

Operation Slated

AP Wirephoto

ALASKA GOVERNOR CRITICAL — Alaska's Gov. William A. Egan, shown here as he was lifted from an airplane to an ambulance, was reported "extremely critical." An emergency operation was scheduled to relieve what was described as paralysis of his bowels.

Alaska Governor 'Critical'; Plan Emergency Surgery

SEATTLE, Wash. (P)—Alaska's Gov. William A. Egan was reported in "extremely critical" condition today and an emergency operation was scheduled to relieve what surgeons said was complete paralysis of his bowels.

Egan, the first elected governor of the 49th state, was flown here Monday afternoon after failing to recover satisfactorily from a gall bladder operation in Juneau, Alaska, Jan. 6.

News Flash

WASHINGTON (P)—Senate Democratic leader Lyndon B. Johnson of Texas took the surprise action today of introducing bills for a four-point civil rights program.

Getting the jump on the Eisenhower administration, Johnson told the Senate he believes his bills will be a step toward the ultimate solution of the divisive civil rights issue.

He said it is an issue that is not going to go away nor one that is going to be solved by force.

More Snow Tonight; Colder Days Ahead

More snow is forecast for Pontiac and the vicinity.

The U.S. Weather Bureau said snow would begin falling late this evening and continue tonight and tomorrow. Tonight's low will be near 22 degrees; tomorrow's high, 30.

The bureau said yesterday's heavy snowfall precedes a new cold front heading for the state. Temperatures for the next five days are expected to range from 10 to 15 degrees below the normal high of 34 and normal low of 18.

The cold front will bring an abrupt halt to the heavy snow. Flurries throughout the week will amount to less than a half-inch.

The lowest recorded temperature in downtown Pontiac preceding 8 a.m. was 10 degrees. The mercury read 27 at 2 p.m.

Ike Declares War on Inflation in Economy Message to Congress

Adoption Code Proposal Hits 'Baby Buying'

Judge Moore Has Plan for Legislation to Force Court Supervision

Oakland County Probate Judge Arthur E. Moore has introduced proposed changes in Michigan child adoption code aimed at doing away with what he calls "baby buying."

He said he has hopes that State Sen. L. Harvey Lodge and the county's representatives might back his proposal during the current session of the Legislature.

Judge Moore said he drafted the suggested amendments to the state's 1947 adoption code after he uncovered a case where parents sold a newly born child for \$200 to a couple unknown to them.

"The licensing statute, the placement statute, the monetary payment law and the adoption code were entirely disregarded and flouted, either through ignorance or worse," he said.

Under his proposal, probate courts of the state would shoulder the responsibility from the time parents file an "adoption release" of a child to when the child becomes the legal ward of the new parents.

The physical and mental health, emotional stability and personal integrity of the prospective new parents, and their ability to promote the welfare of the child, would be mandatory under Moore's suggestion. An investigation would center on these points and a report would be submitted to the judge or agency handling the adoption.

If the probate judge then was satisfied with what the investigator finds, he would set a hearing or order temporary approval of such an adoption.

The child could then be placed in the custody of the prospective

SONG FEST, AMERICAN STYLE — With prize-winning Van Cliburn at the keys, Soviet Deputy Premier Anastas I. Mikoyan joins with Russian Embassy officials in an old fashioned

sing. The Texas pianist came late to the Red reception, and Mikoyan hustled him to the piano at once.

Walkout Ends in Argentina

Workers Ordered Back to Jobs as Frondizi Flies to Washington

BUENOS AIRES, Argentina (P)—The government's order drafting transport workers into the army appeared today to have broken the backbone of a nationwide strike against President Arturo Frondizi's austerity program.

Buses and trolley cars began rolling in Buenos Aires again as disgruntled drivers, motormen and many other strikers ambled back to work under the eye of security forces armed with machine guns.

Railway and subway workers already were under mobilization orders from a previous strike and these systems were operating normally.

The government, in a pre-dawn order, had threatened to court-martial Buenos Aires transport strikers who did not get back on the job.

The nationwide walkout started yesterday under the leadership of Peronista and Communist unions.

In the U.S., President Arturo Frondizi of Argentina arrived in Washington for a state visit.

He flew in from an overnight stop in Charleston, S.C., aboard President Eisenhower's personal plane Columbine III, landing at the Military Air Transport Terminal at 11:55 a.m.

Eisenhower and Secretary of State Dulles were on hand for a red carpet welcoming ceremony for Frondizi, his wife and a 12-member official party.

Russian Heads Home, 'Glad for Welcome'

WASHINGTON (P)—Soviet Deputy Premier Anastas I. Mikoyan left for Moscow today to report to Premier Nikita Khrushchev on his talks with President Eisenhower and other top U.S. officials.

Before boarding a train for New York, where he will take a plane this afternoon, Mikoyan said to reporters: "Please convey to the population of Washington and to all the people I met in the United States my gratitude for their very warm welcome and hospitality and their desire for peace and friendship with the Soviet Union."

And when I arrive in my country I will convey to high people all the best wishes and the desire for peace of the American people."

Mikoyan had a private car on a train which left Washington at 9:47 a.m. EST. The car was directly behind the engine.

He boarded it during a steady rain which came with the first warm day since he arrived here 17 days ago.

Mikoyan is due in Moscow tomorrow after an overnight transatlantic flight.

The Soviet official conferred with Eisenhower last Saturday and spent last Friday in a series of meetings with Secretary Dulles. Their talks failed to make any progress toward solution of the U.S.-Soviet dispute over Berlin and the future of divided Germany.

Yesterday he got nowhere with moves for elimination of what he calls U.S. barriers against trade

7-Room House Vanishes While Owner Is Gone

DETROIT (P)—A woman called the Detroit Housing Commission and demanded:

"What happened? I had a seven-room house and now all I've got is a vacant lot."

Inquiries disclosed that a wrecking crew with a bulldozer had gone one house too far in the demolition of blighted factory property in the Milwaukee Junction area. No one was in the house.

"This is awful — we'll make it right," said the head of the private firm which has a contract to raze the area.

Call Harrelson, Kierdorf in Trial

Two Are Subpoenaed for Testimony in Flint Arson Case

Leaun Harrelson, president of Pontiac Teamsters Local 614 and Herman Kierdorf, uncle of human torch victim Frank Kierdorf, have been subpoenaed to appear at the trial of Flint Teamster business agent Jack D. Thompson.

Thompson, 41, is charged with arson in the Aug. 3 fire of a Burton Township dry cleaning outlet near Flint. Police believe Frank Kierdorf received his fatal burns in this fire.

Harrelson, once Pontiac's representative in Lansing, was quizzed several times in connection with the case, made more mysterious because Kierdorf was left off at St. Joseph Mercy Hospital two hours after the fire.

Investigators at one time believed Harrelson had met Thompson and Kierdorf at a Bloomfield Township truck stop and helped in transferring the critically burned Kierdorf to the hospital. Harrelson has denied any part in the scheme.

Police further theorized that Harrelson was only trying to "set up an alibi" when he appeared at the Pontiac police station shortly afterwards saying his daughter-in-law had asked him to look for his son Leaun Jr.

The elder Kierdorf, of Madison Heights, disappeared for 13 days after visiting his nephew at the hospital. He had sworn revenge for the burning.

Kierdorf, 68, was sentenced to Jackson Prison for 1 to 5 years in November for possession of a pistol without license which he turned over to a neighbor when he learned he was to testify before the Senate Rackets Committee. His sentence has been stayed, pending an appeal to the Supreme Court.

Thompson, a fellow business agent of Frank Kierdorf at Flint Local 332, awaits trial after standing mute on the arson charge yesterday. No definite date has been set.

Foresees Record Income for '59, Asks Discipline

Turns to Lawmakers for Balanced Budget as 1st Step

From Our News Wires
WASHINGTON — President Eisenhower today called for a declaration of war against inflation.

In his annual economic message to Congress today, the President:

1. Forecast record national output and income in 1959.

2. Called for national self-discipline to avoid inflation and government controls.

3. Told Congress a budget balance is "the most important step."

4. Gave assurance that tax relief is "foreseeable."

The President warned that U.S. economic health is jeopardized by an upward spiral of wages and prices that continued even during the recession.

He appealed to Congress, consumers, businessmen and especially to labor leaders to join in a "relentless war" against this creeping inflation.

He said that labor leaders, because of the "great power lodged in their hands," have a "particularly critical role to play" in stabilizing living costs and protecting the value of the dollar.

Urging them to exercise "self-discipline and restraint" in contract demands, the President said that wage boosts which are not justified by increased productivity are "inevitably inflationary."

"They impose severe hardships on those whose incomes are not enlarged," he said. "They endanger jobs by limiting markets at home and impairing our capacity to compete in markets abroad. In short, they are, in the end, self-defeating."

Eisenhower called on businessmen to "redouble their efforts" to keep production costs down. In setting prices, he said, business should always keep in mind the economies that can be achieved (Continued on Page 2, Col. 4)

Attack Philosophy of Tax Committee Majority Report

By E. C. HAYHOW

(Publisher The Hillsdale Daily News)

The State of Michigan faces a deficit estimated at \$100 million by the end of the fiscal year, June 30.

This makes more taxes inevitable.

As a blueprint for additional taxes, the Legislature has the recommendations of a Citizens' Tax Advisory Committee which spent 18 months studying tax matters.

★ ★ ★

The recommendations are in the form of two reports.

One signed by 18 members of the committee, is known as the "Majority Report."

The other, signed by two members, is known as the "Gillespie-Hayhow dissent" or the "Minority Report."

I am one of the dissenters. The other is Tyrone Gillespie of Midland.

★ ★ ★

Our objections to the majority report are largely based on the philosophy which permeates them.

We are unutterably opposed to the philosophy that a relatively small group of individuals should carry the major tax load while thousands escaped untouched.

This is confiscating wealth, earnings and income.

This is pure Socialism, with a close kinship to Marxism.

We are as vigorously opposed to the philosophy that the power to levy and collect taxes should be shifted from the local level to the state level.

This is Statism, super-government, or whatever else you choose to call it.

It is incompatible with the traditional American principle of keeping government and its taxing powers as close as possible to the governed.

★ ★ ★

The socialistic philosophy of the Majority Report is glaringly evident in its recommendation of a graduated income tax; in the ridiculous \$9 sales tax rebate feature, and in its treatment of death taxes.

The graduated income tax of the majority is inequitable and vicious... inequitable in that it exempts thousands of individuals with incomes from any tax responsibility, vicious in its treatment of the middle income group.

If the majority proposal is adopted, the great bulk of taxation will fall on those with incomes over \$6,000 and on corporate business.

★ ★ ★

Government services are provided for people, and it is people who demand services. To eliminate thousands from any material participation in, and responsibility for, the

payment of services encourages political irresponsibility, as all of man's recorded history clearly demonstrates.

★ ★ ★

Obviously a bold-faced bid for support of the entire majority package, the \$9 sales tax rebate gimmick would free further thousands from paying any tax and would add tremendously to administrative costs. This recommendation should be laughed out of the Legislature.

Adoption of the majority's estate tax proposal would force wealth (investment capital) to flee to other states. Many would find it too expensive to die in Michigan. And Michigan's already gloomy business climate would be further clouded.

★ ★ ★

In the area of Statism, or super-government, the majority would eliminate the personal property tax, except for inventories, and replace the revenue loss to local units of government with state aid.

This is a dangerous threat to local autonomy. It accelerates a trend which has more than doubled state aid in the last 10 years.

It repudiates the valid assumption that local taxation will best determine what people need and can afford. The

voice of the people is heard more clearly as we approach them more closely.

Subject to the same objection is the sales tax rebate. It would cost between \$63 million and \$72 million (depending on population), a share of which is earmarked for the schools.

The schools are understandably suspicious of state promises after what has happened this year. Most school districts will be forced to borrow money to avoid closing before the school year ends, due to failure of the state to make good on its aid pledges.

★ ★ ★

The purpose of the tax study committee was fourfold:

1. To simplify the state tax structure.
2. To make it more equitable.
3. To improve the industrial and business tax climate to avoid losing industry to other states.
4. To raise sufficient additional revenue to erase the state's deficit and provide for necessary additional services.

★ ★ ★

In the view of the minority, the committee failed in every area except one... that of raising additional money.

It will be a sad day for Michigan if the Legislature adopts the Majority Report.

Truth Is Shrouded in Mystery

How Lethal Can Germ Warfare Be?

America's military leaders have warned repeatedly that the Soviet Union might resort to germ warfare. In the United States, prepared to defend itself.

By ROGER GREENE

WASHINGTON (AP) — Could a few ounces of lethal germ crystals wipe out the population of New York City — even annihilate all life on the North American Continent?

Could plague germs spread by an enemy touch off a nationwide epidemic?

Could enemy planes or submarines destroy this country's crops and livestock, reducing the land to starvation?

The truth about gas and germ warfare is shrouded in secrecy and mystery.

A written question was submitted to the Pentagon asking if we have enough biological warfare weapons now to combat the enemy if they used them first. After 25 days came back the reply: "The Chemical Corps has a capability in biological warfare."

In such an atmosphere of secrecy, it is little wonder that the most lurid distortions and conflicting statements about germ warfare go virtually unchallenged.

Item — Dr. Brock Chisholm, director-general of the United Nations World Health Organization, says scientists have discovered a substance so deadly that seven

ounces would be enough to kill all the people in the world.

COULDN'T KILL EVERYONE

Item — Army pamphlet No. 8-12 entitled "What You Should Know About Biological Warfare": "No kind of biological warfare could kill or sicken every person in a large area or city. Talk of one ounce — of toxic material — killing millions is silly."

Item — The British Medical Journal says two or three drops of nerve gas on the skin will kill within 30 minutes; one drop in the eye or a tiny amount inhaled as vapor kills in a few minutes.

Item — Chemical Warfare Service

handbook, issued by the Army Chemical Center at Edgewood Arsenal, Md.: "A single droplet of nerve gas in a person's eye could kill him."

Item — Col. D. G. Brothaus, commanding officer at the Army's Rocky Mountain Arsenal where nerve gas is manufactured: "Nerve gas does not have the super-powerful attributes that some writers would have you believe. One drop on the skin will not kill in 30 seconds, and one quart jar will not kill every living thing in a cubic mile."

Item — Military experts engaged in the Army's 1955 "Exercise Sagebrush" mock warfare maneuvers in Louisiana said a cloud of concentrated nerve gas could kill men at a distance of 50 miles from the point of release within 15 minutes.

Item — Dr. Selman A. Waksman, famed co-discoverer of streptomycin, director of Rutgers University Institute of Microbiology: "Maybe if you stood directly under a germ-bomb explosion with your mouth open or had some skin cuts, there would be an infection."

What then, are you supposed to believe in all this welter of conflicting statements?

Tight official silence has created a virtual blackout on authoritative information. Yet the Pentagon, in response to written questions submitted by a reporter, allowed the following sentence to remain among heavily censored answers:

"The Chemical Corps is anxious to put the true facts before the public so that the nature of chemical and biological warfare can be viewed in its proper perspective."

Maj. Gen. William M. Cressy, former Chemical Corps chief, had chafed at the bonds of secrecy imposed on him. Before resigning to enter private business last Sept. 1, he publicly urged:

"We must strip all mystery from these munitions so that our understanding of their nature will not be clouded. The job of education will not be completed until the public knows as much about the realities of Chemical-Biological-Radiological (C-B-R) warfare and defenses against it, as it does about atomic warfare."

Last May the North Atlantic Treaty Organization warned in an official report: "The Russians are capable of waging biological (germ) and chemical warfare on a large scale."

But the United States' policy on the use of these fearful weapons is top secret, says the Pentagon. One high Pentagon official puts it bluntly: "We're scared to death even to mention germ warfare."

OK TAKES 7 WEEKS

One nation who presumably should have the answers is Maj. Gen. Marshall Stubbs, chief of the Army Chemical Corps.

It took seven weeks for the Pentagon to approve a newspaper's interview with Gen. Stubbs. The event turned out to be little more than a handshaking formality.

Stubbs said frankly he would like to clear up many points of confusion but had been ordered to observe strict silence.

DR. ROY V. COOLEY JR.

Dinner to Honor Pontiac Doctor

Neopolitan Club Gives Testimonial Friday for Dr. Roy V. Cooley Jr.

A testimonial dinner for Dr. Roy V. Cooley Jr. will be sponsored by the Pontiac Neopolitan Club at 7 p.m. Friday at Devon Gables Inn.

The 38-year-old native of Pontiac will be honored for his many contributions to his home town, the club said, both as a physician, a former City Commissioner and a civic-minded citizen.

The main speaker will be William T. Patrick, a member of Detroit Common Council.

Dr. Cooley, who lives at 441 Bartlett St., served as District 1 representative on the Commission from 1952 until his retirement last year.

During that time, he brought many improvements to his district and successfully advocated the first adoption by any Michigan city of a Fair Employment Practices Act.

He was noted for working as conscientiously for the city as a whole as for his own district.

A 1937 graduate of Pontiac Central High School, Dr. Cooley attended Wayne University before graduating from University of Michigan in 1942. He was graduated from University of Michigan Medical School three years later.

After internship in New York City and Chicago, Dr. Cooley returned to Pontiac to practice and helped establish the Well Baby Clinic here.

A member of the county and state medical associations, Dr. Cooley belongs to the Neopolitan Club, the Items Club and the South-west Civic Assn.

He is an active PTA member, a trustee of the Oakland County Camp Fire Girls and belongs to the Pontiac Chapter, NAACP.

Willman Gets Report on Jail

25-30 Page Study Is Completed by City Public Safety Head

A report on Pontiac's new city jail in the Public Safety Building was in the hands of City Manager Walter K. Willman today, but the manager was mum on its contents.

The report on the jail—which has never been in use—was prepared by Willman by Public Safety Director George D. Eastman.

"It's quite elaborate," Willman said of the report, "and I haven't had a chance to study it yet. I've only glanced at the report and don't know what it says."

Willman said the report is 25-30 pages in length.

Although the Public Safety Building has been open since December of 1957, the jail has remained dark.

An injunction to halt the naming of an administrator for the jail was obtained by two Pontiac police officers last July 31 in Oakland County Circuit Court.

Patrolmen Lon Peters and Harold Hayden charged the city was about to name a civilian head of the jail, when the job should go to a policeman under State Civil Service Act, 78.

The injunction is still in effect.

Storm Rolls Out of Rockies Snow Warnings Posted

By United Press International

Weathermen posted heavy snow warnings for parts of Kansas, Missouri and Oklahoma Tuesday in the path of a blinding storm rolling out of the Rockies.

In the northeast, near gale

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY: Cloudy today, high 31. Clouds with snow beginning late this evening, continuing tonight and tomorrow. Low tonight 15. High tomorrow 30. Winds easterly 8-15 miles today and tonight.

Today in Pontiac

Lowest temperature preceding 8 a.m. 26

At 8 a.m. Wind Velocity 10 m.p.h. At 10 a.m. 15 m.p.h.

Run rises Wednesday at 3:55 a.m. Moon sets Wednesday at 5:02 a.m. Moon rises Thursday at 2:11 p.m.

Storm Rolls Out of Rockies

force winds Monday whipped weekend snows into drifts which blocked roads and forced schools to close in upstate New York and western and central Pennsylvania.

The fresh watery onslaught whipping into the plains threatened to dump five inches or more of snow in southern and eastern Kansas, west central Missouri, the Oklahoma Panhandle and possibly southern Colorado. Freezing rain also was expected in southern Missouri.

The Weather Bureau in Chicago warned motorists and cattlemen that the storm, ranging from the southern Rockies to the Canadian border, was expected to intensify as it moves eastward, causing "widespread hazardous driving conditions."

Overnight temperatures dropped as much as 30 degrees in advance of the storm, plunging to below zero in Montana, North Dakota and northern Minnesota and Wisconsin and to near zero in Michigan and northern Illinois and Indiana.

To the south, a warming trend overrode the Gulf and Atlantic coast states, snapping a three-day cold wave blamed for the deaths of at least 11 persons in Florida.

Temperatures were expected to climb into the 70s Tuesday after reaching a low of 23 in some northern Florida spots early Monday.

Florida weather officials said the cold snap, which began during the weekend, did "rather serve" the damage to truck crops in the Everglades region, but most of the state's citrus and vegetable crops survived unharmed.

