Dems Control House; Bid for Senate Gov. Williams Sweeps to 4th Term OK Hospital Bonds; Defeat Courthouse Tax

Neither Party Sure of Margin in Senior Body

Fight for Disputed Seats
Recorded as Closest
in U. S. Election History

WASHINGTON (U.P.)—Rep. John L. Lewis (D-Mich.) was the 218th Democratic member to be elected to the House of Representatives today.

His election assured the Democrats of a clear majority in the House in the new 84th Congress convening Jan. 5.

And from Massachusetts to Oregon, the wavering, uncertain Republican-Democratic battle for the Senate was one of the closest in U. S. election history.

At 9 a.m. EST, the outcome still was in doubt. The count at that hour showed that the question of Senate control in the 84th Congress depended on the outcome of six undecided races—in Ohio, New Jersey, Wyoming, Montana, Michigan and Oregon.

At that time, the Republicans had won 12 seats and were leading in three other contests for an indicated total of 48 seats when added to their 33 holdover Senators. The Democrats had won 20 and led in three races for an indicated total of 47. There are 24 Democratic holdovers.

The remaining Senate seat is held by Sen. Wayne L. Morse (Ind.-Ore.).

The GOP needed 48 Senate votes—exactly half of the total—to retain control because they could bank on the tie-breaking vote of Vice President Richard M. Nixon if they needed it. The Democrats needed the same number because they were promised Morse's vote if they needed it for a majority to organize the Senate next January.

Along with the 10 Southern Democrats who had little or no opposition, the "Veep," former vice president and one-time Sen. Alben W. Barkley, built up an early commanding lead and unseated GOP (Continued on Page 2, Col. 6)

Partly Cloudy, Cooler Forecast for Thursday

Partly cloudy and colder tonight and Thursday is the forecast for Pontiac and vicinity.

The U. S. Weather Bureau says the low tonight will be 32 to 36 with a high tomorrow 40-44.

Downtown temperatures yesterday ranged between 30 and 37 degrees. At 8 o'clock this morning the mercury stood at 32 degrees, rising to 45 by 1 p.m.

GOP Captures County Offices in Record Vote

Frank Irons Newcomer
as Six Incumbents Are
Returned

Six incumbent Oakland County office holders and one new candidate were selected by voters yesterday as Republicans captured all county elective posts by sizable majorities.

About 150,000 county citizens went to the polls, setting a new voting high for an off-year election. The former peak was hit in November 1950 when 104,154 balloted.

Results from outlying county machine precincts were complete by 6:15 this morning, but the second last city precinct (paper ballot) was not received until 9:40 a.m., nearly 14 hours after the polls closed.

The newcomer to county government circles is Frank Irons, 55, who will be sheriff for the next two years. He defeated Democrat George D. Hicks by 83,193 votes to 66,612.

Irons defeated present Republican Sheriff Clare L. Hubbell for nomination as the GOP candidate in the August primary.

The newly elected sheriff has a long background of police work, serving as Berkeley police chief since 1928.

Incumbent Prosecutor Frederick C. Ziem won a second term by defeating Robert L. O'Connell 81,089 to 67,531.

Ziem, 38, served as assistant prosecutor and chief assistant prosecutor from 1947 until his election in 1952.

Lynn D. Allen, 55, was re-elected for a 12th term as county clerk. He turned back opponent Neil R. Crowe 81,844 to 66,882. Allen was first elected in 1932.

Also renamed to a 12th term was County Treasurer Charles A. Sparks who defeated Donald E. Barrett by 80,040 to 68,636. Sparks, 44, has served since 1933.

Orrin McQuaid, 49, won his ninth term as register of deeds by turning back Hazel A. Kuschinsky 81,305 to 67,209. He first was elected in 1936.

Drain Commissioner Ralph A. Main won re-election over Glenn D. Harper 80,257 to 67,982. Main, 50, was appointed to the post in 1951 and first elected in '52.

Omar E. MacNutt, 45, ran unopposed for re-election as county surveyor. He was first elected in 1948.

The GOP county candidates drew nearly the same percentage of the total vote cast for their respective offices as they did in 1952.

The men will begin their new two-year terms Jan. 1, 1955.

Mother of Four Killed in Crash

Children Hospitalized
After Car Rams Tree
on Willow Road

A West Bloomfield Township mother of four children was killed yesterday afternoon when her car crashed head-on into a tree on Willow road as she was returning her oldest children home from school.

The victim, Mrs. Margaret Loft, 38, of 3314 Locklin Lane, was dead on arrival at Pontiac General Hospital.

One of the children, Virginia, 9, is listed in critical condition by hospital authorities. The other three, reported in good condition with broken bones, cuts and bruises, are: Robert, 11, Patricia, 7, and Cathleen, 3.

West Bloomfield Township Patrolmen Joseph Nephew and Glen Helgemo, who stated that there were no witnesses to the 3:30 accident, said the woman apparently lost control.

The car struck the tree, about six feet off the road, after traveling about 100 feet down the left side.

City Pension Measure Also Passes Voters

Courthouse Measure
Fails to Pass for Second
Time This Year

Two local measures—including a \$3,000,000 bond issue to finance a Pontiac General Hospital addition—were passed by Pontiac voters yesterday.

But Oakland County voters turned down for the second time a proposal to erect a new courthouse.

Of the local proposals, unofficial tallies show the authorization to increase city employees' pensions passed by the largest majority, a whopping 13,356 to 5,306, with one precinct not yet reporting.

Failing when first presented to voters last April, the hospital addition measure passed by a 9,578 to 5,809 vote, more than the 60 per cent majority needed. One precinct is unreported.

For the second time, county voters rejected a plan to raise taxes one-half mill to finance a new \$4,500,000 courthouse on a Telegraph road site.

The proposal was one of the hottest issues in the pre-election campaign.

With one precinct unreported, the vote was "no" 67,848 and "yes" 45,195.

It had failed at the August primary although a sister measure calling for issuance of bonds to pay for the building was approved by property owners.

The tax increase was needed to support the bond issue. Without it, general obligation bonds cannot be issued.

A favorable vote by Pontiac property owners pushed the hospital proposal into the reality stage.

Hospital authorities have estimated that at least 150-beds will be added to the present 198-bed capacity, relieving dangerously overcrowded conditions.

"We're mighty happy it came across," said William F. Maybury, chairman of the hospital board of trustees.

"There are plans drawn up about 10 years ago, but they are too expensive," he said. "We're going to have to start from scratch, get a new architect and get as much hospital as we can for \$3,000,000."

City Manager Walter K. Willman, who termed the measure's (Continued on Page 2, Col. 2)

Victory Margin Growing

GOV. G. MENNEN WILLIAMS

Hudson Wins in Pontiac

5 Republicans, Two Dems
Go to State Legislature

Four Republicans and two Democrats won seats as state representatives for the Oakland County area in yesterday's balloting, and another Republican was returned to the state senate.

Royal Oak Republican William S. Broomfield assumed the 12th district state senator seat, defeating Democrat Fred Elias of Hazel Park, 80,787 to 67,892.

The 32 year old Broomfield had represented the fourth legislative district since 1948, before seeking the nomination for state senator.

In District One, Republican incumbent Fred G. Beardsley, 71, of Oxford defeated Waterford Township Justice of the Peace Donald E. Adams, 41, by a 11,435-10,478 margin. Beardsley has held the position since 1948. Adams has been unsuccessful in three previous attempts to gain the office.

Thirty-two year old Pontiac resident Leslie H. Hudson, Democrat, edged out Republican Ernest Huthwaite in the second district, 12,371 to 8,259, with one Pontiac precinct still unreported.

Hudson defeated fourth term-seeking Democrat Leann Harrelson in the August primary.

District three voters returned Republican incumbent Richard C. Van Dusen, 28, by a wide margin (Continued on Page 2, Col. 3)

Top Democrat Might Pull In Whole Ticket

Soap Heir Approaching
Biggest Vote Coup Since
Murphy Win in 1936

DETROIT (U.P.)—Gov. G. Mennen Williams won the first fourth term as governor in Michigan history in Tuesday's general election and may have dragged his Democratic party to its first state ticket sweep since 1936.

Williams appears to be carrying his entire state ticket to victory. That has not happened since the late Frank Murphy, former governor and United States Supreme Court justice, engineered a clean sweep at the height of the Roosevelt boom.

The question among 300 guests who spent the night at a big, old house on Grand Avenue in Lansing wasn't: "Is Soapy winning?" Instead it was: "How many will he take in with him?"

The guests, of course, were Williams' supporters. They were jubilant from the start, but as night wore into day they still didn't know whether Michigan's champ vote-getter of all time had pulled in only a part or all of their state ticket.

Some of the more enthusiastic proclaimed the full Democratic ticket, including Patrick V. McNamara for U. S. Senator, elected. (Continued on Page 2, Col. 5)

GOP Sweeps to Victory With Record Vote Turnout

From Our Birmingham Bureau
BIRMINGHAM—While county, state, and the nation's candidates see-sawed back and forth in yesterday's election race, Republicans took an emphatic victory in Birmingham, as expected.

