

Record Pontiac Sales Lead to 1,250 New Jobs

Baby, It's Warm Down There

SITTING IN THE SUN—Mrs. Jodee Swenberg, wife of a Cape Canaveral missile engineer, lounges in the sun and on the sands at Cocoa Beach, Fla., and reads about the killing cold weather which struck her home town, Omaha, Neb. In the background, Eugene Wright of Detroit and his children play in the warm Atlantic Ocean waters.

At Least 20 Children Dead

Train Smashes Bus

GREELEY, Colo. (AP)—A school bus was struck by a streamliner passenger train in Northern Colorado today and at least 20 persons were killed.

Coroner Ross Adamson said 20 bodies were taken to a temporary morgue in Greeley. Apparently all of the dead were children.

A number of children were taken to a hospital at Greeley. Adamson said he was told there were 30 children on the bus.

Sheriff's officers said the driver of the bus apparently escaped serious injury and was given shelter

in the county jail. He was identified as Duane Harms.

The train was a Union Pacific Railroad streamliner, which was traveling westbound. The bus was struck at a crossing two miles east of Evans, which is a short distance south of Greeley.

Greeley is about 50 miles north of Denver. After the accident the train was run on to La Salle, another small community near Greeley.

The bus was one of several from the Greeley school district serving Greeley High School, a junior high school and an elementary school.

Officials said all of the children aboard the bus were from rural families.

The weather was clear with temperatures below freezing.

The crossing is marked by a sign but has no flashing lights to signal the approach of a train, an official said.

The bus, traveling northwest, apparently drove into the diagonal crossing just as the train approached.

The train struck the bus at its rear end and knocked it about 100 yards.

E. M. (PETE) ESTES

New Employees Hired to Meet Dealer Demand

E. M. Estes Reports
12,488 Cars Sold in
1st 10 Days of Month

A sales boom at Pontiac Motor Division is creating an employment boom in Pontiac.

As a result of an unprecedented demand for the 1962 Pontiac and Tempest models, Pontiac Motor and Fisher Body Divisions are hiring approximately 1,250 new employees, according to E. M. Estes, General Motors Corp. vice president and general manager of Pontiac Motor.

Both division began hiring this week in expectation of increased production next month.

Of the 1,250 new employees, nearly 75 per cent will be hired by Pontiac Motor.

"To stay abreast of record retail sales, Pontiac will increase its production schedule starting in January," Estes revealed. "This will enable dealers to satisfy large numbers of unfilled orders and to maintain adequate stocks."

Retail sales of new Pontiacs and Tempests during the first 10 days of December totaled 12,488.

This was a gain of some 308 cars over the same period last year. There were 11,980 cars sold in the first 10 days of December, 1960.

Pontiac retail sales during November totaled 43,176 cars. This was an all-time high for that month.

Likewise, the 1962 model year thus far is breaking all division records.

"This continuation of high-volume sales has resulted in a record new car introduction period for Pontiac," Estes said.

"During the first 80 days of 1962 more than 115,000 new Pontiacs and Tempests were delivered to customers," he revealed.

During the same period during the record sales year of 1955, there were 108,217 new Pontiacs delivered to customers.

Thus the 1962 model year is on front of the historic 1955 sales pace.

Browns Gain Rights to Syracuse's Davis

CLEVELAND (AP)—The Cleveland Browns have obtained the negotiating rights to All-American halfback Ernie Davis of Syracuse from the Washington Redskins; it was learned today.

In exchange, the Browns will give up halfback Bobby Mitchell and the draft rights to Leroy Jackson of Western Illinois College.

Davis is not eligible to sign a professional contract until he completes his collegiate career with Syracuse in the Liberty Bowl game against Miami of Florida Saturday in Philadelphia.

NATO Council Ford Buys Shelby Road Plant Busy on Congo

Ministers Forget Berlin, Try for Katanga Peace, Study Own Defenses

PARIS (AP)—A new offshoot of NATO got under way today as NATO ministers' conference today to get a cease fire in Katanga.

Belgian Foreign Minister Paul-Henri Spaak told newsmen his government is working "together with the French and the British for possible mediation" between secessionist Katanga Province and U.N. Forces.

The NATO council discussed defense problems in an atmosphere clouded by unresolved differences between some of the powers over the Katanga problem.

The U.S. government has refused to press for a cease fire in copper-rich Katanga until U.N. Forces have gained their minimum objectives of freedom of movement and safety of personnel.

This American attitude disappointed British Prime Minister Macmillan's government. Britain's concern over developments in Katanga is shared by France and Belgium.

Citizens of all three countries have important financial interests in Katanga's mineral wealth.

Now the British, French and Belgians are considering how they can go ahead on their own in an effort to get a cease fire in President Moise Tshombe's secessionist province.

For the time being, the 15 NATO ministers put aside their differences over whether and how to negotiate with the Soviet Union on Berlin, and turned to the state of their military defenses.

The council authorized studies on how to make NATO a nuclear power and to equip the alliance's SHIELD forces with medium range ballistic missiles, West German sources reported.

This decision was said to have been taken at the suggestion of West German Defense Minister Franz Josef Strauss.

An estimated 2,000 workers now engaged in Ford Motor Co. trim operations in Highland Park are expected to be employed in Ford's newly acquired Curtis-Wright plant, Shelby Township.

Curtis-Wright and Ford yesterday afternoon concluded agreement for sale of the two manufacturing plants and 650 acres of land bounded by 23rd Mile Road, 22 Mile Road and Shelby Road.

The plants had been virtually closed down after Curtis-Wright had to battle a local home-owners' group through the courts, and finally won in 1960.

However no further steps had been taken toward establishment of the racing operation.

The property includes the former Packard car proving and test track.

In two main manufacturing buildings there is about 11-million square feet of floor space.

Scott said there is adequate floor space at the Ulica plant to house present soft-trim production requirements. The trim plant produces cushion covers, interior door panels, headlining and convertible tops for the company's entire line of passenger cars and trucks.

cently, for reconditioning jet aircraft engines.

Curtis-Wright had been attempting to find a buyer for the facilities since last July, when it sent out 8,000 sales brochures to brokers all over the country.

Earlier, when Curtis-Wright had proposed use of the acreage for a big car racing operation like the Indianapolis "500," it had to battle a local home-owners' group through the courts, and finally won in 1960.

However no further steps had been taken toward establishment of the racing operation.

U Thant to Sidestep Plea for Cease Fire

LEOPOLDVILLE, The Congo (AP)—U.N. sources said Katanga's mortar batteries attacked the "Bamboko" refugee camp outside Elisabethville today, killing 10 Bamboko tribesmen and wounding 20.

UNITED NATIONS, N.Y. (AP)—Backed by the United States and the entire Asian-African bloc, Acting Secretary General U Thant was expected today to press U.N. action against the Katanga government despite Britain's call for a cease fire.

Thant told British Delegate Sir Patrick Dean he would turn Britain's cease-fire request over to his Congo advisory committee. But it was expected the British demand would be rejected in view of the overwhelming support for the U.N. operation in the Congo province.

The cease-fire call widened the split over Congo policy between Britain and the United States, which declared the move was not feasible until "minimum U.N. objectives" are obtained in Katanga.

The 49-nation Asian-African group unanimously approved a declaration hailing the U.S. stand on Katanga and throwing full support behind Thant.

Group chairman Mehdi Vakil of Iran said the group decided in a closed meeting to express appreciation for both the material and moral support given the U.N. forces.

In a reference to Britain and France, Vakil said the group had voiced deep concern at lack of cooperation from some permanent members of the Security Council.

Indian bombers and Swedish jet fighters swept over Elisabethville today to bomb and strafe Katanga troops westward.

The jets screamed out of heavy clouds toward Kenya township, a district in the southern outskirts of Elisabethville where the main Katanga army headquarters are believed to be located.

They appeared to drop bombs from about 6,000 feet.

There were heavy concentrations

of troops and vehicles in the ment talks urgently and report back by June 1.

After months of private discussion, the two major powers submitted a joint resolution to the main Political Committee proposing that eight nonaligned nations—Burma, India, the United Arab Republic, Ethiopia, Nigeria, Brazil, Mexico and Sweden—be added to the 10 nations that previously talked disarmament without getting anywhere.

The Soviet Union and the United States in a separate move set the scene for new disarmament negotiations by proposing that the General Assembly ask a new 18-nation committee to start disarmament talks.

The original 10 are Bulgaria, Czechoslovakia, Poland, Romania and Russia on the Communist side and Britain, Canada, France, Italy and the United States for the West.

Outbreaks in Missouri, Illinois

U. S. Faces Siege of Flu

By THE ASSOCIATED PRESS

A lot of people on an island off the coast of Alaska, and parts of Missouri and Illinois have the flu and chances are the United States faces a siege of it.

"These outbreaks are occurring right on schedule—this is about the time for them to start," a spokesman for the Public Health Service said in Washington. The service predicted some time ago there will be a considerable increase in flu cases this winter.

Aside from the Alaska outbreak, the major area affected was in several Missouri and Illinois communities near the Mississippi River.

Newest outbreak reported was in suburban St. Louis where one-fourth of the 800 students at the Maplewood-Richmond Heights High School were absent because of the flu. Other suburban schools reported increased absenteeism.

Earlier outbreaks were reported from Potomac and Lutesville near Cape Girardeau in Missouri and Wolf Lake in Illinois.

ABSENTEEISM JUMPS

Principal Ferdinand L. Del Pizzo reported absenteeism at the Maplewood School was about normal last week but jumped to 15.9 per cent Monday, 23 per cent Tuesday and 34 per cent Wednesday.

"This spread faster than any flu outbreak I can remember in 38 years of practice in Potomac," said Dr. George S. Cresswell, county health officer. "It hasn't produced severe cases and many of the children are almost well now. The virus is just starting to hit the adults. The children are hit first, then the adults, then the old folks."

Potomac's schools closed Monday when 800 of the 2,400 pupils were absent and will not reopen before next week. Potomac is a mining town 55 miles south of St. Louis.

Naval Reservists' Proud Moment

BEST IN STATE—Pontiac's Naval Reserve Surface Division 9-104 was honored as the top unit in the state last night by the Michigan Veterans of Foreign Wars. Shown at the award ceremony are (from left) Ens. Charles T. Shedd, chosen as petty officer of the year; Seaman Appren. Stanley M. Yarema, sailor of the year; Zigmund Cybulski, Michigan VFW commander; and Lt. Cmdr. Walter J. Piel, commander of the Pontiac Naval Reserve division. See story on page two.

3 New Members Elected to Local C. of C. Board

The Pontiac Area Chamber of Commerce today elected three new members to its board of directors and re-elected three present board members.

The new directors, elected to three-year terms expiring Dec. 31, 1964, are Charles F. Brown, district manager, Consumers Power Co.; Howard L. Canfield, district manager, Detroit Edison Co.; and Carroll L. Gumm, senior vice president, Community National Bank.

Current directors named to three-year terms were John A. Castle, public relations director, GMC Truck & Coach Division; and F. Milton Hathaway, a Pontiac optometrist.

William J. Dean, president of Dean Brothers, was re-elected to fill a term expiring Dec. 31, 1963, left vacant by the resignation last month of Horace W. Lodge Jr.

RAIL FAITH IN PONTIAC AREA—Willie S. Downes is honored by Pontiac Area Chamber of Commerce for his decision to rebuild the burned-down Pontiac Millwork Co. in Pontiac Township, spurring offers to build in other states. From left to right at yesterday's ceremonies are the firm's treasurer, Kenneth French; firm vice president William S. Hilder; Downes, and City Manager Robert Stier.

Hospital Budget Before Board

Okay of \$5.8 Million Figure Tops Agenda for Trustees Tonight

Topping the agenda for tonight's Pontiac General Hospital Board of Trustees meeting will be approval of the hospital's proposed 1962 operating budget.

The budget proposal is expected to be in the neighborhood of \$5.8 million—about \$800,000 more than the current \$5,023,120 budget.

"Most of the increase will be due to an increase in operating capacity," said Harold B. Eiler, hospital administrator.

"When we figured the 1961 budget, the 23-bed mental health department had not yet been opened. The 1962 budget will be based on current operating costs."

To date, operating costs have reached \$5,548,000 this year, but this doesn't mean the hospital is in the red. The difference is expected to be made up as unpaid billings to patients come in.

Total anticipated income for 1962 is estimated to be \$6,084,150.

The budget must be approved by the trustees before it can be forwarded to the City Commission for the final approval and adoption.

NATO Ministers Told Reds Bolstering Subs

PARIS (AP)—The 15 North Atlantic ministers were told today the Soviet bloc is strengthening its military—carrying submarine fleet.

An intelligence report presented to the NATO conference by French Adm. Max Douquet estimated the Soviet bloc has about 350 submarine marines in commission. Twenty of the most modern carry missiles to Berlin on President Kennedy's order to six or seven orders a week after the Communists, conference sources quoted him.

NATIONAL WEATHER—Rain and showers will extend tonight from the Southern Plateau through the Gulf Coast and on the North and Central Pacific Coast. Snow and snow flurries with freezing rain are expected in the Northern and Central Plateau, parts of the Central Plains and eastward to the Ohio Valley and into the Lakes region and parts of the North Atlantic states. It will be warmer from the Southern Plateau through the Southern and Central Plains, Gulf Coast, Ohio Valley and in the Northern Plateau as well.

The Day in Birmingham

School Board to Discuss Contracts for 4 Additions

BIRMINGHAM—A special meeting of the Birmingham Board of Education will discuss the awarding of contracts for construction of additions to four elementary schools.

At the same time the board will discuss selection of an architect for the Barnum addition, the new junior high school on the Valley Woods site, and the district's new storage building.

Deadline for construction bids is Dec. 27.

The school board also has requested the Birmingham Municipal Finance Commission to authorize the sale of \$2.5 million in bonds, about half the total of bonds approved by voters last month.

The total bond issue approved in the Nov. 20 special election was \$4,915,000.

The balance of the bonds will be offered for sale when the need arises, probably after July 1.

The bonds being asked for authorization would be used to finance initial planning or construction of all buildings previously planned.

Harlan Ritz of 1816 Riverside Drive, Beverly Hills, has been elected president of the Birmingham Exchange Club for 1962.

Other officers are Dave Falvey, first vice president; John Townsend second vice president; and George Scott, secretary-treasurer.

Board members are Harry Ann, Ernest Edmond, Vernon Hagstad, Robert Thorsen, Richard Turner, Robert Wilson and Robert Egan.

A liquor license for Sammy A. Butty of 219 N. Eton Road, operator of a grocery, has been approved by the Birmingham City Commission.

Delegates heard a plea from Eisenhower Wednesday that they lead the way in a drive for states' rights and a return of power and authority to state governments.

The former chief executive spoke for more than an hour, presenting the convention with his views on federal-state relationships. About half the time was devoted to answering questions from the delegates.

Eisenhower's five-hour visit to Michigan included a brief talk to some 5,000 students and faculty members at Michigan State University. It was his first visit to the campus and his first appearance in Michigan since a whistle-stop tour during the 1952 presidential campaign.

In championing states' rights, Eisenhower declared that the pendulum of power has swung far from the states toward the federal government.

He added, however, that every state failure to meet a pressing public need had "created the opportunity, developed the excuse and fed the temptation for the national government to poach on the state's preserve."

"Never under our constitutional system," he asserted, "could the national government have slipped away so much state responsibility and authority without the neglect, acquiescence or unthinking cooperation of the states themselves."

Eisenhower said Michigan can lead the way for the 49 states to have returned to them the responsibilities best exercised by the people of a state.

The convention, he said, has an opportunity to establish greater national development.

Albanians Back Home

MOSCOW (AP)—About 60 Albanians, members of the embassy staff and their wives and children, returned on a Soviet plane today to Tirana, the capital, after a long stay in Moscow.

The study said Catholic schools provide education accepted as meeting state standards for 13 percent of the grade and high school pupils in the nation. It argued there has been a long history of government help to church educational institutions.

The study's views oppose those expressed by Kennedy, a Catholic.

He told a news conference last March he thought Supreme Court decisions had made it clear grants and loans to parochial schools for general educational purposes were unconstitutional.

Thwart \$280,000 Holdup

LONDON (AP)—Eight robbers wearing gas masks attempted to seize a 100,000-pound (\$280,000) payroll today but were beaten off in a wild battle with five guards, a policeman and a police dog.

Con-Con Hears Ike's Pep Talk

Ex-President Tells Them to Push for Basic Rights of the States

LANSING (AP)—Michigan's constitutional convention, pondering words of advice from former President Dwight D. Eisenhower, plunged anew today into its task of rewriting the basic law of the state.

Delegates heard a plea from Eisenhower Wednesday that they lead the way in a drive for states' rights and a return of power and authority to state governments.

The former chief executive spoke for more than an hour, presenting the convention with his views on federal-state relationships. About half the time was devoted to answering questions from the delegates.

Eisenhower's five-hour visit to Michigan included a brief talk to some 5,000 students and faculty members at Michigan State University. It was his first visit to the campus and his first appearance in Michigan since a whistle-stop tour during the 1952 presidential campaign.

In championing states' rights, Eisenhower declared that the pendulum of power has swung far from the states toward the federal government.

He added, however, that every state failure to meet a pressing public need had "created the opportunity, developed the excuse and fed the temptation for the national government to poach on the state's preserve."

"Never under our constitutional system," he asserted, "could the national government have slipped away so much state responsibility and authority without the neglect, acquiescence or unthinking cooperation of the states themselves."

Eisenhower said Michigan can lead the way for the 49 states to have returned to them the responsibilities best exercised by the people of a state.

The convention, he said, has an opportunity to establish greater national development.

Publicize Study on School Aid

Catholic Church Unit's Report Contends Help Would Be Constitutional

WASHINGTON (AP)—An agency of the Roman Catholic Church made public today a legal study contending that federal grants to aid in teaching secular subjects in parochial schools would be constitutional.

Thus, the study said, there is no legal bar to including funds for church-conducted schools in the general school aid bill advocated by President Kennedy and now before Congress.

The study was put out by the National Catholic Welfare Conference, the agency of the Catholic bishops of the United States. Conference spokesmen emphasized, however, that the document had been prepared by the conference's legal department and was not being issued in the name of the bishops.

The study said Catholic schools provide education accepted as meeting state standards for 13 percent of the grade and high school pupils in the nation. It argued there has been a long history of government help to church educational institutions.

The study's views oppose those expressed by Kennedy, a Catholic.

He told a news conference last March he thought Supreme Court decisions had made it clear grants and loans to parochial schools for general educational purposes were unconstitutional.

VFW Honors Naval Reserve

Pontiac Unit Receives Trophy for Being Best in Michigan

Local and state officials joined with the Michigan Veterans of Foreign Wars last night in honoring the officers and men of Pontiac's Naval Reserve Surface Division.

In a ceremony at U.S. Naval Training Center, 469 S. East Blvd., the division was awarded the VFW's Capt. R. T. Broadhead trophy for being the top Naval Reserve unit in Michigan.

Besides the divisional award, two members of the local reserve unit were honored with individual citations.

Chosen as outstanding petty officer of the year in Michigan was Charles E. Shedd of 314 Lakeside Drive, White Lake Township.

El/Sn. Stanley M. Yarems of 1283 Robson Lane, Bloomfield Township, was honored as the state's outstanding seaman of the year.

The Broadhead trophy was presented to Lt. Cmdr. Walter J. Piet of 469 S. East Blvd., Birmingham, commander of the Pontiac division, by Zigmund Cybulski, commander of the VFW Department of Michigan.

Mayor Philip Rowland commended the unit on the honor it has brought to Pontiac.

PRESENTED STATE FLAG

Asst. Sec. of State Frank J. Sierawski also spoke at the assembly and presented the flag of Michigan to the division on behalf of Sec. of State James M. Hare.

The award was awarded to the Pontiac reserve unit on the basis of its showing in the national Forward Trophy competition.

The local division finished first among the 10 units in the state and fifth among the 49 units comprising the Ninth Naval District.

Shedd and Yarems were cited for their "performance in the fields of advancement, attendance, active duty for training and recruiting."

Re-Elect Meany for Two Years

Labor's Leader Now Has Tools to Use for Inside Strife

BAL HARBOUR, Fla. (AP)—George Meany emerged today with a new two-year term as organized labor's top leader and important new tools for dealing with labor's internal and racial problems.

Meany, 67, came out of the week-long AFL-CIO convention with his authority over the 12.5 million member federation more solidly established than ever. His major accomplishment was in persuading rival building trades and industrial unions to agree on ridding themselves of a tough new disputes settlement system as part of the AFL-CIO constitution.

"This will free us," Meany told the final convention session Wednesday, "free our energies and our time and our money to turn to the real problem, which is to defend the people we represent."

"We have come a long way, but we are still threatened by those who try with the idea that America would be a better place if we had no unions, or impotent and weak ones worse than no unions."

Frigid Weather Maintains Grip Across Nation

By The Associated Press
Unseasonable cold weather held a tight grip over most of the northern and central sections of the nation today from the Rockies to New England.

There was a little relief from the biting cold in the snow-covered sections of the Midwest. Temperatures, which dropped to zero and far below in 10 states Wednesday morning, moderated. But they were below the normal levels as the season's longest cold snap continued.

The mercury plunged to below zero again this morning in parts of North Dakota and Nebraska but ranged from zero to 10 above in South Dakota, some 20 to 30 degrees higher than Wednesday morning. In North Dakota, it was -12 in Dickinson and -8 in Minot.

Titan Rocket Shot Ends Test Firings

CAPE CANAVERAL, Fla. (AP)—The United States is ready to add the Titan to its force of intercontinental-range ballistic missiles following completion of the weapon's test firing program.

The final Titan I test rocket blasted away from Cape Canaveral Wednesday night and smashed a target 5,000 miles away, scoring its 33rd success in 47 launchings since the firing program began early in 1959.

Although the missile is a proven weapon, the Air Force cannot declare it operational until launching sites are ready.

Informal sources report that a monkey with a radio transmitter and biomedical sensors imbedded under its skin is scheduled to take a 600-mile-high rocket ride within a few days.

The Air Force had no comment, but the sources said the monkey will ride in a special cylinder attached to the side of an Atlas missile.

3M Firm Indicted on Antitrust Charge

DANVILLE, Ill. (AP)—A federal grand jury has indicted the Minnesota Mining and Manufacturing Co., of St. Paul, Minn., on charges of attempting to monopolize and conspiring to restrain and monopolize trade.

Also named Wednesday as co-conspirators but not defendants were nine firms with headquarters on the East Coast and two in Illinois.

The indictments involve the manufacture and sale of pressure sensitive tape, magnetic recording tape and aluminum presensitized lithographic plates.

Atty. Gen. Robert Kennedy in Washington said the nine-court indictment charges 3M violated the Sherman Act through alleged abuse of patent privileges by compelling or attempting to compel competitors to accept patent license agreements.

Christmas (explains Harold Coffin) is when you give your wife something she needs, and she gives you something she wants. Nowadays the small department store is a place that has only one Santa Claus. —Earl Wilson

Disorganized Business

HAMILTON, Bermuda (UPI)—There are no established commercial fisheries in the Bermuda. However, individual fishermen annually deliver some 1.2 million pounds of fish and more than 10,000 lobsters to local markets.

Eastern City Takes Step Against Discrimination

WILMINGTON, Del. (AP)—The City License Bureau reported today no 1962 license will be issued to any restaurant owner who refuses to swear he will not discriminate against any persons because of race, color or religion.

Hospital Plans to Get Hip With Adolescent Unit

PHILADELPHIA (AP)—Lankenau Hospital plans to open an "adolescent unit" early in 1962 specifically designed to accommodate 10 patients between the ages of 12 and 18.

Castro's Value to Reds Seems to Be Dwindling

News dispatches would seem to indicate Fidel Castro is no longer in complete control of Cuba. Since Castro's speech announcing that he was a Communist the real leadership of Cuba is puzzling. High officials in this hemisphere have pointed out that his announcement would help his enemies in Cuba and also the United States. They point out that it would harm his position with the Organization of American States.

CASTRO

These conclusions all seem reasonable. But it appears that the crux of the matter is that he was forced to declare himself by the Kremlin. He had served their purpose by organizing and carrying out the first assignment of the Cuban Communist Party. The Red party leaders have Castro tagged, like the rest of the world, as a wild man. They feel he is a plausible hungry, totally erratic, yet crazy (our FBI can prove this), yet at the same time a magnetic leader.

To set up the stage in Cuba for the Communist take over they needed such a man as Castro. It looks like he has now completed the mission and the Reds are about to give him the heave ho.

The more disciplined masters with instructions direct from the Kremlin will be directing the Cuban Communist State. The real boss in Cuba today is party head Blas Roca and the No. 2 Red in command is Carlos Rafael Rodriguez. And, of course, the man behind the stage is Soviet Ambassador Krudryaviev.

Where does this leave Castro? It is possible that he could be used elsewhere in Latin America. Like "Che" Guevara, who is also the first brand type, both are experts in Red guerrilla warfare and could be used elsewhere.

Will Venezuelans Give Repeat Performance?

The trip the President and the First Lady are taking this weekend is certainly a calculated risk.

Nobody in the State Department is forgetting for one minute that Venezuela was the scene of perhaps the worst harassment received by former Vice President and Mrs. Richard Nixon on their rugged Latin American tour in the spring of 1958.

Moreover, all three of the then principal Venezuelan political parties protested President Eisenhower's dispatch of troops to the Caribbean area in connection with the violence to Nixon. Despite the efforts of both governments, considerable "antigringo" sentiment persists.

So the decision of President and Mrs. Kennedy to visit Caracas on Saturday is undoubtedly a risk. Of course, assurances have been given to the White House that all precautions will be taken to insure the safety of the presidential party.

Despite the danger, Venezuela is especially inviting. Like Colombia, to which the President and the First Lady will subsequently proceed, Venezuela has developed a successful democratic regime following the over-

throw of the right wing military dictatorship.

We trust the President will have a successful mission without incident.

Extra Care Demanded During Winter Driving

With the first taste of winter driving, the number of fatal traffic accidents in the Oakland County area experienced a considerable jump.

An adjustment in driving habits is essential when the roads become treacherous. In addition to the slick streets, visibility is at the low point of the year right now, with the shortest days made worse by obscured windows and driving snowstorms.

Adding a couple of car lengths to the usual distance between cars is a good safety measure. Beware of automatic brakes which stick when the car is warming up, giving more speed than desired.

Check the amount of Christmas cheer imbued. Winter driving is tough enough when the abilities are unimpaired by overindulgence.

The Man About Town

Going After It

And Communities That Are Wide Awake Get It

Christmas: When it's difficult to separate the men from the toys.

Word drifts in from my friend, Ben Threliff

of Milford, that his village is staging a humdrum of a Christmas parade Friday evening at six o'clock. He says that over 40 floats will appear, and that it will rival Pontiac's centennial parade.

Congratulations to Milford; but that up and going village in the west part of our own Oakland County will have to stretch itself if it beats out Rochester, Lake Orion, Oxford and others among our suburban communities.

Every live Oakland County community puts on some annual boosting parade, all gloriously embellished with civic pride. For instance, Clarkston's Labor Day event attracts wide attention, and draws big crowds.

The wide awake business interests in all of these communities are up and doing, and reaping the rewards of their enterprises.

It is only the merchants of the dead towns, (which they've helped kill), that are content to sit on their hands, (and piggy banks), and kick, while the business goes elsewhere. In what category is your town?

At the Pontiac branch office, Manager Willis M. Brewer

tells me that the sale of new auto license plates is running about 500 behind the same dates as last year.

Most of us will agree with

Blaire Fillerson

of Birmingham, who phones that he considers

Jack Paar

to be television's greatest nightmare.

Coming from an anonymous contributor, this Christmas hint is a good one: Never give a baby anything so small that it can put it in its mouth.

Here's my personal congratulations to R. C. Cummings

and his financial firm for his elevation to chairman of the board. Clare got his start in business in a Holy bank, and wrestled with my account which was invariably overdrawn. Although we have been close friends for a half century or more, he evidently still has recollections of his Holy experience, as he never has asked me to open an account with him here.

The prediction of the Old Farmer's Almanac for the Pontiac area this week: "Sneezers, snufflers wrap in mufflers."

Verbal Orchids to—

You'd Be Surprised at the Suckers I Catch

David Lawrence Comments:

Romney Warns Against Controls

WASHINGTON—There are times when the official emphasis here is on the importance of reducing tariffs and increasing the volume of exports—but remained for George Romney, president of the American Motors Corp., to speak out against a handicap which, if not removed, can prevent the automobile mentioned goal from being realized.

He deplores the quasi-monopoly and cartel-like system that industry bargaining has created in America and points a finger of blame to the situation in the steel industry which, through strikes and partisan settlements, has caused so much damage to the American economy.

Indeed, unless the words spoken by Romney are taken to heart, the United States may face in a few months another recession and then another, as the whole economic system founders under the evil hand of monopoly.

Romney is being mentioned as a possible candidate for president on the Republican ticket in 1964 but, with a forthrightness that is characteristic of his whole career, he doesn't seem to care what impact his words may have from a political viewpoint.

He is the type of man who would rather adhere to his convictions than compromise to win political office.

PREDICTS CONTROLS

No other prominent personality in the political or economic world has made as sweeping a denunciation of industry bargaining as he did in a speech in Chicago this week before the American Farm Bureau Federation.

Romney predicted that in 1962 the nation will face "not only the possibility of another industry-wide steel strike, but the potentially greater evil of another government monetary controls will prove inadequate to prevent."

He contends that the recession of early 1960 was "probably started and was unquestionably longer and more intense because of the after-effects of the last steel strike."

Romney doesn't think the solution lies in intervention by the President but rather in putting an end to the power of either employers or unions to create national emergency strikes.

He pointed out that, while Secretary Labor Goldberg promises equal pressure against wage

and price increases, the latter was told the AFL-CIO convention the other day that there was justification for wage improvement.

The fact that the secretary of labor is quoted as saying that he will make recommendations soon "to increase the range of presidential alternatives for rearing impasses in collective bargaining in major industries" is regarded as a significant turn by Romney, who commented as follows:

"In my judgment, this is a frank acknowledgment that the union-

corporate power array in steel, as well as elsewhere, has crushed the process of collective bargaining. The net result of the situation is that a large measure of government control has almost become a reality."

Maybe it's a platform for the 1964 campaign, especially if unemployment at that time has become widespread and the industries of the United States face hard sledding as against the European Common Market.

(Copyright 1961)

Dr. William Brady Says:

Many Ailments Manifest Deficiency in Calcium

"Dear Dr. Brady:

"About a year ago, I wrote you the saddest letter telling you of all my troubles, which included eczema over my entire body, hives, hay fever, asthma and all sorts of ailments.

"I was a bit of a wit's end. I had spent a great deal of money, had many tests, was hospitalized and took many drugs. The doctors finally advised me to have shock treatment, but I did not take it.

"I didn't think I was crazy but I was being convinced I was. "Now, thanks to you, I am 100 per cent cured since April, when I started on the daily ration of calcium and vitamin D which you suggested.

"After many many years of being miserable, it is such a relief and pleasure to enjoy life again. I now know my family enjoys life more now."

(Mrs. J.F.)

"P. S. My joint pains also are gone.

Every one of the ailments the lady had is, in most cases, a manifestation of calcium deficiency. But that isn't the half of it. My quondam colleagues do not call me "Old Calcium Brady" for nothing. In Little Lesson No. 26, "The Calcium Shortage" (for a copy send me 35 cents and a stamped, self-addressed envelope). I mention half a dozen other common ailments which are manifestations of calcium deficiency.

CAN'T DO HARM

One subject to any of these troubles or the other manifestations mentioned in Little Lesson 26 owes it to himself or herself to (1) follow a high calcium diet and (2) supplement the diet with an adequate daily ration of Ca & D for not less than three months. This can do no harm in any case and as Mrs. J. F. describes, it may enable one to "enjoy life again."

In his book, "Vitamins and Other Dietary Essentials" (published in England) W. R. Aykroyd, M.D., referring to blind-blindness, said:

"The writer has sometimes given Newfoundland fishermen, victims of 'night-blindness', a single tablespoonful of cod-liver oil, with the gratifying result that they were able to see the sea in the deepest night. There are, of course, fears, but other remedies in medicine so rapid and reliable."

From what I have observed and what a great many followers have reported, I believe few medicines, old or new, are so effective in so many ailments as high calcium diet and/or daily intake of an adequate ration of calcium and vitamin D (the vitamin is essential for good assimilation and utilization of calcium).

Anyone who consumes less than

Voice of the People:

'Let Us Remember Value of Our Bill of Rights'

December 15 is the anniversary of the day the Bill of Rights was written into the Constitution of the United States. One hundred and sixty years ago, an American of great vision, George Mason of Gunston Hall, Va., finally saw the inalienable rights of individual man, for which he had fought so long and hard, embodied in the new Constitution of the United States of America.

The freedoms we have today are the result of the great struggles and vision of the founders of our country. Today, the Bill of Rights stands between the world and the threat of communism. Let us remember what the date, Dec. 15, should mean to us and to all mankind.

Mrs. E. L. Marquis

Pontiac Symphony Worthy of Coverage

I regret that The Pontiac Press did not review the recent concert of the Pontiac Symphony Orchestra.

For eight years our orchestra has been a medium through which musicians have expressed their abilities under Felix Resnick. Our Orchestra has been building, and creating an asset to this city's cultural life that all should be proud of.

The conductor, the musicians who practice so faithfully and those who have interested themselves in the success of the Pontiac Symphony Orchestra ask for inclusion in recognizing this fine endeavor.

Dora Dawson

'Christmas Season Started Too Early'

It is just plain rotten to start Christmas on or before Thanksgiving. By Christmas the stores are all saved, and merchandise all saved over. Christmas doesn't have enough of Christ these days.

Gertrude L. Johnson

Portraits

By JOHN C. METCALFE

I hope that you can find the time . . . To say a little prayer for me . . . Because I want to be quite sure . . . My situation God can see . . . The reason is that I should not . . . Be just the only one to pray . . . Because He knows that I have asked . . . For something nearer everyday . . . So you can understand, of course . . . That if the prayers are said by two . . . My wish most certainly will have . . . A better chance of coming true . . . I know, moreover, through the years . . . Our Lord has been your constant friend . . . And so I feel that if you pray . . . My wish from heaven will send . . . So say a little prayer for me . . . Before you go to sleep tonight . . . And when the morning comes around . . . I know the day will be bright.

Smiles

New winter outfits for women are stunning. They stun did.

Hard work will gain promotion for more people if it weren't for the relatives of the boss.

Newly married people often get along better when near relatives are far away.

Sometimes at a party you can go down first when you beat the other fellow to the punch.

Who really wants to collect the debt of relatives who say "We owe you a visit?"

Sure you can get plastered on milk or drop in at a nightclub where they charge a dollar a glass.

When an auto is well oiled it makes the least noise. Just the opposite with drivers.

Those recesses of the inner life, which the God who made us keeps from every eye but His own. — Mrs. Anna Jameson.

Case Records of a Psychologist:

Don't Shield Children Too Much

By DR. GEORGE W. CRANE

CASE 10-676: Alfred K., aged 41, is a prominent Florida business man.

"Dr. Crane, it seems to me that modern young people are much more selfish than my youth," he remarked. "They take everything for granted and even forget to thank you for a special favor."

"For example, my son is in college. Each month I send him a liberal allowance. But just before the last Christmas holidays I sent him a gold watch and some extra money so that he might buy presents if he wished."

"But he failed even to acknowledge my gift of the gold watch. And of course, he didn't comment about my thoughtfulness in sending him extra cash two weeks before Christmas so he wouldn't have it for his own shopping."

"Now I didn't need a gift from him, but just the same I'd have enjoyed a little indication of his appreciation. His mother says maybe he was just very busy. So, Dr. Crane, what's wrong with this modern generation?"

Beware the Dole

Alfred's son, like many people who are on the government dole, has become so accustomed to receiving a regular monthly check from his father that he now takes it for granted.

Indeed, he has even turned the habit of expecting it as his due! And if it were to cease coming, he'd probably feel very indignant, and even upbraid his dad.

For it is a rule of psychology that people who begin receiving generously, either from parents or

the state, soon learn to expect such generosity as their due. Then they grow rate if their benefactor finds it impossible to continue with his former munificence.

BUILD SELF-RELIANT CITIZEN

Alfred is a self-made man. He earned his education. In so doing, he developed much self-reliance and executive ability before the age of 21, which his son lacks at present.

But, like most fathers, he wants to shield his boy from some of the rigors which he underwent. This is a laudable aim, up to a certain degree, but it now tends to make a mollycoddle of his boy.

For it is the tree which stands out and buffers the wind or storm, that develops the deep-rooted stability which enables it later to withstand future storms. The protected tree never grows as deep roots. So it topples over more easily.

And that analogy holds true of human personality. So don't shield your son and daughters too much, else you will develop weaklings.

