

Mikoyan Arrives at Detroit Airport

15 Children, Woman Die as Flames Sweep Home

BOSWELL, Okla. (P)—Fifteen children and an adult died today in a roaring fire in a four-room wooden home.

All the bodies except that of one child were piled on and around a bed in a rear room which had no outside door.

Apparently someone pushed the one child out a window but the child was dead.

The victims were Sara Gardner, 38; her 10 children; three orphaned nieces; and two visiting nephews from Oklahoma City.

Booker Gardner, the father, had been away hunting.

Almost in shock and his face haggard, Gardner, a Negro, walked about aimlessly, apparently unable to comprehend immediately the disaster which struck his family.

He said that when he started home from his hunting trip before dawn this morning, "I felt sorta funny."

He received the news at the farm home of Vernon Love, who drove him to the disaster scene.

Gardner told Tony Price, reporter of the Paris (Tex.) News, that he started on a hunt about 7:30 o'clock last night and hunted all night. Hunting with him was a nephew from Oklahoma City, who was visiting in the home.

Gardner is a day laborer in this southern Oklahoma town of about 1,000 population.

He listed the victims as:

His wife; her 10 children: Juanita, 15; Buster, 13; Isaac, 11; Larry, 9; Louise, 8; Gwen, 7; Omie, 5; John Anthony, 2; and Patricia Ann and Patricia Jan, 6-week-old twins; and three nieces and two nephews.

State Police Probe Death of Traverse City Patient

LANSING (P)—A full-scale State Police probe was under way today to learn the circumstances of the New Year's Day death of a patient at Traverse City State Hospital.

Gov. Williams ordered the inquiry yesterday upon receiving a written complaint from the dead man's brother, James Mason of Cadillac. Mason said he felt there was a delay in ordering a hearing in the death of his brother, Eldon, 39, of Lake City, and said unless one is called "we will be forced to bring in outside help."

Mason's complaint said in part:

"We have facts proving the death of Eldon Mason was caused by a double rupture of the bowel, inflicted by a blow of some nature after his acceptance by responsible attendants involved in this case."

The governor, who was in Washington for the inauguration of Sen. Philip A. Hart (D-Mich.), said he wanted a report on the investigation when he returns to Lansing tomorrow.

De Gaulle Takes Office as Chief

President of 5th French Republic Has Power Unknown Since 1870

PARIS (AP)—Gen. Charles de Gaulle today became first president of the Fifth French Republic and France's most powerful chief of state since Emperor Napoleon III was deposed in 1870.

"The first among Frenchmen is henceforth first-ranking man in France," intoned outgoing President Rene Coty.

A 21-gun salute boomed across the Seine as diminutive Gen. Georges Catroux reached up to hang the gold necklace of office around the neck of his towering World War II comrade and commander.

HAS REAL POWER

The brief ceremony in the presidential Elysee Palace marked the end of the largely figurehead role which French presidents had filled under the Fourth Republic. The new constitution De Gaulle rammed through last summer converted the office into one of real power, along the lines of the U.S. presidency.

Coty, the beloved, 76-year-old outgoing chief of state, told his solemn-faced successor:

"The people of France, so disformed by Dr. Edward Sike of the French City Dec. 19 and that the video on the surface, have found doctor reported finding a ruptured duodenum."

Lawrence Johnson of Tustin and Clifford Seafuse of Milford, Mason's brothers-in-law, rode to the hospital with him.

Mason complained of pains when he arrived at the hospital, said Charles F. Wagg, state mental health director. Wagg said the patient underwent surgery performed by Dr. Edward Sike of the French City Dec. 19 and that the video on the surface, have found doctor reported finding a ruptured duodenum.

15 Batista Followers Already Executed

'War Crimes' Trials Begin in Cuba

HAVANA, Cuba (P)—Speedy "war crimes" trials for followers of fallen Dictator Fulgencio Batista have begun in Cuba. Fifteen military officers already have been executed.

Provisional President Manuel Urrutia said thousands of persons will be tried by revolutionary courts in "the same manner as war criminals were tried in Germany." They will be charged with crimes "trials for followers of Batista."

Some of the accused still are being sought, Urrutia told a news conference Wednesday night.

At least 1,100 persons have been reported arrested since Batista fled to the Dominican Republic a week ago and victorious rebel leader Fidel Castro proclaimed Urrutia as provisional president.

Gunfire flared briefly in Havana again Wednesday night. Machine-guns and other automatic weapons fired for about 15 minutes near the American-operated Nacional Hotel as rebel militia reportedly pursued several carloads of men who had been shooting at random in the streets.

The militia still is trying to eliminate diehard Batista supporters, including members of a private army called the Tigers who belonged to former Sen. Rolando Masferrer.

The government banned sales of alcoholic drinks in Havana today in expectation that Castro finally would reach the capital. Officials hoped the ban would prevent heavy drinking that might add to the unstable security situation.

Castro reached Matanzas, 60 miles east of Havana, Wednesday on his slow progress through adoring crowds.

His 20-car column careened into Matanzas at breakneck speed and the rebel leader as usual was besieged with people who wanted to cheer him and hear him speak.

Both the United States and Britain extended diplomatic recognition to Urrutia's government Wednesday. More than half a dozen Latin American nations had done so earlier.

REBEL EXECUTION — Two members of a Cuban rebel firing squad take aim at Police Captain Alejandro Olajon of Santiago during executions in Santa Clara. He was sentenced to death after being found guilty by a revolutionary court of killing a young rebel, Arsenio Escalona.

Cold Will Continue, Low of 12 Tonight

Partly cloudy and a little colder tonight and tomorrow is the forecast by the U.S. Weather Bureau for Pontiac and vicinity. Tonight's low will be about 12 degrees.

Partly cloudy and continued cold with the high about 24 is the outlook for Friday. The cold will continue through Saturday with a few snow flurries expected. Seventeen was the lowest recorded temperature preceding 8 a.m. The reading at 1 p.m. was 26.

Johnson Offers Compromise on Filibusters

Senators Seeking Curb on Debate Lose First Round, Rally Forces

WASHINGTON (P)—Senators favoring a sharply tightened curb on filibusters, outmaneuvered at the outset, fought back today against a compromise proposal by Majority Leader Lyndon B. Johnson (D-Tex.).

They announced they would counterattack by moving to set aside Johnson's resolution and take up instead a more far-reaching proposal for overhauling Senate rules.

This strategy was agreed on by Democratic and Republican senators who make up a steering committee of the anti-filibuster forces.

Johnson used his position as majority leader to seize the initiative at the opening session of the new Senate Wednesday and won the first skirmish in the rules battle.

But Sens. Paul H. Douglas (D-Ill.), Hubert Humphrey (D-Minn.) and Jacob K. Javits (R-N.Y.) insisted the anti-filibuster coalition is far from licked.

They also made clear they are banking on continued help from Vice President Richard M. Nixon, the Senate's presiding officer, who sides with them in contending that each new Senate has the right to adopt its own rules by majority vote.

The point is important, because if Nixon's view is sustained, a simple majority could vote to adopt different rules without operating under the restrictions of prior rules. The rules now permit unlimited debate on any motion to change the rules.

At the same time, Republican senators tried to heal the scars of their party feud by joining in a drive to win choice committee spots for both factions.

Sen. Styles Bridges of New Hampshire, leader of the old line Senate GOP forces, said he was conferring with Johnson on the possibility of expanding several key committees.

This would mean increasing the size of the foreign relations, armed services, finance, commerce and banking committees, each of which now has 15 members.

