Unemployment Puts Detroit On Distressed List

U. S. Labor Department Recognizes 7 Per Cent of Workers Are Idle

DETROIT (AP)—Detroit, with its 107,000 idle at latest official estimates, is now included in the federal government's "distressed" area classification.

As such, the Motor City is entitled to preferential treatment in the award of government production contracts.

The Labor Department at Washington ordered the "distressed" classification for Detroit last night. The order was based on a finding of "substantial" unemployment.

The report showed that in mid-January total unemployment in the Detroit area, which includes the counties of Wayne, Oakland and Macomb, amounted to more than seven per cent of the civilian labor force.

Walter Reuther, CIO and CIO United Auto Workers president, hailed the action as representing what he called "realistic and honest thinking." Reuther previously had charged Detroit's situation had not been properly dealt with.

The Detroit Board of Commerce was cool toward the announcement.

Willis H. Hall, secretary-manager, said a board survey indicates employment "will pick up from here on out and that we are in no danger." He said he doubted the extent of benefit Detroit would get from the distressed rating.

(Oakland County is included in the over-all Detroit labor area, and government work aid extended to the area would benefit this county, according to Luther C. Olson, manager of the State Employment Commission office here. For related story on employment in this area see page 23.)

The Labor Department's ruling showed that 7.1 per cent of Detroit's work force was unemployed.

Detroit was placed in the Group IV area. This includes cities with unemployment of more than 6 per cent. There are 20 other such major cities and 31 smaller communities.

The mid-January idleness report came from the Michigan Unemployment Security Commission (MESC).

The state agency said Detroit's employment should improve "somewhat" by mid-May but that even then it probably would continue to be "substantial."

The other 20 cities in Group IV include Muskegon and Lawrence, Lowell and New Bedford, Mass.; Providence, R. I.; Atlantic City, N. J.; Mayaguez, Ponce and San Juan, Puerto Rico; Asheville, Durham, Winston-Salem, N. C.; Altoona, Johnstown, Wilkes-Barre-Hazleton, Pa.; Terre Haute, Ind.; Kenosha, Wis.; Albuquerque, N. M.; Tacoma, Wash.

Ike Startles Telegraphers by Recalling Dots, Dashes

WASHINGTON (UP)—The veteran telegraphers gulped. Who'd ever thought the President would still be carrying dots and dashes around in his head after nearly 40 years.

But there was no mistake about it. Right out of the blue sky Eisenhower started rattling off the alphabet. Dot, dash—dash, dot, dot, dash—dot, dash, dot.

It was in the White House radio-television room Monday night. The President was gazing at a silver telegraphers' key just before using it to turn on the lights at the third International Trade Fair in Seattle, Wash.

"Lucius," he asked suddenly, "do you remember how easy it was to practice the Morse Code at West Point?"

Lucius D. Clay, a military man until he became chairman of the Continental Can Co., remembered the Morse classes all right. But he couldn't remember anything about them. After all, it was back in 1915.

The President grinned impishly. Then he began clicking off the code for the letters A, B, C, D and E. He remarked how easy it was to remember the code for his own last name:

One dot for E, two for the I, three for the S, and one again for

Away They Go! Gleason Stars in Real Triangle

NEW YORK (UP)—TV comedian Jackie Gleason starred in a real life triangle in a squabble between his estranged wife and a shapely dancer in his hospital room, the New York Daily Mirror reported today.

The wife dropped in last Sunday to see Gleason in Doctors' Hospital where he was propped up with a broken leg.

She found Jackie already had a visitor, Marilyn Taylor, a dancer on his show, the newspaper related, and, pow! away they went!

The Mirror said Gleason lost his temper enough to demand a divorce of his wife, Genevieve, but he cooled off later and said because of religious reasons he would never seek one.

The Mirror reported this exchange between Mrs. Gleason and Marilyn:

"Do you love my husband?"

"I do, very much. And I want you to know I didn't start going around with him until you had separated."

The Gleasons have been separated about 18 months. Their two daughters, Geraldine, 14, and Linda, 12, are with their mother.

The Mirror said Gleason, who cracked a leg in an accidental fall on his TV show, told a reporter: "Say pal, looks like I've added a headache to my leg ache."

Husband Slayer Gets 1-15 Years

Judge Recommends Mrs. Cartrette Serve Minimum Time

Mrs. Lucy Mae Cartrette, 33, was sentenced Monday to 1 to 15 years in the Detroit House of Correction by Oakland County Circuit Court Judge H. Russel Holland.

