Crowds Watch Top Golfers at Pontiac Press Clinic

Pontiac Press Photo

AT 14TH HOLE—Crowds circle the 14th green at Pontiac Country Club yesterday afternoon to watch the action in the golf exhibition and clinic sponsored by the Pontiac Press. Lloyd Syron is shown in the center of the green in this picture. See story on page 28 and additional pictures on pages 21 and 28.

New Peddling Law Is Passed

But Commission Delays Action on Hospital Vote for One Week

An ordinance amendment banning the peddling of ice cream products on Pontiac streets was passed last night by the city commission, but final approval of a Nov. 2 public vote on issuance of \$3,000,000 in bonds to expand Pontiac General Hospital was deferred until next week.

The ice cream ordinance is designed, commissioners said, both as a measure to prevent traffic injuries and to foster public health by preventing the streets from being littered with wrappers, ice cream cones and "confection sticks."

The ban has immediate effect. It prohibits the peddling from any vehicles of meat, poultry and fish as well as the "vending or giving away of wrapped, frozen ice cream novelties . . . either in paper containers or frozen on sticks."

The need for stronger peddling restrictions was originally pointed out by Commissioner John E. Carry (District 6) who informed commissioners that cases against peddlers were being thrown out of municipal court because of a question as to the original law's validity.

Commissioners voted to nullify their last week's passage of first reading of a hospital bond ordinance so a new ordinance drafted by Detroit Bond Attorney Claude Stevens could be drafted by SHRD. Stevens could be substituted.

Stevens felt a slight wording change in the ordinance would make it a sounder legal document, according to Pontiac City Attorney William A. Ewart.

First reading of the new ordinance was passed, with only Commissioner Harry W. Lutz (District 7) opposed. Final approval of the measure is expected next week.

Restrict Price Changes

NEW YORK (AP)—Coffee prices on the Coffee and Sugar Exchange will be allowed to change only 1 cent a pound per day until conditions in Brazil settle down following the suicide of President Getulio Vargas. The limit was previously 2 cents.

Mitchell Will Tell Views on Tennessee Valley Plan

WASHINGTON (AP)—Democratic National Chairman Stephen A. Mitchell, who calls the plan "a raw deal," will have the chance Sept. 2 to tell Congress what he finds wrong with the administration's controversial contract for private power in the Tennessee Valley area.

Rep. W. Sterling Cole (R-NY), chairman of the Senate House Atomic Energy Committee, wired Mitchell yesterday an invitation to testify on "any evidence of malfeasance or impropriety."

Mitchell was being asked to appear, Cole told the Democratic chairman, "in view of your repeated intemperate charges against President Eisenhower in this matter."

Mitchell promptly replied he was "glad" to accept the invitation and added:

"I am troubled however by your telegram which characterizes my questions as 'intemperate charges.'"

Local Peach Queen Gives Pie to White House Aides

Michigan's Peach Queen, 18-year-old Karen Hoff of Pontiac, will present a tasty, home-made peach pie to White House aides in Washington, D. C., today.

The pie was intended for President Eisenhower and Secretary of Agriculture Ezra Taft Benson but both men are out of town.

Karen, the daughter of Mr. and Mrs. Carl Hoff of 270 1/2 East Blvd. S., was chosen Peach Queen Aug. 10 after being crowned Miss Pontiac on July 31.

The 3-day trip to Washington, D. C. is part of the annual Peach Queen pilgrimage and Karen will return to Michigan tomorrow to prepare for her reign at the Peach Festival in Romeo Sept. 4-6.

She said she "was very thrilled" when she saw the Washington Monument yesterday as she flew into National Airport to be met by officials of the Michigan State Society.

A yellow convertible whisked her and her chaperon, Mrs. H. J. Kernaghan of Romeo, into Washington for the first of several sight-seeing trips.

A dinner has been arranged in her honor for tonight and part of today's activities included a trip to Arlington Cemetery and the Lincoln Memorial. After luncheon today she will be taken to Mount Vernon and historic Alexandria, Va.

The state society is presenting her with a corsage for each of her appearances while in the Capital City.

Fire Protection Pact Is Drawn for Five Cities

An agreement between Pontiac and four cities to the south to provide each other with fire fighting aid, if needed, was approved last night by the City Commission.

City Manager Walter K. Willman was instructed to conclude the pact with Royal Oak, Ferndale, Birmingham and Hazel Park.

Under terms of the agreement any one of the municipalities will provide one pump and four men to any other of the cities requesting them in case of a serious fire.

An informal agreement of the same nature has been followed in the past, but now the set up will be agreed to in writing. Any one of the partners can end their obligation by giving a 30-day notice, said Willman.

Jet Zooms 50 Miles Without Pilot; Crashes

LONDON (AP)—A Royal Air Force fighter, a Swift, one of Britain's new high priority secret jets roared over about 50 miles of English countryside today without a pilot aboard and then crashed into the North Sea.

The swept-wing fighter developed trouble at 10,000 feet about 50 miles northeast of London and the pilot parachuted.

American Starts Flights

NEW YORK (AP)—The first American Airlines plane to fly in 25 days took off from La Guardia field at 7:09 a.m. today for Rochester and Buffalo, N. Y. Other flights followed.

Urges Revision of Anti-Red Law

Sen. Jackson (D-Wash) Wants 84th Congress to Do Thorough Job

WASHINGTON (AP)—Sen. Jackson (D-Wash) proposed today that the 84th Congress take time to do "a thorough and resolute" job in revising the laws curbing Communists, including a bill signed yesterday by President Eisenhower.

Eisenhower said in signing a measure which would strip the Communist party of its legal rights that further study will be required to determine its full impact on the enforcement of laws already on the books.

As one of the Democrats who helped put across the measure in the face of Republican opposition to attaching it to another bill, Jackson said he regards the legislation as being open to possibly extensive revisions when the next Congress meets.

