

Goldfine Admits Asking Adams to Intervene

For Courteous Drivers in City:

Free Tickets to Water Follies

Pontiac Police were handing out a new-type ticket today, and if you're a courteous driver you might get one.

The ticket is good for a reserved seat at famous aquacade which the Pontiac Area Water Follies of 1958, an internationally Chamber of Commerce is sponsoring at Wisner Stadium Friday, Saturday and Sunday.

With Chamber cooperation, the Police Department's Traffic and Safety Bureau hopes to encourage courteous driving in Pontiac.

"We feel that the courteous driver is usually a safer driver," said Lieut. Clayton Randolph of the Traffic Bureau. "His concern for others leads him to be more cautious and patient as far as other drivers and pedestrians are concerned."

About 200 follies' tickets, donated by the

chamber, have been distributed to the 16 officers the Police Department has assigned to traffic patrol, Randolph said.

"The officers have orders to pass out as many tickets as they can through Friday to motorists who deserve to be complimented on their driving," Randolph said.

Traffic patrolmen, he said, will be on the alert for courteous driving, as they usually are for bad driving.

They'll be especially alert for drivers who allow pedestrians the right-of-way. "For some reason lately," Randolph observed, "Pontiac drivers have not been giving pedestrians the consideration they deserve, with the result that pedestrian accidents have been on the increase."

Randolph said the Traffic Bureau plans some special honor for the most courteous driver observed between now and Friday.

We Can Solve Problems, Ike Tells Canada

Calls for Free Nations to Unite in His Speech Before Parliament

OTTAWA (AP) — President Eisenhower told Canada's Parliament today that differences between the two neighbor nations can be solved.

They must not be allowed to overshadow the transcendent importance of free world cooperation in the winning of the global struggle against communism, he said.

Discussing matters which he "We stand together at a pivotal point in history," Eisenhower said.

"All that we Canadians and Americans, and those who went before us, have built, all that we believe in, is challenged as it has never been challenged before."

"It is for us to bring to the challenge a response worthy of ourselves and our nations."

The setting for the presidential address was the great oak and stone chamber of the House of Commons in towering Parliament Building — a spot which has resounded more and more with criticism of the United States and its policies.

STRENGTHEN TIES
In awareness of such criticism, Eisenhower came to the Canadian capital yesterday to attempt to strengthen ties of friendship which have been slipping.

"It is my conviction that for all our present problems and all our future ones, we will find acceptable solutions," he assured members of Commons and the Senate.

In conciliatory terms, the President got down to specific points of difference — U.S. wheat exports, American restrictions on oil imports, Canada's trade imbalance with the United States, and the heavy flow of American investment capital to Canada.

Turning to matters which he said are "troublesome between us," the President said that in disposing of surplus wheat overseas, (Continued on Page 2, Col. 3)

Industrialist Back on Stand

TELLS OF BUSINESS ACTIVITIES—Bernard Goldfine was back before the House subcommittee on legislative oversight today, continuing testimony about his dealings with friends, business contacts and government agencies. Two poses of the Boston industrialist during testimony are shown above.

Tycoon Claims He Distrusted Federal Agency

Doubts Whether Ike's Aide Did Much Good in FTC Case

WASHINGTON (AP) — House investigators accused Bernard Goldfine today of balking at their inquiry into \$777,000 worth of his companies' uncashed checks. Goldfine shouted he would answer only what was "pertinent."

WASHINGTON (UPI) — Bernard Goldfine and his son H. Maxwell told House investigators today that they turned to presidential assistant Sherman Adams for help in a tangle with the Federal Trade Commission because they did not trust the commission.

Goldfine and son were dubious, however, about what good their friend Adams did them.

The morning session of the House influence-investing subcommittee brought Goldfine to the witness stand for the third time.

Committee Counsel Robert W. Lishman took up most of the session asking the Boston textile tycoon and his son about their mislabeling troubles with the Federal Trade Commission and about technical problems in operating the family's woolen mills.

Goldfine was ready with what his aides said were the complete records on \$777,000 in uncashed checks, held by Goldfine firms since 1941. The subcommittee had threatened him with contempt if he failed to produce them.

The subcommittee did not get to this phase of the inquiry before it recessed for lunch.

The subcommittee counsel has suggested some of the bank checks might have gone to federal officials who were too timid to cash them but were willing to use them for collateral in business deals, Goldfine has denied that anything like that ever happened.

Lishman brought up at one point a previously undisclosed instance in which Adams stayed at the Sheraton Plaza Hotel in Boston and his bill was paid by Goldfine's Strathmore Woolen Co.

This occurred Dec. 23-24, 1953, when the FTC was investigating labels used by Northfield Mills, another Goldfine firm.

The Elder Goldfine said he had dinner with Adams during (Continued on Page 2, Col. 3)

Former 'M' Star McAfee Killed

Among Four Victims in Airplane Crash; Pitched in Majors

CULPEPER, Va. (AP) — William F. McAfee, former pitcher with the Washington Senators in the American League, and three companions died in the crash of their twin-engine airplane last night on rolling Culpeper County farmland.

The other victims were identified as James H. Sanford, son of a prominent Georgia manufacturer; Olan F. Fulmer, president of the Citizens & Southern Bank of Albany, Ga.; and James A. Berger.

All were residents of Albany where McAfee was mayor. McAfee, former star pitcher at the University of Michigan, quit professional baseball in 1934 when the Senators sold him to the St. Louis Browns.

The four were returning from Tuesday's All-Star major league baseball game at Baltimore when their plane crashed during a heavy rainstorm.

On an instrument flight plan, the plane crashed into a field on the farm of James C. Marsh, eight miles south of here near Mitchell's. The crash scene is in north-central Virginia, approximately 60 miles southwest of Washington, D.C.

Gin Fizz Interests Us More Than Rocket Fizzles?

LOMA LINDA, Calif. (AP) — A Washington, D. C., educator says Americans are more concerned over the fizz in their gin than in the fizzles in their rockets.

Dr. Winton H. Beaven, dean of the School of Graduate Studies at Potomac University, said Americans are spending 10 times more on liquor each year than is being spent on basic research.

He told Institute of Scientific Studies for the Prevention of Alcoholism: "While the Russians were bending their energies toward keeping ahead of the United States in the race to develop more powerful rockets, Americans were furiously bending their elbows downing 2,943,267,079 gallons of alcoholic beverages in 1957."

Senators to Stay in Washington

WASHINGTON (AP) — Directors of the Washington Senators Baseball Club today decided to keep the team in Washington. They voted against even discussing a shift in their American League franchise.

Club president Calvin Griffith, who two days ago talked with other club owners about a possible move, announced the directors had met and abandoned any idea of relocating.

Minneapolis, Houston, Dallas and Toronto, Canada, had been mentioned as possible new sites.

Student Services Head for MSUO Announced

Roy J. Alexander has been named director of student services for Michigan State University Oakland, it was announced today at East Lansing.

The appointment is the first full-time faculty position disclosed for MSUO. It becomes effective July 15.

Alexander was formerly with the Continuing Education staff of Michigan State University and recently returned from two years as head of the MSU mission at the University of Ryukyus, Okinawa.

At MSUO, he will develop programs in admissions, registration, counseling, student life and coordination with high schools.

Progress on the construction of the MSUO building is reported on schedule by Dr. D. V. Varner, MSU vice president.

Foundations are being poured and drainage mains laid. The building is scheduled to be completed in August, 1959, for the opening of the university in September.

ROY J. ALEXANDER

Detroit Gives Up on Airport Site

But Miriani Will Back an Area Authority for Future Expansion

DETROIT (AP) — Mayor Louis Miriani said today Detroit has abandoned the idea of locating a city-owned northeast airport in Warren or Sterling Township.

The mayor said he favored a metropolitan authority which would take charge of all airports in the Detroit area.

"We going to go along with the metropolitan authority idea," Miriani told the Detroit Aviation Commission which he recently revamped. "I agree now that once the authority is in business it should run our city airport."

Both Sterling and Warren Townships objected to Detroit's building a new airport in them, and Miriani said today: "We are going to get along with our neighbors. We have learned the hard way that we cannot quarrel with them."

Miriani said that whatever northeast airport site a metropolitan authority might pick would get his approval.

He Really Steals Bases

CHARLES CITY, Iowa (UPI) — Stealing bases has landed a six-year-old boy into a mess of trouble. Police said the youngster went to a little league field . . . put first, second and third base in his wagon . . . and carted them home.

Senate OKs Ike's Choice for New Health Chief

WASHINGTON (AP) — The Senate today unanimously approved President Eisenhower's nomination of Arthur S. Flemming to be secretary of health, education and welfare.

Flemming, 53, president of Ohio Wesleyan University, would succeed Marion Folsom. The White House announced in May that Folsom would leave between July 15 and Aug. 1.

Flemming has served as director of the Office of Defense Mobilization and as a member of the Civil Service Commission.

After 50 Hours in Wilderness

Lost Girl, 5, Rescued

MALONE, N.Y. (AP) — "What day is it?" chubby 5-year-old Brenda Jean Doud bubbled when three hunters found her scratched, bitten, but happily alive yesterday after 50 hours in an Adirondack wilderness.

Told it was Tuesday, plucky Brenda said: "I've been lost since Sunday," a fact 500 worried searchers had known only too well.

Brenda, clad only in her panties, was standing in a swampy area thick with fallen timber. The spot is about two miles from the camp her parents are building at Eagle Pond, 16 miles south of this northern New York village.

One of the three hunters, Harold Scott of Malone, said they were calling to one another as they beat through the brush. Frequently, they shouted "Brenda."

She answered, "Who's that hollering at me over there?" Scott quoted her as saying.

"You'll find out," he laughed.

Scott, George Hanna of Malone and Robert Armstrong of Westville carried Brenda nearly a mile to their camp, then drove her to a hospital here for a reunion with her parents, Mr. and Mrs. Robert Doud of Massena. Hospital officials said Brenda, who apparently had not eaten, was in good condition.

BRENDA

Underworld Kingpin Freed on Bail Facing Dope Charge

NEW YORK (UPI) — Vito Genovese, charged with being head of a worldwide narcotics combine, posted \$50,000 bail yesterday 30 minutes after it was set at his arraignment on the charges.

Genovese and 36 others were named in an indictment as members of a syndicate importing heroin into the United States from Europe, Cuba, Puerto Rico and Mexico.

He was said to be the "right man," or the head of the syndicate which allocated distribution of the

VITO GENOVESE

Chicago Racketeers Probe Story Page 2

narcotics in such areas as New York, Chicago, Philadelphia, Cleveland and Las Vegas.

Another defendant, Vincent L. Gigante, said by U.S. Attorney Paul W. Williams to be Genovese's "No. 1 boy," was released in \$35,000 bail.

Gigante recently was acquitted in the shooting of gambler Frank Costello.

Genovese attended the gangland convention at Apalachin, N.Y., last Nov. 14 and has been named as one of the leaders of the underworld Mafia organization in criminal inquiries for the last 20 years.

Of the persons named in the narcotics conspiracy indictment, 23 have been arrested, eight others are serving prison terms and six are being sought.

The dapper Genovese, of Atlantic Highlands, N. J., was described by his attorney as a small businessman who lived a family life in a rented house.

His wealth has been estimated by the district attorney's office at 30 million dollars.

TRADE UP OR DOWN at the Hot List, The Bright Spot, PE 4-048.

Big Color Ad Helps Build Big Sales Day

Saturday, July 5, was the biggest sales day of the year for Thomas Economy Furniture Co., 361 S. Saginaw St.

Charles Uligian, manager of the store, credits the large business to a "Scratch & Dent Sale" and their full page, color advertisement that appeared in the July 4 issue of The Pontiac Press.

"We were mobbed from early morning until closing time," said Uligian.

Uligian credits the success of the "Scratch & Dent Sale" to "a matter of aggressive promotion." He said that the recession is in the minds of the people and must be overcome by offering them real values.

Showers Tonight, Cooler Tomorrow

The U.S. Weather Bureau predicts thundershowers for the Pontiac area tonight with a low of 62-66 degrees.

Showers will end tomorrow and it will be a little cooler — just right for those golf games. The high will be near 80.

Tomorrow night will be partly cloudy with little temperature change, low near 64. Friday's outlook is partly cloudy with little change in temperature.

Fifty-seven was the lowest recorded temperature in downtown Pontiac preceding 8 a.m. The reading at 2 p.m. was 82.

It's No New Problem

ATLANTA (UPI) — Modern consumers aren't the only ones who have been alarmed at the high cost of living — look at the plight of Atlantans of 49 years ago. A story in the Atlanta Journal of Sept. 9, 1909 beefed that prices had risen to 3½ cents a quart for milk, 28 cents a dozen for eggs, four cents a loaf for bread and 11½ cents a pound for bacon.

Seek to Rescue Man on Ledge

Search Teams Locate His Companion's Body in Colorado Canyon

ANTONIO, Colo. (AP)—Rescue teams moved today along routes above and below a man trapped on a narrow shelf of rock where he has been stuck for five days.

FIND BODY

One group at the base of towering Cañon Colorado found the body of the trapped man's companion Tuesday, even as the heights above them turned back new efforts to reach the stranded man. Winds which soon blew through the dark gorge thwarted a helicopter rescue at dusk yesterday.

The body was identified by rescuers as that of William E. Garver, 35, auditor for the University of New Mexico.

Garver and John Sanders, 35, Albuquerque, were returning from a fishing trip when they apparently fell from a perilous mountain trail five days ago. The man on the ledge 600 feet from the bottom of the canyon has identified himself as Sanders to members of the rescue team.

GIVEN FOOD

Don Bowley, 22, scrambled down a lowered rope to Sanders' side yesterday. He gave the trapped man the first food and water he had had in four days.

Bowley volunteered to join the man on the ledge to help him escape the ropes which supported him.

Rescue groups had written off an attempt to reach the man from above because of the danger of starting a cascade of loose rock. Stalled by the precarious canyon walls, rescuers called on an Army helicopter from Ft. Carson, Colo.

The copier, piloted by Lt. Jerry Burdett of Denver, flew into the canyon with a three-man mountain crew headed by Lt. Karl Holzel of St. Louis. The rescue attempt—last one of the day—was turned back by turbulent air in the canyon 35 miles west of here.

The shelf where the one man has been trapped since Friday afternoon at a 45-degree angle from the canyon wall, below a 600-foot free fall to the base of the cañon.

The body of the man identified as Garver was found lodged in a crevice near the canyon floor. Cornered by the ropes, he apparently died within minutes of the fall. He suffered multiple fractures, Howe said.

Receives Minor Injuries When Car Flips Over

Rube B. Amis, 37, of 312 Woodbury St., Walpole, received minor injuries last night when his car overturned on Woodland St. at Oakley Park Rd., according to Oakland County Sheriff's Deputies.

Amis was treated at Pontiac General Hospital and released.

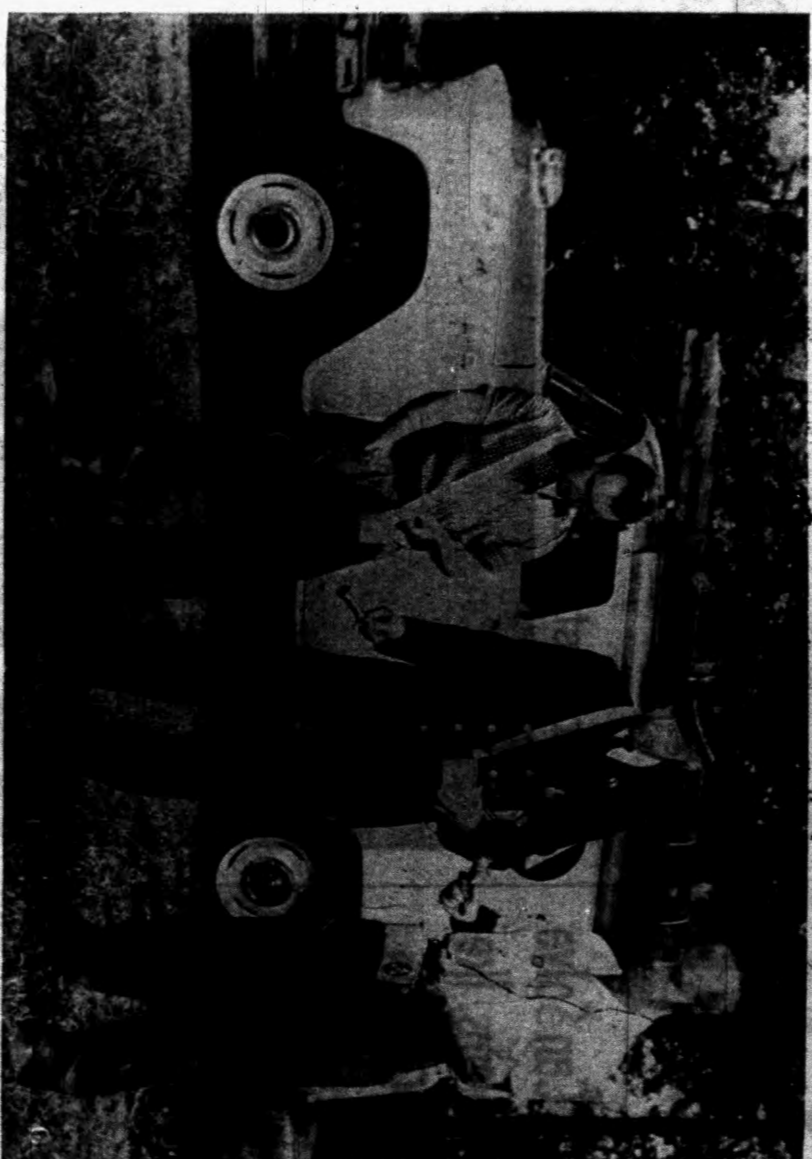

Nebraska - Wisconsin Area Alerted

Tornadoes Prove Harmless

By United Press International
Heavy winds and lashing rains pounded an area from Wisconsin to Nebraska last night and a tornado sighted over Hawthorn, Iowa, triggered a CONELRAD alert at Sioux City.

The Weather

Telephone Rates Up 10c a Month

Pontiac Area Residents to Pay More, Business Lines Also Hiked

An increase of 10 cents a month in residential telephone rates went into effect in the Pontiac area yesterday.

