

## **BULLET POINTS**

- Thank you to Bart Johnson, Executive Director of the International Association of Chiefs of Police and Michael Chertoff for the invitation and for organizing this important event
- Cops and donut joke from Budapest International Law Enforcement Conference
- Cyber bill – how important it is for industry to collaborate with government to help solve our nation’s toughest challenges.
- Cloud technology for law enforcement – opportunities and challenges
- Fewer resources to accomplish more and better results, process vast amounts of data quickly and expand access to the data from smart phones to laptops to tablets.
- How do ensure the data is secure in the cloud?
- All the important data goes to one place, if we lost it the bad guys would have the mother load. How do we ensure that doesn’t happen?
- Unique nature of government data, why it’s so important to protect
- Operation Anaconda Afghanistan story
- Questions?
