

Moon Pictures Excellent

Surveyor 1 Soft Landing Hailed

PASADENA, Calif. (AP) — Surveyor 1, in an amazing first try success, televised excellent close-ups from the moon today after an apparently perfect gentle landing in the Sea of Storms.

Scientists, after viewing the first 144 pictures showing the 620-pound craft in good condition on a broad and featureless plain seemingly hard enough to support a manned landing craft, hailed it as a technical and informational triumph.

At a morning news conference at the Jet Propulsion Labora-

tory, which guided Surveyor's flight, project officials made no attempt to hide their joy. "Extremely excellent" and "I don't expect to see anything like this again in my lifetime" were two of the comments.

Dr. Leonard Jaffe, project scientist, said of the pictures: "They show a surface generally level, as expected, with objects that appear to be rocks and boulders, or fragments, from

close to the spacecraft for as far as the eye can see, apparently to the horizon.

"Some appear to be a foot across. Some are much less than an inch. There are craters, one 10 feet across about 25 or 30 feet from the spacecraft."

R. F. Garbarini, of the National Aeronautics and Space Administration said "This in my opinion puts the Surveyor program ahead a year."

"We thought it would take three or four flights to get the craft operational. This means future Surveyors should provide more information about more sites than originally planned. It also means the Apollo manned spacecraft landing system, similar to Surveyor's, has been proved out."

Surveyor 1, three years late due to a multitude of problems, was given small chance of suc-

cess on the first launch due to its complexities.

Rep. Joseph E. Karth, D-Minn., head of a committee which once criticized the program as poorly managed, offered "the congratulations of all American people" to the officials.

Jaffe, commenting on a photo that showed a shadow around one of Surveyor's three padded feet, said this indi-

cates that impact was hard enough to cause a slight depression — a few inches deep — in the lunar crust.

He said it appears about the same that which would have been found in sandy soil on earth.

The photos were first televised on a screen at the laboratory. Most were fuzzy and hard to distinguish, showing legs and other parts of the spacecraft and murky views of the plain.

AFL-CIO Backs Soapy, Ferency

LANSING (AP) — Democrats G. Mennen Williams and Zoltan Ferency won overwhelming endorsement for U.S. senator and governor respectively from the Michigan AFL-CIO yesterday.

Anticipating their losses, three other major candidates all challenged the union during an afternoon of speeches to either stay neutral or get out of politics.

Hue Retaken, but Saigon Protests Flare

SAIGON (UPI) — Government troops quietly occupied the rebel city of Hue with tanks and armored cars today. But violent new antigovernment demonstrations broke out in Saigon today to protest a government-Buddhist crisis settlement that left Premier Nguyen Cao Ky in power.

Moderate Buddhist leader Thich Tam Chau told a crowd of 5,000 at the Vien Hoa Dao pagoda that Ky and Chief of State Nguyen Van Thieu had promised to resign once the civil strife has ended.

But this did not satisfy his followers and hundreds of howling youths stormed from the pagoda through the streets.

The demonstrators, mostly youngsters, carried banners and flags denouncing the government. A few minutes earlier they had been attending a fireworks display at the pagoda celebrating Lord Buddha.

A few hours before Tam Chau read his statement in a special communique, the powerful Monks and Nuns Association vowed to press the struggle against Ky despite his promise to add 10 religious and political leaders to the 10-man ruling military junta.

The monks and nuns threatened more street demonstrations and more fiery suicides to win their point.

Former Gov. Williams outpolled Detroit Democratic Mayor Jerome Cavanagh 532-42, with six votes going to incumbent Sen. Robert Griffin, R-Mich., and two to little-known Democrat James Elksman of Birmingham.

Ferency, the resigning Democratic state chairman, picked up 561 votes at the special convention to 11 for Democrat Paul Livingston and seven for Republican Gov. George Romney.

Each of the seven candidates spoke for 20 minutes to the union delegates before the balloting. Later, as votes were being counted, State AFL-CIO Director August Scholle and other union leaders attacked the records of Romney and Republicans.

Cavanagh accused unions of only going through the motions of listening to both sides in his fight with Williams.

