

LBJ Arrives in S. Viet Nam

VP Assures Asian Nation U.S. Will Stand by Allies Against Reds

SAIGON, South Viet Nam (AP)—Vice President Lyndon B. Johnson arrived in this strategic Southeast Asian nation today, bringing assurances that the United States will stand by its allies in this part of the world in the face of Communist danger.

The vice president, on a round-the-world mission for President Kennedy, came here for an on-the-spot study of Communist aggression in a guerrilla war in which an estimated 400 to 500 Vietnamese are being killed every month.

Johnson stepped from a chartered jet and took a salute from a sharp-looking honor guard of 400 Vietnamese. Strict security precautions are in force for Johnson's visit.

The vice president read a short statement pledging U.S. support for hard-pressed allies in this part of the world.

He is scheduled to hold a two-hour conference Friday morning with pro-Western President Ngo Dinh Diem.

Sandbag Crews Work 3 Shifts

Water Creeps Near to Flood Record in Three Midwest States

By United Press International Sandbag crews worked around the clock and new towns weathered a watery siege today in the Midwest's weeklong battle against floods.

The floods approached record levels in Missouri, Illinois and Indiana. They threatened a serious planting delay in the heart of the nation's farm belt.

Hundreds of families were still being evacuated. The death of a 6-year-old Marion, Ill., boy who drowned while playing with a toy sailboat raised the week's toll to 38.

The town of Carmi, Ill., became the new trouble center in the floodlands. National Guardsmen, civil defense workers, police and volunteers worked through the night and into the day along the levees holding back the record-breaking crest of the Little Wabash River.

Despite their efforts, the river isolated two sections of Carmi with water measured at 37.95 feet.

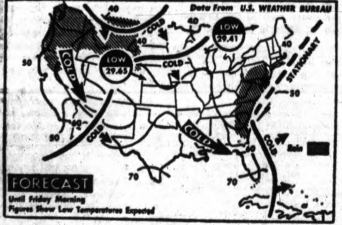

Urges N-Ban Deadline

WASHINGTON (AP)—The Republican congressional leadership called on President Kennedy today to end the "monumental stall" at Geneva by fixing a deadline for Russian agreement to put a ban on nuclear weapons testing.

The Weather

Full U.S. Weather Bureau Report PONTIAC AND VICINITY—Sunny and warmer today, high 65. Fair and warmer tonight, low 48. Tomorrow partly cloudy and mild, high 70. Winds easterly 8 to 15 miles today becoming southeast to south tonight.

NATIONAL WEATHER—Showers are expected tonight in the Middle and South Atlantic states and from the North and Central Pacific Coast eastward through the Rockies and into the North and Central plateau areas. It will be cooler in the Atlantic Coastal states, the Gulf Region and portions of the Northern Plains and Southern Plains, and in the Southern Plains, the Southern Mississippi Valley, the Ohio and Tennessee Valleys and the Lakes area.

HOPSCOTCH TROPHY WINNERS—Winners of the fourth annual hopscotch tournament, sponsored by The Pontiac Press and the Parks and Recreation Department, are Cindy Malwitz (left), 11, of 502 Moore St., the champion, and Delores Carr, 12, of 456 Branch St., the runner-up.

Ike and Ex-Aides Hold Conference

GETTYSBURG, Pa. (AP)—Gen. Dwight D. Eisenhower gathered a group of former cabinet members and top aides around him today for a discussion of world conditions and ways of strengthening the Republican party.

The former president was host to former associates at his good, dental administration, who came in from all sections of the country.

They met with him in a brick building on the edge of the Gettysburg College campus, in which he now maintains offices.

The meeting was much like one

of the hundreds of cabinet meetings that had taken place during Eisenhower's eight years in the White House.

STRAUN, WILSON ATTEND—Many of the associates of that period were seated at a U-shaped table, with Eisenhower behind a desk at the open end of the U.

On his right, the former president seated Lewis E. Strauss, who served as chairman of the Atomic Energy Commission and as secretary of commerce until his nomination for the latter post was rejected.

On Eisenhower's left was Charles E. Wilson, his colorful first secretary of defense.

Republican officials said they expected a statement later in the afternoon by Eisenhower on the results of this unique gathering of officials of a former administration.

GOP National Chairman Thurston B. Morton planned a report on where the party stands now.

The unique meeting apparently signaled Eisenhower's intention to maintain close liaison with the men, now scattered in all sections of the country, who helped him in his eight years as president to plot the course he thinks his party should continue to follow.

This was in line with his expressed intention to continue to be politically active as long as he has the strength and opportunity.

Gov. Swainson Urges Bill Action

(Continued From Page One) curbing after the adjournment of a regular session," he said. "At this time, I cannot foresee anything to submit to the legislature that is not now or has not been already before it."

The governor retreated this week from a firm stand against reneging of any of the massance taxes.

He called on the legislature to extend the cigarette and telephone levies for two years and to raise the \$462 million budget written by Republicans.

The governor's proposal brought a scolding from George Van Pelt, Republican state chairman.

"This is political gimmickry at its worst," he said. "A two-year extension of temporary taxes would take him safely through his term of office—and through an election campaign in which he would once again promise their repeal."

Defense lawyers objected at the close of Wednesday's session that they were cut off from determining from Jones whether he was lying or telling the truth at the preliminary hearing.

Judge Rashid was to rule whether the state now can introduce Jones' testimony at the preliminary hearing at which Mrs. Lassiter and Watson were bound over for trial.

Suddenly Berkowitz screamed: "It's me! It's me! My God, it's me! He didn't care about scores of people in the dark theater were staring at him."

Through the cooperation of Columbia Pictures, Berkowitz was able to get a clip from the film and examine the picture closely to confirm that the 12-year-old boy at Auschwitz was indeed he.

Governorship Aim Denied by Romney

(Continued From Page One) parties about state and national problems."

Romney, of 1830 E. Valley Road, Bloomfield Hills, said his primary interest lay with his Citizens for Michigan and that he has made no commitments to anyone of "either party."

Nixon flew home to California today from a nationwide speaking tour during which he sharply criticized the Kennedy administration.

The 1960 Republican presidential candidate told a cheering Republican crowd in Columbus, Ohio, Wednesday night that President Kennedy had talked of challenges from the Communists but had failed to call for a single sacrifice.

Instead, Nixon said, Kennedy "has been comforting them by telling them what the government would do for them."

Nixon said Kennedy had toned down his drive for his domestic program because the conservative mood of the country made it politically expedient.

Richard Jones

Lassiter Murderer Balks at Testifying

(Continued From Page One) set for hearing tomorrow before the close of Wednesday's session that they were cut off from determining from Jones whether he was lying or telling the truth at the preliminary hearing.

Defense lawyers objected at the close of Wednesday's session that they were cut off from determining from Jones whether he was lying or telling the truth at the preliminary hearing.

The Day in Birmingham

Hills Tax Hike of \$4.80 Per \$1,000 'Not High'

BIRMINGHAM — Bloomfield Hills city taxes will increase \$4.80 for each \$1,000 of assessed value for the 1961-62 fiscal year beginning July 1, Robert Stadler, city clerk, said today.

Total property taxes to balance the proposed \$261,000 budget, which includes a payment for the sewerage system to be constructed, will be \$28.30 compared to \$23.50 a thousand for the current budget.

A public hearing on the tentatively approved budget is scheduled for 5 p.m. May 25 in the city hall.

Stadler said the tax hike, which also includes a 3 per cent salary raise for all city employees, is much lower than anticipated.

It had been expected, Stadler said, that taxes for the sewer payment alone would be between \$2 and \$7.

A lower interest rate in selling the \$1.33 million in sewer bonds, accounted for part of the lower tax.

Stadler said once the money from the bonds was received the city invested it in certificates of deposit which have drawn interest, also accounting for the unexpected lower tax rate.

Included in the proposed budget is \$25,700 for the sewer payment; \$31,500 for the police department; \$89,000 for the highway department.

nance will be investigated by board members before taking final action on the proposal.

To properly enforce the dog ordinance, a \$25 members fee it would be necessary to have two enforcement officers, a dog wagon and a dog pound.

Dr. Bertilla Canonized

VATICAN CITY (AP)—Bertilla Bonardin, daughter of an Italian peasant, was canonized today. Nearly 30,000 persons were in St. Peter's to attend the ritual honoring Sister Bertilla, who died Oct. 20, 1922. She dedicated her life to charity and Red Cross activities.

Three large plate-glass windows and a glass door inside the school were smashed. Entry had been gained by breaking a glass door leading to the gymnasium, police said.

The damage was discovered this morning by the school custodian, Howard Cunningham, who notified police.

Movie of Shepard Snows Reactions

WASHINGTON (AP) — The man's eyes darted from side to side. His chest heaved. His helmeted head bent forward to look through a porthole. A strap of his space suit waved in the air like a piece of seaweed.

That was when he exclaimed "What a beautiful view," the narrator said.

That was Cmdr. Alan B. Shepard Jr., America's first astronaut, viewed by a movie camera inside his capsule as he rode 115 miles into space last Friday from Cape Canaveral, Fla.

The dramatic film was shown for the first time Wednesday before an audience of congressmen and many of their office workers who crowded into the House caucus room.

The first and last parts of the film, showing the Redstone rocket's liftoff and the landing at the end of the capsule, almost duplicated television coverage on the spot last Friday.

But the footage taken from inside during the flight gave the viewer some sense of what it is like to lie strapped in a tiny cabin fastened to the tip of a roaring, flame-spouting 83-foot missile.

INSIDE PICTURE

The color added impact too—Shepard's silver space suit as he paused in the pre-dawn darkness to look up at the Redstone he was to ride. The white rocket itself, poised on the pad. The red elevator that carried Shepard to its top. The yellow flame at liftoff. The blue sky and the darker blue of the Atlantic as the capsule dropped gently down.

No sound track accompanied the film. A National Aeronautics and Space Administration official provided a narration for the audience.

Shepard's face sagged a bit under the force of up to 10 times normal gravity at liftoff and reentry. Vertical lines of concentration appeared between his brows. His eyes flicked back and forth like those of a man strapped—but this was a deceptive impression because the film showed his movements four times faster than they actually occurred.

This gave it the appearance of an oldtime silent movie, with Shepard shown moving jerkily and much too fast. His arms reached out to touch switches and guidance controls. He bent forward abruptly to peer out of his porthole.

Town Has Assessment, but Where's the House

MIAMI, Fla. (AP)—The tax assessors office admitted Charles E. Shaver had a point in protesting a \$3,220 assessment for a house on his wife's Hialeah Heights lot.

There's no house there.

Officials found the house—right where it has always been—on a neighbor's lot. So they moved the assessment next door to the property of V. D. Dugger.

Firemen Upset Court Thanks to Faulty Light

City firemen were called to the courthouse yesterday afternoon after a faulty overhead light in a basement conference room was discovered smoking.

Firemen were forced to interrupt cases in the courtroom of Circuit Judges Statton G. Dondero and Frederick C. Ziem to get at the light, which they dismantled.

Young JFK Grows Sadder and (We Hope) Wiser

By RUTH MONTGOMERY
WASHINGTON — The thousand-and-one nights that he should be before President Kennedy can again throw his hat in the ring will doubtless prove to be an even-tougher test of his mettle than the rugged "first hundred days" just ended.

We sat at breakfast the other morning with GOP leader Richard M. Nixon, and marveled that the relaxed young man who so narrowly escaped Kennedy's barbed wire still seemed willing to assault them.

If President Kennedy is lucky, and if the nation is still enjoying a tenuous "peace," Congress will be nearing the end of its current session when the second "hundred days" expire next August.

The youthful President who loves golf, swimming, sailing, tennis and touch football will meanwhile have to forego the long and leisurely weekends that he customarily spent at Hyannis Port during his 14 summers in the Senate and House.

NO EARLY HOLIDAY
If all goes well, perhaps he can snatch a few work-and-play weeks there along about next September, but until then he will find few times when he can desert his presidential problems for more than a day or two at a time.

President Kennedy has learned a lot since he spoke rash, and probably regrettable, words during the ball campaign. Then he criticized President Eisenhower for traveling too much: Now he is starting off his second "hundred days" with three foreign trips.

The first will take him to Canada May 16-17, the second to Paris May 31 to June 2 and the other to Hawaii the following week.

JFK used to chide his for too much "personal diplomacy"; yet he carried more personal meetings with heads of states into his "first hundred days" than any other Chief Executive in our history.

Candidate Kennedy told voters that the place for a secretary of state "was at home, running the department and consulting with the president."

Quintessentially, his own Secretary of State Dean Rusk has already made far-flung trips to the SEATO conference in Bangkok, and to the CENTO conference in Ankara, and will leave shortly for the NATO conference in Oslo.

Rusk has probably wished at times that he could avoid the perilous periods when Kennedy needed to consult with him on the urgent crises in Laos and Cuba.

Those problems will continue to nag JFK in the weeks and months ahead, as will the appalling situation in the Congo, and the ever-present danger of Communist aggression in Iran, West Berlin, the Formosa Straits and South Viet Nam.

Many of these problems were inherited from the previous administration, but the way of their recent handling cannot be laid at Kennedy's door.

Most of the free world thrilled to Kennedy's promise of dynamic leadership. "America will lead again," numerous Western European papers proclaimed after his stirring inaugural address.

The Soviet skiff of military supplies to Laos rebels began only a few days before JFK assumed office.

In the three-and-a-half months since, the Kennedy administration has merely continued to call for a cease-fire treaty, while Communist forces have virtually gobbled up the peace-loving land at the edge of the Bamboo Curtain.

The Cuban fiasco is too well known to bear repeating, and a miracle is needed to help the United Nations bring government out of chaos in the Congo.

President Kennedy is heading into the congressional homestretch a sadder but undoubtedly wiser man. The nation wishes him well. His destiny rides with him.

Says Storm Killed 22
Dacca, East Pakistan (U. S. — Lt. Gen. Azam Khan, governor of East Pakistan, told newsmen today the death toll from the storm which hit the province Monday has risen to 22. He said the situation was now under control and life was returning to normal.

Let's Join the Air Force

Tablecloths, No Less, for Gl's' Mess Hall

BANGOR, Maine (UPI) — Any veteran of World War II whose ice cream ever skidded into the soup on his shallow mess tray might well be awed at the plush dining conditions that U. S. Air Force enlisted men enjoy today.

"Strictly for officers" is the reaction of most ex-GI visitors to installations such as the enlisted men's mess at Dow Air Force Base, home of jet interceptors and tankers operated by the Strategic Air Command just outside Bangor.

A peek into the enlisted mess hall gives no sign of the draft, long table and benches of wartime training camps in the United States.

Instead, the eye is met by restaurant-style combinations of tables and chairs for four. Each table is

covered by a colorful linen cloth and individual places are set with stainless steel knives, forks and spoons, which for all the world resemble silver plate.

PICTURES, NO LESS.

The interior walls of the mess hall are painted in pastel shades and adorned by photographic murals of Maine's scenic wonders. The entire ceiling is fitted

with panels of soundproofing material, giving a hush to the crashing sounds normally associated with a huge mess hall.

The first surprise to the visitor

moving through the steam table line is the fact that enlisted men eat, not from trays, but from plates, bowls, dishes and cups and saucers. And the cups even have handles. Soup is served in a turquoise or yellow bowl bearing the USAF insignia.

The guest then gets his meat and vegetable served carefully and cheerfully on a matching plate.

At the end of the line, he turns to a large table which appears to have been set for a cocktail party in a downtown hotel.

The visitor is confronted with a wide assortment of cheeses, biscuits, rolls, crackers, olives,

pickles, celery, salads, tasty seasoning and desserts.

Once seated on his padded chair, the guest gets another shock. There is coffee in a closed, insulated container with little bottles of cream in the jaws of an automatic dishwasher, the visitor and his hosts simply stand up and walk out.

A backward glance shows a busboy clearing the table. It makes one feel like leaving a tip . . . or joining the Air Force.

Laundry Employee Enjoys Day's Work

MEMPHIS, Tenn. (UPI) — Mrs. Roy E. Declue says it's fun serving laundry-cleaner customers. A woman dashed in, wearing a coat over her nightgown. The woman said she had to wear something to work and picked up her freshly cleaned dress.

Another time a man came in and asked for "a shirt out of my bundle."

The man said he'd pick up the rest after work, that he was going to change shirts at the office.

Use Fireworks to Save Pecans From the Crows

STILLWATER, Okla. (UPI) — Oklahoma pecan growers hope to save thousands of dollars each year by scaring crows away from their crop with firecrackers strung in long rope lines.

Cotton ropes which burn about 1 foot per hour are strung in pecan groves. Firecrackers are spaced along the rope to explode every 15 to 30 minutes to scare the crows away.

Twice a day 100 billion tons of water are lifted by the tide into the Bay of Fundy.

Current 'Y' Campaign Is to Expand Building

With a few days left in its campaign for funds, the Pontiac YMCA is still not "home free" with what it needs.

Some of the people asked to donate to this cause have been confused as to the purpose of the drive. This is not a campaign which will return and return, seeking money to run the YMCA. The "Y" is supported by the United Fund.

The special campaign is to raise the cash necessary for the expansion of its overtaxed facilities. A new one-story addition will join the present building, and the plans are all set. All they need is the money.

General Motors gave \$250,000 toward the \$650,000 goal. Businesses and individuals are being solicited for the rest. At stake is the future of a great number of Pontiac youngsters.

Students Offered Aid Getting Into Colleges

Students who are having trouble getting into colleges should not despair. Rather, contact one (or all) of the following institutions whose business is to assist.

1. The College Admissions Center, North Shore Hotel, Evanston, Ill. Oldest of the three, this center opened in 1938. Last year almost 2,400 boys and girls registered and their files were examined by 149 different accredited universities and colleges. Only sixteen registrants received no bid from any college.

Procedure: Write the center and ask for an application. Return it promptly with a \$10 fee. Wait for contact from a college, which has sent admissions personnel to look over the applications or has asked for them by mail.

2. The College Admissions Assistance Center, 525 E. 80th St., New York City. This center opened in 1953. Last year it registered some 2,500 boys and girls, and 150 colleges and universities examined the files. Virtually all of them were approached by one college.

Procedure: Write the center for an application. The fee here is \$25. Await contact from college.

3. The Catholic College Admissions and Information Center, 500 Salisbury St., Worcester, Mass. While the center is primarily designed for Catholic students, it will also help any non-Catholic who wishes to attend one of the country's 240 Catholic colleges and universities.

Procedure: First apply to the Catholic college of your choice. If you do not get in, apply to the center, filling out an application blank and paying a \$10 fee.

Complete Car Inspection Is Everyone's Obligation

A month-long safety check for automobiles is now under way under the sponsorship of the Safety Committee of the Pontiac Area Chamber of Commerce.

With the free auto inspections being made available it is our moral obligation as good citizens to have our cars checked over.

Auto deaths last year increased over 1959 and 208,000 more injuries were reported than was the case a year ago.

Many of these accidents which resulted in injury or death could be traced to faulty brakes and lights. They seem to be one of the main explanations when the cause of the mishaps are run down.

Right in our area some 100 service stations and new car dealers are helping out in this worthwhile campaign by offering the free inspection service.

Don't delay dropping in for this

annual car checkup. Get your orange and white sticker which shows that you are interested in the other drivers as well as yourself.

Our motor vehicles are like people, they need periodic physical inspections.

The Man About Town

Started in Pontiac

Boosted \$100 Borrowed Here Into Several Million

Dandelion: A weed that if given an inch will take a yard.

His first business was in Pontiac, when little more than a youth, and

Dallas E. Winslow always gave our city credit for the foundation on which he built a fortune that runs into several millions. He died Tuesday at 81.

That start was made 40 odd years ago when, in company with his father, Alex. Winslow, he borrowed \$100 from the late J. L. Marcero

of Pontiac to pay the rent on a gas station on S. Saginaw St., near Raeburn. For many years the note which was given for that \$100 has occupied a prominent place in its frame in his office. He always pointed to it and said, "That man gave me my start."

His business since has run into such things as cornering the sale of parts for practically all of the "orphan" cars, as well as a controlling interest in several corporations.

The Winslow home is on the Dixie Highway, just over the line in Grand Blain Township. Besides his wife, he leaves a daughter and sister. He was a native of Oakland County, born at Holly where his burial took place today.

The standings of the top ten batters in the American League after Wednesday's games were:

Player	G	AB	R	H	PCT.
Travis, Cleveland	25	113	13	35	.309
Travis, Cleveland	25	113	13	35	.309
Travis, Cleveland	25	113	13	35	.309
Travis, Cleveland	25	113	13	35	.309
Travis, Cleveland	25	113	13	35	.309

A barber in Farmington for 36 years, Roy Plumton

died last week, and my undercover man there wonders if any other barber in Oakland County can show such a long record. He estimates that Mr. Plumton had pushed a razor half way around the world, and cut enough hair "to make a thousand prize winning Centennial whiskeys."

Horticulturist at Michigan State University, Stanley Johnson,

announces that experiments conducted in 61 different places in our state show that apricots can be profitably grown here. This column would like to hear from any of its readers who have been participating in the experiment.

A letter drifts in from Kingsley Remoule

of Royal Oak, who says that he's obliged to travel them in Detroit every day, and calls that experience, "harrowing expressway distress."

Making the first of many green thumb mistakes that he expects to encounter in his garden is

Lancey Philmont of Drayton Plains. He reports that he set out some chrysanthemum plants; then the ragweed got started, and they look so much alike that he pulled the wrong ones.

A mourning dove has been lingering beside the Dixie Highway for several days near the home of

Mr. and Mrs. George Croner, about ten miles northwest of Pontiac, acting dopey, and refusing to eat anything. A search beside the pavement revealed the body of its mate, evidently killed by a car.

Renewing this grandmother argument, comes the challenge of

Mrs. Orrie Nelson of Flint, who has 50 grandchildren, including all "greats" and "great-greats." Can't some of my readers discount that?

Verbal Orchids to—

Mr. and Mrs. Victor D. Bacon of 23 Grand Ave., 52nd wedding anniversary.

Mrs. Edward C. Tanner of 94 Blaine St., 85th birthday.

Fred McCallin of Rochester, 82nd birthday.

Big Enough to Take a Truck Through?

David Lawrence Says:

FCC Attacks Broadcasters' Rights

WASHINGTON — Is the Kennedy administration about to "take over" the radio and television stations of the country and make them obey the government's dictation as to what they shall put in their programs?

If so, then will there have to be a soft-pedaling of some of the criticisms usually launched against Nikita Khrushchev's methods of controlling public opinion?

These questions are asked because of the amazing speech just made by President Kennedy's appointee as chairman of the Federal Communications Commission, Newton N. Minow. He spoke before the annual convention here of the National Association of Broadcasters.

Minow takes the position that, because the government issues licenses to broadcasting stations, it has the right to decide whether a station is giving "good programs" to the public.

It's the same thing, in effect, as saying to a newspaper or other publication that, if it doesn't provide what the government might set up as the standard of news and feature content, then second-class mail privileges granted by the government may be taken away as a punishment.

IT'S UNCONSTITUTIONAL. There is nothing in the Constitution which says an agency of the federal government may tell any medium of communication what shall be published or broadcast.

Indeed, the Constitution specifically says that Congress shall make no law abridging the freedom of the press. Both radio and television are integral parts of the press.

There are, of course, areas in which the government can exercise supervision so as to avoid collision on wave lengths, for example, and it can inquire also into the character and integrity of the applicant for a license, or his sense of responsibility in business.

But no chairman of the FCC heretofore has claimed the wide power that Minow now claims. He said directly to the broadcasting companies:

"As you know, when your license comes up for renewal, your performance is compared with your promises. I understand that many people feel that in the past licenses often were renewed pro forma. I say to you now: Renewal will not be pro forma in the future. There is nothing permanent or sacred about a broadcasting license."

"When a renewal is set down for hearing, I intend—wherever possible—to hold a well-advertised public hearing, right in the community you have promised to serve."

During and following World War II there was a marked increase in prevalence of kidney stones in England, which the medical and health authorities ascribed to the sharply restricted milk ration of that period.

Kidney stone is relatively rare in countries or communities where milk is an important part of the daily diet. It is relatively frequent in countries or communities where milk is not a substantial part of the diet.

Little clinical evidence. It is notable that current medical literature, with which I am fairly familiar, gives little or no clinical evidence to support the notion that the daily consumption of 1 1/2 pints (three glasses) or a quart (four glasses) of milk may contribute to "calcium deposits," formation of kidney stones, development of chronic joint disability, premature hardening of the arteries (arteriosclerosis) or any other pathological condition.

The amount of calcium in a quart of milk daily "can become a kind of drug in the system of elderly people and in some instances it can produce a form of poisoning," said the clinic assistant.

One might as well say a mouse "nest" in the cat's ear. These "medical scientists" who bloom in papers use the "can-can" device with devastating effect upon

Voice of the People:

'Our Way of Life Bettered by Freedom of the Press'

In regards to the editorial in the May 5 issue of The Press on the advisability of publicizing so thoroughly many of the moves made by the U.S. I point out that freedom of the press is one of the facets of our way of life which makes it more attractive than that of the Communists. With a controlled press we begin to resemble the Soviet totalitarianism whom we are fighting so bitterly. We cannot defeat communism by usurping American ideals, but only by expiating them.

Peter A. Wollinger

'State Theater Fine for Auditorium'

I think the beautiful State Theater would be a wonderful civic auditorium. The building is basically sound, seating areas are plentiful and the exterior is attractive enough to blend in with urban renewal. The inspiring architecture of the spacious theater auditorium would never be matched in a new civic auditorium and the cost of replacing the seats and a general paint and clean-up would be practically nil by comparison.

Once the services of this grand theater were made available, there would be a great response as it has so much to offer. Its versatility would accommodate any type of meeting and with the elaborate staging, lighting and acoustics, plays and programs of all types could be handled gracefully. Is the fabulous pipe organ still there?

For revenue there could be on occasions an evening of just thrilling organ music. Wouldn't it be simply fantastic to thrill to it once again? As word got around, Pontiac offered original orchestral theater pipe organ from time to time it would attract many people for miles around.

Save the State Eustasiat

'Should Try Russian Rulers for Crimes'

The former rulers and present regime in Russia should be tried for their crimes against humanity. The Russian people look like an amateur. They killed millions of people and millions more, whose fate was worse than death, were sent to slave labor camps. Even today the best reliable estimates are anywhere from 10 to 30 million people in slave labor camps.

Murder, torture, mutilation, rape and other crimes are the innumerable rocks upon which the so-called Soviet Socialist Republic was founded.

Patriot

'Republicans Kind to New President'

If a Republican President had pulled the terrible bomb that Kennedy did in Cuba, you could have heard the Democrats yelling from coast to coast. This nation lost prestige all around the globe.

The GOP party and all voters have treated Kennedy with great charity for he fell flat on his silly face in front of the whole world and the opposition party has been too kindly and too forgiving.

Imagine the cry of rage from Truman if Eisenhower had ever put on a ridiculous act like Kennedy's in Cuba.

G.O.P.

THOUGHTS FOR TODAY

So then, there remains a Sabbath rest for the people of God. —Hebrews 4:9.

The Sabbath is God's special present to the working man, and one of his chief objects is to preserve his life, and preserve efficient his working time. The savings bank of human existence is the weekly Sabbath. —William G. Bialick.

Case Records of a Psychologist:

Become a Jolly Conversationalist

By DR. GEORGE W. CRANE Case H-427: Lena K., aged 20, is a good looking college coed.

"But, Dr. Crane," she protested tearfully, "I don't win friends."

"Oh, I mean to attract boys because they think I have a good figure and a nice complexion."

"But I can't hold them! They don't ask me for second dates. That limits me to string me out and I'd like to."

DR. CRANE go steady with one boy, for a change, just to see what it is like.

"I'm so unhappy because of my lack of friends that I'd like to drop out of college. But I know my parents would be very much upset if I did."

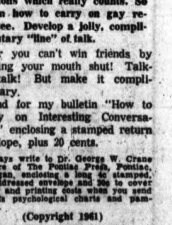

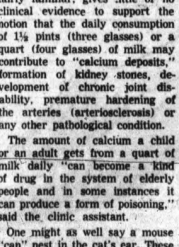

"So, Dr. Crane, how can a person really win friends and be popular?"

Many of you readers are now unhappy because of freckles or pug noses or large ears or other physical characteristics. You may even have withdrawn from society and become unduly sensitive about your supposed defects.

"Oh, if I only had a clear complexion and a pretty figure!" many of you girls have exclaimed to me.

So please read Lena's lament a second time: It will show you that a girl who has a pretty face and a good figure may still be friendless. Lena actually sheds tears because she isn't popular.

Let her case be a vivid lesson to you, for it shows that popularity

The Associated Press is entitled to use in its news reports all material in this column as well as all news dispatches.

Lapeer Officials Solve 'Big' Theft

Report 35-Ton Crane
Was Taken From Alba
Twp. Site by Ex-Owner

A theft which must stack up—pound for pound—as one of the biggest in the history of his department was reported solved today by Lapeer County Sheriff Kenneth W. Parks.

Parks and his deputies have been busy digging up facts on the theft since it was reported March 27.

On that date an informant told police that something was missing from Baldwin and Newark roads in Alba Township.

The "something" was a huge crane, the type used in big construction jobs.

"It probably weighs about 35 tons," said Parks.

After a lengthy investigation, the crane was discovered Monday parked next to the Airport Ready Mix and Building Supply Co., 3700 Airport Road, in Waterford Township.

The sheriff identified the crane as the one stolen in Lapeer County.

Later he arrested Hugh F. Caverly, 33, of 19565 W. Nine-Mile Road, Southfield, as the "crane-naper."

