Set Waterford Incorporation Talk

Jaycees Slate Open Meeting for January 10

Discussion Is Expected to Lead to Session on Annexation Later

Community sentiments toward the possible incorporation of Waterford Township into a city will be aired Jan. 10 at a special town meeting arranged by the area's Junior Chamber of Commerce.

The meeting, which will begin in Waterford High School at 8 p.m., will feature a panel discussion between incorporation experts and local government officials.

Although views will be confined to various facets of incorporation, the meeting is expected to pave the way for a similar future conference on the proposed annexation of the township to the city of Pontiac.

Panel moderator will be William Shunck, superintendent of Waterford Township schools.

Panelists will include Victor J. Lams, chairman of Warren Township incorporation efforts; Detroit attorney William Brashear, who helped draw up a city charter for Livonia; Harry J. Merritt, corporation counsel for Oakland County, and Louis G. Barry, clerk of Waterford Township.

The event will climax a year of studies by the Junior Chamber to determine the various attitudes in favor of and against incorporation.

Stressing his group's neutrality toward the issue, Meeting Chairman Charles Pappas said: "The Jaycees are not trying to push incorporation. We want to present both sides of the question so that the community can decide as a whole."

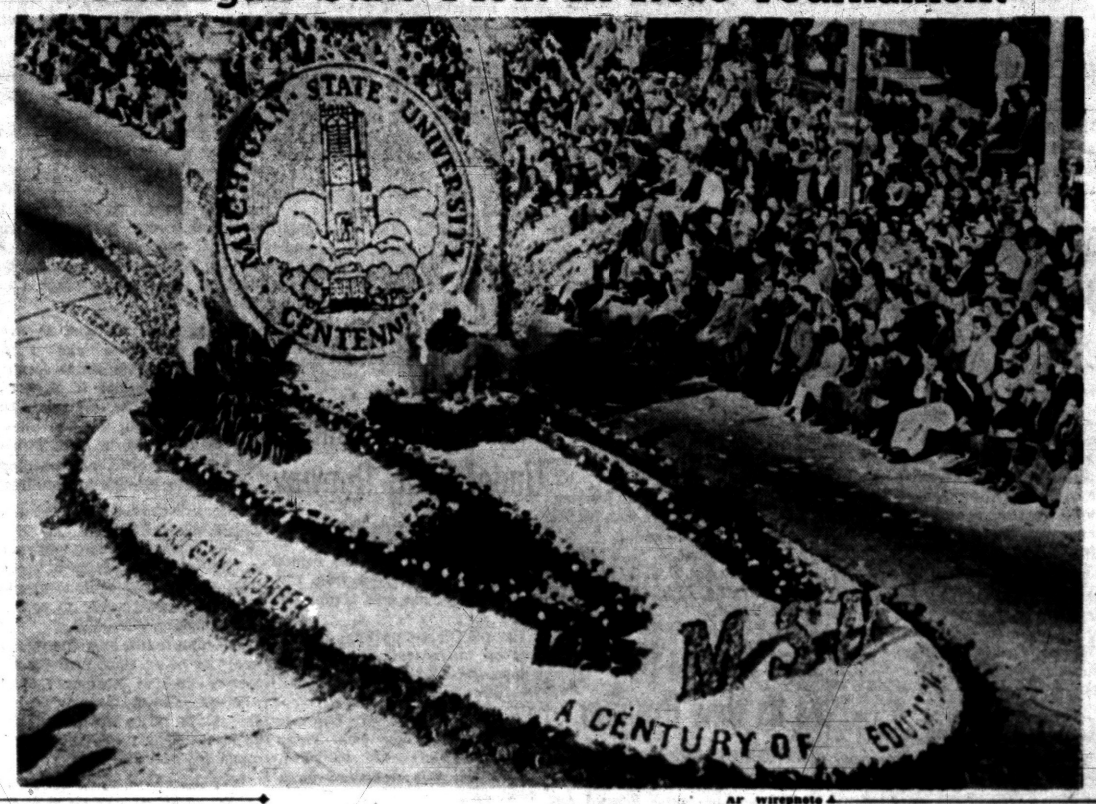

He stated that the organization is working in cooperation with the Waterford Township Business and Professional Women's Association on a program to contact all of the area's civic, school and church groups to invite them to send delegations to the meeting.

"We want as many residents as possible to come," Pappas said. "Incorporation is a prospect which involves everyone in Waterford. The more who attend, the better chance we will have to find out how people feel about it."

A future discussion on annexation will depend upon the success of the Jan. 10 meeting, Pappas said.

The chairman indicated that, contrary to rumors, the meeting was not set up for the purpose of initiating a petition for incorporation.

French Foresee Shaky Coalition

Communist Vote Surges Ahead When Moderate Factions Split

PARIS (AP) — France's national elections — called by Premier Edgar Faure on a gamble that they would bring a strong, stable government — have produced only the prospect of more years of shaky, short-lived coalitions.

Moreover, future premiers will be burdened with a more powerful bloc of Communists in the National Assembly and a new, almost certainly obstructionist faction, the antitax followers of Pierre Poujade.

Both the Communists and the Poujadists appeared to be beneficiaries of a heavy protest vote.

So compounded is the factional confusion of the new Assembly, that it appeared today a Socialist rather than a leader of any of the big parties might be the first premier as a result of yesterday's balloting.

Complete unofficial returns from all except overseas territories gave the middle-of-the-road parties a majority. But this majority was split between the party alliances headed by Faure and his arch rival former Premier Pierre Mendes-France. Together they control about 350 of the Assembly's 544 seats.

The Communists, with 151 seats, emerged as the biggest single party in the legislature and the Poujadists sprang a surprise by electing 49 deputies in their first test at the polls.

Congress Convenes Today Facing Hassle Over Taxes

WASHINGTON (AP)—Congress members assembled today for the start of an election-year session in which they will battle over taxes, a farm program, foreign aid, school and highway building, among other issues.

The noon banging of gavels wielded by Vice President Nixon and Speaker of the House Rayburn marks the formal convening of the Senate and the House for the second session of the 84th Congress.

Routine formalities and back-slapping good fellowship were the only things on the calendar today.

Once again, the session will put to a test the question of how well a Republican administration and a Democratic - controlled Congress can work together.

The Democrats outnumbered the Republicans 49-47 in the Senate and 230-203 in the House. Two House seats are vacant. They were held by Democrats.

The Republicans, behind the banner of President Eisenhower, swept into power in the 1952 elections, but two years later they lost control of Congress to the Democrats.

In the present session both parties will be trying to write a record that will win votes in November. All House members and one third of the senators will be up for election. Control of the White House is also at stake.

* * *

The biggest unanswered question of the moment is whether Eisenhower, stricken by a heart attack last Sept. 24, will run for a second term. He has given no hint and is not expected to do so before mid-February.

* * *

Eisenhower, getting some sun and exercise in Key West, Fla., will outline the administration program in his annual State of the Union message Thursday. He will send it to Congress to be read by clerks.

Fire Kills Son of Naval Official

Thomas Gates Among 3 Students Who Died in Quebec Ski Lodge

WASHINGTON (AP)—Thomas S. Gates III, 21, son of Undersecretary ofthe Navy Thomas S. Gates Jr., and two other Harvard students died in an early morning fire today at a ski lodge near Mont Tremblant, Que.

A dispatch from the resort, 70 miles north of Montreal, gave the names of the others as Myron Timothy Harrick, 21, Brookline, Mass., and Jedediah H. McLane, 19, Millbrook, N.Y.

Identification of Gates as the son of the undersecretary was released through the Navy here.

There was no immediate detail here on the tragedy. In Millbrook, N. Y., however, Huntington McLane, father of one of the dead youths, received word that eight were in a cabin which burned, and five of them escaped. The group had gone to the resort for a week of skiing.

Young Gates was the undersecretary's only son. There are three daughters.

Czar of Jersey Dies in New York

Democrat Frank Hague Controlled State Politics for Many Years

JERSEY CITY, N.J. (AP)—Scores of former followers will pay final respects to Frank Hague, onetime political overlord, as his body goes on public view today.

Messages of sympathy poured in from friends and even former political enemies of the colorful Democrat, who died in New York New Year's Day at the age of 81.

FRANK HAGUE

Hague, considered the last of the nation's old-time political bosses, had been ill for several months. His body was returned here from his Park Avenue apartment.

The mayor of Jersey City for eight successive terms, Hague's political influence was felt in the nation's capital. His body will lie in state today and tomorrow at a funeral home here.

Conrad Church Retires as Editor of Pontiac Press

Continues as Director After Long Career as Newspaperman

Conrad N. Church, editor of The Pontiac Press and secretary of The Pontiac Press Company, is severing full time activities with The Press beginning the first of the new year.

His place as editor will be taken over by John W. Fitzgerald, who has been assistant editor.

Mr. Church will continue to act as director and consultant and will do some editorial work although he is surrendering his active post.

John W. Fitzgerald has been with The Press since 1937 and has been assistant editor for the past two years. He is a director and also will become secretary of the corporation.

In relinquishing his post of active duty after more than a quarter of a century, Mr. Church concludes a journalistic career which started in 1919 as a young reporter on the Ann Arbor News. He joined The Press staff in 1924 as a reporter and became managing editor in 1926. He was appointed editor in 1945.

Mr. Church is widely-known and a respected figure in both national and state newspaper circles. He has served as president of the University Press Club of Michigan and has been a member for some time of the American Society of Newspaper Editors.

Always active in Michigan where newspaper matters are concerned, he has served as a director and vice president of the Associated Press Editorial Assn.

After graduating from the University of Michigan in 1917 Mr. Church worked at the Detroit News and Free Press briefly before seeing service in World War I. Upon his return to active newspaper work he became vitally interested in Pontiac civic affairs.

During his newspaper work here he has given freely of his time to serve in many civic capacities. He has been a director of the Pontiac Chamber of Commerce, president of the Oakland County Tuberculosis Assn., treasurer of Pontiac Veterans Affairs Council, director of the Urban League, director of the YMCA, a director of the Pontiac Federal Savings and Loan Assn. and president of the Pontiac Kiwanis Club.

Throughout the years Mr. Church has always been on hand to give guidance to any civic group or an individual seeking advice. His years of experience and kindly council have been appreciated by individuals both in and outside The Press organization.

Mr. and Mrs. Church will continue to make their home in Pontiac.

The other officers and directors of The Press are: Harold A. Fitzgerald, president and publisher; Horace F. Brodie, executive vice president and advertising director; Howard H. Fitzgerald, vice president and business manager; and Russell Bassett, general advertising manager and treasurer.

500 Lose Lives Over New Year

356 Killed in Traffic; 72 Burn to Death; 72 Die in Other Mishaps

By THE ASSOCIATED PRESS

The nation's traffic deaths mounted to a record high for a three-day New Year's holiday over the long weekend.

It was the second consecutive holiday weekend the traffic toll hit a new record. The toll over the New Year weekend, however, was far below the record-breaking 609 for the Christmas holiday a week ago. It also was under the predicted 420.

An Associated Press survey showed that in the 78-hour period from 6 p.m. local time Friday to midnight Monday, 356 persons were killed in traffic accidents.

The 72 killed in fires and 72 in miscellaneous accidents brought the over-all total to 500.

The previous high for traffic deaths in a three-day New Year period was 317 in 1953-54. The highest previous over-all mark was 433 in the same year.

The National Safety Council had estimated last week that 420 persons would be killed in motor mishaps during the New Year weekend. But with the death rate running below the estimate yesterday the council said a projection indicated the toll would be around 360.

Lansing Woman Loses $5,000 at Rose Parade

PASADENA, Calif. (AP) — An East Lansing, Mich., visitor lost a purse containing $5,000 in cash and jewelry when she stood up to take a picture of a passing float.

Mrs. Jennie C. Stoddard told police she was watching the parade from a grandstand when the purse fell to the ground.

When she went to retrieve it, it was gone. In the purse, she told police, were $500 cash, a diamond brooch and a diamond bracelet, each worth $2,000, and a pearl necklace worth $500.

Also in Pasadena, Singer Dinah Shore almost lost her $1,000 gold plated dress during yesterday's Tournament of Roses parade.

As she was taking her place on a float, there was a heater to keep her feet warm before the parade began.

An astonished spectator noticed peculiar things began to happen to the dress. Before the heater could be grabbed away, Dinah had lost nearly two inches of gold from the bottom of the full-length gown.

4 Area Residents Die in Mishaps Over Weekend

Birmingham Teacher, City Woman, Couple From Royal Oak Dead

Four area residents lost their lives in two holiday accidents and county accidents claimed another two lives yesterday.

State holiday traffic claimed 23 lives between 6 p.m. Friday and midnight last night, a 78-hour period. In last week's 78-hour Christmas holiday, 40 lives were lost in highway accidents.

Local dead are James A. Rhea, 55, of Royal Oak; his wife, Marjorie, 53; Miss Nora Lois Peasley, 27, of Birmingham, and Mrs. Stanley Lewis, 46, of 40 School St.

Mrs. Lewis was killed last night on U.S. 23 near Brighton when the car driven by her husband sideswiped one driven by Norman Thayer, 19, of Clyde, Ohio. Lewis, Thayer, and Wayne Abram, 48, of Bay City, driver of a third car involved, were hospitalized.

Killed in two Bloomfield Township accidents yesterday within two miles of each other were Mrs. Catherine Maher, 47, of Goodells, and Mrs. Jeannette Krulekiski, 35, of Dearborn.

Rhea and his wife died in a headon collision on U.S. 112 between Saline and Clinton. The accident, late last night, also killed James C. Schafer, 23, of Elkhart, Ind.

Miss Peasley, driving with her sister from a visit to their parents in Birmingham, Ohio, died after being thrown from the skidding automobile on Ohio 113 near Milan, Ohio. The sister, Carole J. Peasley, 24, was uninjured.

Mrs. Maher was killed when she apparently lost control of her car on Telegraph road south of 14 Mile road yesterday afternoon.

Redford post State Police said the car jumped the center island, swerved back after hitting the left hand shoulder, and was struck broadside by a car driven by Robert Rhoades, 40, of Detroit.

Three of Mrs. Maher's children, Veronica, 14; Basil, 12; and Jerry, 10, were hospitalized.

Mrs. Krulekiski died shortly after an accident on Maple road near Telegraph road yesterday afternoon. The car driven by her husband, Stanley, 34, skidded on snowy pavement and swung broadside in front of a car containing three Birmingham boys.

Her one-year-old son, Stanley, who suffered a fractured skull in the crash, was reported in fair condition in St. Joseph Mercy Hospital this morning.

Rose Bowl Hero!

Kaiser's Surprising Goal Places Dave on Pedestal

LANSING (AP) — The mayors of East Lansing and Lansing have proclaimed tomorrow "Dave Kaiser Day" in honor of the Michigan State University end who kicked the winning field goal in the Rose Bowl game.

Civic officials planned a gala reception for the victorious Spartans, due to arrive at 7:50 p. m. tomorrow at Capitol City Airport.

The team will be escorted through Lansing and East Lansing by a giant motorcade. Four bands will participate.

Officials have asked residents along the motorcade route to turn on their porch lights in recognition of the team.

LOS ANGELES—If be-spectacled Dave Kaiser were to ask for anything in the State of Michigan today, chances are he would get his wish.

For it was this sophomore Michigan State end that took leave from his regular flanker position to boot his team to a 17-14 squeaker over an untiring and determined bunch of UCLA Bruins.

The scene was the 42nd edition of the Rose Bowl played before a sun-baked 100,809 fans in the gigantic

Adams Is Installed in Courthouse Rites

Clark J. Adams was sworn in as Oakland County's fourth Circuit judge this morning at 11 a.m. in the courthouse.

Adams, 51, a local attorney and former Michigan Supreme Court justice, was appointed by Gov. G. Mennen Williams last June 25 after the Legislature created the post to relieve the heavy load on the three existing judges.

Judge Adams must run for re-election next November if he desires to remain on the bench. His courtroom and chambers are located in a remodeled space in the courthouse basement.

With his wife, Adeline, Judge Adams resides at 2755 W. Walton Blvd., Waterford Township.

Four Men Are VIPs in 1956 Congress

WASHINGTON (AP) — Four men who provide a combination of youth and age along with experience and reputations for hard work will guide Congress in 1956.

The "big four" on Capitol Hill during the new session opening today will be:

Sam Rayburn, 73, who has been Speaker of the House for more than 11 years in all—longer than any other man.

Lyndon B. Johnson, like Rayburn a Texas Democrat, whose selection as Senate Democratic leader three years ago at 44 made him the youngest ever to hold that post.

Joseph W. Martin Jr., 71, a Massachusetts Republican who has led his party colleagues in the House for 17 years and served four years as Speaker.

William F. Knowland, 47-year-old Californian whose rise to the Senate GOP leadership in 1953 made him one of the youngest majority leaders in history.

DEMS IN CONTROL

They face a major task in a presidential election year.

The Democrats control both House and Senate by thin majorities. The Republicans hold the presidency and its empire of executive agencies. Not only the White House, but all House seats and one third of the Senate seats will be at stake in November.

Rayburn and Martin, Johnson and Knowland will have their ranks behind party programs while still encouraging the moderation and compromise that are necessary to legislative accomplishments.

Rayburn has been a staunch supporter of the Democratic program —with a capital "D"—since he entered Congress with the first administration of Woodrow Wilson. He may find it harder to keep his own temper in check as the partisan spirit fans hotter. The same goes for Martin, a House member since 1925 and a GOP stalwart long before that.

JOHNSON TO EASE UP

Johnson has the added personal problem of a heart attack suffered last July which is expected to slow down the strenuous pace at which he had driven himself as Senate leader.

Knowland's biggest difficulty may stem from his evident intent to run for president if President Eisenhower decides against another bid. The outspoken Californian makes no secret of his differences with Eisenhower over foreign policy. As a campaigner for president, he might be stressing his opposition to parts of the Eisenhower program while, as Senate GOP leader, he'd be expected to help it through.

Congressional Democrats have an especially important job because, with their party out of power and no agreed-on leader pending the 1956 nominating convention in August, it's up to them to set the tone on party policy.

Teenagers Lead Police on Chase

Royal Oak Youths Hurt as Car-Utility Pole Crash Ends Their 'Joyride'

Two 14-year-old Royal Oak youths narrowly missed death New Year's Eve when their allegedly stolen car flipped over and plowed into a utility pole on S. Blvd. near Opdyke Rd., in Pontiac Township, after a police chase at speeds of 110 miles per hour.

Both in good condition in St. Joseph Mercy Hospital, the driver suffered a broken leg and his companion a fractured disc in his neck, hospital authorities said.

Birmingham Police, who originated the chase, said the two will be charged with stealing the car. Pontiac Police said the pair also will be charged with leaving the scene of an accident, caused when the two dodged a road block at S. Blvd. and Woodward.

The youths are said to have stolen the car from outside a bar in Berkley to begin a joy-ride north on Woodward Ave. Birmingham Police gave chase at 80-miles per hour, then called for a road block when they discovered the car was reported stolen.

At Woodward and South Blvd. the pair smashed into cars driven by John M. Romig, a Massachusetts soldier stationed in Centerline, and William Bartlett, 56 Florence Ave.

Police cars from Pontiac, Birmingham, Bloomfield Township and Oakland County Sheriff's Department were involved in the chase.

Detroit Paper Strike Enters Its 34th Day

DETROIT (AP)—Detroit's newspaper strike went into its 34th day today with publishers and striking unions on call to resume bargaining talks.

The morning Free Press and afternoon News and the Times have been shut down since Dec. 1 when stereotypers walked off their jobs in a new contract dispute. They later were joined in strike action by mailers and printers.

Pickets, withdrawn under a holiday truce, were to resume posts today.

Besides the stereotypers, mailers and printers, contracts also have expired with teamsters, photo engravers and the Detroit Newspaper Guild. None of the latter three unions is on strike.

Pressmen and paper and plate handlers have signed new pacts providing for a $3.75 weekly wage increase and a new March 1, 1957 contract expiration date. Stereotypers are holding out for a similar wage boost and the old Nov. 30 expiration.

Wages and expiration date reportedly are the only remaining issues between the publishers and mailers.

Mrs. Helen Toth Hurt in Two-Car Smashup

A 31-year-old mother received minor injuries in a two-car collision yesterday, but her six-year-old son escaped unscathed.

Mrs. Helen Toth, 405 First Ave., was released after treatment in Pontiac General Hospital. Her son Dimitrie Jr., and husband, Dimitrie Toth Sr., who was driving, were uninjured.

Pontiac Police said the accident occurred with a car driven by Orval L. Huff, 43, of 376 N. Perry St., at Ivy St. and Tennyson Ave.

Collision of Two Cars Injures Youngster, 4

A four-year-old boy was slightly injured in a two-car collision last night on Franklin Rd.

Edward Westenberger was given emergency treatment in Pontiac General Hospital, where he was taken by his father, Walter E. Westenberger, 25, of 815 Northfield Ave.

Police said Westenberger's car was struck when another car skidded out in front of him. The other driver was Alphonza F. Hicks Jr. 31, of 501 Fildew Ave., they said.

THOMAS A. FARRELL

Thomas Farrell Dies Sunday

Service for Retired Ford Vice President Thursday

Thomas A. Farrell, a retired vice president of Ford Motor Co. who had lived in the Birmingham and Bloomfield Hills area since 1939, died Sunday night at Henry Ford Hospital following a brief illness. His home is on Pembroke Drive, Bloomfield Hills.

Born March 30, 1899, in Newark, N. J., Mr. Farrell was a graduate of Lafayette college and was a member of Detroit Athletic Club, Bloomfield Hills Country Club, Recess Club, Serra Club, and Indian Creek Golf Club at Miami Beach, Fla.

He retired from the Ford vice-presidency in January, 1954, and had also been president of Dearborn Motors, formerly distributor for Ford farm equipment.

Surviving are his wife, the former Dorothy H. Hefele; his daughter, Mrs. Roger Stolberg; a brother, Leo, of Short Hills, N. J., and two sisters, Mrs. Marion Washburn, of East Orange, N. J., and Mrs. Lillian Weaver, of Woodbridge, N. J.

A requiem mass is scheduled for 10 a.m. Thursday at St. Hugo of the Hills Church, with interment in White Chapel Memorial cemetery.

Rosary will be said at 8:30 p.m. Wednesday at Bell Chapel of the William R. Hamilton Co.

