New-Con Okay Deadlocked by Canvass Board

Vote Certification Still
Hinges on Conference
With Atty. General

LANSING (UPI) — The Board of State Canvassers stood deadlocked today on whether it should proceed to certify the April 1 vote on the new constitution.

The board decided to confer with Atty. Gen. Frank J. Kelley later today before making a decision on whether to certify the results today or postpone this decision until the State Supreme Court hands down a decision on a challenge to the way in which the question was placed on voting machines.

Democratic board members David Leibenow of Detroit and Esther Waite of East Lansing stood together on the position that a week's postponement should be held.

Republican members Zee Burkholz of Benton Harbor and Carl Lindquist of Iron River wanted to proceed with the certification today.

"Holding up certification simply because a petition has been filed in the court would set a dangerous precedent," contended Mrs. Burkholz.

"Precedent has been that a board does not act while there is action pending before the Supreme Court," said Leibenow, chairman of the board.

Mercury Leaps Up to Summer-Like 77

Temperatures skyrocketed 25 degrees in downtown Pontiac this morning. The mercury skipped from a mild 52 at 8 a.m. to a summery 77 at 2 p.m.

The weatherman said showers are in store for the area early tonight and occasional showers may be expected through the weekend with precipitation measuring one half to three quarters of an inch.

Tomorrow will be partly cloudy and cool, the high reaching 55. Tonight's low will dip to 40.

During the night and early morning 2 to 4 inches of rain fell in downtown Pontiac.

Today's southerly winds at 15 to 25 miles per hour will become west to northwest late tonight and tomorrow.

The low recording before 8 a.m. was 50.

Waterford Man to Develop Downtown Renewal Land

The destiny of some 20 acres of urban renewal land in Pontiac's central business district will be in the hands of one man—at least for the next 12 months.

A Waterford Township man, Charles L. Langs, was designated as exclusive redeveloper of downtown urban renewal areas by the City Commission last night.

A formal agreement whereby the city will option urban renewal properties to Langs will be up for commission approval at next Tuesday's meeting.

Under terms of the proposed agreement the city would guarantee to sell Langs downtown

urban renewal parcels for which he can deliver suitable tenants and building plans during the next 12 months.

The commission will decide what is "suitable" using central business district development plans and urban renewal regulations as yardsticks.

The policy-making resolution approved unanimously at last night's meeting represents a departure from the advertising and sale of land by public bids.

Mayor Robert A. Landry, speaking for the commission, said that the city has solicited interest of numerous prospective developers and companies for several years.

"Many ideas have been discussed... but none have progressed to the stage where they could be presented to the City Commission for our consideration."

"We are convinced," Landry noted, "that we can no longer wait for developers to come to us with proposals."

"We are convinced that if a coordinated commercial complex is truly to be achieved within a reasonable period of time, it must be undertaken by one developer."

Landry said that the total cost of redevelopment in the (Continued on Page 2, Col. 4)

Top Stars Suspended
From the League for
Indefinite Period

From Our News Wires

NEW YORK — Paul Horning of the Green Bay Packers and Alex Karras of the Detroit Lions were "suspended indefinitely" today by Commissioner Pete Rozelle of the National Football League (NFL) for betting on games.

Five other Detroit players were fined \$2,000 each and the Detroit club was fined \$4,000 as a result of an investigation into pro football betting.

The five Detroit players were fined \$2,000 each for betting \$50 each on the 1962 championship game between the New York Giants and Green Bay.

The players are John Gordy, an offensive guard; Gary Lowe, a defensive halfback; Joe Schmidt, All-League middle linebacker; Wayne Walker, linebacker; and Sam Williams, defensive end. They were not suspended.

Commissioner Pete Rozelle supervised the investigation and announced the findings at a news conference in his office.

Rozelle explained that the indefinite suspensions meted out to Horning and Karras meant their cases could not possibly be reviewed "before 1964."

Horning, the gridiron "golden boy" from Notre Dame who led the NFL in scoring three times, was slapped down by Rozelle for betting on pro and college games himself and for giving a friend "specific information concerning NFL games for betting purposes."

Karras, 250-pound star tackle from University of Iowa who admitted betting on games in a national telecast, was suspended for betting and off-the-field associations with "individuals described by Detroit police as 'known hoodlums.'"

The Lions' club was fined \$2,000 on each of two counts. (Continued on Page 2, Col. 2)

Smoke Billows From Burning Oxford Church Today

Fire Ravages Church in North County Town

The First Baptist Church of Oxford, a landmark for more than 100 years, was destroyed by fire this morning.

Some 60 volunteer firemen from five area departments fought vainly to save the one-story brick structure located at 17 East St. It was valued at \$60,000.

Matt Mersino, owner of a gas station next to the church, turned in the alarm when he noticed smoke billowing from the building about 8 a.m.

The Oxford crew immediately requested assistance from the Orion and Addison departments.

"We thought we were going to lick it then," Oxford Fire Chief Ellsworth Sage said.

He said the flames were almost under control in the new education wing at the rear of the building before they spread to the sanctuary.

The fire departments of Brandon and Independence townships also took part in the 2½ hour battle with the fire.

Although cause of the fire is not determined, two youths living behind the structure said they saw lightning strike it shortly before 8 a.m.

Jerry and Dale Dijk, ages 14 and 11, said they were looking out a rear window of their home when lightning split a portion of the roof at the rear of the church.

Sage said he thought the building was burning for some time before the alarm was sounded. He added that lightning could have been the cause.

Bank Bandit Gets \$10,000 in Metamora

A young bandit armed with a sawed-off deer rifle held up the Metamora State Savings Bank shortly before noon today and escaped with about \$10,000, according to Lapeer County Sheriff's officers.

Described as about 30 years old, 5 feet 8 inches tall and weighing 150 pounds, the gunman entered the bank with the rifle tucked under his brown suede jacket.

He ordered Mrs. George Olds, 34, a bookkeeper, to lie down and sent 20-year-old Shirley Swales, a secretary, into the back room for Assistant Cashier E. Everett Perkins.

He then forced all employees of the bank and the only customer in the building, Billy Carpenter, 35, to lie down.

He made Perkins tie his ankles with a roll of adhesive tape, Perkins said.

Lyle Allen, 55, also an assistant cashier, was forced by the gunman to take the money from two tellers' drawers and fill a paper sack which the robber gave him.

"I don't have anything to lose," the bandit said. "I'll shoot you if I have to."

Perkins stated that the bandit advised them all to "lay still until I get out of here" and warned that "this thing makes an awful big hole."

Before leaving, he ordered Perkins to tie up his ankles with his own belt. Then he ran out the door.

Pass 65 Bills in Legislature

Small Loans Measure
Approved by Senate

LANSING (AP)—Michigan's Legislature moved into high gear yesterday and passed more than 65 of the some 250 bills awaiting final action on House and Senate calendars.

Although the sessions got under way late because of an inspection of the Wurtsmith AFB by about half of the lawmakers, the proceedings moved along at a fast pace once they started.

The Senate, in afternoon and evening sessions, passed some 50 House-approved bills — including the controversial small loans measure and a segment of Gov. George Romney's economic expansion program.

House members, with a lighter calendar, skipped the night session but also managed to approve more than a dozen bills, including a Romney-backed proposal on mental health.

MAY BE CONFERENCES

Most of the measures now go to the governor for his signature, but some will require concurrence by one House in amendments made by the other. Failing that, the bills will be sent to a conference committee.

One bill which appears headed for possible conference is the small loans act, which was approved by the Senate, 31-2.

As passed by the House, it would increase the ceiling on such loans from the present \$500 to \$1,500. But the Senate voted the hike back to \$1,000, and also trimmed the interest provisions from the House-approved 1½ per cent a month to 1¼ per cent for the unpaid balance over \$300.

Supporters of the small loans bill said it would allow people needing more than \$500 to arrange for larger loans at one company instead of having to go to more than one firm.

White House Analyzes Increases

Big Steel Unanimous on Price Hikes

From Our News Wires

NEW YORK—Big steel unanimously broke the steel price line today as White House Experts analyzed announced price increases for President Kennedy's approval.

The nation's seven largest producers had fallen into line, and

Steel stocks felt profit taking on the market today, most issues declining by sizable fractions.

President Kennedy kept in "constant touch" with his White

House Council of Economic Advisors from Palm Beach.

A White House spokesman said he did not expect the President to make any statement today because the council was still analyzing "the percentage of products covered and also the percentage of increases."

Flashes

LANSING (AP)—Insurance Commissioner Sherwood Colburn said today he and Blue Cross have reached agreement on a 2.5 per cent across-the-board rate increase, effective June 1.

WASHINGTON (AP)—The United States recognized today the new military government of Guatemala which three weeks ago overthrew the regime of President Miguel Ydigoras Fuentes.

The announcement of hikes in the price of three steel and strip items by Bethlehem Steel Corp., B. Hooper followed closely on the heels of National Steel's decision to up the price of selected products an average of \$5 a ton.

The firms apparently do not foresee a slowdown from President Kennedy similar to the one that made big steel back down on across-the-board price increases just a year ago.

To Continue Probe of Bobby's Death

The discovery of Robert Grinnan's body in Bloomfield Township yesterday did not close the case which began with his disappearance March 22.

The boy's body was found floating 15 feet from the shore of a small artificial lake near his home. A preliminary report following an autopsy listed drowning as the cause of death.

"The case will not be dropped by this department until we find out how he got into the lake," Chief Norman Dehake of the Bloomfield Township Police Department said.

There seems no way the boy could have gotten into the man-made lake, according to Dehake.

When the 12-year-old mentally retarded youth was reported missing from his Bloomfield Township home, the pond was covered with about six inches of ice — enough to support searchers who combed the area.

There are two storm sewers which empty into the pond, but the lines leading to the openings are not large enough to accommodate a boy's body being tumbled by a current, Dehake said.

LENGTH OF TIME

Much speculation will hinge on the length of time the boy was in the water.

Dr. Richard Olsen, pathologist who performed the autopsy on the body at St. Joseph Mercy Hospital, said it might be some time before this factor could be determined.

Robert's body was floating when discovered by two 12-year-olds (Continued on Page 2, Col. 5)

Pontiac Press Photo

OUT THERE—Martha Petrie (left) of 1133 Hickory St., Royal Oak, and Margaret Guest of 5624 Sutters Lane, Bloomfield Township, point to the spot about 15 feet from shore where

they discovered the body of Robert Grinnan. The two 12-year-olds had been hiking near the northeast shore of Lac Kirkwood.

NEW EMBLEM—"Follow courage and knowledge" is the motto imprinted on the new emblem adopted by Oakland University. The black, white and gold emblem is based upon the motif of a sail which symbolizes a search or pursuit of knowledge. The emblem will make its bow at commencement exercises Saturday.

Exiles to Embarrass JFK?

State Approves Two Requests

County Sought Mental Health, Jury Actions

LANSING — The community mental health bill and an amendment to the Jury Commission Act requested by Oakland County won final approval in the State Legislature yesterday.

The measures were headed for Gov. George Romney's desk for his expected signature.

The community mental health bill, to revolutionize Michigan's approach to mental health care by authorizing any county or combination of counties to set up treatment and diagnostic facilities, was passed by the House, 83-4.

Sen. Farrell E. Roberts, R-Oakland County, sponsor of the bill when it originated in the Senate, was pleased by the vote.

"I was glad to see bipartisan support for the bill," Roberts said today.

The measure was backed by Romney.

Its passage was one of the major legislative goals this year of the Oakland County Board of Supervisors, which is preparing to move quickly to implement a mental health program.

NEED YEAR OF STUDY
Roberts said, however, that a year of study would be needed to set up the program. The state would set the over-all guidelines.

The state also would provide not less than 40 per cent or more than 60 per cent of the funds for the program.

Local mental health centers also could accept public and private donations.

A House amendment to the Senate bill would allow persons who could afford private treatment to qualify under the program if no private treatment is available in their area.

The Senate bill excluded all who could afford private care. Roberts said he had no objection to the change and it would probably be approved by the Senate.

The Jury Commission Act amendment changes terms of jury commissioners from six to two years.

The act provides for commissioners to select prospective Circuit Court jurors from voter registration lists.

Jurors presently are selected from tax rolls by township supervisors and city assessors.

AP Photo/Ex

EMERGENCY TREATMENT — Three persons who were among the 600 trapped in a smoke-filled subway tunnel in Brooklyn received emergency oxygen treatment at the subway entrance. Two trains were stalled in the tunnel after a work train caught fire.

Document's Secrets to Be Revealed

From Our News Wire
NEW YORK — Cuban exile sources said today the Cuban Revolutionary Council will defy Washington pressure and make public a 10,000-word Cuban "white paper" described as "embarrassing" to the Kennedy administration.

The 23-page document, a copy of which was given Washington last April 5, will be made public at an open meeting of the council in Miami tomorrow night, the sources said.

Exile leaders said the Kennedy administration threatened council President Jose Miró Cardona with immediate deportation if the document is made public, and also said no council member ever would be received in Washington again.

Washington spokesmen denied both allegations. But administration officials said the U.S. might end its financial support of the council, estimated at \$2.4 million annually.

The council has been recognized by the U.S. government as representative of the 250,000 Cuban exiles here.

THREATENED COUNCIL

These and other developments which threaten to split and perhaps shatter the exile council came as refugees today marked the second anniversary of the ill-fated Bay of Pigs invasion.

While exiles hung black crepe on their doors, six of 12 revolutionary groups comprising the council reportedly were ready to accept Miró's resignation. The others planned to reject it.

The crisis in relations between the council and Washington erupted last week when Miró resigned as council president. His resignation was rejected.

At that time, however, the council voted against publication of its white paper.

Exile leaders said today the council in a secret meeting last night decided by majority vote to publish the paper. It was of what they termed Washington efforts to discredit Miró.

Name Man to Redevelop Urban Site

(Continued From Page One)

downtown urban renewal area is estimated at \$13 million.

The agreement with Langs can be canceled anytime after eight months if he fails to show "sufficient progress as determined by the commission."

City officials said the move is intended to accelerate redevelopment of the urban renewal lands, which include the tax base and adding "new vitality and vigor to the entire downtown area."

Langs, of 3631 Dorothy Lane, is experienced in land management, development and investment. He has been working since last fall with several companies and architects on redevelopment proposals for the renewal lands.

Under the proposed agreement, Langs, 51, would deposit a percentage of the current fair market value of land parcels based on resale appraisals.

He will also make monthly progress reports to city administrators and commissioners.

In disposing of the property through negotiation, Langs will do all the legwork, selling and planning at his own expense.

He will present interested tenants and detailed redevelopment plans to the City Commission for approval. If plans comply with urban renewal regulations and are approved by the commission, Langs will then buy the property and proceed with building.

CASH DEAL
Sale of the land will be a cash deal. Langs will be required to deposit a bond with the city to assure the development will be built as shown in the approved building plans.

Langs will then lease the property to the city.

CAROLINE AT PLAY—Caroline Kennedy, 5-year-old daughter of President and Mrs. John F. Kennedy, swings her toy horse around her head as she comes off the yacht Honey Fitz after a cruise with the Kennedy family in the waters off Palm Beach, Fla.

President Stays Alert to Steel Price Hikes

PALE BEACH (UPI) — President Kennedy stayed in "constant touch" with his economic advisers on the rising prices of steel today as he prepared for a two-hour flight to Andrews Air Force Base, Md.

It appeared Kennedy would make a public declaration on the steel situation until he appears Friday at a luncheon of the American Society of Newspaper Editors (ASNE) in Washington.

Kennedy did not plan as of now to go into the steel issue in his prepared speech on the economy — but he was expected to answer questions on the subject.

"I don't expect the President to make any statement today," acting press secretary Andrew T. Hatcher told reporters.

"The increases are being studied by the Council of Economic Advisers. The President is in constant touch with the council."

A White House official said the council was "making a factual analysis as to the percentage of products covered and also the percentage of increases."

Confidence was expressed that at least a preliminary report would await the president on his return to the White House from a seven-day vacation at Palm Beach.

He was scheduled to depart

Fisher Plant Saved by Own Fire Brigade

Quick action by the Fisher Body Fire Brigade this morning averted what could have been a disaster.

The plant department was praised by Pontiac fire officials for its fast work in extinguishing a fire in an electric motor on a paint thinner tanker truck.

"It could have been serious," said Fire Marshal Charles Metz. "If it had gotten out of control we would really have had a fire on our hands."

The 5,000-gallon tanker was being emptied when the fire occurred at 7:45 a.m., according to Harry Coyne, chief of plant protection.

The truck was parked just inside a receiving cage on Baldwin Avenue and near the north end of the main assembly building.

Metz said the fire started when a solenoid switch on the electric motor shorted out due to rain.

Judge Sees Danger for Youth

Most of Oakland County's juvenile facilities would be closed down and the proposed Children's Village would disappear from the planning board under a recent state attorney general's opinion.

The prospect was pointed out today by County Probate Judge Donald E. Adams, who hopes the State Legislature will save the day.

A bill currently on the floor of the Senate and expected to come to a vote this week would authorize the county to operate such facilities as its children's cottages, youth home, and Camp Oakland facilities, according to Adams.

Birmingham Area News

United Church Women Plan May Breakfast

BIRMINGHAM — The United Church Women of Birmingham will hold their May Fellowship Breakfast May 3, at Christ Church Cranbrook.

The breakfast will start at 9 a.m. and be followed by a program at 10 in the sanctuary.

Speaker of the day will be Rev. Paul W. Sherer, pastor of Faith Lutheran Church, Detroit.

Rev. Sherer recently made headlines when he offered his resignation to accept the pastorate of a new American Lutheran Church in Atlanta.

When Faith Church rejected his resignation, he made known the conditions under which he would remain in Detroit.

"Integrate or I leave," he explained. "We have a lot of gray-haired people who feel that they have already done their share and are willing to let the young people take over."

"Although our neighborhood schools are filled with young children, which means there are plenty of young parents around about 20 per cent of them are Negro, we are not reaching any of them."

His conditions were accepted and he remains at Faith Lutheran Church.

May Fellowship is sponsored by United Church Women which is a general department of the National Council of Churches.

The Birmingham group is one of more than 2,500 local and state Councils of United Church Women participating in this observance, all using the theme — One Family Under God: Genuine and Full Participation.

Music for the program will be provided by a clarinet ensemble from the music department of Seaboard High School, directed by Robert Kutzer.

Students in the ensemble are Howard Shertzer, Marilyn Dick and Karoly Bowditch.

Assisting in the worship service will be Mrs. Fraser Pomeroy and Mrs. Charles Burrell.

A committee under the direction of Mrs. Ronald Gregg of St. Andrews Lutheran Church, vice president in charge of Christian Social Relations, and Mrs. William R. Oates Jr. also of St. Andrews, chairman of the day, is in charge of the fellowship and program.

Presidents of the local Women's Societies will serve as hostesses. A nursery will be provided for small children.

Carl H. Erickson, Service for Birmingham tailor shop owner Carl H. Erickson, 67 of Madison Heights will be 1:30 p.m. Friday at Sparks-Griffin Funeral Home, Pontiac. Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Erickson died early today. He was a member of the Optimist Club and Embury Methodist Church.

Surviving are a daughter, Mrs.

\$4,000 Blaze Strikes Building in Waterford

Fire of undetermined origin last night caused an estimated \$3,000 damage to a one-story frame building at 3730 Elizabeth Lake Road, Waterford Township, and an additional \$1,000 damage to contents.

The building, formerly used as a sawmill but occupied for over a year, was called a total loss. It is owned by S. D. Solomon and Sons Construction Co. of Lansing.

The family has requested that contributions be sent to Christ Child School for Retarded Children, 31111 Lasher Road, Birmingham.

The bill in the Senate, already approved by the House, would nullify the effect of the attorney general's opinion, Roberts indicated. It's expected to pass, according to Roberts.

Grinnam Case Still Probed

(Continued From Page One)

year-old girls late yesterday morning.

Under ordinary circumstances, drowned bodies come to the surface within a few hours, Robert Templin, senior assistant county prosecutor, said.

If the body had been floating for three weeks, why hadn't someone seen it?

It could have been submerged, Templin said. He noted that temperature is a variable to be considered and that possibly the cold water had kept the body down.

FOUL PLAY POSSIBLE

Investigators have not ruled out foul play. Although they found no marks on the fully clothed body, police noted that the boots were on the wrong feet.

"I don't want to put too much into this yet," Dehnke said. "We must remember that the boy was retarded."

Robert's mother, Mrs. Joseph E. Grinnam of 5615 Peleshire Road, has been unable to remember whether she helped her son with his boots on the day he disappeared.

If the boy were abducted, the time element might provide a clue. The lake was being dried a few days after the boy was reported missing.

Dehnke recalled that a mounted sheriff's posse rode horses across the pond during the week-end immediately after the boy's disappearance.

But by the next week, state police skin divers were able to do some searching under the breaking ice.

Although Robert's disappearance started an extensive search of the township, the only real clue came a week later.

A neighbor woman reported seeing Robert riding with a man in a black compact car the day he was reported missing.

Police said they are continuing a search for the driver, described as 25 to 35 years old, with "reddish, sandy hair and long sideburns, prominent blue eyes and a neatly trimmed, full red mustache."

Besides his parents, Robert is survived by two brothers, Joseph and Edward, and a sister, Mary Lou.

The body is to be sent to the Stretch Funeral Home in Haver-town, Pa.

Service will be held at 11 a.m. Friday at St. Denis Catholic Church, Merwood, Pa., with burial in Holy Cross Cemetery there.

The family has requested that contributions be sent to Christ Child School for Retarded Children, 31111 Lasher Road, Birmingham.

It will be warm through the eastern third of the nation with a cooling trend west of the Mississippi.

Area Woman Killed in Crash

A 51-year-old Lake Orion woman was killed in a two-car accident in Pontiac last night.

Mrs. Sam McCall, 3875 Mill Lake Road, was dead on arrival at Pontiac General Hospital following the 7:30 p.m. crash at Cass and Sanderson avenues.

She was a passenger in a car driven by her daughter-in-law Mrs. Virginia McCall, 31, 3711 Mill Lake Road, Lake Orion.

Pontiac police said the McCall car was struck broadside by a car driven by Nell W. Gregory, 24, of 37 S. Edith St., when Mrs. McCall, the police said, ran a stop sign.

She told police that she saw the stop sign, but too late. Mrs. McCall said she was traveling west on Sanderson at about 40 miles per hour.

Gregory was going south on Cass Avenue. Gregory and Mrs. Virginia McCall were treated for minor injuries at the hospital and released.

The senior Mrs. McCall's body is at the Voorhes-Siple Funeral Home.

Famed Surgeon Dies; Daughter Lives in Area

PRINCETON, N. J. (AP) — Dr. Allen O. Whipple, a renowned surgeon and a trustee of Princeton University, died yesterday of natural causes in his home. He was 82.

Dr. Whipple leaves a daughter, Mrs. Richard J. Bing of 3861 Carriage Lane, Bloomfield Township, Mich.

City Unit Picks Subcommittees

Seek More Effective Human Relations

The city's Human Relations Advisory Committee has formed four subcommittees in an effort to increase its effectiveness as a functioning organization.

