Impounds Million Pounds

Mover Has Goods on Army

AUGUSTA, Ga. (AP) — More than one million pounds of household goods owned by military families stationed all over the world

have been impounded by a man who claims the government owes him \$23,539 for storage.

J. W. Spence, president of Spence Transfer and Storage Co., Inc., of Augusta, is confident the money will be forthcoming.

"The first time a colonel somewhere wants his furniture and can't get it because I've got it locked up, I'll get my money," he said last night.

Spence said he would not release any government shipments until he was paid \$23,539 for services rendered prior to and since Aug. 16, 1963.

FIRM DISQUALIFIED
On that date his company was disqualified from participating in the movement of household goods from nearby Ft. Gordon and also disqualified as agents for national household goods carriers contracting with Ft. Gordon.

At that time, Maj. Gen. Eugene A.

Salet, Ft. Gordon commander, said Spence was participating in activities which were not in the best interest of government. The Federal Bureau of Investigation is still investigating the case.

Spence reported he was getting the run-around by the government.

"I have not been told why I was disqualified. . . . I've been discriminated against and treated unkindly," he said. "The only answer when I call (Ft. Gordon) is 'We're not allowed to discuss it with you.'"

LOSES BUSINESS

He estimated that in addition to the \$23,539 he's lost about \$50,000 in business from Aug. 16 until the present as compared to previous years.

"I fully expect to be reinstated to do business at Ft. Gordon," said the native of Augusta. "I'm as qualified as anyone in the United States. Our service is second to none."

Meanwhile, Spence is holding 466 lots of household goods which belong to Army families and waiting for a colonel somewhere to pick up a telephone and demand his furniture.

At Royal Oak Bank

Officer Admits Holdup

ANDY J. SALKOVICH

Dented Auto Leads to Arrest of Policeman

Seven-Year Veteran of Force Is Captured Getting Car Repaired

CENTER LINE (AP) — A rock thrown by a bank teller led to the arrest of a state policeman on bank robbery charges last night, and the trooper remorsefully admitted the \$3,156 holdup, his superiors said.

Andy J. Salkovich, 32, a seven-year veteran of the force, was arrested at the Center Line State Police Post.

"If I could tell you why, I'd tell you — I just don't know," he told State Police Capt. Fred Davids.

Bank teller Frank E. Helson chased Salkovich from the National Bank of Royal Oak after the robbery yesterday afternoon and threw a rock that dented his car, police said.

A citizen told police which way the car had gone, and officers alerted repair shops in the area. Al Cutrubes called to report the car had been in his repair shop and gave police the license number, officers said.

FATHER OF 3
Salkovich, married and the father of three children, faced arraignment today in U.S. District Court in Detroit.

"Salkovich gave every indication he was going through a hard time with himself," Davids said. He has been completely cooperative with fellow officers.

Davids believed Salkovich "didn't know himself" why he had robbed the bank.

Salkovich had his paycheck in his pocket and other money, too, when he was arrested, Davids said. The trooper had no known pressing bills, he added, and made \$7,224 a year as a trooper.

POINTED REVOLVER
A teller, Mrs. Gayle Robinson, 24, said a man with a brush haircut pointed a revolver at her, handed her a green plastic bag and said, "Fill it up."

Mrs. Robinson said she warned Helson as the bank teller turned to leave, and Helson pushed the alarm button and chased the man out of the bank.

"I ran after him," Helson said, "but when he reached his car, the holdup man turned and looked at me. I calmly walked to a Buick, which was parked in front of his car, and pre-

sented as Page 2, Col. 2)

TWO TOP FAMILIES — Mrs. Jacqueline Kennedy chats with Mrs. Lyndon B. Johnson at Houston International Airport yesterday as their husbands stand by.

Kennedy Praises TFX Plane Before Audience in Texas

FORT WORTH, Tex. (AP) — President Kennedy praised the controversial TFX warplane today as he told Texans whom he hopes will help elect him in 1964 that their state ranks fifth in prime military contract spending.

The President scheduled major speeches also in Dallas and Austin during a busy day. He and his wife will spend tonight at the ranch of Vice President Lyndon B. Johnson near Austin.

Johnson and his wife accompanied the Kennedys on the pre-

idential campaign tour of Texas.

Kennedy avoided direct comment on the Senate investigation subcommittee's inquiry into the TFX — tactical fighter, experimental — contract awarded to General Dynamics Corp.'s Fort Worth division in a speech prepared for a bipartisan breakfast arranged by the Fort Worth Chamber of Commerce.

OTHER OFFER

The subcommittee has heard some testimony that the Boeing Co. of Seattle, Wash., offered a cheaper and better plane.

"There has been a good deal of discussion of the long and hard-fought competition to win the TFX contract but relatively little discussion of what this plane will be able to do," the President said.

He said that once it is in operation it will give the free world an aircraft that no other on earth can match.

"It will be the first operational aircraft ever produced that can literally spread its wings in the air," Kennedy said.

SPENDING IN TEXAS

Hitting a theme he also sounded at Houston Thursday night, Kennedy said that one of every 20 dollars of prime military procurement contracts is being spent in Texas. He added that the state also has a combined military's civilian Defense Department payroll of more than \$1 billion a year.

"I do not recite these facts for partisan purposes, nor are they the result of any partisan effort," he said. "They are the result of America's determination to be strong and this state's contribution to that strength."

Campaigning with all his vigor of 1960, the President appeared, well and his way toward enforcing a unity among Texas Democrats he regards as vital to his reelection in 1964.

Although there was no concrete milestone to mark the President's progress, Kennedy put his political arm around Sen. Ralph Yarborough. His action made it unlikely that either Gov. John B. Connally or Vice President Lyndon B. Johnson would fight the liberal Texas senator in this spring's party primary even had they wanted to do so.

DEMS DISAGREE

Disagreement among Democrats in the state, which the President carried by 46,233 of 24 million votes in 1960, and seems badly next year, rests on long-time controversy between the party's liberals and conservatives.

Connally has been hostile to Yarborough's renomination for the Senate. There was no outward sign of Johnson's opposition.

But the vice president and Connally have been close political allies and Yarborough has chafed under Johnson operations; he thinks have denied him patronage he should have had.

(Continued on Page 2, Col. 4)

City Teamster Gets Probation

Convicted of False Entry, Embezzlement

Pontiac Teamster Local 614 President Leann Harrelson was placed on two years probation in Detroit's Federal District Court today for embezzlement from union funds and falsifying union records.

Harrelson, who was sentenced by Federal District Court Judge Fred W. Kaess, was convicted by a jury Sept. 13 of two embezzlement counts and two counts of records falsification.

The verdict came after a four-day trial in which Pontiac center Maurice Croteau testified he accepted two local 614 checks totalling \$600 from Harrelson toward payment of a 1960 campaign advertisement.

PHONY RECEIPTS

Croteau said he gave phony catering receipts for the checks because he was asked to do so.

Harrelson's conviction bars him from holding a union office under the Landrum-Griffin Act, the law under which the charges were brought.

Two weeks after the trial, Judge Kaess denied a defense motion for acquittal on grounds that the embezzlement indictments were improper and the charges should have been "conversion of union funds to another."

Conviction on such conversion charges would have barred Harrelson from holding union office.

Harrelson has remained as Local 614 president pending a possible appeal, however.

The advertisement at issue in case was part of an unsuccessful campaign against a Pontiac city charter amendment that permitted the city to fire former Police Chief Herbert Straley.

Congo Is Expelling Russian Mission

LEOPOLDVILLE, The Congo (AP) — The Congolese government is expelling the Soviet diplomatic mission from Leopoldville for the second time in three years but Premier Cyrille Adoula says he is not severing diplomatic relations with Moscow.

The premier charged the Russians yesterday with subversive dealings with antigovernment exiles across the Congo River in Brazzaville.

Adoula set no deadline for Soviet Ambassador Sergei Nemtchinov and his 100-member mission to leave.

He said this would be covered in orders from the security police, adding that he thought the Russians probably would be given 48 hours.

Adoula said his government will consider the credentials of any new diplomats the Soviets might want to send.

He warned that the Russians will not again be allowed to maintain such a large staff.

NO REACTION

There was no immediate Moscow reaction to the expulsion order.

Adoula indicated he was aware the Soviets might retaliate by breaking diplomatic relations.

Adoula said he did not have sufficient proof to support charges by members of his government that other Communist nations and the United Arab Republic also were trying to subvert his government.

The expulsion order came two days after two Soviet diplomats were manhandled and arrested on their return from Brazzaville, the capital of the Congo Republic.

Officials said documents found on them proved that they had been in contact with antigovernment exiles, led by Christophe Gbenye, head of a Lumumbist group, and Andre Labaye, a Kasai extremist leader implicated in a recent plot to arrest or murder members of Adoula's government.

The Soviet government delivered a stiff protest against the treatment of the diplomats, and U.N. Secretary-General U Thant diplomatically to Adoula to give them diplomatic protection and immunity.

County Grid Stars Picked Tomorrow

Tomorrow is the day outstanding football players of Oakland County will be honored.

The annual All-Oakland County football team, along with the honor teams in classes A, B and C, as chosen by coaches with cooperation of The Pontiac Press, will be found in Saturday's Grid-Iron Green.

Football fans won't want to miss it!

Reds Hit U.S. Over Convoys

MOSCOW (AP) — The Soviet Union accused the United States today of trying to make the rules for Soviet policing of Western convoy traffic on the Berlin autobahn. The Russians warned they would not permit this.

A Russian note to the U.S. government rejected an American protest over the stalling of a U.S. Army convoy for 42 hours Nov. 4-5 because the Americans refused to dismount from their vehicles and be convoyed.

The Soviet reply renewed the threat of more interference with Allied troop convoys on the 110-mile highway between West Berlin and West Germany.

The Allies insist they have the right to move on the autobahn as they like.

KREMLIN NOTE

The Kremlin note said: "The claims of the American authorities to establish at their discretion the range of duties and manner of movement of Soviet representatives at the checkpoint in checking American servicemen are in general absolutely untenable."

Since Oct. 10 the Russians (Continued on Page 2, Col. 4)

Box Contains \$1 Million of Mrs. Williams

DETROIT (AP) — More than \$1 million in securities and cash was found yesterday in the safe deposit box of the late Mrs. Henry P. Williams, mother of former Michigan Gov. G. Mennen Williams.

The inventory, made by Wayne County Treasurer Louis H. Funk and the administrators of her estate, included more than 41,000 shares of stock in 67 different firms, bonds valued at \$171,900 and \$10,000 in cash.

Mrs. Williams' will leaves the bulk of her estate to nine grandchildren. It was filed Tuesday. She died Saturday at 80.

Parents Hit School Board With Segregation Charge

A Pontiac parent group charged the school board last night with "de facto segregation" in some local schools.

Charles E. Billings, 236 Gage, stating he represented a parent group, said Pontiac has several elementary schools that are totally segregated, one junior high — Jefferson — totally segregated, and another junior high — Eastern — rapidly becoming segregated.

"In our opinion," Billings said, "this type of classroom situation presents an extremely unhealthy school atmosphere for all students in the Pontiac system, particularly the Negro child."

Billings was accompanied by Dr. Rigoberto M. Guzman who said he was a spokesman for the local chapter of the National Association for the Advancement of Colored People.

Billings told board members that a 1954 Supreme Court decision declared the "separate but equal" doctrine unconstitutional and said it applied to "any segregated school district in this nation."

He asked the board to submit a plan of action (to end any school segregation in Pontiac) under consideration.

Warm, Rainy Prediction for Pontiac Area

Scattered showers may arrive any time through the weekend. Rain is forecast for tonight, tomorrow and again Sunday night or Monday.

Temperatures for the next five days will average 5 to 18 degrees above the normal high of 43 and normal low of 30. Tonight's low is expected to be near 45.

Winds southerly at 10 to 30 miles per hour today and tonight will shift to north to northwest at 10 to 25 m.p.h. tomorrow.

BOARD TO CONSIDER
Anderson, who was the only board member to reply, said the board would take the matter under consideration.

GERTRUDE C. NOVAK

Widow Stirs Baker Probe

Tied to Senate Aide by Husband's Affairs

WASHINGTON (AP) — The testimony of a Washington widow has opened new avenues of Senate investigation into the tangled business affairs of Robert C. Baker.

Chairman B. Everett Jordan of the Senate Rules Committee gave this word to newsmen Thursday after Gertrude C. Novak had been questioned in secret for 2 hours.

The North Carolina Democrat said Mrs. Novak had supplied some documents on dealings with Baker by her late husband, Alfred Jordan said the committee did not get into the matter of Novak's death—it occurred in March 1962 and was ruled a suicide, but will do so later.

Baker, 53, resigned as secretary to the Senate's Democratic majority Oct. 7 amid allegations that he used his position to further his private business interests. Among them was a luxury hotel at Ocean City, Md., which he operated with Novak and Novak's brother Donald.

Jordan said that as far as he knows, the committee, its counsel and its investigators have not been in touch with Baker since the inquiry began. It was authorized two days after Baker resigned.

He said that Baker will be called when the committee is ready.

To newsmen's questions, Mrs. Novak said there was no connection between the Baker case and her husband's death. Of her examination by the committee she would say only that it was "very thorough."

Mrs. Novak has been an employee of the Senate Small Business Committee for 13 years. After her husband's death she became Baker's partner in the motel operation.

NATIONAL WEATHER — Showers are due tonight over Pacific Northwest with snow at higher elevations. Showers also are expected from eastern sections of south and central Plains through the lower and mid Mississippi Valley to the lower Lakes, while light snow or flurries will fall over northwestern Plains through upper Mississippi Valley to upper Lakes region. It will be warmer in much of eastern part of the nation and Pacific Northwest and cooler from eastern Plains to Midwest.

No Draft Seen by GOP Chief

ST. LOUIS (AP)—Republican National Chairman William E. Miller warned GOP presidential hopefuls they will have to work for the Republican nomination because there will be no draft candidate.

"I think anyone who wants the nomination in 1964 ought to be about it right now," Rep. Miller of New York said. "Anyone who just sits by expecting to be drafted will be disappointed."

Thus far, he said, it appears that the nomination will go either to Gov. Nelson A. Rockefeller of New York—who has announced as a candidate—or Sen. Barry Goldwater of Arizona. "Who it seems to me will soon announce."

"I believe former Vice President Richard M. Nixon when he says he is not a candidate and does not intend to be a candidate," Miller said.

ENTER PRIMARIES
Miller called for Republican presidential aspirants to enter state preferential primaries. He said if anyone won all the primaries—President Kennedy did on the Democratic side in 1960—the Republican convention could not deny him the nomination.

Miller is in St. Louis for a two-day, 13-state regional Republican meeting that ends Saturday.

He expressed optimism about Republican chances in 1964 to win the presidency and a majority in the House of Representatives.

He told a news conference the Republicans would gain in the South, Midwest, and Texas, where "Kennedy had better get political or he just might be in trouble there."

TARGET AREAS
Rep. Robert Wilson of California, chairman of the GOP Congressional Campaign Committee, said the party has designated 23 congressional districts in the Midwest as target areas. Republicans hope to pick up 11 or 12 seats in these areas, he said.

He declined to name specific districts, but said the GOP expected to pick up an additional congressman in Ohio, Illinois, Missouri, Indiana, Kansas, Nebraska, Iowa, Michigan, Wisconsin and Minnesota.

"We hope to gain at least 20 congressional seats in the South," Wilson said. "This is an area where we have not had a candidate before."

A threat of a strike at Pontiac Motor Division was averted early today when union and management negotiators reached agreement on grievances and other issues.

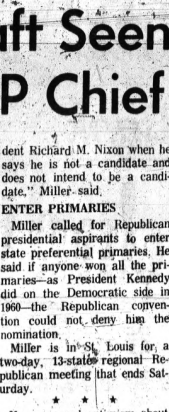

The settlement came at 12:30 a.m. to climax four weeks of delay in negotiations. It came after a strike deadline was set for 7 p.m. today.

"All operations at the Pontiac home plant will continue in their normal manner," stated T. B. Bloom, personnel director.

John Maye, president of UAW Local 653, said the package settlement has been approved by the union bargaining team and UAW International. It does not require membership ratification he said.

SPEEDUPS, GRIEVANCES
Maye said accord was reached on 179 speedup complaints and over 100 safety grievances.

Settlement of speedup issues will result in Pontiac Motor hiring a number of new workers, Maye said, but he would not specify how many.

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

Reds Hit U.S. on Convoys

(Continued From Page One)
have held up three American convoys and one British convoy at Soviet checkpoints on the autobahn because the Soviet commandant refused to allow their men to be counted.

During the six-week period since Oct. 10, a number of other Allied convoys with fewer than 30 passengers have made the autobahn trip without interference.

The Russian note charged that the Americans arbitrarily provoked the delay Nov. 4-5 and that it was a result of "unfortunate actions" by U.S. officers in charge of the convoy. It said "some irresponsible American officer could spark off dangerous incidents."

It warned that "the entire responsibility for possible undesirable consequences of the violation by American servicemen of control procedure at Soviet checkpoints will rest entirely with the American side."

Texans Hear Kennedy Talk

(Continued From Page One)
the state's only Democratic senator.

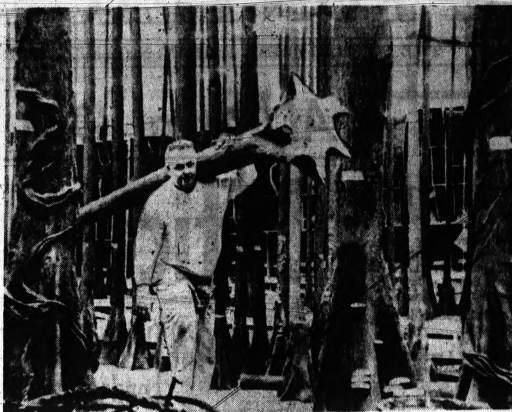

The other Texas senator is Republican John Tower. Without saying a word, Kennedy signaled his intentions by inviting Yarborough to ride the presidential plane from Washington to San Antonio yesterday.

When the Air Force jet rolled to a stop Kennedy broke protocol by having Jacqueline Kennedy precede him down the ramp. The President usually goes first, but Texans are touchy about such matters.

Behind the presidential couple, Yarborough and Rep. Henry B. Gonzalez, D-Tex., came down the steps waving and smiling. They were installed in the fourth car of a caravan which wound 20 miles through Brooks, Air Force Base.

Far enough back of the President, they got recognition from crowds which lined highways and the streets.

If all of this seemed to lack substance, the implications were not lost on Texas Democrats, skilled in the game of poker the President was playing. The signs were rather plain that Kennedy was betting on Yarborough's renomination and wanted no feuding and fighting.

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

Educator Charges Plot

PORTLAND, Ore. (AP) — A prominent educator charges a vigorous campaign has been mounted, in and out of Congress, to provide federal funds for private and parochial schools all the way from kindergarten through college.

Edgar Fuller, executive secretary of the Council of Chief State School Officers, made the charge in his annual report to the council. The council adopted it without a dissenting vote in a closed convention session Thursday.

Fuller said "the campaign is active and gaining strength. Unless it is blunted the public schools will be financially undermined in thousands of American communities."

The council is an organization of state superintendents and commissioners of education from the 50 states and U.S. possessions overseas.

The council, Fuller said, is committed by policy "to oppose any legislation which would splinter the public tax dollar for distribution to private institutions of education at any level for the institutional use of the schools or colleges."

The council does not object, Fuller said, to the use of federal funds by private colleges and universities "for such noninstitutional uses as research contracts, scholarships, fellowships and the like."

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

City Youngsters Hoping Weatherman Is Wrong

BIRMINGHAM — Aw, c'mon, Mr. Weatherman — be a good skater!

That's the plea of Birmingham youngsters looking forward to the traditional Thanksgiving opening of the municipal ice rink at Lincoln and Eton.

The Recreation Department had been depending on a cold wave expected to hit the Midwest this weekend.

But, today the five-day forecast predicted rain, with temperatures in the low 50's.

NEED A FREEZE
Flooding of the rink would require four consecutive nights with below-freezing temperatures.

Daytime temperatures would have to remain below 40 degrees with no sunshine and no rain, according to Recreation Director Donald Martin.

"We would have to start flooding Sunday at the latest for a Thanksgiving opening," Martin said. He added that the rink would open "no later than next weekend."

Mechiwillie, registrations for boy's hockey and children's learn-to-skate and figure skating classes are being taken at the ice rink office weekdays from 10 a.m. - 5 p.m. Hockey tryouts are to be Nov. 30.

OPEN SKATING
When the rink is created, open skating will be scheduled from 4-6 p.m. weekdays. It will also be open from 7-9:30 p.m. Wednesdays and from 7-8:30 p.m. Fridays.

The Saturday schedule is 1-3:30 p.m. and 7:30-10 p.m. and that for Sundays is 1-3:30 p.m. and 6:30-9 p.m.

An open house will follow Monday night's business meeting of the Hickory Grove PTA. Scheduled for 8 p.m., the meeting will feature inspection of the school's three new rooms. The Bloomfield Hills school is located at 2800 Lahser.

Scott E. Lamb, 6301 Sheringham, Bloomfield Township, has been elected a trustee of Olivet College.

Chairman of the board of the Michigan Life Insurance Co., Royal Oak, Lamb, attended Olivet for two years before transferring to the University of Michigan to specialize in banking, economics and business administration.

CENTER LINE (AP) — A rock thrown by a bank teller led to the arrest of a state policeman on bank robbery charges last night, and the trooper remorselessly admitted the \$3,156 holdup, his superiors said.

ANDY J. SALKOVICH

Ford Offer for Lions Accepted

DETROIT (AP) — Detroit Lions stockholders today voted to accept a \$6 million offer of industrialist William Clay Ford to purchase the National Football League's Detroit franchise.

About 94 per cent of the 144 stockholders voted in favor of the sale.

The move also dissolved the Detroit Football Co. Ford, in a brief statement after the meeting, said he was forming a new corporation called Detroit Lions Incorporated, of which he will be sole owner.

The 36-year-old vice president of Ford Motor Co. has been president of the Lions for the past two and one-half years.

Ford told the stockholders that he was "highly gratified at the result."

He said he would have no announcement to make at this time with respect to management and coaching staffs, since an evaluation is now under way.

Ford said such announcements would be made some time after he assumes control of the company, on or after Jan. 10, 1964, closing date of his offer.

Ford is expected to immediately petition the National Football League for acceptance.

Still Alive in Hospital

DALLAS, Tex. (AP) — President Kennedy was given blood transfusions today at Parkland Hospital in an effort to save his life after he and Gov. John Connally of Texas were shot in an assassination attempt.

DALLAS (AP) — President Kennedy and Gov. John Connally of Texas were shot from ambush today.

It was not known whether either was killed.

The President was

shot just as his motorcade left downtown Dallas. Mrs. Kennedy jumped up and grabbed Mr. Kennedy.

"She cried, 'Oh, no!'" AP photographer James W. Altgens said he saw blood on the President's head.

Altgens said he heard two shots but thought someone was shooting fireworks until he saw blood on the President.

Altgens said he saw no one with a gun.

AP reporter Jack Bell asked Kenneth O'Donnell, presidential assistant, if Kennedy was dead. O'Donnell gave no answer.

Kennedy was reportedly taken to Parkland Hospital, near the Dallas Trade Mart, where he was to have made a speech.

Bell said Kennedy was transferred to an ambulance. He lay on a seat of the car.

Bell reported three shots were fired as the motorcade entered the Triple underpass which leads to the Stemmons Freeway route to Parkland Hospital.

Pandemonium broke loose around the scene.

The Secret Service waded the motorcade on at top speed to the hospital.

Even at high speed, it took

nearly five minutes to get the car to the ambulance entrance of the hospital.

Vice President Lyndon B. Johnson was in a car behind the President's.

There was no immediate sign that he was hurt, in fact, there was no evidence at all at what might have happened to Johnson since only the President's car and its Secret Service follow-up car went to the hospital.

The President had landed only a short time before at Dallas Love Field and was driving to the trade mart to deliver a luncheon speech sponsored by three Dallas organizations.

Bell said a man and a woman were scrambling on the upper level of a walkway overlooking the underpass.

Mrs. Kennedy was weeping and trying to hold up her husband's head when reporters reached the car.

In Washington, the White House press office said at 1:45 p.m. EST that it had nothing beyond press information on the shooting.

Rear Adm. George Burkley, USN, the White House physician rushed into the hospital. He headed for the emergency room where the President and Connally were taken.

When the President was taken into the emergency room, a call was sent out immediately for some of the top surgical specialists in Dallas.

A call also was sent for a Roman Catholic priest.

Congressman Jim Wright of Fort Worth said both Kennedy and Connally were seriously wounded but were alive.

The motorcade was so strung out as the result of the speedy Secret Service departure from the scene of the shooting that members of the Kennedy staff were from 15 minutes to a half hour behind in reaching the hospital.

It was impossible under the tension at the hospital to assemble a clearcut story of the incident because the burst of gunfire took only seconds.

Some of the Secret Service agents thought the gunfire was from an automatic weapon fired to the right rear of the chief executive's car, probably from the grassy knoll to which motorcycle policemen directed their attention as they raced up the slope.

The bubble top of the President's car was down when he was shot.

After the hail of bullets, Kennedy lay slumped over in the back seat of the car, face down. Connally lay on the floor of the rear seat.

Secret Service men unlimbered their automatic rifles and drew pistols, but it was too late.

There was no immediate word as to whether the gunman had escaped or been captured.

President Kennedy

Congolese Bounce Russia Mission on Subversion Charge

LEOPOLDVILLE, The Congo (AP) — The Congolese government is expelling the Soviet diplomatic mission from Leopoldville for the second time in three years but Premier Cyrille Adoula says he is not severing diplomatic relations with Moscow.

The premier charged the Russians yesterday with subversive dealings with antigovernment exiles across the Congo River in Brazzaville.

Adoula set no deadline for Soviet Ambassador Sergei Nemytchina and his 100-member mission to leave.

He said this would be covered in orders from security police, adding that he thought the Russians probably would be given 48 hours.

Adoula said his government will consider the credentials of any new diplomats the Soviets might want to send.

He warned that the Russians will not again be allowed to maintain such a large staff.

NO REACTION
There was no immediate Moscow reaction to the expulsion order.

Adoula indicated he was aware the Soviets might retaliate by breaking diplomatic relations.

Adoula said he did not have sufficient proof to support charges by members of his government that other Communist bloc nations and the United Arab Republic also were trying to subvert his government.

The expulsion order came two days after two Soviet diplomats were manhandled and arrested on their return from Brazzaville, the capital of the Congo Republic.

Officials said documents found on them proved that they had been in contact with antigovernment exiles, led by Lumumba Ghemye, head of a Communist group, and Andre Lubaye, a Kasai extremist leader implicated in a recent plot to arrest or murder members of Adoula's government.

The Soviet government delivered a stiff protest against the treatment of the diplomats, and U.S. Secretary-General U Thant appealed to Adoula to give them diplomatic protection and immunity.

Two weeks after the trial Judge Kaess denied a defense motion for acquittal on grounds that the embezzlement indictments were improper and the charges should have been "conversion of union funds to another."

Conviction on conversion charges would not have barred Harrelson from holding union office.

Segregation Charged in City Schools

A Pontiac parent group charged the school board last night with "de facto segregation" in some local schools.

Charles E. Billings, 238 Gage, stating he represented a parent group, said Pontiac has several elementary schools that are totally segregated, one junior high—Jefferson—totally segregated, and another junior-high—Eastern—rapidly becoming segregated.

"We firmly believe that before the residents of the Pontiac School District are asked to support a renewal or an increase in the school millage," said Billings, "a definite course of immediate action should be revealed to the school community."

William H. Anderson, board president, denied Billings' charges.

"We have no segregated schools as such," Anderson said. "If they are segregated, it is because of housing patterns and

we have no control over housing patterns."

Billings replied that his group, which has "no more than 50 members," was "concerned with the condition, not the cause."

BOARD TO CONSIDER

Anderson, who was the only board member to reply, said the board would take the matter under consideration.

The school board president said that the only way to avoid segregation because of housing patterns would be to transport pupils. He did not think this would solve anything.

Dr. Guzzman said he would present the board with a list of questions on the present racial pattern in Pontiac schools.

He said he would ask for a social count of pupils and contracted personnel. He also will seek a count on the Negro dropout rate.

Impounds Million Pounds

Mover Has Goods on Army

AUGUSTA, Ga. (AP) — More than one million pounds of household goods owned by military families stationed all over the world have been impounded by a man who claims the government owes him \$23,539 for storage.

J. W. Spence, president of Spence Transfer and Storage Co. Inc., of Augusta, is confident the money will be forthcoming.

"The first time a colonel somewhere wants his furniture and can't get it because I've got it locked up, I'll get my money," he said last night.

Spence said he would not release any government shipments until he was paid \$23,539 for services rendered prior to and since Aug. 16, 1963.

FIRM DISQUALIFIED

On that date his company was disqualified from participating in the movement of household goods from nearby Ft. Gordon and also disqualified as agents for national household goods carriers contracting with Ft. Gordon.

At that time, Maj. Gen. Eugene A.

Salet, Ft. Gordon commander, said Spence was participating in activities which were not in the best interest of government. The Federal Bureau of Investigation is still investigating the case.

Spence reported he was getting the run-around by the government.

"I have not been told why I was disqualified. . . . I've been discriminated against and treated unfairly," he said. "The only answer when I call (Ft. Gordon) is 'We're not allowed to discuss it with you.'"

LOSES BUSINESS

He estimated that in addition to the \$23,539 he's lost about \$50,000 in business from Aug. 16 until the present as compared to previous years.

"I fully expect to be reinstated to do business at Ft. Gordon," said the native of Augusta. "I'm as qualified as anyone in the United States. Our service is second to none."

Meanwhile, Spence is holding 466 lots of household goods which belong to Army families and waiting for a colonel somewhere to pick up a telephone and demand his furniture.

Warmer, Rain Seen for Area

Scattered showers may arrive any time through the weekend. Rain is forecast for tonight, tomorrow and again Sunday night or Monday.

Temperatures for the next five days will average 5 to 8 degrees above the normal high of 43 and normal low of 30. Tonight's low is expected to be near 45.

Forty-six was the low temperature in downtown Pontiac preceding 8 a.m. At 1 p.m., the recording was 56.

News Flash

NEW YORK (UPI) — The New York Stock Exchange closed operations today after word of the assassination attempt against President Kennedy.

The cotton and the wool exchanges also closed.

GERTRUDE C. NOVAK

Widow Stirs Baker Probe

Tied to Senate Aide by Husband's Affairs

WASHINGTON (AP) — The testimony of a Washington widow has opened new avenues of Senate investigation into the tangled business affairs of Robert G. Baker.

Chairman B. Everett Jordan of the Senate Rules Committee gave this word to newsmen Thursday after Gertrude C. Novak had been questioned in secret for 2 hours.

The North Carolina Democrat said Mrs. Novak had supplied some documents on dealings with Baker by her late husband, Alfred Jordan said the committee did not get into the matter of Novak's death—it occurred in March 1962 and was ruled a suicide—but will do so later.

Baker, 35, resigned as secretary to the Senate's Democratic majority Oct. 7 amid allegations that he used his position to further his private business interests. Among them was a luxury motel at Ocean City, Md., which he operated with Novak and Novak's brother Donald.

NOT IN TOUCH
Jordan said that as far as he knows, the committee, its counsel and its investigators have not been in touch with Baker since the inquiry began. It was authorized two days after Baker resigned that Baker will be called when the committee is ready.

To newsmen's questions, Mrs. Novak said there was no connection between Baker's case and her husband's death. Of her explanation by the committee she would say only that it was "very thorough."

Mrs. Novak has been an employee of the Senate Small Business Committee for 13 years. After her husband's death she became Baker's partner in the motel operation.

No Draft Seen by GOP Chief

ST. LOUIS (AP)—Republican National Chairman William E. Miller warned GOP presidential hopefuls they will have to work for the Republican nomination because there will be no draft candidate.

"I think anyone who wants the nomination in 1964 ought to be about it right now," Rep. Miller of New York said. "Anyone who just sits by expecting to be drafted will be disappointed."

"This far, he said, it appears that the nomination will go either to Gov. Nelson A. Rockefeller of New York—who has announced as a candidate—or Sen. Barry Goldwater of Arizona."

"Who it seems to me will soon announce."

"I believe former Vice Presi-

Policeman in Holdup

(Continued From Page One)

tended to get into it as he watched me.

"He hit a car as he drove out and I picked up a stone and struck his car with all the force I could muster," a d d e l Helson, of Southfield, a student at Wayne State University.

David said Salkovich told him of being chased by a bank employee. He quoted the worker as saying, "That's when I came to. It would have been so easy to turn around and put the gun on him."

Salkovich was driving a car he had borrowed from a fellow trooper while his own was being repaired, David said.

Crutcher, 69, father of the shop's owner, said Salkovich was in the shop, waiting for employees to paint the denied right rear fender, when FBI agents stopped in with descriptions of the holdup car.

IT CHECKED

"I looked at the description, and I went back in the shop and looked at that car," Crutcher said. "It checked and I called the police after the trooper went away."

Salkovich's commanding officer, Sgt. Walter Stevens, made the arrest.

"He was a good officer," Stevens said after turning Salkovich over to FBI agents. "It's just one of those things that happen. You know how it is—sometimes your mind plays tricks on you."

Salkovich was a patrolman on the Oak Park police force for 18 months before joining the state police in 1956. He is a graduate of both the Detroit and state police academies.

dent Richard M. Nixon when he says he is not a candidate and does not intend to be a candidate," Miller said.

ENTER PRIMARIES

Miller called for Republican presidential aspirants to enter state preferential primaries. He said if anyone won all the primaries—President Kennedy did on the Democratic side in 1960—the Republican convention could not deny him the nomination.

Miller is in St. Louis for a two-day, 12-state regional Republican meeting that ends Saturday.

He expressed optimism about Republican chances in 1964 to win the presidency and a majority in the House of Representatives.

"He told a news conference the Republicans would gain in the South, Midwest and Texas, where 'Kennedy had better get political or he just might be in trouble there.'"

TARGET AREAS

Rep. Robert Wilson of California, chairman of the GOP Congressional Campaign Committee, said the party has designated 23 congressional districts in the Midwest as target areas. Republicans hope to pick up 11 or 12 seats in these areas, he said.

He declined to name specific districts, but said the GOP expected to pick up an additional congressman in Ohio, Illinois, Missouri, Indiana, Kansas, Nebraska, Iowa, Michigan, Wisconsin and Minnesota.

"We hope to gain at least 20 congressional seats in the South," Wilson said. "There are some areas where we have not had a candidate before."

Avert Strike at Pontiac Division

A threat of a strike at Pontiac Motor Division was averted early today when union and management negotiators reached agreement on grievances and other issues.

The settlement came at 12:30 a.m. to climax four weeks of daily negotiations. If agreement had not been achieved a strike deadline was set for 7 p.m. today.

"All operations at the Pontiac home plant will continue in their normal manner," stated T. B. Bloom, personnel director.

John Maye, president of UAW Local 653, said the package settlement has been approved by the union bargaining team and UAW International. It does not require membership ratification he said.

SPEEDUPS, GRIEVANCES

Maye said accord was reached on 179 speedup complaints and over 100 safety grievances.

Settlement of speedup issues will result in Pontiac Motor hiring a number of new workers, Maye said, but he would not specify how many.

For the first time the company and union established "model mix" formulas for the sequence in which different Pontiac and Tempest models will move along assembly lines, Maye explained.

Future safety grievances will be immediately referred to a meeting of the plant supervisor, the worker, and his union representative, Maye said, rather than be delayed for action on other levels.

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

Rocket Due to Put U.S. Past Russ

FORT WORTH (UPI)—President Kennedy said today the United States early next year will test a rocket booster so powerful it will put the nation far ahead of Russia in the space race.

The President, campaigning as though it were election time in Texas, told a rain-soaked, cheering crowd outside his hotel that the rocket booster will be the most powerful in history.

The crowd, estimated by police at 5,000, roared approval.

The integrated audience in a parking lot outside the Hotel Texas where Kennedy and his wife spent the night cheered his call for "concerted effort" to win space supremacy.

He told the crowd the Saturn rocket booster will put the United States far ahead of the Soviets in thrust and in the payload it can carry.

The President spoke briefly to the crowd. He stood bareheaded and without a raincoat despite the chill rain.

He apologized for the absence of Mrs. Kennedy, but explained that it took the First Lady longer to get organized in the morning—though she "looks better than we do" when she is finished.

Vice President Lyndon B. Johnson introduced the President. He was flanked during his talk by Senators Ralph Yarborough and Gov. John Connally.

Pontiac Woman Brings Down Doe—Without a Gun

A Pontiac woman bagged a deer in Bloomfield Township last night—without a license and without a gun.

Mrs. Howard Dell, 201 Draper, was driving north on Telegraph about 7:30 p.m. when she saw two animals—she thought they were dogs—leap in front of her auto.

