U. S. Bars 400 Soviets From Parts of 41 States

Oakland, 19 Other Michigan Counties Out of Bounds for Russians

Oakland County is among areas of the United States barred to Russian citizens by action of our government.

In a retaliatory move against similar restrictions placed on American travelers in the Soviet Union, the U.S. State Department yesterday barred 418 Russians from a quarter of the nation.

The barred zones extend through 41 states, ranging along both the Canadian and Mexican borders and through most of the nation's strategic areas.

Included in the restricted zones are 20 Michigan counties, including Oakland, Lapeer, Livingston, Macomb and Wayne. In addition, the city of Kalamazoo is restricted.

Officials said the two standards used in developing the detailed list of barred zones and closed cities were reciprocity and security.

Under previous restrictions, Russians were permitted free travel in a 25-mile zone from the centers of Washington and New York and were permitted to go beyond those restricted circles on application.

The Russians affected by the move include about 400 attached to the embassy in Washington, the United Nations in New York, the Amtorg Trading Agency, Tass news agency and Pravda. Some 50 Soviet citizens connected with the U.N. Secretariat are not affected.

In Lapeer County today, Sheriff Clark Gregory, who was involved in a diplomatic imbroglio last spring after he jailed an Hungarian embassy attache for drunk driving, commented:

"It should have been done long ago. But I wonder why they are just restricting the Russians and not the Communists from all the satellite countries.

"Take the Hungarians. They are from a satellite country and, as far as I'm concerned, any information they get they are passing on to Moscow.

"They should be as restricted as the Russians."

Portions of other Michigan, Minnesota and Ohio counties extending along the Great Lakes are also included in the prohibited areas listed by the State Department.

The new regulations were contained in a note delivered yesterday from Secretary of State John Foster Dulles to Russian Ambassador Georgi N. Zarubin.

The U.S. note said that the new travel regulations "are comparable to those which the Soviet Union has imposed, presumably for reasons of security, on the movement of the United States citizens in the Soviet Union."

The secretary pointed out that the move was made because of new restrictions put on Americans in Russia last June 22 and said the possibility of the law being eased in favor of Soviet citizens depends on whether the Russians relax their own regulations.

Dulles said:

"If the Soviet Union should hereafter conclude that the international situation were such that security requirements enabled it to liberalize its regulations restricting the travel of U.S. citizens in the Soviet Union, this government would in turn be disposed to reconsider in the same spirit its own security requirements."

OFF LIMITS FOR RUSSIANS—Blackened areas in 39 states, covering about 27 per cent of U. S. area, have been declared off limits to Russians—plus all of U. S.-Mexican border except Webb County, Tex., plus Great Lakes section of Canadian border. Underlined 16 cities are those in otherwise open areas also declared off limits to Russians. Non-underlined cities on map, such as New York, Chicago, New Orleans, Omaha, El Paso, Seattle, Spokane, San Francisco, Los Angeles and San Antonio, are among 31 cities declared open in otherwise closed areas.

Dem, GOP Lawmakers Pick Congress Leaders

From AP and UP Dispatches

WASHINGTON—Democrats and Republicans thronged back to the Capitol today to choose their leaders for the Democratic-controlled Congress which opens tomorrow.

Both parties in both houses scheduled conferences of all their members to get set for formal election tomorrow of House and Senate officials.

Except for some lesser posts in the House, the results were foregone conclusions.

House Democrats scheduled a morning conference to nominate formally Rep. Sam Rayburn (Tex) as speaker and to elect Rep. John W. McCormack (Mass) as their floor leader. McCormack in turn will name a whip to be his chief assistant.

Republican senators — in the new role of minority party — gathered for formal election of their leaders. They also planned token nominations for Senate offices such as president pro tempore. The latter is only a formality. The Democrats will out-vote them when the test comes tomorrow.

Later today, Senate Democrats and House Republicans scheduled their party-wide conferences to name leaders.

Formally, the Democratic senators were prepared to re-elect Lyndon B. Johnson (Tex) chairman of their conference, a post which automatically makes him party floor leader, chairman of the policy committee and also of

Dem Senator Mansfield Demanding More Data on 8,008 Ousters

WASHINGTON (AP) — Sen. Mansfield (D-Mont) called today for a Senate investigation to disclose publicly "the exact number" and the names of subversives stripped from government payrolls by the Eisenhower administration.

Mansfield's request came in a letter to Sen. Olin D. Johnston (D-SC), prospective new chairman of the Senate Civil Service Committee. Mansfield made the letter public.

Yesterday, the Civil Service Commission, reporting on operation of the security program during its first 16 months, said 8,008 federal employes had been dropped as security risks, 2,096 with "subversive data" of varying kinds in their files.

Besides indications of subversion, the security program lists as grounds for dismissal perversion, criminal convictions, alcoholism and inability to keep a secret.

Mansfield and a number of other Democrats have called the figures a "numbers game" and contend they fail to show how many government employes were actually fired for subversive associations or activities and how many resigned before their cases were finally decided.

Mansfield said in an interview that government workers' personnel files are filled with data, much of it unevaluated, collected from both reliable and unreliable sources. He wants to know, he said, how many of the "subversive" separations from government involve persons who:

1. May have been fired for some totally unrelated reason but whose file might contain unevaluated "subversive" information.

2. May have resigned to take a better job elsewhere without being aware that their personnel files contained unevaluated information indicating subversion.

Hammarskjold Now in Hankow

U.N. Secretary General Lands in China; to See Chou Tomorrow

TOKYO (AP)—U.N. Secretary General Dag Hammarskjold arrived in Hankow by special plane on his mission to Red China to seek release of 11 American airmen convicted on "spy" charges and other U.N. personnel.

This was announced in a Peiping radio broadcast, heard in Tokyo. Hammarskjold will fly from Hankow to Peiping to confer with Premier Chou En-lai tomorrow.

In New Delhi, India, the influential Hindustan Times said today U.N. Secretary General Dag Hammarskjold must observe humility if he wishes to secure the release from Communist China of 11 imprisoned Americans.

The secretary general's stopover here on his mission to Peiping received a noticeable lack of attention from Indian editorial writers. His reception by Indian government officials was correct but cool.

The Hindustan Times' political columnist, commenting on the visit, described Hammarskjold as "unfortunately too Dulles-minded." The paper often is described as Prime Minister Nehru's favorite journal.

Ships Moving Through Suez Canal Today

PORT SAID (AP)—A long line of ships moved through the Suez Canal today after workmen cleared away the wreckage of a ship-bridge collision that blocked the strategic waterway four days.

A thick fog which last night halted resumption of navigation lifted early this morning, and 69 ships backed up here sailed southward through the canal. Another 34 ships waited to move northward.

The canal was blocked last Friday when the Greek-owned tanker World Peace smashed into an arm of a swing bridge 50 miles south of Port Said.

Holdup Suspect Felled in Bank

Former Officer Kills Man, Foils Manhattan Robbery Attempt

NEW YORK (AP)—A robbery suspect was shot and killed in an apparent holdup attempt today in a branch of the New York Trust Co. in the heart of Manhattan's garment district. A bank guard was wounded.

The shooting attracted thousands of passersby to the bank, at 7th Ave. and 39th St.

The suspect, brought down by gunfire from a former city policeman, was tentatively identified by police as Ellison Gaylord Grey, 29, of Kansas City.

Police said the suspect fired a shot wounding Edward A. Kaszuba, 38, a bank guard, and was shot to death a moment later by William Rettig, 61, a former crack shot in the police department.

Kaszuba was taken to a hospital with a bullet wound in his right leg above the ankle.

Rettig, employed by the nearby Franklin Savings Bank, entered the bank about 10:10 a. m. to make a delivery and almost immediately encountered the apparent holdup attempt.

Rettig, wearing a guard's uniform and a civilian overcoat and hat, said he had stopped at a glass-topped table in the center of the banking floor when he heard something suspicious.

"I turned around and saw this man with a gun in his right hand,

Panama Police Searching for Band of Hired Killers

PANAMA (AP)—Authorities pressed a nationwide search today for a band of unidentified professional killers accused of assassinating President Jose Antonio Remon at the instigation of his political enemies.

The "guns-for-hire" charge was made by Minister of Government Catalino Arrocha Graell in a funeral oration late yesterday over the body of the slain chief executive, who was mowed down by machinegun fire at a race track Sunday night.

"Mercenary hands armed by his political enemies" fired the bullets, Arrocha declared. There was widespread speculation that the killers may have been imported.

Arrocha spoke during burial services at the national cemetery. Thousands of persons lined the capital's streets to pay their final tribute as the funeral cortege passed from the Roman Catholic cathedral to the cemetery.

There was no clue to the identity of the assassins. The National Assembly has decreed a 10-day stage of siege—a modified form of martial law temporarily suppressing some constitutional guarantees — to aid secret police in their hunt.

At least a score of persons, in-

Michigan - - - That Is

Comrade, Avoid Moscow

MOSCOW, Mich. (AP)—The Muscovites here have a favorable reaction on the government's decision to close their frontiers to Russians. Moscow, Mich., is in one of the 37 counties in Michigan included in a nationwide area closed to travel by Soviet citizens in this country. The State Department announced the move yesterday as a retaliatory measure against Moscow—Moscow, Russia.

Michigan's Moscow—which doesn't even have a family of Russian ancestry—is in Hillsdale County. It has 200-plus residents and a tavern-turned-antique-shop built in 1827.

Harold Horton, 41, a farmer, supports the government's move.

Wynn Richards, an insurance broker and owner of the tavern-antique shop put it this way:

"We don't want any part of Russia—outside of the name of Moscow. And if restricting the Russians in this country is okay with Ike Eisenhower it's okay with me."

Ten Gallons of Fuel Held as Margin in Bixby Death

LONG BEACH, Calif. (AP) — Ten more gallons of fuel might have saved Dianna Bixby, 32, noted aviatrix whose broken body was flown back here from Mexico by her grieving husband.

"If she'd have had any kind of break at all—if she'd had 10 more gallons of gas—she would have made it," said Lt. E. S. Childers, co-pilot of a San Diego Coast Guard plane which located the wreckage of Mrs. Bixby's plane.

Robert Bixby, 40, her husband, couldn't say anything to reporters when he arrived last night.

Mrs. Bixby's freight cargo plane, a converted A20 bomber, crash-landed Sunday 150 feet offshore in the Gulf of California near Loreto, Baja California, Mexico.

She and her husband, operators of an air freight service, had been flying two planes to Mexico to bring produce back. Bixby, flying about an hour behind his wife, heard her say over the radio she was nearly out of gas but thought she had spotted a clearing for a landing.

He searched by air, then returned to their Long Beach headquarters Sunday night.

He was waiting on shore at the scene yesterday when Navy diver James Watkins brought up Mrs. Bixby's body. Her parents, Mr. and Mrs. E. E. Converse, Santa Paula, Calif., ranchers, were there too.

The Bixbys were married in 1948 and had two children. In 1950 they attempted a round-the-world flight, but engine trouble stopped them half way around at Calcutta.

Slaughter Hill Warrant Sought

Death Car Driver Faces Manslaughter Charge in Dec. 5 Crash

A manslaughter warrant was ordered this morning against the 19-year-old girl who drove a car which crashed head-on with another on M24's "Slaughter Hill" Dec. 5 resulting in five deaths.

Named is Mrs. Earline Wagenshutz, of 75 W. High, Metamora. Oakland County Assistant Prosecutor Homer G. Gerue approved the warrant after interviewing eight witnesses including Miss Frances Simpson, the only surviving passenger in the Wagenshutz auto.

Miss Simpson, 19, of 14 Emsley, Oxford, told Gerue Mrs. Wagenshutz was on the left side of the road going south when the crash occurred. She said she warned Mrs. Wagenshutz against passing the three cars in the dangerous hollow a mile north of Oxford.

Mrs. Wagenshutz, still in Pontiac General Hospital with a fractured pelvis, will be arraigned as soon as arrangements can be made by Springfield Township Justice Emmett J. Leib. The arraignment may take place at the hospital, said Gerue.

The Oxford residents killed in the early-morning smashup were:

Harold Mangum, 21, of 49 Brabb Rd.

Max Smith, 28, of 4 W. Burdick.

Mrs. Edna Kuck, 31, of 30 Pleasant.

Charles Nelson, 25, of 32 Cottage Ct.

Lynn Best, 27, of 9 Stanton.

All but Mangum were in the Wagenshultz car.

In the warrant, Gerue charges that Mrs. Wagenshutz was driving in "a careless, reckless and negligent manner . . . under influence of intoxicating liquor (at) an excessive rate of speed." Miss Simpson is the only witness to the actual crash, he said. She received a broken arm and jaw.

The accident was the worst in Oakland County since Nov. 6, 1951, when four teenagers and the parents of 11 children were killed on the same highway south of Lake Orion.

Dog Hits Car — Hard

PALM SPRINGS, Calif. (AP) — Warner Van Sury complained to the police that a beagle hound did $65 damage to his convertible auto when it jumped in, broke the supporting beam of the top, fell into the rear seat and then chewed its way out through the crumpled top. Will Be Offered Present Holders at One for 20

Price Not Determined; $325 Million Is Goal for Continued Growth

NEW YORK (AP)—General Motors Corp., at midpoint in a two-year, billion-dollar expansion program, is going to raise 325 million dollars for new growth through sale of common stock to its present stockholders.

Current GM shareholders will be offered the right to subscribe to one new share of common for each 20 shares held.

That decision by the corporation's directors yesterday came after the close of an acrobatic day on the New York Stock Exchange for GM common.

Wall Street was alive with rumors that General Motors planned a stock dividend or a stock split, or that an anti-trust action might result in an eventual stock split.

The rumor mill was spiced Sunday by a statement from Federal Trade Commissioner Edward F. Howrey. Speaking on an "American Forum" television program, Howrey remarked that General Motors was too big but he didn't know what could be done about it.

These rumors proved groundless but GM stock, with 65,400 shares traded, was the day's most active issue. It closed at $105.12, up $7.25. At one point, it had jumped more than $9.

GM common opened at $99 on the New York exchange today. By end of the first hour, however it made up part of the loss, selling at $101.25.

Du Pont, which owns some 20 million shares of GM common, closed $4 higher at $171.50 after hitting a high of $175.75.

GM sold below its New York closing price on the Los Angeles and San Francisco stock exchanges. It closed at $102.62 at Los Angeles where 300 shares changed hands after the announcement at 4:45 p.m., EST.

At San Francisco, 200 shares were traded at $104 a share.

The price of the new stock to be offered GM shareholders has not yet been determined.

It will have to be by Jan. 20 or shortly after when General Motors expects to file a registration statement for the new issue with the Securities and Exchange Commission. The offer to stock-

U. of M. to Help Conduct County Economic Survey

A University of Michigan official will meet with Oakland County school superintendents tomorrow morning to ask their help in surveying consumer attitudes.

The University's Bureau of Business Research has agreed to aid the County Plan Commission in a large-scale economic survey, according to George N. Skrubb, plan commission director.

William J. Carey, field representative for the bureau, will explain the survey to superintendents at their regular monthly meeting at 11:30 a. m. in the Birmingham Community House, said Skrubb.

The plan calls for contacting some 50,000 families, with children of grade school age, through questionnaires brought home by the children, he explained.

They will be returned to school unsigned with answers to questions like: "How do parking space, prices and the attitudes of sales persons influence buying? How much do you shop outside the county?"

The consumer-buying-habit report is only one part of the survey, said Skrubb. A second part, to come later in the year, will deal directly with the shopping centers. It will consider construction, location and number of employes, among many things.

An industrial survey is also planned, with questionnaires slated

Police Arrest Five Youths in School, Auto Breakins

From Our Birmingham Bureau

BIRMINGHAM — Police put an abrupt end to two juvenile gangs here yesterday in arresting five youths for investigation of larceny, and starting questioning of four other boys allegedly involved in a series of thefts from garages.

In apprehending the first ring, police Lt. Henry Timm said police have solved a series of thefts from schools and cars that has plagued the department for three years.

Lt. Timm said the boys have admitted taking jackets, wallets and watches from Birmingham High and Barnun junior high school. Other items, some of which have been recovered are auto accessories, which Timm valued at several hundred dollars.

The boys range in age from 13-18. All but the 18 year old, Charles Schuman, 122 Auburn Rd., Pontiac, live in Birmingham.

The younger members appeared for preliminary questioning before Oakland County juvenile authorities this afternoon, while Schuman appeared before the Oakland County prosecutor.

Timm said two of the juveniles are already on probation for larceny, and he will recommend their commitment to vocational school.

Tim said the garage thefts have involved four boys, ages 14 to 17, who have admitted stealing beer and liquor from garages and selling it to other youths.

The four also obtained liquor from a clerk at a local drug store who, according to Lt. Timm, was in the pay of the boys.

There was fog, rain and snow over broad areas of the country today. It was cold in most of the Northern states and mild in Southern areas.

Fog, drizzle and rain extended in a belt 200 to 300 miles wide from eastern Kansas northeastward to south of the Great Lakes region and into the northern Appalachians. Some snow was reported along the northern border of the wet belt. Travel, both air and highway, was slowed in some areas.

Temperatures were in the 20s from the northern Great Lakes to Nebraska with readings below zero in northern parts of the Northern Plains. It also was cold in northern New England, with temperatures in the 20s, the same as in the central Rockies.

Mild temperatures in the 60s and some 50s extended over most of the Southern Plains and lower Mississippi Valley.

The first heavy snow of the season blanketed southern England and Wales today in the wake of a cold snap.

And in Sicily, hundreds of Lipari islanders slept in the open again last night, chased from their homes by returning earthquakes.

OK Parking Lot Land Purchase

Birmingham Approves $202,100 to Acquire 10 Pierce Street Parcels

From Our Birmingham Bureau

BIRMINGHAM — Birmingham was assured of its first municipal parking lot last night when city commissioners authorized the purchase of $202,100 in property on Pierce between Merrill and Brown streets.

Options on 10 of the 11 parcels needed for the 223-car space lot were to be taken up this morning, City Manager Donald C. Egbert said.

Final transactions on some lots will be completed in 30 days, but owners occupying homes on the site have 90 days in which to secure new living quarters.

Egbert said two parcels will be cleared immediately for use by all-day parkers until construction of the entire lot, now estimated to cost upwards of $290,000, is undertaken.

The single remaining property, owned by Mrs. Judson Bradway, will be up for condemnation proceedings Jan. 20 in Oakland County Circuit Court.

Egbert is expected to release information on a new parking lot project today, following a committee session of the lawmakers after the regular meeting last night.

Mendes, Scelba Plan Conference in Rome

ROME (AP)—A closer economic alliance between France and Italy probably will be discussed by Premier Mario Scelba and French Premier Pierre Mendes-France here next week.

It is presumed that technical aspects of carrying out the projected rearmament of West Germany also will be given attention during a three-day official visit of the French leader.

He and Mrs. Mendes-France are to arrive in Rome by motor car next Tuesday morning. French officials said he will wind up the visit with a news conference Thursday, Jan. 13. Social functions are planned along with the official talks.

the steering committee which has control over committee assignments.

Sen. Earle C. Clements (Ky) had no advance opposition for reelection as Democratic whip nor did Sen. Thomas C. Hennings Jr. (Mo) to keep his post as secretary of the Democratic Senate Conference.

Sen. Walter F. George (Ga), senior member of the Senate, was the obvious Democratic nominee to succeed Sen. Styles Bridges (R-NH) as president pro tempore. The formal election takes place tomorrow when the new Senate organizes.

The same applies to Rayburn's election as speaker to succeed Rep. Joseph W. Martin (R-Mass), who will become GOP House floor leader.

Rep. Charles A. Halleck (R-Ind), present GOP floor leader, probably will be Martin's chief assistant in the new House. But he will hold no formal position. Rep. Leslie C. Arends (R-Ill) is in line to keep his post as party whip.

Among Senate Republicans, Sen. William F. Knowland (Calif) is expected to continue as GOP floor leader, Sen. Leverett Saltonstall (Mass) as whip, Sen. Eugene D. Millikin (Colo) as chairman of the GOP conference, and Sen. Milton R. Young (ND) as conference secretary.

Bridges was the only apparent candidate for chairman of the Senate GOP Policy Committee to succeed Sen. Homer Ferguson (Mich), who was defeated for re-election.

Eisenhower gave GOP leaders a preview of his state of the union message at the White House yesterday.

The President was said to be stressing in the message a new defense concept in which proposed military manpower reductions would be offset by the employment of new weapons and closer links with America's allies.

Eisenhower was represented as taking an optimistic view of the nation's long-range economic prospects and was said to be emphasizing in the message plans to advance the health and economic welfare of the country.

It already has been disclosed that Eisenhower will ask for continuance of corporation and excise taxes at present levels and will propose an increase in the statutory minimum wage from 75 to 90 cents, as well as pay increase for civil service and postal workers.

The latter would be tied to a postal rate increase certain to be opposed by many Democrats.

The President is expected to ask again for a three-year extension of the reciprocal trade agreements program with power to make gradual tariff cuts ranging up to 15 per cent. In 1954 Congress extended the program only one year without tariff cutting powers.

The new budget, to be delivered to Congress Jan. 17, is expected to call for expenditure of about 63 billion dollars in the fiscal year beginning next July 1. Secretary of the Treasury Humphrey has said it will not be in balance.

William Danks Jailed for Abandoning Body

William Danks, 32, pleaded guilty yesterday to illegally disposing of a dead body and was sentenced to 30 days in Oakland County Jail by White Lake Township Justice Fred R. Stephan.

Danks admitted that it was he who left the body of Mrs. Ruth J. Trenary, 41, of Van Dyke in a swamp near Pontiac Lake Dec. 26. The body was discovered three days later by three Redford Township brothers who were hunting rabbits in that area.

