DR. ROGER O. EGEBERG

Nixon Reveals HEW Nominee

NEW YORK (AP) — President Nixon announced today that he will appoint Dr. Roger O. Egeberg, dean of the University of Southern California Medical School, to the nation's top health post.

The announcement came a day after Secretary of Health, Education and Welfare Robert H. Finch gave up trying to get the job for Dr. John H. Knowles.

The announcement was made in New York by White House press secretary Ronald L. Ziegler, who said Finch has no intention of resigning, despite his defeat in the fight with the American Medical Association and Senate Minority Leader Everett M. Dirksen of Illinois.

The Detroit Free Press reported in a dispatch from Washington today that Finch would resign within a month.

RETURN TO POLITICS

Citing "top Republican congressional sources," the newspaper article by William Vance, said Finch, angry and bitterly disappointed over President Nixon's refusal to appoint Knowles, will return to California and reenter politics.

The secretary, one of Nixon's closest advisers, bowed to opposition by the ruling elements of organized medicine, backed by Senate Majority Leader Everett M. Dirksen. Knowles has been a long-time backer of medicare and other causes unpopular to some of his medical colleagues.

Knowles blamed elements of the American Medical Association for forcing his rejection.

Mansfield: ABM Backers Ahead

WASHINGTON (AP) — Advocates of the Safeguard antimissile system have the upper hand for the moment, says Senate Majority Leader Mike Mansfield while project funds have been approved in a major move in the controversy.

The Senate Armed Services Committee approved the full $794 million asked by President Nixon for Safeguard. The vote yesterday on the ABM portion of the omnibus military hardware bill was 10-7.

Last night Mansfield estimated that Safeguard now has 49 supporters in the Senate and 47 votes against. A week ago, the Montana senator, an ABM opponent, felt opposition senators had the edge.

"But what it will be in the showdown, is anybody's guess," Mansfield said.

AT LEAST 4 UNDECIDED

At least four senators remain undecided, he said. "There is sufficient wavering that the time between now and the vote will decide what happens."

Floor debate is due sometime soon after the Independence Day recess on the administration plan to deploy the system at Minuteman sites on the northern plains.

The committee has traditionally voted solidly for most major military projects in the past. This vote was seen by veteran observers as one of the closest in nearly two decades.

Capitol Blueprints Dumped by House

LANSING (UPI) — Current plans for a new $55-75-million state capitol were dumped by the House yesterday when a Detroit Democrat charged "something was rotten in the state of Michigan" in connection with a firm which has worked on the plans.

Rep. Jack Faxon read to the House contents of a letter he sent to Atty. Gen. Frank J. Kelley calling for an investigation of allegations that the Detroit architectural firm of Smyth, Hinchman and Grylls Associates Inc. had given favors to state officials in return for the state building contracts.

"It has come to my attention that the architectural firm that performs most of the state's architectural work has paid for the cost of a trip around the world for building director A. N. Languis who is influential in selecting this firm as the state's principal architect," he said.

Languis took the trip with Sigmund Blum, design director for the firm, in 1967. Among their stops were Lisbon, Rome, Tokyo and Hong Kong. The architectural firm was reimbursed $4,500 by the state later.

SEWN UP FROM BEGINNING

Faxon also said Languis' son, Thomas, is a registered architect who has worked for Smyth, Hinchman and Grylls since 1964.

"This firm has had the capitol sewn up from beginning to end," said Faxon.

"Why is everyone so afraid to open a project of this size to competitive bidding? Why are we so committed to this firm? How many of us know how much money this firm will get for the new capitol?" he asked.

Following Faxon's lengthy speech, members voted 70-27 for an amendment which struck out a $4-million appropriation for proceeding with plans as drawn up by Smyth, Hinchman and Grylls.

NATIONWIDE COMPETITION

In place of the deletion, the House added a provision calling for nationwide competition in designs for the capitol. The designs would be screened by a special committee and then presented to the Legislature for final approval of one.

Coming to the defense of the firm, Appropriations Chairman William R. Copeland, D-Wyandotte, said "It is a terrible thing to try to ruin a man's reputation in public."

★ ★ ★

"We all knew he (Languis) went on this trip. There's nothing being hidden here. This thing is all open and above board," he added.

Tentative State Budget Ups Spending by $175 Million

LANSING (UPI) — The House and Senate have finished a tentative budget of $1,536,280,000 for the fiscal year starting Tuesday, an increase of $175.1 million, or 15 per cent, over current spending.

But conservatives, led by Chairman Charles O. Zollar of the powerful Senate Appropriations Committee, said today they expect to pare several million dollars from the vast blueprint before it becomes a final burden upon Michigan taxpayers.

★ ★ ★

"It's going to be rough," said Zollar, R-Benton Harbor, "But we're not through trying to save money."

The budget bills, cleared in both chambers yesterday before the weekend recess, now go to a joint conference committee for negotiations between conservatives, liberals and those in between.

SENATE RESOLUTION

There is no way, however, that the new budget can go into effect by midnight Monday — when state government formally moves from one bookkeeping year to the next. A resolution passed in the Senate permits state agencies to maintain their current operations until the 1969-70 appropriations are final.

The new budget, weighted heavily in favor of education and welfare programs, exceeds Gov. William G. Milliken's recommendation by $25.6 million. Coupled with federal funds and restricted state monies, it would zoom over-all state expenditures to $3.5 billion annually.

★ ★ ★

It is balanced, at least on paper, and it contains one of the smallest fiscal year-to-fiscal year rise in expenditures in modern Michigan history.

But Zollar and others promptly labeled it misleading because it does not provide funds for supplemental spending, which has averaged between $20 million and $40 million annually in recent years.

DEFICIT PREDICTED

"Unless there is a substantial increase in revenue collections and/or a new tax source, I contemplate we will be in a deficit spending situation within the new fiscal year," Zollar declared.

Income Tax OK'd by Illinois Senate

SPRINGFIELD, Ill. (AP) — The Illinois Senate has approved an income tax asked by Gov. Richard B. Ogilvie and voted to embark the state on a $2-billion highway program.

The 35-to-21 vote of the Senate last night, sending the income tax bill to the House, marked the first time in more than 30 years the state has turned its back on the sales tax and other levies as a major emergency revenue source.

★ ★ ★

The Senate approved a 1¼-cent-a-gallon increase in gasoline taxes and boosts in automobile and truck license fees to help retire the $2 billion in bonds to be issued for highways. The House must ratify the levies.

The income tax bill, facing final action in the House, calls for 2½ per cent on individuals and 4 per cent on corporations.

Weather Is Fair in Moderation

Fair skies and more moderate temperatures were the dividends for most people after stormy weather disappeared from the state today.

Yesterday's storm plunged temperatures in downtown Pontiac 18 degrees in 15 minutes. Residents reported hail as large as quarters fell in the Chippewa Street area.

★ ★ ★

The U.S. Weather Bureau promises a pleasant weekend. Here is the day-by-day official report:

TODAY — Mostly sunny, pleasant, and less humid, high 78 to 84. Fair and a little cooler tonight, the low 55 to 60.

Winds southwest to west at 8 to 18 miles per hour becoming variable under 10 miles per hour tonight.

★ ★ ★

TOMORROW — Mostly fair and warm becoming cloudy late in afternoon, the high mostly in the lower 80s.

MONDAY — Warmer with showers or thundershowers likely.

Sixty-seven was the low temperature before 8 a.m. in downtown Pontiac. The mercury had climbed to 84 by 12:30 p.m.

PGH Staff Presses for Answer on Firing

Pontiac General Hospital employes will appeal again to the City Commission for an explanation of the firing of the hospital's top administrator.

An estimated 25 hospital department heads decided yesterday to seek a spot on the commission agenda Tuesday concerning the surprise dismissal of Harold B. Euler, according to acting Administrator Robert DeCleene.

★ ★ ★

Commissioners joined the conspiracy of silence on the firing after meeting with hospital trustees Wednesday in a closed-door meeting at city hall.

The city officials didn't direct the trustees to disclose the charges against Euler as requested in a hospital employe petition presented to commissioners by DeCleene Tuesday. The petition has now been signed by about 625 employes.

NEW PETITIONS

New petition sheets — worded the same as the ones circulated before last Tuesday — started going around the hospital yesterday for new signatures.

A joint statement issued by both commissioners and trustees said the firing "was not intended to impugn the integrity or honesty of Mr. Euler whatsoever."

★ ★ ★

"We're (department heads) not satisfied with that answer," DeCleene commented yesterday. "We want the petition put on the commission agenda."

DeCleene, 50, moved up from hospital controller to acting associate administrator to acting administrator in 1½ weeks. But he has announced that he will only stay at the hospital until "things are stabilized."

More Violence Strikes Kokomo

By the Associated Press

Violence flared for a second straight night last night in a predominantly Negro neighborhood in Kokomo, Ind., where an earlier cross burning resulted in the arrest of 11 white persons.

In Omaha, Neb., incidents of violence subsided after three nights of racial turmoil, bringing an outward calm to much of the Negro Community.

See Picture, Page A-2

A curfew remained in effect yesterday in Cairo, Ill., where racial problems flared anew Thursday, but no new incidents or arrests were reported.

Kokomo Mayor John Miller ordered a 10:30 p.m.-to-dawn curfew and about 200 state police riot troopers aided city police in patrolling the area.

PATROL CARS HIT

Lt. Dave Levendowski, state police information officer, said several patrol cars were hit by sniper fire but no injuries were reported.

Fourteen persons were arrested including four white men police said were found armed, sitting on a rooftop just outside the trouble area.

In Omaha, police chased reports of gunfire until early today, but there was no further looting and burning of the sort that caused nearly $1 million damage in the past three days.

★ ★ ★

The unrest followed the fatal shooting of 14-year-old Vivian Strong, a Negro, by a white patrolman.

The reduced friction yesterday followed by hours the plea of James Strong, 41, the girl's father, who said, "I wish people would please just stop it. All this trouble doesn't help at all."

Bandit Affected by Cash Squeeze

LOS ANGELES (UPI) — Bandits who robbed the Crocker Citizens National Bank of $5,000 yesterday found little old ladies can be tough, especially about money.

The three bandits, two of them armed with pistols and one with a double-barreled shotgun, forced customers and employes to lie on the floor while they emptied three tellers' cages.

★ ★ ★

As they left, one of the bandits noticed an elderly woman clutching $25 in her hand and tried to steal that, also.

But she held on, and the tug-of-war ended when the bills ripped in half.

The three fled in a vehicle driven by an accomplice.

For Suburban Users

Water, Sewer Rates to Rise

Suburban customers of the Detroit water and sewer systems can expect an increased rate — as high as one-third more — some time within the next year.

Officials of the Detroit Water Board said the suburban users along with Detroit city users would be asked to bear the expense of improved sewage treatment.

★ ★ ★

"We don't know what the costs will be yet," the spokesman said, but he indicated they could increase rates a third.

Another increase faced by Detroit customers will not be passed onto suburban users, however.

FIGHTING CHARGE

Detroit Common Council has recently decreed that rates be increased to cover $105 million in bonded indebtedness on storm sewers.

Gerald Remus, chairman of the Detroit Water Board, contends the charge is not equitable and he is fighting it.

★ ★ ★

"In any event those costs cannot be passed on to suburban customers," Remus pointed out.

Astromonk's 30-Day Flight Starts Tonight

CAPE KENNEDY, Fla. (AP) — A 14-pound pigtail monkey named Bonny is to rocket into orbit tonight to start the longest space flight ever taken by a living creature.

Scientists hope the "astromonk" will help set guidelines for future manned missions in space stations and planetary voyages that could last months or years.

★ ★ ★

Bonny, a 3-year-old male from the jungles of Thailand, is to ride into space atop a Delta rocket at 10:10 p.m. EST. He is to orbit for 30 days, strapped in a couch in his flying biological laboratory.

His arms will be free to push buttons in two behavioral tests designed to determine if his memory capacity deteriorates after long exposure to the space environment, primarily in weightlessness. He will receive food pellets as a reward for good performance.

APOLLO REHEARSAL

Delicate instruments implanted in the brain, heart and other vital body areas will radio data continuously to earth. Extensive post-flight study will be made after the primate capsule parachutes back to earth at completion of the mission.

In another Cape Kennedy area, the countdown rehearsal continued for the Apollo 11 moon-landing flight. The seven-day test is to end next Thursday with astronauts Neil A. Armstrong, Edwin E. Aldrin Jr. and Michael Collins climbing into their spaceship atop the Saturn 5 rocket for a mock blast-off.

★ ★ ★

A successful test would clear the way for the planned July 16 lift-off.

The three astronauts worked in spaceship trainers here yesterday and then flew elsewhere for specialized training today.

Armstrong and Collins are at the Manned Spacecraft Center, Houston, Tex., Aldrin is at Langley Air Force Base, Va., practicing on a device which simulates the moon's one-sixth gravity field.

'1ST MAN' DISPUTE

In another development, yesterday astronaut Donald K. Slayton, director of flight crew operations denied a report from a former space agency official that Armstrong had pulled rank to have a chance at being the first man to step on the moon.

Paul Haney, who until recently was public affairs officer at the Manned Spacecraft Center, said in an interview that he believed Armstrong "exercised his prerogative as commander" to bump Aldrin from first to second place.

★ ★ ★

The present plan calls for Armstrong to step on the moon's surface at 1:17 a.m. EST July 21, with Aldrin to follow 27 minutes later. Haney said Aldrin originally had been set to make the first step on the moon.

Birmingham

New Officers Elected by Rotary Club

BIRMINGHAM—Robert A. Bogan Jr., executive director of the Community House, has been elected president of the Birmingham Rotary Club for the 1969-70 year, effective Tuesday.

Other new officers are Larry Sherman, vice president; William Allan, secretary; and James F. Moore, treasurer.

The Unitarian Church of Birmingham will open a coffeehouse at the church, 651 N. Woodward, beginning July 12.

The Rev. Robert Marshall, pastor, said the coffeehouse will be "a hangout for tired radicals, lovely liberals and all concerned people looking for good conversation."

Billed as the Prometheus, the coffeehouse will be aimed at the adult group. Teen-agers are welcome.

BLOOMFIELD TOWNSHIP — Gordon F. Goyette of 7099 Springridge has been named director of public relations at Parke, Davis &,Co.

He joined Parke, Davis in 1949 as a sales representative for the firm's Detroit branch after three years in retail pharmacy.

Goyette was promoted to field manager in 1954.

He has been assistant director of advertising and public relations since 1966.

John F. Malone of 6077 Gilbert Lake has been re-elected president of Certified Audit of Circulations Inc.

Malone is advertising manager, Pontiac Motor Division at General Motors.

★ ★ ★

John D. L'Hote of 3218 Woodside Court has been reelected chairman of the board of trustees of the Michigan College of Osteopathic Medicine in Pontiac.

John J. Nevin of 291 Waddington has been appointed chairman of chapter campaigns for the 1969 Torch Drive.

Nevin is vice president for marketing at Ford Motor Co.

★ ★ ★

He will be responsible for seven chapter units which annually raise more than 90 per cent of the Torch Drive total.

The units include automotive and suppliers, major commerce, general manufacturing, building and transportation, professions, schools and government and the metropolitan unit which includes community businesses throughout the tricounty area.

WAITING FOR TROUBLE — More than a dozen Indiana State Police cars sit on the Howard County Courthouse square early today after a second night of disturbances in a predominately Negro neighborhood in Kokomo. The state police at the courthouse were part of a reserve group ready to go to trouble spots, while other state and city police patrolled the area.

Gasoline Price Cuts May Be Felt in Area

DETROIT (AP)—Detroit area drivers may be in for a savings on gasoline following Standard Oil Co.'s move yesterday to combat competitive cut-rate gas stations.

Standard announced that it will decrease its price to stations by 3.5 cents and have asked the dealers to reduce the selling price by 5 cents, down to 31.9 cents a gallon plus state tax.

★ ★ ★

If the request is followed it could lead to a price war among stations in the area.

The change, which went into effect yesterday afternoon, was initiated because "maverick" dealers with major companies have been selling gasoline at bargain prices.

'CUSTOMER LOSS'

They have forced other dealers into a "slow but steady loss of customers with an accompanying reduction in sales and earnings over the past several months," the oil company announced from its regional headquarters in Chicago.

Some dealers may oppose the move, however. "I just found out about this thing," one dealer said. "I may drop my price 3.5 cents, but not 5 cents."

★ ★ ★

He said he would confer with other owners before acting. But he also thought there would be a price war.

Detroit is the only area affected by the price cut.

Staff Presses to Get Firing Explanation

(Continued From Page One)

Euler fired Associate Administrator Donald H. Carros and the trustees dismissed Euler in what they said was "in the best interests of the hospital."

It is the consensus of high-level hospital administrators that trustees' displeasure with Euler gradually built up to the climax — the firing of Carros.

Euler said he is still mystified about the reason he was fired.

"I can't think of any previous trouble to the Carros incident," Euler explained. "My relationship ran in the same vein with the board for 11 years."

OBJECTS TO 'RUTHLESS' MANNER

Euler has objected to the "ruthless" manner in which he was fired. He was given no explanation or chance to defend himself.

But he said he gave Carros time to look for a new job. Euler said he had a problem with Carros for the last year and they held many conferences to discuss the difficulty.

★ ★ ★

In the meantime, Euler's lawyer is waiting for charges to be leveled against his client to determine any court action.

Razor Buried for Centennial

All week long Rochester's barbers wore black armbands. They hung black crepe paper in their shops.

They were in mourning for the razor, which last night was laid to rest in a solemn "Burying of the Razor" ritual, a part of the city's centennial celebration.

The Brothers of the Brush and the Centennial Belles took part in the procession down University and Main to Rochester Junction where a coffin containing a symbolic oversized razor was laid to rest.

Mayor Roy Rewold proclaimed, "The razor is dead, the Brothers of the Brush are free."

Scores of Rochester men are sprouting beards. Last night's ceremony formalized their hairy efforts.

Mayor Rewold, beardless until last night, has pledged to begin a growth of his own.

M24 Crash Kills 2 Near Lapeer

Two persons died early this morning in a two-car crash at Newark and M24, three miles south of Lapeer.

Pronounced dead at the scene by a Lapeer County medical examiner were Theresa G. Putnam, 29, of Caro and Vincent Suchorski, 53, of Mayville. The collision occurred at 5:10 a.m.

★ ★ ★

Michigan State Police said the Putnam car was headed westbound on Newark when it hit the Suchorski car broadside. Police said Suchorski's car was southbound on M24.

Prince Regent Wins

THE CURRAGH, Ireland (AP) — Prince Regent won the eighth running of the Irish Sweepstakes derby today. Ribofilio, owned by Charles Englehard of Short Hills, N.J., was second.

Skyjacker Is Tagged by Baggage Mix-Up

LOS ANGELES (AP) — Federal officials have identified a 31-year-old cabdriver with a political science degree as the man who hijacked a jetliner to Havana Wednesday. A baggage handling error provided the clue.

MARQUES

U.S. Atty. Matt Byrne said yesterday a complaint will be issued against John G. Marques of West Los Angeles.

A hijacker held the first officer and a stewardess of a United Airlines flight at gunpoint, forcing the pilot to fly to Cuba 13 minutes after the plane was airborne from International Airport here for New York.

Byrne said baggage handlers failed to load Marques' luggage on the flight he took and sent it to New York on another plane. The Federal Bureau of Investigation picked it up in New York.

UCLA DEGREE

Federal spokesman said Marques received a bachelor's degree in political science from the University of California at Los Angeles and later enrolled in a master's degree program in African studies.

Marques was last enrolled in the university in 1967, officials said then dropped out to work as a parking attendant and driver.

★ ★ ★

University spokesmen said Marques was an above average student.

Police records identify him as an American Indian, and employment records show him as divorced with one child.

A spokesman for the Yellow Cab Co. in suburban Santa Monica said Marques last reported to work Sunday. He had been employed with them since May 1.

EMOTIONAL ON POLITICS

John Felz, 23, of Hermosa Beach, who attended classes with Marques, described him as "always involved in civil rights work . . . very nice, but very emotional about politics."

Byrne said Marques' bail will be set at $100,000 if he is arrested. Sky piracy is punishable by death.

Nixon Planning Romania Visit

NEW YORK (AP) — President Nixon announced today he is going to be the first U.S. chief executive to visit a Communist country — Romania.

Press secretary Ronald Ziegler said Romania invited the chief executive to come, and he will do so early in August, following a circuit of five Southeast Asian capitals.

★ ★ ★

The visit to Romania was at the invitation of the president of the nation's State Council, Nikolai Ceausesu.

The Soviet Union was not advised in advance of the impending presidential visit to a nation it regards as parts of its sphere of influence, officials said.

'NOT ANTI-SOVIET'

"We feel under no obligation," one high U.S. authority said, "to check with the Soviet Union in making negotiations with sovereign countries."

This authority also said: "We are not visiting Romania as an anti-Soviet gesture. We are essentially interested in peace in our times. Romania has indicated a great interest in this."

★ ★ ★

It appeared that the impending trip to Romania might herald visits to similar nations. A White House expert said there have been other invitations from Eastern European countries.

PRESIDENT LANDS IN NY — President Richard M. Nixon walks from his helicopter at the Wall Street heliport yesterday after a plane flight from Montreal where he met with Canadian Prime Minister Pierre Elliott Trudeau for ceremonies commemorating the 10th anniversary of the St. Lawrence Seaway. Nixon was en route to a dental appointment in midtown Manhattan.

Nixon Eyes Pacific Apollo Trip

NEW YORK (UPI)—President Nixon is expected to travel to the Pacific for the splash-down of America's moon-landing Apollo 11 astronauts July 24. The trip may be extended to include a possible meeting with government leaders from nations fighting with the United States in Vietnam.

An announcement from the traveling White House press headquarters may be made today.

★ ★ ★

Press Secretary Ronald Ziegler confirmed yesterday the President was considering a Pacific visit but said he had no information on details. Any expanded trip, he said, "is contingent on a decision about going to the splash-down."

Other sources said there was a chance the Apollo landing trip would be extended to include a visit to some Pacific allies. This could mean a meeting with the heads of allied governments fighting in Vietnam. These include Australia, New Zealand, Thailand, the Philippines and South Korea.

DESIRE EXPRESSED

Nixon often has expressed his desire to witness one of the nation's moon shots. The Apollo 11 flight, scheduled to make astronal Neil A. Armstrong and Edwin E. Aldrin the first men on the moon, seemed an appropriate time.

Nixon referred to the forthcoming moon-landing shot, scheduled to blast off July 16, in remarks at the Place de Nations in Montreal yesterday.

He said that while the first man on the moon would be an American, "He will come from all the world."

The President was joined by Canadian Prime Minister Pierre Elliott Trudeau at the international border atop the Robert Moses-Robert H. Saunders power dam near Massena, N.Y., for ceremonies commemorating the 10th anniversary of the seaway.

The two first met at the International Friendship Monument, the site where 10 years earlier to the day, Nixon, as vice president, had jointly opened the seaway with Queen Elizabeth II of Britain.

Nixon and Trudeau traveled to the flag-bedecked Dwight D. Eisenhower Lock on the U.S. side for brief commemorative ceremonies and then flew by helicopter to Montreal for a similar ceremony on the Canadian side.

Enemy Tunnels Into Ben Het Are Discovered

SAIGON (AP) — A security patrol discovered two enemy tunnels under the barbed wire perimeter of an American artillery base at the besieged Ben Het Special Forces camp, military spokesmen said today.

★ ★ ★

Spokesmen said the tunnels led to a series of trenches inside the camp, indicating the enemy wanted to reach the heart of the artillery base and blow it up.

This tactic was used successfully in the French-Indochina War in 1954 when the Vietminh tunneled their way under a French artillery base and blew it up during the siege of Dien Bien Phu.

Meanwhile, enemy gunners 700 yards away continued their shelling of the camp today after pouring in 236 rounds in Friday. U.S. spokesmen said this was the heaviest barrage Ben Het has received since the attacks began May 1.

The shellings continue despite strikes by U.S. B52 bombers which dropped 500 tons of bombs on enemy areas near the artillery base.

The security patrol that found the tunnels clashed briefly with North Vietnamese and Vietcong troops and killed two enemy.

Five allied soldiers were wounded in the brief fight, including two American Green Beret advisers and three South Vietnamese civilian irregulars.

The American artillery base sits on North Hill, one of three muddy hills that make up Ben Het. The camp is about 280 miles northeast of Saigon near South Vietnam's border with Cambodia and Laos.

The U.S. Command says it considers Ben Het a major test of how the South Vietnamese handle themselves against the North Vietnamese and Vietcong. The Saigon government has said it hopes its forces can take over more fighting from U.S. troops.

In another fight a half-mile northwest of Ben Het, South Vietnamese commandos, led by American Special Forces and Australian advisers, clashed with other enemy troops.

Two Americans and one South Vietnamese were killed. One American, one Australian and two South Vietnamese were wounded.

4 Guardsmen Killed in Vietnam Attack

BARDSTOWN, Ky. (AP) — Bardstown is in mourning. Four members of its National Guard unit were killed in an attack on their base in Vietnam.

On their way home are the bodies of Spec. 4 David B. Collins, 24, Spec. 4 Ronald E. Simpson, 22, and S. Sgt. James T. Moore, 25, all of Bardstown, and Spec. 4 Joseph R. McIlvoy, 23, of Willisburg in nearby Washington County.

County Judge James A. Sutherland and Mayor Gus Wilson have proclaimed a mourning period throughout Nelson County from Friday through July 4 when a memorial service will be held in a high school auditorium.

This central Kentucky community has a population of about 6,000.

SOME RESENTMENT

"We feel a little bit of tragedy has touched all of us," said Patrolman Miles Durbin, cousin of one of the four widows. "The boys are all gone."

Sutherland said, "People seem to feel some resentment since they don't feel that the guard should have been called up in the first place."

The guard unit, Battery C, 138th Artillery, was ordered to active duty May 16, 1968.

Moore was one of 105 members of the 138th, made up of guardsmen from Bardstown, Louisville, Elizabethtown and Carrollton who had filed suit in U.S. District Court in Austin, Tex., Oct. 3, 1968, in an attempt to halt their shipment to Vietnam.

The district court declined to countermand the orders and the guardsmen appealed that decision to the 5th U.S. Circuit Court of Appeals in New Orleans, where the case is now under advisement.

The Army gave no description of the attack June 19 that killed the soldiers, the families said.

"It's just God's will, and we'll have to accept it," said Mrs. Robert Simpson, sister-in-law of Ronald Simpson. "He will have a military funeral with Masonic rights."

"She's holding up pretty good," Mrs. Simpson said of the dead soldier's wife, Deanna, who just returned home from the doctor. "She was due to have their first baby at the beginning of the week," Mrs. Simpson said.

Moore is survived by a 2-year-old daughter. Collins never saw his 2-month-old son.

Bride of 7 Months a Widow

LINCOLN PARK (AP) — Carol and Paul grew up in the same neighborhood, attended the same church and "We went together" all during high school.

"But after graduation we went our own ways," recalled Carol. "We tried dating other people . . . but got back together in October and were married in November — on Nov. 29."

★ ★ ★

Seven months later Carol Ann Petroline, fair-skinned with long blonde hair, is a widow. She is 22.

The Petrolines spent a month together in California before he was shipped to Vietnam with his Marine Corps unit. They met again two weeks ago in Hawaii on his rest and recreation period.

Last Tuesday Carol saw a Marine lieutenant get out of a car in front of her parents' home where she is living.

"I knew what he was going to say, and I just didn't want him to say it," she recalled. He asked her to sit down and then told her Paul was dead.

She screamed.

"Paul's birthday was May 2. He turned 22," said Mrs. Petroline, who mailed him fudge as a gift.

Lance Cpl. Paul Petroline was aboard a Marine helicopter which was shot down 24 miles northwest of Da Nang.

Shoes Eyed as Ann Arbor Murder Clue

ANN ARBOR (UPI) — A pair of lilac-colored patent leather shoes, bought by Alice Kalom the day before she was brutally murdered, may provide a clue in the slayings of six young women in the Ann Arbor area in the past two years.

Officials say the shoes were not with her battered body when it was found June 9.

★ ★ ★

Washtenaw County Prosecutor William Delhey, coordinator of the investigation into the deaths of the six young women — aged 13 to 23 — yesterday showed newsmen a pair of shoes identical to those bought by Miss Kalom, 21, in a local store on June 7. They were presumably worn to the Depot House, a local rock music spot, where she was last seen alive later that night.

Delhey said the shoes, with a one-inch heel and a lilac cloth bow, could provide some clue to the killer or killers if they were found. He urged anyone who might find such a pair of shoes to notify either his office, the State Police or the Washtenaw County Sheriff's Department.

★ ★ ★

The body of Miss Kalom, a University of Michigan graduate, was discovered in a field north of this university city, the latest in a series of baffling slayings.

Delhey also said no decision had been made on the possibility of bringing in an outside investigator to aid in the hunt for the sadistic slayer.

Probe of 6th Killing Is 'Most Promising'

BOYNE FALLS (AP) — Police are working on a list of 100 names in the investigation into the latest of six unsolved murders in the Ann Arbor area, a police official said Friday.

Walter Krasny, Ann Arbor chief of police, said the coordinated police investigation into the murders of the young women is more promising now than in any of the five previous cases.

★ ★ ★

Krasny said authorities are closer to solving the slaying of Alice Kalom of Portage than to any of the others. However, he added, no major developments have occurred in the case.

The Ann Arbor official was in Boyne Falls for the annual meeting of the Michigan Association of Chiefs of Police.

'TIGER WOMAN' CAUGHT — Winnie Ruth Judd, escaped convicted murderess from the Arizona State Hospital, is escorted to the Contra Costa County Jail in California yesterday by Lt. Robert Sang. The sheriff's department picked up Mrs. Judd, once known as the "tiger woman," working as a domestic. She escaped in 1962.

Famed Murderess Held in California

MARTINEZ, Calif. (AP) — Winnie Ruth Judd, convicted of double murder in a sensational trial in 1933 and missing since she escaped from an Arizona mental hospital in 1962, has been captured in a suburban village east of San Francisco where she was working as a domestic.

Sheriff's Lt. Robert Sang said the woman convicted of murdering her two best girlfriends in Phoenix in 1931 and shipping their remains to Los Angeles "steadfastly denies she is Winnie Ruth Judd."

★ ★ ★

But Sang, a crew-cut veteran detective, said he identified her through fingerprints, old photos and a scar on her left index finger.

He conceded that the woman who was working as a cook and housekeeper under the name of Marian Lane "looks about 10 years younger" than Winnie Ruth Judd's 64 years.

The woman, who says she's 54, is plump and matronly compared with the wasted woman who walked away from Arizona State Hospital seven years ago in her seventh escape.

She was picked up at 2 p.m. Friday by Sang and Sgt. Joe Walsh at the Danville home of Dr. John Biemer, a general practitioner vacationing with his wife in Europe.

★ ★ ★

Sang said "everything she has indicates she is Marian Lane," but that "information from both inside and outside" California, as well as his own fingerprint check, led him to believe Marian Lane is Winnie Ruth Judd, once known as "the tiger woman."

He booked her as a fugitive from an Arizona mental institution and said Arizona would extradite her.

The woman was located during checks on the still unsolved homicide death in nearby Alamo of Mrs. Z. Alexander Aarons, wife of a psychiatrist. She was beaten to death last April 28.

Sang said Lt. David Gardella, a detective for 25 years, checking license plates on cars visiting the psychiatrist's home-office, came upon one registered to Marian Lane.

He located her in Piedmont, a section of Oakland, working at the home of a deceased elderly couple whose estate was being liquidated.

Sang said Gardella, now in Italy, did not suspect the Lane woman of being involved in the Aarons murder, but "felt there was something wrong" about her. Investigation led him to suspect she was Mrs. Judd, and after more checks the arrest was made Friday.

The onetime "tiger woman" gave up quietly, Sang said. It was almost 36 years ago that Mrs. Judd was arrested in Los Angeles when she sought to claim two trunks. Authorities who had spotted blood dripping from one made her open them.

Inside were the remains of Agnes Ann Lerio, an X-ray technician, and Hedvig Samuelson, a schoolteacher, both of Phoenix.

★ ★ ★

Mrs. Judd was convicted of murder and sentenced to be hanged in 1933, but 72 hours before her execution, she won a sanity hearing.

She was judged insane and committed to a state hospital where she escaped six times over the years but always was recaptured quickly.

On the seventh try, in 1962, her hospital clothing was found on a building nearby, and no further clues ever were announced that pointed to where Winnie Ruth Judd had gone. By this time she was 57, haggard and looking little like the attractive blonde committed nearly 30 years before.

Authorities had abandoned all but a routine search for her.

2 Countries Cut Ties After Soccer Dispute

TEGUCIGALPA, Honduras (AP) — Honduras and its tiny neighbor, El Salvador, maintained an icy silence today after a dispute over soccer matches led them to sever diplomatic relations.

The deciding game was played Friday night on neutral territory, in Mexico City, and El Salvador won 3-2 in overtime. There were no incidents reported.

The dispute began earlier this month when the two teams met in a best-of-three playoff series for a berth in the 1970 World Cup tournament.

Honduras won the first game in its capital. El Salvador won the second game in its capital last week. Rioting followed both matches.

After the second game, Honduras complained that its team had been insulted and attacked by Salvadorean fans. Honduras also said fans were disrespectful during the playing of its national anthem.

El Salvador then claimed Hondurans were attacking Salvadoreans living in Honduras. It said Honduras was expropriating Salvadoreans' property and expelling them from the country. The Salvadorean Red Cross said thousands of Salvadoreans returned from Honduras complaining of atrocities.

The two countries agreed to hold the final round of the soccer playoff in Mexico, but the dispute continued.

★ ★ ★

On Thursday night, El Salvador announced it intended to sever diplomatic relations. Honduras replied Friday night it not only intended to break off ties but had done so.

El Salvador's soccer team won the right Friday to meet Haiti to determine which team will represent the North American and North Caribbean zone in the world championship in Mexico next summer.

Windsor, Detroit in Freedom Fete

DETROIT (AP) — Detroit joined with its neighbor to the south today in an international celebration, the Detroit-Windsor International Freedom Festival.

Chief elements in the two-nation festival will be Independence Day for the Americans and Dominion Day for the Canadians.

Athletic competition was the principal interest of the early hours of the week-long affair. In Windsor, the only major Canadian city located south of the United States, a sports car rally was to begin tonight and last until morning with a 12-hour tour of six border cities.

Friendship is the key goal of the joint celebration which embraces the Canadian national holiday on Tuesday and the American holiday on Friday, July 4.

Society Launches Anti-DDT Drive

NEW YORK (AP) — The National Audubon Society has launched a campaign to ban the use of DDT and other long-lived insecticides in the United States.

The society said DDT has "calamitous" effects on nature and "we think, directly or indirectly, on men."

Pollution War Overlap

President NIXON's announcement of the creation of a Council on Environmental Quality could mean a long stride forward in the Country's unending campaign against pollution of its natural resources.

NIXON

The Council would be composed of six Cabinet heads whose departments are involved in various aspects of the pollution problem and who presumably qualify as authorities in their respective fields.

