Harsh Campaign Grinding to Close

WASHINGTON (AP) — The long, strident election campaign comes to a close today with every indicator of a computerized, poll-conscious era pointing toward victory for President Johnson.

In 27 hours of elapsed time, beginning at 12:01 a.m. EST tomorrow in some New England towns and winding up with the closing of polls in western Alaska, some 70 million Americans will choose a president, 25 governors, 435 House members and 35 senators.

Although he made no predictions on the extent of the victory he confidently expects, President Johnson obviously hoped he would roll up more than the century's record 60.8 per cent of the vote registered for Franklin D. Roosevelt in 1936.

This would give him a massive victory in the 538-vote electoral college.

GOP presidential nominee Barry Goldwater was predicting the "upset of the century" would make him the winner despite the poll indicators against any such result.

Privately his aides were conceding only Massachusetts, Connecticut, Rhode Island, Alaska and Hawaii to President Johnson.

Aides of Johnson said they had given up only on Mississippi and Alabama.

They believe they have a chance to carry every other state, including Johnson's native Texas and Goldwater's native Arizona.

The two standard-bearers make final televised bids for votes tonight.

TV SPEECH
The President and his running mate, Sen. Hubert H. Humphrey, will appear on a pre-recorded program arranged for 10:30 p.m. EST on the NBC network.

Goldwater and his running mate, Rep. William F. Miller, will appear on a pre-recorded 9:30-10 p.m. EST program to be carried by CBS.

Johnson heads for Texas this afternoon for election eve campaigning in Houston, Pasadena and Austin.

Then he will fly with his family to their Johnson City home to await tomorrow's returns.

IN CALIFORNIA
Goldwater, battling to win vital California, speaks today in San Francisco.

Tonight he ends his vote hunting travels in the little Arizona town of Fredonia, where he wound up both of his Senate campaigns.

Then he flies to Phoenix to spend election day with his family at their home overlooking the Arizona desert.

Miller spent yesterday in Washington and plans to remain in the capital today before

going to his Lockport, N.Y. home tomorrow.

SCHEDULED RALLIES
Humphrey scheduled rallies today in Los Angeles and Salt Lake City before winding up in Minneapolis.

He will be at his Waverly, Minn., home tomorrow.

In a campaign generally regarded as the bitterest in modern times, Johnson rode the issues of peace and prosperity.

He tabbed Goldwater as an "extremist" and as a man whose finger could not be trusted. (Continued on Page 2, Col. 6)

Ticket-Splitting Big Factor in Romney-Staebler Race

DETROIT (AP)—Michigan voters decide the fate of Republican Gov. Romney and help select a president tomorrow in a general election that climaxes an unparalleled campaign.

If heavily favored President Lyndon B. Johnson and barely favored Gov. Romney win, they'll need some of the most extensive ticket-splitting in Michigan history.

Effects of civil rights, elements of a party split, reapportionment and even entirely new offices swirl about the election.

A United States senator, 19 congressmen, 148 legislators, three other state administrators, 12 education policy-makers, nine judges for a new court of appeals and a myriad of local officers will be picked by the electorate.

They'll also decide whether to retain the present party ticket ballot or switch to the Massachusetts, or office block, ballot form.

President Johnson, a Democrat, is expected to sweep past the Republican nominee, Sen. Barry Goldwater, by from 300,000 to 600,000 votes. That would earn him 21 electoral votes.

KEY FACTOR
The size of Johnson's margin, if he wins, is expected to be a key factor in determining Romney's race against U.S. Rep. Neil Staebler, a former Democratic state chairman.

That contest, after centering

Cloudy, Warmer Is Forecast for Area Children Win Prizes in City JC Contest

Clouds will hang over Pontiac for the next three days, though temperatures will be above normal for the next five.

The mercury is expected to register an average of eight to 12 degrees above the normal high of 50-54 and low of 33-37.

Precipitation is expected to total one quarter to one half-inch in showers predicted for Tuesday night or Wednesday and Saturday.

The low before 8 this morning was 50. By 2 p.m. the mercury had risen to 67.

Top winner in the annual citywide Halloween Mystery Treat Contest in the grade school age group was 7-year-old Tommy Pittman, 7, of 601 De Soto Place. Tommy won a bicycle.

Second place winner in the grade school age group was James Graham, 10, of 187 Kuhn St. James, who won a radio, is 7 and attends LeBaron School.

Third place prize of \$5 went to Regina Power, 6, of 437 Bartlett, of Bethune School.

In the junior high group, Vicki Conway, 12, of 583 East Tennyson, won the wristwatch. Vicki attends Madison High.

Second place prize in this group, a pen and pencil set, went to Ralph Diaz, 15, of 181 Parkin. Ralph attends Eastern High. Third prize of \$5 went to Dolores Gomez, 12, of 110 East Princeton. Dolores attends Kennedy High.

Senior high school group, first prize, a wristwatch, went to Sandy Ottimer, 17, of 145 Oliver, who attends Pontiac Northern.

CENTRAL STUDENT
Pam Powers, 16, of 1796 Lakeland, Sylvan Lake, received the pen and pencil set. Pam is a Pontiac Central student.

Third prize, \$5, went to Carmella Rosell, 16, of 687 Rascoe, a Pontiac Northern student.

The Mystery Treat Contest is sponsored by the Pontiac Area Junior Chamber of Commerce in cooperation with the Pontiac parks and recreation department.

Some 22,000 registration blanks were delivered to every school with the Pontiac school district.

Carl W. O'Brien, state senator, Democrat.

Election Day Tomorrow

Big Slate for County Voter

Redistricting, Constitution Main Reasons

91 Candidates Are on Ballot, in Addition to Those at Local Level

Oakland County voters will go to the polls tomorrow to face the largest slate of candidates ever assembled in the county for a general election.

A total of 91 Democratic, Republican and nonpartisan candidates are seeking national, state and county offices; in addition to candidates for township offices.

Incomplete slates of national and state candidates have also been posted by the Socialist Worker, Socialist Labor and Freedom Now parties.

State reapportionment and Michigan's new constitution are the main reasons for the lengthy list of candidates.

Oakland County is now divided into 10 State House districts instead of six.

SENATE DISTRICTS
There are now four State Senate districts in the county instead of one, and Oakland's one congressional district was divided into two.

Each voter's choice, however, will be limited to one state representative, one state senator and one member of Congress.

The ballot will contain only the names of candidates representing the district in which the vote is cast.

NEW FEATURE
Another new feature provided by the constitution is the election of township officials in November. Up until this year, township elections have always been held in the spring of odd-numbered years.

If campaign issues and the number of offices to be filled were the sole determining factors, a record turnout of voters could be expected.

The total voter registration has been reduced substantially, however, by a recent Michigan statute which calls for revision of registration lists every two years. (Continued on Page 2, Col. 3)

CONG ATTACK — A weapon is dragged from the burned wreckage of a U.S. Air Force B57 following a Communist Viet Cong mortar attack on Bien Hao Air Base in Viet Nam.

Four Americans were killed and 31 injured. Other damaged B57 bombers are in the background.

Says K Suffers From Disease

Danish Red Vague in Report of Sclerosis

COPENHAGEN (AP) — Denmark's Communist party leader returned from Moscow today and said he understands Nikita Khrushchev is suffering from sclerosis.

Knud Jespersen, chairman of the Danish Communist party, added that the former Soviet premier is not receiving visitors because of his illness.

Jespersen made his remarks in a radio interview shortly before holding a news conference to announce the results of his fact-finding mission to the Soviet capital.

The dictionary definition of Sclerosis is: "Induration (hardening) produced in an organ by increase of its interstitial connective tissue; also degenerative replacement of tissues of the spinal cord or brain by neuroglia (tissue which fills the interstices and supports the essential elements of nervous tissue, especially in the brain, spinal cord and ganglia)." Khrushchev is 70.

Jespersen was vague on the precise nature and gravity of Khrushchev's reported illness. He described it only as sclerosis. (Continued on Page 2, Col. 8)

5 GIs Killed, 27 Planes Hit

Say No Stopping Cong Strikes

SAIGON, South Viet Nam (AP) — U.S. military sources said today the disastrous Communist attack on the key U.S.

installation at Bien Hoa could be repeated at a dozen or more bases in South Viet Nam.

What's surprising is that the Viet Cong did not strike soon after the attack on Bien Hoa.

The Viet Cong plastered the air base 18 miles northeast of Saigon with 100 81mm mortar shells just after midnight Saturday, killing four Americans and wounding 31.

A fifth American was killed a few hours later in another mortar attack about five miles north of Bien Hoa.

Some predicted that the sprawling Tan Son Nhut air base in Saigon might be the next Viet Cong target.

27 PLANES HIT
The 30-minute attack on Bien Hoa destroyed or damaged 27 planes, including 20 U.S. Air Force B57 jet bombers. It also killed two Vietnamese and wounded five.

Gen. William C. Westmoreland, commander of U.S. forces in Viet Nam, said elaborate measures had been taken to protect aircraft at Bien Hoa and other key bases.

Some U.S. military sources, however, believe that given the security situation in the countryside and the Viet Cong's proven ability in swift night attacks, the Bien Hoa victory could be repeated.

The three biggest bases — Bien Hoa, Saigon, and Danang — have a number of things in common, all favoring the Viet Cong.

GOOD COVER
Each is surrounded at least in part by countryside where the guerrillas can find good cover.

Large Red forces operate in the general area of all three despite repeated government operations against them.

"Air bases can't move and the Viet Cong literally can come in and survey the base from mortar position and drive marking stakes," an American artillery officer said.

Defenses around the bases are in the hands of Vietnamese forces, not Americans.

ERRATIC PATROLLING
"Patrolling is sometimes erratic and Viet Cong infiltration to the base perimeter is not considered difficult."

Involved were unauthorized sale of state property at Camp Grayling, the Guard's summer headquarters, to private persons, illegal sale of alcoholic beverages at armories and juggling of military funds to build up the Grayling facility.

For Osteopath Center

Need College Funds

Pontiac has definitely been selected as the site of the proposed \$40-million Michigan Osteopathic College provided local business men can raise \$122,250 more to purchase the necessary site on Opdyke at Auburn.

Pontiac firms have already pledged \$252,750, but additional funds are needed before the move can become a reality.

"We are asking the community for a location, sewers and water," said Dr. Benjamin F. Dickinson, president-elect of Michigan Association of Osteopathic Physicians and Surgeons.

Then the Michigan osteopathic physicians are prepared to spend an initial \$3 million in establishment of a college in Pontiac.

When it opens, the school will carry 280 medical students and employ 1,714 people.

PREDICTS INVESTMENT
Dr. Dickinson predicted that \$20 million would be invested here in the next eight years and the annual payroll would total between \$10-\$12 million.

Persons seeking to assist in making the college become a reality can contact Max Adams, manager of the Pontiac Area Chamber of Commerce.

Old East Germans Visiting in West

FRANKFURT, Germany (AP)—The Communists for the first time let large numbers of East Germans visit the West today for tearful reunions with relatives. The visitors are old persons who no longer work.

The first group of pensioners arrived by train in central Germany from Leipzig shortly after midnight. During the next year as many as 3.2 million of them are expected to enter West Germany in the largest East-West crossing since the Iron Curtain came down at the end of World War II.

East German Communist leader Walter Ulbricht approved "Operation Oldster" last August in an apparent bid to improve relations with the Lutheran Church, which reportedly suggested the visits. The East German press hailed the arrangement as "proof of the Communist regime's 'humanitarian attitude.'"

The pensioners, men over 65 and women over 60, had permission to remain in the West a month. The Red regime did not appear concerned over the possibility of defections, presumably because the old people are no longer a factor in East German production.

REUNION PAYMENTS

Previously, elderly East Germans were permitted to leave only if they renounced their pension payments. Now if they defect they can get West German pensions. West German officials said all who wanted it would be given asylum, but no official effort would be made to get any defect.

Residents at Wolsburg, the first train stop in West Germany, greeted the tired but happy travelers from Leipzig. Red Cross nurses gave them refreshments.

Meanwhile, hundreds of thousands of West Berliners are going through the wall to visit relatives in the Soviet sector of divided Berlin. Nearly 100,000 with the necessary permits made the crossing Sunday.

The Communists opened the wall last Friday for the second time since it was erected in 1961. It will remain open until Nov. 12 in the first of four visiting periods during the next year.

The West Berlin government, in order not to endanger the visiting agreement, reportedly has threatened to jail persons who help refugees flee from East Germany while the wall is open. West Berlin police also were said to be under orders not to publicize any wall incidents.

SISTERS REUNITED — A West Berlin woman (left) embraces her sister in East Berlin after coming to the Soviet sector yesterday with a pass issued under a new East-West agreement. The East Berlin woman greeted her sister at the crossing point of Oberbaum Bridge.

Man Is Held in Gun Death

One Killed, One Hurt in Shooting Incident

A Pontiac man is being held at the Oakland County Jail for investigation of murder following a multiple shooting incident Saturday night at 434 S. Saginaw.

Dead is Lawrence Cleghorn, 23, of 434 S. Saginaw. O'Dell Sneed, 30, of the same address, is in critical condition at Pontiac General Hospital with gunshot wounds in his left side and leg.

Police said Argen White, 38, of 31 Edmund admitted he shot. He said the gun went off accidentally during a struggle between the two victims and himself.

Cleghorn, Sneed and two women, Jessie Gray of 143 Elm and Minnie Stuckey, 28, of 178 Carr, were drinking at Cleghorn's apartment when White came in with a gun in his hand. Miss Gray told Pontiac Police.

White wanted Miss Stuckey to go with him but she refused, she said.

HEARD SHOTS

White grabbed the Stuckey woman and the two victims attempted to aid her, Miss Gray said. She told police she heard one shot and ran out of the room. Three or four more shots were fired, she said.

Police arrested White a short time later at Carr and Mount Clemens. He had a 38-caliber revolver in a holster strapped on his side.

Senior Assistant Prosecutor Robert E. Temple said he would decide if he would press murder charges after he had talked to Sneed, who was the only witness to the actual shooting.

Birmingham Area News

League Backs Proposal to Change City Charter

BIRMINGHAM — The League of Women Voters of Birmingham-Bloomfield has placed its stamp of approval on the proposed city charter amendment providing for initiative and referendum.

The proposition received the backing of the league despite the alterations made by the City Commission in the original proposal of the group.

The proposition placed on the April ballot does not include provision for zoning changes initiated by residents.

However, the Birmingham electorate would be able to call for a referendum election on zoning changes if the amendment is adopted.

A letter stating the position of the league is included in tonight's City Commission agenda.

REASON FOR SUPPORT

In it, Mrs. Garvin Bawden Jr. cites the reason for the group's support of the proposition despite the exclusion of zoning in the initiative section.

"Although zoning was not an exclusion in the (league's) model city charter, our members did not feel that its exclusion from the initiative, in this instance, was of sufficient importance to deter from approving the Commission's proposal," she wrote.

Mrs. Bawden added that the group believed its position on the exclusion to be correct "particularly since the question has been raised about its legality with reference to the state's zoning laws."

Also on tonight's agenda is a hearing on the vacation of an alley long used for lawns.

The 12-foot-wide strip runs southeast-northwest in the block bounded by Ann, Landon, Purdy and George.

CITY PLANNERS HAVE recommended that the change be made and that the property revert to abutting owners.

George Talburt, planning board chairman, noted that the group did not believe the property ever would be needed as an alley.

Another vacation, this one of Manor Park Road, also will be discussed at the 8 p.m. Commission meeting.

Commissioners will be informed of the determination.

Freeman Seeks Appeals Post

(EDITOR'S NOTE — This article was inadvertently omitted Saturday in a pre-election roundup of nonpartisan judicial candidates seeking a post on the Court of Appeals in this area.)

Donald R. Freeman, candidate for non-partisan Court of Appeals in the Second District, has been a Flint municipal judge seven years.

A leader in opposition to a city income tax proposed for Flint, he was largely responsible for exposure of the Flint-Lake Huron pipeline scandal.

Judge Freeman, 49, entered private practice in 1948 after graduation from Wayne State University. He has been active in community service work and the National Cystic Fibrosis Foundation.

Freeman

October's Moods

Dry, Cool and Pleasant

October reigned as the last gasp of summer and the first breath of winter — and it was the driest October in 40 years.

In the middle of October, Mother Nature interrupted her Indian Summer to give us a taste of colder weather to come.

On Oct. 11, we were treated to a freeze of 23 degrees which killed off a considerable part of autumn color.

Otherwise, October was a generally pleasant month with 18 sunny or fair days; eight days of cloudy or partly cloudy weather, and only five days of rain, if you could call them rainy days.

Actually, the rainfall for the month measured only .47 inches, tying the record for dry Octobers set in 1924.

SOME HAIL

Then, to make things interesting, we had a little hail on Oct. 19, and seven days of 72 degrees or higher, with a high of 80 on Oct. 17.

Mean temperature for the month was a pleasant 48.2 degrees with cool nights and comfortable days.

October 1963 came near the record dry with .50 inches of rain. The mean or average temperature last year in October was 62.7.

Indian Summer last year was a high of 86 degrees, a low of 31 (one night), and there were 14 days with temperatures of 72 degrees and over.

Huge Slate Faces Voters

(Continued From Page One)

years instead of every fourth year.

The law requires removal from the registration lists the names of voters who have not voted the polls within the past two calendar years.

Elections officials say many voters are not aware their registration has been canceled, and many others who are aware of it haven't bothered to reregister.

The result will be a smaller vote than could normally be expected, officials say.

County Election Clerk Mabel Child said there has been a unusual demand for absentee ballots. City Clerk Olga Barkley also reported an increase of about 200 over the total sent out in 1960.

A large absentee vote could delay final returns, as they are more difficult to count than machine or paper ballots.

Most voting in Oakland County will be done by machine, although there are still a number of "paper precincts" in outlying areas.

Poisonous 'Treats' Given to Youngsters

By United Press International

Trick-or-treating youngsters in at least three states were given poisonous or harmful "treats" on Halloween.

Police of Royal Oak Township today investigated reportedly poisoned bubble gum given to children on trick-or-treat visits in the township.

At least one child suffered a mouth burn from chewing the gum, police said. Several children reportedly received the chewing gum.

Parents were warned to be cautious about any gum or candy given their children.

The gum had been deliberately tampered with, police said. An acid drain cleaner pellet had been inserted into the gum, officers said.

DEADLY HANDOUT

Police seized one dispenser of the deadly handouts — a 47-year-old Greenwald, Long Island, N.Y., mother — and sought the source of poisonous treats in the two other areas.

Mrs. Helen Pfeil, a Long Island political and charity worker who told police she was annoyed by the Halloween custom, admitted putting together potentially dangerous bags of treats for youngsters who rang her doorbell Saturday.

The packages contained ant traps, metal mesh scrubbing pads and dog biscuits.

A neighbor discovered Mrs. Pfeil's efforts to discourage the Halloween tradition when she found poison-filled bottle caps in her daughter's trick-or-treat shopping bags.

"POISON"

The bottle caps bore the inscription "Poison — Keep Away from Children," and were marked with a skull and crossbones.

By yesterday, police had recovered four more such bottle caps from the parents of other children who visited Mrs. Pfeil's home. Mrs. Pfeil, who said she

ed near the button of nuclear weapons control.

MORALITY ISSUE

Offering what he called "a choice and not an echo," Goldwater zeroed in on "morality in the White House," crime in the streets, big government and personal freedoms.

He called the administration "soft on communism" and suggested that the solution of the civil rights problem lay in the hearts of men rather than in legal measures.

The Republican nominee's hope of victory is based on his belief that there is only surface support for Johnson and that a hard core of conservatives will get out an unexpectedly large vote for him, just as they did in the June 2 California primary which boosted him along to the party nomination.

His strategy is based on winning most of the South and carrying such key states as Illinois, Ohio, Indiana and California.

BUILT-IN ADVANTAGE

There was general recognition among Johnson's supporters that he had a built-in advantage as an incumbent president who took over after the assassination of President John F. Kennedy.

Hart has campaigned on his support of the Kennedy-Johnson administration.

"NICE GUY"

Mrs. Peterson says he's "a nice guy, but ineffectual."

Michigan is virtually certain to become the first state in the union to put two Negroes on its congressional delegation.

All three candidates in the 1st District are Negroes and Rep. Charles Diggs Jr., a Negro Democrat, is heavily favored in the 13th.

Republicans currently hold a 10-8 edge in the delegation with one heretofore-Republican seat vacant.

CLOSE RACES

The GOP seemingly will have to win the close races in the realigned districts to hold that edge.

Three present statewide officers—Highway Commissioner John Mackie, Aud. Gen. Billie Farnum and Treasurer Sanford Brown—seek congressional seats.

All are Democrats whose elective offices were abolished under the new State Constitution.

FOUR ADDITIONS — Mrs. Willie Lyons of Maury City, Tenn., wears four identification tags on her wrist at hospital where she gave birth to four children yesterday. The quads were born within five minutes, and then Mrs. Lyons had a hearty breakfast.

Father of Quadruplets Is \$28-Month Minister

JACKSON, Tenn. (AP)—The day-old Lyons quadruplets — Tennessee's first on record — are hale and hearty, but their minister father is concerned about how his family of 10 will manage in a four-room house and on his \$28-a-month salary.

The quads — Carlisle, Pollie Ann, Willie Jr. and Larnar — were born in a five-minute period early Sunday to Willie Grant Lyons, 35, a scant hour and 45 minutes after she entered Madiso County Hospital.

"The mother and quadruplets are doing just fine," a hospital spokesman said today. "We're really had some excitement."

Tennessee Public Health Department records dating back to 1877 list no other quadruple births. A department spokesman said Mrs. Lyons beat odds of 884,000 to one.

"I'm rejoicing," you can't do anything but rejoice," said the father. "But I haven't got any money and our four-room home isn't paid for. And now we've got eight children, it isn't big enough."

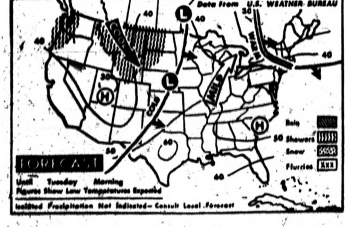

The Weather

(Full U.S. Weather Report)

PONTIAC AND VICINITY — Mostly cloudy with slight chance of light showers or thunderstorms today. High 60 to 64. Partly cloudy with little change in temperature tonight. Lows 42 to 47. Increasing cloudiness and continued mild on Tuesday. High 58 to 65. Southerly winds 10 to 20 miles today shifting to southwesterly tonight. Outlook for Wednesday, decreasing cloudiness and turning cooler.

Sino-Soviet Friendship Urged

MOSCOW (UPI) — The new leaders of the Soviet Union have sent a message to their Chinese counterparts calling for "unbreakable friendship" between their two peoples.

The New China News Agency reported today in a Peking

broadcast that the message was signed by Soviet Communist chief Leonid Brezhnev, Premier Alexei Kosygin and President Anastas Mikoyan.

It was addressed to Chinese Communist Chairman Mao

Tse-tung, President Liu Shao-chi and Premier Chou En-lai.

But even as Peking was broadcasting the receipt of this message, the Soviet party newspaper Pravda printed a Kremlin policy statement condemning "dogmatism," "adventurism" and "chauvinism" — standard terms used by Moscow to describe Peking.

Pravda said the Kremlin is "actively advocating the convocation of an international conference of all Communist parties." But it made no specific reference to the Communist summit which former Premier Nikita Khrushchev had proposed for Dec. 15 as a prelude to ousting Chinese Reds from the international Communist movement.

TONED DOWN?
That meeting is expected either to be postponed or toned down.

The Kremlin message to Peking, as broadcast by the New China News Agency, expressed thanks for Peking's congratulations on the installation of the new Soviet leadership and the orbiting of the three-man Soviet spaceship.

It added: "May the solidarity of the Soviet and Chinese Com-

munist and the solidarity and unity of the entire international Communist movement be consolidated on the basis of Marxism-Leninism and proletarian internationalism."

"May the unbreakable friendship of the Soviet and the Chinese people be ever more consolidated in the struggle for peace, for democracy, for freedom of the oppressed peoples and for communism."

Pravda also proclaimed a

VITAMINS AND
STILL FEEL TIRED?

If you take vitamins and still feel tired, your trouble may be due to iron-poor blood. Vitamins alone can't build up iron-poor blood. But Geritol can! Because just two Geritol tablets, or two tablespoons of liquid Geritol, contain 7 vitamins plus twice the iron in 1 lb. of calves' liver.

In only one day Geritol-iron is in your bloodstream beginning to carry strength and energy to every part of your body. Check with your doctor and if you've been feeling tired because of iron-poor blood, take Geritol, liquid or tablets, every day. You'll feel stronger fast in just 7 days or money back from Geritol.

*Due to iron deficiency

Two Church Fires, 23 Arrests Hinder Mississippi Mock Vote

JACKSON, Miss. (AP) — Leaders of a mock election among Mississippi Negroes said today they were up against intimidation that included two church burnings and 23 arrests.

FBI agents were assisting in the investigation of the church fires — some 200 miles apart. Over 30 Negro churches have gone up in smoke or explosions in the past few months.

James Farmer, head of the Congress of Racial Equality, said the church fires were "among" at least 40 separate instances of harassment, in addition to campaign workers arrests.

Farmer was in the state to help the Mississippi Freedom Democratic Party — MFDP — try to turn out a big vote in a mock election preceding Tuesday's real election.