An autopsy showed the woman died of natural causes. Danks said she was in his room at a nearby boat livery at the time.

Mart Displays Interior Decor by Hills Woman

Pipsan Saarinen Swanson (Mrs. J. Robert F.) of Bloomfield Hills is one of this country's four top interior designers exhibiting at the annual Home Furnishing Mart in Chicago.

Mrs. Swanson's exhibit is on the main floor of the Merchandise Mart and is a four-room living unit. She utilized simple furniture and materials native to this area of Michigan.

Outstanding in her exhibit is a high cabinet serving as a divider between the dining area and the kitchen. It supports plants on top and houses an oven, a refrigerator and a storage unit.

For kitchen cabinets, Mrs. Swanson selected natural birchwood.

Daughter of the late Eliel Saarinen, Mrs. Swanson works with her husband at Swanson Associates, Bloomfield Hills. She is noted for her deft use of color and texture in fabrics and for the beauty she achieves in simple-lined furniture.

to be sent to manufacturers in about three weeks.

Results from the school questionnaires are not expected until July.

"Our retail-study aim is to provide information to retailers in the county so they can make better judgments themselves regarding store locations," said Skrubb.

"We feel that growing and healthy stores are good for all county citizens. The whole survey is being undertaken with the idea of making information available which will make for economic growth in all fields of industry and commerce."

The University group has conducted similar surveys in 29 communities, but this is the first county-wide project, Skrubb said. It may be the largest of its type ever done, he added.

"The tremendous growth of Oakland County (some cities 500 per cent in ten years) requires that information be available to allow sound planning of industrial and commercial advancement," Skrubb concluded.

Panama Police Hunt for Hired Assassins

(Continued From Page One)

cluding ex-President Arnulfo Arias and two women, have been rounded up for questioning. Col. Saturnino Flores, deputy commander of Panama's national guard, has indicated strongly that the weight of suspicion is on followers of Arias, who was ousted from the presidency in 1951 by a bloody national guard coup.

National guard headquarters said last night the assassins apparently used machine guns of German manufacture.

Investigators said the shots were fired about 100 feet from the brilliantly lighted pavilion at the Juan Franco race track in which the 46-year-old strongman President was standing with friends.

Two other men were killed and three were wounded in the exchange of shots between the killers and Remon's bodyguard.

Former Vice President Jose Ramon Guizado, who was sworn in yesterday as Remon's successor, kept the dead President's Cabinet almost intact. The chief change was the shift of Ricardo Arias, labor minister under Remon, to be foreign minister. This post formerly had been held by Guizado along with the vice presidency.

GM Offers New Stock to Present Holders

(Continued From Page One)

holders is expected to be made early in February.

The offering to shareholders will be underwritten by a nationwide group of investment firms headed by Morgan Staney & Co.

Harlow H. Curtice, president, and Alfred P. Sloan Jr., board chairman, declared in a joint statement that proceeds of the new issue would be used partly for capital expenditures and partly for working capital.

Just a year ago this month, General Motors announced a broad new expansion program calling for outlay of a billion dollars in 1954 and 1955. As this program developed, Curtice said, it was found necessary to plan for more funds than originally contemplated.

The corporation spent 750 million dollars in 1954, plans to spend 500 million in 1955 and, in addition, will spend more in 1956, Curtice said.

For the first nine months of 1954, GM has reported sales of $7,219,169,633 and net income of $584,915,125, equivalent to $6.58 a common share.

General Motors has 88,513,817 shares of common stock held by 490,000 stockholders. In addition to common and the $300,000,000 in debentures, the corporation has two preferreds — $100,000,000 of $3.75 preferred and $183,564,000 of $5 preferred.

Brennan Takes Fight to State Supreme Court

LANSING (AP)—Wayne County Circuit Judge Vincent M. Brennan today went to the State Supreme Court in his fight to retain his seat on the bench.

Arthur H. Rice of Detroit, attorney for Judge Brennan, conferred with Assistant Atty. Gen. Horace W. Gilmore this morning and agreed to discontinue action in the Ingham County Circuit Court.

Rice immediately filed a petition for a writ of mandamus in the State Supreme Court. A hearing was set for Jan. 12 on the petition.

The writ of mandamus, if granted, would force the State Judges Retirement Board to allow Judge Brennan to withdraw his retirement application.

Under criticism for his drinking, Judge Brennan submitted a retirement application in October. The application was approved by the retirement board.

In December, he asked the board to allow him to withdraw the application. He told the board he and his family could not live on the $6,348 yearly pension.

The board, however, refused to listen to his pleas. Board members said they could not allow withdrawal of the application once it was approved.

Petersen's Fate to Be Revealed

Ex-U.S. Worker Likely to Be Sentenced Today for Misusing Secrets

ALEXANDRIA, Va. (AP)—Joseph W. Petersen Jr. may learn today how stiff a penalty he must pay for using government secrets "in a manner prejudicial to the safety and interest" of this country.

Petersen, for 13 years a trusted employe of the National Security Agency and its predecessors, pleaded guilty Dec. 22 to a single charge involving the storing in his Arlington apartment of classified information dealing with communication intelligence activities of the United States and the Netherlands.

U. S. Dist. Judge Albert V. Bryan called upon government lawyers, preliminary to imposition of sentence, for evidence as to the gravity of Petersen's offense. He also gave David B. Kinney, Petersen's lawyer, a chance to make a statement.

Judge Bryan did not indicate in advance of the hearing whether he would impose sentence today. Kinney said, however, that he anticipates this will be done. The maximum possible penalty is 10 years in prison and a $10,000 fine.

The government has indicated that two other charges against Peterson may be dropped in view of his admission of guilt on the second count of a three-count indictment returned Oct. 20.

The 40-year-old Petersen was accused in these two charges of (a) obtaining information about national defense "with intent and reason to believe" it would be used to the injury of the United States and to the advantage of a foreign government, and (b) wilfully and unlawfully removing documents and papers from the secret agency.

Over $2,000 Donated to Bobbie Dunn Fund

Contributions to the Bobbie Dunn Fund today edged past the $2,000 mark as sizeable donations were turned in by two local plant departments and the Oakland County sheriff's department.

GMC Truck and Coach Plant No. 4 service department contributed $289 to the fund for the 13-year-old boy who lost both legs under a freight train Christmas Day.

And the employes in the Pontiac Motor Division administration building gathered $283 for the boy.

The sheriff's department added $75 from its flower fund to $25 collected in a counter canister for a $100 donation.

Today's total is $2,296, reported the three pastors administering the fund.

The administrators are the Rev. E. D. Auchard, of First Presbyterian Church; the Rev. George Garver, of Lutheran Church of the Ascension, and the Rev. Fred R. Tiffany, of Bethany Baptist Church.

stuck into the back of the guard," Rettig said. "The guard Kaszuba said, 'I have no gun':" Rettig said the gunman retorted: "Don't kid me. Give me your gun."

Rettig reached under his overcoat and grabbed his own revolver as the man began marching the bank guard toward the rear of the bank.

The former policeman said he fired a warning shot and that the suspect then fired one shot at Kaszuba.

Rettig then took aim, he said, and fired two shots at the suspect, hitting him twice in the back. The suspect apparently died instantly.

BIKE LICENSE

Reflector Type License Issued for Bicycles

Pontiac Police today began issuing a new reflector-type bicycle license plate which replaces the old metal plate.

Police Chief Herbert W. Straley cautioned bicyclists that the 1954 licenses expired Dec. 31. A city ordinance requires the registration and licensing of all bicycles.

The reflector-type license was adopted recently by the Association of Michigan Chiefs of Police for added night safety.

"However, we do not recommend that bicyclists ride on the streets at night," the chief said.

The 1955 license may be purchased at the police violations bureau at 40 E. Pike St. for 25 cents.

Benson Disowns Anti-Semitic Set

Invites Jewish Leaders to Confer After Letter Smearing Ladejinsky

WASHINGTON (AP)—Secretary of Agriculture Benson, "shocked that anti-Semitic implications have been raised," invited Jewish leaders to confer with him today on issues raised by release of a letter commending the security ouster of Wolf Ladejinsky as U.S. agricultural attache in Japan.

Edward Schultz, national chairman of the B'nai B'rith Antidefamation League, announced yesterday acceptance of an invitation from Benson. Joseph F. Barr national commander of the Jewish War Veterans, also accepted.

Barr and Schultz were among a number of American Jewish leaders who last week protested release of a letter to the department from George N. Vitt, a Russian emigre and now industrial editor of American Exporter Publications in New York.

In that letter—shown to newsmen by Milan Smith, Benson's executive assistant—Vitt applauded Benson's refusal to allow Ladejinsky to continue as agricultural attache in Japan after a new law transferred such officials from State to Agriculture Department control.

Policeman Finds Florida Farmer Praises Pontiac

Pontiac Police Lt. Rudolph Nartker returned from a 10-day vacation in Florida today with a story—not of the ocean, the beaches or the fine fishing around the Keys—but of Pontiac.

"I'm really a country boy at heart. Thought, one day, I'd visit the farm lands just outside of Miami," said Nartker, who made the trip with his wife and son.

"Few miles out I saw a farmer in the field on a big, beautiful farm. So I went up to him and asked him how many cows he was milking and he said about 950. Altogether he had about 1,500 head of cattle."

The elderly farmer continued working as he talked to the Pontiac policeman, never suspecting where he lived.

"Well, got to get this new shipment of hay and alfalfa unloaded off these two trucks," said the farmer. "They sure grow good stuff up there in Michigan."

"Where in Michigan?" Nartker asked.

"Pontiac, of course," replied the farmer. "It's really Oakland County, around Clarkston, but I call Oakland County Pontiac."

Said Nartker, "Florida is a wonderful place, but I was really glad to see Pontiac again after 10 days—and that ain't hay."

Hickory Wood Pins May Support Mines

MORGANTOWN, W. Va. (UP)—Researchers at the West Virginia University's agricultural experiment station have been working with hickory in testing the possibility of using wood pins for mine roof supoprt.

Thus far, the researchers have found the wood pins to be superior to steel in certain mines where corrosive water is a problem.

Success along this line would also create a greater demand for hickory which now has only a limited use, they said.

That wood was selected for the experiments because it's one of the strongest grown in West Virginia and is usually plentiful in most of the coal mining areas.

The researchers see no particular problems in the manufacture of wood pins from hickory.

Economically, the manufacture of wood pins is also considered to be less costly than that of steel bolts and anchoring devices.

Station technologists believe the "critical factor" in the use of mine pins is the anchoring of the pin in the rock above the mine roof.

Doctors Agree on Obesity Peril

Overeating Is Rated as Much More Dangerous Than Smoking

WASHINGTON (INS) — Two experts agreed today that overweight shortens life and that growing fat is more dangerous to health than being fat.

The experts are Drs. Hugh M. Sinclair, director of the Laboratory of Human Nutrition at Britain's Oxford University, and Frederick J. Stare, chairman of Harvard University's Department of Nutrition.

Sinclair said: "If you are middle-aged or beyond and overweight 10 pounds or more, then your chances of dying are greater than the chances of a heavy smoker dying from lung cancer. Over-eating is very much more dangerous than smoking."

Stare cited insurance company figures which indicate that overall mortality rates for men markedly overweight are increased by 79 per cent and for women, by 61 per cent.

As an example, he said a 50-year-old man in apparent good health has a life expectancy of about 20 years more while an obese (very fat) man's chances of living those 20 years may be cut by about six years, eight months.

Both gave their views in copyrighted interviews in the magazine "U. S. News & World Report."

Both pointed out that overweight makes one more susceptible to many different diseases and said that the reason why growing fat is more dangerous than being fat is because the former puts an added train on the heart.

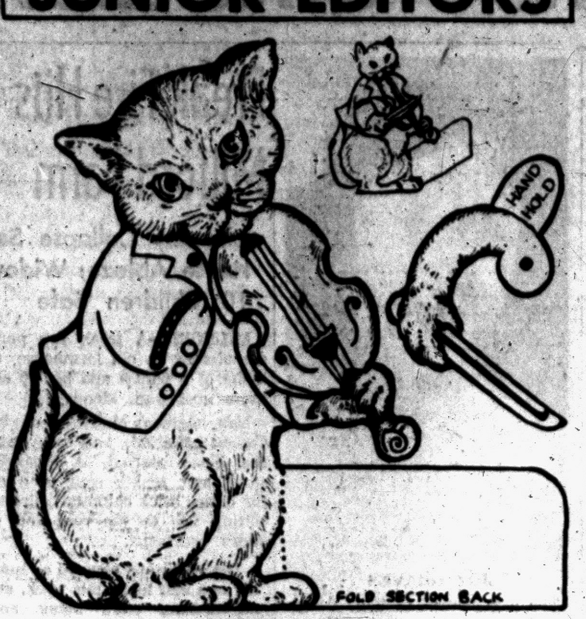
Sinclair's recipe for not getting fat is "to eat a big breakfast, particularly protein foods such as milk and bread or other cereal; to walk a block or two regularly; and, if the bathroom scales start to rise, to cut fatty and starchy foods down a bit."

Stare said that the important thing is to "make up your minds" that you want to get or keep your weight down. He said that it is easier to get through 24 hours with less calories if you eat a big breakfast and four or five small meals than by eating the conventional three meals a day.

Stare asserted it is unfortunate that many people falsely believe that you cannot take off poundage by exercise. He stressed the importance of the amount and regularity of exercise and suggested parking your car several blocks from where you work and walking the rest of the way twice daily if you want to reduce.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS



MOTHER GOOSE—2
The Cat and The Fiddle

Heigh diddle diddle, the cat and the fiddle,
The cow jumped over the moon
The little dog laughed to see such sport,
And the dish ran away with the spoon.

One of the most famous of the Mother Goose rhymes is this one about the cat and fiddle, and the cow. This toy shows that cat and fiddle; tomorrow we will jump the cow over the moon.

1. With water colors or crayons, color the cat yellow. You can make its jacket red or blue with yellow buttons. Because violins, or fiddles, are made of wood, you should color the fiddle and bow brown.

2. Paste the picture smoothly on cardboard. When dry, cut out the cat and the fiddle, leaving the big tab attached. Carefully cut out the arm and the bow.

3. Punch a hole in the cat's coat collar, and another in the end of the arm. These holes are marked by small circles. Then cut across the dotted line on the sleeve.

4. From the back, slip the bow, hand and arm through the sleeve slot. Now pussy will look like the small sketch. Insert a small brass paper fastener through the lapel hole and through the hole in the arm. Fold back the tab on the arm (which now is hidden behind the cat). By moving the tab, you can move the arm and the bow to and fro over the fiddle.

Atheist Sidesteps Oath of Citizenship

PORTLAND, Ore. (AP) — Walter Plywacki, a self-proclaimed atheist who was denied citizenship because he refused to repeat the words "So help me God," became a citizen of the United States yesterday by affirming the oath.

Plywacki, a 25-year-old Oregon State college student, is a native of Poland. He first applied for citizenship to the federal court in Hawaii. That court refused him when he stated that he was an atheist and could not conscientiously repeat the traditional oath with its reference to God.

He appealed the Hawaiian court ruling to the 9th Circuit Court of Appeals in San Francisco and this court reversed the Hawaiian ruling.

Nominating Petitions Name Long List of Candidates

Filing Deadline Closes Across County for Primary Elections Scheduled Feb. 21

Nominating petitions for the Feb. 21 primary election were filed across the county yesterday, preparatory to the general election April 4.

In most townships, clerks had a busy day before they stopped accepting petitions at the 4 p.m. deadline.

Candidates unopposed in seeking their party's nomination are assured a place on the April ballot, if their petition was accepted and found to contain the proper number of names.

Here are some of the persons seeking nominations as Republican and Democratic candidates:

Sees New Fight on Dairy Props

Benson Report May Spur Move for Higher U.S. Price Supports

WASHINGTON (UP) — Agriculture Secretary Ezra T. Benson today planned to submit a report to Congress on dairy price supports.

Benson has said several times he wants no changes in the price program, but his report is almost certain to start a new fight over government supports for butter and other dairy products.

The current program pegs dairy price supports at 72 per cent of the "fair earning power" parity level, the lowest rate Benson is permitted to set under a law which allows him to go as high as 90 per cent.

Some farmer spokesmen want a higher price guarantee or an entirely new federal support program. Others like the current program but say an additional subsidy is needed for a short time to dispose of surplus butter, cheese and non-fat milk solids.

Benson was not asked to recommend any changes in the support program today. Congress called for the report in a section of the overall 1954 farm act last summer, asking the secretary only to study and outline possible new methods of supporting dairy prices and controlling milk production.

Benson now props dairy prices by purchasing surplus butter, cheese and non-fat solids for the government and subsidizing fluid milk for school children and the armed forces.

The National Milk Producers Federation is expected to ask Congressional farm leaders to force dairy supports up at least to 80 per cent of parity or approve the federation's proposed "self help" plan.

financed by levies on dairy farm-
financed by levies on dairy farmers would buy some surplus products to support prices. Administration officials have been cool to the plan, partly because it would require the government to keep buying part of the milk surplus.

Freak Fire Hits Milford Farm

Chimney Collapse Sets House Ablaze; Widow, 10 Children Safe

MILFORD—A freak fire partly demolished an old farmhouse, the home of a widow and her 10 children, at 1 p.m. Monday.

Mrs. James McEwan of 3028 Cooley Lake Rd., was away when the blaze started. A weakened stove pipe length split open and the entire brick chimney collapsed, setting fire to the roof and upstairs bedrooms.

The McEwans planned on moving to a new home this week, and negotiations were being concluded for the sale of their present home.

Extent of the damage was not determined immediately. The frame building was insured.

Milk dealer Ralph Ruggles saw the smoke from an adjoining farm, and turned in the alarm. Only two of the ten children were home at the time, and Margaret, 18, led her brother Joseph, 4, to safety.

The Milford Fire Department answered the call, and extinguished the fire.

Williams Team Gets 'Uniforms'

Five Top State Officials Provided With Identical Brand New Buicks

LANSING (UP) — Gov. Williams' new team of top state officials has been assigned uniforms, of a sort. The officials have been provided with brand new 1955 Buicks—identical in every respect.

The cars, black Century models, were lined up in the Capitol parking lot when the officials reported for work this morning.

They will be used by Aud. Gen. Victor Targonski, Atty. Gen. Thomas M. Kavanagh, Secretary of State James M. Hare, Treasurer Sanford A. Brown, and Clair L. Taylor, superintendent of public instruction and the only Republican in the group.

J. Stanley Bien, director of purchasing, said Lt. Gov. Philip A. Hart will not be assigned his own car. The lieutenant governor uses a vehicle out of the state's motor pool, he said.

This is the first administrative board to be equipped with Buicks in the last five years, Bien said.

Bids are solicited from Oldsmobile and Buick, he said, and have usually been awarded to Oldsmobile.

Buick submitted a low bid of $2,259 for each car in this year's fleet, he said.

Gov. Williams and State Highway Commissioner Charles M. Ziegler are assigned Cadillacs from the State Police pool.

Lapeer Home Doctor to Seek Reinstatement

LANSING (UP) — Dr. Norma Anderson, suspended as a physician at the Lapeer State Home and Training School for making "false statements" about the institution, will seek reinstatement before the Civil Service Commission Thursday, it was revealed today.

Dr. Anderson was suspended Sept. 8, 1954, after advising the Saginaw Valley Child Guidance Clinic not to send a patient to the Lapeer institution because of "homosexual activities" allegedly practiced by the Lapeer patients.

Dr. Charles Wagg, state mental health director, said there was no truth to her statements.

Civil service officials said Dr. A. T. Rehn, superintendent of the Lapeer home, also accused Dr. Anderson of not getting along and failing to cooperate when on call.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

TUESDAY, JANUARY 4, 1955

"Must" Reading on Trade

Members of the National Association of Manufacturers recently heard a notable explanation of why the Eisenhower trade liberalization policy is so important.

The speaker was Clarence B. Randall, chairman of Inland Steel Co. and chairman of the President's commission on foreign economic policy.

Mr. Randall pointed out that flow in both directions is vital to healthy international trade. He also showed how tariffs or trade limitations can be self-defeating.

"I say to you quite bluntly," he told NAM, "it is my considered judgment that a tariff that cuts imports is a tariff that cuts exports. It is that simple."

An example is Danish bleu cheese. After the war we needed Denmark on our side and we also needed Danish bases in the Baltic. At the same time we wanted to sell the Danes West Virginia coal. In exchange the then starving Danes had nothing to offer but bleu cheese.

★ ★ ★

But our Congress limited bleu cheese imports with the only result that could be expected. We lost the chance to get air bases in the Baltic and the Danes bought Polish instead of West Virginia coal, thus benefiting the Communists.

Another example is Canada's refusal to buy California's citrus fruit because we barred Canadian oats. As the speaker said the danger from imports is easy to see and that from the loss of export market very difficult to identify.

★ ★ ★

Mr. Randall's address should be must reading for every member of the new Congress. He went straight to the heart of things when he chided NAM for demanding an end of all economic controls while still insisting on tariff protection.

"I say to you," he told the delegates, "manipulation of tariffs IS Government control."

Junk Mail Test to End

After 15 months trial, Postmaster General Summerfield has declared the so called junk mail experiment a failure and ordered it discontinued March 31.

As announced, however, this order benefits only cities and towns. Simplified address mail delivery will be continued on rural routes and to boxholders, a service provided since 1934.

★ ★ ★

In issuing the order the Postmaster General pointed out that the simplified address mail experiment had failed to reduce the huge losses incurred in handling it. It is his opinion that the only solution is a higher rate which will be sought in the next session of Congress.