Caverly formerly owned the huge earth-moving machine until it was sold at a sheriff's auction March 23 as the result of a foreclosure on a chattel mortgage.

Parks said Caverly first claimed he knew nothing of the sale, and thought the crane still belonged to him. However, he later pleaded guilty to the crane theft before Lapeer Justice Herbert King.

Caverly will appear in Lapeer County Circuit Court for arraignment May 29. He is free under \$300 personal bond.

Zoo at Royal Oak Open; Has Many Baby Animals

The Detroit Zoological Park opened its doors for the 1961 season this morning with prospects that reptiles, babies and the star chimpanzees will be favorite attractions this year.

This will be the zoo's 24th season. It is located at 850 W. 10-Mile Road, Royal Oak. The park will be open from 10 a.m. to 5 p.m. weekdays and 9 a.m. to 6 p.m. Sundays and holidays.

Fast becoming the most popular spot at the zoo is the Holden Museum of Living Reptiles, which was completed and opened last August.

Some 360,000 people visited the museum in the few weeks it was open last year, surpassing all staff predictions for popularity.

The collection has been increased this year. Now there are 450 specimens of some 250 species of reptiles, amphibians and tropical birds.

New arrivals in the animal world are annual crowd pleasers, and this year at opening time the zoo has more babies than ever before.

Most noteworthy is Ora, a baby orangutan born to Seta and Jiggs, Bornean orangutans, last Feb. 28.

Few have been born in captivity. So far as staff members know, this is the first time a male orangutan has been left with the mother during and after birth.

Other important youngsters are four Kodiak bear cubs, lion cubs just barely old enough to be introduced to the public, kangaroos, aoudads, baboons, rhesus monkeys, barnyard animals and many more still to come in the deer family.

"Rodeo Days," a western TV review, is the theme of this year's chimpanzee show. It is a fast-moving exhibition of chimpanzee prowess, and pony routines.

R. Keith Cadman Wins Teaching Fellowship

R. Keith Cadman, 1145 La Salle Ave., has been selected to receive a 1961-62 graduate teaching fellowship in the department of engineering mechanics at Michigan Tech.

Houghton, according to Frank Kerkens, dean of the faculty at the college.

Cadman will pursue half-time graduate studies toward the master of science degree in engineering mechanics, and teach departmental courses half-time for one academic year.

He will graduate in June with the bachelor of science degree in mechanical engineering from Michigan Tech. His parents are Mr. and Mrs. William P. Cadman.

Ocean Freighter Captain Suffers Heart Attack

BAY CITY (U)—Capt. Nilsolof Aronsson, skipper of the Swedish-American Lines freighter Vibholm, suffered a heart attack about the ship today as he rode in Saginaw Bay 12 miles from here.

The Coast Guard, acting on a radio alert from the ship, took Dr. David A. Bowman of Bay City out to the vessel. Bowman treated Aronsson until the ship docked here.

Aronsson, 62, of Göteborg, Sweden, was reported in fair condition at Bay City General Hospital.

Nazis Seized Rabbi, Says Widow

By TOM REEDY
JERUSALEM, Israel (AP)—A self and her three children—over the border into Sweden. Mrs. Samuel's testimony was introduced by Israeli Deputy Atty. Gen. Gavriel Bach as part of the record against Adolf Eichmann, the SS officer charged with being the operating head of the Nazi bureau assigned to wipe out the Jewish race in Europe. Only in Scandinavia — Norway and especially Denmark — did Eichmann come up against something too big for even his midnight raiders.

Henriette Samuel, whose husband had been chief rabbi for Norway's 1,700 Jews, described the Gestapo launched its drive in 1942 to round up and deport the entire community. Her husband was one of the first seized.

"I have confirmation that on Dec. 16, 1942, he was exterminated at Auschwitz," she said. "From 1940 to 1942, the first time she told how the Gentiles were under the illusion that in the underground at great peril were under the illusion that in

Norway, the country of Nansen, the anti-Jewish laws of the Nazis would not be promulgated." But early in 1942, the Eichmann kommandos of department IV-B, 4, charged with "the final solution" of the Jewish problem, cracked down with the usual, repressive measures long since in force on the continent.

Rabbi Samuel was warned by a Gestapo man he would be wise "to vanish," his widow said. "But my husband said, 'I as a rabbi will not leave my community in this hour of danger.'"

On Sept. 2, 1942, he was arrested and never seen again. On the night of Oct. 26, Nazi police swooped down on Jewish males. "Thanks to the brave underground, some succeeded in hiding," she said. But 750 were caught and only 12 of these survived.

RESIGNS — Ben Hibbs, 59, editor of the Saturday Evening Post, is resigning. Robert Fuoss, present executive editor, will take over Hibbs' post next Jan. 1. Hibbs has been editor since 1942.

Peace Corps Attracts 250 MSU Students

EAST LANSING (AP) — President Kennedy's peace corps has caught the fancy of some 250 Michigan State University students, a spokesman said today.

Home Hibbs, assistant dean of international programs, said this number of applications to join the peace corps have been taken out since they were made available 10 days ago.

An average American family uses about 900 metal cans a year.

To Discuss Problems of Raising Handicapped

Group discussion of various problems in bringing up handicapped children will be conducted at the monthly meeting of the Guardians of the Easter Seal Children's Society.

Members will meet at 7:30 in the Oakland County Society for Crippled Children's headquarters on Telegraph Road. The discussion will be led by George Owens of Pontiac, program chairman. Refreshments will follow.

Give Status of Key Bills

BY THE ASSOCIATED PRESS
LANSING (AP)—Here is the status of key bills considered by the Michigan Legislature this session:

Appropriations Bills — Passed both houses; some in House-Senate conference committees for settlement of differences.

Taxation Bills—Proposed local payroll tax killed; some secondary bills passed.

Reflectorized license repealer — Passed Senate and House; sent to governor for signature, with immediate effect.

Real estate discrimination — Passed Senate and House; sent to governor for signature.

Milk price fixing — Passed House and Senate; returned to House for concurrence in amendments.

Seal of quality — Passed Senate and House; sent to governor for signature.

Highway speed limit — Passed House and Senate; awaiting House-Senate conference on Senate amendment setting limit at 70 m.p.h. daytime, 60 m.p.h. nighttime.

Auto safety belt brackets — Passed Senate and House; sent to governor for signature.

Small loans — Passed House and Senate; sent to governor for signature.

K-12 school district reorganization — Passed House; killed in Senate.

Unemployment compensation revision — Passed House; died in Senate committee; revived in House and passed again; passed Senate, sent to governor for signature.

Congressional reapportionment — Passed House and Senate; awaiting House-Senate conference on Senate amendment.

Communicable Diseases Rise in Pontiac, County

Communicable diseases in Pontiac and 61 cases of measles recorded in Pontiac, far more than the current number.

In the county, the biggest increases last week came in mumps and chicken pox. New cases of mumps increased by 23 and chicken pox by 40 over the week before.

Decreases came in measles, scarlet fever, rheumatic fever and hepatitis.

The following is a list of new cases of communicable diseases reported to the Oakland County Health Department (excluding Pontiac) during the past two weeks.

	Week Ending May 2	Week Ending May 9
Chicken pox	120	160
Measles	100	100
Mumps	100	147
Scarlet fever	10	10
Whooping cough	10	10
Rheumatic fever	10	10
Hepatitis	10	10

The health department also noted that for the same week a year ago there were 44 cases of chicken

Police Arrest 85 Negroes

Rounded Up in Probe of Rape of White Girl; 32 Released

ODESSA, Tex. (AP) — Police Wednesday night arrested 85 Negro male between the ages of 17 and 20 they found on the streets of this West Texas city for investigation in the rape of a white girl while her terrified sister lay in the same bed.

Police Capt. Fred E. Johnson said the 18-year-old victim viewed the 53 youths arrested Wednesday night and was unable to identify any of them as the man who raped her while he held a knife to her throat early Wednesday. They were released early today. Thirty-two other Negroes in the same age group were arrested Wednesday afternoon and released when the girl failed to identify any of them, as her attacker.

Johnson said no charges were filed and all the youths arrested were booked for investigation. Some of them had records of rape he said, and the others were known to police to be either criminals or to have hung around with criminals.

Odessa has a population of 80,000, including several thousand Negroes. "We have just about all the Negroes of this age bracket and if the one we're looking for isn't here then he is the only one between 17 and 20 who hasn't been picked up," Johnson said.

5.8-Million Year Is Seen by Ford

Figure Represents Fall of 800,000 From '60; Outlook Less Cloudy

NASHVILLE, Tenn. (AP)—Henry Ford II predicts industry-wide car sales during 1961 will total about 5.8 million, a drop of 800,000 from last year.

"We had a disastrous December, January and February," the board chairman of Ford Motor Co. said at a luncheon Wednesday. "The market is looking up, but it is nothing fantastic."

Ford was here to watch the formal start of operations in the firm's expanded glass plant. He lit a gas jet in a new sheet glass furnace, part of the expansion program designed to boost capacity at the plant here to 1,100 tons of finished glass a day.

Ford said that with the expansion his firm will be able to make all its own glass, and supply more than 200 other companies with glass for architectural purposes.

Shepard's Wallet \$14.38 Fatter for Rocket Ride

WASHINGTON (AP)—Cmdr. Alan B. Shepard Jr. earned an extra \$14.38 for riding a rocket into space last Friday.

As a commander on flying duty, Shepard is entitled to an extra \$230 a month. He has to fly four hours a month for it.

His space voyage—202 miles down the Atlantic from Cape Canaveral, Fla.—took 15 minutes. Thus, he earned one-sixteenth of his flight pay for May, or \$14.38. Shepard gets no special compensation for serving as an astronaut. In a sense, he flew so fast Friday it cost him money.

Coalition Wins Vote

BRUSSELS (AP)—The Belgian Senate Wednesday voted confidence, 121-52, in the new Social Christian-Socialist coalition government of Prime Minister Theo Lefevre. Thirteen Social Christian senators abstained and nine senators were absent.

HATS FOR FAIR—From 3 to 7 p.m. Saturday, the halls and grounds at the Four Towns School, Waterford Township, will take on an atmosphere of an old fashioned fair, as the Parent-Teacher Association has its last activity of the season. The fair will feature not only games, refreshments, fish ponds and booths inside, but

there will be pony and wagon rides for youngsters outside the building. Getting set for the festivities in the above picture are Gale Nurkula, Hugh Hamrick and Judy White, and little Dale Hamrick in front. All proceeds will be used for school equipment. The public is welcome.

U.S. Vulnerable From the South, McNamara Says

WASHINGTON (UPI)—There is some danger of an attack on the United States through the relatively undefended southern portion of the Western Hemisphere, Defense Secretary Robert S. McNamara has told Congress.

He told the Senate Armed Services Committee, in testimony released Wednesday night, that the danger comes from missiles launched from Russian bases. Soviet submarines or possible "satellite missile bases in this hemisphere."

It was noted that such warning systems as the Dew Line are concentrated in the Arctic regions.

But McNamara said the danger of an attack from the south was being considered in U.S. defense plans.

Africans Deal Rebuff to Ghana Expansion

MONROVIA, Liberia (AP)—Leaders of 21 African nations dealt a rebuff to President Kwame Nkrumah Wednesday night and called his dream of expanding Ghana at the expense of neighboring republics "totally unrealistic."

Without mentioning Nkrumah directly, they denounced in a joint statement "any conception of unity which entails the surrender of the sovereignty of any African state to another."

COVETS LAND

Nkrumah has openly coveted territory in neighboring Togo and Ivory Coast and advocates that the independent African states join in a federation.

Ghana was not represented at the conference held here this week by leaders of African nations regarded as pro-Western or non-committed.

Superintendent Shifts

GRAND RAPIDS (AP)—Former Marne School District superintendent Robert Fitch has been named superintendent of the new Kenowa Hills School District which covers a Kent-Ottawa County area north-west of Grand Rapids. Voters of 10 separate districts in the area, including Marne, approved consolidation into a single unit May 2.

Crime Down From March

251 Offenses Reported in Pontiac for Month of April—No Homicides

The amount of crime reported in Pontiac for April was down from the previous month, according to the month-end report of the Pontiac Police Dept.

In all, 251 offenses were reported in seven major crime categories ranging from murder to auto theft, down from 289 in March.

No homicide or rape cases were reported in April.

There were 2 robberies, 19 aggravated assaults, 46 burglaries, 167 larcenies and 17 auto thefts.

UP OVER '60

The March crime breakdown showed one homicide, one rape, 11 robberies, 19 aggravated assaults, 68 burglaries and 15 auto thefts.

For the year, crime in the city is up slightly as compared to the comparable period of 1960.

There have been 1,072 major crimes reported through April, an increase from 947 for the same period a year ago.

Police reported 22 per cent clearance of major crimes in April, up from 19 per cent for March.

Senators Approve Cutting Own Taxes

LANSING (AP)—A bill which would exempt legislative retirement pensions from all state taxes — including any income tax that might be enacted in the future — slipped virtually unnoticed through the Senate Wednesday.

The measure, sponsored by Sen. Philip Rahol, D-Iron Mountain, passed the House by a 104-0 vote and the Senate 30-0. It would exempt the pensions of lawmakers from "taxation by the state or any of its political subdivisions."

Camerman Divorced

SANTA MONICA, Calif. (AP)—Film cameraman Douglas M. Shearer, 60, brother of actress Norma Shearer, was divorced Wednesday by his wife of 27 years, Ann, 56. The court approved a settlement dividing \$800,000 in community property.

Wants Thorough Review of British Security Setup

LONDON (U-P)—Prime Minister Macmillan said today he has decided to have a thorough review of British security measures in view of the recent conviction of six persons for spying for the Soviet Union.

"I propose," he told the House of Commons, "that this review should be undertaken by a body of independent persons of standing, who will be able to bring to bear a judgment based on wide and varied experience."

Citizens League Elects Prexy

Former GMC Official Gets Post; Give Award to Louis Schimmel

Former General Motors Corp. official W. Laurance Shaffner of Rochester last night was elected president of the Oakland Citizens League, Inc.

Shaffner, of 818 Peach Tree Lane, replaces Henry S. Booth, long-time president and one of the founders of the league, aimed at promoting a better understanding of the problems of citizenship and their solution.

At the organization's 22nd annual meeting held at the Birmingham Community House, Louis H. Schimmel, past president of the Pontiac Board of Education, was honored with a resolution praising his service to the community.

Booth, of Bloomfield Hills, presented the award to Schimmel. It was presented, the resolution said, "because of his long and devoted service to the community and the inspiration of others."

Other officers elected were William H. McGaughey, Bloomfield Hills, vice president; Frederick C. Nash, Bloomfield Hills, treasurer; and Miss Agnes Larson, Birmingham, secretary.

Six persons were elected to the board of directors for three-year terms. They were: Edward R. Moore, Pleasant Ridge; Robert Shalman, Pontiac; Robert Taylor, Bloomfield Hills; Dr. John Schmitt, Sylvan Lake; Miss Larson and Shaffner.

Rochester Man Hit by Auto in Reverse

A 35-year-old Rochester man struck by a backing car as he was loading a television set in his car trunk in Pontiac yesterday was reported in satisfactory condition today at Pontiac General Hospital.

Charles D. Goff of 428 Hill St. suffered lacerations to his left leg.

when hit by a car driven by Lottie Fay Bennett, 41, of 212 Rundell St., as she backed out of a parking space in a city parking lot on Auburn Avenue near Perry Street.

She told police she failed to notice the Goff behind her as he evidently was bent over too low to be seen in her rear-view mirror.

New Mexico has an estimated 176,000 acres of gypsum.

Plan Waterford Meeting for Girl Scout Leaders

The Girl Scout Leaders Association of Waterford Township will meet at the Community Center at 8 p.m. Monday and elect officers for the coming year.

The group will learn about teaching singing games to their individual groups, and a program on water safety will follow.

The film, "Teaching Johnny to Swim," will be shown.

Hostesses for the evening will be from the Hudson Covert neighborhood.

One-piece aluminum shutters for doors and windows are being made. They have a baked enamel finish.

Open 'til 9 p.m. THURSDAY, FRI., & MON. Nights

Youths Waive Exam Following Arrest

Four youths waived examination on charges of unlawfully opening a coin machine following their arrests at the Auburn Avenue Coin Laundry, 517 Auburn Ave., early yesterday.

To be arraigned in Circuit Court Monday will be Albert J. Harris, 19, of 38 E. Rutgers St.; Charles F. Mero, 18, of 34 W. Columbia Ave.; Jimmy D. Coffel, 20, of 545 Crescent Drive; and Larry Goff, 20, of 100 W. Howard St.

Municipal Judge Maurice E. Finnegan released the foursome pending their appearances in Circuit Court.

Ancient Aztecs used the cocoa bean from the cacao tree as money, instead of their hoards of gold and silver.

Ridler at Hazel Park

DETROIT (UPI) — Don Ridler, former publicity director for the trotting races at Detroit Race Course, has been named director of public relations for the thorough-

bred racing at Hazel Park Race track.
Ridler, a former Michigan State University football tackle in the early 1930's, also has worked as a high school and college athletic coach.

Iranian Premier Cancels Passports of All Officials

TEHRAN, Iran (AP)—Premier Ali Amini Wednesday ordered a shutdown of passports and exit

visas to former ministers, officials and government servants without his personal permission.
The order came 24 hours after the shah dissolved both houses of Parliament.

Turkish Official Denies Antigovernment Riots

ANKARA, Turkey (AP)—Government officials Wednesday denied reports from Aleppo in Syria

of antigovernment riots in three Turkish districts near the border. A Turkish foreign ministry spokesman said no such incidents have occurred. He also denied reports that the border has been closed.

Literate Ex-Convict Admits to 131 Burglaries

SAN MATEO, Calif. (AP)—An ex-convict who can write little more than his own name has admitted 131 burglaries over a two-

year period and has showed officers 127 of his crime sites, authorities report.

Officers said Albert M. De Ponte, 29, had taken \$35,000. The San Francisco man now is in San Mateo County jail.

Student Gets 3rd Degree—the College Kind

LOUISVILLE, Ky. (AP)—James E. Wingfield believes in liberal education. He received his ministerial bachelor's degree Tuesday night of

from Louisville Bible College. He was the school's only graduate. He had already earned law and chemistry degrees—in addition to a two-year electronics correspondence certificate. Now he will strive for a doctor of divinity degree.

Astronaut Is Saluted on New Record Release

HOLLYWOOD (UPI)—Astronaut Alan B. Shepard Jr., America's first man in space, was saluted today in a photograph

record titled "That Shepard Man." Released Tuesday by Dot Records, the number is sung by Louis Prima and Keely Smith.

The first two copies of the disc were air-expressed to Cmdr. Shepard and President Kennedy.

Good Old Wolfgang, He's Really the Greatest!

BUFFALO, N. Y. (AP)—Paul Sipes enjoys the music of Mozart so much he placed a classified ad in the Buffalo Evening News on

the anniversary of the famous composer's birth: "To Wolfgang on his 205th Birthday: You're the greatest." The leaves and petals of various rose species were used to make medicine in ancient times.

Pontiac, Nearby Area Deaths

EDWARD E. ALEXANDER, 40, of 434 E. Mainfield St. died suddenly of a heart ailment while playing golf at Morey's Golf Course yesterday. He was an employee of Universal Oil Seal Co.

Mr. Alexander leaves his wife, Gaylene; his father, R. E. Alexander; three children, Mickey, Sue and Kevin; and a brother, Earl, of Pontiac.

Service will be held at 2 p.m. Saturday at the First Social Brethren Church with burial in Perry Mount Park Cemetery. Arrangements are by the Hinton Funeral Home.

WILLIAM I. ARNOLD

William I. Arnold, 86, of 4474 Major St., Dryden Plains died yesterday. He had been ill nine months.

Mr. Arnold leaves three daughters, Mrs. Charles Adams of Detroit, Ill., Mrs. George Lallo of Chicago and Mrs. Geneva Howe of Rochester; three sons, Robert of Union Lake, Leo of San Anselmo, Calif., and William Jr., of Dryden Plains; 16 grandchildren; 16 great-grandchildren; and a brother.

Service will be held at 1 p.m. Saturday at the Coats Funeral Home, Dryden Plains with burial in White Chapel Memorial Cemetery.

JAMES A. EAGLING

Service for former Pontiac resident James A. Eagling, 72, of Kalkaska will be held at 2 p.m. Friday at the Barnard-Corner Funeral Home in Memphis. Burial will be in the Memphis Cemetery.

A retired Pontiac Motor Division employee, he is survived by his wife, Lydia; two sons, Edson of Troy and Basil of Pontiac; a daughter, Letha Cunningham of Kalkaska; three stepdaughters; three stepsons; five grandchildren; six great-grandchildren; 18 step-grandchildren; and 17 step-great-grandchildren.

Also surviving are a sister and six brothers.

Mr. Eagling died Tuesday at his home after a long illness.

DANIEL E. FAIRBANKS

Daniel E. Fairbanks of 794 S. Johnson Ave. died of pneumonia at Bloomfield Hospital yesterday after a long illness. He was 71.

A retired employee of General Motors Truck & Coach Division, he was a member of All Saints Episcopal Church and attended Ferris Institute.

Survivors include his wife, Isabelle; two daughters, Mrs. Byron Slimko of Cooley Lake and Mrs.

J. R. Milnor of Beachwood, Calif.; two grandchildren and two sisters. Service will be held at 2 p.m. Friday at All Saints Episcopal Church with burial in White Chapel Memorial Cemetery. Mrs. Fairbanks' body is at the Hinton Funeral Home.

MRS. JAMES F. SMITH

Mrs. James F. Smith, 62, of 6015 Wadsworth Dr., Waterford Township, died this morning at Pontiac General Hospital after a brief illness.

Mrs. Smith was a member of the American Legion Ladies' Auxiliary of the Harold Todd Post No. 140, Detroit, the Macabee Lodge, The 8 and 40 Club of Highland Park and Order of Eastern Star, North Woodward Loyalty Chapter 427.

Surviving are her husband; and two brothers, Ronza of Detroit and David of Ray, Ga.

Mr. Smith's body is at the Sharpe-Goyette Funeral Home, Clarkston.

LAWRENCE W. JACKSON

WHITE LAKE TOWNSHIP — Service for Lawrence W. Jackson, 18-year-old son of Mr. and Mrs. William C. Jackson of 9969 Burgess Court, will be at 10:30 a.m. Saturday at St. Patrick Catholic Church. Burial will be in Mount Hope Cemetery, Pontiac.

He was dead on arrival yesterday at Pontiac General Hospital following an illness of one day.

The Rosary will be recited at 9 p.m. tomorrow at the Donelson-Johns Funeral Home, Pontiac.

Surviving besides his parents are a brother, Jon, and a sister, Nancy, both at home.

MRS. FRANK J. SALSBURG

HOLLY — Service for former Holly resident Mrs. Frank J. (Edith Sheldon) Salsburg, 69, of St. Petersburg, Fla., will be at 1 p.m. Saturday at the Dryer Funeral Home. Burial will be in Lake-side Cemetery.

Mrs. Salsburg died Sunday at a hospital in St. Petersburg after a short illness.

She was a member of the Electa Chapter No. 180, OES, and Holy Verbeena Rebekah Lodge No. 861.

Surviving besides her husband are four sisters, Mrs. Jennie Wolf of Ortonville, Mrs. Charlotte Wood of East Tawas, Mrs. Nellie Wildman of Flint and Mrs. Ethel Delaney of Chicago, Ill.; and six brothers, Roy Hayward of Grant; John Hayward of Owosso, Floyd Hayward of Niles, David Hayward of Olivet, Forest Hayward

of Pontiac and Ernest Hayward of Chicago, Ill.

Mrs. Salsburg's body will be at the funeral home after 10 a.m. tomorrow.

MRS. HOWARD SHORE

CLARKSTON — Service for Mrs. Howard (Allie May) Shore, 73, of 6023 Pine Knob Road, will be at 10 a.m. tomorrow at Hinton Funeral Home, Pontiac. Burial will be in Perry Mount Cemetery.

Mrs. Shore died Tuesday at Pontiac General Hospital after an illness of seven weeks.

Surviving are a daughter, Mrs. Gladys Seaver of Drayton Plains; a son, Thomas H. of Clarkston; five grandchildren and one great-grandchild.

Surviving are her husband; and two brothers, Ronza of Detroit and David of Ray, Ga.

Mr. Smith's body is at the Sharpe-Goyette Funeral Home, Clarkston.

An armed bandit wearing a Frankenstein mask held up Rudy's Market at 338 Central St. last night and fled with \$39 in cash.

Rudolph Morales, proprietor of the grocery store, told Pontiac police detectives the bandit, brandishing a shotgun and wearing a grotesque rubber mask on his face, entered the store at 10:30 p.m. and ordered "Give me all the bills."

A part-time employee, Roger Soriano, 37, of 323 Ferry St., was the only other person in the store. Both were unharmed.

Morales said he asked the masked desperado if he wanted the change, to which he replied "just the bills," and scooped them from the cash register himself.

The bandit fled the store within minutes after entering. He got into a "shiny '33 Pontiac" waiting outside with an accomplice at the wheel, and they drove off headed east on Central Street, Morales told officers.

He described his assailant as about 25 years old, weighing approximately 165 pounds and about 5 feet 9. He had dark hair and was wearing a fingertip, tan jacket, according to Morales.

Capture Youth Hiding in Gas Station Break-In

A youth who gave his age as 17 was apprehended during a gas station break-in in Waterford Township early this morning, according to sheriff's deputies.

Deputy Don Hughton said he caught the boy hiding behind a desk in Delf's Service Station at 2066 Walton Road while investigating a broken window spotted on patrol.

The station owner, Delmer H. Irwin of 16 Heights Road, Lake Orion, said approximately \$9 was missing from vending machines in the building.

The missing money was found in the youth's pockets, Hughton said. The boy was turned over to juvenile authorities.

Autolite to Transfer Port Huron Facility

TOLEDO, Ohio (AP) — Electric Autolite Co. announced today transfer of its industrial instrument operations at Port Huron, Mich. to Marshalltown, Iowa. No date was set for the transfer.

L. L. Garber, Autolite vice president, said the move was necessary because the company needed additional space in Port Huron for wire and cable production.

Approximately 100 persons are employed in the industrial instrument operation.

W. Samoa to Rule Self

SYDNEY (UPI) — Voters in Western Samoa, a U.N. trust territory administered by New Zealand, decided Wednesday to make their islands the first independent nation in the Central Pacific. It was announced today.

The station owner, Delmer H. Irwin of 16 Heights Road, Lake Orion, said approximately \$9 was missing from vending machines in the building.

The missing money was found in the youth's pockets, Hughton said. The boy was turned over to juvenile authorities.

MSUO Skyline Varies Daily

By MAX E. SIMON

Never is Michigan State University Oakland the same campus two days in a row.

The landscape of the university changes daily as construction of buildings continues.

There have been few days on which builders weren't busy on the campus since the birth of MSUO.

And with the anticipated growth of the university, they'll be busy for years to come (unless the State Legislature fails to appropriate funds needed to institute a full four-year college program).

Currently under construction are the \$1.5 million Kresge Library and the \$2 million science-engineering building, both scheduled for completion this fall. (MSUO Chancellor D. B. Varner has expressed fear, however, that lack of operating funds may keep the buildings from opening on schedule.)

Situated on the highest point of the campus, the library eventually will be the center of a mall extending through the area of the academic buildings.

SPACE FOR 300,000 BOOKS

The library will contain space for 300,000

volumes and accommodate 1,200 students. Construction is 40 per cent completed.

Builders have finished the roof of the building and are now engaged on brick, miscellaneous steel and window work.

George Karas, director of MSUO's physical plant, said the building will be completed Sept. 1—the original target date.

As the exterior walls go up, work on the interior will begin. The building is designed without interior supporting walls—so most of the inside work will be on a central service area housing the main stairway, elevators and offices.

Construction of the west wing of the T-shaped science-engineering building is ahead of the others and will be ready for occupancy by Sept. 1.

The wing contains offices, laboratories and classrooms. Brick work and interior partitions are current work projects.

GRADING COMPLETED

The south wing, also on schedule, exists in skeleton form. Grading has been completed

for the east wing, and will soon be started in the area of the building's lecture halls.

The building will contain two lecture halls seating 184 persons, 17 laboratories, 14 large classrooms, seminar rooms and library research space.

Construction of four cottage-type dormitories as well as expansion of the Oakland Student Center are probable projects this summer.

And, after that?
University planners visualize the construction of an intramural building by spring of 1962.

Not too far off, they say, will be a new classroom building which they hope will be ready for use in the fall of 1964.

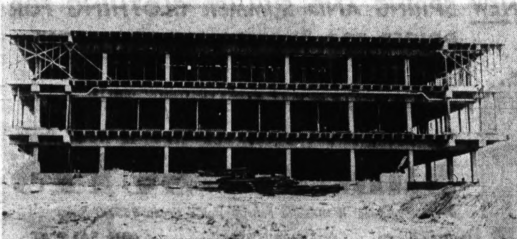

Other buildings to follow would include a fine arts center and an engineering building—to be constructed by the 1966-67 academic year.

University planners are also hoping to construct a civic auditorium eventually near Meadow Brook Hall, which will some day become the university's art center.

WHERE HE'LL TEACH—Dr. Paul Tomboulion, assistant professor of chemistry, checks the progress of MSUO's \$2 million science-engineering building in which he hopes to teach his classes

this September. Dr. Tomboulion and other science faculty members worked closely with architects in planning the building.

TAKING SHAPE—Work proceeds on schedule as the \$1.5 million Kresge Library rises to dominate the campus. Situated on the highest

ground of MSUO, the air-conditioned building will contain room for 300,000 volumes. A reflecting pool will be located in front of the building.

