“KIKI” offers a look inside the world of a new generation of LGBTQ youth of color who practice the performance-based artform of Ballroom, following seven individuals over four years. It documents spectacular performances as well as battles with homelessness, illness, and prejudice, all while celebrating their gains in affirming diversity of gender expression.

\* KIKI is available for free for the OU community via [this link](#). It is also available to buy or rent on most platforms (YouTube, Apple TV, GooglePlay).