The increase, approved by the Public Service Commission, was effective throughout most of Michigan. It affects one, two and four-party line subscribers on flat-rate service.

Also upped, according to Ray Storm, manager of the Pontiac Bell Telephone Co., were business service rates. Added was 2 cents a month for one and two-party business phones, by said.

Storm announced the price for additional telephone book listings was raised from 25 cents a month to 35 cents.

Exception was made in the case of the Nathan Detroit of the Broadway musical "Milk and Honey." There, residential increase was limited to 5 cents a month for two-party service.

The increase was based on unit message charges. Detroit increases were based on a month for two-party service.

The increase was based on unit message charges. Detroit increases were based on a month for two-party service.

Goldfine Admits Asking Adams to Intervene

(Continued From Page One)
that Boston visit had not been what they discussed.

"All I could say is that we had a very good dinner," he said. Goldfine said he didn't know exactly why he turned over to Adams a letter he received from FTC on Dec. 4, 1935, concerning the alleged misleading violation.

"I gave it to him because the letter speaks for itself," he said. At another point, Goldfine said he believed the labeling trouble had been straightened out when he got the Dec. 4 letter.

"I had understood that that's one of the reasons I turned the letter over to Gov. Adams," he said. "The thing that bothered me and my son," Goldfine added, "was what prompted that letter."

Goldfine drew a bigger crowd than the Boston visit. He was surrounded by a group of reporters and photographers. He was asked many questions about the letter and the FTC case.

Goldfine said he was not a lawyer and did not understand the legal aspects of the case. He said he was only a businessman and was not involved in the legal proceedings.

Goldfine said he was not a lawyer and did not understand the legal aspects of the case. He said he was only a businessman and was not involved in the legal proceedings.

Denies Knowing Racketeers

Ex-Head of Bartenders Union Says Gangsters Didn't Sponsor Him

WASHINGTON (UPI)—A former Chicago union official today denied knowing underworld figures who, the Senate Rackets Committee was told, sponsored his ride in the labor movement.

Louis Romano, one-time president of Chicago Bartenders Union Local 278, began his testimony with a string of Fifth Amendment refusals to answer committee questions.

By then, under close questioning by counsel Robert F. Kennedy, the graying former Chicagoan sharply denied knowing Frank (The Enforcer) Nitti, Minny (The Canal) Humphreys, Louis (The New York) Campagna, or Anthony (Cough Tony) Accorico.

Kennedy said Nitti and the others had "joined" Romano in the union, but the latter, now a Coral Gables, Fla., insurance salesman, refused to say if he had ever met them.

Romano did admit knowing Fredrick Evans, who was described yesterday as an associate of Nitti and his gang, but said that was only because he lived in the same building with him.

Romano did invoke his constitutional right against self-incrimination on questions about his personal finances.

Romano did invoke his constitutional right against self-incrimination on questions about his personal finances.

Yankee Skipper Causes Turmoil

Casey Rocks Senate With Comments; Other Top Names to Follow

WASHINGTON (UPI)—Casey Stengel, slugging manager of the New York Yankees, gave Congress a dispirited defense of professional baseball today.

"I wouldn't be in it 48 years if it wasn't all right," the crinkly-faced Casey confided to the Senate anti-trust and monopoly subcommittee.

As to pushing this designed to protect baseball and other professional team sports from anti-trust laws, Stengel adopted a "baseball policy."

"I didn't ask for the legislation," Stengel said more than an hour on the excellence of the league's leading Yankees, yesterday's All-Star game, the high quality of Yankee catchers and the excellent of baseball in general.

Stengel's testimony came after one subcommittee member—Sen. Joseph C. O'Mahoney (D-Wyo.)—said that all will not be enough sailing for the sports exemption bill despite the 45 senators who have joined as its co-sponsors.

O'Mahoney said it is clear, despite court rulings to the contrary, that baseball is a "gigantic commercial enterprise."

O'Mahoney said he will ask the bills sponsors to justify a congressional grant of legislative power to sports executives—"Who they are, nobody knows."

Such a grant, he said, might be used to deprive the public of all sports broadcasts and television as they are now deprived of some TV through closed-circuit operations.

Subcommittee Chairman E. A. Tamm said later that witnesses will include government attorneys, experts, some former players and some owners.

Jackie Robinson and League executives for the sports covered by the bill—football, basketball, baseball and hockey.

Jackie Robinson and League executives for the sports covered by the bill—football, basketball, baseball and hockey.

The Day in Birmingham

\$12,000 Training Area OK'd for Fire Department

BIRMINGHAM—Better days are ahead for Birmingham firemen following the approval by the City Commission of the \$12,000 training area at Bower Street Fire Station.

For the first time, in the department's history, it will have proper training facilities and be able to take trucks off the street for hydrant training.

Firemen from both the Bowers and Chestnut stations will train at the site. The paved area will provide about 100 feet of work space for trucks, a drain pit and hydrant.

The pit will be used in pump training in drawing water from a well, lake, pond or river. Fire Chief Park Smith said it will be of extra-early cooperation to serve as the base of a training center to be built in the future.

Blounted Hill city commission last night approved the reappointment of Edmer Kappert as city manager and assistant. Robert Stader, director of public safety, William B. Hartman, city attorney, Richard Neidham, building inspector, and J. J. Redmond, plumbing and heating inspector.

Action was withheld on the paving of Landa Lane and Landa Lane for further study after the proposed project.

The commission also approved the purchase of a new police car to replace the one wrecked in an accident last week.

Robert Glavin, Birmingham recreation director, said a report statement by parents or guardians must be presented before their youngsters can participate in the city's program.

The police rifle range at the Landa Lane country club will be available Wednesday, Thursday and Friday from 8 a.m. to 5 p.m.

Those participating will have to pay for ammunition they use, but use of rifles will be free.

Those participating will have to pay for ammunition they use, but use of rifles will be free.

U.S. Vice Consul Hopeful Returns to Cuban Rebels

GUANTANAMO, Cuba (AP)—U. S. Vice Consul Robert Wiesch planned to return to rebel forces today and said he has hoped kidnapped by Fidel Castro's men will be released before nightfall.

The 25-year-old vice consul from Savannah, Mich., and Dr. Raymond E. 33, Haysworth, La., came out of the Santa Catalina Mountains by New helicopter yesterday. Wiesch had been in the area held by Castro's rebels for 10 days trying to recover North Americans kidnapped by the Cuban insurgents.

Esmer, assistant manager of the Esmerita sugar mill 20 miles west of Guantanamo, was kidnapped June 28. He was the 13th hostage released, leaving the 14th, a son of Esmerita, still in the hands of the rebels.

Esmerita, a special representative of U. S. Ambassador Earl E. T. Smith, said after talking with Wiesch and Esmer that "this last bit gives us encouragement that the operations will be completed in a few days."

Esmerita, a special representative of U. S. Ambassador Earl E. T. Smith, said after talking with Wiesch and Esmer that "this last bit gives us encouragement that the operations will be completed in a few days."

News Flash

ANY ARBOR (UPI)—Madame Chiang Kai-shek, Nationalist China's First Lady, arrived at Willow Run Airport today to begin a two-day visit at the University of Michigan. She was met at the airport by Exile Walter, an assistant to Michigan President Harlan Hatcher, and three Nationalist China abbots—William Chen, Paul Mao and Lyda Woo. Madame Chiang will dine with Hatcher tonight and will be presented an honorary doctor of law degree tomorrow night.

'MacArthur's Butchers'
to Return Battle Flags

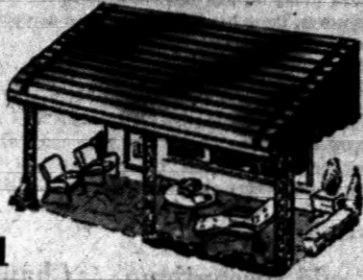

PORTLAND, Ore. (AP)—"MacArthur's Butchers" are planning to return the Japanese battle flags they fought so bitterly to gain in the South Pacific jungles of World War II.

Division, the outfit Tokyo Rose called "MacArthur's Butchers," plan to turn in their captured battle flags at a reunion July 18-20 for return to the families of Japanese soldiers from whom they were taken.

Lettering on the flags will be translated to determine to whom they should be sent.

COTTAGE CHEESE KID — "Brownie," the three-month-old bunny of Mr. and Mrs. Reg Armstrong, 2385 Oakhill St., Pontiac Township, has a peculiar favorite food for his kind . . . he prefers cottage cheese to rabbit food and carrots. The bunny was the only survivor of

his family after their burrow was run over by a bulldozer. He was raised on milk and cottage cheese by Mrs. Sheldon Peven, of 2372 Pine Lake Rd., and then given to the Armstrongs when the Peven cat took a disliking to him.

Pontiac Press Photo

**Prohibition Comeback
Seen Within 10 Years**

LOMA LINDA, Calif. (UPI)—A University of Illinois scientist predicts the possible return of prohibition within 10 years.

"Prohibition will be the big national issue in the United States by 1965," declared Dr. Andrew C. Ivy, who gave this advice to future politicians.

"If you want to be successful in 1965, campaign on a prohibition platform."

Ivy, chairman of the National Committee for the Prevention of Alcoholism, made the remarks in a lecture at the ninth annual Institute of Scientific Studies for the Prevention of Alcoholism. The institute is being held on the campus of the College of Medical Evangelists here.

He said he based his observation on a survey of trends over a 73-year period. He said a wave of prohibition sentiment sweeps the country about every 35 years, adding that "waves of unparalleled drunkenness always precede the waves of prohibition sentiment."

"America has reached such a point of consumption of alcoholic beverages that the nation must choose between national ruin and prohibition," he declared.

Ivy added that if present trends continue:

—There will be one or two severe alcoholics in every American family by 1965.

—There will be nine to 10 mil-

lion alcoholics in the U.S. by 1965. —America's crime rate, both juvenile and adult, will continue to reach appalling levels. —California will continue to have the highest rate of alcoholism among the 48 states, with the figures rising from 597,450 in 1958 to nearly 700,000 by 1965.

He called for a national program of alcohol education to be instituted in schools as a means of solving the problem.

Sleeping on the Job?

SALT LAKE CITY (AP)—Ralph Hafer has placed his huge Doberman watch dog on probation. While it was guarding his truck parts firm, burglars entered the establishment and made off with several hundred dollars worth of tools.

St. Joseph's Necessities Considered Desperate

What has happened to that utterly erroneous section of the report of the Detroit Area Hospital Council which suggested St. Joseph Mercy Hospital didn't need more room, equipment, space and facilities?

As we understood it, this was to be reconciled with the J. L. Jacobs and Co. survey and a clarification issued. As everyone that lives in this area has known for many years, St. Joseph needs "more of everything" and needs it badly. Some people in a position to know say the need is actually desperate. After an examination, we are inclined to agree.

The current moment may not be the time for a drive, but Sister Mary William wants the preparatory work to go forward now so everything will be in hand.

This unfortunate and damaging announcement is a hindrance and a positive menace to the health of the community. It should be rectified promptly.

Kidnapings in Cuba Dramatize Uprising

Rebel Leader Castro's kidnapings of North Americans caused righteous indignation in this country but dramatically drew attention to the Cuban struggle.

Censorship is such that only government reports of the revolution are released to the world. Reason for the kidnapings, CASTRO claims, is that the U.S. aids Dictator BATISTA with American arms and fuel from our base at Guantanamo in Cuba. Officially, the U.S. says, this is not true, since last March any-

The kidnaped men are being released in small groups. They report that they were well treated and that CASTRO has many highly respected business and professional men in his resistance movement. More than a year ago New York Times reporter HERBERT L. MATHEWS in an on the spot report, wrote that much of CASTRO's support came from the best elements of Cuban life.

Last March a manifesto signed by 42 fraternal, professional, civic and cultural organizations called for dissolution of Congress and formation of a provisional government representing all major parties. BATISTA took no notice of it and the killings and torturings in Havana continue. All these things are carefully hidden from the tourist.

Contrary to censored reports coming out of Cuba, the kidnapings prove that Castro still controls the eastern third of the island.

Let's Keep Our Highways Clean

With the large number of contestants in next month's primary election, the political invasion of Oakland County's highways looks tempting.

In fact, it already has commenced.

Both state and county highway departments have ruled against all advertising posted within the

property that is any road's right-of-way.

This, of course, includes political advertising. That usually is the worst offender.

Highway employes and police officers covering our roads have instructions to tear down anything in this line.

It is well for any candidate to warn his lieutenants who are campaigning for him to keep his posters off the public roads.

Anyway, it is hardly conceivable that any candidate could hope to gain votes by desecrating the trees beside our highways, which have been left there for their beauty—which is not enhanced when they become the background for a political picture gallery.

CAN you, dear reader—an honest person, of course—ask for cash on a personal check where you're not known without feeling that your manner makes you appear to be an outright crook?

Young People Becoming Interested in Winning \$50

Impossible: Explaining to some teenagers that some day they'll be as dumb as their parents.

Several inquiries already have been received from boys and girls who hope to enter our freckle contest at the Oakland County 4-H Fair on Aug. 5-8, when The Pontiac Press will award a \$50 U.S. Savings Bond to the freckle champion.

The exact date and time for the judging will soon be announced. In the meantime, young folks, foster your freckles. They're worth money.

There is no entrance fee, it requires only a few minutes of your time, you'll be a champion—and take home the best \$50 prize in the world.

'Tis said there's nothing in a name, but in golfing,

Sally Sharp makes me think there is.

Secretary of the "Mighty Mac" Bridge Authority,

Larry Rubin, says that a car must pass over it every 90 seconds to keep it out of the red.

Pontiac will figure prominently in a history of General Motors, now being written by its former Chairman of the Board,

Alfred P. Sloan, and to be released to the public next year.

Chairman of the Michigan Advisory Committee of the National Civil Rights Commission, Oakland County's own

Charles E. Wilson, starts out in the usual Wilsonite way to "marshal men and women of good will to solve the problem in the local level."

Going to the other extreme, Miss Juliann Geno of Romeo writes me that she found a two-leaf clover.

Dean of all Consumers Power employes in his area,

Jay J. Hanna of Flint, is retiring after 43 years in his service.

Riding their bikes to South Bend on a trip to Chicago,

Karen, 15, and David, Jr., 13, son and daughter of

Mr. and Mrs. David N. Elcher of Westacres, did it in true Scott style, camping out nights.

Our thanks go out to

Mrs. Guy Coleman of 68 Ogema road, for a picture of the bank at Russellville, Ky., as it was being robbed by Jesse James and his gang in 1868, now a local library.

Verbal Orchids—

Mrs. Eugenia Hackett of 2511 Auburn Ave., eighty-second birthday.

Mr. and Mrs. Rutherford Hallman of Rochester; fifty-second wedding anniversary.

Horace Marcum of Birmingham; eighty-first birthday.

Mr. and Mrs. Garfield Huban of Bloomfield Hills; fifty-fourth wedding anniversary.

Arthur Leonard of Groveland Township; eightieth birthday.

How Many Times Should We Count Ten?

David Lawrence Says:

No 'Settled Law' on Segregation

WASHINGTON — Rep. Emanuel Celler, Democrat, chairman of the House Judiciary Committee, has issued a statement demanding that the Department of Justice intervene as a "friend of the court" and try to get reversed the decision recently handed down at Little Rock.

Federal Judge Harry Lemley granted a 2½-year delay in desegregation, as requested by the school board. Mr. Celler says:

"It is imperative for the Department of Justice to intervene and assert the importance of the settled law of the school segregation case."

It is not the function, however, of the Department of Justice to intervene in every case when it is alleged the law is being violated by private litigants.

Usually it intervenes only on the request of the court itself. Nor is there any such thing as "settled law" in the school segregation problem.

On the contrary, the law concerning delays in desegregation cases is far from "settled." A most informative article on this subject, which was compiled by the editors of the Harvard Law Review and presented in a recent issue, now takes on added significance.

It treats exhaustively all the different kinds of delays that have occurred since the Supreme Court decided the desegregation case in 1954 known as "Brown vs. the Board of Education."

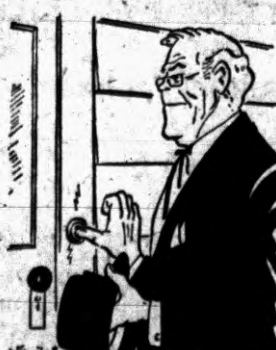

Articles and "notes" in the Harvard Law Review are often quoted in Supreme Court decisions, and many of the editors of past years have been chosen to be "law clerks" to various Supreme Court justices.

The Harvard Law Review article on delays in desegregation cases refers to the factor of "community hostility" as follows:

"The courts, in reviewing local school boards, have exhibited great diversity in according weight to the administrative factors enumerated in the Brown decree, and in the scope of review accorded the Boards' actions. The cause of this diversity appears to be the response of the courts and the school boards to the factor of community hostility."

"Although this factor is not expressly considered in the Brown decree beyond the statement that 'disagreement' cannot alone prevent ultimate enforcement, since the court ordered retention of jurisdiction of the cases by the lower courts, it seems probable that in some instances the court contem-

The Country Parson

plated a protracted period of transition.

"Some courts and commentators have found that the Brown decree forecloses consideration of actual or potential local hostility in determining the need for delay, and that only the enumerated elements of administrative difficulty may be weighed in determining the need for delay in plans for desegregation."

"On the other hand, several courts have placed direct reli-

ance on hostile community attitudes in order to justify delay."

In one instance the U.S. Court of Appeals for the 8th Circuit affirmed a plan of desegregation which is not expected to be completed for seven years.

The school board's stated reasons for delay were the "size and complexity of the job and the need for planned new facilities, whose creation should be awaited, the need in order to begin where fewer teachers and students are involved. (Copyright 1958)

Dr. William Brady Says:

Tonsillectomy Proves Nothing but an Atrocity

From what parents tell me, the argument the merchants of medicine use most effectively in selling tonsillectomy is: "You can't expect the child to stop having so many 'colds' until those bad tonsils have been removed."

It seems that the parents or guardians take this as a guarantee that the operation will at least put an end to the repeated attacks of tonsillitis, sore throat, coryza or the like, although in fact children in the United States and England continue to have about the same number of such attacks (sore throat, tonsillitis, "colds") after tonsillectomy as they had before.