Records were broken right and left, as Birmingham, Bloomfield Hills, and Bloomfield Township voters cast more ballots than the 1930 off-year election.

City Clerk Irene Hanley reported a 75.5 per cent total vote in Birmingham's 11 precincts, or 9,513 of the 12,596 registered voters.

This topped the primary vote of two years ago by two per cent, and showed the usual 5-1 split in Republican and Democratic votes.

In Bloomfield Hills, election officials tallied 740 votes, of a possible 1,145, for a 6-1 Republican victory.

Republicans took a more than 7-1 margin in Bloomfield Township, where 3,414 of the 4,500 registered voters went to the polls.

Incumbent Senator Homer Ferguson captured the greatest number of Birmingham's Republican votes, with a total of 7,785, while Gov. G. Mennen Williams played second fiddle to the Democrat's home town favorite, Philip A. Hart, of 537 Westwood Dr.

Hart, running for lieutenant governor, took 1,922 votes as opposed to 1,885 cast for the governor. He also received the highest number of Democratic votes in Bloomfield Hills and Bloomfield Township.

The only local question put to residents received a stamp of approval, with a vote of 5,106 for, and 2,068 against the sale of city-owned lots 505-515 in Sheffield Estates Subdivision No. 1.

A millage increase for construction of the new county courthouse was turned down here and in Bloomfield Township, but was approved in Bloomfield Hills.

In all three municipalities, voters approved the first two amendments on the state ballot, preventing disqualification of electors because of having moved within the state during the 30 days prior to the election, and the controversial Conlin plan for administering the state aid to schools.

The other two amendments—a bonus for Korean war veterans and legalized bingo—were voted.

Millions of American church women will be celebrating World Community Day on Friday, as will local church women when they meet at 2 p. m. at the Townsite Community Church in Lathrup.

This is also the annual ingathering of layettes, bedding and children's clothing, which will be sent overseas through Church World Service. Funds donated will help finance overseas shipments of United States government surplus food.

Money will also be used to finance the work of Margaret Jaboor, chief resettlement officer with the World Council of Churches in Geneva, Switzerland. Through this office arrangements are made for refugees coming into the U. S. under the new refugee relief act.

Speaker will be Oakland County Probate Judge Arthur E. Moore, whose topic is, "Children in Oakland County." The Rev. John D. Rose, minister of the host church, will participate in the service, with music by Mrs. Rose and Mrs. James Spezzano.

Mrs. Maurice Garabrant will give the devotion and tea will be served by the women of Townsite Community Church.

Annual election of officers will be held when the Ladies Auxiliary No. 9 of the Metropolitan Club meets at 8 tonight at the Bloomfield Hills residence of Mrs. Walter Leopold, on Cranbrook road.

Co-hostesses on the refreshment committee will be Mrs. Stuart Cobb, Mrs. Kenneth Gillespie, Mrs. Margaret Haack and Mrs. Ambert Peterson.

A meeting for prospective members will be held at 8 tonight at the Congregational Church, with an informal coffee hour to follow.

Residents' complaints over the cutback to only one garbage collection per week this summer should be non-existent next year. Lawmakers at this week's City Commission meeting authorized twice-a-week garbage pick-ups for four months during the summer, with weekly collections for the rest of the year.

Commissioners also extended the contract for garbage and rubbish collections to the B & B Disposal Service, which has handled the job this year. Costs for all necessary collections will be an estimated \$65,065.

November business meeting of the Business Women's Club will get under way with dinner at 6:30 tonight at the Community House, with the business meeting to follow.

William Maxwell, 91, of 911 Knox St., will be held at 1:30 p. m. Friday at the Manley Bailey Funeral Home, with burial in Southfield Cemetery. A retired farmer, he died yesterday following a long illness.

He is survived by two daughters, Olive and Mary, both of Birmingham, a sister, Jane, also of Birmingham, and a brother John, of England.

Warren C. Pratt, 67, of 622 Bloomfield Court, real estate broker with the firm of Warren C. Pratt and Associates in Detroit, died this morning at St. Joseph Mercy Hospital, Pontiac, after a short illness.

Mr. Pratt was a member of the Society of Automotive Engineers, and a graduate of Yale University.

Besides his widow, Louise, he is survived by four sons, Charles W. and James B. of Birmingham, John H. of Flint, and Warren C. of Augusta, Ga., two daughters, Mrs. Norma Clark of Birmingham and Mrs. Lillian Crane of Lakewood, O., and 17 grandchildren.

Private funeral service was held this afternoon at the Manley Bailey Funeral Home.

passage "very fine," said the board of trustees and the City Commission will meet soon to arrange for new plans, the sale of bonds and contracting for construction.

Construction should begin early in 1935, Willman said.

"We're very grateful to the community for recognizing our need and all of us will use all our means to use the facilities provided to give better patient service in the community," said Lauretta Paul, hospital director.

The approved pension plan for Pontiac city employees provides for increased monthly payments and broader benefits for pensioners and their survivors.

Warren Alloy President Dies

Frederick H. Johnson Suffers Heart Attack at Home Tuesday

Frederick H. Johnson, widely known in Denmark, Detroit and Pontiac for his love of children and desire to help needy persons, died yesterday at his home, 21 Elm Park, Pleasant Ridge. He had been ill with a heart condition for five years.

Mr. Johnson was born on Funen Island, just off the coast of Denmark, May 3, 1885. He worked on the farm and received his education in the local schools. At the age of 16, he came to America with his sister.

With the assistance of a fellow Dane, Mr. Johnson landed a job as a machinist. He turned to tool making and developed the first automatic multiple point welding machine for use in auto production.

He formed a company to manufacture the new equipment. It now does a multi-million dollar business annually.

Frederick Johnson was president and owner of Warren Alloy Mechanical Processing Co., 915 Oakland Ave., Pontiac.

He was also president of Progressive Welder Sales Co. and Progressive Welder Co., Detroit, president and owner of Warren Alloy Foundry at Warren, president of Ziking Products in Kalamazoo and Vicksburg, vice-president of the Hydro Manufacturing Co., president and owner of Progressive Welder Sales Co., Canada Limited in Chatham and Ridgetown, Ont., Canada.

His love of children led Mr. Johnson with the late Gen. W. S. Knudsen, to form a relief organization, "Save the Children Federation," in Rebild, Denmark.

Top Dem May Pull In His Whole Ticket

(Continued From Page One)

All were fairly certain Williams' pal and former legal adviser, Philip A. Hart, had made it with him for lieutenant governor.

At 2 a. m. the 43-year-old governor slipped out of the throng for a breather. He and his bright-eyed wife, Nancy, sat on a step outside. He slipped an arm around her and kissed her. She tweaked his cheek playfully.

Nancy wore a dress she had hand-knit herself. It was wool, interwoven with gold thread.

Lucky, the Williams' parakeet, chattered noisily back at the crowd. Torchy, a Scottie, ran happily through legs, begging for scraps from a buffet loaded with ham, shrimp and turkey.

Mrs. Williams sent son Gery, 13, but almost as tall as his boyish-looking father, to bed at 1:45 a. m. He had presided as announcer at a news ticker much of the evening.

Nancy, 11, and Wendy, 8, were put to bed much earlier, after busy stints as waitress and bugler.

Near noon the vote for the governor was:

Precincts 4,782
Precincts Reported 3,710
Leonard 780,442
Williams 917,017

Dems Control House, Battle for Senate

(Continued From Page One)

Sen. John Sherman Cooper in Kentucky.

Contests in other "safe" states — both Democratic and Republican — followed the expected pattern. In many of the crucial states, however, the vote was very close.

In New Jersey, former Rep. Clifford P. Case (R) trailed all night but then began creeping up on Rep. Charles R. Howell (D) in their battle for the seat of Sen. Robert C. Hendrickson (R) who did not seek re-election. Case was the only Republican congressional candidate for whom Sen. Joseph R. McCarthy (R-Wis.) said he would not vote.

In Michigan, Sen. Homer Ferguson, chairman of the Senate GOP Policy Committee, took an early and sizable lead over Democrat Patrick V. McNamara, but late returns from industrial Detroit reduced his margin and left the outcome in doubt.

In Ohio, Rep. George H. Bender (R) took an early lead over Sen. Thomas A. Burke (D) for the unexpired two years of the late Robert A. Taft's term, but could not stretch it to assure victory on the basis of partial returns.

The same was true in Wyoming, where former Sen. Joseph C. O'Mahoney (D) moved out ahead of Rep. William Henry Harrison (R) for the seat now held by Sen. E. D. Crippa (R).

In Montana, the lead see-sawed between Sen. James E. Murray (D) and his challenger, Rep. Wesley A. D'Ewart (R).

Sen. Guy Cordon (R-Ore.) took an early lead in his state but Richard L. Neuberger polled an abnormally heavy vote for a Democrat in that normally Republican stronghold.

In Massachusetts, Senate Republican Whip Leverett Saltonstall, a staunch backer of the Eisenhower administration, trailed most of the night before edging ahead to victory over Democratic State Treasurer Foster Furcolo.

