Resource Spotlight: Browzine

If you missed our faculty brown bag session on 'Keeping Up with the Literature' on April 20, you're in luck! While PubMed and other databases are preferred for finding articles on a specific topic, for browsing the literature in a given field, we recommend Browzine!

Browzine replicates the experience of browsing through a library's physical periodical collection. You can:

- Skim current and available back issues of journals included in the library's subscriptions
- Easily access full-text PDFs from on- and off-campus
- Personalize your Collections and Bookshelves on topics of your choice
- Download the app for [Apple](#) or [Android](#) devices, or use the [web version](#)

Student Corner

Library Hours over Memorial Day Weekend In observance of the Memorial Day holiday weekend, Kresge Library, including all Medical Library spaces, will have the following hours:

- **Saturday, May 27** - Closes at midnight
- **Sunday, May 28** - Open 7:30am - midnight
- **Monday, May 29** - CLOSED
- **Tuesday, May 30** - Opens at 7:30am and resumes 24/7 hours

Mobile Apps Fair The Medical Library is hosting our annual mobile apps fair on Thursday, June 1 from 12:00 - 1:00pm in the hallway outside of the Student Lounge! Stop by our table to download the essential clerkship apps to your mobile devices, including clinical information resources to use at the point-of-care, drug information resources, flashcards, and more! No RSVP required...just stop on by!

Faculty Corner

Faculty Brown Bag Series Our series on teaching and scholarship continues in May! Each session is held on Oakland's campus in room 478 O'Dowd Hall from 12:00 - 1:00pm. Anyone interested in the topics is welcome to attend and feel free to bring your lunch.

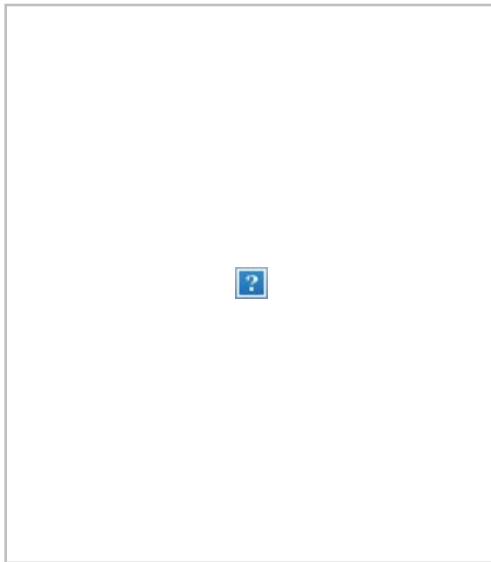

May Sessions:

- **Wednesday, May 3: Alternative Ways to Disseminate Your Scholarly Work**
This session will provide you with an opportunity to learn, explore, discuss, and share alternative ways of communicating and disseminating your scholarly works.
- **Wednesday, May 24: Online Collaborative Tools** This session will highlight two free cloud-based tools, the Dataverse Project and the Open Science Framework, that faculty can use to collaborate on the management of data sets and projects.

If you have any questions, please don't hesitate to contact us at medref@oakland.edu!

OUSB Publication Report: October - December 2016

The Medical Library is pleased to publish the [OUSB Publication List, October - December 2016](#) featuring the published work of our OUSB faculty, staff, and students! This report includes 166 citations to articles, book chapters, published meeting abstracts, and other works added to the major medical databases in the months of

October, November, and December 2016.

Highlights include:

- 63 peer-reviewed articles
- 69 abstracts
- 6 books & book chapters
- 2 MedEdPORTAL Publications
- 22 medical student citations