Soviet Honors Mothers

MOSCOW (UPI)—The Soviet parliament awarded the order of "Mother Heroine" to 239 women last month. To be eligible, a mother must have at least 10 children.

Grim Reception Committee

CROWD GREET'S MIKOYAN — Soviet Deputy Premier Anastas I. Mikoyan faced this hostile reception when he landed at Willow Run Airport this morning to begin his visit to Detroit. Many of the pickets were Hungarians who were protesting the treatment of Hungarians who rebelled against the Soviet rule two years ago.

Pickets on Hand at Willow Run as Plane Lands

Group of 50 Allowed to Parade as Red Premier Starts One-Day Tour

FROM OUR NEWS WIRES

DETROIT—Soviet Deputy Premier Anastas Mikoyan arrived by plane today for a whirlwind one-day tour of the motor capital.

Mikoyan was shielded from an initial group of about 50 anti-Soviet pickets who were on hand for his arrival. The pickets were allowed to parade in the parking lot on one side of the long administration building at Willow Run Airport.

The Soviet party's plane rolled up to a giant hangar at the north end of the field, and Mikoyan and his party of other Russian officials were escorted directly from the plane into the hangar.

A large force of police patrolled the field and administration building of the airport.

The pickets parading in the parking lot were composed of refugees from the Ukraine, Lithuania, Romania, Latvia and Hungary.

Some carried placards. One read "Whose blood will be next?" Another carried drawings of two skulls and a picture of Mikoyan.

One skull had a Swastika and one a Hammer and Sickle, also adorned with a Stalin mustache. Beneath the picture were the words "You are next Mik."

Ike Will Take Program Directly to the People

WASHINGTON — President Eisenhower mapped a campaign today to go over the head of the heavily-Democratic Congress to sell his legislative program directly to the American people.

A top White House official disclosed that the chief executive was making arrangements to stump for his proposals through radio and television, press conferences, public speaking appearances and personal letters. No dates have been set.

Eisenhower discussed his campaign at an unannounced White House meeting Monday night with Vice President Richard M. Nixon, Republican National Chairman Meade ALCORN, Assistant GOP Chairman Mrs. Clare B. Williams and others.

The President will outline his legislative program formally in a series of messages to the House and Senate. He will deliver the first, his state of the union address, to a joint session of Congress tomorrow.

But the White House official indicated Eisenhower planned to go beyond this usual practice with his appeal to the people. One of the chief themes the President will plug apparently will be his drive to curb government spending in the coming fiscal year with a balanced budget of 77 billion dollars.

When asked about the campaign, White House press secretary James C. Hagerty said, "No decisions have been reached but the President naturally wants to get the story of his program out to the American people through all media, not just television."

On Capitol Hill, Republican congressional leaders struck back with cries of "politics" today against Democratic contentions that the Eisenhower administration is lagging behind in the space age.

In the opening round of what appeared likely to become a bristling two-party fight in the new Congress, Sens. Styles Bridges (R-NH) and Thomas Kuchel (R-Calif.) assailed the call of Democratic Leader Lyndon B. Johnson of Texas for his party to seize national leadership from the White House.

Johnson told fellow Senate Democrats Wednesday there is a "deficit of vigor" in the Eisenhower administration. They therefore have a mandate to assume constructive leadership "beginning now, not two years hence," he added.

Bridges, who heads the Senate (Continued on Page 2, Col. 5)

Year-End Car Sales Set Record

DETROIT (UPI)—New car sales during the last 10 days of December established a new record for 1958 and compared favorably with the best periods of 1957.

Ward's Automotive Reports said today.

The industry's statistical agency said sales from Dec. 21 through Dec. 31 totaled 173,300 units, or 21,660 units per day. The daily rate for the previous days of December was 18,100 and the previous 1958 high was 18,314 daily set in the last 10 days of November.

In the last 10 days of 1957, sales averaged 19,525 units a day, 11 per cent below 1958's last 10 days.

Ward's said the year-end windup gave the industry 490,000 new car sales for December, compared with 473,200 in the same month of 1957, and kept dealer inventories well below the year-end level in 1957.

Man Killed, 2 Airmen Hurt at Detroit Bar

DETROIT (P)—One man was killed and two Selfridge Field Air Force Base airmen wounded today in a fight at an East Side bar.

Police said a man tentatively identified as Henry Brown, 30, of Detroit, died of a gunshot wound in the chest. Injured were Airmen 3.C. Lorenzo Lawson, 22, shot in the chest, and Robert Stevenson, 21, stabbed in the right shoulder.

Five or six men were involved in the fight, including Royce Hudgins, 20, and his brother Lamas, 26, and the two airmen.

TV Column Starts

Television critic William F. Buckley Jr. starts today in the Pontiac Press. Read his informal review of the top television programs and see if you agree or disagree with his comments.

Educational Material?

LONDON (UPI)—The Longmans Publishing Company printed this notation next to the book "Contraband Cargoes" on its spring listing: "Of Special Appeal to Smugglers."

Ike Asks Courtesy

WASHINGTON (P)—President Eisenhower, noting demonstrations against Anastas I. Mikoyan, Soviet deputy premier, called today for courteous treatment of the visitor.

Admissions Director Appointed at MSU

Appointment of Herbert N. Stoutenburg Jr. as the fourth full-time member of the growing Michigan State University Oakland staff was announced today by D. B. Varner, MSU vice president.

The new staff member will set up offices in a converted residential building on the 1,600-acre campus east of Pontiac, until completion of the main building now under construction.

Besides setting up registration and record systems, Stoutenburg will coordinate scholarships and loan funds and cooperate with high school officials on admissions, said Varner, head of MSU's off-campus education.

Stoutenburg joins Roy Alexander, director of MSU student affairs; George Karas, director of physical plant; and Dr. Lowell Eklund, head of continuing education.

Formerly an administrative assistant to the registrar at the East Lansing campus, Stoutenburg recently served two years in Vietnam as executive officer of the MSU Advisory Group there. He was president of the school board of the American Community School in Saigon.

He joined the MSU staff in 1948, after a year as an accountant in Detroit, his home town. Stoutenburg is married. He and his wife have three children.

HERBERT STOUTENBURG JR.

Motel Raid Nets 3 From Area

Stolen Money Orders Link 2 Men, Woman to Post Office Burglary

Three Pontiac area residents were among four persons arrested last night in a Detroit Police raid at a motel suite at 2111 W. Grand Blvd.

Police officers recovered 2,000 blank postal money orders and 25 United States Treasury checks stolen in a December burglary of the New Haven (Mich.) Post Office.

All four persons found in the room, two men and two women, were arrested for investigation of breaking and entering.

They are Mrs. Dorothea Smith, 23, and Lloyd McKinstry, 48, both of 111 W. Waterly St., Waterford Township; Charles Short, 23, of 36 Franklin Blvd.; and Mrs. Gloria Ryerson, 36, occupant of the suite where the raid occurred.

Detroit Detective Joseph Brown and Postal Inspector M. P. Wood, who led the raid, said the money orders and checks were found in the bathroom.

Each of the money orders could have been cashed for any amount up to \$100, they said, while the treasury checks could have been cashed for any amount.

"FOR SAFEKEEPING"

Wood said Mrs. Ryerson told him the checks and money orders were left with her "for safekeeping" by a friend.

Mrs. Ryerson, Brown said, is currently on court bond pending a trial for passing bad checks in Pontiac.

Police also renewed questioning of two men arrested near the scene of a burglary of a St. Clair Shores (Continued on Page 2, Col. 3)

Bob Reid Barbering at Kimmel's 211 Baldwin Ave.

