4 Prisoners Perish in Flaming Missouri Riot

State Troopers Restore Order, Count 33 Injured

8 Buildings Burned in $5,000,000 Outbreak at Jefferson City

JEFFERSON CITY, Mo. (AP)—A flaming riot at the Missouri State Penitentiary was quelled today after four convicts were killed, 30 prisoners and three guards injured and at least eight prison buildings destroyed or heavily damaged by fire.

Heavily armed troopers of the Missouri State Highway Patrol moved into the foggy, smoke begrimed prison this morning.

Within a short time patrol officers reported all the convicts in troubled B and C halls were back in their cells.

An hour and a half later, Col. Thomas E. Whitecotton, director of corrections, said the danger of any mass outbreak was definitely past.

He said then the situation was under control and that he expected no further trouble.

"It was the very efficient highway patrol that got the job done, and I want to add that the convicts who lost their lives may have saved hundreds of others and the lives of many citizens."

As the troopers, backed up on the walls and outside the prison by police and National Guardsmen, moved through the tiers they flushed out an injured convict here and there, some apparently seriously injured.

The riot, causing damage estimated by prison officials as near $5,000,000, was confined within walls of the sprawling penitentiary located in the city, not far from the state capitol. None of the prisoners was believed to have escaped.

The rioting broke out about 7 p.m. last night on the third floor of E hall, a maximum security section where incorrigible prisoners are confined in separate cells. How they were released from their cells was not known.

From then on for six hours, officers said the place "looked like a madhouse," with men running, shouting, howling and fighting in the glare of fire from burning buildings.

As guards and state troopers moved in, they were met with a

Radiation Kills Fisherman Hurt in H-Bomb Blast

40-Year-Old Japanese Is Believed 1st Victim of Hydrogen Weapon

TOKYO (AP) — A Japanese fisherman dusted by radioactive ash from an U. S. H-bomb blast at Bikini March 1 died tonight in a Tokyo hospital.

Aikichi Kuboyama, 40, radioman on the fishing boat Lucky Dragon, was believed to be the world's first death resulting from a hydrogen bomb explosion.

The fisherman had been suffering from jaundice complications brought on by radiation from the Bikini bomb, Japanese doctors said.

His illness and death is a matter of great international significance for Japan.

This country has been bitterly critical of the United States tests, and is reported to have presented Washington with a bill for several million dollars.

Less than an hour after Kuboyama's death, U. S. Ambassador John M. Allison issued a statement expressing "extreme sorrow and regret at this most unhappy event."

"My deepest sympathy is extended especially to the family of the deceased," the statement said.

Kuboyama was one of 23 fishermen aboard the Lucky Dragon, which was approximately 80 miles from Bikini when the test bomb was exploded.

The other fishermen also are hospitalized but appear to be recovering.

The United States has offered Japan one million dollars in damages for the 23.

Kuboyama's death is expected to touch off a wave of anti-American feeling in Japan. Nothing since the surrender nine years ago has so stirred the Japanese people.

His illness and that of his 22 shipmates have been a national and international issue in Japan.

Kuboyama is survived by his 33-year-old wife, Suzu, his 71-year-old mother, and a 9-year-old daughter, Miako.

The exact cause of death may never be agreed upon.

Japanese physicians hold that the jaundice was due directly to radiation sickness and his generally weakened condition.

Others, including an American doctor, said the jaundice may have been due to a hepatitis infection resulting from blood transfusions.

Santa Fe Chief Derailed

WRECK SCENE—General view of the Santa Fe Chief derailment 17 miles west of Stockton, Calif., Wednesday as Chicago-bound passengers and trainmen mill about the area. Ten cars left the tracks but the diesel units, background, were not derailed.

Court Order to Use Force Tames Square D Strikers

DETROIT (INS)—An estimated 400 pickets massed at the strikebound Square D plant this morning but picketed peacefully in the face of a court order empowering police to use whatever force necessary to prevent violence.

With reinforced detachments of police equipped with gas masks standing in readiness, the pickets made no attempt to blockade entrances to the company parking lot or interfere with workers entering the plant.

As official indignation at the strike rioting mounted yesterday, Circuit Judge Frank B. Ferguson gave police full powers to handle every situation and stop unlawful assembly at the plant and use of autos to block entrances.

Mayor Albert Cobo, upset over the possibility of Communists directing the violence-ridd n strike, endorsed the court order to the letter. Police Commissioner Edward Piggins said he would provide a force large enough to handle any situation that might arise.

Negotiations in the 100-day strike adjourned early this morning after a marathon 12-hour session. Both sides reported "some progress," but Charles Kelly, business agent of striking Local 957, United Electrical Workers (Ind.) said the "same old points" blocked settlement.

Kelly obviously referred to the companys insistence on an ironclad no-strike clause and the union's staunch refusal to grant one.

Meanwhile, leaders of the CIO-United Auto Workers locals which have pledged their full support to the strikers in their fight against the company's back-to-work movement hinted darkly

Fail to Appear for Testimony Today in Detroit

Senator Capehart Calls Ex-Housing Official as First Witness

DETROIT (AP) — The Senate Banking Committee moved into Detroit today on its cross country investigation of Federal Housing Administration operating procedure.

Twelve of 30 witnesses summoned failed to appear today. Chairman Capehart (R-Ind) immediately threatened them with contempt citations.

The committee expanded overnight from 16 the number of witnesses summoned to its Detroit hearings. Among those added was Harry Colton, former chief underwriter in the FHA's Grand Rapids office who recently was fired and fined $2,500 on charges of irregularities.

Another addition was Chester C. Nurszowski of Buffalo, N.Y., who claims to have been gyped on a home improvement loan.

Ward McCreedy, Deputy commissioner of the Michigan Corp. & Securities Commission, was the first witness called.

McCready testified that the Industrial National Bank of Detroit had made home improvement loans on applications submitted by Jack Chisik of Detroit after Chisik's license had been revoked by the state commission "for fraudulent Federal Housing Administration sales practices." He said the bank knew of the revocation.

Six persons whose loans allegedly were arranged by Chisik also have been summoned.

Asked by Capehart if he thought banks might have "closed their eyes" in approving many applications, McCreedy said, "there is a lot of that," and added:

"There is no reason for lending institutions to take logical protective measures if they stand to lose nothing. It would appear that these institutions become mainly interested in volume.

General Pleads for French Help

Gruenther Says NATO Is Insufficient Without German Troops

PARIS (INS)—Gen. Alfred M. Gruenther has appealed to France not to insist on "impossible conditions" for the admission of West Germany into a Western European defense system.

The North Atlantic Treaty Organization's supreme commander declared that German troops are needed in NATO to support the "insufficient" forces now guarding Western Europe against possible aggression.

His speech before 60 French businessmen at the Supreme Headquarters of the Allied Powers in Europe was his first statement on German rearmament since the French National Assembly rejected the European Defense Community treaty.

Gruenther said EDC now is "water under the dam" and added that "we must have a German contribution."

He appealed to the French not to ask for "a book full of safe-

Proclaim Week for Registration

Mayor Urges All Voters to Check on Eligibility to Cast Ballot

Pontiac Mayor William W. Donaldson has proclaimed Sept. 26 through Oct. 2 "Registration Week" here in an effort to obtain a record turnout at the Nov. 2 general election.

The last day to register in all Oakland County governmental units is Oct. 4, according to County Clerk Lynn D. Allen.

Absentee ballots for citizens who will be away on election day, but wish to vote, will be ready in about 10 days, said Allen.

In his proclamation Donaldson urged "all eligible citizens to register so that they will be able to fulfill their obligation in the coming election."

The American people's heritage, he said, "is based primarily on their right to select their representatives in government through the democratic principle of the ballot."

Allen asked all citizens who have not voted in the past four years to check immediately with their local clerk to see if they are registered.

Six months residence in the state and 30 days in Oakland County plus U. S. citizenship are the voting requirements, Allen added.

Voters may register with their township or city clerks.

191 Escape Serious Injury as Frisco Chief Derails

SAN FRANCISCO (AP)—A broken axle today was listed as the probable cause of the derailment yesterday of the Santa Fe Railroad's streamliner San Francisco Chief in which all 191 passengers escaped serious injury.

Between 20 and 30 persons aboard the Oakland, Calif.-to-Chicago train were shaken up but only two passengers and three crew members were hospitalized overnight. They were to be released today.

The Santa Fe estimated damage at $250,000.

The accident occured at Orwood Crossing 40 miles east of San Francisco as the train started to slow for a drawbridge.

The derailment was the San Francisco Chief's second within a month. It was derailed at Lomax, Ill., Aug. 22, when five persons were killed and 53 injured.

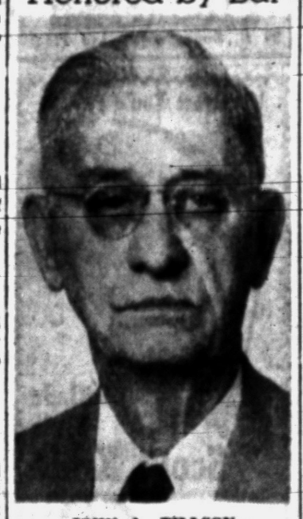

Roadmaster Walter Johnson said a dragging broken axle on one of the diesel units was the probable cause of yesterday's accident.

Nine cars left the track, including the dome observation car, which crashed against a tall signal tower, ripping the side of the car and throwing 20 passengers onto the floor.

Engineer Emil Klochn said the train was traveling about 70 miles an hour.

The uninjured were transferred to a reserve train and resumed their journey at 8:30 p.m. last night.

Honored by Bar

JOHN A. TILLSON

Pontiac Attorney John A. Tillson, of 230 N. Saginaw St., was honored by the Michigan State Bar members Wednesday for his 50 years of legal practice. Tillson, who has spent his entire legal career here, was among 167 veteran lawyers honored at the group's annual meeting in Grand Rapids.

Dem Club Will Meet

The Pontiac City Democratic Club will hold its regular monthly meeting Sept. 26 at 2 p.m. in Fisher Body Local 596 Hall at 821 Baldwin Ave. with members invited to bring friends, according to Norman Bolton, president.

Temperature at 39, City Has Light Frost

The official arrival of fall brought appropriate temperatures and a touch o. frost this morning.

The mercury dropped to a crisp 39 at 6 a.m. in downtown Pontiac.

Light frost in the area, according to the Oakland County Agricultural Extension Service, was not extensive enough to do damage to anything other than possibly tomato plants.

Other parts of Michigan were hit by below freezing temperatures, as Cadillac reported a low of 25 degrees and Grand Marais, 31.

The U.S. Weather Bureau forecast for Pontiac and vicinity is continued clear and cool tonight and a little warmer Friday. The low is expected to be 42-44 tonight, high tomorrow 70-74.

Yesterday's low was 44 degrees, high 60.

By 2 p.m. today the mercury had risen to 60 degrees.

Clean Getaway

ALBUQUERQUE (AP) — John S. Tarr, Denver, left an insurance company through what he thought was a doorway. It turned out to be a spotlessly clean window. Doctors put two stitches in his knee.

Water Softener, Salt Delivered. Flake and pellets. FE 5-9421.

Mt. Clemens Blaze Sends 6 to Hospital

MOUNT CLEMENS (INS)—Four children and two firemen were recovering in the hospital today from smoke inhalation resulting from a fire last night in a two-family Mount Clemens flat.

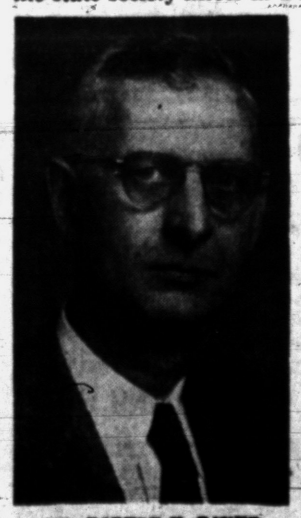

In St. Joseph Mercy Hospital are Warden Wright Jr., 5, his brothers and sisters, Albert, 3, Charene, 19 months, and Valandal, nine months, and Sgt. Harold Lozen, 36, and his brother Bertram, 44.

The fire was confined to the dining room, but caused intense smoke.

The parents of the children, Mr. and Mrs. Warden Wright, had left them alone in the house while they had gone to work.

Pontiac Surgeon to Head Michigan Medical Society

A Pontiac surgeon, Dr. Robert H. Baker, will become president of the Michigan State Medical Society when the state society meets in Detroit next week for its 1954 annual session.

DR. ROBERT H. BAKER

Nine Michigan physicians will receive special honors when the society opens its meetings, Monday.

Eight will become members of the 50-year club, an exclusive organization of Michigan doctors who have served a half century or more in the medical profession.

Michigan's foremost family physician of 1954 will be selected on the first day of the session.

Dr. Baker, whose father once headed the society, will succeed Dr. L. W. Hull of Detroit.

The eight practitioners to be honored for 50-year service are: Drs. George H. Boyce, Iron Mountain; C. D. Chapin, Columbiaville; Albert E. Bernstein, William E. Blodgett, Henry W. Cadieux, Herman C. Emmert, Charles S. Norton and Dewitt L. Sherwood, all of Detroit.

Willman Reveals Steps Are Being Taken to Improve City's Streets

First official response to a front-page article in yesterday's editions of the Pontiac Press calling for "bigger, better and more modern roads" for this locality came today.

In Detroit, where he is attending a three-day Michigan Municipal League convention, City Manager Walter K. Willman held out high hope that substantial steps will be taken on such a program during the next few years. He said:

"Seven of the eight specific needs listed by the Press are under consideration at this time. The eighth —the widening of Paddock street— is not being considered. However, it was just recapped."

He said the seven coincidentally were being considered by a Municipal League committee on highway safety at the time the article appeared.

"Each community presents its particular problems and then the committee looks at the problems as a whole, determining what is needed to solve it," Willman explained.

WALTER K. WILLMAN

"We plan to present a resolution to the convention today requesting that all federal gasoline and motor vehicle taxes be allocated to highway systems, which is not now the case."

Commenting on each of the seven other "pressing needs" listed by the Press, Willman said:

1. Orchard Lake widening—"Orchard Lake is a state trunk line," and thus out of Pontiac's sole jurisdiction.

2. Clover leaf at Orchard Lake and Telegraph Rds.—"Also a state trunkline."

3. Widen Voorheis road—"Voorheis is a county highway from Telegraph road, out."

4. Put Huron street under the Grand Trunk Western Railroad tracks—"That is under the 1½ mill public improvement program voted last year. The entire program is scheduled to be completed within 10 years, but the order of priority for projects has not yet been determined. There are several things to come first, including a public safety building and a municipal garage."

5. Triple the width of Perry street—"I spoke to a high state official yesterday and it is very probably on the program for next year."

6. Widen and extend Cass—"We are now negotiating with the state."

7. Widen Parke—"Also negotiating with the state."

Asked if he believed the city was doing everything possible to alleviate the situation, he stated: "We're spending all the money we can get."

Willman said the state annually gives the city $550,000 for new streets and street maintenance within the city limits—$350,000 for new construction and $200,000 for maintenance. To this the city adds $300,000 yearly for construction.

He commented that the municipal league is playing an important part in Pontiac's street development "by fighting for more money for cities in general and fighting for the money we have."

150-Pound Python Still Loose in Texas

FORT WORTH, Tex. (AP)—Python Pete, probably the most publicized snake since the serpent entered the Garden of Eden, was still AWOL today from Forest Park Zoo, and fanning the Dallas-Fort Worth rivalry.

Pete escaped his quarters here last Saturday and nobody has been able to put a hand on him since, not that anybody wants to stroke his 18-foot, 150-pound frame.

Meanwhile, however, Fort Worth was getting a little touchy about its latest celebrity, it seemed to some.

The Day in Birmingham

Firemen, Police Are Cleared in Death of Couper Family

From Our Birmingham Bureau

BIRMINGHAM—Investigators today cleared Birmingham firemen and policemen of any blame for the deaths of Mrs. Thomas Couper and her two sons, who perished in a June 14 fire at their Brookwood Court home.

In a 19-page report to the City Commission, the three-man investigating board concluded that the fire and police departments "were not guilty of any improper or negligent conduct and they performed their duties with commendable competence at the fire under investigation."

One recommendation was offered by the men. While they felt that the two departments had been well managed and greatly expanded in past years, it was their opinion that "they are not staffed to ideal standards."

In order to maintain the departments at "maximum desirable standards," they suggested that "the city might well give serious consideration to the establishment of an independent board which could perform such functions in an advisory capacity to the (city) commission."

James Spencer, Charles Kass and Jonathan Ball were appointed as an investigating committee by the commission, after witnesses criticized the actions of the departments.

Analyzing the complaints registered, the board said it was "convinced that much of the sincere concern felt by spectators of the fire arose from their lack of knowledge of the approved techniques necessary in fire fighting and by a natural and inevitable misunderstanding of the events vividly impressed on the minds of those present."

Mrs. Maurene Couper, 40, and her only children, Larry, 14, and Danny, 12, suffocated in the blaze which started in the den of the $60,000 home at 1189 Brookwood. They were probably dead before the fire was reported "and almost certainly before the first fire equipment arrived," the committee stated.

Lawrence Cross, 62, Mrs. Couper's father, was semi-conscious when rescued by firemen. Mrs. Couper's husband, a Detroit business executive, was out of town.

This is a summary of what the report disclosed:

The fire was discovered by a neighbor and reported to the fire department at 12:50 a.m. An electric clock in the room adjacent to the den had stopped at 11:35 p.m. while an upstairs clock was stopped at 12:48 a.m., probably the result of heat-fused wires.

A police car reached the scene at 12:52 and joined residents in rescue attempts, but all were repelled by heat and smoke from entering the house. The officers broke the glass in Mr. Cross's bedroom window but could not get through the aluminum screen. (All windows and storm windows were closed except for one downstairs.)

Five minute after the call was received, the first fire engine arrived. An order to drop hose was given to the truck en route, but was changed to "ladder rescue" at 12:55, when firemen were informed that persons were inside the house.

Between 12:56 and 12:58 a ladder from the engine truck was used to remove Cross from the home and he was placed in the first police car; a Royal Oak ambulance service was called; and a second police car and the fire department's ladder truck arrived.

From 12:57 to 1:02, firemen broke the bathroom and master bedroom windows and played water into the bedroom. Heat prevented entry or inspection.

A general alarm was sounded at 1:02. During the next eight minute, additional efforts were made to gain entry. Two bodies were seen on or near the lavatory floor by firemen on a ladder outside the window.

Engine No. 2 arrived at 1:11, dropping and laying additional hose. Between that time and 1:18, firemen entered the master bedroom and discovered the body of the Couper's dog. The two bodies found in the lavatory were examined and removed, as was a third body, found in the northeast bedroom over the den.

Search was made for "a little girl" believed to be in the house by some civilians, and other men were still fighting the fire. Mr. Cross was taken to St. Joseph Mercy Hospital, Pontiac, by the ambulance which arrived at 1:14.

Engine No. 1 left the scene at 1:59, engine No. 2 at 2:15 and the ladder truck at 3:13.

The house had been inspected for residual fire at 1:18, valuables were removed, the police department started attempts to locate Mr. Couper. A fireman returned to the home three times at hourly intervals to check for possible fire outbreaks.

In compiling their report the investigators received testimony from 22 civilians, 17 firemen, 7 policemen and 2 ambulance drivers. Edward Hall, technical consultant in the field of fire prevention and fighting, was engaged by the committee at the start of its investigation.

• • •

Clarence Heth

Service for Clarence Heth, 73, of 408 Pleasant St., will be held at 2 p.m. Friday at the Kinsey Funeral Home, Royal Oak, with burial in Greenwood Cemetery. He died Tuesday.

A lifetime resident of Birmingham, he was last employed in the parts division of the H. & H. Manufacturing Co.

Surviving are his widow, Ellen; a daughter, Mrs. Don Swaney of Monroe; two sons, Clarence H. of Southfield Township, Robert of Birmingham; a sister, Mrs. T. R. Navin of Birmingham; a brother, Eugene of Tampa, Fla., and three grandchildren.

• • •

Mrs. William S. Martel

Service for Mrs. William S. (Willi Bell) Martel, 61, of 775 Bates St., will be held at 2 p.m. tomorrow at the Manley Bailey Funeral Home.

Graveside service will be held Monday at 1 p.m. in Chicago, with burial in Evergreen Cemetery there.

Mrs. Martel died yesterday at Mt. Carmel Mercy Hospital after a long illness. She was an active member of the USO and American Red Cross.

Her husband survives.

Will Exhume Body of Child in Probe

The body of a two-day-old, unidentified girl found last July 19 in Avon Township, will be exhumed tomorrow and taken to Pontiac General Hospital for a coroner's inquest.

An order for removal of the body for examination was issued by the Oakland County Prosector's office after Dr. Isaac C. Prevette, acting Oakland County deputy coroner in the case, requested the post mortem.

"There is reason to believe that the baby came to her death by means of violence," Dr. Prevette said.

A post mortem is necessary and will aid in prosecution of any person charged with criminal act resulting in the death of the child," he added.

The child, found near Hamlin in Avon Township, was never identified, and was buried two days after it was discovered. At that time Dr. Prevette stated the baby died of a skull fracture and cerebral hemorrhage.

Lie Tests Clear Three Suspects in Howe Slaying

BIRMINGHAM — Still pursuing any leads which might locate the murderer of Doyle Howe, 24, who was found dead of a shotgun blast and robbed of $61 Sept. 12, police have cleared through lie detector tests, three youths who were with Howe hours before the killing.

Howe was shot in the back of the head, at a service station on Woodward at Chapin, where he worked. He had lived at 971 Bonnaville St.

There were no witnesses to the 2 a.m. slaying.

Prison Riot Quelled After 4 Are Killed

(Continued From Page One)

hail of rocks and bricks. Some prisoners were shot.

Three guards were injured. One, Jefferson Gentry, was beaten unconscious by the rioting convicts. Another, Clarence Dietzel, apparently was beaten or thrown from some height. A third, Oscar Carrington, was shot in the foot.

"They ran in and grabbed me and pushed me outside just as the shooting started," Carrington related.

The dead prisoners were identified as:

Don Manning, 19, serving a robbery term from Cooper county.

J. C. Swink, 32, serving a car theft term from Dallas county.

Walter Lee Donnell, serving a robbery term from St. Louis.

William Garrett, 29, serving a four year grand larceny term from Cass county.

Prison officials said they did not know what set off the riot, but Whitecotton said it apparently was touched off by a "very small group of the maximum security section in E hall.

He said he did not know how they got out, but one of them, William Delapp, 19, Seattle, Wash. would be questioned closely. A few weeks ago, Delapp stole a set of cell block keys from a guard, but the theft was discovered before any trouble developed.

Fires set by the convicts still were smouldering in the blackened ruins of prison buildings.

Senate Investigators Check Detroit FHA

(Continued From Page One)

the lending institution, the salesman, the contractor; in fact everyone, but the home owner is unconditionally guaranteed protection, has its obvious weaknesses."

Earlier Capehart had said two former Michigan FHA employes and a Michigan development builder would be questioned. The builder he named as Milton Ratner, of suburban St. Clair Shores. Capehart said Ratner got a total of $4,624,000 in nine separate loans for Lake Shore Village.

Ten persons were scheduled to be called for questioning on home improvement loans.

(One of the 10, Daniel Pintamo of 1560 Joslyn Ave., Pontiac, refused to comment today when asked why he was being called. He did say he was scheduled to appear in Detroit Friday. Pintamo said he is employed as a shop worker at Pontiac Motor Division.)

The two FHA officials, Joyce Schnackenberg and Fred W. Knecht were fired from the agency's Grand Rapids office for irregularities. Later they were indicted and fined.

Capehart said Michigan has had fewer big housing scandals than most other states.

However, he said the state was above average in the number of home improvement racket cases and in the involvement of FHA officials.

Capehart said he found that most big housing projects in Michigan were FHA-insured for 100 per cent of the cost, or 10 per cent above the limit set in FHA law, but that many in other states had been insured for as much as 150 per cent of the cost.

That, he explained, gave builders a 60 per cent "windfall profit." In other words, after paying all the costs out of their loan they still had 60 per cent left and tenants had to pay rents based on the full 160 per cent loan.

The Indiana senator estimated that windfall profits" and home loan frauds under FHA totaled at least $500,000,000.

Capehart said, however, he saw no chance of court action against builders who by fraud or otherwise got loans exceeding costs in the building of rental projects.

The statute of limitations (time in which prosecutions or other court actions may be taken) is three years under the FHA law. And the title under which housing development loans were made expired in 1950.

Capehart blamed looseness of administration for what he descriped as "this one grand grab bag." He said there was nothing wrong with the law as originally drafted, but that it had been strengthened by congress this year.

Birmingham Plan Board Hears Rezoning Requests

BIRMINGHAM — Two hearings highlighted this week's planning board meeting. In one, it was decided to recommend to the city commission that lots on the west side of Eton road between Hazel and Cole streets be rezoned from single family to income bungalow.

Originally Edward M. Rader, owner of the property, had asked for terrace zoning. He is now able to secure financing for construction of two family units.

Because the land faces a built-up business area, financing for single family residences would have permitted only lower quality frame houses.

Instead of one six-unit terrace, Rader proposed to erect three two-family homes, at an estimated cost of $10,000 each.

The board followed the thinking of planning director Robert S. Boatman in the other hearing, and denied a petition for rezoning the southwest corner of Lincoln and Southfield road, from single family to terrace classification.

Boatman felt that such a move would affect surrounding property, whose owners would probably request the same zoning changes.

He surmised that Southfield north of 14 Mile road probably is not destined to become a major artery, like the portion south of 14 Mile road, and therefore any higher density should be restricted.

It was recommended that the petitioner change the request, asking instead for income bungalow zoning.

A previous hearing to restrict residential density in business zones was also discussed, but will be taken up again at the next board meeting.

Pontiac Deaths

James R. Dewey

James R. Dewey, 51, of 44 West End St. died suddenly at St. Joseph Mercy Hospital yesterday.

The son of Herbert and Carrie Brooks Dewey, he was born May 12, 1903 in Port Huron. Coming here from Greenville 38 years ago, he was a member of the Oakland County Sportsman's Club and Assistant Scout Director of the Baldwin Rubber Troop. Mr. Dewey was last employed as Press Operator at the Baldwin Rubber Co.

Besides his mother, he is survived by three sisters, Mrs. Howard Phillips, Mrs. Irene Couture and Mrs. Wilfred Ritchie, all of Pontiac.

The funeral will be held Saturday at 2:30 p.m. from the DeWitt C. Davis Funeral Home with the Rev. William H. Marbach officiating. Burial will be in Perry Mount Park Cemetery.

Mrs. William Hart

Mrs. William (Maude E.) Hart, 76, of Three Rivers, Mich., died yesterday.

A former resident of Pontiac, she lived here five years with her daughter, Mrs. Ruth Phipps.

Born in Stanwood, Iowa, she was the daughter of Franklin and Anna Caldwell McClelland. She married William Hart in 1900.

Surviving besides Mrs. Phipps are four other daughters and a son, Mrs. Cecilia Peterson, also of Pontiac; Mrs. Maurine Wickens of Battle Creek, Mrs. Helen Achenbach of Pontiac, Mrs. Maxine Davis of LaPorte, Ind., and William Hart of Three Rivers.

The body will be brought here from the Austin Funeral Home in Three Rivers on Friday. Funeral services will be Saturday at 1:30 p.m. from the Huntoon Funeral Home. Burial will follow in White Chapel Cemetery.

Robert Cramer Hodges

Robert Cramer Hodges, 29, formerly of Pontiac died Monday at Dolly Vincent Hospital in San Benito, Texas.

Born in Pontiac Dec. 1, 1924, he was the son of Edward B. and Fay Maybee Hodges. Mr. Hodges' father was formerly an automobile dealer in Pontiac. Except for the last few years, he had spent all of his life in Pontiac.

Besides his parents, he is survived by a sister, Mrs. Albert (Marian) Benter Jr. of Pontiac and a brother, James E. of Sunland, Calif.

The funeral will be held Saturday at 1:30 p.m. from the Farmer-Snover Funeral Home. The Rev. William H. Marbach of the First Presbyterian Church will officiate, with burial in Perry Mount Park Cemetery.

Sandra Ruth Morris

Graveside service will be held Friday at 11 a.m. at Ottawa Park Cemetery for Sandra Ruth Morris, the infant daughter of Harold and Nona Ruth Austin Morris of 9857 Norman Rd., Clarkston. She was dead at birth yesterday at Pontiac General Hospital.

Besides her parents, she is survived by a brother, Mark and grandparents, Mr. and Mrs. Tennis Morris of Pontiac and Mrs. Fred Everett of Ortonville. Arrangements were by the Sparks-Griffin Funeral Home.

Lulu A. Selden

Funeral for Lulu A. Selden of 643 Northway Dr. will be held tonight at 7:30 p.m. from the Sparks-Griffin Chapel. The Rev. Tom Malone of the Emmanuel Baptist Church will officiate.

Following the service Mrs. Selden will be sent to Harrisburg, Ill. for services and burial on Saturday. She died Tuesday after an illness of several months.

Marvin A. Spurlock Sr.

Marvin A. Spurlock Sr., 68, of 92 Home St. died last night at Pontiac General Hospital.

Born Feb. 18, 1886 in Gassaway, Tenn. he was the son of E. F. and Nancy Watson Spurlock and married to Virgie Land in Nashville, Tenn. Dec. 12, 1907. He was a member of First Baptist Church and the First Baraca Sunday School Class. He was also a member of the Modern Woodman of America.

In 1926, he came to Pontiac and until his retirement was employed by the Pontiac Motor Division for 24 years in Plant Protection Dept.

Besides his widow, he is survived by two daughters, Mrs. Nadine Hargraves of Auburn Heights and Mrs. Evelyn Adams of Pontiac; two sons, Marvin A. Spurlock Jr. and Paul both of Pontiac. Also surviving are three sisters, Mrs. Mary Ross of Owen Cross, Ala., Mrs. Beulah Siris of Nashville, Tenn. and Mrs. Callie Mercurio of St. Louis, Mo.

The funeral will be held Saturday at 3 p.m. from the Huntoon Funeral Home with the Rev. H. H. Savage officiating. Burial will follow in White Chapel Cemetery.

Court Order Tames Square D Strikers

(Continued From Page One)

that the new get-tough policy might cause even more violence.

At a meeting with the police commissioner, Carl Stellato, president of Ford Local 600, UAW-CIO, snapped:

"Something may happen where you may have to use your men and horses and tear gas. And a lot of people will be hurt, including policemen."

Reception to Honor Dem State Candidate

A reception for Victor Targonski, democratic candidate for state auditor general, is planned Sept. 26 from 2 to 5 p.m. at 1561 E. Muir St., Hazel Park to introduce Targonski to Oakland County residents.

Some 14 other county and state candidates will be introduced. The public is invited to attend.

Peace for His Honor

NEWPORT, R. I. (UP) — Mayor John Sullivan probably won't be disturbed by too many telephone complaints from his constituents. His telephone number was accidently excluded from the new Newport director.

Gruenther Pleads for German Troops

(Continued From Page One)

guards" against the revival of German militarism.

The supreme commander stressed that the Allied troops now guarding Western Europe could not stall a possible Soviet invasion long enough for the West's main forces to be mobilized.

He told his audience:

"In NATO we have many safeguards against any member who might want to start a private war."

The general declared that there is no such thing as "fool-proof safeguards" and said it would create "an atmosphere that is harmful and distrustful" to have too many safeguards directed at one Western nation.

Gruenther predicted that the next three years would be more difficult than the previous three "because Soviet propaganda is becoming more clever and effective, especially their propaganda drive to ban atomic weapons."

North Pole Calling!

LONDON (UP)—Radio Moscow reported today that Russian scientists have installed a microphone at the North Pole. The broadcast did not say who would be broadcasting over it.

City's Yearly Pooch Parade to Be Held Here Saturday

How many times a day should a full-grown dog be fed? How old are puppies before their eyes "open?" How many toes do dogs have on their front feet?

Youngsters with dogs entered in the fifth annual Pooch Parade, slated for 2 p.m. Saturday at Oakland Park, are boning up on these and 63 other questions—and their answers—in preparation for the best informed owner phase of the dog day.

Prizes will be awarded to everyone entering the contest, according to David R. Ewalt, city parks and Recreation Dept. director.

Ribbons will be presented all winners of first, second and third places and an award will be made to the winner of each of the four classes. A trophy for the best "all around dog" will also be given. The prizes are donated by the Pontiac Kennel Club, which is co-sponsoring the affair with the parks department.

Besides the best informed owner class, competition will be held for the best groomed dog, best trick dog and the best pet-master combination.

The contest will be split into two divisions—junior, for those 7 to 11, and senior, for those 11 to 17. Dog owners are eligible who will not have reached their 17th birthday by Saturday.

Application blanks are available at elementary and junior high schools. Entry may also be made at the park by 1:30 p.m. Saturday or by phoning the parks department at FE 3-7131.

The question and answer sheets are also available at the schools and at department offices, 35 Hill St.

Three to Conduct Bloomfield Hills School Survey

BLOOMFIELD HILLS—Merrill O. Bates, secretary of the Board of Education; Douglas L. Jocelyn, board trustee, and Supt. of Schools Eugene Johnson will conduct a complete survey of the school district.

The move was authorized by the the board this week and is expected to aid in future planning of the entire school program.

The comprehensive study will include investigation of possible land purchases for future schools which the board discussed at length at its meeting. Members contemplate sites on both the east and west sides of the district.

Aged, Aging Studied by Research Group

CHICAGO (INS) — The Illinois Institute of Technology is participating in a unique welfare study of the aged and aging members of society.

The study, the IIT says, marks the first time sociologists and physicians have combined their sciences to bring about an understanding of the social nature of aging and the effects of chronic illnesses on the community.

Members of the research team are Leonard Z. Breen, assistant professor of sociology at IIT; Dr. Ernest W. Burgess, sociology professor emeritus at the University of Chicago, and Dr. Henrietta Herbolsheimer, assistant professor at the University of Chicago Medical School.

The team will operate in Vanderburgh County, Ind., on a contract basis with the county's welfare council. The project is sponsored by the county board of commissioners.

Lack of Fighting in U.S. Impresses Israel Visitor

OSCEOLA, Iowa (AP) — This is what impressed Ghantous S. Jabir, a native of Jerusalem, Israel, about the United States:

He was in this country 40 days before stopping here and he had not seen any two Americans in a fight or quarrel. Also on a trip which took him from New York to Indianapolis, California, Yellowstone National Park, Colorado, Nebraska, and Iowa, he said he had not met a single person who was not educated.

Driven Out by Commies

Local Family, Legislator Help Artist Stay in U.S.

Through the intercession of a Pontiac family and the efforts of Representative George A. Dondero, an artist nun driven by the Russians from her convent in Budapest has gained permanent asylum in the United States.

She is Sister Constantina Kakoyni, of the Hungarian order of the Sisters of Notre Dame. At the present time she is working at painting and sculpture at the College of St. Scholistica in Duluth, in addition to doing some teaching there.

After bombing her convent in Budapest, Sister Constantina and other nuns fled to Italy where they spent about a year. Her family is still behind the Iron Curtain.

"It was terrible what the Russians did to my country," she relates. "You people in America don't know how fortunate you are—no one can until they see how it is in other places—with the dead lying in the streets."

She was invited to Duluth by the prioress of St. Scholistica College but difficulty was encountered in obtaining permission for her permanent residence here.

Here a stroke of luck crossed her path. Studying at the college to become a nun is Sister Mary Virgene, a niece of Mrs. Richard P. Blake of 2730 Sylvan Shores. She wrote to the Blakes of the fugitive-artist's plight and they took up the effort to obtain permanent asylum for her. Blake solicited the interest of Congressman Dondero.

Through the congressman's effort the recent Congress passed a special act granting Sister Constantina permanent residence in this country.

As her order does not require that she remain in a convent, Sister Constantina hopes to continue her art career, after completing some pieces in both painting and copper she is now making for the college at which she is living.

There is a possibility she may visit Pontiac as guest of Catholic organizations in the fall.

Forestry Course Gains Popularity at Syracuse

SYRACUSE, N. Y. (UP) — Forestry courses at Syracuse University have a widespread appeal, if the list of the schools 1954 Ph.D. recipients is any criterion.

At June commencement exercises in Archbold Stadium Ph. D. degrees were awarded to students majoring in various phases of forestry form places as far afield as the Philippines, Fredericton, New Brunswick, Ottawa, Bellingham, Wash., Fort Collins, Colo., Missoula, Mont., and State College, Miss.

Southern Lad's Hospitality Costs Northerner $70

CHARLOTTEN, N.C. (UP)—Mrs. Margaret Berlow, who recently moved here from Emerson, N.J., told police she wasn't too impressed with the kind of southern hospitality she encountered yesterday.

A youth offered assistance in backing her car from a parking lot.

Pleased, she slid from under the wheel and the youth glided the car back smoothly, and went on his way.

Several blocks later she noticed her billfold containing $70 was missing from her purse on the front seat.

NEW IDEA—Cocktail table with hand-painted tiles and built-in ice bucket holding four trays of cubes is demonstrated at New York Gift Show by Josephine Snyder.

Salesman Slays Woman, Shoots, Cremates Self

McARTHUR, Ohio (AP) — An elderly novelty salesman killed a woman at nearby Prattsville, then shot and cremated himself, investigators reported yesterday.

The salesman, William H. Frantz, 64, of McArthur, poured gasoline on his car, got in, set the car afire and shot himself, Sheriff William Brown said. Frantz set the fire after leaving the general store where the body of the owner, Mrs. Clyde Peters, was found behind a counter Tuesday.

Mrs. Peters, 54, the mother of six children, was shot three times.

Brown said Frantz had tried to borrow 50 cents from two of Prattsville's 46 residents before he went into the store. He said Frantz probably shot Mrs. Peters when she, too, turned down his request.

Judge Locks Up Jury and Defendant in Case

ST. LOUIS (UP) — Defense counsel for an allegedly notorious "fence" here asked Circuit Judge Aldo C. Mayfield to lock up the jury overnight so newspaper stories wouldn't prejudice the jurors.

The judge thought that only fair, but he also revoked the defendant's $20,000 bond and had him locked up.

He was found not guilty.

Albany Medical School Uses TV for Teaching

ALBANY, N. Y. (UP)—The Albany Medical College is one of the first institutions of its kind in the nation to install television for teaching purposes.

The system provides 160 students with views of operations and laboratory demonstrations. It is set up in the college's auditorium.

LONG WALK—John Frey, 60, loves to take long walks. He is shown in San Francisco after walking all the way from New York, a trip he started last April 1. Carrying a 30-pound pack and sleeping bag, John averaged 22 miles per day on his 3,269-mile hike. He wore one pair of shoes which he had resoled 10 times.

Pinball Machine Helps Scientists Plot Animal Life

SAN FRANCISCO (UP)—A pinball machine enables University of California zoologists to study the life and death struggles of animals.

Dr. Oliver Payne Pearson, assistant professor of zoology at the university, built the device—without flashing lights—to determine the chances of survivial of animals such as a single pair of mice and their ability to restore a mouse population wiped out by flood.

In his device, steel balls, representing animals, roll down a grade where they bump into small pegs and into each other. Collisions sometimes send animals into holes where they will "die," while the survivors proceed downward toward a metal "mating strip.

As soon as the ball crosses the strip, electrical impulses release a litter of "babies" at the top of the board, and the cycle begins all over again. The 8x2-foot machine is used in determing the "reproduction-mortality" cycles for an animal population.

Blame Dog for Crash

YAKIMA, Wash. (UP)—A 200-pound St. Bernard's dash in front of a car has brought a $10,428 damage suit against the dog's owners here. A man and wife say the dog has caused the wreck in which they were injured. The dog was killed.

Farewell to Summer

There is a lot to be said for gradualism.

In this latitude Nature's use of it in changing seasons has made it much easier to say farewell to the Summer which left us at 8:56 a. m.

★ ★ ★

This indeed would have been a sad day if at that hour we had been plunged from Summer into typical mid-Autumn weather. Instead of regretting the holiday season's departure, we can look ahead to a beautiful and invigorating season.

It isn't uncommon for Oakland County lakes to be the scenes of picnics as late as the last week in October. Also, the seasonal change is made easier by the interests of many in the World Series, early football games and the upland bird hunting season.

★ ★ ★

Then, before we know it, Oakland County's woodlands become sights of rare beauty as the leaves take on their autumnal hues and a purple October haze fills the air.

In truth, the equinox wasn't an event to be regretted. Rather, it marked the start of what in this favored lake-studded region usually is a period of delightful weather.

Comic Book Czar Named

For the second time within a few days some good news has developed on the uncomic comic book front.

First, one publisher who introduced the horror comics, announced his decision to stop producing them. Now 24 of 27 comic book publishers have organized the Comics Magazine Association of America. Better still, they intend to adopt a code of ethics and already have chosen former New York Magistrate Charles F. Murphy to be czar of the industry.

★ ★ ★

It remains to be seen, of course, whether this action will result in improving a situation which long has worried parents, social workers and law enforcement authorities. But it is nonetheless welcome at a time when the FBI reports a 7.9 per cent increase in crimes committed by youngsters under 18 compared to a 14 per cent drop in Great Britain.

★ ★ ★

Because comic books have fallen into such bad repute, it is only natural that there should be increasing demands for censorship. This, of course, runs head on into the traditional American opposition to any kind of control over what may be printed.

No one could object to the kind of voluntary self discipline this new association plans. But every interested parent, social worker and responsible citizen will be on the watch for signs that the housecleaning is a thorough one.

★ ★ ★

While hoping for the best, we shouldn't be blind to the fact that comic books aren't the only cause of delinquency. Some movies and radio and television programs fall far short of being wholesome entertainment for juveniles. There is also the matter of parental irresponsibility.

Rigid Parity Wasteful

If further argument were needed in support of the flexible farm price program approved by Congress, it can be found in an Agriculture Department report.

This shows that the Commodity Credit Corporation which handles price support operations, lost a total of $345,000,000 in fiscal 1951. During fiscal 1953 the loss was $61,000,000 and in the last fiscal year, $419,000,000. These figures show the difference between what CCC pays farmers plus storage costs and what it receives for its stocks.

Even Adlai Stevenson, the Democrats' 1952 standard bearer, has his doubts about price supports. At the Mid-Western Democratic farm conference at Sioux Falls, S. D., he conceded that "90 per cent supports are not the only answer" to the price and surplus problem.

★ ★ ★

It clearly is easy for politicians to woo the farmer with promises of high price supports. But it is extremely difficult to justify their long range economic effects and that of the surpluses they create.

What the advocates of high price supports forget is that subsidies increase the tax burden and farmers as well as city dwellers have to pay the bill.

"New York legislators investigating problems of the aging blame the movies for making young people appear more attractive than older ones." — Press report. Some of the blame should be charged to Mother Nature.

Socrates soon wound up those who tried to argue with him by asking them to define their terms. A person will get mad and quite trying to argue if he is asked to explain what he's arguing about.

Some of those who attempt to follow Christian Dior's decree that dress styles feature a flattened figure will be far more stylish fore than aft.

The Man About Town

We Grow 'em Big

Pears and Potatoes Are Coming in Large Sizes on Oakland Farms

Small town: Where everybody earns a legitimate living — or is soon found out.

A young Bartlett pear tree at the home of

Ralph Marcus

at 10401 Hadley Rd. bore fruit for the first time this year. It had only four pears, but they weighed up to one and one-half pounds each. A Wolf River apple that measured 19 inches in circumference is reported by

Marlin Higgins,

picked from a tree in his yard in Auburn Heights. A potato of the "Pontiac" variety, that weighs two pounds was grown in the garden of

Lester Delaney

in Lake Orion, who says it was not hollow like most large potatoes. A second crop of red raspberries is being picked by

Mrs. Bartlett Curl,

from a bush in her garden in Drayton Plains. Apple and pear blossoms on the same tree in the first days of autumn surely are a rarity. An apple tree near the home of

Gordon Peeke

of Rochester, was grafted with a pear twig a few years ago, and both now are in bloom.

The 2,377 contestants still remaining in the football contest divide their predictions on the Pontiac-Waterford game Friday evening as follows: Pontiac, 2,069; Waterford, 278; tie game, 30.

Traveling incognito, just to get away from the public spotlight for a short time,

U. S. Senator and Mrs. Charles E. Potter

were in Pontiac the other day, and

Jack Brannack and Roy Wilton

had luncheon with them at Kingsley Inn.

Former Pontiac Chief of Police

Charles F. Rhodes,

now retired, still maintains a top interest in the Boy Scouts, one of the activities in which he was prominently identified for many years.

From Quincy, Mass., comes a card from

H. B. Soderberg

which tells of a bottling company there blowing into the glass of its containers the name of a lake near its plant,

Lake Chargoggagomanchaugogochaubunagungamaug.

Question of the size of a football playing field came up the other day. The official size is 360x160 feet. It is 300 feet between goals, but the playing field includes the two end zones behind the goal lines.

His nomination for Governor of New York brings to mind a question which

Averell Harriman

put to the writer of this column when he was a candidate for the Presidency at the Democrat national convention in Chicago in 1952: "Why does a man of my wealth want to run for office anyway?"

Verbal Orchids to—

Mr. and Mrs. Harry O. Whitfield

of 28 Oriole Rd.; fifty-sixth wedding anniversary.

Mr. and Mrs. Bert Frank

of Rochester; fifty-fourth wedding anniversary.

Return of the Prodigal

Voice of the People

Theater Owner Says Feather-Bedding Is the Only Issue in Drive-In Dispute

(Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests, unless the letter is critical in its nature.)

I want to reply to the letter appearing in this column Tuesday about the union dispute at the Pontiac Drive-in Theater.

There has been no wage dispute. Two projectionists receive $115.56 a week for 36 hours of work. They were also paid for all overtime at the rate of $3.69 an hour. All got vacations with pay, one day's vacation for every 24 shifts they work.

I negotiated with the union from July 29 to Sept. 7. Our big dispute was over what I consider feather-bedding. They insisted on two operators in the projection booth. One is all that is needed. Only one works in each of the inside theaters in this area.