In Cleveland, Ohio, "attack rates for the common respiratory diseases among children who had had tonsillectomy were very similar to those among children of comparable age who had not had this operation."

SAME FOR BOTH In London, England, "the incidence of coryza and sore throat was the same in children who had undergone tonsillectomy as it was in other children."

In Rochester, N.Y., "statistical studies on groups of children of like ages reveal only a slight benefit for the children whose tonsils and adenoids have been removed. . . . If, however, healthy tonsils and adenoids are removed, the child may become even more susceptible to colds."

In view of the facts, I say those who use this shabby argument to persuade parents or guardians to consent to perpetration of this atrocity on young children are guilty of a kind of malpractice.

I deliberately use the strongest language I can use to characterize this brutal operation. It is the only operation that sickens me to watch. Sickens me because it is in my opinion unwarranted—except in rare instances of malignancy or one or two other diseases I would rather not mention here.

Some years ago, the tonsillectomy, guillotine or slicer—either instantaneously removed the obnoxious portion of tonsil, under no more anesthesia and with no greater risk than would be involved in the extraction of a tooth.

This minor operation gave results equal to or better than the results of the major operation the trick specialists insist on doing today.

THEY LIE When they sound off, as they do, about the importance of "getting every bit of tonsil," or when

they boast that they don't "clip" the tonsils, they remove every bit of tonsil tissue from the throat, they lie.

The truth is that more or less tonsil remains in the throat after most tonsillectomies.

The ever-ready operators who make a federal case out of every case of enlarged tonsils are in the same position as dentists who insist that tooth brushing is essential for mouth hygiene and prevention of caries (tooth decay, cavity formation). They're stuck with the pet theories and can't acknowledge the truth without losing face.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan. (Copyright 1958)

Case Records of a Psychologist:

Fathers, Spend Time With Children

Dads, don't be so wrapped up in business problems that you fail to help your own children acquire normal skill in youthful sports. Give them an hour or so EVERY WEEK. Don't save your camaraderie for a two-weeks' vacation at some future date. Play with your kids NOW. And rate yourselves on the 200-point test mentioned below.

"But I don't believe I rate very high as a father," he confessed with a rueful smile.

"I overheard my 10-year-old son complaining to his mother that he is called 'butter fingers' and thus didn't make the ball team because I don't play catch with him."

"He said all I do is sit in my study and read while other kids have fathers who teach them sports."

"Well, Dr. Crane, he is quite right. I never won a letter in athletics in either high school or college. I was the book worm type."

"So I have veered away from sports, maybe as a defensive gesture to protect my ego."

"Have I made a mistake with my own child?"

REMEMBER THE OMELET You need not be an outstanding athlete in order to teach your son to be adept.

Yesterday I told you how I taught all five of our Crane

Voice of the People

Charge Against America Brings Indignant Reply

The man who referred to himself as "an old type American" took a healthy slap at all Americans for their belief in the history they've been taught in American schools.

Mr. Old Type, and what a misnomer that is, reminds me of the pseudo-intellectuals that run loose in their sophomore year at college, shouting derision at anything the majority accepts, jeering at the love they hold for family and country. Any intelligent American knows there have been men and episodes in our past we haven't been proud of, and there will be in the future. Through the ages, however, there has not been a more acceptable and logical working of a government than ours.

Mr. Old Type ended his panned venom by saying he received "constant hypocrisy" from our nation and "this is of no interest to you. I know he's wrong on the first part and sincerely hope and pray he's mistaken in the second. However, upon noting the small percentage of voters in recent elections, it's very possible he's right."

W. B. Neal
645 Fourth St.

Would Discontinue Feature on Homes

I for one am tired of the "Your Neighbor's House" feature each Saturday. Call it jealousy if you like, but these aren't average Pontiac factory workers' houses. Most of us try to buy a house we can pay for in our lifetime and so we live in smaller, not so modern houses.

I read and see pictures of their beautiful kitchens and it makes me more dissatisfied with what I have. I'd like to get a job and try to make our place a house beautiful, too, but it's more important for me to be home to teach our two little ones right from wrong. With this on again, off again work in the factories, my husband's wages just don't go far enough for home improvements.

Please take a vote of your readers to find out how many are tired of these write-ups each week.

Mrs. Louise Sparks
701 Scottwood

(Editor's Note: It has been the practice of The Press to feature homes in all price categories throughout the year.)

Sylvan Resident Defends Police

You people who complain about getting caught speeding in Sylvan Lake had better check your speedometers. I live here and see our police force in action and know they have plenty to do without arresting innocent people.

I and many others living here feel we have a terrific police force. They are polite and fair and I can testify from personal experience that in the case of an emergency they are dependable and prompt.

Speed limits are adequately posted and if you observe them, you have nothing to worry about, and if you fail to observe them and get caught, you have no kick coming. So I say, keep up the good work, Sylvan Police, and if you people want to speed, go somewhere else. We don't want you or need you or your money.

Sylvan Lake Resident

All letters for Voice of the People must contain the name and address of the writer. This information will be withheld upon request if the letter is one of a critical nature. Letters must be under 300 words, and The Pontiac Press reserves the right to edit all letters.

Changes Suggested by Representative

I don't agree with Justice Eugene Black that a single body would constitute an adequate legislature, but he has pointed out the need of legislative reform, which can only be accomplished by a constitutional convention. In addition, the following recommendations would appear equally necessary:

1. A constitutional amendment making the lieutenant governor the governor's right hand man in directing the now extensive executive branch of government, instead of wasting time as a figurehead president of the Senate without actual power or opportunity of leadership.

2. Amendments placing leadership of the Senate in a president and the House in a speaker nominated by their respective party conventions, and elected respectively by the Senate and House members. This would assure each house of a leader belonging to the majority party of that house and responsible to his party as a whole.

3. Amendment to provide that bills introduced in the odd years of each term carry over to the even year, providing for more detailed study of major legislation. (This is presently part of federal law.)

4. Amendment to provide that elections now held in April of odd-numbered years be held in November, thus providing for an annual November election, eliminating elections during meetings of the Legislature.

5. Reduction of expenditures by abolishing innumerable commissions, with duties handled by respective committees of the Legislature, which are directly responsible to the people for expenditures.

Theodore F. Mackay,
State Representative, Berkley

THOUGHTS FOR TODAY

And where is now my hope? As for my hope, who shall see it?—Job 17:13.

Hope, like the gleaming taper's light Adorns and cheers our way; And still, as darker grows the night Emits a brighter ray.

—Oliver Goldsmith.

Stamp Machine Won't Take Nickels Anymore

DETROIT (AP)—When you step up to a stamp machine in the corner drug store a month from now, there will be no need for a nickel.

Inflation has caught up with automation in the postage stamp business. The result is a major overhauling of many of the stamp vending machines.

On Aug. 1 the mailing price of post cards and unsealed Christmas cards will go up from 2 cents to 3 cents, first-class mail will go up from 3 to 4 cents, and air mail will increase from 6 to 7 cents.

Schermack Products Corp. of Detroit, the largest and one of the oldest makers of postage stamp vending machines in the United States, is making these changes to keep up with the act of Congress.

1. The slot that gives four 1-cent stamps for 5 cents will give you two 4-cent stamps for 10 cents (same 20 per cent profit for the machine's owner).

2. The slot that gives you two 2-cent stamps for 5 cents will give you two 4-cent stamps for 10 cents (same 20 per cent profit).

3. The slot that gives you four 6-cent air mail stamps for 25 cents will give you three 7-cent stamps for 25 cents (raising the profit from 4 per cent to 16 per cent).

4. The slot that gives you three 3-cent stamps for 10 cents will give you two 4-cent stamps for 10 cents (raising the profit from 10 per cent to 20 per cent).

J. S. Schermack, president of the firm his father founded in 1908, says the cost of revamping the machines will run from 50 cents to \$2. The machines cost from \$30 to \$200, depending on the number and type of slots.

"We don't own any of our machines," said Schermack. "We sell some to drugstores and other merchants. Some of them we sell to operators who will buy, say, a

hundred or so, and place them up to a stamp machine in the corner drug store a month from now, there will be no need for a nickel."

He Wants Trujillo to Tow His Raft

SAN PEDRO, Calif. (AP)—The man who has made three unsuccessful attempts to float to Hawaii on a raft has now made two unsuccessful attempts to talk to Gen. Rafael Trujillo Jr.

Devere Baker wants the general to tow the raft Lehi IV 50 miles to sea with his palatial yacht, which is tied up at San Pedro. He did so, and was informed that Trujillo was still asleep at noon.

"I'm going to try to see Trujillo again," said the raftman. He hopes a 50-mile tow will take him to ocean currents to drift off to Hawaii.

Trujillo, son of the Dominican Republic strongman, moved his yacht yesterday—but only four berths away, so he could load his \$12,000 sports car.

Adams Runs U.S., Truman Declares

NEW YORK (AP)—Former President Harry S. Truman, returning from a European vacation, said today it was up to President Eisenhower to decide whether to fire his assistant, Sherman Adams.

But Truman added tartly: "The government would be in a bad fix if he loses Adams—he's running it, you know."

Truman, tanned and beaming, met newsmen aboard the liner Constitution and right from the start he was peppered with questions about the storm stirred up in Washington over the congressional investigation of the relations between Adams and Boston industrialist Edward Goldfine.

SEAGOING REAPER — A self-propelled water weed cutter which chops weeds horizontally and vertically is shown above, as operated by Aaron Wright of Inland Lakes Sales, 3127 W. Huron St., Waterford Township. Inland owner Norris Priestap says the

machine can clear up to 20 acres of weed growth a day, and added that it may be the answer to weed problems bothering many lake lot residents.

Fire Tear Gas Bomb on Jailed Teenagers

SANTA FE, N.M. (AP)—Guards fired a tear gas bomb into a dormitory for teen-age convicts at the State Penitentiary last night and broke up what officials called a minor disturbance.

Warden Theodore E. Woodruff said cause of the violence has not been determined.

"It is going to cost them," said Woodruff. "We didn't give them the real treatment."

The warden said the 28 convicts broke a few windows and lamps. All those housed in the dormitory are 18 and 19 year old first offenders.

Editorial Convention Under Way in Detroit

DETROIT (AP)—The National Editorial Assn., one of the world's largest newspaper organizations, opened its 73rd annual convention here today.

An estimated 700 men and women editors and publishers met for shop talk and discussions of business problems. The convention continues through Saturday.

Democratic Gov. G. Mennen Williams welcomes the convention to Michigan at a banquet tonight. The NEA's last previous Michigan convention was in 1937. The NEA's membership of more than 6,500 includes the daily and weekly newspapers.

UAW Members Told to Work at Plymouth

DETROIT (AP)—Local 212 of the United Auto Workers Union at Chrysler's Plymouth Body Plant tested its influence with a back-to-work order today.

The local's leadership, while expressing agreement with rank and file charges of speedup, directed its membership to stay on the job.

"We want to strike at a time it suits the UAW, not Chrysler," said Eurlie Bruce, Local 212 president.

A work stoppage yesterday led to closing of two plants and idling of 2,700 employees for a fifth time in eight working days.

Chrysler sent home 1,500 body plant workers and another 1,200 in the Plymouth Assembly Plant because it said trim workers in the body plant refused to do assigned duties.

Bruce's comment on a time for a strike suitable to the UAW was an apparent reference to present strike votes in the entire UAW to support contract demands.

Contract negotiations resume July 14 with Chrysler, Ford and General Motors.

There has been a recess since before the Fourth of July. There have been no contracts since the Memorial Day weekend when the last pacts expired.

62 South Koreans Die in Torrential Rains

SEOUL (AP)—The national police said torrential rains which finally ended today caused the death of 62 persons in South Korea and did damage estimated at more than eight million dollars.

Ten persons were missing and 6,600 homeless. The damage included 933 homes destroyed, 6,258 houses flooded or wrecked, 54 ships sunk or missing and 236 highway bridges damaged.

Ike's Brother Going on Trip

To Leave on Good Will
Tour of Latin America
Saturday

WASHINGTON (AP)—Dr. Milton S. Eisenhower's delayed good will visit to Central America will begin Saturday.

The White House gave out that word last night after Dr. Eisenhower, brother of the President, returned by military plane from a two-week fishing trip in Wisconsin.

Pentagon officials were unavailable for comment on Eisenhower's use of two small military planes in returning his party from Wisconsin's Land o' Lakes region to Wausau, Wis., and a Military Air Transport Service Convair for the flight to Washington.

The White House wouldn't elaborate beyond saying the trip was advanced in date and Dr. Eisenhower returned to make preliminary arrangements.

This conforms with reports Monday that Eisenhower would begin the trip July 12. Earlier reports had it he would leave Washington July 15 on the six-nation tour.

Eisenhower, president of Johns Hopkins University in Baltimore, originally planned to leave in mid-June but the tour was postponed after Vice President Nixon encountered anti-American riots in Latin America. The State Department, however, said the reason for the postponement was difficulty in scheduling convenient conference dates for the Eisenhower mission.

In Chicago, a 5th Army spokesman said the request for the aircraft used by Milton Eisenhower came from a White House military aide.

On his tour Eisenhower will head a study delegation that will confer with Central American officials about economic development and other problems. He is expected to visit Nicaragua, Guatemala, Costa Rica, Honduras, El Salvador and Panama.

Death Quickly Ends a Mother's Reunion

SEATTLE (AP)—For Mrs. R.V. Hubbard of Seattle, a reunion with her mother yesterday was short and tragic.

Mrs. Virginia M. Mitchell, 76, of San Diego had not seen Mrs. Hubbard for five years.

Stepping from a bus to spend the summer here, Mrs. Mitchell embraced and kissed her daughter. Then fatigue, emotion and age took their toll.

Mrs. Mitchell collapsed in her daughter's arms and died moments later.

Eskimo Stone Carving Presented to President

OTTAWA (AP)—Gov. Gen. Vincent Massey has presented an Eskimo stone carving to President Eisenhower.

It was done by Thomasie, a leading Eskimo carver who lives with his wife and family in the village of Povungnituk, on the east coast of Hudson Bay.

The carving, seven inches high and weighing 14 pounds, shows an Eskimo hunter, with a full bag under his left arm, rising from the snow and slinging a Canada goose over his left shoulder with his right hand.

English Adhesive Strong

What About Diplomatic Immunity?

Third Envoy Gets Ticket in Michigan

By The Associated Press
Police ticketing of a West German consul in Benton Harbor is the third such in Michigan within recent years.

One of the two previously ticketed consuls was clapped into jail, but later freed under cloak of diplomatic immunity. The other paid a \$4 fine for running a red light and complimented the policeman who ticketed him for his "correct and courteous manner."

Dr. Ferdinand Friedensburg, West German consul at Detroit, was ticketed at Benton Harbor July 3. On grounds that diplomatic immunity prevented it, he refused to pay a \$1 fine. City Commissioner R. Paul Newman,

however, paid the \$1 in the interest of international good will and said that closed the case.

A second secretary in communist Hungary's legation at Washington, spent 24 hours in Lapeer County Jail in June 1954. But he was freed under claim of diplomatic immunity, despite protests by the then Lapeer sheriff and now U.S. Marshal Clark Gregory.

Orders to free Istvan Torma, 29, came down from Washington via Gov. G. Mennen Williams and Lapeer Prosecutor George Lutz. Gregory, a Marine veteran, previously refused a direct Washington request and kept Torma in jail 24 hours, saying "He has no more rights than any other prisoner as far as I'm concerned."

Torma's two companions on a tour of the Michigan thumb "for fun" paid drunk and disorderly fines. And diplomatic immunity could do nothing to erase the black eye Torma got when Almont Police Chief Edward D'Arcy said he resisted arrest.

Torma took off on the thumb jaunt from Detroit, where he had been showing films sponsored by the Hungarian People's Re-

public. The two men arrested with him were Detroit window washers who said they met him in a Detroit bar and all four headed for Grand Rapids City "to have some fun."

D'Arcy said a motorist complained the diplomat's car had forced her off the road. The same thing happened to him, D'Arcy said, when he tried to intercept it. The chief finally caught up and arrested the men. He didn't book the woman.

At the time, D'Arcy said Torma offered him \$50 if he would let the men go.

British Vice Consul W. E. Williams of Detroit was stopped last Nov. 7 for running a red light at Grand Rapids. Consul Edward Moss at Detroit said at first he would refer the case to the British Embassy for a decision. But in the meantime, Williams sent his \$4 fine and a letter complimenting the arresting officer, Richard Holmgren, for "correct and courteous manner."

Police Capt. Sinclair Shippey said at Grand Rapids yesterday nothing more ever was heard of the case or what the embassy had ruled.

Reserving Seats for Handicapped at Water Follies

There'll be special reserve seats at general admission prices for handicapped persons attending the Water Follies of 1958, to be sponsored by the Pontiac Area Chamber of Commerce at Wiser Stadium Friday, Saturday and Sunday.

A special platform, with a ramp for wheel chairs, will be situated near the stage for use by persons who would find it difficult to mount the stadium stairs, said John W. Hurlinger, chamber manager.

He said there will be space on the platform for about 20 to 30 persons at every performance and that no advance arrangements for a special seat are necessary.

"Handicapped persons need only to indicate to the ushers that they wish to use the ramp and they will be conducted there," said Hurlinger.

The Water Follies, an internationally famous show, featuring many professional performers who are past Olympic stars, will offer three evening performances at 8:30 p.m. and a 2:30 p.m. children's matinee Saturday.

Caribou Inn Owner Sues Insurance Firm for Libel

Ernest Felice, owner of the burnt-out Caribou Inn, in Clarkston today filed a \$250,000 libel suit in Circuit Court against the Finnish Mutual Fire Insurance Co. of Calumet, and its attorney, Cashen P. Head, of Detroit.

The suit grew out of another in which Felice is suing the firm to collect insurance on the Inn, which was damaged by fire March 4. Claiming the fire was arson, the company refused to pay and implicated Felice in the blaze.

Morgue Clerk Fired

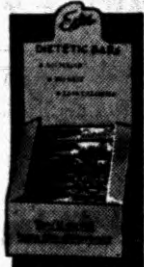

DETROIT (U) — Dr. Edward S. Zawadzki, Wayne County medical examiner, Tuesday fired a morgue clerk suspended two weeks ago in an investigation of alleged irregularities. The clerk, George I. Adams, said he referred more than 100 cases to an attorney friend.

