Grizz Facts: A look at OU students "on track" to graduate

The proportion of first time in any college (FTIAC) students who have been on track to graduate at the start of their second year and at the start of their third year has increased significantly over the last decade.

This fall, the 2016 cohort – now juniors – set a new record high for on-track rates. The 2017 student cohort – now sophomores – saw a slight decline, though the rate they set is still the second highest on record.

**Percentage of Students On Track to Graduate
By Cohort Start Year**