Four days of balloting — conducted in Negro cafes, churches, stores — ends tonight.

It was an effort to "give disfranchised Negroes a chance to make their political views known," Farmer said.

It also was to form the basis of a possible MFDP challenge to the Democratic party credentials of the state's congressional delegation.

Most of the arrests, scattered over the state, were either traffic charges or distributing leaflets without a permit. Negro leaders say it is virtually impossible to get a permit.

\$500 BOND

In one case, at Canton, bond

was set at \$500 after Martha Wright, 25, a white volunteer worker from San Francisco, was arrested on the permit charge while carrying sample ballots.

Bonds of \$500 were set at West Point, where Joel Bernard of New York and Gavin Lewis of London, England, white volunteers, were arrested on the charge.

In most other permit cases bond was \$50 to \$100.

Learn Capitalism to Halt Waste, Castro Urges

HAVANA (AP) — Prime Minister Fidel Castro has called on his fellow Communists in the Cuban government to learn how to study capitalism to learn how to end waste.

"Capitalism is using its money, we Socialists throw it away," said Castro in a speech Saturday night.

The prime minister blamed the U.S. blockade for some of Cuba's economic problems but said "inexperience, irresponsibility and lack of capacity have also been the cause of many of our difficulties."

Castro said some government employees "have secretaries to answer the phone" and warned that he was considering a decree to freeze the present number of government workers.

An elephant owned by King Louis XIV did not die for 5 years. He slept on his feet, supporting his head by thrusting his tusks into two holes worn in the stone floor of his enclosure.

Bad Weather Delays

Adlai's Flight to Chile

MEXICO CITY (AP) — Adlai E. Stevenson, U.S. ambassador to the United Nations, left Mexico City for Chile today, but bad weather forced his plane to return to the Mexican capital.

The flight was scheduled to take off again for Santiago later today. Stevenson will represent President Johnson at the inauguration of Eduardo Frei as president of Chile.

He Suggests Walk to Polls

SEATTLE, Wash. (AP) — "Walk to the polls," the Rev. Peter S. Raible advised his parishioners at the University Unitarian church Sunday.

He said the right to cast a ballot in a free nation should be marked by a symbol with meaning, and the ease of auto transportation has given special meaning to pilgrimages on foot.

"We need occasional symbolic cues to remind us that certain small acts have vaster meanings," he said.

WOMEN PAST 21 WITH BLADDER IRRITATION

After 21, women who are past the age of 21, often suffer from bladder irritation. This is due to the fact that the bladder is a muscular organ and as we age, the muscles become weaker. This weakness can lead to bladder irritation, which is often accompanied by pain and discomfort. The condition is more common in women than in men, and it can be treated with medication and lifestyle changes.

Redistricting Plan May Give State Democrats First Legislative Majority in 26 Years

LANSING (AP)—The Michigan Legislature may change direction Tuesday.

Democrats are expected to become the majority party for the first time in 26 years — due primarily to a Democrat sponsored legislative redistricting plan, which followed landmark

guidelines laid down by the U.S. Supreme Court last June.

Tuesday's election also will produce the largest crop of freshman legislators in recent history — due to redistricting and the increasing of the Senate from 34 to 38 seats. Even if all incumbents are returned to of-

fice, a 47 per cent turnover is assured.

Democrats expect the new equal-population districts to give them at least 60 of the 110 House seats. Many Republicans also have conceded the House to the Democrats.

The Senate could be a 19-19 standoff, although some Dem-

ocrats say it can go as high as 21-17 in their favor with a large turnout and a landslide for President Johnson.

Republican State Chairman Arthur Elliott, however, hasn't given up either chamber to the opposition. He has predicted a slight GOP edge in the Senate and the House.

Anything over 60 seats will require "an act of God," another Republican spokesman said.

Republicans now lead 58-52 in the House and 23-11 in the Senate. Who does take over will depend on a large number of "swing" districts — where one

party or the other holds only a slight edge, based on past voting patterns.

The estimates vary. The State Chamber of Commerce counts seven in the Senate and 21 in the House. The party estimates range about seven or eight in the Senate and from 16 to 24 in the House.

The redistricting plan cut many legislators out of their old districts entirely. In the Sept. 1 primary election, 23 House members found themselves competing in the same territory with other incumbents. Fourteen of them lost.

As a result, only 15 incumbent senators will even be given a chance to try for another term. Sixty-four representatives have won the try-outs.

selves in the same position. Four of them lost.

When it was all over, nine senators and 26 House members were out of the race.

As a result, only 15 incumbent senators will even be given a chance to try for another term. Sixty-four representatives have won the try-outs.

It Seems to Me . . .

Tomorrow's Election Day; Be Sure to Cast Your Vote

We vote tomorrow.

It's a momentous occasion.

The greatest Nation on earth visits the polls to select public officials by the thousands and the winners are entrusted with the reins of government for two, four and eight years.

It's a moment of great decision. The entire Nation has re-vegetated for weeks as earnest candidates set forth their qualifications.

Here's a democracy at work. In Russia, you have no choice. The "Voice of the People" is stilled. You bow meekly before self-appointed leaders and accept arbitrary decisions without protest.

The most appalling weakness in our system lies in the indifference with which so many millions ignore our heaven-sent blessing and refuse to bestir themselves sufficiently to visit the polls.

Actually, this is a sacrilege. It's a note of open defiance.

It announces to the rest of the world that you aren't sufficiently interested in your Nation to trudge a few blocks to the polls and do your civic duty. Life doesn't consist of doing the things that are "handy" and "convenient" at the moment. This newspaper believes a penalty should be enacted from those who repudiate our republic and their conscientious fellow citizens by sitting back complacently and saying in effect: "Let George do it."

In most cases, two good candidates are opposing each other and we decide which of them should do the better job in office. Sometimes a weak man runs against a strong man and wins. That's the inescapable penalty of a democracy. These unfortunate decisions are the price we pay for the right to have a voice in government. Perhaps it is negligible in the circumstances.

Last Friday The Press offered suggestions for those who knew little about either candidate. We made no attempt to "change your mind" or elect a slate. We indicated both Republicans and Democrats. There were more Republicans for we believe the GOP ticket offers a stronger group. One of the glaring weaknesses of the Democratic party — and especially in Michigan — is the alarming number of incompetents who have "graced" the ticket. There have been too many "self-starters." Happily this number is decreasing. We recommended Democratic Senator Philip Hart, State representative Arthur Law and others.

For many years, Michigan was hamstringed by a weak Governor, but the electorate finally aroused itself and elected an exceptionally capable man. His work has been one of the splendid things on the American political scene. His opponent isn't nearly as incompetent as his Democratic predecessors, but GEORGE ROMNEY happens to be unusually capable and has two valuable years of accomplishments under his belt.

Don't be unfaithful to yourself, your family, your neighbors and your country. Vote.

Limit Government . . .

"The History of Liberty is a his-

tory of the limitations of governmental power—not the increase of it.

"When we resist the concentration of power, we are resisting the processes of death, because the concentration of power is what always precedes the destruction of human liberties."

These profound and prophetic words were uttered by one of the most scholarly and perceptive presidents of the United States in all history — Democrat WOODROW WILSON. In effect Mr. WILSON says that when you pour more and more authority into Washington, you are heading for destruction. And more power in Washington is one of the basic aims of his Democratic successors.

Would that his own party had harkened to him over the years. The United States would be on a sounder footing financially and in every other way.

And you would too—wherever you are—in this country.

And in Conclusion . . .

Jottings from the well-thumbed notebook of your peripatetic reporter:

"SPIKE" BRIGGS has been in a rough spot. His brother-in-law, PHILIP HART, is a Democratic candidate for the U.S. Senate and his son is a leading worker for a GOP organization . . . Traffic safety experts are floored. The death rate was around 36,000, moved up to 43,000, and 1964 promises to reach 48,000. From coast to coast traffic is setting all-time records — and that includes Oakland County . . . The Christmas trade will offer a doll that laughs when tickled and cries when spanked.

DOROTHY

Trusted scouts have advised me that Dorothy Worthman deserves mention as one of the especially attractive girls in the area . . . The final Dem battle cry was "Tom, Dick, and Barry," — meaning Tom Dewey, Dick Nixon and Barry Goldwater . . . The box-office "demand" for the Liston-Clay return match is setting an all-time low. There'll be almost as many in the ring as around it. "That Was the Week That Was" has been dumped six times by political activities and it couldn't have happened to a much weaker TV offering.

A recent New Jersey check indicates hitchhikers included runaways, military AWOLs, seven fugitives from mental institutions, five escaped convicts, and 510 people with criminal fingerprint records. So, go right ahead—and pick up a few more. J. EDGAR HOOVER says the worst offenders have the most innocent roadside fronts . . . JACKIE KENNEDY, with five residences on the market, has sold none because of too fancy prices . . . Dept. of Cheers and Jeers: The C's—BRUCE ANNETT for walwing his \$25,000 commission and doing stellar work in the Osteopathic College transaction; the J's—every one that doesn't vote.

Friendship

Indianapolis Star

A real friend is one who will continue to talk to you over the back fence even though he knows he's missing his favorite TV program.

Bad Apples

The Shreveport (La.) Times

President Johnson now has turned to that last of all resorts of political candidates who find themselves hurt by the other side — the charge of "smear." The President says that a "smear lash" has developed. He says that the phrase means that Republicans are coming over to him because he has been smeared.

What Mr. Johnson calls "smearing" is simply factual recitation of actions or lack of action by himself, or some of his friends. Any barrel may have a rotten apple. But when one rotten apple leads to a second and then to a third, and it is found that in each of these cases there was effort to cover up the rotten apples, it is only natural to wonder what truly would be uncovered if the barrel were turned upside down.

There are three cases which are hurting Mr. Johnson politically and personally and which undoubtedly are the cause of his cries of "Smear!" All of these bad apples are out of Mr. Johnson's barrel, or at least his political orchard, to some extent. That is fact, not smear. His No. 1 political aide and intimate personal friend for years pleaded the Fifth Amendment throughout a full session of a Senate investigating Committee and Mr. Johnson did nothing about it except to let the investigation fold up.

His White House Chief of Staff and intimate friend and aide for 20 years turned out to have been a morale case security risk for at least five years.

A man who boasted that "Lyndon" would protect him is under two fraud convictions in connection with a collapsed \$32,000,000 empire built in part through using the Department of Agriculture for his own purposes.

If there is "smear" in this, it is not in discussing the truth, but in the truth itself.

Good Time

The Minneapolis Tribune

If Jimmy Hoffa has to serve any of his sentence, he expects time-and-a-half off for good behavior.

Clear Choice

Richmond (Va.) Times-Dispatch

Barry Goldwater is our clear choice for President of the United States.

The Senator from Arizona has ability, patriotism and dedication, yet he has been pictured as a wild man who would blow up the world. He is probably the most vilified and misrepresented statesman of his generation. To his credit, he differs with Lyndon Johnson on such vital issues as:

• Fiscal integrity and a sane relationship between income and outgo.

• The reduction of the enormous Federal bureaucracy which threatens to swallow us all, and for placing more reliance on the states and communities.

• Upholding the Constitution, and for a Supreme Court that will stop stretching that document beyond all recognition.

• The adoption of a firmer posture vis-a-vis global communism.

• A common sense, realistic attitude toward Foreign Aid.

There are those who say that Barry Goldwater would "destroy the gains" of the past 30 years, but they attribute to him views which, in most cases, he does not hold.

He would slow the headlong rush toward a bigger "welfare state," put the brakes on inflation and give primary consideration to American interests in world affairs.

On all these counts, he deserves election.

Tragic Thought

The Columbus (Ohio) Dispatch

The thought of Mr. Johnson being succeeded in office by his running mate, Hubert Humphrey, a founder of the ADA, a man who owes his nomination to left wing liberals and labor bosses and one whose political philosophy is even vastly more radical than Mr. Johnson's, is too tragic to contemplate. It would be unwise for voters not to consider such a possibility.

Goldwater and his running mate are of the same "ultra-conservative" nature — consistent in the defense of basic economic standards which are distasteful to liberal and socialist groups.

The Dispatch is firm in its belief that the Goldwater conception of governmental functions must prevail if the United States is to remain free, strong, solvent and respected throughout the world.

If the electorate wants to return to a higher plane of ethics, economics, international prestige, and show its concern for individual rights, it most certainly will elect Barry Goldwater the next President of the United States.

Bob Considine Says:

Fiery Campaign Blasts Just Smoke Up Picture

NEW YORK — There are no longer any "yes" or "no" answers left in this paltry parade of a presidential race.

The more the men talk, the smokier the picture, the more discouraged become many of their supporters.

Precious little has been said by either side to set men's souls soaring, free us of nagging fear and doubt. All too often — particularly where Goldwater, Miller and Humphrey are concerned — the declarations have taken on the rootless cackle of a dispute in a chicken house.

The President's tongue — tied twang is earnest — sounding enough, but this clearly is not a time the historian will point to as an era when giants trod our political stage.

What one must strive to do, as Milton Kaplan pointed out so well the other day, is to hack away the verbiage and the thrown garbage and make up one's mind about which fellow can best handle the White House job in all its ramifications, and which of the vice presidential choices is better equipped to pick up the terrible burden if the man on top should die or become disabled.

Mr. Johnson, as eligible must vote, even in a year when they may feel that they are being asked to choose a Cooperstown Hall of Fame nominee from the roster of the Mets.

It has been an overly long, much too costly campaign. The polls have changed only fractionally since the start weeks ago of the whole ugly organized character assassination.

LBJ LEADS

Mr. Johnson retains his overwhelming lead in face of an effort by the other side to persuade the voters to believe that his association with Bobby Baker and Walter Jenkins brought about a moral decline in the U.S., a nation which has been suffering moral declines of one sort or another since its birth.

Sen. Goldwater keeps his hard-core of loyalists in the face of the implied TV charge, since withdrawn, that he'd kill all small dairy petal-plucking girls with H-bombs, if elected.

Tuesday cannot arrive too soon.

The prestige of the United States of America, guardian of freedom everywhere and the last great hope of mankind, could scarcely weather another month of the saline nonsense that this year attends the solemn designation of the leader of the free world. (Distributed by King Features Syndicate)

Voice of the People:

Writers Cry Out Against Filth on Magazine Racks

The following is the answer from the Criminal Division, Department of Justice, to my letter expressing concern with the tremendous volume of pornographic literature so readily available.

Regarding freedom of speech and press, it said: "I am sure you will agree that it is more important that these constitutional guarantees be protected no matter how objectionable the material than that our freedoms be restricted."

Can parents concerned with the morality of their children accept this negative thinking?

MRS. JOHN W. KANE
CLARKSTON

The laws or city ordinances are not on our side, but public opinion can put them there. Parents band together, rid your communities of filth on magazine stands. It is our job, we are society and what we allow on our magazine racks is our concern or should be.

Let's hear a point of view from the druggists who help to heal bodies with their drugs in one part of their store and sicken minds in another.

Also, some opinions are needed from upstanding gentlemen in our communities as well as the Jaycees, PTA, etc. This job is too distasteful for women to handle alone.

MR. AND MRS. D. KLARK
CLARKSTON

Word of Praise for Sheriff's Department

We wish to praise the Oakland County Sheriff's Department for their quick responses and aid we received from them when our little girl wandered away from home. They were called, and within fifteen minutes they had her description and were looking for her.

Comments on Infant Mortality Record

In your editorial column you expressed amazement about the low, tenth position of the United States in saving babies during their first year of life.

It comes as no surprise to me that all of the nine countries that have a better infant mortality record are countries that have some kind of state-supported medical plan for their citizens, more commonly known as "socialized medicine."

After being charged over \$27 by Pontiac General Hospital for two stitches, my daughter's check, I wonder how much more we can take before this country adopts a rational medical assistance program for all of us.

Bobby Forces Admit Mistake

Not True Stevenson
Would Vote in N. Y.

NEW YORK (AP) — Republican Sen. Kenneth B. Keating has accused the forces of Robert F. Kennedy, his Democratic opponent, of "fabrication" in a newspaper advertisement which said Adlai Stevenson would explain on a broadcast why he is voting for Kennedy.

Keating said yesterday that Stevenson is a registered voter in Lake County, Ill., and had cast an absentee ballot there.

Debs Myers, spokesman for Kennedy's U.S. Senate campaign, said when told of Keating's charge that the ad "was an agency mistake, and it WAS a mistake."

Fred Papert, of Papert Koenig Lois, Inc., advertising agency, said the mistake was his.

Myers said what Stevenson "did say was that he wholeheartedly endorses and supports Mr. Kennedy. That doesn't change."

EXPLAINED FURTHER

Papert explained further:

"I just didn't know that he wasn't voting in New York. We just got the facts wrong. I wrote the copy myself, and I can't blame it on anyone else."

The ad appeared Saturday with the sponsor label of volunteers for Johnson - Humphrey-Kennedy.

No comment was available from Stevenson, ambassador to the United Nations. He was en route to Chile.

The largest flying creature ever on the earth was the extinct winged lizard, Pteranodon, which had an over-all wingspan of 27 feet.

Burial Slated at Arlington for Astronaut

HOUSTON, Tex. (AP)—A hero's burial will be accorded astronaut Theodore C. Freeman Wednesday in Arlington National Cemetery following services tomorrow at Seabrook, Tex., near here.

Freeman, 34, a former Air Force test pilot, was killed Saturday when his T38 jet crashed on a routine training flight.

An autopsy performed at the City-County Hospital yesterday showed Freeman suffered a skull fracture and severe chest injuries.

Dr. Donald I. Thurst of the aviation division of the Armed Forces Institute of Pathology labeled these as the cause of death.

Funeral service is scheduled

for 10 a.m. tomorrow in the Seabrook Methodist Church, with the Rev. Conrad W. Winborn, pastor, officiating.

Fellow astronauts and neighbors will serve as pallbearers. They are Dr. Clifford Duncan, and astronaut Charles Bassett, Michael Collins, David Scott, William Anders and Frank Borman. Duncan is director of the guidance and control division at the Manned Spacecraft Center. The body will be flown to Washington by commercial airliner tomorrow afternoon.

Horse Vexed by Car of a Different Color

WICHITA, Kan. (AP)—H. J. Knisley of Wichita wonders if the horse he encountered while on a trip to western Kansas was a horse of a different color.

Knisley filed a claim to his insurance company for a new paint job on his auto. The claim stated that a horse had gnawed paint off part of the car.

One Sparrow Tweets, Another May Twoot

COLUMBUS, Ohio (AP)—Birds of a feather don't always sing together, a study of several hundred thrushes, wrens and

mockingbirds by an Ohio State University zoologist indicates.

Dr. Donald J. Borror analyzed recordings of the birds' songs with a sound spectrograph. He produced graphs which show variations in pitch, speed and frequency.

FEDERAL'S-DOWNTOWN AND DRAYTON PLAINS

Prince Faisal Replaces Saud as King of Saudi Arabia

AMMAN, Jordan (UPI)—Crown Prince Faisal was proclaimed King of Saudi Arabia today, replacing his ailing brother, King Saud, Mecca, radio announced.

Faisal had acted as Saud's prime minister on and off for years. Today's announcement was not a surprise.

Middle Eastern capitals had buzzed this weekend with rumors Faisal was about to assume the Saudi crown. Earlier today Radio Mecca had promised "an important statement to the Saudi people."

Last March, King Saud signed away all of his powers except his actual title to Faisal, 38, who became regent.

Faisal's accession to the throne is expected to be a stabilizing factor in the oil-rich but backward kingdom of Saudi Arabia.

LIVED IN PAST

Saud had long been accused of living in the past, of squandering the nation's oil revenues on pleasures and palaces. Faisal is considered more businesslike, more forward-looking, more interested in building the schools,

roads, factories and hospitals that Saudi Arabia badly needs.

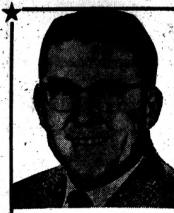

"Informed sources said the pressure on Faisal to take the crown has been mounting heavily for the past six months."

Reports here said Saudi Arabian princes and Ulema — Saudi Arabian religious leaders — argued that the move would

enable the crown prince to accelerate his program of fiscal, political and social reform.

Khaled, "another brother of the king, was expected to be named crown prince."

Political Coattails Getting Varying Use

By DILLON GRAHAM
WASHINGTON (AP) Candidates for governorships in 25 states have shown varying degrees of enthusiasm about riding the coattails of their party's presidential nominee.

Some are hanging on tightly others ride with one foot on and one foot off and some won't ride at all.

Voters in 11 states will select a new governor in Tuesday's elections. In 14 other states, they'll either reelect the present governor or choose his challenger. Eighteen of the 25 governorships now are held by Democrats.

The coattails of President Johnson or Republican Barry Goldwater could help some make it into the governor's

mansion, but for others, grabbing the coattail might be a dangerous move.

IGNORES BARRY

In Michigan, Gov. George Romney is ignoring Goldwater and the presidential campaign to run on the record of the prosperity he says he brought to the state. But Democratic Rep. Neil Stuebner, who seeks the governorship, won't let Romney forget Goldwater.

In Arkansas, where the racial issue and antipathy to the administration's civil rights record are a strong factor, Gov. Orval E. Faubus, has shown only lukewarm interest in the Johnson candidacy.

He is campaigning on his claim that he brought prosperity to Arkansas and portraying

Republican Winthrop Rockefeller as a rich, carpetbagger. Rockefeller has exhibited only slightly more enthusiasm for Goldwater than Faubus has for Johnson.

The coattail problem is summed up by Republican Warren P. Knowles, running in Wisconsin against Democratic Gov. John W. Reynolds.

"In a nonpresidential year I would swamp Reynolds," Knowles says, "but if Johnson carries the state by 100,000 votes I will be in trouble."

In big industrial Illinois, Democratic Gov. Otto Kerner and Charles H. Percy, his GOP opponent, are riding the coattails of their party's presidential nominees — Kerner to a greater degree than Percy.

PRESIDENT JOHNSON GIVES A TWO-ARM GREETING TO AN OLD FRIEND, BILLIE S. FARNUM

**"I Need Billie Farnum
In Washington"**

President Johnson said it as he warmly embraced an old friend, Congressional Candidate Billie S. Farnum, last Friday at Detroit Metro Airport.

If you are going to vote for President Johnson Tuesday, be sure also to vote for a man after his own heart — Billie S. Farnum, now Michigan's famous Auditor-General.

Car Hits Tree; 7 Youths Die

AUBURN, N.Y. (AP) — Seven youths were killed Halloween night near this central New York community when their automobile slammed into a tree in a residential area.

One boy's body was found 130 feet from the crash scene; the car's motor was flung 110 feet by the impact; bits of glass, metal and clothing littered the street, sidewalks and rooftops. Two victims were trapped in the car. Three others were found nearby. One was on the lawn of a nearby house, and the one 130 feet away was under a porch.

The youths were Steven Hall and Jack Raymond, both 18, of

Union Springs, N.Y.; Garford E. Smith, 20, Robert Schmoke, 18, and Robert W. Curtis all of nearby Cayuga, and Michael McCarthy, 16, and John Pinetti, 14, both of Auburn.

State police said there was no sign of skid marks.

Police said McCarthy and Pinetti may have been hitchhiking since there was no apparent link between them and the other five.

Shastri Due at Parley

Over Hindu Objections

BOMBAY, India (AP) — Premier Lal Bahadur Shastri of India says he'll attend the International Eucharist Congress in Bombay despite the mounting objections of Orthodox Hindus.

Pope Paul VI of the Roman Catholic Church is scheduled to attend the congress, which begins Nov. 28.

Dr. Scholl's Zino-pads

Of New Air Force Titan 3

Cord, Plug Play Big Role in Launch

By HAROLD R. WILLIAMS
CAPE KENNEDY, Fla. (AP)
—Included in the new \$156-million Air Force Titan 3 complex at Cape Kennedy is a long

electrical extension cord with a big plug at one end.
Somebody has to plug the cord into a huge socket before a mighty Titan 3 rocket can blast off from its pad.

Lt. Don M. Spradlin, Air Force launching pad construction officer, grins about this extension cord rocketry.

"It gets a big kick out of it. Seems incredible that an old-fashioned extension cord would play such a role in the space business," he said.

NOT ORDINARY TYPES

The cord and plug aren't the ordinary household types found around most housewife's ironing boards. They are a monstrous cable and a huge drum powered by a winch.

The Air Force said the cord saves a big chunk of money in wiring costs.

The new rocket — launching complex is nearly finished and a time for each payload, it will not be long before present facilities are saturated and more must be constructed.

Tall buildings and 250-foot high service towers sit unnaturally on islands built of shell and sand pumped up from the Banana River.

Building the complex in the middle of the Banana River wasn't the only startling move made by the Air Force.
The concept of putting a rocket together for space flights in buildings instead of on the pad is another.

Putting the control center on the third floor of the 23-story Vertical Integration Building — VIB — instead of a traditional blockhouse is another.

The Air Force calls its new program, Integrate — Transfer Launch — TTL. The theory looks so good the National Aeronautics and Space Administration is patterning its Merritt Island Apollo facilities after the Titan 3 complex.

NEW PHILOSOPHY

Air Force Brig. Gen. Joseph S. Bleymaier, deputy commander for manned systems, explains the new spaceship philosophy:

"We continue to tie up launching facilities for weeks at a time for each payload, it will not be long before present facilities are saturated and more must be constructed."