Kaiser a Hero After Game-Winning Goal

(Continued From Page One)

Pasadena bowl. The clock showed only 7 seconds remaining in the contest. Many fans had filed out to thousands of waiting cars, taxis and buses. The score read 14-14

Then the tide turned for the Spartans. Not a soul in the stadium was seated as Kaiser went back for a field goal attempt. MSU fans couldn't believe their eyes.

Where was Gerry Planutis, the regular place kicker?

Before their questions could be answered, the ball was in the air, sailing 41 yards through the uprights. The officials signaled the try was good.

On one side of the mammoth arena, bedlam broke out. On the opposite side, five sections of white shirt-clad Uclan rooters sat in amazement as the clock ran out to signal end of the game, and another loss for the Bruins to the invading Spartans from MSU.

Hundreds of Spartan fans, part of 4,400 students that came West, flocked to the field. One set of goal posts tumbled in seconds like match sticks. Then the other posts came down.

Green and white pennants, huge banners and hats were flung in the air as State players hurried to the field. Their aim was one Davey Kaiser. They tried so hard to boost the hero of the game to their shoulders that he nearly was trampled under a swarm of jubilant State rooters.

Several Spartan Gridders lost their jerseys in the scuffle, to demanding souvenir hunters. By this time the goal posts were in a million pieces.

The MSU band, which performed perfectly in all its performances on the Coast, formed in the center of the field. It struck up "California Here We come," and shouts of "We'll be back in 1958" could be heard throughout the crowd as they marched to the exits.

Due to nervous tension of this classic and the tremendous Uclan line breaking through on him, All-America Earl Morrall failed to live up to all the plaudits that had been heaped on him. He did connect for one touchdown pass but for the rest of the afternoon he couldn't hit his marks.

Fabulous Ronnie Knox was just that, today. One can expect him to be a thorn in any opponent's side for a few more seasons, he was cool under pressure and proved a standout on both defense and offense alike.

And MSU probably will never forge one Sam Brown, as his team will always remember the powerful running of Walt Kowalczyk, Planutis and the TD catch of "Big Thunder" Lewis.

But one name stands out today and always will be remembered when the 1956 Rose Bowl is discussed. That name: Dave Kaiser.

Born in Newark, Ohio July 12, 1869, he was the son of Peter and Emilia Doyle Murphy. On Oct. 11, 1926, he was married to Elsie M. Shaffbower.

Mr. Murphy had lived in Pontiac 15 years, coming here from Port Huron. He was a retired cast iron moulder.

Surviving are his wife; a daughter, Milden Murphy of Toledo, Ohio; three stepchildren, Mrs. Frances Blynn of Pontiac, Gilbert Bullock of Clarkston, Vincent Tate of Port Huron and six grandchildren.

A sister, Mrs. Sadie Fitzpatrick, is living in Newark.

Service was at 1 p.m. today in the Sparks-Griffin Chapel with the Rev. William E. Hakes of the First Baptist Church officiating. Burial was in the Lakeside Cemetery, Port Huron.

John Vasiloff

John Vasiloff, 73, of 40 Auburn Ave. died at his home Sunday of a heart condition. He had been ill one week.

Born in Bulgaria Nov. 13, 1882, he had lived in Pontiac 20 years and was last employed at the Pure Food Restaurant.

He is survived by a daughter who lives in Bulgaria.

Arrangements will be announced later by the Huntoon Funeral Home.

MISS NEW YEAR — Two-day-old Terry Lynn Caddell, first child born in Pontiac this year, pays little attention to fame as she nestles in the arms of mother, Mrs. Fred Caddell, 27. The birth took place at 3:06 a. m. Jan. 1 in Pontiac General Hospital. The little lady weighed seven pounds, 13 ounces at birth, measured 19½ inches long, and welcomed the New Year with lusty cries, hospital authorities said. The Caddells live at 6 Grant St. with their four other children, ages 5, 4, 3 and 2.

and Greg Ruddy, all 16—also were hospitalized.

Another of Mrs. Catherine Maher's children, Tim, 17, was released from St. Clair County Jail shortly after the accident to help in the family emergency. He had been serving a series of weekend sentences for reckless driving.

In addition to the 23 highway dead, a baby died in a fire, a man was fatally shot and two drowned.

Others killed included:

Sharon Cochran of Wheeler, Gratiot County, fatally injured Monday a mile south of Wheeler.

Eugene Barker, 20, of Flint, killed Monday at Mt. Morris.

Beverly Smith, 17, of Lansing, was killed Monday and three other Lansing young people were injured when their car skidded off M99 three miles north of Eaton Rapids and hit a tree.

Retha Thomas, 20, of Ann Arbor, was killed and her husband Peter, 22, injured slightly when their car collided Monday night with one driven by Clark E. Flood, 19, of Ortonville, near Ann Arbor.

Sarah Butterfield, 70, was injured fatally Monday 1½ miles east of Davison.

Richard Poore, 26, of Flint, injured fatally Monday when his car collided with a truck in suburban Detroit.

Eric Rogers, eight-months-old, died in a fire in his family's Hamtramck apartment Saturday night.

Gerald Paul Gainsley Jr., 13, of Dexter drowned Sunday when he and two other youths went through thin ice while skating on Portage Lake.

Robert Firestone Shoe, 30, of Grand Rapids, was injured fatally early Sunday in Walker Township, Kent County, when the alleged stolen car he was driving plunged off the end of a dead end street into a field and overturned.

Victor Lloyd, 55, of Birch Run was killed Friday night when his car struck the rear of a truck on U.S. 10, six miles north of Flint.

Allan A. Davis, 28, of Detroit was killed Friday night in a two car collision on Willow Run Expressway.

William Ramsey, 21, of River Rouge, was fatally injured Friday night when struck by a car.

George Ahonen, 46, of Ironwood, was killed Saturday night when his truck collided with another truck.

In an accident outside of Michigan, Mrs. Dorothy Lindsey, 20, of Detroit, was injured fatally in a two-car collision near Fort Wayne, Ind., early Saturday.

Dillard Denton, 59, of Detroit, was struck and killed by a car in Detroit Saturday night.

Alfred Koss, 30, of Grand Rapids, suffered fatal injuries Sunday morning in Kent County when his car hit a tree.

James L. Jones, 23, of Nashville, lost his life Saturday night when his car hit a tree off M 50 near Charlotte.

Joseph Donovan Jr., 34, of St. Clair Shores, was struck and fatally injured by a car in Grosse Pointe Farms Friday night.

Thomas Nugent, 45, of Croswell, was killed Sunday when his car overturned in Sanilac County.

Kenneth G. Harvey, 27, of Nunica, was killed Sunday when his car hit a tree.

Marcus Phal, 64, of Coldwater, drowned Sunday night when he fell through ice while skating.

James F. Nemecek, 19, a Marine home on leave, also is reported dead in traffic. Nemecek lived in Swartz Creek.

Saar Choses Ney as Its New Premier

SAARBRUECKEN, Saar (AP) — Hubert Ney, leader of the Saar offshoot of Chancellor Konrad Adenauer's Christian Democratic Union, is the new premier of the long-disputed border territory. Ex-Nazi Heinrich Schneider is the new president of its Parliament.

* * *

The three pro-German parties which swept the Dec. 18 parliamentary elections picked them yesterday. Parliament followed up by electing Schneider and will meet Jan. 10 to approve Ney.

The new Premier, a 63-year-old Roman Catholic lawyer, heads a three-party coalition Cabinet pledged to unite the Saar with West Germany.

Schneider, a fiery 48-year-old lawyer, led the 1935 plebiscite campaign which returned the Saar to Germany.

Newsman Finds Crime Without Traveling Far

WACO, Tex. (AP)—A Waco newsman didn't have far to go to get a theft story last night.

"Heard about the big crime wave?" asked a Waco police officer over the telephone. The newsman said he hadn't but walked down a flight of stairs to the News-Tribune's circulation office to check on it.

Police are holding a 14-year-old boy for theft of about $15 from the newspaper's circulation office.

Police Seeking Cause of Saginaw Street Blast

Cause of a mysterious explosion which rocked a vacant home at 567 N. Saginaw St. early Sunday, is still not determined, Pontiac Police said.

They reported that windows of the house were blown out, as well as windows of an occupied dwelling at 369 N. Saginaw St.

No one was reported injured, they said.

70 Arrested in Violence at Westinghouse Plant in Columbus, Ohio

COLUMBUS, Ohio (AP)—At least seven persons were hurt and one man died, possibly of a heart attack, in a flareup of violence this morning at the struck Westinghouse plant here.

Police and sheriff's deputies estimated they arrested 70 persons taking part in a mass demonstration at the plant's five gates on the city's far west side.

Automobiles were overturned at each of the gates. Deputies said the trouble started as they sought to break up the mass picketing at the gates. Officers said striking members of Local 746, International Union fo Electrical Workers, threw stones and damaged squad cars. Windshields of a number of other cars also were reported broken.

Among those in the county jail are union members from Cincinnati, Mansfield and other Ohio cities, officers said. Police quoted some of those arrested as saying they came here for business meeting.

Jailers said stones were found on some of those arrested.

The man who died was identified as Troy Tadlock, 34, of nearby Grove City. He was picked up unconscious at Gate No. 1 of the plant. He was dead on arrival at Mt. Carmel Hospital, and authorities said they had been informed the man may have died of a heart attack.

Pilot Hurt as Plane Undershoots Runway

LANSING (AP) — A twin-engined Cessna airplane crashed early today when it undershot the capital city airport on a flight from Chicago. One person was slightly injured.

The plane, approaching the airport on instruments, skidded into a farmer's field 2½ miles west of the runway.

Richard Marsh of Lansing, pilot, received face cuts. Three other occupants were uninjured. The plane was described as a total loss.

Richard Frazier, Lansing State Journal photographer who was a passenger in the plane, said the tower reported the plane's altitude at 300 feet.

"The next thing we knew we were skidding along a field and the nose wheel and left landing wheel broke off," he said.

The plane had been chartered from a flying service to fly Frazier and his wife from Chicago on the last leg of their trip home from the Rose Bowl.

The crash occurred shortly before 5:30 a.m.

U.S. Administrator Cuts Import Tax for Okinawa

VNAHA, Okinawa (AP)—The U. S. civil administrator of the Ryukyu Islands, including the big U. S. Pacific base, today overruled the Ryukyu Legislature and slashed import taxes on luxury goods.

Brig. Gen. Vonna F. Burger trimmed duties on many luxury items — most of them imported from the United States — to five per cent. They had been taxed up to 40 per cent by the native legislature.

Burger explained his move would permit Okinawa merchants to compete with post exchanges in the sale of luxury goods.

Burger has the power to veto bills passed by the popularly-elected legislature.

Enter Not Guilty Plea for Detroit Resident

A Detroit man, Bernard L. McNamara, 28, charged with attempt to procure an act of gross indecency, stood mute at arraignment in Municipal Court Saturday.

Judge Cecil McCallum entered a plea of not guilty and set examination tomorrow.

McNamara was returned to jail when he failed to post a $5,000 bond.

Campaign for Polio Funds Opens Here, Over Nation

The March of Dimes fund drive got under way today as Pontiac and Oakland County joined 10,000 other communities in the United States in the effort to wipe out the crippling disease. The campaign will continue through Jan. 31.

"Polio Isn't Licked Yet," was the theme of the National Foundation for Infantile Paralysis, whose March of Dimes funds financed the development of the Salk polio vaccine. In 1954 and 1955 the Oakland chapter supplied Salk vaccine for 28,000 school children.

"Donations are needed for continued research and to provide iron lungs, hospital care, physical therapy, crutches, braces and wheelchairs for those for whom the Salk vaccine came too late," said John A. Benson, Pontiac chairman of the 1956 March of Dimes.

In 1955, the Oakland County Chapter collected $147,000 and provided $80,000 in help to 50 county residents who were stricken by polio, and to 250 polio victims of former years. The money supplied hospital, medical and special nursing care, physical therapy and equipment. Benson pointed out that these, as well as the yet unnamed victims of 1956, will be looking to the March of Dimes for help in the coming year.

Letters were sent out this weekend to 50,000 area residents, addressed by local teenagers and prepared for mailing by Women of the Moose of Lodge 350. Donations may be mailed to March of Dimes headquarters at 75 W. Huron St., or brought in between the hours of 9 a.m. and 5 p.m.

Assisting Benson in the Pontiac campaign are Gordon Reynolds, chairman of canisters and Polio Dime Boards; Leslie Ware, chairman of business and industry solicitations; James Cadieux, displays and theatres; Mrs. Robinson Bronoel, women's activities; Mrs. Harold E. Brady, parochial activities; Mrs. Stanley Watson, Mothers' March; Richard Poole, Junior Chamber of Commerce teenage activities; Mrs. Emery Mitchell, treasurer; and Mrs. Arthur L. Horst, publicity. Coca-Cola Company drivers are distributing canisters.

The Day in Birmingham

Parking Structure Heads City Commission Agenda

BIRMINGHAM — Possibility of a several-story parking structure in the block bounded by Hamilton, Ferndale, Oakland and Park will be discussed by city commissioners tonight.

Cost of such a structure has been investigated by City Manager D. C. Egbert, and commissioners may decide tonight to build such a structure rather than develop three parking lots in that area.

Commissioners agreed earlier, Egbert points out, in his report tonight that Site A would be utilized for parking whether a parking structure is used or not. Sites E and F, to the east of Park, will also be under discussion.

Ramps which would carry cars up in the parking structure, but on which they could be parked diagonally or perpendicularly, are the type used in Ann Arbor, where that city is thinking of adding more than the present three levels. This might be duplicated here.

East Maple property owners are showing a substantial interest in the E and F parking sites, according to a survey taken reportedly by Sam Bruni, whose market is near that corner. A walkway tentatively approved would allow parking lot customers to cross the block to the south to reach East Maple.

Zoning along Oakland Avenue between Ferndale and Park would be kept to single family dwellings, according to Egbert's suggestions. Other changes to be discussed tonight are the altering of the crook in Park Street to facilitate traffic, and opening of Ferndale through to Hamilton.

Other discussions on tonight's agenda are a 2,651 foot new fence around Springdale Park to prevent vandalism and avoidance of greens fees; and a new traffic controller at Pierce and Lincoln to replace one no longer workable.

The commission may appropriate funds for office equipment for recreation director, Norman Landry, who will take up the new post on Jan. 8. His office will temporarily be in the former fire wing of the municipal building.

Ice skating rinks in neighborhoods being flooded by the city departments will be analyzed by city officials tonight. City Manager Egbert asks that a policy be followed, and suggests that a great deal more can be accomplished by using the city's regular rinks.

University of Minnesota Women's Club will hear Mrs. Raymond Walmoth do a book review at Mrs. R. M. McKercher's home on Arlington in Royal Oak on Friday. Hostesses include Mrs. T. E. Olson of Beverly Hills and Mrs. John Turnacliff of Bloomfield Hills.

Officers of the Pythian Sisters, No. 94, Birmingham, will be installed by Mrs. Joseph Davidson of Berkley at 8 p. m. tonight at the Community House. Aiding in ceremonials will be Mrs. Theodore Kelly of Birmingham and Mrs. Howard Wright of Pontiac.

Michael J. Dwyer

Michael J. Dwyer, 72, who had lived with his daughter, Mrs. Stanley L. Rosenquist, 1039 Madison, for the past five years, died Monday at home. His body was sent last night to Pittsburgh, Pa., where he had spent most of his life, after coming from Ireland. A retired oil man, he belonged to Holy Name Church.

Besides Mrs. Rosenquist, he leaves a brother, Joseph, of Pittsburgh, and two grandchildren.

Utica Woman Injured in Midnight Collision

BLOOMFIELD TOWNSHIP — Mrs. Dorothy Lowe, of Utica, 66, received cuts on her face and a possible broken knee when the car driven by her husband, Arthur, collided with one driven by the Rev. Fr. Alfred J. Immel, of St. Vincent de Paul Church, Pontiac. The accident occurred at Maple and Telegraph Roads, shortly after midnight. Neither driver was hurt and no tickets were issued.

Shooting Jails Man on Murder Charge

WARREN TOWNSHIP — James W. Lewis, 26, of 7543 Hupp, Van Dyke, is being held in Mt. Clemens County jail for investigation of first degree murder in the shooting of his brother, John, 23, with a 20 gauge shotgun early New Year's Day.

According to Capt. Charles Groesbeck of Warren Township police, the shooting occurred after John had given his younger brother, Linton, 19, repeated beatings in the family home following a drinking session.

Drunk Arrests Drop

DETROIT (INS)—Detroit police arrested fewer motorists on drunk driving charges during the New Year's week-end than they did over the Christmas holiday. Only 21 drivers were arrested on the charge during New Year's as compared with 64 taken into custody a week ago.

Ike Discusses Finances Today

Tax Cuts May Hamper Prospects of Balanced Budget for Fiscal '57

KEY WEST, Fla. (INS)—President Eisenhower sits down with his budget chief today for a hard look at the spending figures which will determine the prospect of an election-year tax cut.

* * *

Budget Director Rowland Hughes was to confer with Eisenhower at Key West on the new budget, scheduled to go to Congress late in January.

Prospects are that the budget for fiscal year 1957, starting next July 1, will be balanced, barring tax reductions which cut revenue below expenditures.

Eisenhower also planned to put the finishing touches today on the state of the union message spelling out his 1956 legislative program.

The lengthy message will be sent back to Washington late today or tomorrow for a final going over by the President's speech-writers before it is transmitted to Congress Thursday.

Military spending makes up more than half of the federal budget.

Arrest Two Men in Equipment Theft

Two men, allegedly escaped from a prison farm near Jackson, face charges of stealing several hundred dollars worth of office equipment and merchandise from a Pontiac firm last week.

Held here are Billy M. Henderson, 22, and David L. Eastham, 21, both of Graysville, Tenn.

The pair was arrested Saturday in Marshall, where police reported finding in their car the articles stolen from a freight company's office at 267 S. Blvd. E.

Pontiac Police said the two have been identified by Battle Creek Police as escapees from the Cassidy Lake State Prison Farm.

Eiffel Tower Fire Result of Coaxial TV Cable Short

PARIS (AP)—Fire broke out atop the steel-skeletoned Eiffel Tower early today. It was brought under control by firemen who panted all the way to the top of the 984-foot structure on foot.

* * *

One eager fire fighter was cut above the wrists as he yanked at fire extinguishers in the fight to save Paris' most obvious landmark. He was the only casualty reported.

The blaze began in an electrical connection in the television coaxial cable installation on the tower's top floor. A black billow of smoke could be seen all over town.

Fifteen firemen made the long journey up the stairs before the elevator got working.

The fire briefly interrupted the program of the government-operated television network, which had been running overtime carrying results of the French elections. But the 9 a.m. newscasters counseled his listeners:

"Don't worry about the Eiffel Tower. It's still there. Just to prove it, we're going to show it to you on this screen."

Ike, Eden May Talk Egyptian Dam Aid

CAIRO (AP) — U.S. Ambassador Henry Byroade left for Washington today for consultations believed to be preparatory to the meeting of President Eisenhower and Prime Minister Eden later this month.

Byroade had a long talk with Egyptian Premier Gamal Abdel Nasser yesterday and later told newsmen they had discussed the financing of the Aswan Nile dam among other matters.

The United States and Britain have offered to supplement a proposed World Bank loan for the dam but the Egyptians are balking at conditions the bank is imposing.

Guatemala Government Smashes Holiday Plot

GUATEMALA (AP) — President Carlos Castillo Armas' government says it broke up a plot on New Year's Eve led by lesser members of the pro-Communist regime of ousted President Jacobo Arbenz Guzman.

A government spokesman said former officials arrested included Health Director Luis Galich, Foreign Ministry publicity chief Carlos Zachrisson Jr. and Roberto Barillas Izaguirre, former director of the Cooperative Development Institute.

Expect Petition Approval to Bring Vote on Parking

City Clerk Ada R. Evans is expected to certify tonight that enough signatures were obtained on referendum petitions to force a public vote on the City Commission's $600,000 municipal parking program.

Last Nov. 22 the Commission adopted an ordinance which would provide 624 new parking stalls to add to the present 117.

A group led by Sam L. Stolorow, then circulated petitions to force a citywide vote on the ordinance. The opposing group claims a tax hike will be necessary to finance the project, a charge denied by city officials.

If enough signatures have been secured, the Commission will set a date for the voting.

In other scheduled action Pontiac Municipal Judges Cecil McCallum and Maurice E. Finnegan are expected to nominate their three present process servers for one-year terms.

City Engineer Lewis M. Wrenn is slated to submit cost estimates for construction of three sections of the proposed Pontiac Creek Drain.

Farmer Income Drops 12 Pct.

Benson Report Reveals Grower Receives Less From Consumer Dollar

WASHINGTON (AP)—The farmer's decreasing share of the housewife's food dollar was spotlighted last night by Secretary of Agriculture Benson.

The secretary released a report by department experts that in 1955 farmers received 41 per cent of the consumer's retail food dollar—down from a record high of 53 per cent in 1945.

Rising costs of handling and processing food all along the line from farm to market were held responsible.

The report said wage rates were up nearly 100 per cent over 1945 while freight charges and other costs increased by about two thirds.

Benson had announced a request for the study last month, saying he and President Eisenhower had discussed the problem and agreed the department should determine whether retail food costs "contain improper or excessive marketing charges and profits."

The report said that, on a percentage basis, profits of food marketing firms showed no marked increase in recent years. Many firms showed bigger profits dollar-wise but the report attributed this to increased sales.

Sparkplugs Stolen From Gas Station

Over $260 worth of merchandise was reported stolen Sunday night from a gas station at 885 Orchard Lake Ave., police said.

The manager, H. R. Walls, 925 Argyle St., said 400 boxes of sparkplugs were missing.

Police investigated the theft after glass in a garage door was found smashed.

Sisters Injured Slightly in Two-Car Collision

Two young sisters received minor injuries in a two-car collision at Edison and Lewis Sts. Sunday.

Shirley J. Reeve, 10, and Peggy L. Reeve, 8, both of 661 E. Fourth Ave., were released after treatment in Pontiac General Hospital.

They were passengers with their father, Horace W. Reeve, 35, of the same address, who collided with a car driven by Raymond E. Anderson, 20, of 159 Wolfe St., Pontiac Police said.

Religious Groups Merge

DAYTONA BEACH, Fla. (AP) — White and Negro clergymen associations merged yesterday to form the Ministerial Assn. of the Halifax Area, one of the first integrated community ministerial groups in the Southern States. Members of the old Daytona Beach Ministerial Assn., a white group, and the Interdenominational Ministerial Alliance, a Negro organization, make up the new body.

