Wilson at Naval Review

DIGNITARIES WATCH—Secretary of Defense Charles Wilson, President Eisenhower's representative at the International Naval Review, points toward Hampton Roads after boarding the reviewing ship USS Canberra at Norfolk. With him, from left, are Adm. Jerauld Wright; Capt. C. T. Mauro of the Canberra, and Adm. Arthur Radford, chairman of the joint chiefs of staff.

Warships Break Formation After International Review

NORFOLK, Va. —Ships of the United States and 17 foreign nations broke formation today after a proud international review display that represented perhaps a final fling of military grandeur for many of them.

From the precise anchorage stations that strung them out along a double column 14 miles long they moved to close shoreside moorings.

Williams to Air School Aid Bill Plans Tonight

LANSING (AP)—Gov. Williams has been told an "impossible situation" will be created in cigarette traffic if he signs the school aid bill boosting the per package tax to five cents.

In a letter to the Governor urging a veto of the bill, Michael R. Spanio, executive secretary of the Michigan Tobacco and Candy Distributors' Assn., said the increase in Michigan tax would mean that cigarettes could be bought at a saving of \$12 a case in neighboring states.

"This is an open invitation to consumers and large scale bootleggers to revive their activities, which not only deprives us of legitimate business but also cheats the state tax collector," Spanio said.

Gov. Williams will be on TV tonight to disclose his intentions on the school aid bill, which provides for a new four per cent excise tax on whisky in addition to a cigarette tax increase.

The levies combined are expected to produce additional revenue for school aid of 25 million dollars a year.

The state tax on cigarettes now is three cents, making a total state-federal levy of 11 cents. If the bill is approved, the state tax will rise on July 1 to five cents, and total state-federal taxes to 13 cents a package.

SEATTLE (AP)—"I go to bed at night and I never wake up until morning... I've been in this for 40 years and whatever happens doesn't bother me."

It was Dave Beck, president of the International Brotherhood of Teamsters, speaking.

PRESENTS HIS SIDE

He had called newsmen in to present his side of a controversy over investment of union funds.

But after that had been disposed of, the discussion came around to more personal things.

Such as his decision to retire as union boss, after unfavorable testimony at hearings held by the Senate Rackets Committee and charges of income tax evasion filed against him in federal court in nearby Tacoma.

Fly Old Glory Friday

LANSING (AP)—Gov. Williams today called on all citizens to display the Stars and Stripes on Flag Day, June 14. In his flag day proclamation, the governor said: "All of us have a duty to pledge anew on each anniversary of Old Glory's adoption our faith in the principles for which it stands."

ster officials had persuaded him to stay on.

He said 95 per cent of his decision to not seek re-election is the ill health of Mrs. Beck.

"BOTHERS MY WIFE"

"My wife reads this stuff and it bothers her. I don't want to go through a continuous dogfight. I've reached the time when I'm entitled to say to hell with it." He pointed out he would be 63 next Sunday.

He predicted "this hysteria" would die down. "You can see what the Supreme Court is doing every time it meets," Beck said, apparently referring to a decision Monday involving use of the Fifth Amendment by a Teamster official.

The high court upheld the refusal of a Teamsters local official—Joseph Curcio of New York—to disclose the whereabouts of certain records. To require such

Board Approves

Salary Hikes, Long Contracts

Starts Court Action to Condemn 15 Lots for School Site

The contracts of the superintendent and assistant superintendent were renewed for five years with salary boosts by the Pontiac Board of Education last night.

The board voted to grant Dr. Dana P. Whitmer a contract which would raise his salary from the present \$16,500 to \$17,000 next year and \$1,000 more for each of the following four years to a maximum of \$21,000.

They also increased his expense account from \$1,500 to not less than \$2,000 for the term of the contract.

Assistant Superintendent Otto C. Hutzler received an increase from \$11,100 to \$11,600 for next year and \$1,000 a year more for the succeeding four years to a maximum of \$15,600.

In other wage action, the board approved a new salary schedule for operational personnel which included engineers, custodians and matrons.

The schedule adds 3.6 per cent to their wages to compensate for the increase in the cost of living and will cost some \$23,000 in all.

Overtime rates were set at 120 per cent of the hourly rate.

A secretarial salary schedule was also adopted which will cost some \$4,200 more in wages. The board denied the secretaries' requests for more accumulated sick leave days and four weeks vacation after 15 years employment.

The board voted to end a long drawn-out series of negotiations for a school site in the Franklin road—Fern street area by voting to seek condemnation action on 15 lots.

OFFERED AT \$630

The lots were offered to the board at around \$630 each while appraisals set the value at less than half that price.

Rev. J. Allen Parker voted against condemnation stating the board had purchased a five acre adjacent parcel without condemnation.

Other board members said the original purchase was at 12 per cent over the appraised value. (Continued on Page 2, Col. 4)

See Thunderstorms on Weather Horizon

The weather man has forecast scattered showers and thunderstorms tonight, with a low of 60 degrees.

Tomorrow's outlook is partly cloudy and mild, high of around 75.

An advance prediction from the U.S. Weather Bureau reported partly cloudy with scattered showers and little change in temperature for Saturday.

The lowest temperature recorded in downtown Pontiac preceding 8 a.m. was 60. At 1 p.m. the mercury stood at 78.

timony, the court declared, might compel the official "to convict himself out of his own mouth" contrary to the Fifth Amendment privilege against self-incrimination.

A newsman asked Beck if he "felt hurt" over "this ruckus."

The husky labor leader paused, took a deep breath, and

Indian Greet Crewmen of Mayflower II

WELCOME TO AMERICA — At Provincetown, Mass., Chief Wild Horse of the Wampanoag tribe shakes hands with crewmen of the Mayflower II at official reception upon arrival yesterday.

Inkster Soldier in Girard Case

Japanese Police Say Michigan Man Tossed Shell Casings on Range

MAEBASHI, Japan (AP)—A Japanese police officer said today a Michigan soldier has told Japanese authorities that he — not Specialist 3.C. William Girard — tossed empty shell casings onto a U. S. army range before a Japanese woman scrap collector was shot and killed Jan. 30.

The officer, who would not be quoted by name or rank, said the statement of Specialist 3. C. Victor Nickel of Inkster, Mich., that he scattered the empty shells "at Girard's suggestion" has been included in a secret police file on the shooting.

NOT IN RECORDS

Japanese court officials said it was not among court records in the case, in which Girard has been charged with "inflicting bodily injury resulting in death." Conviction could carry a sentence of up to 15 years in a Japanese prison.

The U. S. decision to turn Girard over to Japan for trial has stirred a storm of protest in the United States and court action seeking to return Girard there.

U. S. Army officials in Tokyo refused to discuss reports that Army investigators had secured a new statement from Nickel within the past few days and forwarded it to Washington.

WON'T DISCUSS

Kaname Watanabe, prosecutor who filed the indictment against Girard, refused to discuss Nickel's present position. He would neither confirm nor deny existence of any Nickel statement, although it is known that Japanese police have questioned Nickel several times and that Nickel is considered a key witness.

A Japanese scrap collector at the range said today it was "usual" for American soldiers to toss used cartridge cases to the waiting collectors.

BECK IS RESENTFUL

Beck seemed resentful that benefactors of his charities have not come publicly to defend him.

"Why don't you check with the American Legion who I helped get \$15,000 or the YWCA \$15,000, the YMCA \$17,000, the Children's Orthopedic Hospital \$15,000, or Bellarmine High School in Tacoma \$13,000 or a lot of other groups?" he asked.