"Since there are few areas in this country which fulfill the requirements for launch sites, there is a limit to the number of launch complexes that can be built."

The Air Force would bring a Titan 3 rocket into the VIB and install all the instruments, payload and equipment needed for a flight. The rocket would be mounted on a mobile launcher and taken to the firing pad seven miles away.

ANOTHER INNOVATION

Four Titan 3 rockets can be assembled at once in the gigantic VIB.

Another innovation built in by the Air Force is a communication system called Aerospace Ground Equipment — AGE. It consists of instruments and the payload for that certain rocket.

The equipment is stored in vans and the vehicles go with the rocket to the launching pad. Continuity is maintained up to the instant of launch with this method.

After the rocket is ready for the launch pad, it either goes to the solid motor assembly building, which stands midway between the VIB and the pad, or to the pad direct.

ROCKETS STRAPPED IN

Two solid-fuel rockets are strapped on each side of the Titan at the solid fuel building to give the Titan 3 its distinctive look.

Two launching pads are being

constructed, each independent of the other.

Three launch control centers are located on the third floor of the VIB, with platforms for spectators to watch the firing three miles away.

None is the familiar equipment associated with a launching. No more periscopes, or rows of television sets. The control room is so bare of equipment that it seems austere.

Most of the monitoring instruments are in four rooms away from the control center.

The Titan 3C is the booster the Air Force plans to use to orbit its manned orbiting laboratory.

Detroit Is Killed

in Ontario Car Crash

DELAWARE, Ont. (AP) — James W. Pollard, 24, of Detroit, Mich., was killed Sunday in a single car accident in this village 15 miles west of London, authorities said. Pollard was one of five passengers riding in the car when it went off the road, struck two guide posts and flipped over on its roof. None of the other occupants was injured.

Horsepower Held Up by Feline-Power

the sounds coming from under the hood of his car changed from a quiet purr to an eerie wail. Then his engine began acting odd.

100,000 Poll Watchers Mobilizing

GOP Denies 'Eagle Eye' Intimidation Charge

LOS ANGELES (AP) — Republican volunteer forces mobilized today for "Operation Eagle Eye," amid Democratic charges — immediately denied — that the GOP poll-watching plan was a "campaign of intimidation."

INSTALLING DUMMY'S 'NERVES' — A technician at North American's space division in Downey, Calif., examines the electronic nervous system of a dummy used to test Apollo lunar spacecraft. The dummy checks the effect of gravity forces on astronauts.

U. of M. Prof Expires — ANN ARBOR (AP)—Dr. Paul Gibbons, 44, professor of dentistry at University of Michigan, died Sunday at his home. He leaves his wife, Alice, and two children. The cause of death was not given.

vice presidential nominee, Humphrey, told a campaign audience "it should be called Operation Evil Eye."

"I say to the Republican party and its leadership: You ought to be ashamed of yourselves for even indicating you are going to harass those who are going to vote," Humphrey said.

"Unfounded in fact" was the Republican reply to Humphrey's charge.

POLL WATCHERS

Charles R. Barr, national director of the program, said in Chicago: "There is nothing to Operation Eagle Eye except furnishing poll watchers."

There's absolutely nothing whatsoever to the charges of "fright campaign."

He said 100,000 poll watchers in 35 cities will take part, and he expects 1,250,000 voters to be either successfully challenged or discouraged from going to the polls.

Barr, 47, resident of the Chicago suburb of Matteson, told

reporter: "No challenges will be made to anybody who is legally entitled to vote. We will challenge anybody suspected of being legally unqualified to vote. There is nothing discriminatory in Eagle Eye against any race, creed or economic status."

Charges of voter harassment already were flying in San Francisco and in Los Angeles where Democrats said they were organizing watchers to watch the Republican poll watchers.

ANONYMOUS CALLS

Mexicans and Negroes complained to radio stations, election officials and Democratic campaign headquarters that they had received anonymous telephone calls warning them that they would be challenged at the polls.

Callers told radio stations in the San Francisco-Oakland area that the people who had phoned them had warned they would be subject to prosecution if they had moved once they had registered to vote.

In Los Angeles, Registrar of Voters Ben S. Hite said his office had received numerous complaints from voters that they had received telephone calls alleging a voter must have his registration stub with him when he goes to a polling place.

Hite said all registered voters' names are in the precinct files and no such stub must be produced at the polls.

THROUGH BOARD

Hite warned that no one can challenge the right of a person to vote except through a member of an election board. An Eagle Eye official said watchers will challenge voters only in this manner.

Hite and San Francisco Registrar of Voters Charles A. Rogers warned that state law makes it a felony to "restrain,

hinder, or disturb any voters in the exercise of the right of suffrage."

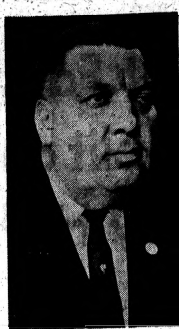

Republican officials denied having any connection with the anonymous callers.

In Chicago, Barr declared: "Operation Eagle Eye is simply furnishing poll watchers and challengers, something that both parties are entitled to have under the law."

Don McDaniel, president of the Los Angeles County Young Republicans, told Hite his group intends to assign watchers to the predominantly Negro 21st Congressional District "where we have first-hand knowledge of election code violations."

Registrar Hite said he had advised officers of election boards to call peace officers if there are any disputes at polling places.

Report Council to Issue Edicts

VATICAN CITY (AP) — The Vatican Ecumenical Council is reported ready to proclaim two major decrees before it recesses Nov. 21 even if its declarations on the Jews and on religious liberty cannot be made ready by then.

Council sources said the three weeks remaining before the session ends probably would be insufficient to complete revision and voting on the two brief declarations.

The documents which Pope Paul VI and the Roman Catholic bishops are expected to promulgate are the schema on ecumenism — Christian unity — three chapters long, and the schema on the nature of the church, which runs eight chapters.

The Jewish and religious liberty declarations have been handled as annexes to the ecumenism schema which has been voted and accepted chapter by chapter. The sources felt it unlikely that its final promulgation would be delayed until the next council session — which may not come until 1966 — for the sake of the yet unwritten declarations.

It appears that the two declarations will end up as separate documents, their importance thus perhaps heightened even if adoption is delayed.

Both the declaration on the Jews and the declaration on religious liberty caused trouble when the council debated them a month ago as annexes to the ecumenism schema.

The Jewish declaration, formerly a chapter within the schema on unity, had been reworded between the 1963 and 1964 council sessions. A statement exonerating Jews from blame for the crucifixion was replaced by one saying only that Jews of today could not be linked with the events of Christ's execution.

Many bishops, including prominent American prelates, argued the council must absolve Jews from any notion of deicide.

The auto industry in the United States consumes 21 per cent of all the steel produced in the nation each year and buys 46 per cent of all radios manufactured annually. Doctors at the Mayo Clinic will see about 200,000 patients this year.

Seek Extradition of Pair, Suspects in NY Gem Theft

NEW YORK (UPI) — Two New York detectives were expected to be on hand today for the extradition hearing in Miami for two suspects in the great gem robbery at the American Museum of Natural History.

The detectives will be carrying warrants seeking the return of Allen Dale Kuhn, 26, and Jack Roland (Murf the Surf) Murphy, 27, who have been charged with interstate transportation of stolen property valued at more than \$5,000.

The suspects, along with Roger F. Clark, 29, of East Meriden, Conn., who was arrested here and is being held on \$12,000 bond pending a hearing, were picked up on information supplied by a tipster.

It was learned last night that the unidentified informant noticed that the suspects displayed an unusual interest in the museum while they were guests at the Cambridge House Hotel.

The suspects rented the \$550 a month suite Oct. 6 and immediately began assembling extensive material of the museum. Police found several books on gems in the suite and photographs of the roof and interior of the museum.

WENT TO POLICE

When the gem burglary was staged, the informant went to the police with his information and the arrest of the three suspects followed.

The loot from the robbery, including the fabled 563-carat Star of India sapphire, the 106-carat De Long ruby and 29 other precious gems valued at about \$400,000, has not been recovered.

Because Kuhn and Murphy are expert swimmers and divers, authorities were believed searching the waters between Florida and the Bahamas for the missing gems.

It also was reported that two of the suspects were known in the Bahamas and had been ordered not to return to the islands.

FIRST CONTACT

Authorities in the Bahamas had their first contact with the suspects several weeks after three American couples were held up by four hooded gunmen in Nassau and relieved of between \$500,000 and \$750,000 in jewels.

Sometime after the Nassau robbery, a yacht with the two suspects and three other men on board turned up in Bimini.

ALLAN DALE KUHN

JACK ROLAND MURPHY

A search by police turned up nothing.

Less than two weeks later the yacht appeared at the island of Andros. During its stay at the island, there was a large jewel robbery at the hotel there.

\$1,000 BILLS

Authorities reported that Kuhn further aroused their suspicions when he bought a 38-foot yacht and a new Cadillac and paid for his purchases with \$1,000 bills. He also was reported to carry as much as \$20,000 in cash with him.

Dr. Frederick H. Pough, former curator of gems at the museum, said that if the stones were hidden in the sea off Florida, the salt content of the water would not bother them.

Sixty-five per cent of all ducks raised in the United States come from Long Island, N. Y.

The Mayo Foundation, which operates the famed Mayo Clinic in Rochester, Minn., was established in 1915.

There are about 600 medical teams in the U. S. which have at least six members with the Mayo Clinic of Rochester, Minn.

The world's largest prison is said to be the Kharov Jail in Soviet Russia. It once housed as many as 40,000 prisoners.

Most Dangerous Day on Road

Never on Saturday, Drivers Advised

By HAL BOYLE

NEW YORK (U)—Things a columnist might never know if he didn't open his mail:

The "safest" day for driving a car is Tuesday. One in five Americans killed or hurt in traffic accident is a victim of Saturday driving. The second most dangerous day is Sunday.

Science has found that a hummingbird beats its wings only about 55 times a second while feeding, but up to 200 times a second while courting.

"Ever hear of the spinster's prayer?" It goes like this: "Dear Lord, please answer my prayer. It's not for me, but for another. Please send a son-in-law to my mother."

If you've got a secret, don't tell it to the federal government. Uncle Sam already has enough of his own to keep. His agencies are reported to have on file some three billion secret or restricted documents.

CAR EVERY YEAR

A third of all families in the 18-to-34 age bracket buy a car every year, but four out of five are used cars.

Quotable notables: "Life was meant to be lived, and curiosity must be kept alive. One must never, for whatever reason, turn his back on life." — Eleanor Roosevelt.

The only person our astronauts meet when they land on the moon may be earth's first murderer. An Italian legend holds that the biblical character Cain, as punishment for killing his brother Abel, was doomed to wander friendless forever on the moon.

PROSPERITY

Of some 175,000 taxi drivers and professional chauffeurs, more than 4,000 are women.

BORN IN LONDON

Can you name a U.S. first lady who wasn't born on this continent? She was Mrs. John Quincy Adams, wife of the sixth American president. Her birthplace was London — Feb. 12, 1775. As hostess, she improved the White House table by serving choice foods and rare wines. Insurance companies say obesity threatens the longevity of 10 per cent of men between 50 and 60 years old, 20 per cent of those in their 30s, and a third of those in the 40-50 group.

Folklore: According to a Chinese belief, a child who teething early will grow up to eat his parents, but if he gets his teeth late he will support them in their old age. The Chinese also believe that one isn't mature until 40, and shouldn't speak his mind in the presence of the wise before that time.

Worth remembering: "Among all my patients in the second half of life—that is to say, over 35 — there has not been one whose problem in the last resort was not that of finding a religious outlook on life." — psychologist Carl G. Jung.

Quickies: Farmers are almost

twice as likely to get arthritis as city dwellers. Germans and Irish are the world's greatest potato eaters. Indians along the Amazon River can catch fish with their hands. Americans are now buying a million paperback books a day.

It was Robert Frost who observed, "Happiness makes up in height what it lacks in length."

Elkanah Watson of Fort Kent, N.Y., conceived and inaugurated the first agricultural fair in the early 1800's to stimulate competition among farmers and encourage better livestock and crops.

3 Hungry Soldiers
Defect to Austria

RISENSTADT, Austria (U) — Three uniformed Hungarian soldiers escaped to Austria last night and asked for political asylum, police reported.

Police said the three, who carried no weapons, had been ordered to help harvest corn near the Austrian-Hungarian border. The soldiers cut a hole in the barbed wire fence and fled across the border.

Five other Hungarians and six Czechoslovaks defected while on tourist trips to Vienna during the weekend.

The action of the exploding star, discovered by a Swedish astronomer last year, occurred about 5500 B.C.

Preelection Confusion

Survey of Surveys Needed

By DICK WEST
United Press International
WASHINGTON — The 1964 presidential campaign has been a particularly active one as far as poll-taking is concerned.

Most voters are familiar with the work of Gallup, Roper and Harris, the big three of the polling business. In addition, there have been a number of other types of polls.

What is needed at this point, it seems to me, is not another survey of public opinion, but a survey of the surveys of public opinion.

As my final contribution to the preelection confusion, I have commissioned my own private organization, the New York Nellie Public Opinion Polling & Sampling Service, to compile a report on where the other polls stand.

One of the oldest known methods of political poll-taking is to stand on a street corner and

count the bumper stickers on the passing cars.

STICKER POLLS

This year, as usual, there have been a large number of bumper sticker polls, all of which turned out approximately as follows:

Johnson — 15 per cent.
Goldwater — 15 per cent.
Pike's Peak — 30 per cent.
New York World's Fair — 40 per cent.

Another famous poll is the so-called "barber poll" conducted by tonsorial experts who survey the opinions of their customers.

At last report, the results of the barber poll stood as follows:

Goldwater — 15 per cent.
Johnson — 15 per cent.
Crewcut — 30 per cent.
Medium trim with a little off the top — 40 per cent.

Rumors of neck-and-neck in popularity with the barber poll is the so-called "popcorn poll" conducted by neighborhood theaters. Movie patrons indicate their preferences by dropping their ticket stubs into appropriately marked boxes.

POPCORN POLL

At last report, the results of

There are 367 Protestant churches, 107 Catholic churches, 130 Jewish synagogues and 14 Greek Orthodox temples in New York City's Borough of Queens.

Turning out textbooks for university classrooms has become a \$157 million per year business, publishing industry leaders report.

Canyonlands National Park in southeastern Utah, the nation's newest scenic-recreational preserve, is the first national park to be established since 1907.

Are You Confused?

A Self-Test on How to Vote November 3rd

By Dr. Phillip M. Crane, A.M., Ph.D., History Department, Bradley University

A bit of original thinking on your part — and checking your real personal beliefs should show you how you should vote — which candidates have expressed your beliefs!

Patriotic Americans will want detailed facts about both political parties. So answer the 20 questions below. Then add your check marks in each column. On Nov. 3rd you should thus vote for the candidates at the top of the column where you have made the most check marks. Views of the candidates or their ardent followers are indicated at the right by a "Yes" or a "No."

Goldwater-Miller LBJ-Humphrey

- (1) Should we stop giving billions in foreign aid to the Communist nations and their sympathizers? ☐ YES ☐ NO
- (2) If parents pay their child's college expenses instead of begging for federal scholarships, should they be granted extra exemption on their personal income tax? ☐ YES ☐ NO
- (3) Should a candidate "coverup" or "whitewash" Bobby Baker, Billie Sol Estes, Mat McClosker, Walter Jenkins, or any one who betrays the public trust? ☐ NO ☐ YES
- (4) Do you approve of "smear" campaigns to terrify mothers and children by TV scenes of nuclear explosions? ☐ NO ☐ YES
- (5) When a party has completely dominated Congress for four years, yet admits we are in a state of TERRIBLE POVERTY, isn't that some party to blame for such TERRIBLE POVERTY? ☐ YES ☐ NO
- (6) Since LBJ refused to protect Negroes against lynching and was called a "racist" in 1963 is his 1964 Civil Rights stand a "Johnny-come-lately" stunt to gain votes Nov. 3rd? ☐ YES ☐ NO
- (7) In this period of nationwide POVERTY, should Congressmen have raised their salary from \$22,500 to \$30,000 per year? ☐ NO ☐ YES
- (8) Should we even consider the idea of negotiating with Panama for giving up our Panama Canal built with our taxes? ☐ NO ☐ YES
- (9) Should merchants, barbers, farmers and all employers be free to hire workers without threats from Uncle Sam? ☐ YES ☐ NO
- (10) If you own property, should you be allowed to rent or sell as you please, without threats from Uncle Sam? ☐ YES ☐ NO
- (11) Is it plausible that a poor Texan Congressman earning less than \$20,000 per year could "save" an average of \$150,000 per year for over 20 years? ☐ NO ☐ YES
- (12) Most of the United Nations members deny habeas corpus and other basic liberties to their own people back home so should we let the U. N. dictate America's policies? ☐ NO ☐ YES
- (13) American boys are dying daily from enemy bullets in Viet Nam so isn't this the fourth war this century under a Democratic president (Wilson-Roosevelt-Truman-LBJ)? ☐ YES ☐ NO
- (14) Socialism wants to destroy our "Free Enterprise" system so should the "darling" of the Socialist-tinged A.D.A. be elected vice president (one heart beat removed)? ☐ NO ☐ YES
- (15) Should Walter Reuther who set up a Socialist cell in a Michigan University, be allowed to force all his union members to contribute to his "captive" Democratic party? ☐ NO ☐ YES
- (16) If threatened with quick destruction by Communist nuclear bombs, should our top commanders be free to retaliate without waiting for an O. K. from the president (who might be on vacation or overcome by a sudden heart attack)? ☐ YES ☐ NO
- (17) Should we elect men of the party that deceived the Cuban Freedom Fighters into thinking we would offer them full air protection in their brave effort to free Cuba? ☐ NO ☐ YES
- (18) Was LBJ parroting the Socialist "line" when he said he wanted to take the money from the "haves" and give it to the "have nots" (welfare clients)? ☐ YES ☐ NO
- (19) Was it statesmanlike for LBJ to urge that race riots and strikes be stopped just until after the Nov. 3rd elections? ☐ NO ☐ YES
- (20) Should we heed Sen. Byrd and stop raising the debt ceiling that will stifle our grandchildren under the staggering taxes? ☐ YES ☐ NO

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N.Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all—this improvement was maintained in cases where a doctor's observations were continued over a period of months. In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing. All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body. This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.

500,000 Votes Lost by Mistake

You May Vote, but Will Ballot Count?

By IRWIN FRANK
PLUCKERMAN, N.J. (AP)—My wife joins that army of voters who will enter the voting booth with confidence Tuesday's

only to leave it hoping their vote will be counted. She'll drive about two miles to the Watchung View Inn on the slopes of the Watchung Moun-

tains, and vote. She'd like to hear someone say: "You have done everything correctly. Your vote is recorded."

But there will be no one to assure her, or the millions of others, that they have marked their ballots correctly.

Brendan Byrne, executive director of the American Heritage Foundation, Washington, D.C., which sponsors bipartisan registration and vote drives, estimates that 500,000 ballots have been invalidated in every presidential election since 1932.

SHE WAS ONE
In 1960, my wife was one of the half million.

What did she do wrong? "I pulled down all the levers," she says with pain, "and then pushed them all back up."

The 500,000 figure is impressive when you recall that John F. Kennedy defeated Richard M. Nixon by 113,000 votes.

If you use a voting machine, the only way to void your vote is to return the levers above the candidates' name before opening the curtain. It's the lever that opens the curtain that registers the votes and returns the vote lever to its original position.

PAPER BALLOTS
Paper ballots can be more troublesome, and the rules change with each state.

Many states—Oregon, Florida, Nebraska, West Virginia and Utah, to name a few—will accept a paper ballot if the voter's intention is clear.

"It is pretty hard to spoil the ballot nowadays," says Jacob Wyler, deputy county clerk in Salt Lake City. "If the judges can determine the intent of the voter, they'll give him credit for it."

But in Illinois, for example, using a check instead of an X spoils your ballot for that particular race. In New Mexico the entire ballot is voided if a check mark is used instead of an X or if a voter marks for more than one candidate in any race.

WRONG MARKS
Signing a ballot or in any way marking it so it can be identified invalidates a ballot in Vermont, Illinois, Kansas, Washington, Michigan and most other states.

Ohio voters must use only the pencil provided in the polling booth. California requires voters

to use the rubber stamp provided for marking ballots.

South Carolina voters must pick a candidate in every race or the ballot is voided.

Texas who want to vote a straight ticket must draw a line or an X the length of the part columns he does not want and leave his chosen party untouched.

MICHIGAN RULE

In Michigan, as in many other states, the lines of the X must intersect inside a box. But Nebraska lets you use an X, a check or even fill in the square. Arkansas has a little problem this year because the secretary of state erroneously put out his list of candidates to county election commissions with separate boxes beside the names of presidential and vice-presidential candidates. State Atty. Gen. Bruce Bennett says a voter might void his ballot by choosing the presidential candidate of one party and the vice-presidential candidate of the other.

Increased use of voting machines has decreased the percentage of voided ballots. In New Jersey, for example, there were 11,000 ballots rejected in 1960 when 937,000 people voted. In 1960, when 2,800,000 voted, only 1,039 ballots were thrown out.

When the polls close, two Republicans and two Democrats, appointed by the district election board, will open the back of the voting machine my wife used. The four will write the vote on two tally sheets. One sheet will be delivered that night to the county clerk, the other will be mailed to the secretary of state. Paper ballots are tallied the same way.

Metro Ice Loop Plays

Detroit's new Metro Hockey League for teenagers will swing into action again tonight with its second triple-header at Olympia.

Action begins at 5:30 p.m. with the Evans-St. Clair clash, followed by General Sports vs. Adray at 7:15 p.m. and Arrow-smith vs. VFW 140 at 9 p.m.

The Naval Observatory in Washington, D.C., draws 15,000 visitors a year.

Socialist Backing LBJ—'Part Way'

LOS ANGELES (AP)—Norman Thomas, six times the Socialist party candidate for president, says he's going "part of the way with LBJ."

"I have reservations about the candidacy of President Johnson, but I feel we've got to 'kick Goldwater,'" Thomas said in a speech last night.

Thomas said Republican Barry Goldwater's policy was "Speak very loud and carry a big bomb."

News of the World

39 Killed as 2 E. German Trains Crash

BERLIN (AP) — Two trains collided Sunday night in Communist East Germany, killing 39 persons and injuring more than 100 others, some seriously.

The official East German news agency ADN said the accident occurred at Langhagen, 40 miles south of the Baltic port of Rostock. A freight train overran a stop signal and crashed into the Berlin-Rostock express.

BERLIN (AP) — British European Airways has started daily service between London and Berlin despite East German protests that civilian flights to the Communist-surrounded city are illegal.

Armed Man Seized on LBJ Route

COMMACK, N.Y. (AP) — Robert E. Babcock, 39, seized in a car parked along President Johnson's Saturday motorcade route on Long Island — with a telescopic rifle on the floor and a shotgun in the trunk, both unloaded — has been ordered to a hospital for observation.

Babcock was picked up by detectives just eight minutes before Johnson's bubble-top limousine — with the top closed — came out of the Republic Aviation Corp. gate in Farmingdale, Suffolk County.

Police said Babcock of Blue Pointe, Long Island, told them he had boasted to tavern acquaintances he could sit along the presidential route with his gun and not be spotted. Detective Chief Oray Edwards of Suffolk County said patrons at the bar confirmed Babcock's boast.

But in First District Court yesterday, Judge Victor J. Orgera ordered Babcock sent to Central Islip State Hospital.

Edwards said detectives also verified Babcock's statement that he had just returned from a hunting trip in upstate New York. He said Babcock had taken his unloaded 30-06 hunting rifle with its telescopic sight out of his car trunk and placed it on the front floor as part of his boast.

PRESIDENTIAL CAR

In the presidential limousine the same vehicle in which President Kennedy was assassinated in Dallas — were Johnson and his wife, Lady Bird; former Atty. Gen. Robert F. Kennedy, Democratic candidate for the U.S. Senate in New York, and his wife, Ethel; and Nassau County executive Eugene Nickerson.

protests that civilian flights to the Communist-surrounded city are illegal.

A Viscount turbo-prop plane carrying 35 passengers made the initial flight from London Sunday without incident.

GIVE WARNING

The East German Communist regime warned last week that it would take necessary steps to protect air safety over its soil. The East Germans made similar protests last summer when Pan American Airways began flights between New York and Berlin.

TAIPEI, Formosa (AP) — A U.S. cargo plane from the Philippines with two pilots aboard developed engine trouble Sunday and the pilots ditched it in the Formosa Strait about 15 miles south of the Pescadore Islands.

The U.S. Taiwan Defense Command said Chinese Nationalist and U.S. search planes located the pilots and a ship picked them up unhurt less than three hours after they ditched.

ROME (AP) — Italian customs collectors began a two-day strike today, disrupting the shipment of freight in and out of Italy.

FINANCE POLICE

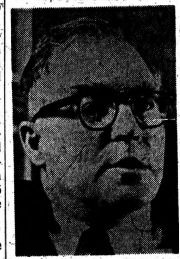

Finance police, who normally patrol borders and coastlines to guard against smuggling, took over the handling of passenger traffic at airports, harbors and frontier posts.

The customs collectors are asking a review of the regulations for their welfare fund and improved bonuses for special service at night and away from their hometowns.