"Has the mighty labor movement fallen to so little measure that it must play with a stacked deck?" he asked. He said the AFL-CIO should remain neutral in the Aug. 2 primary as has the Democratic State Central Committee.

The only "boos" of the restrained and orderly meeting (Continued on Page 2, Col. 6)

News Flash

UNITED NATIONS, N.Y. (AP)—South Viet Nam asked today for U.N. observers for its election of a constitution-drafting assembly scheduled for Sept. 11.

Confident on 3rd Try of Gemini 9

CAPE KENNEDY, Fla. (AP) — Dramatically successful with the unmanned Surveyor moonship, but seemingly jinxed in getting men off the ground, space officials felt confident today that Gemini 9's two dismayed astronauts finally will rocket skyward tomorrow.

Twice, Air Force Lt. Col. Thomas P. Stafford and Navy Lt. Cmdr. Eugene A. Cernan have donned their flashy space suits and climbed aboard their waiting spaceship; but, twice, they've gloomily taken the slow elevator ride back to the ground.

They get another chance tomorrow at 8:39 a.m. EST to set out on their 70-hour flight, including satellite rendezvous and 2½-hour space walk after a frustrating two-day delay.

Engineers pinned the blame for the scrubbed Gemini 9 flight yesterday on a faulty signal relay system.

11 Millionth Auto Adds to Pontiac Div. Records

Another page was added to Pontiac Motor Division's record book today as the 11 millionth Pontiac was assembled at the division's home facilities in Pontiac.

The milestone unit — a burgundy Pontiac LeMans convertible — was built just 13 months and 20 days after the 10-millionth Pontiac came off the assembly line.

"The building of our 11 millionth car is one of the highlights of Pontiac's 40th anniversary year and it is an accomplishment each Pontiac employee may view with pride as a job well done," said John Z. DeLoe, a General Motors vice president and general manager of the division.

In ceremonies, where the

ROCK EVIDENT — This photograph transmitted from the moon by the Surveyor spacecraft shows a lunar rock six inches high and 12 inches long, according to the Jet Propulsion Laboratory in Pasadena, Calif., which released the picture today. The smaller pebbles are several inches in diameter, and the bright spots are reflections of the sun.

Rain Likely in Area by Late Tonight

There's a chance of showers in the Pontiac area by late tonight with lows of 44 to 52.

Partly cloudy with little temperature change and a chance of showers is tomorrow's forecast.

Partly cloudy with showers is Saturday's prediction.

Highs tomorrow are expected to climb into the 70s.

Morning variable winds at 5 to 15 miles per hour will become south to southwest at 8 to 15 miles tonight.

Forty-three was the low recording in downtown Pontiac at 5 a.m. today. The mercury had reached 69 by 1 p.m.

VIEW FROM SPACESHIP — This is one of the pictures transmitted back to earth by Surveyor 1 after its soft landing on the moon. The photograph shows one of the craft's three pads resting on the lunar surface. The bright spots in the picture are reflections of the camera. The dark area near the pad is believed to be a depression caused by the spacecraft.

New Findings Disclosed

Cancer Cure Hopes Rise

CHICAGO (AP) — Two findings that open a new approach toward the elusive goal of finding the cause and prevention of cancer were disclosed today by a medical research team from Columbia University.

The researchers presented the strongest tentative evidence yet that cancers may be started by viruses which then move on to repeat their destructive work in adjoining cells.

Dr. John K. Lattimer, chairman of the department of urology at Columbia University in New York, said that virus-like particles have been found for the first time in healthy looking cells lying adjacent to cancer cells in prostate glands.

They were not found in the cancer cells. He said his researchers also

discovered that these cells, which appeared normal under ordinary-light microscopes, actually were growing at the "same tremendous rate" as cancer cells.

"The discovery of either condition was unusual, but when

L'I' ONES

"The engine is making too much noise. Don't breathe so hard."

SWING HIGH — The 11 millionth car built by Pontiac Motor Division is loaded onto a motor carrier in a special manner. The milestone car, a Pontiac LeMans convertible, came off the assembly line this morning.