Est. talk, laugh or smile without fear of insecure false teeth dropping, slipping or wobbling. PASTERTEH holds plates firmer and more comfortably. This pleasant powder has no gummy, soapy, pasty taste or feeling. Doesn't cause nausea. It's alkaline (not-acid). Checks "false odor" (denture breath). Get PASTERTEH at drug counters everywhere.

Flint Area Gets OK on Incorporation

LANSING (U) — Atty. Gen. Paul L. Adams held today that Flint and suburban territory adjacent to the city can proceed under the Home Rule Act to vote on combining into a "new Flint" embracing 178 square miles.

Under a plan now before the County Board of Supervisors, a new municipality would be created that would rank seventh in the nation in area.

In replying to a query by Rep. Albert R. Horrigan (D-Flint), Adams said the vote was without precedent in the state but clearly fell within the scope of the Home Rule Act.

A majority vote of residents of the area to be included in the proposed new city would be required to carry the proposition, he said. The pending proposal would unite the city of Flint; Genesee, Mt. Morris, Burton and Flint Townships in their entirety, and the north part of Grand Blanc Township.

Car Out of Control, Two Youths Injured

Two Milford youths escaped serious injury Tuesday when their auto went out of control near 2755 Commerce Rd., Commerce Township, and rolled over several times, according to Oakland County sheriff's deputies.

Charles W. Golt, 16, of 803 Canal St., the driver, and Richard R. Gardener, 16, of 209 Union St., were reported in satisfactory condition today at Pontiac General Hospital. Golt suffered multiple lacerations and a broken right leg while Gardener suffered minor back injuries.

Gardener told deputies that the car was going too fast to make a curve. Deputies reported the auto skidded 189 feet, overturned and rolled another 126 feet.

Plans Elevated Highway to Detroit City Limits

DETROIT (UPI) — Highway Commissioner John C. Mackie said today he was hoping for quick approval of a plan for an elevated highway on the northwest side to tie in with the John C. Lodge Expressway.

Mackie and other state officials met yesterday with city highway engineers to map plans for the 33-million dollar, 3½-mile route. It would extend the Lodge Expressway along James Couzens highway to the city limits.

A 15-foot high elevated highway, 60 feet wide, would be built in the center of James Couzens. Eight crossing bridges are planned. The surface level highway would be three lanes in each direction.

Husband, 22, Wife, 65, Parting After a Year

NASHVILLE, Tenn. (UPI) — Romance has died on the vine for a 22-year-old bean sheller and his 65-year-old wife. It was a year ago that Tom Henderson declared his "love at first sight" for Mrs. Florence Norris, a widow who was then 64 years old.

For her part, Mrs. Norris was "sure tired of living alone. They were married. But relatives reported yesterday that the union did not work out. Mrs. Henderson is living with a son and Henderson has gone back to live with his mother.

To Up Steel Production

DETROIT (U) — Detroit steel mills have scheduled production at 55.7 per cent of capacity this week, according to Iron Age, an industry magazine. Production of 89,400 tons is forecast, against 72,350 tons produced at 50.9 per cent of capacity last week. In this week a year ago Detroit steel mills operated at 97 per cent and produced 116,100 tons of steel.

The present rate of erosion is sufficient to reduce the level of the entire Mississippi River drainage basin of about 1.25 million square miles, or one foot in 6,000 years.

Deaths in Pontiac and Nearby Areas

FILIP DANKOFF

Filip Dankoff, 73, of 2100 Woodward Ave., died Tuesday at Bloomfield Hospital after a two year illness. He was a retired Pontiac Motor Div. employee.

Two brothers survive. Service will be held at 2:30 p.m. Thursday at St. George Greek Orthodox Church with burial at Oak Hill Cemetery. His body is at Farmer-Snover Funeral Home.

MRS. OSCAR ZEUN

Mrs. Oscar (Mary) Zeun, 68, of 32 S. Tasmania St. died Tuesday at St. Joseph Mercy Hospital after a month's illness.

She was a charter member of Grace Lutheran Ladies Guild and a member of Lutheran Ladies Auxiliary.

Surviving are her husband, three sisters and a brother. Service will be held at 1:30 p.m. Friday at Sparks-Griffin Chapel with burial in White Chapel Cemetery.

DONNA JEAN McDERMOTT
MILFORD — Service for Donna Jean McDermott, one-day-old daughter of Mr. and Mrs. Donald

McDermott, 401 Center St., will be held at 1 p.m. Thursday at the Richardson-Bird Funeral Home. Burial will be in the Highland Cemetery.

Deaths Elsewhere

By THE ASSOCIATED PRESS

VATICAN CITY (AP) — The Vatican received word yesterday of the death in Baghdad of Joseph VII Ghanima, 77, patriarch of Babylonia of the Chaldees. The patriarchate has jurisdiction over the Oriental Catholic Rite of the Chaldees, who adhere to the supremacy of the Roman Church.

JACKSONVILLE, Fla. (AP) — Frederick Wierk, 57, who won an award in 1949 for designing the quonset hut, died yesterday. The award was by his alma mater, Stevens Institute of Technology. He was born in Brooklyn.

CHESTNUT HILLS, Mass. (AP) — Mrs. Emory L. Frazier, wife of the chief clerk of the U. S. Senate, died yesterday of a heart attack. She was born in Bowie, Ariz.

The infant died at Pontiac General Hospital Tuesday.

Surviving besides her parents are her grandparents, Mr. and Mrs. James McDermott of Clyde; Clayton Morcom of Hartland, and Mrs. Lillian Bertram of Detroit, and a brother, James C. at home.

MRS. FLORA J. SNELL

FLINT — Service for Mrs. Flora J. Snell, 78, of 3501 Davison Rd., will be held at 1 p.m. Friday at the Brown Funeral Home, Flint. Burial will be in the Oak Hill Cemetery, Pontiac.

Mrs. Snell died this morning at Monroe following a long illness. She was a member of the Church of Christ, Flint; Colonial Lodge 314 and DAF, Virginia Sauser Chapter. Surviving are her son, Ivan Bennett, and a daughter, Mrs. Jack Miner, both of Flint; a brother, Clifton Smith of Swartz Creek; four grandchildren and eight great-grandchildren.

More than 2,000 delegates are expected to attend the 43rd Esperanto Congress in Mainz, Germany, in August. Esperanto is an artificial language designed to be understood in all European countries.

Not Quelling Pickets Denied by Stevenson

STOCKHOLM (AP)—Adlai Stevenson today denied that while governor of Illinois in 1952 his office prevented state police from acting against union violence at a Niles, Ill., restaurant.

The restaurant operator, Donald Strang, told the Senate Rack-

ets Committee yesterday the Illinois state police had told them they could do nothing about violence by union pickets at his establishment because they had "been called off by the governor's office."

"No such orders were ever issued by the governor's office," Stevenson declared, adding "That's all I have to say."

Stevenson was questioned as he prepared to leave for Helsinki, Finland, en route to the Soviet Union for a tour.

80 Children Rescued After Sailboats Tip

GREENWICH, Conn. (AP)—More than 80 children were tossed into Long Island Sound yesterday by a sudden squall that disrupted a sailing race and overturned nearly 40 boats. All were saved.

Three U. S. Coast Guard cutters, two planes and a small armada of private boats converged

on the scene off the Riverside Yacht Club.

A regatta official said a majority of the 113 boats that took part in the junior yacht race had already finished when the squall hit.

Patty Miller, 18, Mamaroneck, N. Y., suffered the only injury—a broken leg.

Maine was the first state to earmark automobile license fee revenues for the building of new highways.

Two Miners Killed in Colorado Cave-In

WESTCLIFFE, Colo. (AP)—The walls of a mine collapsed and trapped two men nine feet underground 12 miles northeast of here yesterday. Both were dead when rescuers reached them. The victims were George Henry Austin, 32, Pittsburgh, Pa., and Richard L. Reese, 42, of Chanute, Kan. The cave-in occurred while the

two men were digging on their thorium claim in mountainous southern Colorado.

While Knobby attempted to reach the men, young Reese summoned Sheriff Fred Squire by telephone. But a rescue squad arrived at the remote scene too late to revive either of the victims.

Brazil's senate building was once a part of the St. Louis, Missouri exposition in 1904. It was disassembled, moved to Rio, and reconstructed in Floriano Square.

These Nasty Brush Fires on Wrong Side of Tracks

BERLIN, Conn. (AP)—Firemen suspect a sadistic arsonist is at work. Recently they've had to fight numerous brush fires—all on the wrong side of railroad tracks.

Firemen must dig small tunnels beneath the tracks to push their hoses to the other side. Trains would slice hoses laid across the tracks, and there are no hydrants on the "other" side.

New Interceptor Fighter

Carries Two A-Missiles

By ELTON C. FAY
AP Military Affairs Writer
WASHINGTON (AP)—The F108 chemically fueled fighter will carry at least two atomic-warhead guided missiles to blast enemy

bombers while they are still more than a thousand miles from American soil.

Designed for a speed faster than three times that of sound, the plane is expected when completed to be able to take off from U. S. bases in time to intercept bombers at that distance.

New details on the fantastic, long-range interceptor, and the B70 strategic bomber, both using the same high-energy fuel engines have become available in official and unofficial sources.

The Air Force is using much the same development-production technique applied to its missile program to expedite the time when the chemical fuel, high performance fighters and bombers will go into service. While development is being pushed, the groundwork for actual production of planes and power plants is being laid. However, the first flight of a chemically fueled plane still may be more than two years away.

North American Aviation, Inc., has the contracts for both the F108 and B70.

An announcement is expected shortly formally assigning the engine contract to the General Electric Co. That company already has started design work on an engine to use the new exotic fuel. At least one other engine manufacturer is entering the chemical fuel power plant field.

The bomber is expected to be able to match the speed of the F108 interceptor in a burst of speed as it makes its run in to a target, about 2,000 miles per hour.

This, it is understood, will be made possible through the use of an afterburner on each of the four engines, into which a mixture of a chemical, such as boron, is fed to intensify combustion.

OH, MY ACHING BACK

Now you can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation—following wrong food and drink—often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. Now, large size saves money. Get Doan's Pills today!

Fire at Lebanon Leader's Son

Rebels Held Off After 4-Hour Gun Battle at Beirut Apartment

BEIRUT (AP) — A band of armed men attacked the apartment of a son of President Camille Chamoun with small-arms fire in a four-hour gun battle last night.

Eyewitnesses said the President's son Dory and his wife came through unhurt and loaded guns for guards firing back at the attackers. The Chamouns' apartment was riddled with bullets.

At least 4 of the 20 attackers were reported killed and three of the guards defending the building were wounded.

No residents of the building, who include several American families, were reported hurt. Homer Metz, an employee of the Arabian-American Oil Co., said he and his wife and son had to move from their apartment into the hall and sleep on mattresses.

The attack apparently was an attempt to intimidate the President, whose resignation the rebels are demanding. Another son of Chamoun, Daniel, and his British wife arrived in Rome Saturday and said the rebels had threatened to kidnap them.

The attack on young Chamoun's home was part of a general outbreak of shooting and bombing that shook the capital. Heavy firing was heard in the Basta Moslem quarter and in the area around the presidential palace.

President Chamoun in an interview last night said he believes the rebels trying to overthrow his pro-Western government want to force Parliament to dissolve so it can't elect his successor. Chamoun said he thinks the rebels will not accept anyone elected by the present Parliament, in which he had an overwhelming majority before the rebellion began.

Jury Fails to Agree on Noisy Believers

MOUNT CLEMENS, Mich. (AP) — A jury has failed to agree on what to do about a minister, an evangelist and a church member accused of keeping the neighborhood awake by groaning, shouting and hand clapping at evening services.

The Rev. David O. Norcross pastor of Bethany Tabernacle Assembly of God Church; evangelist James W. Weaver; and Ray Weaver were tried of charges of disorderly conduct and disturbing the peace brought by people who live near the church.

The Rev. Mr. Norcross said his congregation follows the biblical teaching which says "to make joyful noises unto the Lord."

Dozens of Snakes Die in Reptile Garden Fire

GARBERVILLE, Calif. (AP) — Firemen stepped gingerly last night as they fought a blaze at the Snake Pit, a reptile garden on Highway 101 eighteen miles south of here.

The structure burned to the ground, killing dozens of deadly snakes, including cobras, rattlers and boa constrictors.

Owner Tex Cordell estimated damage at \$10,000. He didn't know how the fire started. His entire collection was destroyed, he said. There were no human injuries—and no snake bites among the nervous firemen.

Hot Sessions in Court

PITTSBURGH (AP) — Judge Samuel Weiss says it's too hot in Allegheny County Criminal Court here. In a letter to county commissioners, Judge Weiss asked that at least two courtrooms be air conditioned promptly. He said "We find it is utterly impossible for witnesses to spend the whole day in court."

College Students Hit Wagon Trail for California

ENNIS, Tex. (AP)—Three ad- from the Texas Gulf Coast camped here last night on a Beaumont-to-San Francisco-or-bust trip by covered wagon.

Though outfitted in complete cowboy regalia, they readily admitted they had never driven a wagon, fixed a broken axle or put a shoe on a mule or horse until they headed west.

"We're learning and so are the mules," said Jerry McElroy, 19, Fort Neches, Tex.

His companions are Bill Hickman, 18, Nederland, Tex., and Bob Williams, 18, Grove, Tex. All three are students at Lamar Tech at Beaumont, about 326 miles from here.

McElroy said they got the idea for their trip after learning of a trust fund that had been set up for persons who traveled to California and settled.

When inquiries showed the fund had been dissolved, they decided to make the trip anyway for the fun and experience. With some enterprise they won the backing of the Highway 287 Assn.

Baboons to Get 'Loaded' Candy

Scientists Will Drug Beasts in Africa for Medical Research

SAN ANTONIO, Tex. (AP)—Scientists here were making chocolate candy today for a bunch of baboons in Africa.

A drug was being mixed in 100 pounds of chocolate at the Southwest Foundation for Research and Education.

If the baboons go for the chocolate, the drug will free them of simian malaria in a couple of weeks. Then they will be flown from Africa to San Antonio for heart research.

The scientists are doing research on atherosclerosis, the disease in which fatty deposits form in blood vessels.

They say the baboon is the only known animal which develops such deposits as does man. But the baboon is a vegetarian and consumes little animal fats. This indicates the importance of studying other factors rather than diet alone.

Scientists from the SFRE and Louisiana State University School of Medicine on their way to Nairobi, Africa include Dr. N. T. Wertheimer, pathology instructor Nicholas Gagliano, Dr. Henry McGill, Dr. Joseph Miller and Dr. Jack Strong.

They will collect baboon tissue and arrange for shipment of 200 of the animals to San Antonio by air.

The tissue will make it possible to compare the progress of the disease in animals with that in humans. The goal is to produce a predictable animal which can be used to test agents which may control the disease.

Soon to Launch Full-Power Atlas

CAPE CANAVERAL, Fla. (AP) —The first fully powered Atlas intercontinental ballistic missile probably will be ready for launching soon.

The 75-foot rocket, biggest ballistic weapon in the U. S. arsenal, roared through what appeared to be a successful ground or static test yesterday.

The Convair-developed missile housed three engines—a main sustainer and two boosters—for the first time. All three are needed to push the Atlas 6,000 miles through space.

In previous tests, which covered limited range, only the two-boost rockets were used. Yesterday's test indicated that a launching is close at hand.

Take That Money Away

NEWPORT, R.I. (AP)—George P. Lewis is one tax collector who

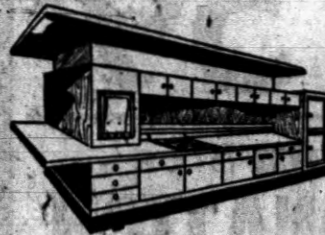

can refuse money—even if only bag full of silver, said it contained the money and convert it to bills. A taxpayer walked slightly more than \$100. Lewis explaining no one had time to into his office, plunked down a asked the taxpayer to take away count all that change.

Oceans occupy 143 million square miles or 72 per cent of the earth's surface.

TRADE FAIR GIVES FANTASTIC VALUES

2 GALLONS FOR THE PRICE OF 1

STOPS WATER SEEPAGE THROUGH BASEMENT WALLS!

WATER-CHEK BASEMENT PAINT

FOR WET OR DRY CONCRETE, BRICK, STUCCO, INTERIOR WOOD!

REPAIRS OF FILL.
Newspaper painted with Water-Chek.

RESISTS MILDEW, FUNGUS AND ALKALI

Contains new ANTI-FUNGICIDE, to completely eliminate mildew. Never say anything because Water-Chek's "Seepage-Stop" film does not allow mildew to grow. Resists to ultra-violet rays. Pigments retain natural color.

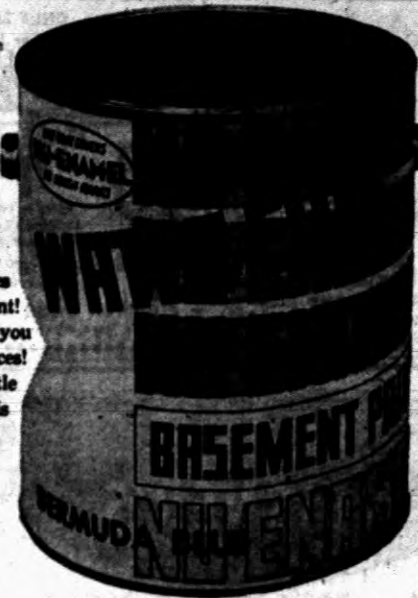

RESISTS BUSTERS, CHIPPING, PEELING!

A highly flexible thermoplastic film. Water-Chek expands and contracts during wall movement due to temperature changes. Because it "breathes" and expands it will not chip, peel or blister. Ask to see newspaper painted with Water-Chek, see it crumpled up to prove its flexibility!

STOPS WATER SEEPAGE INTO BASEMENT!

Water-Chek makes basement dry as toast because it stops water seepage through walls. It fills and seals the pores in concrete, brick or cinder-block easily, permanently, thoroughly—and so easily! Water-Chek is based on a styrene polymer dispersion compounded with specially processed, chemically pure ingredients.