They will learn to lean upon you instead of upon their own resources.

But be sure to use good sense and a reasonable attitude. If you can well afford to send your child to college, don't force him to earn his entire way through school. Make him a fair proportion.

HOW FINANCE COLLEGE

Tell him that you will match his earnings, dollar for dollar. If he cares to go to college to take special training, maybe you might even double his earnings, and lay down two dollars for every one he can earn.

But I wouldn't advise a parent to push a son or daughter into college unless the lad has a good enough ambition and incentive to earn at least 25 per cent of his way alone.

THANKS FOR WHAT?

of such a thing! Even if you are a millionaire, don't send your child to college unless he will help earn his college expenses.

Because people place very little value on that which doesn't cost them anything.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, or care of the Pontiac Press, 4 West Huron Street, Pontiac, Michigan. Enclose a stamped, self-addressed envelope and 35 cents for postage and printing costs when you send for your psychological check-up.

(Copyright, 1961)

The Pontiac Press is delivered by carrier for 40 cents a week; where mail delivery is preferred, subscription price is \$1.50 a year. All other places in Michigan and all other places in the United States \$2.00 a year. All mail subscriptions payable in advance. Send no money now if you are on the 30-day trial plan at Pontiac, Michigan, member of ABC.

Rhonda Fleming Suing

LOS ANGELES (AP)—Movie actress Rhonda Fleming is suing actor Lang Jeffries for divorce. The suit, filed Wednesday, accuses Jeffries of extreme cruelty. Both are 37. They were married April 30, 1960, and separated last Sept. 13.

Put Figure at \$500 Million by Summer

Cost of Reserve Callup Mounting

WASHINGTON (AP)—The opening of bases, expansion of the services through other means and callup of reservists and National Guardsmen is expected to cost more than \$500 million by next summer.

This is not the whole cost of the stepped-up mobilization begun last summer on President Kennedy's order.

The rest of the estimated \$4 billion increase in the military budget, originally proposed last January, is for equipment, re-

and substitution, and \$140 million is for operation of the two divisions.

One of the biggest single cost items in the callup is for the two federalized National Guard divisions, Wisconsin's 32nd Infantry Division and Texas' 49th Armored Division.

The Budget Bureau estimates this outlay will run to about \$300 million, of which \$160 million is for personnel costs, such as pay

recall, other than those for the two divisions, were not available.

\$400 MILLION ESTIMATE

However, when the mobilization program was submitted to Congress last July, a preliminary over-all estimate for Army personnel cost was \$400 million. This figure included costs of building up Army strength through recruits as well as reservists.

The Air Force uses a \$164 million estimate for personnel, saying this represents primarily the callup of Air Guard and reserve fighter and transport units, together with retention of units which had been planned for disbanding before the Berlin crisis developed.

The \$164 million is only for personnel and a relatively small amount for refurbishing bases for the units called up. It does not cover aircraft maintenance, fuel and other operating expenses.

A rough estimate for the Navy's cost in manning ships and aircraft squadrons with approval is about \$42 million. Again, this estimate does not cover operating and other costs, still being calculated.

The operation and maintenance cost for all the services and for regular as well as reservist units has skyrocketed by an estimated \$81 million since pre-mobilization days. This was disclosed last October in a mid-fiscal year estimate by the Budget Bureau.

Woman Lecturer on Kleptomania Caught Stealing

NEWCASTLE-ON-TYNE, England (AP)—A lecturer on kleptomania—the irresistible urge to steal—was taken to court Wednesday for stealing.

Eileen Watts admitted taking \$7 worth of goods from two stores but told the court: "I decided it would be nice to take some things from shops and bring them along to illustrate my lecture and point out how easy it is to shoplift. Then I planned to return the goods the following day."

The magistrate wasn't convinced by her excuse and fined her \$28.

About 30 per cent of all U. S. workers are women.

Linda to Wed Britisher

ROME (AP)—Linda Christian says she and British actor Edmund Purdom plan to marry as soon as possible. "We hope early in the year."

Marriage Licenses

Bernard O. Thompson, 2888 Grosvenor, and Patricia J. Connolly, 18 Kennedy, 1888 73rd Avenue, Des Moines, Iowa, were married Dec. 12, 1961, at the residence of the bride's parents, Dr. and Mrs. J. H. Thompson, 224 Adams Road, Beverly Hills, California.

Business Institute Plans Open House

The Pontiac Business Institute, recording highest enrollment in its history, will hold open house 3 to 9 p.m. Friday at its new headquarters, 18 W. Lawrence St.

Enrollment now totals nearly 500 students. Many of them will join faculty members in escorting guests through the modernized building.

The Institute's new headquarters is one of the most up-to-date structures in Pontiac. Extensive remodeling was done in 1957 at a cost of nearly \$100,000.

Light refreshments and pastries will be served by the Graduates' Club.

Report on Kennedy—IV

Quality of President's Leadership Hard to Evaluate

EDITOR'S NOTE—The promise of active, vigorous leadership was a persistent note in John F. Kennedy's campaign. How successful has he been translating pledge into reality? This is the fourth of five articles on the President's performance in his 11 months in office.

By ARTHUR EDSON

WASHINGTON (AP)—No man can properly judge the leaders of his own time. Few around Abraham Lincoln, so savagely ridiculed by his contemporaries, could have guessed that in 100 years he would be so venerated.

Even fewer of those around the respected U. S. Grant could have thought that history would rate the general's presidential ability so low.

HISTORY A LUXURY

To a politician, history is a luxury; he must make his decisions now.

And each of us—with our varying backgrounds that influence, and often imprison, our thinking can render nothing better than on-the-spot judgments on our leaders. Over the long haul how well we judge determines how well and where we are led.

Yet when we try to answer the question—how is John F. Kennedy doing after 11 months as President?—we quickly run into some thing hard to pin down and impossible to prove: the quality of the leadership he offers.

EMPHASIZED LEADERSHIP

It was Kennedy who put this emphasis on leadership.

A couple of examples from his speeches will recall the tone of his campaign.

In Fort Worth, Kennedy said: "Lyndon Johnson and I do not promise a life of ease. We cannot promise a solution to the problems which disturb our lives, but we can promise that if we are successful we can move with vigor and vitality on the problems which disturb us here and around the world."

STRESSES PRESIDENCY

In Hamtramck, Mich.: "The function of the President of the United States is to build a strong society here, to maintain full employment, to educate our children, to provide security for our aged citizens, to provide justice for the people, to build an image of a society on the move, so that people around the world who wonder what road they should take will decide: 'We want to go with the United States; they represent the future.'"

Obviously these goals are too great for the most daring and imaginative leader to reach in 11 months. But in this town you can get a first rate argument over whether Kennedy has made a decent beginning.

Those around Kennedy, natural ly, insist he is on his way. Naturally, this is the President's own view.

WON'T CHANGE

At a news conference he was asked about his campaign promises, and whether he would change them if he were campaigning again.

"No," Kennedy said, "it would be exactly what it was. We have met a good many of these commitments and I am hopeful that before our term is ended that we will meet the others." Republicans distantly peeked away at Kennedy, although few go so far as Rep. Walter H. Judd, R-Minn. "I say in dismay that he is a great deal weaker than I thought he would be," Judd told a GOP meeting in Minneapolis. "Mr. Kennedy won't let others make decisions and he won't make them himself."

'STILL DRIFTING'

Possibly the complaint heard most frequently, sometimes from those friendly to the administration, is that for all Kennedy's talk about this nation needing a strong sense of purpose it still seems to be drifting.

One of President Eisenhower's closest advisers says Kennedy was so convinced that Republicans over-organized the "White House" that he errs in the other direction.

"How do they assess their strength and assign priorities when the President thinks Cabinet meetings are a waste of time?" this person asked. "What are their main goals? Why, they're all main goals under this arrangement."

LINKINDEST CUT
He paused, and then delivered the linkindest cut of all. "What they need, maybe only for four or five months, is a Sherman Adams type to give direction to the operation."

No one in the Eisenhower administration drew as heavy Democratic fire as Adams, who served as a sort of assistant president. Here, of all places, Kennedy is least likely to copy his predecessor.

This same Republican says Kennedy's own behavior creates confusion. "He is emphatic against a summit conference, and yet he goes to one. He is emphatic on Laos, and then he lets it trail off. He sends up a farm program, and says this is what he has to have, and when it's changed around completely, he says this is what he wanted after all."

'PICTURE IS SMOKY'
"He says he wants a balanced budget and then he says, no, I don't. He talks about a missile gap and then one of his men says how strong we are. Which, of course, is true."

"It's no wonder the picture of Kennedy comes through a little smoky."

Those around the President aren't disturbed by criticism from an obviously partisan source, or by complaints from some Kennedy supporters who feel everything is moving too slowly.

Complacently they point to a Gallup opinion poll that shows 77 per cent approval of the way Kennedy is doing his job, 12 per cent disapproval, with 11 per cent undecided.

NO EXCEPTION
Politicians praise a poll when it's with them, and kick it when it's unfavorable. This is no exception.

John M. Bailey, Democratic National chairman, says: "If Kennedy were running for office now he'd win tremendously."

But Rep. William E. Miller of New York, GOP national chairman, says the poll merely proves that in a cold war each citizen prefers to say, yes, he supports the president. In a hot political campaign, he says, Kennedy's margin would quickly melt.

Even if Miller is wrong, the Democrats have an embarrassing admission.

LIKE WAS POPULAR, TOO
When Eisenhower was rolling up big margins in similar polls, the Democratic reaction was: this only proves that Eisenhower is popular. It has nothing to do with leadership. Good leadership may require taking an unpopular stand.

At the very moment Kennedy was saying this country was standing still, and a driving leader was needed to get it moving again, Eisenhower was doing fine in the polls.

But effective presidential leadership involves far more than one man. Beginning with George Washington, critics have found the easiest way to hit a president is to shoot at those surrounding him.

STK WELL PLEASED

In Kennedy's case, the complaint has usually been that with his choices. "Of course," he said, "he's more pleased with some than with others."

Of all the Democrats consulted on the Kennedy team performance only one had reservations.

After praising the brilliance of the White House help, he said: "My main complaint is, not one has had any administrative experience. They're really just boys."

But it's easy to criticize a president; it's harder to be one. And no one has learned that more quickly than John Fitzgerald Kennedy.

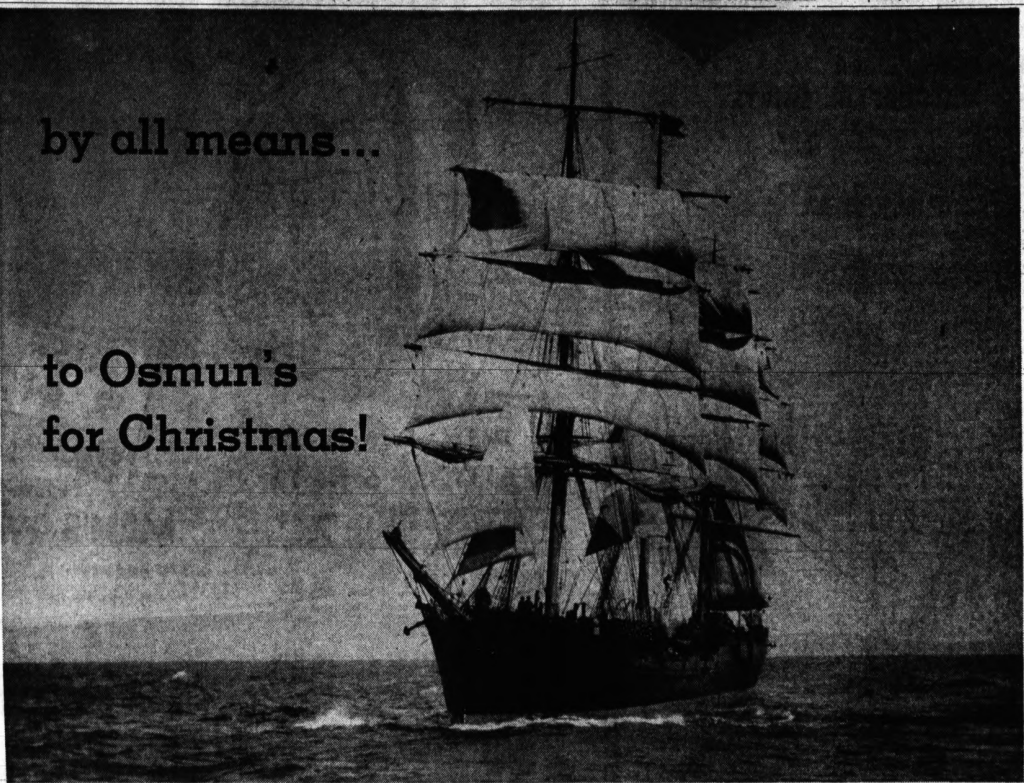

On July 25, at the end of a radio-television address, he said: "When I ran for the presidency of the United States I knew that this country faced serious challenges. But I could not realize, nor could any man realize who does not bear the burdens of this office, how heavy and constant they would be those burdens."

Kennedy, who only six months before had spoken so confidently about leadership, now said: "I need your good will and support and, above all, your prayers."

World full of problems, Kennedy.

SPORT SHIRTS

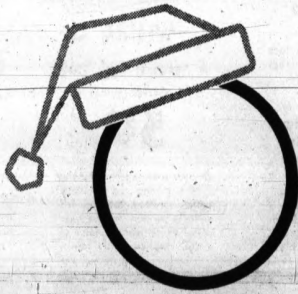

For giving or keeping... there's more to choose from at Osmun's

We can't possibly show all the thousands of fine sport shirts now in stock, but here are some of the more popular styles. Yes, variety is the keynote: Solids, stripes, subdued and bold plaids, checks... in soft wools, cottons, and blends. But each one has this in common—expert needlework and years of long-wearing comfort for a lucky man. Shop early... while the selection and price range are still complete.

Ex-Pfc. Remembers Ike--As 'Major'

LANSING 4P — William Robertson of Lansing knew Dwight D. Eisenhower when . . .

When he was a major and commander of 301st Heavy Tank Battalion of Ft. Meade, Md. Eisenhower also knew Robertson when he was a private first class and driver of the commander's tank.

The two met again in Lansing Wednesday when the former general of the Army and President of the United States addressed the Michigan Constitutional Convention. Eisenhower remembered Robertson . . . remembered the football team on which the short barrel-chested soldier was an end and which the major coached.

He remembered some of the problems the two shared in practice as they tried out a new type of tank.

Robertson, 65, retired this year from the Motor Wheel Corp. in Lansing where he was a maintenance man. He carried his 40-year-old discharge papers with him into the interview today.

They were dated 1921 and signed "D. D. Eisenhower, major."

"He is a wonderful man," the old soldier said. "He still has those clear, straight-forward eyes."

PARTING WORDS
Eisenhower's parting words 40 years ago, Robertson said, were an offer to pay his fare back to

the post if he couldn't find work in Springfield, Ill., his home town.

"He told me to wire him collect," he recalled.

But Robertson found a job right away and never had to go back. Wednesday was the second reunion, Robertson said. They met in Detroit in 1952 at the start of Eisenhower's first Presidential election campaign.

"We got a big write-up in the paper then," he said.

NYC Police Offering 'Free' Color Photos

NEW YORK (AP)—You can get your picture taken in color now for free. All you have to do is get arrested.

The City Police Department, after experimenting in the field for more than a year, Wednesday officially adopted the use of color photography as a part of regular police procedure.

Commissioner Michael J. Murphy said the use of color photography in photographing crime scenes and certain criminals will aid in the detection of crime.

Cagers All Fouled Up

DAYTON, Tenn. (AP)—Rockwood's basketball team arrived for a game with Dayton High. The gym was dark. Dayton's team was in Rockwood, at another dark gym. The game will be played later after they get together on the site.

Police Were Out in Full Force for Ex-President Ike

LANSING (AP) — As a former president, Dwight D. Eisenhower is no longer protected by the Secret Service.

Local police made sure, however, that he had adequate protection. Eisenhower was guarded by 63 uniformed and plain clothes officers during his brief visit to Lansing and East Lansing.

State police had 23 men in duty and Lansing police 29. Also on the

guard detail were four East Lansing police, three Michigan State University officers and four Ingham County sheriff's deputies.

Detective Sgt. Earl Eddie of the Lansing police, a personal bodyguard to Eisenhower during a trip to North Africa, had a chance to reunite with his former boss. Eddie was with the 26th Military Police Company at the time. He was assigned again as Eisenhower's personal bodyguard during his visit to the constitutional convention.

"No wonder you took good care of me," said the former President to the bodyguard. "You and Lansing police 29. Also on the

To Direct Education at Greenfield Village

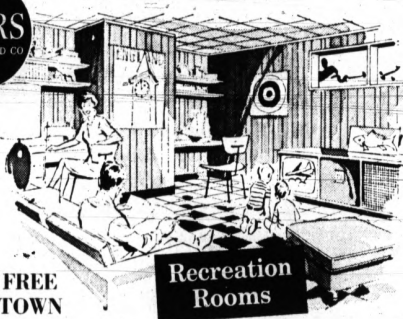

The former curator of education at Cranbrook Institute of Science has been named director of education for Henry Ford Museum and Greenfield Village.

James A. Fowler, 45, of 3235 Sheridan Drive, Birmingham, will plan educational assistance for the 175,000 children who visit the museum and village annually.

More motor vehicles in the U.S. are being scrapped each year than were being built and put on the market each year up to and including 1955.

An Electric Dishwasher Frees Mother for Leisure

Holiday entertaining will be the dishwasher to be washed, rinsed and dried, instead of into the kitchen sink to be wearily handwashed.

A dishwasher will simplify party preparations, too. The housewife can put pots, pans, bowls and utensils right in the dishwasher as soon as she's through with them. They'll be out of sight until it's convenient to put them away, cleaned and dried.

This Army Specialist Is More Special!

FT. BRAGG, N.C. (AP)—His military occupational specialty is listed as veterinary specialist, but Sgt. Charles Paris of Billings, Mont., is serving the Army as a blacksmith.

"Far as I know, there are only three of us left in the Army," he says. His next assignment is official shoe for horses used by the U.S. Olympic team.

Today's automatic dishwashers hold up to 14 place settings, including delicate glassware, china and silverware.

Several washing cycles in germ-killing hot water, followed by thorough rinsing and spotless drying, leave them sparkling and sanitary.

A dishwasher for Christmas means a gift of hundreds of extra hours to be enjoyed all year.

It's a lot less difficult to get the kids to help with the dishes, too, if they don't have to be hand washed.

Mailman Whistles Tune to Fit Neighborhood

BUFFALO, N. Y. (AP)—When mailman Russell DiLeo whistles while he works, the tunes that come out depend on the neighborhood he's in.

On an exclusive street, says DiLeo: "I give 'em opera and light classics." He also whistles Irish jigs and Italian tarantellas, depending on the name on the mailbox.

Completes License Set

CHANUTE, Kan. (AP)—It took nearly two years but Ed Zastrow finally accumulated a complete collection of Kansas auto license plates. The collection, which includes one for each year they have been issued, extends from 1913 to 1961.

Man Caught Speeding on Way to Courthouse

COVENTRY, Conn. (AP)—Here, one the judge may not have heard yet from someone accused of speeding.

Robert Carter was accused of

going 36 miles an hour in a 30 m.p.h. zone while driving to the courthouse. He paid \$100 bond in connection with an earlier speeding charge.

Nickragan is about the same area as Michigan.

Bird Dog Also Likes to Point Out Fish

LOGANSVILLE, Ga. (AP)—Herman McCullers of Logansville has a bird dog with an extra talent.

The dog, named Gid, likes to

walk along the bank of a creek and point fish swimming in the water.

The throat and ears of the beaver are equipped with valves which close when the animal dives and open when it comes to the surface.

1-2-3-FIRE!—Several courses in weapons instruction are included in the course for Pontiac Civil Defense Auxiliary policemen. Shown on the firing range are (from left) Robert Saddler, 102 Green St.; Robert E. Evans, 4145 Clinton-

ville Road, Waterford Township; George K. Froman, 35 Riviera St., Waterford Township; and Jack Williams, 65 Williams St. Applications for membership in the auxiliary may be obtained at Room 103 of the Public Safety Building.

REVIVE 'VICTIM'—Auxiliary squad leader Albert Cooley (left) of 389 S. Edith St. and division leader Ralph O. Allison (right) of 583 Westcumb Road, West Bloomfield Township, learn to operate an inhalator during a first aid class for auxiliary policemen. The "patient" for this session is Burt Cooley of 719 DeSoto Place, Pontiac Township, whose face is covered by the inhalator mask.

CD Police Auxiliary Gets Expert Training

By DON FERMOYLE

Minutes after an alert was sounded during a recent civil defense drill in Pontiac, a milk truck pulled up to the Public Safety Building at 110 E. Pike St.

The driver, Earl F. Ferrier of 4083 Ledgestone St., Waterford Township, scrambled out of his truck, hurried into police headquarters and reported for duty to Lt. Raymond E. Meggitt.

Within 45 minutes after the first word of the civil defense drill was sent out, over two-thirds of a 32-man unit of volunteers were in uniform and ready to be deployed throughout the area.

Ferrier and others like him who reported for duty so swiftly on the morning of the mock attack are members of the new Pontiac Civil Defense Police Auxiliary.

HEADS TRAINING SQUAD

Lt. Meggitt is in charge of the Pontiac Police Department's staff bureau which has the responsibility of training the auxiliary police.

Had it been a real enemy attack that day, the volunteer policemen may have been sent out with geiger counters to determine the amount of radioactive fallout in the air from enemy bombing raids.

Others could have been dispatched to locations where crowds were gathering to avert wholesale panic by frightened residents. Some, armed with 38-caliber pistols, could have been ordered to guard against sabotage at sources of water supply.

Pontiac's auxiliary policemen will have studied everything from the proper procedure for filling out accident reports to the emergency rescue techniques of atomic warfare when they complete their 52-week training course next year.

To join the auxiliary requires no special background in police work. Its present members include factory workers, businessmen, plant supervisors — men from all walks of life.

But before completing their year-long schedule of training, these men will have as much knowledge of police fundamentals as many full-time patrolmen.

Some of their studies include traffic control, first aid, self defense, weapons instruction, report and note taking, crowd and panic control and radiation detection.

Instructors for these classes are specialists in the fields they teach.

NEW CLASSES ARE PLANNED

A series of classes in explosive ordinance reconnaissance will be taught by an Army detonation expert from Ft. Wayne.

Asst. City Atty. Sherwin Birnkrant will instruct the auxiliary policemen in several phases of criminal law starting next month.

The volunteers also are learning to master the police radio, geiger counter, firearms, inhalators and other emergency equipment from specialists in the city's police and fire departments.

"It's like operating a police department within a police department," explained Officer Harold Hayden of the staff bureau.

Hayden and other officers in the bureau spent six months in research before the local auxiliary even met for the first time. Other auxiliaries throughout the country were studied. Civil defense training literature was gone over to find the best available. Instructors were lined up.

"I think our auxiliary program in Pontiac is better, or at least equal, to anything like it in the country," said Hayden.

"The cooperation we've received from the men is excellent. Many volunteered for traffic duty at football games and during the Christmas season downtown.

'NEED MORE RECRUITS'

"What we need now are more recruits," he added. Classes, which are held for three hours a session, are scheduled on both morning and evening schedules to accommodate men working different shifts.

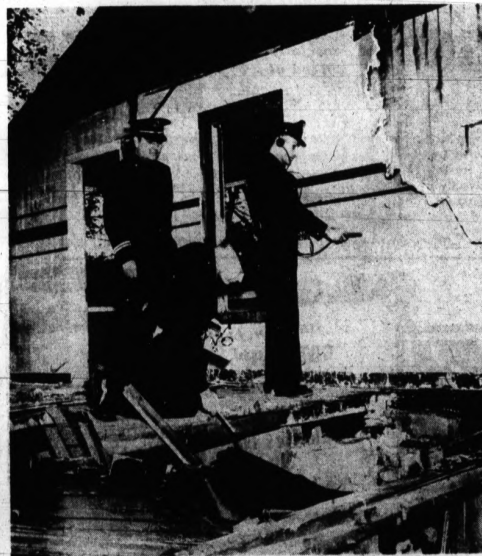

RADIO DEMONSTRATION—Auxiliary police trainee Robert E. Poona of 455 Brooks St. (seated) operates the police radio at the Pontiac Public Safety Building under the guidance of

patrolman Medford Pittman (left), radio technician for the Pontiac Police Department. Watching the demonstration (right) is another trainee, Alvin Didway of 734 Scottwood St.

READY TO ROLL—Three members of the Pontiac Civil Defense Auxiliary Police are shown loading emergency equipment in a practice session at the City Hall parking lot. They are (from left) Dick A. Dildine of 3888 Pontiac Lake Road, Waterford Township; Louis A. Tibbets of 56

Chicago St., auxiliary squad leader; and Gordon Erickson of 20 N. Marshall St. Training like this allows the auxiliary police to become familiar with the equipment they would use if an actual emergency developed.

POST-ATTACK TRAINING—The geiger counter is only one of several instruments which must be mastered by members of the Pontiac Civil Defense Police Auxiliary. A partially demolished home in the city's urban renewal area is used as a training ground here by

training officer Albert Rayner of the Pontiac Fire Department (left), auxiliary squad leader Kjell Danielson 480 Osborn Lake Road, White Lake Township; and trainee Harry J. Proll of 400 E. Columbia Ave.

Residents Get 'Solid Footing'

72,000 Feet of Walks Constructed by DPW; Add Sewers, Curbs

During the regular 1961 construction season, the Pontiac Department of Public Works gave Pontiac residents plenty of "solid footing," according to Clyde Christian, DPW superintendent.

DPW employees constructed 72,000 square feet of concrete sidewalk in the city this year. About 7,000 feet was done free of charge—no assessments—in the urban renewal project area.

Christians also reported that the city constructed 14,000 lineal feet of concrete storm sewer and 7,500 lineal feet of sanitary sewer.

Crews completed 4.1 miles of curbs and gutters and the same amount of stripping and graveling roads.

FOR PRESENT PAVEMENTS

"To maintain our present asphaltic pavements the DPW applied a double seal coat to 37,000 square yards of pavement," Christian said.

The regular construction season ended Nov. 18. Since then the city has laid about 600 feet of 8-inch sanitary sewer pipe.

Increase in Births Reported in Pontiac

There's something about a new-born baby. They give city health officials something to talk about.

The Pontiac Health Department reports that Pontiac's population is continuing to grow in leaps and bounds.

There have been 5,891 new citizens born here this year—314 over last year's pace. At this time in 1960, there had been only 5,577 new arrivals in Pontiac.

Health officials at city hall say about 2,600 babies have come via St. Joseph Mercy Hospital and 2,500 via Pontiac General so far this year.

FBI After Leads Following Arrest in Huge Art Theft

PITTSBURGH (AP)—The FBI said today it is pursuing more leads to the half-million dollar art robbery from a suburban Whitehall home following the arrest of an unemployed salesman in connection with the theft.

Bernard C. Brown, special agent in charge of the Pittsburgh FBI office, said the investigation is continuing and more results are expected.

FBI agents apprehended Ralph Charlton Hobbs, 45, Wednesday, he was charged with transporting stolen goods from Ohio to the Pittsburgh area and was jailed in lieu of \$3,000 bond following arraignment before U.S. Commissioner Alex McNaughton.

The FBI said Hobbs was involved in the transportation of a Picasso painting stolen from the home of millionaire G. David Thompson last July 28.

Member of Posse Finds Man's Body

ANN ARBOR (AP)—A member of sheriff's mounted posse has found the body of a 75-year-old man who had wandered away from the Washtenaw County Hospital Sunday night.

The body of William H. Sampson, was discovered in a brush field a short distance from the hospital. Authorities said the man died from a stroke and exposure.

Finding of the body ended a two-hour search in sub-freezing temperatures. Sampson was wearing pajamas, slippers and a jacket when he wandered from the hospital, where he had been a patient only two days.

Cheboygan River Locks Will Close Next Monday

CHEBOYGAN (AP)—The Cheboygan River locks have been used so far this year by 2,362 boats—an all-time record. The old record of 2,082 was set last year.

The locks, which are owned by Consumers Power Co., serve boats bound between the Great Lakes and a chain of inland resort lakes. The locks are located at a 14-foot falls. They will close for the winter next Monday.

Michigan Road Group Elects 1962 Officers

GRAND RAPIDS (AP)—Don Ratzkin, manager of the Allegan County Road Commission, has been elected president of the Association of Southern Michigan Road Commissioners.

Other new officers are Edwin D. Mueller of Lowell, Kent County Road Commission chairman, as vice president, and Fred F. Rogers, Livingston County Road Commission manager, secretary treasurer.

An average car scrapped in 1960 had traveled 22,000 miles. Today the average is near 100,000 miles.

Be Sure to Preserve Health for Retirement, Expert Says

ATLANTA, Ga. (AP)—The best thing to save for retirement is the person's own health, says an expert on the subject.

Joseph R. Murphy, who has advised people on retirement for 25 years as manager of the Atlanta office of the Social Security Administration, is getting ready to retire himself Dec. 31.

MUST HAVE HEALTH

"Unless you have your health and good life expectancy when you retire, you've defeated all your other purposes," he says.

"Too many people are afraid to retire because they don't have

all the income they want. These people never retire until it's too late to enjoy it."

Murphy says it's a wonderful feeling to approach retirement, but to a large extent the whole thing is a myth.

'CHANGE OF PACE'

"There's no such thing as retirement," he said. "Rather there is a change of pace, eliminating the demanding duties and fixed schedules."

But, he warned, many people

don't know what to do with themselves once they collect that last paycheck. One man he spoke to recently said he planned to return to farming after 37 years away from it; another planned to spend all his time in Florida fishing.

'THEY DON'T KNOW'

"They don't know how tired they'll get," he said.

"A lot of people plan to travel all the time after they retire. It's nonsense. They've forgotten how hard living in a hotel can be. These things are desert; they won't do for all the time."

The Murphys plan to stay at their home in Atlanta, close to relatives and friends. They both have hobbies and he plans to work part-time as an accountant. It's a mistake for retired couples to move off to a new state and a totally new way of life, says Murphy.

Charges Are Filed Against Ex-SS Men

BERLIN (AP)—Murder charges have been filed against six former Nazi SS leaders alleged to have killed 11,000 Jews during World War II in the Soviet Union, the local prosecutor's office said Wednesday.

The six, members of a special commando unit of SS, were identified as Dr. Alfred Filbert, a Berlin banker; Gerhard Schneider of Hannover, a government employee; Bodo Stuck, a detective chief inspector, also of Hannover; Wilhelm Greifenberg, of Torging, a bookkeeper; Konrad Fiebig, a clerk from Munich; and Heinrich Tamm, a business manager, of Oldenburg.

All were caught in 1949 and have been under detention since. The trial is expected to start next spring.

Michigan Official Gets African Job—as Housewife

DETROIT (AP)—Mrs. Christian Kinsey Maxwell will give up her job as an assistant attorney general in Michigan to set up housekeeping as a new bride in Africa. The Wayne State University graduate was married here Saturday to the executive vice president of Mesurado Corp. in Monrovia, Liberia.

"I must go where my husband is," Mrs. Maxwell, 36, said Wednesday. "Wherever he goes, I will be happy to follow."

She was the first Negro woman ever appointed an assistant attorney general in Michigan.

Swainsons Hold Dinner for Son's 12th Birthday

LANSING (AP)—Peter Swainson, son of Gov. and Mrs. Swainson, ate chocolate cake and opened some small presents on his 12th birthday here Wednesday. The Swainsons had a dinner for 18 members of the family to mark the occasion.

Committee to Help Katangan Fighters

NEW YORK (AP) — A newly formed committee today likened the Katangans to the Hungarian freedom fighters and appealed for aid.

Armed forces of the United Nations and Katanga, former Belgian Congo Province, have been fighting for the past week.

The new organization, containing a number of prominent names, calls itself the "American Committee for Aid to Katanga Freedom Fighters."

In an advertisement it said "The people of Elisabethville and Katanga are fundamentally in the same positions as the people of Budapest and Hungary just five years ago."

2 Area Women Hurt in Crash

Both Victims Injured in Head-on Collision Are From Waterford

Two Waterford Township women injured in a head-on collision on Telegraph Road yesterday afternoon are reported in fair condition today at Pontiac General Hospital.

Mrs. Dorothy M. Herron, 46, of 48 Coleman St., suffered fractures of the knee and nose in the accident. Mrs. Fay A. Thome, 50, of 1040 James K Blvd., received fractures and cuts on the face.

Pontiac police said Mrs. Herron's car, which was traveling south, went out of control, jumped the center island on Telegraph and crashed into an auto driven by Mrs. Thome's husband Maurice, 54, in the northbound lane. Her car then side-swiped another northbound auto driven by Jay B. Putman, 46, Detroit.

Thome was treated and released at the hospital. Putman was not hurt.

Venezuelans Seize Radio, Attack JFK

CARACAS, Venezuela (AP)—Leftist gunmen seized a radio transmitter here today, broadcast anti-Kennedy propaganda over a nationwide hookup and escaped.

While they held the transmitter, they urged Venezuelans to oppose this weekend's visit by President Kennedy to Caracas.

A four-man gang bound and gagged employees at the radio Caracas transmitter at El Bole, several miles south of this capital.

One man had a tommy gun. Another had a rifle with bayonet. The raiders tied up two guards normally posted at the station.

A man who heard the interruption said a voice here and didn't schedule the program and said:

"People of Caracas do not receive Kennedy. He was the man who planned the Cuban invasion. He is setting another Cuban invasion with Betancourt (Venezuelan President Romulo Betancourt)."

The raiders escaped in an automobile.

Youth Works Late, Paid With Trouble

HUTCHINSON, Kan. (UPI) — It didn't pay for Larry Eckhoff, 18, Hutchinson, to work overtime recently.

He was busy assembling tricycles at a store here and didn't notice that the other employees had locked the doors at 5:30 p. m. and left for the day.

Eckhoff opened a stock room door while searching for a way out of the building and thereby set off a burglar alarm.

While peering out the front door, he was greeted by policemen, who didn't believe his story. The store manager came to young Eckhoff's rescue.

Ferris Instructor Bad Man, Says FBI

BIG RAPIDS (AP) — A missing Ferris Institute instructor today was unmasked by the FBI as a desperado wanted on charges of forgery, grand larceny and parole violation.

That was the background turned up by authorities in the search for Alfred H. Witten, 35, who is sought on a federal warrant for unlawful flight to avoid prosecution.

Witten disappeared with former student Irvin Hackert, 20, of Ludington, last Thursday when he was charged with Mecklenburg County warrants alleging he passed a worthless \$2,500 check and obtained a new car under false pretenses.

The man had gained employment at Ferris in the recently ended first quarter as an instructor of secretarial science in the commerce division.

"Then, the United States stood judgment, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

judgments, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

judgments, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

judgments, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

judgments, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

judgments, is actively aiding the aggression. Today it is worse: Our government, because of a series of calamitous mistakes and mis-

Report Neurotics Work Best In Midst of Noise

NEW YORK (UPI) — "Neurotic persons work best amidst noise, according to University of Oklahoma psychologists."

A recent study of noise shows

that people with personality complexes work better in a din, probably, the researchers reported in the Catholic Digest, because noise distracts neurotics from their own unresolved emotional conflicts.

Morocco's current population is about eight million.

Bikinis Getting Fans

ST. TROPEZ, France (UPI)—Something new has come to this Riviera resort of the Bikini bathing suit.

French poodles are wearing bikinis now.

SHOE REPAIR—BASEMENT DOWNTOWN STORE

Santa Leaves \$3,000 in Gifts at Park Dept.

David R. Ewalt is walking around with a smile on his face and a cheery "Merry Christmas" for everyone this week.

It's all because Santa Claus came early to the Pontiac Department of Parks and Recreation, of which Ewalt is director, and stuffed the department's stocking with \$3,000 worth of gifts.

Ewalt reports that the Pontiac Area Junior Chamber of Commerce last week placed \$2,500 in snow for digouts at the newly lighted Jaycee Park baseball field. The digouts will be ready for the 1962 season.

The second gift was a check for \$500 contributed by the Downtown Pontiac Kiwanis Club for improvements next summer at Kiwanis Park.

Barbershoppers to Sing for Shut-Ins

Christmas carols, barbershop style, will be sung tomorrow night by members of the Rochester-Utica chapter of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America, Inc., when they make their annual appearance at the Wil-Mar Convalescent Home in Utica.

From there, the Barbershoppers will visit homes of shut-ins around the Rochester-Utica area.

This is the third consecutive year that the local SPEBSQSA chapter has sung its special arrangements of Christmas carols in the community.

Issues Ticket to Self

THREE RIVERS (U)—Police Sgt. Kenneth Baker issued himself a ticket for failure to have his auto under control after he struck the rear of another car. He said he lost control because he was looking for a runaway boy instead of concentrating on driving.