Rome night club owners (Advertisement)

closed their establishments for several days, claiming they have to pay excessive royalty fees on the music their orchestras play.

RAGUSA, Sicily (AP) — The toll from a weekend of tornadoes in southern Italy rose today to

AP Photo

AUTHOR DIES — Richard McKenna, author of the best-selling book "Sand Pebbles," died yesterday in Chapel Hill, N.C., of an apparent heart attack. McKenna had written several books, but his first success was "Sand Pebbles," based on his experiences in the China seas with the U.S. Navy.

Dog With False Valves Dies

FORT WASHINGTON, Pa. (AP) — Waggy, the dog with an artificial heart valve, is dead.

The body of the 2-year-old mongrel was found Sunday by its owner, Adair Rogers, in a wooded area behind his home. Rogers, an engineer and research associate at the University of Pennsylvania, had designed the heart valve.

He believed that if the dog had lived a year, the valve might have been used in operations on humans. Waggy underwent an operation for implantation of the valve May 19.

Rogers surmised his pet died of natural causes.

SPACE SANDWICH—The forward bulkhead of Saturn S-II, the hydrogen-powered booster rocket, is lowered onto its aft bulkhead for precise fitting check. The Saturn is the rocket that scientists expect to use in the attempt to blast three men to the moon. Two portions of the bulkhead will be bonded together in Seal Beach, Calif., by North American Aviation.

Chesapeake Bay Country

Home of 'Earth's Fortunate People'

WASHINGTON — From the Virginia Capes to the mouth of the Susquehanna River lies the Chesapeake Bay country — "a paradise inhabited by earth's most fortunate people." So writes Nathaniel T. Kenney, "admiral of the Chesapeake Bay" and senior staff member of National Geographic, in his account of a sentimental voyage through the Bay's 3,237 square miles. The article appears in the September 1964 issue of the magazine.

Mr. Kenney and photographer Bates Littlehales, whose pictures illustrate the story, were named Chesapeake "admirals" recently by Governor J. Millard Tawes of Maryland in appreciation of their work.

Mr. Kenney admits at the outset to a certain partiality, being "a native and lifelong resident of the Bay country — a Baltimorean, descendant of folk who from Revolutionary times knew the taste of fried soft crabs, the scent of wisteria growing against mellow brick, and the whistle of black-duck wings in a starlit winter sky."

Sailing aboard the 36-foot ketch Betelgeuse, the Geographic team approached the Bay from the open Atlantic, as did Jamestown settlers in the ships Susan Constant, Godspeed and Discovery.

NEWEST PRODUCTS

In the historic surroundings of the lower Bay, Kenney and Littlehales sailed by some of the newest products of modern technology: the \$200 million Chesapeake Bay Bridge-Tunnel, just inside the Bay's mouth, and the nuclear-powered aircraft carrier Enterprise.

Throughout the Bay country, history is always close at hand and the old is never quite obscured by the new. The world's most modern merchantmen and warships call at Chesapeake ports; but at the Bay's oyster beds may be seen the last working fleet of sailing vessels in the country.

Traveling through Virginia's huge urban complex of Norfolk, Newport News, Portsmouth and Hampton, Kenney and Littlehales saw one of the nation's largest ports; and at Baltimore, another leading port, the country's biggest steel plant.

But when they called at Tangier Island, with its one narrow road, they saw a community whose only contact with the mainland was a daily passenger-mail boat and whose thousand residents draw their livelihood, as they always have, from the bay.

INDUSTRY LATER

Industry came late to the Chesapeake country; agriculture and fishing still predominate. In southern Maryland, tobacco remains a principal crop.

In the Bay itself, one of the main crops is the blue crab, whose luscious white meat makes it the Chesapeake's "leading citizen." Oysters and soft-shell clams are also high-ranking denizens of the Chesapeake, which derives its name from an Indian word meaning "Great Shellfish Bay."

On the Eastern Shore of Maryland, the town of Crisfield calls itself, with some justification, "the Seafood Capital of the World."

For the yachtsman, the Bay's 48 principal rivers with 102 meandering branches and countless creeks provide cruising grounds to last a lifetime. Marinas have sprung up everywhere, and bridges have made

the Eastern Shore accessible.

"I think outboard motors, with their accompanying water skis and noise, have done as much as the bridges to change the lonely waters of my boyhood to an inland sea summer-populated by countless thousands of recreation seekers from the cities," Mr. Kenney says.

Air Force Studying Eye-Protector Dye

CAPE KENNEDY, Fla. (AP) — The Air Force reports promising results in experiments to develop a chemical which can be spread on airplane and spacecraft windows to protect the eyes of pilots and astronauts from the potentially damaging flash of a nuclear explosion.

Maj. Gen. Marvin D. Demler of the Research and Technology Division said the material under study is "an optical shutter based on an enzyme-dye combination which can repeatedly change from colorless to colored in less than 50 microseconds under the influence of ultra-violet light, and rapidly revert to the colorless state when the light source is removed."

(Political Advertisement)

Krebiozen Users Fail in Bid to Meet With LBJ

WASHINGTON (UPI) — Picketers trying to get the government to lift its ban on the controversial anticancer drug Krebiozen tried in vain yesterday to see President Johnson.

The demonstrators, including cancer patients and former cancer patients who claim the drug is helpful to sufferers from the disease, paraded up and down in front of the White House but were unsuccessful in their effort to get an appointment with the President.

The Krebiozen backers staged a two-day sit-in demonstration in the office of Health, Education and Welfare Secretary Anthony J. Celebrezze last week, resulting in their arrest.

Salesman Drives Car

He Sold Back in 1910

ST. LOUIS, Mo. (AP) — Just 54 years after Ed Draeger sold a shiny, new four-cylinder Hudson car, the 75-year-old man, still an automobile salesman, drove it again.

In 1910 Draeger sold the car to Art Warner in Hudson, S.D., and taught the new owner how to drive it. He and the car were recently reunited when it was brought to Sioux Falls by Carl and Ed Rau, who purchased it from Warner.

(Political Advertisement)

Grandfather First, Grandson Was Last

ST. LOUIS, Mo. (AP) — When George Brecht became a Chevrolet dealer back in 1928, he sold his first car to Charles Hill. The last automobile he sold

before retiring recently was purchased by Hill's grandson, David.

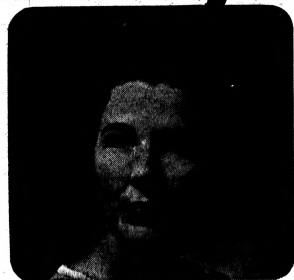

Nearly 47 million students were enrolled in the nation's public and private elementary and secondary schools in 1963.

If You'd Been There, You'd Have Done What They Did . . .

ENDORSE FARNUM

The educators heard BOTH the candidates for Congress in debate. Afterward they offered endorsement . . . and financial help . . . to only one: Billie S. Farnum. (See letter.)

FARNUM

You'd have done the same — as have other groups besides the Waterford Education Association. You'd HAVE to be for Farnum if you saw him face-to-face with his opponent.

Farnum is positive, creative, experienced, wise. He knows what needs doing. And as a veteran public official (now Michigan's Auditor-General) he knows just how to go about getting things done in Congress — whether a program for youth, the aged, tax reduction, job expansion, lake level investigation, or anything else.

Take a tip from your Waterford neighbors. Send to Congress Billie Farnum — a man who can get for this district everything to which it is entitled. And a Democrat who will back to the hilt the Kennedy-Johnson program of keeping the peace to maintain prosperity.

Farnum For Congress Committee

A Statement by Fred D. Barton

Since 1953 I have traveled extensively in **MOST PARTS OF THE WORLD**. I have become more alarmed at the general feelings toward America---and Americans.

While my observations were purely personal, I felt, and still feel that our foreign relations must improve.

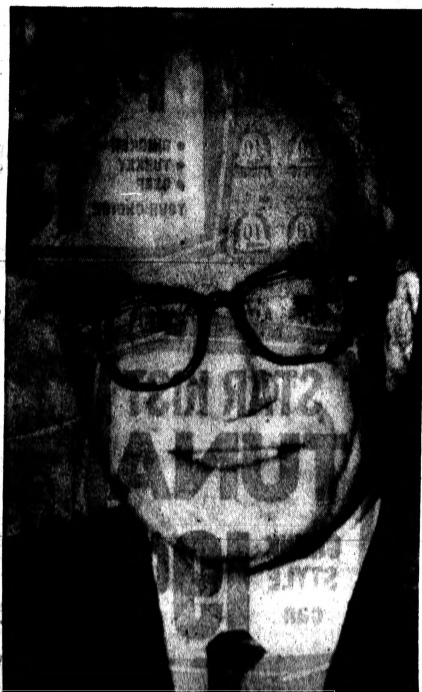

In 1953 I was subjected to abusive treatment in Cairo, Bombay, India, and Jakarta, Indonesia — not for any reason but simply because I was an American.

These same conditions existed, to my own personal knowledge on my successive trips in 1955 and 1957. I believe personally that appeasement had a great deal to do with these conditions.

FRED D. BARTON

I CANNOT PICK OUT A SINGLE PART OF THE WORLD WHERE OUR FOREIGN AID AND OTHER POLICIES APPEAR TO BE SUCCESSFUL.

SENATOR BARRY GOLDWATER

Formosa is often described in Japanese newspapers as "The Great Mythocracy"; Saigon as "The Hole in the Donut"; and I have yet to meet an American while traveling abroad who has anything good to say about our present Foreign Relations.

I believe that a change in our Administration would be for the better. And in my humble opinion we could select no finer man for the job than . . .

Senator BARRY GOLDWATER

I am going to vote for him and a straight Republican Ticket

So, neighbor, for my sake, the sake of my children and grandchildren and your own sake --- Please give this some thought.

Signed FRED D. BARTON

Reds Are Major Force in Sudan, but Army Still Influential

KHARTOUM, Sudan (AP)—The Communists have emerged as a major force in the Sudan's new civil regime, but the generally pro-Western army could still wield the decisive influence in Africa's largest country.

The Sudanese Communist party probably has less than 10,000 members but they are well disciplined. It played a key role in the 10-day student revolt which left 30 persons dead and ended six years of military rule. The Reds emerged with four seats in the 15-man civilian Cabinet, more than any other single party.

Premier Sir E. Khatim El Khalifa has proclaimed a policy of neutralism, but he will find neutralism difficult with four Red ministers, a pro-Egyptian and a member of the Moslem Brotherhood in his Cabinet.

COUNTERBALANCE
The main counterbalance is the army and the former dictator, President Ibrahim Abboud. Abboud's presidential power was reduced but he remained commander-in-chief of the army.

The army is split between

younger officers who tacitly backed the revolt and older ones now stripped of much influence.

The state was set for the long-brewing revolt two weeks ago. Students at Khartoum University defied a government ban and met to discuss turmoil in south Sudan where, pagan African tribesmen are in revolt against the Moslem Arabs of the north. Police moved in to break up

the meeting and ran into a hail of rocks. They fired on the students, killing one and wounding nine.

WORD SPREAD
Despite attempts to suppress the news, it spread rapidly and more than 15,000 persons marched in the student's funeral procession. Demonstrations erupted all over Khartoum. Within 24 hours the Commu-

nists began working for a national front to overthrow the military regime.

Careful to avoid antagonizing the traditional political parties which greatly outnumbered them, the Reds said the front should include recognized representatives of labor unions, university teachers, doctors, lawyers and other professional groups.

Abboud called out troops to quell the riots. The front then called a general strike which cut communications abroad, closed the airfield, shut down shops and nearly silenced the radio station.

THREAT STOPPED
Abboud prepared to go on the air and threaten a total military take-over, but young officers stepped in. Warning Abboud to

keep the army out of politics, they posted guards around the homes of all members of his military government.

Abboud yielded and called in representatives of the front to name a civilian government. The front demanded that Abboud step down. He agreed to a civilian Cabinet including seven Communists.

At this point the Communists

or their colleagues on the Moslem Brotherhood ordered a march on the presidential palace.

Armored cars then opened fire, killing 15 demonstrators and wounding many others.

OFFICERS ALARMED
Alarmed, the young officers insisted that Abboud remain as chief of state and army chief. The front had to settle for civil

rule with the army in the background and the Communists wound up with four posts instead of seven.

There are signs, however, that the Reds under leadership of their astute secretary-general, Abdel Khalig Mahmoud, are concentrating on molding the national front into a single party for the elections scheduled in March.

Drop Leaflets on Indonesia

SINGAPORE (UPI)—Malaysian Air Force planes dropped thousands of propaganda leaflets over two Indonesian bases early today, the Malaysian government announced.

The pink leaflets, signed by a captured Indonesian paratrooper officer who led a 96-man invasion force into Malaysia Sept. 2, told Indonesians they were misled in believing Malaysia had to be liberated from the British.

"I don't want you to be deceived as I have been deceived," the leaflets read. "It is rather the people of Indonesia who need to be liberated from poverty and misery."

The broadside gave details of three abortive Indonesian raids on Malaysian territory.

President Sukarno of Indonesia has condemned the fledgling Malaysian Federation as an extension of British colonialism and a threat to Indonesia.

ATTACK POINTS
An official Malaysian government statement said the airstrip was conducted over "Indonesian bases from which they launched their attacks against Maylay Peninsula."

He identified the bases as being on Bengkalis and Kurumoen islands off the east coast of Sumatra, about 40 miles across the Straits of Malacca from Malaysia.

Probe 2-Car Crash Fatal to 5 in Ohio

AKRON, Ohio (U)—Police sought today to determine why a car went out of control on the Akron expressway just before midnight Saturday, resulting in a two-car collision that killed five people.

Four of the dead were from Springfield Township. They were: Walter Guiley, 20, his sister, Eloise Guiley, 17, Dwight Harrison, 19, and Frank L. Coon Lodge, 19. They were coming from a party. Police say Harrison was driving.

Killed in the other auto was Mahlon F. Craft, 21, of Akron, a passenger.

Rusty C. Hower, 20, of Akron, reported in critical condition at Akron General Hospital, was identified by police as the other driver.

Guardian of Elections Respects Voting Privilege

By MIRIAM NEAL
Thought she said the same thing four years ago, Mrs. Eleanor Howell of East Pike Street claims this is her last year as an election inspector.

She started working for the election board at Central Elementary School, precinct 21, during the presidential election of 1924. Calvin Coolidge was the people's choice.

Her nephew, an employee in the city treasurer's office, prompted her work as election inspector.

Since then, she has missed only two presidential elections. A death in the family and being out of town kept her away.

The only other election she missed was the primary of 1932 when the current mayor, Harry Mitchell, appointed his own election boards.

FIRST ELECTION
She started work on the election board the same year her youngest child started high school. She was very nervous but as she learned the procedures she began to feel at home.

The voting booths were located in the basement of the oldest part of Central. She remembers that school children were running in and out all the time.

There was one advantage though. The board workers could always prepare for someone's coming because the place would crack an alarm.

Since that first election she had not only learned the job but also learned to like it. She cites two reasons: she

finds it fascinating and she likes people.

NOW CHAIRMAN
She is now chairman of the board at Central and the responsibility for an honest precinct count is hers. During her years on the board she remembers only one disputed voter.

That was the case of the man who claimed that because he was an American citizen he could vote without being registered anywhere. He was trying to vote in the wrong precinct anyway.

Voting where you're registered is not very difficult as described by Mrs. Howell. The election board's task is simple but painstaking.

As the voter arrives he writes his name and address on a card. An election worker compares this with the registration book and puts a check beside the name.

POLL BOOK
Another worker writes the voter's name in the poll book and still another shows him how to work the machine.

Pontiac first used voting machines in 1932. Mrs. Howell remembers the occasion well. She missed some information at the training session for inspectors and had to have her own private lesson.

She says the voters learned fast. If there are any problems, she adds, it's usually with the ones who claim they know all about the machine.

Mrs. Howell has noticed more women voting and fewer men working as inspectors over the years. She has served under three city clerks: Harry Maurer, Ada R. Evans and Olga Barkeley who is the current clerk.

Mrs. Barkeley cites Carroll Porritt of Walton Boulevard as the last man to work as an inspector. He last served in 1960.

When asked whether or not she preferred working on presidential elections, Mrs. Howell indicated that she liked them all.

She suggested that if the 'right' people are not in the smallest offices it does no good to have the 'right' people in the biggest.

After 40 years of working at the voting booth, she advocates more strongly than ever the importance of every vote.

Mrs. Eleanor Howell of East Pike Street has been an election inspector since 1924. After 40 years of watching the voting process at close range she still stresses the importance of every vote.

Gives Him 'a View'

Puts on Act for TV Man
By ABIGAIL VAN BUREN
DEAR ABBY: While I was in the living room reading the newspaper, a TV repairman was in the same room working on our set.

He had taken the set apart and there were parts all over the floor. My wife pranced into the room with her dress hanging open in the back.

She went straight to this TV repairman and asked him if he would mind zipping her up. His hands were dirty, so he just wiped them on a rag and zipped her up.

After he left I said to my wife, "Why did you ask that repairman to do it? I could have done that for you."

She replied, "Your eyes aren't very good and you can never get that little hook at the top."

I told her it would have been better had she forgotten "that little hook at the top" if she had to ask a strange man to help her get dressed.

She says I am making a mountain out of a molehill. I would like your opinion.

HER HUSBAND
DEAR HUSBAND: Your wife was behaving like a bit of an exhibitionist on the wrong end of the picture tube. But don't brood about it.

At home in Birmingham after a California honeymoon are Mr. and Mrs. Raymond Bruce Lewis who were wed recently in the Apostolic Lutheran Church, Southfield.

PAIR NOW at Home After Trip
The former Charlotte Alberta Taurialinen is the daughter of Mrs. Albert Taurialinen of Detroit and the late Mr. Taurialinen.

She was escorted by Sulo Kyllonen at the candlelight ceremony performed by Rev. Elmer Linamita.

ATTEND BRIDE
With Lorraine Taurialinen, her sister's honor maid, were bridesmaids Karen Peterson, Detroit, and Inara Freimuts of Kalamazoo and Barbara Ranta of Detroit.

Lorraine Joyner of Pontiac and Philip Karjala of Manistee were flower-girl and ring-bearer.

Tyrus Menzel was best man for the bridegroom, son of Mr. and Mrs. Arthur B. Lewis of Sylvan Lake. William Maxfield was groomsmen.

Donald E. K. K. Taurialinen Jr. seated the guests.

Had she been trying to make points with the stranger she wouldn't have done it in your presence.

Get a magnifying glass and magnify "that little hook at the top" instead of the incident.

DEAR ABBY: So out of the 556 couples that minister married in one year, 354 asked him to "alter" the dates on their wedding certificates?

Have I ever lived a sheltered life!

In over 22 years of performing hundreds of marriage ceremonies, I have never had even one such request.

Maybe they knew I would not have falsified a legal document for my own mother.

Or perhaps it's just the difference between the Californians who marry at home and those who go to such

places as Nevada to tie the knot.

Yours, Arnold R. Lewis, Th. D. Methodist Church Fairfield, California

CONFIDENTIAL TO B. L.
It doesn't make much sense to tell a man who has just lost his shirt to "roll up his sleeves."

If you want to help him, don't GIVE him another shirt; help him to EARN one.

Problems? Write to ABBY, in care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

Hate to write letters? Send one dollar to Abby, in care of The Pontiac Press for Abby's booklet, "How To Write Letters For All Occasions."

Will Discuss History of War
Thucydides' History of the Peloponnesian War will be discussed at the Great Books group meeting Tuesday at 8 p.m. in the CAI Building.

Mrs. K. B. Valentine will lead the discussion of the 5th century battle between Athens and Sparta. Mrs. Leland Bunyan will act as author's advocate.

Anyone in the Pontiac area is welcome.

Calendar of Events

TONIGHT
International Order of Job's Daughters, Bethel No. 5; 7:30 p.m.; Masonic Temple, East Lawrence Street; business meeting.

TUESDAY
Phi Gamma Eta Sorority; 7:30 p.m.; West Walton Boulevard home of Diane Meston; business meeting and workshop.

Past Noble Grand's club of Welcome Rebekah Lodge No. 246; 8 p.m.; West Brooklyn Street home of Mrs. Fred Pickett.

WEDNESDAY
Woman's World Series; 10:00 a.m.; Pontiac Mall Community Room; "What is Modern Art?" by Mrs. Irene Foulke. Coffee hour at 9:30. Open to public.

Pontiac Osteopathic Hospital Guild; 10:00 a.m.; North Berkshire Road home of Mrs. Ward W. Ross; coffee and needlework ingathering.

Oakland County Delta Zeta Alumnae chapter, group 1; 10:15 a.m.; Birmingham home of Mrs. W. Dean Perry; brunch and business meeting.

PONTIAC YWCA; from 7:00 p.m.; Leo Burdette home, corner West Huron Street and Franklin Boulevard; second open house in proposed new home of the Pontiac YW; coffee hour to follow in YWCA building on Franklin Boulevard.

Minnehaha Council, No. 471, Daughters of Pocatosh; 8 p.m.; Bemis Olsen Amvet Hall, Oakland Avenue.

Federation Will Meet

The Oakland County Federation of Women's Clubs will open its 1964-5 season with a luncheon and business meeting, Friday, in the Oak Ridge Woman's clubhouse, Royal Oak.

Hostesses for the coffee hour, 9:30 to 10:00 a.m. will be members of the Clawson Woman's club.

Students from Cass School, Ferndale, all of whom are under six years of age, will present "The Lost Decibels."

Departmental reports will be given by Mrs. Phillip Wardlaw, Indian Affairs; Mrs. E. M. Malone, legislation; Mrs. William Gilbert, nursing scholarship, and Mrs. Arthur Dewey, religion and home life.

Mrs. Gilbert has announced a three-year scholarship awarded to Mrs. Gloriann Elback, graduate of Berkeley High School. Patricia Permaloff is also the recipient of another award from the federation this year.

Reservations will be accepted through today by Mrs. Glenn Vedder, Royal Oak and Mrs. Victor Grimes, Clawson.

On Election Day
Monthend Elementary School will have a bake sale on election day, Tuesday. Coffee and doughnuts will also be sold.

Art Class Will Start
An oil painting program for adults over 18 years of age will begin Nov. 10 at Pontiac Northern High School.

This course, sponsored by the Pontiac Parks and Recreation Department, is to be taught by John Silvenen. It will run for eight weeks.

There is a fee of \$8 for the course which will include instruction and assistance in oil painting and other areas in the fine arts field.

Left Seat Was Not for a Lady

By The Emily Post Institute

Q: I have been told that a gentleman should never seat a lady on his left; that she must be on his right at all times. Is this not?

A: In earlier days, if a man placed a woman on his left it indicated that she was no lady and male friends accompanied by their wives, upon meeting him, did not speak to him or even show that they recognized him.

This is of course no longer true, except in some foreign countries, but even so, it is still more polite for a man to place a woman on his right unless it is not convenient to do so.

Q: My daughter is going to be married soon. A dear friend who will be invited to the wedding has her sister visiting her.

I would like to know if the sister should be sent an invitation in cyrtesy. I met her at a lunch party.

A: It is not necessary to invite her. However, if the number of guests you can invite is not strictly limited, it would be courteous to send her an invitation.

Q: A girl invited me to her school dance and I accepted. My school has a large Christmas dance every year.

Is it necessary to return this girl's invitation by asking her to my school dance? A: It is not necessary.

Q: Will you please tell me if it is considered good table manners to put a piece of bread into the yolk of a fried egg and then to eat the bread with the fingers?

A: To dip a piece of bread into the egg and eat it with the fingers is not good manners. But to drop a piece of bread or two into the soft part of the egg and then eat it with a fork would be quite all right.

The Emily Post Institute offers readers booklets on a variety of subjects concerning etiquette.

If you would like the booklet entitled, "Manners in Public," send 10 cents in coin and a self-addressed, stamped envelope to Emily Post Institute, in care of The Pontiac Press.

Three for the biennial smorgasbord are honored queen and princesses of Pontiac Bethel No. 5, International Order of Job's Daughters. From left are Daleann Casevelli of Highfield Road, honored queen; Linda Isenberg of Henderson Street, senior princess; and Carol McFarlan of Howard Street, junior princess. The dinner, to be served from 5 to 7:30 p.m. Saturday is open to the public.

Iraq Caldron Installs New Leader

Mrs. Albert Kugler has been installed as Mighty Chosen One for Iraq Caldron No. 70, Daughters of Mokanna.

Serving with her will be Mrs. Walter Shelton, junior past Mighty Chosen One; Mrs. Roger Smiley, Mrs. William Koggenhop, Mrs. Mae White, Mrs. Gene Bragan, Mrs. Vic-

tor Bodamer, Thelma Anderson, Mrs. Benjamin Richardson and Mrs. Clayton Randolph.

Mrs. Fred Crossman conducted the ceremony, assisted by Mrs. Williams Anderson, Mrs. Mae White of Iraq Caldron, Mrs. Edward Johnson,

Mrs. Edna Koch, Mrs. Esther Sutton, Mrs. Wilfred Ralford and other members of the Zel Gaz Caldron of Ann Arbor.

Soloist, Mrs. Muriel Sweeney was accompanied by Mrs. John Balch at the piano.

OTHERS HELP
Refreshments were served by Mrs. Earl Brunson, chairman with Mrs. Lynn Sherrod, Mrs. Russell Woodbury, Mrs. Elmer Malden and Mrs. Lucille Kline.

