committee of the Amateur Trapshooting Assn. was investigating a report that Rees should have shot from 21 yards instead of 20. The report of the June 10th Illinois State shoot at Casey, Ill., credited Rees with a 95 and tie for second place in the handicap there, a score which would have moved him back to the 21-yard line.

Under trapshooting rules, a marksmen who wins or places second or ties for either spot in a registered shoot must move back a yard in subsequent events.

Rees, however, said the report was erroneous and that he had actually fired a 92 in the state meet and that the 20-yard mark from which he fired yesterday was his correct handicap.

The preliminary championship, a huge trophy and several thousand dollars in prize money, hung in the balance as the executive committee promised a decision today.

Mae Ramey, Miamisburg, Ohio, gun club owner, took the women's title with a 93 bagged from the 19-yard marker. Mrs. Maxine Wiseman, Mt. Vernon, S.D., shooting from the same spot, was second with 92.

The 2,000 shooters in today's Grand American tossed $35,000 into the regular prize fund. And if all of them play the optional, another $66,000 would be up for grabs with the ultimate winner picking up around $8,000, unless tied in the regular shoot.

Moss-Quillian Eye Finals in Rain-Plagued Doubles

BROOKLINE, Mass. (AP) — Men's competition in the rain-plagued 75th National Doubles Tennis Tournament enters the semifinals today with the young pair of Jerry Moss and Bill Quillian almost certain to reach the championship match.

Moss, 19-year-old University of San Francisco freshman who won the National Junior singles title in 1954, and Quilian, University of Washington graduate, met Earl Baumgardner and Gregory Grant today.

Baumgardner from Oakland, Calif., and Grant from San Marino, Calif., have played only once in the tourney. They've advanced the rest of the time on defaults.

On the other hand, Moss and Quillian have beaten third-seeded foreigners Nicola Pietrangeli and Orlando Sirola of Italy and the fourth-seeded American pair of Cliff Mayne and Eddie Moylan.

In the other semifinal today it will be Japan's fast-moving placement specialists, Kosei Kamo and Atsushi Miyagi, against England's more powerful Roger Becker and Robert Wilson.

* * *

Becker and Wilson, fourth-seeded foreign entry, outlasted Albert Harum, Newport, R.I., and Barry McKay, Dayton, Ohio, 3-6, 14-12, 5-7, 6-1, 7-5 in one of the two quarter finals played yesterday.

Kamo and Miyagi eliminated the Philippine duo Raymundo Deyra and Juan Ma Jose in the other, 6-4, 6-1, 9-11, 6-1.

Playoffs Near End

D&W, Dairy Eliminate Gidley, Sylvan Nines

Gidley Electric and Sylvan Center were eliminated from the Waterford Township Softball League playoffs Thursday night as the title series moved into the home stretch at Drayton Plains.

Dick & Wes defeated Gidley's, 5-1, while Richardson tripped Sylvan, 5-3. The winners meet at 7 o'clock tonight with the loser bowing out. Waterford Lions and Drayton Drug clash in the 8:30 game tonight.

Dick & Wes managed only 3 hits off Ken Spears, but Gidley's committed 5 errors and handed the Sportsmen the victory. Gidley had a 1-0 lead in the 3rd when a walk and 3 errors gave D&W 3 runs.

In the nightcap, Jack Nelson and Bruce Dryer combined to stop Sylvan with 3 hits and strike out 9 in Richardson's win. Earl Lamberton was the offensive star with a double and 2 singles.

The Dairymen broke a 2-2 deadlock in the 4th inning on Jack Hagen's single and a hit by Wayne Beckley that skipped past the centerfielder for a home run.

Gidley Electric	100 000 0—1 8 5
Dick & Wes	003 002 x—5 3 1
Spears and Lesar; Herr and Cooper.	
Richardson Dairy	110 210 0—5 8 4
Sylvan Center	200 010 0—3 3 2
Nelson, Dryer and Caswell, Lamberton; Conley and Young.	

Finals Reached in Junior Test

Host Club Player and Chicagoan Meet; Dave Hill Beaten

NORBECK, Md. (AP) — Bernie Magnussen of Chicago, Ill., and Gerry McFerren of the Manor Country Club here squared off for a 36-hole match today to decide who will be the new Western Junior Golf champion.

Magnussen, a Stanford University freshman, stroked to a 2 and 1 semi-final round victory Thursday over Bruce Kessler of Washington, D.C. McFerren, a sophomore at the University of Maryland, gained the finals by defeating Dave Hill of Jackson, Mich., 4 and 2.

Ruffed Grouse Broods Are Reported Larger

LANSING (AP) — Scattered individual reports and a general survey both indicate that ruffed grouse brood sizes are larger than usual this year, state conservation department game men said today.

Experts said, however, that although broods are larger the birds still seem to be at a low point of their 10-year population cycle.

Nearly 200 conservation officers, foresters and wildlife workers counted broods in the survey.

Average brood size is seven or eight chicks per hen, department game men said.

Small 2nd-Rate Field in Saratoga Cup Race

SARATOGA SPRINGS, N.Y. (AP)—The Saratoga Cup, first raced in 1865, has its 75th running today but the field is far from an imposing one.