Irving Stehman, committee chairman, appointed the subcommittees at the group's April meeting. Stehman said he didn't think the committee had been functioning as effectively as it could in recent months.

The subcommittees will survey areas of education and unemployment, housing, public relations and research.

The education and unemployment subcommittee is composed of Fred V. Haggard and Joseph F. Kosik. Haggard is chairman.

Members of the housing subcommittee are Rabbi Israel Goodman, chairman; Rev. Joseph Moore and Charles Tucker.

The two-man public relations subcommittee is Charles Tucker, chairman, and Stehman. The research subcommittee is made up of Rev. Galen Hershey, chairman, and Leon Hubbard.

The nine-member advisory committee, appointed by the City Commission, will meet the second Friday of each month.

It was formed several years ago to obtain and insure equality of treatment for all Pontiac citizens through education, conciliation and investigation.

Capital Wives Spell Jackie for Receptions

PALM BEACH, Fla. (AP)—The White House said today scheduled official presidential receptions and engagements will go on as usual in the absence of First Lady Jacqueline Kennedy.

Mrs. Kennedy has canceled her part in these activities because she is expecting a third child in August.

Wives of top government officials will serve in her place as official White House hostesses, press secretary Pierre Salinger said.

She will leave Washington sometime in May to take up summer residence at a rented waterfront home on Squaw Island, Mass., not far from the Kennedy family compound at Hyannis Port, Mass. She plans to return to Washington for the birth of her third child.

Junior Editors Quiz on BRIDGES

QUESTION: Why are there so many different kinds of bridges?

ANSWER: Bridges have different jobs. Some cross tiny streams; others span over great rivers, bearing up heavy streams of traffic. These different jobs call for different construction.

Also, men have found different ways of building bridges during the course of history. Probably the first bridge was a fallen log over a stream.

Perhaps primitive man lugged another log alongside the first and so had a fine bridge (1). The Romans discovered the arch principle (2) where weight on the bridge comes down on a central "keystone."

The keystone passes the weight to the other blocks which come down to the ground. The truss bridge (3) is often seen over country streams where the parts standing up can be made of wooden beams.

Each beam takes part of the weight. The huge, beautiful suspension bridges which span so many large rivers close to cities are made of metal, and the weight is taken by cables which sweep gracefully down from high towers on each side. These bridges are not only extremely practical and useful, but beautiful as well, as our picture shows.

FOR YOU TO DO: There are several other kinds of bridges which we do not have enough space to illustrate or describe. Keep your eyes open and see if you can spot some, as well as figure out how they carry the weight.

Dies in Car-Truck Crash

DETROIT (AP)—Mrs. Rose McGregory, 37, was killed yesterday in a collision between her car and a milk truck as she was driving home from work.

For Sewer Project

Walled Lake Seeks Funds

WALLED LAKE — Before considering a \$1.5-million sewerage project, the City Council wants to find out if the federal government has funds which might be available.

Mayor Milton Parrish last night was given authority to travel to Washington, D.C. in behalf of the council.

He plans to confer with Michigan senators and other officials to determine Walled Lake's chances of getting a grant under the Accelerated Public Works program.

Last fall, the council agreed to

AREA NEWS

contribute up to \$24,000 for engineering of a Walled Lake-Nowi sewage treatment plant.

The city's share of the \$1,495,000 estimated total cost would be about \$895,000.

With preliminary planning completed for the plant and main

were asked to approve an additional \$8,000 expenditure for planning of lateral lines leading from the trunkline.

Engineers working with the Oakland County Department of Public Works gave \$200,000 as a "rough, rough" cost estimate for the lateral lines.

It was pointed out that preliminary plans should be ready before application is made for federal funds.

Contractors' bids for projects which receive aid must be submitted 120 days after the money is granted.

Because the sewage system

could not function without the lateral lines, they must also be in the planning stage when the county applies for federal funds, the engineers said.

Councilmen discussed possible methods of financing the city's share of the project.

Howard Bond, city attorney, advised them to take the least to the people, although he said it was not necessary to do so.

It was also noted that the city could drop the project now by paying its share of the money already spent on planning — about \$10,000.

Councilman Robert J. Buffmeyer suggested that a joint meeting with Novi officials be held after the mayor returns from Washington.

In other action, the council approved purchase and installation of a \$1,375 radio base station for the police department.

The station is for the new narrow band required by the Federal Communications Commission.

State Rejects Tax Request

Won't Provide Team to Study Assessments

SOUTHFIELD — The Michigan State Tax Commission has turned down an appeal from the City Council to have a tax team study Southfield's assessment procedures to see if any inequities exist.

The appeal from the council was made last week after Gerald E. Slick, then city assessor, charged the 1963 board of review with irregularities in its reappraisals of land values in the city.

According to Mayor F. James Clarkson, no further official action will be taken by the Council in this matter.

He added, however, that he believed property owners in the city would not stop here, and that he understood that the Southfield Federation of Home Owners Civic Associations, Inc. was planning to appeal current property assessments in Oakland County Circuit Court.

It is within the power of the council to order a State Tax Commission investigation of assessments in the city.

John J. Riley, secretary of the home owners group, said that an executive board meeting has been called for tonight to discuss the situation.

Hunt 3 Men, Boy Lost on Trip

BAD AXE (AP) — Police and the U. S. Coast Guard searched today for three men and a boy missing on a fishing trip in Saginaw Bay after a boat was found swamped.

The four left their homes in Saginaw yesterday morning and last were seen about noon buying minnows at a marina north of Bay Port, state police said.

The missing are Dennis Farver, 28; his son, Dennis Jr., 9; David Stewart, 30; and Edwin Belth, 28.

The Coast Guard today found a boat swamped off Bay Port where the four had parked their car and boat trailer. "We think it is the boat," but there was no trace of any occupants. A Coast Guard spokesman said.

The spokesman said the craft answered the description of the boat the four used.

Would Put End to Detroit Tax

Amendment to Minor Bill Proposed

LANSING (AP) — Detroit's city income tax would be wiped out under an amendment to a minor bill proposed on the Senate floor last night.

The surprise move was made by Sen. William Ford, D-Taylor, who asked for a roll call on his proposal after a challenge on its germaneness to the pending bill — an annexation measure — was ruled to have come too late.

Consideration of the amendment finally was postponed until Wednesday when Senate leaders found themselves trapped into a vote they would rather have avoided.

"I haven't seen such anguish over a simple little amendment since the session started," Ford declared, shifting his tongue to the other cheek.

Ford told a reporter later that he didn't think the amendment had much chance of being adopted, especially since both houses killed in committee measures which would have banned the levying of city income taxes on nonresidents.

Ford said something should be done to spur action on a statewide fiscal program — presumably including a state income tax — before more cities besides Detroit turn to payroll taxes to solve their local problems.

In his amendment, Ford proposed that a part of the law defining home rule charter privileges for cities be revised to delete the power to collect "excise" taxes.

It is this provision under which Detroit officials contend they now have the authority to levy an income tax.

Set Deadline to File for 2 School Jobs

ROMEO — Deadline for filing petitions for the two openings on the board of education in the June 10 school election is 4 p.m. May 11 in the board office.

The terms of Board President Walter Sewell and Harold Wainwright are expiring. Both will be for four years.

Walworth was elected last June to fill the one-year unexpired term of Dr. Ralph G. Renwick who moved away.

The board has relocated two of the three voting machines in the district. Beginning this year voters in the Romeo area will cast their ballots at the junior high school instead of the township hall in the village.

Election in Washington also will vote in the local school rather than in the township hall. Davis School will remain the polling place for district voters in that area.

Relief Corps to Observe 71st Anniversary at Fete

ROCHESTER — William P. Everett Woman's Relief Corps No. 227 will celebrate its 71st anniversary by entertaining district and department officers at a noon luncheon Friday.

The affair will be held at Avon Township Hall, corner of West Fourth and Pine streets. A program will follow the meal.

The missing are Dennis Farver, 28; his son, Dennis Jr., 9; David Stewart, 30; and Edwin Belth, 28.

The Coast Guard today found a boat swamped off Bay Port where the four had parked their car and boat trailer. "We think it is the boat," but there was no trace of any occupants. A Coast Guard spokesman said.

The spokesman said the craft answered the description of the boat the four used.

COLLEEN M. MENDHAM

An Aug. 17 wedding is planned by Colleen Marion Mendham and Lynn L. Van Alstine, whose engagement is announced by her parents, Mr. and Mrs. John C. Mendham Sr., 381 Lakeview Drive, Union Lake. The prospective bridegroom is the son of Mr. and Mrs. Van Alstine, 2465 Willow Beach Ave., Keego Harbor, and the late Mrs. Van Alstine.

ROBERTA A. SCHUMACHER

Mr. and Mrs. Stanley Schumacher, 43 W. Church St., Lake Orion, announce the engagement of their daughter Roberta Ann to James Raymond Pierce Jr. The prospective bridegroom is the son of Mr. and Mrs. James R. Pierce, 2760 Benetown Road, Walled Lake. An Aug. 10 wedding is planned.

Prize Paintings at Art Exhibit

Walled Lake Stores to Arrange Displays

WALLED LAKE — An art exhibit to be displayed in seven local store windows will feature the work of four prize winners.

Mrs. Lewis Serrano, 3518 S. Elder Road, Orchard Lake, placed first in the adult division of "Walled Lake Brush Strokes" with her water color "Abandoned Mansion."

First prize in the junior division went to Mary Fitzgerald, 15-year-old daughter of Mr. and Mrs. James Fitzgerald, 908 W. Maple Road. Her winning charcoal print is entitled "Portrait of a Girl."

Mrs. Karl Weber, 611 W. Maple Road, won second-place adult honors for "Still Life," an oil painting.

The pastel, "Horse's Head," earned a second-place prize in the junior division for Nancy Weeks, 15. She is the daughter of Mr. and Mrs. George Weeks, 2132 Fairfield Road, Wixom.

There were about 100 entries in the exhibit, which the sponsors hope will become an annual event, said Mrs. James Lobel, chairman.

Judges were Hazel Nauman of Hazel Studio and Art School; Stan Hens, teacher and artist; and Sandra Greniwecki.

The exhibition will open Friday at Tom's Furniture and Appliances, Big Valu Market, the D and C Store, Campbell Shoe Store, Fitzgerald and Sons Hardware, Walled Lake Floor Covering and Lee Bodin Cleaners. It will continue through Tuesday.

Plane Lands

Safe at Metro

DETROIT (AP) — A twin-engine DC3 cargo plane landed safely at Detroit Metropolitan Airport today after circling for almost three hours with a jammed landing gear.

Officials at Zantop Air Transport, Inc., owners of the plane, said the landing gear failed to retract shortly after the plane took off for Cincinnati with a load of auto parts at 4:55 a.m.

The plane, piloted by Capt. Lee Stanton, circled the field as Stanton and the copilot, aided by suggestions from the ground, worked to free the stuck left landing gear.

The gear finally was worked loose and the plane landed at 7:25 a.m.

Spectacular Fire Ignited as Gas Tanker Explodes

DETROIT (AP) — A gasoline tanker burst into flames on Detroit's Edsel Ford Freeway last night, touching off a spectacular two-alarm fire which delayed traffic for six hours and scorched nearby homes.

The driver, identified as Vincent Albano, 33, of Detroit escaped injury.

Police said the truck and a four-wheel trailer caught fire about 11:30 p.m., and flames, fed by several explosions, formed a huge orange-colored cloud over the scene.

Police ordered both sides of the freeway closed to traffic at 12:45 a.m. about 100 firemen with 25 pieces of equipment fought the two-alarm blaze.

One policeman described the scene as "a spectacular picture in technicolor punctuated by spasmodic explosions" and said the flames leaped scores of feet into the air.

DRIVING TO DEPT.

Albano, who drives for East Side Oil Co., distributing for Sinclair Oil Co., said he had picked up 9,000 gallons of gas and was driving to his employer's depot.

Police said a tire on the truck apparently blew out, causing a wheel rim to scar the pavement and generate heat and sparks, which touched off the explosion.

Patrol cars sealed off both freeway lanes from Van Dyke to Gratiot and within an hour untangled a traffic snarl in

408 Die in State Traffic

EAST LANSING (AP) — Traffic accidents have killed 408 persons in Michigan so far this year, provisional figures compiled by state police showed today. The toll at this date last year was 342.

School Named After Ex-Ortonville Man

ORTONVILLE — A junior high school in Center Line named after a former Ortonville man will be dedicated Sunday.

Special ceremonies are planned for 3:30 p.m. at Glenn H. Wolfe Junior High which will feature a talk by Center Line Mayor James L. Elsie, citing Wolfe as a "Citizen of the Community."

Elected to the Center Line Board of Education in 1940, the honoree has served on the board continuously since that time and since 1951 as its president.

PREPARE FOR MACKINAC — Discussing plans for their June trip to Mackinac Island are Oxford Troop 22's Scoutmaster Al Weckle, his assistant Glen Middleton and three of the scouts. They, along with others of the troop,

Oxford Boy Scouts Honored in Special Mackinac Duty

OXFORD — Boy Scouts of Troop 22 have received an honor not listed in their manual. The group has been chosen to serve as Fort Mackinac's honor guard during the first week of Mackinac Island's tourist season, June 6 to 13.

Troop Committeemen Homer Hight and Jack Pearson have worked for five years to qualify their boys for this honorary service.

Recently the troop received word that it was one of the few chosen for this year's season.

In addition to raising the flag over the fort and in front of the governor's summer residence, the boys will man seven sentry posts to answer questions about the fort and its history.

They will also dine with Governor George Romney as guests of the State Conservation Com-

mission, which administers the island.

During their leisure hours, the scouts will be guests of Mackinac's Grand Hotel where they will have access to the serpentine pool.

Those taking part in the venture will also have the opportunity for advancement in scout ranks while on the island.

PLENTY TO DO

A full day of duties is scheduled for the boys during their week on the island, beginning with a 7:05 a.m. reveille.

At 8 a.m., they will disperse to the 18 stations where flags must be raised.

One hour later, the seven guides will report to their stations and other scouts will be assigned service details.

Usually, the scouts on duty at the island split into two shifts, with those working in the morning having free afternoons to take advantage of the island's many facilities.

When off duty, scouts will be able to explore the historic fort and view the spectacular Sugar Loaf Rock and Arch Rock.

They'll also have an opportunity to see the old Harrisonville Indian Settlement and Skull Cave.

The working day will close at 6 p.m., with scouts lowering the flags at the Avenue of Flags and other locations on the island.

Evensings will be free for games, hikes or other organized activities.

Taps will sound at 10 p.m., and the scouts will curtail their fun, reporting to the special barracks on the island for the troops.

PTAs Planning

Safety, Elections on Slates

CLARKSTON — Mrs. Anita Schultz, first grade teacher, will present a program on water safety at the 7:30 p.m. meeting of the Clarkston Elementary School PTA tomorrow.

A detailed depth map of Deer

Foundation Sets Annual Meeting Tuesday Night

ALMONT — The annual meeting of the Community Hospital Foundation is scheduled for 8 p.m. Tuesday at the hospital.

Board chairman Thomas K. Richards of Almont will preside.

On the agenda is election of 17 foundation members and four members of the board.

Harold Prescott and Dr. John Nott, both of Romeo, and Leon Bishop, Almont, are on the nominating committee.

Reports also will be given by Foundation President James D. Ligon; Director James Cray, Romeo; Chief of Staff Dr. Glenn Smith, Imley City; and Auxiliary Secretary Mrs. Mabel Smith, Almont.

Mayor of Walled Lake to Address Chamber

WALLED LAKE — Newly elected Mayor Milton Parrish will speak tonight at the quarterly meeting of the Walled Lake Chamber of Commerce.

The 7 p.m. dinner meeting will be held at the Maxwell House, 111 N. Pontiac Trail.

Auburn Heights Couple Marks 50th Anniversary

AUBURN HEIGHTS — Mr. and Mrs. Walter Mehlberg, 3146 Margaret St., will celebrate their 50th wedding anniversary with an open house at their home 2 to 6 p.m. Sunday.

Married March 27, 1918, the Mehlbergs have a son Russell of Pontiac; two daughters, Mrs. Jan Gates of Pontiac and Mrs. S. A. McCullum of Alma; and six grandchildren.

School Board to Weigh Bids

Out to End 'Drag' With New Type Plane Wing

By RALPH DIGHTON
EDWARDS AIR FORCE BASE, Calif. (AP)—Both the Air Force and the Navy will be watching closely when an experimental plane with a "breathing wing" begins flight tests here late this month.

The Pontiac Board of Education will meet in special session tomorrow night to receive bids for a \$2.3-million bond issue.

The bonds will finance construction of two new schools, administration and service buildings and an addition to Irving Elementary School.

The \$2.3 million will complete a 10-year building program by 1964. The State Municipal Finance Commission approved the sale last month.

Schools scheduled for construction by next year are a new junior high school on Baldwin Avenue at the city limits and a new elementary school on Cottage Street on the city's east side.

PLANS APPROVED
Preliminary plans for a new administration building and a service building were approved last Thursday by the school board.

The administration building will replace the school district's offices at 40 Patterson St.

The new building will be erected at the Civic Center near City Hall. The proposed service building will be constructed on the southeast corner of Saginaw and Montcalm streets.

In other action, the Pontiac school board will consider a recommendation to establish the position of food service coordinator.

The board will also rule on a proposed change in the vacation pay policy.

Turns 69 at Hideaway

MOSCOW (AP)—Premier Khrushchev, 69 today, apparently is celebrating quietly in warm and sunny weather at Gagra, his holiday hideaway on the Black Sea.

The Soviet press made no mention of the premier's birthday, but this was not unusual. It normally takes note only of 10-year milestones.

However, the Communist party organ Pravda heaped lavish praise on Khrushchev for two collections of his speeches just published.

Pravda said the books "generalize the results of experience of organizational and political party work, and reveal the bright prospects of a further advance."

Study Center to Open
DETROIT (AP)—A new clinical study center for children's hospital will officially open at ceremonies April 24. The \$2 million center will provide facilities for research into medical care for children.

BACKGROUND OF THE NEWS SPECIAL REPORT

layer is only a few thousands of, or whirlpools drag at the moving object.
Then, as the molecules of air or water sweep past the vehicle, they are kicked outward by impact with its surface. In the air the result is thousands of tiny tornadoes; in the water, bubbling miniature whirlpools. Tornadoes are drawn from the surface of

the wings and expelled to the rear of the plane.
This system, Northrop says, eliminates about 40 per cent of the total drag on an airplane.
"Boundary layer control is primarily for long-range planes," says a company spokesman. "It is not intended for fighters because of the extra weight of the compressors and ducting."
Obvious applications include the proposed aircraft that could stay aloft several days on constant alert or fly long distances to launch missiles from altitudes too low for radar detection.

Cause of Sub's Disaster Won't Be Found Easily

All Americans were saddened last week at the disappearance of the submarine Thresher.

And compounding this tragedy which took 129 lives is the probability that not enough wreckage will ever be salvaged to determine the exact cause.

Without question, this is the worst submarine disaster recorded.

Until this terrible tragedy occurred the Navy's experience with atomic subs had been good. Their achievements have been outstanding, and we have felt they could be counted on as a strong deterrent to another war.

Certainly, the public should not lose faith in our Navy's atomic submarine fleet. It has proven its usefulness, and we are sure it will continue to serve a very good purpose.

Unfortunately, the depth of the water is bound to make it difficult to come up with a sure-fire explanation of just what happened. Piecing together parts at 8,400 feet, where the hydraulic pressure is terrific, will be an unsatisfactory job at best.

Davy Jones' locker is a pretty good guardian of secrets. This is not so true of land or air accidents. In the case of air crashes or train wrecks, after all the parts are placed together, the exact cause is often made known. This information can then be used to guard against any future occurrence.

We only hope that some good can come from the Navy court of inquiry which is now in session. To date there have been only sketchy reports, but we hope that for the safety of all mankind, some purpose can be served from this sea disaster.

Prayer Is Needed

This is an open letter to the person or persons who set afire the statue of Christ in front of an Orion Township church:

Your action, added to the Easter ceremonies of the area, only proved the need for prayer. Did you think you could hurt Him or His image, or the faith of millions?

Government's Bigness Causing Inefficiency

Government business in Washington has grown so big that even the heads of the departments and agencies often say it is next to impossible to cut out the waste and operate in an efficient, economical way during the limited time they are in office.

We'll buy these sentiments with the reservation that we do not feel it is a completely impossible job.

Former President EISENHOWER and his Cabinet officers found themselves in much the same position. They took over with great gusto, but soon found that despite their efforts most agencies and departments continued to grow in size.

A recent article in a news magazine pointed out that the Agriculture Department is so big and has so many rooms that during the Eisenhower Administration, a counterfeiting gang set up operation in the department. Its setup included engraving equipment and presses.

So it is easy to see that "big government" is actually so tremendous it is almost out of hand.

Sen. ABRAHAM RIBICOFF of Connecticut, former secretary of health, education and welfare, commented on overstaffing and duplication in

the executive branch in general and the HEW Department in particular.

He said: "There are 46 different agencies in the field of education alone. There are not only differences in functions, but some agencies are actually seeking opposite results."

When a former head of a department complains about the way it is operating and admits that he realized it but could do nothing, it certainly is discouraging.

Yet we somehow feel that any administration, Republican or Democratic, that really tackled the problem with some good old-fashioned horse sense could rid the taxpayers of a lot of the costly bureaucracy which has grown up in our capital.

The Man About Town

Our Man in Korea

Cheers Creditor Tailor,
Now Off Pins and Needles

By HOWARD HELDENBRAND

Some time ago tidings ran here that a serviceman who owed a bill to a Korean tailor shop had gone into voluntary bankruptcy in Pontiac and that, as result, dividends on the account would be forwarded from time to time to the far-off creditor.

The MAT lightly suggested if anyone happened to be passing the Incheon tailor shop he might drop in and relay the joyous news to Mrs. Jung Ja Moon.

Well, sir, never underestimate the power of a woman. The Press, former manager of the Detroit Edison Co. here, and now in Seoul on assignment, saw the piece in our newspaper. (Incidentally, he says that it takes from five to seven weeks for it to reach him. . . Holy Toledo! It must travel by bottle cast into the sea.)

So, on his first trip to Incheon, he dutifully acquainted the sole owner and proprietor of the Kum Sung Tailor Shop that financial success was on the way—that he was soon to be unshackled.

This is but another example of the fine spirit of service with which American utility executives have long been indoctrinated.

Incidentally, should any one of Mr. C's friends and fellow Rotarians like to drop him a line, here is his address:

하워드 헬덴브란드

주한 미국 경제 협조회

4444 Woodward Ave., Room 202, Detroit 20, Mich.
In case, however, you've grown a bit rusty on your Korean, it comes out: USOM Building, No. 82 Sejong-Ro Chongro-Ku, Seoul, Korea.

OVERHEARD DEPT.

Archle L. Barnett of Madison Heights says: "It'll be a sad day for the country when the President can decide what prices can be raised and how much."