Here illustrating the strength of the car's standard seat belt, the 3,400-pound vehicle is lifted 15 feet and swung into place with the seat belt carrying the entire load. The belt is attached to a crossbar in the car.

Foe of Bosch Claims Victory

Balaguer Way Ahead in Dominican Election

SANTO DOMINGO, Dominican Republic (AP) — Amid scenes of wild jubilation, headquarters of conservative Joaquín Balaguer claimed today a smashing victory over former President Juan Bosch in Dominican elections.

Dr. Jose A. Quesada, private secretary to the Reform party candidate, predicted that Bosch, standard-bearer of the Dominican Revolutionary party, would be beaten by a 2-1 margin when all returns are in.

A heavy vote piled up in the conservative-minded rural areas for Balaguer, who served as vice president under dictator Rafael Leonidas Trujillo and as president after Trujillo's assassination.

The vote was interpreted by some observers as a protest in general against the sort of violence which erupted in civil war and U.S. military intervention last year and a longing for tranquility.

Even in Santo Domingo, Bosch's stronghold when he won by a landslide in 1963 — only to be ousted by a military coup seven months later — Bosch was badly hurt. He failed even to capture one area in the heart of the section held by armed rebels in the nation's civil war.

But Bosch suffered even more in the rural areas.

In San Cristobal, which he swept by a 14-1 margin in 1963, he was trailing 5-1.

Balaguer adherents in front of his headquarters celebrated joyously, shouting "To the cave!" a reference to Bosch's refusal in the campaign to emerge from his home.

Quesada claimed Balaguer would roll up 800,000 of the 1,200,000 or so votes cast and "Bosch will not even get 400,000."

Bosch's headquarters were subdued and there was gloom among his supporters in the capital. Some teen-agers in the capital were shouting "There will be war here!" But an uprising like last year's might be difficult to mount in the face of a decisive victory in an election hailed by foreign observers from all over the hemisphere as completely fair.

A third candidate, Rafael P. Bonelly, was far behind. He never was given much of a chance.

Car License Number Special for Owner

DENVER, Colo. (AP) — There's nothing unusual, apparently, about Sid Staskin's new automobile license plate number "TK27."

But Staskin is an airlines instructor aboard Boeing 727 jets, and the airline's code letters for flight training are TK.

The Weather

Sewer Ban Still in Effect

Ten Macomb County communities are still under a sewer construction ban in spite of officials' hopes that the ban would be lifted at a special meeting yesterday.

Representatives of the communities met with state and county health officials to discuss a possible solution to the problem of pollution of the Clinton River.

"We're not any better off now than we were before the meeting," said Mrs. Eunice Kpela, Utica city clerk. "We were hoping that by showing good faith, we could get the ban lifted."

The Macomb County Board of Supervisors recently appropriated \$50,000 for a study of the problem which officials of the communities hoped would show "good faith."

Dr. Albert Heustis, State Health Department director, announced last month that no permits would be granted for extending sewer systems in the 10 communities until a plan was developed to control pollution of the Clinton River.

MAKES DECLARATION

The State Water Resources Commission also has declared that unlawful pollution exists in the river.

Heustis called the meeting to "facilitate and speed up the development of a pollution control plan for the entire lower Clinton River."

He said the ban was necessary even though it "can have a temporary adverse effect on the continuing economic growth of the communities."

The communities involved are Utica, Warren, Fraser, Mount Clemens, and the townships of Shelby, Macomb, Sterling, Clinton, Harrison and Chesterfield. Shelby is not directly affected at this time because it has no sanitary sewers. Township officials, however, want to participate in a solution to the problem.

For High School Students

Workshops Planned by Avon Players

AVON TOWNSHIP — Summer theater workshops for junior and senior high school students will be conducted this summer by the Avon Players.

The educational program, to be held at the playhouse on Washington is designed for students interested in play production and theater arts.

The four-week session will be offered.

The first workshop is scheduled to begin July 5 and conclude July 29. The second session will run from Aug. 1 through Aug. 26.

Enrollment will be limited to 25 students per workshop to pro-

vide as much individualized instruction as possible.