WINTER FUN — 2
Stan on Skis

In northern Europe skiing is an old sport. In the United States it is becoming more popular every year.

Skis are long, narrow strips of wood curled up at the end. On them a boy or girl can skim over the snow. Poles with disks at the end help the skier keep his balance.

Color Stan's clothes brightly and paste the picture on thin cardboard. Cut out Stan and his skis and the disks. Then cut through the dotted slit in the middle of each ski. Fold Stan's feet on the dotted lines, slip them through the slits, and paste them to the skis. With gummed tape fasten a penny beneath each foot to help Stand stand up.

Punch holes in Stan's mittens and push a toothpick through them to act as ski poles. Thrust the other ends through the centers of the disks. Now Stan is ready to go skiing.

Tomb's Opening May End Dispute

Grave Could Prove That Marlowe Wrote Shakespeare's Plays

LONDON (AP) — The Church of England has given permission to open a tomb in a Kent County church in an effort to determine if Christopher Marlowe wrote the plays attributed to William Shakespeare.

After a hearing in Chiselhurst's mellow old St. Nicholas Church, Chancellor Percy Lamb of the diocese of Rochester ruled Maj. John Marsham - Townshend, lord of the manor of Scadbury, could open the 16th century tomb believed to contain the body of Marlowe's patron Thomas Walsingham and others of his family.

Partisans of Marlowe hope to find inside papers that will bear out this theory.

Marlowe, a rising dramatist and poet, fell under suspicion of treason and Queen Elizabeth's privy council ordered his arrest. To save his protege, Walsingham arranged a tavern stabbing and had a farmer's body identified as Marlowe's.

Then he secluded the poet at one of his estates, where Marlow turned out "Hamlet," "King Lear" and the rest of the dramas. To get the plays produced, Walsingham hired a dull poacher recently come to London, William Shakespeare of Avon, to give them his name.

The pro-Marlowe scholars figure Walsingham would not have died without leaving some evidence of his great secret. They reckon his tomb was the logical hiding place.

Calvin Hoffman, a New York writer, has been one of the most energetic of those seeking to have the tomb opened, but he was not mentioned in the hearing at Chiselhurst.

Bean Merger Approved

SAGINAW (AP) — Stockholders of the Michigan Bean Co. have voted to merge their firm next Friday with Wickes Corp. of Saginaw. They will receive 100,676 shares of Wicks Coop. stock, valued at $1,610,816, for the bean company. The latter will become a division of Wickes and Albert L. Riedel, president of the bean firm, will become a Wickes vice president and general manager of the new division.

UAW Members Gain

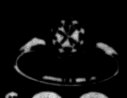

DETROIT (AP)—The United Auto Workers report that 1,002,098 of their members now are covered by jobless pay plans guaranteeing 60 to 65 per cent of normal take-home pay during layoffs ranging up to 26 weeks. Company-created funds supplement regular unemployment compensation under the jobless pay plans.

Wife in Tears After Jail Visit

'Forget About Me,' Says Husband Suspected of Killing Girl in Cleveland

CLEVELAND (AP)—The wife of Navy Yeoman William Miller, 24, visited him yesterday in jail where he is held in the fatal beating of a girl with whom he celebrated New Year's Eve. The visit ended with his wife in tears.

* * *

"Forget about me," reporters heard Miller say to pretty 22-year-old Louise Miller of Huntington, W.Va., mother of his year-old daughter and expecting another child in July.

"I can't," sobbed his wife. "I've got to do something if only to protect the names of our babies. Now you know why I'm here. When they grow up people are going to talk about them."

Mrs. Miller suggested that her husband, whose naval career included several weeks in a psychiatric ward, plead insanity.

Miller was not immediately charged.

* * *

The yeoman told police he picked up Miss Carol Martin, 21, in a bar here New Year's Eve and later beat her when she refused to submit to his advances. Her body, stripped of clothing, was found Sunday on the ground of an East Side ball park.

It was unidentified until yesterday when her sister read her description in a newspaper. Miller, after an evening of drinking and dancing with the victim, didn't know her name.

Uruguay President Faces Duel of Honor

MONTEVIDEO, Uruguay (AP)—Arbiters will decide whether chief of state Luis Batlle Berres must fight a duel with a newspaper editor his own paper blasted.

* * *

The editor of the weekly La Nacional, Washington Guadalupe, had accused Batlle Berres of protecting private interests and serving as a financial agent for Fernando Farina, managing editor of the chief of state's daily newspaper Accion.

Accion replied editorially that "apparently we are in the presence of low-minded people; only those who have dirty souls can write such things."

Guadalupe then challenged Batlle Berres to the duel, but the latter refused to retract his editorial. Each named seconds to discuss the "matter of honor."

Uruguay's laws permit dueling, but only after an honor tribunal decides there is no other course possible. Seconds for both men select an arbiter who makes the decision himself or calls in other judges to help.

* * *

Batlle Berres is recuperating from gastric disorders with which he collapsed during his visit to the United States last month.

Brewery Bell to Toll for Kentucky Church

HEBRON, Ky. (AP)—In case you want to know for whom the bell tolls, it tolls for a church instead of a brewery.

The bronze bell, which for 94 years rang the hour at a Cincinnati brewery, soon will be used to summon worshippers from the steeple of the Immaculate Heart of Mary Roman Catholic Church.

The old bell, 60 inches in diameter, will be moved to the steeple from the Red Top Brewing Co.

"IT'S MINE"—French buisnessman Charles Roux de Lusignan, 72, has complicated the already complicated question of "Who owns Cyprus?" The British, Greeks and Cypriots have each laid claim to it. Now Lusignan is claiming it, saying an ancestor, Guy de Lusignan, bought the island from the Knights Templar in 1192 for some $126,000.

U.S. Officials Doubt Sincerity of Bulganin

WASHINGTON (AP)—American officials do not share the view expressed by Premier Bulganin of Russia that early new Big Four talks at the summit might be "fruitful."

* * *

They do not believe that Bulganin was seriously suggesting such a conference when he said, in responses to questions published Saturday, that good results might ensue if "all the participants approach the urgent international questions with due consideration of the interests of all parties concerned."

Informed officials who reported this appraisal last night said the consensus here is that Bulganin was speaking for the record in a noncommital way—not wanting to discount the value of negotiations but also not actively recommending them.

The generally known view here is that the Russians have proved by their actions since the Geneva meeting of Bulganin, President Eisenhower and the British and French Premiers that they do not approach world problems with "due consideration of the interests of all . . . concerned."

2 Downed Airmen Recount Frigid Days in Blizzard

KEMMERER, Wyo. (AP)—Two airmen today told how they survived two days in a blizzard raging over the rugged mountains of western Wyoming where they crash-landed their light plane.

"All I can say is that we were awfully lucky. We're both alive and I guess that's what counts," said the pilot, A.2.C. Kenneth Kiefer, 27, of Fort Collins, Colo. His passenger was A.2.C. Delbert Fluty, 22, of Evanston, Ind.

* * *

Kiefer said he and Fluty huddled in a snow shelter they built and later located a deserted summer ranch cabin.

They stayed there two days, eating a hardtack made of flour, sugar, salt and oatmeal, and a rabbit Fluty caught with his hands. They doused a haystack with kerosene and light a signal fire, but it was not seen.

* * *

Finally, after the storm abated yesterday, they set out with a sled made from one of the plane's wings and heard a dog barking in the distance. They headed that way and met a rancher who drove them here. Neither was injured.

They had taken off in Kiefer's two-place Aeronca Chief from Rock Springs, Wyo., Saturday morning. They were headed to Travis Air Force Base in California after visiting Kiefer's parents, Mr. and Mrs. Al Kiefer, in Fort Collins, Colo.

Pennsylvania Pair Greets Quad Boys

LANCASTER, Pa. (AP)—Mrs. Norman C. Hohenwarter, 25-year-old wife of a $65-a-week postal clerk, gave birth yesterday to quadruplet boys. They were reported in "fair" condition early today.

The four babies, born about four weeks prematurely, arrived at Lancaster General Hospital. They were named Norman Charles, Carl Conrad, John Philip and Mark Anthony.

* * *

The births gave the father, 25, more than half the football team he says he planned to raise. "It looks like it's well on the way," he grinned.

The Hohenwarters, who had expected twins, have two other sons, Stephen, 6, and Donald, 3.

Spartans Do It Again

No football fan in America has to be told who is the great hero of Michigan State University.

He is Dave Kaiser. His 41-yard field goal in the closing seconds of the very exciting Rose Bowl game saved the day for the Spartans. It came after the Bruins had evened the score at 14 all with only six minutes left to play and the first Big Ten-Pacific Coast Conference tie score seemed certain.

★ ★ ★

Coach Duffy Daugherty's young men were magnificent and played brilliantly and deserved to win. Coach Red Sanders' Bruins also fought determinedly right down to the wire and proved themselves worthy opponents.

By winning this tenth game between the two conferences, MSU, rated the Nation's number two team, has made the score for the Big Ten, nine victories against one defeat.

★ ★ ★

Well done, Spartans!

All Michigan is proud of you and your second Rose Bowl triumph.

Campaign to Dominate Congressional Session

As the 84th Congress returned today for its second session one important fact stood out.

Every lawmaker and every correspondent was aware of it. The air was electric with the realization that this is a presidential election year session. This means that nothing will be done by either party without careful consideration of its effect on the campaign.

★ ★ ★

Actual work of the session will begin on Thursday with clerks reading the President's State of the Union message. From it the Nation will get its first view of the program with which the Administration expects to recapture control of Congress. Democrats are likely to rely to an even greater extent on Congressional investigations for campaign ammunition.

★ ★ ★

As pointed out in these columns recently, there is a possibility that the red hot farm issue may become a subject of bipartisan agreement.

Tax reduction will be one of the session's biggest problems for the Administration. Republicans naturally want to redeem their pledge to balance the budget. But Russia's current sourness may draw more billions into defense and foreign aid.

★ ★ ★

At present it looks as though foreign policy will come in for only moderate discussion with the Democrats challenging the Administration on performance rather than policy.

With the Administration's new approach to the national highway program, prospects are good for enactment of an adequate Federal aid highway bill. Efforts for further liberalization of social security also may be expected.

★ ★ ★

Republicans are entering this campaign session in a very advantageous position. They can point to a record of peace, unprecedented prosperity and prospects for a continued high level of economic activity.

Voters don't turn out such an administration.

Budget Cutting Tough

Anyone who knows anything about Congress is aware that it is hard for the lawmakers to cut Federal expenses.

It is generally the exception rather than the rule when no one turns up to oppose cuts in the budget. Usually the foes of pruning are department heads or Congressmen whose districts might be affected adversely.

Our Defense Department was reminded of this only recently. It had decided to close Sampson Air Force Base in New York State for economy reasons.

Then came a complaint from one of the ablest watchdogs of budget in Congress, Rep. John Tabor.

He wants the base kept open. It's in his district.

"Clothes offer considerable protection against radioactive fallout," says a civil defense official. If an atomic bomb should be exploded in your vicinity and you are taking a bath at the time, don't be in too big a hurry to join the throng making their exodus from the area.

It's when a man first begins to feel his age that he has the hardest time being it.

Ice Is Treacherous

Last Week's Warm Spell Rendered It Quite Unsafe

New Year: Really only a change in the calendar—after that it's up to ourselves.

Last week's thaws honeycombed the ice on many of our lakes, and made it quite unsafe and treacherous. This condition maintains, regardless of what any recent cold weather may have done. Extreme caution is urged for skaters, fishermen or anybody else going on the ice. It will require a long spell of low mercury before the lakes again are safe.

Just Where He Left Them

David Lawrence Says:

New Year '56 Contains All the Ingredients to Ferment the Explosion of World War III

WASHINGTON — Nineteen fifty-six may be said to be a year in which a world war is improbable, and yet it is a year in which the greatest danger of war exists.

* * *

Every factor which has caused two world wars is present today. For every circumstance which has produced a major conflict in past history a parallel can be found in the current world situation.

There is today a widespread illusion that fear of the consequences of nuclear war has made such a war impossible. Fear of new weapons prevailed before World War I when everyone said no nation would use poison gas.

The assumption now that rival nations are more civilized, that nuclear war is too horrible, has taken public opinion in America. Marshal Bulganin, the Soviet premier, contradicted this assumption when he said there was no certainty hydrogen bombs wouldn't be used in the next war.

STRUGGLE FOR ALLIES

The fact is Bulganin doesn't trust the West. Communist rulers must keep their people ready for war — otherwise sacrifices being made would become unnecessary. Soviet people would demand more consumer goods and a better standard of living.

Realism today requires world observers to agree that two mighty forces — the Soviet Union and the United States — are ranged against each other in a struggle to gain allies. The Soviet attempts to draw allies from the West. The U. S. is trying to hold allies and win away satellites of the Soviet nation.

In nuclear war it is not allies but their strategic geographical position which counts. Military power of the U. S. from bases in Western Europe can be used instantly against Russia if the Communists attack. In the Far East, our position is not strong and Soviet tacticians are trying to make it less strong every day.

INCIDENTS ARE RIFE

Admission of Red China into the U. N., is not of itself going to change the actions of the U. N. Yet in military significance it would be a terrific loss to the U. S. It means two big armies in the Far East — the Korean and the Chinese Nationalists — would melt away by such a surrender to the Red Chinese.

Moscow controls the Far East and can start or stop war in Formosa, Korea or in southeast Asia. America is not bellicose. So while, theoretically, a stalemate exists, this is only another name for the so-called "balance of power" doctrine which in past history has been upset by "incidents" that flare into war. Today the number of areas where "incidents" can occur stretches from East Berlin to Israel to Vietnam to Formosa and to Korea. In 1914 and in 1939 armies were not mobilized, but war broke out. Today they are already mobilized and air power is on a 24-hour alert.

The Kremlin could make the same mistake Hitler did — they could assume the West will not fight and will not take action if the Red aggression is extended either by military force or by infiltration. The Red rulers are taking chances every day — and that's why 1956 starts with the biggest number of ingredients capable of bringing on the world war nobody wants.

Brady Says Broken Bones Need Correct Suspension

By WILLIAM BRADY, M.D.

Speaking from experience I'd choose for ordinary Colles' fracture (of the radius just above the wrist) Moore's treatment, advised by Park, which consists of a soft roller bandage as a compress fastened to the palmar surface of radius by a few turns of 4-inch wide adhesive plaster, with a simple sling to support the arm.

For fracture of the hip (neck of thigh bone), especially in elderly, feeble persons, I'd use the Hodgen suspension treatment, as described by Park in his Treatise on Surgery, published in 1899.

This method seems too difficult to understand, and so the hammer and tongs men have all but discarded it since Hodgen's day.

CHOOSES HODGEN WAY

Nevertheless in my pertinacious way I tell you that if I had a broken hip or thigh bone I'd choose Hodgen suspension treatment, for I saw how satisfactory the method was in several cases in elderly persons and one case of a 13-year-old boy with a compound fracture of the thigh bone.

In most hospitals victims of fracture of the "hip" (neck of thigh bone) have no choice—the doctor ties them in bed for many weeks with weights pulling on the leg.

Or he operates, inserting a metal pin or similar device calculated to hold the fragments in place until union occurs.

Either method is torturous and exhausting, and the outcome is problematical.

MORE FREEDOM

The patient in Hodgen's suspension has the freedom of his bed from the beginning—that is, he or she can move about the bed and even get over into a chair beside the bed for a while every day, without the least disturbing the alignment of the fragments.

This activity, slight though it seems, tends to prevent the various complications likely to occur when one, particularly an elderly person, is confined to bed for months without getting any exercise.

One such complication which a good many doctors ignore is the progressive depletion of the body's calcium reserve which inevitable accompanies prolonged disability.

CALCIUM HELPS

This, if not combatted by high calcium diet supplemented with a daily ration of calcium and vitamin D, may lead to delayed union or non-union.

In my opinion, calcium deficiency accounts for much of the peevishness, irritability and feeble morale of persons long disabled by injury.

High calcium diet is one which includes good proportions of high calcium foods such as milk, cheese eggs, peas, beans, lentils, nuts, peanuts, cabbage, turnips, celery, greens.

I wonder how many folks feel as I do about losing old friends in music.

You think of an old song you like and it starts running through your mind. Then Bingo! It's gone and you find a singing commercial in its place.

I know we have to have advertisements but do we have to sacrifice our favorite songs in the process? I'd rather listen to a spoken advertisement than a singing one.

Denies Fact Capitalists Have Economic Function

For Mr. T. J. DeGroff's information, the capitalists perform no economic function whatever, but merely own. The capitalists buy their "brains," that is their managers, engineers, supervisors, etc., as they buy their "brawn" or productive labor on the labor market.

Workers run industry from top to bottom, and they receive for their labor what it will fetch, as a commodity, in the market. The surplus wealth in the hands of the capitalists makes for the investment he refers to.

Socialism has never been established in any country. The phony socialists of Great Britain, with the blessings of the capitalists, gave the workers nationalization, not socialism.

Nor is there socialism in Stalinist Russia. Russia has state capitalism, a despotic, brutal state with exploitation under a wages system. The Stalinist rulers of Russia have betrayed everything socialism stands for.

Think Coaching Staff Is Answer to Better Team

In answer to Mr. Baker's letter asking why the football team doesn't support its fans, maybe it would be better to look beyond the same junior high schools that feed the number one band in the state and the football team. We think you should take a look at the coaching staff.

Hal Boyle Says:

You All Look So Beatific in Those New Shiny Halos

NEW YORK (AP) — If the world should end this very day, it could not find America better prepared.

If the universe suddenly exploded, practically every one in the land would be blown straight up into Heaven. The rush of rarefied souls would wear out the turnstiles at St. Peter's Pearly Gates.

* * *

For America today is an earthly paradise inhabited not by ordinary people but by 160-odd million purepurposed angels.

An aura of unaccustomed saintliness rises over the nation like clean fog above a dismal swamp. Look around you. Isn't everybody wearing a shiny new halo?

HERE'S THE REASON

There is a reason, of course. It is the season of the New Year's resolution, when all look within themselves and take an interior vow to lead a finer, nobler life.

The bad resolve to be good, the good resolve to be better. The old reckless, sinful past seems unutterably repugnant. One looks back at the mire-speckled creature he was only a week ago and mumbles whole-heartedly, "How could I ever have been like that? Never again!"

* * *

Sweetness and light brighten the very air. Everyone has decided to be more trustworthy, loyal, helpful, thrifty, courteous, kind, brave, clean and reverent — plus a lot of other things.

SMILE, SMILE, SMILE.

Nowhere is a frown in sight. Wherever you glance, all you see are rows of teeth determinedly fixed in a smile: smile, smile. There is a determined fix to the halos, too, as if this time the wearers really meant to keep them clamped on their noggins forever.

The wife has vowed to spend less time playing bridge and spend more time playing with her children.

* * *

The husband has vowed to spend more time at home, too, and also take his wife out oftener.

The stenographer has vowed to quit primping at her office desk.

The bus driver has vowed that, even if the paying customers don't move to the back of the bus in 1956, he won't let it ruin his temper.

The truck driver has vowed to quit letting out loud vows whenever he gets caught in a traffic jam.

The factory hand has vowed to do less shirking on the job.

THE BOSS QUIET?

The boss has vowed not to bust a vocal chord every time he sees a minor company rule flouted.

The bank robber has vowed to give up his uncertain craft and go into some more honest form of labor, such as maybe press agentry.

The professional boxer has vowed that the next time out he will really put up a good stiff fight — if he can find an opponent in the same mood.

* * *

Yes, whoever has a bad habit of any kind, has silently vowed to rid himself of it — whether it's beating his wife in private or using a toothpick in public. An atmosphere of personal sanctity wraps the country from coast to coast.

Ah, perhaps it would be better if the world did end this very day, and wafted all us suddenly pompous Puritans to the Heaven we now aspire to create on earth. For New Year's resolutions have a traditional brief life.

* * *

Certainly if a cataclysm destroyed the universe even as late as next week, half of us, our vows already forsaken, would find ourselves blown not toward Heaven but in exactly the opposite direction.

Jealousy Over Mother-in-Law Traced to Couple's Lack of Marriage Advice

Nora finally admitted the true facts about her feud with her mother-in-law. For the irritation about sitting in the front seat of their new car, was just a camouflage to cover up a deeper jealousy. Her husband didn't know it, but his sins of omission had indirectly brought on this friction between his wife and his mother. Scrapbook this case for future reference.

By DR. GEORGE W. CRANE

Case Q-338: Nora M., aged 37, is the daughter-in-law who was irked by the fact she had to sit in the back seat when Grandma was in the car.

"Dr. Crane, you are right in saying I am jealous," Nora finally confessed.

* * *

"Sometimes I feel very hateful toward my mother-in-law. That's probably the main reason why I resent her sitting up in front beside my husband.

"He defers to her wishes, maybe no more than a normal obedient son does. But I get angry to see her have such influence over him.

"And I am also green with jealousy whenever I know he has given a girl a lift in his car enroute to work. What is wrong with me?"

WHY JEALOUSY?

Jealousy is usually an indication of an inferiority complex, often of a sexual nature.

When a wife is frustrated in her marital relations, she may readily become a victim of the green-eyed monster.

It is only when a wife is sure of herself and knows how to get the most out of marriage, that she can be magnanimous.

Then she doesn't resent even a domineering mother-in-law very much and can be nonchalant about her husband's giving a lift to fellow female employees.

So I tactfully quizzed Nora further and found that she had never been educated properly regarding marital relations.

Her husband, like most men even today, had no conception of female anatomy. And a great many educated men who understand the anatomy, still don't appreciate the function thereof.

There is thus a very wide difference between "structure" and "function".

MECHANIC vs PILOT

Thus, an airplane mechanic may understand all the parts of an

airplane motor and be able to assemble one efficiently, yet never be able to pilot the plane at all.

In like manner, many of my patients have been wives of physicians and dentists, who certainly knew their anatomy but may have been married for 25 years to their wives without ever having made the latter function properly.

And that was the basic cause of Nora's feud with her mother-in-law over sitting up front beside the driver.

Some of you older readers often think it is far-fetched to trace such a feud to sexual maladjustment.

But jealousy, as well as most divorces starts in the bedroom, despite the euphemistic "mental cruelty" charge or the "incompatability" argument so common in divorce courts.

Judges, marriage counsellors, clergymen and we psychologists all realize that a sexually adjusted couple will rarely consider divorce.

