## Korean Peace Talks Proposed by Chou En-lai

Offers 3-Point Proposal in Peiping Broadcast, Blasts U. S.

PANMUNJOM (AP) — Communist China's Premier Chou En-lai today called for speedy convening of the Korean peace conference and offered three proposals to get the long delayed talks started.

Chou suggested in a Peiping radio broadcast heard in Tokyo:

1. Resumption of the ruptured preliminary negotiations aimed at setting up the conference, using as a starting point Red demands that Russia attend the full-scale talks as a neutral. This proposal was turned down by U.S. Envoy Arthur Dean before he broke off the negotiations last month.

2. That the U.N. General Assembly consider the problem but Chou attached a string: that Red China and North Korea—both non-U.N. members—be "entitled" to send delegates.

3. That the forthcoming Big Four conference in Berlin "lead to a conference of the five great powers . . . to promote the settlement of pressing international problems." The fifth power would be Red China.

The broadcast, billed as a statement on Korean issues by Chou, did not touch on North Korea's denial a few hours earlier of an official U.S. announcement that it is negotiating informally to reopen the stalled preliminary talks.

Much of Chou's long statement repeated blasts that the United States is "aggressing against the peace of the world."

## Sleeping Children Die in Maine Fire

MEDWAY, Maine (AP) — Flames that broke out while their parents were away turned a one-room home into a blazing death trap for three sleeping children last night, raising to 11 the tragic five-day child fatality toll in Maine fires.

The latest victims were Conle, 2, Michele, 3, and Maurice Gordon, 5, children of Mrs. George Pinkham by a previous marriage.

Paul H. Farrington, constable of this small village 60 miles north of Bangor, quoted Mrs. Pinkham's husband as saying he was in the house while his wife was visiting a neighbor. When Maurice became uncomfortable in his bed, Pinkham added, he left to get his wife.

When the couple returned five minutes later, the wooden building was a mass of flames.

The cause of the blaze was not determined.

## Army Trims \$140 Million From Orders for Vehicles

WASHINGTON (AP)—The Army plans to trim 140 million dollars off vehicle spending in 1954.

Army procurement headquarters announced here yesterday that it is cutting in half the number of trucks remaining to be delivered. It also plans a one-third reduction in outstanding trailer orders.

Under the cut-back program, General Motors Corp., at Pontiac, Mich., and Reo Motors Corp., Lansing, will close down military truck production near the middle of this year.

Both companies were formerly scheduled to continue production of Army 2½-ton trucks until March, 1955. Willys Motors, Inc., Toledo, and the Dodge Division of the Chrysler Corp., both originally scheduled to continue vehicle production until March of next year will also close down Army production.

Willys had a contract for jeeps while Dodge was working on production of ¾ ton trucks for the army.

The Army said that trailer production will end about the middle of the year also when the Checker Cab Co., of Kalamazoo and Fruehauf Trailer Co., of Detroit and Cleveland complete production on contracts that have been slashed about one-third.

Both firms were to have remained in production until late fall in 1954.

The Army said the cut-backs were put into effect to keep vehicle output on a level with the current reduced strength of the armed forces.

## New Army Goal: One Man Behind Every Fighter

WASHINGTON (AP)—Secretary of Defense Wilson has a goal for the Army—only one man behind the lines for each man with a gun.

The current drive for reducing defense spending is a prod in that direction, Wilson told a news conference yesterday it may be possible to cut a billion dollars from the 43 billion defense estimate for the current fiscal year.

And, estimating the Army now has about nine men in support for every six in combat units, he said it would be "a great accomplishment" to level off at one for one.

## Manpower Plan Backed by Ike

Asks Reserve of Men Ready for Active Duty; Sidetracks UMT

WASHINGTON (INS) — President Eisenhower directed the Defense Department today to have ready by April 1 a plan for a greatly expanded military reserve composed of men who could be called to active duty at once.

He also temporarily sidetracked recent proposals by the National Security Training Commission that Congress enact legislation to put into effect the universal military training program by next Jan. 1.

The president supported military manpower recommendations presented to him by Defense Mobilizer Arthur S. Flemming. He directed Flemming to go ahead with the preparation of a manpower program to be laid before the National Security Council by April 1.

The Flemming proposals dovetail with the scheduled reductions in active military personnel under way in the Defense Department. They call for a 400,000-man cut in the military forces by June 30, 1955.