Honored guests at the installation in the First Federal Savings and Loan of Oakland civic room were Earl Brunson of Iraq Grotto, Pontiac, and Monarch Edward Johnson of Zel Gaz Grotto, Ann Arbor.

Area Couple Is Married
A recent afternoon ceremony in the Ullica Methodist church marked the vows of Charles Ann Lay to Charles Thomas McCarty, son of the Rhu McCarty of Ullica.

The bride is the daughter of Albert D. Lay of Forestlawn Avenue and the late Mrs. Lay. She was attended by honor maid, Mary Jane Lay and bridesmaids, Mrs. Arthur Lay, Mrs. Roy Walker and Linda Walker, flower girl.

With Mrs. McCarty, best man, was groomsmen, Donald E. K. Taurialinen Jr. J. Lay and Larry Lake. Robert Lay was ring-bearer.

Panel Talk to Be Heard by Council

A panel on "How Do Our Schools Compare?" will be presented to the Pontiac PTA Council Thursday at 7:30 p.m. in the Alcott School.

Moderated by William Lacey, assistant superintendent of schools, the panel will consist of Dr. David Wells, Dr. Myles Platt and Dr. Philip Hillare, all members of the Oakland County Board of Education.

This discussion will show how the recently passed millage tax is spent and how Pontiac schools compare with outside schools.

Mrs. Marvin McVicar and Mrs. Thomas Henson have been appointed co-chairmen for the PTA Council Blood Bank set for Jan. 27 at Wisper School.

Schools in charge of schools, Mrs. Thursday evening, are Franklin, Longfellow and Waver.

Mrs. Roberta Skovgard has taken a position as field director for the Pontiac area council of Camp Fire Girls. A native of Cody, Wyo., Mrs. Skovgard graduated from the University of Wyoming with a degree in education. Mrs. Skovgard, her husband, will make their home in Walled Lake.

The most luxurious look for evening is this floor length coat of Jasmine, Emba rare white mink, styled by Oliver Gintel. A rounded notched collar, horizontally worked fur and low set sleeves give this dramatic fashion a casual yet, highly dramatic feeling. For the practical minded, lady, the last six rows of the white mink unclip leaving a street length coat. The bottom piece can even serve as a straight stole!

THE ORIGINAL AND GENUINE RIPLEE® SOLE!

Beauty Hint

To give your complexion a delightful bloom, use this simple beauty trick. Dump a cloth in lemon delft freshener and press over your face moulding it to your features. Lie back for a few minutes whilst the lemon tones and refines the skin. Now to nourish and hold the bloom, smooth on your oil of olay and keep it there always under your make-up to protect against wrinkle dryness and to give the skin a day-long dewy look.

Margaret Merrill

Mid-December vows are planned by Patricia Elaine Tucker, daughter of the William H. Tuckers of Irvin Drive, and Pot. Vernon James Vargo of Fort Sam Houston, Tex. He is the son of Mrs. Frank J. Vargo of Pine Knob Road, Independence Township, and the late Mr. Vargo.

How Much Should Be Spent for Home?

By MARY FEELEY
Consultant
in Money Management

Dear Miss Feeley: How much should a man spend for a home, if he's 34 years old, earning \$18,000 a year with a wife and three children under 12?

He has \$10,000 cash to put into the purchase.

He's a man who's definitely on his way up.

Mrs. W. S., Morton Grove, Ill.

Dear Mrs. S.: I say keep him climbed. To do this, he should not be burdened with a heavy financial load. While it's generally considered sound to allow two and a half times the annual income for the purchase of a home, he'd be in better shape to meet the needs of a growing family if the cost of a home is kept to \$20,000 or \$25,000.

College expenses are coming up soon, food and clothing for the children will cost appreciably more within the next five years, and there will be home maintenance to consider. Also, down payment, he'll need to rebuild his emergency savings.

If, for instance, he buys a \$34,000 house with \$6,000 down (saving some of that cash for closing costs, etc.), he could arrange a \$28,000 mortgage at 5% per cent for 25 years, with monthly payments at about \$300 a month.

Another \$115 a month more or less, should be allowed for related expenses — taxes, insurance, heat, etc. That would put the cost of housing at about \$300 a month.

Your letter calls to mind, Mrs. S., some analyses of income levels and behavior patterns. While they are unofficial commentaries on the American social scene, you might be interested to note that they indicate an income of \$18,000 seems to be a critical point in a man's career both financially and emotionally.

This is when he starts going after bigger game — bigger house, bigger car, more elaborate entertaining and schooling for his children. This is when he begins to get in over his head. Between \$18,000 and \$22,000 seems to be the breaking point.

If he can make himself continue the status quo — say the \$12,000 to \$15,000 he has been living on — for awhile longer, he has a much better chance of becoming comfortably stable.

It's not an easy idea to sell, I know. But I just mention it in case you want to give it some thought.

Dear Miss Feeley: I would like to know how much to give a 15-year-old boy as a weekly allowance. We buy all his lunches and school supplies, so this allowance would be just for spending money. My husband makes \$350 a month.

Mrs. L. Y., Massillon, Ohio

Dear Mrs. Y.: Two factors should be considered, I think, in

setting up a child's allowance. First, your income; second, the average spending scale and recreational activities of his own age group.

I don't mean that you must do as the neighbors do. But when a boy is accustomed to joining the group in his spare time, it makes for a happier situation if he feels on a reasonably equal footing. Your income would indicate an allowance of from \$1 to \$1.50 a week.

Unless some special — and especially expensive — hobby is involved, he should be able to make do on this amount. I certainly don't believe in setting an allowance substantially higher than that of his contemporaries. If it must be considerably lower, it won't be fatal — just inconvenient!

The important thing is letting him understand the reasoning behind your decision.

Properly, an allowance should provide a margin for savings, in order to teach a youngster

how to manage money. Why don't you talk over the subject with your son, estimate logical weekly spending, and see if you can't provide a sum large enough to permit some savings — even if it's only a few cents.

(You can get Mary Feeley's handy leaflet on Building Financial Stability by writing to her in care of The Pontiac Press. Enclose a long, stamped, self-addressed envelope.)

Maple Leaf Group Meets at Hotel

Mrs. D. R. Gough and Mrs. A. O. Carner were guests at the recent meeting of the Maple Leaf Luncheon club. Twenty-five members met at the Waldron Hotel.

After a program honoring Mrs. Frank Becker's 85th birthday, Mrs. William McClure of the Lisbeth Shop, Birmingham, presented a fashion show of accessories.

Telstar Pin— Diamonds in Brilliant Orbit

Design in British jewelry is rapidly growing more exciting, reports the Jewelry Information Center in London.

Newest of the breakaway trends is a diamond brooch aptly named Telstar.

The brooch has an angled elongated circle of baguette diamonds encircling a sapphire and diamond sphere representing the world, with a

multi-diamond rayed satellite with a central yellow diamond.
For the rich at pocketbook.

Starch for Mirrors

If you run out of glass cleaner, you can make mirrors sparkle by putting a little corn starch, about two heaping tablespoonsful, into the water with which you are washing them. Polish as usual.

Darken and Lower

Roof on your house too high looking? "Lower it" by painting it a dark color, advises the National Paint, Varnish and Lacquer Association.

Girls Give Program for Music Group

Four young pianists performed at the Sunday afternoon meeting of the Chopin Music club. Alice Schurrer, Jean Ann Keefe, Diane Haskill and Donna Luenberger demonstrated "What is a Sonata?"

Jean Ann was elected president of the group. Georgia Burklow is the new secretary and Miss Haskill the treasurer. Mrs. Carl Clifford opened her home on North Telegraph Road for the meeting.

Sponge Can Be Good Clothesbrush

A cellulose sponge makes a good clothes brush. It does a fine job and, most important, can be washed clean.

If you have trouble getting the soil ring from collars and cuffs of shirts, try applying sal soda concentrate dry, with a damp brush, before shirts are fully washed.

The Robert E. Whitloes of LaSalle Street announce the engagement of their daughter Sharon Jean to Gary Dean Walls, son of Mr. and Mrs. Valtie Walls of South Avery Road. He is a graduate of Pontiac Business Institute where he majored in accounting. Spring vows are planned.

Why Grow Old?

It is true that a lovely complexion touches even a plain-faced beauty with beauty, while a blemished skin is a handicap to one with classic features. Therefore our complexion is well worth taking care of.

Many factors influence the skin. There may be some organic or systemic malfunction which causes trouble. However, more often, incorrect diet, carelessness, hygiene, vitamin deficiency, or poor care of the skin are the reasons.

If you are having skin trouble be sure to eat a well-balanced diet which includes lean meat and eggs, whole wheat and milk. Be sure to remember that fruits and

fruit juices and fresh vegetables are complexion beautifiers, especially the yellow and green vegetables.

Avoid fried foods and greasy rich items. Many dermatologists feel that chocolate is a skin-offender. Vitamin deficiency can cause trouble. Therefore your doctor may give you supplementary vitamins.

Wash your face with soap and water several times a day if it is at all oily. Calomine lotion can be applied over pimples at night.

SERIOUS TROUBLE

Often serious skin trouble has its origin in teen-ager years when boys and girls pick at their skin and squeeze blackheads and pimples. This may bruise the tissues and spread infection.

Anything that touches the skin should be clean. By this I mean your hands, wash clothes, brushes and towels. If you are going to try to squeeze a blackhead out, do so after washing your hands and face carefully.

Use gentle pressure and apply alcohol to the spot immediately afterwards. One of the little ejectors is best and you can sterilize it in alcohol before using it.

Only those who have skin blemishes know what heartache they can cause. If your complexion is extreme, see a skin specialist. Do this before the situation becomes really serious.

If you would like to have my leaflet "Clear the Way for Beauty" which tells you about freckles, moles, blackheads, whiteheads and other blemishes, send a stamped, self-addressed envelope with your request for leaflet number 48 to Josephine Lowman in care of The Pontiac Press.

The Douglas L. Turveys of Cameron Avenue announce the engagement of their daughter Mary Margaret to David G. VanKuren, son of the George H. VanKurens of Saine Drive. June vows are planned.

Polly's Pointers

Count Your Vitamins

By POLLY CRAMER
DEAR POLLY—To make sure I take my vitamins every day, I put seven capsules in a small plastic box every Saturday morning.

I take the first one on Sunday. Should I forget (and who doesn't?), I can check during the day.

Keep dress belts from riding up by attaching a small pin to the center front of the waistline.

Slip the tongue of the dress belt buckle through the pin before you buckle the belt.

Of course, a small crocheted loop serves the purpose better but is not always there when needed.—MAYE

DEAR POLLY—Nearly every day I find an idea in your column that makes living easier and more fun for us.

To tick that lack of storage space in our apartment, I hung ruffled curtains from the bottom of the crib to the floor much like a vanity skirt.

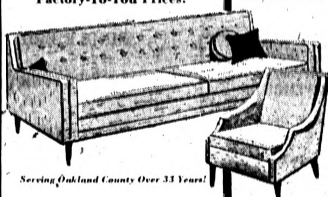

The curtains were slipped on a tightly fastened heavy cord. This provides storage underneath the crib and looks attractive, too.

MRS. C. R. PIGMAN

Take Trip to Capital After Vows

The Clifford Ray Pigmans (Diane Lynne Bader) left for a honeymoon in Washington, D. C. after evening vows and reception recently in Sunnyvale Chapel.

Their parents are the George E. Baders of Bender Drive and the Raymond H. Pigmans of Jerome Avenue.

Motifs of Alençon lace, matching the bride's jacket, accented her gown of white satin which swept into a cathedral train. Cradling her illusion veil was a pearl and lace tiara.

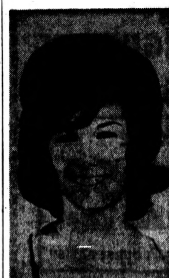

ROSES, GARDENIAS

During the ceremony performed by Rev. V. L. Martin, the bride held a bouquet of gardenias and white roses.

With honor maid Charlene Griffith were bridesmaids Patricia Pelletier and Gloria Roush, also Beth Pigman, flower-girl.

On the esquire side were best man James Bader, with ushers J. W. Beasley, William Pelletier and King Kiber of Big Rapids.

The bridegroom attends General Motors Institute.

The Cecil B. Tupper of Dellwood Drive announce the engagement of their daughter Phyllis Anne to Douglas Ray Wilson, son of the Everett Wilsons of Fisher Road, Commerce Township.

Couple to Live in Florida

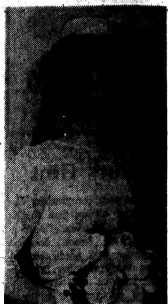

Planning to reside in Pensacola, Fla. are Seaman Appren, and Mrs. Robert Charles Burling (Patricia Louise Hodge) who were wed Friday in the Evangel Temple.

The bride, daughter of Mr. and Mrs. Harry Hodge of Cadillac Avenue, chose street-length white satin with lace jacket and illusion veil topped with a satin pillbox. An orchid centered her bouquet of white carnations.

Mrs. Gary Noel attended her sister at the evening ceremony performed by Rev. Geoffrey Day, followed by reception in the Roosevelt Masonic Temple.

Gary LaClair was best man for the son of the Edward F. Burlings of West Brooklyn

Avenue. Garry Reynolds and Charles Schedlbower were ushers.

Defends Ouster of 3 Officers

Romney Raps Kelley in Guard Hassle

The following telegram, received today by The Pontiac Press, is Gov. George Romney's reply to Atty. Gen. Frank Kelley on the dismissal of three Michigan National Guard officers. Kelley said Saturday Romney's ouster of the trio was illegal.

Dear Editor: The following telegram to Attorney General Kelley deals with an urgent matter of public importance. I believe it relates to a political trick and I predict that this trick will boomerang on those who plotted it.

"This is in reference to your telegram of Oct. 31.

"For over a year and a half, you and your representatives have been consulted on the irregularities in the administration of the State National Guard leading to removal from active duty of three officers.

"Last June, by letter you advised the Democratic auditor general on the basis of his audit investigation how action should be taken. In one of these letters, written on June 18, 1964, you advised:

"Although I find no violation of a criminal statute which warrants criminal prosecution, I do find willful infringement of the laws which control the use of appropriation.

MADE TO ANSWER
"Although the parties in this matter cannot be made to answer to the criminal courts of this state, they should be made to answer to the commander-in-chief of the National Guard and to the legislature which was deceived during the late austerity program into appropriating funds for army maintenance when they were not actually necessary for that purpose.

"I therefore advise to refer the details of this matter to the governor who as commander-in-chief of the Michigan National Guard is empowered to take appropriate action."

"For many months I have been awaiting from your office important legal opinions formally requested in writing by me. NO NOTICE

"Now, after extensive communication with you and your representatives concerning this entire National Guard problem, without any advance notice of any character you make public a telegram before I have even received it. Reversing the advice and recommendations re-

ceived from you and your department's representatives.

"Furthermore, your public telegram advises that the legal opinion on which it is based is not available and will not be available for at least two days.

"On what basis is a telegram reversing your previously written recommendations and the consistent advice of your representatives made public without even making available to me the opinion on which the reversal is based?

"Furthermore, if the action you now say should be taken is 'court-martial legally convened,' why did you not recommend this legal action in any of your four letters to the Democratic auditor general of June 18 and 19, 1964?

ONLY REMEDIES

"In all four of those letters, you advised that administrative action by me, as commander-in-chief, or action by the Legislature were the only remedies. Now you say that the procedure should have been legal in the form of a court-martial.

"Why did you fail in your official duty to recommend such legal action in your earlier written recommendations? Why did your representatives fail to question the action taken with which they had been made familiar by the military board as well as by me?

"Why now do you reverse yourself publicly without the courtesy of even giving Democratic Auditor General Farnum or me any advance information or even the opinion itself after having been in constant communication on these matters for a year and a half?

"It certainly appears that your timing and method in changing your position are for political purposes.

"If your present opinion is sound, I expect you to explain to the citizens of Michigan and to me the reasons for your fail-

ure to originally advise legal action through court-martial and your manner of handling your new and opposite opinion that it is now necessary to take legal action through court-martial."

George Romney, governor of Michigan.

Confab Is Old Stuff to Kentucky Dem

FRANKFORT, Ky. (AP) — The recent Democratic state convention was familiar to state Treasurer Emerson Beauchamp — he was first named a delegate at age 12. That was in 1911.

"I don't know whether I had a right to be a delegate or not," Beauchamp recalled. "Judge John S. Rhea named me to please my daddy."

Beauchamp next campaigned for page at the legislature. Thus was launched a political career in which he has been Logan County clerk, sheriff, Senate chief clerk, cloakroom keeper, state tax commissioner, state personnel director, rural road commissioner, lieutenant governor, agriculture commissioner and treasurer.

He has been to 14 Democratic state conventions.

Better Read Than Dead?

WICHITA, Kan. (AP) — Phil Young of Wichita said he was driving on the Kansas Turnpike when he noticed another motorist driving along with a newspaper spread across the steering wheel.

Young said he followed the car for about 50 miles while the other driver leafed through the paper at the same time he was driving 70 miles per hour.

Deer Lassoed on Freeway

LOS ANGELES (AP) — Ropetrick artist Monte Montana, cruising along the San Diego Freeway yesterday, came across a wild deer loose on the highway.

Also at the scene was Ernest E. Wolfe, who said: "Out of this Cadillac pulling a horse trailer, stepped this guy all dressed up in a Western costume with a lasso in his hand. Boy, was I surprised."

The deer, too, was surprised. Montana snagged it quickly and hustled it off the highway.

"It shows the Old West hasn't died yet," he said.

Big Fish Fry Is Postponed —Cook Out

PALMETTO, Fla. (AP) — The Palmetto unit of the Florida National Guard had to call off its fish fry because the general said the cook couldn't cook.

Capt. Don Flowers said the unit planned the fish fry to raise funds to add recreational facilities to the guard quarters.

Ex-Sheriff Roy Baden, long recognized as a master of preparing fish for a fish fry, was engaged to preside at the cook fire.

That was the rub. Baden is a candidate for sheriff. The guard, as a military unit, cannot mix in politics. Certain critics argued that Baden's presence would be political.

The issue was taken to the state adjutant general, who ruled that Baden couldn't take part. "We've postponed it," said Flowers. "It will be held later."

Space Station Fire Poses Problem

CAPE KENNEDY, Fla. (AP) — If a manned space station orbiting the earth suddenly is swept by a catastrophic fire, how does the crew escape?

Do the astronauts leap from the burning craft for protection until help arrives from earth? Do they eject individually or in groups in space "lifeboats"? Should the "lifeboats" be built to return to earth or to remain in orbit until a rescue vehicle is launched from earth?

The answers are being sought in a number of U.S. space research laboratories. Present thinking favors individual escape capsules which can return to earth.

Television network revenues in the U.S. in 1963 exceeded \$1.5 billion, and produced before-tax profits of \$343 million.

Dems Probably Will Keep Same Advantage

Battle for U.S. Senate Seats Likely to End in Draw

WASHINGTON (AP) — The 35 Senate seats at stake in Tuesday's voting provide some of the most interesting races in years. But when the votes are counted, the Senate's political lineup is likely to be about the same.

Democratic and Republican dogfights alike point to two to four seats they feel confident of winning from the opposition.

The final result may well find the Senate of the 96th Congress divided at just about the 50-50 Democratic margin which now exists.

Democratic leaders say they would be well-satisfied with such a standoff. They emphasize their present majority has been sufficient, despite many Southern defections, to put through even the most controversial party programs such as a Social Security health care plan.

KEY RACES

The election's interest centers in the personalities involved in such key races as New York, California, Oklahoma and Ohio.

Former Atty. Gen. Robert F. Kennedy is making his first try for elective office in New York, running against Republican Sen. Kenneth B. Keating.

In California, Democratic

Sen. Pierre Salinger, former press secretary to Presidents John F. Kennedy and Johnson, is trying to hold onto the Senate seat to which he was appointed in August. His challenge is from movie actor George Murphy.

Bud Wilkinson, who was one of the nation's most successful football coaches, is bidding as a Republican for an Oklahoma Senate seat. He is running against a youthful Democrat, Fred R. Harris, who defeated incumbent Sen. J. Howard Edmondson in the primary.

OHIO BATTLE

In Ohio, Republican Rep. Robert Taft Jr. is trying to retire Democratic Sen. Stephen M. Young.

The present top-heavy Democratic Senate margin was won six years ago when the party made a gain of 14 seats.

It is this "class of 1968" which is up this year. The Democrats have 25 places at stake as against only 9 for the Republicans.

Democratic strategists figure their best chances to take over Republican posts this year are in Maryland where youthful Joseph D. Tydings, stepson of a former senator, opposes Republican Sen. J. Glenn Beall, and in Hawaii, where Democratic Rep. Thomas P. Gill is seeking the seat of Republican Sen. Hiram L. Fong.

Republicans say they expect

Taft to win handily and claim that Wilkinson has a decided edge in Oklahoma.

Other races in which the GOP experts insist they have a good chance to unseat Democrats are in California, where they believe Murphy has pulled up fast; in Nevada, where Lt. Gov. Paul L. Zapp is challenging Democratic Sen. Howard W. Cannon; in Utah, where Ernest L. Wilkinson is running against Democratic Sen. Frank E. Moss; in Wyoming, where John S. Wold is battling Democratic Sen. Gale W. McGee, and in Texas, where George Bush, son of a former Connecticut senator, opposes Democratic Sen. Ralph W. Yarborough.

Democrats say they have strong prospects in New York, where Kennedy and Keating are waging a tight race; in New

Mexico, where Democratic Rep. Joseph M. Montoya is trying to unseat Republican Sen. Edwin L. Mechem, and in Pennsylvania, where Genevieve Blatt, state secretary for internal affairs, is running against Republican Sen. Hugh Scott.

Sen. Edward M. Kennedy, D-Mass., seeking his first full term, has been unable to campaign because of injuries suffered in a plane crash last summer. But he is considered a shoo-in against Howard Whitmore Jr.

The yellowish oil from poison ivy leaves, which causes the itch and rash, retains its potency on clothes and other items for a year or more, and will cause a reaction in highly sensitive subjects even when diluted 50 million times.

A Junior Editors Quiz About QUARTER HORSE

QUESTION: "Quarter horse" seems a strange name. What is meant by it?

ANSWER: Racing their horses was a favorite sport among the early settlers of Virginia, but since regular race tracks had not been developed, paths were cut through the wilderness for racing purposes.

These race paths averaged a quarter mile in length. Horses did best at this distance if they could get off to a very fast start, could turn quickly and develop great speed in a sprint.

A special breed of horses originated from such racing, called "Quarter horses" because of the quarter mile race paths. These horses were heavy in front, with bulky shoulder muscles.

Although this gives great speed in the takeoff, such a horse tires more easily over the long race track than does the usual racing horse.

But if the coming of longer race tracks led to the decline of the Quarter horse as a racer, the breed came into its own in the development of the West.

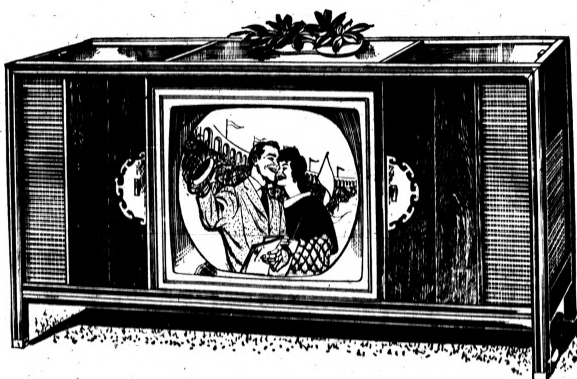

The burst of speed and quick turning of the Quarter horse made him the ideal mount for handling cattle. The particular qualities of this breed were inherited from the famous stallion Janus, who was imported from England and used in Virginia between 1756 and 1780.

FOR YOU TO DO: Make a scrapbook of your Junior Editors questions, answers and drawings. Refer to it from time to time.

Khanh, New Viet Council Said Torn on Post for Ex-Premier

SAIGON, South Viet Nam (AP) — Potentially dangerous friction appeared to be growing today between South Viet Nam's civilian High National Council and the nation's ex-premier, Maj. Gen. Nguyen Khanh. Khanh stepped down from the premiership a week ago after

nine months of rule. The 17-member council was appointed two months ago to set up the new government.

The council so far has chosen Phan Khắc Sửu chief of state and Tran Van Huong premier. No Cabinet has been formed.

Reliable informants said the council wants some general other than Khanh to head the armed forces. Maj. Gen. Duong Van Minh, former chief of state, and Tran Van Don, both rivals of Khanh, have been mentioned.

It has even been proposed that Khanh be named ambassador to Washington, a post regarded in Viet Nam as the equivalent of honorable exile.

The council is reported to be deeply concerned about continued American support for Khanh. Reliable sources said the council has made unofficial overtures to the United States seeking assurance that Washington would not intervene if Khanh were ousted from command of the armed forces.

Informants said that Khanh at the meeting was assured of the support of 31 of 39 of them. The High National Council considered this an attempt to head off any move by the council to name someone else to command the army.

Government insiders regard the situation as serious.