As to anyone buying property in his behalf, Beck declared, "Nobody fronts for me."

But he said if a friend or as

Mayflower Reaches Plymouth Harbor

PLYMOUTH, Mass. (INS)—The sturdy sailing ship Mayflower II dropped anchor today at the entrance to Plymouth Harbor after a smooth trip across Cape Cod Bay from Provincetown.

It marked the successful culmination of her historic re-enactment of the voyage across the Atlantic Ocean of the original ship, which 337 years ago brought the Pilgrims from England to the New World.

WHISTLES, BELLS

Whistles and bells from pleasure craft which surrounded the doughty little galleon shrieked a welcome as the Mayflower II dropped anchor.

She lowered her sails at Sunset Point, on the outer entrance to Plymouth Harbor. She awaited

Arms Proposal Turned Down by Khrushchev

HELSINKI (AP)—Nikita Khrushchev today rejected Western proposals for control of disarmament and nuclear weapon production as a "screen to mask plans to continue the arms race."

However, the Soviet Communist party boss told a two-hour news conference the Soviet Union would agree to the establishment of international inspection posts in the Soviet Union, the United States, Britain and other countries if this would facilitate agreement on the banning of nuclear tests.

Khrushchev's remarks, made in answer to a reporter's questions, indicated a stiffening of the Soviet attitude of disarmament.

Khrushchev said that "no system of control can solve the problem of disarmament because it cannot prevent any state from planning aggression if it wants to."

Attorney TOLD HIM

Then the question came up of his use of the Fifth Amendment at the Senate Rackets Committee hearings. "If you answer one question, you have to answer them all and you may drag in other people... I acted on the advice of my attorney."

What will he do after retirement? "I've been successful in my personal investments," he replied. "Taking care of them will keep me busy."

Newsman pressed him to name who he believed should succeed him. Beck laughed, saying several men are capable of holding down the job. But why should he name one man and make three others angry at him?

Quiz Orion Man About Lost Girl

Search Continuing for Mary deCausin, Six, Gone All Night

DETROIT (INS)—The body of six-year-old Mary deCausin, missing from her Ecorse home for over eight hours, was found today. The cause of death was not immediately determined.

An Orion Township photographer was taken into custody by the Oakland County Sheriff's Department early this morning for questioning in connection with the appearance of the six-year-old Ecorse Township girl, Mary deCausin, late yesterday afternoon.

Orville E. Dibble, 48, of 3806 Coleport St., was picked up at his home by deputies shortly after 6 a.m. on the belief that he may be the man who the girl was last seen with, according to the sheriff's department.

Mary, the daughter of Mr. and Mrs. Edmund deCausin Jr., of 12546 Helen St., and granddaughter of Detroit Deputy Fire Chief, Edmund deCausin Sr., was last seen following a man with a pony and camera, according to latest reports issued by the Wayne County Sheriff's Department.

Dibble, thus far, is the only man in the area known to own a pony and makes a business of freelancing in neighborhoods, taking pictures of children on a pony.

Dibble was turned over to Wayne County Sheriff's Deputies. Ecorse Township Police have reported two phone calls by a man believed to be a crank, saying that the girl's body could be found "on the city dump."

Just over two years ago the body of seven-year-old Barbara Gaca, of Detroit, was found under similar circumstances in the West Bloomfield Township dump.

An army of more than 1,000, including an estimated 800 Boy Scouts and volunteers, joined police from Ecorse, Allen Park, Lincoln Park, Wyandotte, and Riverview to search for the child last night only a few hours after she failed to return home for dinner.

At daybreak the search spread through fields, swamps, and creeks in an eight-mile-square area. This morning the Michigan State Police issued a nationwide alert for the missing girl.

Mrs. deCausin told police Mary had been restricted to her backyard until yesterday, as a punishment for an incident last week when she was missing from home for three hours.

Mary is the oldest of the deCausin's four children. She had been playing in a neighbor's yard until about 5:30 p.m. and is reported to have left with an unidentified boy about five years old.

He was reported to be under instruction from Secretary of State Dulles to limit carefully his private talks with Soviet Delegate Valerian Zorin. The instructions are a result of Allied complaints and State Department fear that Stassen was going too fast in his direct discussions with the Russian representative.

He was reported to be under instruction from Secretary of State Dulles to limit carefully his private talks with Soviet Delegate Valerian Zorin. The instructions are a result of Allied complaints and State Department fear that Stassen was going too fast in his direct discussions with the Russian representative.

Ask Water Fluoridation

PAW PAW (AP)—A petition bearing 501 signatures asking that Paw Paw's village water supply be fluoridated has been presented to the village council.

Surprise Session

Leads to Accord of 2 Candidates

Schimmel, Ludy Agree to Have All Precincts Tabulated Again

A recount of all the ballots in Monday's Pontiac School District board election will be conducted next Monday by a board committee.

The decision to recount the whole district was jointly agreed upon in a surprise meeting last night of the two persons involved, Louis H. Schimmel and Lloyd R. Ludy who lost by a scant 12 votes.

Schimmel was conducting a board meeting when Ludy arrived to pick up recount petitions at the board office. Schimmel introduced himself to Ludy and took him aside for a conference in which he proposed the total recount as a mutual project.

ELIMINATE ALL DOUBTS

"We owe it to whoever is the winner to make sure that no doubts be left about his right to hold his seat," Schimmel said. "And we owe it to the people to be certain the man they want is elected."

Schimmel also pointed out a limited recount might give precinct workers in the chosen areas a feeling their accuracy was being questioned.

Ludy agreed entirely, stating he had asked for recounts in three precincts only because they were the largest and not because he had any special reason to doubt the efficiency of the count in them.

He and Schimmel agreed to each secure half the needed number of signatures on the petitions and to file them Saturday. They also agreed to split the cost of the recount which, by law, is \$5 per precinct.

Grocer in Flint Kills Girl, Self

Double Slaying Follows Argument of Couple Engaged for Year

FLINT (AP)—A 22-year-old Flint grocery store operator killed his 19-year-old girl friend last night and then shot himself fatally.

Flint Detective Francis Folaran said the body of Miss Barbara Moss was found in Kearsley Park on Flint's east side. The body of her fiancé, John W. Cooper, was found early today 200 yards from his victim.

Folaran gave this account of the apparent murder-suicide: Cooper and Miss Moss had been engaged for about a year according to relatives. They quarreled earlier this week.

LEFT TOGETHER

Last night Miss Moss went to a dance in downtown Flint. Cooper met her after the dance and the two went away together.

At 12:40 a.m., Mrs. Mildred C. Cooper, 45, Cooper's mother, called police to report her son came home and said he had just killed his girl friend.

Police began a search for Miss Moss and Cooper. Acting on a tip from Mrs. Cooper, they directed their search toward the park area.

The body of Miss Moss was found lying face down in a small creek in the park.

Police said she had suffered severe head injuries but it was not known whether she died from a beating or by drowning.

At daylight, police returned to the park and found the body of Cooper. The pistol was found beneath his body.

Flu Strikes Formosa

TAIPEI (AP)—The Formosa Health Bureau reported today that 101 persons have died in the influenza epidemic which broke out on the Chinese Nationalist island in April. The bureau said more than a million and a half persons on Formosa picked

Waterford Graduates 282 in Commencement Rites

4 Men Face Dope Charges

Arrested in Vice Raid on Club Hall Tuesday; Release 49 Others

Four local men, arrested by Pontiac Police vice squad members Tuesday night and early today, will be questioned further today on the charge of violating the state narcotic laws by possessing marihuana.

