

Contractor Buys Mercier Land for Over \$1 Million, to Construct 600 Homes

From Our Birmingham Bureau
BIRMINGHAM — Officials of the Garling Construction Co. of Dearborn have announced the purchase of the former Mercier Farm in Bloomfield Township, and plans for an \$18,000,000 development of 600 homes there over a six year period.

The 323 acres of wooded rolling countryside bounded by Lahser road, West Maple avenue, Cranbrook road and the extension of Lincoln avenue, was bought for in excess of one million dollars, according to Fred C. Garling Jr.

Ragnar Arneson, Ann Arbor designer, has been retained to draw up the plans for the initial homes. Garling said today that construction of three or four model structures may begin within 60 days.

"Slow, careful development is planned over a period of six years, to keep abreast of the latest innovations and improvements in building products and design," Garling said.

Extensive landscaping is planned and a community water system, sewers and hard surfaced winding streets will be included in the undisclosed purchase price of the homes.

Garling added that three different ways to eliminate the sewage problem were being considered, and that sewers rather than septic tanks would be sought.

A smaller development at the southwest corner of Maple and Cranbrook has been halted, by court action with Birmingham officials claiming the development is adding to the city's sewage treatment problem by using an illegal drain.

Boyd I. Walker of the Metropolitan Detroit YMCA will give his fourth in a series of six lectures on preparation for marriage, at 8:15 tonight at the local YMCA. The series is being sponsored by United Church Women of Birmingham.

Tonight's discussion will be on "Mixed Marriages." Questions may be submitted from the floor or handed in prior to the lecture.

City Clerk Irene Hanley has announced that any legal voter

Jury OKs Property Ownership by Habel

(Continued From Page One)
tined, "and all of us agreed, after walking the distance more than six times that we wouldn't park there if we came to Pontiac to shop."

A motion by defense attorney William J. Beer to accept the verdict and another motion to set the verdict aside, submitted by City Attorney William A. Ewart, were taken under advisement by Judge Hartrick.

Habel had been fighting the suit for more than three weeks, claiming he needed the disputed property for future expansion.

He told the jury he paid \$60,000 for the land last August and that eight days later the city approved a move to condemn it.

Beer said during his final argument yesterday that other cities in Oakland County obtained municipal parking sites adjacent to shopping areas and got the land by negotiation, not condemnation.

"The land in question is too far from the city's downtown shopping area to serve effectively as a short-term parking lot," Beer said. Ewart rebutted Beer's argument in a 15-minute address in which he asked the panel to judge the case on its merits and not on "ideas or sympathy."

"The city needs the Habel land desperately for a proposed parking site," Ewart said, "because it is the only property available near the downtown area."

"To procure property on Saginaw street for a multi-story parking garage, as has been suggested by some, would be financially prohibitive and unfair to the taxpayer," Ewart said in closing.

KATHERINE B. LUEBECK

Missionary Nurse to Speak Thursday

BIRMINGHAM — Mrs. Katherine B. Luebeck, missionary nurse of the American Baptist Foreign Mission Society to South China, will address the Women's Mission Union of First Baptist Church at 1:30 p.m. tomorrow.

When Communist forces swept through China, she was placed under house arrest, her movements limited to areas of Szechwan.

She first served as a hospital nurse in China in 1921. From 1934 until 1937 Mrs. Luebeck had charge of a hospital there and directed women's work in two districts.

Thursday's meeting will open with White Cross work at 10 a.m., followed by luncheon served by the Miriam Circle. There will be devotionals and special music.

Firemen Scorched Under Flaming Gas

(Continued From Page One)

Lt. White, "Peter (Woodworth's nickname) was working on the pumper, Capt. Morrissey and I were pulling a larger hose toward the flames."

"Then we heard a big explosion. That's when one of the two tanks on a semi blew up."

"We were showered with flaming gas and knocked down."

"We had to crawl out, as the smoke and flames seemed to be centered above our heads. Fumes from an acetylene torch must have caught fire when the gas tank went up."

"I don't know whether we got out before Peter Woodworth or afterwards."

"Peter's the guy that deserves the credit," continued Lt. White. "He drove the truck out of there."

Lt. White said Woodworth found the exit through blinding smoke.

"He jumped into the truck and had to drive blind, the smoke and flames were that thick. He knew he was outside the garage when the truck hit a light pole across the street from the garage doorway."

The lieutenant said he thought they all were doomed when the flames geysered over them.

"I didn't think any of us would get out of that one," he said. "It must have been more than just blind luck."

"Thank God it's over."

RAF Flying Boat Crashes, Killing 7

PEMBROKE, Wales (U.P.) — An RAF Sunderland flying boat crashed on takeoff today, killing 7 of the 11 men aboard.

All four survivors were injured, two of them seriously. A fifth man was pulled from the wreckage but died a short time later. The other six, trapped aboard, went to the bottom when the four engine plane sank.

Plan Indochina Peace

PARIS (INS)—The French government was reported today considering a plan to ask the U. S. to agree to a relaxation of the trade embargo on Communist China in return for a peace settlement in Indochina.

Local Businessman David Rachwal Dies

David Rachwal, 69, owner of Dave's Men and Boys Store on North Saginaw street for many years, was buried from the Kaufman Funeral Home in Detroit Sunday. He died Saturday at St. Joseph Mercy Hospital here.

Born at Wolsalwick, Poland, July 10, 1884, Mr. Rachwal came to New York in 1904 and moved to Pontiac in 1928. His home was at 67 Ogema Rd.

A charter member of B'nai Israel Congregation, he served as financial secretary of the congregation from 1933 to 1949. According to a charter member, he was the one who held the group together during the early years of its organization.

He had been in poor health due to a heart condition for the past 14 years.

He is survived by his widow, Jane and a son, Sydney.

Mrs. John Roise

Mrs. John (Locella A.) Roise, 79, of 47 N. Johnson Ave., died suddenly at her residence this morning.

Born at Attica Sept. 5, 1874, she was the daughter of John and Sarah J. Hicks Cronover. She married John Roise here Nov. 25, 1903. She was a member of the Baptist Church.

Surviving are a daughter, Mrs. Carrie M. Viola, and a son, Harold Roise, both of Pontiac. Also surviving are three grandchildren and four great-grandchildren.

Funeral will be Friday at 2 p.m. from the Donelson-Johns Funeral Home. Burial will be in Lakeview Cemetery at Clarkston.

Jose Ruiz Varela

Jose Ruiz Varela, 71, of 443 S. Jessie St. died at his residence at 3:05 p.m. Tuesday. He had been ill three months.

Born at Leon, Spain, Sept. 3, 1882, he was the son of Eduardo Ruiz and Ramona Varela.

He came to Pontiac 24 years ago from New Orleans, La., and had retired from his job as a millwright at GMC Truck and Coach Division.

He is survived by two sons and a daughter, Alfred Ruiz of Detroit, Guzman Ruiz of Pontiac and Mrs. Valentina Fritz of Hazel Park.

Also surviving are two sisters and a brother, Mrs. Valentina Ruiz, Mrs. Consuelo Ruiz and Eduardo Ruiz, all in Spain.

The body is at the Pursey Funeral Home.

Joseph E. Wuelfing

After an illness of a week, Joseph E. Wuelfing, 63, of 219 Osman St. died at St. Joseph Mercy Hospital at 6 a.m. today.

Born in Detroit, March 12, 1890, he was the son of Mr. and Mrs. Fred Wuelfing. He came to Pontiac 62 years ago and married Alice Burley here in September 1914.

Mr. Wuelfing was a foreman at GMC Truck and Coach Division in Department 16.

Besides his widow and mother, Mrs. Julia Wuelfing of Pontiac, he is survived by one son and three daughters, Owen, Mrs. Harold Campbell and Mrs. Iris Harrelson of Pontiac and Mrs. Stephen Winchester of White Lake. Also surviving is a brother, Robert Wuelfing of Pontiac.

Funeral will be Saturday at 2 p.m. from the DeWitt C. Davis Funeral Home. The Rev. Ray Lambert will officiate and burial will be in White Chapel Memorial Cemetery.

Three Slightly Injured in 2-Car Crash Here

Three persons were injured slightly in a two-car collision yesterday on South Saginaw street near Central avenue, according to Pontiac Police.

Treated and released for cuts and bruises at St. Joseph Mercy Hospital were Mrs. Audrey M. Brewer, 23, of 671 Sterling St., driver of one of the cars; Mrs. Mary Toth, 40, of Detroit, her passenger, and Ernest R. Green, 37, of 303 S. Marshall St. Police said Mrs. Brewer's car struck Green's when he pulled from a gasoline station onto Saginaw street.

W. S. BROOMFIELD

HOWARD K. KELLEY

Broomfield and Kelley in Race for State Senate

State Rep. William S. Broomfield (R-Royal Oak) and Royal Oak Mayor Howard K. Kelley today announced their candidacy for the state Senate from the 12th District.

Incumbent Sen. George N. Higgins (R-Ferndale) will vacate the post in a bid for the governor's office.

Broomfield, 31, one of the youngest House members, is in his third term and holds the post of speaker pro tem.

In a statement, Broomfield said he would "continue to maintain a sincere approach to the many problems confronting the state and insist upon complete honesty and economy in the administration of public affairs."

Currently, the young legislator is working with the Michigan Water Resources Commission in an attempt to solve water and sewage needs in the area.

At 35, Kelley has served in city government for six years and has served on the City, Parking, Recreation and Retirement committees in Royal Oak.

He took over as mayor Dec. 1953.

"I would like to fill Mr. Higgins' vacancy and see if it is possible

to bring some of the local problems to the attention of the Legislature," Kelly said.

"It is time," Kelley stated, "that the state took a hand in the solution of water problems vexing this area and make plans to alleviate the pollution."

Primary election is Aug. 5.

More Schools Closed as New Storm Strikes

(Continued From Page One)

after two days of storm, were called again about 4:30 a.m. today when snow started.

Lewis Ranshaw, road commission radio dispatcher, called the past three days "the worst three-day stretch of weather in about five years." Some 80 men were working 45 salt trucks and snowplows early this morning, with the full 230-man crew taking every usable truck and snow plow onto the road at 7 a.m.

Pontiac Department of Public Works jumped into the battle at 7 a.m. with four salt trucks and eight snowplows.

Both the DFW and road commission struggled to salt all the hills at once this morning as slippery grades sent cars skidding into traffic jams.

Icy hills tied up traffic on Woodward avenue in Bloomfield Hills; Telegraph below Long Lake road; M-59 at Elizabeth Lake road; East Boulevard from Mt. Clemens to Pike streets and on Perry and Paddock streets.

(Political Advertisement)

Leann W. Harrelson Jr., 18, of 26 Delaware Dr., testified yesterday in a suit charging him with negligent homicide in the auto death of Mrs. Veda N. Coon, 37, of 49 Dwight Ave., last Oct. 9.

He told Circuit Judge George B. Hartrick he was traveling west on Huron street at about 35 miles per hour when Mrs. Coon stepped backwards into the path of his car at Dwight avenue.

"I was about 50 feet from the intersection when I first saw her and when I got about 13 feet away she stepped in front of me," Harrelson testified.

Mr. and Mrs. Clarence Brown of 3840 Elizabeth Lake Rd., said they saw Mrs. Coon standing between the two yellow lines in the middle of Huron street as they traveled east toward her.

Brown said he saw another car (Harrelson's) approaching from the other direction and that he didn't see Mrs. Coon move.

Skid marks at the accident scene indicated Harrelson's auto traveled in a straight line and never crossed the yellow line, according to police.

The non-jury trial is expected to end today, according to Chief Assistant Prosecutor George F. Taylor.

'Save Your Vision Week' Proclaimed

Mayor Arthur J. Law proclaimed March 7 through 13 "Save Your Vision Week" last night at Pontiac City Commission meeting.

Law dedicated the week to "protection and improvement of vision, the most precious of our senses. Representatives of interested local groups attended the meeting. They included Dr. George A. Hart-

less of Oakland County Optometrist Society and Dr. James Quinn of Oakland County Medical Society. Others were Herbert Martin and James McClain of Pontiac League of the Blind and Warner Wasmuth from the Sight Conservation Committee of the Pontiac Lions Club.

Puerto Rico, meaning "rich port," has 2,500,000 inhabitants squeezed into 3,435 square miles. Among American states and territories, only Rhode Island has more persons per square mile.

100 Internal Revenue Positions Available

DETROIT (UP) — The federal government has openings for 100 internal revenue agents in Michigan. A. M. Menninger, internal revenue service district director, said today.

He urged men with commercial accounting or auditing training to apply for permanent civil service jobs paying a starting salary of \$4,205 a year.

New agents will fill vacancies throughout the state. They will get on-the-job training in tax laws and regulations.

Jury service is compulsory for women as well as men in 16 of the states.

Brain Overwork Causing Migraine, Doctor Believes

NEW YORK (INS) — A doctor theorized today that migraine headaches are the price brainy people pay for thinking too much. Brainwork requires enormous amounts of energy, he said.

When energy reserves are depleted, the migraine headache comes like a safety valve to restore body chemistry to a normal balance, the doctor asserted.

Writing in a Medical Journal, Dr. Sol Hirsch of New York City added:

"Unusual intelligence in relation to migraine has simply been a vehicle for easy over-expenditure of energy . . . we know that the man who uses more brain than brawn may quit his desk at five, but his brain will run on."

It's not just thinking that does it, the doctor added. He cited the case of a lawyer who wore himself out talking and developed the agonizing headaches.

One woman patient "leaked energy by knitting in crowded trains, in theaters, while shopping, visiting, watching television, and even in bed before dropping off to sleep," Dr. Hirsch said.

He admitted, however, that he could not explain exactly how the headache operated.

He speculated that the process might be analogous to the convulsions that occur when blood and sugar drops dangerously low. These convulsions cause sugar stores in the liver to be released, thus abolishing the con-

dition that brought on the attack.

Once a man gets the bad habit of brain strain, Dr. Hirsch wrote, it's hard to make him stop.

"The patient must be shown that fatigue of the brain, although it does not warn in the same sense as fatigue of the muscles does, nevertheless interferes with functions."

"He must be reminded . . . that into each day must go a custom-tailored rhythm of work and rest and play and rest."

The physician said he treated his migraine sufferers by giving them a mild stimulant injection as a "crutch," liver capsules to build fatigue resistance; a sedative, to slow them down, and thyroid extract, to stimulate the combustion of sugar for energy.

Ives Concedes Threat to FEPC

Sponsor Admits That Effort to Enact the Bill Would Cause Filibuster

WASHINGTON (UP) — Senate hearings on a bill to set up a federal fair employment practices commission wind up today with its sponsor conceding that any effort to enact it would "face a filibuster."

Sen. Ives (R-NY) said so yesterday when Walter Reuther, president of the CIO, was in the witness chair endorsing the bill introduced by Ives and 19 other senators. Five witnesses were scheduled to testify today, two of them representing church groups.

Ives' bill would set up a federal agency which could force employers not to discriminate against job seekers for race, creed or color, while stressing voluntary methods.

Reuther, recalling that Southern senators had threatened to filibuster against an FEPC bill, told the labor subcommittee many Americans "are sick, tired and disgusted" with campaign promises about compulsory FEPC while Senate rules permit filibusters that would kill FEPC.

"We've got a problem there," said Ives, who also heads the subcommittee. "We face a 'filibuster'."

Nevertheless, the New York senator said, he considers it important to "keep pushing and pushing." He said he believes Congress eventually will put through legislation to guarantee against discrimination in employment.

Invention of the piano is generally credited to Bartolomeo Cristofori in about the year 1700.

Britain OKs Record Defense Budget

LONDON (UP) — The House of Commons approved Britain's record peacetime defense budget last night 295 - 270. Prime Minister Churchill had asked its approval without a vote but the Labor opposition forced a ballot.

The budget, pointed toward a "new look" buildup of British air and atomic strength as a deterrent to war, provides for the spending of 1,639,000,000 pounds (\$4,591,720,000) in the fiscal year starting April 1. It tops the announced out-

lay for the current year by 3,140,000 pounds.

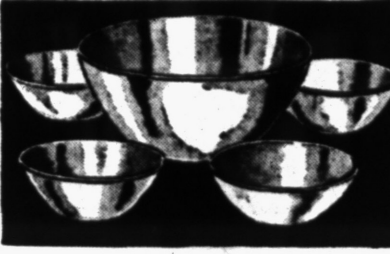

Churchill asked in debate last night that the House accept the budget without a vote to keep the defense question out of "the trough of party bickerings." He said "any weakness or disunity in Britain,

GET VITAMINS
into
YOUR SKIN

TO END DRY, SENSITIVE, FLAKY CONDITION!

Latest Scientific Reports Prove Vitamins in Diet Not as Effective for Skin Care as Those Absorbed Through the Skin!

Unique Penetrating Cream "Carries" Vitamins That Dry, Flaky, Sensitive Skin Needs Most!

"Externally applied vitamins can be absorbed to correct skin-vitamin deficiency!"

This is the recent testimony of chemists and dermatologists, as reported in the country's leading medical journals and newspapers. This news confirms the findings of COTY, a leading maker of fine beauty creams for many decades, with their COTY VITAMIN A-D COMPLEX-CREAM, now in successful use for almost two years.

Skin "Starved" for Vitamins?

COTY VITAMIN A-D COMPLEX-CREAM is a perfectly balanced formula of vitamins your "starved" skin needs most—plus a unique cream base of such great penetrating power that it "carries" the vitamins right along with it.

Scientific research has now proved that even though your diet may include adequate amounts

of both vitamins A and D, it is entirely possible your system does not absorb them efficiently, so they are of no help to troubled skin areas.

Your Skin Must Absorb Vitamins

Likewise, no amount of externally applied vitamins can have beneficial results if it merely "sits" on the skin surface. To secure the greatest benefits, the skin must absorb vitamins! The answer may lie in the unique penetrating quality of COTY VITAMIN A-D COMPLEX-CREAM!

Case histories reveal that flakiness, dry skin lines and rough patches of vitamin-deficient skins disappear with use of COTY VITAMIN A-D COMPLEX-CREAM. Sensitive, "thin" skins seem built up, "filled out"—and bumpy, coarse-grained complexions show remarkable reduction of large pores and blemishes. Discover the amazing changes that occur in your complexion, when you apply vitamins directly to your skin with COTY VITAMIN A-D COMPLEX-CREAM.

FOR A LIMITED TIME ONLY!

JAYNE'S P.W. KILLS PIN-WORMS

(The way has been laid out for you)

Fidgeting, nose-picking and a tormenting rectal itch are often tell-tale signs of Pin-Worms... only Jayne's P.W. kills them! Entire families may be victims and not know it.

To get rid of Pin-Worms, these tablets must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P.W. tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's P.W. tablets, medically approved in England, go right to work—kill Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P.W. Verminuffs... the small, easy-to-swallow tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

JAYNE'S P.W. KILLS PIN-WORMS

India Depending on U.S. Funds

5-Year Plan Has Gap Which Will Need Filling From Outside

WASHINGTON (AP)—The hard facts of India's economic struggle served today to discount speculation she might spurn U.S. economic aid in protest against American military aid to Pakistan.

Not counting help through the United Nations and private organizations, the United States has sent India nearly 400 million dollars in economic gifts and loans since 1950.

The Indian government depends so much upon such economic help that its five-year plan, with two years to go, leaves a gap between how much India expects to spend and how much it expects to earn. Outside economic aid presumably fills the gap.

American officials declined comment on speculation, by the influential New Delhi Times yesterday, as to whether all Americans might be asked to leave India. But avail-

able figures showed what a heavy loss that would entail for India.

There was no U.S. comment, either, on Prime Minister Nehru's demand for the withdrawal of American members of the U.N. cease-fire mission in Kashmir. Nehru told the Indian Parliament Monday that the United States, by agreeing to give military aid to Pakistan, had lost its neutral status in the Pakistan-India dispute over Kashmir.

Chinese Reds Send Mei Touring Army Camps

HONG KONG (AP)—The Chinese Reds, taking a cue from Marilyn Monroe's highly successful tour of South Korea, have sent Mei Lanfang touring Communist army camps.

But there is one big difference. Mei is a man.