Since I have been operating the booth myself, I have been handling some of my correspondence, writing ads and supervising the field, and still having plenty of time to operate the projection machine.

That shows how difficult it is for one man to handle the projection machine.

The union admits this, but says two have been placed in the other outdoor theaters and they do not want to risk loss of those spots in other theaters, so they insist on my carrying this unnecessary man.

I did not attempt to discharge any worker. I offered to use this second man in the field servicing the 1,150 speakers in use. A man would be of real service there; useless in the booth.

I have not attempted to eliminate union workers. I want union workers. I own this business. I feel I have a right to operate it. I have refused to sign a contract which would force me to place an unneeded man in the projection booth. That is the whole story.

Elton L. Samuels
Owner and Manager

THOUGHTS FOR TODAY

Rob not the poor, because he is poor: neither oppress the afflicted in the gate:

—Prov. 22:22.

★ ★ ★

Cruelty is a tyrant that's always attended with fear.

—Thomas Fuller.

Tired of Reading Letters of Religion, Commies, etc.

I have read so much of late in the Voice Box about religion, agnostics, and Communists. It's rather disgusting so I read "portraits" to take my mind off the depression it gives me. However, I do believe in God, he must have had a father, but I'm sure his real mother was Mother Nature. Also, I prefer to call that God the Great Spirit, like I understand the early Americans did.

An Honest Injun

Case Records of a Psychologist

Dentist Finds His Greatest Problem Is How to Fill Chair, Not the Tooth

Never scoff at the great science of advertising. Just read today's case and see what it did for Michelangelo and Cleopatra, the Mayo Brothers and Tom T. Incidentally, you receive twelve cent's worth of newspaper today but pay only 7c for it because the advertising pages make up the difference.

By DR. GEORGE W. CRANE

Case M-322: Tom T., aged 35, is a successful modern dentist.

"But a lot of the members of our dental society are hostile to him," one of his colleagues informed me.

"They claim that he turns out his work too hurriedly, while they stress quality, with little or no thought about financial matters.

"But I can't help admiring Tom. He has learned to talk German and Italian, Yiddish and Polish, at least to the extent of greeting his patients in their native tongue.

"And there is no question about his popularity with them. I have visited his office several times, and he always has his waiting room full. In fact, he keeps two chairs operating, and impresses me as being reasonably conscientious.

"Dr. Crane, don't you think a man can be too conscientious? And is it true that quality is the best sales argument?"

You readers are doubtless familiar with the slogan that if you build the best mouse trap in the world, you can hide away in the midst of the forest, but the world will beat a broad path to your door.

That's largely bunk today! Unless you advertise your product personally, or hire a professional advertiser to do the job for you, both you and your mouse trap will mildew and rot in anonymity.

For example, why do patients leave their home towns and go to the Mayo Clinic? Especially when

there are equally good surgeons in their own city? The answer is simply "advertising."

Our medical, dental, law and engineering schools still harp on quality and ridicule advertising, but those graduates who keep out of bankruptcy are not blushing introverts, or shrinking violets.

Instead, they are well known around the town. And how do they get so well known? By indirect forms of advertising, such as Tom demonstrates in today's case history.

Even Michelangelo appreciated the essential value of advertising as a mean to professional success. So he deliberately tinted one of his own works, in order to give it the impression of an antique, after which it was sold at a large sum to Raffaello Riario, cardinal di San Giorgio.

Cleopatra also crashed the party, so to speak, and gained an audience with the inaccessible Caesar by having herself rolled in a rug and delivered to the conquering Julius, who was so impressed with this bit of advertising strategy that he became intrigued with her intellect as well as her figure.

Colleagues here in Chicago of the great John B. Murphy, father of modern surgery, tell me that Dr. Murphy had a paid press agent who always saw to it that Dr. Murphy's picture and an appropriate story got into the Chicago newspapers whenever he arrived from a surgical visit to New York or elsewhere.

As a long time teacher of the psychology of advertising and selling, I may be accused of an undue admiration for the modern science of advertising, but don't you believe it.

Advertising is a scientific tool of business, as well as the professions. It is regrettable that modern medical and dental schools ignore the business side of their professions almost entirely.

Their graduates know how to remove your appendix or tonsils, and how to fill, straighten or extract your teeth, but they are given no help in the essential job of "prospecting," bringing patients to their offices, and developing the word of mouth talk-up which spells professional success.

The men in practice indict their own universities for this blindness, for they soon recognize that the greatest problem of the young dentist is not how to fill the tooth but how to fill the chair.

(Copyright, Hopkins Syndicate Inc.)

Aunt Het

A homely woman like Sue is lucky in one way. Friends get used to her like she is, and she don't get worse with the years like the pretty ones do.

James Marlow Says:

Rearmed West Germany Poses Major Problems

WASHINGTON (AP) — Divided Germany will be a problem for the West and Russia for years. No wonder both sides are pulling so hard in opposite directions, with no solution in sight.

The United States and Britain have obvious reasons for wanting the West Germans rearmed in a hurry and made part of the Western defense against Russia.

The crucial time element makes them look not only to the immediate military benefit but to the uncertain future.

★ ★ ★

The difference between West Germany rearmed and unarmed, facing the Russians, is the difference between a door, locked, and a swinging door.

The Allies would have to defend West Germany against Russian attack anyway, even though the Germans were unarmed. But if they remained unarmed the task might be impossible.

Once the Germans were armed, as the French have made abundantly clear through their expressed worries, the Allies would have the problem of seeing that rearmed Germany didn't get out of bounds to become a new terror.

The Allies will meet in London next Tuesday and again in Paris in mid-October to seek the double answer of rearming Germany and keeping her within bounds afterwards.

But time is working, and it may not be working on the side of the Allies. At this moment, under the pro-Allied and anti-Communist leadership of Chancellor Adenauer, the West Germans want to get into the Western defense alliance.

But Adenauer will not always be there, and whether he is or not, the mood of the West Gemans may change if the Allies, through their indecision, keep them dangling indefinitely between heaven and earth.

★ ★ ★

They are dangling now and have been since the war. The Allies have not given them the right to rearm nor permitted them independence. American, British, and French troops occupy the country. The three powers keep a veto over Adenauer's government.

But the Germans have made an astonishing recovery from the war and are growing in strength. They can't be expected to remain in a second-rate position forever.

If was thought that under the European Defense Community, calling for a single army, the Germans couldn't menace their neighbors again since they would be serving with troops of other nations under a unified command.

★ ★ ★

For various reasons the French killed EDC. There was a wide gap in the hope that EDC could positively prevent revival of a German national army.

Adenauer's West German government could agree to submerging its armed forces in a single European Army. But the time might come when Russia would release its hold on East Germany and let it be united with the Western half.

If then a new, all German government was created, would it abide, or feel obliged to abide, by the agreement made by the old West German government? Or would it withdraw and set up its own, new national army?

★ ★ ★

The Allies face that problem in any plan they work out for rearming West Germany now. But bringing it into the Western Alliance now would give them some hope for believing a new German government would stay in.

The Russians have been doing their best to persuade the West Germans they would lose all hope for a reunified Germany if they join up with the West. The Germans are in the middle of this power-pull. If the West Germans turn neutralist, in the hope of getting Russia to yield up East Germany, and if Russia ever does, then:

The united Germany could dictate the future of Europe, and perhaps the world, by making an alliance with the West or Russia.

Baering Down

By ARTHUR "BUGS" BAER
(International News Service)

When EDC evaporated in Europe did we lose the world or just a glass door?

Just when we were beginning to understand what the initials meant somebody jerked the string on the abbreviation.

Fortunately we had buttered up an alternative plan that gives us the choice of another exit.

Six hundred French deputies voted on it from all directions. They made so much noise we knew they were agreeing.

Secretary Dulles took it as calmly as a thermometer reading. All he needs now is to have his portfolio swiped in the Simplon Tunnel.

Diplomacy and inner soles were invited to hide bad workmanship. We have fought two world wars in Europe and broke the altitude record for things left in mid-air.

We repeat Mendes-France has hollow epaulets for carrying water on both shoulders. As for refuge in atomic security what other nation can go underground in champagne caves?

These are the same caves that stopped the crown prince in 1914 when tiger Foch put in a floor show.

However, things are brighter than a double-ended lightning bug. There will be a conference in London to decide where to hold the next one.

Naturally, Premier Mendes-France and all the deputies will be there. French is the language of diplomacy until its translated.

We still have the North Atlantic Treaty Organization which dehydrates to NATO.

That calls for better footwork in fundamentals. We are not running the basics the way we used to.

Smiles

Warning

A farmer, tired of being single, went to town, chose a wife, married her, put her on the back of his horse and started home.

Suddenly the horse stumbled. "That's once," said the farmer, and went on his way. The horse stumbled again. "That's twice," said the farmer. The third time the horse stumbled the farmer said, "That's three times." He and his bride dismounted, and he took his rifle and shot the animal.

"Whatever possessed you to do that?" the bride asked; and she thereupon began a long-winded tirade about the farmer's stupidity. He listened for several minutes, looked steadily at his wife and remarked, quietly, "That's once."

Don't Make a Federal Case of First Childbirth --- Just Call Family Doctor

By WILLIAM BRADY, M.D.

After all this column is of little or no interest to morons. For them it is so much easier to take an aspirin.

Nevertheless, a good many readers who write well enough to enter high school or college still belong in the third grade so far as their knowledge of physiology and hygiene is concerned. But what else can we expect from the studied neglect of these subjects in the public school curriculum?

Typical query from a well educated young woman—as education goes in Yankeeland:

Expecting our first baby in February. We inquired at—Hospital for names of obstetricians, but they would not name any. How does one go about finding a good obstetrician?

If the advice of a plodding old door-to-door doctor is worthy of your distinguished consideration, Mrs. Wiseacre, you will not try to find an obstetrician.

I assure you, my dear ignorant young woman, that it doesn't help at all to make a federal case of your first childbirth, unless you are seriously ill, crippled or deformed—in which case you had better leave it to your family physician what obstetrician or other specialist to consult.

The trouble with most young Americans facing the birth of their first baby is that they are vaguely aware of their ignorance and incompetence, but, looking around, they feel that it is the normal thing, for all the other young prospective parents or nearly all are in the same boat.

So, why take time out from bridge or cocktail parties to study such nasty subjects as embryology, the hygiene of pregnancy and natural childbirth? Just be smart. Cover up your stupidity, engage a trick specialist who purports to be an obstetrician and dump all your cares and responsibilities, and incidentally your dignity as man or woman, in the specialist's lap.

I'm sarcastic about this because I hope to stir young prospective parents out of their abject submission to the rules and regulations of 19th century lying-in institutions which enable the trick specialists, officious nurses and other hospital "authorities" to patronize, ridicule and push them around.

Prospective parents who want to discourage such abuse had better do a little studying together. I recommend for study these items:

(1) Preparing for Maternity—for this send me 25c and stamped, self-addressed envelope.

(2) Childbirth Without Fear—get this at your public library or any book dealer's.

(3) Prenatal Care—Sup. of Documents, Washington, D. C., price 10c. Do not ask me for it.

Signed letters, not more than one page or 100 words long, pertaining to personal health and Hygiene, not to disease, diagnosis or treatment, will be answered by Dr. Brady if a stamped, self addressed envelope is enclosed, etc.

(Copyright 1954)

Increase in Tax Brings More Prompt Payment

HARRISBURG, Pa. (AP) — Harrisburg citizens apparently are more willing to pay a $10 city per capita and residence tax than a $5 levy.

The city treasurer reports that the percentage of residents paying their taxes early has risen steadily over the years.

Even though the total tax was recently doubled the number of people paying the first two months was up slightly.

Ancient Roman roads were often three or more feet thick.

Japan Jet Streams May Be Strongest in World

TOKYO (AP) — U. S. Air Force meteorologists believe that jet streams — high altitude wind belts —are stronger over Japan than anywhere else in the world.

Recently a jet stream was reported at 35,000 feet and moving eastward at 400 miles an hour.

Aircraft use such winds to increase their range and speed without additional fuel.

Suffocation causes an estimated 80,000 deaths in the U.S. every year.

Clean Medicine Cabinet

CINCINNATI (AP)—Get rid of the things in that cluttered medicine cabinet is the warning of Dr. Carl Wilzbach, city health commissioner. Old adhesive tape, cotton and iodine can cause a lot of trouble, he told newsmen, adding: "Most medicine cabinets are loaded with dynamite." The usual, fresh, first-aid articles always should be kept on hand, however, the physician said.

The Japanese estimate that their fishermen catch about one-fourth of the world's fish.

Sees Production Boom

RALEIGH, N. C. (AP) — In 1939 the U.S. Census Bureau reported there were only 50 people employed in North Carolina in the manufacture of electrical products.

Ben Douglas, director of the state conservation and development department, reports that by the end of 1954, more than 20,000 people will be so employed in the state.

American men die sooner than American women, and as a result there are more aged women in the United States than aged men.

SAGINAW AT WARREN, PONTIAC
OPEN MON. FRI., SAT., NIGHTS TO 9

GIFT TO BE MOUNTED—Sloan Simpson, former wife of Ambassador William O'Dwyer, arrives in New York after a 15-week vacation in Spain, carrying the head of a black bull. She was given two bull heads after they were killed in a Toledo bull fight ring. Sloan says she plans to mount one head in her home.

Windsors Turn Old Mill Into First Real Homestead

NEW YORK (INS) — The Duke and Duchess of Windsor, the world's most romantic couple, finally have a home of their own.

It's an old mill with a hall floor made of antique gravestones and a family of fantail pigeons living on the upper windowsills.

But this quaint French mill, an hour's drive from Paris, is the first home the Windsors have owned since they were married —and it caused the duchess to write her first magazine article.

In a two-part story which begins in the current issue of a national magazine, the Duchess gives a detailed account of her new home and its decoration — from the great hall with its green and pink rose upholstery to her pastel bedroom and the duke's red and white bathroom.

The Windsors used the furniture they loved best from all the rented homes they have lived in since their marriage, as well as furnishings from Fort Belvedere, the duke's home when he was King of England.

The Duchess, well-known for her love of pastel tints, tried dramatic, vivid colors for the first time in planning the Mill's decoration. She writes:

"I think every house should have a theme in its decoration, even if the theme is as simple as the one I chose for the mill — fruits and flowers."

The duchess also used pictures throughout her new home as a decorative theme. She explained: "When I look at a picture, I never see it by itself. I see it as part of a room."

Two contemporary studies of white flowers against brilliant vermillion background suggested the drawing room colors, red and white.

But the Duchess relates how her plan to use a picture for the decorative theme of the dining room ran into difficulties. The duke objected to the painting she had bought for it — which showed a wine bottle, an egg and a plate of fish bones.

"When I got it home the duke thought I had quietly lost my mind to buy a picture of a 'dead fish.'" the duchess writes. "He declared it would ruin his appetite to see it in the dining room and I had to promise to put it away."

Women Patients Given Orchids by the Doctor

DALLAS (AP) — Dr. Nard Lair of Dallas gives each of his women patients an orchid while she is recuperating in the hospital.

He grows the orchids himself, in a greenhouse behind his home.

"I also give orchids to the doctors who attend my wife and children," he said.

Special Delivery

LURAY, Va. (AP)—Robert Harnsberger obligingly showed a tourist the location of a mail box.

"Oh, no," said the tourist. "This letter goes to Europe. That box is for U. S. Mail."

Treasury Aided by Guilt Funds

Conscientious Citizens Redeem Old Mistakes by Money Gifts

HARRISBURG, Pa. (UP) — She told Gov. John S. Fine that her conscience had bothered her ever since she threw some paper on the street in her native Wilkes-Barre.

So she sent $5 to the governor to make amends and salve her conscience.

Like all the anonymous gifts of cash and checks sent to the state by Pennsylvanians with bothersome memories, the $5 went into the state treasury's "conscience fund" for general use.

In the last quarter of a century nearly $7,000 has been sent to the state treasury or state officials by people who had shortchanged the commonwealth and lost some sleep over it.

One of the smallest "gifts" was five cents sent in to correct a minor tax error.

Last year a "conscientious taxpayer" mailed in a $40 check "because I think I made a mistake in paying an inheritance tax some years ago. This is double the amount because it's delinquent."

A man from Illinois wrote that he was studying for the ministry but was bothered by a debt of $1 he owed the state for gasoline stolen "six or seven years ago from one of the state's road construction vehicles. I have became a Christian since then."

An Ohioan sent a $20 check to cover the cost of materials "I put to my own use when I was working for our commonwealth.'

And a Philadelphian mailed the state $10 for "unemployment compensation I owe the state of Pennsylvania. I wish to clear my conscience of it."

The identity of such donors is never revealed even when the sender makes it known.

Red Party Membership Cut in Half in Bulgaria

ISTANBUL (AP)—Bulgaria's Communist party is less than half the size it was five years ago, Vulko Chervenkov, the country's Red prime minister, made this disclosure in a speech to the annual Congress of Bulgarian Communists.

He belittled the drop from about 900,000 party members in 1949 to 423,000 at present—saying many had been expelled because they were not good Communists.

The world's strongest spring has enough energy to lift itself 32 feet. But a storage battery can lift itself a mile; and a spinning wheel could raise itself more than four miles.

Hobby Paying Off; Tries New Field at 93

STANDISH, Maine (AP) — You just never know when a hobby will pay off in cash. With Mrs. Eleanor Mead it began after she was 80.

She had always knitted, which isn't unusual. But what was unusual was that she never knitted two articles alike.

As a result, Mrs. Mead, who'll be 93 in November, has been collecting cash for her original patterns for the last dozen years. National magazines and virtually every publication which carries knitting patterns have published hers. From a yarn company she collected $250 for patterns.

The trouble now is knitting isn't a hobby for Mrs. Mead any more. "When it became a business, I had to have something else as a hobby," she says.

So now she is collecting buttons.

The last wills of George Washington and his wife, Martha, are in the record room of the Circuit Court of Fairfax County, Virginia.

Laughing Gas Is Poor Substitute for Moving Bees

SAN FRANCISCO (UP)—Giving honeybees a laughing jag by gassing them with nitrous oxide — laughing gas—as a substitution for moving them to new locations in seed fields, is discouraged by University of California bee specialists at the Davis campus.

Gassing has been tried to keep pollen-gathering activities of honeybees localized because they normally extend their activities from the hive after their first few days in a new location. It has proven unsuccessful in California tests.

Field trials by John E. Eckert, university apicurist, show that gassed bees travel just as far as their untreated kin although they are disorganized for several days. The bees recovered consciousness eight to 10 minutes after gassing. Eckert said, but took two or three days to regain normal activity, resulting in the loss of nectar-gathering and pollinating services.

Tire Maker Spends Evenings With Easel

AKRON, O. (UP) — Ray Grathwol builds tires during the day, but at night he paints pictures.

He started it 18 years ago as a hobby. He took no lessons and doesn't intend to. After all, he has won a lot of prizes for his work.

He's afraid that if he takes lessons, whatever good it might do him in technique might be balanced out by a loss of his own special type of portrayal.

Grathwol has sent his paintings as far away as New York, Washington, Milwaukee, Pittsburgh and Philadelphia to appear in exhibits. Most of his subject matter comes from Ohio landscapes — but he's not strictly provincial and sketches wherever he happens to be.

Between 1940 and 1950 the population of the U. S. increased by 1 per cent, and in the same decade church membership gained 34 per cent.

Reader Gives Scientific Explanation of Snoring

POPLAR BLUFF, Mo. (AP) — The Poplar Bluff Daily American Republic has been carrying a series of articles on snoring, principally by husbands. And the women folk have recommended treatment varying from outright shooting of the snorer to separate bedrooms.

But the other day a correspondent said the thing to do was to find the cause and she cited the scientific analysis she credited to her father:

"The physchological perifery of the perimeter requires that the larynx, the glottis and the epiglotis shall have all the commitments of the atmosphere. That causes the nasal protuberances to prevaricate. In that way the whizzlemagigary of the candelabrium has to explodiate through the hydrostatics of the proboscis, thus producing a snore, a snort or a gurgle."

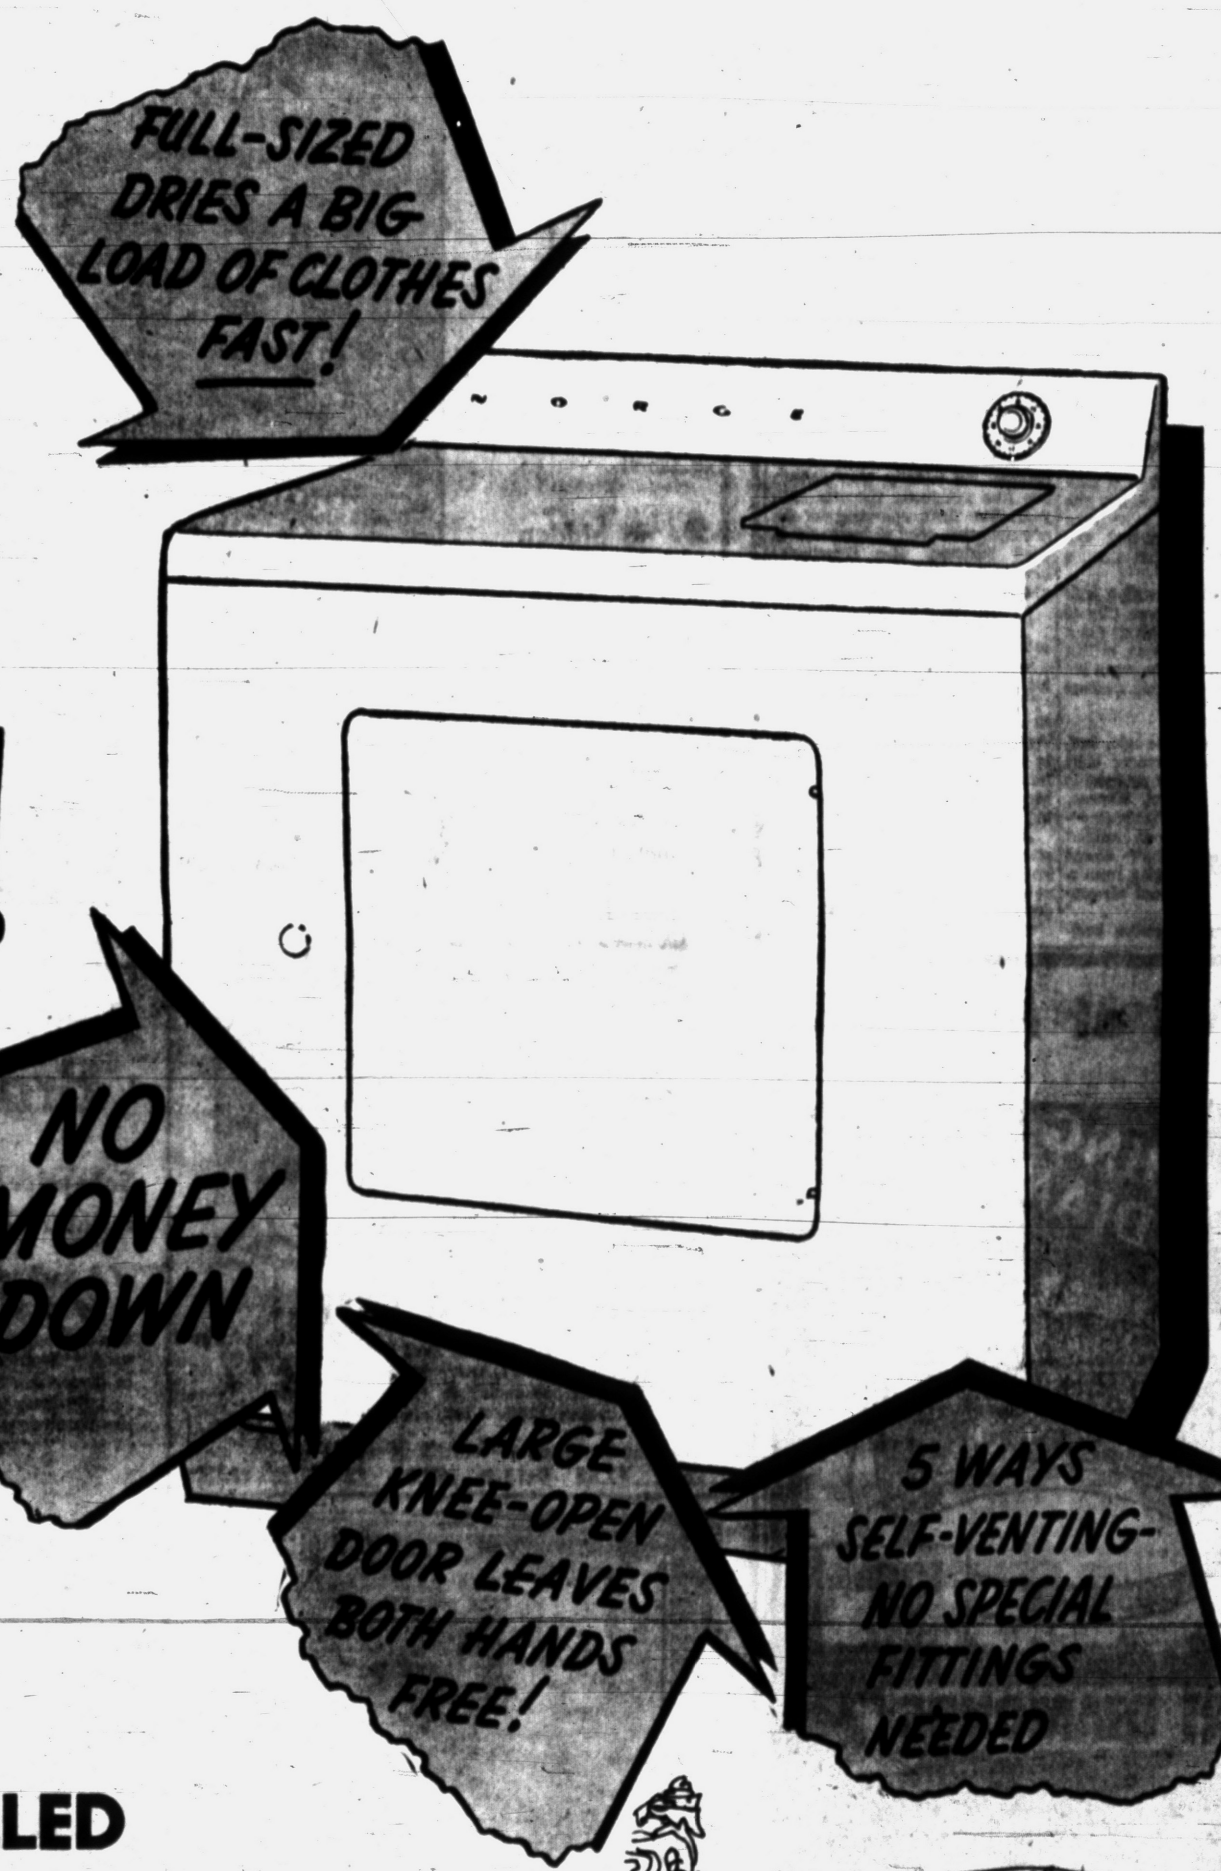

Female immigrants outnumbered males three to one in 1946 in the United States, reflecting the number of war brides brought here by soldiers.

Hal Boyle Says:

Alligators, Skunk, Monkey All for Sale at Drug Store

NEW YORK (AP)—When Ike and Mike Katz opened a new super drugstore in Memphis recently, they sold $6,000 worth of parakeets in three days.

They also sold a pet skunk, a monkey (for $39.95), any number of goldfish, $4,100 worth of nylon stockings, and 40 alligators.

These may seem odd items for a drugstore to stock, but they aren't at all unusual for the two Katz brothers, Ike, now 75, and Mike, 67, long have been known as two of the greatest showmen in the field.

• • •

They pioneered in discovering the importance of "impulse business."

"This means that when a customer comes in a store to buy one thing," Ike explained, "he sees another thing—and buys that, too. We'll stock anything that catches the eye."

The brothers started with a fruit and candy store in Kansas City 40 years ago and took in about $18 a day. Even then Ike was selling oranges three for a dime when his competitors were charging a nickel each.

• • •

Operating on a mass-sale, cut-rate principle, the brothers built up a chain of 32 super drugstores in five states—Missouri, Kansas, Iowa, Oklahoma and Tennessee—that will gross some 40 million dollars this year. Their stores stock 31,000 items, ranging from a package of gum to room air-conditioners.

"I got into the drugstore business by accident," recalled Ike. "During the first world war the government put out an edict that only drugstores could stay open after 6 in the evening.

"At that time we were handling mostly candy, ice cream and tobacco. But the day the edict came out I bought some drug supplies and hired a pharmacist. I didn't know for sure then whether aspirin was a headache cure or a hair tonic."

Ike, crippled since boyhood by a baseball injury, walks with a cane. He enjoys being called "the Iron Duke," also enjoys big gestures. Once a year he buys out the Kansas City ball park so his customers can see a game for nothing. He usually also endows two free symphony concerts each year. The firm, operating on the principle that good philanthropy is good business, also contributes heavily to hospitals, religious organiations, and charities.

• • •

"If you operate in a big way," said Ike, "you can't live small."

Here are the keys, he feels, to his own business success:

"You have to be bold. You have to advertise. You have to show ingenuity. You have to have faith in the country and a belief in the future. And you have to use your head for other things besides sleeping and eating."

Ike started his original fruit stand in Kansas City with a $198 grubstake he had saved as a young news butcher on trains carrying prospectors toward the Klondike.

"On the side I was renting the prospectors straw mattresses at fifty cents a night," he said. "When the company found it out, they fired me."

• • •

Of all the thousands of customers he waited on in his drugstores, Ike's favorite is a lady who returned a watch and wanted her money back.

"What's wrong with the watch?" he asked.

"Nothing," she said. "When I bought it, my husband was sick and I needed a watch so I could give him his medicine at the right time. But he's well now, and I don't need it anymore."

Proposed Law Would Outlaw Scanty Clothing

WHITE PLAINS, N. Y. (AP) — Clothing that leaves the thighs or midriff exposed would be outlawed under a proposed new city ordinance here.

It would ban the wearing by any person over 12 years of age in streets, park or other public places of shorts, halters, swim suits or any apparel which fails to cover the body from shoulders to a point midway between hips and knees—sunbacks excepted.

Violators would get up to $150 fines and 30 days.

Elk Startles Motorists

OKLAHOMA CITY (AP) — Motorists were startled the other day by an elk roosting in atree near Classen High School.

Well, it wasn't a live elk, just the head of one. The Elks lodge concluded that student pranksters were only kiding.

OIL UNDER CAPITOL—The State Capitol in Oklahoma City stands in an oil field which contributes to state funds. Well, below foreground derrick, runs under Capitol itself.

It can take off from and land on a few square feet of space on a ship's deck or anywhere. Hovers like a humming bird, when you want it to. It can dart up and down and from side to side at only a few feet above the ground."

Village Exacts Payment of $700 for Man Killing

ADEN (AP)—If a man kills another man, in Al-Madarah village, in Aden's western protectorate, he must pay 700 Maria Theresa dollars as blood price. But if the killer is a woman, a 50 per cent discount is granted.

The rule was applied recently to a woman who stabbed to death a boy and a girl, the brother and sister respectively of another woman whom the murderess' husband wanted to take as second wife.

Ohio State Holds Wheelchair Dance

COLUMBUS, Ohio (AP)—At Ohio State University, two dozen students spent hours recently swinging partners in a wheelchair square dance as part of their school work. Dr. W. C. Batchelor, who instructs a class in "direction of Group Activities" did the calling. He said the dance was intended to teach some of the problems of handicapped people.

Only member of the class who actually is handicapped is Miss Louise Wells, 20, who has walked on crutches since a polio attack. People in wheelchairs, she says, can with modifications do practically all the well-known dances.

Nitrogen is present in all forms of living materials.

Bob Considine Says:

New Book Tells Students How to Flunk at College

NEW YORK (INS)—The passing show—

"How to fail a course in college," is the intriguing title of an article in an interesting "Going to College" handbook put out by Outlook Publishers, Richmond, Va.

Written by Vergil S. Fogdall, dean of students at Lewis and Clark College, Portland, Ore., it suggests such short cuts to a dunce's cap as:

By changing your mind about your curriculum after school starts, you should be able to avoid classes until the second or third week . . . Observe how seedy most professors look and treat them accordingly . . . If you must study, the most suitable time would be the last week of school . . .

Keep your study table interesting. Place photographs, magazines, goldfish bowls, games and other recreational devices all around you while studying.

Review only the night before examination and confine your efforts to trying to guess what the teacher will ask . . . Stay up all night before important examinations . . . Don't let academic work get mixed up with your daily life . . . Ignore dictionaries . . .

I you're a girl and you find just the right boy on the campus, fall head-over-heels in love with him. To heck with college. Your main goal in life is marriage anyway . . . Remember that success in life is your main aim and never let extraneous matters, such as grades interfere with this objective.

Skeets Coleman, the first and still the only man in aviation history to take off and land in a conventional airplane, was saying at Shor's that his youth accustomed him to vertical take-off and let-downs.

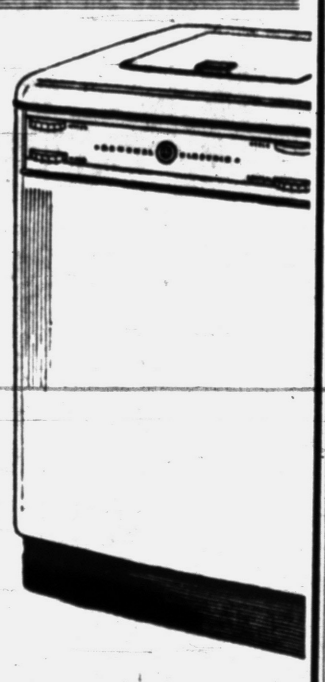

"I wanted to be a boxer when I was a kid in high school," the balding Convair test pilot related, "but I had a glass jaw. If somebody tapped it, down I went. I'd get up, but somebody would tap it again. One night, in front of all my relatives, I hit the deck eight times in three 2-minute rounds. A record I guess."

Coleman, a well-decorated lieutenant colonel in the Morine reserve, joined Convair in April 1952, when he learned the company was building "Pogo"—a plane designed to sit on its tail, take off straight for the sky, level off and fly close to 500 mph., then back down slowly on its tail again.

The machine exceeds his dreams. "Landing it is as easy as backing your car in the garage," Skeets said.

"Fantastic change of pace ,too.

Tragic Indian Expedition Launched Probes in 1792

WASHINGTON — Congress first flexed its investigative muscles three years after it was established. Since then, hundreds of inquiries have been undertaken by congressional committees.

The first of this long line of investigations was ordered by the House in 1792 to look into the disaster that befell the St. Clair expedition against the Indians. Since then, only three Congresses have been barren of legislative inquests, while no administration has been immune.

Many achievements are credited to congressional inquiries.

One probe uncovered Gen. James Wilkinson's part in the so-called Burr Conspiracy in 1810. Another forced the resignation of Ninian Edwards, minister to Mexico and author of the "A.B." plot, in 1824. Establishment of the Government Printing Office in 1860 was an outcome of another congressional probe.

Other notable investigations:

Unearthed the Credit Mobilier scandal of 1872.

Disclosed frauds in the star route mail service in 1884.

Forced the resignation of Secretary of Interior Richard A. Ballinger after his sensational 1911 controversy with Chief Forester Gifford Pinchot over conservation of natural resources.

Probes by Congress reached high-water marks during two periods in the nation's history.

Once was between 1869 and 1877, during Ulysses S. Grant's presidency, when incompetence and corruption ran through public life. During those eight turbulent years, Congress undertook 37 inquiries aimed at remedying bad conditions in the administration.

Another series of congressional probes in 1923-24 uncovered the Teapot Dome scandal and helped clean the "Ohio Gang" out of Washington. As a result of these inquiries, two cabinet members resigned, one was convicted of bribery, and the director of the Veterans Bureau was fired.

Congressional investigations have been made into the conduct of all wars in which the U.S. has been engaged except the Spanish-American War; President William McKinley forestalled legislative inquiry into that war by appointing the Dodge Commission. Congressional investigations were also responsible for the impeachment of President Andrew Johnson and Secretary of War William W. Belknap.

The executive branch has generally resisted the efforts of congressional committees to look into its operation. Exceptions included President James Monroe, Secretary of the Treasurer Alexander Hamilton and Daniel Webster, as secretary of state, who asked Congress to undertake probes.

George Washington was the first president to reject demands for information from a congressional committee. Thomas Jefferson was the second. In 1835, Andrew Jackson charged a committee with "violation of the Constitution" for seeking information from himself and several executive department heads.

Many other presidents have refused to answer Congressional requests or have resisted what they thought were congressional attempts to interfere with the prerogatives of the executive branch.

Such a situation arose in May of this year during the Army-McCarthy investigation. President Eisenhower refused to permit testimony about a Jan. 21 Justice Department conference. In a brief supporting this stand, Atty. Gen. Herbert Brownell Jr. cited precedents from Presidents Washington to Harry S. Truman to support executive refusal of information to Congress.

Controversy over Congress' investigative powers has often broken out among the lawmakers themselves. Such disputes can be traced back at least to 1860, when there was a famous debate in the Senate over the course of an inquiry into John Brown's raid on Harpers Ferry.

Maryland Inn Host to Robbers 11th Time

FREDERICK, Md. (AP)—Wilcom's Inn, which has been so mysteriously tempting to would-be robbers over recent years, has been invaded for the 11th time.

And once again, owner Charles F. Wilcom and his three sons, who get plenty of practice at the game of catching crooks, made a capture.

Wilcom told police yesterday he and his boys caught one man coming out of the establishment early Monday, but that two others got away with 20 cartons of cigarettes, some change and three antique muskets Wilcom valued at $325.

* * *

Before Monday's exploit, the family trapped three men inside the inn and nabed all three, wounding one seriously with shotgun pellets. And before that they apprehended six burglars in two catches. One of them was wounded and died later while awaiting trial.

Turned over to police after this week's attempt was a man identified as Frederick Deloy Fields of Portsmouth, Ohio.

Auto Smugglers on Eire Frontier Plague Guards

BELFAST, Northern Ireland (AP) — Smugglers are active again along the border separating Northern Ireland and Eire, this time dealing in automobiles.

During the war and for a few years afterward when meat was rationed in the north not in the south, the customs men were chasing cattle rustlers. The end of rationing in Northern Ireland took the profits out of this racket.

The smugglers turned to automobiles — about $700 cheaper in the south due to North Irelands 33 per cent sales tax.

They buy the cars in Dublin and disguise them in crossing the frontier. During recent weeks cars totaling nearly $30,000 in value have been seized by customs guards. They will be auctioned off at nominal British prices.

Firm Gives $100 Bonds

HARTFORD, Conn. (UP) — The Phoenix Insurance Co. came up with a new way of celebrating its 100th anniversary. It gave $100 savings bonds to all regular full-time workers. The total given out? A cool $100,000.

CLEARS UP COMICS—Judge Charles F. Murphy stands beside a group of "approved" comic books in New York City, just after the magistrate was named Code Administrator of the newly created Comics Magazine Association. Murphy will resign his judgeship to take over the job of formulating and enforcing a code of ethics banning so-called horror and terror books.

Lost 20,000 Men

Chinese Reds Failed in '49 to Capture Quemoy Island

By CHARLES M. McCANN
United Press Staff Correspondent

So much has happened since 1949 that most people forget that the Chinese Communists made one attempt to capture Quemoy Island and suffered a knockout defeat.

They lost nearly 20,000 men. Some reports say 30,000.

This time the Reds have been pecking at Quemoy for a month. Apparently they can't make up their minds whether to have another go at capturing it.

In Nationalist hands, Quemoy is a sore spot and a potential danger spot for the Reds.

It lies a tantalizing five miles off the Red-held mainland and is only 3½ miles from Amoy Island, which the Reds hold.

Communist officers can see, through their binoculars, the troops of Generalissimo Chiang Kai-shek's Nationalist Army moving about.

But the Communists found out five years ago how long those few miles of water which separate them from Quemoy really are.

This time the Reds do not know whether they might have to fight their way past the United States 7th Fleet before they even reach Quemoy.

The Reds do know that an attack would be an all-or-nothing affair if they failed to take Quemoy they would lose all the men committed to the attack.

In that October of 1949 the Nationalist defense lines in Southern China had collapsed, and the civil war was coming to its end. The Communists took Amoy during the weekend of Oct. 15-16. The Nationalists defending Amoy retreated to Quemoy.

Deciding to take the island, the reds assembled a motley fleet of junks, the clumsy Chinese coastal sailing boats, as invasion craft.

On the morning of Oct. 25, the Reds bombarded Quemoy for one hour. Then, still before dawn, they set out across the rough water.

Nationalist planes and small warships sank many of the junks. The Red troops in them perished.

The Reds managed to establish two beachheads. But, goggy from their passage through Amoy Bay, many of them acutely seasick, they met ferocious resistance. The attack failed utterly.

It was estimated that the nationalists took more than 4,000 prisoners. Thousands of Red troops were killed, ashore or by the Nationalist planes and warships. Few of the attacking force got back to Amoy. Generalissimo Chiang flew two plane loads of silver dollars to Quemoy for distribution to his men as victory tokens.

Now Chiang has 30,000 to 40,000 regulars on Quemoy and about 10,000 guerrillas. The defenders have spent five years fortifying themselves in cement pill boxes, underground strong points and trench systems on the beaches and low hills. They have modern American-made weapons.

No wonder the Reds are slow in making up their minds. And there is always that 7th Fleet, committed to defend Formosa. The administration says it is up to military leaders to decide whether the defense of Formosa necessitates the defense of Quemoy. The answer may well be "yes."

CAISSON FOR STRAITS BRIDGE—Sections for pier 20 caisson, main support for the Straits Bridge at St. Ignace, (Mich.), are towed by barge to their position about two miles off shore (top). Below, the sections have been joined to form the circular structure. It will be sunk in bed rock and then filled with concrete to support 550-foot cable towers. It will support the north approach main tower of the span on the St. Ignace side of the channel.

Lazy Larynx Is Common, Often Reduces Popularity

By PHYLLIS BATTELLE

NEW YORK (INS)—When people are unpopular, they are inclined to blame the condition on gaposis, halitosis, lordosis or poor insight on the part of the cold, cold world.

Silly wallflowers!

The real trouble may be "lazy larynx."

According to Miss Beatrice Desfosses, an expert on such things, lazy larynx is a common condition. It is brought on by the fact that people are too busy buying clothes, reading Emily Post, dieting and seing psychiatrists in an effort to be popular.

In the process, they forget completely that a mellow voice can sway more love affairs (and business deals) than almost any other personality factor.

"I would say that most people don't realize when they are speaking poorly," says Miss Desfosses, a speech coach who would as soon swallow arsenic as an "R."

(C) What is because they don't listen to their own voices—and an unpleasant voice is something that a man is hardly ever tiped off to by his friends.

"A shame . . ." concluded Miss Desfosses, who can make the word "shame" sound more poetic than such a word decently should. Love would be so much lovelier, and businessmen so much easier-to-take if they respected their throats and the English language.

For 21 years, this beautiful woman with the beautiful way of speaking has coached people with accents, impediments and just plain distasteful speech, both in her cheery apartment and in the classrooms at Finch Junior College, where she's speech consultant.

The easy, quick learners, she says, are oddly enough the ones with the toughest problems. The elderly immigrants, for instance, with thick accents and little knowledge of English—they know they must work fast if they're to get ahead in this slick world. So they do.

"The hardest to teach," she muses gently, "are the young ones, particularly the young ones in love. Often they come because boyfriends or girlfriends have told them that their voices were far from perfect. (That takes a lot of courage, but love is brave these days.)"

But these dewy-eyed are the darndest students! "They can't concentrate. And concentration is the most important asset to a person who wants to speak well."

Miss Desfosses concedes, at the risk of losing business, that almost anybody can improve his voice by himself if he really wants to.

The first rule is to stop, if possible, being shy of people. Beautiful voices and good or bad diction come from a set of muscles and the muscles become taut with self-conscious anxieties. "So face your fears," smiles Miss D, "and put them to rout."

Next, pupils, relax and breathe easily. Make like you're inhaling the aroma of fresh bread baking.

Now say something. Speak your name and say it clearly, as if you were introducing a friend. Read an old love letter out loud, or imagine the boss is listening to what you have to say about him. Enunciate!

"In every case," advises teacher, "organize your spoken words to make each one count."

You'll be amazed at how bad you sound, probably, at first. And then you will begin to see how you can correct yourself. And then you will discover, suddenly, that by concentrating you can improve in a matter of minutes.

At least I did.

Thanks to Miss Desfosses, I now tell my butcher boss off in excellent English although I still stumble a little on the old love letters.

Prankster Leo Durocher Batted Against Skelton

By EARL WILSON

NEW YORK—I've been spending a lot of time with Laraine Day's husband Leo Durocher—I'm just lucky, I guess.

We were both on Red Skelton's TV show. Leo achieved a lifelong ambition on it. He threw an umpire out. And I . . . well . . . I was the umpire.

Leo bounced around our rehearsals knocking on wood about the World Series. Red walked around in his stocking feet telling jokes.

Besides bubbling over with enthusiasm about baseball, Leo proved a gifted actor and story-teller.

★ ★ ★

Leo told Father Edward J. Carney of Lawrence, Mass., a friend of the Skeltons, about when Pope Pius, then Cardinal Pacelli, visited St. Louis. Leo was presented to the Cardinal, who asked what he did.

"I play baseball with the St. Louis Cardinals," said young Lippy.

"Cardinals — ah! — but of a different type!" replied the future Pope.

Leo has a humility. On the TV show he batted against rookie pitcher Skelton and that reminded him that when he played, he was a very consistent hitter.

"I always hit .220," he explained.

He told us at rehearsal he was sure the Pittsburgh Pirates would beat the Brooklyn Dodgers in two vital games—and of course they did.

★ ★ ★

"Those Pirates!" He clapped his hands to his head. "You look at them. You say, 'This is like playing the Bloomer Girls.'

LEO DUROCHER

"And yet they beat us 8 or 9 games. They did the same to the Dodgers. They did the same to the third-place Milwaukee Braves!" Leo shouted.