She was found guilty by a jury Jan. 29 of manslaughter in the slaying of her husband last Aug. 29.

Her husband, Scarborough, 32, was shot to death while visiting Mr. and Mrs. Dean Wright at 165 Judson St. after a party with his "girl friend."

Wright told the court Mrs. Cartrette gave the .32 caliber pistol to Mrs. Wright after the shooting and said she acted as if she was "in a sort of a daze."

Mrs. Cartrette told the jury she didn't remember shooting her husband, whom she planned to leave because of his attentions to another woman.

Judge Holland recommended the minimum sentence contingent on good behavior.

Molotov Shies at Western Bid

Won't Promise to Prod Red China to Action on Korean Conference

BERLIN (UP)—A Western bid for V. M. Molotov to prod Red China into an early Korean peace conference was reported today to have received a cool reception from the Soviet foreign minister.

As the Big Four shifted temporarily back to their dreary discussion of Germany, diplomats familiar with yesterday's secret session said the Korean proposition was represented to Molotov then as a possible step toward ending the Indochina War.

Molotov they said, made no promise. Instead he was reported to have stuck to his demand for a big power conference with Communist China and for a disarmament conference outside the United Nations.

Secretary of State Dulles, Britain's Anthony Eden and France's Georges Bidault turned him down in secret as they previously had in public.

The four-hour secret session, first of the two-week-old conference, produced a communique stating the four had agreed to take up the long-stalled Austrian independence treaty by Friday at the latest. Reports today were that this was about the only thing accomplished.

The conference swung back to public discussion of German unification today with evidence mounting that it will end in a week or 10 days without producing any new East-West agreement of substantial importance.

In this respect, Western ministers had looked to the secret talk yesterday for clues as to what Molotov might really want to accomplish in Berlin.

Boy Scouts 'Take Over' City in Observance of Birthday

For a little more than four hours yesterday, our city was being run by Pontiac's future citizens in celebration of the 44th birthday of the Boy Scouts of America.

The wheels of municipal government "turned no less smoothly," City Manager Walter K. Willman said as he supervised the young politicians' civic project.

A city commission was immediately set up by the Pontiac Scouts and Explorers and it undertook an impressive agenda.

"If the Scouts had it their way," Willman said after the meeting, "there would be a \$3,500,000 expansion program going on at Pontiac General Hospital."

Headed by Mayor Duke Cummins, 14, of troop 24 and a student at Washington Junior High, the commissioners also decided to open bids on a blacktop and recapping project for Pontiac streets.

Members of the city commission were Raymond Smith of troop 24; David Kimball of 7; Keith Mitterdorf of 7; Tom Poponea of 17; Gary Pace of 2 and Bob Smith of 10.

Taking over Pontiac's business in the city manager's office was Tom Furney of Post 13.

While the commissioners administered their duties, Jerry Ryan and Tom Harding of troops 7 and 8, respectively, heard grievances in Pontiac Municipal Court under supervision of Pontiac Judge Maurice E. Finnegan.

Taking part of police activities were Captain Frank Taylor of troop 2, chief of detectives, Don Hardy of Post 13, head of uniform division.

Fire Captain Bruce Gillies of Post 13, and Captain Bernard Wright, 5, were at Fire Station No. 1 and Captain Art Polley of 56, and Captain David Birchmeir (Continued on Page 2, Col. 6)

Laos Defenders Vow to Hold Against Rebels

Brace for Red Attack at Any Moment; Civilians Leave Homes

SAIGON, Indochina (AP)—French and Laotian defenders of Luang Prabang braced today for an "imminent" attack from the Communist-led Vietminh.

The rebel invaders were reported within 25 miles of the royal Laotian capital on the banks of the Mekong River.

Laos' rheumatic old King Sisavang Vong vowed once more the city of 142,000 would be defended "until the end."

He made the same pledge last spring when the Vietminh invaded to within 12 miles of Luang Prabang, then withdrew without a major battle.

This time there was every indication the fight would be joined.

The French said they had completed their major defenses against the onslaught.

The Vietminh invaded Laos from the north early last week, sending at least a division through the jungles and down the valleys of the Hou and Suong rivers toward the capital.

As the rebels advanced the French and Laotian forces and many civilians withdrew under the cover of intensive French air bombardment, leaving rice stocks burning behind them in an effort to destroy food the Red fighters need.

Though the Vietminh were reported officially within 25 miles of Luang Prabang, it was possible their advance troops were closer.

Officials said yesterday the invaders had been stopped, at least temporarily, as they tried to force a crossing of the Suong in the area of Pak Seng, 37 miles northeast of Luang Prabang and strategically located at the juncture of the Suong and Seng rivers.

