Ruling Cripples Hopes for New Courthouse

Jury Trial Added to Bill

South Wins on Civil Rights

WASHINGTON (AP) — The Eisenhower Administration lost the battle against the jury trial amendment, and Sen. Knowland (R-Calif) said today the civil rights bill probably is dead for this session of Congress.

But his pessimism was not shared by all the bill's supporters, and Sen. Russell (D-Ga) held out the possibility that some Southern foes of the measure may vote for it if a few more changes are made.

Knowland, the Senate Republican leader, told reporters he had "no alibis" for the 51-42 vote by which the Senate adopted the jury trial amendment shortly after midnight.

"I just didn't have the votes," he said.

Adoption of the jury trial amendment, he said, probably means that any measure the Senate passes will be tied up in a Senate-House disagreement. The House had rejected any provision for jury trials.

PARTY LINEUP

On the dramatic roll call vote, witnessed by spectators who crammed the Senate gallery, the party lineup was 39 Democrats and 12 Republicans for the amendment and 9 Democrats and 33 Republicans against it.

This was a wider margin of victory for the jury trial advocates than had been anticipated.

Sen. Potter (R-Mich) reported on Eisenhower's reaction after a call at the White House this morning to discuss another matter with the President. Without elaborating Potter told newsmen "the President is damn unhappy" about losing the fight against the jury trial amendment.

WOULD PROVIDE:

The amendment would provide for jury trials in criminal contempt cases arising from injunctions the attorney general would be empowered to obtain to enforce voting rights. It also would apply in labor cases and others involving federal court injunctions.

President Eisenhower had restated only Wednesday his opposition to any such amendment.

Vice President Nixon said in a statement to newsmen, "This was one of the saddest days in the history of the Senate because this was a vote against the right to vote."

But Russell, leader of the Dixie forces for whom the vote was a second major victory, said, "The Senate was at its very best."

Three Sisters Pose With Three New Sons

Pontiac Press Photo

FAMILY AFFAIR — These three sisters gave birth to sons within 12 hours. The first boy was born to Mrs. Leonard Irelan (left), 25, of Clarkston, at 5:37 p. m. Wednesday at St. Joseph Mercy Hospital. Rushing to get to the hospital, Mrs. Roscoe Zolman (center), 24, of Oxford, delivered her boy en route with the aid of her Oxford policeman husband and the ambulance driver. This was at 5:05 a. m. Thursday. The third boy arrived at 6 a. m. yesterday at the hospital. He was born to Mrs. Gerry Hockey, 20, of 413 Broadway Ave., Pontiac. Grandfather is William L. South of Royal Oak and grandmother is Mrs. Oscar Robinson, of Onaway.

Building Money Transfer Illegal, Decision Holds

Funds Must Be Returned to Original Budgets; Appeal Is Expected

By MAX E. SIMON

Immediate hopes for a new Oakland County courthouse were blasted today by Circuit Judge Herman C. Dehnke, who ruled that the county has illegally transferred so-called surpluses to its building fund.

The judge ruled that by padding various budget items to create surpluses for its building fund, the county was in effect levying higher taxes for the building without the consent of the taxpayers.

"I am persuaded," the judge declared, "that the acquisitions around which this case turns, whether called surpluses, other available funds, or something else, have, in fact and in substance, been raised by taxation."

The building fund of $1,392,000, Judge Dehnke ruled, must be returned to the budget funds from which they originated, as nearly as can be determined.

Judge Dehnke asserted that although the State legislature has been persistently pressed to widen the authority of local governments to transfer surpluses to building funds, it has consistently refused to yield to that pressure.

He said he finds nothing in the state statutes which authorizes such transfers.

APPEAL EXPECTED

Judge Dehnke noted that his decision will undoubtedly be appealed to the State Supreme Court.

The judge commented in his opinion that nothing he has said should be construed as reflecting on the motives or intentions of county officials or boards.

He pointed out, however, that the voters had twice refused to authorize an increase in tax levies to finance a courthouse bond issue, although they had approved such an issue.

★ ★ ★

He said that county officials have never asked the voters to approve the financing of the building out of current income, although county officials assumed this was the meaning of the negative votes.

INCOME UNDERESTIMATED

The action of the county showed clearly, the judge said, that it was consistently underestimating in every annual budget, by substantial amounts, the receipts expected from county departments.

"The result was inevitably a

Colorful Touch Added

Pontiac Press Photo

NEW LOOK AT THE COURTHOUSE — No men, not the cute blonde, but the flower boxes. A colorful touch was added this week by the promotion committee of the Downtown Pontiac Assn., in the form of 20 flower boxes lining the lawn of the courthouse. The committee is sorry it can't persuade Mrs. William Stoliloff to water the geraniums every day, but that would be taking her away from her chores as receptionist in the prosecutor's office. John A. Riley, chairman of the committee, said the boxes are only a "sampling" to see how people like them. More might be placed in front of Saginaw street stores, he said. The boxes were made by the Boy's Club of Pontiac.

Boat Adventurer to Wed Therapist From Union Lake

South African adventurer Jerry Trowbridge, who has sailed his 36-foot ketch 21,000 miles since he left home four years ago, will marry a physical therapist from St. Joseph Mercy Hospital tomorrow.

Trowbridge and his bride-to-be, Miss Marie Hickey, 1651 Playsted, Union Lake, obtained a marriage license in Detroit yesterday after Probate Judge Ernest C. Boehm waived the three-day waiting period.

The waiver was granted so the couple could be wed Saturday and begin a honeymoon that will start a leisurely four-year cruise around the world in Trowbridge's ketch.

The couple will be wed at 4 p.m. in the Webster Community Church on Webster Church road in Washtenaw County, near Ann Arbor.

They plan a honeymoon from Chicago down the Mississippi and to Cuba. Part of the journey will take them across the Pacific to their future home in Johannesburg, S. Africa.

The couple met last winter at Huntsville, Ont., where both had gone on separate skiing expeditions.

Scrub-Shine Party by 4-H Clubs Precedes Coming County Fair

A three-day scrubbing, sweeping, raking and shining party begins tomorrow morning when county 4-H members pour into Pontiac fairgrounds to prepare for the 17th Annual Oakland County 4-H Club Fair which opens Tuesday.

The fair, held on the 10-acre site at N. Perry street and Walton boulevard, is sponsored by the Oakland County 4-H Leaders Association which has more than 200 members.

★ ★ ★

Over 1,500 county girls and boys intend to demonstrate they are carrying out the 4-H motto "To make the best better." They have entered exhibits, projects, animals and floats in the fair.

The five - day show, which closes Aug. 10, will include displays of farm equipment, produce, clothing and gardening.

Walter Goodrich, fair manager, reports at least 45 commercial exhibits will be displayed by local merchants.

PLAN CARNIVAL

Three quonset huts and six large tents will house boys and girls entries. A carnival of rides has been planned to add to the entertainment.

Although most of the contests are only open to 4-H members of the 63 county clubs, the public has been allowed to enter three classes. They are: needlework, canning and baking.

Special events have been planned for each evening of the fair. Some are: the selecting of the Fair Queen, a parade of clubs with colorful floats, a pig scramble and a talent review.

The 4-H program is directed by Jack Worthington and Miss Sue Sturgis, County 4-H club agents, under the supervision of the Extension Service of Michigan State University and the Oakland County Extension Service.

Hospital Funds Decision Nearer

Second Public Vote for Issuance of Bonds Looms in City

City and hospital officials edged nearer to a decision on how to raise funds to finish Pontiac General Hospital at a meeting held last night.

Still looming as the answer is a second public vote, probably this fall, to allow the issuance of bonds to provide finances to furnish and equip the new four million dollar addition.

But the 13 officials who gathered last night were reluctant to announce their decision pending further data from Claude Stevens, Pontiac's bond attorney.

Last night's two-hour session was another in a series of emergency huddles necessitated when Pontiac voters rejected the $1,850,000 hospital vote in May. Another joint meeting is expected Thursday.

Details of the possible fall vote won't be known until City Manager Walter K. Willman confers with Stevens, officials said.

URGENT PROBLEM

They agreed that the most urgent problem facing them was the uncovering of $433,164 — the amount of purchase orders on hand for necessary equipment for the addition.

Faced with many money problems already, members of the hospital's Board of Trustees, as well as city officials, learned of a new one last evening. Trustee Harold B. Euler announced there has been a $35,385 operating loss at the hospital during the first six months of 1957.

"Anticipating a 90 per cent occupancy for the rest of the year," Euler continued, "we will have another $19,500 deficit for the rest of the year."

He explained the loss had resulted from a lowering occupancy at Pontiac General, after a budgeting of 110 per cent of occupancy.

Probers Hear Testimony on Exploitation of Workers

WASHINGTON (AP)—The Senate rackets investigating committee developed testimony today that hoodlum-controlled labor unions and employers have conspired to exploit nearly one million Puerto Rican and Negro workers in New York City.

John McNiff, executive secretary of the Assn. of Catholic Trade Unionists, said "the worst evil of all in the trade-union picture today is collusion between crooked management and crooked unionism."

McNiff named 22 New York local unions which he said cooperate with companies to "exploit Puerto Rican workers and other unskilled or semiskilled workers in the metropolitan New York area." He said this is only a partial list.

He said the unions in cooperation with firms enter into contracts which are often only verbal agreements and often fix wages at the $40-per-week legal federal minimum wage for a 40-hour week, or rates only slightly above that figure.

A standard practice, McNiff said even among "the more respected industrial unions in New York," is to refuse to give workers copies

Try, Try Again— — Pot-O-Gold Holds $1,900 for Winner

Our Pot-O-Gold judges are beginning to wonder if contestants are really trying their best to find the right solution. Another week has passed with many entries coming very close but not quite hitting the perfect solution.

2	4		5	8
9		11	13	16
	18	19	21	24
25	28	30	32	
33	35		38	39

So how about turning to page 16 and putting a little extra effort into this week's puzzle? You still have until Tuesday to have it postmarked, and a correct solution for this week means $1,900 to the winner.

Explanations for answers to last week's puzzle may help you in figuring out the answers for this week's Pot-O-Gold, so examine them carefully. You'll find them on page 16.

Toledo Mother of Four Found Raped, Strangled

TOLEDO, Ohio (AP) — The nude body of a pretty auburn-haired mother was found beside a post office substation today. Coroner Paul Hohly said she apparently had been raped and strangled.

Dr. Hohly identified the woman as Mrs. Anna Louis LaTour, 32, mother of four children.

Her body, a blue party dress crumpled beneath it, was found by a post office employe, Richard K. Hardenbrook.

Mrs. LaTour, cook-manager of a concession in National Lead Co.'s Doehler-Jarvis Division, had been seen early this morning in the Gaiety Club on Monroe street near the post office station.

Her body was in a 2½ foot space between the post office station and a mail truck which Hardenbrook said had been parked there since early last night.

One of her outstretched arms extended beneath the truck. A diamond broach was found near one of her hands. Her wedding and engagement rings had not been disturbed, and her pocketbook contained $13 in cash and a $5.25 check from her employer.

★ ★ ★

Dr. Hohly said bruises around her neck apparently had been made by something other than human hands. He said the body appeared to have been dragged to the spot where it was found.

Mrs. LaTour, police said, had been off work several days while she was having dental work done.

Officers said she frequently was in the habit of visiting the Gaiety, then walking home by taking a short cut through the post office station driveway.

Mrs. LaTour and three of her children, Otis Jr., 13; James, 8; and Diane, 6, had gone swimming around 6 p.m. yesterday with some friends.

One of the friends, Mrs. Mable Dunning, 43, said the group returned from Toledo Beach about 10 p.m. and took the LaTour children home to bed. Then, she said, she and Mrs. LaTour went to the Gaiety and sat there about an hour and a half drinking vodka and orange juice.

★ ★ ★

Bartender Robert Jacob, said Mrs. LaTour left the tavern alone about 2:28 a.m.

Mrs. LaTour's husband, Otis Sr., is a research analyst for the New York Central System. He works in Cleveland, returning home each Friday and going back to Cleveland on Sunday.

The woman and her children lived with her father, Virgil Foster, an automobile plant employe.

Pontiac Promised Scattered Showers

12 p.m.	71	10 a.m.	81
4 a.m.	70	12 m.	87
8 a.m.	75	2 p.m.	90

The weather forecast for Pontiac and vicinity tonight calls for scattered showers and thundershowers. The low will be 70 to 74.

Showers will continue through tomorrow, turning cooler late tomorrow. The high will be 84 to 88 degrees.

In downtown Pontiac the lowest temperature recorded preceding 8 a.m. was 69. At 2 p.m. today the temperature was 90.

First Appears Tomorrow

Religious Drawings Start

An impressive new religious cartoon will be introduced to you tomorrow on the editorial page of The Pontiac Press. The new feature will be called "The Power of Faith."

In each cartoon the picture and text will bring out the power and the faith involved in some contemporary, historical, or Biblical situation. Watch for this new feature every Saturday on the editorial page.

Hope to Settle Police Hassle

Officers Assn. Head, City Manager Confer on 3 Major Grievances

By HAROLD S. COHEN

Final settlement of long-standing grievances of the Pontiac Police Officers Assn. appeared likely yesterday following a meeting of an association delegation with City Manager Walter K. Willman.

Both Willman and Herbert V. Cooley, association president, seemed well satisfied with the conference in which three principal items were discussed.

The association asked changes in police department policy on pay raises, vacations and promotions.

Spokesmen said the association felt certain officers had not received raises they were entitled to, that vacations were not being worked out by the officers best qualified to do so, namely the platoon supervisors, and that the best qualified men were not always the ones promoted.

Willman said he would study the grievances over the weekend and would reply in writing early next week to the association with a copy going to the Civil Service Commission.

He termed the complaints administrative ones, which he could settle, and not charges against anyone in the department.

Wilson Discusses Successor With Ike

Says Defense Cuts About Half Done

By ELTON C. FAY

WASHINGTON (AP) — Charles E. Wilson has been talking with his boss about a successor in the job of secretary of defense.

But, says the 67-year-old defense chief, no date has been decided yet for his resignation. In office for 4½ years, he already has held the post more than twice as long as any predecessor.

★ ★ ★

Obliquely, Wilson indicated that he certainly expects to be on the job for at least another month.

And in a news conference yesterday he talked about this fall's budget-making business in a way which suggested he might participate.

He was asked if he had talked with President Eisenhower about a successor. His answer was that "of course, the matter has been discussed from time to time, but I have no particular person to recommend."

★ ★ ★

Wilson's answer to inquiries about new rumors of his resignation came at a meeting with newsmen devoted primarily to the military budget and the economy cuts demanded by Congress.

The secretary said the Pentagon is now engaged in economies designed to keep spending within the 38-billion-dollar military fund available.

CUTS HALF COMPLETE

He estimated that actions already taken have brought about roughly half the planned economies. These actions include such things as the cutback in manpower, a reduction in expenditures for maintenance and operation, and elimination of the Navaho long-range guided missile program.

But, he said, "the bad news is not all out yet."

As he had said on previous occasions, Wilson reported that the effort is to level off annual military spending at 38 billion dollars. Later, the program for obligational authority to order material or service also should be stabilized at 38 billion dollars, he added.

During the first half of this year, he said, spending was at annual rate of $40,200,000,000 and "still on the uptrend."

Wilson's comment that he has proffered no firm suggestions about a successor may be related to reports that the administration is finding difficulty in inducing another top business executive to take the comparatively low-paying, criticism-fraught job.

★ ★ ★

This revived speculation that President Eisenhower and Wilson might turn to some of the present secretariat. Those officials, like Deputy Secretary Donald Quarles and Asst. Secretary Wilfred J. McNeil, veteran comptroller, have severed connections with their business activities.

ONE COLOR BORDER ONLY

New Open-Sky Plan

LONDON (AP)—John Foster Dulles proposed today that all of the United States, all of the Soviet Union and most of Europe be exposed to aerial and ground inspection as a safeguard against sneak nuclear attacks.

Speaking on behalf of the West, the U. S. secretary of state broadened the West's "open skies" proposal in a dramatic bid to break an East-West deadlock in the U. N. subcommittee on disarmament.

★ ★ ★

Under the new Western plan Soviet planes would be allowed to fly over U. S. and Western territory and Soviet ground inspectors could check seaports, rail junctions, main highways and air fields to expose any warlike nuclear moves. Western powers would have similar rights throughout the Soviet Union.

★ ★ ★

Dulles had worked four days to get agreement on the plan among the Western members of the subcommittee—Britain, France, Canada and the United States. There had been broad but incomplete agreement before President Eisenhower sent him here Monday to put steam into the talks.

★ ★ ★

The West's proposal was that a broadened open skies plan might be established when a "first stage" agreement on disarmament comes into force. The Western powers emphasized that the approval of all nations affected would be required.

Huge St. Bernard Dog Executed for Viciousness

LANSING, Mich. (AP)—Benji, a 150-pound St. Bernard dog, was shot to death today in execution of his sentence for a vicious attack on a man.

★ ★ ★

Even Benji's best friends gave up on him as too dangerous. Ingham County Dog Warden Clay Hulett fired the fatal bullet.

★ ★ ★

Shortly before the execution, 76-year-old farmer Carl Dee, who claimed he once tamed a timber wolf, gave up a fight to stay death for the 3-year-old dog. A photographer who once offered Benji a home decided earlier he didn't want him either.

★ ★ ★

A veterinarian who examined the dog claimed his viciousness to a puppyhood incident. Justice of the Peace Raymond Totte, who sentenced Benji, said former owners told him children locked the dog in a garage and he became crazed with fear and broke five ribs battering his way out.

Name New Chief of Booth Bureau

A veteran member of the Washington press corps has been named Washington Bureau chief for the Booth newspaper chain.

William F. Pyper, former Flint and Lansing newsman, will fill the post left vacant by the death of Mark Foote.

★ ★ ★

Pyper, a resident of Flint, has served on the Flint Journal and as a correspondent for the Booth newspapers in Lansing before going to Washington. He has covered Republican and Democratic national conventions and in 1952 traveled on campaign tours with President Eisenhower and Adlai E. Stevenson.

He has been with the Booth Washington staff since late 1945.

Know the Weather

By E. H. SIMS

Where does the moisture in the air come from? Where does the moisture of clouds come from?

Since the sun produces no moisture, and since the air around us continuously presents clouds, which brings us rain, naturally the question arises: "Where does the moisture come from?"

The answer is that the air, through evaporation, absorbs moisture from the earth and ocean at an amazing rate. Millions of tons of water are absorbed through evaporation every second!

Thus, when a rain brings us hundreds of thousands, or millions, of tons of water from the sky, this water has been picked up from the oceans, rivers, lakes and the earth itself—through evaporation!

Without evaporation, which makes possible the transfer of moisture, large areas of the earth would be useless, desert wastes.

Ruling Cripples Hopes for County Courthouse

(Continued From Page One)

tax levy proportionately higher than necessary (at the expense of other units, such as school districts because of the 15 mill 'ceiling')."

Judge Dehnke said that before he hands down a decree in the case, he will have to work with the auditors and attorneys to decide what is to be done with the illegal building funds.

★ ★ ★

The judge's ruling on the fund was his final decision in the matter. Wednesday he had ruled that the Board of Supervisors could sell the present downtown courthouse site and that the county could move the courthouse anywhere within the county, but that certain county offices must remain in Pontiac.

He also said that Pontiac's annexation of the county service center from Waterford Township was illegal, because electors in the annexed area had not voted on the issue.

The suit was brought against the county by the Oakland County Taxpayers League.

The taxpayers league is an independent group formed expressly to fight the Board of Supervisors' building plans.

Contestants on both sides had long awaited Judge Dehnke's ruling in the case. Hearings were held May 14-17.

In August, 1954, voters approved issuing of 4.5 million dollars to build a new courthouse. But millage to pay for it lost by 500 votes.

Three months later, the millage lost by 23,000 votes.

The judge who handed down the decision is from Harrisville. His circuit includes Alcona, Iosco and Oscoda counties in the northeast portion of the Lower Peninsula.

An outside jurist was requested because Oakland Circuit judges would be affected by the outcome of the case.

★ ★ ★

County Corporation Counsel Harry J. Merritt had denied that the funds were accumulated illegally, and maintained that the county's financial record "is clean" and represents "good business practices of which the Board of Supervisors can be proud."

The taxpayers league had made four specific complaints:

1. The board has no legal right to change the present site of the courthouse.

2. **The proposed site, in the Telegraph road service center, was illegally annexed to Pontiac and is hence outside the county seat.**

3. The board exceeded a constitutional limitation to be taxed or borrowed for construction of .1 mill, unless approved by the voters.

4. The board illegally transferred deliberate budgetary surpluses to the building funds.

★ ★ ★

After Judge Dehnke's preliminary rulings on Wednesday, county officials were openly optimistic about the outcome of the case.

Although, at that time, Judge Dehnke had ruled that the proposed site for the courthouse had been illegally annexed, he also suggested a practical method by which the county could overcome the illegality of the annexation proceedings.

Plans for the courthouse might be revised so as to place all offices required to be at the county seat on the Pontiac side of the line, he said.

The offices of the sheriff, county clerk, county treasurer, judge of probate and register of deeds must be located at the county seat, but not the circuit courts.

Commenting on Judge Dehnke's decision, Merritt said that he will definitely recommend to the Board of Supervisors, which meets August 12, that it appeal to the State Supreme Court.

★ ★ ★

He said that the judge recognized that the questions involved in the case were novel and that there were no authorities to be cited.

"We should have a State Supreme Court decision on the right of local governments to spend their money, as presented in this case," he asserted.

Gillespie, attorney for the taxpayers' league, observed that "Judge Dehnke has completely gone along with us on the question of financing for the courthouse.

Glenn C. Gillespie's organization has never denied the need for a new courthouse, but said that decisions on the proposed multi-million building should be left to the voters.

★ ★ ★

In an off-the-cuff remark at the trial, Judge Dehnke remarked to the county:

"How much you want or need a new courthouse is immaterial to this case. But I sympathize with you.

"This building is just plain awful for a county this size. Why, in Harrisville (on Lake Huron in Alcona County), where there are only 500 residents we've got a brand new courthouse."

Legal battle over the courthouse has been raging since the league filed its suit in November, 1956.

News Flash

WASHINGTON (AP) — Michigan was allocated $102,096,687 of the nearly three billion dollars the government earmarked today for national highway spending in the 12 months starting in mid-1958. The Michigan breakdown included $12,404,719 for primary roads; $7,567,394 for secondary roads; $10,189,455 for urban routes, and $71,935,119 for interstate superhighways.

Ready Vaccine for Asian Flu Outbreak Here

WASHINGTON (AP)—This country faces the "very definite probability" of a large outbreak of Asian influenza this fall or winter, Surgeon General Leroy E. Burney says.

But he reported yesterday that production is being rushed on a vaccine to combat the disease. He urged full use of it when it becomes available starting next month.

The head of the Public Health Service said there have been about 11,000 cases of the new strain of flu reported in the United States. He added undoubtedly there has been "widespread seeding of virus throughout the country."

He commented that cold weather seems to trigger flu outbreaks, and said if one comes it likely will be in December, January and February.

Six licensed manufacturers have set a production goal of 60 million doses of the new vaccine by Feb. 1, Burney reported.

He told a news conference he believes the disease will continue to be the mild type so far reported in the Far East, South America and this country.

He expressed confidence the death rate from complications following any cases will be "far below" the two tenths of 1 per cent reported in the Far East.

Supervisors to Hear of Sewer Progress

A progress report on the status of the Evergreen and Farmington interceptor sewer systems will be presented by the newly-created Department of Public Works at a special meeting of the Oakland County Board of Supervisors at 9:30 p.m., August 12.

Both the $3,000,000 Evergreen system and $2,500,000 Farmington drain have been assigned top priority by the DPW, which is empowered to acquire, construct and operate sewers, storm drains and water supply systems.

The board will also act upon a recommendation by the boundaries committee that 48 acres of the Holly School district be annexed to the village of Holly. The village had sought to annex 280 acres of Rose and Holly Townships.

Will He Take a-Million?

RALEIGH, N. C. (INS)—President Eisenhower can decide today if he will take a "million dollars for his assets." Kidd Brewer, 49, a Raleigh businessman, followed up the President's offer at a Wednesday news conference by sending him a telegram yesterday offering a million dollars for his assets.

Union-Management Deals Are Studied

(Continued From Page One)

of the contracts that are put in writing. Thus, he said, the workers seldom know even the minimum benefits to which they are entitled.

McNiff said he has taken this up with the International Ladies Garment Workers, for one, and obtained some success in having more contracts made available to ILGWU members.

He said he thought depriving members of contract copies was without the knowledge of ILGWU President Dave Dubinsky, but that he has been unable to see Dubinsky about it.

Chairman McClellan (D-Ark) said in advance it would be shown that "sweetheart contracts" between the unions and employers gave the workers only the legal minimum wage.

Today's hearings are a new phase of the committee's probe into New York area unions dominated by labor racketeer Johnny Dio, described as a close friend of James R. Hoffa, powerful Teamsters Union boss.

McClellan said Wednesday that Hoffa used Dio to help gain labor domination over New York and the Eastern Seaboard.

McClellan announced the Rackets Committee has found out that Teamsters Union dues money apparently was used to pay a $21.66 hotel bill here in mid-July for former heavyweight champion Joe Louis.

That was when the famed "Brown Bomber" visited Washington and attended Hoffa's trial on charges of bribing one of McClellan's committee investigators.

Louis put his arm around Hoffa in the courtroom and described him as "my good friend." The jury of eight Negroes and four white persons later acquitted Hoffa, but the jurors said in a poll afterwards the race issue had not influenced their verdict.

Hoffa Advocates Union Combine in Transportation

SAN FRANCISCO (AP)—Detroit Teamster chief James R. Hoffa advocates a giant combine of transportation unions—land, sea and air—he said here yesterday.

Hoffa said that he is confident he will be elected Teamsters Union president next month to succeed Dave Beck.

If he is, he says he will work for a merger of truck drivers, longshoremen, railroad and steamship employes and warehousemen into a giant transport union within the AFL-CIO framework.

Teamsters Union leaders are meeting here to review the union's constitution.

Einar Mohn, administrative vice president of the union and constitutional committee chairman, said, "We're going to take the constitution apart article by article and look it over."

Hoffa said he intends to adhere strictly to AFL-CIO bans against relations between AFL-CIO unions and independent organizations such as the ILWU.

FHA Home Loan Rate May Be Hiked Again

WASHINGTON (AP) — Another increase in FHA home loan interest rates is imminent, congressional sources said today.

They said they expect a boost from 5 to 5¼ per cent in the interest rate to be announced soon along with approval of lower down payments and new controls on the amount of discount—or premium—which may be charged borrowers on mortgage loans insured by the Federal Housing administration.

The housing administrator is authorized under law to raise the interest to a maximum of 6 per cent without coming to Congress for approval.

In addition to the current 5 per cent rate, FHA now charges an additional half of 1 per cent fee for insuring the mortgage loan to bring the total cost to 5½ per cent. An additional one quarter per cent would bring the cost to borrowers to 5¾ per cent.

The Day in Birmingham

Community House Heads Plan Next Year's Slate

BIRMINGHAM — With the closing of the Birmingham Community House for its annual August vacation, Norman B. Weston, board president, said today that the $50,000 roll call drive was shy only $1,000. He thanked the 900 or more volunteer workers as well as contributors for their splendid support.

Weston also extended the board's thanks to Mrs. Alice Wessels Burlingame, who has assisted greatly in the exterior landscaping around the House.

The program is nearly completed and "vastly improves the appearance of the House," according to Weston.

The fall classes are designated to start about September 16. Registrations will begin with the reopening of the House September 3 and since all classes are limited early registration is urged.

★ ★ ★

New to the group this year will be a class in puppetry on the youth program. Francesca Bodycombe will conduct the classes each Thursday from 3:30 to 5 p.m.

The work will include making of puppets, marionettes, hand puppets, stick puppets and all phases of stage technique. This will be a ten-week course.

Old favorites back again will include classes in bridge, ceramics, dancing, design, enameling, flower arrangement, gardening, home-making, interior decorating, millinery, photography, sculpturing, sewing, silverwork and painting for both adults and youths.

The Red Cross First Aid course also will be given again. The annual meeting for the House association will be held October 7. All contributors are eligible to vote for directors. Reports of the past year and future plans will be presented.

Although the time limits will be close, Birmingham City officials in cooperation with Troy and Oakland County are working toward the possibility of widening Adams road from Buckingham north to the city limits.

★ ★ ★

Acting city manager L. R. Gare said Birmingham's cost would run between $11-$12,000. Birmingham will stand the cost of the western edge, the county bearing the cost of the center and Troy paying for the eastern third of the roadway.

For the sake of safety, a reversal of pool rules was made this week by Robert Girardin, recreation director. He said children would not be able to attend family hours without a parent present.

After a four-day trial, pool attendants said they had no way of knowing which children are good enough swimmers to go into deep water without an actual test. Because of the number using the pool this is impossible.

Recipient of a $250 scholarship, Birmingham's school nurse, Frances Curtin is attending the Yale Summer School of alcohol studies in New Haven, Conn.

The award is from the Michigan State Board of Alcoholism. It is to provide professional people with a better understanding of alcoholism as it is related to their particular fields.

Lucian Ring

Diecast engineer for Grand Steel Manufacturing Co., Clawson, for the past 10 years, Lucian Ring, 55, of 4641 Charing Cross Rd., died yesterday at Beaumont Hospital. He had been ill with a coronary condition for a month.

He was a member of Palestine Lodge F&AM, was a 32nd degree Mason, and member of Boulevard Shrine Club, Moslem Temple, Red Run Golf Club and the Detroit Gun Club.

His only survivor is his wife, Angela J.

Palestine Lodge will conduct Masonic Rites at the 1 p.m. service Saturday from Bell Chapel of the William R. Hamilton Co., with burial in White Chapel Cemetery. The family suggests memorial tributes to the Heart Fund.

Price War Unlikely, Gas Officials Say

Retail gasoline dealer association officials said today there is little, if any chance of a gas price war erupting over the recent Texas Oil Co. price reduction move.

★ ★ ★

Eugene McEnery, vice president of the North Oakland County Gas Dealers' Association, said only one or two Texaco dealers in the county have cut prices and this is definitely not the start of a gas price war.

In Detroit, Cash Hawley, general manager of the Retail Gas Dealers Association of Michigan, said a price war is possible but not probable.

Hawley earlier in the week had predicted the Texaco move would lead to a price war. He toned down that evaluation when only one major company, Socony-Mobil, indicated it "might" follow the Texaco lead.

Receives Minor Injuries in Auto-Tractor Collision

Earl Bowern, 53, of 2791 Groveland Rd., Ortonville, was treated for minor accident injuries yesterday at Pontiac General Hospital and released.

★ ★ ★

Bowern was injured when his car collided headon with a tractor driven by Raymond F. Helias, 34, of Goodrich. The accident took place on Barron Road, about 100 yards south of Perryville road, in Groveland Township. Helias was uninjured.

Pontiac Motor Production Up

Gap Still Widens Over Number of Cars Built Last July, Past Year

Pontiac Motor Division continued to widen the production gap over last year's figures in July, production figures revealed today.

Some 26,089 units left the line in July, compared to 21,235 in July, '56. Total Pontiac production in 1957 through July is 224,761, compared to 212,817 for last year at this time.

General Motors production figures in the month of July show a 7,000 unit boost over the same month last year—278,532 compared to 271,658.

For the seven months of 1957, however, GM is down, from 2,348,158 in 1956 to 2,161,437 this year. Truck Coach division reported 5,735 units in July, compared at 6,450 last July. Total 1957 Truck & Coach division production to date is 42,985, a dip from 59,746 units in through July, 1956.

In July production, Chevrolet, Pontiac and Cadillac showed higher production than last July.

During the first seven months, only Pontiac and Cadillac showed higher production than 1956.

Cadillac had 98,478, with 1956 figures at 96,173.

Menominee Boy Drowns

MENOMINEE (AP)—Francis Pesmark, 11, of Menominee, drowned in Green Bay north of Menominee Thursday when he ran off a sand bar into water over his head.

Cut Swim Pool Costs

LOS ANGELES — The cost of building a private home-type swimming pool has been slashed an average of about 25 per cent since the end of World War II.

Had to Protect Mother

Marilyn Loses Her Baby in Operation

NEW YORK (AP) — Glamorous Marilyn Monroe, wife of playwright Arthur Miller, lost her baby by an operation last night in Doctors Hospital, a medical source reported today.

"The baby was unsavable and it was urgent to protect the life of the mother," said the source who declined use of his name.

The operation followed a fast, ambulance trip yesterday from the Millers' summer home at Amagansett on the eastern end of Long Island.

★ ★ ★

An emergency call for the East Hampton ambulance service was made from the Miller home at 11 a.m. yesterday.

Dr. Hilliard Dubrow, New York gynecologist and one of Miss Monroe's physicians, happened to be in East Hampton at the time and traveled with the stricken film star and her husband.

When she was admitted to the hospital one of her doctors said Miss Monroe was "five or six weeks pregnant and was expecting her child at the end of March." There have been persistent rumors she was expecting a child.

