

# Honors College students present research projects

 December 6, 2018

---

## SHARE THIS STORY

Honors College graduating seniors recently presented their Honors Theses, with topics including health care, economics, linguistics, history and more. Students are required to complete a research thesis in order to graduate from OU's Honors College.

On November 29, they delivered poster presentations throughout the day, with Honors College underclassmen in attendance. Along with a poster presentation, each project required a minimum 20-page paper or equivalent, with guidance from a faculty mentor.

A full listing of Honors College thesis presentations:

- Amanda Alkhafaji: "Animal Assisted Intervention and its Benefits as an Alternative Treatment"
- Tarek Almsaddi: "American vs. Spanish Approaches to Assimilation and Integration and the Implications Regarding the Arab Patient-Physician Relationship."
- Kaley Barnhill: "Exploring Afrofuturism in the Hip Hop Group Clipping."
- Thomas B. Cremonte: "Desiccant Dehumidification Process for Energy Efficient Air Conditioning."
- Diana Ethaiya: "Minimizing the spread of New Zealand mud snails through decontaminating fishing gear: A comparison of approaches."
- Kelsey Fischer: "Literature Analysis Comparing Mother-Newborn Skin-to-Skin Contact Following Cesarean Section and Vaginal Births."

- Lindsay Gauthier: “School Counseling: How can Counselors Meet the Needs of Middle School Students.”
- Sheilah Hallman: “A Review of Physical and Behavioral Benefits of Recreation for People v Autism Spectrum Disorder.”

- Noor Haq: “A Review of Pharmacotherapies for Heroin Addiction.”