Today military authorities said it appeared likely the French-Laotian forces had abandoned Pak Seng, though there was no confirmation of this. That point is a (Continued on Page 2, Col. 5)

Hoffa Ordered to Show Cause

Oakland Judges Also OK Injunction Against Teamsters Local

A show cause order against James R. Hoffa, International Teamsters (AFL) vice president, and a temporary injunction barring Pontiac Local 614 "from taking any action which will . . . interfere with the peaceful pursuit of the plaintiffs' employment" were approved by three Oakland County Circuit Judges late Monday.

The injunction and show cause order followed a bill of complaint filed Saturday by Pontiac attorney Louis W. Snyder representing an insurgent faction of union members.

The group, which contends that Hoffa and his agents have been administering their trusteeship as officials, demands accounting of local funds claimed to be in excess of \$1 million.

Presiding Judge H. Russell Holland said a hearing has been set for March 9 to consider concurrently the show cause and injunction.

Although the bill of complaint also names International President Dave Beck as one of the defendants, Judge Holland said his appearance would not be necessary. The order names Hoffa, appointed trustee of the local by Beck, and representatives and agents of the Pontiac local.

The order by the judges, who will sit en banc at the hearing, stated:

Hoffa and his local representatives are asked to show "why they should not be restrained from taking action . . . in any way interfering with such status as they now may possess as members of the union now in trusteeship, and from destroying any of the union records . . ."

No GIs to Indochina

WASHINGTON (UP)—Sen. Knowland (R-Calif.) told the Senate yesterday he could give "categorical assurance . . . there is no intention to send" American combat troops to Indochina, scene of long warfare against Communist-led forces.

He declared that shipments sent through these points bypassed Sinuiju, Chongjin and Manpo—three of the five treaty-designated North Korean entry ports where neutral inspection teams are stationed.

In addition, Lacey said, reinforcing planes have been delivered to the Pyongyang, Taechon, Uiju, Sinuiju, northeast Wonsan, Saamchan and Anson airfields.

Foe Reported Sneaking Goods to North Korea

U. N. Calls On Neutrals to Investigate Shipments of Planes, Materiel

PANMUNJOM (INS)—The United Nations Command formally accused the Communists today of having "violated the armistice agreement" by smuggling war plane reinforcements and other combat materiel into North Korea.

Demanding immediate on-the-spot neutral inquiries, the Allies charged that the Reds were sending the illegal shipments from Manchuria through two unauthorized Korean entry ports and around three inspection points to avoid detection.

The indictment was one of the most serious the Allies have filed against the Communists since the Korean cease-fire went into effect 6½ months ago.

The grave allegations were made in a note from Maj. Gen. J. K. Lacey, senior U. N. member of the joint Allied-Communist Armistice Commission, to the Neutral Nations Truce Supervisory Commission in Panmunjom.

Lacey demanded that the neutral commission launch an immediate "thorough" investigation of the Allied charges.

The senior U. N. armistice commissioner asked the four-nation supervisory body to send inspection teams "within 48 hours" to North Korean towns he named as points through or to which the Reds have been smuggling arms and equipment.

Lacey proposed that the inspection teams remain at these points for "at least one month, or longer if required" in order to obtain full evidence of the Communist shipments of "reinforcing" war material from Manchuria.

The American general charged that the illegal shipments included combat aircraft delivered over non-authorized routes to the main and the east airfields at the North Korean capital of Pyongyang.

He declared that shipments sent through these points bypassed Sinuiju, Chongjin and Manpo—three of the five treaty-designated North Korean entry ports where neutral inspection teams are stationed.

Windstorm Spoils Climax of Tampa Pirate Festival

ST. PETERSBURG, Fla. (UP)—A windstorm whipped up seven-foot waves in Tampa Bay Monday night, capsizing a small boat with four boys aboard and forcing 55 passengers to flee in life rafts from a battered pleasure ship.

One teen-age boy was dead and another was missing after a rash of boating accidents climaxing festivities of the annual Gasparilla Celebration at Tampa.

Legislative Blocks Stymie Solutions to Birmingham Parking, Pollution of River

From Our Birmingham Bureau
BIRMINGHAM — The city commission came up against legislative blocks on two major points last night—off-street parking and pollution of the Rouge River.

The lack of legislation is stymieing solution to both problems. The city is considering financing off-street parking by bonds based on parking meter revenue and annual service charge from nearby merchants, instead of assessments.