A veteran actor, he is among the world's best-known female impersonators. The use of men in women's roles is common practice in the Chinese theater.

Development of the electric furnace, to replace open hearths at steel plants, is sponsored jointly by electric utility companies and the bituminous coal industry research agency.

Prof Studying Blood Donors

Housewives' Response to Flint Tornado Call Prompts Research

Count on the women to come to the rescue in an emergency. A Michigan State College psychologist has proof that it's true in major disasters, too.

Mrs. Housewife, in fact, has emerged as the heroine in a study of those who donated blood at the Lansing Red Cross center following last year's Flint tornado.

More women than men turned out to give blood and more women than men also donated blood for the first time in their lives.

Dr. Harry Grace, assistant professor of psychology at M. S. C., explains his findings are part of a study in whether it's possible to get any insight into past crises and events when no psychologists were on hand to watch.

To investigate one angle of the problem, Grace is studying Lansing blood donations from May through August of 1952, and the same period in 1953 with special emphasis on June 9 and 10—the two days following the Flint disaster.

Dr. Grace believes that everyday needs for blood donations "are filled by the few." But in the case of an emergency the reserve population, especially Mrs. Housewife, comes forward.

Grace says this response by groups and individuals in a time of crisis has very important political, ethical and social consequences.

Normally blood drives appear to depend on groups to which individuals belong, rather than on the individuals themselves, the psychologist noted.

A point of some concern, he says, is that this emphasis on the group, rather than the individual "is not in keeping with the long tradition of individualism."

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little **FASTENEX** on your plates. This alkaline (non-add) powder holds false teeth more firmly and more comfortably. No gummy, gooey, sticky taste or feeling. Does not stain. Cleans "yellow odor" (denture breath). Use **FASTENEX** today at any drug counter.

which has had such an important part in the American way of life.

In addition to studying the numbers and sex of Lansing donors, Grace and his team plan to interview the donors to find out why they gave blood, and if any one social or economic group answers such a call for help more than another group. He also wants to find out if their motives differ when they give blood a second time.

In addition to the Lansing study, another approach is being taken by Dr. Grace on the M. S. C. campus where a blood drive just ended. Donors were asked to complete "I donated blood because..." and to list the person who influenced them to give blood.

New, Fast Test Shows ACTH in Bloodstream

NEW YORK (INS)—The development of a fast, minute-by-minute test that measures the amount of the potent "trigger" hormone, ACTH, in your bloodstream was announced today by the American Cancer Society.

The new method may make it possible to tell—with real accuracy—whether you're carrying an overload of worry, fatigue, hunger or any other stress and strain.

It also should clear the way for key advances in the understanding and control of the many diseases that involve the body's hormone system, from cancer to arthritis to some mental ailments, the society said.

The new method of ACTH measurement was worked out by Drs. George Sayers and Katherine L. Sydnor of Western Reserve University in Cleveland.

Central High School Robbed for 3rd Time

DETROIT (INS)—Thieves broke into Central High School in Detroit last night for the third time in a month and escaped with an undetermined amount of cash from a safe in the principal's office.

The intruders in each case smashed a hole in the wall enclosing the safe. Burglars last night, however, ignored partly-completed repairs on a previously battered hole to make one of their own. A total of \$100 was taken in a similar burglary Feb. 20.

New York's first subway was constructed in the 1860's and ran for about one city block. The fare was 25 cents.

Carnival-Weary Orleanians Face Reality of Lent

NEW ORLEANS (AP)—Littered streets and tired faces marked a solemn end today to the carnival season.

The climax came with the daylight reign of Rex, Lord of Misrule and Comus held away by torchlight last night.

Most of the city was costumed and masked for its gala holiday. An impromptu strip tease popped up at points to enliven the crowds.

Masking ended at nightfall.

The balls of Comus and Rex closed the social activities. At the stroke of midnight the court of Rex visited the court of Comus, in deference to Comus' seniority. The monarchs drank a toast to the end of another carnival season and the beginning of the 40-day Lenten period and the city's return to realism.

Police reported they handled 551 complaints, compared with about 200 for an ordinary day. There were 103 automobile accidents and 56 cases of drunkenness. John Albert, 53, was shot to death after he broke up a fight between two women.

Australian farmers harvest their wheat crops in January.

Between the ages of six and 18, the average American child develops one or more decayed teeth each year.

WHY BUY LESS THAN THE BEST?

Glamour that packs a wallop!

—in the fabulous Hornet, and two great companion cars at prices starting near the lowest!

If you think fine cars are inclined to be slow, foot, heavy to handle, we've a surprise for you!

Waiting and ready to thrill you is a Hudson Hornet, U. S. Stock-Car Champion—unmatched anywhere! Or, if you prefer, there are the Hornet's glamorous companion cars: the Wasp and the Jet. Each is alive with power from new Instant Action Engines with Super Induction—the quickest acting

power—you've ever seen—in any driving range.

Because of Hudson's low center of gravity (due to their exclusive "step-down" design) they are the smoothest, easiest handling cars imaginable. Perfected Power Steering* and Improved Power Brakes* are available if you wish. Come to see us. Try a Hudson Hornet, Wasp, or Jet, for pure glamour that packs a wallop!

New, lower price for this 1954 Hudson Hornet Hollywood Hardtop!

1954 HUDSON HORNET

The **HORNET** The **WASP** The **JET**

For 1954, more powerful than ever. Luxurious interiors with Bedford Cord fabrics harmonized in color with sparkling, new exterior colors.

Spectacular running mate of the Hudson Hornet, gives you Hornet-like glamour and power in the low-medium price field: at a new lower price for 1954.

Compact edition of the Hornet, with outstanding gas economy and handling ease. Has the amazing roadability of the Hornet. Prices start near the lowest.

Ouster Upheld by Presbytery

Rev. Claude Williams Unfroked on Heresy Charge Last Month

DETROIT (AP)—A special judicial commission's unfroking of the Rev. Claude C. Williams on a charge of heresy has been accepted by the Detroit presbytery. The 59-year-old Presbyterian minister was convicted last month and ordered removed from the ministry. The Detroit presbytery accepted the commission's finding last night. Williams, now a resident of Helena, Ala., was wartime industrial chaplain in Detroit. He said he will appeal the order to the church's "highest courts." He can appeal to the synod of Michigan and thence to the church's general assembly.

The commission, composed of five ministers and four laymen of the Presbyterian Church in the U.S.A., also convicted Williams of failing to make proper reports. It reprimanded him for this. A charge that Williams followed the Communist line was dismissed. Rep. Velde (R-Mi), chairman of the House Un-American Activities Committee, said Williams leaned toward communism. With respect to the heresy charge, Williams was found to have held doctrinal views "contrary to the Holy Scripture and creed of the church." The Rev. Dr. Henry J. Walch, commission head, said Williams was found evasive regarding his "beliefs about the deity of Christ." The commission decided his views opposed the church's authorized doctrines, Dr. Walch said.

U.S. January Fatalities Same as One Year Ago

CHICAGO (AP)—The nation counted 2,900 traffic fatalities in January, the same toll as in January a year ago. Fatalities declined 14 per cent in the cities but gained 5 per cent in rural areas.

The number of power shovels and draglines in use in U. S. surface coal mines has more than trebled in the last decade.

Report Pope Spent Fairly Good Night

VATICAN CITY (AP)—Vatican sources reported again today that Pope Pius XII passed a "fairly good night" and that his slow improvement of the past several days continues.

There was no official announcement on the condition of the ailing pontiff, who yesterday observed his 78th birthday and the 15th anniversary of his election to the papacy. But sources at the Vatican said he has slept well during the past

seven nights and that this is aiding him in his progress toward recovery from his ailment, tentatively diagnosed as gastritis.

Repeals Gag on Press

SYDNEY, Australia (AP)—The New South Wales Cabinet agreed last night to repeal the state's "press gag" law designed to force newspapers to reveal their sources of information about alleged government shenanigans.

A Jack rabbit can run as fast as a good race horse.

Anniversary SpecialFiring Figures
Still QuestionedDems Demand More
Data on Ike's Ouster
of Security Risks

WASHINGTON (U) — Democrats on the Senate Civil Service Committee voiced dissatisfaction today with an accounting of the administration's security risk cases given yesterday by Chairman Philip Young of the Civil Service Commission.

Sen. Monroney (D-Okla.) said Young's testimony "left me a lot more confused." He added that he and other committee Democrats want to ask Young more questions and that they also will insist on questioning security officers in individual government departments.

Chairman Carlson (R-Kan.) of committee said Young would be recalled although no definite date has been set. He said in an interview he was convinced Young's figures "are all right."

"I certainly don't believe these government departments would put out inaccurate listings," he said.

Young told the committee that the number of "security risks" cut off the federal payroll between May and the end of 1953 now has been raised to 2,247 from the 2,200 figure last used by President Eisenhower.

He said 383 of these had information of a subversive nature in their files. But he conceded he did not know whether even one of the 383 actually was fired for that reason. He also said under close questioning that he could not say for sure whether any were disloyal.

This was the civil service chief's first public testimony on the security dismissals issue and Democrats on the committee made it quite clear they were still displeased with his explanation.

Some Democrats have criticized the announcement of over-all figures on "security" separations which they claim leaves the impression with the country that most were Reds allowed by the Truman administration to remain on the government payroll.

They have made repeated demands for breakdowns showing how many federal employees quit or were forced to resign for perversion, loose talk, drunkenness and unreliability, as well as for disloyalty.

Former Transit Employee
Enjoys Busman's Holiday

CINCINNATI (U) — Television is not as entertaining as a bus ride,

according to Calin Beam, 86. His hobby is riding buses.

He is not particularly interested in the kind which travel coast to coast. He merely likes to ride from his home to downtown Cincinnati. He then takes another cross-town.

It's not an expensive hobby for working 55 years with the Cincinnati Transit Co., he was presented a lifetime pass upon his retirement in 1947.

He'll Remain a Stranger

TEL-AVIV, Israel (U) — Israel papers reporting on travelers passing through Lydda airport named C. Pichayaronarongsankarm — 22 letters. He hails from Thailand.

Radioactive Gold
Used to View Liver

LOS ANGELES (UP) — Doctors, through a new technique of using radioactive gold, now can visualize cancer, abscesses and cysts within the livers of human beings.

The new technique was developed by the University of California at Los Angeles Medical School and Los Angeles Veterans Administration Center doctors.

It is based on the ability of certain liver cells to pick up and retain 80 to 90 per cent of colloidal gold injected intravenously. A sensitive instrument known as

scintillation counter registers gamma radiation from the radio-gold and electronically activates a stylus that plots the distribution of radioactivity in the liver.

Doctors are able to detect cancer, abscesses and cysts because liver cells in those areas are destroyed and appear as blank spots on the picture.

About 25 million Americans have chronic diseases.

Whooping Cranes Lead Very Solitary Existence
 ROCKPORT, Tex. (UP)—Whooping cranes—there are only 24 still in existence—are pretty solitary birds.
 The big birds spend their winters at the Aransas National Wildlife Refuge, Julian Howard, refuge manager, says the male whoopers stake out exclusive territories for their families.
 Unmated cranes frequently spend the winter alone in their feeding areas. Two or three adult cranes sometimes associate—but they seldom mingle in groups of four or more.

Lansing Lawmakers Act on Bridge Bill

LANSING (AP)—A bill re-creating the International Bridge Authority has passed the Senate and gone to the House.
 The authority, a 19-year-old agency seeks the construction of a bridge or tunnel between Sault Ste. Marie, Mich., and Sault Ste. Marie, Ont.
 Sen. William A. Elsworth (R-St. Ignace) said the new law was sought to capitalize on legislation creating the Mackinac Straits Bridge Authority. Provisions in the latter law are regarded favorably by bonding houses, he said.
 The measure also eliminates the \$18 million ceiling which the authority could spend on a bridge under the present 1935 law. Elsworth said the ceiling was regarded as too low now.

Bananas were marketed wrapped in tinfoil in early days.

Senators Have Busy Day, Bring Out FEPC Measure

LANSING (AP)—For the first time in history a Fair Employment Practice (FEPC) bill is out on the Senate floor awaiting a vote.
 Ignoring refusals by a House committee to release similar legislation for action, the Senate State Affairs committee reported out the Diggs-Brown-Blondy FEPC bill which is widely backed by Negro groups.
 The bill is the same as the Crampton bill killed in the House committee. It is modeled after the New York state law, minus New York's penalty provisions for violators.

The measure would create a fair employment practices commission which could investigate discrimination in job hiring because of race, creed, color or national origin and issue "cease and desist" orders.

Its fate in the Legislature is doubtful, some leaders agreed. If it survives a Senate vote it must run the gauntlet of the hostile House committee again.

In the action-packed day yesterday, the Senate voted to make chemical tests for drunkenness admissible in court trials, to pay probable judges pensions of \$4,000 a year maximum and to require local hospitals to meet state standards.

The House Ways and Means Committee, braving election-year criticism, reported out a bill to raise legislators' total pay from \$3,900 a year to \$5,000. The present salary is \$2,900 a year plus \$1,000 for expenses.

The Conlin plan to revise the sales tax diversion amendment was reported also for House action despite the last-minute objections of the powerful Michigan Education Association.

The Senate joined the House in passing a bill to retain the present \$70 a month maximum old age assistance payment if Congress fails to re-enact present legislation to that effect.

But the bill must go back to the House for a decision on a Senate amendment. The Senate attached to the bill another measure, once defeated in the House, to permit old age assistance recipients to earn \$25 a month without losing their pensions.

The drunk test bill, which now goes to the House, would not be compulsory for persons arrested. However, if they consent to take the test the results must be submitted to the court at their trial.

The bill sets up a legal presumption that anyone with less than 0.5 per cent of alcohol by weight in their systems is sober, that between 0.5 per cent and 0.15 per cent there is no proof of either sobriety or intoxication and that more than 0.15 per cent is proof of drunkenness.

Eight senators voted against the bill because it applies to all criminal cases. They argued it should be confined to drunk driving cases.

The House voted to make it a felony to attempt to improperly influence a grand jury, but against a bill to make it a crime to solicit secret information from a grand jury witness. It voted to increase workmen's compensation coverage to employers of two or more, instead of four or more employees.

The Miracle in Your Medicine Chest

You wonder what this miracle could be and whether you have it in your medicine chest. Yet, this miracle is a drug which you, very likely, use more than any other—one which can be found in almost every American home. It is Aspirin, a familiar name to us all, yet in the 50 years since it was first introduced to the public, Aspirin has probably given relief to more people than any other drug. Doctors are still finding new uses for it. Aspirin belongs in your medicine chest, and when you have Renalt Aspirin, you can be sure "There is no finer aspirin made." Each tablet contains 5 full grains of highest quality pure aspirin. Each tablet dissolves almost instantly to help give you prompt relief from simple headaches, neuralgia, discomfort of colds and muscular aches and pains in addition to helping to reduce fever. You will find Renalt Aspirin in many different sizes for your convenience and in the special 1-grain tablets for children, pleasantly flavored with orange or raspberry. Ask for Renalt Aspirin at your Renalt Drug Store, today.

ARTHRITIS PAINING YOU? THEN READ THIS

"For rheumatism and arthritis, I'm convinced that O-JIB-WA BITTERS can't be beat," says Mrs. Lewis Eden, 464 S. Main St., Adrian.

"People don't realize what awful pains arthritis can cause until they actually suffer themselves.

You people who have painful arthritis will know how I felt for several years; two years of which I was right down with it. I had arthritis terribly in my neck, feet and knees, and my fingers were all puffed up and knobby. My knees hurt bad too, and it was all I could do to get around. I had to pull myself out of a chair and most of the time, could hardly turn over in bed. I tried O-JIB-WA BITTERS after learning of it through my newspaper and although I have tried lots of things, nothing ever helped me like O-JIB-WA. In three weeks I could see some improvement and in a couple of months, I was all better. I can truthfully say that I feel fine now. Because it has helped me so wonderfully, I tell all I meet who suffer from rheumatism and arthritis to get a bottle of O-JIB-WA BITTERS from their druggist and give it a fair trial. Many of my friends say it has helped them, and my mother who is 85 years old is taking it with equally good success. Besides helping my arthritis, O-JIB-WA has proven to be an excellent tonic, as it has helped my nerves and I sleep much better. I'll always have some O-JIB-WA in the house as I'm convinced that O-JIB-WA BITTERS can't be beat."

300-Horsepower Performance and priced for below it

The Look of Tomorrow is in every '54 BUICK Today
 With completely new "years-away" styling—keynoted by the dream-car design of the panoramic sweep-back windshield.

Come drive the CENTURY biggest horsepower bargain of 1954!

THE invitation you see headlined here calls for action—and comparison.

For you have to see and drive the 200-horsepower CENTURY—and check its local delivered price—to know how it puts other automobiles in this Buick's dollar class on the spot.

Look for yourself—and you'll see what we mean.

Look at styling, new-day features, visibility, interior modernity, ride comfort, handling ease—we believe you will find nothing on the automotive horizon to equal the CENTURY on all counts.

But what will prove to be the most eye-opening news of all is the power buy you make in this spectacular Buick.

When you compare—when you check the facts—you find that you are buying more horsepower per dollar in a CENTURY than you get in any other standard-production American automobile, bar none.

And it is horsepower that gives you brilliant performance, greater economy, new safety—for here you get the highest power-to-weight ratio in all Buick history.

Why not come in and see the whole story come alive when you take the wheel of a Buick CENTURY?

We know of no better way to prove to you that this gorgeous, glamorous sweep-of-automobile is the power buy of the year—by far.

Find Liquor Quicker

WHITEVILLE, N. C. (AP)—Deputies sheriff are becoming experts in the art of finding liquor caches. On one raid they had to move a dresser and raise a board in the

floor to find 60 bottles of bonded whisky. On another, they found 11 half-gallon jars after raising a window sill.

Cuba's irregular coastline provides 40 good harbors.

Bob Considine Says:

Itinerant Evangelists Find Los Angeles an Open Ear

LOS ANGELES (INS)—Southern California is a preachers' paradise. Itinerant evangelists seek out this area in droves and find ready-made congregations among old folks who have chosen this land of smoggy sunshine as the best possible place to live with their complaints.

A lot of them do well enough to take large ads in the Saturday papers and buy radio time, though none has ever hit the ecclesiastical jackpot won by Aimee Semple McPherson, a phenomenon of what Pegler called "the era of wonderful nonsense." But they try, and there are many pretenders to her empty throne.

"Fire—power—glory," read a recent ad featuring the picture of an attractive looking young woman named Paul Henschel.

"God, falling in the salvation. Healing revival now in its fourth week at the Belmont Theater.

"Evangelist Paula Henschel. Called by many as the 'Aimee' of yesterday. One of the nation's leading women evangelists with the deliverance message of hope for the sick."

Last Sunday evening found her "preaching and praying for the sick." Her sermon subject was billed as "an important question answered after 6,000 years. The prophet Job asked this question."

In the same paper, one A. Lewis Kelton offered:

"Lecture—the subtle power of the super-conscious mind and the pyramid triangle system for individual success."

A. Earl Lee modestly offered a "miracle service" at 2:30 p.m., Sunday. Bob Herald, who bills himself as "Holy Spirit anointed evangelist," advertised a bargain for Sunday evening which many Angelenos must have found irresistible: "I saw God destroy the world—colored slides of Japan and China."

Fire and brimstone were scheduled also at the First Church of Mystical Christianity, wherein Dr. Edwin J. Dingle preached a sermon entitled "Your own atomic power—its chain action in God's eternal truth."

Two "world renowned mediums," Reva, Walter and Lula Taber held forth at the First Spiritualist Church of Hollywood, with an 8 p.m. "Message service—Trumpet—Materialization—Readings."

But the big news in preaching circles over the past weekend in the Los Angeles area was the appearance at "The World Church on the Hill-top" of Marjoe "The Miracle Boy."

Marjoe, a wispy of a boy in long pants and jug ears, is 10 years old. Boy and boy, he has spent half of his life preaching, having made his professional debut at five.

He has been written up in national magazines and been in the news-reels.

The Miracle Boy, the big ad said, "... has packed the greatest auditoriums in America."

"Marjoe was a master preacher at the age of 5. 'Plays 120 bass piano accordion."