AREA SCHOOLS

Applications have been placed in area junior and senior high schools and can be obtained from each school's counselors, or by contacting Mrs. Dennis E. Carragher, 63 E. Maryknoll, Rochester.

All interested applicants are urged to complete and mail in their applications by the June 10 deadline.

Classes will be held on week-day afternoons. Students who enroll will be given approximately 80 hours of instruction during each four-week session.

Instruction in all aspects of theater arts will be offered and students will receive actual play

Motor Bike Mishap Kills Utica Student

UTICA — A 17-year-old Utica High School student died early this morning after an accident with his motor bike in the school parking lot last night.

Shelby Township police said Gerald Guillou of 4528 Vanier struck his head when he was thrown from the bike after hitting a curb.

The boy died at 5:45 a.m. today in St. Joseph Hospital, Mount Clemens.

Ceremony Set for Seniors

WALLED LAKE — Members of Walled Lake Senior High School's Class of 1966 will participate in the traditional Baccalaureate Service on June 12.

The address will be delivered by the Rev. Raphael Dakoske, assistant pastor of St. William's Church. The Rev. J. A. McCarty, Minister of Crossroads Presbyterian Church will give both the invocation and the benediction. Music will be furnished by the 1966-67 high school choir under the direction of Alexander Zernan.

Election, Charter for Constables

The Oakland County Division of the Michigan Constables Association recently received its charter and elected officers.

Chosen to head the organization was John Stickney of Clawson. Edward LaDouceur of Oxford was elected secretary and Harry Yoh of Clawson was named treasurer.

The object of the organization is to "develop friendship among the members and to improve the administration of justice and law enforcement."

It will also propose and support such legislation "as will be for the best welfare of the people of the state of Michigan."

The organization will instruct and disseminate literature to its members concerning the laws applicable to constables and will set up a code of ethics and rules of conduct for its members.

Clarkston Barber Applies Lots of Community Spirit

By HUDSON WILLSE

CLARKSTON — A community leader. A jack-of-all-trades. A do-it-yourself type. A man who has given unselfishly to his community for years.

This in capsule form describes Frank Ronk, a good-humored 36-year-old Clarkston barber whose shop has become a nerve center of the community.

Ronk, his wife, Mary, son, Steven, 8, and daughter, Kathryn, 11, live at 6056 Overlook.

He serves his community in several ways.

The barber might be out fighting a fire, pumping out water from a flooded basement at 3 in the morning, attending a school board meeting, rescuing a cat from a tree or reinstalling Christmas decorations.

GIVE INFORMATION

If anything worthwhile is happening, Ronk and fellow barbers Olen Betzer and Fred Vess will gladly pass out the information. And it's a safe bet they'll know about it.

Stranger often are referred to the barber shop when inquiring about directions or other information.

"We figure if one of the three of us doesn't know it, it's not worth knowing," quipped Ronk.

A four-sport athlete at Clarkston High School in the mid-40s, Ronk is known as Tink to friends and acquaintances alike. Ronk says his brother was unable to pronounce his first name when they were toddlers. It came out Tink and later Tink.

In 1962, Ronk was rewarded for his unending contributions to the community when he was named recipient of the Clarkston Area Jaycees' first distinguished service award.

A friend remarked that Ronk is deserving of the honor every year.

The short, stocky Ronk — who sometimes wears glasses — belongs to a number of organizations.

He's a member of the Clarkston Rotary Club, American Legion Post 83, Clarkston First Methodist Church, Independence Township Volunteer Fire Department and the Clarkston Board of Education.

A native of Clarkston, Ronk graduated from high school in 1946. He participated in varsity football, basketball, baseball and golf.

He graduated from the Flint Institute of Barbering and served in the U.S. Army from 1951-53, spending part of his tour of duty in Alaska.

Ronk is especially active as a

member of the volunteer fire department, which he has served for nearly 20 years.

Daytime fire calls are phoned into the barber shop, which is equipped with a fixed frequency FM band radio.

Ronk says he is called away from his business on an average of three or four times a week because of fires or rescue runs.

However, it sometimes adds up to five or six runs a day during the grass fire season, according to Ronk.