"I hope that when we return in January we can do a thorough and resolute job in dealing with the Communist problem," he said. "The action Congress took on this particular bill was hasty and was done without prior committee hearings."

"By January we should have some positive comment by the Justice Department on the workability of the new law and how it affects other statutes."

Jackson said he and other Democrats who suddenly came up with a proposal to outlaw the Communist party had no intention of hampering the operations of the Internal Security Act, under which the Justice Department is attempting to force the registration of all Communists.

Eisenhower said in signing the bill that he was satisfied that its terms "were not intended to impair or abrogate any portion of the Internal Security Act or the criminal statutes under which the leaders of the Communist party are now being prosecuted and that they may prove helpful in several respects."

European Army Treaty Chances Appear Slimmer

Mendes - France Sends Pact Without Support to Assembly

PARIS (AP)—The European army treaty's chances looked slimmer than ever today following Premier Mendes-France's decision to submit the pact to the National Assembly Saturday without government support.

He told reporters last night he would not stake the life of his government by calling for a vote of confidence on the treaty's ratification. The crucial decision not to recommend it as government policy was made at a Cabinet meeting which lasted into the late hours.

Even as the ministers met, U. S. Secretary of State Dulles and other backers of the proposed European Defense Community expressed hope the French still might squeeze through ratification. The French Cabinet's decision left little basis for such hopes.

West Germany, the Netherlands, Belgium and Luxembourg already have formally approved the agreement to pool their military resources with those of France and Italy. Italian ratification was expected to hinge on the French action.

France's five partners in the scheme, meeting with her at a foreign minister's conference last week and in Brussels, unanimously rejected Mendes-France's proposals to drastically change the project. The alterations would have stripped EDC of much of its central authority.

After Brussels it was left to France, the originator of EDC, to approve the plan in its original form or kill it off.

French reluctance to give up its national army in favor of a unified force stems chiefly from fear of a rearmament Germany and reluctance to relinquish any national sovereignty.

6 Youths Rescued After Boat Overturns

Six boys and girls all from Birmingham were rescued yesterday from Lake St. Clair after clinging for hours to their sailboat which was overturned in a thundersquall.

The youngsters were identified as Judy Tuttle, Julie Kelly, Donna Beunus, Muri H. Webster, Jack Goodman and Richard Turner.

The three girls were rescued by two unidentified fishermen in an outboard motorboat and the three boys were picked up later by Worthly M. McGee, a Mt. Clemens restaurant owner.

McGee said he learned the youngsters had set out from Metropolitan Beach when the sudden storm capsized the boat.

Formosa Remains Calm Despite Invasion Threat

TAIPEH, Formosa (AP)—Recent loud talk from Red China of an "impending liberation" of this Chinese Nationalist island stronghold—just 100 miles away—has caused no visible change in the tempo of life here.

Dependents of U. S. Military personnel continue to arrive. Businessmen from various countries come and go. Life goes on as usual.

No one thinks the Reds can make good their threats to seize Formosa. The big reason for the confidence is the guardian U. S. 7th Fleet. Another is the estimated 600,000 men in Chiang Kai-shek's armed forces.

In addition, military quarters say they are confident underground agents on the mainland could give warning at the first hint the Reds were assembling an invasion fleet. Nationalist air patrols are vigilantly watching.

But authorities continue to preach preparedness. They stress the possibility of Communist air attacks, pleading with citizens to move from Taipei and other cities to the countryside.

No one pays any attention. In fact, the population of the cities is steadily increasing.

Number to Testify Hinges Upon McCarthy's Defense

WASHINGTON (AP)—Sen. McCarthy's defense strategy appeared likely today to determine how many witnesses will be called by a special Senate committee assigned to weigh censure charges against the Wisconsin Republican.

The committee's public hearings, now scheduled to start Aug. 31, will be based at the outset on five classes of charges.

Indications are the six-member group plans to take testimony from relatively few witnesses.

However, Chairman Watkins (R-Utah) made clear that the committee was keeping a tree hand to expand the number of charges it will inquire into and the witnesses it will call.

"We're not going to close the door," he said.

Among questions still unanswered, however, are how many witnesses McCarthy will ask to have called, what subjects he will open up in presenting his defense and how rigorous he and his counsel will be in cross-examination.

The resolution of censure was introduced by Sen. Flanders, who asked the Senate to condemn McCarthy's conduct on the ground that it was unbecoming a senator and tended to bring the Senate into disrepute.

Flanders subsequently filed 63 separate specifications. Seven others were submitted by Sen. Fulbright and six by Sen. Morse.

The special bipartisan investigating committee said yesterday that out of these 66 charges, it has grouped 13 under five different headings:

1. That McCarthy showed contempt for the Senate by his failure to appear to answer accusations before a Senate Rules subcommittee that investigated his financial affairs in 1951-52.

2. "Incidents of encouragement of United States employees to violate laws."

(Continued on Page 2, Col. 3)

Anti-American Rioting Flares in Suicide Crisis

Communists Capitalize on the Death of Popular President Vargas

RIO DE JANEIRO (INS)—Police and troops guarded the U. S. Embassy and key points in Rio de Janeiro today to block further anti-American rioting in the tense aftermath to the suicide of former President Getulio Vargas.

Eight days of national mourning were decreed for the widely popular, 71-year-old Vargas who shot himself through the heart yesterday morning.

Brazilian government agencies were closed by order of the new President, Joao Cafe Filho, to honor his predecessor.

Vargas put an end to his long career only hours after he was forced to take a "leave of absence" and turn his powers over to Cafe.

The rioting and demonstrations in Rio and Porto Alegre to the south, where two persons reportedly were killed, apparently were Communist led—an effort by the Reds to capitalize on the uncertain political situation.

Within hours of Vargas' death, posters appeared in Sao Paulo and other cities blaming his suicide on "North American imperialists."

