

Castro Names New Cuban President

94 Killed in Traffic in County Last Year

Ninety-four persons died in traffic accidents last year in Oakland County.

The 1958 toll, according to unofficial totals recorded throughout the year by The Pontiac Press, was the lowest since 1949. That year 88 lives were claimed on streets and roads in the county.

Nine Lose Lives in State Traffic

U.S. Holiday Weekend Toll Raising to Record as Ice Creates Hazard

Traffic	143
Fires	24
Miscellaneous	36
Total	203

From Our News Wires

Hazardous weather was a factor in several of nine traffic deaths in Michigan, and was blamed for a record-breaking fatality rate on the nation's highways in this New Year's holiday period.

The death toll rate was running ahead of the record total of 409 set in the four-day New Year holiday of 1956-57. It also was at a faster rate than the National Safety Council's pre-holiday estimate of 390 deaths for the 102-hour period.

"The weather is bad," the National Safety Council observed, "but the toll is worse."

The spurt in highway fatalities began New Year's Day after motorists had posted a relatively safe driving record on New Year's Eve. California, which had the highest traffic toll among the states during the Christmas holiday, again led the nation with 13. New York had 12, Pennsylvania and Wisconsin 10 each, and Illinois and Michigan 9 each.

An automobile which spun out of control on ice-covered M13 west of Flint killed three persons when it hit a roadside tree, and caused Michigan's toll to nine late Thursday.

A few hours earlier, a man had been fatally injured in the Flint area in a three-car pileup blamed on skidding on a patch of ice on U.S. 10.

Despite continued hazardous driving conditions, eased somewhat by thawing temperatures, no one was reported killed overnight or well into mid-morning today on Michigan highways.

At least 28 persons—12 of them children—died in fires or explosions on New Year's Eve and the start of the holiday weekend. Fires claimed 24 lives.

Cuba Rebels Arrest Three AP Newsmen

HAVANA, Cuba (AP)—Armed Cuban rebels fired today on the Havana Post building and arrested three Associated Press staffers.

Those herded out of the building at gunpoint were George Kaufman, chief of the Havana AP bureau, a Cuban national; Larry Allen, roving AP correspondent who has been covering the Cuban revolution; and Harold Valentine, AP photographer from Miami.

The rebels told the group only that they were taking them to jail for questioning.

Reds Overture Castro

MOSCOW (AP)—The possibility that the Soviet Union might establish diplomatic relations with the regime of Cuban rebel chief Fidel Castro emerged today. The Soviets had no relations with deposed President Fulgencio Batista.

What A Way to Begin the New Year

1959 SLITHERS IN — Oakland County's New Year was ushered in at midnight on a double platform of slippery, slicked-up ice that made locomotion almost impossible. Tens of thousands of residents who ventured out after the witching hour of twelve encountered the worst underfoot conditions in local history. Miles and miles of roads like this stretch of Baldwin avenue were absolutely impassable and thousands of motorists were stranded for hours. Many of them abandoned their motorcars and slid home on foot as best they could. Others waited with varying

degrees of patience for succor. Salt trucks and wreckers were practically the only salvation and while Oakland County authorities insist every vehicle at their disposal was tossed into the melee, the total was woefully inadequate. Wreckers were at a premium. Calls swamped the AAA and other relief agencies beyond anything ever known. Laterally, tens of thousands of Oakland County residents spent most of the night at the point of celebration after one of their number discovered outside conditions were impassable.

Pontiac Press Photo

On Frigid 30 M. P. H. Winds

Cold Racing for Pontiac Area

A snow-filled cold wave was sweeping toward Pontiac today on the heels of the worst Jan. 1 traffic conditions in years.

Racing in on chilling 30-mile-an-hour winds, the frigid weather probably will arrive tonight, the weatherman said, plunging temperatures to at least 15 degrees and possibly as low as zero.

By morning, U.S. forecasters predict, thermometers will have

skidded into the zero to 15-degree range throughout the Lower Peninsula and into zero and below levels in the Upper.

Snow flurries or squalls are forecast everywhere.

The cold wave may last as long as five days, the Weather Bureau predicted, with temperatures averaging 10 to 15 degrees below normal.

The Automobile Club of Michigan warned that motorists should be extremely cautious on all roads in the state.

ROADS SLIPPERY

Most roads are slippery, the Auto Club said, and driving conditions may become worse if dropping temperatures turn puddles of water on highways into ice.

A mild, 40-degree afternoon yesterday helped Pontiac and Oakland County relax from the glazing freeze that made roads and highways treacherously dangerous for both motorists and pedestrians.

Thousands of New Year's celebrators, trapped all night at parties or homes of friends, were able to return home after the thaw made driving possible again.

Side streets and gravel roads were still slippery today, the Oakland County Road Commission reported, but paved and blacktopped highways were in good shape.

BEWARE ICY PATCHES

However, there were some spots of ice on the highways this morning and others might appear if it gets cold, the commission warned.

The road commission was sanding many subdivision streets, especially those that are hilly.

"Where there are hills, people simply can't drive to and from their homes," a spokesman for the road commission said.

Law enforcement agencies and hospitals reported many employees worked double shifts yesterday because their reliefs were unable to get to work.

Some St. Joseph Mercy Hospital nurses worked 26 straight hours, the hospital said.

The Weather Bureau predicted today's high temperature would reach 36 degrees, tonight's low 15 or lower, and tomorrow's high 18.

Snow flurries and northwesterly winds were forecast for tonight and considerable cloudiness and frequent snow flurries tomorrow.

Twenty-nine was the lowest recorded temperature in downtown Pontiac preceding 8 a.m. The reading at 1 p.m. was 35.

Excellent Year Predicted for Pontiacs by Knudsen

"Continuation of our current sales trend will make 1959 an excellent year for Pontiac," S. E. Knudsen, GM vice president and general manager of Pontiac Motor Division, said in a year-end statement today.