BRICKS FOR THE BOOKS—Work on the interior of MSUO's Kresge Library will be begun as the exterior of the building is closed in. Lay-

ing the bricks for the library is Adam Frankowski, 2005 Grace St., Avon Township.

CERTIFIED SKIPPERS—Over 300 area boating enthusiasts received U.S. Coast Guard certificates at Pontiac Central High School last night after successfully completing the Coast Guard-sponsored eight-week safe boating course here. Shown receiving their certificates from Vance E. Powers (left), commander of the Coast Guard Auxiliary Flotilla in Pontiac are, from left: Mrs.

Jess Herren of 6857 Longworth Drive, Waterford Township; Earl Irwin, 18 Park St., Oxford; and Mrs. Lawrence Milliken of 35 Carpenter St., Waterford Township. The course, tailored to promote safe operation of small craft on inland lakes, likely will be offered here again in the fall, according to Cmdr. Powers.

THE CHANGING SCENE—This recent aerial shot of Michigan State University Oakland shows the development of the university's growing campus. The numbered circles and the buildings they pinpoint are: (1) North Foundation Hall—administrative offices, laboratories, and temporary library space. (2) South Foundation Hall—classrooms and some faculty offices. (3) Kresge Library—scheduled for com-

pletion this fall. (4) Science-engineering building—also scheduled to open in the fall. (5) Proposed location of \$1.5 million intramural building. (6) Meadow Brook Hall—some day to become the art center of the university. To the left of the picture will rise MSUO's first dormitories.

26 in Area Join Air Force

A total of 26 area persons enlisted in the Air Force during April, according to a report issued yesterday by the recruiting office in Pontiac.

Under a current Air Force policy, the enlistees were able to sign up for the particular military field of their choice.

The following enlistees chose the electronics field: Paul D. Sage, 624 Boyd St.; Carl W. Shooky, 30 Churchill Road, Avon Township; and Richard E. Palmer, 811 Atlantic Ave., Milford.

Enlisting in the mechanical field were: Pat A. Stadler, 625 Clara St.; James C. Rutledge, 348 Beverly St.; Maurice Stimpert, 38 Lake St.; Larry W. Landon, 6445 Snowapple Drive, Independence Township; Stephen D. Lowe, 738 Highland Road, White Lake Township; James D. Spoor, 214 Oakland St., Milford; and Marvin W. Wilson, 289 Wise Road, Commerce Township.

Joining as administrative enlistees were: Willie D. Powell, 394 S. Sanford St.; Kenneth R. Walker, 184 Delwood St.; Charles H. Cox, 709 Perry St.; John R. Colgrove, 123 W. Huron St.; Claude McClellan, 941 Northfield St.; Gary J. Puckett, 209 1/2 LaSalle St.; Charles W. Barge, 5267 Villa Crest Drive, Springfield Township; and Ted C. Leahy, 8755 Van Gordon Road, schools in 19 states.

White Lake Township. General enlistees were: William B. Manning, 440 Bartlett St.; Morris J. Sutton, 7044 Tucker Road, Holly Township; and Edmund C. Wozniak, 3109 McKinney Road, Franklin.

5-WEEK COURSE
They are undergoing a five-week basic indoctrination course at Lackland Air Force Base, Texas, before going on to technical schools in their particular fields of choice. Ines M. Reaser, 585 Willard St., Rochester, enlisted as a WAF and is in basic training at a training center in San Antonio, Tex.

After serving with the U. S. Army, Larry Bell, 471 Shuman Road, Avon Township, enlisted as an airman second class and chose to be assigned to Wurtsmith Air Force Base in Michigan. Larry J. Burns, 2320 M15, Independence Township, was enlisted as an airman third class after serving in the Marines. He chose assignment at Vandenberg Air Force Base, Calif. Dale F. Mellon, 273 N. Saginaw St., re-enlisted as an airman second class and chose to attend a technical school at Keeler Air Force Base, Miss.

Vision tests are required by schools in 19 states.

Funfair Photo

CARNIVAL CLOWNS—The three Balma children, from left, Vicki, Hollie and Robert, are awed by Phillip Hall's (left) and Harold Eagle's clown get-ups. However, they'll relax and have plenty of fun from 4 to 7 p.m. Saturday at the William Beaumont School's Outdoor Carnival in

Waterford Township. There'll be fun for the young, old and in-betweeners as organized games, pony rides and the inevitable carnival clowns cavort on the school grounds. All proceeds will be used for library books and next year's Parent-Teacher Association program.

'Lakeland Paradise' Film to Be Shown

A second showing of the film on Waterford Township, "Lakeland Paradise," will be presented at 8 p.m. Friday at the Community Center, sponsored by the Woodhull Lake Civic Association.

The film centers around a young married couple who decide to move from their city apartment to suburban living and investigate Waterford Township. The actors are area people who travel by water, land and air over the township.

The film took local photographic experts W. A. Nichols and H. C. Timney more than a year to produce, and is in full color. Also being shown will be "Break-Through," a full sound and color picture made by GMC Truck photographic department. It was chosen from a field of 600 entries by the Education Film Library Association as one of the top 10 educational movies made in the United States in 1959.

Natalie McCredy will be featured as a guest organist at the Hammond. Donations can be made at the Community Center entrance.

From Radar to Planes to Plants

Lease Everything Now, It Seems

SAN FRANCISCO (UPI) — A woman needed a \$250 postage meter for the correspondence of her small home business.

A group of businessmen needed a \$2 million electronics plant for the manufacture of radar, guided missile and satellite components. They either didn't have the money to buy what they needed or were unwilling to tie up capital and credit for it.

So they leased the equipment from the U.S. Leasing Corp. of San Francisco, a firm with a unique business concept it de-

scribes as the "credit card of industrial management."

It's simple, said the company's president, Richard J. Elkus. A company that must replace worn out equipment or needs more for expanding operations leases what it needs rather than buying it.

U. S. Leasing buys the machinery from the manufacturer, then leases it to the businessman, who repays the original cost plus interest during the calculated life expectancy of the equipment.

At the end of the leasing period, he can continue to lease at a nom-

inal rate about 2½ per cent interest — or buy the equipment at around 10 to 20 per cent of its original value.

"This releases capital for other investment, or expansion, or research, rather than having it tied up in equipment, the value of which rapidly decreases each year," Elkus said. "It's great for allowing new, struggling businesses to expand without putting themselves out of operation by having to meet large bank notes within 60 or 90 days."

The idea is catching on, and it's

amazing the different things people need, Elkus said. "We leased an old World War II P-38 for business and private use," he said.

"We lease oil drilling machinery, adding machines, automobiles, transmitters to radio stations, plus complete factories like the electronics plant in San Carlos, Cal."

"Businesses lease real estate, why not machinery?" he asks. "Paying wages to personnel is a form of leasing their services."

One source of business is large

corporations who lease electronic computers costing between a half and three-quarters of a million dollars.

"These rapidly become obsolete and leasing makes it easy for them to turn them in for new ones," Elkus said.

In drawing the credit card analogy, he said lease customers need good credit to participate and it allows them to operate without carrying a large amount of cash.

Explosives-Sale Law Is Signed

To Halt Youths Under 18 Buying Gunpowder Without Parents' OK

LANSING (AP) — A bill controlling sale of explosives to youths under 18 was signed into law by Gov. Swainson today. It will take effect 90 days after the legislature adjourns.

The measure prohibits sale of gunpowder, dynamite, blasting caps and other explosives to minors without the written con-

sent of a parent or guardian. Violation can bring a fine and jail term.

Other bills signed by the governor:

Change the name of the Boys' Vocational School at Lansing and Whitmore Lake to Boys' Training School.

Eliminate the requirement that townships must contain property having a state equalized valuation in excess of \$7.5 million before they can issue bonds to finance public improvements.

Allow a foreign corporation 60 instead of 30 days, to file amendments to its charter.

Repeat local acts creating 12 school districts, automatically placing them under provisions of the state school code.

Boy, Girl Scouts Clean Beach at Grand Haven

GRAND HAVEN (AP) — A year-long pre-season beach party today brings more than 200 boy and girl scouts to Grand Haven State Park on Lake Michigan in a cleanup project to ready the area for summer use.

Girl scouts will help serve hot dogs, soft drinks and ice cream provided by the Chamber of Commerce for the boy scouts who cover about one-half mile of beach to pick up winter debris.

Space Plans to Cost Dizzy Sums

By BOB CONSIDINE
WASHINGTON — The Kennedy administration will step up its spending in the space field, encouraged by the success of Project Mercury, the perfect first flying of the Minuteman intercontinental weapon, and less publicized triumphs such as the "five for five" record established by the solid-fuel space probe the U.S. Air Force calls Blue Scout.

The administration's decision will please most of those who have been calling upon our space people to close a double gap which has 1) endangered the security of the U.S. and the free world, and

2) tended to fracture our image overseas.

But it is going to cost money in what-kind lies. It is going to cost astronomical sums to build the new missiles and boosters and somewhat dizzying sums to prove that they will or will not be worth a flicker's dam in the gap-closing league.

At Cape Canaveral, for example, a 20,000-man Air Force-Army-Navy-civilian team now is engaged daily in working on the following weapons and space programs:

- * * *
- Polaris, Pershing (Army tactical missile), Redstone (ditto), Juno, Thor-Able, Thor-Delta, Jupiter, Blue Scout, Blue Scout Junior (designed to throw a stubby-capable 40,000 miles up), Mercury, Redstone, Atlas, Atlas-Centaur, Atlas-Agena, Atlas Research, Titan, Titan-Dyna-Soar, Saturn (to be the size of a 25-story building) and the buglike Little Mace, a beefed-up version of Hitler's V-1.
- * * *
- Canaveral — or the Air Force Missile Test Center, to give it its full name — cost about a billion dollars to construct and about a fourth of that a year to maintain. Ten years ago the place was occupied by a light-house keeper.
- * * *
- Now it swarms with workers, a fair majority of whom work in the body from which long arms of island bases and electronic legs reach out as far as Ascension Island, a British crown colony in the South Atlantic more than 5,000 miles from the cape.
- * * *
- The step-up encompasses both liquid and solid-propelled missiles. Apparently, we must continue to build the much more complex liquid-fuel types. They are at present a more advanced form of the

art, whatever their cantankerousness.

When they work, they can lift bigger loads more surely. If this country became engaged in an ICBM war between now and, say, 1963, we would have to depend on the liquid-fuel Atlas and Titan to do our slugging. Hence they must continue to be built.

Grand Haven Budget
GRAND HAVEN (AP) — The new city budget of \$955,383 is set for adoption next Monday by the Grand Haven City Council after a public hearing which drew only two citizens despite advance notice. The budget is \$13,747 less than last year.

Collect Centennial Coins on All Coasts of Nation

Have you collected your Centennial coins as souvenirs of the June 17-24 celebration?

Collectors in Florida, California and New England have.

"We've sent out souvenir coins in answer to requests from a number of collectors in various parts of the country," Centennial headquarters reported today.

The coins — a golden-bronze 50-cent piece and a wooden nickel — promise to become a popular item, according to Horace W. Lodge, chairman.

Not only are they of interest in themselves as curiosities, but they also are permanent mementos of a once-in-a-lifetime occasion, he said.

The coins are being distributed from Centennial headquarters and by a number of Pontiac retail stores as change on sales transactions. Stores distributing the coins have appropriate window signs.

Lodge expressed regret that the number of coins to be put into circulation is enough to provide

only about one-quarter of the Pontiac-area population with souvenirs. He said the coins can be purchased at face value and are available in limited quantities at headquarters for distribution to friends and relatives through the mails.

Long-Distance Dialing Ready at General Phone
MUSKEGON (U) — Direct-distance dial service for the \$2.519 Muskegon County patrons of General Telephone Co. goes into operation next Saturday, company President T. A. Saunders announced. Saunders said the new service marks the completion of a seven-year, \$8-million improvement and expansion program. General Telephone Co. is the state's largest independent telephone company.

Red Chinese Will Brainwash Buddhist Priests by Thousand

TOKYO (UPI) — Communist China soon will begin a massive political indoctrination program for thousands of Buddhist priests in Tibet.

According to the New China News Agency, in a report from the Tibetan capital of Lhasa, the program will, in effect, be an intensive brainwashing program designed to follow up the bloody suppression of the Tibetan revolt that forced the Dalai Lama to flee to exile in neighboring India.

The Panchen Lama, Red

China's puppet ruler of the Himalayan Buddhist kingdom, will be in charge of the program, the agency indicated.

The Panchen Lama only recently returned from his second extensive brainwashing tour of Red China's provincial areas in a year. He is chairman of the Chinese Communist party's so-called standing committee of the Preparatory Committee for the Tibet Autonomous Region.

He took the first step in initiating the indoctrination program at

a recent meeting of the committee, New China reported in a broadcast monitored here Sunday.

"Panchen Erdens (the Panchen Lama) suggested the forming of a group of lamas (priests) from all religious sects who had studied scriptures well and would devote themselves primarily to the study of the Buddhist scriptures and at the same time study politics, science and culture in general," the agency said.

"This, he added, 'would make

them experts in the preaching, debating and writing of religious theories as well as intellectuals with patriotic and progressive political ideas, armed with scientific and cultural knowledge."

Reduced to simple language, this means that the priests are going to be indoctrinated in Communist theory.

Approves Borrowing

The State Municipal Finance Commission has approved borrowings in anticipation of taxes for operating expenses in two area school districts.

The Troy district can borrow \$300,000 and the Rochester Community School District, \$50,000. Also okayed was the borrowing of \$5,000 by the City of Wixom for capital improvements.

Kelvinator to Join in French Company

DETROIT (AP) — Kelvinator International Corp. said Tuesday it will become a minority partner with Mark & Co. of Paris in a new manufacturing company in France.

Mark & Co. presently builds Kelvinator appliances under license. Kelvinator International is a wholly owned subsidiary of American Motors Co.

The new company, to be called Societe Mark-Kelvinator, will be formed June 30. George Romney, president of American Motors, said the move is being made to provide the French appliance company with capital for expansion.

Mrs. Rudolph to Stay With Mackinac Group

LANSING (AP) — The Senate has confirmed the appointment by Gov. Swanson of Mrs. Mariana B. Rudolph to the Mackinac Island State Park Commission.

She is chairman of the Mackinac Island County Social Welfare Board, vice president and former president of the island's historical society, a member of the library board of Mackinac Island and a member of the board of directors of the Michigan Welfare League.

She succeeds herself for a term expiring April 12, 1967. America's woodlands grow enough sawtimber every day to build 15,500 average one-family homes.

NLRB Dismisses Petition of Rebel UAW Local

DETROIT (U)—A petition filed by dissident United Auto Workers union members asking that the UAW be ousted as their bargaining agent was dismissed today by the National Labor Relations Board.

The petition, filed by rebel unionists at Chrysler Corp's Nine Mile press plant, asked the NLRB to hold an election to permit employees at the plant to vote on whether they wanted to retain the UAW as their bargaining agent or to affiliate with another union.

Both the UAW and Chrysler had filed petitions with the NLRB asking that the ouster petition be dismissed.

Seek Sabotage in Plane Crash

Craft Apparently Was Not High; Death Toll Is 78 in Sahara Wreck

ALGIERS (UPI)—A French airliner which crashed into the Sahara Desert Wednesday fell to earth from a comparatively low height, a report from the scene of the crash said today. French experts were checking possibility of sabotage in the tragedy.

All 78 persons aboard the Super Constellation, en route from Brazzaville to Paris, died in the crash. The victims included five members of an American diplomat's family.

French oil company executive Henri Markel, who visited the crash site today, told UPI by radio telephone that the plane apparently did not fall from a great height.

It exploded in flames on hitting the desert, he said, horribly mangled the bodies of all aboard and making identification of them difficult.

The cause of the crash has not been announced. An Air France spokesman said in Paris Wednesday that it was "unexplainable" and that the possibility of sabotage was being taken into account.

FAA to Crack Down

MIAMI BEACH (UPI)—The Federal Aviation Agency intends to crack down on airports which are neglecting safety practices, FAA Administrator Najeib E. Halaby said Wednesday.

Swainson to Get 2 'Hot Potatoes'

Controversial Bill on Real Estate Bias Sure to Receive Veto

LANSING (U)—Two of the most controversial bills in the legislature—dealing with unemployment compensation and real estate discrimination—were headed for the governor's desk today.

One was certain to be vetoed. Both measures passed their last legislative hurdle Wednesday when the Senate endorsed them, with most Republicans supporting them and most Democrats opposed.

Gov. Swainson told newsmen he would veto the bill pertaining to discrimination in real estate dealings because "it is repugnant to me." It would, in effect, repeal the so-called rule which forbids discrimination because of race, color or national origin.

The jobs benefits measure passed by a 15-12 vote, with majority Sen. John Stahlin, R-Bellingham, joining the Democrats in opposing it.

The measure would increase benefits lightly for some jobless workers, raise unemployment taxes by nearly \$30 million yearly and erase \$182 million in negative balances charged against firms with high unemployment records.

It also would overturn the effect of the State Supreme Court's controversial Ford-Canton decision which employers contend would force them to finance a strike against themselves in another state.

U.S. Launches 'Hire Now' Push for Idle Workers

WASHINGTON (UPI)—The government launched a nationwide "hire now" drive Wednesday, putting idle workers back to work through the public employment service.

Secretary of Labor Arthur J. Goldberg said 40 governors have pledged support and he expects the others to join in soon.

"This job drive," Goldberg said, "is a practical appeal to employers to step up their hiring in keeping with the rising levels of economic activity now underway."

Two Area Men Head GM Lab Departments

Appointment of two department heads at General Motors Research Laboratories, Warren, has been announced by Dr. Lawrence R. Hatstad, GM vice president in charge of research.

They are William F. King of 31781 Bellvue, Birmingham, who heads the newly formed Electro-Mechanics Department, and Donald E. Hart of 497 Old Perch Road, Rochester, head of Data Processing Department.

The two departments were formerly sections of Special Projects Department headed by Thomas C. Van Degrift, who recently retired.

King was born in Pontiac and attended parochial and public schools here and at Pittsfield, Mass. In 1936 he was employed by Fisher Body in Pontiac as a

cooperative student in the General Motors Institute.

In 1939 he joined GM research as a cooperative student and following GMI graduation in 1940 he continued at the University of Michigan where he received his B.S. in mechanical engineering.

Hart, a native of Ilion, N.Y., spent two years in the Army after graduation from Glen Falls, N.Y., High School. Following his discharge he entered Rensselaer Polytechnic Institute, receiving his bachelor of electrical engineering in 1949 and master of electrical engineering in 1950.

He joined GM research in 1950 as a college graduate in training and in 1951 began working on an automatic data processing project. He later assumed supervision of Data Processing Section which offers a complete computer service to GM.

Today's cars may have a dozen or more electric motors.

Detectives Probe Outbreak of Theft

Sheriff's detectives today were investigating a rash of thefts and burglaries reported in the county during the past 24 hours.

Harold Johnson of 430 Hillwood St., White Lake Township, reported that a house he is remodeling at 683 Hillwood St. was broken into night before last and a built-in oven and stove, worth \$300 were stolen.

Theft of skin-diving equipment valued at \$160 from a tool shed beside his home was reported yesterday by Chester Kling of 357 Massena St., Commerce Township.

Fifty young blue spruce trees worth an estimated \$250 were stolen from her property, according to Mrs. Robert Kurylo of 725 Wolfe Road, Brandon Township.

A 1-inch portable television set

worth \$129 was reported stolen from his cottage at 7303 Locklin Road in West Bloomfield Township yesterday by Arthur Kullis of Detroit.

Mrs. Estelle Neddi of 214 Cooklin Road, Orion Township, reported her house had been broken into and a radio, camera, five packs of cigarettes and a drink key were missing.

Ex-GE Vice President Gets Another Position

PHILADELPHIA (U)—William S. Ginn, former General Electric Co. vice president imprisoned for his part in the electrical industry price-fixing conspiracy, has been named assistant to the president of Baldwin-Livonia Hamilton Co.

Appointment of Ginn, 45, was announced today by the B.L.H. president, McClure Kelley. He said Ginn started with the company Monday at its suburban Eddy stone plant. His salary was not disclosed.

GOP Leaders Again Attack 3 Dem Bills

WASHINGTON (AP)—Congressional Republican leaders opened a new attack today on the Kennedy administration's farm, housing and aid-to-education bills.

Rep. Charles A. Halleck, R-Ind., House minority leader, said after a conference of House and Senate leaders:

1. There will not be "any tremendous Republican support" for the educational aid measure expected to be approved by the Senate Education Committee during the day.

2. The administration's housing bill "contains many expensive features that can not be justified."

3. There is a question in the minds of Republicans generally as to "the worth and value" of the administration's omnibus farm bill.

Believe U.S. Holding Survivors of Cuban Invasion

(Editor's Note—For 10 days after the invasion of Cuba, the U.S. Navy kept the survivors of the Cuban invasion incommunicado. The following account, based on a briefing by the U.S. Navy, sheds light on some of the problems in the disaster's aftermath.)

By BEN PRICE:
WASHINGTON (AP)—There is reason to believe that the United States is holding survivors of the Cuban invasion forces incommunicado-prisoners, if you will—on a Caribbean island.

And there is evidence that the U.S. troubles with communism in Central and South America are just beginning.

The first rumor about the U.S. held survivors of the invasion, some of whom reportedly are wounded, reached the U.S. naval base at Guantanamo Bay soon after the military effort collapsed.

The grapevine there is so efficient that reports of activities in Havana, 600 miles west, sometimes reach the base before they are broadcast by the Castro regime.

TALK OF ISLAND

Within hours after the grapevine report of U.S.-held survivors reached the base, the Castro captives from the abortive invasion—who were being interrogated in Havana on television—began talking of a particular island, Vieques.

They said they had been trained for the invasion at the U.S. Marine base at Vieques, which is just a 30-minute helicopter ride from San Juan, Puerto Rico.

While the rumor about the Vieques prisoners was seeping into Guantanamo, it was also circulating in San Juan and New York.

A Navy officer talked by radio to the naval station at San Juan, asking if newsmen wanting to check on the rumors could be admitted to Vieques.

The answer was that no one would be admitted to the base without special permission from Washington.

On the assumption that trainees bases are normally open to visitors, efforts were made to gain access to Vieques through the Central Intelligence Agency and the White House.

The CIA was noncommittal. White House spokesmen said it would not assist in the matter of entry.

While the Vieques operation was kept secret, the New York Times has reported the story of Dr. Rodolfo Nodal Tarafa, 27, a lawyer and member of the anti-Castro invasion forces.

HELD CAPTIVE:
Nodal said he and 16 other volunteers had been held captive at Guantanamo by CIA agents because they refused to serve in the invasion forces under a man they described as a murderer in the regime of dictator Fulgencio Batista.

The Washington Post reported these men were arrested as mutineers.

One consequence of the invasion flop apparently has been a great upsurge in Communist activities in Central and South America.

Early this month a chartered Cuban airliner landed at Kingston Jamaica, to refuel. Out stepped 35 Communists, including two women, who said they had departed from Recife, Brazil, for Havana.

They made no bones about the fact that they were going to Havana to learn how Fidel Castro carried Cuba into the Soviet Orbit.

At a post-Cuban invasion background briefing, a high Pentagon official said the United States could expect more revolutions and more Castro south of the border.

Other reflections in the invasion aftermath:

Did the Castro forces have Soviet-built MIG fighters aloft during the fighting? Assorted communiques from the anti-Castro groups made that assertion. But the best radar the Navy owns, including shipboard and airborne, has yet to detect the presence of high performance jet aircraft in Cuba.

During the invasion and for some time thereafter, the U.S. Navy had Navy ships and aircraft in the Cuban area.

Their presence was described by the Navy as routine. They had nothing to do with the Cuban danger, the Navy said.

There are roughly 2,000 Cubans working on the base and some of them make a pretty good pipeline to Castro.

On the assumption that trainees bases are normally open to visitors, efforts were made to gain access to Vieques through the Central Intelligence Agency and the White House.

Hospital Staff Keeps on Move

Pontiac State People Schedule Appearances in City, East Lansing

Staff members and volunteers at Pontiac State Hospital are on the move this week, appearing before audiences here and East Lansing.

Yesterday afternoon Jerome Breen, principal of Fairclawn School for Emotionally Disturbed Children at the hospital, spoke to the Carroll School Parent-Teacher Association on the topic, "The Emotionally Disturbed Child."

Tomorrow, the Pontiac State Hospital psychodrama demonstration team will be featured at the annual Michigan Association of Volunteer Bureau's spring luncheon meeting at the Kellogg

Center, Michigan State University.

Ted A. Panaretos, director of community relations, announces that the following hospital volunteers will assist him in the psychodrama presentation: Mrs. William Breen, Mrs. Dean Coffin, Mrs. William Slaughter, Mrs. Albert T. Olson, Mrs. R. C. Oglesby.

On May 16th the same psychodrama group will present their program for the B'nai B'rith, Tucker Chapter, Lakeland Volmer Hall, 15775 James Couzens Highway at 3 p.m.

Cooley Pleads Innocent

BAKERSFIELD, Calif. (UPI)—Retired western singer Spade Cooley stood in Superior Court Wednesday and in a clear voice pleaded innocent and innocent by reason of insanity to the fatal beating of his wife Ella Mae, 35.

Britain's smallest county, Clackmannanshire, covers only 35 square miles in central Scotland.

Foster Parents Aren't Too Old to Keep Twins

LOS ANGELES (AP)—Twins Brenda and Linda, two winsome waifs, will keep their foster parents—thanks to a judge's ruling that the couple isn't too old to adopt children.

Superior Court Judge Charles Loring Wednesday approved the petition of Mr. and Mrs. John Hyatt—and told them to begin formal adoption proceedings at once.

The ruling climaxed a long dispute over custody of the 4-year-old twins, who have been in four foster homes.

The County adoption Agency claimed the Hyatts—John is 30, Edna, 57—were too old to rear the girls properly. The Hyatts, who have another child, also adopted, have been caring for the twins since 1958—and the girls don't remember any other parents.

Further, any time the iron curtain countries want a good look at whatever portion of the U.S. fleet happens to be in Guantanamo, all they have to do is send a ship in.

The naval base is built around the outer bay of Guantanamo.

There is a Cuban-controlled inner bay and access to this bay by ships of any nation is guaranteed by treaty.

In the last month or two, a couple of iron curtain cargo ships have sailed right down the middle of the Guantanamo harbor.

ONLY 50,000 PENNIES — David Thurn, 26, former newspaper carrier boy, started saving pennies when he was 13 years old. In 13 years he saved 50,000 pennies when he turned in to a Jackson bank this week. The pennies weighed 684 pounds, 38 pounds to a bag. Miss Marjorie Palmer, teller was somewhat overwhelmed at the task of counting the pennies.

Average Male No Ball of Fire

**He's Good Family Man,
but Lacks Imagination,
Say Researchers**

CHICAGO (AP) — A composite portrait of the "well-adjusted, normal American male" was shown to American psychiatry today and his exhibitors didn't label him as any ball of fire.

On the positive side, they found him a good family man and happy in his job and station in life.

On the negative side, they found him apparently lacking in creativity, imagination and spontaneity.

The three researchers made an exhaustive search for the normal American male because psychiatry has no uniformly accepted standard for such individual.

Their composite portrait was presented at the annual meeting of the American Psychiatric Association.

The project began 12 years ago when personality tests were given to all ninth grade students attending public schools in Minneapolis.

From this group, the investigators selected 50 men, now between the ages of 25 and 26, who rated high on the original personality tests.

They were interviewed and their current adjustment, aspirations and mental status were appraised. Wives of 38 of the 40 married men in the group also were questioned and gave high evaluations of their husbands.

Shoddy Store Goods Raise Muscovites' Ire

LONDON (AP) — Indignant Muscovites flooded Pravda Wednesday with letters complaining about shoddy goods

sold in Russian stores, Moscow radio reported.

The newspaper printed an entire page of complaints about the quality of goods ranging from watches to furniture, the broadcast said.

Plan Equality on Liner

MOSCOW (AP) — Engineers have completed the blueprints for a 30,000-ton passenger liner to carry a thousand tourists. Tass, Soviet news agency, said Wednesday

principles "the ship will not be partitioned among first, second and third-class passengers."

Alaska's new court system uses electric tape recording machines instead of stenographers to take down courtroom testimony.

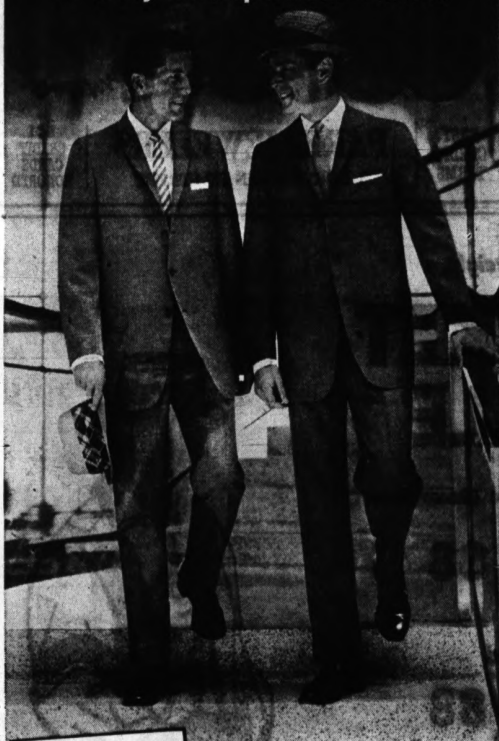

3 Con-Con Precincts Added at Grand Rapids

GRAND RAPIDS (AP) — Three new precincts in the annexed areas of Paris Township will bring the city's total to 126 precincts for the

state Con-Con election. The annexation takes effect June 30.