★ ★ ★

THE MIDNIGHT EARL . . .

Frank Sinatra's agreed to play the Copa 3 weeks starting Dec. 23. Copa boss **Julie Podell** announces . . . **Mrs. Rocky Marciano** got penicillin and was sent back to Brockton after the fight, and advised to see her local doctor. **Rocky,** incidentally appeared to have a special wax covering for his injured beak on **Eddie Fisher's** TVer Sunday night.

The **Stork Club** management's hoping to take over Gogi's LaRue and make it a steakery, also preventing rivals from getting it . . . **Slapsie Maxie Rosenbloom** irritated a theater mgr. He told the audience, "If you think I stink, wait'll you see the picture."

MARION COLBY

Eileen Barton's black-face Jolson type act at the Copa is the newest sensation . . . Financial news: **TV Whiz Jay Jackson** lost $18,000 on a driving range near Waverly, Ohio, and **Peter Donald** brought in 3 new dry holes in Nebraska . . . **Marion Colby** of "Pajama Game" is hosting WABC's early morning show, "Marion's Memo."

Mae West sipped a straight milk at the Mermaid Room.

★ ★ ★

EARL'S PEARLS. It's terrifying to speculate on what the children of the next generation will have to do to shock their parents.

WISH I'D SAID THAT: "A snore," defines Joe (Spindletop) Marsh, "is merely a strong headwind."

TODAY'S BEST LAUGH: A confirmed bachelor, figures Danny Crystal, is a guy who invites a girl to his apartment to dust his etchings.

"These days," says Richard Hayman, "it's hard to tell whether you're walking behind a man who needs a haircut or a woman who just got one." . . . That's earl, brother.

(Copyright 1954)

City Sets Aside Portion of Park for Blind Guests

SOUTH BEND, Ind. (UP)—The board of park commissioners voted to set aside a portion of Leeper Park for development of a scent garden for the blind. A series of patchs flanked by railings will lead past the flowers and shrubs. Placards in braille will be located at intervals along the rail to describe the displays.

Grand Coulee dam is said to be the largest concrete structure in the world.

Nets 100 Per Cent Plus

CHARLES CITY, Va. (UP) — County Treasurer Charles G. Avery reported he collected a fraction more than 100 per cent of the taxes levied for the 1953-54 period. But before any put-upon taxpayer had a chance to complain Avery explained that the excess was made up of delinquencies and penalties.

About 10 per cent of the national income is spent in the United States each year for the purchase and operation of automobiles, according to a study issued by the Twentieth Century Fund.

Cars Lead Double Life

LEBANON, Ind. (AP) — Clifton Porter, shoe repair shop owner, and Lowell Greene, market operator, own cars of identical make, model and color and with the same extras.

Comparing mileage recently they learned that each had been driven exactly 32,987 miles.

New York drivers get more warnings from Connecticut police than those from any other state, with those from Massachusetts and Rhode Island following in that order.

Aircraft Industry Tops Others in Employment

WASHINGTON (UP)—The aircraft industry today is the largest manufacturing employer in the United States, according to Planes, official publication of the Aircraft Industries Association.

The nation's plane manufacturers have surpassed the automobile industry (long the leading U. S. manufacturing employer) in total manpower, with more than 823,000 workers, the magazine reported.

Automobile makers today employ approximately 786,000 persons.

The aircraft publication, quoting recently revised U. S. Bureau of Labor Statistics figures for March, listed the other largest U. S. manufacturing employers, in order: blast-furnace, steel works and rolling mill industry, 594,000; producers of communications equipment, 503,700; broad-woven fabrics mills, 489,900.

Planes estimated that, including families of workers, approximately 1,900,000 Americans are directly dependent upon the aircraft and parts payroll for their livelihoods.

During World War II, the aircraft industry was the largest user of manufacturing manpower in the nation, but in 1946, immediately following the war, it ranked 16th.

Shower Is More Tiring Than Bath, Doctor Says

OMAHA (AP)—It takes four times as much energy to take a shower as a bath says Dr. Howard A. Rusk, chairman of the department of physical medicine and rehabilitation at New York University.

That's important to two million Americans crippled by heart disease, Dr. Rusk told a University of Nebraska medical college audience. Taking a bath instead of a shower is one way cardiac victims can conserve their overtaxed hearts.

Dr. Rusk also confirmed something many a bed-ridden patient has suspected: It requires twice as much energy to use a bed pan as it does to walk to a bathroom.

Wife Missing, Husband Held

State Man Questioned in Suspected Murder of Mate on Trip

DETROIT (INS) — Claude W. Morse, 44, a Canton Township carpenter, was held today for investigation of murder in the strange disappearance of his wife who was last seen Aug. 8 on a motor trip through Indiana.

Sheriff's office detective Richard Novak said Morse voluntarily submitted to three successive lie detector tests yesterday and failed to satisfactorily answer questions on all three occasions.

Morse claims his wife deserted him and hitch-hiked toward Kentucky after he had stopped his car at the intersection of U.S. highways 25 and 31 in Indiana.

Though Morse told detectives his relations with his wife had always been pleasant. There were conflicting reports from neighbors and a nephew of the missing woman who formerly lived at the Morse home.

Police said Morse married a 15-year-old Tennessee girl a week ago and has been living with her in Canton Township. He said he met her while visiting relatives and searching for his wife in Tennessee.

He told detectives he had been assured by an unnamed attorney that his first marriage was void because of discrepancies in the license and he was therefore free to marry again.

Leaves $1,250,000 Estate

GRAND RAPIDS (AP)—Mrs. Anne M. Maris, widow of a Grand Rapids businessman, left an estate of $1,250,000. The value of the estate was disclosed Wednesday in an inventory filed in Probate Court. Mrs. Maris died Feb. 25. The estate will be shared by 118 beneficiaries.

Europe broke the Oriental monopoly on silk making back in the sixth century when two monks risked torture to smuggle out a few of the forbidden silkworm eggs from Persia.

Nationalists, Reds Fire 2,000 Rounds

TAIPEH, Formosa (AP) — Chinese Nationalist artillery on Quemoy and Communist big guns on the nearby mainland fired upwards of 2,000 shells last night in a savage hour-long duel, an army spokesman said today.

He described the exchange as the heaviest since the fighting broke out around Quemoy Sept. 3.

* * *

Nationalist planes and warships took over at dawn today, bombarding Amoy and other Red bases within artillery range of Quemoy for the 21st straight day, the Defense Ministry announced.

Lt. Gen. Chang Ti-ting, army spokesman, said the air force destroyed six Communist gunboats Wednesday.

Communist planes have not challenged Nationalist attackers, but Chang said Red aircraft were sited Tuesday and Wednesday near the Tachen Islands, 350 miles north of Quemoy.

The average man, earning $4,500 annually, is rquired to work two hours and 40 minutes per day to pay his taxes.

Red China Army to Recruit Force of 450,000 Men

HONG KONG (AP) — Peiping says that China's Red Army will recruit 450,000 men as "reinforcement and replacement to the armed forces."

This replacement pool to be recruited between Nov. 1 and Feb. 28, heralds a change in the Reds' system of recruiting.

The Communists have three types of army force—the Red armies, the provincial armies, and the militia.

* * *

The provincial forces seem lately to have become security troops for coastal and border defenses. Policing of the countryside seems to have been left to the militia.

The Reds have never disclosed their system of replacements, but it appeared that the Red armies used both the provincial forces and the militia as agencies for picking out soldiers suitable for top service. This gave them soldiers not only of good physical stock but smarter than the average and safer material for Communist indoctrination.

Vatican Stamps Go on Display in Philly

PHILADELPHIA (AP)—The first international exhibition of Vatican stamps goes on display today at the National Philatelic Museum.

Francis Cardinal Spellman, archbishop of New York, and a well-known stamp collector, presided yesterday at a private dedication of the exhibition.

One of the largest collections of Vatican stamps ever assembled, the exhibition took two years of planning. It includes a collection of rare "errors," stamps with printing or manufacturing flaws, and a number of Roman state stamps issued between 1852 and 1870.

The exhibition is a commemoration of the 25th anniversary of the first postage stamps issued by Vatican City as a tiny sovereign state within the city of Rome.

Royal Visitors Depart

NEW YORK (AP)—The Duchess of Kent and her daughter, Princess Alexandra, left for home yesterday on the Queen Mary after a brief tour of the United States and Canada.

Japanese Say Soviet Exploded Hydrogen Bomb

TOKYO (AP)—A leading Tokyo newspaper today quoted Japanese scientists as saying Russia probably exploded an H-bomb recently on Wrangel Island, only 500 miles northwest of Nome, Alaska.

The newspaper Asahi said scientists have "almost conclusive evidence" of the Soviet H-bomb test.

Moscow announced last Friday that it had tested another atomic bomb, but Japanese scientists say the explosion was of such magnitude that it must have been a hydrogen bomb.

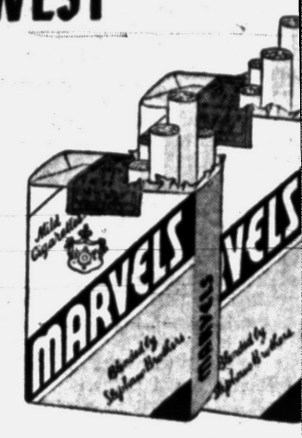

* * *

Radioactive rain has fallen in northern Japan almost daily since Saturday. Asahi said it was borne southward by air currents originating on the Siberian mainland.

Intelligence reports have indicated the Russians are using Wrangel Island as a base for testing guided missiles and other weapons, the newspaper reported.

Moisture is the main cause of peeling paint. The mositure often comes from inside the house — from the kitchen or the bathroom.

THE PONTIAC PRESS

THURSDAY, SEPTEMBER 23, 1954 PONTIAC, MICHIGAN, SEVENTEEN

"Ah! Nothing like your newspaper and an easy chair!"

"Beats heck what's in the news, though!"

"Just get a load of that senator's gulf!"

"Now there's a character for you!"

Year-Old Girl Reads News

Like many an older person, 13-month-old Linda Kay Thornburg, of Dodge City, Kan., is "lost" without her daily newspaper. While no one claims she can pass an examination on what she "reads," she has devised a charming little game of her own. It consists of spending a great deal of time with the paper, playing that she is reading it in a most realistic manner. Her eloquent facial expressions suggest something like the comments under the pictures. Linda also has a favorite book that she likes to carry around and "read."

Dondero Tells of Long Fight for Seaway

Pontiac Press Photo

DISCUSS HIGHWAY PROBLEMS—Members of the General Motors Club of Pontiac met at the Bloomfield Hills Country Club last night to view a film on the nations highway needs entitled "Give Yourself the Green Light." Shown just before the film was presented are (left to right) State Sen. George N. Higgins, of Ferndale, Pontiac Mayor William W. Donaldson, State Rep. William S. Bromfield and Thomas E. Wilson, production manager of General Motors Truck and Coach Division.

Dulles to Open U.N. Speeches

Expected to Discuss Ike's Peaceful World Atomic Pool Plan

UNITED NATIONS, N.Y. (AP) — U.S. Secretary of State Dulles gives the ninth U.N. General Assembly a look at world problems through American eyes today. He reportedly plans to say something new about President Eisenhower's nine-month-old proposal for a peaceful world atomic pool.

Dulles speaks this afternoon in the opening round of general statements from each of the 60 U.N. members, annual prelude to Assembly debate on specific issues put before the international organization.

• • •

The 30-minute speech was scheduled to be televised and broadcast, both live and recorded.

Ahead of the American secretary on the speaking schedule today were Jose Maza of Chile and Canadian Foreign Secretary Lester B. Person.

Dulles was believed ready to carry a step forward the atoms-for-peace call Eisenhower sounded in the Assembly last Dec. 8. The secretary was expected to touch on this during a broad review of world affairs as the United States sees them, including the recent Indochina settlement, the new Pacific defense pact and current efforts to arrange for rearmament of Germany.

• • •

The Assembly's 15-member Steering Committee scheduled a meeting this morning in an effort to finish its job of recommending an agenda for the session and assigning work to the seven committees. The steering group had only one controversial item left to decide — Greece's request for self-determination for the Mediterranean island of Cyprus. The island off Southern Turkey, largely Greek-peopled, is ruled by Britain.

The committee yesterday voted 12-0, with 3 abstentions, to include in the agenda the question of admitting the Indochinese states of Laos and Cambodia.

Pontiac Woman Will Address Alcoholics Parley

Mrs. D. G. Rowley of Pontiac will be among the speakers at the Alcohol Education Conference at the Michigan State College campus tomorrow and Saturday.

Mrs. Rowley, who is director of the department of visual education of the National Women's Christian Temperance Union, will participate in the workshop along with leading educators, law enforcement officials and youth representatives.

The conference is co-sponsored by the State Department of Public Instruction and the State Board of Alcoholism.

Pastors' Names Confuse Churchgoers in Georgia

POOLER, Ga. (AP) — Churchfolk had identification troubles when C. E. Smith was pastor of the First Baptist Church and C. E. Smith Jr., (not the other's son) was pastor of the Methodist Church.

The Methodist Smith was transferred and replaced by Gilbert Ramsey. But that didn't solve everything because the pastor of the Rothwell Street Baptist Church is Carter Ramsey.

Hogs Kill, Eat Snakes

Hogs trample and eat any snake they see. Their thick layer of fat protects them from bad effects of poisonous bites. Deer also stamp on any serpent and leave the flattened carcass.

GM Club Shows Film on Nation's Highway Needs

Four ways of obtaining better roads were suggested to members of the General Motors Club of Pontiac last night by Thomas E. Wilson, production manager of the corporation's Truck and Coach Division.

Wilson, acting as chairman of the meeting at the Bloomfield Hills Country Club, made his suggestions after the showing of a film entitled, "Give Yourself the Green Light."

Asserting that the film clearly outlines the nature of the highway problem, Wilson said that in order to obtain the better highways we need, we must:

1. Make sure the organizations to which we belong have active highway committees.

2. See to it that local highway committees are in touch with the best sources of information about highway needs.

3. Encourage the speed up of official action on highway needs.

4. Develop broader public support of a program for highway improvement.

The film which was shown last night was produced by General Motors as a contribution to the national highway education program.

It emphasized that the "task of providing adequate highways and parking facilities is not beyond the reach of Americans aroused to action.

"Don't honk your horn—raise your voice and ask for the better streets and highways we need," the film advised.

Asserting that Americans didn't "dream big enough" in early road planning, the film points out that the nation's present day highways are wearing out faster than they are being replaced.

It goes on to deal with the need for better farm-to-market roads, urban thoroughfares and super highways, the problems of small-town traffic and big city congestion, and the almost universal lack of adequate parking facilities.

Included are inspiring shots of areas where public support of highway improvement programs has solved local and regional traffic muddles.

The film concludes with a strong appeal for public action in support of a more adequate highway system.

As a special feature of the GM Club meeting, the movie was introduced from the screen by GM Vice President Paul Garrett, and was concluded with some timely remarks on the highway problem by Harlow H. Curtice, General Motors president.

H. Thibert, GM Club chairman, announced that prints of "Give Yourself the Green Light" may be borrowed without cost for presentation by any organization interested in doing something about the highway problem.

Membership of the GM Club consists of GM dealers in this area and field executives of various GM divisions.

Pontiac Press Photo

REALIZES DREAM—Charles Spencer, who waited seven months for his new guide dog, Chips, emerged from a life of total darkness this week when he returned to Pontiac with the 2-year-old Doberman Pinscher. Spencer, blind for 30 years, drew nation-wide attention when his faithful guide dog, Fritz, died March 21.

Blind Pontiac Man's Dream Comes True With Receipt of New Leader Dog 'Chips'

By JOSEPH K. SFAIR

"It's like being able to see again," said Charles Spencer, 56, of 45 Virginia Ave., who has been blind for the past 30 years.

The death of his guide dog, Fritz, last March, cast Spencer's way of life into darker shadows, but "Now I can almost see," he exclaimed as he closely held his new dog, Chips, a two-year-old Doberman Pinscher.

Spencer, who was offered help from many persons all over the nation after the death of Fritz, returned here this week with his new guide dog after a week of training with Pilot Dogs, Inc., in Columbus, Ohio.

"I've always wanted another dog like "Fritz," he said, patting Chips on the head.

"I received offers from many people who wanted to give a dog. They wanted to help me in many ways. I want to thank them," Spencer continued.

"But I held out and waited to get a Doberman like Fritz; he was so faithful."

Two weeks ago, a telegram from the Pilot Dog organization notified Spencer that he would be flown there and would be given Chips after a week's training with the guide dog.

"I knew that my dream would come true all the time. . . I waited and it wasn't in vain," said Spencer who lost his sight through an accident at an early age.

Spencer waited about seven months before his application was approved by the Pilot Dog Inc.

After Fritz' death left his master in total darkness, Spencer's sister, Mrs. Charles Custer of Berkley, appealed to the organization for help. She knew that her brother would accept no "substitute" for his faithful Fritz.

Through her efforts and help of Stanley Doran, training manager of the organization, Spencer finally realized his hope.

Besides caring for his 82-year-old mother, Spencer does the housework and the shopping.

"It's awfully hard to explain," said Spencer, "but independence means a lot to me. When you have to be dependent on other people, you lose something. Maybe it's pride."

Spencer likes people. His neighbors will tell you that.

Usually, in the evenings friends will drop into Spencer's neatly kept home and find an air of friendliness during chats.

Stanley Sandow, 43 of 33 Virginia Ave., who has known him for the past 25 years, visits at Spencer's home daily. "Because he's one of the most interesting persons I've ever known. We talk about many things and I can't help learning a lot from 'Bishop'."

Said Spencer, "Most of my friends know me as Bishop. If someone was to call me by my right name on the street, I guess I wouldn't even turn around."

He explained that he was given the nickname about 43 years ago when he was umpiring a baseball game.

"I was sticking up for the underdog and I guess that's why they called me Bishop," he added.

His favorite hobby is keeping up with latest sports events, especially in baseball and football. He can tell you who won the World Series in 1930, what Yogi Berra's batting average was in 1951, and how many times the Yanks won the pennant.

Reveals Events Aiding Approval

Iron Ore Discovery in Labrador, Quebec Boosts Value

Behind the scenes episodes in the long battle for approval of the St. Lawrence Seaway were revealed by Congressman George A. Dondero in a talk before Pontiac Lions Club Wednesday.

Long an advocate of the seaway, Rep. Dondero, representing the 18th Michigan district and as chairman of the House Public Works Committee, played a vital role in the recent 83rd Congress in obtaining approval for the project.

The seaway will cost $300 million. The United States will pay 105 million; Canada about $200 million. Canada's share is greater because a major share of the necessary work is in Canadian waters.

Rep. Dondero credits four comparatively recent developments in aiding seaway proponents in mustering sufficient support to win their fight:

1.—Russia's attempt to split the U. S. and Canada over the seaway;

2.—Impending natural changes in the course of the Mississippi above New Orleans;

3.—A dam needed in Kansas;

4.—Discovery of huge iron ore deposits in Labrador and Quebec.

During debate in Congress on the seaway, Moscow newspapers, official voice of the Soviet, printed stories claiming that the seaway was a trick of the United States to prepare for an invasion of Canada.

"This was typical Russian propoganda," Rep Dondero said, "aimed at splitting the long friendship between these two nations on the American Continent. Needless to say the seaway will further cement the long bond of friendship between us."

Unexpected help was offered by the rampaging Mississippi. Traditionally Louisiana (and other Mississippi Valley states) had opposed the seaway, fearing inroads on their water-borne commerce.

Suddenly it became apparent that the Mississippi was threatening to cut a new course to the Gulf, 90 miles above New Orleans. If this was allowed to happen New Orleans would be far from the river channel, and brackish gulf water would back up on the city's waterfront. The water would be useless for industrial plants. It became clear that extensive river control would be necessary by 1965 to keep the river in its present course.

"It would cost no more to commit the government to this necessary step now, than to do the same thing 10 years from now," the Congressman related. "We approached the valley states' delegations with the proposal that we might exchange cooperation. We authorized the Mississippi work, and as a result most of those Congressmen got behind the seaway."

The dam in Kansas brought a similiar piece of cooperation.

Finally, discovery of vast ore deposits in Labrador and Quebec gave a final big push to the project.

"I have always maintained," Rep. Dondero said, "that without iron ore there is no steel, and without steel we can have no military power. Hence access to these new ore fields became a matter of national defense. This fact helped us gain more support."

The Congressman said he also appealed to Franklin Roosevelt Jr., from New York City (long staunchly opposed to the seaway) on the grounds that his father was in favor for it. The junior Roosevelt made a speech for the seaway and in the final showdown eight New York City votes swung behind the project.

The seaway will take from 5 to 6 years to complete, and will give a 27-foot deep channel from the Atlantic to Toledo. This could accommodate about 73 per cent of all ocean-going ships.

Some idea of the saving in transportation costs was given by the speaker. At present 2,500 ton cargo ships operate at a cost of about 27 cents a ton. When larger ships can come in, the costs will be about 14 cents for 10,000 ton ships and about 11 for 15,000 ton ships.

Translating this into merchandise, Rep. Dondero said a carload lot of small machinery from Detroit to European ports might be carried for $260 savings; on an automobile to Baltic countries the saving would be about $22 a car, when carried by larger ships.

In addition to the seaway project now agreed to by Canada and the United States, Ontario and New York state are cooperating on a $600 million power project, which will generate about 2,200,000 horsepower. Most of this will be utilized in New York and Ontario.

Col. Fleming Ousted by Army

FT. SHERIDAN, Ill. (AP)—Lt. Col. Harry Fleming, convicted of collaborating with the Communists as a prisoner of war in Korea, today was sentenced by army court to be dismissed from the service and to forfeit all pay and allowances.

The 11-member court-martial deliberated Fleming's fate for 12 hours before fixing his punishment. From late afternoon Wednesday until 3:30 a.m. this morning. They returned at 9 a.m. to deliver the verdict.

Most of the prosecution and defense witnesses were in the court room when the sentence was announced. Many of the men who were prisoners of war in Korea with Fleming stood tensely in the courtroom waiting for the court's decision.

"Thank God I'm out of prison now—this one and the Communist's," Col. Fleming said. After the sentence was pronounced he added:

"I'll do everything I can to clear my name."

"Dismissal from the service is pretty hard to take. I don't intend to stop the fight which started here."

The colonel said he wished to express "his tremendous thanks to his friends and to those who never heard of me before this thing but who have responded with hundreds of letters wishing me well."

2 Pontiac Doctors to Attend Conference

Two Pontiac physicians, Dr. Ferdinand Gaensbauer and Dr. C. A. Neafie, will participate in the 89th annual session of the Michigan State Medical Society at the Sheraton-Cadillac Hotel in Detroit next week.

Dr. Neafie will serve as chairman in a discussion on "The Experimental Aspects of Immunization Against Poliomyelitis" on Wednesday afternoon.

Featured speakers Wednesday evening will be Dr. Charles W. Mayor of Rochester, Minn., and Dr. Elmer Hess of Erie, Pa., president-elect of the American Medical Assn. Set for 8:30 p.m., the speaking program is open to the public.

Counsel for the white-haired, 46-year-old infantry officer of Racine, Wis., first American officer ever court-martialed for his behavior as a POW, said the conviction would be appealed to "the highest authority in the country."

• • •

Kingston W. Ehrlich, Racine real estate man who sparked an earlier drive in which Fleming's hometown retained a civilian attorney for the defendant, said:

"Racine will raise a sizable defense fund to help rush an appeal."

The first step in an appeal would be to take the case to the judge advocate of the 5th Army for review and for advice of the commanding general. Appeals may eventually be carried to the President.

Fleming, who contended that his actions in three years of captivity without show of emotion. But he told newsmen:

"Although I have lost this battle, I don't expect to lose in the end . .

• • •

"I think American justice will prevail not only for me but for the thousands of prisoners who came out of prison camps with a halo of suspicion over them. My conscience is perfectly clear."

• • •

The court found Fleming guilty of collaboration by making recordings used for Communist propaganda purposes and by leading prison discussions which reflected opinions that the United Nations and the United States were illegal aggressors in Korea.

Fleming was acquitted of two other charges. These were that he informed on other prisoners and that he willingly and wrongfully injured a fellow prisoner by jumping on the foot of an American corporal.

Freund Heads Bureau

WHITE LAKE—Leonard Freund was named chairman of the White Lake Farm Bureau at a recent meeting. Austin Palmer is vice chairman; Raymond Wheeler, insurance secretary, and Mrs. W. R. Cogger, secretary-treasurer.

CHECK DIFFERENCE — Phil Nathan, a Chicago, Ill., television repairman, displays the $100,005 check he got for servicing a set. However, there was a slight mistake from the machine that printed the check. Phil's bill for the job was $5.

Why Trees Change Color Is Still Partly a Mystery

ANN ARBOR—How do the leaves of maple, aspen, birch and oak get the rich autumn hues that enhance the pageantry of fall?

This is a question which has puzzled botanists for generations and has not as yet been entirely satisfactorily answered. However, in the main, we have the answer, says Felix G. Gustafson, professor of botany at the University of Michigan.

He explains that in normal green leaves there are at least three pigment substances: Green chlorophyll, yellow carotene, and xanthophyll, and some times also the yellow flavone.

Chlorophyll is easily destroyed by light. In the fall, with the brilliant sunshine of the Indian summer, it is broken down faster than it is being formed. Hence, the yellow color which was there all the time but was masked by the brighter green, shows up and we get the yellow of the poplar, for instance. The mottling effect is due to the uneven destruction of the chlorophyll.

Prof. Gustafson states that the reds and purples are due to a substance which the biochemist calls anthocyanin. The browns are caused by a partial breakdown of various substances in the leaves and the green is chlorophyll, which is active in the food manufacture.

The botanist admits that scientists are somewhat in the dark as to the reason these substances should be formed. "We know that there must be an abundance of sugar present in the leaves. Bright light is also necessary and a low temperature plays a part.

It seems that as the fall advances there are cellular changes taking place in the leaf petiole which block the leaves off from the stem. The sugar that may be in the leaf can not get out and the sugar content increases, bringing about chemical changes which result in the formation of anthocyanins.

Not all parts of the country are equally rich in these beautiful colors, he points out. "New England is famous for its riot of colors in the fall as are the northern parts of Minnesota, Wisconsin, Michigan and southern Ontario.

Regions where it gets cold suddenly are much more likely to have brilliant colors than those where the temperature decreases gradually. Low temperature with bright sunshine is favorable, as it produces conditions in the plant which allow these chemical changes to take place."

Discussing the color differences in various species of trees, Prof. Gustafson said that most of the conifers do not show any color changes, though red cedars may show some red and brown during the winter.

On the other hand, trees like the swamp or red maple may become completely red. The staghorn sumac takes on a very brilliant red. Poplars and birches are usually yellow. Ash trees are usually greenish purple. Catalpa, mulberry, and many others shed their leaves while they are still green.

A billion pounds of detergents are made from petroleum each year.

Old Battlefields Now Are Home to Many in U.S.

WASHINGTON (UP) — Quite by chance, many Americans live where some of the country's hardest battles were fought.

Boston, New York, and Philadelphia sites associated with the Revolution, and French and Indian War battlefields along the Monongahela River outside Pittsburgh are among those involved.

Some Americans with a bent for historic lore settle by design near historic sites. For example, President and Mrs. Eisenhower bought a farm near Gettysburg, Pa., where the chief executive likes to recount the fierce struggle there of the Union and Confederate armies during the Civil War.

New apartment buildings now stand on a Civil War battlefield near Fredericksburg, Va., and the battlefield at Winchester, Va., is now peaceful apple-growing country.

But at the time of the Civil War, Wilmer McLean, of Manassas, Va., tried to get away from a battlefield. It was his farm that was the scene of the first and second battles of Bull Run.

He moved deep into Virginia to get away from the fighting. He settled at Appomattox Court House and once more the Union and Confederate armies followed him, this time for the surrender of Lee to Grant.

Corn contains more protein than any other dry cereal.

Farmers Forget Politics Making Political Hay

GROTAN, S. D. (UP) — The friends and neighbors of Kenneth Holum made hay for him while he was away making political hay.

Holum is a Democratic candidate for U. S. senator in opposition to Sen. Karl E. Mundt (R-S.D.)

To free Holum from the chore of putting up hay on his farm so he could campaign, his neighbors and friends — Democrats and Republicans alike — put up his hay this summer.

Sunken Mikes Help to Record Muskrat Data

ALBANY, N. Y. (UP)—Muskrats don't have the privacy they used to.

The New York state conservation department is now taking tape recordings of the furry animals in their deep underwater homes.

A waterproof microphone lowered into the hole in the marsh ice has been able to pick up by sound the activities of the animals. Any slight disturbance and the muskrats start "plunking" into the water from inside their rush and cattail houses.

Biologists have been able to take recordings up to a distance of 60 feet, and can determine the exact number of "tenants" in each home.

The practice, a department spokesman said, makes it easier to determine the muskrat population and other needed data for trapping seasons.

Judge Uses Ball Jargon

TAUNTON, Mass. (UP)—Jurors in a Bristol Superior Court session got some easy-to-understand language in their instructions from Judge Joseph L. Hurley.

"You, who are baseball fans have seen the umpires call them as they see them and not worry whom the decision favors.

"You, too, are umpires. Call them as you see them. Use your common reason and good judgment."

Hustling Lord Beaverbrook Decides to Improve British-U.S. Relationships

LONDON (NEA)—Lord Beaverbrook, Britain's impish press baron, has decided that Britain needs America and has set out to put things right.

Reminded recently that the British had burned Washington in 1812, his lordship was horrified. "I knew that we burned Joan of Arc," he is said to have remarked, "but Washington—I thought that he died in bed."

Now, 142 years later, Lord Beaverbrook finds that relations have not improved much.

The British and the Americans may not be firing each others capitals, but effigies of Eisenhower and Churchill are burned symbolically in private.

With the backing of the Beaverbrook Daily Express (circulation 4,077,835), his lordship is sponsoring Anglo - American Study Groups, where the two can talk it over.

Under Beaverbrook's goblin eye, American airmen in suntans and Britons in tweeds gather each week in halls, like the Corn Exchange in Bury St. edmunds, to discuss such questions as:

"Are the British reserved, or are they just plain snobs? And the Americans—are they all loud - mouths? Must they always brag about how much better things are in God's Own Country?"

They discuss other problems, too: British shipments to Red China, the U. S. tariff on British bicycles, the divorce rate among the British brides of GIs.

If a better understanding doesn't come of it, it won't be Lord Beaverbrook's fault, for he has thrown all of his energy and zest into improving Anglo-American relations.

It is this drive which has earned him the nickname of "Eager Beaver."

The Beaver started life as just pain Max Critken selling newspapers on a street corner of New Brunswick, Canada, where he was born.

He was too poor to finish high school, but when he arrived in England at the age of 30 he was a millionaire.

By the time he was 40, he had been a member of Parliament, a knight, a baronet, a baron and a British Cabinet minister.

"EAGER BEAVER" BEAVERBROOK—At 75, he can run circles around most of his staff. Here he sits in the press section at a rally for Eisenhower for President during his 1952 visit to the U. S.

Britons remember him best as wartime minister of aircraft production, when he bullied factories into producing the planes that won the Battle of Britain.

But the Beaver's most spectacular success was in parlaying a $50,000 initial investment in the Daily Express into ownership of a newspaper with the world's second largest circulation.

Today, at 75, Beaverbrook can run circles around most of his staff. His working day starts at 8 a.m., when he listens to a digest of the morning's news over a loudspeaker telephone while having his bath.

By 9 a.m. he is through on the phone to his editor to dictate the line of the day's editorial.

He is through again three or four times before lunch with items: Bits for the gossip columns, important scoops, pats on the back.

The Beaver once remarked that he owed everything to oatmeal porridge, which gave him strength, and to Scotch Calvinism, which gave him courage. Certainly he is fond of quoting the Bible.

On one occasion, an editor guilty of a lapse of vigilance was told: "Henceforth let your motto be Isaiah 21, verse 8."

The harassed editor looked it up. It said: "I stand continually in the watchtower in the daytime."

As a special treat, the Beaver will call in an editor who has produced a good newspaper and read the whole of the Scottish ministers farewell sermon from John Galt's Annals of the Parish.

Lord Beaverbrook likes to think of himself as the backer of lost causes. A tiny figure in chains and printed in blood-red ink appears on the front page of the Daily Express.

This is the Empire Crusader, his chains a symbol of Beaverbrook's failure to sell his ideas on empire free trade to every British prime minister from Lloyd George to Winston Churchill.

With Sir Winston, Beaverbrook is on intimate terms. Although he lambastes the Churchill government in his editorial columns he has never directly attacked Sir Winston himself.

Guatemala has a population of about three million.

Blame Animal-Plant Virus for Cancer-Like Growth

CHAMPAIGN, Ill. (UP)—Science has found a "hitch-hiker" virus which is transmitted between plants and animals and causes a cancer-like growth in the plants.

Dr. L. M. Black of the University of Illinois said the virus is one of the few to affect both forms of life.

It apparently starts in a plant and then invades flying insects which light on the plant. Thus, it "hitches a ride," and is carried form plant to plant and from insect to insect.

The many-faceted viruses are about 1,100,000th the size of a pea, Black said, and resemble each other closely in appearance whether found in the bellies of insects or in the tumors they produce on sweet clover.

Investigation is needed, however, to determine whether they are alike chemically. Many research workers regard plant viruses as containing ribonucleic acid and animal viruses desoxribonucleic acid. The question is whether the virus under study contains either or both.

According to Black and his associates, Dr. M. K. Brakke and A. E. Vatter, the viruses cause tumors in plants which resemble virus-caused breast cancers in mice.

They haven't been able to determine, however, whether the viruses cause any disease or damage to the insects.

The insect which carries the virus from plant to plant, they said, is the leafhopper. Plants grow in complete health beside an infected plant, providing no leafhopper carries the disease to it. Also, they said, it is almost impossible to infect a healthy plant by injecting it with virus-contaminated juice from diseased plants.

The virus, the scientists said, must incubate within the insect for two weeks. After it's fortnight's "free ride," it can infect plants when the leafhopper sucks juice from them.

Black said the tumors caused by the virus in the plant consist of wildly dividing and multiplying cells. From them, he hopes to learn more concerning cancers in more complex animal systems.

About one and one-half tons of hay are required to feed a beef cow or bull during winter months in central U. S.

Fine Striker for Putting Skunk in Plant Window

APPOMATTOX, Va. (UP)—"Could the skunk have gone through the window of the plant unassisted?" asked Defense Attorney William B. Hopkins.

"Not unless he had a ladder," replied Vernon Bryan, manager of a strike-bound garment factory.

This exchange took place before the judge fined a striker $.00 for tossing a skunk through the window.

British Scientist Given Transfer

Removed From Secret Work Because of Past Red Membership

LONDON (AP)—An official source said today Dr. Standish Masterman, 43-year-old government expert on guided missiles, has been transferred to nonsecret work because of past membership in the Communist party.

Security agents and Supply Ministry officials were reported convinced of his loyalty, said the source, but "in view of his past political associations, it was decided that he would take up other work." The ministry is in charge of Britain's atomic and secret weapons projects.

Masterman was not immediately available for comment on the report.

• • •

The Daily Express termed his transfer "the first political purge of a defense scientist since the intensified security drive started a year ago."

Masterman, whose salary is the equivalent of about $100 a week, has been assigned to the ministry's engineering division, which handles nonsecret civilian projects.

The scientist previously had worked on experiments with types of fuel for rocket-guided missiles. He has been engaged on guided missile experimentation for about 10 years.

• • •

Masterman's transfer reportedly came about in the following manner.

In filling out a questionnaire now required of all Britons engaged in secret work, the scientist said he once belonged to the Communist party. He said he became disillusioned with Russia in 1944 and resigned.

Security agents then interviewed Masterman. The agents told the Ministry of Supply they believed in his loyalty, and ministry officials discussed the matter with the scientist.

• • •

The officials also were convinced of Masterman's loyalty, but—with his agreement—decided it would be better for him to work in another department at the same salary.

Masterman was allowed to continue his secret work until the ministry reached a decision about his future. British scientists previously suspected of Communist associations have been suspended from their work during the investigations.

Baptists Will Merge Old Mission Groups

NEW YORK (AP)—Two of America's oldest Baptist mission agencies—the 122-year-old Home Mission Society and the 77-year-old Woman's Home Mission Society—are merging.

Plans call for a single missions agency to eliminate duplication and overlapping of activities and personnel.

The plan must be approved by the American Baptist Convention next May.

The two agencies employ more than 1,000 missionaries in the United States, Alaska, Cuba, Haiti, Puerto Rico, Mexico, Nicaragua and El Salvador.

Pet Owners Jam Rabies Clinics in Texas County

HOUSTON, Tex. (AP)—Harris County's gigantic campaign to end a two-year rabies epidemic focused today on the western part of the populous county.

Huge crowds of dog owners and their pets blocked traffic in some sections of Texas' most populous county yesterday as they flocked to 84 free clinics in strategic sections of the area.

At most of the 21 clinics in the northern sections of Houston and the county yesterday, veterinarians and health department employes sent for new supplies after the first hour of vaccinating.

The drive will center tomorrow in the south part of the county and in the east portion Saturday.

The clinics, sponsored by city and county health departments, are prepared to give free anti-rabies vaccinations to 50,000 dogs.

Meanwhile, in Dallas where two children have died after being bitten by rabid dogs, a city ordinance requiring that all dogs be leashed or penned was proposed.

But all health department officials could do when a woman called in that she had been bitten by a mouse was to tell her to bring in the body, if she could trap the mouse.

Ike Will Turn Chef to Boost Food Sales

NEW YORK (AP)—President Eisenhower, an amateur chef of some note, will personally dish up beef stew to a roomful of luncheon diners in Denver next Monday.

Secretary of Agriculture Ezra Benson said yesterday at a meeting of the American Meat Institute and United Fruit and Vegetable Assn. that the President will turn chef to promote sale of meat and vegetables.

Benson said the President also will make an important announcement at the Denver luncheon at the Cherry Hill's Country Club, but "there will be no political flavor to it, whatever."

Polio Fund Gets $31,000 in Kent County Campaign

GRAND RAPIDS (UP)—A Kent County emergency campaign to raise $31,000 for the National Foundation for Infantile Paralysis has gone over the top by several hundred dollars, Fred Barr Jr., chairman of the drive, announced today.

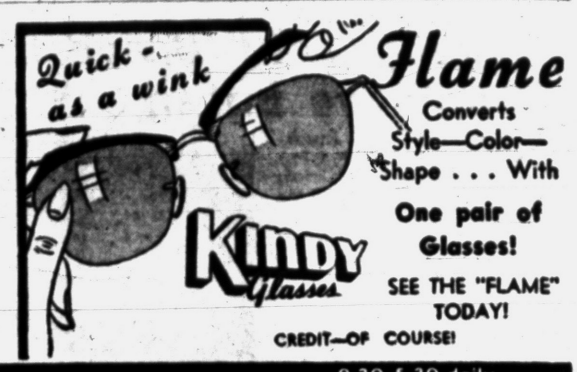

The drive for funds became necessary after the county exhausted its share of allotments from the national foundation.

Greater Milk Program to Start in State Oct. 1

LANSING (AP)—The State Department of Public Instruction estimated today that an expanded school milk program will be ready to start in Michigan Oct. 1.

Dr. Clair L. Taylor, state superintendent, said about $1,500,000 will be available to Michigan under a new federal act designed to increase milk consumption in public and non-profit private schools.

Dr. Taylor said he expected to complete an agreement by Sept. 27 with the U. S. Department of Agriculture and that an advisory committee of farmers and dairymen will meet here Tuesday.

U.S. Works Out 3 Europe Plans

Draws Alternatives in Case London Parley Doesn't Succeed

WASHINGTON (AP)—U. S. Military and diplomatic officials are quietly working on alternative European defense plans for possible use if next week's London conference fails to produce an acceptable German rearmament program.

Some authorities estimated that almost as much time has been spent on possible lines of action for the United States in the absence of French agreement to some German arms plan as that devoted to preparations for American participation in the nine-power London meeting.

• • •

One reason, informants said, is that State Department officials do not want to get caught again without substitute plans, as they were when the French Assembly shelved the European Defense Community project.

Work to date has produced a great variety of policy papers which informants said fall into three broad categories:

1. Peripheral defense — This would mean basing U. S. plans for resistance to any Communist aggression on positions in Britain, Spain, Italy and the Middle East. It would have grave political consequences because it would be interpreted by many Western European peoples as meaning U. S. abandonment of them. Both President Eisenhower and Secretary of State Dulles are understood to be fundamentally opposed to this concept, yet it is described as having adherents, particularly in the military establishment, if it proved impossible to rearm West Germany.

• • •

2. Direct rearmament of Germany — Under this formula the United States and Britain would go ahead, despite French unwillingness, to form German military forces after giving the West German government sovereignty in their zones. Some officials are convinced France would eventually have to follow suit in its zone.

3. Interim German armament—The United States and Britain—with the cooperation or assent of France, if possible—would arm the West Germans, after granting sovreignty, but with a clear understanding that a political solution would still be worked out.

Secretary of State Dulles is scheduled to go to London this weekend to attend the conference which will bring together also the foreign ministers of France, West Germany, Britain, Canada, Italy, Belgium, The Netherlands and Luxembourg.

United Press Telephoto

LIONHEARTED—The Lincoln Park zoo keeper at Chicago, Willie Renner, paraphrases an old saying, "A man's best friend is his lion." Renner's friend here is Jimmy, a year-old mountain lion.

St. Louis Red Cross Director Visits Pontiac

Mrs. Elsa Alvis, director of the St. Louis, Mo. Red Cross office of volunteers, visited the Oakland County chapter Tuesday and Wednesday to discuss chapter volunteer leadership.

At the meeting Tuesday the chairman of the chapter's service groups, Mrs. Sheldon Noble, discussed the volunteer staffing at Dearborn Veteran's Hospital.

On Wednesday Mrs. Alvis met with all service group chairmen for discussion of all types of volunteer work.

Judge Decrees Grandma Need Not Baby Sit

CHICAGO (AP) — It's all right, said the judge, for grandparents to baby sit occasionally or to have their grandchildren for brief visits.

But, he added, parents are shirking their duties when they ask grandparents to keep the children for several days or weeks.

Following this lecture by Circuit Judge Maurice J. Schultz yesterday, a reconciliation was made between Adam Zubavice, 70, and his wife, Marcella, 68.

Mrs. Zubavice had sued her husband for separate maintenance on the ground that he and their daughter forced her to care for their two grandchildren — 7 and 4-years old — for extended periods. Zubavice agreed not to make such demands in the future.

Police Getting Wheels

GRAND RAPIDS (AP) — Grand Rapids policemen are being mechanized. Three-wheel motorcycles equipped with two-way radio sets soon will be issued to foot patrolmen. City officials said the motorized policemen will be able to cover 20 times the area now covered by foot patrols.

In 1952, 150,000,000 persons visited state parks throughout the nation.

Jury Resumes Pondering Fate of Child Slayer

DETROIT (INS)—The jury in the Terrance DeMoss murder trial in Detroit resumed deliberations today in another attempt to break an apparent deadlock.

Recorder's Judge Gerald W. Groat dismissed the jury of eight women and four men late last night after they had deliberated for seven hours and 14 minutes without reaching a verdict.

DeMoss, who is 16, has freely admitted the sadistic slaying of 8-year-old Marion Jo Zobrovitz last May 11.

The jury is faced with reaching a verdict of either first-degree murder, second-degree murder, manslaughter, not guilty by reason of insanity or not guilty.

The defense attempted to prove that the youth was insane when he murdered the child. Testimony was introduced to prove DeMoss was examined and determined to be potentially homicidal six years ago.

However, three of the four phychiatrists who testified during the seven-day trial declared the youth sane but said he needed psychiatric treatment.

Hillsdale Fair to Open

HILLSDALE (AP)—The 104th annual Hillsdale County Fair will open with religious services Sunday. Harness racing, stage shows and baseball games will highlight the week-long fair.

Sen. Smith Hoping to Be Soviet Visitor

WASHINGTON (AP) — Sen. Margaret Chase Smith (R-Me) said today she has asked permission to visit Soviet Russia next month but has not yet received a reply from the Russians.

"I hope the visa is approved," she said in an interview, adding that she would like to visit the Soviet on a round-the-world trip she plans — "not official and not at government expense."

A few U.S. officials, students and newsmen have been permitted to visit Russia in the past 18 months.

Mrs. Smith's tentative itinerary calls for departure Oct. 2 although possible return of the Senate to consider censure charges against Sen. McCarthy (R-Wis) may delay the schedule.

"I certainly would not miss that session," Mrs. Smith said.

She frequently has tangled with McCarthy.

Mid-Michigan Doctors Warned to Lock Cars

LANSING (UP)—State Police warned central Michigan doctors Wednesday to loc ktheir car doors following a wave of thefts of medical bags containing morphine.

Police believe some 20 thefts reported in central Michigan are the work of a narcotics addict who seeks doctors' unlocked cars.

Three and one-half million acres in Texas have proved productive of oil and/or gas.

Heads Altes Brewery

DETROIT (AP)—Jerold C. Hoffberger, president of the National Brewing Co. of Baltimore, has been elected president of the Altes Brewing Co. of Detroit. Announcement of Hoffberger's election confirmed earlier reports that National had acquired control of the Detroit brewery. Hoffberger succeeds Howard H. Colby of Detroit.

The boundary between Canada and the United States is about 3,986 miles in length, with about 1,788 miles of dry land and 2,198 miles of water.

U.S. Becomes Uranium Power

AEC Official Doubts if Russia Can Match the West's Production

SAN FRANCISCO (INS) — An Atomic Energy Commission official declared today "there is little chance" that Russia can match the free world's production of uranium, vital A-bomb material.

Jesse C. Johnson, director of the AEC's Division of Raw Materials, made the statement in an address prepared for delivery before the American Mining Congress in San Francisco.

Noting the tremendous increase in uranium exploration and mining in recent years, Johnson described U.S. domestic operations in this field as "the most spectacular."

He asserted: "In six years, starting with nothing but uncertain prospects, the United States has become one of the world's leading uranium producers. We shall be competing for first place and part of the time be in first place.