The mile and three-quarters test attracted only four and none rate consideration for championship honors. Nashua, originally, had the cup on his schedule but stepped aside to prepare for next Wednesday's match race against Swaps at Washington Park.

Inglis Mulls Ruling on MTTC Members

DETROIT (AP) — State racing commissioner James Inglis will rule next week whether to force members of the Michigan Thoroughbred Turf Club Inc. to reveal under subpoena information on their personal finances.

The club seeks a license for a new race track in Troy Township, north of suburban Royal Oak. Members, however, failed to appear before Inglis yesterday at a scheduled hearing.

Attorneys sent to represent them said statements already filed with the racing commission "provided ample information."

Baptists Edge Stars

Russ Attwater's 7th-inning single drove in the winning run from 3rd base and gave First Baptist a 3-2 victory over the All-Stars in the Pontiac Church Softball League's windup game Thursday night at North Side Park.

Pitcher Perry Vaughan limited the losers to four hits and struck our nine. Loop champion Baptist nine garnered three hits, two off Fred Froede of Oakland Avenue United Presbyterian, who worked five innings. A good-sized crowd was in attendance.

Tourney Reaches Semis

PHILADELPHIA (AP) — The U.S. Girls Grass Court Tennis Championship moves into semi-final play today with fourth-seeded Pat Naud of San Mateo, Calif., facing Barbara Breit, the defending champion from North Hollywood, Calif.

In the other semi-final, Rosa Maria Reyes, Pan-American champion from Mexico City, will meet Mimi Arnold of Redwood City, Calif.

Mrs. Zaharias Set to Leave Hospital Soon

X-Ray Treatments on Babe for Cancer Are Completed

GALVESTON, Tex. (AP) — Babe Zaharias, the famed woman athlete, has finished X-ray treatments for removal of a cancer and expects to be out of the hospital "before too long," she said Thursday night.

Mrs. Zaharias, who underwent an operation for a rectal cancer in April of 1953 and returned to winning big-time golf in four months, had to have another operation in May, this time for a displaced disc. When this was done another cancer was discovered in the pelvic bone.

The X-ray treatments were started about three weeks ago.

She is able to move about her hospital room and last week was taken for a drive by her husband, George.

Snead, Souchak Take Lead in Montreal Open

Each Book a 65 for Opening Round of $26,800 Event

MONTREAL (AP) — Sam Snead, who is well on his way to his first million from golf, and Mike Souchak, ex-footballer who turned to the links for a livelihood, today headed a big field into the second round of the $26,800 Montreal Open. Each carded an opening-round 65 yesterday.

The 43-year-old Snead from White Sulphur Springs, W.Va. bamboozled the experts who said he couldn't putt, with a remarkable display of his short game to post his five-under-par card. Souchak, Duke University footballer and now from Grossinger's, N.Y, had every club in his bag working for him in his par-wrecking 18 holes.

When all the scores were in, it was Snead and Souchak one stroke up on Doug Ford, husky 33-year-old pro from Kiamesha Lake, N.Y., and Marty Furgol, rangy 6-footer from Lemont, Ill.

Two strokes back at 67 was Gene Littler, the former U.S. Amateur champion and a $19,000 winner so far this year on the tournament trail.

Thirteen others in the field of American and Canadian pros and amateurs managed to get under par-70 figures.

Muskies Freed in Two Oakland County Lakes

About 700 young muskies were released in Valley and Wildwood lakes northwest of Pontiac early this week, the state conservation department announced today.

The fish ranged in size from 3 to 11 inches.

Earlier, 2,400 five-inch muskies were released in the two connecting lakes. Both are inside the Holly Recreation area and provide good water to carry forward the state's pilot muskie study, the department said.

The fish came from the Drayton Plains Hatchery and had to be planted when a shortage of suitable live food developed.

Nearly 5,000 muskies have been released in experimental waters so far this year by the state conservation department.

Savage Scores TKO Over John Houston

RENO, Nev. (AP) — Milo Savage connected with a stunning right early in the fourth round Thursday night and went on to win a middleweight bout from John Houston by a TKO.

Savage, 162, from Salt Lake City, had boxed on even terms with Houston, 156½, Oakland, Calif., until that one blow landed. It was his first punch after the fourth-round bell.

Trout Fishing Rated Poor in Most of State

LANSING (AP)—Trout fishing is generally poor in the upper half of the Lower Peninsula, the state conservation department reported today.

Exceptions were in the Black and Jordan rivers, where fishermen reported catching brook trout, and in the Pigeon and Sturgeon rivers, where rainbow and brook catches were reported.

Smallmouth bass are biting in the mouth of the Au Sable and along the shores of the East and West Bays in Grand Traverse county, the department said.

Neighboring 9's Clash

WILLIAMSPORT, Pa. (AP) — Two teams from small communities just 35 miles apart compete today for the National Little League Baseball Championship.

Delaware Township, N.J., which overcame a three-run deficit yesterday to defeat Auburn, Ala., will be taking on "neighbor" Morrisville, Pa., which had to go two extra innings to defeat Winchester, Mass. 3-0.