And the City Club was the forum for the pretty Pertinent Pronouncement by Curtis E. (Curt) Patton of 314 S. Tilden St., that if taxpayers were allowed to vote on foreign aid and other large government expenditures perhaps our elected officials would not be quite so free with our money. . . Not a bad thought, at that.

A well-deserved word of commendation is voiced on behalf of the Pontiac Symphony Orchestra and the musical public for the brilliant program notes for the concerts written by

Mrs. James K. Rosenthal of 365 W. Irons Road, which she has prepared for eight years.

What with five concerts a year, you can figure out how much time and effort the dedicated lady has devoted to her labor of love.

The MAT's hearty salute on this performance above and beyond the call of duty, with the private satisfaction of knowing where to turn when he gets stuck getting out the column.

The way things are going, soon you won't be able, as the ball park hawkers cry, "to tell a robin without a scorecard."

Mrs. Dorothy White of 233 W. Ann Arbor St., sighted one with a special paint job—a white head, black and white speckled neck, red breast and black tail.

In these unsettled times, even birds won't leave the line.

The lady adds that pigeons are beginning to move into her area. . . Lucky, her?

David Lawrence Says:

Congress Should Study Steel Facts

WASHINGTON — Much has been said about the difference between so-called "liberals" and "conservatives."

Perhaps the simplest definition is that the latter have a profound respect for the economic facts of life usually obtained through actual experience, while the former cling to the illusion that there is some magic way by which two and two can make five.

A most interesting example of the value of economic facts is to be found in a table of figures printed on the financial page of the New York Herald Tribune on Tuesday of this week.

This gives the actual capital, expenditures and depreciation allowances of the 15 largest steel companies and a contrasts them with the dividends and the net income of the same companies in 1962.

If capitalism in the United States is to survive, and if Nikita Khrushchev's prophecy that our grandchildren will live under communism is to be proved wrong, then the four categories of figures in that table constitute the most essential piece of information that has been furnished in the perennial controversy about prices and wages.

This ought to be read and studied, particularly by those members of Congress who, at the behest of the White House, start investigations designed to persecute and intimidate businessmen who venture to raise prices, though no such scrutiny occurs when labor unions raise wages.

For what does the table show? First of all, there is the plight of the smaller company—like Lukens Steel—which has just raised its prices on selective items of steel.

The net income of Lukens for 1962 was \$3,273,000, but, out of this, \$1,241 million had to be paid in dividends—while, like "profits," seems to be an ugly word, though dividends are really a wage payment for the use of invested money.

People will never furnish new capital to a company that doesn't pay back what it has borrowed or whose stock diminishes in value when earning capacity deteriorates and dividends grow less and less.

NOT ENOUGH LEFT

Now, Lukens Steel in 1962 spent \$6,611,000 for plant and equipment, but its net profit—after paying \$1,241 million in dividends—was about \$2,033,000.

This is the sum that has to be put into surplus or used to pay off capital borrowed.

The depreciation allowance of \$3,018,000 isn't enough to cover all outlays for plant and equipment.

Is the situation any different with a larger company? The case of Bethlehem Steel corporation is even more discouraging.

paying operating expenses, was \$88,677,000.

There was nothing left to put into surplus. In fact, surplus of other years had to be used for dividends, and nothing was available out of 1962 earnings for new plant and equipment, for which a total of \$192,831,000 was expended in 1962.

The sum of \$155,466,000 was available from depreciation

allowance, but there was still a gap of \$37,365,000 in capital expenditures that had to be borrowed or taken from funds accumulated in previous years.

Profits are essential. Increased wage costs can be destructive when they wipe out profits or reduce them to the point where investors hesitate to invest their money in an enterprise.

(Copyright, 1963)

Bob Considine Says:

Roving Stories of Spring Not Supported by Facts

NEW YORK — Budding spring has a reputation for stirring men's souls (and feet) to stride off to far places in search of love, laughter, knowledge, adventure, youth.

But that reputation is fraudulent. An astonishing percentage of our people never go anywhere.

As we were noting recently, for example, only 18 per cent of the American people have ever been in an airplane, though we invented the machine and still make them better than anybody else.

Here are some travel and non-travel facts prepared by Opinion Research Corp., Princeton, N.J., for Boeing, Douglas, American, Eastern, TWA and United:

Half the people in the U.S. barely budge from home in a year.

Fifty-two per cent of our citizens never took a trip away from home overnight on a vacation last year.

Fourteen per cent of the U.S. adult population have never taken a round trip of at least 400 miles in their entire lives.

Fifteen per cent of all air travelers account for 64 per cent of the air trips.

Half of them have an income of more than \$10,000 a year, and 86 per cent are on expense accounts.

IT'S TV — EASY

The way Horace McMahon put it, it is a delightful trip to the Little League Convention at the Waldorf of the other day, it's a cinch to be a TV star.

Horace spoke with a certain ring of authority. He's the star of the ever-popular "Naked City."

"So there's this body lying in the street, some street they let us use here in New York," Horace explained.

"The body is mostly covered with a blanket. Doc is down on his knees working on the body with a stethoscope in his ears."

"I drive up in a Pontiac and get out."

"What's up, doc?" I always ask. Doc takes the stethoscope out of his ears.

"He's dead," Doc always says. "Real dead." Then he says some big words about what got punc-

ture that made him real dead. I nod, like I have what he was talking about, and the director yells 'cut!'

"After that, the lights go on, the camera guys pack up to move to another scene, and we take the blanket off the actor who's lying on the street."

"We can't leave him there, you know. He's got to play a cop in the next scene."

Voice of the People:

'State Needs Mandatory Vehicle Inspection'

Vehicles being operated on the highways with faulty brakes, defective headlights and other equipment such as bumpers and fenders, either missing or ready to fall off, endanger everyone.

A mandatory semi-annual vehicle inspection to inspect and ensure that vehicles have the proper equipment in a serviceable condition is needed.

Other states have this inspection system and many lives are saved on the highways through this program.

Donald W. Rexford
New Baltimore

'Church Can Afford Own School Buses' Were Overlooked'

The pseudo threat of "dumping" into the public school system would be as harmful to Catholic children as to all others. The Catholic Church could well afford to provide bus transportation for its own—instead it tries to use the children's welfare as a wedge to break down our tradition of separation of church and state.

Those who would approve this bill because "it will benefit the child and not the church" would open the door to a flood of similar requests for subsidies out of public funds.

It is time for protestants to begin a counterattack against the obvious campaign of public relations which has been flooding our newspapers, magazines and TV since Pope John XXIII was elected.

Write your representative in Lansing.

Mrs. Rae

By JOHN C. METCALFE

Here is just a little note

Which I send you from my heart

And it simply is designed

My affection to impart

No, I have not sent these lines

With some special goal in mind

But instead your heart I would

Only of my love remind

Oh, it is just as I feel

Like I want to find a way

Which will make you realize

That I love you every day

Maybe you will think it is

Quite a silly thing to do

After you have read this note

Which conveys such love to you

But if sentiments like these

You, my dear, were sending

One no one else in the world

Half as happy then could be

(Copyright 1963)

Reviewing Other Editorial Pages

Popular Senator
The Hillside Daily News

The President's brother, Sen. Edward M. (Teddy) Kennedy, is being given good marks by Senate colleagues of both parties for trying to behave like a proper freshman and keep out of the limelight. But there are days when it's tough.

Ten-age visitors touring the Capitol spot his easily recognizable face and they swarm happily around him, while veterans like Senators Fulbright of Arkansas, Morse of Kentucky and Morse of Oregon pass unnoticed.

See the World
The Russell (Kan.) Daily News

It used to be a young man had to join the army to see the world, but now all he needs to do is get elected to Congress.

Jobs for Youth
The Chicago Sun Times

The Republicans have failed in an effort to stall President Kennedy's youth employment bill.

The administration gives this high priority as a "means of reducing high unemployment among teen-agers." The bill would establish a Youth Conservation Corps (similar to the CCC of the depression days) and provide federal grants to states and communities to help finance local work for boys and girls.

There are about 700,000 unemployed teen-agers in this country. The bill calls for 15,000 jobs to be sent to forestry camps. That portion of the proposed bill calling for federal grants to states and communities to fi-

nance local work groups for both boys and girls is pure pork-barrel and it is doubtful that it will have any relationship to teen-age unemployment.

The first-year cost is estimated to be \$100 million. The amount of money that will be spent to keep two boys in a foster home for the year is three boys in relative luxury at Harvard for an equivalent length of time.

Further: It is highly doubtful that the skills acquired in a forestry camp will be of much value to a teen-ager seeking employment in industry. Employers and educators say that the chief reason for teen-age unemployment is inadequate schooling and the inability of the teen-ager to fit into an increasingly technical industrial society.

The youth employment bill is an expensive and unnecessary piece of legislation. It should be defeated.

Be Cautious
The Nashville Banner

The seasonal reminder is in order again: Watch those power mowers. Annually the toll occurs—of injury, or worse—usually because complete care does not mark their operation.

They are handy devices, in use by hundreds of thousands, and safe when operated by the rules. Those rules include:

(1) Be sure the area to be mowed is free of stones, wire, or other objects a whirling blade can pick up and throw.

(2) Keep hands and feet away from the blade.

(3) Don't mow down-hill; its easy to slip on grass.

(4) In cleaning a mower, or tightening the blade, first disconnect the spark plug.

(5) Keep children away; and by all means don't let a tot operate the machine. It isn't a plaything.

A power mower is a useful servant, he is remembered, but the motor-driven blade that can be safely risked to contact with hands and feet, fingers and toes, hasn't been built yet. And these are not expendable.

Pontiac City Affairs

Rezoning Near Final Approval

An ordinance to rezone three lots on the south side of Glendale Avenue near Telegraph Road for a new apartment building was all but given final approval at last night's City Commission meeting.

The rezoning was given tentative approval by commissioners following a public hearing on the ordinance.

Concurring with a recommendation from the planning commission, the City Commission made final approval dependent on acceptance of the developer's building plans.

The zoning change from Residential-1 to Residential-3 won't become effective unless plans are okayed by Carl F. Alt, city building inspector, for the type of apartment building proposed for the site.

The zoning change was requested last month by Jack Leih, of 2529 Garland Ave., Sylvan Lake, who has an option to buy the land.

BUILDING PROPOSED

Leih presented drawings of a two-story, modern apartment development he proposes to build on the site. The tentative plans call for a U-shaped structure housing an estimated 58 apartment units.

Current zoning of the 250-square-foot parcel at 607-611 Glendale Ave. restricts building to single family dwellings.

In another zoning matter, a request from Steve and Anna Secora to rezone from residential to commercial lots 609-10, Ferry Farm addition, was referred to the planning commission for study and recommendation.

Commissioners approved a transfer of ownership of a 1963 beer and wine license at 338 Central Avenue from Rodolfo Morales to Rolando Madrigal.

Commissioners also approved purchasing several parcels in Assessor's Plat No. 144 from the State Conservation Department. The land will be used for street openings, extensions and widening.

The special assessment roll covering a newly completed combined sewer on Baldwin Avenue near Colgate was confirmed in one payment.

NO OBJECTIONS

Special assessment rolls were ordered for three proposed public improvement projects after no objections were voiced at public hearings on each item.

The projects are a water main on the northeast side of Oakland Avenue near Sarasota, a sanitary sewer on Grayton-Asterwood streets, and curbs and gutters on part of Arlene Street.

Commissioners accepted cost

Conditional Pardon Offered Vietnamese

SAIGON, Viet Nam (AP) — Hoping to choke off support for Communist guerrillas, President Ngo Dinh Diem offered a conditional amnesty today to South Vietnamese fighting under the Communist flag.

He said defectors from the guerrilla side "will have to prove by concrete acts their total detachment from Communism."

The government reported its forces killed 18 Viet Cong and captured 13 others in scattered clashes last night and today.

It said eight government soldiers were injured.

Contract Talks to Start

DETROIT (AP) — Michigan Bell Telephone Co. and the Communications Workers of America AFL-CIO will open talks Monday on a contract to replace the present three-year pact which expires June 11. The CWA represents 15,000 Michigan Bell workers.

Kennedys' Easter Holiday Was a Bundle of Surprises

By ALVIN SPIVAK
PALM BEACH, Fla. (UPI) — Backstairs at the White House: Vacations with the Kennedys can produce a bundle of surprises, but the Easter holiday here brought several unique events that help prove presidents and their families are really human.

To begin with, there was the sudden decision by Mrs. Jacqueline Kennedy to stand still, and smiling, with her husband and two children while posing for photographs of the family in its Easter attire.

As a general matter, Mrs. Kennedy struggled to keep 5-year-old Caroline and 3-year-old John Jr. out of the range of news cameras. And photographers have to keep their cameras set for fast speeds to catch the President and First Lady on most of their public appearances.

VIVID EXCEPTION
Easter Sunday was a vivid exception. Mrs. Kennedy whispered instructions to the President to pose with her for family photos outside the home of the chief executive's father, Joseph P. Kennedy.

And while little John Jr. figured, the First Lady told him to "look at Captain Stoughton,"

who is Army Signal Corps Capt. Cecil W. Stoughton, official White House photographer. Little John obeyed.

There was another intriguing twist that day when the President, who likes to preserve some privacy while yachting in other wise public waters, fell in love with a sailboat that could travel faster with the wind than his 92-foot Navy yacht could go with motor power.

"Any chance of getting a ride?" the President shouted to six extreme understatement to six young men and women aboard the "Pattycoot," a twin-hulled catamaran craft built for fast going.

Hart to Address Grads

YPSILANTI (AP)—Eastern Michigan announced yesterday that Sen. Philip Hart, D-Mich., would be commencement speaker for the 119th June graduation ceremony.

AP Photo

NEW FINERY—Jacqueline Kennedy leads son John Jr. by the hand as they arrive during the weekend at the Kennedy Palm Beach, Fla., home for private Easter services.

Reds Advance in Laos Conflict

Surround Neutralists
at Two Positions

VIENTIANE, Laos (AP)—Out-numbered neutralist troops driven from their last jungle road outposts held only the strategic Plaine des Jarres and one other garrison today. Both were surrounded by pro-Communist Pathet Lao forces.

Pathet Lao troops routed trapped neutralists Tuesday from Dong Dauh and Ban Kosi, their last outposts on the road linking the provincial capital of Xieng Khouang and the Plaine.

About 100 of Gen. Kong Le's retreating neutralists and three tanks made their way through the jungle to the Plaine, sources returning from the crisis area said. One of Kong Le's aides reported three neutralists were killed, two were wounded and six were missing.

BULK TRAPPED

The withdrawal was the first neutralist pullback since the collapse of a short-lived cease fire Sunday. It left the bulk of Kong Le's army trapped on the hill-locked Plaine, a six-mile-long plateau 115 miles south of Vientiane. Pathet Lao forces hold the surrounding hills.

The neutralist general has another garrison at Phon Savan, a town 9 miles northeast of the Plaine. That, too, is reported surrounded by the Pathet Lao.

Kong Le has about 5,000 troops. He has estimated the strength of the opposing Pathet Lao forces in the area at 9,000.

'Discrimination Hurts U. S. Image'

BIRMINGHAM, Ala. (UPI) — U.S. Information Agency chief Edward R. Murrow said yesterday racial discrimination in the United States was the greatest handicap in promoting a favorable image abroad.

Murrow said the agency disseminates stories of racial unrest here in foreign nations because if they were not mentioned, people would learn about them from other sources.

His remarks were made in a speech ending the three-day convention of the Alabama League of Municipalities here.

The World Meteorological Organization exchanges information among its 116 member nations and promotes the development of weather forecasting.

What Are Car Makers Planning for '64? Here's Few Hints

By BEN PHLEGAR
AP Automotive Writer

DETROIT — In another four months the 1964 models will be rolling from the automotive assembly lines.

The advance planning is over. Decisions have been made. Commitments are firm. Testing continues, but the shape of things to come already is determined.

This is the time when hints about the new cars are being dropped, occasionally on purpose. Here are some of the things being said around Detroit:

In styling the major changes can be expected in the Ford and Mercury lines, in some of the Chrysler Corp. cars, in the Rambler American and probably in the Studebaker-Lark.

Most of the General Motors cars will receive only a face lift. Nothing startling was due for the coming year in the appearance line and fantastic sales successes seem to justify such planning.

GM is supposed to have some major changes coming, but they will be under the skin. One of these is the switch away from unit construction for the Chevy

II, Tempest, Buick Special and Oldsmobile F85.

ADD MORE SIZE

The B-O-P compacts all added size for 1963 and they'll add a little more for 1964 with a common body on a separate frame. Their wheelbase, now 112 inches, may grow to 115 inches. Chevy II apparently also will grow a bit, although not as much as the BOP's.

Another GM switch is in engines where Buick and Oldsmobile will go to cast iron instead of aluminum for the Special and F85. This decision is

said to be strictly one of cost. At one point Buick was ready to go all aluminum for 1964.

The Chevrolet Corvair will keep its unique, mostly aluminum air cooled six, but changes probably will boost displacement and add some pep.

The top-of-the-line Monza is accounting for almost 80 per cent of all Corvair sales this year and may well be the only series for 1964, other than the specialized Greenbriar wagon.

This would mean dropping the 500 and 700 series, already stripped to three models.

A report in Steel magazine says General Motors will be simplifying some of its automatic transmissions and that by 1965 it will be phasing out its Hydra-Matic.

Ford and Chrysler also have some transmission changes coming. Ford has a three-speed automatic to replace the sluggish two-speed on its compacts. Chrysler will offer a synchronized three-speed manual transmission.

MAY EXTEND SHIFT

And still on transmissions, Studebaker may extend the Borg-Warner power shift used this year on the Avanti to the rest of the corporate line. The power shift can be used as an automatic or shifted manually.

New bodies are due for Ford,

Thunderbird and the Mercury Monterey. The Monterey may be upgraded in size and price in another Ford effort to crack the Buick-Olds-Pontiac-Chrysler competition.

Chrysler's announced policy on styling is that it will make enough changes on a year-to-year basis to keep the cars looking new, and still keep the various corporation entries from looking identical.

Expect some changes to show up from new styling vice president Elwood Engel, who took over too late to make any noticeable contribution to the 1963 models.

The big news at Chrysler will be its gas turbine car. The company has promised 50 to 75 of

these by Jan. 1. Code name for the car is the Typhoon, but there are conflicting reports on whether this name will be kept on the finished product.

ITALIAN DESIGN

Chrysler had Ghia of Italy design two bodies for the car. These are being evaluated in this country now with June said to be the deadline.

Chrysler's announcement in December 1961, that it would build turbine cars in 1963 was greeted with skepticism by other companies. Ford and General Motors continue to maintain turbines are not suitable for passenger cars.

Chrysler insists turbines not only are feasible but that cost and production problems have

been solved sufficiently so that change for 1963 with the restyled Rambler Classic and Ambassador. Thus, nothing radically new will be available in 1964.

The American, however, will sport new dress, will grow from its 108-inch wheelbase and probably will look considerably more like the other AMC cars.

Grace, Prince to Visit

NEW YORK (UPI) — Princess Grace and Prince Rainier of Monaco and their children will arrive here today for a five-week visit to the United States, their first in two years.

Hero Sgt. York Back on Critical List

NASHVILLE, Tenn. (UPI) — Sgt. Alvin York, the tall mountain man who became one of America's best known heroes in World War I, was in critical condition again today, and new tests were planned in an effort to determine what caused his relapse.

The Congressional Medal of Honor winner was taken off the critically ill list at St. Thomas Hospital yesterday morning, and doctors said there had been "definite improvement" in his condition.

A few hours later, York, 75, developed a fever and an upset stomach.

Army to Draft 4,000 in June; Less Than May

WASHINGTON (UPI) — The Army said yesterday it will draft 4,000 men in June, 6,000 less than in May.

The draft for March was 9,000 and 10,000 for this month and May. A rise in enlistments with the end of the school year partially accounts for the drop in the June draft call.

The new Royal Bank of Canada Building in Montreal — 35 stories high — is the largest office structure in the British Commonwealth.

Some Blame Government

Restaurant, Hotel Business Takes Dive

NEW YORK (AP) — What's caused the slump in hotel and restaurant business?

Some figures in the industry believe the government's crackdown on expense — account living has brought on "recession thinking" and triggered the decline.

There's no doubt business is off, sharply. January figures for 120 hotels in 11 cities across the country show room revenues dropped \$1,455,423 from the 1962 level, while food sales declined \$855,253 and beverage sales were off \$363,480.

The figures were compiled by Harris, Kerr, Foster & Co., certified public accountants specializing in hotel auditing.

As for restaurants not associated with hotels, the National Restaurant Association has predicted a sales loss for one year in 38 cities of \$319,500,000 and the loss of 11,700 restaurant jobs.

The prediction was based on survey of leading eating establishments.

In the key convention city of New York, the prime market with a \$2 billion annual gross, the restaurant projection shows

an annual decline of \$117 million and a potential loss of 14,000 jobs.

OTHER DECLINES

The accounting concern said that 42 major hotels in the city with 35,000 rooms showed a decline in room charges in January of \$785,749, a food sales decline of \$591,819 and a beverage sales drop of \$233,716.

The crackdown started after congress passed new tax legislation last year in an attempt

to cut down on abuses of the expense account.

Many persons managed to deduct expenses that were largely personal in nature. The public complained as it saw people living lavishly at government expense.

Still the resulting legislation has been widely criticized by businessmen who believe it curtails deductions of many legitimate expenditures incurred in the pursuit of business.

NOTICE

It has come to our attention that many automobile policy holders are currently being cancelled because of minor automobile infringements. In many cases this is occurring after long successive years of continuous patronage. We feel this is wrong, and wish to advise that we have markets for this basically good business. We are here to serve the people of the Pontiac Area and SERVE we will.

CENTER

Wanting flower arrangements to be nothing less than perfect, these members of the Birmingham Branch, Woman's National Farm and Garden Association, do some work before the WNFG International Tea scheduled for April 25.

Seated are Mrs. W. Lloyd Kemp (left) and Mrs. Donald E. Irwin, both of Birmingham. Standing is Mrs. Max H. Fruhauf, whose Brookside Drive home will be the scene of the tea.

Should Club Pay Guests' Hotel Bill

By The Emily Post Institute

Q: I am the secretary of a women's club. We have invited the former president of the club, now living in another state, and her husband to be our guests at a dinner dance.

It will be necessary for them to spend the night at a hotel. We would like to know if the club should assume their hotel expenses, or do they take care of this themselves?

A: They pay their own hotel bill.

Q: I am going to be married soon. Both my parents are dead and I am living with my sister and brother-in-law.

Who should be seated last at the church? I know that ordinarily the bride's mother is seated last, but under the circumstances, don't you think it would be more courteous for the bridegroom's mother to be seated last since she is much older than my sister?

A: There's no special distinction in being seated last. The arrival of the bride's mother (in your case your sister) announces the bride's arrival at the church and is a signal that the ceremony is about to begin.

Q: My wedding reception will be held in a hall. From the past experiences of some friends, there have been a few so-called crashers at these gatherings.

In order to avoid this, would it be permissible to add, "No one will be admitted without this card" at the bottom of the reception invitations?

A: If you really think it necessary, it would be permissible to add at the bottom of the reception card, "This card necessary for admission." You will still have to have someone stationed at the door to the reception to admit only those with a card.