"Plays the electric organ and other musical instruments."

"Prays for the sick."

"Also see the youngest song director in the world who travels with Marjoe."

Sure hated to miss that one.

New Danish Party Seeks Investigations

COPENHAGEN, Denmark (U)—Denmark's newest political faction—the National Youth party—made its election debut yesterday in nationwide balloting for local officials.
Its platform: "Investigations like those carried out by Mr. McCarthy in the United States."
Its total vote: 115.
The Social Democrats (Socialists), which have the largest bloc in Parliament and control the government, were the big winners yesterday though the local voting has no bearing on the national Parliament or government. The Socialists gained 57 seats and now hold council majorities in 61 of the

nation's 104 towns and metropolitan Copenhagen boroughs.
The big losers were the Single Tax party, who retained only 5 of the 45 council seats they won in the 1950 elections, and the Communists, who won places on only 16 councils.
Half a Million Parisians Reside in Hotel Rooms
PARIS (U)—Because of the housing shortage, 500,000 Parisians, or 12 per cent of the metropolitan population, live in hotel rooms, according to Deputy Leo Hamon, who said:
"One of the disasters resulting from this situation is the large number of broken families. A nation which supports such a situation is in a permanent state of sin."

Board Suggests Offer for Engravers

NEW YORK (U)—A fact-finding board has recommended that AFL photo-engravers get the same wage offer they rejected in striking six major New York newspapers last December—a \$3.75 weekly "package."
The federal study group split 2-1 on the decision, with AFL President George Meany dissenting.
The ruling is not binding, and possibly could lead to a resumption of the unprecedented strike which shut down all major Manhattan newspapers except the Herald Tribune for 11 days. The Tribune suspended publication during part of the strike.
Union comment was not immediately available after the decision

was announced last night. It was reported, however, that the union would meet Sunday to study the board's finding.
Scientists Study Whistle Sounds in the Ionosphere
STANFORD, Calif. (UP)—Stanford University's electrical engineers are eavesdropping on mysterious "whistlers" in the ionosphere 700 miles beyond the earth's surface for clues to the makeup of that outer region which man must know before he attempts space travel.
The so-called whistlers sound more like a buggy-whip lashing through the air. Scientists believe they are caused by bundles of electro-magnetic energy set loose

by lightning flashes.
Some whistlers, research indicates here, methodically arc back and forth between two distant points of earth, passing en route through the outer ionosphere.
The strange sounds eventually also might point the way toward less expensive long-distance telephone calls. Indications are they could be used instead of powerful transmitters.
The Air Force's Cambridge Research Center is financing the study.
Dogs Repay Kindness
FORT FRANCE, Ont. (U)—When the temperature fell to 16 below zero, Pete Kuchinski, a bachelor, let eight stray dogs into his home for shelter. Then he left for work.
Firemen said the dogs jarred loose a stovepipe. Kuchinski is looking for a new home.

An average adult man eats 1,625 pounds of food a year.
Magnesium is the lightest of the commercial metals.

Happy Is The Day When Backache Goes Away . . .
Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up at night or frequent passage. Don't neglect your kidneys if these conditions bother you. Try Don's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Don's give happy relief from these discomforts—help the ill-maintained kidneys and flush out waste. Get Don's Pills today!

Senate Credits WAAC Service

Gives Girls in Wartime Auxiliary Equal Status With Wacs

WASHINGTON (AP) — The Senate wants it understood that the Waacs were just as important to the nation's World War II effort as the Wacs.

As of now, the Waacs legally never were on active duty. A bill passed by the Senate yesterday and sent to the House would change this and give the girls in the WAAC credit for active duty

providing they didn't quit the military back in 1943.

Money and prestige are involved as far as the former Waacs are concerned. It's all because of one word, "auxiliary."

WAAC, you see, stands for Women's Army Auxiliary Corps. It was in existence from May 14, 1942, to Sept. 30, 1943.

At that time, the WAC came into being. That stands for the Women's Army Corps. No "auxiliary."

The girls in the WAC were, by law, on active duty. But the Waacs were legally just auxiliaries.

The bill, written by Sen. Saltonstall (R-Mass.) at the request of the Defense Department, would give the Waacs credit for active duty status so long as they stayed on military duty after the auxiliary

service was discontinued.

Approval of the bill, Sen. Duff (R-Pa.) said, would enable former Waacs on active duty or in the reserves now "to qualify for increased longevity pay and retirement credit."

Sees Indochina Armistice as Red Bait for France

TAIPEH, Formosa (AP) — Nationalist China's Premier Chen Cheng said today Russia is using the possibility of an Indochina armistice as bait to lure France from the Western camp and block ratification of European defense plan.

But, he told Nationalist officials, he doesn't think the French will bite. He predicted that Russia will be forced to show her hand on Asian questions at the Geneva conference on Korea next month.

Symphony Plays National Anthem for First Cellist

DALLAS, Tex. (AP) — Lev Aronson, first cellist of the Dallas Symphony Orchestra, was late for rehearsal the other day. When he showed up conductor Walter Hendl gave him a dirty glare and then ignored him.

"Let's go back to No. 5," said Hendl to the orchestra, which instantly burst into "The Star-Spangled Banner." Aronson had just left federal court and had become a naturalized citizen.

John Rosenfield, music and drama critic of the Dallas News, who sponsored Aronson, says the former Buchenwald concentration camp inmate is so thorough a citizen that the other orchestra members now call him Tex.

States Will Reveal Test Areas for Polio Vaccine

NEW YORK (AP) — The National Foundation for Infantile Paralysis has decided to let individual states announce the areas selected for tests of the newly developed polio vaccine.

The foundation said yesterday that state health authorities will announce the areas on a staggered basis, with first tests to begin this month. Original plans called for the foundation to name the test areas.

Slezak in Formosa

TAIPEH, Formosa (AP) — U. S. Under Secretary of the Army John Slezak arrived today. He will confer tomorrow with president Chiang Kai-shek.

17 ROKs Seek Office

SEOUL (AP) — Seventeen South Korean officers, including a rear admiral, have been discharged from service to run in the May National Assembly election, the Defense Ministry said today.

GET VITAMINS INTO YOUR SKIN

To End Dry, Sensitive, Flaky Condition!

Unique Penetrating Cream Carries Vitamins that "Starved" Skin Needs Most!

"Externally applied vitamins can be absorbed to correct skin-vitamin deficiency!" Recent testimony of chemists and dermatologists, as reported in leading medical journals and newspapers, confirms the findings of COTY, maker of fine beauty creams for many decades, with their COTY VITAMIN A-D COMPLEX-CREAM, now in successful use for almost two years.

COTY

"Vitamin A-D"
COMPLEX-CREAM

—a perfectly balanced formula of vitamins plus a unique cream base of great penetrating power—"carries" vitamins into "starved", dried-out skin. Scientific research has now proved that even though your diet may include adequate amounts of both vitamins A and D, it's entirely possible your system does not absorb them efficiently, so they are of no help to troubled skin areas. Likewise, no amount of externally-applied vitamins can have beneficial results if it merely "sits" on the skin surface. To rebuild itself, the skin must absorb vitamins! The answer to both problems may lie in the unique penetrating quality of

COTY

"Vitamin A-D"
COMPLEX-CREAM

Case histories reveal that flakiness, dry skin lines and rough patches of vitamin-deficient skins disappear with use of COTY VITAMIN A-D COMPLEX-CREAM. Sensitive, "thin" skins seem built up, "filled out"—and bumpy, coarse-grained complexions show remarkable reduction of large pores and blemishes. Discover the amazing changes that occur in your complexion, when you apply vitamins to your skin with COTY VITAMIN A-D COMPLEX-CREAM. Available at better dept. & drug stores

Conducted Monday Evening

Moose Unit Has Initiation

New initiates into the Women of the Moose include Mrs. Eva Welch, initiated in honor of Mrs. Lyle Streeter, social service chairman; Mrs. David Fairbotham and Mrs. Leona Clevenger, also initiated in honor of Mrs. Streeter.

The regular initiation was held Monday evening at Moose Temple. Junior Regent Mrs. F. B. Huston spoke on Moosehaven, located at Orange Park, Fla., and Mrs. Charles Meabon, Moosehaven chairman, was program chairman.

College of Regents Day was held Sunday by Women of the Moose at Moose Temple, with college members exemplifying the ritualistic ceremony.

Participating were Mrs. Victoria Ryan, past associate state dean; Mrs. William J. Mahar, College of Regents chairman, and Mrs. C. J. Cavalier, all of Pontiac, and Mrs. Florence Knight of Flint. Other visitors from the Flint chapter were Mrs. Evelyn Perry, graduate regent, and Mrs. Marie Cheney.

Mrs. Ryan and Mrs. Mahar, guest speakers, were presented

with gifts. Initiated into the order in honor of Mrs. Mahar was Mrs. Fred Reich.

Plans were announced for a St. Patrick's Day luncheon to be held March 17 at the home of Mrs. Michael Blahut, honoring Mrs. Howard McCandless, senior regent.

Soap Dish Doubles as Cigarette Box

Plastic soap dishes have joined the parade of double-duty home items. One hinged variety in several popular shades can also be used as a vanity, cigarette, or jewelry box.

Dirt slides off plastic in soap and water, so wash these dishes frequently to keep them pretty and sanitary.

Store Meat at Once

You should unwrap meat and store it away in the refrigerator the moment you get it home from the store. And, of course, frozen meats should be kept frozen until time to use.

MR. and MRS. ELI BRENDEL

Their 50th wedding anniversary will be observed by Mr. and Mrs. Eli Brendel Sunday with an open house at Friendship Hall, Central Christian Church. The Brendels, who live on Mathews street, have a son-in-law and daughter, Mr. and Mrs. Richard L. Weppner, residing at Watkins Lake.

But the Lady Had Nerve

Coincidence Paved Way to Fame as Photographer

MUNCIE, Ind. (INS) — A petite girl photographer who has won national awards for her press photographs, credits her career to a rare coincidence.

But most of Ruth Chin's acquaintances think it was not coincidence, as much as it was consummate nerve backed up with the capacity to master a difficult trade quickly.

Ruth retells the incidents that led to her first job in 1946 as a press photographer for the Muncie Press-Star. The American born girl of Chinese parentage had studied at John Herron Art Institute and the Chicago Art Institute and also obtained an AB degree at MacMurray College, with the idea of becoming an artist.

"After I got out of college, I had \$200 left, so I bought a Speed Graphic camera. I thought it would help my art career."

"But I couldn't understand how to operate it from printed instructions, so I took the camera back to the store where I bought it." A reporter for the Muncie Press-Star was in the store. He noticed the camera and asked where she was working. When she said she had no job, he told her there was an opening on his newspaper. Ruth laughed.

"I applied for the job. When the editor asked if I could handle a Speed Graphic, I told him: 'I have one of my own.'"

"I held the job for five years before I finally told anyone at the newspaper the truth."

By that time Ruth was an expert photographer and had won several awards.

She is a member of the National Press Photographers Association, the Photographers Association of America, and Theta Sigma Phi.

(Advertisement)

Although Ruth has taken pictures while leaning out of airplanes and clinging to buildings, she was hurt only once in the line of duty. She fell while climbing a fence in a tornado-devastated area.

The most difficult shot she could remember was one of a wild monkey riding on the back of a hog.

Her nearest brush with death came when she was shooting a huge mass of steel being moved by a magnet. A fuse blew out and the steel fell, narrowly missing the girl photographer.

Cotton Tips Useful

Cotton-tipped sticks have found their way from the nursery to the dressing table. They also deserve a place among one's cleaning equipment. They are wonderful for getting at crevices in carved wood.

FLORENCE MCNALLY

Mr. and Mrs. Lawrence McNally of Van Dyke are announcing the engagement of their daughter, Florence, to Robert Gardner. He is the son of Mr. and Mrs. Robert Gardner of South Merrimac street.

Slate Named by Literary Organization

Mrs. J. H. Baker Elected President for Coming Year

Mrs. J. Harry Baker is the new president of Women's Literary Club and Mrs. Dale Moats is first vice president, Mrs. Harry Vernon is second vice president and Mrs. Q. Don Breen and Mrs. H. O. Swett are recording secretary and corresponding secretaries, respectively.

The list of officers for the year from October 1954 until June 1955 also includes Mrs. Bessie B. Baker, treasurer; Mrs. Victor E. Nelson, auditor; Mrs. Jess H. Troyer, press and publicity chairman; Mrs. Fred Manes, parliamentarian; Mrs. Mary Todd, historian, and Mrs. Mabelle Wilson and Mrs. Norman Buckner, directors.

New officers were elected Monday when the group met at the YWCA. Hostesses for the meeting were Mrs. Frank Mobray and Mrs. Herbert Sampson.

Mrs. Moats reported on the City Federation of Women's Clubs board meeting held in February, and "A History of the Michigan State Federation of Women's Clubs, 1895-1953" was purchased by the group to be circulated among the members.

Mrs. Wilson announced that City Federation of Women's Clubs will meet Monday at 1:30 in the YWCA. The group voted to send a delegate to the Michigan State Federation of Women's Club Convention in Grand Rapids in March and April.

The club decided to enroll a member in the Adult Education Institute to be held in Ann Arbor in May. Mrs. George H. Kimball Jr. was made an honorary member in recognition of her outstanding work in the club, and tribute was paid the late Mrs. Otto Sachse, a former president.

Mrs. Pearl Kline was welcomed into membership and members signed the American Heritage Foundation Freedom Scroll. Selections were sung by the Pontiac High School Girls Ensemble under the direction of George Putnam.

Lanolin Is Fine Conditioner for Lifeless Hair

Well styled hair is essential if a woman is to give the appearance of smartness.

But the smartness of any head of hair depends as much on the condition of the hair as it does the styling. Frequent trips to the beauty shop and choice of the most popular hair stylist in town won't produce the chic appearance you desire unless your hair is vital, and alive looking and glowing with a youthful, natural sheen all its own. Each strand of hair should have a springiness to it that bespeaks perfect hair health.

And with all the new lanolin preparations on the market today, there isn't an excuse in the world for a woman to have dull, lifeless looking hair... unless a serious skin ailment is present.

A lanolin conditioner is ideal to overcome the effects of over-bleaching; over-permanenting; over-exposure to sun, wind and rain. Choose one rich in concentrated lanolin.

March Bride-Elect

Maxine Hunt of Mio was honored recently with a miscellaneous shower given by Mrs. Robert Massie of Fiddle road and Mrs. Donald Denhoff of Davisburg at the Massie home.

Maxine will speak her vows with Ralph McKinstry of Birmingham March 6 in Mio. She is the daughter of Mr. and Mrs. Archie Hunt of Mio, and her fiancé is the son of Mrs. Hazel McKinstry of Birmingham. Twenty-seven guests were present at the shower.

Pontiac Council of PTA Elects New Officers for Coming Year

Presidency Taken Over by Mrs. William Wright

State and Local Legislation for Schools Discussed, Explained at Meeting

The Pontiac Council of PTA elected officers for the coming year at Hawthorne School Tuesday afternoon.

Mrs. William Wright was named president; Mrs. William Mihalek, first vice president; Mrs. Welton Sherman, second vice president; Mrs. Wayne Weaver, recording secretary; Mrs. Merlin Sanderson, corresponding secretary; Mrs. William Anderson, treasurer; Mrs. Francis Oak, historian, and Thomas Temple, auditor.

Mrs. Wright, program chairman, introduced members of the panel conducting a symposium on state and local legislation.

J. Cecil Cox, assistant superintendent of Pontiac schools, discussed the Conlin bill. He traced the history of state aid to education, stating the percentage of sales tax revenue allocated to the schools by several amendments. Beginning next year, the state school aid will be allocated according to the current number of children in school and in the area.

The Conlin bill would do away with these amendments and would allocate two cents of the three-cent sales tax to be used for education. Out of this fund the state would charge a collection fee and would take out the retirement fund for school personnel.

The state matches the 5 per cent of salary, up to \$180 a year, which now is paid into the school retirement fund by the teachers and other school personnel.

This would reduce the amount of money to be used in the schools to approximately the present level, and that level might be further reduced when considering the greatly increased enrollment expected in the near future, Mr. Cox reported.

Theodore Wiersema reported on progress of several measures relating to schools and education now before the State Legislature.

Mrs. William Hilderley gave an account of the legislation now in progress in connection with the Children's Psychiatric Hospital in Northville. This project was endorsed by the Michigan Congress of PTA in 1933.

Other bills concerning special education for handicapped children, and vehicles stopping both ways for school buses were also reported on.

Robert St. Clair of the Pontiac Chamber of Commerce reported on local legislation and civic improvements. Two propositions appearing on the ballot at the coming election concern the allocation of millage into the public improvement program and expansion of Pontiac General Hospital.

Such improvements would include expansion and building for the library, a public safety building, an auditorium, improved park and recreation facilities, increased fire protection and the building of grade separations.

A three-fifths majority vote of property owners is needed to pass the Pontiac General Hospital expansion program. This would use \$1 on each \$1,000 of assessed valuation, half of which would be for interest on bonds issued, the other half to be held in escrow to be used only to supplement the hospital surcharge on patients from outside of the city of Pontiac.

There would be no increase in the present tax rate, as the pro-

gram would start in 1935 when Pontiac will have paid off its present indebtedness. Pontiac's tax rate at present is 20 per cent less than other cities of comparable size; industry pays 53 per cent and business 15 per cent of total city taxation.

Mr. St. Clair stated that both programs are essential to the growth and progress of Pontiac's future.

The policies for the structure of the teachers' scholarship fund were discussed and approved. An annual fund of \$500 was set, with April designated as Scholarship Fund Month. Each local PTA will then put on a money-making project, the proceeds of which will be donated to this fund.

MOMS Gather With Mrs. Pitts

Members of Unit Two, MOMS of America, Inc., met Tuesday in the North Roselawn drive home of Mrs. L. C. Pitts for a schoolgirl luncheon and business session.

It was decided that Mrs. Carl Cox will replace Mrs. Duncan McVean who resigned as recording secretary.

An invitation was extended by the Clawson unit for the group to attend a cooking school on March 9 and a social event on March 22. Thank-you notes were read from the March of Dimes office and from the Oakland County Tuberculosis Sanatorium.

Members who will attend the state board regional meeting to be held in Ferndale on Monday are Mrs. Edgar Thomas, Mrs. William Jones, Mrs. Bessie Clark, Mrs. Bessie Brown and Mrs. McVean. Mrs. McVean will be hostess for the March social meeting.

Soap Is Sure-Fire Beauty Treatment

There must be something pretty special about a luxurious soaking in the soapsuds routine—because when picturing ultra glamour in the movies, a gal is always surrounded by billowing soapsuds.

This sure-fire recipe for beauty should be practiced by all of us—the longer and more often, the better.

Photographed before sailing aboard the Ryndam from New York to Paris is Dorothy Chapin of Ivy street, who has arrived in Paris on the first stop of a tour of Europe. She and Marilyn Haffey of Toronto, Ont., plan to visit Germany, Austria, Italy, Switzerland and Spain on the trip.

Florida Hues Move North

MIAMI, Fla. (INS) — A new color combination from sunny Florida promises to brighten up the winter of cold-conscious Americans.

The combination of two lush tropical tones—sea sage and golden coconut—was developed by Miami decorator James Merrick Smith for southern Florida living. But the colors proved so popular they'll be seen nationally soon in fabrics, rugs, tiles, wallpaper and clothing fashions.

Sea sage is a soft green, almost a silvery blue green, inspired by Miami's foliage.

Golden coconut is a tawny, rich gold created by Smith and his associate, James Willis, to represent both the real gold in Florida's history and the sun-drenched tropical southern Florida peninsula.

Smith and Willis first used these colors to decorate a Florida home. The application of sea sage and golden coconut, accented by cayenne pepper and Jamaica brown, proved so successful that at least 30 big firms so far have adopted the new tints.

Four nationally known fabric firms are producing materials featuring the new shades. A custom rug-maker has a new design based on the colors. There's also a sea sage tile and a golden coconut terrazzo flooring, as well as a handprint golden coconut wallpaper.

The Fashion Group of Miami featured the colors at a special program. A Miami newspaper recently devoted pages and pictures to the new combination.