7 gay, happy colors to make another "room-for-living" out of any basement that's drab or damp! It fills and seals "leaky pores" in concrete, brick or cinder-block so neatly, thoroughly and easily! Yet so easily! Water-Chek is fluffy, heavy-bodied and "flowy" like melted butter. In one coat it gives a "protective" film to 4 times thickness of ordinary base paint! So it's economical too! What's more—you can paint over damp or wet surfaces! Not a paint that forms a rigid, brittle crust, Nu-Enamel's "Water-Chek" is flexible! "Water-Chek's" thermoplastic film expands and contracts with construction material without chipping, peeling, or splitting. No mixing. No stirring. Use a brush or roller. Clean hands and tools in warm soapy water! Nothing like it anywhere! Economical! Quick too, dries in one hour!

Takes 'Burns' Out Of Feet Instantly

Your feet feel cool as a mountain spring with the very first touch of frosty-white Ice-Mint. What's more, this greaseless, medicated cream with the soothing lanolin base continues to work all-day long to keep feet cool, happy, tireless! Wonderful, too for softening, stinging corns and calluses. For a new experience in foot-comfort, get Ice-Mint today. At drugstores.

Pontiac City Affairs

OK Waterford Sewer Hookup

Approving a new agreement last night covering Waterford Township's sewage hookup with the Pontiac disposal system, City Commissioners began eyeing a similar agreement with Sylvan Lake. City Manager Walter K. Willman said the Sylvan agreement should be based like Waterford's, on specific rates for every 1,000 cubic feet of flow entering the Pontiac system. The flow would be measured by Pontiac-installed meters, he said.

Not only does the new Waterford agreement make measuring and billing easier, Willman told Commissioners last night, it also prevents the township from enlarging its use of the system without approval by Pontiac.

Contracts with Waterford are expected to be signed soon. The City Manager has already been authorized to begin negotiations with Sylvan Lake, the only other outside user of the Pontiac system.

The Waterford rate is 16 cents for every 1,000 cubic feet of flow, a rate which allows the city to realize about a 10 per cent profit over operational and maintenance costs, Willman said.

If costs go up, he said, the agreement allows the city to up its rates upon 90-day notice. Described by Willman as a "re-write" of the original, 1935 agreement, the new contract can be terminated by either side upon three-year notice.

Commissioners, in other action, set next Tuesday for public hearings to begin three improvements.

Together with estimated costs on their construction, they are:

A combined storm and sanitary sewer on the east side of Stanley avenue, from Yale about 100 feet south; assessed cost, \$402; city cost, \$443; Sidewalks on both sides of Robinwood avenue, Perry to Baltimore (except where already installed); assessed cost, \$2,163; city cost, \$1,678; Sidewalk on the north side of Baltimore avenue, Stirling to Melrose; assessed cost, \$294; city cost, \$517.

Commissioners held a hearing on assessment rolls covering a combined sewer on Stanley avenue, Hopkins to Yale, and confirmed another roll for curbs and gutters on Kinney road, Oakland to Stanley. The latter assessments are to be paid off in three payments.

Finance Director Oscar Eckman presented the annual city audit by the Detroit branch of Haskins and Sells, national auditing firm.

Covering the 12-month period ending Dec. 31, 1957, the audit made several minor recommendations for improved bookkeeping, Eckman said.

To Use State Equipment Against Swimmers' Itch

LANSING (UPI) — The Water Resources Commission has notified Michigan resort owners that state equipment will be available in fighting swimmers' itch.

Milton Adams, executive secretary of the commission, said yesterday the commission's equipment may be used for a "limited amount of beach treatment service" and would be loaned through local governmental units. Adams said operating costs would be borne by local personnel and not by the state.

Vermont has a base of white wine fortified with alcohol and then aged a year or more in wood casks.

Seeking Opinion About Prisoners

Commission Explores Fixed Bond for Release During Weekends

Pontiac City Commissioners will seek an Attorney General's opinion on the legality of releasing weekend prisoners on fixed bonds before Municipal Court arraignment. Commissioners voted last night to ask Prosecutor Frederick C. Ziem to seek the opinion for them.

At present, persons arrested for violation of local ordinances on weekends are held at Oakland County Jail unless they can obtain special police permission to go home.

If no permission is granted, prisoners have to stay in jail until Municipal Court opens Monday and bond can be set at arraignment.

Commissioner Philip E. Rowston urged that the proposal be given consideration, "since human liberties are involved."

It was City Attorney William A. Ewart's opinion that the city could not adopt a fixed bond setup, since none was provided for in state law.

After hearing his opinion, Commissioners decided to seek a fresh ruling by the attorney general.

Although Alaska is a land of pioneers, it uses the airplane instead of the covered wagon to conquer the wilds. It has a ratio of 44 planes for every 10,000 persons, higher than any of the Continental states.

South African Farmers Plan Crocodile War

DURBAN, S. Africa — Following the deaths of a number of natives in recent months from crocodile attacks, armed farmers and bounty-hungry natives in Northern Zululand have been waiting government authority to start "Operation Crocodile," Durban reports. The Game Preservation Board in the Natal area refuses to recognize the need for killing "crocs" but residents have appealed directly to the Government.

"If our plea is granted we will shoot every reptile on sight," said I. C. van Rooyen, spokesman for the farmers. "Natives will be paid a small bounty for every crocodile egg and young reptile destroyed. Something has to be done to save lives and further heavy losses of livestock. The attack will be carried into the night with lights and perhaps using 'spotlights' in aircraft."

Since 1916 the number of miles of railway line in the continental U. S. has declined steadily, from 254,037 in 1916 to about 225,000 miles as of 1950.

Dissolved Air Used to Clean Waste Water

NEW YORK — Many industries are using dissolved air to clean waste water. The process, invented by two Norwegians for use in paper mills, has been improved and is being used in oil refineries, oil fields, soap plants, meat-packing houses, fish canneries, railroad-car-washing units, and general machining operations.

With the addition of certain chemicals, dissolved air will remove oils and carbon from liquids.

DIGNITY

ANOTHER GREAT CADILLAC TRADITION

If there is one quality which is instantly apparent in a new Cadillac—it is most certainly the car's great dignity. Cadillac's regal bearing, its impressive stature, and its majestic design give it a presence that is uniquely its own. It is a rare pleasure to command such a motor car—and we think you will agree, once you've taken the wheel for yourself. Why not do so soon?

Nation's Top Designers Show

Silks Leading Pace Setting 1958 Fall Fashions

Pure silk takes to brilliant colors for autumn in fabrics that show great luxury. Splashed with impressionistic flowers, woven into multicolored brocades or used in dramatic solid tones, silk is used by this nation's trend-setting designers in the new fall collections. Fabrics include cut velvets, lames, silk ottomans, gros de londres, peau d'anges, peau de soies, gossamer chiffons and damask-woven satins.

Rose-red features the ball gown (left) by Roxane of Samuel Winston. Deeper color is splashed on a paler background in the form of cut velvet flowers against silk. The dress is cut with decollete bodice and voluminous, tiered skirt. In the center is the relaxed trapeze line as done by Adele Simpson for fall, 1958. It blossoms in multicolored, rose-red silk brocade that changes both color and

design as the wearer moves. The tiny directoire jacket goes over the dress with wide, flaring skirt. There are both elegance and fun in the new "dauphine" silhouette at right by Pauline Trigere in pure silk rose-red satin. The gown is cut with a flat panel in front. Skirt is gathered onto the sides and spreads forth in wide flounces over the hips.

Just Put Toaster Away

By EMILY POST

"Dear Mrs. Post: I have just received a belated wedding present from an out-of-town relative. It is an electric toaster, and the second one I received. The first one has already been put to use and therefore cannot be exchanged. "I would like to know if it would be proper when writing my thanks to these relatives to say that I have a toaster and ask them if they will please exchange it for something else. My mother thinks it would be wrong to say anything about it and that I should just keep it. "I think it's ridiculous to keep it when there are so many other things we can use in its place. What do you say about this?"

Answer: If it were bought in your own town and you could take it back to the store yourself that would be one thing, but to send it back to the giver and ask that it be exchanged for something else would not do at all. After all, toasters do wear out and you can surely find use for this one in time.

"Dear Mrs. Post: You say that it is improper for a girl to accept expensive jewelry as well as items of wearing apparel from a man. But what does one do, Mrs. Post, when a man friend presents one with such a gift?"

Answer: If you explain that you cannot accept his gift because it is expensive jewelry or wearing apparel his feelings may be hurt for the moment, but after he thinks it over he will understand your refusal and respect you for it.

"Dear Mrs. Post: Will you please tell me if it is proper for a woman to smoke with gloves on?"

Answer: Quite all right.

Miscellaneous Shower Fetes

Anna Mae Fox

Anna Mae Fox was entertained at a miscellaneous bridal shower Monday evening at the home of Mrs. James Niebauer on Lake Angelus road.

Guests were Mrs. James C. Fox, mother of the bride-elect, Sheila Fox, Mrs. Duane Kline, Mrs. Richard Oliver, Mrs. Lawrence Luzod, Mrs. Donald Trull, Mrs. Gerald McManey, Mrs. Dean Parmenter, Mrs. Charles Halpin and Mrs. Ernest Pruente.

Also attending were Mrs. Andrew Diehm, Mrs. Joseph P. Cooper, Mrs. Lee Hornbeck, Mrs. Thomas Duross and Lorene Rossman.

Anna Mae will speak her vows with Francis B. O'Connor Jr. of Detroit, Sept. 13.

CAROLYN FAYE ARNOLD

The engagement of their daughter, Carolyn Faye Arnold, to David Earl Longfield is announced by Mr. and Mrs. John Morley of North Perry Street. David, who attends Michigan State University, is the son of Mr. and Mrs. Henry Longfield of Highland.

Personal News of Interest

Music Guild Opens Season Sunday

The Cranbrook Garden Concerts, originated by the Cranbrook Music Guild, will open for the second season Sunday. The program again will be under the direction of Paul Olefsky, principal cellist of the Detroit Symphony, and will feature Symphony members and a large group of soloists. The concerts will take place each Sunday afternoon at 4:30 p.m. July 13, 20, 27, and Aug. 3.

Olefsky has performed as soloist and first cellist of the Detroit, Philadelphia, Robin Hood Dell, Chautauqua, and Chicago Symphony Orchestras. He is a winner of the Naumburg and Michaels Memorial Music Awards.

OLEFSKY

Ann Gillies, daughter of Mr. and Mrs. Irving Gillies has returned to her home on Mohawk road from Tampa, Fla. She had been the house guest of the W. Gene Scully family, former Pontiac residents, and went with them to Miami Beach, Key West, and Havana, Cuba.

She returned to Pontiac with the George H. Underwoods who have been visiting in St. Petersburg.

Ralph S. Forman of Chippewa road has returned from a junior high school principals' conference held at the University of Colorado. Mr. Forman is principal at Lincoln Junior High School.

Mr. and Mrs. Frank Lyman of Hilo, Hawaii left Tuesday after visiting with Mr. and Mrs. Roy Riddle of Edgefield drive. During their four-months tour in this country, Mr. and Mrs. Lyman will continue traveling to the East Coast and on to Mexico City.

Mr. and Mrs. J. S. Newton of St. Petersburg, Fla., formerly of Pontiac, are visiting with their daughter, Mrs. Clinton Miller on Orchard Lake road.

Mary Lou Terrill, daughter of Mr. and Mrs. Roger Terrill of Rochester, is vacationing for two weeks in Florida. She traveled by plane from Willow Run.

Former Pontiac residents, Mr. and Mrs. H. L. Evans of New Castle, Ind. were guests of Mr. and Mrs. Frank Copp of Motorway drive.

The home of Mr. and Mrs. Daniel Young on Bald-

win road was the scene of a family reunion the past weekend. Thirty-eight persons from Washington, Sturgis, Livonia, Redford, Detroit, Miami, Fla. and Benicia, Calif. attended the affair.

Mr. and Mrs. Edward Kleinschmidt and sons, John and Bruce, of Mt. Clemens street and Anna Gaddis of Marion avenue have just returned from Iron Mountain where Mr. and Mrs. Kleinschmidt attended the 25th reunion of his graduating class.

Before returning they stopped at Vanderbilt where they did some trout fishing.

Mrs. John Blakeley Brown and children, Dennis, David, and Deriek of San Bernardino, Calif. are visiting at the home of her brother and sister-in-law, Mr. and Mrs. Andrew Blakeley of Seward street.

A family gathering was held at the home of Mr. and Mrs. Thomas Bright on Raeburn street Saturday.

Guests from Altoona and Attalla, Ala., Wichita, Kan., Farmington, Drayton Plains and Pontiac attended the get-together.

Receiving congratulations on the birth of a son, James Herbert, June 29 at St. Joseph Mercy Hospital, are Mr. and Mrs. Robert Yovich Jr. of Bloomfield Highlands.

Grandparents of the child are Mr. and Mrs. Herbert Finnigan of Alice avenue and Mr. and Mrs. Robert Yovich of East South boulevard.

The birth of a daughter, Sally Kay, July 5, at Pontiac General Hospital, is announced by Mr. and Mrs. William Stokes of Irwin drive.

The infant's grandparents are Mr. and Mrs. Homer Conant of West Ypsilanti avenue and Mrs. Clayton A. Stokes of Lake Orion.

By St. Monica Guild

Card Party Set July 17

Mrs. Carl Rogers will be hostess for a card party and luncheon sponsored by St. Monica Guild of St. Michael Parish July 17 from 12 until 3 p.m.

Assisting hostesses will be Mrs. A. C. West, Mrs. John

Bookie, Mrs. Kenton Plourde and Mrs. Stephen Turner. Other chairmen are Mrs. George Michaels, tickets; Mrs. Leon Edmunds, Mrs. Fred Haynes and Mrs. Ronald McNerny, refreshments, and Mrs. Edwin Backus and Mrs. William Brown, prizes.

MARY CUMMISKEY

Mr. and Mrs. James P. Cummiskey Jr. of Birmingham announce the engagement of their daughter, Mary Moylan Hayes Cummiskey, to William Edward Murphy of Ann Arbor. He is the son of Mrs. Edward Sladek of Chicago. A September wedding is planned.

No Harm in Asking

If a friend neglects to pay you a small amount of money he owes you and you know it is because he has forgotten, it is quite all right to mention it.

Safer for Children

Children's clothes that can be washed, preferably in a washing machine, are more hygienic—safer from a health standpoint.

Take Them in Bed

Fight Insomnia With Exercises

By JOSEPHINE LOWMAN

At the end of a day we are apt to have tension and slight muscle spasms in our back. We are especially likely to feel fatigue through the shoulder and neck. The following exercises are magic in that they relax us for sleep or before dressing for a gay evening.

This tension is one reason for insomnia. I hope you will take this routine seriously because it can give you a much better grade of sleep.

Lie on your back on the bed. Place a couple of pillows under your knees but have NO pillow

under your head. This in itself is restful. Now turn your head as far to the left as you can. Try to bring your chin over your shoulder.

Turn head forward. This time turn your head to the right. Turn forward. Continue, slowly, feeling the pull and alternating left and right.

Now lift your head and touch your chin to your chest. Lower head to the bed and roll the head backward. Continue lifting the head and then lowering and rolling backward. You will find that this

iron out many of the kinks. Raise both arms upward at angles to the body. Hold the arms in this position as you reach up toward the ceiling with your right arm, lifting the right shoulder from the bed. Do the same thing with the left arm, lifting the left shoulder from the bed. Continue alternating, slowly.

Now rest your arms on the bed overhead, legs straight (remove pillows from under knees). Push back with your right arm as you push forward with your right leg. Push from the hip joint, and let your heel lead.

Hold while you feel the stretch. Do the same thing with your left arm and leg. Continue slowly, alternating right and left.

You will find these four exercises most relaxing. Do each one in the sequence given and for long enough to feel that you have had a massage. Many busy people use these tricks.

If you would like to have my leaflet "Shuteye" send a stamped, self-addressed envelope with your request for leaflet No. 34. Address Josephine Lowman in care of this newspaper.

Tomorrow: "Exercises for Those Who Have Sacroiliac Trouble."

If you're an insomnia sufferer, try this: Push back with your right arm as you push forward with your right leg. Push from the hip joint. Alternate right and left.

Let's Plant an Indoor Garden!

NEW YORK (INS)—All you need for a year-round garden is one brightly sunlit room.

Garden admirers who get more enthusiastic about the beauty than the hard work involved in having a garden in which to entertain might be interested in substituting an indoor garden room. The idea might also appeal to the apartment-bound who admire greenery but have no place to till the soil.

Just go out and buy some mural wallpaper—the prettiest, brightest, gayest outdoor scene you can find, and splash it over one or even two walls.

Then, instead of worrying about rows of rows to plant, line the papered walls with a couple of dirt-filled troughs and do your planting indoors, where you can nurture flowers the year round.

To give the room a proper garden appearance, use garden furniture in white wrought iron and delicately twisted patterns. The sunlight streaming in will give the room a warm, country atmosphere all year long.

For upholstered seat pads, get coverings that either are a variety of blended bright shades or else that are covered with gay floral patterns, color-matched to your mural. Amateur painters might try painting their own murals.

Be Sure to Wash Frames, Lenses of Sunglasses

With sunglasses being adopted as eye protectors by motorists the year round, as well as by summer vacationists, it is good news that manufacturers are designing frames to be both complimentary and serviceable.

There is a wide selection of frames to harmonize with costumes for street use and for casual occasions.

For continuous good vision, sunglasses—both lenses and frames—should be washed often with warm soap or detergent suds. Use a well-lathered soft brush, if necessary, to scrub out the hinges and decorative carving or metal-work. Then rinse and dry.

This washing is the only way to remove finger marks, cosmetics, and suntan oil or lotions.

Gives Beauty Secret

A lovely looking great-grandmother, aged 102, recently disclosed her beauty secret. "Plenty of soap and water," she said.

Have You Tried This?

Crumb Mixture Encloses Raisin Gingerbread

By JANET ODELL
Pontiac Press Editor

When you go on a picnic, isn't it nice to have a cake with frosting that won't get gooey while traveling? This same crumb-topped cake is good for dessert any time.

Mrs. Charles D. Wheeler is today's cook. A member of the Red Cross Aide Corps, she works part time. Gardening and crocheting are her hobbies, as well as five grandchildren.