* * *

Futhermore, a college diploma is not much insurance for sexual adjustment, for when physicians and dentists often fail to satisfy their wives, despite a lengthy medical education, how do you expect a liberal arts graduate to have received any specific medico-psychological advice on this vital point?

SEX PROBLEMS IN MARRIAGE

So I had a visit with Nora and her husband. I gave them the same talk on marital problems which I give to young couples just entering matrimony.

"That's the first time I ever heard of such things," her husband honestly admitted.

But he was grateful to obtain such long-overdue advice and it worked.

He thus eliminated the cause of his wife's jealousy in short order by using the data in my booklet "Sex Problems in Marriage".

Royal Nevada Hotel Facing Bankruptcy

LAS VEGAS, Nev. (AP)—A skeleton crew kept doors padlocked on the gambling casino and show room of the lavish Royal Nevada Hotel today. Only guest rooms remained open.

* * *

Officials said there was sufficient food and liquor on hand for the registered guests but none for those persons who might drop in casually.

The casino was stopped Saturday night. A hotel spokesman said the step was taken after employes, fearing the hotel was closing, started helping themselves to cash and chips.

* * *

Future of the 250-room hotel, which has been beset with financial difficulties, remained in doubt. Bill Miller, general manager whose resignation was supposed to have been effective Dec. 28, was reported still occupying his office.

Yugoslav Children Hurry to Reach Valley on Moon

BELGRADE (INS) — Yugoslav children are getting ready for a trip to the moon — hoping no American has claimed their valley.

The future space travelers, calling themselves "Selenites," discuss and plan and ask questions of Yugoslav scientists for a half hour daily over radio Belgrade.

They recently visited Belgrade observatory to use a telescope to select the moon valley they plan to inhabit.

Miroljub Jevtovic, director of children's programs on radio Belgrade, organized the space travel group in answer to a small fry scientist who claimed only Americans would escape if the moon and earth collided.

U.S. HAS SHIPS

The child insisted Americans already had space ships.

Jevtovic laid down three conditions for membership:

All "Selenites" must be brave, must promise to bring something or someone useful for either the voyage or life on the moon, and must start training now for a profession which will be useful on the moon.

Jevtovic said the children would like to hear from spacemen in other parts of the earth.

The "Selenites" have selected a ten-year old commander and a ten-year-old commissar. One lad has written "The Song of the Selenites" to cheer them on the voyage.

Boys and girls daily flood radio Belgrade with letters suggesting ways and means of getting to the moon. Some children send blueprints.

Jevtovic said the program had "gotten out of hand."

The Yugoslav Flying Association, an amateur group, hopes to take over the "Selenties" and form them into amateur space travel clubs.

Tells of Arms Sent to Algerian Rebels

ALGIERS, Algeria (AP)—A high French military source said today a steady stream of arms is reaching rebel forces in Algeria from across the Libyan border.

* * *

The informant said in an interview the munitions included British-manufactured grenades which were shown by serial number to have come from Egyptian army depots. Other arms, he said, were among some 300,000 weapons abandoned by German Field Marshal Erwin Rommel's army when it surrendered in Tunisia during World War II.

* * *

The source said Tunisian nationalists spirited these arms south to the Libyan frontier. Others were hidden in dumps and desert regions of Tripolitania during the war.

He said the rebels were trying to give themselves the appearance of regular troops by wearing American surplus Army uniforms picked up in Tunisia.

Boy Comes to Rescue as 4 Fall Through Ice

ST. JOSEPH, Mo. (AP)—When four fellow skaters plunged through the ice on a farm pond yesterday, 11-year-old Sonny Golden knew what to do.

He obtained a rope and ladder from some men nearby and while adults watched from the sidelines, ran back onto the ice and helped the skaters out one by one.

* * *

Highway patrolmen said only someone as light as 80-pound Sonny could have ventured onto the thin ice.

Said Sonny:

"It was my Boy Scout training that did it."

$17,500 Payroll Taken in Germany; Sergeant Located in Denmark

COPENHAGEN (AP) — Detectives were posted at all entrances to a hotel here this morning in search of U. S. Sgt. Donald F. Molter, 37, of Detroit, Mich., wanted in a $17,500 Army payroll theft.

Danish police were alerted after a report that Molter had fled to Copenhagen by plane from Germany.

A police official said Molter had stayed overnight at the hotel, had not checked out and his belongings were still in his room.

U. S. Army investigators said Molter drove off with the payroll last Dec. 14, after he had been assigned with two German employes of the Army to pick up the money at an American Express Bank in Frankfurt. The Germans said he tricked them into getting out of the car and then sped off.

The car was found later abandoned on a Frankfurt street. Molter's German sweetheart was arrested yesterday in a Duesseldorf hotel. German police said $5,000 of the missing money was found in a leather suitcase in her room.

Horrible Example Set by Bull Sea Elephant

ST. LOUIS (AP)—Have an appetite like a bull sea elephant?

If so, better watch that waist line.

The one acquired by the St. Louis zoo last spring weighed in at 2,500 pounds at the time and since then has gained more than 1,000 pounds.

An adult beaver weighs between 40 and 70 pounds, but a few on record have reached 100 pounds.

Sun Now Seen Through Radio

Aussie Scientists State New Device Gives True Size of Celestial Body

MELBOURNE, Australia — The radio sun—the sun as "seen" through a radio telescope — is larger than the sun we customarily observe, according to scientists engaged in radiophysics work in Australia.

* * *

Officers of the Australian Commonwealth Scientific and Industrial Research Organization state that it has a marked elliptical shape, with very bright desert-like areas close to its outer edge near its equator.

A special radar telescope, designed by one of the officers—the only one of its kind in the world—has given more detailed information about the sun's surface than has ever before been obtained by radio.

The telescope consists of two separate lines of aerials, each arranged so that a series of very narrow radio beams is produced. As the sun passes through the beams it is scanned in two directions, and observations made over several months are added together to provide a picture of the "radio sun."

* * *

Officers are now constructing a new aerial which will make it possible to obtain a radio photograph of the sun every day. Another radio telescope is also being made which will give what is virtually a "television picture" of the sun, scanning it in much the same way as the moving spot scans the screen of a television tube.

Treasury Workers Join Italian Strikes

ROME (AP) — A new strike was called today and an old one was extended as Italy's rising wave of antigovernment walkouts went into the new year.

Employes of the Treasury Ministry's provincial offices all over Italy quit work for three days in a demand for salary reclassification.

* * *

At the same time 80,000 striking secondary and high school teachers announced they will not grade first-term exam papers before Jan. 7.

The teachers walked out demanding up to 70 per cent more pay a week before the Christmas vacation. They say they will be back in their schools when classes resume next week, but normally grading of exams starts Dec. 24 and is finished by today.

Ike's Stay at Key West Increases Tourist Trade

KEY WEST, Fla. (INS)—President Eisenhower's visit to Key West has been credited by Claude Neal, a hotel manager, with increasing tourist trade.

The little Navy town, up to its ears in tourists, is happy to hear the sound of tinkling cash registers. Says Neal:

"It takes a war or a visiting president to start a boom down here and we really have one under way now."

Electric Utility Firms to Up Spending in '56

NEW YORK (AP)—Electric uitility companies will increase capital spending in 1956 seven per cent over 1955 to nearly three billion dollars, according to a survey by Electrical World Magazine.

* * *

The survey showed that for the privately-owned utilities capital expenditures will be $2,905,290,000 in 1956 compared with $2,718,975,000 for 1955.

For the entire electrical uitlity industry, it added, capital expenditures next year will run an estimated $3,900,000,000, an increase of nearly six per cent above the current year for both publicly and privately owed electric utilities.

Alien Registration Required in January

Some two and one-half million noncitizens of the United States are expected to report to the Immigration and Naruralization Service during January, Commissioner J. M. Swing said today.

Aliens are required, under the 1952 Immigration and Nationality Act, to report their addresses to the service each January.

Cards for this purpose may be obtained and filled out at any Post Office or immigration office, Commissioner Swing said. Aliens must not mail their cards, but must personally hand them to Post Office or immigration clerks.

Willful violation of this requirement could make an alien subject to fines and deportation, Swing added.

Store Window Broken; Revellers Are Blamed

Holiday revellers are believed responsible for the shooting early Monday morning of a grocery store window in Waterford Township, Oakland County Sheriff's detectives said today.

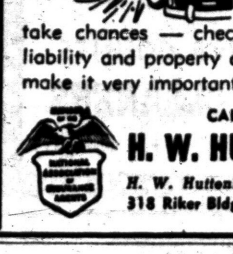

The plate glass window, valued at $200, was shattered by a bullet believed to have come from a high-powered rifle. The bullet was found embedded in a can of beans on a shelf.

It looks high priced

...but it's the '56 Chevrolet!

THE NEW BEL AIR SPORT COUPE—one of 19 high-priced-looking Chevrolet models.

Who *wouldn't* mistake this handsome new Chevrolet for a high-priced car!

It looks strictly "upper bracket" with its bold new Motoramic styling . . . its longer, lower hood . . . its proud new grille that spans the full front end.

Even the details would do credit to an expensive car . . . like the sleek, high-fashion taillights (the left one swings down to uncover the gas cap!).

And, inside, mink coats look right at home with Chevrolet's fine new interiors.

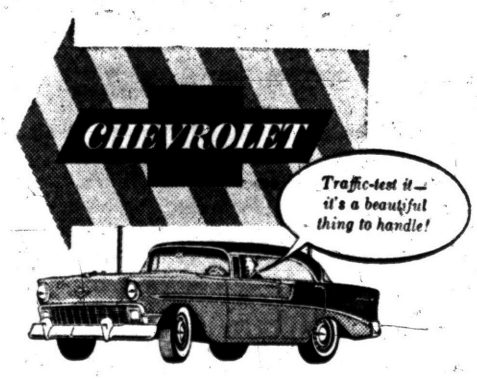

But, even beyond the costly appearance of its Fisher Body, Chevy gives the high-priced cars a run for their money. For it's one of the few great *road cars* built today!

You'll see what that means when you take one out on the highway. You'll feel the added security of Chevrolet's nailed-down stability. You'll thrill at the way it wheels around tight turns—as footsure as a cat on a carpet!

When you need a quick sprint for safer passing, or a power punch to flatten out a hill—you've got it! V8 horsepower now ranges all the way up to 205. And there's a new, sweet-running 6 that pours out 140 h.p. *All* engines now have hydraulic-hushed valve lifters.

Of course, Chevrolet brings you the added security of safety door latches in all models. And you can have seat belts, with or without shoulder harness, and instrument panel padding at extra cost.

There's a new Chevrolet just made for *you* to have fun with! Come on in and see!

Meet Konrad Adenauer

He Created a Democratic Germany

One of the most remarkable men in Europe today is Dr. Konrad Adenauer, Chancellor of the Federal German Republic, who will be 80 years old Thursday. He is credited with lifting Germany from the ashes of defeat to her present position of influence and wealth. Here is the first of three articles giving an intimate picture of Adenauer as he nears 80.

By TOM AGOSTON

BONN (INS)—On a bleak summer day almost ten years ago, a tall, gaunt, formally-clad man strode to a seat at the head of a conference table, rang the chairman's bell and said matter-of-factly:

* * *

"I was born in 1876. I don't think there is anyone else in this room who is older than I.

"In the absence of the temporary chairman, who appears to have been detained, and as senior person present, I therefore declare this meeting open."

The man whom astonished Christian Democratic Party leaders half an hour later unanimously elected permanent chairman of the party executive was Konrad Adenauer, now the greatest German statesman of modern times.

The move was characteristic of Adenauer, 80 years old next Thursday. His stubbornness and determination to do what he believes right helped lift him to the ranks of top European statesmen.

* * *

A nonsmoker, a teetotaller, and a sparing eater, Chancellor Adenauer loves life. Behind his forbidding countenance there is a youthful, pixielike sense of humor.

AN EGOTIST?

In the 1949 general elections he became chancellor by the irreducible margin of one vote—his own. Years later he recalled the incident:

"Had it not been for the fact that I voted for myself, the task of forming a West German government would have gone to the Socialists. Europe should indeed be grateful for my . . . hmm . . . egotism."

A lone wolf, despotic where he feels it necessary, he rules by sheer force, trusting no one's judgment, and driving his team where he fails to get results by leadership.

He has always shunned easy popularity. Once he heard someone describe him as "an amiable relic of the defunct Weimar Republic still pulling his weight." He quipped back immediately, "Thanks for the bouquet, but I can assure you I am not amiable."

'DER ALTE'

He is called by many "Der Alte"—the "old man" — meaning hard, wise and trusted. He is devout both in his Roman Catholicism and anti-Communism.

He is reluctant to delegate authority. Until recently he was chancellor, foreign minister, defense minister and held a half-dozen other jobs.

Often infuriating to his associates, Adenauer nevertheless, has tremendous influence on postwar Germany, helping the nation rise from ashes to become one of the richest in Europe.

PUNCHY SUMMATIONS

It was Adenauer, more than anyone else, who won prestige for and led his conquered nation back into the society of free nations, into the Western alliance and North Atlantic Treaty Organization.

He has often won his point by punchy summations—"Freedom or slavery—that is your choice. Our country is the point of tension between two world blocs. Long ago I have made a great decision—we belong to the West, not the East. Isolation is an idea created by fools . . ."

One one occasion, in underscoring the need for German rearmament, he related in mincing baby-talk the story of Little Red Riding Hood, likening the big bad wolf to Russia, and the little girl to West Germany.

* * *

Having come to the gruesome details of how Little Red Riding Hood was devoured by the wolf, he ended:

"And that, my friends, is why we need an army."

KAINAN BAY, Antarctic (Delayed) (AP)—A towering ice shelf some 30 miles east of Little America today was picked as the base camp for Rear Adm. Richard E. Byrd's latest Antarctic expedition.

* * *

Known as Kainan Bay, the area will be headquarters for "Operation Deepfreeze" during the next three years. It already is being referred to as Little America No.5.

This is the first time any American expedition has set up shop in the Kainan area, named for a Japanese ship which first visited the spot 40 years ago.

The Kainan shelf ice is regarded as more stable and accessible than that in the Bay of Whales area where the first four Little Americas lie buried under snow and ice.

Located some 800 miles from the South Pole, Kainan Bay has as its nearest neighbors Americans at McMudo Sound, 400 miles west.

Kainan Bay is U-shaped and has a white, chalky looking ice shelf rising as high as 75 feet. At the bottom of the "U" the shelf slopes down low to bay ice, making it easier to unload cargo from Navy supply ships.

* * *

Trail parties are now out marking off the exact site of the new base, 6 or 7 miles inland. Seabees will have to throw a Bailey bridge over a crevasse, 30 feet wide about 40 feet deep, before snow tractors can start hauling cargo to the site.

In the next day or so, 7,000 tons of supplies and equipment will be unloaded from the cargo ships Arneb and Greenville Victory.

To provide a base for the cargo ships in the bay ice, the icebreaker USS Glacier has chopped out an area 1,000 yards square. The ice averaged 7 feet thick.

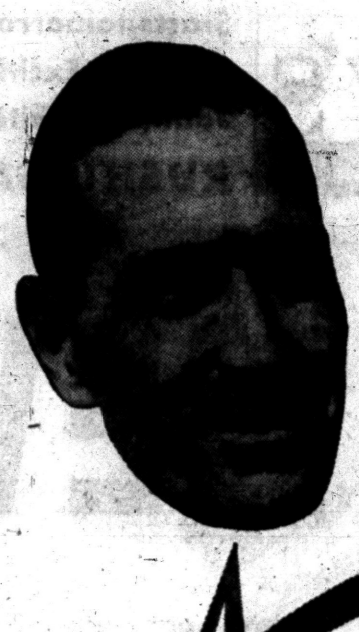

This represents more than one billion pounds of ice, and Ensign Steve Wilson of Westport, Conn., figured this would bring $36,000 in the New York market.

Insects have no lungs. They breathe through tubes running all through their bodies.

The historic Texas shrine at San Antonio originally was called "Alamo Mission" from the grove of cottonwoods in which it stood. In Spanish, "alamo" is "cottonwood."

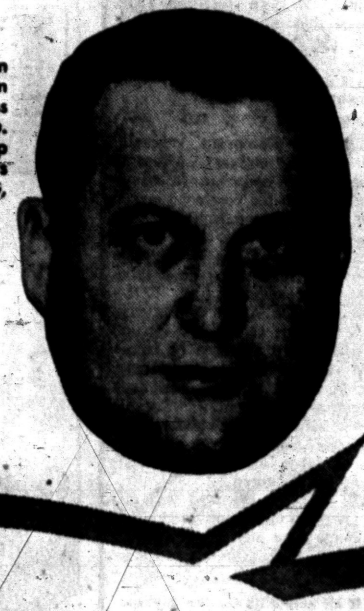

The quality of cigars is said to be influenced by the current climate conditions.

Free Europe Enjoyed Biggest Spending Spree During '55; Outlook Is Brighter

LONDON (AP) — Free Europe went on the biggest spending spree in its history during 1955. The two-year-old boom picked up momentum and West Europeans looked with confidence to still more prosperity in 1956.

A decade after World War II had left the European economy in ruins, the people on the whole enjoyed peak living standards.

Hard-working West Germans set the pace, emerging from defeat as the dominant industrial power on the west European continent.

It was a year of records in industrial production, retail trade, business investment and industrial output per man.

There were worrisome patches, too, in the bright picture. Buying power tended to be so great in Britain, Western Germany and France that inflationary pressures built up and not enough goods went to foreign markets. There was a general slump in the textile industries.

BANKED ON U. S. AID

But west Europeans generally saw bright business prospects ahead. Their optimism rested on confidence in the continued economic health of the United States, whose economy sets the pace for their own, and the assumption their government can keep inflation under control.

In 1955, the 300 million Europeans this side of the Iron Curtain bought record volumes of household and luxury goods, cars, clothes, food, entertainment and industrial equipment.

New homes, office buildings and factories appeared as fast as scarce labor and raw materials could be mustered.

The voracious demand was met by record industrial production, good harvests and bigger imports from the United States and elsewhere.

It all added up for the average European to the most comfortable living he has known. The standard remained well below that in the United States, but contrasted favorably with communist Europe where improvement was comparatively light.

With the fall from power of Soviet Premier Georgi Malenkov, the Kremlin switched industrial capacity, briefly allocated to consumer goods, back to manufacture of heavy industrial equipment. This trend apparently will continue in 1956 when the Soviet bloc countries start their new five-year plans simultaneously for the first time and on a more closely integrated basis.

The black spot on the West European scene was Spain, where a stagnant economy looks for revival to dollar income from the new U. S. Navy and Air Bases there.

Other west European countries have just about freed themselves from dependence on American aid, although dollar income from U. S. defense aid remains a welcome addition to their treasuries.

INFLATIONARY TIDE

The tide of prosperity brought creeping inflation to nearly all the west European nations. The two industrial giants, Britain and Western Germany, gave a lead by developing comprehensive anti-inflation programs in efforts to harness and channel their booms.

There appeared to be little danger of runaway inflation anywhere in western Europe. Living costs rose slowly, but wages and incomes stayed a jump ahead.

Nevertheless, workers in Britain, Western Germany and France appeared set on pressing for another round of wage boosts that could aggravate inflationary strains. The manpower shortage put them in a strong bargaining position.

Indigenous unemployment persisted only in Italy where two million jobless made up the nation's "hottest and most sorrowful" problem. Italy otherwise enjoyed relative prosperity. The government hoped to reduce unemployment through expanding its housing program and a 10-year plan which aims at creating four million jobs by improving southern Italy's arid lands.

The West German economy experienced growing pains as it cleaned up World War II wreckage and expanded at phenomenal speed.

Prices nudged upward as the big industries, like steel and chemicals were extended to the limit to meet their export commitments and homefront demand.

Bonn's big problem in 1956 was to combat inflation and keep the expanding economy in balance.

An added strain looms with the building of the new 500,000-man Wehrmacht.

With the slogan "curb excess," the British government told its people they were living too well and clamped down with a credit squeeze and new taxes to siphon off purchasing power. Early indications were that the cure was working and more goods were being funneled into export markets to pay for the nation's whopping big imports.

The problem was more acute for the British because they lack the foreign exchange reserves that the continental countries have to pay off trade debts.

State Cancer Group Gets New Field Work Director

GRAND RAPIDS (AP)—Arthur L. Crampton, general secretary of the Flint YMCA since 1941, will take a new post Feb. 1 in Grand Rapids as the director of field operations for the Michigan Division of the American Cancer Society.

Waldo I. Stoddard, division president, announced the appointment yesterday.

He said Crampton will organize county units of the society where none now exist and will strengthen the organization and programs of existing units.

The Michigan division includes the state's 80 counties outside metropolitan Detroit.

Dionne Quints, Folks Patch Up Differences

NORTH BAY, Ont. — The Dionne quintuplets and their parents say there was a misunderstanding between them but it now "has been ironed out."

Three of the four surviving quints drove to their home yesterday to see their parents after Oliva Dionne, their father, said they had been "drifting away" from the family.

A statement issued a few hours after they reached the family home in nearby Callander said:

"This afternoon we all discussed this trouble we have been having, and we now feel it was all due to a misunderstanding. There was a misunderstanding somewhere, and it has been ironed out."

The family trouble became known when none of the four sisters returned home for Christmas. Dionne said Tuesday it was the first time they had not spent Christmas at home and that they had not sent the family a card nor telephoned.

'56 Will Test U.S. Foreign Policies

Bolder Soviet Moves, Middle East Turmoil Top Analyst's List

By WILLIAM L. RYAN
AP Foreign News Analyst

For a variety of reasons, 1956 is likely to be a tough and even critical year for American foreign policy.

In a year of campaigning for the presedential elections, bold Soviet moves on the world stage can be difficult to counter, and bold Soviet moves can be expected.

Prospects for 1956 seem to shape up like this:

The Soviet Union: Inside the U.S.S.R., Stalin's harsh line is coming more to the fore, indicating continued concentration on heavy industry production at the expense of the consumers. The Kremlin seems to consider itself engaged in a vital race to catch up with American production capacity.

The "collective leadership" appears to be narrowing a bit, with somewhat less division of power at the top.

More undoubtedly will be learned about this in February when the Soviet Communist Party holds its 20th Congress.

In foreign affairs the Kremlin can be expected to keep up the pressure on "colonial" areas without yielding in its terms on German reunification and European security.

China: There probably will be a major campaign to push the Red Chinese into the United Nations and oust the Nationalist out. Peiping is not likely to upset the applecart by rash moves against Formosa, but is probably will threaten these as a means of panicking other nations into giving the Communists their way.