City Clerk R. Stanton Kilpatrick says boundaries of the new precincts will be determined after a check of 2,300 voter registrations transferred from the township Tuesday.

TWO CENTENNIALS—The numeral 100 signaled with their fingers by this grandmother-daughter-granddaughter combination has a double significance. Not only are they celebrating Pontiac's 100th anniversary with Centennial dresses and bonnets, but their combined ages will add up to 100 by the end of the year. From left are Mrs. Julius Kachinski, 156 Chippewa Drive, who will be 58 soon; her daughter Mrs. Charles Austin, 725 Kenilworth St., who will be 36; and Charlene Austin, who will be 6.

1964 Odds Against Nixon —but He's Eager to Run

Editor's Note: Starting in November 1964 and continuing through the presidential campaign, Arthur Edson of the AP Washington staff made periodic trips with Richard M. Nixon to the White House to report on political events. This past week Edson was in Detroit. Here is his report.

By ARTHUR EDSON
COLUMBUS, Ohio (AP)—Any one who traveled with Richard M. Nixon this week, who listened to his speeches, his news conferences, his informal conversations, would have to reach but one conclusion:
The man who came so close to winning the presidency from John F. Kennedy would certainly like another crack at it.
But this conclusion has to be hastily followed with qualifying footnotes.

As a political realist, Nixon knows the political odds are heavy against him.
One of his great political charms before his nomination was that he had never been beaten. Furthermore, he could speak as vice president, and the many chores President Eisenhower passed along to him kept him in the public eye.

Now he's out of office. He has a Republican party in which one wing would like to swing a little more to the right and the other would like to veer a bit to the left of the stands Nixon has taken. His influence, as he himself has said, is limited pretty much to whether what he says makes sense, a commodity usually not influential in political circles.

'FUTURE BEHIND ME'
As he said in a Des Moines news conference, "As far as my political future is concerned, I think it's behind me."
Yet hope springs eternal, especially in the breasts of ambitious politicians.

And Nixon, heading today toward his Los Angeles law practice, must look back on his visits to New York, Illinois, Iowa, Michigan and Ohio and find considerable grounds for hope.

Crowds were large and enthusiastic.
Republican leaders sought him out.
At times it was possible to think that Nov. 8 hadn't happened, and that he was still shaking every shrub in an effort to flush out a few extra votes.
Little things, for example,

"My, those children are just lovely, just like dolls."

At a \$10-a-plate fund raising dinner Wednesday night young Republicans marched in with Nixon on signs that read: "We'll do more in '64."

But if the similarities are great, the differences are greater.

Once he traveled with a staff that grew into a small army during the campaign.
On this trip, made mostly by ordinary commercial airlines, he was accompanied only by his dedicated secretary, Mary Rose Woods, and by a young Cincinnati lawyer, Sherman Unger, who was an advance man during the campaign and who took time off to help him again.

Where he once had help in writing in speeches, in arranging details so that everything meshed, in fending off autograph hunters, he now has to do much of the work himself.

"This," he told a friend, "is really harder than campaigning."

Fire Damage for City Down in Last Month

Fire damage in Pontiac last month totaled \$8,200, down from \$10,180 in March.

There were no fatalities or injuries from fire either month.

For capita, the fire department reported Pontiac lost 11 cents in April.

Firemen in April answered 172 alarms, of which 78 were to fires, down from 154 in March.

There were 22 fires in buildings, 27 great and brush, 1 rubbish, 10 miscellaneous, and eight in motor vehicles.

Of the other 94 alarms, 56 were rescue and emergency runs, 16 were false alarms. There were 22 investigations.

The department made 270 inspections in April, down from 297 the previous month.

The River Taw at Barnstable in Devon, England, is crossed by a 12th century stone arch bridge.

Dallas E. Winslow Buried in Holly

Service for former Pontiac resident Dallas E. Winslow, president of the Mast-Foot Manufacturing Co., Detroit, was held this afternoon at the Algo-Gundry Funeral Home in Flint. Burial was in the Lakeside Cemetery, Holly.

Among his other interests, Winslow, bought up the repair business of discontinued car models, and held the dies and patents for some 25 brands that went out of production.

Born in Holly 67 years ago, he ran a filling station and dealt in used cars on South Saginaw Street in Pontiac about 41 years ago. His father, the late Alex Winslow, was in partnership with him.

Without funds to enter business here, the Winslows borrowed \$100 from the late J. L. Marocco. That \$100 note, marked "paid," was President's birthplace. Pizer said he is considering buying Kennedy a rocker made by his union's workers.

Union President Wants Kennedy Off His Rocker

Mr. Winslow died Thursday in Henry Ford Hospital, Detroit.

Morris Pizer, national president of the United Furniture Workers says that President Kennedy's famed rocking chair is not union made.

NEW YORK (AP)—The head of the United Furniture Workers says that President Kennedy's famed rocking chair is not union made.

And Nixon, heading today toward his Los Angeles law practice, must look back on his visits to New York, Illinois, Iowa, Michigan and Ohio and find considerable grounds for hope.

Crowds were large and enthusiastic.
Republican leaders sought him out.

Winter Wheat Booms Along

Promises to Build Up Already Huge Surplus of Bread Grain

WASHINGTON (UPI)—The 1961 winter wheat crop is booming along normally and gives promise of adding substantially to the already huge surplus stock of the bread grain.

The Agriculture Department's May crop summary Wednesday estimated the fall-planted crop at 1,095,697,000 bushels. This is barely 5 million bushels under the April forecast, but 61 million bushels above the Dec. 1 estimate.

It is 2 per cent less than last year but 30 per cent above average. If the anticipated crop materializes, it will be the third largest of record.

A crop the size of the May 1 forecast means a total crop of 1,323,967,000 bushels will be produced. This assumes a spring crop of about 228 million bushels.

The wheat carryover on July 1 has been estimated at 1,655,000,000 bushels. If the total crop is realized, the carryover, or surplus, on July 1, 1965, will be around 1,375,000,000 bushels.

Irish Free State adopted the name of Eire in 1937.

Sandburg School to Be Dedicated This Evening

Ceremonies for dedication of the Carl Sandburg School will get under way at 7:30 tonight, and the public has been invited to attend, according to the principal Mrs. Katherine Barker.

The one-story brick building is located at 1355 Merry Road just west of Pontiac Lake Road.

Tonight's program will begin with an invocation by Rev. William LaFontaine, who will be introduced by master of ceremonies Sheldon Covert. The Sandburg Chorus made up of fifth and sixth graders will present several numbers under the direction of Mrs. Carol Stevens.

School Board President Eldon Rosegaur will make the dedication to the school's PTA president, Mrs. Robert Walter, who will present the school to Mrs. Barker.

Sixth grade teacher Vernon Burris will present a biographical report on Carl Sandburg, and Sup. of Schools William A. Stuck will give a short address.

The school chorus will again present vocal numbers and Rev. Henry Wrobel will give the benediction.

Lodge Visiting U.A.R.
CAIRO (AP)—The former U.S. ambassador to the United Nations, Henry Cabot Lodge, arrived Wednesday for a week's visit to the United Arab Republic.

FCC Head's Attack on TV Leaves Air of Suspense

WASHINGTON (AP)—The television industry and the Federal Communications Commission today squared away for a new sort of suspenseful TV quiz which might be titled, "What comes next?"

That was the big question as delegates scattered from the 38th annual convention of the National Association of Broadcasters, which produced a major government assault on television program content.

In two convention appearances, Newton N. Minow, 35, the new commission chairman, hammered away at the theme of better programming for the American public and shook the big stick of FCC's power to deny license renewals for broadcasting stations.

The FCC grants license renewals on a showing that a station has been operated "in the public interest."

NO REFUSALS

The commission never has refused a renewal for a TV station on the basis of program content. However, using a relatively new power granted by Congress last year, it recently has put some radio outlets on "short term licenses," that is, for less than the usual three years, pending further

observation of the stations' operations.

Speaking as FCC's head man and also as a "television viewer and the husband and father of other television viewers," Minow said a great many TV programs are "eminently worthwhile."

But he condemned what he described as "a procession of game shows, violence, audience participation shows, formula comedies about totally unbelievable families, blood and thunder, mayhem, sadism, murder, western badmen, western good men, private eyes, gangsters, more violence, and cartoons."

"And, endlessly, commercials—many screaming, cajoling and offending," he said. "And most of all, boredom."

His listeners in the TV field appeared aghast at his description of what most industry leaders consider a very good product. But nearly all elected not to jump into a personal dispute with the FCC chairman, and so reserved comment.

AP Photofax

SHE SPURNS HIS WHISKERS—Scores of sailors were greeted with kisses and hugs when their Seattle-based Navy icebreaker Staten Island returned to Puget Sound after months in the Antarctic. But PO I.C. Bert Rucker of Bremerton, Wash., gets pushed away as he tries to kiss his wife Ruby. She was heard to say a more endearing greeting might be his after he gets close to a razor.

State Entered Civil War a Hundred Years Ago

LANSING (AP)—Michigan's legislature was as busy 100 years ago as it is today—making history by legalizing the state's entry on the Union side of the Civil War.

Gov. Austin Blair called a special session held between May 1 and 10, 1861. The session legalized Blair's action obtaining private loans on his own repayment promise to start raising troops.

years), Ethel Bigler (17 years) and Flora Ostrander (19 years). The lapel pin awards were presented at a 10th annual dinner for employees held at the Waldron Hotel Tuesday evening.

Airlines Ask for Tax Relief

Plead Poverty, Oppose JFK's Plan to Extend Aviation Gas Levy

WASHINGTON (UPI) — The airlines pleaded poverty and asked for tax relief today in opposing President Kennedy's proposal to extend the aviation gasoline tax to jet fuels.

The opposing views, presented before the House Ways & Means Committee were voiced by James T. Pyle, deputy administrator of the Federal Aviation Agency, and Stuart G. Tipton, president of the Air Transport Association of America.

The administration's argument by Pyle: "Aviation is no longer an infant" and should be required to pay a greater share of the cost of the federal service; the tax proposed by the President, if passed on to consumers, would in the first year add only 1 per cent to the cost of airline tickets.

Tipton's reply: "Airlines are a financially stricken industry" which made a profit of only two cents on the average domestic air fare of \$36.23 last year.

Instead of levying higher taxes, Congress should repeal the 10 per cent federal tax on passenger tickets to give the industry a needed lift.

The travel tax is scheduled to expire July 1. The committee is considering Kennedy's request that it be extended for another year.

Placed on Probation for Misapplication

DETROIT (AP) — R. J. McDonald, who was discharged as an assistant vice president of the People's Savings Bank of Port Huron on charges of misapplying \$13,012, was placed on two years probation Wednesday by U.S. District Judge Thomas P. Thornton. McDonald was charged with misapplying the money from September 1957, to December 1960, when he was discharged.

He repaid the bank the full amount as well as an additional \$2,720 not mentioned in the formal charges.

McDonald pleaded guilty to the charges last March.

More than one hundred billion pounds of milk is consumed in the U.S. yearly.

Soviet Dentist Admits U.S. Type Less Painful

NEW YORK (AP) — Shudder when you go to a dentist? You'd quake a lot more if you were in the Soviet Union, says a touring Soviet dentist.

Dr. Aleksei Ivanovich Dolnikov of the Moscow Stomatological Institute said that American dentistry hurts less than the Soviet variety.

He attributed this to what he called an American drive "to remove the stigma of pain"—so the public would be more willing to go to the dentist.

Dolnikov is one of the five Soviet dentists touring the United States under a cultural exchange program.

Hearing in Shootings to Resume Monday

ALLEGAN (AP) — Probate Judge Harold Weston today set Monday for resumption of a closed hearing on a petition citing James Stephen, 16, of rural Holland into his court as a juvenile delinquent.

Judge Weston set the date after receipt of reports from a psychiatric examination of the youth who is held at Allegan County Jail in connection with the April 29 gunbot deaths of two young girls.

Results of the examination last Monday night were not disclosed.

The victims, 11-year-old Carol Gee and Margaret Chambers, 12, were cut down in their Lake Michigan dunes playground west of Holland by a total of at least 12 bullets from a 22-caliber rifle. In statements to police and a note to his mother, the youth claimed the shootings were accidental. He was returned to the Allegan Jail.

Eruption Kills 1, Hurts 5

JAKARTA, Indonesia (AP) — An eruption of the Merapi Volcano in Central Java Monday killed one person, injured five others and drove some 30,000 persons from their homes, reports reaching here today.

TEACHER TREASURER — Carl J. Megel (left), president of the American Federation of Teachers, congratulates Robert C. Cook of 3825 Shouls, Drayton Plains, on his election as treasurer of the Michigan Federation of Teachers. Cook, a government and economics teacher at Royal Oak's Dondoro High School, takes over his new duties July 1. He holds two degrees from Central Michigan University.

Rabbitt Holds Sparrow; Once He Caught a Hare

MILWAUKEE — James Rabbitt, who once caught a Hare, has taken a Sparrow into custody.

Rabbitt is a Milwaukee depart-

ment store detective. He testified that Charles O. Sparrow Jr., stole a sweater and then tried to get the money back by demanding a refund.

The Hare? Rabbitt also once collared a man by that name.

Waterford Building Hits Record

Construction work in Waterford Township soared to an all-time high of almost \$2½ million for a one-month period, according to reports in the building department.

April's total of \$2,443,740 in building permits issued more than tripled last year's figure of \$760,065 for the same month. Permits for the first four months total \$3,335,000, nearly double last year's \$1,785,064 for the same period.

One of the largest shopping centers in the township, now under construction on Telegraph and Elizabeth Lake roads, was responsible for a large portion of the total permits issued.

A new Montgomery Ward store is the first in a series of stores to be constructed in the township. A permit for \$750,000 was issued to the Aaron H. Gershenson & Wine-man Co. of Detroit for construction of the building. However, this does not include electrical, plumbing and heating work or any equipment and fixtures.

The same company was issued a permit to build a \$785,000 enclosed concrete and steel mall. It will be 33 feet high, with 480-foot frontage and 385-foot depth.

The shopping center will be situated on 45 acres of land facing

Telegraph Road. (The township received \$800 in fees for this permit.)

PLAN BOWLING ALLEY

A new \$300,000 bowling alley, featuring a cocktail lounge and banquet rooms, will be constructed at 100 S. Cass Lake Road, according to the owner, Joseph Puritas. A permit for another airplane hangar at the Pontiac City Airport was issued to Michael Lukow of the Michigan Aviation Co. The \$48,824

Book Will Air Newberg Rift

G. P. Putnam's Sons to Publish His Side in Aug. 1962 Volume

Publishing rights to the story of William C. Newberg's now famous controversy with Chrysler Corp. have been contracted for by G. P. Putnam's Sons, New York.

The book, titled "My Sixty Days as President of Chrysler," is being written by Newberg, of 1411 Kirkway, Bloomfield Hills, in collaboration with Phil A. Koury, author of the recent best seller, "Yes, Mr. DeMille."

Publication is planned for August 1962, or earlier if circumstances allow.

The 49-year-old Newberg stepped to the presidency in 27 years with Chrysler. His resignation last June came after only 60 days as president on charges by Chrysler that his interest in two supplier firms conflicted with his position with the company.

His petition alleges "Colbert conspired to destroy Newberg professionally and thereby eliminate him as a threat to Colbert's continuation as Chrysler's chief executive."

The petition also names prominent Chrysler directors as "co-conspirators."

Several stockholder suits against Chrysler followed the Newberg action. They centered industry's attention on conflict-of-interest situations generally, and prompted Congressional leaders to disclose plans for one, possibly two, inquiries into the over-all subject.

Since leaving Chrysler, Newberg, a graduate engineer from the University of Washington, has been a consultant for Detroit Broach and Machine Co. of Rochester.

Later, Newberg filed a \$5.25 million personal damages suit against L. L. (Tex) Colbert, of 491 Martell Drive, Bloomfield Hills, Chrysler president and board chairman.

Father Makes Mistake but Understandably So

FARMERS BRANCH, Tex. — Glenn A. Norberg, 31, kept dialing a certain number for help but it was always busy.

So he delivered his wife's baby girl by himself.

So he discovered the reason the number was always busy. He kept dialing his own number, by mistake.

Albert Michelson, the American physicist who died in 1931, was the first United States scientist to win the Nobel Prize for Physics in 1907.

Served the Purpose

HUGO, Okla. — Two men accused Mrs. Idell Hallman as she drove along a highway. They crowded her car off the road and

tried to rob her. She pulled a huge pistol and they fled. The gun was a toy she was taking to a nephew.

French inventor de Chardonnet produced the first successful rayon in 1889.

Liked Heavy Subjects

ARDMORE, Okla. — All that was taken in a book store robbery, apparently by a thief who likes to read, was a \$40 dictionary weighing 25 pounds.

Daughters Give Mom Time Off

By JANET ODELL
Pontiac Press Home Editor

Too many cooks may spoil the broth, but twin cooks make cooking more fun. Carolyn and Cynthia Carr, 12-year-old twin daughters of the Carl Carrs who live at Williams Lake, have been cooking since kindergarten days. They're a real help to their mother.

In fact, they're so much of a help that Mrs. Carr feels queer if the twins are away for a weekend and she has to do all the cooking and baking. She'll be completely lost when they go off to college.

When the picture with this article was taken, Carolyn was supervising the making of a molded salad, while Cynthia had bread rising. They made a chocolate cake later on. Company was coming for dinner and the girls were just doing what they usually do.

Such prowess in the kitchen does not come about by accident. Preceding it are hours of experimentation when Mother has to put up with spoiled food and messy kitchens. But any mother who has done this will assure you that the results are worth it.

Not only will you have valuable help with your cooking, but your dining room will grow up loving to cook. Isn't that rather desirable if they are to be homemakers themselves?

Cynthia is so fascinated with bread making that she makes it weekly. Here is her recipe: This will make 2 loaves or 1 loaf and 12 dinner rolls and 12 cinnamon rolls.

WHITE BREAD

By Carolyn Carr

1 package yeast
1 cup warm water
2 eggs
1 cup shortening
1 tablespoon salt
1 cup sugar
1 cup oil
1 cup milk

Dissolve yeast in water. Add shortening, sugar and salt to cold milk and let cool to lukewarm. Combine two mixtures. Beat in flour, kneading in last cup or so. Knead until smooth and elastic.

Place in greased bowl; turn over to greased side. Let rise in warm place until double—about 1 hour. Turn out on floured board. Shape into 2 loaves or 1 loaf and 12 dinner rolls. Bake in 350 degree oven for 20 minutes.

Bake bread at 400 degrees for 10 minutes; reduce heat to 375 and bake another 30-40 minutes, or until done. Or bake bread and rolls at 375 degrees, taking rolls out when they are brown.

To make cinnamon rolls: roll out 1/4 of the dough into a rectangle. Spread with softened butter and sprinkle generously with sugar and cinnamon. Roll up like a jelly roll and slice with a sharp knife or a piece of string. Place in greased pan and let rise until double.

Carolyn's salad is a recipe she got from her grandmother, then improved on.

PINEAPPLE CREAM MOLDED SALAD

By Carolyn Carr

1 package cream gelatin
1/2 cup chicken broth
1 cup miniature marshmallows
1 cup crushed pineapple, drained
1 cup boiling water

Dissolve gelatin in hot water. Add marshmallows and cream cheese and stir until dissolved. Add enough water to drained pineapple juice to make a second cup of liquid. Add to first mixture.

Pour into small mold and chill. The mixture will separate into 2 layers. Serve on lettuce. Serves 4-6.

You may be sure the Carr

twins will be making something special for Mother's Day this Sunday. Perhaps they'll invent a new recipe this time.

They might even want to try the following recipe for fancy little donuts made with refrigerator biscuits. But if we know anything about Carolyn and Cynthia, they'll make up their own biscuits!

WHITE DONUTS

1 pound can shortening
2 ounce package refrigerator biscuits

Spoon shortening into a saucepan. Heat to 365 degrees. When shortening is melted, pan should not be more than two-thirds full. Remove prepared refrigerator biscuits from tube.

Cut holes from centers of some biscuits, using doughnut cutter. Cut some of the biscuits into three equal pieces. Roll each piece into a strip about 1/4 inch long. Flatten the three strips, pinching them together at the bottom. Cut the remaining biscuits in half. Flatten out a few of the halves into circles. Cut into the circle, halfway to the center, at four equal points to form a flower.

Roll the remaining halves into pieces 6 to 8 inches long. Twist ends of some of the strips in opposite directions. Double and pinch end. With some strips twist again. To make a "snail" roll a strip jelly roll fashion and curve each end in a different direction and pinch to the center of the strip to form a figure-eight. Other strips can simply be tied in knots.

Slip donut, holes, flowers, twists, braids, snails, figure-eights and knots into the hot fat a few at a time. Turn once. Total frying time, about 3 minutes. Lift golden donuts from fat with a slotted spoon. Drain. Serve warm. Makes 18-20.

Orange Frosting

1 tablespoon shortening
1/4 cup oil
1/2 cup powdered sugar
1 tablespoon grated orange rind
1 tablespoon orange juice
1 teaspoon lemon juice

Cream shortening and 1 cup sugar until fluffy. Stir in orange rind and juice. Add remaining sugar until frosting is proper consistency to spread.

TWIN COOKS — Carolyn and Cynthia Carr of Williams Lake work together on a molded salad. These 12-year-old girls have been cooking since they were 5. Each has her own specialty. Cynthia

had her bread rising so she could lend a hand with her sister's salad. This is a scene which should be duplicated in many homes this coming Sunday—Mother's Day.

Braised Celery Is an Oven Dish

So why not include some of this celery on your shopping list, it's so reasonably priced. But make good use of all the celery you buy, and treat it right to enjoy it most.

Treating celery right — if you're going to serve raw celery—means making sure it's crisp. Separate the stalks and wash them ahead of time, and then put them back in the refrigerator to crisp up.

The coarser, outer stalks of braised celery can be used for soups, such as creamed celery or cream of celery soup, for example. You can stew some of

this celery with canned tomatoes for an appetizing dish, or serve it prepared by cooking it in meat drippings.

To prepare the braised dish in a shallow baking dish. Pour in hot gravy made with the meat drippings and water and enough flour to thicken the mixture. Cover and bake in a moderate oven until the celery is tender. During the last 15 minutes, take the cover off and let the gravy cook down and brown slightly.

Fried Onions Rise to New Status in Cheese Sauce

These blue cheese smothered onions are for educated palates: Fry 2 cups thinly sliced onions in butter over medium heat until lightly browned. Sprinkle 2 tablespoons flour over onions. Add about 1 cup of coffee celery is tender. During the last 15 minutes, take the cover off and let the gravy cook down and brown slightly.

American blue cheese on top and cook slowly for 2 minutes.

Dried Eggs Do Scramble Well

Scrambled eggs can taste mighty good when they are made from the dried eggs which are part of the food distribution program of the United States Department of Agriculture. One cup of the golden yellow powdered egg plus one cup of water is equal to six eggs in the shell.

To make scrambled eggs from dried eggs, pour a cup of water in a pan and sprinkle one cup of dried eggs over the water then stir with a spoon or beater until the eggs and water are mixed. When this is done, it's just like having six eggs broken and beaten, ready for scrambling.

Some people like to add a little milk to scrambled eggs. You can get about the same results by adding two tablespoons of dried skim milk and another half cup of water to the eggs, and stirring up the whole mixture.

If you like to add salt to your scrambled eggs before cooking, about a half teaspoon of salt may be about right, although some people prefer more and others prefer less.

From here on, scramble eggs just as though they were fresh eggs broken out of the shell. Melt some fat in a frying pan and keep the heat rather low. Pour in the egg mixture and stir all the time until the eggs are as dry as you like them.

The Department of Agriculture cooks say it's best to scramble no more than 6 eggs at a time. If you have to serve more people, scramble another batch of eggs.

Instead of Water

To give muffins a new and fruity quality, try this simple little hint. When the mixing directions on the usual 14-ounce package specify the addition of 1 1/4 cups water, simply add 2 cups of mashed ripe bananas instead of the water.

Blue Cheese Adds Zest to Stroganoff

Hamburger stroganoff, that elegant but easy main dish beloved of younger cooks and working girls, assumes a subtly different flavor when tangy American blue cheese is added to it.

Blue cheese is combined with dairy sour cream, in this instance, which is then blended into a ground beef mixture. The resulting entree is tantalizingly pungent due to the creamy, blue-marbled cheese.

Serve this party delicacy from a

chafing dish, if you wish, on hot, buttered noodles.

Blue Cheese Beef Stroganoff
Add 2 tablespoons instant onion, 1 clove garlic, minced, to 1/2 cup of butter in chafing dish. Cook over low heat until butter melts. Add 1 pound of ground beef and brown well. Season with salt and pepper. Blend in a tablespoonful of flour. Add one 10 1/2-ounce can of cream of mushroom soup. Simmer about 15 minutes.

Meanwhile crumble 1/2 cup American blue cheese into 1 cup dairy sour cream. Stir into meat mixture. Heat through on low heat. Serve at once.

Georgia and Vermont top the U.S. in marble quarrying.

Center Core Filled With Goodies

A fillip for grapefruit!

Stuffed Grapefruit

1 grapefruit
1 tablespoon honey
1 tablespoon light raisins (rinsed in hot water and drained)
1 tablespoon finely ground apricot preserved or crystallized ginger
1 tablespoon finely chopped pecans

Cut grapefruit in half; cut around sections to loosen from dividing membranes and remove center seeds or membranes in plug shape. Fill centers with honey, raisins, ginger and pecans. Makes 6 servings.

Black Bean Soup Plus

Stir a can of condensed black bean soup until smooth. Add a can of condensed cornmeal, 1 soup can water and 1 to 2 teaspoons sherry (if desired). Heat, stirring now and then. Garnish with lemon slices or sour cream before serving to 4. This makes a nice dinner appetizer served in the living room.

Two Kinds of Cereal Play Role in Brunch

Brunch is a wonderful time of day to entertain. It gives the guests time for a few extra winks. It gives the hostess more time than she would have had to prepare a breakfast, but the menu can be less elaborate than for luncheon. In addition, it makes for one meal preparation instead of two.

Here are two recipes ideally suited for a brunch menu. The Brunch Cereal Casserole combines hot whole wheat cereal, bran, cheese, and Canadian bacon into a most delicious casserole.

It is easy to prepare and could be held for a reasonable length of time to accommodate latecomers. Cereals, when used as an ingredient in recipes, make a ke contribution of protein, important B vitamins, essential minerals, and food energy.

The Quick Cereal Kolachy makes a most unique hot bread. Tender, rich biscuit dough is cov-

ered with crisp cereal flakes, then topped with jam filling. The crispness of the flakes, with the richness of the dough and the sweetness of the jam make a wonderful combination of textures and flavors.

The only trick in making them is to transfer them to a baking sheet by using a small pancake turner. Be sure to serve them piping hot to have them at the peak of perfection.

Brunch Cereal Casserole

1 1/2 cups milk
1/4 teaspoon salt
1/2 cup hot whole wheat cereal, instant
1/2 cup whole bran cereal
1/2 cup cottage cheese
1/2 cup shredded Cheddar cheese
6 slices 1/4-inch thick fully-cooked Canadian bacon, cut in half

Scald milk and salt. Stir in cereal slowly and cook as directed on package. Blend in cottage and whole bran cereal. Spread hot cereal over bottom of a 1 1/2-quart shallow baking dish (10 x 6 x 1 1/2 inches). Sprinkle with cheese.

Arrange two rows of bacon slices on top of cheese, pressing cut edge of bacon into cereal. Bake in a moderate oven (350 degrees) until heated, 15 to 20 minutes. Yield: 4 servings.

2 1/2 cups prepared biscuit mix
1/4 cup melted and cooled butter, margarine or oil
1 cup milk
1 cup whole wheat flakes or corn flakes
1/2 cup thick orange marmalade, plum jam, or raspberry preserves

Combine biscuit mix, sugar, and butter or margarine in mixing bowl. Add milk, all at once, and stir just until dry ingredients are moistened. Allow to stand 2 or 3 minutes.

Spread cereal flakes out onto a large flat pan. Drop rounded tablespoons of dough onto flakes, one at a time. Sprinkle flakes over top. Transfer to greased baking sheet with a small pancake turner. Press a cavity in center of dough

and fill with thick marmalade, preserves, or jam. Repeat until all dough is used. Bake until done and lightly browned in a moderate oven (375 degrees), 12 to 15 minutes. Serve warm, plain or with butter. Yield: 12 rolls.

Berry Ice Cream Sauce Is Cornstarch Thickened

Use fresh strawberries to sauce ice cream. Combine 1/4 cup sugar and 2 teaspoons cornstarch in saucepan. Blend in 1/4 cup cold water, 1/2 cup sliced strawberries. Cook over low heat, stirring constantly until mixture boils. Boil for 3 minutes.

Remove from heat; add 1 tablespoon butter, few drops of red food coloring. Cool, then stir in 1 1/2 cups sliced fresh strawberries.

On a year-round average, a tablespoon of butter supplies 400 International Units of vitamin A.

Use Cooked Potatoes in Little Omelets

Little potato omelets make good use of leftover cooked potatoes. The recipe is for an individual serving although it may be stretched to serve two.

