Steel Union Asks Nixon to Help Get Wage Hike

NEW YORK (AP)—The Steelworkers Union has appealed to Vice President Richard M. Nixon for help in getting a wage boost and other contract benefits from the industry.

Union President David J. McDonald presented the plea personally to Nixon, an avowed foe of inflation.

McDonald said he went to Pittsburgh and sought out Nixon to complain that the steel companies were "provoking a shutdown" by balking at offering any contract gains.

The union chief declined to tell newsmen what Nixon's reaction was. He said on that he supposed Nixon reported to President Eisenhower on the conference.

Negotiations between four-man teams representing the union and the 12 biggest steel companies continue here today.

McDonald's announcement Tuesday that he had been in Pittsburgh conferring with Nixon dispelled a two-day mystery about his absence from the stalemated contract talks here.

The union chief said he told Nixon the steel bargaining has gotten nowhere and that, as things stood, there was no chance of a new contract extension.

Present agreements expire at midnight July 14. That's when a two-week extension inspired by Eisenhower runs out. McDonald said that unless contract talks develop considerably he will recommend a strike to the union's wage-policy committee.

R. Conrad Cooper, chief industry negotiator, was obviously piqued at McDonald's journey to see Nixon.

Nixon was in Pittsburgh to attend the All-Star baseball game.

"With respect to Mr. McDonald's wanderlust," Cooper told newsmen here, "I have only to say that we think this is the place to do our collective bargaining and settle our differences. He has wasted precious time."

"None of these tactics can obscure the fact that the union is determined to extract another round of inflationary wage and benefit increase from the industry, and do it by the usual compulsory route of a strike if necessary."

"We think it is time for a change."

The industry has stood firm on its intent to give the half million steelworkers in the basic producing industry nothing more than has been contained in the expiring contracts. Even more, the companies have insisted on contract modifications.

McDonald has called for a substantial boost in wages—now averaging \$3.10 an hour—plus pension and other concessions.

He says industry profits warrant the changes without any price boosts. The industry maintains that now is the time to curb wage-price inflation.

Ike May Call Special Session on Foreign Aid

He's Determined to Fight for His Program of Mutual Assistance

WASHINGTON (AP)—President Eisenhower hinted broadly today he might call a special session of Congress if he is denied the authority he wants for foreign aid spending.

Eisenhower was asked at his news conference for comment on the Senate's action in voting to cut his mutual assistance request by 383½ million dollars.

The President said he is going to use all of his persuasive powers in attempting to convince members of Congress they will be ignoring the security of the nation and the vital interests of the free world if they reduce foreign aid too sharply.

In many instances, Eisenhower said, it is possible to get sufficient appropriations later if Congress fails originally to provide enough funds to carry on the program.

The Senate is working on a bill to authorize the expenditure of funds which are to be provided later. This bill in effect sets a ceiling on foreign aid appropriations.

Senate Democratic Leader Lyndon B. Johnson of Texas earlier had spoken out in an effort to head off further Senate cuts in the aid bill.

ONLY RECOURSE

Eisenhower said if the authorization is reduced to the point where he can't go back to Congress next year for what he considers sufficient funds to carry out the program, he will have only one other recourse. He said that would be to call a special session.

Eisenhower said vigorously he is never going to give up the fight for the foreign aid program. He noted he had recommended \$1,600,000,000 in military assistance funds and that the Draper Committee had proposed that this be increased by 400 million dollars.

The Draper Committee made a special study of U. S. assistance to foreign governments.

Eisenhower said next year's budget is going to have to carry even more money for military aid.

The President rebuked Russia's Premier Nikita Khrushchev for his blunt remarks about war to former Ambassador W. Averell Harriman.

Eisenhower said he did not believe responsible people should indulge in anything remotely resembling ultimatum or threats.

TANGLE ON ISSUES — Michigan's Gov. Williams argues a strategic point at a meeting yesterday with Russia's First Deputy Premier Frol R. Kozlov (left). This picture was taken after a one-hour private discussion in Detroit, which Williams called a "knock-down and drag-out fight" in which Kozlov parried Williams' thrusts with tough shrewdness.

Soviet Shrewd, Plenty Tough, Says Governor

Russian's Parry Cites 'Lack of Understanding' at Press Interview

DETROIT (AP)—Michigan's Gov. G. Mennen Williams says the Soviet First Deputy Premier Frol R. Kozlov is shrewd and tough and it will take a Yankee trader to beat him.

Williams made the appraisal last night after what he called a "knock-down and drag-out fight" with Kozlov.

The six-term governor who has the backing of Michigan Democrats for the party's presidential nomination in 1960 appeared to feel he had the better of his verbal sparring with Kozlov as he described it to a news conference.

Kozlov ended his Detroit visit today with critical words for Williams.

The Governor talked with Kozlov in a private meeting for an hour last night.

Kozlov, at an informal news conference just before his plane left for Chicago, the next stop on his United States tour, said through an interpreter:

"The Governor is not too well acquainted with international politics and he is not too correct in giving his account to the press."

The Russian deputy premier said, "Those who wrote the questions for Williams were not very well acquainted with the problems. When I replied to some of his questions, the Governor showed some surprise and it was evident he did not understand the problem."

Asked if Williams' account to the press was accurate, Kozlov replied, "It was not a very true account."

Kozlov added:

"The governor violated one rule on such conversations — a conversation which he had requested and which we thought was private. He violated the rules of such conferences by then holding a news conference to air his views without asking or informing the one with whom he had met."

Kozlov's face became flushed as he spoke rather heatedly in Russian about the Governor's report. The interpreter had difficulty keeping up.

Kozlov's plane took off at 9:22 a.m. for a three-day visit in Chicago. (Continued on Page 2, Col. 2)

Law Authorities Hunting for 'Joe'

He's Mystery Link in Alleged Shakedown of Restaurant Owner

Police from Oakland and Wayne counties and FBI agents today were searching for a man named "Joe" as the third man in the alleged shakedown of an Oak Park restaurant owner by a Detroit union business agent.

So far, however, only Morrie Sherman, 50, agent with Local 750 of the Hotel and Restaurant Employes and Bartenders Union, AFL-CIO, has been arrested.

The boxing referee, licensed by the State Athletic Board of Control, and former state welter-weight champion, is being held in Oak Park Jail while the Oakland County prosecutor's office is contemplating what charge — extortion or bribery — to level against him.