Two men were arrested following a raid Tuesday night on a local music hall. A total of 51 persons were questioned by vice squad members.

49 RELEASED
Lt. William Nesbitt, head of the vice detail, said 49 persons ranging from 14 to 37 years old, were released pending further investigation after they were picked up by a crew of 11 officers Tuesday.

Robert E. Evans, 32, of 486 Elm St., was freed on a \$500 bond yesterday after he waived examination and was bound over to Circuit Court. He appeared before Municipal Judge Cecil B. McCallum. The higher court arraignment was set for Monday.

Harry H. Hurt, 37, of 103 Fairgrove St., was also arrested Tuesday and will be questioned regarding the marihuana and cigarette paper confiscated by police at his home. Such items were also found in Evans' home.

A quantity of marihuana and a hypodermic needle were also found at the site of the raid. The Progressive Jazz Society, 337 S. Saginaw St.

The two men arrested about 3 a.m. today were Guillermo Garcia, 22, of 165 S. Parke St., and Alex V. Hernandez, 35, of 27 O'Leary St.

Lt. Nesbitt said one quarter of a pound of marihuana was found in Garcia's home and the accused had a small package containing enough marihuana for about five cigarettes on his person.

By E. H. SIMS

What does a halo around the moon mean? Does it indicate rain, weather—some say? Does it mean it is likely to rain?

A halo can, and often does, give a clue about approaching weather. A halo is formed when high, thin clouds move overhead, creating the halo effect. These high clouds are composed of ice crystals, which reflect the moon's light.

Because a warm front always moves in overhead before its mass passes over the immediate surface directly before the leading edge, one can often detect its approach, either in daylight or at night.

At night the high clouds producing the halo produce a sign of probable rain. And during most of the year the approach of a warm front will mean noticeably warmer weather ahead. So the halo often does mean that rain and warmer weather are on the way. It is one of the sky signs which can be read by careful observers—though it is not an infallible forecaster. So at times neither rain nor warm weather will follow the preceding night's halo.

The Weather

Last Money Bill Sent to House

Ups to Over \$4 Billion Total Cuts Advocated by Committee

WASHINGTON (U.P.)—The last of 12 regular appropriation bills was sent to the House today by the Appropriations Committee, which boosted to about \$4,040,000,000 total cuts it has recommended this year in presidential money requests.

The bill allots \$814,813,023 to finance government public works programs during the fiscal year starting July 1, a reduction of \$61,639,977 from the amount President Eisenhower requested. As it has on the past 11 bills, the House is expected to follow closely the committee's recommendations. Not all of the House-passed measures have been passed by the Senate, but that body has adhered generally to House figures on bills it has considered.

The goal of congressional budget-cutters this session is to cut close to five billion dollars from the President's over-all money requests totaling \$73,300,000,000.

The bill approved by the committee today provides funds for the Army Engineers' river and harbor and flood control programs, the Reclamation Bureau, the Bonneville Power Administration, the Southeastern Power Administration and the Southwestern Power Administration.

Its total is \$52,521,977 less than Congress voted for the same purposes this year.

The largest allotment of new funds, \$619,325,023, was for water resources programs.

aircraft and for a job well done. The big day—first of its kind since President Theodore Roosevelt reviewed the ships of six nations here in 1907—went off without a hitch. The sea along Hampton Roads was calm as ice and not of the same temperature.

Andy Griffith May Be World's Top Pessimist

By EARL WILSON

NEW YORK—I like Andy Griffith because he's probably the most honest, most pessimistic movie star I ever met. Could be—some folks'd say—he's too honest.

"Gonna be doing any movies this summer?" I asked Andy when we met recently, right after "A Face in the Crowd" came out.

★ ★ ★

"Nobody's offered me any movies to do," Andy said, talking just like he did in "No Time for Sergeants."

"Where you gonna be workin' then?"

"Don't look like I'm gonna be working."

I congratulated Andy on his success in "A Face in the Crowd." He thanked me, but to him the wonder of it all was that he didn't collapse of fear while making it.

"I didn't go to pieces and get sick at my stomach and all," he said.

"The greatest fear I have," Andy went on, "is of rejection. I was afraid the Hollywood crew would say, 'What's so great about that ugly New York actor?' or 'Why was his New York show such a hit?' I get so frightened that I get sick."

"Did you see 'Sergeants' when Charles Hohman took your part?" I asked Andy.

It was the wrong question.

"I saw part of it," nodded Andy gloomily. "I'm sorry to say this—but the same laughs was in it when he did it!" He sure is pessimistic.

'Beware of Wild Child' Sign Fails of Support

MADISON, Wis. (AP) — Climaxing a heated debate on the floor of the Wisconsin Legislature, Assemblyman Elmer Genzmer offered a tongue-in-cheek amendment to a

bill which sets penalties for vandalism committed by children. Under Genzmer's proposal, a child would be exempt from damages if he wore a sign reading: "Beware of Wild Child." The proposal was ruled out of order.

Mexico Hopes to Offer Good Drinking Water

MEXICO CITY (AP) — The government's department of water resources plans to spend \$16,000,000 in 1957 on giving good drinking water to more of the population.

Many, especially in small villages, now are forced to drink dirty and unhealthy water from tanks and rivers — and have to carry it long distances in some cases.

Chile's first railroads were constructed in 1850.

MIAMI — Salt-water sports fishing in Florida is a \$200,000,000-a-year industry, according to a survey by the state board of conservation and the University of Miami. The estimate was based on interviews with more than 6,000 fishermen.

Plush Dallas Apartment Building Goes Up

Texas Millionaires Find Home

DALLAS, Tex. (AP) — A 23-floor plush apartment house — designed to give the Texas millionaire the things his money has not been able to buy — may help end the housing shortage for the fabulously wealthy.

The Dicker and H. H. H. building an apartment house they say "will beat anything in New York or the West Coast."

"This apartment house will give the rich, those who have been living in huge hard-to-keep-up mansions, a place to live," said Edward T. Dicker, president of the firm.

Rents in the apartment house will range from \$350 a month for a one-bedroom layout on the lower floors to \$1,500 a month for the two penthouses, both of which are already rented although construction is far from complete.

No matter how simple the apartment, no matter how low the rent, all residents of 3525 Turtle Creek can use the swimming pool located near the putting greens, the greenhouse, if they like to raise flowers, or the night clubs if they prefer to raise Cain.

Dicker said he looked at apartment houses all over the nation before deciding on the plans for what he calls "a dream of mine for 20 years."

"The rich man has been neglected in the past 30 years. I made a survey of the nation and found that the only first-rate things being built for the rich were hotels. The rich want to get out of the big mansions after their children have married but they can't. There is no place for them to move," he said.

Dicker said he has taken care of all the housing needs of older persons in planning the apartment. No apartment is more than 30 feet from the elevator to eliminate long walks; each apartment has a shower stall, because Dicker says older persons don't like stepping over a bath tub rim; each apartment has two ovens so the cook can roast a turkey and bake a pie at the same time, and each apartment has three exposures.

The penthouses have 5,000 square feet of space. The one-bedroom apartments have 1,253 square feet of space — more space than many three-bedroom homes, Dicker said.

The three-bedroom apartments, which rent for up to \$700, have 2,627 square feet of space and Dicker says that some persons have leased two of these apartments and are having their own architects draw plans for

combining the two apartments into one huge layout.

"We have people from Fort Worth, California and New York moving here. We are getting architects from Austin, Tex., and Cleveland and other cities who are going to design apartments."

interiors for certain people," Dicker said.