Potato Omelet

1/4 teaspoon olive or salad oil
1 tablespoon chopped onion
1/2 teaspoon dried onion powder
1/4 teaspoon salt or salt to taste
1/2 teaspoon ground black pepper
2 eggs

Heat oil in a 5-inch skillet (measured across the bottom). Add onion and potatoes and cook until onions are limp and transparent. Add salt and ground black pepper to eggs and beat until mixed and fairly frothy. Pour in skillet over potatoes. Cook over very low heat.

As the mixture sets at the edges, gently pull edges toward center with a fork and tip pan so that uncooked mixture flows under the cooked portion. Do not let it brown. Turn off heat the last few seconds. Fold over and split onto a platter. Garnish with paprika.

Standby Slaw Gets a Lift With Cheese

The carrot raisin slaw that was standard lunchroom fare when many of us were in school, still is a delicious healthful salad.

Today, though, it often has a bit of cheese folded into it, giving it a nourishing protein lift. American blue cheese — one of the zestiest flavored cheeses — is an excellent choice for this slightly sweet vegetable fruit combination.

It contributes a pleasing "bite" to the crisp mixture, not to mention the extra amounts of protein, calcium and phosphorus it provides.

This is a family type salad to remember for dinner when the meal seems a bit skimpy.

blended American blue cheese. Stir the dressing into carrots and raisins, tossing lightly. Serve in lettuce cups.

Michigan's Sausage Law Strictest in United States

Did you know that Michigan's sausage law is the most strict in the nation—maybe even the world? It allows only selected meats; no organ meats such as heart, tongue and liver, and a minimum of fats and fillers. Our Michigan Department of Agriculture inspectors get good compliance from the sausage manufacturers.

And, the Michigan Grade A sausage must taste better—for the proof lies in the figures. Michigan has the highest per capita consumption of sausage in the United States.

Mothers will be surprised how much more milk children will drink if a few cubes of frozen milk from the ice tray are placed in a glass of milk.

Pork and Chicken Share Help Celebrate Honors for Mother's Day Raisin Week

The meat selection for Mother's Day should be easy remarks the Marketing Information Agent, Mrs. Josephine Lawler. If the family's favorite main course is pork, poultry or beef, your selection may be among the featured cuts of the week. Retailers report that whole-edge meat prices are about as they have been or slightly lower in some instances.

If the family enjoys pork chops or fresh pork loin roast this is a good time to invest. As you know, the pork loin is usually divided into three parts: the rib-end roast, center cut pork chops and the loin-end roast. If you wish, any part or

It's Old-Time Rice Pudding

Many delicious dishes, full of food energy, can be prepared from the rice that is going to families receiving food donated by the U.S. Department of Agriculture and distributed through the local welfare agency.

Rice, like other cereals, can be used in all family meals—breakfast, lunch and dinner. White rice contains a small amount of good quality protein and some minerals and vitamins. When rice is used, it should be served with foods that supply the nutritive value rice lacks — with eggs, meat, fish, poultry, milk, cheese, fruits or vegetables.

"One delicious dish suggested by home economists of the U.S. Department of Agriculture is Creamy Rice Pudding, prepared in this manner:

- Combine 1/4 cup of uncooked rice and 1 quart hot milk. Place the mixture in a greased baking dish. Bake covered at 350 degrees for 1 hour, stirring 4 times.
- Combine 1/4 cup sugar, 1/4 teaspoon salt and 1/4 teaspoon nutmeg. Stir into rice mixture with 1/4 cup raisins and 1/4 teaspoon vanilla. Bake mixture uncovered 1 1/2 hours under glass. At present, lack of sunshine is slowing the greenhouse supply and price is high.

Cheese Potatoes Deluxe

Turn those marvelous creamed new potatoes you're serving this spring into blue cheese potatoe deluxe. Just prepare a medium cream sauce for cooked potatoes and stir in about 1/4 cup crumbled

American blue cheese to a cup of the sauce. Heat till cheese begins to melt. Stir sauce into warm potatoes and add a fleck of minced chives.

About 4 per cent of Brazil's people are over age 60.

Breakfast Tempter

Where Canadian Scramble tops the table, not a breakfaster will be missing. This dish features popular favorites — enriched buttered toast, topped with 2 slices of cooked Canadian bacon, a scrambled egg, and a zippy sauce (condensed cream of tomato soup, a generous measure of grated American cheese, and a sauce, heated and stirred until cheese is melted.)

The cardinal is the state bird of eight states.

Fingerprint Expert Dies

Tech Center Spawns GM Ideas for Future

By BEN PHLEGAR
AP Automotive Writer
DETROIT—The late C. F. Kettering, inventive genius who started General Motors on the road to research, once said "every one should be interested in the future because there's where we are going to spend the rest of our lives."

Kettering developed his self-starter 50 years ago in the haymow of a barn at Dayton, Ohio. Today, and for the past five years, GM research into the future has been based in the campus-like atmosphere of the General Motors Technical Center at Warren, suburb just north of Detroit.

The center, 71 glass and brick buildings on 330 acres, is the home of GM's research laboratories, manufacturing development staff, engineering staff, and the recently formed defense systems division.

Next Tuesday the Tech Center, as it is most commonly known, will mark its 5th birthday.

On the cold, windy day in 1956 when the center was dedicated, Kettering told the 5,000 scientists, educators and business leaders who sat huddled beside the 22-acre artificial lake:

"To me a technical center is a place where people can think and develop ideas. One thing worries me about this technical center. I am afraid that the people there may lean too heavily on the facilities and forget that ideas are developed in the mind."

Now pieces of cloth have been added to the net. Still the birds come in.

If the engineers heed another piece of Kettering advice they will triumph eventually. Kettering said: "The inventor fails 9,999 times and succeeds once. Here in this institution we have a place where we can make indefinite practice shots, and the only time we don't want to fail is the last time we try it."

Judge Drops Charge Against John Carter
Municipal Judge Cecil McCullum yesterday dismissed a charge of unlawfully taking and using a motor vehicle against John E. Carter, 18, of 7065 Cooley Lake Road, West Bloomfield Township.

close to the edge of the pavement.

None of these are products for today. All might be in use tomorrow.

The Tech Center staffs also work considerably closer to the present. The mere presence of the center and its 5,300 skilled employees has wrought tremendous change in the area.

From a quiet farmland township Warren has changed into a bustling city of almost 89,000, ninth largest in Michigan. Adjacent to the center itself are the headquarters and labs of Fisher Body and Chevrolet engineering.

Nearing completion is a general office building and labs for Tennest, another GM division. General Motors' employment in the area will top 15,000 by September.

Jack for Every Jill

FEARS FRUITLESS

It may be 50 or 60 years sometimes before an idea develops. But if we will recognize that there is a definite time before an idea can become a product, provided the customers are available for it, the future is the greatest natural asset we have.

Kettering's worries about the development of ideas have proved fruitless. But many of the ideas which have come out of the Tech Center are products for the future he was speaking about.

Genial Karl Haas Winds Up Season

By MARJORIE EICHER
Women's Editor, The Pontiac Press

Pontiac Tuesday Musicals concluded its 37th season Tuesday with luncheon and a melange of melody by Karl Haas, well-known for his musical program "Adventures in Good Music."

It was an adventure for club members to follow Mr. Haas through an audience-participation type of program in which he defined the ingredients of music. He illustrated his comments at the piano, playing selections from Bach to Debussy.

With ease of manner and humor that has become his hallmark, he offered varied comments about the cultural position of our country today. "How reluctant we are to try a new dish," he said, "particularly in the arts." Although the response to the forthcoming Metropolitan Opera season is phenomenal according to Mr. Haas, it is the wonderful old stand-bys like "Aida" and "La Boheme" that were immediate sellouts.

Mr. Haas feels that a tour company of the Metropolitan might be set up to handle the growing interest in opera in this country. We would have to forego the big names, he said, but because we trust the quality and reputation of the Met, this is not important.

Saying that support of the arts boils down to the old issue of government support versus private support, Mr. Haas suggested that industry assume leadership in support of the arts in this country.

This might be a departure from European standards of music to which we are bound traditionally said Mr. Haas, but since we do not accept European standards of living he wondered why we should feel so committed to these standards in music.

Mr. Haas went on to offer the musical ingredients that enhance our enjoyment of music. Naming rhythm, melody, harmony, form and color he illustrated his ideas with selections by Haydn, Mendelssohn, Brahms, Bach and Debussy.

It seemed fitting that this mature dedicated musician should feel an affinity for Brahms and play it so beautifully with such fine phrasing. His Haydn was crisp. Although he seemed able as a pianist to move well through the various idioms of his literature. His informality removes any hint of stuffiness from a musical program.

He played Debussy with authority and understanding which the audience recognized and appeared to favor.

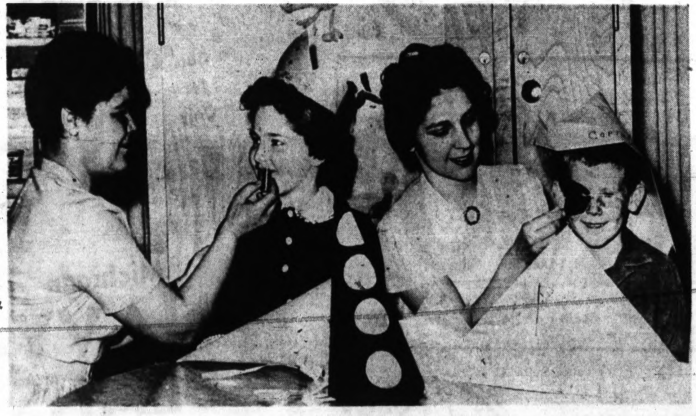

Vanguard to Present Drama

The new presentation of Vanguard Playhouse, Detroit's only resident professional theater, is Maxim Gorky's "The Lower Depths."

Described as "One of the greatest Russian dramas of the 20th Century..." by a spokesman for the playhouse, the drama opened Wednesday and will run through June 3, marking Vanguard's 14th production since its inception.

"The Lower Depths," presented for the first time in 1902, was the first play in the history of the Russian stage in which characters who were "... the downcasts, the dregs of society, became the heroes of a dramatic work."

Dr. William A. Gregory, Vanguard's managing director, pointed out, "One of the most remarkable aspects of 'The Lower Depths' is that each of the characters in the play is a spokesman for a philosophy of life. There is not one weak role."

The Cora Bailey School Parent-Teacher Association's Saturday carnival will include a make-up booth among its attractions for the children. Anxious to see how they'll look after special treatment by PTA members Mrs. Edward Hoffmaster (left) and Mrs. David Morin are students Linda Davis and Billy Girtman who are helping set up booths and exhibits for the big event.

SUZANNE VIRGINIA OTT

Sunday Evening Show to Aid Camp Oakland

Stop in anytime at the 330-acre camp near Oxford, and director William Matus will tell you about the straight-from-the-heart acts of kindness performed by the women's committee for the camp.

Right now the committee is busy raising money for the camp's building fund by staging a benefit show. The energetic group headed by Mrs. Ben D. Mills of Vaughan Road, Bloomfield Hills, has lined up a Broadway hit for a fundraiser.

It will be "An Evening with Mike Nichols and Elaine May" at 8:30 p.m. Sunday, May 14 at Ferndale High School. Mrs. James Clarkson of St. Jude Drive, Drayton Plains, is in charge of ticket sales in the

Pontiac area. Assisting her are Mrs. Donald E. Adams and Mrs. Philip E. Rowland.

Mrs. Harold A. Fitzgerald of Ottawa Drive, is a member of the Christmas card and tribute fund committee.

Mrs. L. W. Newborn of Oakhills Drive and Mrs. Parkbury P. Schmidt of Wing Lake Road are co-chairmen of patrons, who will get choice seats in return for \$12.50 donations to Camp Oakland.

Mr. and Mrs. Harold P. Ott of Waterford Township announce the engagement of their daughter Suzanne Virginia to Barry D. Campbell, son of Mrs. Larry Campbell of Drayton Plains and the late Mr. Campbell. She attends Michigan State University and her fiancé, Eastern Michigan.

Tiny Tots Put On Program

Kindergartners at Washington Irving School presented a special program for parents and friends Wednesday afternoon.

Culmination of weeks of animal study, combined with music and art, the program was given the name "The Clicking Gate" by class member Kathy Buck.

Originally called "All Around the Barnyard," the name of the presentation was changed when Kathy's observation that the gate "clicked" as the farmer used it suggested the more appropriate title.

Centennial dresses and bonnets were worn by kindergarten girls who portrayed farmers' wives. The boys wore blue jeans, bright shirts and straw hats.

Mrs. William Graff, kindergarten room mother, made all of the girls' costumes, leaving only fitting details to the mothers. Another room mother Mrs. Nestor Mihay helped design the boys' costumes.

Songs, dances and poems, centering on the barnyard theme, made up the program which was highlighted by the presentation to the mothers of plants, grown for them as Mother's Day gifts by the children.

Fuel for Future

CHICAGO (UPI) —The Candy, Chocolate and Confectionery Institute today estimated the 96 million pounds of candy planned for Mother's Day gifts Sunday provides enough energy to wash 78 billion dishes, run 12.8 billion shirts or darn 9.6 billion socks.

Kindergartners at Washington Irving School staged a special program "The Clicking Gate" for their parents and friends Wednesday afternoon. The children wore Centennial garb for the presentation which had a barnyard theme. Holding plants presented to their mothers at the affair are (from left) John Mihay, 6; Marcella Graff, 5; and Kathy Buck, 6, who suggested the title for the program.

Women's Section

Be Thankful for Your Blessings . . . Abby

Shoulders Back, Head High

By ARBAGAIL VAN BUREN
DEAR ABBY: I have a problem that can't be cured by diet, exercise or prayer. I am a 6-foot-3 woman!

Almost every miserable day of my life, idiotic people make me feel like a creature from another planet. No matter where I go I am gawked at, and talked about as though I were a freak.

Friends tell me to have a sense of humor about the whole thing but, believe me, this is not so easily laughed off. I am just about fed up. How can I live with a situation like this, short of cutting my legs off?

MISS EMPIRE STATE BUILDING
DEAR MISS: Walk tall and keep your chin up. Be grateful for your 6-foot-3 inches of healthy, normally functioning body. There are millions of people who would swap places with you tomorrow. Prayer might be the answer. Get on your knees and thank the good Lord for your blessings.

DEAR ABBY: I have been going with a girl for over a year. I am very much in love with her and have been thinking about asking her to marry me. We are both 23. During my childhood my parents had me treated for an emotional disorder. I see no point in mentioning this to my girl friend. My roommate says he thinks it is important for the girl to

know this before we are married. Do you agree?
ARIZONA
DEAR ARIZONA: Yes. Tell her.

Hospital Auxiliary Meets

St. Joseph Mercy Hospital's Women's Auxiliary observed its May meeting at McAlister School of Practical Nursing. Mrs. Henry Simpson presided in the absence of president Mrs. Walter Williams.

Mrs. John A. Reid presented a report showing over \$70,000 worth of hospital equipment purchased by the organization since its inception in 1922. The purchases were in addition to the auxiliary's monthly contributions to the children's free clinic. The auxiliary is now an agency of the Pontiac Area United Fund, and its funds are wholly for support of the clinic.

As a new project the group has voted to purchase and to distribute coloring books and crayons in the hospital's children's ward.

Marie Hickey, hospital spokesman, asked members to volunteer as tea hostesses for Hospital Day observances Friday. Mrs. Ralph L. Polk, Mrs. E. A. Christie and Mrs. H. Guy Moats were appointed to the nominating committee. They will present a slate of officers at the annual meeting in June at the Bloomfield Hills home of Mrs. James G. Goudie who, winter permitting, will serve luncheon in her garden.

DEAR ABBY: When I married Betty she knew how much money I earned, but said, "Don't worry, we will manage." Well, here I am and she has been "managing." When she wants some new clothes or something for her apartment that she knows I can't afford to buy, she gets her mother to buy it for her. I wouldn't mind if her mother bought her gifts for her anniversary and birthday, but she is always giving her something. Her mother can well afford it, but I have my pride. Am I wrong in objecting to my wife's having things that I did not buy for her?

HAVE MY PRIDE
DEAR HAVE: I think you are overly sensitive. These gifts (in a way) are for you, too, so why not relax and enjoy them instead of resenting your mother-in-law's generosity?

Name Day for Hospital Auxiliary

Wednesday was designated Women's Auxiliary Day at Pontiac General Hospital in connection with Hospital Week which runs through Saturday. The hospital's auxiliary, organized in 1933, has grown from a membership of 13 to 400.

Various exhibits of services to the hospital which include patient comforts, fund raising assistance to the hospital management, were on display in the Pontiac General auditorium.

CONDUCT TOURS

Tours through the hospital were conducted by the auxiliary's tour ladies. Co-chairmen for the day were Mrs. Charles J. Barrett and Mrs. Orris P. Hinton Jr. They were assisted by Mrs. W. Fred Fuller, Mrs. Frank McPeck, Mrs. C. M. Pelican, Vera Bassett and Mrs. Fritz Stoddard.

... Pouring at the tea table which was decorated with cherry red and white carnations, colors of the crockets all auxiliary workers wear, were Mrs. Raymond Rapoport, Mrs. P. Eugene Miller, Mrs. M. D. Stapp, Mrs. Socrates Soltes, Mrs. Charles Crawford, Mrs. Forest R. Wood, Mrs. Andrew Stimer, Mrs. William Bedard, Mrs. Raymond Madge and Mrs. James Mellon. Mrs. R. T. Lyons was in charge of exhibits.

PTA Carnival Saturday

Pony rides and a merry-go-round will be among attractions for the youngsters at the Cora Bailey School Parent-Teacher Association's carnival slated Saturday.

Supervising the pony rides will be George Reutter. William Johnson will operate the carousel. Other carnival features include the fish pond, managed by Mrs. Loran Davis and Mrs. Mary Hodges; country store, Mrs. Ernest Ostrand and Mrs. Ellen Sheffield; and restaurant, Mrs. Jeanette Hillebrand, Mrs. Edward Hoffmaster, Mrs. Jack Taylor and Mrs. George Parsons.

Mrs. Ted Girtman and Mrs. Glen Stevenson will be at the make-up booth. A cakewalk will be conducted by Mr. and Mrs. David Morin and Mrs. Bruce Allen.

The bake sale will be under chairmanship of Mrs. Robert Sutton, Mrs. Gladys Hocking and Mrs. Charles Hoberg.

Don't Be Stubborn and Lose Happiness

By RUTH MILLETT

Maybe you read about the elderly couple in England who seem to hold some kind of record for husband and wife stubbornness — Married in 1953 when Joe Jordan was 75 and his bride, Alice, was 72, the couple couldn't agree on which of their houses they would call home.

So they have never spent a single night under the same roof. Alice goes over to Joe's every morning and spends the day cleaning his house and cooking his meals.

When night falls she heads for her house. That way neither one has had to say, "Okay, you win, we'll live together at your house." It's kind of a funny story, considering the age of the stubborn couple. But it's not so funny when a young couple with years and years of marriage ahead of them cling stubbornly to their own rights and refuse to make concessions and compromises.

OTHERS STUBBORN

Yet a lot of young couples are just as stubborn in a few small ways as this elderly couple is in

the big matter of which roof will shelter the two of them.

Because of pure stubbornness many young couples refuse to give in to each other in small things — thereby building up constant sources of friction that keep the marriage from being happy.

While happier couples give a little and take a little in adjusting to a shared life — the stubborn ones demand to have things done "my way or else."

Perhaps this story of the British couple who have carried their stubborn pride to a ridiculous extreme will not only give young couples a good laugh — but will make some of them see how foolish two stubborn streaks can make a couple behave — how much compassion, ship and peace they can deprive themselves of just because they are both too stubborn to change themselves or their notions for the sake of harmony.

Hints for home harmony: Ruth Millett's booklet, "How to Have a Happy Husband," has some words to the wives, too. Just send 25 cents to Ruth Millett Reader Service, care of The Pontiac Press.

Newspaper Enterprise Assn.

Alumnae Unit Will Meet in Area Home

Alpha Delta Pi North Suburban Alumnae will meet at 8 p.m. this evening in the home of Mrs. David Miller on Blandford Road, Bloomfield Hills. Officers and committee heads for the coming year will be installed. Heading the group will be Mrs. Frederick Wuellner, Her co-officers will be Eunice Harris, vice president; Mrs. Edward Patterson, treasurer; Mrs. Carl Tiedeman, recording secretary; and Mrs. Preston Hubbard, corresponding secretary.

The president-elect's committee chairmen are Mrs. George Link, ways and means; Mrs. Jake Hawley, service; Mrs. John Scandalios, social; Mrs. Richard Houghton, publicity; and Mrs. Gilbert Landtiser, membership.

Mrs. David Miller, retiring president, will announce details for the annual picnic at the lakefront home of Mrs. Wilbur Saylor.

Mrs. Frederick Wuellner, retiring service chairman, has reported that the group will send a crippled child from Oakland County to the Grace Bentley Camp for two weeks this summer.

PTAs Set Installations

The Waterford Township Girls Chorus will be guests at the 7:30 p.m. Parent-Teacher Association meeting at the Lambert School in Waterford Township this evening.

Mrs. Arthur Heiple, president of the Oakland County Council of Parents and Teachers will install the 1961-62 officers. They are: Mrs. Lewis Miller, president; Mrs. Leon Messier, vice president; Mrs. John

Crazy, secretary; and Mrs. Gordon Lyon, treasurer.

Following the installation, PTA members have been invited to visit the school science fair.

Intermediate Girl Scout Troop No. 50 will be selling candy to raise money for their weekend trip to Northern Michigan this summer.

DANCING AT GRAYSON

Beginning at 8 p.m. this evening, boys and girls from the Grayson School's fourth, fifth and sixth grades will present a demonstration of square dancing, learned during the last year.

After a short meeting, new officers will be installed for next year's PTA activities. The organization will then present the Cub Scout charter for Troop No. 132 to Jack Mastie, the new Cub Scout leader. The Boys and Girls Chorus under the direction of Daniel Adkins will conclude the evening's program.

Church Program

The Ladies Guild of St. Paul Evangelical Lutheran Church will meet Wednesday to hear a program on the topic "Youth and the Christian Family."

Participating in a panel on the day's discussion topic will be Mrs. Robert Jarrard and Mrs. Gerald Danmore.

The group is planning a father and son banquet in June.

Modeling for the Lutheran Church of the Ascension's mother-daughter dessert are (from left) Lynn Franklin of Waterford, her grandmother Mrs.

Olis Head of Watkins Lake and Mrs. Lewis Crew of Berwick Boulevard. Fashions are from Penney's.

Speak Vows in State of Washington

Kathleen Dunne of Orchard Lake became the bride of Aviation Machinist Mate Norman Van Tyne, USN, Friday evening at the Summit Presbyterian Church, Bremerton, Wash. A church reception followed the double-ring ceremony performed by the Rev. Carl Nissen.

Parents of the newlyweds are the James T. Dunnes of Orchard Lake and the Robert Scheels of Fort Collins, Colo.

Pink carnations complemented the bride's suit of white silk shantung and hat of white chiffon roses.

Her matron of honor was Mrs. Burton Weicher of Seattle, Wash, formerly of West-acres. Seaman John Buckles was best man.

After a weekend tour of the Puget Sound area, the couple will be at home in Bremerton until fall when the bridegroom will be stationed at San Francisco. The bride, a graduate of University of Michigan, teaches at Bremerton High School.

Salt May Corrode

Common table salt may corrode and tarnish silver, especially when the salt is moist. Home economists suggest that homemakers take special care of silver spoons that have been used to serve salty nuts.

Church Women Plan Event

The United Lutheran Church Women of the Ascension will sponsor a mother-daughter dessert and fashion show by the J. C. Penney Co. of Miracle Mile at 6:30 p.m. Friday at the church.

Mrs. Milton Fret will comment on spring and summer styles modeled by church members Mrs. Dallas Nelson, Nancy Selberg, Susan Nelson, Ellen LaFontaine, Cindy Nelson, Linda Wedow, Cathy Crew, Lynn Franklin, Pam Trudgemon, Mrs. Eugene Spring and Mrs. Myrtle Head.

To Complete Plans for Annual Show

The Pontiac Society of Artists will meet at 8 p.m. Friday in Adah Shelly Library to complete plans for its annual show.

A Gift for Mother's Day KNITTING BAGS

198 to 498

The OXFORD SHOP

59 WEST HURON STREET Federal 4-7212

Wisconsin Girl Plans to Wed

Mr. and Mrs. C. W. Eickstedt of Cedarburg, Wis., announce the engagement of their daughter Judith Margaret to Dwight I. Pettengill, of Dallas, Tex., son of Mr. and Mrs. E. R. Pettengill of Clarkston, formerly of Pontiac.

The bride-elect attends Hillsdale College where she is affiliated with Chi Omega Sorority.

Her fiancé is an alumnus of Hillsdale and a member of Delta Tau Delta fraternity.

Roselea Chavez Weds Airman Agustin Llano

Roselea J. Chavez exchanged vows and rings with A.I.C. Agustin Llano Saturday morning in St. Vincent's Church before the Rev. Joseph Fennimino.

Daughter of Mrs. Francisco Catlan of West Wilson Avenue and Jose J. Chavez of Veracruz, Mexico, the bride was given in marriage by her brother Delfino A. Chavez, Mr. and Mrs. J. A. Llano of San Antonio, Tex., are the bridegroom's parents.

Fashioned of white Chantilly lace and silk organza over satin, the bridal gown swept into a cathedral train. Finger-tip illusion veils fell from a pearl comet. White carnations and stephanotis comprised the bride's cascade bouquet.

Mrs. Enrique Cruz, her sister's matron of honor, appeared in a champagne silk organza sheath dress and held tangerine carnations. Mary Llano of San Antonio, the bridegroom's sister, wore tulle organza. Flora Lopez, Amelia Martinez and Ernelinda Aginaga were in maize.

Patricia Velasquez was junior attendant for her aunt with Yvonne Santa Cruz, Mary Elizabeth Velasquez, niece of the bride, and Sylvana Paramo were flower girls. Yellow carnations complemented their frocks of Nile green organza.

Alan Muniz, nephew of the bride, and Kevin Martinez carried the rings.

Enrique Cruz, brother-in-law of the bride, was best man. Seating some 200 guests were Dennis Paramo, John Gaytan, Arturo Martinez and the bride's nephew Henry Muniz.

After greeting some 500 guests at an evening reception at the Italian-American Club, the newlyweds left for a honeymoon in Chicago and Niagara Falls, N.Y. They will live in Pontiac. Airman Llano is stationed at Selfridge AFB.

For her daughter's wedding, Mrs. Catlan chose beige lace over green tulle and Mrs. Llano's selection was a navy blue linen sheath dress. Both wore orchids.

Couple Weds in Orchard Lake

The Rev. Giles Bartol officiated at the Saturday nuptials of Joanne Lucille Fairman of Orchard Lake to Jeremiah M. Fisher of Waterford Township in Our Lady of Refuge Church, Orchard Lake.

Parents of the newlyweds, the Floyd N. Fairmans of Lakeview Drive, Orchard Lake and the Vernal Fishers of Lanore Road, Waterford Township, greeted some 200 guests at the evening reception at the Middle Strals Community Center.

The wedding breakfast was served at Wilkin's Inn. The bridal gown of white silk

brocade and organza was styled with cowl neckline and cathedral train. A crown of small satin roses caught the bouffant shoulder-length veil of French illusion.

White carnations and red roses rested on the bride's white prayer book. Margaret Worden of Orchard Lake attended her cousin as maid of honor. The bride's niece Alana Harrison of Pontiac and Mrs. Robert Slais of Orchard Lake were bridesmaids. They wore cerise blue silk organza over taffeta and held blue and white carnations. Wayne Fisher stood as best

man for his brother, Michael Campbell and Bernard Crozan ushered. Leaving for a honeymoon in New York, the new Mrs. Fisher was

MRS. JEREMIAH FISHER

wearing a suit of romance pink and beige accessories. The couple will live in Pontiac. Over her dress of blue lace and crepe, Mrs. Fairman wore a mink stole for her daughter's wedding. The mother of the bridegroom appeared in a sheath dress of embroidered beige organza accented with accessories in shocking pink.

2 City Girls on Youth Council Unit

Two Pontiac girls have been elected to the executive committee of the Michigan Youth Advisory Council to the Michigan Youth Commission.

Karen Bronceel and Marsha Deeg, delegates of the Parent-Teacher Association and the Methodist youth Fellowship, respectively, were elected at the council's conference in East Lansing's Kellogg Center Saturday and Sunday.

"Human Relations" was the conference theme. Dr. Hoyt C. Reed from Michigan State University's department of social science gave the keynote address.

During the general session four delegates to the YAC debated on the topic "Resolved: That This Generation Should Eliminate Discrimination." Their conclusion was that each person must set an example for other youth as well as adults to follow in the fight against prejudice.

Executive secretary of the commission, Sam Rabinovitz, was presented a gift of appreciation for his service on the council since its founding, at the YAC's 10th anniversary banquet and dance Saturday evening.

Lake Garda, the largest lake in northern Italy, covers 145 square miles.

Out of Proportion to Usual Current Affairs Concern

Teen Interest in Eichmann Case Runs High

By EUGENE GILBERT
President, Gilbert Youth Research Co.

"If Eichmann dies, his death will be added to many; we will all soon try to forget about him. If he lives, he must remain as a symbol of human error."

This is the opinion of Mary Martin of Winnetka, Ill. May 16.

There is nothing so exceptional about her opinion, except that it exists.

For Mary and other teenagers were in Israel's infancy, or as yet unborn, when the nightmare of Nazism threw its shadow across the world.

And yet they have taken an interest in Israel's trial of Hitler's henchman Adolf Eichmann out of proportion to their usual interest in current affairs.

TOUCH LEGAL ASPECTS

They are following the trial, they know what it is about, and they have opinions not only on what

should be Eichmann's fate, but on some of the case's international legal aspects.