"Probably we have enough to go on against Sherman for his part in this," said Assistant Prosecutor William E. Lang. "But we still want the whole picture before we issue a warrant." He said this might be done today.

PICTURE CLOUDED

The picture of the alleged extortion plot remains clouded because of an unidentified man named "Joe" who reportedly went after the \$50 payoff several hours before Sherman got it in two \$20 and one \$10 marked bills at 5 p.m. Monday.

Lang said police want to know what "Joe's" part in the scheme was.

The alleged plot was revealed yesterday when Lang took a statement from Daniel Lambert, 36, owner of Danie's Restaurant, 8410 W. Nine Mile Rd.

Lambert said Sherman first demanded \$300 because "the boys downtown think I'm being paid off not to organize you, and they want their cut."

Later, however, after a series of stalls urged by Oak Park police, "Joe" called Lambert and said the demand had been lowered to \$50.

Sherman was picked up Monday evening with the money after "Joe" visited Danie's only to find Lambert not there.

Area to Sizzle as Mercury Soars to 92 Tomorrow

The Pontiac area will continue to bask in warm, mid-summer weather, with no rain in sight before Friday, the U. S. Weather Bureau reports.

The prediction calls for fair and warmer today and tonight with the low tonight 70 degrees.

Tomorrow will be partly cloudy, and the mercury is expected to soar to a sizzling 92.

Friday will be partly cloudy and cooler with a chance of scattered showers or thundershowers.

The lowest recorded temperature in downtown Pontiac preceding 8 a.m. was 64. At 1 p.m. the reading was 84.

Ike Appeals to Steel Men

WASHINGTON (AP)—President Eisenhower today called on Eisenhower and workers in the steel wage talks to act for the good of the country and try hard to avoid a strike. Eisenhower told a news conference that both sides should keep on negotiating just as long as necessary for agreement on a new contract.

Festival Days Slated for Downtown Area

Downtown Festival Days are scheduled for Sept. 17, 18 and 19.

George Richman, president of the Downtown Merchants Assn., said Festival Days last fall seemed to bring "a new spirit" to downtown and won City Commission approval last night to stage a similar three-day festival a second time.

Richman outlined plans for a carnival at the E. Pike street municipal parking lot and sidewalk booths and displays in the downtown shopping area.

The merchants' group promised to reimburse the city for parking meter revenues during the three-day period.

They Get Their Man

FUQUAY-VARINA, N.C. (UPI)—Police said Milton Lee Elliott, 25, came out of the woods and gave himself up for questioning in a fatal shooting because he was tired of fighting mosquitoes.

Hart, McNamara Votes Conflict on Aid Cut

WASHINGTON (AP)—Michigan's two Democratic Senators, Patrick McNamara and Philip Hart, voted in opposite sides yesterday on two Senate measures.

Hart voted in favor of a measure to cut 300 million dollars of military aid out of the foreign aid bill. The measure passed 52-41.

He also voted for a measure the Senate adopted 43-13 to reduce foreign aid defense support authorization by 10 per cent.

McNamara voted against both measures.

Lawmakers Watch Mays

MONTGOMERY, Ala. (UPI)—The television fans who watched Alabama-born Willie Mays win the All-Star baseball game for the National League yesterday included members of the Alabama House of Representatives, who adjourned a session after 25 minutes to watch the game.

City Acts to Aid Downtown With Better Streets, Parking

As city commissioners took steps last night to improve traffic arteries and add to downtown municipal parking, a big question was asked of downtown businessmen: "What have you done to revitalize downtown?"

For want of an answer from businessmen, City Manager Walter K. Willman observed, "There doesn't seem to have been much revitalizing."

Commissioners acted to provide a new link with the upcoming Oakland County Expressway and better traffic flow on Pontiac's near west side.

Approved was a construction bid of \$171,218 for paving of Joslyn avenue from Walton boulevard to Collier road at the northern city limits and widening of Cass avenue to four lanes between Oakland avenue and Wisner Stadium.

The low bid was submitted by Denton Construction Co. of Detroit, the firm that last summer widened Perry street.

When construction is completed this summer, Pontiac will have a paved route leading to the proposed Joslyn road interchange with the expressway north of Pontiac, City Engineer Lewis M. Wrenn said.

The Cass avenue project will complete widening of that street from Oakland to Orchard Lake avenue in the downtown district.

Both projects were recommended by the Barton Traffic Study.

Commissioners gave Willman the signal to proceed with engineering and cost estimates to provide about 50 more parking spaces downtown.

Willman said the administration proposes to level the former Standard Electric Co. building on E. Lawrence street and add three rows of parking meters, 17 meters in a row. There now is one row of 17 meters next to the building.

The city purchased the building three years ago but held off demolishing it until the Army ceased using it as a reserve training center last month.

In the audience last night were George Richman, president of the Downtown Merchants Assn., and John W. Hirlinger, manager of the Pontiac Area Chamber of Commerce.

After a lengthy discussion about the future of downtown Pontiac, it appeared that neither city government nor private enterprise has any definite plans for redevelopment.

Of primary interest was the future use of the Huron-Saginaw street site of the Oakland County Courthouse and Prosecutor's Office.

The county plans to sell the land in connection with construction of a new courthouse in the county service center.

Willman and several commissioners indicated they would "co-operate" in bringing new business to downtown Pontiac, especially to the highly-valuable courthouse site.

But city officials appeared to feel it is up to the businessmen themselves to take the initiative.

"We have no plans for the courthouse site," said Willman.

Hirlinger said the Chamber of Commerce has "a small committee" assigned to study future use of the site.

In a few years, the city will have to attract new business to Pontiac to locate in the blighted S. Saginaw street areas to be cleared in the upcoming urban renewal project. (Continued on Page 2, Col. 6)

To Be Based in Britain, Germany U. S. Jets Leave France

PARIS (AP)—Three fighter-bomber wings of the U. S. Air Force (involving 200 F100 Super Sabre Jets) will soon be moved from French bases to fields in Britain and West Germany, the United States announced today.

U. S. Ambassador to NATO W. Randolph Burgess made the decision known at a meeting of the North Atlantic Council.

The move had been generally expected because President Charles de Gaulle will not agree to storing U. S. atomic arms on French soil.

De Gaulle has refused to admit U. S. atomic stockpiles unless France is given control of their use.