One hit the hood.

Pulling onto the shoulder, she was informed by Bloomfield Township police that a doe was imbedded in the radiator of her car.

Damage to the vehicle was estimated at \$250, and the police took the venison to turn it over to the State Conservation Department.

To Aid Private Schools Educator Charges Plot

PORTLAND, Ore. (AP) — A prominent educator charges a vigorous campaign has been mounted, in and out of Congress, to provide federal funds for private and parochial schools all the way from kindergarten through college.

Edgar Fuller, executive secretary of the Council of Chief State School Officers, made the charge in his annual report to the council. The council adopted it without a dissenting vote in a closed convention session Thursday.

Fuller said "the campaign is active and gaining strength. Unless it is blunted the public schools will be financially undermanned in thousands of American communities."

The council is an organization of state superintendents and commissioners of education from the 50 states and from U.S. possessions overseas.

The council, Fuller said, is committed by policy "to oppose any legislation which would splinter the public tax dollar for distribution to private institutions of education at any level for the institutional use of the schools or colleges."

The council does not object, Fuller said, to the use of federal funds by private colleges and universities "for such noninstitutional uses as research, tracks, scholarships, fellowships and the like."

Meeting to Feature Inspection of the School's Three New Rooms

The Bloomfield Hills school is located at 2800 Lakeside.

Scott E. Lamb, 6301 Sheringham, Bloomfield Township, has been elected a trustee of Olivet College.

Chairman of the board of the Michigan Life Insurance Co., Royl Oak, Lamb attended Olivet for two years before transferring to the University of Michigan to specialize in banking, economics and business administration.

Mrs. Francis C. McMath, 3249 Broadway, Bloomfield Township, has been appointed to the newly formed planning and resources council of Skidmore College in Saratoga Springs, N.Y.

The council will aid the college's board of trustees in realization of a multimillion dollar program for a new campus.

Some 220 members of the Birmingham Newsweek Club welcomed 51 prospective members at a noon luncheon yesterday at the Community House.

The 12-year-old club now has 604 members, according to President Mrs. Jack Bickhart.

Under the direction of Mrs. Ernest Jackson, the Drama Club presented a one-act farce, "Fin-dress Rehearsal."

Dimitry Moshko Service for Dimitry Moshko, 75, of 1645 Woodland, Bloomfield Township, will be 2 p.m. tomorrow at the D. E. Purley Funeral Home, Pontiac. Burial will follow in Oak Hill Cemetery, Waterford Township.

Mr. Moshko, an employee of the Detroit Free Press maintenance department, died yesterday after an illness of two months.

Birmingham Area News

City Youngsters Hoping Weatherman Is Wrong

BIRMINGHAM — Aw, c'mon, Mr. Weatherman — be a good skate!

That's the plea of Birmingham youngsters looking forward to the traditional Thanksgiving opening of the municipal ice rink at Lincoln and Eton.

The Recreation Department had been depending on a cold wave expected to hit the Midwest this weekend.

But, today the five-day forecast predicted rain, with temperatures in the low 50's.

NEED A FREEZE

Flooding of the rink would require four consecutive nights with below-freezing temperatures.

Daytime temperatures would have to remain below 40 degrees with no sun, no wind and no rain, according to Recreation Director Donald Martin.

"We would have to start flooding Sunday at the latest for a Thanksgiving opening," Martin said. He added that the rink would open "no later than next weekend."

Meanwhile, registrations for boys' hockey and children's learn-to-skate and figure skating classes are being taken at the ice rink office weekdays from 10 a.m. — 5 p.m. Hockey tryouts are to be Nov. 30.

OPEN SKATING

When the rink is created, open skating will be scheduled from 4-6 p.m. weekdays. It will also be open from 7-9 p.m. Wednesdays and from 7-9:30 p.m. Fridays.

The Saturday schedule is 1-3:30 p.m. and 7:30-10 p.m. and that for Sundays is 1-3:30 p.m. and 6:30-9 p.m.

An open house will follow Monday night's business meeting of the Hickory Grove PTA.

Scheduled for 8 p.m., the

President Kennedy Is Murdered by Dallas Assassin's Gunfire

Officer Admits Robbing Bank

Dented Auto, Leads
to Suspect's Arrest

CENTER LINE (AP) — A rock thrown by a bank teller led to the arrest of a state policeman on bank robbery charges last night, and the trooper remorselessly admitted the \$3,156 holdup, his superiors said.

Andy J. Salkovich, 32, a seven-year veteran of the force, was arrested at the Center Line State Police Post.

"If I could tell you why, I'd tell you — I just don't know," he told State Police Capt. Fred Davis.

Bank teller Frank E. Helms chased Salkovich from the National Bank of Royal Oak after the robbery yesterday afternoon and threw a rock that dented his car, police said.

A citizen told police, which way the car had gone, and officers alerted repair shops in the area. Al Cutubres called to the trooper and he was in his repair shop and gave police the license number, officers said.

Salkovich, married and father of three children, was arrested on a bank robbery charge today before U.S. District Judge Fred W. Keess in Detroit. His bond was set at \$25,000. Unable to furnish it, he was retained in custody.

Handcuffed and in custody of a U.S. marshal, the trooper looked straight ahead in his brief court appearance. The arraignment is only a formality. Salkovich, unshaven and wearing no tie, was led into the court room by the marshal.

Salkovich had his paycheck in his pocket and other money, too, when he was arrested, Davis said. The trooper had no known pressing bills, he added, and was \$7,224 a year as a trooper.

POINTED REVOLVER
A teller, Mrs. Gayle Robinson, 24, said a man with a brush haircut pointed a revolver at her, handed her a green plastic bag and said, "Fill it up."

Mrs. Robinson said she turned to leave, and Helms pushed the alarm button and chased the man out of the bank.

ANDY J. SALKOVICH

Ford Offer for Lions Accepted

DETROIT (AP) — Detroit Lions stockholders today voted to accept a \$6 million offer of industrialist William Clay Ford to purchase the National Football League's Detroit franchise.

About 94 per cent of the 144 stockholders voted in favor of the sale.

The move also dissolved the Detroit Football Co. Ford, in a brief statement after the meeting, said he was forming a new corporation called Detroit Lions Incorporated, of which he will be sole owner.

The 38-year-old vice president of Ford Motor Co. has been president of the Lions for the past two and one-half years.

HIGHLY GRATIFIED
"Ford told the stockholders that he was 'highly gratified at the result.'"

He said he would have no announcement to make at this time with respect to management and coaching staffs, since an evaluation is now under way.

Ford said such announcements would be made some time after he assumes control of the company, on or after Jan. 10, 1964, closing date of his offer.

Ford is expected to immediately petition the National Football League for acceptance.

Warmer, Rain Seen for Area

Scattered showers may arrive this time tomorrow, tomorrow and again Sunday night or Monday.

Temperatures for the next five days will average 5 to 8 degrees above the normal high of 43 and normal low of 28. Tonight's low is expected to be near 45.

Forty-six was the low temperature in downtown Pontiac preceding 8 a.m. At 1 p.m., the recording was 56.

News Flash

NEW YORK (UPI) — The New York Stock Exchange closed operations today after word of the assassination attempt against President Kennedy.

The cotton and the wool exchanges also closed.

Texas Governor Shot

DALLAS, (AP) — Two priests stepped out of Parkland Hospital's emergency ward today and said President Kennedy died of his bullet wounds.

DALLAS (AP) — President Kennedy and Gov. John Connally of Texas were shot from ambush today.

It was not known whether either was killed.

The President was

shot just as his motorcade left downtown Dallas. Mrs. Kennedy jumped up and grabbed Mr. Kennedy.

"She cried, 'Oh, no!'"

AP photographer James W. Altgens said he saw blood on the President's head.

Altgens said he heard two shots but thought someone was shooting fireworks until he saw blood on the President. Altgens said he saw no one with a gun.

AP reporter Jack Bell asked Kenneth O'Donnell, presidential assistant, if Kennedy was dead. O'Donnell gave no answer.

Kennedy was reported taken to Parkland Hospital, near the Dallas Trade Mart, where he was to have made a speech.

Bell said Kennedy was transferred to an ambulance. He lay on a seat of the car.

Bell reported three shots were fired as the motorcade entered the Triple underpass which leads to the Stemmons Freeway route to Parkland Hospital.

Pandemonium broke loose around the scene.

The Secret Service waved the motorcade on at top speed to the hospital.

Even at high speed, it took

nearly five minutes to get the car to the ambulance entrance of the hospital.

Vice President Lyndon B. Johnson was in a car behind the President's.

There was no immediate sign that he was hurt. In fact, there was no evidence at all at what might have happened to Johnson since only the President's car and its Secret Service follow-up car went to the hospital.

The President had landed only a short time before at Dallas Love Field and was driving to the trade mart to deliver a luncheon speech sponsored by three Dallas organizations.

Bell said a man and a woman were scrambling on the upper level of a walkway overlooking the underpass.

Mrs. Kennedy was weeping and trying to hold up her husband's head when reporters reached the car.

In Washington, the White House press office said at 1:45 p.m. EST that it had nothing beyond press information on the shooting.

Rear Adm. George Burkley, USN, the White House physician rushed into the hospital. He headed for the emergency room where the President and Connally were taken.

When the President was taken into the emergency room, a call was sent out immediately for some of the top surgical specialists in Dallas.

A call also was sent for a Roman Catholic priest.

Congressman Jim Wright of Fort Worth said both Kennedy and Connally were seriously wounded but were alive.

The motorcade was so strung out as the result of the speedy Secret Service departure from the scene of the shooting that members of the Kennedy staff were from 15 minutes to a half hour behind in reaching the hospital.

It was impossible under the tension at the hospital to assemble a clear story of the incident because the burst of gunfire took only seconds.

Some of the Secret Service agents thought the gunfire was from an automatic weapon fired to the right rear of the chief executive's car, probably from a grassy knoll to which many of the license plates drew their attention as they raced up the slope.

The bubble top of the President's car was down when he was shot.

After the hail of bullets, Kennedy lay slumped over in the back seat of the car, face down. Connally lay on the floor of the rear seat.

Secret Service men unlimbered their automatic rifles and drew pistols, but it was too late.

There was no immediate word as to whether the gunman had escaped or been captured.

President Kennedy

Congolese Bounce Russia Mission on Subversion Charge

LEOPOLDVILLE, The Congo (AP) — The Congolese government is expelling the Soviet diplomatic mission from Leopoldville for the second time in three years but Premier Cyrille Adoula says he is not severing diplomatic relations with Moscow.

The premier charged the Russians yesterday with subversive dealings with antigovernment exiles across the Congo River in Brazzaville.

Adoula set no deadline for Soviet Ambassador Sergei Nemtchinov and his 100-member mission to leave.

He said this would be covered in orders from the security police, adding that he thought the Russians probably would be given 48 hours.

Adoula said his government will consider the credentials of any new diplomats the Soviets might want to send.

He warned that the Russians will not again be allowed to maintain such a large staff.

NO REACTION
There was no immediate Moscow reaction to the expulsion order.

Adoula indicated he was aware the Soviets might retaliate by breaking diplomatic relations.

Adoula said he did not have sufficient proof to support charges by members of his government that other Communist bloc nations and the United Arab Republic also were trying to subvert his government.

The expulsion order came two days after two Soviet diplomats were manhandled and arrested on their return from Brazzaville, the capital of the Congo Republic.

Officials said documents found on them suggested they had been in contact with antigovernment exiles, led by Christophe Gbenge, head of a Lumumbist group, and Andre Lubaye, a Kasai extremist leader implicated in a recent plot to arrest or murder members of Adoula's government.

The Soviet government delivered a stiff protest against the treatment of the diplomats, and U.N. Secretary-General U Thant appealed to Adoula to give them diplomatic protection and immunity.

Harrelson, a former state representative, has remained as Local 614 president pending a possible appeal.

City Teamster Gets Probation

PONTIAC TEAMSTER LOCAL 614 President Leann Harrelson was placed on two years probation in Detroit's Federal District Court today for embezzling union funds and falsifying union records.

Harrelson, who was sentenced by Federal District Court Judge Fred W. Kaess, was convicted by a jury Sept. 13 of two embezzlement counts and two counts of records falsification.

The verdict came after a four-day trial in which Pontiac caterer Maurice Croteau testified he accepted two Local 614 checks totaling \$500 from Harrelson toward payment of a 1960 campaign advertisement.

PHONY RECEIPTS
Croteau said he gave phony checks for receipts for the checks because he was asked to do so.

Harrelson's conviction bars him from holding a union office for five years under the Landrum-Griffin Act, the law under which the charges were brought.

Two weeks after the trial Judge Kaess denied a defense motion for acquittal on grounds that the embezzlement indictments were improper and the charges should have been "conversion of union funds to another."

Conviction on conversion charges would not have barred Harrelson from holding union office.

Harrelson, a former state representative, has remained as Local 614 president pending a possible appeal.

Impounds Million Pounds

Mover Has Goods on Army

AUGUSTA, Ga. (AP) — More than one million pounds of household goods owned by military families stationed all over the world have been impounded by a man who claims the government owes him \$23,539 for storage.

J. W. Spence, president of Spence's Transfer and Storage Co. Inc. of Augusta, is confident the money will be forthcoming.

"The first time a colonel somewhere wants his furniture and can't get it because I've got it locked up, I'll get my money," he said last night.

Spence said he would not release any government shipments until he was paid \$23,539 for services rendered prior to and since Aug. 16, 1963.

FIRM DISQUALIFIED
On that date his company was disqualified from participating in the movement of household goods from nearby Ft. Gordon and also disqualified as agents for national household goods carriers contracting with Ft. Gordon.

At that time, Maj. Gen. Eugene A.

Saleh, Ft. Gordon commander, said Spence was participating in activities which were not in the best interest of government. The Federal Bureau of Investigation is still investigating the case.

Spence reported he was getting the run-around by the government.

"I have not been told why I was disqualified. . . I've been discriminated against and treated unkindly," he said. "The only answer when I call (Ft. Gordon) is 'We're not allowed to discuss it with you.'"

LOSSES BUSINESS

He estimated that in addition to the \$23,539 he's lost about \$50,000 in business from Aug. 16 until the present as compared to previous years.

"I fully expect to be reinstated to do business at Ft. Gordon," said the native of Augusta. "I'm as qualified as anyone in the United States. Our service is second to none."

Meanwhile, Spence is holding 406 lots of household goods which belong to Army families and is waiting for a colonel somewhere to pick up a telephone and demand his furniture.

KENNEDY DIES

Assassinated in Texas

DALLAS, Tex. (AP) — President John F. Kennedy, thirty-sixth president of the United States, was shot to death today by a hidden assassin armed with a high-powered rifle.

Kennedy, 46, lived about an hour after a sniper cut him down as his limousine left downtown Dallas.

Automatically, the mantle of the presidency fell to Vice President Lyndon B. Johnson, a native Texan who had been riding two cars behind the chief executive.

There was no immediate word on when Johnson would take the oath of office.

Kennedy died at Parkland Hospital, where his bullet-pierced body had been taken in a frantic but futile effort to save his life.

Bying wounded at the same hospital was Gov. John Connally of Texas, who was cut down by the same fusillade that ended the life of the youngest man ever elected to the presidency.

Connally and his wife had been riding with the President and Mrs. Kennedy.

The First Lady cradled her dying husband's blood-soaked head in her arms as the Presidential limousine raced to the hospital.

"Oh, no," she kept crying. Connally slumped in his seat beside the President.

Police ordered an unprecedented dragnet of the city, hunting for the assassin.

They believed the fatal shots were fired by a white man about 30, slender of build, weighing about 165 pounds, and standing 5 feet 10 inches tall.

The murder weapon reportedly was a 30-06 rifle.

Shortly before Kennedy's death became known, he was administered the last rites of the Roman Catholic Church.

He had been the first Roman Catholic president in American history.

Even as two clergymen hovered over the fallen President in the hospital emergency room, doctors and nurses administered blood transfusions.

Kennedy died of a gunshot wound in the brain at approximately 2 p.m. (Pontiac time), according to an announcement by acting White House press secretary Malcolm Kilduff.

The new president, Lyndon Johnson, and his wife left the hospital a half hour later. Newsmen had no opportunity to question them.

The horror of the assassination was mirrored in an eyewitness account by Sen. Ralph Yarborough, D-Tex., who had been riding three cars behind Kennedy.

"You could tell something awful and tragic had happened," the senator told newsmen before Kennedy's death became known. His voice breaking and his eyes red-rimmed, Yarborough said.

"I could see a Secret Service man in the President's car leaning on the car with his hands in anger, anguish and despair. I knew then something tragic had happened."

Yarborough had counted three rifle shots as the presidential limousine left downtown Dallas through a triple underpass. The shots were fired from above — possibly from one of the bridges or from a nearby building.

One witness, television reporter Mal Couch, said he saw a gun emerge from an upper story of a warehouse commanding an unobstructed view of the presidential car.

Kennedy was the first President to be assassinated since William McKinley was shot in 1901.

It was the first death of a president in office since Franklin D. Roosevelt succumbed to a cerebral hemorrhage at Warm Springs, Georgia, in April 1945.

As always, the President was surrounded by Secret Service men and had an escort of Dallas motorcycle police.

But the protective bubbletop of the car was down today, and so sudden and treacherous was the attack that Kennedy and Connally were cut down before his guards could stop the attack.

Charles Brehm, 38, of Dallas was standing in the big crowd at curb-side about 15 feet away as the President's car approached.

"He was waving and the first shot hit him and that awful look crossed his face," Brehm said.

Exactly two weeks ago today, President Kennedy had observed the third anniversary of his election victory over Richard M. Nixon.

Gov. Connally was reported in serious condition and in great pain.

"Take care of Nellie," his wife, he gasped to an aide.

As deadly gunfire sounded, motorcycle police raced up the grassy knoll of a park nearby where a man and woman were huddled.

There was pandemonium. The President's car cut out of the line of travel and raced behind screaming motorcycle police sirens to Parkland Hospital. Two fliters were brought out for the President and the governor.

Mrs. Kennedy and Mrs. Connally appeared in shock. The President lay face down on the floor of the limousine.

The President already had prepared a luncheon address for a Dallas audience before he died. In his prepared text, he assailed his ultra-conservative critics.

Dallas is considered a center of conservative philosophy and finance.

Here, on Oct. 24, Adlai E. Stevenson was spat upon by one heckler and struck by another after making a United Nations day address.

It was believed that Kennedy's body would be moved shortly to Washington.

Traditionally, funeral services for Presidents who die in office are held in the Capitol City.

Secret Service Men Wheel Around At Sound Of Shot

Shooting Stuns State Capitol

LANSING (AP) — News of the shooting of President Kennedy electrified the great and small figures of Michigan's government today when it reached the capitol building.

"It's almost unbelievable," said Secretary of State James Hare, who sat with most of his office staff around a radio.

"A dastardly act," said Atty. Gen. Frank Kelley.

The news hit the statehouse in a Friday afternoon lull. The building was half empty. Gov. George Romney was at a convention in Omaha and Lt. Gov. T. John Lesinski, the state's highest elected Democrat, was in Detroit.

A reporter in the press room of the House of Representatives was talking to his Detroit desk when a shocked expression came over his face.

The reporter, Jim Robinson of The Detroit Free Press, turned to a reporter at his elbow and said: "The President has been shot... he's wounded..."

"What!" exclaimed the others.

It seemed everyone in the building knew at once.

By the time reporters reached Gov. George Romney's office, the governor's speechwriters and secretaries already were bunched around a radio.

MET WITH JFK

Michigan State University President John Hannah, who had met with President Kennedy just nine days ago, was preparing for a MSU Board of Trustees meeting when he heard the news from Dallas.

He told a reporter at his elbow: "This comes as an un-

believable shock. The President was in such good spirits when I saw him just a few days ago."

Hannah, chairman of the U.S. Civil Rights Commission, discussed future of the commission with Kennedy at the meeting Nov. 13.

Hannah had agreed to a request by the President that he stay on as commission chairman until at least next spring.

DELAY MEETING

The board of trustees had gathered in Kellogg Center on the campus for the meeting but delayed the meeting while they waited for further reports.

Students and persons attending a convention gathered around radios and television sets throughout the center.

NEW YORK (UPI)—The New York Stock Exchange closed operations today after word of the assassination, attempt against President Kennedy.

JFK Fourth Murdered in Office

Three other presidents were assassinated during their terms. James Garfield died Sept. 19, 1881 after being shot July 2 of the same year. A William McKinley died Sept. 14, 1901 of a shot received Sept. 6.

The most famous assassination was of course Abraham Lincoln's which occurred April 15, 1865.

Three presidents escaped injury from attempted assassinations.

Franklin D. Roosevelt was shot at Feb. 15, 1933. Theodore Roosevelt escaped serious injury while running for his second term on Oct. 14, 1912. Harry Truman escaped a bullet aimed Nov. 1, 1950.

GERTRUDE C. NOVAK

Widow Stirs Baker Probe

Tied to Senate Aide by Husband's Affairs

WASHINGTON (AP) — The testimony of a Washington widow has opened new avenues of Senate investigation into the tangled business affairs of Robert G. Baker.

William B. Everett, Jr., chairman of the Senate Rules Committee, gave this word to newsmen Thursday after Gertrude C. Novak had been questioned in secret for 2 hours.

The North Carolina Democrat said Mrs. Novak had supplied some documents on dealings with Baker by her late husband, Alfred Jordan, said the committee did not get into the matter of Novak's death—it occurred in March 1962 and was ruled a suicide—but will do so later.

Baker, 32, resigned as secretary to the Senate's Democratic majority Oct. 7 amid allegations that he used his position to further his private business interests. Among them was a luxury hotel at Ocean City, Md., which he operated with Novak and Novak's brother Donald.

NOT IN TOUCH

Jordan said that as far as he knows, the committee, its counsel and its investigators have not been in touch with Baker since the inquiry began. It was authorized two days after Baker resigned.

He said that Baker will be called when the committee is ready.

To newsmen's questions, Mrs. Novak said there was no connection between the Baker case and her husband's death. Of her examination by the committee she would say only that it was "very thorough."

Mrs. Novak has been an employee of the Senate Small Business Committee for 13 years. After her husband's death she became Baker's partner in the motel operation.

No Draft Seen by GOP Chief

ST. LOUIS (AP)—Republican National Chairman William E. Miller warned GOP presidential hopefuls they will have to work for the Republican nomination because there will be no draft candidate.

"I think anyone who wants the nomination in 1964 ought to be about it right now," Rep. Miller of New York said. "Anyone who just sits by expecting to be drafted will be disappointed."

Thus far, he said, it appears that the nomination will go either to Gov. Nelson A. Rockefeller of New York—who has announced as a candidate—or Sen. Barry Goldwater of Arizona. "Who it seems to me will soon announce."

"I believe former Vice Presi-

dent Richard M. Nixon when he says he is not a candidate and does not intend to be a candidate," Miller said.

ENTER PRIMARIES
Miller called for Republican presidential aspirants to enter state preferential primaries. He said if anyone won all the primaries—as President Kennedy did on the Democratic side in 1960—the Republican convention could not deny him the nomination.

Miller is in St. Louis for a two-day, 13-state regional Republican meeting that ends Saturday.

He expressed optimism about Republican chances in 1964 to win the presidency and a majority in the House of Representatives.

He told a news conference the Republicans would gain in the South, Midwest and Texas, where "Kennedy had better get political or he just might be in trouble there."

TARGET AREAS

Rep. Robert Wilson of California, chairman of the GOP Congressional Campaign Committee, said the party has designated 23 congressional districts in the Midwest as target areas. Republicans hope to pick up 11 or 12 seats in these areas, he said.

He declined to name specific districts, but said the GOP expected to pick up an additional congressman in Ohio, Illinois, Missouri, Indiana, Kansas, Nebraska, Iowa, Michigan, Wisconsin and Minnesota.

"We hope to gain at least 20 congressional seats in the Midwest," Wilson said. "This is in some areas where we have not had a candidate before."

Avert Strike at Pontiac Division

A threat of a strike at Pontiac Motor Division was averted early today when union and management negotiators reached agreement on grievances and other issues.

The settlement came at 12:30 a.m. to climax four weeks of daily negotiations. If agreement had not been achieved a strike deadline was set for 7 p.m. today.

"All operations at the Pontiac home plant will continue in their normal manner," stated T. B. Bloom, personnel director.

John Maye, president of UAW Local 653, said the package settlement has been approved by the union bargaining team and UAW International. It does not require membership ratification, he said.

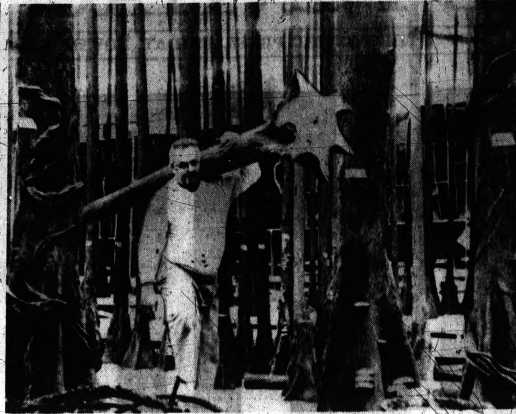

SPEEDUPS, GRIEVANCES

Maye said accord was reached on 179 speedup complaints and over 100 safety grievances.

Settlement of speedup issues will result in Pontiac Motor hiring a number of new workers, Maye said, but he would not specify how many.

For the first time the company and union established "model mix" formulas for the sequence in which different Pontiac and Tempest models will move along assembly lines.

Maye explained. Future safety grievances will be immediately referred to a meeting of the plant supervisor, the worker, and his union representative, Maye said, rather than be delayed for action on other levels.

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors

exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

Pontiac Woman Brings Down Doe Without a Gun

A Pontiac woman bagged a deer in Bloomfield Township last night — without a license and without a gun.

Mrs. Howard Dell, 201 Draper, was driving north on Telegraph about 7:30 p.m. when she saw two animals — leap in front of her auto. One hit the hood.

Pulling onto the shoulder, she was informed by Bloomfield Township police that a doe was impeding in the radiator of her car.

Damage to the vehicle was estimated at \$250, and the police took the venison to turn it over to the State Conservation Department.

City Teamster Gets Probation

Pontiac Teamster Local 614 President Leann Harrelson was placed on two years probation in Detroit's Federal District Court today for embezzling union funds and falsifying union records.

Harrelson, who was sentenced by Federal District Judge Fred W. Kaess, was convicted by a jury Sept. 13 of two embezzlement counts and two counts of records falsification.

The verdict came after a four-day trial in which Pontiac caterer Maurice Croteau testified he accepted \$500 from Harrelson toward payment of a 1960 campaign advertisement.

PHONY RECEIPTS

Croteau said he gave phony catering receipts for the checks, because he was asked to do so.

Harrelson's conviction bars him from holding a union office for five years under the Landrum-Griffin Act, the law under which the charges were brought.

Two weeks after the trial, Judge Kaess denied a defense motion for acquittal on grounds that the embezzlement indictments were improper and the charges should have been "conversion of union funds to another."

Conviction on conversion charges would not have barred Harrelson from holding union office.

To Aid Private Schools Educator Charges Plot

PORTLAND, Ore. (AP) — A prominent educator charges a vigorous campaign has been mounted, in and out of Congress, to provide federal funds for private and parochial schools all the way from kindergarten through college.

The council, Fuller said, is committed by policy "to oppose any legislation which would splinter the public tax dollar for distribution to private institutions of education" at any level for the institutional use of the schools or colleges.

The council does not object, Fuller said, to the use of federal funds by private colleges and universities "for such noninstitutional uses as research contracts, scholarships, fellowships and the like."

Fuller said "the campaign is active and gaining strength. Unless it is blunted the public schools will be financially under-

Birmingham Area News

City Youngsters Hoping Weatherman Is Wrong

BIRMINGHAM — Aw, c'mon, Mr. Weatherman — be a good skate!

That's the plea of Birmingham youngsters looking forward to the traditional Thanksgiving opening of the municipal ice rink at Lincoln and Eton.

The Recreation Department had been depending on a cold wave expected to hit the Midwest this weekend.

But, today the five-day forecast predicted rain, with temperatures in the low 50's.

NEED A FREEZE

Floping of the rink would require four consecutive nights with below-freezing temperatures.

Daytime temperatures would have to remain below 40 degrees with no sunshine and no rain, according to Recreation Director Donald Martin.

"We would have to start flooding Sunday at the latest for a Thanksgiving opening," Martin said. He added that the rink would open "no later than next weekend."

Meanwhile, registrations for boys' hockey and children's learn-to-skate and figure skating classes are being taken at the ice rink office weekdays from 10 a.m. - 5 p.m. Hockey tryouts are to be Nov. 30.

OPEN SKATING

When the rink is opened, open skating will be scheduled from 4-6 p.m. weekdays. It will also be open from 7-9 p.m. Wednesdays and from 7-9:30 p.m. Fridays.

The Saturday schedule is 1-3:30 p.m. and 7:30-10 p.m., and that for Sundays is 1-3:30 p.m. and 6:30-9 p.m.

An open house will follow Monday night's business meeting of the Hickory Grove PTA.

Scheduled for 8 p.m., the

meeting will feature inspection of the school's three new rooms. The Bloomfield Hills school is located at 2900 Lakeside.

Scott E. Lamb, 6801 Sheringham, Bloomfield Township, has been elected a trustee of Olive College.

Chairman of the board of the Michigan Life Insurance Co., Royal Oak, Lamb attended Olive for two years before transferring to the University of Michigan to specialize in banking, economics and business administration.

Mrs. Francis C. McMath, 3249 Bradley, Bloomfield Township, has been appointed to the newly formed planning and resources council of Skidmore College in Saratoga Springs, N.Y.

The council will aid the college's board of trustees in realization of a multimillion dollar program for a new campus.

Some 230 members of the Birmingham Newcomers Club welcomed 51 prospective members at a luncheon yesterday at the Community House.

The 12-year-old club now has 604 members, according to President Mrs. Jack Bjorkhart. Under the direction of Mrs. Ernest Jackson, the Drama Club presented a one-act farce, "Final Dress Rehearsal."

Dimitry Moshko

Service for Dimitry Moshko, 75, of 1645 Woodward, Bloomfield Township, will be 2 p.m. tomorrow at the D. E. Pursey Funeral Home, Pontiac. Burial will follow in Oak Hill Cemetery, Waterford Township.

Mr. Moshko, an employee of the Detroit Free Press maintenance department, died yesterday after an illness of two months.

Justice Department
Okays Investigation

BIRMINGHAM, Ala. (UPI)—The Justice Department has agreed to a possible federal grand jury investigation of transportation given Negro leader Martin Luther King Jr., a federal judge said yesterday.

Judge Clarence Allgood said, however, the department has found no evidence of any federal law violations.

"If such evidence, either in unauthorized use of a government-leased car or the department's later actions, is uncovered, Allgood said the case may go before a grand jury in February."

An 18-man Dallas County grand jury plans to go to Washington Monday to question Justice Department officials about the matter, and the jury yesterday asked that Atty. Gen. Robert F. Kennedy appear before the panel.

OTHER ACTIVITIES
The county grand jury not only is investigating the use of a government-leased car to drive King from Birmingham to a Negro rally at Selma, but also the scope of Justice Department activities in Selma during recent racial demonstrations.

Asst. Atty. Gen. Burke Marshall notified the jury earlier the department would not allow its attorneys to be held up to public abuse unless the jury produced proof of wrongdoing.

He asked that any evidence be turned over to the department.

In a telegram to Marshall last night, grand jury foreman Robert Wilkinson said he was disappointed that the department had decided to limit its cooperation.

He said Marshall's request that the grand jury turn over its evidence was "absurd," and the evidence would be disclosed "at the proper time and in the proper manner."

CAMERAS—Main Floor

Senators, Chrysler Will Eye Site Plan

LANSING — A Senate Interim Committee on Industrial Expansion hopes to meet Wednesday with Chrysler Corp. officials who are seeking a site for a new supplier plant.

The committee is trying to determine whether Michigan's tax setup is competitive with Ohio's, another possible site for the plant, said committee member John Bowman, D-Roseville.

The plant reportedly will provide some 3,500 jobs.

Edward Kane, executive secretary of the State Tax Commission, also has been invited to the meeting to present the comparative positions of the two states, Bowman said.

Bowman said yesterday that Sterling Township is the area Chrysler is interested in. He said the meeting probably will be held in the Sterling Township Hall.

FIRST SESSION

Kane, Executive Vice President of the State Chamber of Commerce Harry Hall, and an automotive manufacturers spokesman appeared before the committee at its first session Wednesday.

"Our first consideration," said Committee Chairman Milton Zaagman, R-Grand Rapids, "is to determine whether Michigan needs any revision of its taxing and assessing procedures to make it competitive with other states in this regard."

Under consideration by the committee were measures to revise the state's business activities tax and intangibles tax to relieve the tax burden on business.

Proposals repealing these taxes were included in Gov. George Romney's tax reform plan, which was defeated in the legislature last week.

OPPOSED PROGRAM

All four senators on the committee — for differing reasons — opposed the governor's program. Bowman opposed city income taxes on non-residents, while Zaagman went against the state personal income tax provision.

Another committee member Kent Lundgren, R-Menominee,

Opening Set for Cemetery in Avon Twp.

AVON TOWNSHIP—The new Christian Memorial Estate Cemetery, located between Rochester Road and John R. will be open for public viewing in about 30 days.

Fronting on Hamlin, the 114-acre cemetery will be designed in a series of "Christian Gardens," 2-acre plots each featuring statues portraying one instance in the life of Christ.

The cemetery is on land formerly owned by the Ferry-Morse Seed Co.

It is being developed by LePage & Associates, an investment corporation.

An administration building and greenhouses will also be constructed on the property. The public will have access to the grounds by way of a horse-shoe boulevard.

Area Miss in Finals

Baker a Smart Cookie

SOUTHFIELD — She's baking her way to her B.A. Donna Lenehan, 10th grader at Southfield High School, is a finalist in the \$38,000 Pprofax Gas Teen-Age Baking Contest.

As first place winner of the preliminary "bake-off" held recently in Toledo, Ohio, she won a trip to the regional grand finals, which will be conducted Dec. 7 in Indianapolis, Ind.

Donna's prize-winning recipe was for "Golden Onion Ring Bread." She also had to write an essay on "Why I Want to Go to College" which was judged along with her recipe.

Daughter of Mr. and Mrs. Thomas R. Lenehan 25875 Forestview, Donna, 15, will be competing for grand prizes Dec. 7 that include a \$2,000 scholarship fund, a wardrobe and trip to the 1964 New York World's Fair.

AREA NEWS

also opposed the state income tax, and the fourth member, Charles Youngblood Jr., a Detroit Democrat, said the state's financial surplus eliminates the need for new taxes.

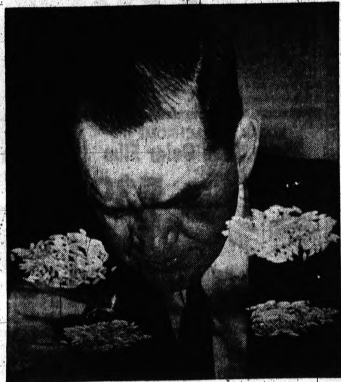

The committee also is considering a plan not included in Romney's program — exemption

tion of industrial tools, jigs, dies and fixtures from local personal property taxes.

Bowman said he understands Ohio has such a tax provision and used it as a selling point in vying for the Chrysler plant.

WILL ASK

Bowman said if the facts presented at the meeting show such a measure would put Michigan in a stronger competitive position, he definitely would ask Romney to include the measure in his call for the legislature's second special session in December.

OATS UNDER GLASS — This unusual camera angle offers a worm's eye view of Dr. John Grafius, Michigan State University crop scientist, comparing two new varieties of oats he developed with those they may replace. The new varieties, Coachman (top left) and Ausable (top right) are plumper and higher-yielding substitutes for Clintland 60, which Grafius is examining, and Rodney.

New Oat Varieties Show Higher Yield, Larger Grain

Coachman and Au Sable are two new oat varieties farmers in Michigan and nearby states will be hearing much about in the next few years.

The new varieties, developed by Michigan State University plant breeders, will be ready for general use in 1965.

Trials throughout the state show the new varieties yield higher, and have higher test weights and larger grains than those now in use. Both varieties yielded well above 100 bushels an acre.

Coachman is expected to replace Clintland in the southern part of Michigan counties and may be adapted to Ohio, Indiana and Illinois conditions.

AU SABLE TRIALS

Au Sable is more adapted to Michigan's thumb and central state areas. Trials showed it to outyield Rodney, the variety now commonly used in these areas.

The 1,200 bushels of foundation seed of the two new varieties will be multiplied by certified seed growers in 1964 and seed will be available to the farmers for their 1965 crop.