The defense mobilizer told a news conference that his plan conforms to the "new look" in the armed services. He emphasized that "present reserve forces are wholly inadequate for an emergency."

He declared that if his plan is adopted, it will be the first time in history that the U.S. has made basic decisions on a program of military reserves.

Flemming said it would not mean a "labor draft," although he admitted this is under consideration in the event of full mobilization for all-out war.

## Army Food Too Delicate for Spike-Eating GI

TOKYO (AP)—A GI is mad at Army doctors because they won't let him eat his "favorite food"—spikes and razor blades.

Pvt. Clarence Brown, an ex-carnival performer from Fort Worth, Tex., is in Tokyo Army Hospital while doctors ponder how to remove eight 10-penny spikes that have jammed in his digestive tract.

Brown complained: "I've been doing it for years—they fill me up like meat and potatoes."

## U. S. May Test H-Bomb Soon in Mid-Pacific

AEC Reveals Forces Are Going to Marshall Isles This Month

WASHINGTON (AP) — The United States may be about to rock the peaceful mid-Pacific with the most thunderous man-made explosion in world history.

An Atomic Energy Commission announcement last night roused speculation that government scientists may be planning to detonate a hydrogen bomb with a blast power mightier than the combined force of all the conventional bombs dropped by U.S. war planes in World War II.

The AEC said men and equipment will begin moving this month to the Nevada proving grounds in the Marshall Islands for "a further phase of a continuing series of weapons tests."

The three-paragraph announcement characteristically made no mention of specific types to be tested, but a reference to "all categories" of weapons touched off the H-bomb speculation.

It has been estimated that the American Air Force in World War II unloaded the bomb equivalent of slightly more than two million tons of TNT.

A super-atomic bomb dropped over the Nevada desert last June was a popgun by comparison. It was believed to contain a power equivalent of 50,000 tons of TNT and its flash could be seen 300 miles away.

This bomb, in turn, was about 2½ times as powerful as the one that all but wiped out the Japanese city of Hiroshima.

There was one other significant

## AFL Threatens to Close Port

Wants Rival ILA Union Driven Off Waterfront at New York

NEW YORK (AP)—Threats by rival unions today confronted the huge Port of New York with the possibility of a complete shutdown until one or the other union is driven from the waterfront.

Police details along the docks were strengthened to be ready for trouble. The seething harbor situation was brought a degree nearer the boiling point yesterday with the announcement by the AFL International Longshoremen's Assn. that it would close the port if its rival, the old ILA, now independent, strikes.

Posing the threat, AFL-ILA Executive Director Ace M. Keeney indicated his union was ready to seal the port, in such an event, until the ILA is forever driven from the docks.

Keeney said the AFL-ILA "will lead the longshoremen in action that will end only when the gangster rule of this port is completely and utterly destroyed."

The old ILA, which has threatened an all-out dock strike if the National Labor Relations Board acts against it in a bargaining election between it and the AFL-ILA, was kicked out of the AFL for failing to purge itself of racketeering elements.

A lead of 1,492 votes is held by the old ILA in the election which was held just before Christmas. However, 4,397 challenged ballots are still under examination; and the outcome is in doubt. In addition, the AFL-ILA has petitioned the NLRB to invalidate the election and hold a new one on the ground of coercion and intimidation by the ILA.

Yesterday the ILA filed its own complaint with the NLRB, charging unfair labor practices against Gov. Thomas E. Dewey and AFL President George Meany.

## 4 County Men Listed as Dead

Include Those Missing for More Than Year and Presumed Killed

The Defense Department today released the names of three Oakland County soldiers and one Marine missing for more than a year in the Korean fighting and "presumed dead."

They are Cpl. Raymond Myers Jr., 23, stepson of Mrs. Abbie Myers of 3910 Elizabeth Lake Rd.; Sgt. Harold F. Murdock, 23, son of Mr. and Mrs. Henry F. Murdock of 1905 Duck Lake Rd., Millford; Sgt. Albert S. Dreon Jr., 21, son of Mr. and Mrs. Albert S. Dreon of 31 Walper Ave., Clawson; and Pfc. Charlie H. Hill, 30, son of Major Hill of Detroit and Mrs. Nettie Hill of 1613 E. Goulson St., Hazel Park.

Cpl. Myers, a 1949 graduate of Pontiac High School, joined the service in Oct. 1951, and was sent to Japan in May, 1952.