Brother Against Brother

TUNNEL HILL, Ga. (AP)—Two brothers met unexpectedly—head-on. Officers said Eugene L. Curtis, 25, and his brother, Jack, 31, each suffered a fractured jaw and dislocated left hip when their cars smashed together on U.S. 41 Tuesday night. Both are Tunnel Hill residents.

Lake Michigan is becoming shallower at a rate of three inches every 100 years due to the accumulation of sediment on its bottom.

Ionia Boy Receives Many Gifts, Cards

Fire Victim Finds a World of Friends

IONIA — Five-year-old Richard Muncy has never been out of Michigan, but he has friends all over the world.

Ever since Oct. 18 when sparks from a trash barrel ignited his shirt and burned him badly, Richard has been deluged with gifts and letters from this country and abroad.

Army and Navy units all over the world have sent Richard enough foreign stamps and coins to start a first-class collection.

His first card came from the USS Intrepid and was signed by 3,000 men. Later mail deliveries brought paper money from Vietnam, Turkey, England, the Philippines, France, Belgium and Italy, letters from Germany and

an article from a French newspaper, telling his story.

It all started after Richard's paternal grandparents in California were notified of his serious burns. They got word to his uncle, W. E. Raine, who is stationed with a military communications outfit in Italy.

No one knows just how Raine

got word of Richard around the world, but he did.

DELUGED WITH GIFTS

Blodgett Hospital at Grand Rapids, Mich., where the boy was taken for skin grafts, was deluged with cards, letters and gifts.

An 18-year-old girl in Panama described how she was hurt badly when she was seven and still has scars. She told him to have courage and faith in God.

A French girl, burned badly during the World War II bombings, said Richard was lucky to live in a country where they have good hospitals.

MADE HONORARY PILOT

Richard was made an honorary pilot of the 38th Troop Carrier Squadron, and he has a red pilot's cap complete with wings and patch. They were sent by a lieutenant colonel in France.

He also was made an honorary member of the 76th Radar Squadron, basketball team of North Bend, Ore., and has free tickets to all games.

Richard's father, a pharmacist at Ionia County Memorial Hospital, and his mother, who have five children, are trying to decide how to thank all the people.

Fulbright Set to Run in Next Dem Primary

LITTLE ROCK, Ark. (AP)—Sen. J. William Fulbright, D-Ark., plans to run for renomination in next year's Democratic primary. Political observers were not surprised by the announcement Wednesday.

Fulbright heads the powerful Senate Foreign Relations Committee. His office announced his plans to run after Fulbright completed a 10-week, 50-county speaking tour.

Possible opposition from either Gov. Orval E. Faubus or Rep. Dale Alford, D-Ark., reportedly prompted Fulbright's hurry-up campaign which came nine months before the primary election.

'Did What I Wanted'

SIOUX, N. Y. (AP)—"I just did what I wanted throughout my long life and always have abstained from tobacco and intoxicating beverages," Elizabeth Johnson said Wednesday, her 105th birthday anniversary. "God has been good to me," she observed.

21-Month-Old Girl Amazes Her Family

WILMINGTON, Del. (UPI) — A Wilmington baby, Candy Krupa, can identify all letters of the alphabet, count up to 10 and carry on intelligible conversations in English and Polish, although she is only 21 months old. She also can do ballet steps.

The precocious child is the daughter of Mr. and Mrs. Stanley Krupa of this city. Cindy has been amazing her family and local psychiatrists for a year now. She began walking at 10 months and talking bilingually at 14 months.

Report More Tourists

JERUSALEM (UPI) — The Israeli Government Tourist Office reports that September tourist arrivals totaled 11,850, a 33 per cent increase over the same month in 1960.

Deaths in Pontiac and Nearby Areas

JAMES J. LANE

The Father Gabriel Council, Knights of Columbus No. 600 at Pontiac will recite the Rosary for James J. Lane of 76 S. Roselawn Drive 8 p. m. today at the Ted C. Sullivan Funeral Home, 1420 W. McNichols Road, Highland Park.

The parish Rosary will be said 8 p. m. Friday at the funeral home. An Elks Lodge of Sorrow will follow at 9 p. m. at the funeral home.

The funeral service will be held 10 a. m. Saturday at the Gesù Catholic Church with burial in Mt. Olivet Cemetery.

Mr. Lane, 54, a material supervisor, had been employed at Pontiac Motor Division for 33 years. He was a member of St. Vincent de Paul Catholic Church, Knights of Columbus and Elks Lodge No. 810.

Surviving are his wife, Mabel; a daughter, Sheila Ann at home; his mother, Mrs. Alice Lane; and a sister, Bernadine Lane.

Mr. Lane was killed in a two-car collision at North Perry and Glenwood Avenue yesterday.

GEORGE H. MELDRUM

The Rosary will be recited at 8 p. m. Friday at the Doner-John Funeral Home for former Pontiac resident George H. Meldrum of 3633 Kingsley, San Diego, Calif.

Funeral service will be held at 10 a. m. Saturday at St. Vincent de Paul Catholic Church with burial following in Mt. Hope Cemetery.

Mr. Meldrum, 52, who moved to San Diego 10 years ago was employed at Convair Aircraft Corp. He was a member of St. Vincent de Paul Church.

Survivors include four sisters: Mrs. Rose M. Fugitt of Pontiac; Mrs. Mary E. Pung of Rochester; Lillian C. and Louise M. Meldrum, both of Waterford.

Mr. Meldrum died unexpectedly of a heart attack at his residence Sunday.

Friends may call at the funeral home after 3 p. m. Friday.

ERNEST A. SOLT

Ernest A. Solt, 45, of 20 Gilling Court died unexpectedly at his residence yesterday.

He had been employed in Plant 15, Pontiac Motor Division for 27 years.

Mr. Solt leaves his wife Edna; two daughters, Mrs. Robert B. Brown of San Diego, Calif., and Sharon Kay at home; a son Donald E. in California; four grandchildren; and a sister Mrs. Adam P. Cobler of Utica.

Service will be held at 11 a. m. Saturday at Voorhes-Siple Chapel with burial following in Perry Mount Park Cemetery.

ARNOLD A. SOUTAR

Arnold A. Soutar of 89 Dwight St., a design engineer at Pontiac Motor Division, died yesterday at University Hospital, Ann Arbor after a brief illness. He was 35.

Mr. Soutar was a member of Bethany Baptist Church and the De Smet Alumnae Association.

Surviving besides his wife Mary Ann are his mother, Mrs. Gladys Maidens and stepfather, Walter Maidens, both of Pontiac; two daughters, Barbara and Christine, both at home; and a brother.

Service will be held at 1:30 p. m. Saturday at Sparks-Griffin Chapel with burial in Oakland Hills Cemetery.

CYNTHIA E. THOMAS

Service for Cynthia E. Thomas, 35, will be held at 1:30 p. m. Saturday at Sparks-Griffin Chapel with burial in Oakland Hills Cemetery.

2-year-old daughter of Mr. and Mrs. Barney Thomas, 617 W. Jefferson St., Ann Arbor, will be held at 2 p. m. Friday at the De Witt C. Davis Funeral Home. Burial will follow in Oak Hill Cemetery.

Surviving besides her parents are a brother, Timothy at home; and grandparents, Mr. and Mrs. H. B. Willis of Pontiac.

The little girl was dead on arrival at St. Joseph Mercy Hospital, Ann Arbor yesterday.

GEORGE D. CHAPMAN

DRYDEN TOWNSHIP — Service for George D. Chapman, 81, of 4276 Hollow Corners Road, will be 2 p. m. Saturday at Muir Bros. Funeral Home, Lapeer. Burial will be in Mount Hope Cemetery, Lapeer.

A life long resident of the township, Mr. Chapman died at home Tuesday following a brief illness. He had been a farmer.

His body will be at his home until noon Saturday.

Surviving are a daughter, Mrs. Oliver Bradwood of Dryden; four sons, Kenneth and Ralph, both of Dryden, Donald and Clare, both of California; and seven grandchildren.

CLARENCE COLE

WALLED LAKE — Service for Clarence Cole, 63, of 1321 West Lake Drive, will be 1 p. m. Saturday at the Richardson-Bird Funeral Home, Lapeer. Burial will be in Highland Hills Memorial Gardens, Novi.

Office manager of the Chevrolet Engineering Division, Mr. Cole died Tuesday in Florida of a heart attack.

He was a member of the Valley of Detroit, Ancient and Accepted Scottish Rite of Free Masonry and of the DADS of VETS Post, No. 51, Wall Lake.

He was a veteran of World War I.

MRS. LEWIS W. CURTIS

ROCHESTER — Service for Mrs. Lewis W. (Mary L.) Curtis, 83, of 431 Pine St., will be 3 p. m. Saturday at the Pody Funeral Home, Rochester. Burial will be in Mount Avon Cemetery.

A life long resident of Rochester, Mrs. Curtis died yesterday morning at St. Joseph Mercy Hospital, Ann Arbor, following an extended illness.

She was a member of St. Paul's Methodist Church, and of the Rochester Woman's Club and was the oldest past matron of Rochester Chapter No. 165, Order of the Eastern Star.

She is survived by her husband.

MRS. MARTIN J. DONNER

WEST BLOOMFIELD TOWNSHIP — Requiem Mass for Mrs. Martin J. (Mary H.) Donner, 63, of 1725 Beechmont St., will be sung 10 a. m. Saturday at Our Lady of Refuge Catholic Church, Orchard Lake. Burial will be in Mount Hope Cemetery, Pontiac.

A life long resident of the county, Mrs. Donner died yesterday morning in Pontiac General Hospital following a long illness.

The Rosary will be recited 8 p. m. tomorrow at the C. J. Godhardt Funeral Home, Keego Harbor.

Besides her husband she is survived by three sons, Matthew J. of Garden City, Donald A. of Drayton Plains and Louis F. of Keego Harbor; three daughters, Mrs.

Claim Tinted Windows Cut 30 Degrees in Car

Automobile - company tests indicate that tinted glass can make as much as 30 degrees difference in the temperature of a car parked with its windows closed.

Clear glass is said to pass on 78 per cent of the heat it receives while tinted glass allows only 45 per cent to be transmitted into the car.

Extension of E. Huron Street Okayed

Commissioners approved a proposed route for the extension of East Huron Street to the east city limits at this week's City Commission meeting.

The route, laid out by city planners and state highway department engineers earlier this year, was designed to move as few houses as possible, according to Assistant City Manager Robert A. Stierer.

In general, it will follow the Clinton River and be built largely across vacant or undeveloped land. The project will be called the M38 extension, since East Huron Street will become M38 rather than Auburn Avenue.

In its overall plan for the Pontiac area, Huron will become a limited access parkway from the loop road around the central business district, to East Boulevard.

East of East Boulevard it will be a freeway with an interchange at the new I-75 freeway skirting Pontiac. Commission approval is needed before the highway department can schedule a public hearing here and proceed with the project.

In other business, final approval was given rezone of eight lots on the southeast corner of Cass Avenue and Winster Street from residential to commercial.

The land is owned by Manley Young of 186 Cherokee Road.

Young requested the change so that he could build office and storage space for his nearby business.

Tentative approval was given a request from Charles A. Gersten and Thomas Reeling to add space to their establishment, the Pink Poodle Lounge at 21 E. Pike St.

The area to be added is owned by him and is adjacent to the lounge. It was formerly occupied by Arthur Murray Dance Studio, Inc., but Gersten and Reeling won't be using it for dancing as they originally wished.

Commissioners have indicated they won't approve any amendment to the present ordinance which prohibits dancing in establishments where liquor is served by the glass.

To get dancing, the owners would have to give up their liquor license. The ordinance does permit dancing in establishments where only beer and wine are served.

Final approval of the addition is pending on reports from city inspectors.

No objections were voiced at a public hearing on the proposed vacating of a portion of Gilman Drive from Paddock Street to a point 156 east and the resolution gained final approval.

It is to be absorbed by adjacent property owners. The rest of Gilman Drive east of Paddock had previously been vacated to make way for the Greenwood Plaza Shopping Center.

Likewise no protests were heard at three other public hearings. One was for the special assessment roll covering unpaid 1961 weed-cutting charges. The roll was confirmed.

Another was on the city's intention to construct a water main in Palmer Drive from Lot 36, P. 15, to the north end of the street. The roll will be presented Dec. 19.

THIRD HEARING

The third hearing was on a special assessment roll for a storm

drain on Emory, Hollister and Crittenden Streets. Work will proceed on the project.

Rolls were confirmed for a new sidewalk on Seward Street, Whittemore to Auburn, in three payments, and for reconstruction and change of grade of a sidewalk, curb and gutter on the west side of Jessie Street, Chandler to 200 feet south, in two payments.

The Commission passed a resolution paying tribute to T. W. Jackson, prominent Pontiac resident who died last week, and extending sympathy to his family.

The resolution recognized Jackson's "service to the community" as a man of "sterling character, with a deep sense of responsibility."

Mayor Rowson asked that the space in front of the Eagle Theater on South Saginaw be checked and possibly expanded to allow parents to park and pick up children leaving the theater.

In the interest of public improvements, Commissioner Milton R. Henry requested that the construction of a sidewalk on the west side of Bagley Street, Gillespie to South Boulevard, be placed on the 1962 public improvement program.

Commissioner Robert Landry re-

Goldwater Statement Attributed to Survey

JACKSON, Miss. (UPI)—United Press International erroneously attributed to National GOP Chairman William F. Miller last week a statement that Sen. Barry Goldwater, R-Ariz., was the leading contender for the Republican presidential nomination.

The statement actually was made in a survey by Mississippi Republicans showing that Goldwater was the leading candidate in that state.

Miller erroneously was credited in a Dec. 8 dispatch with making the statement during his appearance at the Mississippi GOP convention here.

Miller was the leading candidate in that state.

Mackinac Bridge Toll to Cost Canadians More

ST. IGNACE (U)—Canadian motorists crossing Michigan's Mackinac Bridge will have to pay a little extra in tolls starting next Monday, the bridge authority has announced.

Canadian money will be discounted for the first time in bridge history, said Lawrence A. Rubin, executive secretary. The discount will be five cents on the dollar, he said.

State Woman Acquitted of Stepson's Death

REED CITY (U)—Mrs. Nola Schockness was acquitted of murdering her four-year-old stepson, Floyd, the boy died of

internal injuries in November 1960. Mrs. Schockness was accused of beating the boy. She claimed the injuries were accidental.

About 15 million persons in the U.S. suffer some degree of impairment in their ability to hear.

Radioactivity Experts

LANSING (U)—Twenty-four state highway department employees have completed a radiological monitoring course to prepare them for any possible atomic attack on the United States, the State Highway Department has announced.

on Anything You Buy
on Credit at SearsAmericans Eat
Wrong FoodsExperts Warn Teens
Health Might Suffer
From Bad Nutrition

NEW YORK (UPI) — Americans are in danger of eating their way to poor health, nutrition experts warn.

Dr. Robert S. Goodhart, scientific director of the National Vitamin Foundation, a nutrition research organization, says that fat or thin, the average American teen-age girl is likely to be poorly nourished.

She is, in fact, endangering her chances of motherhood by cramming herself with the wrong kind of food in adolescence.

Other nutritionists are concerned about the poor eating habits of Americans in general.

A panel of experts who discussed the subject recently at an Atlantic City, N.J., meeting agreed that ignorance or lack of discipline have caused 25 percent of the U.S. population to consume so many calories that they are sub-par in both health and vitality.

The panel further found that one-fifth of middle-aged Americans are too fat and that the major nutritional problem in the nation today is over-indulgence.

OVER-INDULGENCE

These experts, among them Dr. Willard J. Jacobson, director of a nutrition education research project at Columbia University, and Dr. James M. Hundley, of the National Institutes of Health, agreed with Goodhart's independent conclusion that the main nutritional problem among school-age Americans stems from over-indulgence rather than a lack of food.

"The teen-age girl should eat well-balanced meals, getting plenty of vitamin-enriched bread, milk and fortified cereals, along with generous helpings of leafy green vegetables," Goodhart said.

"However," he asked, "what figure-conscious, normal American teen-age girl would substitute a well-balanced adequate diet for her self-imposed near starvation rations, with an occasional filling in the form of a cheeseburger or a banana split with her date?"

Some of these figure-conscious girls have been influenced, he said, by the fashion model, who often appears to have been starving herself to death in behalf of the world of haute couture.

At the other end of the figure range is the fat girl, who is equally unhealthy because she has been stuffing herself with ice cream, candy, soda pop and french fried potatoes, Goodhart said.

Cardinal Told How
to Start the Soup

BOSTON (AP) — Richard Cardinal Cushing of Boston tells of a succinct answer he received during a visit to a school for girls in Latin America.

"I introduced my remarks with this question: What is the first thing to do to make good chicken soup?" he wrote in *The Pilot*, official publication of the Boston Archdiocese.

"After a brief silence, a hand went up and a 10-year-old girl said, 'Kill the chicken, your eminence.'"

FORGET THOSE ornament hooks against Never mind. With your staples in closed position, staple the loop of the ornament to any branch large or small. The staple need not complete its cinch to secure the ornament.

Doctors Call Writer's Cramp Form of Neurosis

HARRISBURG, Pa. (UPI)—The Pennsylvania Medical Society says a person having writer's cramp may need a new job.

The society noted that writer's cramp is really a form of "occupational neurosis." That is, it isn't your finger so much that gets tired — but your brain.

Typists, telegraphers, musicians and cigar-makers are especially susceptible to the writer's cramp neurosis, the society said.

All of these jobs require the constant repetition of some finger movement. The brain simply gets tired of it and, in rebellion, makes the finger ache.

A serious consequence sometimes is "complete paralysis" of the hand when the repetitive movement is attempted, the society added.

She Was Boiling Over

CHATTANOOGA — A man entered a Chattanooga cafe, stuck his hand in his pocket as if he had a gun, and demanded money. Mrs. Ollie Vandergriff, at work in the restaurant, also happened to be armed — and dispatched the would-be bandit with a potful of boiling water.

Korean Town Has No Country

Ringed by Mine Fields, Kaesong Dong Thrives as Demilitarized Zone

KAESONG DONG, Korea (UPI)—Kaesong Dong is a town with out a country.

Since the end of the Korean War its 193 people have lived here in the demilitarized zone, a man's land that separates North from South Korea. They grow their rice, their cucumbers, and sweet potatoes in the Valley of the Imjin completely isolated from the rest of the world. On the north their rice paddies end at the barbed wire fence that marks the Bamboo Curtain of Communist North Korea.

Flanking them on both sides are extensive mine fields, and the guns of both sides cover the thatched-roofed village, for it lies astride the ancient invasion route followed by the North Koreans when they attacked June 25, 1950.

Economically, Kaesong Dong is a utopia. It is by far the richest village in Korea, for its residents pay no taxes, and are the wards of the United Nations. Doctors from the American 9th Cavalry treat the sick and guard the villagers' health. Twice a week trucks from the 1st

Reconnaissance Squadron take the townspeople and their produce to the county seat at Kimchon and return with supplies bought with the sale of their harvest.

None of the youth can be drafted into the Korean army due to their peculiar geographical position. The villagers' rich bottom land is some of the most productive in Korea and it is completely without administrative problems as the American Army units from the 1st Cavalry Division act as Kaesong Dong's police force, fire department and road commissioners.

Experts Seeking Quicker Way to Replace Forests

FORT MYERS, Fla. — Forest experts are trying to find shortcuts in growing trees.

They are trying to find ways to reforest Southwest Florida's cut-over lands with tropical hardwoods that grow and mature faster than the native slash pine.

The latest experiment is a planting of eucalyptus which mature in 20 years or less, compared to 30 years for a native slash pine.

Some tropical hardwoods can be cut in less than 10 years for making pulp paper. Others, such as the cajuput, produce oils for medicaments such as cough drops and inhalers.

It's Seven Centuries Old

Carol Tradition Durable

WASHINGTON — The joyful strains of "God Rest You Merry Gentlemen," "Hark, the Herald Angels Sing" and other carols renew a durable tradition as they fill the Christmas air.

Carols have flourished for about seven centuries, the National Geographic Society says. Scholars praise them as "masterpieces of untutored simplicity"; singers delight in their buoyant themes.

All Christian nations have carols, which are religious seasonal songs, usually happy in spirit. The singing of spring and Easter carols has declined, but Christmas carols have survived and grown in popularity.

Carols originally were sung to accompany a ring dance, in which dancers joined hands and circled around. Many of the tunes retained a dance lilt.

About the 13th century, traditional dance melodies were adapted to religious texts. Worshipers welcomed something less severe than the old Latin hymns and more lively than plain song, or church chanting. The carol flourished. Sometimes a secular tune would be used again for worldly purposes after becoming a popular carol.

Carols were written by cler-

gymen, poets, composers, peasants, and "scholarship vagabonds," these products of European universities "equally at home in ale-house, in hall, in marketplace, or in cloister."

Hundreds of carols were written in England between 1400 and 1600, the year the Puritan Parliament abolished Christmas celebrations and suppressed carols. The songs were kept alive by oral tradition and crudely printed broadsheets of favorites, but they did not fully regain their popularity for some 200 years.

TEXTS DISCOVERED

In the middle of the 19th century, texts for several carols came to light when a "commonplace book" of one Richard Hill, a London grocer, was found behind a bookcase. From about 1500 to 1550, Hill recorded all manner of things in the book: tables of weights, recipes, rules for the purchase of land, "a good medycyne for a cutt," and transcriptions of carols.

Legend has it that the custom of decorating Christmas trees began in the 8th century when St. Boniface, a missionary, introduced it in Germany.

Cabbage Way Ahead

STINNETT, Tex. (UPI) — J. H. Wilson, bank candidate for top honors in the cabbage field, has plucked one from his garden here recently that measured 11½ inches in diameter and weighed almost 11 pounds.

Dollar Finally Stolen

After 7 Years in Open SPARTA, Wis. (AP) — Thomas O'Hearn told an employee in his grocery in 1954 that he thought most people are honest. To prove it, O'Hearn put a dollar bill on the

visor of his car is full night. The bill was stolen from O'Hearn's unlocked car, but not until it had remained there for seven years.

On the dollar, O'Hearn had written, "I believe people are honest. If you take this dollar, I won't believe that any more."

Have Been Opposed on Occasion

Greeting Cards Go 'Way Back

Whether you adjust the thermostat or drag the yule log over the living room rug to the Christmas Eve fireplace, you surely won't forget to send your Christmas cards. And maybe this is because it all began with a man who remembered his plum pudding and mulled port, but almost forgot his friends on Christmas.

Ever since the deep Dark Ages people have been writing or visiting each other at Christmas, and even before the birth of Christ, Egyptians and Romans used to one, visited no one. His good friend John Horsey came to the rescue and necessity gave birth to a great invention.

By the 18th Century it was customary to send Christmas

gifts to your friends and to the needy — a goose, or a barrel ofysters — and the gifts were always accompanied by a calling card.

On a sleety night in the winter of 1843 only a few days before Christmas, a busy Englishman by the name of Sir Henry Cole looked at his calendar.

With a gruff "By gad, sir!" he suddenly realized that he had written to no one, sent gifts to no one, visited no one. His good friend John Horsey came to the rescue and necessity gave birth to a great invention.

Horsey designed a "greeting

card" depicting a happy family around a Christmas table quaffing goblets of wine. Flanking this scene were two smaller pictures showing the feeding of the poor and the clothing of the naked. Horsey's lithographed 1,000 copies in black and white, later to be colored by hand, Sir Henry's friends would not be disappointed.

The world's first Christmas card was coolly received by English temperance societies who called it "a positive incitement to wine-bibbing."

But a merry tone had been set for the new artistic genre and with the coming of penny postage and cheaper color reproduction methods in the 1860s, the people of England saw more and more elaborate Christmas dinners as well as charitable deeds depicted on the popular new cards.

Other motifs were also appearing . . . gnomes, fairies and spirits . . . scenes of the Nativity . . . detached cottages on snowy evenings . . . mistle over Japanese mountains . . . Little Red Riding Hood with a basket of Christmas goodies . . . a lonely hermit on the night hill gazing down at the cherry town below and the shining star above.

In the 1870s a new theme — lightly clad maidens lounging around forest pools — brought down the indignation wrath of Victorian drawing rooms. Punch magazine deplored "nudities" at Christmas . . . "it for no other reason than that it is too cool."

Use of Hydrants Still a Problem

Summer Kept Police Busy Trying to Halt Drain on Pressure

PHILADELPHIA (UPI) — Hot weather present most cities with a perennial problem in water pressure—the illegal use of fire hydrants.

This is a fire department's term for the general problem of children (and sometimes their parents) turning on hydrants to keep cool.

Philadelphia officials say that in addition to lowered water pressure in the hydrants, with consequent hampering of fire-fighting efficiency, there are other dangers involved in illegal use of the hydrants.

Disease can come from children lying in gutters and allowing the hydrant water running down the street picking up filth to flow over them.

Children playing with hydrant water in the street are in constant danger from auto traffic.

And, police cruisers are diverted from other duties—sometimes hundreds of times daily in a city as large as Philadelphia—in order to turn off the hydrants.

Despite the fact that Philadelphia has 45 public swimming pools and play areas plus more than 100 playgrounds in every section of the city, the illegal use of fire hydrants during hot summer days continues.

Officials admit the problem appears unsolvable.

LIGHTED LOLLIPOPS—These on a front door are the work of an imaginative and Christmas-spirited family.

Indian Is Recording His Dying Dialect

WARM SPRINGS, Ore. (U) — The Warm Springs Indian dialect, closely related to that of the Yakima, Walla Walla and other Western tribes, is being recorded on tape and a dictionary is being compiled. Delbert Frank, a Warm Springs Indian, is doing the work which he says is complicated by lack of a written language. He is using phonetics in compiling the dictionary.

Frank says there are only a hundred words in common usage but some express complete thought. He says only the old people use the language now.

Colored Lights Lighten Spirits

As traditional as Christmas itself is the "light" touch on holiday decorations. And to all those in favor of saying "Merry Christmas" with lights are dedicated the following hints.

The success of decorating with light does not call for lavish and costly displays. On the contrary, the more one's personality is reflected in holiday decorations, the more sincerely they express the Christmas spirit.

Whether you make your own decorations, or buy ready-to-install designs that come complete with electric lights and cord set, start with a plan.

Study the architecture of the house, the landscaping, and the interior design and furnishings. Then, accent with lighted decorations at night those features of which you are proudest by day.

Windows, especially picture windows, are a "natural" to decorate. So are the front door, chimney, fireplace mantel and buffet table.

Shrubbery, flower boxes or an evergreen tree on the lawn can be effectively, yet inexpensively, decorated with string's of lights.

Choosing between the assorted colors in which Christmas lights are available is a matter of personal taste. All the colors are symbolic of the season. Red signifies cheer. Green suggests wintry evergreens. Red, yellow and

If Snake Bites Relax 'Quickly'

Army Expert Advises That Poison Won't Take Effect as Soon

SAN ANTONIO, Tex. (UPI) — An army expert says the best thing to do when a poisonous snake bites you is the hardest thing to do. It is to relax.

"Animals are a lot smarter than human beings when it comes to reacting to snake bites," the Army expert, Sgt. I.C. Bill Kennedy said.

"I've seen quite a few dogs, bitten by rattlers, settle down in some mud and lie there quietly. Several days later they emerge as good as new."

Snake venom breaks down the red corpuscles when it enters the blood stream. Only when it reaches the heart is it fatal. Kennedy advises calmness for the snakebite victim. The slower he moves, the longer it takes the venom to reach his heart.

Kennedy tells trainees at Brooke Army Medical Training Center that the No. 1 rule in dealing with snakebites is to keep a cool head. If bitten, sit or lie down immediately. Apply a tourniquet between the bite and the heart, the cut across the bite and suck out the venom. Administer anti-venom as soon as possible.

Kennedy has worked with snakes for 35 of his 50 years.

Each enlisted man who takes his basic medical specialist training at Brooke gets a two-hour demonstration of Kennedy's 35 years' experience.

THE CHRISTMAS HELLO—Whether or not your Christmas is as traditional as blazing pudding and mulled elderberry wine, don't forget the one custom of the season that nobody ever forgets—nobody, at least, since Sir Henry Cole . . . the Christmas card.

Lets 2nd Contract in Shelter Program

LANSING (AP) — Gov. Swainson Wednesday announced awarding of a second contract under the federal community fallout shelter survey program.

A \$45,500 contract has been awarded to the Detroit engineering firm of Eberle M. Smith Associates, Inc., for a preliminary survey of St. Clair, Lapeer, Genesee, Sanilac Huron, Saginaw, Bay and Arenac counties. The survey will map buildings that could be used as community fallout shelters. A detailed survey will be made in St. Clair County to determine the complexity of the problem in the area.

The U.S. Army engineering district in Detroit approved the contract for the Defense Department.

Cat Gets Food Hard Way—From Inside Big Jar

DALLAS, Tex. (UPI) — Kitty is outgrowing his 3-gallon glass jar, but he's still getting his bits of liver without interruption.

When Mr. and Mrs. Rudy Stuebenvoll adopted Kitty a year ago, the cat watched Mrs. Stuebenvoll feed slivers of liver to tropical fish in their various jars and tanks each day.

Kitty learned to pick an empty jar, pop into it about mealtime and wait for some liver to come his way.

Now, Kitty has grown into a cat, and has just about grown out of his three-gallon jar.

He slips in frontways, squirms round inside until he's no longer bottoms-up, then sticks his head and forepaws out to receive the daily tidbits.

Despite new drugs about 4,000 persons in the U.S. are victims of pneumonia in an average year.

"W—who are you?" whispered the frightened king.

Suddenly the door knob began to turn — slowly, slowly — and the door opened a tiny crack. The King could stand it no longer. He rushed at the bureau in front of the door, pushed it aside and flung open the door.

"Come in, whoever you are!" he shouted wildly.

Standing there was a plump little woman wrapped in a great black shawl that covered her face and hung to the floor.

"W—who are you?" whispered the King, falling back in bewilderment.

The woman took a step forward, tripped over the shawl and fell head long into the room. She threw the shawl back from her head and there was Santa Claus — eyes laughing and red cheeks shining through white whiskers.

He picked himself up and chuckled. "That's my disguise number one. A detective has to have a lot of disguises you know."

Then he told the astonished King how he had gotten his letter and had come to help him. The King bubbled over with happiness and relief.

"This calls for a celebration!"

"And we shall have it," said Santa. He pulled out the box containing the Pineapple Upside Down Cake and laid it on the desk. "I've saved this to share with you."

"My very favorite!" cried the King. "Come and we'll get some milk to go with it."

They sneaked down to the kitchen for a bottle of milk but when they returned the Pineapple Upside Down Cake had disappeared. They searched everywhere but they could not find it.

"There, you see," groaned the King in hungry despair. "The palace is haunted!"

Next: The Pineapple Upside Down Cake

CHAP, TEN

King Ferdinand was no longer a happy king. Twice more the Ipswitch had come to Polydora. The first time it had squashed into a peanut butter factory which was certainly a personal insult to the King because everyone knew peanut butter was his very favorite dish.

The second time the Ipswitch trampled on a zoo, breaking down fences and upsetting cages. Now the Kingdom was swarming with kinkajous and three-toed sloths and even a white elephant or two.

Each time the Ipswitch came it was followed by even stranger happenings at the palace. The King heard mysterious sounds in the dark of night and saw things vanish in the light of day.

But by now he was so distraught he no longer knew whether he actually heard and saw things or whether it was all his imagination.

He took to sleeping with the light on and shoving his heavy bureau in front of the door. And one night before climbing into bed he would get down on his hands and knees and not only peer under the bed but crawl all the way under it and out the other side just to make sure nothing was there.

Even then, when at last he got into bed, he would not be able to sleep but would lie there shivering and staring and waiting for something, he knew not what, to happen.

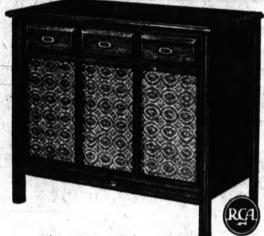

So it was he was lying one night, cold with fright, when he heard a tap-tapping at the door. The King lay very still. "If I don't move," he thought, "it will go away."

But the tap-tap came again. The King sat on the edge of the bed and stared at the door wondering what on earth to do.

LAST WORD — For sophisticated belles on their Christmas lists, assistant Santas might choose the new smoky shades of sheer seamless stockings, such as amber or black coffee. Sparkling nylon seamless stockings will make a hit, too. They're the last word in glamour for festive occasions. Either will win delighted exclamations on Christmas morning.

Bicycle Under Yule Tree Means Boys' Happiness

What is Christmas without a sparkling new bike under the tree? What parent can enter the living room on Christmas morning and feast his eyes on the gleaming two-wheeler standing under the tree without a pang for his childhood?

Yes, a bike is an important holiday gift, but it is more than that. It is a symbol of growth and achievement. It is a means of transportation and, more important, the belief that they can be trusted with an important mechanical unit.

To the boy or girl, the two-wheeler means that their parents are presenting them with out-of-doors fun, a prime means of transportation and, more important, the belief that they can be trusted with an important mechanical unit.

If the Christmas gift is to be kept a secret, there is a quick rule-of-thumb method to buy a bike for children of average height.

The four-to-five year old should have a bike with 16-inch wheels; the six-to-eight year old can handle a 20-inch wheel; from eight to 11, a 24-inch wheel is right and riders over 11 are ready for a 26-inch wheel.

Most children have learned to ride a bike, probably a friend's, before owning one of their own. But if your youngster is unable to ride, don't let that deter you from giving him the most popular of all Christmas gifts.

ONE OR TWO LESSONS
Most riders master the two-wheeler adequately with only one or two lessons. Once balancing ability has been acquired, it's merely a matter of practice to become a master cyclist.

Start your New Year on Christmas with a

Gifts Multiply as Little Project Spreads

Hoosiers Brighten Mental Patients

INDIANAPOLIS, Ind. (UPI)—A good deed originally intended to bring Christmas happiness to a few individuals in just one ward of a hospital for the mentally ill has multiplied to the point where it now extends to similar institutions in nearly a third of the U.S.

Officials of the Indiana Association for Mental Health credit their state with setting in motion a Christmas gift program that has broken down many of the barriers between the public and the patients of state mental hospitals.

It began 10 years ago with a small group of volunteers at Central Hospital in Indianapolis, one of Indiana's 10 state mental institutions.

At the time they were thinking only in terms of one ward where they had learned, several patients were so cut off from outside contacts they would not know Dec. 25 was any different from the day before or the day after.

The volunteers appealed to lo-

cal organizations and individuals for help. The results were so encouraging that the state association set in motion the next year of a similar gift-collection and distribution plan in all state hospitals.

OTHERS FOLLOW SUIT

At national conventions and through the exchange of publications, the Hoosiers then outlined their project to other state mental health associations, many of which have since adopted it.

Miss Vivian Acord, director of information for the Indiana Association for Mental Health, recalled that one of the problems has been to convince the public to give gifts that are needed and wanted.

Miss Acord, a former mental patient herself who has lectured throughout the U.S. on her experiences, put it this way:

"Who wants an apron in a hospital? Yet the early lists were arranged alphabetically with 'aprons' first. And we got thousands of aprons no one wanted. I had

a time getting the association to subject girdles, bras and panties on the list, but we finally succeeded."

The depots set up to receive the Christmas gifts formerly contained much used clothing, so a campaign was conducted to convince the givers that more is involved than creature comfort.

"You wouldn't give a second-hand bathrobe to your favorite aunt or uncle as a Christmas gift," Miss Acord pointed out. "We want personal gifts such as a loving family would buy."

Thousands of volunteers strive to be sure that "the right gift for the right patient" is obtained. All gifts are wrapped and addressed individually to the recipients. In Indiana this year, some 16,000 patients will get two gifts each through Operation Christmas Gift. For some, it will be their only gifts.

A Christmas party is held in each ward with the singing of carols, the serving of refreshments and presentation of the gifts. Volunteers plan the parties

in those wards where the less seriously ill are living. Nurses and doctors hold similar parties in the respective security wards.

Calls Fire Trucks Trying to Pay Fine

BRADFORD, Pa. (AP)—A woman found an overtime parking ticket on her car and a policeman advised her to deposit the ticket and fine in one of the city's red fine boxes.

At a corner of Main and Chestnut Streets she found a red box and tried to slip the ticket and money into the box.

Moments later, fire trucks rushed to the scene with wailing sirens. The lady had been monkeying with a fire alarm box.

'Rolling Stone' Brought Home After 36 Years

TUSCALOOSA, Ala. (AP)—The Rev. B. Max Byrd of Newton, Ala., has returned to the University of Alabama library a book which his sister bought at an auction in Ozark, Ala.

The book, 36 years overdue, is entitled "Rymes of a Rolling Stone."