U. S. law requires that American officers retain control of the nuclear warheads for Americans, although foreign governments control the weapons themselves.

DEMANDS VETO

France's allies have accused De Gaulle of demanding a veto over the use of any atomic weapons stockpiled in France as a bargaining lever in his campaign to get France an equal voice with the United States and Britain in Allied councils.

Pontiac Yacht Club Typifies 'Summer Paradise'

SAILS IN THE WIND — Several lighting class sailboats skim over the water with barely a ripple in this panoramic aerial view of the Pontiac Yacht Club on Cass Lake. With summer here, the crystal-clear waters will become the scene of numerous regattas and races with more and more yachts and sailboats making their appearance weekly. Jutting out from the shore is the club's docking area. The clubhouse is hidden from view by the thick foliage, which provides a serene setting for the sailing of the graceful crafts. In the upper right corner is the West Bloomfield Township High School.

Sewer Decision Appears Near

State Board Requests Week More to Study Eight Mile Project

Oakland County Drain Commissioner Daniel W. Barry will have to wait at least another week before he learns whether the county can issue more than \$4,000,000 in bonds to finance a storm sewer along Eight Mile road.

Another week's delay appeared yesterday when the Michigan Municipal Finance Commission decided it would like at least a week to study a 10-page report from the Attorney General's office.

Receipt of the report is the first tangible progress shown since Barry asked the Commission's approval last November.

While this indicates that a decision is finally near, less encouraging is a report that Auditor General Frank S. Szymanski, a member of the Commission, will not approve the bond issue in its present form.

Szymanski reportedly is siding with a protest group of Southfield residents — the sewer will serve Southfield and Oak Park — who traveled to Lansing in January to oppose assessments.

They said they would never be able to pay them.

Szymanski's deputy, William R. Hart, said there was "patent injustice" in the proposal as it now stands. He did not elaborate.

The protest group, the Eight-Mile Road Taxpayers Assn., says assessments—at the rate of (Continued on Page 2, Col. 5)

Waterford Fire Chief

ELMER E. FANGBNER

A Pontiac Fire Captain, Elmer E. Fangbner, 50, was appointed Waterford Township's first full-time fire chief at a special meeting of the Township Board last night.

One of two applicants for the \$6,500 position, Fangbner was selected by the Board over Lewis (Bud) Goff, a regular Waterford fireman who served nine years with the department.

Fangbner, of 3327 Meinrad St., Drayton Plains, was the organizer of Waterford Township's volunteer and full-time fire departments in 1942.

He also organized the Goodfellow Association, of which he is president. Fangbner has been with the Pontiac department for the past 30 years, having advanced through the ranks from fireman to engineer, lieutenant to captain.

He is eligible for immediate retirement without pay due to his more than 25 years with the Pontiac Fire Department. Retirement pay would begin when he reaches the age of 55, according to Pontiac Fire Chief James R. White.

As president of the joint Council of Municipal Employees, and president of the Pontiac Fire Fighters Association, Fangbner was believed to be one of the best qualified men in the township, for the post, according to township officials.

He was responsible for getting legislation passed that has benefited city and township departments, and served as secretary of

Fair in East; South, Midwest Due for Storm

By The Associated Press
Fair weather prevailed today in most areas east of the Mississippi River to New England but wet and stormy weather appeared likely in many sections of the South and Midwest.

A hurricane watch and gale warnings were in effect south of Cape Hatteras, N.C., to north of Charleston, S.C., as squally weather and heavy rains were indicated from tropical storm Cindy, located about 180 miles east of Charleston.

Thunderstorms broke out during the night and earlier Tuesday in sections from Kansas northward and into southwestern Minnesota. Gusts winds, ranging from 30 to 55 m.p.h. lashed the area.

Ninety-degree heat reached into Iowa, Illinois, Minnesota, Kentucky and southern Virginia Tuesday. Hot southerly winds sent the mercury above 100 degrees in parts of Kansas, Nebraska and South Dakota. It was 101 at Pueblo, Colo., while in the Southwest desert region, Imperial, Calif., was one of the hottest spots with a reading of 114. The 100-degree heat spread to the Rio Grande Valley.

the Michigan State Rural Fire Protection Committee and as legislative representative in Lansing.

The new chief has served for six years on the Waterford Township Board of Education and was one of the organizers of the Community Activities, Inc. He also is chairman of the City of Pontiac Retirement Study Committee, and was instrumental in establishing the first Civil Defense unit in Waterford Township.

Fangbner, who has lived in Waterford Township for the last 33 years, is married and has four married children.

Williams, Kozlov Tangle in Detroit

(Continued From Page One)

Just before boarding the plane, Kozlov said, "I wish the very best to Detroit and to its citizens who were so hospitable to us. I wish them the best of success. We want peace."

For an hour Williams and Kozlov had a private conference in a Detroit hotel room following Kozlov's tour of industrial Detroit. Williams said he fired a series of written questions at the deputy premier.

Then he said they argued through their own interpreters and at one point Soviet Ambassador Mikhail Menshikov got worried and intervened.

Williams said Kozlov flared up after the question of self determination and free elections for Russia's eastern and central European satellites was brought up.

Williams said Kozlov argued that the people of East Germany and other Soviet satellites had made their choice and that anything to the contrary was propaganda.

Following the dinner, aides said Kozlov didn't realize the interview with Williams was to be made public. They said Kozlov might comment on the interview at Chicago.

The governor said he told Kozlov that Russian tanks "ruthlessly" put down a revolt in East Germany six years ago.

"I pointed out that Poland, one of the most Catholic countries in the world, had been deprived of freedom of religion," Williams said.

"I told him that in Hungary the Soviets agreed to withdraw and did, but came back with Soviet tanks and troops and imposed their will on the people. I told him the Romanian people certainly did not feel the regime represented them."

"He told me that all I heard was a lot of propaganda. I told him the American people would not believe a single word he said."

The governor said that after Kozlov described the East German uprising as a counter-revolution, Ambassador Menshikov put in that "we were all wrong."

"I said," the governor continued, "look who was in those tanks. The Russians were in those tanks and the Germans were on cobbles."

Williams said he and Kozlov reached an impasse in their argument and "He was tough but I intended to be just as tough."

"I told him that if we had a week some time I'd be glad to argue out the question with him," Williams said.