December Busy at Deeds Office

Totals for Month, Last Before Merger, Show Receipts of \$19,568

In the last official month as a separate Oakland County office, the Register of Deeds office last month recorded 12,364 papers which brought in a total revenue to the county of \$19,568, according to Clerk-Register Daniel T. Murphy.

As of Jan. 1 the Register of Deeds Office became merged with the County Clerk's Office.

Murphy, who assumes the combined job, said December 1958 saw the filing of 2,694 deeds, 1,437 land mortgages, 5,874 chattel mortgages and 9 new land plats.

Comparable figures from December of 1957 show that 2,702 deeds, 1,330 land mortgages and 4,862 chattel mortgages were filed.

Titan Clamped Down, Tested for Readiness

CAPE CANAVERAL, Fla. (UPI)—Engineers studied coded reports today on the captive test of an intercontinental Titan to determine if the fledgling missile is ready for its maiden flight in the next few days.

Flames belched from the base of the 50-foot weapon's bottom, or booster section, in the "hold down" test last night while the rocket was clamped to its launching stand.

But it appeared the engine was shut off before it had developed full thrust in the preflight test. Clouds of liquid oxygen seeped about the missile, indicating a tank may have ruptured inside the big bird.

Ex-Batista Prisoner Heads for Capital

Edward W. Koch was planning a trip to Washington, D.C., today to set the record straight.

Koch, an ex-Batista prisoner, was released from a Cuban prison during the New Year's Day. He was held by Batista forces five months as a political prisoner.

The State Department, however, said Koch was held as a common criminal after conviction in a \$100 kidnap robbery last August.

Koch, 48, of Chicago, denied this, saying the American Embassy in Havana had virtually deserted him while he was held.

He said he had documents in his possession that would set the record straight, and would seek help from Rep. William S. Brownfield to reach the proper authorities.

After Season's Worst Cold Wave Normal Weather Returns

By The Associated Press

Star normal weather returned to San Francisco Bay region and to most of the nation today, marking a change from the cold wave which ended the season's worst weather in the West Coast.

Temperatures generally were around seasonal levels, with high temperatures in some areas, mostly more than one inch, were confined to coastal sections.

Light snow fell from Minnesota and New York while warm air flowing northward from the Gulf produced a broad belt of low clouds, rain and drizzle in the Northwest, central and southern United States.

Another surge of cold air moved through the West Coast Wednesday.

The Weather

Lightweight Wins Her Victory

LOS ANGELES (AP)—She's a one-in-a-million baby.

That's the chance for life that doctors gave her when she was born.

But Lorna Laverne Hazelwood started her second year of life today a plump, healthy 17-pounder.

She was born 100 days prematurely, so fragile that she couldn't be scooped. At 10 days she scaled just 1 pound 8 ounces.

She was nourished by transfusions and formula feeds from an eyedropper.

Doctors say that in five or six years she will catch up in size to children of normal term birth.

On Lorna's first birthday, Wednesday, her mother, Mrs. Howard Hazelwood, cradled her and said:

"My husband is missing a lot not being here. He was washing some clothes for me, caught his hand in the wringer, and so he's in the hospital. But he knows one thing—the name he picked for our child was the right one."

"Know what Lorna means?"

"Symbol of victory."

50 Pickets on Hand as Mikoyan Lands

(Continued From Page One)

would be when Mikoyan arrived late today at the exchange, Detroit Club, where he will be given a reception and dinner, and spend the night.

In Detroit today, Mikoyan is in the hands of Walter E. Foster, president of Detroit Edison.

He makes a visit to the Ford River Rouge plant and will catch a glimpse of General Motors and Chrysler, two Detroit Edison plants and have luncheon and dinner with Detroit automotive and industrial executives.

From Detroit he proceeds to Chicago, San Francisco and Los Angeles before returning to New York next week. From New York he goes to Washington where he will see President Eisenhower.

One young Hungarian woman, arrested for tossing a rock in the general direction of the Soviet party, said she was "sorry I missed."

She said her father died in a Soviet concentration camp. Her husband spent six years in a Soviet camp and "I lost my friends killed by the Russians."

Cleveland is one of the main centers of Hungarian immigrant settlement in the United States.

WASHINGTON (UPI)—Administration sources said today that Secretary of State John Foster Dulles intends to maintain his vigorous working schedule despite expressions of concern about his health.

Dulles Sticks to Schedule

WASHINGTON (UPI)—Administration sources said today that Secretary of State John Foster Dulles intends to maintain his vigorous working schedule despite expressions of concern about his health.

He said he had documents in his possession that would set the record straight, and would seek help from Rep. William S. Brownfield to reach the proper authorities.

He said he had documents in his possession that would set the record straight, and would seek help from Rep. William S. Brownfield to reach the proper authorities.

SIGNS UP: Pretty Mary Wesley, 26, of Champaign, Ill., is the first Michigan State University student ever to be enrolled in the course on grain elevator management. With her is George Greenleaf, course director.

For Southfield Scissor Slaying Call Jury in Murder Trial

College of a jury was scheduled Judge William J. Bee on Judge Bee, in the prosecution Frank L. Day.

Alaya, who has been in the county jail since the murder, stood mute to the charge when arraigned.

He has admitted being with Jasinski and cashing a check for him the night of the murder, and returning to the nursery.

Alaya said he only remembered finding the man lying in a pool of blood. A pair of hedge trimmers had been run into his neck and a pair of scissors into his back.

Home Owner Wins \$14,000 From Oil Firm

DETROIT (AP)—A U.S. district court jury yesterday awarded a suburban Pontiac home owner \$14,000 for damages suffered last February when his oil tank ran dry.

The jury awarded the damages to Theodore Powers, 47, before Chief Federal Judge Arthur J. Lederer. Powers had sought \$15,000 from the Standard Oil Co. of Indiana.

Powers contended the oil tank, which was damaged by a falling chimney, had been purchased two days from his own home. He said it was damaged by a falling chimney, which was damaged by a falling chimney.

Service for Dr. Merrill Rite at Christ Church Set Friday for 24-Year Will-O-Way Resident

Service for Dr. William D. Merrill, 27, of Bloomfield Hills, former chief of staff at Highland Park General Hospital, will be held at 2 p.m. tomorrow at Christ Church Cranbrook. Burial will be in Rose Hill Park Cemetery, Royal Oak.

A native of Crystal Valley, Dr. Merrill resided at Will-O-Way, the family estate at 750 W. Long Lake Rd., for the past 24 years.

He first practiced medicine in Lowell for five years before coming the eye, ear, nose and throat specialist at Highland Park General.

Dr. Merrill died Tuesday at Harper Hospital, Detroit. At the time of his death, he was head of an eye, ear, nose and throat clinic.

After graduating from the University of Michigan Medical School, Dr. Merrill studied at the University of Vienna.

He served with the U.S. Army as a captain in the Medical Corps during World War I.

He was a member of Christ Church Cranbrook and a life member of the Birmingham Chapter 33 Royal Lodge Masons, Scottish Rite Bodies, Masonic Temple, the Birmingham High School Club and the Michigan Mineralogical Society.

He was a member of the Wayne Medical Assn., the American Medical Assn., and was a former director of the Junior Church of Central Methodist Church, Detroit.

Mrs. Merrill, the former Treese Way, has been prominent in theatrical circles for many years and was at one time associated with the old Bonstelle Playhouse in Detroit.