Optimist Club to Hear Talk by Eastman

The Pontiac Optimist Breakfast Club will have Pontiac Public Safety Director George D. Eastman as guest speaker at its meeting Wednesday.

Eastman's talk will concern what his police program has done for the city and what plans are in store for the future, a club spokesman announced.

The breakfast meeting is scheduled to begin at 7:30 a.m. at the Elks Temple, 114 Orchard Lake Ave.

Mort Neff Will Speak at Rotary Club Dinner

The Pontiac Rotary Club will have Mort Neff as guest speaker at its weekly luncheon meeting to be held at the Waldron Hotel.

Neff, whose television show "Michigan Outdoors" is widely known throughout the state, will speak to the group about outdoor topics and answer questions.

Traffic Flows Faster

Perry Street Parking Cut

The number of cars on Perry street has gone up and the number of parking meters down.

After widening was completed last fall, an average daily count was 19,335, Theodore M. Vanderstempel, city traffic engineer, reported.

Because of the increase, the city Thursday removed 27 parking meters that were on the west side of the street in the three-block section south of Huron and north of Water street, Vanderstempel said.

The action, ordered by State Highway Department which controls the trunkline, has resulted in "a definite improvement" in traffic circulation, Vanderstempel said.

He pointed out that increased use of Perry north of Huron has resulted in more cars on it south of Huron.

The three-block stretch south of Huron is also four lanes, but with parking permitted in the easternmost lane, only three lanes were open to traffic, two northbound and one southbound.

"A traffic bottleneck resulted in the southbound lane," Vanderstempel explained.

No change in the meters on Perry between Water and Auburn avenue is contemplated, he said, because the road is six lanes wide there.

End to Time Limit on Benefits Sought

LANSING (UP) — Proposals calling for unlimited duration of jobless benefits will be placed before the Legislature, George Murphy, executive vice president of the Michigan State AFL-CIO, said today.

"At just what point do you let people starve to death?" Murphy said in reporting Democratic lawmakers have agreed to sponsor legislation to wipe out the 26-week limit for unemployment pay.

Murphy said the labor organization's executive board agreed at a Jan. 9 meeting in Flint to seek the legislation.

Ike Asks Congress to Fight Inflation

(Continued From Page One)

His appeals to business and labor were buttressed with a warning that if wages and prices cannot be stabilized through voluntary action, it may be necessary to resort to government controls "which are alien to our traditional way of life."

The President assigned to individual consumers the "important" task of "shopping carefully."

Housewives can do much to protect their own pocketbooks, he said, by insisting on quality merchandise at fair prices.

He called on Congress, for the third time in a fortnight, to abide by the spending cuts in the 71 billion dollar budget which he sent to the Capitol Monday for the year starting July 1.

This, he told the legislators, would be "the most important single step in discharging the government's responsibility to help preserve the stability of prices and costs through the prudent management of its own affairs."

If government income and spending can be matched in the year starting next July 1, and if tax collections are swelled by the expected growth of income and business profits, Eisenhower said, then — "A significant additional step in tax reduction and reform can be taken in the reasonably foreseeable future."

REDUCED RANGE—Fired by the 209th Field Artillery Missile Group, this Redstone ballistic vehicle marked the first inland daytime blast-off of the weapon.

Referred to by Army public relations as a "tactical-type" firing, the event was a graduation exercise. Because of the limitations of White Sands Missile Range, the missile was not serviced to go the full distance its capability permits.

\$5,919,250 City Budget Up for Hearing Tonight

Public hearing on Pontiac's proposed 1959 budget will be held at 8 tonight in the City Commission's second-floor chambers in City Hall.

Up for initial airing is the annual appropriation ordinance to implement \$5,919,250 in operating expenditures which the city administration has proposed to the Commission this year.

The proposed budget is \$235,000 more than last year's and is designed to maintain the current tax rate of \$13.27 for each \$1,000

of assessed valuation, providing the city's assessed valuation goes up \$4,000,000 this year, City Manager Walter K. Willman has said.

The manager, in other business, is scheduled to report on progress of agreements to cancel building contracts at Pontiac General Hospital and have the work taken up by local contractors on a time-and-material basis.

Commissioners approved the action on an "emergency" basis last week because extra repair costs in the hospital's east wing will push the cost of completing the expansion program to an estimated \$300,000 to \$350,000 more than anticipated.

Up for first reading is an ordinance rezoning four lots in the triangular parcel bounded by Lakeside, Montclair and Stanley from residential to commercial.

Toastmasters Observe 10th Anniversary

The Pontiac YMCA Toastmasters Club No. 643 will hold its 10th anniversary celebration at the Pontiac YMCA tonight.

The dinner meeting is scheduled to begin at 6:30 p.m. Expected to attend are 70 present and past toastmasters and their guests.

Honored guests at the event will be Mayor Philip E. Rowston, George D. Eastman, public safety director; Bob Nickels, area governor of Toastmasters International; and Richard Newman, district governor.

Featured speakers will be Sidney Siegel and George Crabtree, active members, and John Hurlinger, a past toastmaster.

REUNITED WITH MOTHER—Mrs. Fulgencio Batista, wife of the deposed Cuban dictator, is shown with two of her children, Roberto, 11, right, and Carlos, 8, in New York. Mrs. Batista arrived there on the first leg of her trip to pick up four of the Batista children and take them back to their father in the Dominican Republic.

Propose Sunday Beer Ban Vote

Pontiac Pastors Assn. Is Circulating Petitions; Has 1,000 Signers

The Pontiac Pastors Assn. has gone an estimated one-tenth of the way in its renewed fight to ban sale of beer and wine here on Sundays.

The association has obtained an estimated 1,000 signatures on petitions calling for a referendum vote on the issue, said Rev. Daniel Wallace, associate pastor of Central Methodist Church.

There is an all-out drive to get at least 7,000 to 8,000 signatures by next Monday, according to the Rev. Wallace, chairman of the effort.

"But our aim is to get 10,000 to show there is powerful public support behind us," he added.

The association hopes to submit its petitions to City Hall by Feb. 2, in time to place before voters in the April 6 biennial election this proposition:

"Shall the sale of beer and wine within the city of Pontiac between the hours of 2 a.m. and 12 midnight Sundays be prohibited?"

The referendum is provided for under state law, which requires that petitions forcing it be signed by a number equal to at least 35 per cent of the last Secretary of State vote.

There are approximately 650 petitions in circulation, the Rev. Wallace said, including those located at 56 different Pontiac churches.

The Pastors Association asked the City Commission to consider a ban on Sunday sale of beer and wine last summer. But the commission voted the proposal down.

Several commissioners said then that the issue was one that should be decided by the public at an election.

The Day in Birmingham

Ambulance Service Bids Will Be Sought by City

BIRMINGHAM — Bids will be sought from private ambulance companies by the city of Birmingham to assure residents of this service.

City Manager L. R. Gare was authorized last night to prepare an agreement for the commissioner's approval and later to seek bids.

After considerable discussion, commissioners dropped the idea of city-owned ambulances which would cost about \$33,000 a year to operate as ascertained by a study conducted by Assistant City Manager Robert Kenning.

This figure does not include the cost of \$12,000 or more for each vehicle.

One hearing, the confirmation of the special assessment district for the Lake Park storm sewer was approved. The subject of much opposition last year, no objections to the district were received at this time.

In further business, city commissioners entered an agreement with the county to widen W. Maple avenue from Westchester Way to Cranbrook road. The city's share

of the \$499,850 project will be \$424,926.

City commissioners approved Police Chief Ralph W. Moxley's proposal that Birmingham enter a reciprocal police aid agreement with other area departments.

James Howlett, city attorney, said he would like to make slight changes in the agreement before final approval is made.

The second accident within 24 hours at the Maple and Woodward avenues crossing was reported yesterday at 12:50 p.m. Mrs. Marilyn J. Pearce, 40, of 950 W. Lincoln Ave. suffered injuries to the pelvis and hip as she attempted to cross the street and was hit by a car.

She was taken to William Beaumont Hospital in Royal Oak where her condition is reported as "satisfactory" today.

William T. May, 73, of Detroit, driver of the car, was ticketed for failure to yield the right of way to a pedestrian in a crosswalk.

At almost the exact same time Sunday Genevieve Wall, 54, a city employee suffered a broken right arm in a similar mishap at the Maple and Woodward avenues intersection.

Bloomfield High School students and their parents will be able to see a film on missiles and hear a talk titled "The Mechanical Engineer's Position in the Missile Industry," to be presented by Lawrence LeGros, an engineer with the Chrysler Missile Division, tomorrow at 7:30 p.m. in the school.

Vaccine for Cold Almost Ready

Measles Treatment Is Being Developed, Too, Says Parke, Davis

NEW YORK (AP)—A common cold vaccine and a measles vaccine both may be put on the market before the end of the year by a Detroit pharmaceutical firm.

Harry J. Loynd, president of Parke, Davis & Co., told a meeting of the New York Society of Security Analysts yesterday that his firm hopes to have the vaccines on the market by that time.

Loynd said the cold vaccine may take care of about 75 per cent of the causes of the common cold.

(At Detroit, a Parke Davis spokesman said of the cold vaccine that its "price, duration of immunity, dosage distribution procedures, etc., are under study and cannot be answered at this time.")

Loynd also disclosed the company is working on a mumps vaccine, which it hopes may be ready for marketing within two years, and has under clinical study a combination vaccine for diphtheria, tetanus, whooping cough and polio.

The concern also is working on a vaccine against so-called ECH viruses which recently have been found to cause a paralytic disease similar to polio, Loynd said. This would be combined with the polio vaccine.

Commissioners approved the action on an "emergency" basis last week because extra repair costs in the hospital's east wing will push the cost of completing the expansion program to an estimated \$300,000 to \$350,000 more than anticipated.

Deaths in Pontiac and Nearby Areas

MRS. HAROLD BENNER

Mrs. Harold (Marvel A.) Benner, 54, of 78 W. Beverly St., died yesterday morning in Pontiac General Hospital after a brief illness.

She was a member of the Oakland Avenue United Presbyterian Church.

Besides her husband, she leaves two sons, Stanley of Detroit and Gerald at home; two daughters, Mrs. Marilyn Todd of Detroit and Ruth at home; a brother, and two sisters.

Service will be held at 1:30 p.m. Thursday at the Hutton Funeral Home with burial in Perry Mt. Park Cemetery.

JOSEPH COOPER

Service for Joseph Cooper, 89, of 139 Raeburn St., will be held at 2 p.m. Wednesday at Pursey Funeral Home with burial in White Chapel Memorial Cemetery.

Mr. Cooper died Sunday afternoon after an illness of two years.

SAMUEL A. GRAY

Samuel A. Gray of 54 Mark St. suffered a heart attack in his home yesterday and was dead on arrival at Pontiac General Hospital.

Prior to his retirement, Mr. Gray, 75, had been self employed in sheet metal fabrication.

He was a member of the Methodist Church in Lake Linden and Brotherhood Lodge 561, F&AM, of Pontiac.

Surviving are his wife, Evelyn; a daughter, Mrs. William Brown of Northville; a son, Alton N. Gray of Bloomfield Hills; and a brother, Hiram D. of Lathrup Village.

Service will be held at 2 p.m. Thursday from the Voorhees-Siple Chapel with burial under Masonic auspices in White Chapel Memorial Cemetery. Members of his lodge will participate in the service.

LESLIE C. LIGHTFOOT

Leslie C. Lightfoot of 108 S. Edith St. died yesterday afternoon at his home. He was 40.

Mr. Lightfoot had been an employee of Pontiac Motor Division. Surviving are his wife, Eva; and his mother, Mrs. Edith Whitlock of Stoughton, Ill.

Mr. Lightfoot's body was taken

from the Hutton Funeral Home today to the Thornton Funeral Home in Stonefort for service and burial.

MRS. KENNETH T. POOLE

Mrs. Kenneth T. (Mary H.) Poole, 51, of 138 Mark St., died early this morning in Pontiac General Hospital after an illness of several weeks.

A native of Pontiac, she was a graduate of Pontiac Central High School and a member of First Presbyterian Church.

Surviving are her husband; her mother, Mrs. John J. McCormick, and a brother, John C., both of Pontiac.

Service will be held at 2 p.m. Thursday at Donelson-Johns Funeral Home with burial in Greenwood Cemetery, Birmingham.

MRS. ROBERT A. FERRETT

IMLAY CITY—Service for Mrs. Robert A. (Fannie) Ferrett, 95, of 240 White St., will be held at 2 p.m. Thursday at Muir Brothers Funeral Home. Burial will be in Imlay Township Cemetery.

Mrs. Ferrett died Monday morning at her home following a heart attack.

Surviving are four sons, George of Fostoria, John of Pontiac, William of Howell and Albert of Imlay City; six daughters, Mrs. Edith Shepherd, Mrs. Alice Linde, Mrs. Agnes Muir and Mrs. Esther Dietrich, all of Imlay City, Mrs. Nellie Smith of Port Huron and Mrs. Mabel Reid of Vanderbilt.

Thirty-eight grandchildren, 88 great-grandchildren and 2 great-great-grandchildren also survive.

MRS. CARL MILLER

WHITE LAKE TOWNSHIP — Service for Mrs. Carl (Vera) Miller, 71, of 8840 Cooley Lake Rd. will be held at 1 p.m. Friday at the Pixley Funeral Home, Rochester. Interment will be in Rochester Mausoleum.

Mrs. Miller died Monday night at Pontiac General Hospital following several months' illness.

Surviving are her husband, Carl, and several nieces and nephews.

RALPH CRAIG

AVON TOWNSHIP — Service for Ralph Craig, 34, of 440 Michaelson Rd., will be held at 3 p.m. Thursday from the Hutton Funeral Home. Burial will be in Perry Mt. Park Cemetery.

Mr. Craig died Sunday morning in Pontiac General Hospital of injuries sustained in an automobile accident Dec. 25.

JOHN PANDUREN

OXFORD—Service for John Panduren, 81, of 816 Glaspie Rd., will be held at 2 p.m. Wednesday at the Bossard-Reid Funeral Home. Burial will be in Imlay City.

Mr. Panduren died in Oxford following several months' illness.

Surviving are three sons, Nicholas and Charles of Oxford and Carl of Dryden; four daughters, Mrs. Pauline Polly, Mrs. Lillian Hauxwell, Mrs. Georgina Schultz, all of Oxford, and Mrs. Katherine Densmore of Plymouth; 22 grandchildren and 2 great-grandchildren.

Deaths Elsewhere

NEW YORK (AP)—Arthur D. Eggleston, 59, former labor editor of the San Francisco Chronicle and for many years a newspaperman in San Francisco and New York, died Sunday of cancer. He was born in Farmville, Va.

BLOOMINGTON, Ill. (AP)—Dr. Watson Gailey, 76, noted eye surgeon who at one time was a medical consultant in India and Guatemala, died Monday of a stroke. He was born in Ashland, Ill.

WASHINGTON (AP)—Mrs. Mattie Norton Capehart, 87, stepmother of Sen. Homer E. Capehart (R-Ind.), died Sunday. She was the widow of Alvin Capehart.

WEST PALM BEACH, Fla. (AP)—Austin F. Hancock, 83, of San Antonio, Tex., president for 40 years of the Hancock Brokerage Corp. of New York City, died Monday.

AUSTIN, Tex. (AP)—Byron C. Utech, 79, former city editor, tel-

egraph editor and Austin correspondent for the Fort Worth Star-Telegram, died Monday. Utech's newspaper career covered 53 years, of which 36 were with the Star-Telegram. He was born in Ottumwa, Iowa.

CINCINNATI, Ohio (UPI)—Hubert Taft Sr., 81, board chairman of the former Cincinnati Times-Star, and a nephew of the late President William Howard Taft, died here last night.

Canada Returns Polish Treasure Hid From Nazis

NEW YORK (AP)—Old Polish treasures worth millions of dollars, sent to Canada 18 years ago to keep them out of Nazi hands, are en route to their homeland, now Communist-controlled.

A shipment of crown jewels, Chopin manuscripts, a Gutenberg Bible and other priceless antiques arrived by train last night from Ottawa.

Another part of the treasure shipped to Canada for safekeeping remained here. It is in Quebec and Provincial Premier Maurice Duplessis refuses to release it to the Communists.

Hawaii Statehood Bill Introduced by Alaskan

WASHINGTON (UPI)—Alaska's brand new Congressman, Rep. Ralph J. Rivers (D) has introduced his first bill — a Hawaiian statehood bill.

Rivers said Hawaiian delegate John A. Burns "and the people of Hawaii went all out for us." He said it gave him great pleasure to return the favor.

The average American factory worker received \$2.10 an hour last April—eight times that of Japan's average of 26 cents an hour and about three times that of France, West Germany, and England, whose averages are 72 cents, 68 cents, and 80 cents, respectively.

Re-Elect Hartman to Head GMTC Credit Union Here

Rudolph Hartman, 831 Glendale Ave., was re-elected president of the General Motors Truck & Coach Employees Federal Credit Union at the credit union's 23rd annual meeting Saturday night at St. Benedict Church Hall. Other officers elected were Don-

Civil Rights Official Dies in Washington

WASHINGTON (UPI)—Expressions of sadness came from high government officials at the death of J. Ernest Wilkins, Negro member of the Civil Rights Commission and a former assistant secretary of labor.

Wilkins, 65, was found dead in his home here yesterday, apparent victim of a heart attack.

President Eisenhower said Wilkins was a "gifted and dedicated public servant who contributed much to the welfare of our country."

She Gives Them Love

New Babies Her Charges

By LEE WINBORN
AVON TOWNSHIP — Grandmother to 2,000 babies, Mrs. Burle Swan of Avon Township puts in a busy 8-hour day taking care of newborn infants in the nursery of Pontiac Osteopathic Hospital. She's had the job for over five years and says she "loves every minute of it."

Mrs. Swan, who lives at 3986 Greenwood Dr., Avon Township, rises early each day to get her housework done so that she can report on the job every afternoon at the hospital.

She and her husband, who is a retired jitney driver in Pontiac, eat their big meal at noon. Then Mrs. Swan leaves her modest five-room house for the hospital where she is on duty from 3 to 11:30 p.m. five days a week.

"My husband always waits up for me, and we have a snack together when I get home," she said.

Pontiac Press Photo

LOVES 'HER' BABIES — Mrs. Burle Swan of Avon Township takes care of one of her many charges in the nursery of Pontiac Osteopathic Hospital. She has been afternoon nurses' aide in the nursery for over five years and has taken care of some 2,000 babies. Mrs. Swan recently received the hospital's first merit badge given to a worthy employee for her devotion to duty since the hospital opened June 1, 1933.

The charming gray haired grandmother recalled how she started on her present job June 1, 1933, when the hospital was located at 32 Auburn Ave.

"Over there I was in the nursery, too. But because the hospital was small, I worked on other jobs on the floor," she said.

'FASCINATING' JOB

"It's fascinating to take care of babies and to meet their mothers when they come back to have their second, third and even fourth child," she said.

Mrs. Swan has one daughter, Mrs. Cecil Stover, 2868 N. Grant St., Pontiac and nine grandchildren.

GIVEN AWARD

Her devotion to duty was recognized by the hospital last month when the administration presented her with the first merit badge to be awarded to an employee of the hospital. She earned the award for being the hospital's oldest employee in point of service, for her dependability as afternoon nurse in the nursery and for her neat appearance.

"I've only missed one week of work since I started and that was because of illness," Mrs. Swan said proudly. "I've never asked for a day off when I was supposed to be on duty."

Mothers of the newborn babies and nurses who work with Mrs. Swan soon learn to realize that this grandmother, so devoted to her job, gives more to it than just her attention. She gives her love.

Soil Conservation Meeting Slated at Pontiac

The annual meeting of the Oakland County Soil Conservation District, will be held at the Pontiac Federal Savings and Loan Building, on West Huron street, at 7 p.m. Thursday.

The program will consist of piano selections by Karen Winslip of Lake Orion; District Annual Reports; presentation of awards to winners of land judging contest; and winner of the Oakland County Corn Contest, Lyle Abel, county extension director, will show slides of the Western United States.

Two district directors will be elected for a term of three years. The nominating committee has nominated Keith Middleton, Stuart J. Hutchins, David Fields and Geoffrey Holmwood. Other nominations may be made from the floor.

Anyone owning or occupying three or more acres of land in the district is eligible to vote in the election. This includes both husbands and wives.

The dinner will be served by women of the Farm Bureau. Tickets will be available at the door.