"Russia, of course, is an unknown. However, there is little chance that Russian production is equal to that of the free world, or even to that of the free world's leading producer."

Johnson said that uranium production has become a $100,000,000-a-year industry in the U.S. He said ore production has been doubling every 18 months and "even greater expansion is just ahead."

He painted a rosy picture of the market for uranium. The present market, he explained, is entirely for defense but the long-term demand depends upon the use of nuclear fuel for production of industrial power.

By 1965 or earlier, he said, nuclear equipment is expected to be used for some new commercial power plants. Johnson said that the first production of commercial power from nuclear fuel is expected between 1960 and 1965.

Show Business

Kirk Douglas Meets Rich Little Boy He Delivered Papers to at 5 A.M.

By EDDIE CANTOR

One of my favorite persons in Hollywood is Kirk Douglas. Nice guy. He has become one of our outstanding dramatic actors who has yet to give anything but a first-rate performance.

After his sensation in "The Champion" and another picture which escapes me at the moment, he appeared on my radio show. His mother—bless her—has been following my career from the early days, and happens to like me.

She never enthused about Kirk's performance in "The Champion" but when he told her he was to appear on my radio program, she commented, "Now, finally, you're getting some place."

When Kirk was a youngster in Amsterdam, N. Y., his folks were extremely poor. Kirk missed many a meal, which is why he has a standing rule in his house today that his refrigerator must be kept full at all times, whether he is dining at home or not. I must drop over there some time.

At the age of eight, Kirk had a newspaper route in Amsterdam. Every morning at 5 o'clock, he'd make his rounds. One of the calls on his list was a fabulous mansion owned by one of the richest families in America—the Sanfords.

The Sanfords had a youngster named Laddie who was Kirk's age, and every morning when delivering the newspaper, Kirk would peer over the wall and wonder about the "rich little boy" who lived there.

About a year ago in Hollywood, Kirk received a telephone call from Laddie Sanford's mother. "Mr. Douglas," she said, "Laddie is in California for a series of polo matches and I'm giving him a cocktail party on Sunday.

"I know that Laddie would simply be delighted if you could attend." Kirk accepted the invitation so he could at last meet the "rich little boy" he used to envy as a youngster.

At the party Laddie shook hands warmly with Kirk and said, "You were late with the paper this morning—what happened?"

Virginia Cracks Down

RICHMOND, Va. (AP) — Your driving permit will be taken up in Virginia under a new law if you are convicted of speeding in excess of 75 miles per hour. Two convictions of speeding in twelve months already was enough to take you from behind the wheel.

Dad Misses Baby's TV, World Debut

CINCINNATI (AP) — Television viewers in Southwestern Ohio watched a baby born by a caesarian operation here last night but the father missed most of it.

Shortly before the operation went on the air over station WLW-TV, the father had to take his mother-in-law home because she was ill. He was reported to have seen a bit of telecast at his mother-in-law's home but by the time he got back to the hospital the baby girl had been born.

Both the mother and daughter were reported in good condition. The parents asked that they remain anonymous for the program.

Auto Blockade Halts Installation of Utility Poles

PRESTON, Md. (AP)—An automobile blockade has stymied the Eastern Shore Public Service Co. in its efforts to install old-type utility poles near homes in this Caroline County community.

The defiant Preston residents yesterday parked their cars over the holes dug by the company for the poles.

The dispute arose, Mayor Clyde Elzey explained, when lighting plans were made for the west section of Preston, recently taken into the corporate limits of the town. Residents of the area asked for underground wiring or else "ornamental poles."

Mayor Elzey said he understood the request was turned down because the cost of ornamental poles or underground wiring would be much higher.

A representative of the protesting home owners said his group had agreed last August to pay the cost difference themselves.

Burglar Loses $20 Bill to Get Handful of Change

GREENWOOD, S.C. (AP)—When George H. Davis opened his motor company here yesterday he found a $20 bill on the floor, then discovered the place had been broken into during the night.

It apparently was dropped by the intruder who took only a small amount of change from an unlocked safe.

Burdick to Junk Future Junkets

Congressman Finishes Frisco Journey Minus $250 and Hollow

WASHINGTON (AP)—This is the time of year when many a congressman is seeing the world, on official business and at taxpayer's expense.

But one who returned from a junket reported today it isn't—as many a taxpayer has suspected—all peaches, cream and a free ride.

Rep. Usher L. Burdick, a Republican from Williston, N. D., long has been a loud critic of congressional trips. Yet he finally broke down and went along with other members of a house judiciary subcommittee looking into claims against the government on the West Coast.

Burdick told about it in a newsletter to his North Dakota constituents.

In general, the letter took the line of, my, my, how much it costs a country boy in the big city these days.

The tone is set at the start.

"The first day out," Burdick wrote, "I ordered a small beafsteak. When I got the bill—Holy smokes! It was $6.35."

Then he reached San Francisco, with these developments:

"You are now at the hotel, and the first message you receive is a statement from the management that the daily rate of your room is $13, and after you have received the news and paid the one who delivered it 75 cents, you are legally and ceremoniously installed in this expensive room which looks no better than a $4 room in North Dakota . . . .

"I found a bar of soap about as big as one of Wrigley's gum sticks, but it dissolved before I could use it."

Well, city living was so expensive that Burdick was glad he had decided to save. "I seemed to hollow up fast," he said, "as I had been only on half-rations since leaving Washington."

There is considerable of Burdick to hollow up, by the way. He's a huge, shaggy bear of a man who, without the hollows, weighs 270 pounds.

Even so, Burdick reports, he soon ran out of money. He then learned that a congressman may be big stuff some places, but to a hotel clerk he's just another suspect who may be trying to bounce a check. Burdick said there was this dialogue:

Hotel Clerk, with a dirty look: "Where are you from?"

Burdick, proudly: "Washington."

Clerk, gloweringly: "Oh, I suppose you're one of those lawmakers. I have heard they want more pay, but they never have any money. Now, mister, if that check bounces I'll have you investigated by the McCarthy committee.

"You can't pull that stuff here—We have made full arrangements for men like you—look out the window and you can see San Quentin and Alcatraz."

Burdick says he got the money, briefly. He worked on committee notes until 12:30 a.m., and when he got up the next morning he found that a sneak thief had cleaned him out while he slept.

Well, the junket ended, and Burdick said any way he figures it, he comes out a $250 loser.

"No more trips for me," concludes Usher L. Burdick, hollowly.

More than 21,000 prisoners of war in Korea were baptized as a result of the missionary work performed by U.S. Army chaplains and missionaries in the prison camps.

SURIN
an Original Contribution to
RELIEF OF RHEUMATIC-ARTHRITIC PAIN*

*SURIN is a fast, effective treatment for pain relief—not a cure.

DON'T TAKE OUR WORD FOR IT — but rely on the published medical report on SURIN, which proves its effectiveness in relieving arthritic-rheumatic pain! SURIN was tested for months by doctors in a famous clinic . . . tested on chronic rheumatic patients with these significant results.

DOCTORS FOUND — that when SURIN is applied at the point of pain, its analgesic ingredient, acetyl beta methyl choline penetrates quickly, deeply to step up the action of the analgesic drug in 3 out of 4 cases . . . speeding pain relief in minutes! Clinicians who tested it stated that with an increased period of effective relief at point of pain, patients often experience increased freedom of joint movement. This is the substance of solid facts published in a medical journal.

SURIN IS SWIFT — DIRECT! No matter how long you've suffered arthritic-rheumatic pains, do try SURIN! It works without stomach upsets which can be caused by internal dosing . . . you just smooth on SURIN at the point of pain . . . because it starts to act as fast as you apply it . . . bringing relief in minutes!

A NEW KIND OF CREAM OINTMENT! Don't expect SURIN to look or act like other "rub-on—rub-in" salves or liniments. It is not harsh or blistering. SURIN gives the skin a pleasant, mild, cooling sensation to overcome the local heat caused by congestion. SURIN is pure white — pleasant to use — goes on smoothly, washes off quickly and is harmless to clothing!

BLESSED RELIEF OR COSTS NOTHING! Get a jar of SURIN today. Get blessed relief in minutes — or druggist must refund money — no questions asked.

FREE SAMPLE! Try SURIN at our expense. Get a free trial package today at your druggist. If he doesn't have it, send 10c to Surin Laboratories, Inc., P.O. Box 548, Bridgeport, Conn.

Cunningham's DRUG STORES

'MISS CINERAMA' — Lovely Marie Miskis, of London, England, has one of those faces that can win her many a beauty contest. She has just been named "Miss Cinerama" in connection with a new film opening at a London theater, where she will be the leading usherette.

Bored in Waiting Room, Girl, 5, Pulls Fire Drill

PHILADELPHIA (AP) — A 5-year-old gets pretty bored in a quiet waiting room while daddy and mamma are seeing the doctor. This little girl wandered into the corridor where she saw a red lever on the wall.

Half an hour later, the firemen had traced the false alarm. Nurses, doctors and staff workers, who had scrambled to evacuation stations throughout the hospital, went back to their normal activities.

And the 5-year-old resumed her wait.

Bedbug Cure Blows Up

COLUMBIA, Mo. (AP) — Gasoline and mothballs, mixed, is a splendid way to get rid of bedbugs the man told Magistrate Temple H. Morgett before the magistrate sentenced him to 30 days in Jail. He siphoned the gasoline from another fellow's truck.

Welfare Fund Probe Starts

House Group Is Holding Hearing on AFL Sheet Metal Union

LOS ANGELES (AP) — A House subcommittee which heard testimony about a death threat to a restaurant operator takes a look today at the welfare fund of the AFL Sheet Metal Workers Union.

Staff members of the group headed by Rep. Samuel K. McConnell Jr., (R-Pa) said seven or eight witnesses were expected to be called today. None were identified in advance.

* * *

Joseph Gee, Chinese-American restaurateur of Barstow, Calif., told yesterday about the death threat he said he received in a telephone conversation last March 20 which he recorded.

He said the threat came because he had refused to contribute to a union welfare fund although he now is doing so. Other witnesses said the welfare fund agreement was made between the AFL Culinary and Bartenders Union, Local 535, and an employers' group in San Bernardino County, in which Barstow is situated.

* * *

The phone conversation recording, punctuated by obscenities and profanity, was played for the committee. The man talking to Gee was heard to say that he was going to look Gee up "for no other . . . reason than to kill you."

Gee identified the caller as Pete Besk and described him as a union member but at the time a railroad employe.

* * *

Besk testified later in the day and said he remembered only that somebody telephoned him and said he was Mr. Gee but that he, Besk, was "so drunk" he couldn't remember anything else about the call. Besk said he was not a union official, only a part-time bartender.

McConnell said the committee seeks information for legislation to protect the workers' welfare funds which amount to 17 to 20 billion dollars. He said there now is little regulation over the funds.

Falconry, the capture of game birds by trained hawks was known in China by 2,000 B.C.

Dog Tears Down Flags

OMAHA (AP) — Small red flags, serving as temporary markers to warn motorists to stay clear of freshly painted stripes, have been ending up in the gutter on one block whenever the paint was renewed. Workmen thought it was a juvenile prank until a dog was caught carrying the flags.

There are about 25 species of true fir trees although the term "fir" is sometimes used more widely to include all the conifers.

She Walks for a Living

WATERTON, Mass. (AP)—Joan E. Trott, 26, is a girl who walks while she works. As a shoe tester for a rubber firm five days a week she has walked a distance equivalent of Boston to Los Angeles during the past year. After a day's hike she often goes to a dance.

Ulysses S. Grant was regimental quartermaster for the 4th Infantry at Ft. Vancouver, Wash., from 1852 to 1854.

Fall Colors Need Vivid Cosmetics

It's Time to Change Makeup Shades to Suit New Season

The big news in fashion and beauty this fall is color. Hats, coats and suits are in glorious shades that rival those in any rainbow.

Makeup colors, therefore, are more vibrant, too. Lipstick, powder and eye makeup are all keyed to complement this season's colors in fashion.

The transition from summer to fall means, of course, a wardrobe change. Naturally, it should mean a makeup change, too.

The woman who has had a healthy - looking tan and required no makeup for her summer wardrobe will look slightly sallow in her new fall clothes.

And the fair-skinned woman who didn't acquire a tan, but has been wearing light makeup these past few months should add some color to her face in order not to look pale in rich colors like turquoise, tangerine and sapphire blue.

To make your face powder cling all day, use a foundation cream. You can heighten or subdue the natural tone of your skin by choosing a foundation one shade darker or lighter than your own skin tones.

Perhaps you prefer the convenience of a pressed powder compact. This is excellent for frequent makeup repairs during the day. Choose one that's light and handsomely designed.

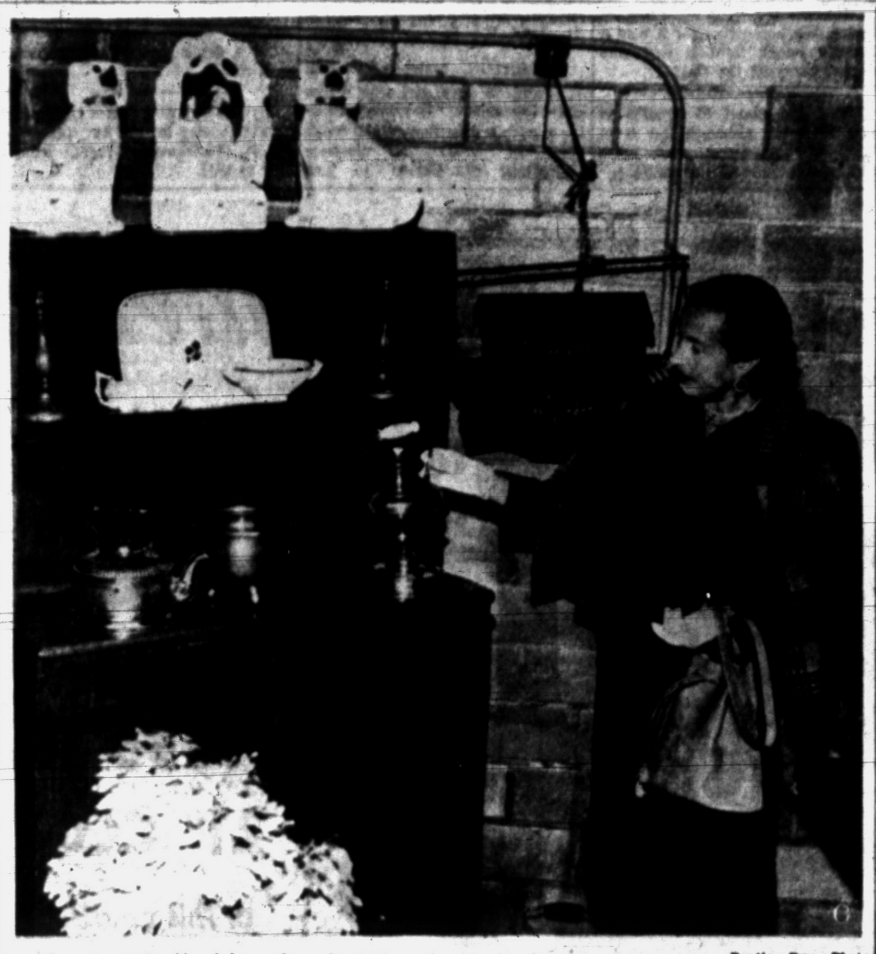

A bright red lipstick is, of course, a must for fall. For greater depth, you might want to wear two shades of red.

If you use a cream rouge, select a shade to match yourlipstick.

In eye makeup, the startlingly dark eyebrow is no more. From France comes a soft charcoal gray pencil to give the brows a completely natural color.

To make the eyes seem larger, this same eyebrow pencil can be used to line the eyes, making the whites of your eyes look even whiter.

The final touch to your eyes should be to accentuate their color. Apply eyeshadow to the lids, concentrating always on the outer part of the lid, and blend it upward toward the temples.

Pontiac Press Photo

A pair of Staffordshire dogs look down from a southern highland hutch cabinet from the West Virginia hills as Mrs. William Armstrong Browne of Rochester examines some of the other antiques that went on display today at the Will-O-Way antique fair. Mr. Browne is president of the league. Sponsored by the Shelter Fund Committee of the Michigan Animal Rescue League, Inc., the fair will be in progress from 11 a.m. to 10 p.m. through Saturday.

Collegians Love the Easy Look

The easy look is the required ingredient for this year's campus clothes for both men and women.

This means clothes must be easy to get into, easy in fit and easy to look at. It does not mean that the unmourned sloppy fad of a few years ago is back. This year it's a more studied carelessness.

Clothes are made with a casual effect in view. The bloused and middy silhouettes are top favorites with college girls. Such outfits as Bermuda shorts and bulky sweaters are in high demand by college men as well as coeds.

Wool knits also rate high, as do rugged tweeds and softly draped wool jerseys. These are clothes that require little pressing, adapt themselves to the specialized problems of college life and are made to take hard wear.

Girls like a wardrobe of skirts, shirts, sweaters and, of course, Bermuda shorts. Dark flannels and tweeds are the choice for skirts and shorts, with charcoal gray again in top position.

The same fabrics are in top demand by college men, with the charcoal grays and charcoal browns and most popular, husky tweeds running a close second.

Capsule Opera Given

The Stollman Estate at Lake Angelus was the setting Tuesday for a capsule version of Verdi's opera, "La Traviata."

Under the direction of Carol Longone, the program was entitled "Operalogue" and featured Mathilde Sarrand as Violetta, Lee Johnson as Alfredo and Bernard Green and Gorgio Germont.

Methodist Groups Gather

Members of WSCS of First Methodist Church were hostesses in their homes and at the church for this week's meetings.

The David Livingstone home on Oneida road was the setting for the Rachel Circle meeting. Mrs. Lester Mehlberg gave devotions and the program was presented by Mrs. Earby Austin.

• • •

Deborah Circle members were guests of Mrs. John Beaudin in her South Paddock street home. Devotions were led by Mrs. Bervil Anthony and Mrs. Charles Legge assisted by Mrs. Wendell Green presented the program on United Nations accomplishments.

• • •

Mrs. Sigmund Chmiloski presented the program on "Because He Cared" at a meeting of the Phoebe Circle held in the East Longfellow street home of Mrs. Orville Lyons. Assisting the hostess were Mrs. Laura Fuller and Mrs. Frank Coons.

Mrs. Coons gave devotions and Mrs. Lyons assisted with the program.

• • •

A cooperative dinner was held at the church for members of Miriam Circle. Mrs. Herbert M. Clemence led devotions and Mrs. Raymond Blevins presented the program. Mrs. Paul Havens was a guest.

• • •

Mrs. Arthur Stewart was hostess in her home on Beachland road for the Orpha Circle. Co-hostess was Mrs. Mary Hevel and Mrs. Arthur Nicholie gave devotions. Mrs. A. J. Zimmerman presented the program topic. Guests were Mrs. Havens, Mrs. Wade Smith and Mrs. Martin Burkhart.

• • •

Lydia Circle members gathered in the Voorheis road home of Mrs. Edwin Good. Mrs. Robert Murphy gave devotions and Mrs. Robert Burch was welcomed as a new member.

• • •

Members of Eunice Circle met in the church parlors. Devotions were presented by Mrs. Harry Going and taking part in the program were Mrs. John Long, Mrs. Harold Hannan, Mrs. Irving Corwin and Mrs. Samuel Wiscombe.

• • •

Mrs. Oliver Dunstan was hostess in her Hillcliff road home for the Ruth Circle meeting. Mrs. Byron Green presented the devotional topic and Mrs. Dunstan was in charge of the program. Mrs. Joseph Davis was a guest.

Banish Burnt Taste

You can remove the burnt taste from scorched milk by putting the pan in cold water and adding a pinch of salt to the milk.

Ease Dishwashing With Sponges, Suds

Sponges make life easier when you team them up with soap and water. For dishwashing, you can buy two sponges joined together on a plastic handle to help suds off silverware and the rims of glasses and plates.

The sponges are separated at the top, forming a slot, so the gadget can urge soil from both sides of a dish at the same time.

President Welcomes Board

Mrs. William Gorsline, president of Northern Oakland County Girl Scout Council, welcomed her new board of directors at the first session Tuesday in the scout office.

Mrs. Anders Hustvedt, executive director, is in Pennsylvania attending a national training school.

Office and committee reports and tentative plans for the coming year were presented.

Mrs. Gorsline, Mrs. Hustvedt, Mrs. Russell Kneale, Mrs. William Murray and Mrs. Max Hooligan are delegates to the regional conference to be held Nov. 16-18 in Grand Rapids. One Senior Scout and one Mariner will also be in attendance.

Camp committee announced its plans for counselor-in-training program and the purchase of six new aluminum boats for its 1955 season at Camp Sherwood.

Filling vacancies on the 1954-55 board are Mrs. LeRoy Aldinger, recording secretary, of Rochester; Mrs. Upton Brannack, district chairman, and Mrs. Albert Stanker, nominating chairman.

The October board meeting will be replaced by a council meeting at Grace Lutheran Church in an all day session. Luncheon tickets are available at the scout office.

MRS. WILLIAM GORSLINE

U.S. Promotes 'Drape Shape'

WASHINGTON (INS) — The government has stepped in to help the American woman achieve a fashionable "drape shape."

The U. S. Department of Agriculture announced it has contracted to have the Fabric Research Laboratories of Boston develop cotton fabrics with "significantly improved draping qualities for clothing and household uses."

'Young' Adults Meet for Sports' Night

"Y"oung Adults of the Pontiac YMCA will hold a sports night this evening in the YMCA on Mount Clemens street.

Badminton, volleyball, basketball, trampoline, paddleball and swimming are scheduled. All young adults 20 years old or older are invited to attend.

Shelves Suggested

If you're crowded for space in the closet where your cleaning equipment is kept, why not have the household handyman build shallow shelves on the back of the door. Most of the smaller items could be put here, preventing clutter on the closet shelves proper.

Spartans Well Backed by Pontiac Students as Season Approaches

Sorority Appoints New Committees

New committee members were appointed at a recent meeting of Alpha Chapter of Beta Theta Phi sorority held in the Elmhurst drive home of Mrs. William T. Hurlburt.

Mrs. Ursal Meeker assisted the hostesses at the cooperative dinner. Mrs. William Ward was a guest.

Appointed to serve on various committees were Mrs. John Kinzler, Mrs. Beecher Connell, Mrs. Harvey Peck, Mrs. L. Z. Monroe, Mrs. Emil Mallahn, Mrs. Meeker, Mrs. William Davies, Mrs. Leslie Cross, Marie Schimmell, Mrs. Glenn Grim and Mrs. Lloyd Oswald.

They wear and wear . . . they wash and wash! 2-ply combed cotton knit, expertly tailored by Health-Tex into beautifully fitting, handsome shirts, with snap-fastened shoulder opening for easy dressing. In many smart patterns and solid colors.
Sizes 1, 2, 3.

CECILE'S

Sisterhood Has Silver Tea

Sisterhood of Temple Beth Jacob held a silver tea Tuesday in the Ottawa drive home of Mrs. Arthur Rosenthal.

Opening prayer was given by Mrs. Sanford Saperstein and greetings were extended by Mrs. Herman Dickstein and Rabbi Saperstein.

Program chairman, Mrs. Harold Chapman, introduced Judith Dickstein who played piano selections.

Speaker was Mrs. Theodore Wiersema, English teacher at Lincoln Junior High School.

The content of her speech on "Citizenship and It's Trends," was that the women of today have come a long way in suffrage but they still have a long way to go.

She stated that they have developed as citizens and that they have accomplished a great deal.

She believes the women of the world could be the possible solution to peace . . . no woman would vote to send her son to war.

She also said that women are not the weaker sex, but that they are held down. However, she said, they have courage and are working toward equal rights.

Clean Inside of Bag

All handbags should be as presentable on the inside as on the outside. Not only should the linings be refreshed, but the fixtures should be kept brightly shining. Your pocket comb, compact and lipstick may need checking, too.

Chairman of orientation at Abbott Hall, Michigan State College is Trixie Darden, daughter of the Frederick B. Dardens of Adams road.

Election Held by Philatheas

Loyal Philathea Class of First Baptist Church elected officers Tuesday evening at the home of Mrs. Eugene Haire on West Huron street.

Mrs. Nellie Monroe conducted the election at which Mrs. I. O. Wideman was named president.

Mrs. Neil Allen will serve as vice president; Mrs. Peter Hudson, secretary; Mrs. H. E. Morris, assistant secretary; Mrs. V. R. Davis, treasurer with Mrs. Hazel Jewell assisting.

Missionary treasurer, Mrs. Joseph Songerath, assisted by Mrs. Mable Wiser; Mrs. Lula Halsell, reporter; Mrs. Herbert Flemington, teacher with Mrs. R. A. Vancel assisting, complete the list.

Roller Hat Shown

The familiar roller takes its place among important hats this fall. It's in felt and velvet, and vivid colors like pumpkin and turquoise.

Football Fever Grips MSC Campus

By MARILYN SHEARER

Cheering the Michigan State Spartans at Macklin Field this fall will be Mary Chase, Bob Cotterman, Betty and Carol Wortman, Dorothy Bell, Dick Price, Kenneth Ish, Nancy Welch and Mr. and Mrs. Theodore Carlson.

MARILYN

Others will be Bob Gordon, Kent Webb, Gail MacLaren, Nancy Dickinson, Donald M. Traxler, Dick and Kathryn Kramp, Pat Webster, Richard Smith, Verne Hampton, Trixie Darden, Lawrence Heitsch James Brown, William Moreau and Jan Elkins.

Buying hot dogs, taffy apples and most of all hot coffee at the games scheduled for late fall will be Richard Ensworth, Barbara Sheppard of Birmingham, Jesse Huthwaite, Dorothy Joan, Barbara Hunt, Paul Moros, Maureen Kelly, George Kimball, Elaine Kneale, Janet Levely, Nancy Aldrich, Judy Robinson, William Flynn, June Lind, George MacDuff and James Panks.

The social functions of college life will be enjoyed by Ronald Ridgway, Jerry Roddewig, Jack Simon, Maureen Slosson, Suzanne Swartz, Verne Vackaro, Georgia Lee Anderson, Dennis Beach, Louise Billings, Elvira Bisogni, Evelyn Bochnig, Charlotte Booth, Ellen Boston, Judith Bradley, Gerald Breen and Morley Burns.

Others participating in the campus activities will be Barbara Chapman, Darwin Deiderich, Kenneth Ferguson, William Kester, Armen Googasian, Cynthia and William Hamm, Phyllis Head, Janice Hoekman and Janet Allen.

Gatherings at the Union will be an opportunity for each student to greet old friends and get acquainted with the new. Saying "hello" will be Robert Dean, Sue Helwig, Daryl Bruestle, Janet and Dixie Kepple, Delores West and Elizabeth Gassas and Ida Milton of Keego Harbor.

Rochester students attending Michigan State College are Barbara Robertson, Mary Lee DeBaene and Roger Forbush.

Marge Price of Auburn Heights has returned to the campus to take up the duties of treasurer of her senior class. Marge is also a member of Kappa Alpha Theta sorority.

Style Show Will Feature New Fashions

"Fashions and Figures" has been chosen as the title of the second annual fall style show of Fashion Your Figure Club. The club will present the show Sept. 30 from 8 until 10 p.m. at St. Benedict Hall.

General Chairman of the event is Mrs. Reule Baker. Committee chairmen are Mrs. Park Nique and Mrs. Robert Bunce. Hostesses include Mrs. Joseph McLeod, Mrs. Robert Quinn and Mrs. George Cunningham.

Mrs. Frank Anderson will be commentator at the show and club members, Mrs. Grier Chambers, Mrs Harold Hopper, Betty Haddow and Mrs. Bunce are members who will model the fashions.

A demonstration of modern dances will be given by a local studio as part of the program and refreshments will be served by St. Benedict ladies.

Tickets may be obtained from members or at the door.

MOMS Install New Officers

Mrs. S. Edgar Thomas was installed as president of MOMS of America, Inc. unit two at a dinner held Tuesday evening in Stevens Hall.

Other officers installed were Mrs. Harry Luxon, first vice president; Mrs. John Brewer, second vice president; Mrs. Carl Cox, recording secretary, and Mrs. F. G. Van Horn, corresponding secretary.

Mrs. Clarence Hickmott is historian; Mrs. William Jones, treasurer, and Mrs. David Edwards, chaplain. Directors are Mrs. Emory Clark, Mrs. Chester Brown, Mrs. Maude Place and Mrs. Frank Jones.

Installing officers were Mrs. A. E. Kirkwood of Dearborn, first vice president of the state board and Mrs. Bert Hardy, of Ferndale, second vice president.

Mrs. Carl Leonard was guest soloist for the evening.

Save Pretty Mats

Potholders make satisfactory substitutes for hot-dish mats for everyday use. Save the pretty mats for company.

Mrs. Petroff Is Hostess for Meeting

Mrs. George Petroff opened her Cherokee road home Tuesday afternoon to members of Child Study Club Group Three for a cooperative luncheon and meeting.

Mrs. William Hurlburt, Mrs. Charles Janter, Mrs. Richard McPartlin, Mrs. Donald Rath and Mrs. Lester Wray assisted the hostess.

Mrs. Paul Gorman, president of the Women's Federation, spoke briefly, explaining the individual club's responsibility to the federation. Mrs. Maxwell Shadley and Mrs. Wray are federation representatves from group three.

It was announced that the Michigan Child Study Convention will be held in the First Methodist Church of Ann Arbor, Oct. 27 and 28. Mrs. Roy Jones, Mrs. Ward W. Ross and Mrs. R. George Tallerday were named delegates to the state convention.

The next meeting of the group will be held Oct. 26 at the home of Mrs. Ross on North Berkshire road. Dr. Dana P. Whitmer, superintendent of schools, will be speaker.

Silver Tea Held by Sisterhood

Sisterhood Congregation B'Nai Israel opened the season with an annual Silver tea, Sept. 14, held in the home of Mrs. Morris Blumeno on Ottawa drive.

The program was presented by Rabbi Henry Hoschander who spoke on the "Readings of Solom Aleichem."

Chairman for events slated this year are Mrs. Morris Bletstein, Chanukah brunch; Mrs. Stanley Elbling assisted by Mrs. Edward Blumeno will take charge of the Ater Pary; Mrs. Abe Avadenka, bake sale; Mrs. Marvin Finkelstein and Mrs. Alvin Jackson, Ad book; and Mrs. Lawrence Weston, bazaar.

Playsuit Pajamas

The teenage set will like new, very short pajamas that look like playsuits. They have scalloped skirts and separate rompers.

DONNA MARIE RONKETTO

Mr. and Mrs. Antonio Ronketto of North Marshall street announce the engagement of their daughter, Donna Marie, to Gerald A. Stenwall. He is the son of Mr. and Mrs. Alex Stenwall of South Francis street. No date has been set for the wedding.

Ease Messy Task

Washing an eggbeater needn't be a messy job. Rinse it promptly under cool water. Then crank the blades through hot soapsuds — without letting the cogs and handle become soaked.

Mrs. Donald B. Hogue Lists Committees for Symphony

Mrs. Henry Purdy's Mary Day avenue home will be the setting at 1:30 Monday afternoon for the first meeting of the Pontiac Symphony Women's Association.

Tea will be served by the hospitality committee headed by Mrs. J. C. Walker. Assisting her will be Mrs. Vernon C. Abbott, Mrs. F. E. Bonner, Mrs. Herman Dickstein, Mrs. Robert B. Tarr and Mrs. William Sproull.

Mrs. Donald B. Hogue is president of the association. Other officers are Mrs. Maxwell L. Shadley, vice president; Mrs. Arnold Hillerman, secretary; Mrs. S. V. Sekles, treasurer and Mrs. C. H. Purdy, corresponding secretary.

Committee members appointed by the officers recently are Mrs. Purdy, Mrs. Fred Haggard, Mrs. C. R. Gatley and Mrs. W. G. Wright, membership; and Mrs. Irving Gorman, Mrs. T. E. Nelson, Mrs. C. A. Scott and Mrs. M. J. Wager, recruitment.

Working on the public relations and publicity committee are Mrs. Shadley, Mrs. Dora Dawson and Mrs. Leland A. Clemence. On the telephone committee are Mrs. Edward Barrett, Mrs. E. D. Foley, Mrs. Ralph Norvell, Mrs. Goodloe H. Rogers, and Mrs. Charles Hayner.

Mrs. L. Raymond Sampson, Mrs B. B. Roush, Mrs. Charles Uligian, Mrs. C. M. Shelton and Mrs. Glenn Yuille are ticket committee members. Working on advertising are Mrs. Hillerman, Mrs. Clark J. Adams, Mrs. Julian Levine and Mrs. Sekles.

Ways and means committee members are Mrs. Uligian, Mrs. Howard C. Powers, Mrs. Kenneth Turner Jr and Mrs. George Wyman. Handling the constitution and by laws are Mrs. Sekles, Mrs. Monroe Osmun, Mrs. George Wyman and Mrs. C. G. Widdifield. Mrs. George Eckroth is stage manager.

JANET SYLVIA WOODWARD

The Ronald Woodwards of Holly are announcing the engagement of their daughter, Janet Sylvia, to Bob Houston, son of the Lester Houstons of Baldwin avenue. A February wedding is planned.

Cave Man Art Goes Modern

CHICAGO (INS)—You can put ancient history dating as far back at 50,000 years on the walls of your porch, den or patio and point to it as one of the latest decoration gimmicks.

The art of the cave man has been transformed into plaques by Chicago artist Evie Fort for this purpose.

The plaques were featured at the summer home furnishings market in Chicago.

Miss fort also concocted similar plaques of Estruscan dancing figures and guardian angel paintings of the Middle Ages.

Baby Learns Much by Touching Things

Baby won't be able to satisfy his curiosity concerning the world about him without touching things. Through touch, he learns that some things are soft, others rough, some hard, some slippery. So it isn't advisable to clear your house of all small objects while he's in this stage.

Kerosene Prevents Clogging of Sander

Does the sander clog when you're working on a painted surface? Try this trick: Wipe the painted surface to be sanded with a kerosene-dampened rag.

Don't soak the kerosene on or it will get into the wood and you'll have to wait for it to evaporate. But a wiping with a kerosene rag will keep most of the paint clog out of the sandpaper.

Suds All Blankets

All blankets should be sudsed enough to keep them really clean as the best means to discourage moths. This especially important with electric blankets because moth preventives are injurious to the insulating material on the wiring.

MR. and MRS. JESS C. BURCH

Married Saturday were Darlene E. Thayer, daughter of the Rolland Thayers of Tennyson avenue and Jess C. Burch, son of Mrs. Henry Burch of Glenwood avenue and the late Mr. Burch.

Darlene E. Thayer Weds Jess C. Burch Saturday

Honeymooning in northern Michigan are Mr. and Mrs. Jess C. Burch. The bride is the former Darlene E. Thayer, daughter of the Rolland Thayers of Tennyson avenue and he is the son of Mrs. Henry Burch of Glenwood avenue and the late Mr. Burch.

Vases of red and white carnations decorated the altar for the 11 o'clock ceremony Saturday in St. Michael Church.

An ankle-length gown of Chantilly lace over nylon tulle and slipper satin was worn by the bride. The gown was topped with a jacket fashioned with a Chinese collar and long sleeves ending in points at her wrists. A crown of pearls secured her fingertip veil of French silk illusion and she carried a cascade of white roses and carnations with white streamers.

Sally LaBarge attended the bride as maid of honor wearing a shaded lavender gown and carrying a bouquet of pink carnations and streamers. Her headpiece was pink.

Dorothy Burch and Donna Judy were other attendants wearing gowns of pink net over satin, accented with lace. They carried lavender carnations with lavender streamers and matching headpieces.

William Burch attended his brother as best man and John Burch and Daniel Burch, also brothers of the bridegroom, seated the guests.

A reception was held following the ceremony in Gingellville Community Center.

The bride's mother wore a gray dress with navy accessories and a corsage of red carnations. A beige suit with red accessories and a corsage of red carnations was worn by the bridegroom's mother.

The bride changed to a blue-gray suit with navy accessories and the corsage from her bridal bouquet for the wedding trip. Upon their return they will reside on Tennyson avenue.

Skirt for Traveling

Newest of skirts that travel is one of rayon linen, with pleats that fold conveniently for space-saving in your valise. Washable, too.

Cohostesses Give Party Wednesday

Virginia Freebury Will Speak Vows With Fred Mueller

A bridal shower honoring Virginia Freebury was given Wednesday evening at the Manse road home of Mrs. H. L. Stein.

Virginia, who will speak her vows with Fred Mueller Oct. 16, is the daughter of the Ray E. Freeburys of Blaine street. Fred's parents are the Frederick Muellers of Flint.

Cohostess for the miscellaneous shower was Mrs. Frederick Freebury.

Guests on hand included Mrs. Freebury, Mrs. Mueller, Mrs. Charles McLaughlin, Mrs. Eugene Mazza, Mrs. Leonard Saari, Mrs. George H. Watters, Mrs. John Fritcher, Mrs. Gerald Fritz, Mrs. Ben D'Arcy and Agnes Mazza.

Others were Mrs. Edgar Schneider, Mrs. Myles Werner, Mrs. Walter Mueller of Flint, Mrs. Arlo Tracy, Mrs. William Werner, Mrs. James Mount, Mrs. Richard Freebury, Mrs. William Carey, Joan Tracy and Mrs. Leland Clemmence.

Still others were Mrs. Dwight Van Alstine, Mrs. Paul Gorthy of Dearborn, Mrs. Donald Moore, Rita Schneider, Joan Mazza, Mrs. LaVerne Miller, Mrs. James Fritz, Mrs. Gordon Emry, and Mrs. Edward Rats.

Also invited to the party was the bride-elect's aunt, Mrs. Herbert Bieging of Stillwater, Minn.

During your daily housekeeping rounds, take a soapy cloth along to wipe the children's fingermarks from the doorknobs.

Milium lined for seasonless comfort.

It is not a genuine "Stroock" if the Serial Number is not on the label.

Peggy's 16 N. SAGINAW ST.

We will gladly order your coat in your special color or size.

Changing World Provides Handy Scapegoat When We're At Fault

Teenager Can Minimize and Correct Bowed Legs

The teenager employs the worst form of self-advertisement when she feels she must discuss her physical faults with her family, friends, or just anyone who'll listen.

Instead of finding out just where her problems lie, and seeking the best means to correct them, she'll belittle herself constantly.

Like the girl who wails—"My legs are so bowed and I can't do a thing to change them." Frequently, the legs are only slightly bowed, but she's inclined to become sensitive about them.

First of all, there's an exercise designed to correct bowed legs. Sit in a chair and put both feet on the floor. Then, make a "fist" of your toes and the front part of your foot, curling your toes under.

Next, spread your toes as far apart as possible. Hold this position for a few seconds.

Then curl your toes up in a "fist" again and repeat the exercise. Do this 5 to 10 times with each foot.

Next, there's a stance (foot and leg position) that minimizes bowlegs.

A flattering leg and foot position is a necessity for every attractive girl, for those moments when she's being noticed—standing in a doorway, entering a restaurant or theater, or walking into a classroom.

These are the times when you feel self-conscious of your feet and legs. But, with the right leg stance, you can acquire a great deal of poise and confidence as well as grace.

Put most of your weight on the back foot, and have both knees bent. Bend the front knee enough so that it covers some of the back leg.

This stance will prove most effective in hiding the crooked arch.

If you have inlaid linoleum on your sink, try placing a thick piece of newpaper under your dish drainer to absorb water.

Fill Open Pores Then Finish Oak

As we've said before, when you apply a finish to open grain hardwood such as oak, it's important that you first apply a filler to fill the pores.

If you don't, the first coat of finish that is applied is going to seep into the pores and the end result will be a rough and uneven surface that will take a good deal of fooling with to ever make right. Now fillers are required for hardwood when a natural finish is applied but they aren't usually needed on softwoods which is what most of us are used to working with.

Softwoods, on the other hand, do require some sort of a seal coat. The seal coat serves two very useful purposes. First, it prevents the strong wood grain from showing through in the final finish and secondly, it cuts down on absorption by the wood which means a saving in the finish coats.

There are several types of prepared wood seals that come ready-mixed for application. They are applied with a brush and dry rapidly. Besides sealing the wood many contain chemicals that act as a preservative to prevent decay and mildew.

If you don't happen to have a prepared seal on hand, you can make your own easily enough by making a half and half mixture of shellac and denatured alcohol.

After the seal has been applied and is dry, the wood surface should be sanded either with sandpaper or steel wool for some types of seals will tend to raise the wood grain slightly. After sanding and dusting, the finish coats of paint, varnish or shellac can be applied.

Faille Is Festive

Faille is the perfect fabric for a dress that will take you to the theater, to dinner. The prettiest faille dress is one in a pastel shade with jewel trimming.

He may not admit it, but a man likes the tangy scent of after shave lotion as well as its refreshing feel on his face. There's something very appealing in the crisp, clean aroma surrounding a man who uses a dash of cologne on his pocket handkerchief.

Let Weather Be Your Guide

Climate Dictates Vacation Wardrobes

Each vacation area makes its own demands on the wardrobe of the vacationer. And changing seasons further complicate the question of what to take on any holiday.

Although no area has first call on sunshine, certain patterns of weather have been found to exist as a guide for those planning their holidays. (Most of these are outlined in the publication "Normal Weather in the United States," available for 10 cents from the Superintendent of Documents, Government Printing Office, Washington 25, D. C.)

On the basis of these weather conditions, a few general suggestions may be made for vacation wardrobes, taking into consideration the normal dress habits in each section of the nation. Attire for sports is not included in these listings.

Northeast: At least two suits are needed by men, with a white worsted dinner jacket and formal trousers also suggested for those whose plans include dancing and formal parties.

A water-repellent gabardine topcoat or wool topcoat suitable for use as a raincoat is a comfortable, dual-purpose garment for this region, particularly in late August and September.

In almost all northeastern areas, women will find cool evenings demand a wool suit or dress, and a light wool coat or jacket. For added warmth on cool evenings and in early morning, wool sweaters are a virtual necessity.

Southeast: Humidity creates most clothing problems in the southern states, where hot weather predominates during all summer months. The tropical worsted suit, with its unmatched ability to absorb body moisture and throw off wrinkles overnight, is a natural for dress-up wear in this area.

Worsted walking shorts and loose-fitting sports shirts of comfortable wool or cotton jersey are suitable for wear in day-to-day vacation activities.

Northwest: Cool evenings spell the hot days in most sections of the northwest. In suits, the sharp variations in temperature make versatile worsted fabrics, such as gabardine, ideal for 'round-the-clock wear.

The sturdy wool mackinaw, a traditional garment here, is ideally suited for wear in mountain regions, where wool sweaters are welcome, too. For women, the wool dress or suit and light wool coat will be needed.

Southwest and Far West: Although casual dress seems to come naturally in these areas, sloppiness and poor taste are frowned upon. The West Coast, which many Americans regard as the mecca of floral prints and blazing colors, is also the center of many fine new styles.

Rich, beautifully textured fabrics, many of them employing cashmere, camel's hair and lamb wool, are the heart of these clothes, which westerners wear with great pride. Usually worn with lightweight worsted slacks, the sports jacket is the standard of informal, day-to-day attire for everything but active sports.

Women will find the many new separates—for example, worsted jersey skirts with matching fringed stoles—to be the best costume for day-to-day wear. For summer dating, formal clothes are frequently worn. The white tropical worsted dinner jacket or mohair tuxedo are favored.

Paper Plates Handy as Home Ornaments

If you don't want to eat from paper plates, perhaps you'd like to use them as home decorations. Get plates in a color or with a border motif that fits in with the color scheme of your room.

Take ads from magazines, patterns from wallpaper, or even Audubon prints, cut them to the shape and size of your 9-inch paper plates and paste.

For a den, plates with a wood-like finish come in handy. Kitchen plates can be edged with a ribbon or strip of fabric left over from the curtains.

Blame Your Sinus

You Can't Be So Wrong If You're Out on a Limb

By MARY MARGARET McBRIDE

Nominated for man-of-the-year in psychology: Cornelius A. Kahn, superintendent of Bergin County, N. J.'s Humane Society. Mr. Kahn, summoned to remove a brindle cat from a high perch on a Norway maple, had a ready explanation for why cats get treed, and it seems to me he has shed light on all the other creatures in our topsy-turvy world who are in a similar or related predicament.

Said Mr. Khan: "It's a touch of sinus which affects tubes inside their (the cats') heads and upsets their sense of balance. And because of that, they haven't the sense to come down. When they start to back down as they should, they get giddy and if they try to come down head-first, they can't face it. So they just stay up there."

Well it's come to this. In 1954 even cats can no longer be held responsible for their actions. Puss may be chased up a tree by a dog but when he can't make it back to solid ground, it's because of sinus, not that he made a mistake in judgement by going too high.

It's just one of the perplexing facets of this bewildering new world. When I was young, there were good people and bad people. There was the good boy who protected those younger and pitched the winning game for his team, and there was the bad boy who bullied the weak and threw the game for a bribe. There was the Hero, upright, forthright, clean-shaven, who did good deeds. There was the mustached Villain, equipped with a smirk, who behaved dispicably—tied heroines to the railroad track and blackened his noble rival's character.

But today only in TV westerns does the old standard hold. According to the new yardstick, there are only sick people and healthy people. Whenever anyone does a particularly dreadful thing, like torturing or killing somebody else (and the number of those who do this keeps on increasing) we shake our heads sorrowfully and lament that "he must be a very sick person." The result is that a good many of those who commit what used to be considered unmitigated crime, when caught, confess, not to their crimes, but to symptoms.

I myself am delighted with the idea of using sinus as a handy scapegoat. Next time I get out on a high limb of any kind, I propose to explain that my sense of balance is upset and so I must stay where I am until I can be tenderly taken down and treated for my malady. No punishment. That wouldn't be fair.

While we are about it, we might as well explain the confused global situation by asserting that the whole world is up a tree. That would simplify everything and take away all onus. The comforting thought would follow that all our difficulties are due to an epidemic of post-nasal drip. There might even be something constructive we could do about it.