Most non-Floridians will see the new colors in fashions as well as in furnishings. Miami designer Jay Anderson has done a whole wardrobe in sea sage and golden coconut. Both colors are described as complimentary to blondes and brunettes, and excellent for redheads.

Metropolitan Unit Accepts Members

Mrs. Harold Clason and Mrs. Wilmore Green were welcomed as new members by the Ladies Auxiliary to Metropolitan Club Spirit Six Tuesday when the group met in the clubrooms on South Perry street.

Mrs. Frank Cohoe and Mrs. Annabelle Ross were also accepted into the group as honorary members.

Five members will go to Sturgis Saturday for an all-day round table session of the Ladies Auxiliaries. They are Mrs. Reuel Baker, Mrs. Ralph M. Dean, Mrs. Charles Evans, Mrs. Alda Fairman and Mrs. Clifford Hickmott.

Mrs. Dean and Mrs. Ray Wilson had charge of entertainment and luncheon and Mrs. Robert Koch was a visitor at the meeting.

Style Show Brings Spring to Icy City

Although it was cold and windy outside, Pontiac women got a glimpse of spring Tuesday evening when Tipacan Chapter, American Business Women's Association, held a fashion show and card party at Elks Temple.

Colors, silhouettes and fabrics varied. Colors stressed were both vivid new shades and the traditional navys, browns and grays, while silhouettes emphasized two extremes—the tubular shape and the molded bodice with a full skirt.

Mrs. Marvin Barnett was commentator for the show, and general chairman for the event were Rhoda Henshilwood and Mrs. Lawrence Woodley. Proceeds will be used for self-improvement and educational purposes.

Modeling the spring fashions were Mrs. Kathryn Sumpter, Mrs. Calvin Warner, Mrs. Lorenz Vashinder, Mrs. Albert Anselmy, Mrs. George Schroeder, Mrs. John Nicolls, Mrs. Irving Tasco and Miss Henshilwood.

Among committee workers for the event was Mrs. Roger Dean, chairman of the ticket committee,

assisted by Mrs. Harry Derringer, Mrs. Donald Berryman, Mrs. Earl Atkinson, Mrs. William Kellogg, Mrs. Carroll Welch and Mrs. George Wilmet.

Mrs. Ossie Gates, handled publicity, with Mrs. Evelyn Cole;

Piety Hill DAR to Meet Tuesday

Piety Hill Chapter of DAR will gather Tuesday at the home of Mrs. Mark Harris on Hawthorne road, Birmingham.

Mrs. William D. Lent-Koop, state director of the DAR, will speak on "What Makes the DAR Tick."

Following the meeting, tea will be served by the assistant hostesses including Mrs. Royal Paulette, Mrs. Robert T. Garrison, Mrs. Warren Pease Jr., Mrs. Harry L. Sevin, Mrs. Richard Garlick Jr. and Mrs. Ellsworth Cramer.

Brass Will Shine

To clean up unlacquered copper or brass, use a solution of salt and vinegar.

Mrs. Frederick Roughton, tallies and cards; Mrs. Dorothy Brooks and Mrs. Elizabeth Stump, prizes, assisted by Mrs. Chauncey Berdan, Mrs. C. E. Hewitt, Mrs. Tennis Morris and Mrs. Charles Cook.

On the social committee were Mrs. A. C. Benter Jr. and Mrs. T. R. Nellis; refreshments, Arlene Newcombe and Frances Phillips, and courtesy, Mrs. Robert Terry, Mrs. Harold Rollinson, Mrs. Joanne Callahan, Mrs. Cramer Wilson, Mrs. Clara Franklin, Mrs. Herbert Childress, Mrs. Laverne Bantien and Mrs. Millicent Swindeman.

Others on the courtesy committee were Inez Versaw, Mrs. Edward Clawson, Mrs. H. C. Van Hise and Mrs. Jennie Tillman.

Don't Use Abrasive to Clean Linoleum

Never take a shortcut by using abrasives to clean your kitchen linoleum.

These "shortcuts" will prove costly because they'll wear out the linoleum. Use only mild soap and water.

Rub Leather Gloves After Washing

When the leather has been tanned for washability, gloves wash very well in soap and water. But you do have to remember to manipulate the fingers and body of the gloves while still damp to restore their original softness. Blow into the gloves to keep the fingers from sticking together while drying. And tissue paper, stuffed into the fingers, will speed the drying.

A non-abrasive cleaning powder on a soft damp cloth will clean starch from an iron.

Try It Turn Bag Into Costume

Here is a way to make simple costumes for play fun, school plays, or to use as a game at a party. We have had paper bag masks and entire Indian costumes made from paper sacks, so here is another idea to add to your collection of ways to use large dry-cleaning bags. Ask Mother to save

the bags which cover your dry-cleaning clothes. In the drawing I have shown a fortune-telling smock and a costume for St. Patrick's Day. You can make these for another holiday in the year or make designs on them to suit any occasion. The designs can be put on with crayons, watercolors, poster paints, seals, cutout designs, or even bits of material sewn on.

The fortune-telling smock can be used at school fairs. To judge where the arm holes should be, slip the bag down over the person who will wear it and mark the arm slits. Cut these out in a half circle shape so that the bag will not bind the arms of the wearer.

Then, enlarge the neck circle. This can be large enough to slip right over the head, or make it fit around the neck and tape a back slit for closing. You can use a ribbon or a cord for a belt. Make your costume different!

Top-of-Stove Shrimp Are Suggested

Mrs. H. S. Bruder Serves Them With Horseradish Sauce

By JANET ODELL

Pontiac Press Food Editor
A few weeks ago Mrs. H. S. Bruder of White Lake wrote us for some recipes. She sends frequent boxes of cookies to her son who is away from home, and wanted some new ideas for bar cookies. When she wrote her thanks, she included a recipe for us to use.

Top-of-the-Stove Shrimp suggests a different way of frying shrimp. Mrs. Bruder, who says she goes for gadgets, considers the shrimp devienier she bought just "super." It makes cleaning the shrimp an easy task.

TOP-OF-THE-STOVE SHRIMP

By Mrs. H. S. Bruder

2 pounds fresh or frozen shrimp
1 1/2 cups sifted flour
1/2 teaspoon salt
1 egg
1/2 cup milk
1/2 teaspoon baking powder
Shell, devein and wash shrimp. Make a batter from the rest of the ingredients. Dip the shrimp into the batter and fry in a skillet on top of the stove. Put in only enough oil or fat to cover the shrimp halfway.

Brown on both sides. Place in oven to keep warm while frying the rest of the shrimp. These are delicious served with a horseradish sauce.

London's famous Piccadilly Circus was named after Piccadilly Hall, a 17th century house built by a retired tailor and maker of 'picadilis,' a kind of ruff collar.

Gray and white checks over an oxford. The belted dress is banded at the bosom. Gray yarn-dyed worsted dress add a note of line and white pique forms a bow at the spring to this Herbert Sondheim original. neckline.

Automotive retailer sales volume during 1932 totalled \$38 billion.

Girl Asks How to Deal With Snoop

This Nosey Person Wants to Know All About Private Life

By EMILY POST

This question is asked by a young girl: "How is one to discourage a person who insists upon asking direct personal questions about our friends and our activities around the house? Dad says just to ignore the questions, but that is not always as easy as it sounds."

"Moreover, the fact that this person is so curious that she has to ask such questions in the first place suggests to Mother that it would be wise to put her off and not tell her the whole case in point, or she might just make it up and fill in her own details if ours are lacking. Will you give us your advice?"

Answer: To most of the questions you probably could say that you don't know—because unless you are as conscious of every small detail as she seems to be, you don't.

Dear Mrs. Post: Are there any rules about who lights whose cigarette when several people start smoking at the same time?

Let's say a man offers his cigarette case to several others with whom he is sitting before taking one himself. Is he then supposed to get up and go the rounds lighting these cigarettes before lighting his own?

Answer: He would offer a light to the woman (or women) nearest him. Then, in most cases, another man lights the cigarettes of those farther away or the women perhaps light their own before he can reach them.

Dear Mrs. Post: When dance programs are used at a girl's dance, who should fill them in? Do the girls arrange this ahead of that evening or leave it for the boys to do?

Answer: Excepting at a man's college prom, where each man beforehand fills the card of the girl who is his guest, cards are given to men and girls when they arrive at the dance and are filled gradually there.

For pet-lovers—these gay iron-on motifs do quick color! No embroidery—no sewing—no applique. Just a stroke of an iron—playful kittens romp over guest towels, aprons, children's clothes. In a bright combination of brown, orange and light green they turn plain fabrics into prints.
Iron on! Jiffy! Washable! Pattern 565 has 12 designs in color; six, 4x3 1/2 to 6x4 1/2, six 1 1/2x1 1/2 to 2 1/4x1 1/4 inches.
Send 25c in coins for this pattern—add 5 cents for each pattern for 1st-class mailing. Send to 124 Pontiac Press Needlecraft department P. O. Box 164, Old Chelsea Station, New York 11, New York. Print plainly pattern number, your name, address and zone.

Charles Dickens' home, 1 Devonshire Terrace, London, still stands. It was here that he wrote "A Christmas Carol" and most of "David Copperfield."

Beauty Clinic

By Edythe McCulloch
EYEBROWS

The eyes are our most important feature and, yet are often neglected in our grooming. Properly shaped eyebrows are the basis of eye make-up and as a rule this is all that is necessary. The shape and shape of the eyes, the width between them, and the shape of the face and forehead are all factors to be considered when arching the brows. An easy way to keep your brows neat and attractive is to have your beautician shape them at regular intervals. But if you prefer to do them yourself here are a few rules:

Do not try for some outlandish curve. If the forehead is low, keep the brows straight across. If the forehead is very high, curve them as much as possible. If eyes are too close together, take out a few hairs above the nose and if eyes are too far apart, pencil in a few hairs above the nose. The rule is just use good common sense. Take a pencil and with short quick strokes, fill in where the brows are thin. Eyebrows are most attractive a shade darker than the hair. If yours are light go over the whole brow with a pencil.

Round Table
Has Election
on Tuesday

Group Now Under
the Leadership of
Mrs. McCulloch

Mrs. H. E. McCulloch was elected president of the Round Table Club Tuesday afternoon when the club met with Mrs. William A. Gordon on Dwight avenue.

Other officers elected at the meeting include Mrs. A. T. Anderson, first vice president; Mrs. Smith Falconer, second vice president, and Mrs. D. R. Lazelle, recording secretary.

Mrs. K. L. Hoyt is corresponding secretary and Mrs. E. L. Guy is financial secretary. Treasurer is Mrs. Leon Belknap. The group elected a delegate, Mrs. Eugene T. Cleland, to the Michigan State Federation of Women's Clubs Convention to be held in Grand Rapids March 31 to April 2.

A book, "Vermont Traditions" by Dorothy Caulfield, was reviewed by Adah Shelly in conjunction with the program theme, which was "The American Home," under the direction of Mrs. Elmer Reynolds, program chairman.

Hostesses for the tea which followed were Mrs. J. A. Rammes, Mrs. William Dawe, Mrs. G. H. Bales, Mrs. Ralph Stewart, Mrs. Charles F. Rhodes, Mrs. V. H. Hancock, Mrs. Paul Kantz, Mrs. F. H. Riley and Mrs. Elizabeth Winters.

Earl Beasons
Feted at Party

Mr. and Mrs. Earl Beason, who were married recently, were honored at a party Tuesday evening at Malta Temple.

Hostess was Mrs. William Dougherty, mother of the bridegroom.

Sixty-five guests were served refreshments by Mrs. Roger St. Amant, mother of the bride. Mrs. George McComb poured.

Six members of a local dancing school entertained the guests.

Gold Star Planning
Dinner and Bazaar

Plans for a cooperative dinner and bazaar to be held March 17 at the American Legion Home on Auburn avenue were made when Gold Star Mothers Chapter Nine met at the legion home Tuesday.

Mrs. Edna Olmstead has charge of the dinner, which will be served at 6:30, and Mrs. Joe Doyle is directing the bazaar. The group also voted to visit veterans at Oakland County Tuberculosis Sanatorium in March, taking a gift to each.

Press Veiling

The easiest way to restore the crispness of veiling is to press it between sheets of waxed paper.

Coming Events

Ladies Auxiliary 396 to the National Association of Letter Carriers Branch 329 will meet Thursday at 7:30 with Mrs. James Yeager, 120 State Ave.

Purchasing the first ticket to Sigma Beta sorority's March 20 Jamboree is William W. Donaldson (right) of West Lawrence street. Mrs. Wallace Williams (right) of Tilden avenue, president of Psi Chapter, is shown presenting the ticket. Edna Pinkston of Mohawk road displays one of the posters being distributed. All proceeds from the dance will be given to the Pontiac Foundation.

Hears Reports Given by Officers

Pontiac Federation of WCTU Gathers

Reports from executive officers were given at the Tuesday meeting of the Pontiac Federation of WCTU held in the social rooms of First Presbyterian Church.

Presenting reports were Mrs. Frank Davis, secretary; Mrs. John McCormick, treasurer, and Mrs. Eleah Patten, director of Christian citizenship.

Mrs. Patten called attention to the fact that all the departments of government were originally founded on Christianity and that everything else we value is based on true Christian values.

Mrs. Bertha Locke, Loyal Temperance Legion secretary, reported on her progress with the younger temperance groups.

Mrs. Minnie Clemens, legislative chairman, furnished information regarding the various bills now being considered in the Legislature relating to matters of interest to all temperance and civic groups.

The president, Mrs. Andrew Stinner, advised all members to subscribe to the state and national temperance publications that carry information of value to members.

Mrs. Lee Walker, guest speaker for the afternoon, was introduced by the president. Mrs. Walker is federation president of the 14th District.

The speaker gave reports on the favorable reception given to efforts made in her district to sponsor speech contests and the proposed activities in cooperation with schools and churches there.

It was announced that a Family Night is scheduled for March 19 at the home of Mrs. Phillip G. Walker of Mount Clemens street, sponsored by the Frances Willard

Feted at Shower

Mrs. Edward Nadeau was honored at a pink and blue shower given Sunday evening by Mrs. Robert Schultz and Mrs. John Reichert in the Reichert home on Mechanic street.

Sigma Beta
Dance to Aid
Civic Cause

If you can't make the March 20 Jamboree, members of Sigma Beta sorority urge you to purchase a ticket anyway. And they have good reason: They're turning over all proceeds to the Pontiac Foundation, which will benefit everyone in the area.

President of the foundation, William W. Donaldson, has started things rolling by purchasing the first 10 bricks of the building. The bricks are purchased when you buy a ticket to the dance.

Sponsors of the Jamboree are Psi and Beta Alpha Chapters, and according to Mrs. Wallace Williams, president of Psi Chapter, the sorority will turn all proceeds from future Jamborees over to the foundation, making the dance an annual affair.

The Pontiac Federation of Musicians is donating the band for the evening to aid the Pontiac Foundation, and Standard Printing Company has donated posters and tickets as its contribution to the civic project.

Sigma Beta sorority offers an evening of fun and an opportunity to aid with civic improvement when the doors of Chieftain Hall open March 20. They hope you'll be there.

Safeguard Health With Habits of Cleanliness

There are many potential health hazards in the average home that only the homemaker herself can guard her family against. Unless rigid cleanliness prevails in the kitchen, family health is constantly endangered.

Clean hands, clean equipment, clean work areas are essential. Clean, well-scrubbed bathroom facilities are too important to be over-emphasized. A clean floor and clean furnishings in the nursery are basic safeguards for baby's health and happiness.

Habits of personal cleanliness, including frequent and thorough hand-washing, should be encouraged in every family member.

The homemaker can help prevent the spread of many diseases and cold epidemics with two simple but powerful weapons—soap and water! There's no worthier aim than the goal of greater safety and health for one's family. It's a job that must be worked at every day, but the rewards are well worth the effort!

Crushed carnation and red roses soaps, line. The two new bath and complexion soaps making their debut on the beauty scene, are join this house's famed richly perfumed the newest additions to a famous luxury soap soap assortment.

Often Used to Keep Him Dependent

Dominating Parent Employs Flattery as a Weapon

By MURIEL LAWRENCE

One Saturday morning, our 13-year-old Steve is seized by a burst of energy. To our grateful astonishment, he offers to clean the garage. With a grim purposefulness that we find impressive, he demands rags, detergent—and disappears. Two hours later, he asks for inspection.

We spend 25 minutes in the garage, pouring forth every admiring adjective we can think of to exaggerate our approval of his work.

And Steve never cleans the garage again. We can get him to undertake other chores if we press him; but so far as the garage is concerned, he remains most strangely resistant.

What's happened to Steve is what sometimes happens to gifted young writers whose first books are so over-praised by critics that they can't write second ones.

In both cases, the value which the worker puts spontaneously on his own production is overwhelmed by the value immoderate praise puts on it.

They don't want to write another book or clean the garage again lest they fail to duplicate the production that won them the immoderate applause.

Now, as children grow, so their respect for their own judgment needs to grow, too. So for older boys and girls, I think it's kind to keep our praise of them moderate so that this respect is encouraged, rather than overwhelmed.

And to the 13-year-old son who must learn to trust the value of his work himself, say in the cleaned garage: "It looks fine. But you don't need me to tell you this. You yourself can see what a good and conscientious job you've done."

It is because I deeply feel that love supports children's increasing need to trust their own judgment that I dislike immoderate praise.

For giving such praise is a most efficient way to keep them dependent on our judgment.

That's why it so often characterizes over-protecting and dominating parents, like a dominating mother who denies a child the right to appraise his own work by her flattering appraisals of it.

If he thinks that his school composition is "pretty good," the immoderate praiser has to insist that it's "brilliant." Later, when he grows up and has a fight with his wife, the dominating praiser of his action has to assure him that he is "perfectly right."

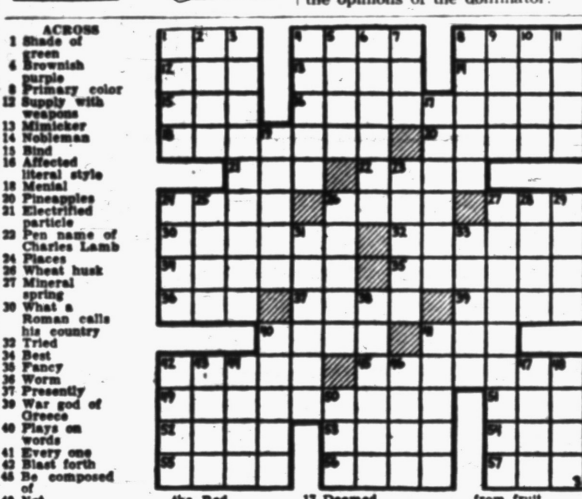

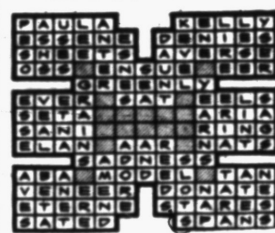

This unrealistic flattery can only end as the flatterer intends it to—the complete emotional bondage of the dominated person to the opinions of the dominator.

Copyright 1934

Cut Lengthwise

When they are cut lengthwise, vegetables are said to allow fewer vitamins to escape during cooking.

Adenauer Asks Talks on Saar

Wants France to Meet
on Issue Blocking EDC
Before Thursday

PARIS (U—) Foreign Minister Georges Bidault had under consideration today a bid by West German Chancellor Konrad Adenauer for new talks immediately on French-German differences blocking the Europe Defense Community.

Adenauer disclosed last night he had written the French government proposing he and Bidault meet to discuss a settlement of the Saar question and other problems before he leaves next Tuesday for a three-week visit to Greece and Turkey.

A deadlock on the future of the Saar, the coal-bearing, German-speaking border state now linked economically to France, is one of the main roadblocks to French approval of the European Defense Community Treaty that would arm West German troops within a six-nation command.

The Germans do not wish to renounce their old claims to the territory, but say they would "Europeanize" it pending a final peace treaty. France wants a self-governing Saar tied up with her mines, mills and transport to help maintain her as almost the industrial equal of West Germany.

Hoping the French Assembly would vote soon on the defense treaty, Adenauer decided to try for a quick settlement with the

French to help the pro-EDC forces in Paris.