From the time 1959 model production began in the fall until the end of this year, Pontiac produced over 82,000 new cars, or 38 per cent of the entire 1958 model production, Knudsen revealed. Had it not been for lengthy labor negotiations the figure would undoubtedly have been higher, he said.

"Our continually brightening sales picture reflects the extraordinary public acceptance being enjoyed by Pontiac," Knudsen said.

Although Pontiac production remains at peak levels there is still a backlog of nearly 24,000 unfilled customer orders as sales continue to rise, Knudsen disclosed. Added strength for automobile sales is found in the fact that demand and prices for used Pontiacs have remained at high levels, he said.

"Knudsen pointed out that the overall economy has been substantially bolstered by the three years of labor peace that lie ahead for the auto industry.

Personal savings and personal incomes are at record levels, placing more and more people in a position to buy, particularly the many thousands who put off buying a new car in 1958.

Knudsen said there is increasing evidence of better business in general, causing a continual swing toward a solid prosperity across the country.

Thanks, Governor, but...

LANSING (UPI)—Gov. G. Mennen Williams, a non-smoker, presented a cigarette case to Democratic National Chairman Paul Butler yesterday as a token of his appreciation for Butler's participation in Williams' sixth inaugural. Butler doesn't smoke, either.

Ice No Problem Here

SKATES AROUND ROUTE — Yesterday's icy sidewalks and streets were no great problem for Pontiac Press carrier Danny Scott. He donned his ice skates and glided from house-to-house, delivering papers on his W. Longfellow street route. Danny, 14, lives at 49 E. Tennyson St.

Hayhow, Gillespie File Minority Dissent

Present Tax Committee Report

Rejecting the philosophy and much of the detail of the majority, two members of the Michigan Citizens Tax Advisory Committee today filed a minority report.

The dissenters are Tyrone Gillespie, Midland, and E. C. Hayhow, Hillsdale.

"We cannot subscribe to a program which has the redistribution of wealth, earnings and income as its objective," their report stated.

"This thinking too strongly follows the majority recommendation which tries to kill the incentive to compete and succeed. This has heretofore been the motive power for this state's industrial success."

"We object to the majority pro-

posal which we feel to be an attempt to remove from the local tax base as much revenue as possible and replace the lost revenue with state aid," the dissenting report said.

"This denies the American principle of keeping government and its taxing and spending powers as close as possible to the home unit."

The majority successfully met only one of four committee objectives, the minority contends. This was in the field of raising taxes where, the minority commented, the majority "has done well."

On the positive side, the minority report makes the following major recommendations:

1. A flat rate personal and corporate income tax at a maximum

rate of 2 per cent. Recognizing the serious problems of local units of government, the minority suggests legislation permitting local units to levy an additional income tax in an amount not to exceed 1 per cent in each county.

2. Repeal of the Intangibles Tax and the Business Activities Tax.

3. Retention of the Personal Property Tax in its present form with improvement in the assessment process.

4. An amendment to the Sales Tax (Continued on Page 2, Col. 7)

Manuel Urrutia Chosen as Chief by Rebel Leader

Santiago to Be Capital, General Strike Ordered Till New Man Installed

By LARRY ALLEN and GEORGE KAUFMAN

HAVANA (AP)—With all Cuba virtually in his hands, rebel leader Fidel Castro today triumphantly proclaimed his native Santiago as the nation's provisional capital and named Manuel Urrutia as provisional president.

While Castro's success in his 25-month-old rebellion seemed close to complete, he still must bring his off-proclaimed choice to Havana and install him in the presidential palace from which dictator Fulgencio Batista fled Thursday.

To install Urrutia in the capital, Castro ordered a mass public demonstration in Havana's Central Park at 4 p.m. today.

The country will remain in a state of paralysis from a general strike ordered by Castro until Urrutia takes over in Havana.

Castro spoke just before dawn to a huge crowd in Santiago, the

Related Stories on Pages 2, 8

capital of easternmost Oriente province, after a parade of orators had hailed his leadership and his selection of Urrutia.

Castro said the road to Santiago, occupied Thursday after the defending garrison surrendered, had been a long and hard one. He called Santiago "the strongest fortress of the revolution" and said its triumph was being crowned by making it the provisional capital for some 13 hours, until he and Urrutia go to Havana.

Castro's supporters controlled all communications and every radio broadcast referred to Urrutia as "provisional president of Cuba."

EXILE RETURNS
Former President Carlos Prío Socarras, an exile in Miami since Batista ousted him by military (Continued on Page 2, Col. 5)

Castro to Grab U.S. Utilities, Sugar Estates?

HAVANA (AP)—Rebel leader Fidel Castro's last announced platform calls for the nationalization of American utilities and sugar estates in Cuba.

The bearded guerrilla chieftain published his program in 1955, while in exile in Mexico. It called for:

1. Nationalization of U. S. financed and operated utilities in Cuba and division of American-owned sugar estates among Cuban peasants.

2. Confiscation of all properties acquired through "corrupt government."

3. Distribution of 30 per cent of all industrial and utility enterprises to Cuban workers.

4. A public housing and rural electrification program.

5. Liberation of Cuba "from the egotistical interests of half a dozen businessmen."

6. A speed up of industrialization and increased social security.

Castro never doubted he would win the victory over strongman Fulgencio Batista.

January Car Output Up 22 Pct. Over '58

DETROIT (AP)—Ward's Automotive Reports said today the auto industry plans to build 22 per cent more cars this month than in January 1958.

The total for the month should reach 595,000 passenger cars, the agency said, against 489,357 in the same month a year ago.

Ward's reported the current week's production at 97,819 cars compared with 104,907 last week and 76,633 in the similar week last year. Truck production was estimated at 13,480 this week, 15,212 last week and 12,817 a year ago.

Ward's said the continued high production rate will mean daily and Saturday overtime and noted that Cadillac, Lincoln, Rambler and Studebaker plus four of 13 Ford division factories have overtime scheduled tomorrow.