Iowa produced another close one in a race in which Sen. Guy M. Gillette (D) was upset by Rep. Thomas E. Martin. The veteran Gillette survived President Roosevelt's "purge" in 1938 but lost his seat in 1944, returned to the Senate in 1948 and fell out again in Tuesday's vote.

The GOP wrested another seat from the Democrats in a close contest in Colorado. Lt. Gov. Gordon Allott (R) defeated former Rep. John A. Carroll (D) for the seat of Sen. Edwin C. Johnson (D), who was elected governor.

However, the Republicans could not hold the Nevada seat of the late Democratic Sen. Pat McCarran. Republican Ernest S. Brown, who had been appointed

to the vacancy, was defeated by Alan Bible (D), a McCarran protégé.

In Illinois, the race between Liberal Democrat Sen. Paul H. Douglas and Conservative Republican Joseph T. Meek ended in victory for Douglas. Meek's downstate majority was much too small to offset the Douglas margin in Chicago.

South Carolina produced an unprecedented type of upset when J. Strom Thurmond, the 1948 States Rights Democratic Party presidential nominee, won as a Democratic write-in candidate over Edgar A. Brown, the regular Democratic party nominee.

In Idaho, Sen. Henry C. Dworshak (R) spoiled the comeback effort of former Democratic Sen. Glen H. Taylor, vice presidential nominee of Henry A. Wallace's Progressive Party in 1948.

And for the House of Representatives, the heaviest Democratic gain was in Pennsylvania where the voters ousted three Republicans and seated three Democrats. A fourth GOP-held seat in Pennsylvania remained in doubt as the ballot counting went into the second day.

The Democrats unseated two Republicans in Missouri, one of them in former President Truman's home district. Other seats lost by GOP members to Democrats included two in Illinois, and one each in Wisconsin, New York, Indiana, Delaware and Michigan.

In California and Oregon, Democrats were involved in hot races with Republican incumbents and claimed a good chance of picking up an additional seat or two.

Republicans turned the tables in four states to pick up seats currently or formerly held by Democrats. Two of these Republican victories were in the traditionally Democratic south — one in the First District of Florida, and the other in the Fifth District of Texas, which takes in the city of Dallas.

The Republicans regained the seat in Kansas that they lost to the Democrats two years ago in a local fight over a dam project. They also won a seat in Ohio that has changed hands from time to time.

The unofficial returns indicated that the Democrats would hold 230 to 235 seats in the new House of Representatives, compared to 200 to 205 for the Republicans. The lone independent House member, Rep. Frazier Reams of Ohio, was ousted by a Democrat.

It takes 218 members to control the house. The Republicans held the minimum 218 majority in the last Congress.

Copper Still Fascinating to Hunters Despite A-Age

WASHINGTON—Copper, one of man's first metals, still lures fortune-hunters despite the competition of new, more exciting materials of the atomic age.

Several Canadian prospectors are reported to have become wealthy overnight in the frenzied copper rush now under way in the lake country of northwest Ontario.

Other prospectors tell of finding big nuggets of pure copper. From similar sources, they say, the Indians once fashioned spears, arrowheads, and tools found near Killbuck Lake, 40 miles southeast of booming Geraldton.

Canada ranks fourth among the world's copper producers, notes the National Geographic Society. About half her annual output, nearly 234,000 metric tons in 1952, comes from the Sudbury basin, 200 miles northwest of Ontario's capital, Toronto.

From 1850 to 1880 Chile was the chief copper supplier. Now this south American nation is second. The United States leads. Northern Rhodesia is third. Ninety-seven per cent of U. S. production comes from Arizona, Utah, New Mexico, Montana, Nevada and Michigan, in that order.

Uncle Sam is also the greatest consumer of the red metal found in a thousand and one everyday articles.

Whether in peace or war, copper is vital. It resists corrosion. It conducts heat and electricity. With ease it is drawn into wire.

Enormous quantities go into telephone, telegraph, radio and television equipment. Electric power, light, and appliance industries find it indispensable. It is in high demand for building operations and for making automobiles, ships, locomotives and airplanes.

Man has used copper since the Stone Age gave way to the Bronze (copper) Age some 6,000 years ago.

Relics of prehistoric Egyptian and Chinese civilizations, as well as of the Phoenician, Babylonian, and Assyrian, show that early peoples favored copper in art and industry.

Spray-On Deicer Now Available for Planes

LONDON (AP) — A British firm has developed a surface heater de-icing system for planes which can be applied by spray-gun.

A coating of insulating material is sprayed on parts requiring protection. A thin layer of metal is sprayed on next. This is the heater element. It is covered with another spray of insulator.

Terminals and leads connect the plane's electrical system to the heater element.

GOP Sweeps to Victory With Record Vote Turnout

From Our Birmingham Bureau
BIRMINGHAM—While county, state, and the nation's candidates see-sawed back and forth in yesterday's election race, Republicans took an emphatic victory in Birmingham, as expected.

Records were broken right and left, as Birmingham, Bloomfield Hills, and Bloomfield Township voters cast more ballots than the 1930 off-year election.

City Clerk Irene Hanley reported a 75.5 per cent total vote in Birmingham's 11 precincts, or 5,513 of the 7,296 registered voters.

This topped the primary vote of two years ago by two per cent, and showed the usual 5-1 split in Republican and Democratic votes.

In Bloomfield Hills, election officials tallied 740 votes, of a possible 1,145, for a 6-1 Republican victory.

Republicans took a more than 7-1 margin in Bloomfield Township, where 3,414 of the 4,500 registered voters went to the polls.

Incumbent Senator Homer Ferguson captured the greatest number of Birmingham's Republican votes, with a total of 7,785, while Gov. G. Mennen Williams played second fiddle to the Democrat's home town favorite, Philip A. Hart, of 537 Westwood Dr.

Hart, running for lieutenant governor, took 1,922 votes as opposed to 1,885 cast for the governor. He also received the highest number of Democratic votes in Bloomfield Hills and Bloomfield Township.

The only local question put to residents received a stamp of approval, with a vote of 5,106 for, and 2,068 against the sale of city-owned lots 505-515 in Sheffield Estates Subdivision No. 1.

A millage increase for construction of the new county courthouse was turned down here and in Bloomfield Township, but was approved in Bloomfield Hills.

In all three municipalities, voters approved the first two amendments on the state ballot, preventing disqualification of electors because of having moved within the state during the 30 days prior to the election, and the controversial Conlin plan for administering the state aid to schools.

The other two amendments—a bonus for Korean war veterans and legalized bingo—were voted.

Millions of American church women will be celebrating World Community Day on Friday, as will local church women when they meet at 2 p. m. at the Townsite Community Church in Lathrup.

members will be held at 8 to 10 p. m. at the Congregational Church, with an informal coffee hour to follow.

Residents' complaints over the cutback to only one garbage collection per week this summer should be non-existent next year.

Commissioners also extended the contract for garbage and rubbish collections to the B & B Disposal Service, which has handled the job this year. Costs for all necessary collections will be an estimated \$65,065.

November business meeting of the Business Women's Club will get under way with dinner at 6:30 tonight at the Community House, with the business meeting to follow.

William Maxwell, 91, of 911 Knox St., will be held at 1:30 p. m. Friday at the Manley Bailey Funeral Home, with burial in Southfield Cemetery. A retired farmer, he died yesterday following a long illness.

He is survived by two daughters, Olive and Mary, both of Birmingham, a sister, Jane, also of Birmingham, and a brother John, of England.

Warren C. Pratt, 67, of 622 Bloomfield Court, real estate broker with the firm of Warren C. Pratt and Associates in Detroit, died this morning at St. Joseph Mercy Hospital, Pontiac, after a short illness.

Mr. Pratt was a member of the Society of Automotive Engineers, and a graduate of Yale University.

Besides his widow, Louise, he is survived by four sons, Charles W. and James B. of Birmingham, John H. of Flint, and Warren C. of Augusta, Ga., two daughters, Mrs. Norma Clark of Birmingham and Mrs. Lillian Crane of Lakewood, O., and 17 grandchildren.

Private funeral service was held this afternoon at the Manley Bailey Funeral Home.

The daughter of John and Mercy Smith Hay, she was born in Barna, Ind. July 26, 1860 and came to Pontiac nine years ago from Marion, Ind. She was a member of the United Brethren Church there.

Two sons survive, Homer E. of Marion, and Carl W. of Pontiac, with whom she made her home. Also surviving are five grandchildren and 10 great-grandchildren.

Mrs. Tricker was taken from the Pursey Funeral Home to the Needham & Son Funeral Home at Marion this afternoon for service and burial Friday.

Hudson City Choice for Legislature (Continued From Page One)

over Democrat William G. Lambros, 29, of Troy Township.

The Birmingham attorney rolled up a decisive 19,469 to 8,372 victory.

Berkley City Attorney Theodore F. Hughes, Republican emerged victorious in District four, polling a 4,000 edge over Donald L. Swanson, 33, of Southfield Township.

The final tally showed a 16,137-12,629 vote.

Warren Alloy President Dies

Frederick H. Johnson Suffers Heart Attack at Home Tuesday

Frederick H. Johnson, widely known in Denmark, Detroit and Pontiac for his love of children and desire to help needy persons, died yesterday at his home, 21 Elm Park, Pleasant Ridge. He had been ill with a heart condition for five years.