★ ★ ★

We are impressed with the President's action and see constructive benefits resulting from it. We are not impressed by legislative moves in the House and Senate having the same objectives, praiseworthy as they may be in principle.

A pending bill in the House would create in effect an agency within the Office of the President consisting of three members qualified by experience and personal accomplishments to "analyze and interpret environmental information, and to suggest remedial programs and activities in terms of long-range planning goals."

For its part, the Senate is considering legislation that calls for a "statutory declaration of national environmental policy." An amendment directs that all Federal agencies "include a finding on the environmental impact on proposed actions in program recommendations and in reports on legislation."

Both Capitol Hill proposals smack strongly and familiarly of the bureaucratic approach, with its inevitable gobbledygook, to any and all national problems, that produce "studies" and "programs" at the expense of action.

We have for long had a surfeit of independent Federal agencies tilting at the Nation's windmills. Let's not add to the total, but strive by more effective administration to get increased mileage out of existing ones.

Prices Reflect Thievery

Crime and its stupendous dollar cost to society appears in many guises—visible and invisible.

One of the latter, that takes $3 billion annually out of Americans' pocketbooks, is shoplifting. Put another way, every time a housewife shops she pays the shopkeeper up to a nickel of each dollar spent to make up his loss from pilferage.

★ ★ ★

Moreover, the cost is even greater to the consumer since it does not reflect the expense to merchandisers of providing protection against shoplifting and other forms of crime to which they are subject.

Needless to say, the direct losses and indirect costs of combating them become hidden costs of merchandise, with selling prices adjusted accordingly.

Alarmingly, the crime-against-business trend is rising—rising to the point where the U.S. Senate's Select Committee on Small Business is holding hearings to determine the extent and causes of it, and considering attacking the problem on a nationwide level. The committee also is looking for methods by which businessmen can prevent losses due to theft.

★ ★ ★

Although it is no comfort to the honest element of society, shoplifting is, ironically, one area of crime where in the overall, the dishonest pay a price penalty for their own criminality.

Friday to Mark 193 Years as Nation

By EVERETT McKINLEY DIRKSEN

Independence Day will come on Friday, and the observance of our 193rd year as a nation will remind many of us that we are slipping away from our heritage in some respects.

DIRKSEN

All over the land this next weekend our people will be traveling for fun and pleasure — to play golf and to participate in picnics. Generally, they will forget that such a wonderful thing as independence preserved through the centuries is something Americans fought for with a courage and dedication seldom before demonstrated by man.

Independence Day ought to mean more to us than a day off from work, part of a weekend of fun and frolic.

★ ★ ★

In all the cities and hamlets of our country, in years gone by, the Fourth of July was celebrated with patriotic speeches, parades and thoughts of both the past and the future. This year, however, as in other recent years, there are many cities that won't even have a parade, that won't officially honor Independence Day.

As a nation, we may be losing some of our concern for the glorious past, a past that should bridge us into the unknown future. This week then, is the right time to state a few facts of history that will help us to face tomorrow.

The Second Continental Congress, meeting in Philadelphia on July 2, 1776, passed a resolution in favor of Independence and, on July 4, that Congress agreed to the Declaration of Independence. The Declaration was signed by 56 courageous, farseeing Americans, truly the fathers of our country, on Aug. 2.

Despite the Declaration, the Revolutionary War continued and was not won until the British under Lord Cornwallis surrendered at Yorktown on Oct. 19, 1781.

★ ★ ★

There was dissent in 1776, as there is today. There was no unanimity for independence. The Tories in the colonial states wanted to dwell under the rule of King George III. Many delegates to the Continental Congress didn't want to sign the Declaration that came alive in the words of Thomas Jefferson. Some of them stayed away from the meeting place in the steepled state house in Philadelphia. But when it came time to be signed, they forgot the dissent and they returned to affix their deathless signatures to the document of freedom.

They decided they were Americans. They stood up for independence. They silenced their dissent. They forged a nation.

Who were those signers of the Declaration of Independence? I mention only two — You can read the other names in a copy of the declaration in your dictionary or encyclopedia. There was John Hancock, of Massachusetts. He was wealthy for his day, and he had contributed $100,000 to the cause of freedom. Had the revolution failed, his property and business would have been seized by the king. There was Charles Carroll of Carrolltown, Md. He, too, was wealthy, probably the richest of all the signers. He staked his wealth and his very neck on the successful pursuit of the war for freedom. Many others of the 56 were men of means and property.

★ ★ ★

They all risked their every acre of land and farthing of money on an idea that men should be free. Then engaged in the dissent of the day and helped to make their views into a dream come true, a dream for a better America where there would be opportunity for all.

They exhibited their devotion to their cause in the highest degree as they signed the document under the last sentence that Jefferson had written into the Declaration: "... And for the support of this declaration with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our Sacred Honor."

How easily we forget that 193 years later we are all of us beneficiaries of the men who signed the Declaration of Independence. They signed for us who live in the turmoil of 1969. They sacrificed for us who may sometimes forget to express our appreciation of their courage and devotion and their willingness to pledge all in the cause of freedom.

★ ★ ★

A few simple things would do to mark our 1969 observance of Independence Day with reverence for the past and faith in the future. We can display the Flag. We can gather our family and friends about us and read aloud the Declaration and the names of the signers, perhaps putting to shame the commercialized ceremonies where the Declaration will not be recalled to the ears of millions.

We can stop awhile and think about the past that bridges the centuries to come.

The POWER of FAITH

BY WOODI ISHMAEL

TEMPLE OF UNDERSTANDING

SPIRITUAL SUMMIT CONFERENCE NO. 4

Dr. Tmiya Chakravarty, professor of the philosophies of Japan, China and India at State University of New York, New Paltz, N.Y., was part of the Hindu delegation at the spiritual Summit Conference in Calcutta, India, sponsored by the Temple of Understanding headquartered in Washington, D.C. Eleven of the world's great religions participated.

Dr. Chakravarty has deep insight into both Eastern and Western faiths. He was educated and received his doctorate at Oxford University and has taught in many U.S. colleges. For seven years he was secretary to Rabindranath Tagore, the great Indian poet, philosopher and religious teacher. He was a constant companion of Mahatma Gandhi during the last two years of that great leader's life.

Dr. Chakravarty found in the Spiritual Summit Conference a concept of universal humanity, with a common ground in the deepest traditions of all religions. Dr. Chakravarty feels that the unity of all religions can be maintained because of their uniqueness and a common bond of faith.

He says, "The mystery of religion is a subtle relationship. It binds not by indoctrination but by emancipation . . . the door has already been opened in the Temple of Understanding for the understanding and cooperation of all religions." It can do much to cure the ills of mankind.

Confident Living:

Every Day Can Be a Good Day

By NORMAN VINCENT PEALE

I would like to talk to you about your days, this day and every day. It's a good thing to consider your days once in a while.

DR. PEALE

A child thinks that time is limitless, but as he grows older, he becomes aware of the fact that time is passing. Now if you live to be 90, that's a total of 32,872 days of living. What are you going to do with the days you have left?

In spite of all the troubles in the world, every day can be a good day. The Bible says, "This is the day which the Lord hath made; we will rejoice and be glad in it."

★ ★ ★

Not every day is going to be an easy one. Life brings to each some share of pain, struggle, tears, sorrow and heartache. But even in a day that is full of suffering and difficulty, there lies hidden a suggestion of something good.

One of the surest ways of having good days for yourself is to help other people have good days for themselves. It always works!

★ ★ ★

A short time ago I was in Detroit giving a speech and I picked up a copy of a newspaper. There were two stories side by side on the front page. One was the story of a professor at a major university who was struck across the face with a two foot club by radical students during the seizure of a campus building. Right next to it was the story of the return of a hero from Vietnam. His name was Tom Van Putten.

★ ★ ★

Tom had finally escaped after 14 months as a prisoner of the Vietcong. Everyone in his home town of Caledonia, Mich., turned out to welcome him home. They gave him a parade. Past streets with names like Maple and Church, the parade moved slowly. At the top of that story, there was a picture of Tom Van Putten saluting the flag. This had been taken at the airport. He had snapped into the salute suddenly and without warning, catching everyone off guard.

"People in the crowd blinked and the photographers scrambled into action. But when they had finished snapping, he still stood there, staring at the flag, his body rigid with the salute.

★ ★ ★

"His face was screwed tight and fierce and the wind whipped his green uniform close to his body. His gauntness was unmistakable and the people of Caledonia suddenly found it very hard to look at Spec. 5 Thomas H. Van Putten standing alone in the bright spring sunshine saluting."

There's evil in the world, but there's faith in the world. There's patriotism in the world. There's goodness in the world.

★ ★ ★

If we handle problems with courage, recognizing the right to dissent, of course, but honoring such men as Tom Van Putten, this world will produce better days for all of us.

★ ★ ★

The world has its badness, but it has its goodness too. Robert Browning expressed it well:

"Meanwhile as the day wore on the trouble grew, Wherefrom I guessed there would be born a star."

That is the insight of a very wise man.

When it grows dark is the time to start looking for stars. When a day or a succession of days is difficult, just remember that difficulty brings you nearer to some great thing.

★ ★ ★

One of the most helpful things my mother, a very wise woman, said to me was, "Norman, as you go through life you'll come to times when every door is shut, times when you'll have great opposition, but any time you find a lot of closed doors just keep on going, because that's the way God leads you to the open door that He has in mind for you."

The hard days may be the days by means of which you draw nearer to the greatest things.

Retiree Questions Two Hospital Firings

I know both Mr. Euler and Mr. Carros and can say nothing against either. I feel the public and employes should know the reason behind both firings.

★ ★ ★

As for the concern about Mr. Euler's reputation, what about Mr. Carros'? As I knew him, he was always fair to the employes.

A RETIREE

Two Recall Similar Hospital Dismissal

Congratulations to the Pontiac General Hospital board. A few years ago Mr. Euler dismissed my father from his supervisory capacity in exactly the same way the Board has dismissed him, also jeopardizing his retirement benefits.

★ ★ ★

It's too bad my father couldn't have lived to see justice triumph. This writer will go on record as one person who thinks Euler got better than he deserved.

MRS. G. H. HURLEY JR.
OXFORD

Let Mr. Euler think back a few years to a man working as a supervisor at the hospital. This man, my husband, was doing a wonderful job, according to Euler and Carros; so much so that at a monthly management meeting he was complimented on the efficiency of his department. The next day he was called to Mr. Euler's office and fired.

★

Mr. Carros offered him a job back where he had started, (expecting him to refuse, I'm sure). Because of age and benefits accumulated, he accepted.

★ ★ ★

My husband died after 21 years of faithful service at PGH, without ever learning exactly why he was demoted.

Former Patient Speculates on Firings

It seems Euler's first mistake was in firing Donald Carros.

★ ★ ★

The petition, signed by the hospital employes and presented in their behalf by associate administrator Robert DeCleene, stated they were concerned about the continuation of quality patient care, because of the lack of proper administration. This does not lend much support to DeCleene.

★ ★ ★

It would appear to me that it is time to get Mr. Carros back into the administration of the hospital.

Objects to Priest's Statement on Schools

I am surprised that no reaction has appeared to Father Konopka's statement on the future of the parochial schools in Pontiac.

Does he sincerely feel the feeble CCD program, with which I have been affiliated as a teacher (though not in his parish) for the past ten years, can possibly replace our parochial schools?

★ ★ ★

How can Pontiac Catholic, built at great expense and sacrifice, survive without a single elementary parochial school to feed it?

★ ★ ★

As a parent who has paid property taxes and parochial tuitions for 16 years, I ask, "What gives Father Konopka the right to offer to rent his parishioners' buildings to the public schools for $1 a year?" The people paid for these buildings.

On the day my pastor makes such a proposal, I shall cease my financial support.

'Many Outsiders in Our Medical Schools'

We could have more doctors for our State if our three medical schools would enroll only Michigan men.

Our medical schools are cluttered with men from out of state and even from other countries. Our tax dollars are paying for their education, while our native sons are being drafted. Write to your Congressman about this.

Question and Answer

Since most people could care less about the astronomical national debt figure and some say if we owe it to ourselves, let's just cancel it, what would be the effect on John Q. Public if the Government canceled the national debt?

JOHN NICHOLSON
CLARKSTON

REPLY

It isn't really as simple as you make it sound, and the economists we asked wouldn't venture a guess, because there's no accurate way to gauge the effect of such a move. However, if you want theoretical ideas of what might happen, you could contact some university economics departments.

Question and Answer

An article said Philip T. Barnum, the Michigan heart recipient, is still having trouble with his memory. Why would a heart transplant cause loss of memory?

L. J.

REPLY

University Hospital says emotional upheavals are common worldwide in heart recipients, and there are possibly three factors involved: organic effect of medications; functional effect of the new heart; psychological effect of the whole situation. There's presently no way to pinpoint any one, but regarding the last, U-M psychiatrists are trying to determine if changes might be made in the post-operative procedure. One thing that concerns them is that long isolation, when the patient sees no one but masked and gowned doctors and nurses, may have an unfavorable effect. However, many questions remain unanswered in this area.

Crash Survivor Recalls Terror of I-94 Wreck

By CHARLES WRZESINSKI
Jackson Citizen Patriot Writer

JACKSON (AP) — After coughing up some of the blood I had swallowed, my first thought was:

"My God, I'm alive."

★ ★ ★

Looking at my traveling partner, photographer Don Cunningham, crunched behind the caved-in steering wheel of the car he had bought just five days ago, he appeared dead.

It wasn't until Don was wheeled into the ambulance beside me that I realized he had been lucky, too.

SHOULD HAVE DIED

We were both alive, and yet according to the history of head-on collisions on I-94, at least one of us should have been killed.

★ ★ ★

Doctors and a hospital's emergency room nurse were to tell us later we were something of a rarity.

★ ★ ★

That thought has been bothering me since.

Why should a head-on crash occur on an interstate freeway, supposedly one of the best and safest in the nation?

RECOLLECTS EVENTS

It took several hours of that first sleepless night in Mercy Hospital here to recollect the night's events, of our heading back to Jackson from Kalamazoo where Don had been assigned to shoot pictures of a high school tournament basketball game.

We had stopped for a cup of coffee near Marshall, and as we approached Jackson we were talking about the game, of Don's oldest son's upcoming graduation and the Cunninghams' planned vacation trip to Florida just a couple weeks off.

★ ★ ★

Neither of us had said anything for a minute or so when suddenly, as if appearing from nowhere, a car was heading right at us only a few yards away.

Don said something like, "Where does he think he's going."

LAST THOUGHTS

My last thoughts were of Don twisting the steering wheel, our heading for the shoulder and the ditch of the freeway and the other car still coming at us.

With death so apparently imminent, it surprised me upon recalling later that I had a feeling we might miss the other car.

★ ★ ★

I remember seeing the outlines of two heads in the car coming at us.

And then . . . blackness.

No feeling of the impact or the pain as we were shoved into the dashboard of our car, or the windshield slamming into us along with the hood of the car.

In the hospital later, we were to learn of friends that had stopped to offer assistance, some not recognizing either Don or me; of a doctor who stopped to be sure we wouldn't bleed to death before reaching the hospital. Neither was there any recollection of State Police troopers and an ambulance arriving.

THOUGHTS LINGER

It has been more than three months since the accident, and the thoughts still linger: we're lucky to be alive. Is there any way to avoid a head-on crash? Why isn't I-94 protected from such collisions?

I-94 is no picnic; its trafic load keeps climbing, and the number of fatalities occurring on it seem to be increasing in alarming proportions.

★ ★ ★

A total of 205 persons have been killed on Jackson County roads since the start of 1965, with 45 of the deaths resulting from head-on crashes.

On I-94, there have been 29 deaths in the same 4½-year period, 14 resulting from head-on crashes. Six of the nine deaths occurring on I-94 this year were caused by head-on crashes.

TOPS '65 FIGURE

This tops the five head-on freeway deaths that occurred during 1965, when a total of 63 persons were killed in the county, the bloodiest year ever here.

★ ★ ★

It's darn easy to get across the median of I-94, and an uncomfortable number of ways it can happen.

★ ★ ★

A driver falls asleep, is drunk or suffers a heart attack; a car's tire blows, or an inexperienced driver drifts onto the shoulder of the median and loses control; two cars going the same way collide, sending one of them across the median; or winter's snow and ice might send a car skidding out of control.

On the other side of the median is the unsuspecting driver, the person who knows he is supposed to look out for the other guy yet has little chance of knowing something is taking place on the other side of the median and suddenly is faced with a car coming at him out of the dark.

SAMPLING OF ACCIDENTS

At a speed of 70 miles per hour, it takes considerably less than half a second for a car to shoot across the I-94 median in most places.

★ ★ ★

A sampling of the fatal accidents since 1965 indicates nearly half of the deaths in head-on collisions were innocent victims, struck by the cars that went out of control or somehow managed to get into the wrong lane.

★ ★ ★

That fact wouldn't have been much comfort to my wife, our 4-year-old daughter or 2-year-old son.

Is there a way to eliminate head-on crashes on I-94 or other freeways?

Budget-minded highway officials at Lansing say there is, but it would cost more than they've got.

$60,000 A MILE

To put in an effective steel barrier on the median would cost about $60,000 a mile, they said.

The state spends $4.5 million a year on highway safety features, with many of the programs geared toward protecting the driver who is prone to get in trouble.

★ ★ ★

Collapsible signposts, illuminated signs, reflection paint on bridge piers, buried guardrail ends, marking of pavement edges and placement of reflectors on "target positions" on curves are some of these projects.

Another such project was removal of trees within 20 feet of the edge of the pavement to enable cars that go out of control more maneuvering room to get back on the highways.

★ ★ ★

"We've had to stop it, however, one official said, "because of the terrific pressure we were getting from tree lovers and some legislalegislators."

High Levels of Great Lakes to Get Higher

DETROIT (UPI) — The unusually high levels of the Great Lakes this summer, a source of worry to conservationists and lakeshore property owners, continue their rise and are expected to be even higher by the end of July.

Of the lakes surrounding Michigan's two peninsulas, only Lake Superior was below the level recorded for this date last year. But the northermost of the lakes was only 10 inches below the all-time high recorded in 1876 with a two-inch rise forecast for the coming month.

* * *

It was feared that many beaches both public and private, along the shores of the lakes might face erosion this summer becasue of the high water levels.

* * *

Summer resorts and business along the shores of Lakes Michigan and Superior also could be threatened, the State Water Resources Commission has reported to Gov. William G. Milliken.

FOOT ABOVE '68

Lakes Michigan and Huron Friday were 12 inches higher than a year ago, up five inches from last month and expected to rise yet another two inches by the end of July, the U.S. Lake Survey reports. This level was 42 inches above the all-time low for this date, recorded in 1964.

* * *

Lake St. clair, up five inches from last year and expected to remain at the same level at this time next month, today was only 10 inches below its all-time high of 1952.

Lake Erie, feared to be dying from pollution, was four inches below the all-time high of 1952, and is expected to drop three inches in the coming month.

Bolivia Threatens to Denounce U.S. on Tin Disposal

LA PAZ (AP) — Bolivia threatened Friday to denounce the United States before the United Nations for "economic agression" unless Washington promises publicly not to sell or give away any more U.S. tin reserves.

* * *

Tin is Bolivia's main export and the government fears a price decline if more is put on the world market.

* * *

Ernesto David Pereyra, minister of mines and petroleum, said the U.S. General Services Administration already has committed "an act of aggression", by disposing of tin reserves.

Pereyra said the United States agreed "extraofficially" not to sell any more tin this year, but that his government wants a public pledge.

Land-Reform Doubts in Peru

Expropriation Plan Raising Questions

By JOE McGOWAN JR.

LIMA, Peru (AP) — No one disputes the need for land reform in Peru, but some observers doubt that the plan announced by the revolutionary government will work.

Although Peru is an agricultural nation, only about 1.5 per cent of its land area was being cultivated, according to estimates in 1960, and the nation was spending 20 per cent of its import dollar to buy food grown outside Peru.

★ ★ ★

For some time the government has prohibited the sale of beef one day a week to save on foreign exchange and encourage consumption of fish.

Ninety-four per cent of the agricultural labor force works to

News Analysis

produce food, yet the 6 per cent employed on the big mechanized haciendas along the coast produce six times as much per worker growing sugar and cotton for export.

BLAME FOR IMBALANCE

Agricultural experts blame the imbalance on unequal land distribution, lack of technology among the food crop farmers and poor access to markets.

But attempts to rectify the imbalance and improve the lot of food crop farmers have failed for more than 20 years. With its sweeping land reform law published Wednesday, President Juan Velasco's military regime is trying to carry out some ideas that failed before.

★ ★

The new law limits private ownership of farmland to 36 acres along the coast and 360 acres in the remote Amazon jungle region. Land expropriated by the government will be paid for partially in cash and partially in 20- and 30-year government bonds.

A draft law sent to Peru's Congress in 1960 would have limited farms to 600 acres on the coast and 2,500 in the mountains and provided for payment in 20-year bonds. Congress never acted on the measure.

DID LITTLE

Ex-President Fernando Belaunde Terry had a detailed plan for agrarian reform when he took office in 1963, but he did little more than expropriate 195,000 acres for Indian peasants who had forcibly occupied private lands. Belaunde was toppled by Velasco's military junta last Oct. 3.

Some observers in Peru and abroad contend the generals' move was ill-timed. They point out that Peru is in serious economic trouble—short of foreign exchange, in need of refinancing the foreign debt and looking for foreign investment to develop the nation's abundant mineral resources.

★ ★ ★

Foreign investors have been staying away, however, watching how Peru solves its problem with Washington over expropriation of a U.S.-owned oil firm and waiting to see if other takeovers follow.

Observers say the land reform expropriations, which will affect a number of foreign-owned hacciendas, will further shake confidence in Peru's investment climate.

DECREASE FEARED

Others contend that reducing or eliminating the influence of the more efficient farm owners will result in a decrease in the nation's agricultural production, at least in the immediate future. They question whether the government should have attempted the reform in one swoop, adding that Fidel Castro's supposed reform in Cuba has not shown results in 10 years.

Even if the new land reform law is effective, Peruvian agriculture still will be troubled by antiquated methods used by the Indians who have never been integrated into Peruvian society and by a lack of roads to haul farm products from the Amazonian interior to the populous coastal region.

4-H Courses Set

EAST LANSING (AP) — More than 3,000 Michigan youths will be among 5,000 4-H Club members from across the nation attending citizenship courses at Washington, D.C. this summer. The Michigan 4-H Club members will attend the eight weeklong courses starting June 29.

Hats will tell the tale at the Girl Scout "Reach Out" program, scheduled for June 29-July 12. Members of each of the 66 participating patrols have made their own hats which will serve as their "trademark." Florence Iwami, of Honolulu, Hawaii, (left) and Debbie Kelley (right) help Mrs. Rex Kelley of Lake Orion to select the appropriate one. All three are staff members.

500 Girls Assemble

Scouts to "Reach Out" at Camp

Reaching out to their fellow man, their environment, their world and their leadership opportunities is the work of 500 over high school Girl Scouts, who are participating in the "Reach Out" program.

This nationally recognized senior Girl Scout event at Camp Innisfree, Pinckney, starts Sunday and runs through July 12. The site, owned by Girl Scouts of Metropolitan Detroit, includes 1,000 acres of irregular hills, dense woods intermingled with lakes, meadows and marshes.

"Reach Out" which has been three years in the planning, began with the results of a questionnaire given to Senior Girl Scouts.

It was the girls' unanimous belief that there should be an activity in a camp setting which would help them develop new and creative ways for planning meaningful service projects at home.

★ ★ ★

A girl advisory committee was established a year and a half ago to work with the original adult board. Most of the work is done by the girls themselves while the adults take care of the "mechanics."

"Reach Out" participants were chosen from the six sponsoring Councils of Otsikita, Fair Winds, Metropolitan Detroit, Huron Valley and Northern and Southern Oakland County. In addition, there will be 40 girls from other regions of the United States and 40 Canadian Girl Guides.

The girls have been divided into two camps of 33 patrols in each, for living convenience. Each patrol includes at least one girl from each of the interest groups.

FOUR FIELDS OF INTEREST

With the guidance of specialists, the girls will have the opportunity to study, discuss, have workshops, take field trips and explore in depth one of the four fields of interest; fellow man, environs, world and leadership.

Many hours of hard work have been and will be demanded. Prior to their departure, the girls researched the service needs in their communities.

Upon their return, they will apply their newly-acquired knowledge through projects and will continue to meet with their interest groups at regular intervals.

★ ★ ★

Fun activities, however, are also scheduled. Skits and musical presentations by the Girl Scouts of Southern Oakland Council will introduce the four fields of major interest.

An international ballet will highlight the world friendship phase.

Other events are "Dominion Day" with a special Canadian flag ceremony and an ecumenical church service. Acting Lt. Gov. Thomas Schweigert of Petoskey will be guest speaker.

The Fourth of July celebration will be old-fashioned. Explorer scouts will join the girls for a picnic and fireworks.

WITH SCOUTS 14 YEARS

Mrs. Rene Charbonneau of Detroit, director, heads the staff of 90. Mrs. Rex Kelley of Lake Orion is head of Camp B. Involved in scouting for 14 years, Mrs. Kelley is also second vice-president of the Northern Oakland County Council.

Florence Iwani of oHnolulu, Hawaii, who has been a guest of the Kelleys will serve as a troop adviser. Florence, a representative of the Pacific Council, has attended three of the National Girl Scout Round-ups. She was on the staff of the first Round-up at Highland Recreation Area in 1956.

Mrs. Harriet Phillips (Shirley Essex) of Fenton, commissioned to paint an official portrait of Gov. Their Popularity Will Fade if Something Isn't Done

By ABIGAIL VAN BUREN

DEAR ABBY: How do you tell someone (a relative) that it's time she and her husband gave a party? When this couple moved to town three years ago, they didn't know a soul. We introduced them to all of our friends, and now our friends are their friends, too.

They are attractive, charming people and well-liked by all who know them, so they are very popular, but if they don't hurry up and start inviting some of these people back, they won't be popular much longer.

Since we did sponsor them, we feel somewhat responsible for their social sins of omission. What do we do? I can hardly hold my head up.

NO TOWN, PLEASE

DEAR NO: It's not necessary to stick your neck out in order to hold your head up. If you "like" this couple and are seriously concerned about their threatened loss of popularity as well as the reflection on yourselves, tell the lady in a nice way that if she's planning to entertain, you'll be glad to help her. If she doesn't get the drift, well, you've done your part.

★ ★ ★

DEAR ABBY: In a few weeks I am going to become an American citizen. What is the correct thing to do on this occasion? Do you send out announcements or invitations to the ceremony? It is open to the public, but does this mean family only?

Should I have cards printed? It is such a big event for me I want to do something, but I don't know what. Can you help me?

FUTURE CITIZEN

DEAR CITIZEN: Why not have a private party and invite those with whom you'd like to celebrate the occasion? Printed cards are not necessary. A telephone call or a little note will do. Congratulations.

★ ★ ★

DEAR ABBY: My husband and I have enjoyed your column very much. I have never written to anyone for advice before, but now I feel I should.

First let me explain that we have been happily married for 27 years, have three wonderful children and five grandchildren, so we are not kids.

★ ★ ★

Now, the problem: I would just love to sleep on satin sheets, and now I see that they are for sale and I want to buy some, but my husband says that no man would sleep on satin sheets! We have decided to let you decide whether I should buy them or not.

"YES OR NO"

DEAR YES: Buy one set! If your man sleeps on them with no complaints, buy more.

★ ★ ★

DEAR ABBY: I am a girl of 17 who needs some advice badly. My boyfriend is a very nice guy, but he asks me questions which are none of his business.

He says if I don't tell him what he wants to know it means I don't love him or trust him. He also says that no matter what I tell him about myself, he won't hold it against me.

We've been going together for a year, and this is the only thing we ever fight about.

He insists that the past should be forgotten, yet he keeps nagging me to tell him everything about mine. I never ask him any questions about his.

What should I do, Abby? I really love him, and I don't want to lose him.

IN A CRUNCH

DEAR IN: Tell your inquisitive boyfriend that he is absolutely right — the past should be forgotten, and if he persists in questioning you, it means he doesn't love or trust YOU.

DEAR ABBY: I am heartbroken. All the plans for our daughter's wedding have been made. The church, the hall, the caterer. Just yesterday I gave the printer the go-ahead on the wedding invitations.

Our daughter, who has been in Texas for a few weeks visiting her fiance, called us last night to tell us she's pregnant! Now we can't have that lovely wedding we planned because they want a hurry-up little ceremony with just a few close friends.

What should I tell the minister! The caterer? Our friends? HER MOM

DEAR MOM: Tell the caterer you won't be needing him. Tell your minister you'll be needing him sooner than you had expected. And it won't be necessary to tell your friends anything.

DEAR ABBY: How my husband has put up with me for 23 years I'll never know. All these years I thought I had married an over-sexed man, but now I have to admit there was nothing wrong with him. It was me. I'm frigid.

If mothers would only teach their daughters how to be loving wives it would do them more good than learning how to cook and keep the house. All these years I have kept a spotless home, and earned a reputation for being a fine cook. I even served, and took care of our garden, but what my husband needed was ME, and I foolishly turned my back on him. We are of moderate means, but we have never had words about money, sex yes, but money no.

I know it's not easy to all of a sudden realize that sex between man and wife is clean and beautiful and right, after having it drummed into your head that it is dirty and sinful and wrong.

Print this. It may help a younger woman.

LEARNED TOO LATE

DEAR LEARNED: It's never "too late." At least you learned.

★ ★ ★

DEAR ABBY: Mind if I get personal? Have you ever smoked? And if you have, how long ago did you quit, and why?

"NOSY IN FORT WORTH

DEAR NOSY: I have never smoked. I refrained when young to please my parents, and continue to abstain to please myself.

★ ★ ★

DEAR ABBY: I am still laughing about something that happened this morning. The character who gave me that laugh sounds like someone who'd write to you.

★ ★ ★

I am a switchboard operator for the Telephone Company. When I answered a call this morning there was no response on the other end of the line. After I had said, "Good morning, this is the Telephone Company" for the third time, I heard a somewhat embarrassed little female voice ask, "Is this REALLY the Telephone Company?"

★ ★ ★

I assured her that it was, and asked her to whom she wanted to speak.

She replied, "Nobody, I guess. I just found this number in my husband's coat pocket."

Competing in the Detroit Horse Show is a privilege in itself, but to ride away with a coveted rosette is truly a thrill. Assistant secretary of this year's event, Mrs. Charles Hohmeier, of Franklin, planned for a bevy of winners. Ribbons, trophies and cash prizes are awarded in most classes at the show which will end on Sunday.

She Wins Success, Loses Hair

Top Model Starts 'Skull Look'

NEW YORK (AP) — Naomi Sims, the 21-year-old Negro model who made famous the skull look, reached the top when she was losing her hair.

"The doctor said some people develop ulcers, perhaps your hair doesn't grow," explained Miss Sims, who found she was eating less and worrying more as she launched a modeling career.

"I was starving myself," she said. "I wanted high cheek bones. But I simply can't get them."

★ ★ ★

She gave up on high cheek bones and slicked her hair down close to her head, attached hairpieces and thus created her now famous skull look.

She started eating again and gained 20 pounds which went unnoticed on her 5 foot 10 inch frame. She now weighs 135 pounds, and her hair is growing back.

HAD FAITH

The daughter of a Pittsburgh maintenance worker said she never had any doubts she could succeed in the fashion world.

"It was the most natural thing," she said. "People have told me I was pretty since I was a little girl. When I was 14, I said I wanted to do a cover of Vogue. I had a fascination with cosmetics. I wasn't allowed to wear them but I'd try them on at home."

★ ★ ★

In June 1967, she came to New York to study design on a scholarship at the Fashion Institute of Technology.

She inquired about the possibility of earning extra money and was introduced to a friend of a friend of a photographer. On her first assignment, she made the cover of The New York Times magazine.

After that she was flooded with requests. She signed with an agency and dropped out of school. Almost immediately she commanded $60-an-hour fees.

The first week she worked every day. Then for 10 weeks she didn't work at all.

"I was so worried but then I did a television commercial," she said. "Now I don't worry. I know always there is something around the corner."

Around the corner was her selection as the first Negro model to appear on the cover of a major women's magazine, Ladies Home Journal; the first to do color pages in Vogue, and a trip to Europe for Time magazine.

Miss Sims said she has experienced prejudice few times in her life. "There is a point where beauty surpasess prejudice," she said.

In fact, she said she is hard pressed for an answer when asked what is the worst thing that ever happened to her.

Smiling brightly, she expressed gratitude to an airline for providing her with an answer. They lost her luggage containing her 30 hairpieces.

OU Coed Chosen as Cherry Queen

TRAVERSE CITY (UPI) — Barbara Ann Beekett, a hometown girl in the heart of Michigan's cherry-producing belt was crowned National Cherry Queen Friday night after being selected from among 17 Michigan beauties.

The 5-foot-5 brown-eyed lovely was in tears when she received the crown from the 1968 National Cherry Queen, Julie Anne Hamilton of Cedarville. The 1969 National Cherry Queen is 21 and will be graduated from Oakland University in Rochester this December.

★ ★ ★

First runnerup honors went to Sheri Lynn Crampton, 17, Miss Roscommon County, while Linda Elizabeth Stankwitz, 18, Miss Mount Pleasant, was chosen as second runnerup in the annual pageant.

The girls themselves chose Ann Haglund, 18, the Danish Festival Queen from Greenville as Miss Congeniality.

★ ★ ★

As a respresentative of the cherry industry, the new 1969 National Cherry Queen can expect to log more than 11,000 miles in the coming year, including the Michigan Week tour of the nation when she will be accompanied by other queens boasting of Michigan's agricultural bounty.

PROPOSED AMENDMENT TO CHARTER TOWNSHIP OF WATERFORD DISORDERLY PERSONS ORDINANCE No. 62

The Charter Township of Waterford ordains the following amendments to Ordinance No. 62, known as "Disorderly Persons Ordinance", to-wit:

1. That Section IV of said Ordinance No. 62 is hereby amended to add subsections (36), (37), (38), (39), (40), and (41) to be included in said Ordinance and to read as follows:

(36) Purchase or knowingly possess or transport any alcoholic beverage or knowingly possess, transport, or have under his control in any motor vehicle any alcoholic beverage unless said person shall have attained the age of twenty-one years (21) or unless said person is employed by a licensee under Act No. 8 of the Public Acts of 1933, as amended, and is possessing, transporting, or having such alcoholic beverage in a motor vehicle under his control during regular working hours and in the course of his employment.