AP Wirephoto

MANUEL URRUTIA

No Training Meant Loss, Says Batista

CIUDAD TRUJILLO, Dominican Republic (UPI)—Ousted Cuban Director Fulgencio Batista blames his defeat on the fact his troops were not trained for guerrilla warfare.

Batista flew here with high government leaders and members of his family early yesterday and checked into the luxurious Ambassador Hotel.

Asked how such a small group of rebels could have successfully fought the Cuban Army, Batista explained to newsmen yesterday: "Their (the rebels') first opponents were soldiers of the rural guard who were not prepared for guerrilla warfare."

"When the rebels expanded their operations and met the army in open battle they were well armed and their weapons were superior to ours."

SENDS FIRST LETTER ON WAY — Postmaster Arthur H. Weitschat dispatches the first letter from the new post office in Lake Orion which opened for the first time this morning. The modernistic building is located at 146 S. Broadway St.

Two Race Stork Over Icy Roads

LAKEVILLE — The odds appeared to be stacked against a young Lake Orion couple who left home early yesterday morning for Bishop Hospital, Almont, in a race with the stork over ice-glazed roads.

Mr. and Mrs. Richard Bays of 711 Birmingham Dr. left home shortly after midnight and got as far as Lakeville before hazardous road conditions forced them to seek help. They stopped at the Lakeville Tavern and an ambulance was summoned from Lake Orion.

When the ambulance failed to arrive within a half hour, people in the tavern sent for an Oakland County sand truck. They learned that the vehicle turned over in a ditch when trying to make it to the tavern. Another truck was sent by a different route.

In the meantime the impatient father decided to make arrangements to have his wife put up at a Lakeville home for the night.

The home where they stayed

from 3:15 to 10 a.m. yesterday belongs to Mr. and Mrs. Adam Lupp, 1609 Rochester Rd. Mrs. Lupp sent for Mrs. Vincent Rehwoldt, a registered nurse who lives nearby.

The nurse stayed with the prospective mother through the rest of the night, in the absence of a doctor in this small community.

The young couple were able to leave at 10 a.m. for the hospital in Almont, about 20 miles away.

Mrs. Bays gave birth to a six-pound, nine-ounce son, yet unnamed at 8 last night.

Clarkston Girl Engaged

CLARKSTON—Mr. and Mrs. Rollin D. Vess of 8950 Clarridge Rd. announce the engagement of their daughter, Nola Eileen to Pfc. Dennis G. Gritzinger. He is the son of Mr. and Mrs. Fred W. Gritzinger of 8715 Bridge Lake Rd. No date yet has been set for the wedding.

Benson Sees '59 Farm Price Dip

(The following summary of agriculture developments in 1958 and the prospects for 1959 was written for UPI by Ezra Taft Benson, U.S. Secretary of Agriculture.)

By EZRA TAIT BENSON
Secretary of Agriculture
(Written for United Press International)

The realized net income of farm operators in 1958 rose about 20 per cent above 1957 to the highest point in five years.

The prices that farmers received for their products averaged five per cent above 1957 and were also the highest in five years.

The value of farm assets, the proportion of farms owned by their operators and the farm standard of living were all higher in 1958 than ever before.

The Agricultural Act of 1958 provides more freedom for corn, cotton and rice producers to plant, market, compete and make their own decisions.

Corn producers took advantage of the act to vote almost 3 to 1 in favor of eliminating corn acreage allotments and accept-

ing realistic price supports in the referendum of Nov. 25.

The national wool program, the special milk program, the Agricultural Trade Development and Assistance Act were all extended by legislation in 1958. Nothing was done, however, to provide sounder legislation for wheat, tobacco and peanuts.

New emphasis is being placed on the conservation reserve. If preliminary indications are borne out, there will be almost as many acres in the conservation reserve in 1959 as there were in both the acreage and conservation reserves in 1958.

South Lyon Chamber Picks New Officers

SOUTH LYON — The Chamber of Commerce here is starting off the New Year with a new slate of officers.

They are Robert McFarland, president; Lester Slaughter Jr., vice president; Luther Peevey, secretary; and Louis Schroeder, treasurer. Newly elected trustees are C. H. Letzring, Joseph Scott, Bernard Bergin, Velma Backhauf and Norman Comfort.

The Junior Chamber of Commerce also has elected new officers. They are Fred Thomas, president; Terrence Slaybaugh, vice president; Emil Szebelek, second vice president; David Williams, secretary and Alfred Pelky, treasurer.

New directors, elected are Jerry Peeveyhouse, William Landacres and Herbert Munzell.

Bear Can't Read Signs

SKYLAND, Va. (AP)—Bears are eating wooden signs on the Skyline Drive which say "Do Not Feed the Bears." One ranger suggested changing them to read "Bears, Do Not Eat the Signs."

In short, 1958 was generally a year of sound, if limited agricultural progress. What about prospects in 1959?

Because of record supplies, there will probably be some decline in agricultural prices and income from the improved 1958 position.

Even so, realized net income could still be the second highest in 1958, including crops and livestock, was about eight per cent higher than ever before. Output of crops alone was more than 1-10th above the previous record.

High production is likely again in 1959, barring a severe drought.

Wheat and feed grains will have record carryovers in 1959. However, the cotton carryover is down sharply from the 1956 peak, and a further reduction is expected in the 1959 carryover. Rice stocks also will be cut again.

As regards dairy products, government stocks are presently at the lowest point in several years.

With higher consumer income expected in 1959, the demand for food should continue to increase. And this is the basis upon which farm prosperity ultimately rests.

It is now too late for legislation to be enacted affecting the 1959 crop of wheat. But if sound improvements are made early in 1959 in the programs for wheat, tobacco and peanuts, the basis will have been laid for a more prosperous, expanding and freer agriculture in the years ahead.

