## SDS PLANS PROTEST MARCH

The Oakland University SDS yesterday announced plans to picket the federal building in Pontiac to protest American military maneuvers. The SDS is demanding that the United States pull all troops out of Iowa and cease the senseless and inhumane treatment of individuals. SDS leaflets show a picture of Mr. Walter Williger of Souix Falls who was injured during a joint army air force maneuver. He suffered a gash in the right leg when a paratrooper dropped a can of sardines from about 2500 feet. Mr. Williger is cited as an example in the inhumane treatment of civilians in Iowa. The Oakland Security Office immediately announced that one of its agents will be at the march incognito taking pictures of all participating.