(37) Sell any alcoholic beverage to any person who shall not have attained the age of twenty-one (21) years. A suitable sign, describing the provisions of this Section and warning violators thereof, shall be posted in a conspicuous place in each room where any alcoholic beverages are sold. Said sign shall be approved and furnished by the State Liquor Control Commission. In any criminal prosecution for the violation of this Section proof that the defendant licensee or his agent or employee demanded and was shown, before furnishing any alcoholic beverage to a minor, a motor vehicle operator's license or a registration certificate issued by the Federal Selective Service or other bona fide documentary evidence of majority and identity of such person, may be offered as evidence as a defense to such prosecutions;

(38) Permit any minor child under seventeen (17) years of age to remain in a dance hall, saloon, barroom, or any place where any spirituous or intoxicating liquor, or any wine or beer, or any beverage, liquor, or liquors, containing any spirituous or intoxicating liquor, beer or malt liquor is sold, given away or furnished for a beverage, unless such minor is accompanied by a parent or a guardian. Any proprietor, keeper or manager of any such place who shall permit such minor child to remain therein shall be deemed guilty of a misdemeanor;

(39) Knowingly give or furnish any alcoholic beverage to a minor except upon authority of and pursuant to a prescription of a duly licensed physician;

(40) Falsely represent himself to be twenty-one (21) years of age or over by any person under the age of twenty-one (21) years, for the purpose of purchasing or attempting to purchase any alcoholic beverage;

(41) Giving false information regarding the age of another person under twenty-one (21) years of age for the purpose of procuring the sale of an intoxicating beverage to said other person or the furnishing of false documentary evidence to a person under twenty-one (21) years of age who uses the evidence to purchase an intoxicating beverage.

This Amendment shall become effective upon publication. By order of the Charter Township of Waterford.

O'Brien Hits Levin on Stadium Issue

A former state senator from Pontiac, County Supervisor Carl O'Brien, has criticized Democratic Sen. Sander M. Levin of Berkley for his support and endorsement of a proposal to locate a new sports stadium in the city of Detroit.

★ ★ ★

O'Brien contends the logical location for such a stadium is in the Pontiac area off I-75 expressway. He predicts that because of highway access, economic potential, parking and land availability, the stadium will be built in Oakland County.

★ ★ ★

He further noted that the time is now to marshal all the community's resources and talents into the gigantic task of providing the center here. The cost of the stadium, to seat 160,000 people, is estimated at $65 million.

House OKs Amendment on Sex Ed

LANSING (AP)— Elementary and secondary schoolteachers would receive new rules and guidelines for teaching sex in their classrooms this fall if the Michigan Legislature agrees on a House proposal.

An amendment added Friday to the $38.58-million Education Department appropriation would direct establishment of state rules and guidelines by Aug. 15, or require school districts to suspend sex education until given further approval by the State Board of Education.

★ ★ ★

Adopted by a 71-21 House vote, the proposal faces Senate review along with some $2.85 million in additional funds for state college scholarships and support of adult, community education projects in public schools.

Republican Reps. James Smith of Davison, Loren D. Anderson of Waterford Township and William Hampton of Bloomfield Hills proposed the change in Michigan's year-old statute authorizing districts to set up their own sex education programs.

EARLIER RESOLUTION

Anderson and Hampton earlier introduced a resolution, approved by both chambers, calling for review of the content and presentation of courses in hygiene, family relationships and personal sexual behavior.

The resolution would not necessarily affect local school districts, since it does not have the force of law.

Enactment of the amendment, however, would be law.

The State Board of Education was expected to consider preliminary guidelines at its July meeting.

"Sex education has gone off in 100 different directions," said Hampton. "I'm not against teaching sex, I'm not even trying to tell schools what they have to teach."

Recount Fails to Break Tie in Brandon Vote

A tie vote that defeated a $3,675,000 building bond proposal in the Brandon School District June 9 remained unchanged following a recount yesterday.

The recount, petitioned by the Brandon Board of Education, was conducted by the Oakland County Election Board.

Election officials said that one ballot sheet had been marked "no" and then was changed to "yes." "Since there are no provisions for erasures on paper ballots, we had to consider the original intent of the voter," a spokesman for the election board said.

A similar situation was discovered on a vote which was changed from "yes" to "no."

Both ballots were thrown out, which left the election result with an identical 409-409 final tally.

School officials said they will not appeal the recount. The board of education is expected to place the bond issue proposition back on the ballot in about six months.

The proposal would have provided funds for a new high school and renovations and additions to existing elementary buildings.

Action on Clothes Payments to ADC Mothers Is Delayed

Whether cash allotments will be paid to mothers receiving ADC (Aid to Dependent Children) benefits to supplement clothing needs now supplied through the county's emergency clothing store will have to await a further "fact-gathering" effort by the county supervisors' human resources committee.

★ ★ ★

The decision to temporarily delay action was made yesterday by the committee after hearing reports from James Hunt, director of juvenile affairs for the County Probate Court, and Miss Ora Hinckley, director of social services for the county.

★ ★ ★

Miss Hinckley and Hunt presented reports supporting the county's lone emergency clothing store operation, located at 1 Lafayette in Pontiac.

Miss Hinckley pointed out in her report to the committee that two counties, Wayne and Washtenaw, presently are issuing supplemental cash allotments to ADC clients for clothing, $60 and $70 per child, respectively.

PETITION COUNTY

ADC mothers have petitioned the county for extra clothing allotments to be paid in biannual cash installments of $60 per child. A welfare family with 10 children, under the proposal, would receive $1,200 a year as a cash clothing allotment in addition to the clothing supplied from the county emergency clothing store each year.

★ ★ ★

Supervisor Lee Walker, D-Madison Heights of the human resources committee gained support for his motion that a "fact-gathering" project be launched to check into the practices followed in other counties and the experiences relating to ADC clothing allotments in these counties.

Mentioned in the motion for specific reports were the counties of Wayne, Monroe, Washtenaw, Genesee, Kent and Muskegon.

★ ★ ★

Robert F. Patnales, R-Royal Oak, chairman of the human resources committee, emphasized that seeking information from other counties on their policies and experiences in clothing welfare families would be a "fact-gathering" endeavor rather than a "study" which would consume a lengthy period of time.

★ ★ ★

He expressed the hope the committee would be in a position to author a recommendation to the board of supervisors on the cash clothing allotment question next month.

Hunt reported foster mothers who are caring for wards of the Probate Court have been "complimentary" in their response to inquiries from his office regarding their use of the emergency clothing store.

'BETTER VALUES'

He pointed out the mothers expressed the belief "better values" in clothing were available at the county store where purchases are made at a 10 per cent discount and without any sales tax charges by jobbers working for the county.

★ ★ ★

The styles and fashions of the clothing purchased, Hunt maintains, has "generally satisfied" all of the foster parents as well as the children in their care. He added that none of the 163 foster homes in the county had sought cash allotments for clothing for their wards.

★ ★ ★

Miss Hickley informed the human resources committee in her report yesterday that her department has already spent $108,000 for clothing for its welfare clients for the period of Jan. 1 to June 1 this year.

★ ★ ★

In all of 1968, Miss Hinckley reported the County Social Services Department spent $122,424 on welfare clothing. She said this year's expenditure in this area could reach a total of $200,000.

Any action taken by the board of supervisors to provide supplemental cash allotments for clothing welfare families this year will be over and above the expected $200,000 expenditure. The funds would have to be derived from local sources, since the county is not eligible for reimbursement from the state or federal government on welfare clothing. She said direct relief for welfare clients.

Split-Rail Framed Garden Highlights Entrance In Troy Trilevel Of The John C. Seitz Family

Pontiac Press Photos by Ron Unternahrer

Sage Green Hitchcock Chairs Serve Dining Table

Food for Thought

By JODY HEADLEE
Home Editor, The Pontiac Press

Large helpings of geography are served with the meals at the three-year-old John C. Seitz home in Troy.

One wall in the informal dining area is wallpapered with a map of the world.

★ ★ ★

"We keep a record of the children's heights on the side of the map," said Mrs. Seitz, "and we've told our seven-year-old Leslie, that when she's tall enough to reach the British Isles — our family vacation will be to Britain.

"The map," she continued, "comes in 12 panels at $1.25 per panel. It's available at the U.S. Navy Hydrographic Office in Washington.

GOOD WAY TO LEARN

"And, I must say, it's a terrific way for the children to learn geography."

The remainder of the walls in the room which adjoins the kitchen work area are painted a seafoam green.

★ ★ ★

Located at the back of the floor plan is the formal living room. Complementing a monochromatic background of gold in the walls, carpeting and draperies are accent shades of brown, green and paprica. They are introduced in the floral-and-leaf print of the two round-back chairs before the picture window.

Over the antiqued green stereo separating the round-backs is an antiqued brass and amber glass hanging lamp.

SOFA GROUPING

Philodendron spills over the sides of a silver bowl on the maple coffee table serving the shades-of-gold sofa. A print of "The Reapers" by Millet shares the wall space above the sofa with an antique German etching by Ter Meuler and a cast black key.

On the room's solid oak bookcase is a portion of Mrs. Seitz' collection of candlesticks. "That piece (the bookcase) is so heavy," she said, "it takes my husband, my son and myself to move it."

★ ★ ★

A white German porcelain of a mother and child adorns the drop leaf maple drawer table beside the brown and green checked wing back.

Rough Siding Colors Vary

If you choose resawn lumber siding with a penetrating, semitransparent stain finish for your house, are you limited in siding style or color?

The answer is definitely no. Resawn lumber siding is manufactured in all the preferre patterns and in both clear and knotty grades.

★ ★ ★

Stain colors are numerous, too. One company manufactures 36 semi-transparent shades ranging from charcoal through silver and green tones into a wide variety of browns and golds.

★ ★ ★

Only blue, which doesn't weather well, is excluded.

Solid-color stains, which are more heavily pigmented, are also available in a wide range of colors, including blue and white.

Durability of Oak Not by Grades

Many people who intend to color their oak floors through use of a stain or a pigmented penetrating sealer prefer to buy a lower grade of flooring.

★ ★ ★

Lower grades of oak flooring are just as strong and durable as higher grades — the difference is in appearance — when stained or pigmented, lower grades of oak flooring may have a more pleasing visual character.

Hydronic Heat for Ranch Homes

Hydronic (hot water) heating systems overcome the serious heating problem created by modern house designs.

Spread-out, rambling ranch types particularly need the heat-retaining power of water to adequately warm the far-reaching extremeties of the structure.

Protect Eyes During Sunny Season, Now

Sun time is an important time to look out for your eyes.

They are likely to be more sensitive to glare, heat and breezes, not to mention allergies like rose fever and hay fever.

Heavy use of eye make-up, so prevalent today, also tends to irritate the eyes.

Dramatic eye make-up highlights sparkling eyes. But if eyes are tired, be wary!

False lashes, mascara, liner and shadow, all make dull eyes look even duller and emphasize fatigue.

And there is nothing less attractive than heavily made-up lack-luster eyes!

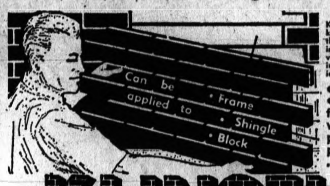
That's why the Pfizer people, makers of Visine eye drops, recommend use of the drops before making up . . . any time of the day or evening.

First thing in the morning, bathe sleepy, irritated eyes for a bright wake-up. (This can get to be a refreshing habit, like tooth brushing!)

If there is redness in your eyes, you can actually observe it disappear . . . in seconds, almost magically.

The man in your life will wholeheartedly thank you for telling him about these eye drops, too. After a day (or night) of hard work or play, they can give him a soothing pick-up and a sparkling alert appearance as nothing else can.

WHAT IS KLINGELHUT FACE BRICK SIDING?
It is the Multi-Purpose Brick Siding that does so many jobs—BETTER



Klingelhut brick is genuine, individually made, kiln-fired brick of standard dimension except that it is ½ inch thick. It is bonded to ½ inch insulating panels by an exclusive process developed by Klingelhut. This produces an insulating combination equal to 4 inches of blown-in insulation—or 4 feet of solid brick.

• Gives year-round insulation • Reduces fuel costs • Beautifies your home, increases its value • Resists fire • Ends repair and maintenance bills — no painting • Economical to install ...

Clean-Up Detail Important Step

Post painting clean-up is essential. Brushes used with latex or water-thinned paints should be washed in warm, soapy water immediately after use. Rinse well and allow to dry before storing.

Store brushes in either a keep the bristles straight. Cleaning your brushes immediately after use will save hours of work the next time you set out to paint!

Prevent Fire

Hundreds of thousands of homes are damaged or destroyed each year by fire. One of the best permanent safeguards against such disaster striking your home is to make sure that areas where fire is likely to break out are protected with fireproof surfacing materials such as brick, stone and ceramic tile.

PROTECTS CONCRETE
driveways, garage floors, patios, and sidewalks . . .
Spencer Kellogg's new Anti-Spalling Compound protects all concrete surfaces...new or old, from winter damage. Stops scaling, pitting, spalling caused by frosting, ice and snow, salt, and de-icing chemicals. Easy to apply...takes less than a day to dry. New Appointments by Real Estate Firm

Appointment of James Desy, of 8925 Kidley, Sterling Township, as manager of Ray Real Estate Co.'s branch office at 45109 Van Dyke, Utica, is announced by Robert Piersol, company owner.

At the same time Piersol announced the opening of a branch at Port Huron, marking the company's entrance into a fourth county in southeastern Michigan. A month ago Ray entered Wayne County with an outlet in Detroit. The firm now has nine offices serving Macomb and Oakland counties as well as St. Clair and Wayne.

Desy, who joined the Ray firm in 1968, succeeds Robert Young in the Utica branch. Young, in his third year with Ray, is manager of the newly opened Port Huron branch which, Piersol said, is a move dictated by Ray's expansion to meet the growing market in the St. Clair County and metropolitan areas.

The company, founded by Piersol in 1964, is based in the Michigan Bank Building in Clinton Township. The firm grossed in excess of $24 million last year and has been averaging $2.3 million in monthly volume business since January.

Check the Quality and Fit of Fixtures

If you are planning to modernize an old-fashioned bath or install an additional one in your home soon, be sure that you match top grade fixtures with the same quality in fittings.

Good-looking, durable, dependable faucets and drain fittings will retain their brilliant finish and mechanical efficiency long after the inferior variety has worn out and been replaced.

Water has a natural corrosive action on inferior grade products.

To resist this corrosion, top grade fittings are cast of brass with a high copper content, chromium finished, and given a heavy undercoating of nickel.

A POOL AND BENCH—in glowing tile add interest to this garden. And here is a secret the pool tiling is applied to a wood frame that masks an old bath tub. The bench also has a base of wood. Pattern 477, which gives directions for both these wood frames as well as illustrated steps for the tile work, is 50 cents. It is also in the Mosaic Tile Pattern Packet No. 78 for $1.50. The Pontiac Press Pattern Dept. P. O. Box 50, New Windsor, N. Y. 12550.

Venetian Blinds to Highlight a View

If you are lucky enough to have a room with a fine view, you may hesitate to block the scene by curtains or draperies.

Instead, try framing the windows with a decorative fabric and use a Venetian blind to control light and privacy.

During the day, the raised or opened blinds permit an unobstructed view.

★ ★ ★

At night, the blinds can be lowered for privacy. To add to the decorative effect, the tapes can be trimmed in the same fabric used to frame the windows.

Windows Give Old Home Bright New Lease on Life

Modern wood windows can give an old house a new lease on life — inside and out.

The exterior of the house gets an up-to-date facelift; the interior gains a sense of spaciousness, as well as more light and air.

★ ★ ★

What's more, modern windows have beauty and convenience features that were probably not available when the original windows were installed.

Here are some ways to upgrade the appearance and convenience of your home with new windows:

● Create a visual highlight for the house with a stock bow or bay window of ponderosa pine.

These graceful units frame a view beautifully, offer wide visibility, and can be obtained with operating panels at the top or bottom for ventilation.

★ ★ ★

Bows and bays are most appropriate for Colonial homes, but add elegance to any architectural decor.

● Wide-view stock windows, such as bows and bays, are now available with insulating glass which, combined with the natural insulation of wood sash, cuts heat loss and heat gain substantially, helps keep the room comfortable all year round, and eliminates the need for storm sash.

● Add drama to a drab room with a series of awning or hopper windows, banked three across and three high. They give the effect of a glass wall with wide-open visibility and lots of sunlight.

Awning windows open out, and hoppers in, at a 45-degree angle, providing a free flow of air and maximum ventilation.

● Install a casement window over the kitchen sink. It's ideal for such hard-to-reach places because it can be reached and operated easily and opens with the turn of a handle.

You can install casements on either side of a fixed glass window for a combination of visibility and ventilation.

● Give double-hung windows an attractive new look with removable grilles. The grilles snap into place over the inside glass surface to give the windows a small-pane appearance. When you want to wash the windows, the grilles lift out to expose a single pane of glass.

For additional window washing ease, many ponderosa pine stock windows come with pivot or lift-out sash so both sides of the window can be cleaned from inside the house.

SIMPLE — Modern windows can give an old house a new look. Here, an up-to-date version of Colonial styling was used to beautiful advantage by installing stock ponderosa pine windows with removable grilles that give a traditional multi-paned appearance and simply lift out for easy window washing.

These Tips May Help on Moving Day

Moving can be an upsetting experience for children. In changing homes, they will be leaving friends, favorite playing spots, and will have to give up other pleasant attachments.

Parents have an important responsibility in helping their children make a quick and happy adjustment to their new neighborhood, says nationwide movers, and can do this by keeping certain things in mind.

★ ★ ★

● Let choldren know about the move from the beginning. They should also know the reasons for moving and what their new home is going to be like. This will give them a sense of participation in family affairs and give everyone a chance to make a mental adjustment for moving day.

● Show enthusiasm about the move, the new home, neighborhood, schools etc.

● Involve the children in the preparations for moving far in advance of the moving date. Making them a part of the moving force, asking their opinion about certain matters can give them greater trust and confidence in the change.

PACKING

● Shortly before moving day, help them pack a suitcase of favorite toys and clothes. This can reassure children that they are not giving up everything in their present neighborhood.

● Consult them about their own room when moving in. Take their advice about how things are to be arranged to give them an immediate feeling of belonging.

You can rearrange the room later on, once your offspring have made new friends and are adjusted to the new environment.

The ponderosa pine tree has distinctive yellow-brown bark arranged in large plates like alligator hide.

Modernize Now

Ten ways the Realtor takes the worry out of home buying.

NATIONAL ASSOCIATION OF REAL ESTATE BOARDS — REALTORS Are Active Members of Constituent Boards

Buying a home can be a barrel of fun. Or a peck of pitfalls. And that's where a Realtor comes in. Even though you may know the difference between a dormer window and a bay, his expert help can open your eyes to other features you might never notice. And steer you clear of drawbacks you might easily overlook. Below you will find ten of the best reasons we know for *starting* your search for a home in the Realtor's office.

1. THE REALTOR SAVES YOU TIME, EFFORT AND HEADACHES. He discovers your architectural interests, learns something of your personal tastes—and tries to show you only the types of homes you want to see, within your price range.

2. THE REALTOR ADVISES YOU ABOUT NEIGHBORHOODS. His professional experience is invaluable to you in analyzing future trends and the potential value of your home as a long-range investment.

3. THE REALTOR HELPS YOU SEE THROUGH INFLATED PRICES. Owners who try to sell personally, often tend to overprice a home. But homes listed with a Realtor benefit from his knowledge of current market values.

4. THE REALTOR ARRANGES FOR DEFINITE INSPECTIONS. He makes appointments for your convenience. He will also see that you have plenty of time for a thorough, unhurried inspection.

5. THE REALTOR HELPS YOU SHARPEN YOUR VISION. He inspects homes with you, calls your attention to improvements and advantages you could overlook. And points out any disadvantages his trained eye may spot.

6. THE REALTOR PROVIDES YOU WITH FULL INFORMATION. He will give you essential facts about taxes, maintenance costs, quality of construction, adequacy of public services, schools, churches—even introduce you to the neighbors.

7. THE REALTOR ACTS AS A NEGOTIATOR. Settling of the finer points of price and other differences can get pretty hectic. Your Realtor smoothes over the details and helps buyer and seller arrive at a mutually advantageous agreement.

8. THE REALTOR HELPS YOU STAY WITHIN YOUR BUDGET. He will help you analyze your financial situation, give you sound mortgage advice. Then, if you desire, he can recommend sources of mortgage funds so you can arrange financing.

9. THE REALTOR HELPS YOU KNOW FINAL FACTS AND FIGURES. At the closing of the transaction, you will need a complete financial statement, giving you an exact record for insurance, tax and other purposes.

10. THE REALTOR IS PLEDGED TO SERVE YOU WELL. Display of the NAREB seal is evidence of a pledge to uphold the ideals of the Association. The term Realtor is your assurance of competence, fair treatment and integrity.

Open Deck for Light Well

Never cover up a basement window well when building a deck adjoining the house.

You'll need it for ventilation and light, even if the basement is only for storage.

★ ★ ★

Simply leave the well space open, then build a railing around it, on the deck, to prevent anyone from accidentally stepping into it.

Better than something conventional, design the railing as a planter box, using scraps of 2x4-inch fir left from the deck construction.

The planter-railing will be a perfect place to set out bright-colored annuals.

Use Caution With Solvents

When working with any floor finish which contains solvents, use caution. Rags that have been soaked with solvents or varnish should be disposed of immediately after you have finished working with them.

★ ★ ★

Burn them or put them in a bucket of water. Always work in a well-ventilated area with windows and doors open. This will reduce the chance of solvent fumes accumulating and being ignited.

★ ★ ★

A last reminder: don't use electrical equipment and don't smoke while you're working with solvents. And put out any pilot lights in stoves or furnaces!

Wrought Iron

Brighten Your Balcony

Who says home owners have all the fun when it comes to outdoor living, cook-outs, patio parties, and the like?

A growing number of apartment dwellers are also getting into the swing of things, especially if their apartments have outdoor balconies, according to style consultant June Woodard.

★ ★ ★

"The newer high-rise buildings almost always have balconies as a selling feature," she said. "And even in the older walk-ups, the wooden back porches are being tidied up and turned into the equivalent of the suburban patio."

Though these balconies and porches may be relative and functional through the proper choice of outdoor furnishings and accessories.

The smallest balcony can usually accommodate a compact pedestal table and one or two side chairs — an ideal setting for breakfast for two or cocktails in the evening.

SUN LOUNGING

"Or you may prefer to use the balcony for sun lounging, in which case you can find chaise lounges and sofas to suit you," noted Miss Woodard.

For cook-outs, there's a wrought iron barbecue cart that's also available as a tea cart for serving food and beverages. And to decorate the outdoor walls around the balcony, there are wrought iron planters, shelves, and candelabra.

★ ★ ★

A few potted plants complete the transformation of a city balcony into a sylvan retreat.

"What's most important is to make sure the furnishings can stand the gaff of city life," says Miss Woodard.

City air is tough on all kinds of finishes, and will generally attack metal unless the finish is especially treated to resist rust and the effects of weather.

STORING SPACE

Another point is that apartment dwellers seldom have the space to store outdoor furnishings and so must leave them out all year exposed to the ravages of the elements.

★ ★ ★

Wrought iron is especially suited for year-round outdoor use, as proven by literally centuries of exposure to the elements. For this reason, architects often specify wrought iron for ornamental use on many buildings.

★ ★ ★

The French Quarter in New Orleans is world-renowned for the beauty of its wrought iron, originally installed in the early 1800s.

For furniture use, wrought iron is made even more attractive and durable by a process called "metalizing." This includes giving the metal a coating of molten zinc, a chemical stablization bath, prime coating, enameling, and three bake cycles, plus a final decorative antiquing.

★ ★ ★

Warranted against rusting for 10 years, wrought iron frames are available in ten colors to accent any apartment balcony or porch setting. These include Ceil Blue, Black Moss Green, Antique Lead, Gardenia, Pompeian Green, Maple Sugar, Sunflower, Tuscany Blue and Chalk White.

MESH SEATS

"Wrought iron chairs with metal mesh seats and backs, carefully contoured for comfort, are a practical choice for city balconies," Miss Woodard said.

"The metal mesh, like the frames, is treated to resist weathering, so furnishings can be left outdoors all year."

Apartment dwellers who want cushion comfort with their wrought iron can have it in the form of Vinyl-Dri cushions, made of a unique construction that permits water to drain through.

The cushions are covered by a knitted nylon reinforced fabric called Vinyl-Vent which comes in a variety of colorful patterns, and the open weave is cool to sit on.

"Although these weather-resistant cushions will withstand rain, ice, or snow, they should be brought inside for the winter months," advises Miss Woodard. "They can be easily removed from the chairs for storage."

TUBULAR

The newest development on the outdoor scene is tubular steel furniture with resilient vinyl straps.

The furniture is light in scale, making it appropriate for small balconies.

★ ★ ★

For a bright note, the vinyl straps which form the seats and backs come in a choice of rich colors.

Both wrought iron and tubular steel chairs are designed to team up with all-weather wrought iron tables with tops of tempered glass, metal mesh, and newest of all fiberglass.

The latter is now available in forms simulating slate, mosaic tile, embossed leather, and weathered oak.

"Dust, grime, and dirt can be easily washed off these tops as well as from the frames, making them a snap to keep clean," Miss Woodard says.

A wide range of styles makes it easy to select wrought iron furnishings to go with any type of balcony or porch design scheme.

Popular styles for all-weather include the contemporary Sculptura and Pacific groups, and the classic Mayfield and Chateau Lorraine groups.

In tubular steel, the traditional Ionian group is popular.

Wrought iron designs from balcony use can be seen at leading casual furniture stores as well as at leading department and furniture retailers.

A Workbench Is Convenient

When you are enameling small pieces such as tables and chairs, a workbench makes a convenient working height.

Place these small pieces upside down on the bench and do the underneath surfaces first. Then, turn them right side up and finish painting.

A bench makes it easier to do the best possible job of applying the paint. And you'll be able to spot drips and uneven areas quickly.

Ex-Rebel Recalls Day Archduke Was Slain

SARAJEVO, Yugoslavia (UPI) — The sun came up hot in a clear sky the morning of June 28, 1914. That alone made Cvjetko Popovic nervous.

"We hadn't counted on the weather being good," he recalled today. "It had rained for days. Now I was faced with finding some way to conceal the grenades and pistol I was carrying."

* * *

Popovic, 18 at the time, was one of a group of seven young Bosnian Serbs with a self-appointed mission — to assassinate the Archduke Franz Ferdinand of Austria. For them he symbolized the tyranny of the Austro-Hungarian Empire in the Slavic lands which later were to become modern Yugoslavia.

"It was about 10 a.m. and the crowds were gathering fast on the quay where the royal car would appear," Popovic said.

SPREAD OUT

"The seven of us were spread out in the area, each armed with either grenades or pistols or both."

Popovic today bears little resemblance superficially to the gaunt young man in the great-coat. His black hair belies his 73 years. His neat gray suit and horn-rimmed glasses fit better the professor of philosophy and education he became in his mature years.

* * *

But he remembers every detail of that momentous day in history 55 years ago.

"The sound of the royal motorcade drew nearer. The crowd surged forward to get a better look — and I suddenly realized I was in grave trouble," he recalled.

"In order to detonate the fuse on the grenade I had to knock it against something hard, like the wall behind me. The fuse lasted 10-11 seconds.

ENCOUNTERED PROBLEMS

"If I moved forward with the crowd to see the car with Franz Ferdinand and his wife, I couldn't detonate the fuse. But if I stayed back against the wall alone I could be spotted easily and moreover would have to lob the grenade over the heads of the crowd., taking a chance on the aim.

* * *

"Just then there was a muffled report-like a grenade that had fizzled, I thought. There was lots of shouting and milling about. Nobody bothered to notice me."

Popovic later learned that his fellow-conspirator, 19-year-old Nedeljko Chabrinovic, had tossed a grenade at the open car. It bounced off the back of Franz Ferdinand's car into the street and exploded, wounding an aide-de-camp.

* * *

The conspirators dissolved into the crowd. One of them, an intense young man of 19 named Gavrilo Prinzip, sat down at a neaby outdoor cafe to drink a cup of coffee and think. Popovic, only a block or two away, panicked.

ROUTE CHANGED

"I went around in a daze, thinking 'we've failed, we've failed.' but suddenly there was a great shout over by the river and I knew I'd been wrong. I just knew."

* * *

Franz Ferdinand had decided at the last moment to change the motorcade route to allow a brief visit to the hospital where his wounded aide was taken. But the drivers were not told.

* * *

Thus when the procession approached a major bridge intersection the lead car turned right, following the original route. The archduke's car began to follow, then stopped — directly in front of the waiting Gavrilo Prinzip, who shot him.

The bridge today bears Prinzip's name. One by one the conspirators were rounded up, tried and sentenced. Prinzip died in a Czech prison. Popovic and his close friend, 17-year-old Vaso Cubrilovic, survived.

Austria declared war on Serbia for alleged responsibility which was never proven. Imperial Germany backed her up. Europe was in upheaval — and World War I was under way.

* * *

"If we'd known a world war would grow out of what we did, not a single one of us would have contemplated such an act," Popovic says now. But our motives were pure. We acted out of conviction. For that, certainly, there can be no regret."

Replacing conventional paint brushes is a disposable polyurethane foam cartridge that eliminates brush marks and loose bristles. The cartridges are snapped into a handle.

LBJ Sees Dems Moving Mountains

WASHINGTON (UPI) — Former President Lyndon B. Johnson has ended five months of public silence to predict the Democratic party will once again move mountains, despite the scars of dissension.

The words from the former president came Thursday night at a Democratic congressional fund-raising dinner, in the form of a letter to his former colleagues:

"A united Democratic party has moved mountains in our time. It can again.

"The scars of our divisions are still there, but towering high above them are the monuments to hope and human progress we have built together.

"Looking ahead has always come more naturally to Democrats than looking back. And tonight there is much more for Democrats to look ahead to. There are all those proud gains we labored so hard to achieve, which must now be preserved and protected.

WORK UNFINISHED

"And there is the work left unfinished—the children still without health care and men still without jobs. There are cities to be built and rivers to be saved. There is peace to be won and secured in Southeast Asia and the Middle East."

Johnson's letter was greeted with warm applause when it was read to the dinner audience by Sen. Daniel K. Inouye, D-Hawaii. It was Johnson's First public statement since leaving office. Johnson recalled the days when he first came to Washington 37 years ago and said:

"Those of us who were young and concerned knew the change was coming and that it would bring better days for the nation. We can look back now with satisfaction in the nearly four decades of action we got.

* * *

"Democratic administrations and Democratic Congresses extended the horizon of America, and lives did become better for all our people."

The dinner, at which a reported $750,000 was raised for party purposes, included a speech by Senate leader Mike Mansfield.

Parents Listen

Home—As Others See It

"Be yourself" was the advice given to a group of parents of St. Stephen's Episcopal Church Tuesday evening by Dr. Richard B. Traitel when they met for dinner and discussion at the home of Mr. and Mrs. Archie J. Coran, 2600 Oxford, Troy.

★ ★ ★

Psychologist with the Oakland County courts, Dr. Traitel spoke at the first of a series of summer programs prepared by the adult education committee of the parish.

Using the theme of the series, "The Home—As Others See It" as his topic, Dr. Traitel observed the South Oakland County home from the viewpoint of the court, with particular reference to adolescents, the age group with which he is primarily involved.

LOVING PARENTS

"In this community," he said "the majority of young people who are brought before the courts are the children of loving, honest parents. Very often their anxiety over being good parents is in itself the cause for major problems in the family."

★ ★ ★

He went on to say "The American parent, by and large, wants to do a good job of rearing his children, and he reads and listens to the advice of the child guidance professionals in order to find the answer he needs when difficult situations arise."

"If he follows the advice of first one, then another of these authorities who may differ in their philosophies, he may become confused and act inconsistently, being both overrestrictive and overpermissive."

BEWILDERED

Dr. Traitel explained "The adolescent child, caught in this confusion and bewildered, will overreact himself, and problems in the parent-child relationship compound themselves.

"At this point, when the parent feels that he has tried everything and nothing works he sometimes gives in. The child senses this abdication of responsibility and realizes that his parents are no longer in control.

★ ★ ★

"The behavior response he makes then may result in a court appearance," the speaker said.

"In Oakland County courts," Dr. Traitel explained "every effort is made to improve the family situation and return the adolescent to the home."

DELINQUENCY

"Juvenile delinquency," Traitel stated "is a legal term. There are no delinquent

DISCUSS YOUTH — Getting together to talk over the summer series of adult education lectures, "The Home — As Others See It" are several young people with leaders of St. Stephen's Episcopal Church. Standing besides Mrs. George Wilson, 1809 Maryland, Birmingham, chairman of the education commission, is Archie J. Coran. The meeting and dinner was held this week at the home of the Corans, 2600 Oxford, Troy.

Teach Lessons---Honor, Virtue, Honest Work

How Families Combat Delinquency

How does a religious community dedicated to family unity combat juvenile delinquency and today's so called new morality?

For some years the Mormons, more correctly termed the Church of Jesus Christ of Latter Day Saints, have been conducting "family home nights."

★ ★ ★

How does this work?

Once a week Latter Day Saints' families gather on a preselected evening which all have agreed upon. On that night all invitations to other activities are declined.

FAMILY TIES

The idea is to create lasting family ties while earning Christian principles and have fun together. Guidance is provided from the booklet entitled "Family Home Evening Manual." It is distributed annually to some 650,000 Mormon homes.

★ ★ ★

Anyone interested in obtaining a manual may get one free while they last by writing Elder R. Wheeler, 66 N. Johnson.

PRAYER

A typical family home night begins with prayer. It is presided over by the father whom the Mormons believe to be the head of the house in spiritual as well as temporal matters.

Family members take turns conducting the meetings.

★ ★ ★

Favorite songs are sung. Perhaps a struggling young Beethoven performs on the piano. Maybe the children's handicraft or outstanding school papers are brought out and shown so the individual's efforts may be praised before the group.

★ ★ ★

There is a short discussion on topics taken from the "Family Home Evening Manual."

★ ★ ★

Some of the text's chapters reveal these themes, "He That Hath Eternal Life Is Rich," "Others Also Need Our Love," "Putting Our Good Will to Work" and "Enjoy Your Neighbor."

These lessons are keyed to family participation without preaching from the parents. They can be tailored to the interest spans of the various age groups in a family.

FUN TOGETHER

Most important, the time together is to be an enjoyable experience. As one church official explained "It's not an official family home night unless you serve refreshments."

Such an evening provides a ready forum for family discussion whether it is to air teen-age problems, formulate next summer's vacation plans, or to explain "where babies come from."

★ ★ ★

According to Glen H. Briggs, children are more likely to turn to a father with their more complicated problems when they are older if the father can gain the confidence of his children when young.

★ ★ ★

The question is often asked "Can't children learn righteous living at Sunday School?

David O. McKay, 95-year-old soft-spoken spiritual leader of the 2 million Mormons throughout the world, explains "Nothing can take the place of tighly attached to the church." home in rearing and teaching children, and no other success can compensate for failure in the hone."

The family home evening helps teach some important lessons which President McKay lists as honor, virtue, self control, the value of education, honest work, and the purpose and privilege of life.

★ ★ ★

Elder Martin D. Hanks, one of the General Authorities of the Latter Day Saints Church, said "We do lose some of our boys and girls, but at the age of 21, at least three-fourths of all Mormon young people are still

Assistant Arrives at All Saints

Arriving this week at All Saints Episcopal Church to become assistant minister is the Rev. Edwin K. Sisk.

★ ★ ★

A graduate of Michigan State University, Sisk held positions with Westinghouse and Pfeizer Laboratories before starting seminary studies at Bexley Hall in 1966.