After a two months stay there he was shipped to Korea and served with the 32nd Infantry Division. He was reported missing in action Oct. 24, 1952.

Cpl. Myers was told of his father's death in July, 1952, but was unable to return home. He wrote his mother a week before his disappearance saying he hoped to be shipped home in April and that he'd be gone about three weeks on a mission.

"We haven't gotten any word since, Mrs. Myers said, but I'm still hoping he'll return. It does not seem possible that he's really gone."

Surviving are a brother, Donald Myers, 21, at home and two stepbrothers, Robert, 6, and Craig, 4.

Sgt. Murdock enlisted on Sept. 14, 1950 and was sent overseas one year later. He arrived in Korea (Continued on Page 2, Col. 5)

## French Drive on Vietminh

COUNTER-ATTACK PUSHED TO FORESTAL RED ASSAULT ON SENO

HANOI, Indochina (AP)—French Union forces with massive air support have launched a counter-attack from Seno in an effort to disorganize Communist-led Vietminh troops regrouping for another attack on that central Indochinese stronghold, a French army spokesman said tonight.

Hard fighting continued for a second day and into the night in the jungle between French Union and Vietminh troops north of Dong Hene, 25 miles northeast of Seno. Earlier today the French disclosed that new Red rebel forces had been sent into this area of central Laos to bolster the Vietminh troops who recently cut Indochina across its narrow waist.

In fighting north of Dong Hene the French spokesman said Vietminh troops had launched several violent attacks without denting the French defense positions.

The spokesman described the counterattack from Seno as aimed at hindering the regrouping of Vietminh units preparing another assault.

The Vietminh buildup is regarded as a threat to Vientiane, governmental seat of Laos, one of the three Indochinese states associated with France in the French Union.

## Area to Get Snow, Colder Weather

CLOUDY AND COLDER WEATHER WITH occasional snow tonight and Sunday, is forecast for the Pontiac area by the U. S. Weather Bureau.

A low of from 16 to 20 tonight is expected to rise to a high of from 22 to 28 on Sunday. Yesterday, temperatures ranged from a low of 19 to a high of 29 degrees in the city. At 8 a.m. today the mercury was 35, but at 1 p.m. in downtown Pontiac the temperature stood at 39 degrees.

## O'Brien Says He Escapes Police, Flees to Canada

Prosecutor May Have to Drop Charges Against 4 Suspects

DETROIT (AP)—The missing witness in the Reuther shooting case was identified today by the Detroit News as Don Ritchie, 33, recently released from the Essex county jail in Windsor, Ont.

(From AP and INS Wires)

DETROIT — Authorities today disclosed the flight to Canada of the key witness to the 1948 shooting of Walter Reuther and said the escape threatens to collapse the entire case against the alleged would-be assassins.

Wayne County (Detroit) Prosecutor Gerald K. O'Brien said the witness, whom he flatly refused to identify, eluded guards in a downtown hotel suite, where he was taken for safekeeping, about 10:45 a.m. yesterday.

An attorney telephoned O'Brien later yesterday, that the informant was in Canada but that some word might be expected of his whereabouts today.

O'Brien declared: "Without this witness, we have no case against the four men we accused of shooting Walter Reuther."

"If he does not return to testify, our only course is to dismiss the present defendants and extradite our witness, if we can find him, and try him as a conspirator."

Detroit Police Commissioner Donald S. Leonard said guards protecting the witness "undoubtedly would be suspended for neglect of duty."

"This is important!" he said. "There may be killings if this man is not found soon."

Leonard identified one of the guards as Det. Wayne Glisman.

O'Brien labeled the missing informant the central figure in cracking the shot-gun assassination attempt against Reuther, then newly-elected president of the CIO-United Auto Workers Union.

Reuther was to succeed the late Phil Murray as president of the CIO.

O'Brien said he might be forced to drop warrants issued earlier this week against Santo (Sam) Perrone, 56-year-old Detroit hoodlum and union-busting racketeer; Perrone's son-in-law, Carl Renda, 35, Peter Lombardo, 51, and Clarence Jacobs, 53, of Tecumseh, Ont.

O'Brien said the motive in the shooting was to remove Reuther as head of the CIO Auto Workers in order to parcel out gambling concessions in Detroit plants.