According to City Manager Donald C. Egbert, the passage of enabling legislation for this type of financing would be needed, plus favorable action by state courts before bond experts would give an approving opinion.

Egbert added that this might take two years, and the commission instructed him to study the assessment method as employed for parking finances in Kalamazoo and East Detroit.

As far as ending the pollution of the Rouge River, which Birmingham, Bloomfield Hills, Bloomfield and Southfield Townships have been ordered to do by the State Water Resources Commission, lack of legislation poses another problem.

A \$2,500,000 interceptor sewer up the Rouge River has been proposed as the solution. It would funnel the waste to Detroit for treatment.

However, townships at present cannot issue bonds based on special assessments, and this is necessary to finance the project. A new bill before the state legislature would allow the townships to levy such assessments, according to Egbert.

The lawmakers agreed to proceed with improving the city's present sewage disposal plant, by the installation of aeration equipment, and to study further improvements.

Stolen Car Found, Two Suspects Held
Combined efforts of three Oakland County police departments early today netted them a stolen car and two suspects now being held in Oakland County Jail for investigation of car theft.

Patrolman Harold Sitzes of Oxford first heard the stolen car report as he was patrolling about midnight.

A short time later he spotted the stolen car, which had been abandoned about a mile south of Oxford on M24, and notified Lake Orion and Oakland County Sheriff's deputies to watch for suspicious pedestrians.

Patrolman Neal Leonard and Deputy Ted Kentros arrived, searched the area by car and found two Alanson men, Jerry R. Henry, 19, and Darwin J. Honeysette, 21, trying to hitch a ride.

Under questioning by the three policemen, the youths confessed to taking the car from Birmingham last night, according to Kentros.

He also was carrying on a tradition started by his father, in that he was writing a Christmas carol each year at Christmastime. Plans are in the offing at the present time to have these carols recorded.

Surviving are his widow, the former Anne P. Short, whom he married here eight years ago; a daughter, Diane; a sister, Mrs. William C. (Deborah) Norvell of Bloomfield Hills, and a brother, the Rev. John Burt of Youngstown, Ohio.

Funeral will be in Los Angeles Wednesday morning with cremation there later in the year.

The family requests that any memorials be made to the American Cancer Society.

The baby was dead at birth Sunday in Pontiac General Hospital.

Besides her parents she is survived by a sister, Medora Ruth, and a brother, Robert Jr., at home.

Flint Mother, Child Die in Attic Blaze
FLINT — A 36-year-old mother and a son died in an attic fire at their home early today. Seven other children were rescued.

Mrs. Rachel Kendall and her son, Harvey Jr., 4, perished. The mother was burned and suffered a skull fracture in a 30-foot leap from an attic window. Her son was trapped in the flames.

Mrs. Calvin Langston, 30, whose family shared the home, led seven children from the flaming attic bedrooms. She said Harvey Jr. refused to leave.

Mrs. Kendall was watching television on the floor below when the fire was discovered. She ran to the attic but jumped from a window to escape.

Fire Marshal Harold Chirgwin said the fire apparently was caused by hot ashes taken from an attic stove and placed in cardboard boxes in the room.

Four families totaling 25 persons lived in the dwelling, Chirgwin said.

Kelly pleaded guilty in Oakland County Circuit Court to the knife slaying of his landlord, J. R. Simpson, which he said was provoked by a quarrel.

The commutation makes Kelly eligible for immediate parole. He will live with an aunt in Illinois.

Nine Governors Meet in Detroit

Discuss Problems of Mental Health in 2-Day Conference
DETROIT — Training, research and interstate cooperation were up for discussion today as governors from nine states met with medical experts and legislators for the second session of the two-day Governors' Conference on Mental Health.

Minnesota Gov. C. Elmer Anderson was selected as presiding officer of the early session which expects to hear recommendations of the governors' conference on how the states may better prevent and treat mental illness.

The conference, first of its kind on a national scale, began yesterday with lawmakers and medical experts discussing formal plans to combat the problem.

Dr. Kenneth E. Appel, president of the American Psychiatric Assn., said mental illness is a billion dollar business. As such, he said, it should not be left to underpaid and inadequate staffs in central state bureaus and individual hospitals.

Dr. Appel said increased salaries and personnel befitting a billion dollar business would improve standards and alleviate help shortages.

He said, in a luncheon address yesterday, that research is the best and ultimate preventive in the problem of mental illness.

The conference is a result of a request made last August at the Seattle meeting of the governors' conference.

key to the Suong, which empties into the Mekong a few miles north of Luang Prabang.