ORDAINGED TODAY

He was graduated from seminary on May 25, then prepared for canonical examinations. He is being ordained a deacon by Bishop Richard Emrich today.

★ ★ ★

Born in Napoleon, Ohio, Mrs. Sisk came with her family to Owosso. She earned her degree in nursing at Bethel Hospital School of Nursing in Colorado Springs, Colo.

★ ★ ★

The Sisks have three children, Elizabeth, Nancy and Martha. The two older girls will attend Bethany School at the Convent of the Transfiguration in Cincinnati, Ohio.

STROLLING IN THE SUNSHINE — Small children attending Vacation Bible School at Forest Hills United Missionary Church, 30623 W. Twelve Mile, Farmington, take walks on quiet roads viewing flowers, birds and family pets. Older youngsters play baseball, softball for recreation. Boys and girls attend study classes, do handcraft, draw, paint and have fun each morning this week at the Forest Hills Church. Shown with the children are volunteer teachers, Mrs. Richard Brahm (left) and Mrs. Dan Johnson, both of Farmington Township. Puppet shows relating to Bible stories are scheduled for all classes. The children will present a program at 7 p.m. tomorrow in the church. Mrs. Jack Harrison is general chairman.

Junior High Student Set for Mexico

Melissa Melvin of 3553 S. Elder, Orchard Lake, left Friday, for a seven-week family-living experience in Mexico under the sponsorship of Youth for Understanding.

★ ★ ★

She will live in the home of a Mexican family during her stay. There will be arrangements for daily study of Spanish and weekly field trips to points of cultural and historical interest.

★ ★ ★

Melissa who just finished 10th grade at Walled Lake Central High School is a part of Youth for Understanding's expanded program to send young people of junior high age abroad.

JUNIOR HIGHS

Mrs. Rachel Andresen, executive director of Youth for Understanding in Ann Arbor, expresses the hope that such family-living experience for junior high students will be instrumental in promoting international understanding and good will at even an earlier age.

★ ★ ★

Youth for Understanding as a teen-age exchange is related to and cooperates with churches, schools and community groups.

The Department of State of the United States provides some financial support through an annual grant-in-aid for promotion and dvelopment of the program bringing students to the U. S.

★ ★ ★

The program is both inter-faith and inter-racial, working to develop better international understanding through a family-living experience in another country.

Orchard Lake Schools Give Polish Award

The awards committee of the National Council of Polish Cultural Clubs meeting at the Orchard Lake Schools, Orchard Lake announces the Wyspianski Award for 1969 will go to Dr. David J. Welch, associate professor of Slavic languages and literatures at the University of Michigan.

★ ★ ★

The award has been presented annually since 1959.

Recipients have been outstanding artists and scholars such as historian, Dr. Oscar Halecki; Xazimierz Wierzynski, poet; and W. S. Kuniczak, novelist.

★ ★ ★

Dr. Welch, born and educated in England, worked for the British Intelligence during the Second World War, and in 1951 became attache at the British Embassy in Warsaw.

★ ★ ★

Since coming to Ann Arbor, professor Welch has taught four semesters of the Polish language and six Polish literature courses. He is also engaged in translating Polish novels and in writing books, articles and essays on Polish literature.

FUN TIME — Children attending First United Methodist Church, Troy like playing ball during recreation period of Vacation Bible School. Mrs. Dennis Mullins of 556 E. Baker, Clawson directs the school this week. Shown are (from left) Wendy Robertson, 954 Myer, Neil Craig of 727 Kenyon, Mrs. Mullins and daughter Susan, and Daryl Schoonover of 1716 Owendale, all of Troy except Mrs. Mullins and Susan.

Variety Program Scheduled Sunday

The Missionary Society of Providence Missionary Baptist Church, 311 Bagley is sponsoring a variety program at 3 p.m. tomorrow.

Guest speaker will be Henry Kemp of First Baptist Church.

★ ★ ★

The Male Chorus under the direction of Vergil Chance and Richard Smith will present several selections. Mrs. Chance is chairman of missions.

Sing, Play

Musical Murks at Oakland

The Musical Murk family of Wheaton, Ill. will appear in vocal and instrumental selections at Oakland Avenue United Presbyterian Church, 404 Oakland tomorrow.

They will play violins during the 8:30, 9:45 and 11 a.m. services. At the 9:45 a.m. Sunday School hour the group will present a full concert.

In the past seven years the Murk family has given over 700 concerts, and what began as a family pastime has mushroomed by popular demand into a full family production.

★ ★ ★

The Chicago Tribune describes the family as "Chicagoland's equivalent of the famous Von Trapp singers who inspired the movie, "The Sound of Music."

PLAY PIANO

Parents James and Donna Murk and five children all sing and play the piano. Beverly Joanne 14, Billy Jim 13, Becky Joy 11, Brenda Jan 10, and Barby Jeanne 7 are proficient on miniature stringed instruments.

Barby at age 4 was a featured soloist with the Wheaton Youth Symphony playing a small violin.

★ ★ ★

The children are featured as soloists, together in duets, trios, a string quartet and quintets. Despite the six-year range in their ages they have developed a natural blend in songs with up to four and five-part harmony.

WINS TED MACK HOUR

The family concerts really got started when dad who was a college professor in history and anthropology won the national championship of the Ted Mack Original Amateur Hour in 1963.

As a lyric tenor he had earlier won several honors in the Chicagoland Music Festival Contests.

★ ★ ★

Invited to the Biltmore Terrace Hotel in Miami Beach, Fla., to give the Christmas week concerts, he skillfully worked the children into the program.

They have been stealing the show ever since.

The children are kept as much as possible in a normal school program.

★ ★ ★

The children's mother not only plays the vibraharp and sings with the family, but also makes all the girls' program dresses, styles their hair, and organizes their time.

★ ★ ★

A great deal of credit for the success of the family concerts goes to the accompanist Betty Bowman. Trained at the University of Western Ontario she arranges selections for the musicale, and teaches piano and organ.

Round the World Tour Tomorrow

The Queen Esther Club of Newman AME Church is known as "Round the World" beginning at 4 p.m. tomorrow at the home of Melvin Matlock.

Hostesses will be costumed in African dress and dishes native to Africa will be served.

From there those attending as tourists will visit homes decorated with flowers, pictures native to Japan, Hawaii and the United States.

Native food will be served at each home. Interested persons are welcome.

Morning worship is at 11 a.m. and Sunday School at 9:30 a.m.

Presbytery Sponsors Area Youth

Three Pontiac area youth will be participating in an eight-week mission project to the Orient sponsored by the Presbytery of Detroit of the United Presbyterian Church.

Joan McNab from the Orchard Lake Community Church, and Debra Durkee and Glenn Kerns from the University Presbyterian Church are members of the youth team spending six weeks in Cagayan de Oro City on Mindanao Island of the Philippines, one week in Manila, 10 days in Hong Kong and five days in Tokyo. The group departs Thursday.

STUDY, WORK

The team, which is interracial, will live in the homes of Filipino Christians and engage in a program of study and work. It will participate in services of worship and share in the life of the church.

Further, it will be joined by a group of Filipino and Chinese youth in Cagayan and Hong Kong for intensive discussion.

The purpose of the youth team is to establish new ties of interchurch relationships across national and ccontinental boundaries.

Rev. Alfred T. Davies, pastor of the University Presbyterian Church in Rochester, and his wife, Wylene, will accompany the team as advisors.

youngsters, just delinquent families."

When each family member is busy with outside activities, there is precious little time for the family to operate as a close unit or even to talk together. Adolescents who are trying to find out where they stand on the issues of the day, as war and peace, racial unrest, drugs and others have astonishingly little opportunity to know their own parents' views, and even less chance to understand their parents' stand on moral principle underlying an issue, Traitel said.

★ ★ ★

According to the psychologist, all families have these problems—it is a matter of degrees. When a situation becomes unmanageable it comes to the attention of the court.

"How can we prevent that from happening" a parent asked.

"By being yourself" he replied. "Be honest, talk frankly with your child, trust your own instincts, respect your child and respect yourself."

The second program in the series will be held July 8 with Mr. and Mrs. Michael Wellman as hosts. The Rev. Lowell Schlanbusch, Birmingham will speak on the same topic viewing the home from the church angle as it works with young people.

The public is invited to attend. Contact may be made with the church office for time and place of meeting.

Convention in Cobo Hall

Feature Speakers at Daily Sessions

The 30th North American Christian Convention will meet in Cobo Hall, July 8-11. The Convention is a free and open gathering of interested persons among the Christian Churches and Churches of Christ.

★ ★ ★

It is not a delegate convention, an agency convention, nor is it a convention of churches.

★ ★ ★

The Convention does not legislate for the churches or pass resolutions on social or political issues. However, speakers and leaders at the Convention seek ways and means to apply the teachings of Christ to these issues at the local level.

FOR FAMILY

This is a family convention. Besides the sessions every day for adults, simultaneous sessions will be held for those of toddler age through college students.

★ ★ ★

Among the featured speakers are Dr. Charles Allen, author of "God's Psychiatry"; James Shea, editor of the Cincinnati "Catholic Telegraph"; Mlle. Anne Vallotton of Paris, France and the illustrator of "Good News For Modern Man"; Dr. Hubert G. Locke, director of religious affairs at Wayne State University; Don Lonie, high school assembly speaker from Southfield; and Vince Guarino, former editor of 'TEEN' magazine.

The public is invited to attend every session.

Methodist Minister to Serve 2 Churches

Coming to the Pontiac area to become pastor of Aldersgate United Methodist, Pontiac and Elmwood United Methodist Church, Avon Township is the Rev. Donald Bates.

★ ★ ★

A graduate of Adrian College, he received further education at Wesley Theological Seminary, Washington, D.C. He was ordained to the ministry in June 1962.

Mrs. Bates attended college for two years.

★ ★ ★

The new minister and his wife have five children, David, 20, Kathy, 18, Jonathan, 11, Dawn, 7, and Bruce, 6. Worship services at the Aldersgate Church are changed to worship at 9:30 a.m. and Sunday School at 10:45 a.m.

On Concert Tour

YFU Chorale Arrives in Copenhagen

The Youth for Understanding Chorale under the direction of Robert Pratt of Ann Arbor began its European concert tour this week when it arrived in Copenhagen.

* * *

While in Denmark the chorale will participate in a song festival with 1,600 Scandinavian choir members, and will take part in the special Fourth of July festivities at Raebild sponsored by the American-Danish Cultural Society.

Students from the Pontiac area who are members of the 1969 YFC Chorale are Jacqueline H. Washington and Peter J. Marinos, Pontiac; Roger Holtz and Martha L. Weaver, Birmingham; and Audrey Armstrong, Peter S. Smith and Marc Tirrell, Bloomfield Hills.

Others are Carol Clixby, Robert L. Stahl and Beth Titmus, Southfield; and Gayle R. Rosey, Novi.

* * *

Vincent Kochanderfer of Royal Oak, assistant conductor, will accompany the Chorale on tour along with his wife.

UNDERSTANDING

The program is both interfaith and interracial, working to develop better international understanding through a family living experience in another country.

* * *

The Youth for Understanding Chorale has been selected to be the one representative chorus from the United States for participation in these festivities.

The YFU Chorale will make many appearances in churches and schools during their three weeks in Denmark. The group will go to Finland for concerts in Helsinki and record with the Finnish Broadcasting Co.

Several days will be spent in Leningrad, Russia, and the last two weeks of the tour will be in northern Germany which includes concerts in Braunschweig and Gottingen.

Mr. Pratt, chairman of the music department of Ann Arbor Pioneer High School and teacher in the department of humanities, has been training the present chorale since November.

* * *

The chorus is an ensemble of 70 high school juniors and seniors drawn from 17 high schools in Michigan and Ohio. It has been in existence for 11 years.

The 1970 Chorale tour is being planned for Japan and the Philippines.

Leader Transferred

Grindles to Leave

BRIG. JOHN GRINDLE

Brig. John Grindle in command of the Pontiac Post of the Salvation Army for the past three years is being transferred to Saginaw.

He will become the city coordinator for all Salvation Army operations in the City of Saginaw, responsible for the Eventide Home, Day Care Center, Youth Work and religious instruction.

* * *

A farewell meeting will be held in the Citadel Corps, 29 W. Lawrence at 7 p.m. tomorrow. The public is invited.

The Grindles will leave for their new assignment Wednesday.

SERVES 32 YEARS

Brig. Grindle has been active in The Salvation Army work for the past 32 years.

* * *

"During that period," the Brigadier said, "I have seen the Church as a whole gradually lose touch with people. It has been ineffective and has succumbed to the racist society in which we live.

"If the Salvation Army and the Church today is to be more effective in our changing world, we will have to get out of the confinement of our churches and go where the action is."

* * *

He went on to say The Salvation Army was founded on meeting the need at the point of need. The founder William Booth stated in the early days of the Army "Go for souls and go for worst."

The Brigadier said, "In my opinion, if the Church is to survive it must get out of its organized establishments and serve the people, both social and religious."

* * *

Brig. Clarence Critzer of the Brightmoor Corps will assume the Command of the Pontiac Post at the welcome service set for 7 p.m. on July 6.

"The successful man is one who had the chance and took it—Roger Babson, American statistician.

Lutheran Church Gains Membership

The Lutheran Church-Missouri Synod had 3,032,245 members at the end of 1968, compared with 3,009,189 at the end of 1967, according to the annual report of the church's department of research and statistics.

* * *

The figures include membership in the United States and Canada and 13 Latin American countries.

* * *

The church now numbers 6,023 congregations in the United States and Canada, an increase of 30 during 1968.

* * *

There are 4,844 pastors, a gain of 31. Parishes without pastors number 457, a decrease of 20.

To Lourdes

NEW YORK (UPI) — The 15th annual "National Rosary Pilgrimage to Lourdes and Belgium" will leave New York Sept. 22 via Sabena Belgium World Airlines.

In addition to the journey to the Catholic shrine in Lourdes, France, the pilgrimage will include visits to a shrine and famous cathedrals in Belgium. Since its inception, the annual journey has brought about 1,000 pilgrims to the Grotto and Basilica in Lourdes.

Collect Funds

SPRINGFIELD, Mo. (UPI) — A record $2,813,812 was contributed to Assemblies of God home missions during 1968, a gain of nearly 15 per cent over 1967.

4 Churches Join Vacation Bible School

The annual interracial Vacation Bible School jointly sponsored by Newman AME Macedonia Baptist, St. Stephen's Episcopal and University Presbyterian churches will be in session during the week of July 7.

Hours will be from 9:30 a.m. until noon on Monday, Wednesday and Friday. Hours on Tuesday and Thursday will be 9:30 a.m. to 2:30 p.m. at which time field trips will be taken.

Classes will be held in St. Stephen's and University churches.

* * *

Children in primary grades will have classes in St. Stephen's Church. The junior grades will hold classes in University Church.

There will be a nursery for children of teachers at both churches.

The activities for the week will close with a family night program at Macedonia Baptist Church, Pontiac. Everyone is invited to worship in the classes. Those interested may call the church office.

Trebilcock to Preach at Services

The Rev. Douglas Trebilcock, new associate pastor and youth minister at St. Paul's United Methodist Church, Rochester, will preach his first sermon at his new appointment at both the 8:30 and 10 a.m. services tomorrow.

The Rev. William J. Richards is senior pastor.

* * *

A reception will follow each service to welcome the Rev. and Mrs. Trebilcock to Rochester.

Born in Ishpeming, the new associate pastor attended Northern Michigan University then transferred to the University of Michigan where he received his BA degree in 1965.

He earned his theological degree from Garrett Seminary, Evanston, Ill. this month.

* * *

While at Garrett he did field work in the youth program of the Glenview Community Church, Glenview, Ill. He married the former Kay Bush in 1965. Her father is pastor of St. Martin's United Methodist Church, Detroit.

The Trebilcocks enjoy swimming, golf, tennis, water skiing and camping.

UNITY Teaches —
Remember . . . you may not be able to change or control the people around you, but you can determine the level of consciousness on which you meet them and react to them. This is one of the most significant discoveries that man can make. It will lead to a tremendous stability and confidence. You will come to know that no matter what happens in your world, you don't have to be afraid, you really do not need to worry or be anxious. You can determine your attitude and thus your course of action. Meet the experience on the level of your innate divine potential, and you will achieve self-mastery.
Attend your local Unity Church this Sunday for a truly enriching Spiritual experience! Unity is a friendly place to worship.

Collection of Facts Now in U.S. Edition

NEW YORK (AP) — The safety pin is 120 years old.

The World Trade Center in New York, destined to be the world's tallest building, will have 40,000 doorknobs.

New York is not the most expensive city in the world to live in, Riyadh, Saudia Arabia, is.

The cheapest? Belize, British Honduras.

★ ★ ★

So say the McWhirter twins, Norris and Ross McWhirter, of Enfield, England, whose book on world records was commissioned by a British brewery in 1964 to settle arguments in London pubs, have now written a special American version of the Dunlop Encyclopedia of Facts.

The American version gives additional information about each of the 50 states, lists American birds, instead of European ones, and gives a detailed explanation of England's traditional sport, cricket.

"Americans can never understand that game," said Ross, "It's a great puzzlement."

★ ★ ★

Collectors of facts, lists and reference books since the age of 10, the twins, now 43, opened a fact-finding agency in London after graduating from Oxford.

They promptly gained a reputation as men who know everything. In England and America they are frequent guests on television and radio programs. They once made 59 television appearances in one week.

"People want to know who the shortest or tallest person is," says Morris. "Or whether Paul Getty or Howard Hughes is richer—Getty's ahead. We don't claim to know every fact or figure. But what we can do is find things out."

★ ★ ★

They receive phone calls in the middle of the night from people trying to settle arguments or wondering about world records.

"A chap called from Australia wanting to know how long he'd have to sit on a pole to break a record," said Norris. "I told him he picked the wrong record. A Greek once sat on a pole for 30 years."

★ ★ ★

Records by their nature are difficult to beat, they say. But for women, they suggest standing on the North Pole as an easy mark—so far no woman ever has.

Boy, 6, Knew His Heart Could Not Be Repaired

DENVER (UPI) — Walter Roybal was only six, but he somehow knew doctors would not succeed in repairing his severely damaged heart.

"They can't fix my heart," he told his aunt. "I want to go home and feed my rabbit."

★ ★ ★

The youngster, a so-called "blue baby" who underwent his first heart surgery at the age of 4½ months, was wheeled into the operating room at Denver General Hospital despite his wishes.

Doctors spent 6½ hours trying to repair two congenital defects to his heart, but the boy, youngest of seven children, died a few hours after the operation.

★ ★ ★

Walter had entered the hospital Sunday, an hour later than he was scheduled because he wanted to "play hooky" and see the city zoo. "He had the time of his life," his aunt said.

Ex-Astronaut Retires July 1 From Navy

WASHINGTON (AP) — Cmdr. M. Scott Carpenter, one of the seven original astronauts, will retire Tuesday after completing 20 years of Navy service.

Carpenter, the only man to become both a space flier and a beneath-the-sea aquanaut, will work in the oceanographic field after his retirement from the Navy, the Pentagon said.

He was the second American to orbit the earth, piloting the Aurora-7 space ship in a three-orbit mission on May 24, 1962.

Carpenter also was the backup pilot for the first orbital mission flown by Marine Col. John Glenn on Feb. 20, 1962.

On leave from the National Aeronautics and Space Administration in 1965, Carpenter served as an aquanaut and team leader in the Navy's Sea Lab II experiment.

QUIT HORSING AROUND — Four-year-old Jamie Ruffing of Pottstown, Pa., appears puzzled and tries to talk his pony, Betsy, out of the wading pool in the backyard of the Ruffing home. The pony wanted to cool off, too, apparently, as temperatures and humidity alike climbed in the area.

INDEPENDENCE DAY

J. L. VOORHEES

It is the birthday of the United States of America. It is celebrated on July 4 each year in states and possessions of the United States. It is the anniversary of the day on which the Declaration of Independence was adopted by the Continental Congress, July 4, 1776.

M. E. SIPLE

The founders of the new nation considered Independence Day an important occasion for rejoicing. It was first observed in Philadelphia in 1776. The Declaration was read, bells were rung, bands played and it has been celebrated throughout the country since. Congress declared July 4 a legal public holiday.

WATCH that WATCH

The Chamber has been receiving calls from local businessmen whose customers are being approached in their parking lots by people selling watches and jewelry. The businessmen resent the fact that their customers are being approached by these undesirable characters, but the chief concern of the Chamber and local businessmen is that the watches and jewelry are not the merchandise indicated by these itinerant peddlers.

The prospect is given the impression that the merchandise is "hot" or that it was purchased at a PX. The watches usually bear names similar to well known brands. The Better Business Bureau of Metropolitan Detroit advises that some did indeed have a well known brand name, but are a cheap imitation being bootlegged from Europe. Values represented to be over $200.00 have a true market value of $19 to $22.

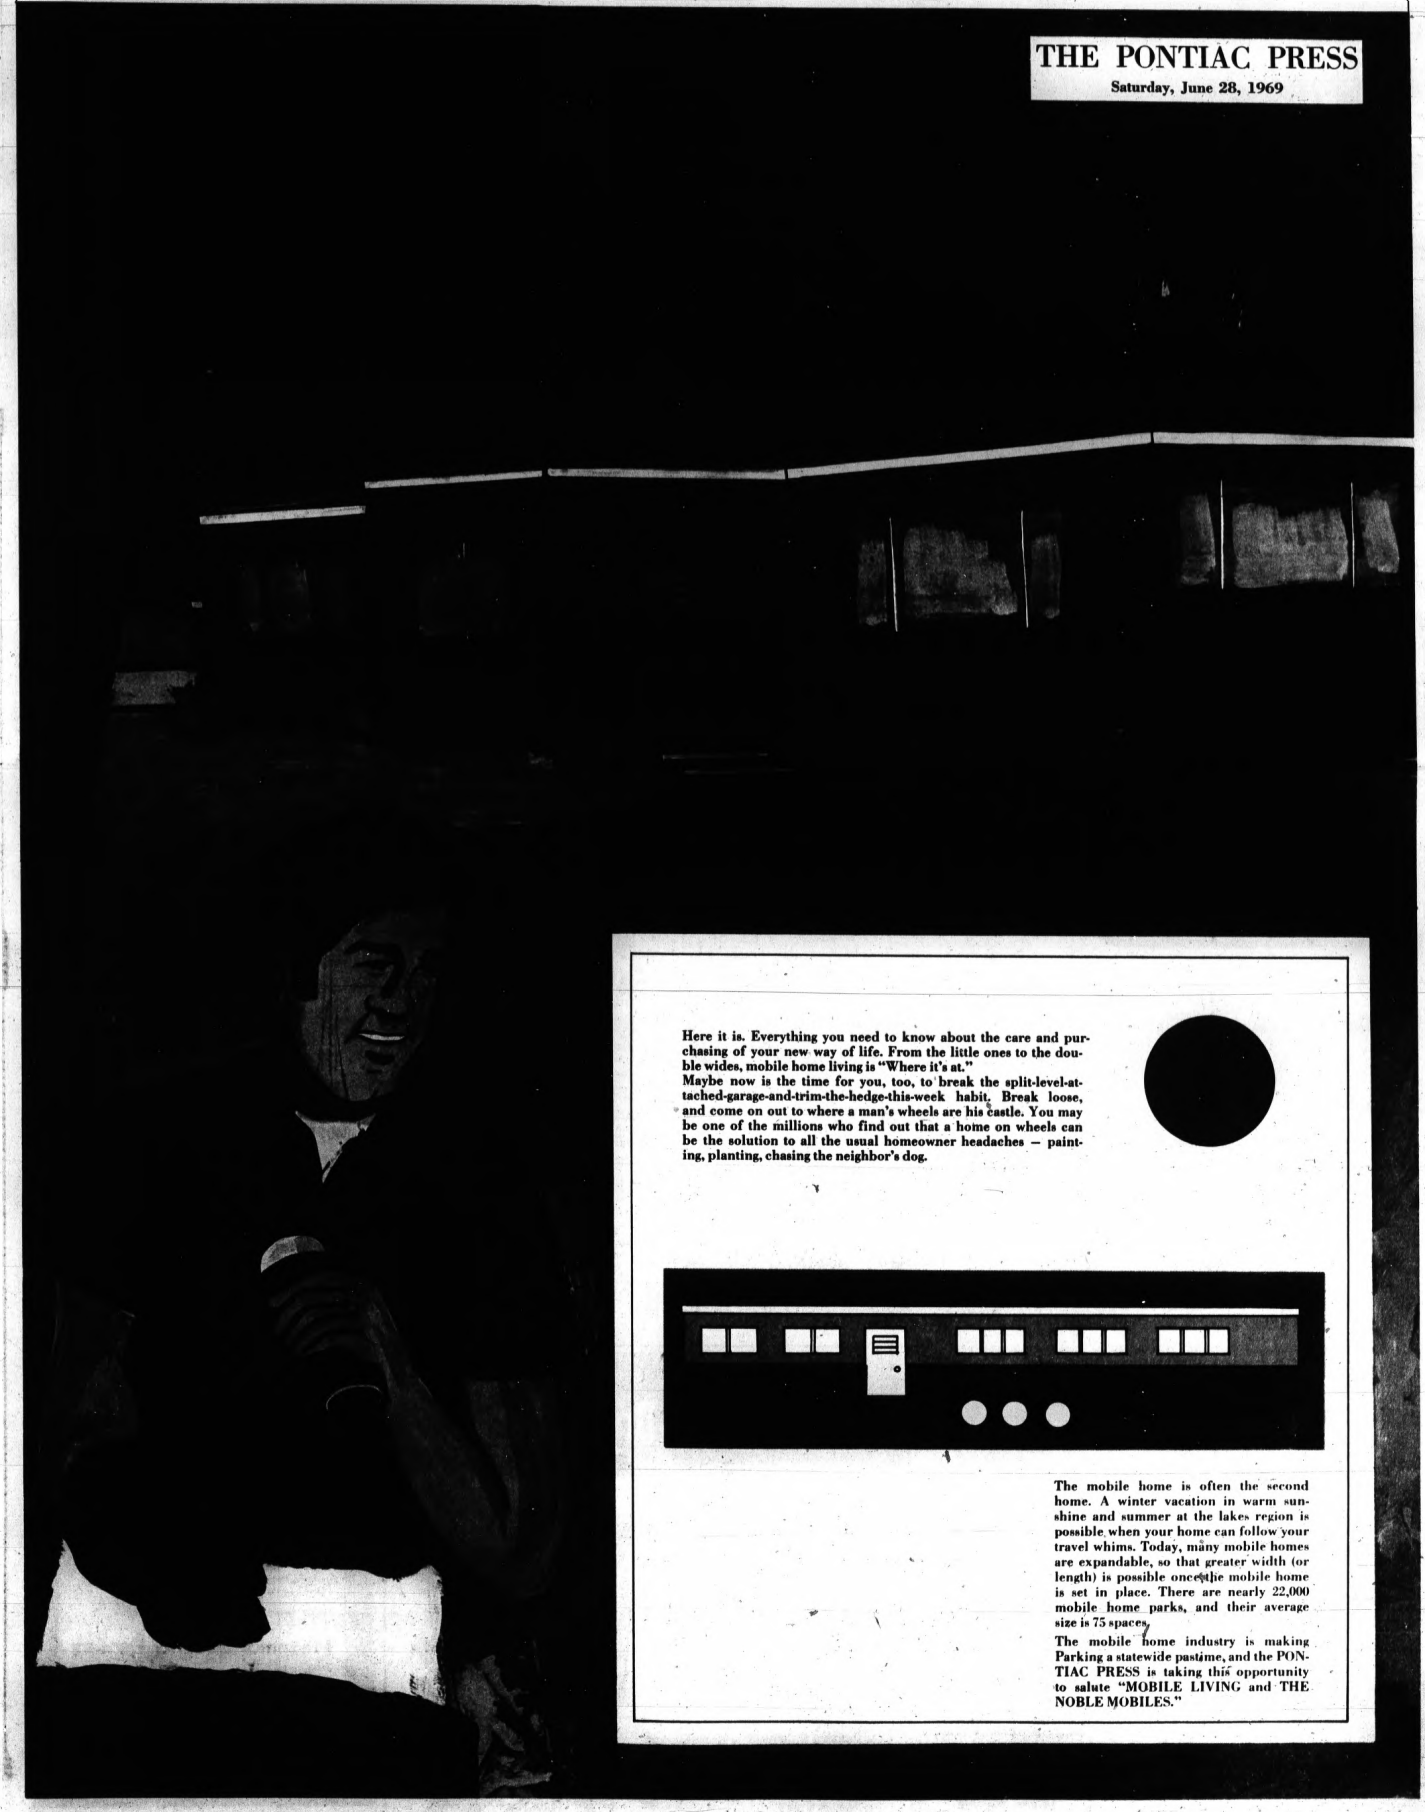
Mobile Living

THE PONTIAC PRESS 2nd ANNUAL MOBILE HOME GUIDE

THE PONTIAC PRESS
Saturday, June 28, 1969



Here it is. Everything you need to know about the care and purchasing of your new way of life. From the little ones to the double wides, mobile home living is "Where it's at."

Maybe now is the time for you, too, to break the split-level-attached-garage-and-trim-the-hedge-this-week habit. Break loose, and come on out to where a man's wheels are his castle. You may be one of the millions who find out that a home on wheels can be the solution to all the usual homeowner headaches — painting, planting, chasing the neighbor's dog.

The mobile home is often the second home. A winter vacation in warm sunshine and summer at the lakes region is possible when your home can follow your travel whims. Today, many mobile homes are expandable, so that greater width (or length) is possible once the mobile home is set in place. There are nearly 22,000 mobile home parks, and their average size is 75 spaces.

The mobile home industry is making Parking a statewide pastime, and the PONTIAC PRESS is taking this opportunity to salute "MOBILE LIVING and THE NOBLE MOBILES."

Romney Outlines Breakthrough

Mobile Home's Role in HUD Told

A new program — BREAKTHROUGH — and the role of the mobile home industry in it was explained recently by George Romney, secretary of Housing and Urban Development (HUD), to a delegation headed by Edward Dickman, vice-president of the Mobile Homes Manufacturers Association (MHMA).

Attending with Dickman were MHMA past president James Redman of Redman Industries, Washington Affairs Committee chairman Arthur Decio, and MHMA managing director John M. Martin.

* * *

Romney said Breakthrough is, "A new program to provide housing for all income levels through a partnership of labor, consumers, private enterprise, local, state and federal government — with the use of modern techniques of production, marketing and management."

GEORGE ROMNEY

* * *

The meeting, attended by representatives of other segments of the nation's housing industry, was preceded by governors where Romney ex- meetings with mayors and plained the importance of improved procedures by governmental agencies at all levels in expediting the planning and construction of housing.

* * *

Romney and his staff pointed out that HUD was fully aware of the restraints which have hampered the success of the housing industry in meeting the needs of all income levels and that HUD was proceeding to seek solutions in easing the roadblocks.

The restraints mentioned were:

- Limited availability and high cost of land, labor, money and materials.
- Obsolete housing and building codes.
- Zoning and restrictive land use patterns.
- HUD processing delays.
- Patterns of discrimination.
- Housing production capability.

MARKET STUDY

State and local governments, with support from HUD, will be asked to undertake a market study which identifies available land, sponsors and demand for housing.

* * *

MHMA, along with other industry oriented representatives, labor and consumer groups will supplement this market information to the fullest extent possible. HUD will compile the resulting data and make it generally available.

Concurrent with the market study, HUD will issue a call for the preparation of proposals from firms with a capacity for development of high volume, rapid delivery housing systems of improved environmental quality at costs that will bring them within the reach of all families.

* * *

Members of the MHMA delegation told HUD officials that the mobile home industry has already demonstrated the ability to produce high volume homes along with planned communities.

NEW OPPORTUNITIES

MHMA vice president Dickman pointed out later that the mobile home and modular housing industry has a big jump, but unless the industry keeps pace with the new opportunities the head start will have been wasted.

The call for proposals will be issued soon and industry companies should be prepared to respond immediately, according to Committee Chairman Decio.

Decio added that HUD is not interested in row after row of identical houses and industry companies should design projects with a variety of appearances, recreation area, parking area and other ingredients which would lend themselves to consumer acceptance.

Prototypes will be constructed on sites selected by HUD and these prototypes will serve as a test for consumer acceptance.

SITES VARIED

The sites will be distributed geographically to provide a wide range in climate and other conditions.

In commenting on the meeting, MHMA past president Redman felt that this time, "HUD means business. The federal government is not only interested in solving the housing problem but is taking big steps, never before taken, to get something accomplished."

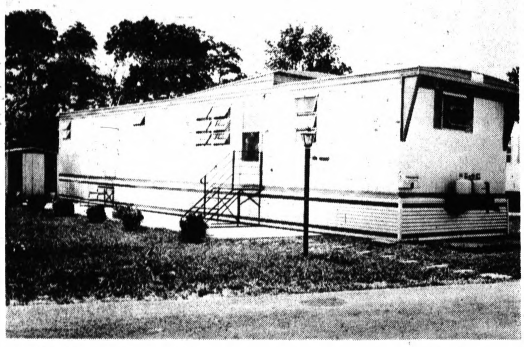
* * *

Redman spelled out some of the commitments made by Romney which are designed to encourage widespread initial participation and to ensure long-term continuation of the program.

These commitments are:

- Establish a full-time program management staff within the department, including both regional and national personnel, to assure responsiveness by HUD to the needs of the program.
- Provide advice and assistance to state and local officials, as required for local market aggregation.
- Fund prototype design and development through direct contracts.
- Fund or provide financial assistance for the construction of housing prototypes and provide program grants for related environmental facilities.
- Support the establishment of a comprehensive program to test innovations in Breakthrough prototypes.
- Support the continuing efforts of national, state and local authorities in reviewing and improving standards, codes and regulations affecting the development and production of housing.
- Earmark housing and environmental system program funds to support Breakthrough construction.
- Provide priority and coordinated processing of applications for financial and program support — cut red tape.
- Provide assistance to state and local governments and to the financial community in developing additional sources for permanent financing.

Certified private tree farms in New Mexico now number 19, with a total acreage of 328,839.



SKIRTING — The added beauty and convenience that Alcan Mobile Home Skirting provides is illustrated by this mobile home. Available in 21 mix or match decorator colors, the attractive aluminum skirting has a two-coat baked enamel finish which is practically maintenance-free and which will not chip or blister. The area underneath the home is instantly converted into a convenient, weatherproof storage area for garden tools and many other seldom used household items.

Home's Mobility Is Added Blessing

Although in existence for many years, one of man's newest luxuries is the mobile home. As in the past, with every additional blessing comes another headache.

In the case of mobile homes, though, the problem doesn't result from attempts to safely move your home.

* * *

With the average size of the currently popular 12 x 60-foot mobile homes, they are normally only moved twice — from the factory to the dealer, and then from the dealer to the buyer's homesite.

Blocked for permanent use in most cases, it will remain there for its total life expectancy.

NO PROBLEM YET

Even up to this point, the owner need not be concerned with moving, since the dealer will have made all arrangements and paid all costs, within a reasonable amount of time and expense. This is just another part of the "package deal" in buying mobile homes.