Bidault had asked for an early conference on the Saar. But with Indochina war problems on his hands, the French foreign minister did not indicate immediately whether he could meet with Adenauer on such short notice.

If he declines, Adenauer's absence from Bonn until late in the month would postpone the possible removal of the Saar obstacle.

The French Cabinet is heading toward a showdown over whether to push the EDC plan to a quick vote or shuffle along in the hope its chances will be better after Easter.

The conflict evidently pits a considerable pro-EDC faction in the Cabinet against Premier Joseph Laniel. The Premier is reported insisting on a slower pace in bringing the issue to a vote than is favored by Bidault and several other ministers.

Noisy Shooting Spree Has No Serious Results

KNOXVILLE, Tenn. (U—) A man walked into the H. T. King grocery store last night, pulled a gun and announced: "This is a hold-up."

County police said this is what followed: Mrs. King grabbed for his gun and the man fired twice, missing both times.

Mrs. King then picked up a pistol and fired twice at the holdup man, missing both times.

King joined the shooting with a third gun and fired three or four times, but missed with all.

The holdup man fled. Nobody was hurt, and nobody was robbed.

Fee Hike Raises Deeds Revenue

Register's Report Says
Volume Down, Income
Up in February

Because of a recent statewide fee raise, the Oakland County Register of Deeds office did less business but made more money last month than in February, 1953.

The monthly report from Orrin C. McQuaid, register of deeds, shows that local people paid \$13,783.80 in fees to have 9,912 deeds, mortgages and other papers recorded, a few less than the February 1953 total of 10,020. But last February's fees only totaled \$9,235.70, about \$4,500 less.

Michigan's Legislature recently raised fees in register of deeds offices throughout the state.

Last month's deeds filed here totaled 2,098, bringing \$3,453.70 in fees. In February 1953 customers filed 2,113 deeds and paid \$2,440.25 in fees.

More mortgages showed up last month. Office workers handled 1023 mortgages for \$3,290.50 in fees, some 200 more than the 821 filed last February for \$2,372.25.

Chattel mortgages on cars, furniture and such were fewer, however. Only 4,117 chattel mortgages were filed for one dollar each. This is about 300 less than a February 1953 total of 4,422 chattels for \$2,211 in fees.

Cow Climbs Upstairs, Breaks Through Ceiling

INVERNESS, Scotland (U—) Customers in a local vegetable shop broke and ran yesterday when

plaster showered from the ceiling, followed by a cow named Sally. Sally was a refugee from a nearby auction market. She'd climbed a flight of stairs adjoining the shop to elude pursuit, only to have the landing collapse under her weight.

Harvard university had the first American printing press, transported to the U. S. in 1640.

Reduces Carbon! Stops Knock! It's Anti-Rust and Anti-Stalling! Has New Upper-Cylinder Lubricant!

CITIES SERVICE New 5-D Premium

THE WORLD'S FIRST
5-DIMENSIONAL GASOLINE

For the first time... all the country's top premium features in one great gasoline, plus the exclusive Cities Service anti-carbon feature!

READ NOW AND WHY the five important features of Cities Service New 5-D Premium can provide the longest full-powered engine life in automotive history!... a cleaner engine than ever before! **HOW AND WHY** they give more power, more mileage, more downright motoring pleasure than ever before!

ANTI-CARBON... the first gasoline to reduce harmful carbon inside your car's engine! New 5-D actually introduces more oxygen into your car's combustion chamber... added oxygen that provides more complete burning of every drop of gasoline. Less waste matter. Less carbon! More complete engine power!

EXTRA-HIGH OCTANE... an octane so high that Cities Service makes this daring challenge: **WE CHALLENGE YOUR CAR TO KNOCK WITH NEW**

5-D PREMIUM GASOLINE! With its Extra-High Octane and its exclusive Anti-Carbon feature, NEW 5-D IS ONE OF THE GREATEST ANTI-KNOCK GASOLINES EVER PRODUCED!

ANTI-RUST... In actual tests, New 5-D Premium was proved to protect the entire fuel system against rust... eliminates rust that forms in gas tanks and fouls fuel lines and delicate carburetor mechanisms. You have a better running car, a better protected engine.

ANTI-STALLING... New 5-D Premium eliminates annoying stalling caused when ice forms on carburetor throttle valve, jamming it shut and cutting off the fuel supply. With New 5-D Premium, **THAT ICING CANNOT HAPPEN.**

UPPER-CYLINDER LUBRICANT... unlike old-fashioned lubricants, the New 5-D Upper-Cylinder Lubricant contains an anti-oxidant that prevents the lubricant from oxidizing (carbon) on vital engine parts. New 5-D lubricates vital engine parts as it powers your car!

*New 5-D
Premium*

County Diseases Show Decrease

Mumps Drops to Nearly 50 Per Cent; Sickness Climbs in City

Oakland County had a marked decrease in mumps cases and less of other "catching" diseases last week than the week before. Oakland County Health Department's weekly report, released by Dr. John D. Monroe, department director, showed 50 new cases of mumps last week—only about half as many as the previous week's 96 cases.

Chicken pox, measles and scarlet fever also showed slight drops, but a few more cases of tuberculosis and Rubella (German measles) were reported.

The department's complete report, covering the entire county except for Pontiac, follows:

	Week Ending Feb. 28, 29, 30	Week Ending Mar. 1, 2, 3
Chicken pox	96	50
Measles	100	170
Polio (all forms)	3	2
Polio (inf. form)	1	1
Scarlet fever	10	10
Tuberculosis (all forms)	10	10
Whooping cough	10	10
Mumps	96	50
Rubella	10	10
(German measles)	10	10
Diphtheria	1	1
Hepatitis	1	1

Pontiac had twice as many cases of chicken pox last week as the week before, Pontiac City Health Department reports showed.

The city report, also released by Dr. Monroe, showed 22 new cases of chicken pox, compared with 11 the week before. Increases in mumps, tuberculosis and whooping cough also were shown on the report, which follows in full:

	Week Ending Feb. 28, 29, 30	Week Ending Mar. 1, 2, 3
Chicken pox	22	11
Measles	10	10
Mumps	10	10
Syphilis	10	10
Tuberculosis	10	10
Whooping cough	10	10

TV Program Given Official State Okay

ALBANY, N. Y. (AP)—The state legislative committee probing charity rackets today handed a clean bill of health to the radio and television program Strike It Rich.

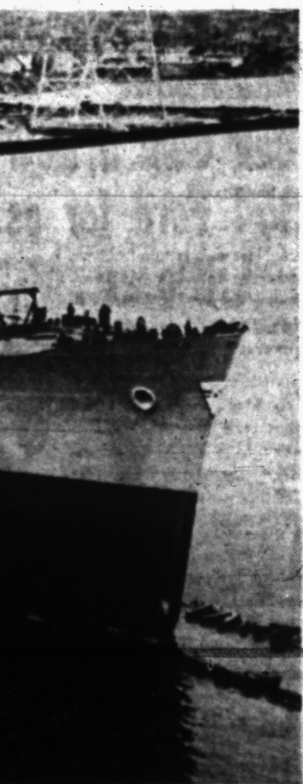

The chairman and vice chairman said a thorough checkup had shown that money donated by listeners and viewers to the program's "Heart Fund" went to needy persons appearing on the show "at an administrative cost of less than 2 per cent."

It is not within the province of the committee "to pass on the good taste or bad taste of a radio or television program," Sen. Bernard Tompkins and Assemblyman Samuel Rabin of the Joint Legislative Committee on Charitable and Philanthropic Agencies said in a joint statement.

3rd Swedish Ship Line Will Serve Great Lakes

DETROIT (INS)—Spokesman for a syndicate of Swedish ship-owners today disclosed that a third Scandinavian ship line will begin operation on the Great Lakes this season.

The firm, known as Scanlake, will carry commerce between Great Lakes ports, including Detroit, and the ports of Copenhagen, Denmark; Gothenburg, Malmö and Stockholm in Sweden, Germany and Helsinki, Finland.

AFLOAT—Tugs gather around the new tanker after she made a safe glide down the ways to her first meeting with the sea. Efforts of a small army of men, working against time as launching time neared, made this operation successful. Launching was scheduled for 2:30 p. m. and operations beneath the 45,100-ton hull kept crews busy until 2:28. The job started at 5 a. m.

IT'S LIKE THIS—Pat Stites of Waterford (right) prepares members of the Pontiac Circle Players to rehearse a scene from "The Male Animal." The group will produce the play Thursday, Friday and Saturday at 8 p. m. in the Elks Temple ballroom. Members of the cast shown here, from left, are James Lafnear of 177 E. Pike St., Joyce Schmidt of 258 Orchard Lake Ave. and Melvin Staehler of 2582 Silver Lake Rd. Tickets are available from any Pontiac public school office, or at the door.

George Assails Defeat in Senate

Claims 'Little Cabinet' Lobby Tactics Doomed Treaty Curb Bill

WASHINGTON (INS)—Sen. Walter F. George (D-Ga.), hit back today at what some senators termed administration "lobbying" in connection with the Upper Chamber's defeat of the treaty-curb amendment last Friday.

A GOP official confirmed that the White House was busy, just before the showdown ballot lining up opposition to the constitutional amendment as proposed by George, which lost by a single vote.

Some Democrats said the Senate cloakrooms at the time had a sizeable representation of sub-cabinet officials from the White House, the State and Justice Departments, who, they reported, were lobbying against the George amendment.

With pronounced irony, George said: "The next time we have a vote on the issue, I shall ask that it come late in the day so it will not interfere with the working hours of the little cabinet at the White House, Justice and State Departments."

Triplets Kill Pop, 75

TEHRAN, Iran (AP)—Tehran newspapers reported today that 75-year-old Abdullah Akhbarzadeh died of shock when his young wife gave birth to triplets in the tiny Khorasan village of Tabas. Two of the triplets also failed to survive.

Children on Wrong Side of River Get 3 R's at Home

BUFFALO, S. D. (INS)—A "Solomon's judgment" has settled—temporarily at least—the problem of the three Oliver children who couldn't go to school. They're now getting their three R's at their mother's knee.

National attention was riveted on the plight of South Dakota farmer Louis S. Oliver and his children last fall when International News-Service columnist Laura Z. Hobson told the story.

Oliver, whose case was taken up by the American Civil Liberties Union, wrote that he had tried in vain to get some help in his problem from state and local authorities.

The farmer explained that he lived on the Little Missouri River in the northwest corner of the state and that his farm was on the west bank of the river. His children, aged 11, 8, and 6, were assigned to school on the east bank.

"The nearest bridge," Oliver stated, "is some 20 miles away and no commerce of any kind is held over this stream." The river could be forded sometimes, the father said, but in winter, "with foam ice and snow," he feared for his children's lives if they tried to cross.

In New York, Clifford Forster, special counsel of the ACLU, wrote Gov. Sigurd R. Anderson, and the governor promised to see what could be done. A special lawyer, John T. Miek of Sturgis, S. D., took up the legal cudgels for Oliver and his wife.

Oliver wanted a bridge built. Court action was instituted, but it dragged on.

Today, the American Civil Liberties Union, through Forster and Miek, disclosed the compromise solution—though a fi-

nal court decision may yet be sought.

Two weeks ago, on the Little Missouri, the sons of Harding County, where the Oliver farm is located, got together with the father and mother.

A number of possibilities were considered, but not the building of a bridge.

One suggestion was that Oliver drive his children four miles daily to a spot where a neighbor would pick them up and drive them another 11 miles to another district's school. This would involve \$30 a month tuition for the young Olivers, plus \$8 transportation.

The Olivers were not happy about this arrangement, having previously claimed that one of their problems was that they could not pay for special schooling.

Then came the "Solomon's" compromise. Mrs. Oliver would be appointed as a teacher, textbooks would be supplied and—if they could pass their normal tests—the children would receive full school credit.

Mrs. Oliver now is teaching her parent's nag remains. The school children at home and only one apperintendent has declined to make the mother's teacher appointment formal, despite the okay of the school board, and possibility of eventual court settlement of the entire affair remains.

Fire Damage Increases

NEW YORK (INS)—Fire damaged or destroyed an estimated \$903,400,000 worth of property in the United States last year, the National Board of Fire Underwriters reports. This is 15.1 per cent higher than in 1952.

A & A Asphalt Will Do Work

\$130,717 Job Covers Work on Sections of 41 Streets This Spring

A low bid of \$130,717 was accepted by Pontiac City Commission last night from the A & A Asphalt Paving Co., of Birmingham for construction of the two-inch black-top paving planned for city streets in 1954.

Sections of 41 streets are scheduled for paving by the firm.

Work will start on April 15 if weather conditions permit, according to City Engineer Lewis M. Wrenn. Completion date is May 25.

In other action Commissioner Benjamin M. Gates said he thought "some sort of action should be taken to label property that has been declared sub-standard."

Gates said the move was needed for "protection of people buying property in Pontiac" so they will know when property is below par.

Commissioners referred the request to the city attorney for a report next week.

City Manager Walter K. Willman was asked to meet with representatives of the Michigan Animal Rescue League. The league is seeking to acquire city-owned lots 12 of assessor's plat 147 for construction of an animal shelter.

A communication was referred to Willman from the city of Berkley asking Pontiac to support a State House of Representatives bill providing for a water source and drainage survey to include this area.

Public hearings were held and assessment rolls ordered for March 18 on proposed construction of curb, gutter, drainage and related work on:

First from Joslyn to Barkell. Second from Joslyn to the east end of the street. Third from Joslyn to the east end of the street. Willard from Center to Padlock.

A communication from Green Brothers Builders was referred to the city manager regarding the proposed replat of all of Linda Vista Subdivision except lot 106.

An engineer's cost estimate of \$2,558 was accepted for proposed construction of a water main in Corwin from Kinney to lot 37 of assessor's plat 101.

Public hearings were set, for March 9 on special assessment rolls for planning construction of curb, gutter, drainage and related work on:

E. Beverly from Joslyn to Fuller. Middle from Joslyn to the east end of the street. Wilson from Joslyn to E. Boulevard. E. Tension from Baldwin to University.

Commissioners declared a public necessity on construction of curb, gutter and drainage on First from Barkell to Fuller.

A bid of \$560 was accepted for purchase of lots 961 and 962, Perry Park Subdivision No. 1, from A. A. Lee of 921 Mt. Clemens St.

Public hearings were held and confirmation deferred on special assessment rolls for curb, gutter, drainage and related work on:

Harrison from Franklin to Bagley. Middle from Joslyn to the east end of the street. Going from Osburn to Whittemore.

Indict Puerto Rican on Ike Death Threat

NEW HAVEN, Conn. (AP)—A 24-year-old Puerto Rican was indicted here yesterday on a charge of threatening to kill President Eisenhower.

Pedro Orozco Sanchez, alias Pedro S. Orozco, of Hartford, was scheduled for arraignment in U.S. District Court today.

The alleged threats came, police said, when Sanchez became riled while being fingerprinted Monday in police headquarters where he was being booked on a charge of nonsupport of his wife.

Sanchez denied making the threats.

Gladwin and Beaverton Get Dials This Thursday

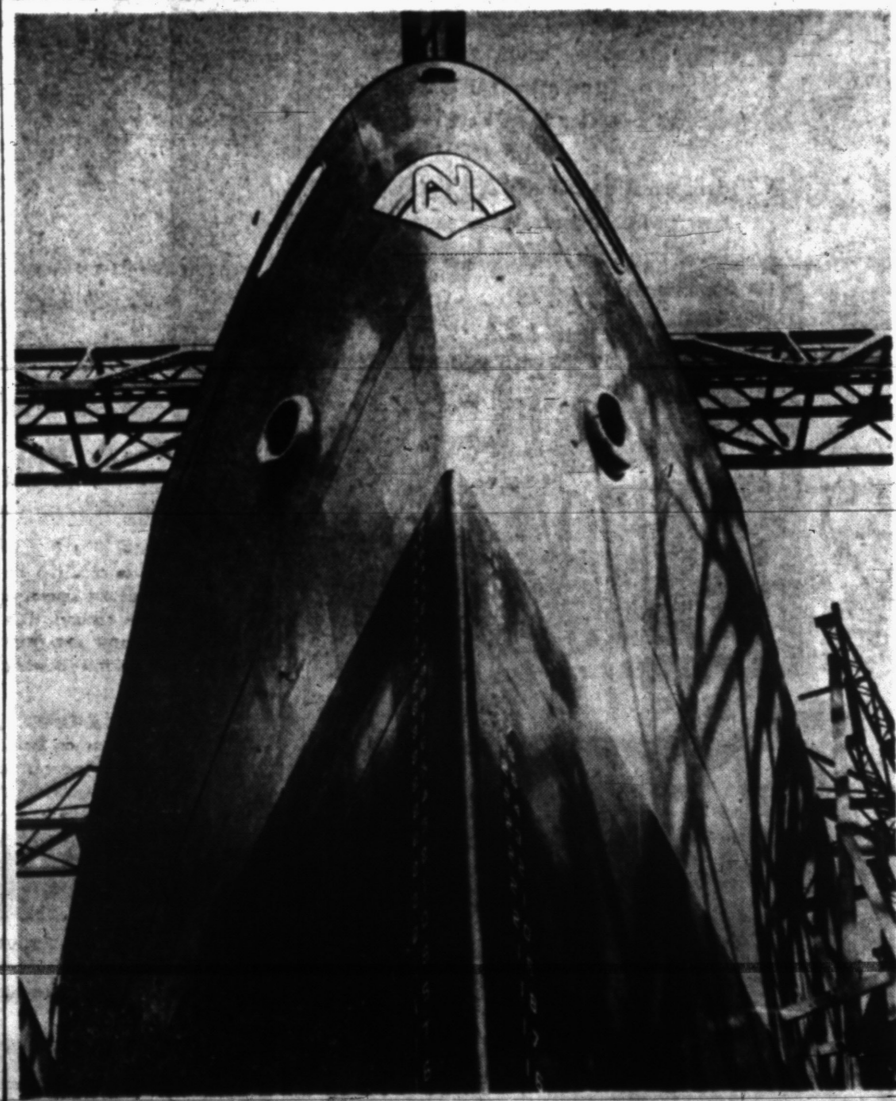

MIDLAND (UP)—Dial telephone service will begin Thursday at Gladwin and Beaverton, the Michigan Bell Telephone Co. announced today.

T. C. Maher, area manager, said the new dial systems will serve 600 subscribers at Beaverton and 1,400 at Gladwin. He said the company spent \$230,000 on the two projects.

Arsonist Asks Maximum Prison Term and Gets It

DETROIT (UP)—David L. Schneider pleaded guilty to an arson charge and asked the judge to give him the maximum prison term.

The judge complied with Schneider's request Tuesday and sentenced him to 10 to 20 years in prison—the maximum. "Thank you," Schneider said.

POISED—Tilting her nose proudly to the sky is efforts of hundreds of technicians along with many long hours of expert, often dangerous labor. The World Glory as she waits for launching at the Fore River Shipyard, Quincy, Mass. Like an opera or movie, the launching of a ship calls for skilled to fill a million American passenger cars.

Navy Officer Visits Saipan Beach Decade After Battle

(Editor's Note—Americans will recall the battle for Saipan as one of the fiercest of World War II. Today, almost 10 years after U. S. troops stormed ashore there, the island forms an important link in our Pacific defense network. Here's the story of what Blue Beach, Garapan and the old sugar mill look like today.)

By WILLIAM J. WAUGH
SAIPAN (U)—The invasion beach at Saipan, where U. S. troops fought one of the bloodiest battles in American history 10 years ago this summer, is quiet and peaceful today. On D-Day you couldn't hear yourself think.

That's the way a blue-eyed, red-haired lieutenant commander remembers it. The officer, Paul Bridwell of Jasonville, Ind., was beachmaster of Blue Beach when the U. S. 2nd and 4th Marines hit Saipan June 15, 1944.

Looking back on that day, Bridwell recalled:
"You remember the intimate things—the friends who didn't make it—the close calls." More than 3,000 didn't make it, and died. There are sharp reminders of that first day's fighting along the white sand beach—the rusting hulk of an amphibious tank, its gun pointed skyward above the blue Pacific like a memorial, and battle debris still visible in the clear water.