Mr. Summerfield's reference to higher rates seems to mean that if they are authorized, the junk mail will be resumed. At no place in his statement is there any reference to the rising tide of protest against junk mail. Householders object, calling it a nuisance, and postal employes argue that it makes them door to door bill peddlers.

★ ★ ★

We hope these protests and Congressional talk of an investigation yet will persuade the Postmaster General to make his March 31 order permanent.

Stork Forcing Big Plans

Our rapidly rising birth rate is a continuing development with important social and economic implications.

Not only in the Nation at large, but especially in Michigan, the larger baby crops are forcing long range planning on a much grander scale. Last year the State's population passed the 7,000,000 mark. This is an increase of roughly 628,000 over the 1950 census of 6,371,766.

In the same twelve months a total of 192,000 births were registered, 10,000 more than the record 1953 total in the State.

★ ★ ★

Nationally things were pretty much the same during 1954. For the first time in U. S. history births exceed 4,000,000 with prospects for an even greater number of arrivals in 1955.

Population experts point out that because of the low birth rate in the 1930s, there will be fewer marriages in the next few years and hence fewer babies. But beginning in the 1960s an even bigger baby boom is expected as the record birth rate of the last 15 years becomes a wave of marriages.

★ ★ ★

All this means continued expansion of our education system with 50,000 additional jobs each year. It also means expansion of the professions and service trades with more employment, production and consumption in all lines.

Of interest to Pontiac is the automotive outlook. Federal planners say the automobile industry faces heavy future demand. They predict that by 1960 some 81,000,000 vehicles will be registered in the United States. Present total is 58,000,000.

Says Soapy Gets Votes Because of Personality

Why has Soapy been beating the daylights out of us Michigan Republicans? Well, gather around children, while I quote from a Detroit (Republican), who spends his summers up in the Charlevoix district.

"I happen to be one of those who was not surprised at the election results, specifically as far as Gov. Williams is concerned, because I could tell from the trend of the voters in Charlevoix and Emmet Counties that they were strong for the Governor.

"They like the guy personally. Do you know that Williams walks down the streets of Charlevoix and calls nearly everybody he meets by their first names? 'Hello, John, how's all the folks? How's Agnes, did she get over that operation she had?'

"I am almost convinced that they don't vote for him because he is a Democrat but because they like him, personally. But I didn't think the people liked him so well that he would carry the whole state ticket with him.

"I trust this will not be construed as partisan for it's not, just my observation from listening to the inhabitants of the more remote sections of our state."

But, who is running the state's business? Who is furnishing transportation, drivers, etc., while Soapy is making all of these acquaintances?

69-Year-Old Woman Held Prisoner in Nursing Home for $350 a Month

Texans, please take note of the "white slavery" going on in one of your key cities, and probably in many other places all over the U. S. A. With all of our generosity to foreign nations, maybe we better show more kindliness to our own elderly Americans!

By DR. GEORGE W. CRANE

Case N-314: Melissa C., aged 69, is an able bodied woman who is in a private nursing home in Texas.

Melissa is able to walk around under her own power. But, like typical older folks, she talks a lot about the "good old days."

Her niece decided to place her in a home. Melissa had money, so she is now paying $350 per month.

"Dr. Crane, she is a prisoner in the same manner as Ruby," said one of her friends, who is a member of my Chicago Bible class and a former Texan.

"I went to see Melissa a month ago. And I wasn't even permitted to speak to her without an attendant standing by to watch and make sure she didn't say anything out of order.

"As I started to leave this home, Melissa kissed me, and then tried to slip a letter into my hand.

"The attendant, who might just as well have been a Gestapo guard, seized the letter from me before I could even read the opening paragraph.

"He called the matron, who threatened to lock up Melissa in solitary confinement. The matron then demanded the letter from the guard.

"They wouldn't even give it to me to read. So here is a poor old soul who is imprisoned in this home, though paying $350 per month for her board and room, and they will neither let her speak to anybody alone or even send out a private letter!

"Dr. Crane, this type of slavery is appalling. Can't something be done to free elderly Americans from this prospect of final slavery during their declining years?

"We try to reassure our old folks by Social Security checks after the age of 65.

"But if they are stuffed into homes that are veritable prisons, and their Social Security checks gobbled up by these homes, what advantage is there in Social Security checks?"

All of you elderly readers will face the time when you retire from active work.

And whether you have $350 per month income or only $50 to $100 Social Security, what will happen if your kinfolk don't want to look after you or your landlord decides you should be placed in a home?

"But I can look after myself," said Melissa, "so why am I in this home?

"I have enough money to live on, so why am I a slave in this nursing home?"

What do you readers wish to say to Melissa?

"Oh, but she needs somebody to look after her! Her husband is dead and she might fall. Besides, she is eccentric and gives away her money," her relatives may say.

"She also bores everybody by telling the same old stories of her childhood," they may add. "We can't stand to have her around. She drives us crazy with the same old prattle day after day."

Obviously, private nursing homes relish patients such as Melissa who can pay them $350 per month.

But even our state welfare agencies also like to have them, for it adds more numbers, hence justifying higher salaries for the heads of such large welfare agencies.

So subconsciously such people naturally don't want curtailment either of welfare patients or of soldiers. But we taxpayers should also be considered.

David Lawrence Says:

Ike Should Recommend Passage of FEPC Law

WASHINGTON — There's one item thus far omitted from President Eisenhower's proposed legislative program, and that's a recommendation for the enactment of a Fair Employment Practices Commission.

Unless included, it may render meaningless the label "moderate progressive" by which the White House describes its philosophical position nowadays.

For the FEPC, which has been blocked in Congress by a filibuster of southern Democrats, becomes a logical measure at least for consideration now that the Supreme Court of the United States has decreed that there can be no racial discrimination in the schools.

The House of Representatives and the Senate both have been known to have majorities ready to pass the legislation. But the difficulty has been to get the measure to a vote in the Senate because of filibustering. Now, however, that legislative obstruction has been declared to be an offense against ethics and is held to bring the dignity of the Senate into disrepute, there can hardly be any filibustering without stultifying the 67 senators who voted to condemn Senator McCarthy for legislative obstruction. This number is more than two-thirds of the Senate — enough to alter the rules and cut off unlimited debate.

President Eisenhower is on record as having congratulated Senator Watkins for leading a successful fight against the Wisconsin senator, and it doesn't seem plausible that Eisenhower would refrain from asserting his leadership if a measure as important to the progressive cause as is the FEPC should require his help.

It is true the President for a long time took the position that the rules of the Senate were the Senate's problem, but he modified this under pressure from his followers and certainly he has a constitutional right to recommend the adoption of legislation covering racial or religious discrimination in employment.

This whole problem was an issue in the 1952 campaign and Eisenhower won wide support in the South because of his emphasis on states' rights. His position was interpreted as meaning that he would not favor federal legislation on the subject. Since that time, however, the President's own attorney general appeared before the Supreme Court and pleaded with the court to denounce state laws which permitted racial segregation in the schools. The Supreme Court accepted the plea by a unanimous decision. From that time on, Eisenhower, in effect, has been committed to federal enforcement of all constitutional rights relating to discrimination.

Up to now, the Eisenhower administration has dealt with the issue of discrimination in employment by indirection. An executive order has been issued which stipulates that government contracts, whether for defense work or anything else, shall not be awarded—irrespective of the bids—to any contractor who permits discrimination because of race, religion or national origin.

But there is really no sound basis in existing law for such an order. Besides, it applies only to those who accept contracts for work with the government. If the principle is sound for government contractors, it is argued now that the same prohibition should be written into law so as to apply to all employers.

The argument for state handling of the matter has considerable support in Congress, because New York State, with a commission and a law that does not prescribe penalties but depends primarily on public opinion, has been operating successfully. It is believed nevertheless that a bill based on the voluntary principle, such as the House of Representatives passed on February 23, 1950, by a vote of 240 to 177, would be passed again by the House.

The question now is what the southern Democrats in the Senate would do about it. Eisenhower, of course, as the leader of a coalition of left wing Republicans and left wing Democrats in both houses, has an opportunity to champion the measure and possibly secure its adoption in the Senate.

It will be interesting to see whether the northern Democrats who led the fight for civil rights in the 1952 Democratic National Convention are going to surrender to the right wing of their party and ignore one of the most important planks espoused by present-day liberals.

There has been a strange silence on the subject thus far, and one wonders if, merely for reasons of political expediency — something which true liberals usually abhor—any proposals for a Fair Employment Practices Commission will be killed in the new Congress.

Baering Down

By ARTHUR "BUGS" BAER
(International News Service)

When Congress gets on the shooting end of its laundry frank it will be Democratic. They will have the slight edge of a stone-age razor.

Ike will not worry because Harry Truman ate the other half of that political grapefruit in 1946. In the next two years the Missouri waltzer stacked up against a Republican Congress.

Which evaporation of confidence didn't stymie Harry from stretching another octave on the White House. He ran and won again in 1948.

We concede Harry was expert in playing both ends against the middle. He learned that in Missouri trapping a raccoon in a hollow log.

But Ike will never be the slick politico Harry was. Harry enjoyed sherry-and-egg anytime he heard a hen clacking under a grapevine.

We sense the old guardians will stack Ike up again in 1956. In the accumulative interim he has the same old house guests. Aid for Asia, the budget deficit, military manpower, the eighteen-year-old vote, bundles for Hawaii and Alaska, Taft-Hartley Labor Act revision and the reduction of taxation without tyranny.

These problems have been on the agenda longer than the file on Judge Crater. You cannot leave them for the next administration if you intend to be that yourself.

Less than a leaping headache from New Year's Eve we're not interested in the reduction of excise taxes on liquor, tobacco and late hours. On sober second thought it will still be a headache when its supposed to happen in April.

Whoever selected April first for that trick had his tongue in his cheek and his tonsils in escrow. Ike is going to ask Congress to skip it. Which will make him as popular as a taxidermist on Noah's ark.

It's going to be a busy year, little man, from the word goat.

Ingrown Toenail Occurs in Young People Who Wear Shoes Which Are Too Tight

By WILLIAM BRADY, M. D.

Ingrown toenail occurs in young persons who have habitually worn shoes too tight, too narrow, too short or too pointed at the toes. A common fault of shoes is that they make the wearer toe out. This is not natural. The undistorted foot toes straight ahead or a little inward.

For years I wore with great satisfaction shoes that were highly flexible in the shank and built as though to make one toe in. No corns, calluses or toenail trouble. Then I followed Horace Greeley's advice, failed to find the shoes I wanted, began wearing ordinary shoes and presently had foot troubles I had never known before. I do not know whether these shoes are still on the market.

Taken before the groove at the side of the nail is filled with granulation tissue ("proud flesh") an excellent corrective for ingrown nail is filing or rasping the surface of the nail down nearly to the quick, with a piece of lavastone or coarse pumice and trimming the nail straight across, without trying to round the corners. The thinning of the nail should be repeated in two or three weeks. The nail then grows flat instead of convex from edge to edge and so the edge does not irritate the soft tissue in the groove.

Sometimes the nail is too thick and too hard to file or rasp thin, without special instruments—and in that case it is advisable that it be done by the chiropodist or podiatrist.

For ordinary trimming of nails it is sufficient to soak the nails for twenty minutes in warm soapy water. If they are still too hard for scissors, don't let them continue growing into a deformity—visit the chiropodist or podiatrist who can trim them with bone-clippers.

Common causes of ingrown nail are trimming the nail too short, rounding the corners instead of trimming straight across, wearing shoes or stockings that are too short.

Some interesting operations for ingrown toenail are advocated by authorities, varying from excision of a wedge of tissue which includes edge of nail and adjacent flesh, to removal of the entire nail with its matrix and sometimes the distal phalanx (toe bone) as well.

Other authorities flatly declare that "these operations are all needless, as the trouble is always curable by protecting the soft parts from the edge of the nail. This may be done in mild cases by tucking a strip of kid or a bit of cotton under the edge of nail in front."

If granulations form (proud flesh) apply alum powder or other astringent to shrivel them or let the doctor cut them out (granulation tissue (proud flesh) contains no nerves and therefore may be cut away painlessly.)

Good idea to apply mild tincture of iodin to the area to be treated and also to wash your hands with soap and water and boil or flame any instrument you may use in treating ingrown nail.

Signed letters not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. Brady if a stamped, self addressed envelope is enclosed, etc.

Chinese Premier Chou En-lai Formidable Foe Grinding Red Ax

TOKYO (INS)—U.N. Secretary-General Dag Hammarskjold will come face-to-face in Peiing this week with an urbane man bearing gifts, a smile and a very sharp ax.

The man, Chou En-Lai, has worn the same dissembling smile and ground the same axe for more than 30 years as a professional Communist revolutionary. He's an old pro. He's smart and he's tough.

Today a trim, handsome 56, Chou En-Lai is Red China's premier, foreign minister, chairman of the People's Consultative Assembly, vice chairman of the Peoples Revolutionary Military Council, member of the Politburo.

He is a self-assured hatchet man for foreign affairs, and as such will greet the U.N. leader. In overall power he probably ranks behind only Communist party chairman Mao Tse-Tung.

But stripped of titles, who is the man Chou?

Secretary of State Dulles mockingly called him "fabulous."

General George Marshall termed him a "man of his word."

In Shanghai in 1945 old hands spoke of him as "engaging, reasonable," and others as "wily, shrewd."

There is a story that Soviet Foreign Minister V. M. Molotov, drinking with a Western diplomat, put the sharpest finger on Chou:

"If you think we (Russians) are difficult to deal with," Molotov was quoted as saying, "wait until you come up against Chou. We know exactly what it is like."

Western newsmen who joined Chou in marathon bull sessions in Nanking in 1947—smokescreen days when he glibly talked to Americans of "agrarian reforms" while paving the way for the Communist seizure of power—pieced together a handy sketch of his early days.

He came from down-at-the-heel but imperially proud Mandarin stock, joined the Communist party when it was born in China. He liked the Russians who set it up, and they liked the graceful, analytical youngster.

He followed the classic course of well-trained revolutionaries:

Graduation from Western-style Nankai University in Tientsin, preceded by a hitch in college in Japan, then a strentch of banging around French and British universities, Rhineland coal mines, then back to China in 1924 at the age of 26.

He had already been in prison, had already made his first pilgrimage to Moscow, and now fitted himself snugly into unsuspecting Dr. Sun Yat-Sen's coalition of Nationalists and Communists.

He wormed into Generalissimo Chiang Kai - Shek's famous Whampoa Military Academy and when Chiang marched his Kuomintang armies north in 1926 to smash the warlords, Chou was political commissar of the Gimo's own first army.

After the Kuomintang - Communist split, he was jailed, escaped a firing squad by minutes and showed up as a revolutionary leader in Nanchang—and temporarily took over that city in 1927 for the Reds.

Then to exile in Hong Kong. Then to Moscow as a Chinese delegate to the Comintern. Finally back home for keeps.

Chu joined with Mao Tse-Tung in plotting the fabulous "long march"—on which 30,000 Communists trekked 6,000 miles in 368 days to the northwest to escape Chiang Kai-Sheks armies.

In 1936 when Chiang was attempting to exterminate Communism as a threat to the Nationalist government, Chou won over "the "young marshal" Chang Hsueh-Liang to the Communist cause. He infiltrated Chang's 10,000 man army and kidnaped Chiang Kai-Shek.

On Moscow's orders, Chou reversed himself and negotiated Chiang's release on the understanding that there would be a merger of the Kuomintang and Communist forces.

Chou swings considerable weight in China. Today he is one of the "big four" — alongside chairman Mao, party theorist Liu Shao-Chi and army boss General Chu Teh.

Once he actually was top man in the Communist hierarchy but relinquished power to Mao during the long march. There is a theory that Chou has no stomach for absolute power.

There also is a theory he is a bigger figure abroad than he is in Peiping.

But there is yet another theory he has the stomach and that he is biding his time for Mao to step down or die before making another stab for power—one that he won't lose.

Chou's unblushing affection for Moscow has led him to trouble more than once because not all Chinese revolutionaries share his view.

Chou the sophisticate and Mao the "country boy," never on personally cordial terms, manage to work closely together, and to many who followed Chou's side-to-side career, he has weathered more political infighting than any Communist normally has any right to expect.

For this he has been called but never to his face, "Pu Tao Weng."

In China, "Pu Tao Weng" is a round-bottomed, lead-weighted doll figure that can be pushed around, but not pushed over.

Elusive Cemetery Mortifies Mortician

FULTON, Ky. (AP) — Funeral Director Paul Hornbeak says he can't find the cemetery where he's been asked to bury the body of Thomas Ernest Jordan, 82, who died last week in St. Petersburg, Fla.

Instructions with the body requested that it be buried in the Jordan family cemetery, believed to be in the Jordan Station vicinity. Hornbeak said he had located two distant cousins of Jordan, but neither knew where the cemetery was. He did not say what he planned to do now.

Bricker Will Renew Fight for Amendment

NEW YORK (AP)—Sen. John W Bricker (R-Ohio) says he'll try again to get Congress to approve his amendment limiting the President's treaty - making powers, which was defeated in the last Congress.

He said in an interview in the current issue of Newsweek magazine he would be willing to discuss "alternative language" with the President.

James McClain, of 465 Marshall St., will be installed as 1955 president of the Pontiac League of the Blind Wednesday at 8 p.m. in the Oakland County Crippled Children's Home, according to Monroe Beck, publicity chairman.

McClain succeeds Herbert Martin of 245 S. James Mason Lets Daughter Begin Acting

By BOB THOMAS

HOLLYWOOD (AP) — Here's one star who IS raising his daughter to be an actress—James Mason.

Nearly all film stars with children will shrink with horror if you suggest that their offspring might be allowed to become child actors. This is especially true of performers who have been child actors themselves. Most of them say that they want their children to finish their schooling before taking up acting.

* * *

Not so James Mason. He not only favors the acting career of his daughter Portland, 6; he even directed her debut. He made a brief Christmas film that appeared on Toast of the Town and was shown in theaters here.

But then Mason is always doing the unexpected. He blasted Hollywood without ever having been here. But now he is the town's strongest booster. He once backhanded William Saroyan for talking too loud in a movie. And recently he announced he would work only for his own company in the future and was virtually retiring as an actor.

* * *

"Why shouldn't my daughter act?" he asked in the patio of his large Beverly Hills home. "She's acting all the time, making up little plots of her own and playing the roles. She enjoys it immensely. It seems to me she would be a frustrated individual if she were denied the opportunity to act.

"I am aware of the insufferable kind of child actor. I think much of their trouble comes because their parents rely on the child for their livelihood. It gets to be a matter of economic necessity, and the child is often pushed into a life he does not desire.

* * *

"That's not true in our case. We will not have to depend on Portland's earnings to support us. Therefore we see no reason why she should not be allowed to act."

The actor said that Portland, who was named for Fred Allen's wife Portland Hoffa, apears to be unchanged by her acting debut.

"She still gets along beautifully with other children," he remarked. "She has been going to school since she was 2½, and she has always been well adjusted."

Born in Harrisburg, Pa., she has studied at Carnegie Tech's drama school and at the Old Vic School in England. McCarthy Steps Down

McClellan Eying Probe of Woman's Threat Story

WASHINGTON (AP)—Sen. McClellan (D-Ark) said today the Senate Investigations subcommittee may inquire further into a woman witness' story that a Communist threatened her life.

Dark-haired Mary Stella Beynon, 31, who said she is former FBI undercover informant, told part of the story yesterday as a witness at the subcommittee's last scheduled public hearing before Sen. McCarthy (R-Wis) hands its chairmanship over to McClellan in the new Congress.

* * *

McClellan says he plans some investigations of Communists, possibly including some follow-through hearings based on Miss Beynon's destory.

Miss Beynon told the subcommittee that Roy Hudson, whom she described as a former chairman of the Communist party in western Pennsylvania, informed her on May 13, 1947, that "I would not be killed that night, but I was under a death sentence." She said Communists had just learned she was reporting to the FBI. She did not indicate there ever had been an attempt on her life.

* * *

Yesterday's sessions brought contempt of Congress threats against five persons, one of them a Pittsburgh Steelworker who swore he was not a Communist after 1 p. m., then refused to say if he had been one at 1 p.m. or previously.

McCarthy said he would ask the subcommittee to cite the witness, Harold K. Briney, on grounds he was taking "frivolous" refuge in the Fifth Amendment. Briney had pleaded that to answer differently "may tend to incriminate me."

McCarthy called the Government Operations Committee, the subcommittee's parent, to meet tomorrow to act on the contempt charges against Briney and others. A vote for contempt would ask the Senate to refer the cases to the Justice Department for prosecution.

* * *

Briney said he had worked for 37 years for the Westinghouse Air Brake Co. in Pittsburgh, and is president of his independent United Electrical Workers local in Pittsburgh.

Miss Beynon and Frank Nestler, of Jeanette, Pa., together named eight Pittsburgh area employes of the Westinghouse Electric Corp., as persons they had known to be Communists. Nestler said he is a former Communist.

Three of those named did not answer subpoenas, and McCarthy said he would ask that they also be cited for contempt.

* * *

Miss Beynon and Nestler named them as Evelyn O. Daren, Monroeville, Pa.; Alfred Oyler, Pittsburgh, and Armino H. Sardoch, Pittsburgh.

Last night Westinghouse announced in Pittsburgh that it had "released" the three as "undesirable employes," together with two others named at the McCarthy hearing—William L. Heiston Jr. and Joseph Slater.

As he wound up his investigation of communism in defense plants, McCarthy said he was stepping down as subcommittee chairman "with both relief and regret." He and McClellan, who have had many differences, exchanged handshakes and McCarthy told his colleague:

"I don't have any gavel, John, to turn over to you, but I hope you have a pleasant and happy two years (as the new chairman)".