Just in Time for Christmas!

It's Light Shoes Upsets Owner

Charges Are Dropped
After Agreement Made
to Sell Property

ANCHORAGE, Alaska (UPI)—Routine police reports often have unintentional lighter moments.

In a recent report at the Alaska State Police office there appeared under a space labeled "type of crime," the formal classification "larceny of log cabin."

Under the next space, headed "instrument used to remove property stolen," was the description "physical force."

The report told the story of a retired trapper, a new home-stead family of seven and a 10 to log cabin that once stood near Craggie Creek.

The cabin's owner, Gust Emil Gustafson of Wasilla, reported to police that the cabin had been dismantled and set up again, not far away in the same Willow Creek area. It was now serving a family that had been in the area about a month.

Investigation by state troopers revealed that the cabin had been dismantled and set up again, not far away in the same Willow Creek area. It was now serving a family that had been in the area about a month.

The homesteader, Bryan Butler, 38, said he did not know the cabin belonged to anyone and that he took the logs to shelter his wife and five children before winter. They had been living in a tent, he said, explaining that he did not have work or money.

Gustafson agreed to accept \$100 for the cabin and told Butler he could take a year to pay. The old timer also asked police to drop charges against Butler.

'Suffer Little Children ...'

Reporter Goes Softly, Sweetly Sentimental

By PHYLLIS BATTLE

NEW YORK — It is the season of love and good will and never have we felt it more sweetly. As parents of a 2-month-old son, who is the longest and good-williest boy in town, we are especially close to Christmas this year.

We are slothily sentimental, Kringle-conscious, child-centered, and crib-bound.

It has come to the point where, as we gurgie little nothings to little Rusty, his eyes often take on an expression that clearly asks, "You some kind of nut or something?" He is an intuitive baby.

At any rate, we decided to spend an evening out, our first since his birth. We would take in a movie. Something in keeping with the Christmas-childbirth spirit, wholesome, lovely ... like fun, we would!

The papers revealed quickly that there is nothing Christmasy, wholesome or lovely in towns (with the exception of "Babes in Toyland" at Radio City Music Hall, where to stand in line is to miss three feedings).

Love has been replaced by the three Ds — death and despair on Broadway, and degradation at your friendly neighborhood cinema.

WHERE IS LOVE? Within a five-mile radius of our apartment in festive, holiday-minded New York City, we had a choice of such movies as: "The Pit and the Pendulum," "Loss of Innocence," "Inside the Mafia" and "Portrait of a Sinner."

If we wanted to taxi a bit further, we could see "The Devil's Eye," "The Devil at 4 O'Clock," "Les Liaisons Dangereuses" or "Question of Adultery."

There were two movies about love, "Wild Love," and "Love and the Frenchwoman" — but we doubted their motifs.

"We may as well," said Rusty's father, "stay home and watch 'The Untouchables'."

Suddenly I felt sad at the passing

U.S.'s Largest Telescope Dish Built at Stanford

STANFORD, Calif. (UPI)—America's biggest radio telescope "dish" has been erected on the Stanford University campus.

Scientists hope to use the 70-ton, 150-foot steel-and-aluminum parabolic antenna for radar and radio explorations of the solar system before the end of the year.

The Stanford dish is the first of three such radio telescopes to be built in the United States. The Air Force will soon raise another at Saganami Hill, Radio Astronomy Observatory, Mass., and the Navy is reading a third on the Virginia coast.

The \$350,000 research instrument here was designed and built by Stanford Research Institute scientists under support of the Air Force office of Aerospace Research and the Defense Atomic Support Agency.

Two Old Ontario Laws Not Needed Recently

KITCHENER, Ont. (UP)—Kitchener residents are questioning the need for two ancient laws recently unearthed. One prohibits the shooting of wolves within the village limits.

The other forbids double parking of Conestoga wagons.

of love in the movies and on television. You rarely find love on Broadway either, except between an actor and himself.

And I thought back on the sweet old days of Garbo and Gilbert, MacDonald and Eddy, Gable and Colbert. They all

passed from favor because Hollywood and Broadway thought Mr. and Mrs. Doe were too sophisticated for outright sentiment ... love was good enough for the depression era.

But now we've got money, so we can afford to enjoy meanness, insanity and high-budget crime.

When kindly human nature is occasionally exploited in a film or drama, it must be buried in a comedy, with lots of laughs around it. Writers and directors don't

think audiences would sit still for goodness all by itself; it has to be spoofed liberally on both sides.

SENTIMENTAL ONES I remember some time ago in interviewing Leo McCarey, who directed such out-and-out sentimental spectacles as "Going My Way," "My Son, John" and a wonderfully kindly, unappreciated film called "Make Way for Tomorrow."

The year he made the latter classic, he won an Academy Award for another picture, "The Awful Truth."

"I won it for the wrong movie," he told me. "But even back then (in 1937), pure love couldn't win an Academy Award."

There are things that transcend love, it seems ... in every medium but real life.

Anyway, the upshot of our vain quest for a love-eye view of the season's spirit was that we decided to cancel the babysitter and stay home with small son. As always, it was a wonderful evening.

We always knew he was the greatest attraction in town, from his resonant introduction, through his smash act with the mashed bananas, and his exciting bout with the big bad burps, to the three-hanky denouement where he bids fond adieu to the land of the three Ds, and sinks softly off to sleep in the world of good dreams.

This is the finest entertainment in the world, and I wish we could share the fun. But he has a lifetime booking at our house.

Have Fun With Camera at Holiday Time

What are your plans for Christmas? For most people, the holiday—and in many cases, the entire Yuletide season—means a special kind of family reunion, family worship, and just plain family fun.

The elements all add up to an ideal time for taking pictures—pictures that will become an important part of the family album, and be treasured in the years to come.

Some gifts, like a new sled, will be hoisted outdoors for a quick trial run. Here, too, an excellent picture is possible.

And while you're outdoors, you might just as well snap a picture of the Christmas decorations on the outside of the house, or of the snow-blanketed yard.

Even with new and simplified equipment, however, there are some basic pointers to observe to help you take good pictures and movies.

First, it's important that the camera lens be clean. Dirty lenses take foggy, blurry pictures.

Lighting is also important. With simple cameras, use color film only in sunlight or with flash. With adjustable cameras, check the film instruction sheet for correct settings. And if you're using an automatic camera, be sure to set the

They serve, too, as a link to the son, daughter, or other relative or friend who couldn't be with you and your family for the holiday. What better way to show they were missed than by sending snapshots?

Excellent picture-taking opportunities abound every home during the Christmas Season, both indoors and outdoors.

And because the Christmas Season offers an abundance of gaily decorated, snapshots and movies in color are especially desirable.

A picture record of family Yuletide activities can embrace a multitude of events around and near the home.

There's the traditional Christmas tree trimming—chore that usually involves Mother, Dad and the children. This event lends itself to a series of "before" and "after" pictures, first of the untrimmed tree, then of the finished work of art.

To be sure everybody gets into one or more pictures, each member of the family can take a turn behind the camera lens.

Don't forget to snap Mom at some of her time-consuming chores—wrapping Christmas gifts, addressing greeting cards. Invariably, she'll have some help—whether the wife it or not—from the children. This "help" may do more to hinder Mom than to help her, but it will make the pictures a lot more interesting.

Another pre-Christmas Day possibility is a picture of the children hanging their stockings over the fireplace. Then follow it up on Christmas morning with a shot of the youngsters taking the overflowing socks down.

TO BE TREASURED

Christmas Day, of course, is chock-full of warm, intimate photo opportunities. Pictures of the children—and Mom and Dad, too—unwrapping their gifts will be among the most treasured.

If the gift is an article of clothing, the recipient will probably try it on. A new toy will get an immediate try-out from the children. In either case, a picture is in order.

CATCH-ALL LUXURY—A gift in the hand is worth two on the list. A welcome present for wardrobe-wise girls is an antique velvet pouch big enough to hold a multitude of purse accessories, yet light enough not to weigh down the arm. Framed and double-handled in color-blended leather, the bag is season-spanning from winter through spring.

Nervous Children Aren't at the Head of Their Class

LONDON (AP)—Nervous children who bite their nails and suck their thumbs are poorer students than those without these habits.

That is the conclusion of a 15-year study of 5,000 children, published by Dr. James Douglas and Dr. David Molligan in the October issue of the Royal Society of Medicine's proceedings.

The children have been carefully studied since birth by home visitors, parents, teachers and doctors, who kept records of nervous "symptoms."

The experts discovered that the

Texas Student Gets to Grade Teachers

AUSTIN, Tex. (UPI)—A freshman chemistry student at the University of Texas regularly gives professional advice to faculty members. He is George R. Bryant, 26-year-old retired president of the Jefferson Chemical Co. of Houston.

Bryant earned 102 hours of college credit at the University of Missouri and the Colorado School of Mines before World War I, and decided to complete his degree upon retirement a year ago.

He is entering in freshman algebra and chemistry courses and heads a university advisory group

Active Texan Keeps Moving 24 Hours Plus

DENTON, Tex. (UPI)—When Gene Hadden snatches a bit of shut-eye on the early Dallas-Denton bus in North Texas, other passengers who have become acquainted with the slender traveler don't begrudge him a snore or two.

For Hadden is:—A graduate psychology student at North Texas State College in Denton.

—An instructor in a basic psychology course at the college.

—A radio engineer for station KRLD in nearby Dallas for 40 hours a week.

—Coauthor of a book for education courses.

A husband.

The busy, and often sleepy, commuter began his hectic schedule when he decided to explore a high school fascination he had for psychology.

People Get Confused Over Bowl and Bowl

TUCSON, Ariz. (AP)—Ray McNally, executive secretary of the All-American Bowl, smiles when he gets phone calls for advance reservations for the annual post-season collegiate all-star football game in Tucson.

But he does draw the line. He's asked persons wanting reservations to bowl to please call a bowling alley.

(Where Have You Been?)
MANKATO, Minn. (AP) — Alfred Nelson hadn't ordered any soybeans — but he got 'em. A truck loaded with 75 bushels of beans crashed into his house, coming to rest entirely inside the living room.

pouring beans by the bushel in an area Nelson had left a few minutes earlier.
Cordell Hull, former U. S. Secretary of State, practiced law in Tennessee before he was old enough to vote.

Macao Trying to Get Hong Kong's Tourists

HONG KONG (UPI)—The Portuguese colony of Macao, across the Pearl River estuary from Hong Kong, is acquiring a modern

casino and a 100-room hotel to handle the new influx of jet age tourists.

Macao also is building three small inns, two nightclubs and a large theater in a bid to rival Hong Kong as an Asiatic tourist mecca.

Cotton Picking Machine Replacing Field Hands

ATLANTA (AP)—The State Employment Service said that mechanical cotton pickers numbered 1,041 this year, compared with 481 last year.

Cotton can be picked with the machine for about \$20 a bale, by hand for about \$40 or \$50. Each picker is capable of doing the work of 50 hands.

The service said the cotton picker plus other mechanization could mean that 20,000 farm workers of latex foam rubber, a United States Rubber Co. engineer told

Popular Foam Rubber Aided by 'Breathability'

LAKE PLACID, N.Y. (UPI)—"Breathability" is one of the factors accounting for the popularity of latex foam rubber, a United States Rubber Co. engineer told

a recent meeting of the American Institute of Chemical Engineers. Latex foam's structure has interconnecting cells which permit passage of air upon flexing, according to Edward C. Svendsen, of Akishawa, Ind. He said this "reduces the contention that rubber in contact with the body is hot."

100-Year-Old Church Will Return to Use

CHAPMAN, Kan. (AP) — The 100-year-old St. Patrick's Church a mile east of here will soon come out of obscurity.

The church was once at a crossroads of trails of the pioneer era. It had been established in 1861 by Irish pioneers and was near the post office and stage coach stop. When a new church was built in Chapman, services were discontinued at St. Patrick's except for an annual Memorial Day event.

Now it will be restored as a highway chapel on new Interstate Highway 70.

Clothes Give Clue to Proper Scents

The young man who learns early the secret of selecting just the right fragrance for the ladies in his life is well on his way to becoming the kind of charmer that women from 9 to 90 date on. Nothing flatters a woman more than the idea that a gift was chosen for her alone.

Consequently, any very promising young man will give his fragrance selections the same kind of intensive thought that he gives his final exams.

This year fragrance containers are lovelier than ever before.

Many are packaged in decorative

metal containers that make handsome vanity accessories or that can be carried easily in the purse. Many, too, are equipped with special valves which emit the fragrance in an extremely fine and effective spray.

One manufacturing company offers a few tips for the young man selecting a scent:

The clothes a gal wears furnish a lead to the kind of fragrance that will compliment her. Woolly scents go well with tweeds and cashmeres.

Oriental scents go well with furs and heavy silks, and floral scents are enjoyed by everyone.

Fragrance counters can be

frightening barriers to young and old alike, but the gift, when thoughtfully chosen, brings its own rewards.

Eye Space Tow Trucks

PASADENA, Calif. (UPI) — Ion engines some day may propel "tow trucks" in outer space to give space satellites extra speed, engineers of Consolidated Electrodynamics Corp. said in a recently published pamphlet. The ion-powered space tow trucks would haul the satellites from a low orbit on a spiral course to an orbit farther out in space and then release it.

Color Ice Cubes Make Holiday Punch Intriguing

For a colorful Christmas party drink, try this recipe for Spruce Root Punch. Since root beer is a favorite with young people, they will especially enjoy this holiday treat.

Chill, and combine at the last minute in a punch bowl, two cups of unsweetened pineapple juice, seven bottles of root beer, one-half cup of lemon juice.

Add color with candy cane ice cubes. These can be made by placing one-inch pieces of red and white striped candy cane into each compartment of two ice-cube trays. Fill the trays

with very cold water and freeze quickly.

To add a bright green against the deep color of the root beer and the red and white candy cane, thinly slice one lime and float slices on top of the punch.

The measurements given in this recipe will serve 12 with a delicious, gaily-colored beverage.

Three Burglars Pick the Wrong Junk Yard

LAREDO, Tex. (UPI) — Police men Ramon Rojas and Sam Brewster drew special praise from Detective Chief A. H. Jimenez for arresting three burglars in a junk yard. "The nerve of some burglars," he said.

Georgia Investing in Country Doctors

ATLANTA (AP) — Georgia is investing \$158,150 this year in a priceless product, "country doctors" for small towns and rural areas.

Each scholarship-loan amounts to \$1,250 a year. The doctors may repay it by practicing in a rural community of 5,000 or less for one year for each \$1,000 received under the plan.

The program was started eight years ago and currently doctors are repaying past loans by practicing in 21 small towns. This year's budget covers 33 new scholarships and 94 renewals.

Fido Says: Give Me a Doggy Christmas

NEW YORK (UPI) — If you're the "dog who has everything," and you can't decide on a Christmas gift, why not consider wrapping your pet in a mink coat or a diamond-studded collar?

The costs may be had for \$500 and the collar up to \$2,000 each. They are quite the thing on New York's Fifth Avenue these days.

If your dog has any friends — four-legged or human — with whom he would like to exchange greetings during the holidays, a company in nearby Long Island produces canine greeting cards. It sold 550,000 of them last year. A pet store owner here estimated

recently there are almost 30 million dogs in this country and they create a business of approximately a half-billion dollars annually in food, accessories and services.

LUXURY ITEMS

Most accessories and services are practical; others, such as mink-lined lounging pajamas, tuxedos, beds painted to match the room, pillows to match draperies, and purple velvet robes covered with rhinestones, are not.

A recent survey of the market here showed these other things were available for Fido:

—Raincoats of the Cape Cod

variety, complete with hoods.

—Rubber boots, which salesmen claim are especially suitable for city dogs whose paws are bothered by rock salt spread by sanitation departments in winter.

—Life insurance by Lloyd's of London.

—\$300 collars.

—A two-room ranch style, duplex or split-level dog house made of cedar blocks. The bottom floor of the split-level is used in summer because it is cooler. In the winter the lower level is closed off and the warmer top level is used.

Mag also has done right by his

four-legged friend in the broad area of health and general well-being. Available are artificial limbs, contact lenses and hearing aids. There is even an oral insecticide, in tablet form, that rides dogs of fleas and ticks.

Air Freight to Roll

NEW YORK (UPI) — Pan American World Airways is equipping its DC-7C freight planes with roller bearings in the floors so that heavy containerized freight can be loaded or unloaded on pallets with forklift trucks by only one or two men.

Don't Let Bugs Win in Battle of the Bite

ST. PAUL, Minn. (UPI) — Common free-loaders of the insect variety, who often obtain their nourishment at the expense of human beings, are flies, mosquitoes, bed bugs and fleas.

The meal check of such an insect usually is identified by a small red spot, followed by itching and a whitish swelling or bump.

Treatment in most cases is simple. It merely involves applying several drops of diluted ammonia water to the wound. Frequently relief from the itching sensation

can be gained by using an antihistamine ointment.

Some persons are highly allergic to insect bites. Prompt treatment is essential, using mainly ice packs or cold compresses.

Rental of Warehouse Nets College Money

GRAND RAPIDS (U) — Grand Valley State College reports it is receiving more than \$18,000 annual income from business firms leasing space in a warehouse donated to the school.

Philip W. Buchen, college vice president for business affairs said three firms occupy space in the former food chain warehouse which still has 70,000 square feet available for lease.

Thank School for 25 Years of Education

BLOOMINGTON, Ill. (AP) — When Janet Berry graduates this year from Jefferson School, it will end a Berry family tradition of 25 years standing.

There's been a member of the Joseph J. Berry family enrolled at Jefferson ever since their oldest boy, Ronald, started first grade in 1934. Others enrolled from the Berry family were Madeline, Alene and Carol. The Berrys wrote principal W. Earl Lee a thank you note that read: "We feel we have been very fortunate the children were priv-

ileged to receive their early training from the past and present faculty of Jefferson School."

Dayton Beautifying Its Garbage Dumps

DAYTON, OHIO (U) — Dayton is trying to spruce up its city dump. Sup. William Pryor of the Division of Waste Collection figure: cities always will need dumps, but adds:

"A landfill doesn't have to be an unsightly place, nor does it need to deteriorate the surrounding neighborhood."

City crews are planting trees along the dump boundaries and putting in grass seed.

Sweets of Yule Can Be Traditional, or Contemporary

By JANET ODELL
Pontiac Press Home Editor

Christmas and New Years are times when traditional foods take the spotlight. We do our best to prepare festive dishes. It is a time when all our heritage from our European ancestors comes to the fore with special recipes.

Christmas, desserts take many forms. There are the time-honored flaming puddings and mince pies. There are gelatin desserts and desserts made with sugar

substitutes for weight watchers. There are fancy cakes and pretty cookies. All the sweet things in the cookbooks seem to be spread out for us to enjoy.

This is your page to make your holiday meal planning a little more exciting. Don't look for any ordinary recipes. These are special. They'll feast your eyes and your palate. They'll please your guests and your family. They'll be fun to repeat in future years.

Mincemeat Is Filling for Holiday Pastries

Name the season and an appropriate food specialty will easily come to mind. Or, name the special dish and you can probably name the season with equal ease, even if the food happens to be available the year around.

Such is the case of mincemeat, traditionally associated with fall and winter festivities, particularly in terms of deliciously spiced pies and tarts.

The distinctively seasonal desserts owe their superb taste to a spicy blend of 21 quality ingredients used in making modern-day mincemeat.

Mincemeat-Fruit Pie

- 1 recipe pastry
- OR
- 1 stick (5-oz.) instant mixing pie crust mix
- 2 1/2 cups (one 28-oz. jar) ready-to-use mincemeat
- 5 to 6 (1-lb. 13-oz. can) peach halves, well drained
- 1 (8-oz.) package cream cheese
- 1 to 2 tablespoons homogenized milk
- 1/2 teaspoon vanilla or almond extract, optional

Prepare pie crust mix according to package directions for one-crust pie shell. Turn mincemeat into unbaked shell. Place well-drained fruit, pitted side down, in a circle, atop mincemeat. Bake in hot oven (425 degrees) 20 to 25 minutes, or until pie shell is golden brown. Remove from oven. Cool. In a small bowl, blend cream cheese, milk and vanilla until smooth. Spoon into pastry bag (a No. 5B Ateco tube is fine for this purpose) and flute cream cheese mixture around peaches. Makes one 8-inch pie.

Pumpkin-Mince Tarts

- 1 package (2 sticks) instant mixing pie crust mix
- 1/2 cup boiling water
- 2 cups ready-to-use mincemeat
- 1/2 cup light brown sugar, firmly packed
- 1/2 teaspoon salt
- 1 teaspoon cinnamon
- 1/2 teaspoon ginger
- 1/2 teaspoon cloves
- 1 cup cooked strained pumpkin, fresh or canned
- 1 egg, slightly beaten
- 1/2 cup evaporated milk, undiluted

Crumble Pastry

Combine remaining ingredients. Mix well. Spoon equal amounts of filling into each tart shell. If desired, garnish with a teaspoon of whipped cream. Makes 6 tarts.

Cocunut-Mince Tarts

- 1 package (2 sticks) instant mixing pie crust mix
- 4 tablespoons boiling water
- 2 cups ready-to-use mincemeat
- 1/2 cup coconut flakes
- 1/2 cup chopped walnut meats

Crumble pastry into a bowl. Add boiling water. Stir with a spoon until dough forms a ball and completely cleans bowl.

Divide Pastry into 6 equal pieces

Roll each pastry piece into 6 1/2-inch round. Place each round into a 4 1/2 x 1 1/2-inch tart pan. Let 1/2-inch pastry overhang pan edge. Fold the overhanging edge back and under. Form a high fluted edge to hold generous amount of filling. Prick pastry with tines of fork thoroughly to prevent puffing during baking. Bake in a hot oven (475 degrees) 8 to 10 minutes or until golden brown.

Combine remaining ingredients

Mix well. Spoon equal amounts of filling into each tart shell. If desired, garnish with a teaspoon of whipped cream or additional coconut flakes. Makes 6 tarts.

Cranberry-Mince Tarts

- 1 package (2 sticks) instant mixing pie crust mix
- 4 tablespoons boiling water
- 1 (3-oz.) package condensed mincemeat
- 1 (3-oz.) can whole berry cranberry sauce
- 1 cup chopped walnut meats

Crumble pastry into a bowl. Add boiling water. Stir with spoon until dough forms a ball and completely cleans bowl.

Divide Pastry into 6 equal pieces

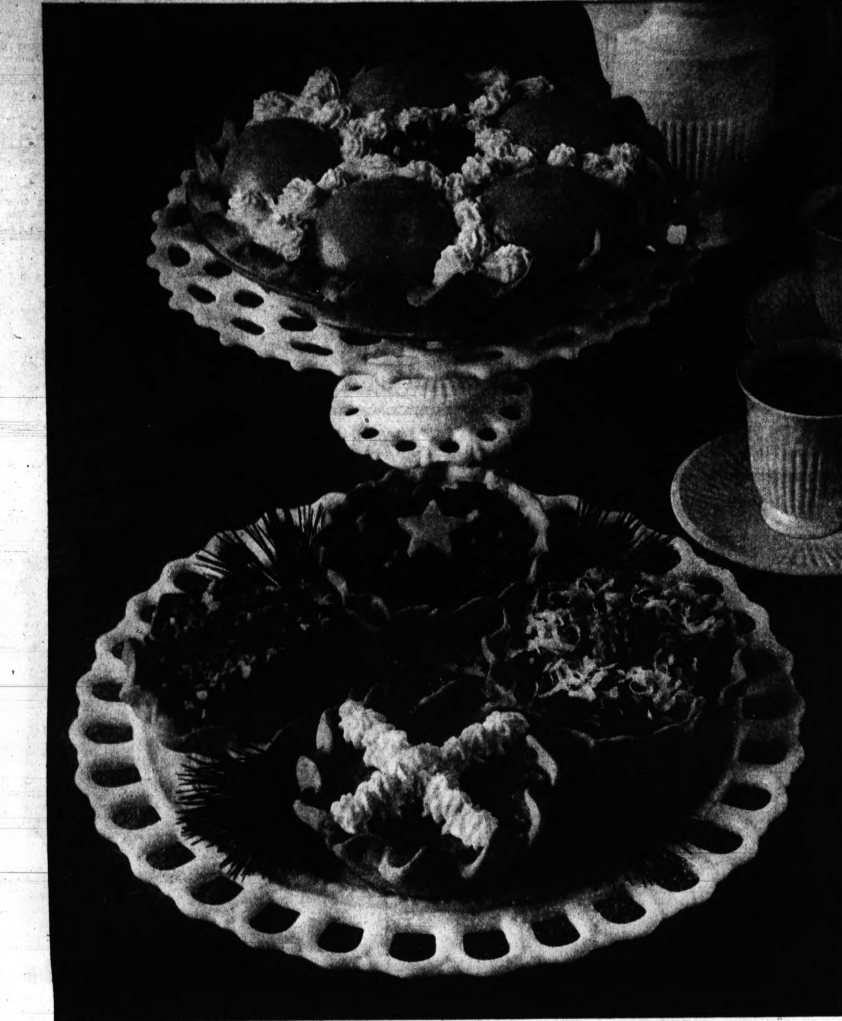

Roll each pastry piece into 6 1/2-inch round. Place each round into a 4 1/2 x 1 1/2-inch tart pan. Let 1/2-inch pastry overhang pan edge. Fold back and under. Form a high fluted edge to hold generous amount of filling. Prick pastry with tines of fork thoroughly to prevent puffing during baking. Bake in a hot oven (475 degrees) 8 to 10 minutes, or until golden brown.

Break condensed mincemeat into

succupan. Add the cranberries, walnuts and orange juice. Place over heat and stir until lumps are thoroughly broken. Bring mixture to a brisk boil. Remove from heat. Cool slightly and pour into tart shells. If desired, garnish with whipped cream or a walnut half. Makes 6 tarts.

Quick Cutouts

Cut cookie dough into squares or diamonds with a pastry wheel. This gives cookies nice fluted edges and there is no pastry left to reroll.

MINCEMEAT TREATS — Mincemeat stars in pastry desserts. At the top on the composite you see plain mincemeat pie topped with jewels of candied peach halves. On the plate in the foreground are a variety of fluted tarts. A cheese star garnishes a Mince-Rum tart; at the right is a Cocunut-Mince tart; whipped cream

Cherry Studded Pudding Molded in Advance

Cherries and cherubs make a fine design for a cher-rubric Christmas. Cherry-checked Renaissance cherubs pluck the strings and foot the horn and sing all praise to a sumptuous Christmas Rice Cream.

Marshchino. Rubies on pink velvet... that will do to describe the total, quite stunning effect of this rice cream. The cream is molded of cooked rice and old-fashioned, fattening whipped cream... colored the palest of pinks with marshchino cherry juice. Into this pastel compound a cup of chopped marshchino cherries is scattered... the rubies mentioned.

Flavorful Pecans Better Any Food

Chopped or halved pecans improve almost any fruit or vegetable salad with a delightfully rich crunchiness.

With the traditional mince of pumpkin pie, try a pecan pie-crust. Just use finely chopped pecans in place of one-half the fat your favorite pie crust recipe calls for.

Roasted pecans, a treat for both youngsters and oldsters, are pictured by spreading kernels in a pan with two tablespoons fat or cooking oil to each cup of nuts. Roast in a moderately hot oven only until nuts are heated, drain and salt.

Combine rice cream and confectioners' sugar; mix well. Sprinkle gelatin over cherry juice and allow to stand five minutes. Heat gelatin

Egg Nog Pie Cuts Romanians Cooks Prepare Traditional Food

Suagr Calories

Coffee Egg Nog Pie, a delectable dessert, illustrates how calories can be whittled away in cooking without sacrificing flavor or satisfaction.

A low-calorie graham cracker crust makes a pleasing substitute for the usual calorie-laden pastry crust. Protein-rich, low-calorie plain gelatin provides the base for the filling which is flavored with calorie-free coffee.

Evaporated milk, chilled for a few hours in the freezer, beats up to the same consistency as heavy whipping cream with but a fraction of the calories. And Sucaryl, the calorie-free sweetener, replaces all the sugar normally used for sweetening.

Coffee Egg Nog Pie

- 16 small graham crackers, crushed
- 3/4 teaspoon Sucaryl solution
- 3/4 tablespoons sugar, melted
- 2 envelopes (or tablespoons) unflavored gelatin
- 1/2 cup cold water
- 4 tablespoons instant coffee
- 2 cups boiling water
- 1/2 teaspoon Sucaryl solution
- 2 eggs, separated
- 1 teaspoon brandy flavoring
- 1/2 cup evaporated milk, chilled

Combine crushed graham crackers, 1/2 teaspoon of Sucaryl and melted butter; press into a 9-inch pie plate; chill until firm.

Soften gelatin in cold water. Dissolve coffee in boiling water; add to softened gelatin, stirring to dissolve. Add the 1 tablespoon of Sucaryl. Slowly pour gelatin mixture over well beaten egg yolks; chill until mixture begins to thicken.

Beat egg whites until peaks form; fold into gelatin mixture along with the flavoring. Beat chilled evaporated milk until stiff; fold into gelatin mixture. Pour into crumb crust. Chill until firm.

If desired, garnish with low-calorie whipped topping.

Makes 6 servings. Each serving contains 152 calories; 7 grams protein; 10 grams fat; 9 grams carbohydrate.

Pontiac's Centennial brought out the fact that the city is a living area for people of many nationalities. The International Tea gave some 25 or 27 national groups a chance to display their culinary skills.

There are a number of groups in the city who carry on the Old World food traditions, especially during the religious holidays like Christmas and Easter. Although the general public does not participate, individuals enjoy hearing about the special foods and trying some of the recipes.

The women of St. George Romanian Church, who belong to the St. Maria Women's Club have just celebrated the 25th anniversary of their organization. Last week they held their annual Christmas party.

The Press photographer was on hand to get a picture of the beautifully prepared table and to sample some of the Romanian food. Mrs. Dimitrie Toth wrote up some of the recipes, translating into more understandable terms where necessary. She made it clear that the recipes come from many of the club members and represent all areas of Romania.

The Romanian church has two 6-weeks fasting periods; one is the Lenten season; the other covers the 6 weeks prior to Christmas, the Advent season.

The first week meat is omitted from the menu; the second week cheese, milk and eggs are added to the forbidden list. During the last 4 weeks vegetables only are consumed.

On Christmas Eve carolers go from house to house singing. They are invited in to partake of the holiday food set out. This might include Graun (cleaned cooked wheat); Calac (a braided bread); stewed dried fruit; black silves; oil (sheep's cheese) or sarmale (stuffed cabbage).

From midnight until after Mass on Christmas Day no food is consumed. But then the ample menu sets the diners make up for lost time. Special dishes at this time include chicken soup with throat

thin noodles; carnat and carthos (sausages); roast porcel (pig); hot potato salad; rich Romanian pastries; fruits; nuts, wine.

Like the Greeks, the Romanians celebrate New Year's Day with a special bread that has a silver coin baked into it. The Romanian bread is placinta, a strudel, that wonderful rich pastry. Whoever gets the piece of placinta with the coin is said to be the one who will have good luck all year.

Here are the recipes Mrs. Toth assembled for Press cooks.

TORTE SQUARES

- 1/2 pound sweet butter
- 8 egg yolks
- 10 tablespoons sugar
- 10 tablespoons finely ground walnuts
- 6 tablespoons flour

Beat butter until creamy. Add egg yolks and sugar. Beat about 10 minutes, or until very creamy. Add nuts and flour and fold in. Pour into 10x14-inch greased pan and spread evenly. Bake at 250 degrees for 45 minutes.

Remove from oven and spread any kind of jam or preserves on top evenly and lightly. Top with meringue. Sprinkle additional ground walnuts on top of meringue.

Return to oven for another 10 minutes, or until meringue is light brown. Remove from oven and cut into 2-inch squares within 5 minutes, or meringue will crack.

Meringues

- 8 egg whites
- 3/4 cup confectioners' sugar

Beat egg whites until peaks form. Beat in sugar and continue beating until mixture stands in high thin peaks.

APPLE CAKE

- 4 cups flour
- 1/2 pound butter
- 4 eggs, separated
- 1 cup sugar
- 14 medium apples
- sugar and cinnamon

Mix butter, sugar and egg yolks well. Add flour gradually. Divide dough in half and refrigerate about 30 minutes.

Roll out half the dough into rectangle shape and place on cookie sheet. Add peeled, cut apples, sugar and cinnamon, spreading them

thickly on top of dough. Roll out remainder of dough and cut into strips for a lattice topping. Weave over top of apples.

Beat egg whites slightly and spread on top of lattice. Bake 45 minutes at 350 degrees. When cool, cut into squares of diamond shaped pieces.

COLAC

- 1/2 pound butter, melted
- 1 pint milk, heated to lukewarm
- 3 eggs, separated
- 1 cake yeast
- 4 tablespoons sugar
- 1 teaspoon salt
- 4 cups flour
- raisins, if desired

Grease top of dough and let stand covered 1 hour, or until doubled. Roll out and spread braided into loaf as desired.

Place in well greased baking pan and let rise to top of pan. This can be an angel food cake pan. Bake at 350 degrees for 45 minutes, or until light brown.

MOUTH WATERING

— When the women of St. Maria Women's Club of St. George Romanian Church had their Christmas party last week, they had a feast of traditional dishes. Mrs. Nick Stanch of Union Lake (far left) is holding a dish of grape (cooked cleaned wheat with a candy cross on top). Mrs. Thomas Popones of Mt. Clemens Street offers a casserole of sarmale or cabbage

stuffed with rice and mushrooms. Mrs. Pauline Baban of Joslyn Avenue looks on as Mrs. Dimitrie Toth of Iron Avenue samples a slice of nut roll. Pastries in front of the women include torte squares, coffee doule, apple cake and a braided colac. The sign behind the women says, "Bucuresti Greetings."

Holiday Sherbet Has New Flavor

Cranberry sherbet served with the turkey will give a fillip to your Christmas menu.

Serving sherbet with the entire is an ancient custom, particularly popular in the South. The sherbet makes a pleasing contrast to a hot course and provides an unusual touch to the menu.

To give the cranberry sherbet a special flavor that guests will remember add Cherry Heering, that delicious ruby-red liqueur from the land of the Danes. In addition to its palate-tasting properties, the sherbet made with cranberries and the cherry liqueur will add just the right Christmas color to the menu.

The recipe gives here originated with the chef of New York's famous Hemisphere Club in the Tower restaurant. The sherbet can also be used as a dessert, providing a pleasant contrast to the usual mince pies and plum puddings.

Christmas Heering Sherbet

2 cups cranberry pulp
2½ cups sugar
2 cups water
1 cup Cherry Heering
Juice of one-half lemon

Boil the water and sugar to make a syrup and add the cranberries. Put the mixture on the blender and pulverize. Mix with remaining ingredients. Put in ice trays and let freeze until it is mush. Remove and beat with a wire whisk. Put back in freezer and repeat the process once more. Serves 8 to 10.

Detergent Foods Are Nature's Toothbrushes

What is a detergent food? The answer is given by Dr. Philip L. White, Sc. D. secretary, Council on Foods and Nutrition, American Medical Association. He says: "Dentists refer to the crisp, crunchy foods as detergent foods because they help to remove other food particles from the teeth."

"Dentists and physicians are quite concerned with sticky, high-carbohydrate foods that adhere to the teeth. Such foods are quickly acted upon by the bacteria commonly found in the mouth, and the acids produced during this bacterial digestion can etch the enamel and thus produce a site for decay to begin. Chewing such crunchy, low-carbohydrate foods as celery, carrot strips and radishes can do much to remove sticky foods from teeth."

A Product of International Milling Company

Roll Chicken in Cheese and Bread Crumbs

Such an easy way to fry chicken, and so delicious! Serve it to the family and to guests, too.

Chicken Romano

1 broiler-fryer (about 3 pounds)
½ cup fine dry bread crumbs
¼ cup grated Romano cheese
½ teaspoon salt
½ teaspoon white pepper
½ cup butter

Heat oven to 400 degrees. Have chicken cut into 10 pieces; wash and drain; reserve bony back pieces for broth. Mix together the crumbs, cheese, salt and pepper on a piece of paper; roll chicken in mixture — about one-

third of the crumbs will be taken up.

Melt butter in a baking dish (about 8 by 12 by 2 inches) in oven. Place chicken, skin side down, in the butter; sprinkle with half of the remaining crumbs.

Bake in preheated oven 30 minutes; turn chicken skin side up; sprinkle with remaining crumbs mixture and bake; continue baking 30 minutes. Makes 4 servings.

Cubes Fry Nicely

For a fancy dinner plate peel partly cooked whole potatoes and cut into 1-inch cubes. Finish cooking in 1-inch depth of corn oil skillet. When light brown drain, salt, and dust with a little paprika.