Unfortunately, he sometimes is forced to leave his custom-

ers in the middle of a haircut. But so far, no one has complained.

Ronk says volunteer firemen must be able to maintain all of the equipment, know rescue methods, drive trucks and be hosemen.

"Volunteers have to know all the jobs," said Ronk. "You never know what you're going to have to do next."

The fire fighting force consists of 30 men, including three mechanics.

Most of them are frequent visitors at the barber shop. Members of community organizations also come to the shop on occasion to find out about forthcoming activities.

NOT TOO INVOLVED

"We don't really get too involved in issues," said Ronk, "because you can get in some pretty heated arguments with customers."

At election time, candidates of both parties are welcome to place their posters in the front window of the barber shop.

"The main thing is that they vote," said Ronk. "We don't care how." At the recent village election, voters were told to cast their ballots at the village hall, which they were reminded, is next door to Ronk's Barber Shop.

ADQUATE SPEAKER

Although no Everett Dirksen, Ronk is an adequate speaker, blending humor with his talks.

He really loosened up the audience at this year's Clarkston Area Jaycees' Bosses' Night.

Ronk regards his board of education post as quite challenging.

"I'm getting quite an education myself," he said. "I've learned a lot of things I didn't know about school operation." Ronk is completing the first year of a four-year term on the board.

Pontiac Press Photo

CLARKSTON CLIPPER — Clarkston barber Frank Ronk cuts a customer's hair in the shop he has operated at 25 S. Main since 1963. Highly active in the community, Ronk was named recipient of the Clarkston Area Jaycees' distinguished service award in 1962.

Schools in State Face Wave of Teacher Strikes

A wave of teacher walkouts was expected to hit southeastern Michigan schools today and Friday to underscore the educators' labor contract demands.

Leaders of Michigan Federation of Teachers locals in Ecorse, Melvindale and West Dearborn Heights have been authorized by teachers to call strikes if necessary to enforce the demands.

In Taylor Township, a strike was ordered to begin at 8 a.m. Meanwhile, Genesee County circuit judges denied a petition by the Flint school board to stop a planned "day of protest" walkout today by some 1,800 teachers there.

Voter League Members Will Solicit Funds

WEST BLOOMFIELD TOWNSHIP — The League of Women Voters will solicit funds Saturday towards a goal of over \$700 to be raised for the 1966-67 year.

Each league member will call on three or four citizens who have already received letters requesting contributions.

The league is requesting contributions from citizens and businesses in the township in order to provide future election information to the community.

Fire Damages Oxford Firm

OXFORD — A fire in the roof of the Hampton Concrete Block Co., 80 E. Burdick, early this morning caused an estimated \$1500 worth of damage.

Fire Chief Perry Earp said the fire is believed to have started from a liquid propane heater in the block-drying room. He said the fire, which broke out about 4 a.m., was confined to the one room.

Bloodmobile Location

A Red Cross Bloodmobile will park by the Pontiac Township Building, 2080 Opdyke, next Monday between 2 p.m. and 8 p.m.

Soviets Upset With Canada

Say Scandal Used as Anti-Red Propaganda

MOSCOW (AP)—The Soviet Union charged the Canadian government Wednesday with using the Gerda Munising sex and security scandal to stir up anti-Soviet propaganda.

In a note handed to Canadian Ambassador H. F. Clark, the Soviet Union claimed that Canada has done nothing to end "the crude anti-Soviet campaign but has contributed to their fanning up by fabricating reports about so-called Soviet espionage."

Canada's Liberal government claimed earlier this year that Mrs. Munising had been a Soviet spy in Germany and that her affair with the associate defense minister in a previous Conservative government endangered Canada's security.

A royal commission is now investigating the government's allegations.

SOVIET NOTE
The Soviet note expressed the hope that "the government of Canada will take the necessary measures to put an end to anti-Soviet provocations and to insure normal conditions for the work of the Soviet Embassy."

The note climaxed a wave of complaints in the Soviet press about efforts to link the Munising scandal with the Soviet Union and about other alleged anti-Soviet incidents.

Small Town Growing After Bears Are 'Croaked'

CORUNNA, (U)—The bears are gone, and some people here can't bear it.