Q: I have received an invitation to the wedding and reception of a relative living in a distant city. It will be impossible for me to go and I am sure the invitation was sent simply in courtesy.

The invitation has R.S.V.P. on it. Is it necessary to answer this invitation since it is obvious that I will not be able to go. It seems senseless to me.

A: You need not send a formal third person reply, but it would be courteous to write a brief note to the bride saying how sorry you are that you won't be able to go to the wedding, but that you wish her every happiness.

Applied During Construction

OU's First Student Among Charter Grads

By JEANMARIE ELKINS

The first student to be officially accepted at Oakland University when it opened in September of 1959 will be among those in the charter graduating class Saturday.

She is Lynne Elaine Anderson, daughter of Mr. and Mrs. Frank A. Anderson, Oneida Road.

Lynne submitted her application in the summer of 1958 when construction on the buildings had just begun. Her interview took place off campus in what is now the home of Chancellor D. B. Varner.

Lynne was on the exploratory committee for student government in her freshman year as well as a member of the vocal ensemble.

Her other activities included ski club, for which she was secretary and treasurer, chorus and service as a student senator.

CARRIED FULL COURSE

This tiny girl (less than 100 lbs.) carried a full load of subjects as well as an occasional summer school course, and worked in a local women's clothing store from Christmas of her sophomore year through her junior and senior years.

Lynne plans to teach secondary education upon graduation.

uation. She has a history major and English minor. Her student teaching at Rochester High School was under the supervision of Mary Ann Andea.

Lynne hopes to find a teaching position in southwestern Michigan or northwestern Indiana. Marriage is in the near future for Lynne, who will wed

W. James Ruth III Aug. 10, the wedding anniversary of her mother and two aunts. James attends Tri-State College, Angola, Ind.

SHE WAS FORTUNATE

"I liked being part of something new and different," she commented on Oakland University.

Lynne believes that she was fortunate to be able to attend OU. According to her, the school makes students do more seeking on their own, so they appreciate what they learn more than if they were 'spoon fed' the information.

Lynne believes the courses at Oakland were liberally presented and hopes to be able to allow her high school students to do more work for themselves.

She thinks that most high school courses are not geared to prepare for college.

Although she was offered the opportunity to transfer, Lynne decided to stay at Oakland University.

She did admit that the university had some growing pains. This was apparent in the area of social activities for the charter class, but Lynne feels this is being corrected.

She believes that Oakland University offered her the best education; and education, not social life, was what she went to college for.

Of the graduating class of 146 seniors, Lynne is among 123 charter students who are all that remain of the 1959 entering class of 570.

Pontiac Press Photo

Adjusting her cap as she tries on graduation regalia Saturday is Lynne Elaine Anderson, daughter of Mr. and Mrs. Frank A. Anderson, Oneida Road. Lynne was the first student to apply and first to be formally admitted to Oakland University. She is one of 146 seniors who will be the University's first graduating class.

Rae-Vens Set Annual Style Show

The Rae-Vens will present their third annual fashion show "Sun and Fun Fashions" 8 p.m. Tuesday at the Elks Temple.

Three-time state champions, Rae-Vens is a precision marching drill team of 45 girls. Proceeds from the style show will be used for the girls' equipment and travel fund.

Fashions from the Bobette Shop will be modeled by team members and their mothers.

Models are Nancy Burgdorf, Goyanne Mansfield, Anne Madden, Colleen Copron and Marcia Olds.

Others are Carole Howland, Janet Rickman, Jana Ballard, Aleida Reid, Nancy Shadrack and Edna Isenberg.

Mothers modeling include Mrs. Hugh Hales, Mrs. Roy Shadrack and Mrs. D. A. Prey.

Tickets may be purchased from Rae-Ven members or at the door.

Hills Area Residents Keep Hopping

By SIGNE KARLSTROM

Mr. and Mrs. Charles H. Bay of Bloomfield Hills are back home after four months of travel. Mr. Bay was much surprised when he discovered that they had motored 10,000 miles.

In December they started their trip with California as their destination, intending, particularly, a visit with their son and daughter-in-law, Mr. and Mrs. George H. Bay of San Francisco. Christmas holidays were spent in their home.

From there, the travelers headed for Winter Park, Fla., to visit with son and daughter-in-law Mr. and Mrs. James R. Bay. Time also was spent in Fort Myers and Lake Worth, but when grand daughter Cynthia arrived on March 12, Mr. and Mrs. Bay came back to Winter Park.

On their way home to Michigan, the Masters Golf

Tournament at Augusta, Ga., became another point of attraction.

Arriving home for Easter were Mr. and Mrs. Richard Wagner of Abbey Road, who have enjoyed 2 1/2 months of travel in California and the Hawaiian Islands.

In Honolulu, the Wagners visited with Mr. and Mrs. Edward S. Wellock, who will return to their Kirkway Drive home in May. The Wellocks also have had visits by the James Peders and the Percy Lounds.

On Monday, Mr. and Mrs. Peter Diol of Marquette and their two little daughters, Kathy and Susan, left for home after a week's visit with Mrs. Diol's parents, Mr. and Mrs. Norman Johnson of Devon Road. Their son, Norman Jerry Johnson, also spent Easter holidays with

his parents and departed Monday for Stamford, Conn.

With the Richard Darraghs of Ardmore Road for Easter dinner were their good friends, the Bethel Kelleys and their daughters Mary Beth and Nancy.

Mrs. Charles J. Shain entertained at Easter dinner in Botsford, Inn. Guests were Mr. and Mrs. Arthur B. Tilton; Dr. J. B. Hensberger; Mr. and Mrs. W. Whiting Raymond, and friends from Grosse Pointe, Mr. and Mrs. Lewis B. Sappington and Mr. and Mrs. F. G. Garrison.

Elect President of Waterford Jaycette Unit

Mrs. James Curd was elected president of the Waterford Township Jaycettes Monday night at the annual election meeting at the home of Mrs. Ted McCullough, Chipman Street.

Other officers elected were vice president, Mrs. Frank Larkley; treasurer, Mrs. John Radenbaugh; recording secretary, Mrs. Richard Gilcrest and corresponding secretary, Mrs. Whitney Carnahan. Elected directors of the organization were Mrs. Arthur Burleson and Mrs. Richard Schwab.

MARCEY ANN AGREE

The George W. Agrees, West Ironquois Road, announce the engagement of their daughter Marcey Ann to Daniel S. Hahn, son of the Joseph Hahn, Belrose, Long Island, N.Y. Both attend Michigan State University. She is a staff member of Cranbrook Summer Theater.

Horsemen From Culver to Present Exhibition

Culver Military Academy's famous Lancer Platoon of the Black Horse Troop will bring their mounts from Culver, Ind. to present a drill and exhibition Saturday night at Bloomfield Open Hunt Club (BOH).

A sock-hop honoring the visiting Culver cadets will follow.

The exhibition will include a jumping competition and polo match between the Culver and BOH teams.

Local parents participating in arrangements are Mr. and Mrs. Richard M. Olsen, Mr. and Mrs. William B. Bachman, the Leonard A. Gardner and Dr. and Mrs. Luther Leader.

Others are Mr. and Mrs. William Hartman, Mr. and Mrs. Maynard Andree and the William McNaughtons.

Popover Dress for Spring

Spring into a "popover" dress. It's a full skirted dress with its own popover jumper—a three-in-one job that's perfect from early spring right through late summer.

Women's Section

She Wants Mate's Ex-Wife Not to Live on Same Block

By ABIGAIL VAN BUREN

DEAR ABBY: My husband owns three houses in the block where we live. When he purchased these houses we learned that his ex-wife and her second husband were living in one of them.

I know there is nothing between my husband and his ex-wife any more, but every time I run into her the funniest feeling comes over me. I hate to tell my husband to ask them to move when their lease runs out in August because they are good tenants, pay their rent on time, have no children and keep our property nice.

But, Abby, I don't like seeing a woman almost every day who was once married to my husband. What should I do?

BIG PROBLEM DEAR BIG: Don't ask your husband to ask them to move. If they were replaced by less desirable tenants, you'd never hear the end of it. This woman is part of the past. The past is dead. Bury it!

DEAR ABBY: I am a girl who just loves to dance. There are more girls than boys at our school, so if a girl doesn't cut in on another girl who's dancing with a boy, some girls never get a chance to dance.

I was wondering, when a girl wants to cut in on another girl so she can dance with a boy, whose shoulder

should she tap? The boy's or the girl's?

LOVES TO DANCE DEAR LOVES: I don't advise a girl to cut in on another girl in order to dance with a boy, but she should tap the shoulder of the one

PEO Group Names Those for Convention

Delegates to the 44th annual state convention April 16-18 at the Dearborn Inn were announced at the Monday evening meeting of chapter AW of the PEO Sisterhood.

Representing the chapter will be Mrs. Walter Teuwissen and Mrs. Joseph Bara. They will hear Dr. Don Shelley, executive director of Henry Ford Museum and Greenfield Village.

Speaker at the Monday meeting was Mrs. Leslie Tripp, who told of her trip to Lima, Peru.

There she visited her son Robert, who is connected with the Wyckoff Bible Translators, the summer Institute of Linguistics.

Mrs. Webster S. Francis of Orchard Lake was hostess.

To Show Film on Alaska at Junior College

Pontiac Chapter of the Associates of Michigan Christian Junior College will sponsor a film, "Alaskan Vacation," Friday at 7 p.m. in the college cafeteria on West Avon Road in Rochester.

Two 55-minute colored films will be shown by Grant Chapell, who has traveled extensively in Alaska.

Tickets may be purchased at the door, and children under school age will be admitted free of charge. Proceeds will benefit the Michigan Christian Junior College. Mrs. Richard Smith is program director. Assisting her are Mrs. Hugh Vick, Mrs. W. W. Largent, Mrs. Ruth Jones and Mrs. Don Hatcher.

Cadets from Culver Military Academy participating in a drill and exhibition at Bloomfield Open Hunt Club Saturday night include (from left)

Cadet Bob Lyle, Birmingham; Cadet Rick Olsen, Bloomfield Hills; Cadet Bill Hartman, Bloomfield Hills; and Cadet Tom Bachman, Oakleigh Drive.

To Consider Nominations

Mrs. James Shafor, senior regent, Women of the Moose, will meet with the nominating committee for the forthcoming election of officers Monday at 7:30 p.m. in Moose Lodge.

The annual mother-daughter, father-son banquet is scheduled for 6 p.m. May 8 in the lodge. Mrs. Jack Up-ton is chairman.

Widow Finds Cash in Hand-Me-Downs

By MARY FEELEY
Consultant in Money Management

Stretching dollars to keep the children in clothes can give a woman just about all the exercise she needs. There's nothing like it to limber up the imagination. Mrs. E. C. of Chicago came up with this idea that paid off for everybody concerned.

"I am a widow with two small children, a boy and girl, aged 7 and 8," she writes. "Last year I got a bright idea about what to do with the little dresses and boy's shirts, coats, and jackets which were outgrown and couldn't be handed down in the family."

"I printed some index cards with the articles and price of each... such as dress, 50 cents, coat, \$2, added my phone number and placed them on the bulletin board in my supermarket. Immediately I got phone calls from moms who had lots of kids and were happy to have the clothes. I made almost \$40."

Another letter on the same subject may spark ideas, where teenagers are concerned:

Dear Mary Feeley:
Mrs. W. D.'s question in your column recently, concerning the high cost of dressing her teenagers, prompts me to pass on this suggestion:

Resale shops are a good source for quality clothing at

a small price. Even though I am an accomplished seamstress, it is often cheaper for me to take my daughter to one of these shops, especially for formal and semiformal dresses.

Occasionally, a minor alteration means owning a high fashion creation that we couldn't possibly consider at the original price. Most of the merchandise offered at these shops has the appearance of being brand new.

New pep for tired husbands!

No wonder so many women complain that their husbands come home "too tired out to sleep out!" The churning tensions millions of men face on their jobs constantly drain them of the energy and vitality they might otherwise have.

That's why many doctors recommend supplementing the daily diet with **Kretschmer Wheat Germ**, nature's great "bonnie-bonnie" food. Made from the germinating heart of the wheat kernel, wheat germ is the most healthful food known, according to official U.S. Department of Agriculture studies of the nutritive value of foods.

Kretschmer Wheat Germ actually provides a total of 80 natural vitamins and minerals essential to good health, vigor and stamina! In addition, it acts like a spark plug to help the body use other high-energy foods more fully.

Serve your husband this remarkable natural food every day for breakfast and see for yourself how much more pep and vitality he has!

Use these delicious, tiny toasted flakes as a cereal, on cereals, or add to pancakes and scrambled eggs.

Kretschmer Wheat Germ is great for the entire family, so be sure to get some. Look for it in vacuum-sealed glass jars in the cereal section of your food store. Choose either regular or Sugar 'N Honey.

DAR Says No to Kennedy on Equality

By C. YATES McDANIEL
WASHINGTON (U)—The Daughters of the American Revolution rejected today President Kennedy's suggestion they aid "in the great struggle to close the remaining gaps in the American dream of equality and brotherhood."

Mrs. Robert V. Duncan, DAR president general, thanked Kennedy in a letter for the message he sent to the opening of the organization's continental congress, but explained that the DAR has no policy on either segregation or desegregation, and didn't intend to declare one.

The DAR, she said, does stand for states' rights and several resolutions before the 240 delegates today affirm this position.

Among the 12 resolutions for adoption are ones urging U.S. withdrawal from the United Nations and declarations against any agreement to limit arms and end nuclear testing.

Continuance of the DAR's traditional line against internationalism was assured when the leadership yesterday defended its 12-point policy stand against scattered questioning from delegates at the 72nd national convention.

The resolutions also hit at domestic proposals as the liberalization of immigration, the domestic youth corps and deficit spending.

The DAR is also expected to record approval for public schools to conduct nonsectarian religious exercises, and to disapprove the giving of personality tests to students for fear that they might warp youthful minds.

Last night, Sen. John G. Tower, R-Tex., told the organization that U.S. foreign aid funds are being used to force Latin American nations to develop "socialistic schemes."

He also contended that the assistance program "created a rather dangerous drain on our gold reserves" and has had a harmful effect on the American economy.

Tower centered his attack on the administration's alliance for progress program. He charged that as a condition for receiving U.S. assistance, "We are insisting that Latin American countries develop socialistic schemes, that they expropriate property, that they confiscate property, that they compete with private enterprise."

The United States is the world's products. Venezuela ranks second principal exporter of oil and oil end.

SEW SIMPLE

By Eunice Farmer

Dear Eunice: Several weeks ago you told us how to give a tapered effect to our straight skirts by stitching the side seam straight with the grain-line from the hips to the hem.

I have tried this, but I can't get a straight seam where the skirt is shaped out at the hem. Is there an easy way to sew this straight seam?

Mrs. R. W. First, remember that I mentioned stitching the seam straight from the hipline to the hem. When you fit your self, be sure there is a minimum of 2 inches extra fabric at the hips to assure proper ease.

To be sure the grain-line is perfect, measure from the center front to the side seam at the widest part of the hips, after the skirt has been properly fitted.

This measurement can be marked the same distance in several places on the lower skirt.

Do the same with the skirt back (this measurement will not be the same as the front).

Stitch the lower part of your skirt on these new marks and it should hang perfect if you have been accurate.

★ ★ ★

Mrs. E. says: "After each piece of your old dress has been ripped apart, and carefully pressed, (cottons should be laundered and lightly starched), pull a thread down through the center of each piece.

This is the exact grain of the fabric and a perfect way to be sure your new dress will be cut with the exact same grain-line that was originally marked on your pattern.

★ ★ ★

Dear Eunice Farmer: Should a back zipper be inserted so the edges meet at the center or installed like a skirt zipper?

Mrs. G. C. You will find that most of your good clothes today will have the back zippers lapped just like a skirt zipper.

After all, the zipper is certainly not a decorative part of your garment and we want to conceal it as much as possible.

Prefer you are closing a side seam and simply shift to the center and back and your zipper will be lapped in the correct direction.

★ ★ ★

Dear Eunice: "I don't look good in a tuck-in blouse and wonder if it is possible to make an overblouse out of one?" Mrs. M. K. Dear Mrs. M. K.: Yes, this is possible and not too difficult. The darts will probably have to be changed to suit your figure, an overblouse is usually fairly straight (however, this should be decided by the individual figure).

You will probably have to shorten the blouse a little.

Be sure to leave a generous hem of at least 1 1/2 inches. The hem should be finished with a bias strip of interfacing 1/2 inch wider than the hem.

This will give the overblouse a firm look at the hem. After all, an overblouse is actually a type of jacket and if you were making one from scratch, I would suggest you under-line it completely with a light weight firm fabric.

JOYCE ANN GLOSCH

July vows are planned by Joyce Ann Glosch, daughter of Mrs. Howard Taylor, Giddings Road, and the late Otto Glosch, to Rev. Jon Allyn Thomas, son of Mrs. Chester A. Thomas, Marion, Ohio, and the late Mr. Thomas. Both attend God's Bible College, Cincinnati, Ohio.

Pack Clothes for Traveling

If you live out of a suitcase, even occasionally, make sure you pack in layers — heavy things first, smaller pieces last.

Put underwear, towels, and items that don't require pressing on the bottom layer. Fasten bottle caps with adhesive tape and place in plastic bags or inside shoes.

Fold delicate clothing carefully and insert crumpled tissue paper to prevent creasing.

International BUFFET

FRIDAY EVENINGS 5 P.M. to 9 P.M.

An exotic array of sea foods, Italian, French and German dishes including salads and sauces renowned throughout the world.

KILLED — Brig. Gen. Bernard M. Davey, 47, was fatally shot and his wife wounded in Atlanta, Ga., in what she called an argument over her failure to meet the income tax deadline.

Romney Eyes Insurance Row

May Order Review of Blue Cross, Shield

LANSING (AP) — Gov. George Romney said yesterday that if there is no solution within a reasonable time on the growing problems of Michigan Blue Cross-Blue Shield then he will order a thorough review of the situation.

Romney's comment was made to newsmen in response to a statement by State Insurance Commissioner Sherwood Colburn that he would request such a study in a letter to the governor. Colburn also has said he will seek legislation on the matter.

Romney said he hasn't yet decided just how to go about setting up such a review—or even if it will be necessary.

But he observed that the medical-and-hospitalization programs reportedly are faced with the prospects of a mounting deficit.

REFUSED BLUE CROSS

Colburn recently granted a rate increase for Blue Shield, but declined to authorize a Blue Cross boost until certain conditions were met.

"I hope a settlement can be achieved at an early date," Romney declared. "Otherwise, the situation can become very serious. If it's not settled within a reasonable time, a review will become inevitable."

Romney declined to say what he felt to be a "reasonable time."

"Continued failure to arrive at a solution would tend to make the problem worse," he said. "The longer there is a delay, the greater problems there will be in the future."

Romney pointed out that under present laws, the insurance commissioner has the authority to act and the governor can only study the situation.

This Is an Era of Beloved Corruption Among American Males

By PHYLIS BATTELLE
NEW YORK — I wonder how many American men cheated on their income tax returns this year.

Everybody? Ah no, that's too cynical.
Half? No, that's naive.

The government, hard as they audit those returns, will never know—but the chances are that a hefty proportion of the re-
turns, which the BATTELLE revenue's are even now processing, are in some way dishonest.
"It's HUMAN to cheat on your income tax," says a businessman.

"You've got to jack up your expenses on the return, otherwise you lose your shirt in an audit."

"You know how the Internal Revenue Bureau thinks. You're guilty until proven innocent. Isn't that true?"

But cheating on your tax is small potatoes compared to other minor and completely moral, who obeys all the laws of God, nature and courts is looked on as an eccentric, a neurotic, a square.

We're living in a time when being dishonest (without being caught) is almost a sport; an era when the man who is completely moral, who obeys all the laws of God, nature and courts is looked on as an eccentric, a neurotic, a square.

It's considered almost virtuous to do the wrong thing.

"Sure, I go out with women when I come to New York," says a Midwest businessman.

"The boss thinks he's doing me a favor, fixing me up; you have to go along, or you look like a jerk."

This is a time when the average man gambles with the books.

It's illegal, but as the two-dollar better says, "You know anybody who doesn't, once in a while?"

You have a few drinks and crack up the car: that's okay, you paid the 50 dollars, didn't you? You go to church every Sunday, then every weekday you curse your favorite minority.

You boost your expense account, filch hotel towels, goof off on your job, bribe cops.

You become a scowllaw, big deal!

As one scowllaw told me, "Just forgetting to pay a few parking fines isn't a federal offense, is it? I'm not a Billie Sol Estes."

"And say, how about that Estes? Right after he's convicted, he starts lecturing church groups. What an operator!"

There is admiration in the Scowllaw's voice.

This is an era when a man who loses his integrity — say, a Charles Van Doren — becomes a hero.

The subcommittee chairman who hears a confession of his dishonesty says publicly, "God bless you."

It is a time when a corrupted man who is contrite is more beloved than an honest man who has nothing to be contrite about.

I didn't think must about this

sordid state of our land — (like the network executive who's offered a bribe to put a show on the air, I just accepted it) — until I went to work researching an article called "The Corruptible Male" (in the May "Cosmopolitan").

Then I realized, sickeningly, that the phrase, "To thin own self be true" is a lost antiquity, and that the phrase, "This is the way business is done" is the motto of the day, among American men.

And what of women? The answer isn't simple. Certainly

some women gamble, cheat and steal without conscience.

But women, on the whole, are not in the mess men are — largely, I suspect, because they MUST retain more ethics, courage and stability than men, or the family collapses.

They MUST display more softness and sympathy, or they will not find fathers for their children.

The chief crime of women is that they stand back, allowing integrity to die, because they

have a hazy feeling that they, themselves, are responsible.

In achieving equal opportunity, they fear they have failed their men and their sons. In spite of the statistics which show women to be superior, physically and spiritually, to American men, they simply do NOT want to run the country.

The U.S. has gone into a moral dive: It will take a long time to bring "integrity" back to popularity. But this I know:

Only women, with the help of God, can do it.

Pulls Titan's 'Tooth'
TUCSON, Ariz. (AP)—Dr. Robert Ratcliffe, a Tucson dentist, completed an extraction on his biggest patient—a 103-foot giant.
He had to remove a broken drift pin in the second-stage engine of a Titan 2 intercontinental ballistic missile.
Although he had to do more drilling than he likes and broke two drills, he succeeded in removing the impacted particle.
The trouble developed when the pin snapped in one of the attach holes of a heat resistant skirt around the engine. No machine shop in Tucson had the delicate instruments required for removal of the pin.
Martin Marietta Corp. executives decided it was a job for a dentist, so they made an appointment with Dr. Ratcliffe.
Prohibition Party Plans St. Louis Convention
WASHINGTON (UPI)—The National Prohibition party will hold its presidential convention in St. Louis Aug. 28-29.
The decision was announced by the party's executive committee which also said party headquarters would be moved from St. Louis to Kalamazoo, Mich., home of the new national executive officer, Dr. D. D. Gibbons.
U. S. Chamber to Give Gen. MacArthur Plaque
WASHINGTON (AP)—The U. S. Chamber of Commerce will honor Gen. Douglas MacArthur with a plaque at its annual meeting opening here April 28.
The plaque will be received for the five-star general by Adm. Arne Burke, former chief of naval operations.