Dried Figs Pleasing Addition to Stuffing

A blend of figs and orange juice makes a delightfully moist poultry stuffing.

1 cup chopped onions
¼ cup butter
1 teaspoon poultry seasoning
½ teaspoon salt
½ teaspoon pepper
¼ teaspoon seasoned salt
8 cups bread cubes
1 cup chopped dried figs
1 teaspoon grated orange peel
½ cup orange juice

Saute onions in butter. Add seasonings and bread, stirring until well blended. Add remaining ingredients. Enough for ten to twelve pound turkey.

Steamed Pudding Set in Ruff of Sauce

"Now thrice welcome Christmas, which brings us good cheer. Mince pie and plum pudding, good ale and strong beer. With pig, goose and capon the best that can be so well doth the weather and our stomachs agree."

from Poor Robin's Almanac, 1633. Thrice welcome, indeed, is the Christmas pudding . . . come from England with our ancestors to grace a gracious season.

The English trace their Saxons, Christmas back to the Druids, who, gathered about their ancient marsh fires, baked money into puddings to appease the evil spirits. Today we call this pudding gold or pudding-gold.

The very elegant Norman English adopted the French customs of Twelfth Night Cakes and Pudding Cake Ladies. Guests finding the tiny crowned figures baked into these confections were hailed in mock coronation—as Monarchs of the Feast. This practice of baking inedible objects into cakes resulted in some startling lists of ingredients . . .

1 thimble
2 tablespoons buttons
1 silver pig, small
¼ cup assorted silver coins and charms . . .

These tokens, starting with the thimble, augured spinsterhood, bachelorhood, good fortune and prosperity.

George I, who was extremely methodical, declared that any plum pudding served to the royal household was to be eaten with plum sauce. But through the vagaries of time and the inventiveness of cooks, most plum pudding recipes are now plumless. But what recompensing tidbits are retained! There are still scarlet cherries . . . plump and sweet . . . both glace and maraschino. There are fine candied fruits and golden raisins, rich nutmeats and fragrant spices, lemons for tartness and brandy for flourish.

Sweeten Butternut Squash With Syrup

The butternut variety is a delightful member of the squash family. If you don't yet know it, get acquainted!

Maple Butternut Squash
2 pounds butternut squash
Boiling water
½ teaspoon salt
2 tablespoons butter or margarine
2 tablespoons maple syrup
White pepper to taste

Cut the squash in half and remove stringy portion and seeds; pare. Cut into 2-inch pieces. Place in a saucepan with ½-inch boiling water and ½ teaspoon of the salt. Cover and bring to boiling; cook until very tender — 10 to 15 minutes. Drain if necessary. Mash until smooth; mix in the remaining ½ teaspoon salt, butter, maple syrup and pepper. Reheat. Makes 6 servings.

new! Gerber Meat Sticks For Self-Feeders

Now your toddler can play "pick up sticks" with real gusto. Gerber Meat Sticks make a perfect finger food. Made from selected, lean Armour Pork and Beef plus moist dry milk solids. This gives baby lots of body-building protein and other important nutrients. A low fat content and mild seasoning make them extra delicious . . . extra easy to digest. Serve right from the container or heat slightly. P.S. Gerber Meat Sticks make wonderful sandwich fillings for older children.

Gerber MEAT STICKS

CLOROX gives you the only kind of cleaning power that gets out suds-proof body dirt...right in your washer!

You'll never have really clean washes till you realize that oily body dirt takes a special kind of cleaning power...the Clorox kind. Weaker bleaches just won't do. Detergents can't get rid of it without tiresome hand-treating. Suds-proof body dirt is too stubborn to be floated away or covered up. It must be dissolved. Adding Clorox to your suds dissolves it...right in your washer.

CLOROX gets out dirt that weak bleaches leave in!

50 Pickets March in Royal Oak Twp.

Hit Urban Renewal Project 'Inaction'

ROYAL OAK TOWNSHIP—Pickets, about 50 strong, are picketing in the cold today in front of the township offices at 2105 Wyoming Ave., protesting the "do-nothing program" of the urban renewal and development project.

The picketing is the outgrowth of a meeting held last night in which about 100 township citizens took part.

The meeting had been called by Justice of the Peace Louis C. Cash and Mrs. Mattie Baker, former vice chairman of the Oakland County Democratic Committee.

Four items were on the agenda—

NEWS OF THE AREA

Barnhart-Welch Vows Told

Wed in Yule Setting

AUBURN HEIGHTS — Wanda Kay Welch and Donald Edward Barnhart exchanged their nuptial vows in a Christmas setting of red poinsettias, chrysanthemums and pine cones Saturday evening at Elwood Methodist Church.

For her wedding the bride chose a white Blanche taffeta gown featuring a molded bodice etched with seed pearls and sequins and fashioned with long, pointed sleeves and a bouffant skirt ending in a chapel train.

A tuxedo headpiece held her finger tip veil of silk illusion, and she carried a bridal bouquet of white orchids and stephanotis. The necklace she wore to complete her ensemble was a gold heart set with a diamond, gift of the bridegroom.

MAID OF HONOR

Maid of honor was Patricia Parker of Rochester, Carol Mazurek of Pontiac, Judith Myhr of Rochester and Judith O'Heron of Ferndale were bridesmaids.

Theodore K. Barnhart of Manhattan, Kan., assisted his brother as best man. Seating the 200 guests were Gerald Guerin of Pontiac, Carl Bremer of Marysville and Ralph Charlick of East Lansing.

The reception was held in the church parlors immediately following the rites after which the newlyweds left on a honeymoon trip to Chicago.

MRS. DONALD E. BARNHART

Goodfellow Sale Set by 2 Units

Oxford Lions, Highland Volunteers Will Hawk Papers for Needy

Two area Goodfellow organizations will hawk copies of The Pontiac Press this weekend to raise funds for needy families at Christmas time.

The Oxford Lions Goodfellows will hawk copies of the paper from 3 to 9 p.m. tomorrow on main village corners. Saturday from 9 a.m. until mid-afternoon, the volunteers will sell copies of other newspapers to aid in their clothes drive for needy children.

Club Secretary Don Awey said that the Goodfellows hope to collect \$2,000 this year. Last year the drive sent clothes to over 100 youngsters.

The Highland Township Fire Department's 12th annual Goodfellow paper sale will be Saturday from 10 a.m. until the 800 copies of The Pontiac Press are sold. Some 22 volunteers will sell the paper on main corners in the township.

Money from the drive will be used to fill about 28 food baskets for deserving families. Some donated clothes will be given to needy families also.

Chairman George V. Volkert said men will be stationed in Highland, Clyde and West Highland, and at the corner of M39 and Duck Lake Road.

Big Beaver Choir to Present Cantata

TROY — The adult choir of Big Beaver Methodist Church will present a Christmas cantata, "Night of Miracles," by John W. Peterson on Christmas Eve.

Mrs. Malcolm Garvock is choir director and Lee Hohner, organist.

The choral presentation will be the principal part of the 11 p.m. Christmas Eve service, according to Rev. Albert E. Harborg, pastor. The church is at 3133 Rochester Road.

Cool Cash Is Taken From a Bun Warmer

DAYTON, Ohio — Police are saying that a cool \$275 was taken from a bun warmer.

Officers said employees of a restaurant told of placing a day's receipts — \$275 — in the bun warmer at closing time and not finding it there the next morning.

Mother, Children Hurt in Crash on Northwestern

FARMINGTON TOWNSHIP — A mother and her two children were injured yesterday afternoon when she pulled her car in front of a truck on Northwestern Highway.

In satisfactory condition at William Beaumont Hospital, Royal Oak, with lacerations and face burns to Mrs. Eldon Collier, 37, of 2268 Herseyville, Road, Franklin, and her son Gary, 9, who sustained scalp lacerations. The other youngster, Lydia, 6, was treated for scalp lacerations and released.

Mrs. Collier was thrown out of her car and under it when she drove her car in front of a truck driven by Thomas Block, 15, of Detroit, according to Farmington Township police. Her face burns were inflicted by the exhaust pipe.

Mrs. Collier said today the main question asked by the citizens is why there has been no building of homes since the urban renewal plan was started seven years ago.

She said local residents also wanted to know why it was taking "so much finance to finance nothing."

MULTIPLE DWELLING

The chairman said that a year and a half ago, Township Supervisor Elwood Dickens promised citizens multiple dwellings on the barren land where the wartime housing units were razed under the renewal program a year ago when the accident occurred shortly before 4 p.m.

Families who moved away were assured then that new homes would be built in the township and those who so desired could return.

Mrs. Baker said not a single home has been built and no family has been relocated.

Cash and Mrs. Baker were among the picketers early today and they were joined by several members of the township board.

Three of the township trustees were at last night's meeting. They were Mrs. Audrey Dunn, Samuel Woodard and W. C. Chambliss.

It is also reported that several homes of private citizens in the township are being picketed.

The first phase of the urban renewal program was the breaking of ground for an \$880,000 sewer construction project Sept. 26, 1960. Sen. Philip A. Hart was the main speaker at the ceremonies attended by some 200 local citizens, township and state officials.

Reschke Appointed Rochester Assessor

ROCHESTER—New assessor for the village is Ernest Reschke, 315 Alice St., who has been appointed by Village Manager Paul York.

Reschke, 25, is also an engineering aide, dog warden and civil defense radiological officer for the village.

He is a Michigan State University graduate in landscape architecture and attended an assessing course at the University of Michigan Dec. 4-6.

Reschke replaces York who has been acting as assessor since Mrs. Grace Crisman's resignation from the post in June.

Avon Twp. Defeats Bid to Obtain New Engineers

AVON TOWNSHIP — The Township Board of Trustees defeated a bid last night which would have replaced township engineers Johnson & Anderson, Waterford Township, with local engineer James H. Buckerfield.

The board decided last work at the regular meeting to transfer its sewer inspection jobs from the engineer to the County Department of Public Works.

The board will meet with Johnson & Anderson's inspection and engineering personnel to work out complaints.

The firm has done the township engineering work for about five years.

Veteran Official Dies

MUSKEGON — Veteran Muskegon County and Muskegon Heights civic official Basil (Mick) O'Grady died early today at his home.

He was 61 and a former Muskegon Heights mayor for 10 years.

Supervisor Cyril E. Miller pointed

Yule Party is Planned by Chapter for Patients

The first annual Oakland County Chapter March of Dimes Christmas party for patients currently being assisted by the chapter will be Sunday from 3 to 5 p.m. at the Ferndale Community Center.

Santa Claus will be there along with Hal Newhouse, county March of Dimes campaign director for 1962. Toys and gifts will be distributed, and entertainment will be furnished by the Jackie Rae Voorheis Dance School and the Ferndale High School choir.

A comparison of machine harvesting with hand sapping of asparagus shows that harvesting by machine results in 40 to 50 per cent lower yields and a reduction in quality of the crop, according to trials by Michigan State University.

ONLY PURE VANILLA GIVES THE TRUEST, RICHEST FLAVOR

Real Flavor Missing From Cheap, Artificial Substitutes

Good cooks know the delicious difference Burnett's Pure Vanilla gives to cakes, frostings — almost every dessert. This is because Burnett's is made from the finest, pure vanilla beans with no artificial or imitation ingredients added. Nothing can take the place of Burnett's for true vanilla flavoring! Pure almond, lemon, orange, brandy and rum flavorings also available.

Burnett's America's First Pure Vanilla

TWO GOOD FLAVORS—Cranberry sauce and orange juice concentrate combine in a tempting frozen dessert especially suitable with holiday meals. Fresh orange slices make an attractive garnish.

Instant coffee does a good job of masking the flavor of non-fat milk solids when these are being rehydrated and used instead of regular milk as a beverage on a low-calorie diet.

Mix Red and Gold Fruit With Cream for Dessert

Two good things are assuredly better than one, as in the case of this frozen orange-cranberry dessert. Everybody likes each flavor separately; combined, they're irresistible.

Freshly Baked Rolls and Butter
Coffee, Tea or Milk
Bisque Tartan Ice Cream

Green and White

Next time you have 2 cups of cooked rice left over serve this rice salad the next day. Into the cold rice stir 1/4 cup chopped celery, 2 tablespoons chopped green pepper, 1/4 teaspoon minced onion,

1/4 teaspoon curry powder and 1/4 cup real mayonnaise. Season with salt and pepper and chill. Makes 4 servings.

When you use bamboo sticks as skewers on the outdoor grill be sure to wet them.

Breadless Sandwich

Weight watching? Satisfy that craving for your almost with a few no-bread sandwiches for lunch. Wash a big crisp apple, core and cut cross-wise into 1/4 inch slices. Spread half the slices

with protein-rich peanut butter and top with the other apple slices.

If you use an angelfood cake pan for a buttery-type or yeast cake, make sure you wash the pan thoroughly before using it for baking angelfood.

Sylvan Lake Asks Aid in Revamping Old Camp

Sylvan Lake residents are being asked to put their hands and heads together to help revamp the former Free Press camp.

This Sunday, camp committee chairman Wesley Mass is asking citizens for help in moving kitchen utensils and tools from buildings about to be destroyed to those which will be retained.

Residents willing to help are asked to meet at the camp at 10 a.m. Sunday, at 2456 Pontiac Drive.

After that, councilmen agreed at last night's meeting, residents might submit ideas on what to do with the former camp to which

the city got a quit claim deed this fall.

The two requests for help followed last night's report by Mass on camp committee recommendations.

The committee suggested removing or demolishing five of the buildings on the site, the playhouse, tool shed, kitchen, director's cottage and game house.

The council agreed to this with the exception of the director's cottage which City Manager LeRoy Trafton wants to move to City Hall grounds in state city records. The records are now being kept in the attic of a garage.

Buildings to be kept intact are the boys' dormitory, girls' dormitory, dining hall, assembly hall and two bathrooms.

Mass reported that fire marshals' recommendations had been complied with. His committee recommended also that ceiling-hung, bar-burning heaters be provided in the assembly to make it available for use by groups recognized by the city.

Magnetic tape recorder, weighing only 25 pounds, will record or play for 40 hours.

The change in the Building Zone Map in the above area to Commercial 2 is made pursuant to the recommendation of the City Plan Commission and is made final report upon this amendment to the Commission pursuant to the public hearing to be held before the amendment is made final.

This Ordinance shall take effect ten days after the date of its passage by the City Commission of the City of Pontiac.

MADE AND PASSED BY THE CITY COMMISSION OF THE CITY OF PONTIAC, Michigan, this 14th day of December, A.D. 1961.

APOLGIZES — Col. Mitchell Paige, 43, a retired Marine Corps officer, has apologized for saying he felt Chief Justice Earl Warren deserves to be hanged. Paige made the remark at the Project Alert Anticommunism School in Los Angeles Wednesday.

DISCUSSES CONGO — Undersecretary of State George W. Ball speaks at a special news conference on the Congo crisis Wednesday in Washington. The assistant secretary of state for African affairs, G. Mennen Williams, is at left. Ball said the United States disagrees with Britain's call for an immediate cease fire in the Congo.

Local Manager of State Tax Office to Retire

Pontiac's State Revenue Department manager, Maynard Van Eck, announced today that he plans to retire at the end of the month, after 23 years with the department.

Van Eck, 66, has been manager of the Pontiac office since coming here from Detroit in 1942. Previously he was special auditor and supervisor of junior auditors for the revenue department in Detroit.

No successor here has been announced yet by the Lansing office. Van Eck said he intends to remain an Oakland County resident while in retirement. He and Mrs. Van Eck live at 930 Lockwood Road, Royal Oak.

They plan to visit their son in Austin, Tex., going on to Florida afterward. They will return here probably in April, he said.

More than 1,600 foreign films, most of them American-made, were imported by India last year.

Find Way to Extract Abandoned Copper

HAYDEN, Ariz. (UPI)—A rubber conveyor belt system is helping miners here extract some 60,000 tons of copper yearly from abandoned ore by means of a B. F. Goodrich Industrial Products Co. reports.

The belt, being used by the Kennecott Copper Corp., extracts bits of ore no larger than the size of a pea. These are then lumped into chunks the size of a basketball and recharged to sea size in which form recovery of usable copper is efficient, company officials explained.

Nobody Is Real Native

HAMILTON, Bermuda (UPI)—There are no "natives" of Bermuda. The islands were uninhabited when discovered and colonized by the British.

The Negro population mainly is descended from slaves and imported West Indian laborers. Among the slaves were African Negroes and North American Indians.

Don't Let Them Stand You Up

Sit Down for Rights, Says Abby

By ANNE VAN BUREN
DEAR ABBY: As the holiday season approaches and Christmas programs will be given at schools, I would like your opinion on "sitting seats" for people who are not present.

In the past, I have come to school auditoriums and have sat down only to have someone chase me out of the seat saying, "Sorry, but this seat is saved."

I have seen people save a whole row. I've stood for an entire two-hour performance while some of the "saved" seats remained unoccupied. I am referring to free programs. Thank you.

TIED UP STANDING
DEAR TIED: Haven't you

ever heard of "squatter's rights"? Just squat and tell the "seat saver" that he is entitled only to the seat on which he himself has squatted. You might get a dirty look, but it's better than standing for two hours.

DEAR ABBY: I've been trying to get a date with a swell kid for two months. He finally asked me for a date, but things didn't turn out very well. He took me parking and, to let him know I didn't appreciate it very much, I acted very cold toward him and we fought and argued the whole time.

I don't call this much of a date. I suppose I sound silly, but I would like to go out with him again. I mean on a real date. I think he would be a swell boy friend. How can I get another date with him?

PARKED
DEAR PARKED: This "swell kid" is obviously inter-

ested in a girl for parking purposes only. You apparently "angled" for the first date with him. Don't angle for another unless you want history to repeat itself.

DEAR ABBY: My mother has a system. Every time I leave something where it shouldn't be, she puts it in a box. Before I can get anything back I have to keep my room in apple pie order for a week. I left a library book under my bed and she put it in the box. It is overdue. How can I get it back?

IN TROUBLE
DEAR IN: By keeping your room in apple pie order for a week!

CONFIDENTIAL TO LINDA AND CAROL: Your mothers DO trust you—they just don't trust the world.

Everybody's got a problem. What's yours? For a personal reply, send a self-addressed, stamped envelope to Abby in care of The Pontiac Press.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, The Pontiac Press.

Hosts Branch for Evening

The Pontiac Area branch of the Transatlantic Brides and Parents Association met Tuesday evening in the home of Mrs. Morris A. Strong of Perry Street. Refreshments were served following a gift exchange and evening of games.

Mrs. Milton Ott and Mrs. Gordon C. Gray are reservations chairman for the forthcoming convention of the TBAPA in Windsor, Ont., next July.

The Gordon Grays of Percy King Drive, Waterford, will open their home Saturday evening to members and husbands for a Christmas party.

Chiropractors Contribute Gifts

Members of the Oakland County Chiropractic Society brought gifts for the men in Baldwin Cottage, Pontiac State Hospital, to the annual Christmas dinner party Tuesday evening at the Oxford home of Dr. and Mrs. Mark Van Wagoner. Attending from Pontiac were Dr. and Mrs. Walter Godsell, Dr. and Mrs. Harry Godsell, Dr. and Mrs. Ned Colburn, Dr. and Mrs. Gilbert Paone and Dr. and Mrs. Clarence Will. Dr. Harry Godsell led group singing.

Five Tables Play in Bridge Tourney

Five tables of bridge participated in the weekly tournament of the Wednesday Duplicate Club in the Hotel Waldron. First-place winners went to Dr. Lorraine Willis and Mrs. Gordon Longstreet. John Kraus and Fred Kempe won second.

Other winners were Mrs. Earl James and Mrs. Maxwell Wright; Mr. and Mrs. Luther Green.

Exchange Vows at Rites Here

Marilyn Ann Murrell exchanged vows with Robert E. Smith Friday evening in the Joslyn Avenue Presbyterian Church. Rev. Edmund Watkins performed the triple-ring candlelight ceremony before an altar bedecked with white chrysanthemums.

Parents of the couple are the Russell Murrells of Birchmont Drive, Waterford Township, and the Howard Smiths of Westbrook Avenue.

A colonial arrangement of white carnations and pink roses complemented the bride's ballerina-length dress of royal blue silk tulle with matching veiled headpiece. Joan Messer of Waterford Township, who was maid of honor, wore a beige wool sheath dress and carried a semicascade of Tallman roses and ivy.

The bridegroom had Gary Montgomery for his best man and guests were seated by William Fleming of Waterford Township and Jerry Lawrence. Mr. Smith is a graduate of the General Motors Institute. The couple will reside in Pontiac following a three-day honeymoon in Hawaii.

Scientists Not So Sure About Sleep Learning

Can you really learn during sleep? Advocates of the sleep learning method say a period of light sleep when one is relaxed and receptive is the best time for suggestions to be remembered.

However, some researchers are not so sure. The study discussed in the issue of a popular women's magazine quotes one group of psychologists as saying "It appears that learning during real sleep is not feasible." They say that training during the drowsy state was open to speculation. They admitted experiments indicated some learning in sleep, but were fast to add: "One must weigh the advantages of possible learning against the possible harmful effects from loss of sleep."

A WARNING
Scientists, the magazine points out, are especially concerned about using suggestions during sleep to change personality traits or stop snoring and bedwetting. They warn against such use of suggestions to alter personalities or habits without the supervision of a qualified psychologist. One Yale scientist told the magazine in positive terms: "There is little evidence to support the theory of sleep learning. I would not buy a machine in the hope of learning anything while asleep," he states.

Church Unit Plays Host for Men's Fellowship

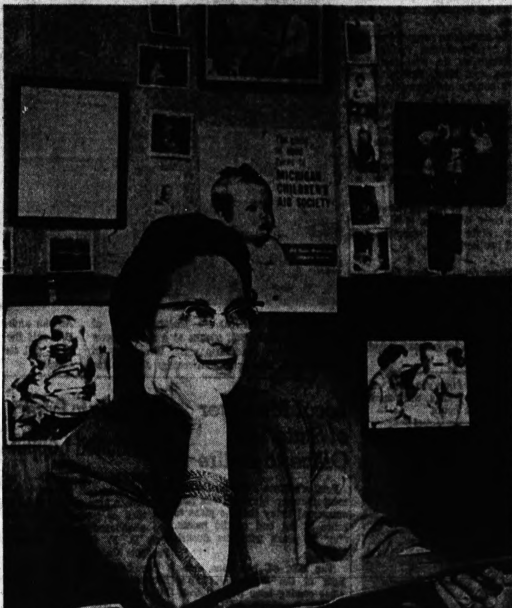

The Christian Women's Fellowship of the First Christian Church were hostesses to the Men's Fellowship Tuesday evening in the church parlors.

The Naomi Group served refreshments, with Mrs. Jack H. C. Clark and Mrs. Charles Neal presiding at the holiday tea table.

Separate business sessions preceded the Christmas program planned by Mrs. Harry Kuntz. Mrs. Richard Cohn as the Madonna with her new infant daughter Janette portrayed the manger scene in tableau form.

Mrs. Kuntz narrated the play and Mrs. Brady Adams read the Scriptural passages. Also taking part were Mrs. Lowell Mount, Mrs. Harold Brown, Mrs. Raymond Heyse, Mrs. Edward L. Williams, Mrs. Paul Beam, Mrs. David Collins and Lorna MacKellar.

Children's Aid Society Board Will Honor Oriel Endelman

Oriel Endelman, executive director of the Michigan Children's Aid Society, Oakland County Branch, reminisces on her 27 years' service as she completes retirement plans. A reception in her honor Friday from 5 to 8 p.m. in the Hotel Waldron.

Hotel Waldron is planned by the branch board of directors. In the background are pictures of a few children and families who have been under her care.

Pioneer Sisters Exchange Gifts

The Pioneer Sisters exchanged gifts at a cooperative luncheon Wednesday in the home of Mrs. Maurice Baldwin on North Perry Street.

Mrs. Louis Kath conducted the business meeting and the hostess gave devotions. A gift was presented to Mrs. Nettie Hall, honoring her 80th birthday. Next meeting will be at the home of Mrs. George Schram on Rosedale Avenue.

Group to Meet

The Waterford Book Review group will meet 1 p.m. Monday at the home of Mrs. Eugene T. Cleland on Rural Road. Mrs. William Miller will review "The Last Temptation of Christ" by Kazantzakis.

Tell Friend You Have to Eat Yet

By The Emily Post Institute
Q: I live alone in a two-room apartment. When I get home from the office I like to shower and relax before I start preparing dinner. Sometimes I do not have dinner before 8:30 p.m. Occasionally a friend will drop in before I have had my dinner and if I do not have enough food to invite her to have dinner with me, I put off having mine and sit and talk to her, growing more hungry by the minute.

The other night a friend who just "dropped in for a short visit" stayed until almost 10 o'clock and I was weak from lack of food. Is there a tactful way to handle this situation?

A: Tell her frankly that you haven't had your dinner and you are famished and add that you haven't enough food to be able to invite her to have dinner with you, but that you will be delighted if she will stay and have a cup of coffee with you while you have your dinner.

Q: I have been invited to a friend's daughter's wedding. I have a very pretty lace dress which I wore at my daughter's wedding a little over a year ago and which I haven't had occasion to wear since. I thought I would wear it to this wedding, but was told that it would not be proper as the bride's mother is wearing lace. May I please have your opinion?

A: If your dress does not resemble that of the bride's mother and is not more elaborate than hers, the fact that it is also made of lace is no reason why you may not wear it.

Christmas Ball to Aid Drive on Muscle Disease

Alpha Alpha Chapter, Epsilon Sigma Alpha Sorority, will sponsor its annual Christmas ball Saturday at the 300 Bowl. Dancing to the music of an area orchestra will be featured from 9:30 p.m. to 1:30 a.m. Proceeds will be tagged for the muscular dystrophy drive.

Mrs. James Stone, chairman, has appointed Mrs. Edgar Plympton to take charge of music, Mrs. Donald Stone, patroness, and Mrs. Carl Rose, decorations. Mrs. Anthony Daly is handling publicity and Mrs. Marshall Rose is ticket chairman.

Dance patrons include Mayor and Mrs. Philip A. Rowston, the Ronald Wildes, the William Belsays, Mr. and Mrs. James Morris, Mr. and Mrs. Daniel T. Murphy Jr. and Mr. and Mrs. B. T. Tompkins. Tickets may be purchased at the door or from Alpha Alpha or Beta Sigma chapter members.

Soroptimist Club Meets for Dinner

Members of the Soroptimist Club of Pontiac exchanged gifts at a dinner meeting Monday in the Hotel Waldron.

Mrs. Richard Paschke, immediate past president, will be taken to Pontiac State Hospital in January by club members Talmie Surila and Mrs. Paul Sutton.

Hair Set Tip

For setting very fine hair, try egg whites. Separate them into measuring glass, with two parts water to one part egg. Whip well and apply to each section of your hair as you set it.

Appointment of Mrs. Walter F. Noffsinger as 1962 Woman's Division chairman was announced today by Robert E. Nelson, president of the board of Pontiac Area United Fund.

Prior to her appointment as Women's Division chairman, Mrs. Noffsinger, of Highland Road, Drayton Plains, served as Women's Campaign committee chairman of the 1961 United Fund drive. The women exceeded their goal of \$27,000, raising 104 per cent. Active in United Fund campaign work for the past several years, Mrs. Noffsinger has also served as Waterford co-chairman and as district chairman. Action committees within the

By MADEIRA DOEREN
The board of directors of the Oakland County branch of the Michigan Children's Aid Society will honor its executive director Oriel Endelman on his retirement at a reception Friday from 5 until 8 p.m. in the Hotel Waldron.

Charles Messer, chairman of the National Association of Social Workers, will present an inscribed plaque to Mrs. Endelman in recognition of her many years in the field of social work.

When Miss Endelman first came to the Oakland County branch, some 27 years ago, there were no other staff workers as there were but five or six children under care. In 1934, she shared an office in the basement of Pontiac General Hospital with the Pontiac policeman. In 1961, the staff of seven social workers, two part-time social workers and three clerks are comfortably housed in the Community Services Building on Franklin Boulevard.

It would be difficult to total the many hundreds of children that have been helped through and by Mrs. Endelman. Miss Endelman has guided the local branch of the society from the meager-budget days of 1934 to 1961 and an allotment of \$90,000.

DEDICATED WOMAN

Her dedication to the children of Oakland County has been called unique and unmatched. Each child under her care has felt her tenderness, warmth and personal concern for his or her happiness and well-being. Parents, too, have been touched by her wisdom and understanding counsel.

The struggle for children's unfulfilled needs on a community level has often resulted in frustration, but Miss Endelman has never stopped presenting their pleas.

She has maintained "happy family" atmosphere in her office where her employees are her friends. Perhaps her most rewarding moments have been when a child or child or ingling a little baby.

Born in Algonore, Miss Endelman drives to work each day from her home in Marine City. "While she does not think," she is a graduate of the University of Michigan with a degree in social work. Her previous employers are the Associated Charities, Detroit; Detroit Children's Aid; and the Michigan Children's Aid Society's central office in Detroit. In Oakland County branch, Lansing, and the Oakland County branch.

STRONG SENSITIVITY

Behind a quiet, personable demeanor, Miss Endelman's vigorous convictions and abundant courage. She has a strong sensitivity to people and during the memory of her first foster-home visit at a child's birth time, bringing a sparkle to her clear blue eyes. Pressures of her work with the society in placing foster children for adoption through the state with subsequent legal procedures and her work with unmarried mothers, has not interfered with her church activities and service on professional committees of all kinds. She is a member of Zonta International of Pontiac, and the Bay Nursery Board.

Mosaic tile work on tables and dishes and sewing are Miss Endelman's major hobbies when she is not reading or playing the organ. Her favorite dish is egg for young.

Returning from a Mexican vacation a few years ago, she was dismayed over the impoverished conditions of many children there and wanted them to have a Michigan Children's Aid Society.

She leaves a heritage of service to children of the county as she faces retirement with mixed feelings of sadness and happiness. She wants to rest a bit, travel, enjoy her hobbies and be useful to others.

Mrs. W. F. Noffsinger Named UF Unit Leader

Appointment of Mrs. Walter F. Noffsinger as 1962 Woman's Division chairman was announced today by Robert E. Nelson, president of the board of Pontiac Area United Fund.

Prior to her appointment as Women's Division chairman, Mrs. Noffsinger, of Highland Road, Drayton Plains, served as Women's Campaign committee chairman of the 1961 United Fund drive. The women exceeded their goal of \$27,000, raising 104 per cent. Active in United Fund campaign work for the past several years, Mrs. Noffsinger has also served as Waterford co-chairman and as district chairman. Action committees within the

Woman's Division are Campaign Committee, Central Voluntary Bureau, Friendly Visitor Committee, Tribute Fund Committee and Speakers Bureau.

Besides her United Fund activities, Mrs. Noffsinger is active in the Waterford Republican, a board member of Camp Girls and Chatham Dance Club.

Mrs. Noffsinger succeeds Mrs. Roderick Taylor 1961 Women's Division Chairman.

A child first becomes aware of movement and color at about 2 months of age. At that time a gay nursery crib, mobile with seven birds which gently sway with the slightest movement, is sure to attract baby's attention. An ideal Christmas gift, the toy also provides a feeling of companionship, important to infants' need for security. The mobile, of plastic and soft sponge rubber, is available in most stores' infants departments.

Christmas Plants, a Thoughtful Gift

Christmas plants are more numerous than ever this year. Shop windows are full to the brim with a riot of blossom color—as sparkling as ornaments on a Christmas tree.

Flowering gift plants in porous clay pots that preserve their health and beauty are always welcome at any time of the year, but at Christmas they seem to have added charm, perhaps because they provide such an ideal contrast to snow-covered ground outside the windowpane.

The brilliant Jerusalem cherry is one of the less expensive pot plants. Its round, red fruit is especially appropriate for the holiday season. It needs bright light and likes a cool temperature no higher than 55 degrees at night for best results, although it does admirably even with a 65 degree night temperature. If the plant is allowed to wilt or if cooking gas fumes fill the air, the fruit will drop.

The gay cyclamen is more popular than ever this year. It is a handsome plant even when not in bloom, but the blossoms are breathtaking—like Venetian glass exquisitely formed in the shape of butterflies that are white, red, pink, lavender, rose, maroon. This needs a cool 55 degree night temperature too. Watering is safer from the base of the clay pot to the crown is not over-moistened, thus inviting rot.

Of course, the poinsettia is the traditional Christmas plant. Once the red-flowered forms hold the spotlight—and they are still the most popular, but whites, pinks and partially double kinds are also available. And here is a plant that likes a warm room, just as you do. Keep it out of cool drafts, and away from hot radiators or hot-air vents. Use warm water of room temperature when applying moisture. If these precautions are not heeded the leaves will turn yellow and drop.

Keep the air in the room a bit moist by setting the plant on a saucer of water full of pebbles so the base of the clay pot is kept above water level. The idea behind this is to keep water evaporating around the plant but not keep the pot constantly immersed in water so that the roots become waterlogged and suffocated from lack of air.

LITTLE TREES

Azaleas are much in evidence at Christmas. There are both tender kinds that must be brought indoors each winter, and hardy kinds that can be plunged—clay pot and all—out in the garden permanently next spring.

The tender kinds are more like miniature trees in shape. The hardy ones branch out closer to the ground like shrubs. Your nursery, garden center, or florist

can usually tell you whether the one you select is hardy or not. Primroses have blossoms that look like pastel Christmas candles. Select plants with lots of buds so you will have a profusion of bloom over many weeks. New buds will continue to develop for a long time if the plants are watered and fed regularly and if the temperature in the room is below 65 degrees at night. You'll find florists and garden centers have different types.

They all come in white, lavender, pink, rose and red.

The Christmas pepper is handled much the same as the Jerusalem cherry, requiring good light and a cool temperature. It fits in well with the holiday decorations bearing red and partially ripened fruit for contrast. If the plant is not adequately watered the leaves will dry up and fruit will disintegrate.

VIOLETS TOPS

Among the smaller pot plants, kalanchoe and African violets are tops for Christmas. A white-flowering African violet in a red clay pot, dressed up with a bright bow seems ideally suited for Christmas. And the kalanchoe's brilliant orange-red blossoms sparkle like tree lights. Both plants fit easily on a window sill and are a long-term investment for any gardener.

Select any of these favorites for Christmas giving, choosing kinds in red clay pots so the plant roots can breathe freely. Of course, a decorative wrapping of foil paper, or other Christmas paper will do no harm, temporarily. After the holidays, however, the plant will be easier to water if its clay pot is allowed to function naturally without any covering.

Keep Color Cool

NEW YORK (UPI) — A colorful suggestion for your fall-out shelter:

Cool colors, the light greens and light blues, will make the shelter seem bigger than it actually is. The ceiling should be painted white to make it look higher. Avoid the reds, oranges and deep yellows. They are too stimulating and will stretch already taut nerves to the breaking point, says the National Paint, Varnish and Lacquer Association.

Add Touch of Mink

It doesn't take lots of mink to be in fashion this winter. You can have a circle of mink to be worn daytime or evening; a box, an ascot, a scarf or a shawl collar.

Any one of these can cost you less than \$100.

Mrs. Floyd Over, teacher at Pontiac Lake School, Waterford Township, spent nearly a year painting this Nativity scene backdrop for the school's Christmas musicale slated for 7:30 this evening. Admiring their

instructor's impressive work are (from left) Michael VanGordon, Jack Short and Merrie Moses. The program is open to the public.

'Haven't Changed' Isn't a Compliment After All

(NEA)—When a friend you haven't seen in years says that you haven't changed at all, don't take it as a compliment. Go home, get out your old photos, look at yourself in

the mirror, and if you haven't changed, start now!

No woman looks good if at 40 she still wears her hair and clothes the way she did at 20. And she's missing a chance at a whole new personality and mature charm.

LOOK AGAIN

If your husband tells you he likes the way you've worn your

hair for years, he probably hasn't really looked at it in just that long. Go to a hair stylist and try a new hairdo. The shock tactic will make even the man you married do a double-take, and chances are, he'll like the change.

Stop using the same shades of make-up you've used all

your life. You'll find a physical and mental pickup in trying our new shades to see which best become the new you.

And, when you meet an old friend again, you'll be well aware of the admiration in her tone when she tells you, not that you haven't changed a bit, but that you look wonderful!

Hold That Slim Line

Afficionados of stretch pants will be glad to know that they carry on into late fall in shades of turquoise, black, magenta or camel.

Only the very slender should attempt to wear them!

Boys, Girls Differ on Question

Teen-Agers Favor Resumption of N-Tests

By EUGENE GILBERT
President, Gilbert Youth
Research Co.

America's teen-agers, plainly well informed on issues in the current debate over nuclear weapons testing, generally favor resumption of tests by the United States.

A nationwide cross-section survey showed 68 per cent of the nation's teen-agers felt test resumption by the U.S. was a wise move, but there was some difference in the viewpoints of boys and girls.

