

Christmas Carolers Open Noon Programs

Pontiac Press Photo

FIRST OF THE SEASON—Patrons of the Pontiac State Bank yesterday noon were serenaded by this glee club of St. Michael's High School. It was the first of a annual series of Christmas caroling at the downtown bank, which will run through Dec. 24. Ten schools will participate in the program this year.

Claim 350 Dead in Iran Quake

Thousands Are Hurt, Homeless in Freezing Western Area

TEHRAN, Iran (AP)—A heavy earthquake shook west Iran today and unofficial accounts reaching Tehran said at least 350 persons perished and thousands were injured.

Tehran radio said the towns of Sahneh and Farsinak were badly damaged and that most villages in that area were ruined. Heavy snowfalls created harsh conditions for several thousand made homeless by the tremor.

The government started moving food and medicine for several thousand homeless victims into the freezing area of west Iran. The earthquake was reported as strong as the shock which struck Damavand and the Caspian Sea area last July, in which about 2,000 persons perished.

Some Contestants Coming Close to \$1,400 Pot-O-Gold

Our judges are getting more frustrated by the week, as several Pot-O-Gold contestants are within one or two answers of the correct solution.

They're in hopes of getting a winner before Christmas, and there's just one more week in which to do that.

The puzzle that appears on page 31 of today's Press is due next Tuesday, and a winner for that one will be able to take home the \$1,400 in time to help Santa along.

Unless Santa's visit imposes no financial strain on your family, you'd better see what you can do about winning the money.

Answers and explanations for last week's puzzle are on page 16.

Car Gift May Solve Shopping Problem

By JANET ODELL

If you can't knit Argyle socks, what do you get a man for Christmas? The Christmas shopping snooper has seen a few items that might be welcome. You're on your own when it comes to ties.

After the recent snowfall any man who doesn't already

have a snow brush for his car will appreciate one. Another car gift is a visor kit containing paper hankies, mirror, comb, cigarette case and zippered compartment.

Should the man you're shopping for be a barbecue expert, get him a packaged set of three barbecue brushes. Aprons, hot pad mitts and barbecue equipment will make him long for an early spring.

The host who enjoys serving wine to his guests will like the gift of a French cut glass decanter, trimmed in gold. Six matching glasses go with it.

Camera fans are easy to buy for: just keep on getting them new gadgets. Exposure meters that are simple or complex can be purchased for the male, depending upon his degree of proficiency. Automatic slide trays are welcome, also repeating flash units.

An ashtray may seem like a commonplace gift. But there is nothing commonplace about the set of ashtrays seen in one men's store. Made in Mexico of brass, the two trays are footprints—most unusual looking.

Want to spoof a fisherman? Get him a pack containing ultra-ultra equipment: a fur covered hook, a ruler for measuring and a fur-

trimmed scaler are a few of the items.

Two packs of playing cards in a leather case, complete with scoring pad, will please the daily train commuter. A wire brush to de-lint his suit each morning assures a speck and span appearance.

Is he a woodsman? Get him a special knife that contains in addition to two blades a pair of scissors, saw, can and bottle openers and a file. That should take care of most emergencies.

President Flies to Paris Today

NATO Meeting Seeks to Organize Free World Against Red Threat

WASHINGTON (AP)—President Eisenhower—still under the watchful eye of doctors—flies to Paris today at 5 p.m. to lead this country's drive to revitalize the North Atlantic alliance.

An awesome burden rested on the shoulders of the 67-year-old Chief Executive, who suffered a mild stroke less than three weeks ago.

In the light of the Soviet Union's advances in missiles and space age science, Eisenhower's job was to:

1. Restore Allied confidence in American leadership and bring about greater scientific, military, economic and political cooperation among the 15 nations of the NATO alliance.

2. Sell this country's allies on letting their territory be used for rocket bases and stores of nuclear weapons. Some of these countries fear such bases would make them prime targets for Russian missiles if a new war should break out.

3. Counter the Soviets' propaganda offensive, which obviously is intended to scare Western countries away from further cooperation with the United States.

4. Quiet disputes among the NATO countries. One of the most urgent problems here seems to be one of soothing French indignation over U.S. and British shipment of arms to Tunisia.

In the past few days, the Russians have been stepping up their propaganda drive, which U.S. officials regard as designed to undercut the NATO summit meeting opening next Monday.

Soviet Premier Bulganin wrote Eisenhower generally restating previously ejected Russian proposals for ending nuclear weapons tests on terms unacceptable to the West. The Bulganin letter also called for new East-West talks on outlawing war.

Secretary of State Dulles, who left yesterday for Paris, stressed (Continued on Page 2, Col. 2)

Crop-Destroying Freeze Grips Southern States

AFL-CIO Ousts Laundry Union From Federation

Adjourns After Electing George Meany Again to Presidency

ATLANTIC CITY, N. J. (INS)—The AFL-CIO expelled both the Bakery Workers and Laundry Workers Unions yesterday on charges that the two unions are in the grip of corrupt leaders.

Last Friday, the 1,500,000 member Teamsters Union, largest in the nation, was ousted for the same reason.

The federation's eight-day second convention, held in Atlantic City, adjourned after deciding to keep on probation the Distillery Workers and the United Textile Workers—the latter not to be confused with the Textile Worker's Union—until they carry out cleanup demands under AFL-CIO supervision.

The convention reelected George Meany AFL-CIO president and William F. Schnitzer secretary-treasurer.

Other members of the executive council were reelected, among them Vice President Walter Reuther, head of the giant AFL-CIO Industrial Union Department.

Peter T. Schoemann, Washington, D. C., president of the plumbers, and Paul L. Phillips, Albany, N.Y., president of the papermakers were elected vice presidents and members of the executive council. They succeed Teamster secretary-treasurer John English and Herman Winter, president emeritus of the Bakery Workers, who went off the council with the ouster of their unions.

The federation had shown during its week-long convention a (Continued on Page 2, Col. 3)

Icicles in Alabama

AP Facsimile

FREE TREAT—Cold wave which swept Alabama yesterday coated trees with ice. For Kathy Lynn Gunthorpe, in Birmingham, it was an unusual experience to break icicles from trees and bushes and sample them for flavor. Birmingham News photographer Bob Gunthorpe took this picture of his small daughter as she met this situation for the first time.

Billion Dollar Citrus Fruits Hit in Florida

Michigan Digs Roads Clear of Most Snow Which Fell Yesterday

By THE ASSOCIATED PRESS
Way down south another crop-killing freeze, and heavy frosts in other sections, gripped Florida again last night and today.

Winter crops again were heavily damaged and more of the quarter-billion-dollar citrus crop was hard hit.

Temperatures are expected to rise this afternoon, easing out one of the more severe freezes of this century in Florida.

It was colder in some parts of Florida last night than Wednesday night. Ocala was struck by 12-degree weather. Gainesville had an 18-degree thermometer reading.

Some light snow spread eastward from Minnesota across parts of the Great Lakes region during the night, and snow flurries persisted in some sections of the North Atlantic States southward into Pennsylvania.

Elsewhere in the country, dry weather was the rule.

The cold wave, which rolled out of the northern plains early in the week and across the Midwest bringing snows before hitting the South and East, had claimed at least 34 lives in one way or another.

MICHIGAN DIGS CLEAR
Michigan had managed today to dig its highways clear of snow up to 16 inches that rode in on a cold wave yesterday and the day before.

Warm temperatures were expected to go to possibly 40 degrees in the hard-hit southwestern area today.

Light snow fell today in some areas, including the thumb area, Bay County and Sault Ste. Marie. But all trunkline highways were reported open and schools whose buses couldn't get through drifts up to four feet yesterday reopened.

Paw Paw, which got a 20-inch snowfall, had cleared its streets and highways today and had schools back in operation.

New snow slicked thumb roads anew, but not seriously, and Port Hope reported it had been able to unblock side roads overnight.

Bay County got two inches of new, light snow, but there was little drifting.

Sault Ste. Marie's five was the lowest temperature overnight.

Moonshine Still in County Raided; Six Men Arrested

Federal and local authorities arrested six men in a raid yesterday which uncovered what may have been the largest and most productive moonshine still ever found in Oakland County.

Sheriff Frank W. Irons, seven deputies and four federal agents entered the basement of a house at 9225 Southeastern Rd., White Lake Township about 5:30 p.m.

The six men were in Oakland County Jail and will be arraigned today in Detroit on charges of violating the federal liquor laws. The moonshiners were discovered some time ago and had been under a constant watch for about two weeks. Authorities wanted to be sure they got everyone connected with the outfit before making a move, according to Irons.

"Yesterday they showed up with a truck and began packing up so we were forced to move in," he said.

Two 250-gallon stills, each made up of three barrels connected by stove pipes, were in action. Several large vats at one end of the room held an estimated 4,000 gallons of illegal booze.

"The procedure was a constant one," explained Irons. "At the same time one vat was being filled with freshly cooked mash, the moonshine in the last vat would be ready for bottling."

The six men arrested were: Louis Miles, 36; Harold Rowe, 40; and James Hartwells, 55; all of Detroit; James Johnson, 33, of River Rouge; James Everson, 34, of Ecorse; and Simule Rowe, 41, of Inkster.

Helps to Have One

Who's Afraid of 13?

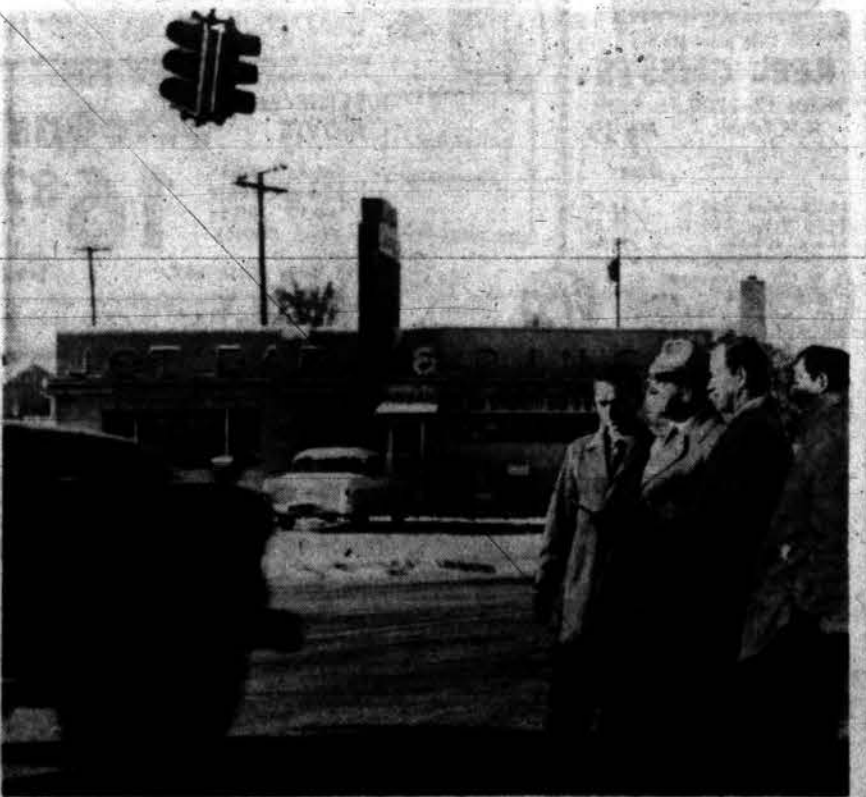

Pontiac Press Photo

HAPPY BIRTHDAY—Friday the 13th brings few qualms to John Polman of The Pontiac Press credit department, as he celebrates his birthday today frisking under a ladder. Just to make things all right, however, he waves a calendar page to ward off any evil spirits.

Quality Hushy Xmas Trees 8 to 14' from Old Post Road Store, 8 West Lawrence St. FR 2-5412. —Adv.

Traffic Engineers Check Lights

Pontiac Press Photo

EXAMINE SIGNAL SYSTEM—State Highway Dept. officials were in Pontiac Thursday to study the traffic signal system along Saginaw Street between Lafayette and South Boulevard. They decided the system needs to be modernized. Looking over the flow of traffic are (left to

right) Joseph Marlow, acting district traffic engineer for the department, Theodore M. Vanderstempel, city traffic engineer, Keither Bushnell, traffic signal engineer for the state, and Pascual E. Turner, highway department engineer trainee.

Cars Would Move Faster on Saginaw

Eye Traffic Light Change

Traffic signals along Saginaw street between Lafayette and South Boulevard should be changed to permit a smoother flow of traffic, State Highway Dept. engineers told city officials yesterday.

The department will recommend to the city in March that an interconnected and two or three dial system be installed along this route.

NO STOPS NEEDED

"This means that if you are traveling 25 miles per hour, you will never have to stop for a light," explained Theodore M. Vanderstempel, traffic engineer for Pontiac.

He examined the present system Thursday with Joseph Marlow, acting district traffic engineer for the Highway Dept., and Keither Bushnell, traffic signal engineer for the department.

The Pontiac Press pointed out the department's recommendation might be to remove certain lights. He said he did not know which ones were under consideration.

The multiple dial system could be regulated by cycles based on the number of vehicles using the mile stretch for any one period.

"During the rush hours we could set them so more cars could get through and just the reverse for times when there is less traffic," Vanderstempel said.

Asks \$30 Million for State Parks

Conservation Unit Seeks November '58 Election on Bond Issue

LANSING (U)—The State Conservation Commission today took the opening step in efforts to set up a multi-million dollar financing program for expanding and improving Michigan's state parks.

The commission called on the Legislature to place on the November 1958, election ballot a proposal asking for a 30-million-dollar general obligation bond issue.

Gov. Williams also was asked to lend his support to the plan.

At the same time, commissioners recommended legislative approval of "reasonable" fees for parks use to help retire the bonds.

While not specifying the type of fees, Commissioner Frank Brevitz of Battle Creek suggested car parking charges or per-person admission fees as possibilities.

"We cannot expect that fees will bring in sufficient funds to retire the bonds, however," said Commissioner Joseph P. Rahilly of Newberry. "The Legislature also will have to allocate money from the state's general fund."

ROLL OUT THE BARREL — Oakland County Sheriff Frank W. Irons examines one of the barrels of moonshine uncovered Thursday when Federal and local authorities raided a White Lake Township still. An estimated 4,000 gallons of il-

legal whisky were found at the site. The still was believed to be the largest ever uncovered in Oakland County. Six men were arrested at the site which had been under surveillance for approximately two weeks.

Lay Mental Health Issue in Hospitals' Lap

The burden of the emergency care of the mentally ill was laid in the lap of public hospitals by the Greater Pontiac Community Advisory Council last night.

The council adopted a recommendation of Probate Judge Arthur E. Moore that Oakland County's general hospitals should provide at least 100 beds, and the county provide some facilities other than the county jail.

LACKS FACILITIES — Fifty delegates and interested citizens gathered at the City Hall commission chambers to discuss the growing problem that Oakland County lacks sufficient emergency facilities to care for the mentally ill.

Criticism has been leveled because many must be housed at the county jail pending further treatment.

Judge Moore's recommendation was ordered sent to the county Board of Supervisors in time for their Dec. 23 meeting.

During the three-hour session

the question of who should finance these facilities was brought up by Judge Clark J. Adams, president of the council.

"We all agree that something has to be done for the mentally ill who are not yet being treated by the state," he said. "The question is should the county pay the expense of somebody else."

JAIL HOUSES —

Sheriff Frank W. Irons said the jail presently houses two mental patients. "We don't want to take care of them but what else can we do under existing conditions," he said.

The chairman of the Mental Health Committee of the Oakland County Medical Society, Dr. L. Jerome Fink, accused

the county of "hiding behind a cloak of legality."

"If the people of Oakland County want a facility for the mentally ill, and county government gets behind the idea, there should not be much trouble in changing existing law if that's necessary," Dr. Fink told the delegates.

Edwin A. Tomlinson, president

of the Board of Directors at William Beaumont Hospital, said that the hospital "hoped" to include facilities for the mentally ill in its expansion plans.

"The county is studying the need for more mental health facilities," said Hiland M. Thatcher, chairman pro-tem of the Board of Supervisors, "but at the moment we're not sure how far we can go under existing laws."

Laundry Workers Ousted From AFL-CIO

(Continued From Page One)

firmness to deal decisively with corruption even if it meant expulsion of its largest affiliate — the 1,400,000-member Teamsters Union.

Ouster from the federation of the three unions charged with corruption apparently had restored some of the prestige of the Senate Rackets Committee.

In a final act of its second constitutional convention which ended yesterday, the federation pledged to redouble its efforts to eliminate "all forces of crime, racketeering and corruption within the trade union movement."

WANTS WIDER PROBE —

It felt, however, that too much emphasis had been placed on labor corruption by the Senate committee and called for equal efforts to smoke out any management malpractice.

AFL-CIO President George Meany, re-elected to his second two-year term as head of the federation, summed up labor's position on union corruption in this way:

"The important thing . . . is that we have demonstrated that we are reluctant to throw people out of the house of labor; that we only do it when there is no other way, and that we do it in the full knowledge that it presents dangers to us, but with the complete conviction that in the long run labor will be better off for what we have done here this week."

Meany then told the federation it must stick to its purpose of securing for labor its "fair share" of the national wealth.

"We still think that organizing the unorganized is the first and fundamental purpose of the trade union movement, that it is a prerequisite to doing anything to improve their workers' position," he declared.

The convention had earlier called for an intensified organizing campaign and fixed substantial wage increases, a shorter work week and improved fringe benefits as its 1958 collective bargaining demands.

Muskegon Handles Top Foreign Flag Tonnage

3,000 in Subway Accidentally Trapped

NEW YORK (U)—Some 3,000 passengers — some of them screaming and fainting — were trapped nearly 2½ hours yesterday in a jam-packed subway train.

The stalled train, en route from Brooklyn to Manhattan, was termed an accident, not strike sabotage, police reported.

About 5,000 other passengers trapped for lesser periods ranging from 30 minutes to an hour in two trains following the stalled one.

All 8,000 eventually were safely evacuated and given transfers to other trains.

Investigation showed that the stalled train's brakes had locked accidentally.

Believes Sex Deviate Took Away Missing Girl

SYCAMORE, Ill. (U)—Sheriff Alf M. Deisz says he is convinced a sex deviate is responsible for the disappearance of 7-year-old Maria Ridulph.

The Day in Birmingham

Trunk Sewer Will Cost Bloomfield Hills \$1,950,000

BIRMINGHAM (U)—Bloomfield Hills' share of the North Evergreen Trunk Sewer System will be roughly \$1,950,000, according to City Manager Elmer Kephart.

He said this included other fees amounting to \$204,000, the extension of which eliminates the need for some anticipated lateral lines.

Kephart suggested the possibility of an overall city assessment to pay for lateral sewers with individual property owners paying for connection.

The original North Evergreen Authority terminated trunk plans at Woodward avenue and the Bloomfield Hills Country Club. Plans have been extended to the railroad at East Long Lake road on to Stonycroft Golf Course toward Square Lake road, then along Vay road to Cranbrook and through Cranbrook to the western part of the city.

The North Evergreen Authority has requested that someone be appointed to approve plans for the system in the area. At the suggestion of city commissioners, Kephart was named to the post. The commission retained the right to pass final approval.

Dr. Paul T. Lahti of Fairfax road and Mrs. C. J. Thomas of West Long Lake road have been honored by the American Cancer Society. They have received awards for the excellence of their volunteer service during the past year.

Dr. Lahti is South Oakland's representative to the division board, while Mrs. Thomas is secretary of the board of trustees.

According to Birmingham police, Christmas will be brighter for some unknown area family. Henry Dahlquist reported finding a number of toys, apparently put in the wrong car parked near his business in Birmingham. The toys may be picked up at his office, 184 Pierce St.

James Calvin, 30, has waived extradition from Memphis, Tenn., and will be returned to Birmingham to face charges of breaking and entering.

Calvin was arrested in the southern city when he tried to pawn some silver stolen from D.W.D. Peterson, 888 Westwood Ave., Feb. 19, 1956. Police said the man also is wanted in Pontiac on charges of felonious assault.

Dr. Robert Lee Schorr Service for Dr. Robert Lee Schorr, 84, Tuller Hotel Detroit, will be at 1 p.m. Monday in the Manley Bailey Funeral Home. Cremation will be at Evergreen Cemetery.

A graduate of the Detroit College of Medicine, in 1933, Dr. Schorr practiced in Birmingham from 1931 to 1935.

He was the first industrial doctor for the Fisher Body Co., and had remained active as a surgeon and general practitioner until his sudden death at the Tuller Hotel Wednesday.

He was a member of the St. Paul Cathedral, Detroit, the Mich-

Chemical Firm Blast Kills 4 Persons

ELKTON, Md. (U)—Four persons were killed and several injured today in an explosion at the Thikol Chemical Corp. plant on U.S. 40 near here, state police reported.

Police said the explosion occurred at 10:25 a.m. Union Hospital in Elkton said it had three persons in its accident room.

One police report had two missing, but it was not clear immediately if they were included in the four reported dead.

MSU Housing Project for Couples Approved

WASHINGTON (U)—The community facilities administration has approved a \$3,750,000 loan for construction of housing for 800 married students and their families at Michigan State University.

The administration informed Sen. Potter (R-Mich) yesterday that the university will supply \$2,950,000 for 72 two-story brick apartment buildings. The buildings will include 276 two-bedroom units and 524 one-bedroom units.

Michigan State's 4,529 married students have been living in temporary quarters. They comprise about 25 percent of the university's total enrollment.

Still Not Certain Ike Will Deliver Message

WASHINGTON (U)—An outline of President Eisenhower's 1958 legislative program will be presented to Congress Jan. 9, two days after it reconvenes.

The White House said there was no word yet on whether Eisenhower will deliver his annual State of the Union message in person. He has done so every year but one since he became president in 1953. The exception was in 1956 when he was recuperating from a heart attack.

2 Pedestrians Hurt on Pontiac Streets

Two pedestrians, one a six-year-old boy, were injured in Pontiac traffic accidents yesterday.

Jessie Cunningham, 6, of 414 S. Saginaw St., was knocked down by a car while running across S. Saginaw at Rapid Street.

The driver, John E. Powe, 32, of 252 Bondale Ave., told police he did not have time to stop.

The boy was taken to St. Joseph Mercy Hospital by the Pontiac Fire Dept. and is in fair condition today with internal injuries and multiple abrasions.

Bennie Williams, 40, of 283 Rapid St., was injured when he crossed W. South Blvd., near Franklin Road last night.

Williams was hit by a car driven by Marie McGilligan, 25, of 34 Lincoln Ave.

He was treated at Pontiac General Hospital for face lacerations and released.

Lucky Woman Not Afraid of Friday 13th

Friday the 13th—that's today's day and date—holds no superstitious worries for Mrs. Lula Mae Hopper, of 96 S. Marshall St.

Mrs. Hopper, who celebrates her 44th birthday today, was born on Friday, Dec. 13, 1913.

She had 13 letters in her maiden name — Lula Mae Miller — and has 13 letters in her married name.

In addition, Mrs. Hopper notes that she has 13 nieces and nephews. "The number 13 has always been pretty lucky for me," she said.

Her husband, Harold Hopper, is an automotive maintenance man for Orchard Lake Village.

Advises Law Changes

DETROIT (U)—A 23-man committee of building and health officers has recommended changes in Michigan's housing law. The committee was appointed by Gov. Williams.

How does an airliner's radar equipment enable it to offer a smoother ride than airliners not so equipped?

Radar or a radar-eye, as some call it, enables the pilot of an airliner to detect the densest section of clouds ahead. The densest section (often precipitation) is usually the most turbulent. It should be avoided if passengers are not to be tossed around in their seats.

Most people do not know it but summer thunderstorms often contain updrafts and downdrafts, moving vertically at hundreds of miles an hour, very close to each other. In the old days with flimsy aircraft, a pilot risked his life entering such a cloud.

Winter clouds are not so dangerous but are more extensive, laterally. Radar allows the pilot of a passenger plane to dodge the rough spots in all seasons but more easily in summer, when the rough spots, though more numerous, are usually not general, but localized.

JAMES E. BRIDGEWATER

BIRMINGHAM (U)—James E. Bridgewater of 2903 "W" 12-Mile Rd. will be installed as high priest of Birmingham Chapter 93, Royal Arch Masons, Monday at the Birmingham Masonic Temple. He is a member of Southfield Lodge 373, Free and Accepted Masons.

Installing officers will be James F. Smith, acting grand high priest; Richard W. Lewis, acting grand captain of the host; Edwin Grant, acting grand secretary, and William Johnson, acting grand chaplain.

Refreshments will be served by the Birmingham Chapter 220, Order of Eastern Star.

Check That Check, It May Be a Phony

Phony checks are flooding the stores at an ever-increasing rate as the Christmas season approaches, the Oakland County prosecutor's office warned today.

Chief Investigator Anthony F. Stiel urged store managers to have clerks demand full identification from shoppers endorsing checks.

"A driver's license is usually all that is offered, but it's not enough," Stiel said.

"If clerks would demand to see automobile registrations in addition to driver's licenses, many phony check passers would be discouraged."

"Cashiers should note automobile licenses on the backs of checks, since this is usually good proof of the identity of the endorser."

Flee Volcano Eruption

PORT MORESBY, New Guinea, (U)—Some Europeans and nearly 4,000 natives are being evacuated from Manus Island because of a volcano eruption. Manus is 10 miles off the New Guinea coast.

Moscow Radio Aims Barrage at NATO Parley

MOSCOW (U)—Moscow radio kept up a round-the-clock barrage today aimed at the NATO summit conference in Paris.

Hour after hour the broadcasts told the Soviet public and listeners abroad that the Atlantic Alliance is a threat to world peace and incompatible with the United Nations.

Announcers read the anti-NATO notes the Kremlin sent to all U. N. members yesterday and comments on them.

The propaganda fire was rapidly approaching the intensity it reached during the Suez crisis.

Fire Prevention Bureau Almost Starts Blaze

CHICAGO (U.S.) — Firemen early today rushed to City Hall to investigate a report of smoke in room 105.

The smoke came from an overheated blower in a radiator. Firemen reported no damage.

Room 105 is the Fire Prevention Bureau.

NEW YORK, N. Y.

1940-41 Good Years; Beware Flashy '20s

Home—Like Wine—Best Picked by 'Vintage'

By PHYLLIS BATTELLE

NEW YORK (INS) — It's tough enough finding a good apartment or house these days, at a price that won't render asunder the heart of your pocket.

But then, if you're shrewd, you've also got to be aware of its vintage — as if a house is something to be drunk up, not bunched in.

It seems, for instance, that buildings put up in the troublesome years of 1940 and '41 in the United States are far superior to those erected in the gay and wealthy 1920's.

Apparently certain periods in architectural history, of this century, were notably good. And others were notably bad and are now obsolete.

If you move, therefore, into a house of 1925 vintage, it is likely you will have rusty water. You may even have to stoke the fires in the heating plant.

FHA CLAMPED DOWN

However, if you select one of 399,000 buildings constructed in 1939, the construction standards will be fine. That's about the time the Federal Housing Administration clamped down on its improved minimum requirements for home engineering.

An engineer named George Silverburgh recently compiled his ideas of how to select one's hearth by its vintage — rather than by sheer whimsy or devotion to its neighborhood — and the list went something like this:

The Number One good years for good houses were 1940 and '41, followed closely by 1939.

Not quite so tight in many construction details, according to George, were the buildings of the post-war years, 1947 to 1957.

Next down on the list came 1937 through '38.

1946 BAD YEAR

And watch out for houses of the year '46. Apparently everybody was too busy celebrating the end of wartime. That year's construction falls in a class just above 1934 and 1935, which were in the early, and not notably progressive era of FHA improvements.

And far, far down at the bottom of the ratings came those flashy structures from 1920 through 1933. Comparatively speaking, they were for the birds.

—although possibly not so well insulated as some really spitty bird houses.

★ ★ ★

Whatever vintage your home-

stead, the "Cabin Craft" people (they make carpets and rugs) say the chances are you'll be moving in the not too distant future. They call Americans "endless pioneers" and say that "reliable statistics" show that one out of every five U. S. families moves from one home to another every single year.

And half of all families in the nation transfer to new living quarters every five years.

(Copyright 1957)

JOINS SAFE TEEN CLUB — Representatives of the three groups sponsoring Pontiac's newest teen club, The Safe-Teen Club, welcome one of its first members. Members must have their autos safety checked by one of the 10 members of the Pontiac Automotive Trade Assn. who are authorized safety check stations. If deemed safe, the teen is given a black and red "safe-teen" luminous bump-

er sticker and a membership card. Left to right: Carleton C. Patterson Jr., Pontiac Association of Insurance Agents, presents the sticker to Jack Lightcap, 16, of 117 W. New York St., as Henry Gotham, Pontiac Retail Store, and Mrs. Lee Hill, traffic and safety committee of the Pontiac Area Chamber of Commerce, stand by.

Helps Design Weapons at New Mexico Nuclear Project

Coldwater Man Top Aerodynamicist

ALBUQUERQUE, N.M. (U.S.) — One of the bright young men in New Mexico's vast nuclear weapons development projects is a 23-year-old scholar from a Michigan farming community.

Norman Hawk, son of Mr. and Mrs. Arthur J. Hawk of Coldwater, Mich., is an aerodynamicist—the youngest holding a master's degree in his division at the Sandia Corp.

An aerodynamicist is one who

makes a study of air flow around aerodynamic shapes. He helps design weapons at Sandia.

Hawk's rise to his present position in one of the nation's top nuclear weapons development units took considerable work, by his own admission.

His love of flying things began early. He was only five when he took his first plane ride. Now he's involved in what makes planes fly and the sky world in general as it applies to man-made objects.

Norman was educated in Coldwater schools, graduating as valedictorian of his class in May, 1952.