The plotters also were said to

## Tito Denounces Red Agreement

Calls 'Freeman' Article Propaganda to Put His Country in Bad

BELGRADE, Yugoslavia (AP) — President Tito firmly denied and denounced today claims that Yugoslavia has entered into a "secret agreement" with Russia. He said such charges were designed to split this country from the West.

His views were expressed in a written statement from his winter villa at Brdo, in northern Slovenia, concerning an article published in the U. S. magazine, the Freeman, this month.

"The slanderous writing about an alleged secret agreement and understanding between Yugoslavia and the Soviet Union," he said, began first in Italy and then was spread into other countries, Germany, the United States, etc.

"The aim of these writings is clear. The aim is not only to demolish the reputation of Yugoslavia in the international field but it is also an attempt to frustrate future cooperation with the Western countries, to destroy the trust of these countries in us, to prevent further receiving of aid from the U.S.A., Great Britain and France and to settle the Trieste issue to our disadvantage."

Tito was thrown out of the Cominform, the Communist international organization, in 1948 for the heresy of doubting that the Kremlin line was best for Yugoslavia.

Since then the country has leaned toward the West, but has remained Communist.

The Freeman article upon which Tito commented was written by Bogdan Raditsa, former chief of the foreign press section of the Yugoslav Information Department. He broke with the government in 1946 and now lives in the United States.

Reuther was to succeed the late Phil Murray as president of the CIO.

O'Brien said he might be forced to drop warrants issued earlier this week against Santo (Sam) Perrone, 56-year-old Detroit hoodlum and union-busting racketeer; Perrone's son-in-law, Carl Renda, 35, Peter Lombardo, 51, and Clarence Jacobs, 53, of Tecumseh, Ont.

O'Brien said the motive in the shooting was to remove Reuther as head of the CIO Auto Workers in order to parcel out gambling concessions in Detroit plants.

The plotters also were said to

## Missing Witness Account Tells of Reuther Shooting

DETROIT (UP)—Prosecutor Gerald K. O'Brien released today the following signed statement by the missing key witness in attempt on CIO President Walter P. Reuther's life:

"I was in the car the night Walter Reuther was shot. For about four or five years I had been working for Santo (Sam) Perrone. I made about \$400 or \$500 a week. "In the occupation I was in—well, it just wasn't what people would call work.

"Clarence Jacobs approached me for this particular job. "He told me I would get five grand (\$5,000). "I was approached about five days before it happened and ask if I wanted to go. "This conversation took place in Perrone's gas station there at Jefferson and Canton.

"Perrone asked me several days before the shooting if I was going on the job. I said I was. That was also in the gas station. "I didn't ask a lot of questions. These people don't talk things over very much. They don't explain things. "All I knew was that Perrone

had once said: 'We'll have to get that guy out of the way.' Did he mean Reuther? Yeah. "I was living around Detroit hotels at the time. For a while I roomed with Jacobs. "The night of the shooting I was picked up in the gas station. "The car was a red Mercury. I don't know who it belonged to. "I sat in the back seat. Jacobs drove and Peter Lombardo was in the front seat with Jacobs. "The shotgun was in the front seat between Jacobs and Lombardo. (Continued on Page 2, Col. 1)

## Bleeding Image Sealed in Glass

### French St. Anne Statue Reportedly Sheds Real Blood From Finger

By Religious News Service

PARIS—A carved wood statuette of St. Anne, which reportedly "bled" after a finger had been broken off, has been sealed behind a glass panel at the request of ecclesiastical authorities in Entrevaux, near Nice.

The order was given after a laboratory in Paris, to which the blood was sent for testing, reported that the liquid said to have dropped from the broken finger at intervals recently was human blood, however, the ecclesiastical authorities refused to comment on the "phenomenon."

Meanwhile, the cafe in Entrevaux where the statuette was found "bleeding" continues to be jammed with visitors from southeastern France and northern Italy. Many bring with them the deaf, the lame and the blind in hope of a cure.

The story is told that when a piece of cotton used by the parish doctor to wipe the end of the broken finger was given to a blind man a small terra cotta oil lamp burning before the statue flared to a ceiling for no known cause.

"The 'bleeding' St. Anne statue was reported in Dec. 28 by Jean Salvade, proprietor of the Entrevaux cafe. He said it has accidentally been knocked over the previous night while he and some friends were playing cards.