Of the 422 boys questioned, 77 per cent approved of U.S. test resumption, but only 50 per cent of the 422 girls questioned agreed.

"We hold a nuclear lead and must maintain it," reasoned Roger Way, 17, of Lincoln, Neb. "They leave us no choice," said 16-year-old John Nelson of Hibbing, Minn. Some, 114 of 17-year-old Bobby Woodery of Russell, Ky., were in favor of underground testing but not of tests in the atmosphere.

Equally as interesting as their views was the fact that only 13 per cent of the boys and 5.4 per cent of the girls didn't have opinions.

The teen-agers were widely divided as to whether they thought Russia's tests would have a drastic result, but only 20 per cent of the young people said today's war talk had caused them to change their plans for the future.

"If a person changes his plans," said Geraldine Cooper, 17, of Hibbing, "it means he's either a pessimist or a coward."

Another 17-year-old, Jane Wallis Cox of Russell, said talk of nuclear war hadn't made her change any future plans, "but it has started me to thinking."

In answer to whether they thought there would be any drastic after effects of Russian testing, 31 per cent of the girls felt there would be none, compared

with a majority (48 per cent) of the boys. Again, only 2 per cent of both boys and girls had no opinions.

"I think the world will still turn even after many such tests," said 15-year-old Bill Grimball of Charleston, S.C.

How about the fallout problem? "Scientists have proven that genetic after effects will come from the fallout," said Penny Olson, 17, of Lincoln, Neb.

"Radiation will affect our newborn babies," said Darlene Jacobs, 17, of New Orleans.

"It will probably affect crops," said Andy Mirowski, 16, of Miami, Fla.

Sixty-four per cent of the teen-agers felt Russia should be forced, somehow, to stop testing. But few agreed with the one-word solution of 17-year-old Frank Gast of Charleston: "war," or with the course advocated by 17-year-old Joann Sundberg of Hibbing: "Give them an ultimatum—and if it is

ignored, give them the consequences through increased U.S. propaganda broadcasts to the Russian people, or through pressure applied by the disarmed through the U.N., neutral nations.

Wonder blouses—sew easy and so smart! They take so little fabric, you can whip up all three for practically pennies.

Printed Pattern 4915: Misses' sizes 12, 14, 16, 18, 20. Size 16 top style 1 1/2 yards 35-inch; middle 1 1/2 yards 35-inch; lower 2 yards 35-inch.

Send 50 cents in coins for this pattern—add 10 cents for each pattern for 1st-class mailing. Send to Anne Adams, care of The Pontiac Press, 157 Pattern Dept., 243 W. 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Fall's 100 best fashions—separates, dresses, suits, ensembles, all sizes, all in our new Pattern Catalog in color. Sew for yourself, family: 35 cents.

Maternity
Attire Is
Fashionable
Glamorous Prints,
Colorful Fabrics
Have Flared Line

GAILE DUGAS

NEW YORK (NEA)—This is the year that maternity fashions have taken a turn for the better. They're actually fashionable.

Pyramid coats, bloused, bubbled and flared silhouettes, all naturals for maternity clothes, are definitely the thing. So are big face-framing collars.

PRETTY PRINT

In addition to these new silhouettes, there are high fashion colors, exotic prints, new styles for street, at-home and after-five wear.

Tops swing free, of course, but this year they're done in felt, corduroy or broadcloth and thus can interchange with a variety of slim skirts and tapered pants.

The current look of sportswear has been translated into maternity fashions, too. There are double-knit jerseys in separates and stretch pants as well. (The pants notion should not be carried too far if you want to look attractive, however. Wear them only as long as you reasonably keep your figure.)

Interpretations of the flared, princess silhouette are ideal for an expanding figure. And so are coat dresses. They are perfect for street wear now and indoors later.

The after-five maternity fashions are really smashing. Velvety corduroys in gem tones and exotic prints will keep company with brocades, crepes and flannels for at-home wear.

Sleeveless tunics are meant to be worn with evening skirts or slim pants. Add a great, big, dazzling hunk of pin for a single, eye-focusing touch near your face.

Bows Attract

Hair bows are becoming increasingly popular for fall. You'll find a wide selection at all department stores. If you're just a bit handy with a needle, you can make your own.

Get to Core

(NEA)—When buying a foam rubber mattress, be certain that it contains a complete foam rubber core and not just a surface pad or layer of foam rubber over other material.

"Under the spreading 'Christmas' tree" at Elks Temple was a gay profusion of gifts at Wednesday's 13th annual Christmas party sponsored for some 200 handicapped children by the Oakland County Society for Crippled

Children. The excited youngsters present included (from left) Donna Weathers, 3; Harry Decker, 5; Mr. King, 4; and Christopher Baty, 4. A "balloon man" Mel Snyder also entertained the tots.

A gleaming red truck brought joy to the small face of Danny (Sailor Boy) Pryomski, 4, at the Crippled Children's Society party. Santa (Art Blakeslee of Birmingham) visited the awed youngsters (from left) Sharon Gibson, 4; Sandra Binning, 6; and Joey Hamilton, 4. Gifts were provided by Rotary Ann groups, women's organizations and church groups.

Cardboard From Shirt Is Useful

JOLIET, Ill. (UPI)—Cardboards from freshly laundered shirts can be useful in countless ways. Here are some uses suggested by the American Institute of Laundering.

—Cut or peel fruits or vegetables for salads on them. The boards absorb juices and make a sturdy wrapping to fold the peelings in for disposal.

—The boards are still enough to hold sweepings when no dust pan is available. When building or remodeling a house, they're particularly handy for picking up wood shavings, plaster and mud tracked inside.

—When painting, use them to shield windows from excess paint, or as "splatter boards" under paint cans.

—Set under potted plants to protect the painted or varnished window sill.

—Use for picture backing when mounting photographs or prints.

—Keep a stack on hand for the children who can use the boards for coloring, making puzzles and stencils or for building card houses.

Young adults are the chief victims of multiple sclerosis, a disease that strikes as many as one in 220 Americans.

WALLPAPER

Man Wants Watch He Can Use, Not 'Jewelry'

HELEN HENNESSY
Newspaper Enterprise Assn.

The wrist watch is among the most popular gifts a woman can give a man. It is decorative and invaluable in helping him keep his working and leisure-time schedules.

However, many well-mean-

ing women are not as wise in the ways of watch buying as they might be. Often, a man is doomed to hide his disappointment about the color and style of a gift watch behind a forced grin.

PLEASE HIM

When you buy a man's watch, remember that you are buying the watch to please him, not yourself. You may prefer a dainty, oval-shaped watch, with a slim band. He will probably want a large watch, with a heavy band.

Does he prefer silver or gold? Does he want a round watch or a square one? Does he want a large, bold-faced timepiece or something smaller and less conspicuous?

One way of determining these preferences, without giving away your intention, is to notice his accessories. His choice of metals, size and shape preferences in the pins, rings and cufflinks are pretty good indications of his taste in jewelry. So is the old watch he is wearing.

Keep in mind that he wants a watch that he can use, generally, a watch that can stand rugged wear. One that is waterproof and shockproof is preferable.

A man doesn't want a delicate piece of "jewelry" which he is afraid to wear when he goes fishing, for example. Make certain that the timepiece is guaranteed for at least a year, too.

Choose a watch with a legible dial. The main function of a watch is to tell time. Too often, ultramodernistic dials, or tiny numbers cause difficulty in reading time handily. Don't drive him to bifocals prematurely.

These days, there are reasonably priced watchbands to suit every taste. Bands of nylon, as well as metal and leather, enhance the appearance of the watch. Be sure, though, that the band is appropriate to the watch. Don't select a heavy, thick band for a smallish watch, or a thin band for a large case. Although most jeweled

watches are excellent, you can get outstanding performance from a pin-lever watch, too, if it is made by a reliable manufacturer.

Hair Dries in Turban

Dry long hair by rubbing it lightly between folds of a clean fluffy towel.

But first blot up excess moisture by wrapping the hair in a "turban twist"—a bath towel wound round the hair and round itself. Then swing the twisted towel atop your head and tuck in the ends at back of neck.

Don't Scour

(NEA)—It's a mistake to scour tinware in an effort to keep it bright. The tarnish protects the surface and makes it wear longer. To prevent rust, just make certain you dry tinware utensils immediately after washing.

A \$5 toll is charged for use of the Mt. Washington Carriage Road in Pinkham Notch, N. H. It has been the same price since the first toll was charged in 1911.

Who Can Think of Anything More Thoughtful than a HOSTESS GIFT

Deck the halls . . . of your own home or an especially favorite hostess with special table, mantle and home arrangements.

FRUIT TREE SPLENDOR

Miniature fruits form an Old World Christmas tree clustered together with gay holly, pinecones and bright shiny Christmas balls. All laced together with velvet ribbon and set in a gold composite.

\$5.95

CANDLE GREENERY

Fresh cut carnations and sprays of live evergreen, a jumbo yuletide candle and Jolly St. Nick all mounted in a holiday bowl. Gold tipped juniper, box wood, pine cones tipped in white snow and golden tree ornaments complete the arrangement for the home.

\$7.50

GIFT FOR THE HOME

Decked out in a holiday mood is this giant cut leaf philodendron set in a fiberglass bowl on walnut legs. Cheerful candy canes and red satin balls are keynotes to the Christmas season. Truly an unusual hostess gift for now . . . and now on.

Dip Slicker in Hot Suds

No college wardrobe is complete without a "slicker"—a rugged raincoat made of

shiny, oileclothlike plastic which sheds water like the proverbial duck.

An occasional dousing in a dormitory bathtub will keep slickers slick and clean.

Pamper Togs

(UPI) — Heavy garments hang better if you put them on two or three wire hangers held together with cellophane or adhesive tape.

For Fun and Figure

Bowling's a Real Ball

By SHARON KAY RITCHIE
Newspaper Enterprise Assn.
The last step in the four-step approach is vital.

The two preceding steps are, in a sense, automatic. Here's what happens on the fourth step if everything is working:

The left foot and right arm are synchronized in the pendulum, downward and forward, the left foot begins to slide. The ball should be neither behind nor ahead of the bowler.

At the end of the step comes the explosion point. This is the instant when the ball leaves the hand and the follow through begins.

Much happens quickly. And it is all so important that many instructors begin their teaching of a student, who is not a beginner, by observing what he does here.

Billy Wells, a first team bowling All-American, gave me some fourth-step hints. The left foot should never leave the lane.

The feet should be at right angles to the foul line. The shoulders should be parallel to the foul line, except when angling for a spare shot.

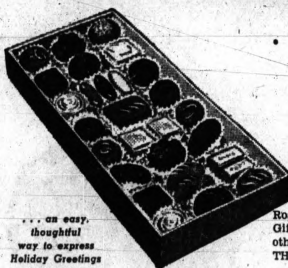

The bowler should be steady and well balanced. (Miss Ritchie, a former Miss America, is director of women's activities for American Machine and Foundry Co.)

At the end of the step comes the "explosion point," the instant when the ball leaves the hand and the follow through begins.

OES Chapter Honors 3 With Certificates

Sixty members of Pontiac Chapter 228, Order of the Eastern Star, were present Monday evening in the Masonic Temple where life certificates were presented to Mrs. Charles Wisom; Mrs. Mahlon Benson and Mrs. Irene Fulcher.

Christmas carols were led by Mrs. John Pohlman, with Mrs. George Killen at the piano. Mrs. Carl Westnes served cake and presented gifts to members having December birthdays.

Arene chapter will participate in a composite school of instruction given by Mrs. Ann Joyce of Fort Huron, grand conductress of Michigan, Monday at Roosevelt Temple. Cooperative dinner at 6:30 p.m. will precede the instruction scheduled for 7:30.

Mrs. Irl Williams will be the guest of the Clarkston Chapter on

Jan. 15 and Mrs. Edward Ziem will visit the Entre Nous Chapter, Jan. 7, in South Lyons.

* * * Tickets for the "Luncheon Is Served" program Jan. 17 at the Masonic Temple may be obtained from Mrs. Davy Gilpin.

Christmas decorations set a holiday theme for refreshments served by Mrs. Homer Smith and Mrs. Ernest Hillman. Assisting in the dining-room were Mrs. Samuel Smith, Mrs. Uno Skytia and Mrs. Sylvan Clark.

Switch Dinner Site

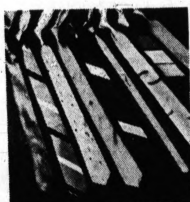

The Fellowship Bible Class of First Baptist Church will meet for 6:30 p.m. dinner Tuesday in the Bloomfield Room in Greenfield's Birmingham Restaurant, instead of at the church.

Exercises Aid Balance

Rx for Your Rusty Gait

By JOSEPHINE LOWMAN

The way a woman walks and moves sometimes gives her age away long before wrinkles do. In some instances this is due to stiffness in joints, but more often to careless habits.

A lazy, shuffling walk, or sitting down in a chair and getting up from it in a labored manner create the impression of age just as slumping posture does. Yet we fall into such habits unless we take care to avoid them.

Muscles which have not had the benefit of enough exercise add to halting movement. However, balance and coordination play an important part in graceful motion.

Even girls and very young women often have an unattractive walk and are awkward in movement because of lack of coordination. Today I would like to give you two exercises which will develop balance.

DEEP KNEE BEND

ONE: Stand tall with your toes pointing straight ahead and your feet a few inches apart, arms at your sides. Bend your knees into a deep knee bend as you touch the floor with your fingertips. Now straighten your legs and rise high on your toes as you stretch your arms overhead toward the ceiling. Continue.

TWO: Stand tall, arms at your sides. Swing your right leg forward and at the same time swing your left arm forward and your right arm backward. Now swing your right leg backward as you swing your right arm forward and your left arm back. Continue swinging your leg and your arms backward and forward like the pendulum of a clock.

After awhile, keep the weight on your right foot as you swing your left leg forward and backward. Start by swinging your left leg forward as you swing your right arm forward and your

Lack of coordination often results in an unattractive walk and awkward movement among girls and very young women. To develop balance try deep knee bends, stretching arms overhead toward the ceiling as you rise.

Fancy Fur, Gobs of Fox Are Not for Petite Gal

By GALE DUGAS

NEW YORK (NEA)—If you are medium height or petite (and this takes in a majority of American women), shop for your coat with great care.

Great gobs of fox or other long, fluffy furs are not for you. They're perfect for the long-stemmed beauties. But they're overpowering on smaller women.

USE DISCRETION

Shop for a winter coat in which the fur has been handled with discretion. And since this will be a big winter for fur-trimmed coats, you should have no trouble in finding what you want.

If the collar is flat, wide-way, or the fur is set-in, the coat will not appear top-heavy. The ring or circle treatment of fur is perfect for you. Even sable, which can be counted with the fluffy furs is not too much when it's handled in this fashion.

For the rest, look for nearly straight or slightly flared body lines. They'll aid in making you look taller. Rectangular pockets set horizontally also carry out this illusion.

A fabric that is not overly

bulky is the right one for you. There are many lightweight fleeces with just enough texture to provide surface interest. Look for these and don't be tempted by those gorgeous heavy fabrics that look as if they were made of a combination of coal lumps and twigs. They're not for you.

Take a Toy Ball Into the Bathtub

Want to know a good "relaxing" exercise? Just recline in a bathtub full of warm soap-suds, and roll a small ball along the sole of one foot—from the toes to the heel and back—supporting the ball with the instep of your other foot. Then reverse your feet and repeat the exercise. Follow up with some gentle scrubbing, and you'll have a beauty treatment, too!

Make-Up Tip

If your jewelry is predominant in blue or green color, try wearing a matching shade of eye shadow. The sparkle of the new powder eye shadow colors will be exciting when worn with matching jewelry.

left arm backward, and continue swinging back and forth.

This is also a fine hip and abdominal exercise.

For helpful hints on how to be graceful and poised, read my free booklet "Grace." Send a stamped, self-addressed envelope with your request for leaflet No. 57. Address Josephine Lowman in care of The Pontiac Press.

By a Fireside

Those new shaggy shearing lamb skin slippers are catching on. They're warm and they come in lovely colors.

Women Taking Rightful Place in Space Age

PALO ALTO, Calif. (UPI)—Women are moving into the space business.

More than 100 women, ranging up to senior scientists, work in Lockheed Missiles & Space Co. research laboratories here.

Dr. Pauline M. Nachbar, graduate of Brown University, is a mathematician dealing with such things as structural problems of the Polaris missile. Wanda G. Bradshaw, a chemist, measures the corrosion of metals. Belinda Rickels, a Stanford University grad, is a "programmer" on computer machines.

Dr. John Nash, director of research, said Lockheed open-

ly welcomes the ladies. "When the emphasis is on brainpower rather than horsepower, there can no longer be a group identified as the weaker sex."

Nash said there was no difference in salary grade distribution between male and fe-

male employees in technical and professional grades.

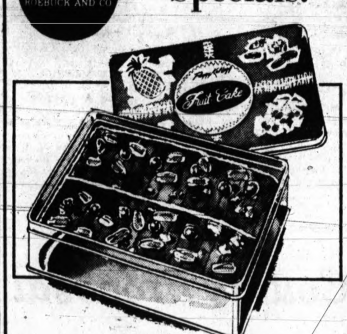

The ocelot ranges from southern Texas southward through Mexico and through Central America to Ecuador, the Amazon and Northeastern Argentina.

Saves Wax

(UPI)—Move heavy furniture over waxed floors by sliding it on an old rug, face down. It will slide easily and leave no marks or scuffs.

Beer Still Froths but Old Frankenmuth Saloon Gone

FRANKENMUTH — This village of 1,728 on the banks of the Cass River will enter the new year with a landmark missing. The landmark was a saloon.

It came down this year to the dismay of many oldtimers who had enjoyed John G. Geyer's beer and the home made bread, cheeses, sardines and sausages provided in bountiful measure at a free lunch counter.

John Geyer and his saloon are both gone, but the Geyer Beer, Brewing Co., which will mark its 100th anniversary in 1962, still is turning out about 15,000 barrels of beer a year under the supervision of a third generation of Geyers.

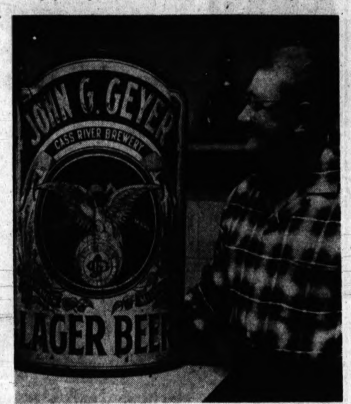

The Noble Experiment that began in 1918 and was known as Prohibition didn't shut down the Geyer enterprise. John L., a son of John G., began manufacturing and selling a malt extract.

FOR HOME BREW
John L. was careful, of course, not to tell customers or advertise that his malt extract could be used for making "home brew." So far as the law was concerned, malt extract was sold and used for baking purposes.

The story goes up and down the Saginaw Valley that many of the "baked goods" made with Geyer's malt extract could be

poisoned—and had a fine, creamy standing collar in a tall school cap.

Much of Geyer's brewery, which still employs 15 persons and has

MEMENTO OF BYGONE ERA—Carl L. Geyer, company secretary-treasurer and grandson of the late John G. Geyer, Frankenmuth pioneer, exhibits a sign which adorned the front of the brewery when it was known as the Cass River Brewery.

a Geyer as brewmaster, was built in 1862 by Martin Heubrich and John G. Geyer. When Michael Geyer and a brother, John G., bought out Heubrich and Knaut in 1874, when Michael quit the partnership and went back to farming five years later, John G. continued to operate the brewery, with the help of his wife Barbara, until their sons, John L. and Fred, were old enough to lend a hand.

Oldsters remember Mrs. Geyer could hoist a quarter-barrel of beer and fling it on a wagon with the aplomb of her husband, a thick-set man with arms of fence-post diameter.

Geyer Bros. Brewing Co. was known in those days as the Cass River Brewery, the Bavarian custom down through the years having been in name breweries for the streams from which they got their water.

As also was a custom of the day, most breweries ran their own ovens. So the Geyers built across the road, of brick.

Many are the tales told of the saloon days and of John G., who served as his own bouncer as well as bartender and brewmaster.

When John G. tolled his thick arms across his broad chest, narrowed his eyes and said, "Kass Mit!" the one to whom he was speaking generally got the message (that meant "Get Out") and got.

Each night John G. had a close

Examination Dec. 20 in Traffic Fatality

A Municipal Court examination has been scheduled Dec. 20 for a Springfield Township man charged with negligent homicide in the traffic death of a 54-year-old Pontiac man yesterday.

Raymond E. Day, 31, 10387 Big Lake Road, demanded the examination yesterday afternoon in his appearance before Municipal Judge Cecil B. McCallum. Day is free on \$100 bond.

Witnesses told Pontiac police that Day, driving north on North Perry Street, ran a red light at Glenwood Avenue and struck the side of a car driven by James A. Lane of 76 S. Roselawn Drive.

Lane, who was thrown from the car by the impact, was dead on arrival at Pontiac General Hospital.

Vineyard Owner Now Switzerland's President

BERN, Switzerland (AP)—Defense Minister Paul Chaudet, owner of one of the country's largest vineyards, was elected president of Switzerland today for the year 1962.

His election by a joint session of both houses of Parliament was automatic. By tradition the presidency rotates each year among the seven members of the Federal Council elected from the country's seven cantons (provinces).

Consider Home Rule Idea Con-Con Queries County Proposal

By DICK HANSON

Would county home rule be a step towards one metropolitan government over the several counties in the Detroit area?

The question was posed yesterday by the constitutional convention's local government committee meeting with Oakland County government representatives and their counterparts from neighboring counties.

The county officials presented various proposals for a provision in a new state constitution that would permit counties to adopt home rule if that is the desire of county voters.

Oakland County Board of Supervisors Chairman Delos Hamlin stated that county home rule definitely is not a step towards metropolitan government.

"It would not be practical since the intent of home rule is to enable each county to determine what form of government would best serve its individual purpose," he said.

"In each case, county voters would decide whether to shift much of the local governmental responsibility from the state to the county level for more effective administration," he added.

Counties in the metropolitan area would continue to cooperate on matters of mutual interest, said Hamlin. (Such matters presently are dealt with by the Inter-County Supervisors Committee, composed of representatives from the six counties in the area.)

The con-con committee, headed by delegate Arthur G. Elliott Jr., R-Pleasant Ridge, posed two other questions at yesterday's meeting in Lansing.

1. Would it suffice if a new state constitution spelled out optional charters, giving counties a choice of the form of home rule they would prefer among those specified?

2. Which county government officials would remain to be elected and which would be appointed by the board of supervisors if its proposal were included in an approved state constitution?

Hamlin, as spokesman for the Oakland County Board of Supervisors, said he didn't feel that of offering a choice among several home rule charters in the constitution would be as satisfactory as permitting counties to frame their own charters in each case.

Also, he said it was virtually impossible at this stage to say which county officials might be filled by appointment rather than by election through general elections because the question would have to be de-

cluded in a public vote at the county level.

In presenting the Oakland County Board of Supervisors' proposal for a home rule provision, Hamlin was accompanied by county corporation counsel Norman R. Barnard and Berkeley Supervisor John G. Semann, chairman of the board's legislative committee.

Following are excerpts from Hamlin's presentation:

"The Michigan county is a separate entity of government responsible to the people. The urbanized counties of the state have found it increasingly difficult to keep pace with the growing demands for new services which can only be provided at the county level. It has been necessary for the counties annually to approach the legislature in Lansing for special legislation.

"This situation is due largely to the failure of the Constitution to provide the county with the necessary freedom to perform such functions as it is clearly adapted to perform. Just as there are no two counties exactly alike or which can function in exactly the same way.

"I appear before you this morning to ask that, as you draft a new Constitution for the State of Michigan, you include in it a provision which allows counties permissive home rule—that is, freedom to choose the form of government which will best suit the needs of a particular county. Freedom to frame and select charters which fit their individual needs. Freedom to exercise and fulfill the responsibilities which belong to counties in the most effective and efficient manner possible.

"Or, if they wish, freedom to

continue to function under the general laws of the state.

BROAD PROVISIONS

"Constitutional provisions for county home rule must be broad enough to allow for adjustments in composition of boards of supervisors, the development of county administration and the selection of various administrative officers, either by appointment or election.

"Under the provisions of county home rule counties should be permitted to frame, adopt and amend charters.

"Constitutional provisions relating to county home rule should not restrict tax resources of a county charter to any limitation inconsistent with those prescribed for other units of local government operating on home rule principles or with the general laws of the state.

"Constitutional provisions should be made to equip counties with powers consistent with and not in

contradiction to city, township or village powers. All powers delegated to county charters should not be left to the discretion of the legislature.

"I fully realize that one of the most crucial questions to be considered is whether or not the present constitutional officials of the county who are elected should be confirmed.

"I am in favor of the election of local officials. I would, however, raise the question as to whether or not any new Constitution should provide for the election of certain designated officials within a county.

"It is possible that the framers of a county charter would decide to provide for the election of the policy making body of the county. If a county charter should so provide, it might then be desirable to have these elected representatives select the administrative officials."

Duke Talks of India and Duchess Does Jigsaw Puzzle

Editor's Note — What's life really like for the Duke and Duchess of Windsor? On the 25th anniversary of King Edward VIII's unforgettable throne for "The woman I love," Bob Considine stated that the Duke and Duchess of Windsor are still in the country. Following is the second article of a series providing a close-up of the couple.

BY BOB CONSIDINE

PARIS — The Duchess of Windsor's 1957 Cadillac nudged to the curb on the Vendôme side of the Ritz. The chauffeur put my bag and best-up typewriter into the yawning trunk, and the Duchess reached a hand out from the rear seat where she was bundled under a thick fur blanket. And off we went through a cold clammy Paris.

"The Duke is actually playing golf in this weather," she said of the man who gave up the throne of Great Britain for her, these 25 years ago.

"He's playing with a couple of boys who can be hardly 30 or 35. It seems foolhardy to me, but, then, I don't play golf."

The Duke is 61. They were both well, the Duchess replied when asked. But it had been a difficult year for them. He'd lost the royal accountant who was so adept at helping them keep their financial affairs straight, and the Duchess' long-time secretary abruptly quit.

"He had a wife and four small children in London, and the wife couldn't see his spending three weeks out of every month with us," the Duchess explained in her perfect diction. "As for the secretary, she simply got married."

What with that and other problems the Windsors will come to the U.S. in February as usual. They are aiming now at April and will stay in New York until summer.

THE MILL

"I am sorry you won't see our place with the flowers out," the Duchess said as we left Paris for the gray-green countryside. "We call it The Mill. It was built in the 1600s and remodeled in 1730. The agent didn't want to show it to me. Got me halfway out and tried to turn around and drive back to town. That was 1952."

"It was almost as grim as he made it sound — no bathrooms and otherwise in a pretty terrible state. But the Duke loved it on first sight. He liked the space — it's 30 acres — and the water rounding through it. He works better, thinks clearer, out here, and we can make it in 20 minutes from the place we bought from the government in the Bois de Boulogne."

"We fixed it up nicely. I think you'll agree. You'll be sleeping in what was the cow barn."

It seemed appropriate, I said. The Duchess nodded agreeably. We turned off the main road and into a narrow twisting lane that led past a well-stocked French farm.

"Sells all his milk to Maxm's," the Duchess noted. The car in line slowed to a stop in front of a rustic and somewhat battered wooden gate, the entrance to The Mill.

"Well, this is it," she said. "The Duke lived in palaces all his life, but he loves this best of all. I lived in nothing — less than palaces, a lot less, come to think of it. But never mind, here we are. If the Duke likes it here, I like it here."

The gate was opened by a raw-boned farmer's wife, revealing a pleasant cobble court surrounded by low-slung buildings that had been used in the milling of grain in the Elizabethan Age. A literary station wagon was being unloaded before the main lodge.

"The Duke's back from his golf," she said as we drove up to the door, whose polished ship's bell is that of the racing cutter Britannia sailed by Edward VII and George V. We stepped into the attractive entrance and onto an ancient Latin-inscribed marble grave covering. The Duke later explained that during the French Revolution there was a lot of grave robbing and use of the marble for flooring. No corpse under ours, however, he added.

"Darling, where are you?" the Duchess called as she ascended a staircase with a balustrade made of thick red plush roping one associates with prize ring ropes. There was no response.

"He must be walking the dogs," the Duchess said, dropping her hat and addressing her attention to a stack of mail.

THE MAIN ROOM

I looked around the room, their main living room. It is a large place where grain once was stored. The great centuries-old beams, whitewashed now, are still in place, looking down on a most handsome decor: a great red-and-white patterned rug, comfortable

divans and chairs, fireplace, beautiful fall flower arrangements, a large painting of the Duchess in blue taffeta by Etienne Drian and a larger one of the Duke, as a chestnut hunter and wearing his natty pink coat.

The Duchess opened the large French doors that led out to a flagstone landing marked by a sun dial placed there in 1730 and still keeping good time.

We walked the few steps to the mill race that once turned a large stone mill wheel and, as we did, the Duke came to the lower path with the two identical pages. He was hatless, and wearing a new brown shirt and red-and-white polka-dotted vest.

He was kind enough to remember a meeting of 20 years before when, as governor of the Bahamas, he invited a group of New York sportswriters to Nassau to take in a British Red Cross charity golf match involving a now legendary foursome: Bobby Jones, Walter Hagen, Gene Sarazen and Tommy Armour. The Duke had accompanied them as score-keeper and pin-handler.

We went inside. Tea was ready. Tea, intricately-arranged shrimps in their shells, hot little squares of melted cheese and bacon, toast, cornbread, petits fours, jam, marmalade. The coffee buff at the table said that the tea was good. He meant unexpectedly good.

"It's China," the Duchess said, pouring her husband a second cup (with milk). Most Englishmen like India's tea. The Duke prefers China's. He gets it in New York. It's the same tea that J. Pierpont Morgan used to bring over to England. The Duke carries it with him on trips, even to the golf courses.

"I had a spot after today's round," the Duke confirmed. "The other chaps did a most unusual thing. They brought out spits of champagne and drank them. Imagine anyone having a spit of champagne."

When tea was done, the Duchess retired to the disarray of a half-completed jigsaw puzzle at a desk on one side of the large room and the Duke and I sat across the room and began a meandering interview that was to last, off and on, until the following afternoon.

THEY TALK FINANCE

The Duke had mentioned during tea that "Telephone" (AT&T stock) was up a fraction, so while we talked finance he was asked if it were true that he is still a beneficiary of the royal family's budget.

"I never got a nickel," he said, and knocked down the story that he had inherited Queen Alexandra's jewels.

He is comfortably fixed, he said, from investments made before and after his abdication. He would like to sell his 4,000-acre ranch in Canada, which he has not seen in 10 years.

A younger man, when Prince of Wales and surely the most eligible bachelor on earth, he used to visit it under the pseudonym of Baron Rentlaw.

"These incoherent names don't mean anything except that officials of the place are afraid to have to give you any recognition if they don't want to," the Duke, who never travels that way — any more, recalled.

"I don't know when it started — this incoherent business. My grandfather used to call himself the Duke of Lancaster when he traveled as king. Didn't mean it, but the officials were afraid to say, 'No, you're not the Duke of Lancaster.' I was the Earl of Chester before World War I when I was sent to France to learn French."

The Duke laughed. "I didn't learn much French," he added.

How was his golf?

"Oh, that," he shrugged. "I remember the old one about the golfer who was asked what his handicap was and he replied, 'Me.' That's pretty much my own story. I must be an 18 handicap right now. But I remember that once I had a 75."

"You have pleasant memories," the Duchess said without looking up from her jigsaw.

"This puzzle is just too much," she continued, searching for a cog. "The worst part of it is they say on the box how many hours it should be done in. It's disgraceful. It takes us days."

The Duke, almost as omnivorous a newspaper reader as the Duchess, said he had been following as possible the British soul-searching over the advisability of joining the European Common Market.

for some shooting — the Duchess did some Christmas shopping — was surprised to learn how many factories are being held up by the tariff walls of the Common Market. Your country might feel the same pinch soon.

"Won't your President have a lot of difficulty with labor and manufacturers? If he does, and things drag out for any great length of time, it's going to be very hard to get in."

"Of course, Canada and America will always be close, and America and Australia. Australia's more trade, more with America than with Great Britain. The

war had a lot to do with it, when they were so dependent on the U. S. Sydney and other cities now have taken on the look of the United States instead of Great Britain."

He did not have to worry about such things when he was king, a quarter of a century ago. How had the monarchy changed in that time?

"The colonies, chiefly," he said. "We had the lot when I was king. 'You were actually king-emperors, weren't you?' the Duchess asked from her jigsaw."

"Yes, I was," the Duke said. "But I wasn't the last. My brother

was, until 1947, really. That's when India went.

ON INDIA

"Actually, there was always pressure about India from the Socialists. I never met Gandhi or Nehru. When I went out there as Prince of Wales they were both in jail. Later, I watched Gandhi when he came to London to see my father. Word to extreme out."

"Now they've given Kenya independence. Mark my words, there'll be Mau Mau troubles there. But I suppose things will settle in time, even though some of those African nations aren't as yet fitted for self-rule. I'll say this

for the British — they've always let their colonial peoples into the civil service class. Would you have a drink?"

I thanked him and was surprised to see him go to the bar in the next room to mix it himself.

"With ice," I asked. The Duke brought back a Scotch on the rocks for me and a bourbon on the rocks for himself.

"Did you order ice because of your experience with British hospitality?" the Duke asked with a smile. "We always have ice. This is an Anglo-American home."

"Ice," the Duchess remarked, fathoms deep in her puzzle.

The talk veered, somehow, to television.

"We're too old-fashioned for it," said the Duke, who once appeared with the Duchess on "Person to Person." On that program the Duchess showed Ed Murray how she could play jacks and balls.

"We cannot discuss politics, or have much of an opinion on anything," the Duke said in support.

"We don't have anything to say on TV," the Duchess agreed. "The Duke is right, we're old fashioned. I don't even fly. I flew from Miami to Nassau in 1940, and haven't been in the air since."

I asked her why she didn't fly. "It's very simple," the Duchess said. "I'm afraid. Now, shall be freshening up for dinner?"

(Next — Dinner, and a session at the TV set, with the Windsors.)

Research Pioneer Dies,
Wife 3 Hours Later

CLAREMONT, Calif. (AP)—Sarah E. Hickman Taylor, 82, died Tuesday, only three hours after the death of her husband, date to be set.

Dr. Albert Hoyt Taylor, 83, a pioneer in research leading to the development of radar.

Services for both will be conducted at Arlington National Cemetery in Washington, D.C., on a date to be set.

Crash Into Tree Fatal

DEARBORN — Ernest G. Speiran, 66, of Dearborn was killed Wednesday when his car went out of control and struck a tree in Dearborn.

Famous Primitive Artist

Death Claims Grandma Moses, 101

HOOSICK FALLS, N.Y. (AP)—Grandma Moses, the spirited 101-year-old primitive artist whose work has appeared on 100 million Christmas cards, died 12 days before Christmas.

Grandma, who achieved worldwide fame after taking up painting in her late 70s, suffered from a chronic heart ailment.

Her health gradually faded at a nursing home, the Hoosick Falls Health Center, where she had been since July.

But on her 101st birthday, Sept. 7, the spunky, 100-pound farm woman vowed: "I'm going to live to be 200."

She was alone with nurses when she died at 3:15 p.m. Wednesday, her physician, Dr. Clayton Shaw, told newsmen.

She had been in an oxygen tent most of the day, the doctor said. Grandma recently expressed a desire to go home, he said, but she was "sort of indifferent to her surroundings lately."

Only a few weeks ago, however, friends had described her as "bright as a button" most of the time, despite her confinement and doctor's orders against painting.

MANY TELEGRAMS

In death as in life, she attracted the attention of people from all walks of life. Telegrams expressing condolence streamed into her family home at nearby Eagle Bridge, where she had worked.

President John F. Kennedy said: "The death of Grandma Moses removes a beloved figure from American life. The directness and vividness of her paintings restored a primitive freshness to our perception of the American scene. All Americans mourn her loss."

New York Gov. Nelson A. Rockefeller said: "She painted for the sheer love of painting, and throughout her 101 years she was endeared to all who had the privilege of knowing her."

There are about 3,000 miles of toll roads in the U.S.

PAINTED IN HER 70s — Grandma Moses, the witty little artist who took up painting in her 70s and became one of the best known artists in the nation, died Wednesday at Hoosick Falls, N.Y., at the age of 101. She had been confined to a nursing home since July. Her doctor said her death was peaceful.

Demolition Jobs
To Be Speeded Up

Demolition will nearly double in Pontiac's first urban renewal project area in the coming months.

Asst. City Manager Robert A. Stierer said that Dore Wrecking Co. has added a crane and two trucks to the local demolition crews.

"This should make it possible to demolish houses at nearly twice the previous rate," Stierer said.