Mr. Johnson was born on Funen Island, just off the coast of Denmark, May 3, 1885. He worked on the farm and received his education in the local schools. At the age of 16, he came to America with his sister.

With the assistance of a fellow Dane, Mr. Johnson landed a job as a machinist. He turned to tool making and developed the first automatic multiple point welding machine for use in auto production.

He formed a company to manufacture the new equipment. It now does a multi-million dollar business annually.

Frederick Johnson was president and owner of Warren Alloy Mechanical Processing Co., 915 Oakland Ave., Pontiac.

He was also president of Progressive Welder Sales Co. and Progressive Welder Co., Detroit, president and owner of Warren Alloy Foundry at Warren, president of Zikings Products in Kalamazoo and Vicksburg, vice-president of the Hydro Manufacturing Co., president and owner of Progressive Welder Sales Co., Canada Limited in Chatham and Ridgewood, Ont., Canada.

His love of children led Mr. Johnson with the late Gen. W. S. Knudsen, to form a relief organization, "Save the Children Federation," in Rebild, Denmark.

In 1926, he was knighted by King Frederick IX of Denmark and was decorated with the Medal of Freedom, the Danish Red Cross Medal and the Medal of Merit from the International Save the Children Federation. He was a member of the Detroit Athletic Club and Detroit Yacht Club.

He was a life trustee of the American Scandinavian Foundation and president of Charitable Relief, Inc., a family foundation.

Besides his wife, Josephine, he is survived by a daughter, Marilyn; a son, Frederick Jr.; two stepdaughters, Mrs. William Paine of Royal Oak, Mrs. Howard Askerson of Prattville, Ala. and three grandchildren.

Also surviving are a sister, Mrs. Elvira Jorgensen; two brothers, John Johansen of Ferndale and Svend Johansen of Denmark.

The Republicans regained the seat in Kansas that they lost to the Democrats two years ago in a local fight over a dam project. They also won a seat in Ohio that has changed hands from time to time.

The unofficial returns indicated that the Democrats would hold 230 to 235 seats in the new House of Representatives, compared to 200 to 205 for the Republicans. The lone independent House member, Rep. Frazier Reams of Ohio, was ousted by a Democrat.

It takes 218 members to control the house. The Republicans held the minimum 218 majority in the last Congress.

Copper Still Fascinating to Hunters Despite A-Age

WASHINGTON—Copper, one of man's first metals, still lures fortune-hunters despite the competition of new, more exciting materials of the atomic age.

Several Canadian prospectors are reported to have become wealthy overnight in the frenzied copper rush now under way in the lake country of northwest Ontario.

Other prospectors tell of finding big nuggets of pure copper. From similar sources, they say, the Indians once fashioned spears, arrowheads, and tools found near Kibbala Lake, 40 miles southeast of booming Geraldton.

Canada ranks fourth among the world's copper producers, notes the National Geographic Society. About half her annual output, nearly 234,000 metric tons in 1952, comes from the Sudbury basin, 200 miles northwest of Ontario's capital, Toronto.

From 1850 to 1880 Chile was the chief copper supplier. Now this south American nation is second. The United States leads. Northern Rhodesia is third. Ninety-seven per cent of U. S. production comes from Arizona, Utah, New Mexico, Montana, Nevada and Michigan, in that order.

Uncle Sam is also the greatest consumer of the red metal found in a thousand and one everyday articles.

Whether in peace or war, copper is vital. It resists corrosion. It conducts heat and electricity. With ease it is drawn into wire.

Enormous quantities go into telephone, telegraph, radio and television equipment. Electric power, light, and appliance industries find it indispensable. It is in high demand for building operations and for making automobiles, ships, locomotives and airplanes.

Man has used copper since the Stone Age gave way to the Bronze (copper) Age some 6,000 years ago.

Relics of prehistoric Egyptian and Chinese civilizations, as well as of the Phoenician, Babylonian, and Assyrian, show that early peoples favored copper in art and industry.

Spray-On Deicer Now Available for Planes

LONDON (AP)—A British firm has developed a surface heater de-icing system for planes which can be applied by spray-gun.

A coating of insulating material is sprayed on parts requiring protection. A thin layer of metal is sprayed on next. This is the heater element. It is covered with another spray of insulator.

Terminals and leads connect the plane's electrical system to the heater element.

Rhode Island is the most densely populated state in the Union, with an average of 728 persons per square mile. New Jersey ranks second with 643 persons to the square mile.

2 Congressional Races Still in Doubt; GOP Loses Genesee District

DETROIT (U) — Michigan voters elected their first Negro Congressman in history Tuesday and may have given the Democrats an extra seat or two.

The Negro is Charles C. Diggs Jr., a State Senator and member of a Detroit undertaking firm headed by his father. He retained the seat in the 13th District for the Democrats by defeating Republican Landon C. Knight by an overwhelming margin.

With some votes still to be counted, the Democrats had hopes of cutting down the Republicans' 13 to 5 advantage in the state's congressional delegation.

In the 6th District (Genesee, Ingham, Livingston Counties), Republican Rep. Kit Clardy was defeated by Democrat Don Hayworth, by almost 5,000 votes.

In the 17th (Wayne County), Republican incumbent Charles G. Oakman and Democratic challenger Mrs. Martha W. Griffiths were running neck and neck with most of the votes still to be tallied.

And in the 7th (thumb area), Rep. Jesse Wolcott, dean of the state's congressional delegation, was given a stiff battle by Dr. Ira D. McCoy of Bad Axe, the Democratic challenger. Wolcott is completing his 11th term.

Elsewhere the races went much as expected, with all incumbents winning re-election handsily.

In the 3rd District Aug. 3, John Hansen, former aide to the late Paul Shafer, won Shafer's seat to keep it in Republican hands. He defeated Democrat Charles C. Wickert.

Diggs will represent a Detroit district spanning Woodward avenue from the northern city limits to the Detroit River. He had unseated Rep. George D. O'Brien in the Democratic primary. Knight, 30, is the son of newspaper publisher John S. Knight.

Clardy became best known as a member of the House Un-American Activities Committee in his first term in Congress. In this capacity he conducted controversial hearings into Communist activities in the state last spring.

Hayworth is a Michigan State College speech professor. He emphasized in his campaigning that Clardy often voted against the proposals of President Eisenhower. But Clardy produced a telegram from the President on election eve expressing a hope he would win.

Rep. Alvin M. Bentley, who barely survived a wild shooting spree on the floor of Congress by fanatical Puerto Ricans during his first term, won a second term with virtually no trouble from Democrat Clarence V. Smael.

George A. Dondero, an 11-term veteran, won over Radio Actor Paul Sutton, the Democratic nominee in the 18th District (Oakland County).

Here were the results in the other districts:

1st — Thaddeus M. Marchewicz, Democratic incumbent, an easy victory over Rudolph G. Tenerowicz, Republican.

2nd — George Meader, Republican incumbent, a 2-1 victory over J. Henry Owens, Democrat.

4th — Clare E. Hoffman, Republican incumbent, a nearly 2-1 winner over Robert McAllister, Democrat.

9th — Rep. Ruth Thompson, Michigan's first congresswoman, won handsily from the Democratic nominee, Theodore E. A. Engstrom.

10th — Republican Elford A. Cederberg won a second term over the opposition of Democrat William J. Kelly.

11th — Victor A. Knox, Republican, former speaker of the Michigan House, defeated Democrat Harold Beaton.

14th — Louis C. Rabaut, Democratic veteran, had less than expected opposition from Joseph A. Moynihan Jr., a former assistant United States attorney and member of a prominent Detroit family.

15th — Democratic Veteran John D. Dingell overpowered political newcomer Gregory M. Pilon.

16th — John Lesinski, Democratic incumbent, easily beat off the challenge of Republican Stanley A. Grendel.

Two Women Are Hurt When Car Hits Truck

Two women riding in an auto driven by Leona J. Simmons, 33, of 236 Fern St., were treated at St. Joseph Hospital Tuesday night when the driver lost control and hit a parked 1½-ton truck in front of 483 Alton St., Pontiac Police reported.

Suffering minor injuries were Eunice Phillips, 21, of 427 Howard St., and Betty Clifton, 23, of 363 Branch St. Miss Simmons told Police she was dodging mud holes in the road and failed to see the truck in time to avoid the accident.

Police said the owner of the truck is Randolph Crump, 32, of the Alton street address.

Dems Get Five Governorships

Snap Up 16 of 33 at Stake to Gain Slight Edge

WASHINGTON (UP) — Democrats captured at least five Republican governorships and held all their own statehouses Tuesday in an election sweep that crumbled such long-time GOP strongholds as New York and Pennsylvania.

New York fell to the Democrats for the first time since retiring Gov. Thomas E. Dewey took the helm 12 years ago. And, in Pennsylvania, a 35-year-old state senator ousted the Republicans for the first time in 16 years.

In Connecticut, New Mexico, and Colorado, Democrats also took governorships away from Republicans, following the lead of traditionally Republican Maine which elected a Democratic chief executive Sept. 13.