The two varieties were developed by Dr. John Grafius, crop

science plant breeder at the Michigan Agricultural Experiment Station, with assistance from Dr. Richard Kiesling. Kiesling was formerly a member of the botany and plant pathology department at MSU.

Michigan farmers will get a chance to study the two new varieties under field conditions in a dozen or more field trials in the summer of 1964. The Michigan Cooperative Extension Service expects to hold field days in several regions of the state where tests will be conducted.

Troy Church to Dedicate New Window

TROY — Dedication of a new stained glass window, a memorial to the late James L. Lockhart Jr., will highlight the 11 a.m. worship service at Big Beaver Methodist Church Sunday.

The artwork is a gift of Mr. and Mrs. J. Lawson Lockhart and Mr. and Mrs. Robert D. Rothman as well as many of the Lockhart's relatives and friends.

"The Lockhart's son was killed in an auto accident last fall."

"Christ at Prayer in the Garden of Gethsemane" is pictured on the glass, which is six feet in diameter.

It is a copy of the Hofman painting of 1890, and was done by the Detroit Stained Glass Co. and the late Edward C. Buddeke. The window is installed above the church's communion table.

Cavanagh Says Autos Boom Detroit Economy

DETROIT — Mayor Jerome Cavanagh of Detroit said yesterday that the booming auto market is chiefly responsible for his city's "resurgence."

He said the economic spurt has brought the jobless rate in the Detroit metropolitan area below the national average. The unemployment rate in Wayne, Macomb and Oakland counties is less than 4 per cent, he said.

Oxford Extends Contest Date

More Children Given Chance to Register

OXFORD — The Chamber of Commerce here has extended the deadline for entering the Snow King and Queen contest until next Wednesday, even though 44 local youngsters have already registered.

Chamber president Bruce Sanderson said the extra time had been granted to give more children a chance to participate in the competition.

In order to qualify, contestants must be between ages of 6 and 10 and live in the Oxford Area Community School District.

The name, age, address, phone number and a picture of the boy or girl must be left at Noble's Suburban Shop before the stores close Wednesday.

BALLOTS AVAILABLE

Ballots are available, without making a purchase, at Oxford stores. The competitors pictures will be posted at the Town & Country Business Service.

The lucky winners, who will be awarded prizes from local merchants and a ride with Santa Claus in the Nov. 30 Christmas parade, are to be announced Nov. 23.

Metropolitan Band Sets Utica Concert

UTICA — A concert of music ranging from band classics to one of the Schubert symphonies will be performed when the Metropolitan Band of Utica makes its debut at 8:15 p.m. Monday.

The recently formed 52-member band will stage its first concert, open to the public, in the auditorium of the senior high school.

Purpose of the organization is to cultivate band appreciation, offer a medium for gaining musical experience, underwrite scholarships and simply write band music.

TO RECEIVE AWARD — Walled Lake City Library has been notified it will receive the \$1,000 Dorothy Fisher Award of the Book of the Month Club, Inc., as Michigan's outstanding library in cities with a population of 25,000 or under. Now housed in a former

hardware store at 824 N. Pontiac Trail, the library became an official city department this year when voters approved a library tax levy of up to 1 mill. The library circulates about 1,000 books every month.

3 Plans in South Lyon

Board to Vote on School Building

SOUTH LYON — School board members here will vote Monday night on the type and size of building program they want to present to the electorate. The seven trustees, divided

during a summer of special work sessions, will have three plans on which to vote. One was designed as a compromise.

The trustees have had difficulty deciding what the school population of the district is going to be, how many buildings it will require and what kind of buildings they should be, among other things.

One faction is seeking construction of an 800-student high school by 1965. Property owners turned down such a request by a 3-2 majority in June.

FOUR SUPPORT

However, four of the trustees — Harry Cuestock, J. W. Erwin, William Markham and Donald Riddering — have supported the proposal to some degree.

Opponents of the first plan would build additions to two existing schools by 1964. They

would then ask for a 600-student high school to be completed for the 1967-68 school year.

Lined up behind this plan are Mrs. Rita Chenoweth, Alfred Ueker and the board president, Wilford Heidt.

The compromise, which has received support only from the backers of the first plan, calls for construction of an addition to the present high school by 1964 and of a new 600-student high school by the fall of 1965.

PLAN DIRECTION

Called for by Riddering, Monday night's vote hopefully would indicate the general direction plans should take.

Basic differences now are on the size of the high school, the year it can be provided and what sort of additions to present facilities are needed.

School administrators have indicated that elementary facilities are adequate, but that the real need is on the junior high and high school levels.

Peace Confab Held

DETROIT (UPI) — The Detroit League of Women Voters held a disarmament conference today with the theme "Build a Bridge to Peace."

Lone Turkey Didn't Survive

Lake Orion Promotion Ends With Bird Theft

LAKE ORION — Police here are on the lookout for a thief carrying 16 pounds of missing foot — that gobbles.

Police Chief Neal Leonard and Dave Donnelly, head of the Merchants Association's downtown promotion that started yesterday, agreed to stop releasing live turkeys when the crowd became unruly.

They still had one to go.

Last night someone broke into the truck on Atwater and ran off with the leftover bird.

Anyone seeing the culprit — who may have feathers stuck to his clothing — is urged to contact Leonard.

The Merchants Association wants to get the turkey back to give it away along with others, through a mystery shopper, downtown tomorrow.

Senior Play at Clarkston

CLARKSTON — The Mary Chase comedy, "Bernadine," will be presented by Clarkston High School's senior class at 8 p.m. today and tomorrow in the school's Little Theater.

Directed by Lee M. Moore, the play stars Carol Hunt in the title role with Dennis Urick as leader of a teenage gang of boys.

Other members of the gang are portrayed by Tom Simons, Dennis Kriehers, Gary Bass and Larry Collier.

Also featured are Larry Faust, Linda Hallman, Beverly Galligan and David DeLongchamp.

Road Toll Hits 1,610

EAST LANSING (UPI) — State police provincial reports today showed 1,610 persons died in highway accidents during yesterday as compared with 1,426 in the same period last year.

Despite Committee Opposition

MSU Proceeds With Medical School Plans

By RICHARD PYLE

EAST LANSING (AP) — Despite a blue ribbon committee's recommendation to the contrary, Michigan State University indicates it intends to proceed with plans for a two-year program of medical school education.

Establishment of such a program could lay the groundwork for eventual creation of a full-fledged, four-year medical school at the East Lansing campus.

In so doing, MSU would be ignoring the recommendations of the influential Coordinating Council for Public Higher Education, which this week adopted a report recommending a different approach.

A blue ribbon committee, appointed by the Coordinating Council to study medical school needs in Michigan, suggested that no plans for a third medical school be made before 1968.

Instead, said the committee, immediate steps should be taken to expand medical school facilities at the University of Michigan and Wayne State University.

As far as MSU is concerned, the committee said, its Institute of Biology and Medicine could handle 50 candidates for MD degrees during the first 18 months of schooling.

TRANSFER

At the end of that time, the students would transfer to either U-M or Wayne State, where the clinical facilities and staff vital to the last six months of the first two years of training would be readily available.

The report also says, at one point, that the committee's opinion is that establishment of a two-year medical school "is tantamount to a commitment for development of a medical center as rapidly as opportunity presents itself."

Although MSU officials, including President John Hannah, said they were satisfied with the report and that MSU is not thinking in terms of a four-year school at this time, it seems apparent that they have no intention of following the committee recommendation.

MSU, instead will stick with its original plan to offer a full two-year program of medical schooling at the Institute, clinical training included.

COMMITTED TO PLAN

Hannah said MSU has been "committed" to this plan for three years and intends to "go forward with it."

This means MSU must find

State Dem Senators

Vote to Hike Debt

WASHINGTON (AP) — Michigan's Democratic senators Philip Hart and Pat McNamara, voted with the majority yesterday as the Senate voted 50-25 to raise the national debt limit temporarily to \$315 billion.

They also were with the majority when the Senate voted down 44-35 an amendment to hold the debt limit to \$313.4 billion.

News Analysis

financial resources, possibly through the legislature, to furnish laboratory and office space, and to add at least six full-time doctors to the institute's teaching staff.

Another 15 doctors in the Lansing area would serve as part-time clinical faculty.

The first comments of MSU officials, Hannah and Trustee Warren Huff—who doubles as chairman of the Coordinating

Committee—were not definite on what MSU intended to do.

Huff said MSU concurred in the report but added that this would be "subject to change" on the basis of continuing studies of medical education, which the report also recommended.

It remained for Dr. William Kniseley, director of the Institute of Biology and Science, to clarify the university's position by stating flatly that it would continue the original plan to offer the full two-year medical curriculum.

"Michigan State is planning

and prepared to carry out whatever responsibilities are asked of it, and our responsibility now is to make decisions in terms of the best education," he said. "Every consultant who has visited our campus has advised that MSU develop the full two-year program."

MEDICAL EDUCATORS

Kniseley said these consultants include medical educators from such schools as Johns Hopkins, Stanford and Baylor universities and Dartmouth College.

The Coordinating Council's blue ribbon committee, Kniseley said, "represents the past,

while Michigan State is talking about the future."

Already under way, as a preliminary part of developing the medical program at MSU, are studies of how the university would use the facilities of Lansing-area hospitals for clinical work in the last quarter of the two-year curriculum.

The report, in a discussion of various sites for eventual establishment of a four-year medical school, said the Lansing-East Lansing area would be logical if such a school is to be made a part of a tax-sup-

ported institution, because MSU is the most highly developed.

Congressman to Halt Long Term in House

The way things are going — or rather, not going — in our national legislative halls, about the only record the 88th Congress will be able to point to at close of business next year will be the tenure record of one of its most distinguished members.

Democratic Representative Carl Vinson of Georgia has announced that he will not run for re-election in 1964. When he then retires, "Uncle Carl" will have served 50 years in the House — longer than any man in history.

Throughout his half-century in Washington, Vinson never lost his Southern drawl, his contrived look nor his unflagging energy as he headed first the House Committee on Naval Affairs and, after its creation, the Armed Services Committee.

A tobacco chewer but a non-drinker, the congressman at 80 retains not only his senses but his good sense. He told reporters he wanted to quit before anybody could claim he was losing his grip. Up until now, that is the last criticism any House member would be likely to level at him.

We warmly salute this remarkable political figure and regret his planned retirement. The Nation's electorate can ill spare legislative representatives of his stature.

Rail Crossing Buildup Ends in Letdown

Skillful development of climax is an ageless device of playwright and author. Conversely, anticlimax can have equal impact when artfully introduced.

But we doubt if any craftsman ever equaled the anticlimactic perfection regularly experienced at railroad crossings.

The stage setting: A lengthening line of idling vehicles halted by lowered crossing gates and flashing danger signals, their drivers darting impatient glances ahead and jabbing horns.

The denouement: A diminutive motorcar manned by two workmen, eventually rolls into view, nonchalantly crosses blocked street, disappears. The gates slowly rise, warning lights cease blinking, the standing cars successively resume progress.

Union Statesmanship Shown by Wage Axe

When union pioneer SAMUEL GOMPERS was asked what labor wanted, he replied: "More, more, more." He said, at another time, that it was a crime against labor for a business to fail to earn a profit.

Earning a profit while giving unions their "more" has preoccupied American companies for some decades. Sometimes it just can't be done. Sometimes, lately, union members have been sufficiently farsighted to give up the "more" and even take less to keep the business going.

An agreement between the United Auto Workers and the Hupp Corp. provided for cuts in wages and fringe benefits in exchange for the company's assurance that it would not move its high-cost operation into some low-cost area. The agreement is expected to keep 1,300 jobs alive.

A thousand members of the United Steelworkers took a cut of \$9.60 a week rather than see the Erie Forge and Steel Corp. shut down entirely.

Five hundred Evansville, Ind.,

carpenters since last spring have been working for \$3 an hour instead of \$3.60 their contracts had called for. The carpenters observed that fewer carpenters were busy when they held out for the higher pay.

All of these union actions are commendable, but nobody is suggesting that it would be just dandy for everyone to take a similar voluntary pay cut. Flexibility is the important thing in these cases, and unions which recognize that wages sometimes must go down as well as up, if jobs are to be had, deserve credit.

Little Time Left in Southeast Asia

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — For this country, South Viet Nam has been a cork in a bottle, preventing communism from spilling over into all of the Southeast Asian peninsula. The cork just got tumbled.

Cambodia, next door to Viet Nam, has canceled all American help. It is most certainly will now depend more on Red China, giving communism a foot in the door even wider than Viet Nam. Cambodia is in the very heart of the peninsula, bordered by Viet Nam, Laos and Thailand.

Prince Norodom Sihanouk, the Cambodian leader, has said he is convinced the Communists have won the battle for Viet Nam and thinks his neutral country eventually will fall to communism.

His attitude and his refusal to accept any more American guns or money are a searing reminder that the United States is living on borrowed time in Southeast Asia, and perhaps all Asia.

The Red Chinese, trying to catch up with the Americans and still lacking nuclear weapons, have so far avoided a showdown with this country in Southeast Asia.

A MATTER OF TIME

It can be only a matter of time before the Chinese feel strong enough to throw American power and influence out of Asia altogether.

Meanwhile it can use subversion, various pressures and local Communist guerrillas to avoid a direct confrontation with this country.

For the United States, which for years has had its hands full trying to achieve effective anti-Communist resistance in embattled Viet Nam, the years ahead seem sure to hold far more critical, dismal, unhappy days.

Yet, this country can hardly afford indignation at the prospect. Just suppose the positions were reversed and Russia or Red China was doing in Latin America what the United States is doing in Southeast Asia.

ECONOMIC, MILITARY AID

This country has pumped into Viet Nam not only economic aid but military help, supplying American servicemen in the zone of battle against the Communist guerrillas of North Viet Nam.

The United States can't come any closer to direct intervention in Asian affairs than this. But this country doesn't want any outside interference, in this hemisphere.

In its desire to demolish Fidel Castro in Cuba, the Kennedy administration backed an invasion of their homeland by Cuban exiles. It failed because this country backed away from giving it complete support.

When Soviet Premier Khrushchev tried to put missiles in Cuba, the United States was ready for war and gave Khrushchev a back-up-or-else ultimatum. He backed up and pulled his missiles out.

WHAT CAN BE DONE

What can the United States do? What it is doing: Trying to bolster anti-Communist or neutral Asian regimes to prevent a Red takeover. What hope of success can it have in the long run?

Probably only this: That perhaps the Red Chinese Communist government will collapse or that, over the intervening years, it can be induced to let its neighbors work out their destiny in their own way.

At the moment both seem like forlorn hopes.

'At Least We Don't Publicize Our Flops Like The Americans Do!'

David Lawrence Says:

Union Proposal Hurts Business

WASHINGTON—The union of the American Federation of Labor and the Congress of Industrial Organizations was supposed to create a powerful friend for the working man and to help build the system of free enterprise as a means of creating jobs and maintaining employment.

LAWRENCE

But a recommendation just adopted by the AFL-CIO at its convention in New York City casts doubt on whether such an objective would be furthered if the principle endorsed by the top labor leaders and delegates were enacted into law, for it would tend to impede the operation and expansion of various businesses.

The resolution adopted at the convention referred only to sales or mergers of newspapers; but, if the federal statute proposed were passed, the formula could be applied to any business which was in financial trouble and wanted to conserve its assets by a sale or merger.

An Associated Press dispatch on Wednesday said:

"The resolution would require publishers to give advance notice to all labor organizations involved in a proposed merger, suspension or sale of a newspaper."

"The resolution said that, when there are claims that a newspaper is being disposed of because it is losing money, the Justice Department should be authorized to ask for a court-appointed appraiser to determine its fair market value."

OPEN FOR BIDS

"Then, under the resolution, the newspaper would be thrown open for bids from prospective purchasers willing to pledge continued publication. The publisher would be required to accept a bid equal to the value set by the court-appointed appraiser."

This is an astonishing proposal, for it would set aside the right of the seller to do business with whomever he pleases—a broad consequence perhaps of the assumption in the "civil rights" debate that Congress can dictate to whom sales in the business market should be made.

Does the Constitution, which says Congress shall make no law abridging the "freedom of the press," permit the passage of laws which would undertake to tell a newspaper publisher to whom he can sell his property or that he cannot discount his paper and sell parts of its assets to one buyer and parts to another?

Another phase of the AFL-CIO scheme which could impair the market value of a business is the requirement that notice must be given in advance of an intention to sell or suspend a publication. One can imagine what psychological impact this could have on the employees. One can imagine also what the customers would do espe-

cially suppliers and advertisers — if they were told the business was in financial difficulty.

It is unrealistic to insist that the government now should become the dictator in the transfer of ownership of those businesses which are losing money.

Nor should businessmen who

are thinking of selling their properties be compelled to tell the world they are in danger of bankruptcy if they continue to operate.

This kind of law is not likely to preserve the free-enterprise system but could eventually bring instead a state-controlled system and legalized monopoly.

(Copyright, 1963, New York Herald Tribune Syndicate, Inc.)

Bob Considine Says:

British Air's One-Eleven Develops Despite Crash

NEW YORK—The confrontation was held, appropriately enough, in the Club Chaud at the Chrysler Building. Three Britons closely associated with Britain's one-eleven, the first of which crashed Oct. 22 killing seven technicians aboard, had come to break bread with C. R. Smith, president of American Airlines.

CONSIDINE

Mr. Smith has committed his company to buy four of the nearly \$3 million aircraft, with an option on 11 more.

In all, the British Aviation Corp.'s twin-engine, short-haul transport, which appeared to be at least a year ahead of Douglas developing DC-9s, has attracted 50-some orders in this country — something of a rarity in aviation. Total sales had reached 61.

Then disaster. The first of the one-elevens, which had performed perfectly through 81 hours of trials, was tooling along at about 16,000 feet, testing its stalling speed at that height, when suddenly it did indeed stall.

"It sank like a brick at the velocity of 10,000 feet a minute," E. B. Trubshaw, chief test pilot, for Vickers-Armstrong, Ltd., told C.R.

"There was no structural failure," his associate, K. S. Lawson, of Britain's leading aerodynamicists, said.

AERODYNAMICS

"This was purely a problem in aerodynamics. The second one-eleven will be flown Dec. 15, and the next three-two of them with slightly modified wings — will be in the air in the six weeks that follow."

"In other words, we intend to carry out multiple and simultaneous tests to make up for the time lost as a result of the accident," said, good-looking Geoffrey Knight, BAC's commercial manager.

The British team has been conferring in this country with Boeing, Douglas and Lockheed engineers. There have been frank exchanges of information about jets in general and those which, like the one-eleven, feature rear-mounted engines and high T-shaped tails.

Voice of the People:

Baldwin Rubber Workers Reply to VOP Letter

It is clear that Richard I. Moore didn't have the facts when he wrote the letter about Baldwin Rubber Co.

There are many people interested in buying this old and reliable rubber plant and want to keep operating it with the same employees, but they haven't been able to contact the owners and they have really tried. Perhaps Mr. Moore could help us.

Rocco Valenti
Baldwin Rubber Company
Employee of Seventeen Years

In answer to Mr. R. Moore concerning Baldwin Rubber, a grave injustice has been done to the citizens and loyal workers of Baldwin Rubber.

Here are some facts that will stand on record: Since 1924 there have been only three strikes between labor and management. A short time ago the union cooperated with Baldwin Rubber Co. in an evaluation program which eliminated 42 jobs. This is a lot in a small firm like Baldwin Rubber.

There has been a mutual sense of responsibility between the company and Local 125 for several years toward keeping work in this plant competitive in the rubber industry. Baldwin employees have tried to meet this competition. The company will verify that labor cost and competition in the rubber and plastic was not a factor in the closing. The facts stated by the company that carpet mats have taken the place of rubber and plastic is a fact.

I do not wish to take too much time of the loyal workers of The Pontiac Press to prove a point, I want to clarify some unjust statements made in this column to belittle the good people with whom I have worked for 20 years.

Charles Anderson
Executive Board Member Local 125

Asks About Coverage of School Bands

Isn't there any space in The Pontiac Press for news about the school bands? After each parade, football game or concert they have participated in, there is never one picture or congratulations on their fine performance.

We would like to read about them.

ROBERT STROUD

'Birdman' Will Be Autopsied

SPRINGFIELD, Mo. (UPI)—An autopsy was to be performed today on the body of Robert Stroud, the famed "Birdman of Alcatraz," who became an expert on bird diseases while in prison.

Stroud died yesterday in a prison hospital. He was 73 and had spent 34 years behind bars. He had been convicted of killing two men.

Warden J. D. Harris of the U.S. Medical Center for federal prisoners said Stroud died in his sleep of "the infirmities of age."

The warden said a relative had requested a private funeral "with no publicity." The autopsy was to be performed at the medical center.

NO DETAILS

A Springfield attorney, one of at least three retained by Stroud refused to release details of the funeral. The attorney asked that he not be named.

Reliable sources here said Stroud was survived by a sister and a brother. The sister was identified as Mamie Stroud, 80, but no hometown is available. The brother is L. G. Marcus of Houston.

Marcus was said to have changed his name from Stroud after a dispute with his brother. The nature of the dispute was not disclosed.

Stroud won the plaudits of bird experts in 1939 when he published "Stroud's Digest of Bird Diseases."

He made a study of the subject while confined at the federal penitentiary at Leavenworth, Kan. He later became the subject of a book, "The Birdman of Alcatraz," which was made into a movie.

Birthday Still Has Excitement for Former Veep

UVALDE, Tex. (AP) — Birthdays can still be exciting even to a man of 95, says former Vice President John Nance Garner.

"All these packages and cards make my old heart go pitter-pat," said the white-haired Texan who spent 30 years in Congress and eight more as vice president before quitting politics 23 years ago.

Garner, still rather active but with eyesight dimming, lives in a little house beside the home Garner donated for a museum here some years back. Word came in advance that President Kennedy, a fellow Democrat visiting elsewhere in the state, would telephone Garner congratulations during today's birthday observance.

Business Indicators Up

October One of the Best for City Economy

October, 1963, will go down in history as one of the best months in the Pontiac area's economic history.

Bank debits, a prime business indicator, set a new all-time record. Industrial payrolls stood at the highest level in three and one-half years.

Bank debits to customer ac-

counts zoomed to \$118,802,838, far upward from the previous high of \$116,750,385 in August.

This is a full \$18-million above a year ago when bank debits arrived for the first time at the \$100-million plateau. It is also a considerable step upward from 30 days before. The September total was \$103,953,974.

GM PRODUCTION

At the same time, increased production at local General Motors and other major plants pushed industrial payrolls to \$14,811,274, greatest amount since June, 1960.

This amounts to a half million dollars more into workers' pockets than the next pre-

vious high posted last month of \$14,300,658.

The value of new construction, which has fluctuated most of the year, moved upward to an impressive \$2,012,194 total during October.

Of the 194 building permits issued by the city last month, 65 approved requests to construct new dwellings. This number has not been reached for the past few years.

UTILITY RECORD

Gas, water and electrical consumption kept pace as utilities recorded one of their busiest months of the year.

Seemingly, business conditions generated a considerable flow of mail, as postal receipts totaled \$194,841, high-

est for any month since last December.

And if not adding to pre-Christmas optimism, October transportation statistics did not subtract much.

Bus patronage was the most favorable since April when 78,582 dropped their coins in the farebox last month. While better than September, however, it was still 2,000 fewer passengers for the same period in 1962.

Twenty-six air travelers departed on commercial flights from Pontiac Municipal Airport.

While below the 1963 monthly average, there were three more passengers than in September and five more than October of last year.

STATISTICS LISTED

Won Fame as JFK

Mimic Wants New Image

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD - It's a new star in show business trying to run away from the thing that made him famous.

Today's example is Vaughn

Meador, whose mimicry of President Kennedy in an album called "The First Family" astounded the record industry with sales of five million.

Meador, a Bostonian with a THOMAS

faint resemblance to the President that is emphasized by a sweeping hair style, was some-

what taken aback himself. Having earned \$40 a week in a Greenwich Village spot, "two years ago, he was drawing \$22,500 weekly in Las Vegas after the disc boom."

He is now incorporated and finding areas to invest his earnings, one acquisition being a gas station. He also is searching for ways to destroy his image as a JFK imitator.

"I've seen too many acts in show business get a big play because of a single specialty and then fade as the novelty wears off," he said. "It's not as though I can do only one thing. I've had other aspects to my career, starting in the country and Western field, then working as a piano comedian and as a standup comic."

"I'm not ungrateful for 'The First Family.' It accomplished overnight what would have taken one four or five more years in terms of public acceptance. But I just want to show that I can do something else."

He was trying to prove his point during a visit here for "The Joey Bishop Show." The plot had Joey getting mixed up between the imitation and the real President. Amid the hilarity Meador worked in some parodies of folk songs, part of his night club act.

He deliberately plays down the JFK aspect in his act, devoting only 10 minutes of his hour length to an impromptu press conference in which he responds to patrons' questions. He doesn't mind that, because it is spontaneous and makes him react creatively.

Right now his big enthusiasm is a new record album which he recently made in New York.

Mackie Wants Road for Aid to UP Trade

LANSING (AP)—State Highway Commissioner John Mackie says a 400-mile scenic highway along Michigan's Lake Superior shoreline is necessary to growth of the Upper Peninsula's tourist industry.

Mackie said he fully endorses the proposal by Sen. Philip Hart, D-Mich., for a federal scenic highway program of which the Lake Superior highway could be a part.

"It offers us our best hope of financing this and other scenic shoreline routes in Michigan," said Mackie. "Sen. Hart's proposal for a national scenic highway would do as much for Michigan as the freeway construction program has done for the economy of the larger cities in southern Michigan," he added.

SHARED EXPENSE

The scenic routes, like the interstate freeways, would be built with funds shared by the state and federal governments.

Mackie said a lack of funds has delayed the beginning of construction on some 650 miles of proposed shoreline highways in the state.

The plans are based on a 1960 survey showing some 650 miles

of scenic Great Lakes shoreline highways could be built for about \$100 million.

At present, the state has plans to let contracts in 1965 for the first 30 miles of a Lake Superior highway, between Brimley and M12.

AID IS NEEDED

Mackie said, however, that he believes federal aid would be necessary to develop a full network of scenic highways along the lakes.

"The public demand for such a highway through Michigan's Upper Peninsula is increasing," he said.

"This highway, and the proposed Picture Rocks National Seashore Park, could well be the greatest economic boon to the Upper Peninsula since the discovery of iron and copper."

Psychic's Ominous Forecast Solves Population Woe

By RUTH MONTGOMERY

WASHINGTON — A distinguished group of delegates to the American assembly have been worriedly holding another in a series of sessions on the alarming increase in world population, which is expanding at the rate of 2 per cent a year.

Nearly a fourth of the world's population is now Chinese, and experts estimate that by the end of the century the population of Red China will exceed two billion.

Such staggering growth naturally dwarfs the efforts of our foreign aid program to alleviate world hunger.

As a consequence, some scientists are rather grudgingly turning their attention to the highly unscientific, but eerily accurate predictions of America's most famous psychic, the late Edgar Cayce of Virginia Beach, Va. If Cayce should be right, the world is in for some drastic population decimation before long.

UNIVERSAL CONSCIOUSNESS

Cayce, while in a trance-like state, was supposedly able to tap the "universal consciousness" with his knowledge of everything that has gone before and events that are to come.

In August, 1926, the unconscious Cayce predicted that between Oct. 15 and 20 of that

year, there would be "violent windstorms, earthquakes in California and Japan, and tidal waves . . . in the south-pole regions of the later near Japan."

U.S. Weather Bureau records disclose that one of the worst windstorms on record lashed Cuba Oct. 30 of that year.

Hurricanes hit in the vicinity of the Kurile Islands near Japan Oct. 14-15, and earthquakes shook Japan Oct. 19 and 20.

TYPHOONS RAGE

Typhoons raged in the Philippines, and on Oct. 22 three quakes caused severe tremors in California. A tidal wave struck south of Japan in the Solomons.

Edgar Cayce, while in a trance in 1941, told a New York businessman that between 1945 and 1996 these things will occur:

French Youth Suicide by Burning Gasoline

NIMES, France (AP)—An 18-year-old youth killed himself Thursday by pouring gasoline on his clothes and then lighting a match.

Police said the youth apparently selected this method after reading about the gasoline death suicides of Viet Nam Buddhists protesting the Diem regime. Because of his age, police declined to give the youth's name.

Apple trees are related to the rose and strawberry.

New York City will be destroyed, the greater portion of Japan will go into the sea, and the upper portion of Europe will undergo drastic change.

Large segments of the population would presumably also go down the drain.

BROKEN EARTH

Cayce's mysterious source said the earth will be broken up in the western portion of America, causing Los Angeles, San Francisco and other parts of the coast to disappear, new land will appear on the East Coast of America where legend says the "lost" continent of Atlantis once flourished, and in the Pacific where Lemuria was once supposedly a continent.

Cayce, who knew nothing of science, forecast in the 20's that a gradual shifting of the center of the earth on its axis would begin in 1936.

He said this would speed up within the next few decades, causing the waters of the Great Lakes to empty into the Gulf of Mexico instead of the St. Lawrence and North Atlantic.

A geology professor quoted by Jean Starn in his fascinating new (Doubleday) book, "The Door to the Future," said official records show that from 1904 to 1936 the earth underwent its maximum polar shift.

CATALYSMIC

This, he said, could lead to catalytic disturbances and eventually cause the Great

Lakes to empty through the Chicago and Mississippi rivers to the Gulf.

The geologist further cited these scientific discoveries of the 1960 International Geophysical Year: "California may be gradually splitting away from the rest of the continental U.S., as part of a great shifting of the Pacific floor."

"The Hawaiian Islands seem to be slowly sinking into the ocean. New land seems to be rising in the Red Sea, Caribbean and Gulf of California."

Nearly 40 years ago the unconscious Cayce declared: "The earth will be broken up in many places. The early portion will place a change in the physical

aspect of the West Coast of America."

NEW LANDS
"There will be seen new lands of the Caribbean Sea, and dry land will appear. South America will be shaken from the uppermost portion to the end."

Countless more of these signed and dated predictions are available for scrutiny in the Edgar Cayce Library at Virginia Beach.

If the psychic's future geological prophecies should prove as accurate as his past hits, the current population explosion is probably nothing to worry about.

Events beyond our control may provide the solution—rather gruesomely.

Column Writing Glamour? It's a Grave!

By HAL BOYLE

NEW YORK (AP)—Now, and then a fellow ought to wonder how he earns his living—and what his work means to him.

It came as something of a shock to me the other day to realize I had been writing a daily newspaper column for 20 years, which made me feel something like a dinosaur at the typewriter.

BOYLE

I had to admit also to a feeling of humility. During those two decades I had composed more than 5,000 immortal messages to mankind, and what had they achieved? Very little, I must confess.

The world still seems embroiled in a great big mess, but I can't see that this is altogether bleak. No man can make a better world single-handed, and I don't feel I've had enough help on the job.

MORE TIME

And besides, I'm not through. Give me another 20 years, and I may be able to save civilization yet—the modest goal of every columnist, in one way or another.

The life of a columnist is hardly what some romantic members of the public think it to be. In this basic vision of the columnist dwells in a penthouse, rides to work in a chauffeur-driven limousine, spends his afternoons giving advice by long distance to President Kennedy and Premier Khrushchev, and his evenings in the glamorous company of movie and society queens.

NO ROMANCE

It hasn't quite worked out that way with me. My chauffeur is a bus driver. I live in a four-room, well-appointed tenement apartment, film dolls rarely invite me out to supper, and

sometimes days and days go by without either Kennedy or Khrushchev asking me for help. No wonder the world's in such a pickle. I haven't been given the tools to do the job.

Some more personal notes on the columnist's trade: It enlarges the soul, but wrinkles the brain.

There are those who believe that writing a column is an easy racket, but Don Marquis said it best long ago when he described this peculiar form of industry as "digging a daily grave."

BETTER JOB?

Nine out of 10 column readers firmly believe that, given the same opportunity, they could do a better job. And any columnist, if he is honest, must wonder if perhaps six of them aren't right.

It takes no unusual equipment to become a columnist. But you do need an insatiable curiosity about life, and a pair of ears

bent from listening to others. A two-pants suit also is helpful, as a columnist spends an important part of his time sitting in a swivel chair staring hopelessly at a typewriter.

The question a columnist is asked most often is, "Where do you get your ideas?" The answer to this is, you don't "get" ideas; you beg, borrow or steal them—or excavate them out of a dumb skull with the cold chisel of necessity.

The ordeal of the columnist is more lonely than that of motherhood, for when the birth pangs seize him neither nurse, doctor nor anyone else on earth can help him. Delivering brainchildren is a solitary occupation and the results often are still-born.

REAL REWARD

What is the real reward of columning? It is that old cliché of the newspaper world—"You meet such interesting people." People make up a columnist's

universe, and they are endlessly exciting—the schemers and dreamers, the rut-contended and path plowers. And there is no danger of running out of fresh material, as more people are born every day.

There is one other reward. A columnist is free, in Horace Greeley's phrase, to seek "the bright sunbeam of truth."

Brazil Chief Hails

Argentina's Seizure

BUENOS AIRES, Argentina (AP)—Brazil's President Joao Goulart has congratulated Argentine President Arturo Illia for canceling contracts with foreign oil companies.

Goulart's message expressed solidarity with Argentina's "defense of national sovereignty," the government press office said Thursday. The text of Goulart's message was not made public.

Bomb Injures 13 in Ceylon Port

COLOMBO, Ceylon (AP)—A small bomb exploded in Colombo's port Thursday, injuring 13 people, two critically, as a strike of 1,900 clerks and other white collar workers in the port cargo corporation went into its 18th day.

Police said the bomb was thrown at a group of tally clerks who, defying union orders, were reporting for work. It landed among a group of dockers.

The Trotskyite-dominated Ceylon Mercantile Union called the strike in support of wage revisions.

A Lemon in Garden

LONDON (UPI)—Raymond Knibb won a divorce from his wife yesterday because she tramped down all the dahlias in his garden.

About 28,000 Americans are killed yearly in home accidents.

Pickets Protest Death of Two in New York

NEW YORK (AP)—About 600 demonstrators picketed the West 100th Street station house Thursday night, protesting the killing of two prisoners last Friday.

Five demonstrators were arrested for disorderly conduct. There were no injuries.

The demonstrators, chanting and carrying signs, protesting the killing of Victor Rodriguez and Maximo Salerno, two youths arrested for molesting tenants in an Upper West Side apartment house.

Patrolman James Edmondson said he shot the pair after Rodriguez pulled a gun and fired a wild shot in the patrol car taking them to the station.

At the entrances to the Panama canal, the Atlantic ocean's tide rises and falls an average of one foot, while in the Pacific side the difference is 12.5 feet.

Chevy II. Nova 4-Door Sedan

Now-'64 Chevy II...

with a V8 engine

Now you see it. Now you don't. When a Chevy II does that kind of disappearing act you know without looking twice: It's a '64 with a V8 engine.

That's right. A full-grown 195-hp Turbo-Fire V8.*

It's available for the first time this year along with a choice of three other engines—the standard 4 (in 100 Series sedans), the standard 6 and a new 155-hp 6.* (And all of them, you'll be happy to know, maintain their high spirits on modest amounts of regular gasoline.)

You can take this V8 through the gears most any way you choose—with personal encouragement from a 4-speed shift* if you like.

But the changes that have come over this new Chevy II aren't by any means confined to what happens when you slip into the driver's seat.

There are new styling features like the tasteful grille design and trim accents, for instance. And the larger self-adjusting brakes that further reduce upkeep on a car that already has a reputation of coming about as close to perpetual motion as anything on four wheels can get.

The place to get the full details on the '64 is your Chevrolet dealer's. And after you've got them, we hope you'll attend to one further detail yourself. Drive it.

*Optional at extra cost

Pontiac Northern Organizes Basket Drive

By SUSAN KILLEN

This year, as in the past, the Pontiac Northern High School student council has organized the giving of the Thanksgiving baskets.

Homerooms will each receive the name of a needy family from Vernell Duffy, assistant principal and sponsor of the Northern student council.

The homeroom has charge of the making of a menu. These items are then assigned to the various members of the room, who, in turn, bring them to the school on or before the Wednesday deadline. The various rooms also collect money and shop for the turkey to finish the basket.

This task, which has become an annual tradition at PNH, is being undertaken by approximately 50 homerooms in the school.

The PNH band has been very active this year. They have performed at all of the home football games, one away game and two pep assemblies.

To arrange their plans for these various appearances, the band often meets before school. At this time, uniforms are assembled and marching methods are practiced.

The band is under the direction of Eldon Rosegast this year. In 1958, the PNH band had only 12 members. During the six-year history of the school, the group has grown to 50 members.

The band has a large list of student staff members. They are assigned an array of tasks.

Secretary for the group is Paula Dally. The equipment managers are Jerry Stoner and Robert Carr.

In charge of the distribution of all music are Lesta Stanley, Phyllis Hardy, Virginia Cheek and Mary Huemiller.