Athletic Field Lighting Gift to South Lyon

SOUTH LYON — The Lyon Township School District has accepted the lighting equipment installed by the South Lyon Chamber of Commerce at the Athletic Field here, with the beginning of the New Year.

Cost of the lights was defrayed by admission charges and fees collected since the lights were first installed in 1947. The equipment is completely paid for now, announced Joseph Scott, past president of the C. of C.

Detroit Pastor to Talk at Rochester Church

ROCHESTER — Dr. Edward W. Wilcox, minister of the Congregational Assn. of Detroit, will preach at both the 9:30 and 11 a.m. services Sunday at the First Congregational Church here.

The Sacrament of Communion will be administered at both services, and the Church School for pre-nursery through senior high school children will be held during the same hours as church.

Utica to Feature Billy Graham's Film at Rally

UTICA — Evangelist Billy Graham's latest motion picture "The Heart is a Rebel" will be premiered at the Three County Rally at 7:30 p.m. Saturday in the Utica High School auditorium. The new feature-length color production stars Ethel Waters, Georgia Lee and John Milford.

The story is based on a conflict in the life of a modern young couple when the husband, an advertising executive, can't find a place in his scheme-of-things for his wife's sudden acceptance of the Christian faith.

"The Heart is a Rebel" provides a perspective of the Graham team in the crusade setting of Madison Square Garden, New York City. The preaching of the evangelist is augmented by the singing of George Beverly Shea and the music of a 1500 voice Crusade Choir under the direction of Cliff Barrows.

MAKE OVER PAGES

WXYZ Begins Use of New TV Tower

SOUTHFIELD — Transmission from WXYZ's new TV tower at 10-Mile Rd. and Northwestern highway began yesterday.

Construction of the new \$400,000 quarters of the station began last June. Completion is not expected until sometime in May or June of this year.

So far, the 1,073-ft. tower, three color TV studios and three radio studios have been built, and only the administrative facilities have yet to be moved into the colonial-style building on the new site.

WXYZ's present operations in the Macabees Building in Detroit will be abandoned with the removal of the station's offices as the final step.

2 Michigan Men Parachute to Safety

SAN DIEGO, Calif. (AP) — Two men were killed yesterday when a Navy P5M flying boat crashed in the mountains. Eight other crew members, two of them from Michigan, parachuted to safety.

The Michigan men were Ensigns L. H. Wheeler, 21, of Marquette and L. D. Gabbart, 29, of Belmont in Kent County.

The plane was on a local flight from North Island Naval Air Station. It crashed about 40 miles east of San Diego.

Cuban Consulate in LA Fired On by Dominican

LOS ANGELES (AP) — A Dominican Republic diplomat fired three shots into the door of the Cuban consulate here as an aftermath of the Cuban revolt.

Dominican Consul Adolfo Camarena told police he shot at the consulate Thursday when revolutionaries in charge refused to let him in to see his friend, Cuban Consul Manuel Velazquez. He said

Police placated Camarena and the occupants of the consulate.

CONKED CONCRETE — Indianapolis truck driver Dick Kimes, told police he didn't see the train until he felt the impact. The 33,000-pound load of reinforced concrete got the acid test

when the freight train crushed the rear of the trailer at a crossing. The slabs, valued at \$5,000 were a total loss.

Beron's Policies Blamed for Woes

Argentina Practically Bankrupt Today

BUENOS AIRES (AP) — This should be one of the richest small nations in the world. Yet today Argentina is almost bankrupt. Its internal government deficit for 1948 was around 50 billion pesos — 825 million dollars. The foreign trade deficit is 25 million dollars a month. Gold reserves have shrunk to 150 million dollars. The government has flooded the country with unbacked printing press pesos to pay salaries. The cost of living has gone up 1,500 per cent in 15 years — 35 per cent in eight months.

The tragedy is that this need not have happened. Argentina is not a one-product nation. It suffered no crippling war — in fact Argentina was neutral and made millions selling to warring nations in the '40s. There is enough oil in the ground to make Argentina a big producer. There are coal fields, iron ore, minerals of almost all the basic minerals needed — but undeveloped. Tropical flowers bloom in Buenos Aires. Many farmers reap two crops a year because of an ideal climate. There is adequate rain. Five great river systems flow through some of the world's most fertile land.

Argentina is one third the size of the United States, but only 21 million people live in it. They have the highest literacy rate in South America. A mixture of Latin and North European races helped settle the nation. There is a thriving middle class. "Twenty years ago this country was a paradise," you hear often. What happened? How did the country slip toward financial ruin? Much, but not all, of Argentina's troubles can be traced to Juan Peron.

Perhaps the worst thing Peron did was to foster the idea that a person does not have to work hard, or do a good job, to earn his bread and butter. There are many hard working Argentines but the mass of people, spooned by Peron policies which won him the workers's allegiance, are reluctant to give a day's work for a day's pay. Many have little pride in their work. Manufactured goods are often shoddy. Labor laws still on the books make it almost impossible to fire a completely incompetent man. Peron instigated the still popular

Social Security Plan Reported as Sound

WASHINGTON (AP) — A special advisory council has completed a year-long study of the nation's Social Security program and found it in good financial shape. A new schedule of taxes voted by Congress last year "makes adequate provision for meeting both short-range and long-range costs," the 13-member group said in a report made public Thursday.

The tax on both employers and employees provides insurance benefits for elderly persons, survivors of workers and disabled employees. Effective Thursday, both the tax rate and the amount of salary on which it is paid were increased. Other increases already in the law provide for further tax increases in 1960, 1963, 1966 and 1969. The council said that under present conditions, the scheduled 1969 increase may not be needed.