However, a large portion of mobile home owner do relocate their homes at one time or another. The moving allowances the federal government gives servicemen owning mobile homes, who are continuously restationed, would be one example of this.

The average mobile-home owner should realize how simple moving is. It's just a matter of being aware of, and following, certain steps.

Basically, since the mobile home is an "overload" vehicle on the highways, transportation is regulated by individual state highway departments.

PROFESSIONAL RATES

Professional movers' rates, which vary depending on the job, can't be listed at a general cost. However, all rates for moving a mobile home are set by the Interstate Commerce Commission. The rates take into consideration the costs for tolls and other charges.

In addition, transport companies also charge an hourly rate for extra services they perform to lessen the pressures on the owners.

* * *

This virtually enables the mobile-home owner to turn his key over to the transport company and find the mobile home waiting for him at its new location.

Thus, with such minor requirements on the part of the mobile-home owner, moving is, truly a snap.

2-3 Mobile Homes Average 1 Pupil

It has been found through many studies that in most areas there is an average of one school student per each two to three mobile homes (of any level through high school), and this average does not seem to be especially affected by the quality level of any given park.

Industry Seeks New Ideas

Prizes Given for Exterior Decor

If you still think of mobile homes as trailers, you're dating yourself.

Today's mobile homes are considered a pertinent part of the housing market. Prominent housing consultants see mobile homes as a possible answer to "the cyclic housing needs of the nation."

Proof of the successful mobile home market (1967 figures set a new record of 238,500 units — double the number of mobile homes bought in 1957) is a growing emphasis on exterior design.

"We have already reached our maximum in size and in attractive interiors," says a leading mobile home manufacturer. What's left is visual exterior appeal.

PRIZES AWARDED

To stimulate imaginative mobile exteriors that duplicate the quality and design of traditional residences, the Mobile Home Manufacturers Association is awarding prizes for exterior decor.

Recent winner of the "best new house exterior award at a mobile home show" was a 48-by-23.8 feet entrant from Hilton Homes of Iowa.

★ ★ ★

The prize-winning model features attractive hardboard siding, a gable-style asphalt shingle roof, and quality ponderosa pine slider windows with distinctive removable grilles.

The grilles give the mobile home windows and elegant divided-light appearance tradionally associated with Early American architectural design.

Inclusion of such features, readily available in quality wood windows, gives mobile homes the same high-style decor found in nonmobile residences.

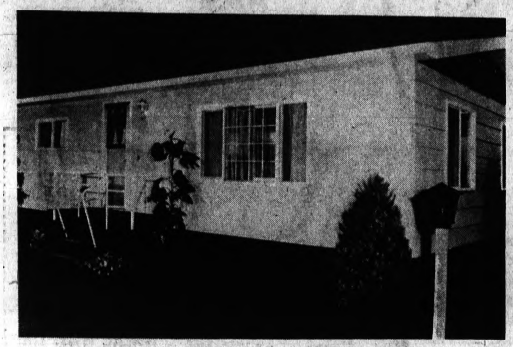
ROOMY INTERIOR

Unlike its "trailer" predecessors with cramped, inefficient interiors, this model offers three bedrooms, spacious, modern bath, and a large living-dining area.

There's an optional choice of kitchen design — either a roomy, fully-equipped kitchen, or an efficiency with a separate utility room.

★ ★ ★

Other prize-winning mobile home entries featured — in addition to quality products such as modern wood windows — luxury touches like parquet floors, brick cooking "islands," compartmentalized bathrooms, recessed lighting, and "in" color schemes such as avacado green and autumn gold.



Exterior Eye Appeal For Mobile Homes

State Tourist Boom Predicted

Michigan should have its first $1.35-billion tourism year, according to Fred Rehm, Automobile Club of Michigan's general manager.

He made this statement while addressing 350 Auto Club department heads and division managers at the organization's annual meeting held at Boyne Mountain June 3-6.

★ ★ ★

Rehm pointed out that Michigan vacationers should spend at least $220 million above the estimated $1.1 billion spent last year. This is a 20 per cent increase.

He said three indicators make the "over-the-billion-dollar-mark" for the second consecutive year a certainty:

- Travel over the last Memorial holiday weekend was up 20 per cent over that expected.
- The sale of camping vehicles so far is up approximately 20 per cent over 1968.
- Skiing, snowmobiling, the fall color season and the coho fishing, now on both east and west shorelines, have extended Michigan vacation seasons to 12 months.

Rehm pointed out that traffic jams on freeways at tie-up points such as I-75 between Flint and Bay City can be expected to become a serious year-around problem.

Mobile Home Tips: Care for It Like a Car

These are household hints:

Don't walk on your roof. Don't wash the exterior in the rays of the hot sun. Leave the air in the tires.

★ ★ ★

If they sound a little more like car-care hints, it's understandable. They're from an informative new book, "Owner's Guide to Mobile Home Maintenance," just published by the Mobile Homes Manufacturers Association.

★ ★ ★

Divided into three sections — interior maintenance, exterior maintenance and insurance information — it covers everything in keeping a mobile home groomed and pampered.

STATIONARY HOUSES

There is much of interest in it for those who live in "stationary houses," which is what the mobile home people call the conventional residences.

★ ★ ★

The compact space in the mobiles has advantages and disadvantages. Condensation, for example, must be dealt with firmly. Kitchen and bathroom vent fans are necessities.

★ ★ ★

One of the book's helpful — and universal — tips: Let the fan thoroughly dispel the moisture by keeping the bathroom door closed for about 30 minutes after the bath.

How nice, on the other hand, to be able to wash and wax the complete exterior of the home, keeping it always in shining excellence.

INFLATED TIRES

It's true that the book advises keeping tires inflated, even though the home is to remain parked for years. "When a home is blocked in position, tires should carry some of the weight," is the theory.

★ ★ ★

One curiosity — wheel bearings have to be protected carefully with a proper grease treatment or they corrode and etch while the home is motionless.

★ ★ ★

About 300,000 mobile homes were manufactured in 1968.

The latest edition of Woodall's Mobile Home Park Directory shows that, as might be expected, the home parks are getting bigger right along with the fleet, although cottage and rural sites absorb much of the production.

VACANCY RATE

There were an average of 70 home sites per home park in 1968, up nine from 1967. Vacancy rate, over-all, was only 4.2 per cent.

★ ★ ★

Monthly site rentals are going up as well. The popular categories were 3,510 parks charging $20 to $29, 3,743 parks charging $30 to $39 and 2,126 parks charging $40 to $59.

Following are the 12 states with the largest number of mobile home sites:

State	Number of Home Sites
Florida	165,023
California	160,107
Arizona	40,304
Michigan	39,496
Ohio	36,318
Illinois	33,740
New York	24,037
Washington	23,334
Indiana	21,220
Texas	20,675
Pennsylvania	19,460
Oregon	17,577

Keep in mind that one of each four homes built last year was mobile.

U.S. on the Move in Mobile Homes

Americans are still on the move — and so are their homes.

Mobile home sales reached $1.3 billion last year — a hike of more than 500 million since 1960. Buyers are generally young-marrieds and retired couples, because both groups are below top earning power, unencumbered by children, and less conventional about housing than career-minded in-betweeners.

'Mobile Homes Dominate Low-Income Housing'

Three out of four new primary housing purchases valued up to $15,000 in 1967 were mobile homes and 86 per cent of all single family housing sold for $12,500 or less last year were mobile homes.

These figures, according to John M. Martin, Mobile Homes Manufacturers Association (MHMA) managing director, illustrate the industry's incisive dominance of the low-income housing market.

* * *

These housing statistics were researched and compiled by the association's market research firm of Elrick & Lavidge, Inc., Chicago, under the direction of Maurice Wallack, chairman of the WHMA marketing and promotion committee.

The association's members manufacture 77 per cent of the nation's yearly mobile home production.

NATIONAL DATA

The research firm utilized data from the U.S. Dept. of Commerce and the U.S. Bureau of Census in disclosing the industry's commanding position in the up to $15,000 housing market.

In 1963, the mobile home industry accounted for only 49 percent of all new homes valued to $15,000 and 68 per cent of those under $12,500. While under $15,000 housing market grew by only eight per cent from 1963-1967, mobile home sales in this dollar category grew by 24 per cent to reach 73 per cent, reported Martin.

* * *

High labor and material costs have forced most conventional home builders to completely abandon the $15,000 and under housing market.

* * *

Since 1963, the mobile home industry has talked about housing under $12,500, but with general housing inflation it can no longer confine itself to this dollar category.

NEW CATEGORY

Martin pointed out that the new $15,000 category is utilized by both the Dept. of Commerce and Bureau of Census and henceforth by the mobile home industry.

Now that its mobile home future looks bright, the assembly line housing industry is zeroing in on the nation's urban housing shortage. Mobile home manufacturers are building modular homes (one, two and three-story dwelling units) for urban areas.

"The Greater Detroit Board of Commerce informs us that a number of pilot modular projects will start here within a short time, utilizing our industry's modular home," said Martin. "Other projects are under way or completed in Chicago; Rochester, N. Y.; Newark; Dallas; and Amherst, Mass."

Martin pointed out that the new statistics do not include modular housing figures. He estimated the demand for mobile home industry produced modular homes to be 350,000 by 1972.

Production-Line Furnishings Gone

Mobile home living is taking a new approach. Gone are the impersonal production-line furnishings.

Customized furnishings and accessories reflect the mood and personality of the home's owners.

★ ★ ★

A swing to the Mediterranean is expressed in one of the model's available for public viewing at Countryside Living Mobile Home Sales, 1084 Oakland.

★ ★ ★

Gold sets the mood of Southern European elegance throughout the entire home with the 12-by-18-foot living room covered in sculptured gold carpeting.

IRON DIVIDER

A black wrought-iron divider accents the rich yellow of the nearby kitchen and dinette's vinyl floor.

★ ★ ★

Turquoise accents introduce decorator touches in the living room's crystal vase and ash tray and the casual throw pillows highlighting the Italian provincial sofa. Two tall white china lamps, trimmed in gold, coordinate the white and gold sheers.

★ ★ ★

Adding to the spacious effect is the goldfiligree framed mirror with matching sconces.

A 12-foot wall paneled in walnut adds to the overall practicality of the mobile home as well as enhancing its beauty.

TABLE SETTING

The table setting in the dining-kitchen area follows the gold theme with a subtle green complementing the overall effect in straw place mats.

★ ★ ★

Coordinating the walnut expanse of the living room with that of the work area are the cannister set and a walnut bowl filled with green grapes.

★ ★ ★

Touches of orange hint at the color accents in the adjoining den which can be used as a spare bedroom should the home owners prefer. The orange of the den's area rug is repeated in the shades-of-orange pillows.

A swing to green is revealed in the compact, convenient bath with its olive green vitreous fixtures. Terry towels featuring a daisy pattern spark the color theme with a blend of green, golds and orange.

FINAL FILLIP

A green apothecary jar adorns the gold plastic laminate of the counter with orange soap buds adding the final fillip.

Drapery valances in the master bedroom reemphasize the predominant gold color theme. Above the bed covered in a green and gold spread hangs a plaque of a weeping willow branch in metallic green.

★ ★ ★

Breaking the expanse of wall is a four-picture grouping, its gold frames highlighted by olive green velvet matting. The room's 12-foot wide chest of drawers is dressed by an olive green antique candlestick lamp and two amber glass apothecary jars.

The overall effect of luxury living is easily achieved in mobile homes with the help of a color cordinator wise in the ways of integrating shapes, materials, colors and patterns.

TOTAL LOOK

The consultant makes it possible to create a total look, one that is pleasing to the eye, easy to maintain and within the means of the customer's budget.

The J. L. Hudson Co.'s Plan-A-Room service representative can assist new mobile home owners with general information and customizing ideas.

The use of the service proves a boon to those needing help in coordinating ideas but who do not feel the need for a total decorating project.

Yearbook Focuses on Mobile Homes

Mobile home living — like it is — is the subject of a new yearbook, "Mobile Homes," a 64-page annual, just issued by the Mobile Homes Manufacturers Association of Chicago.

It is written from the point of view of the potential mobile home owner and the articles in the four-color magazine are designed to answer questions that the future homeowner may have on his home purchase decision.

School-Aid Average in State Said Higher

The Michigan Mobile Home Association has announced that a statewide random survey indicated that the average mobile home unit is giving more support per school child coming from such homes than the average that all homes are giving to all children.

A report issued by the association said the average mobile home owner is paying $196 in school taxes for each school child coming from trailer parks.

★ ★ ★

This is compared to a range of $100 to $150 per student from all types of housing.

★ ★ ★

Association President Carl L. Kolmorgen admitted that the per unit taxes are lower than on many other kinds of homes, but said that fact had to be considered in view of the lower value of the individual mobile homes.

CHARGE MADE

The 1967 survey of 29 trailer parks in Michigan was taken because of charges that mobile home owners were not paying a fair share of local taxes.

Kilmorgen says that on the contrary, "When community costs vs. revenue is considered, mobile homes can be one of the best uses a local government can make of their land."

Compared to the general population with one student per home, the 2,721 mobile homes included in the survey had 551 students, or 21 per 100 mobile homes.

Of the trailer parks surveyed, the owners paid in real property and special taxes a total of $98,158 for schools, $24,620 for local government, and $23,798 for county government.

TOTAL ACRES

The total of taxes paid per acre of mobile home park is $600.

While recognizing the limitations of the survey, Kollmorgen said the survey "seems to indicate mobile home owners do pay their "fair share" of the tax burden and they could definitely be an asset to the community where they are located.

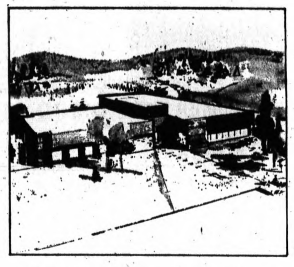
17 DELIGHTFUL REASONS YOU SHOULD LIVE IN AVON PARK

Does your house seem "empty" and "too big" now that the children have left? Or maybe you're just plain fed up with the monotony of apartment living. In either case, you owe it to yourself to get all the facts about Avon Park—an extraordinary, delightful mobile home community like you've never seen before. Consider just these 17 reasons (there are many more), and you'll see what we mean:



1. Let's start with our sumptuous 6000 square-foot clubhouse. It features a luxurious social activities lounge *plus* arts, crafts and games rooms. A handsome facility dedicated to the exclusive use of Avon Park residents and their guests.

2. Your Avon Park home will have its own private, paved two-car parking area and 10' x 36' paved patio.

3. You choose from leading makes of mobile homes in all sizes and price ranges. (Immediate delivery and occupancy.)

4. You select appliances with such famous names as Magic Chef, GE, Frigidaire.

5. Minimum lots: 50' x 80'. Elbow room galore.

6. Every home site features the gracious charm of its own outdoor gaslight.

7. Avon Park also features the modern conveniences of gas cooking, heating and hot water.

GO MODERN—GO GAS

8. Complete, professional landscaping.

9. A private 3-acre lake stocked with fish (and boats). Talk about delightful!

10. Free rubbish pick-up and snow removal. Lawn care, if you wish. (Go on, be lazy.)

11. A travel trailer and camper storage area is provided in this delightful community.

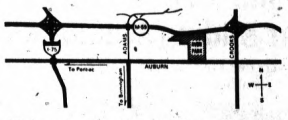
12. Sorry, no young marrieds or children. Your grandchildren are welcome to visit though.

13. No ham radios or short wave equipment.

14. No washing, painting, repairing or overhauling of motor vehicles. (You bet we're fussy, but aren't you glad?)

15. Don't worry about your home when you're away. It will be well guarded.

16. Superb location in the heart of Metropolitan Oakland County. Cultural and shopping advantages of Birmingham, Bloomfield, Troy, Royal Oak, and Rochester only minutes away by I-75 and M-59 expressways.



17. Avon Park combines the best of apartment life with the best of owning your own home—with none of the drawbacks of either!

Sound interesting? Come see our attractively furnished models. Seven ready for your inspection from noon to 6 pm every day.

A DELIGHTFUL NEW WAY OF LIVING AVON PARK

'Aura of Disrespectability'

Study Discusses Effects of Zoning

A study covering the effects of restrictive zoning on mobile home living in the surrounding area was made by Alan Backler from the department of geography of the University of Michigan.

The study was sponsored by a Metropolitan Community Research Fellowship award.

The "aura of disrespectability," which is the image of most when referring to these mobile home units, is attributed to the heavy industrialized areas of the country, before and during World War II.

★ ★ ★

These sections of the United States lead to the development of "overcrowded and unsanitary" camps.

MUNICIPAL CONTROL

Basically, "these attitudes are manifested by zoning ordinances," says Backler. By zoning powers, "municipalities attempt to control or exclude mobile homes.

★ ★ ★

Even with a ruling by the Michigan Supreme Court forcing provisions to be made for mobile home camp sites, the camps have still been limited to the industrial areas. Thus, in Backler's opinion, being detrimental to the mobile home dweller.

★ ★ ★

It is however, recognized that the attitudes of zoning boards and planners are finally becoming flexible.

However, zoning regulations are generally hostile to the establishment of mobile home courts.

Already, their is becoming a shortage of space to locate mobile homes. This is not caused by a lack of interest on the part of the potential park operators, but from the communities who are against the establishing of new courts and the expansion of those already in operation.

ONLY PLACE

For this reason, of the 311 mobile home dwellers interviewed, some 30 per cent were located in certain courts, because it was the only place they could find.

An additional problem is that of travel. That is, a mobile home dweller must be prepared to travel a certain distance to perform all the activities necessary to be a worthwhile member of a community.

★ ★ ★

Therefore, rigid zoning, restrictions, and the controlling establishment of new courts, the mobile home dwellers (in the study area) fell victim to camp sites with high rents, and cramped living conditions.

Here's an Idea for 2nd Home

If you have ever wished for a cabin or some sort of living accommodations up in the mountains, at the seashore or wherever your heart is, consider a used mobile home.

A used mobile home is inexpensive, it is easily fixed up to provide excellent living quarters and it can be hauled to the site and set up without much difficulty.

Furthermore, it is easy to maintain. In short, an ideal second home.

It requires only a little imagination and a modest outlay for materials to make the necessary renovations to completely alter the image of a used mobile home. Cost, of course, depends on severity of damage or abuse. Sometimes, it is just a question of freshening up an old interior.

EXAMINE FLOOR

In examining a used mobile home, first look at the floor. Perhaps it needs only a good cleaning; but if it is dull and faded, damaged or out of style, put down a new floor. Probably nothing catches the eye quicker than the floor.

An excellent replacement floor is vinyl-asbestos tile. This long-wearing tile comes in a variety of patterns to match any decorating scheme. It is inexpensive and easy to install. If the old floor is badly damaged, remove the tile, sand the subsurface and lay the new floor.

★ ★ ★

In some cases, it may be necessary to put down an underlayment before installing the resilient floor.

If the old floor is not coming loose at the seams, it is possible to lay the new floor over top of it after first sanding to remove old wax and dirt.

CEILING PROBLEM

After the flooring problem has been taken care of, look at the ceiling. Here, again, if the ceiling is merely dirty, it can be cleaned up or repainted. However, in many cases a new ceiling is necessary.

Wood fiber ceilings in acoustical or decorator styles help to brighten up mobile home interiors and they are easy to install. These ceilings are available in tiles or planks and they can be installed by several methods.

★ ★ ★

They can be bonded to the old ceiling, or stapled to furring strips or directly to a plywood ceiling after first making sure it does not sag anywhere.

With a new ceiling and floor, it is a simple matter to clean the walls or repaint where necessary, clean up the appliances, add new or used furniture, curtains or draperies and a few little decorating touches to complete the renovation.

CASE STUDY

In an actual case study, a seven-year-old repossessed 10-wide mobile home that had suffered rain damage to the interior was renovated.

The old linoleum tile floor was curling up at the seams and the whole interior was generally in bad condition.

★ ★ ★

The damaged floor was scraped up and the plywood subfloor sanded to prepare the surface for installing a new floor. An embossed 12"x12" vinyl-asbestos tile with a natural birch effect was selected for its wear resistance and because it blended in well with the light-colored wood-paneled walls.

INSTALLATION COSTS

About 270 square feet of flooring was installed at a cost of about $60 for material and $85 for labor. Installation costs were higher than ordinary because the heavily damaged floor had to be completely removed.

Where the new floor can be installed over the old, labor costs can be cut almost in half, or eliminated if you do it yourself.

About 300 square feet of ceiling was installed at a cost of about $50 for material and $30 for labor.

Total cost for ceiling and floor amounted to approximately $225. This cost would vary according to price of materials used and cost of labor in various parts of the country.

LIVABLE HOME

Thus, a very livable home was developed from a badly damaged mobile home.

Wood Shutters for Decorative Window Beauty

Window shutters which were strictly functional in olden days, are considered high style in modern homes.

On Colonial or traditional houses, shutters give a touch of decorative authenticity.

★ ★ ★

And, they're often used with contemporary house styles to add interest to flat, severe-looking exterior walls.

Stock wood shutters made of ponderosa pine are available in stock sizes and a variety of styles to suit house decor, and are chemically-treated to withstand weather abuse.

A good idea is to paint them in the same accent color used on doors and trim.

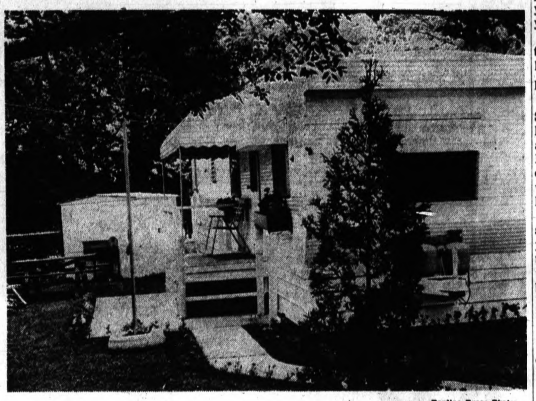
LUXURIES — Paved roads and other features are just a few of the many luxuries at Auburn Heights Mobile Manor in Pontiac.



Pontiac Press Photos

'TRULY BEAUTIFUL'—"Something truly beautiful" is offered to mobile home owners, at Auburn Heights Mobile Manor. The site is located at 170 Opdyke, Pontiac.

Consider Site Carefully

Where Will You Live?

There are more than 22,000 mobile home parks around the country, offering over a million spaces for mobile homes. Many new mobile home parks open each year, and this type of development is on the increase, with the modern trend toward larger developments of 25 acres more.

With mobile homes being 23 per cent of all the single-family homes being built today, the need for mobile home parks is urgent.

Let's say you're ready to buy a mobile home, but you're wondering where you'll put it. Where will you live? Will it be in some rural or resort area, or perhaps on some ground that you already own! Or perhaps you will buy or rent a site.

Most people, however, prefer the advantages of the mobile home park.

RENTAL COSTS

First consider the cost. Spaces in a typical modern landscaped park rent for an average of $40.00 a month. Modern parks have a lot to offer. Rental will normally include water, sewer, and trash collection.

Utility charges, telephone service and heat are extra, and you will probably be billed for those services directly by the utility. Heat may be provided by fuel oil, natural or LP gas, or electricity.

* * *

Here are points to consider in selecting a mobile home development for you and your family:

- Convenience. Are shopping areas, churches, medical services, major sources of employments within easy access?
- Character of Neighborhood. Avoid declining neighborhoods. Think of selecting your park space with the idea that "it has a future."
- Auto Parking Space. There should be two parking spaces for each mobile home if at all possible, with provision for guest parking provided in a specified area.
- Atmosphere. In many areas you can choose the living atmosphere that best meets your needs. Do you want to live in a special park for adults, or one for retirees? There are still others for young families with children, and those that are mixed. You have a choice.
- Service and Facilities. What services and facilities do you need? There are a variety to consider, including service building and recreation area.

Many have shuffleboard, tennis courts, swimming pools and other extras that can make park living like belonging to a country club.

Storage facilities might be a factor. Additional storage space is welcomed by most tenants. This can be located in a common storage area or in individual units located on each lot.

- Good Management. It's absolutely essential! Competent management will always explain their rules and regulations before residents move in. They will tell you how park rentals are collected, and whether there are any extra charges. Are children and pets permitted? What fire and police protection is available? Is there mail service? Such management will carefully explain what they offer to their tenants and what is required of the tenant.

WIDE CHOICE

Mobile home park living has many advantages that appeal to each generation, and there are different types of mobile home parks to fit the needs of each of their age groups. With this wide choice — you can choose your own.

Code for Special Housing Mulled

William Grondman of Grand Rapids, chairman of the Michigan Mobile Home Association standards committee, has reported that the Federal Housing Administration (FHA) is currently considering the possibility of special building codes for experimental housing.

Under consideration is the United States of American Standards Institute Code (USASI), developed for Mobile Homes and Manufactured Housing.

* * *

Grondman noted that this code is one that was especially developed by the Mobile Homes Manufacturers Association and USASI to allow safety and performance considerations of manufactured structures, rather than basing specifications on outmoded material requirements.

The Michigan Mobile Home Association reports that there is not currently an experimental project using this special code in Michigan.

Pine Preferred

Cabinetmakers like to use ponderosa pine. It's easy to work and can be finished to look like any wood: walnut, maple, cherry, teak, mahogany, fruitwood—even pine.

Schoolchildren Not Common as Mobile Home Residents

In almost all areas in Michigan the average number of schoolchildren per mobile home is far lower than the average number of school-children per stationary home. This characteristic of mobile living is caused by the combined effect of a combination of factors, say Mobile Home industry officials.

One of the basic factors is the product itself. Mobile homes (not including the manufactured full-size housing) are a maximum of 720 square feet in floor space in Michigan, due to the maximum limitations of highway movement regulations. Older units are of small size.

Most mobile homes can be purchased in a three-bedroom floor plan. However, the highest percentage of sales is with the two-bedroom floor plan.

Even with tip-out bays, expandable living rooms, and so forth, the amount of living space provided by the mobile home, although very adequate for two adults, is not really adequate for a family and provides a type of living that is somewhat too compact for a family.

Another factor that limits the number of children in mobile homes, are the people themselves who prefer this type of living. Many of the people in mobile homes are retirees or middleaged people with mature families that have left home.

In addition to this segment of the housing market, the mobile home industry supplies housing for newlyweds who are unsure of the location in which they will be settling, unsure of the type of home they want to purchase or unable to meet down payment, FHA, or other requirements for stationary housing.

* * *

Another factor that limits the number of schoolchildren per mobile home, is the mode of living itself. Mobile living is compact and convenient living and it is no longer the most economical way to live.

Mobile living can be well compared to apartment living for convenience, lack of maintenance, and so forth, but mobile living has the added advantages of the pride of ownership of the unit itself (although the park space upon which it is placed is rented) and more privacy than in apartment living.

RECOMMENDATIONS

Because of the product size, type of people, and mode of living, the industry highly recommends that people with children do not purchase mobile homes. These industry recommendations also help in reducing the number of children per mobile home that are attending public schools.

There have been a number of studies regarding the average number of schoolchildren per mobile home.

* * *

These studies have ranged from surveys of a single park in a given area to surveys of several thousand parks throughout geographical areas of the United States.

One such study was undertaken at Diane Mobile Home Park, in Mount Morris. This single park survey taken in 1963 indicated that the total number of children living in the 200 units of the park, was 50.

SCHOOL AGED

Of these 50 children, 24 were preschool age, 22 were elementary school students, and 4 were high school students. This means, of 200 mobile homes, there were only 26 children attending school in 1963.

Michigan State University prepared "A Survey of the Mobile Home Consumer in 1959," and this survey indicated that there was an average of 2.92 persons per mobile home.

* * *

The average children per mobile home family was 1.4 with 51 per cent of the mobile homes having no children residing within them.

Another survey was taken by "Trailer Topics Magazine" in July of 1962. It indicated that in Michigan there was an average of .19 elementary school children per mobile home with .09 high school children per mobile home, giving a total of .28 children per mobile home enrolled as students, just over one school student for every four mobile homes.

COMPLETE SURVEY

In the first part of 1963, Mobile Research Co. and Statistical Surveys Inc. undertook a complete survey of people purchasing mobile homes.

Within the 27 states from which replies were received, they found that the average number of persons in the family per mobile home was 2.9, which is comparable to the findings of the Michigan State University Study.

'Demand Seems to Rise'

Industry Weathers Credit Bind

NEW YORK (AP) — One sector of the housing industry that seems able to weather a credit crunch is mobile homes. The less money there is around, the more people seem to want mobile homes.

* * *

Mobile home sales were up 51 per cent in the first three months of 1969 while private housing starts were off 5 per cent in the same period.

Manufacturers of mobile homes also held their own in the severe credit crunch of 1966. In that year private housing starts fell almost 21 per cent but building in the then fledgling mobile home industry remained steady.

* * *

"The mobile home industry has traditionally been able to take advantage of a tight money period," said Richard Keim, an analyst at Goodbody & Co. Keim, a specialist in the mobile home industry, predicts continued rapid growth for the industry.

CORNERED MARKET

"Mobile homes may have cornered the low-cost housing market," said William Nelson, a securities analyst with Moody's Investory Services Inc. "The principal demand for this type of home is in the young married and retired groups these are the fastest growing groups in the country."

Low cost is one of the major attractions of mobile homes. According to the Mobile Home Manufacturers Association, you can get a furnished, two-bedroom mobile home for about $6,000.

* * *

"When people have less money they go to mobile homes," an association spokesman said. "You can get a mobile home for about the same price as a down payment and closing costs in a conventional house."

The federal government estimates that 6 million low-cost housing units are needed over the next decade. Mobile home makers plan to take a large hunk of that market.

LENDER ACCEPTANCE

Members of the industry also report that they are getting greater acceptance by lenders.

The mobile home is generally financed retail for a 7-to-10-year period, compared to periods of up to 30 years on conventional housing. The lender also can get a higher rate of reutrn on mobile homes, and a low rate of defaults on mobile home loans has built lender confidence.

* * *

"The lender likes them because he gets his money out quicker and he likes the rate of return," said Keim. Mobile home buyers may have an easier time with financing than conventional home buyers, he said.

Boat Firm Enters Field

Alumacraft Marine Products Corp., a Minneapolis-based national boating and leisure time equipment manufacturer, has announced it has completed the acquisition of Tourite Mobile Home Manufacturing Co. of Fort Worth, Tex., for an undisclosed amount of cash.

Mearll O. Korstad, president of Alumacraft, said the purchase of Tourite marked his company's entrance into the flourishing mobile home market.

* * *

"With sales up almost 60 per cent over 1968 in the mobile home industry already this year, we believe our entrance into the field is a wise investment," he observed.

"Estimates indicate that the industry will ship as high as 400,000 units this year compared to 317,000 in 1968. If this more than 25 per cent increase occurs, it will put the industry at a level forecast for 1975 by the Mobile Home Association."

LUXURY HOMES

Tourite, with annual sales of more than $2.5 million, manufactures a line of luxury custom-made mobile homes which it markets through some 30 regional dealers in the South and Southwest.

The company, a family owned and managed business, will be operated as a wholly owned subsidiary of Alumacraft.

* *

Korstad will serve as president and chief executive officer of Tourite, and Marvin H. Radke, who has been with Tourite for many years, will be vice president of operations.

Alumacraft manufactures and sells a broad line of aluminum and fiberglass pleasure boats through some 500 dealers and 13 distributors in the United States and Canada. The boating line includes inboard-outboard and outboard luxury fiber-glass and aluminum runabouts, fishing boats, sailboats and canoes.

GROWING LINE

The company also supplies a growing line of boating accessories such as trailers, convertible tops, mooring covers, anchors and other such marine and leisure time products.

Colors, Materials Improve Desirability

Bold, imaginative use of bright colors and specially designed quality materials have helped change the image of mobile homes from expedient housing to a desirable place to live.

Good interior design featuring uninhibited use of bright colors is one of the significant factors in the recent emergence of mobile homes as the fastest growing segment of the nation's housing market.

Vivid colors are found in furniture, wall panels, linens, draperies, appliances, resilient flooring and carpeting.

Once dominated by safe, neutral colors, vinyl flooring has given way to a whole rainbow of bold colors such as lacquer red and sungold.

TAILORED PRODUCTS

Major building supply manufacturers no longer look on mobile homes as a stepchild of traditional housing but are designing products especially tailored to meet the needs of mobile home interiors.

The ceiling problem — last holdout to the old inside-a-packing-crate look—has been solved.

Armstrong Cork Co., working with the mobile home industry in development of floors, insulation, wall panels and ceilings, has developed a new ceiling called Instalok which eliminates unsightly exposed fastenings.

Armstrong also has developed a cushion vinyl floor called Calay in a variety of colors especially for mobile homes.

AIDS PROGRAM

In addition, Armstrong has made the facilities of its world famous Bureau of Interior Design available to mobile home manufacturers in a program called AIDS to help coordinate the decoration of interiors.

Good interior design is especially important because mobile homes come completely furnished.

* * *

Special emphasis on development of mobile home products that have greatly enhanced interiors has helped attract families to mobile home living.

Approximately 80 per cent of all one-family homes under $12,500 built last year were mobile homes. Mobile home sales grew from 90,000 in 1961 to 241,000 last year and are expected to be close to 300,000 in 1968.

SALES UP

More than 5.5 million people in the United States now live in mobile homes. Sales for 1968 are expected to amount to about $1.5 billion.

Attractive Interiors Through Bright Colors

Now, in addition to the regular market of single family residences placed on private land or in the nation's 25,000 mobile home parks, mobile homes are providing attractive low-cost housing in urban renewal areas. Many individual units are being stacked to form low-rise apartment complexes and town houses.

Today's mobile homes feature tasteful professionally decorated interiors. The image of temporary housing is giving way to one of permanence because of larger living space and the use of colorful materials.

Tips to Vacation Drivers

"It's a wonderful country we live in and it is just a darn shame that so many of its citizens are going to needlessly cut their stay short during the summer vacation period."

Thus spoke Mario Andretti, internationally famous Indianapolis "500" race driver.

Andretti was referring to the hundreds of lives that will be lost due to auto accidents during the coming summer months.

The veteran driver has these suggestions for folks who will be driving on their vacations this year.

* * *

They are:

- Be sure your car is in good mechanical condition before your start, with special emphasis on brakes and tires.
- Plan your trip and allow plenty of time, because you know there will be heavy traffic. Allow time for rest and relaxation stops.
- Give the car in front plenty of room. Don't be a tailgater.
- Use your seat belts. They proved their worth long ago.
- Keep within the speed limits set by local authorities. They set the limits for a reason. On wet pavement slow down below the posted limit.
- If you feel yourself getting tired, pull off the road and rest. If possible, stop for a cup of coffee, or a glass of milk.
- Get in the right-hand lane and stay there, except to pass.
- Be considerate of your fellow driver. He values his life just as you do yours.

By OSWALD & JAMES JACOBY

We don't think much of the North-South bidding of today's hand. Their cards warrant the bidding of a grand slam.

There are 13 tricks at clubs if the suit breaks 3-2 so it was just as well for North and South that they only reached six.

It was also just as well that South knew how to make 12 tricks against West's five trumps.