WON'T ANSWER

The governor said he raised a question whether failure to agree on disarmament was due not so much to the unreadiness of the Soviet Union to disarm but because Moscow feared effective systems of inspection could be used for subversive or espionage purposes.

Williams said: "Instead of answering, he replied that the two countries are now fairly close to working out an agreement, but the Soviet Union was waiting for a reply from the United States on certain proposals."

The Governor quoted Kozlov as saying he and British Prime Minister Harold Macmillan had discussed the possibility of inspections to be carried out on both sides by foreigners and that the two were just about at the point of agreeing to inspections on this basis.

At the outset of the conference, Williams said he asked what products manufactured in Michigan might find a market in Russia.

"He said they didn't want to buy our autos but would take an entire auto factory right over and that they were interested in buying chemicals and all kinds of machine tools," the governor said.

Williams also asked Kozlov what part education has played in Russia's rapid economic growth and said he was told that education "played a very decisive role."

The governor also questioned Kozlov about the possibility of co-operative aid to underdeveloped countries administered by the United Nations.

FOR SPACE TRAVEL — Seven Astronauts in training at Langley Research Center, Virginia, are shown with a model of the capsule one of them may ride into space in 1961. Left to right: Air Force Capt. Virgil Grissom, Air Force

St. Michael School Building Condemned as Fire Hazard

A one-story wooden building now housing classrooms of St. Michael elementary school has been condemned by City Fire Marshal Charles E. Metz.

Metz has declared the structure a fire hazard and ordered that it be razed.

The building has housed up to 120 students, mostly first and second graders.

The edict will create a shortage of classroom space in the fall if enrollment equals that of last year.

Donaldson Gives \$1,000 to Launch Drive for Park

City Commissioner William W. Donaldson last night made a personal donation of \$1,000 to get a "dollars for parks" drive rolling.

"If everyone in Pontiac donated just \$1, we might be able to raise enough money to purchase a new park site by centennial time in 1961," said the District 3 commissioner.

Donaldson has already collected more than a dozen \$1 donations since he suggested the drive a week ago.

It is expected that a collection center for public donations will be announced soon.

Donaldson gained City Commission support of his contention that Pontiac suffers from lack of park space.

"It's too bad no public benefactor ever gave us any land for parks, but perhaps some will come up with some money now," he said.

City Manager Walter K. Willman has been asked to negotiate with the state for part of the Pontiac State Hospital grounds for a park site.

Donaldson has made contributions to public causes in the past. He has donated \$2,000 to furnish hospital rooms at Pontiac General Hospital and \$2,000 for a civic auditorium.

CHIN BACK, MISTER — Colin P. Kelly III, son of America's first air hero of World War II, undergoes the familiar freshman bracing by an upper classman on his entry into the U.S. Military Academy at West Point, N.Y. Kelly, whose entry into the academy was assured by request of the late President Roosevelt, chose to qualify through competitive examination rather than use the presidential recommendation.

Royal Visitors Hailed at Soo

Queen Elizabeth, Philip to Spend Four Hours in Canadian Port City

SAULT STE. MARIE, Ont. (AP) — This Canadian steel center and river port was at its height today over its first visit from a reigning monarch of the United Kingdom.

Elizabeth II of England and Prince Philip, the most prominent tourists in North America this summer, were scheduled to spend about four hours here en route to Port Arthur, Ont.

It was their first stop after a rousing welcome Monday at Chicago.

The visit brought them to another point of close United States-Canadian ties. Sault Ste. Marie's twin-named U.S. city lies across the St. Mary's River in Michigan.

The busy river is a highway for Great Lakes vessels carried by locks between Lake Superior and Lake Huron.

To Mayor Walter Harry this was a "red letter day."

It was not a business holiday in this city of about 41,000 persons, but the city requested all businesses to allow employees at least three or four hours off to see the royal couple.

Chief Constable Irvin L. Robertson, city police chief, mobilized extra manpower.

Robertson expected at least double the area's population on hand to see the visitors.

From the American side a rainbow of license plates denoted tourists from numerous states.

The royal schedule covered an eight-mile route. First was a stop at Bellevue Park for an assembly of schoolchildren, then luncheon at the Windsor Hotel, and finally a visit to Algoma steel mills.

The closest Queen Elizabeth and her party came to American soil was the docking of the royal yacht Britannia at MacArthur lock pier in the U.S. roadway of the St. Mary's River. The yacht is too wide to traverse the Canadian locks.

City to Improve Roads, Add Parking

(Continued From Page One)

ect, Assistant City Manager Robert A. Stierer pointed out.

"Although the city will have control over which businesses buy the land, some other agency should tackle the job of attracting the best possible businesses here," he commented.

Willman referred to a three-point program agreed upon by the city and downtown businessmen three years ago.

"The city agreed to improve traffic conditions and clear the blighted areas. We are in the process of doing this through the downtown loop highway, which is part of the Barton study, and the urban renewal project."

"Businessmen agreed to revitalize downtown through private capital."

"Three years have gone by and there doesn't seem to have been too much revitalizing."

"Perhaps this points up the need for a little closer co-ordination among the downtown groups."

The Day in Birmingham

Prominent Churchman To Preach Here Sunday

BIRMINGHAM — Dr. Robert M. Frehe will be the guest minister Sunday at the Congregational Church of Birmingham. Dr. Frehe is the first vice moderator of the Congregational Assn. of Detroit and director of the Detroit Round Table of the National Conference of Christians and Jews.

He is well known to Birmingham and Detroit residents for his work with young people, and was director of a summer camp for many years prior to taking on the directorship of the round table.

Dr. Frehe met with the original group that formed the Congregational Church of Birmingham in 1953, and was its first supply minister until a permanent minister was called. His topic will be "Spiritual Health."

Mrs. Clyde C. Bennett Jr., 889 Suffield Rd., Birmingham, has again been named Torch Drive chairman for the Birmingham-Bloomfield-Franklin Region.

Mrs. Bennett, in addition to serving as regional chairman last year, was chairman of the recent Informa held June 3 for Torch Drive workers at St. John Episcopal Church in Royal Oak.

At their regular 10 a.m. meeting Friday at the Community House, the Birmingham Senior Men's Club will hear a talk by the Rev. Robert Dobbs who heads public relations and promotion for the Goodwill Industries.