The advisory group was composed of business and union leaders and experts in the fields of finance, insurance and economics. Congress directed that it be

named to study the soundness of the Social Security system. Although the fund is financially able to meet the scheduled payments to recipients, the group cautioned that excessive inflation could make the present level of payments unsatisfactory. The report was made to the secretaries of the Treasury, Labor and Welfare, who are trustees for the fund. They are expected to add their own comments in reporting to Congress before March 1. The advisory council said no fundamental changes in financing Social Security are needed now. But it said an increase may be needed later in the new \$4,800 salary level to which the tax applies. The system was started 21 years ago with a tax only on the first \$3,000 of salary. The report said few workers then made more than that. Even the new \$4,800 level, however, taxes the full salary of only about half of all regularly employed men, the group said.

Sailor Makes, Sells Nice Firm Cigarettes

BALTIMORE (AP) — In the harbor area, a fellow who said he was a Norwegian seaman produced some beautiful cigarettes without tax stamps and sold them for \$1.50 a carton.

He let on they were American factory-made of a familiar brand retailing for \$2.50 a carton. They were round and firm, neatly packaged inside foil, printed wrapper and cellophane.

But the five persons who bought a carton found out they lacked one thing. They were filled with ship's waste.

Aid Sent Jap Crew Sunk Off Midway

HONOLULU (AP) — The Navy Search and Rescue Center reported early today help is on the way for the storm-tossed crewmen of the sunken Japanese fishing vessel Seifuku Maru 135 miles northwest of Midway.

A Navy spokesman said two Japanese and one American merchant ship were heading to the rescue of the 24-man crew which boarded life rafts dropped by a Navy plane from Midway.

The Tozai Maru was speeding to the area and the Argentine Maru also was alerted. Also directed to the scene was the freighter SS Barbara.

Overcame Multiple Sclerosis to Win Two-Way Success

NEW YORK (UPI) — Three years ago, a fashion model lay paralyzed, unable to walk or balance a coffee cup.

Today, Eva Burnay runs a modeling agency, does her own housework, and makes a home for her children.

She suffers from multiple sclerosis, an atrophy of certain

areas of the brain and central nervous system which produces paralysis. The disease is incurable, but Miss Burnay carries on a normal life.

'NEVER GIVE UP'

"Just don't give up mentally or you'll never make it. You must not say to yourself, 'I

can't,' but always, 'I'll see if I can,'" said the tall (5 feet 8 inches) brunette who is as glamorous as any of her models.

Born in Munich of a Polish father and English mother, Miss Burnay had double vision, an early symptom of multiple

sclerosis, when she was 14 years old. She came to the United States in 1937, married and has a college-age daughter and 16-year-old son.

She continued her modeling career after marriage. In 1950, her left eye became totally blind for three days, and the

condition recurred again two years later. Then, on Christmas Eve, 1955, she became completely paralyzed on her left side.

TOOK COURAGE

There followed days of agony and courage, and slowly, she began to walk again. Her steps were merely a shuffle, then she developed a "roll like a seaman." Now she walks without a limp.

In September 1956, Eva Burnay was back doing fashion shows. But the work was so taxing that she decided to open an agency.

She employs 40 models and two assistants, handles administrative details, trains some models, supervises their make-up and helps them during fashion shows and test-shot assignments. But she does not do any modeling herself.

"It wouldn't be fair to the girls," she said. "And if someone didn't like my work, he wouldn't want to call the agency and ask for someone else."

BIGGEST OBSTACLE

What was the hardest part of her comeback?

"Getting used to being with people again. It was difficult to follow the fast movement and talk. I remember the first time I went to a restaurant. I had to turn around and go out — just couldn't face it.

"At work, I had to go into a quiet corner because I didn't have enough strength to talk and work at the same time.

"But working helps eventually," she added. "Activity felt good, although it exhausted me to lift something."

Miss Burnay still is under medical care and continues her practice of "refueling"—spending 15 minutes alone at the end of a working day to rest and regain strength.

"Oddly, it never occurred to me that I wouldn't be able to walk again, so I was never frightened," she said.

PERSEVERED

"I pivoted into every piece of furniture in the apartment. My shoes wouldn't stay on. I got dizzy in the middle of Park Avenue. I couldn't go down stairs.

"I remember my first show after I could walk. There were six stairs at the head of the ramp. I started out, took one look at the man sponsoring the show, and had to go back—he looked so scared that I got frightened.

"But I tried again and made it. I realized I didn't dare fall—a little woman was sitting by the stairs, and I knew if I fell, I'd crush her."

PHS Class of '53 Plans Reunion

Plans for a reunion are in the offing by members of the Pontiac High School January graduating class of 1953. The affair will be held in the spring.

Those interested in attending or knowing the whereabouts of any former class members may contact Mrs. Robert Wood of Granada drive, John Baxter of Second avenue, or Mrs. William Kreiner of Cameron avenue.

Donna (right) and Diane Needle, here with their mother, Mrs. Mary Lou Needle of North Anderson street, were chiding our photographer for standing under the mistletoe when this photo

was taken. Donna, home from college for the holidays, left today for the College of St. Scholastica at Duluth, Minn.

Needles Work Together

War Tragedy Failed to Down Family of 3

By MARGARET BROWN

Memories of World War II Days may be growing dim for some of us, but they left their mark on Mrs. Mary Lou Needle and her two daughters, Donna and Diane, of North Anderson street.

On July 27, 1945, only a few months before he was to return home, Mrs. Needle's husband, Dr. Francis H. Needle, Navy flight surgeon, was killed, leaving her with the two youngsters, then 5 and 2 years old.

MANY HELPED

But Mrs. Needle really was not entirely alone. "So many people helped out in so many ways, I couldn't begin to tell you," she relates. Members of the Oakland County Medical Society aided the family a great deal, as well as individual friends of Dr. Needle.

A graduate of St. Joseph's Hospital School of Nursing, South Bend, Ind., Mrs. Needle met her husband in Detroit through friends. "Not as you might expect, in a hospital," she notes.

The couple had moved to Pontiac when the older daughter, Donna, was born. It was

in April 1942 that Dr. Needle enlisted in the U.S. Navy.

