

Clue May Unmask Slayer of Jeannie, Barbara

Ready for 'Sentimental Journey'

ON LAST LAP OF REUNION—This weary, but happy group of people, families of four freed American jet pilots who were held captive by the Chinese Reds, are shown at Travis Air Force Base, Calif., this morning as they prepared to fly to Hawaii for a joyous reunion with the fliers. From bottom L-R: Mrs. W. G. Parks, Omaha, and son Dick; Mrs. Edwin Heller and Mr. W. G. Parks; Mr. and Mrs. Harold G. Fischer, Sweta City, Iowa, and Mr. and Mrs. Rolland G. Cameron and their son, Robert, at upper left. The fliers are Lt. Roland W. Parks, Lt. Lyle W. Cameron, Capt. Harold E. Fischer, and Col. Edwin Heller.

Ford Reported Offering Plan Similar to GAW

'Job Security' Scheme Said to Be Mixture of Company, Union Ideas

DETROIT (AP)—The Detroit News said today the Ford Motor Co. has offered the strike-threatening CIO United Auto Workers a "job security" plan accepting the principle of the union's guaranteed annual wage demand.

The newspaper said it had learned this from "a high union official."

The News said the Ford offer

(See picture on Page 2)

entails a \$5-million-dollar fund "unprecedented in industry."

"It appears to represent some of the thinking of both Ford's previous 'partnership in prosperity' offer and the union's guaranteed annual wage plan," the News said.

"It accepts the principle of providing for a Ford employee while he is out of work—the principal on which UAW president Walter Reuther insists."

Ford made the union a new offer Tuesday. Reuther said the new offer, requiring more union consideration, caused the union to postpone a threatened strike from Wednesday midnight to next Monday.

Without describing the new offer, Reuther has said that it still left Ford and the union "far apart" on reaching a contract agreement.

It was felt, however, that the UAW never would have granted the four-day contract extension unless it had high hopes that a contract agreement could be reached before the new Monday deadline.

Carl Stellato, president of Ford's biggest local at the huge Rouge plant here, told a workers' mass meeting yesterday afternoon that Ford had bettered this offer, but he declined to reveal details. He said a half dozen union economists were trying to evaluate the new Ford proposal.

On one point, amid loud cheering from the estimated 15,000 to 20,000 Rouge plant auto workers, Stellato said the UAW was adamantly against any renewal of a five-year contract.

Nab Witch Doctor Using Candles in Los Angeles

LOS ANGELES (AP)—Police are holding a man they say claims to be a witch doctor.

Bunco squad officers said Florino Morales, 54, has been treating "all Los Angeles residents with an assortment of equipment including black candles, effigy dolls, black silk scarves and plaited hair switches."

He was arrested after an ailing housewife said he agreed to cure a pain in her chest for \$300 with a treatment including a candle-light ritual dance. Morales was jailed yesterday on a warrant charging him with practicing medicine without a license.

The woman, Mrs. Gertrude Banales, 42, is in General Hospital. Her ailment has not yet been diagnosed.

Pine Grove Yields Murder Victim

WHERE BODY OF SLAIN GIRL WAS FOUND—The body of eight-year-old Jeannie Singleton was found late yesterday in this growth of pines in a recreation area northwest of Doster, Mich. The body was found 85 feet from an old roadway by a group of children. This area was 10 miles away from any earlier search.

Authorities Link Sex Murders of 2 Little Girls

8-Year-Old Kalamazoo Child Found Beaten and Choked to Death

By OUR WIRE SERVICES

KALAMAZOO—Law enforcement agents met behind closed doors in Kalamazoo today and were told of a hot clue which may lead not only to the killer of 8-year-old Jeannie Singleton, but also to the slayer of 7-year-old Barbara Gaca of Detroit.

The secret tip was discussed at a meeting of State Police, sheriff's officers and Kalamazoo and Detroit police.

There is a striking similarity between the slayings. Both youngsters vanished between home and school and were found in remote areas. Jeannie in a pine forest near Doster yesterday, and Barbara in a trash dump west of Pontiac two months ago.

An autopsy showed today that little Jeannie had been raped, beaten and apparently choked to death by a sex deviate.

Jeannie, left lame by an attack of rheumatic fever four years ago, was last seen 10 days ago resting on a curb a half block from her home here. She was returning from school. Relatives said Jeannie had a sunny disposition and "a smile for everybody."

She was the third little girl to die at the hands of a brutal killer in Michigan in the past four months.

"The killer is going to strike again, that's what we're worried about," said Glenn Hammel, Kalamazoo police chief deputy.

Five farm children, playing in an isolated area near the village of Doster, 15 miles north of Kalamazoo, stumbled onto Jeannie's body.

The body bore bruises about the hips and arms. The dress was pulled above the waist. Jeannie still had on shoes and stockings. A band still held her pony hairdo in place.

Physicians who performed an autopsy said Jeannie probably was killed the same day she was abducted—May 23.

Authorities placed all scraps of cloth they could find at the scene in plastic bags and took them to laboratories at East Lansing. Pine needles also were collected at the scene in the hopes they might give some tiny clue to the killer.

Mrs. Steve Singleton, the girl's mother, collapsed at the news of her death and was placed under a doctor's care. The Singleton family of eight lives in a modest home. Both parents work.

"The father grimly said, 'I think that Michigan must have a death penalty.'"

Recent attempts in the State Legislature to restore capital punishment have failed.

The killer of another small girl in Michigan was sexually maladjusted.

Nine-year-old Kathleen McLaughlin was stabbed and beaten to death Feb. 17 in Farmington Township. A 16-year-old youth, Floyd Diamond, confessed the crime and is awaiting sentence for murder.

Veto Seen on Repeal of Chain Store Tax

LANSING (INS)—Repeal of Michigan's 22-year tax on chain stores faces a certain veto.

And in the process, many Republicans and Democrats alike are trying to get off the hook.

Governor Williams has lashed out at Republicans for wiping out the 450 thousand dollar a year tax while—as he put it—ignoring state needs in mental hospitals, prisons, parks and schools.

Democratic State Chairman Neil Staebler made it his business to personally chastise the 15 Democrats who joined in repeal of the tax.

Salk Advisers to Meet

LANSING (AP)—The state advisory committee on distribution of the Salk polio vaccine has scheduled a June 17 meeting to discuss allocation of two million dollars worth of vaccine to be purchased by the state.

Auto Accidents Take Two Lives

70-Year-Old Patient at Rest Home Struck by Car

Auto mishaps in Avon and Bloomfield Townships took the lives of two men last night and early today.

Emmett Pratt, 70, died at 8:50 p.m. last night in Pontiac General Hospital of injuries suffered when he was struck by a car as he crossed Auburn road.

John Lamb, 31, of Wayne, injured when his car rammed the rear of a semi-truck on Telegraph road, died at 7:30 a.m. at the hospital, four hours after the crash.

Sheriff's deputies Wilson Gardner and Gordon Misner said Pratt, a patient at a rest home at 1220 Auburn, was crossing the highway after checking the mail box.

STRUCK BY CAR

He was struck by a car driven by Julia A. Beddow, 62, of Utica, who stated that the victim seemed to jump into the path of her auto after she had slowed to about 15 miles an hour to allow him to pass.

Lamb, headed north on Telegraph, apparently fell asleep at the wheel, according to Bloomfield Township Police Chief Clark Green.

The truck driver, Clarence J. Levasseur, 42, of Bay City, was scheduled to make a statement at the Oakland County Prosecutor's office today.

CIO Music Woos Ford

DETROIT (AP)—The CIO United Auto Workers struck a lyrical note yesterday in the Ford contract dispute.

The union started one of its radio programs with the song "You Gotta Dance With Me, Henry" and ended up with "Something's Gotta Give, Something's Gotta Give."

Expect Senate to Approve \$3.5 Billion in Foreign Aid

WASHINGTON (AP)—The Senate was called into session two hours early today to start voting on President Eisenhower's \$3.5 billion dollar foreign aid program.

Prospects appeared bright for passage by nightfall, sending the bill to the House.

A half dozen or more amendments, most of them seeking sizable reductions in the big authorization measure, seemingly faced an uphill battle.

The Senate had already agreed to limit discussion to a maximum of two hours on each.

Sen. Ellender (D-La.) sought to reduce the over-all total upwards of 800 million dollars and require that in any military aid programs for free Asian nations some funds be provided by Britain, Australia and New Zealand.

Sen. Long (D-La.) has offered a companion reduction to cut up to one billion dollars from the total, leaving untouched only the proposed fund of 172 million dollars for technical assistance.

Other pending amendments would compel a greater portion of economic aid to be disbursed as loans rather than outright grants.

Senator George (D-Ga.), chairman of the Foreign Relations Committee which did not make a single money reduction in approving the global aid measure, predicted defeat of a non-money amendment by Sen. Knowland of California, the minority leader.

It would give John B. Hollister, who will become foreign economic director July 1, power to fire up-grade employees in the Foreign Operations Administration without regard to civil service regulations. FOA expires July 1 when the economic aid program goes into the State Department.

Yanks Await Families in Honolulu

Freed Airmen Claim They Resisted 'Brainwashing'

HONOLULU (AP)—Four American fliers, chipper and ready to meet their families today after more than two years in Communist Chinese prisons, say they resisted "brainwashing" by pleading guilty to violating Chinese air space.

In their first press conference since release Tuesday near Hong Kong, the airmen said they spent long periods in solitary confinement, did not get letters from home until after the Geneva conference last summer, and thought U.N. Secretary General Dag Hammarskjöld was helpful in obtaining their freedom.

DODGES QUESTIONS

Asked if a confession was re-

quired at their trial, Capt. Harold E. Fischer of Sweta City, Iowa, said:

"No, not at the trial."

"Was there a confession before the trial?"

"I believe I'll wait until I see my lawyer before answering that question," he replied. Another airman said Fischer's reply would stand for all of them.

The four said they resisted attempts to brainwash them.

Lt. Col. Edwin Heller of Wynne-

wood, Pa., said, "We knew we were going to be tried four hours before the trial. We knew nothing about it otherwise."

"Our indictment was intruding

into China for the harassment of the people and provocative attack. They had all the evidence—the aircraft. We pleaded guilty," he said, but declined to say whether their planes had come down in Chinese territory.

"Let's let that question ride for a while," he said.

TALK FREELY

Otherwise the men talked freely. All four were captured during the Korean War. The other two are Lt. Lyle Cameron of Lincoln, Neb., and Lt. Ronald W. Parks of Omaha.

The men said they "played along" with Red attempts to

brainwash them but insisted they remained unaffected.

Fischer said:

"In my own case I don't feel I have changed any since I was shot down."

Heller said, "I think they (the Communists) were convinced we accepted the fundamentals. After

all we tried to please them so we could receive better treatment."

ELEVEN MISSING

Maj. Gen. Sory Smith, Pacific Air Force commander, struck a sober note. He told a small army of press, radio and television men: "We have four men here. There should be 15. Please keep that in mind."

Smith referred to 11 other American fliers still held captive by the Communists. The implication was that anything the four might say might be used against the 11.

The warning was clear. It may have been why the men talked little of their worst experiences

and much of the lighter side.

The men themselves indicated there were still "40 or 44 American nationals still in China," possibly including some Navy personnel. They said they had heard of a Navy plane shot down.

63 BELIEVED HELD

In Washington, the State Department said it believes the Chinese Reds hold 63 Americans.

In the meantime a big blue and white plane roared westward over the Pacific today with a cargo of human happiness.

On board were the families of four pilots.

The Air Force constellation was due in Honolulu at 1 p.m. today, Pontiac time.

FORD WORKERS HOLD MEETING—An estimated 30,000 of the 48,000 employees at Ford's giant Rouge plant listened yesterday as President Carl Stenroos of Ford Local 600, UAW-CIO, told them their contract had been extended until Monday, and promised a strike at noon that day unless an agreement had been reached. Scene of the meeting was near the historic overpass over Miller road, where company police and workers clashed in a bloody 1937 encounter.

UF Budget Panel Holds Meeting

Thirty-Two Members Attend Briefing Session Last Night

The largest citizens' group yet to undertake Pontiac's United Fund budgeting task met last night at the Hotel Waldron for its first briefing.

William B. Hartman, UF president, commended the 32 budget panel members present upon their willingness to serve the community and outlined the UF-Community Chest organizational setup.

SEVEN UNITS SET UP
Panel members were divided into seven individual units. Each group then met to set dates for meetings during June.

Robert M. Glenn explained that this year's budget committee, enlarged to 42, means that each panel will study the requests of only two agencies instead of as many as two per evening, as in the past.

At the conclusion of the June briefing the Budget Steering Committee will consolidate findings into a total budget recommendation to help determine the 1935 campaign goal.

Budget panel chairmen are: Glenn; Edward P. Barrett, Theodore E. Wiersma, Donald G. Berryman, Robert S. Nelson, Henry D. Price and Howard H. Fitzgerald II.

Panel members include: Dr. Douglas M. Campbell, David E. Peterson, Frank E. Marsh, Mrs. Soelke, Dr. Stanley W. Kayser, Dr. Harry Arnoff, Leslie H. Dean, Dr. Lavinia, Mrs. Donald North, Donald A. Tewa, Donald E. Adams, Dr. Donald E. Peterson, John E. DeWitt, Mrs. Irving Dine, Andrew J. Wilson.

Stephen Gibson, Ben Jerome Jr., Jack Lorry, Dr. Harry L. Riggs, Mrs. Raymond Simpson, Robert W. Emerick, Bernard Ottard, Mrs. P. Grant, Edward E. Kayser, Mrs. Stuart Whitfield, William P. Babcock, Milton F. Conner, Max F. Kern, Mrs. Adolph Magnus, John G. Waddell, Louis H. Cole, Harold W. Dudley, Harold S. Goldberg, Hazel A. Trumble, Dr. Kenneth Vandenberg.

Keego Man Is Believed Held by Chinese Reds
Among 63 names released today by the State Department of American servicemen believed held by the Chinese Reds is that of Coast Guard AMM Tracy W. Miller, 28, son of Mrs. Florence Miller, of 2375 Willow Beach Rd., Keego Harbor.

Miller was among 11, 12 men reported missing when two planes were lost off China Jan. 18, 1933.

The State Department has requested information about the missing man from the Chinese Communists.

First Governor Disinterred for Bus Platform Project

DETROIT (U)—The casket of Stevens Thomson Mason, who became Michigan's first governor at the age of 24 in 1835, rested today in the Wayne County Morgue. It will be re-interred in tiny, downtown Capitol Park, from whence it was removed yesterday

Pontiac Deaths

John Antonio Ablin

John Antonio Ablin, 55, of 221 Willard St. died yesterday at St. Joseph Mercy Hospital after several months' illness.

He was born March 28, 1900 in Batac, Philippine Islands, the son of Juan and Dolores Barabosa Ablin. He was married in Pontiac 26 years ago to Thelma Walters.

Coming here in 1922 from Batac, Mr. Ablin had been employed at the General Motors Truck & Coach Div. He had served in the Navy during World War I and was a member of the VFW.

Besides his wife he is survived by seven children, Mrs. Nedra Busch of Wausau, Wis., Mrs. Alvina Hann of Toledo, Ohio, Mrs. Margaret Caducio of Birmingham, Mrs. Arline Welsh, Mrs. Evelyn Reynolds, John Ablin Jr., and Richard Ablin, all of Pontiac.

Also surviving are a brother, Bonifacio Ablin of the Philippines and 12 grandchildren.

Service will be held Saturday at 2 p.m. from the Melvin A. Schmitt Funeral Home with the Rev. William E. Hakes of the First Baptist Church officiating. Burial will be in Oak Hill Cemetery.

Mr. and Mrs. John Formaz

Service for John Formaz and his wife, Pearl, who were killed last Thursday in an automobile crash near El Cajon, Calif., will be held Saturday at 10 a.m. in the Hutton Funeral Home. Burial will be in Oak Hill Cemetery.

Surviving besides the three children, Mona, Maurice and Dick, is Mrs. Formaz' mother, Mrs. George Lee. The family made their home at 30 James St.

Mrs. Samuel D. Heller

Mrs. Samuel D. Heller (Olive A.) 79, died at her home at 7189 Lake Lane at 2:30 a.m. today.

Born Jan. 23, 1876 in Milford Township, Ohio, she was the daughter of Henry and Beulah Conkle Cover. Mrs. Heller attended Hicksville, Ohio schools, and was married to Samuel Heller there in 1896.

Coming from Detroit in 1917, she has been a Pontiac resident since and was a member of the First Church of Christ Scientist.

Surviving are two sons, Gerald J. and Derwin D., both of Pontiac. Service will be held in the Hutton Funeral Home Saturday at 2:30 p.m. with Richard Gruen of the First Church of Christ officiating. Burial will be in Hicksville.

Water-Study Board Will Meet Friday

The water-study committee of the Oakland County Board of Supervisors will hold an organizational meeting at noon tomorrow at Adrian Cotter's in Berkley, according to Royal Oak Mayor Howard K. Kelley, committee chairman.

"We hope to crystallize the thinking of our group and clear the way for a joint meeting with similar committees formed by St. Clair and Macomb Counties," said Kelley.

The three counties plan to work together in forming a plan to solve their long-range water problems. They are expected to be chiefly concerned with checking possibilities of bringing a surface supply from the Great Lakes.

Kelley said Oakland has had \$75,000 set aside since 1933 for water survey purposes.

to permit construction of new bus loading platforms.

Inside the crumbling mahogany casket was a skeleton, some bits of cloth and a silver plate, which read: "Stevens T. Mason, died Jan. 5, 1863, aged 31."

On the outside was another silver plate. It read: "Stevens Thomson Mason, first governor of Michigan, removed from New York City to Detroit, Mich., June 4, 1903."

Mason's biographer, Kent Sengendorph of Jackson, was on hand for the removal and said he believed Mason would have authorized it.

"He believed in progress, and his thoughts were generally of the future and what it might bring," Sengendorph said.

Mason, born Oct. 20, 1811, in the luxury of a Virginia manor, was catapulted into national attention when President Andrew Jackson made him secretary and acting governor of the Michigan territory in 1831, three months before Mason was 20.

He was charged in the death of George R. Horsley, 52, of 100 Marquette St., Horsley died shortly after his auto and Bratton's collided on Elizabeth Lake road a mile west of Pontiac last Nov. 8.

Bratton's driver's license was suspended for the period of his probation and he was assessed \$200 court costs, according to Assistant Oakland County Prosecutor Homer G. Gerue.

The youth was charged in the death of George R. Horsley, 52, of 100 Marquette St., Horsley died shortly after his auto and Bratton's collided on Elizabeth Lake road a mile west of Pontiac last Nov. 8.

Under state law, Hurlinger said, any contract signed with a contractor not licensed by the state is null and void. He urged persons who have signed contracts with the firm or those who contemplate signing contracts to contact him at the Chamber of Commerce office.

He warned that home owners permitting work to be done without city or township permits are "risking possible penalties under local law."

More than 500 teachers trained at Clarke School for the Deaf, Northampton, Mass., serve the hard-of-hearing throughout the United States and in 20 foreign countries, says the National Geographic Society.

Pontiac City Manager Walter K. Willman set an approximate \$50,000 figure as the city's annual increase, but said "we'll know more accurately in a few days."

The sums will represent Pontiac's and Oakland's share of the one quarter of the new tax money allocated to cities and counties.

Three quarters of the collections will be spent on arterial highways by the State Highway Department and it is expected part of this will benefit Oakland's main highways.

"We don't expect to get more than \$120,000 from the new tax this year," said Road Commission Chairman Lee O. Brooks. "It will probably come too late to allow much expansion of this season's improvement program on county roads."

Legislature Okays Jobless Pay Boost

LANSING (UP)—The State Legislature approved weekly increases in unemployment compensation benefits yesterday and sent the measure to Gov. G. Mennen Williams for his approval.

The plan raises the jobless pay maximums for all workers with dependents but provides no increase for single workers.

The maximum for a worker with a family of six would be raised from \$42 to \$54 a week—highest ceiling in the nation.

Other maximums would be increased according to the number of dependents.

The limit for single workers would remain at \$30.

Williams and Democrats had sought greater increases.

Republicans said the new legislation provides the "best unemployment compensation benefits in the nation."

Home-Owners Warned Against Unlicensed Firm
Area home-owners today were warned that a Des Moines, Iowa, home improvement company is operating in Michigan illegally.

John W. Hurlinger, secretary of the Business Ethics Board of the Pontiac Chamber of Commerce, said the United Builders Supply Co. already has been halted on several re-issuing jobs because it obtained no city building permits.

"This company has apparently signed a large number of contracts in the Pontiac area for re-siding homes," Hurlinger said. "It has no license to contract for any such work in Michigan."

Under state law, Hurlinger said, any contract signed with a contractor not licensed by the state is null and void. He urged persons who have signed contracts with the firm or those who contemplate signing contracts to contact him at the Chamber of Commerce office.

He warned that home owners permitting work to be done without city or township permits are "risking possible penalties under local law."

More than 500 teachers trained at Clarke School for the Deaf, Northampton, Mass., serve the hard-of-hearing throughout the United States and in 20 foreign countries, says the National Geographic Society.

The Day in Birmingham

10 Schools Name Dates to Enroll Kindergartners

BIRMINGHAM — Registration dates have been set for parents who wish to enroll their children for kindergarten classes in the Birmingham School District.

Children to be eligible for the September classes must be five years of age on or before Dec. 1, 1935, school officials said. And parents must produce the child's birth certificate when registering.

Registration will be held at Adams School tomorrow, Mrs. B. R. Kelley, PTA health chairman at the school, said talks on health and addresses by various kindergarten teachers will highlight the program at Adams.

Parents of children who will be eligible for kindergarten next fall in the Vaughn, Wing Lake or Pine schools are scheduled to meet at 1 p.m. Monday at Vaughn School. After the meeting, parents who have their children's birth certificates will be able to enroll them for fall classes.

Other roundups and dates: Franklin, June 6; Pembroke, June 7; Walnut Lake and Bloomfield Villages, June 8; Baldwin, June 9, and June 10 at Beverly.

The Bloomfield Hills blood bank will be at St. Hugo of the Hills School from 2 to 3 p.m. Friday. Mrs. M. Gill is handling arrangements along with Mrs. Leon Guentrich, Mrs. Richard Wilson, Mrs. Paul Riemenschneider, Jr. and Mrs. James Quinn.

Birmingham High School Kanabans Club will hold its final outing of the season at 6 p.m. Saturday at Holiday Park. Carson Janes, chairman of the affair, said transportation and food will be provided for all members "at a nominal cost."

A fund-raising fair sponsored by the PTA will be held June 11 starting at 1:30 p.m. at Walnut Lake School. The fair, which last year provided enough funds to purchase playground equipment, will include a baked ham dinner from 5

to 7 p.m., a comedy show featuring local talent.

In addition, chairman Robert Meyers said there will be contests and prizes, movies, and cartoons for children in the afternoon.

Hot dogs and hamburgers, coffee, doughnuts and ice cream will be on sale. There will be booths for garden and plants, books and other features as well as "regular fair concessions," Meyers said.

Mrs. William Loomas was installed recently as president of the Women's Society of Christian Service at the Embury Methodist Church. Mrs. Melvin Uppliger was installed as vice president.

The WSCS will hold its final meeting of the season June 14 at 8 p.m.

Members of the Birmingham Soroptimist International last week elected Mary Dewey president for the 1935-36 year. Other officers elected include Irene Hanley and Lindo Moore, vice presidents; Margaret Willinger, recording secretary; Maxine Luscombe, corresponding secretary; and Marion Schmidt, treasurer.

Funeral service for Alton E. Coffield, 63, of 680 Chestnut St., will be held at 1 p.m. Saturday at the Christian and Missionary Alliance Church in Clawson, with burial in White Chapel Memorial Cemetery. The body will lie in state at the

Sylvan Accepts Bid for Water System

The Sylvan Lake City Council last night accepted the bid of First of Michigan Mortgage Co. to purchase \$225,000 worth of bonds to finance a municipal water system.

The council subsequently awarded a \$187,000 contract for construction of mains and fire hydrants to Elwyn E. Tripp, of Pontiac. Later, contracts will be awarded for pumps, pump houses and other equipment, said Ernest L. Ethier, city manager.

The First of Michigan bid was at an interest rate of 2.96 per cent, Ethier said. Plans call for completion of Tripp's work by Sept. 1.

To Bear County Names

LANSING (U)—The names of 10 Michigan counties will be used to designate U. S. Navy LSTs, effective July 1. They are Cheboygan, Wexford, Monroe, St. Clair, Benzie, Washtenaw, Branch, Hillsdale, Iron and Kent. Previously the Navy designated landing ship tanks only by number.

The Grocery Bag

Nation's Stores Feature Beef as Weekend Special

BY THE ASSOCIATED PRESS

Beef will be the most popular feature in the nation's food stores this weekend.

Most often mentioned as a weekend feature was chuck roast, with some markets shaving prices around six cents a pound from a week ago. Round roast and various kinds of steaks will be specials in a number of areas.

Beef is higher at wholesale, but one large chain is holding its retail prices at week-ago levels on such popular cuts as sirloin steaks and prime ribs. However, these prices may go up next week.

Legs of lamb will be on the weekend good buy list in some stores, but elsewhere prices will be unchanged or a bit higher than last week. One meat buyer says lamb prices should remain about where they are while winter supplies last. When spring lamb takes over, prices are expected to rise, he adds.

FRIERS HIGHER

Frying chicken prices are generally higher. Increases of two to

carole, pascal celery, and nearby items such as spinach, radishes, and green onions.

Beets (mostly with tops), asparagus, carrots and onions also are worthwhile purchases, in the opinion of produce specialists. Heavy shipments of California long white potatoes and Florida round whites have brought lower prices. Old crop potatoes are selling for about the same as a week ago.

Austria, Soviet Meeting

MOSCOW (U.S.)—An Austrian delegation headed by V. Platzer, head of the economic department of the foreign ministry, arrived in Moscow yesterday to open trade negotiations.

18 Women Tourists Die in Bus Crash

LIMBURG, Germany (U.S.)—A bus plunged out of control down a mountainside and into a tree about 15 miles north of Limburg yesterday, killing 18 German women tourists and injuring 18 others. Police said the bus, driven by a woman and carrying 35 members of a Protestant women's church group, was going nearly 60 miles an hour.

Twenty-four per cent of all drivers involved in fatal auto accidents in the U. S. last year were under 25 years old.

GOP Starts Planning for 1956 Convention

SAN FRANCISCO (U.S.)—Leonard W. Hall, chairman of the Republican National Committee, arrived last night with 10 party leaders to start planning for the 1956 Re-

publican convention at the San Francisco Cow Palace.

"We're carrying out all our organization plans on the assumption that Mr. Eisenhower is going to be our candidate," Hall said. Ditto, he added for Vice President Nixon.

Uranium Rush Set Tomorrow

Stampede for Claims Starts at 10 A. M. in Kern River Area

BAKERSFIELD, Calif. (U)—A uranium stampede reminiscent of California's roaring gold rush days is expected to hit Kern River Canyon, 40 miles east of here, tomorrow morning.

Predicting an "explosive situation," Sheriff Leroy Galyen has ordered 75 armed deputies into the canyon today. They have orders to confiscate all firearms.

Up to 3,000 prospectors may swarm into the area to stake a similar number of 20-acre claims when the land is opened for staking at 10 a.m. The area comprises some 60,000 acres.

Already located there are two mines. One consists of the Kergon claims, held by the Great Lakes Oil and Chemical Co., and the other is the Miracle Mine of the Wyoming Gulf & Sulphur Co. Miracle has shipped more than \$4,000 worth of uranium 308. It is California's richest uranium strike.

Miracle also has been stockpiling ore pending settlement of a claims dispute which has resulted in widespread confusion among prospectors.

After uranium was found in the area, fortune hunters rushed in with the same enthusiasm which marked their search for gold a century ago. Stakes were pounded all over the rough hillside, which form the west flank of the Sierra.

And then it was discovered that the land had been withdrawn from the public domain some 30 years before, at the request of the Southern California Edison Co., to become a power reserve. Prospectors immediately sought the assistance of the Atomic Energy Commission.

They were successful, and the area reverted to public domain. For a time it was believed that the claims already staked would be validated. But the Bureau of Land Management ruled otherwise.

This meant that the stakes must be driven all over again, to remove the stigma of trespassing, and it is the reclaiming process which will start at 10 a.m. tomorrow.

Slight Drops Noted in Diseases Here

Slight drops in cases of chicken pox, measles and mumps appeared today in the Oakland County communicable disease report, released by Dr. John D. Monroe, health director for Pontiac and the county.

Reports for the week ending May 27, together with comparative figures for the previous week and a year ago follow:

OAKLAND COUNTY				
	Past Week	Prev. Year	Week Ago	Year Ago
Chicken pox	115	119	62	100
Measles	38	42	26	40
Mumps	8	10	5	10
Scarlet fever	38	23	8	10
Tuberculosis	5	2	8	10
Whooping cough	3	2	7	10
Mumps	108	140	71	100
Rheumatic fever	2	1	2	10
Impetigo	1	1	2	10

Atom Unit Dedicated at Cancer Hospital

DUARTE, Calif. (U)—The City of Hope Medical Center put radioactive cobalt to work today on behalf of mankind's cancer sufferers.

A 2½-ton cobalt teletherapy unit was dedicated yesterday at the nonsectarian center as the voice of Sen. Lister Hill (D-Ala.), chairman of the Senate Committee on Labor and Public Welfare, hailed the unit as a demonstration "for all the world to note."

Hill's voice was presented over a 3,000-mile hookup from Washington. He said the City of Hope is demonstrating "that the energy in the atom is destined to make this planet a better, healthier sphere of life than ever has been dreamed of by humankind."

Girl, 16, Raped, Left Bound, Gagged in Ditch

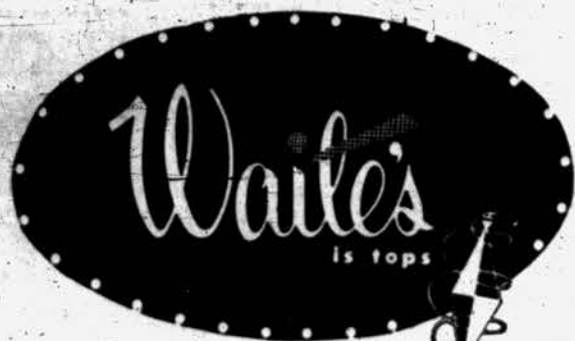

DETROIT (INS)—A 16-year-old Nankin Township girl last night was criminally assaulted by a man who gagged and bound her and then threw her in a muddy Nankin Township ditch.

The girl remained in the ditch for two hours before she was freed by passing motorists.

The victim was returning from a grocery store three blocks from her home when the man forced her into his car. She was discovered in the ditch by a woman motorist who could only see her legs.

To Honor Art Director

DETROIT (U)—In recognition of his research on French Canadian art, Edgar P. Richardson, director of the Detroit Institute of Arts, will be awarded an honorary degree by Laval University, Quebec, June 4. Richardson originated the United States' first large-scale exhibition of the "Arts of French Canada" in 1947.

Nation Shares Happiness of Released Fliers' Kin

Release of four American Air Force heroes at Hong Kong is the best news that has come out of Red China in many a day.

The joy of the men themselves and their families is shared by all Americans. This happiness was heightened by the fact that all were found to be in good health despite their two years' imprisonment. The fliers, of course, also were delighted to learn of Air Force arrangements for their relatives who were to be flown there from the Mainland.

In some official quarters in Washington it was believed the release of the quartet would be followed reasonably soon by the freeing of 11 other U. S. airmen by Communist China.

At his midweek press conference, however, President EISENHOWER set what we believe was a fine example. Telling newsmen that Peiping had implied that the release of these men was an effort to relax tension in the Far East, the President said that he had no knowledge of any other impending releases. But he rightly cautioned against any hit or miss conclusions as to Peiping's intentions.

The home front salutes Lt. Col. EDWIN HELLER, Capt. HAROLD FISCHER Jr., Lt. ROLAND W. PARKS and Lt. LYLE W. CAMERON and eagerly awaits a chance to welcome them back to freedom.

Customs Simplification Key Goal for President

After winning Congressional approval of most of his Reciprocal Trade program, President EISENHOWER now has made customs simplification a major Administration goal.

This is entirely logical. There isn't much point in offering other countries tariff concessions if we continue to subject their goods to additional and unpredictable levies at our borders. That's what has been happening all along because under protectionist pressure our customs regulations have developed into hidden tariffs.

Present laws and regulations require that a given imported article be subjected to several methods of calculating custom duties. It also is required that in all cases the method yielding the most revenue must be applied.

One of the worst features of this system is that neither the foreign exporter nor the American importer can know what customs rate to expect. Worse, neither has any idea of how soon he can find out nor whether the first estimate will be changed even after the imported article is sold.

There has been some remedial effort in Congress. The lawmakers have passed two bills to simplify customs regulations and the Customs Bureau has adopted some new methods to speed work on the piers and in the warehouses.

So far, however, nothing has been done about the valuation process. To remedy that lack the Treasury Department now is pushing a bill that deals specifically with that problem. Congress should lose no time in remedying these defects in our customs procedures.

ALTHOUGH they mean well, reformers do quite a bit of harm. For example, told by a missionary it was wrong to have two wives, a cannibal ate one of them.

Tory Win Pleases U. S.

The crisis born of Britain's rail and dock strikes has obscured the fact that the Conservative Party's smashing election victory is a great personal triumph for Sir ANTHONY EDEN.

The victory was all the sweeter for the new Prime Minister because he had waited many years to receive the reins of power from the hands of his brilliant mentor, Sir WINSTON CHURCHILL.

For 15 years the great CHURCHILL had dominated Britain's political scene. Yet after he resigned there were those who predicted that because of EDEN's popularity he would win far greater support in Commons than his predecessor had. The returns showing that Conservative strength had been more than tripled proves how right these analysts were.

From the American standpoint the election, obviously, went the right way. The EDEN government was given a strong mandate to continue policies favoring private enterprise and co-operation with the United States and the rest of the free world.

At the same time the voters handed a sharp rebuke to the Labor Party, especially critics of the United States in its Left or Bevanite wing. Communists also were slapped down. All 17 Red candidates lost their deposits because they failed to poll at least one-eighth of the total votes in their constituencies.

The good news from this election is that as before Britain and the United States will go on fighting for peace. That means peace not only for free nations but for those peoples who still are slaves of international communism.

The Man About Town

Rampant Growth

Happy Reports Coming in Numbers That Exceed Space

Happiness: One of the few things you can multiply by dividing. So many reports are being received about exceptional progress in most everything that grows that space limitations forbid their publication. The recent rains gave such a boost to all growing crops that our farmers are happy, and the home gardener quits worrying about the grocery bill.

Establishing her maternity ward in a hollow tree, eight feet above the ground, the family cat of Mrs. Paul D. Walter of 1320 Jossman Road, is rearing her brood of four kittens. A knothole serves as the nursery window.

A close observer of Pontiac and its progress was George W. Malcomson former Detroit industrialist, who died Tuesday. His wife, Constance, is the daughter of the late George S. Hodges. For many years they had a summer home at Orchard Lake.

An air mail letter comes from Gerry Jacobs, mailed in Kansas City, which states that he had just returned from the Udall, Kansas, disaster, and that it had a strong resemblance to the tornado that wrought such death and destruction in Flint two years ago.

A parakeet that kept up the repetition of a remark that sounded like "Had a good time; come again," spent Tuesday at the home of Mr. and Mrs. Arthur Finchcombe in Keego Harbor, but didn't like the hungry look of the family cat, and took off during the night.

The history of Chief Pontiac evidently is being given some special attention in Michigan schools, judging by the widespread nature of the requests that are coming for some information on him. Latest is from Sandy Hartman,

a pupil in the fourth grade in the Livonia schools.

A Tallman rose bush just outside the home of Mrs. Albert J. Stade on Auburn Ave. is spreading real glory with 300 blossoms.

More multiple graduate families are meriting honors. Now tops is that of Mr. and Mrs. Arthur Hillman of Holly. When their daughter,

Sandra Hillman receives her diploma next Tuesday she will be their eighth child to complete the course in Holly High school, with two more coming in the near future years.

Verbal Orchids to—

Ira E. Kenaga of Midland, formerly of Oakland County, ninety-second birthday. G. A. Hood of North Branch, eighty-fifth birthday.

Trail Blazers

David Lawrence Says:

Canada Is Ideal Location for Big Four Conference

LONDON — Selection of a place to hold the four power conference can have an important bearing on the success or failure of the meeting itself. For this reason, a conference held in Canada—either at Quebec or Vancouver—offers the best opportunity for continuous endeavors.

If the conference were held in Switzerland, President Eisenhower would be able to attend only for the first few days and could not be expected to return at frequent intervals, if at all.

But if the conference is held in Canada, he could participate whenever the sessions showed promise of reaching an important accord. This is on the assumption that a meeting "at the summit" is really intended to develop agreements at the top level.

It is certain that, if the President goes to Switzerland for the four power meeting, he will be invited to visit both Great Britain and France. From the American viewpoint — that is, considering the necessity of outlining the policies of the United States in world affairs — a speech delivered by Eisenhower in England and another in France could have a powerful effect on public opinion throughout Europe, where it is most needed.

Unfortunately, addresses by the President of the United States, when delivered in America, are rarely cabled in full text and, because of the faraway psychology, most newspapers print only brief extracts. The chances are that, if President Eisenhower spoke in Europe, his addresses would do more good than a whole year's output of American comments from sources of lesser importance.

A visit to Great Britain just in advance of the meeting of the four power conference would enable President Eisenhower to outline the aims and objectives of the United States in world affairs in much the same way that President Wilson did before the Versailles conference after the close of World War One.

Wilson's only mistake was that, after a few addresses, he never sought to influence world opinion again in behalf of his ideals but succumbed to the pressures of a small conference at which the atmosphere of secret bargaining and trading deprived him of the leverage he had on world opinion.

BIG WELCOME Should, President Eisenhower come to Britain, he probably will be welcomed as no American chief executive has ever been before. He would be seen and heard over television and radio, respectively, by audiences numbering in the millions.

Also this is familiar ground to Eisenhower because, as a general of the army, he launched from this country the historic invasion of the Normandy coast in 1944. His presence would bring back memories of the victory insured for Britain and the liberation achieved for France.

It might also remind the peoples behind the Iron Curtain, including those of the Soviet Union, that it was the solidarity of the wartime alliance which made possible the defeat of the common enemy.

There are in fact, so many implications of possible benefit all around if Eisenhower decides to go to the countries whose top leaders are to participate with him in the conference "at the summit" that it would appear certain President Eisenhower will accept the invitations that are bound to be extended to him.

DIPLOMACY NEEDED There is always the problem of not offending the other countries whose heads of state would also invite the President — for example, West Germany and Italy. It is also conceivable that some of the strategists in the Soviet Union might see the advantage of extending an invitation, too.