When he left high school he worked at a sewage construction project until fall when he entered the University of Michigan. He won a Regents Alumni and Student Scholarship and remained at the university five years until he obtained his master's degree.

Much of young Hawk's present work is classified.

He began work at Sandia last July. He had five or six other offers from big aircraft firms but says this position in New Mexico afforded him more opportunity for research work, which is what he wants now.

At the moment he is working on a device which he hopes will reach the patent stage. Even the subject matter is classified right now.

What does an aerodynamicist do in his spare time?

"Lately, track Sputnik with my 60-power telescope," says Hawk. He also is a student of astronomy and photography.

Two years ago Norman married his childhood sweetheart, Gloria Meier. She graduated a year after Norman from Coldwater High School, also as valedictorian of her class.

It Meant Ruin for Italian Actor

Had 'Mistfortunate' Face

ROME (INS) — An actor's face can be his fortune. But for Diego Carlsli it meant heartbreak and ruin.

Back in 1937 Carlsli, a 19-year-old actor from Milan, looked forward to a promising career in the movies. He was to star in a picture about the Italian allegorical figure of Saladino, a Punchinello type.

Even before the cameras at Cinecitta could start grinding however, Carlsli was told by the Fascist authorities he could not make this—or any other film.

The order stemmed directly from the late Benito Mussolini.

It wasn't Carlsli's political views that got him into trouble. It was his remarkable resemblance to the former Fascist ruler, for whom he was a perfect double. If Duce, it seems, could not tolerate having another man portray his image on theater screens.

The government, recognizing it had smashed Carlsli's career, promised to pay him 1,000,000 Lire as compensation.

The disillusioned actor had no choice but to accept, and the sum at that time was a small fortune. He retired from acting and went into business.

Carlsli's troubles, however, were not over. He was constantly shadowed by the police who

feared he might leave the country or touch off complications because of his similarity to the Duce.

At the same time he failed to get any money from the regime. The war came and the Fascists collapsed. After the conflict, Carlsli again put in his claim, although the money had been promised by a government which no longer existed.

Rolladium Completes 2nd Elimination Series

Second elimination series at the Rolladium showed Pamela Hook, Sandra Scobet and Carmen Hirselen winners in the girls' division for class A, B and C respectively, and Doug Stranahan, Arnold Oasta and Duncan Wood in the boys' division.

Pat Haller won the diaper division race.

In proficiency tests this week, high test awards were Viria London, 7-bar figure, Jack Horner, gold bar dance and Carol Walsh, gold bar free style.

Half the meat produced in the world is beef or veal. Four-tenths the total is pork; less than one-tenth is mutton.

This Producer Dislikes TV's 'Great Unwashed'

By EARL WILSON

NEW YORK — Television's choked with shampoo and soap commercials—but have you noticed how many TV actresses look like they need their hair washed or their faces scrubbed?

★ ★ ★

Alfred McCleery, producer of NBC's celebrated "Matinee Theater," has — and he says TV should be cleaned up . . . literally.

"I blame it on what I call 'the Belly-Button boys' — the Actors Studio people who contemplate their navels, and scratch, and won't dress up," declared McCleery here the other day.

"The first thing we do with the girls," said McCleery, who's produced more than 540 daily shows and paid more than \$1,750,000 in actors' salaries, "is wash their faces and give them a good colf. I think it's inexcusable that one of the prettiest girls on Broadway was recently required to look disheveled and dirty-faced."

★ ★ ★

"Joan Crawford and Audrey Hepburn are not stupid women!" emphasized McCleery. "They are always immaculately groomed."

The "great unwashed" start washing up when they get to Hollywood, where they're all going now in the huge TV migration, McCleery said.

"One of them has a lovely home and a swimming pool now. He's in the Hollywood Set. I remember when he first came out, he said, 'I wouldn't be caught in a Thunderbird!'"

It's the opinion of McCleery — who grew up in Fort Worth and Lawrence, Kan. — with stopovers in Pasadena and Cedar Rapids — that virtually all of TV's moved to Hollywood except the writing.

Nowadays, he contends, there are no more starving writers. Just lazy writers.

THE MIDNIGHT EARL . . .

June Havoc sold her \$75,000 Beverly Hills home; owned it three years, never lived in it . . . A famous producer offered Bette Davis a Broadway role, and mentioned \$1,500-a-week salary. "Darling," said Bette, "I thought you said it was on Broadway . . . Harold Lloyd busted two ribs in a fall at home . . . Ernest Hemingway's son Gregory quit his job as usher in a Miami theater . . . Gary Cooper's buying a huge ranch in British Columbia.

EARL'S PEARLS: Sign on a Paris antique shop: "English and Italian spoken. Cash understood." . . . That's earl, brother. (Copyright, 1957)

Town Named Telephone Wants Circuit Hookup

TELEPHONE, Tex. (AP)—Interest is being revived here in getting the town on a telephone circuit. School Supt. Homer Sledge said

a representative of a cooperative had surveyed the area and promised to hook Telephone up to a circuit if he got enough subscribers in surrounding communities. The local telephone system was put out of business by ice storms in 1949.

Sputnik Still Visible to Early Birds Here

DETROIT (AP)—Russia's Sputnik II was visible to the naked eye for the second morning in a row today in Detroit.

One observer said it showed up at 5:42 a.m. and was visible for nearly four minutes near the Big Dipper's handle. It was traveling slowly toward the southeast. It is scheduled to zoom over Michigan again tomorrow about 5:27 a.m. and again Sunday.

Mrs. St. Nick Steals

SAN PEDRO, Calif. (AP)—Store manager Frank Warren says a plump woman wearing St. Nick hat and coat came into his store and selected a pair of drapes. She started to walk out without pay-tries. In 1957 a total of 2,276 Brahman cattle were shipped from the United States to 42 foreign countries.

11 Die as Wind Smashes School

PALERMO, Sicily (AP)—A terrific windstorm smashed a two-story schoolhouse today in nearby Altotente, trapping 30 children of kindergarten age.

Soldiers, firemen and volunteers dug out 11 dead, including Sister Giuseppina, Giordano, 42, headmistress of the convent school. Eleven children were injured, four seriously. The children ranged from 3 to 6 years of age. Five other teaching sisters and

the remainder of the children escaped unhurt.

The storm struck with 75-mile winds at 9:30 a.m., the tile and wood roof broke through to the first story of the building and crashed on children at play. Residents for blocks around heard the crash. Some thought it was an earthquake. Others reported it was a landslide.

The school is part of the convent of the Salesian Sisters and joins the convent on one side. Soldiers of an artillery regiment stationed nearby were the first to the scene and took charge of rescue work.

Mideast Oil Causing Friction Among Allies

More friction is building up in the Middle East over oil, this time with our friends and Allies.

Japan has negotiated an oil drilling concession with Saudi Arabia whereby Japan would pay 56 per cent of the profits to King Saud and split further profits up to the retail level. Aramco, an American syndicate, now divides profits 50-50 with the Arabs but, following the British custom, this is on oil only in the form it leaves Arabia. The Japanese would go a step further.

A government controlled Italian company has offered Iran a 75-25 split and an agreement is reported to have been signed on September 23. Italy has been criticized by both Aramco and Anglo-Iranian on the ground that the high offer was made on a well-proved field thus avoiding the costs and discouragements of exploration. By doing this, the oil companies contend, Italians have encouraged Arab demands for more money in areas not so profitable.

Both Japan and Italy need oil and they simply are outbidding established companies. That's to be expected in competitive business and Arabs can't be blamed for trying to get as much as possible from the oil which Europeans discovered in their lands.

But neither Japan nor Italy will gain anything if they make oil too expensive for consumers at home and bring on an "oil war" among friends.

France Ready to Talk on Algerian Settlement

The first glimmer of hope for settlement of the three year old bloody Algerian rebellion has appeared in the French National Assembly.

Two bills have been passed for restricted home rule and elections and the government of Premier GAILLARD won a vote of confidence on both. The Assembly rejected a Moroccan-Tunisian offer to mediate the dispute although both the King of Morocco and the President of Tunisia are friendly to France.

The National Liberation Front, leading rebel organization in Algeria, says it wants independence not sovereignty. But French Foreign Minister PINEAU stresses the need for free elections to choose spokesmen for the Algerians. Frenchmen consider Algeria part of metropolitan France and not a colony.

While the plans for restricted home rule make no concession toward eventual independence for Algeria, they do lay the foundation for cease fire and settlement talks in this costly war.

Support Our Industry; Ask for Michigan Sugar

I like the Michigan sugar ad in Wednesday's Press.

We should support our own State industrially. Michigan beet sugar is the finest sugar there is. For a time, the cane sugar growers tried to

campaign against Michigan sugar and ride it out of the picture.

★ ★ ★

They failed.
The truth prevailed.

This valuable Michigan industry provides employment for thousands of people and is one of the most important crops in a considerable area of the Wolverine commonwealth. In the Thumb district and around Bay City sugar beets are king.

Michigan sugar has top looks, top flavor and top quality. And furthermore, Wednesday's advertisement brings out the fact that a level teaspoon full has only 18 calories. Clinical tests show sugar calories are used up the fastest of all by the body.

Support your own industry.
Ask for Michigan sugar.

THERE are more than a billion people in the world who cannot read, and less than half of the world's children go to school. Progress cannot go far along modern lines in communities where hardly anyone can read or write. The United Nations Educational, Scientific and Cultural Organization (UNESCO) fights illiteracy around the world and promotes the exchange of knowledge, science and culture.

The Man About Town

Christmas Spirit

It is Much in Evidence in Our Column Items Today

Holly: A tree or shrub quite synonymous with Christmas; also one of the best villages in the Pontiac area.

In one hundred per cent agreement am I with the Christmas card of

Mr. and Mrs. Bryan Sullivan of Waterford, which says: "If you don't think Oakland County is the best place in the world to live, you've never been anywhere else."

Still coming are many testimonials that my scheme for fireproofing a Christmas tree works to perfection. It simply consists of dumping a cupful of calcium chloride in the water in which the tree stands. One who has tried it,

Mrs. Jackson Fellows of Rochester, writes: "It should be given the widest publicity possible," and we ask her if she can conceive of any wider publicity than it is getting.

Don't forget to send that birthday or Christmas card to

Mrs. Eliza Beaumont Taylor, Oakland County's (and probably Michigan's) oldest resident. Her one hundred and eighth birthday is next Monday.

With an Oakland County background, the late

Mrs. Albert Kahn was a granddaughter of Philander Ewell who in the last century conducted the Rochester Woolen Mills, located a couple of miles northeast of that village.

Our sentiments are exactly expressed in a poem received from

"Enjoyer of Your Column," which tells of all the new labor saving devices in the household, yet when you put them together you haven't anything to take the place of mother.

Verbal Orchids—

Charles Hayward of 263 Oakland Ave., eighty-fourth birthday.

Mr. and Mrs. Ralph E. Easley of 6809 Williams Lake Road; golden wedding.

William S. Posthumus of 199 Ogema Road; eighty-first birthday.

Garfield Parkinson of Bloomfield Hills; eightieth birthday.

Mrs. Rebecca Harrington of Birmingham; eighty-fourth birthday.

Mr. and Mrs. Mark Axford of Rochester; sixty-first wedding anniversary.

Mrs. Mary E. Pincomb of Lake Orion; eighty-sixth birthday.

Mr. and Mrs. Eber Northamshire of Rochester; fifty-first wedding anniversary.

Mr. and Mrs. Ray Shults of Groveland Township; fifty-second wedding anniversary.

Mrs. Elsie Leonard of Fenton; ninety-fourth birthday.

Ulysses S. Graham of Metamora; eighty-fifth birthday.

Our Worst Fifth Columnist!

David Lawrence Warns:

Bulganin's Letter Can't Be Trusted

WASHINGTON — If the text of Premier Bulganin's letter to President Eisenhower had been issued

by any statesman of the Western world, it would have been pronounced a great state paper. For it is well reasoned, logical, persuasive and unquestionably describes accurately the tensions in the whole world situation.

It even presents LAWRENCE constructive suggestions. No better reasons for negotiating world peace could be advanced.

But, unfortunately, nobody trusts the rulers in the Kremlin. Their words are not worth the paper they are written on. Similar professions of sincere purpose have been made again and again for ten years or more by the Soviet rulers, only to be ignored by them in practice.

The Communists chieftains have never made good on their promises. They have consistently violated their pledges.

No peace treaty can be made now, no disarmament agreement can be signed, and no basis for negotiation exists with the mischievous men in the Kremlin. They can employ the craftiest writers of notes and the best ghost-writers of state papers can be recruited from their foreign office staffs.

But the record is there to show that the words are never matched by deeds.

What good does it do, for instance, to have any more "Summit Conferences" with men who are without scruples, men who oppress their own people and who make a mockery of the idea of individual liberty.

There are nevertheless naive men in the West who still want to keep on talking to the dictators in Moscow in new "Summit Conferences." It is not realized that the West looks weaker when it begs in a humiliating posture for more talks with criminal rulers, whose prestige in the world is, of course, enhanced by such attentions.

It isn't as if diplomatic negotiations haven't been tried repeatedly. Memories seem to be short. All during this past year, "disarmament" discussions with the Soviets have been going on in London, and the result has been exactly zero.

Again and again proposals are made and intimate conversations are conducted at the highest level as the secretaries of state of Western nations confer with high officials of the Soviet government. Yet it all comes to naught. The Soviets consistently say "no."

The reason? They are betting on the disunity of the West. They are relying on an insidious policy of penetration and subversion. In the French parliament, there is a Communist bloc of nearly 100

deputies which holds the balance of power there.

The Communists have managed through machinations in North Africa, to weaken the French Republic and even to subtract military strength from NATO as police duties in Algeria require French troops to stay there at higher and higher expense each month.

Also in West Germany the Communist infiltration continues among the opposition parties. Even in Britain some of the labor socialists talk the language of the Communist policy-makers.

Why, therefore, should the Soviets say "yes" to anything the West proposes when such significant progress is being made to aid Communist strategy inside Western countries?

As for America, the voices of appeasement are constantly raised here. Political leaders seek to exploit foreign policy for partisan ends, and the Communist apparatus unfortunately is given the benefit of protective devices by our naive Supreme Court.

The prelude to World War I and the prelude to World War II pre-

sented almost exactly the same set of circumstances as exists today—a single government, which need not consult its people but can move at any moment into war, rules over a country with manpower and resources that challenge the free world.

Appeasement now can hasten a world war, as has happened twice before. Only the emergence of a free government in Moscow can prevent a third global war.

(Copyright, 1957)

'Bugs' Baer Says:

Twelve semesters ago this stack of second-grades diagnosed the Moscovellian policy of hate-and-run.

It mapped false alarms in all directions and ground-moiling along the meridians. It involved espionage at the micro-film level. And the slickest treachery since Nero booked his mother on a drop-bottom passenger boat.

You might figure the price of treason would keep pace with the ups of subway fares. But it's still a wooden nickel.

Dr. William Brady Says:

Pardon Me While I Laugh at Big Cholesterol Boogy

An animal, a human being, a rose or an apple grows to a peak of perfection and immediately thereafter begins to decline, fade, deteriorate.

It is the way of all life in this world. Everyone who lives long enough must undergo physical degeneration — and I'm tired of quoting Webster's and Stedman's definitions of degeneration.

When degeneration creeps upon you, muscle, nerve, gland and organ cells which wear out and die are no longer replaced by functionally efficient new cells, but more and more by inert or functionally useless material—fat, fat, calcium, cholesterol.

That is what happens before the deposit of calcium or cholesterol in the arteries, joints or other tissues of the body. And any physician who has studied pathology knows it.

Ha! Ha! Here I beg to be excused while I have another laugh at the two bachelors, in their sixties, who carefully dissect every bit of fat from their meat before they eat it. Some "clinic" racketeer told the poor souls that they must exclude cholesterol from their diet lest they get deposits of the stuff in their arteries—that would give them "atherosclerosis."

And so the comical characters are making themselves and those around them miserable by quarreling with their food instead of enjoying it. The fat in meat is what gives the meat flavor. Likewise the fat in milk, cream, butter, eggs and many other foods which should be included in everybody's good health regardless, or perhaps I should say because, of their high cholesterol content.

It is not just my belief, but the consensus of recognized medical authorities that there is no scientific evidence to warrant low cholesterol diet for the prevention

or treatment of artery, joint, liver, gall-bladder or other disease.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis or treatment, will be answered by Dr. William Brady, if a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

(Copyright, 1957)

Case Records of a Psychologist:

Suggests Gift for Older People

Melba is puzzled as to what gifts she should get for her aged parents. Four specific suggestions are offered below. They are medically and psychologically sound, and may knock 5 to 10 years off the age of the recipients. Scrapbook this case or mail it to others who want some unique gift ideas.

Case W - 371: Melba G., aged 31, is a very efficient housewife. "Dr. Crane, I never know what to get my parents as a gift," she began.

"Ties and socks and handkerchiefs are all my dad ever says he wants, but I wish I could surprise him with something different."

"What would you suggest?"

UNIQUE GIFTS

An excellent gift for both men and women of all ages, is a hassock or foot stool.

For when we prop our feet thereon, our seated height is reduced from the usual 4 1/2 feet to about 3 feet.

Thus, our heart obtains a double rest. First, it doesn't have to force our blood up that extra 1 1/2 feet, so it can lower the blood pressure slightly.

And it can likewise slow down its beating. This hassock will serve as double barreled insurance for your heart, since it reduces its frequency of beating and permits the heart to beat against a lower

Voice of the People

Group Seeking Volunteers to Look for Flying Saucers

If anyone has seen any unidentified flying objects, known also as flying saucers, or knows anyone who has seen them since January 1, 1957, please contact us immediately, giving full names and addresses of the witnesses to the sightings.

We are in the process of setting up UFO observer posts all over the world. Each region will have its own filter center which will receive all reports and distribute material from headquarters. The Air Force investigation has either gone underground or has the answer and hides the fact from the public. It still remains that millions of people continue to see UFOs and the public still doesn't know what they are. We want to find the answer.

All persons, especially those with still and movie cameras, who are interested in setting up observer posts, who can devote one to three hours a day on skywatch and who can be relied on to have cameras loaded and ready to photograph these objects, should contact us for full information.

William Cato, Director
Michigan Filter Center
Inter Continental Aerial Research Foundation

Old Timer Agrees We Owe Respect

I agree with the letter in The Press saying that we should respect our City police. It certainly was true years ago.

From the children right on up we all figured the police officers were heroes. I can remember when they worked the various corners of the City and at Christmastime many people would give the officers presents. It was not an uncommon sight to Christmas eve to see great stacks of gifts around the police in the downtown areas.

The citizens did this because they appreciated the services they had offered during the year. A few kind words and an expression of thanks go a long way.

Old Timer

'How Can Anyone Gloat Over Injury?'

How anyone could gloat over the injury to a human being is more than I can understand, whether he be a banker, farmer, soldier or street cleaner. This Cleveland team saw they couldn't beat Layne and never could so they did the next best thing. And I'm sure most of the Michigan fans know that when he is in there, look out.

Leo Stiers

Birmingham

She's Satisfied as She Is Now

I've often thought it would be fun to be the wife of some famous man like the President, but after seeing films of Mamie's recent shopping trip, I've changed my mind.

She can't do anything without having a horde of photographers on her neck. And think what a calamity it would be if she were to slip a coat over her bathrobe for a quick trip to the corner store, the way most wives do occasionally.

It would be a national crisis by the time the newshounds got through with it.

Satisfied Housewife

Has Suggestion for Merry Yule

Let's have a merrier Christmas by all getting together to change from reckless driving the wreckless driving.

Mrs. Marvel Pardon FE 4-6834

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

Portraits

By JAMES J. METCALFE

Have you done your shopping or... Are you about to start... To buy some present for the ones... So loving to your heart?... Christmas is not far away... The days are somewhat few... For all the favors for your friends... That you would like to do... Every store is open now... Until that hour late... Check your list, and hurry, so... You will not have to wait... Get there quickly as you can... And be prepared to shout... For some important article... Before it is sold out... Do your Christmas shopping now... Let not your heart delay... The joy you want the ones you love... To have on Christmas Day.

THOUGHTS FOR TODAY
Aristarchus my fellow prisoner saluteth you, and Marcus, sister's son to Barnabas, (touching whom ye received commandments: if he come unto you, receive him). — Colossians 4:16.

If sorrow could enter heaven, if a sigh could be heard there, or a tear roll down the cheek of a saint in light, it would be for the lost opportunities, for the time spent in neglect of God which might have been spent for His glory. — Edward Payson.

folks consist of hearing aids and newly fitted eye glasses and a new set of false teeth.
Grandparents are usually very

generous with their grandchildren but often stingy about indulging themselves.

Thus, they will wear old dentures that slip off their gums. Or they will try to read with glasses that should have been changed 10 years ago.

Or they fail to get a new hearing aid. So you children or grown grandchildren might chip in and get them outfitted for far greater enjoyment of their final years here on earth.

Jesus said he came that we might enjoy the more abundant life and it is sinful for our older relatives to stumble along with 60 per cent vision when new glasses would give them 100 per cent.

And they should not be debarrd from hearing and eating efficiently, either, so surprise your family and older kinfolk with these gifts that will rejuvenate them wonderfully.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 36 stamped, self-addressed envelope and 30¢ to cover typing and printing costs when you send for his psychological charts and pamphlets.

Ramblin' Wrecks Prefer to Date Kissable Girls

ATLANTA (U) — Georgia Tech men report their ideal date doesn't drink or smoke, is serious, sweet, conservatively dressed, broadminded and kissable on the first date.

She's also a little over 5 feet 2, has eyes of blue and brown hair. The attributes and statistics were revealed in a poll conducted by Technique, student newspaper. The editors said 441 of the school's 5,400 students answered the questions.

Only 4 per cent of the Tech men voting were in favor of a "little old naive girl."

There were occasional bursts of spirit reminiscent of the good old college days, however. Six per cent voted for "any girl up to 20 feet or six beer cans in height." Seven per cent said they didn't care whether she weighed 150, 350 pounds or the equivalent of three cases of beer.

Hawk Raised in Medieval Tradition Revives Falconry Sport

ALBUQUERQUE, N.M. (INS)—A 13-year-old Albuquerque boy is raising a pet falcon in the medieval tradition of falconry.

John Griggs, son of Roy L. Griggs of the U. S. Geological Survey, found a young hawk in a cliff nest near Tucuman.

NAMED BIRD

Griggs named the bird Buccaneer and has raised it with tender care. Just recently, after corresponding with professional falconers in Europe and the United States, he began to train Buccaneer for hunting.

The boy has all the equipment needed for the ancient sport of kings: a leather hood with feathered plumes, leather gauntlets, British leather game bags, leg leashes (jesses) and special metal swivels for falcon's leashes, metal bells from Pakistan and Europe, and the most important item of all, sturdy leather gloves.

A hunting falcon diving after its prey is an impressive sight.

According to the art of falconry, the bird is hooded until the game is sighted. When a bird is sighted,

the hood is removed and the falcon is released from his perch on the falconer's wrist.

The perfectly trained bird loses no time in going into action. He soars high above his unsuspecting prey. Then when at the right altitude, the bird falls into a dive.

The trained falcon kills his prey in mid-air with a closed claw, unlike wild hawks who capture their prey in mid-air and kill it on the ground.

The falcon's blow usually breaks the prey's neck and it tumbles to earth. The falcon remains perched upon the prey until the falconer arrives.

Mobsters Silent at Investigation

One Man Invokes Fifth 18 Times at Watchdog Committee Hearing

By JAMES KOCH

ALBANY, N. Y. (U)—Legislative probes threatened to slap contempt proceedings on bulky mobsters if they refused today to tell what happened last month at a gathering of gangland's elite and their friends.

Big John Ormento, one of the 60 men at the national gangland meeting at tiny Apalachin, took the Fifth Amendment 18 times yesterday as the first to testify among two dozen delegates subpoenaed. Ormento, of Lido Beach, Long Island, was under warning not to repeat the performance as he prepared to return to the witness chair today.

Other delegates slated to follow Big John in the watchdog committee's public hearings were Joe Profaci, the "Olive Oil King" from Brooklyn; Joseph Falcone, Utica liquor dealer; and 21-year-old Joseph Barbara Jr.

It was young Barbara's father who played host to the hoodlums when surprised state police flushed them from his spacious stone mansion west of Binghamton Nov. 14. The raid touched off more than a dozen investigations in assorted states into the reasons for the meeting.

No one has talked yet and Ormento's recourse to the Fifth Amendment indicated few, if any, will now.

Ormento, a twice-convicted dope peddler, gave no more than his name and address. He invoked the Fifth Amendment on each of the nine questions dealing with his criminal record.

Coast Group Decides Withdrawals Today

LOS ANGELES (U)—The question of whether the University of California and UCLA withdraw from the disension-torn Pacific Coast Conference is expected to be decided by the regents today.

The Board of Regents, governing body for all the university campuses, is due to take up the hot

question at a 2 p.m. (PST) open meeting.

What recommendations, if any, were formulated in yesterday's closed committee meetings are not known.

Rock Hudsons to Split

HOLLYWOOD (U) — Actor Rock Hudson and his wife, the former Phyllis Gates, are panning a divorce, their friends said yesterday. Hudson, 32, and Miss Gates, formerly his agent's secretary, were married Nov. 9, 1955. They separated last October.

Williams Heads Civil Righters

Governor New Leader of Continuing Confab of 12 States

NEW YORK (U)—Michigan Gov. G. Mennen Williams has been named head of a new continuing governor's Conference on Civil Rights.

Purpose of the conference, attended here yesterday by governors and other officials from 12 northern and western states, is to "expand interstate cooperation to protect and strengthen the rights of the individual."

The conference, which met on the 10th anniversary of the founding of former President Harry S. Truman's committee on civil rights, criticized the federal government for what it called inadequate efforts to combat discrimination in employment.

It charged that the president's committee on government contracts is underbudgeted, understaffed and too limited in its objectives.

Gov. Williams and Gov. Averell Harriman of New York sponsored the meeting. Membership in the new group was limited initially to the governors of the 12 states that have anti-discrimination laws. Members will be added as other states enact anti-bias laws.

Next Time Johnson Likely to Be More Specific on 40-Hour Week

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (U)—The next time Sen. Lyndon B. Johnson of Texas talks of scrapping the 40-hour work week he'll probably be specific.

He talked of it this week and got a lot of attention but only because it wasn't clear he had been repeating what someone else said. Then he had to make it clear.

Johnson, besides being the Democrats' Senate leader, is chairman of the Senate Preparedness subcommittee investigating the missile and satellite programs.

In talks in Texas about the need for speed to catch up with the Russians, Johnson said the 40-hour week will not produce the intercontinental ballistic missile.

And he said further: "We are justified in calling for an end to the 40-hour week, but not as a means of increasing profits for business."

This raised immediate questions: Was he talking of a 48-hour week without overtime pay? Was he talking of a 48-hour week for the whole country? Was there a need for a 48-hour week?

Johnson got a quick and unfavorable reaction from AFL-CIO leaders at their convention in Atlantic City.

They opposed the idea of a long-

er work week and pointed to spreading unemployment and layoffs in the aircraft and missile fields because of economy cuts by the Defense Department.

(Their statements about unemployment were confirmed later by the Labor and Commerce departments, which said the volume of unemployment in this country last month was the largest for any November in the past eight years.)

Johnson did his talking Tuesday. On Wednesday he explained what he had had in mind about the 40-hour week.

He said he didn't mean it to apply to industry as a whole but only to missiles. And an aide later said Johnson wasn't talking for or against overtime pay.

Johnson said: "What I have done is repeat testimony before the Senate Preparedness subcommittee to this effect: 'McElroy found, when he took office, there had been a government ban on overtime pay for making missiles. McElroy quickly lifted the ban and authorized overtime. But is there a shortage of work-

ers for the missile program? Apparently Johnson doesn't know whether there is.

A call to his subcommittee, still working on its investigation of the missiles program, brought this answer: "We don't know whether there is a shortage of workers or not. That's something we hope to find out about as we go along."

An ironclad rule of Navajo Indians is that a husband cannot look upon his mother-in-law when she comes to visit her daughter. He has to get out of the house until she leaves.

John Adams was the first U.S. ambassador to England.

82,000 U.S. Troops Believed Still in Japan

TOKYO (U)—The director of Japan's procurement board said today 82,000 U. S. troops are still stationed in Japan.

The U. S. military declined to confirm the figures.

Kentaro Uemura told the Diet's lower house Cabinet Committee there are 22,000 U. S. ground soldiers in Japan, 20,000 Navy personnel and 40,000 Air Force.

He said about 20,000 men have been withdrawn from Japan since plans for a gradual pullout were announced by President Eisenhower and Premier Nobusuke Kishi last June.

The Child Welfare league of America, formed in 1920, has members in 182 cities located in 44 of the states.

Tried Every Minute in U.S.

Book Discusses Suicide

LOS ANGELES (INS)—At least one attempt at suicide is made in the United States during every minute of the day and night.

And chances are the person who tries to take his own life will be a prosperous white male just shy of his 50th birthday.

These and other facts probing the motivations of the nation's 15,000 successful suicides a year are contained in a book titled, "Clues to Suicide," written by Dr. Edwin S. Schneiderman of the University of Southern California and Dr. Norman L. Farberow of the University of California at Los Angeles.

Their volume took three years to compile.

It disclosed that suicides occur most frequently between the ages of 49 and 50, that males exceed females by three to one and that many more suicide attempts take place among the so-called privileged groups than among those in a lower income bracket.

The experts said the rate is lower among married persons than in those single, widowed or divorced.

They said of those persons who commit suicide almost one-half do so within 90 days after a first, unsuccessful attempt. They said:

"The final act occurs more frequently when the patient seems to be on the way to recovery. This means that physicians and relatives must be especially watchful during this period."

How To Hold FALSE TEETH More Firmly In Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little **FASTTEETH** on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not stain. Checks "white color" (denture breath). Get **FASTTEETH** today at any drug counter.

U.N. Unit OKs Technical Aid

U.S. Plan to Expand Help to Poor Nations Approved by Group

UNITED NATIONS, N. Y. (AP)—The U. N. General Assembly's Economic Committee last night approved a U. S. plan for expanding U. N. technical assistance to lay the groundwork for economic growth of underdeveloped nations.

The committee voted 63-0 with eight abstentions for the 100-million-dollar plan after the United States opposed a broader proposal to create a "SUNFED" agency—the Special U. N. Fund for Economic Development. Various groups in the United States had assailed the SUNFED proposal.

Poorer nations have long urged creation of SUNFED to provide 150-250 million dollars a year for loans and grants for such nonpaying projects as roads and schools. The United States considered the idea unrealistic.

"The resources that countries are now prepared to make available would be totally inadequate to establish a fund of sufficient size to do the job intended for it," Rep. Walter J. Judd (R-Minn.), a member of this year's U. S. delegation to the U. N. Assembly, told the committee.

The United States proposed instead that 100 million dollars be spent annually to finance industrial and agricultural training institutes, surveys of resources and other special projects that would foster further economic development of recipient countries.

Judd promised to urge the U. S. Congress to supply 40 million of the total.

Other U. N. members would be asked to contribute the rest.

The committee adopted a resolution saying it "looks forward to the establishment" of the fund Judd suggested by Jan. 1, 1959.

Avondale Plans Snow Ball Hop

The annual Christmas Snow Ball dance, sponsored by the Avondale High School Student Council, will be held tomorrow night. Couples will dance to the music of the Continentals from 8 until 11 p.m. in the gymnasium.

A huge decorated Christmas tree will be the focal point of decorations for the affair.

Committees for the dance are headed by: Carol Mazurek, decorations; Linda Hall, publicity; and Margaret Poynter, refreshments. The sponsors in charge are: Mrs. E. N. Baker, William Saville, and R. B. Crowell, principal.

Activity card holders will be admitted free. Otherwise, there will

be a \$1.25 charge per couple or 75 cents for singles.

Candy sales for the American Field Service program are continuing according to Don Barnhart, chairman.

Mr. America, George Eiferman, will be featured at assembly to be held Thursday, at 9 a.m.

The annual Christmas concert will be given by the combined choral and band groups Wednesday, at 8 p.m. The program is under the direction of Barbara LeBeau, choral, and John Nextek, band.

The Nativity, by Roger C. Wilson, will be dramatized by the choral group. Solos will be sung

by Henry Bobek and Galy Sundberg, baritones; Frank Harris, tenor; Ray Goforth, bass; Jo Ellen Crawford, mezzo-soprano; and Frances Thompson, soprano. The organ accompanist will be C. J. Wiseman, faculty member.

AT WALLED LAKE

By winning both debates in the second Inter-Lakes tournament of the year at Southfield High School Monday, Walled Lake is tied for first place with Farmington and Southfield.

Walled Lake's affirmative team consisting of Renee Thibodeau and Becky Odell defeated the negative of Lincoln High of Van Dyke. Karen Kasser and Peggy Emmert, upholding the negative, won from

Farmington's affirmative. Also participating in the affair were Tom McClelland and Frank Crawford, affirmative; and Diane Slinker and Nina Hill, negative, who debated in novice tournaments.

Mrs. William Duckwitz is the coach of the Walled Lake squad which will meet both of Cranbrook's teams in the next tournament at Farmington January 6. Unless ties still exist Walled Lake will host the final meet on January 13.

The senior class will be host to

the dance following the basketball game with Lincoln of Van Dyke tonight.

The Journalism class has undertaken a project which they hope will insure that the school's four foreign exchange students are able to take the senior trip with the rest of the class. They have started a campaign to sell each student in the school a copy of the December issue of the Viking Ventures, the monthly school magazine published by the class. Proceeds will pay for the trips. It will be sold next Friday.

WTHS A Cappella Choir Prepares for Holiday

By SANDY CLEMENCE

The Waterford Township High School A Cappella choir is preparing for the annual Christmas concert which will be presented Wednesday, Ruth Ann DeGow will narrate Dickens' "A Christmas Carol."

The Speech II class will produce the Christmas assembly next Friday. The play they will perform is "The Fourth Wise Man." The annual Children's Theater play has also been selected by this advanced speech class. The play will be the fairy tale, "The Sleeping Beauty."

Robert Dornbush, senior at Manchester College, North Manchester, Indiana, was one of nineteen seniors to be named for listing in the 1958 edition of "Who's Who in American Colleges and Universities." He is the son of Mrs. Ruth Dornbush, 3519 Richmond Road, and a 1954 graduate of Waterford High.

"Who's Who" is the official directory of outstanding students from more than 600 colleges and universities in the United States. Those selected are chosen on the basis of scholarship, leadership, and participation in extra-curricular and academic activities, citizenship, service to the school, and promise of future usefulness to business and society.

Proceeds from the Christmas card sale by French club members have been used to benefit the Bonlarion family in France, whom the club is sponsoring. The French club faculty sponsor is Edward B. Mott.

A constitution has been formed for the Bible club and is ready for printing. The constitution committee consisted of a representative from every church in the club. Sponsor is Ruth L. Chamberlin.

PLAN DONKEY BASKETBALL. Varsity club members have had a full schedule recently. They have been organizing a donkey basketball game to be presented in the future and have also received new varsity jackets.

Officers of the Varsity club are: Chuck Kirken, president; Jerry Nelson, vice-president; Bill Cole, secretary; and Jim Green, treasurer. Sponsor is Jack Anderson.

Members of the GAA (Girl's Athletic Assn.) Letter club went to Pontiac Central High School recently for a Volleyball Sports Day.

Those attending were: Janet Delbridge, Tish Fitzgerald, Barbara Floyd, Carole Moore, Laura Terry, Carol Ponn, Barbara Martin, and Char Pankner.

St. Mike Senior in Scholar Race

Michael Biallas Named Semifinalist in National Merit Scholarship Test

By MICHAEL BUCHANAN

Senior Michael Biallas, of 421 E. Montclair St., is the lone student at St. Michael High School named as a semifinalist in the National Merit Scholarship competition, according to Sister Mary Gilbert, principal.

Michael is among the 7,500 high school seniors who qualify for the test, a nationwide college aptitude exam given in 14,000 high schools throughout the nation in October.

Michael outscored 300,000 fellow seniors and now, to move closer to the

scholarship, he will take a three hour college board examination January 11. The next hurdle to the four year scholarship to the college and course of study of his choice will be in May. Then 800 students will be named the Merit Scholars of 1958.

The scholarship program is sponsored by over 60 business and industrial firms plus professional societies, foundations and individuals.

Again Wednesday, students helped the March of Dimes in St. Mike's hall by stuffing envelopes. Last time, they did about 20,000 in one night.

On Sunday and Monday night, St. Michael Elementary School will present its annual Christmas Pageant at 8 p.m. This year it will be a variety show and the donation is 50 cents.

AVONDALE DANCE SETTING — Helping to set the mood and spirit of the Avondale High School Student Council's annual Christmas Snow Ball Dance tomorrow night are tree-trimmers, left to right, Linda Hall, Charles Murek and Carol Mazurek.

Lincoln Holds Spelling Bees

13 Easterners Earn All A's

Thirteen Eastern Junior High School students received all "A's" and were named on the school's second marking period honor roll recently.

They included: Brenda Greer, Gail Glenn, and Gary Crews, all seventh graders; Margaret Metzler and Karen Strong, both in the eighth grade and Elizabeth Ballard, Terry Braun, Linda Freet, Ed Haroutunian, Gene McLean, Pamela Noren, Charlene Wiegart and Muriel White, ninth grade.

Members of Mrs. Ruth Scribner's third hour speech class presented a play, "The Teen Club's Christmas." The play, originally one act, was changed to three scenes and the second one was written especially for the fifth hour seventh grade speech class which is studying French.

AT LINCOLN

The real Christmas spirit is in the air at Lincoln Junior High School as programs and projects center around the Christmas theme. The annual Christmas Musicals was presented yesterday morning

to the student body and last night to the parents and friends.

Choir, chorus, ninth Grade Boys' Ensemble, Boys' Glee Club, Vocalists, and Choralists presented groups of numbers. The second part of the program was sacred in nature and played in a cathedral setting.

The backgrounds for the Christmas programs were designed by Karen Allhouse, Annette Hicks, Sharon Kinder, Lorna Tear, and Jacqueline Vallad under the direction of the art instructor, Margaret Burrette.

Two old fashioned spelling bees were held by the English Department in the seventh and eighth grades. Contestants were chosen by elimination contests in the English classes. Winning top awards for the seventh grade were Doreen Monroe and Janice Goines and for the eighth grade were Sandra Lockwood and Donald Dickerson. Dictionaries were awarded the winners.

Elect Lynn Colwell Senior President at PCHS

By WILLIAM BANK

Lynn Colwell has been elected president of the January graduating class at Pontiac Central High School.

Other officers include Richard Melkonian, vice president; Muriel Upton, secretary, and Eugene Thompson, treasurer.

Sunday the Pontiac Central High School gymnasium will be the scene of the annual Christmas vocal concert.

The program begins at 3 p.m. and will include the massed chorus of the Pontiac Women's Chorus, the MacDowell Male Chorus, Pontiac High School Vocal Department and former members of the department in the audience.

The PCHS Co-op Club plans to send several delegates to the Delegate's Congress in January. The congress will be held at St. Mary's Lake Camp near Battle Creek where 107 Michigan clubs are to be represented.

Representatives from PCHS are Gay Bumgardner, Jeanne Hunt, Jean Twiet and Jackie Hartman. Jack Schatzley and Ann Whitlins will run for the offices of president and treasurer of the statewide congress, respectively.

This week the Senior Preliminary exams were given. If a senior passes these exams with an A or B in each class and keeps up his daily work to satisfy the teacher, he doesn't have to take his finals in January.

Pontiac Press Photo

CONCERT ACCOMPANISTS — These three members of the St. Fred's High School Girls Glee Club will be behind the scenes for the annual St. Fred's Grade School Christmas Concert next Friday. Accompanied by Edward

Higbee, they will furnish the background music for the concert. Left to right are: Pat Gandy, 404 S. Saginaw St.; Sue McHugh, 300 Ottawa Dr.; Higbee; and Rose Marie Slesky, 3014 Bessie St.

St. Fred's Glee Club in Program

By PAT FOSTER

The Christmas spirit is evident at St. Fred's High School these days as echoes of the well known carols of the season resound throughout the halls.

This is due to the efforts of the girls' glee club under the direction of Edward Higbee, choral instructor. The group, consisting of girls from each class in the high school are preparing for the vocal accompaniment they will provide at the grade school Christmas Concert next Friday.

Sophomores are busy these days collecting toys, clothes, and canned foods to donate to a needy family at Christmas time. The class is also sponsoring a bake sale in the hall Sunday, Dec. 22, after all Masses.

Plans are also under way to develop a scrapbook consisting of all important activities of the class during their high school years. The book will be donated to the school by the sophs at their graduation.

Juniors also are busy planning a dance for December 27.

TAP is more than just the name of a dance step. A newer and more significant meaning to those letters is "Teens Against Polio." This is a nationwide organization to promote teenage vaccination

and help the March of Dimes in its vital work.

Representatives from St. Fred's include Joseph Richards, Veronica Gardzinski, Denney Parle, Carol Duert, Pat Doyan, Cynthia Malone, Bob Morrow, and Sharon Talbot.

The senior history classes on

West Bloomfield Seniors to Host Dance Tomorrow

On the agenda for seniors at West Bloomfield High School are plans for the dance, "Christmas Fantasy" tomorrow night from 8:30 till 11:30 p.m.

The dressy occasion will feature a band from Detroit, Dick Tappert's Quintet, and entertainment by the school's small vocal groups during intermission.

On Tuesday, the vocal and instrumental departments will present their Christmas Concert. The program begins at 7:30 p.m. During the evening songs will be sung by the various music groups under the direction of M. Asplin.

The combined band and orchestra of West Bloomfield will feature a variety of songs under the direction of R. Pfeiffer.

Lake Orion 'Inklings' to Decorate

Christmas decorations and plans are taking priority at the Lake Orion Community High School as the holiday season approaches.

The Inklings (Art Club) have made plans to decorate a tree in the lobby. The Student Council will purchase permanent lights and fixtures so they will be on hand for the future.

The various choral groups are preparing for the annual holiday concert Thursday evening in the Lake Orion Junior High School gym. The concert will be presented as an assembly Friday for the students before the long vacation.

The National Honor Society members are soliciting for canned food, children's toys, and money for fresh food among the student body to help some of Orion's needy families.

Rochester Observes Season Thursday

Thursday at 8 p.m. is the time and date of the Rochester High School vocal music department's annual Christmas Concert.

The concert, held in the school cafeteria, will be highlighted by Fred Waring's arrangement of "Twas the Night Before Christmas," by the high school choir.

The choir will also sing "Carol of the Bells" and the contemporary composition by Joseph Locke, "Two Kings." This tells of the treatment one would give an earthly king compared to that given the Heavenly King were either to visit one's home.

The choir will conclude the program with Handel's "Hallelujah Chorus." Accompanists for the program will be Dorothy Lovchuck, James Weisenborn, and Sürteen Johnson. Frank Irish will direct the program.

Start at Madison, Washington

Fluoride Applied in Jr. Highs

Pontiac now offers fluoride applications for junior high school students.

The program, provided in hopes of reducing tooth decay, began this week in Madison and Washington Junior High School, and will be available to eighth grade students.

Miss Ruth Rogers of the Department of Health Education of

the Pontiac Board of Education is in charge of the program.

The United States Public Health Service and the Michigan Department of Health recommend that applications be given at the pre-school, 2nd, 5th, and 8th grade levels. These periods for applications are based on average growth and development of the mouth.

Due to the difficulty of securing dental hygienists, the Pontiac program previously was carried out only in the 2nd and 5th grades.

The treatments are four dollars per student and include a dental inspection, cleansing, and four applications of fluoride. The typical fluoride treatment will reduce the

number of new cavities by 40 per cent in a group of children, according to health officials.

The committee expects to offer the program to the other junior high schools later in the year.

AT MADISON

The Faculty-Varsity basketball game, one of the big attractions of the school year, was played at Madison Junior High School yesterday. The main attractions of the day were a 16-page, fully illustrated program, prizes of a magazine subscription and records, and a "Mystery-Man" whom no one could identify. The "Glue-foot Award," a trophy was presented to the losing team.

Proceeds from the game were added to the recreational equipment fund.

Monday, G. B. Pritchard showed slides of a trip to Alaska to the seventh grade students in Jack Cole's social studies classes.

AT WASHINGTON

It was a busy week at Washington Junior High School. Monday ninth graders began to register for the tour to Washington, D.C., April 16-20; and many of the boys and girls began their first payments.

The Student Council will again award two fully paid tours to a deserving boy and girl in the ninth grade class. A student faculty committee is now at work arranging this selection.

The Girls' Service Club under the co-sponsorship of Mrs. George Yansen and Mrs. Kenneth Ferguson went Christmas caroling at the Oakland County Jail. Students making arrangements were Janet Milmine, chairman; and Karen Redding, Shirley Hopper, and Vickie Selfert.

Pontiac Press Photo

HE ASKED FOR IT! — Ruth Rogers, Pontiac Public Schools dental hygienist, (left) will be busy at Madison and Washington Junior High Schools the next few weeks applying fluoride to the teeth of those eighth graders who wish to participate in the program offered in hopes of

reducing tooth decay. Fred Garchon, 695 First St., (in chair) looks ready and willing as his friends Susan Jones, (next to Miss Rogers) 691 Joslyn Ave.; Art Solomon, 787 Third St. and Warren Hall, 1007 Mt. Clemens St., watch to see how it's done.

Red Nuclear Physicists Arrive in San Francisco

SAN FRANCISCO (AP)—Four Russian nuclear physicists arrived last night after a 36-hour flight from Moscow.

They will attend the American Physical Society conference starting Monday at Stanford University.

The scientists are Prof. D. I. Blokhintsev, director of the Joint Nuclear Research Institute; his assistant, Z. P. Dzelepov; L. B. Okun; and S. Nikitin.

Chides Dutch for 'Wishful Thinking'

'I Am Still Here,' Indonesia's Sukarno Tells Holland

JAKARTA, Indonesia (AP)—The Indonesian government today issued a penciled statement in President Sukarno's hand denying Dutch rumors that he had been deposed.

The President wrote that he was out, broadcast by Radio Hilversum conducting business as usual. "I in the Netherlands, stemmed from

an announcement that the President was going abroad for a rest. Premier Djanda asked Parliament to swear in its moderate nationalist speaker, Sartono, as acting president beginning next Friday. An official announcement said Sartono, 58, is prepared to serve "during the period of President Sukarno's recuperation."

A government spokesman indicated, however, that Sartono would only be a figurehead. He said Premier Djanda and Maj. Gen. Abdul Harris Nasution, the army chief of staff, "will be in charge during Sukarno's visit abroad."

The Dutch broadcast said there were rumors in Jakarta that a triumvirate of Djanda, former Vice President Mohammed Hatta and Gen. Nasution had put Sukarno under arrest.

Sukarno's statement said: "Rumors from Amsterdam that I was ousted? I am still here. I am at this present moment presiding over the eighth session of the National Advisory Council. I think Amsterdam is full of wishful thinking. Nasution and Djanda are

drawing the same line with me. (signed) Sukarno, 1100 hours (11 a.m.) on this 13th of December, 1937."

The President reportedly was invited by the government of "a friendly neighboring country to recuperate there" from the strain of the dispute with the Netherlands over West New Guinea which is causing Dutchmen to flee Indonesia.

Sources said Sukarno might go to India or Egypt. Many Indonesians thought Sukarno's departure might bring Hatta back to power. The pro-Western former vice president and Sukarno led Indonesia's four-year fight for independence from the Netherlands.

They fell out after Sukarno toured Communist nations and came home favoring "guided democracy" which many considered dictatorship. Sukarno also insisted on giving Indonesian Communists a voice in the government.

Jakarta was as quiet as usual today after an army order cancelling all leaves and restricting troops to barracks.

HAPPY THE HOME WITH A HAMMOND!

KING-SIZE MAIL BOX — Three-year-old Danny Byrd, shown mailing a letter to Santa from Alton, Ill., can just reach the letter slot in this giant mailbox erected over an unoccupied store in Alton. Danny is the son of Mr. and Mrs. Ralph Byrd, of Godfrey, Ill., three miles from Alton.

Ask U.S. to Release 45 War Criminals

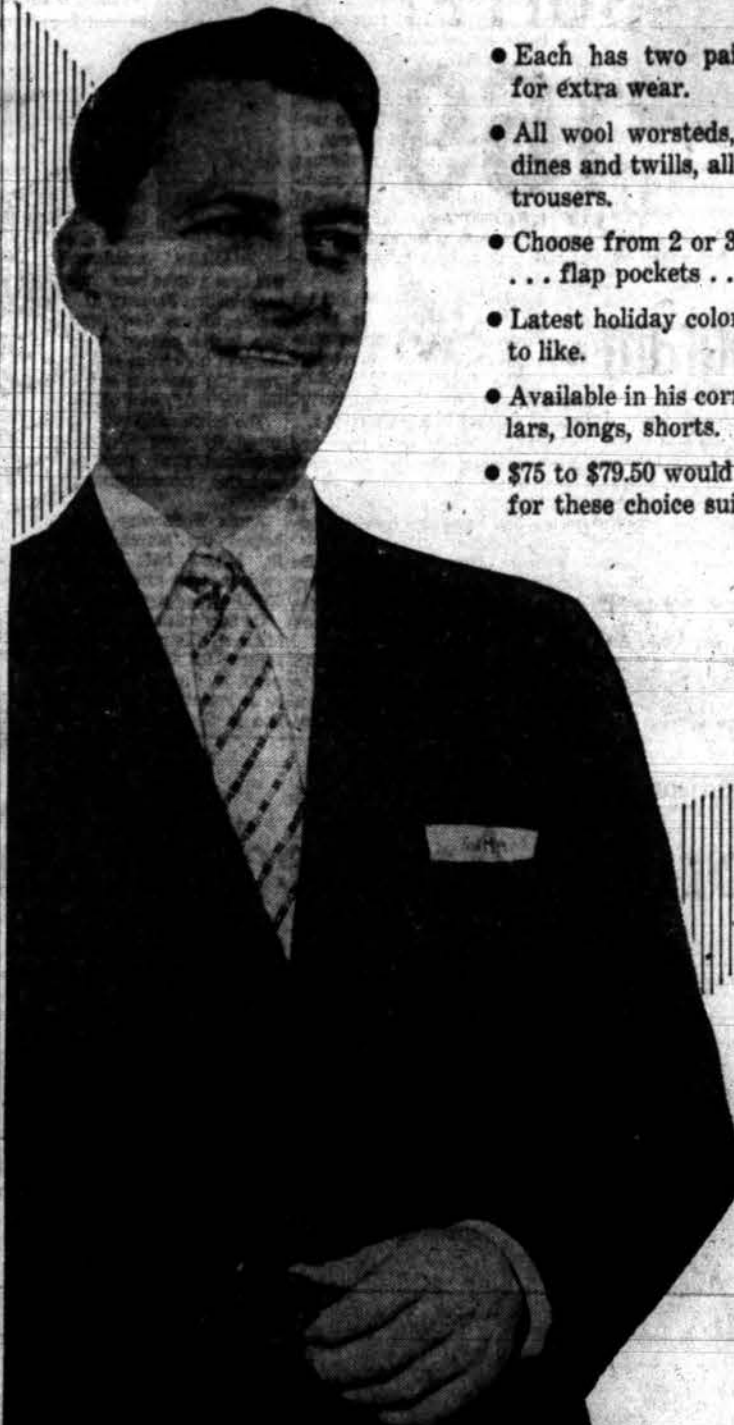

TOKYO (AP)—The United States has accepted Japanese requests to speed up release of the 45 Japanese war criminals still in prison.

A U. S.-Japanese agreement announced by the government said a three-man Japanese board would be set up to recommend clemency or parole for the men

in Sugamo Prison. The recommendations will almost certainly be accepted, an American source said, although the agreement does not bind the United States to release the prisoners. Japan has been seeking their freedom for several years.

With one exception, the other nations that fought Japan in World War II have released the last of those they convicted as war criminals. Communist China announced today it is still holding eight.

These Puzzle Answers Are Right

The following are the correct answers and explanations for the Pot-O-Gold puzzle that appeared in last week's Pontiac Press.

A. (1) LUSTER. It's the sparkle of diamonds that makes a woman feel glamorous. If the Cluster (such as a number of the gems joined together in a pin) did not sparkle, the total effect would not seem so luxurious.

B. (3) BURYING. By BURYING himself in hard work, a man would become so completely wrapped up in his job that there would be no time to brood over a recent grief. "Burying himself" does not have the connotation of complete engrossment.

C. (6) HEALING. A visit to the doctor will "probably" result in a neglected cut's HEALING better. The previous neglect may slow up the healing, and may prevent the injured area from feeling better immediately after treatment.

D. (8) CLOTHES. Women's stylists are trying hard to revive the CLOTHES of the Twenties; this also includes the Cloches, those bell-shaped hats that came down over the ears.

E. (10) HEARTENS. The rescue workers, after a plane accident, work as fast as they can, so a change in the weather hardly HEARTENS their efforts. But fog handicaps the searchers; clearing HEARTENS them, giving them fresh hope.

F. (11) BASEMENT. By using a BASEMENT, the merchant will have larger space, either as a salesroom, or for storage, and can carry a larger selection of goods. Easement is the right to use another's property, but the word is applied to such things as a right

of way (for instance, a road that crosses a neighbor's land).

G. (13) CLEARING. With parked cars jammed at the curb, a driver who wants to get his car out on the road finds he has no room to maneuver. Even the most skillful steering will not suffice for CLEARING or freeing his car from the adjoining cars if there isn't room to get out.

H. (16) PRISONER is the inclusive word, and would cover the Prisoner as well as any other type of criminal.

I. (17) CLARITY. Some Congressional bills are so obscurely written that there may be later disputes as to their meaning. In a bill which concerns his own constituency, a Senator would want its exact terms to be very clear. CLARITY is the fixed basic price for a commodity that is guaranteed by the government.

J. (19) VICTORY. Thousands of people crowd the streets to celebrate the VICTORY at the end of the war. The Victors—the heroes who won the war—are not immediately present to be feted.

K. (22) HEADLONG. The persistent gambler beyond his means can plunge recklessly into bankruptcy, if he runs into a long losing streak. It's the gambler himself who is Headstrong—stubbornly refusing to quit—rather than the plunge.

L. (23) STUDIOS. A high school youth who hopes to be a painter has so many regulation school studies that he could hardly manage to STUDY art as well. He can, however, enhance his knowledge by visiting art STUDIOS for background observation.

M. (26) DECEIT. To find that

one's business partner has been cheating would be very hard on one's morale. There is emotional hurt in being betrayed by a trusted friend, which is far worse than a business breakup by Deceit. A man can always try again.

N. (25) REBOUNDING. The clue mentioned "city streets" where traffic noises can keep visitors awake, since they are not used to loud sounds Resounding, or filling the air. But narrow city streets make the noise worse, since it strikes the walls of buildings, REBOUNDING to increase the din.

O. (30) MATTERS. In the Middle Ages, there were bitter public controversies over religious MATTER, as in disputes over the respective powers of the church and of the state. Martyrs would be included in the general category of religious MATTERS.

P. (31) HAMPERING. A boy

would soon grow resentful under his mother's constant HAMPERING, putting obstacles in the way of everything he wanted to do. This would lead to rebellion far more quickly than her Hammering, persistently being after him to study, or pick up his clothes, etc.

Q. (33) DIFFERENT. The man who repels people by his brashness is using the wrong approach and should try another—a DIFFERENT one. A Different or shy approach, in his case, would clearly be too insincere to be effective.

R. (36) COMPETE. An ignorant man can't get a job requiring a knowledge of mathematics, since he's unable to COMPETE. He has not the ability to try for the job against others with appropriate training. His inability to Compute,

or put numbers together in some mathematical pattern, is only part of his incompetence for the job.

S. (38) QUERULOUS. A woman who is always complaining is the only one who feels sorry for herself. Nobody likes a whiner, and she will be avoided. A Quarrelsome woman talks too much, but it's what she says that will be the deciding factor. Some of her conversation may be interesting.

T. (39) PLASTER. An earthquake during dinner may well shake the Plaster on the floor in pieces, but there surely would be fewer pieces of the plaster than of the PLASTER from the whole ceiling.

(Copyright 1957)

MESC to Have New City Office

Site on Oakland Ave. Selected for Michigan Employment Service

Plans for a new Pontiac office of the Michigan Employment Security Commission at 242 Oakland Ave. were revealed today by the Ray O'Neil Real Estate firm, 262 S. Telegraph Rd.

A 170 by 280-foot parcel of land fronting on Oakland avenue was purchased by the City Beverage Co., Inc., which will construct a one-story building which will be leased to the state for the new office.

Present offices of the MESC are located at 148 Wayne St. They have been located there for 19 years.

An official of the real estate firm, which handled the purchase, said three homes and a store would be razed to make room for the \$140,000 project. It will have a 100-foot frontage on Oakland and will be 90 feet deep.

Subway Strike Costing About \$400,000 Daily

NEW YORK — The Transit Authority says the subway strike is costing it about \$400,000 a day.

The authority said this includes about \$250,000 in fares and \$150,000 in overtime payments, bonuses and food costs for nonstriking employees.

The authority is feeding 2,500 employees. Yesterday these workers consumed 24,000 sandwiches, 7,500 pieces of pie, 200 gallons of coffee and 35 gallons of milk.

Home Town Remembers Its GIs

Milan Santa Won't Forget Serviceman at South Pole

MILAN — When Santa Claus empties his sack at the South Pole this year it will hold one special package for a Milan, Mich., serviceman stationed there.

Cdr. Bernard Lauff of the icebreaker USS Glacier will be one of 83 Milan men who will receive gift cartons labeled "From Your Home Town Folks."

This is the eighth year that the Milan servicemen's commit-

tee has sent boxes to all Milan men in service. This year the packages went to such points as Germany, Japan, Alaska and the South Pole.

The package project was started in 1950 by Ted Woodruff, who remembered lonely holidays as a serviceman. He interested other Milan residents and the group borrowed \$275 and sent a \$5 bill to each of 55 young men. The loan was repaid by the proceeds from a hog raffle and fish fry and from personal donations.

The boxes this year contain canisters of homemade cookies and candy, nuts, stationery and stamps, pencils, calendars, toilet articles, playing cards and reading materials contributed by individuals and business firms.

Postage is raised from gifts and by the sale of greeting cards by the committee's secretary, Mrs. Melvin Flower.

Mrs. Flower keeps track of every serviceman from the time of his induction until he is discharged. She has received many letters saying "I'm the only fellow I know here who got a gift from his home town."

Mrs. Flower also sends a birthday card to each man and notifies him if another Milan man is located in his area.

Milan servicemen also receive their home town newspaper, The Milan Community Council, through its Red Feather Drive, contributes \$300 annually for the subscriptions. The servicemen's committee handles the details.

New Mexico Observes Old Twelfth Night Ritual

SANTA FE, New Mexico — An ancient custom of the Old World—the celebration of Old Christmas or Twelfth Night—is still observed in many parts of New Mexico, the Land of Enchantment.

Twelve days after most Americans have put away all thoughts of Christmas, and six days after the usual New Year's celebrations, January 6 marks the Feast of the Epiphany, commemorating the arrival of the Three Wise Men in Bethlehem.

The custom of observing Twelfth Night was brought to New Mexico by the 16th Century Spanish Conquistadores, and is still carried on by the Spanish-speaking descendants of the early colonists and by many of the Pueblo Indians. For the Indians, who were introduced to Christianity by the Franciscan friars of the 16th and 17th centuries, Twelfth Night is a day of giving and the official start of the New Year.

Some Indian dances are performed on Jan. 1, but the Pueblo people regard Jan. 6 as the more important festival. On this date the new Pueblo Governors are installed and are presented with their badges of office—silver-headed canes presented to the Pueblo dignitaries of 1863 by President Lincoln.

A Spanish folk drama — "Los Tres Reyes Magos" (The Three Wise Kings) — is often presented on Twelfth Night in the small mountain villages of northern New Mexico. Small amateur groups perform these plays, unchanged since medieval times.

Ritual dances are performed by the Pueblo Indians in most of New Mexico's eighteen Indian villages. These dances usually include the Eagle and Buffalo Dances, a form of prayer for strength and success, or Plains Indian dances.

borrowed from the Pueblos' former enemies.

It is not difficult to reach New Mexico for the unique Twelfth Night celebrations. The Land of Enchantment is served by a score of Federal highways; the transcontinental facilities of the Santa Fe and Southern Pacific Railways; TWA, Continental, Frontier and Pioneer Airlines; and Southwestern Greyhound and Continental Trailways buses.

About three per cent of North Carolina's cropland is devoted to peanut growing.

NATO Allies Meet at Round Table

PARIS (NEA)—When the heads of government of the 15 NATO member nations gather here for their "summit" conferences Monday, it will be like a gathering of the Knights of the Round Table in the legendary days of King Arthur.

SOLVES ISSUE

The round table idea solves the delicate problem of protocol; who among the top 15 should sit at the head—or the foot—of a conventional conference table?

Thus the NATO "summit" will be a table more than 17 feet in diameter. In a wider circle behind the 15 will be the secretaries of state, defense and finance of each nation, and behind them the experts of each delegation.

All in all, there will be an estimated 500 official performers when the curtain goes up on the conference, plus another 1,000 or so newspaper correspondents, photographers, TV, radio and motion picture men.

Only 100 representatives of the major world press services, plus TV and radio men, will witness the conference first-hand. Because of lack of room, special correspondents for individual newspapers, columnists and other special writers will view the sessions on TV screens in the adjoining press room, press bar and other strategic spots.

The press corps will include some 300 Americans, 60 of whom will fly in on a special plane from Washington. Seventeen TV and radio chains will be represented.

To handle this mass invasion, which represents almost the equivalent of a regimental combat team, NATO voted a special budget of \$47,000 to equip the now slightly moth-eaten "temporary" structure in the shadow of the Eiffel Tower which houses NATO offices. The rambling building was put up in 1951 for a United Nations plenary meeting.

MONEY USED

The money has been used to: Set up a press conference room holding 800 persons where NATO Secretary General Paul Spaak will hold evening conferences after each session. Install 56 new telephone lines and 27 extra cables. Erect a special TV transmitter. Build a photographic laboratory. Security problems will be handled by the permanent NATO security staff, uniformed and plain clothes members of the Paris police, plus Secret Service men accompanying the American delegation. For after-hours relaxation, there will be an official dinner, on Dec. 16 for 140 top-level guests in the foyer of the adjoining Theatre de Chailot. It will be black tie—and strictly stag.

When arrangements were made, Secretary General Spaak is reported to have told the delegates: "Gentlemen, as we shall be among ourselves, without the ladies, we must try to be amusing." The ladies will come into their own the following night when President Rene Coty throws a sumptuous banquet for the top 15, other VIPs and their wives. This will be followed by a reception to which everybody who is anybody in Paris will be invited.

Junior Editors Quiz on BIRDS

QUESTION: Why do birds sing?

ANSWER: You may be surprised to know that birds do not sing ordinarily because they are happy or for the sheer joy of making music. Most singing is done by the male bird to warn other males away from his territory and to attract female birds.

The male's territory may be only a strip of hedge or a small bush, but when he sings there, no other male will approach unless he is ready to do battle.

This true song is uttered by the male at the top of his voice. Females, when answering the male, and other males, either in flight or in a chorus with other birds, utter low notes that are not as loud or as clear as the male's song when he proclaims his territorial rights.

FOR YOU TO DO: Listen to the songs of the birds in your neighborhood and see if you can identify them that way. Even in winter some birds sing.

(410 goes to Norman E. Merrell Jr. of Perkiomenville, Pa., for submitting this question. Send yours to Violet Moore Higgins, AP Newsfeatures, in care of The Pontiac Press. Tomorrow: What king wrote many of the psalms?)

Miracle Man of Middle East

Nasser Prestige Uncanny

By INTERNATIONAL NEWS
Gamal Abdel Nasser's ability to gain victory after victory in his five years as Egypt's boss has won him a miracle man reputation in the Middle East.

Every time Western diplomats predict he will tumble from power or make a misstep in international politics the 39-year-old president comes up with a dramatic new move that doubles his prestige and enhances his authority.

But Nasser never has faced the nemesis of all dictators—a palace revolution.

He probably will escape this time. But the report that four of his top aides, including war minister Maj. Gen. Abdel Hakim Amer, were ready to quit, might mean that the tight fabric Nasser has knit is showing signs of wear.

SUSPICIOUS MAN

Nasser has admitted more than once that he is a suspicious man. His record since he led the coup which deposed King Farouk in

1952 indicates that he is wary of possible challengers to his rule.

Amer, for example, has taken an important role in international and Middle East affairs over the past six months. Perhaps the president fears that his old chess opponent is getting too skilful.

Nasser, however, gives no impression he is worried. He still works long hours in his sparsely-furnished Cairo office, lives simply with his wife and five small children, continues to look the part of the strapping soldier charged with a mission.

His appointment of Wing Cmdr. Ali Sabri to cabinet rank as minister for presidential affairs may mean that Nasser is taking the unusual step of delegating important authority to an advisor, despite the anger of key figures in the government.

Nevertheless, Nasser probably knows what he is doing; he generally has in the past. Example: the constitution he promulgated for Egypt makes no provision for a vice president.

Gypsy Joe Says: 'No Photos, Please'

LONDON—"Rembrandt" Gypsy Joe, London's famous pavement artist—he draws copies of old masters on the pavements of Trafalgar Square—now has a sign up. It reads: "Please, no photos—my copyright. That means my pictures and me."

The only time Joe ever sold a painting was when an American tourist watched him working and

said: "I'd like that 'Rembrandt' over there to take back to the States." "But I'm not so hot on paper," Joe explained. "Can't seem to get the faces right. Sorry."

"Well, I'll just have to buy the paving stone, then," the tourist replied. And he did, too. With the Council's permission he replaced the stone and took it home to America to have framed.

About 200 rivers and streams empty their waters into Lake Superior.

Franciosa Now Serving 10-Day Jail Sentence

LOS ANGELES (U)—Anthony Franciosa, husband of actress Shelley Winters, began serving a 10-day sentence today at the sheriff's honor farm for kicking a newspaper photographer last April 19.

He was convicted of assaulting a photographer who attempted to take a picture of the actor and Miss Winters leaving an auction. Franciosa said he objected to being photographed with Miss

Winters because they were not married at that time.

Quake Strikes Iran Tremor Jolts Athens

TEHRAN (U)—A heavy earthquake struck west Iran today, causing heavy casualties and damage.

ATHENS (U)—A sharp earthquake jolted Athens and the whole Attica area today. There were no reports of damage or casualties.

New York Car Thefts Mount During Walkout

NEW YORK (U)—Police report that 133 automobiles were stolen in the city from the time the subway strike started to 1:30 p.m. yesterday.

In the same period last week the thefts totaled 93 cars.

A police official suggested that the sharp rise in auto thefts stemmed from the criminal element "finding it a hardship" to ride in crowded trains and buses.

Man-Hour Output Goes Up in Sweden

STOCKHOLM—Since 1939 the output of Swedish agriculture has increased by one per cent annually although the farm labor force has dropped by 2 to 3 per cent a year.

This means that production per man-hour has grown by about 60 per cent since 1939 because of extensive and vastly increasing mechanization.

King of Morocco Given Bronx Zoo Chimpanzee

NEW YORK (U)—King Mohammed V of Morocco is now the proud owner of a chimpanzee, courtesy of the Bronx Zoo.

Enthralled by the antics of the monkey at the zoo, which he visited yesterday, the King was delighted when Zoo Director John Tee-Van offered him one.

Tee-Van said the animal would be shipped to the royal palace in Morocco.

The nine planets in the solar system are: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune and Pluto.

Feline Leaves Its Tail in Gears of Washer

EUREKA, Calif. (AP) — Missing — one curious cat with a very short tail.

Mrs. Edna Miller called the sheriff's office yesterday requesting help. She said her cat was caught in the gears of her washing machine.

Deputy Joe Victorine went to Mrs. Miller's, but was too late. The cat had fled, leaving most of its tail in the gears.

Santa and the STRONG BOY

by LUCRECE HUDGINS BEALE

SYNOPSIS: Richard escapes from Santa's palace. He meets an old woman who says she will take him to someone who talks to witches who might know the way to Santa Land.

Chapter Nine

THE OLD, OLD WOMAN

Richard and the old woman arrived at a lonely little house in a neighboring forest.

"This is the house of one who talks to witches," said the old woman. "I'll leave you here to see her alone."

Before Richard could protest the woman darted away. Richard turned and timidly knocked at the door of the little house. There was no answer and Richard knocked again. This time he knocked harder and the door crashed open.

He fell back in alarm as the witch woman appeared in the doorway. The old woman had been old but the witch woman was twice as old. Her hands were twisted bones. Her cheeks sagged. Her eyes were little black holes sunk in her head.

"What is all this whamming, clanging noise out here?" she creaked.

"Oh, ma'am," said Richard. "Can you show me the way to Santa Land?"

"What?" snorted the old, old woman. "How should I know such a thing? Who are you anyway and where do you come from?"

"I—I am a prince," stammered Richard. "And I must get to Santa Claus to save my father's kingdom. They say you talk to witches and goblins and I—I thought they might tell you the way for me to go."

The old, old woman shook her head. "Neither witch nor goblin has visited me for a long, long time. This forest has become too busy a place for them to come." She wiped her eyes with the edge of her apron. "I miss them," she sniffed. "Oh, I am so lonely without my witch and goblin friends."

"But where are they?" cried Richard. "Where do they stay?"

The old, old woman motioned towards the far away mountains. "Over there, I expect. It's a lonely place where no man has ever set foot. That's the sort of place witches and goblins like. Oh, if only my house were there!"

"If I move your house there, will you ask them for me the way to Santa Land?" asked Richard.

"What?" cried the old, old woman in astonishment.

"Will you?" insisted Richard. "Will you?"

The old, old woman nodded her head in a puzzled way. She was too amazed to speak.

Richard crawled under the

"What is this whamming, clanging noise?"

house. He bent his knees and put his back against the bottom of the house. He pushed and pushed and pushed.

His face turned red and the perspiration ran down his back. The old, old woman shook her head. "The boy's daft," she muttered. "He's out of his head."

But even as she spoke there was a ripping noise and Richard was standing there with the house on his shoulders.

The old, old woman gasped. Then she hobbled away through the forest. "This way," she croaked. "This way." Richard staggered after her.

It was a long way and it took all day, but when evening came the old, old woman stopped and said, "Here. Here is a place. They're bound to be."

Richard looked around and he thought that indeed it was a place surely meant for witches and goblins. It was high on a rocky mountain side. There were black caves in the sides of the mountain and rocks piled into eerie shapes as if giants had been playing blocks there.

Richard set down the house and the old, old woman rushed in and began to put things to rights.

"Will they come?" asked Richard anxiously.

"They'll come tonight," she said. "I'm certain of it."

She built a fire and sat down at the hearth. "Come now. We'll sit here and wait."

But hardly had Richard sunk down beside her when there was a swishing down the chimney and a flash of lightning in the window and a scratching at the door, and

New Treatment in Cancer Cases

Method of Destroying Pituitary Master Gland Prevents Operation

CHICAGO (INS) — Long and delicate operations to destroy the pituitary gland in the treatment of breast and prostatic cancer may no longer be necessary because of a new and simple method of treatment announced today by the University of Chicago.

A team of doctors told the 10th annual University of Chicago Cancer Research Foundation that "hot beads" of radioactive yttrium have

been successfully inserted through the nose and planted in the pituitary, thereby destroying the master gland which is situated at the base of the skull.

Destruction of the pituitary has been found to bring marked improvement in certain cancer patients whose malignancy is nourished by pituitary hormones.

Whereas the operation required several hours, the new treatment can be done in about 30 minutes, the doctors said.

The team of university doctors said it was still too early to gauge the long-term effect of the new treatment, but they expressed the belief that it will be "more effective" in prolonging life than the operation has been.

The doctors who disclosed the new method were George V. LeRoy, Paul V. Harper, Robert D. Moseley and William M. Ironside.

Deaths in Pontiac and Nearby Areas

MRS. ROBERT D. DAVIS — Mrs. Robert D. (Hannah Jane) Davis, 62, of 52 S. Francis St. died yesterday in Pontiac General Hospital. She had been ill two years.

She was a member of the Latter Day Saints.
Surviving are two sons and two daughters, Robert of South Boardman, Mrs. Marian Kelley of Stone Lake, Iowa, and James and Nelda Davis, both of Pontiac; a brother and sister.
Mrs. Davis' body is at the Pursey Funeral Home.

GREGORY J. DONAHOO — Graveside service for Gregory J. Donahoo, infant son of Mr. and Mrs. James Donahoo, of 8500 Dixie Hwy., will be held at 11 a.m. Saturday in the Catholic section of Lakeview Cemetery. The Rev. F. J. Delaney will officiate.

Besides his parents, the baby is survived by his grandparents, Mr. and Mrs. Norman Teets of Clarkston and Mr. and Mrs. Luther N. Jackson.

CLARK J. MAHAFFY — Service for KEEGO HARBOR — Service for Clark J. Mahaffy, 65, of 3207 Varjo

Cl., who died Wednesday, will be at 1:30 p.m. Saturday at Sparks-Griffin Chapel with burial in Perry Mt. Park Cemetery. The Rev. Kenneth Stephens of St. Luke's Methodist Church will officiate.

ALBERT W. SHARPLES — Service for Albert W. Sharples, 30, of 70 Burlingame St., Detroit, will be held at 2 p.m. Saturday from Pixley Funeral Home, Rochester. The Rev. E. John Yuell of the First Congregational Church will officiate. Burial will be at Mt. Avon Cemetery, Rochester.

Mr. Sharples died yesterday in Receiving Hospital, Detroit, after a brief illness.
Surviving are two sisters, Mrs. Walter Smith of Rochester and Mrs. Dorothy Muirhead of Philadelphia.

MRS. CORA SWIN — LAPEER — Service for Mrs. Cora Swin, 78, of 605 Fox St., who died Wednesday at the Lapeer County General Hospital, will be held at 2 p.m. Saturday at Muir Brothers Funeral Home. The Rev. Frank S. Hemingway will officiate with burial in Stiles Cemetery. A native of Lapeer County, she

leaves a brother, Glenn Tripp of Lapeer, and a niece, Mrs. Theodore Richards with whom she had made her home. Several other nieces and nephews also survive.

ROY E. THORP — OXFORD — Roy E. Thorp, 70, of 1956 Lakeville Rd. died early this morning at his home.
Mr. Thorp spent his life in the Oxford area and was a retired Pontiac Motor Division employee. He is survived by his wife, Madeline; two sons, Charles R. Thorp of Pontiac and Lyle Sites of Oxford; and a daughter, Sharon L. Thorp, at home. A brother, Ralph Thorp, of Pontiac and sister, Mrs. John Elworth, of Silverwood also survive.

Service will be held at 2 p.m. Monday at the Flumerfelt Funeral Home with burial at Ridgeway Cemetery. The Rev. Ben Moore of Lake Orion will officiate.

GEORGE W. VAUGHT — HOLLY — Service for George W. Vaught, 74, of 105 Railroad St., who died Thursday at the McLaren Hospital, Flint, will be held at 2 p.m. Sunday at the Drier Funeral Home. Officiating will be the Rev. Harry L. Parker of the Holy Baptist Church. Burial will be in Crestwood Memorial Gardens, Grand Blanc.

He leaves his wife, Minnie; two sons, Raymond of DeMeines, Iowa and Martin of Flint; five daughters, Mrs. Preston Cole of Carmi, Ill., Mrs. Donald Curle of Fenton, Mrs. Warren Kincaid of Dover, Del., Mrs. Ralph Williams of Flint and Mrs. Elden Cole of Flint; and 17 grandchildren and nine great grandchildren.

ARTHUR WESTFALL — LAPEER — Service for Arthur B. Westfall, 78, of 340 Raven Ave., who died this morning at his home, will be held at 1:30 p.m. Sunday at Baird Funeral Home. Officiating will be the Rev. Frank S. Hemingway of Liberty Street Gospel Church and burial will be in Stiles Cemetery.

He leaves six daughters, Mrs. Roy Montgomery, Mrs. Fred Wilcox, Mrs. Kenneth Miller, Mrs. Henry Spanke, all of Lapeer, Mrs. Donald Trumble of Hadley and Mrs. Orville Lashbrook of Flint, and two sons, Arthur and Martin, both of Lapeer. Forty-three grandchildren, 17 great grandchildren, and a sister, Mrs. Paul Olmsted of Flint, also survive.

Deaths Elsewhere

By THE ASSOCIATED PRESS
NEW YORK — Robert F. Kurka, 35, composer of opera and chamber music, died yesterday of leukemia. He completed a two-act opera, "Good Soldier Schweik," only a few weeks ago.

WASHINGTON — Mrs. Charles S. Dewey, 71, Washington socialite and philanthropist since 1924, died Wednesday. A native of New York, Mrs. Dewey was the former Marie Suzette de Marigny Mall, a direct descendant of William C. Claiborne, first American governor of Louisiana.

SAN FRANCISCO — Charles Crouch, 59, pioneer in American chain store development who rose to prominence in the old Piggly Wiggly grocery chain, died Wednesday. He retired from the presidency of Childs Restaurant Co., New York, in 1951 because of poor health.

Amnesia Victim, Spouse Reunited After 4 Months

LOS ANGELES — Harry Gallon, whose memory blacked out for four months, came back to a tearfully joyous reunion with his wife, Betty, today.

"Oh honey!" he cried, as he sprinted across an airline office at the airport where Mrs. Gallon was waiting.

They kissed happily, while photographers' bulbs popped all over the place. Gallon's face and collar were smeared with lipstick. He didn't mind a bit.

Gallon, 31, San Francisco insurance man, flew here from New Orleans where bits of memory returned in the last two weeks. Mrs. Gallon flew down from San Francisco to await him.

His plane had to land at Burbank, some 30 miles across town, because of fog. Mrs. Gallon stayed put until he arrived by bus shortly after 3 a.m.

"It feels like it has all been a dream," Mrs. Gallon said. "You can believe that I'll never let him wander off again."

"I'm anxious to see the kids," Gallon said. They have a son, Gary, 6, and a daughter, Renee, 3, waiting in Burlingame, a San Francisco suburb.

Last Aug. 16 in San Francisco, Gallon went to keep an appointment with an insurance client, telling his wife to meet him later at the railroad station in San Mateo where they then lived. He disappeared.

Police found his wallet, briefcase and a bloodstained jacket and feared he had been robbed, kidnapped, perhaps murdered.
But he said that on Nov. 28 or 29 he came to in New Orleans, 2,300 miles away, and discovered he was working on a construction job. He said he knew his name but has no idea how he got to New Orleans.

Girl Suffocates in House Fire

Drops Cousin to Safety From Second Floor, Overcome by Smoke

PHILADELPHIA — A 17-year-old girl suffocated yesterday after dropping her five-year-old cousin to safety from a second-floor window when flames damaged a south Philadelphia house.

Firemen found the body of Olivia Collins across a bed on the second floor.

Roslyn Payne, the victim's cousin, was burned seriously and was listed in critical condition at the Philadelphia General Hospital. Her mother, Mrs. Novella Payne, 52, suffered a leg fracture in a leap from a second-floor window.

The dead girl's brother, Barry Collins, 8, was treated for minor burns. Both Collins children lived with the Payne family.

Bit by bit he put together information as to his situation in New Orleans, then sent a letter to his wife which she received last Monday and obtained help in contacting her and arranging to fly home from a newspaper, the New Orleans States.

Gallon's 9th wedding anniversary is Dec. 20.

600 Turn Out to See Donelson School Play

More than 600 Waterford Township residents attended a two-night performance of "Merry Christmas to the World" presented at the Donelson Elementary School Wednesday and Thursday night.

Under the direction of Mrs. David Manigold, the leading characters for the Wednesday night performance were Sandra Newman, Robert Thomas, Archie Spence, and Sharon Whitlow.

Last night's leading roles were played by Marilyn Cadman, Richard Miller, Don White and Jeanie Bird. The Donelson Glee Club made their first public appearance.

Again Heads Crusade
DETROIT — Carl H. Kindl, vice president of General Motors in charge of overseas operations, has been named state chairman of the Crusade for Freedom.

Urban League Guild Wraps Youth Home Gifts

Mrs. Barbour Williams was hostess at her home on Florence avenue last night for the annual Christmas party of the Urban League Guild.

League Guild. Mrs. Wilbur Johnson was general chairman for the evening, assisted by Mrs. Odell Walker.
The 22 members attending spent the evening wrapping 50 gifts for girls at the Oakland County Children's Home.

Argentines Give Pretty Girl the Twice-Over

BUENOS AIRES (U)—When the worldwide organization of Girl Watchers Inc. sets up formal operations, its headquarters should be here. True, the pastime whose devotees are legion is practiced with verve in other more publicized centers—Rome, Paris, New York.

However, the Argentine male takes a back seat to no one in open, frank, unbridled admiration of the female face and form with the accent on the latter.

In New York when a pretty model in a tight fitting dress swings down the avenue carrying her hat box, she has admirers. Men glance covertly at her as she passes. Some even take second glances. However for the most part the looking is done shyly and slyly. In European lands the visual approach is more direct.

But in Argentina —
When a — chica — slaps for baby, the cuddly ones of all ages — comes strolling down the street it is literally a traffic stopping occasion. The approaching Argentine starts looking at the limit of his vision. The usual spotting distance is 30 yards but a far-ranging young expert can foray as far as a city block.

When the feminine quarry is 25 feet away the Argentine starts the long look. It begins at the toes and sweeps slowly up to the head; then returns equally slowly with a last, penetrating, soulful glance into the lady's eyes.

To all this the chica pretends blissful ignorance. Her gaze remains fixed about two inches above the heads of the gaping crowd.

The inspection doesn't stop as the girl passes. The Argentine slows his walk, staring back over his shoulder for perhaps 20 paces. He then reluctantly swings his gaze forward to spot the next subject.

It is not unusual when an especially outstanding specimen goes by for the Argentine to stop dead in his tracks, as an about sight. People are constantly bumping into each other. In fact an especially carucous chica can halt foot traffic almost completely.

The Argentine girl is something to look at.

It's too bad the stores can never fit them. There seems to be no large sizes. The chicas must always settle for a sweltering two to three sizes too small. The skirts give their limbs no freedom at all. The usual unseen garments are often conspicuous by their absence.

Americans here have a field day. Once they forget stateside taboos, they really enjoy the scenery. No more pretending they aren't looking when they are. No more feelings of frustration at not getting a long enough look. Here they can—and do—stop, look and look and look.

That's probably why the Argentines don't get any more done than they do," an American remarked. "They spend all their time looking at the girls."

And would you work either if you could really look at the girls?

Start Deliberations in Beck Trial Today

SEATTLE (U)—A King County Superior Court jury of seven men and five women today was expected to start its deliberations in the grand larceny trial of Teamsters Union President Dave Beck.

The defense and prosecution wound up their cases Wednesday and then spent most of yesterday going over point by point the instructions Judge George H. Reville will give to the jury.

The jurors will be charged with determining whether Beck misappropriated \$1,900 from the sale of a union-owned automobile to a beer truck driver in January 1956.

In President Andrew Jackson's term the only U.S. federal offices were state, treasury, war, navy, justice and the Post Office.

Says Soviets True to IGY

Astronomer Tells About Russian Proposal to Develop Code

CAMBRIDGE, Mass. (U)—One of the scientists directing the American satellite tracking program says the Soviets are living up to all their promises for the International Geophysical Year.

Dr. J. Allen Hynek, assistant director of the Smithsonian Astrophysical Observatory, told a newsman last night: "As far as I am concerned, the Russians have met all the IGY agreements — far."

Hynek was commenting on a Russian proposal that a code be developed for rapid exchange of satellite tracking information.

Dr. Fred L. Whipple, Smithsonian director, said an unidentified Soviet scientist made the proposal in a letter to him about six weeks ago. He said scientists are working on the idea.

"Moonwatchers in Japan and Australia have been using a code system to send satellite data to us all along," he said.

He said the numbered code suggested by the Russian would save money on cable costs and insure accuracy.

Hynek said he believed the Soviet proposal was the first direct communication between Russian scientists and the Smithsonian since the first Sputnik was launched Oct. 4, although the observatory has received Russian scientific information through IGY channels.

Korean Power Doubled

SEOUL—A \$30,000,000 project that nearly doubles Korea's electric power capacity, the largest United States-assisted development project ever undertaken in Korea, has been completed months ahead of schedule. The new generating plants are at Samchok, on the east; Tangin-ri, near Seoul; and Masan, near Pusan, in the south-east.

In Drive to Gain Dutch New Guinea

Western Powers Opposing Indonesia

By JOHN P. MARTIN
INS Foreign Director

The infant Indonesian Republic now has seized control of the multi-million dollar Dutch business interests in its territory to try to force the Netherlands to give it West New Guinea.

It also has ordered the expulsion of some 50,000 Dutch nationals, although this may be a delayed process. It will add to Indonesian economic chaos if key Dutch technicians, bankers and plantation operators are kicked out quickly.

MOVE DRASTIC

The drastic move against the Netherlands was foreshadowed by President Sukarno in a speech last Nov. 7, when he said that if the U.N. fails to return West Irian (the Indonesian term for Netherlands New Guinea) Indonesia would "adopt a new course which may startle the whole world."

Objective of the Indonesian territorial drive is a territory of 161,000 square miles, somewhat larger than the American state of Montana.

It is part of the second largest island in the world, with Australia having the southeastern part and administering also the northeastern section as a U.N. trust territory.

SWAMP'S LARGEST

Netherlands New Guinea has the

world's largest swamps. Its main product is copra, but there are unexploited oil fields.

The Dutch contention is that Indonesia has no valid claim to the primitive area. The Dutch occupied it in 1828, belatedly attaching it for administrative purposes to the "Dutch East Indies" archipelago which they had ruled for three centuries until Indonesian independence less than a decade ago.

New Guinea has a mixture of some one million people. Half of them are pygmies living in wild mountains under Stone Age conditions. Cannibalism has not disappeared completely. Only one-third of the population has any contact with the Dutch administration.

In the view of the Dutch and some other western observers most of the inhabitants of the area are neither Indonesian nor Dutch, nor are they well able to speak for themselves.

Australia's government and opposition parties, remembering how the Japanese menaced them with the stepping stones in New Guinea, and well aware of the heavy Communist Party influence in Indonesia, firmly oppose any Dutch

transfer of the territory to Indonesia.

Communist China, the Soviet Union and her satellites and some other nations hostile to so-called western "colonialism" naturally take Indonesia's side.

The United Nations assembly failed to recommend resumed Netherlands-Indonesian negotiations on New Guinea Nov. 29. Now the Jakarta government has taken action against the Dutch. No one knows yet whether this means expropriation of Dutch properties. No one knows yet whether the drive eventually will hit nationals of other western nations.

The new U.S. Armed Forces "Mae West" life jacket inflates itself automatically when the wearer, even though unconscious, falls into the water.

Dec. 22 Reception Will Honor C. E. Wilsons

Bloomfield Hills Country Club will be the scene of a reception Dec. 22 when Mr. and Mrs. Charles E. Wilson of "Longmeadow" will be the honored guests.

Hosts for the 5 to 8 p.m. event will be the Wilsons' sons and daughters and their respective husbands and wives, including Mr. and Mrs. Thomas E. Wilson, Mr. and Mrs. E. Curtis Matthews, Mr. and Mrs. William B. Hargreaves, Mr. and Mrs. Edward E. Wilson, Mr. and Mrs. C. E. Wilson Jr., and Mr. and Mrs. Philip Hoyle.

Mr. and Mrs. L. E. Runnels of West Lawrence street are leaving for a month's vacation in Florida at Lauderdale-by-the-Sea. While there they will visit Mr. Runnel's mother, Mrs. Kate Alexander.

Mrs. W. B. Neal of Fourth street was accepted Tuesday evening as a member of the Pontiac Symphony Orchestra. Mrs. Neal plays the violin. The symphony's next performance will be Jan. 21 when Gordon Staples, violinist, will be the guest artist.

Sgt. and Mrs. Glen Abbott (nee Claire LaClair) and their two sons, Steven and Michael, are enjoying an indefinite stay at the home of Mrs. Abbott's parents, the Frank LaClaires of South Shirley street. Mr. Abbott recently was discharged from the service after spending four years in the Air Force, where he was stationed at Lincoln Air Force Base, Lincoln, Neb.

Mrs. Herbert N. Watson has returned to her home on Nelson street after spending a month with her son and family, the Clinton H. Watsons of Silver Spring, Md.

Barbara Barker, daughter of Dr. and Mrs. Howard B. Barker of Bloomfield Hills will be hostess at a buffet supper Dec. 21 for bride-elect Betsey Chesebrough of Grosse Pointe and her fiancé, Lt. Gordon R. Maitland Jr. Barbara will be one of Betsey's attendants at her Dec. 23 wedding.

8 Receive Sorority Pledge Pins

Mrs. Keith Clauser, Mrs. James Stone, Mrs. Marvin Jones, Mrs. James Vincent, Mrs. Robert Williams, Mrs. Jerry Swanson, Mrs. Jack Plympton, and Mrs. Ray Balder received pledge pins for Alpha Alpha Chapter of Epsilon Sigma Alpha Sorority.

Setting for the pledge pin ceremony Thursday evening was Old Mill Tavern. Mrs. Ben Sweeney conducted the ceremony.

Mrs. Carl Rose was chairman of the event with Mrs. Edgar Plympton, Mrs. Donald Stone, Mrs. Marshall Rose, Mrs. Frank Jasky, Stephanie Linabury and Mrs. Fred Mueller assisting.

Guests for the evening were Mrs. Paul Lampkin and Mrs. Melvin L. Brim, sponsors of the group.

Special gifts were collected to be presented to children in the psychiatry program of Pontiac State Hospital.

Establishes Fund

James E. Goodman of Bloomfield Hills, vice president of General Motors Corporation and manager of its Fisher Body Division, has established a \$4,000 annual scholarship fund for his home town of Union City, Ind.

The fund is equal to more than \$1 for every man, woman and child in Union City.

Newcomers Meet

Mrs. Vere Hodges opened her home on Ottawa drive for the annual Christmas dinner party of Newcomers' Club of Pontiac.

Assisting her were Mrs. Lawrence McCann, and Mrs. William Deutsch, committees.

Five pages today in Women's Section

Included Mrs. Larned Runnels, Mrs. Ed Graybiel, Mrs. Sneed, Mrs. John Ball and Mrs. Peter Aldo.

Mrs. Hugh Hales entertained with a Christmas story and Mrs. McCann accompanied the group at the piano at the Wednesday meeting.

LeBaron's Drama Club Gives Play

LeBaron School Drama Club presented "The Birds Christmas Carol" by Kate Douglas Higgins when the PTA met Thursday afternoon.

Participating in the program were Shirley Kath, Alice Vaught, Loraine VerBeek, Gloria Giddings, Jane Ridley, Tom Koechig, Robert Longstaff, Ralph King, Phillip Karnoogian, Edwin Nurenberg and Carol Stokes.

Others were Leatrice Lixson, Rodney Cotter, Carol Gerki, Carol Tallon, Cathy Van Gilder, Joyce Thorn, James Mason, Ron Dempsey, Larry Sherfield, Mickey Alexander, Robin Walsh, Susan Whitlock and Carol Lightner.

Hostesses for the luncheon were Mrs. Harrison Miller, Mrs. Charles Whapler, Mrs. Michael Depner, Mrs. Benjamin Shelton, Mrs. Richard Sheun, Mrs. J. Blaine McDermid, Mrs. Sydney Deacon, and Mrs. Gordon Tallon. Lola Sandage and Zella Dunn poured.

Majoring in elementary education and English, Jean plans to teach in a Christian school following graduation.

Judy Lou Elwell of Dick avenue is now a member of the Michifish, University of Michigan synchronized swimming team. She also is a member of the Stockwell Choir and is doing volunteer work at the Ypsilanti State Hospital. Judy is a freshman at Michigan.

Robert Durnbaugh, a senior at Manchester College, North Manchester, Ind., was appointed to play this year in the 67 member college Symphonic Band. He will play in the tuba section. Robert is the son of Mrs. Ruth Durnbaugh of Richmond road.

30 Students Spend Yule Near Pole

Travel to Arctic to Sing for GIs at Bases There

By JANE EADS
WASHINGTON—While most youngsters are home for the holidays feasting with the folks and generally having a ball, 30 George Washington University students will fly to our Arctic military bases to cheer the boys with a song.

Sixteen girls and 14 boys, members of the university glee club's Troubadours, traveling by special Strategic Air Command plane, will visit bases in Labrador, Baffin Island, Greenland, Newfoundland, Argentina and the Royal Canadian Air Force Base at Prince Edward Island.

WIDE REPERTOIRE
Besides special Christmas music, their repertoire will include sacred and patriotic hymns, popular Broadway medleys and folk, popular and classical songs.

Though they will spend Christmas at Thule AFB in northern Greenland, where there is no daylight seven months of the year and it's cold as blue blazes, the young singers feel this is "the best part of the trip."

The Troubadours started their vacation-time junkies to the bases in 1930, visiting Greenland and Labrador, but didn't get to Thule until 1932.

Pretty Jolene Oaks, a runner-up in the Miss Washington beauty contest, was the first woman to visit the base. The 5,000 men, who hadn't seen a girl in months, turned out en masse, swept the runway with whistlers, welcomed the party in a blaze of headlights from jeeps and other vehicles.

HARDSHIPS OVERCOME
Last Christmas the group braved 65-mile-an-hour crosswinds after 12 hours in the air with most of the troupe suffering from food poisoning to give a two-hour show.

Highlight of the Thule program is the singing of Handel's "Messiah." One year they had to sing on an improvised riser made of soft drink cartons. Some of the boys in the back row toppled out of view when they sat down.

Dr. Robert Howe Harmon, a university physician who directs the glee club, and his wife, who is accompanist, also act as chaperones on all the Troubadour twice-yearly trips.

The girls cart along long full-skirted white formals, the men black tie and tux for their appearances. Once they hit the big freeze they're given Arctic outdoor apparel, cap and parka, pants (girls too), and what they call "bunny boots," white, big and cumbersome, to pull over their own shoes.

FLYING CALLED BEST
According to Troubadour Harry Gleason, who is making his fifth trip, most fun is had during the 65 to 75 hours in the air.

"We dance the bunny boot hop, generally let our hair down, that is if we're not sleeping," he told me.

"We don't sleep too much on the ground. The food at the bases is great and we're usually starving, though we get apples, soup, tea and coffee on the plane."

The Troubadours leave Washington Dec. 18 and return Jan. 4.

WCS Party Held

Mrs. Joseph Wagley and Mrs. Basil Meldein participated in the Christmas program of Women's Society of Christian Service of Oakland Park Methodist Church. Betty Blom, who spent three years as a short-term missionary in Seoul, was dressed in native Korean costume and showed pictures she took there.

Refreshments were served by the Mary Martha group.

Mrs. Chadd Mellinger of Blaine avenue (left) president of the Zonta Club of Pontiac, presents a check for \$750 to Diane Lubahn for the Girls' Ranch project. Another Zontian who shows approval for the project is Mrs. L. Raymond Sampson of South Shore drive.

Ranch project. Another Zontian who shows approval for the project is Mrs. L. Raymond Sampson of South Shore drive.

Zonta's Yule Gift to Homeless Children: \$750 to Help Build Oakland Girls' Ranch

Pontiac Zontians decided to give a gift for Christmas—a very real gift. One that would help children without homes to find a home.

The gift was a donation of \$750 toward the building fund of Girls' Ranch. Already in

existence is Camp Oakland for Boys. Girls' Ranch would be a similar project. Camp Oakland is home to some 25 boys, and Girls' Ranch would accommodate at least 15 girls the year around.

SITE NEAR OXFORD

The site, near Oxford and across the lake from Camp Oakland, has been purchased and paid for. Some 30 women's groups and clubs throughout Oakland County are assisting Probate Judge Arthur E. Moore in sponsoring the project, and there are 60 participating clubs aiding the camp.

The Yverage Foundation has pledged \$20,000 and the Mondechon Foundation has pledged another \$10,000. Along with \$5,000 from anonymous donors there is over \$7,000 in individual pledges for this much needed home.

Once the building is erected, the Oakland County Juvenile Court will provide for the deserving youngsters.

During the annual Christmas party Thursday evening, Mrs. Chadd Mellinger, president of the Zonta Club of Pontiac, recounted some of the charitable projects carried out by the members. She also presented a check to Oriel Endelman, executive director of the Michigan Children's Aid Society. The check will be used for the society's annual Christmas party.

Chairmen for the party were

Mrs. L. Harvey Lodge, LaRetta Paul, Mrs. George Richman and Mrs. M. A. Calbi.

Teachers' Club Has Yule Party

Mrs. Donald B. Hogue narrated stories of Christmas carols from European countries when Teachers Exchange Club met Thursday evening in the Oneida road home of Mrs. Merrell Stephens.

Luncheon was served by the hostess assisted by Mrs. Lloyd Adams and Mrs. Theodore Faulstich. Gifts were donated to the Home and Training School at Lapeer.

Yule Party Given

Mrs. U. H. Barnett opened her Norton avenue home Wednesday evening for an annual Christmas party for members of Parent Guidance Club and their guests. An exchange of gifts preceded a luncheon served by the hostess. White elephant night will be held Jan. 15 in the Hammond Lake drive home of Mrs. Enar West.

Plan Yule Dance

Mrs. Georgianna Wittkopp and Mrs. Adeline Gowan have been named chairmen of Widow and Widowers' Club Christmas dance to be held Tuesday in Malta Temple.

Fox and Hounds Inn was the setting for a Christmas gift-wrapping session held by Medical Assistants of Oakland County. The group plans to give the presents to patients at Oakland County Convalescent Hospital. Barbara Badden (left), publicity chair-

man for the group, and President-Elect Mrs. Harold Bjork (second from left) watch as President Frances Teasdale (second from right) and Teedie Vicker, assistant publicity chairman, finish wrapping a gift.

Dear Abby:

He Won't Kill Himself — He Likes Life Too Much

By ABIGAIL VAN BUREN

DEAR ABBY: In the 12 years I have been married to this "lady-killer" he has run around with nine women that I know about. I have letters, birth announcements, hospital bills and pictures from his escapades. I tell you, it is enough to lay a person in her grave.

I keep leaving him, but his whole family works on me to take him back saying if he kills himself it will be my fault. I have lost all feeling for him (and so have our children) but I am sticking it out because I don't want to be responsible for him killing himself. Do you think I am being foolish?

ABBY

ELINORE
DEAR ELINORE: You are foolish to live with a man who so obviously has no regard for his marriage. This man likes to live too much to kill himself. Let him send the support checks and see if that doesn't straighten him around.

DEAR ABBY: I am a college student and am going steady with another college student. I really don't care for her because I have a sweet and loving girl at home so this college girl is only a substitute. I have tried to drop her a

dozen times, but she keeps chasing me across the campus and there is no place to hide. What should I do?

CHASED
DEAR CHASED: Transfer to a university in California. I understand the redwood trees are 20 feet in diameter there.

DEAR ABBY: I am 14 and tell my mother everything,

Gina? She's Not His Type

By DOROTHY ROE
AP Women's Editor

European merchandise is highly overrated — and their women, too, says 100 per cent American Dale Robertson, just back from making an Italian movie with the voluptuous and highly publicized Gina Lollobrigida.

"She's not my type," says Oklahoma-born, six-footer Robertson, shrugging off the impact of having played the romantic lead opposite the glamorous Lollobrigida.

"All I wanted to do the whole time in Italy was to get back to my horse."

This hard-riding star of movies and TV prefers everything from girls to wines home grown in America.

Says he: "I have everything I ever could want right in my own back yard in Sepulveda, Calif., and I can't wait to get back there."

BIG MENAGERIE
What he has in the ample

backyard includes four riding horses, three dogs and 13 parakeets, in addition to a stable of race horses.

"Americans are too impressed by anything that's imported," he continues. "They're always looking across that pond, sighing over Paris hats, French wines, British tailoring and Italian women."

"There's a lot of beautiful scenery in Europe, sure. But when they started talking too much about it, I just asked them if they'd ever seen Yellowstone Park or the Grand Canyon."

"That's as much scenery as I need. Just how much beauty can you take in, anyway?"

"Now you take wines. A lot of so-called connoisseurs and gourmets in this country wouldn't be caught dead with anything but an imported wine."

"But I found for a fact that after any wine has been shipped from Europe to America it can't compare with our own American vintages."

as she lives. How can I stop my mother from telling?

LOUISE

DEAR LOUISE: You can't stop your mother, but in the future do not betray your girl friend's confidences. A girl is wise to tell her mother everything concerning herself. Pass this information on to your friend. She needs it!

DEAR ABBY: I guess I will have to call on you for help because I am getting nowhere with my girl. I do everything to please her. I pick her up from work every day and feed her. I see shows I have seen before. I haul her whole family around in my car.

I bought her a set of matched luggage and a silver compact for her birthday and on my birthday she gave me a kiss. When I ask her to kiss me she says she doesn't feel like it. How can I get her to warm up to me? I am 23 and she is 20.

ELDON
DEAR ELDON: This girl doesn't want a "boyfriend"—she wants a chauffeur, escort and cash register. Better start looking at the new models.

CONFIDENTIAL TO BERT: MAN IS DUST. DUST SETTLES. BE A MAN!

If you have a problem, write Abigail Van Buren in care of The Pontiac Press. She will be glad to answer your letter. For a personal reply, please enclose a stamped self-addressed envelope.

Posing beside the Christmas gifts at a Pontiac White Shrine Christmas party held in Roosevelt Temple are John J. Sellman and Mrs. William

Babcock, chairman. More than 100 gifts were presented for the Oakland County Children's Home.

West Coast Newcomer Asks Advice

Wonders How She
Should 'Look Up'
Strangers

By EMILY POST

"Dear Mrs. Post: I have recently moved to the West Coast. Before I left many of my friends gave me the names and addresses of people living here whom they know and asked me to 'look them up.' Will you please tell me how to go about doing this?"

Answer: You as a woman should certainly not "look up" anybody. If you have letters of introduction that is an entirely different matter.

"Dear Mrs. Post: A little over a year ago the son of a distant relative of my husband's was married. The ceremony took place in the clergyman's study with just the immediate families present, but immediately afterwards a large reception, to which my husband and I were invited, was given at the home of the bride's parents. Although my husband has never been very close to these particular relatives and we have never mixed socially with them, we went to the reception.

"Now here is my problem: Our daughter is being married shortly and I would like to know if we are obliged to invite them to her wedding."

Answer: You certainly must invite them unless the wedding is to be very small and only immediate families and nearest relatives are to be invited.

"Dear Mrs. Post: Would it be proper for me to go to New York City for two or three days with a young man with whom I have been keeping company for about a year, and a married couple who are friends of both of us?"

Answer: Yes, the married couple will provide all the chaperoning you will need.

Don't Save Silver for Formal Dinner

Don't wait for a formal dinner to use your sterling silver flatware. Keep it ready for use in a convenient drawer lined with washable cotton carpeting.

The thick pile will cushion and protect the silver from scratches. Furthermore, this type of storage chest is hygienic because the lining can be removed and sudsed by hand or machine as often as necessary.

From old greeting cards you can make packages that look attractive and imaginative as well as capturing the Christmas spirit.

That Middle-Aged Feeling Creeps Up in Little Ways

Woman Realizes She's Getting Older
When She Faces Birthday Joylessly

By RUTH MILLETT

It's the little things that make a woman face the fact that she is getting middle-aged.

Starting to put on eye makeup and having to quit because it's one close job she can't do wearing glasses.

Dancing with a handsome man to a dreamy piece of music and having him talk the whole time about how expensive it is to have a son in college.

Turning down dress after dress shown her by a saleswoman with the mental note, "Too young for me."

Chattering a chattering bunch of teenagers somewhere and having them address not a single remark to her from the time they say "Hello" to the time they politely say "Thank you for the ride."

Deciding ruefully to start buying size 14 instead of starving all the time in order to wear size 12.

Seeing an actress star of her youth playing the role of a middle-aged wife in a TV drama.

Having a saleswoman try to sell her a hat by telling her how "youthful" it makes her look.

Combing across an old photograph of herself and noticing with a pang how little the woman she is resembles the girl she was.

Facing a birthday without a bit of happy anticipation.

Would you believe that this Christmas tree is as near as your closest fruit market? Yes, we use oranges, a piece of driftwood and tinsel—and the result is this attractive, modern Yule tree.

You'd Better Get Busy Right Away— Christmas Is Just Around the Corner

By GRETTA PORTER

Now that Christmas decorations have been put up by the city and stores are featuring special holiday shopping hours—it is obvious that Christmas is just around the corner.

But many of us (and this reporter is guilty) haven't begun to pick out our greeting cards or wrapping paper, let alone prepare for the festive occasion.

The actual beginning of the

Christmas season is ushered in with Advent. The traditional Christmas Advent season includes the custom of hanging the circular (or Advent) wreath which is said to be the symbol of eternity.

The evergreens represent life and growth and the three pink and one purple candle symbolize the four Sundays of expectation before the birth of Christ. The purple of the ribbon and candle symbolizes

penance and prayer, and the pink candles represent joyousness of the season.

For the Christmas season following Advent, candles and ribbons may be changed to white, the greens changed and freshened, and the wreath used as part of the holiday decorations.

Not only is it time to work on our greens for the holidays but the homemaker who plans ahead for the season's parties knows that it is wise to have her glassware polished early. In other words, get those "once-a-year-only" pieces down and restored to their original sparkle before the hustle and bustle of the holiday sets in for earnest.

UNUSUAL EFFECTS

Then we come to gift wrapping. This year why not try some unusual effects? Try taking colored foil wrapping paper and covering your gifts with it. Then cut out figures from last year's Christmas cards and glue them on the packages—you might use angels, the Nativity scene or any number of different ideas.

Or you could make outlines of bells, Christmas trees and so forth with gold and silver star-shaped sequins on the foil paper.

Here's another little idea you might try: Many people are cramped for space and don't have room for a large Christmas tree, but a tree of oranges takes up very little room.

The oranges with tinsel and attach to a gnarled piece of driftwood that has a number of branches. With a big bow at the base of your tree, the presents clustered around look modern and attractive. If you have a large tree also, you might use this one for a hall table or low stand... set your Christmas cards around the base of the orange tree.

EASIER ON TEMPER

Preparing for Christmas should not be a last-minute proposition. You'll feel less tired and grouchy come the big day if you do take it easier throughout the preparation period. And for once, you'll be able to enjoy Christmas without being tired out.

You'll be all set for playing in the Southland this winter with this brightly colored cotton sateen with the lowered shutter back and fitted waistline.

Naming Group Set

Mrs. Melvin Norberg, Mrs. Ervin Christie and James Burke were named to serve on the nominating committee for Lincoln Junior High School PTA. Virginia Smith was elected auditor when the executive board of Lincoln Junior High School met in the East Yale avenue home of Mrs. George Gray.

Mrs. Fred Goines was appointed chairman for the Founder's Day Dinner at the Monday evening meeting.

Shirley Potvin Feted

Bride-elect Shirley Potvin was honored with a miscellaneous shower, given Monday in the Marion street home of Mrs. Lonnie Moore. Miss Potvin will become the bride of Elmer D. Moore. Her parents are Mr. and Mrs. Louis Potvin of Princeton street, and the bridegroom's parents are Mr. and Mrs. Persa Moore of Bona, Ark.

Club Marks Season

Mrs. Anthony Gerzanics opened her Windcroft drive home Wednesday evening when members of Lake Shore Home Extension Club gathered for their annual Christmas meeting. Participating in the mas meeting. Participating in the cooperative dinner, members served dishes made from favorite recipes at a table decorated in a Christmas motif.

Avoid Worrying

Worrying about not sleeping will keep a person awake. If you don't fall asleep soon after retiring, try thinking of something pleasant. Perhaps stretching to relax muscles will help, or loosening bed covers. If you don't worry about it, sleep eventually will come.

Gramercy Park is the only private park in New York City. Tenants living in surrounding houses have keys for their personal use.

Club Picks Officers

Mrs. Robert Sower was elected president of Du Decum Club when that group met in the Rochester home of Mrs. Norman Nelson for a Christmas party and election of officers. Also elected at the Tuesday evening meeting were Nancy Tanner, secretary-treasurer and Rita Flicker, telephone chairman.

Mrs. Clair Blades was welcomed back. She was absent for two years while her husband served in the Armed Forces.

Do-C-Do Dance Held

Mr. and Mrs. Richard Irwin were received as new members of Do-C-Do Square Dance Club when that group met for an annual Christmas dance Thursday evening at Central School. Among the guests were Mr. and Mrs. Stan Ladd, Dr. Attila Ulgensal and Ellen McAuey.

Vesper Service Held

In place of regular meetings Women's Society of Bethany Baptist Church presented afternoon Christmas vespers, Sunday Bethany Choir, under the direction of Elda Sutter sang.

Open Every Night 'Til Christmas

Unkind Criticism

The woman was telling a group about what a perfectly "grim" evening she and her husband had spent at a party given by some new acquaintances. She named the host and hostess. A gracious person never criticizes or makes fun of the hospitality he accepts.

Be Good Sports

It's important for parents who attend school basketball games to set an example of good sportsmanship. The parent who loudly criticizes the referee's decisions shows himself a poor sport.

Don't Allow Family to Snarl Party Plan

AP NEWSFEATURES
The real roadblocks you'll face before a Yuletide party are the two-legged kind—Dad and the young fry. If you can keep them out from underfoot without curbing their holiday exuberance, you may even enjoy entertaining your guests.

Out of the house or into the act are your only alternatives as far as the family is concerned when you are preparing for company.

GIVE THEM CHORES
Put the children to cleaning their own rooms. Give them upstairs or downstairs chores, depending on where you are not. (Be prepared to pick up after them a few minutes before your guests arrive.)

The man of the family is a good candidate for help, providing you respect his admiration for BIG chores, preferably those that take him outdoors—gathering wood, washing windows, arranging tree lights, putting up door wreaths. Get him to prepare ice cubes early, load the cooler.

Rise and shine the silver, make the hors d'oeuvres, put flowers or leaves in bowls or vases, gather up ashtrays, check the closet for coat space and hangers while the rest of the family snores in the morning. A minute saved at this time is an hour earned later.

EXPECT THE WORST
Prepare for the worst... 1. Keep ashtrays in the kitchen until company arrives—a man can use every clean ashtray for one cigarette just before the guests press the door buzzer.

2. Put the hors d'oeuvres in a safe place, and well covered, or you may find nothing but olive pits when the time comes to serve. Those lovely canape patterns mean nothing to a hungry man.

3. Serve potato chips, nuts and canapes on paper plates. A man is a sure-fire dish breaker. There is none better.

4. Did he take a shower? Check the bathroom when you hear your first guest's car. You may find guest towels thrown on a wet floor, piles of clothes, messy soap trays.

THE LAST WORDS
5. Final instructions to the message might be these: Help with the guests' coats... someone stay in the room when Mom goes into the kitchen (never happens)... let the guests choose the entertainment—hi-fi, games, TV, cards... don't open cluttered closets and drawers... ask the man of the house to refrain from yawning when everyone's having a good time.

Banish Blackhead Soon as Possible

Blackheads may seem to be permanent with some women and only occasional with others.

They are an accumulation of dirt and oil from your own glands under the skin. Once you spot a blackhead get rid of it while it is new and easy to dislodge.

Voice Your Views

If you don't like the way a club organization is being run stand up and say so in a meeting. Don't agree to everything and vote with the majority and then go around criticizing the club. If your outspoken criticisms are sound, you may get some action.

That mountain costume seems to have gotten the best of Maryann Clifton (second from left). Actually she's just practicing for Pontamix Club's Christmas Benefit Variety Show, which is being held Saturday and Sunday evenings at 8 p.m. in St. Benedict Hall.

Bob Mountain (left) is part of a pantomime group, called "Up-a-Trio Plus One." Charles Lewis (second from right) will emcee the show and Nancy Clifton (right) is part of the Blue Ridge Mountaineers group.

Checking over posters for the Pontamix Club show are (left to right) Joni McMahon, who is a member of the group Up-a-Trio Plus One; Jerry Kurkowski, who will do an impersonation of Elvis

Presley; Marcee Hill, who will play the organ and Jerry Vaverek, who is also a member of Up-a-Trio Plus One.

Ideal Wife Outlined by 5 Top Men

Being Asset to Mate Is No Easy Trick, but Here's How

By PHYLLIS BATTILLE
NEW YORK (INS)—A new wife's first obligation to her husband—after permitting him to buy her a ring, of course, and allowing him to take her off on a honeymoon—is to learn how to be an asset to him.

This doubtless is the reason the first year is the hardest. A girl has got to go through a trial-and-error period to find out what kind of asset he can use. (E.G.—Does her shrimp creole give him delight, or dyspepsia? Should she work to build up his bankroll, or loaf to build up his ego?)

To save women from these headaches, a national magazine for brides has come out with a series of evaluations on wives, written by some of the top men in various fields of professional endeavor.

There's an actor (Glenn Ford), a business executive, a lawyer, a teacher and an insurance broker, all of whom are full of peachy ideas on what a wife should do to keep her husband tip-top, at home and office.

PLENTY OF PITFALLS
If, as the magazine hints, these men are "representative" of their fellow men in the professions, it is recommended here that a woman avoid falling in love with lawyers unless she is willing to be submissive, and eschew businessmen unless she is prepared to be all things to all people, from husband and children through clients.

Instead, turn to an actor for the perfect mate, gossip columns notwithstanding. For Mr. Glenn Ford has the least difficult standards for the modern wife to meet.

A capsule list of requirements for "being an asset to your husband" follows:
Glenn Ford—Wife should be independent, taking her mind off domestic duties to take on outside activities, broadening her life and releasing her creative needs. Then she has something to contribute to hubby's after-hours day—a fact just as important as the husband sharing his day with her.

TEED HIM
Robert Shriver, executive — Wife's role number one is to keep a man physically happy, with good food, comfort and "never minimize this" sex. Next duty, let a man's mind alone. After a hard day of thinking, he doesn't want to be mentally challenged; he'd rather be diverted.

NO ADVICE, PLEASE
Nathaniel Reed, teacher — Marry a teacher and prepare for a life of essentials sparsely seasoned with luxuries. 29 success, indeed survive, in such a life, you should have a bright mind, sense of humor, and the capacity to avoid handing out advice. "Never try to teach a teacher."

WHERE TRUE KINDNESS IS ALWAYS INVOLVED WITH DELIGHT IN OURSELVES, THE NEUTROtic kind is always preceded by self-reproaching thoughts. It always leaves us feeling cheated and resentful.

THIS IS INEVITABLE. AS WE AREN'T PERFECT, WE CANNOT PROVE WE ARE. The grudging loan of our sweater falls in its purpose. In our hearts we know that all our false kindness will really get us is a cleaner's bill.

Lawrence Corroon, insurance broker—Don't complain about the long hours your husband keeps. Encourage him; show an interest in his work. Above all, have a good sense of humor, for "nothing releases the pressure of business more quickly than laughter." (Copyright 1957)

False Kindness Won't Prove Us Perfect

By MURIEL LAWRENCE

Home from high school, Connie told her mother she had a special evening date. Then she said, "Can I wear that white cashmere cardigan Grandma gave you for your birthday?"

Upstairs in its owner's dresser, the never worn, cherished sweater still lay in its sealed plastic envelope. So Connie's mother said, "What's the matter with your pink nylon cardigan?"

"It needs washing," Connie shrugged. "Besides, Mom's seen it a million times."

Face averted, her mother said, "If you washed it right now, it will be dry in time to wear it."

After a pause, Connie said angrily, "OK. Be mean," and ran upstairs to her room.

REPROACHED HERSELF
Immediately her mother began to experience discomfort. Into her mind came these self-reproaching thoughts:

"After all, the child will only be young once. Why do I want to be the one to wear that sweater for the first time? I guess it is mean of me."

Accordingly, she went to the

foot of the stairs to call up to Connie, "All right, you can wear the sweater. It's in my bottom bureau drawer."

"Self-reproach is the unavoidable consequence of the need to appear perfect," wrote Karen Horney, the world-noted psychoanalyst.

Children often reproach us as "mean" for not giving them what they want. As we can't give them everything they want, our "mean-ness" is a possibility we should concede early in our experience with them.

QUITE CHEERFUL
If we get used to the idea of appearing "mean" when Connie wants us to be perfectly generous,

we soon find we can be quite cheerful about it instead of nervously reproaching ourselves whenever we disappoint her.

Kindness compelled by our need to appear perfect to children is easily recognized if we want to recognize it.

Where true kindness is always involved with delight in ourselves, the neurotic kind is always preceded by self-reproaching thoughts. It always leaves us feeling cheated and resentful.

This is inevitable. As we aren't perfect, we cannot prove we are. The grudging loan of our sweater falls in its purpose. In our hearts we know that all our false kindness will really get us is a cleaner's bill.

Thin Cooky Deep Fried in Hot Fat

Miss Strickland Cuts Rolled Dough Into Traditional Shape

By JANET ODELL
Pontiac Press Home Editor

More cookies for Christmas. Isn't it fun? This recipe for Danish Kleiner calls for frying the cookies in hot fat. The result is a delicate, crumbly concoction that melts in your mouth.

Today's cook is Norma Strickland. Miss Strickland says she doesn't have time for many activities after her work day is over. She loves to knit and to play bridge.

DANISH KLEINER
By Norma Strickland

3 eggs
1 cup sugar
1/2 teaspoon salt
4 tablespoons cream
1/4 cup butter or margarine
1 teaspoon baking powder
3-4 cups sifted flour
1 teaspoon vanilla OR 1 teaspoon ground cardamom

Beat eggs with sugar. Add cream and melted shortening. Stir in enough flour to make a batter stiff enough to roll. Roll thin and cut into diamond shapes. Make a slit near one end and pull the other end through it.

Deep fry in hot fat. Drain on brown paper. Before serving roll in confectioners sugar.

The lowest point of land in the United States is Death Valley, California, which is 276 feet below sea level.

Depends Upon Parents' Preference

May Babysitter Wear Sport Garb?

By JOSEPHINE LOWMAN
(The Friday Question Box)

Q. "When babysitting, is it correct to wear shorts, slacks or Bermuda, or should I wear a dress or skirt all the time?"

A. I think this should depend on how the parents feel about it and on where they live. If you are going to take the baby out in its buggy on the streets, or the little children to a park, I myself would prefer that you wear a skirt.

On the other hand, if you are going to stay right at home, it does save your better clothes to wear play things. Ask the parents of the children what they think is best.

Q. "My problem is that my skin tends in the morning to be very dry but by midday it is very oily. My skin has a nice color when I get up in the morning but by 3 o'clock it is a greasy, dark color." A. I suggest that you take a little kit with you to work and wash your face with soap and water at your lunch hour. Also, wash your face and neck just before leaving in the morning, when you first get home in the afternoon and before going to sleep at night. Also apply an astringent twice daily, after washing your face.

Q. "I am 19 years old, 5 feet 8 inches tall and weigh 165 pounds. I have a fairly large frame. What should I weigh? I know I am lots overweight."

A. If you have a very large frame, you really are not much overweight. However, I suspect

that you should lose 10 to 15 pounds. * * *

Q. "I am 5 feet tall and weigh 115 pounds. My bust measures 34, waist 28 and hips 37 inches. I am 29 years old and medium build. What I want to know is how much off am I? It means a lot to me."

A. Your weight is just about

The type of clothes you wear while babysitting depends on the type of activity you may indulge in while on the job, and the opinion of the parents.

right. You might be 5 pounds overweight, depending on your frame. Take bust-developing exercises to add an inch to your bust measurement and waist-aiming exercises to lose an inch there.

Q. "I am 16 years old, 5 feet 1 inch tall and weigh 98 pounds. My bust is 33 inches, waist 23 inches and hips 30 inches. I would like to get about 5 inches more on my hips. I bite my nails. How can I stop that? My arms are very hairy—awful. What can I do to get rid of this unpleasant hair?"

A. You should gain about 5 pounds, but if your hips were 5 inches larger they would be out of proportion. You might add 2 or 3 inches with exercise.

Remove the hair on your arms with a depilatory and repeat the treatment whenever necessary. Have a good manicure at a beauty salon. Maybe then you can remember not to bite your nails. Also ask your family and friends to remind you.

Tomorrow: "She's a 'Facial Gymnast'—Has Deep Lines to Prove It."

Let out a dart or two through the middle of last season's dress or overblouse, wear your belts loose and you have the newest silhouette.

Since you are on a budget, you want to steer away from the extreme or too-severe look. Tight waistline and hippy hips look dated, but removing the darts and leaving off the belt, or placing belt at hips loosely, is high-fashion.

Reunions Planned in Birmingham

BIRMINGHAM — Bride-elect Cherry Mae Harris will be honored at a luncheon Monday given by Mrs. Robert F. Watt. Cherry, daughter of the Rev. and Mrs. W. Glen Harris, will be married Dec. 27 to Philip Roy Jacobus of Plymouth.

Parties have been given in Birmingham and Ann Arbor for Miss Harris who is a senior at the University of Michigan School of Nursing. Mr. Jacobus is a senior at the University's Law School.

Mrs. Ernest W. Seasholtz, Mrs. Herbert G. Wood and others have entertained for her during her few weekends at home.

The bridegroom-elect's parents, Mr. and Mrs. Roy Jacobus of Plymouth, plan to give the rehearsal dinner Dec. 26.

The Rev. Mr. Harris will read the service in his church, the First Presbyterian Church of Birmingham, and a reception will be given there, followed by a dinner at Oakland Hills Country Club.

DAUGHTERS TO RETURN

Mr. and Mrs. Benjamin Brewster are happily making plans for the holidays when both their daughters will be home. Betsy who lives in New York, will be home just before Dec. 22 when her parents will give a milk punch party in their home on Brookdale drive.

Allison, now Mrs. Richard Allen Jones, and Lt. Jones also will arrive well ahead of that date from the West Coast where Lt. Jones is stationed at Larson Air Force Base.

Mr. and Mrs. Fritz Hildebrand and their small son will come from Philadelphia for a holiday visit with Mrs. Hildebrand's parents, Mr. and Mrs. Roy E. Stringer.

Mr. and Mrs. Carl Abbott have invited friends for cocktails and supper Dec. 21 in

their home on Broadway Boulevard.

Mrs. Cleveland X. Henning will arrive Thursday from her home in St. Louis, Mo., for a holiday visit with her son-in-law and daughter Mr. and Mrs. Richard F. Jones of Glencoe drive.

Mr. and Mrs. Edward Tyler of East Greenwich, R.I., will spend the holidays with Mrs. Tyler's parents Mr. and Mrs. Latta Porter.

Mr. and Mrs. Floyd W. Knox have returned to their home in North Cromwell drive after a visit in Mountain Lake, N.J., with their son-in-law and daughter, Mr. and Mrs. George Girdler.

PARTIES SCHEDULED

Mr. and Mrs. John E. Gary

and Mr. and Mrs. John C. Finegan will give a cocktail party Saturday in the Gary home on Hanna street.

Mr. and Mrs. W. S. Gilbreath Jr. and Mr. and Mrs. H. Gray Muzzy have invited friends to a breakfast Dec. 22 at Bloomfield Hills Country Club.

Dr. and Mrs. James A. Morton are entertaining over this weekend Dr. and Mrs. Harry Kuhmnd and their two daughters of Short Hills, N.J.

Mr. and Mrs. G. Bretnef Williams plan to take their small Lucy to Philadelphia the day after Christmas to visit Mr. Williams' parents, Mr. and Mrs. Thomas W. Williams.

by Laura Wheeler

Small enough for many uses—these dollies—and practical since they are closely crocheted. Use them separately or as a set.

Pattern 888: Crochet directions for 10-inch square, 9-inch round, 9x12-inch oval in No. 50 cotton. Square about 16 inches in string. Send 25c (coins) for this pattern—add five cents for each pattern for 1st-class mailing. Send to The Pontiac Press, Needlecraft Dept., P.O. Box 164, Old Chelsea Station, New York 11, N.Y. Print plainly pattern number, name, address and zone.

As a bonus, two complete patterns are printed right in our Laura Wheeler Needlecraft Book. Dozens of other designs you'll want to order—easy, fascinating handwork for yourself, your home, gifts, bazaar items. Send 25c for your copy of this book today!

Derby for Riders

The derby, which is making a comeback among Ivy League fans, was originally a riding hat. Lord Derby invented it early in the 19th Century to act as a helmet-like protection when taking a header from a horse. Riding derbies are much stiffer than the others.

A FEW OF THE ESTEY EXCLUSIVES

- The only Spinet Organ with 98 keys

REHEARSE FOR CONCERT — The Senior Choir of Oxford High School will be appearing in its new robes for the first time at the annual Christmas concert in the high school auditorium Monday evening. Here, four of the school's 90-member vocal group rehearse for the event. From left, they are Edward La Douceur, Judy Cash, Joanne Maguire and Harold Carter.

High School Yule Program

Concert Slated at Oxford

OXFORD — The annual Christmas concert by the Oxford High School vocal department will be presented at 8 p.m. Monday in the high school auditorium. Mrs. Dorothy Jean Valentine is the director.

OK Conference Report Method

Talks With Parents to Be Used in Addition to Card Marking

The conference method of reporting marks in conjunction with, or as a substitute for report cards was adopted last night by the Pontiac Board of Education.

The board voted approval after receiving reassurances from Superintendent Dana P. Whitmer that no school would adopt conferences without the consent of a large majority of the parents.

Dr. Whitmer listed six "controls" which he would retain on the switch, to avoid arguments between parents and school staff over which method to use. The board agreed to give teachers the equivalent of two days per conference period in which to schedule such conference not to exceed four days in all during 1957-58.

Dr. Whitmer also reported that differences with some Crofoot school parents over the conference method had been ironed out in a meeting.

Rev. Joseph Parker, board member, offered an amendment to the resolution approving conferences in which he sought to retain the use of report cards along with the conference method.

His amendment failed for lack of a support.

In other action, the board approved personnel policies for secretaries and a work and wage policy for custodial-maintenance workers in the school system.

The board agreed to delay approval of a plan to provide additional teacher parking area on the Central High School campus, alongside the gym, until the possibility of purchasing some property for this purpose has been explored.

Hold Christmas Dance

WEST BLOOMFIELD — Middle Strata Association will hold a Christmas dance Saturday evening at the old Twin Beach Club House on Forbush avenue. Music for both modern and square dancing will be by the "Musical Notes." Jim Freyburger, John Nemyer and Carl Worden are in charge of the dance. Tickets may be purchased at the door.

PETER MURRAY

Waterford Township High School senior Peter Murray has been named as a semifinalist in the National Merit Scholarship competition.

Peter, of 956 Myrtle St., is the only WTHS student listed among the 7,500 high scorers in the national college qualifying test given to students in 14,000 high schools.

The next competitive step is January 11 when a three hour college board examination will be given.

By May, 800 boys and girls with the highest scores will be given a four year scholarship to the college and for the course of study of their choice.

The senior choir will be appearing in robes for the first time. A successful drive for the \$1,500 to purchase them has just been completed.

Other groups participating in the concert will be the girls' and mixed quartets, and junior and senior ensembles.

Soloists are Judy Cash, Joanne Maguire, Marilyn Unger, Robert Perry, Paul Miller, Daniel Hobbs and George Polly. Accompanists are Judy Dautermann, Barbara Ellis, Lynne Fralling and Lois Stoddard.

Selections include "Jesu Bambino," "Morning Star," "Nativity Tale," and "Christmas Roundelay," a National Federation of Music Clubs prize composition by 13-year-old Ruth Young, as well as more familiar numbers.

Concluding the program will be Handel's "Hallelujah Chorus," in which alumni and community singers have been invited to join.

Slash Requests for Wage Hikes

Pay Increases Sought by City Employees May Be Cut Some More

Pontiac city employees' requests for \$307,000 in pay increases and other fringe benefits have been narrowed down to \$131,000, and might be cut some more, it was indicated by the City Commission last night.

Recent conferences between the Joint Council of Municipal Employees and City Manager Walter K. Willman have reduced their original demands to four. They are:

- (1) \$130 pay increase across the board for all employees
- (2) Fully-paid single subscriber ward service hospitalization.
- (3) Time off a half day before Christmas and New Year's, with those having to work to be paid compensatory time.
- (4) Any city surplus funds to be paid employees in the form of longevity.

Meeting informally commissioners were coolest to points number one and four. They instructed Willman to meet again with the council to discuss the proposals.

"It knocks our pay plan out of kilter," Willman said of the pay hike demands for all employees regardless of their position.

The manager will report back to the commission before they sit down to tackle the 1958 proposed city budget.

He said there was \$150,000 in the budget's contingency fund to provide for employee demands.

In other action, commissioners considered a request from the Oakland County Table Toppers that taverns in Pontiac be allowed to open at noon Sundays instead of 2 p.m.

Commissioners, on the motion of Mayor William W. Donaldson, received and filed the request.

It was also decided that the city will study the possibility of converting the West Lawrence street municipal parking lot into an eight-hour storage lot in addition to the regular hourly parking.

Commissioners agreed to another 60-day extension in the use of the city's sewers by the supermarket at the corner of Telegraph and Elizabeth Lake Roads in Waterford Township.

Detroit Mom, 19, Held in Starving of Daughter

DETROIT — A 19-year-old mother of four was held by police today for investigation in the death of a daughter.

Detective Sgt. John Ware of the homicide bureau said 21-month-old Diane Hollis was dead on arrival at receiving hospital after being taken from Mrs. Gwendolyn Hollis' apartment. Doctors attributed her death to malnutrition.

Ware said a twin sister, Denise, also was suffering from malnutrition.

Offer Formula to End Strike

Subway Workers Give Plan Amid Indications Walkout Is Crumbling

NEW YORK — Striking subway motormen, amid indications that their walkout was beginning to crumble, have offered a formula for ending a work stoppage now in its fifth day.

Some 1,000 members of the Independent Motormen's Benevolent Assn. decided at a Brooklyn meeting last night to submit a six-point proposal to Mayor Robert F. Wagner designed to bring about a conference and a strike settlement.

The mayor's office said Wagner would have a statement sometime today on the formula, sent to him by telegram.

The motormen, while showing solidarity and cheering their leaders at the membership session, were confronted with the fact that subway service was the best since the strike started last Monday.

The Transit Authority reported that 203 more motormen were at work than on Tuesday and that over-all service on the subways was back to 41½ per cent of normal. The evening rush hour went off without a hitch, with the hectic congestion missing.

The strike stemmed from a dispute between the MBA and the AFL-CIO Transport Workers Union, which represents subway workers in collective bargaining. The MBA and TWU long have been at swords point over union representation.

Federal Employees Get Extra Holiday Time

WASHINGTON (INS) — Federal employees will get a day and a half off at both Christmas and New Year's under an order signed by President Eisenhower.

Eisenhower directed all government agencies to give workers a half-holiday on the Tuesdays before Christmas and New Year's Day to go along with the full days off they get on the two holidays.

Non-Churchgoer Exempted from Draft

Professed 'Love' Keeps Army Away

DETROIT — A young student's professed love of his fellow man has been judged sufficient grounds to gain him exemption from service in the armed forces as a conscientious objector.

Peter S. Horst, 24-year-old University of Michigan senior, testified he would rather face five years in prison as a draft dodger than sacrifice his idea that love should include all men — even an enemy.

BADLY MISGUIDED

In granting a motion for a judgment of acquittal yesterday, U.S. District Judge Ralph M. Freeman said he could find no rational evidence supporting the action of the National Selective Service Appeal Board in refusing to give Horst status as a conscientious objector, despite his unorthodox religious views and the fact he belongs to no organized religion.

"Personality," said Judge Freeman, "I feel that this young man is badly misguided. It is fortunate for all of us that his opinions are not general among all the young men of our country."

Two prominent theologians testified at the three-day trial that Horst was a "profoundly religious" man.

Dr. Henry Hitt Crane, minister of the Central Methodist Church here and a nationally recognized authority on religious matters, said, "There are plenty of people who are religious but do not go to church, and there are also plenty of people who go to church who are not religious."

Dean Walter Harrison of the University of Chicago Divinity School testified that "love is the central force in his (Horst's) conception." Dean Harrison said, however, that Horst's religious beliefs were a long way from his own "in that the focus is not on a supreme being."

"Horst's conclusion," he said, "is proper for him based on premises with which I do not agree."

Horst testified that the only supreme being in which he believes is "love" and that war must be avoided even if it means surrender to an invader.

Horst, who works as a substitute teacher in the Ann Arbor school system and as a part-time clerk in a book store, said he evolved a personal moral code through wide reading. His wife,

School Board Studies Insurance Coverage

LAKE ORION — The Lake Orion Community School Board meeting went into the wee hours Wednesday night, with most of the discussion concerning banking of funds and insurance coverage.

Board members took under consideration the choice of a bank in which to keep money that must be kept on hand for the retirement of school bonds and for small accounts. The money now is kept in the Orion Bank at a 2 per cent interest rate.

It was decided to check with Oxford and Flint banks besides the Orion Bank on interest rates and other pertinent factors.

More than \$10,000 could be saved if the money can be invested at 3 per cent interest, a member stated.

Three types of insurance coverage were studied at the session. They were 80 and 90 per cent replacement policies, with 33 per cent depreciation, or 100 per cent replacement (new for old).

The board chose the 100 per cent coverage so equipment moved throughout the district would be insured.

The cost would be about \$300 greater a year than the 80 per cent policy, pending the final determination of the actual value of contents in all buildings of the school system, it was pointed out.

It was brought out, however, that 80 per cent coverage would replace only contents belonging to a particular building, and at about 33 per cent less than replacement cost.

Members said relatively accurate inventories will be needed. The board is setting up a special file for this purpose.

Plans were made by the board to purchase window shades, as

Head-On Crash Fatal to Youth

His Auto Collides With Milk Tanker Truck in Imlay City

IMLAY CITY — A 19-year-old Imlay City youth was killed at 1:05 a.m. today when his car collided head-on with a milk tanker truck on M33 in Imlay City.

Donald E. Reynolds of 285 Second St., Imlay City, was pronounced dead at the scene of the accident by Coroner Dr. Dorothy Leith of Imlay City. He suffered a broken neck, she said.

Dennis Locklin, 3170 Imlay City Rd., Attica, truck driver for the Michigan Milk Producers Assn., told sheriff's deputies Reynolds' car crossed the center line of the pavement and crashed into his truck. Locklin escaped serious injury.

The Reynolds youth is survived by his mother, widow of the late Edward Reynolds. Reynolds was graduated from Imlay City High School with the class of 1957.

money permits, to reduce the glare in many classrooms.

It also was reported the lunch room shows an 1,800 average participation in the system, which had 2,867 students on Dec. 1.

In other action, the board announced the purchase of a used car from the Federal Surplus Depot at Jackson. A 1951 Chevrolet, the auto will be used by the Maintenance department.

Cash on hand was reported at a low of \$7,450 when the board met. Arlie Reed, superintendent, called Lansing and was assured state aid funds will be available to meet the Dec. 30 payroll.

Public Works Projects Eyed

State Sen. Lodge Tells of How Enabling Act Passed in Legislature

Projects now underway or under consideration by the Oakland County Public Works Dept. were outlined before the Rotary Club yesterday by State Sen. L. Harvey Lodge.

After telling of the circumstances that enabled him and other senators to secure passage of the enabling act at the last session of the Legislature, Lodge listed the following three projects:

1. Evergreen Drain District, for which bonds will be sold shortly. This will drain the townships of Southfield and Bloomfield, and the cities of Birmingham and Bloomfield Hills, and part of Troy.

Sewage will be drained to Eight Mile road where it will join the Detroit system. It will cost \$4,364,481.

2. Farmington Sewage Disposal System to serve Farmington, West Bloomfield and Keego Harbor. Plans will be finished on Jan. 1 and the project will cost \$4,378,529.

3. The Clinton River Sewage Disposal System, now under consideration. It would serve the townships of Waterford, Pontiac, Avon, Independence and Orion and possibly the city of Pontiac.

The plan would provide sewers and sewage treatment plants to serve the 150 square miles of the Clinton River basin.

In all such projects, participating governmental units will pay a share, but the full faith and credit of the county will back the bond issues for easier sale and lower interest, Lodge said.

Prisoners Repair Toys to Be Given to Children

POTOSKEY — Toys, repaired by prisoners at the Emmet County Jail, will be distributed to children before Christmas by the Emmet County Sheriff's Department.

More than 1,000 toys valued at \$3,000 were fixed by the inmates. Deputies will deliver them to some 300 youngsters throughout the county in this third annual program.

Paula, 25, who sat near him throughout the trial, said she shared her husband's views.

Horst's request for exemption as a conscientious objector had been denied by his draft board in Kalamazoo, the Michigan State Appeal Board and the National Selective Service Appeal Board.

His lawyer said the Kalamazoo Board, where the case originated, probably will reclassify him as a conscientious objector. At that time, the lawyer said, the board will arrange for Horst to be assigned to noncombatant work on civilian status. "Horst is ready and willing to be assigned to this type of a job even if it means leaving college," his lawyer said.

Takes Top Livestock Showmanship Honors

Rochester Youth Wins at 4-H Club Show

ROCHESTER — Fritz Lutz, 17-year-old member of the East Orion 4-H Club, Rochester, took top honors Wednesday when he was awarded the first place trophy for the showmanship contest at the 4-H Junior Livestock Show at State Fair Grounds in Detroit.

Twelve of the 14 Oakland County 4-H members who entered the show received awards in the top divisions of the statewide contest.

Members of the East Orion club who won honors include: Ardis Storma, of Lake Orion, 5th, light shorthorn; Ritz Spezia, of Leonard, 11th, middle weight Hereford; Tom Middleton, of Lake Orion, 7th, Angus steer; John Spezia, of Leonard, 5th, Angus steer and 5th, best showmanship; Bill Middleton, of Lake Orion, 9th, Angus steer; Ed Braid, of Lake Orion, 10th, Angus steer and first place in the pen of three steers; and Howard Storma, of Lake Orion, 13th in pen of three shropshire sheep.

Ne-Ly-Wix Club members who won outstanding awards include: Steve Smith, of South Lyon, 18th, lightweight Angus; Philip Smith, of South Lyon, 21st, lightweight Angus and Carolyn Bowers of Milford, 17th, heavyweight Angus.

Don Campbell, of the Rolling Acres Club from Milford placed 12th in the pen of three Shropshire sheep. Oakland County placed fourth in the contest between the 22 counties participating in the group of three steer contests, according to Jack Worthington, Oakland County 4-H agent.

A film, "Around the World in 90 Minutes," will be shown at 7:30 by Leslie B. Eby. He and his wife flew more than 37,000 miles to make the color movie which shows the far East, South Pacific Islands and the Olympic Games in Australia.

Eby is a member of the Circumnavigators Club along with Lowell Thomas, Douglas MacArthur and other renowned travelers.

Men of the community and their ladies are invited. A light buffet meal will be served after the film.

Of the five octaves of energy that make up sunlight, only one octave is used in the field of human vision.

For Paris NATO Conference

Top Ghost Writer Readies Ike's Speech

By RUTH MONTGOMERY
WASHINGTON (INS) — President Eisenhower's ghost writer—better known as the Republican Party's No. 1 egg-head—is working on Ike's address to the Paris NATO Conference.

The nation's top ghost writer is Arthur Larson, former chief of the U. S. Information Agency and author of the GOP best-seller, "A Republican Looks At His Party."

HARD AT WORK
Larson is already hard at work on an extensive series of presidential speeches which is expected to cover such broad national problems as education in the space age, farm policies and the domestic economy.

The ace writer, who joined the White House advisory staff in October, steadily burned the midnight oil for the first month while drafting the first three in the series of Eisenhower speeches.

The first two which dealt with missiles and science were delivered as scheduled, but the third had to be canceled because of Ike's mild stroke.

NEVER RELEASED
That message, which was to have dealt with world trade and foreign economic aid, has never been released. In it, the President intended to deal largely with the contribution that foreign aid and trade can make to the peace and security of the world.

Labor Secretary James P. Mitchell, in a New York address Nov. 26, listed some of the points he said the President intended to make in the third speech. Mitchell said Eisenhower wanted Americans to give their fullest support to an expanded mutual security and economic aid program overseas and would ask an extension of the Trade Agreements Act.

Ike has not discarded the speech, however. Instead, it will probably be brought up to date and deliv-

ered by the President soon after he has fully regained his strength.

The others will then be scheduled at regular intervals to inform the American public of the administration's policies in an unsettled world.

This new speech could well prove to be one of the most important presidential utterances of the decade, Ike hopes by his presence and his words to instill renewed confidence into our allies who have become dispirited as a result of Russia's lead in the missile race.

The usual procedure in speech writing is for Larson to meet with the President to learn his specific ideas. Larson and his assistants then borrow a number of trained researchers from the executive departments to check all needed facts.

Larson prepares a rough draft,

which Ike pencils with his own language and thoughts. Ordinarily each speech is re-drafted a half-dozen times before it receives the final Eisenhower OK.

The presidential ghost writer who once cringed at his "egg-head" title now finds the classification less lonely since the GOP-controlled State Department has borrowed Democratic "egg-head" Adlai Stevenson, and scientists have suddenly become the men-of-the-hour.

In fact, Larson's 18-year-old son, now a freshman at Deep Springs Experimental College in California, is studying to become a scientist.

Young Larson shows evident signs of joining the egg-head fraternity. He was one of only six high school graduates from the entire country to be selected for scholarship attendance at the exclusive scientific college.

Hare Comments on Road Safety

Says Ike's Confab, Now Meeting, Reveals 3 Michigan Needs

LANSING (AP) — The President's Conference on Traffic Safety in Washington, D.C., this week showed at least three areas that seemed to need further emphasis in Michigan, Secy. of State James M. Hare said yesterday.

Hare said figures put Michigan second only to Tennessee in the percentage reduction of traffic deaths during the past two years.

But improvement still could be made in these specific areas, Hare said:

1. The problem of drinking drivers, which has received "substantially" more emphasis in states other than in Michigan.
2. More emphasis on removing the unlicensed drivers from the highways, such as has been done in Tennessee by "rolling blockades" in which drivers were stopped and their licenses examined.
3. Premature restoration of licenses to drivers who have had them revoked for drunk driving and other serious charges. "Apparently," Hare said, "this happens only in Michigan, where several hundred of these licenses are returned each year."

"It looks as though we've reached a 'plateau' in our campaign to save lives in traffic," he added. "It seems to me that now, instead of trying to improve driving conditions in general, we've got to concentrate on specific areas of bad driving and eliminate them if possible."

The mother of Theodore Roosevelt was from Georgia. Two of her brothers fought in the Confederate army.

WHAT'S MY LINE?

INSTRUCTIONS: Each word is related to my work. Unscramble as few as possible to guess my line. Answer appears under arrow, reading downward.

Yesterday's answer: Hank, McQuade, mule, Bud, luffed, home, saddle, outfit.

Another \$100 Adds to Bulge in Pot-O-Gold

It's getting closer and closer to Christmas and still no one has found the solution that will relieve old Pot-O-Gold of its increasing bulge. A winner for this week will find his efforts worth \$1,400, not bad pay for the little time it requires. You still have time to get in on the big money before those Christmas bills start pouring in, so get busy right now.

The new puzzle contains a series of squares which are alphabetically lettered and a corresponding list of sentences with two clue words. Each of the words is numbered. The object is to select the word which you think best fits the clue sentence. You then place the number of that word in the square which has the same letter as the clue sentence.

In other words, you will read the clue labeled 'A' and decide which of the two words makes the most sense in the puzzle square marked A.

Do the same with all other squares. Read all the clues carefully and be sure the right numbers are in the right squares.

OFFICIAL CONTEST RULES

1. Anyone is eligible to enter the POT-O-GOLD contest with the exception of Pontiac Press employees or their immediate families.
2. Entries must be on official entry blanks printed in this newspaper.
3. To submit an entry the contestant must print his name in the proper spaces, cut out the area enclosed by dotted lines and attach it securely to a 2-cent post card. No entries will be accepted if they are in envelopes. Entries for Puzzle No. 80 must bear a Tuesday, Dec. 17 postmark (or before). No entries received after that time whether mailed or delivered by hand, will be declared eligible. The Press is not responsible for entries lost or delayed in the mail.
4. Sorry, telephone calls or mail concerning details of the contest cannot be answered or acknowledged.
5. The Pontiac Press will award a cash prize of \$100 a week to the winner of each weekly POT-O-GOLD contest. If more than one winning answer is received the prize will be divided equally among the winners. If any week or weeks should pass without any winners, the prize will be added weekly until a winning solution is submitted.
6. Winners will be awarded an extra cash bonus of \$25 each if they are Pontiac Press subscribers of record on the day winners are announced. Only one such bonus can be awarded to each prize-winner no matter how many weekly prizes may accumulate.
7. Each week's puzzle will be published Monday, Wednesday and Friday until the contest's end. Either or all will be considered as official entry blanks.
8. Winners and correct solutions will be announced each Friday of the week following individual contests. Official keeper of answers will be Frederick C. Ziem, proprietor for Oakland County. Only the General Features Corp., originators of the puzzles, will know the solutions until after each contest is over. Answers will be delivered to the Press judges by Mr. Ziem after the final deadline.
9. There is only one correct solution to the POT-O-GOLD puzzle, and only that correct answer can win. The decision of the judges is final and all contestants agree to abide by the judges' decision. All entries becoming the property of The Pontiac Press and none can be returned.
10. Completed puzzles must be addressed to POT-O-GOLD, POST OFFICE BOX 58, Pontiac, Michigan. Winners will be notified either by telephone or in the mails.

ALL-COUNTY STARS — Members of The Pontiac Press 1957 All-County football team and Southfield's Monte Charles, Coach-of-the-Year, assembled for a group picture at Devon Gables last night at the annual honor grid banquet sponsored by the Michigan State University Alumni Club of Oakland County. Front row, from left, are: Frank Clappison, Farmington end; Lou Paviot, Hazel Park tackle; Ken Nikkila, Farmington guard; Todd

Grant, Southfield center; Jim McCann, Southfield guard; Andy Sneddon, Hazel Park tackle, and Charles. Second row, from left, are: Jim Drake, Lake Orion halfback; Dick Whitmer, Pontiac defensive back; Chuck Gibson, Birmingham fullback; Larry Clyma, Hazel Park quarterback; John Volk, Clawson halfback; Ben Burkland, Troy defensive lineman, and Hewitt Hornbeck, Royal Oak Dondoro end.

Pontiac Press Photo

Robert (Des) Boyce, PHS swimming coach, is "doubling in brass" these days, while his missus is ill with the "flu." Friday morning, he was in the midst of preparing the family breakfast, when called for some information about his squad. "It's kinda hard to keep up both ends at the same time," he commented.

One of the brightest lights for Waterford in its opening bout of Cranbrook was the play of Wendy Meyer in reserve. He hustled and rebounded well and could very well break into the starting lineup in the near future.

The Pontiac-Waterford wrestling match originally scheduled for Dec. 20 will be held at a later date because the Chiefs have completed plans to compete in the Southeastern Michigan tournament on that date as well as the 21st.

Pro basketball coaches say the great play of Boston's Bill Russell has caused them to change their styles. "George Mikan was tremendous but he never ran a game like Russell. Nobody in history ever ruined you like Russell," says New York coach Vin Boryla.

Duffy Misses MSU Banquet

County Gridders Take Bows

Duffy couldn't make it, but a good time was had by all last night as Oakland County high school football players and their coaches took their bows at Devon Gables.

The occasion was the annual honor football banquet sponsored by the Michigan State University Alumni Club of Oakland County.

Hugh (Duffy) Daugherty, MSU's personal head coach, was unable to attend and he sent his regrets in a telegram which was read to the audience before the start of the program.

The genial Irishman, who declined a fabulous Texas A&M coaching offer to remain at MSU, was ably represented by four of his assistant coaches—Doug Weaver, John Polonchek, Gordon Serr and Bill Yeoman.