The family has owned and operated the Will-O-Way Playhouse and Apartment Theater in Bloomfield Hills for more than 20 years.

William W. Merrill, a son, is the producer and director of the playhouse, and a daughter, Mrs. Kenneth Pomeroy, Jr., directs the Apartment Theater.

Also surviving are two other daughters, Mrs. Edward F. Sikorski and Mrs. H. Rice, a brother, Lowell Fenton, and 12 grand children.

Believe Mehta in Orbit by Now

Expected to Reach Top Speed of 72,000 by Next Wednesday

MOSCOW (AP)—Soviet Scientists figure the space rocket Mehta is now in orbit around the earth. They predict it will reach its top speed of 72,000 miles per hour next Wednesday.

They expect the peak velocity to be reached when the missile gets to the point nearest the sun, a distance figured at about 91 million miles, in its elliptical orbit.

Soviet Scientist Anatole A. Blagonravov was quoted in a Capetown, South Africa, newspaper today as saying the Soviets expect to land men on Venus and Mars in June, and to follow this up by sending men to the two planets.

Blagonravov said the Soviets expect to land a rocket—presumably unmanned—on Venus and Mars in June, and to follow this up by sending men to the two planets.

"We are not expecting any difficulty, as the latest 'planet' has completed all our experiments," Blagonravov reportedly said.

Call Off Lake Hunt for Mystery Plane

PORT HURON (UPI)—The search of ice-covered Lake Huron for a plane which reportedly had engine trouble was called off this morning.

Planes from the Traverse City Coast Guard base and the Selfridge Air Force Base searched until 3 a.m. today, dropping flares over a wide section of Lake Huron, but no trace of a plane was found.

The search was resumed for a brief period after daybreak but was called off at 8:15 a.m.

Coed Has Elevated Ambition

EAST LANSING (AP)—George Greenleaf, director of the course on grain elevator management at Michigan State University, was frankly puzzled.

The applicant for the course listed as interests: Ballet, art, horses.

Moreover, the applicant was a girl.

In 14 years, the MSU short course has graduated hundreds of students, all men. This was the first coed application.

High heels aren't suitable for climbing the high ladders into elevator lofts. Dainty hands weren't meant to heave heavy sacks of grain.

But, pretty, chestnut-haired Mary Wesley came well recommended. She had spent two years at a finishing school, Stephens College at Columbia, Mo., and was a graduate of the University of Colorado.

Moreover, she had a legitimate interest in grain elevators. At 26, she bought out her father's partner and held a half share in four grain elevators in the Champaign, Ill., area.

Miss Wesley previously had applied at the University of Illinois. They advised her to try Purdue. Purdue sent her to Michigan State.

Greenleaf, with some misgivings, decided to accept the coed applicant. He made the proviso that she'd get the same treatment as the male students.

"She's a woman of many talents," Greenleaf said. "She climbed to the top of the state's highest grain elevator at Ottawa Lake in Lenawee County. She's also the perfect hostess at social gatherings."

Miss Wesley said she is happy about the way the other students accepted her.

"I felt I needed something to get into business," she said. "Just this kind of training."

She will complete the academic part of the short course on March 20. Then will come a period of in-service training.

Her professors are sure she will then be fully qualified to help manage the Wesley grain elevators in south central Illinois.

Ike Takes Program Directly to People

(Continued From Page One)

Republican Policy Committee, described this as the opening shot in a political barrage he said he expects the Democrat to fire at President Eisenhower's fiscal and national security proposals.

I am happy the President is making a dedicated effort to balance the budget," Bridges said. "I know he is deeply concerned that every necessary effort be made to maintain the nation's security, and he can be trusted to do that."

But that won't keep the Democrats from making political attacks on his proposals.

The Day in Birmingham Traffic Mishaps Total Skyrockets in December

BIRMINGHAM—Traffic mishaps skyrocketed in December with nearly three times as much property damage as for the previous month, Police Chief Ralph W. Moxley announced today.

The 88 accidents last month, which resulted in 19 persons being hurt, totaled \$23,825 as compared to eleven personal injuries and 5 accidents costing \$8,683 in November.

Moxley said following too closely was again the leading cause of accidents. He stressed the importance, particularly on slippery streets, of leaving at least two car-lengths between moving vehicles.

Now working on the annual report, Moxley said the picture for the year appears to be somewhat better than for 1957. The brightest spot, he said, is the fact that there were no fatalities in 1958, but three during the previous year.

Personal injuries for 1958 were also decreased along with property damages.

A Birmingham girl suffered a broken ankle at 9:22 last night when she was struck by a car at the corner of Oak and Puritan streets.

Linda A. Wessels, 18, 61 356 Lake Park Dr., told police she did not see Sharon Hanlon, 17, step from the curb in time to avoid striking her.

Sharon, daughter of Mr. and Mrs. W. T. Hanlon of 994 Pilgrim Rd., was in a state of shock and unable to make a statement when taken to William Beaumont Hospital in Royal Oak.

Samuel Fish has "claimed up" on what the program will be when the Senior Men's Club celebrates its second anniversary at the Community House tomorrow.

T. A. Henshaw, secretary, said a guest speaker will launch the group on its third year.

Registration will be held next week for a new series of expectant-parent classes.

The eight-week classes for future mothers and fathers will begin the following week at two locations, the Oakland County Health Center and Pontiac City Hall.

The series, taught by public health nurses, is sponsored by the Oakland County Medical Society, Oakland County Department of Health and various adult education agencies.

First offered our years ago, parent training programs became so popular that the department of health last fall scheduled 20 of them between September and this coming May, said Dr. John D. Monroe, health director.

Any prospective parent is welcome to attend, but class sizes will be restricted to 26 persons at the most.

Beginning at 7:30 p.m. and ending at 9:30 p.m., the classes will feature films, lectures and discussion periods, plus a conducted hospital tour.

Topics covered include mental health of the family unit, growth and development of the baby before and after birth, labor and delivery, and feeding of the infant.

Registration for Monday night classes at City Hall will be from 6:30-7:30 p.m. Monday in the Department of Health's ground floor offices, 35 S. Parke St. Registration at the health center, 1070 N. Telegraph Rd., will be from 6:30-7:30 p.m. Tuesday in the auditorium.

Classes at the health center will be on Tuesday and Wednesday nights.

Registrations for other classes at the Health Department's Royal Oak office and Birmingham branch took place earlier this week.

56 Animals Perish in Zoo Farm Blaze

NEW YORK (AP)—Fire swept a one-story building at an animal farm today, burning 56 animals to death.

At least 40 monkeys died in the flames on the two-acre Rife farm which supplies animals to zoos throughout the world.

Other casualties included five tortoises, three burros, two dogs, four pigeons, a swan and a viper.

Hope Dims for Return of Infant

NEW YORK (UPI)—Hope waned today for the possible return of tiny Lisa Rose Chionchio, kidnapped from a hospital nursery last Friday less than 2 1/2 hours after her birth.

Police, admittedly without substantial clues or leads, searched sewers, cellars and the Coney Island beachfront in their intensive hunt for the 7-pound infant.

Detectives planned today to question a New York City woman (from the Borough of Queens), who has been regarded as one of two suspects in the mystery. The woman, said to match the description of the heavy-set blonde believed to be the kidnaper, was located yesterday in an Albany, N. Y., hospital, where she was taken after allegedly taking an overdose of aspirin.

The woman, a former mental patient, was reported missing from her home Sunday by her husband. The only other "suspect" has been identified as Mrs. Betty Jean Benedicto, 31, of Stockton, Calif., who is wanted by San Francisco police for parole violation.