The set up committee is comprised of John and Richard Pacene, Dan Henson and Duncan Wood.

Other jobs handled by band members include the care of uniforms and yard marking details. The latter job consists of marking the fields for the marching routines.

In the spring, a formal banquet will be held. During this time band monograms are issued on the basis of service and longevity.

Members are now able to purchase a letter sweater, somewhat similar to that of the athletes.

Annual Game Is Tonight at Walled Lake

By SUE GERVAIS

Walled Lake High School's annual student-faculty basketball game will be played tonight at 8 p. m. Seniors John Stinker and Wayne McVey are in charge of the faculty and senior teams, respectively.

Participating teachers are Howard Chenoweth and Leo Pelson of the social studies department; Bob Bolton and Frank Merck of the mathematics department; Al Ropke, Jerry Shelata and Don Waymire of the commercial department; Ron Rentschler of the counseling staff and Alexander Zerkow of the vocal music department.

All senior boys who have been practicing under the coaching of senior Jim Broome, will oppose the faculty.

Cheerleading practice for senior girls, who will root for the students, have been handled by junior Pamela Jeffery, Shirley Brown, cheerleading sponsor and Carol Mero, cheerleading captain, have selected ten girls who will cheer in the game.

FACULTY CHEERS

Varsity cheerleaders, who will cheer for the faculty, have planned a pre-game skit. A dance, sponsored by the student council and organized by senior Andy Coleman, will follow the game.

Other School News Throughout Week

BHHS Will Present 'Life With Mother'

By TERE SEIBERT

Seniors will present "Life With Mother," a comedy by Clarence Day, tonight and tomorrow at 8:15 p. m. in the Bloomfield Hills High School little theater.

The play concerns a mother's desire to obtain an engagement ring for her son's fiancée.

Since the engagement lasts only a short while, mother, who never owned an engagement ring, ultimately receives the ring.

Moll Anderson, Eric Linder, Robert McGonigal, Sara Peterson and Starr Warrick will assume leading roles in this presentation.

DEBATE TO OPEN

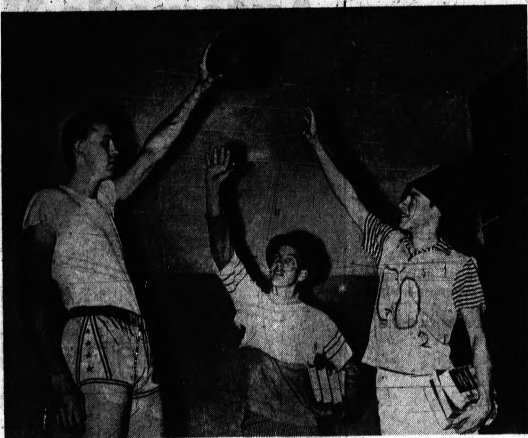

Debate will begin Tuesday when BHHS will oppose Brighton and West Bloomfield. "That the federal government should give medical aid to all citizens at public expense" will be the issue of this year's debates.

Nine debaters will participate on the team this year. The students include Robert Urelic, who has been a member of the team for the past three years, Cliff Cook, Gary Eams, Robert Fink, Robert Koch, Harry Quackebush, David Teutner, Harry Thomas and Gretchen Twinsteyer.

Clarence Slocum, BHHS history instructor, supervises this group.

Fifteen choir members attended the annual Michigan School Vocal Association clinic recently at Oakland University.

Five similar music clinics were held throughout the state

PCH Activities in Line for Big Seasons

By DIANE OLSEN

Activities have already begun at Pontiac Central High School for the coming Christmas and basketball season.

The senior girls' ensemble, a vocal group of 17 that meets three times a week, has elected officers. They are Rox Swartz, president; Linda Fought, vice-president; and Joyce Livingstone, secretary.

treasurer. Sponsor of the group is Robert Seterling of the music department.

Earlier this week a group of girls interested in physical education instruction visited Eastern Michigan University to participate in "Major Day."

Those attending lectures and activities were Mary McKim, physical education instructor, Margie Swan, Cam McDowell, Jill Dearing, Stephanie Bennett and Janet Goldman.

Central's Hi-Y, under Lester Mack of the science department, recently elected as officers Chris Fitzgerald, president; Bob Gibbs, vice-president; Tom Kampen, secretary; and Jon Hartman, treasurer.

The ushers club, advised by Maurice Levine of the science club, is one of the many service organizations at Pontiac Central. Newly elected officers of this club are Diana Scribner, president; Sharon Hershberger, vice-president; and Rosemary Armistead, secretary.

A hootenanny will be held at

Pontiac Central Dec. 5 at 7:30 p. m. in the main gym. Proceeds will go to the PTA fund to be used for scholarships.

The new officers of the basketball team were recently announced in a meeting of the cheerleaders at the home of Mrs. Charles Smith of the art department. President is Nancy Jack. Assisting her will be Carolyn Gaensbager, secretary-treasurer; Nancy Ward, quartermaster; and Pat Gentry, historian.

ST. FREDERICK

By KATHY CARRY

Excitement has been mounting this week among the sophomore class members at St. Frederick High School. They will make their debut in the social world tonight when they sponsor their first big dance, "The Plymouth Rock."

Dance chairmen include Pat Garland, Maribeth Shore, Karen Larson, Tom Wright, Bridget Scully, Jack Anderson, Mark Brasch, Gordy Doyon, Diana Carr and Mary Nevells.

In preparation for the opening of basketball season next Friday, the Rams will play two scrimmages: one tonight and another Tuesday night.

Sorrow came to St. Frederick this week as Sister Frances, sister of Sister Ann David, senior home room adviser, passed away suddenly early this week.

Senior and junior classes at St. Frederick will be attending the funeral in Monroe Thursday morning.

OUR LADY OF THE LAKES

By LYNNE SPRINGER

Our Lady of the Lakes High School juniors are looking forward to receiving their class rings and having them blessed at the 12:30 p. m. Mass Sunday.

The shield of the Dominican Order, that of our teaching sisters, and a crown of Our Lady make up the crest of the rings.

The juniors will be honored by the sophomore class at a breakfast in the high school gym following the blessing.

WKHS Members Visit East on Hi-Y's U.N. Study Trip

By JOY McREYNOLDS

Recently three members of the Waterford Kettering High School Hi-Y journeyed to New York City for the annual United Nations study trip.

Participating in this year's program with other Hi-Y members from the Detroit and Pontiac area were John Dunham, Leonard McPherson and Benjamin Van Leun.

Purpose of the trip was to gain insight into the workings of the international organization. Participants attended committee meetings and a session of the U. N. general assembly.

Also highlighted were a tour of the United Nations building and visits to the American and Russian missions.

OTHER LANDMARKS

Although time for sightseeing was limited, the WKHS representatives did manage to visit the Empire State Building, the Statue of Liberty, Greenwich Village, Chinatown, Broadway and the Radio City Music Hall.

The Waterford Kettering French club, an organization for students at all levels of French study, is designed to give greater knowledge and appreciation of that culture to interested students. The club strives to tell why French is considered an important European language.

Format of the club includes informal discussions, lectures by guest speakers, film strips, and records, all directed toward acquainting the students with literary and artistic heritage of the French culture.

A business meeting this afternoon was highlighted by the election of new officers. A field

trip to a French restaurant has been planned for later this year.

The shorthand II-transcription class of Mrs. Maureen Losh recently visited the Oakland County Board of Education Data Processing Center. Among the facilities observed were electronic computers for payroll and scheduling operations.

The season will soon open the varsity wrestling team. Among the 40 boys participat-

ing, 15 are returning from last year. Seven are lettermen.

Now in its second year of varsity competition, the team has scheduled its first meet against Southfield Dec. 3.

Coaching the squad are Gaylord Thompson and James Tolla. A hootenanny and dance, "Meetin' at the Village Square," will be sponsored by the sophomore class tonight from 8 to 11 in the WKHS gym.

Pontiac Press Photo

"DANCE PLANNED" — Avondale High School students Pam Saunders of 116 Oakmont, Auburn Heights, and Steve Blomberg of 2767 North Grant Street, Pontiac, are ready for the Sadie Hawkins dance Wednesday from 8 to 11 p. m. This year the dance will be sponsored by the junior class.

Sadie Hawkins to Ride Again

The Girls at Avondale Will Have Their Day

By PAT KLEIN

At Avondale High School, it's that time of year again when the boys are "runnin'" and the girls are "chasin'," all heading toward the annual Sadie Hawkins dance.

This year the dance will be under the direction of Raymond Carlson, adviser to the junior class. It will be held Wednesday evening from 8 to 11 p. m.

Sponsored by the junior class, the dance this year will feature a new addition, "Marryin' Sam", giving all the lucky gals a chance to get hitched.

In this traditional turn-about the boys and girls will be wearing matching sweat shirts and slacks or plain matching shirts.

Girls are now saving their money for expenses and picking a date for the evening, as they must do the asking and foot the bill.

DAR Cites Senior Girl at WTHS

By MARY BARNINGHAM

Katherine Jones, a Waterford Township High School senior, has been chosen to receive a Daughters of the American Revolution gold citizenship award.

She is president of the national honor society at WTHS and is enrolled in a probability and statistics course at Oakland University for which she will receive four hours of college credit.

During the past two years, Katherine has maintained an A average as well as serving as sophomore class treasurer, as a member of the junior board and the national honor society. French club, swim club, pep club and girl's athletic association.

She will attend a meeting of area DAR award winners Dec. 5 at Oakland University.

CASUAL DRESS

"Gold Digger's Pick" is the name of tonight's girl-ask-boy dance sponsored by the junior class.

The dance, which has a Western theme, will be held in the gym from 8 to 11 p. m. Dress for the event is casual, and tickets may still be purchased at the door.

In charge of publicity is Lynn Schall. Also working on the dance are Carol Benson, decorations; Sandra Rick, refreshments; William Walters, entertainment; and Maureen Stratton, tickets.

At least one WTHS student will be speaking in defense of the teenage driver at the sixth annual Oakland Teen-Age Safety Conference, which will be held tomorrow at Pontiac Northern High School.

Those who have contracts were urged to abide by them. NEA, in what was termed as an "urgent advisory," suggested that salaries were inadequate, and that many of the schools lack needed science and text books, and that many of the school buildings are inadequate and unsafe.

Area Students on the Go

ST. FREDERICK

Excitement has been mounting this week among the sophomore class members at St. Frederick High School. They will make their debut in the social world tonight when they sponsor their first big dance, "The Plymouth Rock."

Dance chairmen include Pat Garland, Maribeth Shore, Karen Larson, Tom Wright, Bridget Scully, Jack Anderson, Mark Brasch, Gordy Doyon, Diana Carr and Mary Nevells.

In preparation for the opening of basketball season next Friday, the Rams will play two scrimmages: one tonight and another Tuesday night.

Sorrow came to St. Frederick this week as Sister Frances, sister of Sister Ann David, senior home room adviser, passed away suddenly early this week.

Senior and junior classes at St. Frederick will be attending the funeral in Monroe Thursday morning.

OUR LADY OF THE LAKES

By LYNNE SPRINGER

Our Lady of the Lakes High School juniors are looking forward to receiving their class rings and having them blessed at the 12:30 p. m. Mass Sunday.

The shield of the Dominican Order, that of our teaching sisters, and a crown of Our Lady make up the crest of the rings.

The juniors will be honored by the sophomore class at a breakfast in the high school gym following the blessing.

Wes Borys will preside over ceremonies following the breakfast. Class presidents Army Steiber, seniors; Bob Elbergen, juniors; Ann Long, sophomores and George Lee, freshmen, will each give a short talk.

Ring week will be climaxed by a dance entitled "Memories," sponsored by the junior class Wednesday evening from 8 to 11:30 p. m. The public is invited.

ROCHESTER

By FRED ENNIS

A hootenanny is in store for all Rochester High School students today when the senior class presents J. T. Beasley in the RHIS student center. The program will be held from 7:30 to 9 p. m.

Kathy Stoenburg is general chairman of the affair. Other chairmen are Tim Phillips, Diane McGowan and Jay Eastman.

Today is the day when all football players will be receiving their awards at the sports department awards assembly.

W. BLOOMFIELD

By SUE GOTSHALL

West Bloomfield High School cheerleaders have been practicing twice a week to prepare for the coming basketball season.

Varsity cheerleaders, sponsored by gym instructor Wanda Scheller are: Jill Lawson, Patty Newton, Sue Simpson, Gayle Fuller, Dorelle Lazar, Marsha Parker and Dede Kuyper.

This year's junior varsity squad is composed of Lucy Alix, Terry Kidd, Karole Hanes, Sue

Sanderson, Linda Spisita, Irene Kent, Diane Parker and Margaret Penney.

Sandy Williams, Sally Ringe, Kay Windiate, Linda Haughton, Mirha Kern and Sharon Miller make up the ninth grade squad.

MILFORD

By BOB GORSLINE

Scott Lovejoy, student council president at Milford High School, has been selected as president of the Wayne-Oakland County League student council. He was chosen by 32 delegates, representing the eight league schools, at the recent annual workshop held at Clarkston.

Wednesday will mark the beginning of Thanksgiving vacation at Milford. This is also the final day for the sale of year books.

ORION

By NANCY GREENHILL

The Lake Orion High School varsity and junior varsity bands will present their fifth annual Thanksgiving concert Tuesday at 8 p. m. in the high school gym.

It will be under the direction of Peter Kohlen.

The national honor society conducted a basket drive which ended today. The money is to be used to provide a Thanksgiving dinner for the less fortunate. Members will deliver baskets Wednesday.

University Won't Eye Rights List

ANN ARBOR (AP) — The University of Michigan yesterday made public a list of demands from a civil rights group which it said could not consider because of the group's threat of force or violence.

The Direct Action Committee, an Ann Arbor group, demanded in a letter the university change its hiring practices and dismiss any officials who failed to comply with the changes.

The committee proposed a timetable for the university's compliance with the demands and said it would picket the administration building, "forcibly" preventing entry, if the university did not meet the demands. Signing the letter were Charles Thomas, chairman of the committee; David Bernard, vice-chairman; and Mr. and Mrs. Lewis Meyers and Peter Signorelli, executive board members.

Among the demands were preferential hiring of an agreed-upon number of Negroes. The committee has accused the university of discrimination in its hiring policy.

AP Photo/fox

HIGH AND DRY — Officials of the northeastern Kentucky town of Flemingsburg study the depleted water supply in the town reservoir, which normally holds 36 million gallons of water. The black line shows the

normal water line, but a two-and-a-half-month drought has nearly emptied the reservoir. More than 140,000 gallons of water have been hauled in daily, but this is insufficient. Pleas for federal aid so far have been fruitless.

Koreans Killed by U. S. Rocket

SEOUL, Korea (UPI) — Nine Koreans were killed and nine injured yesterday by a U.S. Army Honest John rocket while gathering scrap metal on a firing range, the Army announced today.

The Koreans, all villagers who lived near the range 30 miles north of Seoul, had been warned by the Army to leave the area before the firing. It was the largest toll from any firing range incident here.

Two Honest Johns were fired by an Army artillery unit. The Koreans rushed out to collect the scrap from the first warhead and were hit by the second.

WERE TRESPASSING — The Army said the victims of the rocket were "trespassing without authority" when hit. A spokesman said they apparently counted on a longer interval between the rockets. Ordinarily, they are fired at half hour intervals, but yesterday, only a few minutes elapsed.

The villagers were spotted on the range about an hour before the firing and were warned to leave by leaflets dropped from a helicopter, the Army said.

Nylon was the first synthetic to show promise as a textile.

Man Pleads Guilty to Manslaughter

Frank Taylor, 48, of 51 Murray yesterday pleaded guilty to manslaughter in the July 4 fatal stabbing of his brother-in-law, Gus Evans, 40, of 436 Os-

mun. Taylor had been scheduled to stand trial today on a second-degree murder charge, but

was allowed to plead guilty to the lesser offense before Circuit Court Judge Stanton G. Dondora.

The slaying occurred during an argument at Evans' home, police said.

Judge Dondora scheduled sentencing for Dec. 17.

E. German Girl Athlete Is Believed Defected

GENEVA (AP) — An East German girl basketball player is believed to have defected to the West.

Adelheid Nentwig reportedly disappeared after dining with

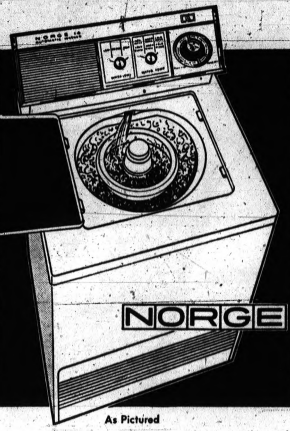

the other 16 members of the East Berlin T.S.C. Club at a restaurant. She did not show up for a European Cup match with the Geneva Le Chêne B.C. squad.

About nine-tenths of all the people of the U.S. were living in family units, during the 1950 census.

Havana Claims 500 From U. S. Will Visit Cuba

MIAMI, Fla. (AP) — Havana Radio says that 500 American students will visit Cuba next June.

The broadcast, heard in Miami Thursday night, said the trip is scheduled "in view of the interest aroused in the United States by the first Cuban tour."

Fifty-nine American college students visited Cuba last summer in defiance of a State Department travel ban. Their passports were suspended because of the trip, and four later were indicted by a federal grand jury in Brooklyn as organizers of the tour.

Tense Nerves Block Bowels

Your colon has nerves that control regularly. When you are tense or nervous, normal bowel impulses may be blocked—and you become constipated. New Colosund tablets relieve this misery with a new principle—a unique colonic nerve stimulant plus social bulking action as recommended by many doctors. Result? Colosund puts your colon back to work—gently drives constipation overnight. You feel great! Get clinically-proved Colosund today. Introductory size 43¢

Japan Election Maintains Ikeda's Pro-U.S. House

TOKYO (UPI) — Pro-American Premier Hayato Ikeda today won a massive mandate to run the country for another four years. He remained far ahead of the opposition Socialists and Communists despite their slight gains.

Final official returns from yesterday's election gave Ikeda's Liberal Democrats 283 seats in the 467-seat lower house, a loss of 12 from his showing in the last elections in 1960.

The Socialists, with 144, picked up one seat, and the Communists, with 5, picked up 2 seats.

Ikeda fell short of the two-thirds majority needed to amend the constitution, but the Socialists also failed to win the one-third they would need to block such action single-handed.

TIES WITH U.S.

Ikeda, 63-year-old expert on finance and trade, campaigned on a platform of continued close ties with the United States. The Socialists called for a neutralist

policy, withdrawal of U.S. bases, and recognition of Communist China.

Despite nearly perfect weather throughout most of the nation, the election brought the lowest voter turnout since World War II — only 66 per cent.

This was far below the turnout in the 1960 election that Ikeda won, when 82 per cent participated.

The reason for the lack of interest was the lack of issues in the campaign.

DOUBLE TRAGEDY

At mid-point in the campaign, the double mine and train disasters, which killed more than 600 persons earlier this month, appeared to be growing into a political issue.

The Socialists charged that government laxity was responsible. But most voters seemed to agree that no single party or government could be blamed for the neglect of safety measures and adequate facilities in Japan's postwar rush to industrial expansion.

French Funds for Cambodia

Nation Still Rejects Communist Assistance

PHNOM PENH, Cambodia (AP) — Cambodia plans to turn to France and not the Communist world to fill the gap left by its refusal of U. S. aid, informed sources said today.

Chief of State Prince Norodom Sihanouk, who asked for an end to the more than \$30 million in U. S. economic and military aid in a series of statements this month, had been feared to be turning toward Communist China.

But the sources said the prince has termed Communist aid "particularly dangerous" and declared last night that "France is the most capable power to represent the Western world in this part of Asia."

INFLUENCE OVER

"The Americans have been erased from this country," he was reported to have said. "The Communist powers are erasing themselves."

France gave Cambodia its independence 10 years ago after a 100-year protectorate. Sihanouk was one of the staunchest advocates of independence, but French cultural influence remains strong here.

Western officials were concerned that Communist China or the Soviet Union would step into the vacuum left when U. S. military advisers leave at the prince's request and when U. S. aid, which pays for 20 per cent of Cambodia's strategic imports and 40 per cent of army salaries, is terminated.

Communist China warned the United States yesterday it would give Cambodia "all out support" if it is invaded in an action "instigated by the United States and its vassals."

Sihanouk, in renouncing U. S. aid, charged that the United States was aiding Cambodian rebels who were plotting to overthrow him. He said the rebels were headquartered in neighboring South Viet Nam.

The Welland canal between Lakes Ontario and Erie is one of the oldest and is 27.5 miles long.

Today in Washington

Hike in Debt Ceiling Goes to President

WASHINGTON (AP) — In the news from Washington:

DEBT LIMIT: Congress has granted President Kennedy the record-breaking \$15 billion national debt ceiling he asked for the next seven months.

Several senators, before their branch passed the bill 50-28 on Thursday, said they would like to find some more permanent solution to the problem. Some said it was ridiculous for Congress to act on three separate debt limit bills in one session as it did this year.

Kennedy must sign the new measure before Nov. 30. Otherwise, the present temporary \$309 billion limit will drop to the permanent ceiling of \$285 billion. The House passed the bill Nov. 2.

CONGRESS: The new guessing game on Capitol Hill is "What will Congress?" Practically everyone thinks he has the answer.

Republican Leaders Sen. Everett M. Dirksen and Rep. Charles A. Halleck blame President Kennedy for Congress' creeping pace, arguing that he has mismanaged his legislative program.

CIVIL RIGHTS The assistant Senate Democratic leader, Hubert Humphrey, contends civil rights legislation and the maneuvering of its foes have blocked the legislative mill.

Sen. Joseph S. Clark, D-Pa.,

said Thursday the fault lies with the "Senate establishment," he said was composed of a small bipartisan clique of senior operators "which does not want anything to happen, which appears quite content to have congressional government break down."

He singled out the Democratic chairman and ranking Republican members of the Appropriations, Judiciary and Finance committees.

Democratic Leader Mike Mansfield told Clark the fault really lies in "the high degree of absenteeism, especially on the Democratic side of the aisle."

There were only two or three senators present to hear Mansfield's charge.

SPACE GAP: A Republican task force has taken a leaf out of President Kennedy's 1960 campaign book and accused the administration of letting the Soviet Union open up a military space gap on the United States.

MOON RACE

The task force, made up of 10 congressmen, said Thursday the President had overemphasized a race to the moon and other civilian projects and allowed the U. S. military space program to lag.

Newsman, noting the similarity between the task force's charges and Kennedy's charges of a missile gap in 1960, asked the Republicans if they intended

to make their charges an issue in 1964.

"We will," said Rep. Charles S. Gubser of California, the task force chairman, "if the military space gap continues."

MEDICAL CARE: Sen. Paul H. Douglas, D-Ill., has urged a congressional investigation of whether a recording distributed by the American Medical Association's political action committee was a fake.

The record depicts Paul Nor-

mile-of-Pittsburgh as a tough-talking union leader telling members of the Steelworkers Union District 16 to kick in 10¢ to support medical care legislation in Congress.

Normile and AFL-CIO leaders Wednesday called the record a fake and said they had filed a \$400,000 libel suit against the AMA.

Dr. Edward R. Annis, AMA president, defended the record's authenticity in testifying Thursday before a House group against the administration plan of Social Security - financed health care for the aged. He called the libel suit a publicity stunt.

World annual cork production is about 330,000 tons.

Snow, Sleet Hit in West; East Is Warm

CHICAGO (AP) — Cold weather, with snow, sleet and freezing rain, spread across wide areas in the Upper Plains region today, but unseasonably mild temperatures continued in the major part of the nation.

The core of the cold air from Canada centered in Western North Dakota and Eastern Montana, with temperatures near zero. Light snow fell in most of the Dakotas, Montana, Western and Central Nebraska, parts of

Wyoming and Eastern Colorado. Hazardous driving conditions were reported in the wet belt, and livestock warnings were issued by the Weather Bureau. Sleet and freezing rain, mixed with snow also created dangerous driving conditions in areas east of the cold belt.

Showers and thunderstorms broke out in the moist warm air which spread from the Gulf into the nation's midsection. The mild air also covered most areas in the eastern half of the nation with temperatures far above seasonal levels.

Other wet spots included a belt of rain that spread inland across the Pacific Northwest. Fairly mild and dry weather prevailed along the East Coast and in most areas west of the Continental Divide.

Solon's No Hero; He'll Take Raise

WASHINGTON (AP) — Rep. John W. Snyder, R-N.Y., opposed Thursday any \$10,000 increase in pay for members of Congress because, he said, Congress shouldn't raise its own salaries and ask others to make sacrifices for the sake of economy.

But Snyder also acknowledged he's no hero.

"If the raise is voted into law," he said in a letter to constituents, "I'll take it."

Tragic End to Mother's Life of Care

NEW YORK (AP)—A police blotter entry of "homicide—suicide" was the tragic epitaph of a devoted mother and her retarded son.

The world in which Rose Cohen had lived since 1926, when her son Israel was born, began to cave in Wednesday when her husband, Benjamin, became seriously ill.

He was taken to a hospital

for tests to determine if his illness is cancer.

Within hours, police said, Mrs. Cohen suffocated her son with a plastic bag and then killed herself with sleeping pills.

A married daughter found the bodies of mother and son locked in an embrace in their Bronx apartment yesterday.

The father was not immediately told of the tragedy, which a patrolman described as "a bitter, bitter end for 37 years of a mother's devotion."

Shoes for left and right feet were shaped alike for many years. It was not until Civil War days that separate patterns were used.

First Driving Lesson

Was a Real Smash

LEIDSCHEIDAM, The Netherlands (UPI)—Police said today an unidentified blonde, receiving her first driving lesson in her boy friend's car, caused \$16,000 damage when she hit the accelerator instead of the brake.

The auto plowed through a parked bicycle, a gas pump, a display window and a new car before stopping, at which time the blonde was reported to have said, "I'm sorry," then broke out laughing.

About 600 Americans are killed every year in bicycle accidents.

Labor Warned on Job Bias

NAACP Official Says
Unions Bar Negroes

EAST LANSING (AP)—The labor secretary of the National Association for the Advancement of Colored People contends the future of America's labor movement rests on labor's ability to cope with unemployment and racial discrimination.

Herbert Hill, speaking at Michigan State University, said organized labor is making the unemployment situation worse by denying membership to Negroes.

While unemployment is a problem for white workers, Hill said, it is a "crisis" for Negroes.

He alleged that four areas of racial discrimination exist among trade unions:

• Negroes are excluded from union membership in many trades where membership is necessary for employment.

• Local unions are segregated with desirable jobs available to white unions only.

• Seniority lines are separated on a racial basis, with such benefits limited mainly to whites.

• Some unions refused to admit Negroes into apprenticeship training programs.

Hill contended the federal government is backing off the civil rights problem and accused the AFL-CIO of failing to keep its "pledge to move decisively against the racist elements."

The Democratic party coalition of Negroes, liberals and labor is dissolving and will continue to do so if the present administration fails to meet its civil rights obligations, Hill said.

STRICKLY FOR THE BIRDS — Ray Thompson of Ellsworth, Iowa, stands by his flock of 10,000 turkeys being nurtured for holiday eating around the country. The Iowa town calls itself the "Turkey Capital of the World" and much of the flock is destined for tables on the Eastern Seaboard.

Rocky to Woo Pennsy GOP

Won't Ask Support Without Scranton OK

NEW YORK (AP)—Gov. Nelson A. Rockefeller of New York has promised he will not attempt to seek commitments from Pennsylvania's 64 delegates to the Republican National Convention "without consulting and agreeing with" the state's governor, William W. Scranton.

Rockefeller said, however, he will woo Pennsylvania Republicans in his campaign for the GOP presidential nomination. Rockefeller, who met with Scranton for 80 minutes Thursday, agreed with the idea of an uncommitted Pennsylvania delegation in the interest of party unity in the state.

Scranton said before the meeting that he hoped to keep his state's delegation neutral until the convention opens in July. Scranton said he will seek a commitment similar to Rockefeller's from Sen. Barry Goldwater of Arizona, considered the front-runner for the presidential nomination. Goldwater, who has not announced as a candidate, has said he can't control his supporters in Pennsylvania.

Rockefeller, only announced candidate for the nomination, said he will enter the Pennsylvania primary, but only to test his popularity and that the result will not be binding on delegates.

Cropland in the U.S. has remained at about 400 million acres since 1920 while the population has grown 50 per cent.

Brand New SIMPLICITY "Broadmoor" RIDING TRACTOR

America's newest, most advanced 1964 model Riding Tractor. An all-season work-saver... just in time for heavy-duty snow removal. Clears a 40-inch path with the utmost of ease. "Floating-traction" tires exert amazingly little ground pressure... steps so light it won't even mark wet or tender lawns. Outstanding ice and snow traction. A complete selection of attachments and electric starter available... a demonstration will convince you.

City Man Innocent in Station Holdup

A 26-year-old Pontiac man yesterday was found innocent of a charge of armed robbery in the April 6 holdup of a Clark Oil station in Pontiac.

Harold Rush, 236 Howard McNeill, was acquitted by an Oakland County Circuit Court jury after a day-long trial before Judge Frederick C. Ziem.

Rush has been accused of taking \$30 at gunpoint from Lowell

Merrill, 23, an attendant at the station at 228 Orchard Lake.

Rush was arrested when he walked into the Pontiac police station to report that his car was stolen. His car, which matched the description of the robbery car, had already been found by police.

WITNESSES TESTIFIED

Two defense witnesses testified that Rush was elsewhere at the time of the holdup.

Iowa Prepares Turkeys for the Nation to Gobble

ELLSWORTH, Iowa (AP)—From this self-proclaimed turkey capital of the world comes a strange sound about this time every year.

The "gobble gobble" is from a million and a half turkeys being processed for the Thanksgiving and Christmas dinner tables of the nation.

Fields near this central Iowa community are black with turkeys. Ellsworth — population 493 — is hiring more than 250 persons in its cooperative processing plant.

Farm trucks wait in line daily at the plant to unload. The turkeys are processed on an assembly line which takes an hour. The next step is a 36-hour freezing; then the birds are loaded into refrigerated trucks. Ninety per cent of the delivery is to seaboard cities.

HOW IT STARTED

The turkey industry here goes back to an Ellsworth boy in college in 1928. Ray Thompson decided to raise turkeys on his father's farm. His brother, Bill, joined the enterprise. They started with 50 birds.

Bill now operates a hatchery at Clifton, Tex. Ray is farm manager of the Ellsworth cooperative and raises 75,000 turkeys on his 960-acre farm.

"There is work to raising turkeys, and there are worry and losses," says farmer William Brinton.

"Weather is our worst enemy. Our neighbor lost 4,000 poult (young turkeys) a few years ago. A sudden 11-inch rain drowned them."

LARGE PLANT

The cooperative processing plant covers a city block and has a \$5-million yearly output. Iowa produces nearly 9 mil-

But Who Will Provide It?

Retarded Teens Need School

(EDITOR'S NOTE: This is the second in a two-part series concerning a special group of retarded children.)

By L. GARY THORNE
The job of providing for "graduates" of Oakland Schools' program for the type B mentally retarded is unassigned. The work seeks a worker.

Oakland Schools, formerly the Oakland County Intermediate School District, conducts a countywide special education program with revenue from a half-mill tax levy.

Included in this program, which now serves 14,800 little

clients, are provisions for type B mentally retarded children between 5 and 14 years of age.

The mentally retarded are divided for school purposes according to their degree of trainability. The type B child can be trained to a degree, but will always remain semidependent on someone.

VOID EXISTS
Beyond age 14 there is a void for the type B child.

County school officials are restricted by state statutes from expanding their program because a regulation stipulates

that no child over 14 can be housed in the same building with elementary school students.

Thus, Oakland Schools would have to build costly separate facilities to offer any program at all. This prospect has placed county school people in the position of the proverbial egg walker.

County School Supt. William J. Enterson said the type B program does not contemplate any program beyond age 14. He said if such youngsters were trainable they would be in type A rooms.

Emerson said that any such program for the over-14 type B child would constitute little more than day-care centers.

"In other words," he said, "the supposition is that everything will be tried on them (by age 14) . . . and you come to the end of your rope."

Dr. Paul F. Thams, special education director, takes the position that trainable type B youngsters need more than just the schooling process.

He points to social and vocational needs, emphasizing some sort of sheltered employment for these handicapped teenagers.

Who is to provide for these needs? Won't schools have a share in the responsibility?

LAW'S ANSWER?
Dr. Thams, who has headed the county special education program since it began in 1954, thinks the answer lies with recent state and federal mental health legislation.

He said that help for "graduates" of the Oakland Schools' program could be provided through day-care centers set up under new state statutes.

The educator explained that a year-round program for type B children could be a part of the proposed community mental health centers.

Dr. Thams said a joint program would be necessary. He expected that schools would still have a responsibility.

STILL ON PAPER
Day-care training centers, according to Dr. Thams, could better meet all the school, social and vocational needs of the trainable type B retarded.

Community mental health centers, as proposed by recent legislation, have not yet made the journey from paper to brick.

However, the legislation has been passed. Rules have been drawn up by the Michigan Department of Mental Health.

Inevitably the debate among school and mental health officials will commence.

Junior Editors Quiz on BIRDS

QUESTION: Do any birds have teeth?

ANSWER: At first glance, the Merganser, a kind of duck, seems to have teeth; but these are saw-toothed edges to his bill rather than real teeth. The Merganser uses them to strain his food when feeding underwater.

Birds do not have teeth because they do not chew their food as we do but swallow it whole. Various birds do have most ingenious bills which help them to feed.

The heron's bill acts as a long sharp spear by which he can catch fish; the finch has a wide powerful bill useful in cracking seeds and nuts; the hawk's bill serves as a knife and fork with which he can cut his food into pieces.

Scientists tell us that the strange creatures from birds descended actually did have real teeth. We illustrate one of these, called "Archæornis." Notice the lizard-like head, the long tail and claws on the bend of the wings. The scientists base their knowledge of these on fossil prints found in rocks.

FOR YOU TO DO: Watch some birds around your house or in a park and study them to find out how they use their bills as tools. You will realize that next to his wings, a bird's bill is his most valuable possession.

\$100 Million

Christmas Tree Record

WASHINGTON (AP)—Christmas trees will sparkle in American homes in record numbers this year.

All signs point to a new production high—35 million trees cut and sold. To them will be added about 10 million Canadian imports. Americans will pay an estimated \$100 million for the trees—a record.

Last year Americans paid \$96 million for 33.3 million trees produced in the United States.

"There's no significant increase in price this year," A. M. Sowder, the Christmas tree expert in the U. S. Forest Service, said in an interview.

For the fathers across the land who take the children in hand and go down to the corner lot to buy the family's Christmas tree, there are 30 species for choosing.

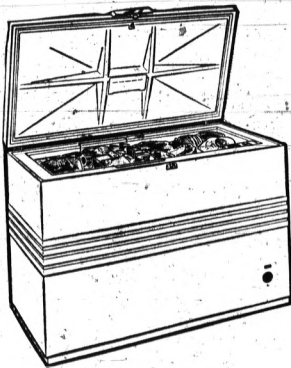

Last year the favorite choice was Scotch pine, replacing Douglas fir, which topped the list in the last previous survey in 1960.

Scotch pine led with more than 7 million to make up 21 per cent of the market in 1962. Douglas fir was second with 20 per cent; balsam third with 15 per cent; red or Norway pine, 10 per cent; and Eastern red cedar 7 per cent.

Behind the top five came white spruce, black spruce, white fir, Norway spruce and the whites pines.

New Section of I-94 to Open in Michigan

LANSING (AP)—The State Highway Department plans to open 33 miles of Interstate 94 between the Metropolitan Parkway southwest of Mount Clemens and U.S. 25 west of Marysville next Wednesday.

Officials from Macomb and St. Clair counties and the U.S.

Bureau of Public Roads will join state Highway Commissioner John Mackie in brief opening ceremonies at the Macomb-St. Clair County line.

Injuries Kill Woman

KALAMAZOO (AP)—Mrs. Tillie Will, 71, of Kalamazoo, died yesterday of injuries received in a two-car collision Wednesday in Kalamazoo.

'Need Spiritual Aid From Private Units'

NEW YORK (AP)—Private institutions must help provide spiritual strength for the nation now that the U.S. Supreme Court has banned required religious exercises in public schools, says ex-President Dwight D. Eisenhower.

Eisenhower spoke at a dinner at Columbia, where he was awarded the Alexander Hamilton medal by the Association of the Alumni of Columbia College. "As long as we have the kind of institutions we have in Columbia (university), of the highest intellectual standards, I think God they have equal concern for the spiritual and moral side of students and mankind," he said.

U.N. Designates 1965 for World Cooperation

UNITED NATIONS, N.Y. (AP)—The U.N. General Assembly unanimously decided Thursday night to designate 1965, the 20th anniversary of the United Nations, as International Cooperation Year.

