SUGGESTION OF THE WEEK

That Jim Annesser should be a U.N. disarmament negotiator. He has done an excellent job of promoting disarmament in Fitz North second floor.

EDITORIAL

It has been suggested recently that the Detroit Tigers might stand a better chance of winning if they would play the Peanuts little league team. We feel this position is quite unfair. The tigers are not ready for that kind of a jump at present. The Peanuts team would be entirely too strong. Snoopy at second is probably the best fielder in baseball. Freeha can not hold a candle to Schroeder and the Detroit pitching staff cannot be compared with the pitching artists of Charley Brown.

To help you plan your summer reading a series of book reviews on newly published books will be presented.
