

Israel Warns Clash Nears All-Out War

From Our News Wires
JERUSALEM — Israel and Jordan battled with artillery today for the fifth day in a row along their truce line between the Sea of Galilee and the Dead Sea. Israeli sources warned the situation is nearing full-scale war.

Israeli spokesmen said Jordanian 81mm mortars twice bombarded a tractor station near Damiya Bridge, midway between the Biblical seas. Israeli artillery replied with a 10-minute barrage.

The spokesmen said Arab guerrillas blew up a tractor just south of the Dead Sea and used mines to destroy two Israeli military vehicles in the Gaza Strip seized from Egypt in the 1967 Middle East war.

The fighting followed not only truce-line artillery duels but an Israeli commando strike Sunday that cut rail and

road links between Amman and Jordan's southern port of Aqaba. In Amman, Jordanian officials accused the Israelis of jet bombing raids against civilians, saying one raid yesterday killed 14 persons and wounded 18.

'NEAR ACT OF WAR'
In Jerusalem, Israeli sources said "The new coordinated and intensive bombardment along the entire length of the Jordan Valley sector is approaching an act of war and its continuation cannot be tolerated."

The United States is reported seeking the support of key nations for a new seven-point plan to bring peace between Israel and Egypt.

Informed diplomats said the initiative by President Johnson's administration gathered momentum after the Nov. 5 election and has attracted the interest of

President-elect Richard M. Nixon's entourage.

The informants said the American plan foresees as a starting point Israel's withdrawal from the Sinai peninsula and Egypt's termination of its 20-year-old state of war with the Jewish nation.

The aim of the U.S. program is an acceptable peace document signed by the main contenders in the Middle East conflict, the diplomats said. The American plan is said to reflect the chief ingredients of a resolution adopted by the United Nations Security Council in November 1967, after the six-day Arab-Israeli war.

The Americans have been trying to rally support for the plan from several major powers, including the Soviet Union, India and Britain, the informants said.

BRICK FELS OFFICER — Policeman Paul Juel of the San Francisco Police Department lies unconscious on the San Francisco State College campus yesterday after being felled by a hunk of brick thrown during a melee between police and

disident students. He was struck in the back of the neck. Nine persons were injured and 32 arrested during the clashes. (Story, Page A-2)

2-Party County Caucus Meeting Murphy: Will Chair Auditors or Resign

By JEAN SAILE

Daniel T. Murphy, chairman of Oakland County's Board of Auditors, told The Pontiac Press today he will resign if removed from the chairmanship of his committee.

A member and chairman of the powerful board of auditors since 1964, Murphy's term has another year to go. Since he, a Republican, soon will be working for the newly elected Democratic majority on the reorganized County Board of Supervisors, it has thrown some doubt on his political future as chairman for the coming year.

"I took this job on the basis that I would be able to implement certain procedures, and I would find it very hard to work for another chairman," he said.

A former county clerk, he recalled he'd given up the idea of running for a congressional seat in order to take the auditor chairmanship in 1964.

DANIEL T. MURPHY

A combined Republican-Democratic caucus study committee was to meet at noon today to further hammer out some basis of agreement by which to operate the newly elected County Board of Supervisors.

The Republicans — outnumbered 12 to 15 on the new board — met in caucus last night. They reiterated their decision to attempt to keep supervisors' jobs on a part-time basis.

"We believe the board should remain strictly legislative in nature," said Robert Patnales, caucus spokesman.

The Democrats' announced intention of seeking a blue-ribbon bipartisan advisory committee to study salaries was called premature by the Republican caucus.

STILL, DON'T KNOW
"We still don't know whether the jobs will be full or part time," said Patnales. The Republicans termed the

(Continued on Page A-2, Col. 4)

Peace Talk Role Eyed for Lodge

Harriman, Nixon Will Confer

NEW YORK (AP) — President-elect Richard M. Nixon will confer here tomorrow with W. Averell Harriman, aide announced today. The aide said earlier that Nixon had talked to Ambassador Henry Cabot Lodge about the possibility of Lodge replacing Harriman as chief American negotiator at the Vietnam Peace talks in Paris.

This was announced after the same Nixon spokesman, Ronald Ziegler, told newsmen that Vice President Hubert H. Humphrey rejected a firm offer from Nixon to be U.S. ambassador to the United Nations.

Nixon himself announced the appointment of Dr. Paul W. McCracken of

the University of Michigan to be the next chairman of the Council of Economic Advisers.

The president-elect, putting in a busy

Earlier Story, Page E-8

day at his Hotel Pierre headquarters, conferred later with Chairman Wilbur Mills, D-Ark., of the tax-writing House Ways and Means Committee.

DEGREE OF SKEPTICISM
Mills, the most influential man in Congress on tax matters, said he looked "with a degree of skepticism" on any ideas to vote tax credits—a device Nixon repeatedly has espoused as a means of dealing with many of the nation's social ills.

While declaring that such credits are generally undesirable from the standpoint of tax policy, Mills conceded that benefits to be derived in specific cases might make them warranted.

As for another Nixon proposal — to build automatic cost of living increases into the Social Security program—Mills

said he is firmly opposed to that and doubts his view would be "susceptible of compromise."

It is generally acknowledged that no tax legislation gets enacted if Mills stands with the opposition.

HARRIMAN, LBJ HUDDLE

Harriman and President Johnson were conferring today and are expected to map Paris peace talks strategy for the coming weeks. Expected to be the prime topic was arranging for the turnover of the U.S. team to the incoming Nixon administration.

Harriman, who returned from Paris yesterday, said in advance of today's conference with Johnson that he does not expect to remain as chief negotiator under Richard M. Nixon.

He said he thought the new president would be "well-advised to name his own team."

As Johnson and Harriman confer, the major problem before the United States and North Vietnam is to get the peace talks going again in an expanded new phase after a lapse of a month.

Drizzle Tonight, Flurries Tomorrow

The U.S. Weather Bureau predicts the Pontiac area will be dampened by drizzle tonight and snow flurries tomorrow.

Temperatures are expected to skid to 28 to 32 tonight and aim for a high of 36 to 40 tomorrow.

Friday's outlook is mostly cloudy and colder.

Today's winds northwesterly at eight to 15 miles per hour will become five to 10 miles tonight and northwest to west at eight to 12 miles tomorrow.

Precipitation probabilities in per cent are: 20 today and tonight, 30 tomorrow.

The low thermometer reading was 35 prior to 8 a.m. today. At 2 p.m. the mercury registered 40.

New Pontiac Div. Sales Marks

For the second consecutive month Pontiac Motor Division sales have set all-time records, propelling the division toward its best selling year ever.

John Z. DeLoe, a General Motors vice president and Pontiac general manager, reported today that a total of 88,628 new Pontiacs were sold in November, surpassing the previous high of 78,345 units sold in 1966.

Sales of 28,749 cars in the last 10 days of November were also a record — the fourth 10-day record since the 1969 models were unveiled. The best previous Nov. 21-30 period was in 1966 when 25,593 units were sold.

DeLoe said Pontiac sales in the first 11 months of the year totaled 827,890 cars. "This not only is a record but it also is 55,611 more units than we had sold in the same time last year."

He said the completely restyled Grand Prix has provided a particularly strong impetus to the division's overall sales. "In the two months the new GP has been on sale, our dealers have already sold more Grand Prix than they did in the entire 1968 model year."

Pierce Junior High a Focal Point

Waterford School Needs Called Crucial

By ED BLUNDEN

"These are the crucial years," said Paul O'Neill, principal of Waterford Township's Pierce Junior High, as he discussed his 1,300 pupils.

The school at 5445 Hatchery is a focal point which emphasizes all the troubles of the Waterford Township School District, in O'Neill's opinion. These are, mainly, a curtailed program, too little

funds, overcrowding and a bleak future.

"These are the grades (7 through 9) in which children's minds are exploring and when they need the most encouragement," O'Neill said.

But at present Pierce Junior High, and most of the rest of the district's schools, are not offering a full program. Everything has been cut back due to low funds.

District voters will have a chance to reverse the circumstances Saturday when a 9-mill property tax increase for two years and a \$10.8-million bond issue for new construction will be asked. New buildings would include a new junior high school, if approved.

District voters rejected a millage increase proposal in November 1967. And as everywhere, considerable opposition

has been voiced to further additions to already high tax rates.

The citizens' committee which recommended the election took this into account when the 9-mill question was proposed for two years. It is hoped after that time citizens of the district, joining with many others objecting to present school-tax laws, will be able to bring about reform more equitable to home owners.

Meanwhile, officials like O'Neill must carry on. At the junior high the cutback is one-sixth of the total program. This means each pupil is getting one less class period each semester.

CUTBACK DETAILED

The principal explained seventh graders now get one class of math-science instead of one each of math and science, eighth graders now combine English and history, and ninth graders have one less elective.

These reductions have allowed the school to cut 10 teachers from the staff a considerable cash saving.

"People say 'cut out the fat,' but no one agrees on what fat is," O'Neill said. He pointed out such classes as shop and homemaking are considered essential by many parents.

Students Head For Classes At Pierce Junior High School

POWER OF THE MAN

Much of the power he has exercised has been due to the man rather than to the office, and to his Republican affiliations.

To retain that power, he would need the help of some renegade Democrats, and Murphy agrees that such a proposition is questionable at this time.

Many political observers speculate that Robert E. Lilly, a Democrat member of the three-man board of auditors since 1951, will assume the chairmanship.

It would take two minor revolutions to get any other result.

TRADE MIGHT SUCCEED

One of them — and perhaps the most likely to succeed — would be the trade by the still Republican-controlled supervisors of John B. Osgood, only part-time member of the board, for a Democratic candidate.

The bipartisan board comprises two full-time positions and a part-time position.

Osgood is a Republican. He reportedly has been campaigning for reappointment to his current position — due to be assigned Dec. 17.

By giving the Democrats a part-time man to serve along with Lilly, the Republicans would hope to hold onto the full term for Republican Murphy when his present appointment expires next fall.

Murphy's announcement of his intention to resign if he does not get the chairmanship has come as a surprise to Republicans and Democrats alike and will undoubtedly cause some realigned thinking.

UNLIKELY EVENT

The Democratic trade for Osgood might prove to be someone like James Setzerlin, defeated county treasurer whose name has been mentioned for the job. It would still be highly unlikely that Setzerlin as a part-time man would be named instead of Lilly as chairman.

Secondly, there is a chance that the position could be escalated to a full-time basis on a par with Murphy and Lilly, but it seems remote.

NOT SO HAPPY NOW—Cleveland osteopath Dr. Sam Sheppard and his second wife, Ariene, beamed for photographers in 1966 when a retrial acquitted him of the 1954 murder of his first wife. The Sheppards are not so happy now. Ariene filed suit for divorce yesterday, saying Dr. Sam threatened to kill her. Two weeks ago, he resigned from the staff of Youngstown (Ohio) Osteopathic Hospital after two malpractice suits totalling \$1,215,000 were filed against him.

Possibility of Leak of ICC Ruling Eyed

WASHINGTON (AP) — Bonds of the bankrupt New Haven Railroad rose sharply on the stock market immediately after a secret Interstate Commerce Commission ruling that was not announced to the public until a week later.

An investigation was promised by ICC Chairman Paul J. Tierney to determine whether advance information leaked out of his agency, although he did say speculators may simply have anticipated the ruling.

C. of C. Mulling DST Recount

LANSING (AP) — The State Chamber of Commerce is considering spending up to \$15,000 to recount the apparent 1,501-vote defeat of Daylight Saving Time.

"I think the money will be available if necessary," said State Chamber President Harry R. Hall. The chamber backed DST.

The Board of State Canvassers is scheduled to ratify revised figures from the Nov. 5 vote on daylight saving time next Monday. The deadline for seeking a recount is 48 hours after the board acts.

Recounts cost \$5 per precinct. A petitioner's money is refunded only if the recount changes the outcome of the race in question.

RECHECK FINISHED

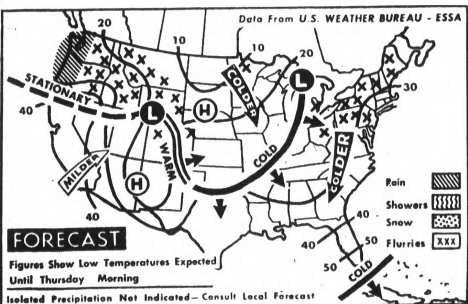

The state elections division finished a precinct-by-precinct reccheck of the vote Monday and set the margin of defeat at 1,501, finding apparent tabulating errors in figures from Macomb, MacKinnon and Allegan counties.

Reds Ambush Probing Yanks

SAIGON (AP) — An estimated 400 North Vietnamese troops, lying in a hell of thick jungle, attacked 150 probing U.S. air cavalrymen near the Cambodian border north of Saigon yesterday and killed or wounded more than half of them.

Twenty-three of the American troops were killed and 32 wounded. It was the heaviest casualty toll suffered by the elite 1st Air Cavalry Division in a single battle this year.

North Vietnamese casualties were not

known, but one Air Cav officer said: "We brought in a lot of stuff — artillery, rockets and bombers — on the enemy troops."

The 18,000-man air cavalry division has been operating north of Saigon for more than a month, seeking 15,000 to 20,000 North Vietnamese troops that are reported deployed along a 100-mile stretch of the Cambodian border. They constitute a potential threat to Saigon, and an air cavalry officer said today the

division has killed at least 1,135 enemy troops in the area since Oct. 31.

BATTLESHIP SHELLS DMZ

At the northern end of South Vietnam, meanwhile, the U.S. battleship New Jersey attacked the demilitarized zone yesterday for the first time since President Johnson ordered the bombing and shelling of North Vietnam stopped on Nov. 1.

The New Jersey joined in a coordinated attack with U.S. Marine

bombers after two North Vietnamese machine guns in the DMZ fired on two American reconnaissance planes, the U.S. Command said. The naval and aerial bombardment knocked out the two 50-caliber machine guns, smashed three bunkers and destroyed 200 yards of trenches, U.S. headquarters said.

This raised to 624 the reported total of U.S. attacks on the DMZ in response to indications of North Vietnamese military activity there since the bombing halt.

32 Are Arrested at SF State in 'Reign of Terror'

SAN FRANCISCO (AP) — Police made 32 arrests during clashes with student strikers yesterday at San Francisco State College, Acting President S. I. Hayakawa described the strikers' tactics as a "reign of terror" and said any continuations would be met with more police crackdowns.

About 300 of the school's 18,000 students appeared to be the ones who threw rocks, mud, broken bricks, glass, pine cones and boards.

At least nine persons, including five policemen, were injured in the campus' most violent day since the Black Students Union called the strike nearly four weeks ago.

14 STUDENTS SUSPENDED

The two-day total of arrests was 42 and 14 students have been suspended from school.

"If there is more tension, there will be more force," said Hayakawa, who wore a red and white flower lei he said was given him by a group of faculty supporters.

Republican Gov. Ronald Reagan praised Hayakawa's firm tactics, and Democratic Mayor Joseph Alioto promised all the city police strength needed against demonstrators, whose pressure for minority group demands has disrupted the campus for most of the past months.

About 300 activists were involved yesterday in three separate assaults on the business and social sciences building, where class attendance was reported high.

The quickest, most violent clash came in front of the library, where one police officer was knocked unconscious and one demonstrator was felled, his face streaming blood.

Arraignment Held in Extortion Case

Reputed Mafia leader Joseph M. Barbara Jr. of Fraser was arraigned yesterday in Oakland County Circuit Court on a charge of extortion.

Barbara stood mute to the charge and a plea of innocent was entered by Judge William R. Beasley. Barbara's bond was continued at \$50,000. No trial date was set.

Barbara is accused of extorting \$4,000 from Mrs. Delores Lazaros of Troy by threatening the lives of her son, John, 9, and husband, Peter, another alleged Mafia member, last March 27.

Lazaros has been under 24-hour guard by the State Police since he told of alleged bribery and political payoffs in the Detroit area.

Orthodontist Mute to Murder Charge

A Birmingham orthodontist stood mute yesterday at his second arraignment in Oakland County Circuit Court on charges of murdering his ex-wife and 7-year-old son in October.

Dr. Daniel J. Boucher, 44, of 3130 W. Long Lake, Bloomfield Township, had been arraigned once before in late October, but the case was later remanded back to lower court for preliminary examination. He had waived a preliminary hearing following his arrest.

Boucher is accused of the Oct. 16 shotgun slayings of his former wife, Blanche, 49, and their son, Daniel.

Following his arraignment before Circuit Judge William R. Beasley, Boucher was returned to the Oakland County Jail without bond. No trial date was set.

Annual GM Meeting

DETROIT (AP) — The 1969 annual meeting of General Motors Corp. stockholders will be held in Detroit's Cobo Hall May 23, beginning at 2:30 p.m. It will be the 61st such meeting and the 1968 meeting, also held in Detroit, attracted 1,800.

MISSING GIRL — Nancy Marie Fleece, 14, is the object of an intense search by Battle Creek police. The girl has been missing since Sunday when she disappeared a half-mile from the Fleece home after a shopping trip. Police were told by a youth Sunday that he and a friend picked up a hitchhiking girl and drove her to a supermarket near the north edge of Battle Creek.

2 Killings Likely to Trigger More Violence Across Italy

ROME (AP) — Italy was threatened with more violence today as protests

against the killing of two Sicilian farm workers swelled the ranks of workers and students striking across the country.

Across the nation antipolice overtones were added to workers' strikes for more money and student demonstrations demanding educational reforms. Police battled thousands of demonstrators in Genoa and Milan yesterday, and more than 100 persons were injured.

2-Party County Caucus Meeting

(Continued From Page One)

Democratic announcement to seek such a committee "a maneuver to keep the heat off" in case the decision is to put supervisors on a full-time basis.

Deles Hamlin, chairman of the present Board of Supervisors, told The Pontiac Press that total salaries and expenses paid last year to board members amounted to \$51,000.

Any full-time positions with commensurate salaries would cost considerably more, he said, even though the new board will be reduced to 27 members.

NAMED CHAIRMAN

Republicans named Harry Horton of Royal Oak chairman of a committee to study the need for a new board of supervisors and the compensation to which members shall be entitled.

Two other study committees were named with Wallace Gabler of Royal Oak heading a rules and by-laws study and Mary Bawden of Birmingham heading a study to reduce the present number of supervisor committees.

There are currently 24 such committees, and both Democrats and Republicans say they seek to reduce that number to about 10.

Blue Cross Pushing Better Cost Planning

NEW YORK (AP) — The Blue Cross Association, in a move to curb spiraling hospital costs, says it will reduce payments to or cancel contracts with hospitals which do not cooperate with community health planning agencies.

The board of governors of the national association also said in a statement yesterday that it will reward hospitals that show improved efficiency through a monetary incentive plan.

Walter J. McNamee, Blue Cross president, said hospitals should concentrate on "building more efficient and better-distributed" facilities, and should share services and expensive equipment within communities to cut costs.

School Needs Called Crucial

(Continued From Page One)

Pierce Junior High School is obviously packed. "I'm not saying we're overcrowded at this point," O'Neill said. "We can manage," he added. "I

don't really know how many pupils this school was meant to service," he added.
ANOTHER EXAMPLE
Walking to the school's gymnasium, O'Neill observed about 40 girls and 40 boys in the two

classes. They were all seventh graders. He explained due to the gym's size only seventh graders attend. There is no gym for the eighth grade and only one class of ninth graders is allowed to attend as an elective.

The gym apparently was not designed to hold the present number of pupils, O'Neill observed.

A visit to shop class showed facilities up at absolute capacity. Both shop and gym teachers say additional pupils would bring a sharp lowering of teaching capability.

"I would hate to have to cut the program back any further than we have now," O'Neill said. "We have a fine group of youngsters here. I happen to believe that school is a fine place for children."

GLOOMY OUTLOOK

And what is the outlook for the children under Waterford's

'Students Should Help Form Rules'

ATLANTA, Ga. (AP) — The dean of the University of Denver's law school says students can't be expected to obey rules they have no part in formulating.

Robert B. Yegge, speaking to the 73rd annual session of the Southern Association of Colleges and Schools Tuesday, said American colleges operated as "benevolent dictatorships" encourage student unrest.

Another U.S. Plane Is Hijacked to Cuba

MIAMI, Fla. (AP) — A perspiring hijacker impatiently allowed an airliner to refuel yesterday before flying to Havana.

Waving a hand gun and a grenade wrapped in an arm bandage, the hijacker talked about his life in the United States during a one-hour, 21-minute refueling stop in Key West.

"He said he had worked in the Miami area for quite a while and he'd been fired from all his jobs," said Irene Guntin, one of four Cuban-born stewardesses aboard the National Airlines jet.

"I can't continue living in this country. I'll get there (Cuba) even if I have to kill one of you," she quoted him as saying.

Miss Guntin and other members of the crew—including one

nonworking stewardess listed officially as one of 28 passengers—returned to Miami late last night.

The other passengers were to be bused to Varadero, Cuba, for a flight to Florida today aboard a charter aircraft. Cuban authorities, following a pattern developed since the hijack outbreak began, refused to allow them to leave the Havana airport aboard the big jet.

In Miami, Miss Guntin told a news conference today the hijacker identified himself as Eddie Canteras, a 33-year-old native of Havana.

The gunman said that in Havana, "He had his mother to look forward to. His mother was there, and she didn't want to come to the United States," the stewardess said.

DIDN'T CARE

"He said he didn't care if they killed him," he still wanted to go back, she said.

The big jet—substituted earlier in the day for a scheduled DC8 flight from New York to Miami via Tampa—was seized while making its landing approach at Miami.

The hijacker forced stewardesses to open the cockpit door and took command.

"The door flew open and he said he wanted to go to Havana," Capt. James W. Sims told newsmen. The pilot said he needed more fuel, and got his permission to stop at Key West—only 90 miles from the Cuban coast.

Murphy Warns He May Resign

(Continued From Page One)

Seeterlin says he's not optimistic — that he has, in fact, made applications to several governmental units in the country for the position of city or township manager.

Murphy said he doubted that a political appointment would lure him at this time.

As auditor, he is due to make \$24,000 next year. An extra \$7,500 goes to the chairman.

TOO MUCH—When a fella is 1½ years big, it doesn't take too much shopping to tire him out. However, if Bradley, the son of Mr. and Mrs. Keith H. Winslow of 5360 Inlay City, Inlay City, were to wake up, he would find his dream of foy-land has come true. The seasonal picture was taken at the Pontiac Mall.

Avondale Pacts Set for New High School

AVON TOWNSHIP — The Avondale Board of Education has awarded contracts for the construction of a new high school.

The first phase of the new facility, which will include 80,000 square feet of floor space and 29 classrooms, is scheduled for completion by August 1970, according to Schools Supt. John W. Dickey. Cost will be \$2,018,824.

Ground-breaking ceremonies will be held in a few weeks, according to William J. Adams, spokesman for the architectural firm of Linn Smith, Demene and Adams, Inc., of Birmingham.

The contracts went to W. A. Lutz Construction Co. of Harper Woods, for general contracting; Evans Plumbing and Heating Co. of Southfield, mechanical contracting; and Fred W. Mooto Co. of 845 W. Huron, Pontiac, electrical contracting.

BOND ISSUE FUNDS

The construction will be financed with

Members Added to 2 Holly Boards

HOLLY TOWNSHIP — The Township Board has appointed new members to the library board and board of review. Mrs. Ellen Lock was named to the library board, replacing Mrs. Helen Bennett, who recently resigned.

Aubrey Butler and George Wagoner were reappointed to the board of review, while James Herrington was appointed for the first time. All will serve two-year terms.

Lapeer Home Union Faces Loss of State Recognition

LAPEER — The Michigan Civil Service Commission has scheduled a hearing Dec. 12 on whether to withdraw recognition from the employees' union at the Lapeer State Home and Training School.

Officers of the union, Local 567 of the American Federation of State, County and Municipal Employees (AFSCME), have been ordered to show cause why recognition should not be withdrawn.

The hearing will be held at 9:30 a.m. before commission hearing officer David Pence in the chambers of the Lapeer County Circuit Court.

Pence, an attorney, is a partner in the Pontiac law firm of Pence, Becker and Norris.

EARLIER THREAT

The Civil Service Commission had earlier threatened to withdraw recognition from the union shortly after a partial work stoppage at the Lapeer hospital.

funds from a \$3.1 million bond issue approved by voters in 1966.

Another bond issue question, to finance construction of the second phase of the school, probably will be placed on the ballot after the first phase is completed, Dickey said.

When both phases are completed, he added, the school will have a total of 80 classrooms and 222,250 square feet of floor space, including an auditorium and swimming pool.

The new high school will be constructed on the present junior high school site, recently enlarged to 70 acres, Dickey said, and the present high school will become a junior high.

STUDENT BODY SPLIT

Part of the senior high student body, which would be too large to be accommodated in the first phase, will attend classes in the junior high building, less than 500 feet from the new structure, he explained.

Civilians Form Crime Patrol

HIGHLAND PARK (AP) — A civilian volunteer patrol has been set up to roam the streets of the Detroit suburb of Highland Park in radio cars in the wake of indictments against 13 police officers on charges ranging from larceny to malicious destruction of an automobile.

Mayor Robert Blackwell said Police Chief William E. Stephens agreed to institute the radio car patrol at night and report possible crimes. The volunteers would not be armed, officials said.

Thirteen policemen and two former policemen were indicted on the charges by the Wayne County Grand Jury set up at the request of Prosecutor William Cahalan.

There were 105 men in the Highland Park Police Department. Suspensions

TROY — The Biltmore Development Co. appears headed for success on its latest rezoning request in this city.

While the City Commission has tabled for a week the new request, involving a 52-acre parcel northeast of Big Beaver and Coolidge, commissioners indicated that when Biltmore puts in writing its recent decision not to expand the Somerset Park apartment complex, approval may be forthcoming.

The development company early this year sought rezoning of 219 acres north

of Big Beaver to allow expansion of the Somerset complex.

The commission approved the rezoning, but rescinded it several months later after three candidates opposing the change ran successfully for commission seats.

SHOPPING CENTER LAND

The new request would change the 52 acres from the present single-family residential zoning to commercial. The land would be added to 11 acres already

zoned commercial to provide space for a regional shopping center.

In addition, Norman Cohen, Biltmore attorney and a partner in the firm, said Biltmore will seek rezoning of another 60 acres northwest of Big Beaver and Coolidge for office usage.

A prospective tenant is seeking a 30-acre site for a \$15 million office building, Cohen said.

Biltmore, already Troy's largest taxpayer, is involved in construction of a "fashion mall" shopping area southeast

of Big Beaver and Coolidge, with Saks Fifth Avenue and Bonwit Teller the principal stores.

The new proposed office and shopping center complex would pay roughly \$1.5 million in property taxes, Cohen noted, compared to the \$294,000 which the city would receive from single-family residential use.

The Biltmore spokesman said the 60-acre office rezoning request would be submitted to the city planning commission Tuesday.

W. Bloomfield Won't Levy Tax Collection Fee

WEST BLOOMFIELD TOWNSHIP — The Township Board has again voted to waive the one per cent collection fee for taxes, although it is able to do so legally. Taxpayers an annual fee for collecting taxes, although it is able to do so legally to cover collection expenses.

In other recent action, the board again reviewed proposed new subdivision regulations. Approval of the regulations will be considered at the next regular board meeting.

The board also set April 1, 1969, as the date for the first payment on the charge for joining the Walnut Lake sewer arm from Pine Center and Bloomfield on the Lake subdivisions. The subdivisions were connected into another sewer until the Walnut Lake arm was finished last summer. Total cost per household will be \$350 for tapping into the Walnut Lake arm and \$250 for joining the Farmington interceptor, into which the arm drains.

The proposed agreement for sale of the West Bloomfield Fire Station in Keego Harbor to the new tri-city fire committee was discussed again. Keego Harbor, Sylvan Lake and Orchard Lake hope to jointly purchase the station for \$19,750.

Before signing, the board wants a definite financial obligation arranged and a period of occupancy after settling upon, to allow relocation of West Bloomfield personnel and equipment.

Lapeer County VISTA

LANSING (AP) — Gov. George Romney has approved assignment of nine VISTA volunteers to various economic opportunity agencies in Michigan, including two in Detroit; one to the Thumb Area Economic Opportunity Commission serving Tuscola, Huron, Sanilac and Lapeer counties; one in Monroe County; two to the agency serving Manistee, Mason, Lake and Newagawac counties; and three to Northeast Michigan Community Action Inc. serving 12 counties with headquarters in Alpena.

Area News

NORMAN KAPSON

Brandon Gets New Supervisor

BRANDON TOWNSHIP — An Orionville businessman has been appointed supervisor of this township by a 4-1 vote of the Township Board.

Norman Kapson, owner of Kapson Design Services, 174 Mill, will replace Richard Wilcox Jan. 1 when the latter assumes his new office of county supervisor.

The 38-year-old Kapson was selected from among four applicants for the township supervisor's job, which pays \$6,000 per year. Selected by secret ballot, Republican Kapson received four votes to one for trustee Mrs. Leona Hutchings. Married and the father of three children, Kapson has served nine years on township's fire and police board.

REPRESENTATIVE NAMED

The supervisor's term expires in November 1970.

In other recent business, the Township Board named new trustee Don Vogel as the township representative on the appeals board, reappointed Fred Beardslee and Gerald Bandy respectively to new four-year terms on the township zoning board, and reappointed George Koester and Milton Miller to the board of review. Fred Lehnen was also appointed to the review board.

The zoning ordinance was amended to incorporate a multiple dwelling classification, in still other recent board action. The classification sets up regulations for apartments and similar type buildings.

The board authorized the hiring of an appraiser, Albert E. Beyer of Grand Blanc, to appraise new buildings and building improvements. Beyer was the lowest of three bidders at a cost estimated at about \$5 per inspection, according to Clerk Lucille Saunders.

13 in Oxford Vie to Write Charter

OXFORD — Thirteen candidates filed yesterday for nine seats at stake on the city charter commission here in the Feb. 11 incorporation vote.

The village proposes to incorporate itself and four square miles of Oxford Township land into a city. Only if the city issue passes would the charter commission members take office.

The commission's only job would be to draft a city charter for voter approval.

Filing for the charter writing were John W. Moses, 55 W. Draher; George J. Snyder, 31 Pearl; Claude E. Roger, 81 Park; Luther L. Clyburn, 27 W. Purdick; Allen E. Valentine, 59 Pleasant; Curtis Cullen, 15 Park; George A. Hesketh Jr., 50 W. Purdick.

OTHER CANDIDATES

Also Lowell E. Prescott, 10 Crawford; Elsworth Sage, 6 Crawford; Gerald R. Griffin, 529 Mechanic; Joan F. Rossman, 55 Mechanic; and Edward LaDouceur, 615 Pontiac.

The candidates were filed with Oakland County by the 4 p.m. deadline yesterday.

If the vote is favorable Feb. 11, the new city of Oxford would have an area of about six square miles. The village currently is about two square miles in size.

School Reorganization Report Received by Rochester Board

ROCHESTER — School board members here have received a progress report on Avon-Brooklands Schools reorganization, which was accomplished at the beginning of the school year.

The four-room Avon school has all kindergarten youngsters and two classes of first graders, a junior primary setup.

The reorganization at Brooklands School with grades 3-6 has permitted the creation of a multiage group of fourth, fifth and sixth graders, who are somewhat low achievers.

The multiage grouping permits specialization instruction, featuring more individual attention for pupils.

SUCCESSFUL

Although only three months have gone by, Schools Supt. Douglas Lund said the reorganization has been successful.

In other recent business, the board awarded contracts for new transporta-

tion equipment. Goodyear Tire Co. of Pontiac was the lowest of four bidders at \$2,546 on the purchase of 48 tires and 36 tire tubes for district trucks, buses and autos.

Bill Fox Chevrolet of Rochester was the lowest of three bidders at \$1,965 for the replacement of one district car.

Price of Gold Jumps

LONDON (AP) — The price of gold jumped 50 cents an ounce on the London free market today, the largest single increase in a fairly steady rise in the gold price here over the last week.

The price was fixed this morning at \$40.775 an ounce, up 50 cents from the fixing yesterday afternoon. In later trading gold was quoted as between \$40.70 and \$40.85 an ounce.

On Sidewalk Issue

Is Avon Twp. Out of Step?

BY L. GARY THORNE
Assistant City Editor — Suburban

AVON TOWNSHIP — Sidewalks with railings? This idea isn't too farfetched if some of the hilly terrain of this scenic township is considered, according to township Supervisor Cyril E. Miller.

Miller is not one to be facetious, and sidewalks have lately come to be a serious subject. Parents with children in the Rochester School District have complained to school officials that because of the lack of sidewalks their children have a dangerous trip to and from school.

The parents, of course, weren't asking the school board to go out and construct miles and miles of new sidewalk. They were, however, asking some relief from the district's busing policy.

(The district's general policy is to not transport secondary students living closer than a mile-and-a-half and elementary pupils closer than a mile. There are exceptions where crossing hazardous roads are involved.)

REJECTION

While somewhat in sympathy, the school board has nevertheless had to say no. School officials cite the State Department of Education's rule on reimbursing for busing students as their defense.

Meantime, it is remembered that the township has an old ordinance that requires subdivision developers to put in sidewalks at least on all the so-called mile roads.

'FLEXIBLE' ENFORCEMENT

Asked about the ordinance, Supervisor Miller readily admitted it was around, but said it had been flexibly enforced.

He pointed to nearly impossible construction problems as reason for the township's flexibility.

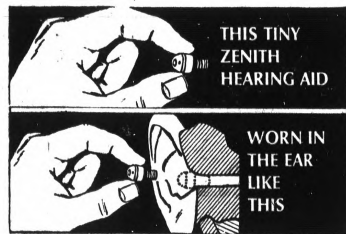

For example, he said, in some areas, entire swamps might have to be filled in to construct the would-be sidewalk at the proper elevation. Fill of up to nine feet might be necessary in some areas.

"The answer is more money from the state," said Miller, meaning a change in the reimbursement policy to local school districts for bus transportation.

WITHIN SUBDIVISIONS

So far as the Rochester School District is concerned, there isn't much sidewalk available outside of the city. Where there is such paving it usually is within subdivisions and this isn't really the major problem.

Parents are concerned about dangerous walking conditions along the heavily traveled roadways where at the most there is a wide shoulder or a path beaten down. It would appear there isn't much hope of solution for the problem unless more than just Rochester school officials approach Lansing for help.

Waterford's Future in Hands of Voters

The future of the Waterford Township School District may rest in the hands of the voters Saturday.

This is no idle threat. It's almost a certainty.

If the request for a nine-mill tax increase for two years and a \$10.8-million bond issue are defeated the district could face a major crisis.

This election, however, goes deeper than the schools. A sound education system is a plus factor for the township's reputation, economy, growth and real estate values. Without good schools all of these could suffer in the not-too-distant future.

In view of the importance of this election, school officials and citizens' committees have made every effort to explain the facts and to show there is a real need.

Schools Supt. Dr. DON O. TATROE, his administrative staff and teachers wisely are not taking the negative approach in this campaign. They are aware of the problems that face them if the millage is defeated. But instead of threatening voters with what will happen if the millage fails, they are instead showing citizens how Waterford will benefit and what children will receive if the money is obtained.

- A favorable vote will provide:
- A continued full day of programs for elementary children.
 - A full day of schooling for secondary students. The entire secondary program has been

- trimmed by one class period with the removal of 54 teaching positions due to operating budget limitations.
- Sufficient classrooms to offer a good education for several years.
 - Remedial reading help for all children who need it in the elementary grades.
 - Better maintenance for all schools.
 - Accreditation for the new Mott High School and continued accreditation for Township and Kettering high schools.

If the bond issue is approved, there will be no tax increase. A favorable vote on the millage will mean beginning next year property owners will pay an additional \$9 for each \$1,000 of state equalized valuation.

Without a doubt this is a healthy boost, especially for persons on fixed incomes. But financing a sound school system is an expensive undertaking.

There's no magic wand or secret formula to obtain the needed funds. The only way is through taxation. The system of financing schools may be one of our most archaic, but until a better one comes along money still is needed to educate our children.

Policemen and Civilians Are Paid Merited Tribute

At a time when news is made more by acts of indifference to the public weal by law enforcement bodies and by those of citizens for the safety of their fellows, it is refreshing to witness the recognition for individual merit and valor recently awarded by the Pontiac Police Department.

Thirty-four policemen and five civilians were cited for a wide range of acts reflecting bravery and outstanding devotion to duty on the part of the officers and selfless assistance to those endangered, and cooperation with the police, by the civilians.

The award ceremony was the third annual such event. Since its inception, a total of 78 police

and 14 civilian citations have been awarded.

During the 20-month span covered by the 1968 event, one officer, RAYMOND C. HAWKS, earned an unprecedented seven citations, while three were awarded two, and two were twice honored. When put in perspective of a 144-man police force, the collective record of superior performance is most noteworthy.

We congratulate the guardians of the peace who have distinguished themselves in the performance of duty and the civilians on their voluntary response to emergency.

Property Tax Reform Makes Sense

By RAYMOND MOLEY

The country has now emerged from a long presidential campaign in which at least two candidates, Richard Nixon and Hubert H. Humphrey, were aided by considerable collections of economists, speech and statement writers. Millions of words have been spoken or written for distribution.

And the two important domestic issues were what to do about (a) our crowded cities and (b) inflation in which there is involved federal revenues and federal spending.

Both of these involve getting more money to help rebuild cities and to bring federal revenues more nearly into balance. In short, they involve taxation.

But in all this outpouring which so far as possible was examined with some care, there is one glaring omission. There is not a single word uttered about reforming the property tax.

LARGE ELEMENT

It may be that a reform of the property tax might not produce new billions of revenue. But it is a large element

in the economy. It accounts for revenues over the country of something like \$23 or \$25 billion.

A readjustment of the tax might contribute toward the capacity of cities to carry more of the load which they now find impossible to carry.

One reform might be to realize more revenue at the local level by capturing some of the unearned profits now reaped by land speculators.

This might be accomplished by some sort of capital gains tax. Another might be the imposition of a heavier tax on land held out of use.

REAL GAIN

But the real gain would be to bring more private capital into new housing and the improvement of old housing by shifting some of the assessment from the improvement to the land.

More and more economists are looking favorably to such a shift in the property tax. Prof. Lowell Harris of Columbia, who is also research director of the Tax Foundation, says this in a Tax Foundation publication:

"A shift of the proportions of property tax could be beneficial. Suppose that the rate on land values were three times the rate on improvements—or other proportions which would not alter the total revenue for the locality.

"As a start toward reform of a major tax, one which will continue to play a large role in our society, such shifts of emphasis seem highly attractive.

"The suggestion here is not to increase the total revenue from the 'two taxes' but to realign the proportions.

SAME TAX AMOUNT

"On the average, property owners would pay the same amount of tax. But few would be at just the average. Substantially higher rates on land values would induce owners of low-use land to convert to higher-value uses. Meanwhile, the lower tax rates on buildings would encourage replacement of old structures by new ones, as well as new additions. The benefits, I submit, could be highly significant—not revolutionary, not earthshaking, but not insignificant."

This view, which is coming into acceptance by more and more students of urban problems, makes a great deal of sense.

It should certainly be considered before more billions of federal revenues are pumped into our cities.

The way to induce more private investment in rebuilding our cities is to make the tax on improvements less and to force unused land into use by heavier taxes.

(Copyright 1968, Los Angeles Times)

'We're Holding A Place For You, Sir!'

David Lawrence Says:

Economic Control Has Variables

WASHINGTON — Control of the national economy is often assumed to be something that the federal government can manage with meticulous efficiency. But the general public often is unaware of factors that cannot always be foreseen.

This week, for instance, the leading commercial banks of the country have boosted their minimum lending rates on corporate loans from 6 1/2 per cent to 6 3/4 per cent.

If somebody in industry raised prices, the assumption would be that it was prompted just by a desire to make more profits. But the banks of the nation are supervised by the Federal Reserve System, and if interest rates go up, it is often the result of Federal Reserve policy.

The cost of money at present is being increased presumably to curtail or slow down the demand for money. But there are also natural reasons why bankers feel that they must raise interest rates.

HIGHER PAYMENTS

Often it is because they must pay higher sums for the money they borrow for purposes of relending.

Not all government economists like the upward rise in interest rates, but some of them feel that it is inevitable because consumer prices also have been rising.

The U.S. Bureau of Labor Statistics reported last week a six-tenths of 1 per cent increase in October over the previous month, due to higher prices for new automobiles, apparel and some foods.

The October index is 4.6 per cent higher than a year ago. Increases for the first 10 months in 1968 amount to 4 per cent, compared to 3.1 per cent for all of 1967.

UNION CONTRACTS

For some workers the cost-of-living increases are offset by added compensation in union contracts. These provide that, when the national index of prices goes up, a raise in wages per hour is automatically given.

There is always a possibility that when a slowdown in the economy starts, it may go much further than anticipated.

The whole situation is one that is not relished by those political observers who think that, if the economy slows down, it will present the Nixon administration with the necessity for important decisions in other fields that

could for a time adversely affect the national economy.

The possibility of a recession in 1969 has been widely discussed by economists. Predictions vary as to when it might come.

Some experts have predicted that it would develop in the latter part of 1969, but it could come much earlier if the new administration's policies are of such a nature as to let the slowdown take its course.

(Copyright, 1968 Publishers-Hall Syndicate)

Bob Considine Says:

Medical Times Advises Kindness to UFO Spotters

NEW YORK — The scholarly Medical Times, which is editorially allergic to sensationalism, recently printed an article asking psychiatrists and lesser head-shrinkers to be kind to persons who claim they've seen flying saucers.

Dr. Berthold Eric Schwarz, assistant attending psychiatrist at Montclair (N.J.) Community Hospital, lists 19 references including four apparently credible persons who swear they had UFO (unidentified flying objects) experience.

"The date of firsthand UFO experiences should have practical value and interest to the physician who by training is in a unique position to make contributions to this problem.

SHOULD AVOID RIDICULE

"He is often the first to hear of such reports and is in a position to obtain all the facts and assess the human biological effects.

"While it is evident that the physician will undoubtedly come across some crackpot and irresponsible accounts, as a practitioner of an ancient art and science he should scrupulously avoid ridicule and keep an open mind lest he unwittingly discourage significant reports from those who might have had valid experiences, and thus inflict damage on them. A condemnatory attitude is as scientifically reprehensible as a glib one."

The article quotes the late Dr. C. G. Jung who was fascinated by flying saucer accounts. In his one article he compared beliefs in UFO's to be a God image.

"He felt that UFO sightings were understandable when related to man's eroded belief in God and his need for a redeeming supernatural event."

Dr. Schwarz writes, "God in His omniscience, omnipotence, and omnipresence is a totality symbol par excellence, something round, complete and perfect."

But shortly before his death in 1961, Jung changed his mind. He wrote to the director of the National Investigations Committee on Aerial Phenomena and stated that he now believed UFO's were indeed ships from outer space.

Daily Almanac

By United Press International

Today is Wednesday, Dec. 4, the 339th day of 1968 with 27 to follow.

The moon is full.

The morning stars are Mars and Jupiter.

The evening stars are Venus and Saturn.

On this day in history:

In 1918 President Woodrow Wilson sailed for France to attend the peace conference for World War I at Versailles.

In 1942 President Franklin D. Roosevelt ordered the liquidation of the WPA, created in 1935 to provide work for the unemployed.

In 1948 the United Mine Workers Union was fined \$3.5 million for refusing to call off a 17 day strike.

In 1965 America's Gemini 7 spaceship was hurled into orbit on an unprecedented and successful 14 day voyage around the earth. On Dec. 15, Gemini 7 and Gemini 6 made their historical rendezvous in space and circled the earth only yards apart.

The Egyptians have broken the ceasefire 119 times altogether. Mr. Moshe Dayan stated in reply to another question. Israel's casualties on the Egyptian front line between the end of the Six-Day War and 29 October 1968 totalled 101 killed and some 300 wounded.

Voice of the People.

'Many Problems Caused by Throw-Away Bottles'

Streets and highways are showered with broken glass from throw-away bottles; automobile tires are ruined and barefoot kids' feet cut. Kids like to hear the bottles break on the sidewalks, as I observed this past summer. It may benefit the beverage maker by not having to pick up bottles or having to wash them, but it will cost the taxpayers thousands to clean up the mess.

★ ★ ★

Farmers in various parts of the country complain about having their tractor tires ruined by bottles hidden in the grass alongside the roads. I hope others will help do away with "no return" bottles. Why not plastic containers?

E. W. BARBER

'Doesn't Constitution Mention Education?'

Why is education not mentioned in the Constitution? Experiments by the laws of governments within the States, without education, will fail. Those holding high public office know that education will destroy ignorance from fear and fear from freedom.

What the spirited college students have been doing may seem wrong, yet it is nothing new. Remember the first sit-down by the men of Fisher Body at Flint in 1937? Now about every worker in the nation is a member of one kind of union or another. College students are settling the difference between freedom and regimentation. The gains organized by one man must not be lost by all men on account of violence.

WILLIAM REID

Discusses Franklin's Ideas on Education

As early as 1743, Franklin proposed the founding of an educational institution in Philadelphia. The school opened under his sponsorship in 1751. Franklin's ideas on education were a combination of old and new, and forecast the kind of education which was to prevail in the U.S. He proposed that the students learn "those things that are likely to be most practical and most ornamental." The emphasis on the useful was new, and so was the provision for exercise and sports to promote health. The recommendation that the masters "look on the students as in some sort their children" and "treat them with familiarity and affection" was novel and humane.

Franklin's central idea was that learning alone confers "benignity of mind" and "an ability to serve mankind, one's country, friends and family." This idea is worth comparing with the aims of education as expressed by other writers and it certainly should be at the very foundation of the Great High School where and whenever it is built.

GARFIELD JOHNSON JR., M.D.

Question and Answer

How many feet above sea level are the Great Lakes?
REGULAR READER

REPLY

Levels vary according to wind and precipitation, and are currently somewhat above normal because of above-average rainfall. As of Nov. 29, they were: Superior, 601.3 feet; Michigan-Huron, 578.35; Erie, 570.15; Ontario, 243.90. As you can see, elevation drops the closer the lake is to the ocean.

Question and Answer

I know it's too late to do anything, but I feel I've been taken. My father bought a new car Oct. 18, 1966 and died Jan. 25, 1967. My brother was administrator and he sold the car at the Blue Book list price of \$1,800. When a case like this comes up in Probate Court, does the seller have to use the Blue Book? The car cost \$3,857.15, and I think it should have sold for more. It was sold Feb. 25, 1967.

MRS. A.

REPLY

They told us at Probate Court in cases like this the Court appoints two appraisers, who report what they consider to be a fair price. There was no Blue Book listing for the 1967 car in February 1967. The earliest listing was in August 1967, and at that time the car you described was listed at \$2,050 wholesale, \$2,445 retail. Records of Probate cases are open to the public, and you can check into the details of your father's case at Probate Court office, Oakland County Courthouse.

Reviewing Other Editorial Pages

Casualties . . .
Israel Digest . . .

Terrorist acts carried out by marauders against citizens of Israel and residents of Israel-held areas since the Six-Day War have cost 19 dead and 131 wounded. These casualties comprise 115 men, five women and 23 children. The number of killings and sabotage acts against civilian targets over the period totalled 300. This was stated by Israel's Defense Minister Moshe Dayan, in reply to a question put to him in the Knesset, Israel's Parliament, on 29 October.

These figures include the losses sustained when the destroyer Eilat was sunk in an unprovoked Egyptian attack on 21 October 1967, with the loss of 47 lives. The total number of Russian experts in Egypt is some 2,500 as far as Israel knows.

Scorecard

Hillsdale Daily News

The scorecard now reads Democrats 17, Republicans 16. The two teams have split control of the presidency almost 50-50 since 1828, when Andrew Jackson's defeat of John Quincy Adams marked what is generally regarded as the beginning of our two-party system. Also in that time the Whigs, a leading opposition party to the Democrats before 1828, nabbed office twice more.

Black Raps Protester 'Abuses'

WASHINGTON (AP) — Justice Hugo L. Black, parting still further the curtain of silence that traditionally shrouds the Supreme Court, says nothing gives demonstrators the right to "tramp" streets—such as those of Chicago—or assemble on private or government property.

"The Constitution doesn't say that any man shall have a right to say anything he wishes, anywhere he wants to go," the court's senior justice said Tuesday night in an unprecedented hour-long national television interview.

Rocking gently before a desk in the study of his suburban Virginia home, the 82-year-old Black frequently used dry wit and an elfin grin to season a philosophy that appears little changed after 31 years on the court.

Never far from his hand during the edited result of eight hours of questioning was a well-thumbed paperback copy of the Constitution which Black said he carried always in his pocket.

He referred to it often—but just as often quoted from memory—in touching on the makeup of the court, disorders that surrounded the Democratic National Convention in Chicago and major decisions, including a regret about the phrasing of the 1954 school desegregation ruling.

Black was asked to apply his oft-stated beliefs on free speech and assembly to the bloody August clashes between police and antiwar protesters at the Democratic convention. He made it

most liberal decisions are unconstitutional.

His broad-ranging comments in full view of the nation come only a few months after Justice Abe Fortas refused before a Senate committee to discuss specific Supreme Court cases.

Fortas has mentioned cases and outlined his philosophy in lectures, articles and interviews. But he told senators that constitutional provisions for government prevented him from answering some of their questions, even though his appointment as chief justice hung in the balance.

Commenting on the significance of Black's appearance, noted law professor Charles Wright of the University of Texas said it represents a trend but "not one that has been emerging recently."

"The court is a branch of government not very well understood and there should be more of this," Wright said in a telephone interview from New Haven, Conn., where he is a visiting professor of law at Yale.

NIXON ADVISER — Dr. Lee A. DuBridge was named President-elect Richard Nixon's personal scientific adviser yesterday. DuBridge, who will resign the presidency of California Institute of Technology, was pleading for more U.S. aid for college research within a few hours of the announcement.

AMA to Give MSU Award

MIAMI BEACH, Fla. (AP) — Michigan State University's medical school has been named to receive a \$125,000 inheritance award through the American Medical Association.

The money, representing one-sixth of the estate of the late Dr. John L. Snavely of Sterling, Ill., was awarded for MSU's proposal to more effectively involve community physicians as teachers of medical students.

Snavely, who died in January 1967, willed the money to the AMA for distribution to medical colleges for research as determined by the AMA Board of Trustees.

The AMA asked medical schools which have started within the past five years to submit proposals involving one of the following areas: research in medical education, delivery of health services, provision of comprehensive health care or emergency medical care.

Out of six proposals which the AMA rated as "excellent," Michigan State was selected for the grant.

Chrysler Starts Aid to Negroes

To Train Car Dealers;
Makes Bank Deposit

ATLANTA, Ga. (AP)—Chrysler Corp., moving to aid economic development of black communities, deposited \$100,000 in a Negro-owned Atlanta bank Tuesday and announced steps for training Negro auto dealers—an exclusively white domain until recent years.

There are eight Negro dealers among the thousands of car dealers for U.S. auto's Big Three—Chrysler, Ford and General Motors, an official of Chrysler said.

Chrysler's urban affairs specialist, Albert J. Dunmore of Detroit, brought the check to Atlanta and deposited it after a news conference.

Officials of Southern Christian Leadership Conference (SCLC) and Dunmore joined in announcing an agreement between SCLC and Chrysler for depositing federal tax money in the Citizens Trust Co. and expanding a training program.

SCLC EFFORT

"This is an outgrowth of an effort by SCLC to put an end to the gold flow out of the black community," said the Rev. Andrew J. Young, SCLC executive vice president. Under the plan, Chrysler will deposit \$100,000 a month at Citizens Trust Co., providing more capital under a standard operating procedure for collection of federal taxes.

The bank gets the use of the money — employ withholding taxes, Social Security taxes and corporate income taxes deposited in a U. S. Treasury account. The Treasury makes periodic withdrawals, a Federal Reserve spokesman said.

Facts Sketch State College Black Student

DETROIT (AP) — If you're a Negro college student in Michigan you're likely to:

- Be a woman.
- Be older than your white counterpart.
- Drop out before graduation.
- Aim lower in training for a job.

Those are some of the conclusions reached in a survey released Tuesday by the Michigan Civil Rights Commission (MCRC).

The survey also found that three of four white college students are male, but more than half the Negroes attending college are girls. And, the survey reported, Negroes constitute only 4 per cent of Michigan's college students although 9 per cent of the state's residents are Negroes.

FINDINGS IN FALL

The findings were based on 1966 answers supplied at fall registration by more than 170,000 students at 48 Michigan colleges. The MCRC said a more recent U.S. Bureau of Census study shows the 1966 figures are still valid.

Another statistic reported by the group was that one of three Negro students was going to school part-time while one of five white students was attending part-time.

"The reason for this higher concentration of Negroes in part-time study is the need for employment to pay for a college education," the MCRC said.

The survey also stated Negroes train for jobs in teaching and social work — jobs they know they can acquire — while white students aim for higher paying jobs in the professions.

SUGGESTIONS

To increase the number of Negro students and to encourage them to prepare for jobs traditionally held only by whites, the MCRC suggested:

- Colleges should see that their entrance tests and standards are valid and establish programs for Negroes with weak academic backgrounds.

- Financial help for promising Negroes should begin in high school to prevent dropouts before college level.

- Establishment of more two-year training programs in the trades and technical fields.

- Since Wayne State University and Eastern Michigan University, along with Flint and Highland Park Junior Colleges are training most of the state's Negro college students, other institutions should make special efforts to attract Negro students.

Car-Safety Data Delay Opposed

WASHINGTON (UPI) — The attorney general's consumer counsel urged the Federal Highway Administration yesterday to refuse the automobile industry's request for a delay in disclosure of car-safety information for buyers.

"In order to make a rational choice, the consumer should have available to him data on all competing makes prior to the time of purchase or potential purchase," Paul G. Bower wrote Lowell K. Bridwell, the federal highway administrator.

The National Highway Safety Bureau has proposed that effective Aug. 1 next year, automakers must provide customers with information on how each car model performs in various safety categories such as braking and acceleration.

The Automobile Manufacturers Association asked the bureau to postpone the deadline because of complexities involved for passenger cars. It added that no such rules should be established initially for trucks, buses or special-purpose vehicles.

Stolen Plane's Pilot Says: 'Clearer Lottery Law Is Needed'

ELIZABETH CITY, N.C. (AP) — "I was scared," says John Daniel Hemphill, who ditched a small stolen plane in the Atlantic after falling in four it.

Safe on land after clinging to a life raft for an hour and 15 minutes Tuesday, Hemphill said, "I'll never fly again. I won't even be a passenger."

The 22-year-old Hemphill, from Brickton, N.J., was free on \$2,000 personal recognizance bond today after being held briefly on federal charges of transporting a stolen plane out of the country. He planned to return to Newark where the warrant was issued.

A Coast Guard pilot who had trailed Hemphill out to sea radioed instructions that successfully enabled Hemphill to set the light plane down on the sea about 50 miles off Norfolk, Va. A Coast Guard helicopter from Elizabeth City picked him up.

"I WAS SCARED" Hemphill, a 5-foot-7 native of Halifax, Nova Scotia, wore a white tee shirt, brown corduroy trousers and a new pair of white loafers given to him by the Coast Guard as he sat in the off-guard plane piloted by Randle.

LANSING (UPI) — Another attempt apparently will be made in the Legislature to clarify and stiffen provisions of Michigan's controversial lottery law.

Sen. George F. Montgomery, D-Detroit, said yesterday the present statute is "too muddled" to be effective and must be "cleared up in a hurry."

Montgomery spearheaded an unsuccessful effort in the 1968 Legislature to restrict all types of chance games, giveaways and other promotional gimmicks.

The lawmakers did pass a bill guaranteeing franchise store or service station operators the right to refuse to participate in games.

"WE MUST ACT" Montgomery said, "Now we must act to make the law crystal-clear."

Montgomery commented after two state Supreme Court justices called on the Legislature to clarify the definition of a lottery to say if it covers grocery store drawings and similar promotional ventures.

Chicago Report Took 53 Days, Used Staff of 212

CHICAGO (AP) — The Walker report, which termed street violence during the Democratic National Convention "a police riot," was turned out in 53 days and nights of interviewing and writing by a staff of 212 persons, mostly volunteers.

Daniel Walker, an attorney for Montgomery Ward & Co. and head of the Chicago Crime Commission, was named on Sept. 26 to form a committee to investigate. His selection was announced by Dr. Milton Eisenhower, chairman of the National

Commission on Causes and Prevention of Violence.

The following day Walker began selecting his staff. All members were personally selected by him, he said.

"The real leaders" of the staff, Walker stated in a preface to the report, were the assistant directors and team directors.

APPOINTMENTS

To those posts he appointed a foundation director, a professional crime investigator, a free-lance writer, four bank executives, five lawyers and one corporation executive.

Almost immediately the staff moved into an office suite in Chicago's federal building. A large central room in the suite was subdivided into cubicles for interviews. Each cubicle was equipped with a desk, telephone, and a tape recorder.

Off-duty policemen, hippies with beards and sandals, members of the National Guard, and news reporters gathered at the suite entrance, waiting to give statements and be questioned.

More staff members were added. They included "a few lawyers that I hired," Walker said, three detectives from the Chicago Crime Commission, sociologists and other academic people from local universities, and several law students. "Although we didn't use very many students and then only for such jobs as checking files."

RESEARCH FIRM

The Chicago research firm of Booz, Allen & Hamilton Inc. was employed to "route the flow of paper," as testimony from witnesses and published accounts of the violence in Lincoln and Grant parks came flowing in.

When the report was made public, Walker was asked about the writing and particularly the author of the phrase "police riot." At that time he said that the writing of the report was "a team effort."

Later, however, questioned on whether there was any minority feeling on the committee, he replied: "This is a one-man report. So there couldn't be any minority opinion."

Interviews were conducted not only in the offices of the committee but also in district police stations, in news rooms, and elsewhere.

1,410 WITNESSES

In a preface, Walker says that his staff took 1,410 statements from witnesses, had access to 2,017 statements taken by the FBI, reviewed 20,000 pages of witness statements, screened 100 hours of television films, and examined 12,000 still photographs.

The reference rooms of newspapers were combed for pictures and stories, but no news account was accepted unless confirmed by several witnesses, Walker said.

The staff was broken down into so-called subject matter teams: The areas studied were: prelude, security measures, Lincoln Park, Grant Park, media, isolated acts of violence, and events of Thursday and Friday.

In addition to the full-time interviews, there were 21 part-time interviewers in Chicago and 35 persons who took statements from witnesses in 30 cities across the United States.

SIDE CONTROVERSY

After the report had been made public for a day, an advertisement that ran for four days in the University of California student newspaper, seeking witnesses for the study team, became a side controversy.

The advertisement's headline asked, "Are the Chicago cops really brutal racist pigs?" The interviewer who placed the advertisement, John Hoskins, 26, a third-year student at the university's law school, defended it as the most efficient way to locate witnesses and said

that, in context, the headline did not accuse the police.

The commission on violence provided the committee with a \$75,000 operating budget, but Walker declined to estimate the full cost of the report.

ASSISTANTS

Assistant directors were Victor R. Degrazia, executive director of the Kate Mearns Foundation; Harvey N. Johnson Jr., operating director of the Chicago Crime Commission and 20-year veteran of the FBI, and Ralph Caplan, a free-lance writer.

Team leaders were James Barr, an executive of the Continental Illinois National Bank and Trust Co.; William T. Carney, Frank M. Covey Jr., Hamilton Smith, Wesley S. Walton, and Verne H. Evans, all lawyers; Michael C. Johnson, an executive of the First National Bank of Chicago; James Keffer and Gary Nelson, executives of the Continental Bank; and John A. Koten, assistant to the president of Illinois Bell Telephone Co.

Chicago's police chief and Mayor Richard J. Daley defended each other Tuesday against accusations contained in the report.

For Daley, it was a slight switch from a position he took Sunday when the report was released.

ISSUES STATEMENT

Police Supt. James B. Conlisk issued a written statement—his first comment on the report—and defended his men and "the policies of the city of Chicago."

Sunday, Daley termed the report excellent, though he said he disagreed with its summary. At a Tuesday news conference he said charges by unnamed witnesses against police were generalizations. Daley said, despite the report's findings, he would again, unequivocally, "support the policemen . . . in trying circumstances (of convention week.)"

Conlisk said the summary should read the entire report be- sion that the police were the which severely criticized police, fore reaching conclusions. rioters of convention week," is incomplete' and persons' "I reject Mr. Walker's conclu- Conlisk said.

Mayor to Stay in Mansion—for a While

DETROIT (UPI) — Mayor Jerome P. Cavanagh has a home—for a while.

The Manoogian mansion, a gift to the city by a leading industrialist who felt there should be an official residence for the mayor, has been a source of trouble between the mayor and the Detroit Common Council.

Tuesday, the council defeated a motion by Councilman Mary Beck, a leading critic of Cavanagh, which would have evicted him in 30 days. It then defeated another measure which would have allowed Cavanagh to remain in the large, river-front mansion until his present term expires at the end of 1969.

A third motion, asking that the city find some other use for the Manoogian mansion, also was defeated. Finally, the council agreed to vote next week on a motion that will set up a special budget account for the mansion to oversee expenses, something several of the councilmen felt already were too high.

Personal, Social Consequences

Extramarital Sex Probe Urged

MIAMI BEACH, Fla. (AP) — A sociologist today called for expanded scientific probing of the personal and social consequences of apparently increasing sex acts outside of marriage in the modern world.

And, said Dr. Harold T. Christensen of Purdue University, such probing should include further evaluation of the possible consequences of such U.S. statistics as those estimating that "in the neighborhood of one-sixth of all brides are pregnant at the time of the wedding."

In a report prepared for the 22nd clinical convention of the American Medical Association, Christensen said some limited research by himself and others appears to indicate that happier

marriages—including fewer divorces—result where there had been no premarital sexual intercourse.

But he said the findings are inconclusive and that much more research needs to be done on this and other matters concerning premarital and extramarital sex acts.

VALUES, BEHAVIOR

And such research, he declared, should increasingly take into account "the values people hold (and) how their behavior lines up with their values."

"Needed now," he said, "is more and more scientific testing to determine what the personal and social consequences of sex

acts outside marriage really are."

Declaring there has been "a recent radical shift in the sexual norms of our culture, brought about by the innovations and social upheavals of our times," he said:

"Today, almost anything goes . . . in print, in speech, in entertainment, in behavior."

'PERSPECTIVE NEEDED'

"There is a great need for perspective concerning these trends and for knowledge concerning the relative effects of alternative cases open to men and women within the sexual arena."

Votes to Oust Nation
From Trade Confab

UNITED NATIONS, N.Y. (AP) — The U.N. General Assembly's economic committee voted yesterday to throw South Africa out of the U.N. Conference on Trade and Development.

The action was seen as a means of condemning South Africa's apartheid policy of racial segregation.

Most African and Arab countries and a few Asian and Latin American nations supported the action, which was approved 49-22 with 23 abstentions.

The United States, Canada and the countries of Western Europe opposed the move, and Communist East Europe abstained.

The resolution was sponsored by Sweden and 53 other nations. It is the first time the assembly has dealt with pollution.

OSMUN'S GUIDE TO MEN'S WEAR

Give him a Puritan shirt

Give him a break. After all, how many fancy bottle openers can he use? When you give him a Puritan Press-Saver shirt, you're giving him a change. Take this gold-toned mini-check, for example. (It's one out of hundreds of styles and colors that we've got.) Nice, comfortable collar, and take a look at

the detail on the pockets. It's tailored, not freaky. Besides, this shirt is made out of permanently pressed cotton and dacron polyester—so it's soft—not uncomfortably stiff. It's only \$7.00. If that isn't reason enough, give him a Puritan shirt because it's packed in its own plastic tote bag.

Despite Lack of Direction, Wallaceites Carrying On

WASHINGTON (AP) — Despite a total lack of direction from George C. Wallace's headquarters, Wallace backers across the country are going to keep his third-party movement alive.

Whether Wallace's 45 electoral votes and his 13 per cent of the popular vote will provide sufficient impetus for establishing a permanent American Independent party remains to be seen. Third parties have a history of disintegrating after the presidential election for which they are formed.

But party workers in at least six states have already held post-election organization meetings, and similar gatherings are scheduled in eight more. There is talk in Arkansas, Indiana and elsewhere of running candidates in state and local elections under the banner of Wallace's American Independent, or a similarly named party, next year and again in 1970.

A paid coordinator for Wallace in this year's presidential campaign is establishing a national third-party mechanism in Los Angeles aimed at coordinating state and local activity by supporters of the former Alabama governor.

2 DAYS OF CONFERENCES

The coordinator, 27-year-old Robert Walters, said he flew to Alabama last month for two days of conferences with Wallace's closest advisers, and was told that there were no plans to establish a national organization in Montgomery, at least for five or six months.

Wallace himself has avoided the press and said little about his plans, but Bill Jones, one of Wallace's top strategists, agreed with Walters. "We're just fading it out as fast as we can," said Jones of the Montgomery headquarters operation. "We have no plans whatsoever."

"Since Montgomery is not going to be taking an active leadership role nationally, we're setting up an association of Wallace voters to set up coordination," said Walters in a telephone interview.

"We are attempting to hold the national organization together and strengthen it until such time as Montgomery resumes national control. We're not feuding with Montgomery—we would welcome them back."

GOOD CHANCE

Walters said he and others in the Los Angeles group are scheduled to meet tomorrow with Gen. Curtis E. Lemay, Wallace's running mate. "There is a good chance Lemay will be assisting us in this organization," he said.

The third party has tentatively scheduled a national meeting in Texas or Oklahoma for Jan. 11-12 to make plans—and possibly decide whether to call itself the American Independent party or simply the American party.

Glenn Parker, another paid coordinator of Wallace's 1968 campaign, will work full-time with Walters in the new organization, which will have its headquarters in a five-office suite on Wilshire Boulevard.

Walters said his operation is receiving "a few thousand dollars a month—enough to keep us

Income Tax Foes Present Petitions

WYOMING (AP) — Petitions with about 1,500 signatures challenging Wyoming's latest bid for a city income tax were filed Tuesday at the city clerk's office.

Jack Magnuson, a former city commissioner, said he gathered the signatures to the issue which he brought to a vote, thereby permitting the people to decide whether they "will allow another gouging of their paychecks by tax-hungry officials."

Before the Nov. 1 deadline, the city commission enacted the wage levy and stated that if a citizen study committee votes the income tax, the commission would probably rescind the ordinance.

GOD'S LOVE IS IN JESUS

going." None of it, he added, is coming from Montgomery.

GRINDING TO A HALT

In Montgomery, the Wallace organization is grinding toward a halt. Jones said only about 15 people are still on hand to handle the half-sack of mail that comes in daily.

Jones claimed the organization is still just working out its finances and doesn't know yet whether it will have any money point of any future organization left over from the campaign—or contain the names of millions of petition signers, workers and contributors to the Wallace campaign.

He said when the headquarters is closed, Wallace himself

has sent any of the files, said in only about half the states, quality the third party for the next statewide election.

Jones. "They've been told just like everybody else, 'Do what you think is best for your situation.'"

SUFFICIENT TO QUALIFY

Walters estimated that an American Independent Party—ballot or his percentage showing phrey was in essence a third

states, either the original pell-ions were pledged to Wallace and Democrat Hubert H. Humphrey was in essence a third

In Alabama, ironically, there is no state AIP. There, the regular state Democratic party election drive to put Wallace on the ballot or his percentage showing phrey was in essence a third

35-Year Member Blasts Warren

Cemetery Board Is No Dead Issue

By L. GARY THORNE
Asst. City Editor—Suburban

Pontiac's cemetery board isn't a dead issue, as Lloyd W. Burnes of 57 Mark let city officials know last night.

Burnes, a 35-year member of the board, appeared at the City Commission meeting to verbally blast City Hall generally and City Manager Joseph A. Warren specifically.

cemetery monies came from the general fund.

The cemetery is clearly an operation of the city, claimed Warren. Set up under a 1905 law, such cemetery boards are outlawed in the present con-

sewage treatment plants — one at East Boulevard and Featherstone and the other at Auburn and Odyke. The contract is to be checked by the city's legal department.

A report was received on the state's new tenants' rights legislation, which recently went into effect. Although a court test may sometime decide the issue, the city's legal department reported its opinion that the new law does not apply to Pontiac.

POPULATION QUESTION

The report to the commission explained that the title of the law specifies cities of one million population and over, while the body of the law does not indicate such a restriction. The tenants' rights legislation applies to public housing proj-

ects only. One feature of the law is that such projects must have a tenants' rights council to permit the airing of grievances by tenants.

Warren said last night that Pontiac has such a council already organized at its 400-unit Lakeside Homes public housing project.

"Even though it may not apply," added Warren, "we've

MCOM IS HAILED

A resolution was approved by the commission, congratulating the board of trustees of the projected Michigan College of Osteopathic Medicine, to be located in Pontiac. The medical school recently broke ground for its first classroom buildings.

In still other business, the commission formally authorized the city attorney to retain a Philadelphia law firm to join in a price-fixing suit in U.S. Federal District Court there.

The firm of Dilworth, Paxson, Kalish, Kohn & Levy will receive 25 per cent of any refund or settlement awarded Pontiac and other municipalities joining in the suit.

City Affairs

His appearance sparked an otherwise brief agenda.

Burnes was unhappy over:

- The manner in which he was contacted as to whether he wished to continue to serve on the board (he resigned, last week).

- The appointment of five city officials to a reorganized cemetery board, replacing the former citizens' board. (Burnes was the only remaining member of the old board.)
- Published statements attributed to Warren that the board hadn't kept minutes of its meetings and met only sporadically.

- Information that Warren was allegedly going to do away with the cemetery board to gain control of the board's endowment fund valued at \$350,000.

ANOTHER LOOK URGED

The former board member concluded with a request that the commission take another look at the situation and urged citizen control, as opposed to scheduled today of the re- that city officials, be main-

situation, according to Warren, although existing boards can continue.

SAYS IT'S REASONABLE

Warren claimed it was reasonable in view of these circumstances, and the lack of activity by the cemetery board, to appoint city officials to a reorganized board.

Mayor William H. Taylor Jr. said that the cemetery's superintendent had approached him because of the need for a new board to authorize the issuing of deeds.

"I think there has been fault all around," added Taylor.

Burnes, who said he would not serve on a reorganized board made up mostly of city officials, did agree to look at the situation and urged citizen control, as opposed to scheduled today of the re- that city officials, be main-

OTHER BUSINESS

In other business last night, the commission approved the introduction of an ordinance that would exempt Pontiac from provisions of a state law that would let federally-aided housing projects to be tax free.

Expected to receive final passage later this month, the ordinance would require that such projects pay taxes. City officials estimated three such housing projects in Pontiac would have been affected.

The commission approved a contract with the F. J. Siller & Co. for construction of a \$24,360 "sludge line" under the Clinton river, connecting the city's two

MINUTES ON FILE

Warren denied making any allusion to the lack of board minutes, which Burnes said were on file in the cemetery office. The city manager did point out that no appointments to the board had been made for one reason or another since 1953.

He said the board had suffered lack of attention from City Hall.

Replying to Burnes' charge that Warren had transferred endowment fund investment income to the city's general fund in 1966 and 1967, the city manager contended cemetery operations ran at a deficit and

Service for Mrs. Peter J. Bulla, 69, of 1123 Cloverlawn will be 1:30 p.m. tomorrow in Voorhes-Siple Chapel with burial in Oak Hill Cemetery.

Mrs. Bulla died yesterday.
She attended First Baptist Church.
Surviving are a daughter, Mrs. Virginia Jantz of Pontiac; three sons, Ralph, John, and Sidney J. Arrowsmith, both of Pontiac; two sisters, including Mrs. Edna Harris of Pontiac; two brothers, including Arthur L. Bowen of Jr. of Keego Harbor; a brother, Pontiac; four stepchildren; 10 three sisters; and seven grandchildren, and four great-grandchildren.

Charles E. Milton
Service for Charles E. Milton, 24, of 82 Palmer will be 1 p.m. Friday at Trinity Baptist Church with burial in Oak Hill Cemetery by the Frank Carruthers Funeral Home.

Mrs. Charles E. Milton
Surviving are his mother, Mrs. Louis A. Milton; four children, Charles E. Jr., Kevin and Tara V., all of Pontiac, and Tammara E. at home; five brothers, Louis A. Jr., Frederick, Joseph H., Clifton and Bernard R., all of Pontiac; and four sisters, including Mrs. Janie Avant, Mrs. Nancy Gray and Mrs. Mae E. Webber, all of Pontiac.

Mrs. Charles E. Milton
Service for Mrs. Charles E. (Reba J.) Milton, 21, of 82 Palmer will be 1 p.m. Friday at Trinity Baptist Church with burial in Oak Hill Cemetery by the Frank Carruthers Funeral Home.

Mrs. Milton died Monday. She was a member of Trinity Baptist Church and an employee of Pontiac Co-Operative Federal Credit Union.
Surviving are her parents, Mr. and Mrs. Rufus D. Taylor; a daughter, Tammara E. at home; and four brothers, all of Pontiac.

2 Youths Wait Ruling After Murder Pleas

By JIM LONG
Two Oakland County Circuit judges were deciding today whether two youths who killed an insurance executive from Oak Park are guilty of first or second-degree murder.

The difference could mean a lifetime in prison or a long sentence with the possibility of parole.

The pair, Richard Middleton and Robert Broughton, both 20 years old, already have admitted killing George Cobitz, assistant manager of the United American Life Insurance Co., Detroit. Both have pleaded guilty to open charges of murder.

Cobitz, a 50-year-old bachelor, was found dead in a field in Pontiac Township Feb. 19. He had been beaten severely about the head.

BOTH LEFT MICHIGAN
Police arrested Broughton a month later in Akron, Ohio, his home. Middleton, who police have described as a drifter, was extradited from Los Angeles in August. Police there had taken him into custody on another charge.

Though both were charged with the same crime, the cases were not consolidated and each was assigned to a different judge. Broughton's to Judge Farrell E. Roberts and Middleton's to Judge William R. Beasley.

Both trials began Nov. 25. Middleton waived his right to a jury trial and then last Tuesday entered a plea of guilty, placing Judge Beasley in the position of determining the degree of guilt.

LISTENING TO WITNESSES
From then until yesterday, the judge has been listening to witnesses testify so he could make his ruling.

The hearing posed some security problems for court officials.

Since Broughton's trial was being conducted in the same building, 1 Lafayette in downtown Pontiac, officials in the Broughton case would hear of Middleton's guilty plea and be prejudiced, thereby causing a mistrial.

Their fears ended Monday, away by unknown means.

Rosary will be 8 tonight at Flumerfelt Funeral Home.
Mr. Smith, a farmer and partner in Smith and Son Hardware, died yesterday.

Surviving are his wife, Blanch; two daughters, Oleta at home, and Mrs. Linus Treinen of Lake Orion; a brother, Jake of Oxford; four grandchildren; and two great-grandchildren.

Mrs. Stanley Solley
BRANDON TOWNSHIP — Service for Mrs. Stanley (Ivy) Solley, 75, of 6380 Oak Hill will be 2 p.m. Friday at Sherman Funeral Home, Orionville, with burial in Orionville Cemetery.

Mrs. Solley died today. She was a member of Orionville's MOMS Club Unit 14.
Surviving are a son, Stanley of Rogersville, Ala.; two daughters, Millicent of Orionville and Mrs. Betty McCulley of Wichita, Kan.; three brothers; a sister; and six grandchildren.

Walter P. Taylor
BLOOMFIELD TOWNSHIP — Service for Walter P. Taylor, 72, of 5110 Windingwood will be 3 p.m. Friday at the Vasu Lynch Funeral Home, Royal Oak, with burial in White Chapel Memorial Cemetery, Troy.

Mr. Taylor died yesterday. He was formerly a realtor and insurance broker.
Surviving are his wife, Edith, a daughter, Mrs. Richard Schmidt of Birmingham; two sons, Walter J. of Owosso and John D. of Rochester; and 10 grandchildren.

Mrs. Joseph Ofara
PONTIAC TOWNSHIP — Requiem mass for Mrs. Joseph (Bernice A.) Ofara, 81, of 151 Robert will be 10 a.m. tomorrow at St. Joseph's Catholic Church, with burial in Mount Hope Cemetery, Pontiac.

Rosary will be 8 tonight at the Purseley-Gilbert Funeral Home, Pontiac.

Richard C. Smith
OXFORD — Service for Richard C. Smith, 84, of 31 Pontiac will be 9 a.m. tomorrow at St. Joseph Catholic Church, with burial in Eastlawn a daughter, Tammara E. at home; and four brothers, all of Pontiac.

Mr. Yve died Monday. He was executive vice president of Woodall Industries, Detroit. He belonged to the Engineering Society of Detroit and the Triangle Club of Northwestern University.

Surviving are his wife, Margaret, a daughter, Margaret A. at home; a son, Stephen P. at home; his mother, Mrs. Walter R. Yve of California; and two sisters.
Memorial contributions may be sent to the Michigan Heart Association.

Angela G. Williams
MILFORD — Graveside service for Angela G. Williams, newborn daughter of former residents Mr. and Mrs. James E. Williams of Linden, will be 11 a.m. today at Milford Memorial Cemetery, with burial there by Richardson-Bird Funeral Home.

The infant died Monday.
Surviving are her parents; a brother, James E. Jr. at home; and grandparents Mrs. Birdie I. Baker of Byron and Mr. and Mrs. Leroy Howard of Highland Township.

Active Scouter Dies at Age 73

Perry L. Morford of 59 S. Astor, an active worker in Boy Scouts for more than 33 years, died yesterday at the age of 73.

Service will be 2 p.m. Friday at Memorial Baptist Church with burial in Christian Memorial Estate Cemetery, Avon Township, by the Purseley-Gilbert Funeral Home.

Morford, a member of Memorial Baptist Church, was an employee of Pontiac Motor Division.

Active in the Scouting movement, he was one of three life members in the Pontiac area.

WAS SCOUTMASTER
Scoutmaster of Salvation Army Troop 56, Morford had earlier in his career headed Boy Scout Troop 14 at Wilson School, and the Scout troop at his church.

Surviving are his wife, Violet; five sons, Raymond C. of Cape Coral, Fla., Hugh R. of Chicago, Ill., Leland L. of Union Lake, and Robert J. and William W., both of Pontiac; eight daughters, Mrs. Charles Kammerer of Imperial Beach, Calif., Mrs. Melvin Harmon of Coral, Fla., Mrs. John Sapelak and Mrs. Bobbie Frailey, both of Union Lake, and Mrs. John Todoroff, Mrs. Bobbie Dunnigan, Mrs. John Bell and Mrs. Wendell Millstead, all of Pontiac; and two brothers.

The family suggests any memorials be made to the Memorial Baptist Church building fund.

Area Recount Will Await DST Decision

A recount involving a supervisor race in Oakland County will be delayed until a decision is made on a recount of Daylight Saving Time votes.

County Election Clerk Mabel Child said today that the recount requested by Ray Lahti can be made only after a decision is made on whether or not to include Oakland County in the recount of the time proposal.

Lahti, 2240 Nalene, Wixom, is the only county candidate in the Nov. 5 election to ask for a recount. He was defeated by Lew L. Coy, a Republican, in District 27 by a 50 vote margin, 5,601 to 5,551.

Lahti has been a member of the board of supervisors for 10 years.

Education Board Will Not Meet

Late-stage planning for Saturday's school millage election and a lack of urgent business have canceled tomorrow night's regular meeting of the Waterford Township Board of Education.

The next meeting will be held as scheduled Dec. 19 at the board building, 3101 W. Walton.

Yuletide Flower Show Today in Birmingham

The 30th annual Christmas flower show of Birmingham branch, Woman's National Farm and Garden Association, is taking place today from 1 to 9 p.m. and Thursday from 10 a.m. to 6 p.m. at the Birmingham Community House.

The theme of this year's "Gift to Birmingham" is "Heralding the Holidays." Mrs. Lester Newbern is chairman of the affair. Assisting her are Mesdames Paul Pentecost, William Burlingame, Richard Corkery, P. N. Askounes, Julian L. Gailey, David Bates and George Cleland.

Others participating are Mrs. George Dixon and Mrs. Richard Kallz as well as Junior Girl Scout Troop No. 14.

The public may attend. There is no admission.

Pianist James Dick Is Talented and Promising

By BERNICE ROSENTHAL

James Dick, pianist, was last evening's artist for the Cranbrook Music Guild's second concert of the season.

Mr. Dick, an award winner of the Leventritt Foundation, is a dynamic and volatile young pianist, whose depth of tone and controlled intensity should make a definite mark in the concert world. He is endowed with more than usual sensitivity, and his interpretive ability is fresh, direct and creative.

BERNICE

The program was well considered and evenly balanced. Forsaking the usual Mozart and Beethoven, Dick concentrated on Bach's "Italian Concerto" as the familiar composition with clipped, broad interpretation of this familiar classic.

The rest of the program was less familiar, with Schubert's prodigious "Wanderer" Fantasia making up the second half of the first section.

Without sentimentality, the Schubert was portrayed with unusual forcefulness and sweep, possessing an orchestral quality and importance that this seldom-

heard work merits, but which one rarely hears in performance.

CONTRAST

Chopin's "Nocturne" in C Sharp Minor, Opus 27 and his "Etude" in C minor, Opus 25, were strong, virile and impassioned, the tone perhaps a bit too strident for the size of the small hall, and the pedal a bit too overlapping for clarity.

Two unfamiliar contemporary works of unusual merit completed the program. Babajanian's "Poem," and Ginastera's "Sonata." Most striking was the lonely, isolated, groping quality in the "Poem," with its Middle Eastern harmonies, set against a constantly moving, unresolved accompaniment, with its deep, sonorous chords.

The Sonata ran the gamut of the technical equipment of both the performer and the instrument. An atonal and uneven work, it had a combination of classic style and jazz rhythm and modulations, at times suspenseful, moving, nervous, mysterious, and, at others, lost in a boring morass of intricate, contrived figures.

Dick treated it well, gave it the power and depth it needed, and came off with flying colors.

His encore was Shostakovich's delightful "Fugue" in A Major, which he handled precisely and gently.

Ghetto Dwellers Refuse Help for Common Measles

The possibility that common measles will be eradicated throughout the United States by 1970 is being jeopardized by the indifference of ghetto dwellers. They are not coming forward for immunization, according to J. Lyle Conrad, MD, of the National Communicable Disease Center, Atlanta, Ga.

Of the 24,000 cases of measles reported throughout the U.S. during the last year, about 50 per cent originated in "hard-core metropolitan areas where Public Health Service officials are making only slow progress," Dr. Conrad reports in a recent issue of the "Journal of the American Medical Association."

Immunization of ghetto dwellers is crucial to the outcome of the campaign, which has reduced the reported rubella — common measles — incidence in the United States by two-thirds during each of the last two years, the physician emphasizes.

In the 1965-66 measles year, there were 213,992 cases reported. By 1966-67 the number was down to 70,638 cases; last year, 24,000 cases have been reported.

If the current downward trend continues, there should be about 6,500 cases of measles in 1969-70, and only about 1,000 to 2,000 by 1970-71. This, by NCDC standards, is equivalent to eradication.

Vaccine is readily available all over the country; the Children's Bureau of the Public Health Service has been helping poor counties which could otherwise not afford it.

By ABIGAIL VAN BUREN

DEAR ABBY: I have an age-old problem. An unfaithful husband. I've long suspected that he and the woman he has been transporting to and from work were more than "friends," so I started to watch him more closely. I followed him one night when he said he was going to visit his mother, and he went to her place.

We had a showdown and they confessed they were "in love." I threatened to tell their employer if they didn't stop seeing each other. They promised they would, but I think they're lying.

I am 42, have three children and I doubt if I can just "forgive and forget." Besides, I haven't worked in 16 years and he represents security to me. I'll never be able to trust him again, and I'm sick of putting up a front for our friends. Should I divorce him and start over again at my age?

DEAR ABBY: Confusion is a temporary state, divorce a permanent one. I wouldn't advise anyone to make a permanent move while in a temporary state.

Evaluate this situation with your husband when you both have your wits about you and are less emotional and more objective. You can always divorce him. What's the hurry?

DEAR ABBY: I am a 35-year-old man who is tired of the bachelor life. All my friends are married and I would sincerely like to find a wife. I have a lot to offer as I am good looking (so I'm told), own my own business, and I don't have any bad habits. I couldn't break if I wanted to.

The problem seems to be that the minute a woman shows any serious interest in me, I back off. I like a challenge. It is said that the "fruit at the top of the tree is sweetest." Why is this so? And why must I insist on the unreachable?

DEAR STILL: The fruit at the top of the tree isn't any sweeter than the fruit within your reach, you only imagine it. The truth of the matter is that you probably don't really want the fruit. You just enjoy reaching for it.

DEAR ABBY: About a year ago I quit my job as an aide in a hospital to go home with a 90-year-old man who wasn't supposed to live much longer. He has one old maid sister who is his only living relative, and she is 88.

This old man has a lot of money, and I was told by his sister that if I went home from the hospital with him and stayed there until he died, I would get \$5,000 in cash, and he would leave his house to me.

Well, this old man's health seems to be getting better all the time, but I don't feel so good lately. I am a poor old lady 63 years of age and I quit my hospital job to come here to work for room and board and \$20 a week.

Now his sister tells me if I don't feel up to working, they will replace me with a male nurse. What about the promises?

DEAR MYRTLE: If you have nothing in writing, you need a lawyer. If you can't afford one, seek help at your local Legal Aid society.

DEAR ABBY: I just finished reading the letter from the 19-year-old virgin. It gave me great strength because I am an 18-year-old virgin. I am a Negro freshman in college who was about to be convinced by my "fella" that virgins don't exist anymore, especially Negroes.

I realize now that it doesn't matter what color you are, you should go by your own high standards. I am truly convinced that when the right guy comes along, the "right" place to say "yes" will be in church, and the "right" time will be on my wedding night.

Thanks so much for all the guidance you have given me and many others. Sincerely, "FIGHTING FRESHMAN" (Lubbock, Texas)

The Girl Who 'Broke Tradition' Is Wed in Homeland Today

ALCAMO, Sicily (AP) — Franca Viola, a pretty 20-year-old girl who broke a thousand years of Sicilian tradition, was married at dawn today to keep her wedding from being mobbed.

The wedding attracted nationwide attention, and the time was moved up four hours at the last moment to keep crowds from the little Catholic church in Alcamo. Sen. Ludovico Corrao was one of the witnesses, and President Giuseppe Saragat and Premier Giovanni Leone sent gifts.

Two years ago Franca refused to wed the rich man's son who kidnaped and raped her. Since the Middle Ages, kidnap and rape have been the sure road to the altar for a rejected Sicilian suitor. If the girl didn't say yes after that, she was dishonored and no one else would marry her.

Franca stunned the Sicilians and won approval throughout the rest of Italy when she told Filippo Melodia in court: "I do not love you. I will not marry you."

Melodia was sentenced to 11 years in prison. The charges would have been dropped if Franca had agreed to marry him.

Franca and her family were threatened with vengeance for her violation of the ancient code. But the loneliness did not last for the slim brunette who became a living symbol of a new way of life for Sicilian girls.

Giuseppe Ruisi, a 25-year-old accountant, and Franca had known each other in school. They met again at a family reunion last year. He became a steady caller at Franca's home under the watchful eye of her parents. She accepted his proposal.

They chose the little church of Sant' Agostino for their wedding today. Franca chose a white satin and lace wedding gown.

The ghost of outraged tradition was still present. Because of the threats of

the past two years, police guards were posted at the church.

And when Ruisi took out the wedding license, he also applied for a permit to carry a pistol.

Teen-Age Throng Stops Traffic

CHICAGO (AP) — Traffic on Davis, led the delegates in Michigan Avenue was stopped Tuesday by a throng of teenagers, but the only ones with long hair were girls.

They were just crossing the street — with police assistance — from a hotel session of the 47th national 4-H Congress which has brought 1,650 young people from all 50 states and abroad to Chicago.

Unlike the crowds of hippies and other dissenters who fought a bloody battle with police at the same locale in August during the Democratic National Convention, all were neatly dressed. Some of the boys wore turtlenecks and jackets, though most wore ties. The girls sported a variety of outfits.

All evidenced state pride, wearing scarves embroidered with state names, badges carrying state maps, symbolic pictures and other insignia.

SONGFEST

They had attended a dress revue featuring 4-H needlework and called the "fashion campaign." The program included the bristle tips lightly against the inside of the container. The speaker, Orlan D. Merrill

featured attractions. Streamers flew from the balcony.

Delegates were approached for opinions.

Those questioned defined patriotism as loyalty to their country, but none subscribed to any "my country, right or wrong" philosophy.

Some felt that demonstrations are an ineffective way to effect change, favoring the use of normal legislative procedures to alter policy.

Others felt demonstrations might serve to focus public attention on problems.

Hippies, they said, might have sincere goals, but are defeating them through their dress and approach.

Stirring Varnish Causes Bubbles

Do not stir varnish. Stirring may cause air bubbles which make it almost impossible to obtain a smooth finish. To remove excess varnish from brush do not drag the bristles across the rim of the can. This causes tiny air bubbles to form.

Instead the National Paint, Varnish and Lacquer Association recommends that you tap the brush lightly against the inside of the container above the surface of the liquid.

Brian Lane of Mendon gets attention from nurses dressed in street clothes in Kalamazoo Bronson Hospital. Nurses will wear regular clothes for a month to see if youngsters do better in homelike atmosphere. With Brian are registered nurses, Mrs. Shirley Beane (left) and Mrs. Sharon Turner.

Joint Effort for 'Messiah'

Thirty-six members of the Interlochen Arts Academy Orchestra will be the accompanying ensemble at the University Choral Union's presentation of Handel's "The Messiah" in Ann Arbor. This is the third year the academy's young musicians have been invited to fill this role.

Sixteen violinists, eight violists, six cellists, three double bass players, two oboists, two bassoonists, two trumpet players and a tympanist comprise the orchestra.

Evening performances are to be given in Hill Auditorium Friday and Saturday and an afternoon performance Sunday. T-Fu-Wang, Chinese from Taiwan who has been concertmaster both years the orchestra has played in Ann Arbor, again will occupy first chair.

The Choral Union is made up of more than 300 University of Michigan students and faculty and staff members, conducted by Lester McCoy.

PONTIAC PRESS WANT ADS!**Howells to Mark 60th Anniversary**

Thursday will mark the 60th anniversary of vows spoken by Mr. and Mrs. George Howell of Gillespie Street. The couple was married Dec. 5, 1908, in Marlanna, Ark.

They have five surviving children. Floyd lives with his parents at the Gillespie Street address.

The others are Mrs. Elizabeth Jones of Harvey Street; Willie of East Wilson Street; Waverly of Detroit; and Mrs. Robert (Mary) Lewis, also of Detroit.

MR. AND MRS. GEORGE HOWELL

Sisters Repeat Birth Coincidence

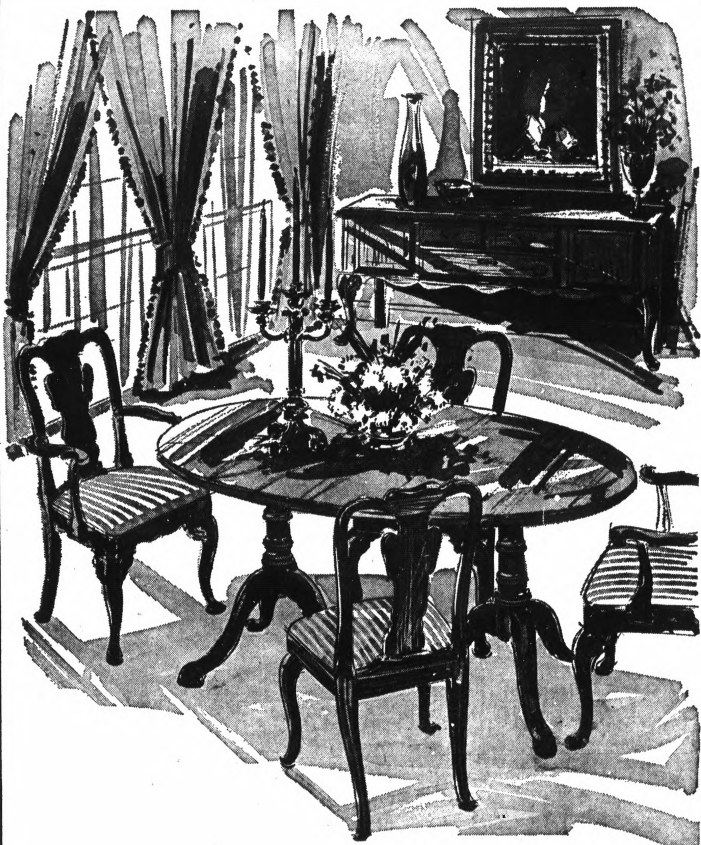

MINEOLA, N. Y. (AP)—Two years ago Mrs. Angela Borruso and Mrs. Gracemarie Notaro, sisters had babies the same day in Nassau Hospital here.

Recently the two, who live next door to each other in Howard Beach, repeated the performance.

They each had another baby on the same day, in the same hospital. It was Mrs. Borruso's fourth child, a girl, and Mrs. Notaro's third, a boy.

149 Women Win Election in States

Assistant Republican National Chairman Mary Brooks has announced that 149 Republican women won their races for seats in State Legislatures on Nov. 5. A record 305 Republican women candidates for State House seats captured 19 Senate seats and 130 lower house seats for the Republican Party.

New Hampshire's 45 winners give the state a clear field as leader in the number of seats won by Republican women. Connecticut and Vermont each elected 12 Republican women and Maine, Indiana and Arizona are next with six GOP women winning State House races.

Other State totals give four winning Republican women each to State Houses in Colorado, Delaware, Iowa, Washington and Rhode Island.

Three GOP women won seats in Hawaii, Idaho, Pennsylvania, North Dakota and Ohio; two won seats in Alaska, Florida, Massachusetts, Missouri, New York, Oregon, Wisconsin and Wyoming; one seat in State Houses in Oklahoma, South Carolina, South Dakota and West Virginia.

SECRETARY OF STATE

Winning reelection as Secretary of State are Mrs. Elwill Shanahan, Kansas, and Miss Alma Larson, South Dakota. Wyoming's Republican Secretary of State, Mrs. Thyra Thomson, was not up for reelection.

Mrs. Bernice Asbridge, North Dakota, won the Treasurer's race in that state, raising the number of Republican women holding the office of State Treasurer to five.

Not up for re-election were Treasurer's posts held by Mrs. Ivy Baker Priest, California; Mrs. Virginia Blue, Colorado; Mrs. Dena Smith, Wisconsin; and Mrs. Minnie Mitchell, Wyoming.

Republican women elected to the office of State Auditor were: Mrs. Trudy Slaby Elbertson, Indiana, and Miss Alice Kundert, South Dakota. Winning reelection as Superintendent of Public Instruction for Arizona was Mrs. Sarah Folsom.

LOOKS TO FUTURE

Mrs. Brooks, who won reelection to the Idaho State Senate in her third successful contest for that seat, predicted that increased participation by women in politics will be reflected in future elections.

"Women believe that politics shapes their lives and they are going to increase their activity in that area and assist in the conduct of those politics. Their motivation is as simple as that. They are running for political office on every level, in growing numbers and are giving their time and talent to the Party and the Country. We are very proud of our American women," Mrs. Brooks said.

Concert Set in Detroit

A program of twentieth century music by Ralph Vaughan Williams, Marius Constant and Gustav Mahler will be presented by the Detroit Symphony Orchestra conducted by Jean Martinon at Ford Auditorium Thursday and Saturday.

Martinon is former music director of the Chicago Symphony. Previously he had been conductor of the Israel Philharmonic and associate conductor of the London Philharmonic orchestra. He is a native of Lyon, France. He made his debut in this country in 1957 as guest conductor of the Boston Symphony.

Tickets are also available at Auditorium Box office and at all Hudson's and Grinnell's stores. Concert time is 8:30 p.m.

Tickets are also available at the box office for an open rehearsal of the program to be held in the Auditorium Wednesday at 2 p.m.

Proceeds go to the orchestra members' supplemental pension fund.

Santa's Wish: to Lose Weight

LONG BEACH, Calif. (AP) — Santa Claus has a Christmas wish, too.

"I want to lose about 100 pounds," Paul Germaine, 43, said Tuesday. He's a 385-pound department store Santa Claus. His 60-inch beltline requires a specially made red suit.

"Mystique" by
orange blossom

If the look of this setting makes you feel a little starry-eyed, that's what it was designed to do. Six individual diamonds create a fire-and-ice aura around a solitaire. But a star-like effect isn't all that you find in this ring. There's a little orange dot inside the band, that makes it very down-to-earth. It symbolizes a guarantee that will replace the ring during the first year of purchase, if it's lost, stolen or damaged. Now for the first time, a diamond is really forever. Mystique, by Orange Blossom.

Santa and the Hippies

By LUCRECE BEALE

(Synopsis: Ding Dong goes to Hippieville where kids do as they please. They decide to capture Santa Claus because it's his fault that children have to be good.)

Chapter 4 Letter to Santa

BY NOW Ding Dong was a mess. He had chewing gum in his hair, chocolate in his ears and finger paint all over his face and clothes.

His own mother would not have recognized him. If she had, she would have had to go to bed with a sick headache for a week.

Ding Dong's head pounded with the crazy music the hippies beat out on the radiators and dishpans and venetian blinds. His stomach was turned upside down from all the candy and hot dogs and pizzas he'd dumped in it. He hadn't had carrots or eggs or even a glass of milk since he came to Hippieville. He couldn't remember

what it was to sleep in a real bed. So when the red-headed hippie told Ding Dong he was appointed to capture Santa Claus and make him a prisoner in Hippieville, Ding Dong protested, "Why me?"

HE'S INTERESTED

"Because Santa knows you. Didn't he send this elf Edgar to bring you to Hippieville? You have the inside track, man — Santa Claus is interested in you!"

"Well, I don't—" began Ding Dong.

"Go ahead," interrupted the redhead. "Write Santa a letter. Tell him you want to see him. If he really cares about kids the way everybody says he does, he'll come."

"Yes, yes," agreed the other hippies. "Groovy idea!"

"Well, I don't—" began Ding Dong again, but he never had a chance to finish his sentence. The hippies put a scrap of

torn brown paper bag in front of him and a jar of yellow finger paint and the redhead said, "Write!"

Ding Dong dipped his finger in the paint and wrote: "Dear Santa. Come. Signed Ding Dong. He added 'Please' at the bottom. It was a word he didn't often use but he thought it would be the smart thing to do in this case.

"Now put it in the fireplace like all the kids in Dullesville do!" said a hippie.

Ding Dong put the letter in the broken-up fireplace. Then he crept down to the basement where he'd found a niche behind the furnace where he could be alone. He lay down and went to sleep.

He hardly had time to start a dream when he was awakened by Edgar the elf. "Santa got your letter," said Edgar. "He can't come here. He's too busy. He sent me to bring you to Santa Land."

Ding Dong was relieved. He had done what the hippies wanted. It hadn't worked but no one could blame him. He was very glad Santa wasn't going to be a prisoner in Hippieville after all. He said to Edgar, "Never mind, I'll see Santa some other time."

But the redhead hippie had come to the basement to get a case of soda pop and he heard the whole thing. He took Ding Dong to a corner and said, "Man, you've got to take the trip! Go to Santa Land and get Santa back here somehow. It's your duty to free all those poor kids in the world who are working themselves to death being good."

Ding Dong thought perhaps the hippies were right. Anyway it certainly would be a good thing if no one had to take a bath again. So he went back to Edgar and said, "All right. I'll go."

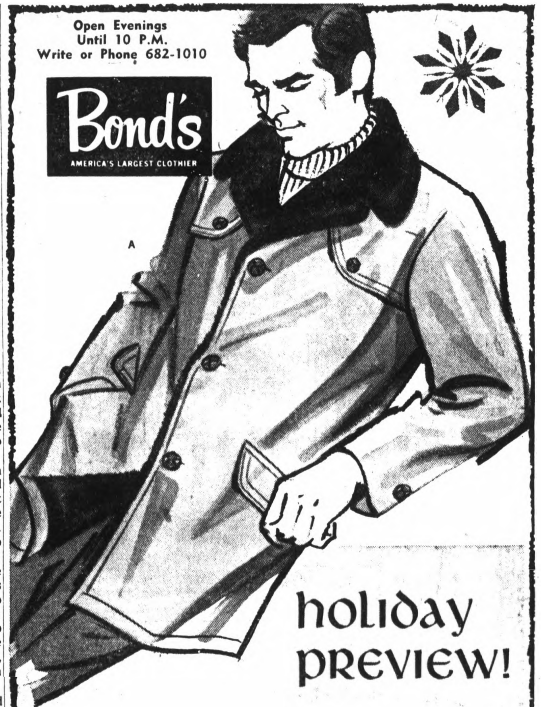

Tomorrow: Santa Land

"Santa sent me to bring you to Santa Land," said the elf.

Cougar's 1969 version of untamed elegance. Pound for pound and dollar for dollar, nobody offers more sports car.

Cougar weighs at least 100 pounds more than three other cars in its class. It is longer and wider, too. And its wheelbase is up to three inches longer. Cougar's standard V-8 has more cubic inch displacement than any of the competition. (351 cu. in.)

And nobody in Cougar's class offers more standard equipment. Concealed headlamps, heater-defroster, vinyl bucket seats and wall-to-wall carpeting. In fact, Cougar's sequential rear turn signals are not available elsewhere—even as optional equipment.

So on a pound for pound basis, you can't get more car than a Cougar. Only \$3086.20*, including whitewalls, deluxe wheel covers and curb moldings.

How does this compare with the price of competitive cars? The fairest way to tell is to equip the other cars with the items that are standard on a Cougar. When you do this, Cougar actually costs less than some competitive cars. Put on your shopping shoes and make your Mercury dealer prove it.

*Manufacturer's suggested retail delivered price in Detroit, including destination and suggested dealer preparation and conditioning charges. License fees, state and local taxes, and transportation charges to other areas are additional.

LINCOLN-MERCURY

Lincoln-Mercury leads the way
with more Cougar for the money.

Louisiana's Effort to Save French Is Felt

DELCAMBRE, La. (AP) — Two hundred years ago the British forced French-speaking Acadians out of Nova Scotia.

Today their descendants are fighting to keep their language alive in south Louisiana. They are promoting their heritage at home and looking to French-speaking Quebec for help.

If the effort fails, what is now a "native foreign language" will probably die. For the French language is fading under the pressure of mobility, English-language media and education policies.

Until recently, public schools attempted to achieve greater English literacy by waging a battle against French. The foreign language became a stigma, but the weight of that stigma is now lifting.

NO FRENCH!

"I was sent home on my first day at school to write 200 times, 'I must not speak French on the school grounds,'" recalled Dr. Hosea Phillips of the University of Southwestern Louisiana at nearby Lafayette—an expert on Louisiana French and a native of the area.

"Louisiana French is, of course, an exclusively oral language which has been kept alive during some 300 years of separation from the mother country," Phillips said.

The concern over the fading language found its way into the state legislature last summer. Along with legislation creating a council to develop French in Louisiana, a law was passed making French mandatory in elementary and secondary schools. It is in the early school years that supporters feel the battle will be won or lost.

The university held a six-week course that was attended by South Louisiana teachers who spoke the local French.

The program demonstrated that "Louisiana French, which has been discredited for so long, was a very valuable educational asset," he said.

The area is now poised to use its human resources. USL stands ready to create a center for the study of things French. A newfound interest on the part of the business community is moving toward a French trade mart.

Among the council's goal is a potentially massive exchange program with Quebec, which the province's premier, Jean-Jacques Bertrand, says would like closer ties with French-speaking Louisiana.

The next step in exchange talks will come in Lafayette Tuesday and Wednesday at an international Acadian festival, which Canadians will attend.

Success of the preservation movement depends largely on money for teacher and programs, and on local support and attitudes.

Man Embodies Christmas Spirit

CHICAGO (UPI) — Edward Hobbs is Christmas personified. "If you throw goodness at people you get it back," Hobbs, a native Londoner, likes to say. He makes it work, too.

The 42-year-old beauty shop proprietor came to Chicago in 1952 and became a U.S. citizen last April.

Every Christmas season, Hobbs likes to give thanks for all he has. He does it by giving.

HOSPITAL GIFTS

On Dec. 22, Hobbs and some friends and musicians will go to Great Lakes Naval Hospital near here. For the servicemen, many of them wounded in Vietnam, the little group will take 100 stockings filled with talc, soap, after-shave, playing cards, stationery and stamps. They also will take plenty of cake and coffee.

Some of the goodies are from Hobbs' personal stockpile. He and his generous friends and clients pay for the others.

This will be the fifth Christmas Hobbs has played Santa Claus for the soldiers and sailors at the hospital. If he has his way it won't be the last. "My purpose is to be nice," Hobbs said. "There are so many good people in the world that if you just tape them all the goodness will come out."

Provincial Life Bore Soviet Young People

ALMA ATA, U.S.S.R. (AP) — "Life out here is boring," Yuri said. "I want to go to the west — to Leningrad."

In an unusually candid conversation with an American in this remote central Asian city, Yuri expressed the frustrations of a number of Soviet young people living in the provinces.

"I've traveled to the Soviet Baltic republics—Latvia, Estonia and Lithuania," the 19-year-old Russian college student said. "Life is better there."

"Once I visited East Germany. I'd like to visit Czechoslovakia and Yugoslavia, but right now it's not possible."

APPLYING PULL

Sipping a glass of wine at a restaurant, Yuri said he was now applying "pull" ("pull") to try to get into a graduate school in the Soviet city of Leningrad, about 2,000 miles northwest of here.

A fan of Western music, he said local youths had had a hard

time getting official approval to organize a jazz club.

A recently intensified campaign against Western influences such as jazz is one of the things young people complain about as contributing to the dullness of provincial life.

Grudging acceptance has been given by Communist officials only to certain kinds of jazz—those "based on folk melodies," as a local music school official puts it.

SOCIALIST FARE Western movies are rare. Czechoslovakia, but Yuri says

"There will be less of them that by careful tuning he can get from now on, and more films from Socialist countries," says the head of Alma Ata's movie studio.

Miniskirts are taboo. On a nearby collectivized state farm, a high school bulletin board has a satirical poem and crude sketch publicly humiliating one girl who dared to wear a mini.

Many Western shortwave broadcasts have been jammed since the August invasion of Czechoslovakia, but Yuri says

the Soviet press concedes the seriousness of the problem of bored youth in the provinces. It has cited this as one reason

for the hasty return to European Russian cities by volunteers who once came out to the dusty virgin-lands wheat fields northwest of this capital of Kazakhstan. Declining harvests plagued the project after this exodus.

While some youths are able to leave the provinces and move to big cities, most cannot pull the necessary strings to make the move. Such shifts in residence are officially discouraged because of housing shortages and other problems.

**YOUR CHILD MAY HAVE
PIN-WORMS**
1 OUT OF 3 DOES

Fidgeting, nose-picking, a tormenting rectal itch are often telltale signs of Pin-Worms, ugly parasites that medical experts say infect 1 out of every 3 persons examined. Entire families may be victims and not know it. To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it: First, a scientific coating carries the tablets into the bowels before they dissolve. Then — Jayne's modern, medically-approved ingredient goes right to work — kills Pin-Worms quickly, easily. Ask your pharmacist. Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge... small, easy-to-take tablets... special sizes for children and adults.

She has a very red face." The writer said this statement "shook" the sister, since there was such a patient elsewhere in the ward, well out of her view.

June Outstripped

LAS VEGAS, Nev. (AP) — Clark County Clerk Loretta Bowman said Tuesday 4,278 marriage licenses were issued in November—compared with 3,976 in June.

Some were ecstatic at being released from the flesh, some were frightened they would be unable to get back. And some said they had proof they had been out of their bodies.

One such letter told of being critically ill in an L-shaped hospital ward out of sight of other patients.

SHE GAVE PROOF

"I told her what had happened but at first she thought I was rambling. Then I said, 'There is a big woman sitting up in bed with her head wrapped in bandages, and she is knitting some-

thing with blue wool. She has a very red face.'"

"The next thing I remember was opening my eyes to see the sister bending over me.

"One morning," this woman wrote, "I felt myself floating upwards and found I was looking down on the rest of the patients. I could see myself

an effort to point out any common denominators. She drew no conclusions in what is essentially the first such collection for scientists interested in psychic phenomena and the mind. But she gave details extracted from many of the letters.

The writers said that once outside their own bodies they were often surprised at their own appearance. "So that's how I look to strangers," one thought.

In September 1966 the institute, through press and radio, appealed for firsthand accounts of experiences in which the subject had appeared to himself to be observing things from a point located outside his physical body.

Some 400 replies were received from people who believed they had undergone such an experience. Miss Green collated these with the advice of an impressive group of scientists in

as he discovered later, back into his own body.

This is only one of many such instances reported in a new book, "Out-of-the-Body Experiences," compiled by a well-known researcher, Celia Green, for the Institute of Psychophysical Research at Oxford. The foreword is by Prof. emeritus H. H. Price of Oxford, who describes it as a "notable contribution to the literature of physical research."

LONDON (UPI) — The doctor shook his head and the housekeeper wept and dabbed at her eyes with her white apron. If they thought they were alone in the sickroom, they were wrong.

Bobbing about the ceiling, the patient's "other self" was an equally interested observer of the scene. In fact he was wondering who the woman was weeping over in the bed.

Then, suddenly, he found himself drawn down to the bed and,

Jockeying for '70 Colombia Vote Already Raising Tensions

BOGOTA, Colombia (AP) — stipulates that the parties alternate four-year presidencies for four terms—16 years. That political jockeying already is raising tensions in the ruling coalition of Liberals and Conservatives now headed by President Carlos Lleras Restrepo.

Lleras is a Liberal. A constitutional amendment enacted to keep the rival parties from each other's throats says the candidate to succeed him in the 1970 presidential election must be a Conservative. What kind of Conservative he'll be has the factions bickering.

The amendment was adopted in 1958 after a decade of bitter, undeclared civil war between Liberals and Conservatives had left more than 200,000 dead. It means the Conservatives would be at the helm when the amendment expires in 1974, throwing the race open to all parties.

The Liberals, aware that Colombian presidents wield great power, worry that the Conservative chief executive might influence the 1974 balloting to insure election of another Conservative.

A DILEMMA

Moreover, the choice that is likely to face the Liberals in 1970 poses a dilemma.

Former President Mariano Ospina Perez, 75, who ruled Colombia in 1946-50, will by all indications get the Conservative nomination. The Liberals have long feared and disliked Ospina, claiming he persecuted their party during his administration and was responsible for the civil strife that began in 1948.

If anyone could be more distressing to the Liberals than Ospina, he would be former dictator Gustavo Rojas Pinilla, likely to be nominated by a coalition of his followers and splinter Conservative groups. Rojas held power in an iron fist in 1953-57, and many Colombians seem to fear his return would wreck the economy and start another civil war.

Rojas presents a mixed platform that skips across most of the political spectrum from right to left. The Liberal-Conservative coalition is haunted by the notion that Liberals who could not take Ospina might abstain in 1970, paving the way for a Rojas victory.

MORE ACCEPTABLE

To make sure that does not happen, Lleras has started hunting for an alternative Conservative nominee unless he pledges to carry on economic and political reforms started by Lleras.

Meanwhile, other Liberals have started to say publicly that they will choose their own candidate and will not recognize any Liberal veto. Their only concession to the Liberals is that their man will be one of the "democratic ideals."

The amendment was adopted in 1958 after a decade of bitter, undeclared civil war between Liberals and Conservatives had left more than 200,000 dead. It

Families Seen as Members of Hospitals

PHILADELPHIA (AP) — A Harvard medical administrator predicts families may someday belong to a hospital, much like they belong to a church today.

Ray E. Brown, executive vice president of the Harvard Affiliated Hospital Center, said in an interview this may be a way to give Americans better access to medical care.

Brown, here for a meeting, said that as medicine becomes more advanced, it becomes more specialized, and more inaccessible to the general public. The problem is most acute among low-income groups, he said.

Brown said only about 20 per cent of the cases now handled in hospital emergency rooms are emergencies.

CERTAIN TREATMENT

The rest are people with medical problems who just don't know where else to go," he said. "They know that if they get into an emergency room, though, they'll be treated."

He said physicians should have their offices in hospitals and persons requiring medical treatment should be able to go to the hospital as a kind of one-stop health center. Too often, he said, a patient now goes to a doctor's office, is referred to a specialist's office, goes somewhere else for laboratory tests and X rays, then is sent to a hospital.

He added, "I see the time coming when persons will join a hospital, just as they now join a church."

He said when he recently moved to Boston, he brought a letter from his church. "Once we got to Boston we took our letter and then joined a church. Now, for example, whenever we need a wedding or a funeral we know where to go."

SIMPLE PLAN

He said, "Wouldn't it be simple if we had been able to bring a letter from our hospital, in this case our medical records, and joined a hospital, and whatever our medical problems we'd know where to go."

It would also simplify medical billing, he said, doing away with separate bills from the physician, the hospital and from any specialists called in.

His idea is similar to prepaid health clinics some universities have established. Unlike them, though, a hospital membership would be available to everyone.

Living in 1990 to Be Discussed

A discussion which will help determine how people will live in southeastern Michigan in 1990 is planned by Detroit Regional Transportation and Land Use Study (TALUS) for 7:30 p.m. tomorrow at the Birmingham Community House, 380 S. Bates, Birmingham.

Irving J. Rubin, TALUS director, is expected to make a 40-minute presentation to the invited group of Birmingham-Bloomfield residents. They in turn are expected to give their opinions regarding developmental patterns and growth directions.

FDA Finds Artificial Sweeteners May Cause Genetic Damage

WASHINGTON (AP)—The Food and Drug Administration, concerned by a new finding that artificial sweeteners may have harmful effects, is pressing ahead with a research project to settle the issue.

The finding is that a substance widely used in diet foods and drinks may cause genetic damage that could lead to birth defects.

FDA scientists emphasize that the finding, which became known to them in recent weeks, is preliminary. And they noted that the evidence so far has been found only in laboratory and animal studies—not in humans.

Dr. John J. Schrogie, acting director of the FDA's division of research and liaison, said the agency is moving quickly to set up tests with human volunteers. Once the tests begin, he said, the results should be available in about three months.

CHROMOSOME BREAKS

"We are not alarmed about it—we are concerned," Dr. Schrogie said in an interview. "We are in contact with most of the investigators and are doing work on our own."

The finding, made by the FDA's Dr. Marvin Legator, was that a substance produced by sweeteners causes significant breaks in animal chromosomes when it is given in moderate amounts.

Chromosomes are the hereditary carriers that determine what offspring are going to be like. If chromosomes break and get put back together improperly, birth defects can result.

The substance involved is

called cyclohexylamine. It is, in fact, saccharine, in diet foods, formed in the bodies of about one-third of the people who use the sweeteners, other studies have indicated.

The sweeteners involved are called cyclamates. Ten parts of cyclamates are usually mixed with one part of another sweetener, described as a toxic substance,

is sometimes used to produce cyclamates and that it can revert to its original form. He said FDA researchers are sampling various artificially sweetened products to see whether cyclohexylamine is present in significant amount.

Meanwhile, research is continuing on other possible harmful effects of cyclamates. Various studies which Schrogie described as conflicting and inconclusive have found that some animals given cyclamates produce offspring which grow more slowly and are less likely to survive.

"The investigators are quar-

reling quite a bit about the circumstances of these studies," Schrogie said.

The FDA official said no human studies are planned on these findings because of the possibly serious consequences. So far, the FDA's official position on the sweeteners remains unchanged since it was last stated in 1965: "There is no evidence that cyclamates, at present use levels, are a hazard to health."

But use of diet foods—especially diet soda pop—has increased many times in recent years and FDA officials say a spokesman for the group said the findings on chromosomes come too late to be considered.

Statue's Image Is Tarnished

Located in a Brazil Red-Light District

SAO PAULO, Brazil (UPI)—Standing in the red-light district of the city of Jau is a statue of a humble carpenter revered as a saint and a voodoo man. "Who is the saint?" the tourists ask the residents of the city of 60,000, 250 miles northwest of Sao Paulo.

He was no saint. He was just a fellow called Miguel Pacifico who thought it would be nice to gain some immortality by erecting a statue in his own honor.

PLAYED IN BAND

It all started around the turn of the century when Pacifico used to play in a band on Sundays in the city park. There were many busts in the park which apparently inspired Pacifico.

So one day he trekked into the woods with his ox and cart and selected a fine cabreva tree which he felled and brought back to the city. For months he worked at home, chiseling his own life-size figure, a book in the left hand and the right hand and head raised skyward.

His work completed, Pacifico the carpenter went to the city council and proposed that the statue of Pacifico the musician be placed in the city park. He was turned down.

Angry and not to be denied his dream, Pacifico purchased a small lot on a deserted street. There he installed his statue.

RED LIGHT DISTRICT

The council subsequently ordered the city's prostitutes confined to the area. Overnight Pacifico's statue became one of the landmarks of the red-light district.

A legend grew up that Pacifico was a debauched hero overlooking the ladies of the night and the drunken frequenters of the district. The statue suffered all types of indignities.

Then the prostitutes gave Pacifico a certain rehabilitation and prestige by believing him to be a voodoo man capable of interfering for good or evil. His niche became filled with all sorts of spirit offerings. More conventional worshippers mistook the niche for an unusual Catholic shrine. They started to leave devotional candles.

So Miguel Pacifico, the humble carpenter, gained an immortality the likes of which he would never have imagined.

Policy Changes Needed
in U.S., World Press Says

LONDON (AP) — A Japanese world policeman. And third, newspaper said the war in Viet-nam as a corollary of the two, "No nam has convinced the United more Vietnams" and more of States it "can no longer play a forts on the domestic scene." role of world policeman." A The Washington correspon- British newspaper said the dent of Hamburg's Die Welt, war's "traumatic effects will be Heinz Barth, said outlines of felt in American policy for a Nixon's European policy al- generation to come."

WORLD UNITY

These views turned up this week in a survey of foreign comment about America.

Noting that "Americans are becoming tired of the role" and its costs, Richard Cox of London's Daily Telegraph said:

"This lavish outlay has neither made her popular nor enabled her to win the Vietnam war, despite the enduring belief of many Americans that if you pour enough money onto a problem it will cease to exist."

VIETNAM COLONY?

"They do not want to be colonists, nor admit that they are in a quasi-colonial situation. They want quick returns from military investments."

M. Yasuda, writing in the Tokyo newspaper Yomiuri, described the national consensus on what President elect Richard M. Nixon would have to base his foreign policy.

Auto Crash Fatal

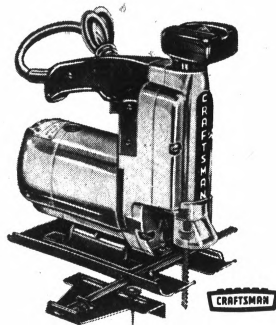

ROGERS CITY (AP) — A two-maintained only on the basis of car crash Monday near Rogers, the U.S. Soviet detente. Second, City killed Blanch Shampine, the United States, and for that 19, of Tower. The mishap oc- matter any other single country, curred at the intersection of can no longer play a role of M 68 and U.S. 23.

"Shirt collars looked brand new."

Blacks Skeptical About Nixon

(EDITOR'S NOTE — The following is the third in a six-part series detailing the problems and facing the incoming administration. This one deals with civil rights.)

By **AUSTIN SCOTT**

WASHINGTON (AP) — In his drive to unite the nation, Richard M. Nixon must reckon with a frustrated, skeptical black America that voted overwhelmingly against him.

Negroes—85 per cent of whom voted Democratic—are waiting for Nixon's program to take form around his general campaign statements that federal influence should recede in favor of industry and local government.

"I do not see any significant area where additional legislation would be passed that would be helpful in opening doors that are legally closed," Nixon has said.

"We must now concentrate on such areas as economic development, education, building and strengthening the black community from within and fashioning a new understanding between the races."

LEADERS SKEPTICAL.

But civil rights leaders like Roy Wilkins, executive director of the National Association for the Advancement of Colored People, has doubts about Nixon's philosophy.

"The real basic fight of the Negro population of the United States for the past 60 or 70 years has been against local determination of his citizenship rights," says Wilkins.

"We have been unwilling to allow Brinkley, Ark., or Raleigh, N. C., or Biloxi, Miss., or Saginaw, Mich., to determine what we're entitled to."

But Wilkins and others are hesitant about judging Nixon's civil rights proposals at this stage. "He hasn't really said enough yet," Wilkins says.

END TO JOB CORPS.

Among Nixon's proposals so far, are eliminating the Job Corps program as quickly as possible, and inducing private enterprise through tax credits to "train the unemployed for jobs that really exist."

Welfare and public housing has "perpetuated poverty" in the cities, Nixon said, and his chief priorities in this field include national minimum welfare standards, welfare rules that encourage families to stay together and encourage people to work, and government help for home ownership programs.

He said he would also like to see tax incentives for businesses that set up in poverty areas, loans and loan guarantee programs that would promote "black capitalism," and a New Enterprise program that would offer tax deductions for businessmen and teachers who help train urban Negroes to own or manage businesses.

Whitney M. Young Jr., president of the National Urban League and a man who has spent the past five years prodigal businessmen into Nixon-like programs, is skeptical.

'OVERSIMPLIFIED'

"He's oversimplified it when he suggests that the free enterprise system can handle the problem," said Young. "Free enterprise could handle it, yes, Nixon will tackle these problems, it's not going to unless it is done. Negro leaders are watching certain subsidies and insurance against loss."

"The government would have Nixon's emphasis so far in

discussing the attorney general's job has been on crime control, but the attorney general has the power to deal with segregation in schools, public housing, accommodations, some hiring and voter registration.

VERY SIGNIFICANT

"The attorney general post is very, very significant, a key appointment," said Glover Curran, director of the NAACP's program development.

"The growing tendency for cooperation in Mississippi and Alabama can be reversed if the attorney general is known to be unsympathetic. A resourceful, aggressive administrator can find ways to press the guidelines further in integration."

There are sure to be threats of increased racial violence from some activists who don't like Nixon's approach. They may add to Nixon's problems, rights leaders, could be one of but Wilkins warned against the most useful elements Nixon thinking that they represent problems that confront him.

That kind of increasing political participation, say civil rights leaders, could be one of the most useful elements Nixon thinking that they represent problems that confront him.

Christmas costs less at Yankee

Now, extra holiday
shopping hours!

9 A.M. to 11 P.M. weekdays;
10 A.M. to 8 P.M. Sundays.

Sale begins Wednesday,
Dec. 4 at 9 A.M.; ends
Saturday, Dec. 7 at 11 P.M.

Fashion finds for yourself, for gifts

Fully lined lace for gala glamour

When festivities call for pure femininity, lace leads them all! Add the frankly beguiling colors of hot pink, mint, blue, or white and you've found fashion that makes this holiday season unforgettable. The lovely floral pattern lace is acetate lined to hold its shape; back-zipped. Scalloped, be-ribboned, and very be-fitting in sizes junior sizes 7-15, missey 8-16, and misses 12-20.

- a. Drop torso style, tiers of ruffles.
- b. Square-neck Empire, bow accent.
- c. The slim-liner, with jewel neckline.

7⁹⁷

Indulge in the luxury of fur-blend gift sweaters

Nothing else is quite so soft, quite as elegant or luxurious as a fur-blend. And Yankee brings them to you in holiday colors, to spark your own wardrobe and to prove beyond a shadow of doubt that Christmas gifts cost less at Yankee! Come see back-zipped mock turtles or V-necks in this wonderful blend of lambswool/angora rabbit fur/nylon, hand-loomed for fit-perfection usually found in much more costly styles. Sizes 34 to 40.

Fur products labeled to show country of origin of imported fur.

4⁹⁷

New Apache shirt/scarf

Even the scarf ring is included with this body shirt! Comes in wonderful colors with color-coordinated scarf. Permanent Press polyester/cotton. From Yankee's gift-shirt collection that includes cotton chambrays and floral prints. 32 to 38.

3⁹⁷

Christmas costs less at Yankee

9 A.M. to 11 P.M. weekdays;
10 A.M. to 8 P.M. Sundays.

Sale begins Wednesday,
Dec. 4 at 9 A.M.; ends
Saturday, Dec. 7 at 11 P.M.

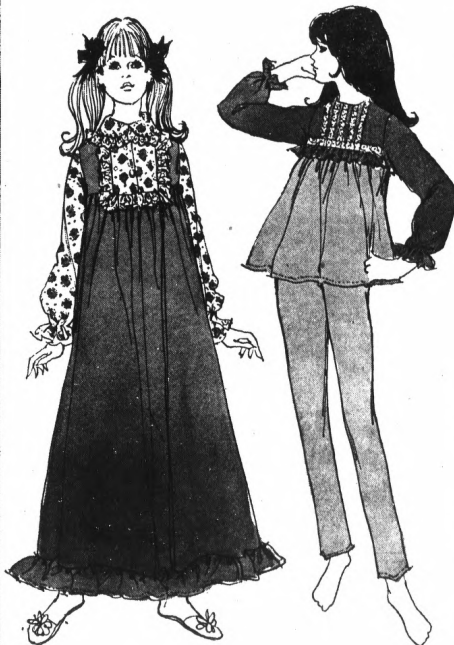

Gift buys for ladies big and little

Girls' vinyl vestee, plaid skirt combo

Repeat of a sell-out! Yankee brings you more of these terrific outfits just in time to spruce up the girls for the holidays, or to wrap up for a Christmas morning surprise. Vest is solid color vinyl; skirt is bonded wool plaid. Red/navy or gold/navy; sizes 7 to 14. See them at Yankee. In 3 to 6x sizes 3.97

4⁹⁷

special discount price

Girls' "pajama party" gifts; gowns, too!

What a gift collection! Name it, Yankee has it: from brushed nylon tricots to cotton flannels, even acetate/nylon tricots. Solid colors or pretty prints. Lace trims, to please her feminine fancy. All from one of the country's better makers, at a Christmas-costs less-at-Yankee price! Sizes 4-14.

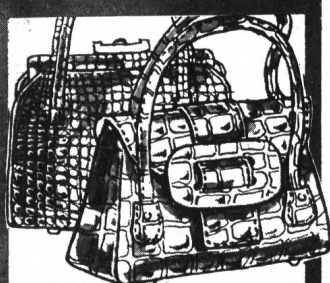

2⁹⁷

special discount price

2-piece stretch sets for the toddler girl

Like the big girls and Mommy wear, to make her preen with pride! Striped long sleeve top, coordinated solid color slacks - all stretch nylon. Fashion colors like orange, lime, 2-3-4.

2⁹⁷

Jaclyn bags, shown on TV

Nationally advertised in leading fashion magazines and TV, now at Yankee in time for gifts and a fashion treat for yourself! Most wanted styles, most popular colors.

4⁸⁷

special discount price

Have a minx on the list?

Part minx type or true sophisticated, who wouldn't love these posh pretenders? Lustrous and luxuriously shaded in brown, black, beige, even white. They're really acrylic pile-but who's to know? Come see if you can tell!

2⁸⁷ to 4⁸⁷

special discount price

Forever feminine: floating nylon gowns, sheer overlay

Usually they're 2.89. Now through Saturday you save at Yankee on these delicately embroidered dream styles in holiday colors. So luxurious looking. Yet practical. They're machine washable. No-iron. A joy to give (and receive). Sizes s-m-l.

2⁴⁴

special discount price

These quilted gift dusters cost less at Yankee now!

We show just one from a collection of styles in all these colors: pink, aqua, blue, coral, green, and maize. Fluffy, Kodel[®] polyester fiberfill is the warmer in these acetate tricot beauties. Sizes s-m-l. Come quick and save!

3⁹⁷

special discount price

Gift petticoats go lavish with lace and embroidery!

Even luxury costs less at Yankee this Christmas as we bring you petticoats that are so sumptuously trimmed you'll want some for yourself, too. We've acetate or nylon tricot; white and colors; all machine washable. Sizes s-m-l at Yankee now!

Nixon May Take FAA From Transportation Dept.

WASHINGTON (UPI) — President-elect Richard M. Nixon may perform major surgery on the Transportation Department, including separating it from its largest agency, the Federal Aviation Administration.

Nixon made it clear during the presidential election campaign he was not convinced the 46,000-man FAA belonged under the wing of the Transportation Department.

"There are serious questions about the absorption of the Federal Aviation Administration into the Department of Transportation," Nixon said last month.

Nixon said that as soon as he took office, he would set up an independent commission to study the entire executive department, and the "proper role of the FAA will certainly be high on its agenda."

SEVERE BLOW

If Nixon decides to give back to the FAA its former independent status, the turnabout will be a severe blow to the Transportation Department, which isn't even three years old until April.

As might be expected, Transportation Secretary Alan S. Boyd disagrees with Nixon.

"The FAA is in the department because we have reached

a point in this country where transportation must be treated as a total system," says Boyd.

He termed the Nixon plan a doorstep "feeble notion."

BLAMES JOHNSON

What Nixon proposes is to go back to the old system where each segment of transportation is isolated from the other.

Nixon pledged to bolster the FAA's air-traffic control system and to back a National Aviation Planning Council. It would be given the job of working out a

strategy designed to cope with the aviation boom. Inside the FAA, however, 2,000 mile an hour plane. If the Congress, Nixon, who has stressed economy when speaking of his administration, must decide whether to go ahead with the controversial program.

Early in January, the Boeing

Prince Keeps Tight Reign in Cambodia

PHNOM PENH, Cambodia (UPI) — Cambodia's Prince Norodom Sihanouk paused in the lobby of a new tourist hotel in the fourth nonstop hour of a tour of the port of Sihanoukville.

"Come," said the royal tour conductor, "I want you to see the magnificent view."

With that, the prince charged off on his short legs up five floors of stairs (The elevators were not working yet, though it was officially opening day) at a breakneck pace that left aides, diplomats and newsmen gasping far behind in the midday heat.

Sihanouk personally supervises everything in his nation of six million people, whether it is dealing with foreign governments or ironing out shipping snags which delayed the delivery of air conditioners to the Sihanoukville hotel.

HIS STAMP IS SEEN

The Sihanouk stamp can be seen on everything from his biggest industrial development projects to the smallest news items in his government-controlled press — items which are all personally read and edited by the prince.

Somewhere in the midst of all this personal management of state affairs, Sihanouk also manages to be his country's leading film director and actor, a device he uses to further promote his policies.

The only opposition is a paper group created by the prince for appearances.

The possibility of any attempt to remove him from power is so remote it is not even considered worth mentioning by Phnom Penh insiders.

IN POWER 8 YEARS

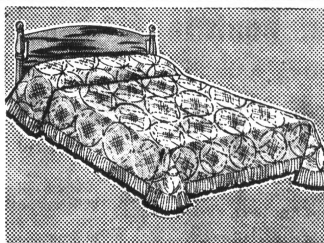

Sihanouk has been the ruling power in Cambodia since it became independent from the French during the waning days of the first Indochina war in 1953.

Cambodia is in the keystone position of Southeast Asia, with active Communist wars of insurgencies in all of the surrounding nations.

"Sihanouk's main preoccupation has been to keep his country out of war," said one Western diplomat in Phnom Penh. "And he has been successful at it."

He has managed this by a policy of neutralism in which he has shied away from being lumped with other neutralist nations, displayed a distrust of regional groupings of emerging nations, and shown what at times seems an almost pathological fear of domination by other powers, large or small.

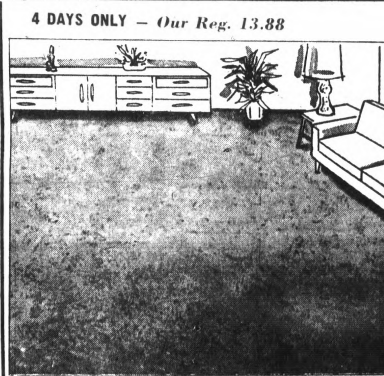

A geologist says a possibility of additional needed water supply for southern California and northwestern Mexico could be assured if water from the Salton Sea were desalted by using nearby underground steam.

Chiang's Son Views Return to Mainland as a Dream

TAIPEI, Formosa (AP) — mainlanders. Sixty per cent of reasons such as getting ahead ably looks increasingly old-orientation, developed under the island with him the governing handful of Formosans are of-press the hope that Chiang Ching-kuo will be listening.

Chiang Kai-shek's elder son, the powerful Defense Minister Chiang Ching-kuo, glanced at the large photograph of the Great Wall of China above his settee and said softly: "Viewed strictly from the mathematical point of view, comparing the population, the terrain, the size of the military forces, then it is a dream."

He was speaking of his 81-year-old father's oft-stated desire to return to China's mainland as a conqueror.

Ching-kuo quickly qualified his remark, possibly lest it be construed as sacrilege by the old-guard Kuomintang politicians who surround his father.

"Only facts in the future can really tell if it is a dream," the 58-year-old defense minister added. "We are well-aware of our own weaknesses and strengths. This view is my own personal view."

VIEW SHARED

His suggestion that his father's cause might be sterile has been shared by much of the world ever since 1949 when the Nationalists were forced off China's mainland. The view has been reinforced by the seeming negative reaction of dissidents to the Kuomintang to Formosa offers of help.

Many observers on Formosa, both foreign and Chinese, believe that even if the call came and China cracked wide open in revolt against the Communist party, there is little that the Gimo — as Chiang is known — could do about capitalizing on it.

His navy is tiny, his air force out of date, he would need a lot of American help. There is real doubt that the Formosan people, basking in the second highest standard of living in Asia, after Japan, protected by the American nuclear shield, and blessed with a beautiful island home, would show eagerness to fulfill Chiang's dreams by fighting on the vast mainland 100 miles across the sea.

"The Nationalists are trapped by the political realities," one observer said. "There are two million people who call themselves mainlanders here and are proud of it, and 12 million Formosans, which means that 84 per cent of the population don't have the same interest in going back."

BIGGER VOICE

If the Nationalists eventually renounce the great dream, the generally politically quiescent Formosans might ask for a greater voice in the government. Right now Formosa is portrayed as merely a province of China, the base for the Nationalists' return.

And should an attempt be made to cut down the 600,000-man army, or trim the 250,000-man bureaucracy, as many American advisers have suggested over the years, then the Formosans might take it as an admission that the Nationalists are not going back.

The Formosans are Chinese settlers originally from the mainland's southern coastal fringe.

During 50 years of great change on the mainland, the Formosans did not participate in the overthrow of the Manchu Dynasty, did not see the rise of the Communist party and the resulting bloodbath. Consequently, the mainlanders who streamed to the island in 1949 tend to look upon the Formosans as rusties.

CONTROL, COMPLETE

Political control is complete, leading to bitter denunciations of the regime by some of the 300 American students who have flocked to Formosa in recent years to study Chinese language and culture.

"The system is actually damn well run," commented an American embassy official. "The Kuomintang use the carrot and the stick approach. If you behave, there is no problem."

The carrots are local elections in which hundreds of Formosans participate. They run for county magistracies, for mayoralties and other posts.

Serious opposition to the regime is no longer visible. All the Kuomintang party's top posts are filled by

party rank and file are in business. Even so, winds of change are slowly reaching Formosa. In the rural areas the Kuomintang are being overtaken by the cities, levers of power are becoming increasingly difficult to use. The current government prob-

late Vice President Chen Cheng, apparatus for the whole mainland. society under Ching-kuo. Others see the economic situation building up tremendous momentum, with \$850 million in exports this year.

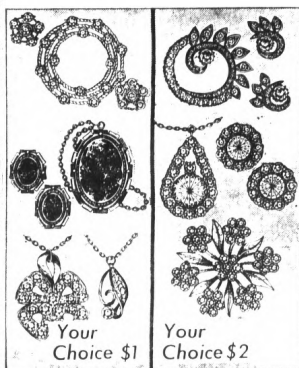

One reason Formosa is stable is that the Gimo brought to the estimated right now. Only a much larger voice. Many ex-

But times are changing. Already most of the Chinese mainlanders in his army have been replaced by native Formosans, 94 per cent when the Formosans want a stand by itself if he wants it.

One long-time resident noted: "Chiang Kai-shek has really lost his cause. He can't go back. But in losing his cause, he has gained a country. Formosa can stand by itself if he wants it."

Twin Suspension Bridges Ease Eastern Seaboard Traffic Jam

NEW CASTLE, Del. (AP)—The nation's busiest transportation corridor, between Washington and New York, would be a monstrous bottleneck today but for the Delaware Memorial Bridge.

Only one of its identical twin suspension spans is operating now. But, by February 1970, both will be in full use side by side, straddling the Delaware River between Deepwater, N.J., and New Castle, Del.

The bridge, with a main section of 2,150 feet, is the 14th largest suspension bridge in the world.

The twin opened in September, and the first bridge was closed four days later for an \$11-million renovation which includes an entire new deck and removal of the median barrier.

JAMS CONTINUE

So, some traffic jams over the present four bridge lanes will continue during the peak morning and evening commuter hours.

More than 15 million vehicles now use the single span every year. By 1993, engineers predict, traffic will double. It is the only direct link between the New Jersey and Delaware Turnpikes. More road traffic is generated through this region than anywhere else in America.

Seventeen years ago, before the first span was built, ferries plied the lower Delaware. But their maximum daily load was 4,000 vehicles, a trickle of traffic even in those days. It seriously hindered industrial growth and slowed through traffic between New England and the South.

Most traffic traveled a tortuous trip through downtown Philadelphia to make the river crossing into New Jersey over the Benjamin Franklin Bridge.

3.5-MILE APPROACHES

The original Delaware Bridge was completed in 1951, three years after it began. It cost \$45-million and then was the world's sixth biggest suspension bridge.

Its approaches cover 3 1/2 miles, its foundations run 115 feet under the river and its towers rise 440 feet above the water.

ACLU May Sue Flint in Manger Feud

FLINT (AP)—The American Civil Liberties Union may go to court in an effort to have a Nativity scene removed from in front of Flint's city hall.

ACLU attorney Michael A. Pelavin said Tuesday his organization seeks to have the Nativity scene removed from public property because it amounts to official approval of "one particular religion."

Pelavin argued to the city's nine-man city commission Monday that the plaster figures of the Virgin Mary, Joseph and three sheep gathered around a manger on the lawn at city hall violate both the First and Fourteenth Amendments to the U. S. Constitution. Commissioners did not take any action.

"We have no objection to the scene itself, but there is plenty of church property where it would be proper to display it," Pelavin explained.

SANTA'S STILL OK

He added that the ACLU's objections to the Nativity scene should not be construed as an attack on Santa Claus, who visited Flint Monday night and greeted a crowd of about 2,000 at city hall.

Commissioner Matt P. Heinen Jr. replied that "There is no Santa Claus but Jesus Christ was an historic figure. He was born."

Pelavin said the ACLU made similar demands last year but that they were ignored. He said this year the organization could carry the matter to Genesee County Circuit Court or to federal district court.

The ACLU will decide later this week whether to wait until after Christmas to go ahead with the suit, he said.

Retirement Party

LANSING (AP)—A retirement party is planned Thursday in Lansing for Dr. Hans H. Ruhland, a state veterinary pathologist. Ruhland, 65, is to retire Dec. 13 after more than 31 years with the State Department of Agriculture.

line—higher than a 40-story building—but only 190 feet from the center of the deck. It has 900,000 nuts and bolts, more than 13,000 miles of cable, 45,000 tons of steel, and 292,000 cubic yards of concrete.

After the bridge was begun—its cost borne entirely through a

million for the first time in joining Maryland to build connecting expressways of their own—further speeding the trip to Washington.

BIG MONEYMAKER

It's a big moneymaker, too. Tolls now generate \$10 million annually.

Miller said the bridge helped the first year—"the bridge carried 6.7 million vehicles, and the New Jersey Turnpike "and for an auto at the start, to 36 cents in 1959, and a quarter in 1960. It also helped Delaware and

To soon, the bridge became crowded. The toll went up to 50 cents when a twin span was conceived.

FUTURE PLANS

John C. Volk Jr., the project engineer, said capacity use is still 10 to 15 years away.

For the new bridge, New Jersey and Delaware joined to form the Delaware River & Bay lanes, each a foot wider than the original, more concrete, all river crossings between the heavier cable, more steel. Its two states. Private bonds, as be-deck is 2 1/2 inches thicker, its fore, were floated and bridge foundations were sunk deeper.

It took 13 years, from the first idea of a river crossing, to complete the original span. But the twin, a look-alike, has second bridge raced to reality in these differences: four 13-foot less than five.

Soup Fills the Bill When a Snack Is Desired

Suddenly, there is a new feeling about snack foods. The little meals between meals have taken on added importance, and it is sometimes hard to distinguish the meals from the snacks.

Snacks that count for good nutrition are "in" — and the "souper-snack", starring what was once a meal appetizer, succeeds as an easy way to enjoy snacks with plus food values, in varied flavors and styles, at any time.

The "souper-snack" — good any time of day — is a new trend.

Housewives stop for a mid-morning pick-me-up cup, more refreshing than coffee and cake, and lower-calorie, too.

Men who find the before-lunch interval lengthy, enjoy beef broth poured cold, and full-strength over rocks, for bracing sipping along with sociable sipping.

Youngsters home from school reach for the soup for an afternoon snack — heartier still, when poured over bread or paired with a sandwich.

Sports fans join the "Time for a Souper-Snack" brigade, with hearty warm-up cups after the game, or soups for dipping, as well as sipping, on the ski slope or after a brisk walk in the wind.

And back at home, in the hour before dinner, when the man of the house returns, there is a pause for a special respite, a pamper-the-man, catch-up with the family, pause-to-relax time that's coming to be known as the "souper" hour. The soup may be on-the-rocks or steam-hot, sipped solo or with a trayful of hors d'oeuvres.

SOUPE A L'OIGNON
AUX CHAMPIGNONS
1/2 pound beef tenderloin, or sirloin, cut in very thin strips

2 tablespoons salad oil
1 can (10½ ounces) condensed golden mushroom soup
2 cans (10½ ounces each) condensed onion soup
1½ soup cans water
1/4 cup Burgundy or other dry red wine
2 tablespoons chopped parsley
1/2 teaspoon tarragon, crushed
In saucpan, brown beef in oil. Pour off fat. Stir in golden mushroom soup; gradually blend in remaining ingredients. Heat; stir now and then. Makes 6 to 9 servings. Good accompaniments are the following breads.

Cheesy Pumpernickle Bread
2 tablespoons crumbled blue cheese
2 tablespoons butter or margarine
6 very thin slices pumpernickle bread (hard-crust)
In saucpan, melt cheese and butter. Brush one side of bread with butter mixture. Place on cookie sheet. Bake at 400 degrees for 5 minutes.

Garlic Rye Bread
1 large clove garlic, minced
2 tablespoons butter or margarine
8 very thin slices rye bread (hard-crust)
In saucpan, lightly brown garlic in butter. Brush one side of bread with garlic butter. Place on cookie sheet. Bake at 400 degrees for 5 minutes.

AVGOLEMONO
1 can (10½ ounces) condensed chicken with rice soup
1 soup can water
1 egg
1 tablespoon lemon juice
Lemon slices
In saucpan or top of double boiler, combine soup and water. Cook over medium heat. Remove from heat. Beat egg until light and frothy; gradually add lemon juice and 1 cup hot broth. Slowly stir egg mixture into soup. Cook a few minutes over very low heat, stirring.

until egg is thoroughly blended with soup. DO NOT BOIL.

Garnish with lemon. Serve immediately. (Overheating will cause curdling.)

SOPA DE TOMATE CON TEQUILA

1 tablespoon finely chopped onion
1 small clove garlic, minced
1 teaspoon chili powder
2 tablespoons butter or margarine
1 can (10½ ounces) condensed tomato soup
1 soup can water
1 to 2 tablespoons Tequila
1/2 cup mashed avocado
2 teaspoons lemon juice
1/4 teaspoon salt
1/4 cup heavy cream, whipped
In saucpan, cook onion, garlic, and chili in butter until onion is tender. Add soup, water, and Tequila. Heat; stir now and then. Meanwhile, combine avocado, lemon juice, and salt. Fold in whipped cream. Serve as garnish for soup. Makes 2 to 3 servings.

SOUPE SNACKS — For late evening snacking, say after the theatre, present your guests with a choice of three soups. From the front to the rear are Greek style Avgolemono, a chicken soup with lemon; Soupe a L'Oignon aux Champignons which combines onion and mushroom soups; and Soupe de Tomate con Tequila, a highly spiced tomato soup.

GULF KIST SHRIMP

CLEANED! BACK STRIP REMOVED

READY-TO-SERVE

No Waste—No Work!

Keep chilled and handy in your refrigerator always—for salads, appetizers, cocktails, casseroles. So easy to fix and so low in calories, too—only 170 per can.

GINGER-BROILED HALIBUT — Halibut steaks are broiled to flaky perfection and basted with an exotic blend of wine, soy sauce and ginger. Bring it to the table, sizzling on a shallow oven-proof dish or broil-and-serve platter.

Gourmet Touch Given to Broiled Halibut

Which kind of host or hostess are you? Do you choose a date, invite your guests and then plan your menu? Or do you select a new recipe to try and let that be the reason for gathering a few friends around your dinner table?

There really isn't one "right" answer to our question, but you can't go wrong with the second approach and this fish dish — Ginger-Broiled Halibut.

First off, it's likely that most of your friends aren't as "sophisticated" as you might think. They'll sing your praises for serving a flavorful some discovery like halibut.

Freshly caught or quick-frozen, it's a firm white-fleshed fish with a mild, pleasant flavor. For guests, you'll always want to figure on "too many" of these thick sea steaks rather than "just enough" — the flavor's that good!

GINGER-BROILED HALIBUT
2 pounds halibut steaks, fresh or frozen, 3/4 inch thick
1/4 cup dry white wine
3 tablespoons salad oil
3 tablespoons soy sauce
1½ teaspoons instant minced onion
1½ teaspoons seasoning salt
2½ teaspoon powdered ginger
1/2 teaspoon horseradish

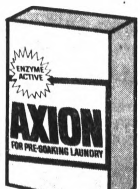

Thaw frozen steaks. Cut into 6 portions. Arrange fish in single layer on a preheated, well-

"I've tried everything: bleaches, bluing, detergent boosters. Nothing has done what Axion has."

Mrs. Guy E. Anderson
RR #1, Momence, Illinois

"This is the one I recommend...it's the best."

Ginger Ale Adds a Zip

Have you been looking for a dessert which is different, delicious, and easy to prepare? Your family and guests will be intrigued by this unusual, new flavor combination — an exotic way to end a meal.

This is a light, yet satisfying, dessert, perfect to serve after a heavy meal. The main ingredients, coffee and ginger ale, complement each other to produce a provocative flavor.

Cafe Marge

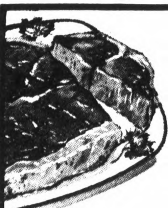

4 tablespoons unflavored gelatin
2 cups dry ginger ale
1/2 cup whipping cream
2 cups strong cold coffee
4 teaspoons sugar
1/2 cup whipping cream
Soften gelatin in 1/2 cup cold coffee. Combine with remaining coffee and sugar and stir over hot water until gelatin dissolves. Remove from heat; stir in ginger ale.

Chill until consistency of unbeaten egg white. Fold in whipped cream. Chill until mixture will mound. Spoon into sherbet glasses. Makes 8 servings.

Yule Decorations Can Be Edible

So many simple things make up the joy of Christmas. You don't need expensive decorations. What children are most likely to remember are Christmas goodies they helped make. It might be any one of the gay decorations on this page.

All are made in a similar manner. Popcorn or cereal is held together in a sweet syrup like that for popcorn balls. While warm, it's easy to mold into shape.

First comes a delightful little country church.

CEREAL CHURCH

$\frac{3}{4}$ cup butter or margarine
1 $\frac{1}{2}$ pounds marshmallows
15 cups Rice Krispies

Melt butter in very large pan. Add marshmallows and cook over low heat, stirring constantly, until marshmallows are melted and mixture is syrupy. Remove from heat. Add cereal and stir until well-coated. Press mixture evenly into two greased 15 x 10-inch pans. Cool. From one pan cut the following:

2 end pieces: 6 inches across the bottom, 4 inches high with a peak measuring 8 $\frac{1}{2}$ inches from base to tip.
1 side: 7 $\frac{1}{2}$ inches across bottom, 4 inches high. Cut out three windows.

1 entrance: 3 inches across bottom, 6 $\frac{1}{2}$ inches from base to tip of peak. Cut out door.
From the other pan cut the following:

1 side: 7 $\frac{1}{2}$ inches across bottom, 4 inches high. Cut out three windows.
1 steeple: Cut triangle 3 inches across bottom, 7 inches high. When roof has been put on church, cut out notch at the bottom of steeple so that steeple will fit down over roof.

Steps, blocks for fence: cut from scraps.

Put church together using wooden picks or confectioners' sugar icing to hold it. Cut a roof from red cardboard to fit allowing about $\frac{1}{2}$ inch on all sides for overhang.

When church has been put together, spread roof with thin confectioners' sugar icing to resemble snow and ice. Cut a small roof for entrance and ice the same as church roof.

St. Nick place cards and holiday trees are fun for everyone! The children have made a contribution to Christmas dinner and you have a pretty table with distinctive place cards.

ST. NICK PLACE CARDS

5 cups puffed rice
27 large marshmallows
3 tablespoons butter or margarine

1 teaspoon vanilla
Few drops red food coloring
Thick confectioners' sugar
Frosting

Flaked or shredded coconut
Small gumdrops

Heat puffed rice in shallow baking pan in preheated moderate oven (350 degrees) 10 minutes. Pour into well-greased large bowl. Combine marshmallows and butter in top of double boiler. Heat over boiling water until melted, stirring occasionally. Remove from heat; stir in vanilla and food coloring.

Pour over puffed rice; stir until all kernels are evenly coated. Shape to form eight 2 $\frac{1}{2}$ -inch balls.

For place cards, cut 6 rec-

tangles, 6 $\frac{1}{2}$ x1 $\frac{1}{2}$ -inches, from red construction paper. Form round bases from rectangles for Santa's collar.

Place puffed rice balls on paper collars. Using confectioners' sugar frosting, frost balls except for face area. Immediately sprinkle frosting with coconut for "hair" and "beard." Attach cut gumdrops with frosting for eyes, nose and mouth.

Make cone-shaped hats from red construction paper; bend tops over; put miniature marshmallow on end of each hat.

Cut 6 strips, 6 $\frac{1}{2}$ x $\frac{1}{2}$ inches, from white paper and from white paper. Letter names on strips. Form rings; slip each ring over hats to make brims. Place hats on each Santa.

HOLIDAY TREES

$\frac{1}{2}$ cup butter

$\frac{1}{2}$ pound marshmallows

Wooden skewers

5 cups puffed cereal (corn, rice or wheat)

Colored sugar

Stir butter and marshmallows over low heat until syrupy. Pour over puffed cereal in a buttered bowl and stir quickly. Pack lightly into buttered cone shaped paper drinking cups. Insert skewers for trunk.

When cool, remove paper cups and roll cones in colored sugar. Push end of skewer into large gum drops for base. Makes 9 trees.

Center the table with an angelic figure that can be eaten after it serves a decorative purpose.

POPCORN ANGEL

3 quarts popped popcorn

1 cup sugar

$\frac{1}{4}$ cup light corn syrup

$\frac{1}{4}$ cup butter or margarine

$\frac{1}{4}$ cup water

$\frac{1}{2}$ teaspoon salt

Cotton doll head attached to wooden pick or pipe cleaner. Measure popped popcorn into large well-buttered bowl. Combine sugar, syrup, butter or margarine, water and salt in saucepan. Bring to boil over low heat stirring until sugar melts.

Continue cooking until syrup reaches the hard-crack stage (290-295 degrees). Pour in fine stream over popcorn; stir

carefully until kernels are evenly coated with syrup.

Spoon $\frac{1}{2}$ of mixture onto buttered surface and shape into cone about 8 to 9 inches high with pins.

and tapered to about 4 inches in diameter at the base. Use remaining popcorn and shape of cone about 7 inches high and tapered to half of red pipe cleaner and 2 inches in diameter at base, put in place, sticking ends of press small cones onto either wire securely into popcorn. Cut side of center cone. Allow to cool and become firm.

Stick head into top of center cone leaving about $\frac{1}{2}$ inch between head and cone. Make slits: 1 $\frac{1}{2}$ inch wings to back of cape and front and back bibs, angel.

POPCORN ANGEL — Your popcorn angel will have a cotton or Styrofoam head, silver wings and a red felt or paper cape. Halo and hands are pipe cleaners. Underneath is a large cone of sugary popcorn.

When it comes to good habits, are they ever too young?

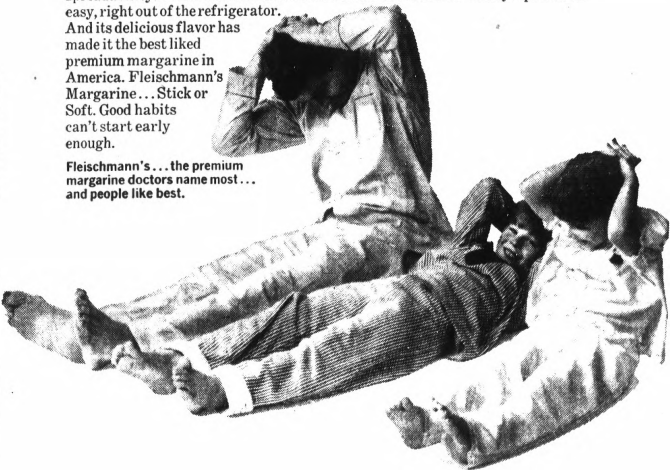

Actually the right exercise and good food are two habits that can help your family stay fit... no matter what their age. And a part of good food habits should be Fleischmann's... the premium margarine doctors name most. Fleischmann's is made from 100% corn oil. And the medical fact is that no oil is better for you than corn oil in a low saturated fat diet.

Of course, another reason families like Fleischmann's is its rich taste and spreadability. Fleischmann's—in Stick or convenient tub form—always spreads on easy, right out of the refrigerator.

And its delicious flavor has made it the best liked premium margarine in America. Fleischmann's Margarine... Stick or Soft. Good habits can't start early enough.

Fleischmann's... the premium margarine doctors name most... and people like best.

There is a type of Fleischmann's for every family preference.

Is Giving Food A Good Gift Idea?

What could be more welcome?
Everyone needs food.

Maybe, that's why so many of our customers choose A&P Gift Certificates each year. There are \$5 and \$10 certificates, as well as certificates for Grade "A" Super-Right Turkeys, Jane Parker Fruit Cake or other foods of your choice. They're an ideal gift for almost anyone on your list.

P.S. Does the man of your house have a long list of business friends and/or employees? Your A&P Store Manager can help him solve his gift problems.

NLF Is Now U.S. Opponent in Talks as Well as Battle

By WILLIAM L. RYAN
AP Special Correspondent

After fighting the National Liberation Front on the battlefield for seven years, the United States now is preparing to do battle with the same foe on the political front.

Paris talks between the Americans and North Vietnamese are about to be expanded to include both the Saigon government and the Vietcong's political arm, the National Liberation Front.

It is just that—a front. Behind it are many other fronts. The United States and Saigon say it is a creature of the North Vietnamese Lao Dong (Communist) party and that the NLF is maintained and directed by the exiled and the hamlet, and then commander of the People's Liberation southern wing of the Lao Dong, through village, district, province, and the same time president of the Liberation Women's Association.

While the NLF purports to be independent and even at times gives an impression of differing with Hanoi, its background well, the NLF attempts to set up the North Vietnamese party, government, collecting taxes, con-

The "Mat Tran Dan-Toc Giai scripting troops and labor from the antiwar demonstrations in the United States.

Mrs. Binh, a rebel since her student days, was released by the French from imprisonment at the time of the 1954 Geneva agreement ending the French phase of the war against the Communist-led Vietnam. She now is a vice chairman of the NLF Central Committee.

The head of the Association of Devout and Patriotic Catholics is Joseph Maria Ho Hue Bang, a revolutionary priest who is also a member of the NLF Central Committee and a vice chairman of the Committee for Solidarity with the American People.

The head of the High Plateau Autonomy Movement, Abhi Alao, is also a member of the NLF. Presidium, as is Tran Bach Dang, head of the Union of Youth for Liberation.

STORY IS REPEATED

The story is much the same the list of organizations whose purpose is to attract as

many diverse groups as possible.

The NLF enthusiastically supports and is supported by the Alliance of National Democratic and Peace Forces which emerged fairly recently, purporting to be an independent organization but closely following the front's line. Its statements are broadcast regularly by "Liberation Radio" and Hanoi.

It appeared at a time when the NLF was advertising a new program envisaging coalition, and the indications were that the alliance was set up with this program in mind. Such a coalition would, NLF statements regarded as "puppets of the United States." It would de-Phat, a 52-year-old architect, is a veteran Communist propagandist who supposedly represents a "South Vietnamese Democratic party." Under a number of aliases, he was a revolutionary since the early 1940s when he was a regional commander of defeated, the NLF began form-

Huu Tho, who was educated in the Vietnam under Ho Chi Minh. France and has a long record of revolutionary activity against both the French and the Saigon government. His sympathies were indicated by his membership in various "peace" movements when the Communists were using such movements as propaganda fronts. He was in prison in South Vietnam when the NLF was founded, escaped while under hospital care, and became the front's chairman.

LONG A REVOLUTIONARY

Phung Van Cung, a doctor of medicine, is a vice president of the NLF Presidium. He had been in South Vietnam government service before 1960. The secretary general, Huynh Tan, a 52-year-old architect, is a veteran Communist propagandist who supposedly represents a "South Vietnamese Democratic party." Under a number of aliases, he was a revolutionary since the early 1940s when he was a regional commander of defeated, the NLF began form-

Tran Bau Kiem, 44, a lawyer, is chairman of the NLF commission for foreign relations and thus would be foreign minister if the NLF took over. He, too, has had a number of revolutionary aliases over many years.

The NLF organization suggests a structure paralleling that of a government. This has been a hallmark of Communist revolutionary movements for years. In this case, the structure goes deep into grass roots. When the French were near defeat at the hands of the Vietminh in 1954, the Communists in the North began setting up "revolutionary administrations" at village levels, ready to take over government functions.

THE SAME WAY

Again in 1964, when it seemed the Saigon government would be way out of the house before fire-

"revolutionary administrations" in the same way. Heavy U.S. military influx halted the Vietcong and, until recently, little more was heard of these "revolutionary administrations." Now the effort is being mounted again.

LITTLE ROCK, Ark. (AP) — A blind woman groped her way to safety Tuesday as fire destroyed her frame home.

Mrs. Thelma Jones, 61, was in serious condition at a hospital as a result of burns.

Charles Steward, chief of the nearby Sweet Home Fire Department, said Mrs. Jones, who lived alone, apparently had sensed the fire and made her way out of the house before firemen arrived.

Blind Woman Flees as Fire Razes Home

LITTLE ROCK, Ark. (AP) — A blind woman groped her way to safety Tuesday as fire destroyed her frame home.

Mrs. Thelma Jones, 61, was in serious condition at a hospital as a result of burns.

Charles Steward, chief of the nearby Sweet Home Fire Department, said Mrs. Jones, who lived alone, apparently had sensed the fire and made her way out of the house before firemen arrived.

Cousino Pins 77-71 Setback on Dondero

Royal Oak Kimball had too much firepower for Birmingham Groves but field goals weren't enough for Royal Oak Dondero Tuesday night in nonleague cage contests.

Kimball handed Groves its second straight loss with a 31-18 field goal edge in a 75-50 victory. Dondero outshot Warren (Quino, 29-25) from the field but fell, 77-71, in its opener.

Jay Brown's 18 rebounds and 18 points sparked ROK to its opening conquest. Fred Shelnut produced 13 markers with some good outside shooting for the winners who outscored Groves in every quarter.

SCORING BURST
Dondero had the upper hand until Bob Preston's 10 points sent Cousino on a third-quarter scoring spree. Cousino augmented its 52 per cent field goal shooting with 27 successful free throws as four Dondero starters fouled out.

Bob Wing and Chuck Haisig led ROK with 19 and 18 points, respectively. Paul Hicks of Cousino took game laurels with 22 and teammate Bob Perston added 20.

Lafayette Paces Spartans

Broncos Broken by Titan Standout

(Continued from Page E-1) only 150 pounds. He was backed by Sophomore Rudy Benjamin is by 21 points from Marvin Winkler.

Michigan State outbounced Michigan after the Wolverines tangle with Toledo. The same four clubs then switch to Ann Arbor with Michigan State meeting Toledo before Michigan goes against Western Michigan.

Leading the way for the Bulldogs was Jerry Flake, closest thing yet to the invisible man on the basketball court, who hit 31 points. Flake is 6-foot-7 but weighs 130 pounds.

The Spartans are idle until Friday and Saturday night when they participate in a doubleheader with Michigan.

The first two games are at Northville Victimized

South Lyon Routs Foe

South Lyon ended several seasons of frustration with a convincing 81-64 rout of Northville Tuesday night in the nonleague opener for both quintets.

The Lions never came closer than five points to Northville in dropping their last three games, and also were decisively beaten by the Mustangs in the 1962 Class B state district tournament.

However, the winners dominated the backboards against the smaller visiting Northville quintet this time.

The losers also couldn't defend muscular Lion backcourt ace Dave Brandon, a 6-2 190-pounder who hit 35 points to start off his junior campaign. He confounded the Mustangs with driving layups and outside jump shots.

Warren Lincoln Topples Clawson

Randy Barber scored 23 points as Warren Lincoln handed Clawson (0-1) a 71-50 defeat Tuesday night. Randy Stone led the losing Trojans with 12 points.

Berkley also lost its lidlifter, dropping an 82-67 verdict at Dearborn Fordson. Both were nonleague encounters.

Country Day Triumphs

Jack Zwemer poured in 35 points last night in leading Detroit Country Day to a 63-59 victory over Dearborn Annapolis. Mitch Hansen added 11 to assist Zwemer. John Miller paced the losers with 27.

Michigan State, with the Spartan hosting Western Michigan after the Wolverines tangle with Toledo. The same four clubs then switch to Ann Arbor with Michigan State meeting Toledo before Michigan goes against Western Michigan.

FOREMAN FORMIDABLE FOE — Lahser had trouble containing Bob Foreman (33) of Bloomfield Hills Andover in the early going last night. The slender Baron forward pulls in one of his four first-quarter rebounds by outreaching Bernie McPheely (34) of the

Knights while Craig Brown can only watch from behind the successful Baron who also made seven straight free throws in the first period. Dick Souther (41) and Pete Douglas stand by ready to aid their Andover teammate.

Romeo, Falcon Cagers Win

Falcons Trip Utica Quintet; Madison Loses

The Romeo Bulldogs bit another nonleague rival Tuesday night and now hope to continue their tear in their Oakland A League opener Friday night. Romeo withstood a 35-point scoring spree by Lapeer's junior forward Clarke Adams to take home a 76-68 triumph last night for a 2-0 mark going into Friday's home game against Avondale.

Rochester won its season liftdiffer with a 57-44 conquest last night at Utica Stevenson. Another O-A quintet, Madison, wasn't so fortunate, dropping a 60-51 decision to Fitzgerald.

Mike Semp hit 10 of his 22 points in the fourth period and Tom Lerchen chipped in with 8 of his 19 as the two Romeo guards accounted for all but two of the Bulldogs' markers in the late going.

LATE SURGE

Lapeer (0-1) closed within two points with 30 seconds to play, but Semp and Lerchen cushioned the winners' lead with charity tosses. Big Dan Burzynski pulled down 15 rebounds and added 14 points to the Bulldogs' total.

Fred Harrison guided Rochester's Falcons with a 15-point effort to nip Stevenson's Mike Murray (41) for game honors. A 23-17 field goal advantage was decisive.

Madison was similarly victimized, trailing Fitzgerald, 23-16, in baskets. John Havrelko's 12 and Bob Tremblay's 11 paced the losing Eagles (0-1).

ANYBODY'S REBOUND — The basketball bounds free from the grasping hands of Andover's Rick Douglas (dark uniform in center), plus Lahser's Bill West (44) and Brian Kovach (22) during a battle under the BHL Knights' basket in the first half last night. Other Barons hoping for a shot at the rebound are Larry Allingham (45), Tony May (15) and Dick Souther (52), while Lahser's Bernie McPheely (34) and Craig Brown (51) are maneuvering for better positions, too.

Balanced Attack Helps Almont Nip Imlay City

A balanced Almont offense the visiting Raiders took the withstood a second-half surge lead, 15-14, at the end of one by host Imlay City for a 77-69 their margin with time outside victory Tuesday night in the shooting that resulted in six season liftdiffer for both quintets.

After some early sparring,

Hazel Park '5' Led by Guard

Sharp-shooting Jim Merchel picked up where he left off last winter with a 23-point display last night that earned Hazel Park a 52-51 decision over Oak Park.

The flashy guard dropped in the tying and winning points on a one-and-one free throw opportunity with just 13 seconds showing on the clock.

Oak Park led, 51-46, with less than 1:45 to play, but Merchel and Marc Pruss each connected for two points to set up the Hazel Park ace's closing heroics. Merchel averaged 20 p.p.g. last season to rank fourth in the county.

Tall Wolves Howling

Clarkston Halts Mott's Corsairs

Rebounds Help Bring 65-44 Cage Decision

Neither Clarkston nor Waterford Mott had its shooting touch Tuesday night but the Wolves superior rebounding enabled them to hand WMHS a 65-44 beating in the opener for both quintets.

Clarkston posted a 26-19 edge in baskets although only managing 11 more attempts than the Corsairs who were outscored by a 65-45 margin. The Wolves had 80 shots for 32 per cent.

Mott — who won only one game in its initial season last year — doesn't have any seniors yet — hurt itself with a miserable 6-of-23 foul shooting exhibition.

The losers managed to put nine players in the scoring column although the only one in twin figures was Dave Miller with 14.

Clarkston coach Bud McGrath used 13 players and eight had field goals. Rancey Chuck Granger produced 16 markers and he was supported by John Craven's 12 and 10 by tail Eric Hood.

Clarkston's Wolves will invade West Bloomfield's court for their Wayne-Oakland League debut Friday, and Mott will be host to Wayne John Glenn at WMHS' floor in a nonleague encounter.

Rulemakers Go to Bat for Major League Hitters

SAN FRANCISCO (AP)—A slightly smaller strike zone and a slightly lower mound are baseball's answer to last season's imbalance between pitchers and hitters.

"Anything you do to help the hitters will be an improvement," said Gene Mauch, manager of the expansion Montreal Expos after the rules committee voted the changes Tuesday at the winter meetings.

"Anything that makes it tougher for pitchers has to help hitters."

The changes reduce the strike zone to between the armpits and top of the knees and lower the mound from 15 inches to 10 above the level of the plate.

The strike zone had previously been defined as the area between the tops of the shoulders and the knees with the knee not specifically defined.

Another change was made to allow for the completion of games suspended in extra in-

nings rather than having them replayed in their entirety. Sowing changes stiffened the earned run average computation for relief pitchers who come into an inning with two out after an error has been committed. It makes the save an official part of the game's pitching statistics rather than an unofficial item.

Clarkston Halts Orion Maimen

Clarkston's wrestlers may settle a few scores this year. Last year, the Wolves were the losses going to Lake Orion.

Last night, the Wolves took on the same Lake Orion team and posted a 37-11 decision. In another prep mat meet, Rochester's Falcons dropped a 33-19 decision to Waterford Township.

Waterford 37, Rochester 19. Rick Herrington (W) pinned Jeffery 1:12. Boes (K) dec Pat Tipton 7:01. 120 — Steve Muller (W) dec Bill Rigdon 2:00. 130 — Jack Coates (W) dec Mike Bales 2:00. 140 — Paul Gullen (R) dec Jim Strahan 7:31. 150 — Eric Atup (W) pinned Bill Hope 1:05. 160 — Ron Bialman (W) pinned Bud Belair 3:40. 180 — Jim Main (R) pinned Bob Russell 1:40. 200 — John Major (R) pinned Ed Richey 2:50. U.S. Is Wrapped Up in Packaging

By HAL BOYLE
NEW YORK (AP)—America may not have the best of everything but, whatever it has, it can wrap and tie it up better than any other country in the world.

Packaging has become our outstanding native art form. We are even better at it than we are at finger-painting or building skyscrapers.

In other lands, they try to make their packages as simple as possible. In France, for ex-

ample, if you buy a damp fish or a bunch of flowers, they usually merely enclose it in a small piece of yesterday's newspaper and hand it to you. Bread ordinarily isn't even wrapped at all. You simply pick up a loaf, stick it under your arm, and march home with it.

This merely proves how benighted Europe has remained. The real test of a civilization is to what extent it can take a simple thing and make it more difficult, complex and complicated.

CIVILIZED U.S.
Judged solely in this respect by its art of packaging, this nation is by far the most civilized that has ever graced the earth. Our packages have become as complicated as our neuroses, and are just about as difficult to solve.

When you get a package today—a package of almost any kind—it is no longer merely a simple purchase or a surprise present. It is a great big problem.

On it should be printed in great bold letters: "I dare you to try to open me!"

No matter what the package contains—a book, a shirt, a

mail-order cheese from Wisconsin—it is wrapped as securely as if it held the contents of Fr. Knox.

BEST-KNOWN
Do what you will—stab at it with a kitchen knife, snap at it with scissors—these are the three best-known ways to open a modern package.

Apply a bomb squad for help—and tip them heavily.

Take the day off, rent a steam roller, go to a side street, and keep running over the package. By nightfall it should begin to give.

Worst of all are those sneaky little red strings they put around the transparent wrapping of cigars and packets of crackers in order to guide you in your struggle. They are booby traps put there to mislead you. Invariably they break off, leaving you frustrated and even more helpless.

I mangle at least five cigars a week trying to pull on those malicious little red markers. In hours on a flight from Kansas City recently gnawing at that thin red line on a packet of airplane crackers. No luck.

FALSE TEETH SORE
"I never did get to eat my meal, and when I landed, all my false teeth were sore," is how he summed up his grim experience.

Theoretically, when it comes to packages, it's what's inside that really counts. But what could they possibly put in packages today that is worth the ordeal of opening them?

If you want to even scores with an enemy nowadays, you don't need to denounce him in public or spread gossip about his character. A more cunning way is to send him a package every day—a package of anything—and tell the clerk: "Be sure to wrap it real good."

In 30 days your enemy will be destroyed.

Northwestern Grows as Top Research Site

EVANSTON, Ill. (UPI)—There's a quiet revolution going on in this sedate suburb just north of Chicago.

It's taking place behind the ivy-covered walls of Northwestern University, and it's marked by the tinkling of test tubes, the whir of computers and the silence of men thinking.

Slowly, steadily and quietly, NU is emerging as one of the leading scientific research centers in the United States.

The science, engineering and medicine (SEM) faculty at the smallest school in the Big Ten—and the only private one—includes more than 1,000 researchers engaged in experimental or theoretical studies involving annual expenditures of about \$20 million, more than three quarters of it from federal sources.

Faculty members serve as coeditors, associate editors and coauthors of about 50 professional journals. In determining what research reports will be published, they help set national, often international, standards of quality in science, engineering and medicine.

Three of the eight principal National Science Foundation programs for improving national university-level science teaching and undergraduate research are directed by NU faculty members.

Young Man Moving Up in Soviet Life

ALMA ATA, U.S.S.R. (AP)—With luck, a good record and their 4-year-old daughter and mother, he may be his mother.

Atgavey reports he earns 100 rubles a month, and with bonuses, his pay comes to about 245. His rent is about 11 rubles a month. At the official exchange rate a ruble is worth \$1.11.

Better dressed than the average Russian, Atgavey looks forward to buying a refrigerator in three or four years, he says, he expects to own one of the Flat cars scheduled for production at a new Soviet plant.

Not completely satisfied with his current status, Atgavey says his two-room apartment is "not good." It is in a 5-year-old building that already looks old and shabby, and is surrounded by a sea of mud on the farm.

Parliament Is Long on Tradition but Short on Work Facilities

LONDON (AP) — There are members' coat hangers, still work in the crowded corridors Queen Victoria. So who is now government. And the Labor. They receive \$7,800 a year travel to and from their consti- empty room where, not so long murmurs of discontent in the there to hold the swords they no or in the smoking room where making all the fuss? It's those MPs feel their own legislative and get no free help.

long, chilly, drafty corridors of longer are allowed to carry into you have to be careful not to sit in some aged member's special chair? Labor MPs, those honorable production would be increased if They are allowed 48 sheets of House of Commons paper daily, or stationery valued at no more than \$48 a year. They can make free telephone calls from Par- they ought to have a personal secretary and research assist- but not long-distance. They get free first-class train

Parliament. It's all that tradi- the House. tion and not enough modern convenience. All these are all well and fine. Conditions like these have been good enough for members of Parliament for hundreds of years—actually they were TODAY'S KEY WORD "Productivity" is today's key secretary and research assist- ant, paid for by the taxpayers.

And how about private offices? Needy families in 266 counties and cities of eight southeastern states exchanged \$43.7 million Many point out that among all states exchanged \$92.2 million worth were quite a number unused of food-stamp coupons during the last fiscal year.

Only Kroger offers both DISCOUNT PRICES and TOP VALUE STAMPS! Why settle for less?

Rhodesia Offers Prizes to Those Who Lure White Settlers

SALISBURY, Rhodesia (AP) — Large advertisements announce: "Know anyone living outside Rhodesia? Encourage them to settle here and win one of these great prizes!"

The prizes turn out to be a six-day family visit to a lake-side resort, a game park and the Victoria Falls. All are within Rhodesia, so no foreign currency will be needed. Second prize is a refrigerator, and third a radio-phonograph.

The advertisement gives the

reason for the immigration drive: "Rhodesia urgently needs skilled immigrants—to stimulate the economy and employment and to bring capital and know-how into the country."

It is widely accepted that if the handful of whites are to survive in Rhodesia, they must build up their numbers dramatically.

VASTLY OUTNUMBERED

The last official estimate, in June 1968, showed 237,000 whites and 4,410,000 Africans. In num-

bers, the Africans are racing ahead. Ten years ago there were 3,190,000 and 203,000 whites.

Prime Minister Ian Smith has often emphasized that the ruling whites are determined to maintain "Western civilization." He recently reaffirmed there will be no African rule in his lifetime.

Britain is the main target of the immigration drive. Rhodesia faces severe competition, South Africa, Australia and New

Zealand are also wooing English-speaking immigrants and offer them a perhaps more trouble-free future.

Nevertheless, after ups and downs in the last few years, immigration is increasing again.

SEESAW FIGURE

In 1964, when the breakup of the federation of Rhodesia and Nyasaland caused an exodus of disillusioned whites, there was a net loss of 8,400. In 1965, as confidence returned, there was a net gain of 4,463, among them many of those who fled the pre-

vious year. Doubts over the declaration of independence in late 1965 led to another drop in 1966, this time 983.

A net gain of 4,142 was reported in 1967, and this was extended in 1968 with a net gain of 5,304 in the first eight months.

All these figures refer to whites. Entry into Rhodesia by Africans from other countries is difficult. The minister of information, immigration and tourism, Pieter van der Byl, has announced

a new assisted-passage plan for families of immigrants already in Rhodesia. Another inducement to immigrants is income tax concessions.

UNSKILLED AVAILABLE

With a large unskilled African labor force readily available, Rhodesia places emphasis on skilled immigrants. The newspaper advertisement lists 36 professions and trades, from doctors and engineers to welders and bricklayers, "which need filling fast."

The last line of the advertisement sums up: "Help the immigration drive—your future depends on it."

Church Now Jail

LOS BANOS, Calif. (AP) — The former Seventh-Day Adventist church here is being converted into a new city jail and police and sheriff's department complex. The church has decided to seek new quarters. Remodeling is expected to cost about \$250,000.

Cameroon Hurdles Unity Problems Toward Peace, Progress

YAOUNDE, Cameroon (AP)—Across the long northwest border Nigerians are killing Nigerians. Their 16-month civil war revives memories here.

Like the Nigerians, these people have suffered in an armed struggle. In 1955-61 Bamileke tribesmen, backed by Chinese arms, plunged the country into terrorism that killed an estimated 70,000 Africans and Europeans.

Now the government of Cameroon is overcoming profound tribal, religious and cultural con-

licts, plus an extraordinary language problem.

Cameroon inherited the languages of two empire builders in Africa—France and Britain—making the country of 5 million people the only bilingual state in Black Africa.

SHARP DIFFERENCES

Language aside, the country is afflicted by sharp religious differences and tribalism—Africa's own brand of racial discrimination—which threw Nigeria into civil war and continues to be a dangerously divisive force in most west and central African countries.

In the sparsely populated grasslands of the north, many feudal Moslems proudly preserve a colorful but backward way of life. Christians and animists, with greater access to education and modern ways, dominate the prosperous and more developed south.

Some 200 tribes, ranging from the Ubangis and nearly-extinct pygmies to the most recently arrived Ibo refugees from Bia-

diversity and burden it with 24 major dialects.

President Ahmadou Ahidjo, a Moslem northerner, led the country to independence in 1960. He tackled the task of national unification with force and impartiality.

INSURRECTION QUELLED

By 1961 the Bamileke insurrection, aimed at destroying all Western influence and setting up a "people's republic," was throttled by Ahidjo's small but determined French-trained army. Sporadic acts of terror-

ism continued for several years, but today have all but disappeared.

Cameroon's most obvious division was between the 4 million Africans of French-speaking East Cameroon and the 1 million inhabitants of English-speaking West Cameroon.

A German colony through the end of World War I, Cameroon was divided by the victorious French and British armies.

In 1958, the United Nations turned the French territory over to the Cameroonians. In 1961,

West Cameroon voted in a UN plebiscite to unite with East Cameroon, rejecting an option to learn with English-speaking Nigeria.

SO FAR SUCCESSFUL.

Ahidjo has paved a tranquil and, so far, successful road toward a national consciousness.

English speakers have made the most concessions since the merger, but few seem to regret the decision.

Clerks, typists and other go to a free school in the French-speaking capital to learn English at night.

QUALIFIES FOR RAISE

Every civil servant who can speak both languages qualifies for a raise in salary and position.

Even so the Anglophile citizen may feel like an underdog.

Many of the country's external economic agreements are closely knit with the African franc zone, and trading is heavy with France.

Thus less familiar and less popular French goods are flooding the markets in the English-speaking areas, replacing traditional British commodities which were less expensive.

The bituminous coal industry estimates that it will need at least 49,000 new, trained employees in the next five years.

Israel Warns Clash Nears All-Out War

From Our News Wires
JERUSALEM — Israel and Jordan battled with artillery today for the fourth day in a row along their tenuous line between the Sea of Galilee and the Dead Sea. Israeli sources warned the situation is nearing full-scale war.

Israeli spokesmen said Jordanian 81mm mortars twice bombarded a tractor station near Damiya Bridge, midway between the Biblical seas. Israeli artillery replied with a 10-minute barrage.

The spokesmen said Arab guerrillas blew up a tractor just south of the Dead Sea and used mines to destroy two Israeli military vehicles in the Gaza Strip seized from Egypt in the 1967 Middle East war.

The fighting followed not only truce-line artillery duels but an Israeli commando strike Sunday that cut rail and road links between Amman and Jordan's southern port of Aqaba. In Amman, Jordanian officials accused the Israelis of jet bombing raids against civilians, saying one raid yesterday killed 14 persons and wounded 18.

'NEAR ACT OF WAR'

In Jerusalem, Israeli sources said "The new coordinated and intensive bombardment along the entire length of the Jordan Valley sector is approaching an act of war and its continuation cannot be tolerated."

The United States is reported seeking the support of key nations for a new seven-point plan to bring peace between Israel and Egypt.

Informed diplomats said the initiative by President Johnson's administration gathered momentum after the Nov. 5 election and has attracted the interest of President-elect Richard M. Nixon's entourage.

The informants said the American plan foresees as a starting point Israel's withdrawal from the Sinai peninsula and Egypt's termination of its 20-year-old state of war with the Jewish nation.

The aim of the U.S. program is an acceptable peace document signed by the main contenders in the Middle East conflict, the diplomats said. The American plan is said to reflect the chief ingredients of a resolution adopted by the United Nations Security Council in November 1967, after the six-day Arab-Israeli war.

The Americans have been trying to rally support for the plan from several major powers, including the Soviet Union, India and Britain, the informants said.

Talk Control Turnover Is Topic

LBJ, Harriman Plot Strategy

WASHINGTON (AP) — Arrangements for turning over the U.S. peace team at Paris to the incoming Nixon administration are expected to be a major topic when Ambassador Averell Harriman confers with President Johnson on strategy for the coming weeks.

Harriman, who returned from Paris yesterday, said in advance of today's conference with Johnson that he does not expect to remain as chief negotiator under Richard M. Nixon.

He said he thought the new president would be "well-advised to name his own team."

As Johnson and Harriman confer, the major problem before the United States and North Vietnam is to get the peace talks going again in an expanded new phase after a lapse of a month.

NEW START NEXT WEEK?

Some U.S. officials think it possible that the new start may be made next week, following the expected arrival in Paris of the full delegation from South Vietnam.

A delegation from the rebel National Liberation Front (NLF) of South Vietnam reached Paris several weeks ago.

EMPHASIS NOT KNOWN

While neither the President nor Harriman has signaled what the major U.S. objective would be in the remaining weeks of the Johnson regime, some officials expect that the main emphasis may be a new effort to curtail the war.

When President Johnson ended all bombing and other attacks on North Vietnam Oct. 31 he said he acted on an understanding with North Vietnam that the Demilitarized Zone separating North and South would be respected.

Since then, there have been U.S. charges of scores of violations by Communist forces and North Vietnamese accusations of air strikes and ground rations by U.S. troops in the area.

Authorities here continue to play down speculation about trying to arrange a cease-fire, saying that the kind of guerrilla war being fought by the Communists in the South does not provide a basis for an effective cease-fire agreement.

CAN BE PRACTICAL

However, they do consider a cease-fire arrangement as practical if it is made the first step of a plan for withdrawal of all foreign forces from South Vietnam. The United States, therefore, could make an early proposal for a troop withdrawal agreement with North Vietnam which could embrace a ceasefire arrangement.

Harriman said on arrival that he found no evidence that either North Vietnam or South Vietnam was deliberately trying to delay the talks until the Nixon Administration is in power.

Drizzle Tonight, Flurries Tomorrow

The U.S. Weather Bureau predicts the Pontiac area will be damped by drizzle tonight and snow flurries tomorrow.

Temperatures are expected to skid to 28 to 32 tonight and aim for a high of 36 to 40 tomorrow.

Friday's outlook is mostly cloudy and colder.

Today's winds northwesterly at eight to 15 miles per hour will become five to 10 miles tonight and northwest to west at eight to 12 miles tomorrow.

Precipitation probabilities in per cent are: 20 today and tonight, 30 tomorrow.

The low thermometer reading was 35 prior to 8 a.m. today. At 12:30 p.m. the mercury registered 42.

Students Head For Classes At Pierce Junior High School

BRICK FELL OFFICER — Policeman Paul Juel of the San Francisco Police Department lies unconscious on the San Francisco State College campus yesterday after being felled by a hunk of brick thrown during a melee between police and

dissident students. He was struck in the back of the neck. Nine persons were injured and 32 arrested during the clashes. (Story, Page A-2)

2-Party County Caucus Meeting

A combined Republican-Democratic caucus study committee was to meet at noon today to further hammer out some basis of agreement by which to operate the newly elected County Board of Supervisors.

The Republicans — outnumbered 12 to 15 on the new board — met in caucus last night. They reiterated their decision to attempt to keep supervisors' jobs on a part-time basis.

"We believe the board should remain strictly legislative in nature," said Robert Patnales, caucus spokesman.

The Democrats' announced intention of seeking a blue-ribbon bipartisan advisory committee to study salaries was called premature by the Republican caucus.

STILL DON'T KNOW

"We still don't know whether the jobs will be full or part time," said Patnales. The Republicans termed the

(Continued on Page A-2, Col. 4)

Murphy: Will Chair Auditors or Resign

DANIEL T. MURPHY

By JEAN SAILE

Daniel T. Murphy, chairman of Oakland County's Board of Auditors, told The Pontiac Press today he will resign if removed from the chairmanship of his committee.

A member and chairman of the powerful board of auditors since 1964, Murphy's term has another year to go. Since he, a Republican, soon will be working for the newly elected Democratic majority on the reorganized County Board of Supervisors, it has thrown some doubt on his political future as chairman for the coming year.

"I took this job on the basis that I would be able to implement certain procedures, and I would find it very hard to work for another clerk," he said.

A former county clerk, he recalled he'd given up the idea of running for a congressional seat in order to take the auditor chairmanship in 1964.

POWER OF THE MAN

Much of the power he has exercised has been due to the man rather than to the office, and to his Republican affiliation.

To retain that power, he would need the help of some renegade Democrats, and Murphy agrees that such a proposition is questionable at this time.

New Pontiac Div. Sales Marks

For the second consecutive month Pontiac Motor Division sales have set all-time records, propelling the division toward its best selling year ever.

John Z. DeLoe, a General Motors vice president and Pontiac general manager, reported today that a total of 88,629 new Pontiacs were sold in November, surpassing the previous high of 78,345 units sold in 1966.

Sales of 28,749 cars in the last 10 days of November were also a record, the fourth 10-day record since the 1969 models were unveiled. The best previous Nov. 21-30 period was in 1966 when 25,593 units were sold.

DeLoe said Pontiac sales in the first 11 months of the year totaled 827,890 cars. "This not only is a record but it also is 55,611 more units than we had sold in the same time last year."

He said the completely restyled Grand Prix has provided a particularly strong impetus to the division's over-all sales. "In the two months the new GP has been on sale, our dealers have already sold more Grand Prix than they did in the entire 1968 model year."

School Needs Are Called Crucial

By ED BLUNDEN

"These are the crucial years," said Paul O'Neill, principal of Waterford Township's Pierce Junior High, as he discussed his 1,300 pupils.

The school at 5145 Hatchery is a focal point which emphasizes all the troubles of the Waterford Township School District, in O'Neill's opinion. These are, mainly, a curtailed program, too little

funds, overcrowding and a bleak future.

"These are the grades 7 through 9 in which children's minds are exploring and when they need the most encouragement," O'Neill said.

But at present Pierce Junior High, and most of the rest of the district's schools, are not offering a full program. Everything has been cut back due to low funds.

District voters will have a chance to reverse the circumstances Saturday when a 9-mill property tax increase for two years and a \$10.8-million bond issue for new construction will be asked. New buildings would include a new junior high school, if approved.

District voters rejected a millage increase proposal in November 1967. And as everywhere, considerable opposition

has been voiced to further additions to already high tax rates.

The citizens' committee which recommended the election took this into account when the 9-mill question was proposed for two years. It is hoped after that time citizens of the district, joining with many others, opposing to present school tax laws, will be able to bring about reform more equitable to home owners.

Meanwhile, officials like O'Neill must carry on. At the junior high the cutback is one-sixth of the total program. This means each pupil is getting one less class period each semester.

PAUL O'NEILL

CUTBACK DETAILED

The principal explained seventh graders now get one class of mathematics instead of one each of math and science, eighth graders now combine English and history, and ninth graders have one less elective.

These reductions have allowed the school to cut 10 teachers from the staff, a considerable cash saving.

"People say 'cut out the fat,' but no one agrees on what fat is," O'Neill said. He pointed out such classes as shop and home-making are considered essential by many parents.

(Continued on Page A-3, Col. 4)

Many political observers speculate that Robert E. Lilly, a Democrat member of the three-man board of auditors since 1961, will assume the chairmanship.

It would take two minor revolutions to get any other result.

TRADE MIGHT SUCCEED

One of them — and perhaps the most likely to succeed — would be the trade by the still Republican-controlled supervisors of John B. Osgood, only part-time member of the board, for a Democratic candidate.

The bipartisan board comprises two full-time positions and a part-time position.

Osgood is a Republican. He reportedly has been campaigning for reappointment to his current position — due to be assigned Dec. 17.

By giving the Democrats a part-time man to serve along with Lilly, the Republicans would hope to hold onto the full term for Republican Murphy when his present appointment expires next fall.

Murphy's announcement of his intention to resign if he does not get the chairmanship has come as a surprise to Republicans and Democrats alike and will undoubtedly cause some realigned thinking.

UNLIKELY EVENT

The Democratic trade for Osgood might prove to be someone like James Seaterlin, defeated county treasurer whose name has been mentioned for the job. It would still be highly unlikely that Seaterlin as a part-time man would be named instead of Lilly as chairman.

Secondly, there is a chance that the position could be evaluated to a full time basis on a par with Murphy and Lilly, but it seems remote.

SHOPPING DAYS 'TIL CHRISTMAS

FLORA MAE SHOP
708 W. Huron Street
Open Every Night Until Christmas

NOT SO HAPPY NOW—Cleveland osteopath Dr. Sam Sheppard and his second wife, Ariene, beamed for photographers in 1966 when a retrial acquitted him of the 1954 murder of his first wife. The Sheppards are not so happy now. Ariene filed suit for divorce yesterday, saying Dr. Sam threatened to kill her. Two weeks ago, he resigned from the staff of Youngstown (Ohio) Osteopathic Hospital after two malpractice suits totalling \$1215,000 were filed against him.

Possibility of Leak of ICC Ruling Eyed

WASHINGTON (AP) — Bonds of the bankrupt New Haven Railroad rose sharply on the stock market immediately after a secret Interstate Commerce Commission ruling that was not announced to the public until a week later.

An investigation was promised by ICC Chairman Paul J. Tierney to determine whether advance information leaked out of his agency, although he did say speculators may simply have anticipated the ruling.

C. of C. Mulling DST Recount

LANSING (AP) — The State Chamber of Commerce is considering spending up to \$15,000 to recount the apparent 1,501-vote defeat of Daylight Saving Time.

"I think the money will be available if necessary," said State Chamber President Harry R. Hall. The chamber backed DST.

The Board of State Canvassers is scheduled to ratify revised figures from the Nov. 5 vote on daylight saving time next Monday. The deadline for seeking a recount is 48 hours after the board acts.

Recounts cost \$5 per precinct. A petitioner's money is refunded only if the recount changes the outcome of the race in question.

RECHECK FINISHED

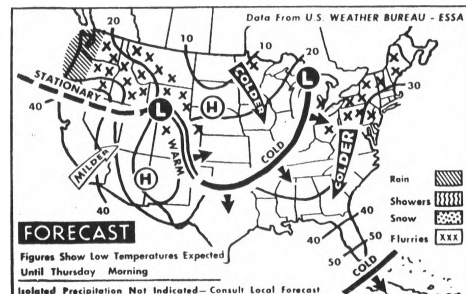

The state election division finished a precinct-by-precinct recheck of the vote Monday and set the margin of defeat at 1,501, finding apparent tabulating errors in figures from Macomb, Mackinac and Allegan counties.

NATIONAL WEATHER — Light snow flurries are predicted tonight for the north Atlantic Coast, northern Appalachians, eastern Great Lakes, upper Missouri Valley and northern and central Rockies. There will be rain with snow over higher elevations of the Pacific Northwest.

Reds Ambush Probing Yanks

SAIGON (AP) — An estimated 400 North Vietnamese troops, lying in wait in thick jungle, attacked 150 probing U.S. air cavalrymen near the Cambodian border north of Saigon yesterday and killed or wounded more than half of them.

Twenty-three of the American troops were killed and 52 wounded. It was the heaviest casualty toll suffered by the elite 1st Air Cavalry Division in a single battle this year.

North Vietnamese casualties were not known, but one Air Cav officer said: "We brought in a hell of a lot of stuff — artillery, rockets and bombers — on the enemy troops."

The 18,000-man air cavalry division has been operating north of Saigon for more than a month, seeking 15,000 to 20,000 North Vietnamese troops that are reported deployed along a 100-mile stretch of the Cambodian border. They constitute a potential threat to Saigon, and an air cavalry officer said today the

division has killed at least 1,135 enemy troops in the area since Oct. 31.

BATTLESHIP SHELLS DMZ

At the northern end of South Vietnam, meanwhile, the U.S. battleship New Jersey attacked the demilitarized zone yesterday for the first time since President Johnson ordered the bombing and shelling of North Vietnam stopped on Nov. 1.

The New Jersey joined in a coordinated attack with U.S. Marine

bombers after two North Vietnamese machine guns in the DMZ fired on two American reconnaissance planes, the U.S. Command said. The naval and aerial bombardment knocked out the two 50-caliber machine guns, smashed three bunkers and destroyed 200 yards of trenches, U.S. headquarters said.

This raised to 624 the reported total of U.S. attacks on the DMZ in response to indications of North Vietnamese military activity there since the bombing halt.

32 Are Arrested at SF State in 'Reign of Terror'

SAF FRANCISCO (AP) — Police made 32 arrests during clashes with student strikers yesterday at San Francisco State College. Acting President S. I. Hayakawa described the strikers' tactics as a "reign of terror" and said any continuations would be met with more police crackdowns.

About 200 of the school's 18,000 students appeared to be the ones who threw rocks, mud, broken bricks, glass, pine cones and boards.

At least nine persons, including five policemen, were injured in the campus' most violent day since the Black Students Union called the strike nearly four weeks ago.

14 STUDENTS SUSPENDED

The two-day total of arrests was 42 and 14 students have been suspended from school.