There have been 38 structures demolished since wrecking began

in October. A total of 301, mostly houses, are specified for removal in the contract by early 1963.

Commissioner Robert Landry had complained several weeks ago that demolition was progressing too slowly and suggested that "less red tape and more wrecking equipment" might speed the project.

From The PRESS BOX

Kurt Kampe has quit as head football coach at Saginaw Arthur Hill High School but will stay at the school as athletic director and physical education head. A replacement will be named after Feb. 1. Kampe's team had a 44-50-5 record for 11 years.

Michigan State's Athletic Director Biggie Munn and four Spartan head coaches have been named to U.S. Olympic committee. Munn was selected for the board of directors. Named for their respective sports were John Kobs, headguy; Charles Schmidt, baseball; Charles McCutcheon, swimming; and Presley Collins, wrestling.

Star end Max McGee of the Green Bay Packers may miss Sunday's game at Los Angeles due to a cracked rib.

Two promising football players have been readmitted at the University of Illinois — a little late to help Pete Elliott. Halfbacks Jim Warren and Norm Willis returned recently after being out since last June due to being in on a "water riot."

IMPROVING CHIEF — Senior forward Paul Brown played his first high school basketball game for Pontiac Central last Friday when the Chiefs scored a 59-36 win at Flint Central in their Saginaw Valley Conference opener. The 6-foot-3 Brown will be on the firing line again tomorrow evening when the Chiefs play their first home game of the 1961-62 season against Valley rival Bay City Central.

49ers Seek Trip to Miami

Play Baltimore Club Saturday in Key Contest

'Frisco Battling Lions for Runner-up Bowl Berth

By The Associated Press

The San Francisco 49ers can keep alive their chances of making a January bowl appearance if they can beat the Baltimore Colts in Saturday's National Football League game in San Francisco.

A loss to the Colts in the nationally-televised contest (CBS, 4:30 p.m., EST) would knock the 49ers out of the running for the NFL's runner-up bowl in Miami Jan. 6 and the Detroit Lions would receive the Western Conference advantage over the Eastern Division's runner-up.

If the 49ers win, they'll have to all back and await the outcome of the Lions' game with the Colts Sunday — last day of the NFL's regular season — against the Philadelphia Eagles, who have a chance of gaining a tie for the Eastern championship.

A Detroit victory not only would send the Lions to Miami but would also give the New York Giants the Eastern title regardless of how the Giants fare against the Cleveland Browns Sunday in New York.

The Giants-Browns scrap is the day's big clash. If the Giants, with a full game lead over the Eagles, beat Cleveland, they would have to depend upon help from the Lions.

If the Browns whip the favored Giants, and the Eagles down the Lions, the championship in the East would be decided in a playoff game between New York and Philadelphia in Yankee Stadium Dec. 31.

The Green Bay Packers have already won the Western crown for the second year in a row and will be warming up Sunday against the Rams in Los Angeles for the Dec. 31 championship. Where Redskins will be trying to snap a 23-game victory famine; the Minnesota Vikings visit the Chicago Bears; and the Pittsburgh Steelers invade St. Louis.

Here are the records of the teams going into their final games: Eastern Conference — New York 8-4, Philadelphia 8-4, Cleveland 8-5, Pittsburgh 6-7, St. Louis 6-7, Dallas 4-8-1, Washington 0-13-1.

Western Conference — Green Bay 10-3, Detroit 8-4-1, San Francisco 7-5-1, Baltimore 7-4, Chicago 7-6, Los Angeles 4-9 Minnesota 3-10.

Jo-Jo's Cagers Romp

Jo-Jo's quintet massacred New Hope 60-36 in a Class D City League basketball game last night in Lincoln Junior High. Willie Peck bagged 31 points for the winners while the loser's Steve Hardman netted 11. It was the only City League game scheduled yesterday.

SPORTS

49ers Seek Trip to Miami

SIGNED, SEALED AND DELIVERED — New York Yankee manager Ralph Houk and centerfielder Mickey Mantle, holding contract, chuckle at a press conference after Mantle signed his 1962 contract. Mantle came to terms for about \$82,000 and became the second highest paid player in Yankee history. Joe DiMaggio received \$100,000 in 1951 and Babe Ruth \$80,000 in 1952. Roger Maris talks contract today.

\$82,000 to Mantle, Maris Talks Today

NEW YORK (AP)—Roger Maris, for change, makes his biggest salary pitch today while his slugger New York Yankee teammate fondles the "best contract I ever got."

Maris, who hit a record of 61 homers last season, also will ask for the best contract he ever received during a conference with General Manager Roy Hamey yesterday.

Detroit Defense Draws Praise

PHILADELPHIA (AP)—"Detroit has a defense capable of stopping the best in the league," says coach Nick Skorich whose Philadelphia Eagles were the Lions in Detroit Sunday in a National Football League game.

"And if we should have any kind of letdown it would really be a problem," said Skorich yesterday. "I think the Browns have a good chance of beating the Giants," said Skorich. "They have the running game to do it. So we're still in it. I hope no one is counting us out."

Skorich said the Lions have the "kind of team that beats you physically. They have strong linebackers and, in my opinion, Joe Schmidt is the best middle linebacker in the league."

"If they hadn't had quarterback trouble they probably would have won the Western Division."

PCH Cagers Play Home Opener Friday

Huskies Visit Farmington for Inter-Lakes Headliner

Farmington, their apparent to be on the line at Northville. The Mustangs have chalked up three championships, finds out Friday night whether it is going to be just another preseason pretender.

The Falcons host defending champion Pontiac Northern on Friday night, faces a major test at Southfield and Berkeley, a possible challenger, travels to Waterford.

Top game in the Wayne-Oakland southfield Hills to Northville. He'll journey to Clarkston, Clareville is at West Bloomfield and Brighton plays at Milford.

Birmingham Seaholm is home for an Eastern Michigan League encounter with weak Hazel Park. Waterford Kettering makes its initial start in Tri-County cage play at Lapeer while Rochester is hosting L'Anse Creuse in the other loop contest.

Lake Orion is home for the first time this season against Oakland A rival Clawson. Avondale has a nonleague engagement on its court with Clintonville.

COMEBACK TEAM

On the way to posting two victories in three outings this season, Pontiac Northern has been hampered by inexperience. Despite the many newcomers to the team, the Huskies have staged rallies to claim both triumphs and almost pulled out their lone setback in the closing minutes.

The return of Ed Wask to a starting guard role should help PNH. He made his first appearance early in the first period against West Bloomfield and his presence on the court helped the Huskies.

Rick Fisher, a speedy senior who has shown a good shooting eye, will join Wask at guard. Gary Hayward is expected to be one of the forwards along with Wayne Daniels.

Dean Souden played well against West Bloomfield and this may send center Dave Shields to the bench.

Farmington, under new coach Dave Parks, has shown a good defense in posting two nonleague triumphs. Birmingham Groves and Livonia Bentley combined to score only 33 points against Farmington.

Junior Walt Grimaldi leads a veteran Falcon quintet.

Farmington defeated PNH in the final game of the regular 1960-61 season to force the Huskies to share the crown.

Southfield, almost all veteran team with a 1-1 mark, could have trouble with Walled Lake. The Vikings are weaker than last season, but still may have enough strength to overcome the Blue Jays.

Berkley has lost two straight; but the Bears are not to be underestimated. Dearborn Ford and Ferndale both have good teams.

RATED LAST

Waterford, rebuilding under new coach Gus Eichhorn, is rated last in the six-team league.

Kettering's chances against Lapeer appear slim, but Joe Doherty's squad was impressive in the loss to a good Roseville team. The Panthers have won two straight after a close loss to Flint Beecher.

Rochester is favored to chalk up victory No. 4. L'Anse Creuse has a potentially good club and could come to life against the Falcons.

Bloomfield Hills title hopes will for Loyola.

Western went ahead again in overtime with two quick baskets by Bill Street and Mannie Nease. Then Jerry Harkness, Ron Miller and Floyd Boisley broke down and wrapped up the victory.

Western went ahead again in overtime with two quick baskets by Bill Street and Mannie Nease. Then Jerry Harkness, Ron Miller and Floyd Boisley broke down and wrapped up the victory.

Western went ahead again in overtime with two quick baskets by Bill Street and Mannie Nease. Then Jerry Harkness, Ron Miller and Floyd Boisley broke down and wrapped up the victory.

Western went ahead again in overtime with two quick baskets by Bill Street and Mannie Nease. Then Jerry Harkness, Ron Miller and Floyd Boisley broke down and wrapped up the victory.

Dragons are inexperienced, and this could be the only difference in the game.

Avon will be attempting to rebound against Clintonville. The visitors are building for the future.

NO MERCY

Clareville can expect no mercy at West Bloomfield. The Lakers should be ready to take out their close loss to Pontiac Northern on the Trojans.

The Milford-Brighton contest is rated a tossup. There is a full slate of games in the Suburban Catholic League.

Pontiac Emmanuel plays at two against Grosse Pointe University School.

Bay City, coached by Bill Ullenbruch, has played only one game thus far and the Wolves finished far behind in that affair.

They played host to defending Saginaw Valley champion Saginaw Hill and took a 77-49 pasting from the Trojans who pulled up a 50-15 halftime lead.

The Wolves will have a new basketball coach next season. This was assured when Ullenbruch announced his resignation, which becomes effective at the end of the current season.

Ullenbruch, now in his 8th season at Bay City Central, has really taken his lumps and the picture doesn't look any brighter this time around.

Van Rybin will string along with the same starting lineup that has produced the Chiefs' 2-0 record.

Rudy Ransom and Ed Williams will start at forwards, stringing Otto Kennedy will get the call at center and the guard positions will be taken by Clarence Douglas and Roy Couser.

Stated to see a lot of action because the contest is over and lanky forward Paul Brown, who performed very well at Flint, sophomore guard Alvin Keel and junior forward Ray Bain.

Ransom, Kennedy and Douglas have been the stars in the Chiefs' early success.

Kennedy has scored 32 points while collecting 43 rebounds. Ransom has tallied 31 points and Douglas has connected for 31 to be the team's leading point-maker at this juncture.

The varsity contest gets under way at 8 p.m. with the reserve tilt set for 6:30.

In other Valley action tomorrow, Flint-Central visits city foe Flint southwestern, Arthur Hill and Saginaw resume their cross-town feud on the Trojan front and Midland goes to Bay City Handy. Flint Northern is idle.

Skaters Pass 'Exams'

Proficiency tests were taken at the Rolladun last night. The following skaters successfully passed:

Hank Vs. Calderwood in Detroit Tomorrow

DETROIT (AP)—Chic Calderwood, a Glasgow, Scotland, light-heavyweight fighter who doesn't look like one, has made quite an impression on Detroit since his arrival Dec. 3.

But what kind of impression he'll make on Henry Hank in their 10-round fight Friday night remains to be seen.

Calderwood, the British Empire light-heavyweight champion with a sharp, classic nose and a remarkable lack of scar tissue around the face, has been fêted and greeted around Detroit. Wednesday mayor Louis Mirani presented Calderwood and his entourage the keys to the city.

The British consul showed up at one party in Calderwood's honor. Chic has held press conferences, been surrounded by bagpipers and has appeared in a kilt.

If Hank, the ex-thundered mid-dleweight, has had a social engagement no one noticed it. Calderwood, the seventh-rated light-heavyweight, and Hank, of Detroit, are expected to meet for the first time at the weigh-in Friday. Hank is expected to come in at about 168. Calderwood must weigh no more than 176.

Someone asked Calderwood if he'd like to be introduced to Hank earlier.

"Don't bother," he said. "I personally never like to meet my opponent before we get into the ring. After we come out, my op-

ponent never seems to want to meet me again, either," he added.

Hank, informed of Calderwood's statement, said: "You might tell him that if he's wise, he will do all his socializing before Friday. He's not going to feel like doing any after that."

Calderwood has lost but one of 33 fights and has 24 knockouts. Hank's record includes 49 victories out of 65 fights, including 34 knockouts.

Kansas Coach Departs Early for Bowl Site

HOUSTON (AP)—Coach Jack Mitchell of the Kansas Jayhawks flies into Houston today to speed up preparations for Saturday's Bluebonnet Bowl game with the Rice Owls.

The Jayhawk squad that will still be a week away from their first bowl game will arrive at 24 hours later.

Bluebonnet officials, while preparing to greet Mitchell, expressed hope the nationally televised game will be played before a capacity crowd of 70,000 at Rice Stadium.

More than 60,000 tickets had been sold today. Last year's 3-2 tie between Texas and Alabama

GUESS WHO?—These two Minnesota Viking football players may not have been readily recognizable to their teammates and coaches, but they were warm. Paul Dickson (left) and Jim Marshall took no chances with the seven degree

below zero weather yesterday at the Vikings' practice session in Midway Stadium. They wore cotton garments over their heads, securely taped down, to help keep warm.

BIG SHOES TO FILL—North Carolina State College quarterback Roman Gabriel announced Wednesday that he will play professional football with the National League Los Angeles Rams next year.

Coach Earle Edwards of N. C. State (right) muses about how tough it will be to fill Gabriel's shoes in 1962.

AFL Says NFL Doing It

Bowl Players Signed?

HOUSTON, Tex. (AP)—Bud Adams, owner of the Houston Oilers of the American Football League, expressed "grave concern" over a report he says he has that National Football League clubs have signed no fewer than 10 players who still have bowl games to play.

Area Matmen in Prep Meet

Fitzgerald Tournament Will Have 19 Schools Friday and Saturday

Central and Northern of Pontiac, Waterford, Kettering, Walled Lake, Lake Orion and Cranbrook are among 19 schools entered in the First Annual Fitzgerald Invitational Wrestling Tournament Friday and Saturday.

Southeast Farmington, Ulica, Dondoro, and Kimball of Royal Oak, Farmington Our Lady of Sorrows, Oak Park, Warren Lincoln, Berkeley and Detroit Catholic Central complete the list.

Hazel Park is rated the favorite for a team trophy which will be awarded on basis of high individual finishes. The top four boys in each weight class will earn medals.

The action will start at 5 p.m. tomorrow and continue through 11 p.m. Competition will resume Saturday morning or afternoon depending on the number of contestants remaining. All wrestling will be at Fitzgerald High.

Drawings for the tournament were made last night. Final pairings will be made Friday afternoon.

Weather May Favor Syracuse in Bowl

PHILADELPHIA (AP)—Advance weather forecasts today stacked up in favor of Syracuse but the big factor which has established the Orange a favorite over Miami in the Liberty Bowl Saturday is the one-two punch of All-America halfback Ernie Davis and quarterback Dave Sarette.

The weather forecast for the third nationally televised (NBC) football classic is near freezing temperatures with possible precipitation which would hinder the passing of Miami's George Mira to All-America end Bill Miller.

California Prep Cager Dies Following Game

BURBANK, Calif. (AP)—A Burbank high school basketball player died Wednesday following a game against Notre Dame high school in Van Nuys, police reported.

James D. Moody, 16, had been taken out of the game by his coach, Roland J. Peterson, when he appeared ill. Investigators said, suddenly, while watching the game from the bench, the boy fell to the floor, striking his head. He was pronounced dead at a Van Nuys hospital.

Debussche Paces U-D to Easy 96-45 Win

DETROIT (AP)—Dave Debussche and Al Cech shared scoring honors with 24 points each as University of Detroit smothered Assumption of Ontario 96-45 in a basketball game here last night.

Debussche controlled the backboards, accounting for 32 rebounds. Detroit coach Bob Callahan cleared his bench, using 10 players and all of them scored.

Ortega Scores KO

PHOENIX, Ariz. (AP)—Gaspar Ortega, 167, of Tijuana, Mex., knocked out Bobby Brown, 149, of Los Angeles, in the fourth round of a scheduled 10-round bout Wednesday night.

Fourth Quarterback Gabriel Joins LA

LOS ANGELES (AP)—The Los Angeles Rams, who have personnel problems of a current nature, can face the 1962 season with a few more matters to iron out.

Today, for instance, they have four quarterbacks on deck.

Ostenhagen, each is set for the National Football League scramble, and each supposedly is ready to guide a flock of halfbacks and fullbacks already too numerous to rate full time employment.

The latest quarterback is Roman Gabriel, a massive, 6-foot, 3½-inch, 225-pounder from North Carolina State, who was signed Wednesday under the banner of the Oakland Raiders of the American Football League.

All Gabriel has to do to make the team is beat out another wide-brimmed rookie signed just three days ago—Ron Miller of Wisconsin—and two veterans of the pro wars, Zek Bratkowski and Frank Ryan.

Weekend's Fight
MIAMI BEACH, Fla.—Vince Allen, 168, Miami Beach, knocked out Bobby Brown, 149, Los Angeles, 4.

PHOENIX, Ariz.—Gaspar Ortega, 167, of Tijuana, Mex., knocked out Bobby Brown, 149, Los Angeles, 4.

ANN ARBOR (AP)—Bowling Green men in tonight to test inexperienced Michigan.

The Wolverines will be looking for their third victory in five games and trying to keep their home-court record unblemished.

Both U-M losses came during last week's road trip.

Bowling Green has already upset highly-regarded Bradley and Stanford in three other games before being damped by Duquesne two nights ago, 68-44.

The Ohio team boasts 6-10 Nate Thurmond as its top player but has a balanced scoring attack with four starters averaging in double figures.

Coch Dave Strack's U-M team got a 27-point victory over 6-5 John Oosterbaan last Monday in defeating Denver, 74-63, but last night's game of 6-4 Bob Brown for at least a week.

Suffering from a sprained ankle, Brown joined sophomore Hiram Jackson—once destined for a starter's role on the injured list.

Hot Providence Five Awaits Big Tests

By The Associated Press

The Providence Friars, winning solidly if not spectacularly, are still a week away from their first of two big tests in a bid for ranking near the top of the nation's college basketball teams.

The defending NIT champions, boasting one of the nation's biggest front lines, takes on touring San Francisco Friday, then next week makes a trip to DePaul and Xavier of Ohio.

That trip marks the first big hurdle for Coach Joe Mullane's ambitious team. The Holiday Festival in Madison Square Garden the following week is the second, then ten big football teams have been playing—generally—just good enough to win. The only exception to their unblemished 44 record is a 75-51 rout of Mount St. Mary's. The next largest margin of victory was seven points, Wednesday night's 90-73 triumph over Brown.

Duke, the only other ranked team in action Wednesday night, got a phenomenal shooting performance from Art Heyman in a 75-69 victory over previously unbeaten South Carolina.

Heyman hit on 15 of 19 field goal attempts and all seven free throws in racking up 39 points.

Another outstanding shooting exhibition was turned in by Holy Cross' Jack Foley. He scored 43 points in the Crusaders' 106-79 romp over Little St. Anselm's.

In some of the other major games, St. Joseph's (Pa.) blasted Richmond 77-56 and Temple topped Princeton 65-56 in a Philadelphia doubleheader. Rutgers crushed Columbia 61-59, Harvard overwhelmed Wesleyan 94-78, Rhode Island beat San Francisco 64-54, Cornell came from behind in the second half for an 83-68 triumph over Syracuse, Loyola of Chicago won its fifth straight, 87-85 over Western Michigan, Villanova took a 69-48 decision over Fordham and Navy turned back Gettysburg 60-53.

Foul Shot Nips Kazoo
ELMHURST, Ill. (AP)—Freshman Phil Bodestadt made a free throw in the last two seconds last night to give Elmhurst a 63-62 basketball victory over Kalamazoo College of Michigan.

formance from Art Heyman in a 75-69 victory over previously unbeaten South Carolina.

Heyman hit on 15 of 19 field goal attempts and all seven free throws in racking up 39 points.

Don't Surrender State Duties to Washington, Ike Says

LANSING 10 — Here is the text of the question-and-answer period with the delegates following former President Dwight D. Eisenhower's speech today at the constitutional convention.

Q. (Raymond L. King, R-Pontiac): The 10th Amendment to the U. S. Constitution, as you know, provides that: "The powers not delegated to the United States by the Constitution nor prohibited to the states, are reserved to the states respectively, or to the people." My question is: What special responsibility, if any, does this amendment place upon us as delegates to a state constitutional convention?

A. My whole talk was on that subject. That is the states themselves do have great responsibility because if you give away this responsibility then it goes to the federal government and this is found to give all your tax money to one central authority and then suppose that people of the United States are not going to call for an accounting of the way this is done.

Once you account for the way you distribute this money, that is the authority of the federal government so I think state government should separate what their authority is in this field.

Q. (S. Martin Twedle, R-Port Huron): Generally speaking, what length of term of office do you feel is best for heads of the Executive Department, and what factors should be considered in determining this length?

A. Well... I think two years is too short for any elective official, certainly above the city level. I believe that both governors, of course this is state's business and I don't want to be invading that even in advice, but I think two years is too short.

In this day and time of almost instant communication where anyone in public office is brought much closer to the people than ever was before, I believe it should be at least four years.

Along with this I believe we should have a constitutional amendment some day that will make our congressmen terms four years, being elected at the same time as the President, rather than having two years and spending every instant in campaigning. That just isn't good practice in my opinion.

Q. (Alvin Bentley, R-Owosso):

AP Photos

IKE FOR '64 — Former President Dwight D. Eisenhower greeted at the Lansing airport by 10-year-old John Burgess carrying an "Ike for '64" sign. Eisenhower arrived to address delegates drafting a new constitution for Michigan. He later answered their questions on state responsibilities and opportunities with relation to the federal government.

SNOWY ARRIVAL — Former President Dwight D. Eisenhower extends his arms in a snow flurry as he arrives at Lansing's Civic Center with Governor and Mrs. John B. Swainson Wednesday. Ike addressed the con-con delegates and

later answered questions. He urged the delegates to be aware of state duties, assuring them that the "government closest to the people is the best."

This has been touched on, of course, sir, in your speech. Do you think the federal government should and can return many of its functions to the states and along with additional sources of tax revenue, do you have any further specific suggestions?

I recall, sir, that in 1957, I believe, you did make a very specific recommendation to the Council of State Governors about returning the long distance tax on telephone calls. I am wondering if you have any other suggestions principally in those areas which you stated you felt as president compelled to act which had formally been reserved to the states.

A. Well we are talking now is getting back to revenues. This is

of course, a very tough thing and that is why I believe it is going to take a very positive and definite action.

Whenever any level of authority has gotten its hands onto that part of the Treasury and our tax money they are not going to give it up very easily.

But I believe pressures can be brought to it will, I think there are a lot of things. Remember, the Federal Government lives largely upon income tax. It lives on profits. There have to be profits.

But I think it should not constantly seek to invade these areas which have been traditional with the localities and states, of sales tax and excise tax of all kinds.

I think the best way it could be done would be an agreement into the fields of taxation, state naturally, and localities get tired of trying to live just on property taxes.

The owner of a farm, and I am one of them, believe the taxes go up too high to do these local things. So I think a good study will have to be developed for the fields of taxation that property or let us say primarily belong to the several echelons of government before we are going to get anywhere.

In the meantime, I believe all sorts of things — everything from schools to urban renewal and every kind of problem that has been too much neglected in the states and has gone along to the federal government with the money... should be brought back.

WELFARE PROGRAM

Q. (Thomas G. Schrage, R-Howell): According to Secretary of Health, Education and Welfare Abraham Ribicoff, the Federal Government anticipates a constantly expanding welfare program. Do you see in the near future any major changes in this area that would be of some relief to the taxpayer, particularly in state-federal aid to dependent children programs?

A. Well, just right now the details of this particular law, I couldn't recall and therefore I would not want to discuss them. I do have very definite opinions about your general question and I do not believe that we should be pressing our welfare problems more and more to Washington.

I believe we ought to take and keep them to ourselves and I believe they will be done better and more sympathetically and in accordance with the needs of, not just the people who are helpless, but more nearly in accordance with our own self-respect and our own concern for helpless human beings.

I just distrust this business of putting all of our welfare and relief and that kind of activity in the hands of someone who would rather make speeches than to go around and see whether someone is hungry.

Q. (Jack Faxon, D-Detroit): Would you see any need for a state to go into areas of responsibility already covered by the federal government, such as intrastate business activities, what recommendations would you care to make?

A. In the case of civil rights, assuming that all state constitutions must accord in their general principles with the national, that is a matter of all our people and that means the federal government must do its best to see that equal rights guaranteed by the Constitution are given and accorded to every individual in the whole nation.

But, when it comes to this business of concurrent jurisdiction or some conflict of jurisdiction, this became a very troublesome problem during my administration. One of them was this:

The state of Pennsylvania convicted somebody for communism or some communist association, and the Supreme Court ruled that the Congress had preempted the field in this matter and that a state had no authority of any kind to punish a man for communist activities.

Personally, I was horror struck because I didn't believe that any free nation and any government element of any part would be stopped from looking into this matter of communism and taking action. But, then the Congress finally told me there was no thought, at the time of the passage of that act, that they were preempted, that I thought everyone could look into it.

But now they decided to establish a practice, which may have been abandoned or may not, I do not know, that each law passed by the Congress should state whether or not there was any intent to preempt the field, or whether the state would have the right to take concurrent jurisdiction.

My own feeling would be, if I had the honor of sitting here as one of these delegates, I would want to define our rights and our authorities and if the Congress had already preempted, I would make my fight through the state's attorney and go and make suit and try and get back there. Or if I couldn't do that, I would go back to my old scheme of a national constitutional convention.

I believe you are not going to do these things and be satisfied you have done these things correctly unless you are ready to stand up and be counted right down to the last stitch.

ACTION AT ALL LEVELS

Q. (Harold Norris, D-Detroit): General Eisenhower, you touched upon the subject matter very briefly, but I would like to ask this. During your presidency you appointed a Commission of National Goals.

This commission reported the following in 1960: "Respect for the individual means respect for every individual. Every man and woman must have equal rights before the law and an equal opportunity to vote... to be educated, to get a job... to buy a home... these goals, which are at the core of our system, must be achieved by action at all levels." End of quotation, sir.

Do you not believe, sir, that "action at all levels" to secure equal opportunity for employment, housing and education includes appropriate expression in a state constitution? Would a clear-cut expression at the level of state government on behalf of such equal opportunity be helpful in strengthening America's moral position in the world?

A. I think it is an essential, but I believe this, I believe that every individual in this room, establishes or possesses moral responsibility in this field. We are citizens of a free nation and wherever we impinge upon or diminish the freedom of another individual, you impinge on your own. I believe that self-interest demands that every single individual put himself four-square on this principle.

It is certainly implied and stated as solemnly as it can be in the constitution, so I see no reason for any state from refraining from making such a declaration. I would be very much in favor of it.

Q. (Joseph M. Snyder, D-S. Clair Shore): With improved technological processes and with people getting older, what are your responsibilities at this constitutional convention to help those of life who have reached the years of life where they cannot find proper employment and they have not had the availability of resources to their lives through to the end of their lives?

A. Well, of course, I believe in many of our industrial organizations we have already got pension and retirement systems and, of course, OASI, and all that sort of thing. They are not particularly adequate where emergency strikes.

I believe we should sponsor voluntary plans, for insurance in this field and make the state agency rather than the federal government (responsible), but with the federal government participating wherever they can be shown the need.

(The simple reason) — as your Governor Swainson pointed out to me this morning when we were riding in — is a state boundary is not anything that is sacrosanct. The people who come in can be indigent, old, sick, far greater the proportion than are in many states, and therefore you have a big problem.

Then, you point out that technology is making us all older. Also, I think it is giving us a greater span of useless — oh, pardon me, useful — life. We have been talking about this subject because we are having automation coming along.

We have been talking all the time about a shorter period of active service. I doubt that this is the answer.

CAN BE USED

I believe that older people can be used — I am very sensitive about that point — maybe we have in our industries, in our whole social arrangements, our lives, make us have to study more what is the kind of thing that older people ought to be doing and so on down the line.

So, I believe that we must be giving help in terms of subsistence and proper medical care and, as far as possible on a voluntary basis, but make sure they have it.

I think we ought to be studying this whole problem, how is a population best employed and not to get so many of these arbitrary laws that at 60 they are done. And, my friends, at 62, I was nominated to the Presidency and I don't think I was completely useless even if the calendar said so.

Q. (Milton E. Higgs, R-Ray City): During the period of your Presidency, it seems to many that you exercised a great deal of

restraint in the use of federal power in domestic crises.

Would that have been based upon a faith in the people through state and local units of government to solve such problems; and, if so, do you feel that such a faith was justified by subsequent events?

A. I would say that is almost a principal test of my political faith. I believe with Jefferson that government that is closest to the people is the best.

Whether it is a welfare or any other kind of governmental activity, the development of roads, public buildings and everything else. If the people close by feel and are paying for, I think there is always greater efficiency.

LESS CENTRALIZED

I do not have very great respect for bureaucracies' efficiency in handling the business and af-

fairs that range all the way from Seattle down to Pensacola. There are many many problems that are so localized or so colored by the locality that we need more of the kind of government and less of the centralized.

Now, the only time I can recall intervening with affairs was when I sent drops to Little Rock and there I believe was a very definite principle involved.

There was a proper order of a federal court and the federal court had approved a plan of the locality with the school board and so on. All was in accordance with the Supreme Court decisions.

A President of the United States is sworn to defend the Constitution of the United States and to execute its laws.

Now, if any mob action organized or inorganized or indeed a

local national guard tries to get in the way of a federal court's order being properly executed then I think the President has no other recourse but to intervene. But I do not say that we must recall this.

I think it was Wilson who used a very beautiful phrase, "The highest form of efficiency is the spontaneous cooperation of a free people." If we are going to live with freedom, venerable and depend upon freedom and preserve it, we must not lose this faith in the ability of the locality to handle its own affairs to the maximum.

Now, I do not mean to say there are not certain federal functions. Of course there are. But it is always a better relation if the federal government has to come in to study and localize to see what the

'Can't Have Headache in Peace'

By JOE STILLEY

Joe Had Boyls

NEW YORK (AP)—It's getting so you have to make an appointment in our house to be sick.

Not that I'm a hypochondriac, but I do have my little aches and pains. I like to trot out into the limelight now and then. The trouble is, the limelight is usually already occupied by the big aches and pains sustained by other members of the family.

The juiciest cold I ever had coincided with a case of chicken pox, my doctor to let me go home from the hospital a day early, on the grounds that I would stay in bed and be waited on. Well, that was the night that both my husband and son came down with severe throats and temperatures alarmingly in the red. I spent the night, commuting from one bedroom to the other as nurse instead of nurse.

The day that I burn my hand while cooking dinner is inevitable. The one when nobody else can possibly do the dishes. Hubby has a

meeting, the young lady of the household is taking a music lesson and a studiously studious son has an important test coming up the next day.

Achille back, though, I really had it made. I had been chafed on by a king-size virus bug and for once I was sick enough for even my family to take notice. In fact, I was so laden in the feet and light in the head I did something I'd never done before—called my husband at the office with a feeble plea for help.

"Hang on, honey," he offered encouragingly. "I'll be home just as soon as I can get there. Then you can just take it easy while I take over."

EXPECTS CODDLING

"At long last," I thought smugly as I waited. "Now I'll be coddled and fussed over."

Soon I heard a family step, followed by a cheery greeting.

"Wow," said my husband, "everything is under control — your just—"

Suddenly he paled and shot out of the room. Something later he reappeared, dragging himself weakly to the bedside.

"Move over," he muttered shakily. "Looks like I've got the virus too."

Guess who took care of whom that day?

Despite Loss of Home in Fire

Joe E. Browns Plan Family Yule

By BOB THOMAS

HOLLYWOOD — It will be a family Christmas for the Joe E. Browns — and their anticipated Merry Christmas even though they lost their home in last month's fire.

"Joe and I will spend Christmas in Bradenton, Fla., with our daughter and her four children," reported Mrs. Brown. "We had Thanksgiving with our other daughter and her family here in Tarzuna. We'll have New Year's in Pittsburgh with young Joe (general manager of the Pittsburgh Pirates).

TO OBSERVE ANNIVERSARY

"We also celebrate our wedding anniversary on Christmas Eve. It's 49 years this time. Forty-two years and I haven't let him—yet!" This may give you an indication of the spirit with which the Browns are recovering from the loss of all their belongings in the Bel-Air-Brentwood fire Nov. 6. Joe E.'s personal bravery is well known. He has a tower of strength in his wife, the former Kate McGraw.

Joe was in the East for TV ap

pearance when I called Mrs. Brown for their Christmas plans. She gave me a rundown on how they are faring since the disaster.

HAD TO FLEE FIRE

"We were watching the fire when it seemed far away," she recalled. "Then it exploded like a torpedo. We had to run for our lives. I came out with a house dress and a pair of mules. Joe with a sport shirt and slacks."

"Naturally Joe was upset about the mementoes which he had spent a lifetime collecting. As for myself, I never put much stock in personal possessions. My one big loss was the collection of first-edition juvenile books, which cannot be replaced."

"Our friends have been very generous. One friend turned over her house to us, even put her dogs in a kennel so we could have ours with us."

EVERYONE WONDERFUL

"Our family and friends have been wonderful about sending us family photographs that we had lost. The only thing I'm missing is a picture of my mother, but I'm working on that. One friend returned the print of Joe's This Is Your Life show; Joe had shown it at the friend's house and forgotten to take it home."

"Amazingly enough, strangers have been sending Joe money—a dollar, five dollars. We've been turning it over to the parish priest to help other families caught in the fire."

BOUGHT NEW HOUSE

"We sold our lot after paying property taxes that were due on the fire."

the house! I'm too old to face rebuilding. We bought another home in the same neighborhood, and I'm furnishing it now. Nothing grand—we're simple people and just want something the grandchildren can bounce around on.

"Joe took it very hard, but he'll work out of it. I don't need all those gold plaques to remind me what a great man he is."

"I think I'll give him a little wooden plaque myself. It'll just say, 'I think you're wonderful.'"

OUR ANCESTORS

By Quincy

Union Delegates Call for 'Lobbying' Rally

BAL HARBOUR, Fla. (AP)—

The AFL-CIO called Wednesday for a Jan. 22 rally of union leaders in Washington to push the labor organization's economic and legislative goals in the 1962 session of Congress.

Delegates to the AFL-CIO convention adopted a resolution authorizing the conference at which all AFL-CIO unions are to be represented and leaders of both political parties invited.

Union representatives attending the conference, it was stated, will have an opportunity to buttonhole congressmen in behalf of AFL-CIO proposals to help combat unemployment, and to enact health aid to the aged, education aid and other goals.

Buying License for Marriage Brings Quips

ALBUQUERQUE, N. M. (AP)—"I feel just like any other man at this point," says Sen. Henry M. Jackson, D-Wash., who soon will relinquish his title as the U.S. Senate's most eligible bachelor.

Jackson, 49, and Helen Hardin, 28, of Albuquerque, obtained a marriage license Wednesday. They are to be married here Saturday.

"You'll want some money somewhere along here," Jackson quipped as County Clerk Gloria Gonzales began filling out license forms.

"Oh yes," said Mrs. Gonzales. "The license fee is \$5."

"If this is all it would cost from here on out it would be all right," Jackson replied.

Using Electric Brain on Heart Diseases

WASHINGTON (UPI)—The U.S. Public Health Service announced plans Wednesday night to use an electronic brain to fight human heart diseases.

Dr. C. A. Caceres, a member of the health service's heart disease control program, outlined the use of digital computers in aiding a doctor's diagnosis of a diseased heart.

"The computer would mainly take over the routine work a doctor must do in studying a bad heart," said Caceres, who is co-author of a heart computer study presented at the Eastern Joint Computer conference here.

Curtail Free Textbooks for Alabama Students

MONTGOMERY, Ala. (AP)—Beginning next year, pupils in the fourth through sixth grades in Alabama public schools will have to buy their textbooks.

State School Supt. W. A. LaCroy said a money shortage is forcing a cutback in the free book program.

U Thant to Sidestep Plea for Cease Fire

UNITED NATIONS, N.Y. (AP) — Backed by the United States and the entire Asian-African bloc, Acting Secretary General U Thant was expected today to press U.N. action against the Katanga government despite Britain's call for a cease fire.

Thant told British Delegate Sir Patrick Dean he would turn Britain's cease-fire request over to his Congo advisory committee. But it was expected the British demand would be rejected in view of the overwhelming support for the U.N. operation in the Congo province.

The cease-fire call widened the split over Congo policy between Britain and the United States, which declared the move was not feasible until "minimum U.N. objectives" are obtained in Katanga.

The 49-nation Asian-African group unanimously approved a declaration hailing the U.S. stand on Katanga and throwing full support behind Thant.

Group chairman Mehdi Vakili of Iran said the group decided in a closed meeting to express appreciation for both the material and moral support given the U.N. forces.

In a reference to Britain and France, Vakili said the group had voiced deep concern at lack of cooperation from some permanent members of the Security Council.

President Moiné Tshombe called again Wednesday night for Katanga's ancestral territories to rally a shower of poisoned arrows on United Nations forces threatening his secessionist regime.