★ ★ ★

She was wheeled from the ambulance in a stretcher. A sheet covered her famous body. Only her tousled blonde hair, her bare, sun-tanned feet and the top of her her blue pajamas sleeves were visible.

Miller, nervous and solicitious, helped wheel the stretcher. At the elevator he leaned over the stretcher, put his arm around his wife's waist and whispered to her.

She was taken to a $26-a-day ninth floor room. Miller took a room in the hospital's hotel section.

★ ★ ★

Miller said he could not recall any incident that could have induced a threatened miscarriage. He said his wife had been "resting, digging clams and swimming" on their vacation.

★ ★ ★

The medical source said that "no difficulties" were anticipated as a result of the operation and that Miss Monroe was "doing as well as can be expected."

★ ★ ★

It was learned that the operation was performed by Dr. Dubrow and Dr. Bernard Berglas, also a gynecologist.

★ ★ ★

Miss Monroe and Miller were married in a civil ceremony at White Plains, N. Y., on June 29, 1956. Two days later they were married in a reform Jewish ceremony in South Salem, N. Y.

Outlaw of Prayer Angers Parents

Drafting New Jersey Bill to Allow School Grace

TRENTON, N. J. (AP) — The attorney general's office said today it is preparing an amendment to New Jersey law that would permit children to say grace before meals in public elementary schools.

The legal division of the attorney general's office recently ruled grace is a religious exercise and is thus barred under state law.

★ ★ ★

Atty. Gen. Grover C. Richman Jr. was reported "unhappy" with the results of the opinion, which angered residents of Edgewater Park, and has instructed that an amendment to the law be prepared for submission to the legislature.

★ ★ ★

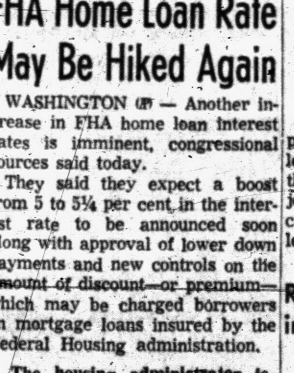

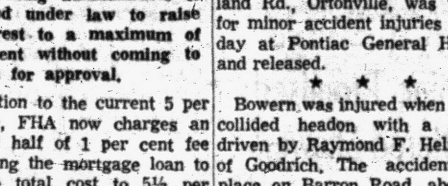

About 98 per cent of the adults in the Edgewater Park school district have signed a petition asking that saying of grace be continued. It had been the practice there before the attorney general's opinion was issued.

State law now requires the reading of at least five verses of the Old Testament, without comment, in each classroom to start the school day. The Lord's Prayer may also be repeated.

Seeks Electronic Postal System

Rep. Fulton Suggests Using 5-Cent Stamps as 1st Step Forward

WASHINGTON (AP)—Rep. Fulton (R-Pa) suggested today that 5-cent stamps be required on all first-class letters to help finance an electronic postal service.

★ ★ ★

He would eliminate the air mail stamp, saying the post office should send letters "by the fastest means under the circumstances," whether by air or otherwise.

Fulton outlined his idea this way:

★ ★ ★

"Let the stamp buyer route his letter." The whole country would be zoned; so would the cities. A stamp buyer would punch buttons according to zones to perforate the stamp and mail his letter, a machine would route it down the right chute, and it would be on its way.

Fulton said in an interview this electronic system would virtually eliminate hand sorting of mail and that "the savings would be astronomical."

★ ★ ★

Fulton estimated the proposed 5-cent stamp, plus some graduated raises on second and third class mail, would add about 700 to 800 million dollars a year to postal revenues.

He said he figures the Post Office Department would just about break even under his plan. It is operating now under an annual deficit estimated at some 650 million dollars.

F. W. Dodge Sees Rise

DETROIT (AP)—F. W. Dodge Corp. reported Thursday that contracts for future construction in Michigan in June total $136,757,000. The agency said this was an increase of one per cent compared to June a year ago.

18 Persons Tried for Armas Killing

GUATEMALA (AP)—Eighteen persons are on trial before a military court for complicity in the assassination of President Carlos Castillo Armas.

★ ★ ★

Another 36 persons are being held for investigation, National Security Chief Ismael Ortiz Orellana disclosed last night.

The 18 on trial were reported unofficially to be army officers and soldiers. Possibly they also include palace guards, who technically are not in the army.

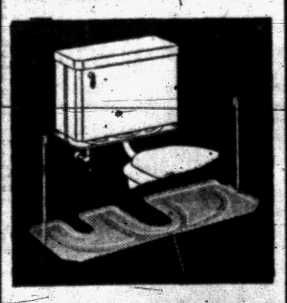

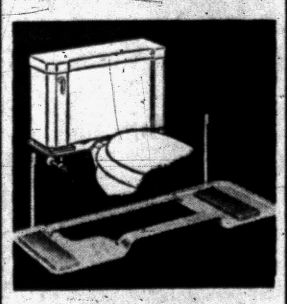

★ ★ ★

Costillo Armas was shot last Friday night by a palace guard, Romero Vasquez Sanchez, who officials said was a Communist fanatic. After killing the President, who ousted a Communist-tinged government three years ago, the guard killed himself.

Death Notices

W. GRANT BARNARD

W. Grant Barnard, 74, of 98 Douglas St., died yesterday after an illness of several months.

He was a member of First Methodist Church and a former employe of Manville Mfg. Co.

★ ★ ★

Surviving are his wife, Ethel; a daughter, Mrs. Floyd Johnston of Flint; a son, George E. Barnard of Pontiac, and a brother, George H. Barnard of Drayton Plains.

Service will be at 1:30 p.m. Monday from Sparks-Griffin Chapel with burial at Memphis.

ROBERT GREGORY

Word has been received of the death of Robert Gregory, 68, a former Pontiac resident. He died in Stevens Point, Wis. Wednesday evening.

When in Pontiac, Mr. Gregory was employed by the Grand Trunk Western R. R. Co.

Surviving are a daughter, two sisters and a brother.

Service will be at 10 a. m. Saturday at the Doston Funeral Home in Stevens Point with burial in Alma Center, Wis.

JOHN H. KENNEDY

John H. Kennedy, 67, of 267 Ferry Ave. died this morning in Pontiac General Hospital after an illness of two years.

A retired employe of Fisher Body Division, he was a member of First Methodist Church, Roosevelt Lodge No. 510 F & AM and the Low Twelve Club.

Mr. Kennedy leaves his wife, Jennie; a son, Carl J. Kennedy of Utica, a sister and four brothers.

Service will be at 1:30 p. m. Monday from Donelson-Johns Funeral Home with his pastor, the Rev. Paul T. Hart officiating. Burial will follow in White Chapel Memorial Cemetery.

MRS. AGNES L. CALLEWAERT

IMLAY CITY—Service for Mrs. Agnes L. Callewaert, 81, of 2826 Lake Pleasant Rd., who died Thursday will be held at 2 p.m. Saturday with burial in Lum Cemetery.

Surviving are a son, Walter of Lum a sister.

JANET L. REEVES

ROCHESTER — Graveside service for Janet Lyon Reeves, infant daughter of Ralph and Patricia Reeves of 1565 W. Hamlin Rd., will be held at 10:30 a.m. tomorrow from Perry Mt. Park Cemetery. The baby died shortly after birth yesterday at Pontiac General Hospital.

★ ★ ★

Surviving besides her parents are a brother, Michael, at home.

The body may be viewed this evening at the Sparks-Griffin Funeral Home.

EDWYNA TITUS

ROCHESTER—Funeral arrangements are pending for Edwyna Titus, 57, of 130 Griggs St., who died this morning at Henry Ford Hospital, Detroit. Miss Titus was principal of the Troy Union School.

Arrangements are being made by the William R. Potere Funeral Home.

Cheezy Robbery

PHILADELPHIA (AP) — Philadelphia police are searching for robbers who used a hunk of cheese as a weapon. Cab driver John Evans says he picked up two fares and suddenly one of them hit him in the mouth with a handful of cheese. The other slugged him with a lead pipe, Evans says, and escaped with $20.

Deaths Elsewhere

By THE ASSOCIATED Press

MOSCOW (AP)—Sofyo Andreyevna Tolstoya-Yesenina, 57, a granddaughter of the noted author Leo Tolstoy, died yesterday, the Literary Gazette announced. She was director of the Tolstoy State Museum.

★ ★ ★

WOLFBORO, N.H. (AP)—Dr. Cornelius Weygandt, 85, professor emeritus of English literature at the University of Pennsylvania, died Wednesday. He joined the Penn faculty in 1897 and retired in 1952. He was born in Philadelphia.

Seaway Won't Help Exports

No Immediate Increase in Agriculture Trade Seen for Midwest

WASHINGTON (AP)—A study issued by the Agriculture Department advises midwestern farmers they should not expect too much in the way of increased exports from development of the St. Lawrence Seaway.

The Seaway is a project designed to deepen the channel of the St. Lawrence River to make it navigable by larger ships.

Much has been said about the possibility of the Seaway providing lower cost transportation for midwestern wheat, other grains and farm products.

"It seems unwarranted," the study said, "to visualize immediate or radical changes in the existing channels of trade for agricultural products from the United States. Over a longer period, however, changes in this respect may be significant."

The study was prepared for the department by Prof. Sargent Russell of the University of Massachusetts. The department said, however, that the study is "a preliminary analysis based upon a few possible example and perhaps inadequate cost figures."

Six-Car Subway Rocked by Blast

Scores Are Injured in Philadelphia Train; Panic Follows

PHILADELPHIA (AP) — A blast rocked a six-car Broad Street subway train during the morning rush hour today, injuring scores and causing panic in the underground tube.

The three hospitals to which the injured were taken said none had been hurt seriously.

★ ★ ★

Many suffered cuts from smashed subway train windows. Others were treated for shock.

The Philadelphia Transportation Co. said the blast came after the motor of the lead car on the passenger-jammed train short circuited, causing a circuit breaker to explode.

★ ★ ★

The blast and minor fire in the lead car caused many of the passengers to smash windows in the subway cars and scramble out to the Erie Ave. platform. Many wandered to the street level and were given sedatives at nearby drug stores.

Edward Caswell, 40-year-old motorman of the subway train, said the blast derailed the lead car of the eight-car train, which was jammed with work-bound passengers, many of them standing.

★ ★ ★

Caswell said he was temporarily blinded by the flash from the explosion, but recovered quickly and opened the subway train doors to let passengers out on the station platform. Many of the passengers, he said, were screaming and hysterical.

A fire alarm was sounded shortly after the blast occurred and fire equipment rushed to the busy intersection. Traffic was disrupted, both on the surface and in the subway itself.

Losses of about $25 million a year are incurred because of the death or injury of livestock being shipped from farms to meat packing centers.

OVERWEIGHT?

NEW SWEDISH WAY TO BE SLIM WITHOUT HUNGER

LARSON'S NEW CHOCOLATE SWEDISH MILK DIET

It's Fortified! If you are overweight from overeating ::: if you want to reduce *without hunger* . . . quickly, easily, safely . . . then try the new, fortified, chocolate flavored Larson's Swedish Milk Diet.

Diet Only 3 Days a Week. Larson's is so easy. Four days a week you don't diet at all . . . you eat your normal meals. Then, on Monday, Wednesday and Friday . . . you mix *new*, chocolate flavored Larson's S.M.D. with milk and drink . . . that's all there is to it. You take off pounds and inches faster than you ever dreamed possible. Your scale becomes your friend.

Reduce Without Hunger. Larson's is not a "fad" diet, but one of the world's healthiest reducers. There's *no underfeeding*. This new chocolate flavored, creamy milk diet is a complete fortified food that supplies full daily requirements of minerals, necessary vitamins, calcium, protein, carbohydrates, iron, phosphorus and energy elements. Safe to use, contains no drugs.

Extra Filling. Larson's fortified S.M.D. is tasty . . . just like a milk shake! And it's *extra filling* with hunger-satisfying bulk. The new Larson's S.M.D. is so strongly fortified it actually is *double strength!* You start losing pounds and inches the very first day . . . it's *guaranteed!* So don't be overweight . . . be slim again. And for really easy reducing . . . start the Swedish Milk Diet today.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

Detroit Businessmen Favor Downtown Mall

That proposal by Mayor Cobo to establish a downtown mall is attracting a lot of attention in Detroit. He has suggested closing Woodward Avenue to motor traffic from Grand Circus Park to Michigan Avenue.

★ ★ ★

He would have the downtown merchants beautify this shopping center, improving it in every possible way to make it more attractive to shoppers. The merchants would be expected to finance these changes. The city would take care of rerouting traffic and other problems.

Detroit merchants admittedly are interested in the proposal, although they are not ready to give their complete support without further study. Traffic heads, likewise, recognize big headaches for them would be an inevitable result.

★ ★ ★

Mayor Cobo's move is of interest to Pontiac's merchants who have recently banded together to seek methods of revitalizing the local downtown area and to increase its attractiveness to the shopping public. Merchants in many cities are studying the same problem.

Pontiac's municipal government already has made a notable contribution toward relief of the downtown parking problem. City-owned off-street lots now provide space for hundreds of cars. These lots are hard-surfaced, lighted and provided with parking meters. They are making it much more convenient for people to shop in the downtown area.

★ ★ ★

Many downtown buildings have undergone extensive physical changes in the effort to make the area more attractive. These remodelings undoubtedly will continue. Each adds its bit to the total effect.

The proposal of a through, limited access highway crossing Pontiac from north to south within a few blocks of the city's principal business thoroughfare already has been made. It has won the support of the merchant and property owners' group.

★ ★ ★

Undoubtedly such a route would tie in at its downtown exits with parking lots which would make it easy for through motorists to pause for a bit of shopping. It would also provide a quick way for residents of suburban areas to get downtown.

Other suggestions may come out of the studies to be made by the newly organized group. In addition to their own ideas, they will have the benefit of similar groups which are being formed in many cities.

★ ★ ★

The Detroit mall is but one idea out of many that will be suggested as all these groups concentrate on the problem before them. Other cities undoubtedly will come up with quite different approaches. Out of the total should come a program which will meet Pontiac's needs effectively.

Nephritis Rate to Drop

Steadily science moves ahead in its fight to control disease. Newest to face more effective curbs is nephritis, a disease which attacks the kidneys.

Drs. Milton Rapaport and Wallace W. McCrory have announced a new method of treatment which has worked so well in test cases that they feel confident it will reduce the disease's mortality rate among youngsters from fifty to twenty per cent. If this reduction is dealized, it will mean the lives of many children will be saved each year.

Since 1949 steroid hormones, chemicals from the small glands atop the kidneys, have been used in treating nephritis. The new treatment includes the use of steroid drugs and cortisone, suited to individual needs.

★ ★ ★

The tests thus far have covered thirty children, and three years after onset of the disease in these thirty cases the mortality rate has been but twenty per cent, as against the previous normal expectancy of fifty per cent mortality.

The two doctors conducted their experiments at Philadelphia Children's Hospital where they are specialists. They report that another discovery has accompanied use of the new technique. Physicians using it can determine early in the treatment of each case whether the patient will recover or will die.

★ ★ ★

While nephritis is not so common as many diseases affecting young people, between six thousand and eight thousand children are believed to be suffering from it in the United States at the present time. The highest incidence is in the age group around two years.

★ ★ ★

The word from Philadelphia brings good news to these child victims, and to parents of children everywhere. One by one the scourges of childhood are being conquered. The results are more healthy children and a steady increase in life expectancy.

The Man About Town

Our Wheat Crop

The 1957 Harvest Is Being Made With Difficulty

Tanned: What the youngsters now get at the beach, instead of the woodshed.

The harvest of the 1957 wheat crop in the Pontiac area now is at its peak. First farmer to market his crop was

N. A. Tersigni

of Independence Township, who sold it at the Oxford Cooperative Elevator. The average yield runs around 30 bushels per acre, which is above the average of most former years. The quality is good, unless affected by moisture conditions in harvesting.

The price is just under $2.00 per bushel, being about the same as at harvest time last year. On account of the rains and wind causing much of the grain to topple over and lodge, much of the harvest was difficult, and some wheat was lost in this condition. In the number of acres planted to this grain in the county, it also is an average year.

Manager of next week's annual Oakland County 4-H Club Fair,

Walter Goodrich,

tells me that exhibits and other features are arriving at the grounds out Perry St., and everything should be ready for Tuesday's opening. This has been built up through the years until it is now the largest event of its kind in Michigan.

Congratulations and best wishes are extended to

David H. Koto

19-year-old resident of our suburban Birmingham, on his winning a $2,000 scholarship in the

Fisher Body Craftsman's Guild

for his automobile model. Among the 19 national winners, only two were from Michigan, the other a Jackson boy.

Well known among Pontiac railroaders,

William A. Smith

died Wednesday at his home in Durand, aged 68. A good part of his 41 years in railroading was spent as a locomotive engineer on a run through our city.

As usually is the case,

Philip Alexandrine

of Waterford comes through with the first home grown potatoes of the year, larger than golf balls.

As far as we can learn, the first in this area to enjoy home grown 1957 green corn was the family of

Mr. and Mrs. William MacGonegal

of Drayton Plains, who report they've been feasting on it since July 20.

A parakeet in the home of

Mr. and Mrs. Randall Landsworth

of Keego Harbor won't drink anything but lemonade, which it joyfully sips from its cup. In hot weather it won't touch it unless the lemonade is cold.

Verbal Orchids to—

Charles A. Highfield

of 29 Riker St.; ninety-third birthday.

"Hard to Read With That Light So Far Away"

David Lawrence Says:

Calling Ike Names Isn't Very Nice

WASHINGTON — It must be the heat or else the political humidity. For one day someone in Congress says President Eisenhower doesn't have "brains," and another day some other member says the President is "a lousy liar." Not long ago another member said he didn't see much difference between Ike and Dave Beck.

LAWRENCE

All this comes under the head of "free speech," but whether it's good manners and courtesy and upholds the dignity of Congress is something else again.

It is true, of course, that the sniping is being done by the Democrats and that modern politics evidently knows no limits to the smear — it's all supposed to be within the rules of party warfare.

But fortunately the public doesn't regard party zeal as permitting anyone to transcend the rules of gentlemanly conduct, especially in governmental affairs—and it may be doubted whether the people back home are proud of those representatives who engage in name-calling.

It was the late President Franklin D. Roosevelt who once said that, as soon as name-calling starts, it is evident that the name-caller is devoid of persuasive arguments and has begun to lose the debate.

CURIOUS INNUENDO

There is a curious kind of innuendo in all the smears. The attempt lately has been to build in the public mind the impression that the President lacks integrity as well as fidelity to his office. At the press conference this week someone brought up a published story about Eisenhower having made a million dollars.

He laughed this off and said that he would be glad to sell all his estate for that figure any time and would reap a big profit. Actually, except for his salary, what money he has today is the result of the proceeds from the book he wrote about his war experiences which was published before he became President.

Then there was the innuendo at the press conference — repeating a senator's question in a Foreign Relations Committee hearing — that Eisenhower appoints ambassadors primarily because they have contributed to political campaign funds. This, of course, the President indignantly denied.

The fact is that all Presidents get recommendations for appointments, and, as a rule, the one thing nobody ventures to mention to a President is that a political campaign contribution should be rewarded.

Undoubtedly among those active in politics there is considerable knowledge about who makes the campaign contributions, and it may influence some of those who send in letters of enthusiastic recommendation to a President.

DEMS SUDDENLY VIRTUOUS?

But it would be unrealistic to assume that the Democrats have suddenly become virtuous in this respect and do not intend to let anyone hereafter get an ambassadorial or cabinet appointment who has made a sizable contribution to their party fund.

The list of nominees who have gone to foreign-service posts under Democratic administrations after making notable contributions to presidential campaign funds is very long indeed — to mention only Joe Davies, Joe Kennedy and Perle Mesta.

It would be a grave mistake to imply, however, that none of them proved able, for most of them have, and so also have the Republican appointees. Business experience is an asset in diplomacy today.

As for Maxwell H. Gluck, the new ambassador to Ceylon — who, when questioned by the Senate Foreign Relations Committee, couldn't remember offhand how to pronounce the name of the prime minister of Ceylon (S. W. R. D. Bandaranaike) or the full name of the prime minister of India (Jawaharlal Nehru) — it is doubtful whether any test in pronunciation has ever before been required before approving the nomination of our ambassadors or ministers to posts abroad.

Smiles

Batching it while the wife is away is what a man looks forward to and then, in about two days, he wishes she were back home.

Country Parson

"Measuring success in money is like measuring the value of a well in feet.... it's how productive it is that counts."

Dr. William Brady Says:

You Pay in Vital Health for Modern Milled Flavor

In his book "Foods and Their Adulteration," the famous Dr. Harvey W. Wiley said many years ago, that formerly the maize (corn) kernel was ground between stones and bolted to remove the bran. The maize flour or corn meal thus produced was used directly as a human food.

DR. BRADY

Modern milling operations have changed the method of producing maize flour so that the outer bran is removed and so is the germ itself, thus diminishing the quality of the fat (corn oil) in the corn meal.

At the time Dr. Wiley wrote about food, little or nothing was known about vitamins. Today when the modern millers remove the germ, they remove nearly all the vitamins from corn, wheat, or other grain.

Dr. Wiley did say that, while such removal of the germ was important for producing meal or flour for export or storage, "it impairs the palatability and nutritive value of the product."

★ ★ ★

"As offered at many of our hotels and some private houses," said Dr. Wiley, "corn bread has been so manipulated" (I think this means purified, blended, bleached, refined, etc.) "as to lose part of its palatability, without any compensating improvement of its nutritive properties."

GRIND THEIR OWN

Many readers who have experimented with various recipes for pancakes, muffins, waffles, porridge and the like, made from plain wheat cracked or ground in the old coffee mill or in a hand or power mill, report great satisfaction. Such recipes and mills are described in the pamphlet "Wheat to Eat," available on request if you provide stamped, self-addressed envelope.

Good eating is only one reason why everyone should replace at least part of the pale starchy stuff in his diet with the real staff of life — the plain grain, freshly ground or cracked.

A better reason is that this is the best food source of the vitamin B complex, the deficiency of which, in the modern ultra-refined diet, accounts for so many everyday complaints.

Signed letters, not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac Michigan.

Case Records of a Psychologist:

'Illnesses' Cover Woman's Fears

Carolyn stalled for five years before she got married. Then she became a medical case at once and has consulted nine physicians in just three years! Yet her problem was chiefly a mistaken idea that she failed to admit to her husband or those doctors. So learn to face the facts and follow Christ's admonition below.

By Dr. GEORGE W. CRANE

Case V-353: Carolyn W., aged 27, has been married for 3 years.

"But she has been a medical case all that time," her husband wearily exclaimed.

★ ★ ★

"She first thought she had appendicitis; then ulcers, plus spastic colitis and finally was sure she was dying of a heart attack.

DR. CRANE

"I have taken her to nine different doctors since we married. Lately, she has been so neurotic it was suggested I take her to a clinic.

"But I have read your column for 10 years and feel she is feigning ailments to cover up something.

"Do you think that is possible?"

MALINGERING

Yes, many patients will malinger. This means they generate apparent illnesses for some ulterior motive.

Sometimes they even fool themselves and thus shed real tears about their tragic condition; yet they have subconsciously manufactured their symptoms to cover up some secret sin or unsolved conflict.

Carolyn was very well diagnosed by her husband. After she had wandered around for about an hour during our later interview, she finally blurted out the core of her problem.

She was afraid of pregnancy; She was scared to bear a baby.

Yet it wasn't dread of pain at the time of child birth. No, she was worried about her baby's heredity.

For her father had died in a mental sanitarium when she was 10 years of age. And ever since then she had retained a phobia of insanity.

But she refrained from telling her husband the specific nature of her conflict. She was embarrassed about letting him know the facts concerning her father. She wished to keep the family skeleton hidden.

PSYCHOSOMATIC MEDICINE

In fact, she had stalled off going through her wedding ceremony. For she and her husband had met during her junior year of college. They fell in love.

But she resisted marriage for five more years, always with vague arguments. She even fell back on the proverbial feminine "because."

★ ★ ★

Finally, her fiance high pressured her into the wedding. But she immediately became a victim of many medical ailments thereafter.

"Dr. Crane, I knew that insanity is hereditary," Carolyn wept in my office, "so I didn't dare have any babies.

"But we are Catholics so how could I avoid pregnancy?. Well, I guess I figured if I was always sick, my husband would feel sorry for me and still go on loving me, anyway."

So Carolyn's medical ailments were a camouflage to hide the real facts, while she endeavored to hold on to her husband's love.

"The truth shall make you free," Jesus once told his followers.

So I calmly informed Carolyn that there are different kinds of insanity. The organic type results from infections, such as syphilis, or from chemical damage due to poisons, etc.

It definitely can not be inherited:

★ ★ ★

And we psychiatrists are even dubious about the inheritance of any type of insanity, including schizophrenia.

So I checked on her father's medical record. He had suffered

from syphilis which invaded his nervous system and produced paresis (insanity).

But Carolyn and her mother had no venereal infection, so she had no need to fret. For contagious diseases like syphilis can not be inherited:

In an hour a dose of scientific truth freed Carolyn from four years of medical ailments.

Send for my booklet "How to Prevent a Nervous Breakdown," enclosing a stamped, return envelope, plus 20c (non-profit).

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped self-addressed envelope and 20c to cover typing and printing costs when you send for his psychological charts and pamphlets.

(Copyright 1957)

Voice of the People

Area Woman Commends the Boy Scout Jamboree

Our boys from the Clinton Valley Council are back from the 4th National Boy Scout Jamboree and what a wonderful time they've had, an opportunity that very few of them would have had otherwise. Their families and friends have all heard about the wonderful sight-seeing trips in Washington, D. C., and New York City before going on to Valley Forge, Pa. For many of the boys it was a first train ride and first stay at the hotel, also.

Behind the scenes all of this took much planning on the part of so many of our adult Boy Scout leaders. Some have worked a year or more to make the trip the wonderful success it was.

I'm very sure other parents join me in saying three times three cheers for these volunteer workers who serve our youth so faithfully.

Mrs. Winford Stephens

Orchard Lake

Several Discuss Teen Problem

I agree wholeheartedly that teenagers don't have enough recreation. There are dances occasionally at the schools during the winter, but what about the rest of the year? We have only one ice rink and it's open only about three weeks a year. Some of the schools have rinks, but what kind of condition are they in? I go to Birmingham to skate. An indoor rink open all year is needed.

We also need a recreation center badly. Then adults wouldn't be able to gripe so much about teens roaming the streets, because they'd have someplace to go. Other cities smaller than Pontiac have them—why can't we?

Judy Crandall
Pat McCoy

★ ★ ★

I agree the summer doesn't offer much for Pontiac teenagers. But I don't agree there are plenty of dances and activities. The only ones I know of are those sponsored by local disc jockeys at suburban rinks, and then the atmosphere is sometimes not too good. I think the problem lies within planning and supervision of these citywide activities.

A civic auditorium where teens could gather to enjoy an evening's entertainment with a live orchestra and night club atmosphere such as Boys' Club had last year is the solution.

Parks and Recreation are doing a great job with ball teams, but how about planning something for teenagers as a whole? I'd be very interested in helping to plan such activities. With a few ideas and a little initiative on the part of teens and parents, we could accomplish our goal, which is getting teens off the street and providing entertainment which will help build the body as well as the mind.

Interested Teenager

FE 2-5796

★ ★ ★

We wish so much to thank The Pontiac Press and everyone who was interested in teenagers in Pontiac. The Press did a good thing by making those interviews. Now the city will really know and maybe something can be done. We would also like to thank those who disagree with us.

Two Restless Teenagers

★ ★ ★

One has to agree with "Chicago" Frank about drag races. Every hot rod enthusiast will agree that something should be done about providing a suitable place to hold weekly drag races. It's been approved by law enforcement organizations all over the country. In the Los Angeles area alone there are no less than a dozen drag strips.

We call Detroit the automobile center, yet nothing has been done to take the energized and ambitious hot rod off the streets and put him on the safe and legal drag strip. It would promote safer driving and create a better feeling between adult population, John Law and the hot rods. We of the automobile dragging world need more support instead of criticism. Incidentally, I am not a teenager.

"Miami" Wayne

★ ★ ★

(Editor's Note: A discussion group, "Teenagers Speak Their Minds," will be held Tesuday evening at 7:30 at Jefferson Junior High for all those interested in teenage problems. The sheriff's department informs us that GM representatives, youth directors, members of the recreation department and members of the sheriff's department will be present. One of the topics to be discussed is the possibility of a drag strip in the Pontiac area.)

Congratulates City on Weed Project

Pontiac is to be congratulated on its campaign to eliminate obnoxious weeds from city lots. Our lawn is next to a vacant lot and unless the owner keeps the weeds down, I fight a losing battle all summer.

Jim

Pets' Treatment Worries Writer

Overloaded humane societies and shelters have to exterminate the majority of animals, and anyone saying different isn't being honest. The trouble lies with animal owners. They should not take a pet if they can't keep it. To dispose of a cat or dog on some flimsy excuse is wrong. These little animals are God's creation. They are trusting and worth people's care.

It's heartbreaking to see them being treated as living garbage. Some people are very cruel.

Worried

Reader Disagrees With Billy Graham

Billy Graham is quoted as saying, "The end of the world may be near." This is the first remark attributed to this great man that I disbelieve. Do any other people actually believe the end of the world is approaching? There will never be an end to the world.

Christian

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

Maybe Lifetime Protection

Prisoners Getting Test Shots of Vaccine Which May Give Immunity to Cancer

By EDWIN DIAMOND
INS Science Writer

A vaccine designed to give humans protection against—possibly lifetime immunity to—deadly cancer is now being tested at Ohio penitentiary in Columbus.

Prisoner volunteers are receiving injections of the still-experimental vaccine, which is made from "killed" cancer cells.

The project is the first of its kind ever attempted and represents the potential big jump in the slow step-by-step effort to develop an anti-cancer shot for mankind.

In a few weeks, scientists will have some preliminary idea how well the vaccine confers immunity against cancer. The series of vaccine shots will be followed by implanting live human cancer cells in the arms of volunteers. If the implants fail to "take" or are thrown off quickly, then the vaccine is an experimental success.

Once it is demonstrated the vaccine gives immunity, the next big question is for how long — and against how many of the numerous wildly-growing "outlaw cell" varieties that go by the general name of cancer?

NEED YEARS OF TESTING

The scientific directors of the project acknowledge this question can be answered only after years of large-scale vaccinations of the public.

Effectiveness of the vaccine would be judged by comparing the cancer rate of a community before inoculation with the rate after inoculation. This is similar in principle to the way the effectiveness of the Salk anti-polio vaccine was demonstrated.

The cancer vaccine is made of human cancer cells killed by chemical means, much the same way the Salk vaccine and other vaccines are prepared.

The program is being conducted by the Sloan-Kettering Institute for Cancer Research, under the direction of Dr. Chester M. Southam.

Co-operating with Southam is warden Ralph Alvis. Many of the prisoner volunteers are drawn from the same ranks that submitted to earlier cancer studies.

★ ★ ★

These studies prepared the way for the current vaccine program by demonstrating:

—When normal, healthy persons are given live cancer implants, the cells "take" initially but are thrown off within one month. In cancer victims, on the other hand, such implants grow rapidly.

—This means healthy persons have some natural immunity to cancer absent in cancer victims. Additionally, it provides a measure of vaccine-induced immunity: if similar implants are rejected immediately by healthy volunteers who have been vaccinated, then this quick reject can be credited to the shots.

Last February, representatives of news media were allowed to enter Ohio Penitentiary to interview the prisoner volunteers and witness implant experiments.

At that time, there was no hint that a vaccine program was planned. And, as of today, no public inkling of the plan has been given.

PRISON PAPER REVEALED

A recent issue of the prisoner-run newspaper reveals the entire vaccination program, and details of the program have been confirmed by scientific authorities.

Dr. Southam told the paper's convict-editor his plan of vaccinations followed up by implants and explained:

"Such an experiment is only possible in humans. If the men still want to help, we are willing to do it."

He told the prisoners that "about 50 volunteers were needed to take a series of anti-cancer shots followed by implants."

If this pilot project, now under way, proves successful, he said some 500 to 1,000 more volunteers would be needed for large-scale tests.

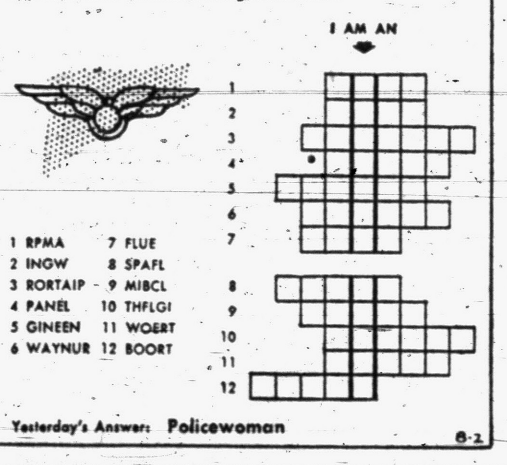

★ ★ ★

Asked by his interviewer if a cancer vaccine is "a dream," Southam replied:

"Everything is a dream until someone does it."