The second floor will contain a recreation room with showers and a television set for servants. Maids will have a powder room on each floor for their own use. Each apartment will have a servants entrance.

HAVEN FOR MILLIONAIRES — Architect's drawing of the plush apartment house going up in Dallas. One-bedroom apartment will rent for \$350 a month; penthouse for \$1,500 a month.

Heart Murmurs Tend to Vanish Among Children

OMAHA (INS) — A child specialist in Omaha has reassuring advice for parents whose children may have heart murmurs.

Most heart murmurs or noises tend to disappear as a child grows older, Dr. Robert H. Greig said recently. Many, in fact, are merely the noises made by the workings of the heart and its valves.

"At one time or another half our children will have heart murmurs," he said, and pointed out that only a doctor can determine whether they are cause for treatment.

Some of course, may be serious. Murmurs may be caused by a deformity at birth, or result from rheumatic fever, which leaves the heart valves scarred and unable to pass sufficient blood to other parts of the body.

Many of the serious murmurs, and the ailments connected with

them, can now be corrected through surgery, he said.

"A generation ago," Dr. Greig said, "it was not uncommon to put a child to bed for weeks or months when a murmur was heard." He added that this often made invalids of children unnecessarily.

Actress Gets Break, Finds Tall Director

NEW YORK (AP) — Tall, blonde Inga Swenson has gotten her first big Broadway break by finding an even taller director.

Miss Swenson stands 5-foot-9 barefoot and was getting a complex because there aren't many roles for girls of her height.

But when an agent presented her to director Tyrone Guthrie for a tryout in the feminine lead of "The First Gentleman," she found new confidence. Guthrie stands 6-foot-5. Result: she gave a sterling reading and won the part opposite Walter Slezak—another six-footer.

Laughter Doesn't Ease Tension at Film Thrillers

NEW YORK (AP) — Laughter doesn't ease tension while watching an exciting show, says Martin Aaron.

Aaron, director of a testing laboratory, recently hooked electronic equipment to members of an audience watching a movie ("12 Angry Men") at a Broadway preview.

He reported high pulse and skin reactions continued without perceptible change when the action was relieved with humor.

Aaron also found that women react more quickly than men to dramatic situations, but that men's interest builds to a higher peak.

Hunting-Clan Air Transport, British, will carry air freight, Rhodesia to London.

Dispute Between Michigan and Ohio Brought Gen. Lee Scurrying North

ANN ARBOR (INS) — It was a "war between the states" that brought the South's famous Gen. Robert E. Lee to the Great Lakes Region in the summer of 1835.

But in this case, says F. Clever Bald of the University of Michigan Historical Collections, the "war" was between Michigan and Ohio.

Lee who was born 140 years ago this year, was called to Michigan while a lieutenant in the Army Engineer Corps. He assisted Capt. Andrew Talcott in taking observations to establish the exact boundary between Michigan and Ohio — a dispute so

heated that it later became known as the Toledo War.

Talcott had been Lee's immediate superior at Fort Monroe in Virginia when they were stationed there together for several years and were close friends.

In 1817, a boundary line had been run by a William Harris, who surveyed it according to Ohio's claim which included Toledo.

Michigan's Governor Cass complained and another line, called the Fulton line, was drawn. Ohio protested that the Fulton line was not accurately run and so Captain

Talcott was ordered to run a correct line in 1834.

He followed the Fulton line with corrections. In the summer of 1835, he came back to make some more observations and it was at that time he asked that Lee be assigned to him to help with the surveying work.

ASKS ADMISSION

Meanwhile, Michigan had asked for admission to the Union, claiming the requisite population of 60,000. Congress wouldn't consent because of the boundary problem and so the legislature, at acting Governor Mason's suggestion, been.

called a constitutional convention in the spring of 1835.

Governor Lucas of Ohio called out the militia and Governor Mason called out the Michigan militia and sent several raiding parties into Toledo.

ORDERS TERMS

Finally, Congress ordered Michigan to accept the terms of Congress by which Ohio was given the Toledo strip and Michigan as compensation, received the entire Upper Peninsula.

Angry and humiliated, Michigan called its gain of "the land of perpetual snows" an unfair deal. As it turned out, the Upper Peninsula, rich source of copper and iron and valuable tourist country, was worth far more to the state than the Toledo strip would have been.

NATIONAL SPORTING GOODS WEEK

Father's Day Is June 16!

Set records in the sports you like best with the sports name that leads the rest.

ELGIN 7 1/2 HP MOTOR
Reg. 189.95 **159.88** Easy Terms
✓ Features "instinctive control"
Full 7 1/2 horsepower motor at an unusually low price. Position of speed and shift controls gives "instinctive" control whether going forward or when pivoted for reverse operation. Either way it's easier. Gas tank extra!

12-Foot Elgin Fiberglass Boats

Easy Terms **219.95**

Lightweight, easy to carry on top of your car. Smart aqua green color. 3 big seats give plenty of room.

MAGIC COLD
Quart 44¢
Just freeze in your refrigerator and put in chest.

Deluxe Aluminum Ice Chest
J. C. Higgins **19.95**
Holds 25 pound cake of ice. Hinged reversible tray. Interior hinges. Full inch of fiberglass insulation. Save now!

Reg. 5.98 Folding Cot **\$5**
With Sturdy, Hardwood Frame
Folds into compact unit for easy packing. Ideal for camping, fishing and all other outings. Covered with durable, heavy weight jute duck. Center leg reinforced with steel.

Water Repellent Sleeping Bag
Reg. 19.95 **15.88**
Filled with extra warm virgin down. Rubberized bottom seals out dampness. Full zipper. DuPont Polyester fiber.

Sheriff's Job Is Challenged to Veteran of World War II

GOLDEN, Colo. (AP) — Uncle Sam's "one-man army of Bataan," Art Wermuth, has slowed down. He's working only 14 hours a day as sheriff of Jefferson County, a booming suburban area in the Rocky Mountain foothills west of Denver.

"I love being sheriff," says the stocky 292-pounder with crew-cut hair. He's credited with single-handedly killing 116 enemy Japanese in the Philippines during World War II.

Wermuth, 41-year-old Republican, was appointed last January to the sheriff's job after a predecessor got into income tax trouble.

If things develop like he hopes, Wermuth will seek re-election.

Wermuth's postwar career has been just as exciting as his time in Army service. During the war he won the Distinguished Service Cross, Silver Star, Bronze Star, five Purple Hearts and put in three years and four months in a Japanese war prisoner camp.

VARIED ROLES

Since August 1945 he's been an impresario of a flying circus, a drug salesman, service station operator, city marshal of Wichita, Kan., and an oil engineer in Venezuela.

After the South American venture — ended by his wife's illness — Wermuth settled at her home town of Lakewood, Colo., a Denver suburb. He prospered as an insurance salesman, built a home at Evergreen and acquired a 108-acre ranch at Conifer, Colo.

As sheriff of Jefferson County, Wermuth has a staff of 38 and jurisdiction over 12,000 square miles and 98,000 persons.

The physical dangers of law enforcement pose no problem for Wermuth, who can and did — not boastfully — says "I'm not afraid of anything."

His big goal, he says, is to straighten out juveniles who get into trouble.

Wermuth and his wife, Patricia, a former parachute jumper in his flying circus, adopted an 8-year-old boy last year and have applied for the adoption of a girl about the same age.

"Kids are great, I love 'em," he says.

Some 20 Dublin schools have the first traffic wardens in Eire.

EYES EVIDENCE—Sheriff Art Wermuth at work.