The 111-nation assembly approved by acclamation a resolu-

tion calling on member states to cooperate in all fields in 1965. The draft sets up a 12-nation committee to coordinate plans for the year.

U.S. Business Studies Shift in World Trade Habits

By DARDEN CHAMBLISS
AP Business News Writer
NEW YORK—American businessmen are taking a new and colder look at international commerce prospects.

They speak of a drastic turnabout in the last few months.
The European Common Market, many say, has turned sour. So has the hope that trade

ties will produce a political United States of Europe to stand solid against communism.
And now the Communists are holding out their own prospects

of trade, grain so far but may be other goods later.
BUSINESS UNCERTAIN
Businessmen questioned during a cross-country tour to sample the nation's business mood say they're not quite certain what to make of all this.

"It's quite a switch," says Robert Keith, executive vice president of the Pillsbury Co. in Minneapolis. "We have to be on our toes if we're to come out again."

Keith says the United States must do all it can to revive prospects for free world trade, at the same time making the most of any Communist offers.

These comments came on the eve of meetings to lay the groundwork for a new round of international tariff negotiations made possible by the U.S. Trade Expansion Act of 1962. They come also at a time when the U.S. disputes rage over several products, especially farm goods.

CONTRAST IN MOOD
The mood in this country contrasts with talk a year ago, when excitement over the Common Market was at a high pitch. Businessmen saw that six-nation union—France, Germany, Italy, Belgium, The Netherlands, Luxembourg—as a beguiling market for American goods and a strong partner in Atlantic commerce.

They also saw it as expanding to embrace Britain and most other European nations in a United States of Europe.

President Malcolm Bryan of Atlanta's Federal Reserve Bank said, "I'm afraid we're going to find the Common Market paralyzing of nationalism, or continentalism more and more."

The chicken war—the battle over poultry tariffs—opened our eyes to several real problems," says Conrad Jameson, vice president of the Security First National Bank of Los Angeles.

OWN ENDS
"We should realize that fundamentally, the Common Market was set up to serve its own ends."

That realization, however, is the first step toward reviving trade hopes, says a Dallas banker.

"We were expecting too much," he says. "Those countries aren't going to abandon their nationalism overnight, especially not France, which has just spent seven years fighting a nationalistic war in Algeria."

Negotiations that take such things into account, he says, have far more chance of success than talks based on the rosy picture that prevailed before.

TRADE INCREASE
Trade barriers may not tumble as fast as had been hoped, but "it's still to their advantage as well as ours to increase trade," he said.

Lynn Townsend, president of Chrysler Corp., said, "The Common Market will eventually

come into real being. I expect to see freer and freer trade."

The internationalization of commerce, both as to direct exports and to overseas plants, is the predominant trend today, he said.

Others agree that American business should continue in that direction, whether trade hits smooth-sailing or rough. There was little support for a return to the high-tariff thinking of the past.

ONE BIG MARKET
"You can't solve anything by retaliation," said President Howard Johnson of Atlantic Steel Co. in Atlanta. "The world is going to be one big marketplace and the country that offers the most for the money is going to get the business."

Broadened trade with the Communist countries is all but inevitable if political relations improve, says John J. McDonough of Atlanta, board chairman of Georgia Power Co.

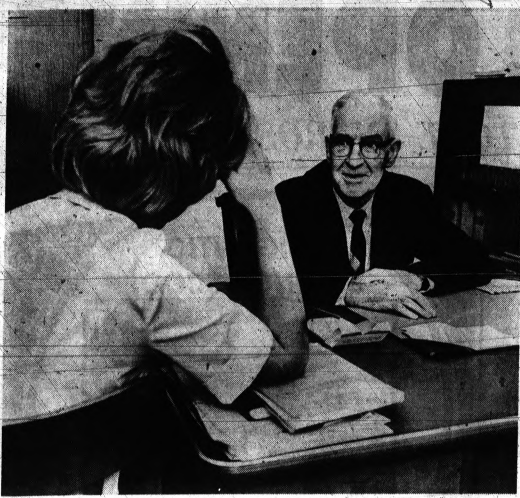

"If we start getting along with these fellows," McDonough says, "it won't be long before we'll start doing business to both of our advantage."

William Wallbach, president of Boston Safe Deposit and Trust Co., says helping Russia's economy could be a wise move because "the higher standard of living they have, the less likely they are to embark on some military adventure."

INSTEAD OF PRISON—First offenders usually get a chat with Oakland County's Chief probation officer, Arthur P. McKenna, (right) or one of his staff. They get sympathetic help while on probation, but must observe obligations and restrictions to avoid a trip to prison.

Probation Steers Criminal Back to Useful Existence

By JIM DYGERT
"It's coddling criminals," say critics of the probation system. "It encourages crime," they charge, pointing a finger at the habit most judges have of putting first offenders on probation instead of in prison. "They know they'll get off easy."

On the contrary, replies Oakland County's chief probation officer, Arthur P. McKenna.

"Probation is not only the most humane way of dealing with crime, it's also one of the best means to help reduce it."

McKenna has some impressive statistics to back him up. Nearly 90 per cent of his probationers do not fall back into crime.

"Many crimes are committed by the occasional offender," says Clarence Simuel, 34, of 433 N. East Blvd., one of nine probation officers on McKenna's staff.

"It's something contradictory to the rest of their lives," Simuel says, "and they appreciate getting another chance."

According to McKenna, many say, "You won't see us again."

THANKS FOR HELP
Some who do return, however, are welcome.

"It makes you feel good to have one come back years later, shake your hand and thank you for helping them," says McKenna, who had headed the county's Circuit Court probation department since 1948.

Sending the first offender to prison, authorities have come to agree, is like sending him to a school of crime where the inmate teachers know their subject all too well.

WARPED ATTITUDE
Warped advice from veteran convicts combined with resentment toward imprisonment can nullify rehabilitation efforts—twist what may have been only youthful rebelliousness into a hardened criminal hatred of society.

them a job," says Simuel, "but we're not able to give them as much help as we would like."

FINISH SCHOOL
"If they haven't finished school, we try to get them to get a high school diploma," he adds.

McKenna's men also try to help probationers with family problems, he says.

Control is as crucial a part of the system as help. The probationer has to check in at least once a month with his assigned probation officer.

TIME LIMITATION
But time limitations are among the office's most frustrating problems, despite its growth from two men to 10 since 1948. Simuel now has 78 probationers, once had 105.

About half the staff's time is spent in presentence investigations required by law. They talk to the guilty party, his family, his associates and police.

The information gained on the defendant's background and the circumstances of the crime goes into a report that includes a sentencing recommendation.

Most difficult part of the job, Whelstone says, "is convincing them you're sincerely trying to help. It's difficult to be both a

big brother and an enforcer who represents authority."

ADMIT ERROR
First goal is getting them to admit they were wrong. "Some feel they're not really guilty," says Whelstone, "like the kid who sits outside in a car while someone else actually commits the burglary. And sometimes their parents agree with them."

"If we can get them past the first six months, though," says McKenna, "they usually don't slip back."

The next step is rebuilding their self-confidence. "It looks like they're down on everyone else, but actually they're down on themselves," Simuel says.

PRISON POSSIBLE
Probation does not entirely rescue an offender from prison. Violating the terms of probation can put the probationer behind bars.

Breaking a law is but one of several ways to violate probation under state law.

There's also failure to report as scheduled or to pay court costs and restitution, and leaving the state without permission.

The probation department also imposes additional restrictions against interperate drinking and antisocial conduct, and sometimes attaches special conditions, such as a curfew.

But early this year France vetoed Britain's petition for entry. The other members quarreled on several issues. Levies against American poultry were raised and America readied tariff reprisals.

There's a trace of bitterness in some of the reactions heard now.

SLAMMED DOOR
"We paid millions of taxpayers' dollars to get these countries back on their feet, and then they shut the door in our face," say Gov. Carl E. Sanders of Georgia, a state big in poultry production.

President Thomas Moses of Investors Diversified Services of Minneapolis said "the Common Market is just the old tariff union with a high-sounding name. They will have to be persuaded to let their tariffs down; they won't do it otherwise."

Author Philip Wylie Suffers Shock in Fire

RUSHFORD, N.Y. (AP)—Author Philip Wylie suffered smoke inhalation and shock when fire destroyed a wing of his summer home in Rushford, N.Y. He was treated by a doctor and taken to the home of a relative.

The 61-year-old novelist and essayist ("Generation of Vipers," "Opus 21," etc.) was found lying in a hall by firemen. He was alone. Cause of the fire hasn't been determined.

Tennessee Lawyers Oppose Edwards' Court Post

Of the 40 million tons of sugar produced annually, 65 per cent comes from cane and 35 per cent from sugar beets.

PONTIAC MALL OPTICAL CENTER

Open Evenings 'til 8:30 P.M. 692-1112

Thatcher, Patterson and Wernet INSURANCE

WASHINGTON (U-P) — A Senate Judiciary subcommittee ended hearings yesterday on the nomination of George C. Edwards, Detroit police commissioner, for the 6th U.S. Circuit Court of Appeals, after listening to opposition from four Tennessee lawyers.

Chairman Sam Ervin, D-N.C., of the subcommittee said he planned no further hearings but will keep the record open for five days for submission of any additional written evidence.

With Edwards in the room, the four Tennessee lawyers, representing bar associations in the state, sounded their opposition to Edwards. The nominee resigned from the Michigan Supreme Court last year to become Detroit police commissioner.

OWN TESTIMONY

The opposition stemmed chiefly from testimony Edwards gave

about himself at an earlier hearing.

Edwards said then that some 30 years ago he had been arrested in Ft. Smith, Ark., for leading a demonstration of employees of the old Depression-era Works Progress Administration; that he belonged to a student union group later declared a Communist-front organization; and had participated in a sit-in strike in Detroit in violation of a court order. In the latter

case, he was fined and given a jail term.

Subsequently, Edwards attended law school, was admitted to the Michigan bar, served on the Detroit City Council, was a Probate Judge, a Circuit Court judge and sat for six years on the Michigan Supreme Court bench.

S. Shepard Tate, president of the Tennessee Bar Association, said his group felt that Edwards' admissions of his past

activities "would show a disqualification for this high judicial office and would create in the public mind and in the bar a lack of confidence in the courts of the United States."

OTHER OPPOSITION

Opposing Edwards on similar grounds were Dick Landen, president of the Nashville Bar Association; Thomas Crutchfield, president of the Chattanooga Bar Association; and Sen. Philip A. Hart; D-Mich., introduced for the record some

of the many opinions Edwards had written as a State Supreme Court justice.

Sen. Olin Johnston, D-S.C., a member of the subcommittee, commented he could not condemn a man for what he might have done as a young man in his "nebulous" stage.

More than 750,000 Americans have rheumatic fever or its common complication of rheumatic heart disease, statistics show.

Plan Approved in Waterford

Crary Addition Gets School Board Okay

The final plan for the proposed addition to Crary Junior High School was approved last night by the Waterford Township Board of Education.

Construction bids on the estimated \$425,000 project will be opened Dec. 11 and contracts will be awarded at the Dec. 12 board meeting.

Designed by Smith & Smith Associates, architects, the addition will boost student capacity from the present 1,000 to 1,500. Completion is slated prior to next September.

The school addition is a part of the school district's \$4.25-million building program approved last June at the polls.

OTHER BUSINESS
In other business at the regular school board meeting, members approved the borrowing of \$200,000 against anticipated state aid to meet operating expenses.

The school system paid an interest rate of 1.50 per cent on its last loan against state aid.

Dr. Marshall Jameson, who assumed duties as elementary coordinator for the school district Nov. 4, told board members that he was well pleased with the elementary program, the school personnel and the vigorous parental participation in school affairs.

Presenting his views to the board under the curriculum report category on the agenda, Marshall said he already had visited all 24 elementary schools in the system.

BOILER POLICY
In other business the board voted to renew the school district's boiler insurance for a 3-year period beginning Nov. 30.

Cost of the insurance coverage which specifies \$500,000 per steam boiler location and \$10,000 for hot water system boilers is \$5,624.91.

Board members also approved new teacher contracts and authorized three leaves of absence for teachers.

Man Slays 4, Then Kills Self

TRUMANN, Ark. (U-A) — A farmer beset with family problems ended his step-daughter's killing birthday celebration by slitting her, three other members of his family and himself in a drunken rage last night.

Part of the birthday cake was still on the kitchen table, along with an empty whiskey bottle, when officers charged the house after being called by the child's grandfather.

Sheriff Ray Holmes said Sammy Penters, 34, killed his wife, Wanda, 35, his step-daughter Belinda Gairhan, 6, his mother-in-law, Mrs. W. J. Byrd, 63, and his sister-in-law Mrs. Jimmy Moon, 31.

Holmes said Penters killed his wife and Belinda first, then called Mrs. Byrd and Mrs. Moon to the house and shot them dead with a .30 caliber rifle as they walked in. Penters then called his father-in-law, W. J. Byrd, to the house, but Byrd brought two Trumann policemen.

They opened the door; saw the bodies, heard the click of the safety catch on the rifle and ran. A few minutes later, right after midnight, Penters ended the two-hour killing spree by putting a .22 caliber pistol under his chin and ending his life.

Can't Get Off Ground?
So, Who Wants To?

COLUMBUS, Ohio (U-A) — That taunt "you'll never get off the ground" would disturb a group of aerospace research specialists who gathered here recently.

The conference, sponsored by the American Institute of Aeronautics and Astronautics, dealt with flight simulators — equipment which can be used to duplicate flight conditions and problems without actually leaving the ground.

Temperatures at the North Pole are often more moderate than those which prevail in Siberia.

AP Photos

CROWN SOLD — The jewel-studded crown of the Andes, which graced the Virgin of Popayan Cathedral in Colombia for three centuries, was sold in Sothebys auction house

in London yesterday. The crown, weighing nearly six pounds and studded with 453 emeralds weighing 1,251 carats, was sold to the Amsterdam firm of Asschers for \$154,000.

Pontiac School Affairs

Parents Give Their Opinions

School Supt. Dana P. Whitmer presented to the Pontiac school board last night preliminary results of a parents' questionnaire included in the annual school report distributed by The Pontiac Press Nov. 11.

Some 1,129 questionnaires from 18 schools have been returned to date. Whitmer expects the total to exceed 2,000.

Most of the questions referred to new teaching techniques or new specialized services that might become available in the future.

Parents could reply to the questions about future school services and programs by checking yes, undecided or no.

READING HELP
In the returns so far, parents voted 1,015-58-49 on the question of specialized reading teachers in elementary schools. The teachers would aid children who have difficulty in learning to read.

Pontiac parents voted 270-296-575 on a proposal to lengthen the school year from 180 to 190 days.

Whitmer emphasized that the questions were presented merely as ideas.

The question of paying for these was not raised," he added.

HIGHER SALARIES
On the question of higher

teacher salaries, the vote was 741-276-87. A related question that local teachers' salaries should be "better-than-average in the Metropolitan Detroit area" received a 771-290-56 vote.

Parents voted 981-72-76 on a proposal that class sizes for grades 1 and 2 be reduced from 30 to 25 children.

The vote, 943-218-52, was favorable on the purchasing of new kinds of specialized equipment to teach vocational skills, while new educational equipment for junior and senior high schools was favored 746-281-90.

More library books and trained librarians in elementary schools was solidly supported 981-72-76 in the first returns.

MORE COUNSELING
A proposal that guidance counselors in high schools give more time to individual students by reducing from 350 to 300 the number of students per counselor was backed 866-158-90.

Whitmer said the results so far indicate that a large number of parents were willing to sit down and think about the future of schools.

In other business last night, the school board heard an audit report on the district's 1962-63 budget, which ended June 30.

The audit showed the school

pervisor of the deaf program to advise the parents.

The Lost Decibels represent 95 deaf and hard-of-hearing youngsters.

The school board also set Dec. 5 and 19 as meeting dates for the month of December. The board normally meets on the second and fourth Thursdays of the month.

The Christmas holidays forced the change.

Tenure Drive to Conclude in Waterford

The Waterford Education Association will conclude its petition drive for a change in the state teacher tenure act tomorrow afternoon by visiting shopping centers and other populated areas.

Nearly 100 teachers are expected to participate in the effort to surpass the association's quota of 2,700 signatures, 500 more than the 2,200 acquired to date.

The Michigan Education Association seeks 300,000 signatures statewide to get the State Legislature to change the tenure act from its present optional basis. The act allows tenure, but it is optional with the individual school districts.

Cricket Cacophony
Sing It Sweet, Jiminy

ANN ARBOR (U-A) — Crickets can sing only six songs—all romantic, two University of Michigan researchers say.

The studies of Drs. Richard D. Alexander and Thomas E. Moore suggest this cricket hit parade:

The recognition song—"I See You're a Cricket, Too."

The calling song—"Give Me Your Phone Number."

The courtship song—"Some Wine With Your Steak?"

The courtship interruption song—"Mama Says Not to See You Any More."

The aggressive song—"Aw, Come On."

The post-romance song—"Oh, I May Go Away for a Year or Two."

Alexander has taped 250 cricket songs. The songs are produced when a cricket scrapes an edge of one forewing across small, file-like teeth on the other forewing.

Roads Group Wants Change

May Pass Petitions on Funds, Officials

LANSING (U-A) — The Michigan Good Roads Federation, is thinking of circulating petitions seeking a change of the new state constitution as it affects highway funds and administration.

An exploration of the proposal to ask the voters to amend the constitution on two counts has been authorized by the federation board of directors, executive secretary Don Potter reported.

"We want to explore the procedures, figure out if we could raise enough money and then make a decision," said Potter.

The federation would like to see a voter decision on two issues.

• The reservation of gas and weight taxes for highway purposes only.

• The continuance of election of a state highway commissioner.

Under the new state constitution, the legislature can decide where the gas and weight tax money goes. It could be used for such purposes as state police traffic patrol or maintenance of a research center to study highway deaths and causes.

TO BE APPOINTED
The highway chief would be appointed rather than elected under the constitution.

Potter said the final decision has not yet been made. It would cost up to \$250,000, he estimated, and require the collection of at least 300,000 signatures to put the issues on the ballot.

"The constitution itself passed by less than one per cent of the total vote," Potter said. "We want to see if there is enough support to change these two provisions."

If the petitions were successfully circulated, Potter said, the issues might be placed on the ballot of November, 1964.

TECHNICALITIES
"We are not even sure of the legal technicalities," Potter admitted. "We are checking those out also."

The vote by the federation, made up of private groups interested in road-building, was 19-11 in favor of the project.

Lake Fisheries Aided by Hart

WASHINGTON (U-Sen. Philip A. Hart, D-Mich., took a legal step designed to help get the Great Lakes fishing industry back on its feet yesterday after its sales fell because of recent deaths from botulism poisoning in smoked whitefish.

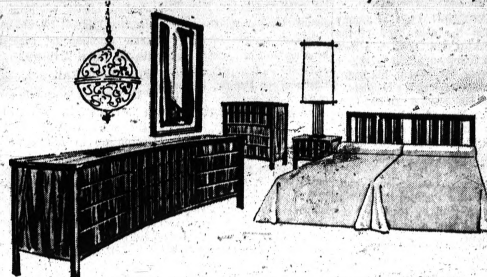

Hart sponsored an amendment of disaster loans, to a small business bill.

The bill, approved by the Senate and sent to the House, would make special disaster loans available to small companies seeking to re-establish their businesses after suffering substantial economic injury as a result of inability "to process and market a product for human consumption because of disease or toxicity occurring in such product through natural or undetermined causes."

Less than 2.5 per cent of Americans over 14 years can not read or write any language. Most are in the older age groups.

Retiring General

Red Cross Chief: Humanitarian

By MALCOLM BARR
HONOLULU (AP) — Jimmy Collins, the next head of the American Red Cross, is a New York Irishman with a twinkle in his eyes, kindness in his heart, and four stars on his epaulets.

The four stars make him Gen. James Francis Collins, son of Irish immigrant parents who settled in New York City where Collins was born in 1905.

Collins, commander-in-chief, U.S. Army Pacific, and No. 1 military man by rank and seniority among the various headquarters staffs in Hawaii, will

GEN. COLLINS

become president of the American Red Cross next April on the retirement of Gen. Alfred Gruenther. His headquarters will be in New York.

"He's going to be a hard man to follow — a tremendous man," said Collins, who has known Gruenther many years. Collins retires from the Army in March, 1964.

JUST THE MAN

Officers who work close to Collins, 58, at Ft. Shafter, near Honolulu, think he will be just the man for the job.

"He's quiet, efficient and sensitive. He's always looking out for others," said one of them.

He's never been a member of the Red Cross and never has been closer to it than any other soldier.

"Too many of us take the Red Cross for granted," said Collins. "All those hundreds of thousands of people helping one another and helping mankind. And most of them are volunteers, you know."

HUMANITARIAN

Collins is a self-described humanitarian.

"I always try to put myself in the shoes of the man who is receiving what I'm dishing out," he said.

But this doesn't mean he is a soft touch.

"You soon know when he's displeased. He lets you know, but quietly. And he won't tolerate inefficiency," said a member of his staff.

NO PHONES

Should the general want to question anything, he'll usually walk to the office of the man concerned. His pet hate around

Now You Can Have Musical Fun

Lowrey EXTRA BENCH
Starlet organ

You play pleasing melodies right from the start! Beginners, children, adults—everyone can play right away! It's so easy on a Lowrey... and so easy to own! The Starlet brings you Lowrey's glorious organ voices—plus many exciting and unique effects!

ONLY 99 DOWN & LESS THAN \$4 A WEEK

his quarters is the interoffice communications system.

Collins prides himself on knowing most of his subordinate commanders throughout the Far East and the Pacific. He's also made it his business to get to know military men of foreign nations.

The general entered the Army as a career officer via West Point in 1927. One of his first assignments — in 1930 — was to Schofield Barracks, which is about 23 miles from his present headquarters. There, he met his wife, the former Marian A. McLaughlin, daughter of an army colonel. Their daughter, Patricia Bowman, is married to an Army captain.

He returned to Schofield in 1938 but left before Pearl Harbor day — to be assigned to duty with the 1st Corps which fought through the Papuan, New Guin-

ea and Luzon campaigns. In January 1945 — at 39 — Collins became commanding general of the 1st Corps Artillery.

FULL GENERAL

He reverted in rank to colonel a year later, but retrieved his first star in July 1951, and moved up to full general in April 1961.

He was selected for the National War College in 1947, and later became executive to Mrs. Anna Rosenberg, assistant secretary of defense for manpower and personnel.

In 1954 he was named commanding general of the U.S. Army, Alaska.

As for retiring, Collins admits he's a victim of his own doing. He has advocated early retirement to make room for the "young fellows" and he says he, too, must move over.

Senate Approves Atom Test Funds

WASHINGTON (UPI) — The Senate approved an extra \$17.9 million yesterday for expansion of atomic testing facilities to maintain readiness and guard against any violation of the nuclear test-ban treaty.

The bill authorizes the Atomic Energy Commission (AEC) to finance projects at four existing sites at Los Alamos and Sandia, N.M., Livermore, Calif., and the Nevada testing grounds.

It also approves the transfer of \$110 million in funds already given the AEC for other purposes.

WSU Accepts Grants

DETROIT (AP) — Wayne State University's Board of Governors yesterday accepted \$66,400 in gifts and grants, including \$257,242 from the United States Public Health Service.

Stockholder Politico Is No Favorite Son

MILWAUKEE (AP) — Two leading Wisconsin Republicans say they think Rep. John W. Byrnes will skip a bid to become a favorite son candidate for the presidential nomination in the state's 1964 primary because of his dealings with a company whose stock recorded fabulous profits.

Byrnes would say only that, "I have never said I would be a favorite son."

Rep. Melvin Laird, R-Wis., leader of the favorite son drive, said he did not think Byrnes had suffered a political decline.

Warren P. Knowles, so far unchallenged for the Republican nomination for governor, said he did not think Byrnes would want to make the race in the April 7 primary because it would leave him open to continued criticism. And the Republican national committeeman, Robert Pierce, said "Maybe he is sick of this publicity and

would say 'go to Hell' rather than go through it and through it and through it."

DEFENDS PURCHASE

In a House speech Thursday, Byrnes, 50, defended his purchase of stock in the Milwaukee-based Mortgage Guaranty Insurance Corp. Senate investigators are looking into reports that the same stock may have provided the foundation for the fortune amassed by Robert G.

Baker, former secretary of the Senate Democratic majority. Byrnes, senior Republican on the tax-writing House Ways and Means Committee, purchased Mortgage Guaranty stock after he had helped the company obtain a favorable tax ruling in 1960. He invested about \$2,300. His investment now is worth \$23,000.

"As far as I was concerned, the purchase had nothing to do

with the tax matter," said Byrnes in a voice that sometimes trembled. He said that he would sell the stock and donate the profits to a scholarship fund.

Keeps Fires Burning for Beauty

By MADELEINE DOEREN
It takes four electric kilns in her home studio on Voorhees Road to keep pace with Mrs. Philip J. Wargelin's china-painting classes.

Because of close attention to the principles of design, composition and color that only a former art teacher can give, the five classes are limited to six persons each. They come from within a 50-mile radius of Pontiac four days a week.

"Since the renaissance of china decorating as an art form, some 600 Oakland County residents find this a relaxing and a rewarding hobby," says Mrs. Wargelin.

"Given a graphite pencil and a piece of porcelain, it

is amazing what latent talents develop."

FREELAND SKETCH

After the freeland design is sketched and painted with mineral-base color, the piece is given a first firing, then retouched and, given subsequent firings and retouchings until the colors are developed to the artist's liking.

China decorating has come out of the dining-room and is found in almost any room in the house. Decorative powder-boxes and lipstick holders' grace milady's boudoir and she may wear pendants and earrings.

"The real devotees of china-painting do not give their work away with abandon but often send them on a 'sentimental journey' for a future bride,

a birthday or special occasion gift."

The late George Leykauf, artist in the famed Meissen factories in his native Dresden, Germany, used his art to create a handsome umbrella stand, now part of Mrs. Wargelin's collection of china and glass.

Mrs. Wargelin who taught art in Flint before her marriage

holds a bachelor of science degree from Eastern Michigan University and took her fifth year work in special education for 'crippled' children.

She studied art with Mrs. Emma Leykauf, Begun, of Wolverine Lake, niece of the late Mr. Leykauf, and took water color with Nora Luce and china painting from Mrs.

Winifred Brase. Both are Detroit teachers.

Rare pieces of Finnish, Danish and Swedish glass brought from trips abroad and from antique-shopping are displayed in two specially-built 6x9 shelved windows in the Wargelin studio.

While not especially a joiner," Mrs. Wargelin enjoys her affiliation with the Interna-

tional China Painting Teachers Organization (ICPTO), the Michigan China Painting Teacher's Association and the China Decorators' Guild of Walled Lake.

TRAVELS

In 1962, Mrs. Wargelin attended the ICPTO convention in Dallas and in Long Beach, Calif.

She exhibited china and demonstrated painting technique at the Midwest Regional China Painting Convention in Toledo and attended the Indiana convention at South Bend. She also entered several pieces for the Wacky Mountain Regional China Painting Convention in Denver this past summer.

This year, she participated in the convention in Oklahoma City where her son Philip is an architect with the city planning department. He has two daughters.

Philip's twin brother John teaches art with the Grosse Pointe School System. He has a son, which adds up to three grandchildren for the Wargelins. Daughter Carol Grace is a junior in the school of music at University of Michigan. Mr. Wargelin who is Pontiac Northern High School principal, shares his wife's enthusiasm for an absorbing hobby but thinks "she could help a bit more with the yard work."

Class Marks Anniversary

The graduating class of 1938 of St. Frederick High School is celebrating its 25th anniversary date with a smorgasbord Saturday evening at Airway Lounge.

Paul Cosgrove of Edgefield Drive, class president, has held numerous planning meetings for the reunion.

A brief meeting will be held followed by informal visiting. All members are urged to attend the dinner or come for the visiting following. Last minute contacts may be made by contacting Mr. Cosgrove.

Inca Terry Cloth

The Incas of Peru in 400 A.D. wore terry poncho shirts which closely resemble a rough terry towel.

Yellow iris brightens this cylindrical vase in Mrs. Wargelin's exhibit at a teachers' china painting show at Long Beach, Calif. in August 1962.

Grease Spot Inspires New Gold Apron

One spot of grease dropped on a pair of red silk slacks while the glamour cook prepared dinner—and an idea was born. The result is a versatile apron made of a gold-colored synthetic fabric which looks like fine leather.

It is designed strictly for the hostess who can't just stay in the living room when there are guests and let a household staff take care of the dinner.

Irma Shorell, a petite blonde in her 30's, created the elongated apron—it reaches well below the knees where she got that cooking spot.

She's the same young business tycoon who's boss of Shorell Laboratories, Inc., marketing a skin cream which her father, a plastic surgeon, originally created for post-operative use by his patients.

That apron comes with detachable bib, and a snap-shot pocket "to keep your diamonds out of the soup," as Miss Shorell said. Optional are matching snap-on cuffs to protect the cook working in long sleeves.

If you would like the booklet entitled, "Manners in Public," send ten cents in coin and a self-addressed, stamped envelope to the Emily Post Institute, in care of The Pontiac Press.

Exchange of Gift by Bride Is OK

By The Emily Post Institute
Q: A coffee table sent to me for a wedding present by a relative is lovely but it is completely out of keeping with the rest of my furnishings.

May I take it back to the store and exchange it for another? I don't want to hurt my relative's feelings, but I can't see spilling my whole room because of it.

Will you please come to the rescue?

A: I see no reason why you should spoil the appearance of your room because of this table and I'm sure your relative would not want you to do so.

If you explain to her that the lovely table she sent you unfortunately does not go with your other furnishings, she will understand and not feel hurt if you ask her if she would mind your exchanging it for another.

Q: Two of the young men I have asked to be ushers at my wedding and the best man are from out of town. I know I am expected to put them up at a hotel and pay for their lodging.

I would like to know if I am also expected to pay for their meals, or do they take care of this expense themselves?

A: You should pay for any meals they have to eat at the hotel.

Q: Our son was christened John Paul Jones 3rd. His grandfather is John Paul Jones and his uncle, John Paul Jones Jr.

A friend of mine has informed me that our son should be 2nd instead of 3rd. Will you please tell me what is correct?

A: Your friend is right. Correctly, your son is 2nd and not 3rd. A son of John Paul Jones Jr. would be 3rd.

The Emily Post Institute offers readers booklets on a variety of subjects concerning etiquette.

If you would like the booklet entitled, "Manners in Public," send ten cents in coin and a self-addressed, stamped envelope to the Emily Post Institute, in care of The Pontiac Press.

Women's Section

Dean Probes Education at Study Club Meeting

Dr. Lowell Eklund, associate dean for continuing education at Oakland University, was keynote speaker during the luncheon period of the Tuesday meeting of the Junior Child Study Club. The group met at OU and took a tour of the campus.

"Today, education is man's

most urgent enterprise. In the words of Immanuel Kant, 'Man is what his education makes him'. Thus his education is by necessity lifelong," said Dr. Eklund.

"Universities and colleges can no longer presume to teach young people answers to problems they will encounter five to ten years hence. They don't even know what the problems will be, to say nothing of the answers," he continued.

"By the same yardstick, adults cannot cope with modern day problems and demands with an education that verily has as one of its inbuilt obsolescence. We must destroy the American myth by which as John Mason Brown declares 'We expect the skin of a dead sheep to keep the mind alive forever.'"

"It is for this reason and many more that Oakland University academic functions, continuing education for adults," Dr. Eklund concluded.

New members of the club are Mrs. Ira G. Cail and Mrs. Jack Ricks.

The club will meet at the Village Women's Club of Birmingham for their annual Christmas luncheon Dec. 27.

Start Stuffing Santas Now

It's none too early to start making stuffed "Santa" gifts from an ingenious fabric sold by the yard.

Along with a colorful Santa—back and front view—directions for cutting, stitching, and stuffing this toy are printed right on smooth white cotton. Even a novice seamstress will get praiseworthy results with the help of this new washable fabric—which yields two 18" tall Santas per yard.

Hotel Soap U. S. Specialty

An official U. S. Government tourist guide, prepared for visitors to the United States, explains that soap is furnished without charge in hotel rooms and public rest rooms everywhere.

This cleanliness courtesy—which we "natives" take for granted—comes as a welcome surprise to foreign guests who are unaccustomed to the luxury of readily available soap.

Expect Relatives

Mr. and Mrs. Edward Maier of Illinois Avenue are expecting their daughter and son-in-law from Wellston, Ohio this weekend when they arrive for the Michigan University, Ohio State football game.

Mr. and Mrs. Henry S. Willard will bring their children Nancy, Henry and Simon.

Pontiac Press Photos

The California publisher of "The China Decorator" chose for his September cover page a water-color picture of a clematis done by Mrs.

Philip J. Wargelin of Voorhees Road. In the background are finished pieces and porcelain dishes to be decorated by her china-painting class.

A Smoke Is a Smoke

His Test Proves Nothing

By ABIGAIL VAN BUREN
DEAR ABBY: I have a 15-year-old son who smokes out to smoke. He has admitted it.

But he says he doesn't smoke cigarettes; he smokes a pipe because it isn't the tobacco that causes lung cancer, it's the paper.

He said his biology teacher proved to the class that this was true by burning the tobacco through a filter and then burning the paper through a filter.

The tobacco filter came out clear, while the paper stained the filter. Is this true? Thank you.

SMOKER'S MOM
DEAR MOM: No! I think your son's biology teacher has been watching too many commercials. Or your son is having "pipe" dreams.

DEAR ABBY: Has a marriage ever worked out when the man was once married to his second-wife's sister? That's my problem now.

My sister and "L" were married five years. She was 22 and "L" was 22. They had two darling children. "L" caught my sister running around on him and, after giving her several chances, he got fed up and divorced her.

His mother is raising the children. "L" and I have been together each other for three months and, Abby, we are terribly in love and want to get married.

When I told my parents, they hit the ceiling and said it would never work. My sister keeps running him down. Abby, he is a fine man and I love him.

I am 21 and he is 29. Can this marriage work?

IN LOVE
DEAR IN LOVE: Certainly. But prepare to choose between "L" and your family.

DEAR ABBY: My wife and I were in a downtown office building yesterday. We got into a very crowded elevator.

I couldn't get my arm up to reach my hat, so I just left it on. When it came time to get off I was near the elevator door, so I just stepped out ahead of the others, not noticing if I got out ahead of any ladies or not.

My wife chewed me out all the way on both counts, saying it was time I learned some manners. Well, Abby? If you're going to stick up for the women again, please toss this in the waste basket.

STAN
DEAR STAN: Your letter is going into the newspaper—not into the waste basket!

Nancy Elizabeth Greenhalgh, daughter of the J. Robert Greenhalghs of Ottawa Drive and Richard Harry Colby, son of the Leonard Colbys of Kalamazoo were wed Oct. 23 in Mason.

MRS. RICHARD HARRY COLBY

You were right on both counts! Common sense always precedes rule-of-thumb etiquette.

CONFIDENTIAL TO "BIG-HEARTED AL": Quit worrying. Worry is the interest you pay on a loan you'll probably never have to make.

By JEANMARIE ELKINS
"You have to learn to live with the knowledge that 90 per cent of the people you talk to are lying," Mrs. Pat Caronis spoke of one of the many difficulties in being a policeman.

"Most important of all, you have to keep your sense of humor and your sense of values."

Mrs. Caronis and Eleanor Logan, policemen for the City of Pontiac, spend their working days handling a variety of sordid details.

Their job is a taxing and unbelievably hard one. Yesterday's article in the Women's Section gave a small idea of the type of people with whom they are in constant contact.

TRIAL PERIOD
Miss Logan, who just recently completed her six-month trial period, has changed her outlook on many things during that time.

A period of depression is likely to set in after being on the job a few months and seeing nothing but the worst side of people. You must realize that these people represent a small percentage of the total population. They are not the 'average' citizens.

A policeman tends to become isolated from her friends and the rest of society. Her entire day is spent in talking to and about people with problems, REAL problems.

WHAT PROBLEM?
After listening to these people; it is hard to get interested in the problem of a friend who thinks her son's teacher is "picking on him."

She sees the same faults in her friends she sees in the people she interviews all day.

A policeman must have a working knowledge of psychology, law and procedure, not only for the city and coun-

ty, but in many cases for the state and nation.

Interviewing is an important technique. A good deal of time is spent talking with offenders, victims and the police.

Many hours are also spent talking to case workers, probation officers, judges, and attorneys.

Mrs. Caronis feels that dealing directly and honestly with people and their problems is the best treatment.

RESPECT INDIVIDUAL
"Show respect to a person, no matter what he has done, and he'll show respect for you."

Mrs. Caronis has been a policewoman for 11 years. Born in Detroit, she is now a resident of Birmingham and graduated from Bloomfield Hills High School where there were only six in the graduating class.