On the following morning, when he went to clean the cafe, M. Salvade said he found drops of blood directly under the statue, and blood on his hands when he handled the figure. Subsequently, it was reported, the statue bled several times.

## Inter-Church Fellowship Begins Series on Sunday

The seventh annual Inter-Church Fellowship will begin at 5:45 p. m. Sunday in Lutheran Church of the Ascension, 96 Williams St.

Guest speaker at the 7:30 worship service will be the Rev. John H. Burt, son of the late Rev. Bates G. Burt who for 25 years was rector at All Saints Episcopal Church here.

The Rev. Mr. Burt now is pastor of St. John's Episcopal Church in Youngstown, Ohio. For four years before going to Youngstown, he was chaplain to Episcopal students at the University of Michigan.

Mr. Burt, who was a trained social worker before entering the ministry, graduated, cum laude, from Virginia Theological Seminary in 1943 with a bachelor of divinity degree.

He also has served as canon and rector at Christ Church Cathedral at St. Louis, Mo., was on the staff of the commander of the Pacific fleet, and with the Seabees in the invasion of the Philippines. Following the war, he served briefly with the Coast Guard in Atlantic City.

Along with his pastorate at the Youngstown church, he is actively interested in the social service work in the community.

The evening program of Inter-Church Fellowship will follow some what the pattern of other years, with a Bible exposition given by Dr. William P. Lemon of Ann Arbor at 6 following the hymn sing at 5:45 p. m.

Refreshments will be served by the host church from 6:40 to 7:30 after which the worship service will be held.

Other churches which will be hosts on succeeding Sunday nights will be All Saints Episcopal, First Congregational, First Presbyterian and Central Methodist.

On the sixth, Sunday night a choral service given by Pontiac choirs will be held in First Presbyterian Church.

Guest speakers for the series will be Dr. Chester A. McPhet-

### Confident Living

## Extroverts Often Plagued by Inferiority Complex

By NORMAN VINCENT PEALE

I once heard of a man who offered up each morning what seems to be a very strange prayer. Upon arising he would pray, "O Lord, help me to have a high opinion of myself."

You may think of some people who already have this exalted opinion of themselves without the necessity of praying for it. It does indeed seem so. We meet many people who are overly extroverted and even bumptious; they seem to have no lack of self-esteem or conceit.

DR. PEALE

But these people, who are so obvious, may be blind to the many who have a negative opinion of themselves. They doubt their own ability, are retreating and shy in personal relationships and have a strong sense of inadequacy. They suffer from what the psychologists term an "inferiority complex."

Haven't you, perhaps, said to yourself, "I haven't got it in me. I can't do it. I can't keep going." Many of us feel this way at times.

Recently a young wife came to me, literally in tears. "How is it possible," she asked me, "to go with a man for a year and think you know him, then to marry him and, after six months, realize that you don't know him at all?"

"Is that what happened to you?" I said.

"Yes," she replied. "My husband

is a big strapping fellow, over six feet tall, and handsome. You can see that I'm not very big and it seemed to me that a man like him would take care of me and protect me. I got a sense of security when I went out with him and I thought it would be that way all our lives. But now that I am married to him, I find that he's a shy, shrinking man who believes that he can never do what he's supposed to do. He always thinks he's going to fail. I have to be not only a wife to him, but apparently I have to mother him and take care of him as well.

"Do you know," she concluded, "sometimes I feel like taking him and shaking him and trying to make him see what a wonderful person he is if he only knew it."

Well, that is a trouble with many of us. We do not fully realize what we are. We are not aware of our unrealized possibilities; so we go through life being less effective than we need be. Situations defeat us when all the time, if we only know it, we have inner powers equal to any problem life brings us.

In a Southwestern city I met a successful man who told me that he came to that city as a "bum — a hobo." Aimlessly he hitchhiked across country, sleeping in barns, haystacks, any place that would afford protection.

One day he asked for a hand-out at a back door. The kindly housewife with keen insight saw his inner worth. She gave him a book by this author. Stuffing it in his ragged pockets he read and re-read it. The message of God's help anyone can make something of himself. He believed that. He practices the principles of faith which it teaches, and today he is an outstanding and highly respected citizen of his community. People are really wonderful.

## Pastor to Finish Epiphany Ritual

### Rev. Gouvellis Blesses Final Greek Orthodox Home Here Today

The Rev. Soterios D. Gouvellis, pastor of St. George Greek Orthodox Church, today will conclude his four-day task of blessing at least 250 Orthodox homes in Pontiac, Birmingham, Drayton Plains and Port Huron.