Older Women Must Beware of Eye Fatigue

The older woman whose job entails small-print reading and figures must make certain her eyes do not suffer for it.

For the results of eyestrain are many. And soon little fine lines will appear under the eyes. When these lines are strongly visible, it's time for a few home treatments.

Take a compress of cotton, dampen it in cold water and sprinkle it with eye lotion. Lie down for 15 minutes with the compresses over your eyes. Do this every day until you notice a marked improvement.

Bags and puffs under the eyes may be due to tension or inadequate sleep.

To remove these, try this: To a quart of hot water, ad 2 tablespoons of salt. Squeeze out the excess water, then place the pads over the eyes and puffs.

Pressing gently on the puffs, tap lightly back and forth with the fingertips. As soon as the pads cool, saturate them with the hot salt water again.

When finished, wash your eyes with eye lotion and apply eye cream.

Remember, always use light touches when working around the eyes. If the puffs don't yield to your home treatments, consult your doctor to determine their cause.

Meanwhile, to detract from the puffs while you're trying to correct them, use eyebrow pencil and eyeshadow so that attention will be focused above the puffs.

Extra-easy—only two main pattern parts to cut out, stitch up for our favorite topper! Make it in one of the new tweeds or corduroys. It has the boxy lines you love—the back interest that's fashion news. Cuffs can be turned back at any length. Sew it now!

Pattern 4875: Misses sizes 10, 12, 14, 16, 18, 20. Size 16 takes 2¼ yards 54-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send 35 cents in coins for this pattern—add 5 cents for each pattern for first-class mailing. Send to Anne Adams, care of 137 Pontiac Press Pattern Dept., 243 West 17th St., New York 11, N.Y. Print plainly name, address with zone, size and style number.

Ice Cream Colors Featured in Lamps

Lamps presented at a special showing in New York feature cream colors, glass, polished brass, gleaming materials and frosted effects. New lamps are shaped like bottles, urns, cones, cages and tapered stems.

The "bubble" lamp gets its inspiration from the early American oil lamps. Made of plastic, it is matched with wrought iron and polished brass. Most popular color is ice pink, followed by turquoise, milk chocolate, soft green, blue and gold.

Mr. and Mrs. Ericson Lewis of Chippewa road have returned from a visit with their son, Robert, who is attending the University of Pennsylvania at Philadelphia.

* * *

Mr. and Mrs. Marion J. Hunt of Willard street announce the adoption of a daughter, Claudia Elaine. Grandparents are Mr. and Mrs. Donald G. Hallenbeck of Ellwood avenue and Mrs. Lois Compton of Taylor street.

Clean and Store Summer Attire

If you want to begin packing your summer wardrobe away, you can start with your summer shoes and handbags.

Before packing anything away, of course, you must make sure it is immaculately clean and free from soil.

If you have a bag of white calf, staw cloth, bamboo or plastic, it can be wiped clean with a sudsy cloth and dried with a lintless cloth.

Before washing the outside of any bag, however, wipe the lining first. Then, stuff the inside of the bag with tissue paper. This will hold its shape while you wipe the outside.

As for your straw bags, make sure any dust that may have accumulated in the crevices is removed. Remember, it's to be stored away for a whole year.

If your summer sandals are made of the same materials as your bag, you may wash them the same way.

Straw pumps, sandals, and linen-like weaves are best cleaned with a sudsy, soft brush. Before cleaning them, stuff them with tissue paper, too.

Then wipe them as dry as possible with a turkish towel before packing them away.

Add Bright Beads

To dress up a gaily striped shirt to wear with a black velvet skirt open the neck of the shirt and add as many contrasting, bright bead necklases as you wish.

Mary Joan Skelly of Woodland avenue (left), vice president of Amies Club presented corsages to club pledges, Mary and Martha Cowan of Wenonah drive at the membership tea held Sunday in the Osceola drive home of Alice Bego (second from right). Carolyn Haun of Chippewa road (right) received her corsage from Alice who is the club president.

Don't Wake Baby Just to Display Him

Generally, it's unwise to make a habit of walking baby in the evening to show him off to friends or relatives. It breaks the long, refreshing sleep that he needs and it's quite likely he won't go back to sleep again when finally you put him down and turn out the light.

When this happens, you have the beginning of a problem. It's important that he form the habit now of sleeping well. He'll do it if you cooperate.

Business Venture Needs a Good Flexible Plan

By ANNE HEYWOOD

People who go into business for themselves are apt to make one of two mistakes. Either they make no plans at all, to speak of, and just drift aimlessly into business and then into bankruptcy; or they make too many plans and are so rigid and inflexible that they allow for no growth or change and end up in bankruptcy also.

But Hilda and Eben Whitman, who own a charming and successful shop in Connecticut, have done a wonderful job of walking the narrow middle line. Their place, called "The Connecticut Yankee," is in the lovely old town of Sharon.

When the Whitmans first contemplated starting a shop of their own, they did a certain amount of planning. They both took good vocational tests, to determine whether they had what it took to run a successful shop, and whether their talents would complement each other, and who should handle what. That came out well.

Next they contemplated the location. They chose a place which they knew, with neighbors—and potential customers'—whom they could understand and like.

And they started out with a few kinds of stock which they knew would find a market in the community. They had a gourmet corner, with rare food delicacies; they had chic and durable sportswear and accessories.

But they kept their thinking flexible enough to be able to add new items as they saw a market for them. They now carry handmade clothes for children, and household accessories such as casserole dishes, ice buckets, and linens. They have stocked fine perfumes, and have quite a good demand for them.

Given an understanding of your own capabilities, confidence in your own taste, a knowledge of your potential customers, and a willingness to work hard, you can make a success of a shop of your own, provided you plan enough, but not too much!

Wax Halts Tarnish

A liquid furniture wax that needs no rubbing has been found to be effective in retarding tranish on silver pieces left in the open air. Silver should be polished at least once a month. Wash thoroughly in very hot soapy water and rinse in boiling hot water. Then dry with a clean soft cloth before waxing.

Discretion Is Admired in a Girl

But She Shouldn't Drop Companion for Being Friendly

By ELIZABETH WOODWARD

"Dear Miss Woodward: I am 13—and I've had the boys whistle at me! The other day my girl friend and I were walking down the street when a car full of boys came by and whistled at us.

"My friend shouted 'hello' and they stopped and asked us if we wanted a lift. I said "no thanks," but my girl friend was all set to go with them. Am I hanging out with the wrong friend, or should I continue to go around with her and not be afraid?"

This experience has you wondering whether you're a scaredy-cat or your girl friend has a slight tendency to be wild, hasn't it? Actually I don't believe it of either of you.

You were discreet, that's all. You frown on howling at strange boys who ride by. You hesitate to accept rides with boys you don't know. You're being prudent and careful. Very commendable.

Your girl friend, on the other hand, was probably feeling a bit gay. She couldn't resist the urge to respond to that whistle. She was moved to go a step farther and take the boys up on their offer of a lift. She thought it would be fun—a lark—a real adventure.

She obviously thought better of her venturesome mood—you don't mention that she went off with those boys and left you stranded. Her second thought was more conservative. She followed your lead.

There's no reason that I can see why you should drop her as a girl friend on this account. She did nothing damaging or dangerous. In fact she docilely took her cue from you. You apparently have enough influence over her to keep the two of you out of mischief.

"Dear Miss Woodward: I'm 14, a sophomore in high school, and my problem is relatives. Two of my cousins, Sally and Tom who are slightly older than I am, are always trying to make me feel like a baby, look like a fool, or make trouble for me. I have always tried to be nice to them by doing favors for them, but they just don't seem to like me. They are nice to each other, but when they're together with me they make fun of me. What can I do to be friends with them and get them to like me?"

You can pick your friends, but you're stuck with relatives. Your cousins know it. And as usual in a trio, it's two against one. They gang up against you just for the fun of tormenting you. But you don't have to take too much of it.

Avoid them, be too busy to stick around with them. Have a friend of yours along when they're there, so you can have a pal to wander off with. Smile and joke when they tease you and be good-humored, if it kills you. Their razz will lose its edge when it gets no rise out of you.

Home Dry-Cleaning Never Really Safe

There's no absolutely safe way to dry-clean garments at home and there's no absolutely safe dry-cleaning fluid. If you do dry-clean at home, use non-flammable, non-explosive carbon tetrachloride. Even this dry-cleaner, as well as most others, is harmful to breathe. Always be safe and do your dry-cleaning outdoors.

Gasoline, benzine and naphtha should never be used in home dry-cleaning, specialists say. They look harmless enough but they're extremely flammable and explosive.

Newest of the two-in-one dresses is a dark, scooped-neck cotton with a turtle-neck wool jersey dickey to button in for cool fall days.

White gardenias, perfectly complementing her summer tan and any shade she wears are the flowers for a girl's first date of the college year. The gardenia is the flower-of-the-month for September chosen because of its wide availability and reasonable price at this time of the year.

Make Your Dolly a Hat

Does your doll need a new hat? Doll hats are expensive, and it is hard to find one to just fit your doll's head. Here is a way to make hats for your doll, and I'll bet that you don't stop at one hat!

Ask mother for an old felt hat which you can cut up. Cut a circle from the hat, making the circle about three inches larger than your doll's head. By the way, this idea will work on most straw hat sections, too, so use either kind. Set the circle in a container of water until it is wet through. Now, remove it and tie it around something the same size as the head of your doll. The top of a milk bottle works well for small dolls. After it is completely dry, remove it and set it on your doll, seeing if you like the brim up or down. It is now ready to trim. Use feathers, ribbons, or flowers.

You can make several hats from the same hat, for if they are trimmed in a different way, they will not be too much alike. Do you have a friend who would like to make one with you for her doll?

Tomorrow: Pitch Checkers for Party Fun.

Teens Warned Against Cutting Their Own Hair

The teenager can do most anything to beautify her hair. She can recondition her scalp, give herself shampoos and cream rinses to keep it lustrous. She can add extra sheen and sparkle by daily brushings.

About the only thing she can't and should not do with her hair is to cut it herself.

Because of the current hair trends, many teenagers have taken to cutting their hair whenever they please. There's more involved than just hacking away with scissors.

First of all, even with a rear-mirror view, you can't possibly see all you are doing when you're cutting the back of your hair.

And even the teenager who's had practice in cutting her own hair doesn't have the professional knowledge of thinning and trimming the hair.

Every woman loves a man with a pipe—until he lights it.

Invitation Not Definite at the Time

Let Friends Know When You'll Arrive and Suggest Visit

By EMILY POST

A wife tells me: "Last fall some of our friends visited us and at that time pressed a very warm invitation upon us to come to see them. They have a very lovely home in the country and we would like to spend some time with them when my husband has his vacation.

However, we have not had any further invitation from them since. Would it be taking advantage of them to write and frankly ask whether it would be convenient for them to have us and to mention a definite time?"

Since they have not written you and suggested your visiting them, you certainly cannot write and suggest staying with them, but you might write a friendly letter in which you could give the date you would be passing through the place they live.

As their original invitation was a warm one, you can ask if you may stop in for lunch with them. It will then be up to them either to say they will be away that day or to say they will be delighted to see you.

Dear Mrs. Post: I am not going to dress as a bride but am being married in a large church and would like to invite many friends and all our relatives. The number makes it very difficult to invite people verbally and by personal notes, and yet someone told me that I could not send formally engraved invitations to a wedding at which the bride is not to be dressed in bride's clothes. Is this true?"

It will be unusual but there is no rule against it.

Dear Mrs. Post: My husband and I were entertained rather lavishly by business friends of his in another city. It was strictly business, however, even though on one or two occasions the wives of the men were also with us. Since I have been home I've been wondering whether there is anything I ought to do to show any personal appreciation of their generous hospitality, and if so, to whom and what?

If any parties were given by their wives, then you should write to them; but in return for parties given by the men, it is not necessary.

* * *

Is it proper to wear veils in the evening? Is card leaving at afternoon teas necessary? Mrs. Post is sorry she cannot answer personal mail. Her leaflet E-18, "An Etiquette Test," answers your questions. To obtain a copy, send 10 cents in coin to Dept. EP, c/o this paper, P.O. Box 99, Station G, New York 19, N.Y.

OPEN 9 TO 9 DAILY

Hubby Hogs Housework

FORT LAUDERDALE, Fla. (AP)—This is certainly a switch:

Florence B. Figowitz filed a divorce suit in circuit court, charging that her husband, Simon, insisted on doing all the housework.

He wouldn't let her perform household tasks, she complained, because he "wanted things done in a certain way."

60 seconds from snap to print

WITH A POLAROID® LAND* CAMERA

It's a thrill to see your clear black and white pictures a minute after you snap them. You'll make better pictures, too—for when you see the results on the spot it's easy to improve lighting, composition and pose. Anyone can take them . . . the camera and film do all the work.

GIs Subjected to Propaganda

Army Says Programs Aimed at Thule Base in Greenland

By ELTON C. FAY

WASHINGTON (AP) — The Army says Russia is aiming its propaganda radio at American servicemen stationed on the big and isolated air base of Thule, in northwestern Greenland.

It cites the Thule-beamed voice of Russia as part of the general Red propaganda effort directed "at undermining the American soldiers' morale, especially in foreign lands where American troops are stationed."

* * *

Reference to Thule is contained in a new troop training pamphlet, "Defense Against Enemy Propaganda," now being circulated by the Army. It does not discuss what, if any, effect the propaganda has on U. S. troops.

The pamphlet outlines the objectives and types of Communist propaganda — "white" or open propaganda where the source identifies itself, "gray" which emanates from an unidentified source, and "black" which comes from a source pretending to be someone or something else.

* * *

In connection with the beaming of Soviet propaganda at Thule, the Army pamphlet says:

"Troops there hear a program conducted by an anonymous feminine disc jockey, dubbed Moscow Molly by the American soldiers. In addition to the recorded rumbas and fox trots the soft female voice quotes editorials from Pravda, the leading Soviet party newspaper in Russia. Although the men tune in only to hear dance music introduced by a feminine voice, which is automatically American in accent, they are, nonetheless, subjected to Communist propaganda."

The pamphlet asserts the Soviet government attaches high importance to its propaganda program—including the operation of an estimated 6,000 special local schools, about 177 regional schools and approximately a dozen advanced schools for specialized training in propaganda dissemination.

Tom Paine Wins Right to Join Other Patriots

PHILADELPHIA (AP)—Tom Paine has won his right to stand with other Revolutionary War patriots in Independence Hall.

Through the intervention of Col. Richard Gimbel, the city's art commission yesterday agreed to waive one of its rules and permit a marble bust of Paine to come out of the dusty confines of the shrine's basement to be put on public display.

* * *

Gimbel, flier and author, is compiling a book on the Colonial figure whose vitriolic pen helped spur the nation's drive for independence. Gimbel is also sponsor of another city museum, the Edgar Allen Poe house.

The art commission's rules require that all likenesses on display at Independence Hall be by artists contemporary with the subjects.

But after an eloquent plea by Gimbel, City Property Commissioner Mortin E. Rotman moved for a waiver of the rules.

The six-member commission voted unanimously for the motion.

Twenty-nine cents out of every dollar you pay for an automobile goes for taxes.

Kefauver Blasts Foreign Policy

Claims U.S. Prestige Has Been Lowered by GOP Management

SAN FRANCISCO (AP)—Sen. Kefauver (D-Tenn) denounced Republican handling of foreign policy today and said election of a Democratic Senate "would send a thrill of encouragement . . . around the world."

"It is a long road back to that position of prestige and good will" America held abroad when the GOP first took over from the Democrats 18 months ago, he said in a speech prepared for a Democratic political rally.

"But if we are to survive," he said, "the people of the United States must make up the ground we have lost."

* * *

The Tennessee Senator, a candidate for his party's presidential nomination two years ago, centered on foreign affairs as he opened a speechmaking tour which will carry him into 19 states by Nov. 2 Election Day. He has just returned from a trip to Europe.

Kefauver said he "would have agreed" with Secretary of State Dulles' "pious hope that foreign policy would not be an issue in this campaign," except that the Republicans themselves have kept foreign affairs "almost strictly partisan."

* * *

He said Dulles "helped the Republicans establish foreign policy as a political issue in the campaign of 1952." But since the Republicans took office, he said, "America's prestige and moral and spiritual leadership have dropped to all time lows."

Clock Cakes Are 'Up to Minute'

Timely Dessert Rings the Bell

Draw Jolly Faces on Velvety Chocolate for a Tick-Tock Treat

It's September time when the world shakes off its summer dress and settles back to business. With civic and social activities in full swing again, it's a problem to dream up something different to serve for refreshments.

So, after your next committee meeting, delight the gals with tea (or coffee) and these tricky Chocolate Clock Cakes.

On each chocolate cupcake paint a happy face with white frosting and frame it with a circle of melted chocolate. Then, in single file around the edge, parade dashes of the same chocolate along with some semi-sweet chocolate chips to represent the numerals.

The hands are easy to make, too, with the melted chocolate and a plump chocolate chip in the center.

We have set ours for 5 o'clock, but if your function is in the evening, why not make yours read 9 or 9:30?

And, with little round candies for legs and stem, your wee alarm clocks are ready to go!

Chocolate Clock Cakes

1½ cups sifted cake flour
1½ teaspoons double-acting baking powder
½ teaspoon salt
½ cup butter or other shortening
1 cup sugar
2 eggs
2 squares unsweetened chocolate, melted
½ cup milk
1 teaspoon vanilla

* * *

Butter Cream Frosting

Life Saver candies
Semi-sweet chocolate chips
1 square unsweetened chocolate, melted with 1 teaspoon butter

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream shortening, add sugar gradually, and cream together until light and fluffy. Add eggs, one at a time, beating well after each; then add two squares melted chocolate and blend.

Add flour alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla; blend.

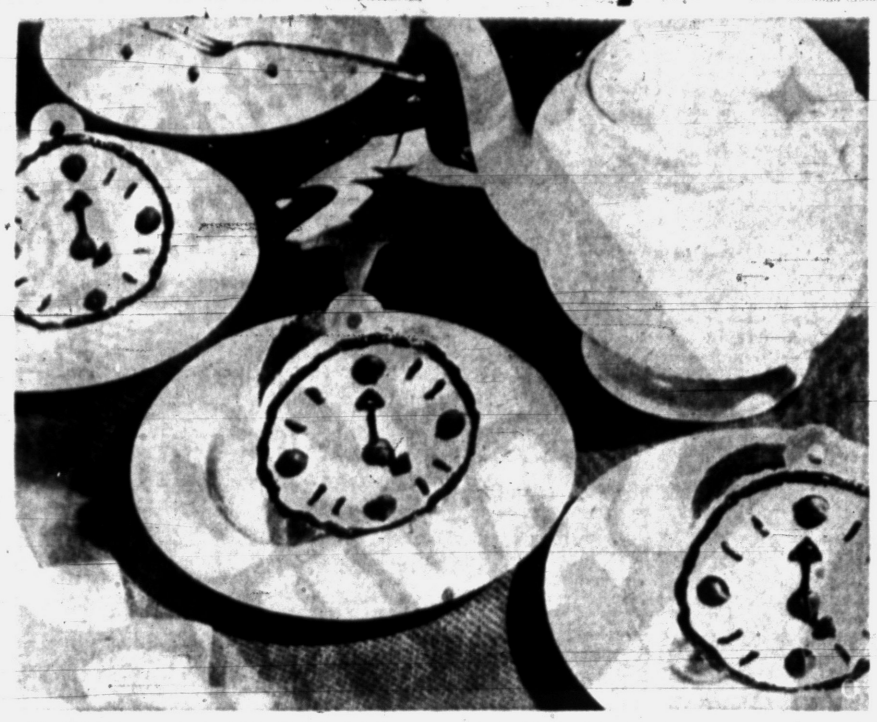

Spoon batter into paper baking cups, set in muffin pans, filling only half full. Or spoon into muffin pans, greased on bottoms only. Bake in moderate oven (350) 20 minutes, or until done.

Cool cupcakes; then spread butter cream frosting over tops, right to edges. Place two Life Savers into frosting at edge of each cupcake, with about half of each candy extending over edge. These represent legs of clock. Place one Life Saver at opposite edge for alarm.

Arrange four chocolate chips around top of cupcake in position for 12, 3, 6 and 9 o'clock; place one chocolate chip in center.

Then, squeezing the melted chocolate - butter mixture through a waxed paper cornucopia, outline the rim of the clock face and draw in the hands. Also draw short straight lines between the chocolate chips to represent the remaining numerals.

Arrange cupcakes on serving plate, tilting each cake so it rests on the Life Saver legs. Makes 24 medium or 12 large cupcakes.

CHOCOLATE CLOCK CAKES—Tick tock talk . . . keep your eye on these Chocolate Clock Cakes, a novel "up to the minute" dessert for fall entertaining. Back of their cute appearance is a cake that's rich with chocolate goodness. Serve them for a good time.

Steaming Plumps Up

Raisins may be small in size but they are packed with minerals and food energy. It's easy to steam raisins to bring out their best flavor and texture, and at the same time make them pleasingly plump for pies, fruitcakes and salads.

Rinse the raisins and place them in top of a double boiler over hot water. Cover and steam 15 minutes, stirring several times. Cool before using.

Versatile Salad Dressing Has Subtle-Sharp Flavor

You take the prize—in glowing praises—when you offer a cool inviting salad to guests. Complete the salad with a tangy Tomato-French Dressing and guests will heap the praises high.

Of all the dressings of this type, the lasting leader seems to be that version made with tomato soup. Best cooks invariably have this kind in their recipe collection. Many cookbooks feature it too.

Now, right from the test kitchens of the manufacturers of tomato soup, here's a much tried and perfected way to make Tomato-French Dressing.

And note how many salads gain much of their goodness from this subtle-sharp dressing. Use it with tossed greens, sliced tomatoes, shrimp, cottage cheese and green pepper, potato salad, sliced egg.

Tomato-French Dressing

2 tablespoons sugar
2 teaspoons dry mustard
1 teaspoon salt
½ teaspoon black pepper
1 can (1¼ cups) condensed tomato soup
½ soup can vinegar (½ cup plus 2 tablespoons)
1 soup can salad oil (½ cup plus 2 tablespoons)
2 tablespoons minced onion

Combine dry ingredients in a 1-quart jar; add remaining ingredients and shake well. Store in refrigerator until needed; shake well before using. Makes about 3 cups dressing.

Garlic Style: Add 2 medium cloves garlic (mashed) to basic recipe.

Blue Cheese Style: Add ½ cup crumbled blue cheese to basic recipe.

Lemon Style: Add 4 teaspoons grated lemon rind to basic recipe.

Herb Style: Add 2 teaspoons ground herb (rosemary, sage, savory, sweet marjoram, or thyme) to basic recipe. First mix herb with small amount of dressing and blend; add rest of dressing and shake well.

Mix cream-style cottage cheese with chopped raisins, grated lemon rind, cinnamon and sugar; use as a filling for thin pancakes.

Whip some peanut butter into vanilla ice cream. Refreeze and serve with chocolate sauce.

Bread Combines Oatmeal Flavor With Caraway

You'll like this quick bread with its combined oatmeal and caraway flavors.

Caraway Oatmeal Bread

2 cups sifted flour
3 teaspoons baking powder
1 teaspoon salt
2 tablespoons sugar
1 egg
1½ cups milk
1 cup uncooked rolled oats (quick or old-fashioned)
2 tablespoons caraway seed
¼ cup shortening (melted)

Sift together flour, baking powder, salt and sugar. Beat egg enough to combine white and yolk; add milk and beat to combine.

Add egg-milk to sifted dry ingredients and stir lightly only until dry ingredients are dampened. Fold in rolled oats, caraway seed and melted shortening.

Pour into 1-pound loaf pan that has been greased and lined with waxed paper on the bottom. Bake in moderate (350) oven 55 minutes to 1 hour, or until tester inserted in moderate (350) oven 55 minutes.

Store in tightly covered box one day before slicing.

Cut Ice Cream in Party Shapes

Buy your favorite flavors of commercial ice cream. The flat, brick-type package may be cut into fancy shapes just as it comes from the package.

If you buy hand-packed ice cream or ice cream in a deep container, repack it in shallow refrigerator trays. Or use your own favorite homemade variety. But be very sure that the ice cream is quite firm.

Press cookie cutter down through ice cream. Carefully push ice cream design through cutter; place cut-out on cookie sheet. Store in freezer until serving time.

Allow three or four cut-outs for each serving, depending on size of the cookie cutters.

These desserts may be made well ahead of time, and frozen for parties or special family meals. Use cutters to fit the occasion—bridge designs for the club desserts, animal shapes for children's parties, hearts for birthdays or engagement parties—to name a few. They're fun to serve, good to eat, sure to please.

I'm proud of the looks and safety of my family's CLOROX-clean clothes!

CLOROX makes linens more than white ... it makes them sanitary, too!

You'll be proud of your children's cotton and linen school clothes when they're Clorox-clean ... for Clorox removes dinginess, stains, even scorch and mildew. And your children will be safer, too ... for Clorox provides added health protection. No other home laundering product equals Clorox in germ-killing efficiency!

And Clorox is so gentle, millions use it regularly even in hand laundering. Free from caustic and other harsh substances, Clorox is made by an exclusive, patented formula. Also, Clorox, a liquid, contains no gritty particles to damage wash and washer. Clorox leaves clothes fresh-smelling, too.

You get all these benefits in a Clorox-clean wash!
1. Snowy-white linens ... Clorox removes gray and yellow dinginess.
2. Bright fast colors ... Clorox removes dulling film.
3. Lovely-looking linens ... Clorox removes ugly stains, even scorch and mildew.
4. Fresh, clean-smelling linens ... Clorox deodorizes.
5. Sanitary linens ... Clorox is the most efficient germ-killer of its kind.

A CLOROX-clean bathroom means added family health protection!

Bathroom surfaces such as wash basin, toilet bowl and shower floor can easily become germ centers, potential sources of infection. Routine bathroom cleaning with Clorox not only removes stains and deodorizes, it disinfects ... provides a type of disinfection recommended by public health departments. See the Clorox label for these and many other health protection uses.

When it's CLOROX-clean ... it's SAFER for family health!

Freeze Pears in Sweet Sauce

With the pear harvest now in full swing, homemakers have another opportunity to freeze a supply of dessert treats that will lend interest and variety of meals in the months ahead.

The pear is one of the few fruits not well suited to being frozen uncooked, but this need not prove an obstacle to preparing a delightful pear dessert for storage in the home freezer.

From a home economics institute comes an original and tested recipe for caramelized pears — prime fresh pears with the flavors of brown sugar, lemon, raisins and coconut blended in by baking and freezing.

Select ripe, firm pears, preferably of the Orient or Kieffer variety. For eight servings, wash, pare, halve and core eight pears. Squeeze one large ripe lemon. Using teaspoon, sprinkle pear halves with two-thirds of lemon juice to prevent browning from exposure to air.

In each of four pint-sized rectangular casseroles of anodized aluminum or other freezerware arrange four pear halves, with the cut side down. Combine one cup packed dark brown sugar and the remaining lemon juice and sprinkle a quarter of the mixture over each casserole. Cover. Bake in a preheated 375-degree oven 45 minutes.

Reduce oven temperature to 300 degrees. Uncover. Turn pears so that the cut side is up.

Combine one-half cup seedless raisins, one-third cup chopped coconut and a dash of salt. After sprinkling this mixture between the pears, return casseroles to the oven, uncovered. Bake 10 to 15 minutes.

After chilling, freeze covered. Label, date and seal with freezer tape for use any time within 12 months.

For serving, remove cover. Thaw in refrigerator overnight or at room temperature three hours.

The pears are a complete dessert dish in themselves, topped with their own sauce, but for a special touch, a small scoop of lime sherbet or some milk or custard sauce may be added.

Baked Spinach Pie Has Lots of Appeal

Spinach takes on new interest prepared this way.

Baked Spinach

1 10-ounce package frozen chopped spinach
1 3-ounce can chopped broiled mushrooms
1 teaspoon grated onion
1 small clove garlic (minced)
½ teaspoon salt
⅛ teaspoon pepper
¾ cup fine dry bread crumbs
1 egg slightly beaten
Butter or margarine

Cook spinach according to package directions, using liquid from mushroom can for all or part of the liquid.

When cooked, allow liquid in pan to evaporate, shaking pan to prevent scorching.

Stir in onion, garlic, salt, pepper, bread crumbs and egg; mix well. Stir in mushrooms.

Turn into buttered 8½-inch heat resistant glass pie plate. Dot with butter. Bake in moderate (350 degrees) oven until firm—about 25 minutes.

Cut in wedges and serve at once with lemon wedges. Makes four to five servings.

Sliced Liver Sausage Excellent for Variation

Just plain sandwiches made with sliced liver sausage find favor with many. Another fine version is a salad-type filling using liver sausage.

Combine ½ pound liver sausage, 2 tablespoons milk, 2 tablespoons catsup, 1 teaspoon horseradish, and ½ teaspoon Worcestershire sauce. Mix until smooth. Add ¼ cup chopped sweet pickle and mix until blended. Spread makes six sandwiches.

A big spoonful of heated mincemeat does wonders for vanilla ice cream.

Whittle Down Your Outlay for the Seven Basic Foods

Those seven basic foods that we all must include in our diet—do they loom as large as giants in your budget account book? Here are some ways to whittle them down—not to the size of the seven dwarfs, perhaps but down to life size, anyway.

1. Leafy, green and yellow vegetables: First, make the most of those that are in season, for they're not only better tasting but cheaper when they're plentiful.

For an all year round standby lean heavily on carrots, they're always a good bargain and they can be eaten cooked or raw. Never throw away the leafy tops of young beets and turnips. They're delicious when cooked, and a cheap source of vitamin A and iron.

2. Citrus fruits: When these are high in price—and if you buy them fresh, they tend to be—use tomatoes instead! Garden tomatoes in season are an excellent buy, and of course canned tomatoes are always a boon to the budget. Raw cabbage and salad greens are also a fine source of vitamin C.

3. Milk: Evaporated and non-fat dry milk are usually cheaper than fresh fluid milk. Non-fat dried milk lacks vitamin A—so use it as a milk supplement in cooking.

4. Meat, poultry, fish, eggs, dry beans, peas and nuts: When food money is limited, choose the cheaper cuts of meat—but watch out that you don't lose instead of save money because of the amount of waste bone and fat.

Commercial grade meat is an economical buy and is satisfactory for pot roasts, meat loaves and stews. Beef and pork liver and also kidneys are inexpensive and rich in vitamins and minerals.

And, don't be shy about asking your butcher's advice—many excellent meat cuts are cheaper because they are not well known and there is little demand for them. Fish is often less expensive than meat and just as excellent a source of protein. And Grades B and C eggs are just as nutritious as Grade A, and far less costly.

Finally—don't be above serving the humble dried pea, bean and lentil. With a little ingenuity all three can be made into delicious soups and casseroles, which when made with such other foods as tomatoes, milk, vegetables, etc., give a fine supply of many nutrients.

5. Bread, flour, cereals: Choose brown, whole-grain or enriched products, such as enriched yeast-raised bread. Bread served with milk in any form makes a low-cost, high-quality protein combination.

And be sure to use up every scrap of bread! Stale bread should be grated to make fine crumbs and stored in tightly covered jars. Stale bread is also excellent for puddings, stuffings, French toast and croutons.

6. Fats and oils: You pay for the fat on the meat you buy, so keep it and use it for cooking and seasoning—many recipes specify bacon fat, you know! Margarine is equal to butter in vitamin content, while being considerably cheaper.

7. Sweets: Use molasses often instead of white sugar when making desserts and when baking. It is a rich source of iron and has a distinctive flavor of its own. It is wonderful when combined with spice, cornmeal or pumkin and, of course, with beans!

Serve Main Course in One Easy Dish

Here's an easy way to serve your main course in one dish.

Shrimp, Green Peas and Yam Casserole

¼ cup butter or margarine
3 tablespoons flour
2½ cups milk
1 10-ounce package frozen peas (thawed)
½ teaspoon thyme
salt and celery salt
1 No. 2 can yams (drained and sliced)
1 pound fresh shrimp (cooked, shelled and deveined)

Melt butter, blend in flour, add milk and cook over low heat, stirring constantly, until thickened.

Add peas, thyme, salt and celery salt to taste; heat to boiling point.

Arrange yams and shrimp in 2-quart casserole; pour peas and sauce over.

Bake in moderate (350 degrees) oven 25 minutes. Makes four servings.

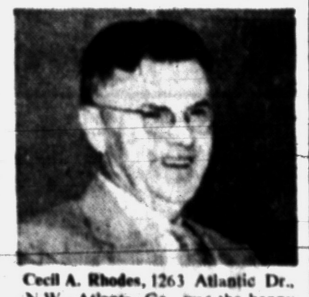

MEET SOME OF THE OTHER BIG WINNERS

in the first Lucky Lever Sweepstakes!

We wish we could show all the winners, but we just can't—there were more than eleven thousand!

Mrs. Esther M. Southers, Lima, O., has four children, seven grandchildren. "You can imagine what a $2000 prize means to us!" she said. "Thank you, Lever Brothers!"

Cecil A. Rhodes, 1263 Atlantic Dr., N.W., Atlanta, Ga., was the happy winner of a Ford Ranch Wagon. "We sure can use it!" he said. Mr. Rhodes has a wife and two daughters.

Mrs. Ervin K. Weitze, 2525 South 45th Terrace, Kansas City, Kan., mother of a girl 6 and a boy 4, won $2000. "The Lucky Lever Sweepstakes was lucky for us!" she said.

Mrs. James E. Truitt, 3114 Taylor St., Omaha, Neb., mother of two boys, 2 and 7, said, "The $2,000 we won went toward purchase of a much needed car. It was a dream come true!"

Mrs. Doris Korhuniak, 640 40th St., Richmond, Cal., who keeps house for her husband and two boys, 9 and 5, won $2000. "The things we can do with that money!" she said.

Mrs. John Swies, 545 S. 17th St., Saginaw, Mich., $2000 winner, housewife with two daughters—one grown, the other 11, said, "I'm so excited—first time I ever won anything!"

You can't lose! Everybody wins!

2nd LUCKY LEVER $100,000 SWEEPSTAKES!

No skill required! Nothing to guess! Nothing to write but your name and address! Everybody receives valuable coupons plus a chance to win $25,000 in cash or any one of more than eleven thousand other prizes!

Says Lizzie Miles, Grand Prize winner in the first Lucky Lever Sweepstakes.

YES—EVERYBODY WINS! And that means you. Because you get coupons that are worth money in your store on the purchase of these Lever Brothers products. And you have just as much chance as the next fellow to cop that big $25,000 prize, or any one of thousands of others! Just look...

GRAND PRIZE	$25,000.00
10 Ford 1955 Sedans (or $2,000)	$20,000.00
1,000 Westinghouse Clock Radios Worth	$40,000.00
10,000 Other Glamorous Prizes Worth	$18,500.00

All entries must be mailed not later than October 30, 1954 and received by officials not later than November 10, 1954

WATCH YOUR MAIL FOR SWEEPSTAKES COUPONS AND ENTRY BLANK!

Your entry blank is in the mail. Full details are printed on it, and winning names will be drawn just as soon as the sweepstakes closes. *You* can win as well as the next person, so fill in the entry blank and send it in—quick!

All this—and an unconditional guarantee, too! Like Lizzie Miles says: —"these Lever folks just won't let you lose." Every Lever Brothers product carries an *unconditional guarantee*. If you feel that any one of them does not stand up to our promises, we'll gladly return your money!

What an opportunity! YOU CAN'T LOSE!

A chance to win $25,000.00 and other fabulous prizes. Also Coupons Worth Money on the purchase of these wonderful Lever Brothers products! Every one of these Lever Brothers products is the finest in its field. If you don't already have them, this is our way of getting you acquainted with them—at real savings. Along with your Lucky Lever Sweepstakes entry, you'll get MONEY-SAVING coupons—so you see, you can't lose!

New—RINSO BLUE DETERGENT blues as it washes! Our new Rinso Blue doesn't just *look* blue—it *blues as it washes*, to get your clothes *extra white*. In your *dishpan*, new Rinso Blue gets your dishes sparkling clean—without wiping! If you prefer *soap*, Rinso White soap is the most popular washday soap in the world—now richer and milder than ever before.

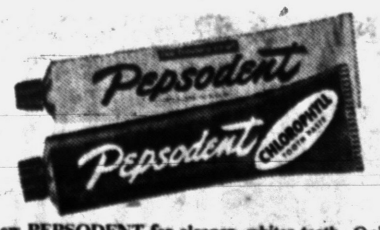

LUX LIQUID for dishes! LUX FLAKES for nylons! To do dishes fast and easy, use new Lux Liquid. It literally *floats* grease off plates and glasses. And you can *double* the life of nylon stockings, with gentle Lux Flakes care.

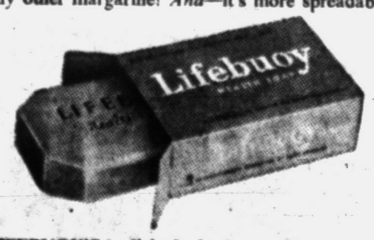

NEW! HANDY ZIP OPENER to break the seal of freshness!

GOOD LUCK MARGARINE is made fresh, wholesome, delicious. And to make sure it stays that way, it's double-wrapped in aluminum and sealed tight. That's why it *stays* fresher and better tasting than any other margarine! *And*—it's more spreadable!

New PEPSODENT for cleaner, whiter teeth. Only New Pepsodent exclusive formula with Irium gets your teeth so white—so clean. Your proof is your own clean mouth taste for hours. And the brand new flavor makes tooth brushing fun.

LIFEBUOY'S medicinal odor is gone. Yet Lifebuoy protects you as no other leading toilet soap can. Stops B.O. as long as 3 days . . . thanks to Puralin, Lifebuoy's new deodorizing discovery. And Lifebuoy costs far less than special deodorant soaps.

Food Flavors Enhanced by Mustard, Horseradish

By JANET ODELL
Pontiac Press Food Editor

"After meat comes mustard," said Cervantes, a 17th Century Spaniard. Although the only indispensable condiment is salt, so accustomed have we become to adding seasonings to our food that we consider them essential.

Many herbs and spices are used in the preparation of food. Others we add at the table.

It is unfortunate that some people add condiments before the food is even tasted. No cook likes to have her masterpieces slathered with catsup every meal.

Since one article cannot possibly include information about every seasoning, we're limiting this discussion to mustard and horseradish.

Mustard is both a condiment and a medicine (remember the uncomfortable mustard plaster of your childhood?) It is in even greater use today than in the past, although it has been appreciated since Biblical times.

Scan the shelves of any grocery store and see the numerous varieties of mustard offered; there's everything from mild salad mustard to the hot foreign mustards. One Christmas we found a package of four wee jars of unusually flavored mustards to give a friend who dotes on the hot stuff.

Do you know that mustard is rather perishable? It should be kept covered and used within a reasonable length of time or it dries out and loses its pungency. Mustard seeds, however, retain their flavor for months.

One large spice company mixes seeds of the domestic brown and yellow varieties and grinds a small quantity every few days. Salt and spices are added in the proper proportion, then vinegar.

We have one friend who prepares her own mustard from dry mustard and water; it is very strong!

Horseradish, believe it or not, is listed as an herb. You may grow it in your garden and use it freshly ground. You may buy prepared horseradish and add it to sauces or mix it with cheese for a spread.

Or you may keep the dehydrated horseradish on hand, thinning it with water, vinegar or lemon juice just before serving. The lemon juice is more likely to enhance and preserve the flavor.

The next time you bake a thick slice of ham, spread it first with mustard. Pour milk into the baking dish around the ham slice and bake as usual.

To serve with ham loaf, mix this horseradish sauce. Whip one-half cup sour cream until fluffy and season with one-half teaspoon salt and 3 tablespoons prepared horseradish.

An excellent sauce for fish uses both mustard and horseradish:

Horseradish Sauce

½ cup mayonnaise
½ cup whipped cream
Tabasco
½ teaspoon dry mustard
Worcestershire sauce
½ cup drained, prepared horseradish

Combine mayonnaise and whipped cream. Stir in other ingredients.

Canned Kernels Used in Relish

Canned whole kernel corn has garden-fresh flavor, color and texture. How wonderful to be able to keep this sealed-in goodness on your cupboard shelf.

It is ready to be quickly and easily used as a hot vegetable, in casseroles, salads and relishes.

If you neglected to make fresh corn relish for your winter relish trays, you can do a quickie job with canned whole kernel corn.

Quick Corn Relish

1 12-oz. can whole kernel corn
½ cup chopped celery
2 tablespoons chopped onion
2 tablespoons diced green pepper
1 tablespoon diced pimiento
½ teaspoon salt
¼ cup French dressing
3 tablespoons pickle relish

Mix together all ingredients. Toss lightly with fork until well mixed. Cover and chill for at least one hour.

Good served with ham, corned beef, pork and beef roasts.

● New and better, free from grit, free from lye, free from acids, contains no animal fats or vegetable fats.

WHOLE WHEAT BISCUITS—These whole wheat biscuits, made with whole wheat cereal, the instant or regular kind, are brimful of man-pleasing old-fashioned wheaty flavor. Try them out on your family some morning for a breakfast treat.

Best Method Outlined for Scalloping Potatoes

A current magazine lists these steps for baking white, smooth, scalloped potatoes:

Pare the potatoes just before baking to keep them white. Make a white sauce of butter, flour, fresh milk and seasonings. Pour the hot sauce over thinly-sliced potatoes. Bake in a moderate oven (350 degrees) for 1¼ to 1½ hours.

Biscuits Boast Wheaty Flavor

These biscuits are real star performers when it comes to winning attention because they're brimful of old-fashioned wheaty flavor. It comes from a pantry-shelf whole wheat cereal.

If you use the instant or regular cereal with extra wheat germ added, you'll turn out golden-crusted beauties that are extra rich in whole wheat goodness.

Whole Wheat Biscuits

½ cup uncooked instant or regular whole wheat cereal
¾ cup milk
1½ cups sifted all-purpose flour
1 teaspoon salt
2½ teaspoons baking powder
¼ cup shortening

Heat oven to very hot—450 degrees. Mix uncooked whole wheat cereal with milk in 3-cup bowl. Sift flour, salt and baking powder into 10-cup bowl. Add shortening and cut into flour mixture with pastry blender or two knives until the mixture looks like very coarse crumbs.

Add cereal mixture to flour mixture. Stir until all the flour is damp and the mixture forms one large ball.

Finish shaping into ball with hands. Knead on floured board. (Fold dough and press together with palm of the hand about 10 times.)

Roll out to one-half inch thick. Cut with biscuit cutter, dipping it in flour before cutting each biscuit. Place on ungreased cookie sheet or shallow pan about one-half inch apart.

Bake on center rack for 15 minutes. Serve hot. Makes about 14 2-inch biscuits.

If your custards "weep" or curdle, there's one thing you can be sure of: You have overcooked them.

Serving ice cream to a crowd? A gallon will make 25 one-third cup (No. 12 dipper) servings.

Sauce Heightens the Flavor of Steak

Even plain-steak addicts will like this steak sauce. It brings out good beef flavor instead of disguising it.

Broiled Steak With Chinese Sauce

4 to 5 pounds sirloin steak
3 tablespoons butter
1 teaspoon salt
½ teaspoon ground ginger
1 teaspoon soy sauce
3 tablespoons strained lemon juice
1 clove garlic (crushed)

Melt butter and stir in salt, ginger, soy sauce, lemon juice and garlic.

Start broiling steak; when it has broiled to one-half of the desired doneness on first side, brush well with sauce.

Broil second side to desired doneness, brushing well with sauce in the middle of this broiling period.

Heat remaining sauce and serve over thinly sliced steak. Makes one-third to one-half cup sauce—ample for six servings of steak.

To give your steak or chops an outdoor complexion when broiled indoors, sprinkle with charcoal salt before they go under the broiler.

Honey Cheese Dressing Ideal for Fruit Salads

If you have just a small amount of cottage cheese in your refrigerator, you can make this interesting salad dressing. Keep some on hand for fruit salads.

Honey Cheese Dressing

½ cup cottage cheese
2 tablespoons honey
1 teaspoon grated lemon rind
1¼ tablespoons lemon juice
⅛ teaspoon salt
⅛ cup salad oil

Force cottage cheese through sieve, add honey, lemon rind, juice and salt and beat briskly with egg beater.

Add oil, a teaspoon at a time, until half the oil is used, blending well between each addition. Add remaining oil 2 tablespoons at a time.

A delicious dressing for fruit salads or avocados. Makes 1¼ cups.

Season sour cream with a bit of curry powder or salt and ginger before adding as a granish to cream soups.

Making chicken gravy for a chicken loaf? Add a little monsodium glutamate for extra flavor.

STUFFED EGGS AU GRATIN—Here's a delicious new flavor for stuffed eggs, done with zesty cheese cracker crumbs. Fill and garnish the whites, then replace in your plastic egg container. These tasty little snacks will stay fresh, if you can hide them from the family.

Give New Zip to Stuffed Eggs

Stuffed Eggs au Gratin, or a new version of deviled eggs, make good eating for between-meal snacks or for school lunches. Make up a dozen and store them in egg trays.

Stuffed Eggs au Gratin

6 hard cooked eggs
18 cheese crackers
1 teaspoon grated onion
Mayonnaise
Salt

Cut eggs in half, scoop out yolks. Roll crackers fine. Add to yolks along with grated onion and enough mayonnaise to moisten. Salt to taste.

Fill whites, garnish with olive slices and additional cheese crackers.

Bright, Tart-Sweet Plums Lend Zest to Any Menu

The clear colors make plums a delightful adjunct to a fruit salad. They are delicious in pies and cakes, refreshingly different in puddings and ice cream.

A plum whip, low in calories and foamingly light, makes a pleasant ending to a meal.

Don't forget the versatile plum when you are making jams and jellies. Plum jam spread on crisp golden toast of a winter's morning is some of the best eating there is!

Melted down in a double boiler, plum jam makes a delicious easy-to-prepare topping for ice cream or pudding.

As a between-meal snack for the weight conscious, the low-in-calarie plum's tart sweetness is very satisfying.

The United Fresh Fruit and Vegetable Association Test Kitchen has developed these recipes for using this versatile fruit.