CRUMB GINGERBREAD

By Mrs. Charles D. Wheeler

1 cup sifted flour
1 cup butter or margarine

1 cup sugar
1 egg
1/2 cup raisins
1/2 cup sour cream
1 teaspoon each soda, ginger, cinnamon
1/2 teaspoon nutmeg

Work together as for pie crust the flour, butter or margarine and sugar. Set aside one heaping cup of this mixture.

To the remainder add the other ingredients. Sprinkle half of the crumbs that were set aside over the bottom of a greased 8-inch pan. Add cake mixture and sprinkle rest of crumbs on top. Bake at 350 degrees for 25-30 minutes.

JANICE SCHATELEY

Mr. and Mrs. John E. Schateley of Melrose avenue announce the engagement of their daughter, Janice, to James C. Bingham Jr. He is the son of Mrs. J. Clifford Bingham of Birmingham and the late Mr. Bingham. An Oct. 4 wedding is planned.

Furnace Filter Boon to Those With Allergies

A new permanent, washable furnace filter is a boon to the fastidious housewife because it reduces the amount of dust that comes upstairs.

It is said to sift out 99.9 per cent of pollen, molds, and other airborne allergens which trigger asthma and hay fever sufferers. This means less dusting to do, and cleaner air to breathe.

The filter must be kept clean in order to work with maximum efficiency. Available in various sizes to fit most furnaces, it slips out easily to be washed often in hot soap or detergent and rinse.

by Anna Adams

Easy sewing, with a Printed Pattern—in a classic so flattering to half-sizes. Favorite 6-gore skirt with smart pocket interest; revers to slim the bodice. Three sleeve versions.

Printed Pattern 4843: Half sizes 14½, 16½, 18½, 20½, 22½, 24½, 26½. Size 16½ takes 3½ yards 35-inch fabric.

Printed directions on each pattern part. Easier, accurate.

Send 35c in coins for this pattern—add five cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

VACATIONING

Have a wonderful time relaxing and being yourself. Do not rush off to a resort and try to turn into a glamorous girl overnight. Glamour should be no illusion wrought by a magic spell. Instead it is a combination of freshness and neatness that brings out your natural beauty.

It may be as natural for some to achieve the sophisticated look as others to represent the American outdoor girl. All should be keyed to the normal everyday kind of life you lead at home. On vacation... be your own best self!

One more tip: Be observing... see if you can come home with one new idea or bit of knowledge.

SHARON JEANNE BROWN

Show Children Greatness of America

By MURIEL LAWRENCE

At 5:30 a.m. a Hudson River pier can be a dismal place.

The one where I waited that dawn, seemed especially bleak to me. For the year was 1940. From where I stood I could see our American water slapping against dock piles, but beyond it France had died—and from the sides over Europe's broken cities, Hitler's Luftwaffe was gathered for the assault on England.

So, though the month was July, I remember the wind from the river as damp and chilly. Shivering in my thin dress, I watched the ship from Bordeaux swerve for approach to her dock. They'd painted her gray, but the unobtrusive color hadn't served its purpose. The dive bombers had been

at her, the marks of their strafing visible on her pitted sides.

You could also see the marks in the faces of her passengers as they shuffled down the gangplank, carrying no luggage, their eyes so lost in memories of defeat and flight that they moved toward me and safety like people in a dream.

The writer I had come to meet said to me tonelessly, "No, I didn't bring my portable. There wasn't time to get it."

I never felt so helpless in my life.

Then the haggard lines of his face changed. I turned—and there behind me on the pier where nothing had been before was a Salvation Army mobile canteen, its bountied women

and uniformed chief quietly dispensing steaming coffee and doughnuts to the refugees crowding around them.

That was the moment when I became an American.

I think that we have all had experiences that gave us the same sudden insight into America's unadvertised goodness. At this time when she's so beset by other countries' hate, let's share these experiences with children.

Like foreign countries, they find it easy to see America as

Zsa Zsa Gabor's fur coats, Little Rock riots, the gadgets on our show-off cars. But those of us who know her well know that she isn't at all what the flash-bulbs and ads report her to be. It is now our obligation to show children our own truer picture.

There were no photographers, no promoters on the pier that morning to cheer the welcome to Hitler's refugees. So my memory of it is my personal possession—and I'm sharing it with all the children I know.

Club Formed By Esther Court

Twelve members of Esther Court, 13, Order of the Amaranth, met at the home of Mrs. Edward Pritchard on Fourth avenue Tuesday to organize an Altar Square Club.

Officers elected were: Mrs. Pritchard, president; Mrs. John Balch, vice president; and Mrs. Bert Weddle, secretary and treasurer.

Mrs. Balch will open her home on Liberty street for the August 19 meeting to begin at 7:30 p.m.

Dear Abby

Don't Let Dog Make the Decisions

By ANIGAIL VAN BUREN

DEAR ABBY: I am a widow, 29 years old and recently I met a charming man. He wants me to marry him, but my dog growls and snaps whenever he comes around. I have heard that dogs are better judges of a person's character than most humans. Is there anything to this?
KAY

DEAR KAY: I hope your brains are not in your dog's nose. Get to know this man well and decide for yourself whether he is right for you.

DEAR ABBY: This letter is about the most disagreeable man who ever lived. I am talking about my father. Since our mother passed away eight years ago, he has been a pain-in-the-neck to every one of his five children.

We've all had our turns keeping him and his two sons aren't even speaking to him now. He was given the best room in the house and all the respect in the world, but he caused trouble wherever he went.

He tried to run every home he was in and his vicious tongue was always going. He is 74, has plenty of money, but claims he can't live alone because he thinks he is losing his mind. WE are losing OUR minds, Miss Van Buren. How do you cope with a problem like this?

GIVING UP

DEAR GIVING: If all five children feel as strongly as you about your father, of course he can't live with you. Only a doctor can diagnose his mental state. With plenty of money he could live in a

lovely, comfortable residence for the aged. Some oldsters get along better with strangers than with relatives.

DEAR ABBY: I am a born musician. I have music in my soul. I can't read or write a note, or play any instrument, but I write songs. I write a song about every week. The songs I write are much better than anything you hear on the radio today. I know I could become a famous composer if someone would give me a chance. My present job (manual labor) bores me. Please tell me how to get in touch with somebody who would appreciate my talent.
BORN MUSICIAN

DEAR BORN: If you can't read or write music or play an instrument, hum it to a musician who can, and perhaps he will write it for you. Send this to publishers and dance band leaders.

It could take years, but if you are talented, somebody will recognize it. In the meantime, manual labor might bore you, but going hungry can get pretty monotonous, too, so stick to your present job.

DEAR ABBY: I am 17 years old and have been going with this fellow for two months now. I like him a real lot.

Purses Go Trapeze, Too

PARIS (UPI) — This summer give your black purse a vacation. To go with casual chemise styles, a handbag should be colorful, roomy and original.

The latest shapes for plastic, leather or crocodile skin bags are trapezes. Some trapeze bags have handles cut in one with the bag body. A hole is cut into the narrow top for your hand or arm.

BUILT IN FEATURES

One beige leather trapeze bag has a little drawer for makeup or jewelry built into its rectangular base. A trapeze shaped weekend carryall comes in a combination of leather and tapestry fabric.

Clutch bags, too, now have tall trapeze shapes with the narrowing top folded over for less bulk. Henry a la Pensee shows an original handbag for the seaside. It is square, of white sailcloth and has a navy-blue flap looking with its white braid trimming just like a sailor's collar. The bag's handle is a white rope.

Wash Often on Hot Day

For keeping cool on torrid days, carry a washcloth in a little plastic vegetable bag. Wash your face several times during the day with cool soapsuds.

Wring out the cloth in the suds and place it against your face, neck, and arms — not forgetting the back of your neck. Repeat with almost cold rinse water.

This wash-up is also necessary to remove stale cosmetics that tend to clog and cake in hot weather. Makeup should be renewed only after the face is washed clean.

Let Newlyweds See Gracious Hospitality

By RUTH MILLETT

"Whenever I invite a young married couple to our house," says a woman who has been happily married for close to 20 years, "I take pains to cook as delicious a meal as I can and to serve it as graciously and attractively as possible."

"I think it means a lot to young kids who are just starting out to have an older couple treat them like VIP's. It makes them feel that they aren't kids any more, but that marriage has given them a new and important place in society."

"And I like to think it encourages a bride to strive to do things nicely herself when she sees that gracious entertaining is the result of taking pains and putting forth just a little extra effort."

"So often today young couples seem to get the idea that the best way to do anything is the easy way. But that isn't always true when it comes to creating a home. It takes work and planning and infinite pains to create a background for gracious living. But it is worth every bit of the effort. That's what I think every bride should know."

She's right, of course. And the June bride who wants more than anything else to make a happy home couldn't do better than to make friends with an older woman who has already achieved that goal.

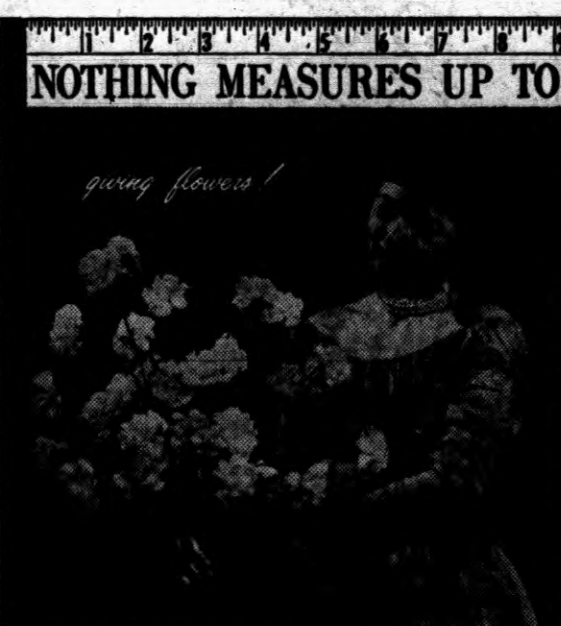

It will help to keep the goal bright and clear. And any bride can learn the arts of homemaking faster by example than by trial and error.

Without collar, narrow shoulders droop despairingly. Falsifying with huge pads is not good, but wide collars on sweaters add shoulders with flatteringly.

For the very thin girl with small bosom and narrow shoulders, exaggerated bulky or long stringy sweaters are out. All knit-wear should be in-between with special attention to a collar that softens boniness and widens the shoulders and curves the bosom.

No Wonder Modern Miss Looks Chic

The woman who is so well-groomed that she looks as if she has a full-time maid undoubtedly does not. But she has other things.

She has lovely nylon lingerie. She has a steam iron. She has miracle fabrics. She has springy wool and other fabrics that are wrinkle-resistant. She has nylon gloves and washable leather gloves. She has home permanents and excellent cosmetics and creams.

So she really doesn't need a maid to look her very best every day.

Illegal to Bathe? Well—Almost

Do you know that soaking yourself in the bathtub was almost prohibited by law in the early 1800's? When an ordinance was introduced in the Philadelphia Common Council, trying to prohibit bathing between Nov. 1 and March 15, it was defeated by only two votes!

Bathing was considered hazardous during the cold months. Even medical experts warned against it.

Anybody who bought a bathtub in those days was considered snobbish as well as foolish.

Potent Blossoms

Potent leather blossoms perennially in footwear. It can add a stunning footnote to many costumes.

Laura Pearson Married in All Saints Church

A gown of chiffon taffeta with applied chantilly lace was chosen by Laura Ann Pearson for her marriage to Theodore J. Jackson Saturday at All Saints Episcopal Church. The Reverend C. George Widdfield officiated at the ceremony in the presence of 175 guests.

The ballerina-length gown featured a portrait neckline outlined with tulle, accented with tiny seed

MRS. THEODORE JACKSON

pearls and sequins, a long fitted bodice, and a full taffeta skirt with applied lace.

Her headpiece of sequins and seed pearls, held a veil of pure silk illusion, and she carried a white orchid on a white ribbon with lilies of the valley and shattered carnations.

Attending the bride were Mrs. Gerald E. Starkweather as matron of honor, and Patti-Jean Smith and Yolanda Jackson, sister of the bridegroom, as bridesmaids. They wore identical dresses of white eyelet over pink silk and carried cascade bouquets of carnations.

Joe Johnson of Lansing served as best man while Lester Hartzman, Floyd Reynolds, and Gerald Starkweather were ushers. A reception was held in the church immediately following the ceremony.

Parents of the couple are Mr. and Mrs. Paul J. Pearson of Tex avenue and Mr. and Mrs. Joseph H. Jackson of Evelyn court. The bridegroom attended Highland Park Junior College.

For her daughter's wedding, Mrs. Pearson chose a blue lace dress with white accessories and a corsage of pink carnations. A beige lace sheath dress with beige accessories and corsage of pink carnations was worn by Mrs. Jackson.

For her going-away costume,

Bloomfield Hills Garden Group Meets Monday

The West Shore drive home of Mrs. James Baldwin will be opened to members of the Bloomfield Hills Branch of the Woman's National Farm and Garden Association Monday.

The meeting will feature Mrs. Frank D. Webb of Birmingham, who will discuss collecting and preparing dried floral and plant arrangements. Tea will be served following the 1:30 meeting.

Use Care in Storing Rat, Weed Powders

If you use powders or sprays to kill rats, vermin, or weeds, be certain that such dangerous killers are stored well away from the places where you keep and prepare your family's food.

Soap your hands thoroughly after using, and wash all utensils containing such chemicals in hot soap or detergent suds.

The Madeira, a tributary of the Amazon River, is nearly 3,000 miles long from source to mouth.

CAROLYN WEBB

Mr. and Mrs. Walter Webb of Davison Lake, Ortonville, have announced the engagement of their daughter, Carolyn, to Vann O. Walton, son of Mr. and Mrs. Ralph E. Walton of Hadley road, Clarkston. The prospective bridegroom is a student at Lawrence Tech.

Researchers Dig Into Michigan Tax Structure:

Blast State Method of Aiding Local Government

By ROGER LANE

DETROIT (AP)—Michigan's pattern of state aid to local governments came under heavy criticism yesterday and today from researchers digging into the state tax structure.

They said it straitjackets the legislature in management of state spending, and is unduly rigid, full of inconsistencies, insufficiently geared to needs of receiving local governments and lacking in incentives.

The faults were described to a joint Citizens-Legislative Committee working on an overhaul of the state tax structure.

The criticisms came chiefly from Dr. Harvey E. Brazer, research director, and Dr. Robert H. Pealy of the University of Michigan Institute of Public Administration and Dell Wright, Wayne State University political scientist.

In a summary of their investigations prepared for a committee meeting today, Brazer observed the system has cost the legislature effective control over about 435 million dollars a year in state levied tax receipts.

These are funds that flow out of the state treasury on a virtually automatic basis to local school district, township, city and village governments.

Pealy and Wright reported the 435 millions so distributed in 1956 put Michigan third among the

states of the nation, behind only California and New York.

They called this "rigidity" perhaps the most important single flaw of the state aid system.

"The constitutional earmarking of taxes for particular purposes and for state aid has severely limited the legislature in the choices which it can make in allocation of funds," they said.

"At most, it is free to allocate only 30 per cent of total state receipts."

"Earmarking of the sales tax, highway-use revenues, and the taxes which make up the primary school interest fund provides the major rigidities in the state aid system."

Pealy and Wright called for "drastically reduced" earmarking of state revenues by constitutional mandate.

Brazer said the present arrangement deprives the legislature of "effective budgetary control," and added:

"Thus, some functions and some units of government may find themselves with a surfeit of funds while others remain financially undernourished."

The biggest distribution of state revenue to local government units is in various forms of aid to local schools. This cost 283 million dollars in 1957-58.

The money came from the state sales tax, two-thirds of which is constitutionally earmarked, and from special levies on railroads, insurance companies and public utilities.

House Probers Question Shipping Official About Onassis' Interests

WASHINGTON (AP)—House investigators questioned an official of the Aristotle S. Onassis shipping interests yesterday about a million dollars a month income on which no federal income taxes are required.

Harold Becker, treasurer of Victory Carriers, told a House Merchant Marine subcommittee that foreign charter income — from 12 ships under Liberian flag — amounts to about a million dollars a month.

Rep. Herbert Zelenko (D-NY) said he did not mean to imply the company was trying to get out of an obligation.

"I'm just trying to show that the way this is set up, they don't have to pay any federal income tax," Zelenko said.

The subcommittee has been studying the 1955 settlement between Onassis, Greek-born shipping magnate, and the U.S. government on the Onassis purchase of 23 surplus U.S. ships.

The government went to court over the deal, under the law forbidding purchase of such ships by alien-controlled interests.

Onassis agreed to settle a civil suit for seven million dollars and in return retrieve 14 ships, which he could transfer to a foreign flag subsidiary.

Victory Carriers is one of the companies Onassis set up to carry out the settlement agreement.

Zelenko told reporters that former U.S. Atty. Gen. Herbert Brownell will appear before the subcommittee July 22 to answer questions about his part as a lawyer in the Onassis matters.

Condition of Stepinac Reported Under Control

BELGRADE, Yugoslavia (AP)—The condition of Alojzije Cardinal Stepinac, 60, Roman Catholic prelate for Yugoslavia, appeared under control after he suffered another blood clot in his right leg, his doctor said last night.

Dr. Branislav Bogicevic added, however, "There is always danger in the cardinal's present state of health that he might suffer other thrombosis (blood clot) attacks in other parts of the body. If that happens, it could be fatal."

Other sources of aid to local governments include receipts from the state gasoline tax, intangibles tax, part-mutual tax, liquor license fees, grants on state-owned lands and the veterans' homestead exemptions.

Brazer found that, as might be expected, with the state generous in its rebates and grants to local units the revenue bases of the local units themselves have "lagged far behind" as to levy of non-property taxes.

Their per capita levy of local taxes other than on property was \$1.26 in 1956 compared with more than \$19 for the nation as a whole.

It was strongly suggested that the legislature should loosen the tax reins on local governments to the extent, even, of permitting local supplementation of a state

income tax should one be enacted in Michigan, or adoption of local sales taxes.

The tax study group is expected to seriously weigh recommending a personal income tax in Michigan, probably in a package with other major revenue revisions.