Chisox Skid Against 2nd Division Nines

But Marion Points at Twin Bill With Yanks, to Use Pierce, Trucks

CHICAGO (AP)—There's little joy among Chicago's baseball fandom today. The White Sox, making their first bid for a pennant since 1919, have dropped three out of five games to the American League doormats, teams they were expected to knock over with ease.

* * *

After splitting in four games with last place Baltimore Tuesday and Wednesday, the Sox continued on the downgrade yesterday. The seventh place Washington Senators, previously beaten in 15 of 17 attempts by the Sox, won the first game of their three-game series, 6-1.

Coupled with the victory of the league-leading New York Yankees, 5-2, over Cleveland last night, the Sox defeat put them 1½ games out of first place. The Indians are in third place, two games out.

* * *

At the week's beginning the Sox were a mere .003 away from the top and were in first place by the same margin after Tuesday's games. The Yanks regained the lead Wednesday.

Desperate to stop the Sox slide, Manager Marty Marion says he will throw his full resources at the Yankees Sunday in a doubleheader at Comiskey Park.

* * *

Marion says he will pitch aces Billy Pierce, who has won four in a row, and 36-year-old Virgil Trucks, who has a 13-6 record and is one of the toughest competitors in the game. Pierce, who has an 11-8 record, tops the league with an earned run average of 1.78.

Olson, Giambra Have TV Date

Middleweight Champ Is Rated Favorite Over Left-Hooking Rival

SAN FRANCISCO (AP)—Left-hooking Joey Giambra takes on middleweight champion Carl (Bobo) Olson tonight in a televised fight which could turn out to be a better-than-average non-title scrap.

Olson, back in his own division after his thumping by Archie Moore in an ill-fated shot at the light heavyweight crown two months ago, is the favorite. The odds, though, were a tight 2½-1 despite the champion's great popularity here.

* * *

Young Giambra, bidding for a return to the national ratings, was impressive in workouts all week. His left hook was sharp. Olson has been bothered by other left-hookers. Giambra showed a good right, too, plus supreme confidence. He held the No. 4 ranking in the middleweight division before entering the Army.

Douglas Wins Title

DETROIT (AP)—Paukie, owned by Sandy Douglass of Menton, Ohio, won the National Thistle Sailing Championship on Lake St. Clair yesterday with a total of 163¼ points. It was the Paukie's 4th victory in 10 years.

Heavy Weekend of Racing Arranged for Area Fans

A big weekend of racing at the Pontiac Speedway gets underway Saturday night with the running of the 50-lap club hardtop championship for the drivers of the Land O'Lakes Racing Association.

The association's leading pilots, Benny Howell, Dorris Sanders, Rusty Kelly, Carm Ragatz, Bill Schultz, Chuck Partello and Marvin Main among others, will start in reverse order, with the highest point-winners going in the back.

The entire program will be lengthened with laps added to all events and the semi-final stretched to 25 laps. Trophies will go to the 1st, 2nd and 3rd place finishers in both feature and semi.

The track has been graded for this event and for Sunday's midget show, according to track promoter Dick Dewey. The Central State Racing Association has sanctioned the midget program, their Gold Crown show which features open competition.

Among the drivers are Johnny Wallace of Troy in a Cardoni outboard; Eddie Schmidt of Detroit; Pontiac's Russ Jacobson in a Hudson Jet; current CSRA point leader Al Weber in an "Offie" and 1954 CSRA midget champion Walt Van Amberg of Milford.

Time trials for both Saturday and Sunday events will start at 7 p..m with the 1st race at 8:30.

Seixas, Rosewall Open Challenge Round for Net World's Most Prized Trophy, the Famed Davis Cup

FOREST HILLS, N. Y. (AP)—The Davis Cup, perhaps the most coveted prize in international sports, went up for grabs today when the two titans of world tennis, the United States and Australia, clashed in the Challenge Round at the West Side Tennis Club.

Vic Seixas, the U. S. champion from Philadelphia, crossed rackets with Ken Rosewall, an old nemesis, in the first singles match starting at 1:15 p.m. (EST). The second singles test of the best-of-five competition, pitted U. S. strongman Tony Trabert against the equally muscular Lewis Hoad.

The doubles, Seixas and Trabert against Hoad and Rex Hartwig, are scheduled for tomorrow, with the final two singles Sunday. If the decision still is in doubt going into Sunday's matches, Seixas will play Hoad and Trabert Rosewall.

All the matches will be televised nationally in color by NBC.

But American Captain Billy Talbert sees no such eventuality.

"We'll have a 3-0 lead by Sunday," chirped Billy, always the optimist. "That means we'll be playing for fun by then. I am already considering using Hamilton Richardson in one of the last two matches."

* * *

Talbert admitted he would prefer to have Trabert take the court ahead of Seixas. But that wasn't how Secretary of State John Foster Dulles pulled the pairings out yesterday.

* * *

"It isn't a major point, but Trabert would rather play first and if he won, Seixas would have a psychological advantage of not having so much pressure on him. Remember when we won the cup in Australia last year, Trabert played the first singles match and beat Hoad. That gave Seixas a lift."