Eighty per cent of the 1,134 teenagers we questioned say they are keeping abreast of trial developments.

Most say they were aware of Nazi war crimes before the Eichmann trial became daily newspaper fare, even though more than half have never been taught about them in school. They think it should be taught.

A majority of them think that Israeli agents had a right to kidnap Eichmann in Argentina. They think he should be tried in Israel.

And finally, most think Eichmann will be put to death.

But what will his trial prove? "It will prove that no person can commit a crime so drastic and get away, no matter how long it takes to capture and punish him," says 16-year-old Linda Davis of Shreveport, La.

Will it?

"It will prove nothing, just nothing," says Hanne Bendson, 16, of Decatur, Ill. "No one has the right to try him. It happened 15 years ago and during a war. Look at the man who dropped the atom bomb."

"Before he dropped it he knew he'd kill women and children, but he was carrying out an order to save his country, not being a traitor."

"This may be a bad comparison,

but Eichmann took an order, carried it out to save a cause which he thought was right. In his mind maybe he was right—not a traitor, but a hero. If the Nazi belief would have won out maybe the man who dropped the atom bomb would be tried."

The opinions differ. The interest is alike.

Teen-ager after teen-ager stated in varying ways the fact that Eichmann is charged with the murder

of six million Jews during World War II.

Almost all knew that Eichmann, long sought by Israeli agents, was finally found in Argentina, that he was kidnapped and spirited out of the country without the knowledge of Argentina's officials.

Fifty-three per cent say Israel was justified in its action; 37 per cent say it was not.

"It is only right that he be called to account for his crimes by whatever means are expedient," says Dale Kunkel, 18, of Liberal, Kan.

But 16-year-old Ronnie Bryson of Shreveport, La., argues that "even a man of Eichmann's character must be protected by the law. In protecting the rights of these people, we protect our own."

The division of opinion was almost the same—57 per cent affirmative, 37 per cent negative—on the question, "Should he be tried in Israel?"

Those who favor the Israeli trial argue that his crime was against the Jewish people while the dissenters believe he should be tried by an international court or in a country that was neutral during World War II.

Or they believe, as Felice Abramson, 16, of Oklahoma City, states:

"The Nuremberg Court should be re-established and he should be tried there."

MOST SEE EXECUTION

What will be Eichmann's fate? Fifty-six per cent of the youngsters believe he will be put to death, 31 per cent think he will be given a life term in prison, while 2 per cent feel he will get a long prison term. Only 2 per cent believe he will be acquitted.

Seventy-eight per cent of the teen-agers say they were aware of Nazi atrocities before the Eichmann case.

Most would agree with 14-year-old Nancy Nelson of Erie, Pa., who tells us, "I know of concentration camps, crematories, gas chambers and mass burials, but only vaguely."

But there are a few like Karen Goldberger, 16, of Winnetka, Ill., who says: "I was very aware of Nazi crimes. Most of my relatives in Europe were killed."

Only 41 per cent say they have been taught in school about the war-time atrocities. "Told of" is a better term than "taught," says Linda Chapin, 14, of Oklahoma City.

But 83 per cent feel it should be taught.

"We should know what terrible things were done, for our own protection against such things in the future," says Theresa Butler, 17, of Fort Wayne, Ind.

No sympathy for Nazism was found among the youngsters or their parents.

Pack Complexion Aids

Take Hats on Vacation

By JOSEPHINE LOWMAN
 The first thought which arises when we begin to form summer vacation plans is "Where will we go?" The next thought which occurs to a woman is, "What clothes will I need?" It's just as simple as that.

And believe me, packing is easier now than ever before, with the many beautiful now-rinkle, drip-dry materials and the three- or four-piece ensembles available today. Naturally, the sort of clothes you need will depend on the kind of trip you are going to take and the climates you will encounter.

COMPLEXION

In planning, we should think of the protection of our complexion as well as of comfort and good looks. Don't forget the essentials for skin care. Cleansing creams and soaps, lotions and lubricating creams and make-up kit are essentials.

Today they need not take up much room. Most cosmetic houses have compact travel sizes in your favorite items.

That famous and utterly chic entertainer, Hildegard, who spends much of her time traveling throughout the world, always is beautifully hatted whether in New York or in the tropics. Actually, Hildegard has such a varied wardrobe of hats that she often travels with three or four hat boxes.

This would seem laborious to many women but it is wise to take some hats with you since there are occasions when you must have one to be chic or appropriately turned out.

Also, many hats today are made of soft, foldable or crushable materials so that you can get several into a small hatbox or even pack them in a suitcase.

It is a good idea to take some larger hats along. As Hildegard said, "Even a short exposure to a hot sun can damage the hair, dry it, fade it and put a droop in the set."

A pretty hat becomes as much of a protection for your hair and complexion in the summer as a

When packing for a vacation, don't forget to include some hats. There will be occasions when you will need one.

flattering frame for my face. I'm not one to get too much tan. And the portable shade of a hat brim is wonderful to keep those squint lines away from my eyes."

Tierra del Fuego means "Land of Fire" but the South American island bearing this name has chilling winds and damp cold. Discover Magellan named it for the Indian bonfires burning along the coast day and night.

Balance Colors

Soft, grayed colors and bright colors can look good together — but not in equal quantities. Home economists at Michigan State University say large areas of bright color can make the grayed hues look dull and dingy or heavy. color will balance a whole room. Usually a small amount of bright of soft ones.

Before Dieting

(NEA)—Before you start a reducing diet, check with your physician to learn the state of your health and also what your correct weight should be for your age and height. If you just go ahead on your own, you may take off too much weight, and, as a result, damage your health.

Scheduling Trips Is Intricate Business

Today's Travel Agent a Jack of All Trades

NEW YORK (UPI) — Foreign travel has become so intricate in the jet air age that the services of experts often are required to set a tourist on his way.

The travel agent, who before World War II did little more than make steamship reservations, today not only charts complex itineraries, timed down to the last sip of champagne or bite of suk-yaki, but must worry about such things as rescuing a college girl from an Italian lothario or booking passage for a full-size bed.

The American Society of Travel Agents had 339 active members on its rolls in 1959.

It now has 1,350. The members range from an agent who operates his business in his living room to the giant of them all, American Express.

Travel agents handle about 95 per cent of all steamship business, 75 to 80 per cent of overseas airline traffic and 30 per cent of domestic airline traffic.

For their efforts, they receive a minimum of 10 per cent of the cost of tours and hotel bills, 10 per cent on overseas air and steamship transportation and 5 per cent on domestic air traffic and some rail traffic.

When an individual goes into a travel agency and asks for a trip around the world, with pauses in 16 different cities, all on the specified days, he must expect to pay for this service.

ADDED TO BILL

The agent adds a charge onto the travel bill, with the amount depending on how much of his time has been consumed and how many cables he has had to send.

Usually it is around 10 per cent of the total cost of the trip.

Travel agents have to keep in training for the intricacies of today's tourism. They do it by traveling. Some put in thousands of miles in the off-season heading up on what hotels, restaurants and excursions to recommend to their clients.

It is a mistake to think that once an agent has handled a vacationist his travel paper — reservations, etc. — the relationship has come to an end. Not by a long shot.

Many an agent has received a frantic telephone call from a worried parent asking him to see if he can find out what happened to Johnny, who left on a tour of Europe with three college classmates and has not been heard from since.

PLENTY OF HELP

With the help of police, travel officials and passport officers in any given country, the agent usually can track down Johnny.

In nine out of 10 cases, he has simply strayed from the beaten path and decided to see something not on his itinerary.

Along with this show of independence has come his failure to write home and tell mother what he is up to.

More than once, a travel agent has been asked by a distraught

parent to break up a romance between their touring daughter and a handsome Italian or Frenchman. In these cases, the agent communicates with a deputy on the scene who then usually manages to talk the love-stricken girl into her senses and onto the next plane home.

One travel agent had his work cut out for him when a very rich and very old lady told him to book a world tour for her — and her full-size bed.

He had to arrange for train, truck and ship transportation for the bed.

Wherever that woman went, he bed arrived with her and was installed aboard ship or in hotels for her comfort. The arrangement came off without a hitch.

Another wealthy woman has

made it a practice when she makes her annual tour abroad to take with her a chauffeur-guide who is a native of the area to which she is going and shares her interests.

She interviews prospects over lunch in New York, and if they get along, he is hired.

She was so delighted with the chauffeur-guide who drove her through South Africa that after they returned to New York, she bought him and his family a co-operative apartment.

Physicists believe the particles thrown off by the sun are hydrogen protons and electrons. Besides creating the aurora borealis, the particles are responsible for magnetic storms which disrupt radio communication.

for Veteran of 23 Years

ENT AIR FORCE BASE, Colo. (UPI) — M.Sgt. James E. Hagood, a native of Hillsboro, Tex., decided to retire from the armed services after 23 years.

Hagood was discharged here after serving in both the Army and Air Force. Now he plans to go to college.

Why, Shame on You!

BIRMINGHAM, Ala. — Firemen agree it was the highest fire of the year — a blaze that destroyed a radio shack at the top of a 300-foot forest observation tower near here. Four firemen climbed the tower in a futile effort to save the shack.

Training Appreciates Having Senators in League

Pair Triumphs Owned by Jim Against Nats

Tigers Give Hitting Support in Easy 7-1 Victory

DETROIT (UPI) — The speaker was Jim Bunning and the mood was casual in the Detroit Tigers clubhouse yesterday.

"I just hope they stay in the league," said the lanky right-hander, as he emerged from his post-game shower in jocular spirits.

Bunning was referring to the hapless Washington Senators and while his remarks were offered in jest, they made sound sense.

Both of Bunning's victories this season have been chalked up against the Senators and yesterday's five-hitter, which sparked the league-leading Tigers to an effortless 7-1 verdict, was his finest performance of the young season.

Washington may be Bunning's favorite opponent, but there has been nothing radically wrong with his work against other clubs during these early weeks of the campaign. Actually, he has pitched more effectively than his 2-2 record indicates.

It is doubtful that anyone would take issue with Bunning's own estimate of his first seven starts.

"I pitched two bad games, the opener against Cleveland and last Saturday in Chicago," he said with professional detachment. "But I was okay the other five times out."

Bunning, a class guy, didn't mention it, but on at least two occasions, his teammates failed to give him adequate hitting support — a dilemma that hampered him many times last year.

That certainly was no problem yesterday, however.

The Tigers chafed starter Ed Hough with a four-run explosion in the second inning and from then on it was no contest.

Bunning, the American League's strickest knifed the last two years, fanned seven and batted six innings of hitless ball, from the third through the eighth.

The only run off him was unearned and came in the second stanza when Dale Long was safe of an error and scored on Jim King's double to the rightfield corner.

Bunning had a three-hitter going into the ninth when the Senators showed brief signs of life, but by that time the Tigers had piled up their large lead.

Gene Woodling opened the Washington ninth with a single and advanced on Gene Green's walk. Then Long sent a sinking line drive to left, but Bobbie Horton raced in and made an excellent running catch, doubling Woodling off second with his throw to kill the rally.

Norm Cash opened Detroit's decisive second inning with a double off the right field screen and scampered home on Steve Bono's fluke double to short left. Singles by Dick Brown, Bunning and Jake Wood produced two more runs and sent Hough, a former Michigan State ace, to the showers. Morton's sacrifice fly drove in Bunning with the final run of the inning.

Ricky Colavito singled home another run in the fourth and some alert base-running plus Washington misadventure kept the Tigers to score two more on only one hit in the eighth.

Wood started the eighth with a walk and was forced by Billy Bruton. But Bruton, a speedster on the basepaths, then stole second and third and when Green, the Washington catcher, threw, Bruton came on home. Morton then walked, stole second and scored on Bono's single.

The victory was the 18th in 20 games for the rampaging Tigers who have darted off to a fast lead in the American League pennant chase.

Carter Wins Elusive ABC Masters Crown

Five Records Set in Four Meets

Individual Feats Steal Track Show

Individual efforts overshadowed team performances in area high school track meets Wednesday afternoon.

Earl Peoples compiled 16 1/2 points for L'Anse Creuse. Pete Long had 11 1/2 for Rochester and Roseville's Ron McEneaney set a field record in a double dual at the Falcon track. Jerry Petrock of Northville scored 14 1/2 in a dual triumph and Jerry Smith of Imlay had 10 1/2 featuring three wins in pacing a triangular triumph.

Peoples took the two jumps and 440 and was on a winning relay team as L'Anse walloped Lapeer, 60-28. Terry Owens and Ron Leal each had a pair of wins and relay points. Barry Wickstrom took the shot put to star in defeat.

Long won the high jump and 220 and helped spark a relay victory. McEneaney heaved the shot 35 feet, 11 1/2 inches for his mark. Laddson contributed two late in Roseville's 62-47 verdict over Rochester.

Petrock took two dashes, was 2nd in the broad jump and ran in a relay win in a 61-48 Northville triumph over Bloomfield Hills. Petrock had 22 1/2 in the 220 for a field record. Jerry Bergmoe of the losers broke the field 800 mark in 2:02.3. Baron Jeff Aldred set a school record although 2nd in the low hurdles in 21.4.

Smith won two dashes, the broad jump and anchored an 880 relay victory as Imlay totaled in Oakland 43 and Orinville 35. His 10.3 100 is a new school record. Jerry Phillips, freshman Bob Powell, Jim Wilson and Jerry Winterson had

Victory. McEneaney heaved the shot 35 feet, 11 1/2 inches for his mark. Laddson contributed two late in Roseville's 62-47 verdict over Rochester.

Jerry Bergmoe of the losers broke the field 800 mark in 2:02.3. Baron Jeff Aldred set a school record although 2nd in the low hurdles in 21.4.

Smith won two dashes, the broad jump and anchored an 880 relay victory as Imlay totaled in Oakland 43 and Orinville 35. His 10.3 100 is a new school record. Jerry Phillips, freshman Bob Powell, Jim Wilson and Jerry Winterson had

Oxford 1st places. Leo Hitchcock was the lone Hawk winner.

Grand Blanc edged Clarkston in a quadrangular 30.14 to 40.13. Davidson followed at 25.54 and Holly had 18.2-3. Bill White sparked Clarkston by taking the 100 and 220. Bill Powell was a surprise shot put winner and sophomore Jack Lindsey won the mile. Roger Hall in the pole vault and half miler Ron Samuels were Holly stars.

Cranbrook dropped another close one in baseball bowing to Notre Dame, 2-1. Down 2-1 in the 6th, Crane loser Dick Mosher scored on a double steal but the rally ended shortly after. Winner Mike Pierucci scored one run and batted in the other on hits. Tom Demick's two singles were all he gave up.

Royal Oak Shrine took its 2nd straight defeat following six successive falling before Redford St. Mary, 6-2. Farmington Our Lady of Sorrows downed Ypsilanti St. John, 7-5.

Pacific Star Shines

DETROIT (AP)—Pacific Star won the Pleasant Ridge pace last night at Hazel Park raceway, paying \$19.40.

Little Miss Nina and Dillola Day, both Michigan owned horses, combined to return \$46.40 in the daily double.

THE CHAMP

Don Carter came out of the losers bracket to defeat Dick Hoover in two successive matches and win the ABC Masters championship last night. Hoover had gained the finals by nipping Carter in the afternoon.

Defeats Hoover Twice Following Afternoon Loss

Joseph Finishes 5th; Moore Joins Stars at Big East Meet

By CHUCK ABRAHAM

Don Carter completed the circuit of major match game championships last night by winning his first American Bowling Congress Masters crown at Cobo Hall—the hard way.

He whipped previously unbeaten Dick Hoover in two successive four-game matches to pull out the victory in a three-hour duel of St. Louis rivals.

Hoover, a two-time winner who handed Carter his last meet setback in the afternoon, needed only to take the opening match to end it all in the double elimination but the underdog Carter was a determined man.

Carter won the opener 840-788 featuring a 247 game after being down by three pins at the midway point. Don took the big final 888 to 806 winding it up with six straight strikes and a 254 single.

The champ, known for his ability to battle from behind, trailed by 12 after the opener of the title duel. Then pulled ahead to stay by hitting 225.

"I thought I would have a good chance if I won the first match. This is one of my biggest thrills," Carter said after receiving trophies and a check for \$2,500. Disappointed Hoover, who scored 89,880 and trophies, had no excesses. "I couldn't get going. I guess I wasn't in the books," he commented.

Billy Welu, also of St. Louis, finished 3rd after bowing to Carter early in the evening while Detroit Terrence Gibson was 4th. Joe Joseph bested Ray Bluth for 5th and Pace took 7th. Joseph had a 256 game.

Carter, Hoover and all the other stars left immediately for Paramount, N. J., where the \$75,000 Professional Bowlers' Association National Invitational starts today. Monroe Moore of Pontiac is among the entries.

FINAL STANDINGS

B.F. Goodrich

Turning a corner at 13 m.p.h. puts as much wear on your tires as driving 10 miles on the highway at 40 m.p.h.!

Action photos shot through "glass highway" show severe pressure on outside edge of turning tire. That's where B.F. Goodrich puts extra rubber to fight wear... it's

THE BIG EDGE!

NARROW EDGE
These stop-action photos show how a tire tread looks while turning a corner. They were shot from beneath a glass highway, built by B. F. Goodrich to study actual tire wear. Here the tire begins the turn. Note distortion in outside edge.

DEAD CENTER
Now, split seconds later, the turn gets sharper. You can see that the distortion in the outside edge increases. That's because turning puts terrific stress on your tires every time you take a corner—even at low speeds.

THE BIG EDGE
Here the tire is in full turn. Distortion on the outside edge is extreme, but there's little action in center ribs. That's why B. F. Goodrich puts more rubber in the outside edge where tire work most, wear most. It's The Big Edge!

OTHER TIRES have narrow edges as this diagram shows. Following tradition, the rubber is concentrated in the center ribs. But in today's driving, that's a "dead center," where tire action and tire wear are least. Look at your own tires, and you'll see the first signs of wear are on the outside edges.

BFG SILVERTOWN has a radical new tread design—with up to twice as much rubber as other major brands, first-line tires in the outside edge of the tread. That's where today's tires work most, wear most. It's The Big Edge—and a big edge in safety and mileage for you! Yet you pay no more for a Silvertown!

24-MONTH ROAD-HAZARD GUARANTEE.
Because of the high quality of workmanship and materials, now B.F. Goodrich passenger-car tires are guaranteed against blowouts, cuts, breaks caused by road hazards encountered in normal driving. If a tire is so damaged beyond repair, you get full allowance for remaining tread against the purchase of a replacement—at current retail list price. Your B.F. Goodrich dealer has complete details.

ONLY \$1 DOWN—UP TO A FULL YEAR TO PAY

Don't buy any tire till you see THE BIG EDGE DEMONSTRATION at your B.F. Goodrich dealer's.

Men vs. Boys in Annual MSU Old-Timers' Clash

EAST LANSING (AP)—The men go against the boys again in the annual Michigan State football festival here Saturday.

The event is the fifth Old Timers' Varsity football game—a chance for Spartan fans to take a trip back down memory lane.

The undergrad members of the varsity will show what they've learned in five weeks of spring drills. The test will be given by the returnees numbering a lot of seasoned warriors from the pre wars.

The boys have been outsmarting the men in recent years.

The initial 1957 game ended in a 30-all tie. The Old Timers managed their only win in 1958, by a 19-13 score. The varsity turned the heat on to run away 34-7 in 1959 and won again last year, in a 14-12 thriller.

The Old-Timers apparently had the game locked up with a 12-7 lead when quarterback Leroy Loderick, on a last second play,

Mrs. Wright Is Stuck With 2nd Again in WMGA

Mrs. W. D. (Edith) Wright of Lake Orion is making an unwelcome habit of finishing 2nd in the Metropolitan Golf Association's women's events.

Mrs. Wright, Pontiac's 1960 city champion, found herself stuck with the runner-up spot again yesterday at North Hills Golf Club in the WMGA's 18-hole tournament of the season.

The tourney winner was also the same. Mrs. W. R. Rodgers, who defeated Mrs. Wright last week in a sudden-death playoff at Maple Lane, repeated her conquest of top honors yesterday in regulation distance by shooting 64-68-61.

This was one stroke better than Mrs. Wright, who had to share 2nd place at 92 with three others—Mrs. Joseph Ross, Mrs. J. W. Wendee and Mrs. C. F. Fox. Championship flight leaders:

Mrs. W. R. Rodgers	64-68-61
Mrs. Joseph Ross	92-92-92
Mrs. J. W. Wendee	92-92-92
Mrs. C. F. Fox	92-92-92
Mrs. E. G. Marshall	92-92-92
Mrs. J. W. Wendee	92-92-92
Mrs. D. T. Graham	92-92-92
Mrs. E. G. Marshall	92-92-92
Mrs. Phyllis Chandler	49-51-109

BALTIMORE, Md. (UPI)—Joe Kelley of the 180 Baltimore Orioles was the only player to get nine hits in only nine at-bats in doubleheader. His five hits in the second game were off base ball's all-time top winning pitcher, Cy Young.

City Junior Baseball Camp Tries New Start Saturday

The weatherman, a most uncooperative gentleman this spring, treated the city's junior leaguers rather harshly last Saturday by washing out the scheduled opening of spring baseball training at three city diamonds.

Pontiac's future baseball stars are quite undaunted, however, and so is the Pontiac Parks and Recreation Department, which sponsors the annual session, so they try to start things rolling again this Saturday.

The 1961 junior baseball spring training camps will make a sad start this Saturday morning — if it doesn't rain, that is — and continue each Saturday through June 24.

Boys from 9 to 18 years of age are eligible to participate in the seven-week sessions, which will run from 9 a.m. until 12 noon each day.

Camp sites are Kelly Field, Bagley and Brush; Washington Junior High School, Genesee and Menominee; and Joyce Park, Joslyn and Walton.

All basic skills will be covered during the course of the program and qualified instructors will give special coaching to the youngsters in the fundamentals of the game.

Tennis shoes and baseball gloves are the only required equipment that must be furnished by the boy himself.

All youngsters are urged to join a Junior League team this summer. Competition in four different leagues will begin in late June or early July.

The age classification for Junior League competition is as follows:

Rams Take Free-for-All

It was sort of a free-for-all at Pontiac Municipal golf course Wednesday when St. Frederick and Rochester both used 10 players in a dual golf meet. St. Fred won the match, 4-2-4-0, behind some fairly balanced shooting. Charlie Dean of the Rams and Rochester's John Lepley each shot 40 to share total honors. St. Fred's Tom Bradley came next with 42.

'M' Catcher Pushes Leader in Big Ten Batting Race

CHICAGO (AP)—First baseman Max Bailey of Indiana is pushing a sizzling batting pace in big ten baseball, collecting 12 hits in 23 games at bat for a .522 mark.

Keeping in close pursuit is Bill Frechan, Michigan catcher, with .500. Minnesota's Dave Fritz is third with .485, followed by his teammate, Bruce Evans, and Indiana's Bill Elyea and Eddie La Duke, each with .478.

Evans and Barry Marshall of Michigan share the home run lead with three each, and Evans also is top in scoring with 12 runs.

Another mainstay in Minnesota's eight-game winning streak as the Gophers shoot for a fourth straight Big Ten pennant is first baseman Wayne Knapp. He is the run-batted-in leader with 12 and

Widgets — 11 years old and under; Class F — 13 years old and under; Class E — 15 and under; Class D — 18 and under.

For additional information about the program, call the Parks and Recreation Department at FE 3-1311.

PCH Golfers Tie for 5th in SVC

2 Flint Schools Share Valley Title With 7-1 Dual Meet Marks

Pontiac City's golf team deadlocked Bay City Handy for 5th place with a 3-5 record in the final Saginaw Valley Conference standings.

Flint Central and Flint Southwestern were named Valley co-champions after the two intricately rivals ended the regular season schedule in a tie for top spot with 7-1 records.

Flint Central's lone defeat came at the hands of the PCH squad. Since the Valley meet is not being held this season, the league title was based upon dual meet results.

Phil Thingstad was the Chiefs' most consistent shooter during the SVC campaign with a 79 average. He is followed by Dave Blank, Mark Petrie, Tom Smallwood and Mark Foster, in that order. They are coached by Dick Ayling.

The Chiefs' over-all record stands 7-5 and they close their dual meet slate next Wednesday against Waterford. They'll be competing in the MHSAA regional tournament Friday at Burroughs Country Club near Brighton and also will enter the 10th annual Pontiac Press Prep Invitational tournament May 22 at Pontiac C. C.

Final Valley standings:

Flint Central	7-1
Flint Southwestern	7-1

From the Skipper

By BRUNO L. KEARNS

Watkins Lake Yacht Club has its launching plans set for Sunday May 21st and its first intra-club race planned for Sunday May 28th. There are 10 snipes, three lightnings, and five thistles in the WLTC fleet this year.

Officers for the season include commodore Guy Duffield, vice-commodore Frank Peck; rear-commodore Norm Ledward; fleet captain Chuck Morris; secretary Bruce Brede and treasurer Ham Gillen. The club plans competition in snipe races as the lightning part of the fleet is decreasing.

The WLTC skippers are anxiously awaiting completion of a pumping system which will raise and maintain the lake level by bringing water in from Clinton River.

Publicity chairman for the Watkins Lake Club is Dave Green.

FOILED BY TISSUE PAPER

Ward Rothburn of Pontiac lost his chances for any higher position in the Trenton 40-marathon powerboat race at Trenton by a freak incident last Sunday.

He was up around 4th place when a piece of tissue paper hit his carburetor. He had to stop and subsequently he finished 9th in the race for class A utilities.

Len Osh, also of Pontiac, made his first start in powerboat racing in the same event and completed the race in good shape. He and Rothburn built the boat he was driving and in his first competition he took 8th place.

Next Sunday the pair will compete on the mile and a quarter course at Jackson, a three lap race. Other races for Rothburn and Osh include the 50-mile marathon at Belle Isle, May 28th; the 100-mile, Thousand Island race June 10th and the Top O'Michigan race in July.

The Family Cruise Club, with eight families participating had a wonderful day, (one of the few sunny ones we've had the last six weeks) for the trip to Dresden, Ontario last Sunday.

The club received a royal greeting from the Dresden Boat Club and received an invitation to join the Dresden BC in their annual celebration in June.

Commodore of the FCC is George Barber; vice-commodore, Harley Hyatt; cruise-master, Charles Cappell; assistant cruise-master, Floyd Coulter, secretary-treasurer Douglass McGinley and membership Frank Molina. Information regarding membership can be obtained by contacting Molina.

In their first race of the season last Sunday, Pontiac Yacht Club Lightning Skippers had 15 boats on the course at Cass Lake.

Bob Flack, with son Ted and Penny Cowan took the honors. Second place went to Al Gray with son Jerry and daughter Joan and Dr. Leo Wasserberger piloted his new lightning to third place. With him were Les Huntwork and Dr. Robert Vedder. Phyllis and Charles Callahan were starters.

"The breezes were warm, light and southwesterly," said publicist Virginia Behler.

EVERY WEEK WE HEAR FROM ANOTHER BOAT OR YACHT CLUB. DID SOMEONE SAY THERE WAS A CLUB OF SNIPES OUT AT GREEN LAKE?

... AND YOU MARINE DEALERS AND SKI CLUBS ... WE CAN'T KNOW OF YOUR ACTIVITIES OR NEWS IF YOU DON'T TELL US.

New Boat Paints Fine, but Only if Used Right

By WM. TAYLOR MCKEOWN

Newspaper Enterprise Assn.

New statistics and variables are good news for the boatman fitting out.

More resistance to sun and spray, abrasions and barnacles are among the claims made.

Through chemical action, some of the coatings can convert into plastic finishes. Properly applied, they should last for one or more seasons. While expensive, the new compounds should pay off in better service and longer life.

The worst problem the amateur boatman will come up against when applying these products is likely to be himself. He must take the time necessary for proper preparation and procedure.

A springtime painter can buy the same brushes, sanders and spray guns which boaters use. He must read the instructions and follow them.

Regardless of what brand is used, it will need to go on a surface that has been rid of old flaking paint, has no residue of grease, oil, wax, wood bleach or paint remover, and is smooth, but still rough enough to allow tooth for the paint to grip.

The paint itself, if epoxy-resin based, is likely to come in two containers that must be carefully mixed. As in any chemical reaction, measurements can be important and in this case, temperature, timing, humidity and ventilation will affect the job.

Properly put on, epoxy resin has a glue-like grip a few hours after application, and may go on curing into an even harder surface for several days. Once its molecules link arms and kick over into a permanent plastic, it has been found strong enough to replace welding in the fabrication of some airplane parts.

To take advantage of its properties, the boatman should wait a day with temperatures between 60 and 80 degrees.

He should find out how much working time he will have before the mixture starts hardening rapidly — usually an hour or so — and then mix only the amount he will have time to use immediately.

Painting outside is preferable since the paint can give off toxic fumes. The painter will find rubbing gloves helpful if the product irritates his skin.

Should he forget to mix in the catalyst properly, he and his boat are in real trouble. His paint job will never dry. He'll spend long hours learning to be more careful while he tries to scrape it off.

Unfortunately, neither salt water barnacles nor growths that grab hulls in brackish inland waters have heard about the miracle properties of plastic hulls and paints.

It is important, therefore, that the boatman still coat his hull below the waterline with poisonous antifouling paints if his boat is in such waters.

Rental cars are nothing new. Neither are boats for charter. Hitched together they may appeal to families or fishing friends who look for variety.