"If there is more tension, there will be more force," said Hayakawa, who wore a red and white flower lei he said was given him by a group of faculty supporters.

Republican Gov. Ronald Reagan praised Hayakawa's firm tactics, and Democratic Mayor Joseph Alioto promised all the city police strength needed against demonstrators, whose pressure for minority group demands has disrupted the campus for most of the past months.

About 200 activists were involved yesterday in three separate assaults on the business and social sciences building, where class attendance was reported high.

The quietest, most violent clash came in front of the library, where one police officer was knocked unconscious and one demonstrator was felled, his face streaming blood.

Arraignment Held in Extortion Case

Reputed Mafia leader Joseph M. Barbara Jr. of Frazer was arraigned yesterday in Oakland County Circuit Court on a charge of extortion.

Barbara stood mute to the charge and a plea of innocent was entered by Judge William R. Beasley. Barbara's bond was continued at \$50,000. No trial date was set.

Barbara is accused of extorting \$4,000 from Mrs. Dolores Lazaros of Troy by threatening the lives of her son, John, 9, and husband, Peter, another alleged Mafia member, last March 27.

Lazaros has been under 24-hour guard by the State Police since he told of alleged bribery and political payoffs in the Detroit area.

Orthodontist Mute to Murder Charge

A Birmingham orthodontist stood mute yesterday at his second arraignment in Oakland County Circuit Court on charges of murdering his ex-wife and 7-year-old son in October.

Dr. Daniel J. Boucher, 44, of 3130 W. Long Lake, Bloomfield Township, has been arraigned once before in late October, but the case was later remanded back to lower court for preliminary examination. He had waived a preliminary hearing following his arrest.

Boucher is accused of the Oct. 16 shotgun slayings of his former wife, Blanche, 49, and their son, Daniel.

Following his arraignment before Circuit Judge William R. Beasley, Boucher was returned to the Oakland County Jail without bond. No trial date was set.

Annual GM Meeting

DETROIT (AP) — The 1969 annual meeting of General Motors Corp. stockholders will be held in Detroit's Cobo Hall May 23, beginning at 2:30 p.m. It will be the first such meeting after the 1968 meeting, also held in Detroit, attracted 1,800.

MISSING GIRL — Nancy Marie Fleece, 14, is the object of an intense search by Battle Creek police. The girl has been missing since Sunday when she disappeared a half-mile from the Fleece home after a shopping trip. Police were told by a youth Sunday that he and a friend picked up a hitchhiking girl and drove her to a supermarket near the north edge of Battle Creek.

2 Killings Likely to Trigger More Violence Across Italy

ROME (AP) — Italy was threatened with more violence today as protests

against the police killing of two Sicilian farm workers swelled the ranks of workers and students striking across the country.

2-Party County Caucus Meeting

(Continued From Page One)

Democratic announcement to seek such a committee "a maneuver to keep the heat off" in case the decision is to put supervisors on a full-time basis.

Delos Hamlin, chairman of the present Board of Supervisors, told The Pontiac Press that total salaries and expenses paid last year to board members amounted to \$51,000.

Any full-time positions with commensurate salaries would cost considerably more, he said, even though the new board will be reduced to 27 members.

NAMED CHAIRMAN

Republicans named Harry Horton of Royal Oak chairman of a committee to further study overall responsibilities of the board and the compensation to which members shall be entitled.

Two other study committees were named with Wallace Gabler of Royal Oak heading a rules and by-laws study and Mary Bawden of Birmingham heading a study to reduce the present number of supervisor committees.

There are currently 24 such committees, and both Democrats and Republicans say they seek to reduce that number to about 10.

Blue Cross Pushing Better Cost Planning

NEW YORK (AP) — The Blue Cross Association, in a move to curb spiraling hospital costs, says it will reduce payments to or cancel contracts with hospitals which do not cooperate with community health planning agencies.

The board of governors of the national association also said in a statement yesterday that it will reward hospitals that show improved efficiency through a monetary incentive plan.

Walter J. McNearney, Blue Cross president, said hospitals should concentrate on "building more efficient and better-distributed" facilities, and should share services and expensive equipment within communities to cut costs.

Birmingham News

School Aide Strike Ends

BIRMINGHAM—Schools in this district were open for education as usual today, as bus drivers and custodial and cafeteria personnel returned to work.

Seventeen of the district's 25 schools were closed last night after a wildcat strike by members of Local 1384 of the American Federation of State, County and Municipal Employees curtailed lunch and bus services.

The strike came after the union had voted to reject proposed wage increases Monday night.

James O'Neil, director of physical plant and transportation and a negotiator for the board of education, said no new bargaining meetings with union representatives have as yet been scheduled. However, he said, a meeting will probably be slated soon.

STATE MEDIATOR PRESENT

The proposed salaries were settled

upon after three meetings between negotiators with State Mediator Leonard Bennett.

The union's three-year contract with the board does not expire until October, 1969, but salary provisions are negotiable annually. Last year's rates expired a month ago.

The Board of Education last night heard requests from representatives of two Parent-Teacher Association units in the city for support in obtaining traffic safety devices at two separate intersections.

Merrill L. Haviland, president of the Pierce Elementary School PTA, told the board further traffic controls are needed at the intersection of 14 Mile and Pierce. Parents of children attending the school said the present crossing is unsafe.

They have contacted a number of authorities responsible for traffic safety at the intersection, but claim they have received little encouragement.

SUPPORT PLEDGED

Supt. John Blackhall Smith said the board would support the PTA and do everything possible to secure additional traffic controls.

The board also heard a letter from the West Maple Junior High School PTA telling of a complete lack of crossing aids at the intersection of Maple and Inkster roads. The parents requested a traffic light, crossing guards or any other solution to the problems at what they called a dangerous crossing.

One of the problems of obtaining the traffic safety measures at the intersection is the Inkster Road is the dividing line between West Bloomfield and Bloomfield townships and this presents the question of who will pay for crossing guards.

Board of education officials said local governmental agency provides crossing guards. School tax dollars should be spent on education and public safety and traffic control measures are a police function, they claim.

COUNTY JURISDICTION

The traffic light comes under the jurisdiction of the Oakland County Road Commission.

The Bloomfield Township police are making a study of traffic at the intersection. It is expected to be completed this week.

TOO MUCH—When a fella is 1½ years big, it doesn't take too much shopping to tire him out. However, if Bradley, the son of Mr. and Mrs. Keith H. Winslow of 6360 Imlay City, Imlay City, were to wake up, he would find his dream of toy-land has come true. The seasonal picture was taken at the Pontiac Mall.

Avondale Pacts Set for New High School

AVON TOWNSHIP — The Avondale Board of Education has awarded contracts for the construction of a new high school.

The first phase of the new facility, which will include 80,000 square feet of floor space and 29 classrooms, is scheduled for completion by August 1970, according to Schools Supt. John W. Dickey. Cost will be \$2,018,824.

Ground-breaking ceremonies will be held in a few weeks, according to William J. Adams, spokesman for the architectural firm of Linn Smith, DeMiene and Adams, Inc., of Birmingham.

The contracts went to W. A. Lutz Construction Co. of Harper Woods, for general contracting; Evans Plumbing and Heating Co. of Southfield, mechanical contracting; and Fred W. Moore Co. of 845 W. Huron, Pontiac, electrical contracting.

BOND ISSUE FUNDS

The construction will be financed with

Members Added to 2 Holly Boards

HOLLY TOWNSHIP — The Township Board has appointed new members to the library board and board of review.

Mrs. Ellen Lock was named to the library board, replacing Mrs. Helen Bennett, who recently resigned.

Aubrey Butler and George Wagoner were reappointed to the board of review, while James Herrington was appointed for the first time. All will serve two-year terms.

Lapeer Home Union Faces Loss of State Recognition

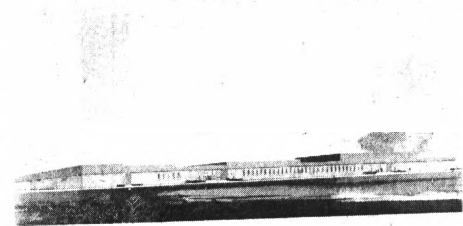

LAPEER — The Michigan Civil Service Commission has scheduled a hearing Dec. 12 on whether to withdraw recognition from the employees' union at the Lapeer State Home and Training School.

Officers of the union, Local 567 of the American Federation of State, County and Municipal Employees (AFSCME), have been ordered to show cause why recognition should not be withdrawn.

The hearing will be held at 9:30 a.m. before Commission hearing officer David Pence in the chambers of the Lapeer County Circuit Court.

EARLIER THREAT

The Civil Service Commission had earlier threatened to withdraw recognition from the union shortly after a partial work stoppage at the Lapeer hospital.

Artist's View Of Projected High School

Troy May OK 52-Acre Rezoning

TROY — The Biltmore Development Co. appears headed for success on its latest rezoning request in this city.

While the City Commission has tabled for a week the new request, involving a 52-acre parcel northeast of Big Beaver and Coolidge, commissioners indicated that when Biltmore puts in writing its recent decision not to expand the Somerset Park apartment complex, approval may be forthcoming.

The development company early this year sought rezoning of 219 acres north

of Big Beaver to allow expansion of the Somerset complex.

The commission approved the rezoning, but rescinded it several months later after three candidates opposing the change ran successfully for commission seats.

SHOPPING CENTER LAND

The new request would change the 52 acres from the present single-family residential zoning to commercial. The land would be added to 11 acres already

zoned commercial to provide space for a regional shopping center.

In addition, Norman Cohen, Biltmore attorney and a partner in the firm, said Biltmore will seek rezoning of another 60 acres northwest of Big Beaver and Coolidge for office usage.

A prospective tenant is seeking a 30-acre site for a \$15 million office building.

Biltmore, already Troy's largest taxpayer, is involved in construction of a "fashion mall" shopping area southeast

of Big Beaver and Coolidge, with Saks Fifth Avenue and Bonwit Teller the principal stores.

The new proposed office and shopping center complex would pay roughly \$1.5 million in property taxes, Cohen noted, compared to the \$294,000 which the city would receive from single-family residential use.

The Biltmore spokesman said the 60-acre office rezoning request would be submitted to the city planning commission Tuesday.

W. Bloomfield Won't Levy Tax Collection Fee

WEST BLOOMFIELD TOWNSHIP — The Township Board has again voted to waive the one per cent collection fee for taxes, although it is able to do so legally.

In other recent action, the board again reviewed proposed new subdivision regulations. Approval of the regulations will be considered at the next regular board meeting.

The board also set April 1, 1969, as the date for the first payment on the charge for joining the Walnut Lake sewer arm from Pine Center and Bloomfield on the Lake subdivisions. The subdivisions were connected into another sewer until the Walnut Lake arm was finished last summer. Total cost per household will be \$350 for tapping into the Walnut Lake arm and \$250 for joining the Farmington interceptor, into which the arm drains.

The proposed agreement for sale of the West Bloomfield Fire Station in Keego Harbor to the new tri-city fire committee was discussed again. Keego Harbor, Sylvan Lake and Orchard Lake hope to jointly purchase the station for \$19,750.

Before signing, the board wants a definite financial obligation arranged and a period of occupancy after signing settled upon, to allow relocation of West Bloomfield personnel and equipment.

Lapeer County VISTA

LANSING (AP) — Gov. George Romney has approved assignment of nine VISTA volunteers to various economic opportunity agencies in Michigan, including two in Detroit: one to the Thumb Area Economic Opportunity Commission serving Tuscola, Huron, Sanilac and Lapeer counties; one serving Manistee, Mason, Lake and Newagaw counties; and three to Northeast Michigan Community Action Inc. serving 12 counties with headquarters in Alpena.

WEDNESDAY, DECEMBER 4, 1968 A 1

Area News

NORMAN KAPSON

Brandon Gets New Supervisor

BRANDON TOWNSHIP — An Ortonville businessman has been appointed supervisor of this township by a 4-1 vote of the Township Board.

Norman Kapson, owner of Kapson Design Services, 174 Mill, will replace Richard Wilcox Jan. 1 when the latter assumes his new office of county supervisor.

The 38-year-old Kapson was selected from among four applicants for the township supervisor's job, which pays \$6,000 per year. Selected by secret ballot, Republican Kapson received four votes to one for trustee Mrs. Leona Hutchings. Married and the father of three children, Kapson has served nine years on township's fire and police board.

REPRESENTATIVE NAMED

The supervisor's term expires in November 1970.

In other recent business, the Township Board named new trustee Don Vogel as the township representative on the appeals board, reappointed Fred Beardslee and Gerald Bandy respectively to new four-year terms on the township zoning board, and reappointed George Koester and Milton Miller to the board of review. Fred Lehnen was also appointed to the review board.

The zoning ordinance was amended to incorporate a multiple dwelling classification, in still other recent board action. The classification sets up regulations for apartments and similar type buildings.

The board authorized the hiring of an appraiser, Albert E. Beyer of Grand Blanc, to appraise new buildings and building improvements. Beyer was the lowest of three bidders at a cost estimated at about \$5 per inspection, according to Clerk Lucille Saunders.

13 in Oxford Vie to Write Charter

OXFORD — Thirteen candidates filed yesterday for nine seats at stake on the city charter commission here in the Feb. 11 incorporation vote.

The village proposes to incorporate itself and four square miles of Oxford Township land into a city. Only if the city issue passes would the charter commission members take office.

The commission's only job would be to draft a city charter for voter approval. Filing for the charter writing were John W. Moes, 55 W. Drahner, George J. Snyder, 31 Pearl, Claude E. Roger, 81 Park, Luther L. Clyburn, 27 W. Purdie, Allen E. Valentine, 59 Pleasant, Curtis Gullen, 15 Park, George A. Beske, 10 W. Purdie.

OTHER CANDIDATES

Also Lowell E. Prescott, 10 Crawford, Elizabeth Sage, 6 Crawford, Gerald E. Griffin, 529 Meridian, Joan F. Roseman, 55 Sherman, and Edna and Ladonessa G. Padgett.

The candidates were filed with Oakland County by the 4 p.m. deadline yesterday.

If the vote is favorable Feb. 11, the new city of Oxford would have an area of about six square miles. The village currently has about two square miles in size.

School Reorganization Report Received by Rochester Board

ROCHESTER — School board members here have received a progress report on Avon-Brooklands Schools reorganization, which was accomplished at the beginning of the school year.

The four-room Avon school has all kindergarten youngsters and two classes of first graders, a junior primary setup.

The reorganization at Brooklands School with grades 3-6 has permitted the creation of a multiage group of fourth, fifth and sixth graders, who are somewhat low achievers.

The multiage grouping permits specialization instruction, featuring more individual attention for pupils.

SUCCESSFUL

Although only three months have gone by, Schools Supt. Douglas Lund said the reorganization has been successful.

In other recent business, the board awarded contracts for new transporta-

tion equipment. Goodyear Tire Co. of Pontiac was the lowest of four bidders at \$2,546 on the purchase of 48 tires and 36 tire tubes for district trucks, buses and autos.

Bill Fox Chevrolet of Rochester was the lowest of three bidders at \$1,965 for the replacement of one district car.

Price of Gold Jumps

LONDON — The price of gold jumped 50 cents an ounce on the London free market today, the largest single increase in a fairly steady rise in the gold price here over the last week.

The price was fixed this morning at \$40.75 an ounce, up 50 cents from the fixing yesterday afternoon. In later trading gold was quoted as between \$40.70 and \$40.95 an ounce.

On Sidewalk Issue

Is Avon Twp. Out of Step?

BY L. GARY THORNE, Assistant City Editor - Suburban

AVON TOWNSHIP — Sidewalks with railings? This idea isn't too far fetched if some of the hilly terrain of this scenic township is considered, according to township Supervisor Cyril E. Miller.

Miller is not one to be facetious, and sidewalks have lately come to be a serious subject. Parents with children in the Rochester School District have complained to school officials that because of the lack of sidewalks their children have a dangerous trip to and from school.

The parents, of course, weren't asking the school board to go out and construct miles and miles of new sidewalk. They were, however, asking some relief from the district's busing policy.

(The district's general policy is to not transport secondary students living closer than a mile-and-a-half and elementary pupils closer than a mile. There are exceptions where crossing hazardous roads are involved.)

REJECTION

While somewhat in sympathy, the school board has nevertheless had to say no. School officials cite the State Department of Education's rule on reimbursing for busing students as their defense.

Meantime, it is remembered that the township has an old ordinance that requires subdivision developers to put in sidewalks at least on all the so-called mile roads.

'FLEXIBLE' ENFORCEMENT

Asked about the ordinance, Supervisor Miller readily admitted it was around, but said it had been flexibly enforced.

He pointed to nearly impossible construction problems as reason for the township's flexibility.

For example, he said, in some areas, entire swamps might have to be filled in to construct the would-be sidewalk at the proper elevation. Fill of up to nine feet might be necessary in some areas.

"The answer is more money from the state," said Miller, meaning a change in the reimbursement policy to local school districts for bus transportation.

WITHIN SUBDIVISIONS

So far as the Rochester School District is concerned, there isn't much sidewalk available outside of the city. Where there is such paving it usually is within subdivisions and that isn't really the major problem.

Parents are concerned about dangerous walking conditions along the heavily traveled roadways where at the most there is a wide shoulder or a path beaten down. It would appear there isn't much hope of solution for the problem unless more than just Rochester school officials approach Lansing for help.

35-Year Member Class Women

Cemetery Board Is No Dead Issue

By L. GARY THORNE
Asst. City Editor-Suburban

Pontiac's cemetery board isn't a dead issue, as Lloyd W. Burnes of 55 Mark let city officials know last night.

Burnes, a 35-year member of the board, appeared at the City Commission meeting to verbally blast City Hall generally and City Manager Joseph A. Warren specifically.

His appearance sparked an otherwise brief agenda.

Burnes was unhappy over:

- The manner in which he was contacted as to whether he wished to continue to serve on the board (the resigned last week).
- The appointment of five city officials to a reorganized cemetery board, replacing the former citizens' board (Burnes was the only remaining member of the old board).
- Published statements attributed to Warren that the board hadn't kept minutes of its meetings and met only sporadically.
- Information that Warren was allegedly going to do away with the cemetery board to gain control of the board's endowment fund valued at \$350,000.

ANOTHER LOOK URGED

The former board member concluded with a request that the commission take another look at the situation and urged citizen control, as opposed to that of city officials, be maintained of the board.

After nearly an hour's discussion, Burnes' request was granted with the issue scheduled for priority attention at the next informal commission meeting.

Meantime, Warren replied to some of Burnes' allegations. He did apologize for not contacting Burnes personally to see if he wished to continue on the board.

The city manager explained that his original recommendation had been for Burnes to serve along with four city officials. This was to have been his recommendation, Warren said, until his resignation was received.

MINUTES ON FILE

Warren denied making any allusion to the lack of board minutes, which Burnes said were on file in the cemetery office. The city manager did point out that no appointments to the board had been made for one reason or another since 1963.

He said the board had suffered lack of attention from City Hall.

Replying to Burnes' charge that Warren had transferred endowment fund investment income to the city's general fund in 1966 and 1967, the city manager contended cemetery operations ran at a deficit and

stitution, according to Warren, although existing boards can continue.

SAYS IT'S REASONABLE

Warren claimed it was reasonable in view of these circumstances, and the lack of activity by the cemetery board, to appoint city officials to a reorganized board.

Mayor William H. Taylor Jr. said that the cemetery superintendent had approached him because of the need for a new board to authorize the issuing of deeds.

"I think there has been fault all around," added Taylor.

Burnes, who said he would not serve on a reorganized board made up mostly of city officials, did agree to participate in a meeting scheduled today of the reorganized board.

OTHER BUSINESS

In other business last night, the commission approved the introduction of an ordinance that would exempt Pontiac from provisions of a state law that would let federally-aided housing projects to be tax free.

Expected to receive final passage later this month, the ordinance would require that such projects pay taxes. City officials estimated three such housing projects in Pontiac would have been affected.

The commission approved a contract with the F. J. Siller & Co. for construction of a \$24,360 "sludge line" under the Clinton River, connecting the city's two

sewage treatment plants — one at East Boulevard and Featherstone and the other at Auburn and Opdyke. The contract is to be checked by the city's legal department.

A report was received on the state's new tenants' rights legislation, which recently went into effect. Although a court test may sometime decide the issue, the city's legal department reported its opinion that the new law does not apply to Pontiac.

POPULATION QUESTION

The report to the commission explained that the title of the law specifies cities of one million population and over, while the body of the law does not indicate such a restriction. The tenants' rights legislation applies to public housing projects only.

One feature of the law is that such projects must have a tenants' rights council to permit the airing of grievances by tenants.

Warren said last night that Pontiac has such a council already organized at its 400-unit Lakeside Homes public housing project.

"Even though it may not apply," added Warren, "we've essentially met the terms (of the law)."

MCOM IS HAILED

A resolution was approved by the commission, congratulating the board of trustees of the projected Michigan College of Osteopathic Medicine, to be located in Pontiac. The medical school recently broke ground for its first classroom buildings.

In still other business, the commission formally authorized the city attorney to retain a Philadelphia law firm to join in a price-fixing suit in U.S. Federal District Court there.

The firm of Dilworth, Paxson, Kalish, Kohn & Levy will receive 25 per cent of any refund or settlement awarded Pontiac and other municipalities joining in the suit.

CHRISTMAS PRESENT

Know someone who enjoys lounging in front of a fireplace with a brandy, a favorite pipe and a favorite companion?

Well then, give him a favorite sweater to make a perfect setting just a bit more perfect. 305 Women Win Election in States

Assistant Republican National Chairman Mary Brooks has announced that 149 Republican women won their races for seats in State Legislatures on Nov. 5. A record 305 Republican women candidates for State House seats captured 19 Senate seats and 130 lower house seats for the Republican Party.

New Hampshire's 45 winners give the state a clear field as leader in the number of seats won by Republican women. Connecticut and Vermont each elected 13 Republican women and Maine, Indiana and Arizona are next with six GOP women winning State House races.

Other State totals give four winning Republican women each to State Houses in Colorado, Delaware, Iowa, Washington and Rhode Island.

Three GOP women won seats in Hawaii, Idaho, Pennsylvania, North Dakota and Ohio; two won seats in Alaska, Florida, Massachusetts, Missouri, New York, Oregon, Wisconsin and Wyoming; one seat in State Houses in Oklahoma, South Carolina, South Dakota and West Virginia.

SECRETARY OF STATE

Winning reelection as Secretary of State are Mrs. Ellwll Shanahan, Kansas, and Miss Alma Larson, South Dakota. Wyoming's Republican Secretary of State, Mrs. Thyra Thomson, was not up for reelection.

Mrs. Bernice Asbridge, North Dakota, won the Treasurer's race in that state, raising the number of Republican women holding the office of State Treasurer to five.

Not up for re-election were Treasurer's posts held by Mrs. Ivy Baker Priest, California; Mrs. Virginia Blue, Colorado; Mrs. Dena Smith, Wisconsin; and Mrs. Minnie Mitchell, Wyoming.

Republican women elected to the office of State Auditor were Mrs. Trudy Slaby Elbertson, Indiana, and Miss Alice Kundert, South Dakota. Winning reelection as Superintendent of Public Instruction for Arizona was Mrs. Sarah Folsom.

LOOKS TO FUTURE

Mrs. Brooks, who won reelection to the Idaho State Senate in her third successful contest for that seat, predicted that increased participation by women in politics will be reflected in future elections.

"Women believe that politics shapes their lives and they are going to increase their activity in that area and assist in the conduct of those politics. Their motivation is as simple as that. They are running for political office on every level, in growing numbers and are giving their time and talent to the Party and the Country. We are very proud of our American women," Mrs. Brooks said.

Concert Set in Detroit

A program of twentieth century music by Ralph Vaughan Williams, Marius Constant and Gustav Mahler will be presented by the Detroit Symphony Orchestra conducted by Jean Martinon at Ford Auditorium Thursday and Saturday.

Martinon is former music director of the Chicago Symphony. Previously he had been conductor of the Israel Philharmonic and associate conductor of the London Philharmonic orchestra. He is a native of Lyon, France.

He made his debut in this country in 1957 as guest conductor of the Boston Symphony.

Tickets are also available at Auditorium Box office and at all Hudson's and Grinnell's stores. Concert time is 8:30 p.m.

Tickets are also available at the box office for an open rehearsal of the program to be held in the Auditorium Wednesday at 2 p.m.

Proceeds go to the orchestra members' supplemental pension fund.

Cousino Pins 77-71 Setback on Dondero

Royal Oak Kimball had too much firepower for Birmingham Groves but field goals weren't enough for Royal Oak Dondero Tuesday night in nonleague cage contests.

Kimball handed Groves its second straight loss with a 31-18 field goal edge in a 75-50 victory. Dondero outshot Warren Cousino, 29-25, from the field but fell, 77-71, in its opener.

Jay Brown's 18 rebounds and 16 points sparked ROK to its opening conquest. Fred Shelnutt produced 13 markers with some good outside shooting for the winners who outscored Groves in every quarter.

Dondero had the upper hand until Bob Preston's 10 points sent Cousino on a third-quarter scoring spree. Cousino augmented its 52 per cent field goal shooting with 27 successful free throws as four Dondero starters fouled out.

Bob Wing and Chuck Halsig led ROD with 19 and 18 points, respectively. Paul Hicks of Cousino took game laurels with 21 and teammate Bob Perston added 20.

Lafayette Paces Spartans

Broncos Broken by Titan Standout

(Continued from Page E-1) Sophomore Rudy Benjamin is a name Spartan fans will be hearing more of in the future. He came in early in the first half and played the rest of the way, setting up scores with his sharp passing and dropping in 13 points himself.

Leading the way for the Bulldogs was Jerry Flake, closest thing yet to the invisible man on the basketball court, who hit 31 points.

Flake is 6-foot-7 but weighs

only 150 pounds. He was backed by 21 points from Marvin Winkler.

Michigan State outrebounded Southwestern Louisiana by a four clubs then switch to Ann Arbor with Michigan State meeting Toledo before Michigan goes against Western Michigan.

The Spartans are idle until Friday and Saturday night when they participate in a doubleheader with Michigan. The first two games are at

Northville Victimized

South Lyon Routs Foe

South Lyon ended several seasons of frustration with a convincing 81-64 rout of Northville Tuesday night in the nonleague opener for both quintets.

The Lions never came closer than five points to Northville in dropping their last three openers, and also were decisively beaten by the Mustangs in the 1962 Class B state district tournament.

However, the winners dominated the backboards against the smaller visiting Northville quintet this time.

The losers also couldn't defense muscular Lion backcourt ace Dave Brandon, a 6-2 190-pounder who hit 35 points to start off his junior campaign. He confounded the Mustangs with driving layups and outside jump shots.

Brandon gunned in 16 markers in the second quarter as South Lyon expanded its 19-15 lead into a 45-32 cushion. Husky 6-3 Ed Canfield, a rebounding leader for the Lions, added six points to Brandon's efforts as the two teamed for 22 of the 36 tallies in the session.

Northville retaliated late in the third quarter, and cut the gap to 63-57 with the opening basket in the final period. Ron Hubbard paced the Mustangs with 19 points.

Glen Wiseman and Canfield had 12 and 14, respectively, for the victors, while Stan Nider and Jeff Taylor each hit 11 for Northville whose Wayne-Oakland League battles will begin at Clarensville Friday night.

Country Day Triumphs
Jack Zwemer poured in 35 points last night in leading Detroit Country Day to a 63-59 victory over Dearborn Annapolis. Mitch Hansen added 11 to assist Zwemer. John Miller paced the losers with 27.

Warren Lincoln Topples Clawson

Randy Barber scored 23 points as Warren Lincoln handed Clawson (0-1) a 71-58 defeat Tuesday night. Randy Stone led the losing Trojans with 12 points.

Berkley also lost its lifeline, dropping an 82-67 verdict at Dearborn Fordson. Both were nonleague encounters.