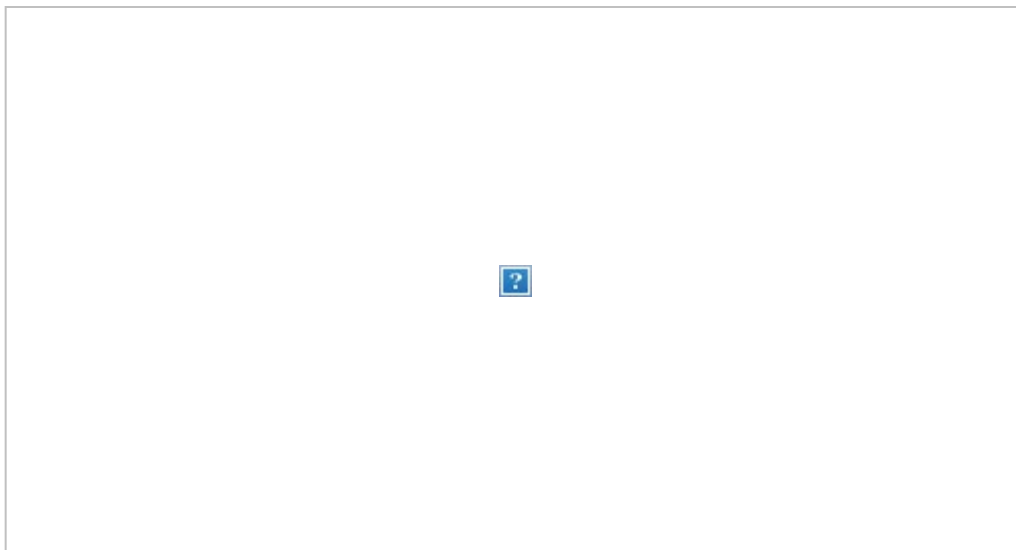

If your publication was inadvertently missed, please email the citation to us at medref@oakland.edu and it will appear in next quarter's report!

PubMed Search Tip of the Month: MyNCBI Part 2

In last month's newsletter, we covered setting up a MyNCBI account and customizing your display screen preferences, including highlighting your search terms and changing the number of citations displayed on each page. This month, we'll look at using MyNCBI help track the literature on a specific topic.

Saving Citations:

1. Run your search and then select relevant citation(s) by clicking the box above the citation number on the left side of the screen
2. Click on "Send to," located in the upper right side of the screen
3. Select "Clipboard" to save the citations temporarily (8 hours) or "Collections" to save the citations indefinitely.

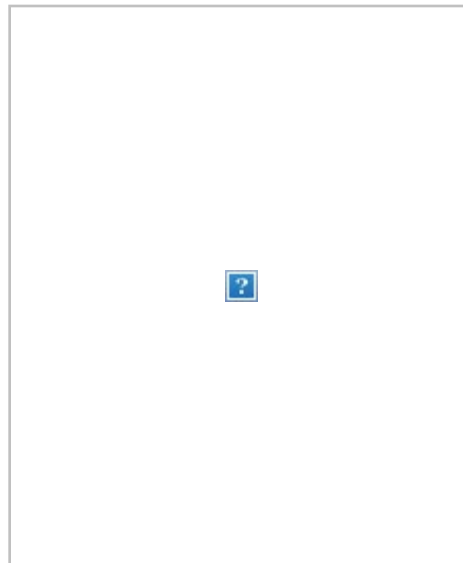

Creating a Saved Search:

Once you have developed a search strategy that is giving you good results, you can save that search to run again later and set up email alerts to be notified automatically as new articles on your topic are published.

1. Run your search in PubMed
2. Click "Create Alert" under the search box
3. A new screen will open, allowing you to rename your search and select whether you want to receive automatic email updates

You can access your collections and saved searches at any time through the "My NCBI" link in the upper right hand corner of every PubMed screen. From your MyNCBI screen, you can delete, update, share, or perform other functions on your collections and saved searches. For a detailed step-by-step guide on saving citations and searches, see our [Keeping Up with the Literature with PubMed Quick Guide](#).

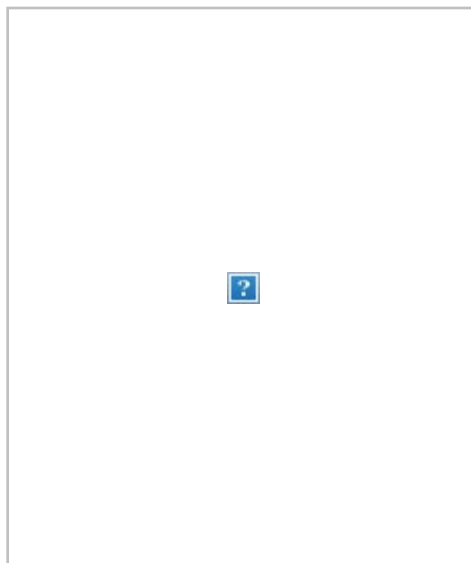

--- Nancy Bulgarelli, Medical Library Director