Dr. Needle, a graduate of Oberlin College and Wayne State University's Medical School, had been commissioned

a lieutenant commander when the plane aboard which he served crashed in the Pacific and never was found.

FOUND TEACHING JOB

Three years after the war, Mrs. Needle was able to begin working at St. Joseph Mercy Hospital, where she taught nurse's aide classes, a job she says was most satisfying. The girls were then all-day students at St. Hugo of the Hills School.

Today, Mrs. Needle, still at St. Joseph Mercy Hospital, is a nurse on the women's surgical floor. Her daughter, Donna, is a freshman student at the College of St. Scholastica in Duluth, Minn., working toward a B.S. degree in nursing. She was graduated magna cum laude from St. Frederick High School's June, 1958, class.

Fredrick's, now a senior at St. Frederick's, isn't quite certain just what her future will hold. Both girls play the piano and often enjoy accompanying their mother to concerts. Dr. Needle was a music major before transferring to medicine in college.

Needless to say, Mrs. Needle is extremely proud of her girls and "just being together" seems to be the biggest treat for this close-knit family.

PROUD OF GIRLS

Being a nurse and mother, Mrs. Needle doesn't find time for too many outside activities, although she is a member of the Board of Directors of the Oakland County District Nurses' Association and holds membership in St. Joseph's Guild at St. Vincent de Paul Church.

Mrs. Needle and her girls face the new year with confidence. They learned long ago that if they trust in God and work together, they can overcome life's hurts. It's their success formula for 1959, just as it has been in the past.

Cross Trailers Fete Draws 98 Persons

Willis School was the setting for a New Year's Eve square dance party given by the Cross Trailers. Ninety-eight persons were present for the affair, which featured round dancing and a Cunderella waltz, as well as square dancing.

Dance groups from Oxford, Rochester and Detroit also were present.

Spool Heel's Here

The spool heel is replacing the needle heel in fashion favor. It's the heel that's shaped in slightly after the manner of the Spanish heel. But it's higher than the Spanish heel.

Mr. and Mrs. Leland S. Reese of Littleell street announce the engagement of their daughter, JoAnn, to Lt. James Harry Ridgeway, son of Mr. and Mrs. Harry Ridgeway of Muskegon. The couple will be married Jan. 17 at the chapel at Redstone Arsenal, Huntsville, Ala.

JOANN REESE

The engagement of Delores Leone West, daughter of Mrs. Lafayette West of Oliver street and the late Mr. West, to Donald R. Friebe, son of Elmer Friebe of Bay City, is announced. Miss West is a Michigan State University graduate. A June wedding is planned.

DELORES LEONE WEST

Be Their Dinner Guests

Women's Section

Area News of Personal Interest

By EMILY POST

"Dear Mrs. Post: My husband and I have invited a friend and her husband to our house for a weekend. I mentioned in my letter to her that we were getting tickets for a play for that Saturday evening. She wrote back and said that she was delighted and said not to bother with dinner that evening as they would take us out. As they are our guests I know we should take them out to dinner. However, we feel we cannot afford to do this in addition to the theater tickets.

"Under these circumstances, plus the fact that the dinner out was her idea, would it be permissible to let them pay for the dinner, or would it be out of order to suggest we go 'Dutch Treat'?"

Answer: As there was certainly no need for your friend to mention dinner, the fact that she has written you not to have dinner at home and to dine out with her and her husband means that they really want to do their part by paying for it. It would be better to let them do this rather than to risk seeming unappreciative of their kind intention.

"Dear Mrs. Post: When a man and girl go to a cafeteria for something to eat, shouldn't the man precede her so that when they reach the end of the line where the cashier is seated, he can pay for her food? If she goes first it makes a rather awkward situation."

Answer: She should go ahead of him and when they get to where the cashier is, he merely leans forward and says to the cashier, "This lady is with me, please add her food to my check."

"Dear Mrs. Post: Will you please tell me how old a flower girl should be? I would like very much to have my niece, who is almost eight, to act as flower girl at my wedding, but I am told she is too old. If so, is there any other way that I can include her?"

Answer: Unless very small for her age, it will be best for her to be a junior bridesmaid.

"Dear Mrs. Post: I inherited my grandmother's flat silver and now would like to give it to my niece for a wedding present. It is all initialed. My niece wants the initial removed as she doesn't think it proper to use silver marked with an initial that is different from hers and perhaps people may think it is borrowed. I think it will spoil the silver and take away from its value as old silver. What is your opinion?"

Answer: You are right, and your niece should be very proud of being able to show by your grandmother's initials that hers is really old silver that has been in her family for four generations.

Mr. and Mrs. Gerald Fredricksen, and daughter Sheryl Lynn, left today for their home in Medford, Mass. after spending the holidays with their parents, Mr. and Mrs. Walter Fredricksen of Baldwin avenue and Mr. and Mrs. Harry Geyers of Bennett street.

Mr. and Mrs. John W. Fitzgerald of Bloomfield Hills are at home after spending two weeks in Phoenix, Ariz., where they visited Mrs. Fitzgerald's mother, Mrs. W. L. Emery. The Fitzgeralds' daughters, Julie and Susan, accompanied them on the trip.

Mr. and Mrs. Gifford Bell of Flushing were recent guests of their son and daughter-in-law, Mr. and Mrs. Raymond Bell of Monrovia street.

Midshipman Robert Lee McDonald, home for the holidays, was feted at a New Year's Day open house at the home of his parents, Mr. and Mrs. Cameron Clark on Summit street. Midshipman McDonald attends the Naval Academy at Annapolis, Md.

Marcelle Kitson, daughter of Mr. and Mrs. C. H. Kitson of Parkhurst street, spent the holidays with her parents before returning to her home in Little Rock, Ark.