McCarthy told reporters he plans to serve "as actively as I can" as the senior Republican on the subcommittee.

Star's Etiquette Sets Example

Joan Crawford Taking Trouble to Answer All of 25,000 Yule Cards

HOLLYWOOD (INS) — Joan Crawford, who received 25,000 holiday cards and nearly 1,000 gifts this yuletide, could be a lesson in etiquette to the entire nation.

She's even answering her Christmas cards!

The popular star has a ready answer for why she is going to so much bother:

"If these people go to all the trouble to send me Christmas cards they deserve an answer."

Joan, who remembers a lonely childhood that held only a smidgen of Christmas cheer, had still another reason for her courtesy:

"I love people and I want them to love me!"

Even in the midst of filming "Female on the Beach," Joan has found time to already answer over 12,000 holiday well-wishers and much to the chagrin of her four children, she is passing along to them her passion for politeness above and beyond the call of duty.

"The other day one of the twins said she was sorry she got any gifts at all if she had to write thank-you notes to the people who sent them," Joan declared.

"But they're learning. Look at this," she laughed, pointing to a cardboard box full of goodies. "It's the children's first baking lesson."

Inside the box were two small cakes — one vanilla and one chocolate — and a dozen or so cookies. Alongside the box was an envelope addressed to "mother — alias Joan Crawford."

And the accompanying letter read:

"Dear mother. Here is a present for you. Have a swell party."

Dear mother (alias Joan Crawford) carried the box full of goodies around all day as though it contained solid gold nuggets instead of solid cake.

Joan's love for her fellowmen is not confine dmerely to the Christmas season.

The other day she was so pleased with a photo of her pooches taken by a California newspaper photographer that she wrote his editor a letter of thanks.

The editor was so impressed he ran the letter on page one with the comment "This is the first time in the history of this paper that anyone has thanked us for a photograph!"

John Barrymore Jr. Guilty on Driving Count

LAS VEGAS, Nev. (AP)—Actor John Barrymore Jr. must appear in court next Monday for sentencing after being convicted yesterday of reckless driving.

Maximum penalty would be a $500 fine and six months in jail. He is at liberty on $300 bail.

The officer who arrested Barrymore Dec. 22 said he ran over a pedestrian traffic isle and was weaving in heavy traffic. Barrymore denied the charge.

Actress Out of Hospital

LOS ANGELES, (AP) — Actress Marie McDonald returned home yesterday from a hospital where she was treated for a mild case of pneumonia.

While the owl cannot move its eyes in their sockets, it does have a great area of vision because it can rotate its head in a large arc of 273 degrees.

Mama May Love Mambo but Papa Really Hates It

By MARGARET LATROBE

Mama loves mambo — olay! Papa loves mambo—oh yeah?

Most papas, I find, love mambo just like they love rattlesnakes. The mambo is a swingy, springy dance step fresh from Latin lands and calculated to give papa nothing but fallen arches, damaged elbows, and a feeling that his college education was probably wasted.

Back in his dancing days, the fandango called "Put Your Little Foot" and a rented tux were sufficient unto a lively stag line on Saturday nights. And Pop has ever since been satisfied to call it a day with putting his little foot right there—on top of your best dancing shoes.

Come rhumba, come samba, come mambo, he puts his foot into a two-step and dares the band to change tempo.

Years back, someone caused an commenting that Latins are lousy commenting that Latins are Lousy lovers. Man and boy, our lads rushed in to say that while the sourly provocative statement might be plenty true, it could be enlarged in scope. They figured that Latins were lousy dancers, to boot.

Let the orchestra slide and rattle out "Mondongo," the fellows I know sidle by in a schottische. They paw the floor with patent leather, as though making ready for the 220-yard dash. To them, the mambo is the same as jig, minuet or polka.

Rhumba they will not. Samba they refuse. Tango is one more walk around the park. They begin and end the beguine with an uncompromising Strauss waltz.

Even when an occasional papa does love the mambo he finds himself steering a visiting matron who hasn't danced since the Turkey Trot was a big item. She treads water foolishly while her youngish partner demonstrates the skills lately learned at the dancing studio.

And his equally mambo-loving mama is stuck with an amateur choreographer who tightly clutches his partner's waist and takes off in the inspired ballet, "Afternoon for a Faun." And no Balanchine, Arthur Murray nor Fred Astaire could do a pesky thing to improve the situation.

I wish more papas loved mambo. I wish it took only two to tango. I wish more gents could be coaxed into tuxedos for a blissful evening of footwork at the Fireman's Ball or a few turns around the floor at Juke Box Jenny's.

Intsead of moaning — "I'll go, but don't expect me to dance! My feet are killing me and besides that South American stuff is too sissy!"

U.S. Will Pay Japan $2 Million Damages

TOKYO (AP) — The United States has agreed to pay two million dollars for damage caused by last spring's H-bomb tests at Bikini Atoll, the Japanese Foreign Ministry announced today.

During negotiations lasting several months, Japan had demanded up to seven million dollars.

Radioactive ash from the March 1 test showered 23 Japanese fishermen. One died and the others have been hospitalized almost continuously since returning to Japan.

Japan also complained that tons of radioactive fish have been destroyed and fishing operations in the Pacific hampered.

RARE TRIUMPH — Because Joan Fontaine has achieved that rare triumph—a hit in her first time at bat on Broadway—she has been selected for Theatre Arts Gallery fame for January. Miss Fontaine made her Broadway debut last June, replacing Deborah Kerr in "Tea and Sympathy," and the critical reception was almost unanimously favorable. Born in Tokyo and coached in dramatics by her mother, she has made 35 films and won an Oscar for her work in "Suspicion."

Forger Among 10 Most Wanted

George Lester Belew, Sought in 45 States, Named on FBI List

(George Lester Belew, master forger and daring jail-breaker, has been added to the FBI list of "10 most wanted" fugitives. He replaces the notorious bandit, John Harry Allen, who was captured at Fort Smith, Ark, Dec. 21.)

WASHINGTON (INS) — Wily, ruthless George Lester Belew, whose trail of crime has led through 45 states, was enrolled today as one of the FBI's "10 most wanted" fugitives from justice.

The 41-year-old Belew, whose mild appearance and scholarly conversation belie the vicious characteristics which have made him one of the nation's most feared criminals, has made a specialty of forgery since he was a stripling of 17.

He has been sought by the FBI since last August, which he made a bold and violent break from the Ellis County jail in Hays, Kan., where he was awaiting prosecution on bad check charges.

When a jailer brought breakfast to their cell, Belew and an accomplice blinded him with hot, soapy water, bludgeoned him with an iron bar ripped from a bunk, stripped the victim of his wallet and car keys, and escaped in a radio-equipped police car.

The getaway car was abandoned and the accomplice was captured, but Belew remained at large.

The Kansas break was in line with similar bursts to freedom which stud Belew's record and underline his boasts: "No jail can hold me."

Arrested at Phoenix, Ariz., in March, 1944, on bogus check charges, he pleaded illness, was admitted to a jail hospital, sawed his leg irons, and fled.

Captured at Cleveland six months later, he ate soap and bit his tongue in attempt to produce "symptoms" which again would get him into a hospital. The ruse failed and he was taken to Cheyenne, Wyo., to face charges there.

In the Cheyenne jail, Belew and a confederate managed to get a gun, menaced a jailer with it, and escaped.

In his widespread bad-check operations, Belew has particularly victimized hardware stores, taverns, hotels, bars and groceries.

He has masqueraded as a writer seeking material for a book, a trucking official, a war correspondent, and a "secret agent" of the U. S. military establishment. He was once employed as a male nurse, and has assumed the role of a doctor.

Belew has undergone treatment for tuberculosis. He has suffered from varicose veins. He is slightly deaf and is so near-sighted that his vision without glasses is said to be only four feet. When reading, he pushes his eyeglasses up on his forehead.

The fugitive likes beer and other alcoholic beverages. His favorite foods are fried chicken drumsticks and thighs, French toast, and banana cream pie. His hobbies are fishing, textile painting, poetry and script writing. He likes bowling and roller skating. He is a crossword puzzle fan and a detective story addict.

FRUITPORT (AP)—Edward Cartwright, 72, of Fruitport, was killed Monday night when he was struck by a car while walking on U. S. 16 near his home in Muskegon County. Police identified the driver of the car as Christopher C. Smith, 51, of Muskegon. Smith was not held.

The first recorded kidnaping in New York occurred when the Indians carried off a settler called Peter Chimneysweep but whose real name was Peter Andriesen.

Four Youths Waive Hearing in Burglary

Three Farmington youths and another from Detroit yesterday waived examination of breaking and entering in the night time charges, and were bound over to Oakland County Circuit Court for arraignment Jan. 10.

One of the four, Robert Buck, 18, of 14326 Stout, Detroit, was released on $1,000 bond.

The others, all from Farmington, were unable to furnish $1,000 each and are being held in Oakland County Jail. They are Edward T. Suchin, 18, of 33566 Rhonswood; John A. Sterling, 18, of 33990 Edna; and James H. Richardson, 17, of 33965 Harlow.

The youths were arrested Dec. 31 outside a department store at Telegraph road and Northwestern highway. Michigan State Troopers from the Redford Post, who made the arrest said they recovered goods taken from the store from the boys' car.

T. J. Dillon Jr. Named Clerk for Judge Doty

Thomas J. Dillon Jr. yesterday began duties as clerk for Oakland County Circuit Judge Frank L. Doty. Dillon succeeds William E. Lang who is now an assistant prosecutor.

The new clerk served the past four months as law clerk for Probate Judge Arthur E. Moore. He is an attorney and was recently admitted to the state bar. He will move to Pontiac from Ferndale.

Shotgun-Toting Macomb Woman Protects Lawn

Mount clemens)up) — A shotgun-toting Warren Township woman has won a battle to ave her front lawn from Macomb County ditch-diggers.

Mrs. Lois Benedict turned out with a shotgun yesterday to keep workmen from completing a ditch being dug diagonally across her property. She also drove her husband's car into the path of a steam shovel.

Confronted by the shotgun, the workmen called County Drain Commissioner Frank E. Lohr.

After trying unsuccessfully to persuade Mrs. Benedict to put down her weapon, Lohr ordered that the ditch be dug in front of her yard instead of through it.

"No one's going to question superior fire power," Lohr said.

NORTH PLATTE, Neb. (AP)—On Jan. 1, 1954, Dean Haase fell and broke his right leg on the ice of Lake Mahoney near here. Last New Year's Day his wife took a tumble and broke her right leg. They said the falls happened on almost the exact same spot.

Hard Head, Rescuer Save Life of Skater

ALGONAC (AP)—Jackie Treganowan has himself and the quick thinking of a young companion to thank for his rescue Sunday from an Algonac canal.

The 11-year-old boy broke through the ice on the canal and was swept under the sheet by a strong current. The force of the current, however, brought Jackie's head so hard against the ice that he broke through.

Billy Koltz, 11, who had been skating with Jackie, grabbed a long pole and fished his playmate from the water.

Man Describes 25-Day Ordeal

Rest Home Patient, 66, Isolated in Wilderness Without Food

OMAHA (AP)—A story of having been isolated on the woody and weedy Missouri River bottomlands south of here for 25 days without food was told today by Otto Drefs, a 66-year-old pensioner.

Drefs said he left a rest home here early in december for a hike "and there was nobody to miss me." He said that on Dec. 8 or 9 he walked into the wooded and thicketed areas of the river bottoms.

"I got cramps in my stomach and my legs gave out," he said.

He said he had reached a hollow and wasn't at first concerned because "I figured there would be some hikers coming through the woods before long—but this time there wasn't a soul."

He said that while he found himself unable to walk, he could do some crawling. He built a fire with pocket matches and kept it going, he said, by crawling about for weeds and small logs. And, he said, he crawled each day some 20 feet to the river's edge for water. Each day, he said, he shouted for aid.

But until yesterday, nobody apparently heard him. Then farmer Daye Shoemake, across the river on the Iowa side, heard the calls. Shoemake told Iowa officers about it and they crossed the river.

They found drefs about 20 feet from the water, huddled in a hollow and with his wrists, overalls and bill of his cap singed.

Hustled off to the county hospital, Drefs listened to a nurse tell a joke, then groaned, "Don't make me laugh—I feel terrible."

Two Girls, 11, Nabbed on Numbers Charges

PHILADELPHIA (AP) — Two 11-year-old girls whom investigators said delivered numbers slips to a vacant house daily for the past two weeks were apprehended by police yesterday.

The youngsters said they were paid $3.25 a week by a man named Mike to drop packages into a fire bucket at the vacant house. They also told police they gave one girl's mother $2 each after payment. The mother was arrested in lottery charges.

Admits Reckless Driving

Gordon H. Smith, 18, of Hopkins, pleaded guilty to a reckless driving charge when arraigned before Milford Township Justice Bartlett Smith yesterday. The youth was released until his sentencing Jan. 31.

McBride Finds

It Takes a Heap of Living to Be a 'Femme du Monde'

MARY MARGARET McBRIDE

Maybe it's noting to brag about, but it interested me to discover the other day that I'm a woman of the world. True, I just barely scraped through in that 49-question quiz I found in the Today Pocket Almanac, but after a good deal of soul-searching, I at last qualified—with one point to spare.

The quiz promised that 36 "yes" answers would prove a man or woman had really been around. I had 37 yeses. But it seems I am still missing some broadening experiences. In order to be a full-fledged cosmopolite, I must pawn something, play poker for money, take a trip in a house trailer, visit Mexico, catch a fish heavier than two pounds, go hungry for lack of money and go swimming without a bathing suit—among other things.

None of these is impossible of achievement. However, I am troubled about one question I had to answer in the negative. Did I ever hit my husband, the almanac asked. This is going to require a bit of doing because, as the old French recipe says, you must catch the rabbit before you can start the stew.

Perhaps instead of emphasizing my lacks, I should note a few of my pluses as established by the quiz. I have:

Eaten lobster, snails and caviar (the quiz doesn't say that you have to like all of them);

Visited London, Paris, New Yrok, Los Angeles, Chicago, Canada and Niagara Falls;

Slept in a Pullman, taken an ocean voyage, ridden in an airplane;

Kept a diary for more than three months, met a President of the United States in the flesh, seen a Broadway play;

Read the Bible all the way through, been a hospital patient, had a major (appendix) operation;

Once thought I was dying, once fainted (in an editor's arms), written to my Congressman and consulted a palmist;

Written something to sell, attended the opera, and a symphony concert, had an idea for a product which I thought might be patented (although I can't now remember what the idea was).

Altogether I'm feeling very superior, especially to a friend who strolled in at the very moment I was totalling my score. The poor woman went away with a heavy heart. Even giving herself the benefit of the doubt a time or two, she amassed only 31 yeses which makes her merely an average citizen. She's never slept in a motel, never wanted to live part of her life over again, never stayed out all night at a party.

However, these ought to count for something: She's played golf, climbed a mountain, bet money at a racetrack, drunk champagne. And she's been to a psychiatrist!

Perhaps her comment as she went despondently out the door says it all: "It takes a heap of living to make a girl a femme du monde."

Giver Not Offended by Duplication of Holiday Gift

By EMILY POST

The following letter is typical of many received in my post-Christmas mail: "What can be done with Christmas presents from people either living in our town or living at a distance that are useless to us either because they are the wrong size or completely unsuited to our needs. May they be exchanged without offending the givers?"

To exchange a present merely for its duplicate in another size is of course not "changing" it at all, and is entirely permissible.

Even when you don't know the name of the store from which the present came, it is very simple to write frankly: "Your lovely present is just what I want, but my size is (whatever it is). Is it from somewhere near you and would it be easy to change it for me, or will you tell me where it came from so that I can do so?"

When you receive presents that are entirely unsuited to you, what you do about them depends upon several things. If the giver is one of those members of your family (or of your circle of friends) who has no sentiment whatever and prefers you to exchange what you can't use for something you can, the answer is very simple.

But if the giver is one of those who are deeply hurt if they discover that their present is not in use, you have no choice but to make the best use of it you possibly can.

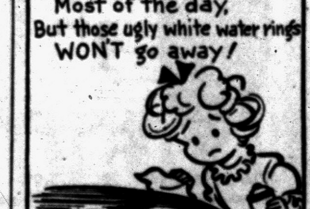
Dear Mrs. Post: I am going to be married shortly and would like to know how the place cards at my wedding reception should read. That is, is it necessary to use titles before the names, or in the case of relatives, could they read "Aunt Hattie," "Uncle Bill," "Cousin Susie,' etc.

If your reception will be a small one with only closest relatives present, the use of "Aunt Hattie," "Uncle Bill," etc., would not only be correct but very friendly.

Dear Mrs. Post: When buying initialed handkerchiefs, or a tie, for a man, should the initial of his first name or his last name be chosen?

The initial of his last name is correct.

PETUNIA!



Really, I've worked on them
Most of the day,
But those ugly white water rings
WON'T go away!

If silver cream polish won't remove them, Petunia, place a clean thick blotter over rings and press with warm (not hot) iron. Repeat if necessary.

Radiators Need Not Make Noise

By HUBBARD COBB

There are some who think there is no music so sweet as the sound of a pounding radiator on a cold morning especially if you still have ten more minutes to remain in bed. We belong to that school.

On the other hand to many a pounding radiator is nothing more than a lot of noise that they would like to do without. Well, here's how they can get rid of the noise.

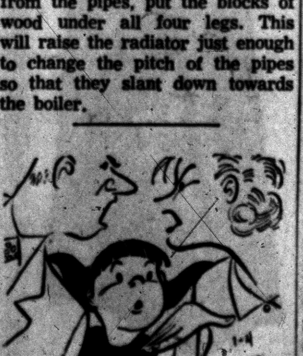
A steam radiator pounds because the steam that comes up from the boiler condenses in the radiator and turns back into water. Now if the system is in good working order this water flows back to the boiler and gets changed back again into steam. But, if the pipes are not properly pitched, this water remains in either the radiator or the pipes or maybe both.

Now when the steam comes up it runs into this water and to get past it and into the radiator means a lot of pounding and banging.

The standard cure is to get the pipes so that they slant down towards the boiler and this is usually done by raising one end of the radiator or the entire radiator. This is not as bad as it sounds because you don't have to raise the radiator very far and there is usually enough give in the pipes to allow you to do this without unfastening anything.

First off, try raising the opposite end of the radiator from the one connected to the pipe. A couple of blocks of wood one-half inch or so in thickness should be about right. This will usually do the trick if the pounding is coming from the radiator.

If the pounding seems to be from the pipes, put the blocks of wood under all four legs. This will raise the radiator just enough to change the pitch of the pipes so that they slant down towards the boiler.



It's silly to argue with a fool. Other people may not know which is which.

"Posie" is the doll of 1000 poses. She walks, and sits and says her prayers. Most important, she's made of a play safe plastic to withstand all the tough bumps and hard knocks which happen to a well-loved doll.

Time Wasting Activity Is Criticized

Dear Miss Woodward: What's wrong with a hangout? All you do is have a little fun. I went to this hangout the other day, but now mother thinks it isn't right, and I'm having trouble with her about it. If there's anything wrong, what is it?"

Did your mother explain that she thought it a waste of time, maybe? Did she go on to say that your crowd is likely to get noisy, get to rough-housing, get into mischief? Did she add that such purposeless hanging around with the boys adds up to no good?

She might have put all of that on the line, in which case she made her point of view clear. There's little for me to add except that if the hangout is a public place like the local sweet shop, your gang can get to be a public nuisance.

Ask yourself where's the fun? If you're honest you'll admit that it's just to hang around with the boys. And is that the wisest way for a smart girl to kill time?

"Dear Miss Woodward: Is it wrong to wear lipstick if you're 13 years old? My mother thinks so—she says I have to wait 'til I'm in high school. I don't want to wear lipstick to school, but I'd like to after school and on Sundays. What do you think?"

It depends on how big you are. A baby-faced little girl of 13 might look like a clown with lipstick on. While a bigger girl who's getting dressed up for a party or something special would look well put together with lipstick.

Invest some of your allowance in a trial-sized light rose lipstick and give it a try on a special occasion. Your mother may decide that it gives your pert little face an attractive lift.

"Dear Miss Woodward: I'm 13 and very much in love with this boy. I asked him over to meet my parents and he came—then he asked me to go to his house to meet his parents, but my parents wont' let me go.

They don't think it's right for a girl to go to a boy's house. I'm afraid if I keep telling him lies he'll drop me, thinking that I don't want to go, when I do. I must stop lying to him or we'll break up."

The truth wouldn't hurt him—particularly when you impress upon him your eagerness to meet his parents. Your parents don't want to make an issue of your meeting them, that's all.

They figure the time will come when it's convenient, easy and natural for you to meet his family. You might be invited to dinner, perhaps, or taken somewhere by them in their car. You might meet on the street or at school when you're with your boy friend.

There would be nothing awkward or embarrassing about such an introduction. Your family would prefer that it happens like that.

Leather Is Becoming New Medium for Trimming

By ELIZABETH HILLYER

Look for leather on new furniture for spring, and it may turn up in surprising places. Here a walnut drop-leaf table has a band of leather around its outside edge, a chair has not only a leather seat but other leather encased parts, and occasional tables have leather covered stretchers as well as leather tops for two of them.

But there will be no need to look for leather, because it will be seen everywhere in spring showings, in more conventional as well as novel uses. When the use is conventional, the color probably won't be. New leather colors range rainbow wide, and the leather in a room is a good place for adventurous color because it is as easy to refresh in a light clear shade as it is in a dark or dull one. For this unusual application, the leather is a natural light tone that harmonizes beautifully with the rich walnut finish. There are brass tips on the legs of the three smaller tables, and the leather tops are trimmed in wood.