If there was any pressure, it didn't appear to bother Seixas.

"What's there to be nervous about?" asked the 32-year-old veteran. "I've played plenty of Davis Cup matches and a lot of first ones, too. I've prepared for the Davis Cup and I'm ready.

"Furthermore, I think I have overcome whatever jinx Rosewall held over me."

Until Seixas whipped Rosewall in the Challenge Round last year, the Aussie had beaten him nine straight times.

* * *

Captain Harry Hopman of the Aussies was only slightly less optimistic than Talbert.

"I am sure we'll win," he said in his final pre-battle statement. "I figure we are sure to win both the singles matches with Seixas and have an even chance in the other three, the two with Trabert and the doubles."

Rookie Southpaw Stops Tribe for Yanks

By THE ASSOCIATED PRESS

Ol' Casey Stengel and rookie Rip Coleman were taking the bows for the New York Yankees today, and whether you love 'em or hate 'em, you've got to admit that when the chips are down the Bronx Bombers usually come through.

Manager Stengel calmly selected Coleman, an almost unknown 24-year-old lefty just up from Denver to oppose the Indians in the first game of their crucial three-game series at Cleveland last night. The result was a 5-2 Yankee victory, and New York now rides in first place by 1½ games over Chicago who dropped a 6-1 decision to Washington.

Before the game, Cleveland sports headlines called Stengel's mound selection a "shocker" and the Troy, N.Y., southpaw certainly proved the executioner for one night at least. The loss dropped Cleveland two full games behind New York.

* * *

Stengel's choice is emphasized by the fact that Early Wynn was the Cleveland starter, and he was seeking his fourth victory over the Yankees. But, Wynn was hustled to the showers in the second inning after allowing four runs.

More heat was taken off the Yankees when the best the fourth place Red Sox could do was a split in a doubleheader with the Tigers. Detroit won the opener 6-1, and Boston grabbed the nightcap 6-4, falling five games behind New York. In the other American League contest, the Athletics conked the Orioles 9-2 at Kansas City.

National League action in the East was spotlighted at Ebbets Field where the Dodgers were slapped down by the Redlegs, 8-5 and 6-5. It was the first time the Bums had lost a double bill this year, and coupled with Milwaukee's 3-2 victory over the New York Giants, it left the Braves 11 games behind Brooklyn in second place.

* * *

Philadelphia nabbed a pair from St. Louis 11-9 and 8-3, and the fourth place Phillies are now only a half game behind the struggling Giants. The Pirates edged the Cubs 2-1.

The Yankees called Coleman up from their American Assn. farm, and he made his first start Aug. 15 going 5 1-3 innings to beat Baltimore 12-6. In his only other appearance, also against Baltimore Aug. 28, he pitched one third of an inning to preserve a 3-2 victory for Bob Grim.

* * *

It was the other way around last night when Coleman got into trouble with two away and a run home in the eighth. Grim came in and applied the stopper the rest of the way. Joe Collins's two-run homer was the big blow of the Yankee second inning and Andy Carey contributed one in the sixth. Al Rosen homered for Cleveland in the sixth.

Washington, in seventh place and beaten 15 times previously by Chicago, refused to play dead as Bob Porterfield won his third game from the Sox. The Senators knocked out Connie Johnson with a four-run fourth inning, and collected 13 hits in all.

College Golfer Wins Indiana State Open

INDIANAPOLIS (AP) — Joe Campbel of Anderson, 19-year-old National Collegiate Golf champion, swept the list of Indiana tournaments today by winning the Indiana Open. Campbell, a Purdue student, previously had won the Indiana Junior and the Indiana Amateur, the latter for the second straight year.

His 282 total was two over par for the 72-hole open and two strokes ahead of the top pro, Sam Drake of Richmond, Ind.

Swimmer Makes Erie Crossing

Windsor Man Battles Exhaustion, Completes 18-Mile Journey

KINGSVILLE, Ont. (AP)—Marathon swimmer Ray Muench climbed out of Lake Erie at 4:20 a.m. (EST) today, after completing an arduous 22 hour swim across the 18-mile passage between Pelee Island and the mainland.

The almost - exhausted swimmer was barely able to stumble up to a sandy beach when he landed. It took him more than 10 minutes to crawl to the beach. He had entered thte water at 6:15 a.m. (EST) Thursday.

The swim marked the end of an amazing example of endurance by the 29-year-old Windsor man. It took him more than four hours to complete the last mile of the swim.

For most of that time, he rolled helplessly in the lake swell, within sight of the tired crowd of about 100 persons who had waited more than 10 hours to welcome him.

He finally seemed to gather his strength for a last effort, and he stroked up to the beach. For the last 200 yards, he was accompanied by an unidentified swimmer who jumper into the water and swam along side him.

Trainer Alex Henderson said Muench was extremly tired, and wanted only to rest.

During the last nerve - racing hours before Muench gathered his strength, reports said the swimmer seemed to have lost all control of his arms, and was barely able to kick.