The Middle East: The Israel-Arab situation can explode into a small war unless some drastic action, such as affirmative moves by the United Nations, is undertaken. Soviet Attacks in Israel have not helped the situation.

Europe: For at least another year, Moscow is likely to try to maintain the status quo, because its primary interests are in the East.

War and Peace: World War III is unlikely, but the cold war seems about to become colder.

Aid-to-Schools Bill May Be Killed Again if States Continue With Racial Bans

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—Don't be surprised if federal aid to education is blocked in Congress in 1956 over a fight to prevent any of the money from going to states which maintain racial segregation in public schools.

* * *

Many Democrats and Republicans say they favor providing federal money for new school buildings. But the National Assn. for the Advancement of Colored People will do its best to have something to say about it.

* * *

This is the NAACP's position:

1. When government money for educational purposes is given to states which do not comply with the Supreme Court's decision of May 1954 to end segregation, then the government is in effect helping support segregation.

2. Therefore, if a federal aid to education law is passed the NAACP wants tacked on to it a ban against giving any of the funds to states which it say "defy the court."

HAS SOME SUPPORT

The NAACP will have some support in Congress. Just how much is not clear. Most Southern Democrats will certainly vote against any federal aid bill which contains the kind of amendment urged by the NAACP. Last year a federal aid bill was left high and dry in Congress.

* * *

There was a fight then over such an amendment. Rep. Powell (D-NY), a Negro, proposed it in the House. It was killed but not before Powell had a fist fight with Rep. Bailey (D-WVa) over the subject. In the end, the House never did vote on the bill itself.

* * *

Powell, one of those upon whom the NAACP is depending to lead the fight in Congress, says he will offer a similar amendment in 1956 when the federal aid bill comes up.

But the NAACP will probably want Congress to ban other kinds of federal aid for schools in states which are not integrating. The government gives money to land grant colleges, for vocational schools, and to school districts overcrowded because of some government activity in the area.

Money for those purposes is handed out by the Department of Health, Education and Welfare. Clarence Mitchell, director of the NAACP's Washington Bureau, recently wrote to Dr. Herold C. Hunt, undersecretary of the department.

Mitchell said he "assumed" the department would not continue to give money to states continuing school segregation. Hunt reminded Mitchell that the Supreme Court left it up to federal district judges to see that the high court's ban on segregation is carried out in their jurisdictions.

So, Hunt said, before the department considered withholding school aid money there would have to be a "determination" by a federal judge that a particular state or school district was not complying with the Supreme Court's ruling.

* * *

Mitchell said yesterday that, in view of Hunt's reply, it is up to Congress to write into legislation a ban on the use of federal money for schools in states which "defy the court."

Ex-Mental Patient Says He Shot Texas Senior During Drunken Brawl

NEWARK, N.J. (AP)—A young ex-mental patient has admitted to police here he killed a Texas A&M senior during a drunken brawl.

* * *

Ronald Edward Menter, 22, formerly of Keene, N.H., was picked up yesterday for routine questioning after selling a car radio to a junk dealer for $10.

Police said he was using the car and driver's license of his victim, Jan David Broderick, 20, of the Panama Canal Zone, but was unable to give the date of birth on it.

Taken to police headquarters and confronted with a bag of 28 bullets found with a gun in the car, Menter was quoted as saying:

"Yeah, I murdered that guy in Texas."

Broderick, son of Mr. and Mrs. Howard Gee, was found dying of a bullet wound near Hempstead, Tex., Saturday.

* * *

Menter is being held on a charge of murder. Texas Rangers are flying here to pick him up.

The slain youth's stepfather is a civilian employe of the U. S. Army in the Canal Zone.

Police said Menter told them he met Broderick in an El Paso, Tex., tavern last Thursday, became friendly with him and that they decided to drive to Houston in the latter's car. An argument the next night led to the shooting, Menter said.

* * *

The youth was quoted as saying he spent four months in a mental institution after a nervous breakdown while at a New Hampshire industrial school.

Roland Crawfords Will Make Home in Sarasota, Fla.

Married Friday afternoon were Thora J. Tripp and Roland P. Crawford.

* * *

Thora is the daughter of Mr. and Mrs. Harold A. Tripp of Dakota drive, and Roland's parents are Mr. and Mrs. R. E. Crawford of Sarasota, Fla.

The 4 o'clock rite was performed by the Rev. Robert Bickley of St. George Episcopal Church, Milford, in the presence of 38 guests.

For her wedding the bride chose a silver and rose brocade street-length dress featuring a mandarin collar, fitted bodice and a full skirt. Her only jewelry was an heirloom gold cross, and she carried a gardenia on a white prayer-book.

* * *

Madeline Spring Longpre of St. Clair Shores was maid of honor, wearing a beige embroidered faille dress. Her accessories were navy blue and she carried a colonial bouquet of pink roses and carnations.

Performing the duties of best man was Capt. MacDonald Greer, USMC, of Ardmore, Pa. The bridal recital was sung by Mrs. Paul McKibben.

Mrs. Tripp chose a light blue nylon street-length dress with black accessories and a pink rosebud corsage for her daughter's wedding.

* * *

Following a reception held at the home of Franklin Crawford in Commerce, the newlyweds left for a tour of the South. They will reside in Sarasota.

Out-of-town guests attending the rite were Mr. and Mrs. Eugene Johnston of Fargo, N. D., April Hill of Menomonie, Wis., Mrs. M. A. Greer of Ardmore, Pa., Fannie Ayris of Highland Park and Harvey Ayris of Highland Park.

Called to Mississippi

Dr. and Mrs. N. E. Durocher of Old Orchard drive were called to Gulfport, Miss. by the death of her father, Mr. J. R. Brady.

Modern-Style Princess Takes Britain by Storm

LONDON (INS) — There's something entirely new in the princess line taking Britain by storm.

* * *

For Britons, accustomed to associating princesses with royal rappings, state occasions and public appearances, the slim, shapely, golden-haired 23-year-old Princess Margarita of Baden is simply something out of this royalty-conscious world.

This lovely, blue-eyed niece of the Duke of Edinburgh is not only rapidly taking the limelight from pretty Princess Alexandra but is even stealing some of the publicity from the celebrated Princess Margaret. And she's not even trying.

Her happy, smiling face is seldom absent from the British press these days.

* * *

She has everything Britain's own princesses have — royal blood, good looks, charm, vivacity, popularity — and something more. She also has a very non-royal full-time job and with it full freedom from royal protocol.

Margarita, who can and does wander about London in an inexpensive frock and casual cardigan with her hair wind-blown and her arms laden with packages, is the daughter of the Margrave and Margravine of Baden.

ROYAL RELATIVES

The margrave, whose seat is the Schloss Salem near Baden in southern Germany, is a descendant of England's King George III. Margarita's mother is Princess Theodora, second sister of Prince Philip, Duke of Edinburgh.

* * *

The eye-filling Margarita was an unknown when she first came to Britain some seven years ago to attend Cranbourne Chase Finishing School in rustic Dorset County, miles from the social whirl and royal circles.

After three years at Cranbourne Chase she came to London in 1951 but not for the traditional round of debutante activities. Instead Margarita began training as a nurse at St. Thomas Hospital.

Margarita, anxious to make good as a nurse, applied herself diligently. Until last year, when she was given her certificate as a full-fledged registered nurse along with a kiss of congratulations by the Duchess of Kent, she won only casual fine print mention in the British press.

* * *

Since then, however, she has emerged from the world of ether and operations and blossomed into a serious contender of Margaret and Alexandra for publicity honors.

FABULOUS CRUISE

The transformation began when Margarita joined Europe's kings, queens, princes and princesses in the fabulous cruise round the Greek islands last year which was arranged by King Paul of Greece to publicize the tourist attractions of his kingdom. Margarita was voted "prettiest princess" on the cruise.

Hoods Become Fashion Craze in Paris

PARIS (INS) — Hoods are becoming a real fashion craze in Paris, warmly replacing dressy hats for evening wear.

They don't have to be connected with the coat nor do they have to be of the same material. Some girls here simply buy a hood pattern and make their head-cover to match a dress coat or jacket. To be Parisian looking, those hoods should be rather large and pouchy and with the top rounded rather than peaked for the latest style.

Hoods look dressy in velvet or satin and are particularly flattering to the face when edged in fur.

If you have a black coat wear it with a black velvet hood trimmed with ermine or even white rabbit for a very dressy effect. With a fur coat a hood of moire in the fur shade will be smart looking.

Patou in Paris shows a pouchy hood of black moire worn with a coat of the same fabric. Jacques Heim has a white satin evening coat which comes with a white satin hood trimmed with a wide band of snowy fox-fur looking absolutely fair-like.

Balaclava hoods are very popular too. They can be worn with sports costumes and look particularly smart made of jersey to match a high-necked sweater. These Balaclava hoods should, contrary to the bulky loose ones, fit the head snugly and be plain rather than fur-trimmed.

PTSA Planning Fathers' Night

Speaker for the Thursday evening meeting of Wever Junior High School PTSA will be Dr. Guy Hill. Dr. Hill is coordinator of high school cooperation at Michigan State University.

* * *

The program is the annual Fathers' Night and will be held at 7:30 in the gymnasium.

* * *

Special music will be provided by the Boys' Double Quartet of the Pontiac High School. All members and friends of the PTSA are invited to attend.

Frequent Visits Are Nuisance

Working Wife Told to Be Frank With Sister-in-Law

By EMILY POST

A reader writes me as follows: "Will you please tell me of a polite way to handle the following situation: My sister-in-law lives quite close to us and is getting to be a nuisance with her frequent visits.

"My husband and I both work. He goes to school in the evening and I guess she thinks she is keeping me company, but she is only keeping me from doing the things I have to do. I try to do some small chores, but I would like some privacy.

"She also stays very late — sometimes even after my husband comes home. I am very tired at night and like to go to bed early but this is impossible. Can you help me?"

Answer: Frankness is the only way out. You will have to say, "I'm sorry but I'm awfully tired tonight. I had a hard day and have to get up early in the morning. Do you mind if I go to bed?" If you do this often enough she will get in the habit of going home early and perhaps coming less often.

"Dear Mrs. Post: When addressing a letter to a person carrying a title in connection with his firm, do you drop the title Mr. or Mrs. before the surname? In other words, do you address a letter to Mr. John Smith, President, Smith & Company, New York, or do you address it to John Smith, President, etc.

"I understand you do eliminate the title when addressing a name followed by a profession, such as M. D. But what about such titles as president, treasurer, etc."

Answer: Doctor and M. D. mean the same thing; therefore you use either one or the other, but not both.

JO ANN CRISP

At an open house for friends of the young couple on New Year's Day, the engagement of Jo Ann Elaine Crisp to Jerry Dale Carr was announced by her parents, Mr. and Mrs. Wendell O. Crisp of Auburn road. His parents are Mr. and Mrs. William Porter of Rochester.

Neighborliness Keynotes Small Town TV

By PHYLLIS BATTELLE

BLOOMINGTON, Ind. (INS) — Here in the Hoosier heartland, home of Alfred E. Kinsey, a person can pick up more than statistics on sex. He can find a brand new thing on television—what might be called the "love thy neighbor on Channel 4" technique.

* * *

In Bloomington, Ind. (pop. 30,000) almost everybody is television personality.

Auto dealers go on the waves to sell their cars personally.

Small children, who might be fighting in alleys if they lived in New York, carry on their scraps over TV to the vast amusement of their elders.

School teachers proudly give lessons in English, politics, journalism, household finance, in the afternoons when their regular classes are over.

Housewives unload their problems to a wide audience. It's much more fun, and cheaper than telling a psychiatrist.

* * *

"The idea from the beginning," says Sarkes Tarzian, the shy, near-sighted genius who made it all possible, "was to get the people interested in television. And I think they got . . ."

BUILT WITH FAITH

The station on which local men, women and household pets perform is WTTV, a "do-it-yourself" station built with faith, a bank loan and electronic know-how by Tarzian in 1949.

* * *

A mild-mannered engineer of 55, Tarzian is a U. S. citizen who came to this country at the age of 6 after leaving his birthplace, Kharput, Turkish Armenia.

"I loved it," he says, "from Philadelphia where I grew up, to the University of Pennsylvania where I studied, to Bloomington where I came to work. I felt I owed America much."

When he arrived in the home town of Indiana University and Doc Kinsey 15 years ago, television was a dream in the minds of most small town men, but a believable hope in the vision of Tarzan—a graduate with honors in electrical engineering.

So he did his job of setting up a radio-manufacturing plant for RCA and then quit to research, develop and manufacture parts for TV. A big gamble, in those days, but not so big as the plunge he took in 1949.

* * *

"There were less than 100 television sets in this area," his co-workers say, "and a minus amount of interest in the medium. But this guy refused to believe the facts.

"He built a station."

PIONEER STATION

Sinking all his money, $40,000, into the project, Tarzian converted a drugstore into a TV studio and, by hand, built his own camera and other equipment. For nearly three years, it was the only small town station in the land.

* * *

Then he declared "a sort of open house" on programming and invited the whole community to be his "stars."

The people willingly — for everyone has the "ham" instinct — went on the air. And Tarzian bought TV sets for banks, stores, offices, so their neighbors could watch them perform. It wasn't long, of course, before the citizens were video-crazy.

Bloomington now is nicknamed "TV Town." And our Armenian-American is its kingpin.

"We're getting more sophisticated now," Tarzian says slowly. "We have 'Howdy Doody' and Milton Berle," and a 1,000-foot tower and serve the entire Indianapolis-Terre Haute area."

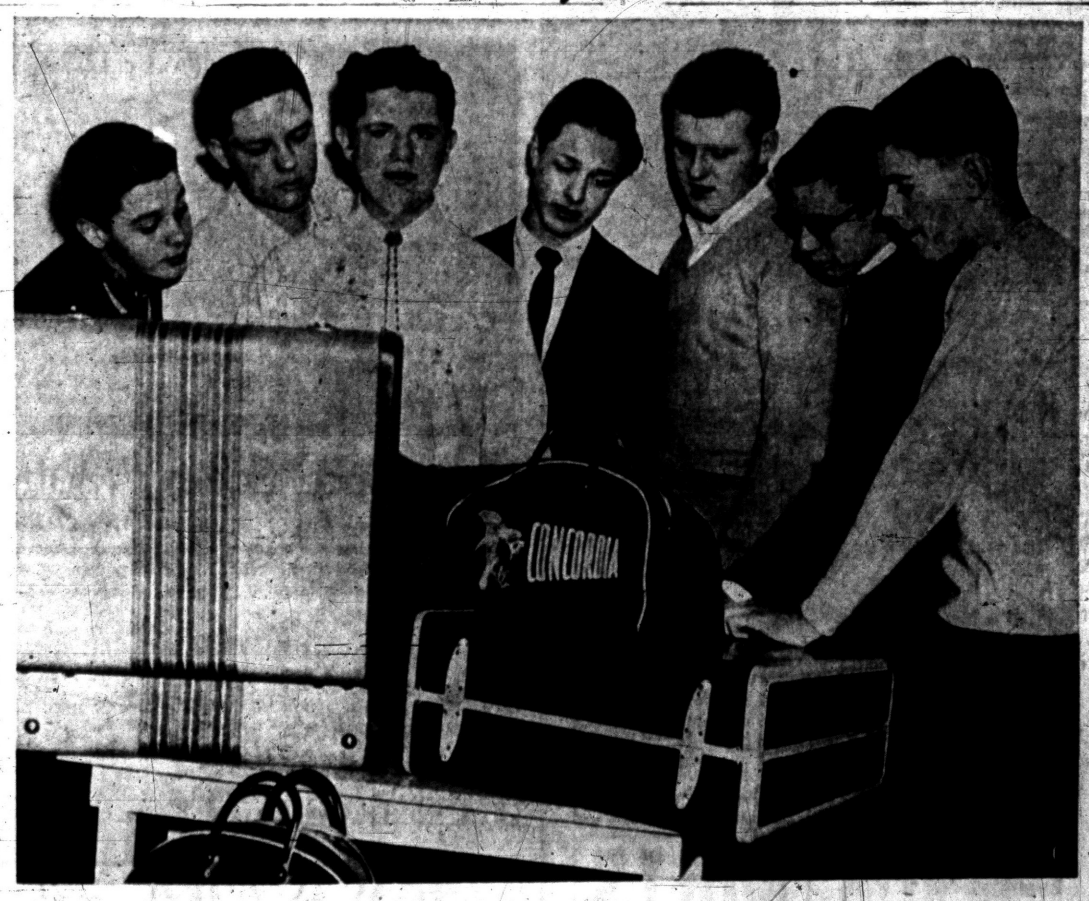

But the old technique is still the best technique, and Tarzian still finds plenty of room on Channel 4 for housewives, basketball games, and little kids walloping their friends.

"TV's a wonderful, advanced vehicle," says Tarzian, "but—in small towns anyway—the people should feel the station is theirs. If they ever lose that feeling, we will have bungled the job."

First Woman Pilot Hunts Old Planes for AF Project

SAN FRANCISCO (INS) — Mrs. Blanche Stuart Scott, the first woman pilot in the United States to make a solo flight, has her nose to the ground these days.

There is a reason — she is sniffing out treasure.

* * *

She is consultant for the United States Air Force Museum at Wright-Patterson base near Dayton, Ohio, and, in that capacity, is touring the United States in a search for aviation relics for the museum.

In San Francisco on the tour, the pioneer aviatrix who learned to fly in 1910, said:

"I'm on a treasure hunt. I'm looking for anything and everything. If anyone should have a piece of an old airplane in their basement or in their trophy room or anywhere, whether it is a strut, part of a propeller, or anything pertaining to aviation, we would like to have it in the museum. Even photographs of old planes.

* * *

"It's not necessary to have the whole plane . . . what we want is any old part of the plane. The reconstruction men at the museum can build the remainder of the plane around the actual piece."

Mrs. Scott, who is now 63, soloed Sept. 6 of 1910 at a time when she says "there were probably not more than 75 people in the world who knew how to fly." Aviation pioneer Glenn Curtiss was her teacher. And she says she really got started flying by driving a car.

OWN CAR AT 13

"I was a spoiled brat, an only child," she explained. "I had my own car when I was 13."

* * *

In May of the fateful year, she and newspaperwoman Amy L. Phillips started driving a car across the continent from New York as a publicity stunt for Overland. Progress would be wired each night to Overland dealers throughout the country and displayed in their store windows.

It was in California, at the end of the drive, that she decided she would learn to fly. As the first woman to drive across the country, she was something of a celebrity, so her wish was granted.

"I was wild, but instead of gin and jazz, I went in for excitement," she said, "and it turned out better, I think."

Once she had soloed, she joined the fabulous company of early fliers who barnstormed from city to city giving exhibitions.

She remembers that in Emeryville, Calif., in 1912, six or seven appeared at a big show and "Lincoln Beachey, Glenn Martin (who recently died) and I were the only ones who weren't hurt."

But she did accumulate 44 mended bones during her career, and a rich husband, and considers she had a wonderful time. She quit in 1916 and never flew again as a pilot.

* * *

"We got paid five or six thousand a week, and we spent it like drunken sailors. But of course most of us got killed."

One major factor, in addition to the mended bones, that decided her to end her pilot's career was the fact that the government wanted her two-seater Martin plane for use in World War I.

* * *

She was not the first woman to be licensed — Harriett Quimby had that honor. And she never did get a license . . . "we didn't bother much in those days."

Her later career included flings at screen-writing, TV and radio production work, but she never has been able to "settle down."

"There are people like that but it's taken me a long time to find out," she added. "I love this job and traveling around, and the Air Force has been wonderful to work for. And at the museum — which is open to the public, by the way — we have the largest collection of old planes in the world."

Happy Mother Converts Life to Baby's Routine

Baby's life is gentle and healthy. The main ingredients are sunshine, soap, rest and a light diet. He thrives on it.

The young baby's mother can thrive on it, too, if she takes advantage of it. Many new mothers try to run baby's life on a hard and fast schedule, squeezing in housework and cooking while baby naps.

Most women have found that the net results of this scheme are constant fatigue and a protracted case of the "baby blues," culminating in a spell of crying when the husband gets home from the office.

To let go a little is the first prescription. Then take a look at baby's life and take a few hints there.

First of all, when the baby naps, you nap, too. Life with a new baby is the hardest work in the world, and you need the rest. Many babies will sleep right by their mothers, others need a solitary room. However it works out, close the eyes and stop worrying and sleep while baby sleeps.

This can eradicate a lot of worry lines and make problems seem less insurmountable. It's quiet and you know the baby is safe. Both of these help sleep to come.

The second hint from baby is his diet. It's light and there's nothing he eats that's not nourishing and healthful. Fruit juice is his afternoon cocktail and there's nothing as good for mother either. It's cool and refreshing, unfattening and energy-giving. Drink it when baby drinks. He loves to share things, however young he is.

The third and very important hint is bath time. Baby doesn't take his bath just to get clean. He has a wonderful time with the bar of soap, with his duck and with the sensations of water. There should be no hurry about baby's bath, it should be fun for mother and baby.

Bonus fun is two in the same bath, when baby's old enough. Mother can stop worrying about splashing herself if she's in there splashing, too. Spartan women who start each morning with a shower have found that the extra late afternoon bath is relaxing and good shared fun.

Time outside is the fourth hint, but most women have become addicted to this simply because they can't avoid it. Baby really must get outside and most mothers have found they feel fretful and cooped in themselves if they don't do it.

It's not a King's life—it's a baby's life and far better than royalty's.

Long Winter Trips Mean Extra Gloves

Homeliness Guides Girl Into Becoming an Actress

By JOAN HANAUER

NEW YORK (INS) — Some girls want to be actresses because they are pretty — but Louise Allbritton got there because she wasn't.

* * *

"It's so long ago," she said with a smile, referring to why she originally became an actress. She is currently appearing in "Third Person" — a play that did quite well in London after it was originally banned by the Lord Chamberlain.

"I guess I became an actress because I was such an ugly duckling as a child — big, fat and homely. My mother sent me to what were called 'recital classes' and I became fascinated with the theater.

"By the time I went to college I was still sort of ugly and thought I'd do better as a director. From the University of Oklahoma I went to the Pasadena Playhouse — by then I must have blossomed.

"They talked me into giving up direction to act and I played in some 40 productions before I went into the movies in 1941."

* * *

In New York after much experience in motion pictures, Miss Allbritton says about the film industry:

"You don't have to be a trained actress in movies. Having a definite personality is much more important — they'll type you anyway if they want to make a name of you.