T. A. Henshaw, secretary of the Senior Men's Club, announces that shuffleboard play takes place at 2 p.m. daily.

Bridge and other card games begin at 10 a.m. Tuesdays and Fridays at the Community House. Those of retirement age are welcome, said Henshaw.

The Franklin Cemetery Auxiliary will meet tomorrow at 1 p.m. at the home of Mrs. H. R. Grogg, 2291 Rosewood Dr., off of Silver Lake road, west of Pontiac.

A potluck luncheon and social get-together will follow the business meeting.

Sales by Pontiac Rise 93 Per Cent Over June of '58

Pontiac dealers in June sold 37,387 new cars, representing a 93 per cent increase over the same period last year when retail sales amounted to 19,367, it was announced Tuesday by S. E. Knudsen, General Motors vice president and general manager of Pontiac Motor Division.

Retail sales of Pontiac division's new wide-track models from January through June of this year total 212,147 units, a 74 per cent gain over the 122,200 units sold during the first six months of 1958, Knudsen said.

Experiencing one of the best sales years in the history of the division, Pontiac has risen from No. 6 position in the automotive industry to No. 1 nationally in the medium price field, Knudsen said.

Must Be Kind to Cat

NEW YORK (UPI) — Police reported today that David Hill, 29, was "bitten on right hand by a stray cat who had crawled in his window. Cat not held."

Four area women are planning to attend the national convention of the Lambda Tau Delta sorority in Chicago July 12-17.

This year's convention marks the sorority's golden anniversary. Lambda Tau Delta is a national philanthropic society, originally formed for business women.

Attending the convention will be Mrs. John Hern, 324 N. Gengarry Ct. and Mrs. Elmer Mellebrand, 840 N. Pemberton Rd., both of Bloomfield Township, and Mrs. Elmer Mellebrand, 840 N. Pemberton Rd., both of Bloomfield Township, and Mrs. Manuel Barriis, 2613 Yorkshire Rd. and Mrs. Bernard Dodd, 2829 Buckingham Rd., both of Birmingham.

The Embury Methodist Church vacation school, 14-Mile road and Croft drive, will hold daily sessions July 13-23.

Open without fee to children from three years old through the sixth grade, classes begin at 9 a.m. and end at 11:30 a.m.

Persons interested should contact the director of the school, Mrs. Robert Brauburger.

Charge Driver in Fatal Crash

Waterford Man Faces Hearing on Negligent Homicide Count

A Waterford Township motorist yesterday was arrested on a charge of negligent homicide in the death of his friend in an auto accident on June 28.

Isidro Aguilers, 32, of 2901 Peerless St., demanded examination at his arraignment yesterday before Municipal Judge Cecil B. McCallum.

Judge McCallum set the examination for July 22.

Aguilers is free under \$150 bond pending the examination.

Officers said Aguilers was driving the car in which Raymond Vasquez, 23, of 2897 Peerless St., Waterford Township, was killed in an accident on June 28.

The car ran off Kennett road west of Cherrylawn avenue and rolled over twice. Aguilers at the scene first admitted, then denied he was driving.

He was admitted with injuries to Pontiac General Hospital and released Monday.

A third person in the car, Margaret M. Willis, 29, of 2651 Elizabeth Lake Road, Waterford Township, was treated and released.

Pontiac Police said that Aguilers allegedly was speeding and when a car in front of him slowed down he swerved off the road to avoid a collision.

Osteopathic Hospital Has House Staff of 13

Pontiac Osteopathic Hospital has a house staff of nine interns and four resident physicians this year. Two of the residents are training in surgery, one in radiology and one in obstetrics.

The training group was welcomed last week by Dr. M. R. Randazzo, chief of staff, at a banquet at Rotunda Inn.

Seven interns who completed hospital training here were graduated at the banquet.

Pontiac Savings and Loan Leaps Ahead in 25 Years

Twenty-five years ago a small group of Pontiac men put up \$5,000 of their own money and borrowed \$15,000 from the federal government to establish the Pontiac Federal Savings & Loan association.

This new financial institution was designed to provide two services for the community: a safe place for people to keep their savings, and financial help in the form of mortgage loans for people who wished to buy or build their own homes.

This year Pontiac Federal Savings is observing its twenty-fifth anniversary. In its first quarter of a century it has paid off its original \$15,000 loan from the government and its total assets have grown from that first five thousand dollars to twenty millions.

Today Pontiac Federal is Pontiac's largest mortgage lending institution. During the past two months it has lent more than two million dollars in mortgages and it plans to average a million dollars a month in home mortgages during the coming year.

By the end of 1952 Pontiac Federal Savings' assets topped three million dollars. Since that time, in less than seven years, its assets have increased from three million to more than twenty million dollars.

GROWING FAST

Its accelerating growth—it has gained almost three million dollars

in the first half of the current year—has stamped it as one of the fastest growing Federal Savings institutions in the United States.

As the area has grown in population, new branches have been established and in 1955 its new home office building was opened at 761 West Huron street.

At the main office in Pontiac and at the Drayton Plains branch, drive-in windows are available to shareholders who care to use them, and ample free parking areas have been provided.

Another facility at the main office building which has attracted widespread public use is the community room, with an adjoining kitchen. This room accommodates several hundred people and it is used for countless community gatherings. It is maintained by the association as a community service, with only a nominal charge for its use.

Another service provided at the main office is a room in which anyone interested in home building, alterations or furnishings may find a wide variety of reading material. Pictures, suggestions and plans are made available without charge here to the prospective home builder or buyer.

NEW RECORDS

Pontiac Federal's 25th anniversary year is being marked by new records in every department of its activity. As of June 30, sav-

ings have increased to \$13,342,817, the highest in its history. This total represents an increase of \$1,951,753 in the last six months, or \$3,723,083 in the last year.

The mortgage total rose during the first six months of 1959 to \$16,755,169. This, again, was the biggest total ever recorded in the association's history, and more than 90 per cent of these mortgages were on individual, privately owned homes. The new mortgage total is an increase of \$2,625,729, or 18.5 per cent.

President R. C. Cummings, in commenting on the association's 25th anniversary, said: "One of the most pleasant features of this anniversary year is the increase in our annual dividend rate from three to three and one-half per cent. Our dividends are paid semi-annually and this higher rate will mean a substantial increase in the sums our shareholders will receive next December 31."