For 60 years, the children of Corunna had trudged down to McCurdy Park to see the several generations of black bears kept penned there.

But one morning last week, Arthur Graham, the street commissioner for this Central Southern Lower Michigan town of about 3,000 residents, said the last two remaining bears. They died quietly but the residents howled.

"I couldn't see spending money for tranquilizers when they were going to be shot anyway," said Graham. "That would have been a waste of money."

The town budget included money this year for either fixing the bears' pens or getting rid of the animals.

NO DEMAND

Efforts were made by city officials to place the bears elsewhere but they found that there is no call for black bears in the state.

City Clerk Bernice Hagdon said a conservation officer told her the town should get a veterinarian to put the bears to sleep before shooting them.

"I couldn't see any sense in monkeying around for half a day doing that," Graham commented. "They would have suffered more if we had tried to put them asleep with tranquilizers than with this way."

"They didn't suffer at all when I shot them."

STRONG OPINION

A random sampling of opinion by an Owosso Argus Press reporter showed strong sentiment for keeping the bears, however. Only one of some 30 persons interviewed indicated satisfaction with the city's action.

"I feel we have lost a little something that was part of Corunna," said Mrs. Cecilia Townsend, owner of one of the town's two drugstores. "I've taken my grandchildren to see the bears, and I know a lot of children liked them."

Boycott Effect 'U.S. Agent Still at School in Disguise'

Could Alter Detroit Educational Setup

DETROIT (AP)—Nobility paid more than a handful of dissatisfied students organized a boycott of classes six weeks ago at Detroit's predominantly Negro Northern High School.

But within days, the handful of students who had led the school's 2,300 students in a four-day walkout, had won support from adult civil rights groups, set up a freedom school and won the apparent removal of their principal.

Many low temperature records were broken in Ohio early last year. The mercury plunged to 39 at the Canton, Ohio, airport, breaking by one degree a record that had stood since 1905.

Thermometer readings were also low in large sections of the Southeast. Temperatures were in the 40s in North Carolina and the north half of Georgia and in the 50s in parts of northern Florida.

Heavy thunderstorms were reported in areas of Kansas and the panhandle regions of Texas and Oklahoma. Strong wind gusts, up to 58 miles per hour, were recorded in Kansas.

Carty, who officially still is principal, has not been at the school since April 26. School board officials say he has not been removed, but is studying Northern problems at the School's Central Building 25 blocks away.

Several teachers have charged that Carty's removal caused a breakdown in discipline and eroded the student's respect for authority.

Two instructors said their lives had been threatened several times by students.

SCARED
"I'm so scared it isn't funny," said Mrs. Dimitra LeBeau. Student leaders deny faculty members have been threatened or mistreated and counter with a charge that some teachers have been changing grades in reprimand against the students.

A 19-member committee composed of students, faculty and parents, is looking into grading standards, faculty qualifications, the physical plant, extracurricular activities and other conditions at Northern.

The new species, collected about 2,400 feet beneath the sea, is part of a small group of sea stars called Myxasteridae, which are found throughout the world in waters ranging from about 3,500 to 10,500 feet deep.

NEW SPECIMENS
The three new specimens were collected May 20, 1964, by a research vessel chartered from the College of Fisheries, University of Washington.

The collecting was made during the Cooperative Bureau of Commercial Fisheries and U.S. Atomic Energy Commission deep-water investigations off the mouth of the Columbia River.

City Forestry Chief Passes State Exam

Kenneth W. Harris, city forestry supervisor, has passed state professional forester's registration.

Harris, of the Pontiac Department of Parks and Recreation, is a 1950 graduate of Michigan State University. He has been city forestry supervisor since 1963.

NOTICE OF ELECTION
School District of the City of Pontiac, Michigan, is hereby notified that the Annual Election will be held on Tuesday, June 14, 1966, from 8:00 a.m. to 8:00 p.m. Eastern Standard Time to elect two members of the School District of the City of Pontiac for terms of four (4) years, each, said terms ending June 30, 1970 with candidates as follows:

FUN! JUST WHAT WE'RE HAVING DOING CROSSWORD PUZZLES

WHAT'S A "THREE-LETTER WORD MEANING 'ENJOYMENT'?"