STUCK WITH COMEDY

"I came into the film industry after playing in 'The Man Who Came to Dinner' and I've been stuck with sophisticated comedy ever since. I'm sure this straight dramatic role I'm doing now will help get me the kind of offers I want.

"Dramatic acting takes more out of you emotionally but comedy is more exhausting because it's more technical."

In contrasting movies to theater, she added:

"I consider movies strictly a director's meeting — an actor isn't allowed to sustain a performance. An actor is responsible for each scene, but the overall performance is strictly the director.

"In the theater the director makes his mark during that month of rehearsal — once you're on stage he can't help you. But they do occasionally dash backstage between acts to say 'Come on, what are doing?' "

* * *

Miss Allbritton says that about two days before she opens in a play she begins to hate herself for all the hours she's wasted in rehearsal.

But not so when it comes to shooting a movie. She claims: "You always know you can do it again."

Matched Luggage for Family Present

Matched luggage makes a good family gift, with several members pooling their resources to provide a complete set of everything needed for trips of any length.

A hatbox or a traveling garment bag would be a fine choice for an "accessory" luggage gift, as would a canvas or plastic zipper bag which the teenager could use for sports clothing and equipment.

Shoe Stores Ready for Spring Fashions

Shoe departments in all parts of the country have already started blooming like springtime. You'll find counters brimming over with colorful, tropical lightweight leathers in a fascinating array of resort shoes for every occasion. Ideal for a winter trip, they'll be used again come the Easter Parade and summer vacation.

Manage Gray Hair

If you've discovered that gray hair is less manageable than the tresses of your girlhood, try taming them with a creme rise and steam treatment after your next shampoo. This procedure is especially helpful in winter, when much of hair's wiriness can be blamed on harsh winds and dry indoor heat.

There Must Be Blend

Strikingly patterned and unparalleled for comfort, all-wool Argyle socks afford much-needed color and a change of pace for men of all ages. From a "right dress" standpoint, one color used in the socks should be repeated elsewhere in the man's attire.

Beads should be sparkling bright. Here's a quick trick to keep them that way: fill a glass with lukewarm soapy water and dangle the rope up and down in the suds for a minute or two. Rinse the same way and dry in a soft towel.

Heed Advice for Job Openings

By ANNE HEYWOOD

"I am tired of listening to the advice given by you and all other personnel people," an irrate woman writes.

* * *

"You all say that the older woman has to learn to type if she wants a job. I see no earthly reason why I should learn to type and I don't intend to!

"Can't employers see what the mature woman has to offer? Young glamor girls don't have to type, yet not one would make as good a worker as I would.

"I am going to keep looking until I find an employer who values mature judgment at the reception desk and doesn't expect typing, too!"

* * *

It seems to me that this woman is going to be looking for a long, long time.

NOT SHOWING IT

In the first place, if mature judgment is what she thinks she can offer, she is not demonstrating it very well. Her approach to the matter of typing is, it seems to me, immature in the extreme.

* * *

Young glamor girls, too, are better off if they can type and the overwhelming majority of them can. Furthermore, not to be able to type makes you look very old hat.

Today, most people know their way around a typewriter and the woman who does not — whatever her age — doesn't seem very "hep."

Actually, learning to type is quite easy. Anyone can rent a typewriter, get a good pamphlet on typing and teach herself right at home.

* * *

The woman who totally refuses to learn is either lazy, stubborn or just naturally ornery. When people have real difficulty with typing, it is almost never due to lack of finger dexterity.

It is almost always some personality flaw, some resentment at the idea of having to type, which stands in their way.

INCREASES CHANCE

The ability to type increases your chance of getting a job, at any age. It opens more doors and offers more variety in the job held, it brings you a larger paycheck and it is a help in your personal correspondence.

* * *

Considering the advantages, it stands to reason that the woman who totally refuses to learn to type is unrealistic and immature. This immaturity is probably a bigger obstacle to her entrance into the working world than the lack of typing is!

Cherry Puff Is a Good Hot Dessert

Quick Cake Batter Drizzled Over Top of Cherry Sauce

By JANET ODELL
Pontiac Press Home Editor

Snowy days, chill winds and frosty nights together make the ideal weather for a hot dessert. What could taste better than Mrs. Frank Oosterhof's Cherry Puff?

Mrs. Oosterhof has two young children to keep her days active. She loves to sew, and her new home shows the results of her handiwork. She is a member of Epsilon Sigma Alpha sorority and, with her husband, a Viernes dance club member.

CHERRY PUFF

By Mrs. Frank Oosterhof

1 can (No. 2) tart red cherries
½ cup sugar
2 tablespoons quick tapioca
Red food coloring
2 egg whites
Dash salt
¼ teaspoon cream of tartar
⅓ cup sugar
2 egg yolks
6 tablespoons sifted cake flour

Drain cherries, reserve juice. Combine cherries, ½ cup cherry juice, ½ cup sugar and tapioca. Simmer 5 minutes, stirring constantly. Use food coloring if desired.

Beat egg whites until foamy, add salt and cream of tartar. Beat eggs to soft peaks. Gradually add ½ cup sugar, beat until stiff. Beat yolks until thick and lemon colored. Fold into egg whites, then fold in flour.

Pour hot cherry mixture into a wide 1½-quart casserole. Pour batter on, or drizzle in strips over the top. Bake 30 minutes in a 350 degree oven. Serve warm. Makes six servings.

'56 Features Bustle News for Fashion

Paris Is First in Promoting the New Styles

PARIS (INS)—We're in for a "bustle-season."

Not necessarily more scurrying around than usual, but youthful Parisian Designer Hubert de Givenchy is out to make girls look like the coquettish, bustled beauties of 1890.

Givenchy has just shown his ideas on 1956 elegance for budget-minded females, for the first time presenting ready-to-wear clothes for next spring bearing the "Givenchy University" label.

The fashion news in these clothes is a very feminine and new line. The tops are simple, often collarless and with a shallow square or boat neck. But the skirts have a profiled silhouette which bustles out below the waist. They will call for new petticoats with back fullness.

'PARIS DERRIERE'

These skirts look slightly flaring from the waist down in front. At the back a bustle effect bulges out of a four-inch-deep waist-yoke for a curved "Paris Derriere." A white cotton eyelet dress, for example, is out with a jumper top, a fitted waist and a discreet bustle frilled out from a red satin ribbon trimming.

Givenchy shows the same 1890 effect on printed cotton dresses and on a formal number of black lace with a wide strapped top.

Since these 1956 "bustles" draw the silhouette interest to the back, Givenchy puts the really deep decolletes also at the back. Thus a girl will look high-necked, demure and unruffled when viewed from the front but with all the frilly, low-decolleted and bustling femininity visible when she's retreating.

California Design Taking to Stripes

The girls of the golden west who are doing the designing of the elegantly casual California sportswear and separates have taken to color in confetti size dozes . . . taken to stripes in wicket wide banners and taken to comfort in major league steps.

Throughout the new collections shown in California fabrics flash their own brilliant color concepts . . . look singularly new and important in wide, slim, broad or narrow stripes, look very much at home in traditional plaids in utterly untraditional color combinations, and look blantantly bright in the gleaming cotton satin which is used with great effect as a foil for confetti hued striped cottons.

High Heel Shoes Enhance Wardrobe

High heel shoes continue to make news. A good many of them highlight a matching heel and vamp motif, studs, stitching, embroidery, stacked leathers, etc.

Leathers include everything from the plain and simple aniline and matte calf, through the fine grains and printed leathers in almost any design conceivable. Suede leathers make a comeback particularly in the new soft pastel shades.

Juanita Neidrick Speaks Wedding Vows Saturday

Juanita Mona Neidrick became the bride of Donald R. Davenport Saturday in a rite performed at All Saints Episcopal Church.

* * *

The bride is the daughter of Mr. and Mrs. Henry Neiderick of Court drive, and Donald's parents are the Curtis Davenports of Wadeville, Ind.

For her wedding Juanita chose a ballerina-length gown of white tulle. Her bouquet was composed of white carnations and red roses.

Henrietta Neidrick attended her sister as bridesmaid in a ballerina-length gown of pink net. Red and white roses formed her bouquet.

* * *

Performing the duties of best man for his brother was Howard G. Davenport, while William McMurphy, cousin of the bridegroom and George Neidrick, uncle of the bride, seated the guests.

For her daughter's wedding Mrs. Neidrick wore a winter white dress with black accessories. Mrs. Davenport also wore winter white accented with black.

For going away the new Mrs. Davenport chose a black suit accented with a white carnation corsage.

That Right Hat: Here Are Hints to Proper Choice

The right hat can balance the shape of the face and help to make even the square face and the round face appear to be more like the ideal oval. Some of the hints the article gives, for each face type, are:

Square — Choose a hat with bulk and preferably one that comes forward over the face.

Long — Should never, never wear a high crown. Shallow crown and wide brim minimize the face length.

Triangular — Takes to small hats. Bulky hats are out.

Round — Taboo are tiny hats, perched high on the top of the head. Something dangling and jutting at the side is good.

Swimsuits of 1956— Most Imaginative Yet

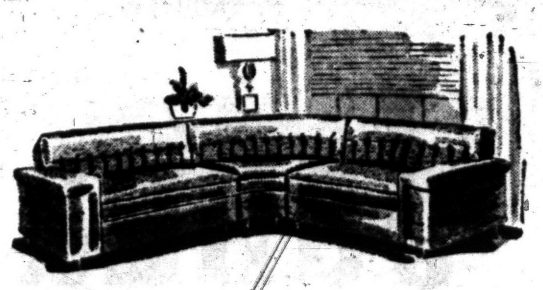

Swimsuits for 1956 have a wonderful fashion story to tell. First, elasticized suits have a brand new character. No matter what the yarn or fiber is in the elasticized process, the effect is cotton.

Add to this the design effort to produce true dressmaker details in elasticized swim wear, and the result is some of the most imaginative bathing suits ever shown.

'Soft Look' Sought

Designers are striving to achieve the "soft look" in the '56 silhouette. To interpret this, they are using many of the new soft woolen fabrics that combine wool with the precious fur fibers such as Angora, muskrat, beaver, cashmere.

Trials and Tribulations of the Neophyte Actress

By EARL WILSON

NEW YORK—Lola Albright, coming from Ohio as she does, is naturally very honest, and she promises not to sue me if I refer to her as "The Starving Star."

"Just refer to me," is the way that Lola, once of Akron and Cleveland, puts it. In private life, which she has little, she's Mrs. Jack Carson.

"When we were both working all the time," states Mrs. C. further, "we'd just say 'Hi,' 'Bye,' and never even get a meal together. You can't get tired of anybody that way."

So, wife-like, she gave in and worked less, and Jack, husband-like, worked harder.

★ ★ ★ ★

However, she was in "The Tender Trap" movie, and is on the Bob Cummings TV show frequently—which brings us to a flashback. Back in 1948, when she had the double thrill of walking down Broadway and seeing herself heavily billed in "The Champion" — while wondering how she was going to (1) eat and (2) stall off the Barbizon Plaza rent.

"I'd pawned most of my clothes. I tried to hock a ring, but couldn't get enough to pay one week's rent.

"I couldn't even get in to see 'The Champion'—and my name was on it."

The hotel, as she understates it, "was unhappy with me." She assured the manager, above the rattle of hunger in her stomach, that she had a large check coming, which was somehow overdue. It arrived, and she feasted.

She solemnly swears that when she left Akron to work on the switchboard at WTAM, Cleveland, she didn't know her $22.50-a-week bonanza was payable only twice a month.

"I lived for a whole week without a bite of food," she adds, crossing her heart. "Of course, when you're young . . ,

Lola and Jack now live in Royal Oaks near Liberace, Gale Storm, June Hutton and Axel Stordahl, and she stays home a lot and encourages Jack in his determination to be more an actor than a comedian.

"He's too good an actor to do some of the stuff he's had to do in comedy," she says. "But comedy seemed to pay the grocery bills. And having heard my background, you can understand how I felt about grocery bills!"

Hollywood Headlines

Burt Earns Last Laugh as Successful Producer

By BOB THOMAS

HOLLYWOOD (AP)—Some folks were inclined to laugh at Burt Lancaster during his early years in Hollywood.

"The guy's a former circus acrobat," they scoffed. "After a picture or two he was directing his directors and talking about producing his own pictures. Haw!"

* * *

Seated behind a desk in his tastefully decorated office, Burt today can have the last laugh. He and partner Harold Hecht now have the most vigorous independent producing company in the film industry.

Their first few films, including one directed by Lancaster, have made millions. Their "Marty" is high in the Oscar contention. And they recently completed the promising "Trapeze" in Paris, starring Burt, Gina Lollabrigida and Tony Curtis, with Carol Reed as director.

Not a bad record for the ex-acrobat.

What's more, he has reached the point where he will work only when the project excites him. He reasoned:

"People work hard in pictures for two reasons: 1. To establish themselves as a personality on the screen. 2. To make money. Fortunately, I have achieved the former and money is no longer a great concern. We have been very lucky with our company and have it established on a basis whereby the money will be coming to me over a period of years.

* * *

"So I'm going to cut down on my film schedule. For one thing, I want to work more into the production end of the business. We have six pictures set for the future and I want to take an active part in their planning. I may take producer's credit on one of them.

* * *

"There's another reason I want to slow down on film acting: I want to get acquainted with my family. They're at the stage now

Dave Kaiser Boots MSU to Victory, 17-14

Well Earned Title

Rose Tilt Called 'One With Frantic Finish'

PASADENA, Calif. (AP)—If the 1956 Rose Bowl game goes down in history as "the one with the frantic finish," it will be a well-earned title.

You know by now that Michigan State beat UCLA 17-14 on sophomore Dave Kaiser's 41-yard field goal with seven seconds left to play. But the chances are you're still confused, if the scene in your living rooms was anything like it was in the bowl, as to what happened immediately preceding the placekick.

• • •

If so, you're not alone. So are most of the 100,000-plus spectators on the scene and the several hundred sports writers packed into the two-level press box.

The fun began right after Michigan State's Gerry Planutis missed a field-goal try to cap a drive following UCLA's tying touchdown. The Bruins took over on their own 20 with 1:34 to play, and promptly were penalized 15 yards for unsportsmanlike conduct.

• • •

Then, on the next play, Ronnie Knox was trapped in the end zone and threw a desperation pass off to his right. Another penalty followed, setting UCLA back to its 1. Knox punted on the next play.

Spartan Clarence Peaks was knocked down trying to catch the ball and UCLA drew another 15-yard penalty which gave State the ball on the Bruin 19.

So what were all the penalties about?

• • •

The first one for "unsportsmanlike conduct" was assessed for coaching from the sidelines. Coach Henry (Red) Sanders of the Uclans explained it like this:

"One of our boys stepped out of the huddle and looked to the bench. I didn't see it, but they tell me one of our assistant coaches waved his arm in a signal to pass."

The Knox pass penalty, although announced in the official play-by-play as for intentional grounding, actually was assessed because UCLA had an ineligible receiver—tackle Gil Moreno—downfield.

• • •

And the third, on Knox' punt, was for interference with a punt receiver. The rules state that it is illegal to interfere with a receiver's opportunity to catch the ball, regardless of whether he has signalled for a fair catch or not. In this case, no signal was apparent but Peaks was knocked off his feet by UCLA Captain Hardiman Cureton before the ball came down.

Game officials declined to discuss the penalties. Coach Sanders had one terse statement.

"I have no comment on the officiating."

Michigan Five Yields to OSU 79-66, at Home

Freeman Leads Bucks With 28 Points in Big Ten Opener

ANN ARBOR (AP)—Michigan yielded to the masterful Robin Freeman and Ohio State in the Big Ten basketball curtain raiser last night 79-66.

The Buckeyes, among the favorites for the conference championship, made good on an amazing 72 per cent of their shots in the first half in running away with the game. Freeman collected 28 points.

At various times the Wolverines put three different men on Freeman but he shot from almost every spot on the floor in bagging 11 field goals. The Bucks were so hot in the first half that they breezed to a 50-33 lead at intermission.

Capt. Tom Jorgensen led Michigan with 15 points. Ron Kramer was held to 8 points.

• • •

Compared to Ohio State, Michigan was far off in shooting. The Wolverines for the full game had a percentage of only 29.1. Ohio State marked up 43.1 per cent.

BRUIN GETS DUMPED — Linebacker Joe Badaczewski (56) and end Dave Kaiser (89) stopped tailback Doug Bradley (right) of UCLA for a yard gain as he attempted a sweep around left end in the Rose Bowl. Plenty of Bruin blocking is out in front, but the Michigan State defenders dumped Bradley on his own 27.

Sophomore End Connects With 7 Seconds Left

Kick Averts 14-14 Tie With UCLA Giving Big 10 Its 9th Bowl Win

By ROBERT E. VOGES

PASADENA, Calif. (AP)—Sophomore end Dave Kaiser hadn't connected with a field goal for Michigan State before, but with just seven seconds left in the Rose Bowl game yesterday, he boomed one 41 yards to give the Spartans the 17-14 victory over UCLA.

The last previous time MSU controlled the ball, fullback Jerry Planutis had tried a field goal but failed. Many of the 100,809 spectators thought it was Planutis making another attempt.

• • •

But Coach Duffy Daugherty gambled on Kaiser, a 203-pounder who needs to wear contact lenses.

There was 1 minute and 34 seconds to play after Planutis missed his attempt. UCLA had the ball on its 20. Then came a 15-yard penalty for coaching from the sidelines. Next halfback Ronnie Knox threw a desperation pass and a penalty for an ineligible receiver downfield moved UCLA back to its 1.

Knox punted and Spartan Clarence Peaks was hit before he could catch the ball. Another 15-yard penalty.

• • •

MSU, on the 19, sacrificed five yards on a penalty to trot in a substitute with the kicking tee. It was Kaiser's third field goal try of the season and the first that connected. The ball was placed down on the 31 and had to carry an extra 10 yards to the goal posts.

The victory was the Big Ten's ninth in 10 games since the pact with the Pacific Coast Conference was signed.

UCLA had struck early. Jim Decker intercepted a pass by MSU quarterback Earl Morrall and returned it to the 16. Four plays later, fullback Bob Davenport smashed over from the 2.

• • •

In the second quarter, State smashed in from its own 20 to score. Morrall passed 13 yards to halfback Clarence Peaks over the goal line to knot it at 7-7.

The third quarter was scoreless. Peaks, who had completed only one other pass during the season, threw from his 33 to end John Lewis, who took it on the run on the 30 and eluded Sam Brown for a score early in the fourth quarter.

Brown was knocked out on the play and Ronnie Knox, playing for the first time since breaking an ankle bone Nov. 12, took over at tailback.

• • •

Knox hit for a 47-yard strike to Decker, who escaped to the 7 before he was pulled down from behind by Walt Kowalczyk. Knox smashed to the 2, then to the 1, and Doug Peters threw himself over for the score. The conversion made it 14-14.

Illinois Rallies to Beat Spartan Cagers, 73-65

MSU Loses 18 Point Lead in Second Half Letdown

CHAMPAIGN, Ill. (AP)—Illinois put on a spectacular comeback to catch and beat Michigan State in their Big Ten basketball opener 73-65 last night after once trailing by 18 points.

The Spartans, with Julius McCoy as their man of the moment, smeared the Illini to take a 38-28 halftime lead but after that it was exactly the reverse. Illinois took complete charge, stopping McCoy and going on to win.

The Illini matched McCoy's 25 points with a total of 44 by their guard combination of Paul Judson and Bill Ridley. Judson got 23 and Ridley 21.

McCoy shot 10 straight points as Michigan State ran off to an early 26-8 lead. He scored 19 of his 25 points in the first half. Judson matched it with 19 in the second half. The Illini were riddling the Spartan defense as they won going away.

• • •

Illinois caught up at 51-51 in the second half. The Spartan's last lead was at 52-51 on Al Rosenberg's free throw. Ridley then scored four straight points and it was all Illinois from there to the finish.

Titans Trounce Bradley, 106-91

Ebben Scores 28 in Free Fouling Game at Peoria

PEORIA, Ill. (AP) — The University of Detroit got up into the basketball stratosphere to beat Bradley 106-91 last night in a Missouri Valley Conference game.

Forty-six of the Titans' points came from the free throw line as Bradley actually lost its own game by expensive fouling.

The whistle was a big element of the contest with a total of 72 fouls being called. Detroit made good on 46 of 68 chances while Bradley scored on 25 in 51. That spelled the difference because Bradley outdid Detroit in field goals, 33 to 30. Five Bradley players fouled out in the last four minutes.

Bill Ebben and Don Hasse led the Detroit attack with 28 and 24 points, respectively. Barney Cable was high for Bradley with 19.

Tangerine Bowl Ends in 6-6 Tie

ORLANDO, Fla (AP)—Once again the Tangerine Bowl was the graveyard of one of college football's longest winning streaks when Juniata's string of 23 straight ended in a 6-6 tie with Missouri Valley last night.

Two years ago it happened to East Texas State, winner of 30 straight until held to a 7-7 tie by Arkansas State.

Nervous?--Not Kaiser

PASADENA, Calif. (AP) — "Nervous? I didn't have a chance to get nervous," said end Dave Kaiser of his game-deciding field goal that gave Michigan State a 17-14 victory over UCLA.

"After the kicking tee came in from the bench, quarterback Earl Morrall called it in the huddle. He said 'you try it this time'."

"The boot felt good and after it got off I tried to sneak a look. But I wasn't sure I made it until the official near me—I was watching him—raised his arms and then Buck Nystrom (team captain) swarmed all over me."

Kaiser, a transfer to State from Notre Dame, said one reason for the switch was because his former high school coach Bob Devaney, took over as end coach at State.

"But if Frank Leahy was there I might still be at Notre Dame," he said.

• • •

UCLA Coach Red Sanders was one of the first in the Spartan dressing room to congratulate MSU's Duffy Daugherty and his players.

"I'll be at your coach-of-the-year dinner," he promised.

Many of the State players came in with jerseys ripped off by frantic Spartan fans.