She attended Stephens College for Women in Columbia, Mo. and received a Bachelor of Arts degree in psychology at Michigan State University. Her police training was taken at the cadet-training program at the Pontiac City Police School.

She is married with one small child. Her husband, George Caronis, works for the city as a director of the youth assistance program.

ACADEMY GRADUATE
Eleanor Logan was the first woman graduate of the Metropolitan Police Academy which serves all Detroit area communities.

A graduate of Kentucky State College, she also attended the University of Detroit, majoring in economics and sociology.

Originally from Kentucky, Miss Logan is a certified Michigan teacher and taught in the Pontiac school system for five years.

Their Courage, Humor Help Community

Both women are well trained for their unusually difficult job. They must have an exceptionally stable character to withstand the terrific emotional strain under which they work.

Would you be willing to spend eight hours a day, five days a week, listening to other people's problems? Could you face each day knowing you might listen to a young girl testify in court to all the details of a rape and then

hear the defending attorney cross-examine her? It's not a pleasant task.

Would you walk into a home so filthy you needed a gas mask to stay in there a any length of time? Could you watch children being taken from their parents, see where they had been beaten?

Could you do all this and much more to make your community a better place in which to live? These two women do.

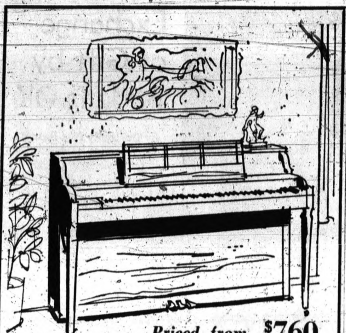

Framed in the cardboard backing used in the target range are the two policewomen for the City of Pontiac. From left they are Mrs. Pat Caronis and Eleanor Logan. They are the only two policewomen in all of Oakland County.

Jeanette Alexander designs a basic sheath in large checked rayon and silk. Elasticized waistline. A California design.

Drissy silk linen demitied sheath. Each shoulder accented with silk loops. Twelve colors. Available locally, about \$89.95.

Baldwin's new Transitional Acrosonic is simply styled to blend with changing decors, to grow with young families, and the price is agreeably modest. The warmth of Style 982 satin-finish wood tones is matched by the topmost tonal quality for which all Acrosonic pianos are named.

Open Friday and Monday Evenings 11-9 P.M.

Sister Doesn't Want to Raise Child Alone

By MARY FEELEY
Consultant in Money Management

Dear Miss Feeley:

I have a very perplexing problem and hope you can help me. Since July, we have had our 9-year-old niece living with us, because my sister and her husband have separated and my sister is unable to face the responsibility of raising a child alone. She is and always has been, very immature—even at 35.

The little girl is a darling child and very cooperative. My children—10, 14, and 17—have accepted her beautifully even though it is quite crowded with three girls in one bedroom. She has never known a normal childhood and seems so happy here; saying she wants to live with us forever!

The point is, we do not want to let her go. But my husband has been in and out of work for the last two years and the bills

have really mounted up. He wants this child as much as I do but financially it is getting almost impossible. My sister has been giving us \$5 a week and also pays for the child's lunch at school.

Incidentally, her father sends \$25 a week to my sister. Of this, \$10 goes to my mother who has taken my sister back home. My mother is a widow who lives very frugally due to necessity and my sister has just started to work. I don't know what her salary is, but I doubt that it is very high.

I would like to know what amount you feel would be fair to all concerned for the care of this child. I do know the \$5 does not go far, what with food, laundry, etc. In ordinary circumstances, I would never dream of taking any money but I feel I'm possibly depriving my own family in order to help my sister and niece. Any help you can give will be most appreciated.

Mrs. J.S., Cincinnati

Dear Mrs. S.:

I think you should ask for this minimum. Since your sister's husband is giving her \$25 a week, there would be \$15 a week left after she pays for her own room and board. Now that your sister is earning a salary, it seems to me this \$15 should go toward the support of your niece. Also, your sister should be able to add to it—at least up to a fourth of her income.

She may well have to make sacrifices if her salary is small. But that's only what you and your family have

been doing all these months. I think the least your sister can do is to tell you frankly just what she does make, so the two of you can work out the financial solution.

Don't give up the struggle, Mrs. S. Your niece has obviously discovered the precious warmth of family life in your home, and it would be sad indeed for the child to have to give it up. I believe you will all benefit if you can possibly work things out.

Dear Mary Feeley:

I would like to know if a bill that is over two years old can still be collected, and what court costs would be. Thank you for your answer.

Mrs. M. S., Round Lake, Ill.

Dear Mrs. S.:

A bill can be collected up to six years after it was originally due. So if you can't get a satisfactory settlement by voluntary agreement, you can take legal action through your lawyer. He will advise you as to procedure and court costs in this particular case.

JULIA MARIE POCS

Local Groups Meet

PARLIAMENTARY CLUB

The responsibilities of club members were demonstrated at the Wednesday meeting of the Parliamentary Study Club. Mrs. Charles Crawford directed the group giving the presentation. The meeting was held at the Pontiac Masonic Temple. The next meeting will be Dec. 4.

INSURANCE WOMEN

The Insurance Women of Pontiac held their monthly dinner meeting Wednesday

METHODIST SOCIETY

"Our American Heritage" will be discussed by Mrs. Harry Going at the Tuesday gathering of the General Meeting of the Woman's Society of the Christian Church of First Methodist Church.

METHODIST SOCIETY

The meeting will start with a noon luncheon served by the Pearl Baxter Circle.

MACEADAY EXTENSION

The Maceaday Gardens Extension Study Group will hold its annual Christmas party at Alpine Inn Dec. 16. The party will feature a gift exchange of hand made articles. Gladys Silverthorn of Detroit will be a guest.

WCTU Talks of Organization

The Anna Gordon Women's Christian Temperance Union discussed reorganization plans of districts at their Tuesday meeting at the First Baptist Church.

Mrs. E. C. McNair and Mrs. Hazel Lilleyman will be on the decoration committee for the Christmas program. Mrs. Nellie Monroe gave the devotions.

Section Meets for Last Time During Holiday

The final meeting before the holiday season was held by the Queen Mary section of Needlework Guild of America, Inc. Thursday afternoon.

Mrs. Henry Milligan opened her Belmont Street home for the affair.

Newly elected president, Mrs. Charles Shearer conducted the business meeting.

Reports were heard regarding the annual Ingathering and plans were made to help needy families for Christmas.

The next meeting will be at the Miami Road home of Mrs. Andrew McKerron Jan. 8.

Sprinkle and Rake

One-Step Lawn Care

By POLLY CRAMER

DEAR POLLY — Mine is a way to "kill two birds with one stone." Sprinkle and rake the lawn in one operation. It is great for this time of the year when the leaves are falling.

When watering the lawn, turn the nozzle on a fine strong stream, hold about a foot up from the ground and fan those pesky leaves up in a pile at the same time that the lawn is getting a good drink.

DEAR POLLY — An old bean bag ashtray is good to use for holding pins when you sew. Simply remove the little cigarette rest and you have a trustworthy pin dish which will sit and stay conveniently on your knee or beside you in your chair as you baste with pins.

DEAR POLLY — This idea is for the forgetful shopper. On each parcel jot down your name, address and phone number and if an HONEST person finds it they can get in touch with you. I was amazed when it worked for me.

DEAR POLLY — If glassware, china and other household breakables have to be mailed any distance, wet paper and mold it around the article. The paper dries like stiff packing material and minimizes breakage. Also, an excellent aid for tearing out recipes, household hints or magazine pictures is the cutting edge from a waxed paper box.

DEAR POLLY — Always keep an emery board near the sewing machine. It makes a fine file to sharpen needles and pins.

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

for a festive Thanksgiving

... and gracious dining year 'round ...

At Oakland University

Talk on Theater Trends

Contemporary trends in the theater will be discussed by Mrs. George T. Hall, of the Vanguard Playhouse at 8 p.m. Monday in the Gold Room at Oakland University.

Mrs. Hall's lecture will be the final program in this year's World Report Lecture Series on "Contemporary Trends in the Arts." The series is sponsored by the Oakland University Scholarship Committee.

Mrs. Hall is currently president of the Women's Association of the Vanguard Play-

house. She has appeared in summer stock at Northland Playhouse, Manistee Summer Theater, and the Sun Parlor Playhouse in Leamington, Ont.

OTHER MEDIA

She has also had acting, production and interviewing experience in both television and radio in the Detroit area.

A resident of Grosse Pointe, Mrs. Hall has been active in several community organizations, including the United Foundation, Detroit Junior League and the United Community Services Women's Committee.

Tickets for her lecture may be obtained at Oakland University.

Refrigerate Cheese

To bring out the flavor of most cheeses, take them out of the refrigerator to reach room temperature before serving. Small pieces of cheese need about 15 minutes; large portions may take two hours.

Cranberry Salad Is Fine for Holiday

By JANET ODELL
Pontiac Press Food Editor

With Thanksgiving just around the corner, it's time for a cranberry salad recipe. This one may not be new to experienced homemakers, but there is always a crop of new brides learning to cook.

Mrs. Oswald Movius, mother of three boys, is our cook today. She is a stamp collector.

Fears for Her Child

Fever Panics Mother

By DR. GEORGE W. CRANE
CASE Q-462: Mildred J. aged 23, has two children just ready for kindergarten and a first grade.

"Dr. Crane," she began, "whenever they get a fever, I grow almost hysterical with fear."

"So I try to give them aspirin and put ice packs on their faces to bring the temperature down, even before I telephone the doctor."

"Although he tells me not to worry so much, how can I avoid being panicky?"

"Don't people die when their temperature gets too high?"

FEVER FACTS
To relieve the minds of all you parents, I'll give you some sobering medical facts about fever.

First of all, fever is usually a medical aid to yourself or your sick child.

That may sound strange, since many parents are like Mildred in growing panicky as soon as they find their child's temperature higher than 98.6 degrees.

But when your temperature rises, then the chemical protective forces in your body are speeded up.

But the rate of multiplication of the germs is slowed down!

HELPS BODY

So fever actually helps your body's resistance and hampers the hostile bacteria.

For example, the white corpuscles and "antibodies" in your blood are greatly increased as your temperature rises.

Be grateful, for these are the defenders of your health. The white corpuscles actually

will engulf and devour bacteria or germs.

"Yes, Dr. Crane," Mildred protested, "but isn't a high fever very dangerous?"

That depends on what you mean by a "high" fever.

Until the body temperature passes 105 degrees, you can sit tight and not resort to ice

packs or cooling drugs like aspirin.

After 105, however, we medicines are very careful. For when the temperature reaches 107 or 108, it is possible for the excessive heat to "cook" the proteins in brain cells.

(Always write to Dr. Crane in care of the Pontiac Press, enclosing a long stamped, addressed envelope and 20c to cover typing and printing costs when you send for one of his booklets. Copyright by Hopkins-Spradley, Inc.)

Localities in 'Oklahoma'

Central Michigan University drama students will present the Rodgers and Hammerstein musical comedy "Oklahoma," tonight and again on Saturday in Wariner Auditorium, Mt. Pleasant.

Localities appearing in the cast will be Nancy Wood, Six Lakes freshman; Beverly Wells, Pontiac senior; and Dave Parrish, Walled Lake junior.

Members of the chorus include Sandy Gowen, Pontiac sophomore; and Tom Anthony, Pontiac freshman; Karin Munn, Six Lakes junior; and Dave Parrish.

INDIANA U

Don Carlson of Bloomfield Hills is among 377 outstanding junior and senior students named to the 1963-4 Indiana University Student Foundation Committee.

Plans for the "Little 500" weekend in May centering around a bicycle race like the Indianapolis 500-Mile auto race will be launched at a committee banquet on Sunday.

Gate receipts from the annual event at Bloomington, Ind. usually attended by some 20,000 spectators, have amounted to \$140,000 which has provided some 1,400 scholarships for students working their way through school. The "Little 500" began in 1951.

Karen Walker of Franklin Road is teaching business at Bedford High School. She is one of 108 Indiana U seniors receiving eight-week practice teaching assignments throughout Indiana.

Susan Haberkorn of Orchard Lake has joined Phi Mu sorority, one of 20 national social sororities on the I.U. campus.

MRS. CHARLES SHAIN

Alum Gets Award for Services

Mrs. Charles Shain (Ruth) will be honored by the University of Michigan Saturday evening. She is one of five alumni receiving Outstanding Achievement Awards.

Her citation reads: "Life-long educator in Michigan, Montana and California, who has been active in the American Association of University Women and League of Women Voters, twice U.S. delegate to the International Association of University Women, founder of the Ruth Shain Class in International Relations, and a force behind every cultural activity in Birmingham and a constant influence for breadth of outlook throughout southeastern Michigan."

Mrs. Shain received her M.A. degree from the University in 1907.

Sorority Meets for Collection of Contributions

Mrs. Evelyn Kay and Mrs. Lynn Anselmi were cohostesses at a business meeting of Alpha Alpha chapter of Epsilon Sigma Alpha sorority. The group met at the 300 Lounge Thursday evening.

Canned goods and staples were brought by members to be donated for a Thanksgiving basket to a needy family.

Mrs. Kay will open her Royal Oak home for a cocktail party Saturday evening. Hundreds and guests are invited.

Later everyone will adjourn to the Elks' Temple where they will be the guests of Mr. and Mrs. Calvin Warren.

Final arrangements for the Christmas dinner to be held Dec. 5 at the 300 Lounge were made.

Gather for Luncheon

Members of the Dirt Gardeners Club gathered for luncheon, and a holiday decorations workshop Tuesday in the Adair Shelly Library.

Hostesses were Mrs. Blythe Abare and Mrs. Grace Brown. Mrs. George Tracy of Columbus, Ohio, was a guest.

Post-Concert Party for Young Artist

Mr. and Mrs. Jack Simon of Bloomfield Hills entertained 12 guests from Cleveland, Ohio after the Gabriel Chodos concert Tuesday evening.

Among those honoring Mr. Chodos were Mr. and Mrs. Robert Steinberg, Mr. and Mrs. Al Schechter and Mr. and Mrs. Sanford Brown. Also there were Mr. and Mrs. J. A. Rubiner, Mr. and Mrs. Gilbert Franklin and Mr. and Mrs. Richard Moss.

AFS Wins Award for Scholarship Plan

The American Field Service has won the group award for its International Scholarship Program, which promotes understanding and friendship among the peoples of the world.

Winners of the 15th Lane Bryant Annual Award for outstanding volunteer work

Sisters Plan Participation in Centennial

Mizpah Temple No. 7 Pythian Sisters, planned participation in the International Order Knights of Pythian Centennial — at Thursday's meeting in Fellowship Lodge Hall.

Hostesses for the evening were Mrs. Elmer Thomas and Mrs. Karl Erickson. Initiation of new members is scheduled for Dec. 19.

performed on behalf of the American community in 1963, and the winner of the 4th International Volunteer Award for volunteer work performed in Europe during 1961-62, were announced Thursday at a luncheon in New York City.

Raphael Malsin, president of Lane Bryant, Inc. presented the awards before an audience of over 350 government officials, business executives and community leaders from both the United States and abroad.

Three awards of \$1,000 each were presented.

The American Field Service is now sponsoring seven foreign exchange students in Pontiac area high schools.

Use Wall Socket

Use convenient outlets in the wall — not ceiling sockets — for connecting appliances. The wire in ceiling sockets wasn't intended to supply appliances.

A February wedding is planned by Janet Marie White, daughter of the James P. Whites of Cresthaven Drive and Garnett Audley Oetjens, son of William Oetjens of Madison Heights and Mrs. Harry Michael of Birmingham.

Celebration Is Held in Home

A reception in the Warren Drive home of the Dewey D. Spurlocks followed the recent marriage of their daughter Sharon Ann to William David Shirley, son of the William R. Shirley of Chippewa Road.

Rev. Walter J. Teeuwissen Jr. officiated at the family candlelight ceremony in the Drayton Plains United Presbyterian Church.

Carolyn Spurlock attended her sister as maid of honor and her brother Duane was best man.

The couple attend Oakland University and will live in Pontiac.

Protective Foods

Protective foods that also are concentrated sources of energy include butter, fortified margarine, cheese, peanut butter, baked beans, macaroni and cheese, ice cream and puddings.

New Conned Dish
A new main dish in a can consists of elbow macaroni with ground beef in spicy tomato sauce.

Don't Iron Towels
Don't iron terry towels. Ironing flattens the loops, makes the surface harsh and lessens the absorbency.

Easy to look, easy to wear, the spare beautiful lines of this Duchess of Windsor design sum up her definite taste for understatement. Its smoothly flowing silhouette is a result of the very successful merger of bias side sections and straight center panels joined by long princess seams.

With every slender curve in place, it's perfect for resort wear now and will sail through next summer with just the degree of dressiness that offers the widest social opportunities.

Suggested fabrics are novelty cottons, silk or flax linen, sharkskin, plain or printed rayons and silks. From these corresponding body measurements select the size best for you.

Sizes	Bust	Waist	Hips	Length*

Too Much Study Makes a Dull Student

By LESLIE J. NASON, Ed. D.
Dear Dr. Nason: I am a 16-year-old boy who will be a high school junior in the 1963-64 school year. I am strictly an A and B grade student and have taken advantage of every accelerated course so far.

However, every minute of my time at school and at home until 9 and 10 p.m., including weekends, is taken up with homework. I have no time for study after completing this homework.

The second problem is I have no time for recreation. By the

end of last school year I found myself unable to force myself to study so much.

Would a tape recorder or sleep-learning be beneficial for me?

K. H. St. Louis, Mo.

Answer: What you need is not equipment but better planning. This year try working out a plan for mastering each course you take.

Discuss your plans with your teachers. By reading ahead, listening and organizing materials while in class, you should be able to reduce the

time spent in study and leave time for recreation.

In the past, part of your lack of efficiency may have been due to your failure to build up your energy through recreation.

Dear Dr. Nason: When I was about 12 years old my reading ability was fair but I couldn't pronounce the words well.

My older sister showed me how to pronounce them. Today, I am in my middle teens and while I can read quite well, I still ask my sister about the hard words.

I am a little ashamed and it is annoying to her, too. However, I want to be sure I pronounce the words correctly.

J. L. Elizabeth, N.J.

Answer: The dictionary shows words divided into syllables and the correct pronunciation is indicated by the diacritical marks.

Spend a couple of hours studying these marks and what they mean. This should be all that you need to get the correct pronunciation of each word in the dictionary.

Practice pronouncing the words aloud.

Say a word over and over un-

til it rolls off your tongue smoothly. Know what the word means as you hear yourself say it.

P.S. You also need to practice your handwriting!

Dear Dr. Nason: My husband and I, both teachers, try to do the right thing by children. In our school there is a first grade teacher whose policy is to call her pupils by a nickname even in the hands. Her justification is it will be changed in the second grade.

This seems unprofessional to us. What is your opinion?

Mrs. B. L. B., Ohio

Answer: Calling a child by his correct name gives him the dignity as an individual that he deserves in a formal situation such as school. Once attached, a nickname is difficult to lose.

The second grade teacher may change back to correct names, but the children would probably continue the nickname which might be a trial to the parents and the child.

(You can write to Dr. Nason in care of The Pontiac Press. He will answer in his column questions of widest interest.)

JACOBY ON BRIDGE

By OSWALD JACOBY
Bob Sharp of Covington, Ky., and his wife, Jo, are one of the strongest married couple pairs in the world.

Like most married couples the husband tends to overbid. Bob sitting North decided not to pass Jo's club opening.

When her next bid was a jump to two spades Bob felt he had to bid again. Hence his three spade call.

Jo's jump to six shocked him so he put down the

played dummy's king of hearts, came back to her ace, ruffed her last heart and finally was ready to take the trump finesse.

That worked, whereupon she led a fourth club. This gave West a choice of losing plays. He could discard a diamond, whereupon Jo would ruff with dummy's last trump; get back to her hand with a diamond ruff; lay down the ace of spades and eventually give West his ten of trumps.

Actually, West ruffed that fourth club with his ten of spades. He returned a diamond. Jo ruffed and played her ace of trumps. Both opponents followed and she claimed the balance.

dummy he made the safety remark, "I guess I have passed to either one club or two spades."

Jo said nothing. She was already concentrating on finding a way to make the slam. It was apparent that she needed to get a lot of mileage out of dummy's four little trumps. It was also necessary to find East with the king of spades and to get rather favorable breaks in all side suits.

The prospect wasn't too nice, but when you are in a difficult contract you should play to make it. Jo won the diamond; cashed her ace and king of clubs in order to shed one of dummy's hearts and ruffed a third club. Then she

Astrological Forecast

By SYDNEY OMAR
For Saturday

"The wise man controls his destiny." ARIES (Mar. 21 - Apr. 19): Time to keep promises. Avoid quarrels. Happiness will come. You will be happy by adhering to your word. Be specific. Do not overdo. You will be successful.

Taurus (Apr. 20 - May 20): Ambition is your strength. You are presented with opportunity. But it will become necessary to give your word. Don't expect anything for nothing. Stress practical.

Gemini (May 21 - June 21): If you're in the grip of a worry, stop it. Gemini is the sign of the intellect. Gemini is the sign of the intellect. Gemini is the sign of the intellect.

Cancer (June 22 - July 22): Financial demands attention. Check with business matters. Key is slow-but-sure method. Money will be yours. Success. But you must show that you have clear outline of objectives.

Leo (July 23 - Aug. 23): When people say "what if" they may be entering a different world. Leo is the sign of the sun. Leo is the sign of the sun. Leo is the sign of the sun.

Virgo (Aug. 24 - Sept. 23): Good time to broaden horizons. Don't give up. Key is slow-but-sure method. Money will be yours. Success. But you must show that you have clear outline of objectives.

Libra (Sept. 24 - Oct. 23): When people say "what if" they may be entering a different world. Leo is the sign of the sun. Leo is the sign of the sun. Leo is the sign of the sun.

Party Line Is Ga(u)lling

JFK, Nik at Home on Phone

By DICK WEST

WASHINGTON (UPI)—The Task Force on NATO Unity of the Subcommittee on Special Projects of the House Republican Policy Committee has just issued its first report.

Opinions may differ as to the most significant portion, but I was captivated by the task forces proposal concerning the "hot line" between Washington and Moscow.

The "hot line," as you know, was set up recently to provide instantaneous communication between the two capitals and thus lessen the danger of war starting accidentally.

If, for instance, the United States lost control of a missile, which then headed toward Russia, President Kennedy could get Premier Khrushchev on the line and say "Oops, sorry" before it landed. And vice versa.

Well, sir, the task force fears that this arrangement may arouse suspicions among our NATO allies. It has recommended that the entire membership of NATO be "cut-in" on the line so that they can monitor any conversations.

In other words, the task force wants to change the "hot line" to a "party line." It may have a point there, but I have some doubts that the plan would work.

LIKE THIS

If my memory of the way party lines operate is trustworthy, such a setup could lead to a situation something like this:

"Hello, is this area code 202 625-1414?"

"Speaking."

"Jack, this is Nicky. Something terrible just happened. One of our missiles accidentally flew off the launching pad and..."

WHO'S CALLING?

"Hello. General de Gaulle here. Who's calling, please?"

"Charlie, get off the line. I'm talking to Jack. I've got an urgent..."

"Oh, good. I've been wanting to talk to Jack myself. Jack, your position on the chicken war is..."

"Charlie, for the love of Lenin

get off the line. There has been a missile malfunction and..."

POULTRY PRICE

"What has that got to do with the price of poultry?"

"It could destroy every home in..."

"Home? Yes, this is Prime Minister Home, only we pronounce it 'Hume' here in Britain."

"You won't be able to pronounce anything if you don't hang up and let me..."

"If you didn't want to speak to me, why did you ring?"

"Nobody is ringing you. I was

trying to talk to Jack about chickens and..."

"This is Jack, fellows. Hold the line a minute while I go to the window. I just heard a loud noise outside."

Agents Raid Farm, Marijuana Harvest

GREENVILLE, Ga. (AP)—Marijuana plants eight feet high were grown with the tall corn on a middle Georgia farm and processed in a barn.

Federal agents and Atlanta police said the flourishing marijuana farm they raided Thursday was the largest ever found in Georgia.

They arrested three persons, confiscated three cars and a 555-pound harvest of marijuana worth \$52,000 on the wholesale market.

Help Offered to Alcoholics

Small Center Deals With Big Problem

The library is small by most standards.

The 100 books and pamphlets are not on the best seller lists and they deal with one subject.

"They're read extensively, though," said Pat Lynch, secretary of the Oakland County Alano Center, "by members and those just interested in the problem."

The problem is alcoholism. All phases of the disease are discussed in the literature available to the public at the center, Joslyn and Fourth.

The library is just one of the many services offered by the recently reorganized group, whose members major concern is aiding alcoholics.

"The center is important to the community," said Lynch. "An alcoholic can not take a gamble by going in a bar, . . . some not even to a house party. They can come here and enjoy themselves, and even bring the family."

"Membership, by all means, is not limited to alcoholics," he said. "Some of our members don't drink at all while many others are not affected by liquor like an alcoholic."

Each of the 100 members pay dues of \$1 a month.

Alano is located in the for-

mer St. Paul's Lutheran Church.

CENTER DIFFERS

Lynch said the Alano Center here differs from other such organizations because it is not affiliated with Alcoholics Anonymous.

AA groups do meet at the center twice daily, with each unit taking up a collection to pay rent.

The center is open daily from 10 a. m. to 11 p. m., except

Sunday when the hours are from 7 to 11 p. m.

The center offers a club atmosphere to members. Shuffleboard and card tournaments, dances and dinner programs are scheduled regularly.

COUNSELING GIVEN

Counseling on problems of alcoholism is also provided by Alano and when help is needed it will guide an individual to the proper agency.

Chet Racine, chairman of the board of controls of Alano, said that "more marriages probably have been saved by the efforts of Alano than all the marriage counselors in the state."

A far-off goal for Alano, according to Racine, is a "Halfway House for alcoholics" in the Pontiac area.

"Here, an alcoholic could get a clean bed, wholesome food and medical attention at a nominal cost," said Racine.

FACILITIES LACKING

"Our city hospitals don't have the facilities to care for these people," he added.

"Alano would operate and manage the Halfway House and care for the alcoholics physical needs."

"AA would take care of the spiritual and mental needs."

"Here, an alcoholic could get a clean bed, wholesome food and medical attention at a nominal cost," said Racine.

"Our city hospitals don't have the facilities to care for these people," he added.

Good Boy? You Bet!

BERKHAMPTSTEAD, England (U) — The parents of Michael Gann, 4, say he has the golden touch.

By showing his father, William, how to fill out his weekly football pool form, Michael has just won \$6,203.

By British law, children are not allowed to enter the pools, based on the results of the nation's weekly soccer games.

Michael fills out a dummy form. His father copies the dummy and sends it in.

Mrs. Gann said her son previously won 16 third prizes.

Science Quiz

By BOB BROWN

PROBLEM—A Pepper Trick. NEEDED—A glass of water, pepper in a shaker, soap.

DO THIS— Sprinkle pepper on the surface of the water, draw the finger across it as shown in upper drawing, and the pepper will separate where the finger has been.

Challenge a friend to do the same. The pepper will close in behind the finger as shown in lower drawing.

THE SECRET— before drawing your finger across the water surface, secretly rub your finger on a bar of soap. The soap weakens the surface film of the water.

Without the soap, the surface tension or film draws the pepper back to cover the surface of the water more rapidly.

FRUITPOOT MAN'S BODY

Found Near Muskegon.

FRUITPOOT was the body of a Fruitport Township father of five was found yesterday in his car, which Muskegon County officials said apparently ran off Kline Road near here into a field.

The victim was identified as Howard Sheriff, 29, a gas station operator in the township.

Russia Revisited: Reporter Notes Changes of Past 27 Years

(EDITOR'S NOTE—John Lloyd, an Associated Press correspondent since 1925, was assigned to Moscow in 1934-35. He recently went back to Moscow for a visit. Here are his observations.)

By JOHN LLOYD
LONDON (AP)—If you wanted to buy a chocolate bar and you found it cost \$1 you would grumble.

If you found that a very small, unattractive chicken cost \$3 you wouldn't like it at all.

Especially if you earned \$100 a month.

But apartment rent might be \$5 or \$6 a month. You would grumble about that. Nor would you object to a 5-cent fare on the subway or bus, anywhere you wanted to go.

You would not like paying two weeks' salary for a new dress, or perhaps double that for a new suit. But if you were enthusiastic about everybody being alike and about everybody being lifted, en masse, to a better plane of existence, and were not fussy about the time it took, you might go along with the idea.

BACKGROUND SPECIAL REPORT

Twenty-seven years ago I was a correspondent in Moscow. Subsequent events took me to various other parts of the world. Only now have I had the opportunity to go back.

A city that in my time claimed two million people has six million today. Very wide avenues, straight as a die, cut through it, and five bridges span the broad river where there were next to none before. Apartment houses, all exactly the same but nevertheless large, cover a vast area on the outskirts that formerly was a dump.

Moscow has spread as it has grown in population. A furious building enterprise is going on. People still wait for the chance to get proper living quarters. Proper means small rooms and not many, but there is good heat, there is plumbing and for

many people it is more than they have had in the past.

Moscow is drab, and the people, from our point of view, dress drably. There is no elegance, no froth. But they appear to be comfortably clad, and they appear, en masse, to be not unhappy with the circumstances.

RUSSIAN PAST

You can compare Russia only to its past. You cannot compare it to the Western world. Our ways of life are totally different, and that is not wholly a matter of the revolution.

Twenty-seven years ago an air of fear choked Moscow and other parts of the Soviet Union. That now has been much relieved. It still is not easy to mix freely, but let us remember characteristics of a people as well as those of a state. Suspicion, mystery, intrigue always were there. Russians drink heavily and sometimes are gay,

but Russians in toto are a grim rather than a frivolous people.

There is the same old mustiness in Moscow that was there 27 years ago. It is an indoor phenomenon, but it gets into your clothes and you feel you are carrying it about with you. It comes from a combination of smoke, lack of fresh air and crowded living. It is not a political thing.

Westerners who visit Moscow are put up in the same hotels, changed 27 years ago. If any change of paint, polish on car-

peting has taken place in that time, the artisans were expert at keeping alive old traditions.

LIGHT TRAFFIC

Traffic is extremely light compared to that in Western cities. Parking is no problem. Almost all cars are black and the current model is equivalent to Western cars of eight or 10 years' vintage. There are abundant traffic lights and police supervision is good.

There are two channels of television. One may be showing a play, an opera or ballet, the

other a circus or sports, and there is plenty of politics. By politics, I mean that of the state.

There are no sweet lovelies and there is no frivolity.

Twenty-seven years ago one would hesitate even to approach the gates of the Kremlin. Now people go in and out without even a check. Tours, with guides, go in to see the elaborate churches and the magnificent museum.

There definitely has been an easing in the Soviet way of life. There still is — more strongly even than in the past — a great and apparent feeling of con-

glomerate strength. And there is a massive pride, which should not be underrated.

Candy Routes Robbers

He Helps-Himself

LONDON (UPI)—When three robbers invaded her candy store yesterday, Mrs. Patricia Connolly drove them off helplessly by hurling candy jars at them.

Title, Roses, Fame Ride With Michigan State-Illinois Winner

Big 10 Crown, Trip West Go to Victor

Spartans Need Win or Tie to Gain Bid to Bowl Classic

EAST LANSING, Mich. (AP) — The Big Ten title and the Rose Bowl bid are at stake Saturday when Illinois and Michigan State meet.

It couldn't work out better if the script had been written by a Hollywood expert in suspense.

The winner will take all. But in case of a tie, MSU still wins the title and the Roses.

The teams have identical 6-1-1 over-all records. State has a 4-6-1 Western Conference record against the Illinois' 4-1-1 mark.

The teams are surprisingly similar. Both have strong running attacks, poor passing and great defensive records. Michigan State is tops in defense in the Big Ten and Illinois is second.

TOP STARS

Both have All-America candidates.

It is seldom that a junior gets All-America recognition but Dick Butkus, the 237-pound crashing center and defensive signal-caller for the Illini, looks like a good bet.

Michigan State has two players already named as back and line men of the week by the Associated Press.

Halfback Sherman Lewis, the mighty mite who can break a game wide open with sensational long runs, won the honor with his two touchdowns against Notre Dame. His 68-yard TD sprint was the fifth time this season he has scored for gains of 64 yards or more.

Guard Earl Lattimore, who sometimes turns a somersault before going up to his line position, won the line man honors.

Lattimore, a former fullback, is also a place kicker. He booted the two longest field goals in MSU records.

PRESTIGE GAME

Great prestige will go to the winning coach. MSU's Duffy Daugherty was recently given the guarantee of five more years as head coach and wants to show the vote of confidence was well placed. Pete Elliott of Illinois has made an amazing comeback after a dismal 27 season in 1962.

Michigan State last went to the Rose Bowl in the 1955 season. Illinois hasn't made the coast trip since 1951.

A sellout crowd of more than 70,000 is expected for the 1:30, EST, kickoff. The weather forecast is for possible rain or snow, cloudy and cold weather.

Spring Arbor Loses

ANGOLA, Ind. (AP) — Tri-State College, led by Ray Lohrey's 24 points, defeated Spring Arbor Junior College, 22-26, in a basketball game here Thursday.

JUST IN CASE—Jim Plankenhorn, Illinois' placekicker, warms up in preparation for Saturday's Big 10 showdown game with Michigan State at East Lansing. Holding the ball

is George Donnelly while coach Pete Elliott watches. Many experts feel a field goal or extra point will be the deciding factor.

4 County Players Honored

Here's Best 'A' Team

By The Associated Press

Oakland County, with the largest number of class A schools in Michigan outside of Wayne County, failed to place a member on the first all-state class A team.

County players however took numerous berths on the second team.

Walled Lake's John Thomas missed first team honors at quarterback by one vote as the honors went to Flint Central's "tiny quarterback" Tiny Laster.

Also from the county on second team was Clawson's halfback Brodie Burton, who was first made a member of the all-state class B team, but was removed when late enrollment figures showed Clawson was now a class A school.

OTHERS

Bruce Rodwin, Ferndale and tackle Don Baier of Royal Oak Kimball were among second teamers.

The 11 best players from Michigan's largest schools were molded into a mythical unit in the 23rd annual all-state team. Coaches all over the state were screened by sports writers and the writers had the final say in the makeup of the team.

Tiny — that's his real name — Laster of Flint Central is the wee bit of a might that heads this elite club.

Laster, who has a game remaining, is only a junior. But he is already the finest passer in the history of a school that has counted many fine players.

The 140-pound quarterback has gained 87 yards through the air in eight games with 42 completions in 84 attempts. He has passed for 19 touchdowns.

TOP TEAM

Bill Ross of the state's No. 1

team, Lansing Sexton, is another halfback on the team. Ross averaged six yards a carry in 9 attempts this season, scoring five touchdowns and 21 points after touchdown.

Mitch Pruett of Benton Harbor was almost the whole backfield for his team, which moved mainly on fullback plays. Pruett averaged 5.6 yards a carry during his three-year high school career, with his average this season an even six yards. He scored eight touchdowns and booted 24 PATs.

Roger (Rocky) Rosema, named to the first team as a

line man in 1962, makes the team this year as a back. Considered the best all-around player at Grand Rapids Central since Terry Barr, Rosema scored 14 times and averaged eight yards a carry. He was also the team's punter and leading pass receiver.

Mel Summers of Flint Central and Ken Dyer of Ann Arbor are the ends on the dream team. Summers, a strong defensive player, has caught only 10 passes this year, but seven of them were for touchdowns.

Lions' Stockholders Gather to Decide on Ford Offer

DETROIT (AP) — Stockholders of the Detroit Lions are expected to approve today sale of the National Football League team to William Clay Ford for \$6 million.

Under the terms of Ford's offer, made Oct. 15, an approval vote of 75 per cent of the stock binds the deal. Ford has the option to withdraw the offer if approval is between 51 and 74 per cent. Anything below 51 per cent cancels the deal.

TO ATTEND

The Lions board of directors recommended acceptance of the offer to 144 stockholders, 80 of whom are expected to attend today's session.

Ford, 28, son of the Ford Motor Company family, and a vice president of the firm, became a pro football enthusiast after his election to the Lions' board of directors in 1956.

He was named president of the club a little more than two years ago as a compromise following an internal squabble.

A syndicate purchased the Lions in 1948, and those stockholders who were in on the deal stand to get about \$14 for each \$1 they invested.

Meanwhile, the Lions enjoyed good news Thursday for the first time in weeks with the double announcement that the linebacker Nole Schmidt will start against the Minnesota Vikings at Minneapolis Sunday and the return from retirement of former Lion star Howard Hupal along Cassidy.

Schmidt, out of action since Oct. 20 with a dislocated shoulder, wasn't expected to return to the line until the Thanksgiving Day game with the Green Bay Packers in Detroit. But Coach George Wilson said Schmidt is ready.

