Grizzlink: A great way to network

When the going gets tough, GrizzLink gets going even stronger than before. GrizzLink offers robust career center features, whether you're an Oakland University alum seeking employment or an employer who has job opportunities to post. Employers can post positions, even if they are not OU alumni.

Plus, the OUAA has been working hard to make this online community even more valuable to alumni looking for employment. Here are just a few of the ways we're boosting **GrizzLink's** profile:

- Promoting the GrizzLink Career Center to the Rochester Chamber of Commerce and Leadership Oakland
- Encouraging employers who are using LinkedIn to post positions on GrizzLink as well.
- Connecting with employers who post entry-level jobs through the OU Career Services Center, to give them the opportunity to connect with professionally seasoned OU alumni and post more advanced job opportunities on GrizzLink.
- Exploring other community resources to develop relationships with employers who want to use GrizzLink to post jobs and look for OU alumni

Your recent *OU Magazine* included this story, but we would like to provide you with another opportunity to review the features of **GrizzLink** and add your resume or job opportunity. In addition, the OUAA is using GrizzLink to share information about resources available to OU alumni, such as LinkedIn, Jewish Vocational Services job resources, Michigan Economic Development Corporation, Automation Alley and more.

To date, nearly 160 alumni have posted resumes on GrizzLink, with more than 250 alumni posting their business WebCards. Many job opportunities have also been posted and employers are reviewing posted resumes, even if they do not post jobs.

Get the most out of GrizzLink's Career Center by adding your resume in just three easy steps:

1. Login to **GrizzLink**
2. Select "Enable My Resume" and add your resume to your Account tab using the Upload Resume field
3. Then, add your resume as content on your Public Profile tab so that it will be included in the community's Business Resume listings, which is searchable by employers