The institution is regulated by the federal government through the Federal Home Loan Bank System and it maintains reserves well in excess of those required to protect its shareholders.

During the first six months of 1959 the association added \$163,410 to its reserves, bringing its total reserves to \$1,188,095.

In addition to its mortgage portfolio, Pontiac Federal's assets included on June 30 of this year \$1,585,646 in cash on hand and in banks; \$486,152 in land and office

buildings; \$49,649 in office furnishings and equipment; \$360,000 in stock in the Federal Home Loan Bank, and \$153,352 in U. S. government securities.

SAVINGS INSURED
In addition to its reserves every savings account is insured up to \$10,000 by the Federal Savings & Loan Insurance corporation.

Pontiac Federal shareholders, being also federal taxpayers, will be glad to know that the federal government does not have to pay for this insurance. It is paid for by the associations themselves, in the form of premiums paid annually on the basis of the amounts insured.

Not only has no shareholder ever lost a single penny through the failure of an insured federal savings association, but in practically every case there was not an instant's delay in the payment of insured claims.

Pontiac Federal Savings' officers are: R. C. Cummings, president; M. A. Benson, vice president; James Clarkson, executive vice president and secretary; E. W. Johnston, treasurer; Vern McMaster, assistant vice president; William Deike, assistant treasurer and branch manager; Thoralf Ulseth, assistant treasurer and branch manager; C. Bryan Kinney, attorney.

Directors are Judge Clark J. Adams, Benson, Conrad N. Church, Clarkson, Louis H. Cole, Cummings and John Q. Waddell. Chauncey H. Hutchins is an honorary member of the board.

MAKE OVER PAGES

Senate Defeats Industry Bill

Williams Wants Credit for High Risks to Aid New Businesses

LANSING (AP)—A key recommendation of Gov. Williams for encouragement of new industry in Michigan was defeated last night in the Senate but backers promised a new passage try.

A bill to put the Development Credit Corporation Act of 1956 into workable form attracted 15 favorable votes, three short of the passage requirement. Sixteen senators opposed it.

The 1956 act, never used, was intended to permit banks and insurance companies to join in formation of a new type of lending agency empowered to extend comparatively high risk credit to struggling industries.

Last night's unfavorable action came without debate at a session marked by approval of 15 bills, most of them minor, and defeat of one other.

The proposed changes in the Development Credit Corporation Act would expand powers of such agencies, most notably to hold real property, and remove objections of banks and insurance companies that have kept the program from getting off the ground.

Leaves \$22,631 Estate

LONDON (AP)—Author Lion Feuchtwanger left an estate in England valued at \$22,631.28 when he died last Dec. 21. He left the entire estate to his wife. At the time of his death Feuchtwanger lived at Pacific Palisades, Los Angeles.

Certified laboratory tests prove BELL-ANS tablets neutralize 3 times as much stomach acidity in one minute as many leading digestive tablets. Get BELL-ANS today for the fastest known relief. 35¢ at drugists. Send postal to BELL-ANS, Grainger Corp., N. Y. for liberal free sample.

Predicts Wild, 'Cleanup,' Selling of 1959 Autos

DETROIT (UPI)—A leading automotive industry magazine predicts a wild selling scramble of 1959 model cars before a short, "hectic" introduction of 1960 models — including the new "small" cars of the Big Three—in early October.

Automotive News, speaking of the million new 1959 models on hand now, said: "It has been a long time since dealers faced such a monumental cleanup task as they do this year... with nobody certain of the impact of the Big Three (General Motors, Ford and Chrysler) small cars will have on the auto market this fall, dealers agree on only one thing: they must clean out new '39s to the bare walls and at the same time keep their used car stocks to the minimum."

The publication said "it now looks like the first '60 models (including at least two of the Big Three small cars) will go on sale Oct. 1 and all of the new models will be introduced to the public by the middle of the month."

X15 Will Get Face Lift for Space Flight

EDWARDS AIR FORCE BASE, Calif. (AP)—When the X15 rocket plane blasts off toward the fringes of space it will have a pug, not a needle nose.

A round ball that replaces the lance-like nose of the swept-wing experimental ship was turned over to this test facility Tuesday.

The new nose is instrumented so the pilot can determine immediately any pitching or side-slipping that could create intense friction and burn up the ship as it tries to enter the earth's atmosphere.

The X15 will retain its needle nose throughout the lower atmosphere tests. The ball nose will be installed when the plane is turned over to the National Aeronautics and Space Administration for high altitude flights later this year.

Fang, a Police Dog, Friendly After All

ST. LOUIS (AP)—Fang, a police dog, proved in court he is a perfect gentleman — but the judge himself had to conduct the test.

The issue was raised at the trial of a man fined \$35 for peace disturbance and resisting arrest. Fang had bitten him when the man scuffled with the arresting officer.

Fang's handler said the dog normally was gentle and would even shake hands with total strangers. Police Judge Morris Rosenthal suggested that Nathan B. Young, assistant city counselor might want to try.

Young looked warily at the dog and declined the invitation. It was at that point that Judge Rosenthal shook hands with the dog.

That Should Be Enough

HARRISBURG, Ill. (AP)—The bulletin board of the First Presbyterian Church reads: "We have 35 million laws to enforce Ten Commandments."

Aquarama Captain, Wife Love 'Em

Children Swarm Home

By RHEA E. VIETOR
Women's Editor
The Pontiac Press

If you see a white ship's anchor on a lawn in Bloomfield Village, you're at the home of Captain Morgan L. Howell, who commands the luxury liner S.S. Aquarama.

Locally, Howell is one of few seagoing men to own a master's certificate, authorizing him to captain practically any vessel in any ocean or inland waterway.

The captain and his wife, who is "chief executive offi-

cer," have lived on Wadsworth Lane for almost two years and during that time the house has become headquarters for all the children in the neighborhood.

It is filled with nautical treasures, including an authentic ship's bell.

'NEIGHBORS WONDERFUL'

"We love the children, and the neighbors are wonderful," said the captain. "The kids practically live at our house, and I don't know what we'd do without them."

Morgan L. Howell was born in St. George, Canada and his

wife, the former Grace White, was born in St. George, England.

Neither of them knew of the coincidence until they applied for a wedding license in Detroit back in 1930.

The captain, incidentally, met his future bride when he was a deckhand on the S.S. Corona, sailing out of Hamilton, Ont.