We have seen small runabouts and fishing skills poised on their trailers ready for rental throughout the country. Lake Washington in Seattle, the Red River Valley's Lake Texoma, San Diego's Mission Bay and New Hampshire's Lake Winnepesaukee have boats in and out of the water waiting for passing motorists.

Now, already hitched up, are car, trailer and outdoor powered cruiser large enough to live aboard afloat or ashore.

One southern outfit named Boatours is stationed at Miami Airport.

A family can board a plane in any snowy corner of the country and land in Florida with a complete rig ready. Two hours after touchdown time the vacationers should be afloat on Biscayne Bay.

Painters BEWARE — This professional is first taking time to sand down, while using a mask against toxic dust.

Check Your Spark Plugs

Backfiring of outdoor engines frequently is caused by switched spark plug wires. One way to overcome this is to use tape with numbers placed on the high tension leads, corresponding with numbered tape at the proper spark plug location.

MOBILE MARINA—This is not a flying saucer, but a projected type of floating marina. Anchored offshore, it will provide fuel, refreshments and showers for pleasure boatmen. It is self-propelled with outboard motors and has everything but car hops.

Get Your Hot Dogs, Ice Cream and Gas

Floating Marina in Near Future

By WM. TAYLOR MCKEOWN

Newspaper Enterprise Assn.

Marina, official name for the seaside service station, may soon go afloat under its own power.

A combination filling station and ice cream wagon is the latest project endorsed for the critical facilities shortage hampering pleasure boating.

The average small boat skipper today does not buy a boat until he has lined up a spot where he can launch or tie it up. The industry knows many more boats would be sold if there were hundreds more launching ramps and marinas.

Gasoline barges are anchored in some harbors to service pleasure boats.

Now the Lake Star Boat Company has come up with prototype drawings of an outboard propelled gasoline station and refreshment stand, with facilities for showers and minor servicing as well. Anchored offshore, it can find a location convenient for boaters, while avoiding the high cost of shoreline property.

Plans call for the construction of the mobile marina out of aluminum and fiberglass. Sides of the flying saucer design would fold up for trailering by truck.

In the center of the upper deck a plexiglass dome would provide full view for the helmsman as he steers the two outboards hidden below decks.

Running a waterfront supply center seems to have great appeal to landlubbers. I have received many letters from service men finishing their tours of duty who want to know how to get into this pleasant business.

Unfortunately, marinas do not run themselves. The operator who goes into the activity to retire is usually a retired businessman. He usually facilities now offer fuel, servicing, repairs and overhauls, spool and boat and motor sales. Some have restaurants, laundromats and groceries.

Others provide sleeping ashore under awnings, and some have swimming pools, beaches and expensive cabanas have been known to attract business while driving away more traditional yachtsmen who like the sport because it can be inexpensive.

There are likely to be customers eventually for both the down-to-water marina and the fancy dockside resort.

Skippers and salesmen are clamoring for the time when there will be launching ramps, docks and marinas for all who wish to have fun on the water.

States have devised various forms of markers and buoys to help regulate and assist the growing numbers of boats. However, many states went ahead on their own initiative and imagination. As a result, a man boating in more than one state could easily find himself in a state of utter confusion with markers meaning different things.

The Committee of State Officials on Uniform Markers to the Advisory Panel of State Officials to the Merchant Marine Council, U.S. Coast Guard, has been working on specifications and illustrations.

On April 17, these recommendations were sent to all governors and appropriate state officials.

The Committee hopes these suggested markers will be approved by the Coast Guard and by other federal agencies for use on waters under federal jurisdiction.

First successful outboard motor was put on the market in 1907.

Approved Life Jackets Are Orange in Color

Since 1940 life preservers of jacket design approved by the U.S. Coast Guard are required to be in color. Orange in color. Approved buoyant vests and buoyant cushions, however, may be of any color. All approved life saving equipment must have a manufacturer's tag attached, giving Coast Guard approval number, and life jackets in addition must have an inspector's stamp.

Small Open Boats: bailing device, light anchor, portable spot, light, extra anchor line, boat hook and paddle. If the boat is equipped with an outboard motor, keep an extra propeller aboard; also a compact outboard motor tool kit, extra spark plugs and a sharp, sturdy pocket knife.

Between two anchors heavy enough for the particular boat, and a third if the boat is over 30 feet long; extra line; flares; compact, inflatable raft; battery operated, portable searchlight; broadcast receiver; charts; extra mechanical bilge pump; extra spark plugs and critical engine parts; tool kit, and assorted fastenings.

Sailboats: long-range auxiliary sailboats should carry the same equipment as cruisers, plus extra sails and line as might be needed in case of emergency; a day sailer should be treated as a small open boat and carry a paddle, bailing device, some type of convenient distress signal, and possibly a light anchor.

Skippers of small open boats generally should not allow themselves to be caught in positions where they will need a great deal of equipment to pull out of a tough spot. Such boats should not be found too far off shore, or out of range of immediate assistance.

Life preservers, vests and boat seat cushions which have been approved by the U.S. Coast Guard, are marked with a cloth tag and official number. On buoyant vests (jackets) the tag indicates whether intended for use by adult or children and gives weight range on latter.

Approved Life Vests

Life preservers, vests and boat seat cushions which have been approved by the U.S. Coast Guard, are marked with a cloth tag and official number. On buoyant vests (jackets) the tag indicates whether intended for use by adult or children and gives weight range on latter.

Marine Company Enters Small Boat Production

Outboard Marine Corporation will enter the field of small boat manufacturing in 1962 with a line of inboard pleasure boats, featuring the company's new 80 horsepower stern drive unit. It was announced today by W. C. Scott, president.

Mr. Scott said the decision was reached after more than two years of researching small hull designs. In its development program, he said, the company has been meeting a combination of features which would afford maximum pleasure to the family interested in outdoor recreation.

Paralleling this program, he added, has been one of manufacturing research aimed at producing top quality boats at reasonable cost.

Boat construction will be centered in the Special Products Division at Waukegan, Ill. Harris O. Ewald, general manager of that division, revealed that construction will begin immediately on a 23,000 square foot addition to the existing plant.

Marketing of the boat will be done by the Special Products Division, and John Millard, Milwaukee, Wis., has been appointed director of sales and advertising. Mr. Millard, who was formerly sales training director and regional sales manager for the Evinrude Motor Division, will form a staff which will work through a dealer organization.

The new boat will be a 17 foot "compact" day cruiser designed to provide the accommodations normally found in much larger boats. It will be of reinforced plastic construction and will be fully equipped when delivered to dealers, requiring no further equipment to satisfy boating standards for service and safety.

There will be several versions of the basic design, including a fishing model and a deluxe-styled and fully equipped runabout. Mr. Ewald said all models will be powered with the new Outboard Marine 80 h.p. four-cylinder V, stern drive unit. Its design allows storage in a family garage with easy trailering.

Invaluable Trees Still Falling Victim to Outmoded Land-Clearing Tradition

COUNTY'S OLDEST WHITE WILLOW — This gnarled white willow tree on Arnold I. Richardson's property at 3338 S. Union Lake Road in Commerce Township is believed to be the largest and oldest of its kind in the United States. It is one of seven trees in Oakland County ranked as national champions. Dwarfed by the tree's size is Dick Hanson of The Pontiac Press editorial staff.

States. It is one of seven trees in Oakland County ranked as national champions. Dwarfed by the tree's size is Dick Hanson of The Pontiac Press editorial staff.

The county can boast — at least for a little while — some of the largest and finest tree specimens in the state, and even the nation in a few cases. These are fine old trees that have stood for centuries. They too are destined to die, however, as old age wins in the end. Nature in its perfection allows for this certain inevitability by grooming a succession of younger trees. If left alone, they will be champions in their prime.

Oakland County today can point with pride to a lovely white willow, a national champion standing on the property of Arnold I. Richardson at 3338 Union Lake Road in Commerce Township. This graceful tree measures 367 inches in girth, stands a proud 55 feet high, and has a spread of 96 feet.

Other national champions in the county are a huge Swamp Oak with a 213-inch girth, climbing 102 feet up, with a foliage spread of 107 feet on the Chamberlain Farm on Letts Road, north of Rochester, and a splendid Black Maple, whose girth is 107 inches, height 94 feet and spread 73 feet, on John Crisco's property at 42180 W. Eight Mile Road in Novi.

In addition, there are 22 other state champions in the county, including 11 top-ranking oak trees from which the county derives its name.

We can point with pride to our magnificent trees today, but where will we point tomorrow?

By DICK HANSON

A new home-construction season is under way in Oakland County with the arrival of warm weather, and the annual onslaught on the area's trees is being resumed. The "good old American tradition" of clearing the land, which means felling every tree before commencing to build, has got to go. Otherwise, it means the continued wanton waste of one of this land's greatest blessings, i.e., its invaluable trees.

The land-clearing tradition — no longer desirable — was founded in pioneer days when there were fairly good reasons for laying bare the wooded areas.

Virgin woods fell to the axe to make room for the plow. And, the resultant timber was used to build homes where the trees had reigned supreme for centuries.

On the sound theory that a tree could offer cover to a skulking Indian, settlers left near a sapling standing within shooting distance of their cabins.

CUSTOM REMAINS
The necessity for this practice vanished along with the marauding Indian. But the tree-removing custom remained, even to today when the first step most home contractors take in "developing" a new suburb is to remove the trees — all of them.

Beautiful specimens — and Oakland County still has many in areas yet to be "developed" — fall victim, with no thought to the hundreds of years they took to grow into their splendor.

Builders further rape the land by rooting out smaller trees, lest they should lend their beauty and stucco to future generations.

The prospective American homeowner considering the purchase of his first home in a new subdivision has come to accept the scalped landscape as natural, if he thinks about it at all after living in a nearby treeless city. If the new house suits him, he can plant the trees along with his garden and lawn after settling in, he reasons.

With proper care his lawn and garden will prosper within the year. No, the costly young trees purchased from a nursery, know they'll never grow as big as the trees they can offer shade and beauty to amount to anything.

And, while waiting for the trees to grow, the homeowner can spend several hundred dollars more for fertilizers to feed his lawn — which could have been nourished by the trees that once grew there.

Happily, the tree-clearing tradition is becoming outmoded as homeowners become more conscious.

While it is still easier for a contractor to build homes after removing all of the trees, he is usually willing to go along with the trend, once it is established. If people want homes with trees, he will spare them as a necessity for doing business. This has been proven in some areas. In others, it is too late.

Unfortunately, sparing the trees has been pretty much limited to the sites of more expensive homes. The explanation for this is that buyers of more luxurious quarters are usually older people who already have lived in a less expensive suburb lacking trees.

They learned the value of trees by not having any before. Experience often is a costly teacher. Much more of Oakland County's pleasant countryside is destined to be given over to home development as the population in the metropolitan area continues to swell.

There are still many wooded areas virtually untouched hereabouts. The scalping process has

made its inroads, but so far has not been extensive.

BOARDING HOUSE

Flint Man Is Freed From Jail Sentence

FLINT — John N. Bogart, a Flint man serving a six-month jail sentence for contempt and soliciting lost business, was freed today by General Circuit Judge Don D. Parker.

Bogart and A. Matthew Buder, a Flint attorney, both were convicted and jailed for soliciting. Bogart was freed by U.S. District Judge Frank A. Picard at Bay City after serving 31 days of a 30-day term. Picard told Buder "You were unfairly tried."

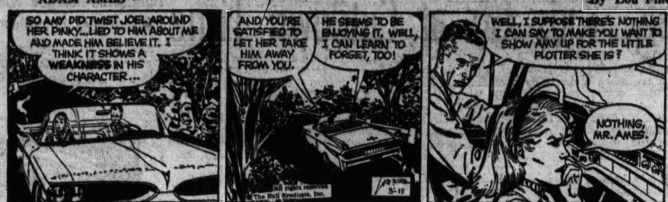

In freeing Bogart today, Parker said "The Circuit Court jury which convicted you and Buder were right. You both were guilty. Since Buder apparently has found a weak link in the judicial system, I must provide equal justice."

Holds Japanese Youth for Planning to Kill Ikeda

TOKYO — A 28-year-old Japanese youth is being held or charged of planning to kill Prime Minister Hayato Ikeda.

Police said he carried a 30-caliber revolver and a 100-caliber rifle. He is being held for planning to kill Prime Minister Ikeda to reform society.

James Roosevelt Urges Parole for Eichmann

JERSEY CITY, N.J. (AP)—Adolf Eichmann, former Nazi leader charged with being the greatest mass murderer of all time, should be paroled after he has been found guilty, Rep. James Roosevelt, D-Calif., said Wednesday night.

If Eichmann were allowed to go free, the act "would serve as a great example of the generosity of the State of Israel," the congressman said at a meeting of the Jersey City Israel Bonds Committee.

The trial of Eichmann, now in progress in Jerusalem, is one of the biggest contributions Israel could make to the world, Roosevelt said, because information about the proceedings will eventually penetrate the "iron-curtain" countries and show those nations how a democracy operates.

There are about 3,000 kinds of lizard.

To Seek X15 Record in Coming Week

EDWARDS AIR FORCE BASE, Calif. (AP)—The National Aeronautics and Space Administration says a test pilot will try to set a new speed record with the X15 rocket plane next week.

The flight is tentatively set for Tuesday. Test pilot Joe Walker will be at the controls. The goal of the flight is 3,600 miles per hour, 300 m.p.h. faster than the speed record for controlled flight set by the X15 March 30.

AF Order in Detroit to Hit Near \$2 Million

WASHINGTON (AP)—Sen. Philip A. Hart, D-Mich., said today a \$750,000 Air Force contract awarded a Detroit firm Wednesday is expected to be replaced later by one totaling about \$2 million.

The contract calls for the production of so-called aerial unloading kits to be used in a new Air Force delivery system which uses both railroads and aircraft.

The recipient of the preliminary contract was Brooks & Perkins, Inc. of Detroit.

Hollywood Mothers Run 'Share' Charity

By EARL WILSON

HOLLYWOOD — I'd like to be unique and say something nice about Hollywood wives.

It's not true—that they being heartless husband-killers who only visit their homes and swimming pools when they're bored with the beauty parlor.

Out here the Hollywood wives run a charity called "Share" (the letters standing for "share happily and reap endlessly") and rope their husbands into an annual boom town show.

"It's a dream show," all will admit.

The sensations are "The 40 Beautiful Hollywood Mothers" who make up the chorus.

For three months, the "Beautiful Mothers" had rehearsed dance steps and banjoing—now Sammy Davis told Milton that no minstrel was complete without burk.

The "Beautiful Mothers" backed up right there and danced and banjoed with Sammy—and brought down the house, besides raising \$125,000 for the mentally retarded.

Too often charities are run for personal publicity.

But here in this Mecca of personal publicity, the Hollywood wives have made "Share" stand for what it really means—unselfishness.

Sammy Cahn, who wrote all the special songs, said that next year the beautiful mothers will get into wheel chairs and do a number titled "We're Getting Too Old For This Jazz." But I think not. The Hollywood wives are doing one of the really nice things in the country.

THE MIDNIGHT EARL . . .

Singer Sarah Vaughan and husband C. R. Atkins applied at Chicago's Cradle to adopt a baby . . . Pretty Carole Byrd of "Master of the World" goes right into another science fiction film, "Year 2889."

EARL'S PEARLS: A bachelor is a fellow who'd rather sigh sadly over the girl he should have married than the one he shouldn't have.

TODAY'S BEST LAUGH: Hal Holbrook bought a small foreign car and no longer has trouble finding parking space. But now he has trouble finding the car.

WISH I'D SAID THAT: A cynic put it this way: "Anybody interested in learning about the world we live in had better hurry."

Some men's idea of a good time is one where it's easy for the wife to get a steady job. . . That's earl, brother.

Postpone Exam of 7 at Municipal Court

Examinations of persons scheduled yesterday in Municipal Court were postponed until May 17.

Four men are charged with attempting to break into People's Food-O-Mat, 465 E. Pike St., April 18.

They are Clayton N. Knepper, 40, of 30 N. Edith St.; Elnus Zimmerman, 41, of 47 Hillside St.; Bloomfield Township; a d Franklin Brock, 28, and Robert Weatherbee, 47, both of 843 Melrose Ave.

Otis Mitchell, 35, of 445 S. Jessie St., accused of stabbing his wife, will face examination on a felonious assault charge.

Clarence Williams, 365 Luther St., will be tried on a charge that he made a false report to Pontiac police.

Examination of Herbert Houck, 25, of 258 Elm St., will face examination on a felonious assault charge.

Drunken Driving Ruling to Go to Higher Court

Andrew J. Freeman, 69, of 2075 Auburn Ave., was found guilty of drunken driving yesterday before Municipal Judge Cecil McCallum and ordered to pay a \$100 fine or spend 15 days in the Oakland County Jail.

Freeman appealed the case to Circuit Court.

Swainson Wants Action on Key Bills

Big 3 at Geneva Receive Word of Cease Fire

U.S., Britain and France Will Take Seats, Work on Laos Peace

From Our News Wires
GENEVA — The Big Three Western powers were reported ready to take their seats Friday in a conference about the future of Laos, basing the decision on word received in London today that organized fighting has ceased in the jungle kingdom.

There was no official confirmation from the United States, Britain and France that they had dropped earlier reservations to participating in the conference if a cease fire was not certified.

But sources close to the Western delegation said that, in view of the London news from Laos, they probably would agree to sit down at the conference table with their Eastern opposites.

Another potential complication arose early today in Vietnam when a top aide of Deputy Premier Phoumi Nosavan was assassinated as he drove in a car through the downtown area.

Unconfirmed reports said the killing was staged by the Communist Pathet Lao.

U.S. Secretary of State Dean Rusk and President Kennedy's moving ambassador, W. Averell Harriman, already are in Geneva.

So is Soviet Foreign Minister Andrei A. Gromyko.

Red China's foreign minister, Chen Yi, arrived this afternoon.

Lord Home of Britain and Maurice Couve de Murville of France were due later in the day and were reported planning to meet with Rusk to express official willingness of the three to take part in the conference.

WORD SEEMS OFFICIAL
A Foreign Office spokesman in London said an assurance that organized fighting had stopped arrived there from the Polish-Lithuanian Canadian control commission.

The murdered man was Maj. Chao Ekarat, a Laotian prince and nephew of neutralist Prince Souvanna Phouma.

He was killed as the government continued to hold off naming a delegate to the Geneva conference until the control commission verified that the rebels are respecting the cease fire.

It appeared unlikely the government would get any representatives to Geneva for the start of the conference if it begins on schedule.

Seek Sabotage in Plane Crash

Craft Apparently Was Not High; Death Toll Is 78 in Sahara Wreck

ALGIERS (UPI)—A French airliner which crashed into the Sahara Desert Wednesday fell to earth from a comparatively low height, a report from the scene of the crash said today. French experts were checking possibility of sabotage in the tragedy.

All 78 persons aboard the Super Constellation, on route from Brazzaville to Paris, died in the crash. The victims included five members of an American diplomat's family.

French oil company executive Henri Maréchal, who visited the crash site today, told UPI by radio telephone that the plane apparently did not fall from a great height.

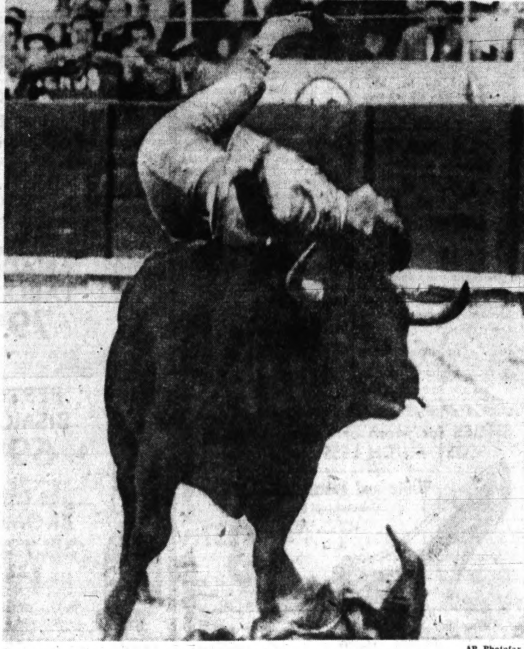

It exploded in flames on hitting the desert, he said, horribly mangled the bodies of all aboard and making identification of them difficult.

The cause of the crash has not been announced. An Air France spokesman said in Paris Wednesday night it was "unexplainable" and that the possibility of sabotage was being taken into account.

Church Group Started

Editor Cites Leaks

Raps Russell for 'Smear'

WASHINGTON (AP)—James S. Pope, a former president of the American Society of Newspaper Editors, has accused Sen. Richard B. Russell, D-Ga., "of attempting to smear" newspapers simply because military men have been careless with defense data.

Pope, executive editor of the Louisville (Ky.) Courier-Journal and Louisville Times, wired Russell objecting to views expressed by the senator in testimony released Wednesday by the Senate Armed Services Committee. Russell is chairman of the committee.

A transcript of the testimony, taken in April, quoted Russell as agreeing with Secretary of Defense Robert S. McNamara that too many military secrets had been leaked and published.

The transcript quoted Russell as saying:

"About the public's having a right to know the most highly secret of our defense plans, I think that's absolutely ridiculous. I have an almost unimpeachable contempt for any man in politics who would be frightened by newspapers telling him they would attack him because he was not giving them intimate details about defense planning."

In Pope's wire, released here, the editor said:

"Many editors would think this a contemptible effort to smear newspapers simply because military men have been careless with defense data. If you know of any editor who has threatened a politician to extract military secrets you should name him."

"If you don't know of any such effort you should retract your smear on newspapers. Those editors who have fought for freedom of public information have always excepted secret military data and you should know it."

Pope has been chairman of the ASNE Freedom of Information Committee three times. McNamara appeared before the committee April 4 and 5. It was then holding closed sessions on the Kennedy administration's military budget.

The transcript released was considered censorious, but it showed McNamara expressing shock that Postmag security experts had released so much of his secret testimony on military matters.

At the time McNamara testified, newsmen were given copies of a prepared statement he took into the hearing room. The statement first was screened by Defense Department security specialists.

McNamara appeared before the committee April 4 and 5. It was then holding closed sessions on the Kennedy administration's military budget.

President Asks Federal Action on Delinquency

Wants 5-Year Drive; Set Up Committee to Seek Solutions

WASHINGTON (AP) — President Kennedy today asked Congress to authorize a five-year program of federal action to combat juvenile delinquency.

Secretary of Welfare Abraham Ribicoff estimated the cost for the first year at \$10 million.

Along with a special message sent to Congress, Kennedy issued an executive order establishing a special committee on juvenile delinquency and youth crime, to coordinate federal activities and to seek new ways of fighting juvenile delinquency.

Kennedy named to the committee Atty. Gen. Robert F. Kennedy, Secretary of Labor Arthur Goldberg and Ribicoff.

The attorney general was named committee chairman.

In his message to Congress, the President said there has been an increase in juvenile delinquency in both urban and rural communities.

"Juvenile delinquency and youth offenses," he said, "diminish the strength and vitality of our nation."

The legislation he proposed would provide federal grants to any state, local or other public or nonprofit agency for the evaluation and demonstration of techniques in fighting juvenile delinquency.

GRANTS FOR EXPERTS
Federal grants also would be available for training and employment of experts in the field.

The proposed bill also would establish technical assistance to state and local governments and private agencies for short-term training and instruction in technical matters related to the prevention and control of juvenile delinquency.

The President also announced the appointment of David L. Hackett as executive director of the committee on juvenile delinquency and youth crime, effective immediately.

Hackett, 34, was a member of the U.S. Olympic hockey team in 1948 and 1952.

During the presidential campaign he was director of correspondence in Kennedy's campaign team. He was president of a Montreal publishing firm.

In his message, Kennedy said "we must undertake a program integrating specific remedies into the total attack upon the prevention and control of youth offenses."

DEDICATED PERSONS
"By means of the proposed legislation, the federal government will be able to provide assistance to dedicated persons in local communities throughout the nation who are striving in many ways to create the social conditions that will ensure the growth of a skilled and resourceful population of young men and women who are firm in character and committed to the development of a democratic way of life."

A government report last year said juvenile delinquency costs the nation \$5 billion a year.

Clear Skies, Balmey Friday Seen for Area

Today's clear skies will continue through tonight with the low temperature a mild 48 while weathermen say.

Friday will be just like a summer day with skies a little cloudy and the temperature a balmy 70.

Mostly cloudy with scattered showers and not much change in temperature is the outlook for Saturday.

Morning easterly winds at 8 to 15 miles per hour will shift to southeast to south tonight.

Special Session Is Not Likely

Solons Warned

State Legislature Has Until Friday to Pass Major Measures

LANSING (AP)—Michigan's battle-weary legislature today struggled toward adjournment with a prodding from Gov. Swainson to do something about important matters still unsettled.

The governor warned lawmakers in a special message Wednesday night that they cannot count on him to call a special session to take care of major legislation not disposed of during the regular meeting.

The legislature is scheduled to wind up the 1961 session Friday.

Three major bills died under a Tuesday midnight deadline for passage of all measures through both the House and Senate, starting talk of a special session in June or July. They would:

—Bring Michigan under the new program of federal aid to dependent children of unemployed workers. The state would realize about \$20 million from the emergency plan.

—Extend special taxes on telephone and telephone bills and a penny-per-pack tax on cigarettes, producing nearly \$20 million a year for state colleges and universities, mental health programs, state employee pay raises and state aid to public schools. They are part of a \$50 million package of so-called nuisance taxes scheduled to expire June 30.

—Set up restrictions against unlimited billboard advertising on the interstate highway system, bringing Michigan more than \$5 million in federal funds if the plan is adopted before July 1.

These Democrats introduced resolutions Wednesday to suspend legislative rules and allow consideration of the billboard and aid to dependent children measures, however, GOP leaders in the House and Senate said chances for adoption were remote.

There is no need for a special session, the governor told legislators. There is still time to act, deadlines notwithstanding, he said.

Power granted the governor to call an extraordinary session presupposes an event or situation occurring after the adjournment of a regular session," he said. "At this time, a crisis forces anything to submit to the legislature that is not now or has not been already before it."

The governor's proposal to extend the cigarette and telephone levies for two years and to raise the \$42 million budget written by Republicans.

The governor's proposal brought a scolding from George Van Pusem, Republican state chairman.

"This is political gimmickry at its worst," he said. "A two-year extension of temporary taxes would take him safely through his term of office — and through an election campaign in which he would once again promise their repeal."

Romney Denies Plan to Run for Governor

FROM OUR NEWS WIRE
DETROIT — George Romney was one of Richard M. Nixon's conferees Wednesday in the former vice president's private talks with business and Republican political leaders.

Romney, answering a newsmen's question afterward, said he had no intention of running for governor of Michigan in 1962 as any result of the meeting.

The American Motors president and head of Citizens For Michigan said he had made no commitments to anyone of "either party."

George Van Pusem, chairman of the Michigan Republican party, indicated displeasure over reports that Nixon had sharply criticized the Michigan party leadership.

He said Nixon did not criticize in the meeting between himself and the former vice president.

Nixon met with a group of business and professional men.

"It's regrettable," Van Pusem said, "that Nixon spoke to these people rather than party leaders. We are the responsible leaders of the Republican party. In its press conference he said he would offer constructive criticism but this isn't it."

Arlan's to Build in Shop Center

Department Store and Supermarket Planned for Project on Telegraph

Plans to locate a branch of the Arlan's department store chain in a \$12.5 million shopping development at Telegraph Road and Dixie Highway in Waterford Township were disclosed today.

Construction plans for an 80,000-square-foot building for the national department store concern and an accompanying structure of more than 20,000 square feet for a supermarket were announced by John J. Bourne, a Detroit real estate broker.

Ground breaking is scheduled to begin in about a month, said Bourne, a member of the commercial realty firm of Hubbard Associates.

The two structures will be on an L-shaped site of more than 11 acres at the southwest corner of the intersection. The site fronts on both Telegraph and Dixie, but skirts the corner itself, where several other businesses are located.

Bourne said he is still negotiating with several chains for the supermarket lease.

With headquarters in New Bedford, Mass., Arlan's has branches in a number of cities. There are three in Detroit.

Another Michigan branch, under development in Allen Park, is being developed by Hubbard Associates.

LBJ Arrives in S. Viet Nam

VP Assures Asian Nation U.S. Will Stand by Allies Against Reds

SAIGON, South Viet Nam (AP)—Vice President Lyndon B. Johnson arrived in this strategic Southeast Asian nation today, bringing assurances that the United States will stand by its allies in this part of the world in the face of Communist danger.

The vice president, on a round-the-world mission for President Kennedy, came here for an on-the-spot study of Communist aggression in a guerrilla war in which an estimated 400 to 500 Vietnamese are being killed every month.

RECEIVES SALUTE

Johnson stepped from a chartered jet and took a salute from a sharp-looking honor guard of 400 Vietnamese. Strict security precautions are in force for Johnson's visit.

The vice president held a short ceremony pledging U.S. support for hardpressed allies in this part of the world.

He is scheduled to hold a two-hour conference Friday morning with pro-Western President Ngo Dinh Diem.

Zoo at Royal Oak Open; Has Many Baby Animals

The Detroit Zoological Park opened its doors for the 1961 season this morning with prospects that reptiles, babies and the star chimpanzees will be favorite attractions this year.

This will be the zoo's 34th season. It is located at 8450 W. 10-Mile Road, Royal Oak. The park will be open from 10 a.m. to 5 p.m. weekdays and 9 a.m. to 6 p.m. Sundays and holidays.

Fast becoming the most popular spot at the zoo is the **Holmen Museum of Living Reptiles**, which was completed and opened last August.

Some 300,000 people visited the museum in the few weeks it was open last year, surpassing all staff predictions for popularity.