Pastels Pretty and Practical

Do you look pretty in pastels?

There is nothing more gala nor smarter this year for mid-winter parties than delicate pastel costumes.

You don't have to be an expert to cut and sew a jumper or simple separates. Choose pale pink or blue flannel, or cream beige, with a touch of mink. Team it with bold, blazing jewels for the more formal parties. Choose simpler jewels or even a fresh flower for lesser parties.

Separates and jumpers made of flannel can be hand or machine washed, without any risk of their shrinking out of fit since the development of washable wool fabrics. This means no cleaning bills. Pastels need never get dingy looking, and if you spill champagne or mayonnaise on your dress tonight, a quick wash and ironing has it ready for tomorrow night's party.

Best of all when Spring bows in, you are one step ahead with a dress ready for the weather.

Her Book Reviewing Job Hit With Club Members

By ANNE HEYWOOD

"I have an activity which might interest you," a woman from the Midwest writes, "and I'm beginning to make pretty good money from it.

"I give book reviews at women's clubs, and they pay me around twenty-five dollars each time. I've been building it for about eight years, and I think other women might consider such a field.

"It wasn't easy," she continues, "and in the beginning I had to do it a lot for free. But, with persistence, it has turned out well.

"I was a drama major at college, and frankly, I was sort of a frustrated actress. I married before I had any opportunity to try my hand at the stage, and then I was kept busy with my husband and children.

"But when the children were in high school, the acting bug hit me again.

"I've always read a lot, and kept up with the newest books, and one day the women's club asked me to give a book review program. I did. I not only reviewed the book—it was an exciting novel—but I read passages for them, quite dramatically, if I do say so myself! The women just loved it. They said I brought the book to life better than any reviewer they'd ever had.

"Then my own club asked me to be its regular book reviewer, and do one each month. I agreed, and got better and better at it.

"Now I take the highlight of the book, the most dramatic scene, and sort of act it out, to give them a vivid idea of it. The local newspaper wrote me up, and mentioned what good reviews they were.

"Within a couple of years, other clubs began asking for me. Either they had read about me, or members of their clubs had been guests at our club and had heard me.

"I explained that I couldn't do it gratis, except at my own club, and they all offered to pay me! At first I charged ten dollars and carfare expenses. Then, as the demand rose and I got better at it. I slowly raised my fees, at least for the wealthier clubs.

"Now I'm sometimes invited to business men's and women's clubs, as well as the regular women's clubs.

"I enjoy the work so much, it gives me nice extra money, and I do honestly feel that it performs a service in alerting busy women to good books which they might not otherwise have time to know anything about."

Many times, the best way to make money is just to do the work that you love to do, at no charge, and little by little you will build up a demand for your services.

Steam Iron Helps

Artificial flowers that have drooped can be revived with a steam iron. Hold the iron away from the petals so they won't absorb too much moisture; then shape them while they're still damp and let them air.

Spice Adds Interest to Sliced Cooky

Mrs. Lang Makes Icebox Dough With Cinnamon

By JANET ODELL
Pontiac Press Food Editor

When we attended a church group meeting just before Christmas, we participated in a cooky exchange. Everyone brought some of her best cookies and took home samples of all the other women's. A cooky we liked very well was this Icebox Cinnamon Cooky brounght by Mrs. W. C. Lang. We see no reason for making it just during the holidays.

With five children—the youngest only four months old—Mrs. Lang has little time for anything but family affairs. She says she manages to get to her church group meeting and to a Child Study Club. Probably the children keep her busy making good cookies like these.

ICEBOX CINNAMON COOKIES
By Mrs. W. C. Lang

1 cup granulated sugar
1 cup brown sugar
1 cup shortening
½ teaspon salt
2 eggs, beaten
3½ cups sifted flour
1 teaspoon soda
1 cup ground nutmeats
1 tablespoon cinnamon

Cream sugars and shortening, add beaten eggs, beat well. Add sifted dry ingredients, then nuts last of all. Mix well. Form into 2 rolls and chill in the refrigerator overnight. Slice thin and place on a greased baking sheet. Bake about 15 minutes in a 350-degree oven.

Take It Gradually

If Baby's shy of strangers and embarrasses you by screaming everytime a friend comes to call, take it slow. Tell your friend to let baby size her up before she goes about tickling him or trying to hold him on her lap.

Furniture Buyers Arrive in Chicago for '55 Preview

CHICAGO (AP) — Furniture buyers from all parts of the United States arrived in Chicago Monday for a preview of the latest in furniture fashions.

They saw displays at the International Home Furnishings Market which opened Monday and will run through Jan. 14. The show is for retailers only with displays in the Merchandise Mart and the American Furniture Mart. Goods being displayed will be retailed in the spring and summer.

Because of today's needs and smaller rooms the furniture has been designed with more flexibility. Noted also is a growing trend toward colored appliances for use in the new "decorator" kitchens.

A boost of 5 to 15 per cent in the industry's general sales pattern during 1955 was indicated by response to a survey by Lawrence J. Whiting, president of the American Furniture Mart.

Whiting said the only cautious note was a qualification by some manufacturers and distributors that aggressive sales promotion and advertising would be needed to project the upswing in what is still a buyer's market.

Roscoe R. Rau, executive vice president of the National Retail Furniture Assn., predicts a good year for furniture dealers willing to compete for business.

Rau said he thinks the public will spend more for home furnishings because "Americans are turning more and more to family living."

The new products display a less marked difference between modern and traditional styling. The modern is either softer and rounder, or shows a warmth because of its materials or finish.

Traditional styling is becoming more and more contemporary making it easier to mix furniture of different design derivation.

New fabrics tend toward smaller-scale patterns with less strident color tones than in recent seasons. White backgrounds are in the majority and printed or solid color corduroys are becoming increasingly popular.

Red Ski Shirt Liked by Men

Ski shirts that double for other sports are a good gift for the outdoor man. Fashion says they must be red, too. Red is daring, dashing, and warns stray hunters that the wearer isn't a deer!

Smartest is a slip-over model styled in flannel, with a doubled over, flap yoke. Triple button detail borders each side of yoke, and lay-down collar is pointed in the back, so it stands up against harsh winds.

Shirt is straight-cut with side vents. Important feature is the shirt's washability. A sanforized tag it carries means it can be washed repeatedly — as every red shirt must — without danger of the wool flannel shrinking out of fit.

Anticipate Wintertime Troubles

Prepare Your Auto for Real Cold Days and Then Relax

Does it take extra coffee, extra heat and extra effort to get you started on a cold wintry morning? Then you should be able to understand the cold weather starting problems of your car.

Tricky and difficult starts are not only a strain on your temper, but a drain on your battery. Following a few simple rules will assure faster winter starts for cars equipped either with manual gear shifts or automatic transmissions, according to automotive experts.

First, depress the clutch or put your automatic transmission at neutral. Secondly, push the accelerator to the floor once and release to prime the engine and then hold the accelerator part way down.

Thirdly, press the starter. Finally, as the engine catches, hold the accelerator for a moderate idle. Never race a cold engine.

If your car has a hand choke, pull the choke out all the way, start the engine and then push the choke back far enough so that the engine idles smoothly.

As further insurance against slow starts, keep your battery as near full-charge as possible since the major burden of turning over a cold engine falls on the battery.

Also use the correct winter-grade oil and grease to minimize your starting difficulties. If your car is parked out-of-doors during winter's changeable weather, you can avoid wet wires by coating all exposed ignition connections with a reliable waterproofing solution.

Anticipate your car's winter ailments—and you can stop singing those "Can't-Get-Started Blues."

Kicks Oil Stove, 5 Children Die

Estranged Husband's Ire Results in Severe Burns for Wife, 5 Others

SAGINAW, Mich. (UP)—An enraged father kicked over an oil heater during a family quarrel last night, touching off a flash fire that killed five children — three of them his own — and critically burned his wife.

Police said Eugene Pierce, 29, deliberately overturned the stove in a scuffle with his father-in-law L. C. Valentine, 44.

Pierce, unemployed father of five, was under police guard at St. Mary's Hospital, held for investigation of manslaughter. He suffered a burn on the arm and lacerations in escaping through a window of the flaming home.

* * *

Two other adults and three children also were injured.

Valentine said Pierce, who was estranged from his wife, entered the house brandishing a knife. He said he subdued Pierce by smashing him on the head with the butt of a shotgun.

Pierce fled into another room, knocking over the oil heater, police said. Flames raced through the house, trapping the five victims, who were playing upstairs.

They were Betty Jane Pierce, 8; Sherlee Laverne Pierce, 6, and Allen Pierce, 4; Juanita Johnson, 10, and Caroline Craion, 2.

Pierce's wife Ada Lee, 26, was burned critically.

Helen Morgan Had Cure for Colds, Once Urged Doctor Mayo to Try It

By EDDIE CANTOR

One of the great joys of my life was playing atop the New Amsterdam Roof in "The Ziegfeld Midnight Frolic" with the fabulous, unpredictable Helen Morgan.

I had the very happy chore of lifting Helen to the top of the piano each performance. Singing her songs from the top of the "upright," was her trade mark.

Helen was always falling in love—always. A friend once said to her: "Helen, I know a fellow who is crazy to meet you, but I don't know if he's your type." Helen said, "Is he a man?" Her friend said, "Of course!" Helen answered, "Well, that's my type."

Helen carried all the worries of everybody she knew on her slim shoulders. If a show-girl was sick, Helen insisted that the girl see her doctor. Helen would wear an expensive gift once or twice and then give it to somebody who took a fancy to it.

When we appeared together at the "Ziegfeld Midnight Frolic," which started at midnight, I had already done a strenuous performance in "Whoopee" downstairs in the theater. Helen would always come to my dressing room with some lemon juice and honey, and say, "Eddie Dear, your voice must be overtired—try some of this, it's good for you."

Once, her being so solicitous caused her great embarrassment. She was going to Europe and the first day out in the dining room, a gentleman at a table next to her, started coughing. Helen leaned over and said, "Bad cold, huh?" The gentleman nodded.

When she had finished her meal, Helen Morgan walked over and suggested to the man that he go immediately to his state room—take several aspirins with hot lemonade, and get into bed and cover himself up with as many blankets as he could stand. "Please do this," she said, "I've cured a lot of my colds this way. You know, I'm Helen Morgan of Ziegfeld's "Show Boat." The gentleman said, "Thank you — I am Dr. Mayo of the Mayo Brothers Clinic."

Atlantic City Tackles Dead Clam Problem

ATLANTIC CITY, N.J. (UP)—City workers, with shovels and trucks, have begun the task of cleaning away thousands of dead clams washed up on the beach, apparently by storms at sea, in the past few days.

Said William F. Casey, director of public works:

"We were just beginning to congratulate ourselves about not having a snow removal problem, but this clam removal job tops them all."

Little Girls Found Dead of Exposure

BECKLEY, W.Va. (UP) — The bodies of two schoolgirls, last seen in the remote, heavily wooded area near their Egeria, W.Va., home last Nov. 1, were found last night by two hunters.

Sheriff John C. Ward said Irene Agee, 8, and her sister Mary, 6, were found about 1½ miles from their home. He said they apparently had died from exposure.

About 25 feet away were their coats, head scarves, lunch kits and two letters they had picked up at the post office on their way home from school.

Organized searches had been conducted in the mountainous area for several weeks.

Ike Maneuvering to Seize Control of Dem Congress

By LYLE C. WILSON

WASHINGTON (UP)—President Eisenhower is maneuvering to seize the political offensive from Democrats in the 84th Congress and to keep it as the session unfolds.

It is a fact that Eisenhower is adjusting himself to big league politics. The magazine "Newsweek" in its Jan. 10 issue has a rundown on White House politics devoted largely to identifying and eliminating the horsepower of the President's political advisers. The magazine quotes an unidentified Republican veteran like this:

"Ike's a natural-born politician — potentially as good as Franklin D. Roosevelt. He gets along with people instinctively."

The judgment continued that the President frequently had been slow to reach decisions but that they were sound poliitcally when finally made. Practice is quickening Eisenhower's political reflexes.

A presidential decision now fixed firmly past all modification is that the Republican party must make a more direct appeal to the so-called little man. That was FDR's major stock in trade and his most valuable asset. Eisenhower plans to make it his asset, too.

FDR told millions that they were "ill-housed, ill-fed and ill-clothed" and kept right on punching with promises to do things big and immediate about it. Former President Harry S. Truman, probably the best politician of the lot, carried on likewise, but slugging where FDR daintily boxed.

Eisenhower is more in the Roosevelt pattern, a charmer with a smile plus determination to persuade some millions of little fellows who marched under the Roosevelt and Truman banners that they would be better off now in the Republican parade. That will be quite a chore because Eisenhower also is committed to a comparatively sound—or hard—money program designed to check inflation and to an agricultural policy which unquestionably will reduce farm subsidies.

But watch for the President's recommendations for higher minimum wages, extended social security, government aid in housing, federal support of medical insurance—and such-like. Most of these in their infancy were the bright banners of FDR's New Deal. As party-builders and vote-getters they have proved out.

The President has not yet come up with a catch phrase comparable to New Deal or Truman's Fair Deal. Eisenhower's best to date is moderate progressivism which has no political sex appeal at all. But the phrase may yet come. His catch phrase used to be middel of the road. The new one suggests a shift toward an area FDR used to call just left of center.

All of this annoys the right wing Republicans in Congress, which seems not to disturb Eisenhower any. He seeks little advice from Republican conservatives. His favorite on Capitol Hill, however, is Vice President Richard M. Nixon. Of members of Congress, perhaps Rep. Charles A. Halleck (R-Ind) has the best in. Halleck was House floor leader in the expiring 83rd Congress.

Judge Denies Sheppard Bid

Doctor's Attorneys Gird for 2nd Round in New Trial Motion

CLEVELAND (AP)—Dr. Samuel H. Sheppard, under a life prison sentence in the killing of his wife Marilyn, has lost the first round of his fight for a new trial.

Late yesterday Judge Edward Blythin ruled there was "no merit" in any of 41 complaints of error in the 10-week trial which ended Dec. 21 with a jury convicting the 31-year-old osteopath of second-degree murder.

With two parts of the error-complaint, Judge Blythin dealt at some length. These were: (1) that the court erred in not granting a request for removal of the trial to another city; and (2) that the intensive news coverage of the trial was prejudicial and tended to persecute the defendant.

* * *

On these points, Judge Blythin's memorandum had this to say:

"With present-day means of communication, the same precise stories were simultaneously published in every city and county in the state . . .

". . . Such exposures to public attention are not matters of prejudice for or against either the state or defendant, but matters of news interest to newspapers. They remain wholly neutral if fed sufficient news or pictures of interest."

Another found in the fight for a new trial — in which Sheppard would again risk death in the electric chair—is scheduled for Saturday. Then Sheppard's lawyers get a hearing on their motion based on "newly discovered evidence." Until it is held by Judge Blythin, an appeal to higher courts must wait.

* * *

Concluding a 15-page memorandum for the record, white-haired Judge Blythin wrote:

"The court is convinced that there is no merit in any of the complaints made by the defendant; that he was accorded a fair trial by an unusually intelligent and impartial jury, and that the verdict rendered is supported by the evidence adduced upon the trial."

Ailing Judge Holds Court in Bedroom

NEW BLOOMFIELD, Pa. (AP)—A central Pennsylvania judge who suffered a heart attack five weeks ago is holding court in his bedroom. He says it's slightly complicated but entirely legal.

Judge Harry B. Crytzer, head of the Perry and Juniata County courts, explains it this way:

He is authorized to do court work in his chambers that ordinarily would be done in open court. The obvious exceptions are jury cases and procedures calling for more than one judge on the bench. Since the courthouse has no judges' chambers, Judge Crytzer uses part of his home for court work. In this way, his home passes as an office, in which court work may be done legally.

Solon Leaves Hospital

SALT LAKE CITY (AP)—Sen. Wallace F. Bennett (R-Utah) left Latter-Day Saints Hospital yesterday. He was operated on Wednesday for a hernia. Aides said he plans to rest at his home several days, returning to Washington and the 84th Congress later.

Bar Association Says Crowded Dockets Make 4th Circuit Judge Necessary Here

The Oakland Bar Assn. yesterday unanimously adopted a resolution urging the State Legislature to grant the county a fourth circuit judge.

The group presented a bank of statistics to support its statement that crowded conditions "have produced one of the most congested dockets of any circuit court in the entire state . . ."

The heavy load placed on the present three judges is costing taxpayers extra money plus causing long delays in hearing of cases, it states.

In its resolution, the group says the official records show during 1953 each present judge tried or disposed of an average 632 cases and petitions plus miscellaneous matters averaging 1,960.

This, they state, "represents the greatest case load per judge of any circuit in the state . . ." Despite the "best efforts" of the judges there are 960 cases on the docket ready for trial.

"The delay in the hearing of an average case, after the same is ready for trial, is nearly one year."

A fact sheet compiled by the group states, the sixth judicial district (Oakland County) "during the past decade has experienced the most rapid growth and development of any area in the state."

The Detroit Metropolian Area Regional Planning Commission set the county's population at 375,000 in 1950, 475,000 in 1953 and predicted 850,000 in 1970. The Detroit Edison Co. set Oakland's population at 506,000 in 1954 and forecasts 930,000 in 1975.

The second judge was added in 1919 and the third in 1927. The county's population was 211,251 in 1930 and has increased 180 per cent since then, "but no increase has been made in the manpower of the court."

In 1920, two judges handled 615 cases. In 1930, three judges disposed of 2,456 cases. By 1953, with still three men on the bench, 4,909 cases were processed, a 100 per cent jump.

During the past ten years, the court had the highest per cent of increase in pending cases of any circuit in Michigan—178 per cent. The average increase for all circuits was 22.2 per cent. During the ten year span, the Oakland circuit showed the greatest increase in undisposed cases.

The facts show that Oakland "immediately requires the addition of a fourth circuit judge, and, as soon as additional space can be provided, that a fifth judge should be provided," said Gilbert H. Davis, Oakland bar president.

Copies of the resolution are being sent to Oakland County's state senator and representatives.

The county group represents over 350 attorneys residing in Oakland plus "hundreds of other lawyers" living outside the county, the resolution states.

Writer, Ex-Gridder, Fights Off Bandit

LOS ANGELES (AP)—Dick Hyland, former Stanford football star and now a Los Angeles Times sports columnist, downed a would-be robber with a flying tackle.

Hyland said the man, brandishing a .45 automatic, accosted him as he parked his car at his West Hollywood home and demanded his money. Hyland tackled him and fought for the gun.

The gunman fled without the money after hitting the sports writer on the head with the weapon. Hyland was not seriously hurt.

Williams Indicates Budget May Go Into Red in 1955

LANSING (AP)—Gov. Williams tossed his new cabinet of Democratic state officials abruptly into budget discussions today and said for the first time publicly that his 1955 budget probably will be in the red.

Previously, Williams had seemed to be breaking the ice for an unbalanced budget by issuing a press statement saying mental health institutions would need $6,200,000 more next year and that it was difficult to whittle down the requests of state agencies.

At a press conference, Williams virtually conceded that next year's budget recommendation to the Legislature will show the state back in the red again. "There are strong pressures all along the line," he said.

But the governor refused to comment when asked if this will necessitate raising more taxes.

"That is what we are wrestling with," he said.

These matters were discussed with the newly inaugurated team of Democratic state officials.

Williams said they would meet with him each morning "so that we may keep abreast of developments."

The two remaining Republican elective officials will not be invited to the sessions, Williams said.

The state administrative board, meeting for the first time this year today, will continue to meet officially on the first and third Tuesday of each month.

'55 Nash Shows Lights in Grille

New Models Unveiled by American Motors; V-8 Engines Included

Nash Division of American Motors today unveiled its 1955 Ambassador and Statesman automobiles with headlights set inboard in the grille instead of on the front fenders.

Roy Abernethy, Nash sales vice president, said the headlight shift was inspired by the Nash-Healey and other European high-speed racing cars.

"This headlight position affords increased safety, resulting in a greater concentration of light on the road ahead, especially under foggy and rainy conditions," Abernethy said.

The new line will include super and custom four-door and custom country club hardtop models in the Ambassador V-8, Ambassador six and Statesman series.

Offered as optional equipment are air conditioning, reclining seats, power steering and brakes and electric window lifts.

Abernethy said the 1955 Nash line would be shown publicly for the first time Jan. 8-16 at the Chicago Automobile Show. He said showings at Nash dealerships would be held next month throughout the country.

Find $35,000 Hoard in Shack of Recluse

CRYSTAL FALLS (AP)—A $35,000 hoard in negotiable securities was discovered in the one-room shack of a 75-year-old recluse who was found dead in his home in this Upper Peninsula community yesterday.

Authorities said John Stenback died of natural causes.

The securities were found in a frying pan in a locked root cellar under Stenback's shack.

Police said he had been living on his social security checks.

Both Measures Slated for Action

Purchase of Furniture, Equipment for City Hall Up for Consideration

Resolutions regarding action on public housing and the addition of fluorine to the municipal water supply are slated to come up before the City Commission tonight.

In addition, the commission will be presented with a resolution authorizing the purchase of furniture and equipment for the new City Hall.

Reports are also set to be forthcoming from the city attorney and the city engineer. The first will concern a lease with Gordon's Flying Service, Inc. for rental of a hangar at Pontiac Municipal Airport.

The second will present the estimated cost for changing the channel of the Clinton River from Douglas street to Paddock street.

A resolution will be sought to authorize advertising for bids for the project, estimated at $14,645.

In other business, the commission is scheduled to receive an estimate from the water superintendent for installation of a water main along Columbia avenue west from Baldwin avenue to a point west of assessor's plat 107.