All in all, Democrats snatched up 16 of the 33 governorships at stake Tuesday and piled up leads for three others — Minnesota, Wyoming, and Arizona — which now have GOP chief executives. Republicans swept to victory in 13 states and led in one other where they already held control.

The Democratic victories—some of the sharp upsets—gave the Democrats a majority of the nation's governorships. Before Tuesday, the lineup was: 29 Republicans, 19 Democrats, including the Democratic triumph in Maine.

The indicated new lineup: 28 Democrats, 20 Republicans. (Including 14 holdovers.)

The long Republican rule in New York ended when Averell Harriman, millionaire businessman and veteran aide to Democratic presidents, scored an eyelash victory over Dewey's handpicked candidate, Sen. Irving M. Ives (R).

Ives conceded victory to Harriman Tuesday night but late returns so narrowed the margin—to about 13,000 votes—that Dewey ordered police to guard all ballot boxes until the votes can be recounted. This could lead to a GOP challenge.

George M. Leader, a young state senator, carried Pennsylvania into the Democratic column in one of the biggest surprises of yesterday's election. The loser was Lt. Gov. Lloyd H. Wood who had hoped to succeed retiring Gov. John S. Fine, one of the leaders in President Eisenhower's 1952 presidential election campaign.

In Massachusetts, Republican Gov. Christian A. Herter won a second term in a one-year battle with Democrat Robert F. Murphy. The lead passed back and forth until early today when Herter spurred to victory.

The Republicans won another close one in Wisconsin where Gov. Walter J. Kohler defeated his Democratic challenger, William Proxmire, by some 30,000 votes. Kohler had beaten Proxmire by about 400,000 votes two years ago.

Two veteran Democratic governors — G. Mennen Williams of Michigan and Frank J. Lausche of Ohio — loomed as possible Democratic presidential timber in 1956 after winning unprecedented new terms. Williams won a fourth term; Lausche a fifth.

Former Democratic Congressman Abraham A. Ribicoff scored a comeback in Connecticut by defeating Gov. John D. Lodge's bid for a second term.

In Colorado, Democratic Sen. Edwin C. Johnson, who is retiring from Congress, was an easy winner over Donald G. Brotzman. The Democrats scored another gain in New Mexico with the victory of John F. Simms Jr.

Republican Gov. Goodwin J. Knight of California was elected for a full term in the office he inherited from Chief Justice Earl Warren. In Maryland, Gov. Theodore R. McKeldin became the first Republican to win a second term, defeating former Maryland University President Harry C. Byrd.

Broadway Furor On-- Openings Everywhere

By EARL WILSON

NEW YORK—The Fall Furor—the Autumn Avalanche—is on with more openings than the cops can shake their nightsticks at. At the "Carmen Jones" movie premiere, I asked Linda Christian—there with socialite Albert Overton—if she'd give an autograph for somebody nice in Iowa.

Linda signed her name, then wrote the inscription: "To somebody nice in Iowa."

At the "Carmen Jones" premiere, a Rolls-Royce pulled up and everybody stared pop-eyed at such swank. Out stepped Joyce Mathews and Billy Rose, each looking very cute. Monica Lewis arrived in black tuxedo pants with Bert Miller, who designed the britches. "Bill," whispered Monica, referring to her fiancé, playwright Liam O'Brien, "is in California writing a movie." Policewoman Fights Alleged Masher

DETROIT (AP) — A rookie Detroit policewoman threw a Detroit theater matinee audience into an uproar yesterday battling and chasing a man she said tried to accost her.

Policewoman Mary Jane Tomczak, who was graduated from the police academy only two months ago, was with her mother Helen, when the incident occurred.

She said John Tambasco of Detroit, sat down beside her and made improper advances. When she told him he was under arrest, he attempted to flee.

Tombasco was arrested when he ducked out a side entrance into the arms of police called by Miss Tomczak's mother.

Bette Davis Tired Paying Alimony to Ex-Husband

NEW YORK (INS) — Actress Bette Davis declared yesterday she was "rather tired" of paying alimony to her third husband.

He has filed suit for \$1,750 he claims the academy award winning actress owes him.

Bette, in a telephone interview with the New York Daily Mirror, told what she called "my sordid little tale."

Her former husband, William Grant Sherry, ex-boxer and painter, is now married to their child's former nurse, Marion Richards, and lives in Rockport, Me.

He contended in a suit filed in Portland that Bette agreed to help with finances to the tune

of \$250 monthly for four years if he remarried. But, he said, she hasn't lived up to her part of the bargain since December.

Bette had little good to say of her ex-husband. "Broke?" she asked. "He is no different now than he always was. It is simply that I am tired of paying. We made a written agreement — an out-of-court agreement — and now I simply want to find out whether or not it is legal."

Bette, who lives at Cape Elizabeth, Me., said her attorney has filed a demurrer on the ground it is against the state's policy to allow husbands alimony.

Sherry has described the couple's

five years of marriage like this: "I had dinner ready when she came home. I took off her shoes and brought her slippers and a drink. I pressed her dresses when the maid wasn't there and drew her bath and gave her massages."

Red Jamming Fails to Stop Vote News

LONDON (UP) — American-operated radio stations in Europe carried news of the United States election through Russian jamming to millions of listeners behind the Iron Curtain.

The Voice of America said in London that news of the voting was included in regular newscasts. The

U. S. government-operated radio said a special broadcast was beamed to Eastern Europe and the Soviet Union beginning at 1 a.m. today and continuing until results are in.

The independent Radio Free Europe in Munich, Germany, broadcast special 10-minute election news hourly to listeners in Poland, Czechoslovakia and Hungary.

Rias, the American-operated station in Berlin, transmitted news in German to listeners in the Soviet Zone.

PRIZE FORMULA?—Prof. Linus Carl Pauling, of California Institute of Technology, is favored to win the \$35,000 1954 Nobel Prize for Chemistry, according to informed sources in Stockholm, Sweden. The native of Portland, Ore., has been conducting research on the structure of heavy molecules.

Italy's Ex-King Remains Active

Umberto's New Life Centers Around Villa in Portugal

CASCAIS, Portugal (UP)—After eight years of exile, ex-King Umberto of Italy leads a full, active life centered around his yellow-stucco "Villa Italia" on the cliffs outside this fishing town. An ardent traveler, the 50-year-old former monarch is often abroad visiting kinsmen of the House of Savoy, of which is the head, or attending international religious gatherings of the Roman Catholic Church.

Even when he's at home, Umberto admits he has "no idle moments." Besides being acknowledged social leader of the exiled royal colony here, Umberto is a student of history and world affairs, a writer, patron of the arts, and an enthusiast of gardening, swimming and tennis. Many former subjects who visit him say he takes keen interest in Italy's welfare.

Besides his two younger daughters, Umberto's official household includes his chief of household, the Marquis Carlo Graziani, and Capt. Mario Castellani, Umberto's eldest daughter is studying in Switzerland and England. Umberto's wife, the former Queen Maria Jose, lives in Switzerland with their son.

The tall slim Umberto's closest friend here is believed to be Don Juan, pretender to the Spanish throne, whose four children call the Italian royal exile "Uncle Umberto."

When not working in the big gardens around his cliff-top Atlantic mansion, Umberto likes to exercise with long solitary walks in the green, castle-topped hills of nearby Sintra. He also swims in the cold sea beneath his house, whose grounds are drenched with salt spray on stormy days.

One of his greatest interests is the mail he gets from former subjects of all political shades, many asking him to return. Umberto lost his throne when the 1946 plebiscite turned Italy into a republic.

Cherokee Clan Names Unearthed by Lecturer

CHEROKEE, N. C.—According to Paul Catt, Indian lecturer at Oconaluftee, the replica of a Cherokee village of 200 years ago, the Cherokee nation was divided into seven clans at that time. The names of three of these clans cannot now be translated, as the words have no counterpart in the English language.

The other four clans were named "Bird," "Wolf," "Deer" and "Paint"—"all things that were useful to the Cherokee," explains Catt.

Breaks Arm in Sleep

IOWA CITY, Iowa (AP)—Gary Harding, 7, son of Mr. and Mrs. Paul W. Harding, broke his arm after he had been put to bed for the night. Gary, walked in his sleep, his mother said, and fell down a flight of stairs.

PIN-WORMS MAY BE A FAMILY AFFAIR

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... only parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, these pests must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredients give relief to work—kills Pin-Worms quickly and easily. Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermicide... the small, easy-to-swallow tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 125 years.

Rewrite on Dreiser

VIENNA (INS)—Theodore Dreiser's "An American Tragedy" is written by Soviet playwright Bazilevskij into a "class-drama" is presently making its debut on Red stages behind the Iron Curtain.

tain. Refugees said the rewrite is a "vulgar misinterpretation" of Dreiser's original play.

Boyle Says

Big Business Wants Man With Ideal Corporate Wife

NEW YORK (U) — An ambitious girl today doesn't merely marry a man. She marries the corporation he works for, too.

It has become a kind of 20th Century bigamy.

For it is an open secret that many large corporations now don't make a man an executive solely on the basis of his work in the office.

No indeed. That is only half of it. The corporation spot checks his wife also, to be sure that she measures up to its requirements.