He played dummy's queen of trumps at trick two and stopped to plan the entire play of the hand. He had to cash as many side suit cards as possible before getting around to doing some crossruffing.

Furthermore, he wanted to ruff in dummy first. He started by cashing dummy's second high diamond. Then he played three rounds of spades in order to discard dummy's four of diamonds. So far everything was going fine. His next step was to cash his ace and queen of hearts. He had to get them home sometime and he didn't want to take the chance that West might get a heart discard on the third diamond.

★ ★ ★

Then he led the third diamond. West still had to follow suit but that didn't really matter. By this time South was in full command. He ruffed with dummy's six of trumps and led a heart. It didn't matter which heart he led since he ruffed it with his king of trumps. West was down to trumps by this time and had to underruff.

Then South led his last spade. West ruffed with the 10 and South was in the pleasant position of being able to make his contract by either overruffing or discarding dummy's last heart.

★ ★ ★

Actually he overruffed, led that last heart, ruffed with his nine of clubs and made his 12th trick with dummy's eight after West took his jack.

Local Golfers Advance After 2 Rounds

Choice Matches on Tap in State Amateur

By FLETCHER SPEARS
Sports Writer, Pontiac Press

CHARLEVOIX — Two of the "premier" matches of the Michigan Amateur Championship are slated today, after a few mild surprises in the opening two rounds of match play yesterday.

One of the top duels sends 1967 champion Bill Newcomb of Ann Arbor, Golf coach at the University of Michigan, against Pete Jackson, ex-GAM champion from Oakland Hills.

Another choice match, finds 27 year old Pete Green of Orchard Lake facing 21 year old John Grace of Grosse Pointe. This could be a revenge match for Grace.

Both Newcomb and Jackson came up with sub par rounds in disposing of their second round foes.

Bill Curtis of Farmington was one under for the day in taking two matches. Ditto for Green, while former champion Melvin (Bud) Stevens of Livonia and Bud Badger of Birmingham were hovering near par.

★ ★ ★

Pete Jackson, whose brother Mike was ousted in a lower bracket match by Dick Drager Jr., of Roseville, was four under par in his afternoon 5 and 4 decision over 18 year old Larry Roy of Detroit.

"No, I wasn't putting well but I was really hitting my irons well," said the 30 year old Jackson who teamed with Dave Cameron a short while back in winning the Pine Lake Invitational.

After going two up with a 35 on the front side Jackson birdied 10, 11, and 13 and then closed the match by halving No. 14, during the same span Roy a student at Detroit Business College was only one over.

"That was hard going out there," said Green referring to the soggy front nine holes that take the seams out of the legs.

"I'm playing real well," offered Green who was a first round victim last year. "The putts aren't what I'll like, but I'm driving real good . . . knock on wood."

1967 GAM CHAMP

Green the 1967 Golf Association of Michigan champion ousted Roger Bonahoom of Grosse Pointe Farms in the morning 3 and 2 and ousted Jim Kornecki of Birmingham by the same margin in the afternoon. Green beat Grace 3 and 2 in the finals of the 1967 GAM championship.

Pontiac's Tom Balliet (44) a general foreman at Pontiac Motors rallied in his morning round to down Bob Rymar of Grand Rapids 2 up, but he fell victim to the hot shooting Grace who was three under par in winning, 7 and 6.

"Man I'm tired," said Newcomb who managed a 1-up in 19 holes win over Bob Zimmerman of Jackson in the morning and then an easy 5 and 4 decision over Rick Becker of Kalamazoo in the afternoon.

Badger wno survived a 20-man playoff to get into the match play part of the tournament whipped Fred Muller of Grand Rapids 1 up and Ron Sroka 4 and 3. Badger faced 1959 runner up Gene Hunt this morning.

TWO ROUNDS

Survivors play two rounds today with the semifinals and finals on tap tomorrow.

Curtis 36, was playing super golf but not scoring partcularly well. Runner up in the 1962 tournament, Curtis whipped Jim of Grosse Pointe in the afternoon 4 and 2.

I finally made a birdie putt said Curtis managing a smile.

After his afternoon round he missed several short putts on the front side that would have put the match out of reach early and for the tournament, Curtis is two under par, he faced Oakland University graduate Oscar Carlson this morning.

In a mild surprise Carlson ousted Eastern Michigan University's Jim St. Germain 3 and 1.

Stevens who has won the championship three times — 1959, 1963 and 1965 — squeezed past Tom Russell of Livonia in the morning and breezed to a 5 and 3 verdict over Rayme Martine of Berkely in the afternoon 5 and 3.

John Law of Birmingham moved up with a 2 and 1 nod over Terry Noble of Roseville and Paul Haase of Detroit 3 and 2. Haase earlier in the day surprised ex-champion Tom Draper 6 and 4.

★ ★ ★

Five time winner Glenn Johnson whose last title came in 1961 stopped Tom Pyciak of Jackson in the morning round 4 and 2 but lost to Fred Behymer of Lansing in the after noon 2 and 1.

Mike Fedewa, 19 year old Western Michigan University junior turned in a mild surprise when he topped tourney medalist Andy Andrews of Jackson 1 up on the 19th hole.

Fedewa came back in the afternoon for a 1 up decision over Ralph Ellstrom of Dearborn and faced the formdable Stevens this morning.

Magic Number Count for Tigers Going in Reverse

Prize Horse Is Stricken, Dies at Hunt Club Show

A prize horse competing at the Bloomfield Open Hunt Horse Show, was taken to Lansing for an autopsy following his sudden death Thursday evening.

Rubezh, a Russian-bred mount owned by the Centaur Farm Stables, West Bloomfield, had fallen and rolled over in Wednesday's competition while completing a round of jumping.

Thursday evening, he was in a cold sweat and was scratched from the junior jumping match. He died at approximately 8:30 p.m.

His manager, Tony Pratt, said he had been concerned because Rubezh had lost some 100 pounds in the last two to three weeks, but a blood test revealed no anemia and did not appear to be weak the night he fell.

Pratt said the 10-year-old horse also was off his feed, but added that it was normal for him not to eat his feed while beginning a show.

No definite clues were available as to the cause of death, but Dr. "Jersey" Loewith, veterinarian of the Show, said the appearance of the mouth and white mucous could suggest internal injuries.

After the autopsy in Lansing, Rubezh will be cremated.

FROM ENGLAND

He was bought by his present owners in 1967 from Robert Hall in England, and has been at the Detroit Horse Show in 1967-69.

Rubezh was the state Junior or Jumper champion last year and has won the state dressage championship on the third and fourth levels.

★ ★ ★

He was ridden by Katie Monahan, 13, of Orchard Lake who last week at the Grosse Pointe Show, beat Kathy Kusner, one of the countries most prominent young women riders.

Rubezh has also been intermediate Jumper champion and has won ribbons in two other classes.

He has performed well in shows all around the midwest, competing in some 30 to 40 in the last 2½ years, including Chargrin Valley, Ohio, Cincinnati, Detroit, Grosse Pointe, Jackson, and Oak Brook, Illinois.

McLain to Try to Stop Orioles After 4-1 Loss

BALTIMORE (AP)— The Detroit Tigers may be the first third-place team in history to have a magic number.

"I said we'd have to win at least six out of eight from the Orioles in our next two series," Tiger Manager Mayo Smith said after the Detroiters lost to league-leading Baltimore 4-1 Friday night.

"Now it's six out of seven. If we don't though, we'll just keep playing," he added. "What the hell. Strange things happen in this game. If you don't think you can come back, you may as well take off your uniform and never put it on again. But, we've got to get good pitching."

Making the effort to provide good pitching today was Denny McLain (11-5) to be followed by Mickey Lolich and possibly Earl Wilson, who was pounded Friday night, in the Sunday twin bill.

THROWING HIGH

"Wilson was high tonight," said Smith, after the Friday game. "That's what got him into trouble, especially in the second inning."

The second inning was the frame in which the high-flying Birds picked up their last two runs on a one-out Don Buford double and Paul Blair's 17th homer.

★ ★ ★

Frank Robinson and Boog Powell followed with a single and a double, but Smith pulled Wilson at that point and reliever Tom Timmerman got the Bengals out of the jam.

Baltimore scored its first two runs in the opening frame on a walk to Blair, a hit batter, a Powell single scoring one run and a Dave Johnson double.

Detroit got its sole run in the third on a Jim Northrup singleo to right, a Bill Freehan blast off the left field wall that went for two bases, pushing Northrup to third and a sacrifice fly by pinchhitter Don Wert.

ROLLS AWAY

Meanwhile, unbeaten Dave McNally was too much for the Tigers all the rest of the way, notching his 11th win of the season with the five-hitter.

The win set a Baltimore club record of 13 straight victories over a two-season span for McNally and dropped the Tigers 12½ games behind.

Smith said at least one of the Baltimore runs shouldn't have scored. He said Johnson's runscoring double should have been fielded by third-baseman Ike Brown and noted that Buford's double preceding Blair's homer was lost in the lights by Willie Horton.

★ ★ ★

"When you're going good, that's how things happen," Smith said. "That's the way they went for us last season."

Smith also disclosed that veteran outfielder Al Kaline, who has lost six pounds recently, will be rested Saturday after the Friday night game and will also sit out one of Sunday's pair.

"We don't want him exhausted," the Detroiter said. "He has a good appetite, and we don't know why he has lost weight."

McLain was to be opposed in today's game by Marcelino Lopez, 3-1.

OUT AT HOME — Baltimore Orioles Frank Robinson slides home and is tagged out on a throw from third baseman Ike Brown to Detroit Tigers' catcher Bill Freehan in their game in Baltimore last night. The Tigers lost another game in the AL pennant race in the 4-1 setback and are now 12½ behind the leading Orioles.

Qualifying Halted, Hydroplanes Ready

DETROIT (AP) — A second day of unfavorable winds closed the Detroit River to speedboat racing Friday and forced a halt to qualifying runs for Sunday's Gold Cup hydroplane race.

★ ★ ★

With eleven potential competitors in the race, the owners and drivers met to draw lots to arrange three heats, two fourboat heats and a three-boat heat.

"We have to assume that all eleven boats here will run," Lee Schoenith, Unlimited Racing Committee chairman, said.

BREAK FIELD

"That forced us to break up the field into three heats."
field into three heats."

If one of the boats can't make the race, he said, then they'll probably redraw the lots for two five-boat heats.

QUALIFYING HALTED

Two boats yet to run qualifying heats this year will have a go at it Sunday morning, possibly holding up the plannd start of the first heat shortly after noon.

"Delaying the race would be better than leaving a boat on shore," Schoenith said.

★ ★ ★

In all, seven heats are held in the race for the cup. All boats go in the first three heats, then drivers redraw to determine positions for the next three heats. The final heat matches the five highest scorers from the first six heats.

In each race, 400 points go to the first place boat, 300 to second, 225 to third, and 169 to fourth. In the final heat, the fifth place finisher gets 127 points.

County Wrestler Keeps Winning in National Meet

Special to The Pontiac Press

WORLAND, Wyo. — Roger Duty, the outstanding Wrestler of 1968-69 in Oakland County, from Royal Oak continued his winning ways in the national junior championships to advance in the Greco-Roman matches here Friday.

★ ★ ★

Duty defeated Bryant Smith of Berkley on a pin in 4:20 for his third victory in the 154 pound division.

Marty Chovinard of Lansing is also in contention in this division.

Meanwhile, Roger West of South Haven was eliminated in the 178 pound division by Bill Bragg of Fort Morgan, Colo.

Governor's Handicap Feature at Hazel Park

HAZEL PARK (AP) — Campion Kid, who won a record $45,512 as a three-year-old at Hazel Park Race Track, makes his first start of the year today in the $12,500 added Governor's Handicap.

A highly regarded sprinter, Maize 'n Blue, is entered in today's $15,000 Mount Clemens Handicap at Hazel Park. He has won almost $30,000 in eight starts this year.

Another Hydro in Boat Lineup

DETROIT (UPI) — Hot, windy weather Thursday made the Detroit River choppy but didn't prevent Pride of Pay-N-Pak from becoming the fifth hydroplane to qualify for Sunday's $25,000 World Championship race.

Dave Heerensperger's craft cut through the three-mile course with the relatively slow time of 103.846 miles per hour but that was quite good considering the conditions. No other boat attempted to qualify.

Pride of Pay-N-Pak joined Notre Dame as the daily winner of $500 for the top qualifier. Notre Dame hit 120.535 Wednesday, only three-tenths of a second off the course record.

The latest entry in the powerboat field is of a new so-called "outrigger" design being run for the first time this season.

Gonzales vs. Ashe Key Tennis Match

WIMBLEDON, England (AP) — Pancho Gonzales, aiming to be Wimbledon champion at 41, faced Arthur Ashe today in the last critical match of his weary week of tennis.

★

If he gets over that hurdle, old Pancho — a gray-haired grandfather — can look forward to some days of rest between the remaining rounds.

When Gonzales defeated Tom Edlefsen of Berkeley, Calif., 6-4, 6-3, 6-3 Friday to reach the last 16, it was his fourth straight day of strenuous singles play.

Normally the players are given a free day between each round of the men's singles. But the opening day was washed out by rain, and Gonzales then ran into the longest match in Wimbledon history—the fantastic 112-game marathon against Charlie Pasarell which sarted Tuesday and ran through most of Wednesday afternoon. So he has had to keep ging day after day.

"I've been going to bed early, and practising gently for an hour each morning before coming to Wimbledon," the veteran from Los Angeles said. "I won't deny I've been tired—especially after the match against Pasarell—but I've got my second wind now."

Gonzales is free of doubles play. He and his partner, Jim McManus of Berkeley, Calif., were knocked out in the first round.

Today's winners will move into the quarter-finals. The rest of the men's singles events will be nicely spaced out—the quarter-finals on Monday, the semifinals Wednesday and the final next Friday.

Gonzales, seeded No. 12, is favored by many experts to beat Ashe, the fifth seed.

Parade of Blue Ribbons Continues

By JERE CRAIG

Plagued by wet weather badly in 1968, the Bloomfield Open Hunt's Horse Show's 52nd annual edition shook off the effects of a brief deluge Friday afternoon by postponing two evening classes until this afternoon and moving into its final two days with a steady parade of blue ribbons.

The weekend's activity, of course, will spotlight tonight's North American Open Jumper Classic and the North American Junior Jumper Classic tonight.

★ ★ ★

But also demanding applause in the concluding classes will be the recipients of the various over-all championships. The hunter entries in particular moved toward these awards with a heavy load of qualifying events yesterday.

Only three jumper events were on Friday's schedule, and 28-year-old Maryland resident Kathy Kusner took the top prize in two of them. She ended the Canadian riders' bid to sweep the prestigious open jumper classes.

FOUR ROUNDS

Last night Miss Kusner guided That's Right through three perfect rounds and another with only four faults to capture the Presidents' Trophy Class in the open jumpers' puissance.

She actually had two. Mrs. Patrick Butler mounts in the final jump-off, but she conceded with Wicked City after Ontario's Jim Day on Ernest Samuel's Canadian Club couldn't match her final clean ride with That's Right.

★ ★ ★

Miss Kusner and the Butlers' prize intermediate jumper Touche Turtle continued their successful march through that division of the show with two clean rides and a victory in the day's initial class.

Last night's junior jumper event was settled by time among three survivors in the jump-off. Pete Horvitz of Cleveland took Mr. V.O. to its first strong showing in the week-long show and the blue ribbon.

DELAYED

The evening hunt teams event and Harkaway Trophy Class for conformation hunter appointments were delayed until this afternoon due to the wet Bloomfield Open Hunt grounds.

Local entries weren't too successful with their blue ribbon bids in yesterday's hunter classes. Class 44 for handy working hunters under junior exhibitors did earn No. 1 finishes for two county horses.

Debbie Holefca of Rochester received a blue ribbon for her Battle Image in the A Section, while Katie Monahan's sorrow over the loss of a top junior jumper prospect was softened a bit by her own Miltown who was rated tops in the "B" bracket.

Miss Monahan's had been having excellent results showing a junior jumper named Rubezh for West Bloomfield's Centaur Farm Stables, but the horse died in its Detroit Horse Show stall yesterday morning.

GREEN HUNTER

Another local hunter winning yesterday was Hallalujah, owned by Bloomfield Hills' Mrs. G. J. Graham, in the first-year green working hunter event.

Jennifer Duncan, also of Bloomfield Hills, received the runner-up ribbon in the maiden equitation (14-and-under) class. Jennifer is 12 while winner Alison Register of Paris, Ken., is 14.

Commissioner Asks AL to Boycott 'Ill'

HOUSTON, Tex. (AP)—Baseball Commissioner Bowie Kuhn will ask the American League to put out a directive asking that league players not patronize Joe Namath's bar in New York City.

★ ★ ★

Kuhn told reporters at a press conference Friday that he was aware the National League has already made the same request and this was the basis for his request to the American League.

Pro Football Commissioner Pete Rozelle has told Namath, quarterback of the New York Jets, to get rid of his interest in Bachelor's III because the New York night spot is frequented by "undesirables," or face suspension. Namath said he will quit football rather than sell his share in the night club.

★ ★ ★

Kuhn also said he hoped the player selection for the All Star game can be turned over to the fans next year. Presently the players make the selection.

First Win Since 1966

Newest Pilot Glad for Angels

ANAHEIM (AP) — Garry Roggenburk, making his first appearance for Seattle, picked up his first major league victory since 1966 with relief help from Bob Locker as the Pilots beat California 5-2 Friday and gained a split of their twi-night doubleheader.

Jay Johnstone's bases-loaded pinch single broke a tie in the opener and lifted the Angels to a 5-3 triumph.

Elsewhere in the AL, Boston trimmed Washington 4-2, Oakland vaulted back into first place in the West by one-half game by nipping the Chicago White Sox 1-0 while Minnesota was losing to Kansas City 9-8, and Cleveland drubbed the New York Yankees 5-1.

Reggie Smith batted in two runs with a single and his 13th home run and Bill Landis and Sparky Lyle combined for a six-hitter as the Red Sox beat Washington.

Landis, making his first start in just over one year, hurled six innings and gave up three hits and one run, Brant Alyea's ninth homer.

★ ★ ★

Oakland, held to one hit for seven innings by Billy Wynne, pushed across an eighth-inning run on an infield hit and a throwing error to edge the White Sox as John "Blue Moon" Odom fired a four-hitter for his 10th victory.

Joe Foy singled home the tying run and Hawk Taylor singled in the winner as Kansas City rallied for two in the ninth to overtake Minnesota.

Sam McDowell scattered five hits and struck out 12, pushing his career total past the 1,500 mark, in hurling Cleveland past the Yankees. It was the left-hander's seventh straight triumph.

Rick Reichardt slammed a 426-foot two-run homer for the Angels in their opener.

Sayers Given Long Contract

CHICAGO (AP) — Halfback Gale Sayers of the Chicago Bears has signed a multi-year contract, Georger Halas, owner of the National Football League club, revealed Friday.

Halas, who recently returned from England after undergoing hip surgery, said "the session was amicable, in fact, a real pleasure.

Terms of the pact were not revealed, but it was learned that Sayers signed a three-year contract at $75,000 a year.

Fans Rush Field, but Sullivans Win

HAARLEM, Netherlands (AP) — The Sullivans of Grand Rapids, Mich., crushed The Netherlands 21-6 Friday night in the Haarlem baseball week after a rumpus in the sixth inning when Bob Sullivan, the U.S. team coach, protested an umpire's call. Spectators, as well as players, ran onto the field, causing a 20-minute delay. No one was hurt and no one was arrested.

Eight Game Streak for Leader in WL

Michigan Building Products holds an eight-game winning streak in the Walled Lake Industrial Slowpitch Softball League after losing its opening game of the season.

Beaten by the Penny Electrics in their season-opener, the "A" League pacesetters defeated imperial Molded Products, 5-4, Thursday night to take over sole possession of the first place and raise their record to 8-1.

Dale Schaffer, whose third straight hit in the crucial contest came with two out in the seventh, moved around with the game-winning run on Larry Hughes' single and a resulting overthrow of third base.

TUMBLES TO THIRD

The defeat dropped Imperial (7-2) from a first-place tie into third place behind the Wixom Athletics who cracked four home runs Thursday in downing Lawson Manufacturing, 13-4.

Coody Holds Four-Stroke Lead in Cleveland Open

CLEVELAND, Ohio (AP) — Charles Coody, the hottest item on the pro golf tour, held a whooping four-stroke lead going into today's third round of the Cleveland Open, but he's not about to spend the $22,000 first place prize yet.

"There's 36 holes to go," he said Friday after matching the Aurora Country Club course record with a six-under-par 64 that gave him a four-stroke lead at 131.

"There's a lot of players who still have a good shot at it.

"I learned about nine weeks ago that a tournament isn't over until the last putt drops.

"That was at Augusta, Ga., in the Masters. I had the lead in the final round standing on the 16th tee. And I finished with three straight bogeys."

Coody, a 6-foot-2 Texan whose only tour victory was the 1964 Dallas Open, tied the low 36 holes on the tour this year and now is a fantastic 17 under par for his last three rounds. He had a final round 65, seven-under-par in the Kemper Open last week, finishing second to Dale Douglass.

John Schlee and Bruce Crampton shared second place at 135, each with a second round 66. Jim Colbert, who played with Crampton and traded some words with the transplated Australian over slow play, was alone in fourth place at 136. He had a second-round 67.

Alabaman Has LPGA Lead

Brother's Coaching Aids Joann Prentice

PENSACOLA, Fla. (AP) — Shapely Joann Prentice had steel nerves, a hot putter, her brother's counsel, and a one stroke lead going for her as she moved into today's third round of the Women's Open Golf Championship.

"I've led in too many tournaments to get excited about this one," said the 36-year-old, 13-year veteran from Birmingham, Ala., who takes lessons from her older brother.

The wisdom of Charles Prentice, head pro at the Columbia, S.C., Country Club, paid off for his kid sister in Friday's second round at the tight, tree-lined par 73 Scenic Hills Country Club course.

Joann kept her cool in 95-degree heat while others wilted, needing just 28 putts for her two-under par 71 for 144 and a one-stroke margin over plucky veteran Ruth Jessen in this most coveted of all women's golf championships.

Gridders Kickoff Tonight

ATLANTA (AP) — Eugene "Mercury" Morris, powerful Paul Gipson and Bill "Earthquake" Enyart—overshadowed as running backs by O. J. Simpson last fall—get their shot at glory Saturday night.

Simpson, Heisman Trophy winner from Southern California, is skipping the ninth annual Coaches All-America Game because he has not signed a pro contract, so the trio of hard-running football players will be spotlighted.

Morris, West Texas State standout who is the NCAA's all-time rushing leader with 3,388 yards, gained 1,588 yards running last season. Gipson picked up 1,550 yards for Houston, and Enyart rushed for 1,304 yards for Oregon State.

All three will be running for the West in the all-star battle in hot, muggy Atlanta Stadium.

Kickoff for the game, which will be nationally televised by ABC-TV, will be at 8:30 p.m., EDT.

Astros Still Zooming High

By Associated Press

Harry Walker won't admit it, but he's trying to hatch a home-made moon-shot in the Houston Astrodome.

Walker's astounding Astros nipped Atlanta 5-4 in the ninth inning Friday night for their 10th consecutive victory and a space walk in fourth place in the National League's tight West Division race.

The Astros' second 10-game orbit of the season shot them within 4½ lengths of pace-setting Los Angeles and brought on the first symptoms of that dizzying high-altitude phenomenon—pennant fever.

Wile the Astros, mired in the division cellar two months ago after losing 20 of their first 24 starts, vaulted into contention, San Diego ended an 11-game tailspin by blanking Los Angeles 5-0 behind right-hander Joe Niekro.

Despite the loss, the Dodgers remained one-half game in front of the Braves. Third place Cincinnati moved 2½ games off the pace with a 4-3, 9-1 doubleheader sweep over San Francisco that dropped the Giants to fifth — five games out.

Elsewhere, Pittsburgh trimmed the New York Mets 3-1, St. Louis beat the Chicago Cubs 3-1 and Philadelphia shaded Montreal 8-7.

The Astros broke a 4-4 deadlock in the ninth when Curt Blefary singled, took second on a sacrifice, third on an infield out and then scored on Martinez' two-out single off reliever Cecil Upshaw.

Al Ferrara, a former Dodger, launched the Padres toward their skid-brading victory with a three-run first inning homer off Don Sutton. Niekro scattered six Los Angeles hits for his first victory since May 31 and rookie John Sipin also homered for San Diego.

★ ★ ★

Jim Merritt hurled a six-hitter and Bob Tolan and Lee May hit homers as the Reds completed their sweep at Cincinnati after beating Giants ace Juan Marichal in the opener on Pete Rose's eighth inning homer.

Tolan's three-run blast helped Merritt breeze to his eighth victory in 11 decisions. Rose's two-run wallop ended a string of nine straight wins for Marichal, 9-3, at Cincinnati.

Toomey Leads in Decathlon

Olympic Champ Has Sizable Margin

BAKERSFIELD, Calif. (AP) — Olympic champion Bill Toomey built up a sizeable lead at the halfway mark of the 51st National AAU Decathlon Championships at Bakersfield Memorial Stadium Friday night.

The 30-year-old school teacher from Santa Barbara, Calif., amassed 4,217 points in the first five events, giving him a near insurmountable lead over runnerup Rick Sloan, another U.S. Olympian who had 3,749.

Toomey is trying for his fifth consecutive AAU title, a string which he started in Bakersfield in 1965. His point total also gives him a good chance to go over the 8,000 mark for the eighth time this year.

★ ★ ★

The two top finishers in this meet, which ends Saturday, qualify for the U.S.-Russian track and field meet in Los Angeles in two weeks.

Sloan, seventh in the Olympics at Mexico City last year, scored heavily in the high jump with a leap of 6 feet 8⅜ inches to grab the lead in a tight race for the runnerup spot.

Still in contention for the No. 2 position are Robert Hutchins, Lamoni, Iowa, 3,697; John Warkentin, Fresno, Calif., 3,637; Steve Goegh, Seattle, 3,636; and NAIA champion Jeff Bennett of Oklahoma Christain, 3,628.

Never say "Canadian" without saying "Club."
The Canadian Clubman's Code: Rule 2.
Some "Canadians" aren't bottled in Canada. But Canadian Club is. Under Canadian Government supervision.
No other whisky tastes quite like Canadian Club. It's the whisky that's bold enough to be lighter than them all.
Practice the Canadian Clubman's Code, Rule 2: never say "Canadian" without saying "Club."

What Wall Street Did

NEW YORK (AP) — Prominent in the bond market this past week was a $100 million offering of Continental Oil Co. debentures that quickly sold out Thursday.

The new 7½ per cent securities attracted strong demand from large institutional investors and were initially priced to yield 7.52 per cent at maturity in 30 years.

★ ★ ★

In later trading, the yield to investors dropped to around 7.48 per cent, dealers said.

Part of the appeal was that the Houston-based company will not refund the bonds for five years with money borrowed at less than the 7.52 per cent rate, and added investor protection.

In general, the bond market continued to improve, according to the investment firm of Salomon Bros. & Hutzler.

Corporate bonds advanced in price, showing gains in both seasoned and recent issues. Yields on new issues declined to a level 25 basis points below the June record highs. Investor reception of the new issues with lower yields was mixed.

★ ★ ★

The municipal market showed some improvement in secondary issues in the absence of any heavy new-issue pressure. The light volume of municipals which prevailed in June appears to be carrying over into July.

Long-term government issues closed with modest gains, partially offsetting the previous week's declines.

NEW YORK (AP) — Investor concern over tight money and monetary restraint continued to drag on the stock market the past week, snuffing out a brief technical rally that apparently was sparked by the market's oversold condition.

The rally began late Monday, blossomed Tuesday, and petered out early Wednesday.

Analysts had been hopeful that because of the oversold condition the market had reached during recent weeks of sharp decline, the rally might be a meaningful, lasting one.

★ ★ ★

But, as one analyst observed, "the difficulty in getting a rally off the ground despite the oversold-status attests to investor caution over the economic background. Monetary authorities have insisted that the conversion from rampant inflation to a more normalized price structure will not be accomplished without some 'pain', and investors have gotten a taste of this during 1969."

★ ★ ★

Eldon Grimm, senior vice president for Walston & Co., Inc., notes that "we still seem to be under the influences that have been weighing on the market for a long time—tight money, a credit crunch, and no apparent progress in the Vietnam peace talks.

★ ★ ★

"While the market's oversold condition could give it some support in future sessions, the action probably will be a bit irregular for a while."

Of 6,700 Mormon Youths

He Conducts Dance Symphony

SALT LAKE CITY (AP) — Rulon B. Ostanfield gets his dance routines from watching television. He's never taken a lesson. Yet today he will stand in a football stadium and tell 6,700 teen-agers to point their toes and swing their hips.

He'll be directing a choreographed program of dance steps, marches, r h u m b a s, waltzes and formations—like a huge halftime show—done with thousands of teen-agers attending a youth conference of the Mutual Improvement Association for the Church of Jesus Christ of Latter-Day Saints (Morman).

There will be some 90,000 spectators at each of three programs in the University of Utah stadium to see if Stanfield pulls it off.

Stanfield, by trade, is an efficiency expert and dignified executive director of the United Fund Drive in northern Utah. He likes fishing and bowling and his 11 grandchildren. His life appears—on the surface—moderately routine.

DRAWING SQUARES

But every night, sometimes all night, Stanfield, 55, is out of bed, glasses on his freckled nose, drawing squares with red and green crayons on graph paper, room size charts and in general, making a mess of his recreation room.

On family trips, his wife, Ruby, drives the car while Stanfield furiously draws dots, dashes, circles and more squares on graph paper.

* * *

Every two years, he drives to Salt Lake City from his home in Ogden, charts loaded in the car, and goes to the University of Utah football stadium and directs what amounts to a dance symphony. Stanfield has assistant directors who fan out across the country for a year teaching steps to groups who will perform.

But it is Stanfield—microphone in hand, bellowing from the press box to the throng below—who puts the show together with only one rehearsal.

There are 1,000 adult helpers in tennis shoes, ccarrying clipboards and badges, scurrying to and fro on the field shouting instructions. Stanfield is calm.

"I can look at that field and know—I don't know how but I know—when one person is out of step," he says. Not only has Stanfield never had a dance lesson, but until the church asked him to help out, he'd never staged a show. That was 22 years ago.

This year's event, in honor of the women's youth program, is called "There's Nothing Like a Girl," and Stanfield says he'll go along with that, program or no program. He has six daughters.

He works two years on each program, drawing charts by night, thinking up routines in the shower, at dinner, driving to work.

But Saturday night, after it's all over, Stanfield will be the saddest man in the stadium. He will pick up his briefcases full of dots and dashes and begin looking forward to Monday, when he will start a new set of charts.

NEEDLESS ADVICE — The "do not enter" sign really isn't needed to warn motorists to stay off a flooded U.S. 71 highway span, as well as a railroad bridge at left, is under water from heavy rains which hit the area Thursday bridge over the Big Blue River in Kansas City, Mo. The night.

Rhode Island Beach Crowded by Clams

NEWPORT, R.I. (UPI) — Tourists in this resort city have an extra treat this year — a beach full of clams.

For the past two weeks perhaps a billion or more baby sea clams have been washed into Newport beach during high tide, only to be stranded on the sand when the waters receded.

★ ★ ★

Beach Director Gerry Nevins, at a loss to explain where the clams come from, said there is no sign of the problem letting up.

Nevins said officials have told him only that they doubted such a large clam bed existed offshore, but that is small consolation when he awakens each morning to see millions more clams piling up on the beach.

FREE FOR THE ASKING

It would be an understatement to say the clams are free for the asking. "We've got enough to give a bushel to everyone in Rhode Island. We're giving the clams away, gladly," Nevins said.

The stench generated by the landlocked clams — millions dead, millions dying — has been awesome.

★ ★ ★

As the summer tourist season moves into high gear, city officials are showing increasing concern. The city recently took control of the beach from a private operator, leaving City Manager B. Cowles Mallory wishing mournfully "someone else was running the beach."

To make matters worse, beaches only a few miles away haven't even seen so much as a half-shell, not to mention a whole clam.

MOVE 'EM OUT

Two front-end loaders, a grader and four dump trucks were called in Thursday to assault the clam population, hauling tons of them from the beach to the city dump.

But millions of clams remain and the tides keep right on coming.

Pass the shucker and the Tabasco sauce.

Director Logan Reads Stars Inside Out, Says Columnist

By EARL WILSON

NEW YORK — I doubt if there's anybody who knows as many stars as perceptively as the great director Josh Logan.

"Lee Marvin . . . when he's drinking, he's a wild man, mean as hell, aggressive, he changes completely, even his gestures. He's the only man I know who leaves out the middle of a sentence and waves his hand and you're supposed to get it. But he's such a good actor with it, he almost makes you believe what you didn't hear him say.

WILSON

"Clint Eastwood's a complete contrast . . . 3rd or 4th in box office in the world . . . he's got a passionate belief in what he is able to do . . . in 'Paint Your Wagon,' Alan J. Lerner and I flew to London and talked over scenes with him and we didn't leave till he said he'd do it.

"Lerner of course believes in ESP and flying objects. He'll convince you. He's a miracle worker with words. As long as I was in a room with him I believed what he said.

★ ★ ★

"Eddie Fisher bought the rights to 'Paint Your Wagon' and Lerner came into it as producer, then Eddie was bought out.

"Lerner said to me, 'I am dry on this story. I have written it three times. I have never been able to solve it.'

"He didn't feel the plot was right. It was about an old man with a daughter who was in love with a Mexican. It was his idea to get Paddy Chayefsky to rewrite it.

"Paddy rewrote it. The first thing he did was throw out the daughter and the Mexican. Now it's about gold being discovered in a grave. And a Mormon girl, Jean Seberg, who says if her husband was married to two wives, what's wrong with her marrying two husbands? After Paddy rewrote it, Alan took Paddy's story, wrote the screenplay and 5 new songs to fit in with the new story."

For Latin Americans

Journalism Grants Open

The Inter American Press Association Scholarship Fund will award in March 1970 at least five journalism scholarships to newspapermen and students who are citizens or residents of countries in the Americas outside the United States and Canada.

The winners will study journalism for an academic year — nine months—in a college or university of the United States.

Applications will not be considered unless they have a working knowledge of English.

Preference will be given to those with experience as newspapermen.

The president of the scholarship fund, Rodolfo Junco de la Vega Jr., El Norte, Monterey, Mexico, announced that the deadline for submitting applications will be Jan. 15, 1970. The scholarship awards committee will meet in February to examine them.

Further information and application forms may be requested from Carlos A. Jimenez, secretary, IAPA Scholarship Fund, 667 Madison Ave., Room 704, New York, N. Y. 10021.

Buy Right-of-Way

LANSING (AP) — The State Highway Department reports it is starting to purchase right-of-way in advance for the proposed M53 freeway between 12 Mile and 17½ Mile roads in Macomb County. The department said it plans to spend $1.83 million on such purchases, mostly vacant and residential land parcels. Early purchase will save money because of the growing price of land, it was explained.

The non-newsmakers...

what are they doing?