Humphrey Is Forecasting Landslide for Democrats

LOS ANGELES (AP) — Sen. Hubert Humphrey, predicting a Democratic landslide of unprecedented proportions, rings down the curtain today on a vice presidential campaign that "I am confident that the American people on Nov. 3 are going to give the greatest victory that America has ever known in American politics to the President of the United States, Lyndon B. Johnson," an exuberant Humphrey prophesied Sunday night in the home state of Republican presidential candidate Barry Goldwater.

The 58th and last day of the bustling Humphrey campaign was comparatively quiet one. He scheduled a few television taping sessions and a businessmen's luncheon in Los Angeles. He was to appear at the last of the Johnson-Humphrey political rallies at Salt Lake City, Utah. Then the campaign plane known as "The Happy Warrior" would point its orange nose toward Minneapolis, the campaign officially at an end. Tuesday he will motor to his office home — Waverly, Minn. — to cast his ballot.

Humphrey, in high spirits as the campaign dwindled to a close, feels the Democratic party will win in at least 40 states and the District of Columbia — including all the key electoral states.

That apparently was what the senator had in mind Sunday night as he swooped into Gold-

water's native state for a rally sponsored by a Mexican-American group.

He conferred with Arizona Sen. Carl Hayden and was assured the Democrats stand a chance of walking off with Arizona's five electoral votes.

He turned the rally into some good-natured ribbing of Goldwater's no-victory strategy. "I think now that I have found the secret behind Barry Goldwater's no-victory strategy," he said.

"Frankly, I do not really believe that he wants to be elected president. I think he would rather be far right than president."

Body of Wife Is Buried Beside Hoover's Grave

WEST BRANCH, Iowa (AP) — The body of Mrs. Herbert Hoover was buried beside that of her husband in a brief ceremony Sunday.

About 80,000 persons were present a week earlier for the burial of the former president. There was no crowd Sunday. At the family's request, details of the transfer of Mrs. Hoover's body from Stanford, Calif., to its resting place overlooking Hoover's birthplace here were not announced.

The Rev. Thomas Helm of Grace Episcopal Church in Cedar Rapids conducted the interment service.

Khanh sees himself as the logical leader of the armed forces and is not likely to give up the job easily. On Oct. 24, the day after he resigned, Khanh summoned all his generals except his rival Minh to Cap St. Jacques.

Informants said that Khanh at the meeting was assured of the support of 31 of 39 of them. The High National Council considered this an attempt to head off any move by the council to name someone else to command the army.

Government insiders regard the situation as serious.

Will New President Have Smooth Sailing?

House Composition Is Important Factor

WASHINGTON (AP) — The 435 men and women to be elected Tuesday to the House of Representatives will decide whether the president inauguration next January will have a hard or easy time getting things done.

That's the entire House membership and in its hands will be the decision whether there will be a reenactment of a form of the "first hundred days" of the initial Franklin D. Roosevelt administration or continuation of the executive-legislative frustration that has plagued presidents since FDR.

The House, in recent years, has been the key branch of the legislative arm of government. It has been dominated, more often than not, by a conservative coalition of Republicans and southern Democrats. Even Lyndon B. Johnson, admittedly a top-notch congressional arm-twister, has seen parts of his program scuttled in the House after clear sailing in the more responsive Senate.

Democrats go into the House elections with 257 seats against 178 held by the Republicans, both figures including vacan-

cies. But the statistics are misleading because many Democrats, mainly Southerners, don't always follow their party line in congressional voting.

BOTH SEE GAINS

Political experts of both major parties are predicting gains this year, although neither side expects anything like the 97 seats picked up by the Democrats when Roosevelt was first elected in 1932. Democrats outnumbered Republicans 313 to 117 in the 1932 House and about all Roosevelt had to do to get legislation enacted was to ask for it.

National chairmen of both parties Friday predicted gains of 15 House seats. The GOP has concentrated its drive in southern states. The Democrats have taken aim at Republican hold-

ings in the Midwest and the Northeast.

As in past years, the fight for House control will center on about 70 congressional districts where incumbents frequently have been ousted by narrow margins. These districts are closely divided between the two parties.

To win control of the House, the GOP would have to pick up 40 seats now labeled Democratic. Not since Harry Truman's surprise victory in 1948 has there been a House turnover of such proportions. Truman's conquest swept 75 new Democrats into the House.

NOT BEYOND 300

Political experts don't believe that even a Johnson landslide would rocket Democratic House holdings beyond the 300 mark. It

is not unusual for a president to win election while his party loses seats in the House.

If the GOP prognosticators are accurate and the Republicans pick up 10 House seats, Johnson, if elected, presumably would have a tougher time on Capitol Hill.

Should the Democrats' prospects be right, a gain of 10 to 12 seats for their party would not necessarily mean clearer sailing for a Johnson legislative program. It would depend on where the new Democrats came from and whom they defeated. It also would depend on how well the Republicans do in the South.

24 Said Drowned in Tunisia Floods

TUNIS, Tunisia (UPI) — Floods swollen by torrential rains swept through low-lying Tunisian villages during the weekend. Twenty-four persons were reported drowned. Roads were washed away and homes buried under mud.

Four other persons were reported killed by lightning. Communications with dozens of villages were cut off. Helicopters attempted precarious rescues of persons perched on rooftops and in trees.

Seven more persons were reported missing.

Tape Recording Traps Youth

'Hard Labor' for False Alarm

KALAMAZOO — The false fire alarm turned in by Thomas P. Zite, 18, cost him a sentence of "40 hours hard labor" at the fire station.

Municipal Judge Clark M. Olmsted handed down the sentence after Zite's plea of guilty to a misdemeanor charge which was brought following a tape recording of his voice.

Foremen, who tape-record all calls as a matter of practice, and police said a citizen identified the voice on the fire station call as the same as that heard on amvoing calls to his home. Zite's arrest followed.

Besides given the "hard labor" time, Zite was fined \$78.30, including a probationary fee and court costs, and placed on one year's probation.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just apply a little FASTEETH to your false teeth. This instantly prevents a remarkable sense of added security and security by holding false teeth firmly in place. It's alkaline (not acid) and Get FASTEETH at any drug counter.

CONSCIENCE ABOVE PARTY...

Detroit Free Press

This editorial was prepared for publication in The Detroit Free Press by Lee Mills.

AS WE SEE IT

The Man for President Is Lyndon B. Johnson

AFTER SEVEN WEEKS on the stump, Barry Goldwater has kept his promise to the American people. He has offered them a choice.

Once in Lyndon Johnson. In every important qualification for the job as President of the United States — in leadership, understanding the role of a President, comprehending the world as it is today, in the capacity for learning, in prudence and experience — he is a clear choice.

As a Senator, Barry Goldwater created an attractive image. He was the gadfly of Congress, the one man who said "No" until it became an echo. His answers were easy, his approach direct. His 1960 book, "The Conscience of a Conservative," captured the imagination of many by making the world seem a simple place — if only we'd do what he suggested.

But Barry Goldwater, being only one of 100 Senators, and a minority of a minority at that, didn't have to do what he suggested, or develop the responsibility required of leadership. And from the tone of his campaign, he hasn't developed it yet. He has failed to earn the confidence of the people. Instead of his rugged image adverting the rugged individualism he espoused, Goldwater has more realistically revealed himself as a man out of his depth. The problems are more complex, the pitfalls deeper, the dangers more acute than he seems to realize.

It is impossible, in this world, to turn welfare over to private charities. It is impossible to negotiate with the Chinese Communists by blowing up a few bridges to get their attention, or to talk about The Bomb as if it were a round of 30.30 ammo.

The new and untried Soviet leadership, which may well be in a state of flux for the next few years, must be treated with more care and sensitivity than Goldwater has shown.

And it was the depth of irresponsibility for Goldwater to pick as his running mate and possible successor a man whose only claim to

leadership is an unquestioned ability to wage a scarping campaign.

The choice, then, is not between a "conservative" and a "liberal," but between a man with a high degree of common sense and one who has so far failed to demonstrate even an adequate amount.

Whatever Lyndon Johnson's faults — and a good many could be ticked off, including his political insensitivity to such cases as Bobby Baker and the unfortunate story of Presidential aide Walter Jenkins — lack of understanding and lack of responsibility are not among them. In every step he has taken as President, and in his actions as Senate majority leader before that, he has shown an uncommon degree of common sense.

He provided immediate reassurance to a nation which needed reassuring after John Kennedy's assassination. The tax cut and civil rights law, which he pushed through Congress, filled national needs. He has won the respect of business and labor, and of our allies abroad. And when he has been tested, as at Guantanamo, Panama and the Gulf of Tonkin, he has been both steady and stern. Furthermore, he looks to the future as a friend, not an enemy, as a challenge, not a threat. He recognizes that there are immense problems to be solved, but he doesn't counsel retreat as the way to lick them.

There is room in this country for a genuine conservative revival. The American people haven't given a mandate to the New Deal since 1948. They are moderately conservative, we believe, and would have welcomed a genuine choice, within the framework of the world as it is and the times as they are.

But they have no such choice. The Republican Party of San Francisco threw away its chance to offer the people that alternative.

The choice we have is between a man who has shown he can do the job, and one whose public statement indicates that he can't. We urge the election of Lyndon Johnson.

Voters! Read This Editorial Carefully . . .

. . . it clearly explains why our organization is endorsing President Johnson.

Lions Treat Fans With Halloween Trickery; Colts Hold Lead

Plum Melts Icy Comments in 37-17 Win Over Rams

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

DETROIT — A few new tricks by the Detroit Lions gave 52,064 fans at Tiger Stadium an appropriate Halloween treat as the Lions rolled over the Los Angeles Rams, 37-17 yesterday.

Quarterback Milt Plum who has been receiving ice treatments for his elbow along the sidelines as well as the cold shoulder treatment from Detroit fans all season, received the loudest ovation he has ever heard in the Motor City when he came out of the game in the final minute.

Plum's passing day, one of the finest of his career with Detroit, netted him 347 yards on 16 completions for 24 attempts and three touchdowns.

Nick Pietrosante, who also has taken the catcalls of the fans all season, came off the field with his head high showing two running touchdowns for his efforts and a good day running and blocking.

The veteran fullback was a question mark before the game. He had been in the hospital from last Sunday until Thursday night with both eyes covered to protect the injury he suffered against the Colts and he was listed as a doubtful starter.

With the large number of injuries the Lions had been nursing the past week, coach George Wilson resorted to some ball handling trickery much to the pleasure of the fans and the demise of the Rams.

With the Lions' defensive unit showing the Rams to their own one yard line on the first play of the game when Sam Williams smeared Roman Gabriel for a 13 yard loss, Detroit took over at midfield on the punt.

PROTECTION
The Detroit offensive line, playing its best game against the huge Rams' front four, gave Plum solid protection as he hit Terry Barr on the 4th play of the game for a 40-yard touchdown pass. Wayne Walker's 90th straight extra point made it 7-0 with only four minutes gone.

A few minutes later after a 23-yard punt by Yale Lary, the poorest of his career, Joe Schmidt hit Lester Josephson. He fumbled and Bruce Mahoffell on it at the Detroit 47 to start the next march.

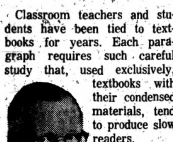

Gail Cogdill playing with a plastic cast on his broken third finger of the left hand made a great overhead catch for 39 yards to the Rams' 14.

Plum then threw to Jim Gibbons who made a diving catch of the ball on the one yard line, and on the next play Pietrosante hurdled the line for the touchdown.

Educators Use Communication Media

Newspapers Supplement for Textbooks

DR. NASON says somewhat out of date.

Educators, faced with the

explosion of knowledge in recent years, are beginning to use new media of communication — newspapers, radio, television, training films and teaching machines.

Newspapers especially, provide timely and interesting materials for the development of reading speeds and abilities. Adults depend upon newspapers for much of their information. "All I know about it is what I read in the newspapers," originally made famous by Will Rogers, is still true of most citizens. Students should be taught to make the best possible

use of newspapers and to read them intelligently.

Newspapers have many advantages as a teaching device, among which are the following:

- Materials can be read, re-read and reviewed as required by the learning pattern.
- Supplements published by the great metropolitan newspapers, regional progress and development are set forth in a digest which no textbook could approach. Industry, housing, education, recreation are researched and written up by skillful reporters. No textbook could afford the space for the words and pictures required for such a complete presentation.
- History becomes alive and lends meaning to the past as presented in the textbooks. History being made since the end of World War II, vital as it is to the understanding of our present day world, is available to students only through summaries and reports as they appear in newspapers.

CARRY VIEWS
Papers not only report the

news but they also carry the views of commentators and politicians.

Newspapers are a powerful force in education outside of schools. But schools should take the responsibility to teach students how to sort those things which are opinion from those which are straight reporting. If they learn to read the columns of the commentators with full knowledge of the viewpoints back of the writing, they will be in a better position to evaluate the statements made.

Driver's Rifle Speaks Louder Than Words

ROME (UPI) — Police were looking today for a motorist who believes in deeds rather than words.

The unidentified motorist apparently disliked the way a car passed him on the Morluo-Capen Road north of Rome. So, without saying a word, he took a rifle and fired at the car, narrowly missing the driver, Sandro Alei, 19.

Opening lead—K

By OSWALD JACOBY
It should encourage all readers when they see how many errors the best players in the world make in the stress of tough competition.

In the match between Poland and Ireland at the World Bridge Olympiad, the bidding went the JACOBY same at both tables and both West players opened the king of diamonds. Each East defender the dealer in order to discourage diamond continuation.

Both Wests thought for awhile, then shifted to the six of spades. So far the bidding and play had been identical, but at this point the Irish declarer played dummy's queen of spades. The Polish declarer did not play the queen, but played a low spade. The queen of

spades play turned out to be fatal to the Irish cause. East won with the ace and returned the suit. This gave the defense two spade tricks and two diamonds. The low spade played by Wisniewski of Poland also forced East's ace and had East not led back a diamond, Wisniewski would have made five odd. As it was, he did score the game.

It is easy enough for us to see the low spade play was correct. It also should have been fairly easy at the table. Few players lead away from an ace against a suit contract when they are looking at king-queen in dummy.

Johnson, Goldwater Views on Major Issues

WASHINGTON (AP) — Here, in their own words, are what President Johnson and Sen. Barry Goldwater have said on some of the major issues of the 1964 presidential campaign:

WAR AND PEACE

Johnson — "In a world such as this — a nuclear world, there is no room for bluster and bluff and belligerence. There is room only for courage, intelligence and reason." (Oct. 21 at St. Louis)

Goldwater — "The outright lie that I am trigger-happy is the most damaging thing I have run into. But I think that it is being overcome by just people, particularly no American, is ever going to push the button." (Oct. 12 at Phoenix, Ariz.)

GOVERNMENT

Goldwater — "This adminis-

tration wants to pass solutions on to the people from Washington. It is bureaucracy-centered, not individual-centered. People generally are coming to recognize the issue involved: free enterprise and balanced government versus a controlled economy and an all-powerful central government." (Oct. 12 at Phoenix.)

Johnson — "A responsible government will not turn its back on workers whose jobs have been taken over by machines; will not gaze into a sky while millions of Americans live in poverty. A responsible government is going to put education at the top of our list of unfinished work." (Oct. 15 at Rochester, N.Y.)

CIVIL RIGHTS

Johnson — "We seek to give every American, of every race

and color, his full rights under the law." (Sept. 7 at Detroit.)

Goldwater — "If you ever hear me quoted as favoring the right to associate without favoring the equally vital right not to associate — look again because somebody will be kidding you." (Oct. 26 at New York.)

VIET NAM

Goldwater — "American boys are fighting and dying in the Asian jungles and it becomes more apparent every day that this administration is drifting — that it has no policy worthy of the name." (Oct. 5 at Washington.)

Johnson — "We will not be worn down. We will not be driven out. We will not be provoked into rashness. But we will continue to meet aggression with firmness and unprovoked

attack with measured reply." (Aug. 12 at New York.)

MEDICAL CARE

Johnson — "Is it asking too much for this beautiful country to prepare a law so that older folks can face illness without purse or an inadequate insurance policy?" (April 17 at Washington.)

Goldwater — "The Social Security system is not the way to do it effectively. One sure way to wreck the Social Security system would be to saddle it with unnecessary new burdens, such as medicare." (July 6 statement to Associated Press.)

MORALITY

Goldwater — "Something basic and dangerous is eating away at the morality, dignity and respect of our citizens. When immorality occurs it always starts at the top." (Oct. 20 on television.)

Johnson — "The seemingly insurmountable moral issues that we face at home and abroad today can be resolved by men of strong faith and men of

brave deeds." (March 25 at Washington.)

NUCLEAR CONTROL

Johnson — "I believe that the final responsibility for all decisions on nuclear weapons must rest with the president of the United States." (July 24 news conference.)

Goldwater — "I suggest that the supreme commander of NATO have direct command of a NATO nuclear force on European soil." (April 14 position statement.)

RELATIONS WITH RUSSIA

Goldwater — "The present administration has made the mistake of thinking that 'peaceful coexistence' is the same as 'peace.' It has ignored the fact that all Communists agree on the same goal — a Communist-dominated world." (Oct. 12 at Washington.)

Gregory Peck Rare Actor: Looks Younger in Person

By BOB THOMAS

NEW YORK — A middle-aged gentleman walked up to Gregory Peck in Central Park Zoo and commented, "You look 10 years younger in person than you do on the screen."

It was a remark that might have sent a mere vain actor into a tizzy. Peck merely turned on the grin that crinkles the right side of his face and replied, "I

AM 10 years younger than I am on the screen."

Nothing much perturbs Greg Peck. He was happily starting his new movie, "Mirage," which happened to be shooting East Side, West Side and all around the town. At the moment, he was doing a scene with his costar, Diane Baker, beside the pool of California seals in the zoo.

TV SHOW
Traffic continued humming up and down nearby 5th Ave. Troops of first-graders marched two-by-two on their visit to the zoo; one was heard to shout "Hey, lookie — they're shooting a TV show!" The seals were lured into camera range by donations of fish, and director Edward Dmytryk ordered the camera to roll.

Peck's performance was letter-perfect, as might have been expected of a pro who has been nothing but a star in his two decades in films. After the scene he came over for a chat, and I suggested he might be enjoying a bit of nostalgia to be back in the city where his career began.

"I never have any nostalgia," he remarked straight faced. "A little sherry now and then, perhaps."

Still, I persisted, inquiring about the circumstances of his arrival in the big town as a lean, raw-boned young man fresh from the University of California campus at Berkeley.

BIG MONEY MAN
"It was in 1939," he reminisced, "and I arrived in New York with \$185. That wouldn't last very long, so I started looking for a job. My only lead was a friend of a friend who was a big money man in Wall Street."

"I went down to his office and presented my letter of introduction. My friend had suggested that this man might have a job for me at the World's Fair."

"Yes, I believe I do have some investment at the fair," he said, and he rifled through his portfolio and came across something called meteor race. He sent me out there, and I got a job as a Barker, trying to induce people into the auto-racing show. My salary was \$25 a week.

"I did that for a month and then got a job as a tour guide in Rockefeller Center for \$40 a week. My work was to herd people through the buildings and give them all kinds of facts and figures. If someone asked me how much the Radio City Music Hall weighed, I had the answer."

"I stayed on that job for the rest of the summer, and then I got a position at the Neighborhood Playhouse, where I studied under Sanford Meisner. I was really a method actor, though we called it the Stanislavski system then."

From the playhouse he started heading upward, and his direction has never changed. His local address: the Waldorf Towers.

Noisy Campaign In County Grinding to Close

WASHINGTON (AP) — The long, strident election campaign comes to a close today with every indicator of a computerized, poll-conscious era pointing toward victory for President Johnson.

In 27 hours of elapsed time, beginning at 12:01 a.m. EST tomorrow in some New England towns and winding up with the closing of polls in western Alaska, some 70 million Americans will choose a president, 25 governors, 435 House members and 35 senators.

Although he made no predictions on the extent of the victory he confidently expects, President Johnson obviously hoped he would roll up more than the century's record 60.8 per cent of the vote registered for Franklin D. Roosevelt in 1936.

This would give him a massive victory in the 538-vote electoral college.

GOP presidential nominee Barry Goldwater was predicting the "upset of the century" would make him the winner despite the poll indicators against any such result.

GOP CONCESSIONS

Privately his aides were conceding only Massachusetts, Connecticut, Rhode Island, Alaska and Hawaii to President Johnson.

Aides of Johnson said they had given up only on Mississippi and Alabama.

They believe they have a chance to carry every other state, including Johnson's native Texas and Goldwater's native Arizona.

The two standard-bearers make final televised bids for votes tonight.

The President and his running mate, Sen. Hubert H. Humphrey, will appear on a pre-taped program arranged for 10-10:30 p.m. EST on the NBC network.

Goldwater and his running mate, Rep. William E. Miller, will appear on a pre-taped 9-10 p.m. EST program to be carried by CBS.

Johnson heads for Texas this afternoon for election eve campaigning in Houston, Pasadena and Austin.

Then he will fly with his family to their Johnson City home to await tomorrow's returns.

IN CALIFORNIA

Goldwater, battling to win vital California, speaks today in San Francisco.

Tonight, he ends his vote hunting travels in the little Arizona town of Fredonia, where he wound up both of his Senate campaigns.

Then he flies to Phoenix to spend election day with his family at their home overlooking the Arizona desert.

Miller spent yesterday in Washington and plans to remain in the capital today before

going to his Lockport, N.Y. home tomorrow.

SCHEDULED RALLIES

Humphrey scheduled rallies today in Los Angeles and Salt Lake City before winding up in Minneapolis.

He will be at his Waverly, Minn., home tomorrow.

Ticket-Splitting Big Factor in Romney-Staebler Race

DETROIT (AP)—Michigan voters decide the fate of Republican Gov. Romney and help select a president tomorrow in a general election that climaxes an unparalleled campaign.

If heavily favored President Lyndon B. Johnson and barely favored Gov. Romney win, they'll need some of the most extensive ticket-splitting in Michigan history.

Effects of civil rights, elements of a party split, reapportionment and even entirely new offices swirl about the election.

A United States senator, 19 congressmen, 148 legislators, three other state administrators, nine judges for a new court of appeals and a myriad of local officials will be picked by the electorate.

They'll also decide whether to retain the present party ticket ballot or switch to the Massachusetts, or office block, ballot form.

President Johnson, a Democrat, is expected to sweep past the Republican nominee, Sen. Barry Goldwater, by from 300,000 to 600,000 votes. That would earn him 21 electoral votes.

KEY FACTOR

The size of Johnson's margin, if he wins, is expected to be a key factor in determining Romney's race against U.S. Rep. Neil Staebler, former Democratic state chairman.

That contest, after centering

In a campaign generally regarded as the bitterest in modern times, Johnson rode the issues of peace and prosperity.

He tabbed Goldwater as an "extremist" and as a man whose finger could not be trusted.

(Continued on Page 2, Col. 6)

on economic progress and social needs for most of the campaign, suddenly picked up a new issue Saturday when Atty. Gen. Frank Kelley, a Democrat, ruled that Romney illegally fired three top National Guard officers Oct. 8.

Democrats leaped on the situation as what they called an example of Romney's lack of teamwork.

Romney cried political trickery, but conceded it could have significant voting repercussions. Staebler started the campaign far behind but an early October poll indicated he was within 4 per cent of Romney.

Democrats say they've now closed this gap and Staebler says he'll win—"but not by a big margin."

Romney is confident. Most observers expect the difference to be less than 100,000 votes.

DEM DEFECTORS

Staebler expects to win by recapturing half of the 22 per cent of Democrats who voted for Romney in 1962, when the former president of American (Continued on Page 2, Col. 5)

Top winner in the annual citywide Halloween Treat Contest in the grade school age group was 7-year-old Tommy Pittman, 601 De Sota Place. Tommy won a bicycle.

Second place winner in the grade school age group was James, who won a radio, is 7 and attends LeBaron School. Third place prize of \$5 went to Regina Power, 6, 437 Bartlett, of Bethune School.

In the junior high age group, Vicki Conway, 12, of 562 East Tennyson, won the wristwatch. Vicki attends Madison High.

Second place prize in this group, a pen and pencil set, went to Ralph Diaz, 15, of 181 Perkins. Ralph attends Eastern High. Third prize of \$5 went to Dolores Gomez, 12, of 110 East Princeton. Dolores attends Kennedy High.

Senior high school group, first prize, a wristwatch, went to Sandy Ellinger, 17, of 145 Oliver, who attends Pontiac Northern.

CENTRAL STUDENT

Pam Powers, 16, of 1796 Lakeland, Sylvan Lake, received the pen and pencil set. Pam is a Pontiac Central student.

Third prize, \$5, went to Carmella Roselli, 16, of 657 Racab, a Pontiac Northern student.

The Mystery Treat Contest is sponsored by the Pontiac Area Junior Chamber of Commerce in cooperation with the Pontiac parks and recreation department.

Some 22,000 registration blanks were delivered to every school with the Pontiac school district.

Carl W. O'Brien, State Senator, adv.

Big Slate Faces Voter

CONG ATTACK — A weapon is dragged from the burned wreckage of a U.S. Air Force B57 following a Communist Viet Cong mortar attack on Bien Hao Air Base in Viet Nam.

Four Americans were killed and 31 injured. Other damaged B57 bombers are in the background.

Says K Suffers From Disease

Danish Red Vague in Report of Sclerosis

COPENHAGEN (AP) — Denmark's Communist party leader returned from Moscow today and said he understands Nikita Khrushchev is suffering from sclerosis.