1812 Mackinac Island Building to Be Razed

MACKINAC ISLAND (AP)—City council voted last night to tear down the Clerk's Quarters, one of the oldest buildings on the island, because of a lack of funds to restore it.

★ ★ ★

The building, one of the original properties of John Jacob Astor's fur-trading business on the island, has been vacant for some time and has fallen into disrepair. It was built around 1812.

As a place to spend Sunday, a church may not be as exciting as an automobile—but it's never been known to crash into another church . . . Some girls feel that the best camouflage for bow legs is a plunging neckline.—Earl Wilson.

Recalls Day Father Swore In Son as U.S. President

(A small but solemn group watched as father swore in son as president of the United States. The only newsman among them was covering for The Associated Press. Today he recalls the simple ceremony, and tells how the town is commemorating what happened 34 years ago.)

By JOE FOUNTAIN

PLYMOUTH, Vt. (AP)—This tiny hamlet, almost lost in the green Vermont hills, tomorrow will relive its golden moment in American history.

It was 2:47 on a sultry summer morning, Aug. 3, 1923, that Calvin Coolidge, vice president of the United States, stood in the lamplit parlor of his family's homestead while his father, a notary public, swore him in as president.

★ ★ ★

Only a few hours before, President Warren G. Harding had died in San Francisco.

In tomorrow's ceremony, John Coolidge, son of the 30th President, will hand to Gov. Joseph B. Johnson a deed giving the state title to the house for a museum.

Already Plymouth, a town of 348 residents, has become a tourist attraction. Visitors from all states are flocking in. They have averaged 1,000 a month this summer.

The townsfolk never cashed in before on the fact that one of the most unique events in the nation's political history occurred here. But years, like distance, seem to lend enchantment.

★ ★ ★

A decade ago, Vermont state officials thought something should be done to perpetuate the memory of one of its most famous sons. A move was started to create a Coolidge memorial at Plymouth. The deeding of the homestead is the result.

Mrs. Grace Coolidge, the President's widow, agreed last year to give the little white house on a Plymouth side street to the state, and the Legislature appropriated $12,000 to renovate and restore it to its 1923 appearance.

But Mrs. Coolidge did not live to see the presentation. She died July 8.

Only three persons are still alive who saw Col. John C. Coolidge administer the oath of office. They are Herbert P. Thompson of Pittsfield, Mass., Joseph McInerny of Washington, and this writer.

★ ★ ★

McInerny was the Coolidge chauffeur, since retired from government service.

Thompson, a post office worker in Pittsfield, was a member of the small group which heard of Harding's death and motored from Springfield, Vt., with Porter Dale, then a congressman, later to become senator from Vermont, and this writer, who was then editor of the weekly Springfield Reporter and a correspondent for The Associated Press.

Other reporters — assigned to Coolidge for several days — had been at the scene earlier. But there was only one telephone in Plymouth, and the government had commandeered that, so they had headed elsewhere with their stories of how the household was awakened by a messenger bearing a telegram with news of Harding's death.

When Dale convinced the vice president that he should take the oath immediately, I had an exclusive story and a beat for The AP.

Several days later, I interviewed the President's father, and asked him how he knew he had the necessary constitutional authority to swear in his son—a ceremony usually reserved for the chief justice of the United States.

He was as sparing of speech as his son, and replied: "I didn't know that I couldn't."

And he didn't know, because the Constitution outlines the form of the oath, but does not specify who will administer it.

The "Oath Room" has been restored just as it was on that historic morning There is the table on which Aurora Pierce, the housekeeper, had placed a spotless oil lamp, the only illumination in the room. Also on the table was the open Coolidge family Bible, which was used in the ceremony, and a farm tool catalogue.

In one corner of the room is the old secretary desk on which the President, as a student, had written a prize-winning essay on the causes of the American Revolution.

In the years since, Calvin Coolidge has become a somewhat legendary character. Popular opinion links him to economy, sly wit, shrewdness, and above all, honesty.

★ ★ ★

His eyes could sparkle brightly on occasion, as on the night he become president and maneuvered this 24-year-old newspaperman into paying for a soft drink for Congressman Dale.

We had all gone to the village store to quench our thirst. As we put the empty bottles down on the counter, the man who in a few minutes would be president carefully reached in his pocket, brought out a purse, dug deep in the change compartment. His eyes twinkling, he laid a single nickel beside the bottles.

Congressman Dale and I were both surprised ,but I recovered first and managed to get my dime down to cover the other two drinks.

In the intervening years, many facts of Coolidge's decision to have his father administer the oath have come to light. As a reporter, I think it may have been because he liked to do the unusual, liked to surprise people, and did it with the proverbial tongue in cheek.

Impose Military Rule in Cuba

New U.S. Ambassador Criticized for Remarks on Demonstration

HAVANA (AP)—President Fulgencio Batista's army held Cuba under strict military rule today after an anti-Batista demonstration in the prorebel city of Santiago de Cuba.

★ ★ ★

Comments on the demonstration and the situation in Cuba by Earl E. T. Smith, the new U.S. ambassador, brought a fusillade of criticism from political leaders loyal to the President.

Batista's Cabinet suspended constitutional guarantees for 45 days and immediately directed the army to take control of Santiago, capital of Oriente province and a hotbed of anti-Batista sentiment.

★ ★ ★

A general strike had been called in the city to protest police action in dispersing Wednesday's demonstration. Most places of business were closed, although police forced some food stores to reopen. Port operations were halted and banks were shut down.

A cafe near Santiago that had remained open was hit by gunfire and hand grenades hurled from two automobiles last night.

Police From 2 States Snag Wayward Bus

PROVIDENCE, R.I. (AP) — Massachusetts and Rhode Island police joined forces last night to catch a wayward Greyhound bus which missed a stop and left 29 would-be passengers stranded in brockton, Mass.

When the bus failed to show up In Brockton, state police at Rehoboth, Mass., were notified, but the bus had already passed there. Police at Seekonk ran out on the highway as the bus whizzed by —too late to halt it. Finally a police cruiser caught up with it.

The driver turned around and went 34 miles back to Brockton.

A company official said he was a new man.

The "bald" eagle really isn't. Those few white feathers on top of his head just make him look "bald."

Cow Assists Bees, Farmer Goes Home

BIG RAPIDS, Mich. (AP) — Farmer Frank Green of nearby Morley went out to the pasture to bring in his cow.

As Green neared, the cow kicked over a nest of bees. The bees attacked Green, who began batting them out of the way with his straw hat. The hat slipped out of his hand and fell to the ground. The cow ate it. Green covered his head with his arms and headed for home without the cow.

GI Sends Rickshaw to Stunned Brother

CLEVELAND (INS) — Frank Ellis of Cleveland received a call from the express office informing him there were two packages from Okinawa for him.

Ellis got in his car and drove down to get the packages. When he got there he found the packages weighed 721 pounds and he needed a truck to get them home.

After opening the packages found a handsome two-wheeled rickshaw, Ellis said he was stunned.

The surprise package was from his brother, Marine Sgt. William Ellis, who is stationed on Okinawa. Ellis had promised his relative that on his next trip to the Orient he would ship them a rickshaw.

Everybody forgot the promise but Sgt. Ellis, and his relatives wish he had.

Pakistan has increased rice acreage three per cent this year, Karachi learns.

Resistance Groups Keep Villages Safe

CALCUTTA — Village resistance groups organized to deal with dacoits (Indian bandits), are credited with ending the villagers' feeling of helplessness.

Gone are the days when dacoits used to raid houses after giving advance warning of their coming because they knew they would never be challenged. Resistance groups have killed many of these marauders and now they even are organized to track down criminals.

While women are not members of the resistance groups, many have performed brave deeds. Many village women, who generally are shy and timid, have been enthused to the point of fighting beside their men.

The V.R. movement is credited to H. N. Sircar, Police Inspector-General, who realized that police could not possibly man all the villages.

Plaid cloth is believed to have originated in Egypt.

French Togoland Becoming Modern

LOME, Togoland — French-administered Togoland, recently congratulated by the United Nations General Assembly on its political, economic and social progress, now has 35 labor unions, Lome reports. Its Labor Code provides for the rights to bargain collectively and to strike, for paid vacations and the 40-hour week. About the size of West Virginia, the African country now moving toward self-government is 124 miles wide and 372 miles long.

It is situated between the Gold Togoland, on the west, and Dahomey (French West Africa) on the east. Its inhabitants are more than a million Voltaics, Benins, Ewes and other native ethnic groups. Only about 1,200 Europeans live there. Essentially agricultural, it already has plants to gin cotton, press oil, make soap and treat cassava and copra.

Asia's population ratio averages 77 persons per square mile.

'When Man and Woman Are Both Smart, There's Too Much Talk'

Zest for Life Fills South Americans

By PHYLLIS BATTELLE

NEW YORK (INS) — "Habits," says Maria Antinea, struggling to keep the wide-eyed look under several heavy layers of mascara, "is a wonderful things. I wouldn't chance my habits for nothing in the world.

★ ★ ★

"But however, habits can be very frustrate. Like make you want to go pow! Over the head."

Mme. Antinea was, I believe, talking about the relationship between men and women.

At least that was the question put to her. Why, she had been asked, are her fellow South American women so far behind the women of the United States in assuming independence?

★ ★ ★

Throughout Europe, the female sex is becoming "Americanized" and, more and more, pulling itself up to an equal footing with men. Why not in South America?

IN ANY LANGUAGE

"Oof!" remarked Maria in Spanish. The interpreter explained the word means the same in any language. "Since a little girl I grow up without mentality to beat over man's head. This is habits.

"A South American man likes it this way. If a girl is born too smart, she is not well-seen."

★ ★ ★

Maria Antinea, a long, lithe lady who has just made her debut at the Roxy Theater on Times Square after many years as Argentina's highest salaried dancer-comedienne, thinks maybe North American women have the right idea, from a scientific point of view.

But for sheer joy of living — for the excitement that comes of action, passion, depths and heights of feeling between one sex and the other — you'd have to pick, she claims, the South American way.

"When man and woman are both smart," she says logically, "there is too much talk, talk, talk. Argentinians don't talk so much. They sing and dance and suffer.

★ ★ ★

"All our songs, you say, are sad songs. It's because both woman and man are sentimental, and both are jealous at all times.

"Maybe it's not smart to be jealous — it's frustrate. But when you feel terrible some of the time, you feel that much happy the rest of the time."

HAPPILY MARRIED

Spanish-born Mme. Antinea has been married happily for 16 years to Enrique Kotliarenco, a Chilean impresario who discovered her, starred her and has made a fortune from her talents. But before that, she was married for a "misery" three years to a bullfighter. She describes it:

"He's a hero — nice, very good-lookin'. I suffer very much, because of the woman. He was a lover, like all bullfighters. It was unbearable.

★ ★ ★

"This was real living!"

And if her present husband, a faithful fellow, ever removes his nose from the grindstone and his eyes from Maria?

"This is real dyin'. I die emotionally. He maybe—", the comedienne grins amiably, "—just die."

There's that old South American habit business again.

Glowing Objects Reported in Sky Over West Coast

SAN FRANCISCO (AP) — From southern California to Portland, Ore., from Salt Lake City to the coast, Western skies last night glowed to the light of a hurtling object or objects.

The main one — if there was more than one — appeared to disintegrate over Yreka, Calif., near the Oregon border. It made an explosion heard all over Siskiyou County.

★ ★ ★

Most observers thought it was a meteor. It was seen about 9:30 p.m.

In Eureka, Calif., 250 miles north of here, amateur astronomer William Abbey said the brilliant bluish-green object was traveling north when it disintegrated in the northast section of the sky. That would place it near Yreka, 50 miles in that direction.

★ ★ ★

Abbey said the object was trailing fragments from its red and yellow tail which dropped straight down. Other reports agreed that pieces appeared to fall off and drop straight to earth.

Telephone calls swamped newspapers and radio stations from the Columbia River to south of the Tehachapis and east to the Great Salt Lake.

Woman Claims She Took $96,000 for Horse Betting

CLEVELAND (AP)—Cleveland detectives today investigated the story of a motherly, 46-year-old bookkeeper for a law firm who signed a statement that in the last four years she took $96,000 to bet on the horses.

The woman, Mrs. Louise Madigan, wife of a deputy sheriff and sister of a city detective, said she bet as much as $600 at a time. The wagers went into envelopes marked with the number 1109, and Mrs. Madigan said she would hand the envelopes to a man named Bill, who she met every morning. Detectives said none of of the known bookies in Cleveland match the description she gave.

Investigators expressed doubts about some portions of Mrs. Madigan's story and said it appeared she was covering up for someone.

She was tripped up three weeks ago when she went to three different members of the firm and had each one sign a check for $300, saying the money was needed by another member for a business trip.

She had worked for the firm for nine years.

Has Longest Drought

PHILADELPHIA (AP) — Officials say Greater Philadelphia has had its longest drought in 85 years of record keeping. Weather Bureau statistics which go back to 1872 also indicated the driest July in history for this area. A total of .64 of an inch of rain fell last month. The previous record low was .74 in 1894.

Private Ownership Disappears in China

HONG KONG (AP) — Private ownership has virtually disappeared in Red China, Peiping Radio claimed yesterday in reporting completion last year of a "Socialist transformation plan."

The report said that by the end of 1956, "a year of tremendous change in China's national economy," 92 per cent of all peasant households were in agricultural cooperatives and 90 per cent of all cultivated land was worked collectively.

★ ★ ★

The broadcast added that 98.7 per cent of all industrial output came from state-controlled companies and only 3 per cent of all commercial undertakings were privately owned.

New Treatment for Mentally Ill

Approach Now Permits Greater Freedom, More Normal Lives for Some

WASHINGTON (AP) — The Veterans Administration said that a new approach developed at its hospital in St. Cloud, Minn. has doubled the number of mental patients that can be discharged.

Dr. Jesse F. Casey VA's director of psychiatry and neurology said today that under a two-year-old pilot program at St. Cloud which includes use of foster homes in the community the number of discharges has risen from fewer than 300 a year to about 600.

The new approach involves permitting greater freedom and a more normal life for selected psychiatric patients past the acute stage so as to speed recovery and discharge.

It enables the patients to learn to get along with others again and to acquire the habit of making their own decisions.

"In other words," Casey said "we are trying to develop the mental hospital into a therapeutic community that will prepare recovering patients for the life they will lead outside the hospital."

When the ward patients are ready they go to foster homes.

Only about 10 per cent of those sent to Foster homes have returned for further hospitalization Casey said.

Call to Girl Friend Costs Man a Year in Prison

LOUISVILLE, Ky. (AP) — A talkative man who couldn't resist calling his girl in Denver was sentenced to a year in prison.

Eugene Williams, 21, received the sentence in Criminal Court after pleading guilty to storehouse breaking. He said while he was in an automobile repair shop, he called his girl friend and talked for 71 minutes.

When the owner of the shop received a bill for $32, he informed police, who investigated and arrested Williams.

Brazil comprises about one-half of South America's area.

THE BERRYS

By Carl Gruber

Short, Heat Combine to Electrocute Man

ST. LOUIS (AP)—It was hot—about 94—when Orenza Young, 43, sat down to dinner with his family last night. He had kicked off his shoes and socks and was perspiring heavily.

A floor lamp stood near the dinner table—not near enough to suit Young. He reached out to move it and was electrocuted.

St. Louis County police said a short circuit in the lamp and the moisture on Young's body caused the freak accident.

No One Sings Anymore

Writing Songs More Difficult Today in Age of Listener, Says Irving Berlin

BY JAMES L. KILGALLEN
INS Staff Writer

It's different writing songs today than it was years ago, according to Irving Berlin.

"We're in a mechanical age," the popular composer declared. "In the old days people sang songs. Today most of them only listen."

Berlin, who has written some of the finest romantic ballads ever penned, said it is very difficult to make a success out of a ballad today because so much depends upon records — who sings them and how much "exposure" the song gets to the public.

"In the old days people played the piano and they sang songs," said Berlin. "They loved ballads. They became romantic with them. Songs were a part of their lives.

"I used to write songs for a situation, for the time I was living in. In the 20's, for example, I wrote such songs as 'What'll I Do,'? 'All Alone,' 'Remember,' 'Always,' and 'The Song Is Ended But the Memory Lingers On.'

NOT HITS TODAY

"They were big hits. They became part of the people. I don't know that they would be hits today.

"Today unless you've got something in a show such as 'South Pacific' or 'My Fair Lady' it's hard to make a success out of a romantic ballad.

"Recording companies won't consider an out-and-out ballad. They say, 'Get me something with a beat.'

"Ballads don't have that beat. Occasionally, however, ballads come from Hollywood as a part of a picture and become popular."

Despite the changing times, Berlin still feels the challenge to write good songs.

In his Broadway office, he has a room furnished like the parlor of a home. In one corner is a little piano. Berlin often sits there and taps out tunes.

He has never acquired dexterity at the piano, an instrument he learned to play back in the days when he was a singing waiter.

He can play in only one key: F sharp. By his own admission, F sharp is "the easiest key for a faker and the hardest key for a musician." A lever, which can be set at any desired key, shifts the entire keyboard as Berlin pecks and pounds away. While he taps away at F sharp, the music comes out in C or A sharp.

Berlin has another piano in his apartment home in Manhattan. When an inspiration comes he sits at it and tries out his latest brain child. Nearby is an executive telephone to his office at 51st and Broadway. On the office end is a loud speaker attachment which enables Berlin at his home to transmit his melodies to his arranger in the office.

The busy composer has written songs for the biggest personalities in show business — artists such as Belle Baker, Bert Williams, Eddie Cantor, Al Jolson, Ethel Waters, Florence Mills and Ethel Merman. Younger performers who have successfully introduced Berlin songs include Perry Como, Eddie Fisher and Rosemary Clooney.

Asked to name which one in show business he admired most, Berlin replied:

"It would be difficult for me to choose the one who did the best with my songs.

"I'd say this: Judy Garland and Al Jolson had the same quality in putting emotional appeal into a song. Merman is without a peer in putting over a comedy song. Kate Smith was great. So was Bing Crosby. Oh, I could go on and on . . . "

On Broadway they tell you Berlin is more than a great songwriter. He is a first rate business man. No person, they say, is better versed in the ramifications of the popular song business than Berlin.

They also say he is kind and helpful to fellow artists.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

Baby Born to Clooney

SANTA MONICA, Calif. (AP) — Singer Rosemary Clooney has given birth prematurely to a four-pound son, Gabriel Vincente. The child was expected in October. Miss Clooney, wife of actor Jose Ferrer, was in good condition at St. John's Hospital.

New York Labor Boss Can Be Mild One Moment, Ruthless the Next

Investigators Face Tough Time With Dio

NEW YORK (AP)—A few weeks ago in a General Sessions courtroom in lower Manhattan a jury listened to wiretapped details of a telephone conversation by Johnny Dio. One of the words they heard was an unprintable obscenity.

When court recessed, Dio, convicted later by the jury, rose from his chair and approached the press table.

★ ★ ★

Singling out the two women reporters covering the trial, he explained how the obscenity happened to enter his conversation, apologized for it and said he was sorry it had beset the ladies' ears.

Dio has been married to the same woman for 20 years and their teen-age children, a boy and a girl, attend a parochial school. He is regarded as a family man and a good neighbor to those who live nearby.

★ ★ ★

But underneath this urbane mask is a man hard as steel, ruthless when it comes to shaking down a victim or discouraging an enemy.

Right now in Washington, Dio is the target of the Senate Rackets Committee. The committee has said it intends to call him as a witness. It probably will be a waste of time. Johnny Dio, for all his affability, is not in the habit of exchanging confidences with investigative bodies. He's proved that on more than one occasion.

★ ★ ★

In 1951, Dio muscled his way into Local 102 of the old AFL United Auto Workers. He led a 1952 taxicab strike called by the catch-all local. He became the union's director for the entire New York metropolitan area and the boss of six UAW-AFL locals.

These were the first of Dio's so-called "paper" locals. There was no evidence that they were anything more than a one-man device to put pressure on employers to pay protection money.

★ ★ ★

The UAW-AFL expelled Dio in 1954 and withdrew the charters of his six paper locals. He was doing a 60-day stretch in a city workhouse at the time for evasion of state income taxes.

Dio's next move was in the direction of Jimmy Hoffa, the tough Midwest boss of the powerful Teamsters Union and currently a good bet to succeed Dave Beck as Teamsters president. This union is particularly important in New York, where trucks are a big factor in the city's lifeline of supplies.

★ ★ ★

In 1956, Hoffa set out to seize control of New York's 125,000 Teamsters by replacing Martin T. Lacey as president of the New York Teamsters Joint Council with his own man John J. O'Rourke.

Dist. Atty. Frank S. Hogan said Dio was one of the men to whom Hoffa entrusted the unseating of Lacey.

Dio's paper locals carried the 1956 election for O'Rourke.

On the early morning of April 5, 1956, newspaper labor columnist Victor Riesel was blinded by acid thrown in his face near Lindy's Broadway restaurant.

★ ★ ★

It was the government's contention that Riesel was attacked to intimidate potential witnesses before a federal grand jury probing labor racketeering.

Dio was to have gone to trial last spring. But witnesses against him were stricken suddenly mute. Without their testimony the government had no case and the indictments were shelved indefinitely. The government charged that the witnesses had been silenced by threats.

Bean Crop Loss Faced

CADILLAC (AP) — String bean growers in the Cadillac area say they face a $20,000 crop loss because they cannot get pickers to harvest their crops. The growers say a hot spell has caused the beans to ripen early while most pickers still are harvesting the cherry crop.

Blueberry Festival Set

KALAMAZOO (AP)—The third annual blueberry festival, sponsored by local church groups and the Michigan Blueberry Assn., will be held this weekend at Grand Junction, a small community about 30 miles west of here.

Criticize Report on Tax Refunds

Officials Say Some Rebates Were Given as Long Ago as 1941

WASHINGTON (AP)—Tax officials say some of the tax refunds and credits formally allowed last year may have been paid by the government as long ago as 1941.

★ ★ ★

They gave this explanation after questions were raised concerning a report to Congress two days ago indicating that 27 American corporations had been granted federal tax rebates of more than one million dollars each during 1956.

The congressional document contained a Treasury report on refunds and credits in excess of $100,000 allowed last year.

★ ★ ★

William H. Brown, vice president and treasurer of the American Viscose Corp., termed "misleading and incorrect" a listing that showed his firm received refunds and credits totaling more than 20 million dollars in 1956. Brown said the only such refunds the firm received last year were those totaling 3½ million with interest of $1,800,000. He said these amounts were taken up in the company's accounts in 1956 and reported to shareholders.

★ ★ ★

Edmund W. Pugh Jr., treasurer of the Coca Cola Co., which had been listed as receiving a refund of $8,099,309, said about $7,750,000 of this amount was received in 1945-1946, and was credited to earnings of those years.

Teen-Aged Slayer in Mental Hospital

CORUNNA (AP) — Loren Joseph Fox, the 14-year-old boy who fatally bludgeoned his aged stepuncle, was sent to a mental hospital yesterday.

Shiawassee County Probate Judge Clark Shanahan ordered the youth confined at Pontiac State Hospital until a hearing is held and the question of his mental responsibility settled.

The action was recommended by Dr. David Asselin and Dr. L. C. Cudlum, both of Lansing.

If Loren is eventually judged sane, Shiawassee Prosecutor Jay Terbush said the only charge that could be filed against him is delinquency and if convicted he could be held only until his 19th birthday.

Loren has admitted fatally beating William Bentley, 81, of Perry, last Monday night. He said he wanted to use his step-uncle's automobile.

Bus Policy Same, School Board Says

There will be no change in the Pontiac School System's policy on transporting youngsters to school by bus. Last night the board agreed to pay for the bus service for youngsters living more than a mile, but less than a mile and a half from schools.

The action was necessitated by an act of the Legislature which limited state subsidy for school buses to youngsters living a mile and a half or more from their schools, rather than more than one mile which was the former situation.

In other action, the board authorized its attorney, Harold Dudley, to enter into last minute negotiations with the owners of 15 lots on Franklin road, sought for a school site.

The board had previously instituted condemnation proceedings against the owners and the case opened today in circuit court.

On its attorney's advice, however, the board sought to buy the lots at stipulated figures before a court price was set.

★ ★ ★

The Franklin road site, long a thorn in the board's side, brought a sharp letter from John K. Irwin, local real estate dealer who had attempted to buy the property for the board at appraised prices without success.

Irwin questioned the board's policy of condemnation saying it was based on far too low an appraisal of the land. He said the board, in his opinion, was unfair in seeking condemnation because many of the lot owners could not afford counsel and would not properly defend their interests in court.

Irwin charged that the board had purchased a large piece of property recently at a "highly inflated purchase price, in comparison with the appraisal prices on adjacent parcels" and this constituted "gross discrimination."

★ ★ ★

In other action, the board approved a wage scale for its 11 maintenance men with the provision that the wage issue with them can be opened later in the school year if a current study of job classifications and rates is completed.

The study is snagged by disagreement between the maintenance men and the much larger custodian union which is satisfied with existing wages and classifications, Assistant Superintendent Otto Hufziger reported.

The board also authorized the superintendent to seek applicants for the jobs of assistant superintendent, personnel director and education coordinator. These posts will be filled upon the retirement of Assistant Superintendent Cecil Cox on Sept. 1. Several plans to reorganize the administration setup were discussed.

The superintendent was also authorized to negotiate with the teachers for a change in the 1957-58 school calendar to lengthen the Easter vacation period, while still maintaining a 40 week school year.

The board awarded a sewer contract for the Malkim School to the Ray D. Baker Co., for $3,758. It will tie the school, now using a septic tank, into a new city sewer line.

It also received a communication from the Oakland County Drain Commission promising to drain a swamp on the Whitfield School site in about 18 months.

Other board action included an approval of a County Road Commission estimate to build a gravel road along side the Hammond Lake school site. This road, Maplewood, from Sunset Drive to Square Lake boulevard, will cost about $3,342 and will permit the closing of Hickory and Appoline avenues, giving the site an additional acre of land.

The superintendent was given permission by the board to secure a 60 day option on a lot at 132 Washington for use as a high school parking lot. Two houses on the site would be razed.

The board named Horton Southworth, principal of Crofoot School, as principal of the Bailey School as well. Bailey was formerly headed by the late Agnes Cox.

Injured Pedestrian Dies

DETROIT (AP)—George McElcar, 37, of Livonia, died Thursday of injuries suffered in Romulus Township July 18 when he was struck by one car and run over by another. Sheriff's officers said McElcar was attempting to walk across Middlebelt road near Lorman.

Violet Sharp to Wed

NEW HUDSON—Mr. and Mrs. Dwight Sharp of 29200 Smith Rd., announce the engagement of their daughter, Violet, to George Corkins of Howell. He is the son of Mr. and Mrs. William Corkins. No date has been set for the wedding.

Beneath Detroit there are salt deposits 1,130 feet deep which are estimated to be 300 million years old says the National Geographic Society.

Cross Offense for Christians

Capacity Crowd Hears Evangelist Graham Tell of Its Challenge

NEW YORK (AP) — Evangelist Billy Graham says the cross of Christ is an offense—a challenge to complacency—to every true Christian.

Graham told a capacity audience at Madison Square Garden last night:

★ ★ ★

"The cross is used as a symbol, as an ornament worn around the neck sentimentally, but the Bible teaches that the cross was an offense. . .

"The Apostle Paul found the cross an offense and a stumbling block—so it must always be to every true follower of Jesus."

The evangelist said Paul found the cross an offense in four main particulars. He listed them as:

★ ★ ★

"Because it shows man's sin compared to the purity of Christ . . . The cross has come down through the centuries passing its judgment on hate, lust and pride. Men cringe, melt and run away when it throws its blaze of holy light into the dark places of their sin.

"Because the blood was shed there.

"Because it sets forth the imperative ideal of life.

"Finally, the cross is an offense because it claims to be the power of God unto salvation. It humbles us, it demands much of us, and it condemns any other way to salvation."

At Graham's invitation, 490 persons came forward and made "decisions for Christ."

Graham used texts from Isaiah 53:3 and Galatians 5:11 in his sermon.

Homes, Fields Burn in California Area

LOS ANGELES (AP) — A leapfrogging brush fire believed started by juveniles burned 12 homes and blackened 500 acres in the Mount Washington area of suburban Highland Park.

The fire, one of three in southern California, was brought under control late yesterday. Mop-up crews were hampered by a lack of water pressure, and were forced to use water tankers to curb the flames.

Two other fires, one in Beverly Glen and Benedict Canyons in the Hollywood Hills, and the other in Brea Canyon west of Pomona also were contained.

Pontiac Receives Pair of Traffic Safety Awards

Pontiac received a pair of traffic safety awards yesterday from the National Safety Council for its work in school traffic safety education and in traffic courts.

Sgt. Michael Sibal of the Michigan State Police represented the council and made the awards to Mayor William W. Donaldson.

Following the presentation, Sgt. Sibal presented and analyzed the annual inventory of traffic safety activities, a statistical study of 1956 traffic and traffic control work in Pontiac.

A total of 37 persons, "excellent turnout" said Sgt. Sibal, were present for the presentations and discussion.

Curbing drunk drivers was the main topic of discussion during the presentation of the report.

Postal Workers Pray for Bill

Seek 'Divine Guidance' for Legislation to Hike Their Pay

By THE ASSOCIATED PRESS

Postal workers — honor bound not to strike—held prayer meetings throughout the nation yesterday, seeking "divine guidance" for a bill pending in Congress which would raise their pay.

The House has passed a bill to add $546 a year to the $4,340 average salary of the nation's 518,000 postal workers. The bill is awaiting action in the Senate.

President Eisenhower strongly opposes the bill in its present form.

In Minneapolis, more than 1,000 workers held an early morning "pause for prayer" meeting. Dr. John B. Oman of Wesley Methodist Church urged the government to "lift the level of living for these public servants who serve so faithfully." Also leading prayers at the Minneapolis meeting was Rabbi Lewis N. Ginsburg.

★ ★ ★

In New York City, 200 off-duty postmen attended an outdoor meeting to pray that the President would not veto the bill. Prayers were led by the Rev. William Hohenschild, a guest preacher at Holy Trinity Protestant Episcopal Church in Manhattan.

Find 1 Dead, 1 Hurt in Car Wreckage

A Royal Oak man was found dead and his companion, injured in the wreckage of their car at about 5:25 this morning on M53, two and one-half miles north of Burnside, in Lapeer County.

Dead was James T. Davis, 21, of 827 E. Fifth St., Royal Oak, driver of the car. Coroner Lyle Riddell said Davis had suffered a fractured skull and neck.

Edgar H. Burgess, 27, of 1010 La Prairie, Ferndale, owner of the vehicle, was listed in "fair" condition at Mariette Community Hospital with wrist and back injuries. He told officials he and Davis were going north to Kinde for the weekend when the accident occurred.

Senate Takes Up Bill for Extension of SBA

WASHINGTON (INS)—The Senate will take up a bill today extending the Small Business Administration for another year.

Agreement was reached last night to interrupt the civil rights debate long enough to vote authority for the SBA to stay in business.

The agency, which makes emergency government disaster loans, technically went out of operation at midnight Wednesday when its spending authorization expired.

The 1,200 employes were kept on the job yesterday. But activities were ordered curtailed by Administrator Wendell Barnes.

The number of people working on farms in California is approximately 585,600.

Book Dishes Out Facts on Fads—Puts Whammy on Food Wackiness

By GAYNOR MADDOX

NEW YORK (NEA) — Many Americans not only eat too much. They also overstuff themselves with food superstitions that waste their money, threaten their health and block scientifically sound nutrition, according to a group of leading American nutritionists.

Myths like "cucumbers and watermelon cause polio" is one example, they say. Another gem of hopeful self-deception is that oysters, raw eggs, lean meat and olives increase sexual potency.

Alas, not true, the cold-blooded scientists reply. These foods do contribute to good health, they admit, but do NOT have other special properties.

★ ★ ★

The American Dietetic Association, top nutritional watchdog of the American menu, has just made a frontal attack on gastronomic nonsense. After years of research, it publishes this month a salvo of scientific facts to shatter myths, superstitions and advertisers' claims that are false, dangerous or just plain wacky.

Titled "Food Facts Talk Back," the association's scrupulously edited book puts the bite on such other lulus as "fish and celery are brain foods," "raw potatoes cause pinworms," "milk is constipating," and "water is fattening."

The American Dietetic Association membership includes many of the country's most highly accredited dieticians, nutritionists and medical researchers, most of them with long experience in leading hospitals.

Its national food misinformation committee is cooperating with affiliated state associations and allied health groups in a nationwide drive to smoke out superstitions and ignorance that are holding back the country's nutritional advance.

★ ★ ★

Its work is based not only on its own extensive researches but also on those of the bureau of investigation of the American Medical Association, the Institute of Home Economics of the U. S. Department of Agriculture, the Federal Pure Food and Drug Administration and the Federal Trade Commission.