Dublin Paper Eyes Marriage Proposals

DUBLIN — In an effort to find out how an Irishman proposes to his girl—as comparatively few do, according to statistics—a Dublin newspaper asked several hundred women who will be getting married soon. Some replies: "On the top of a bus when I casually sprang the news that I was going to visit my sister in the States."

"Atop Featherbed Mountain after four hours of silent climbing and 43 chain-smoked cigarettes." "Jocosely, indiscreetly, after an office party; in a cinema to the annoyance of people around." "At dances, parties and whist parties, until he agreed to stop asking other girls as well." "At a tennis club dance, conscious of his bald spot and having first stated that bachelorhood was a fate worse than death." "His mother asked me."

The Gold Coast, Nigeria Sierra Leone and Gambia, together, shipped to Britain 872,598 tons of oil seeds, nuts and kernels in a recent 10 months—two-thirds of her needs—Accra reports.

Double-Barreled Cannon Fired in Georgia

Preserved in Athens from the Civil War is what is believed to be the only double-

barreled cannon in the world. It proved impractical because the firing of the twin barrels could not be synchronized and the cannon balls, which were chained together, broke apart and carried only a short distance.

Most Travel By Car

WASHINGTON—Recent surveys show that 83.3 per cent of the overnight trips in the United States are made by passenger cars com-

pared with 9 per cent by train, 4.9 per cent by bus, 6.1 by air, one half of one per cent by ship. This adds up to 103.8 per cent but is explained by the fact that some persons use more than one method of transportation on a trip.

Tax Collector Confirms

Suspicious of Nurse

KNOXVILLE, Tenn. (AP)—An Internal Revenue Service agent volunteered to donate blood to a hos-

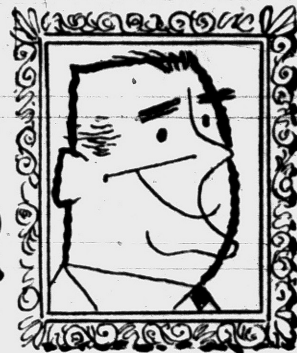

pitalized friend, and a nurse's suspicions were confirmed.

Finding the agent's temperature two degrees below normal, she refused his offer, declaring: "I always knew those tax collectors are cold-blooded."

Milford Man Builds 2nd Machine That He Can Both Drive and Fly

Dewey Bryan of Milford has built a second machine that will drive up to 60 miles an hour on the highway, unfold its wings, and "take off like a big bird," at 90 miles an hour in the air.

Because of bad weather conditions yesterday, Bryan was unable to make a test-flight of his "Auto-Plane," at Pontiac City Airport.

VISIBILITY ZERO

Officials of the Civil Aeronautics Administration, along with other investigators and interested spectators, were at the airport at 10 a.m. to witness the take-off. However, Bryan was grounded because visibility was zero.

He lives with his wife, Marie, and three daughters at 597 Skinner Rd., Milford.

Some time ago, Bryan tested a "flying-mobile" that he had put together with "baling wire, a bucket of nuts and bolts, and a pair of discarded wings off an old glider."

WEIRD LOOKING

In spite of the appearance of that weird contraption, it drove on the highway, and flew in the air and Bryan caused plenty of commotion in both places with his brain-child.

Since that time, he has learned much about automobile-plane combinations, and his firm little machine is a far-cry from the egg-crate he took off the ground more than two years ago.

The Continental A-75 engine has a 22-foot wing span. When empty, the one-seater weighs only 730 pounds, and has two nine-gallon wing-tanks for the 80-octane gasoline that is used.

CRUISING SPEED

Its cruising speed in the air is from 85 to 90 miles per hour and uses about 4 1/2 gallons of fuel in one hour. This gives Bryan a 400-mile flying range, he said.

The chassis of the Auto-Plane has a tri-cycle gear, with three small wheels for support and transportation. One big prop, mounted back of the pilot seat motivates the vehicle, both on land and in the air.

There are hydraulic brakes, and the canopy is made of plexi-glass. When on the road, the wings fold up over the propeller, which is a safety feature and the over-all height is 7 1/2 feet, while on road duty.

TOOK 2 MEN

The old model took two men, almost a half an hour to attach the awkward wings. The new "Bryan II" takes one man just six minutes to mechanically connect or disconnect the airplane wings.

It took him two years, and \$1,000 to build this new auto-plane, making it virtually impossible for mass production at the present time.

He said, "I've learned a lot with this machine, and would like to build a model for actual production, but this is as far as I can go, on my own."

Bryan works at the General Motors Proving Grounds, near Milford, and received five years of mechanical background experience when he was in the navy.

One thing bothers him. He cannot get car insurance, because it is not a car, and he can't get plane insurance, because it isn't a plane.

Agents are busy trying to figure out just how they can write up the invention that may revolutionize the entire transportation world.

Officials to Seek Hospital Fund

Commission, Trustees Meet Tonight on Ways to Get \$436,000

How to get emergency funds so as to permit completion of the new city hospital addition will be the number one problem facing city commissioners and members of Pontiac General Hospital's Board of Trustees at a joint meeting tonight.

"We will discuss ways and means of getting the money," said William P. Babcock, chairman of the board.

Babcock said that the board's first objective is to seek \$436,000 which is needed immediately so contracts for ordered equipment would not be cancelled.

The board has met, as a group and by committees, several times since the May 20 defeat of the hospital bond issue.

City Manager Walter K. Willman and Oscar Eckman, city director of finance, will attend to outline the city's financial picture.

Scoter Crash Is Fatal

DETROIT — Lawrence Smith Jr., 15, of nearby Warren, was fatally injured yesterday when his motor scooter ran into the rear of a car in suburban East Detroit.

GROUND TRANSPORTATION—Dewey Bryan demonstrates his Auto-Plane with the wings folded, ready for travel on the highways. He took two years to build the vehicle, at a cost of about \$1,000.

NOW IT'S A PLANE — With the wings unfolded, Bryan's Auto-Plane is ready for the air. The builders claim a cruising speed of from 85 to 90 miles an hour, with a flying range of about 400 miles without taking on additional fuel.

New Board Member Likes 'Pay-as-You-Go' Financing

Pontiac School District's new general design, with skylights, seems more suited for California or Florida than Michigan," he commented.

"I favor a study commission of local builders, educators, architects and laymen to advise the board on construction so we are certain to get as much building per dollar as possible," he continued.

Anderson also said he felt the board should not purchase school sites more than three years in advance. "I don't know the board's policy on this matter, but it has been said that some sites have been bought 10 years ahead of time. If this is true, I would oppose it."

On the subject of teachers' salaries, Anderson said he thought starting pay in Pontiac is too low to attract the best teachers. He

believes, too, class sizes should be reduced.

WANTS GOOD SCHOOLS
A soft-spoken, pleasant man, Anderson feels he will have little trouble in fitting in with the present board membership. "We all want the same thing, the best schools at the lowest cost," he said.

"I think new faces and new blood on the board are a good thing," he stated. "Two terms, that is eight years, seem long enough for anyone to serve. I don't think I would serve any longer than that."

Married, Anderson has two daughters, one married and the other attending Madison. He lives at 919 Spence St.

Onetime Prodigy Cleared of Charge
LOS ANGELES — Sandra Berkova Mazelle, 26, a onetime child violin prodigy, has been cleared of a narcotics charge.

Municipal Judge Louise Burke dismissed the count against her yesterday on the motion of the district attorney's office, which said it had insufficient evidence to prosecute.

Miss Mazelle was arrested May 3 by officers who said they found a cocaine prescription, issued to her, in the pocket of a male friend. She said she plans to resume her career as a violinist.