Fresh Plum Whip

½ pound (5) fresh plums
¼ cup water
½ teaspoon grated lemon rind
½ cup sugar
2 egg whites

Wash plums. Place in saucepan with the water. Cover. Cook gently until tender. (20 to 25 minutes). Push through a sieve and measure 1 cup puree. Cool.

Stir in lemon rind and one-fourth cup sugar. Beat egg whites until they stand in soft peaks. Gradually beat in the remaining one-fourth cup sugar and carefully fold into the plum puree.

Pile lightly in sherbet glasses. Top with a slice of fresh plum. Yield: Four servings.

Fresh Plum Whip with Soft Custard: Place 2 tablespoons soft custard in each sherbet glass. Finish filling with plum whip mixture.

Fresh Plum and Grape Compote

2 cup water
1 cup sugar
6 fresh whole plums
1½ cups seedless green grapes

Heat water and sugar to boiling point in a saucepan. Wash plums and add. Cover. Boil gently until tender (about 15 minutes). Add grapes and cook two minutes longer. Chill.

Serve in sherbet glasses or fruit saucers as dessert or, if desired, serve as an accompaniment for meat. Yield: Four servings.

Moderate Oven Best for Baking Cheesecake

Two reasons why cheesecakes fall are the baking temperature and the cheese ingredient used. Cottage cheese varies a lot in moisture content, causing many cake failures.

If you cannot buy "dry" cottage cheese, carefully drain off the excess cream. Too much heat also causes failures, so bake cheesecakes in a moderate 325-degree oven.

Store fat used for deep-frying in a cool dark place. Light, heat, air and moisture cause deterioration.

A colorful garnish for your ham platter consists of pineapple slices with edges dipped in colored sugar.

This Week's Food News Features Odds 'n' Ends

By JANET ODELL
Pontiac Press Food Editor

This article is going to be a bit of this and a smattering of that. I have news about several different items in the food world, none of them rating an entire byline story.

There are two new items on the baby food shelves, as perhaps you mothers already know. A new line of glass-packed junior meats makes the perfect transition from strained meats to table meats. It's chopped extra-fine, just right for toddlers.

Another packing company has put out strained chicken as its new addition to the baby meat line. Both of these will be welcomed by the highchair set.

A good deal of advertising material and pictures about soda pop in cans has been piling up on my desk. Only recently introduced into the Pontiac area, this form of merchandising soft drinks is proving popular.

It seems strange that this idea has been used for just one year. With other beverages appearing in cans for a number of years, it is surprising no one thought of putting pop into metal containers before this.

The advantages are obvious. Easy stacking, easy storing, faster to cool, no deposit, no return cans, no danger of breakage, no special handling on trips or picnics. Now we've told you.

Premium offers always tempt me. Even though I have occasionally found I could have bought the article with far less trouble, I always read the premium offer at least twice. Well, there are two things being offered right now that sound good. One I have on my desk, the other is described in advertising copy.

A famous company manufacturing prepared mixes of all kinds, pie crust, corn muffins, popovers, etc., has put out an excellent little cookbook giving many recipes using these mixes. There are attractive color illustrations and many clearly written recipes.

It costs 50 cents, but early this fall there will be a bonus certificate in their packages offering this recipe book for a quarter.

The other premium is a lightweight plastic 50-ounce shaker that the children can use to make after-school milk snacks. The new angle here is that powdered dessert mix in all flavors can be used to make these milk drinks.

This mix will not cake or lump. It dissolves completely when you use an egg beater or a mixer. Many of you may want to send for this shaker; anyone can try the new milk shakes that are practically guaranteed to wean children from the summer soft drink habit.

And, last but not least, did you know that cellophane is 25 years old this month? In its early days cellophane was a luxury wrap used only for luxury products. Expensive perfumes and fancy candies were the first items to take on the shiny eye-catching cover.

Cellophane is still used for decorative packaging, but it makes a far greater contribution than that nowadays. It's a moisture-proof, water-resistant, vapor-proof, odorless, grease-proof and bacteria-proof wrapping.

Cellophane clearly is here to stay.

Are Your Children's Lunches Good Enough?

Here's a simple way of determining whether you're preparing adequate school lunches for your children. A current magazine suggests that you pack an identical lunch for yourself, give it the same treatment the children's lunches get, including no refrigeration, and then eat yours at the school's lunch hour.

When you try this test, says one mother, chances are you'll begin packing bigger and better lunches for your youngsters.

Fancy Dessert Is Time Saver

Fancy recipes that leave free time for the homemaker to enjoy summer's sun are in demand these days. Here is an elegant refrigerator dessert that fits the bill. It can be made first thing in the morning and kept in the refrigerator until time to serve.

The star ingredient is peaches which are in good supply these days. And in supporting roles are whipped cream, honey, marshmallows, dates, nutmeats, maraschino cherries and oven-popped rice cereal. A real party dessert, it's rich and sweet, yet light in texture. It's the perfect summer dessert.

Peaches and Cream Roll

1 cup whipping cream
¼ cup honey
8 marshmallows
½ cup chopped dates
Fresh, canned or frozen peaches
¼ cup chopped nutmeats
¼ cup chopped maraschino cherries
3½ cups oven-popped rice cereal

Whip cream until stiff. Fold honey into cream. Cut marshmallows into small pieces; combine with dates, nutmeats and cherries; fold into whipped cream mixture. Roll rice cereal into fine crumbs; add one cup of crumbs to cream mixture, stirring until thoroughly blended.

Form mixture into a roll in the following manner; sprinkle remaining crumbs evenly on a piece of waxed paper. Place cream mixture on top of crumbs and mold into a roll about 3 inches in diameter. Wrap with waxed paper and chill for several hours. Slice and serve, topped with sweetened fresh peaches and whipped cream. Yield: 6-8 servings.

Fully Ripened Bananas May Be Refrigerated

Via the press and radio, you have often heard what "Chiquita Banana has come to say." One exception should be added to the "never store bananas in the re-friger-ator" portion of the commercial, however.

Ripe bananas—those flecked with brown—may be wrapped in a plastic bag and stored in the refrigerator. Bananas that are green-tipped or yellow need to ripen completely at room temperature. Refrigerating bananas before they have ripened fully prevents proper ripening and impairs flavor.

For a happy marriage, mix fresh or canned applesauce with crushed pineapple; serve on vanilla ice cream.

Whipping cream lends a glamorous touch to puddings, ice cream sundaes and parfaits.

DEVILED TOMATO CASSEROLE—No problem here for satisfying those family-size appetites when Deviled Tomato Casserole is scheduled on the menu! Zestfully seasoned deviled ham is the reason for that hearty, nourishing and oh so tasty appeal.

Cream Dressing Accents Flavor of Cold Shrimp

As the popularity of chilled boiled shrimp for hors d'oeuvres and salads zooms upward, the demand for unusual sauces increases.

Here's a gourmet sauce to be served thoroughly chilled. When made according to instructions, it's white and creamy and wonderful eating — a welcome change from the usual chili sauce-horseradish combination.

It's a versatile sauce, too, as it may be served equally well as a dip for cold shrimp and a dressing for a shrimp-aspic salad.

For an unusual salad, serve sliced cucumbers and cooked, chilled shrimp on lettuce or spinach leaves. Just before serving pour this dressing over the salad and garnish it with paper-thin radish slices or red onion rings for color contrast.

Here's the dressing recipe:

Sour Cream Dressing for Shrimp

4 slices bacon
1 cup thick sour cream
1 teaspoon salt
2 tablespoons tarragon vinegar
1 teaspoon grated onion (optional)
¼ teaspoon salt

Pan broil bacon slowly until crisp. Remove it from the pan and place on paper towels to drain. Let bacon drippings cool. Chop bacon fine. Add bacon drippings to sour cream, beating with a fork. Add vinegar, onion, salt and bacon.

Chill dressing thoroughly. Makes one cup of dressing. Dressing may be kept in refrigerator for several days in a tightly covered jar.

Rice Rounds Festive for Company Luncheon

A wonderful luncheon dish to serve for company: Cook a cup of rice until soft. Drain without rinsing, season with salt, and spread it an inch thick in a shallow pan. Press it down drimly, then cut into rounds.

Place rounds on a greased cookie sheet, place a small piece of butter on each, and brown in the oven. With creamed chicken or any hot sauce, these are terrific! And easy to make, too.

Dish Sparked by Deviled Ham

Good news, indeed, is the news that wonderfully versatile deviled ham now comes in a large family-size container. The 4½-ounce can contains enough zestfully seasoned deviled ham to make a plain casserole or baked dish turn into an eye-appealing main course feature with hearty portions that will satisfy those family-size appetites.

No longer relegated merely to packed lunch fare or emergency snacks, deviled ham has come into its own as a basic cupboard staple, serving as a flavor and meal extender, as well as glorifier for plain foods.

Not that it should be overlooked when sandwiches are scheduled, for deviled ham has long been America's favorite sandwich spread, and with the new family-size can it can take on mass sandwich feedings without any trouble.

Treat your family to this nourishing and budget-saving deviled tomato casserole.

Deviled Tomato Casserole

1 family-size (4½ oz.) can deviled ham
1 teaspoon prepared mustard
1 small white onion, finely chopped
6 slices white bread
½ pound package process cheese, cubed
2 large firm tomatoes, thinly sliced
2 eggs
2½ cups milk
Salt and pepper to taste
Butter

Combine deviled ham, mustard and onion. Spread mixture on slices white bread. Layer spread bread, cheese cubes and thin sliced tomato in greased casserole.

Beat together eggs, milk and seasonings to taste and pour over casserole layers. Dot with butter.

Let prepared casserole stand for one hour before baking. Bake in moderate oven (350) for 1½ hours, or until top is browned and puffed. Garnish with pepper slices, or as desired.

Serve at once. Makes six servings.

Spring-Form Pan Used

What's a spring-form pan? It is a high, round, two-piece pan used for baking delicate cheesecakes and tortes. During baking, an interlocking spring and pin hold the 3-inch-high side of the pan securely to the bottom.

When the baked cake is cool, the pin is removed and the side of the pan springs away from the cake.

Save Cheese Containers for Easier Lunch-Packing

School days bring Junior's lunch box to the fore. How can you make take-along noon meals nutritious, fun to eat?

Have you ever saved cottage cheese containers and filled them with salads or desserts. Children enjoy opening the little boxes, eating from them—and they don't have to tote them home again.

Your kids like potato salad? Put some in one of the containers and send along with a ham sandwich and a few pickles. Use the containers, too, for carrot and celery sticks.

When you are baking a meat loaf for supper, put some of the mixture in a small custard cup and bake it, too. Next morning send along the tiny meat loaf in a container. Cole slaw can go in another.

Baked apple, rice pudding, chocolate custard, gelatin and other desserts can all go in these containers.

Vary the sandwich routine. Some days send along hard-cooked eggs, plain or stuffed. Plain buttered bread tastes good with these.

When you do send sandwiches, use different breads. White, whole wheat and rye make pleasant changes, so do hamburger buns. Raisin bread is good with a peanut butter and bacon filling.

Hot soup can go into a small vacuum bottle. Use the homemade or canned varieties that your youngster likes best.

The milk usually added to the canned soups will be all to the good.

Put a surprise in Junior's lunch box as often as you can. Potato chips, for instance, are always welcomed.

And what's a lunch box without a cookie or two? Bake some of these old-fashioned jumbles; kids usually enjoy them with an orange or apple and some milk.

Honey Jumbles

1 cup sifted flour
½ teaspoon baking powder
⅛ teaspoon salt
¼ cup butter or margarine
⅓ cup sugar
¼ teaspoon vanilla
2 tablespoons honey
3 tablespoons undiluted evaporated milk
Pecans
Orange marmalade

Sift together the flour, baking powder and salt. Cream butter, sugar and vanilla; beat in honey.

Stir in sifted dry ingredients and evaporated milk with wooden spoon. Flour your hands lightly and roll a tablespoon of the mixture between your palms; place at least two inches apart on greased cookie sheet. Flour hands as necessary to complete rolling.

Press cookies down lightly with floured palm and put a pecan in centers of half the cookies. Make a tiny indentation with finger in center of the rest of cookies and put a little marmalade in the indentation.

Bake in moderate 375 degree oven 10 to 12 minutes or until lightly browned. Remove with spatula to racks to cool. Makes 20 cookies.

Fold sour cream into hashed brown potatoes just as you are ready to serve them. The result will be a new flavor treat.

Icing Blended Quickly

Soften one package of cream cheese with 4 tablespoons of cranberry jelly, and then gradually add 1 pound of confectioner's sugar. Work it into a fine smoothness. This will frost a 9-inch cake, layers and all.

For the quickest sundaes ever, spoon honey on vanilla ice cream.

Use Leftover Frosting

Turn your leftover cake frosting into a quick and delicious dessert. Simply spread cake frosting on crisp rye wafers and toast under broiler.

Peanuts Spark Vegetable Curry

Is your family less than enthusiastic about vegetables? We think that they, including the menfolk, will want you to put the recipe for this zesty vegetable casserole into your permanent recipe file.

Serve it with a tossed green salad—for dessert serve fresh fruit and cookies. You'll have a hearty and delicious meal.

Curried Vegetable Casserole

2 cups medium white sauce
1 teaspoon curry powder
1 teaspoon kitchen bouquet
2 cups cooked carrots
2 cups cooked turnips
1 cup cooked green peas
1 cup chopped salted peanuts

To the white sauce add curry power and kitchen bouquet and blend together thoroughly. In a greased 1½-quart casserole place 1 cup carrots, 1 cup turnips and ½ cup peas.

Then pour over vegetables 1 cup sauce and sprinkle in one-half cup peanuts. Add another layer of vegetables. Pour in remainder of sauce and top with one-half cup peanuts.

Place in moderate oven, 350 degrees, until peanuts are golden brown and the casserole is thoroughly hot, about 45 minutes. Yield: Four to six servings.

CURRIED VEGETABLE CASSEROLE—With more protein in a pound of peanuts than in a pound of meat, this casserole dish containing them makes a filling main course. Vary the vegetables, if you like, according to the season.

Whenever possible, thaw frozen fish in the refrigerator because this is a safer method than thawing at room temperature.

Bread Custard With Orange Peel Is New Version

Here's a new version of "bread and milk" that makes a light, bright, tasty dessert. You'll like it especially well if you have children who don't drink as much milk as you would like them to or who have difficulty in eating the 3 or 4 eggs authorities say they need each week.

Orange Bread Custard is really a baked custard flavored with grated orange peel then poured over thin slices of enriched yeast-raised bread. It's a delightful dessert for the whole family.

Bake it early in the day at your convenience and store it in the refrigerator. Serve it for dinner thoroughly chilled with a topping of thawed frozen or fresh strawberries. Leftovers make a hearty dessert for the children's lunch next day.

Orange Bread Custard

4 slightly beaten eggs
½ cup sugar
¼ teaspoon salt
3 cups milk, scalded
½ teaspoon vanilla
1 tablespoon grated orange peel
4 slices enriched yeast-raised bread

Combine eggs, sugar and salt; slowly add milk. Flavor with vanilla and orange peel. Cut crusts from thin slices of enriched white bread (save for use as crumbs in other cooking).

Arrange slices on bottom of 8x8x 2 inch ungreased baking dish. Pour custard mixture over slices. (They will float and form a pattern.)

Place baking dish in a larger baking pan containing ½ inch hot water. Bake in 325 oven 35 minutes, then increase heat to 375 degrees for 10 minutes to give it a golden brown top. Serve chilled, plain or with fresh or thawed strawberries as a sauce. Makes six servings.

Try Butter Wafers When Entertaining

Try these rich little delicacies when you are entertaining.

Medley Butter Wafers

2 cups sifted flour
½ teaspoon salt
1 cup butter or margarine
1 cup sugar
1 teaspoon vanilla
2 eggs
2/3 cup seedless raisins (rinse and drain and chop after measuring),
2/3 cup moist shredded coconut

Sift together flour and salt. Cream butter, sugar and vanilla; beat in eggs one at a time. Stir flour-salt into creamed mixture, then raisins, walnuts and coconut. Drop by teaspoonfuls onto greased baking sheet. Bake in moderate 350 oven 10 to 12 minutes. Remove to wire rack to cool. Makes 5 to 6 dozen cookies.

A cup of yellow or white cornmeal or rice usually yields about 4 cups after cooking.

Cheeseburgers Spark Broiler Meal-in-One

Beef on your budget? Here's a broiler meal-in-one: Cheeseburgers, French fries and baby squash halves.

Use brown sugar and butter in the hollow section of the squash. Slide broiler pan into preheated broiler oven with top of squash at least 8 inches from heat.

Broil 10 minutes, then place cheeseburgers and two packages of quick frozen French-fried potatoes on the same rack. Continue to broil 10 to 12 minutes longer. Turn potatoes once during cooking to crisp them evenly.

Lone Boy Runs Away

FORT WORTH, Tex. (UP) — Billy Melton, 12, ran away from home because he didn't like girls. He told the police who found him that "they're tattle-tales." Nelson is the only boy in a family of five girls.

Ike Tackles Power Issue in Western Political Tour

By THE ASSOCIATED PRESS

President Eisenhower tackles the hot power issue today as he continues his swing through the Far West to try to drum up voter support for a Republican controlled 84th Congress.

After spending the night at Walla Walla, Wash., Eisenhower planned to drive about 60 miles to speak at the dedication of the huge McNary Dam across the Columbia River on the Washington-Oregon boundary.

There, aides said he would make a "spirited defense" of the administrations policy of placing in local hands much of the responsibility for developing the Northwest's power resources.

* * *

The power issue is expected to loom large in congressional campaigns in that part of the nation. Democrats have been criticizing the administration's power program as a step backward.

Right after that speech, Eisenhower was to take off for Los Angeles and a major political address tonight at a rally sponsored by the National Federation of Republican Women's Clubs and two California "For Eisenhower" groups.

After an informal talk tomorrow morning at the American Federation of Labor convention in Los Angeles, Eisenhower is due to return to Denver, his vacation headquarters.

* * *

Eisenhower got a rousing welcome at his two stops yesterday—first at Missoula, Mont., and later at Walla Walla.

In other parts of the country, Vice President Nixon, Sen. Everett M. Dirksen of Illinois, and GOP National Chairman Leonard W. Hall kept up an oratorical barrage on behalf of Republican candidates for the House and Senate.

In San Francisco, Democratic Sen. Estes Kefauver opens a speechmaking tour that will carry him into 19 states by election day.

* * *

And in New York, Rep. Franklin D. Roosevet Jr. accepted nomination last night to run for attorney general on the Democratic state ticket. His acceptance came only hours after he lost a state convention floor fight for the gubernatorial nomination that went to Averell Harriman, wealthy New Deal diplomat and onetime high government official.

Contagious Optimism Foils Suicide Plunge

BRIDGEPORT, Conn. (UP)—David Berliner is credited with stopping a 49-year-old woman from jumping to her death from a hotel window ledge yesterday.

"I went to the window and started talking to her," he said. "I talked about everything in general. It was just a conversation about anything so I could win her confidence."

In five minutes, Berliner got close enough to pull the woman to safety.

He is vice president of the Bridgeport Optimists Club.

Here's 1 Actress Who Is Shy Despite Success

By BOB THOMAS

HOLLYWOOD (AP) — The public thinks of most actresses as rather brassy extroverts. Here's one who is shy — Maggie McNamara.

Actually, she's a paradox. Although she is admittedly shy, she has stood up to her studio in a manner that has amazed Hollywood.

There can be no doubt about her shyness. She shuns any ostentation. She seems uneasy in an interview. I asked her how she happened to get into the showy life of being an actress if she is so shy.

* * *

"I started as a model," she explained. "When you're a model, you don't have to talk. It was ideal for me."

Her photo appeared on a Life Magazine cover and movie offers came her way. She declined them, having never acted in her life — "not even in the high school plays." So she took private dramatic lessons for three years. Then followed an impressive job in a Broadway flop and 13 months in the Chicago company of "The Moon is Blue." Twentieth Century-Fox signed her to a contract.

* * *

Her first movie was rather sensational. It was a loanout to her old stage employers for the film version of "The Moon Is Blue." The part won her an Academy nomination, and no one was more surprised than Maggie.

"I didn't think I did a bad job in the picture," she said. "But when you consider that actresses like Shirley Booth and Julie Harris had been up for an Oscar the previous year, my nomination was ridiculous."

After her first film, her studio assigned Maggie to "King of the Khyber Rifles." She astounded them by refusing the role. Maggie's judgment was exonerated. The picture and the role were duds.

* * *

Maggie languished happily on suspension for a few weeks, then was put back in the studio's good graces with an assignment in "Three Coins in the Fountain." She scored another hit and is now playing Edwin Booth's wife in "Prince of Players."

"It's a good change of pace," she remarked. "I have a more somber role to play and even do some scenes from 'Romeo and Juliet.' The first two pictures I did were the same character — I didn't realize how similar they were until I saw the pictures."

* * *

As soon as she finishes the picture, she's heading back to the New York apartment she shares with her husband, David Swift. He's the TV man who created "Mister Peepers" and is now working up a series for David Wayne.

"My husband is a Californian; he grew up in Laguna," she said. "But I've converted him to the New York life instead of his changing me. I was born and grew up in New York."

REUNION IN AMERICA — Richard Applegate, Hong Kong correspondent for the National Broadcasting Co., who was held prisoner for 18 months by Chinese Reds, embraces his mother at the Spokane, Wash., airport. She came from Medford, Ore., for the reunion with her son who flew in from the Far East with Donald Dixon, International News Service correspondent, also held prisoner.

Parakeet Belies Name With Appearance of Egg

PARIS, Ky. (AP)—Mr. and Mrs. O. O. Kokendoffer bought a parakeet several months ago and went to work teaching it to recognize and answer to its name—"Boy."

They reported yesterday that Boy laid an egg.

Saves Her Cat First

SALEM, Mass. (UP)—When fire broke out in her apartment, 80-year-old Mrs. Mary Linehan wouldn't let firemen rescue her until she was sure that her pet cat was safe outside.

NOTICE

Pontiac Drive-In Theater locked out the Union Motion Picture Projectionists, members of Pontiac Local 620, International Alliance of Theatrical and Stage Employes. The Union membership has maintained good management and employe relations for the past 34 years. The action taken by the management of the Pontiac Drive-In Theater is unfair and without justification.

Local 620 asks for nothing more than the prevailing scale and conditions that have existed with the other Drive-In Theaters in the Pontiac area for the past 8 years.

THANK YOU
MEMBERS OF LOCAL 620 I.A.T.S.E.

LONG-DISTANCE HOMEWORK — Judy Woods, 13-year-old freshman, is confined to bed in a full body cast, left, but she still manages to do her schoolwork by means of a two-way communication system. Mrs. Barbara Kendall, right, reads the English lesson to the class as well as to Judy. The system was installed by the telephone company in Judy's home in Dallas, Tex., and in two rooms of the school.

Flight Refueling Is Done Quickly by Jet Fighters

FARMINGDALE, N. Y. (UP) — Some of the American drawing-board wizardy that has gone into development of in-flight refueling for single-engine jet fighters has just been revealed by engineering researchers of Republic Aviation Corp.

When the pilot of a Republic F-84F Thunderstreak tells a tanker plane to "fill 'er up," here's what happens:

A system of valves, tanks and pipes accepts jet fuel at hundreds of gallons a minute, distributes it from one intake point to more than a dozen tanks all over the airplane in such a way that all tanks become filled at about the same instant and completes the entire process in two and one-half minutes.

Republic F-84's equipped with this system are the first U. S. Air Force fighters revealed as being capable of in-flight refueling.

STRONG MIDGET—The glass reinforced plastic body of this sports car is lighter than aluminum and has greater strength than steel, according to its San Francisco, Calif., manufacturer. Called the "Scorpion," it weighs 1000 pounds and is powered with a Crosley engine. It will also be made with a Jeep engine in the future.

It's wrong to harpoon a right whale. This species is protected by international agreement.

During World War II, the United States spent more than $12,000,000,000 (B) to produce ammunition items in more than 160 large plants. This ammunition weighed 20,000,000 (M) tons and represented about 80,000,000,000 (B) individual rounds.

Synthetic Sapphires Are Used in Men's Jewelry

NEW YORK (UP) — Men now can sport star sapphires — true duplicates of nature's rare gems—in their shirt studs and cuff links.

Each of the man-made jewels shows two perfect six-pointed stars, one at either pole of the sphere.

Fashioned through a chemical process, the sapphires are identical both physically and optically to the most perfect of earth-mined gems. But the cost is only a fraction of that of the natural gem.

The company originally turned out the sapphires for precision military uses, then switched to jewelry outlets as a means of keeping its plant in readiness for any emergency.

All organic compounds in plants are derived from sugar.

Reporter Hits Jackpot

PHOENIX, Ariz. (AP) — When Jay Brashear, reporter-photographer for The Phoenix Gazette, was sent on an assignment he came back with more than a story and a picture.

As he was taking a picture of the opening of a savings and loan company office, it was announced he had won the door prize—a $1,000 savings account.

Hope Brother to End India Student's Fast

EAST LANSING (UP) — Michigan State College officials hope that the arrival of a brother will end the long fast of a critically-ill exchange student from New Delhi, India.

The student, Sankar Chari, 27, has been on a "modified fast" for nearly three weeks in the college hospital. He has been accepting liquids but broke his fast to eat solid foods only once.

Dr. C. G. Menzies, hospital director, said a cable from New Delhi contained word that Chari's brother would arrive in Michigan by plane Friday afternoon.

Chari was badly burned in a laboratory explosion and later underwent a leg amputation.

Hund Will Probated

DETROIT (UP)—The widow of the late Henry E. Hund, chairman of the board of Reo Motors, Inc., inherited one half of an estate valued at $225,000, according to his will filed for probate here. Hund, 66, died Sept. 10.

State CD to Seek Full-Time Director

LANSING (UP)—State civil defense officials revealed today they will seek provisions for a full-time director in the 1955-56 budget.

"Civil defense is becoming a permanent part of state and local government," Deputy Director Cornelius Van Blankenstyn said. "There should be a full-time director."

Federal officials in Battle Creek said "better than two-thirds" of the states have full-time directors.

The state CD had a full-time director during World War II. The office became inactive until January 1951, when it was reorganized.

The state civil defense activities are "rapidly expanding," Van Blankenstyn said.

MSC Meeting Will Map Alcohol Education Drive

EAST LANSING (UP)—Preliminary plans for a 1954-55 alcohol education program will be mapped at the alcohol education conference at Michigan State College Friday and Saturday.

Keynote speaker will be Dr. Joseph Hirsh, executive secretary of the National Research Council committee on problems of alcohol.

Robert Scott, chief of the youth division of the Department of Corrections, and Walter Noack, enforcement director for the Michigan Liquor Control Commission, will speak on high school drinking and law enforcement.

Old Pensioners Take to Travel

Auto Club Finds More Retired People on Road Than Ever Before

DETROIT (INS)—The Automobile Club of Michigan reports that the old folks aren't at home any more, they're out traveling America on their pensions.

Travel Director Harry N. Rogan said a report from the American Automobile Association shows the older age group has been the big factor in growing vacation volumes. He explained:

"Our people live longer these days. And older people have higher incomes than they used to. They have the time and inclination to enjoy leisure."

Rogan cited these figures:

Between 1940 and 1950 the total population rose 14.5 per cent. In the same period the increase in the 75-and-over bracket was 45 per cent and in the 65 category 33 per cent.

More companies have retirement plans and older people have the advantage of insurance and old age benefits. The median income of the 55-to-64 age group is now estimated at $2,500, not far below the $3,250 peak of the 35-44 group.

Rogan added that more and more resort areas, transportation lines and travel groups are turning their promotion toward older people. "Little wonder," he said, "after one major airline found its average passenger age to be almost 55."

Combined length of the Mississippi-Missouri river system is 3,988 miles.

Windowless Atomic-Age Structures Hark Back to Days of Indian Warfare

WASHINGTON (NEA) — Threat of an atomic or hydrogen bomb attack is giving modern architecture the grim, windowless look of sturdy, blockhouse-type buildings.

One of the best examples of this new trend is the nearly completed eight-story Armed Forces Institute of Pathology, on the grounds of the Walter Reed Army Hospital in Washington.

Far from an architect's dream of beauty, this all-concrete medical research center looks more like a throwback to the rugged forts built 150 years ago as protection against Indians.

The institute is the first medical building in the country constructed to withstand the desolations of a nuclear attack.

Despite its gray, dull appearance, any television star would jump at the chance to work in the up-to-date TV studio inside the institute which is to be used for medical purposes.

There are also two auditoriums and numerous laboratories behind the building's formidable 12-to-16 inch walls.

Construction started two years ago and by the time the last Bunsen burner is connected this fall the cost will come to around $6 million.

Doctors have been working hand in hand with the architects since the beginning, the result is one of the best equipped laboratories in the world.

In order to get to the third floor of the institute, it's necessary to take an elevator down one flight. Only five of the eight stories are above the surface and the lowest part of the structure is 50 feet below the ground.

The south side is especially constructed to hold up against a blast. Its thicker walls are made to resist 14,520 tons of positive pressure.

Architects figured that if a bomb was dropped in downtown Washington repercussions from the explosion would be sure to hit this section first.

Huge metal doors which roll on tracks can partition off the most sensitive part of the building in case of an emergency.

The Army's Corps of Engineers and the Navy's Bureau of Yards and Docks are experimenting with protective anti-nuclear structures.

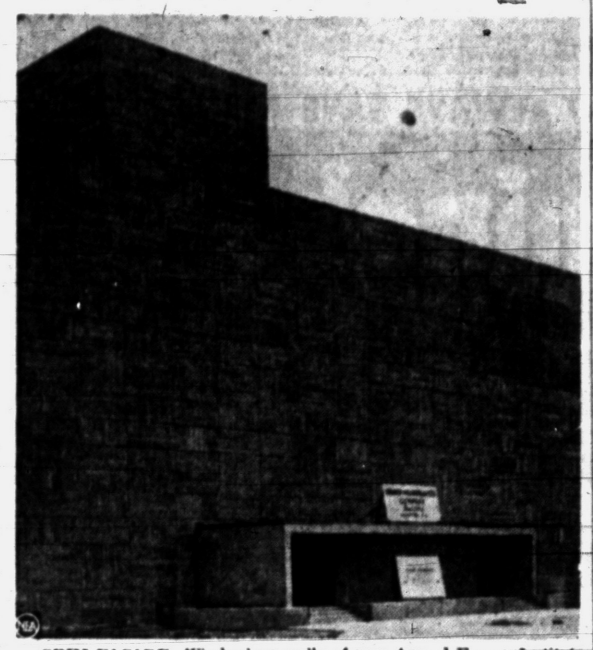

As yet no such work is being done by non-government concerns. But many new department stores, offices and factories have swung in the direction of heavy structures and a minimum amount of window space.

Notable examples are Foley's Department Store in Houston, Tex., and the Lincoln Arc Welding Co. in Cleveland, Ohio.

But these monolithic edifices pose one major problem: Despite the interior cooling and lighting, employes tend to feel closed in if they cannot see the sky and out-of-doors.

There is still a strong trend toward light, all-glass, United Nations-type buildings. How great an effect the atomic age will have on this optimistic style remains to be seen.

But the course of world events will certainly be changing the blueprints of tomorrow.

GRIM FACADE—Windowless walls of new Armed Forces Institute of Pathology are built to withstand the blast of nuclear attack.

Judge Decrees Bathtub Is Not Really Plumbing

SIOUX CITY, Iowa (AP)—A bathtub isn't plumbing, Municipal Judge Barry J. Sisk ruled that Walter E. Larsen, 61, who installed a bathtub himself, was innocent of violating a city plumbing ordinance.

The judge cited the Iowa legal code's definition of plumbing as "any receptacle or appliance installed or used to receive waste water, house soil, slop or sewage."

He ruled that "a bathtub actually doesn't receive waste water, but clean water, even though that water which may be discharged from the bathtub is waste water."

Life's Secrets

What Is the Mystery of Headlamp Fish? Man Digs Deep to Find Out the Answer

Editor's Note: The phosphorescent light of the sea has fascinated man since time began. How scientists suspect that there may someday be wonderful uses for the knowledge of what causes such light. This is another story of unusual studies at a Massachusetts Marine Laboratory.

By ALTON L. BLAKESLEE

WOODS HOLE, Mass. (AP) — The mystery light of the dark seas sprang into glowing bluish light as the scientist mixed two chemicals in a blackened room.

It shone brightly in the glass beaker, irridescent, lighting faintly a whole corner of the room.

This was exactly the light you see in sea water if you've ever swam at night or watched as a boat knifed through the water. It's the light like that — except for color — from yellow fireflies. Or from dead tree stumps glowing in the dark because of fungi growing on them.

It is bioluminescence, chemical and cold light which nature has granted to many living things, especially in the sea.

• • •

Man has been intrigued with this natural light from the time of his earliest observations and wonderings about his world. Now science is beginning to find the explanations, and perhaps some day some marvelous uses for it.

Mysteries of this cold light are being explored by Dr. E. Newton Harvey of Princeton University and associates who spend their summers here at the Marine Biological Laboratory working with lamp-bearing animals and organism from the sea.

Two chemicals create the light—luciferin and luciferase, an enzyme or accelerator of chemical reations. Both have been isolated in pure form from a tiny crab-like creature, cypridina, which is one of the main illuminators of the sea. Fireflies produce their light from the same two chemicals, but the luciferin of fireflies is probably different from that of these crustacea.

These sea animals, about the size of big bird seed, can be kept in the dried state, and will give off light when ground by mortar and pestle and mixed with water.

By careful chemical treatment, their luciferin can be extracted and also their luciferase. When these two liquids are mixed, you get the wondrous glow as though thousands of the animals at once were lighting the sea.

In life, these animals shoot their luminescence out into the water as a boat passes or the water is disturbed. Why they do it is a conundrum—perhaps to warn their fellows away.

Fireflies apparently use their flashing light to attract boy and girl fireflies together. Numerous little fish living in ocean depths carry headlamps and other lights. Perhaps, Dr. Harvey speculates, the position of the lights provide identification for romance in the blackness of the deep.

• • •

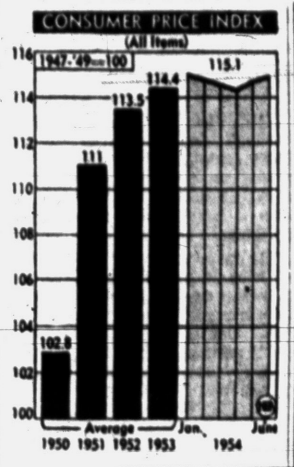

The light-giving reaction is like the twitch of a muscle, and like a muscle the light cells will grow tired and weak from repeated performance. Can this reaction of sea-light help tell science more about the workings of the human engine of muscle? That is one purpose of the studies.

• • •

If cold light could be made synthetically—and there is a good chance that luficerin might be duplicated—then man could solve the secret of another engine of life.

Steals Rabbit, Also Feed

SCRANTON, Pa. (AP)—A thief with foresight broke into Louis Fennala's barn here and stole a large white rabbit. He also made off with a 50-pound sack of rabbit feed.

PRICE INDEX UP — The consumer price index rose to 115.1 during the first half of 1954, highest point since 1950, when it was 102.8, low point for the five-year period. The index is based on the 1947-'49 figure of 100. Data compiled by U. S. Department of Labor.

Fresh-Killed Turkeys Get Spot on Bargain Counter

By THE ASSOCIATED PRESS

Fresh-killed turkeys, ready-to-cook fryers, boneless chuck roast and hickory-smoked hams are among the best buys available on meat counters this week in food stores across the nation.

Pork prices have climbed again in many areas, along with lamb and veal.

Beef is up in some sections of the country, down in others. Supplies of frying, broiling, roasting and fricassee chickens are at or near all-time highs, and prices continue to move lower.

Chicken raisers say prices—now substantially below the levels of a year ago—will drop still more unless the government steps in with a poultry price support program.

Hints of possible government price props have given a potent lift to egg prices recently—and the upward trend was clearly discernible at the retail stage this week. In some cities large grade "A" whites were up as much as 10 cents a dozen from the week before. However, the Poultry and Egg National Board notes that egg prices are still about 19 cents a dozen under year-ago quotations.

Turkey is being featured by several nationwide food chains.

Outstanding produce buys listed by marketing specialists include sweet potatoes, cabbages and peppers.

Butternut and acorn squash can also be had this week at moderate prices, along with beets, escarole, endive, lettuce, beans, celery; onions, white potatoes, spinach, cauliflower and Canadian yellow turnips.

Red Tokay grapes are being heavily promoted. Standout buys in the apple family are headed by the various "cooking" varieties, such as Wolf River, Rhode Island Greenings and Northwest Greenings. The season's first cranberries are available, but prices are still comparatively high. Limes constitute the best buy in the citrus fruits division.

There was encouraging news this week for coffee drinkers. The roasting company executive who predicted the big mid-August coffee price break, William Black, president of Chock Full O'Nuts Corp., said Brazilian prices are meeting stiffening resistance in this country.

Clubs Assist in Chase

WEWOKA, Okla. (AP) — Harking back to the wild and wooly West, roundup clubs are forming as a posse to aid officers in east central Oklahoma.

Sheriff John Sowers, welcoming the reinforcements, said he would have 100 horsemen immediately at his disposal for searches in this heavily wooded area.

Five barrels of gasoline contain the same energy as one ton of coal.

Tennessee Town Brings Nigerian Student to U.S.

KNOXVILLE, Tenn. (AP)—To understand why Geoffrey B. Onuoha is en route from Nigeria to Tennessee, you need to know the cherokee community—a tiny place, with a big heart and a will to do things.

The farm community, northwest of here in neighboring Grainger County, won the state community improvement contest in 1951; the rural church of the year award for Tennessee in 1952. It is a Protestant community, with no Negroes.

• • •

When the Department of State and the Tennessee Valley Authority distributed international publicity—in seven languages—a few years ago, a few words were devoted to Cherokee, on the banks of Cherokee Lake.

Heres the rest of the story, told today by Vic Weals, columnist for the Knoxville Journal:

• • •

In Lagos, Nigeria, in British West Africa, a Negro youth — Onuoha—read one of the publicity booklets. He began writing to citizens of Cherokee. They replied and soon felt as if they knew him.

"Tennessee is my favorite foreign country," wrote Onuoha. "My favorite song is 'Tennessee Blues' (waltz?). I received my education in a Catholic mission school, which I believe would compare with your secondary schools.

"My father and mother and brothers and sisters have not had the opportunity to get an education. They live in a native village.

• • •

"My greatest ambition is to come to America and continue my education. I desire an education so I can help my people.

"I would be willing to work as a servant, and make any bond required, to repay anyone who would help me get an education in America."

Cherokee, a community used to doing things, decided to take Onuoha under its wing, raised $1,000 to post with the U.S. Immigration Service for his entrance and return passage.

• • •

It found that nearby Morristown College for Negroes would admit Onuoha, help him obtain a passport and arrange for him to earn $100 of his yearly expenses of $450.

Cherokee thinks, somehow, it can manage the rest.

Onuoha is to arrive at the Knoxville Airport Saturday.

He will be met by his friends in Cherokee, a Southern community with no Catholics and Negroes, helping a Negro Catholic it has never seen to realize his greatest ambition.

Woman Doctor Lauded

MALDEN, Mass. (AP) — Dr. Mary E. Clarke, this city's only woman physician, has been cited by the Massachusetts Medical society and police for answering emergency calls when other physicians were not availabe. She is credited with aiding a heart attack victim after 12 other doctors could not be reached.

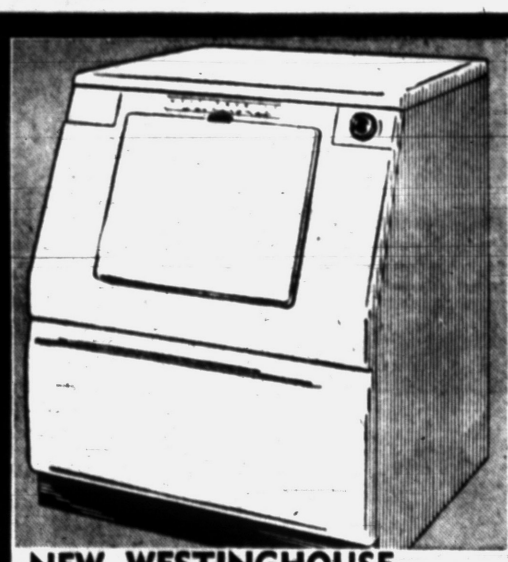

Grand Coulee dam contains 10,230,776 cubic yards of concrete and weighs an lion tons.

Air Crew 'Flies' to England and Back in 3 and One-Half Hours Using Gadgets

CARSWELL AIR FORCE BASE, Tex. (NEA) — A Strategic Air Command crew settled itself on the cluttered flight deck of a B-36 Air Force bomber here recently.

Their destination: Lakenheath, England and back to Carswell—a 26-hour mission. But only three and a half hours after take-off, the crew was back "on the ground" at Carswell, its mission successfully completed.

Actually, the crew members never got into the air, although they experienced all the sensations of flight with a few emergencies thrown in for good measure.

What they flew was a Curtiss-Wright Dehmel Simulator, a device of the type now in widespread use for training pilots and crews in normal and emergency flight procedure, both for military and commercial aircraft.

• • •

In the mock B-36 cockpit, largest simulator built so far, 500 miles of wire, 1200 vacuum tubes and 250 servo motors reproduce everything that goes on during actual flight—including sound.

Outside, an instructor at an electronic "console" flicks switches and turns dials to make propellers run loose, engines conk out, or other hazardous conditions.

For the Lakenheath mission, the B-36 crew had a brand-new gadget — a "ten-to-one" switch that makes certain things happen ten times faster than normally.

What it does is speed up the fuel depletion meter and flight engineer's clock during cruise conditions, so long-range missions can be simulated without the tedium of flying the immense long-range "distances" to a target of which the bomber itself is capable.

Thus, on the Lakenheath mission, ground check, take-off and climb were at normal rate (14 minutes); the cruise, via tactically necessary check-points, took two and a half hours at accelerated time rate, and approach, let-down and landing were again at normal rate (46 minutes).

SYNTHETIC FLIGHT—Deck of a B-36, as conceived by the Curtiss-Wright simulator, looks like real thing—except for view.

New Zealanders Form Association of Homeless

WELLINGTON, N. Z. (UP) — Women unable to find homes for their families are organizing into the New Zealand Homeless Association with branches in Wellington, Auckland and Christchurch.

Mrs. P. Miles, organizer of the group, said the association adopted three resolutions to present to the New Zealand government:

That immigration be curtailed until housing needs of people already in the country are satisfied; no more homes be taken over as shops, factories and offices; courts no longer issue eviction orders "to throw women and children into the streets without accommodations."

Courteous Policeman Esteemed by Visitor

FREDERICKSBURG, Va. (AP) — Fredericksburg police gave a little quarter — and got one in return.

A traffic patrolman spotted an out-of-state car parked illegally and instead of a summons he put a cautioning courtesy card on the windshield. Next day the card was returned by mail with this note: "My thanks to a courteous policeman." It was signed "Missouri."

Attached was 25 cents.

A Mere Coincidence

WATERBURY, Conn. (AP) — The Waterbury Republican published two stories on the same page. The headline on one read: "Turkey, $100 Theft Proved by State Police." The other read: "Turkey Dinner Planned as League Benefit."

Strict GG Rules May Be Eased

2 Firms to Sell Polio Vaccine to Drug Stores About Oct. 1

NEW YORK (AP)—Strict controls over use of gamma globulin (GG) against polio will apparently be relaxed somewhat about Oct. 1.

One or two pharmaceutical firms have announced they will begin selling some of it through drug stores then. Doctors could obtain it for youngsters whose parents wish or can afford GG shots.

Widespread use of GG might affect the scientific testing to learn how effective the Salk polio vaccine has been this summer. But spokesmen for the National Foundation for Infantile Paralysis said they did not expect there would be much effect.

This is the situation:

The vaccine has been given to more than 400,000 youngsters in test areas throughout the country. What happens to them this polio season will be compared with what happens to nonvaccinated youngsters in the same areas, to see whether and how much the vaccine conferred protection. The vaccine stimulates production of antibodies against polio viruses.

GG is a medicine, obtained from the blood of persons previously exposed to polio virus, which contains antibodies. GG shots can give temporary protection against sickness or paralysis from polio.

The clearest answer whether the polio vaccine works can be had if GG is not given to children in the test areas.

The polio foundation has been buying up all supplies of GG, turning them over to the Office of Defense Mobilization which controls GG distribution. The ODM has recommended that use of GG be discouraged in vaccine test areas so far as possible.

The foundation's contracts to buy GG expire Oct. 1.

The ODM says it has no choice but to lift its control over GG distribution Oct. 1, since it has neither funds nor authority to continue.

Meetings will be held in Washington Thursday and Friday by ODM's health resources advisory committee and the blood subcommittee. The latter is expected to make a report and recommendations concerning the GG dilemma.

ODM officials said they are highly uncertain that the unrestricted sale of GG would significantly affect the Salk vaccine tests in view of the fact that the end of the polio season is approaching.

Polio foundation spokesmen cited these reasons for feeling that release of GG would not materially affect the vaccine trials:

Not very much may be available and cost may be a deterrent to widespread use.

The peak of the polio season has probably passed.

If physicians do give GG in vaccine trial areas, they are being asked to keep records of individual children. These records can then be taken into account when statistics on the vaccine are assembled later this fall.

GG is also a useful medicine against measles and infectious hepatitis, a liver disease.

Soviets Find Life Deep in the Pacific

LONDON (AP)—Moscow radio reported today that Soviet scientists have found living sea creatures nearly seven miles deep in the Pacific ocean near the Kurile Islands.

The broadcast said the discovery was made during a recent expedition to determine the depth of the Kamchatka-Kurile depression in the ocean bed.

The broadcast said zoologists on the expedition established that there was life in the deepest part of the great depression. It added:

"They also discovered that a considerable part of the organic substances produced by algae in the upper levels of the ocean are consumed at night by animals which come up from the deeper parts. These deep sea creatures were of great antiquity."

No description of the animals was given.