QUESTION: Where did crossword puzzles come from?

ANSWER: During the 19th century, in England, simple puzzles called "word squares" were printed in children's books with words arranged so the letters read the same both down and across.

This idea developed into the modern crossword puzzle. The first one appeared in the New York World Dec. 12, 1913.

People enjoyed them so much that by 1925 they were being published all over the U.S.—and soon reappeared in England in their modern form.

The idea of the crossword puzzle is that each letter you put in an empty box is part of two words, one going across and one down.

This makes many of the words cross each other; hence the name "crossword puzzle."

Unused squares are in black.

Numbers appear in the first of each group of vacant squares which you are to fill with a word, some words going across and some down.

You can find out which is which by checking the number on the printed key under the puzzle.

This key also gives clues to the words. We show a very small crossword puzzle. We have filled in one word to show how it works.

FOR YOU TO DO: Try a crossword puzzle in your newspaper. To warm you up for the real thing, do the tiny puzzle we include. Here's the key: ACROSS—1. Enthusiast. 4. Our Country. 5. Bite. DOWN—1. Enjoyment. 2. Spanish word meaning "thus". 3. Short sleep.

New Sea Star Type is Found

By Science Service

LONDON—Three spiny members of a new species of deep ocean sea star were collected in a shrimp trawl in the northeastern Pacific Ocean off northern Oregon.

Named *Asthenaster fischeri*, the new species of sea star has 10 long tapering flexible rays, reports Miles S. Alton of the Exploratory Fishing and Gear Research Base at Seattle, Wash.

When alive, the sea stars have rainbow colors—rust colored on the upper part and light orange on the lower part, blending into a salmon pink around the "mouth."

The tiny tube feet are violet tinted. Alton reported in the British journal, *Deep Sea Research*.

The new species, collected about 2,400 feet beneath the sea, is part of a small group of sea stars called Myxasteridae, which are found throughout the world in waters ranging from about 3,500 to 10,500 feet deep.

NEW SPECIMENS
The three new specimens were collected May 20, 1964, by a research vessel chartered from the College of Fisheries, University of Washington.

The collecting was made during the Cooperative Bureau of Commercial Fisheries and U.S. Atomic Energy Commission deep-water investigations off the mouth of the Columbia River.

Marcos' U.S. Trip Plans Hit

MANILA (AP)—Senators of President Ferdinand E. Marcos' Nationalista party urged him Tuesday to shelve any plans for visiting the United States.

The sources said since the Philippine government is preparing to send troops to South Viet Nam, the senators felt Marcos in going to the United States would give the impression he was going to Washington "to collect his reward."

CONFIRMATION
Fred Romanoff, executive secretary to the mayor, confirmed the fire department sponsored the bogus inspector.

But he said the decision to allow a federal agent to use the local fire department as "cover" was made without the knowledge of the mayor or the fire commission.

Romanoff promised to bring such activities to an end, explaining:

"The integrity of the identity of city employees must be retained for the health, safety and welfare of the city. A city employee cannot be suspect."

STATE OF MICHIGAN—The Probate Court for the County of Oakland is hereby notified that the Annual Election will be held on Tuesday, June 14, 1966, from 8:00 a.m. to 8:00 p.m. Eastern Standard Time to elect two members of the School District of the City of Pontiac for terms of four (4) years, each, said terms ending June 30, 1970 with candidates as follows:

And further, that on the following proposition to transfer delinquent taxes collected for the School District, being paid for more than two years as provided by law:

Transfer of Funds
Inasmuch as the Board of the School District of the City of Pontiac, Michigan, is hereby notified that the Annual Election will be held on Tuesday, June 14, 1966, from 8:00 a.m. to 8:00 p.m. Eastern Standard Time to elect two members of the School District of the City of Pontiac for terms of four (4) years, each, said terms ending June 30, 1970 with candidates as follows:

And to vote for six (6) members for the Board of Trustees of the City of Pontiac, Michigan, for terms of two (2) years, each, said terms ending June 30, 1968, with candidates as follows:
