

Talk 63 Minutes in Miami

Kennedy, Nixon Hold Confab

Making Oakland County Ballots Official

CANVASSERS AT WORK—The election of last Tuesday isn't over as far as these three members of the Oakland County Board of Canvassers is concerned. While most persons were rubbing their weary eyes last Wednesday, canvassers (left to right) Mrs. William S. Dixon of Royal Oak, Mrs. Paul Gorman of Pontiac,

and Carlos G. Richardson of Waterford Township, went right to work and began canvassing all the returns from Oakland County. Their findings make the returns official. Richardson said work might be over by the end of the week.

President-Elect Does Not Offer Dem Position

Jack Calls Talk With Defeated Republican Opponent 'Beneficial'

KEY BISCAYNE, Fla. (AP)—President-Elect John F. Kennedy today had what he called a very beneficial 63-minute conference with Vice President Richard M. Nixon, the man he defeated for the presidency.

At a news conference afterward, Kennedy said in response to question that he had not offered to Nixon a post in the new Democratic administration.

There was no discussion of that, the president-elect added.

Kennedy flew to Nixon's vacation retreat here a few miles south of Palm Beach, Fla.

The president-elect got a warm welcome from thousands who cheered him in this state which gave its 10 electoral votes to Nixon.

At Nixon's sun-drenched villa, No. 69 at Key Biscayne Hotel, Kennedy and Nixon conferred for three minutes more than an hour on the sun porch of the vice president's vacation headquarters.

When the dramatic conference ended the two men posed for photographers outside the villa, and then walked about a block to a press room.

There Nixon shook hands with Kennedy and returned to his villa.

At the Kennedy news conference, the president-elect said he and Nixon had a very cordial meeting.

He recalled that they entered Congress the same day 14 years ago.

Kennedy said he expects to meet again with Nixon in about a month, sometime in December.

He said, too, he plans to confer with President Eisenhower before the inauguration but there is no definite date for that.

Kennedy went on to say that he arranged the conference with Nixon because he was anxious to renew the cordial relations which always had existed between them.

Kennedy then said that his talk with Nixon had been "very beneficial."

For their conference Kennedy and Nixon sat side by side behind a vertical aluminum shade through which reporters could glimpse their outlines.

Nixon retreated back and forth occasionally on a glider.

They got up for a moment at one point, then sat down and talked on.

Kennedy repeatedly said that (Continued on Page 2, Col. 5)

ALL SMILES—Wide smiles are worn by the two standard bearers in the recent national election campaign as Vice President Richard M.

Nixon and President-Elect John F. Kennedy meet for a conference. Kennedy, vacationing at Palm Beach, Fla., flew to Miami today to meet Nixon.

Castro Is Blamed for 3 Latin Revolts

MANAGUA, Nicaragua (UPI)—Fourteen rebels who held 200 children as hostages in the Christian Brothers' school in Diriamba since last Friday surrendered to government troops today.

By United Press International
Troops in Guatemala, Nicaragua and Costa Rica were locked in battle today with rebels described by the three governments as Communists and "mercenaries" supported by Cuba's Premier Fidel Castro.

Only scattered casualty figures had been published, but losses at some points were believed to be heavy.

Latest reports said loyal forces were in control in all three countries, but did not discount the possibility that reinforcements from Cuba might change the picture at any moment.

Officials in Guatemala charged that the weekend uprisings were part of a plot hatched in Cuba to clamp Communist control on all of Central America.

Cuban officials denied any connection with the attacks.

In Guatemala and Nicaragua rebels suffered by government attacks had seized hostages in the hope of insuring themselves a safe getaway.

One band of about 14 rebels had seized the Christian Brothers' school outside Diriamba, Nicaragua, where they were holding 200 school children and two army officers as hostages in an attempt to force the government to grant them free passage to safety.

Managua's Roman Catholic Archbishop Cardinal Carlos Borge was trying to arrange the release of the children.

In Costa Rica, loyal troops were

batting forces wearing the green fatigues of Castro's Cuba. The guerrillas were using the country as an assembly area and a supply base for the invasion of Nicaragua.

The rebel forces operating along the Costa Rican border were said to include bearded Cubans. Twin-engine planes believed to be Cuban were shutting in and out of the area.

At the height of the weekend fighting, presidents Miguel Ydigoras Fuentes of Guatemala and Mario Echandi of Costa Rica took personal command of the forces fighting the rebels.

The Nicaraguan army is commanded by Gen. Anastasio Somoza, whose brother is president of the country.

The situation in brief:

GUATEMALA—Ydigoras, returning from a reconnaissance flight over rebel-held territory (Continued on Page 2, Col. 1)

TROUBLE SPOTS—This map locates the centers of unrest in Central America. Attempted coups occurred in the underlined cities of Jinotega and Diriamba in Nicaragua and Puerto Barrios in Guatemala.

Ike, Anderson to Discuss Aid

President Will Stress Need for Rich Nations to Help Poor Ones

AUGUSTA, Ga. (AP)—President Eisenhower will meet with Treasury Secretary Robert B. Anderson Tuesday for what the White House described as an important conference on foreign aid to underdeveloped countries.

Eisenhower will issue a statement afterward from his vacation headquarters about the pressing need for wealthy Western nations to step up such assistance to impoverished lands.

Presidential press secretary James C. Hagerty is announcing the meeting said Anderson would fly from Washington for what he called a review of foreign aid.

Anderson is due to leave this weekend with Undersecretary of State Douglas Dillon for conferences on this problem with the West German government.

Hagerty said that the President and Anderson undoubtedly also would talk over the final budget of the Eisenhower administration will lay before Congress in early January.

Administration leaders are reported hoping that the Anderson-Dillon mission will convince Chancellor Konrad Adenauer to increase substantially West Germany's aid contribution to Africa, Asia and the Middle East.

Boundary Changes Charges Okayed

WASHINGTON (AP)—The Supreme Court ruled unanimously today that federal courts can consider complaints by Negroes against Tuskegee, Ala., boundary changes which put almost all Negro voters outside the city.

Justice Frankfurter wrote the high court's decision which overturned lower court rulings that the matter was not within federal jurisdiction.

The high tribunal directed that the U.S. District Court in Montgomery, Ala., take evidence and determine whether the Alabama legislature violated U.S. constitutional guarantees when it chopped up Tuskegee's city lines.

On Oakland Area Cooperation

Talks at National Meeting

Oakland County is a prize example that cities "are only as strong individually as they are collectively," Delos Hamlin, chairman of the Oakland board of supervisors told the National Municipal League Conference meeting in Phoenix, Ariz., today.

Hamlin spoke on city-county cooperation in South-eastern Michigan.

After tracing the rapid growth of Michigan's second largest county Hamlin went on to tell the government officials from around the nation that the development was due in part to separate governmental units realizing that many necessary projects could not be undertaken alone.

He praised the work of the Supervisors Inter-County Committee, consisting of representatives of Oakland, Wayne, Macomb, Washtenaw, St. Clair and Monroe counties, for uniting to solve the numerous problems which stretch beyond county boundaries.

Hamlin, of Farmington, is also chairman of the SICC.

Hamlin was selected to speak on the city-county cooperation problem because Oakland County and Southeastern Michigan was believed to have taken a giant step in this direction.

"Much of the leadership in these projects has been provided by the cities of our county," Hamlin said.

When the dramatic conference ended the two men posed for photographers outside the villa, and then walked about a block to a press room.

There Nixon shook hands with Kennedy and returned to his villa.

At the Kennedy news conference, the president-elect said he and Nixon had a very cordial meeting.

He recalled that they entered Congress the same day 14 years ago.

Kennedy said he expects to meet again with Nixon in about a month, sometime in December.

He said, too, he plans to confer with President Eisenhower before the inauguration but there is no definite date for that.

Kennedy went on to say that he arranged the conference with Nixon because he was anxious to renew the cordial relations which always had existed between them.

Kennedy then said that his talk with Nixon had been "very beneficial."

For their conference Kennedy and Nixon sat side by side behind a vertical aluminum shade through which reporters could glimpse their outlines.

Nixon retreated back and forth occasionally on a glider.

They got up for a moment at one point, then sat down and talked on.

Kennedy repeatedly said that (Continued on Page 2, Col. 5)

This cooperative effort, he said, will eventually mean facilities built at lower costs, permit the development of an adequate trade area for commerce and industry, and provide greater assurance for the present and future residents that their property values and standards will be maintained.

(Continued on Page 2, Col. 1)

Mid-November Indian Summer Not Over Yet

The weatherman tells us skies will be partly cloudy with little change in our unseasonably warm weather today, tonight and tomorrow. The low tonight is expected to be 43 with a high of 58 predicted Tuesday.

Morning southerly winds at 5 miles per hour will change to southerly at 5:12 p.m. tonight.

Temperatures for the next five days will average 4 or 5 degrees above a normal high of 50 and a normal low of 35. Thursday and Friday will be cooler.

The lowest temperature in downtown Pontiac preceding 4 a.m. was 44. At 2 p.m. the reading was 58.

4 Negro Girls Integrate 2 New Orleans Schools

NEW ORLEANS (AP)—Four Negro girls, trudging through yelling spectators, integrated two New Orleans elementary schools today despite state resistance.

There was no violence as the little first graders entered the schools—first of their race to attend white public schools in New Orleans since the days of the reconstruction after the Civil War.

None of the estimated 75 state policemen sent to New Orleans by an angry legislature tried to stop the U.S. marshals and their charges as they entered the William Frantz and McDonogh 19 schools.

Later, a state policeman serving as an assistant sergeant at arms of the legislature tried to get the principal of McDonogh 19 to close his school down.

He served him legislative orders. The principal refused to comply.

LET'S GO TO JAIL!

While the tense integration scenes unfolded in New Orleans, wildly angry state representatives meeting in special session in Baton Rouge called for continued determined warfare against mixing the races in Louisiana schools.

The call came amid yells of "Hitler storm troops" and "Let's go to jail."

While the uproarious legislative session met, a parade of Negroes marched down the state capital's Third Street, a main thoroughfare (Continued on Page 2, Col. 2)

STATE LEGISLATURE DEFIED—A Negro first grader is escorted into a previously all-white school in New Orleans today by U.S. deputy marshals. She is one of four girls who successfully integrated two schools there backed by a federal court order but

in defiance of the Louisiana Legislature. The girl, followed here by her mother, was perhaps unable to realize the full significance of the part she is playing in the nationwide battle to gain full civil rights for all U.S. citizens.

Many Pontiac Area Men Aquiver to Bag the Buck

Pontiac and the surrounding area has a good representation among the deer hunters in the north woods today. They are waiting for the opening at 6 a.m. Tuesday.

The hunting lodges and camps west of Hubbard Lake in Alcona County house several hunters from Pontiac.

Ralph T. Norvell and R. B. Oliver left Sunday for Camp 24. John C. Cowe, former mayor of Pontiac, has guests at his Cowe-Boys Ranch. His son-in-law, John C. Napley, and Gordon C. Grubb, both of Pontiac, are among them.

Belgium Threatens to Quit U.N.

FROM OUR NEWS WIRE
UNITED NATIONS, N. Y.—Belgium today threatened to withdraw from the United Nations unless U.N. officials cease attacks on the Belgian government.

Belgian Foreign Minister M. P. Wigny told a press conference "What they have done is not pertinent in my country, even by the broad of the opposition."

Wigny said the Belgian people and government were "greatly aroused" by the treatment given his country by U.N. officials.

If they don't remember that Belgium is a sovereign country, "it's impossible to cooperate with the United Nations," he said.

Wigny declared that U.N. officials are "servants" of the world organization's member governments, not their masters.

"We cannot admit it," he said of recent anti-Belgian reports and statements emanating from the U.N.

BLASTS REPORT
The Belgian foreign minister was particularly bitter of a report filed Nov. 2 by Rajeshwar Dayal of India, commander of the U.N. operation in the Congo.

"It is not a report; it is an indictment," he said.

Deposed Premier Patrice Lumumba proposed today that the United Nations end an alleged reign of terror in the Congo by arranging a national referendum under U.N. supervision.

In a letter to Frederick H. Boland, president of the U.N. General Assembly, Lumumba charged that a minority financed by the United States was carrying on a campaign of subversion aimed at controlling the government.

Castro Gets Blame for 3 Latin Revolts

(Continued From Page One)

northeast of Guatemala City, told newsmen bombardment by the government's rocket-carrying E-28 bombers had "totally destroyed" the military bases at Zacapa and Puerto Barrios, lost in the early hours of the revolt.

Loyal troops were grouping to decapitate the shattered bases at dawn today.

The Puerto Barrios airfield also had been destroyed by air attack to prevent the landing of planes which might arrive from Cuba.

Later reports said the rebels in Puerto Barrios had seized local congressman Manuel Castillo Ramirez and David Ordonez as hostages.

NICARAGUA — Tanked loyal troops had driven the guerrillas who invaded the country Friday night out of Jinotega and Diriamba, the southwestern cities on the Pan-American Highway which were the first targets of their attack.

The government said loyal troops were "hopping" scattered groups of rebels in the Carazo area.

Presidential press secretary Guillermo Lang said the whole country had united against the "Castro gangsters."

COSTA RICA — Troops massed in the Guanacaste area of the Northwest frontier to hunt down two Costa Rican officers and wounded or kidnapped a number of others in a clash Friday.

Among the dead was Col. Al-

fonso Monge, commander of the civil guard. Echandi returned from the frontier to attend Monge's funeral in San Jose today.

A dozen rebels, captured on the border and brought to San Jose for questioning, had papers in their possession which government sources said proved the attackers had Cuban support.

Passenger Rides on Car Hood; Pair Arrested

Whatever the argument, it had passed the reasonable stage, Pontiac Police Lt. William Nesbitt decided yesterday.

Nesbitt was driving at Saginaw and Whittemore streets at 7:30 a.m. when he spotted a car zig-zagging down the street.

Perched on the hood of the car was a woman holding a fish knife.

Nesbitt chased the car and arrested both the driver and "passenger."

The pair was charged with disorderly conduct. They are Raymond Burton Jr., 24, of 463 Ferry St., and Lenora Porter, 21, 101 Jackson St.

They will be arraigned in Pontiac Municipal Court today.

New Orleans Quiet During Integration

(Continued From Page One)

In Baton Rouge, up and the steps of the skyscraper state capitol in single file.

There was no immediate explanation of their mass presence.

Rep. Wilborn Jack, a leading segregation leader, questioned the sanity of U.S. District Judge J. Skelly Wright on the floor of the house.

"I just can't see, said Jack, 'that a man who will do what he is doing, don't see how he is entirely mentally right.'"

Rep. John Lewis cried: "If we have to go to jail, let's go to jail."

Several legislators called for the state's U.S. representatives to join the fight against integration.

CITY POLICE AUGMENTED

But, the state police acting as riot control, said at arms and not as state police did nothing more than visit schools and try to get principals to close down.

Cordons of New Orleans city police, which augmented the state police, were on duty.

At the Frantz School, located in a workingman's neighborhood on the eastern perimeter of the city, a truckload of policemen threw up a circular barrier about two blocks around the school.

Fifty to 75 white students were taken from Frantz School by parents. Another two score appeared to have left McDonough.

An unofficial report said only 100 students of a normal enrollment of 600 were in Frantz School. It was impossible to verify exact figures.

Outside, a woman yelled: "They ought to take Judge Wright out and hang him by his heels." She kept yelling it. Police have guarded Wright's home for several days.

At McDonough, it was reported 200 students remained inside. Normal enrollment figures were not immediately available.

A group of 40-50 high school students from nearby Francis T. Nichols High School arrived in late morning with signs reading "We don't want to integrate."

The teen-agers waved American and Confederate flags.

City Police Supt. Joseph Giarratano said the men were present "strictly to preserve order."

CUBAN GETS OVATION — Ernesto Guevara, bureau president of the National Bank of Cuba, was applauded at a reception honoring him and a Cuban economic delegation in Moscow earlier this month. Guevara headed the delegation.

Harrelson Jr. in County Jail

Arrested on Nonsupport Warrant; Also Wanted on Assault Charge

Sheriff's deputies arrested Leam W. Harrelson Jr., 25-year-old son of Pontiac Teamsters Local 614 President Leam Harrelson, on a nonsupport warrant Sunday morning.

Young Harrelson was being held at the county jail today on another charge also. He is wanted by Bloomfield Township police for assault and battery.

Local police were thwarted in their efforts to apprehend Harrelson on the two charges when he went to Chicago on probation in September.

He was picked up by deputies Sunday when he was found to be a passenger in a car driven by Clarence O. Reed, 24, of 24 Park Blvd., Lake Orion. Officers stopped Reed for reckless driving when he allegedly ran a red light at Pontiac and Opdyke roads in Pontiac Township.

The nonsupport warrant for Harrelson's arrest was issued by Municipal Court in September a few days after he was placed on 90 days probation by Judge Maurice Finnegan of the same court for an election misdemeanor.

Harrelson's ex-wife Mrs. Judith Harrelson of 514 Tilling St. has charged him with failing to support their child in accordance with a divorce-court decree issued in June 1959.

He is wanted in Bloomfield Township on an assault and battery charge brought by Mrs. Jerry Dodd of 57 Mark St. She accused him of tearing off her dress during a fracas at the Town and Country Bar on Telegraph Road in Bloomfield Township Aug. 2.

Mrs. Dodd was a relative of the late Vida M. Pontiac who died in 1953 after she was hit by a car driven by young Harrelson.

He was convicted of negligent homicide March 8, 1954 and given two years probation by Judge Finnegan.

Township police said the bar fracas resulted when Mrs. Dodd asked to meet the man who killed her niece.

Harrelson pleaded guilty to forging some 60 names on nominating petitions for the primary election in August.

He's a Sound Sleeper

NASHVILLE, Tenn. — Morgan Fluty knifed the first man to sleep while an intruder robbed his home. But he was the first police know of to complain the loot — \$10 — was taken from his wallet hidden under his pillow.

'Revive Christian Life' Pope Cites Council Aims

VATICAN CITY (AP) — Pope John XXIII said today the forthcoming council of the Roman Catholic Church will aim at "re-establishing in value and splendor, the substance of human and Christian thought and life."

The pontiff spoke to more than 500 members of special commissions gathered here from all parts of the world to prepare for the council.

At least a year's work must be completed before the council — Second Vatican Council, or Vatican II — officially opens. Vatican I was the council of 1869-70.

The Pope said that preparatory work — or suggestions to be put before the council — already fill five volumes. These, now being printed, will be turned over to 10 commissions that will prepare the agenda.

He referred also to the attention being given to the forthcoming council by "the separated brethren," meaning Christians of other faiths. This "particularly composes us and brings to our heart a foretaste of the joy of unity of all believers in Christ," he said.

The Pope said, however, that the council will primarily concern itself with matters of the Roman Catholic Church.

Negro Vote Made Jack the Winner

ANN ARBOR (UPI) — The executive secretary of the Detroit chapter of the National Association for the Advancement of Colored People said Sunday the Negro vote elected John Kennedy president.

Arthur Johnson told a NAACP group here that Negro voters supported Kennedy because of his action when integration leader Martin Luther King was arrested for a divorce-court decree issued under discrimination in the South.

Johnson said Kennedy's election means more and faster school integration, less discrimination in employment, participation in government employment, and better screening of federal housing funds with an eye against discrimination practices.

The NAACP executive also suggested that Negro Ralph Bunche, a native of Detroit and now one of the United States leaders in the United Nations, may be considered for secretary of state under Kennedy.

Kennedy-Nixon Talk Set for Miami Today

(Continued From Page One)

The 65-mile flight to Miami's International Airport aboard his private two-engine Convair and drove from there to Nixon's headquarters at the Key Biscayne Hotel.

During the campaign, Kennedy contended the vice president had helped preserve order during a period of national prestige and security and the commutation of Cuba, while Nixon pictured his Democratic opponent as inexperienced, rash and irresponsible.

But Salinger said one of the purposes of today's late morning meeting was to provide Kennedy with an opportunity to congratulate the vice president on the campaign he conducted.

The president-elect also wants to resume the cordial relations with the vice president which existed between them during their 14 years together in Congress, Salinger added.

Kennedy has left open the possibility of his asking Nixon to take a position in the new administration. But aides said in advance of the meeting they felt sure there would be no such offer. They expressed doubt that Nixon would accept anyway.

But the primary purpose of the meeting was viewed by those close to Kennedy as an effort to heal the wounds of the campaign.

Kennedy will return to Palm Beach Tuesday to have lunch with Gov. Abraham Ribicoff of Connecticut, a principal adviser during the campaign. Ribicoff is vacationing at Hollywood, Fla.

Wednesday evening the president-elect will fly to the Texas ranch of the new vice president, Sen. Lyndon B. Johnson, for conferences through Thursday.

Four Admitted Burning Furniture Store a Year Ago in Pontiac

Circuit Judge William J. Beech this morning placed the four admitted arsonists of a furniture shop in Pontiac on probation for three years and assessed each \$300 court costs and \$300 restitution.

Leonard Schultz, 42, and Nathan Wolfe, 45, both of Detroit, and Sidney Cohn, 41, and Irving Aaron, 50, both of Oak Park, pleaded guilty to arson Oct. 11 during their trial in Circuit Court.

They admitted setting fire to the old Lord's Furniture & Appliance Co., 125 W. Huron St., a year ago today.

Cohn and Aaron told police they had paid an arsonist to set the \$7,000 blaze in order to collect insurance money to pay debts.

They named Schultz as the arsonist and Wolfe as the go-between. Maximum sentence for arson is 10 years.

Hit Government Setup in State

RESEARCH COUNCIL IS CRITICAL OF MICHIGAN'S 'ILL-KEPT ORGANIZATION'

DETROIT (AP) — Michigan's government is a "disorganized, ill-kept organization," the Nonpartisan Citizens Research Council has declared in a publication analyzing state government.

The council, in a published brochure, sharply criticized Michigan's setup of elective offices and its members of state agencies.

It listed a series of basic principles which it said would make for more effective government for Michigan. These included:

1. A lengthening of the present two-year term of office for elective officials.

2. Unrestricted power of investigation and removal for the governor.

3. Provision for independent citizens' review to keep an eye on the state's government.

4. Provision for a "legislative auditor" appointed by the legislature to oversee the administration of state laws and make "fiscal and performance audits" of state agencies.

The reduction in the number of independently elected administrative officials "would tend to focus responsibility," the council said.

The council listed the offices of auditor general, state treasurer and attorney general as examples of "dispersion of responsibility."

The auditor general has no constitutional duties, the state treasurer is "largely ministerial," and the attorney general is primarily a staff officer, the council said.

Birthday Today? Prince Charlie Hardly Notices

LONDON (UPI) — Prince Charles' 19th birthday passed virtually unnoticed today.

At Cheam School, where he is a boarder, the prince attended classes and played football as usual.

There was no birthday visit by his parents, Queen Elizabeth and Prince Philip. It was not a visiting day.

And no party, either.

Flint Couple Injured in Crash on Dixie

A young Flint couple was hospitalized in Pontiac yesterday as the result of a two-car head-on crash on Dixie Highway in Grosse Pointe Park earlier in the day.

The victims, Mr. and Mrs. Donald D. Davis, both 21, were in satisfactory condition today at Pontiac General Hospital.

She sustained cuts on the face, head and feet. He has possible internal injuries, doctors said.

Davis told sheriff's deputies he was driving south on the highway when a car driven by Joseph Downs, 48, of 2535 DeLeon St., Madison Heights, pulled out in front of him.

Downs said he pulled out to avoid hitting a car ahead waiting to make a left hand turn and was struck by the Davis car coming in the opposite direction.

Downs was uninjured.

Correction

The New Remington Portable Typewriters which appeared in our Saturday ad did not arrive in time to assure customer delivery. Therefore, we asked to have the advertising copy changed to read: "Reconditioned Standard Typewriter \$49.50."

This change did not get made in our Saturday advertisement. We are sorry that delivery made us unable to deliver the item as shown and regret some customers had to be disappointed. When the merchandise arrives we will again offer the value.

That Man Will Soon Be Here Again

Yes — It hardly seems possible but in a very few short weeks that man will be here again and you know what that means. If you have protected your good credit record it probably means nothing more than the coming of the holiday season. BUT — to others it means trying to scrape up the money in a week or two to complete their shopping list, as to many it's an impossibility to pay cash.

So right here and now is a good time to consider that good credit record as it will enable you to make purchases now, pay for them out of future income and have most of them paid for when the holiday season rolls around. It's a grand feeling.

agents will be maintained at the highest possible levels.

"We believe also that this co-operation will provide a well distributed and equitable tax base so that all of the necessary governmental services, whether rendered by the cities or by the county, would be provided to commerce, industry, and above all to our residents."

"They will be provided in such a manner that no one area or section will be forced to bear a higher or lower tax than the relationship of the services it receives to the taxes which it pays," Hamlin said.

"Oakland County believes that by strengthening our county government and solving our problems on a county basis, and doing the things for local units of government which they cannot effectively do for themselves, and further, by the cooperation with our neighboring counties on metropolitan problems of mutual interest, we have in fact a working metropolitan government, by making use of our present government and without the necessity of creating a new governmental structure," he explained.

KISS FOR IKE — Mamie Eisenhower throws her arm — still holding a manila envelope — about the neck of her husband President Eisenhower as she steps off the ramp of the Colum-

bine at Augusta, Ga., today. The First Lady had just arrived to join her husband who is spending a golfing vacation there.

Ready to Fete Mamie

Ike Looks Fine, Says Doc

AUGUSTA, Ga. (AP) — President Eisenhower's physician reported today that the ruddy-faced chief executive "looks great" after five days golfing and relaxing in the Georgia sunshine.

In bubbling good humor, the President arranged to join a small group of friends and aides tonight in celebrating Mrs. Eisenhower's 6th birthday.

A private dinner party, complete with birthday cake, was planned as the high point of Mrs. Eisenhower's final birthday celebration as First Lady.

Mrs. Eisenhower flew in from Washington Sunday and was met at the airport in jolly fashion by her 70-year-old husband who twitted her about her reluctance to use planes.

'IN FINE CONDITION'

Dr. Howard M. Snyder, Eisenhower's personal White House physician, meanwhile reported that his distinguished patient is in fine physical condition despite

three major illnesses in the past five years.

Eisenhower suffered a heart attack in 1955, underwent an operation for ileitis in 1956, and was hit by a mild stroke in 1957.

The President, pink-cheeked from his daily golfing rounds at the exclusive Augusta National Golf Club, showed no signs of his earlier post-election gloom after the Republican defeat at the polls.

Cuts Hot Dog and Coffee Prices for Jack's Reign

PAWTUCKET, R. I. (AP) — The White Front restaurant cut prices of coffee and hot dogs on learning John F. Kennedy had been elected president.

Anthony Petrucci says he and his two partners plan to serve coffee at five cents a cup and frankfurters at 10 cents so long as the Democratic Kennedy is president. Previously coffee was the Republican defeat at the polls.

OFF TO THE GAME—Thirty-one Pontiac Press delivery boys won a free trip to see the University of Michigan-Indiana University football game at Ann Arbor Saturday afternoon as the result of a carrier contest. Shown here, the boys get ready to board a chartered bus in Pontiac. The group included Dale Quinn, Frederick Evans, Allyn Schmitz, John Anderson, Robert Bradshaw, Gary Blattenger, Tom Manie, Timothy Woods, James Burwell, Harold Whiting, Calvin Spears, Raymond Johnson and Michael Buckley, all of Pontiac; Kenneth Main, George Ballingall and Douglas Buckhorn of Waterford Township; Larry Templeton of

Keweenaw Harbor; Kenneth Sweeney, Sylvan Lake; Stanley Legere, Birmingham; James Sundberg, Rochester; Raymond Smith, Oxford; Larry Spencer, Walled Lake; Stephen Diehl, White Lake Township; Donald Mott and Lawrence Wing, both of Commerce Township; Daniel Burrell, Avon Township; Daniel Hanning, Lake Orion; and Michael Stewart, Louis Odette, James Roark and Joe Robinson, all of Union Lake. Shown with the boys is Robert Merwine of The Pontiac Press Circulation Department, one of four adults who accompanied them.

Halt Cars in E. Berlin

BERLIN (AP)—East German police have stopped six French cars in the Soviet sector of Berlin in two days. A French spokesman said Sunday. The drivers, all day. About 515 billion gallons per

back to the French sector after refusing a demand to show their identification papers.

The United States uses about 312 billion gallons of water a day to try to swell the exchange of goods between the two nations. The delegation is headed by Tuma

To Talk of More Trade

BELGRADE, Yugoslavia (AP)—Yugoslavia is sending a trade delegation to the United States to talk of more trade between the two nations. The delegation is headed by Tuma

Grand, director general of the Yugoslav Bank for Foreign Trade. The U. S. Fish and Wildlife Service says 1,628,365 duck stamps were sold during fiscal 1960. That was the smallest number since the 1944 season.

Oakland Radio Hams Reveal Their Officers

Wayne M. Garrett, Oakland County Amateur Radio Society secretary, announces the election of Ralph Fortney as president and Thomas Beal, vice president.

The society meets the first Tuesday of each month in the Consumers Power Building auditorium, 28 W. Lawrence St., at 8 p.m.

Now Many Wear FALSE TEETH With More Comfort

FASTEST, a pleasant alkaline (non-acid) powder, bonds false teeth snugly to the gum and oral tissue. Just apply a little FASTEST to your gums. No sticky gooey, nasty taste or feeling. Check "false color" (denture breath). Get FASTEST at any drug counter.

Find Chinese Treasures

Art Smugglers Foiled

NEW YORK (AP)—Treasury agents have smashed a nationwide art smuggling ring and seized more than \$400,000 worth of Chinese art objects brought illegally into this country from Communist China.

The investigation took agents half way around the world and to at least six cities in this country. The most valuable item recovered was an 800-year-old scroll painting of magpies and butterflies attributed to the artist, Emperor Hui Tsung of the Sung dynasty. It was valued at \$65,000.

Another smuggled scroll, the Treasury Department said Sunday

was a 12th century painting, "Birds and Flowers," sold to the Boston Museum and valued at \$25,000.

Agents said other smuggled objects were found in the Cleveland Museum and the Freer Gallery, Washington, D. C.

Deals with Red China are forbidden under the Trading with the Enemy Act. Agents said the government got onto the smuggling operation some time ago when a Treasury agent learned that a millionaire Hong Kong dealer and collector, J. D. Chen, was involved in transactions that brought ancient art objects from Red China to this country.

Tourists or immigrants from

Hong Kong brought in the objects as personal effects. Sometimes the items were concealed in luggage.

Dairy Fat Purchase to Continue Decline

WASHINGTON (AP)—The Agriculture Department says it foresees no letup next year in the decline in consumption of butter, evaporated milk and fluid cream.

Consumption of dairy fats has been going down for years, partly under the influence of dietary patterns and partly because modern food needs require fewer high-calorie items. People are doing less and less hard physical work. But increased consumption of non-fat dairy foods is expected.

Holiday Season Spurs 'Bad Check' Passers

According to J. EDGAR HOOVER, the banner season for the bad check artists is just ahead. In a warning, Hoover says:

"Armed with no more deadly a weapon than a fountain pen, a veritable plague of bad check passers stands poised to intensify their alarmingly simple robbery of merchants throughout the country. Already bliking businessmen of a reported \$500 million a year, or a staggering \$1,000 a minute, check artists will invade department stores, supermarkets, drugstores, restaurants and other establishments during the year end holiday season.

"Taking advantage of new and temporary clerks and the atmosphere of holiday gaiety, these scavengers ply an evil trade which can be curtailed only if the public and businessmen will alert themselves and join forces with members of the law enforcement profession. During fiscal year 1960, the FBI Laboratory received 33,516 fraudulent checks having a total face value of \$5,415,708. These represent but a fraction of the spurious checks passed.

"Until merchants and businessmen realistically face the bad check problem, it will continue to mushroom. On one day recently, checks were stolen in Hollywood, Calif., and on the following afternoon one was cashed in Baltimore and another in Washington.

"The fraudulent check passer is successful because of a lack of alertness on the part of prospective victims; failure of merchants and businessmen to require adequate identification; and reluctance on the part of his victims to prosecute when restitution is made.

"Law enforcement officers and the courts are too frequently bound by the chains of public apathy which prevent them from taking the necessary legal steps to punish the bad check artist. When check passers are forcefully impressed with the fact that instead of profits their nefarious deeds will net them only commensurate prison terms, then, and only then, will we see this blight on the American business world die away."

Reduced to the simplest terms, the FBI boss says to stay alert, and then prosecute vigorously. This is the only defense against the bad check scoundrel.

Peace Corps Proposal Might Aid Point Four

A proposal for a peace corps of volunteers to serve in Point Four programs, first suggested by Sen. HUMPHREY and later referred to in a speech by President-Elect KENNEDY, could have great merit.

The idea is to enroll talented and qualified men and women for service abroad. For men the enlistment would be an alternative or supplement to peacetime service in the armed forces. Older persons with certain skills and a desire to serve their country could also enroll. Knowledge of a foreign language and customs would be required and rigorous standards would be applied in all cases.

Young people taking part in the project would have unusual opportunities for further education and a better understanding of the world's people and problems. Older and retired persons could serve a year or two as engineers, doctors, farm specialists and financial and industrial

advisers, as hundreds now are doing for the United Nations.

At the University of Michigan the plan generated such enthusiasm that 750 undergraduates are reported to have volunteered as "Americans Committed to World Responsibility." The work would not be easy. Many assignments would take the volunteer to faraway and perhaps lonely places with primitive living conditions. In some areas he would be a new kind of missionary from the Western World.

While the Point Four program is doing a tremendous job, an army of trained and idealistic recruits would speed up the work in underdeveloped lands, create good will and, let us add, all at minimum cost.

The Man About Town

Indian Summer

Appears to Have a Rather Movable Time in Each Year

Loneliest thing: Billboard of a defeated candidate.

Annually about this time comes a flood of inquiries about the exact dates of our Indian summer. With a hectic presidential campaign put away, our readers now appear to turn to this question more than usual.

While no less an authority than The Old Farmer's Almanac, now in its 188th annual edition, says that Indian summer begins today (Nov. 14), the various encyclopedias play safe on the matter, and assert that it is a warm spell in the late fall or early winter, giving no specific dates. My dictionary says the same.

But the old almanac also leaves an alibi by saying, "Nothing could be dumber than a cold Indian summer," following up this period with "Rain, snow, sleet and wind; little wonder Adam shivered."

Perhaps the whole thing is best summed up in a letter from

Mrs. Blanchard McLouth

of Rochester, who wonders why we blame the Indians for it; or the phone call from Jason R. Flaxon

of Birmingham, who thinks this column is dilatory in not doing something about it.

Living up Lake Orion way,

Charles Spellman

again comes through with two crops of potatoes on the same ground in the same year. The first was planted in April and dug in July; then succeeded by a second planting which produced a fair crop.

Always keeping tab on notable anniversaries,

Jerry Mortensen,

who lives beside it, tells me that it was 30 years ago today that the contract was awarded for widening the Dixie Highway pavement to four lanes from Clarkston Forks to the Genesee County line. The cost for the ten miles was \$780,000.

Hunting birds near Marlette,

Anson Brerley

of Drayton Plains shot at a cock pheasant as it arose from some brush. Another followed, just as he fired, and he got both with one shot.

Many of us are inclined to endorse the conclusion phoned by

Mrs. Rosanna Kingfield

of Bloomfield Hills, that one of the greatest privileges of living in the U.S.A. is that we have a presidential election only every four years.

From neighboring Lapeer County comes a picture of

A. A. Misenor,

holding a 25-pound Hubbard squash, with the pithy notation, "Can you beat this in Oakland County?" Yes, we can, for

Edwin Floorson

of Waterford raised one that weighed 34 pounds.

Verbal Oracles to—

James L. Hill

of 6330 Hatchery Road; 82nd birthday.

Mrs. Ermina Fellett

of Waterford; 82nd birthday.

William G. Voller

Well, There's Always a Chance

David Lawrence Says:

John Kennedy—Unknown Quantity

WASHINGTON — All over the world people are wondering what kind of president of the United States the 34-year-old senator from Massachusetts — John F. Kennedy — is going to make.

The newspapers abroad refer to his youth as both an advantage and a disadvantage. They argue that a young man has flexibility, rather than rigidity, and that there is an inclination not to hesitate but to be bold and assertive.

There is wonder, on the other hand, how the new president will get along with the older and more experienced men in world affairs who head the governments of Great Britain, France, Italy, West Germany and the Soviet Union.

The truth is that John F. Kennedy is today a mystery to the leaders of the other countries of the world—an unknown quantity.

The comments of the European newspapers on the whole reflect also their unfamiliarity with public opinion in America. Indeed some of the so-called "liberal" newspapers are already expressing the hope that Red China will be recognized and that some of the firm positions taken by the Eisenhower administration will be abandoned.

It is natural for some Britishers to worry about keeping their colony in Hong Kong, with their big investments there, and this is perhaps one of the reasons why Britain has from the start to all parts of the world. They are in for a surprise.

What most of the editorial writers in other countries do not realize is that in the United States there is a substantial agreement on the fundamental principles of our foreign policy and that, while there may be a change in method coming and an attempt to set forth American ideals more vigorously, the end result will not be any real shift in the direction of American policies abroad.

The mere fact that the heads of governments and the newspapers overseas are in such an inquiring mood about the new presidency of the United States proves how important America is to them all. Some newspapers and officials abroad speak of America as having

Here's a query that seems to haunt me:

"For years I have had three to four or five beers a day and never felt ill effect. My husband and I fight continually over it — he insists it is wrong and says it is ruining my nerves.

"Is it morally wrong to drink beer at home? It seems to calm my nerves, as I have always been extremely nervous and have frequent spells of depression and melancholy." (Signed Mrs. M.)

The beer drinking is incidental, and so is the moral question. Any one who is extremely nervous and subject to spells of depression needs medical, perhaps psychiatric, advice.

That was all I cared to say about it in print, and the lady gave no address.

But I have worried about it — I mean, the obvious risk the lady takes when she resorts to the narcotic to dull her consciousness of her illness.

But I keep thinking how much better a doctor could understand such a case if he could see the lady and see her husband and talk with them separately and together.

In this particular instance I'd want to know how old the lady and her husband are — not their chronologic or calendar age but their anatomical and physiological age, which I could learn by looking at them, feeling pulse and skin and muscle tone.

Seeing and examining the lady, I could determine whether she is perhaps hypothyroid, with low metabolism and a tendency to feel chilly in an environment where normal persons are comfortable.

Such a subnormal state might account for the lady's shyness, for the narcotic.

If such is her trouble, an adequate daily ration of beer might make a new woman of her.

This impression, of course, is due to the costly programs on the social welfare side which Sen. Kennedy promised in his campaign speeches. The British have been reading that there was a singular lack of demagoguery in the American campaign.

Some day they will have to be told the truth—that there was considerable demagoguery, after all, and that Kennedy isn't going to carry out a good many of the promises he made to spend money for social welfare which could upend the national budget and the position of the dollar or the price of gold.

"If the confidence crisis which is now beginning to develop is not quickly stopped, it can produce the most disruptive crisis which the West has experienced since the last war."

(Copyright 1960)

Dr. William Brady Says:

Handle Alcohol With Care—It's Actually a Narcotic

Casual readers have sometimes inferred that the conductor of this column is a cold-blooded, hard-boiled, old-sou-and-so, singularly lacking in the qualities that endear a doctor to his or her patients.

Some of these readers might like it if I were to dispense a soft soap in this column, but I'm afraid most readers wouldn't.

DR. BRADY

Here's a query that seems to haunt me:

"For years I have had three to four or five beers a day and never felt ill effect. My husband and I fight continually over it — he insists it is wrong and says it is ruining my nerves.

"Is it morally wrong to drink beer at home? It seems to calm my nerves, as I have always been extremely nervous and have frequent spells of depression and melancholy." (Signed Mrs. M.)

The beer drinking is incidental, and so is the moral question. Any one who is extremely nervous and subject to spells of depression needs medical, perhaps psychiatric, advice.

That was all I cared to say about it in print, and the lady gave no address.

But I have worried about it — I mean, the obvious risk the lady takes when she resorts to the narcotic to dull her consciousness of her illness.

But I keep thinking how much better a doctor could understand such a case if he could see the lady and see her husband and talk with them separately and together.

In this particular instance I'd want to know how old the lady and her husband are — not their chronologic or calendar age but their anatomical and physiological age, which I could learn by looking at them, feeling pulse and skin and muscle tone.

Seeing and examining the lady, I could determine whether she is perhaps hypothyroid, with low metabolism and a tendency to feel chilly in an environment where normal persons are comfortable.

Such a subnormal state might account for the lady's shyness, for the narcotic.

If such is her trouble, an adequate daily ration of beer might make a new woman of her.

For information about iodine nutrition, send me a stamped, self-addressed envelope and ask for the pamphlet "The Iodine Ration." (Remember, please, this isn't medicine, it's nutrition.)

Signed letters, not more than one line or 100 words, must pertain to personal health and hygiene, not to politics, religion, or treatment. Will be answered by Dr. William Brady, if it may fit in with the column. Send to The Pontiac Press, Pontiac, Michigan. (Copyright 1960)

Case Records of a Psychologist:

Compliments Build Up Man's Ego

Edith outlines a widespread worry of girls, especially when they reach the dangerous age of 29. So study this case doubly. Then scribble it off or mail it to some girl who is being tempted to imitate stupid Esau. Your lifespan now averages 70 years, so look farther ahead than tonight's dance.

BY DR. GEORGE W. CRANE
Case G-425: Edith G., aged 29, is a private secretary.

"Dr. Crane," she began, "we have a club of Business and Professional Women.

"Several of us girls were talking about our dating problems."

"One said she had lost her steady boy friend because she refused to indulge in illicit affairs."

"So a r.e. was smart to hold out for a wedding DE. CRANE? Or is it the modern thing to indulge in 'trial marriage' beforehand?"

"At the age of 29, a lot of us girls are wondering so my group asked me to get your counsel on this problem."

HOW TO WIN MEN

Esau was so bewitched by his gastric hunger that he gave up his birthright for a mess of pottage.

That seems stupid to most modern youth, who realize that we should plan far ahead, since our lifespan now averages 70 years.

But many foolish teen-agers, and even older girls, still act like Esau as they throw everything into the gamble for a husband.

Thus, they let their escorts paw them and take unfair advan-

Voice of the People

Parent Voices Disapproval of School Magazine Drives

I strongly object to the sale of magazines in schools and the methods used to spur the children on to more sales. Special assemblies and parties are held for the children who have sold their quota and if the child does not have doing and including parents or has not sold any magazines he is "left out."

Some of our "Indignant parents" have refused to allow our children to participate in this program. Perhaps if more of us voice an opinion to our school principals and to the school board, we could get rid of this project which is thrust upon us each year at this time.

It is true the children might have to do without necessary items for the school, but as taxpayers would know that our schools and our teachers were being used as they are intended, not as a commercial vehicle for an enterprising magazine company.

Another Indignant Parent

do everything, but some ways may lead to his own destruction." This quotation may well occur to the ones who voted into the presidency of our once free country a man who displays no qualities of leadership and cannot even stand by his own decisions.

When the government stifles private enterprise—which provides your pay checks, when you are stripped of liberties guaranteed under our Constitution, you will wonder why you didn't study the history and the men a little closer and vote for a man of integrity and the courage of his convictions rather than for a man who compromised with party leaders, labor leaders and pressure groups.

Benjamin F. Kramlich

He'll Tighten Belt, Reduce Spending

Since the Democrats are in the driver's seat again, the Truman dollar of 47 cents will be devalued some more. New taxes are inevitable with the Democratic cradle-to-the-grave giveaway, socialistic platform, which will mean an additional government expenditure of \$15 billion.

Even if one wanted to work, he is allowed to earn only \$1,200 per year under Social Security. What is this with present inflationary costs and prices?

All I can do is tighten my belt and reduce my spending.

Benjamin F. Kramlich
Drayton Plains

Election Shows Gains of Democrats in South

NEW ORLEANS, La. (AP)—The 1960 election brought a Democratic resurgence in the south and left Republican success in extending recent gains, an Associated Press survey showed today.

President-Elect John F. Kennedy polled more votes in the 11 Southern states than any previous candidate.

Vice President Richard Nixon outdid all previous Republican efforts, but his percentage of the two-party vote dropped about 10 per cent from President Eisenhower's 1956 total. This compared with an eight per cent drop nationally.

A sampling of returns in several metropolitan areas showed that votes against the Democrats were often conservative rather than Republican. The implication is that a conservative third party might seriously erode the Republican's new strength.

Unofficial, nearly complete returns compiled by the Associated Press in the 11 states gave Kennedy 5,041,905 votes, or 52.3 per cent of the two-party vote, to Nixon's 4,602,186, or 47.7 per cent. The only other major party presidential candidate, had only 52.4 per cent of the Southern vote at a time when there was virtually no Republican party organization in several states of the old Confederacy.

The Democrats clearly will not approach majorities such as the late Franklin D. Roosevelt achieved in 1944. Roosevelt received 73.5 per cent of the Southern vote.

The Republicans held their five house seats in Florida, North Carolina, Texas and Virginia (2). But they ran far behind in every other contested congressional election and in every gubernatorial race, except North Carolina, where the Democrats were handicapped by a party split.

Bus Plunges Into Creek, Injuring 27 Passengers

SMITHFIELD, VA. (AP) — A Trailways bus carrying 40 service men plunged off a fog-shrouded curve into an eastern Virginia creek early today, critically injuring 27 passengers.

Twenty-seven were taken to a hospital in nearby Suffolk. Thirteen others were examined by a doctor in this community.

There were no fatalities.

The bus was southbound from Washington, D.C., to Norfolk, Va., about 50 miles away. Thirty-nine sailors and one soldier were aboard.

The bus plunged off the highway in a dense fog, missed a bridge over Lawnes Creek, went down the embankment, and overturned in the water.

Names were not available.

In a restaurant on Paris' Left Bank, the menu is chalked on a blackboard. Guests seated at a distance may read the menu by looking through opera glasses.

Just say "CHARGE IT!"

HAPPY COUPLE — Sammy Davis Jr., Negro entertainer, and Swedish actress May Britt display their marriage certificate after being wed Sunday in Davis' Hollywood Hills home. A long list of celebrities attended the Jewish rites. Singer Frank Sinatra was best man.

Pledges Attack in Laos

VIENTIANE, Laos (UPI) — Lao Premier Souvanna Phouma pledged today his government would launch an attack to recapture the royal capital of Luang Prabang. He refused to say when it would begin.

Iroquois Indians carried miniature canoes as amulets to keep from drowning.

Gable Recovering

HOLLYWOOD (UPI) — Clark Gable, 59, was reported to be continuing to improve today at Hollywood Presbyterian Hospital where the veteran actor was taken eight days ago following a heart attack.

New Jersey cropland yields more cash per acre than that of any other state.

Davis-Britt Marriage Celebrated

HOLLYWOOD (AP) — Negro performer Sammy Davis Jr. wed blonde Swedish actress May Britt Sunday—with the help of friends and celebrities ranging from the sister of President-elect Kennedy to the Duke of Bedford.

Miss Britt, a statuesque blonde from Stockholm, almost missed her wedding when a severe attack of intestinal flu with a 108-degree fever bedded her hours before the ceremony.

But she made it to the Jewish rites held under a lower of white chrysanthemums in the living room of Davis' home high above Hollywood's Sunset Strip.

"I felt a little woozy," the bride confessed, "but I was able to get through with it because of the excitement of marrying the man I love."

Later Davis said it was his 26-year-old bride who first mentioned marriage.

"She was the one who popped the question," he said.

Miss Britt, wearing a sheath champagne dress with short veil, was given away by her father, Hugo Wilkens of Stockholm. He and the bride's mother flew in specially for the ceremony.

"Sammy is a wonderful person," said the bride's father in halting English. "I'm happy my daughter has married him."

The Jewish rites—both bride and groom are converts to Judaism—were performed by Rabbi William M. Kramer of Hollywood's Temple Israel.

Frank Sinatra was best man and Mrs. George Rhodes, wife of Davis' musical manager, was matron of honor.

2 Badly Burned in Home Blaze

Couple Vainly Attempts to Extinguish the Fire in Farmington Township

A Farmington Township couple was burned seriously early yesterday when fire gutted their one-story frame home.

In William Beaumont Hospital, Royal Oak, are Joseph Petrimoux, 41, and his wife Catherine, 42. Their home is at 29287 Rockcastle St.

Mrs. Petrimoux suffered burns over 80 per cent of her body and is in critical condition. Her husband is in fair condition with burns over 40 per cent of his body.

Farmington Township police said that when the fire broke out about 4 a.m., the Petrimouxs apparently tried to put it out by themselves which resulted in the burns.

When the fire got out of hand, police said, Petrimoux ran to his mother's home a block away to call the fire department.

On arriving at the scene police found Mrs. Petrimoux collapsed on the front yard lawn.

The Petrimoux's only child was staying with relatives over the weekend. Their dog was killed in the blaze.

Damage was estimated at \$8,500 by Asst. Fire Chief Jack Curry.

U. S. Asks Mediation of Cuban Row

UNITED NATIONS, N. Y. (UPI) — The United States has asked an inter-American "good offices" committee to mediate its dispute with Cuba, it was announced here today.

Cuba so far has refused to indicate whether it would agree to accept the work of the committee, which was set up by the Hemisphere Foreign Ministers Conference in San Jose last August.

The U.S. request was made in a letter from Jose A. Mora, secretary general of the Organization of American States (OAS), to U.N. Secretary General Dag Hammarskjöld.

The United States, in making the request, accused Cuba of a "military build-up in collaboration with the Soviet bloc" which threatened peace throughout Latin America and directly violated hemisphere declarations against Communist intervention.

Mora requested the Security Council be informed of the developments—including Premier Fidel Castro's continuing silence on the U.S. move.

Sentenced to Prison for Burning Tavern

A 21-year-old Oxford man, who set fire to a tavern that he had been asked to leave after an argument, today was sentenced to Jackson Prison for a term of 1 to 3 years.

Circuit Judge William J. Beer sentenced Frederick Hannah of 20 E. Burdick St., after he pleaded guilty last month to a second count of burning of personal property.

Police said that Hannah used a pot-type street flare to set fire in September to Jim's Bar at 11 S. Washington St., Oxford. An estimated \$20,000 damage was done.

No one was hurt in the fire, but three families had to be evacuated from the upstairs apartments which were damaged by smoke.

Hannah had stood mute to first charge of arson.

Josie Has Monkey Antic Fun

HOUSTON, Tex. (AP) — Josephine, a two-year-old spider monkey, escaped her cage in a department store Sunday night and entertained window shoppers for nearly two hours.

Every time Josephine threw a potted plant to the floor, the crowd that had gathered outside laughed. Josephine tried to please. Every laugh brought more smashed pots, 45 in all.

Somebody called the store manager and police when Josephine started throwing pots at the crowd. She took one look at store manager Bill Secrest and started swinging through the store via light fixtures.

Police tried bananas for a lure, but Josephine threw them back. Finally Lois Boyer, assistant man-

ager, coaxed Josephine back into her cage with woman talk.

Secrest remarked he might lower the \$40.95 price tag on Josephine.

If You Are Under 80 You Are Not Too Old For Life Insurance

Let us tell you how you can still apply for a \$1,000 life insurance policy to help take care of final expenses without burdening your family.

Even though you are in your 50's, 60's, or 70's you likely need and want life insurance coverage just as much as anyone else.

So tear out this ad and mail it today with your name, address and year of birth to Old American Insurance Company, 4900 Oak Dept. LL121A, Kansas City 12, Mo.

Finds Balloon, Gladdens Hearts

Oakland Youth Home Gets Bicycle Because Boy Returns Card

WALLED LAKE — Because a 12-year-old Troy, N. Y., boy followed the printed directions tied to a yellow balloon found behind his house the Oakland County Youth Home is the owner today of a new bicycle.

The 10-inch balloon was released Aug. 27 by the Wallied Lake Junior Chamber of Commerce during a homecoming day.

More than 200 helium-filled balloons of assorted colors were released by the Jaycees during the three-day contest.

The balloons were released after contestants purchased them for 35 cents each and filled out a card explaining the details of the contest with their name and address.

Each card explained that the person whose name appeared on the form would receive a bicycle if their card was returned from the furthest point.

Returning the balloon and attached card from the New York city was **Dominic Letizia**.

The balloon had been sent by Mr. and Mrs. Carl L. Dyar of 1944 Bogle Drive, Wixom.

However, the Dyars have no children so they decided to donate the bike to the youth home on Cooley Lake Road.

Saturday night the couple along with officials of the Wallied Lake Jaycees presented the bike to Wesley D. Johnson, superintendent of the youth home.

Most of the balloons returned were from Canadian communities. The second-furthest point heard from was Buffalo, N. Y.

William A. Floto, president of the Wallied Lake organization, said that plans are being made to see that the Letizia boy receives a gift for returning the winning balloon.

Book Fair Will Start at Scotch School

WEST BLOOMFIELD TOWNSHIP — The kickoff of a book fair at Scotch Elementary School will be held at the 8 p.m. meeting of the school's Parent-Teacher Association tomorrow.

Mrs. Vivian Sawle, a member of the education department of Wayne State University, will speak on children's literature at the meeting. The book fair, which marks the first anniversary of the school, will be from 2 to 4 p.m. Wednesday through Friday and from 10 a.m. to noon Saturday.

Troy Schools Get OK

TROY — The State Department of Public Instruction has given approval for the Troy School District to borrow \$280,000 against anticipated state aid this year.

The money will be used for school operation during the 1960-61 school year, according to the Board of Education office.

YOUTH HOME RECEIVES BIKE—Mrs. Carl

Dyar of 1944 Bogle Drive, Wixom, presents the bicycle she won in a contest sponsored by the Wallied Lake Junior Chamber of Commerce to the superintendent of the Oakland County Youth

Home, Wesley D. Johnson (second from left). Looking on are Duane C. Bachelor (left), contest chairman, and William A. Floto, president of the Wallied Lake Jaycees.

To Speak to Troy PTA

TROY — George Ansen, field engineering manager for Chrysler Corp., will be guest speaker at

Wednesday's 8 p.m. meeting of the U. S. Department of Commerce the Johnson - Niles School Parent-Teacher Association.

Ansen, who recently represented school.

Domestic Troubles Hinted

Shotgun Blast Kills Father of 6

ARMADA TOWNSHIP — A 35-year-old father of six was shot to death in his home at 72630 Coon Creek Road here early Sunday morning.

George W. Ziemann was found dead on his bed by Romeo State Police troopers who said he had been shot in the chest with a 12-gauge shotgun.

Held in a Warren hospital in Ziemann's 31-year-old wife Dorothy, who was taken there in a hysterical condition and suffering from shock. She was found with her husband trying to revive him when police arrived on the scene.

Officers say they are unable to determine where the shooting occurred in the house because the victim apparently stumbled around

after being shot before collapsing in the bedroom.

Mrs. Ziemann has been so emotionally upset and incoherent that she has been unable to give an accurate account of what happened, police reported today.

The shooting occurred about 3 a.m. after the couple retired to bed with a neighbor following an evening spent at a nearby tavern.

A neighbor, Mrs. Beatrice Stratford of 72500 Coon Creek Road, said she left the Ziemanns, went home and started to prepare for bed when she heard a shot. Ten minutes later she reported hearing another and saw Mrs. Ziemann running from her home.

Mrs. Stratford told police that Mrs. Ziemann said, "I've shot George," when she met her. The pair then went to another neighbor's house and called the Romeo post.

Mrs. Stratford told troopers Stuart Hutchins and Robert Belaire that she and the Ziemanns had had a few beers at North Inn, but up until the time she left them they had not been fighting. She could give no reason for the slaying, police said.

No charges have been filed, and all action in the shooting is being held up pending the results of the autopsy and Mrs. Ziemann's recovery.

Congregations to Hear Lutheran Counselor

OXFORD — The Rev. Calvin Fiege, stewardship counselor of the Detroit district, will speak to members of six Lutheran congregations at 8 p.m. tomorrow in Holy Cross Lutheran Church.

Invited to hear the Rev. Mr. Fiege's discussion of stewardship are members of St. Paul and St. Trinity Lutheran churches of Pontiac, St. John Church of Rochester, Christ Lutheran Church of Hadley and St. Paul Church of Lapeer.

Oakland PTAs Plan Meeting

Will Hear School Report

The Oakland County Council of Parent-Teacher Associations will meet tomorrow at Sashabaw Elementary School, Clarkston, to hear a report on the third phase of the Michigan Schools Study.

Presenting the report will be Mrs. Charles Neidert, immediate past president of the Michigan Council of Parent-Teacher Associations, sponsors of the five-year study program.

The school dollar and its use on the local level will be explained at the 8 p.m. meeting.

Members of the organization

have been asked to bring their pamphlets on phase three to the meeting.

The Sashabaw PTA will host the meeting. Frank Radloff is program chairman.

Club Postpones Meeting

The November meeting of the Avondale Band Boosters' Club has been postponed to Dec. 13 because of a conflict in dates with the Avondale Parent-Teacher Association Council meeting and the opening of deer hunting season tomorrow.

GEE Customers Are Always Warm, Comfortable and Secure ...

Harold Mitchell of Holly Township

Wins Corn Contest With 140.8 Score

A Holly Township farmer grew 140.8 bushels per acre of Michigan corn to win the Southeastern Michigan Corn Contest, it was announced today by Jay Poffenberger, Oakland County extension agent. The winner is Harold Mitchell of 10542 McWain Road, Holly Township, winner of the Southeastern Michigan Corn Contest. Mitchell grew 140.8 bushels of corn per acre to win the trophy in competition with growers from Oakland, Lapeer, Macomb and St. Clair counties.

CORN CONTEST CHAMP — Shown here with his wife is Harold Mitchell of 10542 McWain Road, Holly Township, winner of the Southeastern Michigan Corn Contest. Mitchell grew 140.8 bushels of corn per acre to win the trophy in competition with growers from Oakland, Lapeer, Macomb and St. Clair counties.

ACE Dinner Thursday

Education Group to Meet

The first Association for Childhood Education dinner meeting for the 1960-61 season will be Thursday at Kimball High School in Royal Oak.

Following the 6:15 p.m. dinner hour, Dr. F. C. Rosencrance, dean

Youth-Aid Group Names Officers for Fiscal Year

KEEGO HARBOR — Officers of the Keego Harbor Child and Family Protection-Youth Assistance Group have been named for the fiscal year.

They are Milton Parry, chairman; Edward Covey, vice chairman; Vernon Bradburn, recording secretary; Mrs. Jack Friedman, corresponding secretary; and Doris Jones, treasurer.

The group will visit Juvenile Court and the Oakland County Children's Home tomorrow.

Mortgage Rate Drop Not Seen

Bankers' Group Claims Figures Haven't Claimed So Normal in Years

CHICAGO (UPI) — Prospective home buyers who are hoping that mortgage interest rates will soon be lowered may be in for a long wait.

The Mortgage Bankers Association of America says it sees virtually no change coming in rates either this year or in 1961.

Mortgage rates have a certain look of normalcy they haven't had in 15 years, the group said. Compared with other periods of the past, they are still very low, the association added.

What leads to confusion in the minds of prospective buyers is a comparison of today's rates with those of the previous 10 years.

The financial economy was operating under abnormally easy money conditions then, which permitted rates at "phenomenally low levels as compared with today," the association said.

Present rates, according to the group, are more normal than in some two decades. While rates vary from one area to another, a 6 per cent loan is the most common. It is lower in some sections and higher in others.

The association has this recommendation for prospective home owners, which it said is the principal thing to remember in buying a home:

"Make as large a down payment as possible. It's the best investment you can make. The sooner you can own your home free and clear, and the less you will pay each month to attain that objective."

As for deferring the purchase because of the possibility of a sharp drop in financing costs, the group repeated that the hope "is not economically justified."

Women were first admitted to Democratic primaries in Arkansas in 1918.

KAREN KAYE LONDON

Mr. and Mrs. Marshall K. London of 6255 Shippie Road, Independence Township, announce the engagement of their daughter Karen Kaye to Dean A. Converse, son of Mr. and Mrs. Ralph E. Converse of 2435 N. Harrison Road, Avon Township. A Dec. 12 wedding is planned.

GOLDEN ANNIVERSARY — An open house will be held from 2 to 4 p.m. Sunday to honor Mr. and Mrs. R. Henry Wallace of 6058 Pine Knob Road, Independence Township, whose 50th wedding anniversary is Nov. 23. The golden anniversary celebration is to be at the home of their daughter Mrs. William J. Summers of 1565 N. Stirling Ave., Pontiac Township.

Fortunate Investment Brings Quick Return

DELAWARE, Calif. — Bill Dunham, the food-and-drink man at the Del Mar Turf Club, made an exception and advanced \$50 in wages to a pantryman with a \$700 hospital bill and impending car foreclosure.

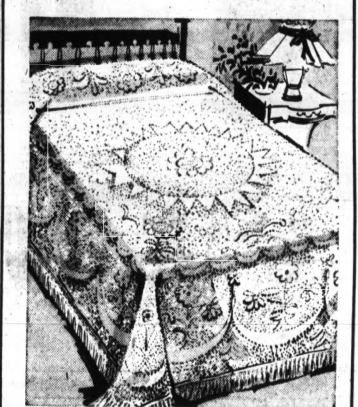

The next day, the pantryman brought him a \$2 daily double ticket worth \$1,600. Dunham wrote checks for him to pay off the hospital, the used car and his own \$50.

32ND DEGREE MASONS — Three Pontiac men received the 32nd degree of Scottish Rite Freemasonry in Detroit's Masonic Temple. Homer L. Smith, Wayne M. Brown, and Robert H. Lorenz were in the class of more than 200 Ma-

sons who received the degree during the 28th Reunion of the Valley of Detroit. Smith and Brown (from left) are shown here with E. B. Montgomery, orator of the Detroit Consistory of Scottish Rite.

Miscellaneous Accidents Take Six More Lives

Nine Are Killed on Michigan Highways

By The Associated Press
Two accidents which killed five persons pushed Michigan's weekend traffic death toll to at least nine. Miscellaneous accidents killed six more. The toll, however, was consid-

erably lower than in previous weeks. The Associated Press count started at 6 p.m. Friday and ended at midnight Sunday. A two-car collision in Harper Woods Sunday killed three persons. They were Adams Hainey,

75, and his wife Bertha, 68, of Detroit, and Lawrence Coats, 17, of Grosse Pointe Woods. William Johnson, 47, and Ronald Frisbie, 11, both of Belding, died Sunday when their car collided with a train at a grade crossing just north of Greenville.

Ex-Pontiac Resident Cited by Magazine

A former Pontiac resident has been cited by Wave Guide, official publication of the Dayton Section, Institute of Radio Engineers, for outstanding work in meteorology and science.

He is Wilson A. Maxim, son of Mr. and Mrs. Athanas Maxim, 337 E. Beverly Ave.

Winner of the Arthur J. Fleming Award in 1958 as one of 19 outstanding men in the government, he received a citation which said:

"It was Maxim's professional ability and foresight, plus his dedication in the field of aviation, aerodynamics and science of meteorology that enabled him to plan and execute a very comprehensive research instrumentation program."

Also winner of The U. S. Air Force civilian meritorious service award, Maxim was recognized for his distinguishing himself through

meritorious service displayed in connection with two classified, high priority reconnaissance instrumentation programs.

He earned, the magazine notes, the title of "Mr. Weather Recon."

After graduating from Pontiac schools, Maxim's first job was with Pontiac Motor Division. He was an engineering aide in the design engineering of aerial torpedoes for the U. S. Navy. At this time, Pontiac Motor was in the process of changing the Navy's design of the aerial torpedo, reducing its great number of manufactured parts and assemblies, thus resulting in a simpler and less costly torpedo for mass production techniques.

SCHOOL YEARS

In 1940 he entered the engineering college of the University of Detroit, and after three and a half years, he was called into the Army Air Corps as an aviation cadet.

He later entered the University of Chicago, weather officer training course, finishing in 1944, then completed an extensive course at Harvard University and Massachusetts Institute of Technology in radar and electronics training.

He is presently working in the Advanced Systems Planning Office, Directorate of Advanced Systems Technology at Wright-Patterson AFB at Dayton.

Maxim is married and the father of four children.

Assembly-Line Monkey Power Is for Birds

HOUSTON, Tex. (UPI)—The experiment with three chimpanzees working at a furniture factory in checked coveralls and water-proof pants proved that "monkey power" is for the birds and man still has more to fear from machines than the zoo.

But Ben Friedman, 35, manager at the Superior Furniture Manufacturing Co., who put the chimps to work on a production line, said he still thinks the chimps are an answer to increased labor in some nonskill jobs. He plans to have them back for another crack, at it this week.

The chimpanzees—candy, Fudge and Bobby—worked for about 90 minutes Friday before Mamie King, owner and trainer, took them home. He said the 50 newsmen and photographers present made them nervous, and they couldn't do their best.

There was an international interest in Friedman's experiment. Some shared in his contention that it was all in the interest of science, but others thought it was just a lot of monkey business.

Through New Orleans, at the Mississippi River's southern gateway, moves foreign water-borne commerce that is second in value only to that handled by the port of New York.

Life Is Grim, but They Bear It Patiently

Bulgarians Shrug, Plod Onward

By EDWARD ESMERIAN
SOFIA, Bulgaria (U)—"Life isn't too difficult—in fact it's getting better and better," said an elderly man in Sofia who once lived three years in France.

A small town hydraulic technician saw things differently.

"You can't express yourself freely in cafes. There are fewer political prisoners. It is true; that's because people have learned to shut up. If there were a referendum, no more than 2 per cent of the people would approve the regime."

He and his wife had studied seven years in France.

"We know what freedom is, but the others?" he shrugged.

On the road to Sofia there are indications that the collective farm

program has not completely stamped out the small peasantry. Here and there, amid vast collective fields, are small patches of corn or small orchards with corn planted better shelter among the trees.

Occasionally one sees a peasant cottage with chickens in the yard, or shepherds driving a down sheep or so.

Stranger than the collective farms is the compulsory hand-washing ritual. On a lonely country road some 20 miles out of Sofia, a militiaman stops all vehicles, ordering the occupants to wash their hands. Several basins of muddy water are lined up on a bench at the side of the road.

Some workmen in a truck had

just finished performing this curious ritual and all were laughing as we set to do the same. One of them said the basins were filled with disinfectant. The militiaman didn't seem to take it too seriously either, but he was nonetheless insistent.

All along Bulgarian roads one finds signboards showing the tons of steel produced or the number of pigs raised in 1959 and the quotas for 1960.

One also sees rows of two-story brick houses, all identical, being built to replace hovel.

ROADS ARE BAD

The main roads are usually of asphalt, but often abruptly become dirt tracks, bumpy and potholed, strewn with boulders. The traffic

is mostly trucks. The relatively few cars are mostly of Russian manufacture.

A Russian Volga sells for the equivalent of \$4,200.

While civilians seem eager to talk with foreigners, the army is distrustful of visitors. One young frontier guard said, when asked how long his military service lasted, "I can't tell you. It's a secret."

Lottery ticket vendors are numerous.

There are few shops in Sofia, considering the size of the city. One big department store displays a small radio costing 530 leva (\$76, at 6.8 leva to the dollar). This represents nearly a month's pay for the average worker.

Lightweight men's suits also were selling for about a month's pay. A plain rayon dress sold for a week's wages. Men's shoes cost the equivalent of 4½ to 12 days' pay.

The elderly man suggested that consumer goods and agricultural products were being sacrificed to speed up the country's heavy industry production.

"The industrialization program is going well, almost too well," he said, stretching his arms in helplessness. "But you must remember there are economies everywhere: Turkey, Greece (Bulgaria's neighbors), they don't like us, it seems. The governments, that is, not the people."

Stopping in villages, a foreign visitor will be surrounded by crowds of onlookers, children for the most part. Some will try to start a conversation in whatever foreign words they know.

That is how the hydraulic expert introduced himself.

"Here we always speak of peace," he said, "but people are waiting for the next war, thinking it will set everything right. They believe the country that thinks it self the strongest will start it, but that Russia will lose."

"We work like cattle here," he said bitterly. "and earn nothing. Farther north in some farm cooperatives the workers only earn two or three leva (29 to 45 cents) a day. Those who can, escape to the cities to work in factories."

"But it's illegal to change like that. If one of my children fled abroad, my wife and I would probably go to prison."

"Many cooperatives are run by just women. If both husband and wife worked there, they could not make ends meet."

Cuba Tries Canada for Vital Spare Parts

HAVANA (UPI)—Cuba has launched an all-out campaign to get Canada to supply the country with the vital needs of the industrial machine confiscated from U.S. interests.

Albert A. Shea, director of the "Trade Institute of the Americas," Toronto, said Friday Cuba is ready to pay Canada in cash for "immediate necessities" such as spare parts, trucks, automobiles and agricultural machinery.

Such supplies would enable the Fidel Castro regime to keep in motion the estimated \$400 million in oil refineries, sugar mills, and lands seized from American investors earlier this year.

AP Photos

KE AIDE RESIGNS — The resignation of George V. Allen as director of the U. S. Information Agency was announced Friday. Allen, a veteran of high diplomatic posts, will become president of the Tobacco Institute Dec. 1.

Oliver Hardy's Widow Weds Industrialist Price

LAS VEGAS, Nev. (AP)—Film comedian Oliver Hardy's widow married Cleveland industrialist Ben A. Price Friday night.

Lucille Hardy, 45, was married by a justice of the peace to Price, 51, an owner of the Winston Manufacturing Co., an electronics firm.

Hardy died in 1957. Mrs. Hardy had been in the real estate business in North Hollywood, Calif.

Poor Swainson! No Desk Chair for the Governor

LANSING (UPI)—Governor. Elect John R. Swainson may have to bring his own chair when he takes over in Michigan's executive office next January.

Outgoing Gov. G. Mennen Williams has two, but they're both his personal property.

Williams' two chairs will probably go with him when he leaves office, Swainson tried one — a sturdy wooden chair — and said it was too hard anyway. The present lieutenant governor liked the other — a deep leather swivel chair.

Traditionally, the state buys a new office chair for each new governor.

A spokesman said Williams had never received a state chair as if Swainson collects for both governors, he might become a two-chair man also.

Ford Will Lay Off 450 at Ohio Plants, Foundry

CLEVELAND (U)—The Ford Motor Co. has announced it is laying off 450 employees at its engine plants and foundry in suburban Brook Park.

A spokesman said the layoffs were caused by scheduled adjustments following the introduction of new models last month. The plants now will have a total employment of 9,550 including 7,200 production workers.

Car Invades Airport; Damage—\$40,000

DETROIT (UPI)—Thomas Bezel, 24, was arrested early today after he drove his car into City Airport and crashed into two airplanes, causing an estimated \$40,000 damage.

Police said he had been drinking. Bezel's car first slammed into a single-engine Cessna, badly damaging it, then backed up and plowed into a Piper Comanche. The owners of both planes were in Detroit for a convention of soft-drink bottlers.

SAVED HER AUNT — Two-year-old Ronda Pitts, who told a telephone operator, "My aunt is having a stroke," and then hung up, holds a phone in her Madison, N. J., home. Her call saved 42-year-old Miss Helen Day from serious stroke complications Friday, police said. Ronda, who often dials numbers for her parents, was alone with Miss Day when the aunt suffered the stroke. The operator traced the call and notified police.

Says Dems Stole Illinois for Jack

Chicago GOP Chairman Claims 100,000 Votes Were Fraudulent

CHICAGO (AP)—Francis X. Connell, Republican party chairman in Cook County (Chicago), says the Chicago Democratic machine stole Illinois' 27 electoral votes for Sen. John F. Kennedy in the Nov. 8 election. At least 100,000 fraudulent votes were counted in 14 Chicago wards, all Democratic strongholds, giving Kennedy a thin edge over Vice President Richard M. Nixon, Connell said Sunday.

Kennedy beat Nixon by 3,495 votes in Illinois. Connell said pluralities in the 14 wards for Kennedy and Daniel P. Ward, successful candidate for state's attorney, were incredible. Benjamin Adamowski, Republican beaten in his attempt for reelection as state's attorney, has said he will file petitions today for an investigation of certain precincts as a preliminary to a recount. Ward beat Adamowski by a little more than 25,000 votes.

He Was Careful, but Not Quite Careful Enough

Ernest D. McCardle, 64 W. Tenneyson Ave., took precautions to safeguard his money — but not enough, he told Pontiac police this weekend.

McCardle told officers he placed a billfold containing \$190 under a rubber floor mat of his car early Saturday when he parked at a restaurant at South Saginaw and Jackson streets.

Fifteen minutes later he came out and peeked under the mat. The money was gone, along with a jacket and lunch box. He sheepishly admitted to police that he'd apparently forgot to lock all the car doors.

Morse Against Chiang

WASHINGTON (UPI) — Sen. Wayne Morse, D-Ore., says that this country would not support Chiang Kai-shek in any threat to make war in Asia.

Mexico celebrates 43rd independence days each year — Sept. 15 and 16 and Nov. 20.

Two Seriously Hurt in Light Plane Crash

LAKEVIEW (UPI) — Two men were seriously injured Sunday when their light two-place plane plummeted nose-first into the woods of Morton Township in Macomb County.

Darrel Snyder, 22, Blanchard, and John May, 20, Remus, were both unconscious when two hunters, Orville Bowby and Charles Raymond, both of Six Lakes, found them in the plane. There were no witnesses to the crash.

Patrick Henry delivered his "Give me liberty or give me death" speech in St. John's Church in Richmond, Va.

Urges Scholarships

WASHINGTON (UPI) — Dr. Bruce A. Linton, chairman of the University of Kansas radio-TV film department, today urged the broadcasters to offer scholarships and summer jobs to encourage talented youths to enter the industry.

Hope to Work Through Tunisia

Reds Take Aim at Algeria

By PIERRE J. HUSS
UNITED NATIONS, N.Y.—Those at the United Nations who know Soviet mentality predicted that Premier Khrushchev, in consequence of his failure to gain control of the Congo next would turn full attention to Algeria as the most vulnerable spot of the western alliance.

Events seem to bear out this prediction, and it is currently borne out in the report that Communist aid for the Algerians will be accepted in Tunisia.

There is even some talk that aside from Soviet and Chinese Communist arms to the Algerian rebels posted in Tunisia, there may be large units of "volunteers" to fight the French.

President Habib Bourguiba of Tunisia, along with others, has ex-

pressed the view that where Red China is seeking to get a foothold in far-away areas to demonstrate its new world power, Soviet aid to the Algerian rebels may turn up in his country for a different reason.

They believe Moscow is chiefly interested in Algeria as a means of putting pressure on the West to extract concessions on the Berlin question.

But qualified observers say that neither Red China nor Russia intends to get involved in a global war over the issue of Algeria, and the activities of the two Communist powers from Tunisian bases will be circumspect.

Thus it is reported that arms and technicians for the rebels will soon arrive in ships of small satellite nations, so that if French naval

vessels seize any on the high seas it will not confront Moscow or Peking with an incident of major importance.

COULD LOOSE TRADE

Such a seizure, on the other hand, would give Moscow and Peking the opportunity to turn loose a torrent of anti-French propaganda and enable both to pose once again as the champions of the small and defenseless nations. They could even engineer an accusation of France before the U.N. Security Council.

President Bourguiba is said to have communicated at length on this new political shift in Tunisia with President Eisenhower, explaining that Tunisia may have to serve as a host to Communists who come to aid Algerians and may thus be led to change her

pro-Western policy to suit the prevailing circumstances.

In foreshadowing the trend of events in a recent statement, President Bourguiba did not overlook the risks his country may have to face in accepting the intrusion of Soviet and Chinese Communist elements.

But he insisted that the freeing of Algeria as well as African areas from the last vestiges of colonialism must come first, and that if the Western powers refuse their help, the opposing red bloc is certain to jump in as the glorified liberators.

Fish Merchant's Smell Worth \$4,040 — Court

LONDON (AP)—The High Court of England Friday fixed the value of Bowler Trippier's sense of smell at 1,443 pounds — \$4,040. Trippier, a fish merchant, claimed he lost his sense of smell when he was knocked down by a motorcycle and now he can't tell whether the fish are fresh or not.

Cabinet Secretary to Review Defense

WASHINGTON (UPI)—Defense Secretary Thomas S. Gates Jr. has summoned U.S. worldwide military commanders to a review of their targets for retaliatory action in the event of an attack on this country.

Gates said the meeting at Offutt Air Force Base, Omaha, Neb., Dec. 12, would be "another in a continuing series" between the Joint Chiefs of Staff, the secretaries of the military departments and top military commanders.

Goes Over the Hump

LANCASTER, Ohio (AP)—Walter A. Humphrey, 79, who lives north of nearby Pickerington, has stationery with his name printed in the shape of a camel. He figures that if you think of a camel, you think of a hump, and if you think of a hump, it's easy to recall the name Humphrey.

5 men look at life insurance

How the unique advantages bring peace of mind at the stroke of a pen

1 the young husband

can immediately guarantee his family an amount of money, through life insurance, far greater than he could possibly save in many years.

2 the home owner

knows that, with enough life insurance, he can make certain his family will never be left with an unpaid mortgage.

3 the father

can use life insurance to help provide college expenses for his children, thus making sure his youngsters will have a complete education.

4 the mature businessman

can make decisions and accept more opportunities with more confidence, knowing in advance the exact amount of money which will be available at any given time.

5 the retired man

finds that his later years are happier because life insurance guarantees a steady income for him and his wife which will last for both their lifetimes.

The extent of a life insurance program should depend upon your family's present situation and also your plans for the future. That's why a wise family head measures his life insurance protection against his needs every year. Your life insurance agent will be glad to help you get the most from the unique advantages of life insurance.

Institute of Life Insurance
488 MADISON AVENUE, NEW YORK 22, N. Y.

When someone's counting on you...
you can count on life insurance

YOUTH APPRECIATION WEEK

Let's look at some facts about the youth of today...

Stop and think for a moment how many teenagers there must be on the North American continent. Did you know though, that out of the millions of youngsters that surround us, only 5% actually came in contact with the law? Not too many of us would condemn an entire adult profession because a small percent of its members failed to live up to society's goals. Why, then, accuse 95% of the younger generation when so comparatively few of them go astray?

How about giving our youth a rousing send off during YOUTH APPRECIATION WEEK.

Labor Trouble at Cobo Hall

Convention Exhibitors Charge Excess Costs in Setting Up Displays

DETROIT — Charles of excessive labor costs echoed about Detroit's giant new Cobo Hall again today.

Members of the American Bottlers of Carbonated Beverages, scheduled to open their convention today, leveled the charges of excessive costs and union feather-beding in setting up exhibits. It was the third such charge in less than a year in the new building.

John N. Reynolds, vice president of the White Rock Corp., at Brooklyn, N.Y., said "I'm never coming back again to Cobo Hall. The labor problem here is ridiculous."

"I have to pay men to set up my display, and they have no idea what I want," he charged.

Reynolds said it will cost him \$64.50 to have two wires run into electrical outlets.

Jack Daniell, a packaging company exhibitor, said, "I had to pay carpenters \$11 an hour at Sunday rates just to stack bottles at my display."

Union officials had no immediate comment.

The Arkansas state flag has 25 stars — four in a diamond and 21 along the border.

Hasn't Worked Well Since George Washington's Time

Electoral College Plan a Failure for Years

By JOHN BECKLER
WASHINGTON (AP)—It seemed like a good idea back in 1788 to have the president of the United States chosen by an electoral college.

The idea was to have the best people in each state get together and pick the best man in the country to run things. It worked fine as long as George Washington was around.

Washington won the unanimous vote of the electors in 1789 and 1792, but never again did the system work the way it was supposed to. The grit of politics got in the gears.

Once the people began to have a say as to who were the best men in each state and rival parties started pushing rival candidates, the whole idea of a genteel aristocracy tapping one of its members as president collapsed.

But despite its failure and the repeated attacks on it, the system is still with us and the antiquated machinery will have to be cranked up on Dec. 19 to make the election of John F. Kennedy official.

WILL CONFIRM ACTION

On that day the electors will meet in their respective states and confirm what the voters did last Tuesday. Each state gets as many votes as it has members in Congress.

Originally the electors in most

states were chosen by their state legislatures but now they are picked by party leaders in each state (although Alabama picked a primary). This date of electors is what the voters choose, not a presidential candidate.

The vote is recorded in the candidate's name, however, and as the system has evolved, the electors' votes in almost all cases belong to him.

Local Masons Club Reveals Officers

Clyde G. Townsend has been elected president of the newly organized Oakland Scottish Rite Masons Club in Pontiac.

Other new officers are Floyd J. Temple, first vice president; R. J. Stanton, second vice president; Sydney Ayres, third vice president; and Harry Griffin, secretary.

Also, Roy Wilson, treasurer; William C. Phahert, chaplain; and Charles H. Crawford, Jack Riley and David Wiley, directors.

Monthly meetings are held in the Masonic Temple on State Street.

Fourteen unpledged electors in Alabama and Mississippi will be free to vote for anybody they want on Dec. 19, but their votes can't change the result as it now stands.

Considering the potential for trouble in adhering to such a system it is remarkable that only four elections in the nation's history have been snagged in it.

In 1800 Thomas Jefferson organized his followers so well every one of his electors named him and Sen. Aaron Burr of New York. The plan was for Burr to be vice president, but the Constitution merely says the top man becomes president and the runnerup vice president.

SPLIT BROUGHT TIE

The less well-organized opposi-

tion split its votes so Jefferson and Burr tied for first. The House of Representatives had to untangle the snarl and chose Jefferson, who promptly put through a constitutional amendment calling for separate ballots for president and vice president.

In 1824 Andrew Jackson topped four other candidates but fell short of an electoral majority. One of the candidates was Speaker of the House Henry Clay. When the House was called on to act again Clay threw his support to John Quincy Adams, who became president. Clay became his secretary of state.

In 1858, Grover Cleveland won a majority of the popular vote, but lost on electoral votes (233 to 188) to Benjamin Harrison. Cleve-

land got even in 1892 when he beat Harrison to win a second—and non-consecutive — term as president.

WORST MESS IN 1876

But the worst mess was in 1876 when Democrat Samuel B. Tilden won the popular vote but fell one vote short of an electoral majority due to conflicting electoral counts in three Southern states. The House was Democratic that year and the Senate Republican.

Neither would let the other act. Finally a commission of five senators, five representatives and five Supreme Court justices voted on the rival claims and by an 8-7 vote awarded all the disputed votes to the Republican candidate, Rutherford B. Hayes. He was named president just two days before Inauguration Day.

The surrender of Gen. Kirby ended fighting of the Civil War in Smith on May 26, 1865, officially Arkansas.

Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special) — One of the most common afflictions is a condition known as "itching piles". It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results — here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids — without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another "very striking improvement" was reported and verified by doctors' observations. This improvement was maintained in cases where doctors' observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne®) — discovery of a world-famous research institution. This substance is now obtainable in eminentorepository form known as Preparation H®. Ask for Preparation H suppositories (convenient to carry if away from home) or Preparation H ointment with special applicator. Absolute satisfaction guaranteed or money refunded.

HORSEPOWER THAT MAKES SENSE
FOUR CYLINDERS TO SAVE GAS!
THE NEW SWEET RUNNING
TROPHY 4 ENGINE
FROM PONTIAC PERFORMANCE SPECIALISTS!

It's primed to scoot on less gas! Five hot versions of the Trophy 4. Hits 110, 120 h.p. with stick shift. Puts out 130, 140, 155 h.p. with extra-cost automatic. Every one of these inclined, short stroke, 4 cylinder engines will *move out in a hurry* . . . sail up a steep hill in high gear . . . packs the power for quicker, safer passing. (Also available: a 155 h.p. aluminum V-8.) *A choice of two rear transmissions!* Standard stick shift synchromesh. Optional automatic with special feature—in high gear 40% of the drive is straight mechanical—60% is through the torque converter. No slip. Top efficiency.

PERFECT ▲ BALANCE

The rear axle drive and transmission are a single assembly. Engine torque is delivered to this trans-axle by a flexible drive shaft. No sudden jerks or rough shifts. Flat! Quiet! *Tempest rides like the big ones!* Less weight in front. Steering is a breeze—even at slow speeds. Added ballast in the rear. The Tempest churns through sand, mud and snow when the others are spinning their wheels. **4 wheel independent suspension!** Each wheel has an independent coil spring. Swing axle in the rear soaks up road shocks at the tire! **112" wheelbase.** Passengers sit between the wheels—not over them. Short enough to maneuver like a sports car. **Big 15" wheels.** Most other compacts have small 13" wheels. Big wheels and tires look better and last longer. **Seats six men.** No big transmission hump. Seats are 58½" wide—almost five feet. **Wide-Track, too.** Tempest wheels are set apart farther than the wheels of the other new-size cars. Gives a solid stance. Secure cornering. *Your Pontiac dealer is the man to see!* There's a four-door sedan and a station wagon. Prices come mighty close—or even beat—the tags on the compacts. If you're figuring on a new car—figure on a Tempest by Pontiac.

Fashion Show-Luncheon for St. Hugo

Plan Benefit for School, Chapel

Members of St. Hugo of the Hills Altar Guild preparing for their fashion show Wednesday at Birmingham Country Club make final arrangements for the big event. Models from left are two-year-old Claudia Coljels, Mrs. Albert K. Bergel, Mrs. George

A. Stedman and Mrs. Richard E. Coljels, all of Bloomfield Hills and Mrs. David E. Comeau of Bedford Road.

In the mode with her fur hat is model Mrs. Arthur Chauvin (at right) of Highwood Boulevard. Guild members who also will model approve her ensemble. They are (from left) Mrs. Russell J. Boushell, Mrs.

Wesley Carbury and Mrs. John Scolaro, all of Bloomfield Hills. The luncheon-fashion show benefits St. Hugo's School and chapel.

A luncheon-fashion show Wednesday at Birmingham Country Club will be sponsored by St. Hugo of the Hills Altar Guild. The one money-raising event of the year, it will benefit the school and chapel.

Chairmen for the event are Mrs. George Morris Jr. and Mrs. Anthony Anzick.

Mrs. James Kemp is prize chairman and Philip Skillman, pianist.

Modeling clothes under the direction of coordinator Mrs. David E. Comeau will be Mrs. Richard Teranes, Mrs. Albert K. Bergel, Mrs. Russell J. Boushell, Mrs. Richard E. Coljels, Mrs. Arthur Chauvin, Mrs. George Stedman, Mrs. John Scolaro and Mrs. Edwin J. Dobski.

Committee members working on the project are Mrs. James P. Tomlinson, Mrs. James Kemp, Mrs. Comeau and Mrs. Austin Sansone.

Education Surveyed by BPW

Mrs. Edmund L. Windeler opened her home on Hatchery Road, Waterford Township, Thursday evening to members of the Waterford-Clarkston Business and Professional Women's Club.

The hostess was assisted by Mrs. Edna Rosegar, Vivian O'Rourke and Mrs. H. C. Timney.

Florence Schlosser gave a resume of the adult education series at Michigan State University, Oakland, concerning inflation, women in the changing community and safety and preservation.

Under official national legislation program ballot, the group voted to support the advancement of the position of women, uniform jury service, equal pay, equal education opportunities, uniform retirement age and equal pension rights for both sexes.

Support for greater effectiveness of the United Nations and equitable tax adjustments also was registered.

Slate Lecture at Cranbrook

The Rev. Bertram White, diocesan steward, will lecture on "Christian Stewardship and Parish Witness" at the 10:30 a.m. Tuesday meeting of the Episcopal Churchwomen of Christ Church Cranbrook.

A general business meeting will follow the 12:15 luncheon. The nursery will be open and luncheon reservations may be made by calling the church office before 11 a.m.

Susan Wainscott Weds James L. Stevenson

Dr. Milton H. Bank officiated at the marriage of Susan Jane Wainscott to James L. Stevenson Saturday evening in Central Methodist Church.

The Russell Wainscotts of Tilmor Avenue, Waterford Township, were hosts at the church reception following their daughter's nuptials. The James H. Stevensons of West Tennyson Avenue, parents of the bridegroom, joined them, greeting some 200 guests.

Fashioned of traditional white satin, the bride gown featured a fitted bodice and long sleeves of imported French lace, repeated in medallions on the ballerina-length skirt. A crystal necklace, gift of the bridegroom, accented the round neckline.

Elbow-length veiling of pure silk illusion, caught by a crystal clip and a cascade of white carnations completed the bride's ensemble.

Maid of honor, Gail Graham of Drayton Plains, wearing melon-shade silk organza over paisley pebble crepe, with matching gloves and headpiece, carried carnations repeating the motif of her dress.

Brenda Stevenson, sister of the bridegroom, appeared in toast - shade organza with matching accessories and flowers.

Donald Marino was best man and Boyd Ferguson, groomsmen. Seating guests were the bride's cousins Jack and Thomas Marsh of Frankfort, Ind., and the bridegroom's cousin, Larry McCarty.

Leaving for a Northern Michigan honeymoon, the new Mrs.

In Our Junior High Schools

Too Much Social Activity

By RUTH MILLETT
Dr. James B. Conant, former president of Harvard University who has recently completed a detailed study of junior high schools, warns against junior highs being treated as "miniature senior high schools."

That is a caution worthy of attention by school boards, junior high principals and junior high Parent-Teacher Associations.

Socially, at least, most junior highs are aping senior high schools. In many communities the year that 12-year-olds enter junior high is the year when their social life begins in earnest.

The junior highs give dances, elect most popular students, choose queens of this and that and make heroes of their star football players.

With junior high the rat race to be "popular" begins and children just reaching adolescence start to think that being elected

cheerleader or making the football team or being named class favorite is more important, by far, than making good grades.

A teacher recently told me that by the time junior high students are ready for high school their social groups are already set, and that children who aren't "leaders" in junior high hardly have a chance of becoming leaders in high school.

She also mentioned that steady dating now starts in junior high—not in high school.

All that, it seems could be avoided if parents and educators would get together and agree to make junior highs what they were intended to be, a gradual transition between elementary school and high school.

As it is now in many communities, going from the grades into junior high is a giant leap from the natural ways of childhood to the teen-age world.

Prof. John Galloway (right), head of MSU's art department, presents one of his abstract paintings to Chancellor D. B. Varner. The presentation was a highlight of a tea Sunday which

closed an exhibition in the student center of Dr. Galloway's work. The exhibit now goes to New York State's newest liberal arts college, Harpur.

Square Dance Club to Learn New Steps

The Wagon Wheelers Square Dance Club will meet Thursday evening from 8 to 10:30 p.m. at the Community Activities Building in Waterford.

The new round dance of the month, "Lady, Be Good," will be taught by the club's caller, Mel Sheffer, with Mrs. Sheffer assisting. "Shake The Dice," the latest step release, will also be taught.

Hosts for the evening will be the Marshall Hudsons of Drayton Plains.

Campus News

Winner of the first annual Louise Francis Memorial Music Scholarship is Central Michigan University student Beverly Wells.

A freshman music major from Pontiac, Miss Wells is the daughter of Mr. and Mrs. Garland E. Wells of Ramona Ter, Waterford Township.

The scholarship, in memory of Mrs. Francis, will be given annually to a freshman piano student who plans to teach public school music. It covers full tuition and fees for two semesters, plus piano lesson and practice room fees.

Ring day and investiture ceremonies will highlight the Thanksgiving week for two local girls attending Madonna College, Livonia.

Patricia Gault, daughter of the Francis Gaults of Littlefield Street, West Bloomfield Township, will receive the college ring, symbol of loyalty to Madonna on Nov. 22. The ceremony will be part of the traditional holiday dinner.

Among the 76 freshmen to receive Madonna's collegiate cap and gown next Sunday will be Winifred Borst, daughter of the Henry Borsts of Snow Apple Drive, Clarkston.

December vows are planned by Elizabeth Gale Meyer, daughter of the William D. Meyers of Milford and Glenn F. Hartman, son of the Vern R. Hartmans of Starr Avenue. The bride-elect attends Michigan State University Oakland and her fiancé is an alumnus of MSU.

ELIZABETH GALE MEYER

Viernes in 1st Dance of Season

The Viernes Dancing Club opened its season with a dinner-dance Friday at the Orchard Lake Country Club.

Officers of the club for 1960-61 are Dr. Lynn D. Allen Jr., president; Franklin Oosterhof, vice president; Mrs. Cecil McCallum, secretary; and Mrs. Howard O. Powers, treasurer.

Directors are Hugh Hales, William A. Fox, Morgan E. Spile Jr. and John F. Blamy.

A feature of the evening was the initiation of members by the social committee, headed by Mr. and Mrs. Harold N. Lepisto. Assisting them were Dr. and Mrs. Robert Kimmins, the Donald Raymonds, Dr. and Mrs. John D. Schmitt, Dr. and Mrs. William Janacek and the Harrison Hansons.

Included in the new membership roster are the James Claarsons, the James M. Kinneys, the Robert J. Mohlbergs, the Reginald Ripplingers, Mr. and Mrs. Ward Ross, Mr. and Mrs. Ray Slaughter, the Kenneth W. Sprungs and the Donald J. Wilsons.

Find Your Hemline

(NEA)—Hemlines are tricky things. They depend a great deal on each individual's body proportions. Find the one that's right for you.

Abbie Advises Grandma:

No Informers Wanted

DEAR ABBY: Should brothers and sisters tell their parents when one of the other does something wrong? Is this being a "tattle-tale" or is it the duty of a child to report wrong-doing to his parents?

Should parents ask or expect their children to police one another's conduct? I have asked this question of many people and no one has come with an answer that satisfies me.

I'd like to see this in print. Perhaps others have pondered the same question.

PUZZLED GRANDMA

DEAR PUZZLED: Parents should neither expect nor encourage their children to "inform" on one another, but it depends entirely on the nature of the "crime." Is Junior swiping cookies? Or is he smoking opium?

DEAR ABBY: My husband is a perfect gentleman. When he takes me to our club dance, he always asks me for the first dance. Then he disappears and

I don't see him again all evening.

Once I went looking for him and I found him outside playing hopscotch with a young woman. (She was a school teacher and had chalk in her purse.)

Another time he put on the waitress' cap and apron and helped serve drinks. He loves to be the life of the party, but he will be the death of me! Now how do you handle a man like that?

UP A TREE

DEAR UP: With girl gloves. He's priceless!

DEAR ABBY: Our 19-year-old son gave his girl (18) an engagement ring before he went to Korea four months ago. His father and I let them talk us into it, although we thought they were both too young.

We heard that this girl was running around on our boy, but we didn't write to him about it. Yesterday she brought his ring over and asked me to send it back to him as she didn't want to be "tied down."

Should I send him the ring? His father says we should keep quiet until he comes home. What would you do?

HURT MOM

DEAR MOM: Don't send the ring. In my book there is no one lower than a girl who would break an engagement this way.

The very least a serviceman's "sweetheart" can do is to wait until Johnny comes marching home again. But if she's running around, your son might learn it in a letter from someone else, so insist that the girl herself write him and set the record straight.

DEAR ABBY: After reading the letter from "LIAR'S WIFE," who for years was unknowingly "the other woman," I would like to offer what I hope will be some consolation. Cheer up, Honey, you can't be married to the world's biggest liar — because I am! DAISY FROM HUNTSVILLE

For Abby's pamphlet, "What Teen-agers Want To Know," send 25 cents and a large, self-addressed, stamped envelope in care of The Pontiac Press.

If you want a personal reply from Abby, write to her in care of this paper and enclose a stamped, self-addressed envelope. She answers ALL letters.

Average net farm income in California totaled \$7,572 in 1958, more than triple the national average of \$2,547 according to the California Department of Agriculture.

MRS. JANET ADAMS

Artists Host to Muralist

A critique for paintings followed a business meeting of the Pontiac Society of Artists Friday evening, in Adah Shelby Library.

Introduced by Mrs. Herbert Swingle, program chairman, was Marvin Beerbohm of Farmington, teacher and artist known in the Detroit and Birmingham area for his murals.

Several prize-winning members of the society have been pupils of Mr. Beerbohm.

"We Go Anywhere"

OR 3-2421 OR 3-3253

Hire Youth Director at YWCA

The appointment of Mrs. Janet Slay Adams as teen-age program director for the Pontiac Young Women's Christian Association is announced by Mrs. Karl Kutz, personal chairman. Mrs. Adams succeeds Mrs. William Hewitt who has served as acting director since April when Patricia Kelley resigned to be married.

Mrs. Adams, her husband Jack, and their seven-month-old baby arrived in Pontiac three months ago from Athens, Ga., where they were students at the University of Georgia.

A piano major at college, Mrs. Adams also taught and has been a counselor at the Atlanta Girl Scout Camp. She will work with Y-Teen clubs in the junior and senior high schools in Pontiac as well as in Lake Orion, Clarkston and Waterford.

Oil Eyelashes

(NEA) For daily wear, teen-agers should preserve the youthful, dewy appearance of their skin and eyes. This means avoiding heavy make-up, particularly mascara. An oil-rich eye pomade can be used instead, followed with the use of an eye-lash curler.

Soda Cuts Odor

(NEA) To remove the odor of onions or garlic from your hands before you go out for the evening, sprinkle baking soda on your hands, add a few drops of water, rub the paste in, then rinse.

Teaches Children Math With Music

AUSTIN, Tex. (UPI)—Mrs. Rebecca Warden has made a child's fascination with jingles pay off in a plan that literally makes multiplication tables child's play.

The grade school teacher's system is simple. She set to music the "Two times two equal four" and "Two times three equal six."

The simple tune picked out on a piano puts a lilt into the pesky tables, and makes them sound enough like a television jingle to catch a fourth-grader's ear, she said.

"The beat of the music suggests the answers," she explained. "After the children have sung it a while, they are reminded of the right answers by the beat and pitch of various multiplications."

The song has caught on so that Mrs. Warden now hears it hummed in the school playgrounds.

And the idea has spread.

When Mrs. Warden realized other schools could use the method, she had the song copyrighted and a recording made.

SOLD 50 RECORDS

"I've sold quite a few of the records—about 50 now," she said. "I've heard from universities who want the song for teaching the handicapped, from grandmothers who want to help their grandchildren with lessons, and from people who want the song to help their children with homework."

She said the record sales turn into a "nonprofit venture" because she is selling the recordings at cost, and takes a loss in mailing them.

Each week, mail to her 206 Salem Lane home here brings more inquiries about the recording.

"I want them used," she said. "I get requests from many states in the country."

Mrs. Warden thinks musical mathematics is a natural outgrowth of a child's desire for variety and freshness in school work.

ADDS BY RHYTHM

"You can learn just most anything faster by rhythm," she said.

"When you sing the multiplication tables, you're putting sight and sound and rhythm into the information, and the use of more senses makes it easier to learn. Any child will learn many of the singing television commercials to the last word, and yet can't learn mathematical tables."

The teacher thinks the idea can be used in other school subjects.

"People live so closely with music now," she pointed out. "I think this is a medium of teaching we haven't used enough."

"We all learn with 'crutches,' and if you give a child a musical crutch to remind him of something, he'll remember."

Spade's American Designer Pattern

N-1210

Herbert Sondheim

The shape (yours) is sensational, as modeled by Herbert Sondheim. The secrets (two) — long darts at the waist for slimming, a double fold across the bustom for flattery. The wide neckline dips to a V front and back. An applied ribbon trims the bodice. Choose wool, silk, or rayon crepe, sheer wool, faille, shantung. From this size N chart select the one size best for you. Our measurements are comparable to ready-to-wear sizes.

Size 12 requires 2½ yards of 54-inch material for dress and 1½ yards of 29 inch material for lining. To order Pattern N-1210, state size, send \$1. For first class mail, add 10 cents. For air mail handling, add 25 cents. For HERBERT SONDHEIM label, send 25 cents. New Book 18 now available at \$1 each. If paid by check, add 5 cents for handling. Promise-Breakers Do Harm to Others

By MURIEL LAWRENCE

Once, in response to Maureen's request for a new red sweater to go with her old navy blue skirt, her mother said, "All right, I'll pick one up when I go downtown this afternoon."

All that day in school the thought of the new red sweater was a goal of happy anticipation in Maureen. "Will the red mother choose a match the red in my light blue skirt?" she wondered.

"If so, I can wear the scarf tomorrow, too. None of the kids will even recognize my old blue skirt with the scarf and my new red sweater..."

But when she got home, there was no sweater. In answer to her disappointed face, her mother said shortly:

"Now don't start fussing. I just had too many errands on my mind to remember it."

By thus presenting herself as overburdened by other obligations, Maureen's mother claimed such virtue for her broken promise that Maureen could not protest if this was an old trick of hers.

If she didn't want to produce

the Halloween party she'd promised, it was because she was too busy nursing Buddy through a cold.

If Maureen asked for action on her pledge to get a winter coat relined, she'd say, "When will you learn that other people need things too?"

Always this parent had a fine, responsible-sounding reason for breaking her promises. So Maureen made the inevitable and disastrous connection. By the time she was 14, she had concluded that

Wake Up With New Interests

Avoid Middle-Age Muddle

By JOSEPHINE LOWMAN

The following is an excerpt from a reader's letter:

"I read your article on the subject of cultivating hobbies, with which I heartily agree. I am 60 and find life utterly glorious, the only life in the continent being that I know I am on the last lap."

"My interests are so varied that I have never found a day long enough, and my only frustration is that I know I never will."

That is the way we should feel all through life. There are so many things to do and so many things and people in whom to be interested that if we lived to be a thousand we would not have time for all of them.

Yet many women find middle

age a time of discouragement, boredom and unhappiness.

WILL HAPPEN, IF
 This is bound to happen if a woman loses sight of herself as an individual and allows her horizons to narrow rather than expand as she passes from girlhood to maturity and on to middle age and older.

Daily life then will hem her in and cause her to lose the "feel" of adventure and to lose sight of the myriad opportunities for fun, for inspiration, for service and accomplishment, which are all about her.

It is easy to become so caught up in the strenuous younger years, with all of their responsibilities and hecticness, that we may forget that a time will come when these will be lessened and even disappear.

The time we devote to children is an example. For a few years they are around and about and literally underfoot.

"The next thing you know they are teens and are beginning to develop interests of their own. They become more and more independent. Next they are young adults and soon they are married and out of the home."

Women may ask, "Where did the time go?" and, also, "How do I fit the time now?" When a woman has not prepared for this time with ever-widening interests and new activities, she will find "time on her hands" depressing rather than exciting.

MOST EXCITING TIME
 I think from middle age on is the most exciting time of all! There is time to do so many things we have wanted to do and have not had time for. Our tastes should be developed so that we really know what we want from life.

"We can spend more time on ourselves and still have more left for others. We can begin brand new ventures and invest in new interests."

As for "the last lap" we really should not think in such terms. At 60 you may well have 20 more wonderful years; maybe more for that time they may have found out how to extend it to 100 years.

breaking promise is a characteristic of people who love you. As a result of this conclusion, Maureen has become the victim of a pretty dismal love affair.

When the young man she's engaged to fails to telephone when he promised, she never protests. Instead she'll remain at home all evening waiting and telling herself that Bill must surely be involved in some virginal pursuit that accounts for his neglect.

Though the continual disappoint-

ments he inflicts on her keep her anxious and deeply resentful, she is conscious only of her anxiety.

For her original ability to feel conscious resentment at promise-breakers has long since been crippled by the parent who associated reliability with broken promises.

The promise-breaker first raises others' hopes and then destroys them out of a vindictive need for power of which he is not aware.

As a parent, he is most destructive. It is his cruel talent to teach children trust of unreliability.

The important goal is to live up to the bill every day, to leave our stamp on every day and to receive from it at least some of the blessings it has to offer. The more aware we are the more we receive.

If any of you have lost sight of yourselves as individuals and have allowed your lives to sink into sameness and boredom, it is never too late to remedy the situation. Add one new beauty routine and one new interest to your daily lives each week for a while and see what happens. One one can do this for you. THIS, you must do for yourself!

I have prepared a new 10-cent booklet, "Your Bust." It tells about the proper care of the bust and how you can make your bustline more attractive.

If you would like to have it, send 10 cents and a stamped, self-addressed envelope with your request to Josephine Lowman in care of this newspaper.

Club 20 Meets, Notes Projects

Members of Club 20 met Tuesday afternoon at the headquarters of the Oakland County Society for Crippled Children and Adults.

Mrs. Jack Thorpe was appointed chairman for the Thanksgiving gift basket project for needy families.

Christmas Party Chairman Mrs. Alvin Heft will be assisted by Mrs. James Jeffreys, cochairman. Magazines, candy and small gifts will be sent to hospitalized men and women veterans in hospitals. The group welcomed Mrs. James Carr as a member and Lois Draught as a guest.

The account of a student at Mount Holyoke College, South Hadley, Mass., showed that her expenses for the year 1954-55, including tuition, transportation to Weymouth, Mass., and a trip to Boston, amounted to \$37.96.

Have You Tried This? Cook's Hubby Chooses This Favorite Dessert

By JANET ODELL
 Pontiac Press Home Editor

When you're entertaining, it's good to have a dessert you can make the day before or even 12 hours ahead. Such a dessert is this one from Mrs. William Walker.

SEAFOAM REFRIGERATOR CAKE
 By Mrs. William Walker

1 1/2 pound marshmallows
 1/2 cup walnuts
 1/2 cup crushed pineapple, drained
 1 egg cream, whipped
 1 teaspoon vanilla
 8 Graham crackers, crushed
 Small jar of marshmallow cherries

Put half of the cracker crumbs in bottom of an 8-inch pan. Melt marshmallows in milk. Cool and add other ingredients. Cover with remaining crumbs. Chill 8 to 12 hours. Serves 9.

JANET MARIE HEICHEL
 The Elmer A. Heichels of Seward Street announce the engagement of their daughter Janet Marie to Harold Muxlow, son of Mr. and Mrs. Elmer Muxlow of Brown City. No wedding date has been set.

Good Taste to Praise, Not Chide

Question: A friend of mine was recently married and my husband and I were invited to see her apartment the other evening. It was a lovely apartment and furnished in very good taste.

However, there was one chair which I thought looked out of place where it was standing. When she asked me how I liked her apartment I said it was lovely, but that I thought that one chair would look much better in another part of the room.

When we left, my husband told me that my remark was uncalled for and in bad taste. I can see nothing wrong in what I said but it has caused quite an argument between my husband and me and I would, therefore, like your opinion as to whether or not my comment was in bad taste.

Answer: Your husband is right. It would have been much better taste if you had commented only on the things in the apartment that you liked and not single out the one thing that you did not happen to like.

Question: I am 15 years old and would like to visit my grandparents who live in a distant state during my Christmas vacation. It is a two-day trip on the train. My mother does not think it would be proper for me to travel on the train alone.

I am well able to take care of myself and see no impropriety in my going alone. What do you think about a young girl traveling alone?

Answer: Unless your parents can arrange to put you in charge of someone (such as the Traveler's Aid), 15 is too young for a girl to make a two-day trip on a train alone. You would not only risk criticism, but the danger of an unpleasant experience.

Question: Would it be proper to have the family name engraved in full on table silver instead of just initials?

Answer: It would be in very bad taste as well as improper.

Mayflower Unit Has Films of Hawaii

Mrs. Harold Schram opened her Silver Lake Road home to the Mayflower Group of the First Congregational Church Thursday. Co-hostess was Mrs. Roy Newton.

Following the business meeting, Mrs. Schram showed films of Hawaii. Plans were completed for a Christmas party at the home of Mrs. Robert Sanford.

MUSIC is our business!

Offer Aid to Algerians

NICOSIA, Cyprus (AP)—Greek Cypriots who fought in the ranks of the EOKA underground for Cyprus independence have offered to help Algerians against the

French, the newspaper *Makhe* (Combat) said today. There are eight national forests in Arizona — Apache, Coconino, Coronado, Gila, Kaibab, Prescott, Sitgreaves and Tonto.

They're the Old and Young

Who Are the Nonvoters?

WASHINGTON (AP)—You hear a lot about the record number of voters who went to the polls last Tuesday, but what about the millions who didn't?

In an election decided by a margin of less than two votes per precinct 40 million citizens over 21 failed to cast a ballot.

The situation isn't actually as bad as it appears, however, since a good many of the 107 million listed by the Census Bureau as voting age citizens couldn't vote if they wanted to.

That's because they're convicted felons, inmates of prisons and mental hospitals, disenfranchised residents of the District of Columbia or federal reservations, or are unable for one reason or another to meet state voting requirements.

The best estimate of the number of citizens actually registered to vote last Wednesday is around 84.5 million. Using that figure, the approximately 68 million who did vote make a more respectable

showing—about an 80 per cent turnout.

17 MILLION LEFT

But that still leaves 17 million potential voters who could have helped pick a president and didn't. Who are they?

No one can say for sure about the 1960 election. It's still too early to tell who did vote without bothering about those who didn't. But on the basis of past studies, Richard M. Scammon, director of elections research for the Governmental Affairs Institute, a private organization, has a pretty good idea who the 17 million are.

They are the very young and the very old among the voting age citizenry. They include more women than men. They're people without any roots, living in trailer courts, big city boarding houses, working on construction jobs, stationed in military camps.

They come from the less well-educated, less well-paid segment of the population. A lot of them are Negroes in southern states who

aren't able to define a clause of the Constitution to the satisfaction of election officials. And some of them are voters in other elections who are sitting this one out because they don't like the candidates.

There will probably always be a large number of nonvoters, but the picture is steadily improving.

The Census Bureau reports the following percentage of voters among the voting age population since 1900:

1920	43.6 per cent
1924	43.9
1928	51.9
1932	52.9
1936	57.0
1940	59.1
1944	53.6
1948	51.5
1952	62.7
1956	60.4
1960	63 (estimate)

The steady improvement reflects the growing efficiency of the registration and get-out-the-vote drives of the political parties, the gradual

improvement in the income and education of the populace and the wider interest in elections through television coverage of campaigns. The chances are slim, however, that U.S. election turnouts will even match those 90 per centers staged in Russia or other totalitarian countries. And who would want to?

Sect Denies That Its Creed Caused Congo Ambush

NEW YORK (AP)—A director of Jehovah's Witnesses denied today that their religious beliefs played any part in the Congo ambush last week of nine Irish soldiers.

Reports from the Congo speculated that the killers may belong to the fanatic Kikwatu tribe, outlawed to a remote and desolate area many years ago by the Belgian colonial administration.

The Kikwatu were said to have been converted into Jehovah's Witnesses by American missionaries during the 19th century and to have interpreted their religious beliefs as requiring the killing of non-believers.

The first school for girls in Turkey was opened in Istanbul in 1838.

Mayor Pro Tem Rises to Top in Grand Haven

GRAND HAVEN (UPI)—Glenn W. Eaton Jr., mayor pro tem of the City Council, is officially of office to Eaton.

mayor of Grand Haven today. Former Mayor Howard Zude, who resigned the post to accept a position outside Grand Haven, has turned over his keys to City Hall and his gold badge to Eaton.

Thanksgiving Shopping List

It's time again to plan that Thanksgiving dinner and write out your shopping list so that you'll overlook nothing. Here's a suggestion:

- | | |
|----------------------|----------------|
| FRESH FRUIT COCKTAIL | LETTUCE |
| TURKEY | WATERCRESS |
| CRANBERRIES | PUMPKIN |
| SWEET POTATOES | WHIPPING CREAM |
| FRESH LIMA BEANS | NUTS |
| PEARL ONIONS | COFFEE |

An interesting thing about this shopping list is that everything on it gets to your favorite shopping center by truck—and many of the items—out of season where you may live—come miles and miles to grace your happy table on Thanksgiving Day. As a matter of fact, everything you eat, wear, or use comes to you by truck—so thanks be to trucks for better living!

Other Things Replace Camp Pontiac Walls

By DICK HANSON

To escape from the minimum security prison camp in White Lake Township near Pontiac is as easy as walking away.

There are no walls, machine guns or even fences standing between the prisoners and freedom.

It's a short walk over the hill to a back road, and Camp Supervisor Howard Grossman tells inmates: "Please let us know if you are planning to leave; we'll pack a lunch and give you a road map."

He knows, as do the men being detailed at Camp Pontiac that freedom so easily gained will be short-lived in all likelihood.

Signs posted along the perimeter of the 40-acre camp serve as a reminder during the daytime. At night inmates must stay within the lighted area around the camp buildings.

A few men have made their break for the outside. Four left this year, and five in 1959. They are all back, only not at relatively easy Camp Pontiac.

The walkways have been returned to the somber confines of gray-walled state prisons, either at Jackson or Marquette. There, the living is harder and their term longer.

Only one man has ever left Camp Pontiac without the state's leave and not been caught.

That was two years ago. Police everywhere have been alerted to find him, and the FBI joined the search.

He's bound to be caught somewhere if he's still on this continent — alive.

"Four walkaways out of 240 guys this year — that's not bad," muses Supervisor Grossman. "And they're all back under lock and key."

"We're bound to have a few a few mistakes," he concludes philosophically.

Screening Not Perfect

The "mistakes" Grossman refers to are made when prisoners at Jackson, Marquette or numerous prison farms are carefully screened by a battery of psychiatrists, vocational counselors and others specially equipped to delve into the criminal personality.

It is by no snap judgment or easy process that men behind bars gain the relative freedom of the prison camp.

The screening process begins when a new prisoner arrives at Jackson or Marquette.

First stop behind the gray walls is the reception center. Here, the expert "brain-pickers" go to work.

Before they are through, the experts are convinced they know more about the new arrival than he does himself. Even so, every once in a while the panel is fooled, and a "mistake" is made. The wrong man is sent to a prison camp, of which there are 13 in Michigan, most of them in the northern part of the state.

There's hardly any reason for an inmate, to take French leave from the prison camp.

He has just a few months of his sentence left when he arrives from behind walls or one of the many state prison farms.

He knows before arriving, he

only has to slip once and it's back to the much more distasteful "big house," and for a longer term than he would have served otherwise.

"The man who runs isn't thinking," according to Grossman. "He is functioning by emotion only."

DANGER SIGNALS

"We watch for signs of emotional upset constantly, especially by carefully screening mail and visitors, and even by studying the men when they are asleep," said Grossman.

"If a guy gets jumpy, we watch him closely and encourage him to tell us of any personal problems."

The supervisor's duty is always open to prisoners seeking advice, and he tells them repeatedly to see him before doing anything drastic.

Invariably, the reason an inmate walks away from the camp is due to outside family pressures, explained Grossman.

He receives a letter stating that his wife is getting a divorce or "messing around." His first thought is to get out and take matters into his own hands.

"This is the mistake we're out to prevent," said Grossman, "by convincing the men that there are more rational ways to solve such problems, and that we are willing and want to help."

What kind of criminals come to Camp Pontiac? First, no sex offenders, and, naturally, none serving a life sentence.

For the most part, they are first-time offenders or men who have otherwise convinced prison personnel they no longer have an implacable criminal attitude.

"At best, they come here to learn a trade that will help them stay out of trouble once returned to civilian life," explained the supervisor.

"At worst, they are intent upon keeping out of trouble, getting

through the last few months of their sentence, and being set free as soon as possible."

RISKS, VIOLATORS DEPART

If any man becomes a security risk or is guilty of major infractions of camp regulations, or cannot get along peacefully with fellow inmates, he is returned to prison or a prison farm, where he can be guarded closely.

There are invariably about 120 prisoners at Camp Pontiac. They are watched by six camp guards on around-the-clock shifts. Usually no more than two guards are present at the camp at any one time.

They are almost constantly walking around the well-kept camp kicking off inmates names on a check list as they see them.

During the day, there will be approximately 20 of the prisoners in the camp.

They will be performing such maintenance tasks as cooking, laundry, painting, mowing lawns

BEAUTIFUL PARK — Here prisoners from the camp at White Lake place support wires on a newly planted tree at Dodge Brothers State Park No. 4 in West Bloomfield Township. The men are a great boon to maintenance of parks and conservation areas throughout the state, according to Michigan Conservation Department officials. The prisoners, considered good security risks, work in such areas year 'round. It enables them to learn such trades as masonry, carpentry and forestry which will help them to "go straight" when released by the state.

CARVE NEW ROAD — Prisoners from Camp Pontiac work on road construction in one of Oakland County's state parks. Much of the maintenance of Michigan's parks and conservation areas is accomplished through the use of prison labor under supervision of the State Conservation Department. The program, conducted in conjunction with the Michigan Department of Corrections, is believed to be mutually advantageous since it tends to teach prisoners new, honest trades.

PREPARING FOR FLIGHT — Two Waterford Township photographers, determined to catch some of the Navy's beauty from the skies, Bill Nicholai (left) and former Navy pilot-photographer Homer Tinney make sure the telescopic lens is right before taking off. They are in the last lap of their film depicting life in Waterford Township.

Color Movie Depicts Life in Waterford Twp.

By REBA HEINTZELMAN

The challenge to capture the beauty, vital living and effects of the exploding population growth in Waterford Township has been met by two of its life-long residents.

They have produced a dramatic movie, "Lakeland Paradise—Waterford Township 1960," soon to be released.

For the last five months, Homer Tinney, a former Navy recon-

naissance expert, and Bill Nicholai, a nature photographer, have been "candid camera" shooting children on playgrounds, in schools and watching television.

The pair has followed fire trucks, photographed construction work and flown high above the township in a plane getting colored shots of the hundreds of scenic lakes and woods.

More than 3,000 feet of film was used and is being "cut" to make a 45-minute production that will not drag, Tinney said.

The 63-year-old Tinney, who made observation flights in balloons during World War I and was a Lt. Commander in the Pacific in World War II, lives with his wife Maria at 6230 Elizabeth Lake Road.

Nicholai has gained a reputation as being one of the finest nature photographers in Michigan. He and his wife Helen live at 4015 Schuyler Road.

The story deals with a young couple, expectant parents, who are fed up with apartment life in the city and are looking for a good place to live.

They take an air trip around Waterford Township and see the breathtaking view of hundreds of small lakes scattered like a patchwork quilt all over the area.

Various depths of the lakes can be distinguished from a air-shallow water, a light green, to the darker color indicating deeper water.

As the little plane glides down over the tree tops for a landing, the panorama of hills, rows of new homes and winding highways seem to come to life.

In an automobile tour through the area, the young couple sees how Waterford police, fire and government departments operate.

WATCH MEAT CHOPPING

In the meat departments of the large shopping centers, the couple watches mammoth slabs of beef cut down to good size-sized chunks.

Many phases of the \$3 million school building program in progress were caught by the photographers as bulldozers tore up hills for new schools, and air-hammers knocked out walls for additions to others.

An unusual—and strictly accidental—shot was made at the southern end of Watkins Lake one day.

Three big Snowy Egrets were standing in the water, totally unaware they would become part of a Hollywood-like production.

Tinney knows the helpless feeling of having a whole squad of 200-pound football players come charging at him as he filmed the high school varsity team practicing for a coming game.

"How those boys missed knocking me and the camera to kingdom come, I'll never know," he said.

When the narration that the new created has been recorded, and the film cut to about half the present length, civic organizations, groups and individuals may see the movie.

The producers have secured "angles" to foot most of the bills for making the movie, so that only a very small fee will be charged for first-hand viewing of Michigan's Lakeland Paradise.

Food Chain Elects VP

DETROIT (P) — Paul Borman of Oak Park Saturday was elected vice president of Borman Food Stores, Inc., operators of Food Fair markets of Michigan. Borman will continue as general manager in charge of operations.

Only a re-emphasis on the principles of good character, he added, will prepare the nation's leaders to make the "decisive choices" they will face.

Scientists Eye Planets Mr. Sandman May Exist

By FRANK CAREY

Associated Press Science Writer PHILADELPHIA (AP) — There may be a "sandman" on some yet undiscovered planets, a team of University of Pennsylvania scientists said today.

The sandmen were envisioned as living creatures having silicon-based compounds which are closely analogous in both chemical and physical properties to a number of familiar compounds based on carbon.

One of them is a silicon-based "ether" which is the exact counterpart of the widely known pain-killing compound—except that it contains atoms of the element silicon instead of the usual atoms of carbon.

The scientists said: "At the present time, our knowledge of these simple silicon compounds is at the stage where carbon chemistry was 150 years ago."

MAKING EXIST

"Since all living substances contain both simple and complex carbon compounds, it is somewhat fascinating to wonder whether silicon compounds will, within the next 150 years, be introduced into living substances in place of analogous carbon compounds."

They added: "It is possible that living 'things,' with their chemistry based on silicon instead of carbon, may exist in some of the billions of yet undiscovered planets having an atmosphere of different composition from that on earth."

Case told the annual YMCA World Fellowship Conference Sunday that the effort of educating young sound leaders will require that Americans "divert a larger share of our financial, mental, and emotional resources to sustain... artistic, moral and spiritual life."

He said "this may mean... less glittering amusements," but only if we cherish enlightenment and liberal learning with depth, so that we will forgo other diversions in order to provide it with quality, can we educate, train and equip leadership good enough and numerous enough to meet the challenge."

"The unpredictable actions of major world powers for whom freedom is a mirage for wackings causes confusion and alarm in the democracies," Case said.

Yet the woman was not in sight. Terrell looked up and saw the letter dangling, attached by a clothespin to a string. Holding the string was a woman leaning out of her second-story window.

She'd Prefer to Send Her Letters Air Mail

MEMPHIS, Tenn. (UPI) — J. E. Terrell stopped to mail some letters in a mailbox when he heard a woman say "Mail this for me, please."

Terrell looked up and saw the letter dangling, attached by a clothespin to a string. Holding the string was a woman leaning out of her second-story window.

Terrell looked up and saw the letter dangling, attached by a clothespin to a string. Holding the string was a woman leaning out of her second-story window.

BEATS PNEUMONIA — Ramon Navarro, star actor from silent screen days, talks with newsmen in his London hotel after his release from a hospital. The 61-year-old Mexican-born actor had been hospitalized with pneumonia.

Federal Controls Removal Asked

Radio-TV Official Says Coverage of Election Proves Impartiality

WASHINGTON (UPI)—A spokesman for the National Association of Broadcasters (NAB) said today the "fair and impartial" radio-TV coverage of the presidential election proved the industry is entitled to freedom from additional federal controls.

Chairman Clair R. McCollough of the NAB Policy Committee told a fall conference in a prepared speech "the experience of last week's national election . . . has shown that broadcasters are able to be fair and want to be fair without being told to do so."

He pointed out that Congress had lifted the "equal time" provision of the Communications Act for the 1960 presidential race to permit the Kennedy-Nixon debates without matching time for splinter party candidates.

"If one can be fair on the national level," McCollough asked, "Does it not follow that he is able to apply the same yardsticks of impartiality at the local and state levels?"

In calling for freedom from governmental controls, McCollough, president of the Steinman Stations, Lancaster, Pa., said "tampering with its (broadcasting's) traditional freedom of action is a form of social sabotage against the people themselves."

He praised the Federal Communication Commission in the light of "indications that the FCC will permit broadcasters to plan their over-all programming on the basis of specific community needs, rather than fixed percentages," to avoid duplication.

Castro Backers in Clash

HAVANA (AP) — Supporters of Prime Minister Fidel Castro clashed briefly Sunday night with Mass-goers in Santiago Cathedral over the reading of its archbishop's anti-Communist pastoral letter.

Shouting revolutionary slogans and chanting Castro's hymn, the crowd of about 60 persons interrupted the services. One woman was injured slightly in the scuffling. Some of those involved were taken to police headquarters but were released almost immediately.

archdiocese, which does not include Havana.

Chain Letters Latch Safety to British Roads

LONDON (AP)—The chain letter craze is sweeping Britain again, but this time in a good cause—reducing the toll of road accidents.

The British Safety Council sent out 6,000 letters two weeks ago, urging drivers to be careful and adding them to write five similar letters to their friends. The number of letters produced so far is estimated at close to 20,000.

There are 1,200 organizations selling health insurance in the United States.

2 Avon Students Are Elected to MSUO Posts

The Student Senate of Michigan State University Oakland has elected two Avon Township students to serve as officers.

They are Marge Swoboda, 424 Taylor St., vice president, and Lee Fingerhut, 116 Albertson St., treasurer.

Paul Allen, 421 S. Bellevue Road, Orion Township, was elected president of the group in a recent campuswide election.

Other Senate officers are Laure Webb of Uica, recording secretary, and Janet Long of Milford as corresponding secretary.

Photographers Honor Shutterbug Jackie

SAN FRANCISCO (AP) — The Professional Photographers of Northern California Friday sent an honorary membership to a fellow photographer — Mrs. Jack F. Kennedy.

Carl Heston, PPNO president, wrote: "We wish you every success in your new life and extend our best wishes to our next president, Mr. Jack F. Kennedy."

Mrs. Kennedy once was a professional photographer.

Alaska's Choice Up to Absentee Ballots

JUNEAU, Alaska (AP) — Some 4,000 absentee ballots will decide who gets Alaska's three electoral votes.

With unofficial returns in from 250 of the state's 300 precincts, Vice President Richard M. Nixon had 27,312 votes to President-elect John F. Kennedy's 28,798.

This gave the Republican candidate a margin of 514 votes. The absentee ballots can't be counted until Friday under Alaska law.

Nearly a score of towns and communities in Arkansas are named for springs.

Hourly Farm Earnings Slipping Since 1951

WASHINGTON — Government studies show that hourly earnings of dairy farmers have been going down since 1951 despite record cash receipts from milk sales.

The Agricultural Marketing Service said in a report that the prices paid by farmers for most items used in production have moved upwards substantially in the last several years.

The hourly returns to dairy farm operators in the Central North-east part of the country were estimated at 63 cents in 1959 compared with 87 cents in 1951.

Claims He Cut Two Inches Off Tall Girl's Legs

SUNDSVALL, Sweden (UPI)—A Swedish surgeon says he cut two inches off a six-foot-tall girl's long legs in an unusual operation last summer to ease "deep complexes" caused by her height.

Dr. Lars Unander-Scharin of the Institute for the Crippled and Disabled said he took two inches out of the girl's thighs just below the hip joint and then reinforced the cut bone ends with silver plates. The girl is now able to walk with crutches, he said.

Scharin said there was no physical necessity for the operation, and that he was reluctant to perform it "just for looks."

"I hope I'll never have to perform such an operation again . . .," the doctor said. "At first, I refused to perform the surgery . . . but both the girl and her parents begged for an operation."

"Finally, it became clear that the girl suffered so deeply from her long legs that I decided to perform the surgery on humanitarian grounds."

County Sales Tax Cut Drops for 3rd Quarter

Oakland County's third-quarter share of state sales tax receipts showed a decrease of nearly \$200,000 from the previous quarter.

The county treasurer's office said the decrease was due to a drop in receipts from the state.

The total check which was split between the 24 townships, 25 cities and 17 villages, based on population, came to \$1,185,334.

The last check from the state was for \$1,030,861.

Pontiac's share of the last check was \$138,998, second only to the city of Royal Oak which received \$141,203.

Pontiac, despite having a larger population than Royal Oak, receives less because of a state deduction for patients housed at Pontiac State Hospital.

Waterford Township's check this time amounted to \$89,990.

The allotments for the third quarter ending Sept. 30 were:

Townships: Addison \$2,284; Avon \$27,697; Bloomfield \$38,777; Brandon \$4,173; Commerce \$416,412; Farmington \$44,470; Groveland \$2,250; Highland \$8,360; Holly \$3,881; Independence \$17,688; Lyon \$4,481; Milford \$2,693; Novi \$109; Oakland \$4,332; Orion \$15,883; Oxford \$5,540; Pontiac \$135,303; Rose \$2,363; Royal Oak \$14,148; Southfield \$52; Springfield \$4,587; West Bloomfield \$24,004; and White Lake \$14,393.

Cities: Berkley \$46,390.96; Birmingham \$14,401; Bloomfield Hills \$4,114.57; Clawson \$25,851.47; Farmington \$11,877.13; Ferndale \$54,637.36; Hazel Park \$44,329.12; Huntington Woods \$15,136.16; Ingham Harbor \$4,792.43; Lathrup Village \$6,158.71; Madison Heights \$57,530.84; Northville \$1,548.81; Oak Park \$63,729.62; Pleasant Ridge \$6,623.35; Southfield \$54,096.12; South Lyon \$5,403.46; Sylvan Lake \$2,482.22; Troy \$33,675.38; Walled Lake \$6,196.35; and Wilcox \$2,839.01.

Villages: Beverly Hills \$14,997.38;

Kennedy Ahead 271,817 Votes

1,653 Units Still Out; Per Cent Stands 50.2 to Nixon's 49.8

WASHINGTON (AP) — John F. Kennedy held a 271,817 vote lead over Richard M. Nixon today as results continued to trickle in from Tuesday's presidential election.

With 1,653 voting units still out, counting of absentee ballots under way in several states, and recounts contemplated in some areas, Kennedy had 33,698,794 votes and Nixon had 33,426,977 votes.

This gave Kennedy 50.2 per cent of the popular vote and Nixon 49.8 per cent.

In the electoral vote count, Kennedy was assured of 300 votes and Nixon 185. Kennedy still led in the race for California's 32 electoral votes. With absentee ballots being counted, he had a margin of 37,140 votes.

Nixon led in Alaska by 514 votes with 50 precincts still out and in Hawaii by 91 votes with another recount likely. Each state has three electoral votes.

Firemen Extinguish 2 City Home Fires

Pontiac firemen extinguished two house fires in the city Saturday afternoon.

A blaze at Mrs. Martha Dietrich's home at 85 Henry Clay St., caused an estimated \$1,250 damage. Firemen said it started in the living room of the two-story frame house as the result of an overloaded electric circuit.

Later in the day, a blaze at Mrs. Mildred Gamble's two-story frame home at 221 Rockwell St. caused an estimated \$2,500 damage before it was put out.

Firemen did not know what started the second fire but said it broke out in a back room on the first floor.

No one was injured in either blaze.

NBC Man Wants Later Political Conventions

NEW ORLEANS (UPI) — The chairman of the board of the National Broadcasting Co. said today that the party convention should be held late in August, shortening future presidential campaigns by six weeks.

Robert W. Sarnoff, speaking before the Broadcast Promotion Association Convention, said that the conventions "could become far more effective if they were rescheduled not only to occupy fewer days and fewer hours of the year but to make more fruitful use of the hours when most Americans are able and willing to watch."

He said having conventions in July to nominate candidates for a November election amounted to "clinging to a timetable fashioned a century ago in an age when space and time were far greater than they are today."

Wolverine Lake Man Found Shot to Death

A Wolverine Lake man was found shot to death in the basement of his home Saturday night.

The victim, Harlow C. Kellogg, 40, of 235 Wabasso St., had been shot once in the neck with a .26 gauge shotgun. The weapon was found next to his body.

Mrs. Kellogg discovered the body at 10:15 p.m. and notified sheriff's deputies. Her husband had been despondent, she said.

Pontiac Man in Hospital After Auto Accident

A 21-year-old Pontiac man was in fair condition today at Pontiac General Hospital after being injured in an automobile accident at Cass Avenue and Sanderson Street yesterday.

Kenneth A. Rittenber, 27, of 1015 S. 1st St., suffered possible head injuries when his car collided with one driven by Rufus M. Campbell, 37, of 4128 Quillen St., Drayton Plains.

Pontiac police said Rittenber, driving west on Sanderson Street, failed to stop for Campbell, who was headed north on Cass Avenue.

Car Crashes Into Pole, Flint Hunter Is Killed

INDIAN RIVER — A Flint hunter was killed today when his car left a rural road near here and smashed into a utility pole.

State troopers said Kenneth Kildee, 34, was thrown from his car by the impact and the vehicle rolled over him. Kildee was staying at a hunting camp near the scene of the mishap.

Mice, gophers, and other rodents can probably be best controlled in some fruit plantings by systematic poisoning programs using poisoned spray.

Extra Points Save Michigan State

HAPPY LANDING — Bennie McRae (43) University of Michigan back is about to make a landing after getting tripped up by an Indiana player who refused to be blocked out of the play by two Wolverines. McRae made four yards on the play in the second quarter during which time Indiana held a 7-0 lead. The Wolverines finally won, 29-7.

Spartans Close Season Against U-D Saturday

Assured First Division Finish After Edging Northwestern, 21-18

EAST LANSING (P) — Thanks to the extra point kicking of left footer Art Brandstatter, Michigan State can sit back and relax now while watching the scramble for position in the unpredictable Big Ten football race.

Brandstatter, junior end from East Lansing, boomed through three extra points to give the Spartans their 21-18 margin over Northwestern.

This assures MSU a first division finish in the conference on a 3-3 record. State is tied for third with Ohio State behind Iowa and Minnesota.

The Spartans will be on the sidelines this Saturday as far as conference competition is concerned. Only MSU and Iowa, meeting Notre Dame, don't have conference games.

Michigan State will meet upstaged University of Detroit for the season's final. A win could give coach Duffy Daugherty's troops a six win, two lost, one tied record — the best since the 8-1 season of 1957.

Long runs accounted for all the MSU scoring. Fullback Ron Hatch broke for 32 and 51-yard scoring runs and right half Gary Ballman occurred for a 74-yard touchdown sprint.

All the MSU scoring came from variations on the trap play — where the key opposing linemen is tempted into charging and then blocked out of action to release the runner.

Northwestern punched in two scores in the first period, the first set up by a Herb Adderley fumble on his own 38. The Wildcats were in from one yard out.

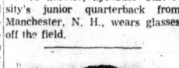

Northwestern then ripped 65 yards for a second score. Larry Benz, on a reverse play that had the Spartan defense completely fooled, made the last eight yards.

A pass from quarterback Dick Thornton to end El Kimbrough, good for four yards, accounted for the last Wildcat score. Mike Stock who had kicked seven for seven earlier in the season, was wide on all his extra point tries. It was reported afterwards that Stock was bothered by a rib injury and had missed two days of practice.

Northwestern was down to the two-yard line just before the game ended—helped there by a disputed interference with a pass penalty against MSU.

Adding glamour to the Northwestern homecoming game at Evanston was the appearance of two Swedish princesses, Birgitte and Desiree. The princesses came in late and left early missing most of the action.

Dave Sarette, Syracuse University's junior quarterback from Manchester, N. H., wears glasses off the field.

Emmanuel Goes Despite Good Defensive Play

Emmanuel Christian finished its first varsity football season with a victory despite some of its best defensive play of the season Saturday night.

The Lakers bowed 26-6 to Flint St. Mary with Ron Jackson's 60-yard run in the 4th quarter the only home tally.

Emmanuel played the visitors on even terms after falling behind by 20-0 early in the 2nd period of the homecoming game.

Tiny Jim Gillespie led the defense with numerous tackles.

'M' Hopes Higher for Final at OSU

ANN ARBOR (P)—Michigan now can enter Saturday's final game against Ohio State feeling that it has a good chance to win.

Two events of Saturday bring about this sudden change in thinking.

Instead of sending a question mark team against possibly the best club in the nation, the tradition-stepped clash between Michigan and the Buckeyes now has all the ingredients of a solid test between two good clubs.

Ohio was knocked off by an inspired Iowa team and this proves that there are defenses that can contain at least part of Ohio's many-aided offense. Iowa did it Saturday 35-12, in more decisive fashion than Purdue had done it earlier in the year.

Michigan's 29-7 triumph over downtrodden Indiana will do at least one thing for the Wolverines—give them renewed spirit for the coach game.

Coach Bump Elliott has been concerned over his team's ups and downs—not only physically but mentally—in recent weeks. Victories over Illinois and Indiana have assured him that Michigan will enter the Ohio State game feeling that it is capable of winning.

And Michigan is likely to have

halfback Dave Rainey ready for the Buckeyes. He sat out Saturday's game, but Michigan used Bennie McRae's speed, the power of their fullbacks and Dave Glin's second-half passing, to overcome an Indiana team that was surprisingly stubborn for two periods.

Indiana mistakes got the whole thing started. The Hoosiers trailed 8-7 at the half.

But two quick fumbles—one at

Indiana's 14 and another five minutes later at the Hoosier 17—led to a pair of Michigan scores.

It was never close again. Elliott used 56 players, and the third and fourth stringers ran and passed exceptionally well against the ineffective Hoosiers in the last two periods.

Indiana has only one victory this year, and it was easy Saturday to see why.

Bruins Fall to Leafs

Canadiens Edge Rangers

NEW YORK (AP)—The high-flying Montreal Canadiens scored a goal in each of the first two periods, then fought off a desperate New York rally to defeat the Rangers 2-1 in a National Hockey League game Sunday night.

The victory ran the first-place Canadiens unbeaten streak to five games, their longest since 1954-55, when they won 11 straight.

The Canadiens tied at 11:30 with a goal by a Boston skater in the penalty box.

George Armstrong and Red Kelly connected earlier in the opening period during which the Bruins were a helplessly disorganized band.

Boston came to life in the second period, closing the margin to a single goal as Vic Stasiuk and goalie defenseman Dallas Smith found the range.

Boston goalie Don Simmons had just skated out of the nets to provide a sixth attacker when McHavlich stole the puck from Don McKenney at center ice and shot into the vacant goal for his 10th goal of the season.

The National Hockey League game.

The decisive tally went to Ed Shack, playing only his third game with the Maple Leafs since he was acquired from New York.

Shack's second goal of the season came at 19:35 with a Boston skater in the penalty box.

George Armstrong and Red Kelly connected earlier in the opening period during which the Bruins were a helplessly disorganized band.

Boston came to life in the second period, closing the margin to a single goal as Vic Stasiuk and goalie defenseman Dallas Smith found the range.

Boston goalie Don Simmons had just skated out of the nets to provide a sixth attacker when McHavlich stole the puck from Don McKenney at center ice and shot into the vacant goal for his 10th goal of the season.

Emmanuel Goes Despite Good Defensive Play

Emmanuel Christian finished its first varsity football season with a victory despite some of its best defensive play of the season Saturday night.

The Lakers bowed 26-6 to Flint St. Mary with Ron Jackson's 60-yard run in the 4th quarter the only home tally.

Emmanuel played the visitors on even terms after falling behind by 20-0 early in the 2nd period of the homecoming game.

Tiny Jim Gillespie led the defense with numerous tackles.

OFF AND RUNNING — Michigan State back Gary Ballman (14) gallops toward the goal line against Northwestern in the third period of their game at Evanston. MSU end Ernie Clark (85) throws a key block on the Northwestern back Frank Johnson. The Spartans, behind 12-0, won the game 21-18.

There are early indications that the Pontiac Press Bowlerama tournament is really going to come into its own as a major area event this year.

It has made progress since the start in 1957 but not as rapidly as tourney officials had hoped. The big jump could come next month when the 1960-61 Oakland County men's handicap and actual champions are determined.

If the Bowlerama makes the huge gain anticipated, a major reason will be the cooperation of the Pontiac 700 Bowling Chapter.

The area's top bowlers are going all-out to promote the meet. They got things started recently by taking in applicants at a stand set up during a club tournament at Lakewood Lakes.

Sheretary Clark Balch made up attractive Bowlerama signs which are being distributed throughout the key establishments in Oakland County. Members are being designated to the various "houses" to join with proprietors in promoting the local event.

The project being undertaken by the 700 club is another of its steps for improving the sport here and making a name for Pontiac in bowling.

Good strides have already been made by the group in helping the area setup in many ways.

Entry blanks are now available at 47 alleys covering every part of the county as well as at the Press.

Men interested in qualifying at the new Howe's Lanes on Dixie Highway must enter by Nov. 20 to be eligible to do so. The final deadline for signing up for the tourney is Dec. 7. Some early entries have indicated they will give it a try the first week realizing that should they fail to make the grade they can re-enter and take another crack at making the finals at either Sylvan 1-one or Montclair Centre.

EXTRA PINS
Commerce Township bowlers have a nearby place to compete now with the new Wogderland Lanes in operation on Richardson Road.

Nov. 26 is the closing date for entries in the Elk's Ladies National Invitational tournament.

Bad Hild placed the Farmington Major Classic this week with 358-608. Clifton's Man team had 308. There were 91 games of 500 or more and 25 600 series.

Five teams from Detroit and one from Grand Rapids in the BFAA National Team Match game championships at Paramus, N.Y.

Nov. 26 is the closing date for entries in the Elk's Ladies National Invitational tournament.

Alaska's 1st bowling place, a six-lane house, is under construction in Nome. It will be known as Akuruk. Akuruk is an Eskimo term with a loose translation "roll a ball."

Shirley Pointer's 702 is listed in latest WIBC bulletin. It is 9th best in the nation with 1747 points. Recent high games in Huron Classic included 541 by Ron Wilhite, Mitch Calli 538, Doug Swords 235, Don Mazza 231, Arnie Rehn 222, Jay Lovett 222 and Frank Spadaro 200.

Kennedy Reaches Crucial Point, Has to Pick Administrators Well

Editor's Note: What are the main problems facing President-elect Kennedy? How will he handle them? What will be his administration's first steps? These are the questions that will be asked of him in the White House. James Macpherson, who has written these columns and other news stories, has been asked to write this last of three special articles.

By JAMES MARLOW
WASHINGTON (AP) — President-elect Kennedy is off and running. But speed alone is not enough. In these next 10 weeks his wisdom in preparing to take over the presidency will affect his whole administration.

Before he is sworn in Jan. 20, he must pick the key administrators and advisors who will help him run the government, figure out what it will cost to make good on campaign promises, and blueprint the plans he lays before Congress.

Kennedy has already named some important aides and chosen others to come up with recommendations soon on setting up shop. Then he started Friday on a brief vacation. He'll have no rest after his return.

Since Kennedy and Vice President Richard M. Nixon were both optimistic about their chances, both got busy weeks before the election on the problems of transition from President Eisenhower's administration to the new one.

ATTORNEY HELPS
"Each named a representative," Kennedy's was Clark Clifford, his personal attorney-to-work with Henry H. Henry and others at the Brookings Institution here in Washington where presidential transition was being studied.

Henry has just finished a book, to be published Nov. 28, on the problems of transferring power from the outgoing president to the new one. His studies cover the presidents back to Woodrow Wilson.

He points out that in 1952, before Eisenhower was elected, some of his rich friends hired a management consultant firm to study and make suggestions on the task of recruiting executives for his new administration.

So Eisenhower got off to a fast start when he won. Within five days after his victory, Henry Cabot Lodge-Nixon's running mate in the 1960 campaign—to represent him in dealing with the outgoing administration of President Truman.

And, after a brief post-election vacation, he began naming Cabinet members by Nov. 20.

KENNEDY FASTER
Kennedy was a little faster. Two days after his election, he named Clifford, who had been Truman's special counsel and speechwriter in the 1940s, to represent him in dealing with the Eisenhower people.

Kennedy also picked James M. Landis, former dean of the Harvard Law School and an important figure in President Roosevelt's administration, to examine the government's regulatory agencies with the idea of improving them.

Kennedy was critical of those agencies—like the Federal Power Commission—during the campaign. He said "a blight has descended" on them. And he talked of reforming and streamlining them if he won.

Opera House Gets New Target Date

NEW YORK (AP) — Another target date has been set for completion of the new Metropolitan Opera House. May 1964, to coincide with opening of the New York World's Fair.

The opera house, to be part of the Lincoln Center for the Performing Arts, initially was intended to be finished in July 1961. The date subsequently was moved ahead to 1962, then 1963.

The latest date was suggested Friday by John D. Rockefeller III, president of the Lincoln Center. Rockefeller said \$15 million more are needed by next April if the \$32-million opera house is to be finished in 1964.

The entire Lincoln Center project will cost an estimated \$140 million. Of this amount, \$96 million has been raised by private contributions. New York City and the federal government have added another \$15 million.

7th Jewish Lord Mayor Is Installed in London

LONDON (UPI) — Sir Bernard Walter Cohen was installed Saturday as London's seventh Jewish lord mayor of its 770 years of mayoral history.

A torrential downpour spoiled the celebration as the lord mayor rode through the streets in his gilded coach from the historic guild hall to the Victorian gothic jumble of the law courts to present himself to the queen's justices in the ancient ceremony.

The muzzle-loading rifle could be loaded at the rate of about three times a minute. Its maximum range was about 1,000 yards.

But Kennedy decided to wait a little longer than Eisenhower before naming his Cabinet. While Eisenhower started on his by Nov. 20, Kennedy said he won't announce his choices until after Thanksgiving—Nov. 24.

TWO WILL BE STRONG
Clifford and Landis, by the jobs assigned them, will be powerful forces in shaping Kennedy's new administration. But that doesn't necessarily mean they will become part of it or want to.

Landis has had a lot of government service. Clifford, a brainy and successful Washington lawyer, feels his years as part of the Truman regime were plenty.

But Kennedy, a young man determined to go places, started to prepare for the presidency long before he got it.

During the campaign he pounded away on what he said he considered the inadequacies of American defenses and foreign policy. On Aug. 30 he appointed a group of outstanding men to advise him in both fields after he won.

When Eisenhower won in 1952, Truman suggested he assign some of his people to work with key officials in the administration to learn the ropes during the transition period. Eisenhower has done the same with Kennedy.

One of the President-elect's most pressing needs is picking a man—probably the one he'll name his director of the budget—to work with Eisenhower's people on the outgoing administration's budget which goes to Congress in January.

BUDGET CHANGES DUE
Understanding the Eisenhower budget—the outgoing President's idea of what it will cost to run the government another year—is going to be of critical importance to Kennedy.

He'll have his own ideas on where and what should be spent and will have to work out a budget of his own to use with Congress. Since his programs are different from Eisenhower's, the budgets won't be the same.

Clifford who has been working on his assignment for weeks, considers the four most important Cabinet jobs to be those of the secretaries of state, defense, treasury and attorney general.

Kennedy has given no indication of his choice for any of them. Clifford is already emphasizing that top priority—besides the Cabinet posts—must be given to 80 or 90 other jobs most closely involved in the transfer of power. Kennedy must find men for all of them soon.

Eisenhower backed his first Cabinet with businessmen and got a good public reaction. They were conservatives and set the tone for his two administrations. Kennedy's selections, judging by his campaign talk, may be more liberal.

CONGRESS PROBLEMS
One of the most important, and still rather nebulous, questions facing Kennedy is how he will deal with Congress and through whom.

Eisenhower used to call batches of congressional leaders to the White House for meetings with himself and perhaps 10 to 15 members of his staff. This was a heavy, cumbersome way of getting Congress to do what he wanted.

Kennedy is apt to limit himself pretty much to meetings with a few top Democrats in the House and Senate, along with Vice President Lyndon B. Johnson, who will preside over the Senate.

Johnson, who was of precious help to Kennedy in the campaign in keeping Southern Democrats in line with Kennedy, should be close to indispensable in helping Kennedy with Congress.

Johnson, Democratic leader of the Senate since 1954 and a master manipulator, is also the protégé of Sam Rayburn, speaker of the House and the most powerful single force on that side of the Capitol.

Kennedy's relations with Congress will be crucial in trying to make his campaign promises and programs a reality since most of them have to go through Congress where a majority of Democrats and Republicans are conservative.

Some people who know Kennedy say they are convinced he made few, if any promises, to anyone about what he'd do for them if he won.

Still, a lot of people who backed Kennedy or worked for him in one way or another will be looking for rewards now that he is in a position to dish them out.

Just keeping them satisfied, or off his back, will be a monumental task.

Elizabeth Taylor Returns to Hospital

LONDON (AP) — A spokesman for Elizabeth Taylor's studio said today "a terrible headache causing almost unbearable pain" had sent the beautiful actress back to a hospital.

"It hit her a little before 3 o'clock last night," said the spokesman, "and the headache was so awful that it alarmed everyone—including her doctors."

Weeping and clutching her head, Miss Taylor was carried from her hotel on a stretcher and rushed to the hospital in an ambulance.

The spokesman said her personal physician, Dr. Carol Goldman

and one of Queen Elizabeth II's doctors, Lord Evans, were "worried and puzzled."

Neither would immediately answer reporters' questions.

Both were extremely cautious for good reasons.

HIGH TEMPERATURES

For weeks the actress had been reported suffering from a mystery virus that brought on high temperatures in the afternoon.

Unable to diagnose the cause of the fever at her penthouse apartment in a London hotel, the doctors moved her into the London Clinic on Oct. 30.

They made several tests on her and she was allowed to leave the clinic three days after being admitted.

The fever still persisted, however.

Last week she complained of a severe tooth ache. X-rays were taken and an abscessed tooth discovered.

A dentist pulled it and her fever went down.

FISHER HAPPY

Jubilantly, Miss Taylor's fourth husband Eddie Fisher told reporters that at last the cause of her lengthy illness seemed to be solved.

Miss Taylor's studio, 20th Century-Fox, shares Fisher's joy.

The studio is far behind scheduled on the epic "Cleopatra" in which the actress plays the vamp of the Nile for a million dollars and a percentage of profits.

So far, however, not a single foot of the film contains the sharply image of Elizabeth Taylor who arrived here Sept. 8.

In the actress' absence the studio has been doing what it could without the leading lady. Many scenes which did not call for her presence have been filmed.

BEACH PATROL — A Coast Guard boat patrols the beach in front of the Kennedy estate at Palm Beach, Fla., where President-

Elect John F. Kennedy is taking a vacation and planning his administration.

Schools Taking Aim on New Sales Tax

SAGINAW (AP)—Michigan's big school organizations are ready to move in for what they consider their share of the new penny sales tax approved last Tuesday by the voters.

At the same time, school superintendents see brighter days ahead in their immediate financing plans and the possibility of full state aid payments on time for the rest of this school year.

One segment of education, the community colleges, before the election announced intentions for asking for a \$95-per-student increase in state aid this year from the current \$305 to \$390.

Approval of the sales tax boost firmed up plans of the so-called equalization group within the Michigan Association of School Administrators to fight for a new school aid formula of \$240 per student with 5 mills deductible.

Robert Hall, St. Charles superintendent and a leader in this group composed of school districts with low valuation, said the group had decided before election to push this formula this year, but since the election the plans have jelled into a program.

The proposed formula would require \$17 million new dollars for secondary and primary districts, and would benefit all districts with less than \$22,000 valuation behind each child, Hall said.

Districts above this valuation would be protected by a grandfather clause and would not receive less than what they are getting now. They wouldn't get any more.

The deductible millage in the formula is the equalization factor. Enrolled students in a district are multiplied by the \$240 figure, and the 5 mills is figured into the district's equalized valuation.

The result is subtracted from the student times the \$240 figure, and the remainder is the state aid for that district. The current formula is \$205 per student with 3 1/2 deductible mills.

John Ellis Injured When Car Hits Tree

A Waterford Township man is in critical condition today at Pontiac General Hospital after his car slammed into a tree at the north end of Crescent Lake Road at 4 a.m. Sunday.

Township police said that tire marks on the pavement indicated that the victim, John Ellis, 31, of 342 Lotus Drive, was driving north on Crescent Lake Road and crossed the center line.

He skidded 76 feet straight forward, hitting a tree at the end of the pavement at Hatchery Road.

Ellis' wife Janet, a passenger, was uninjured. Ellis suffered internal injuries.

If he doesn't offer you a ride take drastic measures!

Restaurant Burglars Get \$360 Total Loot

Burglars took \$360 in food, jewelry and cash from the New China Restaurant, 426 S. Saginaw, over the weekend, it was reported to Pontiac police.

Entering the building by forcing open a rear door, the intruders took several chickens, shrimp and steaks from the refrigerator.

They also took two rings and a bracelet valued at \$180 from a purse, and \$30 from a cash register, said the report.

News in Brief

Dorothy Russell, 363 N. Perry St., reported to Pontiac police that a burglar stole a purse containing \$9 from her home over the weekend.

Thieves took an undetermined amount of change from two vending machines at the E-Con-O-Wash Laundromat, 2105 Jones Ave., it was reported to Pontiac police Sunday.

Burglars broke into Jones Pulp Market, 203 Lake St., but took nothing, it was reported to Pontiac police over the weekend.

Burglars took \$50 from a cash register at Baldwin-Montclair Shell Service, 733 Baldwin Ave., it was reported to Pontiac police yesterday.

Ten windows and two metal storm doors were smashed in an unoccupied house at 4356 Midland St., Waterford Township, the owner, Nelson Caldwell of Detroit, reported to township police yesterday.

U.S. Congo Policy Hit

BEIRUT, Lebanon (UPI)—The executive committee of the 22-nation Afro-Asian Solidarity Organization (AASO) criticized U.S. policy in the Congo and reaffirmed support for ousted Congolese Premier Patrice Lumumba Sunday.

Modern farming in New Zealand has an unusual aspect. A daredevil breed of "aerial cowboys" has developed. Working aloft in light planes, they spread top-dressing over the many square miles of steep, broken grasslands; they spray crops, and drop stores and materials.

Grain Futures Slide Starting 2nd Week

CHICAGO, Nov. 14 (AP)—The downward trend of grain futures prices went into its second week today with nearly all commodities posting additional broad setbacks on the board of trade.

Corn and soybeans led the declines, both down about a cent in spots during the first several minutes.

Heavy receipts of cash corn at 791 cars had a bearish effect in the futures pit where hedge selling also was in good volume.

Some of the weakness in soybeans was ascribed to eastern markets for soybean oil and soybeans. The only export business over the weekend appeared to be a small amount of corn.

Stocks take Dip in Modest Trade

NEW YORK, Nov. 14 (AP)—Most stocks dipped in moderately active dealings today.

The major loss was recorded around the end of the first hour. Prices recovered somewhat by early afternoon, a few groups going above the previous close.

Tobacco added small fractions, as did most airlines. Building materials turned mixed after early strength. Tire stocks also scored modest gains.

On the downside were steels, chemicals, motors, drugs, rail, electronics and metals.

Main reason for the decline, analysts felt, was the technically weakened condition of the market following three weeks of sharp advance.

In addition, business news was poor. A leading New York banker said the current readjustment would be over about the middle of 1961, steel operations continued slow and some auto and equipment makers announced layoffs over the weekend.

Two specialties stood out—Maytag and Universal Oil Products. Both advanced more than 1 point.

Baying in Maytag reflected declaration of an extra dividend over the weekend, brokers said.

The demand for Universal Oil seemed to be stimulated by hopes for its antidote device for autos.

Ford fell 1 point on news of a small layoff in the Cleveland area. Caterpillar dropped almost 1 point on a one week shutdown at three Illinois plants.

Private estimates of little improvement for the rest of the year in steel operation, only slightly above 50 per cent of capacity, depressed U.S. Steel and Bethlehem.

But Jones & Laughlin gained fractionally against the trend. Copper shares edged on news the strike against Anaconda's Chile mines had been settled, thereby lifting the potential copper supply. Even Anaconda lost almost 1 point.

Audrey Can't Postpone TV Return Forever

By EARL WILSON
NEW YORK — Audrey Meadows is probably going on TV again with her own series—as back in the early Jackie Gleason days.

She's had offers—and as she says, "It's something you can't postpone forever."

Moreover, she's found a stage actor who's just great who hasn't been discovered by TV—and she wants him for her partner in the series.

"I'm not telling you who he is, either," she makes clear.

Audrey is amazed that the Jackie Gleason re-runs are now being seen by a new generation of fans who continue to regard her as a celebrity. Frequently now when she and Bob Six leave a cafe, she runs into autograph-seekers who repeat the famous line of Gleason: "Alice, one of these days—right in the kitchen!"

Ydile Gorme fainted at the foot of the Copacabana stairs after finishing her first show the other night—was helped to her room—then burst into tears during the second show while singing "My Funny Valentine."

Steve Lawrence rushed onto the floor and helped finish the song—then the show was halted. A doctor said it was nervous exhaustion due to sleeplessness and her baby's illness—and that she'll be O.K.

Chinese actress Jadin Wong tells this one on herself: When a producer asked where he could find some Chinese showgirls, she answered, "Have you tried the Yellow Pages?"

THE MIDNIGHT EARL... Tony Perkins almost got clubbed in a Paris riot over Algeria.

Bing Crosby turned down a 175G bid for a TV set that would have included his wife and baby... An oil company will drill on Ricardo Montalban's Mexican ranch...

Walter Stenzel rented an Italian villa with 15 rooms: asked how they're furnished, he said, "With food!"

EARL'S FEARFUL: If modern life seems more complex, it's because of all the gadgets that have been developed to simplify it.

TODAY'S BEST LAUGH: Mrs. Jack Gifford ordered some monogrammed aprons, but had to send 'em back. They had Jack's initials wrong.

WISH IT SAID THAT: As any husband will tell you, marriage is the most expensive way to get your laundry done free.

A man who dieted off 50 pounds was asked how much the process had cost him. He answered, "Fifty dollars to my doctor and \$350 to my tailor..." That's earl, brother.

PET DOCTOR By A.W. Moller, D.V.M.

Q. I would like a cuddly pet, but it would have to be left alone during school hours. What kind of pet would you advise me to get? Margo Rythell, Toronto.

A. There's probably nothing more cuddly than a little Angora kitten, but a kitten of any breed would make a good pet in your given circumstances. Cats are more independent than dogs, and they easily cope with solitude.

A box filled with sawdust or litter takes care of this clean pet's sanitary needs. Boredom won't ruin the fastidious feline, even if you can safely leave a dish of food nearby.

Kittens will amuse and exercise themselves for hours with a ball of yarn, a toy mouse, etc. Despite all this self-sufficiency, the little kitten will still enjoy being played with and cuddled when school hours are over.

Williams Intends to Keep Wearing Traditional Tie

LANSING (P)—The green and white polka-dot bow tie that invariable decorates Gov. Williams' attire is going to continue as his personal trademark.

The governor has worn one since his election to the first of six terms in 1948—even with formal dress, though in muted tones.

Now that his final term as chief executive is about to expire, will he abandon it in favor of more conventional neckwear? A reporter asked.

"I have no intention of doing that," the governor declared.

If so, the familiar tie may be bobbing around Washington, D.C., next year. Williams, an early supporter of Sen. John F. Kennedy's presidential ambitions, is expected to join the new Democratic administration, possibly as secretary of health, education and welfare. Williams still has a sizable supply of the green and white ties which he gives away to friends and favored visitors at the capitol.

Industrial Genius Will Retire at Cleveland

KALAMAZOO (UPI)—An industrialist who built a depression era firm of 25 employees into a \$40-million-a-year business with 2,000 employees then wrote a book on how to do it, has announced his retirement.

J. Seton Gray, who headed Fuller Manufacturing Co. and now is a director of Fuller's parent firm, Eaton Manufacturing Co. of Cleveland, will retire Nov. 30. The firm makes vehicle transmissions.

U. of Connecticut Gets \$1-Million Kellogg Grant
STORRS, Conn. (UPI)—The University of Connecticut has accepted a \$1.03-million grant from the W. H. Kellogg Foundation to

aid in establishing a two-year medical school at Hartford. University President A.N. Jorgensen said the award would be made during a three-year period. Malta has been a British Crown Colony since 1814.

Volkswagen Won't Build Plants in U. S.
NEW YORK (UPI)—Germany's Volkswagen firm definitely has decided against building an assembly or manufacturing plant in the United States.

The recent decision resulted in a great extent from the increase in the sales of American compact cars. Company directors say they estimate Volkswagen sales in the United States would quadruple to January.

Judges to Meet Friday Over Con-Con Plans
MUSKEGON (UPI)—Circuit Judge Noel P. Fox, chairman of the court administration committee, is expected to meet with judges of the Michigan State Bar, and a meeting will be held in Lansing on Friday.

Friday to take up proposals in connection with the projected state constitutional convention. The bar's court administration committee includes circuit and municipal judges, Supreme Court justices of the Michigan State Bar, and a justice of the peace and a meeting will be held in Lansing on Friday.

KENNEDY GOES TO CHURCH — Mousignor J. P. O'Mahoney (right) greets President-elect John F. Kennedy on the steps of St. Edward's Catholic Church Sunday at Palm Beach, Fla., where Kennedy attended Mass. Camera-toting parishioners crowd close to the next president as he arrives for the services.

Castro Is Blamed for 3 Latin Revolts

By United Press International

"Troops in Guatemala, Nicaragua and Costa Rica were locked in battle today with rebels described by the three governments as Communists and 'mercenaries' supported by Cuba's Premier Fidel Castro.

Only scattered casualty figures had been published, but losses at some points were believed to be heavy. Latest reports said loyal forces were in control in all three countries, but did not discount the possibility that reinforcements from Cuba might change the picture at any moment.

Officials in Guatemala charged daily that the weekend uprisings were part of a plot hatched in Cuba to clamp Communist control on all of Central America.

Cuban officials denied any connection with the attacks.

Many Pontiac Area Men Aquire to Bag the Buck

Pontiac and the surrounding area has a good representation among the deer hunters in the north woods today. They are waiting for the opening at 6 a.m. Tuesday.

The hunting lodges and camps west of Hubbard Lake in Alcona County house several hunters from Pontiac. Ralph T. Norvell and R. B. Oliver left Sunday for Camp 24. John C. Cowe, former mayor of Pontiac, has guests at his Cowe-Boys Ranch. His son-in-law, John C. Napley, and Gordon Grubb, both of Pontiac, are

Davis-Britt Marriage Celebrated

HOLLYWOOD (AP)—Negro performer Sammie Davis Jr. wed blonde Swedish actress May Britt Sunday with the help of friends and celebrities ranging from the sister of President-elect Kennedy to the Duke of Bedford.

Miss Britt, a statuesque blonde from Stockholm, almost missed her wedding when a severe attack of intestinal flu with a 103-degree fever bedded her hours before the ceremony.

But she made it to the Jewish rites held under a bower of white chrysanthemums in the living room at Davis' home high above Hollywood's Sunset Strip.

"I felt a little woozy," the bride confessed, "but I was able to go through with it because of the excitement of marrying the man I love."

Later Davis said it was his 35-year-old bride who first mentioned marriage.

"She was the one who popped the question," he said.

Miss Britt, wearing a "sheath champagne dress with short full 'unlashed' sleeves" permit have been issued by the department for 35 areas in Northern Michigan.

Conservation department specialists estimate that 112,000 bucks, does and fawns will fall before the season closes Nov. 30. About 92,000 "unlashed" permits have been issued by the department for 35 areas in Northern Michigan.

Frank Sinatra was best man and Mrs. George Rhodes, wife of Davis' musical arranger, was matron of honor.

Meet in Miami Today Kennedy, Nixon Confer

First Integration of New Orleans Schools Quiet

Violence Lacking as 4 Negroes Enter Despite State Legislation

NEW ORLEANS, La. (U.P.)—U. S. marshals accompanied four Negro girls into two white schools today, the first Negroes to attend white schools here in almost a century.

White spectators booed as three Negro girls walked into McDonogh No. 19. The few Negroes in the crowd applauded. Another girl entered William Frantz School.

Police stood cautious vigil in front of the schools and ordered people to stay on the neutral ground facing the McDonogh School.

At McDonogh, the only disturbance caused by the entry of the three Negro first graders was vocal. There was no other demonstration.

One white woman yelled out as the Negro girls drove in three automobiles with the federal marshals.

"I'm going in there and get my children out. I'm no nigger lover," she said.

SOME WITHDRAWALS — Some white parents entered the building reportedly to take their children out of classes.

At one white man brought three children out of the school a few minutes later, a roar of approval came from the white spectators huddled in front of the building at McDonogh.

At Baton Rouge, there was some indication the legislature—battling to keep the schools segregated despite the federal court order—was ready to give in.

House speaker Tom Jewell, served with a restraining order to prevent his interference with the integration move, said the legislature would quit "work today after a brief session."

State troopers reportedly contacted each school principal telling them to close the school in line with the legislature's directive. But they reportedly were told that the principals were following orders of the school board and remaining open.

At Baton Rouge, Lt. Col. Thomas D. Burbank, assistant director of public safety, said there were 40 officers en route to New Orleans.

At Baton Rouge, Lt. Col. Thomas D. Burbank, assistant director of public safety, said there were 40 officers en route to New Orleans.

On Oakland Area Cooperation

Talks at National Meeting

Oakland County is a prize example that cities "are only as strong individually as they are collectively," Delos Hamlin, chairman of the Oakland board of supervisors told the National Municipal League Conference meeting in Phoenix, Ariz., today.

Hamlin spoke on city-county cooperation in South-eastern Michigan.

After tracing the rapid growth of Michigan's second largest county, Hamlin went on to tell the government officials from around the nation that the development was due in part to separate governmental units realizing that many necessary projects could not be undertaken alone.

He praised the work of the Supervisors Inter-County Committee, consisting of representatives of Oakland, Wayne, Macomb, Washtenaw, St. Clair and Monroe counties, for uniting to solve the numerous problems which stretch beyond county boundaries.

Hamlin, of Farmington, is also chairman of the SICC.

Hamlin was selected to speak on the city-county cooperation problem because Oakland County and Southeastern Michigan was believed to have taken a giant step in this direction.

"Much of the leadership for these projects has been provided by the cities of our county," Hamlin said.

This cooperative effort, he said, will eventually mean facilities built at lower costs, permit the development of an adequate trade area for commerce and industry, and provide greater assurance for the present and future residents that their property values and standards will be maintained at the highest possible levels.

"We believe also that this cooperation will provide a well distributed and equitable tax base so that all of the necessary government services, whether rendered by the cities or by the county, would be provided to commerce, industry, and above all to our residents."

"They will be provided in such a manner as to be a benefit to all."

(Continued on Page 2, Col. 1)

Discount Offer of Position to Vice President

Believe President-Elect Merely Wants to Heal Wounds of Campaign

PALM BEACH, Fla. (U.P.)—John F. Kennedy travels to Miami today for a dramatic conference with the man he defeated for the presidency, Vice President Richard M. Nixon.

The session reportedly may deal with possible appointment of some Republicans to key positions in the new administration.

Kennedy's private plane landed at Miami's International Airport at 10:37 a.m. (Pontiac time) after a short flight from his vacation headquarters at Palm Beach.

An enthusiastic crowd of an estimated 1,000 Kennedy supporters awaited past rope barriers at the airport and surged toward the president-elect as he stepped from his plane, the Caroline.

A squad of Secret Service men and Dade County deputies formed a flying wedge to ease Kennedy through the crowd to a convertible for his trip to Key Biscayne, in the Miami outskirts.

Kennedy, holding only a tiny popular vote margin over his Republican opponent, was accompanied by his old press chairman, New York advertising man K. L. Billings.

Kennedy and Billings attended Coast Preparatory School in Connetquot and Billings spent the night at the Kennedy home at Palm Beach.

Plans for the session were disclosed Sunday as Kennedy lined up a busy week of conferences.

AUGUSTA, Ga. (U.P.)—President-elect Eisenhower will meet with Secretary Robert H. Anderson Tuesday to discuss the White House described as an important conference on foreign aid to underdeveloped countries.

Eisenhower will have a staircase talk with the vice president at the Kennedy home at Palm Beach.

Plans for the session were disclosed Sunday as Kennedy lined up a busy week of conferences.

Making Oakland County Ballots Official

CANVASSERS AT WORK — The election of last Tuesday isn't over as far as these three members of the Oakland County Board of Canvassers is concerned. While most persons were rubbing their weary eyes last Wednesday, canvassers (left to right) Mrs. William S. Dixon of Royal Oak, Mrs. Paul Gorman of Pontiac, and Carlos G. Richardson of Waterford Township, went right to work and began canvassing all the returns from Oakland County. Their findings make the returns official. Richardson said work might be over by the end of the week.

Clark Bar Makers
in Jam With FTC

WASHINGTON (UPI) — The Federal Trade Commission has charged a manufacturer of Clark Bar and other candy products with making discriminatory advertising payments to favored customers.

The FTC complaint announced last night said the D. J. Clark Co. of Pittsburgh, Pa., violated the

antitrust act by granting payments of certain vending machine operators without giving equal terms to competing customers. Clark has 30 days to file an answer.

Car Rams School Bus

VISALIA, Calif. (AP) — A small bus filled with Sunday school children and a car spinning crazily out of control collided near here Sunday. One child and the bus driver were killed; 17 were hurt.

DRAYTON PLAINS

ORPHANED BY TRAGEDY — John Vonnella, 14, is told of the death of his father, 42-year-old paraplegic John Vonnella, by Police Chief Frank Biletta in the West Long Branch, N. J., headquarters Saturday. It was the second tragedy to strike the boy within a day. His mother, a ballet

in the back of her head, was found dead in a wheelchair of the couple's home Friday night. A multiple sclerosis victim, she apparently was killed by the elder Vonnella as an act of mercy. His body was found in a nearby wooded area. Police said he had committed suicide by poison.

Claims Jet Flight Mark

CHICAGO (UPI) — Trans World Airlines today claimed one of its Boeing 707 jetliners, piloted by Capt. Buddy Hagins of Los Angeles, Sunday set a new commercial Los Angeles to Chicago record of two hours, 49 minutes — four minutes hours and 39 minutes.

less than the previous record for the 1,857 air mile flight.

Mars has two satellites. One of them — Phobos — really races around the planet. The satellite revolves around Mars every seven hours, 49 minutes — four minutes hours and 39 minutes.

Hunt for Clues
to Girl's Slayer

Find Body of Child, 9,
Shot in Head Twice, in
Ravine Near Chicago

CHICAGO (AP) — Police combed a forest preserve and a South Side neighborhood today for possible clues to the slayer of a 9-year-old girl whose body was found in a ravine Saturday.

The young victim, Gloria Kowalewicz, an only child, vanished about 8 a. m., Saturday as she walked from her home to St. Mary of Mount Carmel Church four blocks away to attend mass.

Four hours later a truck driver found her body, with two bullet wounds in the head, in a forest preserve southwest of Chicago and about 12 miles from her home. The body, clad in a pink dress, lay on the side of a ravine. Police believe the child was shot to death at the spot where her body was found. Investigators sifted earth at the scene in hopes of finding the two bullets that killed the girl.

Teams of detectives questioned residents of the South Side neighborhood where the victim lived in hopes of finding someone who may have seen the child, and possibly her slayer, as she walked to church.

Articles of clothing and her purse, missing when the body was discovered, were found Sunday at varying distances up to five miles from the woods where Gloria's body was dumped.

Coroner Walter McCarron said the victim apparently had not been sexually molested.

Nine Join Marines
Here During October

The Marine Corps recruiting station in Pontiac today announced nine enlistments from the area for last month.

Enlistees John J. Denihan of 180 Judson St. and John J. Walker of 195 Catalpa St., Birmingham, were assigned to aviation school at Memphis, Tenn.

The other enlistees were George B. Cox Jr. of 1400 Parkway St.; Alfred L. Brown of 217 Elm St.; Holly Gerald J. Carter, 1484 Midland St., Royal Oak; Lawrence A. Farrar, 1771 Sherwood Road, Sylvan Lake; Jerry E. McCarthy Jr., 208 Jones St., Holly; Lee E. Scherer, 4553 Conchmaker Dr., Bloomfield Hills; and Clifford E. Westbrook, 1311 E. 13-Mile Road, Royal Oak.

Dies Getting Ready
for Deer Hunting

By United Press International Michigan recorded its first deer-hunting death more than 36 hours before the season opened.

George Siewloff, 52, Southgate, died of a heart attack while he was tramping through the woods in Forest Township of Missaukee County late Sunday.

Siewloff had gone to the area to set up camp for deer hunting, which opens Tuesday morning.

New Zealand has four large cities, each with its own claim to fame: Auckland, with its superb harbor; Wellington, the seat of government; Christchurch, with its cathedral; and Dunedin, with the country's oldest university.

Emerges as Leader
in Turkish Shake-Up

ANKARA, Turkey (AP) — Gen. Cemal Gursel, 65, emerged today as political leader of Turkey after firing 14 members of the revolutionary government that took over after the ouster of Premier Adnan Menderes last May.

Gursel told correspondents Sunday night the shakeup strengthened the moderate wing of the revolutionary government, a "put an end to discord within the country's ruling National Unity Committee."

Heading the list of those dismissed was Col. Alpaslan Turkes, an extreme nationalist who once supported the union of all Turkish speaking people including those living in the Soviet Union.

Railway Express Finally
Adopts a Trade Name

NEW YORK (AP) — The Railway Express Agency has adopted the trade name REA Express. The new title will soon appear on all company buildings and vehicles.

President William B. Johnson said, "The broadening of the 121-year-old express business into a truly modern supermarket of small shipment services . . . has demanded the more appropriate name."

The company has never had a trade name. Its legal title will remain unchanged. Johnson gave these additional reasons for adoption of the trade name: It is short and implies no service or operational limitations by eliminating the words "railway" and "agency."

Miners Die in Japan

HIJUKU, Japan (AP) — A coal mine caved in near this city Sunday. Two miners were believed killed. The other members of a 26-man crew working underground were rescued.

Floods Bad in Italy
ROVIGO, Italy (AP) — Continued heavy rainfall brought renewed threats Sunday night of disastrous floods in northern Italy's Po River Delta, where 18,000 persons already are homeless.

Life Is Grim, but They Bear It Patiently

Bulgarians Shrug, Plod Onward

By EDWARD KSMERIAN
SOFIA, Bulgaria (UPI)—Life isn't too difficult—in fact it's getting better and better—said an elderly man in Sofia who once lived three years in France.

A small town hydraulic technician saw things differently. "You can't express yourself freely in cafes. There are fewer political prisoners. It is true; that's because people have learned to shut up. If there were a referendum, no more than 2 per cent of the people would approve the regime."

He and his wife had studied seven years in France. "We knew what freedom is, but the others?" He shrugged. On the road to Sofia there are indications that the collective farm

program has not completely stamped out the small peasantry. Here and there, amid vast collective fields, are small patches of corn or small orchards with corn planted hither and yon among the trees.

Occasionally one sees a peasant cottage with chickens in the yard, or shepherds driving a dozen sheep or so.

Stranger than the collective farms is the compulsory hand-washing ritual. On a lonely country road some 20 miles out of Sofia, a militiaman stops all vehicles, ordering the occupants to wash their hands. Several basins of muddy water are lined up on a bench at the side of the road. Some workmen in a truck had

just finished performing this curious ritual and all were laughing as we set to do the same. One of them said the basins were filled with disinfectant. The militiaman didn't seem to take it too seriously either, but he was nonetheless insistent.

All along Bulgarian roads one finds signboards showing the tons of steel produced or the number of pigs raised in 1959 and the quotas for 1960.

One also sees rows of two-story brick houses, all identical, being built to replace hovels.

ROADS ARE BAD
The main roads are usually of asphalt, but often abruptly become dirt tracks, bumpy and potholed, strewn with boulders. The traffic

is mostly trucks. The relatively few cars are mostly of Russian manufacture.

A Russian Volga sells for the equivalent of \$4,320.

While civilians seem eager to talk with foreigners, the army is distrustful of visitors. One young frontier guard said, when asked how long his military service lasted, "I can't tell you. It's a secret."

Lottery ticket vendors are numerous.

There are few shops in Sofia, considering the size of the city. One big department store displays a small radio costing 500 leva (\$76, at 6.8 leva to the dollar). This represents nearly a month's pay for the average worker.

Lightweight men's suits also were selling for about a month's pay. A plain rayon dress sold for a week's wages. Men's shoes cost the equivalent of 4½ to 12 days' pay.

The elderly man suggested that consumer goods and agricultural products were being sacrificed to speed up the country's heavy industry production.

"The industrialization program is going well, almost too well," he said, stretching his arms in helplessness. "But you must remember there are enemies everywhere: Turkey, Greece (Bulgaria's neighbors), they don't like us, it seems. The governments, that is, not the people."

Stopping in villages, a foreign visitor will be surrounded by crowds of onlookers, children for the most part. Some will try to start a conversation in whatever foreign words they know.

That is how the hydraulic expert introduced himself.

"Here we always speak of peace," he said, "but people are waiting for the next war, thinking it will set everything right. They believe the country that thinks itself the strongest will start it, but that Russia will lose."

"We work like cattle here," he said bitterly. "and earn nothing. Farther north in some farms cooperatives the workers only earn two or three leva (39 to 48 cents) a day. Those who can, escape to the cities to work in factories."

"But it's illegal to change like that. If one of my children fled abroad, my wife and I would probably go to prison."

"Many cooperatives are run by just women. If both husband and wife worked there, they could not make ends meet."

Cuba Tries Canada for Vital Spare Parts

HAVANA (UPI)—Cuba has launched an all-out campaign to get Canada to supply the country with the vital needs of the industrial machine confiscated from U.S. interests.

Albert A. Shea, director of the "Trade Institute of the Americas," Toronto, said Friday Cuba is ready to pay Canada in cash for "immediate necessities" such as spare parts, trucks, automobiles and agricultural machinery.

Such supplies would enable the Fidel Castro regime to keep in motion the estimated \$400 million in oil refineries, sugar mills and lands seized from American investors earlier this year.

AP Photo

LIKE AIDE RESIGNS—The resignation of George V. Allen as director of the U. S. Information Agency was announced Friday. Allen, a veteran of high diplomatic posts, will become president of the Tobacco Institute Dec. 1.

Oliver Hardy's Widow Weds Industrialist Price

LAS VEGAS, Nev. (AP)—Film comedian Oliver Hardy's widow married Cleveland industrialist Ben A. Price Friday night.

Lucille Hardy, 65, was married by a justice of the peace to Price, 51, an owner of the Winslow Manufacturing Co., an electronics firm.

Hardy died in 1957. Mrs. Hardy had been in the real estate business in North Hollywood, Calif.

Poor Swainson! No Desk Chair for the Governor

LANSING (UPI)—Governor-elect John B. Swainson may have to bring his own chair when he takes over in Michigan's executive office next January.

Outgoing Gov. G. Mennen Williams has two, but they're both his personal property.

Williams' two chairs will probably go with him when he leaves office. Swainson tried one—a sturdy wooden chair—and said it was too hard anyway. The present lieutenant governor liked the other—a deep leather swivel chair.

Traditionally, the state buys a new office chair for each new governor.

A spokesman said Williams had never received a state chair so if Swainson collects for both governors, he might become a two-chair man also.

Ford Will Lay Off 450 at Ohio Plants, Foundry

CLEVELAND (UPI)—The Ford Motor Co. has announced it is laying off 450 employees at its engine plants and foundry in suburban Brook Park.

A spokesman said the layoffs were caused by schedule adjustments following the introduction of new models last month. The plants now will have a total employment of 9,350 including 7,200 production workers.

Car Invades Airport; Damage—\$40,000

DETROIT (UPI)—Thomas Bezel, 24, was arrested early today after plowing his car into City Airport and crashed into two airplanes, causing an estimated \$40,000 damage.

Police said he had been drinking. Bezel's car first slammed into a single-engine Cessna, badly damaging it, then backed up and plowed into two other planes. The owners of both planes were in Detroit for a convention of soft-drink bottlers.

SAVED HER AUNT — Two-year-old Ronda Pitts, who told a telephone operator, "My aunt is having a stroke," and then hung up, holds a phone in her Madison, N. J., home. Her call saved 42-year-old Miss Helen Day from serious stroke complications Friday, police said. Ronda, who often dials numbers for her parents, was alone with Miss Day when the aunt suffered the stroke. The operator traced the call and notified police.

Says Dems Stole Illinois for Jack

Chicago GOP Chairman Claims 100,000 Votes Were Fraudulent

CHICAGO (AP)—Francis X. Connell, Republican party chairman in Cook County (Chicago), says the Chicago Democratic machine stole Illinois' 27 electoral votes for Sen. John F. Kennedy in the Nov. 8 election.

At least 100,000 fraudulent votes were counted in 14 Chicago wards, all Democratic strongholds, giving Kennedy a thin edge over Vice President Richard M. Nixon, Connell said Sunday.

Kennedy beat Nixon by 5,495 votes in Illinois. Connell said pluralities in the 14 wards for Kennedy and Daniel P. Ward, successful candidate for state's attorney, were incredible. Benjamin Adamowski, Republican, can be beaten in his attempt for reelection as state's attorney, has said he will file petitions today for an investigation of certain precincts as a preliminary to a recount. Ward beat Adamowski by a little more than 25,000 votes.

He Was Careful, but Not Quite Careful Enough

Ernest D. McCardle, 64 W. Tenynson Ave., took precautions to safeguard his money — but not enough, he told Pontiac police this weekend.

McCardle told officers he placed a billfold containing \$190 under a rubber floor mat of his car early Saturday when he parked at a restaurant at South Saginaw and Jackson streets.

Fifteen minutes later he came out and peeked under the mat. The money was gone, along with a jacket and lunch box. He sheepishly admitted to police that he'd apparently forgot to lock all the car doors.

Morse Against Chiang

WASHINGTON (UPI) — Sen. Wayne Morse, D-Ore., says the United States should make it clear that this country would not support Chiang Kai-shek in any threat to make war in Asia.

Mexico celebrates three independence days each year — Sept. 15 and 16 and Nov. 20.

Two Seriously Hurt in Light Plane Crash

LAKEVIEW (UPI) — Two men were seriously injured Sunday when their light two-place plane plummeted nose-first into the woods of Morton Township in Macomb County.

Darrel Snyder, 22, Blanchard, and John May, 20, Remus, were both unconscious when two hunters, Orville Bowley and Charles Raymond, both of Six Lakes, found them in the plane. There were no witnesses to the crash.

Patrick Henry delivered his "Give me liberty or give me death" speech in St. John's Church in Richmond, Va.

Urges Scholarships

WASHINGTON (UPI) — Dr. Bruce A. Linton, chairman of the University of Kansas radio-TV-film department, today urged the broadcasters to offer scholarships and summer jobs to encourage talented youths to enter the industry.

GROVELAND TOWNSHIP — Service for Mrs. Guy L. (Tessie) Randy, 81, of 801 Kent Road, will be at 2 p.m. tomorrow at the Plumettel Funeral Home, Oxford. Burial will be in Ottawa Park Cemetery, Clarkston.

Mrs. Randy, a member of the Methodist Church of Troy, Ohio, died Saturday after an illness of one month.

Surviving is a son, Gerald L.

of Ortonville; a sister, and three grandchildren.

JOHN A. DORAN
WHITE LAKE TOWNSHIP — Service for John A. Doran, 49, of 26th Woodcraft Drive, will be at 2 p.m. Wednesday at St. George Episcopal Church, Milford. Burial will be in White Lake Cemetery.

Mr. Doran, a member of the Pontiac Elks Lodge, died unexpectedly Saturday at Pontiac General Hospital. His body is at the Richardson-Bird Funeral Home, Milford.

Surviving, besides his wife, Ingrid, are his mother Mrs. John A. Doran; two sons, John A. Doran II of Highland and Richard at home; a daughter, Dorothy at home; two sisters; and four grandchildren.

DEBORAH JO HEAD
MILFORD — Service for Deborah Jo Head, infant daughter of Mr. and Mrs. Dorris E. Head of 1154 Pleasure St., will be at 10 a.m.

tomorrow at the Milford Baptist Church. Burial will be in Highland Cemetery.

Mrs. MacPherson Dies of Heart Attack
Mrs. William T. (Sharon) MacPherson, 53, Auburn Ave., a veteran Pontiac school teacher, succumbed to a heart attack Saturday. She was 64.

Service will be at 1:30 p.m. tomorrow at Donelson-Johns Funeral Home, with the Rev. Gale E. Hershey, pastor of First Presbyterian Church, officiating. Burial will be in White Chapel Cemetery.

Mrs. MacPherson taught the fifth grade at McConnell School.

She joined the school system in 1919 and over the years also taught Pontiac youngsters at Longfellow and McCarrist schools.

A native of Decaturville, Mrs. MacPherson was a graduate of Central Michigan University and had attended Wayne State University.

Surviving are her husband; three children, Mrs. Albert Marcora of Waterford Township, Mrs. Frank Seeburger of Hinsdale, Ill., and William Jr. of Albuquerque, N.M.; four grandchildren, four sisters and a brother.

The diameter of Mrs. MacPherson's heart was 4.140 inches, about half the size of the earth.

NORTH G. JAMES
TROY — Service for North G. James, 80, formerly of Troy, will be at 2 p.m. tomorrow at Price Funeral Home. Burial will be in Oakview Cemetery, Royal Oak.

A retired pullman conductor for the Santa Fe Railroad, Mr. James died Sunday after a month-long illness. His home was at 2 Kensington Blvd., Pleasant Ridge.

He was a past member of the Brotherhood of Railroad Trainmen.

Surviving are his wife, Bessie; two daughters, Mrs. Paul Callis of Pleasant Ridge and Mrs. William Malone of Royal Oak; a son, John McGuire of Laguna Beach, Calif.; a sister and four grandchildren.

HORSEPOWER THAT MAKES SENSE FOUR CYLINDERS TO SAVE GAS! THE NEW SWEET RUNNING TROPHY 4 ENGINE FROM PONTIAC PERFORMANCE SPECIALISTS!

It's primed to scoot on less gas! Five hot versions of the Trophy 4. Hits 110, 120 h.p. with stick shift. Puts out 130, 140, 155 h.p. with extra-cost automatic. Every one of these inclined, short stroke, 4 cylinder engines will **move out in a hurry**... sail up a steep hill in high gear... packs the power for quicker, safer passing. (Also available: a 155 h.p. aluminum V-8.) **A choice of two rear transmissions!** Standard stick shift synchromesh. Optional automatic with special feature—in high gear 40% of the drive is straight mechanical—60% is through the torque converter. No slip. Top efficiency.

PERFECT BALANCE

The rear axle drive and transmission are a single assembly. Engine torque is delivered to this trans-axle by a flexible drive shaft. No sudden jerks or rough shifts. Flat! Quiet! *Tempest rides like the big ones!* Less weight in front. Steering is a breeze—even at slow speeds. Added ballast in the rear. The Tempest churns through sand, mud and snow when the others are spinning their wheels. **4 wheel independent suspension!** Each wheel has an independent coil spring. Swing axle in the rear soaks up road shocks at the tire! **112" wheelbase.** Passengers sit between the wheels—not over them. Short enough to maneuver like a sports car. **Big 15" wheels.** Most other compacts have small 13" wheels. Big wheels and tires look better and last longer. **Seats six men.** No big transmission hump. Seats are 58½" wide—almost five feet. **Wide-Track, too.** Tempest wheels are set apart farther than the wheels of the other new-size cars. Gives a solid stance. Secure cornering. *Your Pontiac dealer is the man to see!* There's a four-door sedan and a station wagon. Prices come mighty close—or even beat—the tags on the compacts. If you're figuring on a new car—figure on a Tempest by Pontiac.

Average net farm income in California totaled \$7,572 in 1959, more than triple the national average of \$2,547 according to the California Department of Agriculture.

MRS. JANET ADAMS

Hire Youth Director at YWCA

The appointment of Mrs. Janet Slay Adams as teen-age program director for the Pontiac Young Women's Christian Association is announced by Mrs. Karl Kutz, personnel chairman. Mrs. Adams succeeds Mrs. William Hewett who has served as acting director since April when Patricia Kelley resigned to be married.

Mrs. Adams, her husband Jack, and their seven-month-old baby arrived in Pontiac three months ago from Athens, Ga., where they were students at the University of Georgia.

A piano major at college, Mrs. Adams also taught and has been a counselor at the Atlanta Girl Scout Camp. She will work with Y-Teen clubs in the junior and senior high schools in Pontiac as well as in Lake Orion, Clarkston and Waterford.

Oil Eyelashes

(NEA) For daily wear, teen-agers should preserve the youthful, dewy appearance of their skin and eyes. This means avoiding heavy make-up, particularly mascara. An oil-rich eye pomade can be used instead, followed with the use of an eye-lash curler.

Bearing gifts to help YWCA work in other countries are these representatives of Y-Teens. They represented their states in a ceremony at Washington, D.C., Sunday. In addition to service and recreation, Y-Teens place a strong emphasis on world friendship.

Soda Cuts Odor

(NEA) To remove the odor of onions or garlic from your hands before you go out for the evening, sprinkle baking soda on your hands, add a few drops of water, rub the paste in, then rinse.

Teaches Children Math With Music

AUSTIN, Tex. (UPI)—Mrs. Rebecca Warden has made a child's fascination with jingles pay off in a plan that literally makes multiplication tables child's play.

The grade school teacher's system is simple. She set to music the "Two times two equal four" and "Two times three equal six."

The simple tune picked out on a piano puts a lift into the pesky tables, and makes them sound enough like a television jingle to catch a fourth-grader's ear, she said.

"The beat of the music suggests the answers," she explained. "After the children have sung it a while, they are reminded of the right answers by the beat and pitch of various multiplications."

The song has caught on so that Mrs. Warden now hears it hummed in the school playgrounds. And the idea has spread.

When Mrs. Warden realized other schools could use the method, she had the song copyrighted and a recording made.

SOLD 50 RECORDS

"I've sold quite a few of the records—about 50 now," she said. "I've heard from universities who want the song for teaching the handicapped, from grandmothers who want to help their grandchildren with lessons, and from people who want the song to help their children with homework."

She said the record sales turn into a "nonprofit venture" because she is selling the recordings at cost, and takes a loss in mailing them.

Each week, mail to her 206 Salem Lane home here brings more inquiries about the recording.

"I want them used," she said. "I get requests from many states in the country."

Mrs. Warden thinks musical mathematics is a natural outgrowth of a child's desire for variety and freshness in school work.

ADDS BY RHYTHM

"You can learn just most anything faster by rhythm," she said.

"When you sing the multiplication tables, you're putting sight and sound and rhythm into the information, and the use of more senses makes it easier to learn."

Any child will learn many of the singing television commercials to the last word, and yet can't learn mathematical tables.

The teacher thinks the idea can be used in other school subjects.

"People live so closely with music now," she pointed out. "I think this is a medium of teaching we haven't used enough."

"We all learn with 'crutches,' and if you give a child a musical crutch to remind him of something, he'll remember."

Other Things Replace Camp Pontiac Walls

By DICK HANSON

To escape from the minimum security prison camp in White Lake Township near Pontiac is as easy as walking away.

There are no walls, machine guns or even fences standing between the prisoners and freedom. It's a short walk over the hill to a back road, and Camp Supervisor Howard Grossman tells inmates: "Please let us know if you are planning to leave; we'll pack a lunch and give you a road map."

He knows, as do the men being detained at Camp Pontiac that freedom is easily gained will be short-lived in all likelihood.

SIGNS POSTED

"Off Limits" signs posted along the perimeter of the 40-acre camp serve as a reminder during the daytimes at night inmates may stay within the lighted area around the camp buildings.

A few men have made their break for the outside. Four left this year, and five in 1959. They are all back, only not at relatively easy Camp Pontiac.

The walkways have been returned to the spongy confines of gray-washed state prisons, either at Jackson or Marquette. There, the living is harder and their term longer.

Only one man has ever left Camp Pontiac without the state's leave and not been caught.

That was two years ago. Police everywhere have been alerted to find him, and the FBI joined the search.

He's bound to be caught some where if he's still on this continent — alive.

"Four walkways out of 240 goes this year — that's not bad," muses Supervisor Grossman. "And they're all back under lock and key."

"We're bound to have a few... a few mistakes," he concludes philosophically.

SCREENING NOT PERFECT

The "mistakes" Grossman refers to are made when prisoners at Jackson, Marquette or other prison farms are carefully screened by a battery of psychiatrists, vocational counselors and others especially equipped to delve into the criminal personality.

It is by no means judgment or easy process that men behind bars gain the relative freedom of the prison camp.

The screening process begins when a new prisoner arrives at Jackson or Marquette.

First stop behind the gray walls is the reception center. Here, the expert "brain-pickers" go to work. Before they are through, the experts are convinced they know more about the new arrival than he does himself. Even so, every once in a while the panel is fooled, and a "mistake" is made.

The wrong man is sent to a prison camp, of which there are 13 in Michigan, most of them in the northern part of the state.

There is hardly any reason for an inmate to take French leave from the prison camp.

He has just a few minutes to get behind walls or one of the many state prison farms.

He knows before arriving, he only has to slip once and it's back to the much more distasteful "big house," and for a longer term than he would have served otherwise.

"The man who runs isn't thinking," according to Grossman. "He is functioning by emotion only."

DANGER SIGNALS

"We watch for signs of emotional upset constantly, especially by carefully screening mail and visitors, and even by studying the men when they are asleep," said Grossman.

"If a guy gets jumpy, we watch

him closely and encourage him to tell us of any personal problems."

The supervisor's door is always open to prisoners seeking advice, and he tells them repeatedly to see him before doing anything drastic.

Invariably, the reason an inmate walks away from the camp is due to outside family pressures, explained Grossman.

He receives a letter stating that his wife is getting a divorce or "messing around." His first thought is to get out and take matters into his own hands.

"This is the mistake we're out to prevent," said Grossman, "by convincing the men that there are more rational ways to solve such problems, and that we are willing and want to help."

What kind of criminals come to Camp Pontiac? First, no sex offenders, and, naturally, none serving a life sentence.

For the most part, they are first-time offenders or men who have otherwise convinced prison personnel they no longer have an implacable criminal attitude.

"At best, they come here to learn a trade, but they may stay out of trouble once returned to

civilian life," explained the supervisor.

"At worst, they are intent upon keeping out of trouble, getting through the last few months of their sentence, and being set free as soon as possible."

REKS, VIOLATORS DEPART

If any man becomes a security risk or is guilty of major infractions of camp regulations, or cannot get along peacefully with fellow inmates, he is returned to prison or a prison farm, where he can be guarded closely.

There are invariably about 120 prisoners at Camp Pontiac. They are watched by six camp guards on around-the-clock shifts. Usually no more than two guards are present at the camp at any one time.

They are almost constantly walking around the well-kept camp taking off inmate names on a check list as they see them.

During the day, there will be approximately 20 of the prisoners in the camp.

They will be performing such maintenance tasks as cooking, laundry, painting, mowing lawns and minor repair work. The rest will be working in area state parks and conservation projects.

The prisoners are a big help in keeping the parks and recreation

areas in Oakland County clean and in good condition.

It is here that inmates can learn such trades as carpentry, brick-laying, gardening and forestry.

They can also study as mechanics by working on conservation department vehicles, and equipment in the nearby shop across the road from the camp.

In addition, one of the prisoners teaches evening classes to the sixth grade level in an effort to wipe out illiteracy.

