Provost

SUBJECT: Annual Report, University Research Committee, 1980-81

Attached is a detailed listing of awards made during 1980-81 from the Faculty Research Fund and the Alumni Association Undergraduate Research Fund.

Once again this year the Office of Research Services, with the support of the Research Committee and the Provost, produced a bibliography listing faculty and staff contributions to arts, letters, and sciences. Copies were distributed to all faculty and staff and to community colleges, colleges, and universities in the state.

Research Services prepared, and the Research Committee approved, a report to the Board of Trustees entitled Scholarship at Oakland University. The Board received the report at its April 15th meeting. As an experiment in communication, the Office of Research Services prepared, with the help of Messrs. Dahlmann and Preisinger, video tapes on the research efforts of Professor Callewaert and Roy. The Callewaert tape was shown to the Board and was very well received. Both of these tapes (on file in the Audio Visual department) are available for viewing by interested campus groups.

In the fall, the University Research Committee approved for funding a Meadow Brook Research Conference proposal submitted by Professor Richard Tucker. The conference was held May 12-15, 1981, with Professor Tucker getting a good deal of assistance from Professor J.F. Richards of Duke University. The sponsors of the conference were the University Research Committee, Meadow Brook Hall, and Interim President George T. Matthews. It is the Committee's intention to continue to offer co-sponsorship of Meadow Brook research conferences.

During the year, the Committee offered, on an experimental basis, matching grants in support of research seminars held by departments and comparable units. Since the initial competition produced several fine proposals, this effort is now included in the Committee's 1981-82 call for proposals (issued this week).

This spring, the Committee met with President J.E. Champagne. President Champagne encouraged the Committee to complete, for his information and the information of the Board, a policy statement on research at Oakland University. Mr. Christina,

who will chair the Committee for 1981-82, and Mr. Pino will prepare such a document this summer for Committee consideration in the fall.

While final figures are not in, it appears that the University Research Fund will go into the 1981-82 year with a slight deficit (approximately \$1000).

During 1980-81, the Committee consisted of the following members:

Robert Christina
James Dow
Isaac Eliezer
Esther Goudsmit (Chair)
Will Hoffman
Chris Maloney
Tom McCarthy
Lewis Pino
Keith Stanovich
David Stevens