Muench stubbornly refused to be lifted from the water, even when it was all he could do to keep his head above the surface. He kept insisting he would recover his strength after a rest in the water.

Stadium 9 Seeks Regional Honors

Pontiac's Stadium Inn, "A" district softball champion, seeks additional honors tonight at Port Huron in the 1st round of the Michigan Softball Association Class A Third regional tournament.

Stadium, winner last weekend in the district test at Highland Park, faces Flint tonight at Port Huron's Memorial Field in a two-team, double-elimination tourney. Game time is 9:30 p.m. Saturday night's 2nd-round contest will get under way at 9 p.m. A possible 3rd tilt will be played either Saturday night or Sunday.

Half-Million See 'M'

A total of 556,312 fans watched Michigan's 1954 football team in action, 410,017 in six home games and 146,295 in three road contests.

The 1954 Duke University football team did not score a safety or a field goal. Their opponents didn't either.

'Middle Seniors' Take Over; Polly Riley Eliminates Wiffi

CHARLOTTE, N.C. (AP)—The uprising of the teenagers had been put down and golf's "middle seniors," as Jane Nelson refers to the group in the twenties, had taken complete charge of the Women's National Amateur Golf Tournament heading into this afternoons' semifinals.

* * *

The first 18-hole match, set for 2 p.m. (EST), paired Miss Nelson, a relaxed, wise-cracking, 27-year-old history teacher from Indianapolis, against Mrs. Scott Probasco Jr., of Chattanooga, Tenn., 25-year-old mother.

The other match paired Polly Riley, advertising specialist from Fort Worth, Tex., who'll be 29 tomorrow, against Pat Lesser of Seattle, a Seattle University senior who at 22 is the "baby" of the quartet.

Misses Nelson and Lesser scorched the 6,413-yard Myers Park Country Club course with the best performances of the week in yesterday's quarterfinals. Each was three under par in an impressive victory. Jane trimmed 20-year-old Barbara McIntire of Toledo, Ohio, 5 and 3, and Pat smothered Mrs. H. S. Covington of Orangeburg, S.C., 7 and 6.

* * *

Mrs. Probasco and Miss Riley had to travel all the way, each gaining a hard earned 1-up victory. Mrs. Probasco, who as Betty Rowland of Lexington, Ky., and Rollins College, was National Intercollegiate champion a few years ago, was two down with four holes to play but rallied to edge 17-year-old Anne Quast of Marysville, Wash.

Miss Riley ousted 18-year-old Margaret (Wiffi) Smith of St. Clair, Mich., in a grim struggle that saw Polly unable to win a hole after the 10th as they halved the last six in an unyielding struggle.

* * *

Miss Lesser has long had her eye on the national title. The tall, bronzed Seattle star won the Western Amateur last month and a couple of Florida winter tournaments. Seven months ago after taking the Helen Lee Doherty tournament at Miami, Fla., Pat went on record this way:

"Now I want to win the National."

Modern pitchers striving to win 20 games in one season should look back at Charles (Hoss) Radbourne who won 60 games in 1884 for Providence when that city was in the National League.

Watrous, Sheehan Defend Pro-Am Title

Tam O'Shanter Host to Eevnt This Weekend

Oakland Hills Team Shoots for 4th Title, Share of $1,500

By H. GUY MOATS

Veteran Al Watrous, Oakland Hills professional, and his partner, Tommy Sheehan, long a top-rated district golfer from Al's club, today were primed for their 4th try at the Michigan Pro-Amateur Championship.

This team captured the event last year at Battle Creek, and in 1947 and 1952 as well. They will set off on their 4th try Sunday at 8:51, over a somewhat revamped Tam O'Shanter Country Club layout. The test will go 36 holes and is a best-ball competition. They are the event's only 3-time winners.

Sunday's tournament at Tam O'Shanter is the 1st time it has been held in the Metrooplitan area, since its inception in 1935.

The pros will shoot for a share of the $1,500 purse.

* * *

Field includes most of the top professionals of the state, along with an equal portion of highly regarded amateurs. There were 60 teams in the starting list today.

Among the talent registered, besides Watrous and Sheehan, are former National PGA champion Chick Harbert and Steve Purdo; ex-U. S. pro champ and current state PGA titlist Wally Burkemo and Harvey Hubar of Franklin Hills; a pair of Johnsons (not related), Jimmy of Farmington and Glenn, current state amateur champion from Grosse Ile; Al and Sammy Kocsis (Sam is the 1955 National Publinx king); John Barnum and Harold Brink of Grand Rapids; Horton Smith and Bob Babbish of DGC, plus many others.

* * *

The Burkemo-Hubar duo, and Roy Beattie and Carl Sielaff of Detroit will set the parade moving at 7:45 a.m. Sunday.

Host club will have its assistant pro, Gene Bone, former PHS star, and his partner Harry Radom in the field. Pro Warren Orlick will be too busy with details of the tourney to do any playing.

Pearl Creed Winner of $25,100 Pace

DETROIT (AP) — Pearl Creed, owned by Delbert and Wayne Smith of Galveston, Ind. captured the $25,100 Motor City Pace in two dashes last night to collect $9,287.