Knud Jespersen, chairman of the Danish Communist party, added that the former Soviet premier is not receiving visitors because of his illness.

Jespersen made his remarks in a radio interview shortly before holding a news conference to announce the results of his fact-finding mission to the Soviet capital.

The dictionary definition of Sclerosis is "induration (hardening) produced in an organ by increase of its interstitial connective tissue; also degenerative replacement of tissues of the spinal cord or brain by neuritic tissue which fills the interstices and supports the essential elements of nervous tissue, especially in the brain, spinal cord and ganglia."

Khrushchev is 70. Jespersen was vague on the precise nature and gravity of Khrushchev's reported illness. He described it only as sclerosis. (Continued on Page 2, Col. 8)

5 GIs Killed, 27 Planes Hit

Say No Stopping Cong Strikes

SAIGON, South Viet Nam (AP) — U.S. military sources said today the disastrous Communist attack on the key U.S. installation at Bien Hoa could be repeated at a dozen or more bases in South Viet Nam.

"What's surprising is that the Viet Cong did not strike sooner," an American major at Bien Hoa said. "When it suits them, I am sure they will do it again."

The Viet Cong plastered the air base 18 miles northeast of Saigon with 100 81mm mortar shells just after midnight Saturday, killing four Americans and wounding 31.

A fifth American was killed a few hours later in another mortar attack about five miles north of Bien Hoa.

Some predicted that the sprawling Tan Son Nhut air base in Saigon might be the next Viet Cong target.

27 PLANES HIT

The 30-minute attack on Bien Hoa destroyed or damaged 27 planes, including 20 U.S. Air Force B57 jet bombers. It also killed two Vietnamese and wounded five.

Gen. William C. Westmoreland, commander of U.S. forces in Viet Nam, said elaborate measures had been taken to protect aircraft at Bien Hoa and other key bases.

Some U.S. military sources, however, believe that given the security situation in the countryside and the Viet Cong's proven ability in swift night attacks, the Bien Hoa victory could be repeated.

The three biggest bases — Bien Hoa, Saigon, and Danang — have a number of things in common, all favoring the Viet Cong.

GOOD COVER

Each is surrounded at least in part by countryside where the guerrillas can find good cover.

NOW SAYING

"Romney is now saying we approved the firings early last month. But just last week in Downagie he announced he would ask for a legal opinion on his actions."

"If he thought our office had already concurred, then why did he publicly say he was going to ask our office for 'another' opinion," Kelley asked.

By way of response Romney produced four letters in which he said Kelley showed the governor did have the power to dismiss the three officers from their jobs with the Michigan National Guard military establishment.

Elect Frank Richardson, Pontiac, Treasurer, Whiteford, Adv.

Redistricting, Constitution Main Reasons

91 Candidates Are on Ballot, in Addition to Those at Local Level

Oakland County voters will go to the polls tomorrow to face the largest slate of candidates ever assembled in the county for a general election.

A total of 91 Democratic, Republican and nonpartisan candidates are seeking national, state and county offices, in addition to candidates for township offices.

Incomplete slates of national and state candidates have also been posted by the Socialist Worker, Socialist Labor and Freedom Now parties.

State reapportionment and Michigan's new constitution are the main reasons for the lengthy list of candidates.

Oakland County is now divided into 10 State House districts instead of six.

SENATE DISTRICTS

There are now four State Senate districts in the county instead of one, and Oakland's one congressional district was divided into two.

Each voter's choice, however, will be limited to one state representative, one state senator and one member of Congress.

The ballot will contain only the names of candidates representing the district in which the vote is cast.

The new constitution provides for a State Board of Education, which adds eight candidates to the ballot (four to be elected), and a State Court of Appeals, which adds six (three to be elected).

NEW FEATURE

Another new feature provided by the constitution is the election of township officials in November. Up until this year, township elections have always been held in the spring of odd-numbered years.

If campaign issues and the number of offices to be filled were the sole determining factors, a record turnout of voters could be expected.

The total voter registration has been reduced substantially, however, by a recent Michigan statute which calls for revision of registration lists every two years. (Continued on Page 2, Col. 3)

For Osteopath Center Need College Funds

Pontiac has definitely been selected as the site of the proposed \$400,000 Michigan Osteopathic College. The college would provide local business men can raise \$122,500 more to purchase the necessary site on Updike at Auburn.

Pontiac firms have already pledged \$252,750, but additional funds are needed before the move can become a reality.

"We are asking the community for a location, sewers and water," said Dr. Benjamin F. Dickinson, president-elect of Michigan Association of Osteopathic Physicians and Surgeons.

Then the Michigan osteopathic physicians are prepared to spend an initial \$3 million in establishment of a college in Pontiac.

When it opens, the school will carry 200 medical students and employ 1,714 people.

PREDICTS LIVESTOCK

Dr. Dickinson predicted that \$20 million would be invested here in the next eight years and the annual payroll would total between \$10-\$12 million.

Persons seeking to assist in making the college become a reality can contact Max Adams, manager of the Pontiac Area Chamber of Commerce.

LUCKY WINNER — As the winner in the Pontiac Jaycee Mystery Treat contest, Tommy Pittman, 7, of 601 De Sota Place, a Mark Twain student, receives his prize from Jaycee president Charles F. Hatter (left), while Earl Haupt, chairman of the contest, looks on. There were nine major prizes in three age groups.

Old East Germans Visiting in West

FRANKFURT, Germany (AP) — The Communists for the first time let large numbers of East Germans visit the West today for tearful reunions with relatives. The visitors are old persons who no longer work.

The first group of pensioners arrived by train in central Germany from Leipzig shortly after midnight. During the next year as many as 3.2 million of them are expected to enter West Germany in the largest East-West crossing since the Iron Curtain came down at the end of World War II.

East German Communist leader Walter Ulbricht ap-

proved "Operation Oldster" last August in an apparent bid to improve relations with the Lutheran Church, which reportedly suggested the visits. The East German press hailed the arrangement as proof of the Communist regime's "humanitarian attitude."

The pensioners, men over 65 and women over 60, had permission to remain in the West a month. The Red regime did not appear concerned over the possibility of defections, presumably because the old people are no longer a factor in East German production.

Previously, elderly East Ger-

mans were permitted to leave only if they renounced their pension payments. Now if they defect they can get West German pensions. West German officials said all who wanted it would be given asylum, but no official effort would be made to get any to defect.

Residents at Wolsburg, the first train stop in West Germany, greeted the tired but happy travelers from Leipzig. Red Cross nurses gave them refreshments.

Meanwhile, hundreds of thousands of West Berliners are going through the wall to visit relatives in the Soviet sector of divided Berlin. Nearly 100,000 with the necessary permits made the crossing Sunday.

The Communists opened the wall last Friday for the second time since it was erected in 1961. It will remain open until Nov. 12 in the first of four visiting periods during the next year.

The West Berlin government, in order not to endanger the visiting agreement, reportedly has threatened to jail persons who help refugees flee from East Germany while the wall is open. West Berlin police also were said to be under orders not to publicize any wall incidents.

SISTERS REUNITED — A West Berlin woman (left) embraces her sister in East Berlin after coming to the Soviet sector yesterday with a pass issued under a new East-West agreement. The East Berlin woman greeted her sister at the crossing point of Oberbaum Bridge.

Man Is Held in Gun Death

One Killed, One Hurt in Shooting Incident

A Pontiac man is being held at the Oakland County Jail for investigation of murder following a multiple shooting incident Saturday night at 434 S. Saginaw.

Dead is Lawrence Cleghorn, 29, of 434 S. Saginaw. O'Dell Seese, 30, of the same address, is in critical condition at Pontiac General Hospital with gunshot wounds in his left side and leg.

Police said Aaron White, 35, of 31 Edmund admitted the shooting. He said the gun went off accidentally during a struggle between the two victims and himself.

Cleghorn, Seese and two women, Jessie Gray of 143 Elm and Minnie Stuckey, 28, of 178 Carr, were drinking at Cleghorn's apartment when White came in with a gun in his hand. Miss Gray told Pontiac Police.

White wanted Miss Stuckey to go with him but she refused, she said.

HEARD SHOTS
White grabbed the Stuckey woman and the two victims attempted to aid her, Miss Gray said. She told police she heard one shot and ran out of the room. Three or four more shots were fired, she said.

Police arrested White a short time later at Carr and Mount Clemens. He had a 38-caliber revolver in a holster strapped on his side.

Senior Assistant Prosecutor Robert L. Tempin said he would decide if he would press murder charges after he had talked to Seese, who was the only witness to the actual shooting.

Birmingham Area News

League Backs Proposal to Change City Charter

BIRMINGHAM — The League of Women Voters of Birmingham-Bloomfield has placed its stamp of approval on the proposed city charter amendment providing for initiative and referendum.

The proposition received the backing of the league despite the alterations made by the City Commission in the original proposal of the group.

The proposition placed on the April ballot does not include provision for zoning changes initiated by residents.

However, the Birmingham electorate would be able to call for a referendum election on zoning changes if the amendment is adopted.

A letter stating the position of the league is included in tonight's City Commission agenda.

REASON FOR SUPPORT
In Mrs. Garvin Bowden Jr., cities the reason for the group's support of the proposition despite the exclusion of zoning in the initiative section.

"Although zoning was not an exclusion in the (league's) model city charter, our members did not feel that its exclusion from the initiative, in this instance, was of sufficient importance to deter from approving the Commission's proposal," she wrote.

Mrs. Bowden added that the group believed its position on the exclusion to be correct "particularly since the question has been raised about its legality with reference to the state's zoning laws."

Also on tonight's agenda is a hearing on the vacation of an alley long used for lawns.

The 12-foot-wide strip runs southeast-northwest in the block bounded by Ann, Landon, Purdy and George.

CONTINUATION OF ALLEY
The strip, about 430 feet long, was a continuation of an alley that extended north to Frank until the other portion was vacated recently.

City planners have recommended that the change be made and that the property revert to abutting owners.

George Talburt, planning board chairman, noted that the group did not believe the property ever would be needed as an alley.

Another vacation, this one of

Manor Park Road, also will be discussed at the 8 p.m. Commission meeting.

Commissioners will be informed of the determination Oakland County Circuit Court Judge Philip Pratt made in the case involving a portion of the road which runs south from Big Beaver through Bloomfield Township and into Birmingham.

The road will be turned over to abutting property owners following the vacation which had been requested by the city.

George W. Moody
Service for former Birmingham resident George W. Moody, 28, of Niagara Falls, N.Y., was to be 3 p.m. today at Bell Chapel of the William R. Hamilton Co. with cremation following in Evergreen Cemetery, Detroit.

Mrs. Moody was killed in an automobile accident Friday in Niagara Falls. He was a salesman for the Sanford Co., Buffalo, N.Y., and a member of the First Presbyterian Church, Birmingham.

Survivors are his mother, Mrs. Frieda Moody of Birmingham; his father, Earl Moody Sr. of Dearborn; a sister, Martha of Birmingham; and three brothers, Earl Jr. of Orchard Lake, William of Pontiac and Robert of Birmingham.

Dane Says Nikita Stricken by Disease
(Continued From Page One)

sis, a term which is medically very broad.

The most severe form of this disease is disseminated sclerosis, which damages the brain and can lead to total paralysis. Other milder forms of sclerosis reduce control over physical movements, a Danish medical authority said.

Jespersen was one among many leaders of Communist parties in Europe who went to Moscow to find out what was behind Khrushchev's ouster last year.

The first reason given in Moscow was that the Communist party central committee and the Supreme Soviet Presidium "granted" N. S. Khrushchev's request to be relieved of his duties because of his advanced age and deteriorating health."

October's Changing Moods

Dry, Cool and Pleasant

October reigned as the last gasp of summer and the first breath of winter — and it was

8 Seeking Office in Sylvan Lake

Eight candidates are vying for the four offices at stake in Tuesday's nonpartisan election in Sylvan Lake city.

Seeking two city council seats are five candidates. A four-year justice of the peace term has drawn two contestants and the candidate for constable is unopposed.

Council candidates are Fred Crossman, 2461 Renfrew; Thomas J. McHugh, 1485 Benvenue; John D. McKinlay, 2700 Littlefield; Kenneth Meredith, 1815 Maplewood; and John F. Roesper, 1565 Lakeview.

Following the election, the two successful candidates and the three present council members will meet to elect a mayor.

Mayor G. Richard Jarvis and Councilman John M. Dawson did not file for reelection.

JUSTICE OF PEACE

Seeking the justice of the peace office are incumbent Anthony Kroppe, 2028 Garland, and John C. Houston, 1466 Glenwood.

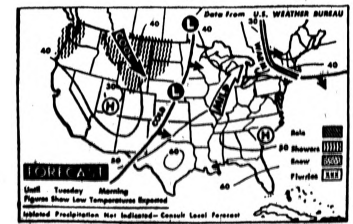

Frank Stott, 1489 Glenview, is unopposed for the two-year constable post.

The Weather

(Full U.S. Weather Report)

PONTIAC AND VICINITY — Mostly cloudy with slight chance of light showers or drizzles tonight. High 60 to 65. Partly cloudy with little change in temperature tonight. Lows 42 to 47. Increasing cloudiness and continued mild on Tuesday. High 58 to 65. Southerly winds 10 to 20 miles today shifting to westerly tonight. Outlook for Wednesday, decreasing cloudiness and turning cool.

Today in Pontiac		One Year Ago in Pontiac	
Lowest temperature preceding 8 a.m.	42	Highest temperature	44
At 8 a.m.	42	Lowest temperature	36
At 11 a.m.	42	Mean temperature	36.5

NATIONAL WEATHER — Showers are expected tonight from the Pacific Northwest through the northern and central Plains. Milder temperatures are predicted for the middle and south Atlantic states. It will be cooler from the Pacific northwest through the Plateau area and in parts of the upper Mississippi Valley.

Huge Skate Faces Voters

(Continued From Page One)

years instead of every fourth year.

The law requires removal from the registration lists the names of voters who have not been to the polls within the past two calendar years.

NOT AWARE

Elections officials say many voters are not aware their registration has been canceled, and many others who are aware of it haven't bothered to reregister.

The result will be a smaller vote total than could normally be expected, officials say.

County Election Clerk Mabel Child said there has been an unusual demand for absentee ballots. City Clerk Olga Barkley also reported an increase of about 200 over the total sent out in 1960.

A large absentee vote could delay final returns, as they are more difficult to count than machine or paper ballots.

Most voting in Oakland County will be done by machine, although there are still some "paper precincts" in outlying areas.

Hawaii Flavor in Curriculum

HONOLULU (AP) — The University of Hawaii summer sessions are popular with coeds throughout the nation. They flock there by the thousands.

Apart from Hawaii's sea and sun, they are possibly attracted by some of the courses, which include hula dancing, surfing, scuba diving and lessons on the ukulele.

They can earn credits in the hula and ukulele courses. The two water sports activities are extra-curricular.

Poisonous 'Treats' Given to Youngsters

By United Press International

Trick-or-treating youngsters in at least three states were given poisonous or harmful "treats" on Halloween.

Police of Royal Oak Township today investigated reportedly poisoned bubble gum given to children on trick-or-treat visits in the township.

At least one child suffered a mouth burn from chewing the gum, police said. Several children reportedly received the chewing gum.

Parents were warned to be cautious about any gum or candy given their children.

The gum had been deliberately tampered with, police said. An acid drain cleaner pellet had been inserted into the gum, officers said.

DEADLY HANDOUT

Police seized one dispenser of the deadly handouts — a 47-year-old Greenwald, Long Island, N.Y., mother — and sought the source of poisonous treats in the two other areas.

Mrs. Helen Pfeil, a Long Island political and charity worker who told police she was annoyed by the Halloween custom, admitted putting together potentially dangerous bags of treats for youngsters who rang her doorbell Saturday.

The packages contained ant traps, metal mesh scrubbing pads and dog biscuits.

A neighbor discovered Mrs. Pfeil's efforts to discourage the Halloween tradition when she found poison-filled bottle caps in her daughters' trick-or-treat shopping bags.

'POISON'

The bottle caps bore the inscription "Poison — Keep Away from Children," and were marked with a skull and crossbones.

By yesterday, police had recovered four more such bottle caps from the parents of other children who visited Mrs. Pfeil's home. Mrs. Pfeil, who said she

Split Tickets a Factor in State Race

(Continued From Page One)

Motors Corp. won his first two-year term.

Romey says he's running better among Negroes and factory workers this time than last.

Some of his supporters, anticipating a Johnson landslide, have flooded areas with instructions on how to split a ballot between Johnson and Romey.

Romey has not endorsed Goldwater and could be hurt in some sections by this.

THIRD CANDIDATE

A third gubernatorial candidate, Rev. Albert Cleage of the Freedom Now party, a Negro civil rights group, could poll 25,000 votes—most of them probably at Staebler's expense.

Anti-civil rights sentiment in the form of white backlash might affect the presidential and some district races, but, seemingly not the gubernatorial.

U.S. Sen. Philip Hart, a Democrat, is favored over Elly Peterson, former Republican National Committee vice chairman and the first woman ever nominated by a major Michigan party for the Senate.

FOUR ADDITIONS — Mrs. Willie Lyons of Maury City, Tenn., wears four identification tags on her wrist at hospital where she gave birth to four children yesterday. The quads were born within five minutes, and then Mrs. Lyons had a hearty breakfast.

Father of Quadruplets Is \$28-Month Minister

JACKSON, Tenn. (AP) — The day-old Lyons quadruplets "Tennessee's first on record" are hale and hearty, but their minister father is concerned about how his family of 10 will manage in a four-room house and on his \$28-a-month salary.

On the quads — Caroline, Pollie Ann, Willie Jr., and Lamar — were born in a five-minute period early Sunday to Willie Grant Lyons, 35, a scant hour and 45 minutes after she entered Madison County Hospital.

"The mother and quadruplets are doing just fine," a hospital spokesman said today. "We're really having some excitement."

Tennessee Public Health Department records dating back to

1917 list no other quadruple births. A department spokesman said Mrs. Lyons bent odds of 864,000-to-one.

SMALL HOUSE
"I'm rejoicing; you can't do anything but rejoice," said the father. "But I haven't got any money and our four-room home isn't paid for. And now we've got eight children, it isn't big enough."

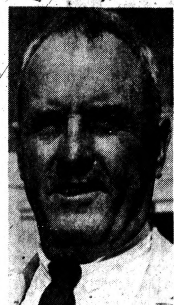

The Rev. Mr. Lyons, 45, a Negro, said he receives \$28 a month for preaching twice monthly at Mt. Zion Baptist church in neighboring Dyer County. He said he earns \$4 a day as a laborer, when he can get work, but owes a month's grocery bill and must meet \$40-a-month automobile payments.

Report Council to Issue Edicts

VATICAN CITY (AP) — The Vatican Ecumenical Council is reported ready to proclaim two major decrees before it recesses Nov. 21 even if its declarations on the Jews and on religious liberty cannot be made ready by then.

Council sources said the three weeks remaining before the session ends probably would be insufficient to complete revision and voting on the two brief declarations.

The documents which Pope Paul VI and the Roman Catholic bishops are expected to promulgate are the schema on ecumenism — Christian unity — three chapters long, and the schema on the nature of the church, which runs eight chapters.

The Jewish and religious liberty declarations have been handled as annexes to the ecumenism schema which has been voted and accepted chapter by chapter. The sources felt it unlikely that its final promulgation would be delayed until the next council session — which may not come until 1966 — for the sake of the yet unvoted declarations.

It appears that the two declarations will end up as separate documents, their importance thus perhaps heightened even if adoption is delayed. Both the declaration on the Jews and the declaration on religious liberty caused trouble when the council debated them a month ago as annexes to the ecumenism schema.

The Jewish declaration, formerly a chapter within the schema on unity, had been reworded between the 1963 and 1964 council sessions. A statement exonerating Jews from blame for the crucifixion was replaced by one saying only that Jews of today could not be linked with the events of Christ's execution.

Many bishops, including prominent American prelates, argued the council must absolve Jews from any notion of deicide.

CHANDLER

As The STRONG VOICE For The Suburbs IN LANSING

★ PAUL CHANDLER put the suburbs on the map during his first term in Lansing 1962-64, joining fights for lower telephone rates, higher per-pupil school aid, more funds for community college, better real estate assessments, easier revenue bond refunding and much else which over a period of time will save thousands and thousands of dollars for suburban taxpayers.

★ PAUL CHANDLER stoutly supported Governor Romney during this period of unprecedented Michigan recovery from a huge red ink deficit to a comfortable surplus—in less than TWO years!

★ PAUL CHANDLER is a Fighter for his Beliefs; he is Independent; he is Liberal; he is unwavering by special interests and HE IS HONEST.

★ PAUL CHANDLER publishes the outstanding Observer Newspapers in suburban Detroit. University of Michigan graduate in Political Science. 44 years old. Resides 15715 Southampton, Livonia.

ELECT PAUL CHANDLER STATE SENATE Republican

(Paid Political Advertisement)

The real issue before Michigan voters Tuesday is whether our State will be turned back to those who were importantly responsible for the mess in Michigan—or whether we'll elect to continue our record of progress with Gov. Romney & his team which revitalized Michigan

?? which do YOU want??

...MESS? or ...PROGRESS!

unemployment

All through the 1950s, Michigan's unemployment rate was consistently higher than the national average. In 1962, the average monthly unemployment rate was 6.6 percent, or about 192,000 people out of work and 18 to 20 percent in some areas.

"Farm Will Close, Hiding 1,000 Here"—Detroit Times, Jan. 14, 1958. "Old Rule in State Up 23,000... 352,000 Jobless as of Jan. 15"—Free Press, March 4, 1959. "Michigan's Fiscal Woes are Aired in U.S. Senate"—The State Journal, Feb. 23, 1959.

new jobs

Today, Michigan's unemployment rate is down to 2.9 percent and is way below the national average of 5.5 percent. And more important, 185,000 more people are working in Michigan than just 22 months ago.

"On-Idle Puts Final OK on Montclair Plant Site"—Greenville News, Aug. 17, 1964. "Gas Firm to Spend \$56 Million"—Lansing State Journal, Feb. 13, 1964. "Oppunt Co. to Expand Big Alpena Cement Mill"—Lansing State Journal, March 27, 1964. "Penn-Steel to Spend \$6.5 Million at Petoskey"—Grand Rapids Press, March 17, 1964. "25,000 GM Jobs for State: \$2 Billion Expansion Plan Set"—Free Press, March 19, 1964.

"Cadillac in Fight to Save City's Major Industry"—The State Journal, March 1, 1959. "Detroit Losses Mount"—Detroit Times, Feb. 26, 1959. "Michigan Reputation Bad," Report Declares"—Jackson Citizen-Patriot, Oct. 31, 1958.

plants move out

All through the 1950s, Michigan lost jobs. Industries left the state. Most new auto plants, and the job-producing services that go with them, were located in other states. We lost jobs, we lost payrolls, we lost tax base, we lost growth.

"Michigan is facing bankruptcy... How Michigan got into this fix is simple arithmetic. The state spent more than it took in, and kept on spending more and more. In 10 years, it has almost doubled its spending... Michigan at the moment is the horrible example."—Washington Daily News, March 18, 1959.

The fact that in all important respects Michigan is doing better than the country as a whole proves definitely that it has something big going on its own... There is no denying that there has been a great re-birth of confidence in the state since he (Gov. Romney) took over the reins in January 1963. That confidence, we firmly believe, is the bedrock on which Michigan's present prosperity is founded.—Grand Rapids Press, Oct. 16, 1964.

industry expanding

Today, Michigan industry is expanding at an unprecedented peacetime rate. So far in 1964, expansion plans already announced by business and industry total more than \$1,500,000,000—four times as much as all during 1962. And that means hundreds of thousands of new jobs in Michigan in the years ahead.

The flight of business and industry to other states has been stopped. New industries have been built and ones already located here have expanded. Business has confidence in the state administration—and business confidence means jobs and tax revenues. In addition to all this, Romney has given the people of Michigan a bonus. He has, through his own image, painted a new picture of Michigan. He has won recognition and respect as a leader and fresh personality in the nation, and Michigan has reaped the harvest.—Detroit Free Press, as printed in Grand Rapids Times, Oct. 24, 1964.

income fell behind

Between 1950 and 1961, economic improvement in Michigan did not increase as fast as the national average, or as fast as our competing industrial states. Growth in personal income—the amount of money you have in your pocket to spend—ranked Michigan 47th among the 50 states—only three states were worse.

top wages in nation

Today our economic improvement is at an all-time high. Michigan's rate of growth in personal income is No. 1 in the nation. In the last 20 months, average hours worked by production workers have increased, and average hourly earnings have risen from \$2.96 in January of 1963 to \$3.10 in July of 1964—an increase of about five percent. Average weekly earnings in the same period rose from \$124.95 a week to \$132.78 per week—the highest average weekly wage in the country.

Michigan, one of the nation's wealthiest states, is on the brink of financial collapse. Bills are going unpaid. Credit is running out. But new spending plans, already in the works, call for still higher outlays.—U.S. News & World Report, Feb. 13, 1959.

payless payday

Two years ago, Michigan had debt and deficit of \$105 million dollars. Just five years ago, we had a payless payday for state employees. We couldn't pay our school districts, and they had to borrow. Local taxes went up to cover the interest. And as we faced financial bankruptcy from political bankruptcy, we lost our reputation.