WILLIAM H. ANDERSON

Railroad Group Settles Dispute

New 3-Year Pact Ends 8 Months of Negotiation With 26 1/2-Cent Boost

CHICAGO — Major railroads and the 20,000-member Conductors Union last night settled an eight-month wage dispute with a three-year contract calling for pay hikes totaling 26 1/2 cents an hour.

The agreement was announced by the National Railway Mediation Board, after negotiations between the railroads and the Order of Railway Conductors and Brakemen.

A mediation board member, Leverett Edwards, said provisions of the new contract follow a "pattern of those accepted by unions representing about 94 per cent of all railroad employees."

Under the terms of the new contract, road conductors will receive an immediate raise of 12 1/2 cents an hour. This boost is retroactive to Nov. 1, 1956, the end of the last contract period.

An additional 7 cents hourly will be made effective Nov. 1, 1957, and another 7-cent raise will go into effect Nov. 1, 1958. The new contract also contains an escalator clause that provides for cost of living adjustments.

OVER \$600 A MONTH

Road passenger conductors averaged \$630 monthly under the previous contract. Road freight conductors earned an average of \$647.

Contract negotiations began last Oct. 17 between more than 100 carriers and the union. The union had asked a 25 per cent wage hike when it announced its requests last July 2.

Railway workers in nearly every railway terminal city in the country are affected by the agreement. Some 2,000 union members work in the Chicago area. About 1,000 each are employed on train runs from such cities as St. Louis and Buffalo, N.Y.

Traffic on Roof Makes Repairs a Tough Chore

LOS ANGELES — Joseph Petschar had a narrow escape while repairing a house roof.

He was almost hit by a car. Petschar, 72, had just climbed down from the roof yesterday when there was a terrible crash. A car landed right where he had been working moments before.

The auto belonged to Gilbert Chavez, 51, who had been visiting a home on a steep hillside street in back of the Petschar residence. The car started rolling down the hill. Chavez shouted for it to stop.

It didn't — not until it shot off a 25-foot embankment to land on Petschar's roof. No one was injured and after the excitement was over Petschar climbed back on the roof — which needed a lot of repairing.

Gold to Supervise Weed Cutting Here

The appointment of Seymour Gold of Detroit to the summer staff of the Pontiac Parks and Recreation Dept. has been announced by David R. Ewalt, department director.

Gold's primary duties will be to supervise the 1957 weed cutting program handled by the department, and to assist regular staff members in information and service requests of the public.

Gold holds a degree in parks and forestry management from Michigan State University. He will return to MSU this fall for graduate work on a scholarship from the American Institute of Parks Executives.

Disabled Vessel Wallows Helplessly

SYDNEY, Australia — A disabled British ship with 673 aboard wallowed helplessly today in heavy seas 600 miles from Wellington, New Zealand. Her main engine broke down last night.

The ship, the 8,300-ton Captain Hobson, was reported in no danger and help was on the way. The British freighter Port Macquarie was expected to take her in tow today and to reach Wellington with her by Monday.

First of 3 Youth Dances Tonight at Waterford

Three youth night dances are scheduled this summer by the Waterford Township Recreation Department. The first will be held tonight from 8 to 12, at the Community Center on Williams Lake Road.

Woman Admits Burning \$15,000 She Embezzled

LOS ANGELES — A woman bookkeeper who had a taste for "nice things" told detectives who arrested her on suspicion of embezzling \$20,000 that she spent about \$5,000 of it on clothes and a car — and buried the rest.

Miss Paige Marjorie Wright, 31, an employee of a transfer company, was quoted by officers as saying she burned the money, fearing additional spending might make her friends suspicious.

Camera Finds Man a Girl Can Look Up to

In quest of interesting personality pictures, a photographer did himself proud at MacManus, John and Adams when he shot James E. ("Mickey") McGuire and Jane Gange.

McGuire is an artist and Jane is in General Research. Jane stands four feet ten, but she creeps above the five foot mark through the feminine device of high heels.

McGuire's height often occasions speculation. When queried, the crew

at MacManus, John and Adams usually passes the question off with a glib, "Oh, he's seven feet."

This the man himself denies. "I'm no such thing," says he. "I'm only six feet eleven and a half."

There yoff have it. Four feet ten—six eleven and a half and both with a host of friends at the big advertising agency at Bloomfield Center.

Man-Made Globe Will Fly at Incredible Speed 'Moon Watch' to Track Earth Satellite

JOHANNESBURG — Twenty minutes after being fired into space from Florida, the earth's first artificial satellite will move across the African skies.

And within minutes from the time the small globe roars into the heavens, an 80-man Moon Watch team will be on the job in this area.

The subcontinent of Africa will be the first country the satellite will pass over in free flight around the earth. Takeoff date for the flight is still unscheduled.

Calculations made by the Moon Watch team at the start and finish of the great experiment will be of utmost importance to the project.

Although the satellite will be equipped with a tiny radio transmitter, Minitrack, with a life-span of two weeks, scientists are dubious of Minitrack's chances of surviving the launching blast.

This is where Operation Moon Watch comes into the picture in South Africa.

To permit precision cameras to record the transit of the man-made moon, a definite orbit must be supplied to astronomers manning the cameras.

Observations necessary to calculate this orbit will be supplied by teams at Cape Town, Bloemfontein, Pretoria and Johannesburg—and by Minitrack, if it survives the takeoff.

Working Hard, Says Johnson Congress Isn't 'Slow'

WASHINGTON — Sen. Lyndon B. Johnson (D-Tex.) said today the congressional session "has now entered the payoff stage."

"The months that have been spent in careful, thorough committee work are now paying off in terms of rapid, decisive action," the Senate majority leader said in an interview.

Johnson obviously was hitting back at recent comments by Eisenhower administration spokesmen that the Democratic-controlled Congress had been lagging on parts of the Eisenhower program.

The equipment to be used for precision optical tracking will be furnished in America by electronic Schmidt camera on loan from the U.S. National Committee for the International Geophysical Year.

The international radio station midway between Johannesburg and Pretoria, at Olifantsfontein, has been selected as the site for the Schmidt camera.

Once the orbit has been established in America by electronic computers on information supplied by Moon Watch teams, the Schmidt camera will swing into position.

Observation—by the teams and the camera—will only be possible at dawn and dusk, when the satellite can be viewed through darkness while the sun's rays are still on the small sphere.

WASHINGTON — Sen. Lyndon B. Johnson (D-Tex.) said today the congressional session "has now entered the payoff stage."

"The months that have been spent in careful, thorough committee work are now paying off in terms of rapid, decisive action," the Senate majority leader said in an interview.

Johnson obviously was hitting back at recent comments by Eisenhower administration spokesmen that the Democratic-controlled Congress had been lagging on parts of the Eisenhower program.

He noted that the Senate had passed four major appropriations bills this week and said it will take prompt action on other money bills.

George Hospitalized With Heart Ailment

ATLANTA — Walter F. George, President Eisenhower's special ambassador to NATO and a former Georgia senator, is in serious condition with a coronary disease at Emory University Hospital.

An attending physician said the 79-year-old statesman was suffering with "coronary atherosclerosis, or hardening of the coronary artery which nourishes the heart."

The physician, who asked that his name not be used, said George was receiving anticoagulants, drugs used to prevent the blood from forming clots.

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

TOLEDO—Every year when the National Open rolls around, one question always pops up. It goes something like, "Will this be Sam Snead's year?"

Snead is like the Major League slugger who leads in every department, then fails to connect in some big event like the All-Star game. He has won every major golf tournament worth mentioning, yet his record for the National Open stands at 0-for-16.