In a speech in Elisabethville, Tshombe called once more for total war against the U.N. and pledged his government "will never leave the national soil." Meanwhile, American Globemasters flew in fresh U.N. troops in what appeared a build-up for an all-out U.N. offensive.

Katanga's delegation in Belgium Wednesday night reported it had received word that superior U.N. forces had "launched a generalized attack." Dispatches from Elisabethville this morning, however, made no mention of any all-out U.N. offensive.

Britain's memorandum calling for a cease fire said Britain was alarmed over "the course of military events of the last few days, which they found difficult to understand in the light of the acting secretary-general's assurance that the objectives of the United Nations forces are to restore freedom of communications and to defend themselves."

The Soviet Union and the United States in a separate move set the scene for new disarmament negotiations by proposing that the General Assembly ask a new 18-nation committee to start disarmament talks urgently and report back by June 1.

After months of private discussion, the two major powers submitted a joint resolution to the main Political Committee proposing that eight nonaligned nations — Burma, India, the United Arab Republic, Ethiopia, Nigeria, Brazil, Mexico and Sweden — be added to the 10 nations that previously talked disarmament without getting anywhere.

The original 10 are Bulgaria, Czechoslovakia, Poland, Romania and Russia on the Communist side and Britain, Canada, France, Italy and the United States for the West.

Outbreaks in Alaska, Missouri

Flu Bug Flying . . . Fast

By THE ASSOCIATED PRESS

A lot of people on an island off the coast of Alaska and in Potomac, Mo., have the flu and chances are the United States faces a siege of it.

"These outbreaks are occurring right on schedule—this is about the time for them to start," a spokesman for the Public Health Service said in Washington. The service predicted some time ago there will be a considerable increase in flu cases this winter.

"This spread faster than any flu outbreak I can remember in 38 years of practice in Potomac," said Dr. George S. Cresswell, county health officer. "It hasn't produced severe cases and many of the children are almost well now. The virus is just starting to hit the adults. The children are hit first, then the adults, then the old folks."

Potomac's schools closed Monday when 500 of the 2,000 pupils were absent and will not reopen before next week. Potomac is a mining town 55 miles south of St. Louis.

Another outbreak was reported 80 miles southeast and across the Mississippi River at Watfah, Ill. Only 133 of the 325 high school pupils attended classes Wednesday. Flu was reported on the island.

(Continued on Page 2, Col. 2)

Round Up Agitators in Venezuela

CARACAS, Venezuela (AP) — Police Wednesday night launched a round-up of agitators trying to stir up trouble during President Kennedy's weekend visit.

Authorities announced the arrest of 50 persons accused of painting "Kennedy No" signs on walls and said nightly roundups of others trying to stir up disorder would continue under a special police command set up for that purpose.

The crackdown followed the planting of four crude bombs in various parts of Caracas Wednesday by terrorists bent on spoiling Kennedy's trip here to boost his Alliance for Progress program for Latin America. Only one of the bombs exploded, injuring two persons.

Brig. Gen. Antonio Briceño Linares, Venezuelan minister of Defense, told newsmen that the Caracas military garrison had been reinforced and that he would call up additional troops as necessary to "preserve national honor and dignity by all possible means" in guaranteeing President and Mrs. Kennedy's personal safety.

FUSE GOES OUT

An employee of the U.S.-Venezuelan Cultural Center, operated by the United States, discovered the first bomb—its wick fizzling on the porch in front of the center but the fuse went out before it could explode.

SITTING IN THE SUN—Mrs. Jodee Swannberg, wife of a Cape Canaveral missile engineer, lounges in the sun and on the sands at Cocoa Beach, Fla., and reads about the killing cold weather which struck her home town, Omaha, Neb. In the background, Eugene Wright of Detroit and his children play in the warm Atlantic Ocean waters.

Ford Buys 23-Mile, Shelby Road Plant

An estimated 2,400 workers now engaged in Ford Motor Co. trim operations in Highland Park are expected to be employed in Ford's newly acquired Curtis - Wright plant, Shelby Township.

Curtis-Wright and Ford yesterday afternoon concluded sale of the two manufacturing plants and 650 acres of land bounded by 23-Mile Road, 22-Mile Road and Shelby Road.

The plants had been virtually closed down after Curtis-Wright Corp. had failed to renegotiate a jet engine repair program with the Air Force.

Ford spokesmen today said no date had been set for moving of the soft trim operations into the Shelby plants.

However, they emphasized that Highland Park would retain an additional 1,400 workers now engaged in Highland Park tractor production, industrial engine production and passenger car paint operations.

TO DISCUSS TRANSFER

R. T. Scott, Highland Park plant manager, today said company and union representatives would meet soon to discuss transfer details of the other 2,400 men.

Trim operations presently occupy the upper floors of the multilevel Highland Park buildings which were built between 1913 and 1917.

"The buildings have been re-habited on several occasions in order to keep trim operations in Highland Park," Scott said.

"In 1957, the program for the renovation of our facilities was completed. Even with these improvements, however, we could not achieve the flexibility of product and layout that will be possible in the single story buildings at Utica."

The purchase of the Curtis-Wright property will permit us to move our operations into comparable new facilities. At the same time, the proximity to Highland Park will enable us to retain most of our employees."

(Continued on Page 2, Col. 3)

U. S. to Reveal Plans for Shelter Backing

WASHINGTON (AP) — The federal civil defense plans might come at the Gilpatrick conference.

The Washington Post reported today that one of the key points in the administration's program is expected to be a plan to contribute federal money on a matching fund basis for community shelter facilities.

And, in Olympia, Wash., an official of the State Civil Defense Department said Wednesday that a federal subsidy for the construction of 20 million public fallout shelter spaces throughout the country would be proposed to Congress next month.

The official, Harry S. Amand, information officer for the state agency, said the White House would announce the proposal today as part of an expanded civil defense effort for the fiscal year that begins in July.

A Defense Department spokesman said Wednesday night federal aid to stimulate shelter construction was under consideration. He said a major announcement on civil defense plans might come at the Gilpatrick conference.

The Washington Post reported today that one of the key points in the administration's program is expected to be a plan to contribute federal money on a matching fund basis for community shelter facilities.

WASHINGTON (AP) — The government is expected to announce today a plan to provide federal aid for fallout shelter construction in schools and other large buildings across the nation.

The announcement may come at a midmorning news conference by Roswell L. Gilpatrick, assistant secretary of defense.

A Defense Department spokesman said Wednesday night federal aid to stimulate shelter construction was under consideration. He said a major announcement on civil defense plans might come at the Gilpatrick conference.

Naval Reservists' Proud Moment

BEST IN STATE — Pontiac's Naval Reserve Surface Division 9-104 was honored as the top unit in the state last night by the Michigan Veterans of Foreign Wars. Shown at the award ceremony are (from left) Ensign Charles T. Shedd, chosen as petty officer of the year; Seaman Appren, Stanley M. Yarema, sailor of the year; Zigmund Cybulski, Michigan VFW commander; and Lt. Cmdr. Walter J. Fiel, commander of the Pontiac Naval Reserve division. See story on page two.

Record Demand for '62 Models Increases Jobs

E. M. Estes Announces 2 GM Divisions Plan to Hire 1,250

A sales boom at Pontiac Motor Division is creating an employment boom in Pontiac.

As a result of an unprecedented demand for the 1962 Pontiac and Tempest models, Pontiac Motor and Fisher Body Divisions are hiring approximately 1,250 new employees, according to E. M. Estes, General Motors Corp. vice president and general manager of Pontiac Motor.

Both divisions began hiring this week in expectation of increased production next month.

Of the 1,250 new employees, nearly 75 per cent will be hired by Pontiac Motor.

TO BOOST PRODUCTION

"To stay abreast of record retail sales, Pontiac will increase its production schedule starting in January," Estes revealed. "This will enable dealers to satisfy large numbers of unfilled orders and to maintain adequate stocks."

Retail sales of new Pontiacs and Tempests during the first 10 days of December totaled 12,488.

This was a gain of some 508 cars over the same period last year. There were 11,980 cars sold in the first 10 days of December, 1960.

Pontiac retail sales during November totaled 43,176 cars. This was an all-time high for that month.

However, the 1962 model year thus far is breaking all division records.

"This continuation of high-volume sales has resulted in a record new car introduction period for Pontiac," Estes said.

113,908 DELIVERED

"During the first 89 days of 1962 model sales, 113,908 new Pontiacs and Tempests were delivered to customers," he revealed.

During the same period during the record sales year of 1953, there were 108,217 new Pontiacs delivered to customers.

Thus the 1962 model year is about 7,691 sales out in front of the historic 1953 sales pace.

3 New Members Elected to Local C. of C. Board

The Pontiac Area Chamber of Commerce today elected three new members to its board of directors and re-elected three present board members.

The new directors, elected to three-year terms expiring Dec. 31, 1964, are Charles F. Brown, district manager, Consumers, Power Co.; Howard L. Canfield, district manager, Detroit Edison Co.; and Carroll L. Oursen, senior vice president, Community National Bank.

Current directors named to three-year terms were John A. Castle, public relations director; GMC Truck & Coach Division; and F. Milton Hathaway, a Pontiac optometrist.

William J. Dean, president of Dean Brothers, was re-elected to fill a term expiring Dec. 31, 1963, left vacant by the resignation last month of Horace W. Lodge Jr.

NATO Council Busy on Congo

Ministers Forget Berlin, Try for Katanga Peace, Study Own Defenses

PARIS (AP) — A new offstage effort got under way at the NATO ministers' conference today to get a cease fire in Katanga.

Belgian Foreign Minister Paul-Henri Spaak told newsmen his government is working "together with the French and the British for possible mediation" between secessionist Katanga Province and U.N. Forces.

The NATO council discussed defense problems in an atmosphere clouded by unresolved differences between some of the powers over the Katanga problem.

The U.S. government has refused to press for a cease fire in copper-rich Katanga until U.N. Forces have gained their minimum objectives of freedom of movement and safety of personnel.

This American attitude disappointed British Prime Minister Macmillan's government. Britain's concern over developments in Katanga is shared by France and Belgium.

Citizens of all three countries have important financial interests in Katanga's mineral wealth.

Now the British, French and Belgians are considering how they can go ahead on their own in an effort to get a cease fire in President Moiné Tshombe's secessionist province.

For the time being, the 15 NATO ministers put aside their differences over whether and how to negotiate with the Soviet Union on Berlin, and turned to the state of their military defenses.

The council authorized studies on how to make NATO a nuclear power and to equip the alliance's SHIELD forces with medium range ballistic missiles, West German sources reported.

This decision was said to have been taken at the suggestion of West German Defense Minister Franz Josef Strauss.

Appeals for Katanga Aid

NEW YORK (AP) — A newly formed committee today likened the Katangans to the Hungarian freedom fighters and appealed for aid.

Temperature Drops to Season Low of 12

The mercury in downtown Pontiac plunged to 12 above at 8 a.m. today, a new low for the season. There's a chance of snow flurries and a low of 18 tonight, the weatherman said.

Friday's prediction is partly cloudy and continued cold, the high in the low 20s. Mostly fair and a little warmer is the outlook for Saturday.

Morning westerly winds at 10 miles per hour will shift to northwest at 15 to 25 m.p.h. late today and continuing tonight. Winds will diminish slowly Friday.

At 1 p.m. the temperature in downtown Pontiac was 25.

The Day in Birmingham

School Board to Discuss Contracts for 4 Additions

BIRMINGHAM—A special meeting Jan. 2 has been scheduled by the Birmingham Board of Education to consider the awarding of contracts for construction of additions to four elementary schools.

At the same time the board will discuss selection of an architect for the Barman addition, the new junior high school on the Valley Woods site, and the district's new storage building.

Deadline for construction bids is Dec. 27.

The school board also has requested the Michigan Municipal Finance Commission to authorize the sale of \$2.5 million in bonds, about half the total of bonds approved by voters last month.

The total bond issue approved in the Nov. 20 special election was \$4,915,000.

The balance of the bonds will be offered for sale when the need arises, probably after July 1. The bonds being asked for authorization would be used to finance initial planning or construction of all buildings previously planned.

Harlan Ritz of 18146 Riverside Drive, Beverly Hills, has been elected president of the Birmingham Exchange Club for 1962.

Other officers are Dave Falvey, first vice president; John Dent and George Scott, secretary-treasurer.

Board members are Harry Allen, Ernest Edmond, Vernon Haugstad, Robert Thorson, Richard Turner, Richard Wilson and Robert Owen.

A liquor license for Sammy A. Butty of 219 N. Eton Road, operator of a grocery, has been approved by the Birmingham City Commission.

half the time was devoted to answering questions from the delegates.

Eisenhower's five-hour visit to Michigan included a brief talk to some 5,000 students and faculty members at Michigan State University. It was his first visit to the campus and his first appearance in Michigan since a whistle-stop tour during the 1952 presidential campaign.

In championing states' rights, Eisenhower declared that the pendulum of power has swung far from the states toward the federal government.

He added, however, that every state failure to meet a pressing public need has "created the opportunity, developed the excuse and fed the temptation for the national government to poach on the state's preserve."

"Never under our constitutional system," he asserted, "could the national government have so lightly assumed so much state responsibility and authority without the neglect, acquiescence or unthinking cooperation of the states."

Eisenhower said Michigan can lead the way for the other 48 states to have returned to them the responsibilities best exercised by the people of a state.

The convention, he said, has an opportunity to establish greater national development."

Albanians Back Home
MOSCOW (AP)—About 60 Albanians, members of the Embassy staff and their wives and children, returned on a Soviet plane today to Tirana now that diplomatic relations have been broken off.

Thwart \$280,000 Holdup

LONDON (AP)—Eight robbers wearing gas masks attempted to seize a \$100,000-pound (\$280,000) payroll today but were beaten off in a wild battle with five guards, a policeman and a police dog.

Hospital Budget Before Board

Okay of \$5.8 Million Figure Tops Agenda for Trustees Tonight

Topping the agenda for tonight's Pontiac General Hospital Board of Trustees meeting will be approval of the hospital's proposed 1962 operating budget.

The budget proposal is expected to be in the neighborhood of \$5.8 million—about \$800,000 more than the current \$5,023,120 budget.

"Most of the increase will be due to an increase in operating capacity," said Harold R. Eder, hospital administrator.

"When we figured the 1961 budget, the 23-bed mental health department had not yet been opened. The 1962 budget will be based on current operating costs."

To date, operating costs have reached \$5,548,000 this year, but this doesn't mean the hospital is in the red. The difference is expected to be made up as unpaid billings to patients come in.

Total anticipated income for 1962 is estimated to be \$6,094,150.

The budget must be approved by the trustees before it can be forwarded to the City Commission for the final approval and adoption.

NATO Ministers Told Reds Bolstering Subs

PARIS (AP)—The 15 North Atlantic ministers were told today the Soviet bloc is strengthening its missile-carrying submarine fleet.

An intelligence report presented to the NATO conference by French Adm. Max Douhet estimated the Soviet bloc has about 350 submarines in commission. Twenty of the most modern carry missiles, and four to six are nuclear-powered, conference sources quoted Douhet as saying.

Thomas Burdon, principal of the Hyalburg school, radiated for help and reported 100 of the 350 residents are ill. The town has no doctor.

Vaccine is scarce throughout Alaska and Ketchikan and its area.

No deaths were reported in the outbreaks in Pototsi, Wollake, Cape Girardeau, Hyalburg and Ketchikan.

Two Big Outbreaks of Flu Reported

(Continued From Page One)

increase on the Missouri side of the river at Cape Girardeau.

The Coast Guard sent a cutter with vaccine to the village of Hyalburg on Prince of Wales Island along the Alaska coast 80 miles west of Ketchikan.

Those jailed Wednesday night were charged on three other counts—unlawful assembly, parading without a permit and unlawfully congregating on sidewalks.

Nearly a dozen state troopers assisted 25 to 30 local officers in patrolling the streets downtown for an hour or more after the arrests.

The police chief blamed "outsiders backed by the NAACP" for the demonstrations.

Mayor Asa Kelley said that the peace would be preserved "at any cost."

Ford Purchases Plant at 32-Mile, Shelby

(Continued From Page One)

out 8,000 sales brochures to brokers all over the country.

Earlier, when Curtis-Wright had proposed use of the acreage for a big car racing operation, he had the Indianapolis "500," it had to battle a local home-owners' group through the courts, and finally won in 1960.

However no further steps had been taken toward establishment of the racing operation.

The property includes the former Packard car proving and test track.

In two main manufacturing buildings there is about 11-million square feet of floor space.

Scott said there is adequate floor space at the Utica plant to house present soft-trim production requirements. The trim plant produces cushion covers, interior door panels, headlining and convertible tops for the company's entire line of passenger cars and trucks.

Scott said equipment now used for trim operations at Highland Park will be moved to the Shelby Township plant and some new equipment will be added.

Schedules for moving the trim production equipment to Shelby Township have not been established.

Dixie City Warns of More Arrests

ALBANY, Ga. (AP)—Albany Negroes, with 300 of their race in jail for staging demonstrations, tried today to desegregate a bus terminal and police made 10 new arrests.

ALBANY, Ga. (AP)—Albany police warned more arrests would be made today if—as expected—Negroes resume their anti-segregation demonstrations.

Since Sunday, 355 Negroes and five white persons have been arrested in this Southwest Georgia city. More than 300 remain in jail.

There has been no violence and little tension in the two days of mass demonstrations resulting from the arrest Sunday of two Albany Negroes and nine "freedom riders" out to test segregation on interstate transportation facilities. White residents of this city of 56,000 have shown little close-range interest in the incidents.

The warnings of continued arrests came from Police Chief Laurie Pritchett after 200 Negroes, including many teen-agers and children, were jailed Wednesday night as they marched in protest of earlier arrests.

Indications were that more demonstrations would be staged as the trial of the freedom riders group resumes in record-city court.

The wholesale arrests brought from one Negro leader a charge that "a police state" exists within the city. The charge was made by M. S. Page, secretary of the pro-integration Albany Movement.

Page said the Negroes who had been arrested had done nothing but "walk the streets and pray."

Earlier 81 Negroes were herded into city hall after refusing to halt a kneeling and singing demonstration on the sidewalk in front of the building. All but one was released.

Recorder Abner Israel imposed a five-day jail term on Slater King, a grocer, for contempt of court. King, the spokesman for the group, is a member of the Albany Movement's executive committee.

367 JAILED

Police jailed 267 Negroes Tuesday for marching and singing in protest of the arrest of the freedom rider group. They were charged with disorderly conduct, obstructing traffic and failure to obey officers. The same charges were lodged against the 11 arrested Sunday.

Those jailed Wednesday night were charged on three other counts—unlawful assembly, parading without a permit and unlawfully congregating on sidewalks.

Nearly a dozen state troopers assisted 25 to 30 local officers in patrolling the streets downtown for an hour or more after the arrests.

The police chief blamed "outsiders backed by the NAACP" for the demonstrations.

Mayor Asa Kelley said that the peace would be preserved "at any cost."

Poor Allies... They Can't Get Together

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The Allies are a picture of disarray and confusion. They can't agree on how to deal with the Russians on Berlin. They're miles apart on what to do about the Congo.

There is so much grumpy for President Khrushchev. He began his running in Berlin last June, kept it up a couple of months. By September the Allies were clearly split on how to handle him.

He quieted down then, has been quiet ever since, letting them wrangle. Driving a wedge between them may have been the most he ever hoped to accomplish from creating the trouble in the first place.

Rich Katanga Province in the Congo, with its huge mineral resources, is the economic backbone of the country. Without it, the rest of the Congo is sick. Katanga's President Moïse Tshombe pulled it out.

Hired Soldiers
His native Katangese troops, who probably have no particular loyalty to Tshombe but are working for cash, are led by hired, white, outside professional soldiers, a band of mercenaries.

To restore peace the United Nations sent in troops to rout out the mercenaries. The United States backs this U.N. action. The British, French and Belgians do not. Rich Britishers, Frenchmen and Belgians reportedly have enormous investments in the mines of Katanga.

This split showed up again Wednesday in the one place where it is most embarrassing: at a meeting of the NATO foreign ministers. NATO is the Western power's military alliance against Russia.

Secretary of State Dean Rusk, at the NATO meeting, assured this country's 14 Allies it would never:

NO GIVEAWAY

Barter away the war-worn right of Western troops to stay in Berlin, weaken free access to Berlin through Communist East Germany or permit damage to West Berlin's economic and political freedom.

But he said the West must exhaust every chance of a peaceful solution to avoid the possibility of war with Russia. This means he thinks it's a good idea at least to discuss the problems with the Russians.

The British agree. The West Germans are said to agree. But French President Charles de Gaulle apparently not only doesn't want any bargaining, he doesn't even want any talking.

He thinks even discussing Berlin with the Russians is a show of weakness. Rusk says patience is not weakness. This back-and-forth bit could go on and on. The point is that six months after Khrushchev first stirred up the

Berlin trouble, the Allies are at Gaule came to power that made a career of being his own. United States could pretty well man, is demonstrating he will de-

There was a time before De Gaulle, who has side for himself.

This is all very impressive. But also very practical. The allied dis-

Khrushchev, in the next moves unity is an encouragement to him he makes, will show whether it's to push his luck a little harder.

Car Rolls, Woman Dies
STANTON — Beatrice Cade, 24, of Belding was killed late Wednesday when the car in which she was riding went out of control and rolled over on M57 in Fairplain Township, Montcalm County.

East German Police Stone Yule Trees

BERLIN (AP)—East German police threw stones today at Christmas trees set up in West Berlin along the Communist wall to remind the East Germans they are not forgotten at the holiday season.

Police said one tree in the American sector borough of Kreuzberg was damaged. The trees, gifts from cities in West Germany and foreign countries, are to be lit on Sunday.

Teen Girls Nix Fad by Boys in School Poll

NEW YORK (AP)—That tight pants fad among some of the boys apparently doesn't go over with the girls.

At least that's what the girls at George Washington High School say.

In an informal poll, after a style show Wednesday, the girls turned thumbs down not only on tight-fitting pants but loud socks and sloppy clothes worn by male students.

And the boys? They thought the girls wore too much make-up, but had no complaints about short, tight-fitting skirts.

Eastern City Takes Step Against Discrimination

WILMINGTON, Del. (AP)—The City License Bureau reported today no 1962 license will be issued to any restaurant owner who refuses to swear he will not discriminate against any persons because of race, color or religion.

The Wilmington branch of the National Association for the Advancement of Colored People recently had said there was discrimination in Wilmington restaurants.

Rhonda Fleming Suing

LOS ANGELES (AP)—Movie actress Rhonda Fleming is suing actor Lang Jeffries for divorce. The suit, filed Wednesday, accuses Jeffries of extreme cruelty. Both are 37. They were married April 30, 1960, and separated last Sept. 15.

Put Figure at \$500 Million by Summer

Cost of Reserve Callup Mounting

WASHINGTON (AP)—The opening of bases, expansion of the callup of reservists and National Guardmen is expected to cost more than \$500 million by next summer.

This is not the whole cost of the stepped-up mobilization begun last summer on President Kennedy's order. The rest of the estimated \$4 billion increase in the military budget, originally proposed last January, is for equipment, re-

for personnel costs, such as pay and subsistence, and \$140 million for operation of the two divisions. However, when the mobilization program was submitted to Congress last July, a preliminary over-all estimate for Army personnel cost was \$495 million. This figure included costs of building up Army strength through recall of reservists as well as reservists.

The Air Force uses a \$164 million estimate for personnel, saying this represents primarily the callup of Air Guard and reserve fighter and transport units, together with retention of units which had been planned for disbanding before the Berlin crisis developed.

The \$164 million is only for personnel and a relatively small amount for refurbishing bases for the units called up. It does not cover aircraft maintenance, fuel and other operating expenses.

A rough estimate for the Navy's cost in manning ships and aircraft squadrons with approximately \$42 million. Again, this estimate does not cover operating and other costs, still being calculated.

The operation and maintenance cost for all the services and for regular as well as reservist units has skyrocketed by an estimated \$81 million since remobilization days. This was disclosed last October in a mid-fiscal year estimate by the Budget Bureau.

NEWCASTLE-ON-TYNE, England (AP)—A lecturer on kleptomania—the irresistible urge to steal—was taken to court Wednesday for stealing.

Eletta Watts admitted taking \$7 worth of goods from two stores but told the court: "I decided it would be nice to take some things from shops and bring them along to illustrate my lecture and point out how easy it is to shoplift. Then I planned to return the goods the following day."

The magistrate wasn't convinced by her excuse and fined her \$28.

About 30 per cent of all U. S. workers are women.

Linda to Wed Britisher

ROME (AP)—Linda Christian says she and British actor Edmund Purdom plan to marry as soon as possible—"We hope early in the year."

HELD IN THEFT—Ralph Charlton-Hobbs, 45, of Beaver Falls, Pa., was arrested Wednesday by the FBI in connection with the theft of 10 contemporary paintings valued at over \$500,000. The paintings were stolen in July from a home in a Pittsburgh suburb.

Business Institute Plans Open House

The Pontiac Business Institute, recording highest enrollment in its history, will hold open house 3 to 9 p.m. Friday at its new headquarters, 18 W. Lawrence St.

Enrollment now totals nearly 500 students. Many of them will join faculty members in escorting guests through the modernized building.

The Institute's new headquarters is one of the most up-to-date structures in Pontiac. Extensive remodeling was done in 1957 at a cost of nearly \$100,000.

Light refreshments and pastries will be served by the Graduates' Club.

An Electric Dishwasher Frees Mother for Leisure

Holiday entertaining will be the dishwasher to be washed. Today's automatic dishwashers hold up to 14 place settings, including delicate glassware, china and silverware.

This Army Specialist Is Some Specialist!

FT. BRAGG, N.C. (AP)—His military occupational specialty is listed as veterinary specialist, but Sgt. Charles Paris of Billings, Mont., is serving the Army as a blacksmith.

"Far as I know, there are only three of us left in the Army," he says. His next assignment is official shoe for horses used by the U.S. Olympic team.

A dishwasher still simplify party preparations, too. The housewife can put pots, pans, bowls and utensils right in the dishwasher as soon as she's through with them. They'll be out of sight until it's convenient to put them away, cleaned and dried.

Mailman Whistles Tune to Fit Neighborhood

BUFFALO, N.Y. (AP)—When mailman Russell DiLeo whistles while he works, the tunes that come out of his mouth are the tunes of the neighborhood he serves.

On an exclusive street, says DiLeo: "I give 'em opera and light classics." He also whistles Irish jigs and Italian tarantellas, depending on the name on the mailbox.

by thorough rinsing and spot-less drying, leave them sparkling and sanitary.

A dishwasher for Christmas means a gift of hundreds of extra hours to be enjoyed all year.

It's a lot less difficult to get the kid's to help with the dishes, too, if they don't have to be hand washed.

Completes License Set

CHANUTE, Kan. (AP)—It took nearly two years but Ed Zastrow finally accumulated a complete collection of Kansas auto license plates. The collection, which includes one for each year they have been issued, extends from 1913 to 1961.

1-3-FIRE!—Several courses in weapons instruction are included in the course for Pontiac Civil Defense Auxiliary policemen. Shown on the firing range are (from left) Robert Sadtler, 102 Green St.; Robert E. Evans, 4145 Clinton

READY TO ROLL!—Three members of the Pontiac Civil Defense Auxiliary Police are shown loading emergency equipment in a practice session at the City Hall parking lot. They are (from left) Dick A. Dildine of 5888 Pontiac Lake Road, Waterford Township; Louis A. Tibbets of 56 W.

Photos by Pontiac Police Department
ville Road, Waterford Township; George K. Fro-
man, 35 Riviera St., Waterford Township; and
Jack Williams, 65 Williams St. Applications for
membership in the auxiliary may be obtained at
Room 103 of the Public Safety Building.

REVIVE 'VICTIM'—Auxiliary squad leader Albert Cooley (left) of 389 S. Edith St. and division leader Ralph O. Allison (right) of 5083 Westcamb Road, West Bloomfield Township, learn to operate an inhalator during a first aid class for auxiliary policemen. The "patient" for this session is Burt Cooley of 719 DeSoto Place, Pontiac Township, whose face is covered by the inhalator mask.

CD Police Auxiliary Gets Expert Training

By DON FERMOYLE

Minutes after an alert was sounded during a recent civil defense drill in Pontiac, a milk truck pulled up to the Public Safety Building at 110 E. Pike St.

The driver, Earl F. Ferrier of 4083 Ledgestone St., Waterford Township, scrambled out of his truck, hurried into police headquarters and reported for duty to Lt. Raymond E. Meggitt.

Within 45 minutes after the first word of the civil defense drill was sent out, over two-thirds of a 32-man unit of volunteers were in uniform and ready to be deployed throughout the area.

Ferrier and others like him who reported for duty so swiftly on the morning of the mock attack are members of the new Pontiac Civil Defense Police Auxiliary.

HEADS TRAINING SQUAD

Lt. Meggitt is in charge of the Pontiac Police Department's staff bureau which has the responsibility of training the auxiliary police.

Had it been a real enemy attack that day, the volunteer policemen may have been sent out with geiger counters to determine the amount of radioactive fallout in the air from enemy bombing raids.

Others could have been dispatched to locations where crowds were gathering to avert wholesale panic by frightened residents. Some, armed with 38-caliber pistols, could have been ordered to guard against sabotage at sources of water supply.

Pontiac's auxiliary policemen will have studied everything from the proper procedure for filling out accident reports to the emergency rescue techniques of atomic warfare when they complete their 52-week training course next year.

To join the auxiliary requires no special background in police work. Its present members include factory workers, businessmen, plant supervisors — men from all walks of life.

But before completing their year-long schedule of training, these men will have as much knowledge of police fundamentals as many full-time patrolmen.

Some of their studies include traffic control, first aid, self defense, weapons instruction, report and note taking, crowd and panic control and radiation detection.

Instructors for these classes are specialists in the fields they teach.

NEW CLASSES ARE PLANNED

A series of classes in explosive ordnance reconnaissance will be taught by an Army detonation expert from Ft. Wayne.

Asst. City Atty. Sherwin Birncrant will instruct the auxiliary policemen in several phases of criminal law starting next month.

The volunteers also are learning to master the police radio, geiger counter, firearms, inhalators and other emergency equipment from specialists in the city's police and fire departments.

"It's like operating a police department within a police department," explained Officer Harold Hayden of the staff bureau.

Hayden and other officers in the bureau spent six months in research before the local auxiliary even met for the first time. Other auxiliaries throughout the country were studied. Civil defense training literature was gone over to find the best, available. Instructors were lined up.

"I think our auxiliary program in Pontiac is better, or at least equal, to anything like it in the country," said Hayden.

"The cooperation we've received from the men is excellent. Many volunteered for traffic duty at football games and during the Christmas season downtown."

'NEED MORE RECRUITS'

"What we need now are more recruits," he added. Classes, which are held for three hours a session, are scheduled on both morning and evening schedules to accommodate men working different shifts.

RADIO DEMONSTRATION—Auxiliary police trainee Robert E. Peona of 455 Brooks St. (seated) operates the police radio at the Pontiac Public Safety Building under the guidance of

patrolman Medford Pittman (left), radio technician for the Pontiac Police Department. Watching the demonstration (right) is another trainee, Alvin Didway of 734 Scottwood St.

Katanga Spreads Discord, Doubt Among Allies

By PHIL NEWSON
UPI Foreign News Analyst

Like a stone dropped into a pond, the widening ripples from the United Nations Katanga venture have produced discords among allies and aroused serious doubts about the wisdom of the decision which sent U.N. troops into the Congo province in the first place.

Contributing to both was a sense of frustration arising from the fact that after 17 months and a succession of crises, the Congo conflict appeared no nearer a solution.

Other factors also contributed.

One was the obvious hostility to the U.N. forces among both the black and white populations of Elisabethville, capital of Katanga and center of U.N. operations.

Another was the suspicion that the United Nations was attempting to force a political decision on Katanga, thus exceeding its mission.

★ ★ ★

A third was sympathy for Moise Tshombe, secessionist president of Katanga who has been among the more militantly anti-Communist leaders in black Africa.

Contributing further to the doubts were reports that U.N. forces were proving themselves just as trigger-happy as Africans and that until their arrival Elisabethville had been about the most peaceful place in the Congo.

ANSWERS PLEASE

Tshombe proclaimed the independence of Katanga on July 11, 1960, 11 days after the Congo received its independence from Belgium. On the following day, answering a plea from Congo President Joseph Kasavubu and Premier Patrice Lumumba, the U.N. Security Council authorized the sending of troops to the Congo to re-establish peace and unity.

This established the pattern for subsequent events in which the U.N. sought to establish a strong central government in Leopoldville while at the same time dealing with other secessionist movements in Kasai and Oriental provinces.

What Tshombe had that the others did not were the strong financial resources which normally supplied the Congo with half its tax resources.

★ ★ ★

This came from uranium, copper, tin and gold with which Katanga abounds and which is dominated by the powerful Belgian mining company Union Minière.

Despite the violence swirling around it, the company last year was able to turn in a profit of nearly \$50 million and should do as well this year.

FINANCE ARMY

Tax income from Union Minière largely has financed Tshombe's army, paid for by Belgian, French and other mercenaries and purchased his weapons.

There have been charges that at least partially responsible for the Katanga operation. Whatever the cause, it has created friction among Britain, France, U.N. and the United States which enthusiastically has supported the U.N.

Declares Candidacy for Seat in House

DETROIT (AP) — Donald P. O'Keefe, an investment broker, has announced he will challenge State Rep. Waldren for the Republican nomination in the 14th Congressional District primary election Jan. 23.

O'Keefe, who calls himself an independent Republican, jumped into the race Wednesday with a charge that Grosse Pointe Republican leaders had persuaded him to let Waldren have the nomination without contest.

The 14th district seat was left vacant by the death of Democratic Congressman Louis C. Rabaut, Most of Detroit's East Side, Harper Woods and the Grosse Pointes make up the district.

Hospital Plans to Get Hip With Adolescent Unit

PHILADELPHIA (AP) — Lankenau Hospital plans to open an "adolescent unit" early in 1962 specifically designed to accommodate 10 patients between the ages of 12 and 18.

Raymond P. Hosford, director of the hospital, said Wednesday special menus will be offered. There will be a telephone within reach of each bed and the unit will have its own "group activities."

EXPERTS agree that coffee tastes best when made in glass, and this new, chrome-plated coffee maker percolates from two to nine cups in heat approved glass. Special lights in the base create a soft glow.

Research Pioneer Dies, Wife 3 Hours Later

CLAREMONT, Calif. (AP) — Sarah E. Hickman Taylor, 82, died Tuesday, only three hours after the death of her husband, date to be set.

Dr. Albert Hoyt Taylor, 83, a pioneer in research leading to the development of radar.

Services for both will be conducted at Arlington National Cemetery in Washington, D.C., on a date to be set.

Crash Into Tree Fatal

DEARBORN — Ernest G. Speiran, 56, of Dearborn was killed Wednesday when his car went out of control and struck a tree in Dearborn.

Famous Primitive Artist

Death Claims Grandma Moses, 101

HOOSICK FALLS, N.Y. (AP)—Grandma Moses, the spirited 101-year-old primitive artist whose work has appeared on 100 million Christmas cards, died 12 days before Christmas.

Grandma, who achieved worldwide fame after taking up painting in her late 70s, suffered from a chronic heart ailment.

Her health gradually faded at a nursing home, the Hoosick Falls Health Center, where she had been since July.

But on her 101st birthday, Sept. 7, the spunky, 100-pound farm woman vowed: "I'm going to live to be 200."

She was alone with nurses when she died at 3:15 p.m. Wednesday, her physician, Dr. Clayton Shaw, told newsmen.

She had been in an oxygen tent most of the day, the doctor said. Grandma recently expressed a desire to go home, he said, but she was "sort of indifferent to her surroundings lately."

Only a few weeks ago, however, friends had described her as "bright as a button" most of the time, despite her confinement and doctor's orders against painting.

MANY TELEGRAMS

In death as in life, she attracted the attention of people from all walks of life. Telegrams expressing condolence streamed into her family home at nearby Eagle Bridge, where she had worked.

President John F. Kennedy said: "The death of Grandma Moses removes a beloved figure from American life. The directness and vividness of her paintings restored a primitive freshness to our perception of the American scene. All Americans mourn her loss."

New York Gov. Nelson A. Rockefeller said: "She painted for the sheer love of painting, and throughout her 101 years she was endeared to all who had the privilege of knowing her."

There are about 3,000 miles of toll roads in the U.S.

PAINTED IN HER 70s — Grandma Moses, the little artist who took up painting in her 70s and became one of the best known artists in the nation, died Wednesday at Hoosick Falls, N.Y., at the age of 101. She had been confined to a nursing home since July. Her doctor said her death was peaceful.