The committee's debunking book states first the fallacy, then punctures it with the fact. For example: "Certain foods taken during pregnancy 'mark' the child." That's the fallacy.

The fact: the statement has no scientific value. No particular food eaten during pregnancy will have a harmful effect on the baby.

Another favorite fallacy; cravings for certain foods mean the body needs them. The fact is that cravings for certain foods do not represent need for them but rather reflect the associations people have for certain foods.

Take this gem of superstition which many people in this age of hydrogen bombs still believe: if you "can" foods during pregnancy, the jars will burst. "Just a superstition without basis in fact," answers the association.

The passion for losing weight overnight has bred a whole flock of food insanities. For instance, many people believe that toast has fewer calories than bread. Just 'taint so, ladies.

The scientific sleuths reply that toast is no more than bread that has been dried and browned. Only the water content has been decreased. Those little ol' calories are right there where they always were.

Sugar is not as fattening as starch is another conviction. Don't kid yourself — or words to that effect but more dignified — come from the committee striving to set the record straight. Weight for weight, they assert, sugar and starch have essentially the same caloric value.

★ ★ ★

Here are other misconceptions the association has proved wrong: sour cream contains fewer calories than sweet cream; milk should never be given to a fever patient; chalk is added to homogenized milk; drinking ice water causes heart trouble; wine makes blood; uncolored soda-pop contains no calories, and all meat is fattening.

The American Dietetic Association's misinformation committee reminds Americans that magical properties have been attributed to foods by people from the earliest times.

Despite the dramatic development of nutrition and medicine in our time, we still have a mass of harmful, costly and very silly superstitions to overcome.

★ ★ ★

"For every food fallacy, for every overrated health food, for every rage, vogue or fad diet, there is a corrective fact, compounded of scientific information and just plain horse sense," they say.

Gasoline Used on Farms

OKLAHOMA CITY — Approximately one-fourth of all the gasoline used in the United States is consumed on the farms.

New Challenge: Do a Man's Job a Woman's Way

HESPERIA (AP)—Ann L. Becker has accomplished a lot of things. She has served in administrative jobs and worked for the Red Cross, but her latest challenge is doing a man's job a woman's way.

For two years, since her father died, Miss Becker has been running — alone — a 400-acre farm stocked with 90 head of shorthorn beef cattle and fruit trees.

★ ★ ★

Using the latest in modern equipment, Miss Becker keeps almost 200 of the 275 acres of tillable soil under cultivation. She hires outside help only when much work must be done in a hurry — like picking fruit.

But her activities don't stop there. She teaches half-day physical education classes three days a week at the Hesperia School. "I needed the diversion from farming," she says.

Miss Becker's background has been one of varied activities. She served as director of recreation in World War II.

She later joined the staff of the American Red Cross in Washington, serving as assistant director of employment in charge of recruiting for overseas service. In 1943 she spent 18 months in North Africa, Italy, Sicily, Corsica and France as associate director of personnel.

Since 1945 she has devoted her time to farming.

Hold Apartment House Builders After Quake

MEXICO CITY (AP)—Police are holding four men involved in construction of an apartment house that collapsed during last Sunday's earthquake, killing 33 persons.

Official reports today listed the 53rd earthquake fatality in the federal district here, a man who had been injured by a falling wall. Fourteen other persons were killed elsewhere in Mexico.

The city government ordered the four held for investigation and asked expert analysis of materials in the building ruins to see if they were up to specifications.

Money Is Now at $1,900 Level for Pot-O-Gold

Another week without a winner means another $100 is dropped into Pot-O-Gold. This brings the total to $1,900 unless a winner is found in last week's entries. Better not waste a minute in getting your solution started—it would be very disappointing to miss out on all that money because you waited too long.

The new puzzle contains a series of squares which are alphabetically lettered and a corresponding list of sentences with two clue words. Each of the words is numbered. The object is to select the word which you think best fits the clue sentence. You then place the number of that word in the square which has the same letter as the clue sentence.

In other words, you will read the clue, labeled A and decide which of the two words makes the most sense in the sentence. You then write the number of that word in the puzzle square marked A.

Do the same with all other squares. Read all the clues carefully and be sure the right numbers are in the right squares.

OFFICIAL CONTEST RULES

1. Anyone is eligible to enter the POT-O-GOLD contest with the exception of Pontiac Press employes or their immediate families.

2. Entries must be on official entry blanks printed in this newspaper.

3. To submit an enry the contestant must print his answers in the proper spaces, cut out the area enclosed by dotted lines and attach it securly to a 2-cent postcard. No entries will be accepted if they are in envelopes. Entries for Puzzle No. 61 must bear a Tuesday, Aug. 6 postmark (or before). No entries received after that time whether mailed or delivered by hand, will be declared eligible. The Press is not responsible for entries lost or delayed in the mail.

4. Sorry, telephone calls or mail concerning details of the contest cannot be answered or acknowledged.

5. The Pontiac Press will award a cash prize of $100 a week to the winner of each weekly POT-O-GOLD contest. If more than one winning answer is received the prize will be divided equally among the winners. If any week or weeks should pass without any winners, the prize will be added weekly until a winning solution is submitted.

6. Winners will be awarded an extra cash bonus of $25 each if they are Pontiac Press subscribers of record on the day winners are announced. Only one such bonus can be awarded to each prize-winner no matter how many weekly prizes may accumulate.

7. Each week's puzzle will be published Monday, Wednesday and Friday until the contest's end. Either or all will be considered as official entry blanks.

8. Winners and correct solutions will be announced each Friday of the week following individual contests. Official keeper of answers will be Frederick C. Ziem, prosecutor for Oakland County. Only the General Features Corp., originators of the puzzles, will know the solutions until after each contest is over. Answers will be delivered to the Press judges by Mr. Ziem after the final deadline.

9. There is only one correct solution to the POT-O-GOLD puzzle, and only that correct answer can win. The decision of the judges is final and all contestants agree to abide by the judges' decision. All entries becoming the property of The Pontiac Press and none can be returned.

10. Completed puzzles must be addressed to POT-O-GOLD, POST OFFICE BOX 58, Pontiac, Michigan. Winners will be notified either by telephone or in the mails.

These Puzzle Answers Right

The following are correct answers and explanations for the Pot-O-Gold puzzle which appeared in last week's Pontiac Press.

A. (2) **GUSTS.** It is usually possible to close the doors of children's rooms so that noisy guests would not be heard. It is hard to shut out the frightening sound of noisy GUSTS of wind.

B. (4) **POODLE.** The owners would finally stop the search for a stolen POODLE. **Boodle** is money fraudulently obtained in public service, more in the nature of a rake-off, or dishonest commissions etc., probably a continuing affair with the money being spent as the crooked official received it.

C. (5) **CHASTE.** Many women prefer their silver in a simple, not ornate, design. This could include some simple patterns that were also **Chased**, decorated by tooling with modest scroll work or lines.

D. (8) **RELEGATED.** RELEGATED to a minor committee carries the suggestion of being shunted aside. RELEGATED, as an affront to the boss's sense of importance, is better than **delegated**, or merely assigned to the committee, in view of the clue word "indignant."

E. (9) **TENDON. Tension** can often be relieved, by relaxing exercises, reading, bathing, etc. A TENDON is fibrous tissue such as in the joints; if irritated or inflamed, TENDONS can cause great pain and prevent sleep.

F. (11) **PROWLING.** If someone or something is roaming stealthily outside a summer camp in the woods, the campers would be uneasy. It might be a tramp as well as an animal. A **Growling** animal is not too likely to venture into the camp site; he may be just as afraid of humans as they are of him.

G. (13) **AVAILABLE.** If the prosecution has access to the defendant's past record, their investigations can be more thorough—interviewing his old friends and associates, for background material. If his past is **Assailable**—open to censure—it may effect the judge's sentence, but the jurors in the case are supposed to ignore it; he is being tried only for his current offense.

H. (16) **CONCEIT.** Certainly if the boss disliked the employe's **Concept**, or idea, for a grandiose advertising campaign, he would turn it down. He "may"—as the clue says—turn it down if the man were too self-important, and the boss disliked his Conceit.

I. (18) **DIVERSE.** Differences of opinion, freely expressed, are one of the blessings of democracy. **Divers** means more than one, but not many, and there are certainly many differences of opinion among free peoples.

J. (19) **PLUNGE.** A dive, or leap, is the word for a man jumping off a bridge railing. A **Lunge** is a sudden movement forward, rather than downward.

K. (21) **VENTURE.** After years of neglecting his teeth, a man visiting the dentist may find that he's in for a very expensive enterprise, or unexpected contingency, whether the VENTURE requires many fillings, or a whole set of teeth—a **Denture.**

L. (24) **SAMPLE.** A SAMPLE room, to show his merchandise, is often reserved by a traveling salesman in a hotel. He is not usually traveling with such bulky products that **Ample** room is needed, merely a small SAMPLE room where he can show his jewelry, or novelties, etc.

M. (25) **THICKET.** A dense growth of trees or shrubs makes an effective screen for a fugitive, who can burrow into the center of it. It is not enough that, farther into the woods, the growth is Thicker; it must be solid, like a THICKET, in order to hide him.

N. (28) **SERVE.** Whether the pedestrian must **Swerve** (turn sharply) or not, he would still SERVE, or manage—in the context given—to rescue the child from an oncoming car.

O. (30) **ECONOMICS.** A government that is in the red needs a better understanding of ECONOMICS—the science of the production and distribution of goods and services. **Economies**—paring down expenses—comes under this also.

P. (32) **SHEEN.** A material that has a lot of luster is full of highlights, which are likely to make a fat woman seem fatter. **Shine** might be the sparkle of sequins, or a beaded fabric, and need not be an over-all pattern but just in the right places.

Q. (33) **ODDLY.** Many people idly watch a fire, but an arsonist is likely to give himself away by watching it ODDLY, with, for instance, a peculiar enthusiasm.

R. (35) **QUAVERING.** A little old lady's voice, appealing for help might have a tremulous sound. Quivering applies to a person rather better than to a voice; the person would be shaking, or trembling.

S. (38) **PERSUASIVE.** The opinions of a strong-minded boss might not be **Pervasive** throughout the firm—that is, they might not spread down to the underlings. But they would be PERSUASIVE and influence the actions of every employe.

T. (39) **BASEMENT.** A BASEMENT window would not require so experienced or so neat a job of replacing glass as a **casement** window, presumably in the living quarters of the house.

Legislative Committee Opens Probe of Schools

LANSING (AP) — Corporations, foundations and any other interested party will be asked soon for contributions to what legislators hope will be a sweeping investigation of Michigan's education problems.

A joint committee of the House and Senate set up to look into school matters agreed yesterday their $10,000 budget was hardly adequate for the scope of their undertaking.

The resolution authorizing the survey calls for studies of the state school aid formula, local school taxes, school needs, and a score of related matters.

"The sky's the limit and that's where I hope we can go," said Rep. Frank D. Williams (D-Detroit), a committee member, at the group's initial meeting. "We ought to get every possible fact we can get about cost, value extent and purpose of education."

Costs of education, he added, is a problem that will increasingly concern the average citizen in the years ahead.

TAX OUT OF STATE

"By 1970, the way things are going, we are going to tax everybody, including the citizen, out of the state unless we can meet these problems," he declared. "Corporations ought to be willing to contribute to this cause because they're vitally concerned with it as major taxpayers."

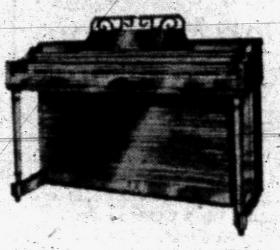

Sen. Arthur Dehmel (R-Unionville), elected committee chairman, said his 10-man group would ask the citizens research council, a private, non-profit organization, to aid in the study.

He said it also would call upon R. S. Schreiber, of Kalamazoo, finance committee chairman of the commissioner on educational policies set up by the department of Public Instruction, to furnish the committee with additional facts. Schreiber's group has been in operation some 18 months.

The committee also talked of asking prominent citizens to serve on an advisory committee.

PIANOS to LOAN

TO SAVE STORAGE CHARGES

We have a large number of pianos that we must move or put in storage. All styles in light or dark woods that we will loan to responsible families. Husband and wife must make selection together. You sign no agreement to buy. All you pay is the normal cartage. We reserve the right to select the homes in which the pianos will be placed. Come in today or tomorrow.

Daughter Visits McCullochs

Vacations, House Guests Highlight Personal News

Arriving Monday to visit her mother, Mrs. H. E. McCulloch of Silverhill road, was Mrs. Palmer Still and her children, Donald, Russell, Gregory and Barbara Jean, of St. Louis, Mo.

Mr. Still and his mother, Mrs. Clyde B. Still, also of St. Louis, will join them soon for traveling to Boston, Mass.

★ ★ ★

Mrs. Robert Hutton Jr. of San Antonio, Tex., is visiting her parents, Mr. and Mrs. Gordon McLeod of Old Orchard drive. Lieutenant Hutton will join his wife later.

★ ★ ★

Mrs. Helen McDougall of Ramona Terrace has had, as her houseguests, Mrs. Alene Teel and Frances Hirlinger from Booneville, Mo., for the past week.

★ ★ ★

Brenda Lewis and her family are enjoying a vacation on the West Coast. Brenda is the daughter of Mr. and Mrs. Philip A. Lewis of Hatchery road.

★ ★ ★

Ora Hallenbeck of Auburn avenue is on a trip to Washington, D. C., where she will attend the northeast regional meeting of the Delta Kappa Gamma Society as a representative of the local Chapter XI.

She is accompanied by Winifred Wells of Upsilon Chapter of Charlotte. Before returning home they will tour Pennsylvania.

★ ★ ★

Leaving yesterday for their home in New Hartford, N. Y., were Mr. and Mrs. Alvin Schneider who have been guests the past week at the home of Mr. and Mrs. Oscar Schmidt of Utica road. Mrs. Schneider is a sister of Mr. Schmidt.

★ ★ ★

The Rev. and Mrs. Wesley C. Wibley and son, John, of Edison street, will leave Monday for their cottage on Houghton Lake, where they will spend several weeks.

★ ★ ★

Marlene S. Wilton, daughter of Mr. and Mrs. Roy W. Wilton of Oriole road, has completed her stewardess training. She now serves on flights in and out of Washington, D. C.

She is a graduate of Pontiac High School and attended Central Michigan College.

★ ★ ★

Twin daughters, Lori Dawn and Lisa Marie, were born to Mr. and Mrs. Robert C. Costello of LeGrande avenue July 19 at St. Joseph Mercy Hospital.

Grandparents of the infants are Mr. and Mrs. James L. Chipman of Clarkston and Mr. and Mrs. Chauncey Costello of Hillside drive.

Delaware Furnishes Leadership

Two Top Clubs in Capital Guided by Senators' Wives

By JANE EADS

WASHINGTON — Little Delaware has taken over the spotlight from big Texas this year in providing presidents for two of the top clubs for congressional wives.

Mrs. John Williams, wife of the Republican senator from Delaware, is president of the Congressional Club, which this year celebrates its 50th anniversary.

Mrs. J. Allen Frear, wife of the Democratic senator from Delaware, is the new president of the Women's National Democratic Club.

Last year two Texans headed the clubs. Mrs. Omar Burleson, wife of the Democratic congressman, piloted the activities of the Congressional Club. Mrs. Mastin G. White, wife of one of the commissioners of the U. S. Court of Claims, was president of the Women's National Democratic Club.

AMBITIOUS PLANS

Mrs. Williams and Mrs. Frear both have already lined up ambitious programs for the year ahead.

★ ★ ★

Mrs. Williams calls hers the "golden year." Plans include a "Golden Anniversary" breakfast in the spring, with Mamie Eisenhower as honor guest, a Friday afternoon program built around "50 years ago" with costumes, exhibits, skits, slogans and songs, and a brunch for Mrs. Albert Carter, wife of a former California congressman who helped get the club into business back in 1908.

BIG LUNCHEON

Mrs. Williams, who is spending the summer at Rehoboth Beach, Del., is entertaining committee members at her resort residence while planning the activities for the season, which she says will begin with a big luncheon at the club's handsome headquarters here Jan. 9.

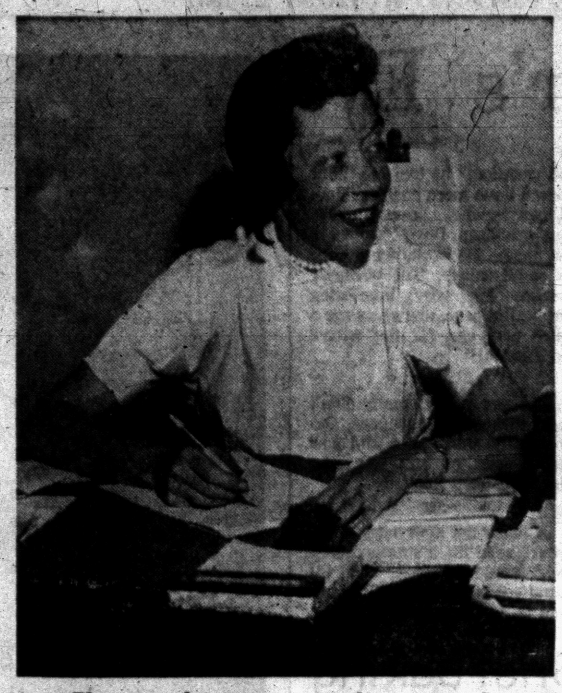

★ ★ ★

Probably next on the calendar of the club, which was set up by an act of Congress in 1902, and boasts an active membership of more than 500, will be the traditional welcoming reception for new members of Congress.

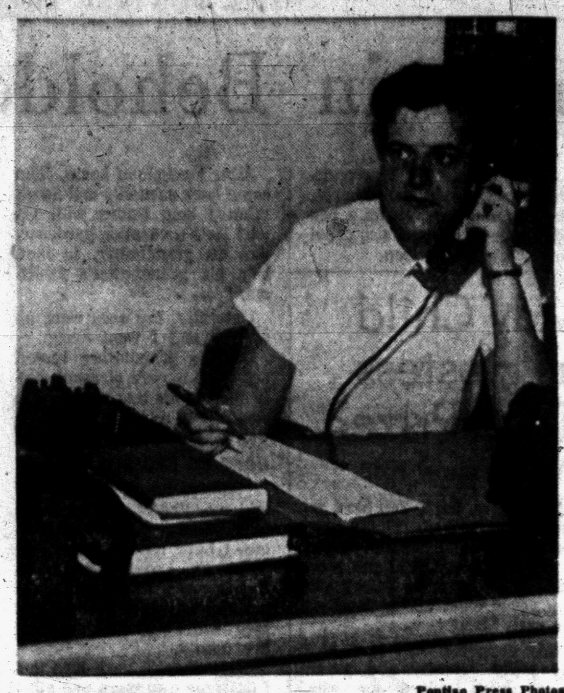

The golden theme will be carried out in detail throughout the Congressional Club year. Even the membership listing and program booklet will be golden.

A NEW COVER

The cookbook with the members' favorite recipes printed in their own handwriting, a big money-raiser for club coffers, will be the same as this year's but will have a new cover and an inside page dedicated to the anniversary and the history of the club.

The complaint report policewoman Bernice Berger is writing up can't be too serious, judging from the smile on her face. Miss Berger is one-half of Pontiac's policewoman force.

Pontiac Press Photos

Sitting at her desk in the Pontiac Police Building is Patricia Sweeney. As a policewoman she spends part of her day processing complaints which the department receives.

Pontiac's 2 Busy Policewomen Have Big Job, Plenty Surprises

By GRETTA PORTER

Two of the city's busiest under-publicized women make their headquarters in a small basement office at Pontiac Police Station.

If you've never met a policewoman, come with us as we visit with Patricia Sweeney and Bernice Berger.

Our first stop is Inspector Clark Wheaton's office. He doesn't hesitate to describe how overworked Pat and Bernice are, before giving directions on how to reach their office.

★ ★ ★

As we walk into the small office of the policewomen, a tall statuesque brunette (Miss Sweeney) stands at the filing cabinet. Her petite blonde colleague (Miss Berger) is sitting at a desk writing a complaint report.

Pat Sweeney, who has been with the force for five years, was graduated from MSU with a bachelor's degree in psychology. Bernice Berger, who graduated from the University of Michigan with a B.A. in English, has been with the Pontiac Police Department 10 years.

★ ★ ★

Pontiac's policewomen, who are hired at the rank of sergeant, officially work with women and boys under 10. They handle cases of women who fight with other women, missing women, shoplifters and so forth. In reality, however, they also handle cases which involve men and teenage boys who commit crimes against women.

The two are on 24-hour call but are called during off-hours usually for advice or in emergency situations.

They take complaints from private citizens, agencies, police officers of juvenile court. Then the case is investigated with the policewomen using any available sources of information to determine, for instance, if a child is being neglected. If so, a petition for action is filed with the juvenile court.

WORK WITH FAMILIES

Miss Berger pointed out that "We work hand-in-hand with the family. Primary incentive should come from the family. However, the child's problem often lies with the parents."

"Not only do we handle neglected children's cases, but neglected old people often come to our attention. Sometimes they have children who won't or can't help them. In such cases," said Miss Sweeney, "we try to get the old people a decent home, a pension, or a place in the convalescent hospital or state hospital.

"Right now," she declared, "neglect cases account for the greatest number of complaints we receive."

Sometimes Pontiac's policewomen receive calls from families of mentally disturbed people. Usually they want some advice or help in taking a violent patient to the hospital. Or perhaps, if a family wants other aid the police try to locate the proper agency.

Both women emphasized the fact that they work WITH the family often through family agencies, perhaps the Family Service Center of Pontiac Child Guidance.

Lest the job of policewoman sound always routine, let us assure you it is not. Miss Berger tells of the time that "a police captain received a picture of a man and woman. Without looking at them closely he turned the woman's picture over to me and, I unknowingly, promptly went out looking for a murderess escaped from the Ohio Penitentiary! I would have been in for a big surprise had I found her!" exclaimed the tiny blonde.

Although Miss Sweeney carries a gun and must qualify once a month in target practice, she carries the weapon only for her own protection and not as a threat or to frighten people with whom she deals.

We went to the police station with the mistaken idea that every moment of a policewoman's day is filled with excitement and adventure. When we left, however, we realized that there is routine here, just as in any job, but even the most routinized task that policewomen perform is necessary and important.

Fashions Demure by Day but Reckless in Evening

PARIS (INS) — Christian Dior, Paris fashion dictator, has proclaimed his '57 decree: Women are to be waistless and "spindle" shaped for daytime, but busty and daring at night.

The Dior look for daytime hides all curves in nun-like black costumes based on a weaver's shuttle — narrow at top and bottom and wide in the middle.

★ ★ ★

But his evening dresses feature tightly molded bodices with heart and V-shaped necklines plunging as low as a modicum of modesty will allow.

HEM AT MID-CALF

Dior surprised everybody by turning conservative on hemlines, which fell to a mid-calf length of 14 inches off the floor.

The lean spindle dresses are daring in fashion if not in the matter of featuring feminine curves. They are often straight and unbelted, worn chemise style under fatter coats with sloping kimono shoulders and barrel-shaped hems.

Other spindle dresses boast long torsos, thanks to overblouse or sarong drape effects on skirt fronts.

★ ★ ★

The Dior dresses for evening wear are romantic, revealing and 18th Century-inspired. The tight bodice not only accents the bosom, but also stresses the crinoline - stuffed wide skirts for hip emphasis.

For the tops in sexy and luxurious looks, Dior has created an evening gown in black velvet with brown mink edging on the heart-shaped neckline of a strapless.

LIKE PERIOD GOWNS

Like the period gowns which inspired them, many of the Dior dresses have long, narrow sleeves, necklines that are scooped way out and well-rounded skirts with handsome embroidery and brocade.

Hats match coat or suit fabric for daytime, while birds of paradise and ostrich plumes stick up from evening hats. The Dior-sponsored hairdo is a small chignon worn on the top of the head or twisted like a snail shell. Shoes are narrow and needle-pointed.

★ ★ ★

For even more glamor, you can copy designer Carven and spotlight legs in "golden stockings" which make a girl's gams look like they've been sprinkled with sparkling gold powder. Carven created gold brocade and lame dance dresses 17 inches off the floor to show off the leg look.

Nancy Welch Reveals Names of Attendants

Nancy Welch, bride-elect of Thomas Berry, announces attendants for her Sept. 14 wedding at Central Methodist Church.

★ ★ ★

Janet Hudson will be maid of honor, and other attendants will be Mrs. Jack Opie, Mrs. Richard C. Smith of Ferndale and Mrs. Gerald Bauer.

Nancy's parents are Mr. and Mrs. Ray E. Welch of Silver Lake road, and Mr. and Mrs. Wayne Berry of Ferndale are parents of Thomas.

★ ★ ★

Mrs. Hudson and her daughter, Janet, were hostesses for a recent shower honoring the bride-elect at their home on West Walton boulevard.

MARCIA LAUCKS

Mrs. Catherine Niles of East Tennyson avenue announces the engagement and approaching marriage of her daughter, Marcia Laucks, to Stanley Drapek. The prospective bridegroom is the son of Mrs. Pauline Drapek of Northview court.

Trips, Parties Spark Birmingham Events

BIRMINGHAM — Bride-elect Joanne Pedder, who will be married Sept. 7 to William Fox of Wilmette, Ill., will be honored at a luncheon Wednesday. Hostesses will be Mrs. Thomas C. Yarnall, Mrs. F. E. McDonald and Mrs. J. Donald McKay.

Away for a summer vacation are Mr. and Mrs. Dwight L. Dickinson and their two children. They are at Menonaqua Beach Club near Harbor Springs for a fortnight.

Other Birmingham residents in the Little Traverse Bay area are Mrs. Mildred Ibsen and her daughter, Mrs. William Tracy of Naples, Fla., and her small son, Bill.

They will be at Roaring Brook for another three weeks.

★ ★ ★

Mrs. Dorothy K. Roosevelt will spend the rest of the summer in the West. She is at present attending a music school at Apsen, Colo., and will go from there to San Francisco where she will visit her son-in-law and daughter, Mr. and Mrs. Agar Jaicks.

She will visit another son-in-law and daughter, Mr. and Mrs. Donald Walker in Bellingham, Wash. before returning home.

DIEHLS RETURN

Mr. and Mrs. Lloyd Diehl Jr. have returned from Charlevoix where they visited three daughters, Cynthia, Susan and Julie, who are attending Camp Tawamana near there.

The Diehls are planning to spend this weekend near Lost Lake.

Mr. and Mrs. Alan Thistle have returned to their home in Honolulu after many visits. They spent a fortnight with Mrs. Thistle's brother and sister-in-law, the Waldemar H. Adams of Pilgrim road.

★ ★ ★

Mrs. J. R. Ackerman has returned to her home on Colonial court from a visit in Webster Groves, Mo., with her son and daughter-in-law, Mr. and Mrs. Holt Ackerman.

Mr. and Mrs. Thomas H. Adams will be hosts at luncheon Saturday before the wedding of Linda Miller and John C. Colwell of Flint.

Attending will be members of the wedding party and out-of-town guests.

Dr. and Mrs. Clifford W. Colwell of Flint, parents of the bridegroom-elect, will give the rehearsal dinner this evening at Oakland Hills Country Club.

★ ★ ★

Mr. and Mrs. Otis Thompson have returned from a visit with Mr. and Mrs. George R. Squibb at their summer home Wequetonsing.

Frills Are New Trend in Curtains

NEW YORK (INS) — Even Sherlock Holmes would have a tough time solving the "Case of the Tailored Curtains," since they have disappeared mysteriously from the latest decorating trends.

Instead the interior decor-conscious woman is presented with tricky edging prints appliques and flocking.

DACRON MARQUISITE

The favorite fabric these days is dacron marquisite for sheer and shape-holding window decoration. Next in line is dacron ninons less sheer, softer but just as easy to care for.

★ ★ ★

The style notes are around the edges—and beautified borders they certainly are. Not content with fancy frameworks the curtain designers have combined them with printed curtains for a real flowergarden print.

Cut edges include scalloping combined with pastol printing; scalloping and single flower print along the border of another is combined with a stylized bouquet print of delicate blossoms.

CABBAGE ROSES

Another new pattern is made up of flocked cabbage roses, buds and blossoms surrounding an almost plain body of curtain. Appliques come into the picture for picture windows by way of a medallion-shaped floral border on a wide repeat flocked curtain.

★ ★ ★

The nearest thing to a tailored curtain is one with small scallops along the edge and a graduated coin pattern on the body of the curtain.

Shower Fetes Betty Jilbert

Bride-elect Betty Joan Jilbert was the honored guest Tuesday evening at a miscellaneous shower given by Mrs. Ellis E. Gray of Detroit. Thirty-three guests were present.

Miss Jilbert will become the bride of Glenn A. Simpson on Sept. 14. She is the daughter of Mr. and Mrs. W. Douglas Jilbert of Judson street. Mr. and Mrs. Albert M. Simpson of Osceola drive are the prospective bridegroom's parents.

Club Sets Camp-Out

Merry Mixer Square Dance Club members and their families are planning a camp-out at Gallup Park, Port Austin, this weekend. A camping area has been reserved for the group in the park. Square dancing in the park's pavilion is slated for Saturday evening.

Spindle Shape Is New Look

Winter Fashion News From Gay Paree: Neckline Indiscretion; Choice of Hems

PARIS (AP) — Whistle-bait necklines, hardly any waistlines — short or medium — that's what the Paris fashion makers have to offer for the coming winter.

One American buyer happily remarked, "These clothes will sell."

The sheath is undisputed queen of fashion. But for cocktail and evening there are puffed bell shapes as well.

It is a predominately black season, with blue in second place, followed by bright red, coral pinks and green.

As usual, Dior's opening climaxed the week of openings. His "Spindle Line," with loose waist and tapered-in hem, was spiced up with some of the lowest necklines that have ever raised fashionwriters' eyebrows.

★ ★ ★

About half the dress houses pumped for very short skirts, barely covering the knee. Among them were Patou, Heim, Lanvin-Castillo, Cardin and — according to buyers who saw them — Balenciaga and Givenchy. In the midcalf or conservative school were Dior, Balmain, Desses, Griffe and Laroche, plus Chanel, of course.

★ ★ ★

While sheaths were sometimes completely unwaisted, gripping the hip and hugging the legs, more often they were tacked in on the tummy and loose or paneled behind.

ACCENT ON DETAILS

Details that turned up all over included bows, dark discreet plaids, scarf necklines for coats and jackets, extremely long or quite short suit jackets, big fur collars, spotted furs, wiglike hats covering all the hair, wool fringe trim, and lampshade skirts for cocktail time.

★ ★ ★

Opening the season, Patou showed short-skirted, busty sheaths, and a favored daytime ensemble of woolen dress with short hip-tight jacket, bundled over with a fur-lined coat to match. Bows abounded.

Lanvin headlined hips in a pannier or basket-skirted collection, with yet more bows. Pierre Cardin's "Lasso Line," with loopy drapery and low kangaroo pouches, featured chiffon dresses draped between the knees. His skirts were the shortest and tightest of the season.

ROSE POINT

by Pope Gosser

The romantic Rose Point is a reproduction of fine old lace, a sample of which appears in an Ohio museum. The design is in the body, not merely applied, so it cannot fade nor lose its symmetry.

This fine ware is made from a special combination of clays giving it a thin body and exceptional strength . . . it will not chip easily.

In plain white with lace embossed edges. In open stock.

Opportunity in Beholder's Eye

By ANNE HEYWOOD

Some people could be left on a desert island and they would find a fascinating hobby or interest. Other people can live in the middle of a thriving community and they'd still complain of the lack of opportunity.

★ ★ ★

Opportunity, let's face it, is like beauty—it's in the eye of the beholder.

When my son and I were visiting recently in the suburbs, he became friendly with a boy down the street who was about his own age—thirteen.

After a couple of hours, John came back excitedly and asked "Can I help Davey with his job? He's a vacation gardener, like his grandfather. In fact, he's his grandfather's assistant."

Naturally, my ears went up at that and I went along.

Davey's grandfather turned out to be a very pleasant gentleman, in his late sixties, who was retired and a widower. He was pretty lonely at first.

GOES TO FLORIDA

"Winters aren't so bad," he told me, "because I go South to a little shack I have in Florida. I have friends there, too; people I've known a long time. But in order to afford that, I have to stay here in the summer with my daughter and her family.

"Now they're very nice and I have my own room and all. I do odd jobs around the house to keep busy and, when they're on vacation, I do the gardening and keep an eye on things. But it still isn't enough to keep me busy. So this summer, I cooked up this scheme.

★ ★ ★

His scheme turned out to be a service for his neighbors, for which he charged a modest fee.

"I take care of their gardens and plants while they go away on vacation," he told me. "But now I have more business than I can handle. That's where my grandson, Davey, comes in so handy. He works for me for a small salary. 'The business' makes life very interesting while I'm here, and gives me a nice nest egg for the winter in Florida!"

★ ★ ★

The age of opportunity didn't end with covered wagons. Opportunity exists here and now for people of any age who have an open mind.

