OU hosts a variety of summer camps

By **Jeff Samoray**, *OU Web Writer*

Oakland University's **summer camps** offer a variety of educational and recreational opportunities for pre-school through high-school-age boys and girls.

This year's schedule includes camps for arts, mathematics, computers, science and engineering, writing and athletics.

Some are overnight camps, where participants stay and take meals in OU's residence halls. Other camps are for full or half days.

Those creatively inclined can participate in one of two arts camps sponsored by Oakland Schools and OU's **Department of Music, Theatre and Dance**.

The **School of Business Administration** and **Department of Campus Recreation** jointly produce the **Surf 'n' Splash camp** in which children learn about computers and enjoy organized recreation.

OU's **Department of Mathematics and Statistics** produces the **Summer Mathematics Institute**, which allows bright and gifted pre-college students the opportunity to work with faculty in challenging math courses to earn college credit.

The **School of Education and Human Services** and the **Lowry Center for Early Childhood Education** offer five **Enviro-Explorer camps** to engage children in science, chemistry, math and engineering.

The **Department of Reading and Language Arts** and West Bloomfield Schools jointly produce a Writing Workshop designed for young, aspiring authors.

OU's **Athletic Department** offers **sports camps** for basketball, soccer and swimming. Coach Shoe and Company also hosts a boys and girls basketball camp at OU's **Recreation Center**.

For more information on each camp, including dates, ages, fees and contact information, see our **Summer Camps** Web page.

SUMMARY

Oakland University's summer camps offer a variety of educational and recreational opportunities for pre-school through high-school-age boys and girls.