Prisoners also can arrange to take a battery of tests that will qualify them for the equivalent of a high school diploma while at the camp.

"We would never get all the work we are doing accomplished if it weren't for the help we get from the prison camp," explained Donald Van Ness, head of state parks and recreation areas in Oakland County. "Our budget just wouldn't allow it."

Prisoners are paid 35 cents a day by the state for all work.

Not much, but it keeps them in cigarettes.

They also can earn extra money through hobby crafts as many do.

This summer the camp softball team played the Holly Stars in Holly as a benefit to raise funds for the village park. Village officials hope the highly successful game can be repeated next summer.

The Village of Milford has also asked the camp team for an exhibition game on the village diamond next summer to help raise funds for the local boy scouts.

It works both ways, in the words of the camp supervisor, "The men come to realize that they can get a community without reverting to crime."

"That's the whole purpose of a place like Camp Pontiac: where activities and situations are purposely arranged that tend to give a man the opportunity to think straight so he can go straight."

Grossman broke it down this way: "Help a man understand himself better."

"Keep him away from the stifling negative influence of prison."

"Allow him to utilize skills in a community activity, so he will be better equipped to cope with life outside."

"Work with the man, trying to get through to him and correct problems that lead to crime."

"Make him aware of his own potential, so he won't believe he can't live normally — within the law."

If such common sense ideas had been put in practice with these men as youths, they would never have ended in prison, Camp Pontiac, Grossman concluded.

Famous Texas Horned Toad Is Really a Lizard

AUSTIN, Tex. (UPI) — The famed Texas horned toad isn't really a toad but a lizard, say experts at the Texas Memorial Museum.

Several species are found in the Southwest, most of them measuring less than two-and-one-half inches from snout to vent.

Their characteristics are well developed head spines and a fringe of spines along the edges of their abdomens.

Often the horned toad holds its head at an awkward angle, and the museum experts say it is true on occasion that the reptiles expel a stream of blood from an eye.

There are 13 species of the lizards found in the United States, the museum reported.

Tries to Open Safe With Truck

SAN DIEGO, Calif. (AP) — Police here are looking for a safe cracker with a rough technique. He tried to open the Southwest

Supply Co.'s safe over the weekend by ramming it at full speed with a fork-lift truck.

The truck cut a swath through desks, counters and files as the burglar smashed repeatedly at the heavy safe.

The safe was only dented.

Public Discussion to Air Alcoholism

Alcoholism will be the topic of a public discussion at 8 p.m. tomorrow in the Pontiac State Hospital auditorium.

Speakers will be Mrs. Frances Zalant, director of the Pontiac Alcoholism Information Center, and Rev. William LaFontaine, pastor of the Lutheran Church of the Ascension, Waterford Township.

The program is sponsored in the interests of community education by the Oakland County Citizens Committee for Pontiac State Hospital.

Housewife Cleans Up in Kitchen Sweepstakes

STEEPHILL, Tex. (UPI) — Mrs. Danny Cobb is well on her way to equipping her kitchen with winnings from a Chamber of Commerce carnival.

In one week, Mrs. Cobb's name was picked for an ice chest and a radio on one night; the next night she was chosen to win an electric refrigerator, and the following night she was picked as the winner of an electric toaster.

Seek Indelicate Thief

SAN DIEGO, Calif. (AP) — Police here are looking for a safe cracker with a rough technique. He tried to open the Southwest

PREPARING FOR FLIGHT — Two Waterford Township photographers, determined to catch some of the area's beauty from the skies (Bill Nichols (left) and former Navy pilot-photographer Homer Tinney make sure the telescopic lens is right before taking off. They are in the last lap of their film depicting life in Waterford Township.

GM Announces Color Movie Depicts Life in Waterford Twp.

Tyler H. Barrett to Be Comptroller in Detroit; Succeeds Clapsaddle

By REBA HEINTZELMAN

The challenge to capture the beauty, vital living and effects of the exploding population growth in Waterford Township has been met by two of its life-long residents.

They have produced a dramatic movie, "Lakeland Paradise—Waterford Township 1960," soon to be released.

For the last five months, Homer Tinney, a former Navy reconnaissance expert, and Bill Nichols, a nature photographer, have been "candid camera" shooting children on playgrounds, in schools and watching television.

The pair has followed five trucks, photographed construction work and flown high above the township in a plane getting colored shots of the hundreds of scenic lakes and woods.

5,300 FEET OF FILM More than 3,200 feet of film was

used and is being "cut" to make a 45-minute production that will not drag, Tinney said.

The 63-year-old Tinney, who made observation flights in balloons during World War I and was a Lt. Commander in the Pacific in World War II, lives with his wife Maria at 2320 Elizabeth Lake Road.

Nichols has gained a reputation as being one of the finest nature photographers in Michigan. He and his wife Helen live at 4045 Sashabaw Road.

The story deals with a young couple, expectant parents, who are looking for a good place to live.

They take an air trip around Waterford Township and see the breathtaking view of hundreds of small lakes scattered like a patchwork quilt all over the area.

Various depths of the lakes can be distinguished from the air—shallow water, a light green, to the darker color indicating deeper water.

As the little plane glides down over the tree tops for a landing, the panorama of hills, rows of neat homes and winding highways seem to come to life.

In an automobile tour through the area, the young couple sees how Waterford police, fire and government departments operate.

WATCH MEAT CHOPPING In the meat departments of the large shopping centers, the couple watches mammoth sides of beef cut down to chop size-sized chunks.

Many phases of the \$5 million school building program in progress were caught by the photographers as bulldozers tore up hills for new schools, and air-bammers knocked out walls for additions to others.

An unusual—and strictly accidental—shot was made of the southern end of Watkins Lake one day.

Three big Snowy Egrets were standing in the water, totally unaware they would become part of a Hollywood-like production.

Their helplessness in the face of having a whole squad of 200-pound football players come charging at him as he filmed the high school variety team practicing for a coming game.

"How those boys missed knocking me and the camera to kingdom come, I'll never know," he said.

When the narration that was recorded, and the film cut to about half the present length, child organizations, groups and individuals may see the movie.

The producers have secured "angles" to foot most of the bills for making the unique movie, so only a very small fee will be charged for first-hand viewing of Michigan's Lakeland Paradise.

Food Chain Elects VP

DETROIT (UPI) — Paul Borman of Oak Park Saturday was elected vice president of Borman Food Stores, Inc., chairman of the Food Pair market of Michigan. Borman will continue as general manager in charge of operations.

Kennedy Is Assured a Dem-Held Senate

WASHINGTON (UPI) — President-elect John F. Kennedy is assured of having a Democratic-controlled Senate during his first four-year term.

There is no chance the Republicans can overcome their 64-36 minority in the 1962 elections because seven of the Senate seats at stake two years from now are in Southern states which are certain to remain Democratic.

If the Republicans should win the other 12 Democratic seats and hold onto their own 15 which will be decided in 1962, the make-up of the Senate in the last two years of Kennedy's first term still would be 59 Democrats and 41 Republicans, they will face.

Urges Nation to Tighten Up

University Head Asks Fewer Pleasures, More Emphasis on Education

WASHINGTON (UPI) — Dr. Harold C. Case, president of Boston University, says "America will have to settle for fewer television sets, smaller automobiles and fewer material things if it is to defeat the Communist threat."

Case told the annual YMCA World Fellowship Conference Sunday that the effort of educating enough sound leaders will require that Americans "divert a larger share of our financial, material, and emotional resources to sustain artistic, moral and spiritual life."

He said "this may mean... less glittering amusements... but only if we cherish enlightenment and liberal learning with dignity, so that we will forge other diversions in order to provide it with quality, can we educate, train and equip leadership good enough and numerous enough to meet the challenge."

"The unpredictable actions of major world powers for whom freedom is a mirage for weeklings causes confusion and alarm in the democracies," Case said.

Only a re-emphasis on the principles of good character, he added, will prepare the nation's leaders to make the "decisive choices" they will face.

Scientists Eye Planets

Associated Press Science Writer PHILADELPHIA (AP) — There may be true "sandmen" on some yet undiscovered planets, a team of University of Pennsylvania scientists said today.

The sandmen were envisioned as living creatures having silicon—an essential constituent of sand and rocks—as their basic component, instead of carbon. The latter is the key element in the chemistry of all life on earth.

The researchers told about it in a report prepared for the opening of the autumn meeting of the National Academy of Sciences.

The team, headed by researcher M. Abdellil, also envisioned that some day vitamins and hormones, for use in medical fields, might be prepared from sandy substances.

SIMPLE COMPOUNDS The Penn researchers said that for the first time they have prepared new, simple silicon-containing compounds which are closely analogous in both chemical and physical properties to a number of familiar compounds based on carbon.

One of them is a silicon-based "ether" which is the exact counterpart of the widely known painkilling compound—except that it contains atoms of the element silicon instead of the usual atoms of carbon.

"Since all living substances contain both simple and complex carbon compounds," it is somewhat fascinating to wonder whether silicon compounds will, within the next 150 years, be introduced into living substances in place of analogous carbon compounds."

They added: "It is possible that living 'things,' with their chemistry based on silicon instead of carbon, may exist in some of the billions of yet undiscovered planets having an atmosphere of different composition from that on earth."

Case told the annual YMCA World Fellowship Conference Sunday that the effort of educating enough sound leaders will require that Americans "divert a larger share of our financial, material, and emotional resources to sustain artistic, moral and spiritual life."

He said "this may mean... less glittering amusements... but only if we cherish enlightenment and liberal learning with dignity, so that we will forge other diversions in order to provide it with quality, can we educate, train and equip leadership good enough and numerous enough to meet the challenge."

"The unpredictable actions of major world powers for whom freedom is a mirage for weeklings causes confusion and alarm in the democracies," Case said.

Only a re-emphasis on the principles of good character, he added, will prepare the nation's leaders to make the "decisive choices" they will face.

Case told the annual YMCA World Fellowship Conference Sunday that the effort of educating enough sound leaders will require that Americans "divert a larger share of our financial, material, and emotional resources to sustain artistic, moral and spiritual life."

He said "this may mean... less glittering amusements... but only if we cherish enlightenment and liberal learning with dignity, so that we will forge other diversions in order to provide it with quality, can we educate, train and equip leadership good enough and numerous enough to meet the challenge."

"The unpredictable actions of major world powers for whom freedom is a mirage for weeklings causes confusion and alarm in the democracies," Case said.

Only a re-emphasis on the principles of good character, he added, will prepare the nation's leaders to make the "decisive choices" they will face.

Offers to Have Natives Be Partners in Business

OAKLAND, Calif. (UPI) — Although confined to a wheel chair for the past several years, Henry J. Kaiser Jr. is a man with a mission.

The lanky, 43-year-old son of the famed industrialist believes there is a sure way to take the initiative over communism in the underprivileged, uncommitted nations.

American private enterprise, he said, must force partnerships with the peoples and governments of these countries.

And how to do that? By operating in foreign lands with native capital, native work forces, including supervisors, and native suppliers.

Said Kaiser: "This instrument of private enterprise represents the greatest living force we have against communism — the placement of the tools of democracy, in terms of machinery, full employment and private individual ownership, in the hands of our neighbors in the poorer countries."

Kaiser, as a vice president of Kaiser Industries Corp. (60 affiliated companies, \$945 million annual sales), has criss-crossed the continent in recent years hammering the idea of the partnership theme in speeches.

In 1941, while in charge of Kaiser's foreign company to 50 per cent or less. It's better to be identified as a locally-owned company, he said.

Only 40 of Corbala's 5,000 employees are non-Argentines.

But perhaps the most important "partnership" aspect of the Corbala plant is the three-way capitalization. Kaiser Industries put up 30 per cent of the capital, the government put up 20 per cent and the balance came from a stock issue that was bought by more than 10,000 Argentines.

Kaiser described a stockholder as "an individual who, once he has paid his own money for this share in ownership and has participated in the earnings of ownership, will strenuously resist all attempts of foreign governments, or of dictators from within, to collectivize an economy, destroy private initiative and degrade humanity."

Yet the woman was not in sight. Terrell looked up and saw the letter dangling, attached by a clothespin to a string. Holding the string was a woman leaning out of her second-story window.

In 1929 John Thompson had a farm in New York. Now the land is covered by the tallest building in the world — the Empire State Building.

She'd Prefer to Send Her Letters Air Mail

MEMPHIS, Tenn. (UPI) — J. E. Terrell stopped to mail some letters in a mailbox when he heard a woman say "Mail this for me, please."

Yet the woman was not in sight. Terrell looked up and saw the letter dangling, attached by a clothespin to a string. Holding the string was a woman leaning out of her second-story window.

In 1929 John Thompson had a farm in New York. Now the land is covered by the tallest building in the world — the Empire State Building.

Public Discussion to Air Alcoholism

Alcoholism will be the topic of a public discussion at 8 p.m. tomorrow in the Pontiac State Hospital auditorium.

Speakers will be Mrs. Frances Zalant, director of the Pontiac Alcoholism Information Center, and Rev. William LaFontaine, pastor of the Lutheran Church of the Ascension, Waterford Township.

The program is sponsored in the interests of community education by the Oakland County Citizens Committee for Pontiac State Hospital.

Housewife Cleans Up in Kitchen Sweepstakes

STEEPHILL, Tex. (UPI) — Mrs. Danny Cobb is well on her way to equipping her kitchen with winnings from a Chamber of Commerce carnival.

In one week, Mrs. Cobb's name was picked for an ice chest and a radio on one night; the next night she was chosen to win an electric refrigerator, and the following night she was picked as the winner of an electric toaster.

Case told the annual YMCA World Fellowship Conference Sunday that the effort of educating enough sound leaders will require that Americans "divert a larger share of our financial, material, and emotional resources to sustain artistic, moral and spiritual life."

He said "this may mean... less glittering amusements... but only if we cherish enlightenment and liberal learning with dignity, so that we will forge other diversions in order to provide it with quality, can we educate, train and equip leadership good enough and numerous enough to meet the challenge."

Battle Churchgoers in Cuba

Castro Backers in Clash

HAVANA (AP) — Supporters of Prime Minister Fidel Castro clashed briefly Sunday night with Mass-goers in Santiago Cathedral over the reading of its archbishop's anti-Communist pastoral letter.

Shouting revolutionary slogans and chanting Castro's hymn, the crowd of about 60 persons interrupted the services. One woman was injured slightly in the scuffling. Some of those involved were taken to police headquarters but were released almost immediately.

Earlier pro-Castro hecklers broke into each Mass at the Roman Catholic cathedral, but there had been no violence over the pastoral letter, which came from the Most Rev. Enrique Perez Santes.

Entitled "Rome or Moscow," the letter did not mention the Castro regime directly but exhorted Catholics to rely more on their own strength and less on U. S. military and economic support in the war against communism. It was read only in the Santiago

archdiocese, which does not include Havana.

Chain Letters Latch
Sought to British Roads

LONDON (AP)—The chain letter cross is sweeping Britain again, but this time in a good cause—reducing the toll of road accidents.

The British Safety Council sent out 5,600 letters two weeks ago, urging drivers to be careful and asking them to write five similar letters to their friends. The number of letters produced so far is estimated at close to 20,000.

There are 1,200 organizations lending health insurance in the United States.

2 Avon Students Are Elected to MSUO Posts

The Student Senate of Michigan State University Oakland has elected two Avon Township students to serve as officers.

They are Marge Swoboda, 424 Taylor St., vice president, and Les Fingerhut, 116 Albion St., treasurer.

Paul Allen, 481 S. Bellevue Road, Orion Township, was elected president of the group in a recent campuswide election.

Other Senate officers are Lauree Webb of Utica, recording secretary, and Janet Long of Milford as corresponding secretary.

The selection of officers by the Student Senate completed the organization of the student government at MSUO.

Photographers Honor Shutterbug Jackie

SAN FRANCISCO (AP) — The professional Photographers of Northern California Friday sent an honorary membership to a fellow photographer — Mrs. Jack F. Kennedy.

Carl Harless, FPNC president, wrote:

"We wish you every success in your new life and extend our best wishes to our next president, Mr. Jack F. Kennedy."

Mrs. Kennedy once was a professional photographer.

Alaska's Choice Up to Absentee Ballots

JUNEAU, Alaska (AP) — Some 4,000 absentee ballots will decide who gets Alaska's three electoral votes.

With unofficial returns in from 250 of the state's 300 precincts, Vice President Richard M. Nixon had 37,512 votes to President-Elect John F. Kennedy's 35,798.

This gave the Republican candidate a margin of 514 votes. The absentee ballots can't be counted until Friday under Alaska law.

Nearly a score of towns and communities in Arkansas are named for springs.

BEATS PNEUMONIA — Ramon Navarro, star actor from silent screen days, talks with newsmen in his London hotel after his release from a hospital. The 61-year-old Mexican-born actor had been hospitalized with pneumonia.

Federal Controls Removal Asked

Radio-TV Official Says Coverage of Election Proves Impartiality

WASHINGTON (UPI)—A spokesman for the National Association of Broadcasters (NAB) said today the "fair and impartial" radio-TV coverage of the presidential election proved the industry is entitled to freedom from additional federal controls.

Chairman Clair R. McCollough of the NAB Policy Committee told a fall conference in a prepared speech "the experience of last week's national election . . . has shown that broadcasters are able to be fair and want to be fair without being told to do so."

He pointed out that Congress had lifted the "equal time" provision of the Communications Act for the 1960 presidential race to permit the Kennedy - Nixon debates without matching time for splinter party candidates.

"If one can be fair on the national level," McCollough asked, "Does it not follow that he is able to apply the same yardsticks of impartiality at the local and state levels?"

In calling for freedom from governmental control, McCollough, president of the Station Managers, Lancaster, Pa., said "tampering with its (broadcasting's) traditional freedom of action is a form of social sabotage against the people themselves."

He praised the Federal Communication Commission in the light of "indications that the FCC will permit broadcasters to plan their over-all programming on the basis of specific community needs, rather than fixed percentages," to avoid duplication.

PET DOCTOR

By A. W. Moller, D.V.M.

Q. I have two Angora rabbits. How do I care for them in the winter? — Donald Willis, Winnipeg, Canada.

A. Although your little pets have the advantage of built-in fur coats, I still wouldn't recommend leaving them outside in your cold Canadian winters. Domestic Angora rabbits won't instinctively dig themselves deep into the protective ground as their wild relatives do, and many of them have died when left out in extreme cold spells.

Keep the hutch in a garage, shed, or basement, and there should be very little odor if you clean the hutch regularly.

Bed your pets on hay, straw or sawing, and be sure you are feeding a fine quality rabbit pellet. Additional carrots and lettuce provide good winter vitamins.

Feels Market Low Passed

But Goodbody Says Further Irregularity and Testing Possible

NEW YORK (UPI)—Goodbody & Co. says the market anticipates business trends well in advance.

Therefore, if business is to turn up in the spring, or if enough people think it will, the market may have made its low for this year even though further irregularity and testing may take place.

L. O. Hopper says that in more "sophisticated" investment circles there is a feeling that the trend toward lower price-earnings ratios for stocks may be accelerated a little.

The Templeton, Dorothea mutual fund group reports it may soon begin to switch from bonds into common stocks feeling that there are a few bargains around.

Shearson, Hamill thinks that the general environment under the new administration seems likely to be a good one for amusement and leisure time issues, particularly since a shortening of work hours is apt to be a prime objective of labor leadership.

Michigan Indian, Japanese Bride Ready to Travel

TOKYO (AP)—Chief White Bird of the Chippewa Tribe of Northern Michigan is taking home a Japanese squaw he wooed and won through the mail.

The young Japanese bride is Hiroko Ninomiya, a dental technician and oral hygienist who says she is very happy.

The two were brought together through mutual friends. The 45-year-old chief of the Saginaw-Swan Creek-Black River Chippewa Tribe arrived in Japan Nov. 6 to see his bride for the first time.

The chief, otherwise known as George Cook of Durand, Mich., said more than 200 letters have crossed the Pacific in the romance by correspondence.

The civil marriage registration at the U.S. Embassy was completed Friday and "All we are waiting now is the completion of visa formalities for my wife," Cook said.

Miss Ninomiya, who has been working as a technician for a year since graduating from a university, pushed aside all objections from her relatives and parents to marry the American Indian.

Death Claims Former Calhoun Circuit Judge

MARSHALL (AP)—Retired Circuit Judge Blaine W. Hatch of Calhoun County died Friday night in Oaklawn Hospital. He was 71.

Judge Hatch collapsed at his home here Nov. 2 and had been in the hospital since. Members of his family attributed death to a heart ailment.

A member of the circuit bench for 32 years, Judge Hatch retired last year under state retirement and pension laws. He had been active in law at Battle Creek with a son, Gerald, since retirement.

Dakota is the Sioux word for sky, and Minnesota is the Sioux word for sky-tinted waters.

Swainson Is 2nd of Foreign Birth to Be Governor

LANSING (AP)—The youngest man to govern Michigan in 120 years, Lt. Gov. John B. Swainson will be only the second foreign-born citizen to take the post in state history.

Swainson was born in Windsor, Ont. When he was six years

old, his parents moved to Port Huron.

The other foreign-born was Fred M. Warner, who served an unprecedented three consecutive terms from 1905 to 1910. Warner was born in Hickling, Nottinghamshire, England, and was brought to the United States at the age of three months.

Warner's record stay in office was unchallenged until Gov. Williams took office the fourth time in 1955.

Nobel Prize Winner Refused Opera House

SAN FRANCISCO (AP)—Trustees Thursday turned down a bid to lease the opera house Dec. 5 for a meeting billing as principal speaker Dr. Linus Pauling, Nobel Prize winner noted for his opposition to nuclear bomb testing.

Samuel Sayad, president of the board of trustees, said: "We felt the meeting might not turn out as planned and that we might have trouble."

Flint Employees to Get Christmas Bonuses Early

FLINT (AP)—About 2,700 city employees will get their Christmas bonuses early this year.

The Flint City Commission granted \$250,000 in bonuses to employees on the payroll during fiscal 1959-60.

The maximum bonus for regular employees will be \$194.

Checks will be cut by Dec. 1, City Finance Director Olney L. Craft said.

Bonus money will come from the 1959-60 budget and unspent funds set aside for employee insurance benefits.

The last time city employees were granted a bonus was in 1948 when the maximum was \$130.

The famous Houdon statue of Washington—the only one in existence that was made from life—stands in the rotunda of the Virginia state capitol.

News in Brief

Dorothy Russell, 933 N. Perry St., reported to Pontiac police that a burglar stole a purse containing \$9 from her home over the weekend.

Thieves took an undetermined amount of change from two vending machines at the E-C-O-Wash Laundromat, 1165 Jollyway Ave., it was reported to Pontiac police Sunday.

Burglars broke into James Paultry Farm, 203 Lake St., but took nothing, it was reported to Pontiac police over the weekend.

Burglars took \$500 from a cash register at Baldwin-Montclair Shell Service, 725 Baldwin Ave., it was reported to Pontiac police yesterday.

Ten windows and two metal storm doors were smashed in an unoccupied house at 4566 Midland St., Waterford Township, the owner, Nelson Caldwell of Detroit, reported to township police yesterday.

Nehru is 71 Today but Looks Younger

NEW DELHI, India (AP)—Prime Minister Nehru observed his 71st birthday today.

Hundreds of men, women and children gathered outside his home with flowers and good wishes.

Beaming and looking much younger than his years, Nehru chatted briefly with the crowd before rushing off to open an international seminar on cooperative leadership in Asia.

Business and Finance

Josie Has Monkey Tonic Fun

HOUSTON, Tex. (AP)—Josephine, a two-year-old monkey, escaped her cage in a department store Sunday night and entertained window shoppers for nearly two hours.

Every time Josephine threw a potted plant to the floor, the crowd that had gathered outside laughed, Josephine tried to please. Every laugh brought her a smashed potato, 45 in all.

Someone called the store manager and police when Josephine started throwing pots at the crowd. She took one look at store manager Bill Secret and started swinging through the store via light fixtures.

Police tried bananas for a lure but Josephine threw them back. Finally Lois Boyer, assistant manager, coaxed Josephine back into her cage with woman talk.

Secret remarked he might lose the \$49.95 price tag on Josephine.

Bus Plunges Into Creek, Injuring 27 Passengers

SMITHFIELD, Va. (AP)—A Trailways bus carrying 40 persons plunged off a fog-roughed curve into an eastern Virginia creek early today, critically injuring three passengers.

Twenty-seven were taken to a hospital in nearby Suffolk. The ten others were examined by a doctor in this community.

There were no fatalities. The bus was southbound from Washington, D.C., to Norfolk, Va., about 50 miles away. Thirty-nine sailors and one soldier were aboard.

The bus plunged off the highway in a dense fog, missed a bridge over Lawnes Creek, went down the embankment, and overturned in the water.

Names were not available.

Modern farming in New Zealand has an unusual aspect. A three-wheel "aerial cowboys" has been developed. Working aloft in light planes, they spread top-dressing over the many square miles of steep, broken grasslands; they spray crops, and drop stores and material.

PET DOCTOR

By A. W. Haller, D.V.M.

I would like a cuddly pet, but it would have to be left alone during school hours. What kind of pet would you advise me to get? Margo Rydell, Plymouth.

There's probably nothing more cuddly than a little Angora kitten, but a kitten of any breed would make a good pet in your given circumstances. Cats are more independent than dogs, and they easily cope with solitude.

A box filled with sawdust or litter takes care of this clean pet's sanitary needs. Boredom won't make the fastidious feline over-eat, so you can safely leave a dish of food nearby.

Kittens will amuse and exercise themselves for hours with a ball of twine, a toy mouse, etc. Despite all this self-sufficiency, the little kitten will still enjoy being played with and cuddled when school hours are over.

U. of Connecticut Gets \$1-Million Kellogg Grant

STORRS, Conn. (UPI) — The University of Connecticut has accepted a \$1.03-million grant from the W. H. Kellogg Foundation to aid in establishing a two-year medical school at Hartford.

University President A.N. Jorgensen said the award would be made during a three-year period.

Malta has been a British Crown Colony since 1814.

Volkswagen Won't Build Plants in U.S.

NEW YORK (UPI) — Germany's Volkswagen firm definitely has decided against building an assembly or manufacturing plant in the United States.

The recent decision resulted in a great extent from the increase in the sales of American compact cars. Company directors say they estimate Volkswagen sales in the United States would quadruple to break even on an American factory, and that with U.S. compact moving into the market this clearly would be impossible.

Production in German factories still is going up, however, and is expected to surpass 4,000 daily in January.

Judges to Meet Friday Over Con-Con Plans

MUSKOGON (UPI) — Circuit Judge Noel P. Fox, chairman of a committee includes circuit and municipal judges, Supreme Court justices, a justice of the peace and a meeting will be held in Lansing on Friday to take up proposals in connection with the projected state constitutional convention.

Williams Intends to Keep Wearing Traditional Tie

LANSING (AP) — The green and white polka-dot bow tie that invariably decorates Gov. William P. Williams is going to continue on his personal trademark.

The governor has worn one since his election to the first of six terms in 1948—even with formal dress, though in muted colors.

Now that his final term as chief executive is about to expire, will he abandon it in favor of more conventional neckwear? A reporter asked.

"I have no intention of doing that," the governor declared.

If so, the familiar tie may be bobbing around Washington, D.C., next year. Williams, an early supporter of Sen. John F. Kennedy's presidential ambitions, is expected to join the new Democratic administration, possibly as secretary of health, education and welfare.

Williams still has a sizable supply of the green and white tie which he gives away to friends and favored visitors at the capital.

Industrial Genius Will Retire at Cleveland

KALAMAZOO (UPI) — An industrialist who built a depression era firm of 25 employees into a \$40-million-a-year business with 2,000 employees then wrote a book on how to do it, has announced his retirement.

J. Seton Gray, who headed Fuller Manufacturing Co. and now is a director of Fuller's parent firm, Easton Manufacturing Co. of Cleveland, will retire Nov. 30. The firm makes vehicle transmissions.