Publicity and public attention at any price is the farthest thing from their minds. They are not looking for something to complain about. They can see things about them which need improvement and they are willing to tackle the task. But they see some good things, too.

They don't believe in criticism and protest without offering constructive alternatives. They believe that soap and water and a neat appearance go hand in hand with health and happiness. They know their strength is in their numbers because they comprise the overwhelming majority of the young people in the world today.

Why are they so inconspicuous? Because they are busy doing things which need to be done. More of them perform works of charity than we ever hear about. They are applying themselves to their educations, going to church every week, participating in sports, furnishing the real leadership in their own groups, and working in ways which contribute to the betterment of society.

Right now they are seeking summer jobs. Thousands upon thousands of them are ready to contribute an honest day's work for a fair wage during the summer months. Groups like this are studying the Pontiac Press Want Ad pages daily in search of summer work. Can you use a fine American in your place of business this summer? If you can, let them know of your opening by placing a Help Wanted Ad in The Pontiac Press. Dial 334-4981.

JOHN JAMES SHEA, formerly of the Drayton Plains Nature Center, and wife, JoAnn, wish to express their thanks and appreciation to all the friends and neighbors for their kindness and co-operation during the past 4 yrs. Also for the beautiful gift; it will be treasured. May we extend to you our invitation to visit us in the Copper Country.

In Memoriam 2

ANNA, ON YOUR birthday, sadly missed but not forgotten. Husband, Norman

IN LOVING MEMORY OF Lawrence L. Webber who passed away June 29, 1959:
You bade us not farewell
Your heart had ceased to beat.
God saw you were suffering
And the hills were hard to climb.
So God closed your weary eyes and
Whispered peace be thine.
Sadly missed by mother, Mrs. Henry G. Webber, Sister Betty, Brother William, Children Kerry and Kreig.

A Good Luck Buss for Buzz

AP Wirephotos

SEND-OFF TO THE MOON — Apollo 11 Astronaut Edwin E. (Buzz) Aldrin Jr. accidentally ran into television actress Barbara Eden yesterday in Cocoa Beach, Fla., and she gave him a good luck kiss on the cheek for his moon-landing trip scheduled next month. Aldrin responded with a firm kiss of the lips. Miss Eden stars on the "I Dream of Jeannie" show in which she loves an astronaut. She was in Cocoa Beach for personal appearances.

Dispute Continues at Second

One S.C. Hospital Strike Over

CHARLESTON, S.C. (AP) — The Medical College of South Carloina hospital ended its bitter three-month dispute Friday with striking Negro nonprofessional workers, and labor and civil rights leaders vowed to continue to work together to organize the nation's 2.5 million hospital workers.

The agreement with local 1199-B of the Hospital and Nursing Home Workers Union, AFL-CIO, involved one of the two Charleston hospitals which have been struck for 102 days. Both hospitals continued operations. Charleston has two other hospitals.

A leading strike supporter, the Rev. Ralph David Abernathy, president of the Southern Christian Leadership Conference, ended with the settlement a hunger strike which he had begun on his arrest June 20 on a charge of inciting a riot.

★ ★ ★

The dispute with the Charleston County Hospital, which employed 89 of 426 strikers, remained unresolved.

TO REHIRE STRIKERS

J. Mitchell Graham, chairman of the Charleston County Council, said still at issue in the strike against the county hospital is whether all of its striking workers shall be rehired—a key provision in the Medical College settlement. The strikers are nurses aides, orderlies and food workers.

He said 61 persons had been hired to replace the strikers.

★ ★ ★

Moe Foner, secretary of the New York-based union, said it is undecided whether the Medical College workers would remain off the job until the strike is settled at the county facility.

The Medical College settlement calls for the strikers to return to work July 1, the date a pay increase goes into effect for all state workers, including those at the two hospitals.

HOSPITAL SCALE

The increase, an issue in the strike, raises the starting wage to $1.60 an hour from $1.30. The pay scale of the hospital workers goes up to $2.10 an hour.

The unions did not receive recognization as bargaining agent, a key demand early in the strike. Foner said the demand was dropped for other concessions, including a grievance procedure. The procedure gives an employe the right to select another worker to aid him in filing a grievance.

'Actors Hired to Liven Protest at Berkeley'

OAKLAND (AP) — "Black Panther types" wearing berets and black jackets were hired by a Hollywood film company to "enliven the action" during "people's park" demonstrations in Berkeley last month, a sheriff's official says.

Thomas L. Houchins, chief of the Alameda County sheriff's criminal division, said "Apparently the protests weren't lively enough for them, so they hired the Panther types to join in."

★ ★ ★

Houchins told newsmen Friday an investigation disclosed that the Negro youths had been paid by a crew using credit cards issued in the name of Metro-Goldwyn-Mayer studios.

Houchins said a similar hiring by a film producer occurred during demonstrations at the University of California's Berkeley campus March 6. He did not reveal details of that incident.

'IMPOSTERS'

Black Panther assistant chief of staff June Hilliard said persons taking part in filming during "people's park" demonstrations were not Panthers but "were obviously imposters."

Houchins said the MGM "crew had been in Arizona, shooting student unrest scenes, with actors playing the students."

★ ★ ★

"When the 'people's park' thing erupted, the director moved everybody to Berkeley for some reallife action shots."

It wasn't immediately known what the footage was to be used for.

WORKED FOR DIRECTOR

The San Francisco Examiner reported Bill Golden of MGM's publicity department confirmed that a crew working for Italian director Michelangelo Antonioni had been in Berkeley in May.

Miss Hilliard said "some of the members of our party worked for Antonioni in Richmond and Berkeley," but not in connection with any demonstrations.

★ ★ ★

Panthers were hired by Antonioni's producer and played roles for filming at Contra Costa College in Richmond and at the University of California at Berkeley, Hilliard reported.

One of those hired then was Kathleen Cleaver, wife of fugitive Panther leader Eldridge Cleaver who is now reported being held under house detention in cuba.

Job-Opening Bus Line Set for Detroiters

DETROIT (AP) — The Northwestern - Lahser Limited is set to roll.

And it will roll from Detroit's inner city, opening jobs in the suburbs to those Detroiters who have been unable to follow when businesses leave the city.

★ ★ ★

The new bus line, which begins operation Monday, will make a 47-minute run beginning at Forest and ending at Allstate Insurance Co. in Southfield via the John Lodge Freeway.

★ ★ ★

"Two-thirds of the companies responding to our recent transportation survey indicated that transportation limitations screened out many qualified workers from suburban jobs," said Dwight Havens, president of the Greater Detroit Chamber of Commerce. The chamber cooperated with the Great Lakes Transit Corp. and several major businesses in setting up the schedule.

★ ★ ★

Arrival of the bus in Southfield is coordinated with starting times at the cooperating firms.

Anti-Protest Students End Conference

LAKE FOREST, Ill. (AP) — A vanguard of student leaders is prepared to combat campus disruptions next year, spokesmen for the National Conference on Revolution reported at the end of a five-day conference.

Ed Butler, the conference chairman, added Friday that counter-revolutionary tactics are necessary to prevent the nation's campuses from becoming strongholds for anarchy.

★ ★ ★

One of the 75 delegates at the conference said campus "squares"—as the delegates call themselves—now have the machinery to motivate the silent majority to strike back at the Students for a Democratic Society this fall.

A series of workshops during the five days dealt with self defense, propaganda and organization of counter-protests. Leaders were optimistic that these practices will gain wide support at universities

DEAF MUTE PILOT — Ron Haberman (right), 25-year-old deaf mute, and his flight instructor, Jim Slay, look over flash cards used in teaching Haberman to fly. After 19 hours of instruction, Haberman soloed for the first time in Wichita, Kan., recently.

1 Man Killed, 1 Wounded in Latin Protests

BUENOS AIRES (AP) — A former leader of the Argentine Journalists Union was killed Friday night and a policeman was wounded during demonstrations protesting Gov. Nelson A. Rockefeller's planned visit to Argentina Sunday.

The dead man was Emilio Mariano Jauregui, 26, who was taking part in a demonstration sponsored by the antigovernment faction of the General Confederation of Labor. A government spokesman said Jauregui fired first, and a policeman shot him in self defense.

★ ★ ★

Jauregui was ousted from his labor union post two years ago by President Juan Carlos Ongania's military regime, which claimed he was a Communist.

A policeman was shot in the neck during another incident before demonstrations in several Argentine cities tapered off about midnight.

WAVE OF BOMBINGS

A wave of bombings hit a number of U.S.-owned companies Friday, including the Rosario branches of First National City Bank of New York and the Bank of Boston and 14 of 17 supermarkets owned by the Rockefeller-founded International Basic Economy Corp.

The New York governor is scheduled to fly to the Dominican Republic Tuesday during his Latin American fact-finding trip for President Nixon, and the government already has tightened security there. Armed Forces Secretary Enrique Perez says army street patrols have been doubled, and opposition sources claimed the government has been rounding up militants to prevent violence.

About 300 striking metal workers holed up in the Cathedral of Santo Domingo have added an "Out with Rockefeller" clause to their strike demands.

People in the News

By The Associated Press

Ron Haberman, a deaf mute, soloed recently at Wichita, Kan., after taking 19 hours of flight instruction using flash cards.

The Federal Aviation Administration says Haberman, 25, is one of about 20 deaf mutes in the United States certified as a private pilot.

"He took a while longer than most, due to his handicap," his instructor said, "but he can fly well."

Heart Surgeon, Associate Quit Baylor Faculty

Heart surgeon Dr. Denton A. Cooley and his associate Dr. Grady L. Hallman have quit the faculty of the Baylor College of Medicine—an act which apparently frees them from any Baylor restrictions on their medical experiments.

They announced last night in Houston, Tex., they will accept unsalaried clinical positions on the Baylor staff and will lecture parttime and supervise interns and resident physicians.

Their statement made no mention of the controversy over Dr. Cooley's use of a mechanical heart in an April operation. He has performed 20 human heart transplants at St. Luke's Episcopal Hospital.

Joan Baez Says Husband Eying Prison Strike

Folksinger Joan Baez says her husband may try to organize a work strike among inmates when he goes to prison as a draft resister.

"He wants to see what he can do in jail," Miss Baez told a news conference yesterday in Hollywood. "He doesn't know what to expect, so he's preparing himself for the worst."

Her husband, David Harris, 23, an antiwar protester and former Stanford University student body president, lost an appeal this month of his 1968 conviction for refusing to be inducted into the military. Federal officials say Harris will probably be ordered arrested in about 10 days to begin the three-year sentence.

Miss Baez, who expects a baby in December, said of her husband, "I hope by some miracle he stays out of solitary long enough to find out whether it's a boy or a girl."

Prince Charles will be installed as the Prince of Wales at Caernarvon Castle (background, right) Tuesday, claiming the crest of the Prince of Wales (right foreground). The investiture ceremonies will be telecast, live via satellite, during the morning on Channels 2, 4 and 7.

Charles to Become Prince of Wales

Investiture Will Crown Week's Viewing

The investiture of Britain's Prince Charles as the Prince of Wales crowns this week's best viewing on television.

The conferring of the title upon the 20-year-old heir to the British throne will be telecast live via satellite from Caernarvon Castle. Programming begins at 7 a.m. (Pontiac time) on Channels 2, 4 and 7 and continues most of the morning. Channel 9 will pick up programming at 11:30.

The event promises the most interesting bit of royal pageantry via television since the coronation of Queen Elizabeth II. This will be the first investiture of a Prince of Wales since 1911 when the present Duke of Windsor was installed.

FOOTBALL BACK

Football season returns to the tube this week with the Coaches All-America Game at Atlanta tonight at 7:30 on Channel 7. Joe Paterno, coach at Penn State, directs the East squad and Pepper Rodgers of the University of Kansas directs the West.

Also today, the Men's National AAU Track and Field Championships are telecast from Miami at 4 p.m. on Channel 7. Tomorrow, the U.S. Women's Open Golf Championships at Pensacola, Fla., air at 3:30 p.m. on Channel 7.

Don Ho will star in a Music Hall look at the Fourth of July in Hawaii, first of a series of five shows from the islands, Wednesday at 9 p.m. on Channel 4.

Musical shows worthy of special note include "Sounds of Summer" presenting the Memphis Birthday Blues Festival Sunday at 7 p.m. on Channel 56, Don Ho in the first of five programs from the Hawaiian Islands Wednesday at 9 p.m. on Channel 4, and Maurice Chevalier singing songs that made him successful Tuesday at 7 p.m. on Channel 9.

The International Freedom Festival in Detroit and Windsor will command 2½ hours of time Tuesday beginning at 9 a.m. on Channel 9.

The Cover

The Saint, played by Roger Moore, is shown on the cover of The Pontiac Press TV Schedule this week with three of his feminine acquaintances. The program is shown Sundays at 11:30 p.m. on Channel 4.

DR. ROGER O. EGEBERG

Nixon Reveals HEW Nominee

NEW YORK (AP) — President Nixon announced today that he will appoint Dr. Roger O. Egeberg, dean of the University of Southern California Medical School, to the nation's top health post.

The announcement came a day after Secretary of Health, Education and Welfare Robert H. Finch gave up trying to get the job for Dr. John H. Knowles.

The announcement was made in New York by White House press secretary Ronald L. Ziegler, who said Finch has no intention of resigning, despite his defeat in the fight with the American Medical Association and Senate Minority Leader Everett M. Dirksen of Illinois.

The Detroit Free Press reported in a dispatch from Washington today that Finch would resign within a month.

RETURN TO POLITICS

Citing "top Republican congressional sources," the newspaper article by William Vance, said Finch, angry and bitterly disappointed over President Nixon's refusal to appoint Knowles, will return to California and reenter politics.

Finch denied Thursday a report he had threatened to quit, but the "congressional sources" said their information came directly from the White House, the Free Press said.

Finch yesterday abandoned a five-month fight for the appointment of Dr. Knowles as his chief lieutenant for health affairs. Knowles, 45, is director of Massachusetts General Hospital.

Capitol Blueprints Dumped by House

LANSING (UPI) — Current plans for a new $55-$75-million state capitol were dumped by the House yesterday when a Detroit Democrat charged "Something was rotten in the state of Michigan" in connection with a firm which has worked on the plans.

Rep. Jack Faxon read to the House contents of a letter he sent to Atty. Gen. Frank J. Kelley calling for an investigation of allegations that the Detroit architectural firm of Smyth, Hinchman and Grylls Associates Inc. had given favors to state officials in return for the state building contracts.

"It has come to my attention that the architectural firm that performs most of the state's architectural work has paid for the cost of a trip around the world for building director A. N. Languis who is influential in selecting this firm as the state's principal architect," he said.

Languis took the trip with Sigmund Blum, design director for the firm, in 1967. Among their stops were Lisbon, Rome, Tokyo and Hong Kong. The architectural firm was reimbursed $4,500 by the state later.

SEWN UP FROM BEGINNING

Faxon also said Languis' son, Thomas, is a registered architect who has worked for Smyth, Hinchman and Grylls since 1964.

"This firm has had the capitol sewn up from beginning to end," said Faxon.

"Why is everyone so afraid to open a project of this size to competitive bidding? Why are we so committed to this firm? How many of us know how much money this firm will get for the new Capitol?" he asked.

Following Faxon's lengthy speech, members voted 70-27 for an amendment which struck out a $4-million appropriation for proceeding with plans as drawn up by Smyth, Hinchman and Grylls.

NATIONWIDE COMPETITION

In place of the deletion, the House added a provision calling for nationwide competition in designs for the Capitol. The designs would be screened by a special committee and then presented to the Legislature for final approval of one.

Coming to the defense of the firm, Appropriations Chairman William R. Copeland, D-Wyandotte, said "It is a terrible thing to try to ruin a man's reputation in public."

★ ★ ★

"We all knew he (Languis) went on this trip. There's nothing being hidden here. This thing is all open and above board," he added.

PGH Staff Presses for Answer on Firing

Pontiac General Hospital employes will appeal again to the City Commission for an explanation of the firing of the hospital's top administrator.

An estimated 25 hospital department heads decided yesterday to seek a spot on the commission agenda Tuesday concerning the surprise dismissal of Harold B. Euler, according to acting Administrator Robert DeCleene.

★ ★ ★

Commissioners joined the conspiracy of silence on the firing after meeting with hospital trustees Wednesday in a closed-door meeting at city hall.

The city officials didn't direct the trustees to disclose the charges against Euler as requested in a hospital employe petition presented to commissioners by DeCleene Tuesday. The petition has now been signed by about 625 employes.

NEW PETITIONS

New Petition sheets — worded the same as the ones circulated before last Tuesday — started going around the hospital yesterday for new signatures.

A joint statement issued by both commissioners and trustees said the firing "was not intended to impugne the integrity or honesty of Mr. Euler whatsoever."

★ ★ ★

"We're (department heads) not satisfied with that answer," DeCleene commented yesterday. "We want the petition put on the commission agenda."

DeCleene, 50, moved up from hospital controller to acting associate administrator to acting administrator in 1½ weeks. But he has announced that he will only stay at the hospital until "things are stabilized."

Tentative State Budget Ups Spending by $175 Million

LANSING (UPI) — The House and Senate have finished a tentative budget of $1,536,280,000 for the fiscal year starting Tuesday, an increase of $175.1 million, or 15 per cent, over current spending.

But conservatives, led by Chairman Charles O. Zollar of the powerful Senate Appropriations Committee, said today they expect to pare several million dollars from the vast blueprint before it becomes a final burden upon Michigan taxpayers.

★ ★ ★

"It's going to be rough," said Zollar, R-Benton Harbor, "But we're not through trying to save money."

The budget bills, cleared in both chambers yesterday before the weekend recess, now go to a joint conference committee for negotiations between conservatives, liberals and those in between.

SENATE RESOLUTION

There is no way, however, that the new budget can go into effect by midnight Monday — when state government formally moves from one bookkeeping year to the next. A resolution passed in the Senate permits state agencies to maintain their current operations until the 1969 — 70 appropriations are final.

The new budget, weighted, heavily in favor of education and welfare programs, exceeds Gov. William G. Milliken's recommendation by $25.6 million. Coupled with federal funds and restricted state monies, it would zoom over-all state expenditures to $3.5 billion annually.

★ ★ ★

It is balanced, at least on paper, and it contains one of the smallest fiscal year-to-fiscal year rise in expenditures in modern Michigan history.

But Zollar and others promptly labeled it misleading because it does not provide funds for supplemental spending, which has averaged between $20 million and $40 million annually in recent years.

DEFICIT PREDICTED

"Unless there is a substantial increase in revenue collections and or a new tax source, I contemplate we will be in a deficit spending situation within the new fiscal year," Zollar declared.

Income Tax OK'd by Illinois Senate

SPRINGFIELD, Ill. (AP) — The Illinois Senate has approved an income tax asked by Gov. Richard B. Ogilvie and voted to embark the state on a $2-billion highway program.

The 35-to-21 vote of the Senate last night, sending the income tax bill to the House, marked the first time in more than 30 years the state has turned its back on the sales tax and other levies as a major emergency revenue source.

★ ★ ★

The Senate approved a 1½-cent-a-gallon increase in gasoline taxes and boosts in automobile and truck license fees to help retire the $2 billion in bonds to be issued for highways. The House must ratify the levies.

The income tax bill, facing final action in the House, calls for 2½ per cent on individuals and 4 per cent on corporations.

Mansfield: ABM Backers Ahead

WASHINGTON (AP) — Advocates of the Safeguard antimissile system have the upper hand for the moment, says Senate Majority Leader Mike Mansfield while project funds have been approved in a major move in the controversy.

The Senate Armed Services Committee approved the full $794 million asked by President Nixon for Safeguard. The vote yesterday on the ABM portion of the omnibus military hardware bill was 10-7.

Last night Mansfield estimated that Safeguard now has 49 supporters in the Senate and 47 votes against. A week ago, the Montana senator, an ABM opponent, felt opposition senators had the edge.

"But what it will be in the showdown, is anybody's guess," Mansfield said.

AT LEAST 4 UNDECIDED

At least four senators remain undecided, he said. "There is sufficient wavering that the time between now and the vote will decide what happens."

Floor debate is due sometime soon after the Independence Day recess on the administration plan to deploy the system at Minuteman sites on the northern plains.

The committee has traditionally voted solidly for most major military projects in the past. This vote was seen by veteran observers as one of the closest in nearly two decades.

Weather Is Fair in Moderation

Fair skies and more moderate temperatures were the dividends for most people after stormy weather disappeared from the state today.

Yesterday's storm plunged temperatures in downtown Pontiac 18 degrees in 15 minutes. Residents reported hail as large as quarters fell in the Chippewa Street area.

★ ★ ★

The U.S. Weather Bureau promises a pleasant weekend. Here is the day-by-day official report:

TODAY — Mostly sunny, pleasant, and less humid, high 78 to 84. Fair and a little cooler tonight, the low 55 to 60.

Winds southwest to west at 8 to 18 miles per hour becoming variable under 10 miles per hour tonight.

★ ★ ★

TOMORROW — Mostly fair and warm becoming cloudy late in afternoon, the high mostly in the lower 80s.

MONDAY — Warmer with showers or thundershowers likely.

Sixty-seven was the low temperature before 8 a.m. in downtown Pontiac. The mercury had climed to 84 by 12:30 p.m.

More Violence Strikes Kokomo

By the Associated Press

Violence flared for a second straight night last night in a predominantly Negro neighborhood in Kokomo, Ind., where an earlier cross burning resulted in the arrest of 11 white persons.

In Omaha, Neb., incidents of violence subsided after three nights of racial turmoil, bringing an outward calm to much of the Negro Community.

See Picture, Page A-2

A curfew remained in effect yesterday in Cairo, Ill., where racial problems flared anew Thursday, but no new incidents or arrests were reported.

Kokomo Mayor John Miller ordered a 10:30 p.m.-to-dawn curfew and about 200 state police riot troopers aided city police in patrolling the area.

PATROL CARS HIT

Lt. Dave Levendowski, state police information officer, said several patrol cars were hit by sniper fire but no injuries were reported.

Police said 14 persons were arrested including four white men they said were found armed, sitting on a rooftop just outside the trouble area.

In Omaha, police chased reports of gunfire until early today, but there was no further looting and burning of the sort that caused nearly $1 million damage in the past three days.

★ ★ ★

The unrest followed the fatal shooting of 14-year-old Vivian Strong, a Negro, by a white patrolman.

The [illegible]duced friction yesterday followed by [illegible]rs the plea of James Strong, 41, [illegible] girl's father, who said, "I wish people would please just stop it. All this trouble doesn't help at all."

Bandit Affected by Cash Squeeze

LOS ANGELES (UPI) — Bandits who robbed the Crocker Citizens National Bank of $5,000 yesterday found little old ladies can be tough, especially about money.

The three bandits, two of them armed with pistols and one with a double-barrelled shotgun, forced customers and employes to lie on the floor while they emptied three tellers' cages.

★ ★ ★

As they left, one of the bandits noticed an elderly woman clutching $25 in her hand and tried to steal that, also.

But she held on, and the tug-of-war ended when the bills ripped in half.

The three fled in a vehicle driven by an accomplice.

NOT SO HOT NOW — Yesterday's downpour flooded the streets of Pontiac, offering some respite from the 90-degree heat — especially for the kids. As the sun came out again, Zeal Hamilton Jr. of 61 Lull, 13, showed the joys of wading in your own front yard to his little brother, Gregory, 4, and his niece, Tracy Hamilton, 3.

For Suburban Users

Water, Sewer Rates to Rise

Suburban customers of the Detroit water and sewer systems can expect an increased rate — as high as one-third more — some time within the next year.

Officials of the Detroit Water Board said the suburban users along with Detroit city users would be asked to bear the expense of improved sewage treatment.

★ ★ ★

"We don't know what the costs will be yet," the spokesman said, but he indicated they could increase rates a third.

Another increase faced by Detroit customers will not be passed onto suburban users, however.

FIGHTING CHARGE

Detroit Common Council has recently decreed that rates be increased to cover $105 million in bonded indebtedness on storm sewers.

Gerald Remus, chairman of the Detroit Water Board, contends the charge is not equitable and he is fighting it.

★ ★ ★

"In any event those costs cannot be passed on to suburban customers," Remus painted out.

Astromonk's 30-Day Flight Starts Tonight

CAPE KENNEDY, Fla. (AP) — A 14-pound pigtail monkey named Bonny is to rocket into orbit tonight to start the longest space flight ever taken by a living creature.

Scientists hope the "astromonk" will help set guidelines for future manned missions in space stations and planetary voyages that could last months or years.

★ ★ ★

Bonny, a 3-year-old male from the jungles of Thailand, is to ride into space atop a Delta rocket at 10:10 p.m. EST. He is to orbit for 30 days, strapped in a couch in his flying biological laboratory.

His arms will be free to push buttons in two behavioral tests designed to determine if his memory capacity deteriorates after long exposure to the space environment, primarily in weightlessness. He will receive food pellets as a reward for good performance.

APPOLLO REHEARSAL

Delicate instruments implanted in the brain, heart and other vital body areas will radio data continuously to earth. Extensive post-flight study will be made after the primate capsule parachutes back to earth at completion of the mission.

In another Cape Kennedy area, the countdown rehearsal continued for the Apollo 11 moon-landing flight. The seven-day test is to end next Thursday with astronauts Neil A. Armstrong, Edwin E. Aldrin Jr. and Michael Collins climbing into their spaceship atop the Saturn 5 rocket for a mock blast-off.

★ ★ ★

A successful test would clear the way for the planned July 16 lift-off.

The three astronauts worked in spaceship trainers here Friday and then flew elsewhere for specialized training today.

Armstrong and Collins are at the Manned Spacecraft Center, Houston, Tex., Aldrin is at Langley Air Force Base, Va., practicing on a device which simulates the moon's one-sixth gravity field.

'1ST MAN' DISPUTE

In another development Friday, astronaut Donald K. Slayton, director of flight crew operations denied a report from a former space agency official that Armstrong had pulled rank to have a chance at being the first man to step on the moon.

Paul Haney, who until recently was public affairs officer at the Manned Spacecraft Center, said in an interview that he believed Armstrong "exercised his prerogative as commander" to bump Aldrin from first to second place.

★ ★ ★

The present plan calls for Armstrong to step on the moon's surface at 1:17 a.m. EST July 21, with Aldrin to follow 27 minutes later. Haney said Aldrin originally had been set to make the first step on the moon.

Birmingham

New Officers Elected by Rotary Club

BIRMINGHAM—Robert A. Bogan Jr., executive director of the Community House, has been elected president of the Birmingham Rotary Club for the 1969-70 year, effective Tuesday.

Other new officers are Larry Sherman, vice president; William Allan, secretary; and James F. Moore, treasurer.

The Unitarian Church of Birmingham will open a coffeehouse at the church, 651 N. Woodward, beginning July 12.

The Rev. Robert Marshall, pastor, said the coffeehouse will be "a hangout for tired radicals, lovely liberals and all concerned people looking for good conversation."

Billed as the Prometheus, the coffeehouse will be aimed at the adult group. Teen-agers are welcome.

BLOOMFIELD TOWNSHIP — Gordon F. Goyette of 7099 Springridge has been named director of public relations at Parke, Davis & Co.

He joined Parke, Davis in 1949 as a sales representative for the firm's Detroit branch after three years in retail pharmacy.

Goyette was promoted to field manager in 1954.

He has been assistant director of advertising and public relations since 1966.

John F. Malone of 6077 Gilbert Lake has been re-elected president of Certified Audit of Circulations Inc.

Malone is advertising manager, Pontiac Motor Division at General Motors.

★ ★ ★

John D. L'Hote of 3218 Woodside Court has been reelected chairman of the board of trustees of the Michigan College of Osteopathic Medicine in Pontiac.

John J. Nevin of 291 Waddington has been appointed chairman of chapter campaigns for the 1969 Torch Drive.

Nevin is vice president for marketing at Ford Motor Co.

★ ★ ★

He will be responsible for seven chapter units which annually raise more than 90 per cent of the Torch Drive total.

The units include automotive and suppliers, major commerce, general manufacturing, building and transportation, professions, schools and government and the metropolitan unit which includes community businesses throughout the tricounty area.

WAITING FOR TROUBLE — More than a dozen Indiana State Police cars sit on the Howard County Courthouse square early today after a second night of disturbances in a predominately Negro neighborhood in Kokomo. The state police at the courthouse were part of a reserve group ready to go to trouble spots, while other state and city police patrolled the area.

Gasoline Price Cuts May Be Felt in Area

DETROIT (AP)—Detroit area drivers may be in for a savings on gasoline following Standard Oil Co.'s move yesterday to combat competitive cut-rate gas stations.

Standard announced that it will decrease its price to stations by 3.5 cents and have asked the dealers to reduce the selling price by 5 cents, down to 31.9 cents a gallon plus state tax.

★ ★ ★

If the request is followed it could lead to a price war among stations in the area.

The change, which went into effect yesterday afternoon, was initiated because "maverick" dealers with major companies have been selling gasoline at bargain prices.

'CUSTOMER LOSS'

They have forced other dealers into a "slow but steady loss of customers with an accompanying reduction in sales and earnings over the past several months," the oil company announced from its regional headquarters in Chicago.

Some dealers may oppose the move, however. "I just found out about this thing," one dealer said. "I may drop my price 3.5 cents, but not 5 cents."

★ ★ ★

He said he would confer with other owners before acting. But he also thought there would be a price war.

Detroit is the only area affected by the price cut.

Staff Presses to Get Firing Explanation

(Continued From Page One)

Euler fired Associate Administrator Donald H. Carros and the trustees dismissed Euler in what they said was "in the best interests of the hospital."

It is the consensus of high-level hospital administrators that trustees' displeasure with Euler gradually built up to the climax — the firing of Carros.

Euler said he is still mystified about the reason he was fired.

"I can't think of any previous trouble to the Carros incident," Euler explained. "My relationship ran in the same vein with the board for 11 years."

OBJECTS TO 'RUTHLESS' MANNER

Euler has objected to the "ruthless" manner in which he was fired. He was given no explanation or chance to defend himself.

But he said he gave Carros time to look for a new job. Euler said he had a problem with Carros for the last year and they held many conferences to discuss the difficulty.

★ ★ ★

In the meantime, Euler's lawyer is waiting for charges to be leveled against his client to determine any court action.

Razor Buried for Centennial

All week long Rochester's barbers wore black armbands. They hung black crepe paper in their shops.

They were in mourning for the razor, which last night was laid to rest in a solemn "Burying of the Razor" ritual, a part of the city's centennial celebration.

The Brothers of the Brush and the Centennial Belles took part in the procession down University and Main to Rochester Junction where a coffin containing a symbolic oversized razor was laid to rest.

Mayor Roy Rewold proclaimed, "The razor is dead the Brothers of the Brush are free."

Scores of Rochester men are sprouting beards. Last night's ceremony formalized their hairy efforts.

Mayor Rewold, beardless until last night — has pledged to begin a growth of his own.

M24 Crash Kills 2 Near Lapeer

Two persons died early this morning in a two-car crash at Newark and M24, three miles South of Lapeer.

Pronounced dead at the scene by a Lapeer County medical examiner were Theresa G. Putnam, 29, of Caro and Vincent Suchorski, 53, of Mayville. The collision occurred at 5:10 a.m.

★ ★ ★

Michigan State Police said the Putnam car was headed westbound on Newark when it hit the Suchorski car broadside. Police said Suchorski's car was southbound on M24.

THE CURRAGH, Ireland (AP) — Prince Regent won the eighth running of the Irish Sweeps derby today. Ribofilio, owned by Charles Englehard of Short Hills, N.J., was second.

Skyjacker Is Tagged by Baggage Mix-Up

LOS ANGELES (AP) — Federal officials have identified a 31-year-old cabdriver with a political science degree as the man who hijacked a jetliner to Havana Wednesday. A baggage handling error provided the clue.

U.S. Atty. Matt Byrne said yesterday a complaint will be issued against John G. Marques of West Los Angeles.

MARQUES

A hijack held the first officer and a stewardess of a United Airlines flight at gunpoint, forcing the pilot to fly to Cuba 13 minutes after the plane was airborne from International Airport here for New York.

Byrne said baggage handlers failed to load Marques' luggage on the flight he took and sent it to New York on another plane. The Federal Bureau of Investigation picked it up in New York.

UCLA DEGREE

Federal spokesman said Marques received a bachelor's degree in political science from the University of California at Los Angeles and later enrolled in a master's degree program in African studies.

Marques was last enrolled in the university in 1967, officials said then dropped out to work as a parking attendant and driver.

★ ★ ★

University spokesmen said Marques was an above average student.

Police records identify him as an American Indian, and employment records show him as divorced with one child.

A spokesman for the Yellow Cab Co. in suburban Santa Monica said Marques last reported to work Sunday. He had been employed with them since May 1.

EMOTIONAL ON POLITICS

John Felz, 23, of Hermosa Beach, who attended classes with Marques, described him as "always involved in civil rights work . . . very nice, but very emotional about politics."

Byrne said Marques' bail will be set at $100,000 if he is arrested. Sky piracy is punishable by death.

Nixon Planning Romania Visit

NEW YORK (AP) — President Nixon announced today he is going to be the first U.S. chief executive to visit a Communist country — Romania.

Press secretary Ronald Ziegler said Romania invited the chief executive to come, and he will do so early in August, following a circuit of five Southeast Asian capitals.

★ ★ ★

The visit to Romania was at the invitation of the president of the nation's State Council, Nikolai Ceausesu.

The Soviet Union was not advised in advance of the impending presidential visit to a nation it regards as parts of its sphere of influence, officials said.

'NOT ANTI-SOVIET'

"We feel under no obligation," one high U.S. authority said, "to check with the Soviet Union in making negotiations with sovereign countries."

This authority also said: "We are not visiting Romania as an anti-Soviet gesture. We are essentially interested in peace in our times. Romania has indicated a great interest in this."

★ ★ ★

It appeared that the impending trip to Romania might herald visits to similar nations. A White House expert said there have been other invitations from Eastern European countries.

PRESIDENT LANDS IN NY — President Richard M. Nixon walks from his helicopter at the Wall Street heliport yesterday after a plane flight from Montreal where he met with Canadian Prime Minister Pierre Elliott Trudeau for ceremonies commemorating the 10th anniversary of the St. Lawrence Seaway. Nixon was en route to a dental appointment in midtown Manhattan.

Nixon Eyes Pacific Apollo Trip

NEW YORK (UPI)—President Nixon is expected to travel to the Pacific for the splash-down of America's moon-landing Apollo 11 astronauts July 24. The trip may be extended to include a possible meeting with government leaders from nations fighting with the United States in Vietnam.

An announcement from the traveling White House press headquarters may be made today.

★ ★ ★

Press Secretary Ronald Ziegler confirmed yesterday the President was considering a Pacific visit but said he had no information on details. Any expanded trip, he said, "is contingent on a decision about going to the splash-down."

Other sources said there was a chance the Apollo landing trip would be extended to include a visit to some Pacific allies. This could mean a meeting with the heads of allied governments fighting in Vietnam. These include Australia, New Zealand, Thailand, the Philippines and South Korea.