Special Pontiac Press awards were presented to coach Monte Charles of Southfield and tackle Lou Paviot of Hazel Park. Charles received the Coach-of-the-Year trophy and Paviot was given his beautiful bronze shoe emblematic of the county's "most valuable player."

Members of The Pontiac Press 1957 All-County football team were introduced to the audience and each boy received a trophy. All presentations were made by Bill Cornwell, Pontiac Press sports writer.

Segregation Law Cancels Game

GREELEY, Colo. (U.S.) — A basketball trip to Louisiana was cancelled by Colorado State College yesterday after Gov. Steve McNichols criticized Louisiana's segregation law.

"If they don't want to play the whole team, we feel justified in canceling the games," McNichols said. The team has one Negro member—Ollie Bell, a second-string senior guard.

No More Excuses, Says Adams

Wings Edge Bruins

DETROIT (INS) — Jack Adams told the Detroit Red Wings that he was fresh out of excuses for the team's poor showing. They responded last night with a 3-2 triumph over the Boston Bruins.

At a clubhouse meeting yesterday, the general manager told the players "You're all healthy now, we can't blame it on injuries anymore. The season is getting on and we can't blame it on our new players getting adjusted to our style of play."

The triumph, achieved before 8,500 spectators at Olympia Stadium, was Detroit's first before the home folks in eight National Hockey League contests.

Afterwards, Adams was calling upon a couple of his favorite adjectives with amazing frequency in describing—a la Casey Stengel—the tremendous play of "the guy" and "the big fellow."

The big fellow, Gordie Howe, had a hand in all the Red Wing scoring, getting two goals in the second period—one coming when the Wings were short-handed—and assisting on a third period goal that was the margin of victory.

Goalie Terry Sawchuk played one of his better games of the season, turning back 28 Boston efforts. The Bruins could have had four goals in the very first period and Sawchuk would have been blameless.

While Howe was serving the first of his two penalties, Bronco Horvath had a pair of shots directly in front of the goal and Larry Regan had another great opportunity. Sawchuk made brilliant saves each time, and later in the period with the sides even, Horvath skated in with a Bruin on either side of him—and there wasn't another Detroit player within shouting distance.

Horvath let go with a terrific blast from five or six feet away and Sawchuk smothered the puck nicely. Boston's Don Simmons was called on for four saves in the first period as the Bruins dominated the play.

Boston finally scored on a power play at 10:13 of the second period with Al Arbour in the penalty box for interfering with ex-Wing Vic Stasiuk. Just 17 seconds after Don McKenney scored for Boston, the Bruins' Bob Armstrong went off for holding. Eight seconds later Howe converted Red Kelly's rebound and tied the score.

Another power-play goal, this one by center Norm Ullman early in the fourth period, shoved Detroit into a 3-1 lead. Allan Stanley took a big swing at a loose puck during a scramble in front of the Detroit nets and jammed it in at 18:38 to narrow the margin to 3-2.

The Wings are only one point behind fourth-place Toronto and six points out of second place. They have an opportunity to gain important ground Saturday afternoon when they take on the second-place New York Rangers. The contest will be nationally televised from Olympia, beginning at 4 p.m. (EST). It's the first of six TV appearances at Detroit.

1961 Schedules Announced for MSU, Michigan

CHICAGO (U.S.) — Here are the Michigan and Michigan State conference football schedules for 1961 drafted yesterday by Big Ten coaches and athletic directors. Inter-sectional games were not disclosed.

Michigan — Oct. 14, Michigan State, home; Oct. 21, Purdue, home; Oct. 28, at Minnesota; Nov. 4, Wisconsin, home; Nov. 11, at Illinois; Nov. 18, Iowa, home; Nov. 25, Ohio State, home. Michigan State — Oct. 14, at Michigan; Oct. 21, open; Oct. 28, Indiana, home; Nov. 4, at Minnesota; Nov. 11, at Purdue; Nov. 18, Northwestern, home; Nov. 25, Illinois, home.

that brought him an unbeaten campaign at Wyoming in 1956.

The suspension was meted out by Indiana itself in order to maintain its good standing in the Big Ten. The conference faculty representatives yesterday gave Indiana permission to reinstate Dickens, who had been signed to a four-year contract at an annual salary of \$15,000.

In his absence this fall, Indiana defeated only Villanova in nine games under assistant Bob Hicks. Dickens, former tailback at the University of Tennessee, brought his entire staff from Wyoming.

Commissioner K. L. (Tug) Wilson said more than 20 cases in the Dickens recruiting case had been thoroughly investigated. The vote for his reinstatement was understood to have been unanimous.

Iowa will present a revision of the financial aid plan to faculty men with the hope of getting the 6-4 majority needed for passage. The hope appeared dim, how-Dame game ended the program.

BEST GRIDDER, TOP COACH — Lou Paviot (left), Hazel Park tackle, receives congratulations from Bill Yeoman, assistant football coach at Michigan State University, for being voted Oakland County's outstanding griddier in 1957. At far right is Monte Charles of Southfield, named Coach-of-the-Year. Paviot's bronzed shoe, emblematic of the "most valuable player" award, is proudly displayed on the table. The presentation was made to Paviot last night at Devon Gables at the annual honor grid banquet sponsored by the MSU Alumni Club of Oakland County.

Pontiac Press Photo

Lions Go 'Down to Wire' Again

Season Finale Always Crucial for Detroit 11

Tie for Western Sector Depends on Victory in Chicago Sunday

DETROIT (INS) — The Detroit Lions fly to Chicago tomorrow for their all-important National Football League game with the Bears on Sunday.

It will be the last regular season NFL game for both squads and marks the fifth time since 1951 that the Lions have moved into a finale needing a victory to keep alive in the title race.

Detroit is locked in a three-way tie with the San Francisco 49ers and Baltimore Colts for first place in the league's Western Division. Each has a record of seven victories and four defeats.

The Cleveland Browns already have clinched the eastern division title and the right to meet the western champ for the league crown.

San Francisco plays the Green Bay Packers Sunday while the Colts meet the Los Angeles Rams. Following is the chronology of the Lions' "down to the wire" seasons:

— 1951, Detroit needed only a tie with San Francisco in the final game to clinch a division crown, but was upset, 21 to 17, by the 49ers in the Golden Gate city. Los Angeles took the division title.

— 1952, the Lions and Rams ended the regular season in a tie and Detroit won a special playoff, 31 to 21, to win its first division title since 1933. The Lions then defeated Cleveland, 17 to 7, for their first world pro crown.

— 1953, Detroit needed a victory over the New York Giants in the season finale to gain division honors. They downed the Giants, 27 to 16, and then beat Cleveland, 17 to 6, to make it two league titles in a row.

— 1956, the Lions moved into Chicago for the season finale leading the western division by a half game. The Bears scored a 38 to 21 victory to win the division title and prevent Detroit from being the only team in league history ever to jump from the cellar to the top spot in one season.

Detroit clinched the division title after the 10th game in 1954 but lost to the Browns, 56 to 10, in the championship game.

In 1955, they finished out of contention with a record of three wins and nine losses.

Missing from Detroit's lineup Sunday will be veteran quarterback Bobby Layne, who suffered a fractured right ankle in last week's Browns game.

Tobin Rote, who has alternated with Layne at quarterback this year, will do the signal-calling. Jerry Reichow, who has played end and flanking back most of the season, will understudy Rote.

The overall Detroit-Chicago Bears series stand at 30 victories for the Bears and 15 for the Lions. There have been two ties. The last time Detroit won in Chicago was in 1953 — a 20 to 16 victory.

4 From State Among Leaders in Tourney

SANFORD, Fla. (U.S.) — Four Michigan golfers were among the leaders after the first round of the Sanford open.

Leaders included John Barnum of Grand Rapids, Tom Talkington of Ypsilanti and Chick Harbert of Northville, all tied for fourth place at 69.

Walter Burkemo was tied with 11 others at fifth with 70.

First Heavy Snow Does It

Skiing Reported Excellent

By THE ASSOCIATED PRESS. Ski trails sparkled with the first general heavy snow of the season Thursday and at least eight Michigan winter sports centers reported good to excellent skiing conditions.

The West Michigan Tourist and Resort Assn. reported for the following areas:

Boyne Mountain at Boyne Falls: 8 to 12 inches new snow; packed base from 6 to 20 inches. Skiing excellent. All facilities open.

Brian Hills at Menick: twelve to 14 inches of snow. Open Saturday.

Caberfae at Cadillac: Three-inch

Draws Assignment Against Packers

Brodie to Get Test

SAN FRANCISCO (U.S.) — Rookie quarterback John Brodie, who passed his first big pro test to perfection, draws a tougher assignment for the San Francisco 49ers Sunday.

He'll start against the Green Bay Packers in the battle which could decide the championship of the National Football League's Western Conference.

Brodie has played just 6 minutes and 15 seconds for the 49ers in regular season games. He has appeared for 14 plays including nine against Detroit after the Lions led 31-3. One was against the Chicago Bears, two in the final seconds against Los Angeles and two against Baltimore. The last play was a game-winning pass.

Moore-Spieser Bout Postponed

Title Battle Put Off Until Late February by Local Promoters

DETROIT (U.S.) — The proposed light heavyweight title bout between champion Archie Moore and Chuck Spieser of Detroit has been postponed.

Joe Spieser, brother-manager of the contender, said local independent promoters have encountered difficulty arranging television coverage and raising money for Moore's guarantee.

The bout originally was announced last October. It was scheduled for next month in Detroit.

Joe Spieser said the bout now must be postponed at least until late February.

Moore was guaranteed \$100,000 to meet Chuck Spieser in the title defense. Only part of the money has been raised.

Spieser lost a third round knockout last spring from Tony Anthony who later was knocked out by Moore in the seventh round of a subsequent bout.

Senior Bowl Grid Squad Picked

MOBILE, Ala. (U.S.) — Eight members of The Associated Press All-America squad—headed by linemen Alex Karras of Iowa and Dan Currie of Michigan State—were named today to the North team for the ninth annual Senior Bowl football game Jan. 11.

First team All-Americans on the north squad are 235-pound tackle Karras, chosen for a defensive guard position; and Currie, a 225-pound named top center in the Big Ten.

Packs Walt Kowalczyk of Mich-

igan State and Bob Stransky of Colorado, and ends Fred Dugan of Dayton and Les Walters of Penn State are from the All-America second team. End Jim Gibbons of Iowa and tackle Jim McCusker of Pittsburgh are from the third team.

Biggest man on the North squad is center Frank Youso of Minnesota, a 6-4, 255-pounder who will man a defensive tackle post. The smallest is the 5-8, 170-pound Jim Shanley, Oregon back.

Half of the first 12 pro draft

choices by the National Football League at its recent draft were included on the 25-man Yankee team.

Coach Joe Kuharich of the Washington Redskins, who will direct the North for the second time, will have his No. 1 draft pick, back Mike Sommer of George Washington, together with the first choices of five other pro clubs.

First round draft choices in addition to Sommer are Currie, Green Bay; Kowalczyk, Philadelphia; Charles Howley, West Virginia guard, Chicago Bears; and Karras, Detroit Lions.

Eight other players selected in the first four rounds of the draft also are on the North team.

The Yankee squad, drawn from 16 colleges, lists 12 players from the powerful Midwest conference, including all three quarterbacks. The quarterbacks are Bobby Cox of Minnesota, Jim Van Pelt of Michigan and Jim Ninowski of Michigan State.

The North backfield averages 193 pounds per man and the line weighs in at an average of 216 pounds. The game will be televised by NBC, with a blackout within a 100 miles of Mobile if the game is not a sellout.

The "North" squad: Ends: Fred Dugan, Dayton; Jim Gibbons, Iowa; Ed Hanson, Illinois; Dick Leach, Syracuse; Les Walters, Penn State. TACKLES—Don Lustig, Villanova; Jim McCusker, Pittsburgh; James Orwig, Michigan; Frank Youso, Minnesota. GUARDS—Charles Howley, Joe Nicely, West Virginia; Alex Karras, Iowa; Jerry Kramer, Iowa.

CENTER — Charles Brockman, Pittsburgh; Dan Currie, Michigan State; Neil Rabe, Purdue. QUARTERBACKS—Bobby Cox, Minnesota; Jim Van Pelt, Michigan. HALFBACKS—Walt Kowalczyk, Michigan State; Mike Sommer, George Washington; Bob Stransky, Colorado; Jim Shanley, Oregon. FULLBACKS — Ray Nitsche, Illinois; Larry Krutik, West Virginia.

Look for 'Great' 11 in '58

High Optimism Shown by Notre Dame People

SOUTH BEND, Ind. (U.S.) — A Notre Dame football team that possibly could be ranked as a great one in 1958 is foreseen by the Rev. Edmund P. Joyce, executive vice president of the university.

Father Joyce shed optimism on the 38th annual civic testimonial banquet for the Irish squad last night attended by about 1,000 well-wishers.

"Of course," said Father Joyce, "we would not be so rash as to classify the 1957 squad as great. But what we must remember is that we have not seen the last of this team. The vast nucleus of the squad—sophomores last year, juniors this year—will be back again next fall to play their final season as a unit."

"If the improvement from 1956 to 1957 continues apace, this team will have a chance to carve a niche for itself among the great teams of Notre Dame history."

Coach Terry Brennan's 1956 team had a 2-8 record, worst in Notre Dame history. This year the Irish had 7-3.

"Greatest comeback since Pearl Harbor," beamed athletic director Ed "Moose" Krause.

Brennan heaped praise on his team and the loyalty of his coaching staff. He also lauded student support of the team throughout 1957.

Guard Al Eucyer of New Orleans and tackle Charles Puntillo of East Chicago, Ind., were named co-captains of the 1958 Irish.

Fullback Nick Pietrosante of Ansonia, Conn., was presented the Grantland Rice Trophy by Jim Crowley, one of the famous Four Horsemen. The trophy, initiated this season, will go annually to the star of Army-Notre Dame games.

Notre Dame defeated Army 23-21 when the rivalry was resumed this season.

Mt. Holly Ski Area Building Good Snow Base

On top of a four inch base, the result of the last several days snowfall, Mt. Holly Ski Area is building up a good skiing surface with its snow machines. The "made" snow is applied each night the machines laying down about two inches of the white stuff.

The area is already in operation, with three tows in use. Fair skiing is offered, and if current weather continues it will quickly become excellent.

Chiefs in Home Debut Tonight

Arthur Hill 5
First SVC
Foe for PHS Quint

Pontiac Has Won 11
Straight Loop Games
in Regular Season

Riding a crest of 11 straight victories in the powerful Saginaw Valley Conference, dating back to the last game of the 1956-57 season, Pontiac opens defense of its title tonight against unbeaten Arthur Hill in the PHS gym.

It will be the home opener for the Chiefs who initiated the season last week in Detroit with a 55-54 victory over Catholic Central.

Pontiac's last defeat in regular season competition in the SVC was at the hands of Flint Northern, 55-51 in the final stages of the 1956-57 campaign.

Last year Pontiac went through 10 straight league games without a defeat, but fell in the regionals to Northern 54-49.

Arthur Hill's coach Chuck Fowler scoffs at the pre-season predictions which tabbed the Lumberjacks for the basement of the league this year.

Fowler sees more speed and better shooting on the present team and if the Jacks can stay with Pontiac on the boards it could spell trouble for the defending champions.

Big Hudson Ray will have 6-foot-4 Paul Doersom as his foe in the center spot and in the rebounding responsibilities.

Against Catholic Central Ray hauled down 21 rebounds while Jim Skinner grabbed 13.

The Chiefs have rebounding strength with Dick Whitmer, 6-foot-2 senior, giving Ray and Skinner an assist.

The Hillites hope to get their share of rebounds with 6-3 Art Street and top pointmaker Jim Rae, 5-10, helping Doersom.

In other SVC games tonight, a big contest takes place at Saginaw where the highly rated Trojans entertain Flint Northern. Bay City visits Flint Central in the other games.

Pontiac Starting Lineup
Pontiac: Jim Skinner 5-3 F Art Street 5-3 Dick Whitmer 6-2 F Bill Brasow 5-10 Hudson Ray 6-4 C P Doersom 6-4 Charley Bares 5-8 G Jim Rae 5-10 John Sandy 6-3 G Herb Rids 5-9

Rams Host to St. Clement Tonight

St. Fred Tries Again

By BILL CORNWELL

St. Frederick makes its 2nd attempt to win a basketball game tonight when the Rams tangle with St. Clement of Center Line in a suburban Catholic League encounter on the St. Fred court.

The Rams dropped a heartbreaker in their season opener last Friday night, a 50-48 overtime loss to visiting Orchard Lake St. Mary.

St. Fred's argument with St. Clement is one of three suburban Catholic games on tonight's schedule. The others are Detroit St. Rita at Royal Oak St. Mary and Ferndale St. James at Orchard Lake.

St. Benedict of Highland Park, favored to win the SCL crown for the 2nd straight year, is not scheduled. St. Michael waits until next Tuesday night to open its 1957-58 season, a non-league game with Detroit Annunciation here.

St. Fred takes the role of favorite against a Crusader quintet which has gone down to successive defeats at the hands of non-league Detroit St. Gertrude and SCL opponent St. James.

Gene Wright, St. Fred's hard-luck coach, hopes that his eager don't barge into a supposedly commanding lead, then let it slip through their fingers like they did last week.

The Rams held a 10-point advantage over Orchard Lake in the 4th quarter, but the margin melted away and eventually led to a two-point setback in sudden death overtime.

Tom Derocher, 6-foot-1 forward, was St. Fred's scoring star a week ago with 24 points and the Rams will be relying on the lanky Derocher for another productive evening.

There are other St. Fred cagers with good scoring potential, such as Dick Nickerson, 6' center, and forward Joe Keller. Wright is

keeping his fingers crossed that they'll start producing.

St. Clement, which has been notoriously weak in offensive punch for the past two or three seasons, boasts Dick Tallman as its best scoring weapon.

The Orchard Lake Eaglets, considered St. Benedict's strongest competitor for the SCL title, will be favored to down the Dales tonight. The Eaglets are gunning for their 3rd consecutive victory.

Art Goldzinski and Stan Moniusko have been the St. Mary spark-plugs in their wins over St. Fred and Detroit St. Stanislaus.

Annunciation, a member of Detroit's East Side parochial league, will be a new foe for St. Mike next Tuesday on the Shamrock court. Annunciation is coached by George Tomlinson.

Aussies Select Davis Cup Team

MELBOURNE (AP) — The Australian selectors announced today their Davis Cup team that will defend the famed international tennis trophy in the challenge round Dec. 26-28.

The four players named were Mal Anderson, Ashley Cooper, Neale Fraser, and Mervyn Rose. Harry Hopman is the non-playing captain.

Australia will meet the winner of the U.S.-Belgium interspersed final in the challenge round.

Ev. Shelton, veteran basketball the University of Wyoming coach, is in his 18th season with it.

Schmidt Is Lions' MVP

DETROIT (INS) — The Detroit Lions announced today 220-pound linebacker Joe Schmidt was named as the team's Most Valuable Player for the 1957 season.

A spokesman for the team said he "just edged out" fullback John Henry Johnson in the balloting by the Lions players.

It was the second time since 1955 that Schmidt received the award. He will be presented with

the president's trophy by Lions president Edward J. Anderson.

Eight other players also received votes in the balloting for this year's choice.

Lions quarterback Bobby Layne, who has been sidelined with a fractured ankle, has received the award in 1954 and 1956. Ed Jim Doran was named MVP in 1952 and Dick Stanfel got the nod in 1953.

*AN EDDIE STEELE EXCLUSIVE—CAR LAYAWAY PLAN

**Friday the 13th
Schedule Heavy
for Local Preps**League Play Features
29-Game Slate; Race
Is On in Inter-Lakes

By CHUCK ABRAHAM

It's Friday the 13th and a perfect
night for the unlucky hex to strike
down several favored teams on the
biggest basketball slate of the new
season around the Oakland County
area.Such local schools as Water-
ford, Walled Lake, Lake Orion,
Clarkston and Holly will be
among those going all out to
avoid being upset on this prob-
able night of surprises.Avondale and West Bloomfield
are underdogs, while Cranbrook is
rated about even against Oak Park
so the 13th could work in reverse
for this trio.Waterford and Walled Lake will
be starting play in the Inter-Lakes
league. The Skippers, impressive
at times against Cranbrook paced
by jumping John Herrington, will
travel to Farmington as the Vikings
host Van Dyke.Lake Orion begins its quest for
the Oakland B crown at Troy in
an important tussle. Avondale is
at Clawson in another loop till.Clarkston and Holly, chief picks
to give Northville a chase in the
Wayne-Oakland, should add another
notch apiece tonight but are
playing away from home which is
always dangerous. West Bloom-
field has a good chance of break-
ing into the win column for the first
time against Clawsonville.The law of averages could catch
up with Cranbrook after four
straight bad beatings by Class A
schools.There will be no action in the
Eastern Michigan League since
that conference is the last to get
under way starting Jan. 10. But
three of its teams have games
tonight. Hazel Park will be at
Royal Oak Kimball, East Detroit
goes to Roseville and Port Huron
hosts Midland.Oakland County's two entries in
the South Central Conference clash
head-on as Oxford plays at Orton-
ville. The Southern Thumb also has
a full slate.Non-league contests will include
Rochester at Davison, Utica at Ro-
meo, Grosse Pointe at Royal Oak
Dondero, South Lyon is at home
against Manchester and Country
Day goes to L'Anse Creuse.The league schedules:
Inter-Lakes—Waterford at Farmington,
Van Dyke at Walled Lake and Berkeley
at Southfield.Oakland B—Lake Orion at Troy, Avon-
dale at Clawson and Madison at Phi-
sarail.Wayne-Oakland—Clarkston at Bloom-
field Hills, Holly at Milford, Clarens-
ville at W. Bloomfield and Northville at
Brighton.South Central—Oxford at Orionville
and Midland at Oakley 10:30.
Southern Thumb—Almont at Dryden
Brown City at New Haven, and Memphis
at Alameda.

DODGERS IN 'BOWL'—If the Brooklyn
Dodgers play in Pasadena's Rose Bowl, this is
the possible layout of the diamond. The foul lineswould go three hundred feet to right and left in
the huge stadium which seats 102,000. Pasadena
is eight miles from Los Angeles.

Tar Heels Claim 35th Straight Victim

By THE ASSOCIATED PRESS

The first of the holiday tourna-
ments begin to roll tonight, but
otherwise there's no change in col-
lege basketball. North Carolina
Still is unbeaten.There was one upset, of sorts,
last night as Oregon State rapped
Seattle 63-55, but the national
champion Tar Heels rolled to their
35th consecutive success with a
91-74 job on winless Furman.Some less pretentious winning
strings are on the line tonight with
five clubs who have escaped de-
feat this season among the 12
teams in the Birmingham Classic,
the Steel Bowl and the University
of Cincinnati tournaments.The top game, tournamentwise,
pairs Texas Christian (3-0) and
Auburn (2-0) at Birmingham after
Mississippi State (4-0) plays Mi-
ami of Florida (3-1).At Cincinnati, the host Bearcats
(2-0) play St. Boaventure (3-0)
and Xavier of Ohio (3-0) meets
Marshall (1-1).It's Pitt (2-0) vs George Wash-
ington (0-3), and Duquesne (1-1)
vs Miami of Ohio (2-1) at Pitts-
burgh.The top-ranked Tar Heels went
to work early, leading 19-8 after
4 minutes, but had to dissolve a
Furman zone defense before win-
ning their third of the season. The
champs, who got 31 points from
senior Pete Brennan and 28 fromsoph Lee Shaffer, led 57-36 at the
half, but were down to a nine-
point edge in the second half.North Carolina slowed the ac-
tion, forcing the Paladins to un-
tie the zone, and quickly padded the
bulge to 17 points. The Tar Heels
hit 48 per cent from the field for
the game, swishing 53 per cent in
the first half after sinking their
first four shots and nine of their
first 12.Oregon State (3-0) stuck 6-9
Wayne Moss and 6-3 Gary Goble
on 6-5 Elgin Baylor under the bas-
ket and shut off the Seattle star
with 17 points. Dave Gamble,
who shadowed Baylor outside, was
high scorer with 18.Louisville had it easy in an 89-65
decision over previously unbeaten
Iona with Roger Tieman scoring
22 points, mostly on dead-end sets.
St. John's of Brooklyn (4-0) had
a tussle, but defeated Washington
& Lee 85-73 in the other half of
the Madison Square Garden twin-
bill. Dom Fera was the whole
show for the Generals with 27
points. Al Seiden, a pesky little
guy, topped St. John's with 24 and
got the Redmen in hand for a late
scoring spurge.A zone defense again gave Tex-
as A&M trouble while Richmond
got points from all but one of its
12 men in a 70-56 victory. Okla-homa defeated Southern Methodist
66-58 with Joe King scoring 23.
Both clubs hit less than a third
of their shots as Iowa State de-
feated Brigham Young 54-45 on
the 20-point work of John Craw-
ford and a 63-47 edge in rebounds.
UCLA knocked off Loyola of Los
Angeles, 79-60.Utah whipped Los Angeles State
71-59, while in other intersectional
games Rudy La Russo and
Walt Sosnowski scored 50 between
them as Dartmouth clipped Hous-
ton 54-44; Bowling Green counted
11 consecutive points midway
through the last half for a 78-65
victory over Canisius; and Col-
gate beat Florida Southern 83-63
on 26 points by Russ Brummer
and 25 by Phil Bisselle.

STRIKES AND SPARES

By Joe Wilman

Our friend in today's drawing
is typical of many bowlers. They
never have an off-night. It's al-
ways the pins or the alleys or the
humidity or something other than
themselves.Nobody enjoys bowling with such
a person. Chances are he's a pretty
nice guy away from the bowling
alley, but he just can't face up to
his own bowling shortcomings.If all 10 bowlers on a certain
pair have trouble at the same
time, I'll agree that something is
probably wrong with the pins or
the alleys. But if only two or
three of the 10 bowlers have bad
nights, it isn't the conditions that
are "off"—it's the individuals.Remember that even the best
bowlers have bad nights. Don't
make things miserable for every-
one by griping constantly. Relax
and admit that something's wrong
with your game and try to find
out what it is.Be a good sport and control your
temper. You'll enjoy bowling
that much more and so will your
teammates.

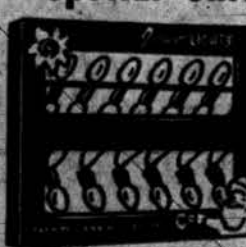

(Copyright 1957, John F. Dille Co.)

LA Board Backs O'Malley Bid for Rose Bowl Home

LOS ANGELES (INS)—Those
waifs of the major leagues, the
former Brooklyn Dodgers who
moved to Los Angeles before being
sure of new quarters, seemed to-
day to be a trifle nearer to find-
ing a "new" home—in nearby
Pasadena.That is, if they want it. There
seemed to be quite a bit of uncer-
tainty as to that.Walter O'Malley appeared
before the Pasadena city fathers
on Thursday and told them he
would like to use their famed
Rose Bowl as an interim home
ground for the Dodgers, until he
can build a permanent park in
Chavez Ravine.Yesterday, Pasadena civic lead-
ers said that they "looked with
favor" on the proposition. A de-
cision is to be made next Tues-
day.Also yesterday, O'Malley got the
backing of the Los Angeles county
supervisors in his bid for the bowl.By a vote of three to one, they
asked the Pasadena city direc-
tors to "cooperate" with the
Dodger boss.Cooperate in this case could be
translated loosely to mean give
him a break on the rent and a
share of the concessions.The one supervisor, Kenneth
Hahn, who voted against the co-
operation request did so on the
ground that he was opposed to los-
ing the Dodgers to Pasadena even
temporarily.He cast a negative vote even
though assured that the Dodgers
would retain the name, Los An-
geles Dodgers.However, another supervisor,
John Anson Ford, commented:
"I wouldn't be surprised if the
Dodgers stayed there (in Pas-
adena) permanently."But while Pasadena was warm-
ing up to the idea of the one-time
Bums using the bowl and the su-
pervisors were backing up that
pitch, O'Malley himself was mak-
ing another stab at trying to get
the Los Angeles Memorial Col-
iseum.**DICK DEAN**SHE FROZE HIM

Keg Matches in Final Round

Championships to Be Carried via Television

Carter's 'Shovel Style' to Be Viewed Tonight at 10:00 on TV

CHICAGO (AP) — The nation's television viewers get a look at Don Carter, "shovel-style" bowler from St. Louis, tonight when the men's position, or final round, of the world's individual championships is carried nationally from the coliseum.

The bowlers are taking over the hour tonight which is reserved weekly for boxing on NBC starting at 10 p.m. (EST).

Unless Carter is kidnapped or breaks his wicked right arm, he's a certainty to be in the title match which pits the No. 1 bowler against the No. 2, and so on down the standings at the end of the 15th round.

Going into the windup of a 10-day grind, Carter, three-time national all-star champion, had a fat 6.17 Petersen point lead over his teammate from St. Louis, Tom Hennsey. Trailing the pair was Eddie Lubanski of Detroit in third place.

Whether it will be Hennsey, Lubanski or some other bowler in the top seven as Carter's foe in the position round will be determined during the day's first three matches before the TV cameramen go into action.

Viewers then will be able to see how Don has been bowling over his foes as if they were match sticks.

Marion Ladewig, of Grand Rapids, Mich., champion in six of the eight years in which the all-star accepted the fair sex, is highly favored to add the world crown to her list of accomplishments.

Like Carter, Marion also had a formidable lead, 6.65 Petersen points over Marge Merrick of Detroit. Mrs. Ladewig, who trailed for six rounds after the first two, assumed command on yesterday's ninth round and improved her position throughout the day with sensational shooting, including a tourney high of 492.