On Blue Beach, Bridwell walked toward his old command post. Trees are grown up around it.

In front are the shanties of a few Saipanese families. Leaning against one is a rusted, plugged Japanese machine gun.

Red and Blue Beaches were divided—the Marines will remember—by a Japanese-built concrete pier sticking out into the water. The Americans added a 150-foot-wide pontoon pier. Only the concrete remains.

Remember Garapan? That was the biggest town before the fighting. It doesn't even exist today. The jungle—everyone here calls it the boonies—has taken over.

Chalan Kanoa is quite a city. A wide highway that compares favorably with any U. S. road slices through it.

Many homes have been built. In one backyard a papaya tree is growing out of the center of a rusting marine amphibious troop carrier. Bridwell glanced at the

markings and said:

"Marines—third wave."

On the broad road to Old Garapan the boonies have taken over both sides of the road. Old warehouses, Quonset huts and a chapel steeple jut out from the brush.

On the beach is a rotting Japanese sampán, with U. S. markings. Across the road natives are tearing down several large Army ordnance warehouses for scrap—ironically—for Japan.

Beyond Garapan large stacks of metal are piled up awaiting shipment. One piece of scrap, a battered, rusted tank, bears the faint nickname: "Crusader."

Off the pier an old Japanese freighter sunk by U. S. forces is still clearly visible. Bridwell pointed to some metal piled up on a reef offshore.

"That's the barges the Japs used in mounting a counter amphibious landing. We clobbered them."

The boat pool lagoon and small

craft repair yard are still there. Beside the lagoon six LCMs, stripped of engines and brass, are rotting.

The jungle is winning back most of Saipan, except for the few spots being farmed by some of the 5,500 natives who live here and the few installations used by the 106-man Navy force stationed on the island. (Tomorrow: Tinian's airfields.)

Cave Guides Scarce

STANTON, Mo. (INS)—Mermac Caverns is searching for six pretty girls to act as cave guides this summer. They will join the staff of 35 males. Operator Lester B. Dill reports he is having difficulty hiring girls as cave guides. Reason is they don't find duties glamorous.

New Tax Plan Devised by Prof

Advocates Increasing Personal Exemptions to \$800 Apiece

A tax plan to brighten the lives of the average family man and the U. S. treasury has been devised by a Michigan State College economist.

Sound impossible? Well, Dr. Richard W. Lindholm, professor of economics at MSC, believes this could happen if personal income tax exemptions were figured on actual taxes rather than income.

It may sound complicated but the man with \$4,000 income and two children could save \$100 a year by this proposal.

Lindholm says that if personal exemptions are raised from \$600 to \$800 each, as suggested by a number of congressmen, this would help everybody who figures taxes. But the U. S. treasury, complaining that it loses \$2 billion for every \$100 exemption would get less revenue.

Here are the ABC's of his idea:

If you're making \$4,000 a year, and have a wife and two children, your four exemptions are saving you \$400 a year that other wise would go into income tax.

If your personal exemptions were raised to \$800 each, you'd save \$100 a year more, or a total of \$600. People in the top income brackets, who have been saving \$1,200 in taxes from four exemptions, would save \$1,600 in taxes.

This would be fine for everybody—except the treasury.

Lindholm suggests that Congress change the income tax law so that instead of an \$800 exemption for each dependent the taxpayer will get an exemption of \$60 in taxes for each dependent.

Now comes the part where the treasury would reduce its tax income losses.

If a married man with two children is in the bracket taxed at 50 per cent, then he would pay more under the \$100 tax plan than under the \$800 exemption plan.

"The treasury would collect \$500 more from the person with top income in the 50 per cent bracket instead of \$400 less," the professor explains. This person still would be saving \$600 a year

Sweden, Norway Lay Defense Plans

STOCKHOLM (AP)— Sweden and Norway have blown the dust off a blueprint plan which could give Sweden a closer link in wartime with the Western world.

The plan—alternately studied and shelved for several years—provides for development of Norway's Trondheim docks and electrification of the railway linking the industrial region of Central Sweden with the Norwegian port on the North Sea.

Some circles in both countries have long argued that an ice-free port to the west could be of vital importance to Sweden if Soviet aggression in Scandinavia one day forced her to abandon her present neutrality policy.

Studies Rabies Control

NEW YORK (INS)—The National Dog Welfare Guild is conducting a study on how rabies can best be controlled. The Guild is a non-profit organization and is made up of dog-owners throughout the United States.

Heaters Help Cool Water

DALLAS, Tex. (INS)— Some homeowners in the Oak Cliff section of Dallas use their hot water heaters for cooling tanks. Others have never bothered to install hot water tanks. Their water is supplied from wells drilled some 3,000 feet into the Trinity River sands and comes out of the faucets at 124 degrees.

Clarkston Community Voters Recalled to Polls Thursday

Special Board Meetings Set

Education Group to Talk to Architects on New School Buildings

WATERFORD TOWNSHIP — Last week's approval by the electors of Waterford Township School District of a special school improvement program has sent the Board of Education into a series of special meetings.

Thursday night they will interview several architects for the four new elementary school buildings the voters approved.

At recent special meeting following the election, the board named the following architects for the four elementary additions: William Zimmerman, Pontiac architect, will do the addition to the Jayno Adams School and the Williams Lake School. He did the original Jayno-Adams design.

The George D. Mason Company of Detroit was granted the contract for the addition to the Waterford and the Four Towns School. This firm was the architect for the other additions at these schools.

The board of education announced they will take action on the new teachers' salary schedule, part of the special school election proposal approved by the electors.

PLAN PTA FAIR—Co-chairmen and two helpful pupils prepare items for display in booths at the annual Waterford Center School PTA fair to be held Saturday evening. Shown (l. to r.) are Richard VanDusen, Mrs. Harry Little, Mrs. Robert

Fulkerson and Joanne Hildner. The fair will be held from 5 to 9 p. m. Featured will be special booth projects presented by each home room. Also offered will be a leather goods booth by Cub Scouts and movies shown by two executive board fathers.

Waterford Church Ladies Plan Dessert Luncheon

WATERFORD — The Ladies Auxiliary of the Waterford Community Church will meet at the home of Mrs. W. K. Powell at 7263 Sandy Beach Rd., for a 12:30 p. m. dessert luncheon Thursday.

Assisting the hostess will be Mrs. Wright Van Plew.

Good Will Club Meets, Sends Donation to RFE

WATERFORD — The Good Will Club was entertained by Mrs. Percy King at the Caribou Inn, in Clarkston, last week.

Members present voted to send a contribution to the Radio Free Europe campaign.

PTA Committees Prepare Annual Fair in Waterford

WATERFORD TOWNSHIP — PTA committees and their chairmen are busily preparing last minute details for Waterford Center School's annual PTA fair to be held Saturday from 5 to 9 p. m.

Featured at the affair will be movies, shown by executive board

fathers William Matteson and Irwin Humbaugh, booths and a supper served by executive board members under the direction of Mrs. William Morrow and Mrs. Nolan Davidson.

Each home room of the school is planning its own special project. Mrs. George Pank's kindergarten will sponsor a beauty parlor and doll clothes booth directed by Mrs. James Rodde-wigand and Mrs. Alton Guys.

Mrs. Howard Blackmore's first grade will have a booth with popcorn and candied apples with Mrs. Ernest Fender as chairman.

A "spook" room with Mrs. Homer Peterson in charge is planned by Mrs. Emil Brustle's first grade room. Mrs. Dorothy Hill's first graders will have a miscellaneous booth directed by Mrs. Harold Hunt.

The fish pond and game room is the project of Mrs. Ruth Walls' second graders with Mrs. Edward Webster in charge. Baked goods and ice cream will be featured in Mrs. Earl Nielson's second grade room under the direction of Mrs. Philip Hildner.

White elephants booth with Mrs. Sanford Sterns in charge will be featured by Mrs. Jack Onkola's third grade and Douglas Harger's sixth grade.

Mrs. Charles Davis' fourth graders will operate a country store under supervision of Mrs. George LaBarge. Fourth and fifth graders of Mrs. Charles Perkins will offer hot dogs and pop with Mrs. Sherman VanDeusen as chairman.

The popular talent show will be presented by Mrs. John Blomgren's fifth graders directed by Mrs. Gerhart Barnhart. And a fancy work booth will be displayed by Mrs. Jack Krauser's and Mrs. Douglas Harger's sixth grades with Mrs. George Gaynor as chairman.

Cub Scouts will also have a booth featuring leather goods.

Waterford Fire Losses Down

Decrease in 1953 Totals \$24,416; Dwelling Fires Show Increase

WATERFORD TOWNSHIP — Fire loss in Waterford Township decreased by \$24,416 in 1953, while total dwelling fires showed a slight increase according to the first annual report of the township fire department.

Filed by Chief Rudolph F. Boss and accepted by the Township Board at a recent meeting, the report listed 112 house fires last year, compared with 99 for 1952.

Total fire loss for the year was \$241,945, with \$151,610 of that going up in smoke from buildings. Loss to contents of burned buildings is registered at \$40,430.

Chief among the causes of township fires were carelessness, overheated heating devices, fuel oil burners, and defective chimneys, appliances, stove pipes and wiring, according to Boss.

The 40 members of the fire department — 33 volunteers and seven paid — hardly had a chance to polish their equipment in April, when 69 fires kept them hopping. June, with 18, registered the fewest number of runs for a month.

In the odd facts department, the greatest number of fire alarms were received at the hour of 1 p. m. throughout the year. Ranking behind the 57 calls turned in at that hour were the 48 at 2 p. m. The fewest — two — were turned in at 1 a. m.

Area-wise, Dixie highway residents sent in the most calls (48), with Elizabeth Lake road rating second with 39.

Mrs. Barrett to Speak to Stone School PTA

AVON TOWNSHIP — Mrs. Gertrude Barrett of the Oakland County Sheriff's Dept. will speak on juvenile delinquency at tomorrow's meeting of the Stone School PTA. Kindergarten mothers will serve refreshments at the session, which is set for 7:30 p. m.

Must Validate Bond Issue Vote

New Ballot Required on Proposal Affecting School Funds

CLARKSTON — A call to the Clarkston Community School electorate to return to the polls Thursday has been issued by the Board of Education of the district.

In order to validate the Feb. 2 school building bond issue which the voters approved then by a more than four to one total, one portion of the issue will have to be voted upon again.

Due to an error in the printing on the ballots, the new election is necessary. Omission of the word "not" on the Feb. 2 ballot prevents the complete legality of the bond issue.

Only a vote on the tax limitation proposition is necessary, the bond issue proposal is intact and requires its companion's approval to legalize the sale of the bonds.

The new election, said Superintendent Leslie F. Greene, in no way changes the intent of the ballot. Polls will be open Thursday from 7 a. m. to 8 p. m. in the Clarkston Elementary school.

The \$600,000 school building proposal, when legalized, will enable the district to build an addition to the present high school and additions to three elementary schools.

PTA Hobby Show Set for Thursday

WATERFORD TOWNSHIP — Collections of coins, dolls, paintings, pottery, spoons, puppets, china, guns and rocks will be featured in a hobby show set for the Stringham School PTA meeting at 8 p. m. Thursday.

In addition, the Rev. Herbert Ryan will show a film on old-time autos.

At the group's April 1 meeting, members will vote on the slate of officers recently announced by its board.

Included on the slate are Mrs. Lester Carlson, Mrs. George R. Smith, Robert E. Field, Mrs. Richard McPartlin, Lynn Rohrer and Mrs. Charles Gamble.

WCS Members Meet at Mrs. De Vary's Home

GALLOWAY LAKE — Mrs. Sturge DeVary of 2140 Pontiac Rd. entertained 18 members of the WCS of Galloway Lake Methodist Church last night.

The lesson, given by Mrs. James Clunk, was "Our Spanish-Speaking People in the Southwest." Devotions were led by Mrs. Oscar Bouck.

Plans were made for a bake sale March 20.

County Calendar

Auburn Heights Community Club will have a supper and business meeting at the club house on South Squirrel road Thursday at 6:30 p. m.

Elmwood School PTA executive board will meet at 7:30 p. m. tomorrow at the home of Mrs. William Harmon on Crooks road.

Waterford Township Lake Acres No. 2 will meet at the home of Mrs. Hazel Raynes on Mann road at 7:30 p. m. tomorrow.

County Deaths

WALLED LAKE — Service for Albert H. Riley, 44, of 1207 Webaso St., will be at 2 p. m. Friday at Walled Lake Methodist Church, with burial in Oakland Hills Memorial Gardens. He died Tuesday after a long illness.

Arrangements are by Richardson-Bird Funeral Home.

Active in civic affairs, Mr. Riley was a member of Walled Lake Chamber of Commerce and president of the Optimist Club.

Mrs. Hugh McBurney CASS CITY — Service for Mrs. Hugh (Alice Maud) McBurney, 77, who died in her home here Sunday after a long illness, was scheduled for 2 p. m. today at the Methodist Church, with burial in Elkland Cemetery.

John Mark CASS CITY — Service for John Mark, 77, who died in his home here Monday after an illness of two months, will be at 2 p. m. Thursday in Douglas Funeral Home, with burial in Elkland Cemetery.

Firefighters Hold Annual Banquet in Waterford

WATERFORD TOWNSHIP — Their 13th annual banquet was held last night by the Waterford Township Firefighters Association in the CAI Building.

Rudy Boss served as chairman of the affair which was attended by 100 of the firemen, their wives and guests.

A turkey dinner, songs and professional entertainment were featured.

Serving on the banquet committee were Elmer Fangborn as toastmaster, James Donaldson as song leader, and Edward Smith and Burton Hilliker.

Insurance Salesman Joins Top Sales Club

DRAYTON PLAINS — Louis A. Bachnak, of 6353 Dell Wood, has been recognized as one of the leading representatives of the Metropolitan Life Insurance Company for 1953, it was announced today.

Bachnak earned membership in the company's top production club. He and Mrs. Bachnak have been invited to attend the company's sales convention in Buffalo. Bachnak's agency led all others in production in the midwest for 1953.

Chlorpicrin, a standard Army Chemical Corps war gas, is an effective spray against insects commonly infesting sugar cane and pineapple crops.

Lambert Cubs to Present Puppet Shows Tomorrow

WATERFORD TOWNSHIP — Four puppet shows will be presented by Pack 30 of Lambert School Cub Scouts at its meeting tomorrow at 7 p. m. in the school.

Badges and awards will also be presented at the meeting, and a movie cartoon will be shown by Neil McNally.

Puppet shows to be presented are "Little Red Riding Hood," "How the Elephant Got His Trunk," "Snow White and the Seven Dwarfs," by Den 3, and "Jack and the Bean Stalk," by Den 8.

Participating in the Den 1 show will be Michael McNally, Tommy Evans, Dwight Hughes, Richard Raber, John Kumpula, Jim Baden and Barry Heiple.

In the Den 2 show will be Nelson Greaves, Mike Meyers, Alan Watson, Dennis Banks, David Kelch, Arthur Greaves and John Crary.

Den 3 players will be Herbie Mack, Ronnie Mudge, Bob Ferguson, Roger Tallman, Mickey Wood, Harry Messier, Dick Rudloff and Kelley Auch.

Den 8 participants will be Richard Wagner, Billy Kennerly, Richard Nadeau, Ronnie Burnstrom, Donnie Absher and Jeffrey Bergemann.

Waterford Issues 40 Home Permits

WATERFORD TOWNSHIP — Permits for 40 homes were issued February, according to Supervisor Lloyd L. Anderson. Estimated value of the home permits is \$301,650.

Other permits include seven remodeling jobs at \$13,200; four commercial at \$21,800; one garage and breezeway, \$800.

A total of 53 permits were issued at an approximate value of \$337,750.

Betty Grable Half-Heartedly Working Hard

By BOB THOMAS

HOLLYWOOD (UP)—Betty Grable, the girl with the gorgeous gams, is hard at work on her first picture since leaving her old home lot. But she says she's not going to knock herself out for her career.

"Look, I've had it," she says. "I've had the gravy for a good number of years, and I've enjoyed it. Now let the younger kids work their heads off. Not me. I've got other things in life to be interested in."

The other things include her husband, Harry James, their two daughters and their race horses, including the fleet James Session.

"I've enjoyed just looking after them for a change," says Betty. "I feel like a lousy mother when I have to be away from the kids all day. Now that they're in school, they don't get home until 4 in the afternoon. But I still would like to be there when they arrive. I'm not going to knock myself out for my career."

Right now she's getting a real workout in "Three for the Show" at Columbia. She has several spirited dances directed by Jack Cole. On one of the hottest days of the year, she was under the glaring lights, trying to look cool in a comedy scene with Gower Champion. Gorgeously gowned in a fire-engine red outfit with a mink-lined coat to match, she stepped out of the scene to pose under some more hot lights for fashion stills.

When she was free, I asked how it felt to be doing a picture away from 20th Century-Fox for the first time in 14 years.

"Once you're inside the stage, there's not much difference," she observed. "The four walls look the same no matter what studio it is."

Things are much the same, since she has her same veteran "wrecking crew"—makeup man, hairdresser and wardrobe girl. In fact, everything has been done for her comfort.

"It's a funny thing," she laughed, "but this is the picture I got my last suspension over. I didn't want to do the picture. After I left Fox, they came to me again and I said I wanted things I didn't think they would give me. They surprised me and came through with everything I wanted, includ-

GUNS 'TALK' AT DIABLO—Dan Duray, a mine shaft in this scene from "Ride Clear of Diablo." The Universal-International western, in Technicolor, co-stars Susan Cabot and Abbe Lane.

ing CinemaScope. So I had to give in."

She talked about her last two pictures at Fox, which were "How to Succeed in Business Without Really Trying" and "The Farmer Takes a Wife." Concerning the latter, she says: "That was a picture? It was all about hauling turnips or something on a canal barge. Who cares?"

After Bingo Raid Court Convenes in Gymnasium

BELLFLOWER, Calif. (UP)—A basketball court was the courtroom in which 203 men and women were arraigned on gambling charges growing out of benefit bingo games.

The town's regular courtroom wasn't large enough to accommodate them.

All pleaded innocent yesterday and asked for jury trials. The Eagles Lodge, which had sponsored the games Feb. 19, served coffee and doughnuts to the defendants in a park adjacent to the court, and announced that proceeds of the picnic would go to the Heart Fund.

Vatican City, one-sixth square mile in area, is Europe's smallest independent state. Monaco, the second most diminutive, is almost three times as large.

Says McCarthy Coddled by Ike

Dem Mitchell Predicts That People Will Show Displeasure at Polls

ST. PETERSBURG, Fla. (UP)—The chairman of the Democratic National Committee told a party rally here that the American people will show their displeasure at the polls next November unless President Eisenhower shows Sen. McCarthy who is boss.

Stephen A. Mitchell hit time and again at the differences between Republicans themselves on how to handle McCarthy and his methods of investigating communism.

"The Eisenhower Republicans are coddling McCarthy to the detriment of our country and its citizens," he told 900 persons at a Pinellas County rally last night. "The people of the United States will not allow this Republican senator to disrupt our constitutional system or deprive citizens of their constitutional rights..." he continued.

"The people of America will support the Republican President against McCarthy if he (Eisenhower) will lead. And if he will not lead, the Republican President will hear from the people next November."

Later on he said: "The fact is that the President has made an unholy alliance with Sen. McCarthy for the purpose of the next election."

Clark Gable Quits MGM to Become Free Lance

HOLLYWOOD (UP)—After 23 years with MGM studio, Clark Gable is leaving to become a free lance.

The studio's \$300,000-a-year star announced yesterday that he is exercising his right to end his long-term contract, saying that he intends to avail himself of opportunities elsewhere.

A spokesman for the 53-year-old Gable said his last seven-year contract expired two months ago.

Gable has a number of pictures in mind but has no thought of engaging in television or independent movie production, the spokesman said.

Keystone Combination May Aid Cubs' Woes

By BEN OLAN
Associated Press Sports Writer
The Chicago Cubs' second base combinations cost Phil Cavarretta many sleepless nights last season. Today, the 37-year-old manager thinks he has the situation well in hand, because of two Negro rookies—Ernie Banks and Gene Baker.