Cuban Exile Groups in State of Confused Frustration

(EDITOR'S NOTE—Nobody knows for sure how many Cuban exile organizations have established themselves on U.S. territory. Here is a close look at the principal ones, in the second of four articles.)

BY WILLIAM L. RYAN
AP Special Correspondent

MIAMI, Fla. — Look five Cubans in a room, give them a political problem to solve and they will emerge with five organizations to do the job.

At least, that's how it seems to the outsider wandering about Little Havana, Miami's city within a city.

It is doubtful that anyone in Miami can say how many Cuban exile organizations exist. Estimates run as high as 200 or more. They come and go in bewildering confusion. Only about 30 deserve to be called organizations at all. Each proclaims itself dedicated to the overthrow of Fidel Castro. There the unity ends and there

seems not the vaguest chance they ever will be unified.

There are military, paramilitary, political, economic, social professional and conspiratorial organizations. There are organizations within organizations. There are splits, and splits within splits. Some say just about every adult Cuban in the Miami area is a member of at least one organization.

CONFUSION, FRUSTRATION

Today, Miami's Cuban exiles are up against a crisis which compounds their confusion, and leaves them in a turmoil of frustration. The United States, apparently fearing a new and dangerous confrontation with the Russians, has taken firm steps to prevent hit-and-run forays against Cuba by the militant exile groups.

In turn, this brought about a crisis of relations between Washington and the ten organizations loosely banded together in the Cuban Revolutionary Council. This is the group formed in March 1961—with U.S. sponsorship—to mount one day of 1962 invasion which ended in fiasco just two years ago this week.

The organizations of militants which do the raiding and training for fighting number only five, as

far as can be determined. Their total membership in the Miami area may be no more than a few hundred.

Alpha 66 is headed by Antonio Veciana. It is a small group claiming direct contact with underground fighters inside Cuba. It has been involved in four actions, either by itself or working with other groups.

Actions were launched from bases in uninhabited Bahama islands. Exile leaders say their men killed 15, including both Russians and Cuban militiamen, in one attack. In another they shelled a Soviet cargo vessel March 18.

JOIN, SPLIT

Alpha 66 recently joined with the Second Front of Escambray for operational purposes. The Miami leader of the Escambray group is Andres Nazario Sargent. But one element of Alpha 66 split away from it for independent operations. It now calls itself Comandos L—for libre, or free.

The military leader of Escambray Front is Comandante (Major) Eloy Gutierrez Menoyo, about 30, a Spaniard who once was a trusted Castro lieutenant. Gutierrez Menoyo was a loudly vocal anti-Yankee while he served Castro, long after the Castro revolution.

Working with the Alpha 66 group also is an organization called "The Escambray Front of the Anti-Communist Cuban Army." It is headed by Evelio Duque, 36, a veteran of Castro's revolution and later of guerrilla fighting against Castro.

The Revolutionary Student Directorate (DRE) is considered one of the most effective groups. Its Miami leader is Luis Fernandez Roacha. The DRE has branches in 42 of the United States, 13 Latin American countries and inside Cuba itself. Its members range in age from 16 to 29.

DRE leaders are intelligent, resourceful and courageous, but tend to lack the responsibilities which might cause older men to consider international consequences.

The DRE was first to make an armed attack on Castro's Cuba. It lost one boat last August, commanded by U.S. authorities when raiders returned after shooting up a Havana hotel where they believed Soviet technicians were staying.

ANOTHER GROUP

Another group believed to be involved in active support of the Miami area is support in the underground in Cuba is the Junta Revolucionaria Cubana (JURE), whose Miami chief is Rogelio Cisneros. Its headquarters is in Puerto Rico. Its over-all chief is Manolo Ray, once a Castro lieutenant and a Castro Cabinet minister.

Alpha 66, the Escambray Second Front, Comandos L and the DRE were operating out of tiny Bahama islands until they were

flushed out by U.S. and British authorities. They claim they now will move their operations elsewhere. But attack boats still can hide in the Bahamas.

Most of the militant organizations, small in themselves, have assistance from others for fund collection and other chores. The DRE, for example, probably has 800 noncombat members in the Miami area as support in depth.

It takes money to buy boats and weapons, mount raiding attacks and supply guerrillas inside Cuba with equipment and funds. Weapons are easy to come by in Miami itself, for the price.

The DRE appears to have been well heeled. Its leaders say the money comes from contributions in the United States and Latin

America. Other sources say the origin of the money is more mysterious.

ECONOMIC PRESSURE

Jose Lanuza, DRE American affairs chief, told me he feared the United States would also place "economic pressure" on his organization to halt its flow of money. This seems to indicate that U.S. authorities are in a position to cut off sources of DRE funds.

Alpha 66 is noted for its fund-raising ability. Its leaders claim it is done by door-to-door canvases. There are reports that it gets considerable financial support from Puerto Rico.

Apart from the concern with the United States seems now to be viewing activities of these or-

ganizations, some sources in a position to know say it is unquestionable that many exile organizations have been infiltrated by Castro agents.

(NEXT: Disillusionment in Florida.)

ROSELL
Is Coming

Citizens Hit for Failing to Back Cut

WASHINGTON (AP) — Rep. Frank T. Bow, R-Ohio, chairman of a Republican budget-cutting group, said today the people of the United States flunked the test on whether they really favor economy in government.

"Americans will pay dearly for the \$450 million worth of public works the House voted last week," Bow said in a statement.

He said citizens had a wonderful opportunity to go on record in favor of economy during congressional action on the bill.

Bow noted that before passage of the appropriation for accelerated works, the House Appropriations Committee had voted to reject it.

"This startling move of the appropriations committee was front-page news across the country, as was the claim from the White House that refusal of the funds would be disastrous," Bow said.

HUNDREDS OF CALLS

"Members of Congress received hundreds of phone calls from the officials back home who were worried that they would lose a few million free government dollars for their projects."

"Where were the voices for economy? I received two telegrams."

Bow heads a task force of Republicans on the House Appropriations Committee that announced determination to cut President Kennedy's \$98.8-million spending budget for 1964.

The accelerated public works appropriation passed the House by a vote of 228 to 184 despite the earlier disapproval by the committee.

Upside Down Spaghetti Dish Presents Bacon Braids

Braided bacon tops an upside down spaghetti dinner for a new turn to a favorite standby. It is quick to do and oh, so clever. Packaged complete spaghetti dinner, packaged cheese slices, and packaged bacon are the ingredients.

While the spaghetti cooks, the bacon sizzles to a partly cooked stage. Then the bacon slices are braided in the bottom of a pie plate and covered with cheese slices. Cooked spaghetti is put over the cheese and a few more cheese slices placed over the spaghetti. It is all baked for a short time.

Then, the dish is turned out onto a plate—just like you do an upside down cake, and presto, bacon topped spaghetti. Serve the canned sauce from the packaged spaghetti dinner with it.

Simmer, Don't Boil

Be sure to cook dried beans at a simmering temperature so they will stay whole. If the beans do not boil, you should be able to cook a pound of the beans (a little over two cups) in 1½ quarts of water.

To complete the menu, a crisp green salad studded with cucumber slices. For dessert, a molded Spanish Cream or chilled fruits and coffee.

★ ★ ★

Bacon, Strip Spaghetti Dinner

1 pkg. complete spaghetti dinner with meat sauce
6 slices bacon
6 slices American cheese

Heat oven 400° F. Remove package of spaghetti, can of spaghetti sauce, and can of grated cheese from dinner package. Cook spaghetti according to package directions. Drain well. Stir in grated cheese. Partially cook bacon slices in criss-cross pattern in bottom 9" pie plate. Place 3 slices cheese on top of bacon. Place drained spaghetti on top of cheese slices. Cut remaining cheese slices in half. Put over spaghetti. Bake 15 minutes. Meanwhile heat can of spaghetti sauce. Remove bacon-spaghetti dinner from oven. Loosen sides and turn out onto serving plate so bacon strips are on top. Spoon heated sauce around bacon-spaghetti dinner. Makes 4-6 servings.

UPSIDE-DOWN — You've heard of upside-down cake, but probably not of spaghetti served that way. By lacing strips of bacon in the bottom of the baking dish, you have an unusual topping when you turn out the finished product.

Unusual Mixture

Fill cupcake papers in muffin pan for interesting salad tins with a mixture of 1 can of cranberry sauce and ¼ cup of lemon-lime carbonated beverage.

How Will You Use Cottage Cheese Today?

By JANET ODELL
Pontiac Press Food Editor

Don't confine your serving of cottage cheese to putting it on a relish tray or adding it to fruit salad. It has more interesting possibilities than that.

Add it to a molded salad, made zippy with canned tomato sauce and hearty with chopped ham. This is a good luncheon salad in which to use some of that leftover Easter ham.

Ham-Tomato Gelatine

2 envelopes unflavored gelatine
½ cup water
2 (8-ounce) cans tomato sauce
¼ cup chopped green peppers
1 cup cottage cheese
1 cup chopped ham or luncheon meat
½ cup sour cream

Soften gelatine in cold water; place over hot water until melted. Add remaining ingredients and turn into a 5x9x3-inch pan. Refrigerate overnight. Serve with mayonnaise or sour cream dressing. Makes 6-8 servings.

Cottage Cheese patties are another luncheon treat. Rolling them in cereal before baking them gives the patties a crunch outside.

Cottage Cheese Patties

2 tablespoons minced onions
¼ cup grated carrots
2 tablespoons minced parsley
2 cups cottage cheese, well-drained
1 teaspoon salt

¼ teaspoon pepper
¼ teaspoon paprika
2 cups soft bread crumbs
1 egg
2 tablespoons water
2 cups Special K

Combine onions, carrots, parsley, cottage cheese and seasonings, mixing thoroughly. Stir in bread crumbs. Shape into 6 large patties or 12 small patties. Beat egg with water. Dip patties in egg mixture; roll in Special K. Place in greased shallow pan.

Bake in 450-degree oven about 8 minutes or until lightly browned and thoroughly heated. Serve at once. Yield: 6 servings.

Note: If desired, 2 tablespoons minced green pepper may be added with vegetables.

Finally, use cottage cheese in a different kind of a cheesecake.

Chocolate Marbled Cheesecake

2 cups dry cottage cheese
8 ounces cream cheese
3 eggs
1 cup sugar
1 teaspoon vanilla
¼ teaspoon salt

2 squares semi-sweet chocolate, shaved
cookie crust
apricot glaze

Beat together until smooth cottage cheese and cream cheese. Add eggs, one at a time, beating well after each addition. Mix in sugar, vanilla and salt until well blended.

Sprinkle about 1 tablespoon shaved chocolate over bottom of crust, then spoon in about 1 cup cheese filling, spreading evenly to sides. Top with another tablespoon of shaved chocolate, then 1 cup cheese filling.

Repeat layers until all filling is used. Reserve 1 tablespoon chocolate for garnish.

Bake in 350-degree oven 45 minutes. Cool. Spread with Apricot Glaze, sprinkle with reserved chocolate and sifted confectioners sugar, if desired. Chill before serving. Makes 16-12 servings.

Cookie Crust
Cream ¼ cup butter or margarine with ¼ cup sugar thoroughly.

Blend in 1 egg and ¼ teaspoon vanilla. Add 1 cup flour and mix well. Press onto bottom and sides of 11x7 pan. Bake 10 minutes at 400 degrees, until lightly browned. Cool.

Apricot Glaze
In a small saucepan heat ½ cup apricot preserves and 1 tablespoon orange juice until melted. Cool slightly.

Here's a Trick
Ever notice how bakeries line loaf pans in which pound and other varieties of cake are baked so that the paper comes higher than the two narrow sides of the pan? This trick makes the cake easy to remove.

"Our Position On Sunday Selling"

RETAILERS SHOULD CLOSE ON Sunday

... Why ... Because of People. In the public interest and in the interest of the many employees in the retail selling business. People who work in the retailing field want to be with their families as much as office and industrial workers and government employees do. Both men and women in retailing want to be home when their children are and that usually happens only on Sunday.

All of us continually strive for a better community, this can only come about by good environment and the togetherness of all families.

Rights Commission Urges JFK to Crack Down on Mississippi

WASHINGTON (AP) — The Civil Rights Commission has urged President Kennedy to crack down on Mississippi, possibly cutting off federal funds, unless the state acts promptly to protect the rights of its Negro citizens.

The commission, in a special report to the President, said Tuesday night that since last October "open and flagrant violation of constitutional guarantees in Mississippi has precipitated serious conflict. Each week brings fresh evidence of the danger of a complete breakdown of law and order."

In Palm Beach, Fla., aides said Kennedy had not received the report sent him by commission Chairman John A. Hannah and would have no comment.

The commission urged Kennedy to step up federal efforts "to suppress existing lawlessness" and study whether legislation was needed to prevent federal funds being paid out to a state which "continues to refuse to abide by the Constitution."

CALLS ON JFK

The special report also called on Kennedy to explore the legal authority he possesses as chief executive to withhold federal funds "until the state of Mississippi demonstrates its compliance with the Constitution and laws of the United States."

For several months, the commission has been exploring areas where federal pressure can be applied in Mississippi aid reportedly has been unhappy that tough action hasn't been taken before now.

Staff Director Earl I. Bernhard is in Jackson, Miss., today for an open meeting of the state advisory

committee after meeting informally with the committee Tuesday night.

The commission said it had more than 100 complaints since last October alleging denial of constitutional rights to Negroes.

"Citizens have been shot, set

upon by vicious dogs, beaten and otherwise terrorized because they sought to vote. Students have been fired upon, ministers have been assaulted and the home of the vice chairman of the state advisory committee to this commission has been bombed," it added.

Meanwhile, the report said,

"massive assistance to the economy of Mississippi has continued past the time when the state placed itself in direct defiance of the Constitution and federal court orders."

The commission cited a \$400-million

moon rocket test center in south Mississippi and a \$2.18-million grant for construction of an airport at Jackson—which it said would have separate eating and restroom facilities—as examples of this continuing aid.

A spokesman for the Federal Aviation Agency expressed sur-

prise at the report. Phillip Swatek, FAA director of information, said the agency was instrumental in desegregating facilities at the present Jackson airport and "are quite sure" the FAA will be able to arrange desegregated facilities at the jet airport.

Recognizing the limitations of

the law and the necessity to consider national needs in locating federal installations, the report added. "The commission believes there is an overriding constitutional obligation to make certain that federal funds are expended in a manner which will benefit all citizens without distinction."

Spectators Jam Trial for Murder

MUSKEGON (U)—The box office lure of Herman Barmore's learned-young defense against a charge of murder continued to create a traffic jam outside Circuit Court here today.

One sheriff's deputy on door guard duty said spectators arrived as early as 7:15 a.m., some two hours in advance of the daily session, in the race for 486 viewer seats.

Others lined the halls in hopes that someone would leave the courtroom and make space available.

Barmore is directing his own defense. He won a State Supreme Court appeal for a new trial after a 1967 conviction and life sentence on a charge of second-degree murder in the July 5, 1966 slaying of an Evanston, Ill., Boy Scout.

The prosecution claims that 12-year-old Peter Gorham was a sex crime victim shot to death by his assailant.

Barmore has said he admitted the slaying to former Muskegon County Sheriff Arthur W. Davis in a "deal" for a light penalty. But he later repudiated the confession and charged he was the victim of a conspiracy by public officials.

Six police officers testified yesterday that neither threats, violence nor prompting played a part in linking him to the case.

Forest Fire Ravages 60 Acres of Timber

GUN LAKE (U)—About 60 acres of timber and underbrush were destroyed yesterday in a fire at the Yankee Springs Recreation Area in Barry County.

Prisoners from the Ionia State Reformatory helped conservation men and state police fight the wind-driven flames.

TEN HURT — Workmen probe ruins of a three-story Boston building that exploded yesterday injuring at least 10 persons. The structure was being demolished when a gas leak apparently caused the blast.

News of Area Service Personnel

Due to arrive at the British Royal Air Force Base at Lakenheath, England, Monday is Jerry D. Barrow, son of Mr. and Mrs. William A. Barrow, 4555 S. Shore Drive, Waterford Township.

BARROW **DRAKE**

Airman J.C. Barrow will spend three years in England. He attended Waterford Township High School before undergoing basic

training at Lackland AFB, Tex. He also trained at Sheppard AFB, Tex., as an aircraft mechanic.

Herbert M. Drake, currently serving with the United States Army in Thailand, was recently promoted to Sergeant.

The son of Mr. and Mrs. Herbert M. Drake, 689 N. Perry St., Sgt. Drake attended Pontiac Central High School before entering the service.

The badge is awarded to tankers who demonstrate proficiency in firing all tank armament and in maneuvering the tank.

Spec. Montross is a tank driver in Troop H of the 3rd Armored Cavalry Regiment's 2nd Reconnaissance Squadron in Germany. He completed basic training at Ft. Knox, Ky., and graduated from Clarkston High School.

Marine Pvt. Leonard M. Hardiman, son of Mr. and Mrs. The-

HARDIMAN **HOPE**

The training provides newly enlisted Marines with a background of experience in the field under combat conditions.

Airman J.C. Robert J. Hope is being reassigned to Minot AFB, N.D., for training and duty as a vehicle operator.

He recently completed Air Force basic military training at Lackland AFB, Tex.

The son of Mr. and Mrs. Oscar Hope, 3515 Longview St., Rochester, the airman attended Rochester High School.

Legislative Session Nearing End

County Solon Pushes Judge Pay Hike

LANSING — Sen. Farrell E. Roberts, R-Oakland County, is leading a drive in the waning days of the current legislative session to get pay raises for Michigan's 81 Circuit Court judges and to give Wayne County two new judgeships.

Roberts also is keeping his eye on progress in the Senate of a House bill to increase the number of Oakland County Circuit judges from five to seven.

He hopes an amendment raising the state's share of Circuit judges' salaries from \$12,500 to \$15,000 can be attached to a bill dealing with circuit court commissioners.

Several bills at the start of the session would have hiked the state's contribution to the judges' salaries to \$19,000 a year, but none of these is still alive.

Salaries of two new Wayne County judges, which some Wayne County legislators claim the county can't afford, would be financed by raising the Circuit Court filing fee for cases from \$10 to \$15, according to Roberts' plan.

LEADING OPPONENTS

Rep. Arnell Engstrom, R-Traverse City, is leading the opposition to the pay raise, and Sen. Stanley Rozyski, D-Detroit, is fighting the additional Wayne County judgeships.

Roberts said his goal at the beginning of the session was a state contribution of \$17,500 a year for Circuit judges.

"We've been trying to get the judges a raise they deserve for several years," Roberts said.

"If we got \$17,500 that would be ideal, but \$15,000 a year would substantially help the out-state judges."

The full pay of circuit judges varies widely throughout the state, from a minimum of \$12,500 paid by the state to Judge Robert W. McIntyre in the 1st Circuit of Hillsdale County to the \$25,000 a year paid to 18 Wayne County judges.

Oakland County's five judges now receive \$11,000 from the county in addition to the \$12,500 from the state for a total of \$23,500.

COUNTIES CONTRIBUTE

The state's 83 counties are free to make any contribution they want. Seven counties besides Hillsdale kick in nothing. They are Antrim, Kalkaska, Lake, Mason, Oscoda, Oshtemo and Otsego.

The state's ante has not been increased since 1954, when it was hiked from \$8,000.

An effort to get the raise through an amendment in the House last week was beaten when Rep. Engstrom angrily charged the change amounted to a move to discharge his committee which had reported the bill out without the increment.

Roberts feels one point that argues for passage of the pay raise is that the sum it would cost was budgeted into Gov. George Romney's general government appropriation recommendation.

Like the pay raise, the increase in Wayne circuit judgeships is not all its proponents originally sought.

Sen. William Ford, D-Taylor, wanted the judgeships increased by six, to 24, but Rozyski managed to get this bill killed in the Senate.

An alternate House measure that would have increased the number to 22 was also chopped down.

REVEALED: WHAT "LIFE" AND "LOOK" DIDN'T TELL ABOUT CALIFORNIA

Not a word reporting the wonderful, dejected state of California's winemakers; who, for all their experience at winemaking, still can't match the superb quality and taste of Cask Wines. Long-faced Californians, too — so envious of you folks who live in Michigan, where matchless Cask Wines are as near to you as your favorite liquor store, tavern, or supermarket.

CASK WINES

Write for free info at Cask Wine Sales, P.O. Box 100, Fair Plain, Mich.

Produced and bottled by Michigan Wineries, Inc., Fair Plain, Michigan

Although Roberts is reluctant to see the Wayne Circuit Court filing fee increased from \$10 to \$15, he let it be reported out of the Senate Judiciary Committee last week "because it's the only one to be passed."

Britain's First N-Sub

Commissioned Today

BURROW-IN-FURNESS, England (AP)—Britain's first atomic-powered submarine, HMS, Dreadnought, was commissioned today as a hunter-killer of enemy underwater craft.

Cmdr. Peter Canborne, who served eight months in the U.S. nuclear submarine Skipjack, said on US-47.

he had not noticed any effect on the morale of his men as a result of loss of the American nuclear submarine Thresher.

Killed in Auto Accident

LANSING (AP)—Nineteen-year-old Carl Klasko of Lansing was killed yesterday when his sports car collided head-on with a truck north of the capital city.

Coal Mine Explosion

Kills Two, Injures Ten

NANTICOKE, Pa. (AP)—An explosion rocked an anthracite coal mine in Newport Township last night, killing two men and injuring 10 others, two critically. State mine inspectors and company officials entered the mine today to investigate reports the blast was caused by deadly methane gas seeping from the coal seams.

Six-Day Strike Ended

KALAMAZOO (AP)—A six-day strike at the Baldwin-Ehrst-Hill plant was ended yesterday, as company officials and officers of Local 851 of the Allied Industrial Workers Union reached agreement on a compromise settlement of the work rules dispute.

About 10 million children are attending public schools in standard classrooms this year.

French Premier Appears Set for Long Stay in Office

By HARVEY HUDSON

PARIS (AP)—If Georges Pompidou should be tossed out of his job as French premier, he says, he would be happy to go back to his white house and cultivate roses.

That's not likely to happen. This week he is rounding out a year as premier, and it looks as if this is the start of a long term. For one thing,

he deals with a National Assembly that has been jammed by President Charles de Gaulle's political magnetism.

The white house that Pompidou talks about is in the village of Orville, west of Paris. He bought an old cafe there as a country home, whitewashed the walls of the billiard room and ball house. He uses it as a weekend retreat and his favorite pastime is growing roses.

Pompidou formerly was with the Rothschild bank. He still has

more the air of a banker than a politician. His suits are impeccably tailored. At 51, his graying black hair is combed straight back. An unruly eyebrow thickens takes attention from his clear blue eyes. His nose and his smile are both disproportionately large. His slightly in going through a middle-aged expansion.

NO DEMAND

There was no public demand for Pompidou. He was almost unknown to most Frenchmen a year ago. He has never been a member of a political party, never run a gathering office. He detests large gatherings and his oratorical style is plodding.