In this ritual starting with the Day of Epiphany, the Ikostasion in each home, which is the sacred place where pictures of the patron saint of the home and other sacred relics are kept, is blessed.

The priest also goes from room to room with his blessing which also is received by each member in the home.

The patron saint in most of the Orthodox homes in Pontiac is St. George because it is the patron saint of the church here. Father Gouvellis pointed out, however, that in some instances, the father may have a name of another saint and in that case the home may hold that name sacred.

The Ikostasion in the home is the altar before which prayers are said, Father Gouvellis pointed out.

## Increase Noted in Troy Building

Total Value of Permits Estimated \$1,669,195 More Than in 1952

TROY TOWNSHIP — The issuance of building permits took an upward swing during the past year, and showed an estimated total value of \$1,669,195 more than in 1952.

Supervisor Norman Barnard gave the 1952 total as \$2,228,600, with a total of \$3,897,795 for 1953. There were 237 permits for residential building in 1952 and 315 last year. Respectively, the estimated values for these were \$1,817,400 and \$2,963,695.

Four permits for industrial building were given out in '52, and one more than that in '53, showing values of \$93,500 and \$176,400. Commercial permits for 1952 were listed at five, with again an increase of one in 1953. Estimated values for these were \$32,700 and \$103,700.

One permit for a public building, a church, was issued in 1952 at an estimated value of \$15,000. Last year permits for three public buildings were given. Total estimated value for a church and two schools was \$654,000.

## Farm and Orchard News

### Farm Expert Has One Word of Advice: Management

By BURDETTE B. ASHLEY  
Staff Writer  
of the Associated Press

Jesse G. Boyle, retiring after 28 years as secretary-treasurer of the National Farm Loan Associations for Berrien and Van Buren Counties, has one word of advice for farmers. That word is "management."

Looking back on the farmer failures amid the prosperity of the past years, Boyle said he believed most of them resulted simply from inadequate management ability.

"In this period high costs and mechanized farming, proper

management has become very important," he said. As he sees it, management is this:

"You've got to put the dollars where you are pretty sure you are going to get them back."

While Boyle is retiring from the local associations, he intends still to be active—on his 365-acre farm near Buchanan operated by his son, Jesse Jr.

A graduate of Michigan State College in 1908, Boyle, now 70, is a former Purdue University horticulture professor, a former state representative from Berrien County from 1927 to 1933, former president of the Berrien County Farm Bureau for 14 years, and for 32 years president of the successful Buchanan Co-op board of directors, an organization he helped to found.

Successful results of an experiment whereby waste water from canning plants may be used to irrigate and even nourish farm crops are reported by Gerber Products Co. of Fremont.

The water, containing some chemicals but with the solids removed, is simply sprayed over the ground. M. R. Dietz, Gerber researcher, said that while results varied with different crops, tests run on a farm a mile and a half from the Gerber plant generally were successful.

Probably the pioneer user of the spray irrigation system to dispose of water waste is Michigan Fruit Canners of Fenaville.

Fruit Canners makes no attempt at irrigation, however, merely spraying the water over nearby sand dunes to dispose of it after solids have been removed.

During the canning operation of some crops the water may be harmful to some growing crops, Michigan Fruit Canners discovered. But Gerber's success so far has been encouraging enough to warrant purchase of 140 acres of land three and a half miles from the plant.

Water will be pumped through pipes to the farm for irrigation purposes. Dietz said that several farmers who took water rights rather than cash for allowing the pipeline to go across their property are expected to give the program a try.

A popular misconception among farmers, and city dwellers too, for that matter, says Michigan State College extension specialist William B. Love, is that you can get rid of a tree stump quickly, and without much effort, by boring a hole and pouring chemical into it.

There is no chemical effective enough or safe enough to boost decay of stumps, Love declares. He is a forestry expert.

His advice, if you can't wait for natural decay, is to resort to stump pullers, bulldozers, power shovels or explosives.

But what of the city dweller who can't use any of those means?

## 1st Steps to Be Taken at Meet

Additional Classrooms for Elementary, High Buildings Planned

ROME — Preliminary steps for the expansion of the Romeo Community School District will be taken at a Board of Education meeting at 8 p. m. Tuesday in the high school.