But Eisenhower would be able to accept only those requests which came from Great Britain and France because the work in

Voice of the People

West End Resident Expresses Appreciation for Fast Work on Broken Power Line

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters, but these will not be published if the writer so requests unless the letter is critical in its nature.

I believe I speak for the people of West End avenue when I express appreciation for the quick and courteous response of the Waterford Police and Fire Departments when a power line came down between 33 and 37 West End Ave.

Thanks go, too, for the cooperation of the Detroit Edison Company with efficient work that prevented any fire damage to property or person.

Answers to 'Dog Lover' Bring Author's Thanks

In regard to answers to a previous letter I want to thank "On Looker" and "H.L." for their kind words. There really are some kind people in this world. Let's all get together and see if we can't get freedom for our pals. Let's hear from you.

Dog Lover

Compares Break-in Term to Slaughter Hill Sentence

I sure agree with Mr. Jacomino

Portraits

By JAMES J. METCALFE

On every calendar, my love... There is the month of June... And almost every night this month... There is a magic moon... A magic moon for you and me... To share, if you are willing... As much as you are interested... And magic can be thrilling... As much as you will listen to... My whisper in your ear... If you will let me hold you, love... And let me call you "dear"... I wish the magic of the moon... Would wind our hearts together... And you and I would be as one... In every kind of weather... I love you and I want you... No moment is too soon... And, oh, my darling, I implore... Please let it be this June.

THOUGHTS ON TODAY

Now he established us with you in Christ, and hath anointed us, in God—1:21.

Who can know heaven except by its gifts?—and who can find out God unless the man who is himself an emanation from God?—Manilius.

Case Records of a Psychologist:

Parents Object to Daughter's Reunion With Soldier-Husband on Duty in Japan

Wives are 50 per cent to blame when their husbands stray. So Rosemary should remember the cardinal vow in the wedding ceremony, which demands that husband and wife stay together whenever possible. War separations have contributed to thousands of broken homes, as well as to broken-age delinquency.

By DR. GEORGE W. CRANE Case O-346: Rosemary J., aged 25, has a son, aged 15 months.

"Dr. Crane, my husband has been in the Army for 10 years and is making it his career," she began.

"But he has just been sent to Japan for the next two years and wants us to join him there."

"My parents, however, are afraid to have me leave them and go abroad. They say world conditions are so uncertain and it might be more dangerous for us in Japan."

"My parents aren't too happy together, so I have felt that my prolonged visit with them might do some good. But I don't wish to jeopardize my own marriage."

"They are now doing everything they can to discourage my rejoining my husband, although he writes every day begging me to come to him. So what should I do?"

FORSAKE ALL OTHERS

In the wedding ceremony the bride and groom promise to forsake all others and cleave unto one another.

That word "all" is a big one. It means you forsake your parents and your brothers and sister, kin-folk of various degrees, and stick together.

Now it isn't always necessary to forsake all one's relatives and friends if your husband's job is in your old home town.

But a man must follow his work. If his financial future and the opportunities for his specialized type of skill offers him a better chance elsewhere than in his home town, then he should move.

And his wife should stick to him as closely as Ruth stayed by her

mother-in-law, Naomi, of Biblical times.

Moreover, when a husband is deprived of his wife, especially after he has enjoyed the love and affection and comradeship of his attractive bride for a year or more, he feels doubly lonely and jittery.

Such a man craves companionship of the feminine sort, so he

in regard to the Slaughter Hill court hand-down.

To think of one person killing five people and not get a jail sentence. Yet a man in the same week was sentenced from 3 to 15 years for breaking into a food market. He didn't kill anyone and didn't even have a weapon. Maybe he had small children who needed food. And do they call that justice? Remember nine children were

Hal Boyle Says:

How Can You Be Over 40 and Miss So Very Much?

NEW YORK (U)—The world is so full of a number of things, why is it a guy can be over 40 and still never in his life have—

Met a fellow who has been struck by lightning? Eaten a pomegranate? Encountered a color blind woman?

Hit the jackpot in a slot machine, or won the daily double at a racetrack?

Learned to wear a raincoat on the days it rains, and to leave it home on days when it doesn't rain?

Found a can opener anywhere in the world that will open two cans in a row?

Had a cigarette lighter that will light one cigar in a row without running out of fuel?

Owned a fountain pen that will write above water? Located a laundry that will sew back on the buttons it rips off?

Been lucky enough to walk behind a millionaire with holes in his pocket?

Met a politician who didn't think he was more honest than the average voter?

Read the symptoms of a strange disease without feeling immediately those were the very things he'd noticed in himself lately?

Patted the head of a cat and felt it really liked him?

Spent a day at the beach without getting sunburned? Found a pearl in an oyster? Opened an envelope and had an unexpected check fall out?

Opened an envelope and had an unexpected bill fall out? (After 40

years, try as he will?)

Bought a new car that really pleased everyone in the family? "Taken a vacation from which he returned home actually feeling like a new man?"

Found a razor blade that would give him 10 good close shaves? Seen a rainbow on a day he really felt blue?

Been asked his views in a public opinion poll? Refused to buy a set of encyclopedias without having a guilt feeling afterward that he had ruined his children?

Reached the end of a month without borrowing lunch money from his wife?

Known a year in which he didn't brood over whether he wasn't missing something in existence he should be getting?

If you are over 40, and all (or most) of these questions apply to you, well—don't worry. You're normal. You've just led an ordinary life in an extraordinary world.

Some Doctors Still Warn About Calcium Overdose

BY DR. WILLIAM BRADY, M.D.

A member of the local "klinik" tells me my body does not assimilate the calcium in the tablets I have taken with great satisfaction for two years. He claims it gets into the blood stream more readily when he gives it in "shots".... (Mrs. E. B. H.)

Been told by a doctor that a person past middle age shouldn't take too much calcium, as it is likely to cause kidney stones.... (A. V. W.)

How much is "too much," I wonder? This is a simple variation on the old saw that physicians solemnly handed the customers fifteen or twenty years ago — that "too much" vitamin D might cause the arteries, liver, lights et cetera to harden, or something. They never told how much vitamin D was "too much."

I was at one time badly crippled with arthritis (writes Mrs. D. B.). Following your suggestion I began supplementing my diet with calcium and D three years ago. Now I am 73, seem to be entirely free of joint trouble, and I'm living an active, normal, happy life.

NO BOWLING TODAY But wait, Doctor, there's no bowling today. You've got to stay right where you are and hear the rest of my sad story.

(The lady is right. There's no bowling today. Believe it or not, it rained gently, steadily all last night and this morning — a \$10 million rain — so, pray continue, M'am.)

Now various acquaintances tell me that—

(1) Calcium and D is very bad

for anyone to take for any length of time.

(2) It is very bad for anyone's mind.

(3) It will cause me to lose my hair.

(4) It will cause infections.

(5) It is very bad for the kidneys.

(6) It causes hardening of the arteries.

HAIR HEALTHY

Of course, the lady continues, I'd be the last to realize it if my mind was affected, but as for my hair, I have a heavy head of hair 30 inches long, brunette, with only a few gray hairs as yet.... (Mrs. D. B.)

Characteristically, the lady doesn't know precisely what preparation of calcium and vitamin D she used to supplement her diet, whether she still uses anything for the purpose or relies on high calcium diet alone to maintain optimal health.

Another correspondent says her husband had been using calcium and D for about two years, with apparently fine results (characteristically she does not say what her husband's trouble is or was), but one day the doctor, attending another member of the family, saw the vial, asked who was using them, and advised the man to throw them away unless he wanted to get arthritis. (Mrs. S.H.)

Let me see, now. Have we covered all the imagined hazards? Well, no, there's still calcium deposits — but that's the subject of a piece to follow.

Send letters to more than one place or to wrong box, returning to personal health and system, not to doctors, clinics or treatment, will be answered by Dr. William Brady, M.D., Pontiac Press, Pontiac, Mich.

Priest Maintains Peace of Philadelphia Waterfront Local Airlines to Get Permanent Status

PHILADELPHIA (NEA) — The sprawling Port of Philadelphia is the nation's second largest. But since 1951, it has been almost free of the work stoppages and labor troubles that constantly plague other seaports.

Behind that unique record is a straight-talking Jesuit priest who works without a fee, believes in fair rewards for both labor and management, and walks the dark waterfront at night without fear.

During the summer of 1951, the Rev. Dennis J. Comey, S. J., was asked to serve as arbitrator on several labor-management questions which threatened to tie up the port and some 7,000 workers from Trenton, N. J. to Wilmington, Del., along the Delaware River. He accepted the job and resolved the problems.

Now Father Comey is the sole and final arbitrator of all labor questions in the port which sends and receives materials from throughout the world.

He has handled some 200 cases—writing reports on more than 90—and work stoppages have been practically nil since he took over as labor umpire.

The cleric's strong authority is plainly defined in a contract between the Philadelphia Marine

REV. DENNIS COMEY

Trade Association and the International Longshoremen's Association.

"Once I got in I don't think they know how to get ride of me," he says, with a twinkle of Irish humor in his voice.

Since 1943, Father Comey has been director of the Institute of Industrial Relations at St. Jo-

seph College in Philadelphia. The night school he helped organize now has a faculty and student body of several hundred drawn from labor and management fields.

"We're in labor-management relations and we teach principles of ethics which fit both sides. We're interested in human values—not just mere methods," he explains.

A native Philadelphian who was educated in this country and abroad, Father Comey speaks several foreign languages fluently, a big advantage when dealing with the longshoremen.

He is as much at home talking with the rugged pier workers as in a classroom.

His sometimes blunt manner hides a deep and consistent "desire for social betterment"—his only reward for the difficult and somewhat thankless job.

Day and night the tall, white-haired cleric is called on to umpire disputes which could halt the vital port operations.

He feels his work with both sides has taught labor and management representatives the ability to solve some of their own problems.

"As they see me sift out the facts and diagnose a situation, they learn to do the same for themselves," he says.

While he has been called a "labor priest," Father Comey says he tries to settle each case on its merits. He's not concerned about maintaining a batting average, but rather a sensible, working solution fair to both sides.

Outsiders often wonder why there is a constant threat of trouble at many of America's seaports. "The very nature of waterfront work makes it open to abuse. No ship makes money unless it is moving," Father Comey explains.

He gets no salary or fee for his labor mediation work. Each side is supposed to pay \$50 for each case he handles, the money to help operate the institute at St. Joseph's.

The Marine Trade group generally pays promptly, but the union is somewhat slower—but he never worries about the money.

Port problems are not Father Comey's sole concern. He's on the arbitration panel set up by the Upholsterers International Union and for a local steel firm, as well as handling many outside mediating assignments.

President Eisenhower named him to the fact-finding panel which studied the cause of the strike among longshoremen on the Atlantic Coast more than a year ago.

Local Airlines to Get Permanent Status

WASHINGTON (AP) — Plans by which the nation's 14 local airline service systems, operating on temporary permits, will be converted to permanent operations have been disclosed by the Civil Aeronautics Board.

The board announced the plans yesterday under a congressional directive to give the 14 lines permanent status. Included are North Central and Lake Central Airlines, which operate in Michigan.

Seventy-four places served by the airlines are terminals and are to be made permanent service points. There are 313 nonterminal points. Congress directed that half of these on each line be given permanent standing.

Tax Intake Levels Off

CHICAGO (INS) — Excise tax collectors of the 48 states who received increased revenues each year since the end of World War II, report that in 1954 collections leveled off on all but motor fuel. The Federation of Tax Administrators reports that the states had received yearly boosts from sales, tobacco and distilled spirits taxes until last year.

Anesthesia Aids Are Developed

Buffalo Scientists Find Devices That Assure Safer Surgery

BUFFALO, N. Y. (UP)—A device that breathes for a patient while he is under anesthesia and another that absorbs exhaled carbon dioxide have been developed at Roswell Park Memorial Institute.

Dr. James O. Elam, director of the Department of Anesthesiology, developed the breathing device and named it the Roswell Park Respirator.

Dr. Elwyn S. Brown, research scientist in anesthesiology, designed the carbon dioxide device

called the Roswell Park Canister. The respirator and canister will help the anesthesiologist do more efficiently his job of keeping a patient unconscious for long periods without danger.

They will free him from his primary job of administering the anesthesia to handle other responsibilities such as giving rapid blood transfusions.

The respirator is a mechanical device designed to assist the patient's breathing at times when the anesthesiologist's attention is urgently needed for other details.

Dr. Brown conceived the idea when he found that other canisters sometimes began to fail before an operation was completed.

His device contains more carbon dioxide absorbent. It is divided at the center so that only that part of the absorbent that has been used during the anesthesia need be discarded.

Double-Length Rail Cheaper to Maintain

CHICAGO (UP)—Railroads can save up to \$300 per mile in track maintenance with use of the 78-foot rail as compared with standard 39-foot rail, it was reported at the annual meeting of the American Railway Engineering Association.

Savings spring mainly from the 50 per cent reduction in the number of troublesome rail joints that automatically accompanies replacement of 39-foot rail with sections of double length.

The barrier to large-scale expansion in the use of 78-foot rail, it was pointed out, lies in the fact that present mill facilities are geared to produce standard-size rails, more than one million tons of which are bought and used by railroads annually.

Baking Soda OK, Sheepish Youth Tells Firemen

MUSKEGON (UP)—Baking soda will extinguish a fire, 12-year-old Bobby Achterhoff discovered—after he'd called firemen for help.

The boy decided to try the method himself after watching a televised demonstration. Baking soda in hand, he set fire to some newspapers in a garage.

The fire flared. The baking soda failed.

Bobby hastily called the fire department. Then he dashed back with more baking soda. It worked the second time, the boy sheepishly told firemen.

A well-designed shelterbelt of trees and shrubs is likely to catch 36 times as much snow as the best arrangement of snow fences, according to Department of Agriculture tests.

Clerk Chases Bandit From Grocery Store

CANTON, Ohio (UP)—Don't try this yourself, but it worked for a woman clerk, Miss Anie Tanotta, at Susie's Grocery.

When a bandit poked a gun at her and ordered her to put up her

hands, Miss Tanotta shoved him toward the door and ordered him to "get out of here." The man ran out and was still running the last she could see of him, she told police.

The slimmest whisker on a man's face is thicker than the heaviest hair on his scalp.

Guatemala's Big Road Building Project Will Extend Pan American Highway

GUATEMALA CITY (UP) — President Carlos Castillo Armas has launched a vast road-building program designed to open the long-blocked Pan American Highway within a year and erase "unknown territory" from the Guatemalan map.

Within two days after the United States granted \$6,425,000 in economic aid, this Central American nation resumed work on the final 20 miles of the highway—left unfinished because the former Communist regime sought to prevent a flood of tourists from the north.

Castillo Armas, planning to spend \$2,000,000 this year and a total of \$21,000,000 to complete the intercontinental road link, said it will be open and passable within 12 months, and paved within 24.

The 20 miles which the Reds refused to complete cross jungle country between the Mexican border "somewhere to the north" of Guatemala's Huehuetenango.

Guatemalan road crews also will improve the highway in the south, where a 100-mile trip from the El Salvador border north sometimes can take up to 12 hours because of the poor present condition of the road.

Castillo Armas believes the road-building program is one of the most important steps he has taken since he ousted Guatemala's Communist government and became president.

"We can progress only when there is easy communication with all parts of the nation," he said. "At present, there is no highway, rail or airplane communication with many areas of Guatemala. During their nine years in power, the Communists did nothing to improve the situation because they were trying to sabotage the country. Now we must build—and rapidly."

Completion of the highway will make it possible for tourists to drive from Alaska to Costa Rica as early as next year and eventually to Panama to reach the South American section of the projected continent-linking automobile artery.

In addition to the main north-south highway, Guatemala has four other major road projects that will be rushed to completion.

Gun Device Invented

PHILADELPHIA (INS) — A "foolproof" safety device designed to prevent the accidental discharge of firearms has been invented by a Duncannon, Pa., man. The device consists of an independently assembled mechanism which can be inserted into the stock of a shot gun, and when properly connected will prevent the weapon from firing unless it is in actual position.

The U. S. uses 60 per cent of the world coffee supply

as part of Castillo Armas' campaign to develop communications.

The east-west Pacific Highway, roughly paralleling the Pan American along the Pacific Coast, will be opened to traffic within two years at total cost of \$15,000,000. The transcontinental Atlantic Highway, from the Caribbean port of

Hard Labor Veteran Uses Crochet Needle

BUENAVISTA, Va. (AP) — Charlie Hite, in a long career of heavy labor, has been a coal miner, lumberman, shipbuilder, railroad section gang worker—and now—a plumber's helper. But he has taken up a lighter evening pastime.

He spends much of his leisure in fine, delicate crocheting. His wife, Elizabeth, an expert with the crochet needle, says Charlie is about as good as she is.

Barrios to Guatemala City, will take three years to finish, with about \$14,000,000 needed to push through jungles and mountains.

A highway to the almost-unknown northern territory of Peten and a cross-connecting link running across northern Guatemala to the Pan American Highway are expected to open rich forest areas to development for the first time. Work on country and feeder roads also will proceed, but at a slower pace.

Much of the funds for financing Guatemala's extensive road program will come from loans by the United States.

Order Elk Destroyed

CONCORD, N.H. (UP) — The state legislature ordered the destruction of a tick-ridden elk herd that has been ravaging farms in southwestern New Hampshire. There were about 40 in the herd before the hunting started.

Explains Migration to Suburban Areas

MADISON, Wis. (UP) — A University of Wisconsin rural sociologist says small town living is the answer for persons who want a country atmosphere with city conveniences.

A. F. Wileder said the desire for

both of these things explains the mass movement to the "fringes" of large cities.

He cited statistics to show that between 1940 and 1950 non-farm population in the United States increased 43 per cent. But in the same period, the population of big cities went up only 19 per cent, and the farm population actually went down 24 per cent.

History of Black Ties

PHILADELPHIA (INS) — Railroad trainmen wear black ties because a Pennsylvania Railroad conductor named Charles Rutledge was assigned to the funeral train of President McKinley in 1901. For the occasion, Rutledge switched from his usual gay tie to a black one, and the custom caught on.

Los Angeles Rejects Pastel Street Idea

LOS ANGELES (AP)—A proposal that Los Angeles paint its streets pastel colors such as pink and mauve was made to the City Council by Miss Elizabeth Black, retired general manager of the Municipal Arts Department. She said this would beautify the

city, cut down the glare from blacktop streets and thus reduce accidents.

The City Council yesterday took a short look at the \$50,000,000 expense involved and rejected the proposal.

Land slippage amounting to almost 21 feet was recorded during the earthquake which rocked San Francisco in 1906.

Senate Resumes Probe of Security Program

WASHINGTON (AP)—A Senate Civil Service subcommittee resumes hearings on the administration's employee security program today with former Republican Sen. Harry P. Cain of Washington as a witness. Cain, appointed by President El-

sephower to the Subversive Activities Control Board, has been critical of some aspects of the program, including the use made of the attorney general's list of subversive organizations.

The Mississippi valley in 1811 was hit by a severe earthquake felt in two-thirds of the U. S. The Mississippi flowed north for a brief interval.

Didn't Suspect White Disloyalty

Morgenthau Testifies
That He Was Shocked
by Spy Charges

WASHINGTON (AP)—Henry Morgenthau Jr. has told Senate investigators that during his long tenure as secretary of the Treasury he had no reason to suspect that Harry Dexter White was a Soviet spy.

Morgenthau was a witness yesterday before the Senate Internal Security subcommittee. For about a year, with his cooperation, it has been examining the detailed diary he kept while a Cabinet member from 1934 until mid-1945.

The portion of his testimony made public after the closed-door hearing dealt with White, a former assistant secretary of the Treasury, now dead.

Atty. Gen. Brownell asserted in a speech Nov. 6, 1953, that former President Truman promoted White early in 1946 after the FBI notified the White House that White was a Soviet spy.

Morgenthau, who left the Treasury before White's appointment to a monetary fund post, said "no security agency, and no individual, ever reported or suggested to me that there was any doubt about White's loyalty."

"It was sometime after I had resigned before I learned that any charge of disloyalty had been made against him," he continued. "I was shocked and surprised when those charges were first brought to my attention."

Hints U. S., Canada Plan Joint Air Arm

MONTREAL (AP)—The chief of Canada's air force strongly implied here yesterday that there has been a military decision—but no political action—to guard North America with unified U. S.—Canadian air defense command.

The Canadian commander, Air Marshal C. R. Slemen, told visiting U. S. and Canadian aviation writers that Canada's Air Defense Command and that of the United States already are moving in the direction of a single, over-all unit.

Headquarters for Canada's air defense is at St. Hubert, near here. The U. S. Command operates at Colorado Springs, Colo.

Diem's Government Again Hits at Bao Dai

SAIGON, South Viet Nam (AP)—Premier Ngo Dinh Diem's government struck a new blow today at absentee Chief of State Bao Dai. The Premier abolished the National Provisional Council Bao Dai created in August, 1952. In its place the Cabinet will name two separate councils—one political, the other economic.

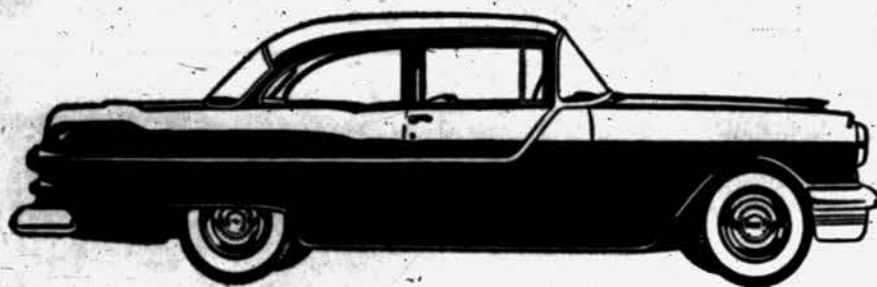

Bao Dai has been sojourning at his palatial villa on the French Riviera since April, 1954.

Blame Starlings on Bard's Fans

Shakespeare Devotees Brought Pesky Bird to America

NEW YORK (UP)—Millions of starlings are making pests of themselves across the nation because Shakespeare enthusiasts released 120 of them in New York City's Central Park in 1891, the Audubon Society reports.

Kenneth L. Morrison, editor of the Audubon Magazine, said the birds were brought here by the American Acclimatization Society, which wanted representatives of every type of bird mentioned in Shakespeare's works to make it self at home in the United States.

"They brought over nightgales and all sorts of birds, but they all died off but the starlings," Morrison said.

In fact, four batches of starlings were released in the park before success finally was attained. The first three groups perished.

From the 120 survivors, Morrison said, have sprung every pesky starling in the country. The little birds have managed to irritate officials of almost every city by infesting building ledges and perching onstatuary. And they have become an annoyance to other birds, as well.

Starlings will live just about any place, Morrison said. They are so lazy they don't care much for building nests.

As a result, they take over various nooks and crannies, particularly the homes carved in tree trunks by woodpeckers and the nests of bluebirds, martins and flickers.

They don't even have much of a song of their own except for a few squeaks, whistles and chattering. But they are talented imitators, especially in reproducing the trills and tweets of bluebirds and robins.

Morrison said it was unusual for one type of bird to live in every part of the country. But he explained that the starling has thrived in this country because all the natural forces tending to control its increase were left behind in its native England and Germany. Nature's anti-starling enemies haven't crossed the Atlantic yet, he said.

"About the best thing you can say of the starling," Morrison added, "is that it is an enemy of the Japanese beetle."

That's Her Number

MILWAUKEE (UP)—Ruth Spremann of 4242 N. 42nd street got ballot No. 42 in the recent election.

SHADES OF JOHN PAUL JONES:—Many an old salt would be rolling over in Davy Jones's locker if he knew that the U.S.S. Nautilus, world's first nuclear-powered ship, has a juke box aboard for the entertainment of its crew. Here Admiral Robert B. Carney, chief of naval operations, dropping a coin in the music box aboard the atomic sub. Proceeds go to crew's recreation fund.

Hit-Run on the Water

VIENNA (INS)—Austria has registered its first case of waterway hit-and-run. It happened on the Danube River. The Soviet tug "Murmansk," towing several oil barges upstream, ran into an Austrian Danube ferry near Vienna. The "Murmansk's" captain didn't even bother to stop, steamed on without investigating the damages estimated at \$4,000.

The U. S. consumes about 40 per cent of the supply of cocoa.

Painters Stop War on Do-It-Yourselfers

PITTSBURGH (UP)—J. Raymond Shepard, president of the Pittsburgh chapter, Painting & Decorating Contractors of America (AFL), says his group is no longer fighting the "do-it-yourself" trend. "The publicity on 'do-it-yourself' has created an urge in a large number of people to go buy buckets of paint, brushes and the other necessary equipment to paint a room or house," he says. "Only in rare cases will they buy all the materials and equipment necessary to do the job right."

About 115 billion cups of coffee are consumed in the U. S. annually.

Chicago Soon to Get Six New Skyscrapers

CHICAGO (UP)—Six new glass and aluminum apartment skyscrapers will soon grace Chicago's lakefront on the North Side.

The developers said construction work on the \$25,000,000 project will begin this spring with a completion date set for 18 months later.

The buildings were designed by Ludwig Mies van der Rohe, head of the Illinois Institute of Tech-

nology, who has set many architectural and building precedents. The apartments will be the tallest flat-slab, reinforced concrete buildings in the nation and possibly in the world, according to the engineer of the project.

The Name's the Same

MILWAUKEE (UP)—Arthur Fiedler took his Boston Pops Orchestra to Wauwatosa for a concert recently and discovered he had a namesake. Arthur Fiedler is a teller in the First Wisconsin National Bank.

Slow Reader, Maybe

CORVALLIS, Ore. (UP)—A book missing for 32 years from the Oregon State College library turned up more than 3,000 miles away as part of a collection given to the University of Maine. Maine librarians returned the book when they noted the OSC stamp. Library officials here said they would forget the overdue fine, which at the rate of two cents a day would amount to \$168. The book "Essais Sur la Vegetation" was published in France in 1809.

FINE FEATHERS FOR AIR CADETS — Modifications of standard USAF uniforms will be the interim uniforms to be worn by students at the newly formed Air Force Academy pending adoption of a permanent uniform. As modeled in Washington, D. C., they are, from left: Summer tans have a heraldic cloud on the shoulder boards. Blue winter garb has silver-and-gray shoulder boards; silver, gray and dark-blue braid on sleeves and gold wings on cap.

Caruso Double Recalls the Past

**Operatic Tenor Morati
Teaches Handicapped
Persons to Speak**

BUFFALO, N. Y. (UP)—A man who once was acclaimed throughout the world as the great Enrico Caruso's double lives out his declining years here teaching the otherwise speech-handicapped to speak.

Music-lovers and critics often referred to Charles Morati as "the second Caruso." They had good reason to do so. Morati, now 78 and retired from the opera stage since 1923, not only looked like the master's twin brother but also possessed a rich tenor voice.

The Buffalo studios of the French-born voice and speech specialist contain a priceless collection of portraits, souvenir programs and records of the days when both he and Caruso were active in opera.

Morati sang at the Paris Opera Comique, the Brussels Royal Opera, the Geneva and Munich

Opera houses and Covent Garden, yet he still feels humble and embarrassed when called "Caruso's double."

"I felt like apologizing when I first met Caruso, but apparently he was flattered that somebody else possessed his good looks," Morati said with a chuckle.

This fateful meeting occurred in New York City when both singers were singing the same roles of Faust and Don Jose for competing companies.

"We used to meet right after our performances in one or the other's hotel room for a game of cards," Morati said. "Caruso kept calling me brother and used to win most of the games."

Morati continued his singing career two years after Caruso died in 1921. In the late 1920s, he came to Buffalo, married and settled here as a vocal teacher.

To help the handicapped, Morati uses several techniques, such as exercising the soft palate and using the sinuses and the pharynx to replace the loss of the vocal cords.

Every week, old friends and music lovers gather in his studio to play records and look over old scrap books.

"Even on wax my friends confuse me with Caruso," he said with a sigh.

Repairs May Still Voice of London's Big Ben Soon

WASHINGTON—London's famed clock, Big Ben, will be overhauled this year, perhaps temporarily silencing its world-travelled voice.

Big Ben actually is the clock's 13½-ton bell that strikes the hours, heralds news broadcasts and booms a deep-throated E note over London rooftops. The clock is the faithful authority that countless Englishmen have set watches by while passing Westminster Palace, home of Britain's Parliament, the National Geographic Society says.

Big Ben's origin goes back to the flames that destroyed the Houses of Parliament in 1834. In the rebuilding, a 14-ton clock bell and four smaller quarter bells were ordered. London facilities produced the quarter bells. The casting of Big Ben — named for Sir Benjamin Hall, First Commission-

er of Works in 1856 — was entrusted to a foundry at Stockton on Tees, 217 miles northward.

Foreboding difficulties ahead, a storm at sea almost capsized the ship bringing Big Ben to London. Then, while being tested on the Palace grounds, the bell cracked under vigorous hammer strokes. It was melted down and another bell ordered.

Finally in 1858, the new bell was drawn by 16 white horses through thronged London streets to Westminster. This bell, the present Big Ben, developed a flaw but was retained in use.

The clock is one of the world's most accurate public timepieces. Some say it has stayed, except for a few stoppages, within four seconds of Greenwich time and has operated for weeks within one-tenth of a second. Nearly all con-

cede that it meets the Astronomer Royal's requirement that "the King of clocks was to be the Prince of time-keepers."

Its performance, however, has been disturbed by man, bird, bursting bomb and weather. A painter's ladder propped in a wrong place and a workman's bungling hammer caused trouble. A rat's nest and 50 starlings that perched on a minute hand both disturbed its delicate balance. Once, a quarter bell failed to chime during a winter freeze.

A bomb bursting on the House of Commons in May, 1941, endangered the clock. The belfry was marred and the glass of the dial damaged. Word comes down that Big Ben faithfully struck only one and a half seconds behind Greenwich time when its broadcast voice told Englishmen

on far war fronts that London still stood.

The clock is enormous. Each of its four faces is more than 22 feet across; the figures are two feet long and the minute spaces a foot square. The copper minute hands are 14 feet long and each travels more than 130 miles a year. In principle, its five-ton mechanism functions like a grandfather clock, lowering and raising weights that reach almost to the ground. In former years the winding took two men five hours three times a week. Electricity now does the job.

A visitor inside the tower when Big Ben sounded its sonorous tones has recorded the sensation. It is not so much the din that is overwhelming, he said, "as the tremendous reverberation which continues to sing in one's ears long after the hour has struck."

Gardens Are Large

BERLIN (INS) — West Berlin's Botanical Gardens are among the

world's largest. Designed for training botanists, the gardens also were laid out to give the public a relaxing park.

Collector Seeks Unusual Autos

Kansas Man's 23 Cars Noted for Rarity Rather Than Age

JUNCTION CITY, Kan. (UP)—If he felt so inclined, L. L. Lacer could drive a different automobile every day for 23 days.

Lacer collects unusual autos. Antiquity is a requisite; rarity is what he seeks.

Lacer admits he has "quite a lot of money" involved in his cars but can't estimate how much.

"It's a good investment," Lacer said. "These cars hold their value and even become more valuable through the years."

Lacer has 17 of his 23 cars in a storage building, four are parked in his home garage and two are kept on his driveway. Each is in running order, and each gets a workout at intervals.

Regarding maintenance, Lacer said he's been lucky about parts. One of his cars, a German make, required a new headlight bulb.

He wrote to the manufacturer and received the part in two weeks. The maker would not accept payment. He sent the bulb as a gift for Lacer's appreciation of his product.

Since he was a teenager, Lacer, now a 35-year-old railroadman, has had an intense interest in automobiles. His home here is filled with automotive literature and a collection of more than 100 scale-model cars.

Fortunately, his wife shares his interest. His 5-year-old son, Mike, has cars on his mind, too, and can recognize every make known, American or foreign.

One of the rarest items in Lacer's collection is a four-passenger 1940 Bantam convertible sedan. It's valuable because only four of the models were manufactured.

Another prize is a 1933 French Delahaye five-passenger convertible, one of a few in existence. It has "knock-off" wire wheels and four-speed Coté gears.

Lacer has a 1935 Graham 8 sedan, which he describes as the "oldest new car to be found." Although 20 years old, it has been driven only 9,000 miles and has its original paint.

A 1927 Dodge coupe, also has seen little wear. Its mileage is 12,000. It has original paint and a leather interior.

The fanciest auto he owns, Lacer said, is a 1932 Jaguar roadster. It represents an original investment of \$4,700 and has all sorts of special gadgets.

Town Finally Getting Local Liquor Store

ST. PAUL (UP)—The Minnesota legislature has finally solved the liquor problem of the village of Pemberton.

Pemberton is so small that no point within its boundaries is more than 1,350 feet from a school situated almost on the boundary line. The state law prohibits liquor stores within 1,500 feet of a rural school. A special act was passed to overlook this in Pemberton's case.

More than 678,000 persons were injured in weekend traffic accidents last year.

ORDINANCE NO. 1278
Adopted May 31, 1935
Effective June 10, 1935
An Ordinance to Prevent Obstruction of Streets in the City of Pontiac by Railroad Trains, Railroad Cars, Engines, Etc., and to Repeal Ordinance Adopted August 27, 1917 and All Amendments Thereto.

The City of Pontiac Ordains:
Section 1.
It shall be unlawful to permit any railroad or railway engine, car or train, either while in motion or stopped, to obstruct any public street, highway or highway in the City of Pontiac, so as to obstruct the engine or train, or any vehicle or pedestrian traffic for a longer period than five consecutive minutes at any one time.

Section 2.
No freight car shall be loaded or unloaded upon, from or into any street of said City except by express permission first obtained from the Police Department of said City, or its officers or agents.

Section 3.
Any person, firm, co-partnership, association or corporation violating any provision of this ordinance shall, upon conviction thereof, be subject to the penalty provided in this ordinance. In any proceeding, action or prosecution brought against a corporation, its agents and employees, its manager or person in control, as well as the corporation, shall be subject to the provisions hereof, and in the case of a railroad corporation the engineer in charge of said engine or train, the conductor thereof and the yardmaster, as well as the corporation, shall be subject to the provisions hereof.

Section 4.
In the enforcement of this ordinance a ticket or notice may be given to any person or persons violating the provisions of this ordinance in the same manner as for the violation of the motor vehicle law, and it shall not be a defense to the violation of this ordinance that the engine or train was not in motion at the time the ticket or notice was issued, provided, however, in the case of violation of Section 1 of this ordinance said notice or ticket need not be served upon the person or persons in actual operation of said engine or train but in lieu thereof may be served upon the train master or local agent of said railroad corporation. Provided, nevertheless, that if complaint and warrant are issued thereafter the same may be issued against the railroad corporation, the engineer in charge of said engine or train, the conductor in charge of said engine or train at the time of said violation, and/or the train master.

Section 5.
Any person or persons who shall violate any of the provisions of this ordinance shall upon conviction thereof before a Court of competent jurisdiction be punished by a fine not exceeding one hundred dollars (\$100.00) or, in default of payment thereof, by imprisonment in the Oakland County Jail for a period not exceeding ninety days (90), or by both such fine and imprisonment, or by the discretion of the Court who shall try such offender.

That certain ordinance entitled "An Ordinance to Prevent the Obstruction of Streets in the City of Pontiac by Railroad Trains, Railroad Cars, Engines, Etc.," adopted August 27, 1917 and all amendments thereto be and the same be repealed.

Section 6.
This ordinance shall take effect ten days from and after the date of its passage by the City Commission of the City of Pontiac.

Witness my hand and the seal of the City of Pontiac this 31st day of May, A.D. 1935. Wm. W. DONALDSON, Mayor.

ADA B. EVANS, City Clerk.

'Uncle Tom's Cabin' Sold 3,000,000 Copies in U. S.

WASHINGTON — One hundred and three years ago this month "Uncle Tom's Cabin" — the book that "God wrote" — poured off the press and set the pace for America's subsequent best sellers.

For impact on the nation's thinking and for the remarkable way it came to be written few if any novels can equal the work of Harriet Beecher Stowe, a Maine clergyman's wife who avowed that "God wrote it—I merely wrote his dictation."

The vast appeal of "Uncle Tom" (3,000,000 copies distributed in the United States) mirrors America's fondness for books of a religious or ethical nature, says the National Geographic Society.

Added evidence is offered by the Bible, all-time best seller. Furthermore, among the last hundred years' top best sellers (2,000,000 or more copies) books of a religious theme stand out: Lew Wallace's "Ben-Hur" (1180); Charles M. Sheldon's "In His Steps" (1897); Jesse Lyman Hurlbut's "The Story of the Bible" (1904); and Lloyd C. Douglas' "The Robe" (1942).

Today week-by-week best seller lists are loaded heavily with books dealing with religious and ethical problems.

Dr. Frank Luther Mott, a student of the subject, puts seven works over the 2,500,000 copy mark: Shakespeare's "Plays," Scott's "Ivanhoe," Thomas Fleet's "Mother Goose" (1719), "Uncle Tom," "Ben-Hur," Dale Carnegie's "How to Win Friends and Influence People" (1936), and Margaret Mitchell's "Gone With the Wind" (1936).

Leading best sellers imported from abroad were: Defoe's "Robinson Crusoe"; "A Christmas Carol," by Dickens, probably the author most widely read by Americans; Stevenson's "Treasure Island"; and Dodgson's "Alice in Wonderland" whose manuscript an American bought in 1928 for \$72,350.

Over-all best sellers by Americans were: Cooper's "The Last of the Mohicans" (1826); "Ishmael" and "Self-Raised" (1864) by the prolific Mrs. E. D. E. N. Southworth, the most read native authoress; Alcott's "Little Women" (1868); Twain's "Tom Sawyer" (1876); Marion Hargrove's "See Here, Private Hargrove" (1942); Betty Smith's "A Tree Grows in Brooklyn"; and Wendell Willkie's "One World," both boomed by intensive advertising in 1943.

The elusive success formula, says Dr. Mott, includes appeals on the basis of religion, sensationalism, self-improvement, personal adventure, vivid characterization, and sometimes humor.

Some of these elements enlivened Mrs. Stowe's attack on slavery. She modeled Uncle Tom after a Negro freedman she met in Boston. While in church she conceived Uncle Tom's death and the same day she started writing. The story was serialized in a Washington weekly. Readers, canvassed on its length, demanded it run 12 months.

But publishers at first refused it book form. Finally one offered Mrs. Stowe the choice of two contracts: a 50-50 share of profits and costs, or a straight 10 percent royalty. She consulted a friend who had not yet read "Uncle Tom." Play it safe, he advised. Mrs. Stowe did. She chose the royalty and thereby passed up a fortune.

Soon copies sped forth—in the first year alone eight presses operated day and night to meet demand. The first edition of 5,000 copies was a one week sell-out. Mrs. Stowe's adviser, a congressman, got one of the first. He opened it on a train. Soon weeping, he

Drying Out Bottles Important to Firm

BUFFALO, N. Y. (UP) — Dehydrating empty bottles sounds like a useless pastime, but it is of prime importance at a pharmaceutical manufacturing plant here.