KAYE ELEANOR SMITHSON
The engagement of their daughter, Kaye Eleanor, to Thomas D. Ball is announced by Mr. and Mrs. Richard E. Smithson of 2014 Mott St., Waterford.

The fiancé is the son of Mrs. Naomi Kempton of 3969 Green Lake Rd., and the late Dean W. Ball. No date yet has been set for the wedding.

Hold 4th Meet on Street Costs

Property Owners Seek Savings on Lansdowne Project in Waterford

A fourth public hearing was held last night by the Waterford Township Board as residents continued to seek to have costs trimmed from the Lansdowne street improvement project.

More than 100 property owners are involved in the establishing of a special assessment district, and after a lengthy discussion last night the hearing again was adjourned to next Monday for further study.

Residents claim the township and county had prepared their road for blacktopping in 1936 with a promise of completing the job that year. The project was not finished, however.

Bids based on engineering specifications were accepted early last night, then discarded by the Township Board due to errors by engineers.

New bids were opened and the Board tentatively accepted the Detroit Concrete Co. bid for the project. After numerous meetings and hearings, the contractor agreed to cost reductions bringing the most recent bid to \$21,545.

A meeting between township officials and Oakland County Road Commissioners has been planned for this week in attempt to solve the problem.

The postponed hearing has been set for 9 p.m. Monday.

In other business the Board tabled the Drayton Plains blacktopping project, along with the possibility of acquiring deputy bonds for the township policemen.

Three bids were opened for 500 new heating code booklets and a contract was awarded to the low bidder, Forbes Printing Co. of Drayton Plains, for \$294. The books will be sold to the public for \$1 each.

Say Reds Lagging in Farm Research

WASHINGTON (AP)—The Soviet Union may boast of scientific superiority in many fields, but not in agricultural research.

Everywhere in the Soviet Union, American farm research is held up as a pattern.

This was a key point in a report six teams of American scientists made today of their tour of Soviet farm regions last summer and fall.

Alcorn added that "the television and radio folks are not going to like our decision." The network has asked both parties to meet in the same city to reduce the expense of transferring equipment.

With Chicago, Los Angeles, and San Francisco putting in formal bids today for the Republican convention, the contest appeared to be primarily between Philadelphia and Chicago.

Philadelphia came in Monday with a bid of \$375,000 cash, and fringe benefits. It was, in the minds of Alcorn and other party leaders a powerfully attractive offer.

There has been too much "me-tooism" already," Alcorn said. "We are going to select our site and our date independently of what the Democrats have done."

Alcorn added that "the television and radio folks are not going to like our decision." The network has asked both parties to meet in the same city to reduce the expense of transferring equipment.

Ike Nominates Zimmerman to Housing Post

WASHINGTON (AP)—President Eisenhower today nominated Julian H. Zimmerman of Wichita, Kan., to be federal housing commissioner.

Zimmerman now is general counsel of the Housing and Home Finance Agency, over-all agency for five housing units.

He was named to succeed Norman P. Mason, recently nominated to the top housing post as administrator of the Housing and Home Finance Administration.

10 Die as Fires Sweep Homes

Nine Children, Woman Perish in New York Main Blazes

By Associated Press
Fires in Maine and New York today killed nine children and a mother. A fourth child was believed dead in New York.

In Ashland, Maine, six of the eight children of Mr. and Mrs. Luther Tripp died early today when a flash fire roared through their small wooden home.

Mrs. Tripp and one of two boarders in the 1½-story house were injured.

The dead children range in age from two years to 15. They were Carolyn, 2, Barbara, 3, Alfred, 4, Jeanne, 9, Ella, 12, and Edna, 15.

Mrs. John Magee and two sons, Mark, 3, and John Jr., 2, perished as flames destroyed their two-story, frame house beside Conesus Lake south of Rochester, N. Y.

Sharon Leidecker, 12, a daughter by a previous marriage, was missing.

At Oswego, N. Y., 3-year-old Michael Fitzsimmons died in a fire that swept his parents' two-story, frame home. His sister, Leesa, 22 months, was burned critically.

Their mother, Mrs. Joyce Fitzsimmons, 29, suffered severe burns.

Castro to Attend Havana Rally

Expect to Take Part in War Crimes Trial Despite Attack of Flu

HAVANA, Cuba (AP)—Although fighting a bad attack of the grippe, Fidel Castro doggedly held today to plans for a giant rally to show public support of the speedy execution of those his forces condemn as war criminals.

Castro hoarsely told a reporter he had a bad case of an ailment similar to influenza. But he said "the probabilities are that I will go" to Wednesday's Havana rally, which is expected to draw half a million supporters.

Castro has invited 350 newsmen and commentators from the United States and Latin America, plus some U.S. senators and congressmen, to attend the rally and the first showcase trial of war crimes defendants in Havana.

Informants said Castro, a practicing lawyer before he led the revolt against dictator Fulgencio Batista, would treat the international audience to a display of his courtroom talents by taking the prosecutor's role.

The provisional government had announced the Havana trials would start by Wednesday. A total of 561 former policemen, military men and others are being held in Havana's La Cabana Fortress on charges of murdering or torturing rebels and suspects.

High Court May Lose Frankfurter, Black

WASHINGTON (AP)—Rep. Clarence J. Brown (R-Ohio) said today Supreme Court Justices Hugo Black and Felix Frankfurter are expected to offer their resignations to President Eisenhower "within a relatively short time."

"Justice Frankfurter has recently been in bad health," Brown said in his news letter.

Frankfurter, suffering from what physicians called a heart disturbance, was in a hospital from Nov. 28 to Jan. 3 but was back on the bench Jan. 12.

Black is 72. Frankfurter is 76.

DISCUSSES ECONOMIC REPORT — Dr. Raymond J. Saulnier, chairman of President Eisenhower's Council of Economic Advisers, briefs newsmen on Ike's economic report.

Ike Cites U. S. Recovery as 'Lesson' in Economics

WASHINGTON — President Eisenhower said today the nation's quick recovery from last year's business recession proved he was right in opposing tax cuts and a big public works program.

The most important "lesson" of the recession, the President said in his annual economic report to Congress, is that the American economy has remarkable power to "hold a downturn within fairly narrow limits."

He said the government should take this lesson to heart, and be careful in any future recession to "avoid hasty and disproportionate actions such as tax reductions that needlessly endanger the prospects of future fiscal balance."

Eisenhower, 68, starts his seventh year in office today reportedly determined to keep the Democratic-controlled Congress on the defensive if it balks at his program.

With half of his second four-year term behind him, the President scheduled no formal observance of the anniversary of his inauguration.

Democratic congressional leaders stood with the President last year in resisting a clamor for anti-recession tax cuts. But they differed with him on the need for new public works projects, which they favored and he opposed.

Eisenhower told Congress today that experience vindicated his argument that "the major emphasis of federal policies to counteract an economic downturn should be placed on measures that will act promptly."

"Though an effective contribution can be made by the acceleration of public construction projects already under way, little reliance can be placed on large undertakings which... can be put into operation only after an extended interval," he said.

Eisenhower also showed that there is no single, infallible cure-all for a slump. He said "each is unique" and must be diagnosed and treated individually.

According to Dr. W. W. Oliphant, deputy coroner, the child was found lying face down in the crib. He has ordered an autopsy to determine the cause of death since the baby was healthy.

The Lake Orion Fire Department was called to the Walter home with a resuscitator but their efforts failed to revive the child.

The baby, Kelly, is the son of Mr. and Mrs. Frank Steltenkamp of 1243 Langley St.

The 30-year-old mother said the child started a fire in the bedroom closet with a cigarette lighter, Clawson police reported. An estimate of damage had not been made although police said the bedroom was charred and smoke damage was evident throughout the house.

The mother was reported to have run outside with Kelly and her daughter, Catherine, 3, and then called firemen about 9:10 a.m.

CLAWSON MOTHER SAVES HER BABY FROM FLAMES

CLAWSON — A 22-month-old baby boy was rescued from being burned to death yesterday when his mother beat out flames in his clothing and carried him out of a burning bedroom.

The baby, Kelly, is the son of Mr. and Mrs. Frank Steltenkamp of 1243 Langley St.

The 30-year-old mother said the child started a fire in the bedroom closet with a cigarette lighter, Clawson police reported. An estimate of damage had not been made although police said the bedroom was charred and smoke damage was evident throughout the house.

Picks New Site on Main Street

Detroit Realty Firm Asks Council to Rezone 12 Acres in Village

MILFORD — The shopping center project was again a topic for discussion at last night's regular council meeting.

Realtor Edward Steele, representing a Detroit firm, now wants to erect a shopping center from Main street and Summit street north on Milford road and west along Highland road.

A large hill would have to be leveled into two ponds at the base of an incline there, providing approximately 12 acres for a 14-store unit with adequate parking space.

Before final negotiations or work would begin, Steele has asked that the newly planned area be zoned from heavy industrial to commercial. Council members turned down Steele's first request for a zoning change for a similar site in the area at the last meeting.

Steele and his employer, who has refused to give his name to date, plan on meeting with the Milford Zoning Board this week to review the proposed project.

In other business the council awarded a contract to the Van Camp Chevrolet Sales and Service firm for leasing a police car for one year.

The village will pay \$125 a month for the car and Van Camp will pay for the maintenance.

If the police department installs any extra equipment, the car must be returned to its original state at the end of the year, according to the agreement. The police department will continue to use their present 1958 Chevrolet as well.

To Honor Ben Rice With Open House

NEW HUDSON — Members of the New Hudson Elementary School PTA will hold open house tonight in honor of Ben Rice, custodian of the school for the past 16 years who retired last month.

The open house will be held in the school gymnasium at 7:30 p.m. and is expected to last until 9 p.m. Refreshments will be served.

The open house will be held in the school gymnasium at 7:30 p.m. and is expected to last until 9 p.m. Refreshments will be served.

Hal Boyle Says:

Van Heflin Satisfied With Acting Career

NEW YORK (AP)—Van Heflin has an unusual ambition for an actor. He wants to remain an actor.

"I've never had a real desire to direct or produce, as so many actors do," said the big red-haired ex-sailor, who is one of the most literate—as well as best-liked—personalities in the entertainment field.

"I wasn't born with a good enough looking puss to be the guy who always gets the girl."

"That has enabled me to play a variety of characters. And when you have variety in your life you never get bored."

Heflin believes in realism. His latest role called for him to wear a beard. Van disdained a false beard, took the time to home-grow his own beard, complete with red handlebar mustaches he later hated to part with.

"You can always tell an actor with a phony beard," he said, grinning. "He won't let his hand near it."

Don't Speak Our Language

Reds Show Gift Horses

CLEVELAND, Ohio (AP)—It's a wonder that 5,000 persons at Thistledown track got to see three white stallions run at all and pull the troika Soviet Premier Nikita Khrushchev gave Cyrus K. Eaton.

The reason it's a wonder, is that the Russians have the beasts trained to stop at the word: "B-r-r-r."

It was about 12 degrees above zero at the track Sunday. Industrialist Eaton's first public showing of the troika and the prize horses which draw it caused a kink-sized traffic jam in suburban North Randall. Not all persons who came to look were able to reach the track in time.

Eaton and Rep. James Roosevelt (D-Calif) rode together in the troika before Vladimir I Fomin of Moscow guided the stallions through a demonstration. The three horses are hitched fan-like at the front of the carriage and have been timed at whisking it along as fast as 19 miles an hour.

Fomin will return to the Soviet Union after acquainting employees of Eaton's farm with handling the gift horses and troika.

for fear it'll come unstuck. His face also looks constricted, and he wears a forced smile."

Oklahoma-born, Heflin was brought up in California, had considerable difficulty making up his mind whether he wanted a career in the theater or before the mast. After 13 weeks on Broadway, he went to sea for two full years, rising to the rank of third mate.

"One morning I woke up in San Francisco broke," he recalled. "I had been rolled the night before, and couldn't even remember where I'd been. I decided I'd be a bum all my life if I stayed at sea."

So he took a degree at the University of Oklahoma and spent a year at the Yale drama school. He returned to Broadway and scored as costar with Katharine Hepburn. Since then he has won recognition as one of the top performers in filmdom as well as the theater.

"Except for some trout fishing, I spend all my spare time reading," he said. "I've never taken up a hobby because I haven't been attracted to any—and I think it's stupid to invent one just to kill time."

Van has a down-to-earth attitude about his profession.

"The nature of our work puts us in an artificial atmosphere," he observed. "Even a second-rate actor's face is better known to the public than the top men in other fields. But this is only a peculiarity of the profession."

"The greatest danger an actor faces is that he may take himself

more seriously than he does his work. There are a few who read their own publicity and begin to believe it."

Van has managed to stay as normal as they come. He and his wife, actress Frances Neal, have been married 16 years. Their two

Higher Grants Urged for Care of Elderly

ANN ARBOR (AP)—The Legislative Advisory Council on Aging today recommended that maximum state grants for hospital or convalescent care of persons receiving old age assistance be increased from \$90 to \$130 per month.

The council, in its third annual report to the legislature, also recommended increasing the present \$80 monthly maximum payment to elderly persons not hospitalized or receiving hospital care.

Britain's Queen Mother to Visit Mau Mau Land

NAIROBI, Kenya (AP)—Britain's Queen Elizabeth will visit the tribal territory of the once rebellious Kikuyus during a visit to Kenya in February.

It will be the first time a member of the royal family has ventured into the tribe's country since the Mau Mau terrorism of 1952-56, in which many Kikuyus participated.

daughters go to a public school. "I've saved my money," Van said cheerfully. "If they ever tell me, 'We're tired of seeing your face,' — well, it won't break my heart."

"I can ride the rest of the way as a passenger, and pay my fare."

Menshikov Plans Holiday Journey Back to Russia

WASHINGTON (AP)—Now it's the turn of Soviet Ambassador Mikhail Menshikov to take a vacation, hard on the heels of Deputy Premier Anastas I. Mikoyan's holiday in the United States.

Menshikov was host to Mikoyan during his fast-moving 17-day stay. He traveled coast-to-coast with him as escort, part-time interpreter and troubleshooter.

Menshikov disclosed Monday night he is planning a vacation in Moscow.

Plot Theory Probed in Galveston Tragedy

KEMAH, Tex. (AP)—Police probed the ruins of a small home near this Galveston Bay fishing town today on the theory that a blast which killed a family of six may have been planned.

"There is a possibility that the explosion which caused the tragedy may have been deliberately set off," said Galveston County Sheriff Paul Hopkins.

Truman Stone, sheriff's investigator, said he found a length of pipe leading from a butane tank to a point under a mattress of a collapsed bed in the bedroom. Stone said a jet on the tank was turned on.

The youngsters were Barbara, 7, Carol, 6, Neal Jr., 4, and Deborah, 2.

Before World War I, almost all optical glass in the U.S. was imported from Germany.

Eisenhower's Solution to Help Balance Budget Is Sensible

President DWIGHT D. EISENHOWER has offered this country a budget that appears to be a courageous and scientific evaluation of current U.S. needs.

The President wants to balance the budget. So does everyone else that has any desire to hold inflation in check. When you want future taxes increased in the years ahead, merely spend more than you take in.

This guarantees that result. It's absolutely positive.

The President is anxious to raise as much money as we spend and everyone that has an understanding of the economic issues involved will agree. Demagogues and irresponsible politicians who curry favor with the segment of voters that can't comprehend, will advocate free spending for everything in sight. But the tax bill comes home to roost. Nothing's free.

President Eisenhower asks a cent and a half increase in the gasoline tax. No one wants to pay any more taxes anywhere, but this seems about as painless as you can make it. Who has a better way? The cent and a half increase on the gas tax is paid in dribsles through the year and is widely distributed.

The one cent postage raise which he proposes is another tax method which is spread throughout the twelve months and won't affect the average man as much as many other things. Businesses are probably the biggest individual postal users.

EISENHOWER proposes to cut spending by nearly four billion dollars. This is a sizeable step in the right direction and deserves warm applause. But one thing is certain: ANY deduction will be met by a wall of protests from those affected.

That's inevitable.

Agriculture, foreign aid and housing come in for the largest cuts and the pressure groups will soon assemble to "turn the heat" on Congressmen from every district in the land. "Our pet and special project" will be defended with orations, scholarly documents and just plain, old fashioned screaming.

It will be very interesting now to see what happens to the money saving fixtures when the document reaches the halls of Congress.

The budget provides for "an accelerated pace in satellite ventures plus lunar and deep space probes." More money will be poured into nuclear rocket engines. The administration is determined to keep up with the Russian pace and the nation is united in this cause.

The next step is to study the reactions of a critical Congress. With a Democratic majority in Washington, the chest thumpers will race to the platforms and pound away at the proposals. Criticism is inevitable. But once the first wave of this professional opposition has spent itself and the Congress digs into the sound

meat in the budget, what will happen?

Do you want inflation checked?
Do you want to avoid future tax increases?

If you do, advise your Congressmen and Senators you want a balanced budget even though you realize that someone's ox will be gored in the process.

Debate Team Brings More Glory to PCHS

Athletic teams can't steal all the glory at Pontiac Central High. On the educational side PCH debaters recently won the Saginaw Valley Conference for the '58-'59 season.

This is an outstanding accomplishment and the local orators, under the splendid coaching of Walter B. Smith, are to be congratulated. Our debating team is a constant threat in the Valley Conference, having finished in the money for the last seven years.

Academically speaking, Pontiac schools have never had to take a back seat to anyone. This fine record established by the debaters is further proof that Central High is a top notch institution and one we should all be proud of.

The Man About Town

Goofy Forecasts Weather Bureau Not So Good at Prognostications

Trouble: What is usually not where you expect to find it.

Our official weather bureau forecast on the heaviest snow of this winter was "snow flurries." This was in line with the general service in that respect during the past few weeks. Bad weather is often not predicted at all, or not until it is here.

Doing better than the weather bureau is the

Old Farmer's Almanac

in its predictions. The season's worst fog last week was heralded by it: "This fog'll freeze a dog," which was 100 per cent right, both on fog and mercury. For this week it says, "Cold and bold, then mild and wild."

In this connection, that community of Pellston, up in Northern Michigan, is going too far in its desire to keep in print. Two men who were snowbound there overnight when it was listed as the coldest point in the nation tell me that the local thermometers were not within ten degrees as cold as the report sent out.

There's a local touch to the Detroit choice of a statue honoring the late

Frank Murphy

former Mayor, Governor, Attorney General and Supreme Court Justice. The one chosen was done by the late

Carl Milles

for many years sculptor at Cranbrook.

A tip comes to me from my Washington correspondent that I don't like. He says that U.S. Senator

Philip A. Hart

is planning to establish a residence at Traverse City. I won't believe it until you say so, Phil. Anyway, what's Traverse City got that Oakland County hasn't?

Mrs. Margaret Sedlack

of Drayton Plains finds pussy willows starting to bud along the Clinton.

As a sequel to his letter congratulating The Pontiac Press on its coverage of highway news, it is pointed out that State Highway Commissioner

John C. Mackie

is not to blame for any anticipated road improvement that some areas did not get. In one instance in Oakland County, after the news had been published that a paving proposition had been settled in a manner satisfactory to all, local interference resulted in next to nothing being done.

'Sorry, Joe, but They Wanted Something Different'

David Lawrence Says:

Mikoyan Displays True Colors

WASHINGTON—The American people were given on a television program Sunday a vivid demonstration of what the United States government is up against in its relations with the Soviet Union.

Evasion, indifference to truth, arrogance, and brazen misrepresentation of facts came from the Soviet's deputy premier, Anastas Mikoyan, along with a very plain implication that, if the United States government wants "peace," it must surrender unconditionally to the Soviet Union on all issues now in dispute.

Never in all history has any high official of a foreign government visiting this country displayed such effrontery and defiance of the American government and its policies.

Not a single question asked on world policy was answered forthrightly or with the slightest regard for what the past record shows.

To the Soviet premier, the brief and limited stay by a small detachment of American forces in Lebanon—where not a single native citizen was killed or injured by American troops, and withdrawal came in three months—is the same thing as the continued occupation of Hungary by Soviet troops, who have killed nearly 20,000 Hungarians in the two years since the people rose up in an attempt to regain their liberty.

Again and again the panel members of the "Meet the Press" interview, which was televised over a nationwide network of the National Broadcasting Company, tried to get Mikoyan to answer whether any American high official would be allowed to go to the Soviet Union and speak as directly to the people of Soviet Russia in criticism of the Soviet Union as

he has to the American people about the United States government. The evasive reply was that the visitor would be given "the best reception."