The choice was solely up to de Gaulle. The president liked and trusted Pompidou.

Pompidou started to work for de Gaulle in 1944 when the general was ahead of the provisional government after the liberation. He was then a 33-year-old Latin professor in a Paris high school. "An old schoolmate who had

joined de Gaulle in London called Pompidou about an opening for someone who could write. Pompidou took the job.

As time went by, de Gaulle's attention was drawn to Pompidou's concise summaries of complicated subjects.

De Gaulle retired to his country home in 1946, and Pompidou moved into a new field. He was appointed to the State Council, a sort of supreme court for administrative matters although he had no legal training. In 1956 he went to the Rothschild bank and quickly worked his way to the top, with no previous experience in this field.

SERVICES FOR DE GAULLE

Pompidou performed many services for de Gaulle during the 12 years the general was out of office. When de Gaulle returned as premier in 1958, Pompidou became director of the Cabinet. After de Gaulle was elected president and Michel Debre was appointed premier, Pompidou went back to the bank.

GEORGES POMPIDOU

Pompidou has a sharp intuition for issues on which he can oppose de Gaulle, and the propitious moment for objecting.

After ex-Gen. Edmond Jouhaud was sentenced to death for treason, de Gaulle seemed determined not to grant clemency. Jouhaud had taken part in the abortive general's revolt in Algiers in 1961, and later helped form the terrorist Secret Army Organization.

Pompidou went to de Gaulle and told him, "If Jouhaud is executed, I resign." After a long delay, de Gaulle granted clemency. Sources close to Pompidou say that on most basic themes, premier and president think alike so there is no conflict.

FAST READER

Pompidou is a lightning reader and his mind automatically retains anything he thinks is important. He works with a clean desk and a philosophy that problems should be solved after they come into sight. He has no cruci-

city in 1938.

ader's zeal to seek out the problem. But his ambition is to build more roads, schools, factories, build up the economically undeveloped sections of France, raise the standard of living.

He is the grandson of peasants and the son of a school teacher. He lives with his wife Claude and son Alain, 20, a medical student, in a four-room apartment overlooking the Seine. It is comfortable but not luxurious. Despite his brush with the Rothschild bank, he is not wealthy.

State Police Sergeant Ends 25 Year Service

BAY CITY (AP)—Sgt. Richard Janner of the State Police Traffic and Safety Bureau at Bay City will retire effective Sunday following more than 25 years of service.

Janner enlisted with state police in 1937 and served at L'Anse-au-Loup before being transferred to Bay City in 1938.

WHAT DO DOCTORS RECOMMEND the Most For TENSE, NERVOUS HEADACHES?

ANACIN® contains the pain reliever doctors recommend most for headaches. In minutes—pain goes, so does its tension, mental fatigue and depression.

New York, N.Y. Medical reports confirm that tense, nervous headaches are by far the most common kind. They are caused by tension that presses on the nerves. But fortunately, one can get remarkable relief in minutes with this special tablet—Anacin.

Anacin not only relieves the pain, but also, relaxes its tension and releases painful pressure on nerves—bringing you fast "all-over" relief.

Anacin is like a doctor's

prescription. That is, a combination of ingredients. The reason Anacin Tablets are so effective is because they contain the pain reliever doctors recommend the most plus an extra ingredient not found in leading aspirins or buffered aspirins. And Anacin has such a gentle action. Doesn't leave you depressed or "let down."

This big difference in Anacin makes the big difference in the way you feel. Buy Anacin today.

\$5 Million Awarded by Ford Foundation

NEW YORK (AP)—The Ford Foundation announced Tuesday assistance grants of \$5,296,200—more than half of this sum going to help less-developed countries solve problems of overpopulation. The foundation said \$2,856,200 of the grant will be used for training and research programs in family planning and reproduction biology.

The largest single birth-control grant was \$975,000 to Population Control, Inc., which will expand its research program in Pakistan at the request of that government.

W. Germany Places 2nd Among World Importers

COLOGNE, Germany (UPI)—West Germany advanced to second place among the world's importers in 1962, behind the United States, statistics of the Institute of German Industry showed today.

West Germany's percentage of world imports increased from 4.6 in 1961 to 9.3 in 1962. The United States received 12.4 per cent of the world imports.

Takes Overdose of Sleeping Pills

LAS VEGAS, Nev. (AP)—Actress Joan O'Brien was reported in fair condition Tuesday night after she took an overdose of sleeping pills. Sheriff's deputies listed the case as attempted suicide.

Miss O'Brien, whose stormy courtship ended in marriage to actor Harvey Allen last Friday, was hospitalized Tuesday.

Allen said she took a dose of pills Monday evening, then woke up during the night and took another. He said the overdose was accidental.

Wage, Salary Increases Largest Since Last Year

WASHINGTON (AP)—Personal income rose last month to a seasonally adjusted annual rate of \$452.7 billion, about \$1.6 billion greater than in February, the Commerce Department reported today.

As used by the department's economists, the term personal income means all types of payments to individuals—wages, salaries, dividends, interest, rents, etc.

Disposable income in terms of 1964 prices stood at a record of almost \$1,450 per person, the department calculated. Disposable income is determined after making allowance for tax and price increases.

The report said gains in wages and salaries for the first three months of this year equaled the combined increase of the third and fourth quarters of 1967 and were largest since last year's second quarter advance.

GOVERNMENT SPENDING

Personal income for the first quarter of this year amounted to \$452.1 billion at an annual rate, \$20.1 billion ahead of the first quarter of 1967. The 1963 total, however, reflected stepped up payments on government life insurance dividends to war veterans during January.

The March figure of \$452.5 billion compared with \$435.2 billion for the corresponding month last year.

Wages and salaries accounted for nearly all of the increase from February to March, the department said, although interest payments continued to rise.

Factory payrolls represented more than half the monthly increase in wages and salaries, rising \$700 million to \$95.4 billion at the seasonally adjusted annual rate.

Employment and hourly earnings increased and length of the work week held steady.

The aggregate \$1.6 billion gain in February and March combined was the first significant advance since last April, the department said.

Nonmanufacturing payrolls increased \$900 million.

The Government said recently that Japan's population has reached an estimated 95,100,000.

Wings' 4-2 Loss to Leafs Bitter Pill

By JERE CRAIG

DETROIT — Defeat is always hard to face, and the Detroit Red Wings' loss last night to Toronto was a bitter one.

The Maple Leafs took a commanding 3-1 lead in the best-of-seven (it may not make it) Stanley Cup final playoff series last night at Olympia Stadium by rallying twice to gain a 4-2 victory.

The game was one of the best of the entire playoffs with both teams skating, checking and putting up strong defenses. In the end, however, it was unassisted third period goals that sent the visiting defending champions home with the chance to wrap up

Lord Stanley's cup tomorrow night on their ice.

Dave Keon and Red Kelly were the center ice men who put the Leafs in this enviable position. The little Keon, skating brilliantly most of the game, got an "excuse-me" score at 3:42 of the final period.

Taking a loose puck near center ice, he darted around and through several Red Wing defenders and in on goalie Terry Sawchuk. Moving to his left, Keon attempted to draw the netminder with him.

However, he lost control of the puck which then found its way to Detroit Norm Ullman's skate. It ricocheted off him and past the unsuspecting Sawchuk for the score which moved Toronto ahead for the first time in the game, 3-2.

SEALS VERDICT

While Kelly's goal was also unassisted, it was more conventional. He blocked a Wing pass out during a late power play by the winners and slapped a screen shot into the net at 17:45 to clinch the verdict.

It was then that many of the 13,971 fans fled for the doors and only hoped they could come back for more Sunday. Should a sixth game be necessary, it will be played in Detroit Sunday night.

If the Maple Leafs received a break on Keon's goal, the Red Wings were rather fortunate on the game's first tally. Gordie Howe lifted a floater from the

right point during a break in at 2:54 of the first period and the elusive puck went off goalie John Bower's glove into the net. Alex Delvecchio and Parker MacDonald assisted.

Toronto couldn't tie the score

until 1:17 of the second period when Keon fed Leaf captain George Armstrong in front of the net while the Detroit defense stood around. Armstrong easily beat Sawchuk.

Ed Joyal moved the Wings

back in the lead only 1:21 later with a power play score. Howe had fired on the Toronto net. Bower fell down making the save and Joyal guided the loose puck around the right post behind the sprawling netminder and into the gaping goal.

Kelly countered with his first goal of the night on another screen shot at 17:44 of the middle period. Bob Baum and Frank Mahovlich fed the puck to the Canadian Parliament member who skated in from the left side and fired from well out.

In goalie saves, Bower made 38 but only nine in the final period when his teammates gave him excellent protection. Sawchuk had 29, including only eight in each of the final two periods.

There were ten penalties in the contest and each team had five. Record setting Howie Young, however, watched the contest from the press box.

AP Photos

CAUGHT—John Bower, Toronto goalie appears to be putting a half-nelson on Detroit's Gordie Howe in last night's Stanley Cup playoff game. Actually, Bower is making a save on a shot by Norm Ullman as Howe skates in front for a possible tip in. The Leafs won, 4-2.

Tigers Whip Yanks, 7-2

Aguirre Hits Again!

NEW YORK — "Nine hits in nine years. Not bad. I'm hitting 1,000."

Hank Aguirre's eyes smiled while he talked to the press Tuesday in the Detroit clubhouse. He had just broken a hitting string that stretched back to last August and had sent his lifetime average soaring to .367.

The hit was minnow-sized, a swinging bunt that traveled about 10 feet. But the bases were loaded and three runs scored when Clete Boyer threw the ball wildly past first.

"Why did you stop at first?" a fellow asked the Tigers' pitcher who went the route to a 7-2 victory over the Yankees.

"I got so interested watching the men score I forgot," he said. Actually he lost track of the ball after the throw and decided to scamper back to first.

"Throw it back? No sir. I'll

take it. Do I get three runs but I don't. I've been working on that all spring, since the days at

Tigertown in Lakeland, down in Florida.

"That was my second hit of Whitey Ford. The other was in 1960. I really hit him good."

BACK TO MINORS

Aguirre had two hits last year one against the Yankees' Hal Reniff when he batted left-handed for the first—and last time. Two days later the Yankees sent Reniff to the minors.

"You can draw your own conclusions," Aguirre remarked at the time.

The Tigers hadn't beaten Ford in four years, but Aguirre's squirming scratch hit opened the flood gates in the fourth inning.

City Diamond Game Next

The best battery may well be on the sidelines when the Pontiac Central and Pontiac Northern baseball teams clash at 4 p.m. tomorrow on the Wisner Stadium diamond.

Neither Arnold Wilson of PNH nor Louie Meares of the Chiefs will be going with the starting battery that they wanted to have ready for this big intra-city clash.

For the Huskies it will be Mike Marcum on the mound and Doug Ingamalls backstopping. Coach Meares of PCH has named lefty Bob Farms to hurl and sophomore Bill Burch will catch.

Northern coach Wilson is pinning much of his hopes for a good season on sophomore Roger Hayward, a mound standout in the local recreation summer leagues. The tall right-hander is ailing with a gimpy elbow, though, and won't pitch for at least a week.

PCH's loss is permanent, though, in that regular catcher Neil Roberts fractured an ankle early this week and is done for the season.

The two teams did not meet last season but the overall record stands 4-2 with PCH moving two up when it swept both games in 1961.

Expecting the gang?

...this calls for Budweiser.

where there's a life... there's Bud.

Invitation: There are interesting guided tours through all Budweiser breweries. Come see the 7 Golden Keys to brewing Budweiser.

THE PALMER METHOD

by Arnold Palmer

GRIP FIRM WITH MIDDLE FINGERS

Too many players uncock their wrists too early at the top of the backswing -- and the ball usually flies with the right hand.

The two middle fingers of the right hand should grip the shaft firmly (see illustration #2). This takes the pressure off the right thumb and forefinger and also causes you to keep your elbow close to your body, thus preventing premature cocking of the wrists.

But don't overdo it!

Keep steady, firm pressure with the right hand and you'll maintain wrist-cock down to the appropriate position shown in illustration #3.

Milford, Cranbrook Win

A double victory by John Jackson and good team depth helped Milford edge arch track rival Howell, 57-52, yesterday.

Southfield was defeated by Redford Union, 60-49. Cranbrook edged Livonia Bentley, 55-54. Jackson won the high hurdles (16.5) and low hurdles (21.5) as Milford took five firsts. His clocking in the lows was a school record.

Other winners for the Redskins were Dennis Flynn, high jump, 5-4; Dan Mullins, pole vault, 11-5; and Terry Johns, shot, 44-11. The Redskins overcame Howell's eight firsts with seconds and thirds.

Dave Frink won both hurdles (16.4 and 21.3) for Southfield.

Cranbrook winners were Jess Brewer, high hurdles, 16.5; John Cobourn, mile, 4:42.1; Brewer, low hurdles, 21.7; Arch Coppeland, 220, 25.0; Doug Green, shot, 46.6; Bob Parsons, 5-4; mile relay, 3:39.6.

From the Press Box

BY BRUNO L. KRANKS
Sports Editor, Pontiac Press

Dick Weber, regarded by most as the second best bowler in the world behind Don Carter, prophesied the victory in the Pontiac PBA Open for southpaw Bill Allen.

Sitting in the 300 Bowl lounge just after his magnificent comeback in disposing of Carmen Salvino in their semi-final match three hours prior to the finals, Weber was asked by fellow bowlers and writers about the matches which were about to follow.

"Left handers have been flax for me," said Weber, "and Allen has been red hot with that southpaw hook of his. I sure would like to break the ice on this tour and win this one. But if Allen beats me then I'll have to go along with him to win it."

Allen defeated Weber, 206-200 and then handled hard throwing Billy Johnson, 228-195.

★★★

The Orlando, Florida, bowling pro hadn't won on the PBA tour in his two years and when he arrived in town he commented to Monroe Moore that he "wanted the cheapest room he could find during his five-day stay here."

"He really has had a tough time of it on the tour trying to make ends meet," Moore noted about Allen.

When the \$5,000 first place check was presented to him, Allen could hardly talk.

SUN SHINES IN PONTIAC

The sun may be shining in Florida, but the most beautiful sun in the world is shining on me in Pontiac today," Allen said when the check with four figures and the trophy were presented to him.

"This is one stop on the tour I'll never forget, and I sure hope to come back next year," he added.

Whether or not Allen gets the opportunity to come back to Pontiac next year is not certain.

ABC officials estimated that 20 million viewers saw the nationally televised show originate from the 300 Bowl. The city manager's office came to their rescue and provided the program with aerial views of the area, showing downtown, GMTC plant, Pontiac Central high school and the lake area of Orchard Lake and St. Marys.

The name Pontiac was mentioned 19 times during the one and a half hour show and Harry Golden, the PBA tournament director, called this one of the best stops on the tour.

"The bowlers like it here and would like to come back," Golden noted upon departure.

PBA GROWS

Executive director Eddie Elias, the originator of the PBA in 1958, noted that the critics and doubters said the PBA would die after a year. "We'll take our time," said Elias four years ago, "there's no rush. Bowling is here to stay."

Elias has seen the PBA grow. He also announced here that the PBA is now contracted for two more years with AMF for national TV.

Whether Pontiac is part of that national hookup alongside Denver, Boston, St. Paul, Dallas, New Orleans, Atlanta, Mobile, Indianapolis, Akron and Birmingham, Ala., is very doubtful at this time.

Another Michigan city is ready to pick up the option should the 300 Bowl decide to let it go. Only one city in Michigan can hold the tournament. If it leaves Pontiac, one can be sure, it won't be back.

The 11th Frame

League Celebrates 25th Anniversary

One of the area's older and better established bowling leagues, the Imperial Girls Bowling League, will conclude the current season with its silver anniversary banquet tonight.

Befitting such a special year for the proud circuit, the league race was an exciting one, going down to the final night when Huron Bowl edged out Griff's for the title by one-half point.

The league started 25 years ago as the Motor Inn House League and has had five different titles in its development. One member has remained from the original start of the league until the present.

She is Lee Nolan. Another with 24 years in the circuit is Mabel Lahiff. She has served the league as its president 15 times in the 24 years.

Presently, Virginia Miller has been selected to guide the league next year succeeding the outgoing head lady, Phyllis Addison.

Peggy Bender, Bea Kolb and Eva Miller are three other league bowlers who have participated at least 20 seasons in the 10-team, 50-member circuit.

An interesting history of the Imperial Girls loop has been compiled by Sylvia Marion.

BLIND BOWLERS

A new local league at Huron Bowl is making rapid strides forward.

Only in its first season, the Blind League is planning a mass pilgrimage to Saginaw for the April 28 fifth annual State Blind Bowlers Team Tournament. Almost the entire league will attend the tournament.

Leading the loop after the most recent action is Team No. 8, A 210-478 by Ray Wadley was the top score last week.

Making a good showing at the recent national UAW Bowling Tournament in South Bend, Ind., was the local women's squad.

The team took second place nationally with a 2,880 handicap score. Eleanor Baxter contributed the most pins to the total with a 497 total while Donna Wagner, Dottie Senter, Gwen Webber and Myra Galpin all added significant amounts to the performance.

The high women's game for the season at Airway Lanes was recorded by Bea Hudson recently with a 267 in the Ladies Major Classic League. There was a new high series for the Airway First Ladies loop, also, when Barbara Liskey rolled 213-200-502.

A 902 series was also high in the Lutheran Mixed League recently when Fred Traeger performed the feat. Airway's Friendship Mixed loop had a 200-212-213-625 by Pat Christos last week.

There was a new record in

300 Bowl's St. Benedict's Junior Bowling League—a 245 actual by Robert Pelmar. Richard Haddad was not far behind with 235-269 games.

Frank Dunkel set season's highs for both game and series in the Cooley Lane's Senior House League with 280-208 performances.

There was a team high reported in the Lake Orion Men's "A" circuit last week at Royal Recreation. The Twin Yokes Greenhouse squad had a 1,013 as Gary Meyers (225) and Robert Betson (226-618) led the way.

A. C. Smith rolled a 203-264-236-703 combination in the Lake-wood Lanes' House League last Wednesday for the third place Comparoni Shell team. Helene Alexander scored big with a 230-207 duo in the Howe's Jet Ladies circuit recently.

Along the Outdoor Trail

with DON VOGEL—Outdoor Editor, Pontiac Press

TRICKY SPANIEL—Lorraine Mottisinger of Pontiac puts her cocker spaniel Sunny through his paces during practice for an appearance at the Southern Michigan Obedience Training

Club's all-breed obedience match Sunday at the CAI Building in Waterford. Miss Mottisinger, 16, and Sunny will do tricks during and afternoon exhibition.

'Command' Act Sunday at CAI

Expect Over 130 Dogs for Obedience Match

"Heel!"
"Sit!"
"Come!"

These commands will fill the air Sunday in the CAI Building on Williams Lake Road in Waterford Township.

Over 130 dogs and their handlers are expected to be in the building competing in the annual Southern Michigan Obedience Training Club's All-breed match.

Nearly 100 trophies will be awarded with the grand prize going to the highest scoring dog in the unclassified match, regardless of class.

There will be seven classes. Each class has more difficult exercises than the one below it. They are, in order, graduate novice, novice A, open B, novice B, open A, open B and utility. There also will be a brace class for this match which gets underway at 11 a.m. and will last until about 6 p.m.

LEFT ALONE
An example of some of the exercises in the graduate novice. In this class the dogs will be walked through figure eights without leashes, be commanded to drop on recall after retrieving and be commanded to stay in one place while the handlers leave the ring and are out of sight for three and five minute periods.

Holly Ski Area, Orionville Set for Commission

A request to extend the Mt. Holly Ski Club's lease and a proposal to establish a riding stable in the Orionville recreation area will be on the Conservation Commission's agenda when it meets Thursday and Friday in Lansing. Mt. Holly is seeking an extension of its lease on land in the Holly recreation area from 10 to 30 years. Club officials announced a \$700,000 expansion program over three years. Mt. Holly sold 67,000 tow tickets last winter. The state gets three percent.

W. G. Lee, who owns land bordering the Orionville area, is seeking a 10-year lease for exclusive rights to land in that area to use in conjunction with a riding stable.

Cranes, Dragons Remain Unbeaten Diamond Teams

Cranbrook and Lake Orion remained all-victorious in prep baseball activity yesterday, but Capac's log developed a stain. It wasn't the pitchers' day at Lake Orion Tuesday where three big innings saw the Dragons post a 13-9 win over Avondale for their second straight success of the young season.

The pitching was much better at Birmingham-Groves and Yale, however. Cranbrook edged the Falcons, 2-1, behind the efforts of Dick Mosher. Yale nipped Capac, 2-0, helped by two unlearned tallies.

Dave Phillips had two doubles and two triples, and Herb Mattis socked a two-run homer as Lake Orion posted a seven spot in the third inning and a five in the sixth. The Yellow Jackets ran up a 5-1 lead with five runs in the top of the third but couldn't hold on.

Cranbrook won its third straight as Mosher yielded three hits and struck out nine at Groves. Guy Bramble tallied the winning run on the front end of a double steal.

Capac put three hits together for a two-run fifth inning, featured by John Scheuer's double, but that was all the scoring for the Chiefs who are 1-1 now. Royal Oak Kimball also won its

second straight of the year by pinning a 5-4 loss on Roseville yesterday. John Pikur tallied the winning run on a two-out error in the seventh inning.

Bob Nowakowski had a solo home run for the winners while Bill Taylor and John Stuzman connected for the losers.

Solunar Tables

The schedule of Solunar Periods, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times.

Day	Minor Major	Minor Major
Monday	1:30 4:00	1:00 7:10
Tuesday	1:30 4:00	1:00 7:10
Wednesday	1:30 4:00	1:00 7:10
Thursday	1:30 4:00	1:00 7:10
Friday	1:30 4:00	1:00 7:10
Saturday	1:30 4:00	1:00 7:10
Sunday	1:30 4:00	1:00 7:10
Monday	1:30 4:00	1:00 7:10

Perch Biting Along Great Lakes

Smelt Dippers Should Take Rods, Too

By DON VOGEL

Fishermen planning trips to their favorite smelt dipping waters should take fishing rods along as a precaution against returning home empty handed.

No big runs of smelt have been reported. But there is some good perch fishing. A few are being seized off Point Pelee near Leamington, Ont. The big runs are expected to start any time. Perch are hitting near shore.

Along Saginaw Bay north of Bay City the smelt have been showing up in small numbers. Very light runs took place at the Slinging Bridge (Whitney Drain) and Bear Track Creek south of Tawas Friday and Saturday nights. No smelt were dipped Sunday or Monday nights.

A few of the silvery fish are being taken south of Port Huron in rocks along the St. Clair River. There is no smelt run north of Port Huron.

If the smelt aren't running, or dippers must wait for night before entering the water, there is always the perch to implement the catch.

Good catches of medium to large perch are being taken just outside the lighthouse at Harbor Beach and off the Coast Guard station on Tawas Bay.

A few good catches of perch have been reported outside the breakwater at Bayport.