Moisture is the arch enemy of most medicines. So (Arner Co.) chemists thoroughly dry bottles and vials before they are filled with pills, tablets or capsules. The empty bottles are placed in ovens for definite periods of time at controlled temperatures.

Even the dabs of protective cotton used in packing medicaments are also specially dried when employed with drugs particularly vulnerable to moisture.

Terms Cab Drivers Pretty Solid Citizens

RICHMOND, Va. (UP) — Taxicab drivers, says Cabbie Earl E. Hall, are pretty solid citizens.

Hall denied that cab drivers are a hero type, and he added that neither do they deserve the abuse heaped on them by some citizen-motormen. He was interviewed after Fire Chief John F. Finnigan credited Hall and a passenger, Roosevelt Johnson, with pulling eight persons from a flaming building. Two died, but the fire chief said they saved the lives of the others.

Flying Fire Alarm

HILLSBORO, Ore. (UP) — An Air Force jet pilot spotted a flaming house, buzzed low and attracted firemen and neighbors. The family was away. The house and two sheds were destroyed but firemen sped to the scene in the belief that a plane had crashed.

Laugh at Boss' Jokes, Secretaries Advised

CHICAGO (UP) — Laughing at the boss' jokes makes for a clever secretary, says Wilbert E. Scheer, who helps operate a secretarial school. It's just as important to her

career as her ability to run a typewriter, take dictation and file letters. It makes the boss feel good, he says, to have his help appreciate his "funnies." Besides, it makes his job easier. After all, that's the reason for a secretary, he says.

Nosy Callers Fixed by Volunteer Firemen

ELECTRA, Tex. (UP) — The fire department thought it had a secret telephone number—one that only volunteer firemen could call to find out where's the fire. But

pretty soon just about everybody in town knew it.

And just about everybody would ring as soon as they heard the sirens to find out where's the fire. The other day, the sirens wailed. Every time anybody called, he was advised to donate to the Red Cross.

Face Bushes Certain to Tickle Women

BAMBERG, S.C. (UP) — Mayor Thomas Ducker directed that all males begin growing beards for the town's centennial celebration. In one paper, the first paragraph

of the item read: "Mayor Thomas Ducker had some news today that will tickle the women of Bamberg."

The pedestrian record reflected the 4th consecutive year of improvement for motor vehicle accidents in 1954.

NOTHING LIKE A TREE IN THE KITCHEN—The tree that grew in Brooklyn could not have been more greatly appreciated than this one growing in the kitchen of a monastery in West Berlin, Germany. It's there because the nuns of the Order of The Good Shepherd refused to have it destroyed when the monastery was expanded 30 years ago. They built the kitchen around the tree. Kitchen helpers, like the one above, enjoy the chestnut tree's shade. Top of the tree grows through an opening in the roof.

Vessel Keeps Cable Buzzing

Ship Prowls 2 Oceans to Protect Wire Link With South America

WASHINGTON — The cable ship All America recently docked in Hoboken, New Jersey, ending a trouble-shooting watch over some 23,000 miles of elusive submarine cable in two oceans.

In nearly five years at sea the 1,819-ton vessel's 60-man crew kept alive vital lines from Halifax, Nova Scotia, to Peru. Often the crew worried over work-a-day foes—cable corrosion and chafing, sea canyons, earthquakes, whales and teredos. Any of these may silence messages.

Little guesswork goes into finding a break in a finger-thin thread of wire entombed under miles of lonely sea, the National Geographic Society says. Watchful shore communication stations detect disturbances and give the All America the approximate location as determined by cable resistance to the flow of electricity.

Charts, instruments, and 20 years' experience generally bring All America's Captain Frederick Hack to within a half mile of the trouble. There his ship makes runs with grapnels. Sometimes the ca-

ble comes up intact; often it snaps despite its eight percent slack. "Sometimes the cable is pretty deep," says crisp-voiced Captain Hack, who has worked three-mile sea depths.

A sea-going ship geared for emergency, the All America carries red-leaded marker buoys to keep raised cable ends afloat and miles of heavy-armored cable and wire rope of 18-ton strength.

The lonely hours of cable repairing sometimes bring surprises. A sperm whale once was sighted near Lobos Island off Peru, three turns of cable round about the whale's body.

"He had apparently been feeding along the bottom at 400 fathoms and ran into our cable," Captain Hack says, adding that since a whale can't reverse he kept pushing ahead, finally choked, drowned and floated to the surface. The whale carried a heavy load; such cable in water weighs a ton a mile. Three times in Captain Hack's experience whales have become entangled.

At the other extreme in size is the termite teredo, a borer of tiny holes difficult to see but sufficient to disrupt communication.

Other sources of trouble are also obscure. In mid-1942 a cable between the United States and Cuba failed after 22 years of service. German submarines were blamed. Three years later, however, the All America found that the sharp edges of an 800-foot-wide under-sea canyon caused the break.

There are about 54 million motor vehicles in the U. S.

10th Division Packing for Germany

FT. RILEY, Kan. (UP)—"Operation Gyroscope," the transfer this summer of 20,000 persons from Ft. Riley to Germany, will be the largest peacetime troop movement in American military history. It also probably will be the first

time the Army sends 3,000 private cars and 380 cats, dogs and canaries overseas.

"Operation Gyroscope" will transplant the 10th Infantry Division, now at Ft. Riley, to southern Germany. The 1st Division, now in Germany, will be "rotated" back home to Ft. Riley.

As a morale-building gesture, soldiers of the 10th are being allowed to take along not only their families but their cars and pets. The automobiles must be taken to New York at the soldiers' expense, however. The Army will pay for shipment across the Atlantic.

PARAKEETS BANNED

The kind of pets that can be taken is limited, too. Parakeets can't go. They are susceptible to highly communicable disease.

One group of Army families will leave Ft. Riley in July. Another group takes off in September and a third in November. Four ships and six huge airplanes will be used to take each section of the division to its new location.

Boxes and crates to hold the

belongings of the movers will require 10 carloads of lumber, more than a million nails and seven tons of steel. Three-fourths of a ton of paper is being used to print the various movement orders.

And all this involves no transfer of military equipment. The 10th Division will use what the 1st

leaves behind in Germany, and vice versa.

USE SAME SHIPS

The 1st Division troops and their families will return to the United States on the same ships that take the Ft. Riley people overseas.

Ft. Riley residents have been getting ready for the move since last January. Classes in the German language have been taught to capacity enrollment on the post. And German road signs have been placed under their English counterparts along all highways in the Ft. Riley area.

Even Cave Is Irrigated

STANTON, Mo. (AP)—Now they're irrigating caves. A \$75,000 irrigation system was installed in the Meramec Caverns here by Lester B. Dill, owner. From lack of rain, some of the picturesque limestone formations and statues were becoming dry. Moisture supplied by an electric pump is keeping them fresh and full of luster and color. It serves the three miles of cave open to the public. Dill says he thinks it's the first irrigation system for a cave.

Lost Ring Turns Up in Pair of Gloves

HUNTINGTON, W. Va. (AP)—Mary Elizabeth Reeser, a Marshall College junior, thought she had lost her high school graduation ring on the campus.

Mary's mother had bought a pair of gloves for her brother, Warren. They didn't fit and he tossed them on the mantle to be returned.

Mary Elizabeth happened in from classes soon afterwards, saw the gloves, tried them on, and they didn't fit her, either.

Mrs. Reeser returned them to the store.

Some weeks passed until Mary's uncle, Edward Reeser, visited the store. He was looking for a pair of gloves. He tried one glove on, it fitted perfectly and he bought the pair.

Later, at home, he tried on both gloves. Inside was a high school ring, class of '32, initialed "M. E. R."

Good Turn Backfires

OMAHA (UP)—Two men in a stolen station wagon stopped on a highway near here to aid a stranded motorist. It was the motorist's description of the men and the car that led to their arrest the following morning.

Nerve Gas Plant 'Scrubs' the Air to Protect Area

DENVER (INS)—Every cubic inch of air leaving a war plant here is literally "scrubbed" clean to lick an air-pollution hazard more dangerous than those faced by the most heavily smog-blanketed city.

Scientists at the nearby Rocky Mountain Arsenal—a U. S. Army plant that produces an odorless, tasteless and colorless "nerve" gas that kills in seconds—have taken elaborate safety precautions.

One is that the air leaving the plant is scrubbed in a series of underground cleansing units and then blown high into the sky through 300-foot exhaust stacks. Electronic unit maintain control over the ventilating system.

Other sensitive electronic controls automatically monitor the production of the gas, guarding against dangerous concentrations. The building is designed to withstand interior explosions and has auxiliary power units and emergency underground disposal tanks.

The potential military value of the new gas is rated as even greater, in some aspects, than atomic weapons.

Esther Williams to Send Swimsuit to Aga's Wife

By EARL WILSON

NEW-YORK—Dream Man Tyrone Power, Cincinnati's gift to the movie, astonished NBC folks the other night by dropping into Eva Gabor's dressing room when she did "Justice."

Ty and Eva—who was looking very expensive in a chic housecoat—allowed a photographer to shoot 'em sitting together on chaise longue.

TY and EVA

Mays Landing, N. J., nudist camp. She will be wearing something—her shoes.

Esther Williams—swimming with the Aga Khan's wife, the Begum, at their castle near Cannes recently—said to her Begumship:

"Why don't you swim under water?"
"I do my own hair and..." said the Princess.
"But if I designed you a cap," said Esther.
"I haven't a comfortable suit." The Princess tugged down her suit in the back as you girls will. "I'm long-waisted."

"Really?" squealed Esther. "The Esther Williams Swimsuit made by"—Esther got in a fast commercial—"is long-waisted."

"Where could I find one?" The Begum tugged down the other side in the back.

"Esther Williams could get you one wholesale!" said Esther Williams.

So Esther's sending her a suit, also clippings about Aly Khan's settlement with Rita Hayworth, because when the Aga asked about his granddaughter and Esther mentioned the settlement, the Aga said "What settlement?"

"He's paying the tab and doesn't know about it!" said Esther. Maybe since it's only a million or so, he's got it in his petty cash department.

Me and my crew cut! Seeing Eddie Fisher with a pretty blonde gal wearing sort of a Carol Haney haircut at "Seventh Heaven," I asked him, "Who's the chick?"

"Why, that's Mike Todd's girl—Evelyn Keyes. He's away and I'm minding her," he said.

"I'm so sorry I didn't recognize you," I said to Miss K.

"But after all, you changed your hair."

"You should talk!" snorted Miss Keyes.

THE MIDNIGHT EARL . . .
The Hank Greenbergs' friends are confident they'll patch up their troubles . . . Jackie Gleason's swank apt. has the original of Salvador Dali's painting for the cover of Jackie's Album, "Lonesome Echo." On this one Dali dots his i with an exclamation point.

Restaurateur Arthur Vinton, "the Barefoot Boy of Brittany Hills," will go in white tie, tails and bare feet to the North Shore Hospital show this week.

Frank Sinatra's name for Marlon Brando on the "Guys and Dolls" set is "Mumbles" . . . Marilyn Monroe rejected a \$250,000 offer for a three-week Australian tour—said it would interfere with her acting classes here . . . Sugar Ray Robinson's buying a chunk of the Moulin Rouge hotel in Vegas . . . Brooklynite Bernice Nemirov will be a contestant in the Miss New York City contest.

TODAY'S BEST LAUGH: Al Lafayette described a new suburban town with very wealthy residents: "Out there the station wagons are bigger than the stations." That's earl, brother.

(Copyright 1955, Post-Hall Syndicate, Inc.)

Geologists Probing Under Texas 'Lid'

AUSTIN, Tex. (UP)—A geologic formation extending over much of Texas may be a "lid" covering undiscovered Texas petroleum reservoirs, according to University of Texas geologists.

The formation is the Ouachita

foldbelt, which sweeps across Texas from the Red River to the Big Bend. The foldbelt is an extension of the Ouachita Mountains of Oklahoma.

Dr. Peter T. Flawn, director of the university's Bureau of Economic Geology project, said that in the past oil-drillers usually stopped when they hit the formation. However, he said, a recent operation went through it and found oil. The bureau, working in coopera-

tion with a number of major Texas oil companies, expects to spend at least three years studying the extent of the foldbelt in Texas and gathering technical geologic details.

New Town, N.D., was established when the Garrison Dam project started to flood out the towns of Van Hook, Elbowwoods and Spanish.

Parasite Controls Cheap in Long Run

CHICAGO (UP)—Farmers gain \$10 for every \$1 spent by using phenothiazine to control internal parasites plaguing farm animals, the annual meeting of Livestock Conservation was told here.

The new drug, Dr. D. C. Bough-ton of the Dupont Co. explained, has a unique ability to destroy worm eggs and larvae of the parasites.

Preventive treatment of harmful parasites is about 50 times cheaper than curative treatment, Dr. A. C. Todd, parasitologist of the University of Wisconsin told the group.

The usual number of worms in beef cattle, for example, reduces

weight gains by 10 to 20 per cent, Todd said. Phenothiazine administered daily in small amounts to a dairy heifer costs less than 75 cents a year.

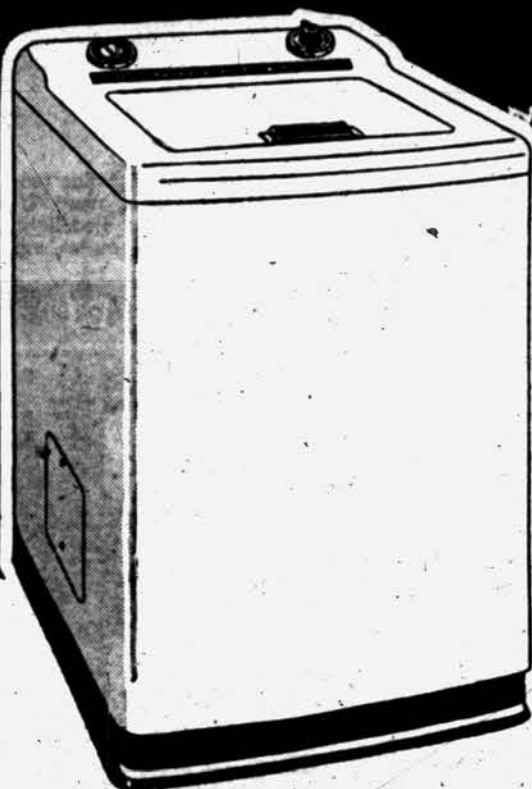

A novel seeding machine, which drops one seed at a time and eliminates the need for thinning grain and truck crops, has been patented by Sigmund Stokland of Stavanger, Norway.

Liberal Trade-In Allowance

General Motors Technical Center 80 Per Cent Complete

By ARNOLD S. HIRSCH

A Sunday afternoon drive down 12-Mile Road into Macomb County might bring some consternation to the average motorist and his family.

They might be puzzled by a campus-like collection of brilliantly colored brick and glass buildings where 12-Mile meets Mound Road.

The \$100-million-plus collection is known formally as the General Motors Technical Center, and whether they know it or not, it is indirectly dedicated to the driver and his family.

Eventually, the 320-acre site will be the workshop for more than 3,500 engineers, researchers, designers, mechanics, machinists and other specialists.

EXPLORE FUTURE

Their mission is to explore the future as well as to improve today's techniques, methods and products.

Goal of the personnel of the four central staff organizations using the center's modern facilities is "to use science and technology to keep GM in business years and years from now."

Plans for construction of the technical center were first announced by Alfred P. Sloan Jr., chairman of the board of directors, in 1945. Four years later, construction began. Today it is roughly 80 per cent complete.

Three of the four organizations for which it was built are now occupying the center—Research Laboratories Division, Engineering Staff and the Process Development Section.

Now under construction are the Styling Section building and a 1,000-person-capacity auditorium, shaped like a giant dome, which will serve as both an auditorium and showroom for previews of future models.

Some 3,000 GM workers are now using the center's functional facilities, designed by Eero Saarinen and Associates, of Bloomfield Hills.

Its buildings, none higher than three stories, have the clean, trim lines of contemporary architecture. The end walls are of red, blue, yellow, purple and orange glazed brick, the side walls of huge glass panels and porcelain enamel.

At the heart of the beautifully landscaped center is a 22-acre lake, still dry, but which will be filled before the center's official opening approximately a year from now.

ALL QUIET — This photo, taken at night when activity is at a minimum at the General Motors Technical Center, shows the modern lobby of the Engineering Staff administration building. Engineering Staff is one of four organizations at the campus-

UNIQUE TOWER — Night view shows 250,000-gallon, 140-foot stainless steel-clad water tower at the General Motors Technical Center at 12-Mile and Mound Rds.

EVERYONE HAS A JOB—Workers swarm over the Cadillac El Dorado "dream car" as its body was being fabricated for the 1955 General Motors Motorama. Picture was taken in the experimental building at the sprawling GM Technical Center. In addition to building futuristic models, the Engineering Staff at the center develops and tests body, motor and transmission ideas for GM's automotive divisions. One section also analyzes and evaluates the thousands of unsolicited inventions sent to the corporation each year.

PLANNERS AT WORK — Members of the passenger car section of GM's Vehicle Development Group in the Engineering Staff administration building discuss an engineering problem, while in the background draftsmen detail designs. Mulling the problem are (back of head to camera) Robert Diedrich, of Royal Oak; Charles N. McCarthy, of Royal Oak, (left)

Glenn L. Hogsten, 4165 Quarton Rd., Birmingham, (center) and Bernard J. Muenk, of Detroit. The engineers are part of the approximately 3,000 already employed at General Motors Technical Center in Macomb County. Besides the administration building, the Engineering Staff has an experimental building and a dynamometer (testing) building.

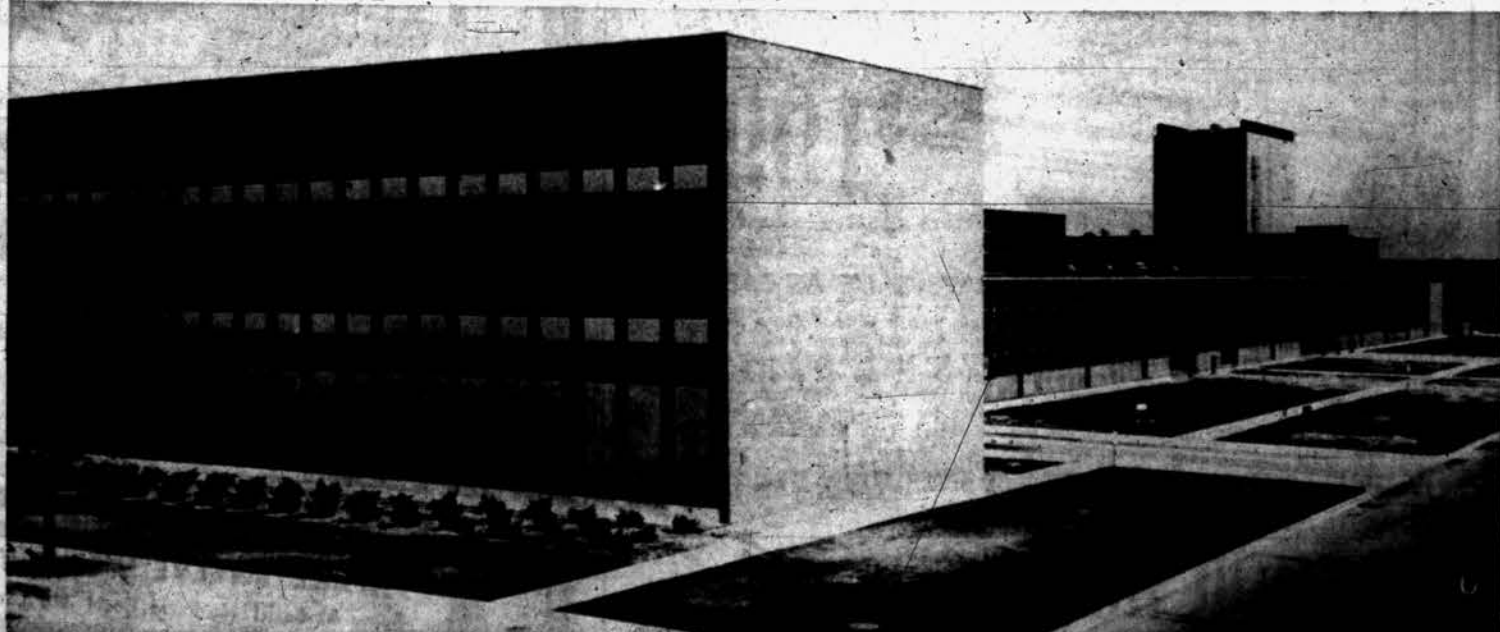

V-8 ENGINE TEST — Engineers run a V-8 engine through its paces in one of the 12 test cells in the dynamometer building at GM's new Technical Center located at 12-Mile and Mound Rds. The cells are used primarily for engine and transmission work. One two-story test cell is equipped with special equipment for bump and shake tests of complete vehicles. Test control equipment and separate engine exhaust and ventilating systems for each test room are located in the basement. The dynamometer building is the smallest of the three units making up the Engineering Staff facilities at the center.

EXPERIMENTAL FOUNDRY BAY — Employees prepare a sand mold in the Metallurgy department building of the Research Laboratories Division at the GM Technical Center. This is a view of the experimental foundry bay in the building. The Research

Labs organization is one of four making up the "tentacles" of the center. Its function is long-range projects and studies in the mechanical arts and basic sciences, such as chemistry, metallurgy, physics and electronics.

ONE OF CENTER'S MAJOR UNITS — This photo shows the southeast side of the GM Process Development Section building group at the General Motors Technical Center. Here, engineers work on experimental projects to improve manufacturing techniques and processes to improve plant efficiency. These buildings are typical of the modern, utilitarian architecture of the 320-acre center. None of the buildings are higher than three stories. Rainbow-toned glazed bricks add a distinctive note and glass is liberally utilized.

Minnesota OKs Sales of Vodka Despite Red Tint

ST. PAUL (UP) — What's in a drink? If the drink is vodka, propaganda value and a deceptively neutral taste, along with a high proof, Minnesota's legislature was told.

But the lawmakers overrode those warnings and voted to legalize sale of Russia's national liquor.

It was the last of the 48 states to do so. An attorney told his colleagues in the House of Representatives that Communists would capitalize on such action and that Pravda wouldn't hesitate to tell people behind the Iron Curtain that "we in Minnesota have taken a liking to their national drink."

Another legislator was fearful of the effect vodka would have on "those of our young people, who, unfortunately, like to live dangerously some times." Because vodka has no particular flavor of its own, young people might unwittingly overspike their soft drinks, he warned.

SWEET GIRL GRADUATE—Mrs. Augusta Lynch of Custer, Mich., is 75 years old and still going to school. After putting her five children through Michigan State College, she returned in 1933 to finish her own undergraduate work. Now she says she may stick around after her June graduation to work for her master's degree.

Saturday is the most dangerous day of the week to drive.

Rubber Plant Uses Upside-Down Train

DAYTON, O. (UP) — An accident-proof, upside-down railroad with a special "man-catcher" on the locomotive is running at a rubber plant here.

Operated by push buttons, the electric railway has stations, signals, switches and an automatic breaking device. Trains run on regular schedules, hauling automobile tires between departments.

The wheels are on top of the cars and fastened to tracks suspended from the ceiling. Each tractor locomotive has a front bumper connected to a power cut-off switch. If a man is touched by the train, he feels only a light nudge before the train stops automatically. There are no accidents on this railroad.

Swell for Fire Fighting

ANGOLA, La. (UP) — Led by their noses, prison officials searching a Louisiana State Penitentiary dormitory stopped at a wall type fire extinguisher. When they unscrewed the top they found it filled with fermenting mash.

Pontiac's Going Pontiac

at the Fastest Rate in History!

5 Great Superiorities Account for this Record-Breaking Success...

Superiority IN BEAUTY

Pontiac designers skipped the years to style the most distinctively beautiful car on the road. With its exclusive Twin-Streak hood and Vogue Two-Tone colors, Pontiac is the one car that doesn't look like all the others. And you'll find this same years-ahead beauty inside, too—with colorful, luxurious interiors that take their cue straight from the highest-priced cars. One look tells you that here's a car that will stay new for years!

Superiority IN PERFORMANCE

Touch the accelerator and you get action like you've never known before! Pontiac's big, husky Strato-Streak V-8 with low extra cost four-barrel carburetor puts an eager 200-horsepower at your instant command. You start, cruise and pass so easily and smoothly you're always aware that up front you have the world's most modern V-8! So modern and advanced, in fact, that records prove it delivers the greatest economy in Pontiac history!

Superiority IN SIZE

Pontiac looks big and *is* big—where it counts, in *wheelbase*! You ride cradled in 122 or 124 inches of chassis that hug and level the road like nothing else can. And this long wheelbase—more by far than any car anywhere near Pontiac in price—is matched with the roomiest, most relaxing Body by Fisher you've ever enjoyed! Add it up and it comes to this—only Pontiac provides the pride and pleasure of big-car ownership at a price so low!

Superiority IN COMFORT

But it takes more than size alone to make you comfortable. Pontiac adds new wide-stance parallel rear springing; big, soft seats; plenty of head, shoulder and leg room—then cushions it all in Pontiac's own type of shock absorbing system. Come in soon and drive a Pontiac—on any road you please—for the final, convincing proof! Until you do, you'll never know how much genuine fine-car comfort can be yours at so little cost.

Superiority IN HANDLING EASE

Behind the wheel of a Pontiac you're just one step from the sports car class. New front suspension, recirculating ball-type steering and bigger, safer brakes provide handling as effortless as modern engineering can devise. Threading your way through traffic or cruising all day on the open road, Pontiac is a pleasure to drive—a pleasure until now reserved for only the highest-priced cars. Try it yourself—and you'll be a Pontiac fan for life!

U. S. Has Hope for 11 Airmen

Nation Eyes Red China Formula for a Clue to Release of Captives

WASHINGTON (AP)—American officials looked today to a formula laid down by the Chinese Communists themselves for hope of early liberation for 11 imprisoned U.S. airmen.

The formula came in two parts: 1. Last June 15 at the Far East peace conference in Geneva, a Red China spokesman told the U.S. delegation his government would consider "early release of prisoners with good records."

2. In last Monday's Peiping radio broadcast disclosing release of four U.S. jet fliers, the Communists said they had been "treated with leniency" and "deported" because they only were carrying out military orders, "admitted their crimes and expressed remorse."

Also, Indian diplomat V. K. Krishna Menon is reported to have told Western diplomats at New Delhi that the Red Chinese informed him only a small group of airmen were released because the United States had not permitted the return home of all Chinese students in this country.

The State Department apparently took this report into account. Disclosing new discussions at Geneva with the Red Chinese over the prisoner issue, department spokesman Henry Sydam said:

"With reference to the cases of the Chinese students in the United States the consul general (Franklin Gowen) pointed out that restrictions have been removed and that the students who desire to return to their homes may do so."

Sydam said practically all of them already have returned. These are the students who were in the United States when the Communists took over China in 1949. Those who received U.S. government financial help to continue technical studies were for a time denied permission to leave this country. Relatively few of the original thousands expressed a desire to return to China.

Sydam said Gowen renewed at Geneva Monday an American demand that Red China release 63 Americans imprisoned or otherwise detained—11 airmen in jail as "spies," 41 civilians imprisoned or refused exit and 11 Navy and Coast Guard fliers missing since their planes crashed off the China mainland in January 1953.

Primary attention centers now on the 11 airmen. Since they were flying for the United Nations in Korea when captured and were held past the Korea truce deadline for exchanging war prisoners, they apparently could qualify under the Peiping formula.

Ask Archers to Event

CHEBOYGAN (AP)—Cheboygan County officials are inviting all archers in the state to the county's first Carp Festival June 5. Bow and arrow anglers will vie for prizes by shooting carp near the mouth of the Cheboygan River. The carp run is reported good at present.

2-Car Crash Kills Man

BATTLE CREEK (AP)—A two-car crash at an intersection on the outskirts of Battle Creek Wednesday night killed Archie Nestell, 63, of Route 2, Battle Creek. William E. Denning, 21, of Route 7, Battle Creek, and Vila P. McGarvey were injured.

Palsy Victim Lends Helping Hand to Others

ANN ARBOR (AP)—Because Sally Phillips has had cerebral palsy from birth, she is willingly tackling a job that many well people shun. She's doing her best to help others.

Sally is 21 now, but she can remember the long days in the hospital and the repeated visits during which she underwent seven operations.

She has left her home in Bad Axe to come back to the University of Michigan's University Hospital, the scene of her youthful ordeals.

But now, she says, "I'm here to help others. It's the best way I can pay them back for helping me."

As a member of the Volunteer Services, an organization at the hospital, Sally tries to bring a small part of home to hospitalized children. She tends to tasks like wheeling her library cart through the various wards with a devotion born of memory.

SHE IS RECEIVING

Sally quickly reminds you that she is receiving as well as giving. Her stilted walk is better and she uses a hand that at one time she thought was useless. She says:

"My job at the hospital has helped build my confidence again. I think it's the same with anyone. You forget your own handicaps. You find you can do many things."

14 Non-Tax Schools Will Split Oil Grant

DETROIT (AP)—Fourteen non-tax-supported colleges will share in a \$13,500 grant to the Michigan Colleges Foundation from the Standard Oil Foundation, Inc.

Foundation spokesmen said the gift is Michigan's share of \$150,000 from the Standard Oil Foundation to aid 145 private colleges in a 14-state Midwest area.

Colleges sharing the grant are Adrian College; Albion College; Alma College; Aquinas College; Grand Rapids; Emmanuel Missionary College; Berrien Springs; Hillsdale College; Hope College; Holland; Kalamazoo College; Madonna College; Livonia; Marygrove College; Mercy College, Detroit; Nazareth College; Olivet College; and Siena Heights College, Adrian.

SCHOOL DISTRICT OF THE CITY OF PONTIAC, OAKLAND COUNTY, MICHIGAN

NOTICE OF LAST DAY OF REGISTRATION

Whereas, the annual election is to be held in said school district on the 15th day of June, 1955.

Therefore, notice is hereby given, that Friday, the 3rd day of June, 1955, up to 5:00 o'clock p.m., Eastern Standard Time, is the last day on which unregistered persons may register in order to be eligible to vote at said annual school election.

Application for registration should be made to the township clerk of the township or the city clerk of the city in which the elector resides.

Persons already registered upon the registration books of such township and city clerks, need not register.

LOLA E. KING, Secretary of the Board of Education, Dated: May 12, 1955. June 1, 2, 1955

INVESTMENT TO BID

The Purchasing Department of the Oakland County Board of Auditors is desirous of obtaining bids on the following commodities:

NO. 6 FUEL OIL Approximately 428,500 gallons for period July 1, 1955 to June 30, 1956. Bids to be submitted no later than 10:00 a.m., Friday, June 10, 1955.

PREMIUM MOTOR FUEL Approximately 46,200 gallons for period July 1, 1955 to December 31, 1955. Bids to be submitted no later than 10:00 a.m., Friday, June 10, 1955.

Specifications and bidding instructions may be obtained from the Purchasing Department.

We reserve the right to reject any or all bids submitted, and the bid may be awarded to the most favorable bidder in the judgment of the Purchasing Department.

PURCHASING DEPARTMENT OAKLAND COUNTY BOARD OF AUDITORS County Office Building, No. 1 Lafayette St., Pontiac, Mich. June 1, 2, 1955

PLUCKY GIRL HELPS OTHERS — Sally Phillips, 21, of Bad Axe, cerebral palsy victim, works with Volunteer Services at the University of Michigan, and finds that assisting others helps build her confidence.

that you never thought you could do again."

For instance, she says, her left hand has always given her trouble. But now, "I find myself using it and never thinking about it."

Even back when she was going to Bad Axe High School, she says, "I decided I wanted to do something useful. It's always been in

the back of my mind to work with children."

In the hospital, Sally is spending a good deal of her time with the children, helping them play, solving their little arguments, but mostly talking and reading to them.

WONDERFUL FEELING

"It gives you a wonderful feeling when you finally get a child to

talk to you," she says. "as they gain confidence and trust in you, you can feel it. You can get their minds off their sickness."

Adults are a little tougher, Sally says. "Many feel more sorry for themselves than children do. They have other worries like family and business. It's harder for them to accept it."

In her two years, working in the hospital, Sally has put in more than 1,700 hours. Now she works a six-hour day, five days a week. She lives in Ann Arbor, and she rests in her apartment. She has to be careful not to overexert herself.

Sally credits her mother and father with most of the early help against the disease that left some of her muscles twisted and helpless.

"They didn't treat me like an invalid. I went to public school. When I came home, I helped around the house," she says.

PARENTS TEACH

Her mother teaches home economics in Bad Axe and her father teaches veterans farm techniques in nearby Ply. Their part in her recovery was very important, Sally says.

But not all the handicapped are this lucky, Sally says. As a member of the League for the Handicapped, Sally even went to Saginaw to attend a league meeting. She is certain of some elements of her own case that would help others.

"I feel that anyone, handicapped or not, should get away from home. When you have some handicaps, it helps an awful lot. I became independent, much more independent than if I had stayed at home. Even in an understanding home, there are a lot of things you have to learn to do for yourself."

Mrs. Adrea Keyes, head of the hospital's Volunteer Services and wife of an Ann Arbor councilman, says Sally got the job because she wanted to help and because she was physically able to do it, even with her handicaps.

Mrs. Keyes' organization put in more than 13,000 hours at the hospital last year. These are direct patient services, and don't include the many hours that groups turned in for the sick and handicapped outside the hospital.

WORK WITHOUT PAY

All the volunteers, like Sally, work without pay. But all of them, like Sally, receive something besides money.

As Sally says, "I hoped that maybe I could do a little to help—perhaps for some other child. Now I feel that I'm needed and that I can do a little in return."

Grunting Worms Paying Business Down in Florida

SOPCHOPPY, Fla. (P)—Grunting earthworms, is a profitable business in many sections of Florida.

Over 100 men, women and children are engaged in grunting, or rubbing up, earthworms in Wakulla County alone; packing them in containers with the proper sand, muck and moss and shipping them to various parts of the South.

To get the worms out of the earth workers drive in short

wooden stakes and then use an axe, spring leaf iron or any other suitable iron for rubbing the top of the stake. The vibration makes the worms—prized as fishing bait—come to the surface.

You can make more worms come out by using batteries connected to steel rods but more worms are killed that way.

One dealer last year shipped over \$12,000 worth to Florida customers alone. Recently one man and his wife grunted up 84 quarts—about 300 worms to the quart—in two days.

About 64 million tons of coal came from Kentucky in 1934.

Tender-Hearted Thug

MINNEAPOLIS (UP)—A soft-hearted thug slugged Wallace Linderoth on the head and took his

billfold. But when he discovered Linderoth had only \$1 in the billfold, he apologized and returned both the billfold and money.

Married 76 Years

SYLVA, N. C. (UP)—Mr. and Mrs. John Bumgarner claim to have been married longer than

anyone else in the United States. Bumgarner, 96, and his wife, 93, began their married life almost 76 years ago, in 1859.

LIFE BEGINS WITH PRAYER

Prayer is like a sugar bowl to make life sweeter.

Much prayer in the home really makes it home sweet home.

Family prayer makes the home ties stronger.

Prayer removes bitterness from life and makes life sweeter.

Mixing prayer in your life sweetens it up.

Prayer increases the longevity of life; lengthens your life by lengthening your prayers.

The amount of time you spend on earth may depend upon the time you spend in prayer.

Why not add years to your life-time by adding hours to your prayer time?

If there was more time spent in prayer there would be less time spent in sick beds.

Don't be run down, be prayed up.

It's better to pray through than be all through.

It's better to go into prayer than to have to go into a sick bed.

Much time spent in prayer often keeps people from wasting a lot of time in sick beds.

Prayer is like vitamin pills to build up those who are run down.

Prayer is a health resort for those who resort to God in prayer for good health.

If you want safety first, pray first, prayer is a body guard.

Much prayer increases the angelic escort for the Christian.

Prayer is a heavenly safety measure for both soul and body.

Prayer is a protection for the home and family.

Prayer should not be a last resort, it should be first.

Prayer causes God to mind your own business.

Sometimes it's hard to mix your religion with your business, but you can always mix your prayer with your business.

A good prayer man makes a good business man because he has God to help him.

Adding minutes to prayers adds dollars to purses.

Prayer is good for the purse as well as the soul because it brings prosperity.

Prayer is often the difference between success or failure, the difference between victory or defeat.

If at first you don't succeed, pray, pray again.

If people prayed over their food at the table before eating it, fewer of them would have stomach trouble.

Giving thanks to God before you eat makes it easier to get more food.

Because of lack of prayer many a food cupboard is bare.

Prayer at the table before eating is a spiritual cocktail to cause you to enjoy your food more and have greater fellowship with those with whom you are eating.

Prayer makes your food taste better because it quickens your taste.

Agreeing together over your food in prayer causes it to agree with you.

He who goes to bed without praying really gets into a spiritually cold bed.

After you tell others good night pray and ask God to give you a good night.

Prayer before going to bed helps to keep you out of a sick bed.

Prayer is a pause that refreshes.

Prayer in one accord removes discord.

If people would resort to prayer they wouldn't resort to a lot of unpleasant things.

The world is full of people who know how to talk to men, but few of them know how to talk to God.

Prayer each day helps to keep sickness away.

Sometimes prayer is the only solution to a problem of life.

Every day is a big event in your life when you are prayed up.

Prayer in the morning is a spiritual shower bath to freshen you up for the day.

A prayer once in a while during the day is time out for refreshment.

A good scripture to prove the power of prayer is James 5:16.

The effectual fervent prayer of a righteous man availeth much.

Saying Amen at the end of a prayer is not enough, it must be asked in Jesus' name. For proof of this, read John 14th and 15th chapters.

Don't waste a prayer by failing to ask it in Jesus' name.

Using the name Jesus often in your prayers makes them more effective.

Lubricate the affairs of your life with prayer and things will run smooth.

Prayer is like a transportation ticket to go places with God.

Prayer is doing some spiritual shopping to receive things from God.

Your joy in life depends much upon your prayer life.

Prayer is a rain maker that causes showers of blessings.

Prayer can give you a Godly personality and put a smile on your face that comes all the way from the inside and won't wash off.

Prayer can get you out of the dumps and drive the blues away.

People can't pray very long before joy arrives.

Isaiah 55:12: "For ye shall go out with joy, and be led forth with peace; the mountains and the hills shall break forth before you into singing, and all the trees of the field shall clap their hands."

Read the Bible lesson over a second or third time for a second or third blessing.

Are you in need of healing, do you have a problem, do you have a special need of some kind? You are welcome to request prayer by sending in the prayer request coupon.

This Revival is backed up with over 85,000 hours of prayer throughout the United States and Canada by the Plunkett Rainbow Prayer Revival, which is on its twelfth big year for God.

Address all mail to: PLUNKETT RAINBOW PRAYER REVIVAL, 502 So. Irving Blvd., Los Angeles 5, Calif. (Write as plain as possible)

LOOKED DEATH IN THE FACE—Nancy Thomas, Columbus, Ohio, lies on an emergency cot in near shock, after she looked death in the face for ten minutes. Nancy, 14, was en route to school with a 16-year-old girl friend, Fran Miller, when they decided to shortcut across some railroad tracks. A freight train had the tracks blocked and Fran crawled under the train and out the other side safely. But as Nancy was under the stalled train it started to move. Her girl friend called to her to get her legs inside the rails and lie still with her head down. Although screaming and in near shock, Nancy stayed that way until the train rolled over her.

UAW Member Hits Strike Fund

Chicago Worker Files Unfair Practice Charge on \$5 Checkoff

CHICAGO (U)—General Motors Corp. today faced a charge of unfair labor practice filed by a CIO United Auto Worker who objected to having an extra \$5 deducted from his pay check as union dues.

The charge was placed before the National Labor Relations Board yesterday by Frank J. Pretzel, 45, of Mokena, Ill., a Chicago suburb. He is a member of CIO-UAW Local 719 at GM's Electro-Motive Division in La Grange, Ill.

The union's national convention in Cleveland voted March 29 to raise members' dues \$5 a month, starting May 1, until its strike fund reached 25 million dollars. Regular dues at \$2.50 a month.

Pretzel, an electrician, said in his complaint to the NLRB that a company supervisor threatened to fire him if he didn't pay the extra \$5. He contended it is an assessment rather than dues.

The local's contract with Electro-Motive calls for a check-off dues collection system under which the employer deducts dues from pay checks of union members.

Pretzel claims that the Taft-Hartley Act forbids the company to threaten discharge except in failure to pay regular dues and initiation fees.

Martin H. Schneid, chief field examiner of the Chicago NLRB, said assessments as such do not come under discharge provisions of the Taft-Hartley Act.

The NLRB assigned an investigator to the case. GM said it had referred the complaint to its legal department for study.

U. S. Report Says A-Bomb Caused No Mutations

TOKYO (U)—A United States report on Japanese children born of mothers exposed to atomic bomb radiation 10 years ago said practically no malformations were observed.

The report, compiled by the U.S. Atomic Bomb Casualty Commission at Hiroshima, was read today at a radiation conference attended by doctors from 10 nations—not including the United States. It met a cold reception.

At the conference, sponsored by a group of Japanese doctors, Japanese already had reported findings on mutations of plants exposed to atomic blasts.

Dr. Leonardo Guzman from Santiago, Chile, commented on the U. S. report: "Mutations in genes and chromosomes can stay hidden in the first generation."

Japanese doctors said their full reports on human malformations will be made at later sessions in Hiroshima and Nagasaki, cities atom-bombed in 1945. The Japanese added, however, their findings are safe.

Says Plastic Surgery Increased Intelligence

ANN ARBOR (UP)—William Taylor, 27, St. Louis, said today he was "firmly convinced" that plastic surgery which gave him a new chin and a rebuilt nose also increased his intelligence.

"Before the surgery I was getting D's," the University of Michigan student said. "Since then I have been getting B's."

Cat Knows Its Rights

WASHINGTON (UP)—At least one cat here has heard of the bill of rights. When firemen tried to help the cat from a second-story ledge of the Capitol yesterday, it protected its position by biting a fireman, scrambling higher and finally leaped to the ground where it disappeared into the shrubbery.

And Now, 'Flotel' Joins Ranks of Hotels, Motels

TAWAS CITY (U)—You've stopped at a hotel, and probably a motel. But what about a "flotel?" There will be one docked in Tawas City for use this summer.

A Flint corporation has purchased the Detroit and Cleveland Navigation Co. boat, the Western States, and will turn it into a "flotel," complete with 263 rooms, shops and a public sun deck for tourists.

It will be renamed the U. S. Overminter.

Top Red Says Russia Would Learn From U. S.

ZAGREB, Yugoslavia (AP)—Soviet Communist party chief Nikita S. Khrushchev says Russia is ready to borrow industrial ideas from the United States or any other nation "if we find them good."

Khrushchev dropped the remark yesterday while inspecting the Rade Koncar Electric Motor factory here with Soviet Premier Nikolai Bulganin and Deputy Premier A. I. Mikoyan. The Russians were winding up a two-day tour of northern Yugoslavia, part of their peacemaking visit to President Tito.

Looking over some of the plant's American machine tools, the Red boss commented:

"We're even prepared, as you are, to borrow ideas from the American methods if we find them good."

Khrushchev heads the Russian delegation trying to heal Russia's seven-year rift with Tito's government.

The peace talks are expected to wind up in Belgrade today or tomorrow. Belgrade radio said a joint Soviet-Yugoslav declaration would be issued at the close.

Port Huron Construction Is All but Halted by Strike

PORT HURON (AP)—Construction in the Port Huron area was all but halted today by a walkout of 60 painters.

The painters, members of Local 1474, Brotherhood of Painters and Decorators (AFL), voted to strike Tuesday night when negotiations with local contractors over wage increases broke down. Some 300 construction workers have refused to cross the picket lines.

H. Robert Wooley, business agent for the local, said the painters are seeking a minimum hourly wage of \$2.60 and fringe benefits. The current average rate is \$2.38.

Lloyds register shows about 1,233 ships were built in the world during 1954.

Farmers Say Wheat Curbs Hampering Crop Rotation

BALTIMORE (AP)—Three farmers have testified in Federal court their opinion that the government's wheat-crop support program throws crop rotation out of gear.

They joined two Ohio farmers yesterday in attesting to what they said was the unpopularity of the program.

The five were defense witnesses at the second day of a hearing before Judge Roszel C. Thomsen of the government's motion for an injunction against Westminster farmer Louis Shafer and his three sons.

The move for an injunction resulted from a trespassing charge

acres of wheat to keep his rotation system going.

Another Carroll County farmer, C. Wilbur Stonestifer, said he "can't rotate" because he only got a six-acre wheat allotment on his 92-acre farm.

Earlier yesterday, Rolla M. Myers of Attica, Ohio, testified he was "refused" his right to vote on quotas in the last referendum because the committee which allotted acreage didn't give him enough to make him eligible to vote.

Hit Oil in Search for Salt

HOUSTON, Tex. (AP)—It's common to hit salt water drilling for oil. But the Texas Co. hit oil drilling for salt water. If wanted a salt water disposal well but at 1,418 feet the well started to flow oil—19 barrels a day.

Indiana Sees Block to GAW Proposal

INDIANAPOLIS (AP)—The guaranteed annual wage proposal being pushed by the CIO United Auto Workers won't work under Indiana law, an expert says.

William G. Stalnaker, director of the Indiana Employment Security Division, said Wednesday an unemployed worker could not draw the maximum state benefit of \$27 weekly for 20 weeks if he was receiving payments from his employer also.

Stalnaker said any payments made by employers would be deducted from the amount of state benefit the workers were entitled to, and thus an unemployed worker would not receive more than the

amount of the benefit from the two sources.

The UAW plan counts on unemployment compensation as part of the worker's income during a layoff.

Lake Gets Two Names in Different Sections

KENOSHA, Wis. (UP)—The county board resolved one of its biggest headaches by "splitting" a lake in half.

The board voted that the northern half of what formerly was Paschen Lake should be named Lake Shangri-La. It voted to name the southern half Lake Benet.

The final decision, however, rests with the state's geographic board. Several groups had tried to get the lake named in their favor.

Nurse's Pay to Send Man Through Medical School

SOUTH BEND, Ind., (AP) — A nurse's paychecks are paying the way into medical school for Stephen J. Prevostnik, 25. And Prevostnik himself is the nurse.

He'll get a premedical degree at Notre Dame this year. For four years he has worked the 11 p. m. to 7 a. m. shift 40 hours a week in local hospitals. His present assignment is the orthopedic ward.

"Sometimes those youngsters really keep you on the move," he says.

He hopes to continue working as a nurse, at least part time, when he moves on to the University of Pennsylvania Medical School. But there is nothing part time about his present job.

HAS FULL SCHEDULE

He carries a full schedule of classes. In the afternoon and evening he studies and sleeps. At 11 o'clock he goes back to his 20 to 50 patients in the ward.

Besides, he's president of the hospital nursing staff, chairman of Notre Dame Red Cross activities and a member of the university honor society.

His father is a miner in McAdoo, Pa. It was there, in high school, that he decided nursing might be the answer to lack of money for a medical education.

He trained for three years with a predominantly feminine class of nurses in Philadelphia and moved on to Notre Dame.

The plan was suggested by a physician when Prevostnik's sister was sick and he was helping to take care of her.

DAD TO SEE CAMPUS

His father will see the Notre Dame campus for the first time at Stephen's graduation, but the whole family is looking forward five years to the time when Stephen will trade his R. N. for an M. D.

She'll Surely See All

LANSING (AP) — State officials scanning a list of election inspectors stopped when they came to one name. They checked further. The inspector's real name is: Crystal Ball.

NURSING A CAREER—Stephen Prevostnik prepares a tray as a nurse to help pay his way into medical school.

More Dentists Now Eight-Year Men

CHICAGO (UP) — Half of all dental students in the United States graduate from college before starting their four years of dental school.

More than three-fourths of the students complete at least three years of pre-dental study, and only 23 per cent enter dental school with a minimum of two years' college work, according to a report in the recent issue of the Dental Students' Register, published by the American Dental Association.

Ten years ago the figures were virtually reversed, with 29 per cent having four years of college and nearly 50 per cent having the two-year minimum, the report said.

Winfield residents hope to get \$100 for each of the 18 miles between their community and tornado-ripped Udall. Watching Mary work is John Hendrickson, commander of the Winfield American Legion Post.

Parley With Tito Proves Disappointing to Russians

By CHARLES M. McCANN
United Press Staff Correspondent

No matter what they may say, the Russians must be pretty disappointed at the outcome of their talks in Yugoslavia.

Some agreements have been announced. Undoubtedly others will be announced before the Russians leave for Moscow.

But the big development is that President Tito has declined to resume the intimate relations which once existed between Yugoslavia and Russia.

The Russians went to Belgrade hoping to induce Tito to make Yugoslavia the southern anchor of a Central European "neutral belt" and to resume full cooperation with the Soviet bloc of Communist nations.

Tito refused. He made it plain from the outset that he intends to maintain Yugoslavia's position as a completely sovereign country.

There is evidence that the Russians were prepared to pay a big price—in cash as well as other concessions—for Tito's cooperation.

As it is, the prospects for the "neutral belt" seem very dim. There are two gaping holes in the wall the Kremlin had hoped to set up—Yugoslavia at the southern end and Germany in the middle.

Another interesting development in the Belgrade conference is the clear emergence of Nikita S. Khrushchev, first secretary of the Russian Communist Party, as the Kremlin's top man.

From the moment of his arrival in Belgrade Khrushchev went out of his way to shove Premier Nikolai A. Bulganin to one side.

Presumably that means that Khrushchev will be the No. 1 Soviet delegate in the forthcoming conference of the Big Four heads of government.

SINGULAR SITUATION

It will be a singular situation. In past such conferences, Josef

Stalin was both Premier and head of the Communist Party. His official position was quite clear.

Khrushchev, however, has no official position according to Western standards. He is head of a political machine.

Khrushchev is still an unknown quantity as a negotiator. He certainly did not get off to a good start in Belgrade. He started off, on his arrival, by annoying Tito with an appeal to return to his old position in the council of international communism.

Then Khrushchev involved himself in an argument with the American ambassador at a state dinner in Belgrade and made some bad-mannered remarks to the Belgian minister at a reception.

Khrushchev had made himself something of a name as a man who talked too much before he went to Belgrade.

MAY BE SMARTER

But he may be a lot smarter than he appears. Certainly, there must be something smart about him or he never would have risen to the leadership of the Russian Communist Party and the leader, in that capacity, of 200,000,000 Russians.

Khrushchev's ability will undergo a real test if he leads the Soviet delegation to the Big Four conference.

Fish's Life Perilous in Minnesota Waters

ST. PAUL (UP)—Minnesota is still the most popular fishing spot in America, according to the U.S. Fish and Wildlife Service.

The North Star State, with its 10,000-plus lakes, sold 1,277,917 fishing licenses during the year ended June 30, 1954. About 75 per cent of the permits went to Minnesota residents.

Runner-up honors went to Michigan, followed by California and Wisconsin.

Three out of four traffic accidents involve passenger cars.

New Mexico Davy Crockett Badman Instead of Hero

ALBUQUERQUE, N. M. (INS)—Eighty years ago, New Mexico had a Davy Crockett of its own, but nobody is likely to write a song about him.

Albuquerque Tribune historical columnist Howard Bryan revealed that a Davy Crockett, nephew or grandson of the Alamo hero, used to ride through the streets of Cimarron, N.M., in the 1870s, shooting out windows and riding his horse into saloons.

Once in a saloon, he amused himself shooting holes in customers' hats, and the hats were not hanging on the wall.

New Mexico Crockett preferred feuding with Cimarron Sheriff Isaiah Rinehart. He often took Sheriff Rinehart to a saloon and forced the lawman to drink until the sheriff passed out.

NO CHALLENGERS

Bryan says Crockett got away with his antics because no law officer in Cimarron wanted to risk beating him to the draw.

One night Crockett was leaving a saloon when a Union soldier tried to enter. Crockett didn't care for Union soldiers. He shot and killed the man, then turned and shot three other soldiers at a table.

Crockett hid out until he heard the sheriff was looking for him. Then he rode boldly into Cimarron shouting his defiance.

Sheriff Rinehart and two deputies were waiting behind a wall. Deputy Joe Holbrook stepped out, covered Crockett with a double-barreled shotgun, and ordered the gunman to raise his hands.

Crockett laughed, bared his chest, and shouted: "Go ahead and shoot. I dare you!"

The deputy obliged. The next day, Davy was buried at Cimarron's equivalent of Boot Hill. Later a member of the Crockett family came from Texas, looked at the crude wooden marker on Davy's grave and removed it, saying he would bring a permanent memorial.

The New Mexico grave of Davy Crockett is still unmarked.

Population of the U. S. has gained one-fifth since 1940, and at the same time the number of children has increased by about two-thirds.

Population of the U. S. has gained one-fifth since 1940, and at the same time the number of children has increased by about two-thirds.

An estimated 54 per cent of the total area of western Europe is suitable for farming or grazing land.

Organ Grinding on the Way Out

Hurdy-Gurdy Musician Claims Italians Seldom Work With Monkeys

ST. LOUIS, Mo. (UP) — Harold E. Turpin wants to set the world straight about his profession of organ grinding before it goes out of business altogether. He claims there are only eight organ grinders left in this country.

There are many misconceptions about them, Turpin said. The outstanding one is the belief that the typical organ grinder with a monkey of Italian lineage.

"There are very few, if any, Italian organ grinders who work with monkeys," he said. "People have just gotten that idea from movies and such. Actually, most Italian organ grinders work with trained birds."

"It's usually the Irishmen who work with monkeys."

Turpin was born in Dublin. He has worked with animals for some 50 years and before that his grandfather, great-grandfather and great-great-grandfather were animal trainers. His father was a veterinarian.

Turpin has appeared in a number of movies, almost always cast as Italian organ grinder with a monkey.

He explained that Dutch, Belgian and Hungarian organ grinders usually work with bears.

The main reason for the thin-

WHAT'S MY LINE?

ning number of organ grinders is the passing of the old-fashioned, wood-pipe hand organ, he said. New organs have metal pipes that produce an altogether different tone.

Turpin's organ was handed down to him by his grandfather, an animal trainer with the old Hagenbeck Circus in Amsterdam. The instrument was made in 1876

in Frankfurt, Germany.

Turpin travels with a show but most of the eight organ grinders in the United States stay in particular sections of certain cities.

One works Bourbon street in New Orleans and another stays in San Francisco's Chinatown, he said.

"One man who works down in Houston, Tex., is even paid weekly by the city's Chamber of Com-

Houston Shrine Needs Repairs

Legislature of Texas Urged to Fix Up Home of Lone Star Hero

HUNTSVILLE, Tex. (UP)—Wigwam, a house that is to Texas what George Washington's Mount Vernon is to the nation as a whole, is beginning to fall apart. A drive is under way to get the legislature to do something about it.

Wigwam was the home of General Sam Houston, first president of the Republic of Texas and its military hero in the war to gain independence from Mexico.

On its porch and under the surrounding trees, the general and statesman made great decisions a century ago. There he entertained his friends and lived with his family. He conducted his law practice from a nearby log cabin.

After his death, the house changed hands many times. Early in this century, Texans began to recognize it as a possible shrine and it was repaired and renovated.

But interest waned, and the house fell into disrepair again. At one time, it was used to house chickens and hogs.

In 1926, interest was revived. The house and the park surrounding it were given a financial boost by the legislature, after urging by many persons.

At present, the house built by the hero of the battle of San Jacinto needs a new roof and general overhauling. The legislature is being urged to spend money on it before it is too late.

The house and park not far from the Huntsville business section attract thousands of visitors each year. Many of Houston's personal possessions have been kept in a small museum there.

Mrs. William Longino, widow of a former professor at Sam Houston State College in Huntsville, has been serving as director of home and grounds since 1953. But her efforts alone are not enough.

"It is unthinkable," she said, "that the great state of Texas would leave the home of Sam Houston at the mercy of the world—untended and unloved. Sam Houston's home is not being kept up in a manner worthy of the great patriot, nor in accordance with the pride of Texas."

Billy Graham Faces Tough Challenge in Couldn't-Care-Less French Crowds

By GEORGE BURNHAM
Chattanooga News-Free Press
Staff Writer

LONDON—Evangelist Billy Graham is leaving Great Britain this week to face in France the most cynical, couldn't-care-less, crowds of his ministry. But he takes with him the assurance that the Bible can knock down man-made barriers.

An unusual example of this was seen last week when Billy, ordained minister of the Southern Baptist Convention, was given a foot-stomping ovation in Edinburgh, Scotland, amid pomp and pageantry at the Presbyterian General Assembly.

He had been invited to attend the assembly as special guest of the Duke of Hamilton, lord high commissioner and cousin of the queen, and was given quarters in Holyrood Palace.

In the usual course of events, as people in the U.S. well know, Presbyterians just don't go around doing things like that for Baptists. But Billy seems to have broken across practically all denominational lines as he preaches one message, "Jesus Christ, and Him Crucified."

EMPHASIZES PRAYER

The tall, young North Carolina preacher addressed the assembly briefly, saying:

"The essence of any evangelism is prayer, unity and the teaching of the Gospel of the Lord Jesus Christ. We give thanks to God and to you for your tolerance and sympathetic understanding, your co-operation and your prayers, God bless you and thank you very much."

The Rev. D. P. Thomson, one of the leaders of the Tell Scotland movement, asked the assembly "to give thanks to God for the work accomplished through his servant, Dr. Graham." He said he was not asking the assembly to endorse Dr. Graham's theology, or his methods, or his views about anything.

"But I do ask you to say this," he said, "Dr. Graham has been God's messenger to us at this time."

Thunderous applause followed the remark. Billy sat with his head bowed.

Dr. Paul Maddox, chief of chaplains in the European theater dur-

ing World War I, was visiting in London one day in 1946 and heard that a young American preacher named Billy Graham was to speak at a church that night. He attended the service.

Afterwards he was so enthusiastic over the man and message that he had his wife come over from Germany to hear him. As they sat in the congregation, Dr. Maddox overheard a remark from a couple in the next seat.

"I wish all of England could hear this young minister," said the man to his wife.

This wish came true on Good Friday of 1955. Over television, radio and relay, Billy spoke to the 30,000,000 in one night. Dr. Maddox is now a special aide to the young preacher he heard in 1946.

A good-looking young Englishman was mad at Billy Graham for months after his girl friend was converted last year at a meeting in Harringay Arena. He couldn't adapt his life to her new way of thinking and a split-up followed.

The Englishman grew more bitter with the passing months and recently when Billy held a press conference in London, he planned with a photographer to humiliate the evangelist. The plan was that as soon as Billy got up to speak, the Englishman would walk up, slap him, and the picture would be blazoned on the front page next day. But when Billy arose, the Englishman stayed in his seat. "Go ahead," said the photographer. But the man refused, saying

he "just couldn't do it."

Several days later, during a Saturday afternoon service at Wimberly Stadium, the young Englishman walked down from the stands when the invitation was given and took his place before the platform with hundreds of others making decisions for Jesus Christ.

The story might sound better if he was reunited with his girl, but

such is not the case. She is married to another.

He is no longer bitter, however. I had lunch with him one day and he remarked:

"How is it possible for one to overlook such a wonderful experience as this for so long?" And he smiled happily as he said it.

The best way to turn a record over is to the armed forces camps.

Young Shade Trees Need Favor Return

MADISON, Wis. (UP)—Trees have protected men from the sun for a long time, but now it appears the favor should be returned. George Ziegler, University of Wisconsin landscape specialist, said newly planted trees, especial-

ly those with smooth barks, should be given winter shade.

The sun will thaw a tree during a winter day, but it will freeze again during the night and this is often the cause of stunted growth. Such repeated changes also can crack the bark.

All it takes to protect such a tree is a board leaned against the trunk to block out the sun or a loose wrapping of cardboard.

\$6.95 You couldn't find anything nicer, for Evans Slippers are always the greatest gift in the world for a man.

Medical Auxiliary Reviews Busy, Important Year

Mrs. D. F. Hoyt (left) was hostess to the Auxiliary to the Oakland County Medical Society Wednesday at her Maceday Lake home for the annual meeting. Photographed with her (left to right) are Mrs. Ivan A. LaCore of the State Hospital grounds, Mrs. E. W. Bauer of Hazel Park, Mrs. M. G. Prosser of Orangegrove avenue and Mrs. E. F. Collins of West Iroquois road.

Lining up for the picnic luncheon held at the Maceday Lake home of Mrs. D. F. Hoyt Wednesday were Mrs. John Williams of Commerce street, Mrs. Joseph Ruva of Club drive, Mrs. R. Hamilton White of Birmingham and Mrs. Vincent P. Russell of Pleasant Ridge (left to right). They were attending the annual meeting of the Auxiliary to the Oakland County Medical Society.

Relaxing just before the meeting of the Auxiliary to the Oakland County Medical Society Wednesday were (left to right) Mrs. Harold Kendrick of East Kennett road, Mrs. James Quinn of Marlborough drive and Mrs. Edward Maxim of Hickory court. The annual meeting of the auxiliary was held at the home of Mrs. D. F. Hoyt on Maceday Lake.

Appoint New Committee Chairmen

Wednesday ended an important year for the Auxiliary to the Oakland County Medical Society.

It has been a year filled with activity. Under the chairmanship of Mrs. N. E. Durocher, the group continued its contribution to the nurses' scholarship fund, and did much in the way of civic volunteer work.

At the Wednesday meeting held at the Maceday Lake home of Mrs. D. F. Hoyt, Mrs. John J. Marra read "A Salute to the Ladies" from "The Bulletin," which is published by the Oakland County Medical Society.

Michigan State Medical Society's public relations objective, "Making Friends for Medicine."

AIDED BY AUXILIARY
Twelve agencies and societies benefited from gifts from the auxiliary.

Jeanne Simpson Honored at Shower

Jeanne Simpson, bride-elect of James Joseph Kothe, was feted Wednesday evening with a linen shower held at the Pine Lake home of Mrs. Harold S. Jacobsen. Co-hostesses for the affair were Mrs. Carrie Jacobsen and Mrs. Harold S. Jacobsen Jr., both of Lake Orion. The bride-elect is the daughter of Mrs. Henry M. Simpson of Gladstone place and the late Mr. Simpson. The prospective bridegroom's parents are Mr. and Mrs. Henry Kothe of Royal Oak. Jeanne and James will exchange nuptial vows June 18 at St. Michael Church.

iliary. The group gave \$100 to the American Medical Education Fund in the name of Dr. Robert H. Baker, to commemorate his term as president of the Michigan State Medical Society.

As a special Christmas effort, the auxiliary collected \$50 for the Child Psychiatry Program at Pontiac State Hospital. And several gifts of toys were presented to the Michigan Children's Aid Society.

At the Wednesday meeting Mrs. Durocher presented the gavel to the new president, Mrs. Ralph Fox of Birmingham.

Other officers for the 1955-56 year include Mrs. John Williams, vice president; Mrs. George Virga, secretary; Mrs. John Norup, treasurer; Mrs. M. L. Shadley, auditor, and Mrs. Donald Smith, parliamentarian.

CHAIRMEN NAMED
Committee chairmen appointed by Mrs. Fox include Mrs. James

Quinn, membership; Mrs. Joseph Ruva, house; Mrs. Ivan A. LaCore, social and Mrs. Vincent P. Russell, reception.

Others are Mrs. Robert Lyons, program; Mrs. John Whitehouse, publicity; Mrs. George Evaceff, public relations; Mrs. Ralph Wiggent, budget; Mrs. Kenneth Vandenberg, ways and means, and Mrs. Rockwood Bullard, legislation.

Mrs. M. G. Prosser, nurse recruitment; Mrs. Edward Maxim, telephone; Mrs. Russell, courtesy; Mrs. French McCain, welfare; Mrs. Robert Bannow, bulletin, and Mrs. Marra, yearbook, complete the list.

Called to Sturgis
Mr. and Mrs. Hector L. Monroe of State avenue have been called to Sturgis due to the death of her brother, Floyd Lewis.

THE PONTIAC PRESS

PAGES 29-33

Mrs. N. E. Durocher (right) of Old Orchard drive turns the president's book over to Mrs. Ralph Fox of Birmingham who is the new president of the Auxiliary to the Oakland County Medical Society. Officers were elected at the Wednesday meeting held at the Maceday Lake home of Mrs. D. F. Hoyt.

20 Brownies Will 'Fly Up'

Monday will be a big day in the lives of some 20 Brownie Scouts at Webster School. They will participate in a "flying-up" ceremony which will end in their becoming official Girl

Scouts. The ceremony will take place at 4 o'clock in Grace Lutheran Church. Leaders of the troop are Mrs. Charles P. Barker and Mrs. Ivan A. LaCore. Receiving their "wings" will be Althea Bell, Jane Bigler, Christine Bos, Susan Dawe, Gretchen Gaenshauer, Helene Schultz, Sharon Sue Snyder, Barbara Bran-

nock, Lauren Kay, Julie Nagal, Carol Renee, Marjorie Whitehouse, Kathie LaCore, Valerie Dickie, Sherry Dudley, Susan Rogers, Marilyn Morris, Pamela Griffin, Patty Hamilton and Barbara Jo Graybiel. Mrs. LaCore will be the Girl Scout troop leader when the fall activities begin.

Wever PTSA Discusses '55-'56 Plans

Mrs. Francis Oak Opens Her Home to Board Members

Program planning occupied the time of the Wever Junior High School PTSA executive board Wednesday evening when members outlined plans for the 1955-56 school year.

Hostess to the group was Mrs. Francis Oak of North Lake Angelus road.

Announced as committee chairmen and members were Mrs. Wayne Weaver, Robert Lake, George Yansen, Mel Staebler and Nancy Weaver, program committee, and Mrs. Leonard Terry, Mr. and Mrs. Lyle Verner, Francis Oak, Patricia Stiles, Lucy Morris and Tom Holsington, membership committee.

Serving on the hospitality committee will be Mrs. William Mihalek, Lois Bowman, Mildred Rich, Robert Ford, Bill Mihalek and Gary Oak. Mrs. Lyle Cox will be in charge of room representatives.

OTHER MEMBERS

Other committee members include Mr. and Mrs. John Bee and Joan Bee, teenage activities; Donald Porritt and Richard Gould, civil defense; Mrs. Robert Lake,

There Are Five Pages in Today's Women's Section

Mrs. Robert Grant, Norman Felt, Rosalie Lake and Penny Grant, finances.

Mrs. Walter Trietsch is in charge of publicity, with Mrs. Thomas Johnson handling juvenile protection.

Others include Mrs. Norman Vincent, parent education; Mrs. James Rouse, magazines and publications; William Coffing, music; Mrs. Harry Landis, mental health, and Mrs. Keith Pierce, parliamentary.

Check Guest Room

Check the guest-room bath, or the dresser in the guest room. There should be: lots of small, clean five-and-dime combs, many new toothbrushes, disposable cotton powderpuffs, an inexpensive razor and new blades, towels and washcloths, if you really want to say "do stay, you're welcome."

Coming Events

Ladies Auxiliary FOM 1370 has cancelled meeting for this evening. Royal Neighbors Get-together will be held Thursday at 10 a.m. with Mrs. Dale Kline, 233 N. Cass Lake Rd. Cooperative luncheon will be served at noon. Ladies Auxiliary FOM 1370 has postponed indefinitely a benefit card party originally scheduled for Friday evening. White Rose Social Club will meet Friday with Mrs. Burton Miller, 147 Drake Ave. Maplewood Lancers Club will meet at Richards Inn Friday for 12-30 luncheon meeting.

Pontiac Owes Hospital to Foresighted, Hard-Working Women's Group

Although you rarely hear of the Oakland County Hospital Association, this organization, composed of Pontiac area women, was the one which saw the possibility of having a Pontiac city hospital and made its dream come true.

On May 14, 1901, six women met in Pontiac and considered ways

and means of providing hospital facilities for Pontiac. In November of that year the present corporation was organized and the late Mrs. Samuel W. Smith became its first president.

Shortly after the association was organized the membership grew to over 100. The women carried on many activities in an attempt to raise money, including rummage sales, catering at banquets, managing lecture courses and maintaining a rest and lunch room at the State Fair then held in Pontiac.

In 1906 the women purchased the property where Pontiac General Hospital now stands and in the same year employed an architect to prepare plans. The following year the plans for the first section of the hospital were approved.

OPENED IN 1910

The hospital was opened May 18, 1910, with Margaret Meigs as the first superintendent. Reports show that from the opening date to Dec. 31 of that year 165 patients were admitted, with a daily average of 12 patients.

Bureau Gives Farewell Party

Thirty employees of the Bureau of Social Aid gathered at Morey's last night for a farewell party for co-worker Mary Dillon.

Employed at the bureau for the past 10 years, Miss Dillon is leaving July 1 to take vows at Sisters of St. Frances of Rice Lake, at Rice Lake, Wis.

She will be the organist there, and also will assist in the adjacent home for the aged.

Bleach Eases Task of Washing Socks

No matter how dirty they are, junior's cotton or nylon socks can be washed quickly and thoroughly when you add chlorine dry bleach with the detergent to the wash water.

The new dry bleach can be used effectively on cotton, linen, nylon, duffon and orlon and save the extra rubbing that wears out the socks.

The board of trustees of the hospital association, elected at the annual meetings of the membership, was the body in charge of the operation of the hospital.

An addition to the hospital was built in 1912. In July 1915 the association made a gift to the

city of the hospital and all of its contents, as well as the land surrounding the building.

Practically each year from the time the hospital was turned over to the city until the present time the association has made valuable gifts to the hospital.

GIFTS PRESENTED

The gifts include furniture for the waiting room, blood bank equipment, incubators, junior and adult oxygen tents, bassinets and a cardiograph.

Business at a recent annual

meeting of the association included a report stating bonds of the Charles Stinchfield estate have been called and the money will be reinvested. Only interest from bonds is used by this perpetual organization for its purchases.

Emma E. Howard is president

of the association at the present time. She is being assisted by Mrs. E. M. Evans, first vice president; Mrs. Ross Stockwell, second vice president; Mrs. Harry Goring, secretary; and Mrs. Clark J. Adams, treasurer and financial secretary.

The hospital purchasing committee is composed of Mrs. Adams, Mrs. L. A. Farnham, Mrs. Maxwell L. Shadley and Mrs. Stockwell.

Membership is being handled by Mrs. G. Roy Williams; Mrs. Goring is custodian, and Clarence K. Patterson and Mrs. Adams are in charge of bonds. Publicity is being taken care of by Mrs. Shadley and Mr. Patterson.

You'll take to the sun with assurance in this bold jungle print featuring the wonderful new lilion. Easy to pack and a cinch to wash. —needs no ironing if hung up to dry. Porous lilion keeps you cool and wrinkle free. Low necked halter blouse is of white waffle pique.

Cadillac separates featuring lilion, the newest of the "wonder fabrics" is shown in a floral print skirt that is designed to travel sans weight, fuss or bother. It can be stuffed into a small overnight bag and unpacked without a crease or wrinkle. The skirt is completely washable, including the jeweled applied roses.

Put Retirement Days to Good Use

By ANNE HEYWOOD

More and more, it seems to me, people are beginning to give intelligent thought to what they'll do after retirement, instead of waiting till the last minute to make their plans.

Here is a letter I received recently: "My husband loves to repair toys," writes Mrs. Smith.

"He does it for our three grandchildren and for some of their friends.

"Broken bikes and wornout doll carriages and all kinds of toys come out almost like new when he finishes with them.

HELPS WITH PAINTING
"It's quite a hobby, and one that interests me, too. In fact, I do the upholstery on doll carriages and help paint wagons and other toys.

"Do you think there's any chance of making any money at it, eventually? You see, in six years John will be retired.

"While we won't starve to death, we won't have much for extras; and of course, we do want to have something useful and interesting to do.

"What do you think of the chances of our success with a toy-mending service?"

Answer: This venture sounds promising to me, provided the Smiths don't expect to make a fortune at it. Here are some suggestions I would make to them:

PLAN NOW
Arrange your retirement budget now—while there's time—in such a way that your insurance (and in-

vestment will carry the fixed expenses.

Then the toy repairing project will not be burdened with the need for making money and will be counted on simply to supplement your income.

A project like this can be crushed at the start if too much is expected from it.

Work will get hasty and shoddy, customers will disappear.

Begin now, in a small way. It's all right to do your grand-

children's toys for fun; but when it comes to other people, do charge a small fee.

If you repair a valuable toy for somebody not in the family, charge for the service.

BUILD REPUTATION

Begin to build a reputation. If your church, Police Station or Fire Department have a toys-for-Christ-

mas project, offer to do the repairing for free.

This will help the community and will also get word around that you and your husband do excellent toy repairs.

Little by little, from the money you make in the next six years, invest in the kinds of tools you will need.

In this way, when the time comes for the grand opening, you won't have to make any capital outlay.

And when the time does come, write me again and I'll help you plan your fees, advertising, and other important factors.

A soufflé will remain light and fluffy after it's removed from the oven, if 1/4 teaspoon of cream of tartar is added to beaten egg whites during the mixing.

When she isn't home, a housekeeper looks after the five children.

But Mrs. De Vee for all her talent as a truck driver says "After all these years, driving is just plain hard work; I'd just as soon stay at home.

Her husband has been driving big trucks along the coast for 30 years. Mrs. De Vee started keeping him company on the long hauls about 14 years ago and when he tired, she spelled him at the wheel.

When he switched to hauling general freight three years ago, he bought his wife a present—the 78,000-pound diesel rig she now drives.

Mrs. De Vee has a perfect safety

record. She copes with two sets of gear-shifts that mesh into 24 forward and four reverse speeds.

And like any other heavy freight jockey, Mrs. De Vee can repair motors if she gets in trouble on the road.

When the feet of American women are getting bigger—probably from putting them down so hard.

record. She copes with two sets of gear-shifts that mesh into 24 forward and four reverse speeds.

Like to Date Princess Margaret? Well, Here's How:

By JAMES F. KING
LONDON — Like to date Princess Margaret? There's a set protocol on trying to arrange a date—and how to behave if you succeed—according to a new book published here this week.

It sounds simple enough as outlined by journalist A. Noyes Thomas in his "The Queen's Sister."

Just telephone Margaret's lady in waiting at Clarence House, where the princess lives, and say: "I am wondering if Her Royal Highness would care to join a small party I am giving on (you name the date) at the theater (you know the show) and afterwards at supper at the (you name the night club.)"

The lady in waiting jots down the details. In a couple of days you'll be told whether the princess can make it or not—usually not. If you happen to be one of the young men who has squired Margaret previously, the procedure is a little different. First call the lady in waiting. Then: "Good morning," comes a lit-

ing, musical voice. "How are you today?" "Thank you, ma'am, very well. And you?" The royal voice will then inquire bluntly. "Have you an invitation for me?" "Ma'am," says the young man, "I am thinking of arranging a small party for the theater and for supper afterwards..."

You name date, place and guests. "Oh, not so-and-so, surely," the princess may say. "He's such a bore."

Once an acceptable substitute is named. "Well I'll try to fit it in. I'll let you know. I'd love to come."

There's plenty of bustle making arrangements with plenty of flowers.

When seated in the theater, the escort asks on behalf of his guests, "Ma'am, may we have permission to smoke?"

Permission is always granted and Margaret usually takes one of her own cigarettes and uses a long cigarette holder.

At the night club, the party is discreetly led to a side table.

"What would you care for, ma'am?" asks the host.

Her favorite menu—iced melon, consommé, smoked salmon and veal cutlet—"just one please."

The first dance goes to the host but the princess is careful to ration out the others to each young man in the party.

In the early hours, usually around 2:30 a.m., the princess is likely to say, "I think I had better be going."

She never carries any money and her lady in waiting tips the woman attendant in the powder room 10 shillings (\$1.40).

A few days later the young man gets a letter from the lady in waiting: "Her royal highness has commanded me to thank you for a most pleasant evening."

Dawsons Honeymooning in East, South

Honeymooning in the Eastern and Southern states are Mr. and Mrs. Lloyd J. Dawson.

The bride is the former Frances G. Mansfield, daughter of Mr. and Mrs. William J. Mansfield of South Edith street. The bridegroom is the son of Mr. and Mrs. W. H. Dawson of Oak Hill street.

First Methodist Church was the setting for the 3 o'clock ceremony performed before an altar decorated with baskets of white flowers and candelabra.

The Rev. Paul R. Havens performed the ceremony Friday evening.

As the bride approached the altar with her father she was wearing a floor-length white taffeta gown with overskirt of net.

DAISY MOTIF USED

The Peter Pan collar was edged in daisies and the same floral pattern was scattered over the skirt. The sleeves of the gown were fashioned in three-quarter length.

A lace cap edged with seed pearls secured her waist length veil. She wore mother-of-pearl earrings and carried gardenias surrounded by white daisies in a Carlton arrangement.

Mrs. William H. Eldridge attended her sister as matron of honor wearing a ballerina-length gown of powder blue shantung, fashioned with a net overskirt and bolero jacket.

She carried an arrangement of powder blue carnations surrounded by scattered daisies in a darker shade of blue. Her headpiece was designed of blue daisies and net.

PRESENTED RECITAL

Mrs. William H. Mansfield, sis-

ter-in-law of the bride, sang the bridal recital.

Vern Rains served as his brother's-in-law best man, and seating the guests were Arthur Mansfield, brother of the bride, and James Jackson.

For a reception held immediately following the ceremony in the church parlors the bride's mother wore a rose-beige dress with pink accessories and a corsage of white roses.

A coral dress with white accessories and a white rose corsage was the choice of the bridegroom's mother.

When the couple left on the wedding trip the new Mrs. Dawson was wearing a pink linen suit with white accessories and a gardenia corsage from her bridal bouquet. They will reside on Lincolnshire boulevard.

SHARON REDENIUS

A fall wedding is being planned by Sharon Redenius, whose engagement is announced by her parents, Mr. and Mrs. A. H. Blaquart of Inglewood avenue. Her fiancé, Richard Manning, is the son of Mr. and Mrs. Clifford Manning of Oakland avenue.

Fireside Club Meets

Hostess when the Fireside Club meets at 1 p.m. Friday will be Mrs. Arthur W. Seldon of Cooley Lake road. Mrs. Robert Armstrong is in charge of the book review.

St. Dunstan Guild to Stage Futuristic 'R.U.R.' Four Times This Month

By RUTH SAUNDERS
BLOOMFIELD HILLS—St. Dunstan Guild's annual out-of-door production in Cranbrook's beautiful Greek Theater will be given June 10 and 11 and the 17th and 18th. If a performance is rained out an extra show will be given Sunday, June 19.

Nathaniel Dougherty is directing the 1921 classic "R.U.R." (Ros-

sum's Universal Robots) by Larel Capek at 9 o'clock each evening. Mrs. Robert Harris is assistant director and Mrs. John Warner is designing the futuristic setting.

Production managers are Mrs. Frederick E. Booth and Mrs. Rogers I. Margolis and they will be assisted by Frederick Hendrick, Maurice Smith, Elaine Appel, Mrs. Sheldon K. Noble, Ray

Base, Mrs. Hendrick, Mrs. Dwight Ensign and Lewis Keenan Jr.

Jervis B. McMechan has adapted the play for the Greek Theater and has made it so timely that TV space cadets seem old-fashioned in comparison.

The cast includes Weston Meyer, Mrs. J. E. Berne, Mrs. Robert Harris, Jim Schneider, Paul N. Averill, Harry D. Wise Jr., Syver Thingstad, Mrs. Henry M. Jackson, Barbara Hamel, Ned Schneider, Frederic Graef, Richard Miner, Mrs. Fred Hendrick and Mrs. Albert J. Bryner.

RETURNS HOME
Mrs. George Sloan returned Wednesday to her home in New York after a visit with her brother-in-law and sister, Mr. and Mrs. Henry S. Booth, at "Thornlea".

Arriving Thursday for a few days' visit in the Booth home will be Archibald Turnbull of Brantford, Ont., and next week Robert Grant of Chicago will come over for a brief stay with the Booth family.

Miss Margaret A. Augur of Greenwich, Conn., former headmistress of Kingswood School Cranbrook, will come from her home for the school's graduation ceremonies next weekend.

Five Kingswood seniors who will sail for Europe together June 23 include Melinda Booth, Judy Earl, Joan Lang of Pleasant Ridge, Ann Oliver of Pontiac and Mimi Neely.

The girls will sail from Montreal on a Campus Tour on the Cunard SS Saxonia.

Keep Nylon Wear From Yellowing

The day has passed when you have to put up with the tendency of nylon garments to grey or yellow with wear.

You can bleach nylon regularly and a good chlorine bleach will keep your nylons white as new. Simply use chlorine bleach according to directions every time you wash your nylon slips.

Chlorine bleach in the new dry form is completely safe for nylon, dacron, orlon, or mixtures of these fibers.

Just be sure the fabric does not contain rayon, silk or wool in combination with the miracle fiber.

The orientation course of the Oakland County Chapter of the American Red Cross Wednesday gathered together an assembly of area persons interested in vital volunteer work. Among them were (left to right) Mrs. B. D. Mills of Birmingham; Mrs. F. M. Brook of Bloomfield Hills; Mrs. Ira Inwood of Ferndale and Mrs. F. M. LeRoy of South Avery street.

of young men who gave a very successful one a year ago.

The hosts will be Bruce Smith, Edward A. Proctor Jr., Jerry Gillette, Peter Whitelaw and Jack Moses.

Mr. and Mrs. S. Gordon Saunders will leave next week for Watertown, Conn., to attend the graduation of their son, Stephen, from the Taft School.

On Friday Mr. and Mrs. Leroy G. Vandever will open their Adams road home for an evening benefit for the University of Michigan chapter of Alpha Omicron Pi sorority.

During the evening of cards and a smorgasbord supper, girls from the active chapter will sing a group of songs.

Dining Room Nose Blows Annoy Eater

To Blow or Not to Is Advice Sought by Letter-Writer

BY EMILY POST
Today's first letter tells me: "Quite often of late I have noticed an increasing number of people blow their noses in a public dining room."

"Not too infrequently have I had someone at my own table do the this. I find this habit quite nauseating and disgusting and since these are people of seeming refinement I have often wondered if my resentment in is error, or is it permissible to do this."

"Eating alone, I would say it would be quite all right, but when another person is seated at the table."

"I know that in our house when either my husband, daughter or myself have to blow our nose, we leave the table. I would appreciate your comments on this not very pleasant subject."

Answer: One should, of course, avoid blowing one's nose at table if possible.

But if this is unavoidable it should be done as briefly and silently as possible, and one does not draw further attention to it by apologizing. It is not necessary to leave the table.

"Dear Mrs. Post: When serving salad with the main course, but on a separate plate, is it necessary to provide a salad fork, or may the salad be eaten with the dinner fork?"

"I think it is much more practical to eat both meat and salad with the dinner fork, rather than switch from one to the other."

Answer: While it is proper to provide two forks, I agree with you that when served with the meat course, a separate salad fork is entirely unnecessary and can be eliminated.

"Dear Mrs. Post: When two ladies and a gentleman arrive together at a church wedding, how does the usher take care of seating all three guests?"

Answer: He gives his arm to the other lady and the other follows on the arm of the gentleman. If they are about the same age, it does not matter which one the usher escorts.

Sleeping Pills Safe Only If Prescribed

Don't take sleeping pills without your doctor's consent. They're dangerous if not used with medical precaution, harmless if used correctly.

This goes for borrowing them from friends, too.

Guidance Club Conducts Installation

Mrs. Walter Mann was installed as president of the Parent Guidance Club when members gathered Wednesday evening at Hi-Land Manor for the last dinner meeting of the year.

Mrs. Edwin Vierich was installed as vice president; Mrs. John Sellman as treasurer; Mrs. Sam Joan as corresponding secretary; and Mrs. James Fortier as recording secretary.

Mrs. Max Coleman, outgoing president, welcomed members and guests preceding the dinner. Guests included Mrs. Jack Newman and Mrs. Henry VanderVelde.

An artistic arrangement of peonies, daisies and iris was provided by Mrs. Edwin C. Barnhart for the dining table.

Committee members announced by Mrs. Mann for the coming year were Mrs. John Huntzinger and Mrs. Gordon Reynolds, program; and Mrs. Q. R. Mahan and Mrs. Lucius Howlett, social.

OTHERS SERVING
Mrs. Robert Mott and Mrs. Royal Bradford are serving on the welfare committee; Mrs. Earl Foster and Mrs. Edwin Barnhart on homes and devotions committee, and Mrs. Bob Ensworth is handling publicity.

Mrs. George Watts are on the telephone committee, and Mrs. U. H. Barnett, Mrs. Ronald Hayward and Mrs. Ralph Dawe, finance committee.

Mrs. Charles Uligian is parliamentarian and Mrs. Max Coleman and Mrs. Robert C. Olsen are delegates to the Pontiac Federation of Women's Clubs meeting.

Announcement was made at the dinner of a card party to be sponsored by the federation on June 15 at Roosevelt Temple.

Mrs. Coleman will be hostess for the first meeting in September.

THERESE MARY FARRELL
Therese Mary Farrell, daughter of Mr. and Mrs. Thomas Farrell of East Russell street was graduated from Mercy School of Nursing, at exercises held recently at the Detroit Institute of Arts auditorium.

BETTY JANE SPADAFORE
Betty Jane Spadafore, daughter of Mr. and Mrs. Joseph Spadafore of West Iroquois road, will be graduated from Saint Mary's College, Notre Dame, Ind., at the college's centenary commencement exercises Saturday. She will receive a bachelor of science degree.

Put Chlorine Bleach on Bread Boards

For unpainted bread boards or cutting boards, there's nothing like a good chlorine bleach to take out stains and keep the boards really clean. Wet the board, sprinkle over the surface the new chlorine bleach in dry form. Let stand a few minutes to remove any heavy stains. Wipe and rinse thoroughly.

Business Women Plan for Parley

Members of the Tipac Chapter of American Business Women's Association took a look into the future Wednesday evening, making plans to attend the regional conference in Flint on June 23 and 26.

The group arranged for a picnic to be held at Mrs. William Asher's Watkins Lake home on July 6. Following their dinner meeting at Hotel Waldron, members heard Miss Adah Shelly, Pontiac city librarian, review current books.

She included such authors as Anne Lindbergh, Betty MacDonnell, Nella Gardner White, Ethel Barrymore and others.

"Music in Motion," a movie sponsored by Michigan Bell Telephone Co., was viewed by the group.

The ways and means project of the evening was conducted by Mrs. Ruby Brusha. Named by the president, Mrs. H. C. Brooks, to a scholarship committee were Lillian Laska, chairman; Mrs. Asher, Mary Anne Clifton and Julie O'Brien.

Prior to the dinner, invocation was given by Mrs. Brooks.

Summer Suits Have Fall Look, Dark Colors

Tropical worsted suits for summer sidestep the long-accepted theory that warm weather calls for light colors. The leading shades are in the charcoal family—charcoal brown, charcoal blue and charcoal green. These colors are close cousins to the ones that were first shown last fall in wool flannel suits.

The difference lies in the fact that tropical worsted fabric does not have the nap that flannel does (one reason why wool tropical suits are cool) and the absence of nap refracts the light differently.

Many of the new tropical worsted fabrics are made with minute color patterns on dark backgrounds and are worth a close examination. More about that when spring turns more minds to warm weather clothes.

Summer Romance All It's Supposed to Be?

By ELIZABETH WOODWARD

"Dear Miss Woodward: I met him two years ago during the summer and we had a lot of fun together."

"He said he'd call me during the fall and winter, but he didn't."

"Last summer I saw him again and we went out together and had more fun, and I expected he'd turn up this past winter, but he didn't."

"Now I've met another fellow who likes me. He asks me why I seem so far away when I'm with him. It's because I'm always thinking of my 'summer beau.'"

"My friends think I should forget about him completely, but I can't. They even say that I should refuse if he asks me out next summer."

"But that would be hard to do. I need your help badly."

Answer: You've had two years of experience with this lad—quite enough time to have found out that when you're conveniently in

the same locality it's logical that you should date.

And when you're apart, and it takes some effort to get together, you just plain don't see him. It's a digestible fact—one that's easy to handle.

If you'll convince yourself that he fits into your picture only at a certain time of year and in a certain place. And you won't let him haunt your thinking in other places and at other times.

That haunting (which is of your own doing, you know) will keep you from having fun for most of the year.

It makes you miss out. Seems sort of unkind to yourself, doesn't it?

"Dear Miss Woodward: A couple of days ago Bill wrote me a note asking me to go to the dance with him."

"He's nice, but I don't like him too well. So I told him I had heard that another boy was going to ask me so I couldn't go with him."

"Now, if this boy does ask me

would it be all right to go with him?"

Answer: A bid in the hand is always worth two in the maybe, I always say.

You can't be sure you're going to be invited by this other boy, and here you've already turned down a nice bid. Actually, you should accept the first one that comes your way.

Passing it up may make you miss out entirely.

You'd better call up Bill and tell him you've changed your mind, and would be delighted to go with him!

"Dear Miss Woodward: He took back his ring when we stopped going steady, but I'm wondering if I should give back the bracelet and locket he gave me."

"We're still good friends and we date now and then and I see him all the time, so please tell me what to do."

Answer: The ring was on bor-

row, but the bracelet and locket were presents to you. He didn't ask to have them back—he wanted you to keep them. So do just that and wear them with pleasure.

Dental Student Honored

Honors came to Leo Wasserberger at the University of Michigan dental honors convocation, where he received more awards than any other student.

The son of Mr. and Mrs. George Wasserberger of Illinois avenue, he was given membership in Omicron Kappa Upsilon, national scholastic dental honorary fraternity, and Phi Kappa Phi, national general scholastic honorary fraternity.

He was also the recipient of an award for students showing the greatest scholastic ability and promise toward future contributions in dentistry.

His fourth and final honor was the George R. Moore Memorial Award in Orthodontics, presented by the Michigan Orthodontic Alumni Association to the graduating student with the best overall undergraduate record in orthodontics.

Congregational Groups Have Busy Schedule

Members of First Congregational Church have a busy schedule for next week.

The Congregators will meet Tuesday with Mr. and Mrs. William Rathburg of South Lapeer road at 8 p.m.

Members of the Saybrook Group will enjoy a husband's night and cooperative dinner June 9. Mr. and Mrs. C. Wales Goodwin of Silver Lake road will entertain for the 6:15 p.m. gathering.

Colonial Group will meet for 1 p.m. luncheon on June 10 with Mrs. James Clarke of Holly. Mrs. G. H. Hedrick of Bloomfield Township will entertain members of the Mayflower Group when they meet June 10 for a noon luncheon.

June 10 will also find members of the Pilgrim Group gathering at the Henry Clay avenue home of Mrs. Donald McIntosh for a 1 p.m. luncheon.

The Standish Group has yet to set the meeting place for its June 10 gathering.

To clean a discolored waffle iron, use a wire brush on the waffle grids while they are hot. After cleansing, season with a little vegetable oil.

Weather Not Vital to Owner of Dryer

Whatever the temperature, whatever the weather outside, it makes no difference to the owner of an automatic tumbler dryer. Windstorms, soot or rain have no effect on drying the family washing.

That's one of the important reasons why more and more women are investing in these newest home laundry appliances.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

OUR FIRST TOURISTS—3
Coronado Finds the Grand Canyon

In 1540, a Spaniard named Francisco Vasquez de Coronado left Mexico to look for the legendary Seven Cities of Cibola, said to be filled with gold and precious jewels. He didn't find the cities but discovered instead one of the world's greatest wonders, the Grand Canyon of the Colorado River.

The Grand Canyon National Park, which thousands of tourists visit every year, is in northwestern Arizona. The canyon is four to 18 miles wide and over a mile deep in places. At the bottom rushes the Colorado River.

Millions of years old, the canyon's rocks come in beautiful and differently-colored layers. The first layer is black, the next a brilliant red, then a lavender-brown one. Other layers are lavender, sand-colored and various shades of red. The top layer of the canyon is cream and gray.

Because of the wide range of temperatures in the park, there are many different kinds of animals and plants, including some found mainly in the northern and southern parts of the country.

As the third of a series on America's explorers, color this picture of Coronado looking for the first time at the Grand Canyon.

Tomorrow: De Soto sees the Mississippi River.

Fire Truck Ready;
Just Hop in, Go

BARNHART, Tex. (UP)—If you're in this little west Texas ranching community and know of a fire, just hop in the fire truck and take off. The truck is always out and the key is in it.

When Big Lake, Tex., bought a new fire truck, a representative phoned a Barnhart citizen and said the old truck was for sale. It originally was an Army Air Force crash truck.

A hat was passed around town and brought in about \$250 in a couple of hours. After the purchase, area ranchmen found out about the deal and insisted on showing money into the hands of the caretakers.

Cowboy on Demand

FORTH WORTH, Tex. (UP)—A group of visiting Italian Army Officers wanted to see a cowboy. Nobody knew where to locate one in a hurry, Deputy Sheriff R. N. Gille scooted home, changed into his fancy Western clothes, and obliged.

Device Invades
Hen's TerritoryMachine Sizes, Sorts,
Counts, Sprays, Then
Packages Eggs

CLEVELAND, Ohio (UP)—The automaton has invaded the egg-laying industry, and it's enough to make any self-respecting hen start clucking to herself.

This machine can process the average hen's lifetime output of from 500 to 600 eggs within two minutes. The monster of modern ingenuity sizes, sorts, counts, sprays and packages the eggs.

The actual handling capacity of the machine, built by the packing equipment division of

the Food Machinery and Chemical Corp., is 270 eggs a minute.

Attendants manually feed eggs into the machine according to size. The automaton then weighs each egg and assigns it to one of six weight categories, from jumbo to peewee.

After that, a built-in "memory" receives signals from the weighing station and sorting racks and automatically "knows" the quality grade and weight of each egg on the conveyor belt at any given moment.

The memory controls the point where seven jets spray the eggs with a protective coating, provides data for the inventory and printing counters, and controls delivery of the eggs at the proper packaging station.

At the end of the belt is the packaging area with 12 stations for loading trays and six for dozen-size cartons. The memory determines which station receives which egg.

Grandma Packs a Picnic Basket

Ever since the days when little cave boys ran from their home cave to the one occupied by their grandparents children have loved to visit grandma's. In this modern day, unfortunately, many grandparents live so far away that a long train or plane trip is necessary first.

Grandma lives just around the corner. Two such fortunate little fellows are Billy and Richard Carling whose grandmother, Mrs. Charles Herbert Williams, lives close enough for frequent visits.

Mrs. Williams—best known as Sadie Williams—is an energetic woman, deeply interested in civic and philanthropic affairs.

Her work as a Visiting Lady in the Pontiac General Hospital is well known and appreciated. She holds board membership in the Auxiliary.

For ten years she has been the financial clerk of her church. An ardent Republican, she is active in the local and county groups and is chairman of county affairs.

She belongs also to the Urban League and the NAACP. However, as grandmothers always do, she finds many hours in her busy schedule in which to enjoy the company of her cherished grandsons.

What better way is there for Grandma to entertain the young ones than to take them on a picnic? Of course a picnic means lots of good food. Mrs. Williams is an excellent cook.

There was a casserole of crisp brown spareribs. Deviled ham sandwiches had stuffed olive garnish. There were enough brown sugar cookies and brightly colored

candies to satisfy the appetites of more than two small boys. A mound of tempting looking salad in a glass bowl looked delicious. Mrs. Williams called it a Barbecue Salad and said she usually serves it with her barbecued ribs. Here is her recipe.

BARBECUE SALAD
By Mrs. Sadie G. Williams
1 red apple
2 carrots
1 green pepper
1 tomato
1 small cabbage
Onion juice
Shred well and mix together with the following dressing:
2 tablespoons french dressing
1 tablespoon mayonnaise type salad dressing
1 tablespoon sugar

PICNIC PREPARATIONS — Mrs. Sadie Williams of Crawford street loves to take her two grandsons Billy and Richard Carling to the picnic grounds. Billy can't wait to sample the cookies. The barbecued ribs and the crisp salad can wait 'til later. Richard and Billy are the sons of Mr. and Mrs. William Carling of Bloomfield street.

Prepare Speedy Supper With Thick-Sliced Bacon

These early spring gardening days that tempt us to use the last half hour of daylight for planting and pruning leave little time for preparing supper.

But there are plenty of quick tricks to be put to use for such meals — tricks that require only a well-stocked refrigerator and freezer.

Of the quickly cooked, delicious to serve supper meats,

Children Need Fun Ingredient in Their Meals

For youngsters who won't eat well, adding just one ingredient may solve the problem. That ingredient is "fun." They'll think it fun to have different things to eat for every day in the week. It's fun for them to be surprised with a little nosegay at their plate, to find their napkin held inside the band of a toy wristwatch or to discover a small pitcher of milk at their place that they can pour themselves.

To encourage more babies to grow up enjoying most foods at mealtimes, pediatricians recommend a wide variety of foods.

Fruits are the order of the day for the very young baby who has just been graduated from semi-solids, or hot cereal. Watch a hungry infant enjoy banana, and you'll see the pediatricians are on the right track.

For baby, the fully ripe banana that has yellow peel flecked with brown is sweet and thoroughly digestible. Mash it with a rotary egg beater, a fork, or electric mixer until it is a smooth, creamy liquid. Nowadays, strained bananas are also packed ready-to-serve in 4½-ounce units, and there's a delicious banana pudding made with custard that older babies from 8 to 9 months enjoy.

Team Peas, Bacon and Oyster Stew

Team green peas with oysters and bacon and you have a delectable luncheon dish.

Creamed Peas with Oysters and Bacon

1 package (10 ounces) frozen green peas
1 can (10 ounces) frozen condensed oyster stew
2 tablespoons flour
4 slices buttered toast
4 to 6 slices bacon (lightly cooked).
Cook peas according to package directions; drain, reserving any liquid in saucepan.
Heat oyster stew over low heat until completely defrosted; stir often. Lift out oysters with slotted spoon and reserve.

Stir together flour and 2 tablespoons of the cooking liquid from green peas (or use water) until smooth; stir into hot soup. Cook and stir constantly until thickened and bubbly.

Add peas and reserved oysters; reheat but do not boil. Spoon over toast and top with bacon. Makes four servings.

Lunch for Company

Guests coming for lunch? Pack hot cooked rice into individual ring molds — the aluminum ones used for gelatin salads. Turn the rice rings out, fill with creamed seafood and garnish with parsley and pimiento.

Jelly Garnishes Spring Salad

Here is a gay salad you can easily prepare a day ahead of the party. That means no last minute rush.

You can mold the salad mixture in a square cake pan and garnish it with cutouts of ready-prepared cranberry jelly.

If you have some Mary Ann molds, spoon the salad into those to chill, then unmold at serving time and fill the indentations with whole cranberry sauce.

Springtime Salad Squares
1 package lemon-flavored gelatin
1 cup very hot water
1 cup cold water
¼ teaspoon elder vinegar
¼ cup mayonnaise
¼ teaspoon salt
1 cup small-curd cream-style cottage cheese (strained)
2 tablespoons dried shredded parsley
1 tablespoon minced onion
½ cup finely diced celery
1 pound can jelly cranberry sauce.
Stir gelatin and very hot water together until gelatin dissolves. Add cold water, vinegar, mayonnaise and salt; beat with rotary beater until blended. Pour into refrigerator freezing tray.

Chill in freezing unit, without changing refrigerator temperature control, until firm around edge but soft in center—15 to 20 minutes.

Turn mixture into bowl and whip with rotary beater until fluffy. Beat sieved cottage cheese lightly into gelatin mixture with parsley and onion. Fold in celery. Pour into square cake pan (8 by 8 by 2 inches). Chill until firm.

Cut jelly cranberry sauce into six slices. Make a flower-shaped cutout from each slice with a cookie cutter. (Serve trimmings another time.)
Serve squares of molded salad on greens and top with cranberry jelly cutouts. Makes six servings.

Serve Berry Tarts

Tiny strawberry tarts make a delightful ending to a company meal. Spoon a layer of cream cheese — softened with a little cream — into each small pastry shell, then fill with strawberries. Pour a little melted current jelly over the strawberries for a glaze.

Mix Eases Preparation of Elegant Shrimp Bisque

If you want to add a distinctly elegant note to your dinner menu, feature this delicate Shrimp Bisque for the soup course. Made with a marvelously convenient package of chicken noodle soup mix, it is economical of time and effort.

This particular bisque offers the subtle flavor combination of chicken and shrimp. The end result is enough to excite the interest of a gourmet.

The busy homemaker will appreciate the quick and easy preparation of a soup that can be made in a jiffy. It is just a matter of cooking chopped onion and celery in butter and then adding water, a package of chicken noodle soup mix and a quarter of a pound of finely cut cooked shrimp.

After seven minutes of cooking, add a quarter of a pound of cooked shrimp (cut into large pieces) as well as a cup of light cream. Once reheated, it is ready

to serve in your prettiest soup dishes.

Another short-cut you might use is a package of quick-frozen cooked shrimp rather than buying shrimp fresh and then having the chore of preparing and cooking them.

With the ingenious help of the packaged soup mix, you will find this really a simple way to set a gourmet delight before your appreciative guests.

Shrimp Bisque
1 tablespoon butter
2 tablespoons chopped onion
2 tablespoons chopped celery
2 cups water
1 package chicken noodle soup mix
1 pound cooked shrimp, cut fine
1 cup light cream
Cook the chopped onion and chopped celery in the butter until soft. Add the water, chicken noodle soup mix and the finely cut cooked shrimp.
Cook for seven minutes. Add the large pieces of cooked shrimp and the light cream. Reheat but do not boil. Makes four to six servings.

Creamy Mocha Ices Angel Cake

You can have your cake and make it two! Here's a luxurious mocha layer cake that you can put together in minutes—so festive and tasty you'll be proud to serve it to guests, so easy to make you'll have it often for the family.

Mocha Angel Cake

1 baker's angel food cake
1 cup heavy cream
1 cup cold milk
1 teaspoon instant coffee
1 package instant chocolate pudding

Cut angel food cake into three layers, using a long knife, preferably with a serrated edge. Pour heavy cream and milk into a deep mixing bowl. Add instant coffee and pudding. Beat until well mixed, about one minute.

Spread between layers and on top of cake. If desired, garnish top with chocolate curls made by using a vegetable peeler or a square of unsweetened chocolate.

You can serve this delicious Mocha Angel Cake immediately or chill it in the refrigerator until serving time. Or you can even freeze it (takes two to three hours) and serve it as an ice cream cake right from the freezer. Makes 8 to 10 servings.

MOCHA ANGEL CAKE — There's a surprise feature connected with this cake. When freshly made, the cake has a rich creamy filling of mocha. Any left over may be frozen and produces ice cream and cake in layers. The whole thing takes only a matter of minutes to prepare.

Housecleaning and End of School Rush Call for Minimum Time in Kitchen

BY JANET ODELL

Pontiac Press Food Editor

At this season of the year home-makers are so busy with a multitude of activities that cooking has to take a back seat. Of course the family has to eat; but meals are not elaborate affairs and hours spent in the kitchen are definitely limited.

We know — we spent part of the last holiday weekend cleaning the attic! Pontiac area women may not go in for old fashioned upset-the-house cleaning; but they do wash and paint walls, clean closets and attics and work in the garden. They also attend innumerable end-of-the-season parties and exercises. Is it any wonder that cooking is held to a minimum?

With that in mind, we're presenting some quick and easy recipes. We think you may be glad to have them during this busy period and in the summer days to come. Then, too, no one wants to do involved cooking.

PROCESSED CHEESE SPREAD
Do you make good use of processed type cheese spread? You know how easy it is to spoon right out of the jar and top the hamburgers to make cheeseburgers. Here's a new idea for using this versatile spread.

You may make this potato casserole right after breakfast and store it in the refrigerator for last minute baking. In thirty minutes or less you can finish the other dinner preparations.

Potatoes A La Company
4 tablespoons (1/4 cup) butter
1 medium onion, chopped fine
3 tablespoons chopped green pepper
1 tablespoon chopped pimiento
2 1/2 tablespoons flour
2 cups milk
Salt and pepper
3 cups cubed cooked potatoes
1/2 inch cubes
1/3 cup cheese spread

Cook onion and green pepper in butter or margarine, about 5 minutes. Add pimiento and flour. Stir. Add milk; stir and cook until thickened. Season. Add potatoes. Pour into a 1 1/2 quart deep casserole (rubbed with margarine). Top with cheese. Bake in a moderate oven (350 degrees) about 30 minutes. Makes 6 servings.

NOTE: This can be combined early, stored in the refrigerator, then baked just before serving.

FRIDAY MAIN DISH
Another main dish recipe is for a Salmon Chowder. With a crisp spring salad, plenty of crunchy crackers and your choice of dessert, you have a meal that demands little time in the kitchen. All of the ingredients in this recipe come right off your pantry shelf.

Salmon Chowder
1 can cream of tomato soup
1 can cream of mushroom soup
1 1/2 cups milk
2 tablespoons grated onion
1 can (1 lb.) white potatoes, drained and quartered
1 can (1 lb.) salmon, drained and flaked
1 cup (1/2 pt.) light cream
Blend tomato soup, mushroom

soup, milk and onion; heat. Add potatoes, peas and salmon; heat thoroughly, stirring carefully. Just before serving, add cream; heat but do not boil! Makes 6 servings.

EASY DESSERTS

Bakers' cakes lend themselves well to dressing up as glamorous, last-minute desserts. Half of your work is already done. Take advantage of these food helps in the following recipes.

Nosegay Cakes

12 sponge cake shells
2 pint ice cream in 3 assorted flavors
1 pint crushed strawberries
Place a small scoop of each of the 3 ice cream flavors in each sponge cake shell. Serve crushed strawberries over each nosegay. Yield: 12 Nosegay Cakes
Frozen or sweetened fresh berries may be used.

Peppermint Sandwiches

1 pint peppermint ice cream
12 thin slices angel food cake
1 cup fudge sauce

Place a slice of ice cream between every 2 slices of cake. Serve with fudge sauce, if desired. Yield: 6 Peppermint Cake Sandwiches.

One last word. Remember that onion soup mix makes a delicious, taste-tempting onion gravy. It perks up such commonplace foods as meatballs, pork chops or leftover meat slices. And it's so easy to make.

Onion Gravy

2 1/2 cups water
1 package Onion Soup Mix
2 tablespoons flour
1/2 cup water

Bring 2 1/2 cups water to a boil. Stir in the Onion Soup Mix. Cover and cook for 19 minutes. Gradually add flour mixed with 1/2 cup water. Cook and stir constantly until thickened. Makes about 2 1/2 cups gravy.

Olives Give Tang to Tomato Aspic

Olives give tang to a molded tomato salad.

Olive-Egg Tomato Aspic

1 tablespoon unflavored gelatin
1/2 cup cold water
1 1/2 cups tomato juice
2 tablespoons finely chopped onion
1/2 cup chopped pimiento-stuffed green olives
2 hard cooked eggs (chopped)
1/2 teaspoon salt

Soften gelatin in cold water. Heat tomato juice until almost boiling and stir into softened gelatin until gelatin is dissolved.

Add onion, olives, eggs and salt; mix well. Chill until mixture begins to thicken. Stir lightly.

Pour into four to six individual molds and chill until firm. Unmold and serve on salad greens.

Bake Haddock in Rich Sauce

There's good news for budget-conscious homemakers when haddock fillets are as plentiful as they are right now. The tremendous haddock catch—all filleted, frozen and packaged—means that these fine fish are available in more places and in greater quantity than ever before. And they're among the least expensive of all protein foods.

Haddock is such a beautiful fish that it has been called the "black beauty" of the sea. And on each side of the fish, just above the pectoral fin, is a black patch—like a beauty mark. Perhaps this is one of the reasons haddock has been held in such high esteem throughout the centuries.

Its popularity is well deserved for other reasons, too. Delicious and white-meat, it is available everywhere and easily prepared.

Just remember not to overcook because this tender fish, like all seafood, requires very little cooking. A haddock dish you'll be proud to serve your family is this one for the fillets baked in a cheese sauce.

Haddock Fillets Baked in Cheese Sauce
1 package frozen haddock fillets
Salt and pepper
2 tablespoons butter or margarine
2 tablespoons flour
1 cup milk
1 cup grated American cheese
1 small onion
Poppy seeds (optional)

Let fillets thaw on refrigerator shelf, allowing about 24 hours. Separate fillets and arrange in buttered baking dish. Sprinkle with salt and pepper.

Melt butter or margarine in a

saucepan. Remove pan from heat. Stir in flour until smooth. Gradually add milk, stirring until well blended.

Return pan to heat and cook, stirring constantly, until thick, about two minutes. Add cheese

and stir until melted. Pour sauce over fish.

Slice onion and sprinkle rings over sauce. Garnish with poppy seeds, if desired. Bake at 350 (moderate oven) 25 to 30 minutes. Makes four to five servings.

This Method Insures Richer, Browner Meat

Any meat can be brushed with kitchen bouquet before cooking in order to insure a richer, browner look. Pork, veal, beef and lamb all profit from the gentle touch

of kitchen bouquet. This is because kitchen bouquet has no pronounced flavor of its own to interfere with the natural flavor of the meats. It is first and last a browning agent. Originally developed for browning gravies, kitchen bouquet is

equally invaluable in American kitchens as the only sure method of preparing meats of unrivaled rich brownness.

Want to stretch that Creole Shrimp? Add cooked snap beans to it.

FRUIT CHEESE SERVICE—Cheese knows no special season. Any day, anywhere, cheese fits into the family menu plans. Pineapple bits are added to pineapple-flavored cheese spread. Serve this in a hollowed-out fresh pineapple and add other varieties of cheese around the plate.

Cheese, Fruit Fit Any Menu

Cheese and fruit are historically continental but truly American in application of the idea.

Here's a fruit-cheese service that is a pictorial flavor gem. Fresh pineapple cut in half lengthwise has been freed of the center core, then the juicy meaty layer cut into bite-sized pieces.

Next, the center is filled with pineapple-flavored cheese spread into which the pineapple bits may be dunked.

Flanking the pineapple to contrast in texture and to add a colorful note are placed Gouda cheese wedges and lacy distinctive Swiss cheese slices.

With crisp crackers and coffee, this is a praise-worthy dinner dessert.

Use Dry Milk for These Cool Summer Drinks

Here are two suggested summer drinks which should make a hit with the youngsters:

Apricot Nutmeg Cooler
1 cup well chilled liquefied instant nonfat dry milk
1 cup apricot nectar
1 tablespoon honey
Dash of nutmeg

Combine liquefied instant nonfat dry milk, apricot nectar and honey in large glass or pint measuring cup. Stir briskly to blend well. If desired, pour over ice cubes. Sprinkle with nutmeg. Makes one glass.

Banana Strawberry Whip
1 medium-size ripe banana
1 cup sliced strawberries
1 cup frozen strawberries, defrosted
1 cup well chilled liquefied instant nonfat dry milk
Thinly slice banana into 1-quart mixing bowl. Beat with rotary beater until smooth. Add strawberries; beat until blended. Stir in liquefied instant nonfat dry milk. If desired, pour over ice cubes.
*If fresh strawberries are used, sprinkle with 2 tablespoons sugar, cover and let stand for about one hour before using. Makes one glass.

Canned Green Beans Packed in Five Ways

Canned green beans are packed in five different ways: (1) Whole: The whole bean is packed, but not in any definite position in the can. This pack is sometimes referred to as "Jumble Whole". (2) Whole Vertical Pack: The beans are packed parallel to the sides of the can. (3) French Style: The whole beans are sliced lengthwise and packed "jumble" fashion. This type of pack is also known as French sliced or Julienne.

(4) Cut: Beans are cut into standard lengths of about 1½ inches. (5) Short Cut: In this pack beans are cut somewhat less than three-fourth of an inch.

Ever try adding both Swiss and Parmesan cheese to a cream sauce for fish, poultry or vegetables? It's a fine flavor combination.

Leftover Lamb Becomes Exotic in Curried Dish

Here is a simple and easy, and all top stove, recipe for using up the last of the lamb roast... a bit on the exotic side and still not hard on the budget... just spicy enough to tempt the lagging summer appetite.

Creamed Lamb Curry
2 tablespoons fat
2 tablespoons finely chopped onion
2 cups diced cooked lamb
2 1/2 cups can chopped broiled mushrooms
1 teaspoon kitchen bouquet
1/2 teaspoon salt
1/2 teaspoon curry powder
1/2 cup milk
1 teaspoon shredded coconut

Heat fat in frying pan over moderate heat. Add onion and let cook, stirring occasionally, until tender but not brown, about two minutes.

Add diced lamb and contents of can of mushrooms. Stir in kitchen bouquet. Let simmer for about five minutes.

Blend flour, salt and curry powder together with a little of the milk, then add to the rest of the milk. Pour into meat and mushrooms.

Heat to boiling, stirring constantly, and let cook until sauce is thick and smooth. Stir in coconut.

Serve with hot rice. Accompany with chopped peanuts, chutney or what have you. Yield: Four generous servings.

Onions and Potatoes Baked Atop Steak

A meat dish with vegetables cooked right in the same pot always proves timesaving.

This delicious round steak dinner, with onions and potatoes baked on top of the meat, is an example.

Family Round Steak Dinner
1 round steak, cut about 1 inch thick
Flour, salt, pepper, fat
1 clove garlic
Basil, thyme or marjoram, seasoning salt
2 onions
2 potatoes
1 cup bouillon

Cut steak into four to six serving-size pieces. With a meat pounder or the edge of a heavy saucer, pound meat on both sides.

Combine one-half cup flour, one teaspoon salt and one-eighth teaspoon pepper and coat steak pieces. Brown garlic in two tablespoons hot fat; remove garlic and in the fat brown steaks.

Place steaks in a large casserole or Dutch oven and sprinkle lightly with basil, thyme or marjoram. Add one-fourth cup water, cover and bake at 350 degrees for one hour.

Top meat with a layer of sliced onions and a layer of 1-inch thick potato slices; sprinkle with salt, pepper and seasoning salt.

Stir one tablespoon flour into the hot fat in which the steaks were browned; add bouillon, made by dissolving one bouillon cube in one cup hot water. Cook, stirring until thickened; then pour over steak and vegetables.

Cover and continue baking at 350 degrees until meat and vegetables are tender, about one hour. Four to six servings.

Serve Mixed Fruits in Pineapple Halves

Combine all ingredients; beat until well blended. Serve on lettuce or romaine. Makes 2 cups.

Fresh pineapple makes a delightful dessert if you cut it in half, and then cut out the flesh. Now dice the pineapple you've cut out

and mix with strawberries; sweeten to taste. If the strawberries are small or medium-size, they should be halved; if large, quarter them.

serve. You'll need about six cups of fruit for two hollowed-out pineapple halves of medium or large size.

Bumper Crop to Bring Bargain Lettuce Prices

An unexpected late bumper crop of California and Arizona lettuce today brought prospects of drastically lowered consumer prices. C

B. Moone, executive vice president of Western Growers Association said that top-quality lettuce is pouring into principal markets through-

The farmer is receiving approximately five cents a head . . . half of what he was paid at the

same time last year, and considerably less than his cost of growing, harvesting and packing the lettuce, Moore declared.

Tweezers or a strawberry huller will do a good job of pulling pin feathers out of poultry.

**Fill Gingerbread Crust
With Vanilla Ice Cream**

Mix 1-23 cups finely rolled
gingersnap crumbs with a quarter
cup each of soft butter and sugar;
press firmly into an even layer

against bottom and sides of a 9-
inch pie plate; chill.

Spoon a quart of vanilla ice
cream into the chilled crust,
smoothing top down. Store in freez-
ing compartment. Serve with apple
sauce flavored with lemon.

Prepare Radish Fans

Know how to fix radish fans?
First remove the stems and root
tips from the radishes. Then cut the
radish almost through in 'close-
together, crosswise slices. Dump

the radishes into a bowl of ice
water and place in the refrigerator
until the paperthin slices fan out.

Crushed butter-crunch candy,
folded into vanilla pudding, makes
a delicious dessert.

Broiled Vegetables

NEW YORK (UP) — Vegetable
variation: Try broiling canned
fresh or even leftover vegetables
by using either the broiler pan or
rack for cooking. The vegetables

will take on the flavor of meat
drippings if the bottom of the pan
is brushed with fat.

Cooking snap beans? Try adding
a few slices of onion to them with
the boiling water for good flavor.

**Homemade Look Evident
in Frozen Blueberry Pie**

For those of us who cook for a
large family or small, there's a lot

of contentment in serving a well-
prepared meal. The joys of good
food, attractively served, go beyond
mere feeding—they satisfy our need
for color, good flavor and proper
texture on the tongue.

Not all of us have the time, or the
years of cooking skill, for the pre-
paration of the food our family
most enjoys, so we turn to the best
of our food manufacturers.

One company first made a
delicious frozen chicken pot pie
—from an old Kentucky recipe.
Following this came the equally
good frozen turkey and beef pot
pies—and then the wonderful fruit
pies—apple, cherry and peach.

Now comes frozen blueberry
pie—utterly delicious—and pre-
pared with the same skill and
patient care.

More than a year of research
went into selection of the right fruit.
Finally chosen were cultivated blue-
berries from the Great Lakes re-
gion, small and full of flavor. Tests
showed they retained their shape
and flavor through freezing and
baking better than the larger ber-
ries.

BEST COOKERY

Best cooks use very little thick-
ening in their fruit pies, and a
minimum of cornstarch derivative
goes into the blueberry filling.
There's a touch of lemon juice and,
of course, for blueberries, a mere
hint of salt to point up their flavor.
Nothing more is added.

A different crimp is on this blue-
berry pie—the edge is more like
that used in the home kitchen, en-
hancing a home-baked appearance.

In the same choice of sizes as
the other fruit pies made by the
company, this new blueberry pie
is available in the 1-1/2-pound
family size, the 10 1-ounce
"pie for two" and a generous
one-serving 5 1-ounce pie.

All are packed, of course, in the
familiar aluminum foil pie dish—
to reuse if you wish.

This pie is available at most
food stores for approximately 53 to
55 cents, 27 to 29 cents and 17
to 19 cents, respectively.

**Family Needs
Good Breakfast
in Summer, Too**

Summertime is berry time—the
season for luscious, fresh fruits.
It's also the season for colorful
breakfasts. Fresh berries, crisp,
ready-to-eat cereal and milk are
an appetizing and refreshing com-
bination.

The wide variety of fresh berries
and more than two dozen varieties
of ready-to-eat cereal available to
today's home maker make ap-
petizing breakfasts easy to pre-
pare.

In just about the time it takes
the coffee to perk, a basic break-
fast of fruit, cereal, milk, bread
and butter can be ready to serve.
This breakfast pattern is re-
commended by leading medical
authorities and dietitians.

Your family needs a good break-
fast in summer just as it does in
the other seasons of the year. Hot
weather tends to dull appetites.
You can be of ready service to
your family if you have a cool,
refreshing, appetizing breakfast
ready when they reach the table.

Your family will not only feel
better but they will work and play
better in the late morning hours
if they eat a basic breakfast which
provides one-fourth of their daily
needs.

Why not serve your family this
breakfast tomorrow morning?

to which a dash of ginger has
been added.

ORDINANCE NO. 1274

Adopted May 31, 1935

Effective June 10, 1935

An Ordinance to amend Ordinance No.

677 by adding Section 1A to said Ordinance

and by amending the title of said

Ordinance No. 677 being entitled—"An

Ordinance Prohibiting the Making of

Bonfires, or Burning Rubbish, Waste

Paper, etc., within the City Limits."

The City of Pontiac Ordinance No. 677

is amended by adding Section 1A, said

section to read as follows:

"It shall be unlawful for any person,

firm or corporation, his, her or their

agents or employees to make a bonfire

or burn any rubbish, waste paper or

any kind of refuse matter in the rear

of, in front of or at the side of any

dwellings, house or business place, or

in any street, avenue or alley, with-
out the No. 1 Fire Limit of the City

of Pontiac unless such burning of rub-
bish, waste paper, etc., is made in a

wire trough or burner, enclosed, burned

with spark arrester, or other approved

receptacle certified by the Fire Marshal

of the City of Pontiac and located a

safe and reasonable distance from the

nearest lot line or combustible building,

provided that tree leaves may be burned

during the fall and spring seasons on

private property only when supervised

and in a safe location."

Section 2. That the title of Ordinance

No. 677 be amended to read as follows:

"An Ordinance prohibiting the making

of bonfires or burning rubbish, waste

paper or other debris within the No. 1

Fire Limit of the City of Pontiac, and

to provide for the method of burning

rubbish, waste paper or other debris

outside the No. 1 Fire Limit and to

prohibit the making of open bonfires

either in the No. 1 Fire Limit or out-

thereof in the City of Pontiac."

Section 3. All ordinances or parts of

ordinances in conflict herewith are

hereby repealed.

Section 4. This ordinance shall take

effect ten days from and after its pas-

sage by the City Commission of the

City of Pontiac.

Made and passed by the City Commis-

sion of the City of Pontiac this 21st day

of May, A.D. 1935.

Take Tip From Li'l Abner

Dogpatch-Style Cookery Gives Franks a New Appeal

The "endless frankfurter" devised by Dogpatch hero, Li'l Abner, can now have its culinary counterpart in the kitchens and barbecues of all good city and suburban folk.

For the frank has endless uses—and endless variety. Whether you're in a "just plain folks" mood or out to be elegant and gourmet, whether you're preparing a hearty meal or a dainty cocktail tidbit, the frank can be a never ending treat to the taste buds.

Now that spring has come to whet our appetites for new dishes, why not try some of the endlessly new frankfurter recipes. Today, we've picked three which will do for you in your own home or backyard what Li'l Abner's endless frank is doing for him in Dogpatch.

The first, which we title Yokum-Kebabs in honor of Mammy Yokum, features the frank as the basis of a sophisticated skewer dish—a variation on the traditional European import—the shishkebab.

Yokum-Kebabs
4 frankfurters
1 large green pepper
8 large mushroom caps
2 tablespoons shortening
1 cup fresh pineapple cubes

Cut the green pepper into good sized cubes (you'll need eight pieces) and saute with the mushroom caps in the shortening. Remove from shortening.

Then, cut the frankfurters into three pieces each. Place one piece of the frankfurter on a skewer, then a piece of green pepper, then mushroom, then pineapple. Repeat this once more and finish off with the third piece of frankfurter.

With a pastry brush, brush each of the kebabs with the shortening in which you sauteed the pepper and mushrooms. Place kebabs under broiler for about 10 minutes or until frankfurters take on a glazed appearance.

For added tang, spread a little prepared mustard on the cut ends of the frankfurter pieces before assembling the kebabs. Serves 4.
Next, comes Dogpatch Stew—a rich and hearty spring surprise which is rugged enough to please the menfolk and yet piquant enough to stir the appetite of the daintier sex.

Dogpatch Stew
10 frankfurters cut in bite-size chunks
1/2 cup olive oil or cooking oil
1/2 cup chopped onions
1 clove garlic, minced
1/2 cup coarsely chopped ripe olives
1 1/2 cups canned kidney beans, drained
2 1/2 cups canned whole kernel golden corn, drained
1 cup tomato juice
1 cup grated American cheese, process type
10 slices French bread spread with butter or margarine
Chili powder, generous dash
Celery salt, generous dash
Heat olive oil or salad oil, add

Prepare Tuna Dip for TV Snacktime

For your next TV snack make up a bowl of this tuna dip and serve it with crisp crackers or potato chips.

Tuna Dip or Spread
1 can (7 ounces) tuna, drained and flaked
1 container (8 ounces; 1 cup) cream style cottage cheese
1/2 cup minced celery
1/2 to 1/4 cup mayonnaise or salad dressing
10 cup chopped green or ripe olives
1 tablespoon lemon juice
1 tablespoon grated onion
Combine all ingredients; season with salt, if desired. Chill, covered, one to two hours to blend flavors. Makes 2 1/2 cups.

Remember that fluid milk, made from nonfat dry milk powder and water, needs to be refrigerated. Chill it in a covered container as soon as you have mixed it.

onions and garlic to oil and cook until tender and golden, not browned. Add frankfurters, olives, kidney beans, corn, chili powder, celery salt, tomato juice to the mixture.

Bring to the boiling point, then blend cheese into the hot mixture. Pour mixture into individual baking dishes and top each dish with a slice of French bread. Bake 20 minutes in 400-degree oven. Serves 10.

And last of the frank trio is a unique hot sandwich—ideal for your first outdoor cooking of the season. This is a far cry from the lonely frank on a naked bun. It's all dolled up in finery and

is a good show-off dish for friends and neighbors.

Rich in gravy and seasoned spicily, we call it the Daisy Mae Special. Why? Because it's just as succulent and just as simple as our Dogpatch heroine.

Daisy Mae Special
6 skinless frankfurters, sliced into penny-sized pieces
1/2 cup butter or margarine
1/2 cup grated onion
1/2 cup grated carrots
1/2 cup flour
2 cups beef stock or consommé
1 bayleaf
1/2 teaspoon dry mustard
1 whole clove
1 tablespoon prepared horseradish
6 frankfurter buns, split
Salt and pepper
Heat butter or margarine in pot. Add onions, carrots, bay leaf and

cloves. Simmer over low heat until well browned, then add flour, stir to blend well. Cook until flour browns.

Remove from heat, add stock or consommé, stirring constantly. Return to heat and when gravy thickens, strain. Add frankfurters and horseradish mixed with mustard. Heat again.

Serve each portion on toasted frankfurter bun. Serves six.

Guests Will Like Waters or Chips With Tasty Dip

All these dunks can be made ahead and stored in the refrigerator overnight or until ready to serve to guests. Accompany them with crisp dippers of your choice—potato chips, pretzels, wheat wafers, buttery round crackers or square salty crackers.

Egg-Parsley Dip
Mix together 4 hard-cooked eggs, shelled and chopped, 1 tablespoon minced parsley, 2 tablespoons lemon juice, 1 teaspoon minced onion, 1/2 teaspoon salt, a pinch of mixed dried herbs and 1/2 cup mayonnaise. Garnish with sprig of fresh parsley. Makes about 1 cup.

Deviled Crab Dip
Drain, bone and flake one 6 1/2-ounce can crab meat. Mash with 2 hard-cooked eggs, shelled and chopped. Add 1/2 teaspoon prepared mustard, 1/2 cup mayonnaise and 1 tablespoon lemon juice. Mix well. Garnish with small flake of crab meat. Makes about 1 cup.

Gacamole Dip
Mash pulp of 1 small, peeled avocado. Stir in 2 tablespoons lemon juice immediately to prevent discoloration. Add 1 teaspoon minced onion, 1/2 teaspoon salt, 2 teaspoons worcestershire sauce, 1/2 teaspoon cayenne pepper, a sprinkling of freshly ground black pepper and 1 clove garlic, mashed, if desired.

Mix well. Cover with thin layer of mayonnaise to prevent discoloration. Just before serving, stir in mayonnaise. A little cooked, crumbled bacon and fresh, diced tomato may be added also.

Garnish with pieces of fresh tomato, canned pimiento or crumbled bacon. Makes about 1 cup.

Tomato-Sour Cream Dip
Mix together one 8-ounce can tomato sauce, 1 cup thick sour cream, 1 teaspoon salt, 2 teaspoons minced onion, 1/3 cup prepared white horseradish. Garnish with sprinkling of paprika. Makes about 2 cups.

New, Unusual Dressing

Here's a new and different dressing for a fruit salad: Combine 1 cup of mayonnaise with half a cup of real New Orleans molasses and 3 tablespoons of lemon juice. Mix well. Serves four. This is particularly good on a pear, cream cheese and date salad.

BUTTERFLY CUPCAKES.—A very fancy name denotes a simple, yet effective means of dressing up cupcakes. In this instance the little cakes are topped with a snowy whipped cream topping, sprinkled with candied ginger. Then the curved top of the cake is cut in two and arranged, wing-like, in the cream topping.

Butterfly Cupcakes Catch Delicate Spirit of Spring

One of the surest signs of spring, as far as we are concerned, is an uncontrollable urge to invite our neighbors in for an afternoon snack. Other people may develop a burning desire for the sight of budding tulips or the sound of the first robin's song, but we develop a great hunger for something pretty to eat and a friend to share it with.

Tutti-Frutti Butterfly Cupcakes. A pot of good coffee and a bowl of daisies on the table—that's our solution to the problem.

These lovely butterfly-cakes can be based on your favorite cake recipe. If you have one, or made from a packaged cupcake mix. The basic recipe is varied in this case, simply but tastily, by adding chopped candied fruits before baking and by a snowy whipped cream topping, sprinkled with candied ginger.

The butterfly effect is nothing more than the curved top of the cupcake, cut in two and arranged, wing-like, in the cream topping. For a delightfully informal method of serving, why not stand each coffee cup on a good-sized

plate, along with two cakes for each person? It's much easier to handle a snack this way than to try to juggle a cup, a saucer and a plate in the living room.

Make sure that the coffee is steaming and delicious, a real complement to these pretty cakes.

Tutti-Frutti Butterfly Cupcakes
1 9-ounce package cupcake mix
2 tablespoons chopped candied cherries
2 tablespoons chopped candied pineapple
2 tablespoons chopped candied ginger
1/2 cup whipping cream
1 tablespoon finely chopped candied ginger
Prepare cupcake mix as directed on package. Stir in next three ingredients. Bake as directed. Cool

Cake Baked in Cans Makes Sandwiches

This delicious chocolate cake originally created to hold a toasted marshmallow between two slices is equally good as an ice cream sandwich.

Chocolate Cake Quicky
2 eggs, beaten
1/2 cup sugar
1 teaspoon vanilla
1 1/2 cups pancake mix
1/2 cup milk
2 tablespoons melted butter or margarine
2 ounces unsweetened chocolate, melted
1 cup finely chopped pecans
Add sugar to the beaten eggs, beating until fluffy. Add vanilla, pancake mix and milk, stirring lightly until combined. Lightly mix in butter, chocolate and nuts.

Four into two well-greased No. 2 cans. Bake in a moderate oven at 375 degrees for 30-35 minutes. Cool five minutes. Remove from cans.

When cool, slice each loaf into 10 thin slices. Place a slice of ice cream between two slices to make a sandwich. Serves 10.

It's a good idea not to repeat fruit flavors in a dinner menu. If you are serving fruit as a first course, or as an accompaniment to the main course, you'll find chocolate or coffee-flavored desserts make a fine ending to the meal.

Add minced anchovies to a mixture of cream cheese and butter for a delicious filling for party sandwiches. When you are soaking large dry lima beans before cooking, use 2 1/2 cups soaking water for each cup of the beans.

Fix Vegetables in Little Water

Countless millions of dollars have been spent by vegetable growers in California and Arizona, who account for nearly half of all the vegetables shipped in the United States, in research, soil preparation, improved harvesting methods and careful shipping to assure the highest possible vitamin content of vegetables in your daily diet.

Yet much of this effort is wasted through faulty cooking techniques which find many of the vitamins going down the drain in the water used to boil vegetables.

You can fortify your family's health, improve appetites and make eating more pleasurable by remembering one cardinal rule in cooking vegetables:

The less water the better! Coupled with this should be the reminder that the cooking time is short.

AVOID WATER

Pressure cooking is one of the finest methods of preparing vegetables. Almost equally as good are the new waterless cooking utensils.

But if you have neither of these you can steam your vegetables in any tightly covered pot simply by putting a small open grill on the bottom, using one-half to an inch of water and placing the vegetables on the grill so they are not touched by the water.

The rewards of cooking vegetables by these methods are great. The flavor, texture and color are superb. But, more important, most of the life-giving vitamins are retained.

One last reminder—use the left-over water for soups and gravies. That way none of the nutrition is lost.

SWEETHEART TORTE—This delightfully dainty strawberry torte is surprisingly hearty and nutritious because it contains wheat germ. Easily made, it is an ideal dessert for light summer meals. Save the recipe and serve it later with other berries.

Dainty Strawberry Sweetheart Torte Made Extra-Healthful by Wheat Germ

Save the largest and ripest berries in the lot to decorate the top of a strawberry whipped cream torte that is as pretty as a blushing June bride. The recipe is surprisingly easy, so keep it handy to use often during the fresh fruit season ahead.

Using wheat germ in the torte, as specified in this recipe, adds nut-like flavor and interest to the texture.

"Small but mighty" wheat germ is a rich source of the B-vitamins and proteins, also iron and phosphorus, so essential for good nutrition. Wheat germ is an easy, economical and dependable way of fortifying even this light dessert.

This nutritious wheat germ torte can be baked in the coolness of the morning and easily assembled for serving at the last minute.

SERVE IT OFTEN

You'll want to serve it often... as a treat for the family (and who deserves it more)... a dainty refreshment for bridal showers... after a round of cards in the evening.

Vary the flavor by using fresh or frozen raspberries, peaches, other fruits. Or make good use of your own home-grown fruits and berries.

Heat-dulled appetites respond to delicate, eye-appealing desserts. When these desserts are highly fortified with essential nutrients (such as those contained in wheat germ) the balance of the meal need not include the heavier, heat-producing foods.

Sweetheart Torte
7 eggs, separated
4 cup sugar
1 1/2 cups wheat germ
1/2 cup sifted all-purpose flour
1 teaspoon almond extract
1 quart strawberries, washed, hulled and sugared
1 cup heavy cream, whipped
Beat egg yolks and sugar together until lemon colored. Stir in wheat germ, flour and almond extract. Gradually add this mixture to stiffly beaten egg whites, folding in carefully.

Pour into two round 8 or 9-inch cake pans lined with greased waxed paper. Bake in moderately hot oven (375 degrees) 20 to 25 minutes or until no imprint remains when lightly

touched with finger. Turn layers onto cake rack to cool; remove waxed paper immediately.

When cool, fill between layers with sweetened whipped cream and drained berries. Decorate top of torte with whipped cream and choice berries. Makes 8-10 servings.

Learn the Cookery of Latin America

The Pan-American Union presents—"Que Rico! Recipes from Latin America." Over 75 recipes, one or more from each of the 20 Latin American republics, member nations of the OAS, and Puerto Rico, appear in this attractively illustrated, 30-page booklet. Each recipe has been carefully

chosen with North American tastes and availability of ingredients in mind. "Que Rico!" can now be purchased from the Publications Division, Pan-American Union, Washington 6, D. C., price 25 cents.

"Que Rico!" offers you cooking adventure and eating enjoyment. Starting with Sopa de Albondigas (Costa Rican meatball soup), the index lists sections on soups and stews, beans, poultry and meat, fish, vegetables, turnovers and

hot breads, desserts, and ends with Venezuelan Lemonade. Breakfast, lunch, dinner or tea, you will find a new dish or drink to challenge your skill and tempt your appetite.

A list of herbs, spices and other seasonings, inviting experimentation to "achieve a flavor symphony pleasing to your palate." Blank pages for your notes and additional recipes, and the following quote from George Meredith complete the booklet: "Kissing don't last; cookery do—"

Curried Roast Chicken Wonderful for Company

Wonderful for company: Oven or spit-roast a couple of frying chickens. Make a sauce using the drippings, chicken broth, curry powder and egg yolks for thickening.

Serve the sauce over the carved chicken and accompany with shredded coconut, finely chopped salted peanuts and chutney. This dish needs steamed rice as a go-along, of course.

French 'Hearts of Cream' Will Delight Bride-to-Be

This is the time of year when June just naturally goes with "spoon" and "moon" and all three are the rightful province of the bride-to-be. It's the time of year, too, when showers are in season in more ways than one.

Of course, showers are always welcome to farmers, but sometimes less welcome to ordinary mortals who are caught by them unawares.

In the case of the shower we have in mind, though, the bride's friends can decide exactly when their little shower of gifts will fall, and what will feed the "inner girl" while the showering takes place.

It's a great decision, this question of what to eat on such an occasion. There'll be coffee, of course, in the prettiest server it's possible to find.

But what is there to eat that's original, pretty, easy to prepare and thoroughly appropriate to the occasion? Our suggestion is Coeur a la Creme.

FRENCH FAVORITE

This is a favorite dish in France. It has a cottage cheese base, takes its name—Hearts of Cream—from the little heart-shaped basket-molds in which it is traditionally made.

It is usually eaten spread onto bite-sized pieces of crusty French bread. You might find it more convenient, though, to serve it as a dessert to be eaten with a spoon.

We give here a simple, Americanized version of Coeur a la Creme, flavored with a hint of lemon and surrounded by tiny ripe strawberries.

Creamy Dressing Sparks Pineapple

Try this delicious combination of creamy dressing and pineapple for a new taste-treater.

Pineapple Salad

3 tablespoons cider vinegar
2 tablespoons cream
4 tablespoons olive oil
1 teaspoon salt
1/2 clove garlic
4 cups thinly sliced fresh or drained canned pineapple pieces (lightly packed and cut fan-shape, about 1 inch at widest end)
Salad greens
Mix together the vinegar, cream, oil, salt and paprika in a jar with a tight-fitting cover. Peel garlic, cut in half and add to dressing.
Refrigerate for an hour or so before using. At serving time, arrange pineapple on salad greens.
Shake dressing thoroughly to combine, remove garlic; pour dressing over pineapple. Makes eight servings.

Note: If fresh pineapple is used, sweeten with 3 or 4 tablespoons sugar.

For Savory Snack

Savory snack: Spread split hamburger buns with smoked cheese and add sprinkle of garlic powder. Broil the buns until the cheese is bubbly while you are cooking hamburger patties with which to top them—one patty for each half cheese-spread bun. Serve with a crisp vegetable relish and lots of hot coffee.

Make up a package of vanilla, chocolate or butterscotch pudding and fold leftover rice into it.

Turkey Comes All Ready to Tuck in Oven

Nowdays when you buy a frozen turkey you get it complete with "maid service". Talk of convenience—these latest turkeys come already stuffed, trussed (laced) and oven-ready. You don't even have to thaw these turkeys to cook them—in fact it's better that you don't.

Be Adventurous With Dressings

Mixed green and vegetable salads fit so smoothly into summer menus that we'll wager you'll be serving them more often than any others during these warm weather months. Do adventure a bit, though, and try some new ways to dress these favorites.

We think chopped mushrooms and the combination of red table wine and red wine vinegar, which lowers the astringency, make this a really outstanding dressing.

Mushroom French Dressing
1 (4-ounce) can mushroom stems and pieces, drained
1 thick slice onion
1/2 cup (firmly packed) parsley sprigs
1/2 cup celery
1/2 cup Burgundy or other red table wine
1/2 cup red wine vinegar
1/2 teaspoon Worcestershire sauce
1 1/2 teaspoon salt
1/2 teaspoon coarsely ground black pepper
1/2 teaspoon paprika
1 cup salad oil

Combine mushrooms, onion, parsley sprigs and garlic in a chopping bowl; chop very, very fine. Place mixture in a 1-pint jar; add wine, vinegar and seasonings; cover and shake until salt is dissolved. Add oil; cover and shake again.

Let stand several hours before serving to blend flavors. Shake well before using. Wonderful with mixed green and vegetable salads. Makes about 2 cups.

Don't Freeze Cheese

Don't store your favorite cheese in the home freezer. Cheese keeps better and tastes better when it is stored at temperatures of around 40 degrees. When cheese is frozen, it becomes mealy and crumbly.

Sesame seed is also known as "Benne" or "Bene" seed. It has a pleasant faintly nutty flavor and is good sprinkled on cookies, rolls and biscuits before baking.

Famous poultry companies hold the key to successful freezing of stuffed turkeys.

Their secret is fast freezing, an impossible feat for homemakers because stuffed turkeys freeze too slowly to be safe at zero degrees Fahrenheit, the temperature of most home freezers.

Commercially stuffed turkeys are frozen successfully because:

1. Stuffed turkeys must be frozen at 45 degrees below zero or lower in blast wind tunnels.
2. Only small size turkeys are used, never the heavy toms.

3. Low temperature rooms are used for stuffing and lacing the turkeys.

4. Stuffing is loosely packed in body and wishbone cavities.

5. Cooking schedules and methods for roasting these turkeys advocate roasting from frozen state only.

LOOK FOR SEALS

To make sure you are buying the finest quality stuffed frozen turkey look for the U.S. Government Inspection Seal, the Good Housekeeping Seal of Approval and choose stuffed turkeys with

a moisture proof sealed plastic covering.

You will need to buy enough turkey to allow for 1 1/4 pounds per person (not per serving). This will give two generous servings of turkey with dressing per person.

During storage leave the moisture proof bag on the turkey. Remove the bag before cooking the turkey. Keep the turkey completely frozen and place it in the oven that way. Frozen stuffed turkey should not be allowed to thaw before cooking.

Cook the frozen stuffed turkey according to the directions enclosed in the bag with the turkey. If you prefer, try these new instructions for a faster standard cooking method.

STANDARD ROASTING METHOD

1. Preheat oven to 325 degrees (slow moderate oven).
2. Remove plastic bag from turkey.
3. Place rack in open shallow pan. Place frozen turkey on rack with one leg side down. Roast for

1 1/2 hours. Brush with melted butter or margarine.

4. Using clean cloths to protect hands, turn turkey to other side and roast 1 1/4 hours.

5. After this cooking period, place turkey breast up. Cut trussing string between drumsticks. Continue roasting approximate time given on time chart minus the three hours (1 1/2 hours on each side) bird has already cooked.

6. After turkey is placed breast up, baste turkey with its own drippings every 15 minutes.

7. Turkey is done when meat of thickest part of drumstick feels soft when pressed between your fingers (protected with a cloth) or when a meat thermometer inserted in thigh muscle, next to body reads 190 to 195 degrees.

STUFFED TURKEY ROASTING CHART

Ready to Cook Weight (pounds stuffed)	Oven Temperature	Total Cooking Time (hours)
5-9	325° F.	4 to 4 1/2
10-12	325° F.	4 1/2 to 5
13-14	325° F.	5 to 5 1/2

* Important: Cooking time is

only approximate. Differences among individual turkeys may cause cooking time to vary 30 minutes more or less than time estimated. To judge doneness of meat use tests in step 7 above.

For best appearing bird do not salt and pepper until turkey is carved. Season individual servings at table.

For easy carving, plan roasting schedule so that turkey is out of the oven 30 to 35 minutes before it is carved.

As soon as meal is ended remove every bit of dressing from turkey. Cool stuffing, meat and gravy promptly. Refrigerate, each in separate containers.

Use gravy and stuffing within one or two days and heat them thoroughly to serve. Include turkey meat in meals within next two to three days. Do not refreeze leftover cooked stuffed turkey.

Spread wheat crackers with creamed cottage cheese mixed with chopped candied or preserved ginger and top with jelly.

BACON BRAN MUFFINS—For a special breakfast treat we suggest you try muffins made from bran cereal and diced bacon. The ideal bread for a spring morning breakfast is a hot one. The family will respond promptly to an early meal that includes such tempting food as fresh pineapple, cereal and muffins.

Bran Muffins Contain Bacon

Breakfast, ah breakfast. This first meal of the day can do much to decide how you will be feeling the day long.

Good, substantial breakfasts provide energy till lunch, help keep spirits high, and generally increase the sunniness of these beautiful spring days.

And, happily, breakfast can be quickly accomplished. The basic breakfast pattern of fruit (pineapple is particularly good in spring), crisp corn flakes served with milk, bread, butter and a beverage, can be prepared and served in a twinkling.

And for a special morning, bake these Bacon Bran Muffins. Made according to the quick method, they are moist and delicious.

Bacon Bran Muffins
1 cup ready-to-eat bran
1 egg
1/4 cup bacon drippings or shortening
1 cup sifted flour
2 1/2 teaspoons baking powder
1/2 teaspoon salt
1/4 cup sugar
1/4 cup crisp diced bacon

Combine bran and milk, let stand until most of moisture is taken up. Add egg and bacon drippings and beat well. Sift together flour, baking powder, salt and sugar; mix in bacon. Add to first mixture, stirring only until combined.

Fill greased muffin pans, two-thirds full. Bake in moderately hot oven (400 degrees) about 25 minutes. Yield: 10 muffins, 2 1/2 inches in diameter.

Meatballs With Gravy Inspire Gourmet Dishes

You can convert canned meatballs with gravy into many gourmet dishes with a minimum of work and in jig time. That is one of their claims to popularity. Another is the fact that they are ready to eat the minute they are hot.

A third is that they combine appetizingly with so many budget-priced foods, like rice, spaghetti, mashed potatoes, noodles, toast, all fillers with excellent nutritional quality at low price.

Baked vegetables, rice and meatballs make a delicious supper or luncheon dish. Sliced or diced carrots, celery, peas, beans, corn—almost any combination of fresh or canned vegetables—with the meatballs and gravy are all turned into a casserole and baked just long enough to blend them thoroughly. They really are good.

Another way to serve this adaptable product is in a ring of cooked rice or spaghetti. Grease a ring mold and put either hot drained rice or spaghetti in it, filling it full.

Turn the ring out on serving plate or platter and fill the center with hot meatballs and gravy.

Baked Meatballs and Vegetables
1 can meatballs with gravy
2 cups drained cooked rice, lightly salted
1 to 2 cups mixed vegetables—peas, green beans, diced cooked carrots or celery, lima beans, corn

Spoon canned meatballs and gravy and cooked vegetables alternately into a shallow casserole. Add rice, mixing gently with fork. If desired, sprinkle buttered breadcrumbs over top. Bake in moderately hot oven (400 degrees) 15 minutes.

Sauerkraut Expert Gives 2 of His Favorite Recipes

Bill Moore of Oak Park, Ill., knows his sauerkraut recipes. He should because he is secretary of the National Kraut Packers Association.

He tells us sauerkraut with pineapple from the land of the hula dancers is one of his favorites.

Kraut and Frankfurters, Hawaiian

1 No. 2 can sauerkraut
2 tablespoons butter or margarine
1/2 cup chopped onions
4 slices canned pineapple
4 frankfurters
Combine sauerkraut, butter or margarine and onions. Turn into greased 1 1/2-quart casserole.

Top with pineapple and frankfurters. Bake in moderate oven (350 degrees) 45 minutes. Serves four.

Bill Moore has a round-up casserole recipe, too. Says it is great eating.

Round-Up Casserole

1 No. 2 can sauerkraut
1 teaspoon caraway seeds
1/2 cup chopped onion
4 frankfurters
Mustard
2 tablespoons butter or margarine
1 package frozen French fried potatoes

Combine sauerkraut, caraway seeds and onion; mix well. Turn into greased 1 1/2-quart casserole. Cut frankfurters in half lengthwise without cutting all the way through. Spread mustard in opening. Slash frankfurters in four places crosswise.

Arrange mustard franks around edge of casserole on top of sauerkraut mixture.

Melt butter or margarine over low heat; add frozen French fried potatoes and saute five minutes. Turn into casserole on top of sauerkraut.

Sprinkle lightly with salt. Bake in moderate oven (350 degrees) 30 minutes. Serves four.

'June Dream' Sure to Quench Guests' Thirst

With warm weather approaching, it's time to think about recipes for delicious, cooling drinks, and to start collecting them for use later on.

There are so many occasions when guests and family appreciate a cool drink more than anything else and there is an endless variety of drinks to serve during the summer months.

There's the any-time-of-day thirst when a well-chilled drink from the refrigerator is the thing. A supply of fruit-flavored carbonated beverages and pale dry gingerale takes care of this.

Black cherry, orange, root beer and cream soda are favorites. Add a scoop of ice cream to any flavor and you have a delicious soda for a mid-afternoon treat.

Here is a tempting warm weather refresher, made with pale dry gingerale, that is sure to please your guests.

'June Dream'

1 12-ounce package quick-frozen strawberries
1 8-ounce can crushed pineapple
1/2 cup heavy cream
Pale dry gingerale

Combine strawberries and pineapple. Put through food mill or sieve. Add cream; mix thoroughly. Divide among six tall glasses. Fill glasses with ice cold pale dry gingerale. Stir gently to mix.

Menfolk Applaud Hot Baked Pears

There are a lot of winter pears in the market. Pears with cheese and crackers make a perfect dessert. Baked pears are always popular, especially with men.

Just wash the pears, cut them in half, core them and put them in a baking dish. Sprinkle generously with sugar and a little salt. Dot with butter and add a very little water.

Cover and bake in a moderate oven. As soon as the fruit is hot, take off the cover to cook the syrup down.

For extra flavor and color, cook cinnamon candies in the syrup, and serve the pears hot from the oven, glistening in their spicy syrup.

Or cool them and serve with a garnish of whipped cream, or a little cottage cheese or cream cheese.

Peel onions and place in heavy saucepan. Cover with cold water and bring to a boil. Drain. Add butter or margarine and melt over moderate heat. Add frozen peas and remaining ingredients.

Cover pan and continue to cook, occasionally shaking pan gently, until vegetables are just tender (approximately eight minutes). Serve immediately in a hot casserole or serving dish. Serve four to six.

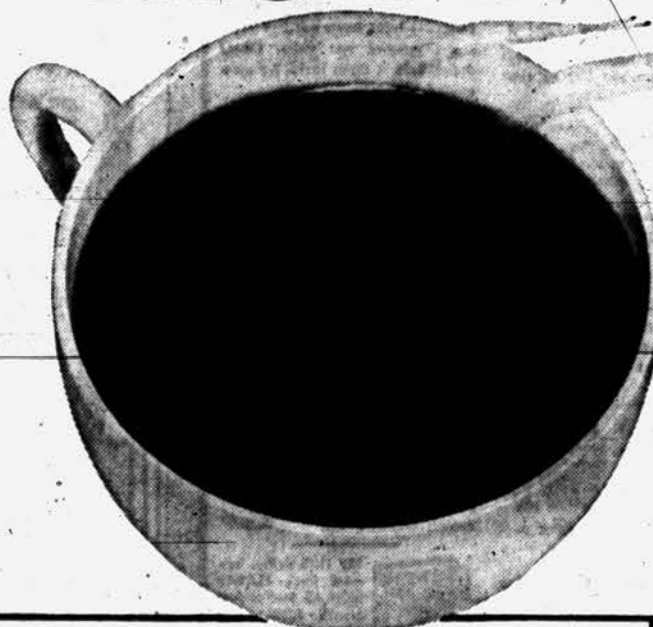

Casserole Peas

1 cup small white onions
2 tablespoons butter or margarine
1 package frozen green peas
2 tablespoons water
1 teaspoon salt
1/2 teaspoon pepper
1/2 cup shredded lettuce

Peel onions and place in heavy saucepan. Cover with cold water and bring to a boil. Drain. Add butter or margarine and melt over moderate heat. Add frozen peas and remaining ingredients.

Cover pan and continue to cook, occasionally shaking pan gently, until vegetables are just tender (approximately eight minutes). Serve immediately in a hot casserole or serving dish. Serve four to six.

Introductory Offer on the NEW FULL-BODIED INSTANT

HOW DO YOU LIKE IT?

Only a full-bodied instant can give you true flavor in all 3 strengths!

MILD (But never weak or watery)

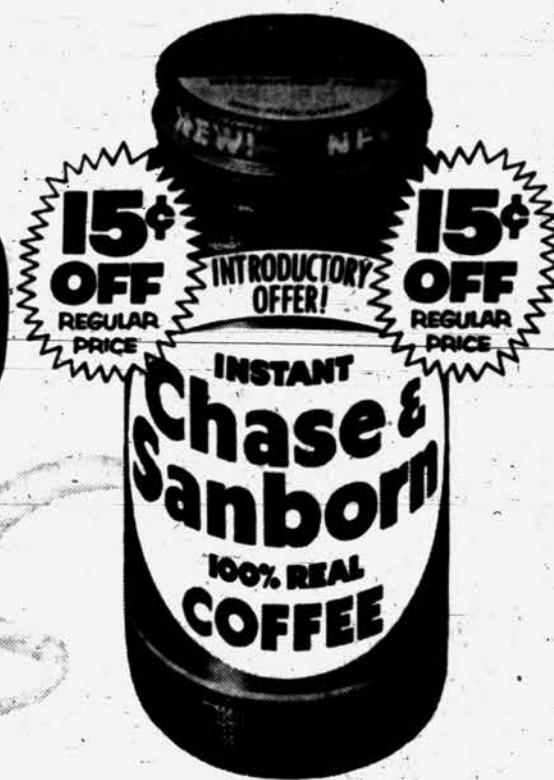

You can make this new instant mild and still get deep, satisfying taste. That's because it's the full-bodied instant with full-rich flavor.

MEDIUM (But never flat or cloudy)

Made to medium strength—the way most people like it—this new instant has a clear, "bright" look with a rich, full taste!

STRONG (But never bitter)

Make New Instant Chase & Sanborn as strong as you like. It keeps its full-bodied mellowness without "bite" or bitterness!

So full-bodied it makes truly satisfying BREAKFAST COFFEE!

Special label 15¢ OFF Jars of New Instant Chase & Sanborn are at your grocer's now!

Truly satisfying breakfast coffee! That's what you've always hoped for—and missed—in every instant coffee you've tried before. But now you can have it at last.

Now here's an entirely new instant you'll enjoy more than any regular or instant coffee you've ever tried. It's New Instant Chase & Sanborn... so full-bodied it gives you twice as much flavor as ever before. Buy a jar today!

All pure coffee—Full-bodied for true coffee flavor!
Darker in the jar—You know it makes full-bodied coffee!
Takes cream wonderfully—Never turns grey or dull!
Clear coffee color—Dissolves into rich-looking coffee!

NEW—entirely new

Put Some Punch in Party for the High School Gang

Punch is ever-popular with the high school set. Keep your shelves well stocked with canned and frozen juices for hurry-up entertaining.

With fresh-bought doughnuts and a heaping-high basket of popcorn, the guys and gals will hold forth in your "rec" room or kitchen.

Try some of the recipes given below for easy budget-minded party fare.

Pineapple Sparkle

1 can (1 pint) pineapple juice, chilled
1/2 cup canned lemon juice
1/2 cup sugar

Combine pineapple juice, lemon juice and sugar, divide among six tall glasses; fill with ice cubes and chilled gingerale.

For a party touch, freeze maraschino cherries in ice cubes or freeze cubes of fruit nectar or grape juice. Makes six to eight servings.

Sparkling Grapefruit-Lime Punch

For a tart punch, blend one can (6 ounces) frozen concentrated limeade mix with water according to label directions. Add one can (46 ounces) grapefruit juice, chilled, and one large bottle (28 ounces) sparkling water, chilled.

Cookies Feature Pineapple Filling

Want some variety in the cookies you make? Make your next ones filled with pineapple, using this easy recipe.

Pineapple Filling

1 1/2 cups drained crushed pineapple
1/2 cup sugar
1 tablespoon cornstarch
1 tablespoon butter or margarine
Dash each of salt and nutmeg

Cook, stirring until thick and clear. Cool. Make dough for your favorite rolled cookies; chill, roll them and cut out.

Dot filling on unbaked cookies on ungreased baking sheet. Top each with second cookie and press edges together. Prick top cookie with a fork. Bake in moderate (375 degrees) oven for 12-15 minutes.

Apple Juice Refreshes

Outdoor meals call for cool drinks. Delicious accompaniment to a hot frank on a roll is a cool, cool drink of apple juice. The individual 6-ounce cans are just right for this. Puncture top, insert straw and enjoy the juice right from the can. Or take a larger can or a bottle and serve in paper cups. No fuss, no bother.

Make up a batch of cheese wafers from a standard recipe. Give them new and different flavor by sprinkling them with whole cumin seed before baking.

COOLING FRUIT PUNCH—You'll be popular with the gang if you provide plenty of nibblin' food and a bowl brimful of punch for after the ball game. Dress up the ice cubes with cherries or freeze contrasting color fruit juice for a change.

PLAY PICTURES ONLY

Royal Squares Fancy, but Easy

First impressions may be lasting ones, but where the planning of meals is concerned, the last course is often the one that counts. A good dessert is like a song; when it's over, the melody lingers on. If you dream of towering, luscious parfaits and rich tender pies, but have only a limited amount of time to make such dessert concoctions, here's the recipe for you. Royal Date Nut Squares are easy enough to make any night of the week yet fancy enough to serve when guests come to call.

Royal Date Nut Squares
1-1/2 cups melted margarine
1/2 cup graham cracker crumbs
1/2 cup chopped dates
1 cup chopped pecans
1 package vanilla pudding and pie filling
3 cups milk

Pour melted margarine into oblong pan (10x2x2 inches). Sprinkle evenly with 1/2 cup crumbs; add dates and one-half cup pecans.

Empty pudding into saucepan. Gradually add milk, stirring to keep mixture smooth. Cook over medium heat, stirring constantly until pudding comes to a boil, about five minutes.

Pour hot pudding over crumb mixture. Sprinkle remaining crumbs and nuts on top letting the pudding show through every now and then.

Chill until firm, three to four hours. Cut in squares and serve. Makes eight servings.

Marshmallow Fluff Can Be Made Early

Make this light-as-a-feather dessert ahead, then chill.

Marshmallow Fluff Pudding
1/2 cup firmly packed brown sugar
1/2 cup flour
3 eggs (separated)
1/2 cup milk
1/2 cup cooking sherry
1 cup diced marshmallows

Mix brown sugar and flour in top or double boiler. Blend egg yolks, milk and sherry; gradually add to brown sugar mixture until smooth.

Cook over boiling water, stirring often, until thickened—about 15 minutes. Turn into bowl; beat with rotary beater (hand or electric) two minutes. Stir in marshmallows.

Beat egg whites until stiff; fold into pudding, blending gently but thoroughly. Spoon into sherbet glasses.

Chill several hours. Serve topped with whipped cream. Makes six servings.

Butter Up for Better Sandwiches

SIMPLE SANDWICHES—When you want spur-of-the-moment sandwiches, make up a flavorful butter to use as a spread. Keep one or two different kinds of bread on hand, and you've the makings of easy, but tempting refreshments to serve with milk or soft drinks.

Sauce Lends Special Touch to Rice Mold

Ring-around-a-ice-mold can be an easy treat when you combine a can of cream of mushroom soup with a can of zestfully seasoned deviled ham, and pour over rice. Mix in a can of colorful green peas to give additional body to the sauce... and just see how rice becomes a special treat!

Deviled corn cake squares fit into a breakfast or lunch menu to really make these "full square meals." Just prepare corn muffin mix as directed on package, fold in can of whole-kernel corn.

Spread in greased square pan and dot half spoonfuls deviled ham over top. Bake as directed. Cut in squares and serve hot or cold.

Ever serve poached eggs on deviled ham spread toast? Children—and their parents—and their grandparents—think this is a novel and wonderful way for breakfast eggs.

Be generous when you spread the toast with deviled ham. One family-size can will cover six slices of bread.

Red D. V. Balls that can garnish salads, snack trays or rice platters

are simply made with cream cheese and deviled ham blended, chilled and shaped into small balls. Roll in chopped nuts to form a thick outer coating.

Use Crushed Pineapple for Handsome Parfaits

For handsome parfaits, drain crushed pineapple, arrange in layers with ice cream, top with cherry or mint leaves.

Don't discard leftover fruit syrup. Use it as the liquid when preparing gelatin salads and desserts, and as part of the liquid in packaged pudding mixes.

May and June parties call for refreshing fruit punches. Serve chilled canned pineapple juice with lime sherbet floating on top.

Attractive ice bricks for the punch bowl may be made by freezing pineapple juice with sliced pineapple and maraschino cherries. Punch will not be diluted when brick melts.

Take Care of Cords

It pays to take care of electric cords. Coil them loosely in a drawer or on a shelf so that sharp bends won't break the fine wires or insulated covering.

With certain simple ingredients in the refrigerator and a loaf of bread or two available, delicious easy-to-fix sandwiches can be made on the spur of the moment.

The success of these sandwiches is due in a large measure to the use of butter with such flavors as chives, orange, lemon, olives, fish and seafood, and a variety of herbs.

Butter with its sweet fine taste, plus any one of a number of "flavor" foods, makes a filling that is satisfying and tasty, for a light snack at any time of the day. Serve these sandwiches with any refreshing milk drink.

Olive Butter Spread
3 tablespoons finely chopped green or ripe olives
1 package (3 ounce) cream cheese
1/2 cup butter, creamed

Crush finely chopped olives to paste and combine with cream cheese and butter. Mix thoroughly. Minced watercress or parsley may be added. Makes about three-fourths cup spread. Use with whole wheat bread cut in triangles or oblongs.

Orange Butter
1/2 cup butter
2 teaspoons orange juice
1 teaspoon lemon juice
1 teaspoon confectioners sugar
1 teaspoon orange rind

Soften butter until the consistency of mayonnaise. Place bowl in dish of ice water and whip in fruit

juice, sugar and grated rind. Spread on nut bread or Boston brown bread for sandwiches. Makes one-half cup.

Chive Butter
1/2 cup butter
1/2 cup chopped chives
4 drops Worcestershire sauce

Cream butter; add remaining ingredients and blend well. Makes one-half cup. Serve on icebox rye bread.

Anchovy Butter
1/2 cup butter
1/2 cup chopped anchovy paste
1 teaspoon lemon juice

Blend softened butter with other ingredients. Mix well. Makes one-fourth cup. Serve on any dark bread.

Tips Given on Using Broiler in Gas Range

Here are general directions for using the broiler in a gas range to best advantage. Preheat the broiling compartment five minutes with full flame. If the broiler flame depends on the heat control, set the dial at the highest point—beyond 550 degrees.

Allow 1 to 3 inches between the flame and the food when you are cooking 1-inch-thick lamb chops. When you broil chicken there should be at least 5 inches between the flame and the food. Allow only food when you are broiling fish (whole, split or filleted).

ROYAL DATE NUT SQUARES—Here's an easy dessert to serve when company comes to call. Made with vanilla pudding and pie filling, graham cracker crumbs, dates and pecans, it is a quick and easy concoction. Two cups of milk in it make it especially nutritious for the family.

Ribbons Dessert Deserves Diploma

Fancy new clothes or cap and gown set the stage for the special events during spring graduations. When excitement wanes, thoughts do turn to refreshments though, and they too must be in step with the occasion.

If you are to be hostess to graduates you will surely be seeking a cooling sweet dessert to serve.

Peach Ribbons are refreshingly cool and just right in flavor. This dessert may be prepared ahead and chilled until serving time.

Peach Ribbons
First layer:
30 marshmallows (10-ounce package)
1/2 cup milk
1 cup whipping cream

Cut marshmallows with wet scissors. Add to milk. Cook and stir over low heat until well blended. Cool.

Fold in whipped cream. Pour into buttered 8x8x2-inch pan. Chill until firm.

Second layer:
1 can (1 pound 13 ounces) sliced cing peaches
1 tablespoon gelatin
1/2 cup cold water
1 tablespoon lemon juice

Drain syrup from peaches, add enough water to measure 1 1/3 cups. Heat liquid. Soften gelatin in cold water; dissolve in hot syrup.

Stir in lemon juice. Chill until syrupy. Add peaches and pour over marshmallow layer. Chill until firm.

To serve, cut into 12 rectangles.

Save the liquid from canned vegetables and use it when making a white sauce. Use about one-third vegetable liquid and two-thirds milk in a standard recipe.

Any way you look at it...

U. N. Disarming Talks Await OK by Big Four

UNITED NATIONS, N. Y. (AP)—Disarmament talks in the U. N. subcommittee were suspended today until the higher levels of the Big Four powers give the green light for their resumption.

The five-nation group decided late yesterday to hold off its consideration of Moscow's peace and disarmament proposals and all other ideas until their bosses at home

decide how the U. N. talks will be tied in with the Big Four parleys coming up this summer.

Road Gang Prisoner Says 'Bye,' Takes Off

CONCORD, N. C. (AP)—The last words of at-large prisoner Bennie Weeks to his fellow prisoners before he escaped from a road crew Monday were reported by prison officials yesterday as:

"Well, I think it's time to be leaving. I'll be seeing you."

Releases More Polio Vaccine

Public Health Service Frees 200,000 Shots for Immediate Use

WASHINGTON (AP)—First shots of Salk polio vaccine were available today for 200,000 more school children and the Public Health Service said new supplies "will become progressively available."

The service announced last night the release of 200,000 cubic centimeters of unused vaccine previously distributed by Pitman-Moore Co., Zionsville, Ind., and Wyeth, Inc., Marietta, Pa. That amount, once cleared, had been held back from use since May 7 when inoculations were halted for a safety check.

The release was the first since May 15, when supplies previously distributed by Eli Lilly & Co. of Indianapolis were cleared a second time. Similar action had been taken on May 13 on vaccine made by Parke, Davis & Co., Detroit.

"From this point forward," the Health Service announcement said, "vaccine supplies will become progressively available under the provisions of the revised standards for vaccine production and testing announced last Friday."

No date was given.

The service did not say where the released supplies were located.

Test Devised for Strength of Eggshells

CORVALLIS, Ore. (AP)—Poultryman Paul Bernier of Oregon State College has developed a method of measuring eggshell strength without breaking the egg. All eggs have the same specific gravity except for the shell. Eggs with shells thicker than average sink in a salt water solution in which average shelled eggs float.

Thickness is a good measure of shell strength and poultry breeders may use this method to select and develop laying strains that have the genetic ability to produce strong-shelled eggs, Bernier says.

Bernier says that at least one-tenth of all eggs produced are cracked between the nest and the consumer. Cracked eggs mean at least a 50 per cent loss in the price per dozen producers receive.

While some of this breakage is due to poor feeding, Bernier says that a hen still must have the inherent ability to produce strong-shelled eggs when fed the proper diet.

Dutch Studying Treaty for U. S. Arms Plant Aid

THE HAGUE, Netherlands (AP)—A treaty providing for U. S. aid for a new munitions factory to be built in the Netherlands is before the Dutch Parliament.

Unless members call for a debate within 30 days, the treaty will be ratified automatically.

A memorandum submitted with the treaty yesterday did not specify the nature of the projects.

Thieves Earn Profit for Disbelieving Sign

BOSTON (AP)—The sign on the safe in the office of Builders Specialties Co. read:

"Please do not open this safe as it contains less than \$50."

Thieves ripped open the safe anyway, police were told yesterday.

It contained \$256.

Just Playing Dead

OMAHA, (UP)—Sheriff Patrick Corrigan was answering a call

to pick up a dead dog. En route he received a call: "No need to pick up dog. He just got up and ran away."

Very Well Spoken

HARTFORD, Conn. (UP)—Probably the shortest congratulatory

telegram to Dr. Jonas Salk, developer of polio vaccine, came from the Connecticut State Nurses' Association. It read: "Thanks."

An average grocery store today carries more than 5,000 items compared with only about 1,000 as late as 1939.

Bob Considine Says:

TV to Spotlight New Anti-Cancer Weapon

NEW YORK (INS) — The fight against cancer has taken many turns. The battlegrounds are a thousand times more numerous than the degrees and types of the next worst of human diseases, ranking only behind loss of faith. The weapons of this war are endless in scope.

Cancer is being fought by atoms which cannot be felt, tasted or smelled. The arsenal ranges all the way from an invisible ray to a knife of the substance of steel; from the most precious radium to the essences of cheap garden dirt.

On June 7 an estimated 15,000,000 television viewers will see another tool in the cancer war, a mile-long pneumatic tube which will race a suspected bit of human tissue from an operating room at Walter Reed Hospital in Washington, D. C., to the Armed

Forces Institute of Pathology for examination.

Pathologists will examine the sample with a "television microscope," jot down a report, feed it into the tube, and shoot it back to waiting surgeons. For the first time the gap between the knife and the report of the pathologist will be narrowed.

It's all a part of the 104th annual meeting of the American Medical Association, to be held at Atlantic City. It should mark another stride in the battle. If it achieves no more than acquainting more people with the cancer problem, the need of regular checkups and continued research, it will more than have served its purpose.

FOR OLD FEARS

Dr. J. E. Schmidt, of Charleston, Ind., sends me a few new

terms for old fears, from his larger work "Our Growing Fears" — Lipsophobia — fear of leaving, as one's home. Lygophobia — fear of dark places. Kynophobia — fear of dogs. Allurophobia — fear of cats.

Primusophobia — fear of arriving first, as at a party. Magetophobia (very common) — fear of having to cook food. Iatrophobia — fear of doctors.

Pondocrescophobia — fear of gaining excessive weight. Nucleomitophobia — fear of being attacked by atom bombs. Rhinotidophobia — fear of having a shiny nose. Hidrosiphobia — fear of offending by perspiration.

Manoquaphobia — fear of having to shake hands. Stillafetophobia — fear of dripping faucets. And what must be the all-time favorite of the leather couch owners, phobophobia — fear of fear.

A-BIRTHPLACE OPEN

Ten years after the agonized birth of the atomic bomb, the laboratory in which it went through its final periods of gestation will be opened to the press, radio and TV. At least for a couple of days.

Invitations have gone out from the Los Alamos, N. M., scientific laboratory, a part of the University of California, to "various old friends" of the project.

It was on July 16, 1945, that human beings first saw the blinding flash and mushroom cloud that soon ended a vast war in the Pacific and shortly thereafter became a menacing sword over the world.

SEEK FAIR PLAYER

Do you read the sports pages? Of course, you do. Well, if a story dealing with fair play, integrity and the competitive spirit struck you recently, and you can

get hold of the clipping (or magazine article), send it to Daniel Chase, Executive Director, The Sportsmanship Brotherhood, 119 E. 19th St., New York 3, N. Y.

Nominations for the first Grantland Rice Memorial Award of the brotherhood must be made before July 13, anniversary of death of the greatest gentleman I ever met. You could be instrumental in making your favorite sportswriter more or less immortal.

Carp Getting Smaller

ST. PAUL (UP) — The Conservation Department's fisheries division reports netting crews are taking out more and more smaller carp from Minnesota's 10,000 lakes, indicating the effectiveness of operations in getting this "rough" fish before it reaches destructive size. In nine months, about 6,500,000 pounds of rough fish have been removed.

ESTHER IN HOLLAND — Esther Williams, movie swimming star, and her husband, Ben Gage, visit a Dutch bulb field with a native girl wearing costume of fishing village of Volendam.

College Graduates Increasing Rapidly

ANN ARBOR (UP) — The percentage of college-educated persons in the United States currently is about 7 1/2 times more than at the turn of the century, according to two University of Michigan officials.

Dean Charles E. Odegaard of the literary college and Dean Ralph A. Sawyer of the Rackham School of Graduate Studies disclosed the fact in commenting on their experiences as members of the Commission on Human Resources and Advanced Training.

Odegaard and Sawyer agreed that the study showed an "alarming" lack of graduates in the fields of law, medicine and dentistry, once the most popular fields of collegiate studies.

They said many students have been drawn off into business and education training. Foreign language studies, humanities and natural sciences also have lost ground on a percentage basis, they said.

Island Demands County Change

Trip to Courthouse Now 300 Miles Long by Ferry, Road

OCRACOKE, N. C. (UP)—This isolated island of the famed Outer Banks, once the hideaway of Blackbeard the Pirate, is demanding a change of county government.

Since 1885, Ocracoke has been a township of Hyde County, N. C., serenely satisfied to be separated from its seat on the mainland by Pamlico Sound.

To reach the county seat at Swanquarter, residents of Ocracoke, traveling by established highway and ferry routes, must make a 300-mile round trip via Beaufort, New Bern and Washington, N. C.

A new highway stretching down the Outer Banks from Nags Head to Cape Hatteras on adjacent Hatteras Island has prompted a petition from Ocracoke islanders to transfer their allegiance to Dare County which has its seat at Manteo. Via the new Hatteras highway, commercial ferry at Hatteras Inlet and the beach trails on Ocracoke, the travel time to Manteo is only about three hours.

The Dare County board of commissioners has approved the idea, adopting a resolution stating that the "general expression of this board is that Ocracoke would be welcome in Dare County."

Porpoises kill sharks. Their weapons are their tough snouts, with which they butt the tender gill slits of their often larger adversaries.

'Her Nibs' Nets \$40,000 on 'Tweedle-Dee'

By PHYLLIS BATTLE
NEW YORK (INS)—Miss Georgia Gibbs, the girl with the volcanic voice box, has never had it so good professionally. And most of the credit must go to a jerky little ditty (interpret that as you will) called "Tweedle-Dee."

How, I asked Georgia, could you sell your artistic soul for a mess of tweedle-dee-dees and tweedle-dee-dots?

"Listen to the girl," cried Georgia, bouncing happily and snapping her fingers. "You're not on it, honey. Tweedle-dee-dee, tweedle-dee-dum..."

I know, I know, I said. But aren't you, shall we say, embarrassed, to have your name linked to such a juvenile number?

Georgia pulled herself up to her full five-foot-two. "This record," she said, "has sold over a million. This does not leave me embarrassed. Just pleased."

\$40,000 ON RECORD
Also wealthy. Recording artists get five per cent of the going rate of their records, and this means she has already netted more than \$40,000 on "Tweedle-Dee." She also has another million-selling record at the moment, an opus by the name of "Dance With Me, Henry" which is not quite as big as "Tw D" but is getting there.

"Oh, Dance With Me, Henry," gurgled Georgia happily, wagging her head to the rhythm. "Love that song. It's not Beethoven's Fifth, but it'll do."

Miss Gibbs, who was nicknamed "Her Nibs" by James Durante in a poetic moment several years ago, refuses to concede that the songs of today are

any less inspired or more noisy than the songs of yesterday. "Songs go in cycles," she says, "but this year's cycle is no worse than those of the past. You forget 'Yes, We Have No Bananas' and 'The Music Goes Round and Round' and 'Dance With a Dolly,' no doubt."

"Now those, honey, were not brilliant tunes."

CREDITS TEENAGERS

The blame—or credit—for today's tune successes, including mambo, cha-cha, etc., must go to the teenagers of America, Georgia thinks. "The kids, bless 'em, have all the money these days and they like happy tunes," claims Georgia. "Why since 'Tweedle-dee' came out, I've had to hire a staff to handle the mail from the teenagers, and there are

Bones Found at Mine Belong to Mastodon

NEW CONCORD, O. (UP)—Officials at Muskingum College have been informed by the Smithsonian Institution that bones of a prehistoric animal recently unearthed near St. Clairsville were "almost certainly" those of a mastodon.

Archaeologists said the bones were those of the American mastodon "mammut americanum," belonging to the Pleistocene or glacial age.

Bones recovered were the lower portion of the upper fore limb and the upper part of the inner bone of the fore limb. They were unearthed in strip mine operations at Pague's Run and were brought to Muskingum for identification.

The college plans to preserve the bones with a hardening solution and display them.

more than 100 new fan clubs to write to.

"Incidentally, when you get a hit record, suddenly everybody in the world knows you," Georgia doubled up a fist and ploughed it at the air. "I'm a real smash in Japan," she said.

Miss Gibbs, whose only million-selling record before her current pair was a torchy hit called "Kiss of Fire" three years ago, has struggled a long way since she graduated from an orphanage in Worcester, Mass., at the age of 13. She began her career

singing in a local Worcester ballroom for \$2.35 a night.

"In those days," she remembers, "I thought—much as you do, you snob—that the only artistic numbers were those tragic 'beat-your-chest' type tunes. So I sang artistic numbers and starved."

PLEASES PUBLIC

This went on for years, while Her Nibs tried vaudeville, radio, night clubs. Then about five years ago she sat up and said to herself, who'm I kidding? The public knows what it wants. No sense

trying to feed it castor oil when it wants candy.

"So I became a realist. I followed the trends. I began to record only tunes that I could hum after the first time I heard them. I built up my muscles and began to hit 'em."

Summing it up, said Georgia, the older folks in the country may want to bring back the ballads and the cryin', but the youth want to be happy with that ol' rock and roll. And youth, as long as it has the money for records, will be served.

(Copyright 1955)

Too-Sound Sleepers Robbed Too Often

MILWAUKEE (UP)—Members of the Victor Landru family have decided they sleep too soundly for their own good.

They awoke one morning recently to find that a burglar had entered their apartment during the night and made off with seven guns, a typewriter and \$460. The cash was in the pocket of Landru's trousers, which hung near his bed.

Only the week before a burglar had taken \$42 and two wrist watches from the Landru apart-

ment while the family slept. A passkey apparently was used to enter the apartment both times, police said.

Kipling Animals Are Dying Out

India Trying to Prevent Extinction of Unusual Asian Beasts

WASHINGTON—Some of India's animals that charmed Rudyard Kipling and still enchant a world of readers are vanishing.

The hunting leopard or cheetah, the black buck, gazelle and one-horned rhinoceros now join other fauna in a gradual disappearance from the storied Indian landscape, the National Geographic Society says.

India, for centuries a wildlife paradise, has long felt inescapable natural forces marshaling against many of its animals and birds.

An authority some 30 years ago noted how the fast growing population was driving back the protective jungle and how disease and overhunting were taking a heavy toll.

The Indian Board for Wild Life recently considered means to prevent extinction of many picturesque species. In particular, opposition is increasing to profit-making safari clubs that recruit outsiders for big-game hunting.

Recommendations were for a ban on killing the malabar squirrel, Himalayan bearded wild goat, hunting leopard and the great Indian bustard, a large game bird. Protection has been asked also for the horned antelope, gazelle and black buck.

Game depletion in south India was attributed more to wandering tribes of hunters and trappers than to foreign hunters. An aim now is to keep travelers interested in India as an alluring hunting ground but to restrict shooting.

Appearance, habit and temper contrast sharply in the wildlife India strives to protect. One of the most eye-catching animals is the spiral horned black buck, banished by the herd's leader when its coloring turns black.

Prehistoric in appearance and of nocturnal habits, the Indian one-horned rhinoceros is reputedly the world's largest. It may live 50 years. Heavy-eyed and seemingly lazy, it will charge an elephant or tiger on provocation. Less combative animals sometimes congregate about the rhinoceros for protection from tigers.

The spotted and long-tailed cheetah is considered the swiftest beast on a short course. It was used by Indians and Persians for centuries against antelopes. Its projectilelike speed was unloosed on the quarry generally at a distance of 200 yards.

The male of the great Indian bustard weighs up to 32 pounds and presents an 8-foot wing spread. In courtship, the bird's head bends back, almost touching the uplifted tail. It is capable of powerful, sustained flight and is renowned for its wariness.

Do-It-Yourself Bar Pleases the Patrons

CHICAGO (INS)—The "do-it-yourself" craze has finally hit the drinking circuit—with sometimes shattering results.

The innovation was started by Al Hollander, the Equine Pub Restaurant, who reported the plan its meeting with spectacular success among businessmen from nearby Chicago Loop offices.

Patrons make their own drinks in one corner of a bar furnished with necessary ingredients and equipment. A bartender is present to offer advice if requested, or lend a helping hand to those in dire need.

More than none incident has come up, however, when patrons trying to impress friends have concocted drinks that forced them to revert to the "old-fashioned" kind of service—prepared by a professional bartender.

Human Alarm Clock Gets 'Em All Out

CROSSVILLE, Tenn. (U)—Dewey Holman is about to retire from his shoe shop and start sleeping late in the morning. When he does, a lot of folks may be late for work.

For 15 years, Holman has been roaring out a big, time-to-get-up warwhoop at 7 o'clock each working morning. He doesn't know just how he started his window-rattling vocal exercise but he's come to look upon as something of a civic obligation. When he was sick once, several persons complained they overslept.

San Diego County in California has 4,238 square miles, about the same area as Connecticut. It extends 70 miles up the Pacific Coast from Mexico.

Housework Easy Without Nagging Backache

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, continued exertion or day to day strains and strains. And folks who eat and drink unwholesome sometimes suffer mild bladder irritation. With that comes an uncomfortable feeling. If you are miserable and worn out because of these discomforts, Don's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys—helping to increase the output of the 15 million of kidney tubes. So if nagging backache makes you feel dragged-out, miserable, with restless sleep, get the same happy relief millions have enjoyed for over 20 years. Get Don's Pills today!

800 MILES OF WIRE FOR BRIDGE — Shown is part of the 800 miles of heavily galvanized steel wire required to wrap the suspension cables for the new Mackinac Straits Bridge. John Noruk (left) and Arthur Connick of U. S. Steel plant in Duluth, Minn., stack the coils. The total order calls for 270 tons of wrapping wire, 50 tons of which are shown here.

New Excursion Boat May Revive St. Joseph River

ST. JOSEPH (U)—A 65-foot, paddlewheel river boat, built by a dental technician in the short space of four months, may become the first St. Joseph River commercial craft since 1907.

The boat was built by Lee Sies, who expects to launch it in 30 days and plans to use the vessel for river excursion tours.

Commercial operations on the St. Joseph River halted about 1907, when the sidewheeler "May Graham" and the sternwheeler "Tourist" ceased excursion trips.

Sies conceived the idea for his boat last fall. Its design was prepared by Jack Spicer, a New Products Co. Engineer, with Sies contributing the greater share of the labor in building the boat.

The steel-hulled "River Queen" is constructed to withstand many of the hazards posed by floating debris, hidden stumps and snags, Sies declares.

DISPLACES 14 TONS

"The Coast Guard rates it at 14 tons, gross weight, and it will carry safety equipment for 100 persons," he reports. The sternwheeler craft has a 12-

foot beam and is expected to draw only 16 inches of water when fully loaded. It is double decked and designed to carry 80 to 100 passengers.

Sies plans to run regular daily scenic trips and charter excursions at various times. He says the project represents a \$20,000 investment and intends it to be a full scale summer operation.

Sies has operated pleasure boats from Silver Beach for the past 16 years. He says the new craft also will be based there.

The St. Joseph dental technician recently was one of a 10-man group who met to discuss feasibility of making the St. Joseph River navigable as far as Berrien Springs, a distance of about 30 miles.

"I am going up the river," he told the group, but for pleasure craft operators to enjoy the scenic splendor of the St. Joseph River some dredging, debris cleaning and channel marking will be necessary.

Others in the group feel the coming of the new commercial venture may serve as a wedge for boat operators who seek to have

the river improved for pleasure craft.

U.S. RESPONSIBILITY

Several believe commercial use of the waterway makes it the responsibility of the government.

Harold Bradfield of Berrien Springs told the group that St. Joseph River navigation might be a responsibility of the United States Corps of Engineers as a part of the Great Lakes Waterways.

He said Sen. Charles Potter has "expressed a definite interest in the feasibility of opening the river to navigation."

Don Steward, secretary of the Benton Harbor-St. Joseph Chamber of Commerce, said:

"When Sies starts operating on the river, we might find that a project of less cost and time than we think."

Richard Grau, president of the Berrien County Sportsmen's Club, offered a briefly clouded note. He said some members of his group believed opening the river might impair fishing.

Grau added, however, the problems probably could be solved as they arose and indicated his organization would support the commercial movement.

All believe the "River Queen" could be the vessel to usher in another field of prosperity.

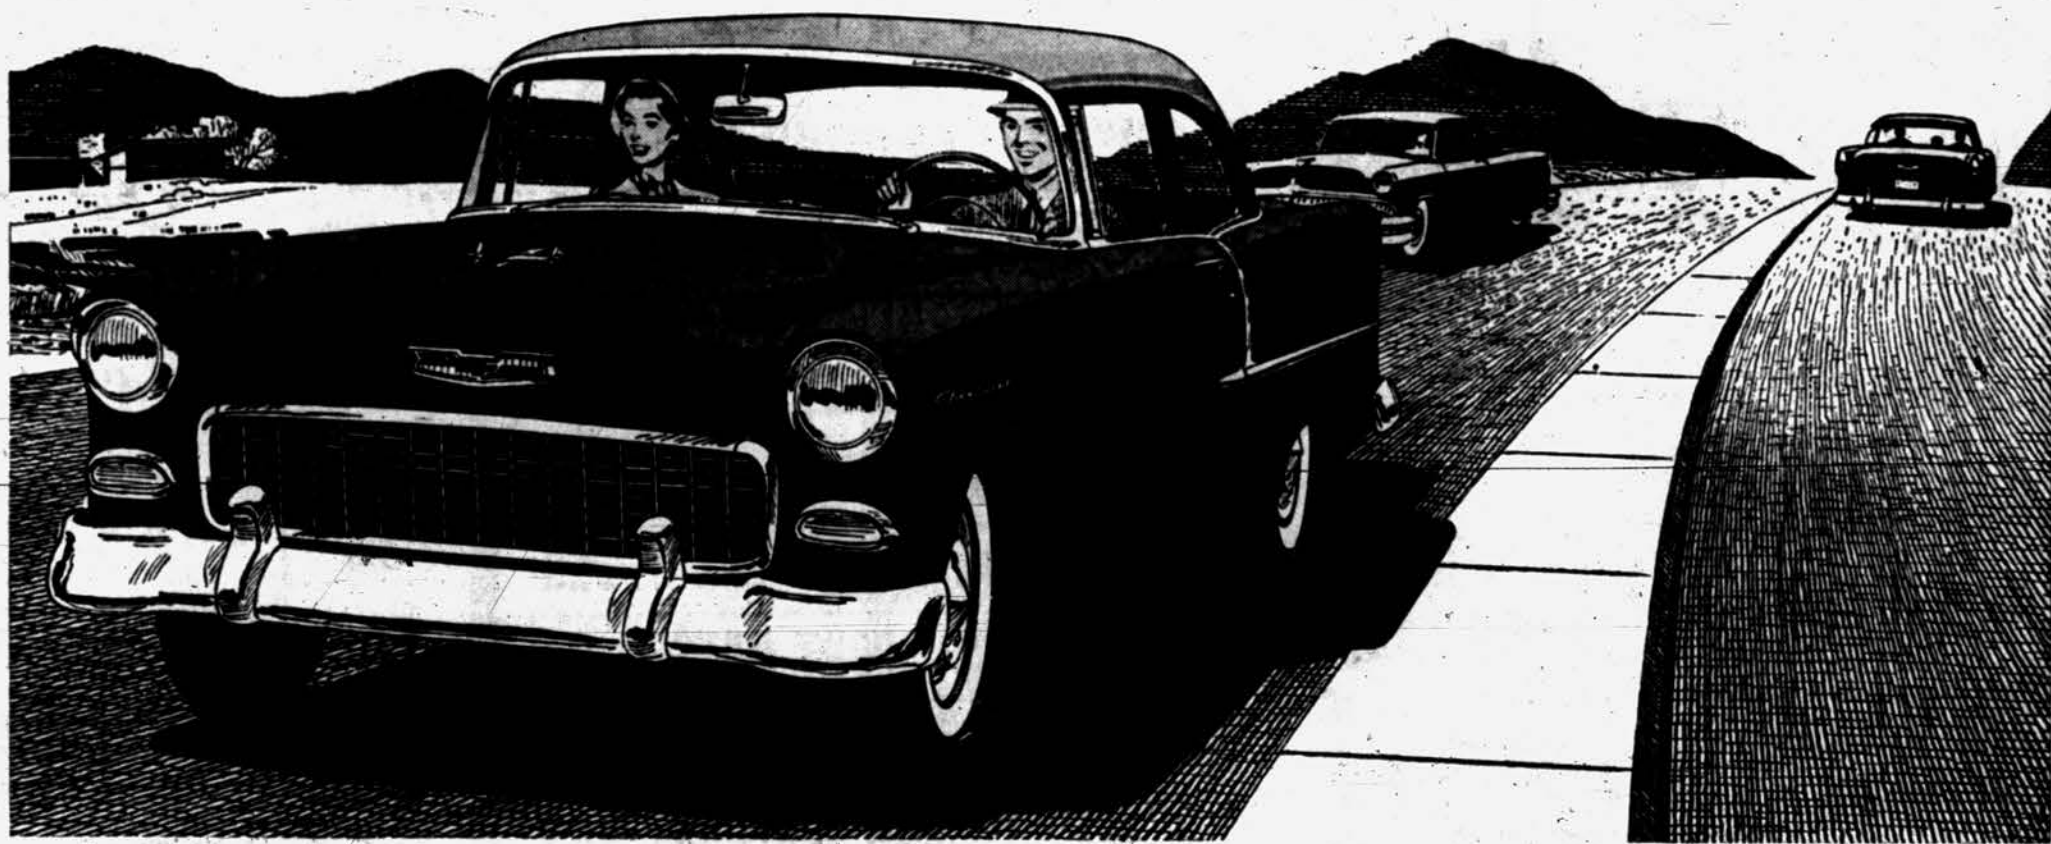

Meat of the Matter

ATHENS (INS)—The site of the Old Palace in Athens, built in 1833 and presently housing the Greek Parliament, was picked by exposing four pieces of raw meat at different points in the Greek capital. The last place to go bad was judged as occupying the most salubrious spot in town and there the palace was built.

Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR* trials—and took a licking!

Meet the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today.

You want facts, don't you? And not ours. Facts instead from an independent, outside source where the only things that count are who came in first, second, and so on. Here they are—

Daytona Beach. NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one!

Daytona Beach. NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

Daytona Beach. NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement. Chevrolet captured 3 of the first 5 places! None of its major competition (what competition?) even finished "in the money"!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet fin-

ished first! Way, way ahead—as in sales!

Fayetteville, N. C. NASCAR Late Model Event. After running the fastest qualifying round (with a new car) Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

*National Association for Stock Car Auto Racing

Way, way ahead!

Ramblers Win Polo Match at Ivory

Mac Stefani scored six goals to spark the Birmingham rambblers to a 12-9 polo victory over Rochester's Mike Wacker also had four.

In the 1st game of the double-header, Franklin Hills' polo team defeated the Detroit Majors, 8-7. Rich Gibson tallied two goals for Franklin Hills.

Eaglets Take 1st SCL Title in 23 Years

Baseball Club Wins on 7-1 Record, Seeks Divisional Crown

Orchard Lake St. Mary's baseball team ended a 23-year drought this spring by winning the Suburban Catholic League championship. When the Eaglets defeated Center Line St. Clement, 8-7, to wrap up the crown, it marked the 1st time since 1932 that they had won a title of any kind in baseball. They concluded the regular season with a 7-1 record.

St. Mary's squad displayed a remarkable capacity for winning the close ones. Five of the Eaglets' seven victories were by one-run margins. They capitalized on opportunities, produced consistently in the clutch, and received steady, sound pitching from Pete Ziebron.

Their ability to take the tight games again asserted itself last Friday in the opening round of the post-season 2nd division parochial loop playoffs. In that contest they scored a 3-2 overtime victory over Detroit St. Andrew, west side winner, to reach the championship finals. St. Mary's will vie for the title this Friday against Detroit St. Philip, east side winner, at University of Detroit.

Pontiac St. Michael wound up in 2nd place, a half game in front of Ferndale St. James and Highland Park St. Benedict. Shamrocks hold the distinction of handling St. Mary's SCL champs their only setback. St. Fred's Rams dropped seven straight contests to finish last.

Final SCL standings:

CL.	St. Mary	St. Michael	St. James	St. Benedict	St. Philip	St. Fred	St. Andrew
W-L	7-1	5-3	4-4	3-5	2-6	1-7	0-8

Clarenceville Gains Tie for W-O Crown

The Wayne-Oakland season and championship race both ended Wednesday with defending champion Clarenceville gaining a title tie with Clarkston. The Trojans laced Holly, 22-2, to match Clarkston's record of 10-2, and claim a co-championship.

Clarenceville broke away from a 2-1 game with 5 runs in the 4th inning and a big 12-run 5th frame. Hosford had 4 hits, including a double. Brighton finished 3rd with an 8-4 record, followed by Millford, Northville, West Bloomfield and Holly.

Swim Equipment Clinic at Sylvan Lake Tonight

Complete instruction courses in use of the aqua-lung and the "diver" will be given on four consecutive Thursday nights, beginning tonight, at Sylvan Lake. Starting time is 5:30 p.m. All equipment for the clinic, which ends June 23, is being donated by Michigan Frogmen. For further information contact Mike Clark at Federal 2-1907.

Ted Kazanski, the shortstop who received a reported \$100,000 bonus from the Phillies in 1951, is now playing third base for the Syracuse Chiefs in the International League.

Patton Hot Favorite for British Title

ST. ANNE'S England (A)—As long as Billy Joe Patton keeps on putting like he has, it will be hard to deny him the British Amateur golf championship.

Spectators and fellow competitors alike regard the Morgantown, N.C., boy now as the hot favorite to win the grand old golfing title as play continued here today. But it's far from a sure thing.

If Patton is still around when the issue is decided in the 36-hole final match Saturday, he is almost certain to bump into another American who could give him trouble

even if British players can't stop him.

There are 11 Americans still in the title chase.

Among them are big hitters like Jimmy McHale of Philadelphia, Bruce Cudd of Portland, Ore., and steady down-the-middle guys like Dale Morey of Indianapolis and Joe Conrad of San Antonio, Tex. Not to forget 20-year-old Don Bisplinghoff of Orlando, Fla., who swings like those pictures in the "how to play golf" book.

Other Americans still alive are James Bernard, Westboro, Mass.;

Bert Weaver, Beaumont, Tex.; Jimm-y Jackson, St. Louis; George Coleman, Miami, Okla.; and surprising 65-year-old Barton Bridgeford, retired businessman of San Francisco and Paris.

There are other points of doubt about Patton's chances. Some say you can get only so much luck in a week long tournament and that Patton already has had his share.

He had to in order to get by England's Edward Bromley-Davenport and Ken Venturi of San Francisco by identical 1-up scores yesterday. Patton was as long as usual off the tees and also wild,

but he putted from far corners of the 16th, 17th and 18th greens like a man who never misses.

If the big amateur trophy is to be kept from American hands, Joe Carr of Ireland and Phil Scrutton of England are going to have to play the golf of their lives.

These two surviving British Walker Cup players are the only ones of international class left in

the field other than the Americans. Fourth-round play starts in the morning, with the fifth round following after lunch.

Patton meets England's Jack Jones this morning, while Bisplinghoff plays J. J. Niven of England. "I hope this is a comfortable match," sighed Patton. "Those two yesterday left a knot in my stomach."

TROUT GALORE—Carl Hefner, Pontiac angler, and several companions, enjoyed a long-dreamt vacation fishing on a Canadian lake recently, and here's the proof of success. Hefner holds a 15 pound laker, 35 inches long. In the foreground are some 15 trout and three walleye pike, part of the catch.

Miller Loses No-Hitter With 2 Out in 7th Frame

Drive-In Cleaners posted a 6-5 overtime victory and Stadium Inn's Ed Miller pitched a one-hit 4-0 shutout to highlight Wednesday night's play in men's city league softball.

Drive-In blew a three-run lead against Mike's Used Cars, forcing the contest into extra innings. The winners held a 5-3 lead until the 6th inning when Mike's erupted for three runs to tie the count. Drive-In won the game in the 8th with back-to-back doubles.

Ed Miller struck out nine and walked one for his one-hit masterpiece. The lone hit was a single by Bill Almas with two out in the 7th. Seven of Miller's strikeouts were in the last three innings, six consecutively.

Shaw's Jewelers racked up its 5th straight triumph at the expense of Riteway Softwater, 8-3.

Pontiac & Opdyke banged out 15 hits and scored in five of the seven innings to smother Franklin Products, 14-4. Roy Cummings clouted a homer for P&O in the 6th frame.

Leaders Keep Record Clean

Dick-Wes Club Takes 6-2 Win Over Day's in Township Loop

League-leading Dick & Wes Sports of the Waterford Recreation Softball League registered its 4th straight victory Wednesday night at Township Park in Drayton Plains on a 6-2 triumph over Day's Sanitary.

Jim Cuthrell went the distance and gave Day's 6 hits. Charley Johnson limited D & W to 4 hits, but also walked 8.

Dick & Wes scored 4 times in the 2nd inning on 4 walks, Cuthrell's 2-run single and Dick Cooper's 2-run double. Jim Burt had 2 of the Sports' nine hits, while Larry Fineley had 2 hits for the losers.

Dick & Wes 042 000 0-6 4 2
Day's Sanitary 101 000 0-2 6 2
Cuthrell and C. Cooper; Johnson and Finley.

Results of 4th Tourney Round

ST. ANNES, England (A)—Results of today's fourth round matches in the British amateur golf championship:

James B. McHale, Wynnwood, Pa., defeated R. M. Delloye, Wales, 5 and 1. Joe Carr, Ireland, defeated Gordon Whitehead, England, 4 and 3. Alan Slater, England, defeated Dale Morey, Indianapolis, 2 and 1. Don Bisplinghoff, Orlando, Fla., defeated John Niven, Scotland, 3-up. James K. Bernard, Westboro, Mass., defeated Count John DeBenedictis, England, 3 and 2. Arthur Perenna, England, defeated D. T. Stephenson, England, 5 and 4. Richard Ashcroft, England, defeated W. J. R. Gilbert, England, 1-up (15 holes). Guy Wolstenholme, England, defeated Bert Weaver, Beaumont, Tex., 5 and 4. Phil Scrutton, England, defeated Jack Burnside Jr., Scotland, 5 and 4.

Entries Now Being Taken for June 12 Paddle Push

Wednesday, June 8, is the deadline for entries in America's biggest canoe race, the 4th annual Paddle Push down the Huron River. The eight mile canoe race will be held Sunday, June 12, starting at 2 p. m. at Millford bridge.

The annual race has grown to be the biggest canoe contest in the country from the standpoint of entries though the course is not as stiff as some northern marathons. Eighty-two teams of two, or a total of 164, participated last year and thousands of spectators lined the banks. The course is from Millford

Hockey All-Star Game October 2 in Detroit

MONTREAL (A)—Annual all-star game of the National Hockey League will be played Oct. 2 in Detroit, home of the NHL champion Red Wings.

Announcement of the date and site was made yesterday during the league's annual meeting.

Dick Irvin will coach the team opposing the Red Wings, who closed the 1955 season by capturing the Stanley Cup in a series with the runnerup Montreal Canadiens.

WEDNESDAY'S HOME RUNS
Shawron, Carey, Yankees; Zernial, Athletics; Smith, Indians; Lolier, White Sox; Boone, Tigers; Reese, Robinson, Cardinals; Butler (3), Dodgers; Banks, Cubs; Kazanski, Phillies; Reddy, Jays; Glantz.

Snider Barely Misses Hitting Record Books

Collects 3 Home Runs, Has Double Six Feet Too Low for 4th

BROOKLYN (AP)—Two yards of chicken wire was all that prevented Duke Snider from joining the select group of seven sluggers whose names are in the record books with four home runs in one game.

Those six feet forced the sweet-swinging center fielder of the Brooklyn Dodgers to settle for three homers and a double, a pretty mean feat even if the Duke did miss the record books as the Dodgers defeated the Milwaukee Braves 11-8 last night.

"For a minute I thought I had the fourth one, too," Snider said afterwards. "I hit it real good but it sort of sunk on me and hit the screen. I have no idea what the pitch was but it must have been a sinker."

Snider was referring to his last hit which came in the eighth inning. He already had walloped three homers, one each off south-paw Roberto Vargas and right-handers Gene Conley and Ernie Johnson. Another lefthander, Chet Nichols, was on the mound. Duke took a strike and a ball, then lined the next pitch high off the screen in right, just six feet short of his fourth homer.

Was he disappointed when the ball failed to clear the screen? "I can't say I was," he said. "In fact, I almost bunted. When I walked up to the plate, I turned to Del Crandall (Milwaukee catcher) and said:

"If I get the right kind of pitch I'm going to bunt." Del just laughed and said: "This I gotta see. In the pig's eye you'll bunt." "But I really had the bunt in mind. After all, they were playing me deep and it was still a close game. We were only leading by two runs (10-8) at the time. I figured if I could get on base, Camp (Roy Campanella) or Sandy (Sandy Amoros) would drive me in."

Walter Alston, Dodger manager, disclosed he had given orders to Snider to bunt should PeeWee Reese, the batter preceding Duke in the eighth get on, Reese however flied out.

Snider now tops both leagues with 15 homers.

Reset Tigers' Date

KANSAS CITY, Mo. (UP)—The Kansas City Athletics have rescheduled two postponed games, one with the Tigers and the other with the Indians. The May 26 game with Detroit will be played as part of a two-night doubleheader on July 1, while the May 27 game with Cleveland will be played as part of a day-night doubleheader on Aug. 12.

Tigers Bounce Back to Blank Solons

DETROIT (AP)—Famine to feast? Well, the Detroit Tigers certainly hope it works that way. After four losses in which they not only got beat but were thoroughly whipped in all departments, Tigers bounced back yesterday with a fine 9-0 triumph over the Washington Senators.

The pitching, which had sputtered through the losing streak, was nearly perfect as young

Billy Hoeft limited the Senators to two singles and struck out seven. The hitting, sadly lacking to recent contests, looked lusty with 10 solid safeties including a home run by Ray Boone.

Boone was the 1st of the Tiger cripples to return to regular action. He had been nursing a sore arm since the last eastern road trip. Yesterday saw him back at 3rd

base and in his 1st trip to the plate he lashed one of Dean Stone's serves into the lower left field seats.

That was the Tiger's 1st run, and they could have won with it alone. But they picked up singletons in the 3rd, 6th and 7th before rushing five men across in the 8th for the one-sided victory. Jack Phillips filled in for Ferris Fain at 1st and had a wonderful

time. He drove in three runs with three singles and a sacrifice fly. Fain took the day off to rest his bum leg.

Another of the cripples, pitcher Steve Gromek, was due for action this afternoon. The veteran right-hander has missed three turns because of a back ailment.

It was the 2nd straight shutout and 5th victory for Hoeft who is off to his best start in his brief major league career.

Harvey Kuenen continued to ride the bench and saw his American League batting lead shaved to six percentage points by teammate Al Kaline. Kaline drilled a single and a double in three official times at bat and raised his average to .373. Kaline also drove in two runs.

Only hits off Hoeft were a 1st inning scratch, single by Tom Umphlett and a 7th inning smash by Bob Kline in the seventh. Even with his big lead Hoeft

bore down. He faced only 13 men in the last four innings.

Washington finishes its series today and will be followed by Baltimore on Friday.

Area Clubs Take Part in National Golf Day, 'Beat the Champs' Tests

Oakland County area golfers, whether they be par-busters or duffers, will have their flings at beating the champions when annual National Golf Day is held Saturday, June 4.

Twenty-nine country clubs in Oakland County participate in the program, which allows local shot-makers to match their scores against two professionals, who will be playing the championship round

Saturday at Olympic Club in San Francisco. Targets this year are defending U. S. Open champ Ed Furgol and Miss Patty Berg.

Harry Bruce, of Southfield Township, Oakland County's general chairman for National Golf Day, received aid from both public and private clubs, for the event sponsored by Life Magazine in cooperation with the American Red Cross.

Phillip Pratt of Pontiac Junior Chamber of Commerce, assisted Bruce with the campaign. Oakland County Red Cross Chapter will receive proceeds from the event. Entrance fee is a dollar.

Mrs. John Logan, chairman of service groups for the Oakland County Chapter of the American Red Cross, reports that volunteers at each club will handle fees and report scores.

Arrangements can be made on a local basis to accept score cards for rounds played before June 4, thereby permitting greater participation. Other golfers unable to play Saturday may enter score cards in competition upon payment of the entrance fee and by arrangement with local club officials.

United States Golf Association tournament rules will be used and individual golfers will employ their club handicaps. Any shooter who defeats the pro champs will be awarded a medal.

Further information about National Golf Day may be obtained by contacting the Oakland County Chapter of the American Red Cross, 118 Franklin Boulevard, Pontiac.

Middlecott, Burke Seek Victory for '30 Golfers'

GREAT NECK, N.Y. (AP)—Cary Middlecott and Jackie Burke are ready to strike a blow for the "forgotten thirties" in the annual Round Robin golf tournament opening today—the last big test before the National Open in San Francisco.

The two golfing buddies from Klamath Lake, N.Y., sounded an advance warning by shooting identical three-under-par 67's in the

pro-amateur warmup yesterday at Deepdale.

All of the 16 hand-picked contestants in the field, plus a star-studded list of other professionals and amateurs, took a swing around the course's 6,693 yards. Middlecott and Burke gave the par up the worst licking.

"I get a little tired of reading about these 20-year-old-plus new-comers who are going to replace the 40-year-old over-the-hill guys, like Sam Snead and Ben Hogan," said the boyish-looking Burke, son of a famous Houston professional now dead.

"How about us guys in the thirties? We've got to be reckoned with, I'd think. Take the fellow like Middlecott, Ted Kroll, Tommy Bolt and Julius Boros. Day and out, they'll be as tough as anybody."

Middlecott, the Masters champion, is 34. Burke is 32. The defending champion, a three-time winner of this weird mathematical derby, is Sam Snead, 43. Sam shot an even-par 70 yesterday.

Snead and Middlecott are together today in the hottest of the four opening-day foursomes, playing with Mike Souchak of Durham, N.C., the 27-year-old leading money winner, and PGA champion Chick Harbert, just over the 40 line.

Burke is bracketed with two of the younger crowd, Gene Littler and Bo Wingier, plus former champion Julius Boros, a member of golf's "middle class." Littler, acclaimed the heir apparent to Ben Hogan's golf throne, shot a 69 in yesterday's tune-up which gave him fourth place back of Johnny Palmer, 68.

LA Shelves Its Ball Park Plan

Bond Issue for 4½ Millions Is Buried Without a Tear

LOS ANGELES (AP)—A \$4,500,000 bond issue proposal to build a major league baseball park was quietly buried here, apparently without much public mourning.

And shelved with it at least for the time being, was hope for big league baseball for Los Angeles. If there is a burning desire for big time baseball, it was not reflected in a special election two days ago.

The ball park issue was voted down in severe manner, 190,167 to 131,894. It needed two-thirds of the vote, cast to carry.

Property owners and taxpayers associations argued against the ball park proposition, along with another issue calling for \$35,500,000 bonds for enlarging parks and recreational facilities, which also lost.

Rotary Aids in Swim Campaign

Annual Move Under Way by 'Y' to Teach Beginners

Nine Rotary club members are visiting 21 grade schools in the area this week, enrolling youngsters for the annual "Learn to Swim" campaign, sponsored jointly by Pontiac Rotary and the YMCA.

First applications for the two-week program, starting June 18, need not be signed by parents, according to Ted Slosson, YMCA secretary.

"If a youngster signs an application, his parents will then receive a letter, informing them their child has shown an interest in learning to swim. For actual registration, the parent must sign for the child at the 'Y' office. We'll be ready for registrations June 8, after applications are returned this Friday by the committee," Slosson said.

Three lessons a week will be given for both girls and boys. Lessons are intended only for youngsters who can't swim, Slosson emphasized. Registration must be completed by June 17.

George Heenan is chairman of the learn-to-swim committee. Others on the committee, all Rotary members, are: Palmer Bundy, Richard Fisher, Gerald White, Francis Miller, William Dean, John Madole, Harry Peckheiser and Forrest Wood.

Santee Denies Charges, Holds Silence

LOS ANGELES (U)—Foot-runner Wes Santee may or may not have some things to say to his Missouri Valley AAU chapter about expense accounts, but today he is free to compete as the star attraction in the mile race in the Compton Invitational track meet tomorrow night.

Having emphatically denied a published report in San Francisco that he has collected over-juicy expense money for appearances in California, the usually talkative Kansan kept his mouth shut today and concentrated on his upcoming race and renewed quest of the elusive 4-minute mile.

Larry Houston, chairman of the registration committee of the Southern Pacific AAU, in a formal statement late yesterday said that Santee is fully privileged to compete in this section and that no official complaint has been filed against him by the sponsor of any meet.

Such action, if any, must originate in Santee's own Missouri Valley area by AAU authorities there, Houston said.

The runner said last night: "I have heard nothing whatsoever from the AAU and I don't plan to hear anything, either. All these figures are crazy."

Santee said he received nothing extra for his running except in the way of entertainment from hospitable persons in the areas he visits. He said the accusations against him came from certain people in San Francisco. He added that they are irked about the defeat he gave their favorite son, Lon Spurrier in a half mile run in the Modesto Relays.

Santee sidestepped any public discussion pertaining specifically to the various expense moneys which the meet directors said had been paid.

Included would be: The \$350 which Willis O. Hunter,

meet director of the Los Angeles Coliseum Relays, said was paid Santee for the affair May 20.

The \$400 which meet Director Tom Moore said was paid Santee for racing at Modesto, 300 miles north of Los Angeles, the following night.

The \$450 which meet Director Flint Hanner said was paid Santee for racing in the West Coast Relays at Fresno May 14 and the fact that Hanner said he had written Wes asking for a refund of \$72.15. The latter item was for transportation for Mrs. Santee to Fresno although Mrs. Santee did not make the trip.

Herschel Smith, director of the Compton meet, said Santee will be paid \$12.50 per day for four days, or \$50, plus airplane fare round trip from Kansas.

Santee did say he has been traveling quite a bit and inferred that he has not had time to file his expense reports with his own AAU office.

Tigers Recall Hurler
DETROIT (UP)—Werner (Babe) Birrer, a right handed pitcher, has been recalled from the Buffalo Bisons of the International League

by the parent Detroit Tigers. Tigers have sent pitchers Ben Flowers and Van Fletcher to Buffalo, Flowers on outright release and Fletcher on a 24-hour recall.

Sam Snead's Golf School

To get the best distance and greatest accuracy out of your woods try this: Position your brassie with the sole flat on the

ground. Have the face of the club squarely behind the ball and at

right angles to the direction line to the hole. Now get set with your knees flexed but still not loose. Bend over from your hips but keep in balance. If you tend to swing off your feet put a bit of your weight back on your heels. For a brassie shot play the ball forward of center. Both toes should be pointed outward slightly but the left toe more so than the right. In gripping the club don't exert yourself too much. Golf is a game of rhythmic relaxation. You mustn't have your muscles fighting each other. Now you are ready to swing smoothly, easily. (Copyright 1953)

Only two active players in the major leagues have hit more than 400 doubles. They are Mickey Vernon of the Senators and Stan Musial of the Cardinals.

Texans Roll Into ABC's Top Section

FORT WAYNE, Ind. (U)—The American Bowling Congress tournament has just four days to go, and, for the first time since May 22 there was a change among the top 10 in one division yesterday.

The change came in the doubles standings when Fred List and Bob Harris, of San Antonio, hit for 1,293 for fourth place.

List was the big shooter, hitting a brilliant 713. His total included games of 244, 224 and 245. Harris chipped in with a 580. In first place in the doubles are Harry Zoeller and George Paeropsis, Wilkes-Barre Pa., with 1,365.

Cleveland Browns, champions of the NFL, will play five exhibition games prior to the start of the season.

WEDNESDAY'S STARS
BATTING—Duke Snider, Dodgers, hit three home runs and a double to drive in six runs as Brooklyn outlasted the Milwaukee Braves 11-4.

PITCHING—Bobby Hoft, Tigers, hurled his second straight shutout, a two-hitter that ended a Detroit four-game losing streak with a 5-0 victory over the Washington Senators.

Ex-Vaudeville
Troupers Getting
College Degree

SYRACUSE, N. Y. (AP)—Margaret Gregory, who spent her early years riding a unicycle in her parents' vaudeville act, will be graduated from Syracuse University Monday after squeezing eight years of education into three.

"I never had a chance to go to school," she says. "We were just never in one place long enough. But mother did her best to teach me the three R's."

When the red-haired collegian gets her bachelor of arts degree, it will culminate three busy years in which she has completed normal four-year courses in both high school and college studies.

Miss Gregory, 32, was born in Petersburg, Va., and for 15 years was part of the family bicycle acrobatic act.

CHOSEN—Marion B. Folsom, undersecretary of the treasury, reportedly has been chosen by President Eisenhower to be the next secretary of Health, Education and Welfare. The unconfirmed report said Folsom will succeed Mrs. Ovea Culp Hobby, expected to resign for personal reasons.

Predicts Mail
Sent by Rocket

German Postal Chief Says International Dial Phone System Planned

BONN, Germany (AP)—Mail-carrying rockets may one day span the world's oceans, says West German Postal Minister Siegfried Balke. Scientists are now studying the problem of achieving absolute accuracy in the firing of such rockets, Balke said in an interview.

"The mail rocket is a definite possibility," he added, though "the problem of this rocket has not yet left to state of scientific planning."

A leading industrialist and publisher before joining the Cabinet, Balke said West Germany's modern postal system is planning telephones for dialing anywhere in the world, transmission of telegrams by television, complete mechanization of the handling of mail and no more postage stamps.

"In a few months, West Germany will inaugurate the world's first dial telephone service with a foreign country," Balke said. "This service will start with Switzerland during the summer. Other countries will be added to this network. Over 40 per cent of all long distance calls in West Germany are now dialed directly."

Threat Bill Signed by Ike

WASHINGTON (AP)—President Eisenhower signed a bill yesterday to make threats against the life of vice president and a President-elect, as well as against the President, punishable by a \$1,000 fine and imprisonment up to five years.

Rescue Children
After Car Rolls
Into Old Canal

SCHUYLERVILLE, N. Y. (AP)—Wayne Weidman, a mill worker, left his two children in the car yesterday when he went into a lumber office to pay a bill.

The car rolled 10 feet down a slight incline, dropped 12 feet into the old Champlain Canal and started to settle in six feet of water.

Two men passing by, Jeri Mayer and Rollie Haley, jumped after it and opened doors on either side. One grabbed Wayne Jr., 3, and the other rescued Christine, 18 months. Neither child was hurt.

Police in this northeastern New York community said young Wayne apparently had played with the car controls.

HUBBY'S CASTING DIRECTOR—When a wife goes hunting up beauties for her husband to make love to—well! But for Mrs. Anne Douglas, right, it's just a job. She's a casting director for her producer-husband, Kirk Douglas. With her is one of her selections, Elsa Martinelli, a recent Italian import. Elsa will play opposite Douglas in his first independent movie, "The Indian Chief."

Hollywood Headlines

Motion Picture Violence
Defended by Cornel Wilde

(Editor's Note: This is the last of three articles.)

By BOB THOMAS

HOLLYWOOD (AP)—Violence in Hollywood films has been hit from all sides. Here's one man who defends it.

He's Cornel Wilde, actor, producer, and now a director. He starred in and helped produce "The Big Combo," one of the films which brought forth a wave of protest about too rugged action in movies.

"You can't get away from violence in drama," he said. "When you have two people in conflict, it is bound to result in violence, either in words or action. If you do not have conflict, you do not have drama."

"There is nothing new about violence in the theater. 'Oedipus Rex' is certainly a violent play, and it has withstood the test of centuries."

"Shakespeare is replete with violence. Look at 'Hamlet.' The stage is littered with corpses at the end of the play."

"When Orson Welles did 'King Lear' on TV, they showed an eye gouging. I was shocked by it, but not repelled. It was good theater."

Wilde admitted that the decriers of Hollywood had a case—"when violence is presented for violence's sake. If a brutal scene is shown for no reason except to shock, then it is bad. I think 'The Wild One' was an example of meaningless violence."

"The Big Combo" was criticized in England and elsewhere because of a scene in which gangster Richard Conte tortured Wilde. Conte put a hearing aid in the hero's ear and played a radio loudly. Wilde defended the scene as being subtle and less brutal than the senseless beatings in many films. He said:

"I don't think movies incite people to violence. Far from it. Kids seeing 'The Blackboard Jungle' would be repelled by the juvenile delinquents pictured in it, not inspired to follow their example."

What is the outlook for film violence in the future? Producer head Eric Johnston and chief censor Geoffrey Shurlock say they are trying to convince movie makers to tone down brutality. The results of more careful censorship of violent scenes may not be apparent for several months.

"But the code doesn't deal in source material," Shurlock explains. "We can't tell producers what kinds of pictures to make. We can only suggest that the movies should return to the family type of picture which was the backbone of the industry."

There seems to be no trend in that direction. One producer recently predicted that the Hardy family series would be a flop if attempted today.

Movie makers, especially some get-rich-quick independent producers who cause a large part of censorious troubles, are seeking startling attractions that will jar

Baby Twister Picks Up
Boat, Rips Hole in Roof

ATLANTA (AP)—A baby whirlwind danced into an Atlanta yard today, whipped a 100-pound boat 60 feet into the air and ripped a hole in a house roof.

But the wind missed everything else in the yard of Donald E. Magennis.

Petals on rose bushes in the yard were unruined.

Russians Paying
Iran War Claims
With Gold, Goods

TEHRAN, Iran (AP)—Soviet troops were expected to hand over the remainder of 11 tons of gold today in part payment of Iran's war claims.

Tehran newspapers said the Russians hauled six tons of the metal—worth \$5,040,000 at the official U.S. price—across the frontier yesterday for loading into heavily armed Iranian Army trucks.

The reports said the balance would be handed over to Iran today.

Under a war claims settlement Russia and Iran signed last December, the Soviets agreed to pay 11 tons of gold and eight million dollars worth of goods for Soviet troops' use of railroads, public buildings and other services during World War II.

Mother's Idea Right:
Need More of Same

CHARLESTON, S.C. (AP)—What may be the latest in applied child psychology came out of the theft of 75 cents by a five-year-old boy from a neighbor here.

His mother called the police. They lectured the boy, who promised to go straight.

Fight Shutdown of Vassar Plant

Citizens, Unionists and Industrialists Trying to Save Eaton Foundry

VASSAR — Citizens of this Tuscola County community of 2,700 meet with union men and industrialists today in a determined effort to save the town's main industry.

The AFL United Auto Workers yesterday accepted a proposal by the Eaton Manufacturing Co. to hold a public meeting on problems confronting the company's foundry division here.

The plant, which employs 535 persons—a good share of Vassar's population—is scheduled to close June 30. It is the town's chief source of income and the heart of its industrial life.

The company announced the closing May 24. It said the average wage of \$2.67 in the Vassar plant was 62 cents above the area average and 70 cents above the industry average. The high wages, it said, made it unable to compete with rival firms.

Frank H. Mott, administrative vice president of Eaton, said the meeting will not prevent the plant from closing down. But he said the company would be willing to consider reopening it "if all of the conditions which led to the decision to close, would be corrected."

Mott said the company had been faced with a militant, uncompromising union attitude.

Eaton is a major supplier to manufacturers of autos, planes, appliances and air-conditioning machinery.

Man, 86, Survived by 90 Descendants

An 86-year-old Millington man who died Tuesday night is survived by 90 direct descendants, most of them living in the close-to-Pontiac area.

Arthur E. Clemons, who operated a service station in Millington until five weeks ago, is survived by 9 sons and daughters, 27 grandchildren and 54 great-grandchildren. He died following a heart attack.

Born in a log cabin in Genesee County Nov. 11, 1868, Mr. Clemons had operated his gas station in Millington for 20 years.

Among the survivors are six daughters, Mrs. Jennie Johnston of Waterford Township, Mrs. Ida Goodrich of Davison, Mrs. Blanche Kile of Goodrich, Mrs. Ola Daley of Rapid River, Mrs. Bessie Hunt and Mrs. Elsie Lang, both of Flint, and three sons, Elmer of Millington, Lee and Clifton of Oscoda.

Funeral service will be held at 2 p.m. Friday from Leo Groves Chapel, Davison, with burial in Dodge Cemetery, Richfield.

Recover Shotgun Stolen by Slay

CADILLAC — State Police have recovered a shotgun and a box of shells stolen from a Manton gas station Sunday by William and Daniel Joles, confessed killers of Lawrence Jackson Jr., 15-year-old Brighton service station attendant.

Following directions given by the Joles, officers found the gun and shells in a pond about a mile from the home of their parents in Mesick.

Dragging operations continued today for the .32 caliber rifle which the pair admitted they used for the slaying May 19.

Jackson's body, shot through the head and heart, was found several miles south of Brighton a few hours after William, 23, and Daniel, 18, had robbed him and abducted him from the gas station.

The two were seized by State Police after holding up the Manton station, operated by Arthur Johnson, 25. They admitted the killing to State Police Monday night.

Methodist Youths Set for Car Wash Project

FOUR TOWNS—Members of the Four Towns Methodist Youth Fellowship are conducting a "Car Wash" Saturday, at the Jack Roberts Gulf Station, Cooley Lake Road and Malcolm St.

Funds obtained from this enterprise will be used for the group's camp fund.

Williams Lake PTA Picnic Set Today at School

WATERFORD TOWNSHIP—Williams Lake School students and their parents will gather tonight for their annual picnic on the school grounds.

Opening the affair will be a ball game at 5 p.m. between the fifth and sixth-grade boys and their fathers.

Supper is scheduled for 6 p.m. Families are to bring their own table service, a hot casserole and a salad or dessert for passing.

Rolls, coffee and milk will be furnished by the PTA.

Way Clear for Gas Pipeline to Michigan

DETROIT — The Michigan Consolidated Gas Co. is free to go ahead with plans to bring new supplies of natural gas to heat 200,000 additional Detroit area homes.

Yesterday's U.S. Supreme Court decision giving the go-ahead to a new 130 million dollar pipe line from Louisiana paved the way.

The additional 200,000 customers won't be added soon. It may be three years before they all can be accommodated, Michigan Consolidated officials said. However, a "limited" number may get the gas by this fall.

Presently, gas for heating is supplied to 238,000 Detroit area homes.

The new 1,200-mile pipeline from Louisiana will be built by the American Louisiana Pipe Line Co., an affiliate of Michigan Consolidated, and The Texas Gas Transmission Co.

Michigan Consolidated hailed the Supreme Court decision as a victory over the Panhandle Eastern Pipe Line Co. The two have long been in litigation over introduction of new gas supplies to Michigan.

Panhandle, which supplies about 40 per cent of the Detroit area's domestic and industrial gas, contended there was no proof Detroit was ready to consume additional gas.

Teacher's Traffic Fine Paid by Angry Senator

WASHINGTON (UP) — Sen. George H. Bender left a congressional committee hearing yesterday to give \$28.40 to a Good Hope, Ohio, teacher and eight honor students arrested by Fairfax County, Va., police for speeding.

Bender has been feuding with Virginia since radar-using patrolmen singled his car out of a whole line traveling at the same speed.

Eyes Integration of West Europe

Dutch Foreign Minister Wants Common Market and Currency

MESSINA, Sicily — Dutch Foreign Minister Johan W. Beyen today proposed an international conference to create a common market for all products and a common currency for Western Europe.

Beyen made his proposal as the six-nation Coal and Steel Community's council of ministers met here for the second day. The ministers — from France, West Germany, Italy, Belgium, the Netherlands and Luxembourg — are studying the possibility of broadening their organization to include similar pools on transport, electric power and nuclear research.

Beyen's proposal was the most sweeping recommendation for European economic integration that has yet been made here.

According to Beyen's idea, the conference would consider creation of a general common market, without economic frontiers.

The ministers yesterday nominated former French Premier Rene Mayer to replace Jean Monnet, also of France, as president of the coal-steel pool. Monnet quit last November after France rejected the European Defense Community plan for a unified West European army.

The supranational features of EDC appealed strongly to Monnet's philosophy. In seeking a United States of Europe, he had long felt that national rivalries, economic and political barriers weaken the Continent.

Under the coal-steel plan, the six member states removed their trade barriers to coal and steel products and gave them the benefits of a common market within their countries.

MSC Man Is Named Drake Track Coach

County Deaths

Mrs. Alfred E. Williams

ROCHESTER—Service for Mrs. Alfred E. (Elizabeth) Williams, 91, of 767 Elizabeth St., will be held at 11 a.m. Saturday at the Pixley Funeral Home, with burial in Mount Avon Cemetery. She died yesterday.

Surviving besides her husband are two sons, Alfred Ernest Williams Jr. of Clarkston, Richard D. Williams of Rochester, a daughter, Ruth Coons of Clarkston, seven grandchildren, five great-grandchildren.

Mrs. Arvilla F. Butwell

WEST BLOOMFIELD TOWNSHIP—Service for Arvilla F. Butwell, 82, of 7265 Pontiac Trail, will be held at 3 p.m. Saturday at the Armstrong Funeral Home, Detroit, with burial in Acacia Park Cemetery, Birmingham. She died today.

Surviving are a daughter, Mrs. Russell H. Dragsdorf of West Bloomfield Township, and a grandson, Dr. R. Dean Dragsdorf.

FBI's Hoover Defends 'Spies'

Says Informants Help in War Against Crime and Subversion

WASHINGTON — FBI Director J. Edgar Hoover today described confidential informants in law enforcement work as "helpful citizens" and "potent weapons" in the war against crime and subversion.

"There can be no doubt that the use of informants in law enforcement is justified," he said. "The public interest and the personal safety of these helpful citizens demand the zealous protection of their confidence."

"Unlike the totalitarian practice, the informant in America serves of his own free will, fulfilling one of the citizenship obligations of our democratic form of government."

He asserted that to abandon use of such informants would be "to invite destruction."

Hoover expressed his views in a signed editorial in the monthly FBI's law enforcement bulletin.

Joe Denies Plans to Rewed Marilyn

NEW YORK — Marilyn and Joe had another date last night. But it doesn't necessarily mean that Miss Monroe is about to become Mrs. DiMaggio again.

"We're just good friends," DiMaggio told reporters. "We do not plan to remarry. That's all I care to say."

He took Miss Monroe to a preview of her film, "The Seven Year Itch," at a Times Square theater and then gave a party in honor of her 27th birthday at a midtown restaurant. The couple was divorced last Oct. 27 after a 10-month marriage.

WASHINGTON — Air Force Capt. Raymond Wool, who denied taking bribes but said he filed false income tax returns, faces further questioning tomorrow about his activities.

The Senate Investigations subcommittee meantime recessed for today its probe of alleged graft in connection with contracts for the purchase of uniform equipment for the armed forces.

Wool handled some of the contracts as former head of the clothing branch of armed services procurement in New York. He now is stationed at Shelby, Ohio.

Children's Home Boys on Camp Trip

Twenty boys from Oakland County's Children's home left today for a 3-day camping trip in the Upper Peninsula.

The boys will fish at Indian Lake and visit the scenic Picture Rocks, Miner's Falls, Tahquamenon Falls, the Canadian Soo and Mackinac Island. They will be accompanied by hospital staff members Ernest Watson, William Smith and William Cavalier.

Pontiac's Co. M, 125th Infantry, National Guard, is providing tents, cooking range and other camping equipment for the group. S. F. C. Robert Terry also will accompany the expedition.

RESTOCRAFT MATTRESS or BOX SPRING

Newsman Covering Auto Contract Talks Find Lighter Moments

DETROIT (UP) — Even the long tedious hours of serious wage negotiations have their lighter moments.

Like the day at the press room bull session at the Detroit Leland where Ford and the union are negotiating, a Ford press agent suddenly shot a crack at a writer for a Michigan Communist paper:

"You got anybody on the committee (the union negotiating committee) this year?"

The Communist writer quickly retorted: "Just two. We're down one from last time. McCarty got him!"

The many General Motors

executives receive the official company "line" from "Byword." "Byword" is a special, tape-recorded telephone hook-up. In Detroit, the General Motors official dial "Byword," which is "B-Y-S-S-O-O" and hear the latest company stand.

"Byword" spent all day last Thursday vigorously denying the reports newspapers had been publishing about details of the still-secret General Motors' offer to the union. Late Thursday, Ford and the union made statements confirming the published reports of the General Motors offer.

"Byword" changed its tape the following day, and the official message was a plug telling how many workers had benefited from the pension plan set up by the company and union five years ago.

With negotiations going on simultaneously between the union and General Motors and the union and Ford Motor Company, the

largest permanent floating poker game in Detroit has resulted.

Newsmen shuttling back and forth from spot to spot have taken their poker game along with them.

At the General Motors' negotiations, the game had to operate under severe restrictions. GM didn't set up a press room, so reporters pulled up a table in the spacious hallway of the General Motors Building and played in public.

Weathermen Needed

CHICAGO (INS) — Weather observers are needed for duty outside the United States. No examination is necessary, but candidates — single or those able to travel alone — must have at least six months experience. Salaries start from \$3,175 to \$4,205. A 25 percent differential is paid for duty in Alaska and the Pacific area. A \$1,600 annual bonus will be paid for Arctic observer positions.

The police were swamped with complaints from indignant tenants of fifth floor office space. They took the attitude they'd raid the game if anyone signed a complaint, but no one volunteered to do that.

General Motors finally yielded to the pressure and opened a press room near the negotiating room.

That afternoon, two elderly secretaries walking down the hall heard the clink of nickels and dimes. They peered cautiously inside the door, and then one said to the other:

"I see Sin City has moved inside."

Until Ford and the union started blasting at each other last Thursday, the negotiations were the quietest Detroit ever has seen. Both GM and Ford negotiations were conducted under "silence pacts."

Finally one day newsmen were certain General Motors was making a counter-proposal and were

hopeful some sizzling news was at hand. An hour after the session started, Nat Weinberg, union research director who authored the UAW's guaranteed annual wage plan, dashed from the negotiating room, eagerly looking for Frank Wynn, the union's top publicist.

Newsmen grabbed their coats and helped Weinberg in his search. They soon located Wynn for Weinberg, only to learn that all Weinberg wanted to do was to arrange a ride home with Wynn that evening.

Browder is in Hollywood to explore the possibilities of a movie about his life.

'Hand' for Fishermen

PHILADELPHIA (INS) — A real estate broker from New York has added a third hand for fishermen who like to make their own leaders or repair old ones while waiting for a bite. Lawrence D. Roberts' tool is a fishing leader vise that looks like a three-pronged fork. According to Roberts, one can tie a barrel knot or blood knot blindfold.

Expert Contest Winner Has Excellent Record

HOLLYWOOD (UP) — It was 32 years ago that G. Gordon Browder of Norfolk, Va., entered his first slogan contest and won \$5.

He estimates that since then he has won 2,500 contests for a total of \$20,000, 17 trips, five automobiles and a college course in business.

Browder is in Hollywood to explore the possibilities of a movie about his life.

Talks Are Completed

KARACHI, Pakistan (UP)—Officials announced today that American-Pakistani talks on a treaty of friendship, commerce and navigation have been completed. They said a final draft has been sent to the two governments.

Vaccinated Boy, 8, Dies

GAINESVILLE, Tex. (UP)—Rosalind Ford, 8, who received a Salk anti-polio vaccine shot April 29th, died of polio yesterday, the first such case in Texas.

Rugged Individualist Pays His Fine Anyway

OMAHA (UP)—State Safety Patrolman W. R. Piercy told County Judge R. R. Troyer yesterday that when he stopped Lowell Schmidt, 28, Millard, Neb., May 1 and asked to see Schmidt's driver's license he got the reply:

"You can rattle me for it or get a warrant for my arrest."

Piercy got the warrant. Judge Troyer fined Schmidt \$30 and costs for driving 70 miles an hour, ten over the state highway limit.

Alaska Is Clearing Decks for Huge Tourist Season

JUNEAU—Alaska is clearing the decks for a record tourist season—a season which will reach a climax in a wild and hilarious revival of the days of the territory's gold rush.

Alaska offers something of unique interest for everybody. The angler still can find, with a minimum of time and travel, his limit of brook trout or tangle with a fighting king salmon.

The scholar in search of historic lore can find one bonanza after another tucked away in well-kept museums. The ordinary tourist who just "wants to see something different" on a two-week vacation can do just that, and he doesn't have to be rich, either.

One highlight of the 1955 season in Alaska will be a "Golden Days" celebration beginning July 18 in Fairbanks. All the history of gold rush days will be revived by unshaven men and costumed women, reliving the past with typical Alaskan vigor.

With this colorful community celebration will be included a full list of events likely to keep tourists talking to their stay-at-home neighbors for years.

SEE ALASKA BY AIR

A good way to see Alaska is by taking an air tour. Experienced guides provided by tour operators can show "chechakos," or tenderfeet, all the necessary ropes.

For the two-week vacationist, a good 14-day trip is one that follows the Gold Rush Trail from Seattle up through White Pass and the Yukon Route to Whitehorse. Along the way, the tour stops at Ketchikan for a close look at the Salmon capital of the world.

A two-day tour out of Anchorage goes to the famed ghost towns of Alaska. One of them is McCarthy, and an entire town that died suddenly with the closing of the copper mine at Kennecott.

Nothing in the town has been altered since the mine closed down and the last train departed some years ago. The abandonment of the bridge over the Copper River left the area completely isolated until air transportation reopened the place last year.

HUNTING CENTER
For the serious big-game hunters, Kodiak is the center of activity. From there, hunters go after the Kodiak bear, the world's largest carnivorous animal. Other points of interest include local sea-food canneries and colorful remnants of the days when Russia owned the territory.

Apart from such unrestrained social events Alaska communities may be plotting for the pleasure of this year's summer travelers, the eye-filling scenery of Alaska's rugged coastlines, her snow-capped mountains, (30,269-foot Mt. McKinley, for example, is the tallest peak in North America), her wilderness expanses of lake and forest all are unchanged and unchanging—they are forever a delight to first-trippers and veteran Alaska travelers alike.

Equally fascinating are the people.

GRANDMA

DO IT YOURSELF

Builds Shingle Mill With Own Two Hands

RAYMOND, Wash. (AP) — At 65, William Koski has realized a life-long dream. He has a shingle mill, and he built it almost with his own hands.

Working for two years in his spare time, Koski built it all by himself, except for the foundation. He values it at \$10,000.

At the start he is producing about 30 squares of shingles a day.

Some 820 of every 1,000 persons suffer from some sort of sickness every year.

With only about six per cent of the world's population, the United States has an estimated 75 per cent of the world's total motor vehicles.