When the Soviet deputy premier was asked why, inside Russia, criticism of the men in the Kremlin is not permitted and there is such a rigid censorship maintained on all the newspapers and radio stations, he replied—without even a smile—that, of course, there is nothing for anybody to criticize, as the Soviet government is "working well." This is the stock answer of Communist officials.

Did Mikoyan really think his listeners in America were so glib or so naive as to accept such an untrue statement?

The American audience, indeed, learned far more about the troubles of President Eisenhower and Secretary of State John Foster

Dr. William Brady Says:

Hayseed Answers Back; Pardon Us—Ex-Hayseed!

Recently a reader said he wanted to get some wheat, plain wheat which I recommend in my free pamphlet "Wheat to Eat" but he didn't know how or what to ask for. So I answered:

"It's easy. Just side up to the hayseed, hand him your sack, carton or crock, and say 'Hey Bud, fust fill this with wheat for me!'"

DR. BRADY If he asks how much wheat you want, don't confuse or embarrass him by saying a peck. Say 10 or 15 pounds.

Well, sir, I wouldn't have believed it, but promptly after that was printed I received a letter from Prairie du Sac, Wisconsin:

"Dear Dr. Brady: Hayseeds? Do you think you said something real cute? I enclosed a few clippings from the very same paper. Why not go to the feed mill where they want to sell wheat. Ex-Hayseed (you know, Old Bub's wife)!"

The clippings are pictures of fine looking boys and girls of the 4-H club and of a girl with her 3000 pound yearling steer entry in the International Livestock Exposition show.

Reminds me of the situation when I was a boy on Chapel Street in Canandaigua. Automatically any boy who lived north of the County Orphan Asylum, west of Brigham Hall, east of Sommerberg or south of the gas house, became a hayseed, to us metropolitans (the village had nearly 8,000 population).

ANOTHER BONER

Then for years I have been making cracks in this column about feeding skim milk to the pigs. Skim milk is excellent food for children and adults — it yields half as many calories as whole milk. So why feed it to the pigs?

The durned hayseeds! All along they have let me go on making a fool of myself. No one, not even a 4-H Club member, ever enlightened me about it until here a few months ago, when a Wisconsin rube who knows his business explained (in words of one syllable) that when the market price of feed and the price of hogs is so-and-so it is good economy to feed skim milk to the pigs, etc.—and now I'm ashamed

The Country Parson

"I guess even business has its place—some of our greatest progress has been made by folks trying to figure out a way to get out of doing something."

Voice of the People

'Americans Must Awaken to Face Truth About Reds'

Patriotic Americans abhor the red carpet laid out for Red visitors. What kind of people are we to host-and toast murderers?

Americans aren't afraid of truth, as many politicians would have us believe, and the truth is that communism is engulfing the world at the rate of 7,000 persons an hour for the past 13 years. Russia's plan was to engulf Asia and Europe and now boasts America will fall into her hands like overripe fruit.

We must wake up to the fact that this is about 40 per cent accomplished. Communist infiltration into our Federal Government should jolt us out of our complacency. They are skillfully, but patiently, meshing our economic and political ideas and one day we awakened to find we're completely controlled by Russia, via the U. N.

Poland, China, Korea could tell us, but they can no longer talk, so we must listen to men like General Douglas MacArthur, General Wedemeyer, Chiang Kai-shek, J. Edgar Hoover, William E. Jenner, to bear witness to the truth, including the late Senator Joseph McCarthy. To coin a phrase by Edmund Burke, "All that is necessary for the triumph of evil is that good men do nothing."

Doing Something — Telling You

'We Can't Follow Advice Like That'

If we, the people of Michigan, took the advice of 100 Per Cent Michigander, we'd be feuding with 48 states and half the world. We can't as a state (just as a nation) live only within our own boundaries. Let's educate, not condemn.

Thomas

'I am Operators Don't Interfere'

In regard to the complaint about an amateur radio operator, FJB obviously has an inferior radio or TV. A very strong signal, such as an amateur, taxi, police or any other close radio will force its way into the set.

A high pass filter, which all TVs are supposed to have when sold, or a trap installed in the radio will take care of this. If you will call the FCC office in Detroit, they will verify this.

Amateur stations are licensed like all stations and the same laws apply. Before an amateur station is put on the air it's checked to be sure it won't cause interference. If you visit this "ham," he'll gladly show you his station doesn't bother his TV or radio and would be glad to help you with your trouble.

George Griebel Jr.

'If All Close, None Is Hurt'

Stores should close on Sundays except for bare necessities. Employees should have the day to go to church. If all stores close, merchants wouldn't lose business.

Colleen Richardson

One Man's Meat Is Another's Poison

The Press has always been a fine newspaper, but the Saturday editorials make it even better. Keep up the good work. It takes courage to stick one's neck out, but that's what makes a community great.

Dr. William A. Gordon

There are times when I think the Saturday editorials are lacking in logic, are of a partial attitude when impartiality is called for, sometimes even arrogant and not always free of conceit.

R. D.

Case Records of a Psychologist:

Action Is Best Remedy for Blues

Millions of you readers may feel like Martha, at least when you waken in the morning. For it is malarkey to think we should be full of pep and bubbling over with vitality the moment we open our eyes. However, if you chronically feel blue and moody, memorize the surefire remedy below. Force yourself into action fast.

By DR. GEORGE W. CRANE

CASE A-432: Martha K., aged 17, is a high school senior. "Dr. Crane, I feel so blue and moody," she moaned.

"Other people seem so gay and happy, while I sit at home alone and indulge in a fit of the blues."

"Sometimes I figure that life isn't worth living. I have even toyed with the idea of taking an overdose of sleeping pills."

"Do I need a tonic or some medicine or what?"

BLUE TONICS

"You cannot be blue and be active," runs an old adage of psychology.

And this holds true, even when you may occasionally need an iron tonic or thyroid extract etc.

Some medical tonics may help pep up your heart action and give your muscles more energy.

But you can also pep up a sluggish body just by mental prodding alone. Make an agenda, both of your workday duties, and also of your home chores as well as social obligations.

Most of us waken in the morning rather sluggish and even inclined to be blue.

The old idea that we should immediately spring out of bed each dawn, full of pep and hitting on all eight cylinders, is pure malarkey.

A healthy American wakens with his blood pressure low and his blood sugar reduced. His stomach is also full of mucus swallowed during the night.

He hasn't had food for probably 12 hours. And his heart is beating two or three beats slower than normal.

So his entire physiology is sluggish. It takes maybe 30 minutes for the body and the mind to "warm up." And this "warming up" is true of your automobile motor, too.

Even in the factories, output is low the first half hour in the morning and also the first 30 minutes after lunch, for the workers are then "cold."

Output zooms when they finally get warmed up to their jobs.

So deliberately make yourself go through the proper MOTIONS, for soon you will begin to feel the corresponding EMOTIONS!

RULE FOR HAPPINESS

That's a basic rule for happiness. The longer you sluggishly sit in a chair, bemoaning your friendliness state, the longer it will be until you win friends and become a vital personality.

Public speakers and musicians often feel sluggish before they go on the stage.

But they have learned to "act" animated and vivacious. Thus, when he steps into view, many a

dance orchestra leader may twirl his baton smartly and even do a cart-wheel or handspring to show his apparent surplus energy.

Actually, he turns on that show of excessive energy for purely psychological reasons, since he may have felt blue and even

half sick with flu until his cue demanded that he stride from the wings of the theater.

So don't alibi your moodiness on your health. Sick or well, you can at least ACT gay and happy, and soon that "act" may become real.

But it is wise to have a medical check-up every 6 months to a year.

Martha, for example, was somewhat anemic, but not more so than thousands of other girls who are vivacious and gay.

If you want a blueprint for happiness, send for the "Compliment Club" booklet, enclosing a stamped return envelope, plus 20 cents (non-profit).

It can add zest and banish your blues in short order.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long stamped, self-addressed envelope and 20¢ to cover printing and postage when you send for his psychological charts and pamphlets.

Bob Considine Says:

Air Force 'Pitches' for Pilots, Navigators

NEW YORK—The stress placed on our missile program, and the public's resignation to the inevitability of push-button warfare, is making it tough for the Air Force to find enough new young pilots and navigators.

There's no trouble finding air-men, maintenance people, re-enlistees of several types (who get bonuses up to \$1,000), nurses, WAFs and others needed for the world's greatest Air Force. But the young men who fly the planes are proving a bit shy.

The quota for this fiscal year is 3,170 pilots and 3,525 navigators. We're 522 pilots and 1,052 navigators behind schedule despite a sales program few industries could match.

Why? Well, we asked Maj. Gen. Elvin S. Ligor Jr. The soft-spoken Virginian, who flew B24s in the big one, is in charge of procurement. He shrugged and answered, "Too

many people have been led to believe that the age of the manned aircraft is washed up.

"They forget that the flier, and the fellow who shows him how to get there, remain the guts of the Air Force. We're flying transonic and supersonic aircraft now.

In 10 or 15 years we'll have manned space craft available, and so will Russia. We'll be in an awfully dangerous position if we haven't got the men to fly those space vehicles, and they have."

SALESMEN

To find the youths, some 1,800 of the 2,600 members of the Air Force on recruiting duty are listed as "salesmen." They are generally well-up-in-sergeant circles, are picked for personality, good looks, persuasiveness, undergo 8 week courses at Lackland (Tex.) Air Force Base in public speaking and related courses.

Spread through the country, they take active roles in their communities, join service clubs (one has risen to president of his Kiwanis in Arizona), appear at high schools to speak on "career day," speak over radio and TV, get to know the local editors and provide feature material, ring doorbells of likely prospects. We asked the general what a sample pitch might be like.

"Well, a 'salesman' with 10 years or so experience in the Air Force might bring along his wife with him when he calls on a prospect and say, 'Look what the Air Force has done for us.

"What private corporation could offer you a 4-year contract with no firing clause? Could private industry give you the same opportunity to travel, as the Air Force can? We've got fields and bases all over the world, all the places you want to see.

"Who else is going to give you

and your family free medical care? How many companies would let you retire after 20 years at 50 per cent of base pay, or 75 per cent of base pay after 30 years?

"Where else can you complete your education free? The Air Force maintains some of the finest technical schools in the world, and offers every other type of academic training, and you study at government expense."

\$450 A MONTH

The General stopped short when we impulsively volunteered. The Air Force is becoming necessarily selective, he said, pointedly. The air cadet it chooses must be between 19 and 26 and pass an involved, but fair, aptitude test.

He must have a high school diploma. He gets no special preference with a college degree, if he fails to shine on the aptitude test. Just four years ago only 5 per cent of those entering the

Air Force with no previous service record were high school graduates. Today the figure is 85 per cent.

The air cadet cannot marry during his training period, but can the moment his wings are pinned on him. As a bachelor second lieutenant he receives \$222 base pay, \$115 flying pay, \$68 for his quarters and \$43 for his subsistence—\$452 a month (\$470 if married, plus further benefits for up to two children).

M/Sgt. Lawrence C. Landis, crack "salesman," puts it this way in his book "The Air Force—From Civilian to Airman": "The Air Force pilot is anything but ready for the museum... the complex weapon systems now in use and those being developed emphasize the Air Force's need for men who have the capacity to absorb highly technical skills, who can assimilate new knowledge and grow into positions of leadership... most of the field-grade officers and senior noncoms... will be eligible for retirement in the early 1960s.

"Any young man joining the Air Force from 1958 through 1960 should encounter wide-open opportunities for rapid advancement... If that don't get 'em, nothing will.

McNamara Says Budget to Ruin Highway Plans

WASHINGTON (AP)—Sen. Pat McNamara (D-Mich.) commented yesterday that President Eisenhower's budget proposals if taken at face value "may well sabotage the national highway program."

McNamara is the newly appointed chairman of the Senate Public Roads Subcommittee.

Michigan's other Democratic Senator, Philip A. Hart, said "This budget will not make Americans stand taller with the confidence that the work of our growing country can and will be done. It now is up to the 86th Congress to write such a program for our people."

Romney's Salary Set at \$200,700

After Taxes It Dwindles Down to \$67,365, Plus Retirement Benefits

DETROIT (AP)—George Romney, President of American Motors, had gross income of \$200,700 in salary and bonus in the company's fiscal year ended last Sept. 30, says a company proxy statement.

Salary-bonus for three other executives amounted to \$113,160 each. They are Roy D. Chapin Jr., automotive division general manager; Bernard A. Chapman, appliance division general manager, and Roy Abernethy, automotive marketing vice president.

The proxy statement, advising shareholders of a meeting Feb. 4, estimated Romney's total income for fiscal 1958 after taxes, at \$67,365 and estimated his retirement benefits at \$25,000.

The after-tax income of Chapin, Chapman and Abernethy was put at \$51,300 each. Their annual retirement benefits were listed as Chapin \$23,511; Chapman \$23,322 and Abernethy \$15,657.

The bonus payments to the top executive officers included credits for the last two fiscal years.

Governor's Mother Starts Monday on Africa Tour

DETROIT (AP)—World traveler Mrs. Henry P. Williams of suburban Grosse Pointe Farms, mother of Gov. G. Mennen Williams, will leave Monday on a 2½-month tour of Africa.

Williams said his mother and a group of friends will sail aboard the Gripsholm, encircling Africa and making a number of trips inland. They will return in April. Last year, Mrs. Williams took a cruise to the South Seas.

A girl can always tell when married... An optimist is someone she's met the right man. Some one who thinks love is a game of times it's about a year after she's chance. —Earl Wilson.

To be
Understanding
...to be aware, without being told, of the need for sympathy and guidance and to give them without reservation... this is a part of our creed.

CHAPTER XXXI

Angus looked at Angela's face and bent to kiss her. "You see?" she said. "We're in the same boat, we can see that something's wrong, but we can't work out quite what it is. And so if we stop worrying, things will sort themselves out. Won't they?"

He grinned. "I can sit back and leave everything to the Admiral. He told me he was certain that Tarrant was behind it all, and he's lying in wait for him." He rose. "Come on, and see Ferdie. After that, I've got to inform headquarters that two of the passengers have left the coach."

"Must you tell them?"

"Yes, Ferdie. They must be told of Chalkers up all the details."

"Will they hold it against you?"

"That won't matter much. I hope they won't hold it against Wax Sealing for recommending me."

They walked slowly across the garden, and a small smiling boy threw open a door to admit them to the house. Angus paused to look down at him and to say a few friendly words.

"It was your father's car, I hear that Senator Zoller heard?"

"Yes, Senator. It is a good car, a new car. And my father is a good driver. Tonight they will reach Caracas, tomorrow, my father said, he will get the Senator to Algeiras."

For a moment Angus stared at him, and then he walked on beside Angela. She glanced up at him uneasily.

"Why did they say they were going to Lisbon if they were going to Algeiras?" she asked.

He had no answer to give her. He had not the remotest idea why they had gone to Algeiras—or even why they had gone.

COACH WAS EMPTY

The coach, without the Zollers, looked strangely empty.

Angus, after the first half hour of the run, suggested a change of places. Mrs. Denby-Warrie moved across to sit behind Angela, and the Admiral moved into her vacant seat behind Maurice Tarrant. The seating had now a more balanced appearance, but the minds of the passengers remained on the Zollers.

"Odd sort of pair," said the Admiral, to nobody in particular. "Wonder how he made his money?"

"He didn't make it," answered Maurice. "Other people made it for him. It's the sort of thing we'd all like, but very few of us manage to bring it off. Zoller gets on to the track of some one who's got a scheme but hasn't the money to launch it. He doesn't advance him the capital, he simply buys the idea and it always turns out to be a gold mine."

"How, do you know?" asked Miss Seton.

"Oh, just by talking to him," said Maurice airily. "I dined with them last night and they both opened up surprisingly. Zoller told me that his original capital was nothing more than an inflexible sense of what was going to pay off. He said that he doesn't have to think about money matters, he merely feels. Knowledge is no good unless you've got the instinct. He just has to shut his eyes and let his instinct guide him."

"Rather him than me," granted the Admiral. "When I close my eyes, I don't want to see money."

"I do," said Maurice. "Zoller told me that everything he bought paid off. All his businesses thrived. Thrived. It was reassuring to have all that money next door to me. I missed them last night."

"Last night?" Miss Seton's voice was surprised. "I thought Mr. Graham said they didn't leave until this morning."

"They didn't," said Angus, "but they asked me if they could change their room. They went down last night to the empty room between yours and Mr. Holt's."

"Her eyes were fixed on Angus, and he saw their expression slowly changing. The room next to mine."

"You mean that they were there last night?"

"Surely not?" put in Mr. Holt. "Miss Seton and I came in fairly early and there wasn't a sound and there wasn't a light."

"They were there," said Angus. "They were probably asleep when you came in. And they were up and away very early this morning, so you probably didn't hear them."

"What was their hurry?" asked the Admiral. "I understood that they didn't have to be in Lisbon until the 25th."

Angus hesitated. Mr. Zoller's business was his own. But he had said that he was returning to England on an Empress and it was not unlikely that some of those now in the coach would be with him and they would learn that he had not been called to Lisbon.

"They didn't go to Lisbon," he said.

"Back to England?" inquired the Admiral.

"No. They went to Algeiras. 'Algeiras?' Miss Seton's voice was so amazed that Angus turned to look at her. She was staring at him, her face pale and drawn. "Are you quite certain they went to Algeiras?"

"They hired a car and they'll get there tomorrow," said Angus. "Did he... Was it a telegram?" she asked slowly.

"I'm afraid I don't know," said Angus. "Nothing came through wait for him." He rose. "Come on, and see Ferdie. After that, I've got to inform headquarters that two of the passengers have left the coach."

"Must you tell them?"

"Yes, Ferdie. They must be told of Chalkers up all the details."

"Will they hold it against you?"

"That won't matter much. I hope they won't hold it against Wax Sealing for recommending me."

They walked slowly across the garden, and a small smiling boy threw open a door to admit them to the house. Angus paused to look down at him and to say a few friendly words.

"It was your father's car, I hear that Senator Zoller heard?"

"Yes, Senator. It is a good car, a new car. And my father is a good driver. Tonight they will reach Caracas, tomorrow, my father said, he will get the Senator to Algeiras."

For a moment Angus stared at him, and then he walked on beside Angela. She glanced up at him uneasily.

"Why did they say they were going to Lisbon if they were going to Algeiras?" she asked.

He had no answer to give her. He had not the remotest idea why they had gone to Algeiras—or even why they had gone.

COACH WAS EMPTY

The coach, without the Zollers, looked strangely empty.

Angus, after the first half hour of the run, suggested a change of places. Mrs. Denby-Warrie moved across to sit behind Angela, and the Admiral moved into her vacant seat behind Maurice Tarrant. The seating had now a more balanced appearance, but the minds of the passengers remained on the Zollers.

"Odd sort of pair," said the Admiral, to nobody in particular. "Wonder how he made his money?"

"He didn't make it," answered Maurice. "Other people made it for him. It's the sort of thing we'd all like, but very few of us manage to bring it off. Zoller gets on to the track of some one who's got a scheme but hasn't the money to launch it. He doesn't advance him the capital, he simply buys the idea and it always turns out to be a gold mine."

Hollywood Headlines

Stormy History in Films Recalled by Olivier

The dominant figure in the realm of English-speaking actors is Sir Laurence Olivier. He recently returned to Hollywood after an eight-year absence. Columbia Pictures took advantage of the visit to produce a two-volume three-part series on the star. This is the first.

By BOB THOMAS

HOLLYWOOD (AP)—He was dropped by David Selznick when he refused a pay cut. Greta Garbo fired him as her leading man. Now he's back in Hollywood where he's back in the world's greatest living actor.

"Never in the whole of my life," said the Admiral aggressively, "did I ever have a touch of irritation. 'Rodney, do think!'"

"Windmills," prompted Maurice. "Damsels in distress. Sancho Panza."

"If you're talking about Don Quixote, of course I know," said the Admiral angrily. "Do you refer to Paris as Poree, or to Florence as Firenze? No. So why give Don Quixote a fancy pronunciation? And why bring him up at all?"

"Because the first part of the book was written by Cervantes at Valladolid," said Maurice. "The house is a State monument. I'll take you round." He offered "Lots to see. Columbus died there. Philip II was born there and Cervantes lived there. What more could any city ask? Only one thing, and now it's going to get it. Maurice Tarrant lunched here." He looked at Angus. "Let's have drinks now, to celebrate."