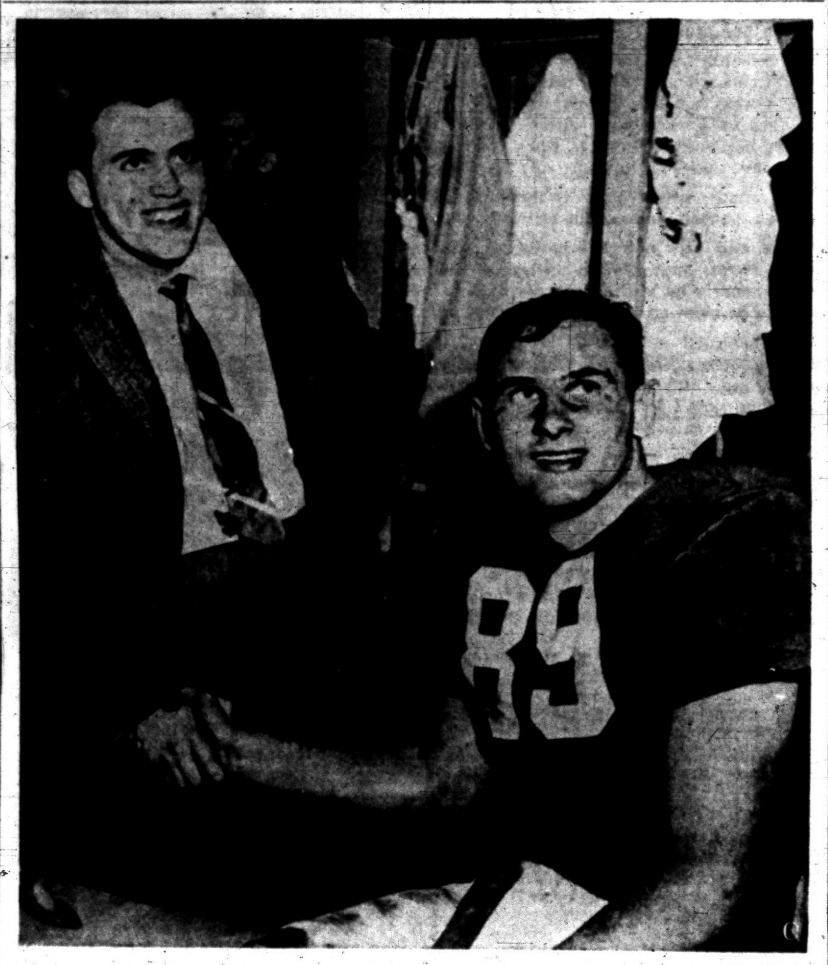

"You were wonderful," Daugherty told his players, "God bless you," then quieted them down with a prayer.

• • •

"I called the play," Daugherty said of the winning field goal. "But Kaiser did the kicking. Don't forget I also sent in the couple we missed. That was the toughest game we've had all year. I was willing to settle for a one-point win. The game was different in that it was a more emotional kind of thing for the kids. Morrall wasn't as sharp in passing as in some of our games. But we ran the ball well."

• • •

"The best team we've played all season," said Sanders. "Even sharper than Maryland. Our kids played their hearts out. At the end there, we were going to gamble on passing, but those penalties killed us. If Ronnie Knox had been healthier—he was passing on one foot you know—it might have been different.

New York May Lose Its Only Weekly Fight Club

NEW YORK (AP)—New York, once the boxing center of the world, may lose its only regular weekly fight club to another state as the result of the "war" between the state athletic commission and the Boxing Guild of New York.

• • •

Promoter Tex Sullivan of the London Sporting Club, which beams its Monday night television fights out of St. Nicholas Arena to 26 cities, planned to confer with Dumont TV network officials today to discuss a possible shift to Stamford, Conn., or some other nearby site.

• • •

"I can't line up any fights for the St. Nicks for after Jan. 16," said Sullivan, "and because of the necessity of lining up programs three to four weeks in advance for television programming we may have to move out of the state.

"I'm set for the Jan. 9 and Jan. 16 shows but when I discuss fights for after the 16th with managers I'm told by some their fighters 'aren't ready' or 'my guy's still bothered by cuts' or something like that," said Sullivan.

• • •

Jan. 16 is the deadline set by Commission Chairman Julius Helfand for members of the guild to sever their connections with the guild or face loss of their licenses in the state. Helfand set the date on Dec. 12 when he ruled the managers guild was "detrimental to the best interests of boxing" for "monopolistic", "shocking", and "devious" practices.

• • •

The powerful International Boxing Club also is finding it troublesome to close a match for Jan. 20 at Syracuse, N.Y., scheduled site of a Friday night radio-television show. The IBC promotes the weekly Wednesday and Friday night radio-TV shows.

Panthers' Grier Happy at Play in Sugar Bowl

Pitt Star 1st Negro to Appear in South's Big Classic

NEW ORLEANS (AP)—"I would be happy to have any son of mine go through the same experience," said fullback Bobby Grier as he sat in the Pittsburgh dressing room, the first Negro to play in a Sugar Bowl football game.

• • •

"The publicity didn't bother me," he said. "I have no regrets."

Grier, leading ground gainer as Pitt lost to Georgia Tech 7-0, described the crowd as "real nice." He said Tech players helped him off the field when he injured his knee in the fourth quarter.

Grier moved into the public glare last month when Gov. Marvin Griffin of Georgia opposed Tech's playing in the Sugar Bowl. Griffin objected to Grier and the fact Pitt stands would be unsegregated.

• • •

Tech students became enraged at the governor's proposal, demonstrated and burned Griffin in effigy. The Georgia Board of Regents refused to stop Tech from playing.

Ranger Presses Scoring Leaders

Andy Bathgate Tallies Four Points to Gain on Beliveau, Richard

MONTREAL (AP)—Andy Bathgate of the New York Rangers, seeking to end Montreal's domination of the National Hockey League's individual scoring race, is closing in on Jean Beliveau and Maurice Richard of the Canadiens.

• • •

Batgate picked up four points in last week's action to give him 39 for the year on 11 goals and 28 assists.

The Rangers' star forward trails Beliveau, the pace-setter with 44 points, and runner-up Richard, who has 40. Beliveau has produced 23 goals—most in the circuit—and 21 assists. The Rocket has 22 goals and 18 assists.

• • •

Jacques Plante of Montreal remains comfortably in front in the competition among the goalies. He has yielded an average of 1.56 goals a game.

Hartack Starts New Year Right

CORAL GABLES, Fla. (AP)—Willie Hartack, who won the 1955 jockey championship with 417 winners, is off to a fast 1956 start in an effort to make it two straight.

The Johnstown, Pa., native booted home four winners at Tropical Park yesterday—the first riding day in the new year. He put together a $54.30 daily double by winning the first with Bonne Fete at $7.50 and the second with Mr. Blue Sky at $13.70.

Dons Still 1st

Unbeaten College Powers Among Top 3 of AP Poll

By THE ASSOCIATED PRESS

San Francisco's mighty Dons, who tacked three games onto their winning streak by breezing through the Holiday Festival last week, remained on top in the weekly Associated Press college basketball poll today. The big battle is for second place.

• • •

The Dons, winners of 36 in a row, were listed No. 1 by 113 of the 156 sports writers and sportscasters who participated in the fourth poll of the year. San Francisco has led in each one.

North Carolina State, Dixie Classic champs on the strength of an easy success over North Carolina, took over the runner-up spot from Dayton, which dropped to third.

On a basis of 10 points for first place, 9 for second etc., San Francisco piled up 1,451 points, North Carolina State 1,168 and Dayton 1,087. The voting was based on competition through Saturday night.

• • •

Vanderbilt, with one victory to show for its efforts last week, moved into fourth place a notch in front of North Carolina, which dropped its first decision after seven victories.

Four new teams made their way into the top 10. Kentucky moved from 13th to 6th, George Washington from 12th to 7th, Iowa State, unranked last week, moved to the No. 8 spot and Ohio State climbed from 15th to 10th. Illinois remained 9th.

The top 10 teams and total points based on 10 for first, 9-8-7, etc. (first-place votes and team records through Saturday night in parentheses):

	Points
1. San Francisco (113) (10p0)	1,451

Wyoming Takes Sun Bowl Game

Cowboys Rally to 21-14 Victory Over Favored Texas Tech

EL PASO (AP) — Wyoming, two-touchdown underdog and outweighed 20 pounds to the man on the line, surged from behind in the final quarter to whip Texas Tech 21-14 in the 21st annual Sun Bowl football game yesterday.

The Cowboys rammed over the tying touchdown at the end of a 90-yard march, then turned a Tech fumble into the winning margin just moments later.

A crowd of about 14,500 watched Tech grind out a 14-7 lead in the last half before the Cowboys replied to the challenge with a brilliant display of determination.

"Tech started tiring late in the game while we were still able to go," said halfback Jim Crawford of Wyoming, rated the game's most valuable player.

Crawford failed to score but turned in a day's performance that included 103 yards gained rushing on 18 carries. Of that, 26 yards came in Wyoming's long drive for the tying marker.

Tech Edges Pitt in Sugar Bowl, 7-0

By JAMES SAGGUS

NEW ORLEANS (AP) — Georgia Tech is wearing its fourth Sugar Bowl crown at a jaunty angle today, caring little about the arguments over the touchdown in its 7-0 victory over Pittsburgh.

• • •

Tech got two of the biggest breaks in its illustrious football history yesterday to whip Pitt, a stubborn team with power-laden running and dangerous passing that belied its role as a one or two-touchdown underdog.

The first break came when Pitt quarterback Pete Neft fumbled and Tech guard Allen Ecker recovered on the Pitt 32 in the first quarter. The second came on the next play, when quarterback Wade Mitchell tossed toward end Don Ellis in the Pitt end zone.

• • •

Officials ruled that Pitt defensive back Bob Grier, the first Negro to play in the Sugar Bowl, pushed Ellis. They penalized Pitt for pass interference and placed the ball on the Pitt 1.

Mitchell banged over for the touchdown and converted for the winning margin.

Grier, sobbing in the dressing room, told newsmen the penalty "should have been called the other way. He pushed me from behind; that's why I fell forward."

Pictures of the final stages of the play show Grier flat on his stomach in front of Ellis, who is in the air reaching over Grier's body for the ball.

Game officials declined comment.

Tech Coach Bobby Dodd said, "I couldn't see the play at all. Ellis told me Grier pushed him, and I guess that was the way it was."

Pitt Coach John Michelosen said, "It could have been called either way."

There was equal disagreement among the 80,175 fans.

Tech's only other threat came in the fourth period on a sustained drive that carried from its 16 to the Pitt 7. At that point Pitt threw Tech for two straight losses before taking over when halfback Ray Dipasquale intercepted a Toppy Vann pass and returned it eight yards to the 11.

Guard Franklin Brooks of Tech, who helped stop the drive, was voted the most outstanding player by writers covering the game.

Pitt's spirited power, which made the Panthers the nation's No. 11 team, furnished most of the offense, while holding seventh-ranking Tech's running game largely under control.

Two Shutouts and Forfeit Open Junior Hockey Play

Union Lake, Dick & Wes, and Lake Orion scored 1st-round victories in the Pontiac Parks and Recreation Department's Junior Hockey Tournament, which got under way Monday morning at the North Side Ice Rink.

• • •

Don Aird tallied four goals to spark Union Lake to an easy 9-0 triumph over Kelly's Hardware. The winners scored three goals in each period to post the most decisive win in yesterday's opening round.

Jim Mills, Ralph MacLachlan, and Doug Storey each chalked up one goal, all in the 2nd period, as Lake Orion shut out Weldon Sports ,3-0. Dick & Wes defeated Walled Lake by forfeit.

The double-elimination tourney, delayed one week because of poor ice conditions, will resume Saturday morning with three more games on tap.

Union Lake encounters Dick & Wes, Kelly's Hardware faces Walled Lake, and Nestor's All-Stars make their 1st tournament appearance against Lake Orion. Starting time is 8:30 a.m.

Less than one per cent of the nation's bowlers average 190 or better, according to the ABC's records.

Elliott Accepts Nebraska Head Coaching Post

Ex-Michigan Gridder Leaves Oklahoma for 3-Year Contract

MIAMI, Fla.—Pete Elliott, assistant coach at the University of Oklahoma, is accepting an offer to head the University of Nebraska football coaching staff, it was announced today by Bill Orwig, Cornhusker athletic director.

Elliott received the Nebraska bid Dec. 4 from Orwig, but asked to delay his decision until after Oklahoma's appearance in the Orange Bowl game yesterday.

* * *

Orwig said he and Elliott will meet the University of Nebraska board of regents in Lincoln Saturday, Jan. 7 to formalize terms of Elliott's selection as successor to Coach Bill Glassford, who resigned.

Orwig said he will ask the regents to approve a salary of $12,000 annually for Elliott on a three-year term basis.

"We were agreed that Pete Elliott was the man we wanted," Orwig said. "I'm mighty happy to announce his acceptance.

* * *

"His abilities as a coach and his wholesome qualities as a leader of young men are well recognized," Orwig said. "He comes to us as having been a great player and leader in his collegiate days and more recently as a member of a successful coaching staff."

* * *

Elliott has been at Oklahoma five years. He will become the 23rd football coach Nebraska has had since the sport was started at the Cornhusker school in 1890.

Elliott expressed a note of regret at leaving the staff at the University of Oklahoma.

Favored Netter Begins Defense of Crown Today

TAMPA, Fla. (AP) — Top-seeded Eddie Moylan of Trenton, N.J., makes his debut in the Dixie Tennis Tournament today in a match with George Winchell of St. Petersburg.

* * *

Defending champion, Moylan was idle in the opening round yesterday while second-seeded Sidney Schwartz of New York and Bryan (Bitsy) Grant of Atlanta worked.

Schwartz had easy going with Joe Warshaw of Tampa, winning 6-1, 6-2, but Grant, in a display of stamina, had to catch up to down Don Hanna, also of Tampa 3-6, 6-1, 6-0.

Schoendienst's Dad Dies

BREESE, Ill. (AP)—Joseph Schoendienst of Germantown, Ill., whose six sons include second baseman Red Schoendienst of the St. Louis Cardinals, died in a Breese hospital yesterday at 66.

The elder Schoendienst, a guard at the Menard State Prison Hospital near Chester, had been ill for two months.

Bowling Clinic

By BILLY SIXTY

THE V IS CONSTANT—Keep the wrist stiff throughout the backswing, and the V grip will be unchanged at the top, as the sketch shows. Notice that the thumb still points to the left, toward the body, and the grip is firm, but not tight.

Stiffen the wrist when you place your thumb and fingers into the holes, and concentrate on keeping the wrist stiff all the way—up, down, and to ball release.

Maintain the same hand position, and the thumb will come out of its hole first at ball release, ahead of the fingers. Don't be anxious to get rid of the ball. It is swing, feeling the weight of the ball, that results in a smooth arm lift at release, with the fingers applying spin. Forget speed. Swing is the thing.

Oklahoma Speed Smashes Terps

MIAMI, Fla. (AP)—Speed, speed and more speed. . . . Oklahoma had it and Oklahoma used it from the starting whistle to the final gun. That was the story of the 1956 Orange Bowl football game.

* * *

The swift-striking Sooners spotted Maryland a touchdown and then rallied brilliantly for three second-half scores and a convincing 20-6 victory over the frustrated Terrapins yesterday.

* * *

Tommy McDonald, the national champion Sooners' All-America halfback, supplied the spark that started Oklahoma rolling — and thereby fulfilled a prophecy of Maryland Coach Jim Tatum.

Before the game, Tatum remarked:

"That McDonald will hurt us more with his punt returns and kickoff returns than anything else."

Tatum was right.

* * *

Maryland's big line, tops in the nation on rushing defense, was primed for McDonald and limited the Sooner ace to a net of only 13 yards in 11 carries.

But in the third quarter, with Maryland out front 6-0 thanks to Ed Vereb's 15-yard scoring swing around end, McDonald pulled in a punt and returned it 33 yards to Maryland's 46. Then fullback Billy Pricer plowed for 5 and halfback Bob Burris got 4, then 9. McDonald added 2, then hit Burris with a 19-yard pass at the 7. McDonald hit left tackle for 3 and scored on the next play with a 4-yard sprint around end. Pricer's boot was good and Oklahoma was ahead to stay.

Both Tatum and Sooner Coach Bud Wilkinson tabbed McDonald's punt runback the turning point of the game.

* * *

The victory extended Oklahoma's winning streak to 30 games. It was Maryland's first loss in 16 games. The Terps, ranked 3rd nationally, had been hungry to avenge their upset 7-0 loss to the Sooners here two years ago when Maryland was top-ranked and Oklahoma was No. 3.

* * *

But McDonald and his mates were unwilling to cooperate. After the All-America halfback's touchdown, Oklahoma second stringers moved 51 yards for a second score, quarterback Jay O'Neal sneaking over from the 1. And late in the game, second-string halfback Car Dodd pulled in a Lynn Beightol pass and sped 82 yards for the final TD.

Maryland players readily acknowledged they had been outhustled by the Sooner swifties.

* * *

"They came out so fast we couldn't adjust our defenses to meet them," agreed Bob Pelligrini, the Terps' All-America center who stopped what could have been another Oklahoma scoring drive with a pass interception at the Terp 4 in the final minute.

Ol' Miss Upsets TCU in Cotton Bowl

DALLAS (AP)—A jarring tackle on the first play and a 25-yard run by talented Eagle Day, the quarter Cherokee Indian lad, were most important happenings in the Cotton Bowl yesterday. They gave Mississippi a 14-13 victory over Texas Christian and handed Coach Johnny Vaught his first major bowl victory in three tries.

* * *

The tackle was put on by Dick Goehe, huge Mississippi lineman, and it sent Chuck Curtis, the Texas Christian quarterback who had been the heart of the offense, to a hospital for repairs. It sorely crippled TCU for its battle with the Rebels.

Day, voted outstanding back of the game, cut loose with the 25-yard run with less than 4½ minutes to go and it set up the touchdown that gave Mississippi an upset triumph. That one play—a run made after Day had faked a pass—was pointed to as the most decisive of the game. Seconds later, Billy Lott dashed around right end to tie the game 13-14.

* * *

Paige Cothren, the terrific Mississippi fullback, kicked the extra point, his second of the game, and it tumbled TCU's castle of dreams. The Horned Frogs, overwhelming favorites to beat the Rebels, were losing Coach Abe Martin's first bowl try.

Day's passing, running and excellent quarterbacking put the Rebels over. The rugged Indian threw for 137 yards, his passing getting the Rebels in position to score each time. He gained 45 yards running with the ball but had 42 of it taken away because he was thrown for losses several times while attempting to pass. He also punted for an average of 42.7 yards.

However, Day didn't dim the luster of the great Jim Swink, Texas Christian's All-America. He led the ball-carriers with 107 yards and scored both of the Frog touchdowns. He made the first on a 1-yard plunge and the second on a dipsy-do 39-yard dash.

* * *

A penalty on a try for extra point lost the game for TCU just as much as Cothren's accuracy in putting the ball between the goal posts won for Mississippi. It was after the second TCU touchdown that Harold Pollard, Horned Frog fullback, kicked the extra point only to see it taken away because the Christians were in an illegal formation. After the penalty Pollard tried again and this time his kick was wide.

Warriors Regain Lead With Win

By THE ASSOCIATED PRESS

The Philadelphia Warriors, who suddenly found their supremacy in the Eastern Division of the National Basketball Assn. challenged by the Boston Celtics, didn't take long to move back into undisputed possession of first place.

The Celtics, riding a seven-game winning streak, tied the Warriors for the top spot Sunday night but last night Philadelphia again took over first place with a 130-100 victory over Rochester. The Celtics were idle.

Fort Wayne's Pistons dropped a 95-89 decision to Minneapolis in the first part of the doubleheader at St. Louis but held to their three-game lead in the Western Division since Rochester lost and St. Louis fell before Syracuse 84-82.

Appendectomy Gets MSU Fan Sideline Seat

PASADENA, Calif. (AP)—Fifteen-year-old Jack Hornbeck nearly missed seeing the Rose Bowl game after coming here from his home in Pittsburgh, Pa. But he finally got one of the stadium's best seats.

Stricken here Friday night with appendicitis, the youth underwent an appendectomy Saturday. He had resigned himself to spending yesterday in his hospital bed.

But his father, also Jack Hornbeck, who played football years ago for Michigan State, called Michigan State coach Duffy Daugherty. Daugherty arranged for a sideline pass for the young fan.

Jack's physician, Dr. Samuel Benbrook, agreed to let him be taken by ambulance to the Rose Bowl with an intern keeping an eye on him. Jack saw the game from a wheelchair on the sidelines.

He plays on his high school team in Pittsburgh. And hopes to do the same at Michigan State.

Berrios Scores TKO Over Fading Marcune

NEW YORK (AP)—It was the old story of the ring in St. Nicholas Arena last night when peppy Miguel Berrios of Puerto Rico stopped fading Pat Marcune of Brooklyn in 1:52 of the eighth round of a television 10-rounder.

* * *

A left hook, followed by two rights, all to the head, dropped the 26-year-old Marcune, a one-time featherweight contender, for a nine-count in the eighth round. Referee Ray Miller examined the glassy-eyed vet closely when he got up and then stopped the fight.

Hill 'Hanged' in Effigy on Bears' Campus

BERKELEY, Calif. (AP)—Southern California Coach Jess Hill, whose West squad lost to the East 29-6 in the Shrine game in San Francisco Saturday—was found hanged in effigy on the University of California campus here yesterday.

The California Bears were not represented in the game.

A sign on the dummy read: "East 29—West 6. Jess Hill. Hill is all wet without Arnett."

Jon Arnett, USC Trojan halfback and a junior, was not eligible.

Radioactivity Seen Cause of Ocean Rock Convulsion

By RENNIE TAYLOR
AP Science Reporter

LOS ANGELES (AP)—Is radioactivity causing slow convulsions in the rock formations underlying the oceans? A scientist who specializes in studying the seas believes this may be so.

Two clues picked up by researchers in the last five years point in this direction, Dr. Roger Revelle, director of the Scripps Institution of Oceanography, told the American Physical Society.

Individual samples of rock from under land areas contain more "hot" or radioactive atoms than rocks from beneath the oceans, Dr. Revelle reported, but, astonishingly, the average amount of all radiations from undersea rocks is a little greater than the average for those from beneath the continents.

INDICATED BY TESTS

This was indicated, the scientist said, by two dozen measurements of heat flow made by Scripps researchers at widely separated points under the Pacific, and dozen similar measurements by British investigators under the Atlantic.

A plausible explanation, he said, may be that the rocks under the waters, even though they contain fewer hot atoms per cubic yard, may produce more total radioactivity because they may extend deeper into the earth. This is the first clue.

* * *

The second came from heat measurements in two particular spots in the Pacific. One was in the Great Acapulco Trench, a canyon in the ocean bottom off Central America. The other was 500 miles to the west, where a mountainlike ridge rises from the ocean floor.