Thus arises a strange new industrial concept—"the ideal corporate wife."

The idea of being coldly studied by the bifocal gaze of a huge corporation is rather frightening to the average wife.

"I think I know how to please my husband," she says, "but how does a girl go about keeping a corporation happy?"

Suppose her husband sells Buicks. She is unnerved by the thought that in some mysterious way she may commit a blunder, a blunder that will not only cause her husband to lose out on a promotion to district sales manager but also cause General Motors itself to drop 30 points on the stock market.

It's an awful big responsibility to put on the shoulders of one frail but well-meaning woman.

Fortunately, she has some tips to guide her. But they tend only to give her a feeling of inferiority.

For surveys of the "ideal corporate wife" shows that washing behind her ears, keeping her husband well-fed and contented, and raising her kids are hardly enough.

She should dress well but not too well, be "the college type," develop social charm, put her husband's job first at all times, keep abreast of his business but keep her nose out of it, be active in the community, stay within her household budget, never be jealous of her husband's secretary or associates, and so forth and so on.

Put more simply, she should merge the qualities of Florence Nightingale, Mary Margaret McBride, Mother Machree, Catherine

the Great of Russia, and a female Dale Carnegie.

Otherwise, if she asks her husband in 1974 why he hasn't had a raise in pay for 20 years, she is likely to be crushed by the reply: "Remember that time we went to the boss's house in 1954, and you ruined my career. The boss decided right then you'd never be the ideal corporate wife, and there was no point in promoting me because you'd only make the corporation look untidy."

This ideal-corporate-wife nonsense could break up a lot of happy homes. It may result in articles in the women's confession magazines entitled, "My Busted Telephone and Telegraph Co.," "Why One Wife Failed with Anaconda Copper," and "The True Story of How I Let Down Standard Oil."

Some indignant ladies, however, say the mere thought of having their wifely qualifications judged by a corporation brings out the spirit of Lady Macbeth in them.

A few sample reactions:

"Would it help if I did the dance of the seven veils at the next stockholders' meeting?"

"Suppose I learn to sparkle for General Electric, and then my husband switches his job and goes to work for U.S. Steel. What do I do to help him — put on more tonnage, or just try to look more durable?"

"Personally, if I have to please all my husband's bosses as well as him, too, well — they'd better start looking for a lady robot. I'll take in washing."

One woman, I thought, had a very sensible solution to the problem of the ideal corporate wife.

"If wives are that important to a corporation," she said, "why don't they put us on the payroll, too? Then they'd get some real action."

Sounds like a good sound business idea. Any husband would work harder — he'd have to — if his corporation promoted his wife on a family performance basis.

Morals Victim Spotted Juror

Law Student Revealed Record of Sex Offender on Sheppard Panel

CLEVELAND (INS) — A bizarre twist of fate today made a young man whose mother was murdered by his father the key figure in the murder trial of Dr. Sam Sheppard.

Patrick O'Neill, 26-year-old attorney-at-law, identified himself as the mystery man who put the finger on juror No. 6, James R. Manning, as having been convicted of a sex offense against him 11 years ago.

His tough decision to bring his own sordid experience to light resulted in the legal hassle which brought the wife-murder trial to a dead stop which could end today either in a mistrial or the ouster of the juror.

The new principal involved in the trial of the society osteopath added still another chapter to the fantastic stranger-than-fiction tragedies which are being exposed as the case unfolds.

O'Neill, who was 15 when he shot to death his mother, Mary Catherine O'Neill, on Christmas Eve, 1923, while they were struggling over his attempt to get a gun at the height of an argument over attending midnight mass.

O'Neill, who was 15 when he was made the victim of a moral offense by the juror, now the father of three children, said he decided to open old wounds and hold himself up to possible ridicule because "it was my duty as a responsible citizen."

The law student revealed that

Patti Page's Voice May Send You, but Her Feet Are on Solid Ground

By EDDIE CANTOR

The first time Ida and I met the great recording star, Patti Page, was during that period when she had her own radio show in Chicago. Patti told us she grew up in Tulsa, Oklahoma—came from a large family.

I asked, "What do you call large?" "I am one of twelve girls," Ida turned to me with one word, "Quitter!" Then she said to Patti, "How on earth did your mother ever manage twelve girls? Just to get you bathed must have taken all day."

"Oh, no," Patti answered. "My folks had a wonderful system. Mom washed and Pop wiped."

Long before her "Tennessee Waltz," which sold two million copies, and the fantastic "How

Much Is That Doggie in the Window?" Patti was a huge success.

From the time she worked on the famous Don McNeill's Breakfast Club program, people were talking about that wholesome, charming Page-rage. Her voice may send you to the clouds, but her feet are very much on the ground.

She makes no bones about not drinking, not going to nightclubs, getting eight hours sleep each night, and having a better than average appetite.

"I want to stay healthy," she declares. "I know, by Hollywood standards, I'm overweight," but what's the good of having a trim torso if you haven't the strength to push it around?"

How Gulf's new super-refined gasoline delivers

thousands of extra miles of full engine power

Now—Gulf refines out the "dirty-burning tail-end" of gasoline—the No. 1 troublemaker in high-compression engines. Result: more power-with-protection than you've ever known!

Here's proof: This spark plug is from one of the many sets of original equipment plugs used in Gulf test fleet cars. Though spark plugs normally need cleaning or replacement

after 5,000 to 10,000 miles, this plug and its mates did not need cleaning or replacement in over 15,000 miles of city and country driving with Super-Refined NO-NOX Gasoline.

Here's proof: Instead of trying to fight harmful deposits with so-called "miracle additives"—inside your engine—Gulf believes in preventing them from forming in the first place, removes the cause—the "dirty-burning tail-end"—at the refinery. Just look at the plates in the unretouched photo at left and see what a difference Gulf super-refining makes!

What's more, besides giving your engine more complete protection, new Super-Refined Gulf NO-NOX gives you extra gas mileage in the short-trip, stop-and-go driving motorists do most . . . no knock, no pre-ignition . . . stall-proof smoothness . . . instant starts and fast, fuel-saving warm-up.

COMPLETELY NEW! SUPER-REFINED

Raymond Goodwin, Old Sea Dog, Finds New Career on Death Valley Desert

LAS VEGAS, Nev. (UP). — T. Raymond Goodwin spent his youth on the sea, even sailed a 21-foot boat across the Atlantic, but he sought out one of the driest spots in the world to make sure he would amount to something.

Goodwin, 77, retired March 31 as superintendent of the National Monument in southern California's Death Valley. He spent 31 years in the scorching desert waste that claimed the lives of many gold-seeking '49ers.

During his retreat from the sea, Goodwin invented a highway paving composition that is still used, watched Death Valley change from an inaccessible inferno to one of the nation's top tourist centers and met his share of notables.

Goodwin was born in Norwich, Conn., and moved to Providence, R. I., where he developed a great love for the sea and yachting.

In 1911, he and two other men sailed the Atlantic to Italy in a 21-foot boat equipped with sails and a two-horsepower engine.

"King Victor Emmanuel of Italy offered 5,000 lire for the winner of a trans-atlantic motor-boat race," Goodwin recalled. "Thomas Fleming Day, publisher of a sea magazine (The Rudder) was trying to promote the race here in the United States, but he could get no entrants."

Day didn't give up. He promised the King he would get the smallest boat he could find and make the trip.

The tiny Sea Bird was refitted for the trip and made the crossing in 38 days. The little boat was escorted up the Tiber River to Rome by an Italian destroyer, Goodwin said, and there he, Day and a Providence merchant, Fred B. Thurber, were guests of the government.

"I was a gigolo for wealthy yachtsmen after the trip," Goodwin said, "but then I had to make a decision."

"I knew if I was ever to amount to anything I had to make a clean break."

And he did. He left a thriving music store and the presidency of the Narragansett Bay Yacht Racing Assn. and went to Yuma, Ariz., a pretty dry spot in its own right. He eventually settled in Death

Valley, which is as dry as they come.

Goodwin worked as a Bureau of Reclamation project engineer on the Yuma project, later tried his hand at cotton farming, highway engineering and surveying.

Goodwin discovered his highway paving composition by accident. He scraped some cheap oil off a gravel roadbed one night to allow traffic to pass. Re-spraying the oil-gravel mixture next day, he found it to be like asphalt paving which cost 10 times as much.

The discovery led to road superintendent jobs with the National Park Service. Goodwin served at Yosemite and Sequoia in California, Crater Lake, Ore., Yellowstone, and finally Death Valley.

The Death Valley job put Goodwin in contact with the late famed "Death Valley Scotty."

"Scotty and I used to kid each other about who was going to bury the other," Goodwin said. "Scotty visited me in the hospital after I had been hurt in a traffic accident in 1932, and I told him I still was going to bury him. He said you might do that, but right now I've got the edge on you."

Goodwin delivered one of the

eulogies at Scotty's funeral last Jan. 7.

Goodwin looks with pride on his accomplishments at Death Valley. His road-building campaign began in 1933 when 10,000 persons visited the monument. Last year 330,000 persons were logged in the blazing valley.