INJURIES

Hampered by injuries to key players, the Lions have sagged to a 4-4 record. In order to bolster his injury racked defense, Wilson traded Cassidy out of retirement for the final four games.

Cassidy, 29, will play defense, although he was a standout pass receiver before Detroit traded him to the Cleveland Browns last year. He played briefly with the Philadelphia Eagles before a broken leg forced him into retirement at the end of last season.

"I just want to help this team out as much as I can," Cassidy said.

Nicklaus 3 Strokes Back

LAFAYETTE, La. (AP) — Two latecomers to the pro golf circuit led the field in the \$20,000 Cajun Classic today with six-under-par 66s.

Joe Moresco of Woodmere, N.Y., and Duke Matthews of Eugene, Ore., both had 33-31 cards for the opening round over the 6,555-yard 36-hole-72 Oakbourne Country Club course Thursday.

Of the 150 golfers entered, 75 were far or better for the day. Lurking three strokes back of the leader was Jack Nicklaus, ace of the field.

Nicklaus, trying to push his tournament winnings for the year past the \$100,000 mark, highlighted his round with an eagle three, sinking a long pitch shot on the third hole.

TEACHING PROS

Moresco, 32, and Matthews, 33, entered the Cajun in an effort to qualify for the \$50,000 Los Angeles Open, coming up in January. They are both teaching pros.

Any pro who completes four rounds here—which means he must make the cutoff—is automatically qualified for the next tournament.

The Cajun is the first PGA tournament of 1963 for both Matthews and Moresco, who expect to stay with the tour for a year or more.

Golf Champs Missing From 4-Ball Windup

PORT ST. LUCIE, Fla. (AP) — Southern seniors football golf semifinals are on today, minus last year's runner-up team and the 1961 champions.

Robert Bell and Don Vorce, last year's second place winners from Worthington, Ohio, were eliminated 2 and 1 Thursday by Dewey Bowen of Atlanta and Llewellyn Smead of Sea Island, Ga.

OSU Brings Modest Mark to Ann Arbor

Buckeyes Captured 5 of Last 6 Tilt With Wolverines

ANN ARBOR, Mich. (AP) — Michigan will attempt to make its best finish in seven years in its traditional battle with Ohio State here Saturday.

A crowd of 63,000—one of the smallest to see this clash of arch rivals in years—is expected.

The Buckeyes have lost two of their last three starts, including a 17-4 decision to Northwestern last week. This eliminated OSU from the Big Ten title and Rose Bowl picture.

Michigan, which has won twice and tied the other time in its last three games, will again be under the leadership of quarterback P. Timberlake.

GUEST DAY

The lanky signal caller had the best rushing day of his career last Saturday when he rolled up 137 yards against Iowa. This was the most yardage compiled by a Michigan player since Jim Pace gained 164 against OSU in 1957.

The Wolverines passing attack, which has been less than spectacular in recent weeks, will get another stiff test against the Buckeyes.

Ohio State leads the league in fewest yards allowed through passing, 79.2, an average of 4.6 yards per play via pass.

Michigan, 3-3 for the season, needs a victory to finish above .500 and a spot in the first division. OSU is having one of its worst seasons under Coach Woody Hayes. The Buckeyes are 3-1 in the league, but are only 4-3 overall.

The Wolverines hold a 35-24 edge in the series. OSU has won the last three and five of the last six. Hayes is 8-4 over Michigan.

Winners Stay on Top

DAYTONA BEACH, Fla. (AP) — Eddie Cooney of Glen Allen, Va., and Rene Charland of Agawam, Mass., were repeat winners in modified and sportsman divisions, respectively, of the National Association for Stock Car Auto Racing this year.

MSU-Illini Game Has 1st Casualty

EAST LANSING (AP) — Jim Ruttman, Saginaw hotel owner, could be counted as the first casualty of the Illinois-Michigan state football game.

Ruttman here early for the Saturday game, stood next to coach Duffy Daugherty Thursday, watching a freshman exhibition when a snarl of players came tumbling out of bounds.

Daugherty agilely jumped out of the way, but Ruttman was hit and went down with a fracture and dislocation of his left ankle.

Ruttman was hospitalized at the Lansing Edward Sparrow hospital.

If there's such a thing as a skier's car, you're looking at it.

A SAAB is designed for tough Scandinavian winters where it bites through blizzards, cuts through icy rutted roads, and performs flawlessly at 40° below.

An ideal car for Olympic ski champions like Egon and Penny Piuu Zimmermann. An ideal car for anyone who travels or lives in ski country.

SAAB's unusual 3-cylinder, 2-stroke engine starts instantly.

SAAB's front-wheel drive gives solid traction on snow and ice.

SAAB's superlative heater and defroster keep you comfortable and the windows fog-free.

SAAB's engine, transmission and differential are warranted for 2 years or 24,000 miles (whichever comes first).

A real winter car? Real winter people like Egon and Penny Piuu Zimmermann think so. Come in for a test drive. We think you'll agree. Only

Old East Grid Rivalry Saturday

NEW HAVEN, Conn. (AP)—The quiet excitement that envelops one of America's most famous football series was being heard here today, the day before the game.

As usual it will reach a crescendo Saturday when Harvard and Yale meet for the 80th contest in a series that began back in 1875.

More than 60,000 rooters, most of them wearing their school's colors, Harvard Crimson or Yale blue, are expected to see this hoary granddaddy of all traditional rivalries. Countless others will view it in the east on TV screens.

CRIMSON FAVORED
Coach John Yoviscin brings his slightly favored Red Shirts, 5-1 here for a final pre-game drill this afternoon.

Harvard, in contention for both the Ivy League and Big three crowns, and Yale, 5-3, unable to beat the Crimson since 1967, are aching for victory. The Elis lead in the series 44-28-7.

Whether it was a tip-off that Coach John Pont was expecting a close one, or not, the new Yale coach suggested to a photographer during Thursday's drill that he take a shot of Chuck Mercein, fullback and a leading field goal kicking specialist.

"You may want to have that

in hand," said Pont, a midwesterner who appears to have captured the spirit of the holy of holies.

"This is THE game," said Pont, "sounds silly as heck, but

we all feel it. You can't be here very long and not get involved."

He and his coaching staff have been here since April. Signs reading "Darr Har-

vard, full speed ahead. Let's go Eli," and "Hate Harvard," began showing up on the campus, along with old blues, tweedy young ladies and students wearing blazers, and even neckties.

GRIDDERS HONORED — Six football players, elected by their respective schools as the outstanding players on the basis of athletic achievement, scholarship and citizenship were honored by the Pontiac Optimists ship yesterday. President of the club, Julian Galan,

is surrounded by the six players, Chuck Haviland of Kettering; Dick Steinhilber of St. Mike; Bob Peoples of St. Fred; Andy Straka of Waterford; Dick Gooley of PCH and Steve Daniels of PNH.

Our Pigskin Genius Really Out on Limb

By MAJ. AMOS B. HOOPLE
Pigskin Genius

Egad, friends, your complimentary messages overwhelmed me!

Almost two weeks have passed since I correctly forecast the astounding upset victories of Michigan over Illinois, Harvard over Princeton, and Mississippi State over Auburn, and still your letters pour in.

These prophecies were unmatched by any other experts, but this sort of thing is customary with the Hoople System — hak-kaff

So really, dear readers, your laudatory letters weren't necessary. However, lest you forget, I gave you two other dandies that day, Penn State to down heavily favored Ohio State and Rice to wallop Arkansas — har-rumph.

And now we come to football's finest weekend with traditional rivals meeting across the length and breadth of our fair land.

From Harvard and Yale in the East to Southern California and UCLA on the west coast and at many stops in between, old foes are set to have at each other.

Being an Old Blue from 'way back, I'm delighted to tell you the Hoople System foresees an 18-8 triumph for the Yale lads in this one.

In other headlines it will be Southern California over UCLA, Nebraska to defeat Oklahoma, Kentucky over Tennessee and Indiana to prevail over neighbor Purdue.

My upset specials for the

week are Penn State to squeeze by rugged Pittsburgh, and revenge — m i n e d Michigan to thrash Ohio State!

Now go on with the forecast.

Six Gridders Are Honored by Optimists

Six football players from local high schools were honored at the annual awards luncheon of the Pontiac Optimist club yesterday at the Elks Temple.

Elected as the outstanding players at their respective schools, the players were honored for their athletic achievement, scholarship and citizenship.

The honored students, Richard Gooley of Pontiac Central; Steve Daniels of Pontiac Northern; Bob Peoples of St. Fred; Chuck Haviland of Kettering; Dick Steinhilber of St. Mike and Andy Straka of Waterford, received certificates and plaques.

Among the honored guests attending the affair were high school principals, coaches and the parents of the boys. Dr. Dana Whitmer, superintendent of the Pontiac schools was guest of honor and Allen Bush, associate director of Michigan High Athletic Association was guest speaker.

Presentation of awards was made by Max Adams, president of the Pontiac area Chamber of Commerce.

By JERE CRAIG

As the Thanksgiving season is about to engulf us for an all-too-short period next week, the thought arises that there are perhaps too many bowlers who don't stop to think how thankful they should be for the opportunities offered by the sport.

Certainly, bowling is recognized as a family sport. The members can enjoy it together in open bowling or in mixed leagues.

husband and wife, father and son, mother daughter, and almost any combination thereof.

Many is the man — and woman — who finds the game a source of income, either in a top league with handsome payoffs at season's end, or in the many tournaments that appear each year.

Certainly they can have much to be thankful for in a material sense.

One of the more rewarding experiences in bowling comes from watching or participating in a mixed adult league that participates strictly for the pleasure and fellowship it can bring.

Certainly, bowlers can be thankful for the spirit-warming aspects of the game.

And how many parents who

Tournament in '64 Doubtful

Last Bowlerama Qualifying May Be for Good

What could be the LAST Press Bowlerama qualifying for good will take place at six county bowling establishments Sunday.

Airway Lanes, Howe's Lanes, North Hill Lanes, Wonderland Lanes, 300 Bowl and Montclair Bowling Centre will bring down the curtain on the 1963 qualifying with squads starting Sunday morning.

Competition will run through 6 p.m. as long as interest warrants at all sites.

The phrase "as long as interest warrants" is significant since such has not been the case generally speaking during the seventh annual county bowling tournament.

This development leaves the future of the Bowlerama in doubt due to the expense involved to The Press which underwrites the tournament costs. Considerable money and man hours are expended each year by The Press.

BEST TOURNAMENT

Bowling officials from the ABC tell us it is one of the best handicap tournaments they know of. "The payoff in the Bowlerama should attract any and every bowler with averages from 165 to 265," said one official. "I'm really surprised it doesn't have 5,000 entries."

Unfortunately, the response has not increased as expected generally, and particularly this is true during the present tournament, although considerable efforts were made to make the tourney easily accessible for the normal kegler.

The Bowlerama offers much

to both the high-handicap bowler and to the high-average kegler.

While the handicappers have always dominated the regular portion of the tournament, the benefits on the actuals side have steadily increased.

The latter bowler appears to be supporting the tournament this year as usual, but entries are down among the low average bowlers who apparently are not attracted to the big guaranteed prizes and the fact that one of six bowlers usually share in the purse.

In the first four years of the tournament, the biggest response came from the 140-170 average bowler, and rightfully so.

LOW AVERAGE WINNERS

The major portion of the money winners were in this bracket. Any 135 or 140 average bowler who is capable of hitting his average in two games, hitting one red hot game and picking up a 130 pins in handicap is a sure bet qualifier, which gives him a share of the pot.

Each year the same story is heard among the top 20 winners. "I never thought I'd win any money," is the typical afterthought.

Women bowlers have not responded well in their return to the annual competition, although several have posted very good actual and handicap totals.

Despite the high starting scores at several qualifying sites, when last week's six-house bowling had ended, the scores that made the finals still were generally down to their normal low level.

A similar situation is expected this Sunday as others seek to join the 63 who made it last week. Sixth sites at Airway, 300 Bowl and Montclair offer excellent qualifying opportunities with low leaders.

While most are due to start

at 11 a.m., "300" has advised The Press it will be ready to begin qualifying squads an hour earlier if enough interest is shown.

North Hill, Howe's and Wonderland have had higher scores than the other three sites, but all have wide unfilled areas among their higher totals.

All who qualify for the Dec. 1st finals at 300 Bowl will cash in the tournament.

Those bowlers who are interested in qualifying are urged to contact either the establishment of their choice or The Press sports department to provide advance notice of such intentions and expedite the administrative details at the site.

PERFECTION — Bill Kirkland, of the 300 Bowl team in the Friday night Huron Bowl Classic, proved to be a true member of team last week when he bowled a perfect game during league action. It was not completely unusual for Kirkland, though, he also scored his first ace last summer on the golf links.

Hardwick Tops PBA Money List

AKRON, OHIO — Billy Hardwick's \$7,500 award for winning the Professional Bowler's Association national championship event in New York last week, has enabled him to win the money title of the organization for 1963.

The big check ran his winnings for the year to a total of \$33,265, coming on PBA victories in New York, Mobile, Phoenix and Los Angeles.

1. B. Hardwick, San Mateo, Calif.	\$33,265
2. Harry Smith, Baltimore, Md.	\$20,000
3. A. Mazzoni, Long Beach, Calif.	\$20,000
4. Dick Weber, St. Louis, Mo.	\$20,000
5. Ray Bluth, St. Louis, Mo.	\$20,000
6. J. J. Jones, San Jose, Calif.	\$20,000
7. Billy Webb, Houston, Texas	\$20,000
8. Ed Bourdas, Fresno, Calif.	\$20,000
9. Bill Allen, Orlando, Fla.	\$20,000
10. Ed Bourdas, Fresno, Calif.	\$20,000
11. Glen Allison, St. Louis, Mo.	\$20,000
12. Don Carter, St. Louis, Mo.	\$20,000

20. Bill Schiller, Fresno, Calif.	\$20,000

West-Siders in Top Form

West Side Lanes rode the 226-226 bowling of Neil Ricketts to a first-time blanking of league leading 300 Bowl Monday night in the West Side Classic.

The host house team trimmed the lead of "300" to two points as Sport Center Trophies climbed near the lead with a sweep of Huron Bowl.

West Side had a new team high game of 1132 and a new team high series of 3248 as Bob Lawson (651), Buck McDonald (629) and Don Penrell (609) aided Ricketts' efforts.

Sony Santa Cruz and Arnie Osta tied for high game honors with 277 in the other-league action.

The Westside Mobil team took undisputed possession of first place Monday night in the Collier Lanes House League at Oxford.

Tom Shara's 622 led the fuel men, but Bill Daugherty had 638 to capture high series honors in the league. Newt Brand was tops, also, with a 257 game.

Dale Fedrigon did his part for the Zilka Heating squad in the Our Lady of Refuge League Monday at Cooley Lanes. He hit 606 the hard way — a 202 triplicate.

But Zilka Heating was victimized by DeConick's team overall.

Donna's Pizzeria won three points from Birmingham Drug and climbed past the drugists and Michigan Machine Rebuilders last week to top the Northwood Lanes Senior House League.

Jim Milford's 253-221-677 took scoring honors that night for the house team, but his squad lost three points to Torrence Oil.

OVER-AVERAGE

Frank Webber was 77 pins over average last Saturday in the Marmon Baptist Church League when he hit a 194 game at Montclair Bowling Centre.

In the Airway Kings and Queens League last Friday, Marion Guerin had a 210 game and Bob Sutton a 221 game.

County Native Is 100 Today

Woman in Muskegon Is Still Quite Active

MUSKEGON (AP) — A woman who was born in Oakland County Nov. 22, 1863, celebrates her 100th birthday today.

She is Mrs. Laura Brunette, a resident of the Hillcrest Nursing Home here.

The daughter of Rev. E. N. Brown, a Methodist minister, Mrs. Brunette came to Muskegon as a teen-ager.

Before her marriage, about 1881, to blacksmith William Brunette, she served as a reporter and composer for the Daily Chronicle, which was predecessor to the present Muskegon Chronicle.

BIRTHDAY PARTY

A birthday party with cake and visits from relatives was on her afternoon schedule today. Attendees at the nursing home said yesterday she still is active enough to take daily walks.

Mrs. Brunette was widowed in 1914. Her son died in 1933 and her daughter in 1938. Until two years ago, Mrs. Brunette lived alone in an apartment but entered a rest home because of failing eyesight.

Her relatives include a granddaughter, Mrs. R. D. Schrouder, and great-grandson, Harold Schrouder, both of Traverse. Mrs. Ronald Brantman, lives in Muskegon.

U. S. Warehouse Sold

GRAND BLANC (AP) — The General Services Administration today announced the sale of a Grand Blanc warehouse and 38.94 acres of land to Samuel M. Catman of Flint for \$442,000.

At 9:00 a.m. on November 22, 1963, 1963 Mercury Coupe, Serial Number 2645932578, will be sold at public sale at 1970 E. 9 Mile Rd., Ferndale, Michigan, that address being where the vehicle is stored and may be in specs.

November 21 and 22, 1963

PUBLIC SALE

At 9:00 a.m. on November 27, 1963, 1963 Mercury Coupe, Serial Number 2645932578, will be sold at public sale at 1970 E. 9 Mile Rd., Ferndale, Michigan, that address being where the vehicle is stored and may be in specs.

November 22 and 23, 1963

PUBLIC SALE

At 9:00 a.m. on November 27, 1963, 1963 Mercury Coupe, Serial Number 2645932578, will be sold at public sale at 1970 E. 9 Mile Rd., Ferndale, Michigan, that address being where the vehicle is stored and may be in specs.

November 22 and 23, 1963

NOTICE OF DISSOLUTION

To Whom It May Concern: The partnership of J. H. Gilray & Co., consisting of J. H. Gilray and J. H. Gilray, Jr., is hereby dissolved. All debts of the partnership shall be paid by the partners within 30 days of the date of this notice. J. H. Gilray, Jr., Secretary.

Ormand, Dreg & Truett, Attorneys at Law, 1100 Woodward Avenue, Detroit, Michigan 48226.

CBS Offers Free Time for '64 Debates

NEW YORK (AP) — The Columbia Broadcasting System has offered free prime time for debates between the major parties' presidential and vice presidential candidates next year.

Frank Stanton, CBS president, said Thursday night the offer was made in letters to the Democratic and Republican chairmen.

During the 1960 campaign, only the presidential candidates appeared. They were questioned by panels of newsmen. Rep. William E. Miller of New York, chairman of the GOP National Committee, said the debates "would be in the interest of our party and, more important, in the interests of the nation."

A spokesman for the Democratic National Committee said the committee would not be ready to discuss details until after the nominating convention.

Capital punishment cases in Iowa, are deferred until at least one full calendar year, the time starting with the date of the sentencing.

AT BALLET — Queen Elizabeth II, expecting her fourth child, is the center of attraction as she leaves the Royal Opera House at Covent Garden in London after attending a Royal Ballet performance of The Invitation this week.

Wilson Goes Bilingual—'Dopts' Dixie Dialect

By EARL WILSON

NEW YORK—After a fast trip to Washington the other day, I came back talkin' Southern. . . I was drippin' expressions like "Lord hee hee." . . . "Pull up a cheer and set a spell!" . . . "Pass the braid and butter" and "Ray for Texiciss!"

WILSON

Washingtonians don't talk like that, so I figured out that Southerners in the capital must be talking more—or maybe just louder—since they got so mad at President Kennedy and Bobby Kennedy.

"We got to farm," one Georgia boy said. "Farm!" I said. . . "Yeehh! Farm off the payroll!" he explained.

My suddenly-acquired Southern accent wasn't much help—I mean help to me covering Janet Blair's opening at the Waldorf Empire Room. Playing "Bubbles Bailey," the soap bubble girl, she did a TV spoof which she called "the first commercial spectacular"—no show, only commercials—with such song hits as "We Can't Give You Any Thing But Soap, Bubbles," and such slogans as "Are you bathing more but enjoying it less?"

An Alabama gentleman with me said, "That gull talks like she's from Balmer."

"Balmer?" I said. . . "Yeehhhh. Balmer, Mellund!" he said.

A Georgia writer has been saying JFK mispronounced "interest"—that he says "inter-EST" as though thinking of 6 per cent interest.

I want yawl to know that ah realize that rat cheer in Nuh-yark City we also talk strangely. It's proly becuz fuh yizz weeze said words like Coco-Coler and Pepsi-Coler and now we figger they're poifels.

THE MIDNIGHT EARL . . .

Aristotle Onassis' romance with an international titled figure could make world headlines. . . . Illustrator Russell Patterson was dragged 50 feet by a taxi, broke an ankle in two places and landed in Roosevelt Hospital. . . . Mrs. Tony Quinn reacts she doesn't want a divorce despite Tony's anticipated parenthood again. . . . Shirley MacLaine and Bob Mitchum, her recent leading man, are both in town but don't try to make anything of it. Shirley went to see Ebel Merman at the Persian Rm. with her brother Warren Beatty, who dated Renata Beck.

It's virus time, Pussycats! Jack Paar, who stayed healthy while interviewing Dr. Albert Schweitzer in disease-infested Africa, came home, got a few whiffs of our changing temperature and exhaust fumes, and a look at his crabgrass, and came down with a virus forcing a 48-hour postponement of his TV taping with Liberace and others. . . . George Anderson saw this switch on a movie marquee out there in Columbus in G's country: "Shirley MacLaine & Jack Lemmon in 'Irms La Douce,' Kiddie Matinee Saturday & Sunday."

TODAY'S BEST LAUGH: Actor Joe Silver saw a Greenwich Village character carrying a sign that said only: "Down With!"—he hadn't made up his mind yet.

EARL'S PEARLS: Some men acquire a large vocabulary by marrying it.

Comic Jackie Vernon reveals in his offbeat routine that artist Toulouse Lautrec was very superstitious: "For example, he refused to walk under a black cat." . . . That's earl, brother.

Erhard Seeks Europe Unity

Pledges Cooperation in DeGaulle Talks

PARIS (AP) — West German Chancellor Ludwig Erhard said today he considers French-German cooperation and European unity as the first steps toward a larger Atlantic union covering political, military, economic and social affairs.

At the end of two days of talks with President Charles de Gaulle and other French leaders, Erhard said French-German cooperation was a driving force in the policies of his government.

"I consider continuance of this work without respite as one of my primary tasks in foreign policy," Erhard said in an address prepared for delivery before the French Diplomatic Press Association.

He noted that there had been delays in forging European political union because of differences among the approach. But he said he believed common political institutions should be set up if Europe is to claim her rightful place in the world.

Erhard continued:

"U.S. ENCOURAGEMENT
"The United States of America, which cooperates closely with us, has the right to claim the great merit of having encouraged European union with all its force a long time ago."

"This common and reciprocal action of Europe and America offers the world today the best alliance itself and the engagement with the rest of the world fulfilled."

"As far as the deepening of friendship between our two countries (France and Germany), no one could be more favorable than I; but I am frank enough to add that in my opinion the historical, political and ethical value of this reconciliation lies in great part in the fact that the whole of free Europe will realize its common destiny and will throw the bridge over the Atlantic for our political, military, economic and social life."

These Hijackers Vanished With Cloud of Smoke

LOS ANGELES (AP) — A gang of hijackers is smoking more these days, and the driver of a cigarette van is enjoying it less.

Eugene Plett, 24, of La Mirada, told police yesterday he made a delivery in Norwalk and then picked up a hitchhiker in white coveralls whom he'd given a ride the week before.

The man drew a gun and forced Plett to drive to Dairy Valley, where he was tied and blindfolded. Plett said he heard another car pull up and three or more men joined the first. Then they drove for about 45 minutes, Plett said, finally abandoning him and the empty van in a Gardena Alley.

Plett said the men got away with about \$12,000 worth of cigarettes.

More than 65 million packs of playing cards have been manufactured in the U.S. since the end of World War II.

Ask Removal of Certificates

LANSING (UPI) — State Health Commissioner Dr. Albert E. Heustis called today for the removal from laboratories of medical certificates required for marriage licenses.

"Only licensed physicians have need of these forms, and only they are eligible to complete them," Heustis said.

The commissioner sent letters to all county clerks and local health officers to pick up any of the certificate forms now held by state laboratories.

His action was prompted by the disclosure this week that two labs in the Detroit area allegedly issued illegal certificates.

The certificates require a doctor's signature in the presence of the marriage license applicant and examination to certify that the person is free of venereal diseases.

Answer to Previous Puzzle

Experience Is Frustrating

Reds Keep Trying to Cause Africa Strife

By PHIL NEWSOM
UPI Foreign News Analyst

Although not one of Black Africa's 26 newly independent nations has gone Communist, Soviet Russia never stops trying.

These efforts are both open and subversive and recent days have provided two more examples. In Leopoldville, the Congo, Congolese police roughed up and held two Soviet diplomats accused of carrying compromising documents.

The Russians have been suspected of backing a Congolese government-in-exile.

Moving openly in Somalia, the Russians closed a deal to help equip a Somali army of 20,000 which, according to Western experts, is far larger than the country needs and which, it is feared, is intended for use against Somalia's neighbors, either Ethiopia or Kenya.

Washington estimates of Soviet arms exports since the first deal with Egypt in 1955 place the total at around \$3 billion.

Probably the best customer has been Indonesia which has received about a third of the total. Also high on the list is Cuba.

A Chip Off the Docket

PHILADELPHIA (AP) —

The Alessandrini family had a new lawyer today. Eugene V. Alessandrini, 2nd, 26, son of Pennsylvania Atty. Gen. Walter E. Alessandrini, was sworn in Thursday by his great-uncle, Judge Eugene V. Alessandrini of Common Pleas Court, on a motion by his father.

Also present were his grandfather, Joseph Alessandrini; his uncle, Joseph Jr.; and his great-uncle, John, all lawyers.

Since these weapons were intended either for use against governments friendly to the West or at least to stir up trouble for the West, a summary put together by analysis of Radio Free Europe is interesting.

RUSSIAN ARMS

Some idea of the scale of Soviet arms shipments to Egypt may be had from the fact that in the Sinai clash with Israel, the Israelis captured more than 300 Soviet-built T54 tanks, about 600 guns and about 4,000 Soviet-made jeeps or tanks.

Moscow also has delivered to the UAR submarines, destroyers and torpedo-boats.

But despite this outlay, local Egyptian Communists continue to rest in Egyptian jails.

In Black Africa, Guinea bought some 8,000 rifles and some armored vehicles from the Soviet Union and then proceeded to kick out the Soviet ambassador.

COSTLY MISTAKE

Iraq also so far has been a costly mistake. The country has modern T54 Russian tanks, Mig 21 jet fighters and Soviet transporters.

Yet Iraq oil continues to flow to the West. Kuwait is still "unliberated" and the most use the weapons have has been against the Kurds who receive at least the tacit support of the Soviet Union.

Afghanistan obtained both Migs and small arms from the Russians as a threat against pro-Western Pakistan. But when Pakistan began flirting with Red China, the Russians decided to compete with Peking for Pakistan favors.

The Indonesian armed forces, despite huge supplies from the Soviet Union, remain under what is basically an anti-Communist leadership. The Indonesian Communist Party is siding with Peking against Moscow.

SUCCESS STORY

Cuba represented one of the Soviet Union's greatest post-war success stories. Yet Cuba now is reported shopping around in Western Europe in an attempt to reduce its dependence upon Russia and Castro has sided with Red China in refusing to

sign the partial nuclear test

ban.

The Radio Free Europe analysis concludes: "If the Soviet arms export drive was aimed at acquiring political leverage in the underdeveloped countries, it has on balance been a costly failure."

Negro Official's Home Hit by Shotgun Blast

BALTIMORE (AP) — A shotgun blast Thursday night shattered the living room window of a Negro adviser to the Baltimore Urban Renewal and Housing Agency who lives in a white neighborhood.

William S. Taylor told police the blast came within six feet of where he, his wife and his mother-in-law were sitting. No one was hurt.

No Romance With American 'Publicity Nut'

PARIS (AP) — "He's a nut — probably just someone who wants a little publicity," said Gina Lollobrigida today of an American businessman who claims a "warm friendship" with her.

J. H. (Rick) Ricciardi said in Miami Beach that he and

the Italian actress might spend the Thanksgiving holidays in the Bahamas together.

"I vaguely recall meeting him in London but I can't remember exactly," said Gina through her press agent.

"There's certainly no romance between us."

Gina has been married to Dr. Milko Skofic for 14 years. They have a son. Rumors repeatedly have cropped up that the marriage is shaky, but Gina refuses to comment.

Impounds Million Pounds

Mover Has Goods on Army

AUGUSTA, Ga. (AP) — More than one million pounds of household goods owned by military families stationed all over the world

have been impounded by a man who claims the government owes him \$23,539 for storage.

J. W. Spence, president of Spence Transfer and Storage Co. Inc., of Augusta, is confident the money will be forthcoming.

"The first time a colonel somewhere wants his furniture and can't get it because I've got it locked up, I'll get my money," he said last night.

Spence said he would not release any government shipments until he was paid \$23,539 for services rendered prior to and since Aug. 16, 1963.

FIRM DISQUALIFIED

On that date his company was disqualified from participating in the movement of household goods from nearby Ft. Gordon and also disqualified as agents for national household goods carriers contracting with Ft. Gordon.

At that time, Maj. Gen. Eugene A.

Salet, Ft. Gordon commander, said Spence was participating in activities which were not in the best interest of government. The Federal Bureau of Investigation is still investigating the case.

Spence reported he was getting the run-around by the government.

"I have not been told why I was disqualified... I've been discriminated against and treated unkindly," he said. "The only answer when I call (Ft. Gordon) is 'We're not allowed to discuss it with you.'"

LOSES BUSINESS

He estimated that in addition to the \$23,539 he's lost about \$50,000 in business from Aug. 16 until the present as compared to previous years.

"I fully expect to be reinstated to do business at Ft. Gordon," said the native of Augusta. "I'm as qualified as anyone in the United States. Our service is second to none."

Meanwhile, Spence is holding 468 lots of household goods which belong to Army families and waiting for a colonel somewhere to pick up a telephone and demand his furniture.

Reds Hit U. S. Over Convoys

MOSCOW (AP) — The Soviet Union accused the United States today of trying to make the rules for Soviet policing of Western convoy traffic on the Berlin autobahn. The Russians warned they would not permit this.

A Russian note to the U.S. government rejected an American protest over the stalling of a U.S. Army convoy for 42 hours Nov. 4-5 because the Americans refused to dismount from their vehicles and be counted.

The Soviet reply renewed the threat of more interference with Allied troop convoys on the 110-mile highway between West Berlin and West Germany.

The Allies insist they have the right to move on the autobahn as they like.

KREMLIN NOTE

The Kremlin note said: "The claims of the American authorities to establish at their discretion the range of duties and manner of action of Soviet representatives at the checkpoint in checking American servicemen are in general absolutely untenable."

Since Oct. 10 the Russians (Continued on Page 2, Col. 4)

City Teamster Gets Probation

Convicted of False Entry, Embezzlement

Pontiac Teamster Local 614 President Logan Harrelson was placed on two years probation in Detroit's Federal District Court today for embezzling union funds and falsifying union records.

Harrelson, who was sentenced by Federal District Judge Fred W. Kaess, was convicted by a jury Sept. 13 of two embezzlement counts and two counts of records falsification.

The verdict came after a four-day trial in which Pontiac caterer Maurice Croteau testified he accepted two local 614 checks totalling \$500 from Harrelson to pay payment of a 1960 campaign advertisement.

PHONY RECEIPTS

Croteau said he gave phony catering receipts for the checks because he was asked to do so.

Harrelson's conviction bars him from holding a union office under the Landrum-Griffin Act, the law under which the charges were brought.

Two weeks after the trial, Judge Kaess denied a defense motion for acquittal on grounds that the embezzlement indictments were improper and the charges should have been "convicted of union funds to another."

Conviction on such conversion charges would not have barred Harrelson from holding union office.

Harrelson has remained as Local 614 president pending a possible appeal, however.

The advertisement at issue in case was part of an unsuccessful campaign against a Pontiac city charter amendment that permitted the city to fireproof Police Chief Herbert Straley.

Congo Is Expelling Russian Mission

LEOPOLDVILLE, The Congo (AP) — The Congolese government is expelling the Soviet diplomatic mission from Leopoldville for the second time in three years but Premier Cyrille Adoula says he is not severing diplomatic relations with Moscow.

The premier charged the Russians yesterday with subversive dealings with antigovernment exiles across the Congo River in Brazzaville.

Adoula set no deadline for Soviet Ambassador Sergei Nemtchinov and his 100-member mission to leave.

He said this would be covered in orders from the security police, adding that he thought the Russians probably would be given 48 hours.

Adoula said his government will consider the credentials of any new diplomats the Soviets might want to send.

He warned that the Russians will not again be allowed to maintain such a large staff.

NO REACTION

There was no immediate Moscow reaction to the expulsion order.

Adoula indicated he was aware the Soviets might retaliate by breaking diplomatic relations.

Adoula said he did not have sufficient proof to support charges by members of his government that other Communist bloc nations and the United Arab Republic also were trying to subvert his government.

The expulsion order came two days after two Soviet diplomats were manhandled and arrested on their return from Brazzaville, the capital of the Congo Republic.

Officials said documents found on them proved that they had been in contact with anti-government exiles, led by Christophe Gbenye, head of a Lumumbist group, and Andre Lubaye, a Kasai extremist leader implicated in a recent plot to arrest or murder members of Adoula's government.

The Soviet government delivered a stiff protest against the treatment of the diplomats, and U.N. Secretary-General U Thant appealed to Adoula to give them diplomatic protection and immunity.

County Grid Stars Picked Tomorrow

Tomorrow is the day outstanding football players of Oakland County will be honored.

The annual All-Oakland County football team, along with the honor teams in classes A, B and C, as chosen by coaches with cooperation of The Pontiac Press, will be found in Saturday's Gridiron Green.

Football fans won't want to miss it!

Box Contains \$1 Million of Mrs. Williams

DETROIT (AP) — More than \$1 million in securities and cash was found yesterday in the safe deposit box of the late Mrs. Henry P. Williams, mother of former Michigan Gov. G. Mennen Williams.

The inventory, made by Wayne County Treasurer Louis H. Funk and the administrators of her estate, included more than 41,000 shares of stock in 67 different firms, bonds valued at \$171,900 and \$10,000 in cash.

Mrs. Williams' will leaves the bulk of her estate to nine grandchildren. It was filed Tuesday. She died Saturday at 80.

Parents Hit School Board With Segregation Charge

A Pontiac parent group charged the school board last night with "de facto segregation" in some local schools.

Charles E. Billings, 236 Gage, stating he represented a parent group, said Pontiac has several elementary schools that are totally segregated, one junior high.

Jefferson—totally segregated, and another junior high — Eastern—rapidly becoming segregated.

"In our opinion," Billings said, "this type of classroom situation presents an extremely unhealthy school atmosphere for all students in the Pontiac system, particularly the Negro child."

Billings was accompanied by Dr. Eliezer M. Gorman who said he was a spokesman for the local chapter of the National Association for the Advancement of Colored People.

Billings told board members that a 1954 Supreme Court decision declared the "separate but equal" doctrine unconstitutional and said it applied to "any segregated school district in this nation."

He asked the board to submit a plan of action (to end any school segregation in Pontiac)

by the beginning of the second term.

"We firmly believe that before the residents of the Pontiac School District are asked to support a renewal or an improvement in the school millage," said Billings, "a definite course of immediate action should be revealed to the school community."

William H. Anderson, board president, denied Billings' charges.

"We have no segregated schools as such," Anderson said. "If they are segregated, it is because of housing patterns and we have no control over housing patterns."

Billings replied that his group, which has "no more than 50 members," was "concerned with the condition, not the cause."

BOARD TO CONSIDER

Anderson, who was the only board member to reply, said the board would take the matter under consideration.

CENTER LINE (AP) — A rock thrown by a bank teller led to the arrest of a state policeman on bank robbery charges last night, and the trooper remorselessly admitted the \$3,156 holdup, his superiors said.

Andy J. Salkovich, 32, a seven-year veteran of the force, was arrested at the Center Line State Police Post.

"If I could tell you why, I'd tell you — I just don't know," he told State Police Capt. Fred Davids.

Bank teller Frank E. Helson chased Salkovich from the National Bank of Royal Oak after the robbery yesterday afternoon and threw a rock that dented his car, police said.

A citizen told police "which way the car had gone, and officers alerted repair shops in the area. At Curbur's called to report the car had been in his repair shop and gave police the license number, officers said.

FATHER OF 3

Salkovich, married and the father of three children, faced arraignment today in U.S. District Court in Detroit.

"Salkovich gave every indication he was going through a hard time with himself," Davids said. He has been completely cooperative with fellow officers."

Davids believed Salkovich "didn't know himself" why he had robbed the bank.

Salkovich had his paycheck in his pocket and other money, too, when he was arrested, Davids said. The trooper had no known pressing bills, he added, and made \$7,224 a year as a trooper.