Brazer observed that despite strict economies voted by the 1958 legislature prospects for 1959 "certainly suggest a rapidly mounting deficit which no near-term economic recovery is likely to erase."

Pealy and Wright singled out state aid to townships as a glaring example of weaknesses in the present inflexible arrangement.

"The evidence seems clear, however, that rural townships, on the whole, do not need major state aid," they said. And again:

"There is thus a strong case for

eliminating all townships from the sharing of these revenues."

It has been pointed out that urban townships, with more complex and expensive problems, can incorporate as cities and continue to receive sales tax, intangibles tax and highway-user rebates from the state.

As it stands now, there is no test of need applied to qualify for grants that come from the state automatically. Moreover, there is no local tax incentive required.

School districts must levy a qualifying millage to receive state aid, but in general the level is unrealistically low, the researchers said. They called for raising qualifying millages.

"Local units may receive state aid with little or no responsibility to exert local tax effort to

Newspaper Strike in Philadelphia Ends

PHILADELPHIA (AP) — The American Newspaper Guild and the Philadelphia Inquirer agreed on a new two-year contract yesterday, thus ending a 38-day strike.

At the same time full distribution of the city's two major newspapers—the Inquirer and the Bulletin—was resumed, formally ending a strike of delivery truck drivers which began May 30.

The drivers, members of Teamsters Local 623, reached a settlement with the two newspapers, through the Newspapers Publishers Assn. of Philadelphia, June 26.

The Bulletin put its drivers back on the payroll. Deliveries were not resumed, however, because the Inquirer drivers refused to cross the Guild picket lines, and the publishers association — said representing the Inquirer — said drivers were obligated to go back

to work at the same time at both newspapers. The Bulletin has no Guild unit.

Elvis Presley's Ticket to Be Paid by His Dad

FORT WORTH, Tex. (AP)—Pvt. Elvis Presley's dad is going to pay off the speeding ticket the rock 'n' roll singer got Sunday.

Vernon Presley wrote Justice of the Peace Whit Boyd asking the amount of the fine and stating a check will be sent to cover it. Byrd said the fine and court costs came to \$22.50. Presley was charged with going 75 miles per hour in a 55-mile zone. The star's parents are staying at Killeen while he soldiers at Ft. Hood.

Sometimes He's Happy

HUNTINGTON, W.Va. (AP) — The news was mixed for Harold L. Frankel. City Council reelected him mayor. But at the same time, Fire Chief John Gallagher announced a fire at Frankel's house the same night caused \$12,000 damage.

In Defense of Roadside Billboards:

Says Blondes Distract More

CHICAGO (UPI)—Which are more distracting to drivers: Roadside billboards or blondes wearing shorts while gardening?

An outdoor advertising executive said blondes.

A county zoning board hearing chairman said it was a good question.

"I think we can do something about the billboards, but I don't know about the blondes," he said.

He also put in a plug for mothers-in-law in back seats.

The issue popped up yesterday at the Cook County Zoning Board of Appeals. An outdoor advertising company sought to block a proposed regulation requiring signs to be at least 200 feet from toll roads and expressways.

State official Matthew W. Lear asked advertising executive John E. Goggins if it

wasn't true that today's motorist needed 100 per cent concentration on his driving.

"No," Goggins answered. "If concentration like that were required, a driver couldn't take time out to light a cigarette—or to answer his mother-in-law in the back seat."

Goggins said he thought billboards were a lot less distracting to drivers than "women tilling the soil, particularly blondes in shorts."

"Well, I'm not for eliminating blondes," Lear said.

"And we can't eliminate mothers-in-law," Hearing Chairman Andrew J. Dallstream added.

Dallstream discontinued the hearing until next Tuesday.

Cabby's Dull Business Turns Exciting, Profitable

DETROIT (AP) — Cabby Haig Vartanian had been cruising for three hours last night without picking up a fare.

Suddenly he passed a woman standing on a street corner screaming. She was pointing at a man fleeing down an alley with her purse. Vartanian drove after the thief, cornered him and said, "Hand it over, buddy." The man

tossed the purse into the cab and a \$15 reward and also had him take her home for a \$1.70 fare.

Vartanian turned the purse over to Estella Varge, who gave him of Texas has about 300,000 acres of state park lands.

Andonian in Publinx Match Play

Special to The Pontiac Press
CHICAGO — Mike Andonian of Pontiac led a four-man delegation of Michigan golfers into the match play phase of the 33rd annual U.S.G.A. National Public Links golf tournament today at Silver Lake Country Club.

Andonian, Van Bleech of Flint, Jack Aldred of Ferndale and Sam Lima of East Detroit all succeeded in passing their 36-hole qualifying tests yesterday over the 6,500-yard course.

The remaining eight members of the Michigan contingent, including Wally Smith from Pontiac, failed to make the grade for the opening round of hole-by-hole play.

Andonian, the Pontiac Central High School mathematics teacher, wound up as the state's leading qualifier after a shaky start. Mike bounced back strong with a one-

under-par 72 Tuesday after a 76 on Monday for a 36-hole total of 148, two strokes above regulation. Bleech shot Michigan's lowest round yesterday, 71, to become the state's 2nd best qualifier with a total of 151. Aldred fired 79 for a score of 153.

After carding a 73 on Monday, Lima soared to an 81, but he still managed to qualify at 154, which was the dividing line for the cut

for 150 players to 64. Par at Silver Lake is 38-35-73.

Smith improved from an opening 80 to 76, but his 156 total was not good enough to stay alive. Al Krol of Mt. Clemens and Roy Cullenbine, former Detroit Tiger outfielder, were among the other Michigan casualties.

Andonian went out in 39 strokes Tuesday, then rifled a 333 coming home for his sub-par effort. Mike dropped four birdie putts to offset three bogies.

Andonian, Michigan Publinx champion for the last three years, had his work cut out for him today in his opening 18-hole match. Mike was scheduled to meet Junie Buxbaum, ex-pro and the 1956 National Public Links champ, in this morning's first do-or-die round.

Bleech was paired with Emil Esposito of Chicago, Aldred met Sam Valuck of Denver and Lima went against Bob Faulkenberry of Oklahoma City.

Teeing Off

By BILL CORNWELL

Bearing the title of Michigan Amateur Golf Champion is a proud distinction and one which young Lloyd Syron of Pontiac has carried around on his broad shoulders for the last 12 months or so.

It was just about a year ago now that the stock well-muscled swinger laid claim to the most distinguished crown in Michigan amateur golf circles by beating lanky John Kurach, a talented Publinx shot-maker from Detroit.

Belvedere Country Club in Charlevoix was the scene of Lloyd's triumph, which snapped a three-year reign by Glenn Johnson of Grosse Ile. It was Kurach, Syron's victim in the title match, who put Johnson on the sidelines in the semifinals.

Now it's State Amateur time again and the greatest collection of "simon pures" in Michigan, including the champ, have made the trek to the northland as Belvedere plays host to the tournament for the 12th time in history. Successfully defending a golf crown is an immensely difficult thing to do, but Syron will tackle the task of repeating with a lot more confidence than he had when he entered the Michigan Open last August at nearby Edgewood Country Club.

It was only a few short weeks after winning the State Amateur title that Syron became afflicted with the most accursed shot in golf—the shank. This miserable excuse for an iron shot—the ball flying off at right angles from the shank of the club—caused Lloyd to drop out of the final round of the State Open, his confidence in his game severely shaken.

Lloyd hiked back to his home

course at Pontiac Country Club for a lesson or two and some friendly advice from his father, Frank Syron, pro-owner of Pontiac CC, and assistant pro Frank (Red) Wilson.

Apparently that was all Lloyd needed. He claims he hasn't shanked a ball since and he left for Charlevoix on Tuesday with renewed faith in his game and a little more sense of security.

"Lloyd made adjustments in his swing and regained his confidence," Wilson said. "The shank is more mental than anything else." Red stated, "and Lloyd had worked himself into a shanking frame of mind." "Now he's rid of it," he added.

Proof that Syron regained his touch can be measured by his 73.1 per round stroke average at Notre Dame last spring as he became the No. 1 golfer on the Irish squad.

Lloyd, who received a new automobile from his parents after his graduation from Notre Dame in June, celebrated his 22nd birthday on Monday. He could think of no finer birthday gift than coming home on Sunday night with his 22 straight Michigan Amateur crown.

SHORT PUTTS
Five other Pontiac golfers entered in the State Amateur, which started its 36-hole qualifying trials today. Included are Dick Robertson, Andy Lindsey, Dick DeWitt, Tom Thum and Frank Pinkman.

Dawn-to-Dusk Qualifying Under Way at Charlevoix

CHARLEVOIX, Mich. (UPI) — The dawn-to-dusk test for a field of about 225 golfers vying for the Michigan Amateur Golf Championship was scheduled to start today at the Belvedere Golf Club.

The low 63 after today's and tomorrow's 18 holes will move in to match play Friday with defending champion Lloyd Syron joining them. There are two rounds of match play Friday, Saturday and Sunday.

There are a string of favorites in the field of the state's best amateurs, including Talbot Smith, California amateur king who has moved to Michigan.

In addition, former Michigan champions Glenn Johnson, Tom Draper, Fred Turner, Lou Wendrow and Sam Kocsis are entered.

Johnson won the Stag Horn Trophy three times running, from 1954 through 1956, and then his skein of 22 straight match play triumphs was broken by John Kurach and Syron, the Notre Dame golfer, went on to win.

Johnson, from Grosse Ile, has been to the semi-finals for the last six years.

The sons of state professionals and former caddies dot the field. Uppermost is Syron, whose father operates Pontiac Country Club.

Others on the list are Mike Conroy, whose father is pro at North Hills; Steve Miller, son of Jackson Arbor Hill's Massie Miller, and Tommy Shannon Jr., son of

Shaw's Defeats Jets in 'A' Loop

Trott Hits Two Homers in Protested Contest; PBI Rallies to Win

A five-run 8th inning broke up a nip-and-tuck battle and gave Shaw's Jewelers a 12-7 victory over the Jets in Class A game yesterday that was later protested by the losers.

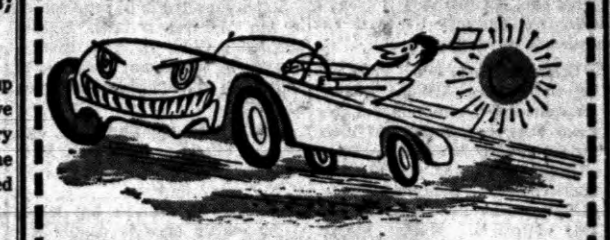

Shaw's put together three hits, a wild pitch, two errors and a stolen base for big 8th which produced a triumph for reliever Jim Jones. Hal Trott walloped two homers, two singles and walked for a perfect night to lead Shaw's. The game was halted after 7½ innings when the Jets were charged with undue delay of the game.

In Class B, Pontiac Business Institute rallied for four big runs in the 7th to nip Talbot Lumber 6-5. Pitcher Greg Meadows won his own game with a bases loaded double which scored two.

At Lake Sherwood Aug. 9-10

Midwest Ski Event Comes Here

By E. GUY MOATS
Oakland county will be the site of the first important winter sports event in the Midwest since the first two weekends of August.

Confirmation has just been received by the Midwest Junior Chamber of Commerce and the Lake Sherwood Water Ski Club for the 11-state Midwest Regional championships, Aug. 9-10 at Lake Sherwood. The man-made body of water was the scene of the 1937 Michigan Water Skiing championships. They return Saturday and Sunday, Aug. 9-10.

Bad Fuller, Detroit, a regional vice-president, was informed by 1000 will witness the two events. Officials anticipate more than 30,000 spectators.

Pauline From Press

CHAMPION — There's another canine champion in the Pontiac area. Above is 3-year-old Lady Velvet Head, shown by her owner and trainer, Mrs. Reg Armstrong, 2355 Oakwood, Pontiac. Many of her trophies are displayed, including one for winners black and white of her opposite sex at Sunday's Macomb Kennel club show. The major win gave Heidi her AKC championship rating in the German Shepherd Pointer breed. Heidi is also an excellent field dog, says her owner, has run in three field trials, placed in two.

14-Inch Perch Taken on Pontiac Area Lake

One of the largest, if not the biggest yellow perch taken this season from an Oakland county lake, was created last of the week by Van L. Harter, 441 Highland, Pontiac. Harter got his big one at Lake, he said it weighed one-pound, four-ounces and was 14 inches long.

"I lost an even bigger one," Harter reported. Fishing with him were Charles McFarland and Gene McFarland.

Another successful area angler was Kent Frothingham, Cedar Island Lake, who landed a 2-pound, 12-ounce smallmouth bass while out face fishing at Cedar Island Lake. His prize was 18 inches long.

Standings for Fishing Derby

Here are the current leaders for the 1936 Pontiac Press Big Fish Derby:

BLACK BASS — Five pounds, 12 1/2 ounces, taken by Roland Dixon of Rochester, June 30.
NORTHERN PIKE — Eleven and one-half pounds, taken by Charles Berch of Pontiac, July 4.
BLUEGILL — One pound, shared by three entries—Bill Boyer, Pontiac; Bob Zeeman, Auburn Hills; and Loren Wilson, Pontiac.

OCSC, Police Match Ends in Stalemate

Pistol shooters from Pontiac police department and Oakland County Sportsmen's club split honors in a weekend match at OCSC's range. Officers took the all-caliber division, 1275-1239, but lost the 22 caliber section, 1294-1271.

SWING IT — And that was what Buck (Kurt Jr.) Heide did as the camera recorded a recent bit of action in an exhibition.

Kurt, 17, Union HS senior, is one of the country's youngest shotgun and rifle trick shot. With Kurt Sr. (background, above), the pair is a top featured trick shooting team that will take part in the annual GMC Truck & Coach picnic at Walpole Lake park, July 19.

Claims 'Drug' Record

McKINNEY (AP) — Drug strip race driver Bob Gerph of Tucson, Ariz., claims a record of 135 miles an hour from weekend speed trials at the "World Series" of drag racing.

With the assistance of Alaska people have one more chance to leave a prediction that the population of Oakland County would double by 1980. He tried to visualize the county with twice its present population. Looking out a window he saw a nest of ten caterpillars in a nearby tree, whose occupants were crawling all over one another.

The only false note in the "Fifty Year Plan" was that the "Fifty Year Plan" did not come into being as the result of a dream.

County Changes Identity in Half Century

By JACK PATTERSON
It was July 9, 1936, and within the still-yellow walls of the court house the Committee for the Development of Oakland County was having its first annual meeting.

"We have our work cut out for us," the chairman was saying. "It's a big county with hundreds of small villages and hamlets, and a big county with a big population."

"I'm sure," said a member, "that position of lakes and streams, take priority." "Don't forget to clean out the forests and take care of the hills," said another.

"Let's fill in the wetlands," else wherever possible so that in addition to the water in the hills, and destroying waterway breeding areas, we can cover the county with grasses."

"We need lots of roads, everywhere, so that all parts of the county are easily accessible; we must attract as many people as possible. A farming, settling population will speed up the whole process and —" The member was interrupted by the chairman.

"All our work," he broke in, "must not permit any constant coming in the county that would ruin the program. It will take some time though, and I'll entertain a motion to name our program the 'Fifty Year Plan.'"

"Won't the people object to our plan?" one member asked.

CHOOSE MODERN

If people could see automobile insurance as they are an automobile, they would then understand the wide gap between just an automobile insurance policy and the combination of Automobile Club services and the insurance by this Exchange at the Club.

A combination that has changed completely the old conception of car owners' protection; the combination that provides a wide, secure, dependable policy; that is one of the great modern developments of car ownership, and so normal to your motoring as modern tires or modern gas. Automobile protection has grown up. What do you have?

Noted outdoorsman John Allen Knight has prepared the following fisherman's table to help the best times in which to enjoy the sport.

In a good deal in keeping the bulges of small mollusks (cuttlefishes) dry. It's a simple pastime to take a small piece of tin to the tube and sitting that at the bottom of the tube. The teacher quickly to make clear the meaning of the word "mollusk" such a very that the specimen created by the "mollusk" writer and dirt from the bowl, in a hurry, say the makers.

* * *

Malcolm Edmunds, 71, and Lawrence Whitwell, 11, Portville boys, "found the unusual specimen of 'Lobster' the other day, under a step at the home of the former's grandfather. It was a seldom-seen variety, but it was a very good one, and it was a very

'MR. BASEBALL' AND HIS CAST — Ray Mellen poses with group of Romeo Little Leaguers. The baseball program he launched two years ago has grown to the point where it now has 12 teams with a total of 195 players. Mellen has been active as an umpire for the past 45 years.

Founder of Little League in Romeo Devoted to Game

By LEE WINBORN
Romeo Correspondent

ROMEO — Ray Mellen, founder of Little League baseball in Romeo, has spent most of his life promoting and working for the sport he loves. He has been an umpire for 45 years and is still at it today — at the age of 61.

Two years ago Mellen launched the Little League by knocking on doors of Romeo merchants and residents asking them to donate money for uniforms and equipment. The response was encouraging from the first, Mellen said. Now the contributions are augmented by village funds.

This summer 193 Little Leaguers were organized into 13 teams that play at Memorial Stadium and the South Grade School field throughout the week.

Mothers have changed their dinner hours to fit their sons' game schedules, and fathers have been pressed into service warming up potential Al Kalines and "Bullet Bob" Turleys.

No stranger to the sport in his youth was Romeo's former village president. When he was just 16, he pitched in the local merchants' semi-pro league. At that time he was a core maker in a Romeo foundry earning the modest sum of 65 cents a day, he recalls.

Mellen began umpiring in 1913, beginning with high school teams and continuing up to the present day for schools and leagues — both amateur and semi-professional. For seven years he has called the balls and strikes in Saskatchewan, where he and his wife, Pearl, spend their summer vacations.

"I don't get to many professional games anymore, but I used to see the Tigers at least four or five times a year," Mellen said.

Owner of a South Main street luncheon for the past 43 years, Romeo's "Mr. Baseball" is still a popular figure on diamonds throughout the southern part of Marquette in the tip of the Thumb.