The collection has been increased this year. Now there are 450 specimens of some 250 species of reptiles, amphibians and tropical birds.

MANY BABIES

New arrivals in the animal world are annual crowd pleasers, and this year at opening time the zoo has more babies than ever before.

Most noteworthy is Ota, a baby orangutan born to Sadie and Jiggs, Bornean orangutans, last Feb. 20.

Few have been born in captivity. So far as staff members know, this is the first time a male orangutan has been left with the mother during and after birth.

Other important youngsters are four Kodiak bear cubs, lion cubs just barely old enough to be introduced to the public, kangaroos, clouds, and a baby rhinoceros named, bunnies, barnyard animals and many more to come in the deer family.

"Rodeo Days," a western TV review, is the third of three men chimpanzee show. It is a fast-moving exhibition of chimpanzee prowess, and pony routines.

HOPSCOTCH TROPHY WINNERS—Winners of the fourth annual hopscotch tournament, sponsored by The Pontiac Press and the Parks and Recreation Department, are Cindy Malwitz (left), 11, of 502 Moore St., the champion, and Delores Carr, 12, of 456 Branch St., the runner-up. Cindy, who attends Herrington School, and Delores, who attends Bethel, hold trophies donated by The Press. The two girls competed in the final rounds with 13 other sixth graders after preliminary competitions at 15 Pontiac elementary schools.

RICHARD JONES

Lassiter Murderer Balks at Testifying

set for hearing tomorrow before the judge who sentenced them and whose testimony at the preliminary hearing at which Mrs. Lassiter and Watson were bound over for trial.

Judge Rashid was to rule whether the state would introduce Jones' testimony at the preliminary hearing at which Mrs. Lassiter and Watson were bound over for trial.

Defense lawyers objected at the close of Wednesday's session that they were not off from determining from Jones whether he was lying or telling the truth at the preliminary hearing.

At one point, Judge Rashid suggested that Jones could be sentenced to the public, kangaroos, clouds, and a baby rhinoceros named, bunnies, barnyard animals and many more to come in the deer family.

The judge smiled and the jury review, is the third of three men chimpanzee show. It is a fast-moving exhibition of chimpanzee prowess, and pony routines.

Hits Tornado Warning Setup

Weather Bureau Chief
Says U.S. Service Is
'Not Good Enough'

WASHINGTON (UPI) — The chief of the U.S. Weather Bureau believes America's tornado warning service isn't good enough. He said it has "made great strides" in the past seven years and has saved hundreds of lives. He finds this gratifying.

But, said Dr. F. W. Reichelderfer, "The nation should be far from satisfied."

To have a warning service good enough to spot tornadoes as they are born and predict precisely where they will hit, he said, the United States must invest a lot of hard work and money in weather research.

He said it also must make fuller use of available modern tools of storm detection such as advanced radar and weather satellites. This is Reichelderfer's tornado season message to the nation:

"We can't be content with meteorological science as it stands today. Forecasting the possibility of one or more isolated tornadoes in an area of 20,000 square miles (the present prediction limit) has been helpful and is showing improvement all the time."

"But it is a far cry from the ability to pinpoint just when and where these dreadful tornadoes will strike."

"It is toward that objective and the further objective of even suppressing or modifying them that we should aim."

Airman Uses Bigamist Wife to Build Bankroll

BEDFORD, England (AP)—As Royal Air Force Airman Francis Smith carried his bride over the threshold of their house, she broke into tears.

"I have a confession to make," she said. "I've already got a husband."

In court Tuesday, Smith, 24, said he decided to live with her anyway to avoid the disgrace of breaking up the "marriage" on his wedding day. As part of the pretense he claimed a weekly marriage allowance from the RAF.

Smith pleaded guilty to obtaining \$400 in this way by fraud.

"You were grossly deceived by this woman," said the judge. "Since you are now paying the money back, I will put you on probation for two years."

The "bride"—Edith Hoole, 27—will appear in court later on a bigamy charge.

Ike to Receive Award on West Point Visit

WEST POINT, N.Y. (AP)—Former President Dwight D. Eisenhower will visit West Point Monday to accept the Sylvanus Thayer award from the academy's Association of Graduates. Eisenhower will be the first graduate of the academy to receive the award, consisting of a gold medal and scroll.

The award is presented annually at the Founder's Day dinner to a citizen whose service and accomplishments in the national interest exemplify outstanding devotion to ideals expressed by the West Point motto, "Duty, Honor, Country."

Film Producer, Actress Make Plans to Marry

SANTA MONICA, Calif. (AP)—Movie producer Frank Ross, 36, and actress Joan Bradshaw, 24, say they plan to wed Saturday in his Beverly Hills home. They obtained a marriage license Tuesday.

Ross, whose films have included "The Robe," was divorced from actress Joan Caulfield in August. He previously was married to actress Jean Arthur. This will be Miss Bradshaw's first marriage.

Foster Mother of Year Loved 'Em, Loved 'Em

By LEONARD VICTOR
Long Island Daily Press
BALDWIN, N.Y. (AP) — Deaf she said, and blind — locked away from sight and sound—the frail 7-year-old boy was a wild animal in the apers when they took him to Justine Purvis.
“My son couldn't talk, weighed hasn't learned to talk—even the

simplest things like using the bathroom?
There are four rules for the wonderful people like her who serve as foster parents: Wash the child, feed it, dress it and—most important—love it!
To these Mrs. Purvis added a fifth rule. Become a specialist in the child's affliction, learn the treatment and work hard at applying it.
She researched the treatment and teaching of the blind-deaf, from the rescue of Helen Keller to today's most modern methods.
She's still studying, learning, searching for new material even though her four years of endless labor with her blind-deaf boy have produced dramatic results.
Today, “her boy” is at the Perkins Institute in Massachusetts, a good student who is making tremendous progress at the famous school for the blind.
“Now, when he's home on his days and for the summer, he says how many are her two married daughters” and how many foster daughters.
She has this advice for other dressers and feeds himself, reads my lips with his fingers, gets around the house and plays in the yard,” she said in her gentle voice.
The miracle she created with that boy is only one of the reasons she's been chosen by the Nassau County—N.Y.—Family service association.

Service Association as the county's first “Foster Mother of the Year.”
She was picked because she and her husband until his death were always willing to take those foster children with extreme handicaps—the ones no one else wanted.
Twenty-two lucky children have come to the Purvis home in the past 25 years.
Nearly all had the emotional problems caused by the upsets and rejections that made them foster children. Many had physical handicaps.
Many of her boys and girls—she calls all of them “her child”—just like her own five girls—are grown now. They all come home regularly to “mother.”
Mrs. Purvis has a total of 15 grandchildren now, and she won't say how many are her two married daughters and how many foster daughters.
Don't slap. Look below the surface and find out what's troubling youngsters. Never forget that when they came to you they were bitter, resentful, rejected.
Stand still and let them run around you. Put your motor in Nassau County—N.Y.—Family service association.

AP Photofax
HAS FOSTER CHILDREN — Mrs. Justine Purvis, foster mother to 22 extremely handicapped children over the past 25 years, poses with one of her handicapped foster children she currently is rearing in her Long Island, N.Y., home. The child, whose identity and features are purposely unrevealed, shows how some of Mrs. Purvis's blind or deaf and dumb charges, read her lips. Her work has brought her recognition as “Foster Mother of the Year” by the Nassau County, N.Y., family service association.

Plan Waterford Meeting for Girl Scout Leaders
The Girl Scout Leaders Association of Waterford Township will meet at the Community Center at 8 p. m. Monday and elect officers for the coming year.
The group will learn about teaching singing games to their individual groups, and a program on water safety will follow. The film, "Teaching Johnny to Swim," will be shown.
Hostesses for the evening will be from the Hudson Covert neighborhood.
One-piece aluminum shutters for doors and windows are being made. They have a baked enamel finish.

That's Double Trouble
BIRMINGHAM, Ala. (AP) — It was just one of those days for 8-year-old Johnny Hines. Or, rather, two of those days. He fell out of a swing one day and broke his right wrist. The next day he fell playing football and broke his left wrist.
New Mexico has an estimated 176,000 acres of gypsum.

Open 'til 9 p.m. THURSDAY, FRI., & MON. Nights

Swainson to Get 2 'Hot Potatoes'

Controversial Bill on Real Estate Bias Sure to Receive Veto

LANSING (AP)—Two of the most controversial bills in the legislative session—dealing with unemployment compensation and real estate discrimination—were headed for the governor's desk today.

One was certain to be vetoed. Both measures passed their last legislative hurdle Wednesday when the Senate endorsed them with most Republicans supporting them and most Democrats opposed.

Gov. Swainson told newsmen he would veto the bill pertaining to discrimination in real estate dealers because "it is reminiscent to me." It would, in effect, repeal the so-called anti-bias law which prohibits discrimination on basis of race, color or national origin.

The address benefits measure passed by a 19-17 vote, with majority Sen. John Stahl, R-Belding, joining the Democrats in opposing it.

The measure would increase benefits slightly for some jobless workers, raise unemployment taxes by nearly \$10 million yearly and create \$162 million in new bonds to finance a strike against themselves in another state.

Moonshtiner Hits Agent in Court With Crutch

PITTSBURGH (AP)—A Pittsburgh man sentenced to from 6 to 12 months in jail for peddling crack cocaine, broke a crutch over a State Liquor Control Board agent's head Wednesday in Criminal Court.

Judge William J. Cernone promptly changed the sentence to a full year for Robert Strother, 44. The judge said Strother also would face charges of aggravated assault and battery and conspiracy of crime.

The agent, Eugene Barkley, "is a practical appeal to employment was taken to a hospital for examination," Barkley testified.

Two Area Men Head GM Lab Departments

Appointment of two department heads at General Motors Research Laboratories, Warren, has been announced by Dr. Lawrence R. Hadstad, GM vice president in charge of research.

They are William F. King of 1281 Bellevue, Birmingham, who heads the newly formed Electric-Mechanics Department, and Donald E. Hart of 487 Old Perch Road, Rochester, head of Data Processing Department.

The two departments were formerly sections of Special Problems Department headed by Thomas C. Van Degrift, who recently retired.

King was born in Pontiac and attended parochial and public schools here and at Pittsfield, Mass. In 1936 he was employed by Fisher Body in Pontiac as a cooperative student in the General Motors Institute.

In 1939 he joined GM research as a cooperative student and following GM graduation in 1940 he continued at the University of Michigan where he received his B.S. in mechanical engineering.

Hart, a native of Union, N.Y., spent two years in the Army after graduation from Glen Falls, N.Y., High School. Following his discharge he entered Rensselaer Polytechnic Institute, receiving his bachelor of electrical engineering in 1949 and master of electrical engineering in 1950.

He joined GM research in 1950 as a college graduate in training and in 1951 began working on an automatic data processing project. He later assumed supervision of Data Processing Section which offers a complete computer service to GM.

U.S. Launches 'Hire Now' Push for Idle Workers

WASHINGTON (AP)—The government launched a nationwide "hire now" drive Wednesday to put idled workers back to work through the public employment service.

Secretary of Labor Arthur J. Goldberg said 40 governors have pledged support and he expects the others to join in soon.

"This job drive," Goldberg said, "is a practical appeal to employers to step up their hiring in keeping with the rising levels of economic activity now underway."

Many Odd Bookmarks Find Way to Library

GREENSBORO, N.C. (AP)—Bookmarks found in books returned to the Greensboro Public Library have ranged from unpaid bills to snapshots. But that's not all.

One book contained a sock, another a \$3 bill and another a \$1,000 insurance policy. One woman left her husband's paycheck in a book. She retrieved it.

Would Name R.I. Drive for John F. Kennedy

PROVIDENCE, R.I. (AP)—The Rhode Island Senate has voted to change the name of Ocean Drive in Newport to John F. Kennedy Drive. The resolution now goes to the House.

The Hugh D. Auchincloss estate is situated on the drive. Mrs. Auchincloss is Mrs. Kennedy's mother.

National Debt Fills House With Sympathy

WASHINGTON (AP)—In a gift giving mood: Feeling sorry for Uncle Sam because of his burden some \$28 billion national debt? The House is out to help you.

By a voice vote it passed a bill Wednesday to authorize the government to accept gifts of money or other property to be used specifically to reduce the debt.

The money, or proceeds from sale of other gifts, would go into a special account used to retire government obligations.

The bill goes on to the Senate where a similar House-passed bill died last year.

About 68 per cent of North Carolina's electric power is generated in steam plants which are fired by coal.

Rudy Vallee to Appear in Broadway Musical

NEW YORK (AP)—Rudy Vallee, "Vagabond Lover," crooner of network radio a quarter century ago, will appear next fall in a Broadway stage role.

An announcement was made Wednesday that Vallee, 30, has signed to costar in "How to Succeed in Business Without Really Trying."

The musicals slated for an Oct. 14 premiere, is being written by Frank Loesser and Abe Burrows.

Gale Co. to Add Division

ALBION (AP)—The Gale Manufacturing Co. of Albion is forming a new division for aluminum castings. Company President Robert B. Abbott said Wednesday the Division will have a melting capacity of 9,000 pounds daily at the start. He said operations of the present Grey Iron Division will not be affected.

Communist Hits Methods of Reds in Religion Fight

WARSAW (AP)—Some of the basic theories and tactics in communism's fight against religion are being publicly disputed by Leszek Kolakowski, outspoken leader of Poland's liberal Communist philosophers.

Writing in the weekly Argument, Kolakowski makes his bitter attack on Communist thinking since his harsh anti-Stalin criticism in 1957.

"It is not true," Kolakowski wrote, "that religion survives simply because of ignorance and backwardness in a civilization and that with increased urbanization and spreading of education it will wither away by itself."

He complained that Poland's Reds, to combat religion, are disseminating atheistic propaganda of "astounding stupidity."

Cuban Economy Best in Latin America: Fidel

KEY WEST, Fla. (AP)—Prime Minister Fidel Castro says the Cuban economy is in better shape than that of any other Latin-American country.

Havana Radio said Castro spoke Wednesday to a group from Brazil and mentioned that tobacco production had jumped from a \$24-million level to a \$70-million level during the revolution.

Con-Con Seat Sought by Muskegon Resident

GRAND RAPIDS (AP)—Robert J. Danhof of Muskegon, associated with 7½ years with the office of U.S. attorney for West Michigan, Wednesday announced his candidacy as a delegate to the constitutional convention.

A Republican, he seeks to represent the 23rd Senatorial District which includes Muskegon and Otawa counties.

Laughters Give Mom Time Off

By JANET GOELL
Pioneer Press Home Editor

Too many cooks may spoil the broth, but twin cooks make cooking more fun. Carolyn and Cynthia Carr, 12-year-old twin daughters of the Carrs who live at Williams Lake, have been cooking since kindergarten days. They're a real help to their mother.

In fact, they're so much of a help that Mrs. Carr feels queer if the twins are away for a weekend and she has to do all the cooking and baking. She'll be completely lost when they go off to college.

When the picture with this article was taken, Carolyn was supervising the making of a molded salad, while Cynthia had bread rising. They made a chocolate cake later on. Company was coming for dinner and the girls were just doing what they usually do.

Such process in the kitchen does not come about by accident. Preceding it are hours of experimentation when Mother has to put up with spoiled food and messy kitchen. But any mother who has done this will assure you that the results are worth it.

Not only will you have valuable help with your cooking, but your daughters will grow up loving to cook. Isn't that rather desirable if they are to be homemakers themselves?

Cynthia is so fascinated with bread making that she makes it weekly. Here is her recipe. This will make 2 loaves or 1 loaf and 12 dinner rolls and 12 cinnamon rolls.

WHITE BREAD
By Cynthia Carr

1 package dry yeast
1 cup warm water
2 cups sugar
1 cup oil
1 tablespoon salt
1 cup sifted all-purpose flour

Dissolve yeast in water. Add sugar, salt and oil to lukewarm water. Combine two mixtures. Beat in flour, kneading in last cup or so. Knead until smooth and elastic.

Place in greased loaf pans and let rise in a warm place for 1 hour. Turn out on floured board. Shape into 2 loaves or 1 loaf and 12 dinner rolls. Place in greased pans and let rise until double. Bake in 350° F. oven for 30 minutes.

Bake bread at 400 degrees for 10 minutes; reduce heat to 375 and bake another 30-40 minutes or until done. Or bake bread rolls at 375 degrees, taking rolls out when they are brown.

To make cinnamon rolls, roll out 1/4 of the dough into a rectangle. Spread with softened butter and sprinkle generously with sugar and cinnamon. Roll up like a jelly roll and slice with a sharp knife or a piece of string. Place in greased pan and let rise until double.

Carolyn's salad is a recipe she got from her grandmother, then improved on.

PINEAPPLE CREAM MOLDED SALAD

By Carolyn Carr

1 package frozen gelatin
1/2 cup cream
1 cup miniature marshmallows
1 cup crushed pineapple, drained
1 cup boiling water

Dissolve gelatin in hot water. Add marshmallows and cream cheese and stir until dissolved. Add enough water to drained pineapple juice to make a second cup of liquid. Add to first mixture. Pour into small mold and chill. The mixture will separate into 2 layers. Serve on lettuce. Serves 16.

You may be sure the Carrs

Why Not Experiment With Cranberry Juice

One of the cranberry creations with which you can please the family is cranberry fruit drink. This is a red-colored delight with a tangy, refreshing goodness that's a real eye opener. If served well-chilled for breakfast, or as an appetite-tantalizer before dinner. It's easily accented too—a gray yellow twist of lemon, or green mint leaves dress it up in festive style.

You'll find cranberry juice is also a perfect base for combination fruit drinks. It combines favorably with all other fruit juices and may be served hot or cold. Sometimes the addition of stick cinnamon, whole cloves, grated lemon rind, or lemon and lime sherbet are added as delightful flavor surprises.

Try using cranberry fruit drink in cooking too. Bake a hot roast or pork roast with the red nectar and add some to the gravy for follow-through flavor.

Little Sardine Rolls
Broiled for Appetizers

Here's a new taste treat. Remove the crusts from thin slices of buttered bread. Sprinkle each slice with salt, pepper and grated cheese. Lay a whole sardine on one end, add dab of mustard; roll firmly, jellyroll style.

Stick with toothpicks and dot with butter. Set close together on baking sheet. Bake in hot oven until lightly browned. Serve piping hot.

For Freshest MEATS at Lowest Prices
SHINNERS
2 N. Saginaw, Downtown Pontiac

twins will be making something special for Mother's Day this Sunday. Perhaps they'll invent a new recipe this time.

They might even want to try the following recipe for fancy little doughnuts made with refrigerator biscuits. But if we know anything about Carolyn and Cynthia, they'll make up their own biscuits!

WHIZ DO-NUTS

1 pound can shortening
1 package refrigerator biscuits
Spoon shortening into a saucepan. Heat to 365 degrees. When shortening is melted, pan should not be more than two-thirds full. Remove prepared refrigerator biscuits from tube.

Cut holes from centers of some biscuits, using doughnut cutter. Cut some of the biscuits into three equal pieces. Roll each piece into a strip about 6 inches long. Fasten the three strips, pinching them together at the bottom. Cut the remaining biscuits in half. Flatten out a few of the halves into circles. Cut into the circle, halfway to the center, at four equal points to form a flower.

Roll the remaining halves into pieces 6 to 8 inches long. Twist ends of some of the strips in opposite directions. Double and pinch end. With some strips twist again. To make a "small" roll a strip jelly roll fashion and curve each end in a different direction and pinch to the center of the strip to form a figure-eight. Other strips can simply be tied in knots.

Slip do-nuts, holes, flowers, twists, braids, snails, figure-eights and knots into the hot fat a few at a time. Turn once. Total frying time, about 3 minutes. Lift golden brown doughnuts from fat with a slotted spoon. Drain. Serve warm. Makes 25-30.

Orange Frosting
1 tablespoon shortening
1/2 cup sifted powdered sugar
1 tablespoon grated orange rind
1 tablespoon orange juice
1 teaspoon lemon juice

Cream shortening and 1 cup sugar until fluffy. Stir in orange rind and juice. Add remaining sugar until frosting is proper consistency to spread.

TWIN COOKS — Carolyn and Cynthia Carr of Williams Lake work together on a molded salad. These 12-year-old girls have been cooking since they were 3. Each has her own specialty. Cynthia had her bread rising so she could lend a hand with her sister's salad. This is a scene which should be duplicated in many homes this coming Sunday—Mother's Day.

Braised Celery Is an Oven Dish

So why not include some of this celery on your shopping list, for it's so reasonably priced. But make good use of all the celery you buy, and treat it right to enjoy it most.

Treating celery right — if you're going to serve raw celery — means making sure it's crisp. Separate the stalks and wash them ahead of time, and then put them back in the refrigerator to crisp up.

The coarser outer stalks or branches of celery can be used for cooked dishes, such as creamed celery or cream of celery soup, for example. You can stew some of

Fried Onions Rise to New Status in Cheese Sauce

These blue cheese smothered onions are for educated palates. Fry 2 cups thinly sliced onions in butter over medium heat until lightly browned. Sprinkle 2 tablespoons flour over and bake in a moderate oven until the celery is tender. During the last 15 minutes, take the cover off and let the gravy cook down and brown slightly.

These blue cheese smothered onions are for educated palates. Fry 2 cups thinly sliced onions in butter over medium heat until lightly browned. Sprinkle 2 tablespoons flour over and bake in a moderate oven until the celery is tender. During the last 15 minutes, take the cover off and let the gravy cook down and brown slightly.

Dried Eggs Do Scramble Well

Scrambled eggs can taste mighty good when they are made from the dried eggs which are part of the food distribution program of the United States Department of Agriculture. One cup of the golden yellow powdered eggs plus one cup of water is equal to six eggs in the shell.

To make scrambled eggs from dried eggs, pour a cup of water in a pan and sprinkle one cup of dried eggs over the water then stir with a spoon or beater until the eggs and water are mixed. When this is done, it's just like having six eggs broken and beaten, ready for scrambling.

Some people like to add a little milk to scrambled eggs. You can get about the same results by adding two tablespoons of dried skim milk and another half cup of water to the eggs, and stirring up the whole mixture.

If you like to add salt to your scrambled eggs before cooking, about a half teaspoon of salt may be about right, although some people prefer more and others prefer less.

From here on, scramble eggs just as though they were fresh eggs broken out of the shell. Melt some fat in a frying pan and keep the heat rather low. Pour in the egg mixture and stir all the time until the eggs are as dry as you like them.

The Department of Agriculture cook says it's best to scramble no more than 6 eggs at a time. If you have to serve more people, scramble another batch of eggs.

Instead of Water

To give muffins a new and fruity quality, try this simple little hint. When the mixing directions on the usual 14-ounce package specify the addition of 1 1/4 cups water, simply add 2 cups of mashed ripe banana instead of the water.

Blue Cheese Adds Zest to Stroganoff

Hamburger stroganoff, that elegant but easy main dish beloved of younger cooks and working girls, assumes a subtly different flavor when tangy American blue cheese is added to it.

Blue cheese is combined with dairy sour cream, in this instance, which in turn is blended into a ground beef mixture. The resulting entrée is tantalizingly pungent due to the creamy, blue-marbled cheese.

Serve this party delicacy from a U.S. in marble quarrying.

chafing dish. If you wish, on hot, buttered noodles.

Blue Cheese Beef Stroganoff
Add 2 tablespoons instant onion, 1 clove garlic, minced, to 1/4 cup of butter in skillet. Cook over low heat until butter melts. Add 1 pound of ground beef and brown well. Season with salt and pepper. Blend in a tablespoonful of flour. Add one 10 1/2-ounce can of cream of mushroom soup. Simmer about 15 minutes.

Meanwhile combine 1/2 cup American blue cheese into 1 cup dairy sour cream. Stir into meat mixture. Heat through on low heat. Serve, at once.

Georgia and Vermont top the U.S. in marble quarrying.

PTAs Set Installations

The Waterford Township Girls' Chorus will be guests at the 7:30 p.m. Parent-Teacher Association meeting at the Lambert School in Waterford Township this evening. Mrs. Arthur Heiple, president of the Oakland County Council of Parents and Teachers will install the 1961-62 officers. They are: Mrs. Lewis Miller, president; Mrs. Leon Messier, vice president; Mrs. John

Crary, secretary; and Mrs. Gordon Lyon, treasurer.

Following the installation, PTA members have been invited to visit the school science fair. Intermediate Girl Scout Troop No. 50 will be selling candy to raise money for their weekend trip to Northern Michigan this summer.

DANCING AT GRAYSON

Beginning at 8 p.m. this evening, boys and girls from the Grayson School's fourth, fifth and sixth grades will present a demonstration of square dancing, learned during the last year.

After a short meeting, new officers will be installed for next year's PTA activities. The organization will then present the Cub Scout charter for Troop No. 132 to Jack Moxie, the new Cub Scout leader. The Boys and Girls Chorus under the direction of Daniel Addis will conclude the evening's program.

Church Program

The Ladies Guild of St. Paul Evangelical Lutheran Church will meet Wednesday to hear a program on the topic "Youth and the Christian Family." Participating in a panel on the day's discussion topic will be Mrs. Robert Jarrard and Mrs. Gerald Dunsmore. The group is planning a father and son banquet in June.

Speak Vows in State of Washington

Kathleen Dume of Orchard Lake became the bride of Aviation Machine Mite Norman Van Tyre, USSN, Friday evening at the Summit Presbyterian Church, Bremerton, Wash. A church reception followed the double-ring ceremony performed by the Rev. Carl Nissen.

Parents of the newlyweds are the James T. Dumes of Orchard Lake and the Robert Scheels of Fort Collins, Colo.

Pink carnations complemented the bride's suit of white silk shantung and hat of white chiffon roses.

Her matron of honor was Mrs. Burton Welcher of Seattle, Wash. formerly of Westacres. Seaman John Buckles was best man.

After a weekend tour of the Puget Sound area, the couple will be at home in Bremerton until fall when the bridegroom will be stationed at San Francisco. The bride, a graduate of University of Michigan, teaches at Bremerton High School.

Salt May Corrode

Common table salt may corrode and tarnish silver, especially when the salt is moist. Home economists suggest homemakers take special care of silver spoons that have been used to serve salty nuts.

Modeling for the Lutheran Church of the Ascension's mother-daughter dessert are (from left) Lynn Franklin of Waterford, her grandmother Mrs.

Olis Head of Watkins Lake and Mrs. Lewis Crew of Berwick Boulevard. Fashions are from Penney's.

Church Women Plan Event

The United Lutheran Church Women of the Ascension will sponsor a mother-daughter dessert and fashion show by the J. C. Penney Co. of Miracle Mile at 6:30 p.m., Friday at the church.

Mrs. Milton Freet will comment on spring and summer styles modeled by church members Mrs. Dallas Nelson, Susan Nelson, Ellen LaFountain, Cindy Nelson, Linda Wedow, Cathy Crew, Lynn Franklin, Pam Trudgson, Mrs. Eugene Spring and Mrs. Myrtle Head.

To Complete Plans for Annual Show

The Pontiac Society of Artists will meet at 8 p.m. Friday in Adah Shelly Library to complete plans for its annual show.

Mrs. Russell Foshee, chairman for the 13th annual exhibit, has urged all members to be present.

The exhibit will open May 21 with a reception from 2 to 7 at the Shelly library.

Wisconsin Girl Plans to Wed

Mr. and Mrs. C. W. Eichenholt of Cedarburg, Wis., announce the engagement of their daughter Judith Margaret to Dwight I. Pettengill of Dallas, Tex., son of Mr. and Mrs. E. R. Pettengill of Clarkston, formerly of Pontiac.

The bride-elect attends Hillsdale College where she is affiliated with Chi Omega Sorority.

Her fiancé is an alumnus of Hillsdale and a member of Delta Tau Delta fraternity.

Roselea Chavez Weds Airman Agustin Llano

Roselea J. Chavez exchanged vows and rings with A.I.C. Agustin Llano Saturday morning in St. Vincent de Paul Church before the Rev. Joseph Femminino.

Daughter of Mrs. Francisco Cotto of West Wilson Avenue and Jesus J. Chavez of Veracruz, Mexico, the bride was given in marriage by her brother Delfino A. Chavez. Mr. and Mrs. J. A. Llano of San Antonio, Tex., are the bridegroom's parents.

Fashioned of white Chantilly lace and silk organza over satin, the bridal gown swept into a cathedral train. Finger tip illusion veiling fell from a pearl coronet. White carnations and stephanotis comprised the bride's cascade bouquet.

Mrs. Enrique Cruz, her sister's matron of honor, appeared in a champagne silk organza sheath dress and held tangerine carnations. Mary Llano of San Antonio, the bridegroom's sister, wore toast organza. Flora Lopez, Amelia Martinez and Emelinda Agnaga were in maid.

Patricia Velasquez was junior attendant for her aunt, with Yvonne Santa-Cruz. Mary Elizabeth Velasquez, niece of the bride, and Sylvia Paramo were flower girls. Yellow carnations complemented their frocks of Nile green organza.

Alan-Muniz, nephew of the bride, and Kevin Martinez carried the rings.

Enrique Cruz, brother-in-law of the bride, was best man. Seating some 200 guests were Dennis Paramo, John Gaytan, Arturo Martinez and the bride's nephew Henry Muniz.

After greeting some 500 guests at an evening reception at the Italian-American Club, the newlyweds left for a honeymoon in Chicago and Niagara Falls, N.Y. They will live in Pontiac. Airman Llano is stationed at Selfridge AFB.

For her daughter's wedding, Mrs. Cotto chose her late son's green tulle and Mrs. Llano's selection was a navy blue linen sheath dress. Both wore orchids.

MRS. AGUSTIN LLANO