"Failure to make the double play and those many errors we had is what ruined us last year," Cavarretta said. "With these two kids I believe we may have the problem solved."

He is particularly impressed with the showing of Banks, the 22-year-old shortstop purchased from the Kansas City Monarchs

last September. Banks batted .314 in 10 National League games. "Banks has looked great," he beamed. "He has sure hands, a fine arm and looks like a hitter. He has great wrists."

"I got a good line on him last season when he slammed a home run off Gerry Staley—a sidearm

right-hander. That's always a pretty good trick for a right-handed batter." Although he's not supposed to be quite as good a batter as Banks, the 28-year-old Baker hit .248 for Los Angeles in 1953, including 20 home runs and 99 runs batted in. He played shortstop for the Pacific Coast league club, but

Cavarretta is confident he can easily make the switch to second base.

"If he can hit as well as Eddie Miksis, he stands an excellent chance of running him off the bag," Cavarretta explained. Miksis batted .251 in '53.

While Cavarretta was oozing with optimism in the Cubs' camp, Manager Steve O'Neill was laying down the law in the quarters of the Philadelphia Phillies. The veteran skipper ruled there will be a midnight curfew during spring training.

The Phillies also were reported trying to trade first baseman Earl Torgeson to either the New York Giants or the Pittsburgh Pirates. Eddie Mathews, Milwaukee's

slugging third baseman, wrenched his back during batting practice and will be out for several days. Walt Linden, the Braves' reserve catcher, fractured his right thumb, and pitcher Bob Trice of the Philadelphia Athletics fell on his left shoulder, but was not seriously hurt.

Mickey Vernon, the American League's leading batter last year, was the center of a conference between Calvin Griffith, Washington's vice president, and Joe Cronin, general manager of the Boston Red Sox.

The Sox are said to be seeking Vernon as a replacement for Williams, who is feared lost for the early weeks of the season. Vernon has yet to sign his 1954 contract with the Nats.

TWO MEN ON BAG—Jerry Coleman (left) and Billy Martin, hero of the New York Yankees' 1953 World Series victory, indulge in some training camp antics as both squat on 2nd base at Tuesday's

workout at St. Petersburg. Billy playfully plunks ball in Jerry's mitt. Should Martin go into service, Coleman is expected to take over at 2nd base.

NCAA Berth Is Filled

By ED CORRIGAN
NEW YORK (U)—The NCAA post season tournament filled one more of its berths today with Texas Tech, the champion of the Border Conference—but the National Invitation Tournament still was scrambling for the last club to fill its 12-team field.

Texas Tech wrapped up the Border crown last night by taking care of West Texas 84-71. It was the final game of the season for both schools and it gave Tech an 11-1 league record against 9-3 for West Texas.

The Southwest Conference race ended in a deadlock last night with Rice and Texas holding 9-4 records.

The Longhorns closed out operations by whipping Texas Christian 68-59, while Rice scored an equally emphatic triumph over Southern Methodist 90-64. The two clubs will have a three-game playoff starting at Houston Friday night.

The tie in the Southwest loop was just what the promoters of the National Invitation didn't want. They were hoping either Texas or Rice would get beaten—and they probably didn't care which—because they wanted the second-place team.

Now with their tournament starting Saturday night in Madison Square Garden, they'll have to find another team. Cincinnati probably

will draw the open berth on the strength of having polished off Duquesne for the Ducks' first defeat of the campaign last week.

Oklahoma A&M moved a step closer the Missouri Valley title by crushing Tulsa 77-46 and here again the NIT has a definite interest in the proceedings. The Aggies have one more game to play—against the pesky St. Louis Billikens Saturday night—and if they win it, they're in. Wichita, which already has finished its season with an 8-2 mark, has accepted a bid to the NIT with the provision that another team wins the conference championship. Should St.

Louis defeat the Aggies, there would be a tie.

Holy Cross, NIT-bound, played its last game of the regular season and turned back Temple 85-73 in Boston. The Crusaders finished with a record of 25-2. Togo Palazz, Holy Cross' top scorer, had 30 points.

In other top games, Niagara halted Colgate 65-57 by pointing 12 straight points through the hoop in the last two minutes, and Yale edged Rhode Island 89-83.

Blue Devils Get Place in NAIA on Easy Victory

Lawrence Tech Dumps Calvin 75-59 to Win Tourney Berth

GRAND RAPIDS (U)—The Blue Devils of Lawrence Tech bounced into the NAIA basketball tournament by easily trouncing Calvin College, 75-59, last night.

The tournament will be held at Kansas City March 8-13.

Calvin jumped off to a 15-12 1st quarter lead in the elimination contest. But Calvin couldn't keep up with the smooth shooting Detroit team.

Lawrence Tech bounced back in the 2nd quarter, pouring in 26 points, to take a 38-31 lead at the half.

Then the Devils limited Calvin to only eight points in the 3rd quarter while sinking another 15 to pull further into the lead.

Calvin made a determined bid in a high-scoring final quarter and moved to within seven points of Tech. But there the rally stalled.

Jim Westbrook paced Tech scoring with nine baskets and four free tosses for 22 points and high man honors. Giant (6-foot-8) center Werner Killen accounted for 19 more Tech points and Teammate Oscar Griffith added another 16.

Calvin's chances of victory were hurt in the 3rd period when Paul

Newhoff, 6-foot-7 center, was pulled out of the game when he was close to fouling out. Newhoff returned briefly in the 4th quarter and ultimately went out of the game on fouls.

Tony Dickema and Don Vroom were high scorers for Calvin. Each tossed in 12 points.

Dalrymple Under Par in Houston Qualifying

John Dalrymple, assistant pro at Orchard Lake Country Club, shot a one-under-par 71 in the qualifying round of the \$30,000 Houston Open Tuesday. He trailed five players who shaved three strokes off par to share medalist honors with 69s.

Tied for the top spot were Don Shock of Columbus, O.; Buster Reed of Dallas; Lodie Kempa of Kansas City; Billy Cappa of Greenville, S. C.; and Earl Jacobson of Victoria, Tex.

U.S. Skier Withdraws

ARE, Sweden (U)—Buddy Werner, of Steamboat Springs, Colo., who sprained his right ankle in a practice spill yesterday, withdrew today from the giant slalom event of the world skiing championships.

Mims Favored Over Detroit

DETROIT (U)—Quick-hitting Holly Mims of Washington, D. C., idle for three months, returns to ring warfare tonight and is a 7 to 5 favorite to beat Detroit's Moses Ward in a middleweight 10-rounder in Olympia Stadium.

The bout will be telecast (CBS) from coast-to-coast starting at 10 p. m. (EST).

Working on a seven-fight winning streak, the more experienced Mims is expected to have too much speed and staying power for the 21-year-old Ward, who is getting his 2nd crack at the big time.

Last month Ward made a strong stand against Willie Troy, another Washington middleweight, but punched himself into near exhaustion and was knocked out in the 8th round.

"I'll pace myself better in this one," said the dead-penned Ward. "I was too anxious against Troy."

Ward knows he has to make good this time. Another loss could drop him back into the preliminary ranks again.

You won't find it in the dictionary

No dictionary in any language gives "Schlitz" as a definition for satisfaction, but the millions of people who have been drinking Schlitz these many years will tell you that the dictionary should be revised.

Since it's satisfaction you want you'll always find it in Schlitz. There's just no substitute for Schlitz.

Schlitz is one of the finer things of life that everybody can afford. It gives more satisfaction to more people than any other beer in the world.

If you like beer, you'll love Schlitz.

Branca, Gromek Sign, Three Out of Fold

LAKELAND, Fla. (AP) — The Detroit Tigers holdout list had dwindled down to three players today with the signing of pitchers Ralph Branca and Steve Gromek. The two righthanders came to terms with general manager Muddy Ruel yesterday after conferences.

Both had been at the Tigers spring training base since the battery-men reported. But neither had

been permitted to work out with team members. They had been doing their practicing at a nearby football field.

Signing of the two veteran hurlers left only Ned Garver and infielders Johnny Pesky and Buddy Hicks still out of the fold.

Garver, who had an 11-11 record last year, balked from a reported salary cut. He underwent a knee operation during the

winter after being bothered by a torn cartilage, ripped in the opening game of the season at St. Louis.

From his Ney, Ohio home, Garver said that his knee has shaped up fine and "doesn't bother me any more."

He has predicted, "I'll be in better shape physically this year than I was in 1952 or 1953."

In 1952 Garver was troubled by a sore arm. He pitched only one game during the entire season. But if the handsome curveball artist can climb back to the peak

that made him a 20-game winner for the last place St. Louis Browns in 1951, both Hutch and Ruel believe he can become a terrific asset.

Garver, although he has sent five letters to Briggs Stadium and made one phone call, has not been in touch with the front office for several days. He drew down \$25,000 last year as the highest paid player on the team.

But Ruel wasn't overly worried. "We actually aren't far apart," he said. "Some stories have been written that I have asked him

to accept a \$5,000 salary cut. That isn't true. It was less than that . . . quite a bit less."

Branca, a 4-7 hurler with Detroit last year, came to terms after an hour-long conference with Ruel.

Then Gromek and the general manager huddled. Gromek won six and lost eight with Detroit during the 1953 season.

And when the conferences were over, Tigers had all their pitchers but one ready to take the firing line in 1954.

He Has 'Horses'

Matt Mann Believes Michigan's Depth Gives Wolverines Edge in Big 10 Test

ANN ARBOR (UP) — Matt Mann wore an optimistic grin today as he prepared for the last time to send his University of Michigan swimmers after the Big 10 championship.

The gray-haired coach is con-

fident that his Wolverines will end a 5-year famine by capturing the conference crown in the 3-day meet that opens here Thursday.

"We have the horses," the 69-year-old Mann boasted. "Depth will be the deciding factor."

This is Mann's 29th year as swimming coach at Michigan. During his long reign he has directed the Wolverines to 16 Big 10 titles. Naturally, he's anxious that the championship rest at Ann Arbor when he retires in June.

In recent years, Mann has been forced to take a back seat to Mike Peppe, his arch-rival at Ohio State.

Many believe that Peppe's powerful Buckeyes, with their crack Hawaiian trio of Ford Konno, Yoshi Oyakawa and Dick Cleveland, will dominate the meet for the 6th straight year and make

Mann's final fling an unhappy one. Mann conceded that Ohio State might take 1st in as many as nine of the 14 events.

"But we'll take out share of 2nds and 3rds," he said, "and we might sneak in some unexpected 1sts along the way."

Ohio State defeated Michigan, 52-41, in a dual meet last week which seemingly would give the Buckeyes an edge in the Big 10 championships.

However, a dual meet victory sometimes doesn't give a sound basis for comparison since it is run differently than the conference meet.

Peppe is worried about the prospects.

"We'll get a head start with 1sts from Cleveland, Konno and Oyakawa," he said. "But we'll have to score further down the line to win."

Eastern Ends Washington's Domination of SJHS Loop

Eastern ended Washington's 3-year domination of suburban Junior High School League basketball Tuesday afternoon by defeating the Braves, 39-27, for the circuit's 1954 championship.

Braves, who had won the title three years in a row, had a 25-game undefeated streak snapped by Eastern earlier this year for their only loss prior to yesterday.

Eastern held a 14-13 lead at halftime, and pulled away to a comfortable margin by outscoring Washington, 13-6, in the 3rd period. Terry Zellhart led the winners with 11 points, while Charles Moss had an equal total for the Braves.

Lincoln handed Waterford its 8th

consecutive setback, 26-20, in another SJHS loop game Tuesday. Bill Kennedy and Jim Maggard paced the victory with 11 points apiece.

Pronovost Lost for 3 Weeks

DETROIT (UP) — Marcel Pronovost, Detroit Red Wings' hard-checking defenseman, may be sidelined for at least three weeks because of a back injury, doctors said today.

X-rays disclosed Tuesday that Pronovost suffered an injured vertebra in the Wings' game with the Chicago Black Hawks at Omaha, Neb., last Thursday.

Pronovost finished the game and it was believed his injury was not serious, but his pain persisted. X-rays then were taken.

The team announced that Al Arbour, rookie just up from the minors, will move into Pronovost's position.

Chief Natators Take Part in Conference Relay Test

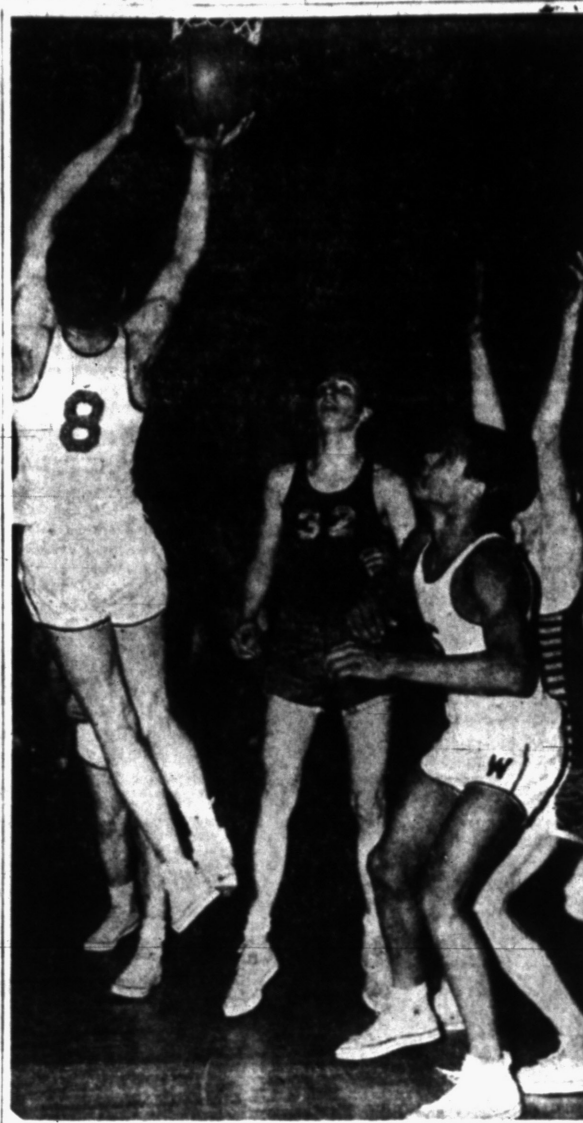

Pontiac High's swimming team is at Flint this afternoon, competing in the 3rd annual Saginaw Valley Conference relays.

Team balance, not individual stars, is all-important in this all-relay affair. Only individual events scheduled were a diving exhibition and three junior varsity races, none of which count in the final scoring.

Card includes free style relays at 200 and 400 yards, medley relays at 150 and 300 yards, a 225-yard individual medley relay, 200-yard breast stroke relay, 200-yard back stroke relay and a 150-yard novelty free style relay.

Scoring was to be on a basis of eight points for 1st place, six for 2nd, four for 3rd and two for 4th.

Arthur Hill, 1954 Valley cham-

TWO-POINTER—A basket on its way. That's what the camera caught during the 1st period of yesterday's Washington-Eastern Junior High School basketball game. The boy just letting go a layup shot (8) is Washington's Dick Singleton, a guard. No. 32 is Eastern's James Skinner; No. 5 (white shirt) is Frank Whitlock of Washington. Game was won by Eastern, 39-27.

Chiefs Paired With E. Detroit in Class A Test

Maples Get Berkley, Skippers Face Five From Detroit

Pontiac High will meet East Detroit in the 1st round of tournament play at Birmingham's Class A regional meet next week.

Drawings held this week for the tournament pitted Birmingham against Berkley and DeLaSalle against Waterford in other opening round contests. Mt. Clemens drew a bye.

The 3-day test opens next Wednesday, with the DeLaSalle-Waterford game at 6:30 p.m., the Birmingham-Berkley tilt at 8 o'clock and the PHS-East Detroit tussle at 9:30 p.m.

Second-round games are set for 7:30 and 9 p.m. Friday, and the championship battle is scheduled for 8 p.m. Saturday. No games are scheduled for Thursday night.

Host team Birmingham, boasting a 10-4 season's record, probably will be rated the tourney's favorite.

Ferdale is the site of the only other "A" regional in the area. That meet will get under way on Tuesday, with top-ranked Highland Park tangling with the host team at 8 p.m. Wednesday games will match Royal Oak and Southfield and Hamtramck and Hazel Park. Grosse Pointe drew a bye.

A horse named Landlocked was flown from South Carolina to Hialeah for a special race and won it.

Fishing Records May Tumble This Year

Jerry Wooliever Is Named New President of OCSC

At the recent election held by Oakland County Sportsmen's Club, Jerry Wooliever was chosen president for the 1954 fiscal year. Wooliever, Pontiac photographer, succeeds Frank Foster.

Robert White, Waterford, will be the new 1st vice president; Lloyd Sibley, Clarkston, the 2nd vice president, while George Zimmerman, Pontiac, was elected club secretary; Jerry Rusten, Drayton Plains, was re-elected treasurer, as was George Caverly, Pontiac, as sergeant-at-arms. Dr. P. B. Jones was named to a three-year term as trustee.

Also selected were 15 new directors who will serve two-year terms: Lew Borer, Pontiac; James Bowden, Franklin; Robert Cox, Berkley; John Donaldson, Pontiac; Paul Gaber, Clarkston; Fred Herman, Drayton Plains; Frank Ketcham, Pontiac; Gerald Kintz, Ortonville; William Kreklow, Pontiac; Don McFarlane, Milford; Charles Mills, Holly; Ray Newman, Pontiac; Fred Reed, Birmingham; Bob Robichaud, Dray-

ton Plains; and Lewis Wrenn, Pontiac.

All new officers and directors will be installed at the March 31 annual meeting of the club.

MSC's All-America, Dohoney, Joins Cards

CHICAGO (UP)—Don Dohoney, All-America end from Michigan State College, has signed a 1954 contract with the Chicago Cardinals of the National Football League.

Dohoney, Cardinals' 5th draft choice, was end on the defensive platoon. Card coach Joe Stydahar termed the Spartan wingman the "best defensive end developed in college ball in a great many years."

"He rushes the passer real good, plays the running game well and is one of the most rugged players we've seen," Stydahar said.

Viola Huskey was selected as the "most athletic girl" at Tennessee Wesleyan College.

Action Is Due on GL Fishing

Proposal to Require Permits Must Be Acted on Before March 10

By JAMES A. O. CROWE LANSING (U)—Look for some kind of action by the House of Representatives before March 10 on a bill requiring licenses for Great Lakes fishing.

The bill is on the House calendar, and under the rules must be acted on by March 10 or die automatically.

The bill is all that remains of the conservation commission's program to increase most hunting and fishing license fees and require licenses for Great Lakes fishing and for wives of residents.

The legislative committees were not interested at all in the proposal to increase fees. House fish and fisheries committee also killed the wives' license bill. And powerful opposition is arrayed against the Great Lakes bill.

Scribe Expects Both Salt, Fresh Water Standards to Be Bettered This Summer

By JACK PATTERSON
Last week some rather optimistic observations were offered on the imminence of spring. How clouded can a crystal ball get? Henceforth we'll leave matters meteorological to duly constituted weather authorities.

One doesn't mind sticking his neck out in another direction, though. Despite the "good old days" theory of size and relative abundance of game fishes, here's a prediction that the 1954 season will not only see many salt water records broken, but will put some long standing fresh water records in jeopardy.

Combination of a vast number of fishermen and constantly increasing accessibility of new territories (and unexpected productivity of some old ones) opens up some real record-shattering potentials.

One record which seems bound to go is the present 46 pound 2 ounce northern pike. Bigger fish than that regularly die of old age or wind up as dog food in Alaska and parts of north-ern Canada.

A little concentrated effort in that direction by a dedicated pike fisherman should overcome the present champ which was hauled out of a N. Y. reservoir in 1940.

It would seem we're about due for a new musky record, too. The present winner 69 pounds, 11 ounces falls far short of the other than rod and reel record of 102 pounds.

It might be too much to hope for, but it is by no means impossible, that somewhere in Quebec, Ontario, Manitoba or even Maine, someone will pull in a brook trout that will top the 14 pound, 8 ounce that Dr. W. J. Cook took out of the Nipigon River on that far off July day in 1916.