POINTED REVOLVER

A teller, Mrs. Gayle Robinson, 27, said a man with a brush haircut pointed a revolver at her, handed her a green plastic bag and said, "Fill it up."

Mrs. Robinson said she warned Helson as the bandit turned to leave, and Helson pushed the alarm button and chased the man out of the bank.

"I ran after him," Helson said, "but when he reached his car, the holdup man turned and looked at me. I calmly walked to a Buick, which was parked in front of his car, and pre-

(Continued on Page 2, Col. 2)

Warm, Rainy Prediction for Pontiac Area

Scattered showers may arrive any time through the weekend. Rain is forecast for tonight, tomorrow and again Sunday night or Monday.

Temperatures for the next five days will average 5 to 10 degrees above the normal high of 43 and normal low of 30. Tonight's low is expected to be near 45.

Winds southerly at 10 to 20 miles per hour today and tonight will shift to north to north-west at 10 to 25 m.p.h. tomorrow.

Forty-six was the low temperature in downtown Pontiac preceding 8 a.m. At 1 p.m., the recording was 56.

TWO TOP FAMILIES — Mrs. Jacqueline Kennedy chats with Mrs. Lyndon B. Johnson as their husbands stand by.

Kennedy Praises TFX Plane Before Audience in Texas

FORT WORTH, Tex. (AP) — President Kennedy praised the controversial TFX warplane today as he told Texans—whom he hopes will help elect him in 1964—that their state ranks fifth in prime military contract spending.

The President scheduled major speeches also in Dallas and Austin during a busy day. He and his wife will spend tonight at the ranch of Vice President Lyndon B. Johnson near Austin.

Johnson and his wife accompanied the Kennedys on the pre-

idential campaign tour of Texas. Kennedy avoided direct comment on the Senate investigation subcommittee's inquiry into the TFX—tactical fighter, experimental—contract award to General Dynamics Corp.'s Fort Worth division in a speech prepared for a bipartisan breakfast arranged by the Fort Worth Chamber of Commerce.

OTHER OFFER

The subcommittee has heard some testimony that the Boeing Co. of Seattle, Wash., offered a cheaper and better plane.

"There has been a good deal of discussion of the long and hard-fought competition to win the TFX contract but relatively little discussion of what this plane will be able to do," the President said.

He said that once it is in operation it will give the free world an aircraft that no other on earth can match.

"It will be the first operational aircraft ever produced that can literally spread its wings in the air," Kennedy said.

SPENDING IN TEXAS

Hitting a theme he also sounded at Houston Thursday night, Kennedy said that one of every 30 dollars of prime military procurement contracts is being spent in Texas. He added that the state also has a combined military—civilian Defense Department payroll of more than \$1 billion a year.

"I do not recite these facts for partisan purposes, nor are they the result of any partisan effort," he said. "They are the result of the state's contribution to that strength."

Campaigning with all his vigor of 1960, the President appeared well on his way toward enforcing a unity among Texas Democrats he regards as vital to his reelection in 1964.

Although there was no concrete milestone to mark the President's progress, Kennedy put his political arm around Sen. Ralph Yarborough. His action made it unlikely that either Gov. John B. Connally or Vice President Lyndon B. Johnson would fight the liberal Texas senator in this spring's party primary even had they wanted to do so.

DEMOS DISAGREE

Disagreement among Democrats in the state, which the President carried by 46,233 of 2.3 million votes in 1960, and needs badly next year, rests on a long-time controversy about the party's liberals and conservatives.

Connally has been hostile to Yarborough's re-nomination for the Senate. There was no outward sign of Johnson's opposition.

But the vice president and Connally have been close political allies and Yarborough has chafed under Johnson operations. He thinks have denied him patronage he should have had.

(Continued on Page 2, Col. 4)

Jackie Returns to Political Life

Audience Charmed in San Antonio Visit

FORT WORTH, Tex. (AP) — Jacqueline Kennedy, perhaps reluctantly, is back in politics and she's a good campaigner.

Her smile charmed thousands in San Antonio, Houston and Fort Worth Thursday as she began a three-day Texas tour with her husband, the President.

She made a speech and drew cheers and applause. She ignored the well charted plans of Secret Service agents and shook hands with hundreds who were forced to stay behind rope barricades.

When the Kennedys arrived at Carswell Air Force Base outside Fort Worth shortly before midnight Thursday, and First Lady walked several hundred yards along a roped barrier, shaking hands and chatting with the crowd.

Handshaking Act

Again when the Kennedys reached the Fort Worth hotel where they spent the night, they headed for the nearest throng and went through their handshaking act.

Pamela Turnure, Mrs. Kennedy's press secretary, was asked if the First Lady had enjoyed the experience.

"She loved every minute of it," said Mrs. Turnure.

It was the first day of the first stump tour Mrs. Kennedy has made with her husband since he became the Democratic nominee for President in 1960.

Rocket Due to Put U. S. Past Russ

Audience Charmed in San Antonio Visit

FORT WORTH (UPI) — President Kennedy said today the United States early next year will test a rocket booster so powerful it will put the nation far ahead of Russia in the space race.

The President, campaigning as though it were election time in Texas, told a rain-soaked, cheering crowd outside his hotel that the rocket booster will be the most powerful in history.

The crowd, estimated by police at 5,000, roared approval.

The integrated audience in a parking lot outside the Hotel Texas where Kennedy and his wife spent the night cheered his call for "concerted effort" to win success in space.

FAR AHEAD

He told the crowd the Saturn rocket booster will put the United States far ahead of the Soviets in thrust and in the payload it can carry.

The President spoke briefly to the crowd. He stood bareheaded and without a raincoat despite the chill rain.

He apologized for the absence of Mrs. Kennedy, but explained that it took the First Lady long to get organized in the morning—though she "looks better than we do" when she is finished.

Vice President Lyndon B. Johnson introduced the President. He was flanked during his talk by Johnson, Sen. Ralph Yarborough and Gov. John Connally.

No Draft Seen by GOP Chief

GERTRUDE C. NOVAK

Widow Stirs Baker Probe

Tied to Senate Aide by Husband's Affairs

WASHINGTON (AP) — The testimony of a Washington widow has opened new avenues of Senate investigation into the tangled business affairs of Robert G. Baker.

Chairman B. Everett Jordan of the Senate Rules Committee gave this word to newsmen Thursday after Gertrude C. Novak had been questioned in secret for 2 hours.

The North Carolina Democrat said Mrs. Novak had supplied some documents on dealings with Baker by her late husband, Alfred, Jordan said the matter did not get into the matter of Novak's death—it occurred in March 1963 and was ruled a suicide—but will do so later.

Baker, 35, resigned as secretary to the Senate's Democratic majority Oct. 7 amid allegations that he used his position to further his private business interests. Among them was a luxury motel at Ocean City, Md., which he operated with Novak and Novak's brother, Donald.

NOT IN TOUCH

Jordan said that as far as he knew, the committee, its staff and its investigators have not been in touch with Baker since the inquiry began. It was authorized two days after Baker resigned.

He said that Baker will be called when the committee is ready.

To newsmen's questions, Mrs. Novak said there was no connection between the Baker case and her husband's death. Of her examination by the committee she said only that it was "very thorough."

Mrs. Novak has been an employee of the Senate Small Business Committee for 13 years.

After her husband's death she became Baker's partner in the motel operation.

ST. LOUIS (AP)—Republican National Chairman William E. Miller warned GOP presidential hopefuls they will have to work for the Republican nomination because there will be no draft candidate.

"I think anyone who wants the nomination in 1964 ought to be about it right now," Rep. Miller of New York said. "Anyone who just sits by expecting to be drafted will be disappointed."

Thus far, he said, it appears that the nomination will go either to Gov. Nelson A. Rockefeller of New York—who has been announced as a candidate—or Sen. Barry Goldwater of Arizona— "Who it seems to me will soon announce."

"I believe former Vice President

Richard M. Nixon when he says he is not a candidate and does not intend to be a candidate," Miller said.

ENTER PRIMARIES

Miller called for Republican presidential aspirants to enter state preferential primaries. He said if anyone won all the primaries—as President Kennedy did on the Democratic side in 1960—the Republican convention could not deny him the nomination.

Miller is in St. Louis for a two-day, 15-state regional Republican meeting that ends Saturday.

He expressed optimism about Republican chances in 1964 to win the presidency and a majority in the House of Representatives.

He told a news conference the Republicans would gain in the South, Midwest and Texas, where "Kennedy had better get political or he just might be in trouble there."

TARGET AREAS

Rep. Robert Wilson of California, chairman of the GOP Congressional Campaign Committee, said the party has designated 23 congressional districts in the Midwest as target areas. Republicans hope to pick up 11 or 12 seats in these areas, he said.

He declined to name specific districts, but said the GOP expected to pick up an additional congressman in Ohio, Illinois, Missouri, Indiana, Kansas, Nebraska, Iowa, Michigan, Wisconsin and Minnesota.

"We hope to gain at least 20 congressional seats in the South," Wilson said. "This is in some areas where we have not had a candidate before."

Policeman in Holdup

(Continued From Page One)

tended to get into it as he watched me.

"He hit a car as he drove out and I picked up a stone and struck his car with all the force I could muster," added Helms, of Southfield, a student at Wayne State University.

David said Salkovich told him of being chased by a bank employee. He quoted the trooper as saying: "Expected when I came to it. It would have been so easy to turn around and put the gun on him."

Salkovich was driving a car he had borrowed from a fellow trooper while his own was being repaired, David said.

Cutrupe, 69, father of the shop's owner, said Salkovich was in the shop, waiting for employees to paint the denting "new" fender, when FBI agents stopped in with descriptions of the holdup car.

IT CHECKED

"I looked at the description, and I went back in the shop and looked at that car," Cutrupe said. "It checked and I called the police after the trooper went away."

Salkovich's commanding officer, Sgt. Walter Stevens, made the arrest.

"He was a good officer. Stevens said after turning Salkovich over to FBI agents. "It's just one of those things that happen. You know how it is—sometimes your mind plays tricks on you."

Salkovich was a patrolman on the Oak Park police force for 18 months before joining the state police in 1954. He is a graduate of both the Detroit and state police academies.

Avert Strike at Pontiac Division

A threat of a strike at Pontiac Motor Division was averted early today when union and management negotiators reached agreement on grievances and other issues.

The settlement came at 12:30 a.m. to climax four weeks of daily negotiations. If agreement had not been achieved a strike deadline was set for 7 p.m. today.

"All operations at the Pontiac home plant will continue in their normal manner," stated T. B. Bloom, personnel director.

John Maye, president of UAW Local 653, said the package settlement has been approved by the union bargaining team and UAW International. It does not require membership ratification he said.

SPEEDUPS, GRIEVANCES

Maye said accord was reached on 179 speedup complaints and over 100 safety grievances.

Settlement of speedup issues will result in Pontiac Motor hiring a number of new workers, Maye said, but he would not specify how many.

For the first time the company and union established "model mix" formulas for the sequence in which different Pontiac and Tempest models will move along assembly lines, Maye explained.

Future safety grievances will be immediately referred to a meeting of the plant supervisor or the worker, and his union representative, Maye said, rather than be delayed for action on other levels.

NOT PAUL BUNYAN—This modern lumberjack doesn't need Paul Bunyan's strength to carry this tree. The tree, one of almost 500 being constructed for the General Motors

exhibit at the New York World's Fair, weighs only about 50 pounds. Built in Detroit, they will be used to landscape part of a Futurama "ride into tomorrow."

Reds Hit U.S. on Convoys

(Continued From Page One)

have held up three American convoys and one British convoy at Soviet checkpoints on the autobahn because the convoy commanders refused to allow their men to be combed.

During the six-week period since Oct. 10, a number of other Allied convoys with fewer than 30 passengers have made the autobahn trip without interference.

The Russian note charged that the Americans artfully provoked the delay Nov. 4-5 and that it was a result of "unfortunate actions" by U.S. officers in charge of the convoy. It said "some irresponsible American officer could spark off dangerous incidents."

It warned that "the entire responsibility for possible undesirable consequences of the violation by American servicemen of control procedure at Soviet checkpoints, will rest entirely with the American side."

To Aid Private Schools Educator Charges Plot

PORTLAND, Ore. (AP) — A prominent educator charges a vigorous campaign has been mounted, in and out of Congress, to provide federal funds for private and parochial schools all the way from kindergarten through college.

Edgar Fuller, executive secretary of the Council of Chief State School Officers, made the charge in his annual report to the council. The council adopted it without a dissenting vote in a closed convention session Thursday.

Fuller said "the campaign is active and gaining strength. Unless it is blunted the public schools will be financially undermined in thousands of American communities."

The council is an organization of state superintendents and commissioners of education from the 50 states and from U.S. possessions overseas.

The council, Fuller said, is committed by policy "to oppose any legislation which would splinter the public tax dollar for distribution to private institutions of education at any level for the institutional use of the schools or colleges."

The council does not object, Fuller said, to the use of federal funds by private colleges and universities "for such noninstitutional uses as research contracts, scholarships, fellowships and the like."

Texans Hear Kennedy Talk

(Continued From Page One)

the state's only Democratic senator.

The other Texas senator is Republican John Tower.

Without saying a word, Kennedy signaled his intentions by inviting Yarborough to ride the presidential plane from Washington to San Antonio yesterday.

When the Air Force jet rolled to a stop Kennedy broke protocol by having Jacqueline Kennedy precede him down the ramp. The President usually goes first, but Texans are touchy about such matters.

Behind the presidential couple, Yarborough and Rep. Henry B. Gonzales, D-Tex., came down the steps waving and smiling. They were installed in the fourth car of a caravan which would 20 miles through Brooks Air Force Base.

Far enough back of the President, they got recognition from crowds which lined highways and the streets.

If all of this seemed to lack substance, the implications were not lost on Texas Democrats, skilled in the kind of poker the President was playing. The signs were rather plain that Kennedy was betting on Yarborough's renomination and wanted no feeding and fighting.

Birmingham Area News

City Youngsters Hoping Weatherman Is Wrong

BIRMINGHAM—Aw, c'mon, Mr. Weatherman—be a good skate!

That's the plea of Birmingham youngsters looking forward to the traditional Thanksgiving opening of the municipal ice rink at Lincoln and Eton.

The Recreation Department had been depending on a cold wave expected to hit the Midwest this weekend.

But, today the five-day forecast predicted rain, with temperatures in the low 50's.

NEED A FREEZE

Flooding of the rink would require four consecutive nights with below-freezing temperatures.

Daytime temperatures would have to remain below 40 degrees with no sun and no rain, according to Recreation Director Donald Martin.

"We would have to start flooding Sunday at the latest for a Thanksgiving opening," Martin said. He added that the rink would open "no later than next weekend."

Meanwhile, registrations for boys' hockey and children's learn-to-skate and figure skating classes are being taken at the ice rink office weekdays from 10 a.m. - 5 p.m. Hockey tryouts are to be Nov. 30.

OPEN SKATING

When the rink is opened, open skating will be scheduled from 6-8 p.m. weekdays. It will also be open from 7-9 p.m. Wednesday and from 7-9:30 p.m. Friday.

The Saturday schedule is 1-3:30 p.m. and 7:30-10 p.m. and on Sundays 1-3:30 p.m. and 6-9:30 p.m.

An open house will follow Monday night's business meeting of the Hickory Grove PTA. Scheduled for 8 p.m., the

meeting will feature inspection of the school's three new rooms. The Bloomfield Hills school is located at 2800 Laher.

Scott E. Lamb, 6301 Sheringham, Bloomfield Township, has been elected a trustee of Olivet College.

Chairman of the board of the Michigan Life Insurance Co., Royal Oak, Lamb attended Olivet for two years before transferring to the University of Michigan to specialize in banking, economics and business administration.

Mrs. Francis C. McMath, 3249 Broadway, Bloomfield Township, has been appointed to the newly formed planning and resources council of Skidmore College in Saratoga Springs, N.Y.

The council will aid the college's board of trustees in realization of a multimillion dollar program for a new campus.

Some 230 members of the Birmingham Newcomers Club welcomed 51 prospective members at a noon luncheon yesterday at the University House.

The 12-year-old club now has 604 members, according to President Mrs. Jack Bickhart.

Under the direction of Mrs. Ernest Jackson, the Drama Club presented a one-act farce, "Final Dress Rehearsal."

Dimitry Moskhe

Service for Dimitry Moskhe, 75, of 1465 Woodward, Bloomfield Township, will be 2 p.m. tomorrow at the D. E. Pursey Funeral Home, Pontiac. Burial will follow in Oak Hill Cemetery, Waterford Township.

Mr. Moskhe, an employee of the Detroit Free Press maintenance department, died yesterday after an illness of two months.

Pontiac Northern Organizes Basket Drive

By SUSAN KILLEN

This year, as in the past, the Pontiac Northern High School student council has organized the giving of the Thanksgiving baskets.

Homerooms will each receive the name of a needy family from Vernell Duffy, assistant principal and sponsor of the Northern student council.

The homeroom has charge of the makeup of a menu. These items are then assigned to the various members of the room, who, in turn, bring them to the school on or before the Wednesday deadline. The various rooms also collect money and shop for the turkey to finish the basket.

This task, which has become an annual tradition at PNH, is being undertaken by approximately 50 homerooms in the school.

The PNH band has been very active this year. They have performed at all of the home football games, one away game and two pep assemblies.

To arrange their plans for

these various appearances, the band often meets before school. At this time, uniforms are assembled and marching methods are practiced.

The band is under the direction of Eldon Rosegater this year. In 1958, the PNH band had only 12 members. During the six-year history of the school, the group has grown to 50 members.

The band has a large list of student staff members. They are assigned an array of tasks. Secretary for the group is Paula Dally. The equipment managers are Jerry Stoner and Robert Carr.

In charge of the distribution of all music are Leta Stanley, Phyllis Hardy, Virginia Cheek and Mary Huemiller.

The set up committee is comprised of John and Richard Padene, Dan Henson and Duncan Wood.

Other jobs handled by band members include the care of uniforms and yard marking details. The latter job consists of marking the fields for the marching routines.

In the spring, a formal banquet will be held. During this time band monograms are issued on the basis of service and longevity.

Members are now able to purchase a letter sweater, somewhat similar to that of the athletes.

Annual Game Is Tonight at Walled Lake

By SUE GERVAIS

Walled Lake High School's annual student-faculty basketball game will be played tonight at 8 p.m. Seniors John Slinker and Wayne Meriva are in charge of the faculty and senior teams, respectively.

Participating teachers are Howard Chesworth and Leo Folsom of the social studies department; Bob Bolton and Frank Merck of the mathematics department; Al Ropke, Jerry Shelata and Don Waymire of the commercial department; Ron Bentschler of the counseling staff and Alexander Zerna of the vocal music department.

All senior boys who have been practicing under the coaching of senior Jim Broome, will oppose the faculty.

Cheerleading practice for senior girls, who will root for the students, have been handled by junior Pamela Jeffery, Shirley Brown, cheerleading sponsor and Carol Mero, cheerleading captain, have selected ten girls who will cheer in the game.

FACULTY CHEERS

Varsity cheerleaders, who will cheer for the faculty, have planned a pre-game skit.

A dance, sponsored by the student council and organized by senior Andy Coleman, will follow the game.

Other School News Throughout Week

BHHS Will Present 'Life With Mother'

By TERI SEIBERT

Seniors will present "Life With Mother," a comedy by Clarence Day, tonight and tomorrow at 8:15 a.m. in the Bloomfield Hills High School little theater.

The play concerns a mother's desire to obtain an engagement ring for her son's fiancée.

Since the engagement lasts only a short while, mother, who never owned an engagement ring, ultimately receives the ring.

Mollie Anderson, Eric Linder, Robert McGonigal, Sara Peterson and Stacy Warrick will assume leading roles in this presentation.

DEBATE TO OPEN

Debate will begin Tuesday when BHHS will oppose Brighton and West Bloomfield. "That the federal government should give medical aid to all citizens at public expense" will be the issue of this year's debates.

Nine debaters will participate on the team this year. The students include Robert Uzelac, who has been a member of the team for the past three years, Cliff Cook, Gerty Eason, Robert Fink, Robert Kuch, Harry Quackebush, David Reuther, William Thomas and Gretchen Twitmyer.

Clarence Sloum, BHHS history instructor, supervises this group.

Fifteen choir members attended the annual Michigan School Vocal Association clinic recently at Oakland University.

Five similar music clinics were held throughout the state.

Pontiac Press Photo

LONG REACH — Bob Bolton, basketball coach at Walled Lake High School, shows students (from left) Tom Green of 770 Wolverine Drive and Jim Broome of 465 Welland

Drive how to outfox the opponent. The annual student-faculty basketball game will be played at 8 p.m. tonight.

Christmas and Basketball

PCH Activities in Line for Big Seasons

By DIANE OLSEN

Activities have already begun at Pontiac Central High School for the coming Christmas and basketball season.

The senior girls' ensemble, a vocal group of 17 that meets three times a week, has elected officers. They are Ros Surawitz, president; Linda Fought, vice-president; and Joyce Livingston, secretary.

treasures. Sponsor of the group is Robert Satterfield of the music department.

Earlier this week a group of girls interested in physical education instruction visited Eastern Michigan University to participate in "Major Day."

Those attending lectures and activities were Mary McKim, physical education instructor, Margie Swan, Cam McDowell, Jill Dearing, Stephanie Bennett and Janet Goldman.

Central's "Hi-Y," under Lester Mack of the science department, recently elected officers as officers Chris Fitzgerald, president; Bob Gibbs, vice-president; Tom Kampen, secretary; and Jon Hartman, treasurer.

The ushers club, advised by Maurice Levine of the science club, is one of the many service organizations at Pontiac Central. Newly elected officers of this club are Diana Scribner, president; Sharon Hershberger, vice-president; and Rosemary Armistead, secretary.

A hootenanny will be held at

At St. Michael High

Students Receive Missions

By MICHAEL OMANS

A religious air has spread through St. Michael High School as boys and girls were given by two fathers of the Precious Blood order.

Freshman girls have spiritually adopted seminarians, praying for them until they are ordained. Upon ordination, these girls may attend the first Mass of the spiritually "adopted" priests.

Richard Steinbocker, captain of the football team, has received the Optimist Club of Pontiac award for St. Michael.

Richard was presented with a certificate of merit at the annual football award luncheon Thursday noon.

DELEGATES REPORT

The Sodality met this week to hear reports from their two delegates, Margie Heck and Patricia Klein, on their trip to Chicago for the national convention.

A new theory of teaching current events through debate has become a prime instrument in Lee Coyale's history classes.

Debateurs discuss both national and international subjects pertaining to current events.

The Legion of Mary will present a "Swing and Sway the Legion Way" dance tomorrow night in the parish hall. The dance is open to all students who attend Catholic schools in the Pontiac area and will last from 8 to 11 p.m.

WKHS Members Visit East on Hi-Y's U.N. Study Trip

By JOY MCREYNOLDS

Recently three members of the Waterford Kettering High School Hi-Y journeyed to New York City for the annual United Nations study trip.

Participating in this year's program with students from other Hi-Y members from the Detroit and Pontiac area were John Dunham, Leonard McPherson and Benjamin Van Lein.

Purpose of the trip was to gain insight into the workings of the international organization. Participants attended committee meetings and a session of the U.N. general assembly.

Also highlighted were a tour of the United Nations building and visits to the American and Russian missions.

OTHER LANDMARKS

Although time for sightseeing was limited, the WKHS representatives did manage to visit the Empire State Building, the Statue of Liberty, Greenwich Village, Chinatown, Broadway and the Radio City Music Hall.

The Waterford Kettering French club, an organization for students at all levels of French study, is designed to give greater knowledge and appreciation of that culture to interested students. The club strives to tell why French is considered an important European language.

Format of the club includes informal discussions, lectures by guest speakers, film strips, and records, all directed toward acquainting the students with literary and artistic heritage of the French culture.

A business meeting this afternoon was highlighted by the election of new officers. A field

trip to a French restaurant has been planned for later this year.

The shorthand II-transcription class of Mrs. Maureen Luthi recently visited the Oakland County Board of Education Data Processing Center. Among the facilities observed were electronic computers for payroll and scheduling operations.

The season will soon open the varsity wrestling team. Among the 40 boys participat-

ing, 15 are returning from last year. Seven are lettermen.

Now in its second year of varsity competition, the team has scheduled its first meet against Southfield Dec. 3.

Coaching the squad are Gaylord Thompson and James Tolla. A hootenanny and dance, "Meelin' at the Village Square," will be sponsored by the sophomore class tonight from 8 to 11 in the WKHS gym.

Pontiac Press Photo

DANCE PLANNED — Avondale High School students Pam Saunders of 116 Oakmont, Auburn Heights, and Steve Blomberg of 2767 North Grant Street, Pontiac, are ready for the 'Sadie Hawkins' dance Wednesday from 8 to 11 p.m. This year the dance will be sponsored by the junior class.

Area Students on the Go

ST. FREDERICK

By KATHY CARRY

Excitement has been mounting this week among the sophomore class members at St. Frederick High School. They will make their debut in the social world tonight when they sponsor their first big dance, "The Plymouth Rock."

Dance chairman include Pat Garland, Maribeth Shore, Karen Larson, Tom Wright, Bridget Scully, Jacki Anderson, Marc Brach, Gordy Devon, Diana Carr and Mary Nevels.

In preparation for the opening of basketball season next Friday, the Rams will play two scrimmages: one tonight and another Tuesday night.

Sorrow came to St. Frederick this week as Sister Francis, sister of Sister Ann David, senior home room adviser, passed away suddenly early this week. Service and junior classes attended the funeral in Monroe Thursday morning.

OUR LADY OF THE LAKES

By LYNNE SPRINGER

Our Lady of the Lakes High School juniors are looking forward to receiving their class rings and having them blessed at the 12:30 p.m. Mass Sunday.

The shield of the Dominican Order, that of our teaching sisters, and "Crown of Our Lady" make up the crest of the rings.

The juniors will be honored by the sophomore class at a breakfast in the high school gym following the blessing.

Wes Borys will preside over ceremonies following the breakfast. Class presidents: Army Steiber, seniors: Bob Elbergen, juniors: Ann Long, sophomores and George Lee, freshmen, will each give a short talk.

Ring week will be climaxed by a dance entitled "Memories" sponsored by the junior class Wednesday evening from 8 to 11:30 p.m. The public is invited.

ROCHESTER

By FRED ENNIS

A hootenanny is in store for all Rochester High School students today when the senior class presents J. T. Beasley in the RHHS student center. The program will be held from 7:30 to 9 p.m.

Kathy Stoutenburg is general chairman of the affair. Other chairmen are Tim Phillips, Diane McGowan and Jay Eastman.

Today is the day when all football players will be receiving their awards at the sports department awards assembly.

W. BLOOMFIELD

By SUE GOTSHALL

West Bloomfield High School cheerleaders have been practicing twice a week to prepare for the coming basketball season.

Varsity cheerleaders, sponsored by gym instructor Wanda Sticker are: Jill Zewson, Patty Newton, Sue Simpson, Gayle Fuller, Dorelle Lazin, Marsha Parker and Dede Kuyper.

This year's junior varsity squad is composed of Lucy Alix, Terry Kidd, Karole Hanes, Sue

Sanderson, Linda Sposito, Irene Kent, Diana Parker and Margaret Pomey.

Sandy Williams, Sally Ringe, Jack Windlate, Linda Haughton, Martha Kern and Sharon Miller make up the ninth grade squad.

MILFORD

By BOB GORSLINE

Scott Lovejoy, student council president at Milford High School, has been selected as president of the Wayne-Oakland County League student council. He was chosen by 32 delegates, representing the eight league schools, at the recent annual workshop held at Clarkston.

Wednesday will mark the beginning of Thanksgiving vacation at Milford. This is also the final day for the sale of yearbooks.

ORION

By NANCY GREENHILL

The Lake Orion High School varsity and junior varsity bands will present their fifth annual Thanksgiving concert Tuesday at 8 p.m. in the high school gym. It will be under the direction of Peter Kohen.

The national honor society conducted a basket drive which ended today. The money is to be used to provide a Thanksgiving dinner for the less fortunate. Members will deliver baskets Wednesday.

EMMANUEL

By CAROL ARMSTRONG

The yearbook staff, under its sponsor, Mrs. William Yost, has been working on the annual, which will feature a cover and divider pages especially de-

Sadie Hawkins to Ride Again

The Girls at Avondale Will Have Their Day

By PAT KLEIN

At Avondale High School, it's that time of year again when the boys are runnin' and the girls are chasin', all heading toward the annual Sadie Hawkins dance.

This year the dance will be under the direction of Raymond Carlson, adviser to the junior class. It will be held Wednesday evening from 8 to 11 p.m.

Sponsored by the junior class, the dance this year will feature a new addition: "Marryin' Sam", giving all the lucky gals a chance to get hitched.

In this traditional turn-about the boys and girls will be wearing matching sweat shirts and slacks or plain matching shirts. Girls are now saving their money for expenses and picking a date for the evening, as they must do the asking and foot the bill.

DAR Cites Senior Girl at WTHS

By MARY BARNINGHAM

Katherine Jones, a Waterford Township High School senior, has been chosen to receive a Daughters of the American Revolution good citizenship award.

She is president of the national honor society at WTHS and is enrolled in a probability and statistics course at Oakland University for which she will receive four hours of college credit.

During the past two years, Katherine has maintained an A average as well as serving as sophomore class treasurer, as a member of the junior board and the national honor society, French club, swim club, pep club and girl's athletic association.

She will attend a meeting of area DAR award winners Dec. 5 at Oakland University.

CASUAL DRESS

"Gold Digger's Pick" is the name of tonight's girl-scout dance sponsored by the junior class.

The dance, which has a Western theme, will be held in the gym from 8 to 11 p.m. Dress for the event is casual, and tickets may still be purchased at the door.

In charge of publicity is Lynn Schall. Also working on the dance are Carol Benson, decorations; Sandra Rick, refreshments; William Walters, entertainment; and Maureen Stratton, tickets.

At least one WTHS student will be speaking in defense of the teen-age driver at the sixth annual Oakland Teen-age Safety Conference, which will be held tomorrow at Pontiac Northern High School.

Those who have contracts were urged to abide by them. NEA, in what was termed as an "urgent advisory," suggested that salaries were inadequate, and that many of the schools lack needed supplies and textbooks; and that many of the school buildings are inadequate and unsafe.

Baldwin's new Transitional Acrosonic is simply styled to blend with changing decors, to grow with young families, and the price is agreeably modest. The warmth of Style 982 satin-finish wood tones is matched by the topmost tonal quality for which all Acrosonic pianos are named.

Open Friday and Monday Evenings 11:30 P.M.

Sister Doesn't Want to Raise Child Alone

By MARY FEELEY
Consultant in Money Management

Dear Miss Feeley:

I have a very perplexing problem and hope you can help me. Since July, we have had our 9-year-old niece living with us, because my sister and her husband have separated and my sister is unable to face the responsibility of raising a child alone. She is and always has been, very immature—even at 35.

The little girl is a darling child and very cooperative. My children—10, 14, and 17—have accepted her beautifully even though it is quite crowded with three girls in one bedroom. She has never known a normal childhood and seems so happy here, saying she wants to live with us forever!

The point is, we do not want to let her go. But my husband has been in and out of work for the last two years and the bills

have really mounted up. He wants this child as much as I do but financially it is getting almost impossible. My sister has been giving us \$5 a week and also pays for the child's lunch at school.

Incidentally, her father sends \$25 a week to my sister. Of this, \$10 goes to my mother who has taken my sister back home. My mother is a widow who lives very frugally due to necessity and my sister has just started to work. I don't know what her salary is, but I doubt that it is very high.

I would like to know what amount you feel would be fair to all concerned for the care of this child. I do know the \$5 does not go far, what with food, laundry, etc. In ordinary circumstances, I would never dream of taking any money but I feel I'm possibly depriving my own family in order to help my sister and niece. Any help you can give will be most appreciated.

Mrs. J.S., Cincinnati
Dear Mrs. S.:

With so much at stake, I think you are justified in taking a firm, businesslike stand about money. I have checked into the cost of child care with various foster home placement agencies. Their figures range from \$70 to \$85 a month, depending on the agency and the age of the child. Incidentally, the figures do not include clothing and medical costs. So on this basis, \$20 to \$24 a week is indeed a minimum.

SHOULD ASK

I think you should ask for this minimum. Since your sister's husband is giving her \$25 a week, there would be \$15 a week left after she pays for her own room and board. Now that your sister is earning a salary, it seems to me this \$15 should go toward the support of your niece. Also, your sister should be able to add to it—at least up to a fourth of her income.

She may well have to make sacrifices if her salary is small. But that's exactly what you and your family have

been doing all these months. I think the least your sister can do is to tell you frankly just what she does make, so the two of you can work out the financial solution.

Don't give up the struggle, Mrs. S. Your niece has obviously discovered the precious warmth of family life in your home, and it would be sad indeed for the child to have to give it up. I believe you will all benefit if you can possibly work things out.

Dear Mary Feeley: I would like to know if a bill that is over two years old can still be collected, and what court costs would be. Thank you for your answer.

Mrs. M. S., Round Lake, Ill.

Dear Mrs. S.:

A bill can be collected up to six years after it was originally due. So if you can't get a satisfactory settlement by voluntary agreement, you can take legal action through your lawyer. He will advise you as to procedure and court costs in this particular case.

Mr. and Mrs. Andrea Pocs of Dick Avenue announce the engagement of their daughter Julia Marie to Joseph Michael Shortall, son of the John Shortalls of Philadelphia. She is doing graduate work at Catholic University, Washington, where her fiancé is studying law.

Local Groups Meet

PARLIAMENTARY CLUB

The responsibilities of club members were demonstrated at the Wednesday meeting of the Parliamentary Study Club. Mrs. Charles Crawford directed the group giving the presentation. The meeting was held at the Pontiac Masonic Temple. The next meeting will be Dec. 4.

INSURANCE WOMEN

The Insurance Women of Pontiac held their monthly dinner meeting Wednesday

evening at the Waldron Hotel. Mrs. John McDonald, president, conducted the regular business meeting of the organization. Plans were made for the December meeting, at which time the members will prepare a Christmas basket for a needy family.

METHODIST SOCIETY

"Our American Heritage" will be discussed by Mrs. Harry Goring at the Tuesday gathering of the General Meeting of the Woman's Society of the Christian Service of First Methodist Church.

The meeting will start with a noon luncheon served by the Pearl Baxter Circle.

MACEDAY EXTENSION

The Maceday Gardens Extension Study Group will hold its annual Christmas party at Alpine Inn Dec. 18. The party will feature a gift exchange of hand-made articles. Gladys Silverthorn of Detroit will be a guest.

WCTU Talks of Organization

The Anna Gordon Women's Christian Temperance Union discussed Mary section plans of districts at their Tuesday meeting at the First Baptist Church.

Mrs. E. C. McNair and Mrs. Hazel Lilleyman will be on the decoration committee for the Christmas program. Mrs. Nellie Monroe gave the devotions.

Section Meets for Last Time During Holiday

The final meeting before the holiday season was held by the Queen Mary section of Needlework Guild of America, Inc. Thursday afternoon.

Mrs. Henry Milligan opened her Belmont Street home for the affair.

Newly elected president, Mrs. Charles Shearer conducted the business meeting.

Reports were heard regarding the annual "gathering and plans were made to help needy families for Christmas.

The next meeting will be at the Miami Road home of Mrs. Andrew McKerrow Jan. 8.

Sprinkle and Rake One-Step Lawn Care

By POLLY CRAMER

DEAR POLLY — Mine is a way to "kill two birds with one stone." Sprinkle and rake the lawn in one operation. It is great for this time of the year when the leaves are falling.

When watering the lawn, turn the nozzle on a fine strong stream, hold about a foot up from the ground and fan those pesky leaves up in a pile at the same time that the lawn is getting a good drink.

DEAR POLLY — An old bean bag ashtray is good to use for holding pins when you sew. Simply remove the little cigarette rest and you have a trustworthy pin dish which will sit and stay conveniently on your knee or beside you in your chair as you baste with pins.

DEAR POLLY — This idea is for the forgetful shopper. On each parcel jot down your name, address and phone number and if an HONEST person finds it they can get in touch with you. I was amazed when it worked for me.

DEAR POLLY — If glassware, china and other household breakables have to be mailed any distance, wet paper and mold it around the article. The paper dries like stiff packing material and minimizes breakage. Also, an excellent aid for tearing out recipes, household hints or magazine pictures is the cutting edge from a waxed paper box.

DEAR POLLY — Always keep an emery board near the sewing machine. It makes a fine file to sharpen needles and pins.

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

The Kenneth G. Vanhorns of Kohler Street announce the engagement of their daughter Barbara Jean to A. Neil Williams, son of Mr. and Mrs. Ernest Williams of Featherstone Street. A spring wedding is being planned.
