WHERE THE TEACHERS TEACH

Over 40% of Oakland University graduates to date have entered the teaching profession as elementary and secondary teachers. A distribution report prepared by the Placement Office shows that nearly all of these new teachers are serving in Michigan school systems. The breakdown is Michigan 175; California 7; New York 4; Ohio 3; and Indiana, Illinois, Florida, Massachusetts,

Tennessee, New Jersey and Wisconsin 1 each.

Listed by states, by graduating class and by the towns in which they teach (in some cases the school district name is different from the town, e.g. the Lamphere District in Madison Hts.) here's where Oakland teacher education graduates now teach:

ACROSS THE CAMPUS--mid-winter 1965

The big snow February 25 and 26 closed down classes at Oakland. As Penny Barrett, student columnist for the Rochester News, told it all roads leading into classes were completely blocked. All routes leading to off-campus parties remained wide open via skis, car pushing and other means. Food service fed free the commuter students stranded on campus and food service personnel bedded down Thursday night the 25th in the Meadow Brook Room in the Oakland Center.

The weekend of February 25 and 26 was in contrast to the bare slopes the weekend of the Winter Carnival. The latter the SACC-Ski Club Committee sponsors renamed informally "The Mud Festival." Sharon Snyder, representing the Ski Club, was crowned Snow Queen. Dr. Frederick Obear, dean of freshman and assistant professor of chemistry, received the coveted title of King Wheeler-Dealer at the Casino Night which capped the weekend. Obear was top dealer for the house.

Ground has been broken for the new Wilson Hall north of North Foundation Hall. A picture and description of the building were in the recently published University Relations newsletter.

Sixty Oakland students demonstrated in front of the Federal building in Pontiac March 10 protesting police brutality in Selma, Alabama and calling upon President Johnson to intervene. Oakland Human Rights Committee organized the protest.

The silhouette of a new dormitory, the duplicate of the six story Hill House, now looms to the North-East of Hill.

Kresge Library has acquired one of the country's largest private collections of phonograph records. Formerly owned by the late Peter J. Doben of Toledo, Ohio, the collection contains 3500 LP's, 1500 78's and 500 45's. Virtually every major composer is represented.

Dean's list for the fall semester included 439 students, all with grade point averages above 3.0.