The purse, a record for a Michigan trotitng track, boosted Pearl Creed's earning for the year to $25,857.

The 4-year-old chestnut, driven by Jim Wingfield, won the 1st dash in 2:04 two-fifths. Chief's Star was 3½ lengths behind. Date Knight was 3rd.

Pearl Creed won the 2nd dash beating Cal by half a length. Mrs. Galvin was 3rd.

NABF Semi-Finals Today

ALTOONA, Pa. (AP)—Four teams, led by unbeaten Cincinnati with a 4-0 record, compete today in the National Amateur Baseball Federation Junior Tournament semi-final round.

Air Force Netters Win Service Crown

QUANTICO, Va. (AP) — The U.S. Air Force has the best collection of tennis players in the military service.

The Air Force team proved as much here Thursday by winning the Inter-Service Tennis Championship for the second straight time. Its No. 1 entry, Whitney Reed of Alameda, Calif., won the singles crown and teamed with Hugh Ditzler of Berkeley, Calif., to take the doubles championship.

All seven of Michigan's 1955 home football games will start at 1:30 p.m., (EST).

Native of Kansas

Ron Kramer, University of Michigan's great football end, is Kansas-born, although raised in Michigan. Kramer was born in Girard, Kansas, June 24, 1935, but came to Detroit with his parents as an infant, moving to East Detroit, his present home, at the age of 5.

Hank Sauer and Ernie Banks are the only members of the Chicago Cubs ever to hit three home runs in one game.

Lowest number of winners for a year's top man among American jockeys was 135 in 1921. Top rider was Charles Lang.

Bettenhausen Victor in Stock Car Event

MILWAUKEE (AP)—Tony Bettenhausen, Tinley Park, Ill., set a new record as he won the 150-mile national AAA stock car race at Wisconsin State Fair Park Thursday.

Bettenhausen, driving a 1955 Chrysler, finished the distance in 1 hour 49 minutes 52.37 seconds, about nine minutes faster than the old record. His average speed was 80.9 m.p.h.

Walker Busiest Gridder

Art Walker, All-American tackle, played more minutes than any other player on the University of Michigan football squad last season with 479 minutes and 53 seconds. Ron Kramer, end, played 400 minutes to rank 3rd in minutes played.

WCTU Official Says Liquor Ads Mislead

LONG BEACH, Calif. (AP) — A WCTU official says "misleading and often false" liquor advertising is "luring an increasing number of young people to drink, with the idea that they can do so 'in moderation' without danger of becoming addicts."

* * *

Mrs. C. V. Biddle, Knoxville, Tenn., vice president at large of the Woman's Christian Temperance Union, added: "This form of 'brain washing' is causing 10 times as many teenagers to drink, as would drink otherwise. The upgrowing generation is being sold the false idea that drinking is a harmless pleasure without headaches, with a consistent omission of the fact that beer and wine contain alcohol that makes one drunk."

Ford Expected First for 1956

Probably Will Present New Models to Public Before Competitors

By DAVID J. WILKIE

DETROIT (AP) — If the auto industry sells its expected 6¾ million passenger cars this year Chevrolet and Ford probably will account for more than 2,900,000 of them. But which of the two companies will sell the greater number continues to be widely debated in industry circles.

When new car registration figures for this year's first six months were tabulated Chevrolet was in the top place for the first time this year. Chevrolet put on a sales spurt in June. The figures showed 756,317 registrations for Chevrolet against 741,481 for Ford for the January-June period.

Unofficial figures for July indicate Ford outsold Chevrolet and cut the margin down to around 7,000 unit deliveries.

Nobody in industry circles questions that the Chevrolet-Ford battle will be steaming hot right down to the final day of the year. Ford is expected to go down for model changeover work in its Ford division early in September. It will have its 1956 models on sale at least a month ahead of its principal competitor.

Earlier presentation of the 1956 Ford line may or may not give that make a sales advantage. Chevrolet will get heavy volume of 1955 models into the field while Ford is down for the changeover. It may get its 1956 cars out as early as the final week of October instead of a scheduled early November date.

Whatever comes of all this maneuvering the sales achievements of December may determine whether Chevrolet or Ford leads the industry at the year end.

BOTH WERE FIRST?

Last year's No. 1 spot was claimed by both Chevrolet and Ford. Chevrolet reported its total retail sales for the year came to 1,47,453. Ford claimed this total included a large number of cars reistered in dealers' and manufacturers' names during the last month of the year.

Chevy Truck Plant Set for Willow Run

DETROIT (AP)—Chevrolet Division of General Motors Corp. announced today it is setting up a new truck assembly plant at suburban Willow Run "to augment production" in other factories.

* * *

Preliminary work to equip the plan already is under way and it will go into production in the first quarter of 1956, said T. H. Keating, Chevrolet general manager.

Keating said it would employ 600 to 700 workers.

The plant will be located in a building formerly used as a warehouse. It has 479,000 square feet of floor space and was among buildings purchased by General Motors from Kaiser-Willys following the burning of GM's transmission plant in suburban Livonia last year.

