GRADUATION RATES

Graduation rates at OU are on the rise.

The most recent data for six-year graduation rates show the 2008 cohort with a graduation rate of 45.6%, the highest in 15 years. Meanwhile, students are getting the message that we want them to graduate in 4 years. The 2010 cohort had a 4-year graduation rate of 19%, the highest rate in over 25 years.

Judging from the improved retention rates of the 2012 and 2013 cohorts, OIRA expects these rates to continue to rise.