There were times when "Slammin' Sam" seemed almost sure of breaking the jinx, but on each instance some run of bad luck or one pesky hole scuttled his title chances.

Most famous fizzle for Snead came in the 1939 Open at Philadelphia. All he had to do was to gain a par-5 on the 18th to win. A bogey 6 would have tied him with Nelson, Craig Wood, and Denny Shute, all finishers with 284.

"That day I wished I had an ax and a sharp razor blade in my bag," said Snead. "I would have used the ax on the writer who persisted that I tell him about the 8 I took, and I would have used the blade on myself."

As a result Nelson won the Open in two playoff rounds. He and Wood fired 68's on the first 18 holes and in the second round, Nelson shot a 70 as Craig took 73.

Actually, Snead's tough luck started in his first Open he entered at Oakland Hills in 1937. That year he roared back after a poor start to finish with 283 for the lead.

Ralph Guldahl who was tied with Snead after 54 holes with 212, started out badly on the first few holes of the last round and it looked like Sam had it.

At the 8th hole, someone told Guldahl he had to have a 70 to win. He proceeded to par the next three holes, and on the 12th his approach went into the crowd and it looked like the end for Guldahl as he bogeyed. After another par, he then eagled and birdied the rest of the way to beat Snead by two strokes, finishing with 281.

Sam did finish first in one category that year at Oakland Hills, he and Wood were the best dressed men in the tournament and they split \$500.

Another photo finish loss was the 1947 Open at the Riviera in Los Angeles. He and Lew Worsham finished regulation play in a 282 tie.

In the playoff round, Worsham shot a 69 and Snead's chance to tie was only 30 inches from the cup. The ball rimmed the cup and again he finished second best.

Another near miss in 1949 squelched the opportunity to tie Cary Middlecoff, and he and Clayton Heafner finished in a second place tie.

So, when Sam tees off this afternoon in the opening round of the 57th National Open, a huge gallery of sentimental well wishers is expected to stand by the 45-year-old West Virginian as he makes his 17th bid.

NL Consecutive Game Record Set by Musial

PHILADELPHIA (AP)—Stan (The Man) Musial continues to break records, but remains unimpressed with his varied baseball talents. Musial appeared at Connie Mack Stadium last night in his 23rd consecutive game, setting a National League record—and promptly slashed out a single for the first hit of the ball game. The Cards later won, 4-0, from the Philadelphia Phillies.

He's been setting these records almost as long as he's been getting those hits. But the boredom of repetition isn't the reason Stan takes record breaking and other honors in stride. It's just his nature to be the quiet unassuming, likeable person that he is.

At a post-game party in the Cardinal club house honoring their favorite teammate, someone asked:

"What's the difference between this game and the first one you ever played?"

"In this one," came the typical Musial reply, "I wasn't nervous."

Photographers asked him to pose over a display of baseballs spelling out the number "823."

"Take a position like you were going to bunt," one of them called to the league batting champion many times over.

"Bunt!" he shouted in mock outrage, "I'm no bunter."

Musial's appearance last night broke a record set by Gus Suhr, former Pittsburgh first baseman, between 1931 and 1937. Stan started his current string on opening day of the 1952 season.

The genial Redbird now ranks fifth among the all-time iron men of the majors behind the immortal Lou Gehrig, who had a record of 2,130 consecutive appearances. Everett Scott, Joe Sewell and Eddie Yost.

Gehrig didn't miss a game in 13 consecutive seasons. Musial has played in nine full seasons and has appeared in 2,192 of his team's 2,228 games since he joined the club 14 years ago.

He needs only seven more hits to pass Yost's record and have his fourth place.

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

TOLEDO—The "magical" names of golf, Sam Snead, Cary Middlecoff and Jack Burke, and Doug Ford of the younger set had the galleries waiting for them at tee-off time as the 57th U.S. Open Championship got under way today at Inverness Country Club.

The threat of rain, which hampered practice rounds earlier this week, diminished and the weatherman predicted temperatures would reach 80 degrees by mid-afternoon. There was, however, a forecast for showers late today.

Along with the fears of rain, many of the entries have picked up the slogan "pick a hole and weep."

This has stemmed from the many changes which were made by USGA golf architect—Robert Trent Jones to the Inverness course. The USGA feels that the few added bunkers and narrowed fairways should offer no great difficulties to the better golfers.

Middlecoff and Snead both picked the 12th as the hole which may make them weep. It is a par-5 measuring 527 yards and the fairway undulates 250 yards from the tee, giving the long drivers lies on the sidehills. About 150 yards

farther a ditch crosses the fairway and then 60 yards of high grass fronts the heavily trapped green.

"Someone will have to be hot to birdie this hole," said Middlecoff.

Wally Burkemo, one of Michigan's representative pros, figures after a couple practice rounds that his "wail and weep" hole is the 14th, a par-4, 479 yarder with a tight fairway and heavily trapped green.

Along with the 14th, the rugged par-4 holes where experts figure the tournament could be decided are the 4th, 5th and 15th, all long, narrow, tricky and heavily trapped.

The first big threesome moved out at 9:36 this morning. The gallery moved out with Ted Kroll and Gene Littler. Kroll was last year's top money winner after his Tam O'Shanter victory in Chicago, and Littler has been known especially for his three straight Tournament of Champions' title in Las Vegas.

Rochester Golf and Country Club pro Jack Fleck, the surprise Open Champion of 1955, left the starting tee at 10 a.m. With him were Peter Thomson, three time British Open champion from Melbourne, Australia, and Jimmy Demaret, the old pro who figures this has

to be his year, as it may be his last.

The Fleck, Thompson-Demaret trio gave the first hole gallery a thrill. Demaret sunk a 25-foot putt for a birdie 3. Thompson followed with a 50-footer, also for a birdie, and then Fleck just missed his birdie by a foot. He took a par four.

Thomson has been chosen by many as best choice from among the younger set to win the title.

Franklin Hills pro Burkemo was slated at the first tee at 12:40 with amateur champion Harvie Ward and Masters' champ Doug Ford in his three-some.

The late starter among the Michigan contingent is Forest Lake's Bob Gajda who was not scheduled to tee-off until 3:04 p.m.

Friday, Fleck and trio will start at 1:36 p.m., Burkemo at 9:04 a.m.

and Gajda at 11:28.

First objective of the field of 128 pros and 34 amateurs touring the 34-hole layout of 6,919 yards will be to get into Saturday's finals.

Only the top 50, including ties, will enter the finals, and from 4 p.m. to 6 p.m. the television cameras will be parked on the 18th hole to catch finalists and champion coming in.

AP Wirephoto

LAST MINUTE TUNEUP—Dr. Cary Middlecoff blasts a tee shot at Toledo's Inverness CC, in a last minute tuneup for the U. S. Open tournament that began today. Middlecoff was one of many Open contenders who practiced until near dusk, yesterday. Shown under Middlecoff's club is another entry, Shelly Mayfield of Jericho, N. Y.

But Chisox Nip Yanks 7-6

Mantle Blasts Two Long Homers

CHICAGO (AP)—Thousands of fans filed out of Comiskey Park early today shivering because of the two-hour chill and the awesome display of power by Mickey Mantle.

The Chicago White Sox won the marathon game from the New York Yankees, 7-6, and stretched

their American League lead over the Yankees to five games, but Mantle stole the slugging show.

Mighty Mickey was terrific. He sent a mass shudder through the crowd of 40,033 in the ninth by blasting a two-run, 425-foot homer into the center-field bullpen that left the Yankees just one run behind.