* * *

The buildings originally were erected by the late Henry Ford for mass production of bombers at Willow Run in World War II.

Since 1859 the United States has produced two-thirds of the world's cumulative production of oil.

Weather Spurs Grain Advance

CHICAGO (AP) — Weather again provided the inspiration for an advance in grain prices on the Board of Trade today.

This action of the main Midwest crops again aided the rest of the market, where much more modest gains were attained.

Wheat near the end of the first hour was ⅜ to ⅝ higher, September $1.93½; corn ⅝ to 1⅛ higher, September $1.29⅝; oats unchanged to ¼ higher, September 58; rye ¼ to ½ higher, September 97; soybeans 1¼ to 2½ higher, September $2.27¾, and lard 8 to 25 cents a hundred pounds higher, September $11.00.

Chrysler-UAW Mum on Arbitration Talks

DETROIT (AP)—Principals in the Chrysler contract negotiations remained tight lipped today.

Neither the company nor the CIO United Auto Workers had any comment on what progress if any was being made. Sources close to the negotiators said, however, many issues are yet to be settled.

Indications were the talks will continue right up to the deadline Wednesday midnight. Unless extended by mutual agreement, the present contract will expire Aug. 31, leaving the union free to call a strike.

News in Brief

Gerald A. Davidge, 26, of Clawson, was arrested by Pontiac Police yesterday for leaving rubbish on a public highway. Police said some bottles fell off his soft drink company truck and he failed to stop and clean up the debris.

Joseph Wilson, 35, of Walled Lake, pleaded guilty to a charge of being drunk and disorderly yesterday before Justice Logan Sparks of Walled Lake. He paid a $25 fine and $10 costs.

Marjorie Huttenhower of 602 E. Tennyson St., reported to Pontiac Police yesterday that a bicycle was stolen from in front of her home. Value of bicycle was placed at $7.

Kenneth Cooley, Lake Orion, reported to Pontiac Police yesterday that someone broke into his auto and made off with his casting rod and reel.

Robert A. Watt, 24, of 52 Franklin Blvd., was arrested by Pontiac Police yesterday on a charge of being drunk and disorderly.

Oldsmobile Reports New Sales Record

LANSING (AP) — Oldsmobile division of General Motors Corp. said today its retail sales for the second 10 days in August totaled 18,057 vehicles.

Oldsmobile said this marked the largest August 10-day period in the company's history, eclipsing the 17,724 new cars delivered in the first 10 days this month. It said the figure also is 139 per cent of the new cars delivered in the same period of 1954 when Oldsmobile dealers sold 12,257 units.

Oldsmobile said the figure raised its total yearly sales to 400,988 or 151 per cent of the 265,002 new cars delivered in the same period of 1954.

Since the U.S. patent office was established in 1836, it has issued more than 8,000 patents involving refinements in the making of leather shoes, leather soles and other items.

Barrymore Job Done With Tact

Queen of the Theater Receives Suggestions, Not Orders

By CHARLES MERCER

NEW YORK (AP) — When young Allen Reisner departed for Hollywood last year to become a director of the Climax dramatic series (CBS-TV), one of his first assignments was to direct a television drama starring Ethel Barrymore.

* * *

"A young guy like you directing an old hand like her!" exclaimed his friends. "She'll destroy you!"

Well, she didn't. For Reisner is back in New York on vacation, looking fit and undestroyed.

* * *

"Miss Barrymore and I got along fine," he says. "We just nodded to each other and began rehearsals. When I wanted her to do something, I didn't tell her directly. I'd tell an actor in a scene with her how I wanted him to play it, and then I'd casually remark, 'While you're doing that, of course, Miss Barrymore will be doing such-and-such.' She got the point. She's wonderful."

Reisner feels he's learned a great deal working in Hollywood. He also feels that many big-name stars learn a great deal working in live TV dramas.

* * *

"Most motion picture stars simply aren't conditioned to television," he says. "They're accustomed to movie protocol where their word is law. What they know about lighting and cameras and the like is truly amazing. But in a live TV show there's no time for setting up new lights. There are no retakes. Once on, you're on.

"But as motion picture stars become conditioned to television, they're very good—provided they have real acting talent. As soon as they see the director is very concerned about their doing well, they're concerned that they do perfect jobs. To many of them it's a new experience to have a director who's truly interested in their acting."

* * *

Shelley Winters is one of the stars who has told Reisner she's learned a great deal from live television appearances. Now, he says, she's insisting on longer rehearsal periods for her motion pictures.

Reisner, an actor before he became a director, rewrites entire scenes of his scripts if he finds an actor simply can't play it the way it's written. He works hard day and night on the dramas to earn the reputation of being one of the most brilliant directors in television.

* * *

But hard work and brilliance can't control an occasional boner. Not long ago a girl who was supposed to be lying dead on the scene suddenly stroked her brow. "I nearly went through the control booth window," says Reisner.

Truman Sees Peace Coming to Entire World

KANSAS CITY (AP) — Harry S. Truman told a group of seven newsmen from the Far East yesterday he believes that eventually "peace will come to the entire world."