Now that he is retired and has put down the stigma of being a yachting "gigolo" with solid accomplishment, Goodwin is getting the boating urge again.

Glittering Las Vegas is a good distance from the ocean, but Goodwin has another out — vast Lake Mead just 30 miles away.

"Who knows," he said. "I might consider plotting one of those fancy hotel yachts around the lake."

If he does, he'll be well qualified. Goodwin helped write the regulations at the request of Franklin Roosevelt when the area first was opened to the public.

Featuring Sunday's slate will be the collision of St. Rita's Vikings, unbeaten in six loop starts, and once-defeated Center Line St. Clement. A St. Rita victory will make the Vikings undisputed Suburban League titlists. In other games, Orchard Lake St. Mary plays at St. James and Royal Oak St. Mary is at St. Benedict.

St. Michael, which has won the last four games in the intra-city series, again will be rated a strong favorite Friday.

St. Frederick's football fortunes have fallen into lean times during the past few years. In 1949, last year Rams defeated St. Michael, they roared to a divisional championship with a perfect 8-0 record. Since then, southsiders have won only two and tied two in 36 starts.

LINEMAN OF WEEK—Navy's Ron Beagle, 6-foot, 185-pound end, who rocked Notre Dame on defense and ran the Irish ragged with his pass receiving in the Middle's 6-0 defeat last Saturday, is the Associated Press lineman of the week. He is a 20-year-old junior from Covington, Ky.

U. of I. Finding Exercise, Wheat Germ Oil Are Health Aids

CHAMPAIGN, Ill. (AP)—A champion athlete or a stoop-shouldered professor gets the same advice at the physical fitness laboratory at the University of Illinois.

The advice is this: Take exercise to improve blood circulation and wheat germ oil to supplement diet.

Dr. T. K. Cureton, head of the laboratory, says the formula got results for Roger Bannister, the world's fastest runner of the mile. He says he advised Bannister in England before Bannister ran the mile in less than four minutes.

He said it also aided Jody Alderson, the fastest girl free-style swimmer in the United States, members of teams at the university, and hundreds of professors and townsmen who seek his advice on attaining peak and endurance in and beyond middle age.

Dr. Cureton says that, while athletes have benefited, he has obtained the best results with sedentary middle-aged men who were "sagging, bagging and falling to pieces."

He worked for years on the theory that circulation is the key to maintaining vigor in an aging body. Two years ago he coupled exercise with dietary supplements.

Cureton, a professor of physical education, says: "We've tried vitamins, gelatin, fruit juices, hormones and other foods in the laboratory, but wheat germ oil has consistently shown the best results in enabling men to bear hard stress without deteriorating."

Hard-Running 49er Trio Pacing NFL in Rushing

PHILADELPHIA (AP)—If the San Francisco 49ers win the National Football League's Western Division crown they'll probably be the 1st pro team to "run" to the title in many years.

Pro football teams in recent seasons have used the running game merely as a diversion for the all-important forward pass. The Cleveland Browns with Otto Graham, Los Angeles with Bob Waterfield and Norman Van Brocklin, Detroit with Bobby Layne, they've all been great passing teams. Most fans probably couldn't tell you who the star runner or runners were for those clubs.

Now comes San Francisco with Hugh McElhenny, Joe Perry and John Johnson leading the ball.

Least National Football League statistics show McElhenny leading in ground gaining with an 87-yard average per carry. The former Washington U. ace, who has carried 64 times for 515 yards,

While this is not one of St. Michael's better years from a won-lost standpoint, Shamrocks definitely are a better-than-average club. Mikes have outscored their opposition 110-60 points despite a mediocre 3-4 mark. Three of St. Michael's four losses were by a total margin of 19 points.

Coach Bob Mineweaver's northsiders will seek to retire the current Stephen J. Griffin Memorial trophy this year. They already have won three of four previous cups and have two legs toward permanent possession of this trophy.

Award of the cup will be made by Rose Griffin, donor of the award named for her late brother who was for many years active in sports circles in Pontiac.

Low Pressure Tactics Tried With MSC '11'

Regulars Are Excused From Drills Tuesday; Will Return Today

EAST LANSING (AP)—Michigan State continued its low pressure tactics this week in preparing for Saturday's football game with Washington State.

Coaches excused the top 25 players from the workouts Tuesday in an effort to rest the players and try to give them some kind of a lift after the setback of their 5th defeat.

Subs were set to work rehearsing Washington State plays and regular practices will resume today.

Meanwhile, for the 1st time this season, MSC will be playing before a less than sellout crowd.

An attendance of about 40,000 is expected for the game, some 5,000 of the total high school students allowed in at a special price. Michigan-Illinois game at Ann Arbor is expected to draw some cash customers and Washington State is rated as only a lukewarm attraction.

Game will be the 5th meeting between the two teams in a series dating back to 1942. Cougars took that one 25-13 but Michigan State won the other three, the last by a 40-0 score in 1948.

TOM TRACY Tennessee Fullback

JOHN FEAR Purdue Tackle

Travel in Fast Company Ex-Maple Ace Tracy, John Fear, Former Skipper Help Vols, Purdue on Gridiron

Five former Oakland County area prep athletes are playing major college football this fall. At state schools are Edgar Meads of Oxford and Jim Bates of Farmington at the University of Michigan and Pat Wilson of Lapeer at Michigan State. Two others ventured out-of-state.

Tom Tracy, all-state back at Birmingham High School in 1951, is at Tennessee and former Waterford High School back Jack Fear is on the Purdue University varsity.

Wilson, a brother of ex-Spartan star Johnny Wilson, was regarded as just another promising sophomore early this season, but his development, plus the shift of Johnny Matsock and Clarence Peaks to halfbacks, has made him

and string quarterback behind Earl Morrall.

The 6-1, 180-pounder is a fine passer and has seen considerable action for MSC.

Fear was a center on the Purdue freshman team last year, but a tackle shortage appeared this season and the 6-foot, 200-pound sophomore was switched to that position. He played briefly in Purdue's victory over Missouri.

extra points and kick-off assignments for the Volunteers and defensively is a deadly tackler.

He sprinted 27 yards for a touchdown against Duke, but missed the conversion in a 7-6 loss to the heavily favored Blue Devils. His 73-yard run in the 4th quarter gave the Vols a 21-14 victory over Chattanooga.

Possibly his best performance was last Saturday as Tennessee downed North Carolina, 26-20. Tracy raced 71 and 43 yards for touchdowns and had an 82-yard run called back due to a penalty. He rushed for 192 yards in 14 carries, an average of 13.7 yards a try.

Tracy is writing the most headlines among the county collegians. Nicknamed "Tom the Bomb," he is a fullback and with still another season to play looks like a strong All-America candidate.

The powerful 5-9, 186-pound fullback is a swift and elusive runner. He averaged nearly 5 yards per try as a sophomore and is hitting over 8 yards a clip this year.

A model of versatility, he is an excellent blocker, passer, pass receiver and punter. He handles

Grid Attendance Up in Western Canada

WINNIPEG (AP)—A total of 617,634 fans sat in on the 40-game regular season played by the Western Interprovincial League of Canadian pro football this season, the league reported Wednesday.

While no official figures were available from last year, a general increase resulted this season since all five cities in the league—Vancouver, Winnipeg, Edmonton, Calgary and Regina—added to the 1953 capacities of their stadiums. The Winnipeg Blue Bombers, playing their second season in the league, were tops in home attendance with a 136,591 total.

Pontiac Mechanic to Work With Mexican in Big Road Race

A Pontiac auto mechanic, Ed Hollis, who lives at Maceday Lake, will be co-driver of an entry in the annual Pan-American Road Race in Mexico this month.

The 26-year-old Hollis, a bump and paint man at Oliver Motor Sales in Pontiac will team with J. P. Zocco, a Mexican driver, in a 1954 Buick Century. The car is on display at Oliver's today.

A total of 154 cars from 14 countries are listed for the grueling 1,908-mile test, which runs from the southern border of Mexico to the Texas boundary. The race is slated Nov. 19-23, and the entries are competing for \$114,000 in prizes.

Winkler Leads West German Team to Two Big Victories in International Horse Competition

NEW YORK (AP)—Hans Winkler who works for an aspirin manufacturer in Germany is giving headaches to the international horse set.

The world champion jumper from Frankfurt helped the West German team win two important international events Tuesday as the United States and Canada and the United States on his 9-year-old mare, Halla.

"The military used to have plenty of horses," he said. "Now there is no military. We have no cavalry, just like you. It is all civilian. You have to buy your own horse

Indians Would Win Replay of Series—Mantle

COLORADO SPRINGS, Colo. (AP)—The Cleveland Indians would beat the New York Yankees in a World Series if they played again, New York Yankee star Mickey Mantle told newsmen Tuesday.

The 23-year-old switch-hitting centerfielder, here on a business trip, figured that Cleveland is still the toughest team in the American League.

"Sure I was surprised when they didn't beat the Giants in the series," he said. "But the Giants got the jump and got real good pitching. That was the difference."

Mantle visited former Yankee teammate Pvt. Billy Martin at nearby Ft. Carson. They agreed that with some better pitching, the Yankees will be tough to beat in 1955.