If anybody had asked the Admiral to look at the sights of the city before lunch, he might have agreed; as the suggestion was made after he had eaten gazpacho, tortilla, and terrina con cino, no spark of enthusiasm could be raised in him.

Social Security Advantages

Tax Breaks Given After 65

By RAY HENRY

AP Press Writer

The government recognizes that when people reach 65 their income is likely to drop. To make up for some of the lost income, it gives people 65 or over special breaks beyond what other people get when they figure how much federal income tax if any they must pay between now and April 15. This is the first of three columns explaining the tax privileges.

The federal income tax law gives two special breaks to everyone who's 65 or older regardless of whether they work or the size of their income.

There are also special breaks for those who've reached 65 and have retired or have only small incomes from working.

These breaks can mean that your tax bill for 1958 will be less than if you were under 65 or that you'll have to pay no tax at all. You can claim them on your 1958 income tax return if your income is such that you must file one.

In this column, I'll explain the two breaks everyone 65 or over can claim. The next two columns will tell about the privileges for people who've retired.

The main break — if you're at least 65 — is that you don't have to pay any federal tax on the first \$1,200 of your income. Most people under 65 can claim an exemption on only \$600 of their income.

(In figuring your income, you can leave out any Social Security, railroad retirement and veteran's pension or compensation you're receiving. They're tax free.)

This means you don't even have to file a tax return if your income — excluding Social Security, railroad retirement and veteran's payments — is less than \$1,200.

A man and wife who are both 65 or older and who file a joint tax return may claim an exemption of \$2,400. And, they don't have to file a return unless one of them has an income of more than \$1,200.

However, if either you or your wife worked and your employer deducted some tax from your pay, you will want to file a return to get a refund of this money even though your income in 1958 was below \$1,200.

The second big tax break — if you're reached 65 — allows you to deduct the full amount of your doctor and hospital expenses from any income you have beyond that which is exempted from tax.

For example: Suppose you paid \$400 in medical bills in 1958 and, after your \$1,200 exemption, you had \$2,300 income. You can deduct the \$400 from the \$2,300, pay tax on the remaining \$1,900.

Incidentally, you're considered 65 for the entire year of 1958 if you reached that age anytime during the year or on Jan. 1, 1959. Thus, if you reached 65 anytime from Jan. 1, 1957, through Jan. 1, 1959, you may claim the tax breaks allowed people 65 or over.

Of course, there are many other features of the income tax law applying to persons of all ages which older people may want to look into.

If you're in doubt about any of the special or general tax breaks, don't hesitate to write or have a talk with the nearest Internal Revenue Service office. That's the only place you can get official answers to your tax questions.

Two Escape Death From Gas Fumes

GRAND RAPIDS (UPI)—Two children narrowly escaped death last night when coal gas fumes filled their home in Walker Township, a suburb of Grand Rapids.

Diane Duley, 14, and her brother, Leonard Jr., 5, were found unconscious when their parents returned home shortly after 8 p.m. after shopping for new furniture.

The children were revived by Walker Township firemen who used a resuscitator. Firemen said a vent pipe on the stoker-fed furnace in the Duley home became disconnected, causing the coal gas to fill the house.

Car-Truck Collision Fatal to Niles Man

ARGOS, Ind. (AP)—Estel Ecker, 52, of Niles, Mich., was injured fatally Monday in a car-truck collision two miles south of Argos on ice-covered U.S. 31.

Police said he was thrown from a car driven by his son, Owen, 22, of Argos, when it skidded into the path of a truck. The son suffered back and head injuries.

Turkey exported 2,640,000 quarts of wines and liquors during 1957 compared with 2,100,000 quarts in 1955, 1,380,000 in 1952, and 628,778 in 1950.

Family Cat May Prove Expendable

CHICAGO (UPI)—The Anthony Lucio family was divided today over the motives—and the fate—of Lucky, the Lucio cat.

One side, headed by Lucio, 38, who missed breakfast and went to work unchained yesterday, felt the cat is not indispensable to the family's welfare.

The five Lucio children, aged 3 to 11, disagree.

According to Lucio, the cat somehow managed to turn on the kitchen faucet, closed the automatic sink drain, and watched water flood the first floor and basement "with a kind of smirk on his face."

According to the children, Lucky turned on the hot water faucet and let it overflow to wet down the family wash in the basement.

Family arbitrator Mrs. Lucio showed signs of siding with her husband.

"Lucky's a very intelligent cat," she said, "but a cat that has to go."

Pontiac Youth to Get 'Chance' Behind Bars

A 20-year-old Pontiac boy, who pleaded yesterday "for another chance," was sentenced to prison for 1 to 15 years for breaking into an auto bump shop in the city on Christmas Eve.

The sentence was imposed upon Howard Hatchett of 180 Wessen St. by Oakland County Circuit Judge William J. Beer. Hatchett pleaded guilty to the charge Jan. 5.

Hatchett and two companions, Arthur F. Brown Jr. and Alexander Spears Jr., both of whom also pleaded guilty, admitted breaking into the Pontiac Auto Body Service, 245 E. South Blvd., and stealing antifreeze, two headlights, a radio, sledge hammers, oil, whiskey, and \$5 in cash.

Brown and Spears are scheduled to be sentenced Jan. 26.

New Labor Bill Aimed at Hoffa

Kennedy Unveils Plan to Curb Racketeering in Unions

WASHINGTON (AP)—Sen. John F. Kennedy (D-Mass.) today unveiled a new labor-management control bill he said was specifically aimed at practices of such figures as Teamsters Union President James R. Hoffa.

Kennedy, in a speech prepared for the Senate, called the measure "a strong, effective reform bill which would virtually put Hoffa and his associates out of business."

The new bill is quite similar to the Kennedy-Ives bill which passed the Senate 88-1 last year but died in the House. That measure was sponsored by Kennedy and former Sen. Irving M. Ives (R-NY).

Its key provisions would set up an election code for all unions, require public financial accounting by unions, fix criminal penalties for mishandling of union funds or books, and make some changes in Taft-Hartley law sections objected to by both labor and management.

Kennedy emphasized in his speech that "this is primarily a labor-management reform bill, dealing with problems of dishonest racketeering—it is not a bill on industrial relations, dealing with the problems of collective bargaining and economic power."

He said he hoped that senators would not confuse the issue on reform by seeking to attach to his measure their pet proposals for changing Taft-Hartley.

Prison Term Given for \$40 Bad Check

For issuing a \$40 check without an account in Bloomfield Township two months ago, Earl Gooch, 25, of 13 Chamberlain st., was sentenced to the State Prison of Southern Michigan at Jackson for a term of 1 1/2 to 2 years.

Oakland County Circuit Judge William J. Beer handed down the sentence yesterday.

Memorial for Osborn

POULAN, Ga. (AP)—The 99th birthday anniversary of the late Chase S. Osborn, former governor of Michigan, will be celebrated Thursday with a tree-planting ceremony in his memory at the Chase Osborn roadside park here. Osborn was a long-time winter resident of this South Georgia community.

Congress Liable to Raise Budget, Not Decrease It

WASHINGTON (AP)—The House Appropriations Committee started work on President Eisenhower's 77-billion-dollar budget today with two key members saying it can be cut.

But the general tenor of comments among Democrats — who hold large majorities in both House and Senate—indicated that Congress is more likely to raise than to decrease the total.

Maurice Stans, director of the Budget Bureau, and Secretary of the Treasury Robert Anderson were called before the committee to explain details of Eisenhower's spending plans for the year starting July 1.

Both Chairman Clarence Cannon (D-Mo.) and Rep. John Taber of New York, senior committee Republican, said they believed the budget could be cut.

They never saw a budget that couldn't be cut, they said in separate statements. But they didn't say where or how much. The committee will work several months on those questions.

Following today's meeting of the will break up into subcommittees to start whipping into shape more than a dozen separate bills providing the money to finance the budget.

The first of the subcommittee, and he largest, already has directed Secretary of Defense Neil McElroy to provide later this week details of the military portion of the budget.

About 60 per cent of the projected spending is for defense, with emphasis on missiles and space exploration.

That might not be enough, commented Rep. George Mahon (D-Tex.), head of the Defense subcommittee. Mahon said he feared the defense budget "may have been shaved too close."

Cannon minced no words. He called the budget a political document based on "contingencies which no one expects to materialize."

He referred to Eisenhower's estimate that an expanding prosperity will add nine billion dollars to the revenue totals estimated for this year.

Numerous other Democrats contended with Cannon that the estimate was more optimistic than the economy now seems able to support.

Other officials, including administration experts, said the estimate is realistic—even conservative — in the light of booming corporate profits and a continuation of the business upswing.

Eisenhower said tax receipts "should grow even faster than national income."

Panty Raid Expensive to 6 Colorado Students

GOLDEN Colo. (AP)—At least six Colorado School of Mines students will think twice before they stage another panty raid.

They raided the girls' quarters at Colorado Women's College. Mines officials ordered the youths to pay \$102, the replacement price set on undergarments

listed as missing by the girls, and for damaged screens and broken windows.

Escapee Is Lone Wolf

NEFANE, Vt. (UPI)—Officials said they weren't surprised that Arnold Stevens Jr., 23, had escaped from the county jail. He "just didn't seem to get along with anyone," explained sheriff Norman Robinson.

OP Senators Strategy Meet

Plan for Committee Cramble in Face of 4-34 Minority

WASHINGTON (AP)—The Senate 34 Republican members go to closed doors today in an effort to settle their scramble for choice Senate committee assignments.

They also faced a possible effort by an insurgent GOP liberal to block the election of Sen. Goldwater of Arizona as chairman of the Republican National Campaign Committee.

Sen. John Sherman Cooper (R-Ia.) has suggested that because Goldwater's long running feud with some labor union officials, giving him head of that committee would invite a charge that GOP is antilabor.

Goldwater contends he is not antilabor and that liberals are trying to "stifle the voice of the conservatives" in GOP circles.

The Senate GOP Committee on nominations failed again Monday night to get an agreement on how to parcel out 17 vacancies on committees among the 34 Republicans.

Usually, senators with the most seniority get first call on any committee vacancy. But the Republicans are trying this time to guarantee that each of three new GOP members gets at least one major committee post of his choice.

This reportedly has been backed up to now by refusal of the oldtimers holding two or more choice assignments to relinquish any of them.

ask Judge to Declare
Bradley Victims Dead

CHARLEVOIX (UPI) — Probate Judge William T. Downs said today he will hold a hearing Feb. 15 in a petition asking that 15 men lost their lives in the sinking of the freighter Carl D. Bradley declared officially dead.

The bodies of the 15 crew members have never been found and that reason no death certificate has been issued for them.

Downs said Michigan law provides that in the event of a disaster, testimony may be presented in probate court to have a son declared dead after he has been missing for at least 60 days.

The Bradley sank during a wild storm on Lake Michigan Nov. 18, 1957. Two members of the 35-man crew were rescued.

in Quentin Prison
Kills for Film—'The Cell'

LA GRANDE, Ore. (AP)—William P. Wells, director of audio-visual aids extension and film library at Eastern Oregon College, has requested a unique request.

came from the supervisor of academic instruction at California's San Quentin Prison. Wells requested a film — "The Cell."

Chinese Hold 13 Clerics

HONG KONG (UPI) — Three Christians and 10 Roman Catholics in Inner Mongolia have been arrested by the Chinese Communists for allegedly conspiring to overthrow the Peiping regime, according to reports received here.

THE TRUTH
HURTS

When your world is built on a foundation of lies... the truth hurts! That's why the Communists try so hard to stop the truth. And that's why it's so important for you to help air the truth behind the Iron Curtain!

News of Service Personnel

Army Spc-4 Henry E. Cassidy has been awarded the commendation ribbon with metal pendant at Fort Chaffee, Ark.

He is the son of Mr. and Mrs. Shyrl L. Cassidy of 9471 Portage Trail, and a 1952 graduate of Walled Lake High School. He was cited for his performance of duties as chief administrative clerk for the Headquarters Commandant's Office at Fort Chaffee.

CASSIDY

Navy Storekeeper Gary S. Lee has been promoted to the rank of petty officer third class. He is serving aboard the USS John R. Perry, Destroyer Escort, based at Charleston, S. C. He previously served 16 months aboard the USS O'Hare, Destroyer Radar, at Norfolk, Va.

The son of Mr. and Mrs. Edwin W. Lee, of 329 Elm Ct., Walled Lake, Lee entered the service in May, 1956, undergoing recruit training at Great Lakes Naval Training Center, Ill. Lee attended Walled Lake High School.

Army Pvt. Gene F. Stigall, son of Mr. and Mrs. Jesse Stigall, of 5417 Mary Sue Ct., Clarkston, has returned to Fort Bragg, N. C., after a furlough. Pfc. Stigall completed basic training at Fort Knox, Ky., and advanced basic at Fort Bragg.

STIGALL

Downs said Michigan law provides that in the event of a disaster, testimony may be presented in probate court to have a son declared dead after he has been missing for at least 60 days.

The Bradley sank during a wild storm on Lake Michigan Nov. 18, 1957. Two members of the 35-man crew were rescued.

Chinese Hold 13 Clerics

HONG KONG (UPI) — Three Christians and 10 Roman Catholics in Inner Mongolia have been arrested by the Chinese Communists for allegedly conspiring to overthrow the Peiping regime, according to reports received here.

Mrs. Glenn Schulz of 220 Dick Ave., has been promoted to the rank of Naval dental technician second class.

A 1955 Pontiac High School graduate, he enlisted in the Navy in August, 1955, undergoing basic training at Great Lakes Naval Training Center, Ill.

Dental technician training was completed at San Diego, Calif. He received field medical training at Camp Pendleton, Calif., and has been stationed at the U. S. Marine Corp. Air Station, Kaneohe, Hawaii, for the past 2½ years.

Ray McClusky, son of Mr. and Mrs. John G. McClusky of 27 N. Johnson Ave., has been promoted to the rank of private first class at Fort Bragg, N. C.

Pfc. McClusky entered the Army in April, 1958, receiving basic training at Fort Knox, Ky. He then was assigned to a Machine Records Unit, Mobil at Fort Polk, La.

After spending a leave with his parents, Mr. and Mrs. Earl Retzlaff, of 6515 Graham St., Waterford Township, E. Michael Retzlaff, Naval F. M., has returned to duty aboard the USS Bigelow at Norfolk, Va.

A 1957 graduate of St. Frederick High School, he recently returned from a 40-day cruise to the Caribbean area and Africa.

He may be written: E. Michael Retzlaff, F. M., USS Bigelow-D.D. 942, M. Division, Fleet Post Office, New York city.

Army Pfc. Lawrence Scott, son of Mr. and Mrs. James Scott, of 2119 Stout St., Keego Harbor, has returned to Hanau, Germany, after spending a 45-day emergency leave in the city. He was called home by the American Red Cross because of the illness of a brother.

RETZLAFF

Downs said Michigan law provides that in the event of a disaster, testimony may be presented in probate court to have a son declared dead after he has been missing for at least 60 days.

You may be flown to Europe to broadcast it yourself... or you may be awarded one of 200 high-powered Hallicrafters short-wave radios!

Pfc. Scott is to report to Hanau before rejoining the rebuilding team with which he is connected. The team travels throughout the area rebuilding tank engines. He has been stationed in Germany since December, 1957, and may be written: Pfc. Lawrence Scott, RA 16581649, 124th Ordnance (HM), APO 46, New York, N. Y.

Salesman Sells the Ad,
but It Took Real Work

NORMAN, Okla. (U)—There's just no stopping some salesmen.

When Dave Vandivier, Norman Transcript representative, called on feed dealer Harrison Wages to sell him an ad, he was told: "I'm sorry, but I don't have time to talk about it today—I have a whole truck load of feed to unload."

Vandivier took off his coat, pitched in and spent a half hour lugging 100-pound sacks of feed. (He sold the ad.)

Fire Surface Missile Successfully in Field

WHITE SANDS MISSILE RANGE, N.M. (AP)—Army field troops have fired off a Redstone surface-to-surface missile, capable of carrying an atomic warhead, for the second time.

The Redstone's second inland firing was accomplished Monday by troops of the 209th Field Artillery missile group as part of their graduation exercise.

It was the second reduced-range performance for the 200-mile-range missile.

It's a Weighty Project

JACKSON, Miss. (UPI) — After two weeks of trying, police officers have been unable to find a claimant for the 300-pound tombstone found in a ditch near here and bearing the inscription: "Nancy Plemon, Dec. 29, 1871 — Jan. 22, 1948."

Absent-Minded Woman Drops Cash on Bus

SAN FRANCISCO (AP)—An absent-minded woman forgot her shopping bag on a bus.

Driver William T. Dunleavy turned it in to the bus system's lost and found office. A tin box in the bag contained \$6,280 in cash.

Through a postcard, lost and found manager Paul Frasher traced the bag and box to Mrs. Ann Comins, widow of a city sheet metal worker.

Mrs. William E. Comins, a daughter-in-law, told Frasher the elder Mrs. Comins hadn't yet realized she had lost the shopping bag.

"And we didn't know she was carrying all that money with her."

Kenilworth, N. J., store owners face a \$10 fine for every super-market shopping cart of theirs that is abandoned on city streets, under a new city ordinance.

Before you start feeding a too-big '59 car... See the Compact '59 Rambler. Save more than ever on first cost, gas, upkeep.

You've seen the others grow in size and price—now see how much more you can save with Rambler. Hundreds on first cost. New gas economy. Top resale. Easiest parking. Personalized Comfort: sectional sofa front seats glide back and forth individually. Go Rambler 6 or V-8.

PONTIAC: Bill Spence, Rambler Sales & Service, 211 S. MARILYN M. NELSON

At Kremer Home

Bride-Elect Feted

Kathy Young, bride-elect of Dean McConkey of Durand, was honored at a linen shower Monday evening given by Mrs. Theodore Cohassey and Mrs. Lee Kremer at the Kremer home on Isbright avenue.

The daughter of Mr. and Mrs. Manley Young of Cherokee road, Miss Young will exchange vows with Mr. McConkey, son of Mr. and Mrs. Robert McConkey of Durand, March 21 at First Congregational Church.

ATTENDANTS REVEALED
Announcement was made that Mrs. George Heine will be matron

of honor for the ceremony. Bridesmaids will include Mrs. Cohassey, Alice Bego, Joan Skelly, Mary Ann Crozier and Rae Nancy Fife of Pittsburgh, Pa.

Guests present were Mrs. Young, Mrs. McConkey, Mrs. Robert Young, Mrs. Anton Bego, Mrs. Ward Richards, Mrs. Charles Turner, Mrs. Robert Clendenin, Mrs. Earl Phillips, Mrs. James Aldrich and Mrs. Heine.

Also attending were Mrs. Wilma Dickinson, Mrs. Aaron Fox, Mrs. George Irwin, Mrs. William M. Palace, Mrs. Robert Wright, Miss Bego, Miss Skelly, Miss Crozier, Eileen Miller and Jerry Barnes.

Pythian Sisters Elect Officers

New officers of Fannie E. Tompkins Temple, Pythian Sisters, were installed Saturday evening at the Hall on West Huron.

Installing officer was Mrs. A. J. Roy, assisted by Mrs. Clyde Rankin and Mrs. Isaac Myers. Mrs. Clarence L. Smith was installed as most excellent chief for the coming year.

Guests included Mrs. Virgil Krugh of Battle Creek and Mrs. Edwin Pafineau of Detroit.

Mr. and Mrs. Lloyd Nelson of Farmington announce the engagement of their daughter, Marilyn Margaret, to Kenneth Alfred Kaestner, son of Mrs. Elizabeth Chetwood of Spokane drive. Miss Nelson is an Eastern Michigan College graduate. Her fiancé is a graduate of MSU.

Keep Riding the Bus — Abby

Warning Not Too Diplomatic but This Wife Knows Her Wolf

By ABIGAIL VAN BUREN

"DEAR ABBY: I have been riding back and forth from work with a married man—I am single. I didn't ask HIM, he asked ME. At first he had other riders but it ended up just the two of us. His wife called me up and told me that she didn't like the idea of just the two of us riding together, so I am now taking the bus. There was nothing between us and I was insulted. Did she have a right to do this?"

TAKING THE BUS
DEAR ABBY: His wife shouldn't have called you—she could have handled it by speaking to her husband. She guessed wrong this time, but depend on it—she knows her husband better than you do.