The bald, bespectacled ex-dictator and president was loved by many of Brazil's ordinary citizens who called him "Papa," and in their anger and grief at his death street crowds may have fallen in with the Communists.

Vargas was strongly pro-American throughout most of his 15 years as leader of his nation, and his supporters have no real basis for anti-Americanism.

The capital was quiet throughout the night.

The body of the former "iron man" will be taken by plane today to his birthplace at Sao Borja.

Vargas shot himself in the presidential palace after army and air force generals had forced him to take a 90-day leave of absence to end a dangerous political crisis touched off by the Aug. 5 murder of an air force officer.

In a radio broadcast last night, Cafe said Vargas had no need to make such an "extreme gesture" (Continued on Page 2, Col. 6)

Humid Weather Will Stay Here

Three Persons Are Killed as Storms Hit State Areas Yesterday

Pontiac is in store for more hot and muggy weather with occasional thunderstorms and a high of 86 to 90 forecast for Thursday. The U. S. Weather Bureau says the low tonight will be 68 to 72 with partly cloudy skies.

Thunderstorms in other Michigan areas yesterday were blamed for the loss of three lives.

Killed as she lost control of her car on a slippery road was Mrs. Geraldine Twigg, 23, of Brownstown Township. Also killed were her 19-month-old son, Joseph Jr., and Barbara Rose Trimarco, 11, of Melvindale, the daughter of a friend who was in the car at the time.

Several boats were damaged and a home was struck by lightning at Reeds Lake near Grand Rapids. Several sailboats were also upset by 35 m.p.h. winds.

A windstorm west of Homer partly disrupted telephone service from Detroit to Three Rivers, Sturgis, and Coldwater. Wind damage was also reported at Jackson.

Yesterday in downtown Pontiac the temperatures ranged from 70 to 91, with .03 of an inch of rain. This morning at 8 the temperature was 69 degrees, rising to 89 by 1 p.m.

Guam in Typhoon Path

TOKYO (AP)—A typhoon with winds up to 90 miles an hour is moving on Guam and may strike Okinawa and southern Japan, the Central Meteorological Observatory reported today.

Polio Sufferers Mark Anniversary

AP Wirephoto

AT KENNY INSTITUTE—Encased in chest respirators, a polio-afflicted farm couple observed their 15th wedding anniversary today at Elizabeth Kenny Institute in Minneapolis. Mr. and Mrs. Kenneth Knutson of Canby, Minn., parents of four, were admitted to the institute two weeks ago. To help them celebrate, the institute staff baked an angel food cake and decorated it with anniversary greetings. Chief therapist Vivian Hannan shows it to the smiling couple. It was a double occasion for Mrs. Knutson. She was removed from an iron lung today.

Watermelon Thieves Win Court's Pardon

RIPLEY, Tenn. (AP)—The judge found it easy to dispose of the case when three boys were brought in yesterday accused of stealing three watermelons from a farmer's patch.

Judge J. R. Lewis rapped his gavel. "Anybody in here who never stole a single watermelon when he was a boy, let him raise his hand," he said.

Sheriff Willard Norvell, County Atty. John Sanford, three highway patrolmen, court employees and spectators put their hands in their pockets.

Case dismissed.

The Day in Birmingham Blunders to Continue Study on Extending 14-Mile Road

From Our Birmingham Bureau
BIRMINGHAM—Discussing a report from Oscar Gunderson, traffic engineer, at its meeting last night, the Planning Board decided it would make further studies to help substantiate the case for the opening of 14-mile road between Southfield and Cranbrook roads.

Gunderson had been asked to comment on a recent survey taken at the West Maple-Cranbrook intersection, which indicated that 3,000 vehicles heading south could use 14-mile road, thus avoiding congested sections of Birmingham.

Agreeing with Gunderson that the survey as it stands does not carry enough weight to warrant the extension, the board will secure additional information, such as a survey of the minimum right-of-way width needed and an estimate of construction cost.

Studies will be made as time and funds permit, before a presentation is made to the Oakland County Planning and Road Commissions.

The board set Sept. 21 as the date for a public hearing to be held with property owners in the Birmingham Gardens Subdivision.

Problems of development for the area, particularly as pertains to the west side of Eaton road which faces industrial property, will be under discussion.

Edward M. Rader has petitioned the City Commission to resume the property on Eaton between Cole and Hazel streets from single-family residences to terrace zoning.

He proposes to build one-story brick terrace units there, which would be screened from the industries across the street.

Board members favor terraces over single-family homes. Available financing would only permit houses of minimum quality, because of the proximity to industry.

"Where Small Chicks Can Roost While Mama Flies Around." That is the slogan of The Hen House, due to open Sept. 7 at 351 N. Woodward.

Owner Mrs. Mary Mangum stressed that her Hen House is not a nursery school, but "just a nursery," where shopping or working mothers may leave their children for one hour or all week from 9 a.m. to 4 p.m. weekdays.

The nursery has been a dream of Mrs. Mangum's "for as long as I can remember." She studied child psychology at Michigan State College, wrote a children's radio program while living in Texas, and had the pleasant task of entertaining children at St. Joseph Mercy Hospital, Pontiac, under the auspices of the Gray Ladies.

Assisting her with indoor and outdoor play and musical activities will be Mrs. Stephanie Guild. Mrs. Mangum added that a hot lunch will be served daily. An open house for local merchants will be held on Sept. 1.

Tomorrow is the next-to-last day of this season's YMCA Da-Y program, and participating youngsters will celebrate with a day of swimming and boating at Kensington Park. They'll leave the Y at 9:30 a.m. and return about 4 p.m.

Charles Brownell of 3239 Dorchester indicated at this week's City Commission meeting that he and John White of 2720 Yorkshire would turn down a resolution passed by the commission whereby the city would provide water to the two Troy Township residences, charging the standard double rate for water supplied outside the city.

The two men would have to pay the costs of connecting to the city's line at 14-mile road, which Brownell assumed would be too costly.