Allie Reynolds May Be on Way Out as Hurler

Injury to Finger on Right Hand Adds Fuel to Retirement Talk

OKLAHOMA CITY (AP)—Allie Reynolds, the big Indian righthander who reached the major league heights during an eight-year span with the New York Yankees, may have pitched his last baseball game.

A nasty cut on the right index finger added new fuel to retirement rumors which were already persistent because of his age—he'll be 38 in February—and a chronic back ailment. He cut the finger to the bone in a shower room accident last Thursday in Colorado Springs, Colo., following a deer hunt.

With this development, there are three big question marks surrounding his baseball future:

1. Whether the grafting operation performed after the accident will prevent the crippling of his pitching hand.

2. How his back feels in spring training.

3. Success of his oil business, which will determine whether he wants to pitch another year for the \$30,000 or so he can expect to earn.

Reynolds, who has often hinted at retirement the past two years, indicated he won't make his decision until he sees how the cut actually affects his pitching.

Ace 2-Year-Old Seriously Ill

NEW YORK (INS)—Veterinarians are striving to save the life of Mrs. Russell A. Firestone's 2-year-old colt Summer Tan, winner of the Garden State Stakes and regarded as one of horse racing's top juveniles.

Summer Tan, which brought his owner \$151,000.75 when he won the world's richest race at Garden State Park last Saturday, is seriously ill from a blood clot in the arteries leading to the large intestine.

The colt, being treated at his home stable at Belmont Park, was given some relief last night but trainer Sherill W. Ward said he "is far from out of the woods."

Frank Tripucka Sets Canadian Pass Mark

REGINA (AP)—Frank Tripucka of Saskatchewan Roughriders, the leading passer in the Western Interprovincial (Canadian) Football Union this year, set a league record for percentage of passes completed in the regular season.

Figures by League Statistician Bud Hawrylak showed Tripucka, one-time Notre Dame quarter, heaved the most passes, 259, and completed the most, 157, for a completion average of 58.5 per cent. The previous record of 58.7 per cent was established a year ago by Rider Coach Frank Filchock who completed 62 of 106 passes.

Filchock Signs for '55

REGINA (AP)—Frank Filchock, onetime New York Giants quarterback, has signed another one-year contract to coach the Saskatchewan Roughriders of the Western Interprovincial Football Union. Filchock, first signed as coach of the Canadian pro team in 1953, guided the Riders to the playoff semifinals for the past two years. They were eliminated in this year's playoff Monday by Winnipeg.

Voigts Proud of Wildcats' 11 Despite Record

Fumbles, Injuries and Boners Cost NW Team 5 Straight Games

EVANSTON, Ill. (AP)—While coaches at other major football schools are disciplining athletes, Bob Voigts said Wednesday he was "kinda proud" of his Northwestern Wildcats who have lost five straight games.

Voigts, a top candidate for hard-luck-coach-of-the-year distinction, by rights should be tearing out the few tufts left on his balding head. Fumbles, injuries and boners have plagued him. And Voigts hasn't won a Big Ten game since 1952.

Yet, with deep sincerity, Voigts says: "This is the most remarkable group of kids I've had in my eight years at Northwestern."

His Wildcats lost by one touchdown to Southern California, Michigan, Pittsburgh and Ohio State. Fumbles directly cost the Southern California and Michigan games and last Saturday against Ohio State, the nation's erstwhile No. 1 team, Northwestern just ran out of able-bodied men.

Northwestern won its opener from Iowa State 27-14, then lost five. Minnesota is the only team which pushed around the 'Cats, 26-7.

The Ohio State game cost the Wildcats the services for the rest of the season of their leading ground-gainer, halfback Jim Trombly, and their only seasoned quarterback, John Rearden.

The co-captain and center, John DaMore, and a good end, Bob Morman, still carry injuries from the 14-7 loss to Pittsburgh two weeks ago and may not play against Wisconsin at Madison Saturday.

So what's remarkable about this gang?

Explains Voigts: "Before the Ohio State game, everybody was thinking ways for us to hold down Ohio's score. But my kids were convinced and convincing me we could beat Ohio State."

"So last Sunday, when our training room was chock full of casualties what was the talk? They knew how they could beat Wisconsin."

You Be the Quarterback

By Warren Gear Head Football Coach Drake University

Western Michigan's Broncos trail Ohio University, 7-0, with six minutes to go in the 1st half. It is the Broncos' ball, 2nd down and goal on the Ohio nine-yard line.

A pass play with a fine right end making a great catch and run moved the ball 76 yards to the 10, and on the 1st down, the Broncos made one-yard with an off-tackle slant.

Broncos have made only two 1st downs for the half. Both were on the 1st offensive move with the left half running off tackle from the single wing and the fullback hitting inside. Since then, Ohio has plugged the holes, a reverse has failed twice, and the passing attack has made seven yards aside from the one long gain.

Ohio has been constantly shifting defenses and one linebacker seems to anticipate the Broncos' every move. The ball is 20 yards from the left sideline and there is virtually no wind.

As the Western Michigan quarterback, rate these plays 1, 2, 3 and 4 for this spot:

Quick pass to right end over the line

End-around play with right end carrying

Pass to halfback deep with good end going shallow

Pass to left end as he crosses with right end

Vote-Counting Gadget Breaks, Delaying Wayne

DETROIT (INS) — Officials of Remington Rand, Inc., promised Wayne County Clerk Edgar M. Brannigan their vote tabulating machinery, broken down and short of help, will complete the tally by noon. But now there was some doubt as to its accuracy.

Brannigan's elation at his re-election turned to a fuming frustration when he was routed out of bed and told that the newly installed system had bogged down when a key machine went haywire.

He arrived at the County Building just in time to see five weary girl machine operators stalk out in disgust.

Brannigan looked at the mountain of uncounted tally books, representing at least 250,000 votes, and announced:

"We're going back to the old system. I'm disgusted."

It was after the collapse of the old method during last August's primary that Brannigan paid Remington Rand \$5,000 to install modern machinery and their own operators. A test run indicated that the entire county tabulation would be completed by 4 a.m.

When the machine was repaired shortly before 6 a.m. and work resumed, five of the girls walked out, claiming they had other jobs.

Remington Rand supervisor J. L. Flannigan said it would be 9 a.m. before replacements could be obtained.

NOTICE TO BIDDERS

1. Sealed proposals addressed to the City Commission, Pontiac, Michigan, will be received by the City Clerk up to 2:00 p.m. Eastern Standard Time, Friday, November 5, 1954, for the construction of a Equipment Shelter for the City of Pontiac, Michigan in accordance with the drawings and specifications prepared by Leo J. Hansen, 1212 A. Architect, 18 Carleton Court, Pontiac, Michigan.

Proposals will be received as follows:

1. All Architectural Trades.

2. Proposals to be entitled to consideration must be made in accordance with the following instructions:

1. Proposals must be submitted in duplicate, on forms furnished by the Architect. A certified check, or property executed bid bond, made payable to the City Treasurer of the City of Pontiac, Michigan, in an amount equal to ten (10%) per cent of the bid, shall be submitted with each bid as liquidated damages, in case of failure on the part of the successful bidder to execute the contract and furnish the necessary Surety Bonds, within ten (10) days after notice of acceptance of proposal. Proposals shall be signed in long hand by the head of the firm.

2. Two (2) Surety Bonds for one hundred (100%) per cent of the contract, in accordance with the laws of the State of Michigan, will be required, i.e., faithful completion and payment for all labor and materials used in the execution of the work.

3. Proposals shall not contain a representation of the work to be done. No oral, telegraphic or telephonic proposals or modifications in any way to the bid forms will be considered.

4. Proposals shall be addressed to the City Commission, Pontiac, Michigan, enclosed in a sealed envelope and marked "Proposal for (state proposal, for Equipment Shelter and trade)" and bear the name of the bidder.

5. Should the bidder find discrepancies or omission from the drawings or specifications or should he be in doubt as to their meaning, he should at once notify the Architect, who will send written instructions to all bidders. Neither the City Commission or the Architect will be responsible for oral instructions.

6. Before submitting proposals, bidders shall carefully examine the drawings and specifications, visit the site of the work and carefully inform themselves as to all existing conditions and limitations and shall include in his proposal a firm sum to cover the cost of all items included in the contract.

7. Competence and responsibility of bidders and their proposed subcontractors shall be considered in making the award. The City Commission reserves the right to waive any informality in any bid; to accept any bid; and to reject any or all bids should it deem this to be for the best interest of the City of Pontiac, Michigan.

8. Any bidder issued during the time of bidding are to be covered in the proposal, and in closing the contract, they will become a part thereof. Proposals submitted shall remain firm for a period of thirty (30) days after official opening of bids.

9. Bids will be opened publicly and read aloud at the office of the City Clerk, at the time and date, set for receiving bids. Bids will then be tabulated and related to the City Commission on November 8th for their consideration.

10. Contractors and sub-contractors to comply fully with the provisions in Pontiac City Ordinance No. 1194, known as Pontiac Fair Employment Practices. By order of the City Commission.

Dated: Nov. 3, 1954.