The Nipigon, incidentally, and its parent lake are far from fished out. These waters produced three brookies over eight pounds and two over nine pounds in 1953.

A quick glance at records to date should satisfy anyone that except in a few categories the day of the record buster is not

War II, new records have been set on 28 of the listed species. This is a division which except for a few onshore species that are hard fished and have become relatively scarce, is literally wide open for the seeker after a record.

Here again, as is the case with fresh water fishing, opening of new territories offers a better chance than ever to tie into a record breaker—as witness some of the fleet submarine sized black marlin being taken in the Cabo Blanco area off Peru.

Handicapped Birds Show Cooperation

One-Legged Canada Jays Lean on Each Other

This one is vouched for officially by the Ontario Department of Lands and Forests.

District forester R. H. Hamby

of Mohbert, Ont., reported that two crippled Canada jays had teamed up for their mutual benefit. The jays were observed in front of district headquarters, leaning against each other.

Investigation showed both had lost a leg.

"Both birds, handicapped as they were, gave a surprising display of cooperation and maneuvered about extremely well," Hamby said. "Canada jays are frequently caught in traps, and perhaps lost their legs in this way."

Michigan Outdoors:

Chile Climate, Food Produces Fine Fishing

By MORT NEFF

Our recent trip to Chile probing rumors of "fabulous" trout fishing in that country brought forth some startling facts about rainbows—actual descendants of Michigan rainbow trout.

planted there some 20 years ago. Chile—at least the central portion of that elongated republic—is in the same south latitude as Michigan is north. Theoretically the climate might well be the same (except that summers and winters are reversed on the calendar, and trout might be expected to prosper equally well in both Michigan and Chile).

If such were the fortunate case Michigan anglers would be catching 15 pound trout only 4 years old! That's how fast they grow in South America!

Protected by the towering Andes on the east, and warmed by the Pacific Ocean on the west, Chile enjoys mild temperatures the year 'round. Rainbows apparently feed voraciously in both lakes and streams for the entire 12 months of the year.

Their diet is extraordinarily rich in elements contributing to rapid growth—and the diet is mainly one dish: The pancora crab. Found

along the rocky shores of lakes and rivers, the pancora looks like a cross between a crawfish and a standard crab. It occurs everywhere in Chile, and abundantly, in a size to please every trout!

Michigan fisheries research might well examine the possibility of transplanting the pancora to some of our streams. Water temperatures in Chilean rivers drop to around 40 degrees in late winter and spring with the snow run-off from the Andes. If the crabs survive such temperatures they might also live in Michigan's Au Sable, Sturgeon, Manistee, Pigeon or numerous other trout streams.

DiMaggio Is Sought for Sportsman Show

HOLLYWOOD (U)—General manager Mel R. Morrison today announced he has offered ex-baseball star Joe DiMaggio a 5-feature sum to appear during the 11-day run of his sportsman's, boat and trailer show April 15.

Another baseball hero, Ted Williams, proved a great attraction at a similar exhibit in Boston last year and Morrison said DiMaggio could be the same here.

Morrison, with a chuckle, added that he wouldn't object if Joe insisted on bringing his bride—girl named Marilyn Monroe—along.

Turk Lown, righthander for the Chicago Cubs, was wounded in the Battle of the Bulge. He served with the infantry in World War II.

A quick glance at records to date should satisfy anyone that except in a few categories the day of the record buster is not

Paper Wants Wolf Bounties Discontinued

Those who have long advocated the abolition of the century-old state bounty on wolves have been joined by the Sault Ste. Marie Evening News.

In an editorial, the newspaper calls for an end to wolf trapping before "there is nothing to trap."

The newspaper adds its weight to many who have been advocating for years that Michigan should stop short of complete extinction of a fabled and picturesque species.

Conservation biologists have proven long ago that there are only about six families of wolves left in the state. They are confined entirely to the remotest parts of the Upper Peninsula.

Damage they do to deer, the anti-bounty people say, is infinitesimal.

Parking Plans Offered to City

Paul A. Kern Proposes
Wayne, Warren Lands
Be Acquired

A new plan for developing two municipal short-term parking lots in downtown Pontiac was presented to Pontiac City Commission last night by Commissioner Paul A. Kern.

Kern said he had been waiting the outcome of the city's suit to acquire land at 11-49 Parke St. for parking purposes before submitting his proposal.

(An Oakland County Circuit Court jury yesterday found no necessity for Pontiac to have the land in question, but Judge George B. Hartwick said the legality of the verdict is questionable, because of its inconsistency.)

Kern proposed the city purchase or condemn two sites in the following order:

1. All the land fronting on Wayne street and West Alley and lying between the Consumers Power Office Bldg. and the Oakland County Court House property.

2. All the frontage on Warren street from West Alley to Wayne street and the frontage on Wayne from Warren to the Michigan Employment Security Commission building.

Kern said he thought the buildings could be "developed as an open ramp garage of not less than two floors, subject to proper engineering recommendations."

He estimated the locations could be outfitted to hold about 300 cars each.

Kern's plan calls for the sites "to be paid for by revenue bond issue only."

Commissioners agreed to study the plan, while waiting more developments in the present condemnation suit.

\$700,000 Fire Hits Jack Habel Garage

(Continued From Page One)

caped injury after braving the billowing inferno to retrieve a fire engine used in the garage to extinguish the first minor fire.

Surrounded by flames, according to Lt. Howard White, whose hair was burned, Fireman Woodworth, 46, rushed into the collapsing building, jumped into the truck and drove it through the dense smoke.

A light pole across from the garage was knocked down by the truck when Woodworth was unable to see through the blinding smoke.

"Things looked bad just before dawn," Fire Chief John F. Schroeder said. "It looked like this one was going to be the toughest one I had seen."

Schroeder, who summoned every Pontiac fireman and all available equipment, said he called in Birmingham and Waterford Fire Departments to aid.

Less than a block away from the Station No. 1, the garage is reduced to smoking rubble. Beams once stretched across the building are twisted in pretzel-like form.

About 60 vehicles were quickly removed from the city municipal parking garage which is located north of the Habel company. Wrecker crews and police also removed other cars parked in front of the building.

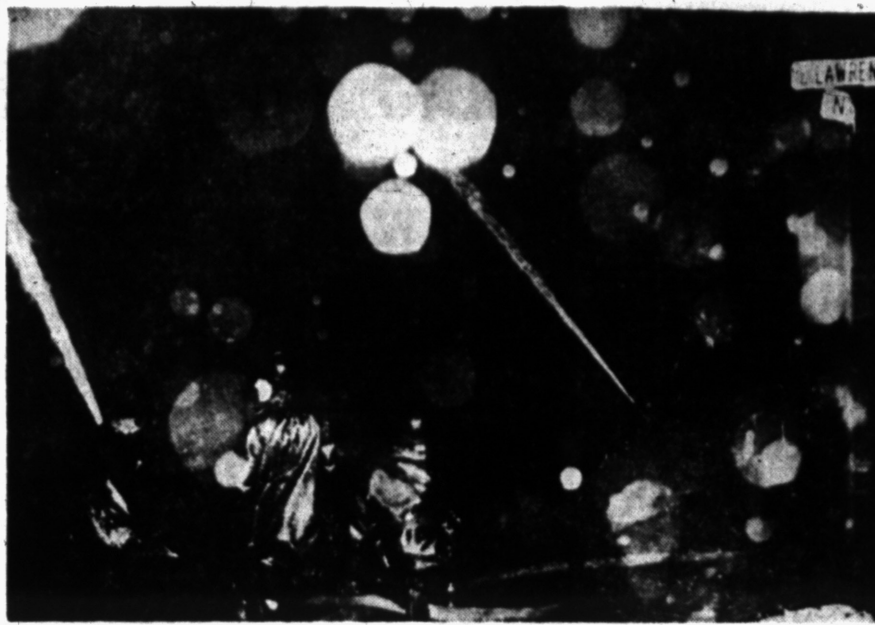

Extensive smoke damage was caused throughout the storage garage, next to the razed one-story building.

Schroeder, who said the fire is the biggest since 1942, estimated the damage at about \$700,000, but company officials said that damage may go higher.

The control tower, parts department and the reception area were destroyed, totally.

The last large fire in Pontiac, Schroeder said, caused \$510,000 damage when Chase's Department Store, 54 N. Saginaw St., was leveled late in 1942.

Pontiac Patrolmen Olin Hoffman, Herbert C. Cooley and William Young who were leaving po-

FIGHTING SNOW AND FIRE—This picture pictured pouring water into "the burning Habel Chevrolet Building this morning. A 30-mile wind, snow and cold weather added to the firemen's task in battling the costly blaze.

lice headquarters a short distance away, said they felt the force of 10 explosions vibrate against the buildings.

"I saw a big puff of smoke sweep across Mill street and flames started shooting toward other buildings," Hoffman reported.

"It was a powerful gush with big balls of fire," said Cooley. "The smoke was so thick, it even hid the headlights of cars."

The men were standing about 200 feet away from the garage entrance.

Charles E. Chapman, owner of Hotel Chapman at Saginaw and Pike streets, said he feared his building would catch fire when sparks were settling on the roof.

Fire engines and three ladder trucks were used by the Pontiac department. Two ladder trucks from Waterford and one from Birmingham aided in the fight.

Barely recovered from M. A. Benson Lumber Co. fire Feb. 20, Schroeder said this is the second biggest blaze to hit Pontiac within two weeks.

Estimated damage in the Benson fire and today's blaze exceed the loss on all fires in the city in 1953.

Rep. Bentley Now Off Critical List

(Continued From Page One)

Party in the wake of Monday's wild shooting attack.

The case of four fanatics, led by a woman, who are charged with attempting the first massacre of legislators in U. S. history, goes before a Federal grand jury in Washington.

U. S. Attorney Leo A. Rover said the grand jury hearing on the quartet of fanatics may be wound up in one day.

Mrs. Lolita Lebron, 34, self-admitted leader of the gunfire plot, and two companions, Rafael Concel Miranda, 25, and Andres Figueroa Cordero, 29, have admitted their participation. They were captured just outside the gallery from which the shots were fired into the crowded House chamber.

The fourth suspect, Flores Rodriguez, 28, was arrested at a Washington bus terminal a short time later and has refused to talk to police. All four are from New York City.

The other legislators hit by the wild spray of gunfire were on the road to recovery. They are Reps. Ben F. Jensen (R) Iowa, Kenneth A. Roberts (D) Ala., George H. Fallon (D) Md., and Clifford Davis (D) Tenn.

Leaving State Police Post

EAST LANSING (AP)—Staff Capt. Lawrence J. Meahan will retire Saturday from State Police to accept a position as chief of the security forces at the new J. L. Hudson Co. shopping center in Southfield Township, Oakland County.

Family Prayers Will Bring Kindness

(Continued From Page One)

from the eighth grade through higher theology.

And when he told this to me, I said: "Tom, I should have started five years ago, God forgive me. Let's do it together." We started the long years of intense study, working on the side.

Perhaps because of strain and long hours, my health broke. I contracted tuberculosis when I was only two years away from my goal. The doctors gave me less than a year to live.

But I would not take that verdict. I started to pray as I never had before.

I did not know it then, but my family in Ireland was conducting a concerted effort of prayer, too. My mother prayed she might have my illness instead of me because "Pat can do more for souls than I." She soon died of it. My sister Nellie vowed not to marry if I might be saved for God's work.

And I was cured. I knew it. I asked the doctors to X-Ray my lungs again, but considering me hopeless they paid no heed. And then one doctor who knew of my campaign of prayer offered to do it just to see for himself how justified my faith was. He did it almost as if daring me.

Verdict? My lungs were whole. In a few weeks I was pronounced well and released.

I was a year behind in my studies, but I wanted to be ordained with my brother Tom. Once again I prayed fervently—and by special order from Rome it came to pass.

In answer to prayer the two healthy Peyton boys received Holy Orders together—and I was permitted to finish my studies and take my examinations afterwards.

In gratitude, I vowed to make prayer popular again. I went to Hollywood and 50 of the greatest names in radio and motion pictures agreed to help me popularize family prayer.

Money came from sources which we hadn't contacted or counted on and which would amaze you as it did us. But I know much of it was simple concrete answer to prayer. And the result, "The Family Theater," a program of prayer for all faiths, has been marked with blessing. It has brought miracle after miracle of love.

There was the sophisticated couple who heard a program "Flight From Home" in their Reno-bound car and drove back home to try again; the couple who listened on their wedding night and knelt together pledging family prayer even though they were of different religions; and the father who, after one of our programs, prayed for his condemned son—the boy, pardoned a week later, now prays with him.

Try it yourself, I beg of you. For while there are cycles of spiritual dryness, the daily family

prayers bring tremendous uplift. If you are faithful to the loving God, you will love and be loved, for love beyond self grows within you, and spills out overflowing.

TOMORROW—Conrad Hilton tells of the powerful inspiration a small boy offers.

Hi-Fi Hounds Need House of 16 Soundproof Rooms

By ED CREAGH
(For Hal Boyle)

WASHINGTON (U.S. Press)—Clamp on your earmuffs, people. The wolf and two boys, sometimes known as the Hi-Fi hounds, are coming to town.

You've met some of them already, chances are. "Hi-Fi," of course, stands for high fidelity. It does not mean, in this case, the quality you esteem in a husband or wife. It means the attempt to make the noise that comes out of a phonograph record sound exactly like the noise that went into it.

Now Hi-Fi, like the drinking of schnapps, can be a hobby, a part-time occupation or a way of life. Also, like schnapps drinking, it's treacherous. You say to yourself, "I'll buy just one more gadget and then swear off"—and the next thing you know you're up to your attic in loudspeakers.

And boy what a financial hang-over! For there's one thing about these Hi-Fi hounds—they never can stand having a record-player, to use the old-fashioned term for it, turned down to a reasonable level. The sound volume has to approach a Democratic National Convention in full voice or they're unhappy. Back in the good old pre-Korean

war days, when my wife and I lived in New York, we used to drop in now and then on our Greenwich Village neighbor John Randolph, who hadn't yet gone off to be a war correspondent for The Associated Press.

We always had a fine time. John is one of the world's great waffle cookers and he unfailingly played records for us. Without reflecting on his hospitality in the slightest, however, there were two unusual aspects to a Randolph evening:

1. You seldom had any place to sit. His apartment was crammed from kitchenette to window sill with speakers, coils, piles of records, stacks of Hi-Fi trade publications and—in the middle of it all—a waffle iron. I don't know if he had the waffle iron plugged into the Hi-Fi system or not, but I suspect he did. His waffles certainly were, as the Hi-Fi hounds say, in the groove.

2. You couldn't hear John or he couldn't hear you. All you could hear—all the neighbors could hear—was that matter—was Mozart or Edith Piaf or whatever record Randolph had revolving on one of his many turntables. Conversation was reduced to some variation or other of that old gag: "Isn't that wonderful?" "What?" "I said

Isn't that a wonderful record?" "Still can't hear you." "I said—you're shouting at the top of your lungs now—Isn't that a fine record?" "Can't hear a thing you say—this confounded record makes too much noise!"

If I sound envious of the Hi-Fi hounds with their "woofers," which are big speakers to catch the low notes, and their "tweeters," little speakers to pick up the high notes, it's because I am envious. I'd like to put together one of those fancy outfits, too. Trouble is I can't afford the 16-room house with soundproofed walls that really should go with a Hi-Fi system.

Man Has Retired to Life of 15-2, 15-4, 15-6, 15-8

WHITINSVILLE, Mass. (U.S. Press)—George Williams, a machine shop foreman, retired nine years ago and has been playing cribbage with his wife ever since.

They have played 27,000 games counting holes rather than games in scoring. The lead has shifted alternately from 700 to zero. The latest count gave Williams only an 18 hole lead over his wife.

Library Receives 23 Additional Books

Twenty-three new books have been received by Pontiac City Library, according to Librarian Adah Shelly. The books, fiction and non-fiction, are:

Adult Fiction
Born a Yankee, Grace Carstens
The Caves of Steel, Isaac Asimov
Death of a Lake, A. W. Upfield
God and My Country, MacKinlay Kantor
A Kid for Two Farthings, Wolf Mankowitz
Mid-watch, Edward Ellberg
The Newcomer, C. B. Davis
Truth and Consequences, M. S. Stolt
The Untidy Pilgrim, Eugene Walter
The Whistling Shadow, Mabel Seelye
Widow Man, Edgar Wells
The Young People, Gertrude Schwenner

Adult Non Fiction
Civil Air Regulations and Reference Guide for A & S Mechanics
The Complete Book of Home Modernizing, Samuel Paul
Complete Small Appliances Cookbook, John Robinson
Delicious Seafood Recipes, Louis Garrison
Gossamer Gyrfalcon, F. I. Thomas
The Intimate Problems of Women, M. B. Safford
Learning Parliamentary Procedure, A. F. Sturges
Madeline Grown Up, M. O. Henry
The Man Who Never Was, Even Montagu
Motor Service's New Automotive Encyclopedia, W. K. Tuboldt
What Prayer Can Do, Guldpost

Show Created by Don Herbert

Handsome Chap Also Host on Program That Proves Informative

NEW YORK — Don Herbert, handsome host and creator of TV's informative and entertaining program, "Mr. Wizard," was able after more than a decade of writing and acting, to combine his two primary interests — science and show business — into a television program, and a new career.

Herbert, who was born in Waconia, Minn., on July 10, 1917, but grew up and attended schools in La Crosse, Wis., constantly wavered between his desire to pursue a teaching career in science and his interests in dramatics.

It was in his early years in high school that he first became interested in science and later, in his senior year, he also took up dramatics.

Deciding to continue acting rather than teaching, Herbert and his wife went to New York where he held a number of odd jobs and was on the verge of playing the juvenile lead in the Theatre Guild production of "Papa Is All" when he was called into the Air Force.

As an Air Force captain, Herbert flew 56 missions, and upon being discharged took the advice of a friend and went to Chicago where he subsequently began acting and writing for radio.

Then deciding he wanted to turn his talents toward his own show on television, he combined his background in science and acting, and devised and presented "Mr. Wizard" which has occupied his time ever since.

Herbert conducts his show on the theory that science can be made interesting, and his formula is "entertain first and educate second."

Detroit Assessments Up

DETROIT — Land and building assessments in Detroit have been upped \$84,222,300 for 1954, compared with 1953, the city's board of auditors reported to city council today. The proposed 1954 assessment, subject to alteration by the council, totals \$3,096,982,620 compared with \$3,012,760,320 last year.

VALIANT LADY — Attractive Nancy Coleman made a Broadway debut 15 years ago and consequently appeared in motion pictures and radio. Miss Coleman states that her title role in the daytime TV series, "Valiant Lady," is one of the most rewarding ventures she has ever undertaken dramatically.

Cobalt is an important alloy in making heat-resistant steel for jet engines, gas turbines, turbochargers and gun barrel linings.

Boeing Uncovers 550 Mile-an-Hour 4-Jet Airliner

SEATTLE (AP) — A jet-propelled challenge to British and American planemakers—a 550-mile-an-hour aerial giant—has been taken from under its veil of secrecy by the Boeing Airplane Co.

The 95-ton swept-wing, four-jet airplane was shown yesterday as it neared completion in the sprawling plant of the company which also builds the Air Force's B47 and B2 jet bombers.

It was known how gained in building the bombers that made it possible for Boeing to be so near completion of the prototype of what it hopes will be the world's commercial carrier of the future, said William M. Allen, president of the company.

The first 707 won't fly until possibly early in September, he said, and production of planes for sale is three years away. But, company officials contend this will give them a sizable jump on other American manufacturers because, they said, no other airplane building in the United States has progressed as far with jet airliners.

For safety's sake, wash knives and other sharp kitchen tools apart from other dishes.

Claims Body Defenses Fight Cancer in 7 of 8

CHICAGO (UP) — Natural defense mechanisms of the body overpower cancer in seven out of eight persons after they reach the age of 40, according to a prominent surgeon.

Many people after 40, says Dr. Ian MacDonald, professor of surgery at the University of Southern California, "repeatedly develop microscopic areas of cancer." One out of eight eventually dies of cancer, he writes in the January issue of Science Digest.

However, he adds, the other seven have the ability after middle life to "react with such biological violence that incipient cancer is blocked out."