INTRODUCED BY SISTER

She came aboard as a passenger, and after one look, the future skipper asked his sister to introduce them.

The captain's adventure-studded career has taken him from the Atlantic to the Pacific ocean, the Caribbean Sea, the Gulf of Mexico and all the Great Lakes.

As well as commanding other companies' ships, he has owned and operated his own — from tugs to tankers. He bought his first ship, the tug Dearborn, in 1946.

Internationally, he has either commanded or served as executive officer aboard North and South American passenger vessels.

DELIVERY SPECIALIST

He took command of the Aquarama when it was commissioned in 1957.

He is considered a specialist in delivering new ships from builders to owners when top-notch navigation is especially required.

During World War II he delivered cargo ships from Chicago through the inland waterways and across the North Atlantic to England.

The captain says he "knew from the beginning" that he was going to be a sailor.

St. George is some 200 miles inland, but Howell says just reading seafaring books was enough to decide him on his career when he was a very small boy.

STUDIED JAPANESE

A graduate of Tri-State College in Angola, Ind., he studied the Japanese language at Columbia University during the war.

Shortly after his graduation from Tri-State he went to Hawaii where he lived "native style" for two years.

"Of all the places in the world I have seen," he said, "Hawaii is the best."

Both the captain and his lady are staunch supporters of the Pontiac YWCA and he has been guest speaker at two of their annual banquets.

During the busy summer season, the Howells don't get to see much of each other.

After the Aquarama ends its sailing schedule for the year, the skipper is kept busy delivering navy ships or yachts.

SHE STAYS HOME
Mrs. Howell, who handles the business end of these adven-

CAPTAIN MORGAN L. HOWELL

Here's an aerial view of the SS Aquarama heading up the Detroit River with the Detroit skyline in the distance. The huge luxury liner cost

\$8,500,000, has 10,000 horsepower and nine decks. During the regular summer season it runs between Cleveland and Detroit.

MOMS Unit 2 Gathers for Luncheon, Business

Mrs. Gertrude Van Horn opened her Mechanic street home Tuesday to members of

Unit No. 2 MOMS of America, Inc., for a luncheon and business meeting.

Mrs. John Brewer, president, conducted the meeting, and appointed Mrs. Maude Place, Mrs. Frank Emery and Mrs. Lillian Collins to the nominating committee.

Mrs. Carl Malkim rejoined the group.

Arrangements for the Silver Tea to be held July 21 at the Adah Shelly Library will be handled by Mrs. E. K. Vanderlind.

Mrs. Place, Mrs. Carl Cox, and Mrs. Alice Sibley will serve as hostesses for the affair.

The event is open to the public. All donations will be used for hospital work and for veterans' aid.

Election of officers is scheduled for Aug. 4 at the home of Mrs. Sibley on Mathews street.

FRANCES E. KOOP

Mr. and Mrs. Kenneth Pease of Emerson avenue announce the engagement of their daughter, Frances Elaine Koop, to Pvt. Ronald J. Klobnack. He is the son of the John Klobnacks of Emerson avenue. An Oct. 17 wedding is planned.

Life Can Begin at Age 50 for Alive Salesmen

CHICAGO — Life can begin for a salesman at 50, according to S. Max Becker Jr., president of a hand dryer company.

Becker announced a policy of hiring salesmen past the half-century mark. He said salesmen between the ages of 50 and 70 are far from "dead."

The manufacturer has tested the use of older salesmen on a limited scale for several years. Becker said the men have produced an exceptional sales volume.

Older men are more persistent, less easily discouraged and possess a calm maturity of manner that inspires confidence in customers, he said.

Here's a date of special interest for all ladies who love their husbands. A series of articles designed to help you take better care of your husband and help him to live longer. Practical suggestions on diet, exercise and just plain relaxation.

LEG CRAMPS?

One of the most common causes of painful muscle cramps is a prolonged deficiency of calcium.

So says a famous doctor and widely-read newspaper columnist, formerly with the Mayo Clinic, and other well-known health authorities.

When meals, consistently deficient in calcium, are fortified with DYNAL-CAL Calcium Tablets, tormenting calcium-deficient muscle cramps can be promptly relieved. But don't confuse DYNAL-CAL Tablets with ordinary calcium-phosphorus products. DYNAL-CAL Tablets contain no phosphorus which frequently interferes with the absorption of calcium. And DYNAL-CAL Tablets contain a special ingredient which helps to put calcium into the blood stream quicker—bringing faster relief to cramping, calcium-starved muscles.

Pleasant-to-take DYNAL-CAL Tablets with calcium, glutamic acid hydrochloride, and vitamins D and C contain no drugs. They are safe, harmless, calcium food supplements. If you are suffering from miserable muscle cramps, and suspect you are not getting enough calcium, ask for DYNAL-CAL Tablets, today. Bottles of 90 tablets, \$1.50.

*Other causes for muscle cramps are outlined in the accompanying article.

Supreme Court justices provided a mixed picture this year in the one field where left-right tags are most glibly applied: individual rights against government rights. At times they split, at times they voted solidly. In two of the major contempt cases the justices split 5-4, in three others the vote was 9-0. In still another it was 4-4, with one justice not voting.

The major cases involved Wilard Uphaus and Lloyd Barenblatt. To understand what happened in both, two previous cases must be considered.

In 1956 the court threw out the conviction of Steve Nelson, an admitted Communist, who was found guilty in a Pennsylvania state court of violating the state's sedition law.

The court said that, since sedition against the United States is a national problem, federal sedition laws supersede state sedition laws.

But the court said a state could prosecute for sedition against the state.

This year the court tackled the case of Uphaus, director of the New Hampshire World Fellowship Center which described itself as a pacifist organization. He refused to answer certain

questions of the New Hampshire attorney general who, under authority of his Legislature, was investigating communism. For refusing to answer, Uphaus was convicted of contempt.

NARROWS DECISION
Justice Clark, one of those voting for Nelson in 1956, this year wrote the opinion turning down

the appeal of Uphaus. He cited the Nelson decision as not forbidding a state to prosecute for sedition against itself.

So, he reasoned, since a state can prosecute for sedition, it has the right to investigate sedition. Thus the court was not reversing the Nelson decision but narrowing it.

In 1957 the court upheld John

T. Watkins, convicted of contempt for refusing to answer certain questions of the House Committee on Un-American Activities, which was investigating communism in labor.

He raised the objection of pertinency, asking how the questions asked him had anything to do with the subject of the investigation. The court backed him, saying he

never got a clear answer and the questions were not pertinent.

Then this year the court ruled against Barenblatt, a college teacher convicted of contempt for refusing to answer some questions of the same committee, which was investigating communism in education.

Barenblatt, in his appeal, recalled the Watkins pertinency

angle by complaining the questions asked him were not pertinent to the committee's investigation.

But the court said whereas Watkins directly raised the question of pertinency in his case, Barenblatt didn't and, if he wanted to use nonpertinency as his excuse for not answering, he should have done so directly.

The court went further, saying the committee investigation was legitimate, and its purposes were well understood. It added that in this case the interests of the country were involved and thus subordinated an individual's interest.

Justice Harlan, who had voted for Watkins but against Barenblatt, wrote the majority opinion. It left open many questions of interpretation. No doubt the court will be confronted with similar cases, looking for loopholes and clarifications.

In the Nelson case the vote was 6-3 for him; it was 6-1 for Watkins. In the Uphaus case the vote was 5-4 against, and 5-4 against Barenblatt.

UNANIMOUS CASES
In three other contempt conviction cases the nine justices stood solidly together, 9-0, for the defendants.

One involved a labor leader who refused to give a Senate committee investigating communism a list of union members. This decision had no special meaning. The court ruled in his favor on a technicality.

Another was the case of a Virginia Quaker who wouldn't answer a state legislative committee's questions about his connection with inter-racial groups. The court upheld him on the ground the purpose of the committee's investigation was not clear. This was an echo of the Watkins case.

In the third the court freed three Ohioans who, the justices said, had been misled—into refusing to answer—by a state committee which was investigating communism and asking the questions.

On a technicality the court split 4-4 in upholding the conviction of a fourth Ohioan—sentenced for refusing to answer questions from the same Ohio committee.

And finally, the court split 5-4 in turning down the appeal of a New York garment maker who

U.S. Interest Hike Possible

Ike's Proposal Given Chance as Dems Split on Enhancing Bonds

WASHINGTON (AP)—House Republicans moved to force a showdown today on President Eisenhower's stalled proposal for repeal of the interest rate ceiling on long term government bonds.

The issue may come to a head at a meeting of the House Ways and Means Committee called for late in the day.

Democratic leaders were caught with a sharp division in their own ranks over the President's interest rate proposal.

Ten of the 15 Ways and Means Committee Democrats were reported opposed to any action which would raise the present 4 1/2 per cent ceiling. On a showdown vote, the 10 GOP members could swing the issue in Eisenhower's favor.

"It's got to be done, and anyone with any sense knows it's got to be done," said Rep. John W. Byrnes (R-Wis.), a ranking GOP committee member and chairman of the Republican House Policy Committee.

"If you are going to borrow, you must pay what the market requires you to pay. Its that, or else start the printing presses and debase the currency."

Order Bob Burns' Son to Support Wife, Baby

LOS ANGELES (AP)—The 20-year-old son of the late bazooka-playing comedian Bob Burns must pay \$40 a week support for his 17-year-old wife and their infant son.

William Robin Burns testified at a Superior Court hearing Tuesday that he is trying to live on \$53 a week he earns as a gasoline station attendant. But he admitted he can dip into an \$11,000 trust fund left by his father.

His wife, who expects another child in November, had sued for separate maintenance. They were married two years ago and separated last month.

Escape Short-Lived for Youths

Convict Trio Caught, Teen Girl Freed

NEW MARTINSVILLE, W. Va. (AP)—Three teenage reformatory inmates, charged with kidnapping a young secretary and threatening to kill her if she resisted, got preliminary hearings today.

The trio took Sandra Lynne McKee, 18, for an 80-mile ride Tuesday but were captured less than five hours after their escape, as they tried to get food and money for a trip to Florida. Miss McKee was not harmed.

Larry Anthony Rector and Roger Lee Morse, both 16, and Patrick Jarrell, 17, were charged with kidnapping and grand larceny. Richard L. Young, said they would be given preliminary hearings before Magistrate W. C. Lawson.

The trio escaped from the State Industrial School for Boys at Pruntytown, near Grafton in north-central West Virginia. They were captured 10 miles south of this Ohio River town by Sheriff Shannon W. Westerman and other officers because Westerman thought they were in the neighborhood where his mother still lives.

TRIO CLIMB IN
Miss McKee is a plain-looking girl with straight blonde hair and glasses. Young and law officers said she told them it was her custom to take a drive after having lunch in the employees' cafeteria.

She had just returned and was parking her car when the three boys sidled up, opened the door and climbed in.

Convicts May Face Kidnaping Charge

MONROE, Wash. (AP)—Four young inmates who held 39 hostages for 13 1/2 tense hours during an attempted escape from the Washington State Reformatory face the possibility of kidnapping charges.

Ernest Timpani, superintendent, said three of the four were in the reformatory hospital for treatment of the effects of tear gas, fired at them Tuesday when reformatory guards stormed the small room in which the four held their hostages.

The fourth man, David K. Owens of Skagit County, Wash., was in solitary confinement.

Hospitalized were Robert E. Jamin, 22, San Diego, Calif.; Richard E. Murray, 20, Red Oak, Okla., and Donald McCourcy, 22, Everett, Wash.

The rebellious inmates seized a guard Monday afternoon while they worked in the kitchen. With a knife at his throat, they forced the guard upstairs to the visiting room where they seized two other guards, 11 inmates and 26 visitors, including 12 women and 8 children.

Garrett Heyns, state director of institutions, said formal charges would be made against the four after a full report was received.

Wake up rarin' to go

without nagging backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for over 60 years. New, large size saves money. Get Doan's Pills today!

Authorities learned the general direction the fugitives were taking because someone saw the car going through the town of Bridgeport.

"We were mighty, mighty lucky to catch them," said Young. "The boys were in a desperate state of mind."

All three were serving terms for auto theft or breaking and entering. Rector and Morse were serving second sentences.

The girl's mother, Mrs. Albert McKee, refused to let newspaper talk to her daughter, saying she was too upset.

"I can't get too much out of

Picture of a Promise

Sure, she's a grand old flag! That's why we salute her. That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals—by you—to help keep the economy strong. Bonds provide this money.