Brownell and White had previously complained that the city's Walker Well drained water from their private wells. The city admitted no liability, inasmuch as there are other wells in the vicinity.

The Weather
PONTIAC AND VICINITY — Partly cloudy tonight, low 68 to 72. Thursday considerable cloudiness and not so warm with occasional thunderstorms, high 86 to 90. Southwest winds 8 to 10 m.p.h. tonight and 10 to 15 miles Thursday.

In an earlier discussion, Brownell also stated that unless the situation was corrected, court action might be taken.

Robert Doyle, local Civil Air Patrol public information officer, reports that the CAP has received an on-loan aircraft from the U. S. Air Force, an L-4 liaison plane.

Doyle announced, too, that because of added interest shown by more women turning out for the CAP program, a coordinator of women's activities has been named. She is Mrs. Joyce Ott of Lahser road.

Find Wreckage of Dutch Plane in the North Sea

AMSTERDAM, Holland (UP)—The wreckage of a New York to Amsterdam DC-6B Royal Dutch airliner was found in 65 feet of water off Holland's North Sea coast early today.

A spokesman for the KLM Airlines said salvage vessels located the plane's shattered fuselage, found some "mortal remains" and picked up additional bits of debris including parts of the interior cabin.

There was no announcement of the number of additional bodies located. Previously, only one—that of one of the twin 5-year-old sons of Mr. and Mrs. Joseph Yarrow of Woodbury, Conn.—had been found.

A total of 21 persons died when the airliner crashed about 17 miles off IJmuiden, Holland, on Monday.

L. Sellevia, a KLM operations official, said naval divers would be sent down to the wreckage to seek more bodies and a possible clue to the cause of the crash.

Meanwhile, the tug Noord-Holland docked at IJmuiden during the night with some of the "remains," and two KLM physicians and a police doctor were attempting to identify them.

Mitchell Will Talk on 'Raw Deal' Plan

(Continued From Page One)
is to deliver power in turn to the AEC plant at Paducah, Ky.

The 107-million-dollar contract, which must still get the committee's okay, was a major issue during the Senate's marathon debate over new atomic energy legislation. Congress wound up okaying a provision which would specifically allow the contract.

Mitchell took up the issue in Chicago last week, intimating among other things that Eisenhower's friendship with golfer Bobby Jones influenced the award to the power combine, known as the Dixon-Yates group after its top officers.

Eisenhower said he rejected innuendoes that friendship was a factor, and Mitchell said he accepted Jones' statement that he did not discuss the matter with the President.

However, the Democratic chairman repeated his questions about the contract, saying it was going to "cost the public millions of dollars."

Police Aides Get Advice on How to Deliver Babies

BIRMINGHAM — A policeman never knows what might be expected of him but from here on in, auxiliary police in the city's Civil Defense program will be able to assist in delivering babies, if the occasion demands.

Dr. Joseph Nosanchuk of Pontiac held the men's rapid attention last night as he demonstrated an emergency birth, complete with a rag doll.

Men from the city's fire and police forces who had not yet received this instruction also witnessed the "birth." The 30 men in attendance pumped 20 minutes worth of questions at Nosanchuk afterward.

The ancient Roman empire at its peak had a standing army of only about 300,000 men.

BRAZIL'S NEW PRESIDENT, EDITOR STORM CENTER—Clad in pajamas, Joao Cafe Filho, center, Brazil's vice president, talks with reporters Tuesday after being informed that President Getulio Vargas had agreed to take a leave of absence. At right, on crutches, is crusading editor Carlos Lacerda who

was shot in foot in a recent assassination attempt. Lacerda's shooting set off the unrest in Brazil. Shortly after this scene took place Vargas killed himself with a pistol shot and Filho assumed the presidency.

Charges Likely in FHA Scandal

Senator Sends Data to Attorney General After Quizzing Brothers

NEW YORK (INS)—Sen. Prescott Bush (R-Conn.) today took the first step towards possible criminal action in the Federal Housing Administration scandal.

He announced he was forwarding to the attorney general testimony given yesterday before him sitting as a one-man Senate Banking Committee.

The testimony showed that Thomas Grace, while state director of FHA, got \$48,500 in fees paid his brother for handling mortgage applications.

Bush is conducting the hearing into large profits made by builders under FHA mortgages at the Hotel Astor.

Grace and his brother, George T., were reluctant witnesses at the first session yesterday. They compose the law firm of Grace & Grace.

Testimony showed the firm received 65 per cent of its fees from 1946 to 1953 for processing applications through the FHA.

The applications totaled \$54,771,000 in 64 large projects. The firm's gross income in those years was \$800,000 and the net \$400,000.

Thomas Grace resigned as state director on July 31, 1952, after having served since 1935.

Both brothers were asked if they knew it was a violation of the criminal code for government officials to take fees from companies doing business with the government.

Thomas Grace said he was unaware of the law, and his brother, George, testified he did not know enough criminal law to say whether it had been violated.

The activities of the Grace brothers were brought into the hearing by William F. McKenna, deputy administrator of the Housing and Home Finance Agency. He was appointed by President Eisenhower to clean up the FHA.

McKenna charged there was no evidence of any "substantial effort" by the New York FHA office under Thomas Grace to "limit or prevent" huge profits made by various builders.

Pontiac Deaths

Infant Lee

Prayer service for baby girl Lee, daughter of Albert and Romona J. Cullens Lee of 446 Cameron Ave. will be held Thursday, at 1:30 p.m. from the Hulton Funeral Home.

The baby was stillborn at St. Joseph Mercy Hospital, this morning.

Besides her mother and father, she is survived by a brother, Albert Jr. at home.

The Rev. James Luther of the Protestant Baptist Church will officiate, with burial in Ottawa Park Cemetery.

Infant Palmer
Prayer service was held this morning from the Hulton Funeral Home for baby boy Palmer.