The former President added, in response to a question, that he couldn't forecast when it would come.

He said, "Liberty is a continuing fight. We've got to keep after it. Each generation can add to it."

Tiny TV Camera

FUERTY, Germany (AP) — A Fuerth company today announced development of a television camera only 5.2 inches long, and 2.6 inches wide. It was described as "the world's smallest TV camera."

Drug Notable Dies

DETROIT (AP)—Walter M. Chase, 67, nationally known in pharmaceutical circles, died of a cerebral hemorrhage yesterday. Chase retired Dec. 31 as associate director of advertising for Parke, Davis & Co. He had been with the drug firm 40 years.

The population of Sweden's cities has increased by 25 per cent since World War II.

Saves Snake Victim

SAN PEDRO, Calif. (AP) — Quick action by Kenneth Nordstrom, 16, saved the life of his 3-year-old niece Marva Dean Allen yesterday after she was bitten by a rattlesnake. He sucked the venom from the wound, then rushed her to San Pedro Emergency Hospital. After treatment, she was pronounced in good condition.

Village Claims Columbus Fame

Monferrato Displaying Proof Scorns Genoa as Birthplace

CUCCARO MONFERRATO, Italy (AP)—People in this drowsy village in North Italy don't think much of Genoa and its big plans for a Christopher Columbus celebration.

* * *

Starting Oct. 12, Genoa is staging a three-day festival to honor the memory of her native son and his discovery of America. The history books say Genoa is where Columbus was born.

According to local residents, the history books have been wrong for the past 400 years. Christopher Columbus discovered America all right, they say, but he was born in Cuccaro Monferato.

* * *

The vilage offers its mayor and a castle in evidence.

Dr. Cleto Marescotti, the mayor, is reputedly the most direct living descendant of the explorer. His maternal grandmother was a descendant of Gugliemo Fedele, a great-great-uncle of Columbus. Mayor Marescotti is the leading advocate of the Columbus-was-born here theory.

* * *

Then there's the castle in the nearby hills. Any tourist can see it still standing here, if he takes the trouble to travel the picturesque 50 miles from Genoa over the ribbony mountain roads of the southern Piedmont.

According to local lore, the Columbus family, called Colombo in Italy, lived in the castle for centuries. Until time obscured it, a placard on a castle wall proudly announced:

* * *

"My great Columbus, who spread his wings to put his noble feet on unknown worlds, vies for estem with the Greek Homer. Every city wants him for citizen. But with peace to all, heaven gave him to be born on these high hills."

9 Soviet Farmers Now Tour Canada

MONTREAL (AP)—Nine Russian farm representatives began a tour of eastern Quebec today after a monthlong, 12,000-long look at the United States.

The Soviet visitors received a mixed greeting on their arrival yesterday. Members of the Soviet-Canadian Friendship Society applauded and threw kisses when their plane landed at nearby Dorval Airport. Ukrainian organizations distributed leaflets charging the Communists with enslaving 100 million Europeans and shouted against their visit.

Three members of the 12-man party making the trip from the Soviet Union remained in the United States. The nine who came here will visit Quebec, Ontario and the wheat-growing plains of Manitoba and Saskatchewan. They will wind up their trip in Ottawa Sept. 9.

Yesterday they toured Montreal by chartered bus and exchanged formal expressions of good will at the office of Mayor Jean Drapeau. Last night the federal government stuffed them with a dinner of turkey, ham, salmon, tongue and French pastries.

18 to Become ROKs

SEOUL (AP)—Seventeen North Korean soldiers and one civilian who had crossed the truce line and asked for political asylum in South Korea soon will become citizens, South Korean army sources said today.

Sinatra Replaced by Gordon Macrae

HOLLYWOOD (AP)—Frank Sinatra has been replaced by Gordon Macrae in the lead role in "Carousel," 20th Century Fox Studio's film version of the Rogers and Hammerstein musical.

Sinatra didn't report for work at the "Carousel" location at Booth Bay, Maine, this week. Last night the studio announced that Macrae was given the role. He was instructed to report to the studio Monday for pre-recording sessions.

* * *

On Sept. 2 he will fly to Booth Bay of three weeks' shooting Shirley Jones, Macrae's co-star in "Oklahoma," will play opposite him.

Sinatra told newsmen in the East that he left the location because the film is being photographed in two processes. He said he did not intend to make two pictures at once.

YOU pick your subject

Haven't you often experienced the frustration of coming upon a perfect subject and being unable to take it because the light was bad and you didn't have your flash equipment along? Or, worse still, you did have it, but by the time you pulled it out, had it assembled and set your camera your subject had disappeared?

VITESSA does the rest

All of these problems are eliminated through the amazing new *Flash-Case* containing the Vitessa L 35mm camera and the built-in flash. Within seconds the fully automatic flash is set off . . your picture snapped . . the film advanced . . the shutter cocked . and you are all set for your next shot. Combined with the world-famous Ultron f/2 lens with Light-Value Compur and built-in exposure meter Voigtländer's "thinking" Vitessa L and the unique *Flash-Case* make flash exposures simple as child's play and as much fun.