In Luang Prabang all able-bodied men were ordered to dig shelters against mortar fire and build defense works. Government workers were enlisted for civilian defense and firefighting work. The beating of gongs in the sacred pagodas was to be the signal for the danger alert.

The King's son, Prince Savang, in a public statement declared the fall of Luang Prabang to the Communist-led forces "would not only be a national catastrophe but would have enormous repercussions on world opinion."

"In defending Luang Prabang," he added, "we are protecting the gateway to Thailand, Burma and all Southeast Asia."

Awaits Examination in Manslaughter
Edward R. Duncan, 19, of 163 W. Yale Ave., involved in a fatal auto accident Sunday, demanded examination on a manslaughter charge Monday after appearing before Municipal Judge Maurice E. Finnegan.

Duncan, who failed to post a \$500 bond, was returned to the Oakland County Jail to await examination Feb. 17.

A warrant approved Monday by Homer G. Gerue, assistant Oakland County prosecutor, charges Duncan was driving under the influence of liquor when the accident occurred at Montclair Ave., at Perry St.

The driver of the other car, Clyde E. Stewart, 34, of 61 Mechanic St., died in Pontiac General Hospital following the accident.

Duncan told authorities he didn't see the Stewart auto until the crash.

Two Teenagers in Stolen Car Caught Quickly

Freedom for two 15-year-old juveniles who escaped yesterday from the Oakland County Children's Home ended minutes after authorities broadcast their description and the license of their stolen car.

Pontiac Patrolmen James F. Bale and Gene Rodgers, who figured the boys would head towards Detroit because they live in that area, parked their patrol car at Woodward Ave. and Square Lake Rd.

About three minutes later the boys drove by and a two-mile chase began, ending in arrest for the youths in Bloomfield Hills.

An attendant at the home had first notified police that the car, owned by Mrs. Mildred Ramsey, children's home supervisor, was missing.

The youths, with records of auto thefts and burglary, were shoveling snow before they fled in Mrs. Ramsey's car.

Aber had a 1-1 record with Cleveland last season when Detroit acquired him in a mid-June trade. He posted a 4-3 record with the Tigers and was highly effective in several games.

Baumgartner started the season at 3rd base for the Tigers but was shipped to the minors after seven games.

Cruze was in the armed services for the last two seasons.

Top Court Rules Against Bookie

Conviction in California Upheld Despite Paying U. S. Gambling Tax

WASHINGTON (AP)—The Supreme Court says anybody who buys a \$50 federal gambling tax stamp does not at the same time gain immunity from prosecution by state officials.

The tribunal voted 5-4 yesterday to uphold the conviction of Patrick E. Irvine, Long Beach, Calif., on bookmaking charges. Justices handed down five separate opinions, each of them critical of methods used by Long Beach police in getting evidence against Irvine.

Irvine contended the \$50 federal tax is the equivalent of a license, but Justice Jackson said in the main opinion this contention could not stand against a provision in federal law that payment of the \$50 does not exempt anyone from prosecution under state gambling laws.

However, Jackson denounced the Long Beach police for using what he termed "almost incredible" methods of collecting evidence against Irvine.

The officers broke into Irvine's house during his absence, installed a microphone, and listened to conversations for over a month.

Jackson cited a 1949 Supreme Court decision that the constitutional guarantee against unreasonable search and seizure protects citizens against such state action.

He and Chief Justice Warren suggested the high court ask Atty. Gen. Brownell to find out if Long Beach police violated Irvine's civil rights. The other seven justices refused to go along on this suggestion.

But the Justice Department said later the Supreme Court criticisms had prompted Asst. Atty. Gen. Warren Olney III to ask the FBI to make a complete investigation. The California attorney general, Edmund G. Brown, was notified of the coming probe.

Corn and Oats Ease Up Today

CHICAGO (AP)—There was enough selling pressure in wheat and soybeans on the board of trade today to keep both cereals under restraint while the feed grains eased.

Some of the selling in wheat and soybeans may have come from short-term traders willing to accept profits after yesterday's upsurge. That did not hold for corn and oats, however, as they were anything but buoyant yesterday. Main reason for their easiness apparently was liberal receipts of cash corn.

Wheat near the end of the first hour was 1/4 cent lower to 1/2 higher, March \$2.13 1/2, corn 1/4 lower to 1/2 higher, March \$1.53 1/2, oats 1/4 to 1/2 lower, March \$1.23 1/2, soybeans 1/4 lower to 1/2 cent higher, March \$13.18 1/2, and lard 3 to 12 cents a hundred pounds lower, March \$16.80.