Mrs. Benedicto served a year in prison for kidnapping a newborn infant in 1955. California authorities say she, too, resembles the woman nurses saw surreptitiously enter and leave St. Peter's Hospital about the time of the kidnapping.

Warns Parents About Child's Attitude

Educator Notes Danger Signals

WASHINGTON (NEA) — You might have more cause for alarm than you think if your child is flunking his school work. His bad report card may indicate he's in for an even worse police record when he grows older.

Dr. William C. Kvaraceus, one of the country's top youth crime authorities and head of a new National Education Association study of juvenile delinquency, believes that there's a close relation between how a child gets along in school and his chances of becoming a teenage lawbreaker.

That's why he warns parents to be on the look-out for several delinquency danger signals in their children's attitude toward school. He emphasizes they shouldn't worry if only one or two of these traits occasionally show up. It's when several combine and become a definite part of a youth's personality that trouble usually can be predicted.

First, Dr. Kvaraceus believes parents should be concerned if a child expresses hatred for school. The Boston University sociologist emphasizes he's not referring to the usual complaints kids make when they would rather play than study. "I mean white heat hate for school and for persons connected with it," he explains.

Disinterest in school work is another indication of potential delinquency. Dr. Kvaraceus explains that it's practically impossible to interest the true delinquent in any type of classroom work.

WANTS TO QUIT

A desire to quit school before graduation also may foretell trouble. He says, "The delinquent intends to leave school as soon as the law will allow. Usually he has no educational or vocational plans for the future."

Dr. Kvaraceus believes these last two danger signals are often combined with another one. And that's the pupil's report card which shows nothing but failing marks. "His lack of interest and his intent to leave school early frequently can be traced to his similar lack of success in the academic program of the school," the sociologist says. "As might be expected, he frequently is held back and is over-age for his grade."

This in turn may lead to the fifth delinquency symptom which is truancy. Dr. Kvaraceus says, "In view of the negative school picture, the delinquent tries to solve his school problems by running away. Frequently the truancy represents an emotional recess period from the jibes and insults of the classroom."

AVOIDS JOINING IN

Lack of participation in extra-curricular activities may also indicate potential trouble. Dr. Kvaraceus explains that delinquents seldom take part in organized youth recreation programs because of their complete unwillingness to submit to rules and regulations.

The final symptom is extreme aggressiveness. "In coming to grips with his problems of daily living," the sociologist says, "the delinquent always reacts in an overly aggressive manner. He is always taking it out on property and persons."

TRAIT TO WATCH — "In coming to grips with his problems, the delinquent always reacts in an overly aggressive manner."

If your child is starting to develop these traits, Dr. Kvaraceus recommends that you seek expert help immediately. And the best place to start, he believes, is with the child's teacher.

Dr. Kvaraceus hopes that the nine-month study by the educa-

tion association will help teachers to better understand juvenile delinquency so that they will know how to handle it in their classrooms. One of the main purposes of the research project, he explains, is to determine the best way that schools can cope with delinquents without neglecting their responsibility of providing a top notch education for all students.

Teachers, doctors, psychologists, sociologists and anthropologists will cooperate in the effort. Dr. Kvaraceus has also written a special pamphlet on delinquency which includes a list of danger signals for teachers to use in spotting potential delinquents.

100,000 Flee Floods in Central Java Area

JAKARTA (AP) — Floods over vast areas of central Java have driven more than 100,000 persons from their homes in the past 10 days.

No casualties have been reported but preliminary estimates put the damage at nearly \$200,000. The Surakarta area, 300 miles southeast of Jakarta, was hardest hit.

England's King Edward I once defined an inch as equal to three barleycorns, dry and round, laid end to end.

Cliburn Sees Dentist

TUCSON, Ariz. (AP) — Van Cliburn and his Tucson dentist have confirmed that dental work has interrupted the Texas pianist's

concert tour. The dentist, who declined use of his name, said the treatment was necessary and Cliburn "should be left alone to have it done."

A scientific device has been developed that can detect vacuum-tube holes so tiny it would take 120 years for a thimbleful of air to leak through.

Land Purchases Will Be Doubled

State Highway Board to Spend \$24 Millions for Rights-of-Way

DETROIT (AP) — The State Highway Department will more than double its purchase of right-of-way land this year, Commissioner John C. Mackie reported.

Last year, Mackie said, the state paid \$13,500,000 for 3,150 parcels of right-of-way.

This year, he told the Michigan chapter of the American Right of Way Assn. here last night, the figure will be upped to 24 million dollars in purchases by the state alone.

In addition, Mackie said, the Wayne County Road Commission, acting as agent for the state, will purchase some 15 million dollars of such lands for Detroit expressways.

Mackie said the right-of-way division has been reorganized to take care of the new load.

Changes include a general decentralization program, development of written policies and procedures, and trainee recruitment and in-service training programs, he said.

Basic Sweet Dough a Time Saver

Too often, the lively pace of modern living allows little time to sit down and enjoy a leisurely breakfast. In some cases, this important meal is skipped entirely or is too skimpy to give adequate nourishment.

Despite the many activities crowding our busy schedule, it is possible today to prepare an appetizing morning meal, if you plan ahead the dishes that you'll serve. For example, here is an easy recipe for a sweet basic dough which can be prepared ahead of time and refrigerated until needed.

With this prepared dough, you

can make several varieties of sweet treats such as Cheese Ring, Sugar Twists and Pecan Rolls, that will turn any ordinary breakfast into an inviting and pleasurable meal.

Basic Sweet Dough

1 cup milk
1/2 cup sugar
1/2 cup butter
1 egg, well beaten
1 envelope dry yeast
1 cup lukewarm water
6 cups sifted flour

Variation No. 1 Cheese Ring
1/2 cup butter, melted
1/2 cup American cheese, grated
1/2 cup brown sugar
1/2 cup raisins
Remove dough from refrigerator

lukewarm water and stir until yeast is dissolved. Add to milk mixture. Stir in enough flour to make a soft dough. Cover and set in warm place until doubled in bulk.

Turn out on floured board and knead dough until smooth and not sticky. Place in greased bowl and cover. Store in refrigerator until needed.

Variation No. 2 Sugar Twists
1 cup granulated sugar
1 cup chopped nuts
Melted butter
Mix half of sugar with nuts

Variation No. 3 Pecan Rolls
Softened butter
1/2 cup chopped raisins
1/2 cup brown sugar
1/2 cup water
Pecan halves

Combine 1 cup sugar and water; boil to a thick syrup. Grease muffin pans; using remaining sugar, sprinkle about one teaspoon of sugar in muffin well. Then pour about 1 tablespoon syrup in each muffin well.

Ever Fry Apples for Breakfast?

We owe a great deal of thanks to Johnny, this folksy old man from New England, who started a nursery for apple trees on the banks of the Ohio River near Pittsburgh. He gave young trees or apple seeds to the pioneers on their trek westward, so they could start orchards when they reached their new homes. The last fifty years of his life he traveled from farm to farm, giving away seeds and showing the farmers how to plant trees. He asked nothing more than bed and board.

If Johnny, whose real name was Jonathan Chapman, were around today, he'd probably insist that

part of that board be in the form of the many tantalizing apple dishes that have been concocted since his day.

For example, he might insist on fried apples and bacon for breakfast. And here's a recipe that would have put him in the right mood for his day's travels:

Don't Scrape the Pan

When you make taffy, caramels or nut brittles, this is the way to pour the hot mixture into the pan in which it is to be cooled: hold the saucepan with the candy in it within an inch or so of the cooling pan and pour steadily but do not

Good food deserves that GOOD "KRISPY" FLAVOR!

Tempting tomato soup topped with grated cheese. Great with fresher, flakier Krispy Saltines!

Serve your choice of tangy cheese with the choice of saltines. Krispy Saltines out-taste 'em all!

Tomato juice tastes best with the best saltine - "Krispy," of course. Delicious at any course!

The Saltine of 1000-and-1 Uses
Sunshine Biscuits, Inc.

Pork and Lamb Prices Encourage Shoppers

It's winter outside, but inside the grocery store it might as well be spring. Fresh produce from the south and from outside the county, abundant supplies of pork and ample supplies of canned and frozen foods, assure a mealtime variety. Overall, food prices show little difference from those of last week, states the Marketing Information Agency.

MEAT FOR THE MEAL - With the exception of featured items, most meat prices are much the same as they have been. Prices are slightly higher.

Budget-minded shoppers will plan to use pork often while it is so plentiful. Spareribs, a favored cut this week, will cost 20 to 30 cents less per pound than in summer, when the supply is smaller and interest in outdoor cooking is great.

When cost per serving is considered, rib-end roast and Boston butt are economical pork cuts. Rib-end roast may be used as a roast, chops or lean "country style" spareribs. Boston butt may be used as a roast, steaks, or cut for chops and other pork dishes.

Since pork supplies are large at this time, a year's lean porks remain at a low level.

Even canned cut pork chops are at more reasonable prices than in winter. But there is good reason why center cut chops cost more than soon.

A pair of porks for about 90 cents a 20-pound pig are center cut chops and the price of each meat eating. About porks are greenish

yellow, large and chunky with thick necks and short stems. Boston porks are a dark yellow brown with long tapering necks.

VEGETABLES - Liberal supplies of potatoes and carrots are penny-savory on fresh vegetable counters. Potatoes are as low as 2 1/2 and 3 cents per pound in 5-pound size bags.

Green beans, tomatoes, cauliflower, sweet corn and cucumbers are scarce. Weather has retarded quantities being marketed.

CANNED AND FROZEN FOODS - It will pay to study special offerings on canned and frozen items again this week.

Sauerkraut, soups, tomatoes, peas, corn, applesauce, peaches and pines are among the canned items featured.

Frozen vegetables, fruit and meat pies are other items to check.

DAIRY AND EGGS - Large size eggs are the best egg value when cost per pound is considered. They are 72 1/2 to 76 1/2 cent per pound while medium sizes now range from 72 to 74 cents.

Do you look for grade when you buy butter? Grade AA grades 92, the highest score. Grade A scores 92. Grade B scores 90. If the score is less than 90, butter must be labeled "undergrade." Grade AA and A are made from sweet cream. Grade B is made from sour cream.

Orange Top Toast

After school treat. Mix sugar with grated orange rind and moisten with a little orange juice. Spread on hot buttered toast and place in a moderate oven until the sugar melts.

Hole in Bread Holds Egg for Sandwich

Children will love their eggs fixed in this fashion. As a change from the usual late evening refreshments, you might serve these Winkies.

Winkies
1 slice bread
1 teaspoon butter
1 egg
Salt, pepper

With a 2 1/2-inch cookie cutter, cut out the center from the slice of bread. Melt 1 teaspoon of the butter in a 6-inch iron skillet; add the bread center and toast on both sides, remove and keep warm.

With skillet off heat (pan will be very hot) add another teaspoon of the butter; when it has melted place over heat again; add the slice of bread with the hole in the center; drop the egg carefully into the center. Fry until egg is set and the bread toasted; sprinkle egg with salt and pepper.

Lift bread and egg from skillet with pancake turner, add remaining teaspoon of butter; flip over bread and egg. Fry again until egg is set and bread toasted. Have heat high enough for rapid cooking but not so high as to scorch bread. Remove to serving plate, top with toasted bread round. Serve at once.

Note: A smoothly cut empty 2 1/2-ounce can (from dehydrated ham) makes just the right size center for the bread.

Use Cream, Not Milk

Want your baking powder biscuits to be extra delicious? Use light cream instead of milk in the dough. This suggestion applies to biscuits made from a mix as well as to those made from scratch.

AN UNUSUAL PIE - A sparkling pie is the perfect dessert for luncheon or dinner. This one combines a lightly spiced custard with a fruit top and glaze. Canned apricots are the fruit.

Use Marmalade for Glazing Pie

There is nothing quite like a piece of mouth-watering pie to top off a perfect meal. Apricot Buttermilk Pie has an unusual combination of flavors that you'll love. A lightly spiced custard base is made with buttermilk. Canned apricots and orange marmalade are blended into a tart topping and poured over the baked pie to give it a party sparkle. The pie is delicious too, without the topping.

Apricot Glazed Buttermilk Pie
Pastry for one 9-inch pie shell
1 cup sugar
1/2 cup flour
1/4 teaspoon salt
1/4 teaspoon mace or nutmeg
1/4 teaspoon cinnamon
2 cups buttermilk
3 eggs, beaten slightly
1 No. 303 (1 lb.) can apricot halves
4 teaspoons cornstarch
1/2 cup orange marmalade

Line 9-inch pie pan with pastry making a high fluted edge. Combine and mix sugar, flour, salt and seasonings in heavy saucepan. Stir in buttermilk. Cook in top of double boiler over boiling water until mixture thickens stirring constantly. Beat 1/2 cup of hot mixture into eggs and then stir it into buttermilk mixture.

Bake the pie shell in center of hot oven, 400 degrees, for 5 minutes. Reduce heat to 300 degrees, and pour buttermilk mixture into shell. Bake until filling is set, about 50 minutes. (Do not overbake.) Remove from oven and cool on rack. When cool cover with glaze.

To make glaze—remove apricots from syrup and drain halves well on paper toweling. Mix 1/4 cup apricot syrup and cornstarch together until smooth. Heat remaining syrup (about 3/4 cup) to boiling. Add cornstarch mixture all at once, stirring constantly; cook until mixture is clear and thickened. Remove from heat and blend in marmalade. Arrange apricot halves, cavity side down, on top most vegetables, breads, cereals, milk. Be sure bread and cereal are enriched or whole grain.

Peanuts Can Fit Into Variety of Other Dishes

Remember how you used to think of peanuts as an "extra" food—like candy, or something to put in the middle of the party table for your guests? That of course was before we knew the many fine food uses for peanuts in their various forms in all kinds of cooked dishes and baked products.

You can, for example, add nourishment and a new taste to salads with chopped peanuts or a peanut butter salad dressing. Of course, peanut butter sandwiches belong not only in Johnny's lunch box, but dad's as well. And peanuts or peanut butter combine well with any number of other foods for a sandwich spread, too.

Peanut butter also can often be used for part of the fat in baking. It's good in frostings, biscuits and cakes. Try this recipe for peanut butter drop cookies to fill your cookie jar for the holidays. The children will love 'em.

You'll need one-half cup of peanut butter, one-half cup sugar, 1 egg, 1 cup sifted flour, 2 teaspoons baking powder, one-fourth teaspoon salt and one-half cup of milk. Mix the peanut butter, sugar and beaten egg.

Sift together the dry ingredients and add alternately with the milk to the first mixture. Drop by teaspoonfuls onto a greased baking sheet about an inch apart. Bake in a moderate oven, 350 degrees F., about 15 minutes or until lightly browned.

Check Carbohydrates

If you are finding cold weather hard to take, it's time for a diet check of carbohydrate foods. A research report reveals that these foods can be cold weather producers. Best known are: Fruits, most vegetables, breads, cereals, milk. Be sure bread and cereal are enriched or whole grain.

Petoskey Trial Ends Abruptly

Paul Achenbach Pleads Guilty of Manslaughter in Mother's Death

PETOSKEY, Mich. (AP)—Paul Achenbach's murder trial ended suddenly yesterday when he pleaded guilty to manslaughter in the death of his mother.

Circuit Judge Edward H. Fenlon accepted the plea, entered by Achenbach's counsel.

The 46-year-old former Petoskey insurance agent was remanded to Emmet County jail for pre-sentence investigation. The investigation is expected to take two days. Manslaughter is punishable by a maximum of 15 years in prison.

Achenbach had been accused of first degree murder in the death of his mother, Mrs. Clara Achenbach, 78.

Prosecutor Howard Campbell said Mrs. Achenbach was beaten fatally by her son last May. Her body was found covered by a sheet in her apartment in November.

Campbell charged Achenbach forged checks on her mother's bank account before and after her death.

The defense contended that the prosecution had failed to establish that a criminal act was responsible for Mrs. Achenbach's death. Campbell conferred with the defense before yesterday's court session and he withdrew his charges of first and second degree murder when the manslaughter plea was entered.

The trial opened Dec. 29 before an all-male jury.

Seat Segregationist as Member of House

WASHINGTON (AP)—Dr. Dale Alford of Little Rock was seated Wednesday as a member of the new House.

Alford, segregationist who unseated the veteran Brooks Hays (D-Ark.) last November, took the oath of office after members, on a voice vote, had adopted a resolution to give him a seat.

An objection to Alford taking the oath had been made by Rep. John Dingell (D-Mich.).

Youth Offers 3 Rules for Protection of Teeth

OMAHA (AP)—Dr. Cecil G. Mueller reports that an eighth grader told to prepare a list of things important in care of teeth replied: "Brush your teeth after every meal."

"See your dentist twice a year."

"Stay away from fountains where they push."

NUCLEAR-AGE HOSPITAL—Protection for patients in an atomic attack is designed into the hospital shown in drawing above. Being planned for Livingston, N.J., the 650-bed St. Barnabas Medical Center would have its own deep wells for water. Operating rooms and special facilities

would be on a reinforced shelter level underground. Space for convalescent wards and offices is designed for floors above the ground. The 10-million-dollar structure waits on an appropriation by the new Congress.

Source Protection Bill Now in Congress

Marie Torre Gets Mail Support

JERSEY CITY, N.J. (AP)—Marie Torre, who went to jail rather than reveal the source of an item in her radio-TV column, has received more than 500 letters praising her for her stand.

This was made known Wednesday by the 34-year-old newspaperwoman's husband, TV producer Hal Friedman, who visited her at the Hudson County Jail here.

Friedman said his wife had received only one letter critical of her position.

She misses her two infant children, Friedman said, but is otherwise cheerful. Miss Torre shares with other prisoners the candy and fruit sent her by well-wishers.

Friedman was accompanied to the prison by Ogden Reid, former president and editor of the New York Herald Tribune, and several personal friends of the columnist. Miss Torre writes for the New York Herald Tribune syndicate.

She chose a 10-day jail term rather than reveal the source of an item she wrote about singer Judy Garland, saying she hoped the move "will lead to legislation protecting a newspaperman's sources."

Just such legislation was offered the House in Washington Wednesday.

Rep. Francis E. Dorn (R-Ky.) introduced a bill exempting newspaper, radio and television reporters from being compelled by federal courts to reveal their sources.

except in cases affecting national security.

Dorn said his bill would extend to the federal courts a recognition of newsmen's privilege already provided by law in 12 states.

He said the legislation would facilitate newsgathering and "give further legal recognition to the best journalistic ethics which provide for the protection of confidential news sources."

Support for legislation of this type came Wednesday night from the New York County Council of the Veterans of Foreign Wars.

Some 350 VFW members passed a resolution at a special meeting calling for laws to protect newsmen who find themselves in Miss Torre's position.

The resolution specifically named national security matters as an instance in which such exemption should not be granted newsmen.

Series 100 tandem—powered for big loads and steep grades!

No job's too tough for a Chevrolet truck!

Series 31 Fleetside—round-the-clock delivery specialist

About everywhere you look you'll find Chevies like that big tandem dump, or that stake and pickup, knuckling down and knocking all the meanness out of rough jobs. No matter how tough the job, there's a Chevy truck out to cut it down to size.

You don't have to haul 30-ton loads out of a stone quarry before your job's considered tough. The rough ones come in every weight class.

And right there is where a whole fleet of Task-Force Chevies comes rolling in. As far back as they go, Chevrolet trucks have always been long on stamina and short on down-

time. And now, with big tandems in the line along with every kind of model you can name... with the latest '59 ideas built into more might and muscle than ever before... you can bet a Chevy truck will whistle through any size job you've got. Your Chevrolet dealer can zero in on the exact model you need.

Chiefs Resume Basketball Wars

Pontiac Central Visits Bay City for Valley Game

PCH Risks Undefeated Record, High Ranking Against Big Wolves

By BILL CORNWELL

The vacation is over and it's back to the hardwoods for Pontiac Central's undefeated and highly ranked basketball team.

PCH risks a spotless 4-0 record Friday night when the Chiefs go to Bay City Central for a Saginaw Valley Conference game with the dangerous Wolves.

Coch Art Van Ryzin is worried about the Wolves and not without good reason.

Expected to be a strong contender for the Saginaw Valley title in pre-season crystal ball gazing, Bay City has yet to live up to advance notices.

The rangy Wolves defeated Midland in their non-conference opener, then lost successive Valley decisions to Flint Central and Saginaw High before retiring for the holidays.

Their 1-2 season is anything but impressive, but the potential is still there and in addition they will have the benefit of meeting PCH on their own court.

Those reasons alone are enough to make Van Ryzin fret. But his worries don't end there.

The Wolves are coached by Bill Ullenbruch, who likes to have his teams play rough, aggressive and hustling basketball with an emphasis on ball-hawking defense and a "pick 'em up all over the floor" style.

Ullenbruch had great success with this type of play at St. Clair and Walled Lake prior to going to Bay City. Ullenbruch had hard sledding last season in his first year at Bay City, but nearly all of the 1957-58 squad returned for duty.

Bay City has very little court finesse, but the Wolves are big and tough on the backboards, something which could cause a mountain of trouble for the Chiefs, particularly in enemy territory.

Larry Piotrowski and Jim Karlski, both 6-foot-5, Bob Bishop at 6-4, and J. C. Dunn, Fred Finn and John Young, each 6-2, are all returning regulars with height and experience. Ken Warren, a promising newcomer, also stands 6-2.

Bay City seems certain to find a winning formula before long. Van Ryzin is afraid the Wolves will discover it tomorrow evening.

The Chiefs will invade the upstate city with a rating as the state's 2nd best Class A quintet and a share of 1st place in the Valley. PCH and unbeaten Flint Northern have 2-0 SVC records.

Van Ryzin is expected to string along with the same starting lineup which has produced victories over Edsel Ford, Catholic Central, Arthur Hill and Flint Central.

Bill Hayward and John Bandy are scheduled to start at forwards with Phil Rabaja and Charlie Barge in the guard spots and Harrison Munson at center.