Applications for four new package beer and wine licenses are also up for consideration.

Applicants are Hortense Riddick, 373 Franklin Rd.; Gifford & Jones, 284 State Ave.; Clovis Skelton, 64 E. Kennett Rd., and Arthur Featherstone, 338 Central Ave.

French Police Believe Diplomat Died in Accident

PARIS (AP)—French police speculated today that Swedish diplomat Sven Grafstrom, whose mangled body was found yesterday on a railroad track 80 miles southeast of Paris, had opened the wrong door while looking for the train washroom.

* * *

Because of the body's condition, a member of the Swedish Embassy staff was unable to confirm its identification last night but a Swedish spokesman said the embassy was convinced of the identity.

* * *

The 52-year-old diplomat, former chairman of the four-power Korean Military Armistice Commission and Swedish minister to Mexico since 1952, had been vacationing with his wife and two children on the Italian Riviera.

The Swedish spokesman said Mrs. Grafstrom had confirmed by telephone that her husband was on his way to Paris at the time. He added that she and the children had left by automobile for Paris today.

* * *

The body was found yesterday near the Joigny station, on the Dijon-to-Paris line. Grafstrom had given his passport to a porter to have border formalities taken care of while he slept. His baggage arrived at the Paris station aboard the train.

Investigating police said they found no trace of any struggle or any indication that the death was other than an accident.

County Clerk's Office Has Record Year

The Oakland County Clerk's Office did a record amount of business in 1954, surpassing the previous high reached in 1953, according to Clerk Lynn D. Allen.

Some 7,604 births were recorded last year, compared with 7,057 in 1953. Deaths dropped from 4,053 two years ago to 3,943 in 1954.

Marriages totaled 3,110, an increase of 21. Some 1,209 persons were discharged from the armed forces.

New citizens naturalized here in 1954 totaled 258, a jump of 60. The Oakland County Board of Supervisors met 12 times, twice more than in 1953.

Number of election precincts climbed for 202 to 210. Fees, bonds and other money held in a trust fund by the Circuit Court increased from $87,000 to $124,653.

Divorce cases dropped from 2,363 to 2,177, chancery cases increased from 444 to 605 and law cases from 1,389 to 1,596. Assumed names legalized for business purposes totaled 3,054 in 1954, while co-partnerships issued were 428.

UM Planning Exhibition of Business Machines

'No Worse Than Others'

Adams Defends Red Wings Against NHL President's Charges of Bad Language

DETROIT (AP)—General manager Jack Adams says his Red Wings don't cuss any more than "any other team in the league."

Adams made the statement yesterday in reply to an accusation by Clarence Campbell, president of the National Hockey League, that the Wings used "obscene language" in recent games.

Campbell said in Montreal that there have been "lots of spectator protests" but no specific complaints against any club besides Detroit. He said the protests "have been passed on," but he made no comment on any disciplinary action he might take.

Campbell said he heard outbursts of obscenity at the Wings-Canadiens game last Saturday night in Montreal. Campbell said he left his seat and protested to Detroit coach Jim Skinner. Skinner, Campbell said, "in effect told me to mind my own business."

Adams said Skinner told him he had ordered Campbell to "go sit down."

Skinner told Campbell:

"You're only a spectator at this hockey game. I am running this club and I've got a game to try to win."

Adams said his Wings "use no more obscenities than any other team in the league."

"If Mr. Campbell wants to check on foul language," Adams said, "some night he ought to station someone behind the visiting bench in our stadium (Olympia)."

Adams continued:

"Campbell was 100 per cent wrong in leaving his seat in the Montreal game Saturday night. It was the most absurd thing I had ever heard of. Never in the history of any sport has a league official interferred with a coach during the progress of a game to discuss such a matter.

"I think the governors of the league ought to censure Campbell instead of his taking a crack at us. I think Mr. Campbell was way out of line and it looks as though he's trying to turn the game into a Sunday School."

Campbell said the use of obscene language by players "is a matter that the official in charge of the game would find it exceedingly difficult to deal with.

"Most of the time he is out on the ice discharging his duties. He may hear the players occasionally abusing one another but he may not hear language from the bench unless directed specifically at him."

Campbell said he felt obscenity "has no place in our business, can't benefit anyone and can have no defender."

He indicated that in the heat of play an occasional mild expletive might be tolerated.

Talbert Sees U.S. Tennis Team Keeping Davis Cup

NEW YORK (AP)—Billy Talbert, the crafty captain of the victorious United States Davis Cup team, settled down in his Wall Street brokerage office today and opined that the coveted trophy should stay on these shores for several more years.

* * *

Billy, accompanied by the cup and Julius Myrick, a representative of the United States Lawn Tennis Assn. arrived home Monday night. Hamilton Richardson, the national intercollegiate champion from Tulane, went from Los Angeles to New Orleans instead of coming to New York.

"I see no reason why the cup shouldn't stay in the United States for several years," Billy said. "We still have Richardson available, and neither Vic Seixas nor Tony Trabert intends to turn professional.

"In fact, I'm sorry that Tony and Vic couldn't come back with the cup. They're the boys who did the job."

* * *

Seixas and Trabert are staying in Australia to play in some big tournaments there before returning home.

"Our boys set out to do a job and they did it," he continued. "They got in top shape and just never let the Australians get the upper hand. It was just a case of Tony and Vic rising to the top of their games. Ken Rosewall and Lew Hoad (the Australians) certainly did not turn flat. Our boys were just too good for them this time."

* * *

Asked what he thought of the future of Australian Coach Harry Hopman, who has been under fire for his rigid training methods, Talbert said he couldn't comment.

"But," he acknowledged, "I don't know of anyone they could find to replace him."

'Unknown' Pro Top Qualifier in LA Tourney

Air Force Vet Shoots Five-Under-Par 66 to Take Honors

LOS ANGELES (AP)—A comparative unknown on the winter golf trail captured qualifying honors in the 29th Los Angeles Open at Inglewood Country club Monday.

Don Fairfield, 25-year-old Casey, Ill., pro recently discharged from the Air Force, shot a 66, five under par, to shade Larry Bouchey former Canadian amateur champ, who came in with 68.

Babe Lazane, Bakersfield, Calif., finished third with 69.

* * *

Six competitors qualified with 70's, Walker Inman of Augusta, Gary Nixon of White Sulphur Springs, W.Va. Bob Wylie of Calgary, Jack Gage of Ojai, Calif. Stan Dudas of Shawnee, Pa., and Charles Sheppard of Boston.

* * *

It took 72 or better to qualify, and among the 71's were Ted Dorius of San Diego; Charles Sifford, Los Angeles; George Schneiter, Salt Lake City; Harold Wiley, Lake Wawasee, Ind.; Lou Sabo and Bill Ogden, Chicago; George Getchell, Omaha; Lionel Hebert, Erie, Pa.; Boots Porterfield, Long Beach, Calif., and Bob Kay, West Hartford, Conn.

* * *

Tied at 72 were Bill Williamson, San Diego; Mike Dorovic, Los Angeles; Chuck Malchaski, Addison, Ill.; Frank Willey, Edmonton; Eugene Crouch, Detroit; Paul O'Leary, Bismarck, N.D.; Mike DeMassey, Lafayette, Ind.; Jack Harden, El Paso; Bob Crow, Hopkins, Minn.; Al Feldman, Tacoma, Wash., and Bill Bisdorff, San Diego.

The exempts and successful qualifiers in a previous local area pro playoff bring the total qualifiers for the 72-hole tourney, which starts Thursday, to 150. A pro-celebrity 18-hole round will be played Wednesday.

Maples Seek 5th Win of Cage Season

Birmingham High School's basketball team takes the floor tonight in search of its 5th victory of the prep basketball season with Waterford supplying the opposition on the Maples' court.

Following tonight's game, John Petrakis sends his charges against nine straight Eastern Michigan League foes starting with Ferndale Friday night. Ferndale is regarded in most circles as the EML favorite.

While Birmingham's lone loss to date was a last-minute 54-48 conference decision at Mt. Clemens, the Maples cannot be written out of the championship race. The EML appears to be well-balanced and the eventual titlist may lose at least three games.

Waterford, a four-time loser, gets back into Inter-Lakes Conference play Friday at Farmington. Two of the Skippers' setbacks have been in league competition.

Tonight's card is a meager one, but virtually every team in the area, with the exception of Pontiac High, will see action Friday. Tonight's schedule:

Waterford at Birmingham; Center Line at Clawson; Davison at Lapeer; Fraser at Lake Shore; South Lake at Harper-Woods; Deckerville at Brown City.

Russian Skaters Don't Please Entire Soviet

MOSCOW (AP)—Although Russia's speed skaters won the world championship last winter in Japan and are strong candidates to retain their laurels in the 1955 championships to be held in Moscow Feb. 19-20, they are still being criticized in the press here.

Trud, newspaper of the Central Council of Trade Unions, complains in a two-column article that ice skating is not sufficiently organized in the Soviet Union, that training methods must be improved and that some top skaters are slipping rather than improving their performances.

* * *

Nevertheless, the newspaper Soviet Sport on the same day publishes comparative early - season performers by Russian skaters and Norwegians, and finds the Russians so far have an advantage over the Norsemen, who also will be strong contenders in the world championships.

Trud, says: "An analysis of the work of our skating clubs during 1954 showed that only three of them considerably improved their training for our skaters. The work of the majority of clubs remains unsatisfactory. Many of the clubs sponsored by the trade unions did not organize year-round training. Also some rinks are in poor condition and inadequately supervised . . ."

Harry's, Drug Easy Winners

J-A Is Routed, 80-11; Ringsiders Bow, 79-45, at Waterford

A pair of one-sided games were played in the Waterford Township Recreation basketball league Monday night with Harry's Recreation and league-leading Drayton Drug the victors at Crary Junior High.

Harry's waltzed to an 80-11 triumph over Johnson - Anderson Engineering as Mike Hanes tallied 20 points and Bob Hobson 14. Harry's led 38-5 at halftime.

Drug whipped Manny's Ringside, 79-45, in the nightcap of the twin bill. Manny's made a battle of it for one period, in fact lead after the first quarter, 20-14. But the Drug five piled up a 23-4 advantage in the 2nd quarter and had no trouble thereafter.

Bob Walter pitched in 14 points and Marshall O'Shaunghnessy, 13, for Drug, while Dick DeWitt of Manny's took game honors with 15. Drug has averaged 75 points per game to date.

Nashua, Summer Tan Are Among Flamingo Entries

MIAMI, Fla. (AP) — Nashua and Summer Tan, two of the nation's top thoroughbreds as juveniles last year, head an impressive list of 89 nominations announced today for Hialeah's $100,000 Flamingo Stakes on Feb. 26.

The mile and a furlong event drew 11 more nominations than last year and the nominees include 17 horses with 32 stakes victories to their credit.

Murcain Stable's Blue Ruler, winner of the Starlet and Del Mar Futurity, was nominated from California, giving the Far West a chance for its first Flamingo victory.

A total of 10 nominees from Ireland and England were included on the list released by Racing Secretary Charles J. McLennan.

Irish-bred Turn-To, owned by Cain Hoy Stable, won the 1954 Flamingo and was a favorite to take the Kentucky Derby until a bowed tendon forced his retirement.

Belair Stud's Nashua, voted the champion juvenile of 1954, and his top rival for that honor, Mrs. Russell A. Firestone's Summer Tan, each won four stakes races last year. They met four times and Nashua won three of the meetings.

Summer Tan captured the Garden State, world's richest race, and led all other two-year-olds in money winnings.

Kentucky Hangs On to National Lead

Hoosiers Down Favored U.M.; Bucks Trip MSC

Schlundt's 30 Points Paces Win; Freeman Hits 39 at OSU

By THE ASSOCIATED PRESS

Michigan's two big college quintets were victimized last night in Big Ten basketball contests. Favored University of Michigan fell before the Indiana Hoosiers 95-77 at Bloomington, Ind. Michigan State's Spartans were dumped by a hot Ohio State crew 83-76.

All-America Don Schlundt scored 30 points against Michigan, 16 of them on free throws to pace the opening conference game for both clubs.

At Columbus, Spartans saw Big Ten scoring leader Robin Freeman hit for 39 points in the clubs' 1st conference test.

Indiana took an early 6-5 lead on one of Schlundt's free throws and never was topped by Michigan after that.

Tom Jorgenson and Paul Groffsky sparked a late Michigan rally that cut the Indiana margin to 67-64 but the Hoosiers pulled away again.

Three Wolverines fouled out trying to stop the Hoosiers, and Indiana got a big boost at the free throw line. Indiana hit 43 of 59 free throws, Michigan dropped in 21 of 34.

Don Eaddy, a midget compared with Schlundt's 6-10, 240-pounds, topped the Michigan scoring with 19 points.

Freeman's scoring stood out sharply in the fast, hard-fought OSU - MSC game which saw the two teams deadlocked seven times and the score change hands 17 times.

Working from a slim 42-40 halftime margin, Buckeyes didn't get control of the game until the final minutes. Then Freeman, the nation's leading scorer, sparked the OSU rally with less than three minutes remaining.

The loss gave the Spartans a 3-4 won-loss record for the season and boosted Ohio State's record to 6-2.

Spartan Al Ferrari was high point man for Michigan State with 28. Teammates Robert Armstrong got 19 and Julius McCoy 16.

Orange Bowl Payoff Is Big

Duke and Nebraska to Get $130,000 Each From Classic

MIAMI, Fla. (AP)—Duke and Nebraska will receive almost $130,000 each for their Orange Bowl football game.

Van C. Kussrow, schedule chairman of the Orange Bowl Committee, said Monday each team already has been paid its $112,000 guarantee and that additional compensation will be made when the official audit is completed.

Oklahoma and Maryland got $121,308.31 each for their appearance a year ago.

The schools must split the funds with their conferences, the Atlantic Coast and Big Seven.

Sugar Ray's Last Detroit Bout Almost Saw Upset

DETROIT (INS)—If Joe Rindone lacks confidence for his battle with Sugar Ray Robinson at Detroit's Olympia Stadium tomorrow night, all he has to do is read newspaper accounts of Ray's last Detroit bout.

In April, 1950, 21-year-old Detroit boxer Ray Barnes went into the ring a decided underdog in a fight with Robinson. The bout marked only the 2nd time Barnes had gone 10 rounds.

There were cries of "mismatch" and some ring observers even went so far as to express a great fear for Barnes' life.

Although he lost the match, Barnes went the distance and had the Harlem slugger on the ropes for the final three rounds.

Rindone's style is similar to that employed by Barnes in the Robinson fight. One thing in Rindone's favor is that Robinson was at the peak of his career for the Barnes fight. After a 30 month layoff Sugar Ray is not expected to be as fast as he was in 1950.

The fact that Rindone whipped rugged French middleweight Pierre Langlois decisively proves that he can give the Robinson of today a good battle.

Rindone thinks he'll do even better. With quiet confidence he says he'll beat Robinson.

Turner and Klein Start 1955 Right

NEW YORK (AP)—Gil Turner and Joey Klein, a pair of underdogs, have started the new year right. Turner won a unanimous decision over Italo Scortichini last night at St. Nicholas Arena and Klein stopped Gerry Dreyer on a seventh - round TKO at Brooklyn's Eastern Parkway.

Turner's victory was more important than Klein's because the once high - ranking welterweight showed signs of making a comeback. Packing 154 pounds to Scortichini's 154¾, Turner didn't fold in the late rounds as he has been doing lately. Instead he cut loose with some of his old-style bursts in the eighth and ninth of a rousing battle.

Gonzaga Swamps Tech

DETROIT (AP)—Gonzaga University took a 17-point halftime lead and then went on to defeat Lawrence Tech 106-74 in a basketball game last night.

Forward Ken Burrell took top scoring honors for Tech with 19 points.

Lions' Coach, Prexy Huddle Over Contract

DETROIT (UP) — Detroit Lions coach Buddy Parker went into a huddle with Lions' president Edwin J. Anderson today in an effort to get a long-term contract.

The meeting was called by Anderson to discuss terms of Parker's 1955 contract.

Length of tenure was expected to be the biggest stumbling block in the contract negotiations.

The Lions have a club policy against agreements spanning more than one year although end Leon Hart and quarterback Bobby Layne now hold three-year contracts among the Lions players.

Neither Parker nor Anderson would indicate what they would offer in the negotiations.

However, both seemed certain that no trouble will develop when they try to come to terms.

Coast Loop Seeking Paragon for Prexy

SAN FRANCISCO (AP) — Clarence (Brick) Laws, owner of the Oakland Acorns and chairman of a committee to name a new president for the Pacific Coast League, says:

"We want a man bubbling with ideas, proud of the known strength of the Pacific Coast League and dedicated to its future."

Laws cited Frank Lane, general manager of the Chicago White Sox, and Bill Veeck, a field man with the Cubs, as such men.

Ram '5' Faces Alumni Tonight

Freds' 1942 Titlists, Other Former Cagers Return for Game

St. Frederick's basketball team, idle since Dec. 17, returns to action tonight in a game with the Rams' alumni.

Alumni team will include all five starters — Joe Wright, Denny Manko, Jack Murphy, Myron Raymond and Lou Grogan, — from St. Frederick's 1942 divisional championship squad.

Others playing for the "old-timers" will be Bob McManus, who set a host of school scoring records in the mid-40's, Charles "Ducky" Oertel ('50), Al Serra ('48), Jim Bendig ('50) and Gene Wright, who also will coach the team.

Game is set for 8:15 p.m. in the Ram's hall. A preliminary game, at 7:15 p.m., will match St. Fred's 1954-55 girls' team with an alumnae team.

Wildcats Named Top 5 for 3rd Straight Week

Rest of Leading Fives Underwent Big Shuffle in Holiday Upsets

The Associated Press

For the third straight week the undefeated Kentucky Wildcats rank as the nation's No. 1 team in the weekly Associated Press basketball poll and from all indications they're going to be mighty hard to dislodge.

* * *

Of the 116 ballots cast by sports writers and sportscasters throughout the country, 89 named Kentucky as the top team today. The Wildcats received 1,090 points and finished more than 200 points ahead of runner-up Duquesne in the voting.

* * *

The streaking Wildcats have won seven in a row this season after posting a 25-0 record during the 1953-54 campaign. The defending Southeastern Conference champions also go after their 130th straight home-court victory Saturday night when they play host to Georgia Tech in their only game scheduled this week.

Adolph Rupp's charges saw action twice last week, winning convincingly each time. Kentucky trounced St. Louis by 17 points and followed that up with 101-69 lacing of Temple last Saturday night.

* * *

The rest of the top 10 teams underwent a vast shuffle as a result of holiday tournaments and a wave of upsets. Only fifth-ranked San Francisco retained the same poll position as last week.

Duquesne (8-1) climbed from eighth to second with 869 points. The Iron Dukes, who collected 14 first-place votes, can attribute their rise to a victory over LaSalle in the finals of the Madison Square Garden Holiday Festival.

North Carolina State (12-1) dropped one notch to third place, while LaSalle (9-3) slipped from third to fourth. The Wolfpack, with 679 points, were jolted from the unbeaten ranks at the hands of twice-beaten Villanova.

LaSalle accumulated 630 points, followed by San Francisco (8-1) with 515 points.

* * *

George Washington (8-2) advanced from ninth to sixth with 338 points on the strength of winning the Richmond Invitational. UCLA (9-2) showed the biggest increase, jumping from 15th to seventh. The Uclans, who displayed fine outside shooting before bowing to LaSalle in the semifinals of the Holiday Festival, edged eighth-place Utah 276 points to 269. The Utes didn't play last week and dropped a notch from seventh.

* * *

Missouri (7-2), by virtue of capturing the Big Seven tourney, vaulted from 11th to ninth with 262 points. Dayton (8-2) was knocked from the unbeatens last week to fall from fourth to 10th with 175 points.

Illinois (6-2), sixth a week ago, and Niagara (7-3), No. 10 last week, both tumbled out of the top 10.

Hoosiers and Iowa Are Impressive in Big 10 Openers

The Associated Press

That man Don Schlundt still knows the direction of the basket as long as he doesn't lose his bearings, Indiana will remain a force to be reckoned with in the Big Ten.

The experts counted the Hoosiers out of the race before the start of the season, but it appeared Tuesday that their unimpressive 2-5 pre-conference record may have been a mighty hoax.

* * *

Schlundt scored 30 points Monday night as Indiana began its campaign for a third straight conference title with a 95-77 triumph over favored Michigan.

* * *

Jim Barley, a substitute last year, and Burke Scott, who had done little scoring in early games, got 19 points each for the winners. Indiana hit for 43 of 59 free throws and that spelled the difference.

* * *

But Iowa, their heir-apparent to the title, also looked powerful in its league opener, polishing off Wisconsin, 86-69. This one was significant because the Badgers had beaten Illinois, one of the teams regarded as being capable of giving Iowa a tussle.

If Wisconsin had been able to get past Iowa, some hasty revisions on the balance of power would have been in order. It never really was close, though. Iowa took the lead just before the half and never was headed. Dick Cable of Wisconsin was high scorer with 25 points.

* * *

In other Big Ten games, Robin Freeman, the leading scorer of the nation at the moment, dropped in 39 points to lead Ohio State to an 83-76 victory over Michigan State and Northwestern came from behind to edge Minnesota 74-72.

* * *

Notre Dame, which had a strong bid in for the top independent of the country, came a-cropper at the hands of Louisville. The Cardinals had to come from behind a 53-45 deficit with 14 minutes to go to lick the Sugar Bowl champions, 73-69.