Bragan Praises Thomas for New Pirate Surge

PITTSBURGH (AP)—Manager Bobby Bragan said today the main reason his hustlin' Pittsburgh Pirates have beaten the Cincinnati Redlegs three consecutive times is Frank Thomas who he called "one of the most versatile and best players in the majors."

"The worm is turning just a little," said Bragan. "We're getting a few breaks that went the other way earlier in the season. Now we've tied our season's longest winning streak at four games and one of the big reasons is Thomas."

In last night's game, won by the Pirates 4-3 in 10 innings, Thomas had two singles in three times at bat to boost his batting average to .338, fifth best in the National League. His hits drove in two runs to give him a total of 29 RBIs.

"And look what he did in the 10th when Dee Fondy got a leadoff walk," Bragan continued. "I knew

White's Club Downs Gidley 9 at Drayton

White Brothers scored twice in the first inning and went on to defeat Gidley Electric 4-1 in Waterford League softball action last night at Drayton Plains.

A two-base error, an infield single, a wild pitch and Monty Tipton's triple in the opening stanza gave White enough for victory. Bernie LaRue protected the lead with his steady four-hit pitching.

Drayton Drug meets Weldon-Thirty at 7 o'clock and Lakeland Pharmacy faces front-running Emmanuel Baptist at 8:30 in tonight's league games.

WEDNESDAY'S HOME RUNS
Mars, Glenn, Nienan, Boyd, Orioles; Porter, Tiers, Blasingame, Ehlers, Cardinals; Torre, Matthews, Aaron, Braves; Neal, Duggers, Sievers, Senators; Smith, Zernial, Athletics; Mantle, 2, Yankees; Bauer, Yankees; Dropp, Rivers, White Sox.

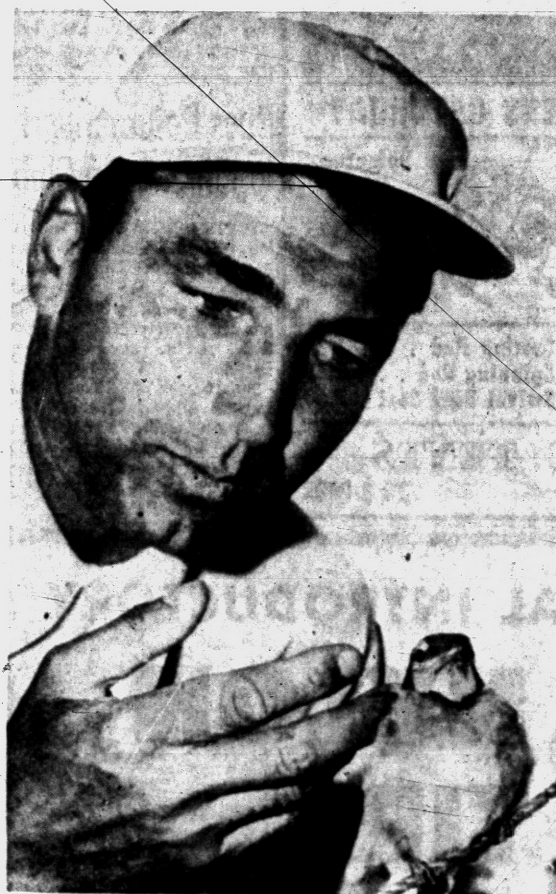

No Racing at Yonkers

NEW YORK (AP)—Hopes that there will be racing at Yonkers Raceway Friday night dimmed early today when negotiations between the trotting track officials and the Standardbred Owners Assn. (SOA) broke down completely.

Hogan Stricken With Ailment, Quits Tourney

Seven Champions Seek Repeat Triumphs Over Tough Toledo Course

TOLEDO, Ohio (AP)—Ben Hogan was stricken shortly before his scheduled 9:36 a.m. (EST) tee-off in the National Open Golf Tournament. After a 54-minute delay for medical treatment, he withdrew.

TOLEDO, Ohio (AP)—Amid some murmuring among the athletes about closely cropped greens and uncropped rough, a field of 161 started today in quest of the 57th National Open Golf Championship at historic Inverness Club.

Seven champions were on hand. The others ranged in age from 17-year-old amateur Jackie Nicklaus of Columbus, Ohio, to 62-year-old wee Bobby Cruikshank of Pittsburgh, who tied for the title 34 years ago but lost the play-off to Bobby Jones.

The Inverness course measures 6,919 yards of treacherous terrain, windswept as a rule, and studded with 117 traps and hundreds of trees. A small stream meanders across seven fairways.

"Old Man Par" is 70. But the experts are picking him to whip the field.

Everyone seems to think the new champ, at the end of the 72-hole medal play test which winds up with Saturday's 36-hole marathon, will come from a talented bracket including four-time runner-up Sam Snead, Masters champion Doug Ford, PGA champion Jack Burke whose dad tied for second here 37 years ago, and Peter Thomson of Australia, three time winner of the British Open.

The big hazard is the small and slick putting surfaces. In yesterday's last free fling around the course, most of the field failed to find the answers.

One pro, after three-putting from 12 feet, said: "The best way to handle these greens is to hold the putter a bit above and behind the ball, then tap the ball lightly with the shadow."

Longest overtime game in Stanley Cup history was played March 24, 1936 at Montreal with Detroit qualifiers will make up the championship flight.

112 Teams Start Firing in Pine Lake Tourney

Despite threats of rain, the 8th annual Pine Lake Invitational golf tournament got under way today with 18-hole qualifying rounds at Pine Lake Country Club.

A total of 112 two-man teams started firing in the qualifiers this morning to determine seven flights of 16 teams apiece for match play which begins tomorrow.

The tournament is conducted on a selective drive-alternate shot basis.

Single 18-hole rounds of match play in all flights will be held Friday and Saturday, with the 18-hole semifinals and finals scheduled Sunday.

The defending champions in the championship flight, Joe Grace of Detroit Golf Club and Howie Neilson of Pine Lake, are again on the firing line, along with last year's runner-up team of Bill Pettibone and Bill Nettie.

Bob Babbish and Bill O'Brien comprise the surprise team in the tourney. Babbish was one of four amateurs who qualified for the National Open at Toledo, but he elected to skip the Lake event.

Record-Breaking Class to Hear Potter Speak

KALAMAZOO — A class of record-breaking size will hear U.S. Sen. Charles E. Potter (R-Mich.) at Western Michigan University's commencement Saturday morning.

A group of 30 young men and women, who have degrees and certificates, will be granted a "university" diploma. Exercises will be held in the stadium if the weather is favorable. The Central High School auditorium.

Boy Remains in Coma From Sleeping Sickness

ANN ARBOR — An Upper Peninsula youngster, who has contracted sleeping sickness, remained in a coma today at University Hospital in Ann Arbor.

A hospital spokesman said last night that 9-year-old Charles Caynus of Alston, Houghton County, was on "the danger list" in "critical condition." The spokesman said the boy fails

to recognize anyone and does not respond to voices. Doctors said Charles is suffering from encephalitis, more commonly known as sleeping sickness or brain fever. They could not predict when he would come out of the coma.

Report Busy Ore Week

CLEVELAND — Iron ore shipments from upper Great Lakes ports exceeded three million tons in the week ended yesterday, the Lake Superior Iron Ore Assn. reported yesterday. Shipments of 3,

062,342 tons, compared with 2,981,287 in the similar week of 1956. This season's total tonnage to 21,062,228, which is about 1,200,000 tons under a year ago.

America's truck fleet has more than doubled since 1940.