HALF MILE OUT

Lake St. Clair continues good for perch about a half mile off shore. The sucker run from Port Huron to Monroe and around Saginaw Bay has started to taper off.

Fishing on Oakland County takes continues to be spotty. Fishermen aren't ready to brave the brisk breezes that have been the rule for the overall inconsistent catches.

One good possibility is Kent Lake where calicos are being taken above the dam.

EXCISE TAX

Representative John Dingell of Detroit has a bill in the House ways and committee to amend the Internal Revenue Code to impose a manufacturer's excise tax on component parts of ammunition.

If the measure passes Congress, shooters who reload their own ammunition would have to pay an 11 per cent excise tax on bullets, powder, primers and cases.

The National Reloaders Manufacturers Association has come

out against the bill (H.R. 2366). Shooters are expected to object, too.

Dingell's bill earmarks the money that would be realized for use in conservation.

William Mason, district fisheries supervisor stationed at Inlay City, hopes to have a netting survey made of Wildwood and Valley Lakes in the Holly recreation area to check on muskies.

Muskies were stocked in the lakes several years ago and a few in the 12-15 pound class have been reported.

"We netted the lake two winters ago," he said, "and only came up with two muskies. However, I would like to try again to see if it would be worthwhile to stock more muskies or change to walleyes or trout."

W. G. Lee, who owns land bordering the Orionville area, is seeking a 10-year lease for exclusive rights to land in that area to use in conjunction with a riding stable.

'Age of the Egghead'

Train Your Mind as an Athlete's Body

By LESLIE J. NASON, ED. D.

Perhaps we are heading into the "age of the egghead."

In the old days, an athletic scholarship was recognized as a way to go through college.

But today academic scholarships vastly outnumber athletic scholarships.

Even athletic scholarships are limited to those who can keep up their grades, and college entrance requirements are being raised all the time.

Science fairs, national talent searches, scholarship societies are just a few of the schemes designed to give recognition to the good student.

And even the teen-ager has ceased to worship at the shrine of the football hero who considers schoolwork as beneath him. The accent is on scholarship.

COMPETITION IS SHARPER Competition in both athletic and academic scholarship is getting keener. Sprinters run faster; jumpers jump higher and farther.

To meet the competition the successful athlete trains his body to work with precision.

In the same way students must train their minds to learn. The right approach can often bring immediate improvement.

Consider the case of a champion diver who spent as much as half a day, under an expert coach, learning just how far to turn her head in a twisting dive.

But this same young woman had not spent five minutes in the past four years practicing handwriting.

Despite the coordination she shows in diving, she gripped a pencil with cramped fingers and wrote with a juvenile scrawl.

Using the same determination that made her a champion diver, she practiced handwriting for a few minutes each day.

By the end of the first semester of attending to study skills, she moved from a C to a B-plus student.

LIKE FOOTBALL PLAYS A football halfback learned to plan his studies so he could recall ideas in examination with the same sureness that he could recall his assignments in plays on the field.

When he learned the "rules" of studying he played the student game with proficiency.

A national champion backstroker, who often missed classes to attend swimming exhibitions got to become an excellent student because he became a good golfer.

anyway, says: "The change to being a good student took place when I discovered, much to my surprise, that I could gain the same control over my mind, through persistent practice, that I had achieved over my body."

This is the time of year, just before final examinations, when every student should take stock of himself. Ask yourself "Am I training to be a good student with the same determination that I give to learning to water, ski or drive a car or dance?"

First, find out how you should study each subject, then review the subject from the beginning.

Find yourself a coach. Get help from your teacher or a student who is more successful than yourself.

Get him to coach you in the way you should go about learning, but not in working your problems or completing your homework. Talk over your study methods and search for ways to improve them.

And keep on trying. Remember it takes practice to become a good student, just as it does to become a good golfer.

OUR ANCESTORS By Quincy

West will probably take his queen of hearts and lead a second heart to his partner's jack, whereupon East will lead the jack of clubs.

South will play the queen in case East has led from the king, but West will produce the king and the trick will be won by dummy's ace.

Now South must ruff a diamond high, lead a trump to dummy's ten, ruff another diamond king, lead a trump to dummy's king and discard his losing club on dummy's fifth diamond.

Q—The bidding has been: South West North East 1♠ 1♦ 1♥ 1♠ 2♠ 2♦ 2♥ 2♠ 3♠ 3♦ 3♥ 3♠ 4♠ 4♦ 4♥ 4♠ 5♠ 5♦ 5♥ 5♠ 6♠ 6♦ 6♥ 6♠ 7♠ 7♦ 7♥ 7♠ 8♠ 8♦ 8♥ 8♠ 9♠ 9♦ 9♥ 9♠ 10♠ 10♦ 10♥ 10♠ 11♠ 11♦ 11♥ 11♠ 12♠ 12♦ 12♥ Some Brisk Profit Taking

Market Recovers From Dip

NEW YORK (AP)—The stock market recovered from an early dip and moved irregularly early this afternoon. Trading was active.

The list encountered some brisk profit taking in the first hour then profit key stocks erased losses, some posting small gains.

The pace of transactions was faster than on the previous session.

down unanimously at the beginning, showed steady tendency. The impetus given the market by the series of selective price increases seemed to have petered out, even as Bethlehem, Detroit and National Steel joined the parade of firms which have raised steel prices.

Once profit taking was largely out of the way, however, more buying came into the market. Steels shaped up as unchanged to a bit higher on balance. Motors

OK Operation of State A-Plant

WASHINGTON (AP)—Approval of operation of a proposed atomic power plant at Lagoona Beach, Mich., was given today by the Atomic Energy Commission's Atomic Safety and Licensing Board.

The board's decision, an AEC spokesman said, authorizes issuance of a license for initial power operation of the Enrico Fermi plant.

Steel Price Increase FAA Probes Probably Will Spark Near Mishap New Car Cost Hike

By ROBERT IRVIN

DETROIT (UPI)—An industry-wide steel price increase probably would result in higher prices for 1964 model cars.

But the increase would not affect the prices of 1963 models, it was generally agreed.

Arguing against an immediate increase was the fact that the industry has been stockpiling steel as a hedge against a possible shutdown in the steel industry.

concessions was that it would be about two per cent.

The increase with the 1959 model was 2.6 per cent and the rough figure for any current hike would be about \$50 per car.

However, when the steel industry knuckled under to President Kennedy's demand to hold the line in prices last year, the auto industry followed suit.

The same general reaction was expected this time.

At a news conference last week, Henry Ford II, board chairman at Ford Motor Co., said there would have to be considerable study before the prices of cars would be raised.

From Our News Wires

CHICAGO—The Federal Aviation Agency is investigating a close-to-collision passage of a U.S. Air Force jet tanker and a jet airliner carrying 61 passengers.

The near miss occurred Monday 29,000 feet above Grand Island, Neb.

The FAA said three traffic controllers at its Denver center were relieved of duty pending completion of the inquiry. That is the agency's practice.

The FAA said in Washington that it had been informed both planes were flying in VFR conditions and were operating under instrument flight rules.

The lightly loaded Boeing 707 turned into the wind at Los Angeles International Airport and roared down the runway.

The time was 9:30 a.m. PST. Continental Airlines flight No. 2, nonstop to Chicago, was on time.

The airliner climbed sharply into the clouds and the 53 passengers aboard the 138-seat plane settled back Monday for the 2-hour-and-40-minute trip to Chicago.

A storm center off the Pacific Coast had brought dense clouds to much of the West. It was snowing over the high mountains.

Pilot William Hart decided to leave the "fasten seat belts" sign on because the plane might encounter turbulence.

That decision was one of the best Hart ever made.

With half the distance, flight No. 2 entered the jurisdiction of the Denver, Colo., Air Traffic Control Center, which picked up the big plane on its radar scopes and assigned it an altitude of 29,000 feet.

Flight No. 2 was just about directly over Grand Island, Neb., when out of the mist on the starboard side a crewman spotted a shiny object heading northeast.

Another jet, fully as big as the 707, wearing the starred insignia of the U.S. Air Force, was on a collision course with flight No. 2.

There wasn't time for a warning to passengers and crew. Hart threw the 707 into a sharp, climbing left turn, away from the HC-130 tanker, heavily laden with jet fuel.

But because the seat belts remained buckled, there were no injuries aboard flight No. 2.

Area Man Elected VP at Chrysler

L. B. Bornhauser, of 1155 Quanton Road, Bloomfield Hills, has been elected a vice president of Chrysler Corp., it was announced today.

Bornhauser will continue as director of manufacturing engineering, to which he was appointed last January.

A Purdue University graduate, he joined Chrysler as a graduate student engineer in 1957.

Prior to his appointment as director of manufacturing engineering, he was group executive for Power-Train Manufacturing.

Smoke Billows From Burning Oxford Church Today

Pass 65 Bills in Legislature

Small Loans Measure
Approved by Senate

LANSING (AP)—Michigan's Legislature moved into high gear yesterday and passed more than 65 of the some 250 bills awaiting final action on House and Senate calendars.

Although the sessions got under way late because of an inspection of the Wurtsmith AFB by about half of the lawmakers, the proceedings moved along at a fast pace once they started.

The Senate, in afternoon and evening sessions, passed some 50 House-approved bills — including the controversial small loans measure and a segment of Gov. George Romney's economic expansion program.

House members, with a lighter calendar, skipped the night session but also managed to approve more than a dozen bills, including a Romney-backed proposal on mental health.

MAY BE CONFERENCES

Most of the measures now go to the governor for his signature, but some will require concurrence by one House in amendments made by the other. Failing that, the bills will be sent to a conference committee.

One bill which appears headed for possible conference is the small loans act, which was approved by the Senate, 31-2.

As passed by the House, it would increase the ceiling on such loans from the present \$500 to \$1,500. But the Senate peeled the hike back to \$1,000, and also trimmed the interest provisions from the House-approved 1 1/2 per cent a month to 1 1/4 per cent for the unpaid balance over \$300.

Supporters of the small loans bill said it would allow people needing more than \$500 to arrange for larger loans at one company instead of having to go to more than one firm.

But opponents objected that small loan company customers are usually people whose credit

Fire Ravages Church in North County Town

The First Baptist Church of Oxford, a landmark for more than 100 years, was destroyed by fire this morning.

Some 60 volunteer firemen from five area departments fought vainly to save the one-story brick structure located at 17 East St. It was valued at \$60,000.

Matt Mersino, owner of a gas station next to the church, turned in the alarm when he noticed smoke billowing from the building about 8 a.m.

The Oxford crew immediately requested assistance from the Orion and Addison departments.

"We thought we were going to lick it then," Oxford Fire Chief Ellsworth Sage said.

He said the flames were almost under control in the new education wing at the rear of the building before they spread to the sanctuary.

Although cause of the fire is not determined, two youths living behind the structure said they saw lightning strike it shortly before 8 a.m.

Jerry and Dale Judd, ages 14 and 11, said they were looking out a rear window of their home when lightning split a portion of the roof at the rear of the church.

Sage said he thought the building was burning for some time before the alarm was sounded. He added that lightning could have been the cause.

Rev. Norman Sanders, pastor of the church, is returning today from a vacation in Mio. He was told of the fire before starting home.

The structure is fully insured. At 9:31 a.m., the clang of the church bell resounded throughout the area as the belfry roof collapsed.

A last-minute reccheck of the votes showed an error in recording the Cheboygan County returns produced 63 more "yes" votes.

When tallied on the basis of a telephone report from the county, the elections division recorded 1,307 yes votes and 3,017 no votes.

The official returns showed 1,370 favored adoption of the document and 3,017 voted against it.

NEW EMBLEM—"Follow courage and knowledge" is the motto imprinted on the new emblem adopted by Oakland University. The black, white and gold emblem is based upon the motif of a sail which symbolizes a search or pursuit of knowledge. The emblem will make its bow at commencement exercises Saturday.

Showers to Blanket Pontiac Tonight

Showers are predicted for early tonight in the Pontiac area with low temperatures near 40.

Partly cloudy and cooler with a high of 55 is tomorrow's outlook. Temperatures over the next five days will average 3 to 6 degrees above normal high of 55 to 60 and normal low of 33 to 40.

Occasional rain or showers are forecast for the weekend. Precipitation is expected to measure one half to three quarters of an inch.

Today's southerly winds at 12 to 25 miles per hour will become west and northwest late tonight and tomorrow.

The lowest recording in downtown Pontiac preceding 8 a.m. was 50. At 1 p.m. the mercury had climbed to 72.

\$4,000 Blaze Strikes Building in Waterford

Fire of undetermined origin last night caused an estimated \$3,000 damage to a one-story frame building, at 3750 Elizabeth Lake Road, Waterford Township, and an additional \$1,000 damage to contents.

The building, formerly used as a sawmill but unoccupied for over a year, was called a total loss. It is owned by S. D. Solomon and Sons Construction Co. of Lansing.

Pick Developer of Downtown Renewal Land

Waterford Twp. Man
Gets Nod of Pontiac's
City Commission

The destiny of some 20 acres of urban renewal land in Pontiac's central business district will be in the hands of one man—at least for the next 12 months.

A Waterford Township man, Charles L. Langs, was designated as exclusive redeveloper of downtown urban renewal areas by the City Commission last night.

A formal agreement whereby the city will option urban renewal properties to Langs will be up for commission approval at next Tuesday's meeting.

Under terms of the agreement, the city would guarantee to deliver land within a one-year period if Langs can produce suitable tenants.

The policy making resolution approved unanimously at last night's meeting represents a departure from the advertising and sale of land by public bids.

ATTRACT INTEREST

Mayor Robert A. Landry, speaking for the commission, said that the city has solicited interest of numerous prospective redevelopers and companies for several years.

"Many ideas have been discussed . . . but none have progressed to the stage where they could be presented to the City Commission for our consideration."

"We are convinced," Landry noted, "that we can no longer wait for redevelopers to come to us with proposals."

"We are convinced that if a coordinated commercial complex is truly to be achieved within a reasonable period of time, it must be undertaken by one redeveloper."

Landry said that the total cost of redevelopment in the downtown urban renewal area is estimated at \$13 million.

The agreement with Langs can be canceled anytime after eight months if he fails to show "sufficient progress as determined by the commission."

City officials said the move is

Probers Cite Delay by Skipper of Thresher's Escort Vessel

PORTSMOUTH, N.H. (AP)—A Navy court of inquiry has cited Lt. Cmdr. Stanley W. Hecker, skipper of the submarine escort vessel Skylark, for what it called his failure to report the last messages from the ill-fated submarine Thresher "for an unreasonable length of time."

The court on Tuesday named Hecker, 36, of Brooklyn, N.Y., a party to its investigation of the loss of the Thresher with 129 men aboard. The five-member court then recessed and announced it would resume hearings after Hecker has obtained counsel and examined evidence given thus far.

The Skylark was accompanying the nuclear submarine when it made its fatal dive.

The court said Hecker's conduct as the Skylark's commanding officer "appears to be subject to inquiry," but emphasized he is not blamed for the loss of the Thresher.

The submarine sank in 8,400 feet of water about 220 miles east of Cape Cod during a deep sea test dive Wednesday.

Rear Adm. Lawson P. Ramage,

deputy commander of the Atlantic Fleet submarine force and the initial commander of the search effort, testified Tuesday that he did not learn for a few days that the Thresher had indicated the possibility of trouble.

'LAST MESSAGE'

Lt. (j.g.) James C. Watson, 43, Hecker's navigator on Skylark, testified before the inquiry board last Saturday that the last distinguishable message from Thresher to Skylark was: "Experiencing minor difficulty. Have positive up angle. Trying to blow."

The court said "trying to blow" meant Thresher was trying to clear its ballast tanks for surfacing.

Vice Adm. Bernard L. Austin, president of the inquiry board, emphasized that no charges had been placed against Hecker and that he is in no way held responsible for the loss of the Thresher.

The court said "trying to blow" meant Thresher was trying to clear its ballast tanks for surfacing.

Vice Adm. Bernard L. Austin, president of the inquiry board, emphasized that no charges had been placed against Hecker and that he is in no way held responsible for the loss of the Thresher.

Hikes Disclosed by 8 Companies as Total Grows

Nation's Top Producer,
U. S. Steel, Reveals
Increases

NEW YORK (UPI)—Bethlehem Steel, the nation's second-largest producer, today announced selective price increases averaging a little more than \$5 a ton, making big steel unanimous in breaking the steel price line.

From Our News Wires

NEW YORK — Steel producers moved toward making their selective price hikes unanimous today with the National Steel Corp., the nation's fifth-ranked producer, announcing increases averaging \$6 a ton.

National said the higher prices would be tagged to its products starting tomorrow.

The nation's largest producer, U. S. Steel Corp., raised its prices yesterday.

Altogether eight steel firms, apparently anticipating no repetition of last year's slowdown by the White House, have announced increases.

Also raising prices yesterday were Jones & Laughlin Steel Corp., Armco Steel Corp. and Inland Steel Corp. A year ago Inland refused to go along with an attempted increase which collapsed.

Increases also have been ordered by Wheeling Steel Corp.,

Related Stories,
Pages A-3, D-6

Lukens Steel Co., Republic Steel Corp. and Pittsburgh Steel Co. Still to be heard from was Bethlehem Steel Corp., ranked No. 2 among the producers.

Some industry sources gave the raises a good chance of sticking, in contrast to the effort a year ago, which fell apart under pressure from President Kennedy and failure of a solid front to develop.

As company after company announced boosts, Kennedy remained silent although he was reported keeping a close watch on the situation.

Foul Play Still Considered

Police Continue Probe of Grinnan Case

The body of Robert Grinnan was found yesterday, but the case which began with his disappearance March 22 is not closed.

"The case will not be dropped by this department until we find out how he got into the lake," Chief Norman Dehnke of the Bloomfield Township Police Department said.

There seems no way the boy could have gotten into the man-made lake, according to Dehnke.

When the 12-year-old mentally retarded youth was reported missing from his Bloomfield Township home, the pond was covered with about six-inches of ice — enough to support searchers who combed the area.

There are two storm sewers which empty into the pond, but the lines leading to the openings are not large enough to accommodate a boy's body being tumbled by a current, Dehnke said.

Much speculation will hinge on the length of time the boy was in the water.

Dr. Richard Olsen, pathologist who performed the autopsy on the

body at St. Joseph Mercy Hospital, said it might be some time before this factor could be determined.

Robert's body was floating when discovered by two 12-year-old girls late yesterday morning.

Under ordinary circumstances, drowned bodies come to the surface within a few hours, Robert Templin, senior assistant county prosecutor, said.

If the body had been floating for three weeks, why hadn't some one seen it?

It could have been submerged, Templin said. He noted that temperature is a variable to be considered and that possibly the cold water had kept the body down.

FOUL PLAY POSSIBLE

Investigators have not ruled out foul play. Although they found no marks on the fully clothed body, police noted that the boots were on the wrong feet.

"I don't want to put too much into this yet," Dehnke said. "We must remember that the boy was retarded."

Robert's mother, Mrs. Joseph E. Grinnan of 5515 Pebbleshire Road, has been unable to remember whether she helped her son

(Continued on Page 2, Col. 4)

OUT THERE—Martha Petrie (left) of 1133 Hickory St., Royal Oak, and Margaret Guest of 5624 Suters Lane, Bloomfield Township, point to the spot about 15 feet from shore where

they discovered the body of Robert Grinnan. The 12-year-olds had been hiking near the northeast shore of Lac Kirkwood.

What Are Car Makers Planning for '64? Here's Few Hints

By BEN PHLEGAR
AP Automotive Writer

DETROIT — In another four months the 1964 models will be rolling from the automotive assembly lines.

The advance planning is over. Decisions have been made. Commitments are firm. Testing continues, but the shape of things to come already is determined.

This is the time when hints about the new cars are being dropped, occasionally on purpose. Here are some of the things being said around Detroit:

In styling the major changes can be expected in the Ford and Mercury lines, in some of the Chrysler Corp. cars, in the Rambler American and probably in the Studebaker Lark.

Most of the General Motors cars will receive only a face lift. Nothing new was due for the coming year in the appearance line and fantastic sales successes seem to justify such planning.

GM is supposed to have some major changes coming, but they will be under the skin. One of these is the switch away from unit construction for the Chevy

II, Tempest, Buick Special and Oldsmobile F85.

ADD MORE SIZE

The B-O-P compacts all added size for 1963 and they'll add a little more for 1964 with a common body on a separate frame. Their wheelbase, now 112 inches, may grow to 115 inches. Chevy II apparently also will grow a bit, although not as much as the BOP's.

Another GM switch is in engines where Buick and Oldsmobile will go to cast iron in 500 and 700 series, already stripped to three models.

At one point Buick was ready to go all aluminum for 1964.

The Chevrolet Corvair will keep its unique, mostly aluminum air cooled six, but changes probably will boost displacement and add some pep.

The top-of-the-line Monza is accounting for almost 80 per cent of all Corvair sales this year and may well be the only series for 1964, other than the specialized Greenbrier wagon.

This would mean dropping the 500 and 700 series, already stripped to three models.

A report in Steel magazine says General Motors will be simplifying some of its automatic transmissions and that by 1965 it will be phasing out its Hydra-Matics. Ford and Chrysler also have some transmission changes coming. Ford has a three-speed automatic to replace the sluggish two-speed one on its compacts. Chrysler will offer a synchronized three-speed manual transmission.

MAY EXTEND SHIFT

And still on transmissions, Studebaker may extend the Borg-Warner power shift used this year on the Avanti to the rest of the corporate line. The power shift can be used as an automatic or shifted manually.

New bodies are due for Ford,

Thunderbird and the Mercury these by Jan. 1. Code name for the car is the Typhoon, but there are conflicting reports on whether this name will be kept on the finished product.

Chrysler's announced policy on styling is that it will make enough changes on a year-to-year basis to keep the cars looking new, and still keep the various corporation entries from looking identical.

Expect some changes to show from new styling vice president Elwood Engel, who took over too late to make any noticeable contribution to the 1963 models.

The big news at Chrysler will be its gas turbine car. The company has promised 50 to 75 of

these by Jan. 1. Code name for the car is the Typhoon, but there are conflicting reports on whether this name will be kept on the finished product.

ITALIAN DESIGN

Chrysler had Ghia of Italy design two bodies for the car. These are being evaluated in this country now with June said to be the deadline.

Chrysler's announcement in December 1961, that it would build turbine cars in 1963 was greeted with skepticism by other companies. Ford and General Motors continue to maintain turbines are not suitable for passenger cars.

Chrysler insists turbines not only are feasible but that cost of production problems have first in two years.

American Motors made its big change for 1963 with the restyled Rambler Classic and Ambassador. Thus, nothing radically new will be available in 1964.

The American, however, will sport new dress, will grow from its 100-inch wheelbase and probably will look considerably more like the other AMC cars.

Grace, Prince to Visit

NEW YORK (UPI) — Princess Grace and Prince Rainier of Monaco and their children will arrive here today for a five-week visit to the United States, their first in two years.

Hero Sgt. York Back on Critical List

NASHVILLE, Tenn. (UPI) — Sgt. Alvin York, the tall mountain man who became one of America's best known heroes in World War I, was in critical condition again today, and new tests were planned in an effort to determine what caused his relapse.