Former Pontiac resident Mrs. Bernice Holmes of Van Nuys, Calif., is visiting her brother and sister-in-law, Mr. and Mrs. DeLise Wilson and family, of Dick avenue. She will be here until next week.

The arrival of a daughter, Wendy Elizabeth, Dec. 31 at Arlington, Mass., is announced by Mr. and Mrs. Basil W. Denning (nee Toni Gossett of Bloomfield Hills).

Grandparents of the child are Mr. and Mrs. William T. Gossett of Bloomfield Hills.

When Shopping Buy Wardrobe Belitting Age

If you are nearly always in doubt when you go to shop for new clothes, you can help yourself by adhering to a few rules.

The first of these is that the simpler the dress, the better. Avoid fancy trimming or ornaments.

The next is that when you are armed with an exact knowledge of what you want and what will fit into your wardrobe, you are also armed against making mistakes.

The third is to be candid with yourself about your age and dress accordingly. This means that you will be neither kittenish nor dowdy but very attractively yourself.

Edwin Racine, son of Mr. and Mrs. William C. Racine of Euclid street was elected secretary of Sigma Phi Delta.

KATHARINE MAE RUELE

Mr. and Mrs. Lewis B. Ruelle of Farm road announce the engagement of their daughter, Katharine Mae, to Peter A. Hawke. He is the son of Mr. and Mrs. Robert L. Hawke of Baker street. No date has been set for the wedding.

men's club. He is a sophomore majoring in secondary education at Emmanuel Missionary College, Berrien Springs.

JUNE W. SIMMS

Mr. and Mrs. Raymond Simms of Mt. Clemens announce the engagement of their daughter, June Winona, to Harry Mitchell Paulson, son of Mr. and Mrs. Harry Paulson of Wall street. A summer wedding is planned. Mr. Paulson is a graduate of Hillsdale College.

19-Year-Old Father Should Grow Up—Abby

Tell This Boy to Pick Up Chips or Play the Game for Keeps

By ABIGAIL VAN BUREN

"DEAR ABBY: Our daughter married without our consent but because we loved her we accepted this boy with an open heart. He is selfish, inconsiderate and stubborn. Two

months after their marriage she became pregnant. She is expecting in May. Our son-in-law came to us yesterday and told us they decided to give the child up for adoption. He said he didn't want the responsibility of a baby as he is too young (he's 19) and he wants our daughter to continue working and a baby would be in the way.

"We pleaded with him but got nowhere. My daughter wants the baby but her husband says if she keeps it he

will leave her. (We'd gladly take her and the baby.) She doesn't know which way to turn. Please advise her through me to make a wise decision."

JUST MOM

DEAR MOM: Your son-in-law wants none of the responsibility of marriage. He bought himself a bed-partner for the price of the marriage license. Tell your daughter to keep her baby and if her "husband" leaves, he leaves. A legal separation with provisions for the baby's support might be just what the boy needs to help him grow up.

"DEAR ABBY: What do you think of a 16-year-old boy who takes out an 18-year-old and gives her instructions not to order anything on the menu that costs over seventy cents? Then for a tip he puts down twenty pennies? I have never been so humiliated in all my life."

ANGIE

DEAR ANGIE: When you play with Little Leaguers you have to go by their rules.

"DEAR ABBY: Whenever I invite a few couples in for a sociable evening, my husband always starts the conversation with, 'How's business?' The men start talking about business and we women either sit there like dummies or we have to start our own conversation about clothes or children. I want everybody to have a good time, but no matter how many times I try to change the conversation to include the women, they always end up talking about business. Is there a solution for this?"

SICK OF BUSINESS

DEAR SICK: Some men aren't able to discuss anything other than "business." If your object in entertaining is to provide a pleasant evening, don't try too hard to channel the conversation.

"DEAR ABBY: I've been married for nine years and with the exception of this one complaint we have been very happy. My husband introduced

me to a married couple who seemed nice. Then he confided that before he met me, he had a romantic affair with this woman while her husband was overseas. He expects me to be nice to this woman, but I have all I can do to be civil to her. He says it's all over between them now and I should forget it. Do you think I should try to be friendly with her or is my husband asking too much?" CAN'T FORGET

DEAR CAN'T: Skip this couple and go around with people who are "new" to both of you. Your husband is definitely asking too much. (P.S. Give my regards to "Big Mouth.")

CONFIDENTIAL TO EXHAUSTED: Your child is spoiled because you can't spank two grandmothers.

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

MAKE OVER PAGES

DETROIT (AP) — Wayne County Clerk Edgar M. Branigan said Thursday marriages and divorces declined in the Detroit area during 1958. He said 19,828 marriages were performed last year compared to 6,453 in 1957.

The human eyes are full growth at the age of 8 or 9 years.

Mutilated Gambler Not Link in Slaying

SAN DIEGO, Calif. (AP) — A gambler with a severed tongue has no connection with the slaying of Tony Mirabile, says police.

When Robert Womach, 25, was brought to a hospital Thursday with 1½ inches of his tongue cut off, police thought there might be a tie-in between the injury to the Las Vegas, Nev., card dealer and the shooting of Mirabile, wealthy tavern owner with suspected underworld connections.

But Womach told them his tongue was cut off by a woman in Tijuana who robbed him of \$60. He refused to give further details.

Half of a Motorcycle Was Better Than None

LOWESTOFT, England (UPI) — Police Constable Anthony D. Thacker, 23, was suspended today pending trial on charges he stole half a motorcycle.

A prosecutor charged that Thacker, a "dead keen" motorcyclist, needed some front parts for his own machine, so he cut the front half from a motorbike and wheeled it home.

Paar Picks Winters to Take Over Show

By EARL WILSON

NEW YORK — Jack Paar, a middle-westerner, tells us he's recommended to NBC that it hire Jonathan Winters, another middle-westerner, to take over his show two nights a week to take some of the pressure off him.

"I don't really care who they get, I swear to God," Jack told me, "but I think Johnny's got more talent than any other eight guys around."