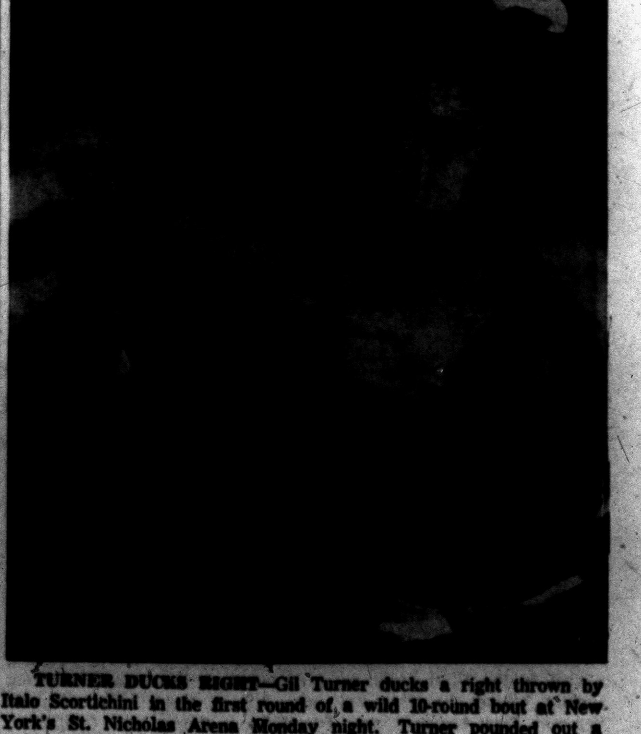
Purdue became the first team ever to score as many as 100 points against Bradley when the Big Ten outfit whipped the Braves, 109-92, while Tulane broke a school scoring record by routing Club Deportivo Mexicanos (Mexican Sports Club) 107-55.

* * *

Seton Hall, beaten only once, recorded its ninth victory by trampling Colby 83-63. Florida got the jump in the Southeastern Conference race with an 81-68 triumph over Georgia, and Temple crushed Richmond 80-71.

* * *

Duquesne, the second-ranking team in the country in the Associated Press weekly poll, took a 60-56 decision from Fort Belvoir. The game was billed as an exhibition and center Dick Ricketts of the Dukes didn't play because of a sprained ankle.



TURNER DUCKS RIGHT—Gil Turner ducks a right thrown by Italo Scortichini in the first round of a wild 10-round bout at New York's St. Nicholas Arena Monday night. Turner pounded out a unanimous decision over the favored Scortichini.

Coaches Plan No-Fight Over Grid Rules

NEW YORK (AP)—Following the already-established pattern of avoiding controversial issues, the rules committee of the American Football Coaches Assn. was expected to dispose of its business today in short order.

* * *

Although there has been considerable talk that the coaches would like to see the current substitution rule relaxed so they could use a few specialists, Coach Lou Little of Columbia indicated that there was no strong move for any major rules changes.

Little annually polls the coaches on their reaction to the rules and the results of his circular forms the basis of the discussions by the coaches committee. It's recommendations are passed on to the NCAA rules committee, which will meet here next week to decide if any changes are to be made.

* * *

Little said the coaches committee might even finish its discussion in half a day, an indication that no major changes have been proposed.

A quick brushoff of the football rules would be quite in line with what already has taken place during the preliminary sessions leading up to the 49th convention of the NCAA and meetings of various allied bodies.

* * *

The most controversial subject before the NCAA — one which might have caused a major turmoil in the association — was disposed of rather quietly when the subject of football television was tossed into a round-table discussion, scheduled for Thursday morning. Although the backers of several proposals, including the Big Ten's national-regional control plan, will get their say on the subject, nothing will be decided definitely at this meeting.

Similarly the college baseball coaches decided to table a reportedly-startling report on the composition of baseballs. After listening to representatives of the manufacturers of the official major league balls and concerns whose products are supposed to conform to major league standards as well as to the University of Wisconsin scientists who have been making the tests, the Executive Committee of the American Assn. of College Baseball Coaches decided to withhold publication of the report pending further study.

Ohio's Three Famous Teams Won Crowns

MASSILLON, Ohio (AP) — Ohio's three famous football teams won championships this year:

Ohio State won the Big Ten title and the Rose Bowl game, Cleveland's Browns topped the pros and Massillon's Tigers again headed the list of state high school clubs.

* * *

The state's gridiron fortunes depend heavily on the caliber of youngsters turned out by its high schools — especially the one at Massillon, Washington High School.

* * *

Washington, the only secondary school in this city of about 30,000 sent two graduates into the Rose Bowl Sunday and two others to the Cleveland team that beat Detroit for the pro crown. With Ohio State were guard Jim Reichenbach and tackle Jerry Krisher, and on the Browns were halfback Tommy James and end Horace Gillom.

Senior Bowl 11's Starting Heavy Workouts Today

Spectators Are Barred From Practice Fields During Drills

MOBILE, Ala. (AP) — North and South squads for the Senior Bowl game Saturday start heavy work today with the practice fields barred to spectators.

Coaches Paul Brown of the North and Steve Owen of the South announced they were banning spectators in an effort to get the most work done with the least interference.

* * *

Both said they had plenty of work to do in moulding their teams before the kickoff at 1:45 p.m. (CST) in Ladd Stadium.

* * *

Four of the stars who saw action in the rain-drenched Rose Bowl were hampered by sand burns and Brown said he was worried they might miss some of the drills.

Lindon Crow, Southern California back, was the most handicapped, although Ohio State quarterback Dave Leggett and end Dean Dugger also were hampered. Ohio State center Bob Thornton was less bothered by the skin lacerations.

Back Frank Clayton of Southern California was added to the North squad Monday to bring it up to its full strength of 25.

The players turn pro in the game. Winners receive $500 each and expenses and the losers $400 and expenses. The game is expected to draw about 30,000.

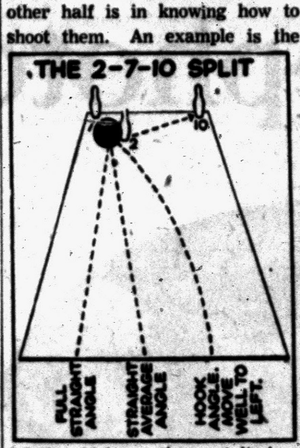
Bowling Clinic

By BILLY SIXTY

CASE—Play left side.

"Confidence is half the battle," the saying goes, and certainly that is true in converting splits. The other half is in knowing how to shoot them. An example is the 2-7-10, which, as they put it, is a baby split with a handle on it.



The 10 pin, over on the far right side of the alley, is the handle. As the sketch shows, this is a 3-way shot, just as the 3-7-10, illustrated yesterday, is a 3-wayer for a right-hander.

The 2-7-10, however, is preferably shot from a left side angle, as far to the left of alley-center as stance and footwork will allow. This will enlarge the opening between the 2-7 and insure a more accurate pin-to-pin contact between the 2 and 10 pins.

Army Plans Big Meet for Far East Champs

TOKYO (AP)—Champions in nine events will be picked for the first time by the Far East Command this year to compete in the All-Army contests in the United States.

Majors' Trial Re-Set April 18

Both Sides' Attorneys Agree on New Date in Anti-Trust Suit

CHICAGO (AP)—Another continuation in the trial of a 12 million dollar anti-trust suit against 13 major league baseball clubs was announced Monday by attorneys in U.S. District Court.

* * *

The suit, first filed by the now bankrupt Liberty Broadcasting System of Dallas, in Feb. 1952, has been continued until April 18. The trial, following a series of continuations, had been scheduled to start Monday. However, attorneys for both sides agreed on the new date.

* * *

James E. S. Baker, one of baseball's attorneys, said he believed the April 18 date "is a firm one." He estimated the trial will last about two months.

All major league teams except Brooklyn, Cincinnati and the Chicago White Sox are named in the suit.

Kathleen Winsor Marks 10th Birthday of 'Amber'

By PHYLLIS BATELLE

NEW YORK (INS)—Let us tarry a moment, literature lovers everywhere, and sing out jolly birthday greetings to "Forever Amber."

The scandalous little scalawag of a book has just turned 10!

It was never a Pulitzer Prize package (and it was definitely nothing-of-the-month), but it surely was popular. Of all the U. S. novels ever sold, it ran third, just behind lovable old "Uncle Tom's Cabin" and big, fat "Gone With the Wind."

Naturally it was, and still is, the heart's delight of Mama Kathleen Winsor — and her friendly neighborhood banker.

"Bless it," said Miss Windsor fondly. "If it hadn't been for 'Amber I don't know howI'dlive."

It seems quite obvious to the bystander that Miss Winsor—formerly Mrs. Bob Herwig, Mrs. Artie Shaw and Mrs. Arnold Krakower—could live quite richly even without her "Amber," which netted more than $1,000,000 in 1945 alone. She has a classically beautiful face, a sleekly-constructed architecture, brains and a "who cares—live!" approach to life which would delight the haggard businessman.

"I have a nagging suspicion that my money is running out," she says, nestling on a lamb's fluff sofa in her 14-room Park avenue penthouse, "but I don't think money is something to be regarded seriously.

"I'm very happy here, but I was also very happy in an $80 flat. Meaningless."

Miss Windsor is celebrating "Amber's" birthday in one of the swankiest apartments in New York, equipped with such Winsorian whimsies as black lace curtains and a candle chandelier in the dining room; a monstrous birdcage full of stuffed animals in the foyer; a giant popourri jar to hold herbs and discarded rose pedals; a "Humphrey Bogart movie bar" with crystal fringe drapes, cigarettes in jars marked "Opium" and an adjoining bath lit by a 10-watt bulb "so people don't scare themselves after two martinis."

"I know," she says of the fabulous place, "that it is silly and expensive. But I believe in doing what is fun to do, if it doesn't hurt anybody—and who can be hurt by me going broke but me?"

In spite of the fact that Kathleen has been divorced three times since her overnight success as a novelist, she is still living entirely on the money from "Forever Amber." Her second and third novels didn't bring any returns. She never inherited any money, she says, and "nobody ever gave me any."

She is sorry that her three marriages were unsuccessful, but she doesn't regret that they happened. "I don't believe in experimentation in life for experimentation's sake," she explains, "but to regret any past experience in your life is like running away—like saying that, for a while there, you didn't want to live. That's wrong."

As for being a cynic, as many people would believe a thrice-wed woman must surely have become, Kathleen poofs. "Cynicism is something you resort to when you run out of vitamins."

She wouldn't shy from marrying again, but "no more divorces. I am no longer a naive little girl." And that was exactly her problem before, she thinks—being brought up by a kindly, devout, small-town family and suddenly being thrust into the big city and the big money.

Actually, Kathleen believes, she was befuddled and overwhelmed by her swift, new life. And now, with three broken vows behind her, she feels like her editorial child, "Forever Amber."

"Actually not sexy," she says. "Just highly-propagandaized."

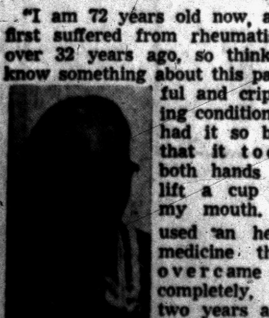
IF YOU SUFFER FROM RHEUMATISM or ARTHRITIS THERE IS NOTHING THAT WILL HELP YOU AS MUCH AS O-JIB-WA BITTERS

Typical of hundreds of thousands of satisfied customers is, Mrs. Edith Henry, 2083 E. Buder, Flint, who before using O-JIB-WA BITTERS, suffered off and on for over 30 years with rheumatism, arthritis and neuritis.



Mrs. Henry

"I am 72 years old now, and first suffered from rheumatism over 32 years ago, so think I know something about this painful and crippling condition. I had it so bad that it took both hands to lift a cup to my mouth. I used an herb medicine that overcame it completely, so two years ago when arthritis struck me in my right arm and shoulders, I remembered my experience with herb medicines before, and also took the advice of several of your customers and started taking O-JIB-WA BITTERS. I couldn't lift a dipper of water or a tea kettle. Pain killing tablets didn't help, so I was amazed after taking O-JIB-WA for about two weeks to find myself practically better. I took it about four months altogether and now highly recommend it to all sufferers. I have strength in my hands and arms again and my nerves have improved also. I recommend O-JIB-WA to my sister in Mt. Pleasant, and it helped her too, so its no wonder I have so much faith in O-JIB-WA BITTERS."

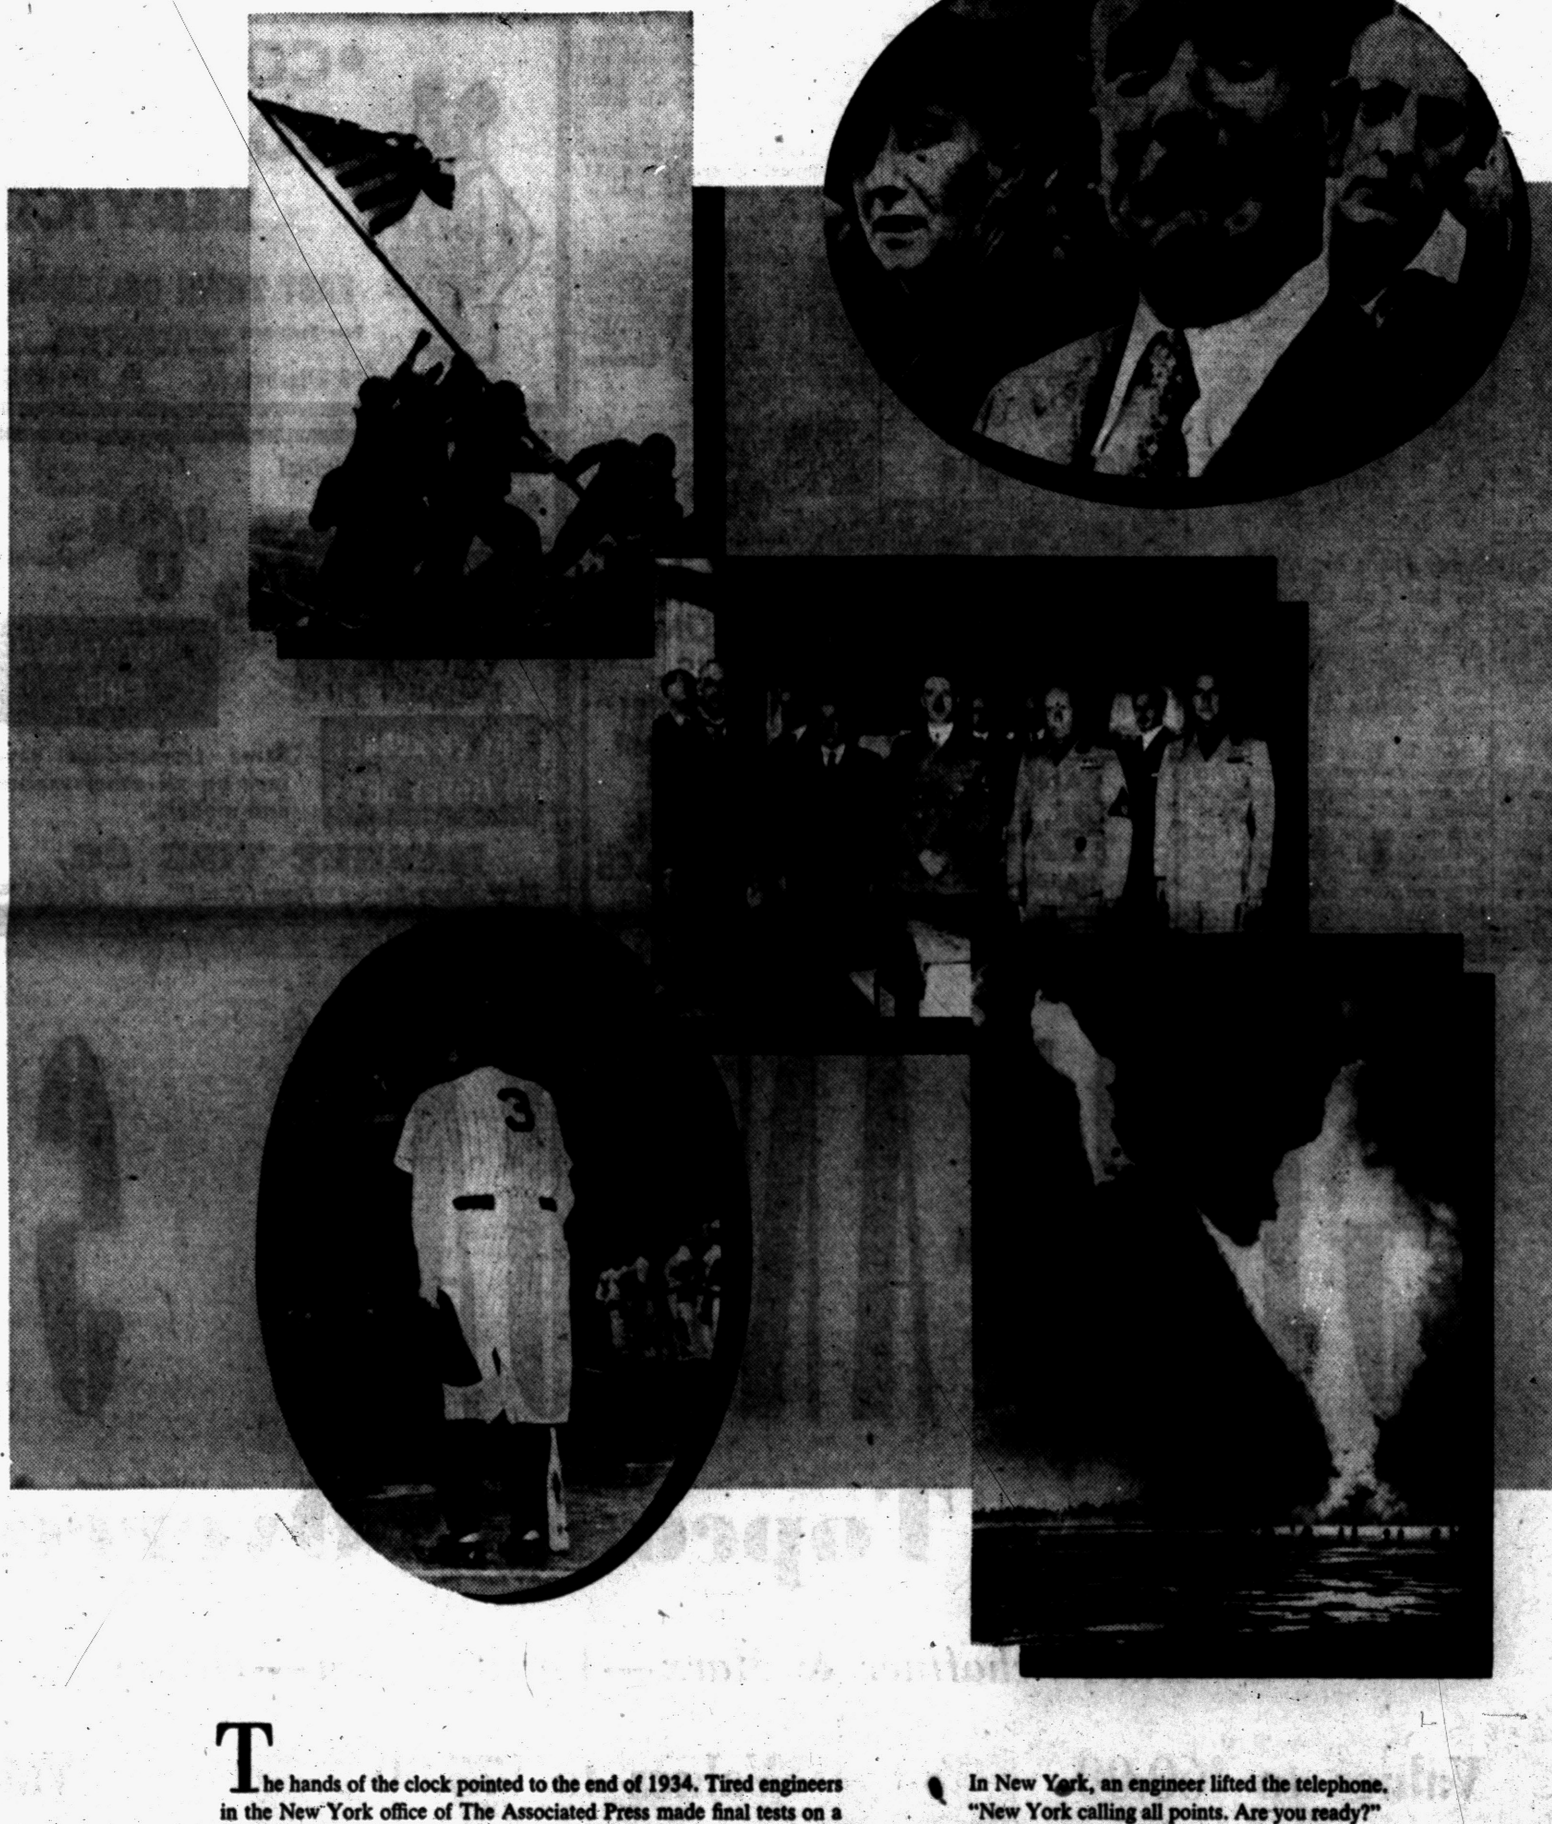
20 Years of a better informed America through AP Wirephoto



The hands of the clock pointed to the end of 1934. Tired engineers in the New York office of The Associated Press made final tests on a neatly arranged panel of mysterious-looking bulbs, wires and wavering needles.

On a table nearby was a machine holding a news picture wrapped around a horizontal cylinder. Within easy reach was a telephone and loudspeaker.

AP Wirephoto was ready for inauguration after years of search for a system that would transmit news pictures by wire to newspapers hundreds of miles away. If it worked, news and pictures would ride the wires side by side for simultaneous publication throughout the country.

If it worked . . .