Mrs. Ladewig had 116.37 points, Miss Merrick, 111.32.

Carter yesterday rolled 892 to defeat national doubles champion Lou Campi of Dumont, N. J., as Campi had 815. However, both Hennsey and Lubanski picked up ground as they won all four games while Carter dropped a thriller, 214-249, to Campi, while winning the other three.

Don now has 241.13 points Hennsey 24.46 and Lubanski 232.29.

CHAIN REACTION — Gordie Howe, who netted two goals last night against the Boston Bruins, is shown maneuvering between Boston players for a shot at the net. Red Kelly (4) of the

Wings waited for the rebound as goalie Don Simmons blocked the disc. The Wings won the game at the Olympia, 3-2.

SVC Swimming Season Opens

PHS Swimming squad tonight faces probably its toughest foe of the 1957-58 season. The Chastankers travel to Saginaw to oppose Dave Galt's defending Valley champions (Arthur Hill) in the league's opening dual meet for each crew. "Jacks are prohibitive favorites, but PHS coach, Bob (Des) Boyce hopes for a good showing. Flint Central is at Bay City tonight in another SVC test.

"There will be few, if any, changes in the squad that won from Ypsil Central last Friday," Boyce said today. "However, several sophs are pushing some of the regulars, and may get a chance tonight." Boyce today added Greg Ullman, Jim Sheridan, Jim Tuttle and Doug Roesser to the squad.

KC's, Walled Lake Victors

Walled Lake and the Knights of Columbus carried off the honors in City League basketball games last night at Madison Junior High.

Maple Tankers Sink Plymouth

Birmingham Adds 5th Straight Victory of Season, 39-37

Caught in the wake of the fast moving, all-winning Birmingham High swimming squad, last night, Plymouth High's good team was swamped, 59-37.

Jay Myer's team compiled all but two first places, and broke one pool record on the way to its 5th straight win of the season. Victory was the Maples' 4th dual success. Maples go to Battle Creek, Saturday, for the Cereal Bowl Relays, entering five of the seven events.

Dave Smith swam the 100-yard individual medley in 1:37.4 to erase the former mark of 1:38.9. Other Birmingham firsts were by:

Dave Smith (100-yard butterfly, 1:04.8); Bill Buick (100-yard freestyle, 56.3); Dave Rider (100-yard breast stroke, 1:14.3); Fred Wickham, diving, 200-yard med. relay (Don Quirk, Rider, Smith, P. J. McGowan, 1:37.5); 200-yard freestyle relay (Pete Palmer, Dennis Collins, Les Harter, Smith, 1:41.1); Plymouth firsts — Don Carney (200-yard freestyle, 2:23.2) and Dave Carney (100-yard freestyle, 2:14.2).

Lake had defeated L. S. Anderson, 46-37, in the Class B preliminary.

John Keller, former St. Michael's star, sparked the KC quietest to its narrow victory with 13 field goals and four foul tosses for a total of 30 points.

The Knights trailed at intermission, 30-28, but came out on the long end of a see-saw 2nd half. George Day paced Southfield with 21 points and teammate Bob Neff added 13.

Walled Lake gained its decision in the 1st half. The Lakers piled up an overwhelming 31-12 halftime margin and just coasted through the final two periods.

Jim Potet topped the winners with 16 points and teammate Dean Hess, ex-Walled Lake High School star, contributed 13. Joe Pinkerton tallied 13 points in a losing cause.

Southfield Mat Team Defeats Farmington

Greater strength in the heavier weights paid off for Southfield as the Bluejay wrestlers rallied from a 19-3 deficit to defeat Inter-Lakes rival Farmington 29-19.

Southfield took the last six matches in the impressive rally featuring pins by Bob Johnson, Bill MacKenzie, Dick Lusino and 250-pound Dave Marsh, who had a 100-pound edge in his match.

Rout Hillsdale, 93-64

ADA, Ohio (AP) — Ohio Northern evened its basketball record last night with a 93-64 victory over Hillsdale of Michigan. The game was originally scheduled for Saturday.

North Dakota played its first college football game in 1894. Adolf Becholt.

Like the man* says,
you have to get behind the wheel

From the pages of Automotive News,
authoritative industry newspaper, comes this impartial
report on the newest car in the world

*by L. H. HOUCK
Traveling Correspondent, Automotive News

"The Edsel is a car that should be road-tested.

"We have all driven cars with lazy front ends, but here is one that has life—the Edsel seems to know where you're going. With the surge of power from the new engine, it is equal to all occasions and yet the wheel rests lightly in your hands. Driving is almost effortless, yet with a confidence-inspiring feeling of control.

"Wherever you go the Edsel attracts attention. At one place in the almost 1,500 miles we drove this Edsel two-door hardtop Pacer, some kids across the street from a service station shouted: 'Hey, look! An Edsel!'

"If I were selling this car from the retail floor, I just wouldn't overlook anybody. It has something that will appeal to every type of buyer.

IF DRIVING TIRES YOU

"If driving on long trips or in dense city traffic tires you, then the Edsel is the car for you.

"Why is this so? Much of it has been engineered into the car from the first plan on the drawing boards. Much of it comes from reduced motion. You can control the automatic transmission by easy, power-operated pushbuttons in the hub of the steering wheel. The novice will get accustomed to them in five minutes, no matter what car he is driving, because they're as handy as a pocket in a shirt and a lot closer.

"The man who fights traffic to work and back twice a day needs to learn how much an Edsel can do for him. It'll be a revelation and save half his energy.

"Much of it comes from the 'all go and no slow' engine which it has, coupled with big,

fast operating, self-adjusting brakes. These new brakes adjust themselves and can save a man a lot of dollars during a normal term of ownership.

STAINLESS STEEL USE

"What's it made out of and how long will it last? The Edsel bill of materials includes nothing but quality. In stainless steel alone, it probably leads the list, for it has 36 pounds of this non-rusting and almost indestructible material in every car. Everybody likes to own this kind of quality.

CAN'T MISTAKE EDESEL

"If you've ever owned a medium-priced or better car and had a service station attendant mistake it for a cheaper car, you'll know what Edsel engineers were striving for when they said they wanted to design a car that could be identified in the dark.

"You don't have to rub the dust off the nameplate on the Edsel to discover its identity. From front or rear, you can tell an Edsel a block away.

IF YOU DRIVE FOR A LIVING

"I stopped a taxi driver who was using an Edsel.

"'Do a day and a half in a day now,' he said, 'or at least I feel that much better when I get home at the end of a shift. It's easy, arm-chair comfort.'

"You don't have to be carrying the mail to have a job that requires going every day in all kinds of weather. Edsel has speed for turnpikes, expressways and open highways and roadability for the logging road, the byway and the farm lane.

MOST PRE-TESTED CAR

"Some prospect is sure to say that the Edsel is too new, intimating that it is untried, and

if he's like the thousands who have gone before him, he will say that he'll wait a few years and see how it turns out.

"The Edsel is undoubtedly the most pre-tested car ever offered to the public.

"Edsel test drivers raced 38 Edsels for a total of 1,500,000 miles over a two-year test period. Punishment? They drove these miles in the 118-degree heat of Death Valley and the 40-below cold of Minnesota.

"Back of it is 50 years—half a century of engineering skill—11 years of actual planning and testing. The Edsel's got more that's new than any new car has ever had, and all the new has been virtually tested to destruction.

MORE NEW IDEAS

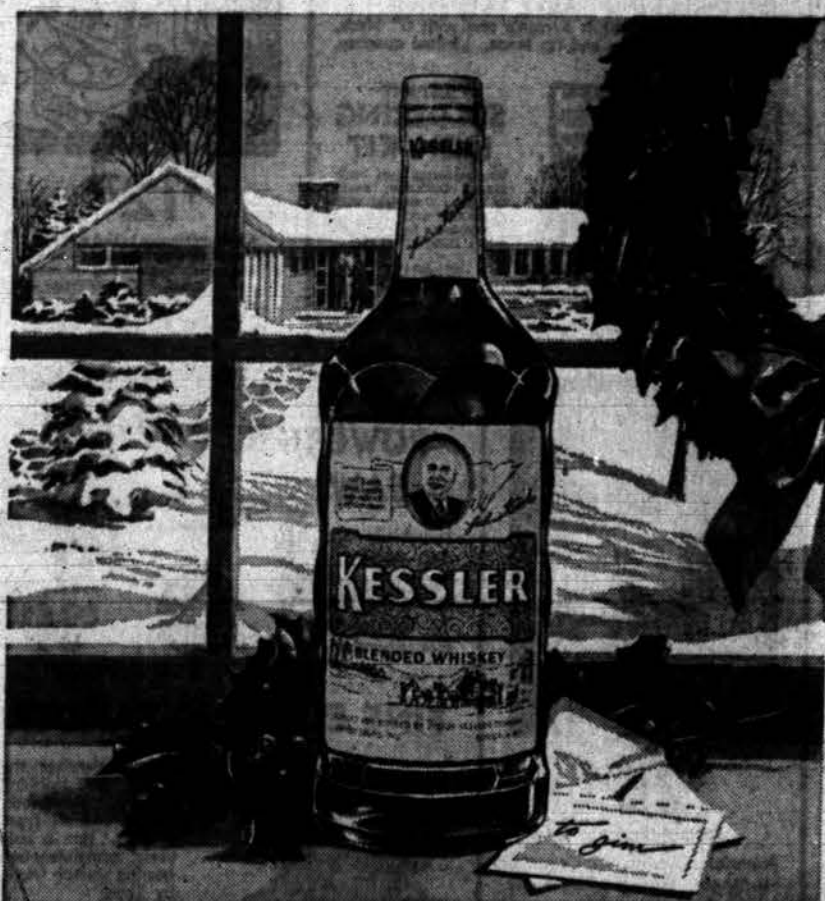

"Edsel offers a lot to the gadget-minded. For example, every salesman has heard owners wish for an oil gauge on the dash. Edsel has a row of warning lights on the dash. One warns when oil is one quart low, another when the gas tank has only two gallons left, another warns of a hot engine.

"Edsel offers a tachometer as an option and this tachometer sports a couple of green dots, one at about 900 r.p.m. and the other at about 2500. When the owner keeps the needle between those dots he knows he is operating the engine at its greatest economy."

HAVE YOU ROAD-TESTED THE NEWEST CAR IN THE WORLD?

It's an experience no one should miss. When you do, your Edsel Dealer will give you a scale-model Edsel as a gift for your child. This 8-inch, full-color, precision-made plastic model has movable wheels, rubber tires, traction drive.

Jaycees in Educational Drive on Constitutional Convention

A public education program to enlighten Michigan voters on why a state constitutional convention is needed, has been endorsed by the

Pontiac Junior Chamber of Commerce.

Father's a Lion, Mother's a Tiger, So They're Ligers

BOMBAY (U)—Four ligers, the rare offspring of a lion father and a tigress mother, were born last night at the Victoria Gardens zoo. Officials said they might survive.

The mother is Mary, a royal Bengal tigress, and the father is Shankar, star lion of a circus menagerie. The animals have been cage companions for two years.

Three of the gray ligers were delivered in rapid succession. The fourth arrived some hours later. The zoo superintendent said ligers are a rarer phenomenon than tigers, the offspring of tigers and lionesses. The zoo bred one tiger 12 years ago but it did not live long.

Trucks carry about nine billion tons of freight in the U. S. each year.

"We want to emphasize that the Jaycee organization is non-partisan," said Leslie W. Langford, president. "But we do feel because of the unwieldy and cumbersome nature of our state constitution the need of a convention should be brought to the attention of the citizens."

The Pontiac chapter will take its endorsement before the executive board of directors of the Commerce Jan. 16. If favorable reaction is received here it will go before the full Board of Directors at a Feb. 22 meeting in Detroit.

Spearheading the drive here has been Don Weddle, Pontiac Jaycee second vice president, and Clyde R. Haskill, one of the Michigan Jaycee vice presidents.

The drive will be part of the Jaycees' annual get-out-to-vote campaign, Langford said.

Officers of the Pontiac chapter met this week with Mrs. Berrien C. Ketchum, of Birmingham, president of the League of Women Voters of Michigan, which is

Firm Discloses Why It's Staying in State

MANISTEE (U)—Stability and high production by its employees convinced Glen of Michigan, a Manistee garment manufacturing firm, that it should remain in Michigan, an industrial workshop was told yesterday.

Harlee Feagins, plant manager, told some 50 civic leaders that his firm had made extensive surveys of possible locations outside of Michigan.

"When we needed an expansion program, we looked through the South and listened to financial offers," Feagins said. "We decided to stay at Manistee because of the stability and motivation of

labor. We felt it better to stay where the workers know how to produce quality goods."

Japan Indicts State GI in Strangulation-Murder

YOKOHAMA, Japan (U)—Specialist S. C. Gregory K. Kupski of Detroit was indicted in a Japanese court today for the murder of a Japanese girl.

Kupski, 23, was arrested Nov. 23 and U. S. Army officials said he admitted strangling Kuzue Eikawa. He nude body was found in a Yokohama alley a week before, a nylon blouse twisted around her neck.

There was no indication when Kupski's trial could start. The maximum penalty in Japan for murder is death, the minimum of three years in prison.

Waterford Offering Course in Archery

A course of instruction in archery has been started at the Community Activities Center in Waterford Township. Entire families have been invited to participate, according to Recreation Director Tom Belton.

On each Tuesday from 7 to 9 p.m., a qualified instructor shows the fundamentals of shooting, care of equipment, and the perfecting of target practice.

After the total registrations have been established, members of the course, will be divided into various groups according to age, Belton said.

Grand Coulee dam is said to be the largest concrete structure in the world. Five barrels of gasoline contain the same energy as one ton of coal.

90 Pilots to Be Laid Off by American Airlines

NEW YORK (AP)—American Airlines says it will lay off 90 pilots at the end of this month because of a "decline in general business through the country."

In a letter to its employees, the airline said passenger traffic had been adversely affected by business conditions for the company and other carriers. It predicted

the downward trend would continue through next year. Spokesmen for other major airlines here said they had no plans at present for laying off pilots.

Admits Starting Blaze

MIAMI, Fla. (AP)—Luther Hobbs, 19, pleaded guilty in Municipal Court and was sentenced to 10 days in jail for setting fire to a \$5,000 Santa Claus display at the North Miami City Hall.

News of Service Personnel

Airman J. F. Stamper, son of Mr. and Mrs. Hobart Stamper of 4878 Pontiac Trail, Wixom, was recently promoted to Airman First Class.

Previous to his promotion, he was named Airman of the Month of the 810th Aircraft Control and Warning Squadron located near Winston-Salem, N.C.

He received this award on the basis of his military bearing, courtesy, job knowledge and personal appearance. Major Clifford N. Keith, squadron commander, presented him with a check and a three-day pass.

He attended Wall Lake High School and was later employed at Ford Motor Co., Detroit.

Seaman Apprentice Larry Carle, son of Mr. and Mrs. Norman Carle of 123 Drace St., Rochester, will be on board the flagship Newport News when it takes the President to the NATO meeting in Paris. At present he is stationed in Norfolk, Va.

Airman Basic David H. Ohngren, son of Mr. and Mrs. Carl Garchow of 795 Corwin Ct., is now stationed at Scott Air Force Base, Ill., and is attending Electronic school there. Ohngren graduated from St.

Michael's School in 1957. His address is: A/B David H. Ohngren, AH 12521091, 3327 Sturon, Box 248A, Scott Air Force Base, Ill.

Recently selected "Student of Week" was Navy Ensign Lawrence M. Hogan. He received this honor at Sausley Field Naval Auxiliary Air Station, Pensacola, Fla., for work during pre-solo, solo and precision stages of flight training.

Hogan will leave shortly for advanced training at Corpus Christi, Tex. He is the son of Mr. and Mrs. William F. Hogan of Minnesota and the husband of the former Marilyn L. Fockler of Keego Harbor.

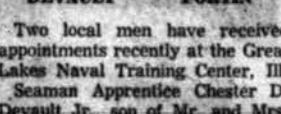

Army Pvt. David F. Hubbard, son of Mr. and Mrs. Ralph H. Hubbard of 556 Lochaven Rd., Waterford Township, is receiving paratrooper combat engineer training with the 20th Brigade's 618th Engineer Co. at Fort Bragg, N.C.

Hubbard entered the Army in August and completed basic combat training at Fort Leonard Wood, Mo.

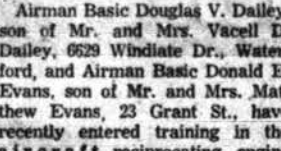

Two local men have received appointments recently at the Great Lakes Naval Training Center, Ill. Seaman Apprentice Chester D. Devault Jr., son of Mr. and Mrs. Chester D. Devault of 334 Romeo St., Rochester, has been appointed assistant clerk of his recruit company.

Seaman Apprentice Jan Fortin, son of Gerald L. Fortin of 4770 Sashabaw Rd., Clarkston, has been appointed boatswain's mate of the watch in his recruit company.

Airman Basic Douglas V. Dailey, son of Mr. and Mrs. Vacell D. Dailey, 6629 Whidlate Dr., Waterford, and Airman Basic Donald E. Evans, son of Mr. and Mrs. Matthew Evans, 23 Grant St., have recently entered training in the aircraft reciprocating engine course at Sheppard Air Force Base, Tex.

The courses provide training for selected airmen in the fundamentals of mechanics with emphasis on inspection and maintenance. Airman Dailey graduated from Pontiac Senior High School in 1955 and worked at Quality Builders, Drayton Plains.

Airman Evans graduated from Pontiac Senior High School in 1957 and was employed at Gresham Cleaners.

Believes Husband to Die, Passes Away

NEW YORK (AP)—A 60-year-old woman died of a heart attack last night, 10 minutes after she thought her husband had been fatally stricken.

Mrs. Morris Carlton Troper died at a dinner at the Waldorf-Astoria Hotel just after her husband collapsed from a stomach disorder. "If he goes, we want to go together," she said. A few minutes later, she died.

Troper, 65, a retired U. S. Army brigadier general, was not immediately informed of his wife's death.

The U. S. needs about 30 million commercial Christmas trees each season.

Parsis Employ Vultures to Get Rid of the Dead

By CHARLES C. LANE

BOMBAY (AP)—High atop Bombay's Malabar Hill stand the Towers of Silence. Here the Parsis, fire-worshipping followers of Zoroastrianism, place their dead to be devoured by vultures.

When a Parsi dies his body is bathed, wrapped in a simple white robe and placed on stone slabs at his home. Circles are drawn around it with a nail. This is to keep whatever malignant magnetic field the body may give off from defiling those nearby.

From that moment only professional bearers from the Towers of Silence can touch the body. A neat aluminum painted Parsi hearse usually takes the body from the home to the gate opening on a long flight of stone steps leading up to the Towers of Silence.

The procession stops 30 paces from one of the circular stone and concrete towers. The family leaves. The bearers place the body on one of three rows of stone pedestals circling the interior of the roofless tower.

Vultures in 20 minutes leave only the bones.

"The Parsis use this means of disposing of their dead," the high priest said, "because Zoroastrianism teaches that we must not defile the four elements: Water, air, earth and fire. Of course, if there are no towers around, the bodies can be buried. The sun-bleached bones in the towers are buried after a year. But no tomb is permitted."

There are only 150,000 Parsis in the world. Ninety thousand of them are in India, where they migrated after persecution in Persia.

U.S. Ship Battered in Heavy Seas; 1 Dies

WASHINGTON (AP)—The U. S. destroyer Manley, part of its superstructure smashed by heavy seas which killed one crew member and seriously injured three others, steamed toward Lisbon, Portugal, today.

The Manley was one of four American destroyers caught in an Eastern Atlantic storm that churned up mountainous waves off Spain yesterday and made it impossible to refuel the vessels.

A Navy spokesman here said the destroyers Manley, Gearing, McCard and Voelgesang were en route from Norfolk, Va., to join the U. S. 6th Fleet in the Mediterranean when they were buffeted by winds which at times reached 60 knots.

The Navy said the Gearing, McCard and Voelgesang might have to be taken in tow if refueling could not be accomplished.

Running a business without advertising is like winking at a girl in the dark—you're the only one who knows what you're doing. . . . Some women suffer greatly for their beliefs. They believe they can wear shoes a half size smaller than their feet.—Earl Wilson.

Japanese Fishing Boat Sinks in East China Sea

TOKYO (AP)—A Japanese fishing boat capsized and sank in rough weather in the East China Sea early today, and the coast guard said 10 of the 15 crew members were missing.

The announcement said the No. 5 Nichiei Maru went down 50 miles southeast of the north China mainland. Five men were rescued by another Japanese boat.

2 Trains Strike Car Blocking Crossing
DETROIT (AP)—Patrolmen Donald North and Eugene Kendrick last night were told to block off a railroad crossing as their part of a search for a bandit in suburban Wayne.

The patrolmen approached the tracks and attempted to position their car to shine headlights on the right of way. The back wheels of the car got stuck in roadbed ties.

Unable to free the car, Kendrick and North stood by helplessly as the car was struck first by an eastbound passenger train and then by a westbound freight train. The car was demolished, no one was injured and the crossing was blocked.

The idea of an omnipotent fate overruling all affairs of men is present in various forms in practically all religious systems.

30 Needy City Youngsters to Learn True Yule Spirit

A group of some 30 needy Pontiac youngsters will learn the true spirit of the Christmas season when the Pontiac Junior Chamber of Commerce takes them on an annual shopping tour.

The Waterford Township Junior Chamber of Commerce treated 12 children with five dollars each last night and took them on a similar whirl of stores from 5 to 9. They brought numerous gifts to give to their friends.

The Pontiac Jaycee tour is scheduled for Dec. 26, according to Ted Jarvis, chairman of the event.

It is part of a nationwide Jaycee project held each year.

"Most needy youngsters in our community receive toys, candy and clothes at Christmas through relief agencies," said Jarvis, "but only through this tour will they get the chance of buying for somebody else."

After the tour the youngsters will be taken to the Boys' Club where they will be provided with wrapping paper, ribbons and stickers to wrap what they have spent their \$5 on.

Urges U.S. to Lay Claim to Portions of Antarctic Area

WASHINGTON (AP)—Rep. Tolleson (R-Wash.) said today the United States should lay claim to portions of the South Polar region "before the whole antarctic pie is gobbled up by other nations."

He said that although 75 percent of the area's 5 1/2 million square miles has been seen only by U.S. explorers, "all but 25 percent has been claimed by other nations—we have claimed nothing."

For the past six years Tolleson sponsored legislation to claim U.S. sovereignty over certain areas of Antarctica.

He said he plans to press for action on the measure at the coming session.

Indicative of Antarctica's military value, Tolleson said, were struggles in World Wars I and II for control of the waters between the polar continent and the southern tip of South America. Destruction of the Panama Canal, he said, would require that all shipping between the Atlantic and Pacific oceans pass through these waters en route around Cape Horn.

Dog Tag Returned After 13 Years

CHEYENNE, Wyo. (AP)—Thirteen years ago, Cleo M. (Ike) Orrison lost his dog tag while in the Army in New Guinea.

Yesterday he received the metal identification tag back—along with a letter from Robert A. Rolles, a draftsman in the Royal Dutch Navy.

Rolles wrote Orrison's sister Mrs. Lloyd Miller of Panhandle, Tex., whose name was on the dog tag as Orrison's next of kin.

He offered his condolence on Orrison's apparent death in the jungle and explained while clearing a site for erection of a new building he had found the tag.

2 Trains Strike Car Blocking Crossing

DETROIT (AP)—Patrolmen Donald North and Eugene Kendrick last night were told to block off a railroad crossing as their part of a search for a bandit in suburban Wayne.

The patrolmen approached the tracks and attempted to position their car to shine headlights on the right of way. The back wheels of the car got stuck in roadbed ties.

Unable to free the car, Kendrick and North stood by helplessly as the car was struck first by an eastbound passenger train and then by a westbound freight train. The car was demolished, no one was injured and the crossing was blocked.

The idea of an omnipotent fate overruling all affairs of men is present in various forms in practically all religious systems.

Kavanagh Rules on Pension Hike

Says Rise in State's Minimum Benefits Was Constitutional

LANSING (AP)—An attorney general's opinion has held that the Legislature may increase the minimum pensions of retired state employees.

The opinion, by Atty. Gen. Thomas M. Kavanagh, held that a 1957 legislative act upping the pensions of retired employees was not unconstitutional.

Hollywood Headlines

Jack Warner Snaps Up Novel by Sloan Wilson

By LOUELLA O. PARSONS
HOLLYWOOD (INS)—If "Summer Place," Sloan Wilson's new book, does as well as the author's "Man in the Gray Flannel Suit," Jack Warner will have picked himself off a winner.

He bought the film rights from the galley, for close to \$300,000 plus a percentage.

But he was not taking much chance because the Literary Guild has selected it as book of the month, and Simon and Schuster, the publishers, have already been paid \$100,000 for the serialization rights by McCall's Magazine.

Sloan Wilson will, himself, write the adaptation.

Jack is really going all out to buy these new books. This is the second one he's bought within a matter of weeks.

Once again we will be hearing the voice of Princess Grace (Kelly). Millions of listeners on four continents will have the opportunity of hearing Her Serene

Carries Through Tattoo Threat: Now He's Lonely

LONDON (AP)—Henry Ferrie sadly reported today that getting your face tattooed is no way to win back a girl friend—unless maybe you are a Hottentot.

Ferrie, a 38-year-old janitor, recently had a spat with his steady, Tilly Farrell, 40. Explaining to a reporter what happened next, he said: "I once told her, 'Tilly, if you ever leave me, I'll have my whole face tattooed so that no other woman will ever look at me.'"

Ferrie went out and had a butterfly tattooed on his nose, a tree on his forehead, a coiled snake on his left cheek and a flying dragon on his right cheek. Then he went to see Tilly.

"I thought he had taken leave of his senses," she said. "I'm afraid it is all up between us."

"The tattoos are permanent," said Ferrie, "so I think I will get a job with a circus to help me forget."

Trail Much Too Cold for Sliding Jailer

MOUNT STERLING, Ky. (AP)—Montgomery County jailer E. H. Swope took out in hot pursuit when a prisoner fled—but the trail was much too cold.

The jailer chased Bernard Shelton of Winchester over icy streets and slippery sidewalks. He said he gave up only when Shelton went skidding around a corner and disappeared. Shelton was being taken to jail after being fined for traffic violations.

Pierre Espirit, Radisson and Medard Chouart, French explorers, were the first white men known to have set foot in the domain now known as the state of Minnesota.

Graham Crusade Budget \$480,000

SAN FRANCISCO (AP)—A \$480,000 budget for evangelist Billy Graham's six-week crusade starting April 27 at Cow Palace was announced today.

A committee estimated \$250,000 would be raised in a campaign before the crusade begins.

The balance is expected to come from offerings at Graham's nightly appearances.

Budget items include rent, advertising, office staff salaries and living expenses of Graham's staff.

Water from the Amazon River freshens the Atlantic ocean as far as 100 miles out to sea. The Amazon's discharge is greater than that of the world's three next largest rivers combined.

HOLIDAY GREETINGS

U.S. to Seek OK on Use of Nuclear Arms

LONDON (U.P.) — The United States next week to approve a new plan for Allied consultations on the use of nuclear weapons against aggressors.

workable was not disclosed. One suggestion was that ambassadors of the NATO countries in key capitals might be organized for discussions in emergencies.

units would immediately deliver the warheads to the European countries missile crews, which already would be trained in using them. They could be fired immediately—but Americans would not pull the trigger.

Considerable resentment has developed among Continental NATO members, particularly the French because only the United States and Britain control nuclear weapons. Some French officials have felt that this makes the other NATO countries second-class members of the alliance.

SEARS

Washington also wants to give NATO countries joint control with the United States over the triggering of nuclear missiles within their own borders. But although there would be consultations beforehand, no member nation would have the right to veto American or British use of nuclear weapons based elsewhere.

Responsible sources say these are the key proposals contained in a U. S. memorandum now being circulated among NATO members. The purpose is to reduce the apprehensiveness of the continental NATO countries—especially France—that in war the United States or Britain might unilaterally launch a nuclear attack which would involve them.

The NATO chiefs of government, meeting in Paris Monday, will be asked to take action on the U. S. plan, said to be supported by Britain.

Just how the Allies might consult fast enough to make the plan

The development of a means of swift and foolproof communication between NATO capitals seemed to be an essential requirement of the plan. Informants did not indicate how this would be assured but said the question is in the hands of military authorities.

The U. S. proposal outlines the plan for joint control of nuclear

Each of these NATO countries would be provided with the missiles and their firing mechanisms and would control the launching apparatus. U. S. units in Europe would retain control of nuclear warheads for the missiles.

If war broke out and the governments of the United States and the country agreed, the U. S.

Road Commission Stores Big Stockpile of Salt

With the advent of icy weather this week, the Oakland County Road Commission has already begun to dig into its stockpile of salt with which to thaw slippery roads.

The amount of salt used so far has hardly dented the 3,066 tons that have been laid away to insure that county drivers get through the winter with a minimum of skidding.

Of the total tonnage, 2,796 tons is earmarked for state highways and 1,770 for county roads.

Salt is mainly stockpiled in four locations: at the Pontiac terminal, Highland Township, Davisburg and Lake Orion.

The Highland supply is for M59 and Grand River (U.S. 16). The Davisburg store will take care of Dixie Highway (U.S. 10), M15 and M87. Salt for M24 and M150 is kept in Lake Orion, while the Pontiac terminal will service Dixie highway, Telegraph road (U.S. 24), Orchard Lake road (M218), M59 and M58.

In addition there are other stockpiles at Haggerty and Maple roads, in Troy and near Novi.

The road commission also has 174,300 pounds of chloride on hand to mix with sand for additional icy pavement service.

Whiskey Sensation!

THREE FEATHERS