Strangely enough, Johnny and Jack had supposedly been having a feud lately.

It all stemmed from some remarks attributed to Winters in a New York interview. Johnny didn't deny he said them. But he called Jack on Christmas day and said he was sorry.

WILSON

Paar indicated he understood the circumstances and was forgiving.

Jack had also recommended Johnny Carson and Dick Van Dyke and had indicated that NBC should try to get Ernie Kovacs — although he made it clear he didn't think Ernie would be available now that he's a Hollywood star.

★ ★ ★

Paar says the present taping set-up (allowing him to work earlier two or three nights a week) won't change his demands that he work less. However, he will go to Paris for a week in April to tape some shows — which'll be sent back by jet to be shown the same day.

Bardot's German rival, Wilson Grl Laya Raki (wife of Ron Randall of "Suzie Wong") announced that she just got her working papers — and was offered three Broadway plays.

Zsa Zsa Gabor and builder Hal Hayes headed here after announcing marriage plans, but Mama Gabor said "Zsa Zsa won't really decide yet." Hayes said he'd given Zsa Zsa a vice presidency in his company, but rumor said she wanted to be president. Grid star Alan Ameche of the championship Baltimore Colts is Don Ameche's cousin, but after the Baltimore victory, Toots Shor said, "Don decided to promote him to his brother."

★ ★ ★

There were some strange silences during the strike...

Marilyn Monroe kept dignifiedly quiet when she lost her second baby and the whole country felt sorry... Ava Gardner and Walter Chiari came and went (from Rome, and on to Hollywood) with Ava gloating that there were no reporters to bother her... Quentin Reynolds said "I felt I was living in a vacuum" and Leo McCarey said, "The only good thing about it was there were no critics writing to clobber the bad pictures." But, Lisa Kirk said there was one newspaper delivery boy who kept in practice by throwing a newspaper on a customer's roof every day.

EARL'S PEARLS: Some schoolboys were discussing shaving. One boasted, "Oh, I've shaved for two years—and cut myself both times."

WISH I'D SAID THAT: "Do not smoke in bed. The ashes which fall to the ground may be yours."—Sign in a hotel in France.

TODAY'S BEST LAUGH: A friend of our told a small boy pianist, "I just love Beethoven's 'Moonlight Sonata'—please don't play it."... That's earl, brother. (Copyright, 1959)

Lebanon, a troubled country in the Middle East, is four-fifths the size of Connecticut.

Butler Discounts Adlai, Johnson

Believes Williams Has
Good Chance of Being
Dem Choice in 1960

LANSING (AP) — While Paul M. Butler, Democratic National chairman, rates high the presidential possibilities of Gov. Williams in 1960, he discounts those of Adlai E. Stevenson and Sen. Lyndon F. Johnson (D-Tex.).

At a news conference yesterday, Butler said of Johnson, senate majority leader:

"I take it that Johnson has taken himself out by saying that nobody from Texas or the South could be nominated (by the Democratic National Convention)."

And he said he took Stevenson at his word that the twice-defeated presidential aspirant is not a candidate.

"I don't believe he will enter any presidential primaries," he said.

In Lansing for Gov. Williams sixth inaugural, Butler said Williams should be weighed carefully. "Certainly the delegates will have to look very seriously to his qualities, his vote getting appeal and his tremendous dedication," he said.

"Any man who can be elected governor of a large, populous and progressive state six times in a row, and in a state where Democrats didn't used to be elected very often, is entitled to very serious consideration."

Butler took a gloomy view of the chances of former New York Gov. Averell Harriman, a Williams political ally.

He said Harriman "sort of indicated" he is not going to be a candidate "because of lack of a platform from which to project himself — and because of age I guess."

Butler said Williams' closeness to organized labor would be a source of strength in 1960, rather than a handicap.

Giant Chipper Fells, Grinds Trees to Bits

PORTLAND, Ore. — A new machine that gulps slash trees and chews them into chips is bidding to revolutionize road-clearing operations in the Pacific Northwest. The giant chipper, designed by Stan Ehrlich of Portland, has 300 horsepower and can grind trees up to 21 inches in diameter at a rate of 50 feet a minute. The 40-foot-long machine either sprays the chips or piles them for use in fill. The cost of clearing roads with this machine is about the same as or less than conventional methods of felling, piling, and burning trees. The right of way is left in better condition; clearing operations can be conducted throughout the summer fire season because there is no slash to burn, and right of way can be narrower since space for piling and burning slash is not needed.

Paris Police Politely Preach to Poor Parkers

PARIS (UPI) — Parking violators found the following "tickets" on their windshields on New Year's Day: "In wishing you a happy New Year, the prefect of police asks you in the future, in your own interest and in those of others, to respect the traffic laws which you have just broken by parking here."

Detroit Fires Lowest Yet

DETROIT (AP) — Detroit Fire Department officials said Thursday the Motor City recorded 8,390 fires in 1958. The figure was the lowest since statistics were started in 1928. The 1958 fires claimed 41 lives and caused property damage estimated at \$9,035,365.

shower after shower after shower

there's always plenty of hot water

the new electric water heater way

GET IT HOT... GET A LOT every time. A new electric water heater provides plenty of hot, hot water for showers and all the family's needs. Detroit Edison has a new Super Supply Plan which makes heaters even more efficient and economical.

Here's the convenient, modern way to GET IT HOT... GET A LOT for an operating cost as low as \$3.88 per month.

Only electric water heaters give you all these important advantages:

- ☒ Efficient—the heat goes into the water
- ☒ Fast—new, more efficient heating units
- ☒ Install anywhere—need not be near a chimney
- ☒ Outer shell—cool to the touch all over
- ☒ Long life—meet Edison's rigid standards
- ☒ Edison maintains electrical parts without charge
- ☒ Automatic—all the time
- ☒ Safe—clean—quiet—modern