At a two-hour meeting Monday, 150 voters heard the findings of a survey by Dr. Gerald Boicourt, education specialist from Wayne University.

Board President Lawrence V. Rickett presented the school board's view of the report.

The members agreed, he said, with Boicourt's recommendations for two four-room additions to the elementary schools, but decided it would be "wiser and more economical" to construct the eight-room building he suggested on the same site as the South School.

In place of the two-room addition to the high school, the board recommended that a two-classroom, general shop and bus repair depot building be constructed in the vacant lot directly north of the high school.

The proposed plan would cost taxpayers an estimated \$405,000, less possibly \$7,500 which would have been required to purchase a new site in the northeast section of town.

This would mean an assessment of six mills for the bond issue and an additional six mills for operating expenses.

Rickett urged committee members of groups and organizations which submitted petitions endorsing the need for an expansion program to attend Tuesday night's meeting.

## Firemen Average 1 Call a Month in '53

IMLAY CITY—An average of one call a month was answered by the Imlay City Volunteer Fire Dept. during 1953.

A recently released report shows that of the 31 runs made, 16 were in the village and 15 were in rural areas. There were four fewer village calls last year than in 1952, while the number of rural runs were equal to the previous year. The village paid \$500 for local calls and \$470 for the others.

Estimated total loss to buildings was \$11,604 and loss to contents was approximately \$3,594.

Re-elected for the coming year are Russell Sharpe, chief; Harvey Miller, assistant chief; Frank Buike, secretary, and Fred Hook, treasurer.

Annual dinner for firemen and their wives will be held at the Hi-Speed Restaurant Jan. 18.

## R. L. Polk Co. Denies Charges

**President Says Firms Publishing Directories Have No Monopoly**

DETROIT (INS) — The president of the R. L. Polk Co. of Detroit today denied federal charges of conspiracy to violate the nation's anti-trust laws.

Polk, along with three other directory publishing firms, was charged in federal court with monopolizing trade and commerce in the publication and sale of city directories.

In a prepared statement, R. L. Polk, whose grandfather founded the Detroit firm, declared:

"There has been no concerted action or combination on the part of the directory publishers named which violate the anti-trust laws. "We will defend the action. There has been no violation of any law in the conduct of the business."

Others named in the federal suit were the H. A. Manning Co. of Springfield, Mass.; the Price and Lee Co., New Haven, Conn.; and the C. B. Page Directory Co., Corpus Christi, Tex.

Also named was the North American Directory Publishers Association in which the four firms hold membership.

## Bobo Will Accept 5.5 Million Dollars

NEW YORK (AP) — (Bobo) Rockefeller has accepted a \$5½ million-dollar settlement as a prelude to ending her marriage with Winthrop Rockefeller.

After legalistic bickering yesterday, Mrs. Rockefeller announced she accepted settlement terms, and the oil millionaire's counsel acknowledged receipt of her agreement.

Attorneys for the husband said the settlement provides for Mrs. Rockefeller and her son, Winthrop Paul, \$5½ million of annual income or an alternative additional trust of \$500,000.

Presumably the acceptance paves the way for a divorce. Rockefeller has established residence in Arkansas and could get a divorce there.

Mrs. Rockefeller, 37, could go to Reno or some similar place. The couple were married on Valentine's day in 1948. Two years later they became estranged, and have been wrangling over finances ever since.

## Hoosier, Gopher Tilt Marks Big 10 Action

CHICAGO (AP) — In the 1st big show down of the Big Ten basketball campaign, Indiana's Hoosiers take on Minnesota's Gophers tonight before a record-breaking crowd of 18,250 at the Minnesota fieldhouse.

Never before have that many people been assembled in a college arena for a basketball game.

The big game is the result of conviction in the Minneapolis-St. Paul area—shared in certain other Midwest quarters—that if any team can take the Big Ten crown away from the defending champion Hoosiers it will be Minnesota.

Indiana goes into the game with eight victories in nine games overall and two straight wins in the conference.

**Passengers on Elevated Go on Merry-Go-Round**

CHICAGO (INS) — Passengers aboard three elevated trains got an unscheduled merry-go-round ride in Chicago.

The trains circled the loop three times before they proceeded westward from the downtown area.

The Chicago Transit Authority explained to the irate riders that the ring-around-the-rosy resulted from a burned out cable which prevented the trains from turning west out of the loop.