A councilman for two years before becoming Romeo's village president in 1956, Mellen has always been interested in the youth of the community. He has watched his sons and hundreds of other boys in the area enjoy play-

Walled Lake Girl in Cast of Play at Northland

WALLED LAKE — A Walled Lake girl, Deborah Campanaro, 11, yesterday began rehearsals for a juvenile role in the play, "Cat on a Hot Tin Roof," to be presented by a New York troupe next week at Northland Playhouse in Southfield Township.

Deborah, daughter of Mr. and Mrs. Ernest P. Campanaro of 471 W. Walled Lake Dr., won the role during auditions this week.

Entering the sixth grade at St. Williams School this fall, Deborah has studied dramatics privately the past five years. This is her first professional appearance on the stage, her father said.

Cardinal Will Visit Dedication

Mooney to Participate in Library Ceremonies at Orchard Lake

ORCHARD LAKE — Cardinal Edward Mooney will participate in dedication ceremonies at 4:30 p.m. Tuesday of the new \$200,000 Alumni Memorial Library on the campus of the Orchard Lake schools. St. Mary's Preparatory College and St. Cyril and Methodius Seminary.

The ceremonies will highlight the 16th Biennial National Convention of the Orchard Lake Alumni Assn. Tuesday and Wednesday.

The library will be presented to the Orchard Lake schools by Walter J. Rozyczka, national president of the association and architect of the building. It will be accepted by the Rev. Wallace J. Filipowicz, rector and president of the Orchard Lake schools.

The Rev. Peter F. Walkowiak, pastor of St. Florian's Parish, Hamtramck, and the Rev. Francis P. Sokol, pastor of Sacred Heart Parish, Swedesburg, Pa., will assist the Cardinal in the ceremonies.

Guest speaker for the event will be the Rev. Monsignor Ladislav A. Sikora, pastor of St. John the Baptist Parish, Salem, Mass. Judge Frank Schemanske of Recorder's Court in Detroit will unveil a plaque memorializing the donors to the library.

With a capacity for 52,000 volumes, the building is 60 by 130 feet. Two periodical and reading rooms, a conference room, an archives, staff work room and office of the librarian are included in the structure.

The library already contains more than 25,000 volumes, an extensive compilation of current and past bound periodicals, an archives of rare books and a collection of modern and antique paintings.

A collection of Polish historical, literary, scientific and artistic works, believed to be the most extensive of its kind in the nation, also is located in the building. The contemporary style building is on the campus on Orchard Lake road.

MARJORIE L. HANLIN

The engagement of Marjorie Lestra Hanlin to Stephen H. Robinson has been announced by her parents, Mr. and Mrs. Harold Hanlin of Buchanan. The prospective bridegroom is the son of Mr. and Mrs. Dean H. Robinson of 2023 Sunnyknoll, Berkeley. The bride-elect and her fiancé are recent graduates of Albion College. An Aug. 23 wedding is being planned.

Use New Blood Test Diagnosing Cancer

BELFAST, Northern Ireland — Irish researchers have found that a modification of a blood test devised three years ago is nearly 97 per cent accurate in distinguishing cancer patients from noncancerous ones.

Known as the Makari-Huck test, it detects a distinctive protein derivative in the serum of cancer patients. Partly because it is fairly intricate to make, the test is not considered well suited for mass cancer-detection purposes, but it is well adapted for checking on patients who have been treated for cancer.

Rochester Club Slates Annual Bob-Lo Cruise

ROCHESTER — The second annual moonlight cruise to Bob-Lo Island by the Rochester Metropolitan Club will take place July 18. The group hopes to raise the attendance of last year's cruise, which was 200, to 500 this year. Buses will leave Rochester Fire Hall at 7 p.m. and the boat will leave at 9 p.m. from Detroit.

The largest ocean steamers can travel 1,000 miles up Brazil's Amazon river during the low water period.

Farmington Board Names New Township Attorney

FARMINGTON TOWNSHIP — The Farmington Township Board, meeting last night, appointed a new township attorney to succeed dismissed Arthur J. Robbins and decided to have two members of the Wayne State University Political Science Department make a study of the proposed annexation of a section of the township to the City of Farmington.

The new attorney is Joseph T. Brennan of 29549 Eastfield St.

Robbins was dropped last month by the board because it felt publicly linking an associate of his to the Wayne County Morgue scandal would reflect on the board.

Members split 4 to 3 in voting to employ Brennan.

Brennan, 32, is married and the father of two daughters. Born in Detroit, he was graduated from the University of Detroit College of Law. He was admitted to the bar in 1954, and is a member of both Oakland

and Wayne County bar associations.

Brennan was defeated in February of 1957 when he ran for justice of peace in the township.

Dr. Nicholas Masters and Dell Wright were hired to conduct an impartial study of the proposed annexation of 8½ square miles of the southwest section of the township to the city of Farmington. Their report will be completed and published by July 31, which is five

days before the election on the incorporation issue.

The purpose of the survey, the board said, is to inform citizens of the affected area of what they can expect from both city and township forms of government.

Board members believe the township can provide the same services as the city for less money. However, they emphasized that if annexation is to the advantage of the residents, they would back the proposal.

Will Introduce Oakland Youths at World Fair

LANSING (AP) — World fair visitors at Brussels will get a filmed look at Michigan hospitality to foreign students on the July 10 Michigan day.

The U.S. pavilion will show movies of the international students day held in Lansing last Feb. 27.

Another documentary will boost Michigan's big business and show what the state has to offer to industry.

The Michigan state flag will be flown in a position of honor during the day and visitors from the state will be given official tours.

Ten young people from Michigan serving as guides at the fair will be introduced.

On the scene for the event will be Joseph H. Beckman, Ludington; Sue Beebe, Owosso; Charles E. Butterworth, Royal Oak; Eugene F. Gray, Fenton; Grace H. Hayes, Kalamazoo; James A. Stevens, Battle Creek; Louis G. Sutherland, Hazel Park, and Arthur W. Boatlin and Stanley H. Reeves, both from Detroit.

'New Socialism' Urged for India

CUTTACK, India — A new type of socialism should be developed to suit India, which has declared itself in favor of a socialist government, Asoka Mehta urged in Cuttack.

He advocated "an independent socialism in India, like Israel, suited to changing conditions."

Mehta, a socialist leader, said the different sectors of economy in the country are developing in different ways, so they cannot have a refined and perfect picture of socialism.

They must consider the growing population, millions of unemployed and poor people and the right of workers to participate in the management of factories, in evolving an independent socialism, he said. They must remember the lessons of 6,000 years of Indian history.

Novi Board Studies Sanitation Ordinance

Water System Specifications Adopted

NOVI TOWNSHIP — Specifications for community water systems were adopted by the Novi Township Board at its monthly meeting Monday night in the Township Hall.

The specifications were obtained from Johnson & Anderson, Inc., Pontiac consulting engineers.

Subdivision developers will be asked to use them as a guide for the installation of water systems.

The board's action will help to protect new home buyers from purchasing a home with a substan-

dard water system, according to Hadley J. Bachert, township clerk.

Board members placed a proposed sanitation ordinance under study. The proposed ordinance is patterned after ordinances now in effect in the city of Walled Lake and Waterford Township.

In other action, the board paid for a two-way radio system which had been installed in Fire Chief Fred Loyne's personal car.

256 Registrations Reported in Avon

AVON TOWNSHIP — Mrs. Frances O. Covert, Avon township clerk, reports that 256 residents have registered for the general primary election Aug. 5, an increase over the recent school election.

Township officials are anticipating a heavy vote due to the proposal incorporation of a portion of the township as the new city of Rochester.

Extra voting machines have been rented by the township. Six will be located in both precinct 1 and 2 and four machines will be in precinct 4.

County Calendar

Leonard
The WCCB of the Leonard Methodist Church will meet at 8 p.m. Thursday at the home of Mrs. Marie Forbes, 60 Beatty St.

Orionville
Chapter 288, OES, will meet at 8 p.m. Wednesday at the Orionville Masonic Hall. Birthdays will be honored.

The band concert scheduled for Friday at Brandon has been postponed. Director Henry Wood will announce the new date later. The concert is part of the summer program sponsored by the Orionville Community Activities Committee.

New Hudson
The WCCB of the New Hudson Methodist Church will hold its annual picnic starting at noon Thursday at Kensington Methodist Park.

The Methodist Youth Fellowship group of the New Hudson Methodist Church will hold an ice cream social Friday evening at the church. The public is invited.

CAB Opens Probe of State Air Crash

WASHINGTON (U) — First testimony in a Civil Aeronautics Board inquiry into last Easter Sunday's Michigan plane crash fatal to 47 persons has put little light on the cause.

The CAB opened a formal inquiry here yesterday. Six experts were witnesses. The hearing continues today.

The crash was that of the Capital Airlines four-engine Viscount plane which fell in rain and snow on Easter Sunday night, killing all persons aboard. The ship crashed at Tri-City Airport in Midland County.

Testimony did indicate that little has been done to require airports to provide crash-fire protection. Many of the victims of the Viscount crash burned to death.

According to the experts, the British-built plane apparently crashed at a steep angle and its engines were operating at the moment of impact.

One of the witnesses was Harold A. Huyler, inspector of airworthiness for the CAB.

Huyler said there was no evidence in the Viscount's wreckage that maintenance of the plane had been other than satisfactory. He also said that from the time the

plane entered service Sept. 9, 1956, it had been properly inspected at required intervals and nothing had been found wrong.

Lions Convention Opens in Chicago

CHICAGO (U) — Lions International opened its 41st annual convention today and a mammoth parade with floats and marching bands along Michigan avenue was the day's feature event.

Some 35,000 Lions are here for the four-day convention. The first business meeting will be held tonight.

Nearly 10,000 persons were to march, twirl batons and furnish music.

The lineup consisted of 79 juvenile bands, 11 baton-twirling groups, 15 drum and bugle corps, 16 uniformed delegations and 60 floats.

Eighty bands compete in the parade for \$1,900 in prize money—\$800 for first prize, \$300 for second, \$300 third, \$200 fourth and \$100 fifth.

Alaska has been a territory for 46 years. Michigan was one for 31 years before becoming a state. Only four other territories which later became states waited as long—New Mexico 61 years; Arizona 49, Utah 44 and Washington 36.

Hollywood Headlines

High Hopes Fred Astaire Will Play Straight Role

By LOUELLA O. PARSONS

HOLLYWOOD — Others have tried and failed to get Fred Astaire in a straight dramatic role, but Stanley Kramer has high hopes that Fred will accept his offer to play an Australian naval officer in "On the Beach." This Neville Shute book gave me the blues after I read it. It's a story of what may happen if atomic bombs are dropped all over the world.

Stanley is still in Europe where he showed "The Defiant Ones," his latest picture, at the Berlin Film Festival. While he was abroad he made a side trip to Rome to talk to Ava Gardner about playing the femme lead in "On the Beach." Shocking as this book is, it may do some good.

Less Traffic Tickets Issued in Waterford

Only 82 traffic violation tickets were issued to motorists by the Waterford Township Police Department during the first six months of 1958, compared to 1,708 for a similar period of 1957.

According to a semi-annual report of Police Chief Millard J. Pender, his eight-member force answered 2,979 calls in the first half of 1958, compared to 3,698 answered by the 16 man force during the same period of 1957.

The township police force was cut in half when an attorney general's opinion ended approximately \$100,000 a year in justice court costs being returned to the township.

Waterford policemen drove 67,835 miles during the first half of 1958, compared to 152,153 miles during the same period of 1957.

Mental Health Probe Sputters in Michigan

LANSING (U) — A probing of the State Mental Health Dept. by a special Senate committee looking for governmental waste sputtered inconclusively.

For nearly four hours yesterday, Charles F. Wagg, state mental health director, and committee members sparred yesterday on the subject. The exchanges raised more questions than they answered.

Sen. Paul Younger (R-Lansing) critically questioned Wagg about figures showing Michigan spending per mental patient at \$1,494 a year exceeded the national average by \$375.

Despite this expenditure record, Younger contended, Michigan ranks far down the list in percentage of patients discharged as cured.

He cited an assertion by Dr. William Menninger of Topeka, Kans., a national authority, to the effect that the Michigan program was at a "backwoods" level.

Activate Reserve Unit

MOUNT CLEMENS (U) — Activation of the 2480th Air Reserve Training Wing was announced Tuesday by the Tenth Air Force. The wing is commanded by Col. Henry J. Y. Moss of Ferndale and will have training and administrative jurisdiction over Air Force reservists in Detroit, Grand Rapids, Fort Wayne and Chicago.

Largest island in the world is Greenland. It covers an area estimated to be about 837,300 square miles.

TODAY'S 2-MINUTE MYSTERY

THE CASE OF
ROOM 213

Third of a series

By DONALD J. SOBOL

The door to room 213 in the Logginton, a cheap Greenwich Village hotel, was unlocked. When no one answered Inspector Winters' knock, Haledjian peered in. By the dim light cast from the single table lamp, he saw a room sparsely furnished but pin neat.

Barton, the handcuffed prisoner, protested as the inspector shoved him inside. "What are you bringing me here for?" "Sit down and wait," commanded the inspector.

Presently the deaf taps of a cane could be heard, and Tom

Prait had fled in his identification?

He had a deep, low, mellow voice, and he was a man of about 40, with a thick mustache and a pair of glasses. He was wearing a dark suit and a white shirt with a dark tie. He was looking at the inspector with a serious expression.

City May Survey
Employment Here

City commissioners last night considered a survey of the city's employment record by the local Fair Employment Practices Board, after the board reported it had no complaints to investigate last year, and added that it is left with little to do except cooperate in state educational programs.

The board said a new ruling by the state attorney general Paul Adams that the state law superceded local law as far as fair employment regulations are concerned has practically eliminated their duties.

Commissioners agreed to study the FEP ordinance before discussing the survey proposal at an informal session Thursday night.

Crowded Schoolrooms
Aided by Kitchen Sink

RICHMOND, Va. (AP)—They have even tossed the kitchen sink into crowded school rooms.

Henrico County needed replacement tops for 500 old chair desks. New ones cost \$10.95 each. A fixture company offered tops from scrap left over when holes for sinks are cut in composition kitchen counters — and for \$2.35. They were in various shades of yellow, tan, red and gray but the kids don't mind.

Cowhand's Poem First

LONDON The first recorded poem in English literature, the "Song of Creation," was written about 650 A.D. by an unlettered cowhand, Caedmon, who said "voices" inspired him. This was at St. Hilda's Abbey, Whitby, Yorkshire, where he worked.

BOARDING HOUSE

OUT OUR WAY

John Morris

The blind peddler stood uncertainly in the doorway. Pratt stood uncertainly in the doorway. "Who's there?"

Inspector Winters announced himself, Dr. Haledjian, and Barton to the blind peddler.

"You startled me. I didn't expect anyone," apologized Pratt. "I was down the corridor at the washroom preparing for bed. What can I do for you, inspector?"

"At five this evening Bonwit's, the jewelry store, was robbed of two diamond necklaces by a masked man," said the inspector. "Several people saw the thief bowl into you as he ran, causing you both to fall to the pavement."

"We picked up this suspect, Benny Barton, about four blocks away. He was dressed like the holdup man, but he didn't have the diamonds on him. I was hoping that when you rolled together, you touched him sufficiently to help us with an identification."

"I'll try," replied the peddler willingly. Haledjian guided him to Barton, who stood up nervously. Tom Pratt's fingers swept surely along Barton's jacket sleeve and up to the face. Then the peddler dropped his arms.

"I'm sorry. The man who knocked me down were a tweek jacket. This feels like worsted. The bone structure of the face is similar, but the nose is different—longer, and pointed."

Barton sneered. "I told you!" "And I told you, inspector, that we'd need another pair of handcuffs," said Haledjian. "Barton undoubtedly passed the diamonds to Pratt when they fell."

Why did Haledjian believe

Synthetic Exports Rise

AKRON, Ohio — Foreign rubber fabricators bought a record 201,000 tons of synthetic rubber from United States manufacturers in 1957, or 33 per cent more than the year before.

Grain Futures Action Light

CHICAGO (U) — Activity in grain futures again was light early today on the board of trade and prices were steady to easier.

Traders said offerings were light and that there appeared to be a marked absence of any short-selling in volume, probably because of a general bearish feeling related to the winter wheat harvest and an increase in the supply of commercial corn available for delivery.

Near the end of the first hour, wheat was 1/2 cent higher, corn 1/4 cent lower, July 1.30; oats 1/4 cent lower, July 63; rye unchanged to 1/4 cent higher, July 1.24; soybeans 1/4 cent lower to 1/2 cent higher, July 12.45; and 8 cents a hundred lbs higher to 7 cents lower, July 12.45.

Government Suing Two Soap Makers

NEW YORK (UPI) — The government today filed suit against Lever Brothers Co. and the Monsanto Chemical Co. charging violation of the antitrust laws through an agreement to eliminate competition.

The Justice Department filed the civil suit in Federal District Court to force the big soap manufacturer to give up its rights to "All," a detergent acquired from Monsanto a year ago.

The complaint said Lever Brothers on May 22, 1957, acquired the trade marks, patents, copyright and other properties of "All" from the chemical firm. In return, the department said, Lever Bros. agreed to purchase Monsanto products.

The suit charged that this agreement violated the Clayton Antitrust Act by eliminating competition between Monsanto and Lever Bros. and by tending to lessen "substantially" competition in the detergent field.

As a result of the agreement, the complaint said, Monsanto was able to increase its shares of detergent sales from 5 per cent of the market to about 20 per cent.

The suit asked the court to order Lever Bros. to divest itself of the rights to the "All" detergent.

Death Costs Him \$500

DETROIT (U) — John S. Claydon, 67-year-old Detroit railroad accountant, was fined \$500 in traffic court Tuesday after pleading guilty to negligent homicide in the death of Nathaniel Holton, 72, of Taylor Center last November. Holton was struck by a car while changing a

To Be Chief Court Clerk

DETROIT (U) — John J. Ginter, 46-year-old native of Traverse City, will become chief clerk of the U.S. District Courts here Aug. 30. Ginter will succeed Frank J. Dingell, 68, who will retire. Ginter became a clerk in 1938 and chief deputy to Dingell in 1954.

Reappointed to Board

ALMA (U) — Reid Brazell, president of Leonard Refineries Inc., has been reappointed to the Military Petroleum Advisory Board by Secretary of Interior Seaton. Brazell's new three-year term runs to June 30, 1961.

MARKETS