Born prematurely Monday, at St. Joseph Mercy Hospital, he was the son of Leon and Audie Keeran Palmer of 6032 Rolton Ct.

Besides his parents, he is survived by four brothers, Dennis, Dannie, Earl and Lester all at home.

The Rev. Wright VanPlew of Waterford Community Church officiated with burial in Perry Mount Park cemetery.

Mrs. Aleena E. Thurbon
Mrs. Aleena E. (Lassen) Thurbon, 77, of 715 E. Tennyson Ave. died yesterday, after an illness of three weeks.

She was born June 18, 1877, in Midland, the daughter of Syverin and Caroline MacCallum Peterson, and came to Pontiac 30 years ago. Surviving are two sons, Wilbert of Detroit and Frederick R. of Pontiac and three grandchildren.

The funeral will be at 2 p.m. Thursday at the Voorheis-Siple Chapel. The Rev. C. George Widdifield of All Saints Episcopal Church will officiate with burial in White Chapel cemetery.

Assembly Hears Canon
MACKINAC ISLAND — Canon Robert Bohaker of St. Paul's Cathedral, Detroit, told the moral rearmament assembly on Mackinac Island yesterday that the only thing we can give others is "the change in our own lives."

"When we merely preach from our pulpits," he pointed out, "we answer questions our laymen never ask. When we live an ideology, absolute moral standards and the guidance of God we give hungry people bread, not a stone. We have nothing to give others but the change in our own lives."

Press to Hear West Deserter

Commies Set Up News Conference for Former Bonn Official

BERLIN (INS) — The East German Communists apparently intend to produce Karl Franz Schmidt-Wittmack, West German Parliament member who deserted recently to the Reds, at a conference tomorrow.

The Communist "German Unity Committee" today invited German and foreign reporters to the news conference in East Berlin at 11 a.m. (6 a.m. EDT) and it was assumed Schmidt-Wittmack, former member of West German Chancellor Konrad Adenauer's Christian Democratic Party, would be the star attraction.

The news conference is expected to produce another propaganda bias against the European Defense Community treaty project and the Western allies as an echo to the recent comments of Dr. Otto John, former West German security chief who deserted to the Communists in July.

The timing of the conference is significant because the French National Assembly is scheduled to begin EDC ratification debate Saturday.

It is believed that Schmidt-Wittmack and John were working together in West Germany and that John apparently arranged the timing of the former's desertion after he had gone to the Soviet occupation zone.

Ernest Wollweber, East German communist security chief, was quoted today as having told factory workers at Leuna that "several hundred agents" had been prevented from "doing further harm" during a crackdown against Western agents following John's defection.

He specifically named agents of the Gehlen organization, meaning the private espionage organization conducted by former German Gen. Reinhard Gehlen, who has headquarters in Munich and works for the United States.

Meanwhile another deserter, this time an athletics champion, was reported to have gone over to East Germany.

The East Berlin newspaper Berliner Zeitung said that Erich Kurzycki, former West German 10,000-meter track champion, entered the Soviet occupation zone "because of his bad economical situation caused by lack of state support for sports in West Germany."

Police Protecting Rio U.S. Embassy

(Continued From Page One)

ture." He also pledged to follow the social directives traced out by Vargas for the benefit of the working class and the underprivileged.

Communist groups were believed particularly responsible for the rioting in front of the U. S. Embassy and the U. S. Information Office in Belo Horizonte, a mining center and capital of Minas Gerais state.

Some American citizens reportedly took refuge in the embassy, heavily guarded by police armed with machine guns.

Anti-Vargas newspaper offices and delivery trucks also were a target of the mobs.

(U.S. ambassador James S. Kemper said late yesterday that the situation in the capital was "naturally very tense," but added: "I have every confidence that the good sense, good judgment and good balance of the Brazilian people will weather this storm and the result will be the complete preservation of the freedom of this great country."

(Kemper made his statements in a telephone interview by Bob Siegrist, news director of radio station WEAS, Decatur, Ga.)

The mobs apparently were incensed against the United States because of a reference by Vargas in one of the suicide notes he left behind that "international forces had hampered his domestic programs."

Two persons were reported killed when police opened fire on a mob at Porto Alegre, capital of Vargas' native state of Rio Grande do Sul, in the southeastern corner of Brazil. Two opposition newspaper offices and a radio station in the coastal city, also were reported burned by the rioters.

The principal anti-Vargas newspaper in Rio, Tribuna de Imprensa, was under heavy protective guard in the capital. Editor Carlos Lacerda, who was the target of the assassination attempt which resulted in the death of the air force officer, was reported taken out of the city under protective custody.

Cafe worked through the day organizing a new government. The entire Vargas cabinet tendered its resignation a few hours after the dramatically sudden suicide.

Air Force Gen. Eduardo Gomes, titular head of the Democratic National Union who was defeated by Vargas in the 1950 presidential election, was named air minister. Costa agreed to continue in office.

War Minister Gen. Zenobia da Silva was named war minister. The suicide of Vargas, who had ruled Brazil from 1930 to 1945 as dictator and from 1951 to the present as a popularly elected president, evoked messages of condolence from capitals throughout the world.

In Washington, U. S. Secretary of State John Foster Dulles expressed regret at the death and sent a message of condolence to the Brazilian foreign minister.

Cuba declared three days of official mourning and Mexico's President Adolfo Ruiz Cortines sent another message expressing his "profound regrets."

Grief over the president's death was general. His sister-in-law, Mrs. Alda Sarmento, died of a heart attack in Sao Borja when she heard he had committed suicide.

President Eisenhower sent a message of condolence to the widow of the Brazilian President. "Please accept my deep personal sympathy to you and your family upon the death of your husband," Eisenhower said.

Detroit Is Sworn In as Dulles' Consultant
WASHINGTON — John Roxborough II, whose uncle piloted Joe Louis to the heavyweight championship of the world, was sworn in yesterday as a consultant to Secretary of State John Foster Dulles.

A native of Detroit, he has practiced law since 1949. He is a graduate of the University of Michigan and the University of Detroit law school. And during the last World War, he served as an army officer in Europe.

Bus Fare Boost Denied by School Board in Detroit

DETROIT (UP) — The city was no closer to a decision today on its school children-bus and street car fare problem after the school board cold-shouldered that it subsidize a rate boost.

The Detroit Street Railways Commission (DSR) went to the school board yesterday with the proposal and got turned down.

The DSR wants to increase school children fares from 10 cents to 15 cents. Adults pay 20 cents. The DSR action faces a probable veto from Mayor Albert E. Cobo.

Cobo, though indicating disappointment at the school board's refusal to go for the subsidy, repeated he would not approve a fare boost. He said it would be a burden on parents.

The DSR says it loses \$1,680,000 a year in carrying school children at reduced fares.

Kids Supply Mother With New Baby Boy

BRISTOL, England (UP)—Mrs. Valerie Cook had big news for the children.

"A new baby's coming," she told Marlene.

The kids said that was fine. And out they went to play.

Three hours later they were back, pushing a pram.

"Here's the new baby, mummy," cried Marlene. "We've brought a little sister."

They were wrong on two counts. It was a boy—5-month-old Nicholas Kealy. They had "kidnaped" him from his home two miles away.

Mrs. Cook had already reported her own children missing because they were so long from home. She took all three to the police station. The police called off a citywide hunt for the trio and restored Nicholas to his worried mother.

Bird Hops Lft With Post
BUFFALO, N.Y. (UP) — Every day a pigeon meets mailman Wilis F. Van Tine at the same corner on his route, perches on his cap and rides along part of the way. Van Tine said the bird started the trips last spring. He said he didn't mind the company.

Detroit Orders Rock Salt
DETROIT (UP)—With the temperature at 91 in Detroit yesterday, sweltering city councilmen thought of winter and ordered 46,900 tons of rock salt for slippery days ahead.

Fake Car Parts Ring Smashed

Easterners Accused of Forging Trademarks to Sell Inferior Goods

PHILADELPHIA (INS) — A fake auto parts ring which cheated Americans and foreign distributors of hundreds of thousands of dollars through the sale of inferior car ignition parts bearing forged brand names has been smashed by authorities.

Pennsylvania State Police cooperated with officials of the New York district attorneys office and Philadelphia detectives in a series of three raids yesterday in Philadelphia and Primos, Delaware County.

Five large truckloads of parts, all ready for shipment, were found in a plant at Primos allegedly operated by Charles W. Kile, 50.

He was released on \$3,500 bond for a later hearing on charges of counterfeiting and forging trademarks, possession of forged die stamps and vending goods, and conspiracy.

In the other raids, police said they found two women engaged in stamping forged brand names on second-grade ignition parts and a large quantity of printed cardboard containers made up to look like those of well-known auto parts.

Frank Hogan, district attorney of New York County, estimated that in the past three years, Kile had forged and sold more than 2,000,000 parts, including condensers and distributors.

The profits had ranged between 50 and 75 per cent of the investment, the official said.

Four alleged employees of Kile also were arrested. They were identified as James Barr, 33, Clifton Heights; Nancy West, Ridley Park; Mrs. Clarice Robinson, 29, and Mrs. Florence Torrance, 25, both of Philadelphia.

Charges against Miss West were dropped. The others will have hearings today.

Reports No Unusual Red Sub Operations in Pacific

WASHINGTON — The ranking American admiral in the Pacific could have been thinking about possible Russian development of an atomic submarine when he said there were no unusual Soviet submarine operations there — "that we can talk about."

The Navy here is not trying to answer any of the provocative questions raised by the remark, made in an interview this week by Adm. Felix B. Stump, Pacific commander in chief. Pentagon officials merely point to the long line of warnings made from Washington in recent years about Russia's estimated strength of some 350 to 400 submarines.

Stump said about 100 were in the Pacific.

The existence of hundreds of Soviet submarines is not in itself sufficient cause for the frequently voiced official concern, for most of them are known to be old types, suitable primarily for close-in coastal defense in waters such as the Baltic and Black seas.

Pentagon informants say, however, that the Soviets have been working intensively for years on atomic power for vessels and probably other war machines. They say the Russian search began at least as soon as the United States made it known that atomic power could be applied and that this country was going ahead with a nuclear powered submarine.

It is known, for instance, that a Russian tank production expert of World War II was shifted to a military atomic project several years ago. In 1950, after open American predictions that atomic power plants were practicable, this same expert was moved to the "special shipbuilding industry."

It is also known that atomic-powered submarines, with their freedom from depending on nearby bases for refueling, fit neatly into Russia's global strategy requirements. Unlike the United States, with its numerous ports and bases at home and abroad, Russia has comparatively few direct outlets to deep water.

While American navy men are well aware of the Soviet drive to develop atomic-propelled ships, they have been keeping a tight secret their estimate as to how far the Russians may have advanced.

Reds Say Outlawing Violates Constitution

LONDON — Moscow radio charged today that the new legislation outlawing the Communist party in the United States was "a flagrant violation of the U.S. Constitution."

The measure was signed yesterday by President Eisenhower.

In a broadcast beamed for foreign listeners, Moscow radio reviewed the work of the congressional session and said:

"The bill prohibiting the Communist party of the U.S.A. was hastily dragged through the Senate and the House of Representatives in violation of democratic procedure. According to the opinion of the American public, this bill is a flagrant violation of the U.S. Constitution."

Average age of a scrapped motor vehicle now is about 14 years. In 1925 the lifetime of an average vehicle was about 6.5 years.

Elephants Tug and Push Cars From Muddy Lot

BATTLE CREEK, Mich. — Elephant-power accomplished what horsepower failed to do.

When automobiles were bogged down by a sudden thunderstorm which turned a Ringling Bros. Circus parking lot into a quagmire, circus officials brought the tuskers into action.

The elephants gently nudged and pulled one car after the other free of the mud.

You get a 3-way bonus in the car that's soaring to new success

WHAT has happened in the automobile business this year is something that you should take to heart—as a personal benefit to yourself, and as a sure way to pick a winner.

It is simply this: Buick has moved into the charmed circle of America's three top sales leaders—a circle once dominated only by the so-called "low-price three."

In plainer words—Buick today is outselling all other cars in America except two of these so-called "low-price three." And this has come about because of Buick's advanced year-ahead styling, great V8 power, big-car room and comfort—all for prices starting right close to the lowest. So you reap a worth-while 3-way benefit.

1. You get the look of tomorrow—today

In Buick today you get the modern styling other cars will reach in the future. For here you get true year-ahead beauty—long, low glamor lines, sports-car grace, and that spectacular new panoramic windshield that most other cars won't have till 1955.

2. You get the bigger allowance of our volume business

The tremendous sales volume that has brought Buick into the leadership circle of the "Big Three" means that we can offer you a higher trade-in allowance on your present car when you buy a new Buick. That's the simple reason why we can make you a better deal right now.

3. You get more resale dollars when you trade

With Buick so advanced in style this year it's a sure thing Buick will stay in style for years to come, as other cars catch up. So the new Buick you buy today brings you a higher resale price at trade-in time later. Drop in—see and drive this tomorrow-styled Buick—and get in on Buick's big 3-way bonus right now.

Now's the time to make your buy because—

Leukemia Foundation Cheers Suffering Little Folks

Parents and Others Battle the 'White Blood' Disease

Supply Funds for Research, Brighten Pitifully Brief Lives of Small Victims

By DONNA ANDERSON

What do you do when you lose something? Sure, you try to find it, but what if you lose something you will never see again—like a curly-headed daughter or your bright-eyed little boy?

Then you lose yourself—if you can—in a whole-hearted project to cheer up others like you. You take your loss as a challenge. You owe it to yourself, too, you think—so you fight.

That's how a group of heartbroken mothers and fathers felt back in April 1952 when they planted their hearts in the lives of others and organized the Children's Leukemia Foundation.

Unselfish friends, tired of seeing youngsters suffer and die from blood disease, joined them. It didn't take long for the precious jeopardy of a limited life to show these helpers what a little remembrance can mean to these tiny victims.

What these people are doing can also be a worthwhile outlet for those few who have some time to spare. So keep that in mind.

But first—what is leukemia and what does the foundation accomplish?

Right now, leukemia is death! It means "white" blood—the white corpuscles crowd out the red. They don't know why—and there is no cure.

So, the foundation wants to supply funds for research in hopes there will be a cure. The foundation has a blood bank—there can be rosy cheeks for a little while anyway.

The foundation helps parents—provides a counseling service—enables parents to work closely with the doctor.

And here's where spare time becomes an ingredient in the recipe for a short, but maybe sometimes, a happy life. The foundation finds ways of comforting children and building morale.

Toys are provided, and kindness and understanding come in double doses. At 3½ years (the average age for blood disease) these are tremendous gifts, when your little world is made of suffering.

There's a group working under the foundation called the toy and entertainment committee. Mrs. J. C. Pickering of Rochester, one of the foundation's founders, heads this committee.

Mrs. Pickering and her workers know how much a toy can do to ease the pain of a treatment. They know what a party with clowns and fire trucks and real-live firemen can do for those who may never see a clown or a fire truck or a real-live fireman again.

So the work goes on, and the

foundation, which extends a helping hand throughout the state of Michigan has this to say:

"The Children's Leukemia Foundation is not another 'single disease' foundation trying to buy a cure. We know that a direct approach to the cure of leukemia is not yet feasible."

These are the words of Dr. W. W. Zuelzer of the Children's Hospital of Michigan, Dr. James Wilson of University Hospital, Ann Arbor, and Dr. S. D. Jacobson of Wayne County General Hospital, medical advisers to the foundation.

They wish to stress that any progress, and discovery in the broader field of blood diseases is likely to have a bearing on leukemia and to better the prospects of solution.

"Therefore," they say, "our interest is not limited to one disease. We support research in the general field of blood diseases."

Reconsecration Service Planned

Members of the Women's Association of First Presbyterian Church are asked to make reservations through their respective groups or contact the church office for arrangements for the Reconsecration Service to be held Sept. 2.

Mrs. Ralph Pino will present the service at 1:30 p.m. at Waldenwoods. The executive board meeting and Bible study will be held at 10:30 a.m.

At the 11 o'clock meeting pictures will be shown and reports will be given on the June meeting of Presbyterian women held at Purdue University.

A luncheon is scheduled for 12:30.

Helen Willson Wed to Joseph R. Craig

Helen Elaine Willson, daughter of Mr. and Mrs. Walter Willson of Murphy, avenue became the bride of Joseph R. Craig July 24 in Jeffersonville, Ind.

He is the son of Mrs. Lawrence Barron of Riverside drive and the late Odis Craig.

A reception and open house will be held on Sunday from 5 to 9 p.m. in the home of the new Mrs. Craig's parents.

Remodel Everything

It is wise to avoid buying new clothing during the process of dieting. One of the thrills of remodeling yourself is the purchase of a smart new outfit when the weight has been lost and the job finished.

Men Need European Seasoning

Americans Who've Traveled Abroad Are Best Mates

NEW YORK (INS)—Want to have the most interesting and desirable husband possible?

Just take one nice American guy, let him roam around Europe for two or three years, and then marry him quick before some foreign girl snaps him up.

Americans who go abroad and pick up the better traits of European men make the best husbands, says Julie Smith.

Julie, a slim blue-eyed blonde, who's bounced through 43 countries in the past two years, says it works like this:

"An American man already is trained to treat a woman very well. He'll hand over his paycheck, push the baby buggy and do the dishes.

But in France, says Julie, he'll learn "savoir faire," in Germany he'll pick up male dominance, in Italy he'll become romantic, in Scandinavia he'll see that women can be pals, and in Britain he'll study politeness.

Roll all this up into one guy, says Julie, and you've got the dream husband.

To prove it—she married her "dream husband" Tuesday. He's an American-born vet who was schooled in Europe and whose export-import business has taken him through 30 countries.

The use of fur garments was one of the luxuries that the Roman people adopted from Greece.

The most versatile cashmere accessory on the market is this new pure cashmere ascot. It is 36 inches long and can be worn as a head scarf, a clever tie to make a dress-maker style out of a classic sweater, a sash, or as a fill-in for dress, coat or suit necklines.

Dress Should Fit

A dress that is ill-fitting will not look smart, no matter how much you paid for it or how high-style is its design. If you have

great difficulty in finding a perfect fit, select the dress that fits perfectly across the shoulders and is too big in spots. Then it can be altered to perfection with a minimum of expense.

Women of Moose Conduct Gathering

Special reports were heard by members of Women of the Moose when they met Monday evening in Moose Temple.

Mrs. F. B. Huston, senior regent, and Mrs. C. J. Cavalier attended the dedication of the high school at Mooseheart on Sunday.

It was announced that the officers are planning a Halloween dance to be held in Moose Temple.

Use the Left-Overs

Save the left-over material from your next sewing session for padding wire clothes hangers. Clothes keep their shape better on padded hangers than on plain metal ones. All you have to do is wrap the hanger with cotton or some bulky fabric, and then cover it with colorful material. Rayon, nylon, cotton and even wool will do.

What to Do With Glasses

The hairdo must be carefully chosen for those who wear glasses. It should not be tailored to severity nor should it be an intricate design. Softly flaring, moderately off the face lines are best. Brush your hair until it shines is a good rule for all, but especially applies to those who wear glasses. Make your hair truly a crowning glory and it will do much to enhance your attractiveness. Keep your eyebrows neatly shaped so that no untidy hairs will detract from the smart line of your glasses. Are you sure you are wearing the most attractive frame. There are many new ones. Experiment with some new shape or color.

Hats with an uneven or curving brim are the most becoming with glasses. Don't ever wear dangling earrings.

Zemo Great For Itchy Skin Rash

Zemo, a doctor's formula, promptly relieves itching of surface skin rashes, eczema, prickly heat, athlete's foot. Zemo stops scratching and so aids faster healing and clearing. Buy Extra Strength Zemo for stubborn cases.

Workers' Trailer Camp Grassless and Treeless

BY LAURA Z. HOBSON

MARYHILL, Washington (INS)—"I bet it's nothing like that movie, 'The Long, Long Trailer,'" I said, "with Desi living Lucy in technicolor."

All across the nation, we'd seen trailer camps and trailer courts, and though the ones in national parks had a gay and temporary vacation look, there was a sort of grey permanence to the far greater number near construction projects, lumber camps, factory towns.

At last came an excuse to stop and look one over — a gasoline pump and general store next to a large sign proclaiming, "The Dalles Dam Trailer City." We had just crossed the Columbia River from the Oregon side and knew of the great new dam being built nearby.

The man at the pump, A. E. Cooke, proved to be the proprietor of the city as well. "We've got about 87 now," he said, when I asked him how many trailers were there permanently. "Year ago, it was over 150, before the high water. That shuts off the work a while."

I asked who lived in the 87 and what their rent was for space. Glancing around, I saw that most of the trailers were medium size, medium-old. They were parked in streets with plenty of space in between the rows for maneuvering.

"There's a couple of engineers live here," Cooke said. "But mostly, it's contractors' workers." I asked what their wages came to. "Around \$100 a week average, with overtime. They get time and a half for the sixth day, and double-time if they put in a seventh."

Temporaries pay \$7 a week, in advance, he said, but permanents like the 87, paid \$20 a month for space. This covered the trailer and two inhabitants. For each child or extra adult the rate went up \$1 a month.

"Take that big 41-foot job over there," Cooke said. "They pay \$1 extra for their fuse—they need a 20 amp, and it's \$1 for every five amps over 15."

"I asked if we might wander around and get a 'help yourself' from him. A dingy white structure beyond the streets was marked Service Building and I went into the women's half of it. It was dingy white inside too.

from the concrete flooring up. Small washtubs were at one end, and there were some wash basins, a row of closed toilets and three shower stalls — none of it too free of litter.

Outside again, I came to an area crisscrossed with clotheslines, where a thin young woman was hanging up her wash. The lines were filled with work clothes, children's clothes, underwear, towels, jeans, sheets — some torn, some mended, most medium-worn.

I asked the woman if she marketed at the general store and she made no answer beyond a shrug. The store was white, too, more re-

cently painted, and I went to see what it was like.

Inside, it was a small replica of any super-market in any town. Neat shelves stocked with packaged goods and cans, stashed vegetable bins, two modern deep-freeze units for frozen foods, a glassed-in butcher counter, and even household drugs, cigarettes, comic books, a few magazines.

Outside the building a bulletin board was tacked on the wall. One notice offered free swimming instruction for children at the Dalles Natatorium — a bus charge of 20 cents per day per child.

The other notice was hand-printed: "Baby-Sitting—Mrs. Trehern."

I love Lucy, and I laughed heart-

ily at the gay romantic movie she appeared in. But even before I talked to the family in "that big 41-foot job" (which I'll tell you

about tomorrow) I knew that life here in this grassless, treeless place was a whole other kind of long, long trail.

Eaton Rapids Lady LOST 40 POUNDS RENDEL REDUCES

If slimming down is your problem and if you need help many products will offer many promises. Rendel users are not confused. Rendel is a quality product which has brought good results to thousands of Mich. users. Mabel Hyek writes, "I have had wonderful results with Rendel Concentrate.