"DEAR ABBY: I am very much interested in a beautiful young woman who is very quiet and extremely secretive about her past. She once told me that she has been married and divorced twice and has had a third marriage annulled. She is not yet 20. I am 28, a mining engineer and have never been married.

"She is the first girl I've ever been in love with. When I try to get her to tell me more about herself she says she is living in the present, not the past. do you think her past is important? Should I insist in knowing more about her or has she a right to keep her past a secret?"

NORM
DEAR NORM: You don't need a geiger counter to know there is plenty of still water running deep under the surface here. With the record history has for repeating itself, excavate a lot deeper before getting any more involved.

"DEAR ABBY: I am a widow who has raised a daughter to be a nice respectable young lady. She is now 21 years old and holds down a good job.

ABBY

She has been going for two years with a fellow who talks marriage to her but he is slippery about making anything official.

"Since I have no husband to talk to him, do you think I should do the talking and find out what his intentions are with my daughter? In my day, a fellow wasn't allowed to waste a girl's time."

WHAT TO DO?
DEAR WHAT: In your well-meaning efforts to "save" time you could lose the fellow. Let your daughter find out what his intentions are.

"DEAR ABBY: I am almost

13. Me and about seven other girls went to the show the other night and all sat together except me and another girl. We sat in the back row because we knew our boyfriends were coming and we saved them seats. When the boys came they sat with us. We held hands a little but that's all.

"One of the other girls told her mother that me and this girl and our boyfriends were carrying on something disgraceful and my mother heard about it. Now she won't let me go to the show. Even with girls. Is this fair, Abby?"

DEAR KAREN: When you go to the show with girls you should all sit together. A girl shouldn't go to meet a boy unless she asks her mother's permission first.

CONFIDENTIAL TO
"Howie:" You might have been bred in Minnesota, but you were "battered up" in Wisconsin. Get better acquainted with her before you give her the ring.

For a personal reply write to ABBY in care of this paper. Enclose a self-addressed stamped envelope.

Bethune PTA Workshop Set

"Know Your Schools Better," will be the theme of the workshop held at the Bethune PTA meeting at 7:30 p.m. Thursday at the school.

The workshop will be conducted by members who attended the conference at Ann Arbor Saturday.

Those attending were Mrs. Purvis Hunt, Mrs. Robert Burns, Mrs. A. A. McCants, Mrs. Verl White, Mrs. Minnie Barrows, Mrs. George Groves, Mrs. George Price, Sylvia Peterson and Mrs. Deloris Graves.

Cass Ski Club Attends Carnival at Caberfae

Ten members of Cass Lake Ski Club spent last weekend at the Winter Carnival held at Caberfae Ski Resort, Cadillac.

Those attending were Larry Schriener, president; Mary Selway, Kelly May, B. J. Murphy, Karen Violetta, Al Sing, Dr. William Steele, Edward Shindler, Margaret Snyder and Alfreda Neuman.

The next meeting of the club will be Friday at the club house on Cass Lake, when Miss Violetta, club instructor, will show color slides of skiing in Colorado.

Safety Program Is Given for Bethune Pupils

A special assembly of all children at Bethune School was held Monday. School safety was the theme of the program, held in the multi-purpose room.

Joseph Zabalski, school safety director of the Automobile Club of Michigan was guest speaker. Assisting with the program were Robert Stasiuk, music teacher, Neville LaMotte, Erainer Traylor, and Johnny Sheppard.

A panel of service squad sponsors was moderated by principal, Mrs. Harry Killian. Panelists included Marina Bell, Minnie Barrow, Ophelia Harmon, and Cladell Jones, service girl sponsors; and John Harris and Raymond Hull, patrol boy sponsors.

Catholic Women Name Mrs. Swartz President

Mrs. Lewis Swartz was re-elected president of the League of Catholic Women at the annual board of directors dinner and election of officers held Monday evening at Hotel Waldron.

Others elected were Mrs. Charles Thayer, first vice president; Mrs. Matthew Gill, second vice president; Mrs. Delmo Chapdelaine, third vice president; Mrs. Charles Wagner, recording secretary; Mrs. Clenue Webster, treasurer; and Mrs. Carl Brown, corresponding secretary.

OTHER OFFICERS
Other officers are Mrs. George Michaels, financial secretary; Mrs. William Donahue, assistant treasurer; Mrs. Frank O'Neil, parliamentarian; and Mrs. Ernest Gray, auditor.

Mrs. Arthur Crawford was chairman of the nominating committee. Assisting her were Mrs. Thomas Carry, and Mrs. Fred Gottschalk.

New members of the board of directors are Mrs. S. J. McIsaac, Mrs. Omer DeConick, Mrs. Jack Seebald, and Mrs. Anthony Matynick.

Re-elected were Mrs. Carl Brown, Mrs. Chapdelaine, Mrs. Gill and Mrs. Marshall Sprague. Mrs. W. B. Dean was chairman of the nominating

committee for board of directors.

Scholarships Are Available

Scholarships are still available to deserving students by Cranbrook School for boys. Applications for these scholarships must be submitted by March 1 to the headmaster, Cranbrook School, Bloomfield Hills.

Any boy may apply for a grant if he will be eligible for entrance into grades 7 through 11 this September. Candidates should meet the following requirements: above average academic record, good school citizenship, and a proven need for financial aid.

Hoedowners Hold Sno-Ball Event

Hoedowners Square Dance Club held its "Sno-ball" dance Saturday evening at Owen School.

Guests were Mr. and Mrs. Carl Matheny, Mr. and Mrs. Leon Beason, Mr. and Mrs. Richard Wilton, Mr. and Mrs. Duane Brown and Mr. and Mrs. Bradley Gilkey.

Nurses to Hear Talk on Cerebral Palsy

Margaret Schilling will speak on cerebral palsy at the Oak and County District Nurses Association meeting to be held at 7:30 tonight at McAuley School Auditorium.

Miss Schilling is executive director of the Detroit Cerebral Palsy Center.

Recipe Corrected

The recipe for Carrot Relish which appeared in Monday's Pontiac Press should include two lemons instead of one.

2 Airlines Get Adverse Ruling

CAB Examiner Says Great Lakes and Curry Should Be Grounded

WASHINGTON (AP)—A Civil Aeronautics Board examiner has recommended that the operating authority of two supplemental airlines — Great Lakes, Burbank, Calif., and Curry Air Transport, Galesburg, Ill.—be revoked.

Examiner Merritt Ruhlen yesterday found both airlines, a group of associated ticket agencies, two officials—Irvig E. Hermann and Ida Mae Hermann of Burbank—had violated economic regulations.

Acting on a complaint filed by the CAB in 1954 Ruhlen declared Great Lakes and Curry in 1953 and 1954 jointly provided regular service to New York, Philadelphia, Chicago and Los Angeles, in spite of strict bans then in effect on frequent and regular service by non-scheduled operators.

Cited with the Hermanns were Nevada Aero Trades Co., a partnership of the Hermanns and owner of all the planes operated by Great Lakes and Curry; Air International Inc., a Nevada gasoline purchasing firm owned by Ida Mae Hermann; Great Lakes Airlines Agency Inc.; Skycroch Agency of Nevada Inc.; and Skycroch Ticket agencies in New York, Chicago, Los Angeles, Detroit and San Francisco.

Ruhlen said these companies and the Hermanns individually operated illegally as a "combine," and should be ordered to desist from either direct or indirect engaging in air transportation.

Ruhlen said the Hermanns admitted ownership of Great Lakes but denied control or ownership of Curry Air Transport. The examiner said testimony showed Hermann bought 95 per cent interest in Curry in June 1951 for \$10,000.

Ask New Liquor Tax to Offset Crime Cost

LANSING (UPI) — The Michigan Temperance Foundation today proposed special "narcotics" taxes on liquor and liquor advertising to help pay the state's crime and welfare costs.

"Any and all liquor taxes should be used to help offset the tax burden caused by the use of alcoholic beverages," the foundation said in an open letter to lawmakers.

One of the taxes could be in either of two forms, the foundation said. It could be based on the alcoholic content of beer, wine and liquor and be paid by the consumer. It also could be in the form of a gross income or corporation tax on makers of alcoholic beverages.

Canadian, U. S. Shippers Oppose Lake Diversion

OTTAWA (AP)—A resolution opposing any further diversion of water from the Great Lakes system has been passed by groups representing most lakes shipping.

A resolution adopted at the annual joint meeting yesterday of the Dominion Marine Assn. and the United States Lake Carriers Assn. was aimed particularly against a long-standing Chicago proposal to divert an additional 1,000 cubic feet a second from Lake Michigan into the Illinois canal system.

Legislation to authorize the diversion has been placed before the U.S. Congress in recent sessions but has not passed. The Canadian government has sent several notes to the State Department protesting any diversion.

The Canadian contention is that it would react against navigation and the production of hydro-power in conjunction with the St. Lawrence Seaway project.

The resolution, expressing "unalterable opposition" of the carriers, asked that Congress hold off any action on diversion until it can be studied by some international tribunal, such as the International Joint Commission.

It said all questions of Great Lakes diversion should be referred to a competent tribunal, and added diversion without such a provision would violate treaty rights of Canada and the United States.

J. J. Mahoney of Toronto, manager of the Dominion Marine Assn., said the matter should be one for action between Canada and the United States, that it would not be a good situation if Canada had no controls over the

Cuban Prison Bursting With Men Facing Trial

By ROBERT BERRELLEZ

HAVANA, Cuba (AP)—Jammed into a prison normally housing 150 inmates are 561 followers of ex-dictator Fulgencio Batista awaiting trial on "war criminal" charges.

Some probably will go free. Others will die before Fidel Castro's firing squads.

The prison is inside La Cabana Fortress on a hill overlooking Havana, not far from historic Morro Castle.

The prisoners — Batista police, military men and informers — are housed in large cells with interior bars like Quonset huts. Armed guards patrol the 20-foot walls. Escorted by two unarmed guards, our party of U.S. newsmen was given an unhindered visit to the cells.

The prisoners were reluctant to talk.

Finally one young prisoner said he would speak English "because what I say now the guards may take back to the prison director."

Other prisoners gathered and began airing complaints. The two escorts drifted off to chat with other prisoners playing cards. They seemed to be on good terms. Identified himself as Evelio Gil, 23, Havana-born military college cadet who joined Batista's police two years ago.

"The only crime I committed was to arrest some rebels," he said. "I struck or hurt no one."

He complained that the food and accommodations were bad and there was little or no medical attention.

The prison commandant, Alfonso Zayas, denied this. "They eat exactly the same food as the prison officials—rice, beans, bread, beefsteak and dessert," Zayas said. "The doctor comes several times a day."

Zayas agreed the prison was jammed far beyond normal capacity but said that could not be helped.

Another prisoner, former policeman Hector Figueroa, 29, claimed all he had done was "to arrest those who were putting bombs in theaters and other public places."

"Those arrested had court hearings, even defense counsel," Figueroa said. "On the other hand, the rebel tribunals are all made up of rebels. This is Russian-type justice."

Army Capt. Jose Luis Castro, 41, awaits trial on charges he would not reveal.

"I have a wife and two children, but I would rather be shot dead than see us under the hammer and sickle," he said, alluding to the oft-repeated charge by the Batista regime that Castro's movement was communist.

Three Roman Catholic priests came to visit the prisoners.

"They come every day to comfort us," said Gil, the English-speaking prisoner. Asked if he is afraid to face a firing squad, Gil replied: "No, I am not afraid because I speak the truth."

Car Theft Sentence

Oakland County Circuit Judge Frank L. Doty yesterday sentenced Thomas C. Fink, 27, of Rochester, to serve a prison term of from 2 to 5 years for car theft. A jury found Fink guilty of the charge Jan. 9.

Water Diversion Bill May Pass

Backers Confident New Plan for Great Lakes Will Succeed

WASHINGTON (AP) — Backers of legislation that would allow Chicago to divert additional water from Lake Michigan into the Illinois waterway say they think they have almost won the battle.

"This time," said Rep. Thomas J. O'Brien (D-Ill.) yesterday, "I think we've got a winner." O'Brien and Sen. Paul Douglas (D-Ill.) told a diversion strategy meeting they had high hopes that both houses of Congress would approve the bill early this year.

The measures introduced by O'Brien and Douglas in the House and Senate, respectively, would permit Chicago to divert an additional 1,000 cubic feet of water a second to raise the level of the Illinois Waterway for a trial period of one year.

The current diversion limit set by Congress and a Supreme Court decree is 1,500 cubic feet a second.

Similar measures twice have been vetoed by President Eisenhower because of Canadian objections. However, Canadian authorities have said they will not oppose the plan this year.

The bill passed the house last session, but died in the Senate in the face of a threatened filibuster by Sen. William Proxmire (D-Wis.) on the last day of the session.

Other Great Lakes states oppose diversion of additional water by Chicago on grounds it endangers shipping and hydro-electric projects by lowering Great Lakes levels.

Murder Hearing Set for Detroit Minister

DETROIT (AP) — A Detroit minister is to be examined Friday on a first degree murder charge in the fatal shooting of his wife.

The Rev. Elzie Kaigler, 66, stood mute yesterday at his arraignment and a plea of innocent was entered for him. Recorder's (criminal) Judge W. McKay Skillman ordered Rev. Kaigler held in Wayne County Jail without bond until his examination.

The first degree murder charge stems from a tape-recording of an argument between Rev. Kaigler and his wife, Clara, 48, said Prosecutor Samuel H. Olsen. The tape was made last Wednesday, the day Mrs. Kaigler was shot.

Police said they believe Mrs. Kaigler intended to use the tape as evidence in a divorce action.

New York to Detroit Jet Flights Start Feb. 10

DETROIT (AP)—American Airlines plans to start non-stop jet-powered Electra flights between New York and Detroit Metropolitan Airport Feb. 10.

The airline said the new planes will cut flying time between the two cities by 45 minutes. The jet-prop Electra flights are scheduled to take 90 minutes between Detroit and New York's La Guardia field.

New Atomic Brain 'Surgery' Uses Proton Rays, Not Incision

STOCKHOLM (AP) — Working with an invisible "atomic knife" Swedish scientists have pioneered a brain operation which neither opened the skull nor shed a drop of blood.

The team of brain surgeons and nuclear scientists at the Gustav

Werner Institute for Nuclear Chemistry at Upsala University destroyed diseased tissue with an American-invented proton ray.

The operation was performed on a man at 55, the team disclosed in radio and television interviews. By destroying a piece of tissue three millimeters thick inside the patient's skull, he was cured painlessly of a serious mental depression.

The man left the hospital two days later. A similar operation carried out by orthodox lobotomy would have required weeks of preparation and a long period of recovery.

Prof. Lars Leksell of Lund University, who supervised the operation, expressed belief the new method can be applied to ease

many chronic pains, for treatment of Parkinson's disease and for certain mental illnesses.

Proton rays, the positive charged unit of the atom nucleus, penetrated the patient's brain from 18 directions during the two-hour operation, said Prof. Bror Rexed of Upsala, one of the six-man team.

The atomic knife was supplied by the synchrocyclotron, one of only two in the world suitable for this kind of operation. The other is at the University of California at Berkeley.

During the operation, the patient was alone in the operating room. To avoid risk of atomic radiation, Leksell and his assistants operated the ray from an adjoining room and watched the patient on a closed television circuit.

'Marsnik Possible for Reds'

MIAMI BEACH (UPI) — Dr. Werner von Braun believes the Russians could send a rocket to Mars this year but doubts that the United States could.

The rocket scientist, speaking at the 40th annual convention of the Associated Contractors of America yesterday, urged that the U. S. missile program be stepped up.

"We may find ourselves surrounded by several planets flying the hammer and sickle flag" unless our program is speeded up, he said. The recent Soviet Lunik rocket demonstrated the Russians have the capability of sending a one-way rocket to Mars right now, he added.

He said this could be done easily by putting several rocket stages together in a cluster.

HOW TO HELP ASTHMA & SINUS DRAINAGE

Children as well as adults now escape much severe wheezing, coughing and difficult breathing during recurring attacks of Bronchial Asthma and Sinusitis with New Improved MENDACO. Quickly helps combat allers, relax bronchial tubes, loosen sticky mucus. Thus promotes freer breathing, sinus drainage and sounder sleep. Get Laboratory Approved MENDACO at drugstore.

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

He may not be popular with the necktie manufacturers of America, but Bill Veeck is still the "Mr. Personality" who belongs in Major League baseball.

The fuzzy-headed blond hasn't had a tie around his neck in civilian clothes since 1933.

"I had to wear a tie a couple times while I was in the Marines, but that was only during inspection, and it came off immediately afterward," he said.

In his home in Cleveland, which houses his wife and seven children, there isn't a single tie to be found in his closet. But there isn't enough room for all the sports shirts he has in his wardrobe.

In baseball, the old status-quo writers called him a "clown" from the Barnum and Bailey circus.

In social circles he was often stopped at the door of formal affairs. As it turned out he was always the only exception among the cravat-wearing set.

"There were many times I couldn't get past the doorman and had to wait for the club manager before entering, but he knew he had to let me in, as I was, or not let me in at all," he explained.

"I haven't been turned away for years," he added.

READY TO RETURN TO BASEBALL

Veeck as usual was the lone sport-shirt wearer at the Elks' banquet last weekend.

In was his second visit to Pontiac in the past two months and on both occasions he was in his typical humorous form.

He loves to reminisce about his days in baseball even with the lowly St. Louis Browns.

"We had the strategy all figured out in St. Louis," said Veeck, "we thought if we put a couple of Brownies on every team we could really louse up the league."

Veeck, however, was always a master-promoter of the game. It's been five years since he's been in baseball, and even though he said little about trying to buy into the White Sox, he did say he "hoped it wouldn't be too long before he was back in the game."

"They (the Comiskeyes) are tough customers to deal with," he admitted.

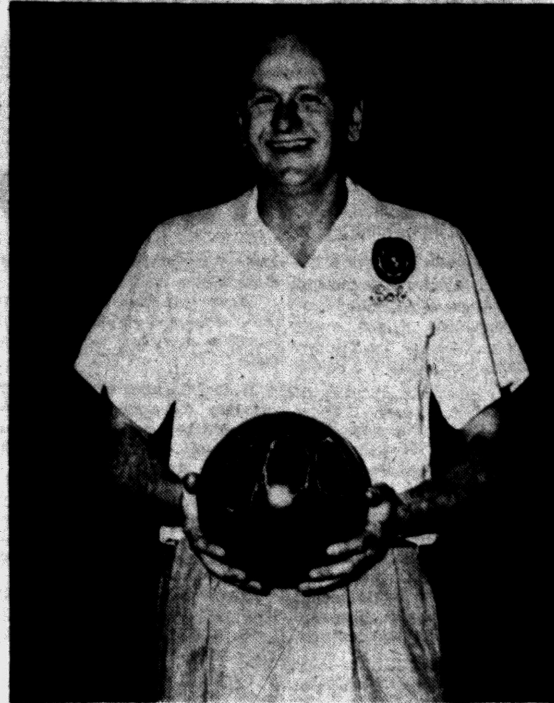

WARNED BRIGGS ON TIGER SALE

When the Tigers went on the block couple years ago and the Briggs family turned down his offer in favor of the current regime, Veeck said he told Spike Briggs, "You just made your exit out of baseball."

"Spike disagreed," said Veeck, "he thought they were all too good friends to push him out."

"Few months later I got a telegram in New York from Spike. All it said was 'You were right,'" he concluded.

So, the Tigers' loss may soon be the White Sox' gain. Baseball and Veeck go together, with or without a necktie.

PERFECT SCORE — Bob Gormong rolled Pontiac's first sanctioned 300 game of 1959 last night during league play in the West Side Classic. It was his 2nd perfect game in as many months. He went all the way in December during an open bowling session at Motor Inn.

Detroit Hosts NBA All-Star Game

Sawchuk Out With Shoulder Injury

Wings' Goalie Hurt

DETROIT (UPI) — Goalie Terry Sawchuk will be lost to the Detroit Red Wings for tomorrow night's game at Chicago and 27-year-old Bob Perreault of the Hershey Bears will take his place in the nets, Red Wing general manager Jack Adams said today.

Sawchuk has a sprained right shoulder, an injury incurred in pre-game practice Sunday night when Norm Ullman's shot hit the goalie on the point of the shoulder.