The Congressional Medal of Honor winner was taken off the critically ill list at St. Thomas Hospital yesterday morning, and doctors said there had been "definite improvement" in his condition.

A few hours later, York, 75, developed a fever and an upset stomach.

Army to Draft 4,000 in June; Less Than May

WASHINGTON (UPI) — The Army said yesterday it will draft 4,000 men in June, 6,000 less than in May.

The draft for March was 9,000 and 10,000 for this month and May. A rise in enlistments with the end of the school year partly accounts for the drop in the June draft call.

The new Royal Bank of Canada Building in Montreal — 45 stories high — is the largest of its structure in the British Commonwealth.

Some Blame Government

Restaurant, Hotel Business Takes Dive

NEW YORK (AP) — What's caused the slump in hotel and restaurant business?

Some figures in the industry believe the government's crack-down on expense account living has brought on "recession thinking" and triggered the decline.

There's no doubt business is off, sharply. January figures for 183 hotels in 11 cities across the country show room revenues dropped \$1,485,425 from the 1962 level, while food sales declined \$953,233 and beverage sales were off \$363,480.

The figures were compiled by Harris, Kerr, Forster & Co., certified public accountants specializing in hotel auditing.

As for restaurants not associated with hotels, the National Restaurant Association has predicted a sales loss for one year in 33 cities of \$319,500,000 and the loss of 41,700 restaurant jobs.

The prediction was based on a survey of leading eating establishments.

In the key convention city of New York, the prime market, with a \$2 billion annual gross, the restaurant projection shows

an annual decline of \$117 million and a potential loss of 14,000 jobs.

OTHER DECLINES

The accounting concern said that 42 major hotels in the city with 35,000 rooms showed a decline in room charges in January of \$76,749, a food sales decline of \$991,819 and a beverage sales drop of \$233,716.

The crackdown started after congress passed new tax legislation last year in an attempt

to cut down on abuses of the expense account.

Many persons managed to deduct expenses that were largely personal in nature. The public complained as it saw people living lavishly at government expense.

Still the resulting legislation has been widely criticized by businessmen who believe it curtails deductions of many legitimate expenditures incurred in the pursuit of business.

NOTICE

It has come to our attention that many automobile policy holders are currently being cancelled because of minor automobile infractions. In many cases this is occurring after long successive years of continuous patronage. We feel this is wrong, and wish to advise that we have markets for this basically good business. We are here to serve the people of the Pontiac Area and SERVE we will.

Should Club Pay Guests' Hotel Bill

By The Emily Post Institute

Q: I am the secretary of a woman's club. We have invited the former president of the club, now living in another state, and her husband to be our guests at a dinner dance.

It will be necessary for them to spend the night at a hotel. We would like to know if the club should assume their hotel expenses, or do they take care of this themselves?

A: They pay their own hotel bill.

Q: I am going to be married soon. Both my parents are dead and I am living with my sister and brother-in-law.

Who should be seated last at the church? I know that ordinarily the bride's mother is seated last, but under the circumstances, don't you think it would be more courteous for the bridegroom's mother to be seated last since she is much older than my sister?

A: There's no special distinction in being seated last. The arrival of the bride's mother (in your case your sister) announces the bride's arrival at the church and is a signal that the ceremony is about to begin.

Q: My wedding reception will be held in a hall. From the past experiences of some of my friends, there have been several so-called crashers at these gatherings.

In order to avoid this, would it be permissible to add, "No one will be admitted without this card" at the bottom of the reception invitations?

A: If you really think it necessary, it would be permissible to add at the bottom of the reception card, "This card necessary for admission." You will then have to have someone stationed at the door to the reception to admit only those with a card.

Q: I have received an invitation to the wedding and reception of a relative living in a distant city. It will be impossible for me to go and I am sure the invitation was sent simply in courtesy.

The invitation has R.S.V.P. on it. Is it necessary to answer this invitation since it is obvious that I will not be able to go. It seems senseless to me.

A: You need not send a formal third person reply, but it would be courteous to write a brief note to the bride saying how sorry you are that you won't be able to go to the wedding, but that you wish her every happiness.

TIED MOM

Applied During Construction

OU's First Student Among Charter Grads

By JEANMARIE ELKINS

The first student to be officially accepted at Oakland University when it opened in September of 1959 will be among those in the charter graduating class Saturday.

She is Lynne Elaine Anderson, daughter of Mr. and Mrs. Frank A. Anderson, of Oneida Road.

Lynne submitted her application in the summer of 1958 when construction on the buildings had just begun. Her interview took place off campus in what is now the home of Chancellor D. B. Varner.

Lynne was on the exploratory committee for student government in her freshman year as well as a member of the vocal ensemble.

Her other activities included ski club, for which she was secretary and treasurer, chorus and service as a student senator.

CARRIED FULL COURSE

This tiny girl (less than 100 lbs.) carried a full load of subjects as well as an occasional summer school course, and worked in a local women's clothing store from Christmas of her sophomore year through her junior and senior years.

Lynne plans to teach secondary education upon graduation.

uation. She has a history-major and English minor. Her student teaching at Rochester High School was under the supervision of Mary Ann Andea.

Lynne hopes to find a teaching position in southwestern Michigan or northwestern Indiana.

Marriage is in the near future for Lynne, who will wed

W. James Ruth III Aug. 10, the wedding anniversary of her mother and two aunts. James attends Tri-State College, Angola, Ind.

SHE WAS FORTUNATE

"I liked being part of something new and different," she commented on Oakland University.

Lynne believes that she was fortunate to be able to attend OU. According to her, the school makes students do more seeking on their own, so they appreciate what they learn more than if they were "spoon fed" the information.

Lynne believes the courses at Oakland were liberally presented and hopes to be able to allow her high school students to do more work for themselves.

She thinks that most high school courses are not geared to prepare for college.

Although she was offered the opportunity to transfer, Lynne decided to stay at Oakland University.

She did admit that the university had some growing pains. This was apparent in the area of social activities for the charter class, but Lynne feels this is being corrected.

She believes that Oakland University offered her the best education; and education, not social life, was what she went to college for.

Of the graduating class of 146 seniors, Lynne is among 123 charter students who are all that remain of the 1959 entering class of 570.

Adjusting her cap as she tries on graduation regalia Saturday is Lynne Elaine Anderson, daughter of Mr. and Mrs. Frank A. Anderson, Oneida Road. Lynne was the first student to apply and first to be formally admitted to Oakland University. She is one of 146 seniors who will be the University's first graduating class.

Rae-Vens Set Annual Style Show

The Rae-Vens will present their third annual fashion show "Sun and Fun Fashions" 8 p.m. Tuesday at the Elks Temple.

Three-time state champions, Rae-Vens is a precision marching drill team of 45 girls. Proceeds from the style show will be used for the girls' equipment and travel fund.

Fashions from the Bobette Shop will be modeled by team members and their mothers.

Models are Nancy Burgdorf, Goyanne Mansfield, Anne Madsen, Colleen Cooper and Marcia Olds.

Others are Carole Howland, Janet Rickman, Jana Ballard, Aleida Reid, Nancy Shadrick and Edna Isenberg.

Mothers modeling include Mrs. Hugh Hales, Mrs. Roy Shadrick and Mrs. D. A. Prey.

Tickets may be purchased from Rae-Ven members or at the door.

Hills Area Residents Keep Hopping

By SIGNE KARLSTROM

Mr. and Mrs. Charles H. Bay of Bloomfield Hills are back home after four months of travel. Mr. Bay was much surprised when he discovered that they had motored 10,000 miles.

In December they started their trip to California as their destination, intending, particularly, a visit with their son and daughter-in-law, Mr. and Mrs. George H. Bay of San Francisco. Christmas holidays were spent in their home.

From there, the travelers headed for Winter Park, Fla., to visit with son and daughter-in-law Mr. and Mrs. James R. Bay. Time also was spent in Fort Myers and Lake Worth, but when granddaughter Cynthia arrived on March 12, Mr. and Mrs. Bay came back to Winter Park.

On their way home to Michigan, the Masters Golf

Tournament at Augusta, Ga., became another point of attraction.

Arriving home for Easter were Mr. and Mrs. Richard Wagner of Abbey Road, who have enjoyed 2 1/2 months of travel in California and the Hawaiian Islands. In Honolulu, the Wagners visited with Mr. and Mrs. Edward S. Wellock, who will return to their Kirkway Drive home in May. The Wellocks also have had visits by the James Peders and the Percy Lounds.

On Monday, Mr. and Mrs. Peter Diol of Marquette and their two little daughters, Kathy and Susan, left for home after a week's visit with Mrs. Diol's parents, Mr. and Mrs. Norman Johnson of Devon Road. Their son, Norman Jerry Johnson, also spent Easter holidays with

his parents and departed Monday for Stamford, Conn.

With the Richard Darraghs of Ardmore Road for Easter dinner were their good friends, the Bethel Kelleys and their daughters Mary Beth and Nancy.

Mrs. Charles J. Shain entertained at Easter dinner in Dotsford Inn. Guests were Mr. and Mrs. Arthur B. Tilton; Dr. J. B. Hassberger; Mr. and Mrs. W. Whiting Raymond, and friends from Grosse Pointe, Mr. and Mrs. Lewis B. Sappington and Mr. and Mrs. F. G. Garrison.

Elect President of Waterford Jaycette Unit

Mrs. James Curd was elected president of the Waterford Township Jaycettes Monday night at the annual election meeting at the home of Mrs. Ted McCullough, Chipman Street.

Other officers elected were vice president, Mrs. Frank Larkey; treasurer, Mrs. John Radebaugh; recording secretary, Mrs. Richard Gilcrest and corresponding secretary, Mrs. Whitney Carnahan.

Elected directors of the organization were Mrs. Arthur Burleson and Mrs. Richard Swabow.

The George W. Agrees, West Ironquios Road, announce the engagement of their daughter Marcey Ann to Daniel S. Hahn, son of the Joseph Hahns, Belrose, Long Island, N.Y. Both attend Michigan State University. She is a staff member of Cranbrook Summer Theater.

MARCEY ANN AGREE

Horsemen From Culver to Present Exhibition

Culver Military Academy's famous Lancer Platoon of the Black Horse Troop will bring their mounts from Culver, Ind., to present a drill and exhibition Saturday night at Bloomfield Open Hunt Club (BOH).

A sock-hop honoring the visiting Culver cadets will follow.

The exhibition will include a jumping competition and polo match between the Culver and BOH teams.

Local parents participating in arrangements are Mr. and Mrs. Richard M. Olsen, Mr. and Mrs. William B. Bachman, the Leonard A. Gardners and Dr. and Mrs. Luther Leader.

Others are Mr. and Mrs. William Hartman, Mr. and Mrs. Maynard Andree and the William McNaughtons.

Popover Dress for Spring

Spring into a "popover" dress. It's a full skirted dress with its own popover jumper—a three-in-one job that's perfect from early spring right through late summer.

She Wants Mate's Ex-Wife Not to Live on Same Block

By ABIGAIL VAN BUREN

DEAR ABBY: My husband owns three houses in the block where we live. When he purchased these houses we learned that his ex-wife and her second husband were living in one of them.

I know there is nothing between my husband and his ex-wife any more, but every time I run into her the funniest feeling comes over me.

I hate to tell my husband to ask them to move when their lease runs out in August because they are good tenants, pay their rent on-time, have no children and keep our property nice.

But, Abby, I don't like seeing a woman almost every day who was once married to my husband. What should I do?

DEAR BIG: Don't ask your husband to ask them to move. If they were replaced by less desirable tenants, you'd never hear the end of it. This woman is part of the past. The past is dead. Bury it!

DEAR ABBY: I am a girl who just loves to dance. There are more girls than boys at our school, so if a girl doesn't cut in on another girl who's dancing with a boy, some girls never get a chance to dance.

I was wondering, when a girl wants to cut in on another girl so she can dance with a boy, whose shoulder

should she tap? The boy's or the girl's?

LOVES TO DANCE

DEAR LOVES: I don't advise a girl to cut in on another girl in order to dance with a boy, but she should tap the shoulder of the one

PEO Group Names Those for Convention

Delegates to the 44th annual state convention April 16-18 at the Dearborn Inn were announced at the Monday evening meeting of chapter AW of the PEO Sisterhood.

Representing the chapter will be Mrs. Walter Teeuwissen and Mrs. Joseph Bara. They will hear Mr. Don Shelby, executive director of Henry Ford Museum and Greenfield Village.

Speaker at the Monday meeting was Mrs. Leslie Tripp, who told of her trip to Lima, Peru.

There she visited her son Robert, who is connected with the Wycliffe Bible Translators, the summer Institute of Linguistics.

Mrs. Webster S. Francis of Orchard Lake was hostess.

To Show Film on Alaska at Junior College

Pontiac Chapter of the Associates of Michigan Christian Junior College will sponsor a film, "Alaskan Vacation," Friday at 7 p.m. in the college cafeteria on West Avon Road in Rochester.

Two 55-minute colored films will be shown by Grant Chappell, who has traveled extensively in Alaska.

Tickets may be purchased at the door, and children under school age will be admitted free of charge. Proceeds will benefit the Michigan Christian Junior College.

Mrs. Richard Smith is program director. Assisting her are Mrs. Hugh Vick, Mrs. W. W. Laggett, Mrs. Ruth Jones and Mrs. Don Hatcher.

Cadets from Culver Military Academy participating in a drill and exhibition at Bloomfield Open Hunt Club Saturday night include (from left)

Cadet Bob Lytle, Birmingham; Cadet Rick Olsen, Bloomfield Hills; Cadet Bill Hartman, Bloomfield Hills; and Cadet Tom Bachman, Oakleigh Drive.

To Consider Nominations

Mrs. James Shafor, senior regent, Women of the Moose, will meet with the nominating committee for the forthcoming election of officers Monday at 7:30 p.m. in Moose Lodge.

The annual mother-daughter, father-son banquet is scheduled for 8 p.m. May 8 in the lodge. Mrs. Jack Up-ton is chairman.

Widow Finds Cash in Hand-Me-Downs

By MARY FEELEY
Consultant in Money Management

Stretching dollars to keep the children in clothes can give a woman just about all the exercise she needs. There's nothing like it to limber up the imagination. Mrs. E. C. of Chicago came up with this idea that paid off for everybody concerned.

MARY FEELEY

"I am a widow with two small children, a boy and girl, aged 7 and 9," she writes. "Last year I got a bright idea about what to do with the little dresses and boy's shirts, coats, and jackets which were outgrown and couldn't be handed down in the family."

"I printed some index cards with the articles and price of each... such as dress, 50 cents, coat, \$2, added my phone number and placed them on the bulletin board in my supermarket. Immediately I got phone calls from moms who had lots of kids and were happy to have the clothes. I made almost \$40."

Another letter on the same subject may spark ideas, where teen-agers are concerned:

Dear Mary Feeley:

Mrs. W. D.'s question in your column recently, concerning the high cost of dressing her teen-agers, prompts me to pass on this suggestion:

Resale shops are a good source for quality clothing at

a small price. Even though I am an accomplished seamstress, it is often cheaper for me to take my daughter to one of these shops, especially for formal and semiformal dresses.

Occasionally, a minor altera-

tion means owning a high fashion creation that we couldn't possibly consider at the original price. Most of the merchandise offered at these shops has the appearance of being brand new.

New pep for tired husbands!

No wonder so many women complain that their husbands come home "too tired out to step out"! The churning tensions millions of men face on their jobs constantly drain them of the energy and vitality they might otherwise have.

That's why many doctors recommend supplementing the daily diet with Kretschmer Wheat Germ, nature's great "bounce-back" food. Made from the germinating heart of the wheat kernel, wheat germ is the most healthful food known, according to official U.S. Department of Agriculture studies of the nutritive values of foods.

Kretschmer Wheat Germ actually provides a total of 80 natural vitamins and minerals.

trally balanced nutrients essential to good health, vigor and stamina! In addition, it acts like a spark plug to help the body use other high-energy foods more fully.

• Serve your husband this remarkable natural food every day for breakfast and see for yourself how much more pep and vitality he has!

• Use these delicious, tiny toasted flakes as a cereal, on cereals, or add to pancakes and scrambled eggs.

• Kretschmer Wheat Germ is great for the entire family, so be sure to get some. Look for it in vacuum-sealed glass jars in the cereal section of your food store. Choose either regular or Sugar 'N Honey.

DAR Says No to Kennedy on Equality

By C. YATES McDaniel
WASHINGTON (U-P)—The Daughters of the American Revolution rejected today President Kennedy's suggestion they aid "in the great struggle to close the remaining gaps in the American dream of equality and brotherhood."

Mrs. Robert V. Duncan, DAR president general, thanked Kennedy in a letter for the message he sent to the opening of the organization's continental congress, but explained that the DAR has no policy on either segregation or desegregation, and didn't intend to declare one.

The DAR, she said, does stand for states rights, and several resolutions before the 240 delegates today affirm this position. Among the 12 resolutions up for adoption are ones urging U.S. withdrawal from the United Nations and declarations against any agreements to limit arms and end nuclear testing.

Continuance of the DAR's traditional line against internationalism was assured when the leadership yesterday defended its 12-point policy stand against seceding questioning from delegates at the 72nd national convention.

The resolutions also hit at domestic proposals as the liberalization of immigration, the domestic youth corps and deficit spending.

The DAR is also expected to record approval for public schools to conduct nonsectarian religious exercises, and to disapprove the giving of personality tests to students for fear that they might warp youthful minds.

Last night, Sen. John G. Tower, R-Tex., told the organization that U.S. foreign aid funds are being used to force Latin American nations to develop "socialistic schemes."

He also contended that the assistance program "created a rather dangerous drain on our gold reserves" and has had a harmful effect on the American economy.

Tower centered his attack on the administration's alliance for progress program. He charged that as a condition for receiving U.S. assistance, "We are insisting that Latin American countries develop socialistic schemes, that they expropriate property, that they confiscate property, that they compete with private enterprise."

The United States is the principal exporter of . . .

This Is an Era of Beloved Corruption Among American Males

By PHYLLIS BATTELLE
NEW YORK — I wonder how many American men cheated on their income tax returns this year. Everybody? Ah no, that's too cynical.

Half? No, that's naive. The government, hard as they audit those returns, will never know—but the chances are that a hefty proportion of the re-

PHYLLIS BATTELLE
turners, which the BATTELLE revenues are even now processing, are in some way dishonest. "It's HUMAN to cheat on your income tax," says a businessman.

"You've got to jack up your expenses on the return, otherwise you lose your shirt in an audit. You know how the Internal Revenue Bureau thinks. You're guilty until proven innocent. Isn't that true?" But cheating on your tax is small potatoes compared to other minor and major vices of which the American male is guilty in this era of "getting the edge" on your fellow man.

We're living in a time when being dishonest (without being caught) is almost a sport; an era when the man who is completely moral, who obeys all the laws of God, nature and courts is looked on as an eccentric, a neurotic, a square.

It's considered almost virile to do the wrong thing. "Sure, I go out with women when I come to New York," says a Midwest businessman. "The boss thinks he's doing me a favor, fixing me up; you have to go along, or you look like a jerk."

This is a time when the average man gambles with the books.

It's illegal, but as the two-dollar better says, "You know anybody who doesn't, once in a while?"

"And don't give me that jazz about supporting the under-world. The government's doing that, by not legalizing gambling. Right?"

You have a few drinks and crack up the car; that's okay. You paid the 50 dollars, didn't you? You go to church every Sunday, then every weekday you curse your favorite minority.

You boost your expense account, book hotel towels, goof off on your job, bribe cops.

You become a scowflaw, big deal!

As one scowflaw told me, "Just forgetting to pay a few parking fines isn't a federal offense, is it? I'm not a Billie Sol Estes."

"And say, how about that about supporting the under-world. The government's doing that, by not legalizing gambling. Right?"

There is admiration in the Scott-law's voice.

This is an era when a man who loses his integrity — say, a Charles Van Doren — becomes a hero.

The subcommittee chairman who hears a confession of his dishonesty says publicly, "God bless you."

It is a time when a corrupted man who is corrupt is more beloved than an honest man who has nothing to be contrite about.

I didn't think must about this

sordid state of our land — (like the network executive who's offered a bribe to put a show on the air, I just accepted it) — until I went to work researching an article called "The Corruptible Male" (in the May "Cosmopolitan").

LOST ANTIQUITY

Then I realized, sickeningly, that the phrase, "to this own self be true" is a lost antiquity, and that the phrase, "this is the way business is done" is the motto of the day, among American men.

And what of women? The answer isn't simple. Certainly

some women gamble, cheat and steal without conscience.

But women, on the whole, are not in the mess men are — largely, I suspect, because as the bearers of humanity, they MUST retain more ethics, courage and stability than men, or the family collapses.

They MUST display more softness and sympathy, or they will not find fathers for their children.

The chief crime of women is that they stand back, allowing integrity to die, because they

have a hazy feeling that they, themselves, are responsible.

In achieving equal opportunity, they fear they have failed their men and their sons. In spite of the statistics which show women to be superior, physically and spiritually, to American men, they simply do NOT want to run the country.

The U.S. has gone into a moral dive. It will take a long time to bring "integrity" back to popularity. But this I know:

Only women, with the help of God, can do it.

Pulls Titan's 'Tooth'

TUCSON, Ariz. (AP)—Dr. Robert Ratcliffe, a Tucson dentist, completed an extraction on his biggest patient—a 100-foot giant.

He had to remove a broken drift pin in the second-stage engine of a Titan 2 intercontinental ballistic missile.

Although he had to do more drilling than he likes and broke two drills, he succeeded in removing the impacted particle.

The trouble developed when the pin snapped in one of the attachment holes of a heat resistant skirt around the engine. No machine shop in Tucson had the delicate instruments required for removal of the pin.

Martin Marietta Corp. executives decided it was a job for a dentist, so they made an appointment with Dr. Ratcliffe.

Prohibition Party Plans St. Louis Convention

WASHINGTON (UPI) — The National Prohibition party will hold its presidential convention in St. Louis Aug. 28-29.

The decision was announced by the party's executive committee which also said party headquarters would be moved from St. Louis to Kalamazoo, Mich., home of the new national executive officer, Dr. D. D. Gibbons.

U. S. Chamber to Give Gen. MacArthur Plaque

WASHINGTON (AP) — The U.S. Chamber of Commerce will honor Gen. Douglas MacArthur with a plaque at its annual meeting opening here April 28.

The plaque will be received for the five-star general by Adm. Arleigh A. Burke, former chief of naval operations.

New Postmaster First Negro in Big-City Post

LOS ANGELES (AP)—Leslie N. Shaw was sworn in Monday as acting postmaster of Los Angeles, first Negro to head postal operations in a major city.

More than 700 persons watched Sen. Claire Engle, D-Calif., administer the oath of office to Shaw, 40, formerly a real estate man, who succeeds retiring Otto K. Olsen.

Rep. Augustus F. Hawkins, D-Calif., told the group: "The California congressional delegation considered only one thing when it came time to recommend a new postmaster—we wanted to know if he had the qualifications. At no time were we concerned with the question of making history. It's all very well to make history but we wanted to see that the mail got delivered on time."