Roberts Comeback Ace

CHICAGO. (AP) — Robin Roberts, 32-year-old Philadelphia Phillies right-hander, has been voted the William Wrigley Jr. Comeback of the Year Award by Chicago baseball writers.

Roberts recovered from a 10-17 campaign in 1957 to win 17 of 31 decisions in 1958.

By H. GUY MOATS

Orchard Lake St. Mary and Pontiac St. Frederick basketball clubs Friday night reach an important crossroad in their current campaign for Suburban Catholic League title honors.

While the top-flighters mark time today, St. Michael will be host to the capable Royal Oak St. Mary club. This will be the first game of the season on the Shamrocks' own court at St. Michael hall. North sides hope to get on the black side of the ledger in this one. They are now even at 2-2.

St. Mary has won only one league game, a 53-38 victory over St. James, but has capable scorers in Dick McGrath, Crawford, and Alsheski. McGrath and Alsheski hit 16 apiece, Crawford 17, against St. James in their last session.

George Drake and Art Robak

AP Wirephoto

TERP COACH This is Tom Nugent, former head football coach at Florida State who was recently named to the grid post at Maryland succeeding Tommy Mont who resigned under pressure after the 1958 season.

are current Shamrock scoring hopes. Varsity game time is 8:15 p.m.

Both Rams and Eaglets are unbeaten in league competition. But there is one difference. The Rams have played, and won, four loop contests, while Eaglets have met, and defeated three fellow-leaguers.

St. Mary probably has the most at stake. A victory over the favored Rams would give Rev. John Rakocz's club the top spot. On the other hand a loss would drop it into a hot scramble to stay in contention with St. Benedict for the next position.

The clubs collide on Pontiac Central's floor, at 8:15 p.m., following a preliminary, set for 7 o'clock.

The Pontiac parochials have compiled 229 points against 155 for opponents. Eaglets scored 206, with 129 for opponents, but for only four games compared with five for the Rams. Orchard Lake wins, generally, were by wider margins, where Gene Wright's squad has run into close battles on the last three outings.

Only common opponents were St. Michael and RO St. Mary. Rams stopped Shamrocks 49-36. Eaglets won 44-30. Rams defeated ROSM 63-56, while St. Mary won, 53-33.

Friday's tilt will be first since

World Hoop Meet Drawings Completed

SANTIAGO, Chili (AP) — The luck of the draw put Nationalist China and Russia in different brackets today and solved a touchy problem for the World Basketball Championships starting here Jan. 16.

Reports from both Formosa and Moscow had indicated each would not want to meet the other for political reasons.

The draw at Munich yesterday put Nationalist China in Group A with the United States, Argentina and the United Arab Republic. Russia is in Group B with Brazil, Mexico and Canada.

Group C includes the Philippines, Uruguay, Puerto Rico and Bulgaria.

Has Ailing Stomach Muscle

Olmedo Quits Tourney

PERTH (AP) — Alex Olmedo's medo also would pull out of the sensational Australian tennis cam-singles semifinals tomorrow, when paign came to a temporary halt today when the young Peruvian men of Spain, and rest himself was forced to withdraw from the for the Australian Nationals later Western Australian champion- this month in Adelaide.

Playing with United States Davis Cup teammate Barry MacKay, of Dayton, Ohio, in the doubles semifinals, Olmedo walked off the court after playing 12 games and said: "I am sorry — I cannot continue." A troublesome stomach muscle had acted up.

At that stage the 22-year-old Inca Indian, who almost single-handedly whipped Australia in the Davis Cup challenge round ten days ago, had dropped his third straight service and was in obvious pain. Sweden's Ulf Schmidt and Jan Lundquist had won the first set 6-3 and were leading 2-1 in the second.

Although no formal announcement was made immediately it was a virtual certainty that Ol-

Drafting 10-Team Slate

DENVER (AP) — Directors and officials of the American Assn. will meet at Dallas and Fort Worth this weekend to draft an unprecedented 10-team playing schedule for the 1959 baseball season.

Big Basketball Feature Fridday

DETROIT (AP) — The season's third pro basketball doubleheader at Olympia Stadium on Friday night features the Detroit Pistons against the sizzling Boston Celtics.

In the opening game St. Louis will meet the Cincinnati Royals. Half of the 30 players who will see action in the National Basketball Assn's All-star game in Detroit Jan. 23 will be on hand Friday night.

Big Edge for Irish

DETROIT (AP) — Notre Dame basketball teams have won 26 of 27 games played against the University of Detroit, and the fighting Irish will be out to increase the edge Saturday afternoon in South Bend, Ind.

Notre Dame has a 3-8 record while the Titans are 8-4, but the Irish are favored. Five of their games were played against teams in this week's Associated Press top ten poll.

'Cog' Interests Boys in Science

Robot, Made by Boy,
Moves, Speaks, Writes
by Remote Control

RUSSELLVILLE, Ark. (P) — A little man of the Ozarks, barely three feet tall, is doing his part in America's drive to out-Sputnik the Russians.

His name is Cog and he's a robot.

At Halloween Cog greets trick-or-treaters with bags of candy in each hand, and at Christmas he strolls around in a Santa Claus suit singing carols.

"The neighbors think I'm crazy," says 18-year-old Robert Dupwe, Cog's creator.

But Dupwe thinks Cog is a good way to get other youngsters interested in science.

The professors at Arkansas Tech agree, and use Cog—with Dupwe's help—in lectures at nearby schools.

Cog is a good introduction to science, says physics instructor Earl R. Williams, who believes the whetting of the appetite by such a device may be the birth of a future scientist.

For four years Cog has amused, frightened and educated folks in this mountainous Arkansas region.

CONSTANT CHALLENGE
And for all those years, Cog has challenged Dupwe.

The Arkansas Tech sophomore continually works to bring the robot closer to the capabilities of a human.

Cog started as a flimsy shell of cardboard and aluminum foil with a speaker inside. All he could do was talk.

Now he's fully motorized and made of sheet aluminum, able to move in any direction, carry things about, even write on a blackboard in a childish scrawl.

In all, Dupwe estimates he has put about 1,200 hours of work and \$150 into Cog. He plans to invest more of both.

Three motors power Cog's movements, and a speaker in his neck provides his voice. Red lights are his eyes, blue lights his ears and a plastic radio dial is his futuristic hat.

Between public appearances and sessions at the workbench, Cog stands quietly in the corner of Dupwe's room.

Dupwe hopes to soon free Cog of the heavy, 40-foot cord which carries impulses to him from a control board.

Then, with his metal midget operating completely by remote control, the young inventor will set out to do more embellishments in his never-ending project to humanize his creation.

Some relish a tingling chase after a large sea bass, spear poised for the kill, while others find a challenge in hunting with a special adapted underwater camera.

But all skin divers find balm for telephone-jangled nerves in this world of incredible beauty and grace where all activity seems to be in slow motion and the diver escapes gravity for a while, to wheel and circle like a bird.

Clear water to dive in and \$15 in cash will equip you for the sport. Here's all you need:

A quality face plate with safety glass window, rubber swim fins, a snorkel (bent rubber tube) to breathe through while your face is underwater, and a pal.

Diving with a buddy is the first rule of underwater safety and will also provide someone to share the thrills with.

Be sure you're in good physical condition, don't take chances, and you may soon be spending your weekends 30 feet down where there are no telephones or traffic signals.

France's canal and river boats carry more than 66,000,000 tons of freight well over six billion ton-miles a year.

Grain Prices

CHICAGO, Jan. 8 (AP)—Opening grain prices:

Grain	Price	Grain	Price
Wheat—		Oats—