Sawchuk said the shoulder started to stiffen up after the game and Dr. Charles Karibo said he'll know better today whether or not Sawchuk will miss any more games.

The injury hit the already overburdened Wings hard. Defense-man Red Kelly has his ankle in

a cast due to a practice injury early last week and the cast will be removed today but it won't be known until then if he can play tomorrow.

The Wings haven't won a game since Dec. 28 and have only that victory to show for 15 games since a Dec. 10 triumph.

Coach Sid Abel sent the Wings through a tough two-hour workout yesterday and ordered another for today. Adams and Abel talked to the club for a half hour. Abel called the Wings' 4-2 loss to New York Sunday "awful."

"At least at the first part of the slump we were playing pretty good hockey and just weren't getting the breaks. But now we

20 Cage Stars to Compete in 9th Annual Tilt

Pro League Governors Also Huddle Thursday to Air Problems

DETROIT (AP) — The 20 greatest stars in professional basketball will compete Friday night at Detroit's Olympia Stadium in the National Basketball Assn.'s ninth annual all-star game.

Before the mid-winter classic begins, the league's board of governors will huddle on Thursday afternoon to iron out several knotty problems of league expansion.

The race problem came up last weekend when Rookie Elgin Baylor of the Minneapolis Lakers said he and two other Lakers were refused accommodations at a hotel in Charleston, W. Va. Baylor refused to play in the game.

Other members of the squad stayed at the hotel, while Baylor and the others moved to another location.

League president Maurice Podoloff said "somebody slipped at Charleston. The league had every assurance against any indignity. The matter will be brought up when we meet in Detroit."

The board of governors will set dates for its draft meeting, and select dates and a site for the NBA's annual meeting, and also will complete playoff plans.

Proposed rule changes and the question of expanding the league to 10 or more teams also will be discussed.

As for the game itself, the stars from the Eastern Division will be after their seventh victory against only two losses. Heading up the east squad, coached by Red Auerbach of the Boston Celtics, will be three of his own players.

Bob Cousy will be playing in his ninth straight All-Star game and will be joined by teammates Bill Russell and Bill Sharman. Designated as starters along with these three are Paul Arizin of the Philadelphia Warriors and Kenny Sears of the New York Knickerbockers.

Also on the East squad are Dolph Schayes, the Syracuse star who joins Cousy in his ninth straight All-Star game; Larry Costello and Johnny Kerr of Syracuse; Richie Guerin of New York and Woody Sauldsberry of Philadelphia.

Starting for the West squad, coached by Ed Macauley of the world champion St. Louis Hawks, will be three of the Hawk players — Bob Pettit, Slater Martin and Cliff Hagen; Gene Shue of the Detroit Pistons and Baylor of the Lakers.

Alternates are George Yardley and Dick McGuire of Detroit, Larry Foust and Dick Garmaker of Minneapolis and Jack Twyman of Cincinnati.

The local club, now in its second season here since moving from Fort Wayne, Ind., is hopeful the mid-season game will supply a much-needed shot in the arm to local basketball. Attendance and interest has been no more than lukewarm since the franchise switch.

PCH Holds Top Spot

SPORTS

HIS BEST FANS — Pete Dawkins, Army's All-America football player, greeted his mother and father, Dr. and Mrs. Henry E. Dawkins in Philadelphia where Pete received the 22nd annual

Maxwell trophy as the outstanding college football player of 1958. Dawkins, a product of Cranbrook and a resident of Royal Oak, made a clean sweep of the top football awards for 1958.

Saginaw Next

Foe in League Action Friday

Berkley in 3rd Spot in Class A; Troy 9th in Class B

Pontiac Central held its lofty position in class A basketball ranks of the Associated Press and the UPI polls this week as result of the 57-49 victory over Flint Northern last Friday.

The Chiefs, however, face a dangerous Saginaw High team Friday night in an important Saginaw Valley game and win or lose, Pontiac will still suffer a big setback because it will be the final contest of guard Charley Barge.

Barge, the leading scorer in the SVC with a 21.5 average, will leave a big hole for the Chiefs to fill since he is a mid-year graduate.

Another Oakland County school, Berkley jumped high into the rankings by taking over third place behind Detroit Austin. The Bears, unbeaten in eight games, play host to Farmington Friday night.

Troy dropped a notch from 8th to 9th in class B ratings after its squeaker against Clawson, 45-43, and Imlay City moved into second place in class C after bouncing Oxford, 75-65.

Orchard Lake St. Mary was in 12th position, but the Eagles play a strong Highland Park St. Benedict team tonight which could snap St. Mary's unbeaten streak.

ball contract is worse than the baseball contract for the simple reason that a player cannot sign with the team of his choice, only

AFTER A CLOSE CALL.—Partially paralyzed Roy Campanella gathers with his family in their suburban Long Island home after he was involved in his second auto accident yesterday in less than a year. Left to right are Tony R. Prince, 5, and Roy Jr., 10. He will join the Dodgers in Vero Beach as a coach this year. Roy came out of the accident yesterday without a scratch, but his mother-in-law was hospitalized.

Indians Take 'Wait and See' Attitude

NEW YORK (AP)—Those who have been criticizing Frank Lane for trading Cleveland's relief ace Ray Narleski and Don Mossi are advised to hold off judgment until they get a chance to see Bob Tiefenauer in action.

Tiefenauer, one of the 14 rookies who will report to the Indians training camp in Tucson, Ariz., next month, could make Cleveland fans forget Narleski and Mossi. Based on his minor league record, the 29-year-old relief specialist might possibly develop into a bullpen beauty.

A former member of the St. Louis Cardinals, Tiefenauer enjoyed a phenomenal season at Toronto last year. Depending solely upon a knuckleball during his first big league trial, Bob came up with a sinker pitch last year. As a result, he was almost impossible to hit, especially in the clutch.

The 6-3, 195-pound native of Desloge, Mo., won 17 while losing five and was a valuable workhorse for the Maple Leafs. He appeared in 61 games, all in relief and finished 32 of them.

He hurled 157 innings, struck out 105 and walked only 19. His most glittering achievement, however, was in holding enemy clubs to a mere 1.89 earned runs per game.

Another standout newcomer is Earl Averill Jr., son of the former major league star. Averill, the Pacific Coast League's most valuable player in 1958, returns for another shot with a .347 batting average, 24 home runs and 87 runs batted in with San Diego.

The squad slugger—he stands 5-10 and weighs 200—is listed as a third baseman but he is equally at home almost anywhere on the diamond. He saw action at all but two positions with the Padres last season, shortstop and on the mound.

Few of the other newcomers are given much of a chance to stick although they are strongly recommended.

Dales, Kazoo Win Handily

By The Associated Press

Hillsdale and Kalamazoo scored impressive victories in Monday night's high school basketball game.

Kalamazoo won a Michigan Intercollegiate Athletic Assn. game with hapless Olivet 79-63. Hillsdale stepped out of the MIAA and beat Ferris Institute 89-54 in a non-conference encounter.

Kalamazoo opened early with Bob Fletcher doing much of the scoring and held a 38-27 lead at halftime. Fletcher finished up with 16 points. But Don Groch of Olivet, which is winless in the MIAA, was the game's top marksman with 21 points.

Hillsdale never was behind and led 36-23 at the half. Don Bohannon led the Dales with 18 points. Bill Olendorf was high pointmaker for Ferris with 15. Ferris lost its eighth straight game.

Two Big Games Slated Tonight

Eaglets-St. Ben,
Rochester-Troy
Top Attractions

Birmingham Journeys
to Ferndale in 'Must'
Tilt

By CHUCK ABAR

An important Suburban Catholic contest and an interesting non-league affair headline a 19-game prep basketball schedule involving area schools tonight.

Unbeaten Orchard Lake St. Marys plays at Highland Park St. Benedict and strong Troy invades Rochester in the top pair.

The Eaglet-Ben game will be the only SCL contest on tap. Eastern Michigan League action will have Birmingham at Ferndale and Hazel Park at Port Huron. A full Southern Thumb slate and some scattered others will complete the league games to be held.

Saginaw, Pontiac Central's next opponent here Friday, goes to Bay City Handy for a tuneup.

Cranbrook, Romeo, Ortonville and Brighton will be taking part in non-loop tussles.

Orchard Lake's perfect record, already one of their best in years, will be squarely on the line against the Ravens. The Eaglets are riding a six-in-a-row train and will be seeking their 7th straight in league play and eighth for all games. They have only three regular season tilts left after this one.

St. Benedict has lost only to St. Frederick in five league outings. The Eaglets have since dumped the Rams and more recently smothered St. James 64-36 with a fine display of balanced scoring.

Rochester will be another Oakland County unbeaten power getting a big test. The Falcons have whipped six successive foes but they will be taking on their most rugged task of the year as host to Troy.

The Colts have lost only to Lakeview in eight starts and have won four straight since. Each has beaten Romeo and Avondale with Rochester the more impressive in each case.

A Birmingham victory would not only put the Maples back in the race but it would also serve to break up the supremacy enjoyed by Ferndale in the Eastern Michigan thus far. The Railsplitters are the only unbeaten team at 3-0. Port Huron is favored to keep rolling as a strong contender. East Detroit steps outside the EML to battle Hamtramck.

Cranbrook will be seeking its 5th straight success and a repeat of an earlier hard-earned win at Kennedy. Romeo, which hosts Roseville, is right at 5-0 at 3-3. Ortonville will be trying to get back to that percentage after becoming North Branch's 1st victim in eight games Friday as guest of Mt. Morris.

Brighton has been looking forward to tonight since Dec. 5. The Bulldogs will be visiting nearby South Lyon seeking some sweet revenge for a one-point upset by the Lions. The Wayne-Oakland leader has a 7-2 record while South Lyon has won all of its six games.

Another return match will have Madison at Royal Oak St. Mary in an attempt to complete a sweep. The Eagles won by three when the two opened against each other.

The complete Southern Thumb slate will have Memphis at Almont, Armada at Dryden, Anchor Bay at Brown City and Capac at home to meet New Haven.

Scattered road duels will include Madison Lamphere at Country Day, Fraser at Utica and Royal Oak Shrine at St. Patrick. North Branch has a non-league affair at Bad Axe.

4-Way Battle in Big 10

MSU Ties for Lead

By The Associated Press

Surprising Minnesota and steady Michigan State joined idle Illinois and Michigan last night by climbing into a four-way tie for first place in the hectic Big Ten basketball race.

But something will give Saturday night when Michigan State goes to Minnesota in the key conference game of the week.

Michigan State, playing at home, bounced Ohio State 92-77 for its third triumph in four games. Minnesota, playing at Evanston, bested Northwestern 71-67. The Gophers never trailed after grabbing a 43-38 halftime edge.

Minnesota coach Ozzie Cowles,

looking forward to the Michigan State battle, said:

"If we can shoot as well as we did tonight and eliminate our ball handling mistakes, we can beat them."

If the Gophers shoot as well as they did against Northwestern, it'll be hard to find a team they can't whip. Minnesota hit a sharp .475 from the field.

Michigan State, the nation's No. 8 team, had no trouble with Ohio State. The Spartans held a 51-39 halftime lead and had four players finish in double figures.

Johnny Green, Spartan rebounding ace, scored 26 points while Larry Siegfried was high for Ohio State with 20.

"The team was at its sharpest

offensively since the first of the year," said MSU coach Fordy Anderson.

Ohio State coach Fred Taylor said: "Michigan State simply beat us on the boards—not only by John Green's tremendous rebounding but by team board work. They kept us off balance all night and we couldn't get into our pattern."

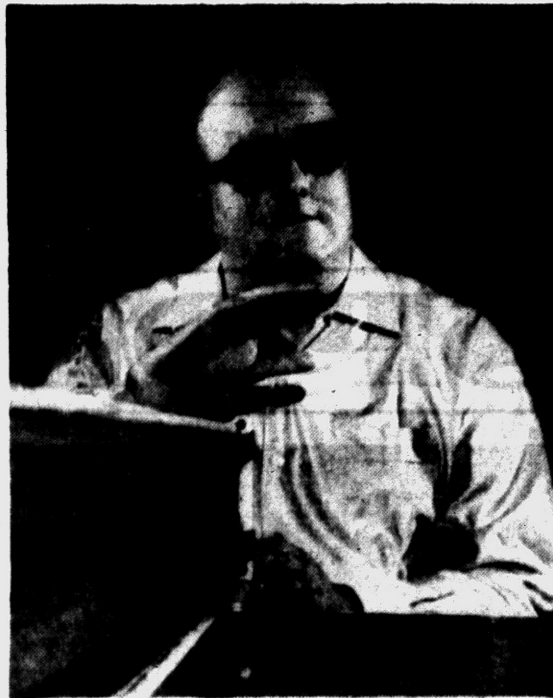

Apparently the Spartans are beginning to regain the form they displayed before being surprised at Iowa two weeks ago.

"That was our best team effort since the Dixie Classic," said Green. "Only hard work and team play will keep us going this way."

Aside from the Michigan State-Minnesota game Saturday, Ohio State is at Purdue and Northwestern is at Iowa in a regionally televised matinee.

Illinois meets Notre Dame at Chicago Stadium Saturday night and Toledo battles Loyola of Chicago in the second game of the stadium doubleheader.

Halftime: Michigan State 51-39.							

BLIND REFEREE.—A blind table tennis referee, Charles Medick, of Los Angeles shows how he sits beside the table and depends on touch and sound in making his decisions. He is considered one of the top officials in the country, and he says he hasn't called a wrong one yet.

Pledges, Weldons Other Hoop Victors

Lakeside, K. of C. Win

The Lakeside Royals and Knights of Columbus quintets were city Class A winners last night.

Lakeside, with four players in double figures, spanked Shaw's Jewelers 77-67 while the Knights were having a much easier time blasting Sport Shop, 59-38.

Rudy Hill and John Fauge rallied 17 apiece to head the Lakeside attack. Dick Hall of the losers took game honors with 19 — all in the last half.

K. of C. opened up with a 23-9 1st quarter edge and kept rolling paced by Hal Troit with 18. Felix Brooks and Bill Spain hooped 10 apiece for Sport Shop.

In Class D, the Pledges downed Eastside Shopping Center 42-33 and Weldons Sport Shop walloped Northern, 54-18.

The Pledges rallied after trailing all the 1st half Dennis Huid topped nine scorers with 12. Don

Smith hit 11 for Eastside. Ken Shaw swished 12 and Bob Davidson 10 to beat Northern together.

WACO, Tex. (AP)—John Bridgers, a husky Sunday school teacher, will bring his outstanding defensive abilities as medicine in an effort to doctor Baylor's puny football standing.

The defensive line coach of the National Football League champion Baltimore Colts was announced as the new head coach and athletic director yesterday.

Dave Nelson, head coach at University of Delaware, turned the job down. He visited here last week and promised an answer yesterday. It came as a regretful no, and Baylor officials almost immediately announced Bridgers' appointment.

Fans of the Baptist school were strong in their support of Nelson, but they also appeared happy with the choice of Bridgers.

Studies Club Move

By The Associated Press

Jersey City, N.J. (AP)—Joe Buzas, who operates Allentown in the Class A Eastern League, meets here today with parks director Bernard J. Berry to discuss the possibility of moving his club to Jersey City.

Prisoner Research and Space Travel

Man Tries for 200 Sleepless Hours

NEW YORK (UPI)—A 32-year-old disc jockey begins giving up his sleep today for what he hopes will be 200 straight hours or 8.4 days.

He has four main goals. The first is to set a new sleepless record. The second is to help scientists find out why war prisoners confess more readily without sleep. The third is to help America's space travel program.

The fourth reason is actually the one which got him started on the project. He wants to raise money for the March of Dimes.

The disc jockey, Peter Tripp of radio station WMGM, will be under the supervision of a 12-man scientific team composed of representatives of Walter Reed Army Institute of Research and the University of Oklahoma School of Medicine.

Tripp, who plans to start his

project at 11 a.m. EST, will be under constant observation in an Armed Forces recruiting booth in the middle of Times Square. He will not miss his regular 5 p.m. to 8 p.m. EST radio program which will be broadcast from the booth.

The study of Tripp's reactions in the stay-awake marathon is being headed by Dr. Louis Jolyon West, professor of psychiatry at the University of Oklahoma School of Medicine. Aiding West will be Maj. Harold Williams, chief of the department of clinical and social psychology at Walter Reed.

West said that the record for going without sleep under constant observation is 168 hours and 33 minutes, or 7 days. He added that there were reports of a Florida man who stayed awake for 187 hours, or 7 days and 19 hours, but

this man was not under scientific conditions.

Tripp, who is married, has been keeping a rigid training program to prepare for the test. He has had workouts in gyms, a restricted diet—and plenty of sleep.

Friday he underwent a complete physical checkup. He also underwent tests to establish his body's "norm" which will be compared to his reactions during the test.

West, who also is national consultant in psychiatry to the Surgeon General of the Air Force, has performed studies with U.S. airmen who were captured by the Communists during the Korean War and forced to sign false confessions.

Part of his current studies of Tripp will cover the weakening of a man's will under sleepless conditions.

Observations also will be valuable to space travel studies, it was pointed out. When a human being is finally fired into space, it is probable that he will have to remain awake for several days during the initial stages of the flight. Doctors must determine whether this form of sleeplessness will provoke mental "wanderings," incoherence or physical damage.

One of Tripp's original goals was to help the March of Dimes raise money. West said this may help the test because the disc jockey "is highly motivated to remain awake and broadcasting" for the charity.

Is Integration Ahead After Virginia Loss?

RICHMOND, Va. (AP) — The collapse of Virginia's massive resistance laws in the courts raised the question today whether segregation will be breached in public schools before a new anti-integration program can be formulated.

Two separate court decisions Monday stripped the state of the laws which for more than two years had prevented classroom integration.

In a 5-2 decision, the State Supreme Court said the package of anti-integration laws passed by a special session of the Legislature in the summer of 1956 violated Virginia's constitution. It was under provisions of one of these laws that Gov. J. Lindsay Almond Jr. closed and seized control of nine white public schools last September as the state moved to prevent court-ordered integration.

Almond planned to give a radio and television report on the school crisis to Virginians tonight. Contributing further to the demise of the massive resistance laws was a ruling by a special three-judge U.S. District Court in Norfolk that the school-closing statute violates the federal Constitution.

The state court ruling is not appealable. Its effect was to return

to local control nine closed schools in Norfolk, Charlottesville, and Front Royal. Only in Norfolk did school officials demonstrate sentiment to reopen schools quickly. Thirteen thousand students were displaced by the school closings.

Ralph Schweitzer, chairman of the Norfolk School Board, said the board "is interested in educating the children of Norfolk. I personally feel that our first obligation to the children is to get our schools back in operation in an orderly manner at the earliest practicable date."

Charlottesville's school board met with City Council to discuss the school problem and deferred action pending an opinion from the city attorney.

Death Notice

POOLE, JAN. 20, 1959. MARY POOLE, 128 Maple St., age 81, beloved wife of Kenneth T. Poole; beloved daughter of Mrs. John J. Poole and the late Mrs. Mary Poole; died at her home, 128 Maple St., on Jan. 20, 1959. Burial will be held Thursday, Jan. 22, at 2 p.m. from the Donelson-Johnson Funeral Home with Rev. William H. Marshall officiating. Friends are invited to attend. The Donelson-Johnson Funeral Home.

In Memoriam

IN LOVING MEMORY OF EDWARD J. HAMM who passed away 17 years ago today, Jan. 20, 1942. The world may change from year to year, but the love of a friend remains the same. And friends from day to day, but never will the one I love, from memory pass away. Sadly missed by Children and Grandchildren.

Closed Schools Upset Both Sides

Interviews to Include School Superintendent, Governor, Residents

The integration deadlock in Norfolk, Va., where the closing of six schools is currently keeping 10,000 students from furthering their education, and the effect of these closings on the community, will be examined in detail on "The Lost Class of '59: A Study of Virginia's Massive Resistance Plan," Wednesday on Channel 2 (8:00-9:00 PM).

The hour-long special report is being produced for CBS News by Edward R. Murrow and Fred W. Friendly.

Approximately 10,000 of Norfolk's 45,000 school-age children are now "out-of-work." That is, they have no schools to go to as a result of the closing last September of three senior and three junior high schools by Virginia's Governor J. Lindsay Almond Jr. Through interviews with many of these students, their parents, ministers, businessmen, and members of Norfolk's naval community (Norfolk currently has the largest complex of naval installations in history), Morse and Barnett show viewers what is happening to the children and to their community.