★ ★ ★

If that's not a strong point of yours, send me a stamped, self-addressed envelope and I'll send you my pamphlet, "Pointers to an Open Mind."

May Child as Hostess Take Prize?

By EMILY POST

"Dear Mrs. Post: You have said many times in your column that a hostess should not accept a prize in her own house. Will you please tell me if the same rule applies to a young child who is hostess at her party?

"My daughter went to a birthday party recently and several games were played for which prizes were given. It so happened that the 'birthday child' won several of the prizes, which she kept.

When my daughter told me about this I was very much surprised.

"Don't you think, Mrs. Post, the mother was wrong in allowing her daughter to keep these prizes? I would very much appreciate your opinion on this."

Answer: If there were several prizes she might have been allowed to keep one. But ordinarily the birthday child does not keep any prizes that she wins. The prize is given to the runner-up.

The theory is to teach the child that a hostess does not keep prizes in her own house. Furthermore, the birthday child has undoubtedly received many presents already.

"Dear Mrs. Post: I know it is not considered proper for a man to give a woman friend money for a present, but would a gift certificate in the amount of 10 dollars from a leading department store be considered in the same light?

"It would be a very practical gift as she could then buy whatever she wants with it. Will you please give me your opinion of such a present?"

Answer: I am sorry, but this gift would really be the same as money.

Shower Presented for Mrs. Rowland

Mrs. W. Earl DeMond and Mrs. Charles W. Griggs were cohostesses at a pink and blue shower honoring Mrs. James Rowland at Mrs. DeMond's home on Barkmon drive Tuesday evening.

Those attending were Mrs. Billy Wiseheart, Sandra Arnold, Donna Moody, Mrs. Lester Stanley, Aletha Leonard, Mrs. Jack Mecum, Korrine Frizzle, Rosemary Haak, Mrs. William St. Charles, Mrs. Edward Vanderworp, Mrs. Dwayne Butler, Mrs. William Hartman, Mrs. Kenneth Hoard, Mrs. Frances McCue, Mrs. Walter Babb and Jan Guoin.

Others included Eleanor Lockman, Mickey Tersigni, Mrs. Alton Owens, Norma Ainsley, Mrs. Richard Cooper, Mrs. Clyde Cronover, Mrs. William Joyce, Mrs. Robert Burmeister, Mary Samson, Karla Stoddard, Carol Dennis, Barbara Johnson and Doris Manuel.

8-2

Strictly individual is a white chiffon middy worn with floor-length pleated skirt. Chiffon blouse printed to match tweed skirt is the one-color look.

The important evening blouse worn with a long skirt can make many inexpensive changes for the college wardrobe. Look-alike separates consist of chiffon blouse printed to match the giant herringbone pattern of the tweed skirt for campus wear.

Brief Baking Enough for Dessert

Mrs. Schraw Pours Cool Custard Over Fruit and Cookies

By JANET ODELL
Pontiac Press Home Editor

A quickly made banana pudding is a good dessert for the family. This pudding with its meringue topping may be served warm or chilled.

Mrs. Gerald Schraw is today's cook. She keeps more than busy with four children and working with a church group. All sports, but mainly bowling, are her choice for leisure time activities.

★ ★ ★

BANANA PUDDING
By Mrs. Gerald Schraw

¾ cup sugar
2 tablespoons flour
¼ teaspoon salt
2 cups milk
3 eggs, separated
1 teaspoon vanilla
3 large bananas
Vanilla wafers

With half the sugar (6 tablespoons), the flour, salt and milk, make a paste. Cook until thick, stirring constantly. Add beaten egg yolks and cook 5 more minutes. Add vanilla. Cool.

Line a deep dish or pan with vanilla wafers. Add a layer of sliced bananas. Repeat until bananas are gone. Pour cooled custard over entire bowl.

Make a meringue of egg whites and the remaining sugar. Spread on top of pudding. Bake 5 minutes in a 425-degree oven. Serves six.

Pontiac Press Photo

Former King Steven crowns the new King, Michael, king for a day in the "Lyon's Den." Douglas (not pictured) will have his turn on Aug. 16.

It's Christmas in August for 'King of Lyon's Den'

Last Christmas Carl Lyon of Hatchery road decided to give his three sons, Steven, Michael and Douglas, an unusual gift—one they would never forget.

On Christmas morning each of the boys found a note which would allow him to be "King of the Lyon's Den" for one day this summer. Mr. Lyon gave each boy permission to do anything on that one day (within reason) that he wished.

July 19 was Steven's day, and besides breakfast in bed (which is part of being King for a day) he went to the zoo, had dinner at a restaurant and saw a drive-in movie.

Michael will have his day today. He will operate a steam shovel and ride in an airplane.

Douglas will be King on Aug. 16 and he has already made his choice. He has tickets to see the Detroit Tigers play the Chicago White Sox in a night game.

Don't Abuse Aid

If a friend offers to take you to town in her car for shopping or lunch, don't ask her to make several stops on the way so that you can get a number of chores done while you have a "chauffeur" to wait for you.

River Robs Skirts of Permanent Pleats

Old habits die hard in the Philippines, some sportswear manufacturers learned to their chagrin.

When investigating why so many of their "guaranteed washable, permanently pleated" skirts were returned without a pleat left, they learned that the Filipino lasses were washing in the time-honored way of their great-grandmothers. The "guaranteed" skirts, pleats and all, were plunged in the river and beaten with a rock until clean.

Boy Lies to Get Parental Approval

By MURIEL LAWRENCE

Hugh and his friend Rory were on their way home from Cub Scout meeting. As they were passing a building excavation, some men exploded dynamite. The boys decided to wait and see the next explosion.

★ ★ ★

Arriving home an hour late for supper, Hugh said he'd lost his Scout badge and had spent the two hours looking for it.

But Rory's mother had just telephoned the truth to his parents. Because Hugh's father was frightened by his lie, he became very angry. He feared that he'd lose all control of Hugh if the boy started making secrets of what he did.

He was so scared he couldn't see the only important thing to see about a lie—the child's belief that we disapprove his desires.

★ ★ ★

Thus Hugh's lie said to his father, "I am not a boy who could desire to see dynamite exploded. The only desires I have are those I know you approve. So I've spent these two hours virtuously laboring to find my Scout badge instead of watching men blast dynamite."

★ ★ ★

ATTACKED THE LIE

Unfortunately, Hugh's father didn't register the suspicious belief behind the boy's lie. He attacked the lie—and sent Hugh to bed, thoroughly convinced that his father could not tolerate a son who desired to watch explosions.

That we are an enemy of his desires is a dangerous conviction for any child to develop.

So the way to deal with lies is showing ourselves to be the friend of the child's desire.

We say to Hugh, "I'm all for your watching dynamite explode. What we dislike is the way you did it. You kept dinner waiting so that you have to eat it cold. You've worried us so that we're angry instead of being glad you had a good time.

"If you'd let us know where you were, these things wouldn't have happened. What trouble you've caused yourself by doing a good thing the wrong way!"

★ ★ ★

We can't talk like this to our liar if we're all steamed up with panic that he's beginning a secret life.

So it's pretty important to see that his lie doesn't herald a secret life at all. It's just his way of telling us he thinks we'd hate what he wanted to do.

Dark Circles Usually Hereditary

Falling Hair May Indicate Illness

By JOSEPHINE LOWMAN

(The Friday Question Box)

Q. "I have two problems. My hair is falling out badly. Also, even though I get plenty of sleep, I have dark circles under my eyes."

★ ★ ★

A. The dark circles are usually hereditary. However, they can come from malnutrition, loss of sleep, or poor health due to some specific cause. Since you get enough sleep and are also having trouble with a loss of hair I think you should have a physical check-up. Both conditions may be due to the same cause.

★ ★ ★

Q. "Someone has told me not to use vinegar rinses because they will make my hair turn gray. Is this so?"

★ ★ ★

A. No.

★ ★ ★

Q. "How do you use a lip brush when applying lip rouge?"

★ ★ ★

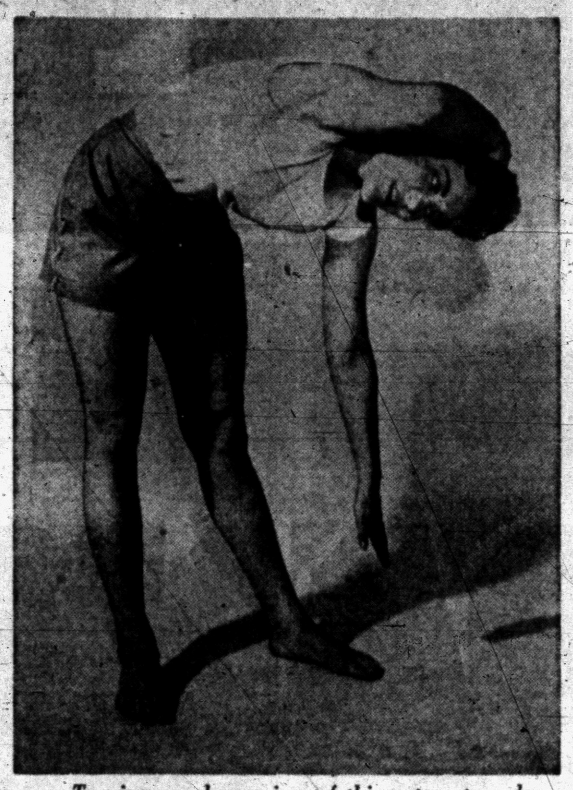

A. First be sure that the lips are entirely clean and dry. Outline the natural shape of your lips with the brush. Do not distort the lips while outlining them. Then fill in.

★ ★ ★

Q. "The hair on my upper lip is very dark and noticeable. Please tell me what I can do about it. It is making me self-conscious."

A. The hair is probably too fine to remove with tweezers. Therefore I suggest that you bleach it often with peroxide. It may well be worth while to have it removed permanently by electrolysis.

Q. "Since my baby came I have gained ten pounds. I needed these since I was underweight but the trouble is that it all seems to have landed on my abdomen. What should I do?"

Try increased exercises of this nature to reduce extra weight in the waist and abdomen regions.

A. Just as soon as your doctor gives his permission take abdominal exercises.

★ ★ ★

Q. "Please tell me what I should eat to make my legs thinner."

★ ★ ★

A. There is no one food which is either slimming or developing. If you are overweight generally, and lose, the loss will show in your legs. Certain exercises are helpful, too. If you or any of my other readers would like to have my exercises for the legs, send a stamped, self-addressed envelope with your request for leaflet No. 13 to Josephine Lowman in care of this newspaper.

★ ★ ★

Q. "Is makeup harmful to the skin?"

★ ★ ★

A. No, not if you cleanse your face and neck once or twice each day, especially before going to sleep at night.

Q. "Will permanent waves hurt the hair?"

★ ★ ★

A. No, not if you have a good operator. The scalp would have to receive injury for there to be any permanent harm done anyway.

★ ★ ★

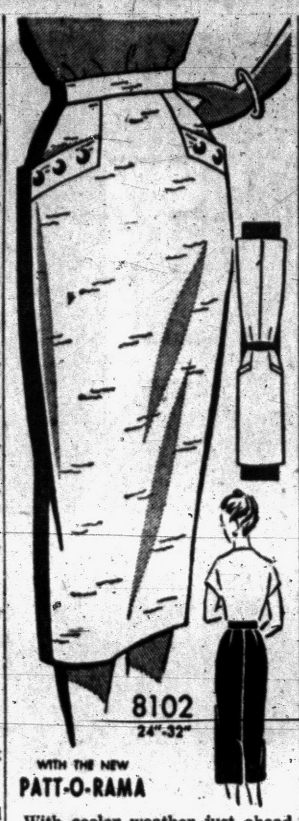

Tomorrow: "Thickening in Middle Shows Sign of Age."

Mrs. Peters Feted at Pink, Blue Party

Mrs. Abodine Peters was honored Tuesday evening at a pink and blue shower given by Mrs. Russell E. Gortner of Orchard Lake avenue. A buffet luncheon was served.

Among the guests were Mrs. John Kent, Mrs. Thomas Lewis, Mrs. Robert Beltz, Mrs. Gus Meyers, Jane Meyers, Mrs. Donald Nichols, Mrs. William Emery, Mrs. Robert Edward and Mrs. Casey Jones.

Others included Mrs. Dan Adams, Mrs. Dan Adams Jr., Mrs. Sam Peters, Irene Peters, Mrs. Gordon Erwin, Mrs. Hazel Mozer, Mrs. Frank Vierk and Mrs. Gerold Guittar.

WITH THE NEW PATT-O-RAMA

With cooler weather just ahead, you'll want to sew several skirts like this good looking one. From a minimum of fabric — and simple sewing!

No. 8102 with Patt-o-Rama included is in waist sizes 24, 25, 26, 28, 30, 32. Size 25, 1 yard of 54-inch; or 1⅝ yards of 45-inch.

For this pattern, send 35c in coins, your name, address, size desired, and the Pattern Number to Sue Burnett, The Pontiac Press, 372 W. Quincy Street, Chicago 6, Illinois.

The Fall and Winter '57 edition of our pattern book Basic Fashion is filled with smart, new styles for all sizes; special features. It's colorful, stimulating and so useful. 25 cents.

Buy Washable Paint

If you plan to do any painting, choose washable paints. You'll be able to do your "dusting," so to speak, with a sudsy sponge—once over lightly, and painted surfaces will stay attractive indefinitely.

Man-Made Fibers Important

Check Wash Suit 5 Ways

Here are five important construction features to look for in wash-and-wear suits.

1. Fabric with a high percentage of "Dacron," "Acrilan," or "Orlon" for good wrinkle-recovery, press-retention, and quick drying.

★ ★ ★

2. Shrink-resistant nylon or "Dacron" thread and good stitching.
3. Shoulder padding of man-made fibers.
4. Durable lining of nylon or "Dacron"—just enough to offer protection and body in the shoulder and sleeve areas.
5. Well-made lapels and pockets that lie smooth and flat.

★ ★ ★

There are three different methods for laundering wash-and-wear suits. The automatic-washer-dryer method is recommended if you have a dryer with a selection of heats. Otherwise, you may wash in an automatic washer and drip-dry or wash by hand and drip-dry.

Creates Problem

If your hostess has a maid who might possibly be within hearing distance, don't start talking on the "servant problem." Such a conversation is likely to be resented by the maid.

Even though it is the bride who writes the thank-you notes for wedding gifts, the groom might want to write a few in addition to hers.

Edward Slaughter Takes Mary Maguire as Bride

In an all-white setting of gladioli and chrysanthemums, Mary Constance Maguire of Windsor and Edward George Slaughter of South Edith street were married July 27. The Rev. Charles Carrigan performed the double-ring ceremony in Sacred Heart Church of Windsor.

The bride is the daughter of Mr. and Mrs. George Wilton Maguire of Windsor, Canada, and the George Slaughters of South Edith street are the bridegroom's parents.

The bride was gowned in floor-length Alencon lace and tulle over bridal satin. The tiered skirt of lace and accordion-pleated tulle fell into a cathedral train. A coronet of beaded lace held her two-tiered veil of French illusion, and she carried an arrangement of Joanna Hill roses and stephanotis.

As maid of honor, Marilyn Quinn wore a princess-style gown of candy pink polished cotton. Her cartwheel hat was banded with chiffon, and she carried pink carnations.

★ ★ ★

The bridesmaids were Carol Chapman, Ruth Gillen and Nancy Kennedy, all cousins of the bride. They wore gowns identical to that of the honor attendant.

ASSIST BRIDEGROOM

Dudley Moore assisted the bridegroom as best man. Seating the guests were James Bendig, Gino Appoloni, Dalmo Chapdelaine, and a brother of the bride, William Maguire.

An early afternoon reception was held at the Elmwood Casino.

The bride's mother chose a dusty pink organza gown and silk organza hat in matching pink. She wore a purse corsage of sweetheart roses.

The mother of the bridegroom wore a champagne lace sheath over taffeta, a mauve feathered hat and a tiger lily corsage.

★ ★ ★

Following the reception the couple left by plane for Miami Beach. For the trip, the new Mrs. Slaughter wore a camellia cotton dress with full skirt and tiny matching jacket. A small feathered hat and a corsage of yellow rosebuds completed her costume.

Filling Odd Requests, Queries Part of Tourist Council's Job

LANSING (AP) — Though travel and romance often go hand in hand, public tourist agencies have no call to foster international love affairs.

★ ★ ★

Mainly for that reason, the Michigan Tourist Council was forced to send its "regrets" when a Turkish gentleman wrote to ask the council's help in arranging a marriage with an American woman, "preferably about 30 years old."

But on a variety of other requests, somewhat less bizarre, council personnel have come through without batting an eyelash.

A yacht club in Washington, D. C., wanted a bottle of Michigan water. It was to be mixed with water from other states in a jug to be ceremoniously smashed to bits at the dedication of its new clubhouse.

The request was met in the time it took a staff assistant to obtain a bottle and packaging materials and walk to the nearest water tap.

A schoolboy from Rochester, N. Y., wrote this summer asking for some genuine Michigan soil, "about two teaspoonsful, thank you" to add to his dirt collection. It was sent to him with a warning that "once you touch Michigan soil you cannot be happy until you visit Michigan."

That, of course, was a plug for Michigan in the best Chamber of Commerce tradition, but a natural act for an agency that owes its existence to the state's tourist industry.

Partly as a result of their efforts, some 9,750,000 tourists are expected to spend about 625 million dollars in Michigan this year, ranking tourism with agriculture and manufacturing as the state's biggest industries.

MOSTLY ADVERTISING

A major share of the council's $424,000 budget goes for advertising and requests for descriptive literature on the state keeps staffers busy the year around. In June, one of the busier months, they handled 4,406 letters, nearly 2,500 telephone queries and 1,125 personal calls at the office.

Most are requests for promotional materials, but off-beat queries frequently add humor to routine business.

A school girl asked for quick shipment of "a small apple, peach, pear, plum, cherry, grape, strawberry, raspberry and blackberry."

A Covert, Mich., resident wanted to know the population of India in 1357. A Louisville, Ky., girl wanted "information on glass and weather, both or one or the other."

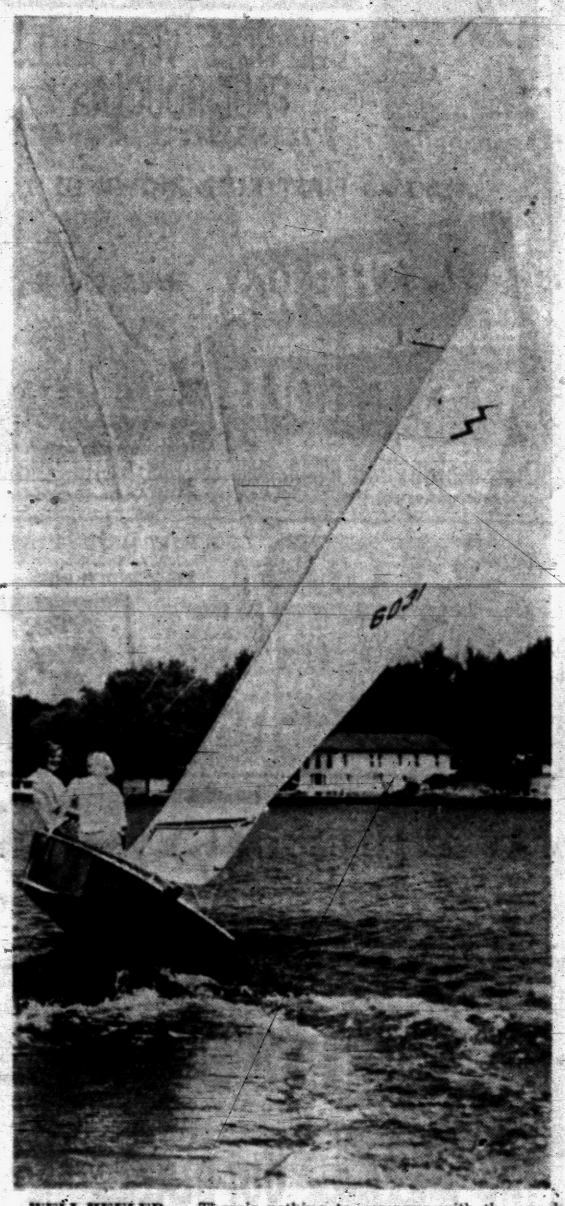

From the republic of Ghana came a letter this summer from a young girl attending a Methodist missionary school.

6 MONKEY SKINS

"My father is a farmer and at the same time hunter, so I have collected about six monkey skins," she wrote. "If you send anything suitable for both you and me, I will send you all the six; but if you send anything not from your heart, I will send only half of them to you, i.e., three."

Council secretaries wasted no time mailing an envelope filled with descriptive materials on Michigan.

They're still waiting for the monkey skins.

WELL-HEELED — There's nothing to compare with the crack of a billowing sail, the steady gurgle of water under the bow and the feel of a brisk lake breeze for unadulterated summer relaxation. These young ladies handle their mount with the skill of old salts as they wheel about on one of Michigan's 11,037 lakes.

Air Force Instructor, Student Die in Crash

ALBUQUERQUE, N. M. (AP) — 1st Lt. David W. Koeh, an Air Force pilot instructor from Mt. Pleasant and his student pilot, 1st Lt. Gene R. Chaney of Wichita, Kan., were killed yesterday when their T-33 jet trainer crashed and burned in an emergency landing at Kirkland Air Force Base.

Koeh had radioed a few minutes earlier that his power had failed. All runways were cleared but Koeh failed by 40 feet to hit the end of one of them and the aircraft burst into flames.

The two pilots were stationed at Williams Air Force Base in Arizona.

Pontiac Press Photo

PRETTIES PRACTICE — Six of the Rae-vens got together Wednesday for a little extra practice on their parking lot drill field. Left to right, the pretty drillers are Carleen Cook, Vicki McLaughlin, Linda Murphy, Janet Wohlfiel, Karen Hefner and Sandy Wray.

Teenage Girls Get in the Swing by Forming a Fancy Drill Team

A hearty band of 16 teenage Oakland County girls is Pontiac's latest claim to fame.

The girls form what is described as "the only all-female fancy drill team" in the state, and they do it all on their own.

RAISE OWN FUNDS

Called the "Rae-vens" after coach Jackie Rae Voorhees, the team is entirely self-supporting. Team members, ranging in age from 14 to 19, have paper drives, candy sales and such to raise money for uniforms, transportation and cleaning.

The latest honor accorded the group was a third place finish in the National Women's Drill Team Competition last weekend at the Wisconsin Spectacle of Music, staged in South Milwaukee.

The unit finished a close third in the 13-team field, piling up 87.4 points to 88.6 for the winner.

The team is two years old and has been competing for a single year. Last year it traveled 30,000 miles to put on exhibitions.

★ ★ ★

Normally the girls practice once a week but they held daily two-hour sessions for three weeks prior to the weekend competition in Milwaukee.

Lack of a suitable drill field has forced the girls to do their practice drilling on the parking lot of St. Benedict Church, 60 S. Lynn.

The team members wear black skirts and leotards and white gloves and plumed hats during exhibition and competitive drilling.

★ ★ ★

The girls reported they were "dumbfounded" at the size of the weekend spectacle in Wisconsin. An estimated 30,000 persons saw the show while 150,000 watched a parade held as part of the spectacle.

MORE PRACTICE

After a short rest, the girls will resume practice — at a twice a week pace if they have their way. Coach Jackie Rae Voorhees reports they are all anxious to step up the pace of practice after a taste of successful competition.

Next competition for the girls is the national Veterans of Foreign Wars tournament, to be held in Miami, Florida, during October.

★ ★ ★

Pontiac members of the group are Carol Ann Sluka (the mascot), 274 Tilden Ave., Jeanne Andrews, 599 Lenox; Barbara Batchelor, 78 E. Cornell; Jo Anne Elkins, 17 Edwards; Karen Hefner, 1123 Dover; Linda Lawrence, 215 Tilden; Vickie McLaughlin, 190 Mohawk; Linda Murphy, 5050 Cooley Lake Rd.; Helen Ramsdell, 254 Draper; Sally Richardson, 5985 Cooley Lake Rd.; Janet Wohlfiel, 3250 Lexington Dr.; Sandy Wray, 150 Osceola Dr.; Carleen Cook, 800 Irwindale; and Rene Cook, 5133 Oakcliff.

Others are Sandra deYoe, 2460 Pauline, Drayton Plains; Lorna England, Schick Dr., Lake Orion; Sally Bauer, 6111 Middle Lake Rd., Clarkston.

Sallade to Survey Views on Economy

ANN ARBOR (AP)—A Republican legislator will launch a one-man survey tomorrow aimed at revealing the "average citizen's" viewpoint towards Michigan's money problems.

★ ★ ★

Rep. George W. Sallade (R-Ann Arbor) said he will visit six county fairs and one GOP event on his week-long tour through southern Michigan.

Sallade, a potential contender for the Republican nomination for governor, said he will ask fair patrons these four questions:

(1) What is wrong with Michigan's economic climate?

(2) What should state government do about it?

(3) What level of service should the state render?

(4) How can we best pay for it?

On the basis of the answers he gets, Sallade said he would make recommendations for future Republican strategy.

"This will be done without financial backing from my fellow legislators or the Republican party," Sallade said in obvious reference to a similar tour undertaken by House speaker George M. Van Peursem (R-Zeeland).

Monroe A-Plant Probe Resumes

Reactor Said Capable of Producing Very High Grade Plutonium

WASHINGTON (AP) — A proposed nuclear reactor at Monroe was described today as being capable of producing a very high grade of plutonium.

★ ★ ★

The testimony came from Ernest R. Acker, vice president of the Power Reactor Development Co. (PRDC) which has been granted an Atomic Energy Commission (AEC) construction permit for a fast breeder reactor there.

Acker will continue his testimony today. The hearing is expected to be completed next week.

The hearing on the controversial 30-million-dollar project resumed yesterday after a long recess. It was prompted by protests from Michigan labor leaders that the reactor would be a safety threat to metropolitan areas.

READY BY 1960

Acker said the reactor is expected to be completed, under a new construction schedule, by Sept. 1, 1960. He also said a delay in fabrication of some elements which go into the reactor were responsible for extending the construction period by six to eight months.

"I know of no other item now," Acker said, "where we can expect that kind of delay."

Acker earlier in the day said the firm would have to take another look at the project if Congress failed to appropriate funds for research and development.

"We would be bitterly disappointed if Congress didn't appropriate funds to permit the AEC to carry out the commitments," Acker said.

★ ★ ★

In this event, he said, PRDC "might go out and raise funds ourselves."

RECOMMEND NO MONEY

The House-Senate Atomic Energy Committee has recommended that Congress not authorize $4,200,000 in research funds for the project recommended by the AEC.

Instead, the committee would authorize $1,500,000 for research in the fast breeder reactors with no mention made of PRDC. It would be up to the AEC to determine how much money the Michigan project would receive.

Acker also told the AEC examiner that he believed PRDC estimates on the project were more realistic than H. Monroe Radley, construction engineer employed by the AEC, indicated in previous testimony.

Radley concluded that the firm's estimates were several million dollars too low.

Washburn Old Labor Figure

Played Central Role in Some of State's Most Turbulent Strikes

DETROIT (AP)—The name of Lester Washburn was a familiar one in Michigan during the 1930's. As a high-powered labor leader, he was a central figure in some of the state's most turbulent strikes.

He led sitdown strikes and figured in court cases that were widely publicized. Legal decisions involving Washburn are labor history.

Yesterday Washburn told the Senate Rackets Investigating Committee at Washington how he was ousted as president of the old AFL United Auto Workers union in 1945, a position he had held since 1943. Washburn, 48, is now a builder and summer resort owner at Rhinelander, Wis.

Washburn said he lost out in a power play involving racketeer Johnny Dio, whom he claimed had "muscled in" to the old UAW. Washburn threw Dio out of the UAW but he left the union himself when the UAW executive council reversed him.

Washburn, in fact, has had other reversals. He lost several court decisions in Michigan. But the fines and jail sentences did not stop him from playing a prominent role in the early growth of the UAW.

One of the bitterest setbacks came June 8, 1938, when the state Supreme Court upheld his conviction for a picket line disturbance at the Capitol City Wrecking Co. in Lansing.

He had challenged a state law prohibiting individuals or groups from "molesting a worker in the lawful pursuit of his vocation.

He had been sentenced to pay a fine of $100 and costs of $150 or serve 90 days in jail.

Washburn also appealed, and subsequently lost, a fine of $250 growing out of violence during a prolonged strike at Niles during the summer of 1940.

Dream Coming True in Waterford

By REBA HEINTZELMAN

When Father Frederick J. Delaney first came to Waterford Township nine years ago, there was no property, no church and no parish of any kind. A few people of the Catholic faith were holding services in the Community Activities building.

NEARS COMPLETION

Today, more than 800 members attend Our Lady of the Lakes church, situated on a 17-acre tract of land on Dixie Highway. The first unit of a new school to accommodate some 300 pupils is nearing completion, and a $76,000 convent is under construction on the same property.

When the Father graduated from St. Mary's in Baltimore, Maryland, and came to Michigan, he brought with him a plan for establishing a school that could possibly rejuvenate the entire parochial educational system.

The idea was to establish a school beginning with the intermediate grades—5, 6, 7 and 8th—rather than the first four grades, as was the general procedure.

The purpose of the experiment was to give the upper grade children already living in the community some Catholic education — 'right now.'

★ ★ ★

The Father said, "The plan would afford the greatest benefits to the greatest number of students in Waterford Township."

As time goes on, more upper grades will be added until accommodations for 12th graders have been completed. Then construction work will begin on the first four grades.

FIRST TRY

This is the first time a project of this type has ever been attempted, and much groundwork was necessary before the project could become a reality.

Now after getting special permission from the Rt. Rev. Msgr. Carroll Deady, and final sanction from Cardinal Edward Mooney of Detroit, Waterford Township youngsters will have the opportunity of attending their own parochial school before graduation.

Although the new convent, also under construction, will accommodate seven nuns at the beginning, the over-all plan will be to house 25 or 30 sisters for students in the new school.

★ ★ ★

Father Delaney, who will celebrate his Silver Jubilee on Sunday, has been in Wayne, Oakland and Macomb counties during his entire priesthood.

The Father said, "When our school opens in September, it will be the fulfillment of a dream started more than 25 years ago."

"PAL" WITH HIS PAL — Father Frederick Delaney's constant companion is "Pal," a German shepherd dog. The two keep an eye on the construction of the new parochial structure "Our Lady of the Lakes," school in Waterford Township, which will open next September for some 300 students.

Pontiac Press Photo

Nuns Form Rifle Team

Villanova, Pa. (AP) — Nuns attending summer school at Villanova University have organized a rifle team. School officials say they are surprisingly good shots.

"Carry Out Orders"

Bob Considine Says:

It Isn't Easy to Sell New York City

NEW YORK (INS) — A brave little group known as the New York Convention and Visitors Bureau, Inc., has been trying to get people to visit our town this summer.

★ ★ ★

"You'll love New York." it insists on the bureau stationery. "New York is a summer festival," it says elsewhere.

The little group perseveres in face of what seems a deeply rooted native trait: Millions of Americans don't love New York. Sad, but true, as any person who travels about the country, taking soundings, will tell you.

New York frightens lots of people. Some who come here find it takes great will power simply to leave their hotel rooms.

★ ★ ★

"It's a fine place to visit but I'd sure hate to live there," is a cliche which has been affixed to New York for as long as I can remember — and that's getting to be a depressing length of time.

The Convention and Visitors Bureau people have tried various ways and means of overcoming the natural antipathy toward our town. Some seem picayune.

We, who berth the Queens Mary and Elizabeth, the stunning United States, and all the other lovely ships, boast not of them, but of the replica of the tiny Mayflower. We, who have the Yankees, urge the outlander to come to us to witness a Picasso exhibit.

★ ★ ★

We never seem to say just: "You're a chump if you don't give New York a look-see. It's the greatest town in history. Fly over it on a clear night and you'll thrill to the memory of that incredible jewel display as long as you live."

The most difficult thing the visitor to New York must learn is how to walk. If you, the visitor, have ever wondered how the sightseeing bus barker spots you from 50 paces, he nails you simply because everybody else around you is walking faster.

★ ★ ★

It is not that New Yorkers are embarked on more momentous errands. It's just that they feel they must not tarry. They hurry along at a breathtaking clip because — well — because everybody else is.

★ ★ ★

You, the visitor, may also have been spotted because of your white shoes. There are no statistics handy at the moment, but I suppose fewer white shoes are sold in New York City each year than in, say, Osawatomie, Kan.

FEW STRAW HATS

Or your hard straw hat. There was a time when Jim Farley was about the only fellow in town who preserved the hard-straw tradition. Now Jim can happily report that hard straw sales are up 400 per cent over last year. Still, they're a rarity around New York, as compared to the rest of the land.

★ ★ ★

The newest wrinkle of the visitors Bureau is to boast that if you come to warm-hearted New York you can get yourself frozen numb.

This was the first city in the world to have air-conditioning. Happened just 55 years ago this summer, when a Cornell engineering graduate, Willis H. Carrier, turned on the first clanking model.