DESIRE EXPRESSED

Nixon of ten has expressed his desire to witness one of the nation's moon shots. The Apollo 11 flight, scheduled to make astronal Neil A. Armstrong and Edwin E. Aldrin the first men on the moon, seemed an appropriate time.

Nixon referred to the forthcoming moon-landing shot, scheduled to blast off July 16, in remarks at the Place de Nations in Montreal yesterday.

He said that while the first man on the moon would be an American, "He will come from all the world."

The President was joined by Canadian Prime Minister Pierre Elliott Trudeau at the international border atop the Robert Moses-Robert H. Saunders power dam near Massena, N.Y., for ceremonies commemorating the 10th anniversary of the seaway.

The two first met at the International Friendship Monument, the site where 10 years earlier to the day, Nixon, as vice president, had jointly opened the seaway with Queen Elizabeth II of Britain.

Nixon and Trudeau traveled to the flag-bedecked Dwight D. Eisenhower Lock on the U.S. side for brief commemorative ceremonies and then flew by helicopter to Montreal for a similar ceremony on the Canadian side.

Land-Reform Doubts in Peru

Expropriation Plan Raising Questions

By JOE McGOWAN JR.

LIMA, Peru (AP) — No one disputes the need for land reform in Peru, but some observers doubt that the plan announced by the revolutionary government will work.

Although Peru is an agricultural nation, only about 1.5 per cent of its land area was being cultivated, according to estimates in 1960, and the nation was spending 20 per cent of its import dollar to buy food grown outside Peru.

* * *

For some time the government has prohibited the sale of beef one day a week to save on foreign exchange and encourage consumption of fish.

Ninety-four per cent of the agricultural labor force works to produce food, yet the 6 per cent employed on the big mechanized haciendas along the coast produce six times as much per worker growing sugar and cotton for export.

News Analysis

BLAME FOR IMBALANCE

Agricultural experts blame the imbalance on unequal land distribution, lack of technology among the food crop farmers and poor access to markets.

But attempts to rectify the imbalance and improve the lot of food crop farmers have failed for more than 20 years. With its sweeping land reform law published Wednesday, President Juan Velasco's military regime is trying to carry out some ideas that failed before.

* * *

The new law limits private ownership of farmland to 36 acres along the coast and 360 acres in the remote Amazon jungle region. Land expropriated by the government will be paid for partially in cash and partially in 20- and 30-year government bonds.

A draft law sent to Peru's Congress in 1960 would have limited farms to 600 acres on the coast and 2,500 in the mountains and provided for payment in 20-year bonds. Congress never acted on the measure.

DID LITTLE

Ex-President Fernando Belaunde Terry had a detailed plan for agrarian reform when he took office in 1963, but he did little more than expropriate 195,000 acres for Indian peasants who had forcibly occupied private lands. Belaunde was toppled by Velasco's military junta last Oct. 3.

Some observers in Peru and abroad contend the generals' move was ill-timed. They point out that Peru is in serious economic trouble—short of foreign exchange, in need of refinancing the foreign debt and looking for foreign investment to develop the nation's abundant mineral resources.

* * *

Foreign investors have been staying away, however, watching how Peru solves its problem with Washington over expropriation of a U.S.-owned oil firm and waiting to see if other takeovers follow.

Observers say the land reform expropriations, which will affect a number of foreign-owned haciendas, will further shake confidence in Peru's investment climate.

DECREASE FEARED

Others contend that reducing or eliminating the influence of the more efficient farm owners will result in a decrease in the nation's agricultural production, at least in the immediate future. They question whether the government should have attempted the reform in one swoop, adding that Fidel Castro's supposed reform in Cuba has not shown results in 10 years.

Even if the new land reform law is effective, Peruvian agriculture still will be troubled by antiquated methods used by the Indians who have never been integrated into Peruvian society and by a lack of roads to haul farm products from the Amazonian interior to the populous coastal region.

4-H Courses Set

EAST LANSING (AP) — More than 3,000 Michigan youths will be among 5,000 4-H Club members from across the nation attending citizenship courses at Washington, D.C. this summer. The Michigan 4-H Club members will attend the eight weeklong courses starting June 29.

Hats will tell the tale at the Girl Scout "Reach Out" program, scheduled for June 29-July 12. Members of each of the 66 participating patrols have made their own hats which will serve as their "trademark." 500 Girls Assemble

Scouts to "Reach Out" at Camp

Reaching out to their fellow man, their environment, their world and their leadership opportunities is the work of 500 over high school Girl Scouts, who are participating in the "Reach Out" program.

This nationally recognized senior Girl Scout event at Camp Innisfree, Pinckney, starts Sunday and runs through July 12. The site, owned by Girl Scouts of Metropolitan Detroit, includes 1,000 acres of irregular hills, dense woods intermingled with lakes, meadows and marshes.

"Reach Out" which has been three years in the planning, began with the results of a questionnaire given to Senior Girl Scouts.

It was the girls' unanimous belief that there should be an activity in a camp setting which would help them develop new and creative ways for planning meaningful service projects at home.

* * *

A girl advisory committee was established a year and a half ago to work with the original adult board. Most of the work is done by the girls themselves while the adults take care of the "mechanics."

"Reach Out" participants were chosen from the six sponsoring Councils of Otsikita, Fair Winds, Metropolitan Detroit, Huron Valley and Northern and Southern Oakland County. In addition, there will be 40 girls from other regions of the United States and 40 Canadian Girl Guides.

The girls have been divided into two camps of 33 patrols in each, for living convenience. Each patrol includes at least one girl from each of the interest groups.

FOUR FIELDS OF INTEREST

With the guidance of specialists, the girls will have the opportunity to study, discuss, have workshops, take field trips and explore in depth one of the four fields of interest; fellow man, environs, world and leadership.

Many hours of hard work have been and will be demanded. Prior to their departure, the girls researched the service needs in their communities.

Upon their return, they will apply their newly-acquired knowledge through projects and will continue to meet with their interest groups at regular intervals.

* * *

Fun activities, however, are also scheduled. Skits and musical presentations by the Girl Scouts of Southern Oakland Council will introduce the four fields of major interest.

An international ballet will highlight the world friendship phase.

Other events are "Dominion Day" with a special Canadian flag ceremony and an ecumenical church service. Acting Lt. Gov. Thomas Schweigert of Petoskey will be guest speaker.

The Fourth of July celebration will be old-fashioned. Explorer scouts will join the girls for a picnic and fireworks.

WITH SCOUTS 14 YEARS

Mrs. Rene Charbonneau of Detroit, director, heads the staff of 90. Mrs. Rex Kelley of Lake Orion is head of Camp B. Involved in scouting for 14 years, Mrs. Kelley is also second vice-president of the Northern Oakland County Council.

Florence Iwami of Honolulu, Ha., who has been a guest of the Kelleys will serve as a troop adviser. Florence, a representative of the Pacific Council, has attended three of the National Girl Scout Round-ups. She was on the staff of the first Round-up at Highland Recreation Area in 1956.

Their Popularity Will Fade if Something Isn't Done

By ABIGAIL VAN BUREN

DEAR ABBY: How do you tell someone (a relative) that it's time she and her husband gave a party? When this couple moved to town three years ago, they didn't know a soul. We introduced them to all of our friends, and now our friends are their friends, too.

They are attractive, charming people and well-liked by all who know them, so they are very popular, but if they don't hurry up and start inviting some of these people back, they won't be popular much longer.

Since we did sponsor them, we feel somewhat responsible for their social sins of omission. What do we do? I can hardly hold my head up.

NO TOWN, PLEASE

DEAR NO: It's not necessary to stick your neck out in order to hold your head up. If you "like" this couple and are seriously concerned about their threatened loss of popularity as well as the reflection on yourselves, tell the lady in a nice way that if she's planning to entertain, you'll be glad to help her. If she doesn't get the drift, well, you've done your part.

* * *

DEAR ABBY: In a few weeks I am going to become an American citizen. What is the correct thing to do on this occasion? Do you send out announcements or invitations to the ceremony? It is open to the public, but does this mean family only?

Should I have cards printed? It is such a big event for me I want to do something, but I don't know what. Can you help me?

FUTURE CITIZEN

DEAR CITIZEN: Why not have a private party and invite those with whom you'd like to celebrate the occasion? Printed cards are not necessary. A telephone call or a little note will do. Congratulations.

* * *

DEAR ABBY: My husband and I have enjoyed your column very much. I have never written to anyone for advice before, but now I feel I should.

First let me explain that we have been happily married for 27 years, have three wonderful children and five grandchildren, so we are not kids.

* * *

Now, the problem: I would just love to sleep on satin sheets, and now I see that they are for sale and I want to buy some, but my husband says that no man would sleep on satin sheets! We have decided to let you decide whether I should buy them or not.

"YES OR NO"

DEAR YES: Buy one set! If your man sleeps on them with no complaints, buy more.

* * *

DEAR ABBY: I am a girl of 17 who needs some advice badly. My boyfriend is a very nice guy, but he asks me questions which are none of his business.

He says if I don't tell him what he wants to know it means I don't love him or trust him. He also says that no matter what I tell him about myself, he won't hold it against me.

We've been going together for a year, and this is the only thing we ever fight about.

He insists that the past should be forgotten, yet he keeps nagging me to tell him everything about mine. I never ask him any questions about his.

What should I do, Abby? I really love him, and I don't want to lose him.

IN A CRUNCH

DEAR IN: Tell your inquisitive boyfriend that he is absolutely right — the past should be forgotten, and if he persists in questioning you, it means he doesn't love or trust YOU.

DEAR ABBY: I am heartbroken. All the plans for our daughter's wedding have been made. The church, the hall, the caterer. Just yesterday I gave the printer the go-ahead on the wedding invitations.

Our daughter, who has been in Texas for a few weeks visiting her fiance, called us last night to tell us she's pregnant! Now we can't have that lovely wedding we planned because they want a hurry-up little ceremony with just a few close friends.

What should I tell the minister! The caterer? Our friends? HER MOM

DEAR MOM: Tell the caterer you won't be needing him. Tell your minister you'll be needing him sooner than you had expected. And it won't be necessary to tell your friends anything.

DEAR ABBY: How my husband has put up with me for 23 years I'll never know. All these years I thought I had married an over-sexed man, but now I have to admit there was nothing wrong with him. It was me. I'm frigid.

If mothers would only teach their daughters how to be loving wives it would do them more good than learning how to cook and keep the house. All these years I have kept a spotless home, and earned a reputation for being a fine cook. I even served, and took care of our garden, but what my husband needed was ME, and I foolishly turned my back on him. We are of moderate means, but we have never had words about money, sex yes, but money no.

I know it's not easy to all of a sudden realize that sex between man and wife is clean and beautiful and right, after having it drummed into your head that it is dirty and sinful and wrong.

Print this. It may help a younger woman.

DEAR ABBY: Mind if I get personal? Have you ever smoked? And if you have, how long ago did you quit, and why?

"NOSY IN FORT WORTH

DEAR NOSY: I have never smoked. I refrained when young to please my parents, and continue to abstain to please myself.

I am a switchboard operator for the Telephone Company. When I answered a call this morning there was no response on the other end of the line. After I had said, "Good morning, this is the Telephone Company" for the third time, I heard a somewhat embarrassed little female voice ask, "Is this REALLY the Telephone Company?"

I assured her that it was, and asked her to whom she wanted to speak.

She replied, "Nobody, I guess. I just found this number in my husband's coat pocket."

Competing in the Detroit Horse Show is a privilege in itself, but to ride away with a coveted rosette is truly a thrill. Assistant secretary of this year's event, Mrs. Charles Hohmeier, of Franklin, planned for a bevy of winners. Ribbons, trophies and cash prizes are awarded in most classes at the show which will end on Sunday.

She Wins Success, Loses Hair

Top Model Starts 'Skull Look'

NEW YORK (AP) — Naomi Sims, the 21-year-old Negro model who made famous the skull look, reached the top when she was losing her hair.

"The doctor said some people develop ulcers, perhaps your hair doesn't grow," explained Miss Sims, who found she was eating less and worrying more as she launched a modeling career.

"I was starving myself," she said. "I wanted high cheek bones. But I simply can't get them."

* * *

She gave up on high cheek bones and slicked her hair down close to her head, attached hairpieces and thus created her now famous skull look.

She started eating again and gained 20 pounds which went unnoticed on her 5 foot 10 inch frame. She now weighs 135 pounds, and her hair is growing back.

HAD FAITH

The daughter of a Pittsburgh maintenance worker said she never had any doubts she could succeed in the fashion world.

"It was the most natural thing," she said. "People have told me I was pretty since I was a little girl. When I was 14, I said I wanted to do a cover of Vogue. I had a fascination with cosmetics. I wasn't allowed to wear them but I'd try them on at home."

* * *

In June 1967, she came to New York to study design on a scholarship at the Fashion Institute of Technology.

She inquired about the possibility of earing extra money and was introduced to a friend of a friend of a photographer. On her first assignment, she made the cover of The New York Times magazine.

After that she was flooded with requests. She signed with an agency and dropped out of school. Almost immediately she comannded $60-an-hour fees.

The first week she worked every day. Then for 10 weeks she didn't work at all.

"I was so worried but then I did a television commercial," she said. "Now I don't worry. I know always there is something around the corner."

Around the corner was her selection as the first Negro model to appear on the cover of a major women's magazine, Ladies Home Journal; the first to do color pages in Vogue, and a trip to Europe for Time magazine.

Miss Sims said she has experienced prejudice few times in her life. "There is a point where beauty surpasses prejudice," she said.

In fact, she said she is hard pressed for an answer when asked what is the worst thing that ever happened to her.

Smiling brightly, she exprssed gratitude to an airline for providing her with an answer. They lost her luggage containing her 30 hairpieces.

OU Coed Chosen as Cherry Queen

TRAVERSE CITY (UPI) — Barbara Ann Beckett, a hometown girl in the heart of Michigan's cherry-producing belt was crowned National Cherry Queen Friday night after being selected from among 17 Michigan beauties.

The 5-foot-5 brown-eyed lovely was in tears when she received the crown from the 1968 National Cherry Queen, Julie Anne Hamilton of Cedarville. The 1969 National Cherry Queen is 21 and will be graduated from Oakland University in Rochester this December.

* * *

First runnerup honors went to Sheri Lynn Crampton, 17, Miss Roscommon County, while Linda Elizabeth Stankwitz, 18, Miss Mount Pleasant, was chosen as second runnerup in the annual pageant.

The girls themselves chose Ann Haglund, 18, the Danish Festival Queen from Greenville as Miss Congeniality.

* * *

As a respresentative of the cherry industry, the new 1969 National Cherry Queen can expect to log more than 11,000 miles in the coming year, including the Michigan Week tour of the nation when she will be accompanied by other queens boasting of Michigan's agricultural bounty.

PROPOSED AMENDMENT TO CHARTER TOWNSHIP OF WATERFORD DISORDERLY PERSONS ORDINANCE No. 62

The Charter Township of Waterford ordains the following amendments to Ordinance No. 62, known as "Disorderly Persons Ordinance", to wit:

1. That Section IV of said Ordinance No. 62 is hereby amended to add new sections (36), (37), (38), (39), (40), and (41) to be included in said Ordinance and to read as follows:

(36) Purchase or knowingly possess or transport any alcoholic beverage or knowingly possess, transport, or have under his control in any motor vehicle any alcoholic beverage unless said person shall have attained the age of twenty-one years (21) or unless said person is employed by a licensee under Act No. 8 of the Public Acts of 1933, as amended, and is possessing, transporting, or having such alcoholic beverage in a motor vehicle under his control during the course of working hours and in the course of his employment.

(37) Sell any alcoholic beverage to any person who shall not have attained the age of twenty-one (21) years. A suitable sign, describing the provisions of this Section and warning violators thereof, shall be posted in a conspicuous place in each room where any alcoholic beverages are sold. Said sign shall be approved and furnished by the State Liquor Control Commission. In any criminal prosecution for the violation of this Section proof that the defendant licensee or his agent or employee demanded and was shown, before furnishing any alcoholic beverage to a minor, a motor vehicle operator's license or a registration certificate issued by the Federal Selective Service or other bona fide documentary evidence of majority and identity of such person, may be offered as evidence in a defense to such prosecutions;

(38) Permit any minor child under seventeen (17) years of age to remain in a dance hall, saloon, barroom, or any place where any spirituous or intoxicating liquor, or any wine or beer, or any beverage, liquor, or liquors, containing any spirituous or intoxicating liquor, beer or malt liquor is sold, given away or furnished for a beverage, unless such minor is accompanied by a parent or a guardian. Any proprietor, keeper, or manager of any such place who shall permit such minor child to remain therein shall be deemed guilty of a misdemeanor;

(39) Knowingly give or furnish any alcoholic beverage to a minor except upon authority of and pursuant to a prescription of a duly licensed physician;

(40) Falsely representing himself to be twenty-one (21) years of age or over or any person under the age of twenty-one (21) years, for the purpose of purchasing or attempting to purchase any alcoholic beverage;

(41) Giving false information regarding the age of another person under twenty-one (21) years of age for the purpose of procuring the sale of an intoxicating beverage to said other person or the furnishing of false documentary evidence to a person under twenty-one (21) years of age who uses the evidence to procure an intoxicating beverage.

This Amendment shall become effective upon publication. By order of the Charter Township of Waterford.

O'Brien Hits Levin on Stadium Issue

A former state senator from Pontiac, County Supervisor Carl O'Brien, has criticized Democratic Sen. Sander M. Levin of Berkley for his support and endorsement of a proposal to locate a new sports stadium in the city of Detroit.

* * *

O'Brien contends the logical location for such a stadium is in the Pontiac area off I-75 expressway. He predicts that because of highway access, economic potential, parking and land availability, the stadium will be built in Oakland County.

* * *

He further noted that the time is now to marshal all the community's resources and talents into the gigantic task of providing the center here. The cost of the stadium, to seat 160,000 people, is estimated at $65 million.

House OKs Amendment on Sex Ed

LANSING (AP)— Elementary and secondary schoolteachers would receive new rules and guidelines for teaching sex in their classrooms this fall if the Michigan Legislature agrees on a House proposal.

An amendment added Friday to the $38.58-million Education Department appropriation would direct establishment of state rules and guidelines by Aug. 15, or require school districts to suspend sex education until given further approval by the State Board of Education.

* * * *

Adopted by a 71-21 House vote, the proposal faces Senate review along with some $2.85 million in additional funds for state college scholarships and support of adult, community education projects in public schools.

Republican Reps. James Smith of Davison, Loren D. Anderson of Waterford Township and William Hampton of Bloomfield Hills proposed the change in Michigan's year-old statute authorizing districts to set up their own sex education programs.

EARLIER RESOLUTION

Anderson and Hampton earlier introduced a resolution, approved by both chambers, calling for review of the content and presentation of courses in hygiene, family relationships and personal sexual behavior.

The resolution would not necessarily affect local school districts, since it does not have the force of law.

Enactment of the amendment, however, would be law.

The State Board of Education was expected to consider preliminary guidelines at its July meeting.

"Sex education has gone off in 100 different directions," said Hampton. "I'm not against teaching sex, I'm not even trying to tell schools what they have to teach."

Recount Fails to Break Tie in Brandon Vote

A tie vote that defeated a $3,675,000 building bond proposal in the Brandon School District June 9 remained unchanged following a recount yesterday.

The recount, petitioned by the Brandon Board of Education, was conducted by the Oakland County Election Board.

Election officials said that one ballot sheet had been marked "no" and then was changed to "yes." "Since there are no provisions for erasures on paper ballots, we had to consider the original intent of the voter," a spokesman for the election board said.

A similar situation was discovered on a vote which was changed from "yes" to "no."

Both ballots were thrown out, which left the election result with an identical 409-409 final tally.

School officials said they will not appeal the recount. The board of education is expected to place the bond issue proposition back on the ballot in about six months.

The proposal would have provided funds for a new high school and renovations and additions to existing elementary buildings.

Action on Clothes Payments to ADC Mothers Is Delayed

Whether cash allotments will be paid to mothers receiving ADC (Aid to Dependent Children) benefits to supplement clothing needs now supplied through the county's smergency clothing store will have ot await a further "fact-gathering" effort by the county supervisors' human resources committee.

* * *

The decision to temporarily delay action was made yesterday by the committee after hearing reports from James Hunt, director of juvenile affairs forthe County Probate Court, and Miss Ora Hinckley, director of social services for the county.

* * *

Miss Hinckley and Hunt presented reoports supporting the county's lone emergency clothi G store operation, located at 1 Lafayette in Pontiac.

Miss Hinckley pointed out in her report to the committee that two counites, Wayne and Washtenaw, presently are issuing supplemental cash allotments to AD Cclients for clothing, $60 and $70 per child. respectively.

PETITION COUNTY

ADC mothers have petitioned the county for extra clothing allotments to be paid in biannual cash installments of$60 per child. A welfare family with 10 children, under the proposal, would receive $1,2000 a year as a cash clot ing allotment in addition to the clothing supplied from the county emergency clothing store each year.

* * *

Supervisor Lee Walker, D-Madison Heights of the human resources committee gained support for his motion that a "fact-gathering" project be launched to check into the practices followed in other counties and the experiences relating to ADC clothing allotments in these counties.

Mentioned in the motion for specific reports wre the counties of Wayne, Monroe, Washtenaw, Genesee, Kent and Muskegon.

* * *

Robert F. Patnales, R-Royal Oak, Chairman of the human resources committee, emphasized that seeking informat On from other counties on their policies and experiences in clothing welfare families would be a "fact-gathering" endeavor rather than a "study" which would consume a lengthy period of time.

* * *

He expressed the hope the committee would be in a position to author a recommendation to the board of supervisors on the cash clothing allotment question next month.

Hut reported foster mothers who are caring for wards of the Probate Court have been "complimentary" in their response to inquireies from his office regarding theis use of the emergency clothing store.

'BETTER VALUES'

He pointed out the mothers expressed the belief "better values" in clothing wrre available at the county store where purchases are made at a 10 per cent discount and without any sales tax charges by jobbers work ng for the county.

* * *

The styles and fashions of the clothig purchased, Hunt maintains, has "generally satisfied" all of the foster parents as well es the children in their care. He added that none of the 163 foster homes in the county had sought cash allotments for clothing for their wards.

* * *

Miss Hickley informedt e human resources committee in her report yesterday that her department has already spent $108,000 for clothigg for its welfare clients for the period of Jan. 1 to June 1 this year.

* * *

In all of 1968, Miss Hinckley reported the County Social Servi es Department spent $122,424 on welfare clothing. She said this year's expenditure in this area could reach a total of $200,000.

* * *

Any action taken by the board of supervisors to provide supplemental cash allitments for clothing welvare families this year will be over and above the expected $200,000 expenditure. The funds would have to be derived from local sources, since the county is not eligible for reimbursement from the state or federal government on direct relief for welfare clients.

CHARLEVOIX — Two of the "premier" matches of the Michigan Amateur Championship are slated today, after a few mild surprises in the opening two rounds of match play yesterday.

One of the top duels sends 1967 champion Bill Newcomb of Ann Arbor, Golf coach at the University of Michigan, against Pete Jackson, ex-GAM champion from Oakland Hills.

Another choice match, finds 27 year old Pete Green of Orchard Lake facing 21 year old John Grace of Grosse Pointe. This could be a revenge match for Grace.

Both Newcomb and Jackson came up with sub par rounds in disposing of their second round foes.

Bill Curtis of Farmington was one under for the day in taking two matches. Ditto for Green, while former champion Melvin (Bud) Stevens of Livonia and Bud Badger of Birmingham were hovering near par.

* * *

Pete Jackson, whose brother Mike was ousted in a lower bracket match by Dick Drager Jr., of Roseville, was four under par in his afternoon 5 and 4 decision over 18 year old Larry Roy of Detroit.

"No, I wasn't putting well but I was really hitting my irons well," said the 30 year old Jackson who teamed with Dave Cameron a short while back in winning the Pine Lake Invitational.

After going two up with a 35 on the front side Jackson birdied 10, 11, and 13 and then closed the match by halving No. 14, during the same span Roy a student at Detroit Business College was only one over.

"That was hard going out there," said Green referring to the soggy front nine holes that take the seams out of the legs.

"I'm playing real well," offered Green who was a first round victim last year. "The putts aren't what I'll like, but I'm driving real good . . . knock on wood."

1967 GAM CHAMP

Green the 1967 Golf Association of Michigan champion ousted Roger Bonahoom of Grosse Pointe Farms in the morning 3 and 2 and ousted Jim Kornecki of Birmingham by the same margin in the afternoon. Green beat Grace 3 and 2 in the finals of the 1967 GAM championship.

Pontiac's Tom Balliet (44) a general foreman at Pontiac Motors rallied in his morning round to down Bob Rymar of Grand Rapids 2 up, but he fell victim to the hot shooting Grace who was three under par in winning, 7 and 6.

"Man I'm tired," said Newcomb who managed a 1-up in 19 holes win over Bob Zimmerman of Jackson in the morning and then an easy 5 and 4 decision over Rick Becker of Kalamazoo in the afternoon.

Badger wno survived a 20-man playoff to get into the match play part of the tournament whipped Fred Muller of Grand Rapids 1 up and Ron Sroka 4 and 3. Badger faced 1959 runner up Gene Hunt this morning.

TWO ROUNDS

Survivors play two rounds today with the semifinals and finals on tap tomorrow.

Curtis 36, was playing super golf but not scoring partcularly well. Runner up in the 1962 tournament, Curtis whipped Jim of Grosse Pointe in the afternoon 4 and 2.

I finally made a birdie putt said Curtis managing a smile.

After his afternoon round he missed several short putts on the front side that would have put the match out of reach early and for the tournament, Curtis is two under par, he faced Oakland University graduate Oscar Carlson this morning.

In a mild surprise Carlson ousted Eastern Michigan University's Jim St. Germain 3 and 1.

Stevens who has won the championship three times — 1959, 1963 and 1965 — squeezed past Tom Russell of Livonia in the morning and breezed to a 5 and 3 verdict over Rayme Martine of Berkely in the afternoon 5 and 3.

John Law of Birmingham moved up with a 2 and 1 nod over Terry Noble of Roseville and Paul Haase of Detroit 3 and 2. Haase earlier in the day surprised ex-champion Tom Draper 6 and 4.

* * *

Five time winner Glenn Johnson whose last title came in 1961 stopped Tom Pyciak of Jackson in the morning round 4 and 2 but lost to Fred Behymer of Lansing in the after noon 2 and 1.

Mike Fedewa, 19 year old Western Michigan University junior turned in a mild surprise when he topped tourney medalist Andy Andrews of Jackson 1 up on the 19th hole.

Fedewa came back in the afternoon for a 1 up decision over Ralph Ellstrom of Dearborn and faced the formdable Stevens this morning.

Magic Number Count for Tigers Going in Reverse

Prize Horse Is Stricken, Dies at Hunt Club Show

A prize horse competing at the Bloomfield Open Hunt Horse Show, was taken to Lansing for an autopsy following his sudden death Thursday evening.

Rubezh, a Russian-bred mount owned by the Centaur Farm Stables, West Bloomfield, had fallen and rolled over in Wednesday's competition while completing a round of jumping.

Thursday evening, he was in a cold sweat and was scratched from the junior jumping match. He died at approximately 8:30 p.m.

His manager, Tony Pratt, said he had been concerned because Rubezh had lost some 100 pounds in the last two to three weeks, but a blood test revealed no anemia and did not appear to be weak the night he fell.

* * *

Pratt said the 10-year-old horse also was off his feed, but added that it was normal for him not to eat his feed while beginning a show.

No definite clues were available as to the cause of death, but Dr. "Jersey" Loewith, veterinarian of the mouth and white mucous could suggest internal injuries.

After the autopsy in Lansing, Rubezh will be cremated.

FROM ENGLAND

He was bought by his present owners in 1967 from Robert Hall in England, and has been at the Detroit Horse Show in 1967-69.

Rubezh was the state Junior or Jumper champion last year and has won the state dressage championship on the third and fourth levels.

* * *

He was ridden by Katie Monahan, 13, of Orchard Lake who last week at the Grosse Pointe Show, beat Kathy Kusner, one of the countries most prominent young women riders.

Rubezh has also been intermediate Jumper champion and has won ribbons in two other classes.

He has performed well in shows all around the midwest, competing in some 30 to 40 in the last 2½ years, including Chargrin Valley, Ohio, Cincinnati, Detroit, Grosse Pointe, Jackson, and Oak Brook, Illinois.

McLain to Try to Stop Orioles After 4-1 Loss

BALTIMORE (AP)— The Detroit Tigers may be the first third-place team in history to have a magic number.

"I said we'd have to win at least six out of eight from the Orioles in our next two series," Tiger Manager Mayo Smith said after the Detroiters lost to league-leading Baltimore 4-1 Friday night.

"Now it's six out of seven. If we don't though, we'll just keep playing," he added. "What the hell. Strange things happen in this game. If you don't think you can come back, you may as well take off your uniform and never put it on again. But, we've got to get good pitching."

Making the effort to provide good pitching today was Denny McLain (11-5) to be followed by Mickey Lolich and possibly Earl Wilson, who was pounded Friday night, in the Sunday twin bill.

THROWING HIGH

"Wilson was high tonight," said Smith after the Friday game. "That's what got him into trouble, especially in the second inning."

The second inning was the frame in which the high-flying Birds picked up their last two runs on a one-out Don Buford double and Paul Blair's 17th homer.

* * *

Frank Robinson and Boog Powell followed with a single and a double, but Smith pulled Wilson at that point and reliever Tom Timmerman got the Bengals out of the jam.

Baltimore scored its first two runs in the opening frame on a walk to Blair, a hit batter, a Powell single scoring one run and a Dave Johnson double.

Detroit got its sole run in the third on a Jim Northrup singleo to right, a Bill Freehan blast off the left field wall that went for two bases, pushing Northrup to third and a sacrifice fly by pinchhitter Don Wert.

ROLLS AWAY

Meanwhile, umbeaten Dave McNally was too much for the Tigers all the rest of the way, notching his 11th win of the season with the five-hitter.

The win set a Baltimore club record of 13 straight victories over a two-season span for McNally and dropped the Tigers 12½ games behind.

Smith said at least one of the Baltimore runs shouldn't have scored. He said Johnson's runscoring double should have been fielded by third-baseman Ike Brown and noted that Buford's double preceding Blair's homer was lost in the lights by Willie Horton.

* * *

"When you're going good, that's how things happen," Smith said. "That's the way they went for us last season."

Smith also disclosed that veteran outfielder Al Kaline, who has lost six pounds recently, will be rested Saturday after the Friday night game and will also sit out one of Sunday's pair.

"We don't want him exhausted," the Detroiter said. "He has a good appetite, and we don't know why he has lost weight."

McLain was to be opposed in today's game by Marcelino Lopez, 3-1.

OUT AT HOME — Baltimore Orioles Frank Robinson slides home and is tagged out on a throw from third baseman Ike Brown to Detroit Tigers' catcher Bill Freehan in their game in Baltimore last night. The Tigers lost another game in the AL pennant race in the 4-1 setback and are now 12½ behind the leading Orioles.

Qualifying Halted, Hydroplanes Ready

DETROIT (AP) — A second day of unfavorable winds closed the Detroit River to speedboat racing Friday and forced a halt to qualifying runs for Sunday's Gold Cup hydroplane race.

* * *

With eleven potential competitors in the race, the owners and drivers met to draw lots to arrange three heats, two fourboat heats and a three-boat heat.

"We have to assume that all eleven boats here will run," Lee Schoenith, Unlimited Racing Committee chairman, said.

BREAK FIELD

"That forced us to break up the field into three heats."

If one of the boats can't make the race, he said, then they'll probably redraw the lots for two five-boat heats.

QUALIFYING HALTED

Two boats yet to run qualifying heats this year will have a go at it Sunday morning, possibly holding up the planned start of the first heat shortly after noon.

"Delaying the race would be better than leaving a boat on shore," Schoenith said.

* * *

In all, seven heats are held in the race for the cup. All boats go in the first three heats, then drivers redraw to determine positions for the next three heats. The final heat matches the five highest scorers from the first six heats.

In each race, 400 points go to the first place boat, 300 to second, 225 to third, and 169 to fourth. In the final heat, the fifth place finisher gets 127 points.

County Wrestler Keeps Winning in National Meet

Special to The Pontiac Press

WORLAND, Wyo. — Roger Duty, the outstanding Wrestler of 1968-69 in Oakland County, from Royal Oak continued his winning ways in the national junior championships to advance in the Greco-Roman matches here Friday.

* * *

Duty defeated Bryant Smith of Berkley on a pin in 4:20 for his third victory in the 154 pound division.

Marty Chovinard of Lansing is also in contention in this division.

Meanwhile, Roger West of South Haven was eliminated in the 178 pound division by Bill Bragg of Fort Morgan, Colo.

Governor's Handicap Feature at Hazel Park

HAZEL PARK (AP) — Campion Kid, who won a record $45,512 as a three-year-old at Hazel Park Race Track, makes his first start of the year today in the $12,500 added Governor's Handicap.

A highly regarded sprinter, Maize 'n Blue, is entered in today's $15,000 Mount Clemens Handicap at Hazel Park. He has won almost $30,000 in eight starts this year.

Another Hydro in Boat Lineup

DETROIT (UPI) — Hot, windy weather Thursday made the Detroit River choppy but didn't prevent Pride of Pay-N-Pak from becoming the fifth hydroplane to qualify for Sunday's $25,000 World Championship race.

Dave Heerensperger's craft cut through the three-mile course with the relatively slow time of 103.846 miles per hour but that was quite good considering the conditions. No other boat attempted to qualify.

Pride of Pay-N-Pak joined Notre Dame as the daily winner of $500 for the top qualifier. Notre Dame hit 120.535 Wednesday, only three-tenths of a second off the course record.

The latest entry in the powerboat field is of a new so-called "outrigger" design being run for the first time this season.

Gonzales vs. Ashe Key Tennis Match

WIMBLEDON, England (AP) — Pancho Gonzales, aiming to be Wimbledon champion at 41, faced Arthur Ashe today in the last critical match of his weary week of tennis.

If he gets over that hurdle, old Pancho — a gray-haired grandfather — can look forward to some days of rest between the remaining rounds.

When Gonzales defeated Tom Edlefsen of Berkeley, Calif., 6-4, 6-3, 6-3 Friday to reach the last 16, it was his fourth straight day of strenuous singles play.

Normally the players are given a free day between each round of the men's singles. But the opening day was washed out by rain, and Gonzales then ran into the longest match in Wimbledon history—the fantastic 112-game marathon against Charlie Pasarell which sarted Tuesday and ran through most of Wednesday afternoon. So he has had to keep ging day after day.

"I've been going to bed early, and practising gently for an hour each morning before coming to Wimbledon," the veteran from Los Angeles said. "I won't deny I've been tired—especially after the match against Pasarell—but I've got my second wind now."

Gonzales is free of doubles play. He and his partner, Jim McManus of Berkeley, Calif., were knocked out in the first round.

Today's winners will move into the quarter-finals. The rest of the men's singles events will be nicely spaced out—the quarter-finals on Monday, the semifinals Wednesday and the final next Friday.

Gonzales, seeded No. 12, is favored by many experts to beat Ashe, the fifth seed.