When people are involved on both sides of a fundamental controversy, there usually isn't much problem about getting them to talk, but such was not the case when reporter-director Arthur Morse first arrived with his television film crew to spend more than a month shooting material for "The Lost Class of '59."

"We ended up getting full and complete cooperation from both sides," Morse reports, "but, at the start, the situation was quite different."

"There were a variety of reasons why key people did not want to talk," Morse continues. "Segregation groups feared distortion by the 'Northern press'; teachers and supervisory personnel in the school system were dependent on the state for their salaries; civic leaders were fearful of the political implications of any statement they might make; the clergy was divided and feared exploitation. However, they all decided that their best interests would be served by coming before our cameras."

Gov. Almond will be interviewed by Edward R. Murrow. Norfolk leaders interviewed will include Superintendent of Schools; President of the Norfolk Education Association; President of the Tidewater Education Foundation; Chairman of the Norfolk Committee for the Public Schools; President of the Norfolk Ministerial Association; and the only one of Norfolk's 1,200 public school teachers now teaching at a private school.

Ellis James, a white resident of Norfolk, Virginia, who is suing the State's Governor over his closing of six of the city's schools last September, will appear. James, whose 15-year-old daughter, Penny, is one of the dispossessed children, explains how his family arrived at the decision to have Penny become a litigant in the widely publicized case.

Robert D. Robertson, Chairman of the Norfolk branch of the National Association for the Advancement of Colored People is also scheduled to appear.

FAVORS REOPENING — J. J. Brewbaker, Superintendent of Schools in Norfolk, Va., tells why he's in favor of reopening Norfolk's six closed public schools in an interview on "The Lost Class of '59" tomorrow night.

Big Deals Often Due to the Girls

NEW YORK (AP)—Viewpoints expressed on a radio program indicate that sex has become big business in the world of big business.

Unidentified speakers on the program, "The Business of Sex," said that the use of call girls to help swing big deals for large corporations has become so widespread that some companies pay prostitutes by the month and others keep them on regular payrolls as part of public relations staffs.

The program, "recommended for adult listening only," was broadcast on the CBS network Monday night and narrated by Edward R. Murrow.

Girls described as prostitutes said anonymously they made as much as \$25,000 a year through their deals with companies and did not pay income taxes.

One girl said that girls-for-hire actually get verbal agreements on deals for companies.

An unidentified corporation executive explained another aspect of company-financed prostitution. The point is that I know that the buyer has spent the night with a prostitute that I have provided, in most cases the buyers are married, with families," he said.

"It sort of gives me a slight edge, well, we will not call it exactly blackmail, it is a good weapon to have."

Estimates of the number of prostitutes operating here ranged from 3,000 to 30,000. One publicist said even more use is made of call girls in Chicago, St. Louis, and Cleveland.

Supermarket Burns, Reopens Circus Style

JACKSONVILLE, Fla. (AP)—A supermarket burned down and one week later reopened in a huge tent pitched on the parking lot of the burned store.

Launched with clowns and other circus atmosphere, the store under canvas went on a 24-hour-a-day schedule pending completion of the new building.

Sales of white paint for outside use have declined steadily since 1950. But even so, 64 per cent of the exterior paint sold today is white.

Wayne Politicos See Summerfield

Visit by GOP Leaders Aimed at Rebuilding Party in Detroit Area

WASHINGTON (AP)—Six Wayne County Republican leaders paid a whirlwind visit to Postmaster General Arthur E. Summerfield yesterday for the purpose of rebuilding the GOP in the Detroit area.

Summerfield, a former Republican national committee member from Flint, said the six Wayne County Republican congressional district chairmen had arranged the appointment with him.

"They wanted to discuss aspects of the administration's program," said Summerfield. "We discussed political matters too, generally, but it had nothing to do with personalities."

The postmaster general declined comment on whether the discussions dealt with patronage matters.

The six visitors reportedly were airlifted to Washington at Summerfield's personal expense.

Summerfield has been reported trying to gain greater strength in Michigan's Republican organization. It also was reported that yesterday's talks concerned 8,500 census jobs in Michigan next fall and in the spring of 1960.

The six visitors were Frank Skierski, First Congressional District; Emmanuel N. Kary, 13th; Stanley J. Baldwin, 14th; Irwin H. Burdick, 15th; George Hummel, 16th; and Mrs. Gladys Smith, 17th.

TV News and Reviews

'High Adventure' Presents Scrawny 60 Minutes

By WILLIAM EWALD

NEW YORK (UPI)—High Adventure, a one-hour CBS-TV travel series, delivered its third installment of the season and it proved a scrawny 60 minutes.

Last October, a group of scientists shipped out to the Pacific island of Puka Puka for IGY, who is, of course, the educated brother of Izzy. The object of the scientists was to film a solar eclipse and the object of the accompanying CBS-TV camera crew was to film the scientists.

Unfortunately, shooting scientists is not nearly as entertaining on TV as shooting, say, Indians and as a result the hour seemed stretched thin to the point of flimsiness.

There were a few useful sequences in the hour. Some underwater photography, some shots of the solar eclipse and some really stunning color footage of flareups along the skin of the sun. But for the most part, the visit to Puka Puka was pretty punka punka.

SHORT SHOTS: ABC-TV's "Youth Anonymous," a one hour peek at Detroit's successful battle against juvenile delinquency, was a serviceable rumble. It was made even more serviceable by ABC-TV's decision to display it in prime evening time instead of TV's beautifully manicured Sunday afternoon graveyard.

Tennessee Ernie's contributions to the CBS-TV Danny Thomas

show last night were amusing, but the show, as usual, dissolved in a squish of maudlin sentiment at the close. Keenan Wynn squandered himself on an NBC-TV Goodyear Theater what-is-it last night, "Afternoon of the Beast."

Dick Van Dyke got off to a nervous start as temporary emcee on the NBC-TV Jack Paar show last night and then let his guests overpower him. But he is a young man of amiability and wit and I have a feeling that once he shakes himself loose, he'll turn out some first-rate shows.

THE CHANNEL SWIM: NBC-TV's Meet the Press racked up its highest Trendex since Nov. 2, 1952, with its Mikoyan interview Sunday — a 16.4. Polly Bergen will be absent from the panel of CBS-TV's To Tell the Truth for six to eight weeks while rehearsing for the upcoming Broadway musical, "First Impressions."

ABC-TV will start Meet McGraw one hour later on Sunday evening beginning Feb. 1. Jocelyn Brando, who is Marlon's sister, will star in "Emergency Only," a Feb. 3 offering of ABC-TV's Alcoa Presents. The Phil Silvers named their new 6-pound, 11-ounce Nancy Elizabeth.

Rigger Drops 70 Feet — Lives to Tell the Tale

BRISBANE (AP)—Norman Hilde crashed 70 feet from the sixth floor of a new building, and lived to tell about it.

He fell onto Charles Crepin who was working on the basement level.

Milde, a 38-year-old rigger, suffered a fractured pelvis and left thigh and internal injuries. Crepin, 41, had rib and back injuries.

Wife, 14, Tells Police of Rival—12 Years Old!

ROCKFORD, Ill. (AP)—Rockford police have heard many a tale of marital difficulty, but this one beats all.

They arrested a delinquent 14-year-old wife who complained that her husband of one year was running around with a younger woman.

The 14-year-old's husband is 36. Her rival is 12.

Automatic Device Cuts Over-Long Phone Calls

LANDRUM, S.C. (AP)—The Thermal Belt Co. is cutting down on long-windedness on the telephone here.

A buzzer sounds on the line after 5 minutes of yakety-yak. A minute later, if the call hasn't been ended, the parties are automatically disconnected.

Most effective, customers complain. The nation's blast furnaces produced a record 79,338,932 net tons of pig iron and ferroalloys during 1957, more than 1,500,000 net tons over the previous record, set in 1955. Blast-furnace output in 1956 totaled 76,000,000 tons.

Fathers Seem to Be Making a Comeback

By EARL WILSON

COLUMBUS, O. — Dear Dads:

You may become fads.

You're staging a comeback. You may become almost as important as Teeners and Sub-Teeners.

Don't panic, now, and I'll explain. When I flew back to Ohio — home state of such TV and movie stars as Dean Martin, Danny Thomas, Bob Hope, Doris Day, Hopalong Cassidy, Polly Bergen, Clark Gable, Peggy King and Ted Lewis — it was to observe the inauguration of the new 5-foot-5 governor, His Excellency Mike DiSalle.

And I found Frank Sinatra's dad, Marty Sinatra, of Weehawken, N.J., a friend of Mike's, signing autographs.

Everybody was talking about Mike's own father, Tony DiSalle, 71, of Fort Lauderdale, Fla., stealing the show.

"I couldn't get dad away from the inaugural ball — he was having a ball," Mike said. "Pop did the polka till 1 A.M."

They look alike — "Except," as an insulter told Mike. "Your old man looks younger — and better." Politicians used to wave the flag and talk of home and mother. Mike spoke of his mother but also of his dad's sacrifices to send him to Georgetown University.

"He made \$1 an hour as a metal polisher, or \$40 a week, and he sent me \$12 a week of it — and he had six others at home!" Mike said.

Mike interlarded tributes to his dad in some of his humorous remarks which they call "DiSallies" here.

Asked about being presidential timber, Mike laughingly said once, "I can't be — I'm an immigrant — I was born in New York City."

The Mike of today has no mustache, though he did 10 years ago when he was Harry Truman's Price Administrator and one of the most headlined guys living. His friend John Daly says Castro grew a beard and runs Cuba, while Mike cut off his mustache and runs Ohio.

Mike also gave up smoking cigars — though friends say those weren't cigars — those were Wheeling Stogies.

His Excellency is a dad and granddad himself and I'm glad he's going to enshrine dad on a pedestal — where he'll be easier to find when the family wants something.

Luck to you, Daddy-o!

THE MIDNIGHT EARL IN N.Y.

Columbia asked Sandra Dee to tour with her film, "Gidget," but she wanted to take along her mother, teacher and hairdresser. So — no tour. Two movie companies want to film Nat (King) Cole's South American tour... Eddie Fisher's taking acting lessons.

(Copyright, 1959)

'Rebels' Use Post Cards

Seeking Ouster of Wayne President

DETROIT (AP)—A post card war designed to force the removal of Wayne State University President Clarence B. Hilberry has been launched by an unknown underground rebel group.

The rebels signed the cards "The Minute Men of Wayne." They were mailed Friday to alumni, newsmen, legislators and Wayne officials. Campus officials are stumped. But they started an immediate investigation yesterday aimed at determining the sender of the cards.

The post cards say: "Because of utter disregard of the opinions and wishes of the faculty, students and alumni of Wayne State University: HILBERRY MUST GO."

Not Cut Out for the Job

Thug Leaves in Disgrace

NEW YORK (AP)—Somewhere in the city today a frustrated bank robber is probably practicing his snarl.

His attempt to rob a Bronx bank Monday night left him no richer — and with very little pride.

The bandit slipped a note into the head teller's cage at a branch of the Industrial Bank of Commerce. "This is a stickup," the message read. "Give me \$5,000 in 10-dollar and 20-dollar bundles. Put them in an envelope."

The teller, Daniel Adair, 30, looked up and smiled.

Latin Week Costume Boon to Sleepyheads

HILLIARDS, Ohio (AP)—For one week, anyway, any late-rising student from Hilliards High School could simply wrap his bedsheet around him and head for class. That was Latin Week, when most of the student body wore sheets in the style of the togas worn by Roman citizens.

Under a new trade agreement between Sweden and West Germany the latter will purchase 300,000 tons of grain from Sweden during each of the next three years.

'Cigmog' Also Adds to L. A. Air Pollution

DETROIT (UPI)—A University of Detroit laboratory technician says Los Angeles residents considering switching from large to small cars to reduce smog also might consider switching from king-sized cigarettes to butts.

Paul A. Rutt, a laboratory technician who has been conducting some private investigation into what he calls "cigmog"—air pollution caused by cigarettes—estimates cigarette smoke contributes 20 tons of pollution to the air over Los Angeles every day.

While this may be small when compared to estimates of 600 tons of smoke caused in the Los Angeles area each day by auto-

still "a sizable ball of smoke," mobile exhausts, Rutt says it is Rutt—who coined the word "cigmog"—reached his estimate of cigarette-caused pollution by weighing a 3 1/2-inch cigarette before lighting it and then after smoking it down to an 1 1/4-inch butt.

MEASURED SMOKE

"The difference was 6201 grams," he said. "This was the weight the cigarette lost through smoking. In other words, 6201 grams went into the air in carbon dioxide, water vapor and smoke particles."

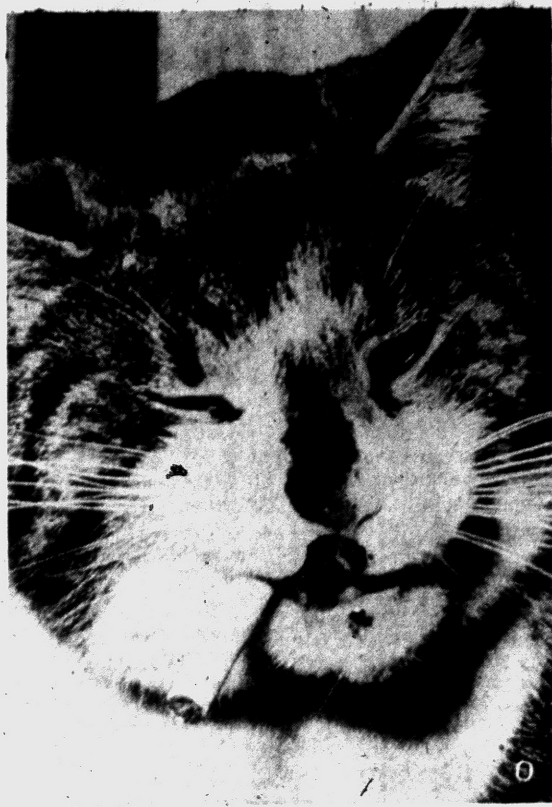

Rutt then took estimates of cigarette companies that an average of 15 cigarettes are smoked each day for each person in the United States. He multiplied this by the amount of contamination for each cigarette and by the population of Los Angeles—2,100,000—and came up with his estimate of 20 tons of air pollution from cigarettes.

He admitted there might be some argument over the fact that his method doesn't take into account the weight of smoke particles left in the lungs of people who inhale. But he pointed out he also did not figure in the effect of an estimated 6,300,000,000 cigars annually nor the pollution caused by an estimated 3,500,000 pipe smokers in the United States.

"I am not prepared to say to what extent tobacco smoke adulterates the air," he said. "But it certainly is a factor."

Rutt also says he sympathizes with anyone who has a smog or cigmog problem and he doesn't know what to do about it.

"Care for a cigarette?" he concluded.

"NOW LOOK YOU GUYS" — "I'm the boss, see?" this cat in Surrey, England seems to be saying. And to prove his point, the ferocious feline has even pre-empted his mistress' armchair and cigarettes. Of one thing you may be sure, with a rootin' tootin' cat like that around, there's not a rouse in the house.

Gets an Answer to His Note Left on Parked Car

NEW YORK (UPI)—Saul Alston, 39, of Newark, N.J., drove here yesterday to pay a \$5 fine for passing through a stop sign.

Unable to find a parking place at the Criminal Courts Building, he left his automobile in a restricted area with this note: "Will be right out. Going to pay a fine in Magistrate's Court."

When he returned he found a \$15 parking ticket next to his note on the windshield.

10 Hurt in Collision of Detroit Bus, Auto

DETROIT (UPI)—Ten persons were injured Monday in the collision of a Detroit Street Railway bus and an auto. All were taken to hospitals for treatment.

Nine of the injured were in the bus and the other was a passenger in the car. One bus rider—Mary Hughes, 39, of Detroit—suffered serious injuries. She recently had undergone surgery.

Ike Discusses U.S. Population

Says Rapid Growth Reason for Continued Economic Progress

WASHINGTON (UPI)—President Eisenhower today cited rapid population growth as a major reason for expecting continued U.S. economic progress.

In his annual economic report to Congress, he said new projections by the Census Bureau point toward a U.S. population of at least 212,500,000 and perhaps as high as 219,500,000 by 1970.

The present population is 175,000,000. brings problems, the President noted. He pointed out, for example, that the U.S. school system must provide space for an extra 3,300,000 elementary age children by mid-1962. The number of children of high school age, now about 10,600,000, will increase to 12,900,000.

Syracuse University recorded 18 straight winning basketball campaigns between 1925 and 1942.

Comments on Mikoyan Tour:

A Nice Visit, but No Changes

By THE ASSOCIATED PRESS

Anastas I. Mikoyan has convinced many prominent Americans he's a very smart man, and has sold to some the idea there are merits in visits by Soviet leaders. But he has not revolutionized U.S. thinking on the Soviet Union.

These are the main conclusions emerging from a quick poll among citizens whom the Soviet first deputy premier met in person on his tour of America.

"Mikoyan changed no ideas of mine," said George Weaver, assistant to President James B. Carey of the International Union of Electrical Workers. "Mikoyan made a strong impression with his astuteness and brilliance." Asked if he thought the Mikoyan visit was a good thing, Weaver replied: "Absolutely! I'd like to see more of that."

A Detroit businessman said: "We think the visit to Detroit was a good thing. It didn't change our opinion on our foreign policy or on the Soviet Union except possibly on trade. . . . It's our feeling that perhaps increased trade would lead to more person-to-person contacts and that this would be a good thing."

Gov. Edmund G. (Pat) Brown of California said: "He is making a sincere effort to better the relationships between our two countries. We should encourage this by similar efforts."

Edward L. Ryerson, former chairman and now a director of Inland Steel Co., who was Mikoyan's host in Chicago, said: "I don't think there is any reason for any great change in attitude."

Richard Nelson, president of the World Trade Assn. which Mikoyan addressed in San Francisco, an addressed in San Francisco,

declared: "I am not so naive that he could come over here, turn on his charm and convert me. I feel the prime purpose of his visit was to sound out the tenor of the American public and thinking toward the Soviet Union."

Said Elliott V. Bell, chairman of the executive committee of McGraw-Hill Publishing Co. Inc. of New York: ". . . I hope and think he found that the people support the foreign policy of the government and that the United States cannot be bluffed out of Berlin."

Former Sen. Herbert Lehman, a New York financier, said he found Mikoyan "a very intelligent and well-informed man. 'I did not find his visit changed anything to any appreciable extent.'"

Howard C. Shepherd, chairman of the First National City Bank of New York who helped arrange a luncheon for Mikoyan with bankers and industrial leaders said: "You come away more or less frustrated. . . but there must be a way out. That was our whole purpose in seeing him, to try to find a way out."

Said Mayor Norris Poulson of Los Angeles: "I found him to be a very affable, pleasant and smart individual who could make a lot of general statements. He's a nice fellow and all that."

Sentenced for Assault

James Taylor Jr., who was convicted Jan. 9 by a Circuit Court jury of the felonious assault of a woman, yesterday was sentenced to from 2 to 4 years at the State Prison of Southern Michigan at Jackson.

Taylor, 21, of 371 E. Wilson Ave., was sentenced by Oakland County Circuit Judge Frank L. Doty.

Hoffa Aide Suffers Second Heart Attack

CHICAGO (UPI)—Robert (Barney) Baker, aide to Teamster Union President James Hoffa, was in a Chicago hospital yesterday, victim of a second heart attack.

The first attack, last August in Washington, interrupted his testimony before the Senate Rackets Investigating Subcommittee headed by Sen. McClellan (D-Ark). Baker was accused by committee investigators of using strong-arm tactics in organizing efforts.

He is now under subpoena to appear again before the committee when hearings on Teamster matters are resumed in Washington.

I'VE GOT A JOB

I've got a job and that's important to me; to my family and to my community. When I'm working, I'm happy. It gives me a feeling of security.

Other men in our town need jobs too. They have to support their families, pay their taxes, meet home payments and pay other obligations. That's why it's up to everyone of us to do all we can to keep our present industry and to attract new plants. We can let our own industry

know we appreciate it and we can tell others about the advantages our town offers.

If we all work together, we can do it. Then I'll still have my job and you'll have yours and there will be good jobs for our youngsters when they are ready to go to work.

Join hands with your local industrial development organization and the Michigan Economic Development Department to help your community prosper.