Now we're cooled by the equivalent of 20,000 freight carloads of ice per day — which measures out to 1,600,000 horsepower of air-conditioning equipment.

★ ★ ★

New York hotels — best in the world — spent $53,000,000 during the past two years on improvements, mostly in the air-conditioning systems. Among the 43 largest hotels, 20,112 of the 33,492 guest rooms are air-conditioned.

★ ★ ★

Everything, everywhere, is chilled. We could cool all of habitated Oregon.

ASSIGNED TO FIGHT

The night I arrived in New York, 20 years ago, from slow-gaited Washington, Sports Editor Ed Frayne of the American assigned me to cover a fight at Madison Square Garden.

★ ★ ★

Next to me was a fellow I've never seen since. He said, "Boy, I work for a weekly on Staten Island, circulation 2,000, and every-time I take the ferry over to Manhattan and look up at that line of skyscrapers I shake my fist at it and say, 'I licked that!' "

Would that our brave little group could kindle such a fire in those who either fear to tread our pastures or would just as soon we sank into the bay.

A youngster (reports Ima Washout) entered a contest in which he told why he liked a certain TV show. He wrote, "I like it because as soon as it's over, the Lone Ranger comes on." . . .

In the words of P. K. Thomajan, "This is the land of the free and the home of the rave . . . where the mob roots for you one day and uproots you the next."

—Earl Wilson

News of Men in Service

Navy Electronics Technician Carl S. Domke, son of Mr. and Mrs. Henry J. Domke, of 238 Clifford Ave., recently graduated from electronics school, earning the highest average 90.83 in his class.

DOMKE

Domke, who recently spent a 30 day leave with his parents, received basic training at Great Lakes Naval Training Center, Ill.

He may be written: ETRSN Carl S. Domke, C/O C.O., U.S.S. Forrest Sherman DD931, F.P.O., New York, N.Y.

★ ★ ★

Army Pfc. Wayne R. Hildebrant, son of Mr. and Mrs. Ralph Hildebrant of Metamora, recently participated in field training tests with the 74th Field Artillery Battalion in Germany.

Hildebrant, a driver in the battalion's Battery C, entered the Army in February, 1955, and completed basic training at Fort Riley, Kansas.

He attended Lapeer High School.

★ ★ ★

Army Pfc. Burton C. Davis, whose wife, Claire, lives in Detroit, recently received a Reserve commission of second lieutenant at Fort Buchanan, P.R.

DAVIS

Davis, the son of Mr. and Mrs. Larry Davis, of Birmingham, is serving in the Regular Army as a pharmacist with the U.S. Army Dispensary at Port Buchanan.

He is a 1955 graduate of Detroit Institute of Technology and a member of Alpha Zeta Omega fraternity.

★ ★ ★

Seven Pontiac cadets recently completed six week of ROTC training at Fort Campbell, Ky.

From the University of Michigan was James P. Shedlowsky, son of Mr. and Mrs. Joseph H. Shedlowsky, 4909 Clintonville Rd.; the University of Detroit, Richard J. Fleming, son of Mr. and Mrs. Charles A. Fleming, of 867 Perry St.; Michigan State University, Robert N. Gordon, son of Mr. and Mrs. William A. Gordon, of 122 Dwight; Western Michigan College, John C. Xenos, son of Mr. and Mrs. Samuel Xenos, of 104 W. New York Ave.

Others are from Eastern Michigan College, William D. McLarty, son of Mr. and Mrs. Vernon McLarty, of 170 Ogemaw Rd; David R. Hendry, whose wife, Marilyn, and parents, live at 1086 Shoman Dr.; and Larry R. Wigner, son of Mrs. Irene G. Coffey, of 4921 Filer St.

★ ★ ★

Now serving in Chinon, France, with the Quartermasters Engineering Depot, is Army Pvt. Roy E. Farmer, son of Mr. and Mrs. Charles Farmer, of 30 Fiddis Ave.

FARMER

He received basic training at Fort Lewis, Wash., and studied eight weeks at the Quarter Masters School in Fort Lee, Va.

Quincy Man to Head Agriculture Teachers

EAST LANSING (AP) — Oscar Fischer, high school teacher in Quincy, is the new president of the Michigan Assn. of Teachers of Vocational Agriculture.

★ ★ ★

Fischer, who replaces Robert E. Jewell of Pinconning, was named to the post yesterday at an annual conference for vocational agriculture teachers.

Donovan G. Cronkhite of Stockbridge was elected vice president.

Alterations Nearly Done at Arthur's Store

Remodeling and enlarging work at Arthur's Women's Apparel, 48 N. Saginaw, is expected to be finished "sometime in the middle of the month," according to store manager David Horwitz.

All the work is being done on the second floor of the three-story shop.

The coat, dress, suit and fur departments are being enlarged while a foundation department is being added, Horwitz said. Business is being carried on as usual around the remodeling work, Horwitz said.

Exports Buying Less

MARSEILLE — The proportion of French imports from the United States that were paid for by exports to the United States dropped from 45 per cent in 1955 to 23 per cent in 1956, or back to the prewar level.

Hollywood Headlines

Cary and Ingrid Sign Up as the Stars of 'Kind Sir'

By LOUELLA O. PARSONS

HOLLYWOOD (INS)—I am impressed and I wager you, too, will be when I tell you that Stanley Donen has signed Ingrid Bergman and Cary Grant for "Kind Sir," to start in November in London.

★ ★ ★ ★

This is the first picture to be made by the Stanley Donen Productions, and "Kind Sir," as most of you know, is Norman Krasna's play which originally starred Mary Martin and Charles Boyer on Broadway.

Stanley further tells me that he'll both produce and direct. He directed "Funny Face," one of the most delightful pictures of any year, "Pajama Game" and others.

I say "hurray" for Al Zugsmith for giving Gail Russel the lead in his MGM picture "The Man Who Grew Younger"—and by this, he may be giving her the chance that could be the turning point in her whole life.

Many of Gail's friends believe that the basis of her many misfortunes, including the trial she is facing on a felony drunk driving charge, is because she is discouraged about her career.

Producer Zugsmith is not just giving her a part in his picture. Gail has the leading feminine role.

I hope other producers follow his lead and give important assignments to Gail. Then it's completely up to her to justify their confidence.

AND WHAT'S NEW?

"What's new?" I asked Joseph Fields, Broadway producer-writer, who is in our town with his popular wife, Marion.

He said, "You mean with the world or with me?"

"We'll start with you first," I replied, so Joe came up with this interesting information about himself: His next Broadway show is "The Flower Drum Song," based on a book by Chin Y. Lee.

Joe will write and produce the play, and he says that he wants Eddie Robinson for the top role. Eddie has the book and likes it. He was so great in "The Middle of the Night" on the stage.

Of all things to happen to a glamor girl on vacation, Kim Novak fell in a patch of poison ivy on Maria Bandini's estate near Napoli. "And now I've turned into a mass of hives all over, have a high fever and then chills, and look terrible," Kim writes in longhand from Italy.

She goes on, "My friend Norma Kassell, Mario and I drove out to visit Mario's sister at their beautiful country estate. Nearby some ruins, just discovered, which may date back B.C., are being excavated.

"So it was exciting to explore these newly found ruins until, inside a high old tower, I was sure I saw something that was an ancient, undiscovered relic.

"Trying to get to my 'prize discovery,' I fell in this patch of poison ivy, and suddenly I felt as if I was on fire all over."

CANCELING JAUNT

Snapshots of Hollywood collected at random: The Clark Gables are canceling their trip to Canada so that Clark can start "Run Silent, Run Deep" with Burt Lancaster the day after Labor Day.

That was Johnny Stompanato with Lana Turner at the Tail o' the Cock.

Singer Dean Jones' wife is in UCLA Medical Center for tests. She has been constantly losing weight since the birth of their baby.

Acting like a couple of honeymooners, Corinne Calvet and Jeff Stone were at a table for two at the Little Gypsy Cafe.

Director and Mrs. William Dieterle were feted with cake and champagne today, the 27th anniversary of their first visit to the Hollywood Brown Derby.

The heat wave in town was started by cute chanteuse Sue Stanley at Ciro's.

School Speech Experts Take Part in Workshop

★ ★ ★

Mrs. Ila Mae Roback, 425 Kuhn St. and Mrs. Evelyn Gottchalk, 3716 Covert Rd., members of the school system's Special Services division, are attending the clinic which ends today.

OKs Annexation by Holly Village

County Boundaries Unit Endorses Takeover of 48-Acre School Site

The Boundaries Committee of the Oakland County Board of Supervisors has endorsed the annexation of 48 acres by the village of Holly.

The village had petitioned the Board of Supervisors to permit annexation of 280 acres in Rose and Holly Townships.

The land to be annexed belongs to the Holly Area School District. A new high school is being built on the site.

Holly's village manager, Norman E. Tufford, estimated that the annexation of the land would save $1,700 in fire insurance alone.

★ ★ ★ ★

Boundaries Committee Chairman William A. Ewart said that the group felt that the residents in the area were not fully acquainted with the annexation move.

At a public meeting in Holly Monday night attended by 200 persons, residents whose land was up for annexation protested they had not been informed of the action by the village officials.

★ ★ ★

The committee's decision will be submitted to the Board of Supervisors for approval.

SATURDAY IS CIRCUS DAY

Late Friday the circus trucks of the Benson Bros. circus will start arriving. The first of the fleet will be the cook house. After serving the evening meal to the working men and performers, the cook house is immediately taken down and goes on ahead to the next city where it will have breakfast ready as the fleet arrives.

The public will see a free show by going to the lot early Saturday morning to watch the scores of men transform a vacant lot into a tented city and covered with acres of canvas, truly a city of many a boyish dream of the sawdust and spangleland world of the circus.

One will see the daily chore of the elephants in helping raise the big top. Watch the young boys working carrying water and doing other chores to earn that free pass to the big show.

The circus will come here and exhibit at **Franklin Rd. Show Grounds** under the auspices of **Bemis-Olsen Amvet, Post 113.** Many children will attend the matinee as guests of the local merchants.

At **1:30 P. M.** the doors will open and at **2:00 P. M.** the great American institutoin of the entertainment world, the circus, will begin. The evening performance will begin at **8:00 P. M.,** and will feature a large menagerie of animals from every continent in the world as well as beautiful horses, acrobats, clowns, wire walkers, and many other features.

Next Year May Seal Fate of Nasser's Rule in Egypt

(This is the last of four articles reviewing the successes and failures of Egypt's five-year-old revolution.)

By CHARLES P. ARNOT

CAIRO (INS) — The next year may turn the card that will seal the fate of Gamal Abdel Nasser—one way or the other.

It could be boom—or bust.

Backed into a critical diplomatic corner over his flirtation with Moscow and facing a serious economic dilemma, the self-confident, determined ex-lieutenant colonel who has been able, year by year, to pull a new international rabbit out of the hat is certain to keep trying.

★ ★ ★

But first, most diplomatic observers expect Nasser to:

Concentrate on beating out the economic brush fire that now licks at Egypt's solvency.

Make a start, at least, on his "dream project" of the five-year-old revolution—the $1.2 billion Aswan High Dam.

The diplomatic concensus at this writing is that the next year will not be as flamboyant in "Nasserism" as last year (Suez nationalization) or the year before (Russian arms deal) or the year before that (British Suez evacuation agreement).

WON'T GIVE UP

But don't sell a confirmed conspirator short. With every subterranean means at his disposal and the mouthpiece of a powerful new radio transmitter, Nasser will hammer at the Arab masses to rally to the new Arab nationalism, meaning Cairo and Nasser.

His voice of the Arabs will keep booming: "Egypt has no quarrel with the Arab people . . . only with the rulers . . . wake up, you people!" What this means, of course, is down with Jordan's King Hussein, Saudi Arabia's King Saud and, naturally, the despised Nuri-Es-Said of Iraq.

With Egypt's population increasing at the fantastic rate of four per cent a year, Nasser must find employment for 100,000 new graduates at the end of each school term.

Eventually, the Aswan High Dam is supposed to provide 30 per cent more cultivable land and enable Nasser to diversify his one-crop (cotton) economy through light industry when Aswan is producing 10 billion kilowatt hours of power each year.

But can the dam (originally a 15-year project, now scaled down by Egyptian estimates to five) get going soon enough to keep pace with the tremendous population increase? It's doubtful.

Just what does Nasser really owe Russia and the satellites? That's the big question. He's trying to get back into the trade swim with Britain, France and western Europe.

REALLY NEUTRAL?

But his logistics tie with the Soviet bloc has become so fundamental that the question arises day after day: Can he really be neutral?

Careful analysts of the Middle East point out that Nasser's economic ties to the Soviet bloc have planted a forbidding roadblock to any close Arab unity short of another war with Israel.

As for the Israeli-Arab situation, it's significant that Nasser has ordered his propaganda machine to discontinue referring to the "annihilation of Israel."

★ ★ ★

But could the U. S. keep Israel from attacking any more today than last October? The Arab policy is peace along the truce lines—contain the Israelis in their parched sandspit and thus discourage any Israeli growth or development.

For their part, the Israelis must either expand or get irrigation water—or both—to survive. And they know they can whip the Arabs on the battlefield.

Like the future of Egypt and the fate of that fatalist, Gamal Abdel Nasser, war and peace still hang today in the Middle East by a slender thread.

Town Goes to Indians as Part of Celebration

TAMAQUA, Pa. (AP) — They're giving Tamaqua back to the Indians next month.

It was arranged last night at a pow-wow between the town fathers and representatives of six tribes from the Iroquois nation.

The Indians will take possession Sept. 27 and give Tamaqua back to the white man Oct. 9.

The transfer to original ownership is part of Tamaqua's celebration of its 125th anniversary.

One-third of the commercial forests in the U. S. are located on farms.

Insect Pests Around the Residence

By WAYNE B. SIEFERT
Asst. County Agricultural Agent

Since the series of summer rains, insects, gnats and various moths have become a serious problem. This is very unusual for mosquitoes. Hot summer weather usually destroys all the good breeding areas, but this year is an exception. Hot weather plus the standing puddles result in many mosquitoes because of the very fast breeding rate.

Mosquito control: Mosquitoes hide in cool, shady places during the day. These are shrubs, tall grass, weeds, eaves of buildings, etc. It is during the evening when they migrate in search of food.

Carefully spraying these hiding places with DDT will control those which are hiding nearby. But this kind of program will never control them all, and here is why: A certain number will fly directly to your living area without ever stopping in your shrubs or grass. These aren't killed except by slapping.

Mass spraying by plane or private company gets better control because they cover large areas, as well as the breeding areas. For shrubs and buildings, one thorough application should be sufficient for this season. Where weeds and tall grass is present, weekly DDT applications should be applied.

★ ★ ★

Repellents? Everyone has used the rub-on repellent 6-12. It has always worked well for me, but needs to be renewed frequently. Just this season a new repellent is on the market called OFF. This past weekend I used it while cutting some lumber in a swamp, and think it worked amazingly well.

A fragrant liquid similar to 6-12, it prevented the buzzing around type of annoyance which sometimes develops when using 6-12. I do suggest wearing clothing which cannot be bitten through, especially if you are hiking, fishing or forced to stay among a high population.

After this material was also rubbed over the clothing the problem was greataly reduced. The repellent apparently does not burn or become annoying.

★ ★ ★

Decoys: This type of strategy doesn't work with mosquitoes. Those insects which are attracted to lights can be drawn to a deserted part of the property by placing a continuous burning light there. Spraying the surroundings with DDT in turn can destroy large numbers of them.

★ ★ ★

Screens and Porches: Insects drawn by white light are not drawn by yellow light. Where gnats and moths are a problem on open porches, this yellow light idea might be worthwhile.

Where these insects accumulate on screens, and oftentimes crawl through, too, it is worthwhile to frequently spray these screens with DDT. One of the common observations with DDT, it doesn't kill them quickly. Much floundering around occurs before death.

But once on these impregnated screens, their death is certain! Many of the compressed air bombs which contain DDT also contain a material which causes temporary paralysis of the insect. This gives a very fast "knock-down" with DDT. The poison finally kills them.

★ ★ ★

Fruit Growers Tip: Many non-commercial fruit growers have just harvested their early apples. It is a great temptation to stop spraying the trees, and concentrate on the harvesting.

On plums it doesn't matter because the most serious insect, Plum Curculio, is no longer present. But late apple varieties are still in great danger. Codling moth, the apple insect, is emerging again and can completely destroy the late apple crop.

The apple maggot fly is also present in this area. The worm of this pest produces brown streaks in the apples and sometimes causes deformities. Unless spraying is continued serious losses can still develop.

Brown Rot on Plums: This year promises to be favorable for brown rot on plums. Rotting fruits are already appearing on some trees. This is a gray fuzzy growth on rotted fruits. When two fruits touch, bruises often develop and make an ideal situation for the rot fungus. All kinds of wounds, even during picking, contribute to very serious losses. Though no further sprays are necessary for insect control, the use of sulfur or captan for brown rot control may be necessary to prevent serious loss.

FARM News GARDEN

Scorched Twigs, Foliage Signs of Bacteria Harm

It's too late to give them their antibiotic "medicine," but ornamental fruit trees and rose family plants suffering from the singed-look of fire blight can still be ministered to in other ways.

Scorched foliage and blackened twigs are symptoms of bacterial invasion, spread by otherwise helpful bees. Apple, pear and peach trees, popular for home grounds landscaping, are frequent victims.

Up until now, preventive sprays have been ineffective. Today, sprays using almost infinitesimal and inexpensive amounts of streptomycin appear to offer good control.

★ ★ ★

Such medicinal sprays are effective only when applied while trees or plants are in flower. Three to four applications seem to act as a bacterial check. Once fire blight has spread, however, pruning is the remedial measure. Reason is the disease moves back from the blossoms into branches or twigs.

Cutback must be from two to three feet beyond the last visible evidence and into what appears to be sound, healthy tree tissue. Pruning of this nature usually is accomplished over a period of two to three years.

Because of the ease with which the disease spreads, pruning tools must be sterilized after every cut. The home owner who does his own surgery can swish his tools vigorously in a lysol solution.

Pontiac Press Photo

FINALLY BLOOMS—Mrs. James H. Klipfel, 830 Lake Angelus Shores here displays a pink hydrangea plant with two blossoms, each measuring about 14 inches in diameter. Put in the ground three years ago after being received as a hot-house plant, the hydrangea bloomed for the first time this summer. There are three more buds, a bluish-orchid color, about to blossom, according to Mrs. Klipfel. Since hot-house plants are not as healthy as natural plants, they need extra protection in cold weather, such as more straw and burlap.

Secret Is Regularity

Day by day the sun grows hotter and hotter, but wise gardeners know that by regular hot weather care, they can keep their rose bushes blooming in all their summer magnificence. The whole secret is regularity, and experts say that just a few hours a week will maintain the rose garden as the neighborhood showplace.

Dry Weather Lessens Work

Control Weeds Now to Prepare Earth for Seeding

If you are planning to seed a lawn, August is the time to do it according to C. M. Harrison of the farm crops department of Michigan State University.

The usual dry weather of August helps in weed control and makes the soil easier to prepare. The grade should be sloped away from the house and the top soil should be spread and disked in during the first two weeks of August.

A high nitrogen fertilizer such as 12-6-6, 10-6-4 or 10-10-10 should be applied at 15-25 lbs. per 1,000 sq. ft. and then the seed bed should be finished out smooth.

★ ★ ★

One to two pounds of seed will cover 1,000 sq. ft. Aug. 15 to Sept. 1 is the best time, just before the fall rains.

Harrison suggests the seed be allowed to germinate and start growing before water is applied but after it is started the seedlings should not be allowed to wilt.

Later seeding does not allow enough growth and winter killing will result.

The good grasses take more time to establish but a little patience will produce the finer lawn.

Gains in Crab Grass Battle

BY GARDNER ZADE
NEA Service Staff Writer

Crab grass is still the No. 1 weed in fine turf despite the intense efforts on the part of gardeners to eradicate it.

Broadleaf weeds are pretty well under control with the development of chemical weapons.

There is evidence that a vigilant battle against crab grass is becoming more effective. There are many brands of chemical compounds on your dealer's shelves to use as ammunition.

★ ★ ★

Crab grass is an annual grass, many branched and spreading, turning up at the end to bear several slender stalks at whose tops are borne three to 10 slender spikes, each bearing 100 or more seeds.

And, unfortunately, the seeds live several years in the soil waiting for a favorable moment to germinate.

Despite the belief of many folks, crab grass does not live over winter and come to life each spring. The plants die each autumn and the seeds survive to come to life late in the spring.

These seedlings are easily identified when they sprout. Each is a slender, furled leaflet about a quarter-inch tall. A second leaf develops before the plant is a half-inch tall. From then on real growth appears.

★ ★ ★

The seedlings are distinguishable by their light yellowish-green coloring.

It is in this early stage that the most effective blows can be gotten in against crab grass. Of the many materials used and tested over the years, a water-soluble phenyl mercury organic compound and potassium cyanate have been constantly effective — providing the manufacturer's directions and precautions are observed.

These chemical are slow-acting and it often takes a month or longer for a complete kill. Best results are obtained before the crab grass reaches maturity.

William E. Zimmerman, turf specialist, says that two or three applications of potassium cyanate spray are usually required for 100 per cent control.

★ ★ ★

His tests show that the spray will get rid of chickweed, goose grass, crowfoot, purslane, lamb's quarters, pigweed, knotweed and other intruders at the same time the crab grass gets the heave-ho.

All experts agree that the lawn should be mowed to a height of an inch or so a day or two before first application is made. Heavy clippings should be removed to permit the chemical to reach the crab grass.

★ ★ ★

The killing compounds of today are easy to use, are harmless to the soil and will not kill shrubs, trees or flowers unless sprayed directly on them. Properly applied, they will not kill your quality grass.

Survey States Michigan Paper Production High

Thirty thousand workers in 189 Michigan pulp, paper and paper products mills produce 289,859 tons of wood pulp 1,753,831 tons of paper and paperboard annually, and thousands of tons of manufactured paper products, according to Charles G. Allen of Detroit, chairman of Michigan Forest Industries.

★ ★ ★

Michigan ranks fifth in paper and paperboard production, Allen said, behind Wisconsin, New York, Louisiana and Florida.

The United States produces two-fifths of the world's wood pulp. This is more than twice that of second-ranking Canada, and ten times that of fifth-ranking Russia.

★ ★ ★

Michigan ranks eighteenth among the states in this category, producing 1.4 per cent of the nation's total. Allen predicted a sharp rise in Michigan's position, pointing to considerable pulp mill expansion now in progress in the state.

Quality Seeds Will Produce Superior Lawn

Well worth the extra cost is a package of good quality lawn seed rather than a cheap mixture loaded with annual grasses that will not last, giving up space to weeds and crabgrass.

Good quality seed, when properly sown and cared for, can give a superior lawn, as good as any ever grown from sod.

Though sodding produces quicker lawn than seeding, by six to ten weeks, the final result is no better. The quality of a lawn depends on the adaptability of the grass and the type of care given it.

The best time to start a lawn from seed is between mid-August and the last of September. Warm days and cool nights help seeds germinate fast, establishing a good stand quickly.

A new booklet on rose care and culture may be had by sending a stamped, self-addressed envelope to All-America Rose Selections, Room 3006, 45 Rockefeller Plaza, New York 20, New York.

From the Press Box

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

Boys' Clubs all over the country have taken a great burden off the shoulders of the law in curtailing juvenile delinquency.

★ ★ ★

In many instances law enforcement agencies have spearheaded the start of Boys' Clubs, just as members of the local Sheriff's department helped to initiate the Auburn Heights club just about two years ago.

"There was very little for the boys in the Avon Township-Rochester area to do, in fact the delinquency rate a few years ago seemed rather high," said Bud Neal, one of the board of directors of the club.

"In less than two years, it is amazing just how the delinquency rate has dropped and how much has been accomplished in club quarters of the American Legion home on Churchill road," Neal added.

★ ★ ★

NOW NEED MORE SPACE

However, with its growth, the problem now is that of space. The present club can actually handle only 40 boys at one time, and the membership is well over 200.

People in the Avon area have begun to realize how important the Boys' Club has been in curbing delinquency and providing their sons with activity.

★ ★ ★

Donations have swelled, and a real estate firm headed by the Crisp brothers, Wendell and Kenneth, have even donated a piece of land.

Now the plans call for a building. Fund raising projects like Friday dances, and a coming talent show September 25th, a father-son banquet August 21st, and other activities are scheduled.

It's worth all the money the people of the Avon-Auburn area can scrape up, to put the boy on the right path and keeping him there.

★ ★ ★

"MEET THE LIONS" BANQUET

Signs or no signs, people are flocking into the Lions' training camp at Cranbrook. It may result in policing if it continues.

The fans will have the opportunity to gather with the Lions at the annual "Meet the Lions" banquet Monday, August 12th at the Hotel Statler in Detroit. Tickets can be obtained by calling the Lions office in Detroit.

Guest for the evening will be Otto Graham, former quarterback great of the Cleveland Browns.

★ ★ ★

DITTOS FROM THE PRESS BOX

. . . Ron Zatkoff, brother of Hamtramck's Roger whom the Lions would like to get from Green Bay, is back with the Redskins as a 6-foot-5; 212-pound end candidate. He was in the Navy from 1952 to 1956 and played only service ball.

BOSS' MAN—Manager Birdie Tebbetts of Cincinnati calls the Reds' Brooks Lawrence, shown fingering the ball, the best pitcher in the National League.

Young Hawaiian Swim Hopeful

Onekea Meets World Record-Holder Breen in AAU Meet

PHILADELPHIA (AP) — An 18-year-old Hawaiian ukelele player challenges the supremacy of a world record-holder today in the 1,500-meter event of the men's senior National AAU swimming and Diving Championships.

★ ★ ★

Youthful George Onekea of the Hawaii Swim Club, whose 18:58.02 clocking last night led eight qualifiers into tonight's 1,500-meter final, clashes head-on with George Breen, defending champion of the Buffalo Aquatic Club and holder of the world standard for the event, 17.52.9.

★ ★ ★

Two other championships, the 3-meter diving and the 400-meter individual medley also will be decided today on the second program of the four-day meet at John B. Kelly Pool in Fairmount Park.

Joy Fair Takes Another

Joy Fair of Pontiac kept up his winning ways last night, driving his modified hardtop to victory in the 30-lap feature race at Motor City Speedway. Mickey Katlin of Howell finished 2nd and Pontiac's Joe Doyle took 4th.

Lary Didn't Win, but He Saves Game

Doak Denies Rumors of Comeback

Remember Lions' No. 37?

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Remember jersey No. 37 which roamed the grid pastures of Briggs Stadium for six years? They retired that jersey number as one of all-time greats of the Detroit Lions.

Yesterday, the owner of that jersey, Doak Walker, was back in football attire working out at Cranbrook with the Lions. Immediately, the rumor was in the wind that the Doaker was starting a comeback.

★ ★ ★

First mention of it came from a Dallas newspaper which reported that Walker, now 30, would return to the Lions in some capacity, player or coach, but probably as a player.

"If Doak is making a comeback, it's news to us," said general manager Nick Kerbawy yesterday.

Walker, who has been in camp since Tuesday, was hitting the dummies and picking off aerials like the rest of players.

"He asked it he could work out with the team for a few days, and naturally we were happy to have him," said Kerbawy. Walker said he was too involved with his business and could hardly get back into pro football.

He told coach Buddy Parker that last year he "had the urge to play again, but business did not permit it."

Some observers figure that a comeback was not out of the picture. Walker has not lost any of his speed, and with Tobin Rote, a long passer in the fold, Doak would be a valuable man to have downfield on the receiving end.

A unanimous all-pro in four seasons, Walker holds the lifetime scoring record while at Detroit with 534 points.

The entire squad of 51 went through two workout sessions yesterday, including Val Joe Walker, defensive halfback obtained from Green Bay in the recent trade.

Val Joe arrived at Cranbrook at 4:00 a. m. and was in uniform for 10:00 a. m. drills.

★ ★ ★

One of the most dejected players in camp was Gordon Malloy, former Miami University halfback who was attempting to make the squad after sitting out a year with leg injuries and surgery.

Malloy, a 1955 draft choice, suffered a leg injury in All-Star camp that year. He went through an operation last year and after two years reported to Cranbrook.

★ ★ ★

Yesterday the leg started to pain him and forced him out of workouts. After a visit to Ann Arbor hospital doctors told Malloy he would have to quit football.

Another rookie, John Gibbens, 260-pound tackle from Southwest Texas State left camp.

With a change in the offensive system, in which the slot back position has been eliminated, Lion quarterbacks went through passing drills. The surprise of the four quarterbacks in camp was Jerry Reichow who was hitting his receivers well.

The first full scrimmage will take place next Wednesday, August 7th.

Record 42,693 Attend Harness Racing Opener

WESTBURY, N.Y. (INS) — The opening of the new $20,000,000 Roosevelt Raceway harness plant last night attracted a spectacular attendance turnout which apparently included more spectators than bettors.

The attendance was announced as 42,693, which is a new world record for harness racing, topping the old figure by more than seven thousand.

The huge crowd became entangled in fantastic jam-ups and confusion and ended up betting just $1,639,114, some $22,000 short of the track record and nowhere near the all-time harness betting record of $2,151,175 set at Yonkers Raceway in 1954.

The new plant, decorated in 203 shades and hues and complete with parking space for 14,000 cars, boasts a grandstand 11 stories high.

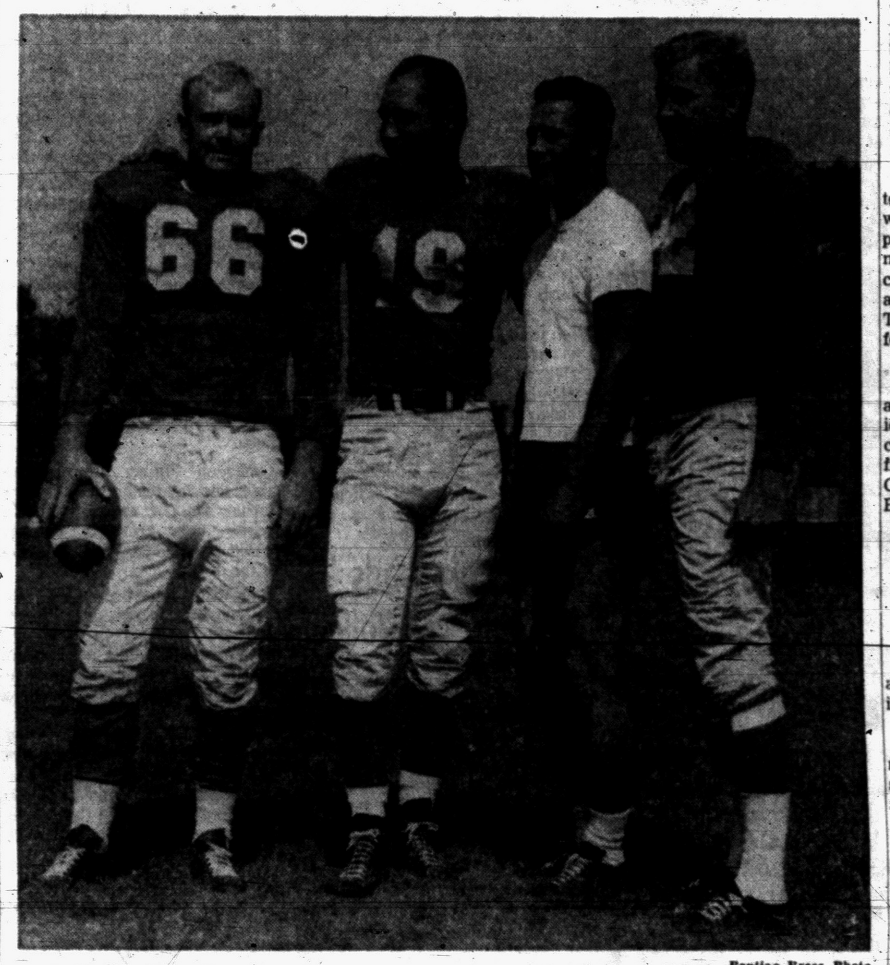

Match Play Starts DDGA Championship

Match play began today for 32 qualifiers in the annual Detroit District Golf championship.

None of 139 entries in yesterday's qualifying round were able to crack Western Golf Club's par-72, and Pontiac's Lloyd Syron failed to qualify with an 81.

Defending champion Tom Draper and 1952 champ Dick Whiting took low qualifying honors with 73s.

Among the area entries who made the grade were Dr. Fritz Adams (76), Jim Fox (78), and Dick Graves (78) all of Orchard Lake. Bob Erdelon of Indianwood fired a 76.

Pontiac Press Photo

JUST VISITING? — Doak Walker (third from left), former star halfback of the Lions, gets together with a trio of other Texans at Cranbrook where the pro is working out. Rumors are, Doak has the urge for a comeback. With him left to right are Harley Sewell (66), from the University of Texas; Tobin Rote (19) from Rice and Bobby Layne (22) also of Texas.

SPORTS

Red Sox Rally Halted in 9th in 7-5 Victory

Foytack Takes Mound Tonight Against Nats in Washington

BOSTON (AP) — Frank Lary, a 21 game winner last season but unable to notch his fifth victory this year, has once again proven his ability to snatch chestnuts out of the fire for the Detroit Tigers.

★ ★ ★

Lary was hastily summoned from the bullpen yesterday to stop a Boston ninth inning rally at four runs and to save a 7-5 victory for Detroit.

Lary's performance saved the decision for winner Duke Maas.

The former Alabama athlete, who has won only four games in 14 starts this season compared to the 21-13 record he assembled last year, was summoned from the bullpen after Maas was driven out and Harry Byrd couldn't contain the Red Sox.

★ ★ ★

The odds that he would be able to bail the faltering Tigers out weren't good. The Red Sox had pushed four runs across, had two men on and no outs. But Lary calmly nabbed Norm Zauchin on a double play and then struck out Ted Lepcio in a dramatic performance which saved the Tigers.

★ ★ ★

The victory moved Detroit into a tie for fourth place in the American League with Cleveland. Both clubs lag 15 games behind the front-running New York Yankees, Chicago and 3½ behind third place Boston.

Maas, whose record now stands at 8-7, scattered the hits well in the first eight innings and the Tigers held a comfortable 7-1 lead going into the ninth.

★ ★ ★

But the Red Sox decided to rally and picked up four runs in that inning before Lary stopped them.

★ ★ ★

Detroit takes on Washington tonight. Paul Foytack (12-9) is scheduled to start for the Tigers and Chico Pascual (7-11) for Washington.

On 2 Homers by Tired Musial

Cards Regain Lead

NEW YORK (INS)—Quick now, name the No. 1 player in baseball today. Did you say Mantle . . . Williams . . . Aaron . . . Mays? If you did, stay out of St. Louis, because Stan The Man still is the greatest to those delirious Cardinal fans.

Thanks to Stanley Frank Musial, the Redbirds are back in first place in the National League pennant dogfight today by two slim percentage points over Milwaukee.

With the Braves idle yesterday, the Cardinals had a chance to erase Milwaukee's half-game lead and take over the top spot by beating the New York Giants.

The big question was Musial's ability to play. Even Card General Manager Frank Lane knew his 36-year-old star needed a rest.

★ ★ ★

"Musial refuses to take it easy," said Lane before game time. "He wants to play as long as the race is so close, even though he's so tired he hardly can swing a bat."

Manager Freddy Hutchinson echoed Lane's sentiments and started Musial. He was tremendous.

In the first inning Musial hit a two-run homer off Johnny Antonelli, one of the best southpaws in the league. Stan the Man added two singles later and rapped another two-run homer off reliever Jim Constable, another lefty.

★ ★ ★

Musial then was given the rest of the night off, but the batting barrage provided Sam Jones with all the margin he needed for an 8-to-0 win over the Giants.

The 4-for-4 night gave Musial a batting average of .336, just three points behind Hank Aaron's league leading figure, and 83 runs batted in, tops in both leagues.

It also lifted Musial's career home run total to 376 and his total number of extra base hits to 1,140, moving him past Ty Cobb and leaving him behind only Babe Ruth and Lou Gehrig in the extra base department.

★ ★ ★

The victory, the sixth in a row for St. Louis, was Jones' ninth, as many as he won all last year. Antonelli now is 10-and-11.

In other NL games yesterday, Gil Hodges hit the 13th grand slam of his career to lead Brooklyn to a 12-3 rout of the Chicago Cubs to move the Dodgers within 1½ games of 1st and Cincinnati rallied for three runs in the 8th to beat Philadelphia 4-3 in a battle for 4th place.

★ ★ ★

That belt by Hodges gave him the National League lead over such former great sluggers as Ralph Kiner and Rogers Hornsby. Gehrig is the Major League leader with 23.

Hospital Upsets Franklin, 15-14

Eddie's Clinches Berth in Softball Playoff by Nipping Oxbow, 8-7

Franklin Products lost its last chance to share or win the International League softball title last night when Pontiac State Hospital pulled a 15-14 upset in a wild, see-saw battle at North Side Park.

★ ★ ★

Four walks and a hit batsman forced home two runs in the bottom of the 7th inning to give the Hospital nine its surprise win. Bill Ligon slammed two homers in a losing cause.

★ ★ ★

Eddie's Bar clinched a berth in the National League playoffs, which start Sunday, by rallying to nip Oxbow Pavillion, 8-7. The winners scored four times in the 7th to avert an upset.

★ ★ ★

Louie's Tavern collected a dozen hits for a 17-1 rout of CIO Local 653 at Beaudette Park. Lane's Drive-In forfeited to Dostal Foundry in the other scheduled softball game.

Gets Ready for Pontiac Fight

Crawford Takes It on the Nose

It isn't often that Mickey Crawford, Saginaw's fast-rising welterweight contender will take all the punches without returning a few.

★ ★ ★

But when Crawford started his serious workouts this week for the feature bout at Wisner Stadium August 13th, he let down his guard and took several punches in the nose from his sparmate George Green at the Motor City Arena.

For Crawford it was a test. He wanted to see if the nose, which required six stitches to close after the Pat Lowry fight three weeks ago, was ready to withstand some punishment.

Satisfied with the experiment, Crawford is now continuing fast daily workouts for his bout with Sammy Rodgers, an upcoming pro who established phenomenal amateur record of 140 wins in 144 fights, including 112 knockouts.

Rodgers, a product of Benton Harbor, is now fighting out of Chicago as a pro. Among his titles are the National AAU and the All-Army championships.

Known for his fast jabbing right hand, Rodgers could be one of Crawford's toughest tests so far. Crawford lists among his 17 pro wins former world lightweight champions Paddy DeMarco and Wallace (Bud) Smith.

A week from today both Crawford and Rodgers will set up training camps here.

After the Pontiac engagement, Crawford still has a commitment to appear in a TV bout from New York's St. Nick's arena.

★ ★ ★

Tickets for the fight are on sale at numerous places in the Pontiac area, and they will be available at the trainings sites and at Wisner Stadium Monday night before the bouts.

Included on the card is Osee Groom, Detroit's heavyweight Golden Gloves champion, who has won four fights since turning pro in March. Groom will meet New York heavy Bill Pickett.

Sponsor of the fight card is the Iraq Grotto of Pontiac for the benefit of the cerebral palsy Crippled Children's Home.

Pontiac Press Photo

PASSES NOSE TEST — Julius Piazza, fight promoter, checks the nose of Mickey Crawford, who suffered a deep gash three weeks ago in his fight against Pat Lowry in Saginaw. Crawford, young Michigan welterweight sensation who has won 17 of 18 pro fights, passed his first nose test in a few sparring rounds yesterday in preparation for the August 13th fight against Sammy Rodgers in Pontiac's Wisner Stadium.

Buxbaum Upset in Public Links

HERSHEY, Pa. (INS) — Don Essig, III, of Indianapolis, a teen-aged terror who already has eliminated the tourney's defending champion, moved into the semi-final round of the National Public Links golf tourney today.

★ ★ ★

Essig, who recently passed his 18th birthday, plays Don Sckrabulis of Kewanee, Ill., in today's 36-hole semi-final round while Gene Towry of Dallas, Tex., meets J. Paul Popovic of San Francisco.

Yesterday, Essig took a one-hole lead over defending champ Junie Buxbaum of Memphis, Tenn., on the 11th green and held it until Buxbaum evened the count on the 18th. It took only one extra hole for the youngster to beat his 39-year-old opponent, who once made his living as a professional.

Annual Softball Playoffs Start Sunday in Pontiac

The annual men's City League softball playoffs get under way Sunday afternoon at Peaudette and North Side parks.

At stake will be berths in the district Michigan Recreation Association tournaments in classes A, B and C. All city playoffs are double elimination.

The top four teams in the International League — Pontiac Police, Franklin Products, Deni's Corner and Pontiac State Hospital — will clash for the Class C city crown.

Richard's Tavern, Louie's Tavern, CIO Local 653 and Eddie's Bar—the four best clubs in the National division—are contestants for the Class B title.

The Class A district tourney berth will go to the winner of the American loop playoff involving Birmingham, Elks No. 810, Bicmar Inn and Stadium Inn.

Shaw's Jewelers, who had long since wrapped up the American League title, will be this city's representative in the MRA's Class AA district tournament. The Jewelers enter the district major Aug. 15-18 at Roseville.

The Class C tourney begins at 4:30 p.m. Sunday, followed by the 'B' teams at 7 o'clock and the 'A' clubs at 8:30.

Drawings for the city playoffs will be held tonight at 6:30 at 37 Chippewa in Pontiac. Pairings will be announced tomorrow.

Wins by Half-Length

JACKSON—Miss Ellen Direct, calling on a tremendous finishing kick in the final half mile, won the Michigan Center Mile by a half-length over the fast closing Gallant Jerry last night at Jackson raceway.

St. Jef owned by Ben Jerome of Pontiac turned in a sharp effort in winning the 7th race with Don Hall in the sulky.

THURSDAY'S FIGHTS

LOS ANGELES — Howard King, 188, Reno, Nev., outpointed Bob Albright, 218, Los Angeles, 10.

WEST JORDAN, Utah—Don Fullmer, 162, West Jordan, stopped Joe Mortensen, 158, Salt Lake City, 3.

Lane Tries to Pull Out of Coast Bout

OAKLAND, Calif. (AP) — An attempt by Kenny Lane's board of strategy to pull the No. 1 ranking lightweight contender out of an Aug. 15 bout here met California Athletic Commission opposition yesterday.

Lane, who hopes for a title shot this fall, is scheduled to meet Oakland boxer Johnny Gonsalves here. A loss to Gonsalves, who fell from the top 10 rankings last month, would virtually ruin any chances of Lane getting a chance to fight champion Joe Brown.

Oakland promoter Jimmy Dundee reported receipt of a letter from Pete Petroskey, Lane's manager advising that Jack Kearns wanted the fighter pulled out of the match. Kearns has an interest in the left handed lightweight.

Tomorrow night Lane is scheduled to meet Teddy (Redtop) Davis at Muskegon.

Reds Option Thurman

CINCINNATI, Ohio (INS) — The Cincinnati Redlegs have optioned reserve outfielder Bob Thurman to Seattle in the Pacific Coast League as part of the deal which has obtained them outfielder Joe Taylor.

Expect Kill of 18,540

'Any Deer' Permits May Be Increased This Year

LANSING (AP)—Recommendations for "any deer" hunting seasons this year in 32 food shortage and crop damage areas will come before the state conservation commission at its Aug. 8-9 meeting.

Conservation department proposals call for issuance of 60,430 hunting permits and an anticipated kill of 18,540 deer of any age or sex during the special seasons.

The harvest would exceed the special season goal of last year by about 2,000, and would be in addition to the regular buck kill during the standard Nov. 15-30 shooting period.

In 1956, nearly 61,000 bucks were bagged during the regular season and 12,800 more by special season hunters in 22 areas.

Five of the proposed special season areas ~~for this fall~~ would be in the Upper Penninsula, 26 in the northern lower peninsula and only one in the remainder of the state. About 12,300 square miles of territory would be involved.

A major change recommended by the department would establish concurrent Nov. 15-30 "any deer" seasons for permit holders in all five U. P. locations, and in 13 of the 26 special areas in the northern lower peninsula.

Dates from Dec. 1-8 were recommended for a crop damage area in Allegan County, and special shooting dates Dec. 1-2 in the other locations.

Recommended quotas would include issuance of 5,680 permits to take 3,060 deer in the U. P.; 53,250 permits for the northern lower peninsula, to take 15,390 deer, and 1,500 permits for the Allegan County area, designed to harvest 90 deer.

Brodie All-Star Passing Leader

Sparks Aerial Practice as Collegians Work on Protection

EVANSTON, Ill. (AP) — John Brodie, Stanford's classy quarterback, stole the spotlight yesterday as All-Star coach Curly Lambeau put his quarterback crew through a passing drill.

Brodie's short and long passes highlighted a drill at Northwestern's Dyche Stadium as the collegians brushed up on pass protection. Notre Dame's Paul Hornung, Jim Harris of Oklahoma and Purdue's Len Dawson also show up well for the collegians.

All-Star linemen received attention with coaches putting the emphasis on low tackling for the All-Stars game with the world champion New York Giants Aug. 9 at Soldier Field.

Wayne Bock, the Chicago Cardinal choice from Illinois, Henry Jordan of Virginia, and big Mike Sandusky of Maryland impressed.

Jordan, the 240 pound Cleveland Browns draft pick, and Bock are expected to see much action defensively for the collegians.

Cranbrook Leads 'D' on Win Over Police

Cranbrook took over 1st place in the Class D junior baseball league by downing the Pontiac Police nine 3-1 in a pitcher's duel yesterday. The victory broke a tie between the teams for the lead.

Tom Estes won it on a three-hitter as Cranbrook put together two hits, a walk and fielder's choice to break a 1-1 deadlock in the 5th and beat Terry Zellhart. Auburn Heights just missed winning its 1st one in the other "D" tilt bowing to Don Nicholie 5-4 for defeat No. 11.

Other scores:

CLASS E
Lytell-Colgrove 10, Red Sox 5.
Boys' Club 7, Dick's Sales 0 (forfeit)
Lytell-Colgrove 2, A & R Cartage 1 (finished last inning of July 27 game)

CLASS F

No-Hitter in Relief

A no-hit relief performance by Dick Shell after one out in the 1st inning paced loop-leading Spencer Floor Covering to a 9-2 triumph over Gall's Service in the Waterford Junior Softball League yesterday. Rocco's downed Pontiac Rolladium 16-13 in another game.

Boyd Seeks 5th Straight

NEW YORK (INS) — Middleweight contender Bobby Boyd of Chicago will go for his fifth straight win tonight when he meets Willie Vaughn of Los Angeles in a nationally - televised (NBC) 10-rounder at St. Nicholas Arena.

Boyd is ranked ninth among middleweight contenders, one step ahead of Vaughn.

Bert Bell Supports NFL Players

Nine Pro Clubs Voice Approval of Recognition

Commissioner's Action Draws Criticism From 3 Other Teams

WASHINGTON (AP) — The National Football League (NFL) players' union, hardly out of infancy, enjoyed unexpected recognition today, but it still faced uncertainties in getting along with pro football management.

Officials of nine clubs voiced approval when NFL commissioner Bert Bell announced yesterday he would recognize and negotiate with the recently created NFL players assn.

Spokesmen for three others didn't condemn Bell's action — but neither did they do handsprings as a result of it.

Bell chose a house antitrust subcommittee hearing as the scene of his announcement.

Failure to recognize and bargain collectively with the players organization would be "against the best interest of the national football league and the public," Bell said.

The subcommittee is investigating football and other professional team sports to determine whether they should be immune from federal antitrust laws. Past refusal of NFL club owners to accept the players' association had nettled several lawmakers, including subcommittee chairman Celler (D-NY), Reps. Keating (R-NY) and Rodino (D-NJ). They commended Bell's decision.

Creighton Miller, the ex-Notre Dame backfield star who is now attorney for the association, said he was "most gratified" as long as Bell was empowered to speak for the league.

Bell told the subcommittee the NFL constitution gave him full authority to bestow recognition. He said he had not sought prior assent from the club owners who had refused recognition at their annual meeting last winter.

George Preston Marshall, president of the Washington Redskins and an undisguised foe of the association, at first commented he is "very fond" of Bell but that "commissioners sometimes have a habit of talking too much."

AP Wirephoto

MICHIGAN ALL-STARS — These six football players from Michigan schools are working out with the College All-Stars who will meet the New York Giants next Friday August 9th. Left to right are: Jim Podoley, Central Michigan; Clarence Peaks, Michigan State; Terry Barr, Michigan; Ron Kramer, Michigan; John Matsko, Michigan State and Tom Maentz of Michigan.

Evans, Fleck and Burkemo at 71

Oliver's 66 Leads All-American Meet

MICHIGAN SCORES:

Burkemo, Franklin Hills	38-33—71
Evans, Rochester	35-36—71
Fleck, Rochester	35-36—71
Johnson, Farmington	35-37—72
Talkington, Ypsi	36-36—72
Nary, Wayne	36-37—73
Dietz, Lake Orion	37-37—74
Malain, Bloomfield Hills	37-37—74
Brizes, Lansing	36-38—74
Kusma, Jackson	41-42—83
Devany, Grosse Ile	42-43—84

CHICAGO (INS) — Ed (Porky) Oliver, who fired a first round six-under-par 66, leads a closely packed field today in second round play of the $35,000 All-American golf tournament at Tam O'Shanter.

The 40-year-old Oliver's nearest rival for top money of $3,420 is Billy Casper Jr., of Bonita, Calif., whose 67 leaves him only a stroke behind the leader.

In the women's pro division, Fay Crocker of Montevideo, Uruguay, and Beverly Hanson of Indio, Calif., with identical 71s, lead the field of 31 with three-stroke margins.

Trailing Oliver and Casper, the leaders, with 68s were four players — Sammy Snead of White Sulphur Springs, W. Va., Shelley Mayfield of Jericho, Long Island, N. Y., Tommy Bolt of Los Angeles and Gay Brewer of Cincinnati, O.

Three Michigan men were also among the leaders. Bunched with 12 others at 71 were Max Evans, Rochester; Jack Fleck, also of Rochester, and Walter Burkemo of Franklin.

Three Michigan women were among the leaders.

Wiffi Smith of St. Clair was tied with two others at 80; Patricia Devany of Grosse Ile was in a two way tie with 84 and Barbara Rotvig of Ann Arbor stood all alone with 94.

★ ★ ★

Oliver has ~~not won a tournament~~ since June, 1956. Casper this year has captured the Phoenix Open and the Kentucky Derby Invitational.

Brewer, one of the four players who finished with 68s, lost a chance to tie Casper on the 18th green when he missed a 10-foot putt.

Fifty-nine of the 161 male pros equaled or bettered par of 72 in the first round. The field will be cut to scorers in the 60s, plus ties, following today's round.

Eight players, including Roberto de Vincenzo of Mexico City, wound up with first round 69s.

Most of the big names, including Dr. Cary Middlecoff and Doug Ford, the leading money winner this year, failed to impress. Middlecoff shot a 72 and Ford a 73.

Jets Rock Shaw's, 15-2

Union 9 Gets Big Chance

CIO Local 594 gets a golden opportunity to seize the lead in the tense Class A City Baseball League race today in a 1st place battle with Shaw's Jewelers at Wisner Field.

The stage was set for the late-season showdown when the Pontiac Jets handed the league-leading Jewelers a 15-2 pasting last night on the Wisner diamond.

Shaw's demise at the hands of the Jets almost overshadowed a brilliant no-hit, no-run performance by Jim Jones as Griff's Grill defeated the Michigan Giants, 2-0, at Jaycee Park.

This is the situation as the CIO and Shaw's prepare for their 5:30 p.m. struggle. The Jewelers are in 1st place with a 14-4 record while the Union team occupies the runner-up position on a 12-4 mark. A victory for the CIO today would drop the Jewelers into 2nd place, 28 percentage points behind the Union. Shaw's still has one game remaining after today, a Sunday duel with the Giants. The CIO will have three games to go, a Sunday tilt with Griff's and two make-up contests next week with the Jets.

The dangerous Jets wasted little time with Shaw's yesterday. They scored 4 runs in the 1st inning and kept up the pressure by counting at least once in every stanza but the 4th. Their best inning was a five-run 6th.

They assaulted three Shaw hurlers for 22 hits, including three apiece by Gene Cox, Joe Soto, Lee Beaver and pitcher Jim Addis. Addis worked the route for the Jets and scattered seven blows.

Jones hit three batters but didn't walk a man and struck out 12 in his no-hit masterpiece. John Shanks gave Jones all the support he needed by blasting a home run to lead off the 2nd inning.

Jets	411	015	3	15	22 0
Shaw's	100	000	1	2	7 2

Addis and Osika; Reaver, Kebler, Bishop and Podulka.

Griff's	110	000	0	2	8 1
Giants	000	000	0	0	0 2

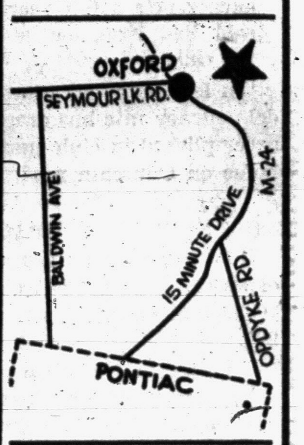

Jones and Berg; B. McGuire, Vachon and H. Moore.

CHURCH AS NCAA CHAMP IN 1945

Church Led Nation's Swimmers

Remember the Sports Stars of Yore?

(This is the 14th of a series of articles about former outstanding athletes from Pontiac and Oakland County and what they are doing today. We feature today former Pontiac High and national swimming ace Mert Church. Featured tomorrow will be Al Fortino, once a top star at Holly.)

One of the outstanding swimmers ever turned out by Pontiac High School and the University of Michigan didn't really learn how to swim until he went out for the school team. He was Merton Church, now a resident of Trenton.

★ ★ ★

Church learned the sport fast once he got started and went on to become a state champion the following year and the nation's "swimmer of the year" three seasons later at the U. of M. Quite an accomplishment for anyone, let alone a fellow who only started zipping around the pool as a high school junior.

★ ★ ★

Merton tried out for the PHS team in 1938 as a Sophomore when he "could just about stay afloat." He made it the next winter under the close direction of coach Kline Hartmann and took Michigan freestyle honors in '40.

★ ★ ★

"I didn't play any other sports. I went out for track once but had to give it up after two weeks due to having too many charley horses," commented Church.

He went to Michigan in 1941 on an Alumni scholarship for scholastic ability based on the above-B average he had through high school. It covered tuition only so he had to work to pay for the rest.

★ ★ ★

After some informal swimming as a freshman, he teamed with such tank stars as Charley Freese and Strother Martin to pace the Wolverines to two Big Ten crowns and top finishes in national meets.

Church captained the team his senior year under Matt Mann.

★ ★ ★

Mert started winning college honors as a sophomore and got better with age. He won the 1st of three straight Big 10 50-yard freestyle titles, placed 2nd in the NCAA meet and was runnerup in the league and NCAA 100's that year.

★ ★ ★

His ranking among the nation's greatest started the next season and he soared to the top in 1944-45; NCAA coaches picked Church "swimmer of the year" after he swept 50 and 100 honors again as a senior and set a state AAU record in the 100 freestyle.

Despite his desire to continue on in competitive swimming, Mert had very little opportunity to do so following graduation.

His hopes for making the Olympics were wiped out when the world event was called off during the war years. He spent two years trying to organize YMCA swimming leagues for men around Boston but could not drum up enough interest to make it a success.

★ ★ ★

Church, who married shortly after his school days ended, returned to this sector in 1947. He had found only two swim meets to take part in durjng two years so he gave up the battle.

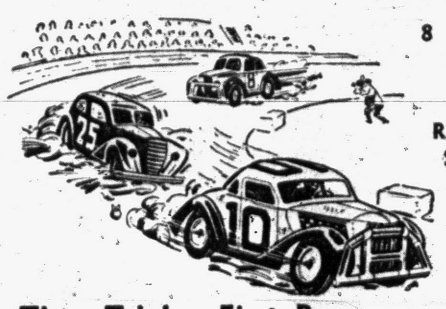

Pleasure swimming and "floating around the bathtub" are his only connection with water now although he does give some pointers to three of his four children.

The Churchs have allowed their seven-year-old boy and twin five-year-old girls to learn the ropes under regular swim instructors but do offer some pointers at home. The other young Church is only one.

Merton has worked at various places around the Detroit area since going East. He is now senior designing engineer at the Wyandotte Chemical Co.

His mother, Mrs. Irene Church, still lives here in Pontiac.

Entries Lag for Saturday Qualifiers at City Links

Entries are lagging for Saturday's 18-hole City Medal Play qualifiers at Pontiac Municipal course.

Forty-three golfers took part in last year's qualifing rounds over the same layout, but the 1957 entry is running well behind that figure, according to the Pontiac Parks and Recreation Department.

The low 20 shooters plus ties in Saturday's qualifiers will join the past champions and the five low 1956 finalists for the City Medal Play championship Saturday and Sunday, Aug. 10-11, at the Municipal links.

Jim Pettiford of Pontiac, No. 1 qualifier a year ago, is expected to return for a 2nd try at medalist honors.

★ ★ ★

All former city champs and the low five scorers of the previous tourney are exempt from qualifying for the annual 36-hole championship.

Among the ex-titleholders on the exempt list are Mike Andonian, Paul Bada, Glenn Harding, Dick Tang, Ed Wasik, Cliff (Kip) Inman and defending champion Ron Rothbarth.

Other players not required to qualify are state amateur king Lloyd Syron, who was runner-up last year, and Chuck Barker.

Tomorrow's qualifying rounds may be played between the hours of 9 a.m. and 5 p.m. The entry fee is $3 and entries will be accepted at any time during the 9-to-5 period.

The qualifiers are open to all male golfers living in Oakland County. A trophy will be awarded to the qualifying medalist.

The 1957 city champion and his four nearest competitors will form Pontiac's five-man team for the Michigan Recreation Association tournament Sept. 7 at Midland. Pontiac won last year's state MRA tourney at Lansing.

Boys' Club Battles All-Stars Tonight

An All-Star team made up of players in the Pontiac Boys' Club intramural league sponsored by Pontiac Federal Savings will meet the Boys' Club Mighty Mites of the City league tonight at 6:15 at the Eastern Junior High School field.

Dave Tinkis will be the starting Boys' Club hurler against Dennis Lufkin. The remainder of the "star" lineup will include Norm Neidrick, 1st, Roger Tate, 2nd, Wendy Banks at shortstop, Dave Carlson, 3rd, Charles Wesley, Dave Colando and Bob Richards in the outfield and Don Belote catching.

The Boys' Club nine leads its league in city play. The public is invited to attend this contest.

Junior Net Meet in Quarter-finals

KALAMAZOO, Mich. (AP)—Giant killers Jimmy Shaffer, St. Petersburg, Fla., and Alan Roberts, Brooklyn, N. Y., meet today in th quarter-final round of junior singles in the National junior and boys tennis championships.

The 130-pound Shaffer upset top-seeded Chris Crawford, favorite from Piedmont, Calif., 7-5, 6-0 yesterday in the fourth round.

Roberts, former National boys champion, surprised Rudy Hernando, the Western junior titleholder, 6-1, 6-1, to break the 18-and-under division wide open.

Salaried Jobs?

LONDON (INS)—British women are somewhat curvier than Venus de Milo, according to a report released last night. The board of trade, the government's top statistics-compiling organization, spent six pleasant years with measuring tapes in compiling the figures. Venus measured 37-26-38. But modern-day British women hit the tape at an average of 37.1-27.7-38.9.

Buy Detroit Building

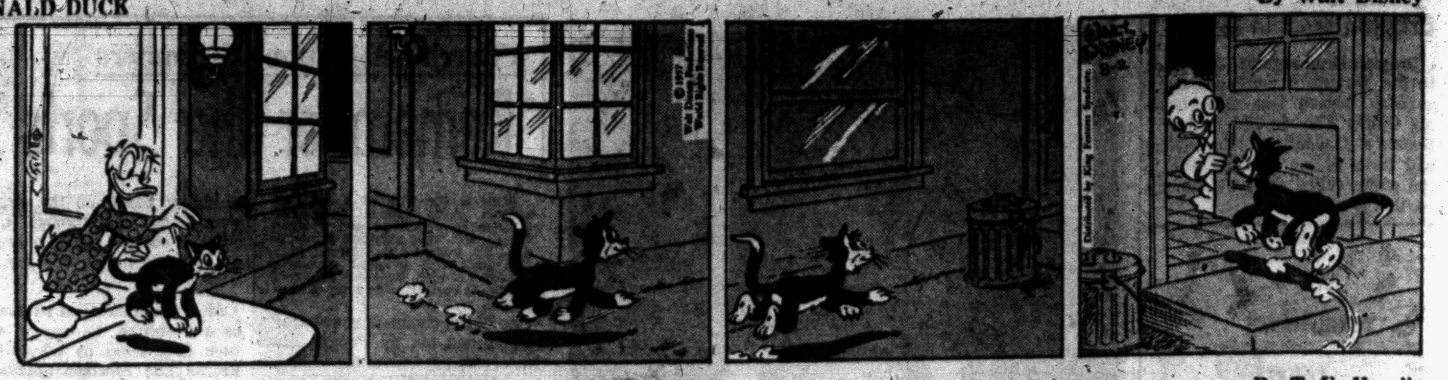

DETROIT (AP)—The Detroit Automobile Inter-Insurance Exchange Wednesday announced purchase of Detroit's 18-story United Artists Building. The $3,200,000 transaction was approved by State Insurance Commissioner Joseph A. Navarre. The Exchange and the Automobile Club of Michigan now occupy 65 per cent of the building.

Oil Played Large Part in Gains

U. S. Business Profits 4.5 Per Cent Ahead of 1956

By SAM DAWSON

NEW YORK (AP)—American business profits are running ahead of last year by 4.5 per cent—thanks in large part to a profitable six months in the oil industry.

So far 588 corporations—covering all fields except financial and accounting for roughly half of total corporate profits in the nation—have reported net income after taxes for the first six months of 1957.

Of these 308 show an increase over the first half of 1956, while 280 are behind. This year 21 operated at a net loss, compared with 19 the previous year.

Of 503 industrials, 266 gained and 237 declined from year-ago figures. Combined, the 503 have net income of $4,741,464,757, which is 5 per cent above a year ago.

The 28 oil companies in the list have the largest combined earnings of any group—$1,400,615,206, up 17.2 per cent. Subtract the oil group from the industrial list and the combined profits of the remaining 475 are only 0.7 per cent ahead of 1956's first half.

★ ★ ★

A price rise last January in crude oil and various price hikes in oil products since helped the oil industry's profits. But oilmen say the biggest boost came from supplying the Western European market while the Suez Canal was blocked. And some add that the second half of the year may show no such gain over 1956.

The 24 utilities reporting show the usual steady gain in profits, up 5.9 per cent this time. The 50 rails, with 36 reporting declines, reveal a combined profit decline of 10.3 per cent.

Among the industrial groups the best gains over a year ago are reported by aircraft equipment, coal, auto equipment, oil, food, aircraft, autos and trucks, business machines, drugs, tobacco and machinery.

Nonferrous mining companies report sharply lower profits this year, due largely to the weakness in metal prices. Also declining are packing, paper and its products, building materials and appliances. The airlines are down and surface shipping up.

Altogether the 588 corporations show profits of $5,702,835,632, compared with $5,453,040,348 for the first half of 1956.

This gain of 4.5 per cent compares with a 5.5 per cent advance last year over the first half of 1955, an increase of 34.7 per cent that year over the first half of 1954, and the 2 per cent gain of 1954 over the 1953 first half.

★ ★ ★

The percentage of gain has been slipping fairly steadily in almost every reporting period since the first three months of 1956, which was 12 per cent ahead of the first quarter of 1955.

Lodge Calendar

Regular Communication of Pontiac Lodge No. 21, F. & A. M. Friday, Aug. 2 at 7:30 p. m. Wm. H. Anderson, W. M. —Adv.

News in Brief

Kenneth R. Johnston, 50, of 49 W. Cornell Ave., was found guilty yesterday of reckless driving by Municipal Judge Cecil B. McCallum and fined $25.

Gordon J. Meade, 27, of 338 S. East Blvd., pleaded guilty yesterday to speeding and was fined $35 and given three months probation by Municipal Judge Cecil B. McCallum. The charge had been reduced from drunk driving.

Charges of reckless driving against Frederick P. Marker, 29, of 3990 Perkinds Rd., were dismissed in municipal court yesterday by Judge Cecil B. McCallum.

Jerry R. Dewey, 19, of 841 Stanley Ave. pleaded guilty to driving with a revoked license Thursday before Springfield Township Justice Emmett J. Leib, and had his 15-day sentence raised to 60 days in the Oakland County Jail upon failing to pay a fine of $70.10 plus $4.90 costs.

Ford Pay Record High for First Six Months

DETROIT (AP) — Ford Motor Co. said today its hourly-rated employes throughout the United States earned an average of $105.30 for a 41.4 hour work week in the first half of 1957.

Ford said its nationwide employment total reached a record 194,672 in the first six months of this year. The figure includes both hourly and salaried employes.

Ford workers earned a record $599,685,328 in the six-month period, John S. Bugas, vice president in charge of industrial relations, said.

Detroit area employes earned an average of $107.02 for a 41.3 hour work week, Bugas said.

The 1957 half-year payroll broke the company's previous record of $588,225,159 established in the last six months of 1956.

The company's previous record in employment came in the last six months of 1953, when it reached 186,105.

Machine Shop to Close Here

LaMonte Brothers End 39-Year-Old Business, 2 Plan Retirement

When a rush order from Tennessee is finished sometime today, the LaMonte Bros. Inc. machine shop will close its doors after 39 years of business in Pontiac.

The shop, located at 316 Irwin, specializes in automotive machine work.

★ ★ ★

Opened in 1918 by Harry Bailey and Charles Palmer, the shop was incorporated in 1920 as the Pontiac Die Tool and Machine Co. Charles LaMonte joined the firm in 1921 as sales manager, secretary and treasurer.

In 1951 Charles LaMonte was joined by his brothers, E. W. LaMonte and E. B. LaMonte and the name became LaMonte Bros.

When the present business is wound up, Charles plans to loaf a little before deciding on a future course. He is the oldest brother at 70.

E. W., who is 66, has retired twice but says he will "make it stick this time."

The 69-year-old E. B. will devote full time to a Detroit appliance firm which he heads as president.

★ ★ ★

Although actual work will finish today, the last legal day in the life of the firm will be Aug. 15. Prior to that date the brothers will sell all their property and equipment at the Irwin site.

Death Notices

EDWARD B. KEITH

Service for Edward B. Keith, 82, of 2355 Keith Rd., Union Lake will be at 3 p.m. Saturday from the Union Lake Sunday School, located on the Keith property. Dr. H. H. Savage of the First Baptist Church will officiate with burial following in Commerce Cemetery.

Mr. Keith died at his home yesterday morning after an illness of six months. His body is at the Donelson-Johns Funeral Home.

Alter Rambler for Production

New Car to Be 3 Feet Shorter and 4 Inches Narrower Than Most

DETROIT (AP)—American Motors confirmed today it will put into production later this year a modified version of its previous 100-inch wheelbase Rambler model.

George Romney, president, said the new car, yet unnamed, will be "the lowest-priced, most economical, easiest handling" American-built sedan.

He said it will be nearly three feet shorter than the average American-built automobile and four inches narrower. It will accommodate five passengers.

Romney did not indicate the price of the projected car. Presumably it would be priced between the company's present 85-inch wheelbase Metropolitan and the 108-inch wheelbase Rambler. The imported Metropolitan has a port-of-entry price of $1,527; the six-cylinder lowest price Rambler a suggested list of $1,961.

The new line will give American Motors a 1958 model lineup of the two-seater Metropolitan; the 100-inch sedan; the compact Rambler series, a foot and a half shorter than the average U. S. car, and the larger senior cars (Hudson and Nash).

Romney said: "Our decision to produce this smaller economy car is based on the increasing popularity of such cars, record sales of our Rambler line this year, and the numerous requests that we again have available in our line the shortest and smallest version of our Rambler series."

Romney said Rambler sales in May and June were the highest in the company's history and that Metropolitan sales are running at peak levels.

Earlier this week he said his company's sales for the current year should total 120,000 units and that next year's volume should be at least 50 per cent greater.

Railroad Career Over for Davis

64 Years With Atlantic Coast Line Come to End for Its President

WILMINGTON, N. C. (AP)—Champ Davis yesterday ended 64 years with the Atlantic Coast Line Railroad, 15 years as President.

Davis, called "Champ" (for Champion McDowell) by most of the 1,500 workers at the road's general headquarters here, stepped jauntily into the street after closing his office for the last time.

Nearly 1,000 employes lined the street as he passed down the steps. The 71-year-old Davis waved his straw hat as he walked down giving the workers their only chance to say goodbye.

"The demonstration was a complete surprise to me," he told reporters who visited his compartment on the train. "I was very, very touched. I guess that's all I can say . . . it is a wonderful climax to leave with everyone expressing good wishes."

Davis is going to Battle Creek where he will enter a sanitarium for the month of August. He has spent the last 33 consecutive Augusts there for rest and physical checkups.

Davis retired last month. The road's directors named W. T. Rice, president of the Richmond, Fredericksburg & Potomac Railroad, to succeed him.

Four Children Injured in City

Two Were Hurt While Riding Bicycles, Others in Auto Mishap

It was a rough day for youngsters in Pontiac yesterday, with four injured, two while riding bicycles.

John Breeze, 5, of 36 Moreland Ave., received lacerations of the head when he rode his bike into the side of a car pulling out of a driveway at 6 p.m. He was treated and released at St. Joseph Mercy Hospital.

Another bike rider, also sustained head injuries when a car backing out of a drive hit him. David Cenover, 7, of 133 Chamberlain St., was treated and released at St. Joseph. The accident occurred at 11 a.m. on Perry, near Paddock street.

Two other children were hurt while riding with their father on Mill, near Huron. John T. Restick, of 561 First St., told police a car pulled away from the curb suddenly forcing him to swerve and slam on his brakes.

His two children in the back seat were hurled forward into the front seat. One, James T. Restick, 23 months old, was taken to a private physician for treatment of cuts of the mouth and tongue.

Man Kills Wife, Her Sister, Self

No Motives Established for Slaying by Rich Philadelphia Resident

PHILADELPHIA (AP)—The grandson of a former Philadelphia mayor killed his wife and sister-in-law, then committed suicide in his luxurious suburban Philadelphia apartment last night.

Police Chief Fred Roberts of Delaware County said Paul Warwick Jr., well-to-do Lansdowne, Pa., businessman, shot his wife Josephine, 35-year-old former ballet dancer, with a .38-caliber pistol, then killed her sister Mary McCann, 32. Warwick, 36, then fired a bullet into his own head, Chief Roberts said.

★ ★ ★

No motive for the shooting could be established immediately.

The slayings were not discovered until late last night when the mother and sister of the dead women arrived for a visit at the apartment.

Warwick was the grandson of the late Charles F. Warwick, Republican mayor of Philadelphia from 1895 to 1899. His father, a prominent Merion, Pa., investment banker, died in 1953. Warwick was part owner of a garden supplies store.

★ ★ ★

Police said Warwick and Miss McCann were found in the living room with his body stretched across hers. Mrs. Warwick's body was found on the landing outside the apartment.

Eight Are Injured in 3-Car Collision

Eight persons were injured in a three-car collison at Telegraph road and Country Club drive, just south of W. Maple Rd., in Bloomfield Township yesterday.

★ ★ ★

A car driven by Jessie Dee Moore, 38, of 7711 Artesian St., Detroit, collided with cars driven by Grace E. Fisher, 57, of 28393 Wellington Rd., Franklin, and Charles E. Dougherty, 30, of 6200 Overlook Dr., Clarkston, as she tried to avoid a truck stopped on a hillcrest.

Dougherty was treated at William Beaumont Hospital for minor injuries, and released. All seven others injured were in the Moore car.

Opal Rogers, 68, of 9961 Brail St., Detroit, is in fair condition with a fractured pelvis and ribs. Pearl Moore, 65, of Dearborn, was admitted with a dislocated shoulder and is also in fair condition.

Treated and released were: Mrs. Moore and her daughter Terry, 3; and Mrs. Dorothy Cooper, 37, and her sons Phillip, 10, and Michael, 8, of Dearborn.

Prisoners Offer Their Own Platter Titles

WALPOLE, Mass. (AP)—Inmates at Massachusetts State Prison have their own ideas of what should go into a record "Album for convicts."

The current issue of Mentor, prison newspaper, offers these suggestions:

"Those 3500 Volts Are Breaking Up That Old Gang of Mine Blues."

"Up a Lousy River."

"Please Don't Talk About Me When I'm Paroled."

"You Ain't Nothin' but a Stool Pigeon."

"Throw Mama From the Train a File."

"On the Sunny Side of the Cell."

"I Might As Well Be Sprung."

"Ol' 'Lectric Chair's Got Me."

"People Will Say We're in Jail."

"Let's Put Out the Lights and Go Over the Wall."

Business Notes

Two assistant cashiers of the Pontiac State Bank, Mrs. Alice M. Kerns, 4745 Motorway Dr., and Mrs. Agnes W. Moore, 2727 Chadwick Dr., have been elected to membership in the National Association of Bank Women.

The 2,600-member organization is the only group in the nation made up exclusively of women bank executives.

Bear Attacks Cow, Calf

TRAVERSE CITY (AP) — A cow and a newborn calf on the J. L. Kesner farm at nearby Acme were recovering Friday from an attack by a black bear. Kesner, who said two boys told him they saw the bear in the pasture with the animals, said the cow suffered severe claw and teeth wounds while the calf received only minor injuries.

Broadway Backs Bill Aimed at Dominance

NEW YORK (AP)—A number of Broadway leaders are backing a bill in Congress aimed at Broadway's theatrical dominance.

The measure was introduced by Sen. Jacob Javits (R-NY) to establish a U. S. Arts Foundation that would stimulate non-commercial theater, music and dance enterprises throughout the country. White Way supporters feel increased activity will generate just that much more interest in its productions too.

Missionary Family to Study Abroad

MARLETTE—Mr. and Mrs. Warren Jackson and their daughter, Connie Lois, will leave New York by passenger ship August 30, for Lisbon, Portugal, where they will spend a year studying the Portuguese language.

Mr. and Mrs. Jackson have spent five years studying for the mission field, under the Methodist Board of Missions.

After completing their studies in Portugal, they will arrive in Angola, Africa in time for the annual conference in August 1958 when they will receive their specific appointment.

The Marlette Methodist Church will hold recognition service for them Sunday morning at 10:15 a.m. The church is presenting them with a station wagon for use on the field.

Market Shows Vacation Mood

NEW YORK (AP) — Caution and light trading continued to prevail in the stock market early this afternoon.

★ ★ ★

Price changes among pivotal issues were very narrow for the most part. It was mainly a mixture of small plus and minus signs. A few key stocks moved beyond the range of a point.

★ ★ ★

Uncertainty as to the next definite trend of the market was still keeping investors on the sidelines, brokers said. There was nothing in the way of major news to impel prices either way. A vacation mood prevailed on Wall Street.

Volume looked as if it would dip below yesterday's 1,660,000 shares, lowest in four months.

Nonferrous metals were dampened by word from Defense Mobilizer Gordon Gray that the government will stop buying lead and zinc for the strategic stockpile. International Nickel dropped well over a point following its president's prediction that both the United States and Canada would soon stop nickel stockpiling.

★ ★ ★

High-priced International Business Machines rose around 4 points —a modest gain for stock selling at more than 300.

Raytheon, most active stock in the past couple of days as it rose on reports of its missile production, was up a fraction.

Du Pont posted a gain of more than a point. Eastman Kodak dropped a major fraction.

CALVES—Salable 25. Not enough available to establish market. Compared last week vealers weak to 2.00 lower most decline on good grade and down; choice and prime vealers early 26.00-30.00, few up to 32.00; late trade 24.00-30.00; good to low choice late 19.00-23.00; utility and standard 14.00-19.00; cull 10.00-14.00; good and choice calves 17.00-20.00.

SHEEP—Salable 25. Not enough done to make a market. Compared last week slaughter lambs 50-75 cents higher; slaughter sheep mostly steady to 50 cents lower; choice and prime lambs 23.50-25.00; small lot up to 25.25; good and choice lots 20.50-23.50; utility and good lots 18.00-20.50; cull to good slaughter ewes 4.00-8.00 early, late trade 3.50-8.00.

STATE OF MICHIGAN—In the Probate Court for the County of Oakland, Juvenile Division.

In the matter of the petition concerning John M. Banfield, minor. Cause No. 15348.

To Warren J. Banfield, father of child.

Petition having been filed in this Court alleging that the present whereabouts of the father of the said minor child is unknown and said child has violated a law of the State and that said child should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition will be held at the Oakland County Service Center, Court House Annex, 1260B West Blvd., in the City of Pontiac in said County, on the 13th day of August, A.D., 1957, at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

It being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to said hearing in The Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Arthur E. Moore, Judge of said Court, in the City of Pontiac in said County, this 31st day of July, A.D., 1957.

(Seal) ARTHUR E. MOORE, Judge of Probate

STATE OF MICHIGAN—In the Probate Court for the County of Oakland, Juvenile Division.

In the matter of the petition concerning Judy McFarland, minor. Cause No. 15357.

To Marjorie Asseto, mother of said child.

Petition having been filed in this Court alleging that the present whereabouts of the mother of the said minor child is unknown and said child has violated a law of the State, and that said child should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition will be held at the Oakland County Service Center, Court House Annex, 1260B West Blvd., in the City of Pontiac in said County, on the 13th day of August, A.D., 1957, at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

It being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to said hearing in The Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Arthur E. Moore, Judge of said Court, in the City of Pontiac in said County, this 30th day of July, A.D., 1957.

(Seal) ARTHUR E. MOORE, Judge of Probate

(A true copy) GEORGIENA R. MURTHA, Probate Register, Juvenile Division

Buyers Again Boost Wheat

CHICAGO (AP)—Flour millers got into the wheat market again today and futures advanced with the September contract up a full cent at one time.

Heavy overnight sales of flour to big domestic baking firms was reported. This resulted in wheat futures purchases by millers against flour sales.

Near the end of the first hour, new style wheat was ⅜ to ½ higher, Sept. $2.16; corn was ⅛ to ⅜ higher, Sept. $1.29½; oats were unchanged to ¼ higher, Sept. 65¾; rye was 1¾ to 2 cents higher, Sept. $1.31¾; soybeans were ¼ to ¾ higher, Sept. $2.44½; and lard was 3 to 7 cents a hundred pounds lower, Sept. $13.25.

Soybeans were up more than a cent on some contracts, influenced by a tight cash bean situation and the fact that country processors again advanced their buying basis to the country last night by one cent a bushel. Offerings, however, remained light.

★ ★ ★

Corn held about steady in a light mixed trade, getting pretty good support at yesterday's closing level. Rye was higher in sympathy with wheat.

Sen. George Weakens

VIENNA, Ga. (AP)—Former Sen. Walter F. George is gradually getting weaker and losing ground fast in his fight against heart disease.

BLOOMFIELD TOWNSHIP NOTICE OF Review of Special Assessment No. 35 to Property Owners abutting on Lakeland Lane & Kirkland Court.

Notice is hereby given that the 2nd hearing for Lakeland Lane & Kirkland Court, Special Assessment No. 35, will be held on the 7th day of August, 1957, at 8:00 o'clock p.m., on the following described property:

All of Lakeland Lane & Kirkland Court, from West Long Lake Road to Cul-De-Sac:

Lots 7 & 8 of Island Lake Woods, part of East ½ of Section 18; Lots 9 thru 21 inclusive, Lots 29, 30, and part of Outlot B of Island Lake Woods No. 1, part of the West ½ of Section 17 and East ½ of Section 18, Bloomfield Township, Oakland County, Michigan.

Please take notice: That a Special Assessment Roll has been prepared by the Assessor for the purpose of levying a special assessment against all property abutting on the above street for the purpose of improving said street. Said Special Assessment Roll No. 35 is on file with the Township Clerk and is open for public inspection during the regular office hours of said Clerk.

Take further notice, that the Township Board will meet at the Bloomfield Township Hall, 4200 Telegraph Road in Bloomfield Township on the 7th day of August, 1957, at 8:00 o'clock p.m., for the purpose of reviewing said special assessment roll and hearing of any objections thereto.

ROBERT H. DUDLEY, Township Clerk

July 26, Aug. 2, '57.

News-Making Panel Shows Report Sponsor Trouble

Wolverine State Idea a Phony?

U. of M. Professor Says Well-Known Animal Has No Record Here

ANN ARBOR (AP) — Because it once was a mecca for the fur trade, Michigan today has a state animal that may have never lived here. It is, of course, the Wolverine.

"There is no Michigan-born specimen of the Wolverine in any museum," says Prof. William H. Burt, curator of mammals at the University of Michigan.

★ ★ ★

But, says Burt, in years gone by Detroit was the great Midwestern clearing house for skins. They were sent by trappers not only from Michigan but the entire northern Great Lakes area. From Detroit, pelts were sent to markets in the East.

"Michigan," Burt says, "probably became known as the Wolverine State because of the great number of Wolverine skins in these shipments. Most of them probably came from the northern Great Lakes area, but they were assembled in Detroit.

"The Easterners who received them had no way of knowing where the animals were caught."

ATHLETIC TEAMS

And thus, says Burt, Michigan was dubbed "The Wolverine State" and the University of Michigan's athletic teams adopted the nickname "The Wolverines."

Although traces of the animal are rare in Michigan, Burt says, it probably did live in the state at one time. He says the only way to support written reports of the Wolverine's existence in the Wolverine State would be to find a skull of the animal.

None has ever been discovered.

★ ★ ★

Burt describes the Wolverine as weighing about 30 pounds, massive and powerful, with a dark coat and two broad, yellow stripes down its sides from shoulders to tail.

Thus, contrary to general belief, the Wolverine is not maize and blue, colors of the University of Michigan Wolverines.

Mother Sues for Scalping Given Her Son

YORK, Pa. (AP)—A mother has asked $5,002.98 damages for a "scalping" given her 17-year-old son.

Mrs. Paul Eppley, filed the suit in Common Pleas Court, on behalf of her son Theodore against Francis J. Zimmerman and his wife, operators of the Green Valley swimming pool.

★ ★ ★

The action charged that while her son was at the pool a group of boys held him as Zimmerman administered a "Don Eagle" haircut.

Don Eagle is a wrestler who has an Indian-type hair-do.

The suit charges the boy was left with "only a strip of hair in an unsightly appearance through the center of the scalp."

★ ★ ★

"The haircut was administered in a spirit of fun and with the full permission of the youth," Zimmerman's attorney said.

The action asked for $5,000 damages and $2.98 to replace her son's shirt Mrs. Eppley says was torn at the time.

Hunter Killed Stalking Bear Near Marquette

MARQUETTE (INS)—A marauding black bear that has been raiding farms north of Marquette was safely hiding in the swamps as a hunter who tried to ambush the bear lies dead.

Frank Holowinski, 49, of Marquette, was killed Wednesday night by a friend, Wallace Remington, a farmer who lost livestock to the bear.

Holowinski and Earl Remington went to Wallace Remington's farm to set up an ambush for the bear.

State police said Wallace posted Holowinski and his brother, Earl, atop the farm house roof. Wallace took a stand on the porch.

State police quoted the brothers as saying Holowinski climbed off the roof and started walking around the edge of the farm in the dark.

Police said Wallace, thinking it was the bear, fired one shot which killed the man.

Police held Remington for further question. No charges have been filed against him.

Acquit Pontiac Man

Michael Iliades, 36, of 580 Collier Rd., was found not guilty of maintaining and operating a gambling place in his home by Municipal Judge Cecil B. McCallum. Six men arrested in a raid on the home had been freed earlier by the judge.

Earl Wilson Develops Bad Case of Shingles

By EARL WILSON

NEW YORK—A surprising thing happened to me recently—I hung out my shingles.

Waking up one morning with a rash on my back and right shoulder, I tried to remember what poison ivy bed I'd been through lately.

★ ★ ★

"Daddy's finally in the Ivy league — poison Ivy League," chortled Slugger when all members of my family gathered around to rejoice in my illness.

WILSON

But it was no laugh to Daddy-O. I also had a stiff neck. And what seemed like a cold.

★ ★ ★

"Sounds like the shingles," said my doctor when he took the shirt off my back and looked. "Yep—but a mild case."

"Shingles — isn't that a nervous disorder?" I could see a nervous breakdown coming. But the Medic said, "No, it's a virus of a nerve. The nerve tips break out in a rash. It can be pretty serious if it gets into the eye, but yours won't go above your collar."

"Wilson has the shingles," people said. "Poor devil," some of them thought. "He's gonna have a crack-up and doesn't know it." Shingles, the doc said, aren't catching."

★ ★ ★

Irving Berlin was having shingles at the same time. Helen O'Connell told me she'd had them—and Ford Frick, sitting at the next table one day when I was talking about mine, shook his head gravely.

"I had mine almost two years," he said. "I even quit smoking and drinking trying to get rid of them."

JANIS

I'd heard that shingles encircle the waist—but it didn't happen to me. One morning 10 days after the outbreak, the rash began fading away. It felt so good when it quit hurting.

"If it's any consolation," my doctor said, "you can never get them again." I don't want shingles again any more than I want to go to Russia again. Neither one will ever become popular.

THE MIDNIGHT EARL...

Robert Mitchum wants **Audrey Meadows** to co-star in his next film . . . **Marlon Brando** (now blond) and **Montgomery Clift** start shooting N.Y. scenes for "The Young Lions" next week . . . **Hedy Lamarr** cancelled off the **Steve Allen** show temporarily; she cut her face and can't apply makeup . . . When **Eddie Fisher** left some fish on his plate, a teenage fan wrapped it in a napkin and took it home . . . **Janis Paige's** work in "Silk Stockings" may get her the lead in MGM's film, "Spectacular." **Jack Dempsey** played gin rummy coast-to-coast during the entire 7½ hour flight . . . Former boxing champ **Johnny Bratton** is in a midwest mental hospital . . . **Kirk Douglas** is a candidate for the film bio of Col. **David Marcus**, Israeli war hero.

Runaway Gravel Truck Derails Freight Train

MASSILLON, Ohio (AP)—Brakes failed as a truck loaded with gravel sped down a steep grade toward a 96-car freight train crossing Ohio early today.

The truck smacked the 74th car and derailed 19 cars of the Pennsylvania Railroad train at the crossing 3½ miles north of here.

The driver of the truck, Walter A. Shelton, 28, of Mansfield, and a passenger both jumped before the collision and escaped injury.

Lignite has a moisture content up to 40 per cent.

U.S. Official Denies Filipino Persecution

NAHA, Okinawa (AP)—An American spokesman acknowledged today that the Army is replacing its non-Okinawan Asian workers on the American-occupied island with natives. But he denied that Filipinos had been persecuted or expelled without sufficient notice.

★ ★ ★

Nine Filipinos complained earlier this week to their foreign office that the United States was engaged in a "pernicious campaign of persecution and discrimination" against Philippine nationals working at American installations on Okinawa.

An Army spokesman said a program was begun in November 1955 to replace foreign workers with Okinawans as the Okinawa natives became trained to take over the jobs. He said that all Filipino workers replaced were given 45 days' notice.

★ ★ ★

The spokesman said 750 Filipinos now are employed at U. S. posts here and about 150 were returned to the Philippines last year as Okinawan replacements took over their jobs.

Mexico Using Radios for Teaching Indians

MEXICO CITY (AP)— Mexico is expanding a program to teach its Indians, especially in wild mountain areas, by radio.

★ ★ ★

Forty-one schools are being scattered through the Mixteca Mountains in southern Oaxaca. They will be equipped with radio receivers, notebooks and pencils, blackboards and chalk, and some books.

Among other things, practical advice will be given on farming, cattle raising and cooking.

The broadcasts will be made from Tlaxiaco, in the center of the region, by teachers familiar with the dialect.

U.S. Communist Party Name Nine Secretaries

NEW YORK (AP)—The Communist Party of the United States has made public the membership of a "collective leadership" consisting of nine secretaries.

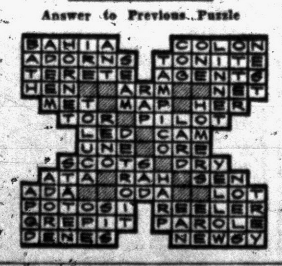

★ ★ ★

Missing from the list was the ailing, 77-year-old William Z. Foster, one-time national chairman who is an advocate of closer ties with Moscow.

The list of nine secretaries to guide party affairs, which was announced yesterday, includes Eugene Dennis, Sid Stein, Benjamin Davis, James Jackson, Hy Lumer, Fred M. Fine, John Gates, Earl Durham and Carl Ross.

The nine were chosen at a meeting of the national committee here last weekend.

They're Costly and Low Rated

But 'Press Conference' Co-producer Is Hopeful About Future

By CHARLES MERCER

NEW YORK (AP)—No type of television program has made more front page news this past season than the public affairs panel show in which a noted person is interviewed by newsmen.

★ ★ ★

Yet the panel program is having sponsor trouble. The reason is two-fold:

1. It's expensive to produce.
2. Its audience-rating figures are low compared to many entertainment shows.

★ ★ ★

Sponsors and agencies, wedded to the notion of "cost per thousand" by which they estimate the cost of bringing a program to each 1,000 viewers, are hesitant about investing in the panel shows.

The current news panel programs on television are Martha Rountree's "Press Conference" on ABC-TV, "Face the Nation" on CBS-TV, and "Meet the Press" and the alternating "Youth Wants to Know" and "American Forum" on NBC-TV.

★ ★ ★

Oliver Presbrey, co-producer of "Press Conference," did not complain about the fact that "Press Conference"—like many a news panel program—has not been favored with steady time periods which are essential to building a large audience. In the first year of its history it has had three time shifts and gone against such opposition as the Ed Sullivan and Steve Allen shows and "I Love Lucy."

★ ★ ★

"Press Conference" costs nearly three million dollars a year to produce. Making a bid for institutional advertising sponsorship, Presbrey is lining up four alternating institutional sponsors, one each week, to lessen the financial load.

"The institutional advertiser doesn't seek the continuity and repetition of the hard-sell sponsor," he said. "He can do a better job of creating identity in the public mind by coming on once a month."

Troop Pullout Satisfies Japan's Foreign Office

TOKYO (AP)—The Japanese Foreign Office expressed satisfaction today over the withdrawal of the U. S. 1st Cavalry Division from Japan. Spokesman said the pullout might signify the beginning of a new era in relations between Japan and the United States.

★ ★ ★

The Foreign Office public information director, Shinichi Konn, termed the withdrawal "speedy implementation of the Japan-U.S. joint communique" signed June 21 in Washington by President Eisenhower and Prime Minister Nobusuke Kishi.

Novi Official Dies

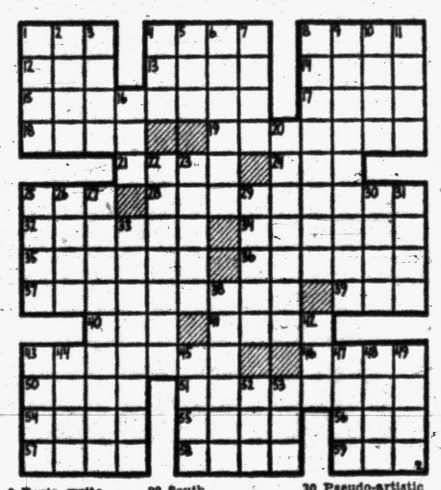

DETROIT (AP)—Funeral service will be held Saturday at nearby Northville for Frank D. Clark, 79, Novi Township trustee for the past five years. He died Thursday in Sessions Hospital at Northville.

Red's Kremlin Easily Entered

Once Closely Guarded Area Now Almost Like Coney Island

By SERGE FLIEGERS

MOSCOW (INS) — The Kremlin, once communism's most jealously-guarded headquarters, is getting almost as easy to get in to as Coney Island.

This correspondent tonight managed to enter through the forbidding Borovitsky gate into the resplendent Giorgi Palace reception room with a white envelope containing nothing more official than an announcement from the Overseas Press Club in New York.

It had been picked off a desk mistakenly instead of an invitation from Soviet President Kliment Voroshilov to attend the Kremlin party for King Mohammed Zaher Shah of Afghanistan.

Innocently the envelope was shown to the guard at the Kremlin gate and the guard politely raised his arm and allowed his car to enter, while the green light went on and the entrance bell rang.

The Kremlin atmosphere generally seemed more relaxed as Soviet leaders mixed freely with the chiefs of Moscow's diplomatic corps.

LEADERS PRESENT

Communist party chief Nikita Khrushchev, Premier Nikolai Bulganin and Defense Minister Marshal Georgi Zhukov were among those present.

Other guests were kept behind rows of tables richly laden with caviar, smoked salmon, white fish, vodka and tangerine juice. But otherwise the invitees were allowed to wander freely through the richly decorated palace rooms.

They visited the old throne room and bed chamber once used by the Romanoff czars.

These rooms are not open to ordinary tourists, who are also allowed to visit the Kremlin on intourist tours.

In fact, like Coney Island, the Kremlin has become one of the world's chief tourist attractions, and it is estimated that more than 10,000 persons, including delegates to the Moscow Youth Festival, have visited it during the summer months.

Begin U. of D. Building

DETROIT (AP)—The first spadeful of earth will be turned next Thursday for the new million dollar Liberal Arts Building on the University of Detroit campus. The facility, which will include classroom space for 1,183 students, was made possible by a bequest of the widow of Walter O. Briggs. It is scheduled for completion by the fall semester next year. All classrooms will be wired for closed circuit television.

Hal Boyle Says:

Businessman Doubles as Film Star

NEW YORK (AP)—Would you rather be a successful businessman or a movie star?

★ ★ ★

At 27, Robert Evans, who looks like a boyish Tyrone Power, has decided to try to be both—a career executive in the women's sportswear field and a matinee idol.

"After all, why not live a diversified life?" he asked, leaning back in a beige leather chair in his skyscraper office in Manhattan's teeming garment center. "It makes for a more-rounded person."

★ ★ ★

A year ago Bob, who is tall, dark and spectacularly handsome, was happy and successful as a partner in Evan-Picone, a multimillion-dollar women's sportswear firm. Then Hollywood beckoned—and it won't let him alone.

He has appeared in two films and Darryl Zanuck, gambling on him as a future star, signed him to an exclusive contract. He is the first new talent Zanuck, who manufactured many a celluloid celebrity in the past, has put under contract since leaving Twentieth Century-Fox to become an independent producer.

★ ★ ★

The possibility of one of its junior magnates replacing Clark Gable has stirred the imagination of clothing industry workers along Seventh Avenue here as nothing since, perhaps, the invention of the elastic brassiere.

It all happened—or so the script goes—as the result of two unbelievably lucky breaks.

The first break: some eight months ago Norma Shearer saw Evans relaxing in the Beverly Hills hotel swimming pool. Struck by his resemblance to her late husband, producer Irving Thalberg, she asked if he'd like to play the role of Thalberg in "The Man of a Thousand Faces." Evans did.

The second break:

A few months later Zanuck saw Evans in a New York night club, had no idea who he was, but tracked him down and asked if he'd like to play the role of the bullfighter in the film adaptation of Ernest Hemingway's novel, "The Sun Also Rises." Evans did.

As a matter of fact, Bob had appeared on more than 300 radio programs as a child actor but a youthful illness forced his retirement. When he recovered a year later, he found theatrical jobs hard to find, so he entered the textile field.

★ ★ ★

In a few years he and his partners—his older brother, Charles, and designer Joseph Picone—achieved a success that can be termed mildly colossal. Their North Bergen, N. J., factory has 500 employes.

Bob looks on his film future with a sense of happy adventure tempered by caution.

"Frankly, the first two pictures cost me money—considering the time I was away from my job here," he said. "But my partners have been very understanding about my absences."

★ ★ ★

Bob figures he can make two pictures a year for Zanuck and still be away from his clothing firm office no more than from 12 to 20 weeks during the slack season in ladies' slacks.

"I enjoy the business world and I get a thrill out of acting," he said. "But if I find after a couple of years I haven't made a real dent as a film personality, I'll quit.

"If I can't be important in the field, I'd rather drop it and concentrate on my own business.

"Some people seem to think it odd that a businessman should double as an actor. Why? The training you get in business—meeting and dealing with all kinds of people in the crises of buying and selling—should make you a better performer.

"The average businessman"—he grinned—"sees as many roles, and perhaps plays as many, as the ordinary actor."

★ ★ ★

Bob, who is a bachelor, likes to swim, box, play tennis and ride horseback. He isn't at all worried that as a serious, both-feet-on-the-ground young businessman he will fall victim to Hollywood's after dark temptations.

"Why, I even cook most of my own meals because of my aversion to going out," he said. "I like to stay home in the evenings."

Junior Editors Quiz on BASEBALL 'BOUNCE'

QUESTION: What gives a baseball its "bounce?"

★ ★ ★

ANSWER: The difference between a "live" baseball and a "dead" one, without much bounce, is its rubber and cork center inside the horsehide cover. The modern baseball is bouncier than the old — which helps the long hitters.

Cork has many other uses. It is most familiar perhaps in the form of bottle stoppers. Because it is very light and floats, life belts are often made of it. Shoe soles were made from it by the ancient Romans.

Cork comes from an evergreen oak which flourishes in Southern Europe and on the North African Coast. It is actually the outer layer of bark from the tree, which is stripped periodically, usually every 10 years. The stripping doesn't bother the cork oak, which lives to an age of about 150 years.

★ ★ ★

FOR YOU TO DO: Get a cork from a bottle, see how light it is, how easily it floats in water — and how it bounces when dropped. It will bounce in unexpected directions because of its irregular shape.

★ ★ ★

(If you have a good question send it to this newspaper for AP Newsfeatures and you may win $10. Tomorrow: Why was Moses hidden in the bullrushes?)

Differences on Loans Delay Foreign Aid

WASHINGTON (AP) — Differences over an economic development loan fund raised the main obstacle today to a compromise of Senate and House differences over billion-dollar foreign aid program.

★ ★ ★

Conferees of the two houses are seeking to arrange an early meeting to resolve conflicts in their separate versions, possibly tomorrow, maybe early next week. The Senate cleared the way yesterday when it interrupted civil rights debate long enough to agree formally to a conference.

★ ★ ★

The Senate bill would authorize $3,617,333,000 in military and economic aid and technical assistance, compared with the $3,864,410,000 Eisenhower asked. The House cut 500½ millions lower than the Senate.

Senate conferees will seek to split the difference.