The time approached for the start – 1 a.m., January 1, 1935. The engineers and technicians crowded around the equipment. Onlookers talked in whispers. And in 24 other cities across the country, experts made ready their receiving machines. All were connected to one long distance telephone line comprising one vast circuit.

In New York, an engineer lifted the telephone.

"New York calling all points. Are you ready?"

One by one, the receiving points said yes.

On the sending machine a switch was thrown. The cylinder and the photograph began to turn.

In the 24 cities, the receiving units likewise began to revolve in even, synchronized revolutions.

If everything worked, the picture on the cylinder in New York soon would be in the hands of newspaper editors all along the widespread circuit.

If it worked . . .

It worked.

That was 20 years ago. The inauguration of AP Wirephoto on that New Year's day in 1935 ushered in a new era in American journalism. Today, AP Wirephoto spans oceans, countries and continents. Through AP Wirephoto, this newspaper provides every reader with a ringside seat to the spectacle of daily history. In war and peace, AP Wirephoto has helped to make America the best informed nation on earth.

'Suspect'—Chapter 25

By Hugh Lawrence Nelson

Agnes Argyle's eyes were cloudy with a review of the past, with a search for some point at which to begin. They brightened at last with decision. "You've seen the 'Carlson Conscience,' the framed relic. It wasn't in the glass case when I was a child. Not when Father was alive. He believed in that creed, inscribed now on the case, and he practiced it. He was a tyrant whose word was irrevocable law. And the slightest breach brought punishment."

Agnes licked her thin dry lips as if tasting the bitterness. Her strong hands clenched and unclenched, yet the monotone of her voice did not change, as her words provided a commentary on her mental pictures of the past.

"We had it well drummed into us that the only law was the Carlson word. Everyone has something, some power they feel they must answer to. With us it was the Carlson law, represented by my father at this time. Nothing higher, and no appeal.

"I started running away from home in my very early teens. Not with any hope of escape, but with desperation. I was caught and brought back. Father whipped me. I used to pray that he would die. Finally he did, and I thought things would be better. They were, in a way. Mother—Mrs. Oswald—never actually used the whip on us. She had it framed. We had been taught so well and the threat was enough. Most of the time. But when I was 17 I ran away again. I had planned well and I had help. Toby. My husband. We were married and I was pregnant by the time we were found. Mrs. Oswald washed her hands of me. But she told me I'd never break away completely, that I'd always remember my early 'training.' I remembered.

"And then our little girl was born. Times were hard for us and Toby was sick. It wasn't his fault, it wasn't mine." She looked up at Jim then. "We came to terms with Mrs. Oswald, turned our baby over to her."

"Why?" Jim demanded.

"Many reasons," Agnes said. "They seemed to be good reasons then. I don't know. I think perhaps I would do the same thing under the same circumstances. Yet you're right. It isn't easy for a woman to give up her first child. But my brother Hilton had married by then, married with Mrs. Oswald's blessing. The baby, Angelica, was to be brought up as their own. She was to have all the benefits of the Carlson money. I thought my brother would be kind, thought he had suffered enough. And Toby needed an operation so desperately. Mrs. Oswald was right on hand with the money—provided. The alternative? Nothing. Nothing. Maybe she didn't mean it. Maybe she would have helped. I don't think so. And Angelica would have everything I realized Toby and I were never going to be able to give. I—I made the deal.

"I thought I was doing right at the time, and for a while, for almost 10 years, everything seemed to be working out. I thought I had done right, that my love for Toby and, yes, my actual fear of the Carlsons, had led me into doing the right thing. But after that 10 years, Mrs. Hilton had a son. That's Peter. Before, Angelica had been brought up as a true child, made over, maybe spoiled. Peter's birth made a difference."

The simple statement brought up a vivid picture of heartbreak.

"When did Angelica find out you were her mother?"

Tears started running unheeded and unchecked down Sheriff Agnes' face. "She never knew. Somehow I can't bear that. I thought I had all my emotions killed, every feeling so deeply buried I'd never let things touch me, not to show. I was even able to—do my official duties without it—showing."

"Do you know who poisoned her?"

"She says I did. I don't know. Maybe I did at that. Last night I brought her up a cup of chocolate, last thing. She likes it sweet. I put extra sugar in it from the bowl in the kitchen. She says that's where the arsenic cames from."

Mrs. Kit was in her bedroom, pacing the floor while Sue Gelstrap overflowed a small dressing table chair, when Jim obeyed a called summons to "Come in."

"How's Mrs. Oswald?" Mrs. Gelstrap asked.

"She'll live," Jim said curtly. "But it's time now for some facts."

"What do you mean?" Mrs. Kit demanded.

"I think you know what I mean. I want the truth about the relationship between you and Mrs. Gelstrap."

"All right," Kit said defiantly. "It's nothing to be ashamed of. We're sisters."

"Stepsisters," Mrs. Gelstrap corrected wheezily. "And we're living proof that stepsisters do get along. Kit was always the pretty one."

"But you have the brains, Sue," Kit said.

Mrs. Gelstrap accepted that as the equal truth to the fact that Mrs. Kit had the beauty. "I got fat in my teens," she went on. "Glands or something. But Kit and I always got along, we never fought like members of some families. We made plans. We decided on what we wanted in life. We made plans to get it."

Penguins Play Indoors to Avoid Winter Sniffles

Assistant zoo director Ralph Graham said the weather is bad and the penguins might catch somebody's cold germ.

Parade of Progress Resumes Tour Today

General Motors' Parade of Progress, traveling science show seen by more than 2,300,000 persons in 1954, begins its third postwar tour today, GM President Harlow H. Curtice announced.

During the past few weeks Parade equipment has been refurbished at Pensacola, Fla., and resumes operation at Gulfport, Miss.

The Parade visited Pontiac last August and more than 31,000 persons viewed the exhibits and attended the programs in the big aerodome in the five days here.

During the first half of 1955 the Parade will visit 25 towns and cities in the South, Southwest and Midwest.

Parade exhibits are housed in red and white Futurliners which were built at GMC Truck & Coach plants here.

Ford '54 Production 2nd Best in History

DETROIT (UP)—Ford Motor Co. reported today it turned out 1,990,021 cars and trucks last year, making 1954 its best post-war production year and second best in history.

The previous post-war production peak, 1,902,539 vehicles, was reached in 1950. The firm's all-time yearly output record was set in 1923 when 2,019,000 vehicles were produced. Last year's output totaled 1,863,669 units.

Ford's 1954 production included 1,394,762 Ford, 256,730 Mercury and 35,733 Lincoln automobiles and 302,796 Ford trucks.

December Taxes Rise Sharply on New Cars

LANSING (UP) — December sales and use tax collections of $25,320,000 were $1,146,000 more than the same month in 1953 and represented the "most significant increase of the entire year," State Tax Commissioner Louis M. Nims said today.

The collections were based on November business.

Nims said the increase in collections was attributed to early sales of 1955 automobiles.

Population Rising

NEW YORK (INS)—The Metropolitan Life Insurance Co. estimated today that the population of the U. S., including members of its armed forces, rose to 163,930,000 at the end of 1954. This represented a gain of 2,930,000 during the year, Metropolitan said, and exceeds by more than 100,000 the previous population gain, registered in 1951.

Winnie, Cabinet Try to Avert Rail Strike

LONDON (UP)—Prime Minister Churchill presided today over a Cabinet meeting to consider last-minute proposals to avert a railway strike Sunday which could paralyze the nation.

The Cabinet had before it suggestions of a three-man court of inquiry which has heard claims by the National Union of Railwaymen for pay increases and counterarguments by the British Transport Commission, which manages the state-owned lines.

The present weekly wage scale ranges from $17.06 to $24.36. A year ago last December the NUR demanded a 15 per cent increase. Management granted raises of 56 cents. Now the NUR wants the full 15 per cent boost to be met.

Estate Totals $391,539

GRAND RAPIDS (UP)—Miss Clara T. Limbert, prominent horticultural leader who died Sept. 7, left an estate valued at $391,539. The figure was revealed in an inventory filed in probate court. Real estate comprised about $100,000 of the total with the balance in personal property, including stocks and bonds. The will directs half the estate be placed in a trust fund for "such benevolent, cultural, charitable and educational purposes as the trustees see fit."

GM Common Slumps Today

NEW YORK (AP)—General Motors common stock slumped $6.12 to $99 on the first sale on the New York Stock Exchange today following its announcement late yesterday that it planned to raise 325 million dollars through sale of additional stock.

General Motors opened on a 16,000-share block. The rest of the market was lower, with some losses running to around $3.

G.M. stock rose $7.25 to $105.12 yesterday amidst rumors that the stock would be split. It was the day's most active stock, with 65,400 shares changing hands.

Brokers attributed the sharply slower opening today to disappointment over failure to split. They also observed that news that additional stock will be sold usually depresses the issue affected.

The market was lower from the start today and the tape soon ran behind in reporting transactions. Kennecott Copper dropped $3, Amerada $2, American Cyanamid $1.62, Bethlehem Steel $3, Chrysler $1.75, Douglas Aircraft $4.50, U.S. Steel $2, and Du Pont $3.50.

Yesterday, the market was strong, with The Associated Press average of 60 stocks climbing $1.20 to $156.40, a new high since 1929. Volume totaled 4,570,000 shares.

Sen. Goldwater, Ariz., Slated to Head Republican Senatorial Campaign Group

WASHINGTON (AP)—White House assent was reported today for a move to name Sen. Goldwater of Arizona as chairman of the Republican Senatorial Campaign Committee.

If he is chosen by the Conference of Republican Senators, he would step into the place now filled by Sen. Dirksen of Illinois, ineligible under present rules because he is expected to become a candidate for re-election in 1956.

Both Goldwater and Dirksen voted "no" when the Senate Dec. 2 condemned Sen. McCarthy (R-Wis) 67-22 for some of his actions, but when McCarthy criticized President Eisenhower Dec. 7, Goldwater was among the first to defend the President.

* * *

At that time, McCarthy said Eisenhower had congratulated those who had hampered the exposure of Communists. And he accused the President of displaying a "shrinking show of weakness" in dealing with Communist China's imprisonment of 11 American airmen as "spies."

Goldwater announced he was solidly behind Eisenhower and disagreed with what he said was McCarthy's contention that "the Eisenhower administration has not fought communism at home and abroad."

While the choice of a campaign committee chairman lies with Senate Republicans, some leaders were reported to have consulted Eisenhower's closest aides. They reportedly were told there would be no White House objection to having Goldwater take charge of a campaign in which 17 GOP seats and control of the Senate will be at stake.

* * *

The campaign committee chairman is often included in the councils of the GOP Senate leadership, expected to include a solid front of senators who voted against censure of McCarthy.

The Republicans scheduled a conference of all their members today at which Sen. Knowland of California was expected to be re-elected floor leader without opposition.

Sen. Bridges of New Hampshire is scheduled to become chairman of the party policy committee. Sen. Millikin of Colorado is expected to continue as chairman of the conference, with Sen. Young of North Dakota as its secretary. Knowland, Bridges, Millikin and Young all opposed censure.

Senate Democrats, meeting later today, are expected to endorse Sen. George of Georgia as president pro tempore of the Senate, replacing Bridges.

There has been no open opposition to the re-election of Sen. Lyndon B. Johnson of Texas as Democratic leader and Sen. Clements of Kentucky as assistant leader.

In House caucuses, Democrats are expected to name five new members to the powerful Ways and Means Committee—Harrison of Virginia, Ikard of Texas, Herlong of Florida, McCarthy of Minnesota and Karsten of Missouri.

Rep. Rayburn of Texas is scheduled to become speaker and Rep. McCormack of Massachusetts the majority leader.

Republicans will make retiring Speaker Martin their majority leader.

2 Youth in Circuit Court in Larceny From Auto

Arthur P. Pruitt, 17, of 2834 E. Dale Lane, Ferndale, yesterday pleaded guilty to larceny from an auto in Circuit Court and Judge Frank L. Doty set sentencing for Jan. 10.

Charged in the same theft, Mack Gayles, 17, of 21119 Bemis Lane, Ferndale, stood mute and an innocent plea was entered for him. Judge Doty directed a trial be set for Gayles.

The pair are accused of taking a man's suit valued at $75 from a truck in Royal Oak Township Nov. 24.

Broadway Star in Banker Role

Mr. Peepers Producer Gives Gentle Humor Minus Usual Slapstick

NEW YORK (AP)—This is a review in advance of a new television show entitled Norby, making its debut on NBC tomorrow night. The recommendation: see it. You might like it.

David Swift, creator of Mr. Peepers, is only a gentle exaggeration on real life—enough to be humorous but not so overdone as to become slapstick and ridiculous, which is the formula for too many situation comedies.

The program brings to the TV screen a star of the Broadway stage, David Wayne of the hit play "Teahouse of the August Moon," as the star of a mildly satirical portrayal of life in a small town.

* * *

Wayne is cast as the newly promoted vice president of a bank in Pearl River, N.Y., where the film actually is shot. Taking the role of his wife is blonde Joan Lorring of stage and screen. Others in the cast include Ralph Dunn of the stage as Mr. Rudge, bank vice president and Norby's nemesis; Carol Veazie as Mrs. Maud Endless, bank president, and Susan Hallaran and Evan Elliot as the Norby's children.

The appeal of the program lies in the close identification with real life and in its situations, perhaps changed around a bit, that have happened to so many people.

* * *

David Wayne, a talented actor but an average-looking young man with crew-cut hair slightly tinged with gray, gets a lot of humor by underplaying his part. If there's anyone out of character, it's the glamorous Miss Lorring as a small town housewife wed to a small town banker.

Ethel Merman Bids Broadway Goodbye

SAN FRANCISCO (AP)—Broadway has had it, says Ethel Merman, and she'll do no more musicals on the Gay White Way.

She would, however, "like to do another movie," said the star of the current "No Business Like Show Business" in a press conference during a visit here with her airlines executive husband Robert Six.

"Broadway has been good to me," said the big-voiced star of such Broadway hits as "Call Me Madame."

"But I've been good to it too. Broadway has had it. I love Denver, and so do the children."

Ethel said she has three more shows to do in Los Angeles for a television sponsor, then it's back to Denver, her home.

Astor Hits Report of $41,000 Offer to Settle Divorce

MIAMI, Fla. (AP)—John Jacob Astor III denies that he has offered his third wife $41,000 as a settlement in her divorce suit.

Mrs. Astor, the former Mrs. Dolores (Dolly) Fullman, asked half a million in a separate maintenance suit filed here Nov. 22. She gave as grounds something "so intimate in nature" that she didn't describe it in the suit.

* * *

Astor, in a countersuit, contends their Aug. 6 marriage in Arlington, Va., was not legal because his Mexican divorce from his second wife Gertrude Gretsch Astor was invalid.

Astor, 42, denied reports published yesterday that he had offered the 26-year-old Dolly $1,000 a day for the 41 days they lived together.

"I have made no offer and will make no offer," he said. "I did give her aproximately $20,000 in money and jewels. That is more than she is entitled to."

Sake-Sipping Sumitomo Stabbed by Sodden Sato

TOKYO (AP)—Two garage workers, Nobuo Sumitomo, 23, and Kenichiro Sato, 21, pledged in sake (rice wine) on New Year's Eve that they would abstain for a year.

Last night Sumitomo, quite tipsy, popped into a pub and found Sato downing sake.

"Shame on you," Sumitomo shouted.

"You, too, you drunk," Sato answered.

They fought and Sumitomo was stabbed. He will live.

Plenty Was Said in '54, but How Much Truth

By EARL WILSON

They're always browbeating us newspaper guys the whole year 'round.

"You didn't call me up to check it," they wail. "Didn't you want to know the truth?"

Yeh, de did, honeychile; that may be the reason we didn't call you. People are inclined to fib about things close to them—and they also change their minds. We'd probably do the same. And once a year, we feel entitled to rack up a few of the quotes to show you why we continue a little skeptical about what anybody tells us.

Many Enlisting to Beat Deadline

Note Volunteer Upsurge as Jan. 31 Cutoff Date for Benefits Nears

By THE ASSOCIATED PRESS

There was a big upsurge in armed service enlistments yesterday in some parts of the country in the wake of President Eisenhower's announcement Saturday that many veterans benefits would be cut off for those volunteering after Jan. 31. But in other areas no unusual increase was noted.

In Boston, Army spokesmen reported the greatest rush of volunteers since World War II—65 compared with an average of three on a normal day.

* * *

In some places, such as New York and St. Louis, young men appearing at draft boards to join up were told the Army quotas were full until after the deadline anyway.

Army, Navy and Marine recruiting stations reported a lively business in New York.

Cmdr. A. D. Garvin, in charge of Navy recruiting in New York, said the number of men applying was 2½ times higher than the "most optimistic estimate."

In St. Louis most of the volunteers said they wanted to join in time to get the benefits. Thirty applied there for induction into the Army, against a normal of three or four.

* * *

In Miami, Fla., Sgt. Don Cramer of the South Florida Air Force Recruiting Service said today was "an unusually busy day but I don't know whether it was because of the veterans benefits deadline. We always get an increase after the holiday period."

In Kansas City, Capt. Fred Gerber of the Air Force said there were 21 enlistees for his service, and 40 for the Army. Normal turnouts would be about 10 for the Air Force and 10 to 15 for the Army, he said.

Tank of Deadly Gas Left Lying in Alley

DENVER (AP) — A container of deadly gas was carried away yesterday from a downtown alley where it had been left to drain.

Authorities warned that its fumes of methyl bromide, used for killing rodents, could cause blindness or death. The foot-high glass and metal cylinder contained a tear gas cartridge supposed to discharge first and warn humans away.

Police Capt. Clifford Stanley said children may have picked up the cylinder for a plaything.

The doodle bug always walks backwards.

Hal Boyle Says:

Jolly Broadway Fat Man More Interesting Offstage

NEW YORK (AP) — The happiest fat man on Broadway, Walter Slezak, is a character more interesting offstage than any of the 200 or more characters he has played as an actor.

For one thing, he's never been broke in his life—enough in itself to make him a rare actor.

"I never have known financial insecurity," cheerfully admitted the 280-pound entertainer, now co-starring with Ezio Pinza in the hit musical "Fanny."

* * *

Walter, who was a banker before he went into the theater, was born in Vienna 52 years ago, the son of Leo Slezak, a famous Wagnerian tenor. Before going to Hollywood, where he appeared in 43 pictures, generally in the role of villain, he made some 60 films in Europe.

"There I was a juvenile—and nauseatingly beautiful," he recalled, grimacing. "That was 100 pounds ago."

Slezak has a conversational habit of dating past events not by the year in which they happened but by his weight at the time. He estimates he has gained and lost about 900 pounds in his long and pleasant bout with excess avoirdupois.

"I don't mind being overweight," he said. "But my wife is against it. I simply enjoy fine cooking. I like everything that is good—and not healthy."

His wife, Johanna, a native of Holland, is an expert at preparing Japanese dishes. Slezak is a member of the Amateur Chefs' Society of America, and one of the sorrows of his life is the fact that some of the culinary tidbits he prepares are often only for guests and—by his wife's decree—must be left untasted by himself.

Despite his bulk Walter follows a schedule busy enough to thin down an elephant. Besides his acting, singing and dancing chores, he somehow finds time to collect Bach compositions, work in his machine shop, go on hunting trips for deer and bear, and play chess by mail with a convict in San Quentin. He also is a painter of considerable talent and a pilot. For years he and his family commuted by plane between Hollywood and their farm in Bucks County, Pennsylvania.

Now he and his wife and their three children have an ideal family life in a sprawling, 10-room apartment overlooking Central Park. The menage also includes a maid, a dog, a cat, two turtles, a parakeet, a parrot, some white mice and a rabbit.

"My own childhood was completely happy," said Walter. "My mother, who had been an actress, gave up her career when she married my father. I don't remember ever hearing an unkind word between them.

"That is one reason I waited until 41 before I married. I wanted a home life as happy as I had known myself as a child, and I have it. I'm lucky."

The Slezak household does seem to have unusual emotional stability. Each member has a nickname. Walter is "Puessi." His wife is "Kaasi," his pet nickname for "Cheese-Head."

Their oldest child, Ingrid, 10, is "The Old Hag;" Erika, 8, is "The Blimp," and the youngest, Leo, 6, is "The Monster." The children speak French and German as well as English.

"We have a wonderful method of educating them — coax and slug," said Slezak, smiling. "First you coax them, then you slug them."

His children who heard this, as we sat talking in the apartment, broke out laughing. They think "Puessi" always says comical things.

Besides all his other hobbies, Walter zestfully enjoys two other hobbies — collecting money and studying astrology. His wife, a real student of the subject, has a large library of books on astrology, and consults Slezak's star chart before he makes any major change in his career.

"But I don't believe the stars," he said, "unless they say good things.'

Walter, with an infinite gusto for work and living, says he has no major goals left to attain.

"To be satisfied—that is enough," he remarked, as he put on his trench coat and rose to leave for a matinee performance. "If I should die this next moment, no one should feel sad about me. I've had a wonderful life all the way."

Stamp Marks 50th Rotary Anniversary

WASHINGTON (UP)—An 8-cent stamp commemorating the 50th anniversary of Rotary International will go on sale in Chicago Feb. 23.

The Post Office Department has announced that 80,000,000 copies will be printed in the first issue.

A globe, symbolizing the worldwide scope of Rotary, is the central subject of the stamp. The Rotary emblem, a wheel, is in one corner. A flaming torch is in the other.

Across the bottom is the wording: "1905 Service Above Self 1955."

U. S. post offices handle about 54 billion items a year, or enough to equal 20 pieces of mail for every person on earth.

Insect damage nullifies the labor of 1,000,000 working men a year.
