ORLAND UNIVERSITY WILLIAM REARDON SCHOOL OF MEDICINE
PUBLICATION LIST BY DEPARTMENT
2018 Report

We compiled this bibliography to recognize the school's scholarly activity, including journal articles, published meeting abstracts, book chapters, books, and other works written by OUWB faculty, students, and staff. We created the list by searching the institutional affiliation fields in PubMed, Scopus, Web of Science, EMBASE, CINAHL, MedEd Portal, and SpringerNet for all citations published in the 2018 calendar year. We then downloaded citations into an EndNote database, where we enhanced and reformatted them for this report. We also updated and supplemented our report with additional citations when the Beaumont Research Institute publishes its 2018 Report of Accomplishments. Because of search limitations, the report does not represent an exhaustive list of all published works by OUWB authors. If we inadvertently missed your publications, please email the citation to the Medical Library at medlib@ouwb.edu. For any questions, please call the Medical Library at (248) 370-3772.

Service of the Month: Interlibrary Loan

by Nancy Bulgarelli, Medical Library Director

Can't find that book or journal article you need? Ever found yourself on a publisher website that asked for credit card payment before you could access an article? ***Interlibrary loan to the rescue!***

While the OUWB Medical Library and the OU Kresge Library have extensive collections, providing access to thousands of journals, books, and other media, no library – even at the largest research university – can possibly own every resource that their users might need and must rely on interlibrary loan networks for items not immediately at hand. The Interlibrary Loan Department at Kresge Library provides a wonderful service, filling the majority of article requests electronically via email within 24 hours. Requests for books take longer since they require more physical processing and transportation. Interlibrary loan is a **free** service for current students, faculty, and staff.

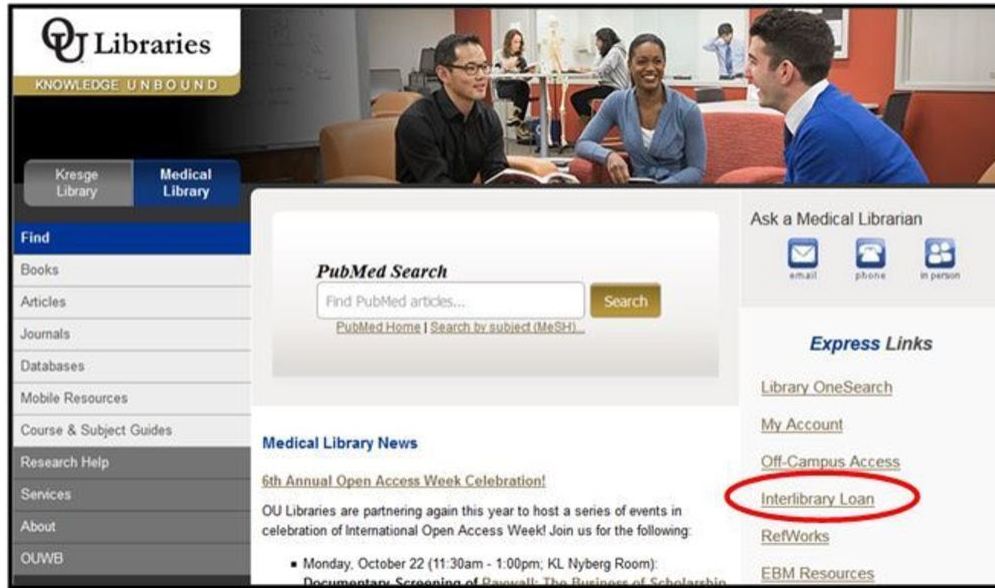

ILLiad & MeLCat

[ILLiad](#) is the online ordering system used for placing requests. First time users will need to register for an account; once that is done, simply log in with your usual OU NetID and password to place orders, retrieve scanned articles, and check on the status of your requests. ILLiad is also incorporated into the **Get It at OU Libraries** buttons you see in the major databases like PubMed, Scopus, and PsycInfo.

- NOTE: Remember to start your PubMed searches from the [link](#) or search box on the OUWB Medical Library website in order to see the “Get it” button and access the ILLiad service, especially when you are off-campus.

[MeLCat](#) – the Michigan eLibrary Catalog – is a way to request books from other participating Michigan libraries. Requested books are then delivered to the OU Kresge Library for you to pick up.

For more information, consult the [Interlibrary Loan](#) or [ILLiad FAQ](#) pages on the Kresge Library website. Or, as always, contact any of the faculty or staff of the Medical Library (medref@oakland.edu) for assistance. We are always happy to help!