A really modern kitchen includes an extension telephone

Think of all the hours you spend in your kitchen! How many times a day do you have to make "a 50-yard dash" to go and answer the telephone?

Does it make sense when you can have a kitchen extension telephone for only a few cents a day?

It will save you time, steps and energy, make you a more efficient home manager. You'll find its value far beyond its price.

No home is truly modern without an extension telephone in the kitchen and another beside your bed.

Call our Business Office and order yours today!

Line Play May Be Key Factor in Game

AP Wirephoto

CASEY SIGNS FOR 2 YEARS—Casey Stengel, right, New York Yankee pilot, and Dan Topping, team owner, appear satisfied with their employee-management setup here yesterday in Yankee offices after Casey inked his 4th 2-year contract. Winner of five pennants in six years, Casey faces a rebuilding program and he said yesterday that only Yogi Berra and Mickey Mantle are immune from winter trades.

Skipper Forward Wall Has Job of Halting Big Backs

Backs Are Light

By JACK SAYLOR

Line play looms as a key factor for Waterford in its game against Pontiac High at Wisner Stadium Friday night.

A weight comparison of the 2 teams shows the Skippers in good shape in both offensive and defensive lines, but the Chiefs will enjoy an advantage of over 20 pounds to the man in the backfield.

Skipper defensive linemen, who average 183 pounds, are anchored by 220-pound junior Al Nestor. They have the chore of trying to contain the Chiefs' big, fast backfield.

Offensively, Waterford has a starting line that averages 173 pounds, but it operates in front of a bantam set of backs averaging only 145.

Friday's game will be in the nature of a homecoming for 2 members of the WHS athletic staff.

Walt Ashley, Skipper athletic director, was a gridiron assistant and head coach of basketball at Pontiac in the early 40s' while line coach Don Beedle was a regular guard on the Chiefs' fine 1944 outfit that won 6 and tied 1 of 9 games.

Here is capsule comment on the Skipper starters:

JERRY KRUSKIE, left end, 5-10, 160-pound junior . . . one of Waterford's best all-around athletes . . . defensive regular in '53 as sophomore . . . played entire game last week against Keego . . . good pass receiver . . . handles kicking off.

DICK CLOUTIER, left tackle, 5-11, 195-pound senior . . . made 2nd team All-Inter-Lakes last year . . . one of fastest linemen on squad . . . hits hard . . . sure tackler.

CRUCK KOCHER, left guard, 5-8, 185-pound senior . . . smallest starter in line . . . plays pulling guard . . . fast, good blocker . . . missed most of '53 season with illness . . . gives way to 220-pound Al Nestor on defense.

RON KIND, center, 6-foot, 175-pound junior . . . scrappy competitor . . . saw considerable action on defense as sophomore . . . working offensively this year.

RANDALL BEEDLE, right guard, 5-10, 175-pound senior . . . lettered last year . . . rated most improved lineman this season . . . plays on both platoons . . . good blocker.

CHUCK SHACK, right tackle, 5-10, 191-pound senior . . . 2nd year as regular . . . steady performer both offense and defense . . . hard charger . . . teams with Cloutier to give Skippers good tackle strength.

JERRY HARNACK, right end, 5-10, 165-pound junior . . . switched to end from halfback . . . did well for JV's last year at end . . . good pass receiver . . . also plays baseball and basketball . . . will share duties with senior Steve Kebler and sophomore Clayton Roth.

TOM BRYCE, quarterback, 5-10, 150-pound junior . . . up from JV squad, but switched from end . . . fine ball handler and passer . . . has added weight and speed making him dangerous runner . . . lacks only experience.

LOREN BRAY, left half, 5-8, 140-pound senior . . . spelled '53 star Kerry Keating enough to win letter . . . has necessary speed . . . shifty runner . . . does well defensively.

LYLE RETHERRINGTON, right half, 5-8, 140-pound senior . . . has speed and surprising power despite lack of weight . . . regular safetyman last year . . . capable replacement for Keating's '53 "touchdown twin," Ray Campbell . . . hurdles star in track.

DAVE LARKIN, fullback, 5-9, 185-pound senior . . . much improved over '53 with added confidence . . . hard runner . . . does some passing . . . strong linebacker.

Reverses Size

By BILL MARTIN

Pontiac High's Chiefs will reverse the usual procedure when they open their home season Friday night against Waterford.

Chiefs boast a sizeable backfield unit operating behind a "pony" line that compensates for lack of heft with speed and maneuverability.

PHS' top six backs average 175 pounds—five pounds more than the Chiefs' starting offensive line. Forward wall weights range from guard Bruce Baker's 160 to center Wayne Pyke's 185 pounds.

Coach Ed Graybiel plans at least three changes in his starting lineup Friday. Coley Gracey and Willie Wilson, both 1953 regulars, sat out last week's opener at Wyandotte because of training infractions but will get starting assignments against Waterford. The other change will be at right tackle, with Bob Johnston replacing Colle Hunt.

Johnston, a senior, played junior varsity ball as a sophomore but didn't go out for the squad last season. Used primarily on defense as a linebacker against Wyandotte, Johnston earned the offensive starting berth with his aggressive, hard-charging play in practice this week.

Remainder of the lineup is expected to remain unchanged.

Thumbnail sketches on Pontiac's starters:

WILLIE WILSON, left end—Five-foot 9-inch, 170-pound senior . . . playing 2nd year as regular . . . one of team's fastest men . . . plays both offense and defense.

GEORGE THRASHER, left tackle—Six-foot 2-inch, 170-pound senior . . . co-captain of the squad, and a 2nd-year regular . . . won honorable mention on 1953 All-Valley defensive team.

BRUCE BAKER, left guard—Five-foot 8-inch, 160-pound junior . . . played junior varsity last season.

WAYNE PYKE, center—Six-foot 1-inch, 185-pound senior . . . letterman last year as 2nd-string pivot-man . . . trimmed 30 pounds off frame during summer to gain speed.

DICK KORB, right guard—Five-foot 8-inch, 165-pound sophomore . . . mainstay of Lincoln Junior High's eleven last year . . . one of the Chiefs' most promising linemen.

BOB JOHNSON, right tackle—Six-foot 1-inch, 170 pound senior . . . playing 1st year on varsity . . . hard-hitting linebacker on defense.

MARVIN CAGLE, right end—Five-foot 10-inch, 170-pound sophomore . . . ex-junior high back switched to flanker . . . "workhorse" of the squad.

BOB CASTEEL, quarterback—Six-foot, 160-pound junior . . . jayvee standout last year . . . completed four of six passes against Wyandotte.

DICK BLADE, left halfback—Five-foot 7-inch, 140-pound senior . . . saw limited varsity action last season . . . has terrific drive for his size.

WALT POE, right halfback—Five-foot 10-inch, 175-pound senior . . . the squad's "bread-and-butter" runner . . . deceptively fast ball-carrier with crushing power . . . excellent left-handed passer and 2-way star . . . All-Valley defensive back last year . . . co-captain.

COLEY GRACEY, fullback—Five-foot 8-inch, 172-pound senior . . . 2nd season as regular . . . tricky open-field runner once in clear . . . adds speed to fleet PHS backfield.

Wide-Open Race Seen for Little Brown Jug

DELAWARE, Ohio (AP)—It looked like a wide-open scrap today as 15 of the nation's niftiest 3-year-old pacers awaited the word in the $69,332.06 ninth annual Little Brown Jug.

It's the biggest pacing purse in history, as well as the largest ever offered for any harness feature on a half-mile track, and it's possible for all 15 nominees to get a cut of the big melon.

Trappers Bag 6 Timber Wolves During August

LANSING (AP)—Trappers bagged six timber wolves in the Upper Peninsula in August, the highest monthly total in several years, the conservation department reported today.

Until August, only five of the disappearing animals had been bountied this year. In August, two males and two females were bountied in Alger County, one female was taken in Gogebic County and one male was killed in Luce County.

'Wait Till Next Year!'

Dodger Rookie in Sensational Debut, Fanning 15 in 3-Hit Shutout of Champs

BROOKLYN (AP) — Karl Spooner today became president by unanimous acclaim of the "wait till next year" club of Brooklyn.

• • •

Spooner is a 23-year-old lefthander who broke into the big leagues yesterday with a record-smashing 15-strikeout performance against the National League champion New York Giants.

"Where's this bum been?" asked the Ebbets Field faithful who watched the Fort Worth farm product hold the new champs to three singles for a 3-0 victory.

"He's the fastest boy around," declared Roy Campanella, rubbing his hand after catching the new phenom for nine innings. "Nobody throws harder."

Campy made no effort to restrain his enthusiasm.

"He's the greatest young pitcher I've ever seen. I couldn't believe it—and buddy, I put him to the test."

Spooner's purchase from the Dodgers' Texas League farm was a note buried in the Dodger obituaries Monday night when the Giants clinched the pennant. He won 21 and lost 9 in the regular season and had a 2-1 playoff mark.

"I intended to pitch him against Pittsburgh," said Manager Walt Alston, but when Billy Loes got a sore arm I didn't have anyone to pitch against the Giants. I asked him if he'd like the chance and he said it didn't make any difference to him—and it didn't."

Spooner took success in stride. He said he didn't know what the previous record was for strikeouts by a rookie in his first game and didn't know he had broken it until the public address announcer told the fans in the ninth when he fanned his 14th man.

The old mark was 13 by Cliff Melton of the Giants in 1937.

Spooner cost the Dodgers $600 in 1950. Scout Gree Muleavy who signed him said the pitcher was recommended by George Hodges, a newspaperman in Oriskany Falls, N.Y., Spooner's home town.

Stengel Says All but Two Yanks on Block

'Case' Indicates Mantle, Berra Only Men Safe From Trading

NEW YORK (AP)—Mickey Mantle and Yogi Berra are safe but the rest of the New York Yankees had better watch their step.

• • •

Casey Stengel listed Mantle and Berra as his non-expendable men yesterday as he signed his fourth 2-year contract to manage the Yanks through 1956.

That doesn't mean the rest of the club is on the block. Most of them, of course, still will be around when it comes time to report for spring training at St. Petersburg.

As Stengel put it, "I would listen on any of the others."

• • •

Casey talked for about an hour at a press conference following the signing, about his plans for strengthening the Yanks next year. He said he still was surprised that he didn't make it six straight although he paid tribute to Cleveland because "they beat us in a good fair way."

"If anybody is interested in any New York Yankee ball players, and I should think they would be," said Stengel, "I suggest they get in touch with Mr. Weiss (General Manager George Weiss). He'll be glad to listen.

Apparently Stengel hasn't appreciated some of the cutting remarks about the failure of the Yanks to come up with enough new players from their farm system.

"The Yankee farm system isn't dead," he said. "We came up with Bob Grim and Bill Skowron this year and we may have two more next year. I would have to say they finally did catch up with us. After five years I find out that I forgot to win 140 games."

Stengel disputed the general impression that shortstop weakness was an important factor in the Yankee defeat.

• • •

"You'd have to say Chico Carrasquel and that Kuenn (Harvey Kuenn) at Detroit are the best in the league," he said. "You wouldn't rate Cleveland's man with them would you? Our fellows made the plays. You couldn't blame it on our shortstop."

Kuenn Gets 200th Hit as Tigers Stop Orioles, 4-1

CLEVELAND (AP) — The Detroit Tigers, with a day off, found themselves with little more to celebrate today than Harvey Kuenn's 200th hit of the season.

Kuenn became the 1st Tiger to collect that many hits in each of his 1st two seasons in action. He rapped out 209 last year.

The big hit came when the Tigers turned back the Baltimore Orioles 4-1 yesterday in the last of a three game series.

The victory left Detroit 1½ games behind the 4th-place Boston Red Sox. Tigers open a final three-game series against the champion Cleveland Indians tomorrow. Boston will meet 6th-place Washington in a four-game series to end the season.

Steve Gromek held the Orioles to four hits yesterday to chalk up his 18th win of the season against 16 losses.

Gromek missed his 5th shutout of the season when Cal Abrams hammered out a 3rd-inning home run to give the Birds a temporary lead.

Kuenn's hit was the only safety the Tigers could scrape up in the 1st five innings against Lou Kretlow. They rapped out two more hits in the 6th without scoring, but pushed across four runs in the 7th to oust Kretlow.

Doubles by Fred Hatfield and Jim Delsing, plus three straight singles gave the Bengals three runs. Bob Wilson hit a two-bagger off reliever Bob Chakales for the final tally.

Kuenn's single, besides making history, gave him a 10-game hitting streak.

Dressen Ready to Return to Major Leagues

Phillies, Nats, Bosox Seen as Possible Spots for Ex-Dodger Pilot

NEW YORK (AP)—Charles (Chuck) Dressen, a two-time winner as pilot of the Brooklyn Dodgers, set up shop today and announced his services as a major league manager were available.

"I've got a job as long as I want it," said Dressen who guided Oakland to the Pacific Coast League playoff title after resigning as Brooklyn manager a year ago. "But I am willing to talk to anybody who offers me sufficient money and a contract longer than one year."

Dressen, who left the Dodgers after being refused a longer contract than one year, said he plans to see three or four club representatives during the World Series regarding a possible job as manager. But he declined repeatedly to name names.

Dressen also stressed he would talk to several clubs regarding four or five Oakland players and, under a little urging, said the Philadelphia Phillies was one of them. But he decined to say if his talk with Owner Bob Carpenter also would include the possibility of his replacing Terry Moore.

Moore, who took over the Phillies from Steve O'Neil in mid-season, recently was quoted that he might return to civilian life next year although he has a verbal contract to manage the Philadelphia club.

Rumors also have the Washington Senators as one of the clubs looking toward Dressen for their 1955 manager.

Lou Boudreau's position as manager of the Boston Red Sox also is considered shaky. And then there are the Philadelphia Athletics, currently managed by Eddie Joost.

Toski Hopes to Boost Winnings

Eyes Title in 'World Series of Golf' Test in Washington, D.C.

By HERB ALTSCHULL

WASHINGTON (AP) — Bob Toski, the little fellow with the big swing, opens a campaign today to build his 1954 golf winnings up to the hefty figure of $73,000.

• • •

The slim pro from Livingstone, N.J., is one of a field of 77 which starts out after prize money totaling $40,000 in the first "World Series of Golf" at the Congressional Country Club.

• • •

One of the newer stars on the golf circuit, Toski was an also-ran in last year's National Celebrities tournament, won by Ted Kroll of New Hartford, N.Y.

The celebrities division, featuring such persons as singer Eddie Fisher, actor Gary Cooper, Gen. Nathan Twining, the Air Force chief of staff, and Gov. Dan Thornton of Colorado, will be played Saturday and Sunday. The winner of the 36-hole event gets a trophy.

Lemon to Hurl as Indians Bid for Record Win

Cleveland Only One Game Short of 111th AL Victory

CLEVELAND (AP) — Now for No. 111 and a new American League record for games won, the Cleveland Indians told one another today, an off-day in their schedule.

In three games with fifth-place Detroit, starting here Friday afternoon, the Indians need gain only one triumph to surpass the biggest winner in American League history—the 1927 Ruth-Gehrig Yankees of New York.

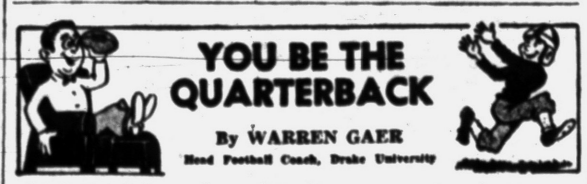

Bob Lemon, probably tuning up to pitch the World Series opener against the New York Giants at the Polo Grounds, will have the honor of getting the first try against the Tigers for No. 111.

Michigan's home games start at 2 p. m., during October, and 1:30 p. m. (EST) during November.

22 Games Listed for Wolverine Cage Team

ANN ARBOR—Michigan's completed 1954-55 basketball schedule will contain 22 contests this winter, including 14 conference and eigth non-conference contests, Coach Bill Perigo has announced.

Wolverines will open with Pittsburgh at home on Dec. 4, with seven non-conference opponents scheduled before the opening of the Big Ten schedule at Indiana, Jan. 3.

Stanford and Oregon have played a scoreless first quarter. Once Stanford marched to the Webfoot six-yard line from its own 22 and lost the ball on downs. Oregon has not threatened, but has a fine passer.

Now Stanford has the ball on its own 44-yard line in the center of the field, as the second quarter opens, first down. Stanford, a slight favorite as a result of an impressive performance the previous week, does not have the same zip today and the charge of the lines is even. In the previous Stanford drive, you completed two passes, one for seven yards and one to a halfback for 13. Stanford gained over the Oregon left tackle, but his replacement stopped you cold.

As Stanford quarterback, rate these plays 1, 2, 3 and 4 for this situation from a T formation:

Fake buck and forward pass to an end going in-an-out 12 yards past the scrimmage line.

Quick opener with fullback carrying inside Oregon right guard.

Quick opener with halfback carrying inside Oregon left tackle.

Screen pass to the right.

(Answer elsewhere on sports page.)

Four Teams, Battling for 4th-Place Series Money, Retain Vital Interest in Majors' Final Standings

By BEN PHLEGAR
Associated Press Sports Writer

On the theory that $750 is still $750, four teams today retained a vital interest in the makeup of the final major league standings.

• • •

The $750 represents the approximate share per player of the World Series money for members of the fourth-place teams in each league. And fourth place still is quite a battle in both leagues.

In the National only a game separates Cincinnati, now in fourth from the fifth-place Philadelphia Phillies. Boston leads Detroit by a game and a half in the American League.

• • •

The Redlegs have just two games left and the Phillies have six to play.

• • •

In Thursday's action the American League champion Cleveland Indians equalled a 27-year-old record for the most games won by beating Chicago 3-1 for their 110th victory. The National League champion New York Giants bowed 3-0 to rookie Karl Spooner of the Brooklyn Dodgers.

The New York Yankees defeated Washington 3-0 with Tommy Byrne winning his third game as the Yanks came up with a triple play, fifth in the majors this season.

Don Mossi, a rookie used mostly in relief, and Al Smith combined their talents in the Cleveland victory. Mossi shut out the White Sox through the first eight innings and Smith drove in two of the three Indian runs with a double in the second inning and a triple in the fourth.

Rumors Fly!

AL Owners' Meeting May Settle A's Fate

PHILADELPHIA (AP)—A meeting of American League owners during the World Series to settle the fate of the bargain-basement Philadelphia Athletics appeared better than an even money bet today.

Out of the maze of rumors surrounding the club there emerged these reasonably clear indications:

1. Roy Mack, operating head of the ball club, still hopes to raise Philadelphia capital and keep the A's in the City of Brotherly Love—but is fast losing hope he can do it.

2. His brother, Earle, and their father, venerable Connie Mack Sr., are as ready as ever to sell the team and get out of baseball.

3. Arnold Johnson, Chicago real estate man, is willing to put cash on the line for the club provided the franchise can be moved to Kansas City.

4. Some opposition may be expressed to shift of the A's franchise—but the anti-move forces could be persuaded to go along with the wishes of the Macks themselves.

• • •

No one in a position to say would verify rumors that an American League owners' meeting had been scheduled sometime during the upcoming World Series. The report had it that the meeting would be held in New York.

• • •

Such a get-together of the owners would be the next step in the sale of the Athletics. At least six clubs would have to approve both the sale and any shift to another city.

Area's Schedule Has Half Dozen Good Contests

Walled Lake and Keego Tilt Pits Old-Time Rivals on Suburban Field

While much of Friday's prep football interest centers on the opening of Pontiac High's home season against neighboring Waterford High, there are a half-dozen other interesting contests on this week's schedule matching Oakland County teams.

Walled Lake and Keego Harbor, rivals of long standing, clash on the Presidents' field. In the "battle of Falcons", Rochester goes to Farmington, while Lake Orion is at Avondale in an early-season test of strength.

Victorious over Milford of the Wayne-Oakland League, Oxford entertains Clawson of the Oakland-B and Cranbrook opens its season against Birmingham on the Maples' gridiron.

Royal Oak plays its opener against a potentially strong Hazel Park outfit.

There is a smattering of league activity on the 30-game area schedule, but most teams withhold conference action for another week.

Wayne - Oakland play gets underway with Clarenceville at Milford and Clarkston at Brighton. Full cards are on tap in the Bi-County and Southern Thumb loops.

Other games involving county teams have Ortonville at Flint Hoover, Berkley at Melvindale, Ferndale at Grosse Pointe, Troy at Romeo, South Lyon at Northville and Madison at Dearborn Roosevelt, while Holly is home to Hartland and Southfield hosts Wilbur Wright of Detroit.

The schedule:

FRIDAY

Waterford at Pontiac; Walled Lake at Keego Harbor; Rochester at Farmington; Clarenceville at Milford; Clarkston at Brighton; Hartland at Holly; South Lyon at Northville; Clawson at Oxford; Troy at Romeo; Lake Orion at Avondale; Madison at Dearborn Roosevelt; Wilbur Wright at Southfield; Berkley at Melvindale; Ferndale at Grosse Pointe; Mt. Clemens at Van Dyke; Roseville at Lake Shore; O.P. St. Paul at Pitzgerald; Lapeer at Flushing; Royal Oak at Hazel Park; Cranbrook at Birmingham; East Dtetoit at Dearborn; Ortonville at Flint Hoover; Sag. St. Peter-Paul at Imlay City; North Branch at Ubly; Utica at South Lake; Eastland at Warren; Lakeview at Center Line; Armada at Almont; New Haven at Brown City; Mmphis at Capac.

SUNDAY

St. Michael at OL St. Mary; St. Frederick at RO St. Mary; St. James at St. Rita; Shrine at Lourdes.

Lane Is Happy Stengel Says

Chicago Official Says Casey May Learn 'How Other Half Lives'

CLEVELAND (AP)—For reasons of his own, Frank Lane, outspoken general manager of the Chicago White Sox, was happy that Casey Stengel was signed to manage the New York Yankees for two more years.

• • •

"Let's see how good Stengel is now," challenged Lane when he heard the news of Casey's retention. "He fancies himself as quite a genius. It's easy to be a genius when you're given all the horses.

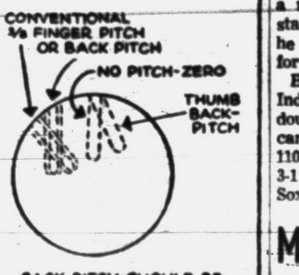

• • •

"Well, a lot of his horses have gone lame. Now he may learn how the other half lives. I'm glad he wasn't fired, as he suggested they do if the Yankees did not win the pennant. They sentenced him to something even worse—to hang around and rebuild his fallen champions."

Bowling Clinic

By BILLY SIXTY
CASE—Thumb Saver.

Back Pitch Popular—If you find your thumb getting sore after only a few games, chances are it's the result of more than a tender skin. Nine times in 10 the ball is pitched too much toward the center of the ball—on the thumb hole.

Friction at release finally brings on a blister, and trying to bowl with a sore thumb takes all the pleasure out of the game. Once the thumb cracks, my advice is to quit bowling until it heals—a week or so.

If you must bowl, just the same, always apply collodion, or court plaster, before each series. But, by all means, try a ball with a zero pitch on the thumb, or possibly a back-pitch, as sketch shows.

Use it either with back-pitched finger-holes as well, or with a quarter or three-eighths regular pitch, whichever feels comfortable. In any case, use a three-fingered ball.

Rocky's Nose Puts Him Out for 3 Months

LOS ANGELES (INS) — Heavyweight champion Rocky Marciano, whose nose was badly split in his bout with Ezzard Charles, will not be able to box for three months.

• • •

His manager Al Weill said that Marciano's physician has warned him not to put the gloves on until the nose has healed. Weill said Rocky will keep up his roadwork during a vacation at Arrowhead Springs, Calif.

Wolverines to Meet Seven Big 10 Rivals

Michigan is playing seven Big Ten opponents this fall for the first time since 1946. The Wolverine conference schedule includes Iowa, Oct. 9; Northwestern, Oct. 16; Minnesota, Oct. 23; Indiana, Oct. 30; Illinois, Nov. 6; Michigan State, Nov. 13, and Ohio State, Nov. 20.

All but Northwestern and Ohio State are home games. In 1946, Fritz Crisler's Maize and Blue outfit won five, lost one and tied one in conference play.

Brown City Men Bag Caribou on Bow Hunting Trip

BROWN CITY—Kenneth Welch, Brown City, and Clifford Coe, Otter Lake, accompanied by Russell and Charles VanWald, Brown City and Detroit, respectively, have returned from hunting caribou in Newfoundland.

They killed four caribou. The smallest was a 12-point, 400 pound; largest was a 27-point, 600 pound animal.

Welch and Coe shot 500 and 600 pound caribou with bows and arrows.

Yesterday's Stars

By The Associated Press

PITCHING — Karl Spooner, Brooklyn Dodgers, 23-year-old southpaw up from Fort Worth in the Texas League, set a record for a rookie pitcher making his first start in the major leagues when he struck out 15 New York Giants for a 3-0 victory.

BATTING — Al Smith, Cleveland Indians, drove in two runs with a double and a triple as the American League champions won their 110th victory of the season with a 3-1 victory over the Chicago White Sox.

Durocher to Abandon 'Swing-Shift' With Tribe

NEW YORK (AP)—Leo Durocher is expected to shelve his swing-shift routine when his New York Giants meet Cleveland's heavily right-handed pitching staff in the World Series.

Although Dusty Rhodes, a left-handed swinger who has clicked time and again as a pinch hitter, normally would be the man to use against righthanders like Bob Lemon, Early Wynn and Mike Garcia, Durocher has indicated he will stick with Monte Irvin, his regular.

"If Irvin can play every day, my bench is stronger," Durocher has explained. Leo hasn't forgotten Irvin's tremendous batting splurge against the New York Yankees in the 1951 series when he collected 11 hits and batted .458 in six games.

* * *

Durocher won't have much chance to work his other infield shifts unless Al Lopez surprises by starting a lefthander. His "Big Three" and Bobby Feller and Art Houtteman, leading candidates for the fourth job, all are righthanders.

In recent weeks, Durocher two-platooned Whitey Lockman and Bobby Hofman at first base. When Lockman started to hit, he remained in the lineup against both kinds of pitching and Hofman divided the third base work with Hank Thompson, Hofman, a righthander, played against lefthanded pitchers.

* * *

No matter who pitches, Wes Westrum will do the catching despite his .183 batting average. Ray Katt will be used only in case of emergency.

After yesterday's shutout by rookie Karl Spooner in Brooklyn, Durocher said he wouldn't name his starting pitcher until Tuesday, the day before the opener. Sal Maglie still looks like the likely opener with solid support for Johnny Antonelli who had a five-inning losing workout against the Dodgers.

* * *

The Giants were to carve up the World Series shares, a pleasant task, at a clubhouse meeting. Although the number of shares now is announced through Commissioner Ford Frick's office, each cut is almost certain to be a new record. With the big Cleveland stadium that can handle as many as 86,000, including standees, and the 55,000 seats in the Polo Grounds, the winning cut may go to $10,000 and the losers' to $8,000.

Durocher has announced there will be no Monday practice at the Polo Grounds. The Giants will drill Tuesday morning for an hour and a half or two hours, starting at 10:30 a.m. (EST). Cleveland then will take over the Polo Grounds for its workout.

'Fishing Derbies' Urged in New England Schools

CONCORD, N. H. (AP) — School "fishing derbies" are being encouraged by Jack F. George, director of physical education for New Hampshire's Department of Education. This is an answer to truant school youngsters who prefer to hook trout rather than answer the 9 a.m. school bell.

Under the "fishing derbies" plan, the youngsters fish from dawn until mid-morning. Then they return to classes and hold a fish fry at lunch hour.

Bars Raised to Pro Scouts at 'M' Press Box

Crisler Says Big 10 Rule Keeps Them Out of Observers' Seats

ANN ARBOR (AP) — Professional football league scouts will be denied press box accommodations at University of Michigan games this year.

Michigan's athletic director, Fritz Crisler, said yesterday the Big Ten conference had ruled against press box seats for pro scouts to "relieve the pressure" on facilities.

Crisler said besides National Football League clubs, Canadian pro outfits had been clamoring for press seats.

* * *

"We'll accommodate any of the professional people," Crisler said. "We'll be glad to have them but not in the press box."

In Detroit, Nick Kerbawy, general manager of the Detroit Lions said:

"We regret what has happened and what appears to be happening, but we plan no reprisals. College scouts will still be welcome in our press box at Briggs stadium. We will let them see our films—and they are in great demand."

* * *

In Philadelphia Tuesday National Football League commissioner Bert Bell criticized Big Ten athletic officials as "isolationists and selfish men."

Criser, however, wrote off the controversy as "a tempest in a teapot."

MSC Annual Host

Michigan State annually hosts the National Collegiate Athletic Association Cross-country championships — inaugurating the event at East Lansing in 1938.

Mays-Doby Comparison Sidelight of World Series

By BEN OLAN

NEW YORK (AP)—The almost certain, capacity crowd which will pack New York's Polo Grounds next Wednesday for the first game of the World Series will be able to compare first hand two of baseball's premier center fielders — Willie Mays of the Giants and Cleveland's Larry Doby.

* * *

Both powerful batters, fleet of foot and with strong throwing arms, Mays and Doby are a cinch to finish up close in the Most Valuable Player awards voting, if not at the head of the class.

* * *

Mays leads the National League with a .346 batting mark. His 41 homers and 110 runs batted in compare favorably with Doby's 32 circuit blows and 124 RBI's.

* * *

Overall, the Giants appear to have the outfield edge, if only for Don Mueller's superiority over Cleveland's right fielders, Dave Philley and Wally Westlake.

* * *

In left field, where Giant Manager Leo Durocher has yet to choose between Dusty Rhodes and Monte Irvin, there's no marked advantage either way over the Indians' Al Smith.

Tony Busy Wolverine

Tony Branoff, Michigan right halfback, played the most of any Wolverine in 1953, a total of 412 minutes, 20 seconds in nine games.

WEDNESDAY'S HOME RUNS

Abrams, Orioles; Cole, Cubs; Ennis, Lopata, Phillies; Thomas, Pirates.

Hazel Park 'Double' Is Record $1,390

Highest daily double payoff of the year at Hazel Park and the 3rd highest of the year in Michigan was paid off at the Hazel Park race course Wednesday when Smooth Palm and Old Frank scored victories in the 1st two races.

Smooth Palm returned $47.40 in the first and Old Frank paid $39.20 in the second for a $1,390.40 daily double.

Earlier in the year, daily doubles of $1,614.20 and $1,392 were paid off at the Detroit Race Course.

Fans Brave Cold, Get Free Race Show

It's seldom in this day and age that you get something for nothing. But a small, but hardy group of racing fans were rewarded Wednesday night at the Pontiac Speedway.

Temperatures in the 40s resulted in a very small turnout for the old model stock races. Acknowledging their loyalty, promoter Don Pike gave them a free show and announced that tickets purchased last night will be honored at next Wednesday's program.

John Ashby of Roseville won the feature and Mickey Griffin of Detroit won a special "powder puff" women's race.

Hawks Lean on Big Cal Jones

By L. E. SKELLEY

IOWA CITY, Iowa (AP)—Iowa is worried about the possible lack of depth in its line for its football opener with Michigan State here Saturday but there is no concern about right guard — big Calvin Jones is ready to go all the way with the effectiveness of a bulldozer. The game will be televised nationally.

• • •

It would take something serious —say a broken leg—to keep the Steubenville, Ohio, junior out of the action he loves so much.

• • •

Jones, a 6-foot, 210-pounder, has a tremendous desire to be a great football player — a stature conference observers say he reached in his sophomore year when he was chosen on The Associated Press Big Ten and All-Western teams.

Highly regarded by his teammates, he is the morale builder among the big fellows up front whose blocking is so essential to the successful operation of the offense.

• • •

A take charge guy, Jones often follows through for Coach Forest Evashevski after the head man has criticized the linemen. Cal will quip:

"Come on you guys, the coach says you are blocking too high. Let's see you do it right."

Jones' fellow workers love the advice because they know he is a football perfectionist. He frankly says, "I want to be All-America."

But there is no boast in his voice.

Jones, believed headed for Ohio State, made a late switch in his plans and came to Iowa in 1952 with his high school buddies, Eddie Vincent and Frank Gilliam.

The Steubenville trio were regulars from the start of the 1953 season, one of the few times in Iowa history that three lads from the same city made the varsity in their sophomore season.

Nephew Makes Good

SACRAMENTO (AP)—Al Cicotte, nephew of famed pitcher, Eddie Cicotte, is cutting some impressive capers on the mound for Sacramento. His first four victories included 1-hit and 2-hit shutouts.

Babe Picks Self to Win Ardmore

But There'll Be Some Tough Opposition in Classy Field

ARDMORE, Okla. (AP)—A classy field of women golfers featuring such standouts as Babe Zaharias, Patty Berg, Betsy Rawls, Louise Suggs and Marlene Bauer teed off today in an inaugural round of the Women's Ardmore Open.

The celebrated Babe, low scorer of the touring lady professionals, took the occasion to say she was going to win.

"I don't see any way I can keep from it," she confided. "This is a fine course. Looks almost like a park. I'll get the ball in the hole somehow. I don't see any reason I can't beat them all."

Her competition will come from a select field of 28, including eight amateurs, 15 of whom are capable of turning the Dhorniek Hills Country Club event into a complete surprise.

Pontiac Sprint Car Drivers in Saginaw Test

Cars from a 4-state area, including 4 from Pontiac and vicinity, will be entered in Sunday's 100-lap sprint car race at the Saginaw Fairgrounds track. The race is being held under the sanction of the Sprint Car Racing Association.

Three Muncie, Ind., drivers, Tom Cherry, Red Amick and Wayne Alspaugh, are among the entries. Each has won a feature at Saginaw this season. Other outstanding out-state drivers listed are Billy Earl of Indianapolis; Shorty Fitzgerald of New Lexington, O.; Paul Craven of Chicago and Bob Carpenter of Wabash, Ind.

Pontiac area will be represented by Jack Mitchell, Abe Cutean, Lloyd Stevens, all of Pontiac, and Max Peacock of Clarkston. Peacock has won main events at North Branch, Traverse City and Ludington and is rated a top contender.

Over 40 big cars are expected to attempt to qualify. Race starts at 2:30 p.m. over the half-mile oval.

Ex-Coaches Return

Two Michigan State football opponents in 1954 are coached by former Spartan assistants — Iowa by Forest Evashevski and Washington State by Al Kircher.

No Lack of Quarterbacks for State in Iowa Game

EAST LANSING (AP) — Michigan State will be well stocked with quarterbacks for the Iowa football game Saturday.

Sometimes a coach feels he has too many quarterbacks—downtown quarterbacks, Monday morning quarterbacks. . .

But the Iowa trip presents a little different problem.

Only 38 men are allowed on the Big Ten traveling rosters, expected to be announced by Michigan State Friday.

The general rule of the thumb is to take three men at each position. The most likely spares are the utility linesmen or backs who can play several positions.

Coach Duffy Daugherty can be expected to name at least four quarterbacks.

Number one and number two choices are Earl Morrall of Muskegon, a junior, and Johnny Matsock of Detroit, a senior. Probable number three and four picks are Clarence Peaks of Flint and Pat Wilson of Lapeer, both sophomores.

Michigan State scheduled its last workout on home grounds, a brief limbering up, for this afternoon. The squad flies by chartered plane to Iowa Friday afternoon.

The MSC marching band also will make the trip.

It's Time Out!

"Round 15, fans, and we're watching two very tired fighters!"

Family Champions

TORONTO (AP) — Garth Boesch, former ace defenseman with the Toronto Maple Leafs in the National Hockey League, is also highly skillful as a trapshooter. He was a big winner in the Canadian Provincial Trapshooting competition. And Mrs. Boesch, equally adept with a gun, won the women's singles title.

NL's Giles Will Rule on Redlegs' Protest

MILWAUKEE (AP)—The National League front office was expected to rule today on the protest of one of the most abrupt game endings in many a baseball season.

The decision, made yesterday by the four umpires working the game between Cincinnati and Milwaukee, gave the Braves a 3-1 victory. But Redleg Manager Birdie Tebbetts entered a formal protest that the ruling which deprived his club of at least one run in the ninth inning was too severe.

The situation was this:

The Braves had a 3-1 lead and Warren Spahn had taken over the Milwaukee pitching in the ninth. Gus Bell drew a leadoff walk and, after Ted Klusewski popped to catcher Del Crandall, Wally Post also walked.

Pinch-hitter Bob Borkowski had a 2-2 count when Spahn threw one into the dirt. Borkowski swung, missed and started running for first base when the wild pitch eluded Crandall. Bell at the same time took off for third, but Post held on at first.

Crandall retrieved the ball and fired to Eddie Mathews in a vain attempt to catch Bell, and Mathews immediately relayed the throw to first. The ball hit Borkowski in the back, bounced into right field and both Bell and Post crossed the plate with the apparent tying runs.

The Braves set up a howl. Plate Umpire Hal Dixon and his colleagues — Al Barlick, Bill Jackowski and Lee Ballanfant — held a conference in the middle of the infield and, after 18 minutes, came up with this ruling:

The game was over, Borkowski struck out for the second out. With first and second base occupied, he was not entitled to run on the missed third strike and, when he did, interfered with the progress of play. As a penalty for "drawing (Mathews') throw" by his illegal presence on the baseline, Cincinnati's lead base runner (Bell) was called out for the third out.

Should League President Warren Giles uphold Tebbetts' protest, the game would have to be replayed today, the only open date left for both teams.

Top U.S. Linksmen in Celebrities Test

WASHINGTON (INS) — Eighty-four top U.S. golfers tee off today in the 1st round of the 72-hole $40,000 National Celebrities Open at the Congressional Country Club.

A favorite to cop the $8,000 1st prize is diminutive Bobby Toski, who leads the tournament pros with $65,240 earned so far this year.

In yesterday's practice rounds, Frank Stranahan, who is making his professional debut, fired a 66, five under par. This was the low card.

Head football coach Hugh Duffy Daugherty of Michigan State was captain of the 1939 Syracuse team that played in the Orange Bowl.

Sawchuk Looks Good in Wings Early Workouts

SAULT STE. MARIE (AP)—Goalie Terry Sawchuk looks sure, steady and confident during workouts in the Detroit Red Wings' training camp.

This is a complete change from last year at this time, when Sawchuck was quiet, grim and determined.

Last season Sawchuk had a mission: He had to prove to his teammates, and to himself, that he could stand up under pressure. Sawchuk had cracked badly in the 1953 playoffs and the Red Wings were eliminated in a stunning upset.

Sawchuck took that blame but vowed it wouldn't happen again. It hasn't.

Sawchuk was brilliant throughout the 1953-54 season, missing by a single goal of being the No. 1 netminder in the league.

Sam H. Harris, successful Broadway theatrical producer. One of his most successful charges was Terry McGovern who won both the bantamweight and featherweight titles.

Carter Decisions Herman, Eyes Crack at DeMarco

SAN FRANCISCO (AP)—Pug-nosed Jimmy Carter, bolstered with another rugged victory, today fixed his sights on the elusive lightweight crown he lost last March. And he offered a fervent prayer that he wouldn't draw a third postponement of his title rematch with champion Paddy DeMarco, a fellow New Yorker.

• • •

Carter belted out a 10-round unanimous decision over Freddie (Babe) Herman in a nationally televised fight last night. Only 800 fans paying $1,241.58 gross turned up in the 16,000 seat Cow Palace.

Herman, a Los Angeles Mexican who absorbs punishment like a sponge, was drafted from his New Orleans training camp as a substitute for DeMarco, who hurt an elbow. Herman had fought a draw with Carter in 1952.

The Carter-DeMarco title bout now is scheduled Nov. 17 at the Cow Palace.

Carter weighed 137 and Herman 140.

The New York Negro won convincingly but had to go all the way against an opponent who stood up like a pillar under flailing barrages. Carter dropped Herman in the first round but Babe was up without a count.

• • •

"I was primed for my title match with DeMarco and couldn't take a chance with Herman," Carter said. "Any slipup could have cost me everything for the championship bout."

Final Period Goals Win for Wings' Six

SAULT STE. MARIE (AP) — The Detroit Red Wings tallied twice in the final period last night to defeat the Edmonton Flyers 3-1 in an exhibition game.

Marty Pvelich broke a 1-1 deadlock at 10:25 of the third period.

The win gave Detroit possession of the Sault series trophy for the 5th consecutive year.

Michigan Off to Coast for Opening Clash

Oosterbaan's Eleven Takes Plane Today to Seattle, Wash.

ANN ARBOR (AP)—Michigan coach Bennie Oosterbaan sent his Wolverines aboard a plane today, bound for Seattle and the great unknown of the 1954 football season.

They play the University of Washington there Saturday in Michigan's first opening game away from home since 1948.

Oosterbaan will have to do without the help of two top flight players. An injury jinx which seemed to be taking a holiday came back home with a vengeance.

Fred Baer, No. 2 choice at fullback and destined to see much play was out with a pulled leg muscle and wouldn't be available Saturday.

• • •

Dave Hill, converted from left halfback to fullback in spring practice and back to left halfback again, was playing fullback in Baer's place.

Earlier, Jim Bates, 1st string center by virtue of his defensive ability, was struck down by pneumonia. He's better but it's not known when he'll be available.

Wolverines boarded their chartered plane at eight this morning. They are scheduled to arrive in Seattle about 3 p.m. Washington time.

Oosterbaan hopes to get in at least two workouts for his 38 players before the game time Saturday.

You Be the Quarterback

(Answer)

4. Screen pass. No! This should be set up before you use it. Screen pass works when long pass success has ends rushing hard.

3. Halfback quick opener. Perhaps better to stay away from here for a while. The hole is apparently plugged.

2. Fake buck and pass. An occasional pass on first down is good strategy. Position on field would warrant such a play.

1. Fullback quick opener. Best bet. You have moved the ball once. Why not try it again?

Waterford Sets Sanitation Rules

Township Board OKs Ordinance to Regulate Septic Installations

WATERFORD TOWNSHIP — An ordinance to regulate sanitation in Waterford Township was approved by the Township Board at a meeting this week.

The measure calls for minimum sanitary facilities, provides for inspection, and sets up permit fees. It specifies rules for private septic tanks and their connection to public sewers and water wells.

According to the ordinance, existing septic systems not conforming to the new requirements must be altered whenever possible.

In other action, the board approved Calvin Warner as an active volunteer fireman and Edward Allen and Ronald Ruffatto as probationary volunteers.

Two plats—Crescent Lake Woods at Crescent and Elizabeth Lake Rds. and Holiday Farms No. 3 at Pontiac and Crescent Lake Rds.—were approved. A resolution to continue sharing half the cost of school crossing guards with the school board also passed.

North Building Halted by City Commission

ROYAL OAK — The construction of water mains and new homes in the northern area of the city designated as critical water area will not be permitted before Oct. 1, 1955, the City Commission has decided.

This includes the area north of the Twelve Mile Road, west of the Grand Trunk and Western Railroad Co. tracks, north of Webster Road and east of the railroad.

Water was to have been supplied for the area by the South Oakland County Water Authority by Oct. 1, but this date has now been advanced one year by the Authority.

County Deaths

Mrs. Carrie E. Johnson

UTICA—Service for Mrs. Carrie E. Johnson, 79, of 3645 Ravenswood Rd., Marysville, will be at 2 p.m. Friday at the Schwarzkoff-Milliken Funeral Home, with burial in Utica Cemetery. She died Tuesday.

Linda Joan Miller

UTICA—Service for Linda Joan Miller, four-year-old daughter of Mr. and Mrs. Edgar O. Miller, 16630 Kingston St., Frazer, were held at 2 p.m. today at the Schwarzkoff-Milliken Funeral Home, Utica, with burial in White Chapel Memorial Cemetery, Birmingham. She died Monday.

James L. Losche

DRAYTON PLAINS — Service for James Lee Losche, 81, a former resident, will be held at 2 p.m. Friday at the Coats Funeral Home, with burial in Drayton Plains Cemetery. He died Wednesday.

Surviving are his widow, Marie, and stepchildren Mrs. Esther Sage of Clarkston, Clayton Soncrainte, and Dr. Kenneth Soncrainte of Waterford Township.

Elwood H. Bowdlear

HUNTINGTON WOODS—Service for Elwood H. Bowdlear, 54, of 13124 Winchester Ave., will be 3 p.m. Friday at Spiller Funeral Home, with burial in Acacia Cemetery. He died Tuesday at his home.

Mrs. Helen Reiter

FERNDALE — Rosary for Mrs. Helen Reiter, 50, of 1526 Marshall Ave. will be recited at 8 p. m. Thursday and prayer service at 8:30 a.m. Friday, at Spaulding and Son Funeral Home. Requiem Mass will be at 9 a.m. at St. James Church with burial in Mt. Olivet Cemetery. She died Wednesday at her home.

Man, 22, Is Arrested on Impersonation Charge

Raymond R. Stearle, 22, of 3052 Garden Ct., was arrested last night by Pontiac Police on a charge that he impersonated a police officer.

Dets. Richard Evans and James LaPonsie said Stearle became involved in a dispute with a group of youths on Joslyn Ave. yesterday and pulled out a deputy sheriff's badge which they claim he was not authorized to carry.

U.S. Disposing of More Butter Than It Buys Up

NEW YORK (UP) — Secretary of Agriculture Ezra T. Benson says the government has stopped accumulating butter under the 75 per cent of parity support price for dairy products.

The government now is disposing of more butter than it buys under the support program, he said, and in August distributed 24 million pounds while buying only 17 million pounds.

* * *

If dairy support prices had been raised to 80 per cent of parity, the secretary said, it would have cost the government up to 150 million dollars, reduced butter consumption and given "windfall profits" to persons with butter in storage.

Benson gave his views on the butter situation yesterday at a news conference.

"The answer is to expand consumption and let the industry stand on its own feet," he said.

Steelworkers Stay With CIO

Delegates to Convention Hear USU Chief Ask for Labor 'Unity'

ATLANTIC CITY, N.J. (UP)—The United Steelworkers Union today decided to stay in the parent CIO and called for all American labor groups to join in immediate "organic unity."

Some 3,000 delegates to the USW biennial convention cheered as David J. McDonald, president of the 1,200,000-member union, declared he had no intention of leading them out of the CIO.