The heat in the rock beneath the trench was comparatively low, while that in the ridge area was twice as great as for the under ocean area as a whole.

* * *

Dr. Revelle said this could mean that cold rock masses were moving downward under the trench and warm rock areas moving upward under the ridge.

The convulsing movement is very slow, possibly at the rate of one mile in a hundred thousand years, the scientist reported.

Police Find Light Gone After Nabbing Spot Thief

MOUNT HOPE, W. Va. (AP)—It was the night of the Mount Hope-Oak Hill football game when a man told police he saw someone take a spotlight from a car.

The alert policemen apprehended the culprits soon afterward, and used the field's public address system to announce that the owner could claim his light. No one showed up, but the cops found the owner's identity when they went to their squad car after the game—their spotlight was missing.

Agencies Report Tourists Clamoring to Visit Russia

NEW YORK (AP)—Despite the recent return to cold war bitterness, travel agencies here report many American tourists are interested in visiting the Soviet Union this year.

* * *

A trickle of ordinary American travelers got to Moscow in 1955, more than in any year since World War II. Not since the 1930s have Americans journeyed to the U.S.S.R. in appreciable numbers.

But now—unless there's a new war scare or a reversal in Kremlin policy—it looks as if the Soviet government is going to have a fair-sized try at raking in tourist dollars which have meant so much to Western Europe.

One travel agency says it is getting 50 inquiries a day from Americans who want to take a trip to Russia. Another is now scheduling an air excursion each month to the Soviet Union. The motive of the customers, they consider, is mainly just plain curiosity.

MANY QUESTIONS

American Express has received so many questions on Russian travel it has issued special instructions to its offices all over the country on how to answer them. Cosmos Tours, Union Tours and Thomas Cook report a flood of similar inquiries.

* * *

None will give a specific estimate of how many Americans will go to the Soviet Union under its auspices. But Cosmos Tours and Union Tours both express confidence they will have "some hundreds" before the year is out.

Union Tours is inaugurating this month its first monthly 15-person junket to Russia and back. Each trip will last 17 days, including about two weeks in Russia. Charges will be $1,459 or $1,251, depending on whether the traveler uses first or tourist class plane passage across the Atlantic.

10 DAYS—$300

Cosmos Tours is actively engaged in selling more than a dozen different journeys inside the Soviet Union. One of them provides five days in Moscow and five in Leningrad at a price of $300 in the de luxe class. Transportation to and from Russia is extra.

American Express is scheduling several small groups for tours of 12 to 14 days this summer.

Thomas Cook is booking two tours for 25 persons each for the summer.

* * *

The Soviet Union may consider it has a classless society, but for tourists it has worked out five different classes, ranging from de luxe down to third class. The de luxe tours cost roughly $30 a day, including hotels, meals, transportation and sightseeing. The third-class tours cost only $10 a day, but at least one hardy soul who tried this class indicates the facilities would not be completely satisfactory even to Soviet peasants. In addition, on all tours at the rates, transport into and out of the Soviet Union runs $200 or more extra.

England to End Phone Babbling

New Coin Boxes to Cut Short Calls of Gossipers and Young Lovers

LONDON (INS) — Young lovers and all varieties of chatterboxes tying up the nation's telephone lines will be cut short by a new Post Office plan to stem the flow of sweet nothings and idle gossip.

New coin boxes will be fitted in Britain's 100,000 public phone kiosks and from then on callers will get only three penny's worth of talk for threepence.

Said a post office official: "There have been so many complaints about people hogging phone boxes. Once we made a check and found that 80 per cent of local calls ended within six minutes. But the rest went on and on, especially those apparently made by young lovers."

A post office study group is now considering what time limit to impose on local calls. It is likely to be six minutes.

The new time limit is intended to only cut the cackle and eliminatse the lengthy queing for public phone boxes. Private subscribers' phones will not be affected.

Young lovers will, however, have a period of grace to continue their telephone kiosk courtships unhampered by post office restrictions.

Post office officials state that the first of the new coin boxes should be in operation "within four years."

The so - called Hawaiian steel guitar is not a native Hawaiian instrument, but was introduced into the islands by the Portuguese during the 19th century.

Stromboli Spews Lava Into Mediterranean Sea

STROMBOLI, Italy (AP) — Fiery lava flowed down the sides of barren Stromboli Volcano today and plunged into the Mediterranean where it boiled, hissed and exploded.

Observers said the eruption was not dangerous for the fishing people of the island, who have been long accustomed to Stromboli's activity. Nonetheless, the people of the main hamlets were ready, should it worsen, to put out to sea in fishing boats.

Stromboli erupted once last year and three times in 1954, without causing serious damage.

Name 2 to Head New Sales Office

Ford Tractor, Implement Division Picks Area Men for Top Positions

The appointments of two area men to top positions in its newly-created Minneapolis District Sales Office have been announced by the Tractor and Implement Division of the Ford Motor Co., located in Birmingham.

SAWYER

The office will be headed by Donald W. Sawyer, of 1635 E. Maple Rd., Royal Oak. Sales manager will be A. L. Lawson, of 2218 Catalpa St., Berkley.

Scheduled to begin operations this week, the new office will service dealerships located in the eastern two-thirds of Minnesota and 17 counties in western Wisconsin.

Sawyer formerly was manager of the Parts and Accessories Dept. at the Birmingham plant. He began his business career in 1930 with the Chevrolet Division of General Motors. From 1948 to 1953 he was associated with the Dearborn Motors Corp., former national marketing organization for the Ford tractor.

LAWSON

Lawson has been manager of the division Sales Promotion Dept. He also was formerly employed by the Dearborn Motors Corp. where he headed sales promotion.

A native of Minnesota, he at one time was an industrial arts instructor in the state's public school system.

Eden Cabinet to Talk on Arab-Israeli Crisis

LONDON (AP) — Prime Minister Eden called his Cabinet today to discuss the growing crisis in the Middle East and to consider Laborite demands for parliamentary debate on the government's policy of selling arms to Arabs and Israelis.

Eden assembled his ministry after meeting Labor party leader Hugh Gatiskell and turning down a Socialist request that he invite the Kremlin to help maintain peace in the explosive Middle East.

The Cabinet meeting preceded an emergency conference tomorrow between Foreign Secretary Selwyn Lloyd and British ambassadors to eight Middle East countries who were suddenly ordered back to London.

Bold Salesman Will Sell Vodka —to Russians!

WEISBADEN, Germany (AP)—An American liquor salesman said today he would leave this month for Moscow to try to sell American vodka to the Russians.

* * *

The American kind, he claims, is "more friendly" than the Russian brand.

William Crawford, 40, hopes his trip will stimulate "good spirits" among the Russians — and publicity for his firm.

He analyzed the vodka situation this way:

"American vodka is made from grain. Russian vodka is made from potatoes. People who eat too many potatoes are aggressive, like the Irish. Hence, American vodka may make the Russians less aggressive."

* * *

(Not all Russian vodka is made from potatoes. More frequently, it is made from rye or barley).

Police Suspect Arson in Edgewater Fires

DETROIT (AP)—For a second time within a week fire has caused destruction at the Edgewater Amusement Park on the East Side.

Police said they are investigating the possibility of arson.

* * *

A blaze yesterday destroyed a 30-by-90-foot building housing an amusement ride. Firemen brought the blaze under control in the course of a snowfall.

A 13-year-old boy turned in the alarm.

The park is not used at this time of the year and there was no one on the grounds.

Last Monday a fire swept the penny arcade building, destroying stored equipment for thrill rides. The loss was estimated at from $175,000 to $200,000.

GORGEOUS PACE

-and a figure you'll love

only $2287.00* delivered locally

If you think you can't afford a big-bodied, big-powered, big-muscled Buick like the one shown here—we'd like to set the matter straight.

If you can afford *any* new car, you can afford this strapping and stunning Buick SPECIAL Sedan—and no kidding.

For this Buick is tagged within a few dollars of the well-known smaller cars—*and actually costs less than some models of those very same cars.* The price we show here proves it.

So maybe you can understand why Buick—for two years running now—has outsold every other car in the land, except two of those well-known smaller cars.

But low price is just part of the picture.

Big reason for Buick's soaring sales sweep is that folks are finding here a lot more automobile for the money—more style boldness, more power thrill, more ride stability and more solid structure than the same dollars buy elsewhere.

Just ask yourself: wouldn't *you* rather go traveling with the lift and life and pace and poise of a stunning new Buick—when it's all yours at just about the price of a smaller car?

If your answer is yes, then the time is now —*right now.*

Drop in on us this very week—tomorrow would be fine—and we'll seat you at the wheel of the biggest and most beautiful bundle of high-powered Buick ever offered in America's low-price field.

Stocks Take Dip After Fast Start

NEW YORK (AP)—The stock market declined in the early afternoon today after a high start. The first session of the new year started fast and higher but later the pace of trading slowed and prices began to sag.

* * *

Losses went to around 4 points at the outside. Gains amounted to 2 points at the best in key areas.

* * *

Aircrafts were depressed and steels were active and lower. Some motors were under selling pressure. Plus signs persisted in the rails, oils and chemicals.

* * *

The aircrafts were faced with a new House investigation in Washington to start Jan. 16. Profits will be the prime target of the probe.

* * *

The market as a whole had to contend with conflicting economic, business and stock market forecasts for the new year. In general, there is optimism for the first half of the year but a touch of pessimism for the second half so far as business is concerned.

* * *

At noon the Associated Press average of 60 stocks was off 30 cents at $179.90. Friday it was ahead $1.10 at $180.20. At that level the market was only $1.30 away from its record high reached Sept. 23 an dagain on Dec. 5 and 6.

Wheat Activates Grain Market

CHICAGO (AP) — Wheat moved upward in quite active dealings on the Board of Trade today, carrying over into the new year the sudden spurt which got underway in the last 30 minutes of the closing 1955 session.

* * *

Wheat was almost alone on the upturn, although most rye contracts joined in after some early hesitancy. In other pits trends were mixed although trading became much more active than during the extremely dull holiday sessions of the past few weeks.

Wheat near the end of the first hour was 1¼ to 1⅝ higher, March $2.11⅜; corn unchanged to ½ higher, March $1.29⅛; oats ¼-⅛ lower to ¼ higher, March $1.24¾; lower to 1½ higher, March $1.24¾; soybeans unchanged to ½ higher, January $2.40½; and lard 3 to 5 cents a hundred pounds lower, January $11.00.

* * *

The early demand in wheat appeared to be based largely on the expectation that Congress, reconvening today, will shortly take up farm legislation designed to bolster prices. An additional bullish factor was continued dry weather in the Southwest.

Local Police Report 54 Weekend Crashes

A total of 54 accidents were recorded by local police over the 78-hour holiday weekend — only two less than during the similar period over Christmas.

Of those, 17 involved personal injuries. Two more involved deaths.

Oakland County Sheriff's deputies reported six personal injury accidents, with 10 more involving only damage to property.

Pontiac police reported 11, seven of which caused injuries.

Pontiac post State police reported seven property damage and two personal injury accidents.

Bloomfield Township, with two personal injury accidents, also had two causing property damage.

Bloomfield Hills had only one minor property damage accident. Birmingham handled eight, and Waterford Township five.

Bleeding Piles

No Longer a Problem

Medical research has developed a miracle medicine called RECTORAL. It does away with the continual use of old-fashioned ointments, suppositories, injections, etc., that give little, if any, even temporary relief. RECTORAL has a tendency to shrink the piles and usually in a few days, the bleeding, soreness, irritation and pain start to disappear and in a few days more are completely gone. Thousands of sufferers have used this remarkable medicine and have never had any further trouble, even years afterwards. Many of these people had been advised that only an expensive and painful operation would help them. Why suffer any longer? Get well NOW! Stay well! Get a bottle of RECTORAL today at

Clear 1,200 Homes for Baskets of Food

The Pontiac Salvation Army unit cleared more than 1,200 homes in Oakland County for reception of food baskets and itself distributed 430 baskets and checks to needy families during the holidays, Senior Capt. Magnus A. Michaelsen reported today.

The SA acted as a clearing house for holiday-help requests from families in the area north of Royal Oak, he explained.

"The majority of requests came from deserving families and we had to reject only a few," he stated. "I want to thank the public for its wonderful support, without which the program would be impossible."

The Goodfellows contributed 142 baskets, said Michalsen, with others coming from business, school, church and public service groups plus private families.

Bullet Acts Harmless but Shell Injures Boy

CORPUS CHRISTI, Tex. (AP) — Things backfired when 16-year-old David Hernandez stuck a .22 caliber bullet in a wall crack and fired at it with an air rifle.

The bullet slug didn't cause any trouble abut the shell blew backward, striking David in the head. The youth was back home yesterday after being treated for a head laceration.

Coward Claims Ordinary Fans

Playwright - Entertainer Denies Being Darling of the Smart Set

By JACK O'BRIAN

NEW YORK (INS)—Like Liberace, Noel Coward credits his mom with his star status . . . Noel absolutely denies he's the darling of the sequmed set: "It simply isn't true. It's the ordinary people of London and elsewhere who like me. Heaven save me from the smart set!"

His mom, a naval captain's daughter, faced "a great deal of genteel poverty," and said Noel, "had humor and great firmness.

"She was always there when I wanted her and never when I didn't. Which meant that I always wanted her. She is the reason I have remained sane through it all.

"Most of the people who get worn out and frightened by their own success are those who did not come from a happy home. She would always tell me outright that something I had done or written was bad. She was the one whose integrity I could never doubt. She never lied to me."

Noel's mother died last year at the age of 92, with the playwright there, holding her hand.

BIRTHDAY FOR JULIUS

Julius La Rosa was 26 on Monday, girls . . .

Jeanne Cagney (Jimmy's sister) has become a regular on "Queen for a Day," starting today, on NBC's . . .

Phil Foster, Chita Rivera and Pete Gennaro join Frankie Laine and Janette Davis on Wednesday's Godfrey variety, Godfrey vacations . . .

Tonight's Martha Raye show has Errol Flynn cast as a "scoutmaster," . . . Charles Coburn will play Errol's father.

Ed Sullivan's "Special Tribute to Lily Pons" Sunday will include a lineup of stars who no doubt were invaluable to Lily's quarter century with the Met, such as Pearl Bailey, Myron Cohen, Al Hibbler, Joyce Grenfell, the Lone Ranger and Silver, who will "hi-ho" his congrats to Lily.

GARY WILL HELP

Gary Crosby will do his best to get "Stage Show" out of the survey cellar Saturday . . .

Some films of the Screen Director's Playhouse series, which are supposed to be completed and bring a profit for $50,000, have been costing up to $80,000, so others have to be made for lots less to break even . . . if they can.

Bing Crosby's new color tape was shown 500 times without losing the picture's quality. It's still too expensive and not quite perfected. Couple of years away at least (RCA has one, too).

Trouble with Eve Arden as "Miss Brooks" — the dialogue makes her sound sour and fed up with everything . . . scripted as if she's a bitter old maid (which Eve is not) . . .

Alan Ladd, resistant to TV, answered all coaxial coaxing by showing TV brass the terms of his new Warner Bros. contract: 10 per cent of the gross.

JOB FOR JERRY

Jerry Lester may become a Miami disc jockey . . .

Everett Sloane, so fine in TV's "Patterns" (he'll repeat the role in the film), plays Rocky Graziano's fight manager in the movie of Rocky's life . . .

Italian version of the $64,000 Q. has a fine un-American gimmick: The prize money is not taxable.

FRANK W. PLUNKETT — He walks to class at University of Michigan. He's student of creative writing and attends four days a week. He is a former professor at Arkansas State College.

2 Youths Facing Murder Charges

Suspected of Stabbing Student Who Planned to Become a Minister

BALTIMORE (AP) — Two youths faced murder charges today in the knife slaying of a 19-year-old Western Maryland College honor student who planned to become a Methodist minister.

* * *

The two, Richard P. Westcott, 16, and Charles Orem, 17, a store clerk, were scheduled to be arraigned today.

Both affect the extreme style of dress and long hair worn by youths who call themselves "drapes."

The victim was Gaither Lee Fischbach Jr., a college freshman home for the holidays. He was attending Western Maryland on a scholarship.

The youth was stabbed to death early Sunday near his home. He had been attending a family New Year's Eve party at the home of Lemuel S. Eichner.

* * *

Eichner, who drove Fischbach home and let him off about 200 feet from his house, told police he saw three boys on the corner who appeared to go in different directions as the youth got out of the car.

The boy's mother Mrs. Rheba Fischbach heard her son calling after he stumbled inside the house. She found him bleeding from a deep chest wound. He died shortly afterward.

* * *

"A boy stabbed me," he told his mother before he lost consciousness.

"Why did they do it?" asked his father, who said he did not want his son's killer to hang.

"I don't believe in capital punishment," he said.

Orem was arrested yesterday afternoon at his home, and Westcott was arrested at Southwestern Police Station, where he went to inquire about Orem.

FPC Orders Rebates Given Gas Customers

WASHINGTON (AP)—The Federal Power Commission directed Panhandle Eastern Pipe Line Co., Kansas City, yesteday to refund $36,116,056, plus 6 per cent interest annually, to some 50 wholesale natural gas customers in the Midwest within 15 days.

Michigan wholesale gas customers were included in the refund.

The refund covers the period from Feb. 20, 1952 through April 30, 1954, when a rate increase was in effect subject to refund of amounts which the commission later found to be excessive.

'We Will Fight,' Jews Tell Arabs

Israeli Leaders Order Army to 'Get Ready for Imminent War'

JERUSALEM (AP) — Israel's two top leaders have placed the Arab states on notice that the Jewish nation will beat off any attacks from her neighbors.

* * *

But they told Parliament yesterday Israel does not want to start another Holy Land war. They cautioned against the belief that war is unavoidable.

The stern statements came from Premier David Ben-Gurion, advocate of Israel's "activist" policy, and Foreign Minister Moshe Sharett, who has urged a course of restraint.

Declaring that all the Middle East countries but Israel and Turkey are a "whirlpool of disturbances," Ben-Gurion urged Israelis to be ready for the danger of imminent war."

Sharett, who reportedly had led a fight within Ben-Gurion' own Mapai party against the Premier's more extremist views, spoke out in much the same vein yesterday.

He denounced both the Czechoslovak-Egyptian arms deal and the "flow to Egypt of British military equipment."

American Cities Wage War Against the 'Monster of Modern Traffic'

(With automobile sales booming, America's cities are pressed to keep traffic jams off Main Street. Here are results of a nationwide survey on steps some cities have taken in 1955 to control the "monster of modern traffic.")

By ROBERT GOLDSTEIN

CHICAGO (AP)—America's biggest cities enlisted record money outlays, science and ingenuity in 1955 in a desperate battle to stem the tide of growing congestion caused by booming auto sales.

* * *

A survey of the nation's 25 most populous centers shows the problem is acute everywhere. Cities are using every means to cope with it, often showing little or no gain.

Los Angeles pushed its freeway construction program at a record clip, but City Traffic Manager Lloyd M. Braff said the program is too slow—new expressways are overtaxed as soon as they are completed.

Despite millions poured into new roads and street widening projects, San Francisco says it is just keeping abreast of the growing traffic.

Virtually all the cities are building new multi-lane expressways; electronic brain traffic signals are being installed; some cities are trying reversible one-way streets; buses are replacing street cars; parking lots multiply; parking restrictions are growing tighter; some cities eye helicopters to control traffic congestion.

WHAT'S BEING DONE?

Following is a breakdown by cities, showing some steps taken this year or planned for the future.

DETROIT: Construction went ahead on expressways, bridges and over - passes and several new stretches were opened. A 10 million dollar expressway interchange was opened. A television system was installed on expressways to control traffic.

* * *

CHICAGO: Construction was pushed on the Congress Street expressway, leading west from just south of the loop. A stretch of 5¾ miles was slated for opening late in December. Radio controlled traffic signals were installed on north LaSalle Street. A fast elevated train schedule was put in operation for northern suburbs. Plans went ahead for a toll road system serving the Chicago areas.

* * *

CLEVELAND: Construction started on a 75 million dollar inner belt freeway system which will circle downtown Cleveland. Two new rapid transit lines were opened. The first of a series of city-owned out-lying parking lots was opened. A subway system is in future plans.

* * *

PITTSBURGH: Construction work proceeded on the Penn-Lincoln parkway, which ultimately will run east - west through the downtown district.

* * *

CINCINNATI: Construction continued on an expressway and a half-mile viaduct in the downtown area. The downtown traffic signal system was rebuilt for faster and safer movement of traffic.

* * *

BUFFALO: The Buffalo Skyway, a two-mile bridge carrying highway traffic to and from the west and south over the congested harbor area, was completed.

* * *

INDIANAPOLIS: Plans went ahead for a two-mile, six - lane, limited access expressway through the south side to carry U.S. 31 into downtown Indianapolis.

* * *

MILWAUKEE: Major 1955 projects completed include the first 3,000 feet of an auxiliary north-south expressway on South 44th Street.

* * *

ST. LOUIS: Voters approved bond issues providing for three new expressways running into downtown St. Louis from the north, south and west.

* * *

KANSAS CITY: A north side parking project with space for 1,800 cars moved nearer completion and work progressed on a 12 million dollar Sixth Street expressway. Work was started on a 13 million dollar toll bridge connecting the Sixth Street expressway over the Missouri River with the municipal airport.

* * *

NEW YORK CITY: Officials hope to build a second deck on the George Washington bridge. Work is in progress on a third tube for the Lincoln Tunnel under the Hudson River between New York and New Jersey.

* * *

LOS ANGELES: Ten miles of freeways were added, bringing the total to 97.2 miles. Many miles were under construction. Plans call for more than 400 miles of freeways eventually. The city's first electonically synchronized traffic signal system was installed along 11 miles of Ventura Blvd., which handles 80,000 cars daily. Plans were made for using helicopters to spot traffic snarls.

* * *

PHILADELPHIA: Broad Street was shifted to one-way southbound in the morning rush hours and one-way northbound in evening rush hours. Construction was under way to extend the Schuylkill expressway to downtown Philadelphia.

* * *

SAN FRANCISCO: A program to extend freeways was continued. All turning at intersections was banned on some key streets during rush hours.

* * *

WASHINGTON: More one - way streets were marked off. The Washington end of the Baltimore-Washington expressway was completed. A new bridge was opened over Anacostia River in southeast Washington. Congress approved construction of a new bridge across the Potomac River. A 272 million dollar innerbelt freeway loop to go around the central section of the city is planned for the future.