He (Gov. Romney) has exerted effective leadership in changing Michigan's status as a "payless payday" state to one with a fiscal surplus of \$57 million, with thriving industry, rising employment and with solid programs in meeting its needs in many fields.—Lansing State Journal, Oct. 28, 1964.

money in the bank

Today, we have wiped out the debt and deficit; made record increases for necessary state services in education, mental health, youth programs, and built up a surplus of \$57 million to meet future needs. We've replaced \$7 million extra in the Veterans' Trust Fund. All without new or higher taxes. Michigan now is recognized throughout the nation as an example of financial integrity.

The University of Michigan is pleased to report that your budget recommendations for 1964-65, supported by the 1964 session of the Legislature, were most significant. They made possible an important step forward in correcting the deficiencies of the past and laying the groundwork for meeting the demands of growing enrollments at the University.—Letter from Marvin L. Nishius, Vice Pres., University of Michigan.

education short-changed

Five years ago, headlines told about top professors leaving our colleges and universities for more money in other states. We lost top teaching talent. College classes were made bigger and tuitions were increased to help take care of growing student populations.

By July 1, Michigan will have a current deficit of \$110 million. It is \$15 million behind in payments to its three big universities—Michigan, Michigan State and Wayne State. It is \$27 million short on payments to Michigan public schools.—Scripps Howard Papers, Feb. 18, 1959.

20% increase for colleges

Today we are increasing faculty salaries, and increasing operating funds for our 10 state-supported colleges and universities by about 20 percent in a single year. Expenditures per pupil are up from \$940 last year to \$1050 this year in higher education. State appropriations for elementary, secondary, and community college programs were increased more than \$60,000,000 in just two years. And we have underway, from drawing board to ribbon cutting, a \$100 million building program on our campuses.

A "Welfare" State Runs Into Trouble. Michigan Government Out of Money... Living on the Cliff—U.S. News & World Report, Feb. 13, 1959.

help for patients lagged

From 1950 to 1962, state support for mental health programs went up 256 percent, well above the national average; yet our rate of cure and patient turnover was well below the national average. And in addition, we had a waiting list of 1,800 mentally retarded children, about half of whom needed local attention and the rest institutional care.

Romney does not claim all Michigan problems have been solved during the short period he has been governor. But he can point to impressive beginnings toward solutions—in education, in mental health care, and other fields. He has earned a clear mandate to continue with the job he has started.—Ann Arbor News, Oct. 28, 1964.

advances in mental health

Today, we have a model community mental health program, placing emphasis on community resources, and helping the afflicted close to home. We have put our state Mental Health Department under complete professional direction. Outpatient treatment will be offered for the retarded at every state hospital. Twelve new day care centers are being set up. And we are underway on a building program to provide more than 1100 more beds for the retarded.

Gov. Romney's prudent administration has contributed in considerable part to the bright new ascendancy of a state government that was deep in the red when he took over. And while not all of the reforms he proposed have been accepted, his program is such that in another term Michigan's citizens could look forward to continued progress.—Toledo Blade, Oct. 22, 1964.

no help for young people

Two years ago, Michigan had less than 900 beds in state facilities to take care of delinquent boys and girls, and we had no effective state program to take dangerous juveniles off the street, or to do anything to effectively help young people in trouble until their turn came to be locked up.

Already the state has locked capital funds to get operating money. Only by financial mumbo-jumbo with certain earmarked state funds has it been able to afford even the sordid luxury of hand-to-mouth living. Crisis is the norm here.—Scripps Howard Papers, Feb. 18, 1959.

services to youth

Today we have programs underway that will provide an 80 percent increase in facilities by 1965, including 10 new half-way houses, plus better counseling services and more productive programs of rehabilitation. We are pioneering new school drop-out programs and other preventative measures.

When the people lose confidence in a political administration, strange and disturbing events occur... The U.S. is well on its way into another great boom and Michigan is begging its taxpayers to pay off in advance on that it can meet payroll.—Arizona Republic, March 17, 1958.

jobless benefits low

For seven years before 1963, benefits paid to unemployed workers remained the same while the cost of living increased. For many years, our unemployment compensation law and its administration have been one-sided and biased. Two years ago, our program was inadequately financed.

Both labor and management know now their governor has the courage to do what he thinks is right, even if he makes both of them mad by doing it.—Ypsilanti Press, June 6, 1964.

strong labor gains

Today with sounder financing, the reserve fund is nearing a record figure, and higher benefits are being paid to the laid-off worker. Today we have an unemployment compensation program based on the public interest, and this benefits everybody in Michigan. Today we also have, for the first time, a minimum wage law and a construction safety program.

That's just part of the story of Michigan progress. In the last 22 months, Michigan has also made tremendous strides in:

- Human justice, by adopting a new Constitution with a model Civil Rights Commission.
- Dealing with the school dropout problem, by attacking its roots of poverty, discrimination, parental neglect, community indifference and deficiencies in educational programs for youth who don't go on to college.
- Human welfare, by higher aid to the aged, blind, disabled and the needy, while at the same time reducing costs to local governments through broader use of existing federal programs.

- Help for the elderly, by broadening our medical care for the aged program to help thousands more people who need help.
- Buildings for the Future, with a vast \$200 million construction program underway, from drawing board to ribbon cutting, on a cash-and-carry, pay-as-we-grow basis.
- Agriculture, conservation, local government, judicial reform, and in many other areas, by first assessing the problems, then taking public interest action to achieve solutions.

Forty-two groups of experts have studied and made specific recommendations to achieve even greater future progress in meeting our human needs.

Don't go back to the mess... keep Michigan On The Move!

Mr. and Mrs. James H. Angus of South Livernois Road, Avon Township, announce the engagement of their daughter Paula to Michael Chamberlain, son of the R. E. Chamberlains of Alameda, Calif. Her fiance attends Michigan Christian College. A mid-March wedding is being planned.

Girls Give Program for Music Group

Four young pianists performed at the Sunday afternoon meeting of the Chopin Music club. Alice Schurrer, Jean Ann Keeler, Diane Haskell and Donna Luenberger demonstrated "What is a Sonata?"

Jean Ann was elected president of the group. Georgia Burklow is the new secretary and Miss Haskell the treasurer. Mrs. Carl Clifford opened her home on North Telegraph Road for the meeting.

Sponge Can Be Good Clothesbrush

A cellulose sponge makes a good clothes brush. It does a fine job and, most important, can be washed clean. If you have trouble getting the soil from collars and cuffs of shirts, try applying salt soda concentrate dry, with a damp brush, before shirts are fully washed.

The Robert E. Whitlows of LaSalle Street announce the engagement of their daughter Sharon Jean to Gary Dean Walls, son of Mr. and Mrs. Vallie Walls of South Avery Road. He is a graduate of Pontiac Business Institute where he majored in accounting. Spring vows are planned.

Why Grow Old?
by JOSEPHINE LOWMAN

It is true that a lovely complexion touches even a plain-featured face with beauty, while a blemished skin is a handicap to one with classic features. Therefore, our complexion is well worth taking care of. Many factors influence the skin. There may be some organic or systemic malfunction which causes trouble. However, more often, incorrect diet, careless hygienics, vitamin deficiency, or poor care of the skin are the reasons.

If you are having skin trouble be sure to eat a well-balanced diet which includes lean meat and eggs, whole wheat and milk. Be sure to remember that fruits and fruit juices and fresh vegetables are complexion beautifiers, especially the yellow and green vegetables.

Avoid fried foods and greasy rich items. Many dermatologists feel that chocolate is a skin offender. Vitamin deficiency can cause trouble. Therefore your doctor may give you supplementary vitamins.

Wash your face with soap and water several times a day if it is at all oily. Calamine lotion can be applied over pimples at night.

SERIOUS TROUBLE
Often serious skin trouble has its origin in teen-aged years when boys and girls pick at their skin and squeeze blackheads and pimples. This may bruise the tissues and spread infection.

Anything that touches the skin should be clean. By this I mean your hands, wash clothes, brushes and towels. If you are going to try to squeeze a blackhead out, do so after washing your hands and face carefully.

Use gentle pressure and apply alcohol to the spot immediately afterwards. One of the little ejectors is best and you can sterilize it in alcohol before using it.

Only those who have skin blemishes know what heartache they can cause. If your complexion is extreme, see a skin specialist. Do this before the situation becomes really serious. If you would like to have my leaflet "Clear the Way for Beauty" which tells you about freckles, moles, blackheads, whiteheads and other blemishes, send a stamped, self-addressed envelope with your request for leaflet number 48 to Josephine Lowman in care of The Pontiac Press.

Polly's Pointers
Count Your Vitamins

By POLLY CRAMER
DEAR POLLY—To make sure I take my vitamins every day, I put seven capsules in a small plastic box every Saturday morning.

I take the first one on Sunday. Should I forget (and who doesn't?), I can check during the day.

Keep dress belts from riding up by attaching a small pin to the center front of the waistline.

Slip the tongue of the dress belt buckle through the pin before you buckle the belt.

Of course, a small crocheted loop serves the purpose better but is not always there when needed.—MAYE

DEAR POLLY—Nearly every day I find an idea in your column that makes living easier and more fun for us.

To tick that lack of storage space in our apartment, I hung ruffled curtains from the bottom of the crib to the floor much like a vanity skirt.

The curtains were slipped on a tightly fastened heavy cord. This provides storage underneath the crib and looks attractive, too.

MRS. C. R. PIGMAN

Take Trip to Capital After Vows

The Clifford Ray Pigmans (Diane Lynne Bader) left for a honeymoon in Washington, D. C. after evening vows and reception recently in Sunnyvale Chapel.

Their parents are the George E. Baders of Bender Drive and the Raymond H. Pigmans of Jerome Avenue. Motifs of Alencon lace, matching the bride's jacket, accented her gown of white satin which swept into a cathedral train. Grading her illusion veil was a pearl and lace tiara.

ROSES, GARDENIAS
During the ceremony performed by Rev. V. L. Martin, the bride held a bouquet of gardenias and white roses.

With honor maid Charlene Griffith were bridesmaids Patricia Pelletier and Gloria Roush, also Beth Pigman, flower-girl.

On the esquire side were best man James Bader, with ushers J. W. Beasley, William Pelletier and King Kiber of Big Rapids.

The bridegroom attends General Motors Institute.

The Cecil B. Tappers of Delwood Drive announce the engagement of their daughter Phyllis Anne to Douglas Ray Wilson, son of the Everett Wilsons of Fisher Road, Commerce Township.

Couple to Live in Florida

Planning to reside in Pensacola, Fla. are Seaman Appren. and Mrs. Robert Charles Billing (Fatsie Louise Hodge) who were wed Friday in the Evangel Temple.

The bride, daughter of Mr. and Mrs. Harry Hodge of Cadillac Avenue, chose street-length white satin with lace jacket and illusion veil topped with a satin pillbox. An orchid centered her bouquet of white carnations.

Mrs. Gary Noel attended her sister at the evening ceremony performed by Rev. Geoffrey Day, followed by reception in the Roosevelt Masonic Temple.

Gary LaClair was best man for the son of the Edward F. Burlings of West Brooklyn.

Found Dead
in a Culvert

A former Pontiac State Hospital mental patient who had been reported missing by her sister Wednesday was found dead in a culvert Saturday afternoon in Pontiac.

The body of Mrs. Ruba Osborne, 39, of 196 S. East was found in a concrete culvert 1400 feet east of the Cottage Street School.

She was found by Jimmy Houser, 17, of 179 Russell and two other youths, who were running dogs in a field.

Police reports indicated that the body, which was partially covered with dirt, looked as though it had been dragged into the culvert.

However, police said that at this time there is "no indication of any foul play, whatsoever."

Further tests are being made to determine cause of death.

Council Copes
With Grocery
Cart Problem

WAUKEGAN, Ill. (AP) — People who walk off with shopping carts at food centers narrowly escaped a proposed city ordinance to control these cart disasters.

The City Council instructed Corporation Counsel Murray Conzelmann to draft an ordinance aimed at fines for both grocery store owners and customers who would require a \$10 recovery fee.

Admirers agreed that something should be done to discourage the practice of leaving carts in the middle of streets and on private property.

Admirers voted down the ordinance by a 9 to 7 margin.

Civic Leader
Dies in Armada

T. F. Lathrup Served
on School Board

ARMADA TOWNSHIP — True F. Lathrup, who had served as president and secretary of the Armada School Board, died yesterday after a long illness. He was 75.

A retired farmer, Mr. Lathrup was a member of the board of trustees of Armada Congregational Church and past master of the Armada Library.

He was also a former agricultural agent for Alpena County and past president of the Armada Library Board.

Funeral service will be 2 p.m. tomorrow at Tiffany-Young Funeral Home, Armada. Grave side Masonic memorial service and burial will follow in Willow Grove Cemetery, Armada.

Surviving are his wife Edith, a son, John A. of Manhattan, Kan.; four daughters, Mrs. Glenn Field of Pleasant Hill, Calif., Mrs. Mary Dooley of East Lansing, Mrs. Dwight Robertson of Lubbock, Tex., and Mrs. Donald Stevens of El Dorado, Ark.; and 11 grandchildren.

Drain Transfer
on City Agenda

Switch to County
to Be Aired Tonight

A decision on whether to turn the Clinton River Drain Project No. 2 on the east side of Pontiac over to the Oakland County Drain Commission is expected at tonight's City Commission meeting.

The commission is meeting tonight rather than tomorrow night because of the election.

Money problems encountered in connection with the project led the City Commission to consider petitioning the drain commission to take over river work as a county project.

The city's share of the program, previously expected to come from the capital improvement fund, has jumped from an expected \$100,000 to \$235,000.

The river improvement project was to run from Union to Opdyke and precede M39 construction.

OTHER BUSINESS
In other business tonight the commission will receive an offer from the Union Building Company for purchase of urban renewal land for a UAW regional office.

The site is located on the south side of Auburn just east of Center.

Commissioners also will consider a resolution authorizing conveyance of another urban renewal parcel to developer Charles L. Langs. The land is located at Pike west of Douglas.

Another land offer submitted by the Archdiocese of Detroit for a parcel at Wide Track Drive and Whittemore will be considered.

Acquisition of the parcel is proposed for parking area for St. Vincent de Paul Church.

POSSIBLE TROUBLE
If the Communists decide to step up their support for the Viet Cong forces in South Vietnam, these officials said, there is every prospect of very serious trouble ahead.

If they choose not to increase their efforts, it was said, the United States probably will follow about the same basic policy it has in the past, that is, supporting with South Vietnam the efforts of that country's leaders to gain the upper hand in the long struggle with the Viet Cong rebels.

President Johnson met Sunday with Secretary of State Dean Rusk, Secretary of Defense Robert S. McNamara and other policy makers and experts on the Southeast Asian situation. The principal concrete action announced after the meeting was that the aircraft which were destroyed by the raid on Bien Hoa airfield near Saigon had been replaced.

NO RETALIATION
Officials virtually ruled out any immediate retaliatory action against the Reds by U.S. forces. They said this was an incident within the war in South Vietnam and not comparable

Vermont Teen
Hurt in Crash

A Vermont youth is in satisfactory condition at Pontiac General Hospital following an auto accident early Saturday evening.

Bruce N. Milton, 18, of East Barre, Vt. was injured when the car which he was driving collided with a second vehicle at the intersection of Wide Track and Jackson.

The other driver, Eino P. Alholma, 53, of 264 E. Marshall, Ferndale, was not injured in the crash.

'Diversified
Livestock
Does Better'

Michigan livestock farmers combining beef and pork raising to avoid "putting all of their eggs in one basket," have outperformed cattle and hog producing specialists during recent years.

"Returns for labor and management on beef-hog farms during the past four years have averaged somewhat better than that of specialized hog and specialized beef farms," according to W. Allan Tinsley, Michigan economist.

"They have generally been higher than one type of specialized farm while being lower than the more profitable type," Tinsley said.

For instance, 23 Michigan beef-hog farmers keeping MSU farm business records had labor incomes in 1963 which were not as high as those found on specialized hog farms, but as low as those found on beef cattle farms.

"However, 1963 was not a good year for either beef or hog farms," added the agricultural economist. "So the beef-hog diversification was also not a particularly good one."

LOWER PRICES
Lower hog and cattle prices were reflected in a minus \$909 average labor and management return in 1963 for the 23 farm operators. This was the lowest average labor income in four years, down from a \$3,750 average during 1962.

Gross income averaged \$34,862, a decline of nearly \$3,000 from 1962. Crop and hog sales were up in 1963, but cattle sales were down by an average of about \$7,000, says Tinsley.

Laurence Lenhardt, 71, former superintendent and general manager of the Detroit Water Board, died Sunday in Detroit's Grace Hospital following a stroke.

Lenhardt was city engineer of Pontiac for five years, relinquishing that post in 1925 to join the engineering staff of Detroit's Department of Public Works.

He was appointed commissioner of public works in 1932, and in 1938 became chief of the water board. He retired in 1955.

Office to Be Closed
The driver's license bureau of the Oakland County Sheriff Department will be closed tomorrow because of the general election.

THINGS TO COME — This site, now nothing more than an area dotted with circles, will become the Great Court on the University of Illinois campus in Chicago. Depressed circle at center will be an amphitheater. It's planned to be ready in February 1965.

Deaths in Pontiac, Neighboring Areas

LYNN HAYES

JACKSON — Service for Lynn Hayes, 57, formerly of Pontiac, will be held Wednesday at 3 p.m. from the Patience Montgomery Chapel, Jackson. Burial will be in the Hayes Cemetery, Jackson.

Mr. Hayes died Saturday after an illness of a few months. He was a builder and former employee of GMC Truck and Coach in Pontiac. He was a member of Christian Temple, Jackson.

Surviving are his wife, Frances; two daughters, Mrs. Virginia McGuire of Jackson, and Mrs. Irma Duering of California; and his mother, Mrs. Charles Hayes.

MRS. RAY McDONALD

Service for Mrs. Ray (Mae E. McDonald, 76, of 703 Cedar lawn, Waterford Township, will be held Wednesday Nov. 4, at 10 a.m. at St. Benedict Catholic Church, with burial in Holy Sepulchre Cemetery.

Mrs. McDonald died yesterday after a lengthy illness. She was a member of St. Benedict's Altar Society.

Surviving in addition to her husband, are two sisters in Pontiac, Mrs. Ethel Hancock and Mrs. Alfred Wagner; and four sisters in Chicago, Mrs. Clem Carroll, Mrs. Beatrice Knapp, Mrs. Genevieve Kohn, and Mrs. Madge Bledsoe.

A rosary will be said Tuesday at 8 p.m. at the Sparks-Griffin Funeral Home.

MRS. CHARLES OSBORNE

Service for Mrs. Charles (Ruba) Osborne, 39, of 196 East Boulevard South, will be at the Hutton Funeral Home at 7 o'clock this evening.

Following the service, the body will be taken to Johnson City, Tenn., for burial.

Mrs. Osborne was found dead Saturday in Pontiac.

Surviving besides her husband are two daughters, Ruby Joy and Sheila, at home; three sons, Charles Ray, and John at home, and Robert of Lapeer.

Also surviving are four sisters, Mrs. Iva E. Poore of Pontiac; Mrs. Virgil Jones of River Rouge; Mrs. Bill Goforth and Mrs. Ethel Dave of Tennessee.

Other survivors include four brothers, Ray Shaffer of Pontiac; James of California; John of Wyandotte and Roy of Tennessee.

HARRY POMFRAT

Service for Harry Pomfrat, 69, of 69 Bellevue will be at 1:30 p.m. tomorrow at the Hutton Funeral Home. Burial will be in Waterford Central Cemetery.

Mr. Pomfrat died Saturday after a long illness. A retired carpenter, he was a member of the Odd Fellows Lodge.

His wife, Marion, survives.

JACK STANLEY

Service for Jack Stanley, 74, 100 W. New York, who died Sunday after a brief illness, will be held in Mercer, Mo., Thursday. The body will be at the Sparks-Griffin Funeral Home until 9 p.m. today.

Mr. Stanley, retired, is survived by two sons, Lester R. Stanley, 2200 Rosewood, and Ralph Stanley, 3534 Franklin, both in Waterford Township; six grandchildren; and five great-grandchildren.

CONNIE SUE WILSON

Burial for Connie Sue Wilson, daughter of Mr. and Mrs. Early Wilson, 178 N. Astor, dead at birth, was Friday at the Oak Hill Cemetery.

The Wilsons have three other children at home.

MRS. HARRY WOODY

(H.) Woody, 60, of 23 Williams will be held at 1 p.m. today at the Sparks-Griffin Chapel, Chapel, with burial at Perry Mt. Park Cemetery.

Mrs. Woody died Friday after a lengthy illness. She was a telephone operator, for Birmingham National Bank.

She is survived by her husband and two brothers, Earl Graham of Romulus and Alvin Shearer of Livonia.

MRS. EDMUND A. BARKHAM

ROCHESTER — Service for former resident Mrs. Edmund (Zola A.) Barkham, 78, of Detroit will be 11 a.m. tomorrow at Harper - Mulligan Funeral Home, Detroit. Order of the Eastern Star graveside service and burial will follow in Mount Avon Cemetery.

Mrs. Barkham died Saturday after a long illness. She was a life member of Rochester Chapter, OES.

Surviving are two sons, Francis and Edmund, both of Detroit, and four grandchildren.

MRS. RICHARD A. BURGESS

COMMERCIAL TOWNSHIP — Service for Mrs. Richard A. (Janet M.) Burgess, 21, of 202 Bobolink will be 1:30 p.m. tomorrow at Donelson - Johns Funeral Home, Pontiac. Burial will be in Ottawa Park Cemetery, Pontiac.

Mrs. Burgess died unexpectedly Saturday.

Surviving besides her husband are her parents, Mr. and Mrs. Alfred D. Leonard, and two brothers, Richard L. and Warren R., all of Union Lake.

FRED P. DOYLE

ORION TOWNSHIP — Service for Fred P. Doyle, 74, of 4577 S. Lapeer will be 2 p.m. Wednesday at Allen's Funeral Home, Lake Orion. Burial will be in East Lawn Cemetery, Lake Orion.

Mr. Doyle died unexpectedly yesterday.

He was the retired owner of two Doyle's Markets, located at 210 E. Wilson and 428 Oakland. After his retirement in 1941, he became a farmer which was his occupation up until a few years ago.

Surviving are his wife, Sadie; a son, Walter L., at home; and a brother.

WILLIAM D. FLINT

NOVI TOWNSHIP — Service for William D. Flint, 91, of 2757 Novi will be 2 p.m. tomorrow at the First Baptist Church, Novi. Burial will be in Oakland Hills Memorial Gardens Cemetery, Novi.

An apple grower for 50 years, Mr. Flint died Saturday after a lengthy illness.

His body will be at Caterline Funeral Home, Northville until 1 p.m. tomorrow.

Surviving is a sister, Miss Mary B. Flint of Novi.

THEODORE W. FRANCE

WHITE LAKE TOWNSHIP — Service for Theodore W. France, 57, of 485 Sunset will be 11 a.m. tomorrow at Donelson-Johns Funeral Home, Pontiac. Burial will be in Ottawa Park Cemetery, Pontiac.

Mr. France died Friday after a long illness.

DAVID LEE MARTIN

ORION TOWNSHIP — Service for David Lee Martin, infant son of Mr. and Mrs. Robert Martin, 3600 Rohr, was held this morning at Voorhes-Siple Funeral Home with burial in Perry Mount Park Cemetery, Pontiac.

Livestock numbers have plummeted in Communist China, according to "Foreign Agricultural Trade," which records large animals down 35 per cent below the 1957 total, and hogs lower by 41 per cent. Sheep and goats were more numerous.

POWER SETUP — Workers scale steel rods which will be part of the Manicouagan Dam face. Dam being built in Quebec wilderness is scheduled to be completed in 1971.

WARM AND DRY — The Pontiac area will have warmer-than-usual temperatures and below-normal precipitation for the next 30 days, according to these maps issued by the U. S. Weather Bureau.

When fire occurs on rural age than when it occurs on city property, damage is three to six times greater on the average.

Goldwater Backers
Don't Miss a Trick'

LOS ANGELES (UPI)—Something new has been added to Halloween trick-or-treating. Kiddies in some communities in the Los Angeles area reported that their lool-filled bags Saturday night contained lollipops attached to a 2-by-4 inch card on which was printed "Lick Lyndon—Vote for Barry."

Dow Lists Promotion

MIDLAND (AP)—The Dow Chemical Co. has appointed Henry B. Weist manager of construction materials sales. Weist had been construction managing for the east coast.

Watch your vote at work tomorrow on ABC

See your vote tabulated. Follow tomorrow night's national election returns with ABC News as Howard K. Smith and Edward P. Morgan head the team that will stay on top of every election development.

Ron Cochran, Bob Young, Frank Reynolds and Roger Grimsby will report on the results of key races in four major regions.

Lightning-fast Burroughs computer equipment will provide meaningful projections of the multi-network pooled vote tally.

You will also get special analyses by ABC News Political Editor William H. Lawrence and interviews with on-the-air political consultants Senator Sam J. Ervin, Jr., Clare Boothe Luce and Arthur M. Schlesinger, Jr.

Starting at 7:25, see special half-hourly reports on state-wide and Detroit returns with Lee McNew and Bill Bonds.