Then they quickly adopted a McDonald approved resolution empowering USW officials "to take whatever action may be required in order to achieve honorable organic unity" with other unions.

It wasn't immediately clear whether the union—second largest in the CIO—thereby was calling for all unions to combine into one giant labor organization.

Although the resolution indicated such a move, McDonald didn't put it that way, and aides said they didn't think that was the intent. McDonald himself went into a private conference after his hour-long speech and couldn't be reached immediately.

"We are going to get complete immediate organic unity," McDonald told the delegates. "Talk about waiting around for a year or two for organic unity is pure unadulterated bunk."

The resolution itself said "the division that exists in the American labor movement is no longer justified" and said "it is not necessary to wait for the indefinite future to achieve unity.

The convention action drew a prompt response from Secretary of Labor Mitchell, who spoke shortly afterward.

Departing from his prepared text, Mitchell said organic unity between the AFL and CIO would be "good for American industry and good for America."

In his speech, McDonald said at the outset that he had no thought of asking the union to leave the CIO.

He discounted reports of a conflict with CIO president Walter Reuther and called newspaper stories about a possible withdrawal "figments of their imagination."

Freedom Is Sought by Purple Gangster

SAN FRANCISCO (UP)—Basil (The Owl) Banghart, prohibition mobster of the Detroit Purple Gang, was returned to Alcatraz after submitting a petition for release from prison in the federal court yesterday.

Judge Edward P. Murphy took the petition under consideration.

Banghart contended he was being held on "The Rock" illegally since his good behavior record made him eligible for release in June. He was sent there in 1942 and has never been off until yesterday.

* * *

Government attorneys said Banghart's leadership of a strike of prison kitchen workers in 1952 cost him a fine of one year of "good time." Banghart denied taking part in the strike. He was convicted in 1933 for a $100,000 mail robbery in North Carolina and was sentenced to 31 years.

Extension Club Elects

WHITE LAKE — Mrs. Clarence De Armond has been elected secretary-treasurer of the White Lake Home Extension Club. Mrs. Chester Brendel was named vice-secretary.

Roosevelt Wins Spot on Ticket

New York Democrats Hail Attorney General Choice as Party Boon

NEW YORK (UP)—Democrats today hailed the nomination of Rep. Franklin D. Roosevelt Jr. for state attorney general and predicted he would give their ticket a big lift in the Nov. 2 election.

The son of the late President, defeated by Averell Harriman for the gubernatorial nomination, accepted the third slot on the slate yesterday and was nominated unanimously last night in the finale of the two-day convention.

* * *

Both Roosevelt, 40, and Harriman, 62, received rounds of applause when they posed together for cameramen.

One Democrat, who asked not to be identified, said Roosevelt's decision to take a subordinate place on the ticket — he declined to accept nomination for lieutenant governor — was a smart move.

* * *

The lieutenant governorship is a comparatively inactive "vice presidential" post but the attorney general has a chance to keep in the public eye with drives against crime.

If the Democrats lose, the Democrat said, Roosevelt cannot be blamed. If they win, he added, Roosevelt can claim that he was materially responsible for the victory.

Roosevelt must decline his nomination as a candidate for reelection as Democrat-Liberal representative from the 20th Congressional District.

3 Juveniles Held on Breakin Charge

Three West Bloomfield Township juveniles are in Oakland County Juvenile Home on charges that they broke into a home yesterday at 4869 Grand Ct., Cass Lake.

One of the three was caught as he fled the home by the owner, Kenneth Hersh who told Michigan State Trooper William Dreger that he heard the youths as they climbed up an outside chimney, and waited for them to enter the home before he surprised them.

The boy caught by Hersh surrendered $2.90 in change reportedly taken from Hersh's kitchen, and implicated two others. All three are 15 years old, police said.

Professor Appointed

DETROIT (UP) — Dr. Vlado A. Getting, professor in the University of Michigan School of Public Health, has been appointed a planning executive of the United Community Services of metropolitan Detroit.

Barber Gets Trimmed When Indians Homer

COLUMBUS, Ohio (UP) — Barber Jack Powell, a Cleveland Indian fan, takes a "trimming" whenever his favorite team makes a homer in an afternoon game.

Powell agreed early in the season to give a free haircut to anyone in his barber chair when an Indian clouted a four-bagger.

So far this season the Indians have cost him $40 in haircuts.

Gas Producers Fighting Freeze

Independents Charge FPC Price Order Is Illegal

WASHINGTON (UP)—Lawyers for independent natural gas producers told the Federal Power Commission (FPC) yesterday that its order freezing producers' prices is illegal and might "wreak havoc" in the industry.

Before several hundred lawyers and industry officials in a crowded government auditorium the commission listened to arguments against its order freezing as of June 7 the prices at which independent producers sell gas to interstate pipe lines.

The order resulted from the Supreme Court decision in the Phillips Petroleum Co. case that such sales are subject to the commission's jurisdiction. Specifically, the arguments concerned petitions by more than 100 independents for a rehearing on commission order 174 of Aug. 6 which expanded a July 16 order carrying out the Phillips ruling.

Rex G. Baker, counsel for the Humble Refining Co., Houston, Tex., termed 174-A "invalid" and asked the commission to "write a valid and workable order."

Alluding to the fact that the FPC for years held it didn't have authority to regulate independent producers he said:

"You did not seek the authority which has been thrust upon you by the Supreme Court."

But once the court ordered the commission to regulate the producers, Baker made it clear he thought the commission had gone beyond the scope of the ruling.

PTA Plan Committee Names Five Officers

WATERFORD TOWNSHIP—The all-township PTA Program Planning Committee this week elected the following officers:

Mrs. Lyle Crowley, Lambert School, chairman; Mrs. Richard Raber, Stringham, co-chairman; Mrs. George Bailey, Waterford, treasurer; Mrs. Francis Davis, Drayton Plains, secretary; Mrs. Eldon Rosegart, Williams Lake, publicity.

Next workshop is set for Oct. 18 in the high school.

State Intervenes in School Row

Showdown Set Tonight Over Desegregation in Milford, Del.

WILMINGTON, Del. (UP) — The segregation problems of the Milford Twp. school board will be discussed tonight in a showdown meeting with the State Board of Education.

The Milford board announced last night that the community's two schools would reopen on Monday without segregation and threatened to resign if the state board overrules it.

The announcement followed a meeting of the board with Gov. J. Caleb Boggs and Atty. Gen. H. Albert Young.

The Milford schools were closed last Monday after threats of violence unless white and Negro high school children were provided with separate facilities as in past years.

Young conceded the Milford board was "within its rights" in admitting Negroes to the white schools but added that the state board would have the final say.

Young said the state board would determine the methods of integration in conformity with a recent Supreme Court decision outlawing segregation. But the Milford board said it will resign in a body if its decision to open the schools to all pupils on Monday is not upheld.

At the previously all-white Lakeview high school, eleven Negroes registered with 676 white pupils last Sept. 7. Following a meeting Sunday attended by some 1,500 of the town's 5,700 residents, the board decided to close the Lakeview school and also the all-Negro elementary school.

Brothers in Court on Fraud Charges

Two Pontiac brothers, charged with obtaining money under false pretenses, were bound over to Oakland County Circuit Court yesterday for arraignment Sept. 27.

Samuel Bowman, 29, of 210 Franklin Blvd., and his brother, Bennie, 25, of 331 S. Blvd. W., are accused of using another brother's identification to obtain money from the Michigan Employment Security.

The other brother, Lee Bowman, 27, of 262 Branch St., in Oakland County Jail on two traffic warrants, gave his papers to his brothers, police said.

Judge Maurice E. Finnegan bound both men to circuit court and set bond at $100 each, which they were unable to meet. They are now in Oakland County Jail awaiting arraignment.

Surveyed in 1766, the Mason-Dixon line is still looked upon as the traditional boundary between the north and south areas of the United States.

Lansing TV Switched

WASHINGTON (UP) — The Federal Communications Commission Wednesday authorized Lansing Broadcasting Co. to assign its construction permit for station WILS-TV, Lansing, Mich., to Inland Broadcasting Co. Inland, headed by Thomas B. Shull, proposes to lease the station for two years with an option to buy the equipment for about $166,000.

Take a look at the car

This is the beauty that's soaring to new success this year. This is the tomorrow-styled Buick that has record-high V8 power, big-car roominess, the solid comfort of the famed Million Dollar Ride, and sports-car response. Is it any wonder that Buick today—*regardless of price class*—outsells all other cars in America except *two* of the "low-price three"?

Take a look at the price

Only **$2206.88*** delivered locally!

*2-door, 6-passenger SPECIAL Sedan, Model 46D, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice. Even the factory-installed extras you may want are bargains, such as: heater & defroster . . . only $81.70.

Take a look ahead

No Wonder — **Buick Sales are Soaring!**

The fact is, for just a few dollars more than you'd pay for one of the so-called "low-price three," you get in Buick a whale of a lot more automobile—more room, more comfort, more ride steadiness, more V8 power. And that "more automobile for your money" goes for every Buick in the line—the low-priced SPECIAL, the high-powered CENTURY, the extra-spacious SUPER, and the custom-built ROADMASTER. And the proof is in Buick's booming sales figures!

You want a car that will keep its style in the years ahead, and return more dollars when you sell it. That's today's Buick—for with the year-ahead styling that graces this winner—and with all the solid value built into this great automobile—you're bound to command a higher resale price when you sell it. Drop in—look over this beautiful buy—and learn the clincher: With our tremendous volume right now, we can offer you the top allowance on your present car. So you're way ahead on all counts!

Bonnie Heather Is Useful, Too

Flowering Shrub Plays Big Role in Scotland's Economic Life

WASHINGTON — For centuries the bonnie heather of the Highlands has flavored songs, poems and folklore of the Scots.

When Britain's former Prime Minister Clement Attlee visited the United States, he wore a sprig as a boutonniere. The late Sir Harry Lauder often sang of the heather of his homeland.

Lasses fashion bouquets of the bell-shaped blossoms. Bits of "the stuff" are pressed in books as souvenirs or mailed in letters to absent friends or kinsmen. Highlanders in distant lands long for a sight of Scotland "when the bloom is on the heather."

But aside from beauty and sentiment, heather has had an important economic influence on Scotsmen's lives, says the National Geographic Society.

When timber was scarce, tenant farmers mixed the coarse, reed-like stalks with mud to build cabin and barn walls. They thatched roofs with bundles of the finer stems. Housewives still fashion heather into brooms and brushes, weave baskets and stuff mattresses with it.

Recent British experiments with heather fiber produced a lumber substitute sometimes superior to wood. The plants are dried and pulverized, then beaten into a paste and modeled into flat slabs or other shapes.

Heather is a hardy evergreen. It grows in the acid soils of peat bogs and on steep hillsides too poor to support grasses and crops. Its botanical name, Calluna vulgaris, means "low shrub." The British call it the "poverty plant."

The 12 or 14 varieties found in Scotland sprout flowers ranging from a rich purple to pure white. White heather brings good luck, according to an ancient superstition.

Sign Explains Clean Car

SPRINGFIELD, Mo. (AP) — The drought has been so tough that the water company urged residents not to wash their cars. Then along comes this car, gleaming clean, with a sign on the back: "This car is river washed."

Daughter of Eve Devotes Her Life to Snake Study

WASHINGTON — **Along one of the less traveled corridors of the** tourist-haunted National Museum in Washington is a series of rooms occupied by 40,000 snakes—and a woman.

The snakes are scientific specimens, preserved in alcohol. The woman is Dr. Dros Mable Cochran, associate courator of the museum's division of reptiles and amphibians, and a world authority on snakes, frogs and lizards.

Dr. Cochran sees nothing odd about such a profession for a daughter of Eve.

The fear and loathing that many people have for snakes, says Dr. Cochran, comes from lack of knowledge concerning their characteristics and often genuine usefulness.

It is natural to be afraid of a crawling creature that is secretive in its habits, and moreover is associated with the Biblical snake of the Garden of Eden, and with an evil role in symbolism and superstition through the ages.

Mild Dr. Cochran, with 35 years of experience behind her, does not discount the harm done by venomous snakes. She knows that many thousands of persons die every year from bites by rattlers, copperheads, cobras and other serpents throughout the world.

During World War II one of her studies on coping with dangerous reptiles was distributed to the armed forces by thousands of copies.

Dr. Cochran has, however, a kind word for helpful snakes—the blacksnake, corn and bull snakes that destroy disease-carrying, crop-eating mice, rats and gophers.

Was she ever bitten? "Oh yes, a few times", she says. "But not seriously or by extremely poisonous snakes. Professionals should not be that careless."

Once, she recalls, she was at Washington's zoo to examine virulent pit vipers from Okinawa. Suddenly, one of them slipped to the ground and started toward her. She "froze," and the reptile slithered safely past her unprotected ankles.

It was a talent for drawing natural history subjects that led to Dr. Cochran's choice of professions. She was still a college undergraduate when she took her first job as scientific aide at the National Museum, a branch of the Smithsonian Institution.

Becoming interested in reptiles, she remained there while going on with academic studies that eventually won her an M.S. and Ph.D.

In the museum's huge collection of snakes, coiled in glass jars along row after row of shelves, are specimens of all sizes and from all over the world. Some are more than a hundred years old.

New ones are constantly coming in. Medical-research parties, working from Egypt to the South Pacific, send many to learn what snakes are hosts to disease-bearing ticks or mites.

"Fortunately just about all the specimens we receive are dead," she explains. "When you have to measure minute dimensions and count every scale, it is a little easier not to have a squirming subject."

Nerve of Some People!

LANSING, Mich. (AP) — While robbing a supermarket safe of $3,000, burglars thought of their comfort. They drank beer and whiskey and kept a fan running.

Talk Wasn't Cheap for Bitter Husband

OWOSSO (AP)—Each time John Penyiska opened his mouth in Circuit Court it cost him 30 days in jail. The judge told him to pay his ex-wife, Sally, back alimony or serve 30 days in jail.

Penyiska said he'd take the days and protested when the judge told him time in jail wouldn't wipe out the debt.

"Maybe 60 days would be better," the judge suggested to the bitterly protesting Penyiska.

"Make it 90 as long as I'm going to jail," Penyiska said.

The judge did.

Ride Range in Airplane

BUTTE, Mont. (AP) — Deerlodge National Forest rangers found the going too rough when they tried to round up stray horses on forest land so they hired an airplane to spot the animals.

The pilot kept radio contact with the rangers on horseback and told them where the strays were located.

Grains Lower in Routine Trade

CHICAGO (AP)—Mild selling pressure sufficed to send grains lower in routine dealings on the Board of Trade today.

Wheat again was a target for the liquidation, based in part on reports some red wheat was coming to Chicago from Indiana and Ohio. Demand for soft red wheat east of Chicago was said to be extremely dull with the price at Toledo around 14 cents under the Chicago December future.

Soybeans could not repeat the independent strength they showed yesterday. Skies were clear over the main belt this morning, which should speed up harvesting. Cash bean receipts at Chicago totaled 258 cars.

Wheat near the end of the first hour was ⅝ to ⅞ lower, December $2.15⅝, corn ⅜ to ½ lower, December $1.51¾, oats ½ to ¾ lower, December 77⅛, rye ⅜ to ¾ lower, December $1.40, soybeans ¼ to 1 cent lower, November $2.69 and lard 15 to 38 cents a hundred pounds lower, October $14.62.

Grain Prices

CHICAGO GRAIN

DETROIT EGGS

DETROIT (AP)—Eggs, f. o. b. Detroit, cases included, federal state grades:

Whites—Grade A, jumbo 57-60, td avg. 57; large 53-54, wtd. avg. 53½; medium 39-33, wtd. avg. 41½; small 22-23 wtd. avg. 22¾; grade B large 44-49, wtd avg 47½; peewees 16-18, mostly 18.

Browns—Grade A, jumbo 53; large 51-52, wtd. avg. 51½; medium 32; small 22; grade B, large 48; grade C, large 46 peewees 18.

Checks 22.

Comment: Market firm, large in just fair supply but demand tempered by rapidly advancing prices. Mediums continue in relatively heavy supply but demand is good and dealers not anxious to hold stock back. Smalls in short supply to a good demand as receipts are light.

CHICAGO BUTTER AND EGGS

CHICAGO (AP)—Butter firm; receipts 648,564; wholesale buying prices unchanged to ¼ higher; 93 score AA 58.5; 92 A 58.75; 90 B 56.75; 89 C 55; cars: 90 B 57.25; 89 C 55.5.

Eggs steady to firm; receipts 9,313; wholesale buying prices unchanged to 2 higher; U.S. large whites 52; mixed 50; U.S. mediums 39.5; U.S. standards 50; current receipts 29; checks and dirties 21.

CHICAGO POTATOES

CHICAGO (AP)—Potatoes: Arrivals 77; on track 263; total U. S. shipments 360; supplies moderate; demand for Russets fair at slightly higher prices; market firm to slightly stronger; demand for Pontiacs fair with market fairly steady to slightly weaker; Washington Russets 3.00-3.25; Wisconsin Pontiacs 2.00-2.65; Minnesota and North Dakota Red River Valley Pontiacs 3.00.

Poultry

DETROIT POULTRY

DETROIT (AP)—Prices paid per pound f. o. b. Detroit for No. 1 quality live poultry up to 10 a.m.

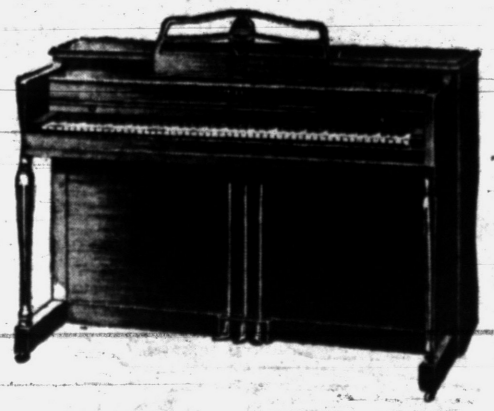

Heavy hens 16-20; light type 12-14; heavy roasters (over 4 lbs.) 26½-28; heavy broilers or fryers (2½-3½ lbs); Gray Crosses 30-31½; Barred Rocks 31-32½. Light broilers or fryers 19; caponettes (4-5½ lbs.) 35-36; ducklings 30; heavy ducks 23; breeder turkeys, young heavy type hens 30-32; toms 26-27.

Comment: Market about steady. Receipts lighter and overall trading slower. Supplies of hens excessive especially light type hens with supplies being processed and moved into storage. Fryers are to heavy price-wise and receipts are moving slow as they are mostly small sizes and poor quality.

CHICAGO POULTRY

CHICAGO (AP)—Live poultry steady; receipts 997 coops (yesterday 835 coops; 179,887 lbs); f.o.b. paying prices unchanged; heavy hens 15-19.5; light hens 13.5-13.5; fryers or broilers 27-31; old roosters 12.5-13; caponettes 33-34.

Mart Advances Again This Noon

NEW YORK (AP) — For the third straight session, the stock market today advanced in early moderate trading.

The push ahead was general with gains running to around a point at the outside. Many leading issues remained unchanged. Losses were small.

Airlines and oils, which were outstanding in yesterday's market, were in demand today at unchanged to higher prices.

Among divisions showing the more pronounced gains were steels, railroads, motors, coppers, chemicals, and aircrafts, as well as the oils and airlines.

Higher stocks included Union Oil of California, Northern Pacific, Kennecott Copper, Du Pont, Armco Steel, General Motors, Douglas Aircraft, and Radio Corp.

News in Brief

Leon L. Adams, 35, of 335 W. Huron St., paid $10 costs yesterday when he pleaded guilty to possession of stolen property before Pontiac Judge Maurice E. Finnegan. Adams, took parts from a Cadillac Sept. 11, and was using it on his car when arrested, according to members of the Pontiac Police auto squad. He was also ordered to pay $50 costs to the owner for the stolen auto accessory, and released.

Cecille Cloonan, 127 Henderson St., reported to Pontiac Police some one stole three flower pots worth $25 from her front porch yesterday.

Charles Taylor, 302 Mt. Clemens St. reported to Pontiac Police Wednesday the theft of his bicycle from in front of the Boys' Club on Pike St. The bike was valued at $60.

Nick J. Francis, 34, of Allen Park, involved in an auto accident Sept. 4, pleaded guilty to reckless driving Wednesday when he appeared before Pontiac Judge Maurice E. Finnegan. He paid a $75 fine in lieu of spending 30 days in jail.

GM Will Enlarge Vauxhall of England

LONDON (AP)—An expansion program totaling 100 million dollars over the next five years for Vauxhall Motors, Ltd., General Motors Corp. subsidiary, was announced today by Harlow H. Curtice, GM president.

The program is designed to double Vauxhall's exports of cars and trucks in the world market, said Curtice who is on a tour of General Motors plants abroad.

Curtice declared Britain's automotive production now is running at the rate of about one million vehicles a year. He added that indications are the American market will absorb approximately six million cars and trucks this year for the third best year in its history.

Argus Declares Dividend

ANN ARBOR—The board of directors of Argus Cameras, Inc., Wednesday declared a quarterly dividend of 20 cents a share on common stock payable Oct. 15, 1954 to stockholders of record Oct. 5, 1954. The board said that earnings per share of common stock for the fiscal year ended July 31, reached a record high of $3.04.

RALPH C. MORLEY JR.

Business Notes:

Utility Elects Saginaw Man

R. C. Morley Is Named Director of Consumers; Dividends Declared

Ralph C. Morley, Jr., president of Morley Brothers, wholesale and retail hardware company of Saginaw, was elected a director of Consumers Power Company at a meeting of the company's board in Flint Thursday. He succeeds Robert M. Farr of Harbor Springs, who resigned.

Morley is active in business and civic affairs in Saginaw. He is a director of the Second National Bank & Trust Co., the Grand Trunk Western Railroad Co., and the Michigan Sugar Co.

The board declared a quarterly dividend of $1.12½ per share on the $4.50 preferred stock and $1.13 per share on the $4.52 preferred stock, payable Jan. 3, to stockholders of record December 3.

A quarterly dividend of 55 cents per share on the common stock also was declared, payable Nov. 20, to stockholders of record Oct. 22.

Gross operating revenue for the company in August, 1954 totaled $11,496,219, an increase of $218,299 over August, 1953.

For the 12 months ended August 31, 1954, gross operating revenue was $165,887,384 as compared with $152,543,861 for the 12 months ended Aug. 31, 1953. Earnings available to common stock were $22,695,150 as compared with $19,613,934.

Earnings per share on 7,473,798 shares of common stock outstanding Aug. 31 were $3.04 as compared with $2.89 on 6,794,362 shares outstanding Aug. 31, 1953.

Frank Ahrens, agent for State Farm Insurance Co. here, attended a 4-day insurance school in Marshall last week. Ahrens was 1 of 14 career agents who established an outstanding record during the State Farm course.

REGISTRATION NOTICE FOR GENERAL Election, Tuesday, November 2, 1954. To the Qualified Electors of the Township of Brandon, County of Oakland, State of Michigan: Notice is hereby given that I will be at my home, 105 Church Street, Ortonville to receive registrations on Sept. 29, 30, Oct. 1 and 2 from 8 a.m. to 8 p.m., and Monday, October 4, 1954 from 8 a.m. to 8 p.m.

Dated: September 22, 1954.

HELEN TUCKER JENCKS,
Township Clerk
Sept. 23, 24, '54

STATE OF MICHIGAN — In the Probate Court for the County of Oakland—Juvenile Division.

In the matter of the petition concerning Jay Lee and Gaylean Gee, Minor. —Cause No. 13641.

To Gaylord and Eileen Gee, parents of said child.

Petition having been filed in this Court alleging that the present whereabouts of the parents of the said minor children are unknown and the said children are dependent upon the public for support and that said children should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition will be held at the Court House in the City of Pontiac in said County, on the 8th day of October, A. D. 1954 at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

It being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy one week previous to said hearing in the Pontiac Press, a newspaper printed and circulated in said County.

Witness, the Honorable Arthur E. Moore, Judge of said Court, in the City of Pontiac in said County, this 17th day of September, A. D. 1954.

Seal ARTHUR E. MOORE,
(A true copy) Judge of Probate
GEORGIENA R. MURTHA,
Probate Register, Juvenile Division.
Sept. 23, '54

NOTICE TO BIDDERS

Sealed proposals will be received by the Board of County Road Commissioners of the County of Oakland at their office, 930 S. Telegraph Road, Pontiac, Michigan, until 2:00 o'clock, p.m., Eastern Standard Time, October 4, 1954 at which time and place they will be publicly opened and read for furnishing the following:

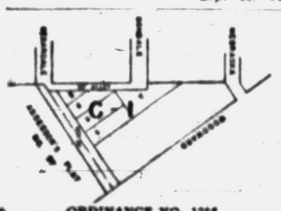

12 snow plow lift cylinders

Information and bidding blanks may be obtained upon request.

All proposals must be plainly marked as to their contents.

The Board reserves the right to reject any or all proposals or to waive defects and to accept the proposals that, in the opinion of the Board, is to the best interest and to the advantage of the Board of County Road Commissioners of the County of Oakland, Michigan, and of the County of Oakland, Michigan.

ORDINANCE NO. 1264

An Ordinance to amend the Building Zone Map of Ordinance No. 944, known as the "Building Zone Ordinance."

Adopted Sept. 20, 1954
Effective Sept. 30, 1954

An Ordinance to amend the Building Zone Map of Ordinance No. 944, known as the "Building Zone Ordinance."

The City of Pontiac Ordains:

Section 1. The building zone map of the Building Zone Ordinance is hereby amended to provide that the land in the description hereinafter set forth, be classified as Commercial 1. Lot 17, 18, 19, 20 and 21 and North ½ of Lot 22 of Assessor's Plat No. 97, providing an alley is deeded in accordance with recommendation of the City Plan Commission.

Section 2. The change in the building zone map in the above area to commercial 1 is made pursuant to the recommendation of the City Plan Commission and said Commission is hereby appointed to make a final report upon this amendment to this Commission previous to the public hearing to be held before this amendment is adopted, pursuant to Section 6 of Act No. 207 of Public Acts of 1921, as amended.

Section 3. That not less than fifteen (15) days notice of the time and place of the public hearing on the final passage of this amendment shall be given in a newspaper of general circulation in this city; that such public hearing is hereby fixed at September 30, 1954.

Section 4. This ordinance shall take effect ten (10) days from and after the date of its passage by the City Commission of the City of Pontiac.

Made and passed by the City Commission of the City of Pontiac, this 20th day of September, A. D. 1954.

JOHN A. DUGAN,
Mayor, pro tem
WALTER K. WILLMAN,
Acting City Clerk
Sept. 23, '54

WATERFORD TOWNSHIP ORDINANCE NO. 24

SANITARY SYSTEMS

An Ordinance to regulate the installation, location, construction, connecting, design, inlets and outlets of private septic tanks and connections to public sewers, water wells and other sanitary facilities in the Township of Waterford, Oakland County, Michigan, to require certain minimum sanitary facilities, to provide for inspection of sanitary facilities, to require permit fees and to provide for enforcement hereof.

The Township of Waterford, Oakland County, Michigan ordains:

Section 1. FACILITIES REQUIRED.

Hereafter all sanitary facilities in the Township of Waterford, Oakland County, Michigan including but not limited to water closets, lavatories, urinals, sinks, bathtubs, shower baths, garbage disposals and dishwashers shall be connected to public sanitary sewers if same be available and if such are not available such facilities shall be connected to private septic tanks in accordance with the following provisions of this ordinance.

From and after the effective date of this ordinance no person, firm, or corporation shall allow or maintain sanitary facilities not in accordance with this ordinance nor shall any outside privies be maintained or allowed to remain on lands in the Township of Waterford. Each building and/or dwelling unit shall have separate septic tank and field, where septic system used.

Section 2. SEPTIC TANK LOCATION.

All septic tanks and fields must be located outside the building or structure served at a distance of not less than five feet from the foundation of any building or structure and shall be located at a distance not less than fifty feet from any private well water supply nor less than seventy-five feet from any well water supply which is used or available to the public nor less than two hundred feet from any municipal water supply unless the location of such septic tank is approved by the Michigan Department of Health. Septic tanks or fields shall be located not closer than ten feet to the property line of the property served.

Section 3. SEPTIC TANK CONSTRUCTION.

Septic tanks shall be constructed of the following materials to wit: Concrete blocks, concrete slabs, bricks, or other equally good material laid in cement mortar or of poured concrete or approved precast concrete septic tanks; provided that in all cases, except precast tanks, the inside walls and bottom shall be given a coat of cement mortar one-half inch in thickness. All septic tanks shall be of water tight construction.

All concrete used shall withstand a twenty-eight day compressive test of at least three thousands pounds per square inch tested in accordance with A.S.T.M. testing procedures and all mortar shall be mixed using one part Portland cement to two parts clean graded sand with enough water added to bring it to a stiff consistency. No concrete or mortar shall be retempered by adding water after initial set have taken place.

All tanks shall be constructed with removable covers for easy cleaning. In the case of tanks longer than ten (10) feet more than one cover shall be provided. The inlets and outlets shall be baffled or submerged to a depth of eighteen (18) inches below the liquid surface of the tanks, but shall not be so deep as to disturb the bottom contents of the tank. The minimum liquid depth, measured from the bottom of the tank to the invert of the outlet shall be thirty-six (36) inches. The invert of the outlet shall be at least three (3) inches below the invert of the inlet.

No tanks constructed of metal or wood shall be approved.

Section 4. CONNECTIONS.

All connections between buildings or structures served and septic tanks shall be of cast iron soil pipe with leaded joints for a distance of five feet from foundation. If tank is located more than five feet from foundation, Orangeburg, Transite or vitrified clay pipe with slip seal joints may be used from a point five feet outside of foundation to tank proper. All main pipe leading to septic tank shall be at least four inches in diameter and with ¼ inch per foot fall.

Section 5. CAPACITY.

The liquid capacity of septic tanks shall not be less than five hundred gallons and shall be seven hundred and fifty gallons whenever the building or structure served contains any one or more of the following: (a) three or more bedrooms. (b) automatic clothes washer. (c) dishwasher. In any event, if garbage disposer is to be connected to tank then not less than seven hundred and fifty gallons liquid capacity shall be required, connected to a five hundred gallon settling tank.

All waste water from toilets, urinals, lavatories, showers, baths, sinks, laundry tubs, garbage disposals, and dish washers shall be connected to septic tank; provided that showers, baths, sinks, laundry tubs may be connected to a separate tank with the permission of the Township Health Officer.

Section 6. OUTLET

All septic systems for Class A soil shall be provided with overflow connections same to be connected to a header which in turn shall be connected with at least two hundred feet of four inch drain field tile or three hundred feet of drain field tile whenever the building or structure contains one or more of the following:

(a) three or more bedrooms
(b) automatic clothes washer
(c) dishwasher

and in any event shall be connected to at least three hundred fifty feet of field drain tile when garbage disposer is installed. For Class B soil the above requirements prevail except an additional fifty feet of drain tile shall be required and for Class C soil add one hundred feet of drain tile.

In cases where percolation tests of the soil indicate the Township Health Officer shall increase the above requirements as conditions indicate. Tile shall be laid on not less than three inches of washed gravel or stone and shall be laid not more than eighteen inches below the surface of the ground. No single line of tile shall exceed one hundred feet in length nor shall be laid on less than two feet centers. Trenches shall be at least eighteen inches in width for Class A soil and at least twenty-four inches in width for Class B&C soil with gravel as above specified across the entire width of the trench. All field drain tile shall be laid level but not necessarily in a straight line.

Tile shall be laid with approximately ¼ inch open joints covered on the top with tar paper or other suitable material before backfilling. On lots of small area, dry wells may be used instead of tile field but only on written permission of the health officer. Provided, all coverings on dry wells be of reinforced concrete.

Where connections are made at different elevations, such connections shall be made by means of drop man holes that provide a cleanout above the vertical drop.

Section 7. CLASSIFICATION OF SOILS.

Soils shall be classified by means of soil tests as follows. Pits approximately one (1) foot square, dug to the depth of the proposed trenches. That is eighteen (18) inches, shall be located at four different locations, near the corners of the proposed tile field area. Where large fields are proposed the pits shall be dug to lower depth to determine the available good seepage soil below normal depths.

The pits shall then be thoroughly wet down by filling the pit with water to a depth of twelve (12) inches or more before observations are made, preferably at least one (1) hour prior to such time. The pit shall then be filled with water to the original wetted depth and the rate of drop of the water shall be noted at different intervals.

Where the observed rate of drop is faster than one (1) inch in three (3) minutes, the soil shall be deemed as Class A; where the rate is slower than one (1) inch in three minutes but faster than one (1) inch in ten (10) minutes the soil shall be deemed as Class B; where the rate is slower than one inch in ten minutes but faster than one (1) inch in thirty (30) minutes the soil shall be deemed as Class C. Where the rate is slower than the above the soil shall be deemed as Class D and special consideration and approval shall be obtained from the Health Officer for alternate methods of effluent disposal.

Section 8. LOCATION OF WELLS.

All septic tanks, dry wells, and fields shall be at least fifty feet from the well provided that, if the lot is too small for such location, the tank proper may be placed less than fifty feet from the location of the well, but the complete tile field or dry well shall be fifty feet from well. In case permission is granted to locate septic tank closer than fifty feet to the well Orangeburg, Transite or vitrified clay pipe with slip seal joints must used from tank to the header of the tile field.

Section 9. POLLUTION

No sewer, septic tank, drain, or tile field shall be connected or constructed so as it shall run into any lake or stream. Drain tiles, septic tanks, or dry wells shall be located at least twenty-five feet from any lake, stream, canal, river, or swamp. Nor shall they be located in areas subject to flooding, unless written permission is given by the Township Health Officer for a different distance.

In no case shall tile laterals terminate on the open ground or into a body of water. Nor shall any effluent be allowed to issue forth onto the ground or into any body of water.

Section 10. INSPECTION

The septic tank and all connections must be left uncovered and no excavations for same shall be backfilled, nor shall the tank be used until the work and materials shall have been inspected by the Township Health Officer or his duly authorized agents.

Section 11. PERMITS.

Before proceeding with the construction, repair or installation of any septic tank, tile field or dry well the owner or his agent shall make application to the Township Health Officer for a permit for such construction, repair or installation which shall be issued upon payment of a fee of two dollars if such construction, repair or alteration will comply with the terms of this ordinance. Applications shall be made upon forms to be furnished by the Township Health Officer.

Section 12. ENFORCEMENT.

The provisions of this ordinance shall be enforced by the Township Board of Health acting through the Township Health Officer and the Township Health Officer shall have supervision and control of the issuance of permits.

The Township Health Officer shall have general supervision and control of inspection, construction, installation, repair, alterations, or maintenance of all septic tanks, tile fields and dry wells; and shall have, upon proper identification, the right to enter any building or premises at any reasonable time when it may be necessary in the performance of his duties; and shall enforce all provisions of this ordinance; the Township Health Officer shall have the power to inspect or condemn any septic tank or toilet in the Township of Waterford and enforce the provisions of this ordinance relative to the same, he shall have and it shall be his duty to stop work on any septic tank or part thereof which is being constructed, installed, maintained or altered in violation of this ordinance and any work stopped shall not be resumed until the provisions of this ordinance has been complied with. If any order by the Township Health Officer is not obeyed, the Township Health Officer shall apply to a court of competent jurisdiction to enforce the provisions of this ordinance.

It shall be sufficient notice to stop work on any construction or installation; or it shall be sufficient notice of condemnation if a notice is posted in a conspicuous place on the property.

The Township Health Officer shall make a final inspection of the septic tank, tile field, or dry well and if found to conform to the requirement of this ordinance, he shall indicate his approval by fixing his signature and the date thereof to the permit.

Section 13. EXISTING SYSTEMS.

Any septic system not conforming to the requirements of this ordinance shall be immediately altered to conform hereto unless such is a physical impossibility.

Section 14. APPEAL.

Any person feeling aggrieved by the action of the Township Health Officer, may appeal to the Township Board of Health, who within twelve days, from receipt of the appeal grant a hearing fixing the date thereof and a decision of said board shall be final.

Section 15. PENALTY.

Any person, firm or corporation, who shall violate any of the provisions of this ordinance, or who shall neglect or refuse to comply with any order authorized herein, shall be punished by a fine not to exceed One hundred dollars or imprisonment in the county jail for a period not to exceed ninety days or both such fine and imprisonment in the discretion of the court.

Section 16. THE EFFECTIVE DATE OF THIS ORDINANCE SHALL BE OCTOBER 23, 1954.

Section 17. SEVERABILITY.

In the event any sections of this Ordinance are held invalid for any reason, then such holding shall not affect the remaining portion of this Ordinance.

Made and passed this 20th day of September, A. D. 1954.

Ayes: Lloyd L. Anderson, Supervisor; Louis G. Barry, Clerk; Helen H. Reese, Treasurer; Oscar D. Loomis, Trustee.

Nays: None.

Absent: Robert L. Bliss.

LOUIS G. BARRY,
Waterford Township Clerk.

Attached hereto are suggested construction details and location of tank, well and field.

No Money Down!

We do not make this offer with the idea of luring you into our place of business, rather, we realize that often a family urgently needs good transportation but is unable or reluctant to place a down payment, it is for people with good credit and established reputation that our plan has been devised. We require absolutely no money down on a 1948 Dodge described below.

The automobile is a Town Sedan with immaculate two tone broadcloth interior; the engine, transmission and running gear is in exceptional condition. There is very little rust or wear to be found on the exterior. The car is a one owner new car trade-in. Payments are $27.24 a month.

Please call Midwest 6-1202 or drop in at 4108 Woodward just south of 14 Mile road.

Our Finest Car!

Occasionally, any used car establishment obtains a really fine car, such an automobile is perfect mechanically, has an excellent and colorful finish and is, of course, spotless inside.

When condition as described above is found in the desirable all metal station wagon, we are naturally twice as pleased. The wagon is a 1953 Plymouth with radio and heater, direction signals. It has had one suburban owner. The price is $1,495. If you can afford a down payment of $500 the monthly payments are only $39.87.

Please call Midwest 6-1202 or drop in at 4108 Woodward just south of 14 Mile road.

Compares It to Ship Sinking

Comic Runs Everything in Hysterical Rehearsals, Even Finger-Snapping

By JACK O'BRIAN

NEW YORK (INS) — A Milton Berle rehearsal is as near to a ship sinking as anything we ever have witnessed. We spent a few rehearsals backstage the last few days and organized hysteria is about the best we can say for it.

Berle runs everything; we said everything. His hands are in every line of the script. He directs every inch of the show. His feet are in the choreography. Not a stripe of paint, a strip of costume, goes on without his okay. He hardly ever sat down.

Berle was directing Berle; a plump gent named Jack Collins was playing Uncle Miltie's role precisely as it was to appear on TV. Playing it for all he was worth, for Berle was impressing the proper performance on Collins in order to mirror its exact meaning on his spongelike retentive memory. It was Berle sort of stealing someone else's performance he had created in the first place. This was the new Milton Berle.

The air was filled with cries of "Darling," "Baby," "Lover," terms denoting no hint of endearment; merely covered a multitude of forgotten first or last names. Everyone was frightfully friendly, almost intimate but the intimacy had the detached professional feeling of all theatrical rehearsals, basically.

Costumes ranged from gaudy to crazy. The girls wore skin-tight, thoroughly enveloping leotards. The boys looked as a group like a gang of sloppy, real-gone laborers.

The studio background became awhirl with flying girls' gams, stagehands whisking flats and drops aloft or aside, actors muttering into scripts, directors whispering huskily into tiny microphones circling their necks like telephone operators adrift in a bedlam.

Berle suddenly was at the sound effects desk, questioning the resonanance of, of all things, snapping fingers. He wanted them snapped as clearly as a crap shooter's as a lead-in to a gag. He finally found fingers with the proper tone and volume.

Berle's valet kept an almost endless bucket brigade of water for Uncle Miltie.

Mickey Rooney, the guest star, now was in the aisle doing a take-off on Jackie Gleason, which had nothing to do with anything but was very funny.

In a backstage corner the cast not working on stage or rehearsing lines in corners was watching the Giants lick the Dodgers at Ebbets Field.

Berle was ordering the camera director to "get me the same size head." He meant on the TV camera.

How does it all tie together eventually?

"It falls together," said Rooney,

Triplets Arrive in 3 Birthplaces

Tom, Dick and Harry Don't Let Mom Make It to Maternity Ward

LUDINGTON (UP)—Triplet boys born Wednesday to Mr. and Mrs. Velmar Bidwell are doing "remarkably well" despite their scattered places of birth, hospital attendants said today.

Mrs. Bidwell expected twins, but she gave birth to three sons before she could reach the delivery room at Paula Stearns Hospital. They were promptly named Tom, Dick and Harry.

Tom was born in the family car before Mrs. Bidwell arrived at the hospital. Dick made his first appearance in the world aboard a hospital elevator. And Harry arrived in a men's washroom, where the mother had to take refuge before she could reach the maternity ward.

The premature, 7-month infants were the 6th, 7th and 8th for the Bidwells. They already had five children, one of whom was born in a hospital wheelchair two years ago.

Bidwell is a driver-salesman for a Ludington beverage concern.

Physicians said Tom, the first-born triplet, was the healthiest of the lot. He was placed in an ordinary hospital crib, surrounded by hot water bottles to keep him warm. His two brothers took up temporary residence in incubators.

Actor Grant Withers Found Unconscious

VAN NUYS, Calif. (AP)—Actor Grant Withers, 51, is reported improving after being found unconscious in his bedroom yesterday from an overdose of ulcer medicine.

Dr. A. W. Pearson said last night the actor had regained consciousness and was in good condition. The doctor said Withers accidentally took an over dose that produced an adverse reaction.

Withers' wife, Estelita, a Cuban dancer, said she found his bedroom door locked. She told police she broke a pane of glass to enter the bedroom from a patio and found Withers unconscious on the floor.

Leonard on 3-Day Tour

DETROIT (AP)—Donald S. Leonard, Republican candidate for governor, opened a three-day tour of western Michigan today. He will visit Sturgis, Constantine, White Pigeon, Three Rivers, Mendon and Grand Rapids today. He will spend most of Saturday touring Muskegon County communities. Leonard will spend Friday in the Muskegon area.

Four Detroit Bandits Get 14-27 Years for Robbery

DETROIT (AP)—Four of five bandits who robbed a Detroit savings and loan company of $29,000 last May have been sentenced to federal prison terms ranging from 14 to 27 years.

Earl Jacobs, 26, the alleged leader of the gang, was given 17 years and Robert M. Welborn Jr., 24, 11 years; Daniel Galindo, 24, and Gordon A. Atkins, 26, 15 years each. Still to be sentenced is Robert G. Hovey, 25. All are from Detroit.

Says Traitors Were Busy Under Dems

LOS ANGELES (AP)—Sen. Everett M. Dirksen (R-Ill) told 1,100 Republican women last night that "never were the destroyers and traitors in government so busy" as during the 20 years of Democratic rule.

He said it has been no picnic for the Republicans to seek out "the wreckers and destroyers, the security risks and homosexuals, the blabbermouths and drunks, the traitors and saboteurs" in government.

Sen. Dirksen, chairman of the National Republican Senatorial Committee for the fall elections, addressed the convention of the National Federation of Republican Women, terming them the "greatest moral, spiritual and political force in the land."

Most of his speech was devoted to lambasting Democrats past and present, including Franklin D. Roosevelt, Harry S. Truman and Adlai Stevenson.

Gotham Embalmers Try to End Strike Deadlock

NEW YORK (INS)—Representatives of about 11 large undertaking establishments and striking embalmers and other employes conferred today with New York City Labor Relations Bureau officials in an effort to break a deadlock in a week-old walkout.

An estimated 200 persons die in the New York City, Westchester County and Nassau County area daily, but no health problem has arisen because there are about 1,000 non-struck small funeral parlors.

545 Attend Hillsdale

HILLSDALE (AP) — Hillsdale College Wednesday reported its 1954 fall term enrollment figure at 545 full-time students, an 8 per cent increase over last year.

Donate Shafer Papers

KALAMAZOO (AP)—A complete library of congressional records of the late Congressman Paul W. Shafer (R-Mich) has been presented to Western Michigan College. The 180-volume collection covers Shafer's 18 years in Congress. It was donated by his sisters, Mrs. Isabel Kanaga of Battle Creek and Mrs. Florence King of Three Rivers.

Sneaky Snake Terrifies Jittery Couple in Auto

CLIFTON FORGE, Va. (AP)— Mr. and Mrs. Roy K. Dotson were en route by auto to some grocery shopping when Mrs. Dotson noted a four-foot snake under her feet.

While Dotson tried to swing off the highway to park Mrs. Dotson hurriedly transferred to the rear seat only to find the snake had beat a retreat underneath the front seat while she went over it.

Dotson cut his hand trying to kill the snake, which finally took refuge under the back seat. A reluctant Mrs. Dotson entered the front seat and kept a keen eye on the back while Dotson drove into town. He got medical treatment for the cut hand and help in dislodging the reptile.

It was identified as a harmless variety.

Clip Hedge So That Top Is Slimmer Than Base

CHAMPAIGN, Ill. (UP) — Most people prune hedges the wrong way, according to a University of Illinois landscape specialist.

Hedges should be wider at the bottom than the top, according to H. R. Kemmerer of the university's college of agriculture.

Kemmer said a wide top shades the bottom branches and retards their growth. This gives the hedge a top-heavy look, and allows the coarse trunks to show.

To retrain a hedge properly, he said, cut the top back heavily and let the bottom branches grow. In a year or two the branches at the bottom will thicken. The hedge can then be pruned so that the base is wider than the top.

A sugar beet factory can handle 6,000 ton of sugar beets per day.

Big Trailer Park Opens

SACRAMENTO, Calif. (UP) — California's largest trailer park, bordering on luxury, has been opened in San Diego, the state division of housing says.

Although only 200 spaces have been opened, the park will have 985 spaces on 80 acres facing Mission Bay, complete telephone service to all spaces, a 60-unit motel for friends and relatives of trailer dwellers, a shopping center and a yacht basin.

The longest river in France is the Loire.
